

STATE OF FLORIDA AUDITOR GENERAL

Financial and Federal Single Audit

Report No. 2024-156
March 2024

**WASHINGTON COUNTY
DISTRICT SCHOOL BOARD**

For the Fiscal Year Ended
June 30, 2023

Sherrill F. Norman, CPA
Auditor General

Board Members and Superintendent

During the 2022-23 fiscal year, Herbert J. Taylor served as Superintendent of the Washington County Schools and the following individuals served as School Board Members:

	<u>District No.</u>
Cindy Johnson Brown from 11-22-22	1
Vann Brock through 11-21-22, Vice Chair	1
Dr. Lou Cleveland, Chair from 11-22-22	2
Milton L. Brown, Vice Chair from 11-22-22, Chair through 11-21-22	3
Will "Tonka" Taylor	4
Cheryl Ann Williams from 11-22-22	5
Susan G. Roberts through 11-21-22	5

The Auditor General conducts audits of governmental entities to provide the Legislature, Florida's citizens, public entity management, and other stakeholders unbiased, timely, and relevant information for use in promoting government accountability and stewardship and improving government operations.

The team leader was Gloria Whitten and the audit was supervised by Shelly G. Curti, CPA.

Please address inquiries regarding this report to Edward A. Waller, CPA, Audit Manager, by e-mail at tedwaller@aud.state.fl.us or by telephone at (850) 412-2887.

SUMMARY

SUMMARY OF REPORT ON FINANCIAL STATEMENTS

Our audit disclosed that the basic financial statements of the Washington County District School Board (District) were presented fairly, in all material respects, in accordance with prescribed financial reporting standards.

SUMMARY OF REPORT ON INTERNAL CONTROL AND COMPLIANCE

Our audit did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses.

The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* issued by the Comptroller General of the United States.

SUMMARY OF REPORT ON FEDERAL AWARDS

We audited the District's compliance with applicable Federal awards requirements. The Child Nutrition Cluster, Title I Program, and Education Stabilization Fund were audited as major Federal programs. The results of our audit indicated that the District materially complied with the requirements that could have a direct and material effect on each of its major Federal programs.

AUDIT OBJECTIVES AND SCOPE

Our audit objectives were to obtain reasonable assurance about whether the financial statements as a whole were free from material misstatements, whether due to fraud or error, and to issue an auditor's report that included our opinions. Our audit objectives were also to obtain reasonable assurance about whether material noncompliance with applicable Federal awards requirements occurred, whether due to fraud or error, and to express an opinion on the District's compliance based on our audit. In doing so, we:

- Exercised professional judgment and maintained professional skepticism throughout the audit.
- Identified and assessed the risks of material misstatement of the financial statements and material noncompliance with Federal awards requirements, whether due to fraud or error, and designed and performed audit procedures responsive to those risks.
- Obtained an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control.
- Evaluated the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluated the overall presentation of the financial statements and accompanying Schedule of Expenditures of Federal Awards.
- Concluded whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

- Examined various transactions to determine whether they were executed, in both manner and substance, in accordance with governing provisions of laws, rules, regulations, contracts, and grant agreements.
- Determined whether corrective actions were taken for findings included in our report No. 2023-124.

AUDIT METHODOLOGY

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; applicable standards contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*.

INDEPENDENT AUDITOR'S REPORT

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Washington County District School Board, as of and for the fiscal year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, based on our audit and the report of other auditors, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Washington County District School Board, as of June 30, 2023, and the respective changes in financial position and, where applicable, cash flows thereof for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of the school internal funds, which represent 10 percent, 1 percent, 12 percent, 10 percent, and 10 percent, respectively, of the assets, liabilities, net position and fund balance, revenues, and expenses and expenditures of the aggregate remaining fund information as of June 30, 2023. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the school internal funds, is based solely on the report of the other auditors.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the **Auditor's Responsibilities for**

the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that **MANAGEMENT'S DISCUSSION AND ANALYSIS**, the **Budgetary Comparison Schedule – General and Major Special Revenue Funds**, **Schedule of Changes in the District's Total OPEB Liability and Related Ratios**, **Schedule of the District's Proportionate Share of the Net Pension Liability – Florida Retirement System Pension Plan**, **Schedule of District Contributions – Florida Retirement System Pension Plan**, **Schedule of the District's Proportionate Share of the Net Pension Liability – Health Insurance Subsidy Pension Plan**, **Schedule of District Contributions – Health Insurance Subsidy Pension Plan**, **Ten-Year Claims Development Information – Panhandle Area Educational Consortium – Risk Management Consortium Property/Casualty Program**, and **Notes to Required Supplementary Information** be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying **SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS**, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the accompanying **SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS** is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 13, 2024, on our consideration of the District's internal control over financial reporting and on our

tests of its compliance with certain provisions of laws, rules, regulations, contracts, and grant agreements and other matters included under the heading **INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Respectfully submitted,

Sherrill F. Norman, CPA
Tallahassee, Florida
March 13, 2024

MANAGEMENT'S DISCUSSION AND ANALYSIS

The management of the Washington County District School Board has prepared the following discussion and analysis to provide an overview of the District's financial activities for the fiscal year ended June 30, 2023. The information contained in the Management's Discussion and Analysis (MD&A) is intended to highlight significant transactions, events, and conditions and should be considered in conjunction with the District's financial statements and notes to financial statements found immediately following the MD&A.

FINANCIAL HIGHLIGHTS

Key financial highlights for the 2022-23 fiscal year are as follows:

- As of June 30, 2023, the assets and deferred outflows of resources exceed the liabilities and deferred inflows of resources by \$92,070,935.21.
- General revenues total \$52,503,724.62, or 77.62 percent of all revenues. Program specific revenues in the form of charges for services, operating grants and contributions, and capital grants and contributions total \$15,141,250.30, or 22.38 percent of all revenues.
- Expenses total \$68,329,308.68. Only \$15,141,250.30 of these expenses was offset by program specific revenues.
- At the end of the current fiscal year, the fund balance of the General Fund totals \$12,066,689.62, which is \$468,988.48 less than the prior fiscal year balance. The General Fund assigned and unassigned fund balances total \$4,843,145.84, or 14.43 percent of total General Fund revenues.
- The total long-term liabilities increased by \$16,061,160.71, or 61.6 percent, mainly because of an increase in the net pension liability related to the District's participation in the Florida Retirement System (FRS).

OVERVIEW OF FINANCIAL STATEMENTS

The basic financial statements consist of three components: (1) government-wide financial statements; (2) fund financial statements; and (3) notes to financial statements. This report also includes supplementary information intended to furnish additional details to support the basic financial statements.

Government-Wide Financial Statements

The government-wide financial statements provide both short-term and long-term information about the District's overall financial condition in a manner similar to those of a private-sector business. The statements include a statement of net position and a statement of activities that are designed to provide consolidated financial information about the governmental and business-type activities of the District presented on the accrual basis of accounting. The statement of net position provides information about the District's financial position, its assets, liabilities, and deferred inflows/outflows of resources, using an economic resources measurement focus. Assets plus deferred outflows of resources, less liabilities and deferred inflows of resources, equals net position, which is a measure of the District's financial health. The statement of activities presents information about the change in the District's net position, the results of operations, during the fiscal year. An increase or decrease in net position is an indication of whether the District's financial health is improving or deteriorating.

The government-wide statements present the District's activities in the following categories:

- Governmental activities – This represents most of the District's services, including its educational programs such as basic, vocational, adult, and exceptional education. Support functions such as transportation and administration are also included. Local property taxes and the State's education finance program provide most of the resources that support these activities. Additionally, all capital activities are reported as governmental activities.
- Business-type activities –These activities account for the financial resources of the Panhandle Area Educational Consortium (PAEC) – Programs Other Than Risk Management; the PAEC – Federal Education Stabilization Fund; the PAEC – Risk Management Consortium (RMC) Property/Casualty Program, a public entity risk pool; and the PAEC – RMC Health Program. The District is fiscal agent for the PAEC as discussed in Note III. To the financial statements.

Fund Financial Statements

Fund financial statements are one of the components of the basic financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements and prudent fiscal management. Certain funds are established by law while others are created by legal agreements, such as bond covenants. Fund financial statements provide more detailed information about the District's financial activities, focusing on its most significant or "major" funds rather than fund types. This is in contrast to the entitywide perspective contained in the government-wide statements. All of the District's funds may be classified within one of the broad categories discussed below.

Governmental Funds: Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in assessing a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The governmental funds balance sheet and statement of revenues, expenditures, and changes in fund balances provide detailed information about the District's most significant funds. The District's major funds are the General Fund and Special Revenue – Federal Education Stabilization Fund. Data from the other governmental funds are combined into a single, aggregated presentation.

The District adopts an annual appropriated budget for its governmental funds. A budgetary comparison schedule has been provided for the General and major Special Revenue Funds to demonstrate compliance with the budget.

Proprietary Funds: Proprietary funds may be established to account for activities in which a fee is charged for services. Two types of proprietary funds are maintained:

- Enterprise funds are used to report the same functions as business-type activities in the government-wide financial statements. Enterprise funds are appropriate for activities in which a fee is charged to external users of the District's goods and services. The District's enterprise funds are discussed in Note I.D.
- An internal service fund is used to report activities that provide goods and services to support the District's other programs and functions through user charges. The District uses the internal service fund to account for the District's Health Self-Insurance Program. Since these services predominantly benefit governmental rather than business-type functions, the internal service fund has been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail, for those enterprise funds determined to be major. The District's major enterprise funds are the PAEC – Risk Management Property/Casualty Fund, PAEC – Risk Management Health Fund, PAEC – Programs Other Than Risk Management Fund, and the PAEC – Federal Education Stabilization Fund. In addition, the internal service fund is combined into a single column in the proprietary fund financial statements.

Notes to Financial Statements

The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information concerning the District's obligation to provide other postemployment benefits (OPEB) to its employees, the District's net pension liabilities, and 10-year claims information of the PAEC – RMC Property/Casualty Program.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position over time may serve as a useful indicator of a government's financial health. The following is a summary of the District's net position as of June 30, 2023, compared to net position as of June 30, 2022:

Net Position, End of Year

	Governmental Activities		Business-Type Activities		Total	
	6-30-23	6-30-22	6-30-23	6-30-22	6-30-23	6-30-22
Current and Other Assets	\$ 22,946,024.30	\$ 23,343,706.05	\$ 31,563,328.03	\$ 29,850,847.29	\$ 54,509,352.33	\$ 53,194,553.34
Capital Assets	81,105,588.08	81,211,782.81	1,218,381.88	1,794,175.19	82,323,969.96	83,005,958.00
Total Assets	104,051,612.38	104,555,488.86	32,781,709.91	31,645,022.48	136,833,322.29	136,200,511.34
Deferred Outflows of Resources	9,101,504.00	8,088,393.00	1,791,530.00	1,298,574.00	10,893,034.00	9,386,967.00
Long-Term Liabilities	30,248,210.87	17,279,393.75	11,888,294.67	8,795,951.08	42,136,505.54	26,075,344.83
Other Liabilities	2,503,834.09	2,444,316.33	7,440,727.45	6,706,662.21	9,944,561.54	9,150,978.54
Total Liabilities	32,752,044.96	19,723,710.08	19,329,022.12	15,502,613.29	52,081,067.08	35,226,323.37
Deferred Inflows of Resources	3,221,054.00	15,359,598.00	353,300.00	2,246,288.00	3,574,354.00	17,605,886.00
Net Position:						
Net Investment in Capital Assets	81,073,753.66	81,093,320.09	1,218,381.88	1,794,175.19	82,292,135.54	82,887,495.28
Restricted	10,959,880.63	9,287,709.08	-	-	10,959,880.63	9,287,709.08
Unrestricted (Deficit)	(14,853,616.87)	(12,820,455.39)	13,672,535.91	13,400,520.00	(1,181,080.96)	580,064.61
Total Net Position	\$ 77,180,017.42	\$ 77,560,573.78	\$ 14,890,917.79	\$ 15,194,695.19	\$ 92,070,935.21	\$ 92,755,268.97

The largest portion of the District's net position is investment in capital assets (e.g., land; buildings; furniture, fixtures, and equipment), less any related debt still outstanding. The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending. Although the investment in capital assets is reported net of related debt, the resources used to repay the debt must be provided from other sources, since the capital assets cannot be used to liquidate these liabilities. The net investment in capital assets decreased \$595,359.74 mainly due to the sale of land.

The restricted portion of the District's net position represents resources that are subject to external restrictions on how they may be used.

The District's unrestricted net position decreased \$1,761,145.57 as compared to June 30, 2022. The decrease was primarily due to an increase in long-term liabilities, offset partially by the decrease in deferred inflows of resources related to pensions.

The key elements of the changes in the District's net position for the fiscal years ended June 30, 2023, and June 30, 2022, are as follows:

Operating Results for the Fiscal Year Ended

	Governmental		Business-Type		Total	
	Activities		Activities			
	6-30-23	6-30-22	6-30-23	6-30-22	6-30-23	6-30-22
Program Revenues:						
Charges for Services	\$ 1,009,380.15	\$ 894,759.28	\$ 11,294,035.60	\$ 10,000,240.01	\$ 12,303,415.75	\$ 10,894,999.29
Operating Grants and Contributions	2,335,181.11	1,798,918.89	389,465.66	402,144.65	2,724,646.77	2,201,063.54

The largest revenue source of the governmental activities is the State of Florida (53.92 percent). Revenues from State sources for current operations are primarily received through the Florida Education Finance Program (FEFP) funding formula. The FEFP funding formula utilizes student enrollment data and is designed to maintain equity in funding across all Florida school districts, taking into consideration the District's funding ability based on the local property tax base.

Charges for services increased by \$1,408,416.46, or 12.93 percent, primarily due to an increase in premiums charged for the PAEC – Risk Management Property/Casualty program related to an increase in excess insurance premium expense.

Unrestricted investment earnings increased by \$1,446,149.65, primarily due to an increase in interest rates.

Instruction expenses represent 47.14 percent of total governmental expenses in the 2022-23 fiscal year. Instruction expenses increased by \$2,643,061.99, or 12.77 percent, over the previous fiscal year primarily due to an increase in pension expense.

PAEC – Risk Management Property/Casualty expenses increased by \$3,022,407.27, or 42.07 percent, due to an increase in both insurance claims expense and excess insurance premiums expense.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

Governmental Funds

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. Specifically, unassigned fund balance may serve as a useful measure of a government's net resources available for discretionary use as it represents the portion of fund balance that has not been limited to a particular purpose by an external party, the District, or a group or individual delegated authority by the Board to assign resources for particular purposes.

The total fund balances of governmental funds increased by \$1,153,733 during the fiscal year to \$17,907,253.53 at June 30, 2023. Of the total fund balance, \$3,951,794.96, or 22.07 percent, is unassigned fund balance, which is available for spending at the District's discretion; \$10,934,366.02 is restricted; \$2,129,741.67 is committed; and \$891,350.88 is assigned.

Major Governmental Funds

The General Fund is the District's chief operating fund. At the end of the current fiscal year, unassigned fund balance is \$3,951,794.96, while the total fund balance is \$12,066,689.62. As a measure of the General Fund's liquidity, it may be useful to compare the total assigned and unassigned fund balances to General Fund total revenues. The total assigned and unassigned fund balance is 14.43 percent of the total General Fund revenues, while total fund balance represents 35.95 percent of total General Fund revenues.

Total fund balance of the General Fund decreased by \$468,988.48 during the fiscal year. Key factors impacting the change in fund balance is an increase in expenditures for employee wages and benefits.

The Special Revenue – Federal Education Stabilization Fund has a zero fund balance at the end of the current fiscal year. The District uses this fund to account for certain Federal grant program resources related to the Coronavirus Aid, Relief and Economic Security (CARES) Act, the Coronavirus Response and Relief Supplemental Appropriations (CRRSA) Act, and the American Rescue Plan (ARP) Act. Since Federal revenue is recognized to the extent that eligible expenditures have been incurred, this fund generally does not accumulate a fund balance. Revenues and expenditures of the Special Revenue – Federal Education Stabilization Fund total \$4,214,486.01 each.

The following chart indicates the source of revenues for the District's governmental activities for the 2022-23 fiscal year.

Proprietary Funds

The net position of the PAEC – Risk Management Property/Casualty Fund totaled \$12,216,070.72 at June 30, 2023, a decrease of \$950,630.48 from the previous fiscal year. This decrease was mostly due to an increase in insurance claims expense.

The net position of the PAEC – Risk Management Health Fund totaled \$134,636.26 at June 30, 2023, an increase of \$26,829.61 over the previous fiscal year. The increase is due to a decrease in salaries.

The net position of the PAEC – Programs Other Than Risk Management Fund totaled \$2,528,180.48 at June 30, 2023, an increase of \$617,660.56 over the previous fiscal year. The increase is due to a decrease in operating expenses.

The net position of the PAEC – Federal Education Stabilization Fund totaled \$12,030.33 at June 30, 2023, an increase of \$2,362.91 over the previous year. This increase is due to the purchase of capital assets which are not expensed in the year of purchase but are depreciated over the life of the asset.

GENERAL FUND BUDGETARY HIGHLIGHTS

During the 2022-23 fiscal year, the District amended its General Fund budget several times, which resulted in an increase in total budgeted revenues amounting to \$1,255,773.02, and an increase in final appropriations of \$1,974,611.97 from original budgeted amounts. The positive final budget variances include amounts budgeted for instruction, compensated absences, school roll-forward, contract schools, grants, and construction and maintenance projects, which were in excess of the actual expenditures. Actual expenditures were less than the final budget by \$4,830,463.13 primarily because the District budgeted for the expenditure of various carryover funds that did not materialize in the current fiscal year.

CAPITAL ASSETS AND LONG-TERM DEBT

Capital Assets

The District’s investment in capital assets for its governmental activities and business-type activities as of June 30, 2023, is \$82,323,969.96 (net of accumulated depreciation). This investment in capital assets includes land; land improvements, construction in progress; improvements other than buildings; buildings

and fixed equipment; furniture, fixtures, and equipment; motor vehicles; and audio visual materials and computer software.

Additional information on the District’s capital assets can be found in Notes I.F.4. and II.C. to the financial statements.

OTHER MATTERS OF SIGNIFICANCE

State revenues comprise 78.63 percent of total General Fund revenues and are primarily from the Florida Education Finance Program (FEFP) administered by the Florida Department of Education (FDOE) under the provisions of Section 1011.62, Florida Statutes. In accordance with this Statute, the District determines and reports the number of full-time equivalent (FTE) students and related data to the FDOE. FEFP funding is determined based on these counts of FTE students.

The following chart reflects the trend of unweighted FTE counts for the last 5 fiscal years. The 2022-23 fiscal year count is down 157 from the 2018-19 fiscal year count.

REQUESTS FOR INFORMATION

This report is designed to provide a general overview of the District’s finances for all those with an interest in the District’s finances. Questions concerning information provided in the MD&A or other required supplementary information, and financial statements and notes thereto, or requests for additional financial information should be addressed to the Director of Finance, Washington County District School Board, 652 Third Street, Chipley, Florida 32428.

The accompanying notes to financial statements are an integral part of this statement.

**Washington County District School Board
Reconciliation of the Governmental Funds Balance Sheet
to the Statement of Net Position
June 30, 2023**

Total Fund Balances - Governmental Funds \$ 17,907,253.53

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets, net of accumulated depreciation, used in governmental activities are not financial resources and, therefore, are not reported as assets in the governmental funds. 81,105,588.08

Internal service funds are used by management to charge the costs of certain activities, such as insurance, to individual funds. The assets and liabilities of the internal service fund are included in governmental activities in the statement of net position. 2,534,936.68

The deferred outflows of resources and deferred inflows of resources related to pensions and other postemployment benefits (OPEB) are applicable to future periods and, therefore, are not reported in the governmental funds.

Deferred Outflows Related to Pensions	\$	8,139,391.00	
Deferred Outflows Related to OPEB		962,113.00	
Deferred Inflows Related to Pensions		(2,000,495.00)	
Deferred Inflows Related to OPEB		<u>(1,220,559.00)</u>	5,880,450.00

Long-term liabilities are not due and payable in the fiscal year and, therefore, are not reported as liabilities in the governmental funds. Long-term liabilities at year end consist of:

Compensated Absences Payable	\$	(3,260,106.87)	
Net Pension Liability		(23,575,944.00)	
Total OPEB Liability		<u>(3,412,160.00)</u>	<u>(30,248,210.87)</u>

Net Position - Governmental Activities \$ 77,180,017.42

The accompanying notes to financial statements are an integral part of this statement.

**Washington County District School Board
Reconciliation of the Governmental Funds Statement of Revenues, Expenditures,
and Changes in Fund Balances to the Statement of Activities
For the Fiscal Year Ended June 30, 2023**

Net Change in Fund Balances - Governmental Funds \$ 1,153,733.00

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays are reported in the governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount of depreciation expense in excess of capital outlays in the current fiscal year. (94,291.78)

The loss on the disposal of capital assets during the current fiscal year is reported in the statement of activities. In the governmental funds, the cost of these assets was recognized as an expenditure in the fiscal year purchased. Thus, the change in net position differs from the change in fund balance by the undepreciated cost of the disposed assets. (11,902.95)

In the statement of activities, the cost of compensated absences is measured by the amounts earned during the year, while in the governmental funds, expenditures are recognized based on the amounts actually paid for compensated absences. This is the net amount of compensated absences used in excess of the amount earned in the current fiscal year. 133,079.88

Governmental funds report District OPEB contributions as expenditures. However, in the statement of activities, the cost of OPEB benefits earned net of employee contributions, as determined through an actuarial valuation, is reported as an OPEB expense.

Decrease in Total OPEB Liability	\$	26,858.00	
Increase in Deferred Outflows of Resources - OPEB		257,637.00	
Increase in Deferred Inflows of Resources - OPEB		<u>(194,995.00)</u>	89,500.00

Governmental funds report District pension contributions as expenditures. However, in the statement of activities, the cost of pension benefits earned net of employee contributions is reported as a pension expense.

FRS Pension Contribution	\$	2,224,892.00	
HIS Pension Contribution		362,236.00	
FRS Pension Expense		(2,441,498.00)	
HIS Pension Expense		<u>(185,372.00)</u>	(39,742.00)

Internal service funds are used by management to charge the cost of certain activities, such as insurance, to individual funds. The net expense of the internal service fund is reported with governmental activities. (1,610,932.51)

Change in Net Position - Governmental Activities \$ (380,556.36)

NOTES TO FINANCIAL STATEMENTS

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Description of Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the Washington County School District (District). All fiduciary activities are reported only in the fund financial statements. Governmental activities, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from business-type activities, which rely to a significant extent on fees charged to external customers for support.

The statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities. and for each segment of the business-type activities. Direct expenses are those that are specifically associated with a service, program, or department and are thereby clearly identifiable to a particular function. Depreciation expense associated with the District's transportation department is allocated to the student transportation services function, while remaining depreciation expense is not readily associated with a particular function and is reported as unallocated.

B. Reporting Entity

The Washington County District School Board (Board) has direct responsibility for operation, control, and supervision of District schools and is considered a primary government for financial reporting. The District is considered part of the Florida system of public education, operates under the general direction of the Florida Department of Education (FDOE), and is governed by State law and State Board of Education (SBE) rules. The governing body of the District is the Board, which is composed of five elected members. The elected Superintendent of Schools is the executive officer of the Board. Geographic boundaries of the District correspond with those of Washington County.

Criteria for determining if other entities are potential component units that should be reported within the District's basic financial statements are identified and described in the Governmental Accounting Standards Board's (GASB) *Codification of Governmental Accounting and Financial Reporting Standards*, Sections 2100 and 2600. The application of these criteria provides for identification of any legally separate entities for which the Board is financially accountable and other organizations for which the nature and significance of their relationship with the Board are such that exclusion would cause the District's basic financial statements to be misleading. Based on these criteria, no component units are included within the District's reporting entity.

C. Basis of Presentation: Government-Wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds, while business-type activities incorporate data from the government's enterprise funds. Separate financial statements are provided for governmental funds and proprietary funds.

The effects of interfund activity have been eliminated from the government-wide financial statements except for interfund services provided and used and net residual amounts between governmental and business-type activities.

D. Basis of Presentation: Fund Financial Statements

The fund financial statements provide information about the District's funds. Separate statements for each fund category – governmental and proprietary – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds.

The District reports the following major governmental funds:

- General Fund – to account for all financial resources not required to be accounted for in another fund and for certain revenues from the State that are legally restricted to be expended for specific current operating purposes.
- Special Revenue – Federal Education Stabilization Fund – to account for certain Federal grant program resources provided as emergency relief to address the impact of COVID-19 on elementary and secondary schools.

The District reports the following major enterprise funds:

- Panhandle Area Educational Consortium (PAEC) – Risk Management Property/Casualty Fund – to account for the financial resources of the property/casualty public entity risk pool for which the District is fiscal agent.
- PAEC – Risk Management Health Fund - to account for the operating activities of the administration of the group health consortium for which the District is fiscal agent.
- PAEC – Programs Other Than Risk Management Fund – to account for the financing of the PAEC for which the District is fiscal agent.
- PAEC – Federal Education Stabilization Fund – to account for certain Federal grant program resources provided in response to the COVID-19 and received by the PAEC.

Additionally, the District reports the following proprietary fund type:

- Internal Service Fund – to account for the District's employee health self-insurance program.

During the course of operations, the District has activity between funds for various purposes. Any residual balances outstanding at fiscal year end are reported as due from/to other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column. Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements, these amounts are reported at gross amounts as transfers in and out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental

activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

E. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized in the year for which they are levied. Revenues from grants, entitlements, and donations are recognized as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues, except for certain grant revenues, are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal year. When grant terms provide that the expenditure of resources is the prime factor for determining eligibility for Federal, State, and other grant resources, revenue is recognized at the time the expenditure is made. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year end). Property taxes, sales taxes, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Expenditures are generally recognized when the related fund liability is incurred, as under accrual accounting. However, debt service expenditures, claims and judgments, pension benefits, other postemployment benefits, and compensated absences, are only recorded when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under leases are reported as other financing sources. Allocations of cost, such as depreciation, are not recognized in governmental funds.

The proprietary funds are reported using the economic resources measurement focus and the accrual basis of accounting.

F. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance

1. Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term liquid investments with original maturities of 3 months or less from the date of

acquisition. Investments classified as cash equivalents include amounts placed with the State Board of Administration (SBA) in Florida PRIME.

Cash deposits are held by banks qualified as public depositories under Florida law. All deposits are insured by Federal depository insurance, up to specified limits, or collateralized with securities held in Florida's multiple financial institution collateral pool as required by Chapter 280, Florida Statutes.

2. Investments

Investments consist of amounts placed with the SBA for participation in the Florida PRIME investment pool created by Section 218.405, Florida Statutes. The investment pool operates under investment guidelines established by Section 215.47, Florida Statutes.

The District's investment in Florida PRIME, which the SBA indicates is a Securities and Exchange Commission Rule 2a7-like external investment pool, are similar to money market funds in which shares are owned in the fund rather than the underlying investments. This investment is reported at fair value, which is amortized cost.

Types and amounts of investments held at fiscal year end are described in a subsequent note.

3. Inventories

Inventories consist of textbooks and are valued at the lower of cost determined on first-in, first-out method, or net realizable value.

4. Capital Assets

Expenditures for capital assets acquired or constructed for general District purposes are reported in the governmental fund that financed the acquisition or construction. The capital assets so acquired are reported at cost in the government-wide statement of net position but are not reported in the governmental fund financial statements. Capital assets are defined by the District as those costing more than \$500. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated assets are recorded at acquisition value at the date of donation. Generally, buildings acquired or constructed prior to July 1, 1989, and improvements other than building acquired prior to August 19, 1988, are stated at estimated historical cost using price levels at the time of acquisition and, as a result, \$6,301,643.98 of the stated buildings value, and \$127,583.18 of the stated improvement other than buildings value, are based on these estimates.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Description</u>	<u>Estimated Useful Lives</u>
Improvements Other Than Buildings	10 - 35 years
Buildings and Fixed Equipment	10 - 50 years
Furniture, Fixtures, and Equipment	3 - 15 years
Motor Vehicles	5 - 10 years
Audio Visual Materials and Computer Software	3 - 5 years

Current year information relative to changes in capital assets is described in a subsequent note.

5. Pensions

In the government-wide statement of net position, liabilities are recognized for the District's proportionate share of each pension plan's net pension liability. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Florida Retirement System (FRS) defined benefit plan and the Health Insurance Subsidy (HIS) defined benefit plan and additions to/deductions from the FRS and the HIS fiduciary net position have been determined on the same basis as they are reported by the FRS and the HIS plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

The District's retirement plans and related amounts are described in a subsequent note.

6. Long-Term Liabilities

Long-term obligations that will be financed from resources to be received in the future by governmental funds are reported as liabilities in the government-wide statement of net position.

In the governmental fund financial statements, bonds and other long-term obligations are not recognized as liabilities until due.

Changes in long-term liabilities for the current year are reported in a subsequent note.

7. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position and the statement of net position – proprietary funds report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net assets that applies to future periods and so will not be recognized as an outflow of resources (expense) until then. The District has two items that qualify for reporting in this category. The deferred outflows of resources related to pensions and OPEB are discussed in subsequent notes.

In addition to liabilities, the statement of net position and the statement of net position – proprietary funds report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net assets that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. The District has two items that qualify for reporting in this category. The deferred inflows of resources related to pensions and OPEB are discussed in subsequent notes.

8. Net Position Flow Assumption

The District occasionally funds outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. To calculate the amounts to report as restricted net position and unrestricted net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. Consequently, it is the District's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

9. Fund Balance Flow Assumptions

The District may fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). To calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

10. Fund Balance Policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The District itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the District's highest level of decision-making authority. The Board is the highest level of decision-making authority for the District that can, by adoption of a resolution prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the resolution remains in place until a similar action is taken (the adoption of another resolution) to remove or revise the limitation. The Board approved the commitment of a portion of the General Fund fund balance to be used specifically for the payment of compensated absences.

Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as committed. The Board has by resolution authorized the Director of Finance to assign fund balance. The Board may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment. The District reported assigned fund balances for cost center and project carryovers.

G. Revenues and Expenditures/Expenses

1. Program Revenues

Amounts reported as program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than program revenues. Revenues that are not classified as program revenues are

presented as general revenues. The comparison of direct expenses with program revenues identifies the extent to which each governmental function or business segment is self-financing or draws from the general revenues of the District.

2. State Revenue Sources

Significant revenues from State sources for current operations include the Florida Education Finance Program administered by the FDOE under the provisions of Section 1011.62, Florida Statutes. In accordance with this law, the District determines and reports the number of full-time equivalent (FTE) students and related data to the FDOE. The FDOE performs certain edit checks on the reported number of FTE and related data and calculates the allocation of funds to the District. The District is permitted to amend its original reporting during specified time periods following the date of the original reporting. The FDOE may also adjust subsequent fiscal period allocations based upon an audit of the District's compliance in determining and reporting FTE and related data. Normally, such adjustments are treated as reductions or additions of revenue in the fiscal year when the adjustments are made.

The State provides financial assistance to administer certain educational programs. SBE rules require that revenue earmarked for certain programs be expended only for the program for which the money is provided, and require that the money not expended as of the close of the fiscal year be carried forward into the following fiscal year to be expended for the same educational programs. The FDOE generally requires that these educational program revenues be accounted for in the General Fund. A portion of the fund balance of the General Fund is restricted in the governmental fund financial statements for the balance of categorical and earmarked educational program resources.

The District received an allocation from the State under the School Hardening Grant program. The District is authorized to expend these funds only upon applying for and receiving an encumbrance authorization from the FDOE.

A schedule of revenue from State sources for the current year is presented in a subsequent note.

3. District Property Taxes

The Board is authorized by State law to levy property taxes for district school operations, capital improvements, and debt service.

Property taxes consist of ad valorem taxes on real and personal property within the District. Property values are determined by the Washington County Property Appraiser, and property taxes are collected by the Washington County Tax Collector.

The Board adopted the 2022 tax levy on September 12, 2022. Tax bills are mailed in October and taxes are payable between November 1 of the year assessed and March 31 of the following year at discounts of up to 4 percent for early payment.

Taxes become a lien on the property on January 1 and are delinquent on April 1 of the year following the year of assessment. State law provides for enforcement of collection of personal property taxes by seizure of the property to satisfy unpaid taxes and for enforcement of collection

of real property taxes by the sale of interest-bearing tax certificates to satisfy unpaid taxes. The procedures result in the collection of essentially all taxes prior to June 30 of the year following the year of assessment.

Property tax revenues are recognized in the government-wide financial statements when the Board adopts the tax levy. Property tax revenues are recognized in the governmental fund financial statements when taxes are received by the District, except that revenue is accrued for taxes collected by the Washington County Tax Collector at fiscal year end but not yet remitted to the District.

Millages and taxes levied for the current year are presented in a subsequent note.

4. Capital Outlay Surtax

In August 2018, the voters of Washington County (County) approved a one-half cent school capital outlay surtax on sales in the County for 10 years, effective January 1, 2019, to pay construction costs of certain school facilities and related costs in accordance with Section 212.055(6), Florida Statutes.

5. Federal Revenue Sources

The District receives Federal awards for the enhancement of various educational programs. Federal awards are generally received based on applications submitted to, and approved by, various granting agencies. For Federal awards in which a claim to these grant proceeds is based on incurring eligible expenditures, revenue is recognized to the extent that eligible expenditures have been incurred. The FDOE may require adjustments to subsequent fiscal period expenditures and related revenues based upon an audit of the District's compliance with applicable Federal awards requirements. Normally, such adjustments are treated as reductions of expenditures and related revenues in the fiscal year when the adjustments are made.

6. Compensated Absences

In the government-wide financial statements, compensated absences (i.e., paid absences for employee vacation leave and sick leave) are accrued as liabilities to the extent that it is probable that the benefits will result in termination payments. A liability for these amounts is reported in the governmental fund financial statements only if it has matured, such as for occurrences of employee resignations and retirements. The liability for compensated absences includes salary-related benefits, where applicable.

7. Proprietary Funds Operating and Nonoperating Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary funds' principal ongoing operations. The principal operating revenues and expenses of the PAEC – Risk Management Property/Casualty Fund are premium revenues and expenses which include insurance claims, excess insurance premiums, and service agent fees. The principal operating revenues and expenses of the PAEC – Risk Management Health Fund are participating district assessments. The operating expenses include salaries and benefits in connection with the administration of the group health

consortium. The principal operating revenues of the PAEC – Programs Other Than Risk Management Fund result from providing services and producing and delivering goods in connection with the proprietary fund's ongoing operations and participating district fees. Operating expenses of the PAEC – Federal Education Stabilization Fund are primarily for salaries and benefits. The primary operating revenues of the District's internal service fund are charges for employee health insurance premiums. Operating expenses include insurance claims and excess insurance premiums. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

II. DETAILED NOTES ON ALL ACTIVITIES AND FUNDS

A. Cash Deposits with Financial Institutions

Custodial Credit Risk. In the case of deposits, this is the risk that, in the event of the failure of a depository financial institution, the District will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The District does not have a policy for custodial credit risk. All bank balances of the District are fully insured or collateralized as required by Chapter 280, Florida Statutes.

B. Investments

The District's investments at June 30, 2023, are reported as follows:

<u>Investments</u>	<u>Maturities</u>	<u>Fair Value</u>
SBA: Florida PRIME (1)	37 Days	<u>\$ 44,311,670.98</u>

(1) This investment is reported as a cash equivalent for financial statement reporting purposes.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses from increasing interest rates.

For Florida PRIME, with regard to redemption gates, Section 218.409(8)(a), Florida Statutes, states, "The principal, and any part thereof, of each account constituting the trust fund is subject to payment at any time from the moneys in the trust fund. However, the executive director may, in good faith, on the occurrence of an event that has a material impact on liquidity or operations of the trust fund, for 48 hours limit contributions to or withdrawals from the trust fund to ensure that the board [State Board of Administration] can invest moneys entrusted to it in exercising its fiduciary responsibility. Such action must be immediately disclosed to all participants, the trustees, the Joint Legislative Auditing Committee, and the Investment Advisory Council. The trustees shall convene an emergency meeting as soon as practicable from the time the executive director has instituted such measures and review the necessity of those measures. If the trustees are unable to convene an emergency meeting before the expiration of the 48-hour moratorium on contributions and withdrawals, the moratorium may be extended by the executive director until the trustees are able to meet to review the necessity for the moratorium. If the trustees agree with such measures, the trustees shall vote to continue the measures for up to an additional 15 days. The trustees must convene and vote to continue any such

measures before the expiration of the time limit set, but in no case may the time limit set by the trustees exceed 15 days.” As of June 30, 2023, there were no redemption fees, maximum transaction amounts, or any other requirements that serve to limit a participant’s daily access to 100 percent of their account value.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Section 218.415(17), Florida Statutes, limits investments to the Local Government Surplus Funds Trust Fund [Florida PRIME], or any intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperation Act as provided in Section 163.01, Florida Statutes; Securities and Exchange Commission registered money market funds with the highest credit quality rating from a nationally recognized rating agency; interest-bearing time deposits or savings accounts in qualified public depositories, as defined in Section 280.02, Florida Statutes; and direct obligations of the United States Treasury. The District’s investment policy limits investments to bids from qualified depositories, financial deposit instruments insured by the Federal Deposit Insurance Corporation, time deposits, securities of the United States Government including obligations of the United States Treasury, and investment pools managed and directed by an approved agency of the State.

The District’s investment in Florida PRIME is rated AAAM by Standard & Poor’s.

C. Changes in Capital Assets

Changes in capital assets are presented in the following table:

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Deletions</u>	<u>Ending Balance</u>
GOVERNMENTAL ACTIVITIES				
Capital Assets Not Being Depreciated:

D. Retirement Plans

1. FRS – Defined Benefit Pension Plans

General Information about the FRS

The FRS was created in Chapter 121, Florida Statutes, to provide a defined benefit pension plan for participating public employees. The FRS was amended in 1998 to add the Deferred Retirement Option Program (DROP) under the defined benefit plan and amended in 2000 to provide a defined contribution plan alternative to the defined benefit plan for FRS members effective July 1, 2002. This integrated defined contribution pension plan is the FRS Investment Plan. Chapter 112, Florida Statutes, established the Retiree HIS Program, a cost-sharing

multiple-employer defined benefit pension plan, to assist retired members of any State-administered retirement system in paying the costs of health insurance.

Essentially all regular employees of the District are eligible to enroll as members of the State-administered FRS. Provisions relating to the FRS are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and FRS Rules, Chapter 60S, Florida Administrative Code; wherein eligibility, contributions, and benefits are defined and described in detail. Such provisions may be amended at any time by further action from the Florida Legislature. The FRS is a single retirement system administered by the Florida Department of Management Services, Division of Retirement, and consists of the two cost-sharing multiple-employer defined benefit plans and other nonintegrated programs. An annual comprehensive financial report of the FRS, which includes its financial statements, required supplementary information, actuarial report, and other relevant information, is available from the Florida Department of Management Services Web site (www.dms.myflorida.com).

The District's FRS and HIS pension expense totaled \$3,044,283 for the fiscal year ended June 30, 2023.

FRS Pension Plan

Plan Description. The FRS Pension Plan (Plan) is a cost-sharing multiple-employer defined benefit pension plan, with a DROP for eligible employees. The general classes of membership are:

- *Regular* – Members of the FRS who do not qualify for membership in the other classes.
- *Elected County Officers* – Members who hold specified elective offices in local government.

Employees enrolled in the Plan prior to July 1, 2011, vest at 6 years of creditable service and employees enrolled in the Plan on or after July 1, 2011, vest at 8 years of creditable service. All vested members, enrolled prior to July 1, 2011, are eligible for normal retirement benefits at age 62 or at any age after 30 years of service. All members enrolled in the Plan on or after July 1, 2011, once vested, are eligible for normal retirement benefits at age 65 or any time after 33 years of creditable service. Employees enrolled in the Plan may include up to 4 years of credit for military service toward creditable service. The Plan also includes an early retirement provision; however, there is a benefit reduction for each year a member retires before his or her normal retirement date. The Plan provides retirement, disability, death benefits, and annual cost-of-living adjustments to eligible participants.

The DROP, subject to provisions of Section 121.091, Florida Statutes, permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payments while continuing employment with an FRS participating employer. An employee may participate in DROP for a period not to exceed 60 months after electing to participate, except that certain instructional personnel may participate for up to 96 months. During the period of DROP participation, deferred monthly benefits are held in the FRS Trust Fund and accrue interest. The net pension liability does not include amounts for DROP participants, as these members are considered retired and are not accruing additional pension benefits.

Benefits Provided. Benefits under the Plan are computed on the basis of age and/or years of service, average final compensation, and service credit. Credit for each year of service is expressed as a percentage of the average final compensation. For members initially enrolled before July 1, 2011, the average final compensation is the average of the 5 highest fiscal years' earnings; for members initially enrolled on or after July 1, 2011, the average final compensation is the average of the 8 highest fiscal years' earnings. The total percentage value of the benefit received is determined by calculating the total value of all service, which is based on the retirement class to which the member belonged when the service credit was earned. Members are eligible for in-line-of-duty or regular disability and survivors' benefits. The following table shows the percentage value for each year of service credit earned:

<u>Class, Initial Enrollment, and Retirement Age/Years of Service</u>	<u>Percent Value</u>
Regular Members Initially Enrolled Before July 1, 2011	
Retirement up to age 62 or up to 30 years of service	1.60
Retirement at age 63 or with 31 years of service	1.63
Retirement at age 64 or with 32 years of service	1.65
Retirement at age 65 or with 33 or more years of service	1.68
Regular Members Initially Enrolled On or After July 1, 2011	
Retirement up to age 65 or up to 33 years of service	1.60
Retirement at age 66 or with 34 years of service	1.63
Retirement at age 67 or with 35 years of service	1.65
Retirement at age 68 or with 36 or more years of service	1.68
Elected County Officers	3.00

As provided in Section 121.101, Florida Statutes, if the member was initially enrolled in the Plan before July 1, 2011, and all service credit was accrued before July 1, 2011, the annual cost-of-living adjustment is 3 percent per year. If the member was initially enrolled before July 1, 2011, and has service credit on or after July 1, 2011, there is an individually calculated cost-of-living adjustment. The annual cost-of-living adjustment is a proportion of 3 percent determined by dividing the sum of the pre-July 2011 service credit by the total service credit at retirement multiplied by 3 percent. Plan members initially enrolled on or after July 1, 2011, will not have a cost-of-living adjustment after retirement.

Contributions. The Florida Legislature establishes contribution rates for participating employers and employees. Contribution rates during the 2022-23 fiscal year were as follows:

<u>Class</u>	<u>Percent of Gross Salary</u>	
	<u>Employee</u>	<u>Employer (1)</u>
FRS, Regular	3.00	11.91
FRS, Elected County Officers	3.00	57.00
DROP – Applicable to Members from All of the Above Classes	0.00	18.60
FRS, Reemployed Retiree	(2)	(2)

(1) Employer rates include 1.66 percent for the postemployment health insurance subsidy. Also, employer rates, other than for DROP participants, include 0.06 percent for administrative costs of the Investment Plan.

(2) Contribution rates are dependent upon retirement class in which reemployed.

The District's contributions to the Plan totaled \$2,578,430 for the fiscal year ended June 30, 2023.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At June 30, 2023, the District reported a liability of \$20,631,792 for its proportionate share of the Plan's net pension liability. The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2022. The District's proportionate share of the net pension liability was based on the District's 2021-22 fiscal year contributions relative to the total 2021-22 fiscal year contributions of all participating members. At June 30, 2022, the District's proportionate share was 0.055449829 percent, which was a decrease of 0.000639042 from its proportionate share measured as of June 30, 2021.

For the fiscal year ended June 30, 2023, the District recognized a Plan pension expense of \$2,829,455. In addition, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

<u>Description</u>	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences Between Expected and Actual Experience	\$ 979,891	\$ -
Change of Assumptions	2,540,892	-
Net Difference Between Projected and Actual Earnings on FRS Pension Plan Investments	1,362,315	-
Changes in Proportion and Differences Between District FRS Contributions and Proportionate Share of Contributions	859,812	563,421
District FRS Contributions Subsequent to the Measurement Date	2,578,430	-
Total	\$ 8,321,340	\$ 563,421

The deferred outflows of resources related to pensions resulting from District contributions to the Plan subsequent to the measurement date, totaling \$2,578,430, will be recognized as a reduction of the net pension liability in the fiscal year ending June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Fiscal Year Ending June 30</u>	<u>Amount</u>
2024	\$ 1,172,735
2025	529,431
2026	(281,138)
2027	3,588,858
2028	169,603
Total	\$ 5,179,489

Actuarial Assumptions. The total pension liability in the July 1, 2022, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.40 percent
Salary Increases	3.25 percent, average, including inflation
Investment Rate of Return	6.70 percent, net of pension plan investment expense, including inflation

Mortality rates were based on the PUB-2010 base table, projected generationally with Scale MP-2018.

The actuarial assumptions used in the July 1, 2022, valuation were based on the results of an actuarial experience study for the period July 1, 2013, through June 30, 2018.

The long-term expected rate of return on pension plan investments was not based on historical returns, but instead is based on a forward-looking capital market economic model. The allocation policy's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions and includes an adjustment for the inflation assumption. The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation (1)</u>	<u>Annual Arithmetic Return</u>	<u>Compound Annual (Geometric) Return</u>	<u>Standard Deviation</u>
Cash	1.0%	2.6%	2.6%	1.1%
Fixed Income	19.8%	4.4%	4.4%	3.2%
Global Equity	54.0%	8.8%	7.3%	17.8%
Real Estate	10.3%	7.4%	6.3%	15.7%
Private Equity	11.1%	12.0%	8.9%	26.3%
Strategic Investments	3.8%	6.2%	5.9%	7.8%
Total	<u>100%</u>			
Assumed inflation - Mean			2.4%	1.3%

(1) As outlined in the Plan's investment policy.

Discount Rate. The discount rate used to measure the total pension liability was 6.7 percent. The Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return. The discount rate changed from 6.8 percent to 6.7 percent.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 6.7 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is

1 percentage point lower (5.7 percent) or 1 percentage point higher (7.7 percent) than the current rate:

	<u>1% Decrease (5.7%)</u>	<u>Current Discount Rate (6.7%)</u>	<u>1% Increase (7.7%)</u>
District's Proportionate Share of the Net Pension Liability	\$ 35,681,266	\$ 20,631,792	\$ 8,048,641

Pension Plan Fiduciary Net Position. Detailed information about the Plan's fiduciary net position is available in the separately issued FRS Pension Plan and Other State Administered Systems Annual Comprehensive Financial Report.

HIS Pension Plan

Plan Description. The HIS Pension Plan (HIS Plan) is a cost-sharing multiple-employer defined benefit pension plan established under Section 112.363, Florida Statutes, and may be amended by the Florida Legislature at any time. The benefit is a monthly payment to assist retirees of State-administered retirement systems in paying their health insurance costs and is administered by the Florida Department of Management Services, Division of Retirement.

Benefits Provided. For the fiscal year ended June 30, 2023, eligible retirees and beneficiaries received a monthly HIS payment of \$5 for each year of creditable service completed at the time of retirement, with a minimum HIS payment of \$30 and a maximum HIS payment of \$150 per month, pursuant to Section 112.363, Florida Statutes. To be eligible to receive a HIS Plan benefit, a retiree under a State-administered retirement system must provide proof of health insurance coverage, which may include Federal Medicare.

Contributions. The HIS Plan is funded by required contributions from FRS participating employers as set by the Florida Legislature. Employer contributions are a percentage of gross compensation for all active FRS members. For the fiscal year ended June 30, 2023, the contribution rate was 1.66 percent of payroll pursuant to Section 112.363, Florida Statutes. The District contributed 100 percent of its statutorily required contributions for the current and preceding 3 years. HIS Plan contributions are deposited in a separate trust fund from which payments are authorized. HIS Plan benefits are not guaranteed and are subject to annual legislative appropriation. In the event the legislative appropriation or available funds fail to provide full subsidy benefits to all participants, benefits may be reduced or canceled.

The District's contributions to the HIS Plan totaled \$419,796 for the fiscal year ended June 30, 2023.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At June 30, 2023, the District reported a net pension liability of \$7,223,946 for its proportionate share of the HIS Plan's net pension liability. The current portion of the net pension liability is the District's proportionate share of benefit payments expected to be paid within 1 year, net of the District's proportionate share of the HIS Plan's fiduciary net position available to pay that amount. The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial

valuation as of July 1, 2022. The District's proportionate share of the net pension liability was based on the District's 2021-22 fiscal year contributions relative to the total 2021-22 fiscal year contributions of all participating members. At June 30, 2022, the District's proportionate share was 0.068204501 percent, which was a decrease of 0.000306713 from its proportionate share measured as of June 30, 2021.

For the fiscal year ended June 30, 2023, the District recognized the HIS Plan pension expense of \$214,828. In addition, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

<u>Description</u>	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences Between Expected and Actual Experience	\$ 219,264	\$ 31,786
Change of Assumptions	414,081	1,117,540
Net Difference Between Projected and Actual Earnings on HIS Pension Plan Investments	10,459	-
Changes in Proportion and Differences Between District HIS Contributions and Proportionate Share of Contributions	97,066	420,466
District HIS Contributions Subsequent to the Measurement Date	419,796	-
Total	\$ 1,160,666	\$ 1,569,792

The deferred outflows of resources related to pensions resulting from District contributions to the HIS Plan subsequent to the measurement date, totaling \$419,796, will be recognized as a reduction of the net pension liability in the fiscal year ending June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Fiscal Year Ending June 30</u>	<u>Amount</u>
2024	\$ (265,256)
2025	(162,192)
2026	(60,861)
2027	(103,200)
2028	(165,338)
Thereafter	(72,075)
Total	\$ (828,922)

Actuarial Assumptions. The total pension liability in the July 1, 2022, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.40 percent
Salary Increases	3.25 percent, average, including inflation
Municipal Bond Rate	3.54 percent

Mortality rates were based on the PUB-2010 base table, projected generationally with Scale MP-2018.

While an experience study had not been completed for the HIS Plan, the actuarial assumptions that determined the total pension liability for the HIS Plan were based on certain results of the most recent experience study for the FRS Plan.

Discount Rate. The discount rate used to measure the total pension liability was 3.54 percent. In general, the discount rate for calculating the total pension liability is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS benefit is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate, and the single equivalent discount rate is equal to the municipal bond rate selected by the HIS Plan sponsor. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index. The discount rate changed from 2.16 percent to 3.54 percent.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 3.54 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (2.54 percent) or 1 percentage point higher (4.54 percent) than the current rate:

	1% Decrease (2.54%)	Current Discount Rate (3.54%)	1% Increase (4.54%)
District's Proportionate Share of the Net Pension Liability	\$ 8,264,787	\$ 7,223,946	\$ 6,362,671

Pension Plan Fiduciary Net Position. Detailed information about the HIS Plan's fiduciary net position is available in the separately issued FRS Pension Plan and Other State Administered Systems Annual Comprehensive Financial Report.

2. FRS – Defined Contribution Pension Plan

The SBA administers the defined contribution plan officially titled the FRS Investment Plan (Investment Plan). The Investment Plan is reported in the SBA's annual financial statements and in the State's Annual Comprehensive Financial Report.

As provided in Section 121.4501, Florida Statutes, eligible FRS members may elect to participate in the Investment Plan in lieu of the FRS defined benefit plan. District employees participating in DROP are not eligible to participate in the Investment Plan. Employer and employee contributions, including amounts contributed to individual member's accounts, are defined by law, but the ultimate benefit depends in part on the performance of investment funds. Retirement benefits are based upon the value of the member's account upon retirement. Benefit terms, including contribution requirements, for the Investment Plan are established and may be amended by the Florida Legislature. The Investment Plan is funded with the same employer and employee contribution rates that are based on salary and membership class (Regular, Elected County

Officers, etc.), as the FRS defined benefit plan. Contributions are directed to individual member accounts and the individual members allocate contributions and account balances among various approved investment choices. Costs of administering the Investment Plan, including the FRS Financial Guidance Program, are funded through an employer contribution of 0.06 percent of payroll and by forfeited benefits of Investment Plan members. Allocations to the Investment Plan member accounts during the 2022-23 fiscal year were as follows:

<u>Class</u>	<u>Percent of Gross Compensation</u>
FRS, Regular	9.30
FRS, Elected County Officers	14.34

For all membership classes, employees are immediately vested in their own contributions and are vested after 1 year of service for employer contributions and investment earnings, regardless of membership class. If an accumulated benefit obligation for service credit originally earned under the FRS Pension Plan is transferred to the Investment Plan, the member must have the years of service required for FRS Pension Plan vesting (including the service credit represented by the transferred funds) to be vested for these funds and the earnings on the funds. Nonvested employer contributions are placed in a suspense account for up to 5 years. If the employee returns to FRS-covered employment within the 5-year period, the employee will regain control over their account. If the employee does not return within the 5-year period, the employee will forfeit the accumulated account balance. For the fiscal year ended June 30, 2023, the information for the amount of forfeitures was unavailable from the SBA; however, management believes that these amounts, if any, would be immaterial to the District.

After termination and applying to receive benefits, the member may rollover vested funds to another qualified plan, structure a periodic payment under the Investment Plan, receive a lump-sum distribution, leave the funds invested for future distribution, or any combination of these options. Disability coverage is provided in which the member may either transfer the account balance to the FRS Pension Plan when approved for disability retirement to receive guaranteed lifetime monthly benefits under the FRS Pension Plan or remain in the Investment Plan and rely upon that account balance for retirement income.

The District's Investment Plan pension expense totaled \$518,795.55 for the fiscal year ended June 30, 2023.

E. Other Postemployment Benefit Obligations

Plan Description. The Other Postemployment Benefits Plan (OPEB Plan) is a single-employer defined benefit plan administered by the District that provides OPEB for all employees who satisfy the District's retirement eligibility provisions. Pursuant to Section 112.0801, Florida Statutes, former employees who retire from the District are eligible to participate in the District's self-insurance health and hospitalization plan for medical and prescription drug coverage. Retirees and their eligible dependents shall be offered the same health and hospitalization insurance coverage as is offered to active employees at a premium cost of no more than the premium cost applicable to active employees. The District subsidizes the premium rates paid by retirees by allowing them to participate

in the OPEB Plan at reduced or blended group (implicitly subsidized) premium rates for both active and retired employees. These rates provide an implicit subsidy for retirees because retiree healthcare costs are generally greater than active employee healthcare costs. Retirees are assumed to enroll in the Florida Medicare program for their primary coverage as soon as they are eligible. The OPEB Plan contribution requirements and benefit terms of the District and the OPEB Plan members are established and may be amended through recommendations of the Insurance Committee and action from the Board. No assets are accumulated in a trust that meet the criteria in paragraph 4 of GASB Statement No. 75.

Benefits Provided. The OPEB Plan provides healthcare and prescription drug benefits for retirees and their dependents. The OPEB Plan only provides an implicit subsidy as described above.

Employees Covered by Benefit Terms. At June 30, 2022, the following employees were covered by the benefit terms:

Inactive Employees or Beneficiaries Currently Receiving Benefits	40
Active Employees	<u>387</u>
Total	<u>427</u>

Total OPEB Liability. The District’s total OPEB liability of \$4,046,198 was measured as of June 30, 2022, and was determined by an actuarial valuation as of June 30, 2022.

Actuarial Assumptions and Other Inputs. The total OPEB liability was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.25 percent
Discount Rate	3.69 percent
Salary Increases	3.4 percent – 7.8 percent, including inflation
Healthcare Cost Trend Rates	Based on the Getzen Model, with trend rates starting at 7.5 percent for 2022, gradually decreasing to an ultimate rate of 4 percent in 2050.
Aging Factors	Based on the 2013 SOA Study “Health Care Costs – From Birth to Death.”
Expenses	Administrative expenses are included in the per capita health costs.

The discount rate was based on the daily rate of Fidelity’s 20-Year Municipal General Obligation AA Index closest to but not later than the measurement date.

Demographic assumptions employed in the actuarial valuation were the same as those employed in the July 1, 2022, actuarial valuation of the FRS Defined Benefit Pension Plan. These demographic assumptions were developed by FRS from an actuarial experience study, and therefore are appropriate for use in the OPEB Plan actuarial valuation. These include assumed rates of future termination, mortality, disability, and retirement. In addition, salary increase assumptions (for development of the pattern of the normal cost increases) were the same as those used in the July 1, 2022, actuarial valuation of the FRS Defined Benefit Pension Plan. Assumptions used in

valuation of benefits for participants of the FRS Investment Plan are the same as for similarly situated participants of the FRS Defined Benefit Pension Plan.

Changes in the Total OPEB Liability.

	<u>Amount</u>
Balance at June 30, 2022	\$ 3,787,048
Changes for the year:	
Service Cost	167,756
Interest	74,054
Differences Between Expected and Actual Experience	(274,919)
Changes of Assumptions or Other Inputs	487,859
Benefit Payments	<u>(195,600)</u>
Net Changes	<u>259,150</u>
Balance at June 30, 2023	<u>\$ 4,046,198</u>

The changes of assumptions or other inputs was based on the following:

- The discount rate increased from 1.92 percent as of the beginning of the measurement period to 3.69 percent as of June 30, 2022.
- The medical claims costs and premiums were updated based on actual claims experience and premium information provided for the valuation.
- The long-term healthcare cost trend assumption was revised based on the updated November 2021 Getzen Model.
- The lapsing at age 65 rate was increased from 75 percent to 90 percent.

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate. The following table presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (2.69 percent) or 1 percentage point higher (4.69 percent) than the current rate:

	<u>1% Decrease (2.69%)</u>	<u>Current Discount Rate (3.69%)</u>	<u>1% Increase (4.69%)</u>
Total OPEB Liability	\$ 4,462,320	\$ 4,046,198	\$ 3,680,819

Sensitivity of the Total OPEB Liability to Changes in the Healthcare Cost Trend Rates. The following table presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1 percentage point lower (6.5 percent decreasing to 3 percent) or 1 percentage point higher (8.5 percent decreasing to 5 percent) than the current healthcare cost trend rates:

	<u>1% Decrease</u>	<u>Healthcare Cost Trend Rates</u>	<u>1% Increase</u>
Total OPEB Liability	\$ 3,541,296	\$ 4,046,198	\$ 4,669,072

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB. For the fiscal year ended June 30, 2023, the District recognized OPEB expense of \$101,278. At June 30, 2023, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

<u>Description</u>	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences Between Expected and Actual Experience	\$ 135,228	\$ 263,470
Changes of Assumptions or Other Inputs	1,064,948	1,177,671
Benefits Paid Subsequent to the Measurement Date	210,852	-
Total	\$ 1,411,028	\$ 1,441,141

The deferred outflows of resources related to OPEB resulting from benefits paid subsequent to the measurement date, totaling \$210,852, will be recognized as a reduction of the total OPEB liability in the fiscal year ending June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

<u>Fiscal Year Ending June 30</u>	<u>Amount</u>
2024	\$ (140,532)
2025	(140,532)
2026	(103,842)
2027	(69,545)
2028	51,356
Thereafter	162,130
Total	\$ (240,965)

F. Construction and Other Significant Commitments

Construction Contracts. The following is a schedule of major construction contract commitments at June 30, 2023:

<u>Project</u>	<u>Contract Amount</u>	<u>Completed to Date</u>	<u>Balance Committed</u>
Washington VPK Center New Construction	\$ 5,403,556.70	\$ 272,707.36	\$ 5,130,849.34
Roulhac Middle/Chiple High School HVAC	586,713.00	59,450.00	527,263.00
District-Wide School Secure Entrance Renovations	610,695.21	600,401.83	10,293.38
Florida Panhandle Technical College ADA Renovations	304,750.00	-	304,750.00
Vernon High School Culinary Electrical Upgrades	248,805.43	17,231.39	231,574.04
Total	\$ 7,154,520.34	\$ 949,790.58	\$ 6,204,729.76

Encumbrances. Appropriations in governmental funds are encumbered upon issuance of purchase orders for goods and services. Even though appropriations lapse at the end of the fiscal year, unfilled purchase orders of the current year are carried forward and the next fiscal year's appropriations are likewise encumbered.

The following is a schedule of encumbrances at June 30, 2023:

Major Governmental Funds			
General	Special Revenue - Federal Education Stabilization	Nonmajor Governmental Funds	Total Governmental Funds
\$ 117,803.46	\$ 6,392,428.32	\$ 1,676,866.10	\$ 8,187,097.88

Major Enterprise Funds			
PAEC - Risk Management Property/Casualty	PAEC - Programs Other Than Risk Management	PAEC - Federal Education Stabilization	Total Enterprise Funds
\$ 589.10	\$ 66,446.86	\$ 37,839.23	\$ 104,875.19

G. Risk Management Programs

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District is a member of the PAEC – Risk Management Consortium (PAEC – RMC) under which several district school boards have established a combined limited self-insurance program for property protection, general liability, automobile liability, workers’ compensation, sabotage and terrorism, cyber liability, employee dishonesty, equipment breakdown, and other coverage deemed necessary by the members of the PAEC – RMC. Section 1001.42(12)(k), Florida Statutes, provides the authority for the District to enter into such a risk management program. The PAEC – RMC is self-sustaining through member assessments (premiums), and purchases coverage through commercial companies for claims in excess of specified amounts. The Board of Directors for the PAEC – RMC is composed of superintendents of all participating districts. The District serves as fiscal agent for the Consortium. Activities related to the PAEC – RMC Property/Casualty Program are included in the business-type activities on the financial statements and in Note II.H.

The District also participates in an employee group health insurance program administered through the PAEC – RMC Health Program (Program). Premiums charged to the districts are based on each individual district’s claims experience, and the program operates as an individually-funded plan by each participating district with shared administrative costs and a pooling of plan assets for working capital. Ultimate liability for claims remains with respective districts and accordingly, the insurance risks are not transferred. Each participating district is responsible for any deficit in its account and for payment of any pending claim should the district withdraw from the Program. Activities related to the District’s group self-insurance program are included in the internal service fund on the financial statements, while activities related to other participating districts are included in the business-type activities.

A liability in the amount of \$633,168 was actuarially determined to cover estimated incurred, but not reported, District health insurance claims payable at June 30, 2023. The actuarial basis used to estimating the liability for unpaid claims of the District’s health plan was a combination of the development method and the claim projection method. Under the development method, the historical claim data was recorded by incurred month and paid month. The resulting loss development pattern

(as claims mature) was used to estimate the future development of existing claims as of the valuation (accounting) date on June 30, 2023. The claim projection method used historical claim experience to estimate the ultimate level of incurred claims in a specific incurral month. This incurred claim estimate was utilized to estimate a claims reserve. The claims development method was used to estimate the incurred but unpaid claims liability for all incurral months prior to May 2023. The claim projection method was used to estimate the level of incurred but unpaid claims for the incurral months of May 2023 and June 2023. However, to be conservative, a 10 percent increase to the incurred but not paid (IBNP) reserve amount has been added to provide a margin for experience less favorable than expected. The paid claims data has not been adjusted for any excess recoveries, which would otherwise tend to overstate the IBNP reserves. In this instance, the effect is not significant and adds a slight amount of conservatism.

Because of the relatively short payment pattern of the claims, there was not discounting for present value other than that inherent in the claims data.

The following schedule represents the changes in claims liability for the past 2 fiscal years for the District's group health self-insurance program:

<u>Fiscal Year</u>	<u>Beginning of Fiscal Year Liability</u>	<u>Current Year Claims and Changes in Estimates</u>	<u>Claims Payments</u>	<u>Balance at Fiscal Year End</u>
2021-22	\$ 290,034	\$ 2,900,939	\$ (2,883,741)	\$ 307,232
2022-23	307,232	4,508,653	(4,182,717)	633,168

Settled claims resulting from these risks have not exceeded commercial coverage in any of the past 3 fiscal years.

H. Public Entity Risk Pool

The following is a summary of financial information as reported in the enterprise funds for the 2022-23 fiscal years.

1. Description of the Fund

The PAEC – RMC, a public entity risk pool, was organized in 1981 to provide a program of property and casualty insurance coverage for its member school districts. The PAEC – RMC members currently include 10 school districts. Annual assessments are based on previous years' experience. The school districts' assessments are based on the assessment formula developed by the participating school districts.

2. Summary of Significant Accounting Policies

- Estimated Insurance Claims Payable. The liabilities are actuarially determined, based on the estimated ultimate cost of settling all claims, both those reported and unreported, including the effects of inflation and other societal and economic factors.
- Excess Insurance. The PAEC – RMC has entered into agreements with various insurance companies to provide specific excess coverage of claim amounts above the stated amount on an individual claim basis, and aggregate excess coverage when total claims minus specific excess coverage exceeds the loss fund. For the fiscal year ended June 30, 2023, the risk pool established a loss fund of \$3,900,000, assessed premiums to fund

\$3,900,000 of the loss fund, and purchased specific excess insurance which provides layers of protection, per individual and/or occurrence by coverage. In addition, the risk pool purchased aggregate excess insurance which provides up to \$1,000,000 coverage if the aggregate net losses exceed the loss fund. The pool paid excess insurance premiums for the fiscal year ended June 30, 2023, in the amount of \$5,396,557. The amount of \$360,684 of excess insurance recoverable on unpaid claims was deducted from the liability for unpaid claims at June 30, 2023.

- Settled Claims. Settled claims resulting from the risks described above have not exceeded commercial insurance for the past 3 fiscal years.
- Investment Income. Investment income is not included herein.
- Liabilities. Liabilities for unpaid claims adjustment expenses were not discounted in the 2021-22 and 2022-23 fiscal years.

3. Estimated Insurance Claims Payable

The following schedule represent the changes in claims liability for the past 2 years for the PAEC – RMC’s Property/Casualty Program:

	Reconciliation of Claims Liability	
	2021-22	2022-23
Estimated Unpaid Claims Liability at Beginning of Year	\$ 4,986,807	\$ 5,377,671
Incurred Claims and Claims Adjustment Expenses:		
Provisions for Insured Events of the Current Year	2,865,000	3,900,000
Provisions for Events in Prior Years	(595,661)	94,961
Total Insurance Claims Expenses	<u>2,269,339</u>	<u>3,994,961</u>
Payments:		
Claims and Claims Adjustment Expenses Attributable to Insured Events of the Current Year	676,628	1,204,795
Claims and Claims Adjustment Expenses Attributable to Insured Events of Prior Year	<u>1,201,847</u>	<u>2,113,826</u>
Total Insurance Claims Payable	<u>1,878,475</u>	<u>3,318,621</u>
Estimated Unpaid Claims Liability at End of Year	<u>\$ 5,377,671</u>	<u>\$ 6,054,011</u>

I. Changes in Long-Term Liabilities

The following is a summary of changes in long-term liabilities:

Description	Beginning Balance	Additions	Deductions	Ending Balance	Due In One Year
GOVERNMENTAL ACTIVITIES					
Compensated Absences Payable	\$ 3,393,186.75	\$ 115,209.97	\$ 248,289.85	\$ 3,260,106.87	\$ 227,000.00
Net Pension Liability	10,447,189.00	21,336,977.00	8,208,222.00	23,575,944.00	-
Total OPEB Liability	<u>3,439,018.00</u>	<u>20,272.00</u>	<u>47,130.00</u>	<u>3,412,160.00</u>	<u>158,835.00</u>
Total Governmental Activities	<u>\$ 17,279,393.75</u>	<u>\$ 21,472,458.97</u>	<u>\$ 8,503,641.85</u>	<u>\$ 30,248,210.87</u>	<u>\$ 385,835.00</u>
BUSINESS-TYPE ACTIVITIES					
Compensated Absences Payable	\$ 876,632.08	\$ 64,448.74	\$ 20,629.15	\$ 920,451.67	\$ 35,000.00
Estimated Insurance Claims Payable	5,377,671.00	3,994,961.00	3,318,621.00	6,054,011.00	2,426,599.00
Net Pension Liability	2,193,618.00	3,390,473.00	1,304,297.00	4,279,794.00	-
Total OPEB Liability	<u>348,030.00</u>	<u>501,880.00</u>	<u>215,872.00</u>	<u>634,038.00</u>	<u>52,017.00</u>
Total Business-Type Activities	<u>\$ 8,795,951.08</u>	<u>\$ 7,951,762.74</u>	<u>\$ 4,859,419.15</u>	<u>\$ 11,888,294.67</u>	<u>\$ 2,513,616.00</u>

For the governmental activities, compensated absences, pensions, and other postemployment benefits are generally liquidated with resources of the General Fund. The estimated insurance claims are generally liquidated with the resources of the proprietary funds, as discussed in Note I.G.7.

J. Fund Balance Reporting

In addition to committed and assigned fund balance categories discussed in Note I.G.10., fund balances may be classified as follows:

- **Nonspendable Fund Balance.** Nonspendable fund balance is the net current financial resources that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. Generally, not in spendable form means that an item is not expected to be converted to cash.
- **Restricted Fund Balance.** Restricted fund balance is the portion of fund balance on which constraints have been placed by creditors, grantors, contributors, laws or regulations of other governments, constitutional provisions, or enabling legislation. Restricted fund balance places the most binding level of constraint on the use of fund balance.
- **Unassigned Fund Balance.** The unassigned fund balance is the portion of fund balance that is the residual classification for the General Fund. This balance represents amounts that have not been assigned to other funds and that have not been restricted, committed, or assigned for specific purposes.

K. Interfund Receivables and Payables

The following is a summary of interfund receivables and payables reported in the fund financial statements:

Funds	Interfund	
	Receivables	Payables
Major:		
General	\$ 81,619.22	\$ 144,154.45
Special Revenue:		
Federal Education Stabilization	-	26,692.01
Enterprise:		
PAEC - Risk Management Health	-	2,886,860.53
PAEC - Programs Other Than Risk Management	295,061.01	6,898.09
PAEC - Federal Education Stabilization	79,393.88	9,384.89
Nonmajor Governmental	-	295,560.69
Internal Service	2,913,476.55	-
Total	\$ 3,369,550.66	\$ 3,369,550.66

Interfund receivables and payables are recorded to reflect fees, reimbursements, and advances owed by one fund to another as of June 30, 2023. These amounts are expected to be repaid within 1 year.

L. Revenues and Expenditures/Expenses

1. Schedule of State Revenue Sources

The following is a schedule of the District's State revenue sources for the 2022-23 fiscal year:

<u>Source</u>	<u>Amount</u>
Governmental Funds:	
Florida Education Finance Program	\$ 19,130,546.00
Categorical Educational Program - Class Size Reduction	3,025,682.00
Workforce Development Program	2,462,856.00
Voluntary Prekindergarten Program	430,593.94
Performance Based Incentives - Workforce	142,018.00
Motor Vehicle License Tax (Capital Outlay and Debt Service)	114,881.97
School Recognition	105,232.00
Miscellaneous	1,116,189.10
Subtotal - Governmental	<u>26,527,999.01</u>
Enterprise Funds:	
Regional Educational Consortium Services	694,543.33
Miscellaneous	6,607.53
Subtotal - Enterprise	<u>701,150.86</u>
Total	<u>\$ 27,229,149.87</u>

Accounting policies relating to certain State revenue sources are described in Note I.G.2.

2. Property Taxes

The following is a summary of millages and taxes levied on the 2022 tax roll for the 2022-23 fiscal year:

<u>General Fund</u>	<u>Millages</u>	<u>Taxes Levied</u>
Nonvoted School Tax:		
Required Local Effort	3.329	\$ 4,215,502
Prior Period Adjustment Funding	0.001	1,266
Basic Discretionary Local Effort	0.748	947,190
Capital Projects - Local Capital Improvement Fund		
Nonvoted Tax:		
Local Capital Improvements	1.150	1,456,241
Total	<u>5.228</u>	<u>\$ 6,620,199</u>

M. Interfund Transfers

The following is a summary of interfund transfers reported in the fund financial statements:

Funds	Interfund	
	Transfers In	Transfers Out
Major:		
General	\$ 299,400.00	\$ 63,113.43
Enterprise:		
PAEC - Programs Other Than Risk Management	63,113.43	-
Nonmajor Governmental	-	299,400.00
Total	\$ 362,513.43	\$ 362,513.43

The transfers to the General Fund were for reimbursement of certain expenditures relating to maintenance, renovation, and insurance premiums. Transfers to the Enterprise – PAEC – Programs Other Than Risk Management Fund were for costs associated with the fiscal agent agreement.

III. CONSORTIUMS

The District is a member of, and the fiscal agent for, the PAEC. The PAEC was established pursuant to Section 1001.42(4)(j), 1001.42(145), and 1001.451, Florida Statutes, creating a Regional Consortium Service Organization for acquisition of materials, supplies, equipment, contracted services, and participation in programs and projects. Each school district has the option of participating in any or all of the services through agreements with the PAEC. The member associations are the PAEC – RMC, the Gateway Educational Computing Consultants Project, the PAEC Professional Development Center, the PAEC Curriculum Support Services, the PAEC Human Resources Support Services, and the PAEC Student Systems Consortium. The PAEC associations were joined together to function as supporting units to the PAEC. Financial information applicable to the PAEC is included in the business-type activities on the financial statements.

OTHER REQUIRED SUPPLEMENTARY INFORMATION

Budgetary Comparison Schedule General and Major Special Revenue Funds For the Fiscal Year Ended June 30, 2023

	General Fund			Variance with Final Budget - Positive (Negative)
	Original Budget	Final Budget	Actual	
Revenues				
Intergovernmental:				
Federal Direct	\$ 136,165.00	\$ 136,165.00	\$ 132,275.00	\$ (3,890.00)
Federal Through State and Local	132,836.89	103,563.22	103,563.22	-

1. Budgetary Basis of Accounting

The Board follows procedures established by State law and State Board of Education (SBE) rules in establishing budget balances for governmental funds, as described below:

- Budgets are prepared, public hearings are held, and original budgets are adopted annually for all governmental fund types in accordance with procedures and time intervals prescribed by State law and SBE rules.
- Appropriations are controlled at the object level (e.g., salaries, purchased services, and capital outlay) within each activity (e.g., instruction, student transportation services, and school administration) and may be amended by resolution at any Board meeting prior to the due date for the annual financial report.
- Budgets are prepared using the same modified accrual basis as is used to account for governmental funds.
- Budgetary information is integrated into the accounting system and, to facilitate budget control, budget balances are encumbered when purchase orders are issued. Appropriations lapse at fiscal year end and encumbrances outstanding are honored from the subsequent year's appropriations.

2. Schedule of Changes in the District's Total Other Postemployment Benefits Liability and Related Ratios

No assets are accumulated in a trust that meet the criteria in paragraph 4 of GASB Statement No. 75 to pay related benefits. The June 30, 2023, total OPEB liability increased from the prior fiscal year as a result of changes to assumptions as discussed below:

- The discount rate was changed from 1.92 percent as of the beginning of the measurement period to 3.69 percent as of June 30, 2022.
- The medical claims cost and premiums were updated based on actual claims experience and premium information provided for the valuation.
- The long-term healthcare cost trend assumption was revised based on the updated November 2021 Getzen Model.
- The lapsing at age 65 rate was increased from 75 percent to 90 percent.

3. Schedule of Net Pension Liability and Schedule of Contributions – Florida Retirement System Pension Plan

Changes of Assumptions. In 2022, the long-term expected rate of return was decreased from 6.8 percent to 6.7 percent.

4. Schedule of Net Pension Liability and Schedule of Contributions – Health Insurance Subsidy Pension Plan

Changes of Assumptions. In 2022, the municipal bond rate used to determine total pension liability was increased from 2.16 percent to 3.54 percent and the election assumption for vested terminated members was updated from 20 percent to 50 percent to reflect recent experience.

The accompanying notes are an integral part of this Schedule.

- Notes: (1) Basis of Presentation. The accompanying Schedule of Expenditures of Federal Awards (Schedule) includes the Federal award activity of the Washington County District School Board under programs of the Federal Government for the fiscal year ended June 30, 2023. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the District.
- (2) Summary of Significant Accounting Policies. Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.
- (3) Indirect Cost Rate. The District has not elected to use the 10 percent de minimis cost rate allowed under the Uniform Guidance.
- (4) Noncash Assistance – National School Lunch Program. Includes \$108,507.60 of donated food used during the fiscal year. Donated foods are valued at fair value as determined at the time of donation.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Washington County District School Board as of and for the fiscal year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated March 13, 2024, included under the heading **INDEPENDENT AUDITOR'S REPORT**. Our report includes a reference to other auditors who audited the financial statements of the school internal funds, as described in our report on the District's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material

misstatement of the District's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, rules, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Respectfully submitted,

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited the Washington County District School Board's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the District's major Federal programs for the fiscal year ended June 30, 2023. The District's major Federal programs are identified in **SECTION I – SUMMARY OF AUDITOR'S RESULTS** of the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS**.

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major Federal programs for the fiscal year ended June 30, 2023.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the *Auditor's Responsibilities for the Audit of Compliance* section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each

major Federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the District's Federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major Federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a

Federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a Federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a Federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the ***Auditor's Responsibilities for the Audit of Compliance*** section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Respectfully submitted,

Sherrill F. Norman, CPA

SCHEDULE OF FINDINGS AND QUESTIONED COSTS

SECTION I – SUMMARY OF AUDITOR’S RESULTS

Financial Statements

Type of auditor’s report issued on whether the financial statements audited were prepared in accordance with GAAP: Unmodified

Internal control over financial reporting:

 Material weakness(es) identified? No

 Significant deficiency(ies) identified? None reported

Noncompliance material to financial statements noted? No

Federal Awards

Internal control over major Federal programs:

 Material weakness(es) identified? No

 Significant deficiency(ies) identified? None reported

Type of auditor’s report issued on compliance for major Federal programs: Unmodified

Any audit findings disclosed that are required to be reported in accordance with 2 CFR 200.516(a)? No

Identification of major Federal programs:

Assistance Listing Numbers:	Name of Federal Program or Cluster:
10.553 and 10.555	Child Nutrition Cluster
84.010	Title I Grants to Local Educational Agencies
84.425	Education Stabilization Fund

Dollar threshold used to distinguish between type A and type B programs: \$750,000

Auditee qualified as low risk auditee? No

SECTION II – FINANCIAL STATEMENT FINDINGS

No matters are reported.

SECTION III – FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

No matters are reported.

Audit Report No. (Finding No.)	Program/Area	Brief Description	Status	Comments
2023-124 (2022-001)	Title I Grants to Local Educational Agencies (ALN 84.010)	The District did not always comply with Federal regulations by properly allocating Title I program funds to eligible schools resulting in questioned costs totaling \$79,591.	Partially Corrected.	The deficiencies have been corrected; however, the District is in the process of resolving the questioned costs with the grantor.
2023-124 (2022-002)	Education Stabilization Fund (ALN 84.425D)	District controls did not always ensure compliance with the Davis-Bacon Act for Federally funded construction projects exceeding \$2,000.	Fully Corrected.	Corrective action was taken.
