SCHEDULE OF FINDINGS AND RESPONSES
June 30, 2019

Finding 2019-01 – Financial Reporting

Criteria: The School is responsible for accurate financial reporting, which includes detecting and preventing material misstatements in the financial statements, as well as within the underlying records.

Condition: Our audit revealed several misstatements related to the following: (1) cut off and (2) the recording of expenses which resulted in the necessity of adjustments required to be recorded in order to present the financial statements in conformity with generally accepted accounting principles.

Cause: The condition results from School personnel not consistently adhering to the policies and procedures regarding the cash disbursements or reconciliations.

Potential effect: Failure to perform the procedures could result in misappropriation of assets and accounting errors.

Recommendation: We recommend the School improve their financial accounting process to ensure the fair presentation of reported and recorded financial information.

Views of responsible officials: Management will review procedures relating to reviewing financial statements, including reviewing bank reconciliations and postings to the general ledger. Management will try to identify weaknesses in procedures and conduct staff training where necessary.

Finding 2019-02 – Internal Account Deposits and Disbursements

Criteria: The School is responsible for accurate financial reporting, which includes detecting and preventing material misstatements in the financial statements, as well as within the underlying records.

Condition: The School recorded transactions from the internal bank accounts to income or expense based on total transactions on the bank statements, but did not itemize the postings to be consistent with the type of the income or expense.

Cause: The condition results from the bookkeeping function being performed by two different outside contractors. One of the outside contractors is maintaining the internal accounts while the other is maintaining the Full-Time Equivalent (FTE) accounts and producing the overall financial statements. The detail recorded by the contractor maintaining the internal accounts is not being recorded in the same fashion on the full general ledger maintained by the contractor producing the overall financial statements.

Potential effect: Failure to perform the procedures could result in misappropriation of assets and accounting errors.

Recommendation: We recommend the School review procedures and refine guidelines for recording of transactions maintained by the two different outside contractors so that all deposits and disbursements are properly recorded.
