INDEPENDENT AUDITORS' REPORT

To the Board of Directors,
The Seaside School, Inc.:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the discretely presented component unit, each major fund of The Seaside School, Inc. (a component unit of the Walton County School District) as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the School's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

The Seaside School, Inc.'s management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the discretely presented component unit, and each major fund of The Seaside School, Inc. as of June 30, 2019 and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

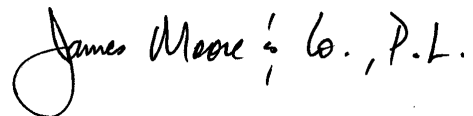

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplementary information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 4, 2019 on our consideration of The Seaside School, Inc.'s internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering The Seaside School, Inc.'s internal control over financial reporting and compliance.

THE SEASIDE SCHOOL, INC.
MANAGEMENT DISCUSSION AND ANALYSIS
JUNE 30, 2019

This discussion and analysis (MD&A) of The Seaside School, Inc.'s ("the School") financial condition provides an overview of financial activity, identifies changes in financial position and assists the reader in focusing on significant financial issues. The primary purpose of the School is to provide an educational program for its students. It is important to the long-term existence of the School to maintain its financial health. Net position is accumulated only to the extent required to ensure that there are sufficient reserve funds for future operations and for new capital needs.

The MD&A provides summary level financial information; therefore, it should be read in conjunction with the accompanying financial statements.

HIGHLIGHTS

Financial Highlights

- Net position totaled \$(45,896)
- Net position decreased \$(230,675)
- Capital assets totaled \$64,372

School Highlights

During the 2018-2019 fiscal year, the School accomplished the following:

Once again rated by the State of Florida as an "A" school, the School was once again awarded \$34,266 in School Recognition money in fiscal year ending June 30, 2019.

OVERVIEW OF THE FINANCIAL STATEMENTS

The basic financial statements consist of three components:

1. Government-wide financial statements
2. Fund financial statements
3. Notes to the financial statements

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The government-wide financial statements provide both short-term and long-term information about the School's overall financial condition in a manner similar to those of a private-sector business. The statements include a statement of net position and a statement of activities that are designed to provide financial information about the governmental activities of the Primary Government presented on the accrual basis of accounting. The statement of net position provides information about the government's financial position, its assets and liabilities, using an economic resources measurement focus. The difference between the assets and liabilities, the net position, is a measure of the financial health of the School. The statement of activities presents information about the change in the School's net position, the results of operations, during the fiscal year. An increase or decrease in net position is an indication of whether the School's financial health is improving or deteriorating.

THE SEASIDE SCHOOL, INC.
MANAGEMENT DISCUSSION AND ANALYSIS
JUNE 30, 2019

GOVERNMENT-WIDE FINANCIAL STATEMENTS
(Continued)

The government-wide statements present the School's activities in two categories:

- Governmental activities - This represents all of the School's services. Support functions such as transportation and administration are also included. State's education finance program provides most of the resources that support these activities.
- Component units - The School presents one separate legal entity in this report, Seaside School Foundation, Inc. Although a legally separate organization, the component unit is included in this report because it meets the criteria for inclusion provided by the governmental accounting standards board. Separately internally issued financial statements for this component unit are available at the School's administrative office.

Over a period of time, changes in the School's net position are an indication of improving or deteriorating financial condition. This information should be evaluated in conjunction with other non-financial factors, such as changes in the School's student enrollment and the condition of the School's capital assets including its school buildings and administrative facilities.

FUND FINANCIAL STATEMENTS

Fund financial statements are one of the components of the basic financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The School uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements and prudent fiscal management. Certain funds are established by law while others are created by legal agreements. Fund financial statements provide more detailed information about the School's financial activities, focusing on its most significant or "major" funds rather than fund types. This is in contrast to the entity-wide perspective contained in the government-wide statements.

All of the School's funds are classified within the following categories:

Governmental Funds - Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, the governmental funds utilize a spendable financial resources measurement focus rather than the economic resources measurement focus found in the government-wide financial statements.

Fiduciary Funds – Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because resources of those funds are not available to support the School's own programs.

This financial resources measurement focus allows the governmental fund statements to provide information on near-term inflows and outflows of spendable resources as well as balances of spendable resources available at the end of the fiscal year.

THE SEASIDE SCHOOL, INC.
MANAGEMENT DISCUSSION AND ANALYSIS
JUNE 30, 2019

FUND FINANCIAL STATEMENTS (Continued)

The governmental fund statements provided a detailed short-term view that may be used to evaluate the School's near-term financing requirements. This short-term view is useful when compared to the long-term view presented as governmental activities in the government-wide financial statements. To facilitate this comparison, both the governmental fund balance sheet and governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation of governmental funds to governmental activities.

The governmental fund balance sheet and the statement of revenues, expenditures and changes in fund balances provide detailed information about the School's most significant funds, not the School as a whole. The School's major funds are the General Fund and Capital Projects Fund.

The School adopts an annual appropriated budget for its major governmental funds. A budgetary comparison schedule has been provided for the General Fund and Capital Projects Fund.

NOTES TO FINANCIAL STATEMENTS

The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements.

FINANCIAL ANALYSIS OF THE SCHOOL'S FUNDS

Major Governmental Funds

The General Fund is the chief operating fund of the School. At the end of the current fiscal year, the total fund balance was \$196,609. The fund balance increased by \$47,386 in fiscal year 2018-2019. The primary cause for the increase in the general fund balance was due slight increases in FEFP funding while expenditures increased marginally.

The Capital Projects Fund had a total fund balance \$674,699. The fund balance increased by \$10,080 in fiscal year 2019. The School did not receive the Local Capital Improvement Revenues that were allocated in previous year however the School did receive PECO funding which was used for the Schools facility lease payments for the fiscal year.

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2019

(1) **Summary of Significant Accounting Policies:**

The following is a summary of the more significant accounting policies of The Seaside School, Inc. (the "School"), which affect significant elements of the accompanying basic financial statements:

(a) **Reporting entity**—The Seaside School, Inc. was created on February 14, 1994, to operate as a charter school under Florida Statutes. The school entered into a contract with Walton County District School Board ("District") to provide an educational program for middle and high school public school students. The School receives a majority of its funding through the District based on a formula of student attendance which is identical to that of other Walton County, Florida public schools. The initial Charter was granted for three years and was extended through August 12, 2014. A renewal agreement has been signed with Walton County School District for an additional 15 years through August 12, 2029. The charter may be renewed in annual increments up to fifteen years by mutual agreement between the School and the District. At the end of the term of the charter, the District may choose not to renew the charter under grounds specified in the charter, in which case the District is required to notify the School in writing at least 90 days prior to the charter's expiration. The Seaside School, Inc. is considered a component unit of the Walton County District School Board.

Criteria for determining if other entities are potential component units which should be reported within the School's basic financial statements are identified and described by the Governmental Accounting Standards Board (GASB). The application of these criteria provides for identification of any entities for which the School is financially accountable and other organizations for which the nature and significance of their relationship with the School are such that exclusion would cause the School's basic financial statements to be misleading or incomplete.

Based on the application of these criteria, the following component unit is included within the School's reporting entity:

Seaside School Foundation, Inc. (the "Foundation") was organized under the laws of the State of Florida on January 17, 2008. The Foundation was incorporated as a nonprofit corporation under state law. The Foundation was organized exclusively for educational and charitable purposes and to build, equip, support, maintain, staff, and operate a not for profit charter school facility at The Seaside School, Inc. Based upon its formation purpose, the Foundation was determined to be a component unit of the School and is presented using discrete presentation within the government-wide financial statements.

Complete financial statements of the component unit can be obtained directly from the School's administrative office, 10 Smolian Circle, Santa Rosa Beach, FL 32459.

(b) **Description of government wide financial statements**—The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. Governmental activities, are normally supported by intergovernmental revenues, and other nonexchange transactions.

(c) **Basis of presentation – government wide financial statements**—While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds. Separate financial statements are provided for governmental funds.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as program revenues include operating grants and contributions. Items not properly included among program revenues, such as monies received from the Walton County District School Board, are reported as general revenues.

The Seaside School Foundation, Inc., shown as a discretely presented component unit, uses the accrual basis of accounting whereby revenues are recognized when earned and expenses are recognized when incurred.

(d) **Basis of presentation – fund financial statements**—The fund financial statements provide information about the government's funds. Separate statement for the fund category, governmental, is presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. Major individual governmental funds are reported as separate columns in the fund financial statements.

The School's financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board. Accordingly, the financial statements are organized on the basis of funds. A fund is an accounting entity having a self-balancing set of accounts for recording assets, liabilities, fund equity, revenues, expenditures, and other financing sources and uses.

Resources are allocated to and accounted for in individual funds based on the purpose for which they are to be spent and the means by which spending activities are controlled.

The School uses the following governmental funds:

General Fund—The general fund is used to record the general operations of the School pertaining to education and those operations not provided for in other funds.

Capital Projects Fund—The capital projects fund is used to account for financial resources to be used for educational capital outlay needs, including new construction, renovation and remodeling projects, and major maintenance projects.

Additionally, the School reports the following Fiduciary Fund:

Agency Fund—Agency fund are custodial in nature and do not involve measurement of results of operations. The School's agency fund accounts for classroom support, special area programs and student activities.

(e) **Measurement focus and basis of accounting**—The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized in the period earned and expenses are recognized when a liability is incurred, regardless of the timing of related cash flows. Amounts reported as program revenues include charges for services, operating grants and contributions, and capital grants and contributions. Items not properly included among program revenues, such as monies received from the Walton County School Board, are reported as general revenues.

When both restricted and unrestricted resources are available for use, it is the School's policy to use restricted resources first, then unrestricted resources as they are needed.

All governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues, except for certain grant revenues, are recognized in the accounting period in which they become both measurable and available. Available means collectible within the current period, or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the School considers revenues to be available if they are collected within sixty days of the end of the current fiscal period. When grant terms provide that the expenditure of resources is the prime factor for determining eligibility for Federal, state, and other grant resources, revenue is recognized at the time the expenditure is made. Under the modified accrual basis of accounting, expenditures are generally recorded when the related fund liability is incurred. The principal exceptions to this are: principal and interest on general long-term debt, which are recorded as expenditures only when payment is due.

The School's financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board. Accordingly, the financial statements are organized on the basis of funds. A fund is an accounting entity having a self-balancing set of accounts for recording assets, liabilities, fund equity, revenues, expenditures, and other financing sources and uses.

Resources are allocated to and accounted for in individual funds based on the purpose for which they are to be spent and the means by which spending activities are controlled.

(f) **Budgetary data**—The budgetary process is prescribed by provisions of the laws of Florida and requires the governing board to adopt an operating budget each year. The School's governing board satisfied these requirements. The adopted budget is subject to amendment throughout the year to give consideration to unanticipated revenue and expenditures primarily resulting from events unknown at the time of budget adoption.

(g) **Cash and cash equivalents**—Cash and cash equivalents include amounts in demand deposits as well as investments that are readily convertible to known amounts of cash. Investments with original maturities of three months or less are considered to be cash equivalents.

(h) **Income taxes**—The School and the component unit are exempt from the payment of income taxes on its exempt activities under Section 501(c)(3) of the Internal Revenue Code. Therefore, no provision for income taxes has been made in the accompanying financial statements.

The School files income tax returns in the U.S. Federal jurisdiction. The School’s income tax returns for the past three years are subject to examination by tax authorities and may change upon examination.

The School has reviewed and evaluated the relevant technical merits of each of its tax positions in accordance with accounting principles generally accepted in the United States of America for accounting for uncertainty in income taxes, and determined that there are no uncertain tax positions that would have a material impact on the financial statements of the School.

(i) **Capital assets**—Capital assets are defined by the School as assets with an initial individual cost of \$1,000 or more and an estimated useful life of more than one year. Such assets are recorded at historical cost. Donated capital assets are recorded at their estimated fair market values at the date of donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets’ lives are not capitalized.

Property, plant and equipment of the School is depreciated using the straight-line method over the following estimated useful lives:

Asset Class	Estimated Useful Lives
Furniture and equipment	5 – 10
Buildings and improvements	20 – 50
Software	3 – 5

(j) **Revenue sources**—Revenues for current operations are received primarily from the Walton County District School Board pursuant to the funding provisions included in the School’s charter. In accordance with the funding provisions of the charter and Section 1002.33(17), Florida Statutes, the School reports the number of full-time equivalent (FTE) students and related data to the Walton County District School Board. Under the provisions of Section 1011.62, Florida Statutes, the Walton County District School Board reports the number of FTE students and related data to the Florida Department of Education (FDOE) for funding through the Florida Education Finance Program. Funding for the School is adjusted during the year to reflect revised calculations by the FDOE under the Florida Education Finance Program and the actual weighted FTE students reported by the School during designated FTE student survey periods.

(k) **Use of estimates**—The process of preparing financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues and expenses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

(1) **Summary of Significant Accounting Policies:** (Continued)

(l) **Fund Balance**—The School follows GASB Statement No. 54, “Fund Balance Reporting and Governmental Fund Type Definitions”, which provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a school’s fund balance more transparent. The following classifications describe the relative strength of the spending constraints:

Nonspendable fund balance—includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact.

Restricted fund balance—includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.

Committed fund balance—includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the School’s Board of Directors. These amounts cannot be used for any other purpose unless the School’s Board of Directors removes or changes the specified use by taking the same type of action (ordinance or resolution) that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements.

Assigned fund balance—includes amounts that are constrained by the School’s intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the School’s Board of Directors or through the School’s Board of Directors delegating this responsibility to the Principal through the budgetary process.

Unassigned fund balance—includes the residual fund balances for the General Fund and Other Governmental Funds.

The School would typically use restricted fund balances first, followed by committed resources, and then assigned resources, as appropriate opportunities arise, but reserves the right to selectively spend unassigned resources first to defer the use of these other classified funds.

(m) **Pensions**—For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Florida Retirement System (FRS) and additions to/deductions from FRS’s fiduciary net position have been determined on the same basis as they are reported by FRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

(1) **Summary of Significant Accounting Policies:** (Continued)

(n) **Deferred outflows/inflows of resources**— In addition to assets and liabilities, the statement of financial position will, if required, report a separate section for deferred outflows of resources and deferred inflows of resources, respectfully. These separate financial statement elements, deferred outflows/inflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow/inflow of resources (expense/expenditure or revenue) until then. Currently, the only item in this category consisted of deferred amounts related to pension.

(o) **Deferred revenues**— Race registrations received in advance in the next years races are recorded as deferred revenues until the race occurs. Revenues will be recognized when the race occurs.

Contributions receivable – Pledges to give in future periods are initially recorded at estimated fair value determined using the discounted present value of expected cash flows, net of an allowance for uncollectable pledges. The discount rates are determined at the time of the pledge is made. Interest revenue

(2) **Significant Funding Source:**

The School receives a substantial amount of its funding from the Walton County District School Board. A significant reduction in the level of this funding, if this were to occur, could have an adverse effect on the School’s programs and activities.

(5) **Operating Lease:**

The School is located on approximately 1/2 acre of land in Santa Rosa Beach, Walton County, Florida. The property, which includes land and building, was donated by the Seaside Community Development Corporation to the Foundation in December 2012. The Foundation leases the property to the School through a lease expiring in June 2019 for \$168,000 per year. Lease payments totaled \$168,000 for the year ended June 30, 2019.

(6) Risk Management:

The School is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters for which the School carries commercial insurance.

(7) Interfund Balances and Transfers

The following is a summary of amounts reported in the governmental fund financial statements. Interfund loans were used rather than maintaining separate cash accounts for each fund or a pooled cash system:

Receivable Fund	Payable Fund	Amount
Capital Projects Fund	General Fund	\$ 666,737
Other Governmental Funds	General Fund	\$ 6,220

Transfers from/to other funds for the year ended June 30, 2019, were as follows:

Recipient Fund	Amount	Reason for Transfer
Other Governmental Funds	\$ 49,339	Transfer from General Fund to aid in operation cost for Internal Funds for the current year.

(8) In-Kind Donations

The Seaside School Foundation, Inc. receives non-cash items or services in exchange for sponsorships of a race that the Foundation holds every year. The amounts recorded are the fair market value of the sponsorships and total \$422,776 for the year ended June 30, 2019.

The School received in-kind space from the Foundation totaling and \$63,590, which is equal to the fair value of the Foundation's lease agreement for the same property with an outside entity.

(9) Commitments

The Seaside School Foundation, Inc. has committed to contributing to a joint construction project with the Seaside Community Development Corporation in which the Seaside School Foundation, Inc. and the Seaside Community Development Corporation will share the cost of the project. As of June 30, 2019, no formal agreement has been entered into. The Seaside School Foundation, Inc. estimates that the Foundation's portion of the shared cost will exceed \$600,000.

(10) Recent Accounting Pronouncements:

The Governmental Accounting Standards Board (“GASB”) has issued several pronouncements that have effective dates that may impact future financial statements. Listed below are pronouncements with required implementation dates effective for subsequent fiscal years that have not yet been implemented. Management has not currently determined what, if any, impact implementation of the following will have on the School’s financial statements:

(a) GASB issued Statement No. 87, *Leases*, in June 2017. GASB 87 increases the usefulness of governments’ financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. The provisions in GASB 87 are effective for periods beginning after December 15, 2019.

(b) GASB issued Statement No. 84, *Fiduciary Activities*, in January 2017. GASB 84 improves guidance regarding the identification and reporting of fiduciary activities. The provisions in GASB 84 are effective for periods beginning after December 15, 2018

(11) Florida Retirement System

Plan Description and Administration

The School participates in the Florida Retirement System (FRS), a multiple-employer, cost sharing defined public employee retirement system which covers all of the School’s full-time employees. The System is a noncontributory retirement plan, administered by the State of Florida, Department of Administration, Division of Retirement to provide retirement and survivor benefits to participating public employees. Provisions relating to the FRS are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and FRS Rules, Chapter 60S, Florida Administrative Code; wherein eligibility, contributions, and benefits are defined and described in detail. The FRS is a single retirement system administered by the Department of Management Services, Division of Retirement, and consists of two cost-sharing, multiple-employer retirement plans and other nonintegrated programs. These include a defined-benefit pension plan (Plan), with a Deferred Retirement Option Program (DROP), and a defined-contribution plan, referred to as the FRS Investment Plan (Investment Plan).

In addition, all regular employees of the School are eligible to enroll as members of the Retiree Health Insurance Subsidy (HIS) Program. The HIS is a cost-sharing, multiple-employer defined benefit pension plan established and administered in accordance with section 112.363, Florida Statutes. The benefit is a monthly payment to assist retirees of the state-administered retirement systems in paying their health insurance costs. For the fiscal year ended June 30, 2019, eligible retirees and beneficiaries received a monthly HIS payment equal to the number of years of service credited at retirement multiplied by \$5. The minimum payment is \$30 and the maximum payment is \$150 per month, pursuant to section 112.363, Florida Statutes. To be eligible to receive a HIS benefit, a retiree under one of the state-administered retirement systems must provide proof of eligible health insurance coverage, which can include Medicare.

Benefits Provided and Employees Covered

Employees enrolled in the Plan prior to July 1, 2011, vest at six years of creditable service and employees enrolled in the Plan on or after July 1, 2011, vest at eight years of creditable service. All vested members, enrolled prior to July 1, 2011, are eligible for normal retirement benefits at age 62 or at any age after 30 years of service. All members enrolled in the Plan on or after July 1, 2011, once vested, are eligible for normal retirement benefits at age 65 or any time after 33 years of creditable service. Members of both Plans may include up to four years of credit for military service toward creditable service. The Plan also includes an early retirement provision; however, there is a benefit reduction for each year a member retires before his or her normal retirement date. The Plan provides retirement, disability, death benefits, and annual cost-of-living adjustments. Benefits under the Plan are computed on the basis of age and/or years of service, average final compensation, and service credit. Credit for each year of service is expressed as a percentage of the average final compensation. For members initially enrolled before July 1, 2011, the average final compensation is the average of the five highest fiscal years' earnings; for members initially enrolled on or after July 1, 2011, the average final compensation is the average of the eight highest fiscal years' earnings. The total percentage value of the benefit received is determined by calculating the total value of all service, which is based on the retirement plan and/or class to which the member belonged when the service credit was earned.

Deferred Retirement Option Program (DROP), subject to provisions of Section 121.091, Florida Statutes, permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payments while continuing employment with an FRS employer. An employee may participate in DROP for a period not to exceed 60 months after electing to participate, except that certain instructional personnel may participate for up to 96 months.

During the period of DROP participation, deferred monthly benefits are held in the FRS Trust Fund and accrue interest.

Employees may elect to participate in the Investment Plan in lieu of the FRS defined-benefit plan. Employer and employee contributions are defined by law, but the ultimate benefit depends in part on the performance of investment funds. The Investment Plan is funded by employer and employee contributions that are based on salary and membership class (Regular, DROP, etc.). Contributions are directed to individual member accounts, and the individual members allocate contributions and account balances among various approved investment choices. Employees in the Investment Plan vest at one year of service.

Net Pension Liability, Pension Expense, and Deferred Outflows and Inflows of Resources Related to Pensions

At June 30, 2019, the School reported a net pension liability related to FRS and HIS as follows:

Plan	Net Pension Liability
FRS	\$ 862,257
HIS	535,114
Total	\$ 1,397,371

The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer proportion of the net pension liability was based on a projection of the School's long-term share of contributions to the pension plan relative to the projected contributions of all participating governmental entities, as actuarially determined. At June 30, 2019 and June 30, 2018, the School's proportionate share of the FRS and HIS net pension liabilities were as follows:

Plan	2019	2018
FRS	.002862688%	.0030041211%
HIS	.005055819%	.0049147380%

For the plan year ended June 30, 2018, pension expense was recognized related to the FRS and HIS plans as follows:

FRS	\$ 180,106
HIS	70,034
Total	\$ 250,140

Deferred outflows/inflows related to pensions:

At June 30, 2019, deferred outflows of resources and deferred inflows of resources related to pensions were recorded from the following sources:

Net Pension Liability, Pension Expense, and Deferred Outflows and Inflows of Resources Related to Pensions (Continued)

The above amounts for deferred outflows of resources for contributions related to pensions resulting from employer contributions subsequent to the measurement date and will be recognized as a reduction of the net pension liability in the year ended June 30, 2020.

Other amounts reported as deferred outflows and deferred inflows of resources related to pensions being amortized for a period of greater than one year will be recognized in pension expense in succeeding years as follows:

2020	\$	162,116
2021		97,276
2022		18,302
2023		50,494
2024		27,214
Thereafter		64,156
Total	\$	<u>419,558</u>

Actuarial assumptions:

The actuarial assumptions for both defined benefit plans are reviewed annually by the Florida Retirement System Actuarial Assumptions Conference. The FRS has a valuation performed annually. The HIS Program has a valuation performed biennially that is updated for GASB reporting in the year a valuation is not performed. The most recent experience study for the FRS was completed in 2014 for the period July 1, 2008, through June 30, 2013. Because HIS is funded on a pay-as-you-go basis, no experience study has been completed.

The total pension liability for each of the defined benefit plans was determined by an actuarial valuation, using the entry age normal actuarial cost method. Inflation increases for both plans is assumed at 2.60%. Payroll growth, including inflation, for both plans is assumed at 3.25%. Both the discount rate and the long-term expected rate of return used for FRS investments is 7.00%. This rate decreased from the prior year rate, which was 7.10%. The plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return. Because HIS Program uses a pay-as-you-go funding structure, a municipal bond rate of 3.87% was used to determine the total pension for the program. This rate increased from the prior year rate, which was 3.58%. Mortality assumptions for both plans were based on the Generational RP-2000 with Projection Scale BB tables.

Net Pension Liability, Pension Expense, and Deferred Outflows and Inflows of Resources Related to Pensions (Continued)

Long-term expected rate of return:

To develop an analytical basis for the selection of the long-term expected rate of return assumption, in October 2018, the FRS Actuarial Assumptions conference reviewed long-term assumptions developed by both Milliman’s capital market assumptions team and by a capital market assumptions team from Aon Hewitt Investment Consulting, which consults to the Florida State Board of Administration. The table below shows Milliman’s assumptions for each of the asset classes in which the plan was invested at that time based on the long-term target asset allocation. The allocation policy’s description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes an adjustment for the inflation assumption. These assumptions are not based on historical returns, but instead are based on a forward-looking capital market economic model.

Asset Class	Target Allocation	Long-Term Arithmetic Expected Rate of Return
Cash	1.0%	2.9%
Fixed income	18.0%	4.4%
Global equities	54.0%	7.6%
Real estate	11.0%	6.6%
Private equity	10.0%	10.7%
Strategic investments	6.0%	6.0%
Total	100.0%	

Sensitivity of the net pension liability to changes in the discount rate:

The following presents the proportionate shares of the FRS and HIS net pension liability of the School calculated using the current discount rates, as well as what the School’s net pension liability would be if it were calculated using a discount rate that is 1% lower or 1% higher than the current rate:

Plan	Current Discount Rate	NPL with 1% Decrease	NPL at Current Discount Rate	NPL with 1% Increase
FRS	7.00%	\$ 1,573,645	\$ 862,257	\$ 271,339
HIS	3.87%	609,463	535,114	473,139

(12) **Investments:**

The Foundation categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

As of June 30, 2019, The Foundation has \$135,386 in mutual funds valued using quoted market prices (Level 1 inputs).

(13) **Deposits:**

Custodial credit risk-deposits. In the case of deposits, this is the risk that in the event of a bank failure, the School's deposits may not be returned. At year end, the carrying amount of the School's deposits was \$1,023,369 and the bank balance was \$1,030,113. Of the bank balance, \$250,000 was covered by Federal depository insurance or by collateral held by the School's custodial bank which is pledged to a state trust fund that provides security for amounts held in excess of FDIC coverage in accordance with the Florida Security for Deposits Act Chapter 280, Florida Statutes.

The Florida Security for Public Deposits Act established guidelines for qualification and participation by banks and savings associations, procedures for the administration of the collateral requirements and characteristics of eligible collateral.

(14) **Subsequent Events:**

The Seaside School, Inc. has evaluated events and transactions for potential recognition or disclosure in the financial statements through September 4, 2019, the date which the financial statements were available to be issued. No subsequent events have been recognized or disclosed.

(15) **Restatements of net position:**

Subsequent to issuance of the June 30, 2018 financial statements, management determined that certain expenses in the Foundation's financial statements should have been capitalized as construction in process. The effect on beginning net position is an increase of \$84,368.

Subsequent to issuance of the June 30, 2018 financial statements, management determined the special revenue fund as presented in the previous period meets the criteria established for fiduciary funds and is to be excluded from the Schools governmental activities. The effect on beginning net position and beginning fund balance is a decrease of \$46,277.

Subsequent to issuance of the June 30, 2018 financial statements, management of the Foundation determined it had not properly accounted for outstanding pledge receivables. The effect on beginning net position of the Foundation is an increase of \$915,897.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To the Board of Directors,
The Seaside School, Inc.:

We have audited in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the discretely presented component unit, and each major fund and the aggregate remaining fund information of The Seaside School, Inc. (a component unit of the School Board of Walton County School District) as of and for the year ended June 30, 2019, and related notes to the financial statements which collectively comprise The Seaside School, Inc.'s basic financial statements and have issued our report thereon dated September 4, 2019.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered The Seaside School, Inc.'s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of The Seaside School, Inc.'s internal control. Accordingly, we do not express an opinion on the effectiveness of The Seaside School, Inc.'s internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether The Seaside School, Inc.'s financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests did not disclose instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**MANAGEMENT LETTER OF INDEPENDENT AUDITORS
REQUIRED BY CHAPTER 10.850, RULES OF THE STATE OF FLORIDA, OFFICE OF THE
AUDITOR GENERAL**

To the Board of Directors,
The Seaside School, Inc.:

Report on the Financial Statements

We have audited the financial statements of The Seaside School, Inc. (a component unit of the School Board of Walton County School District), as of and for the fiscal year ended June 30, 2019, and have issued our report thereon dated September 4, 2019.

Auditor's Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and Chapter 10.850, Rules of the Auditor General.

Other Reporting Requirements

We have issued our Independent Auditors' Report on Internal Control over Financial Reporting and Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards*. Disclosures in that report, which is dated September 4, 2019, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.854(1)(e)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. There were no findings or recommendations made in the preceding annual financial audit report.

Official Title

Section 10.854(1)(e)5., Rules of the Auditor General, requires the name or official title of the entity and the school code assigned by the Florida Department of Education be disclosed in this management letter. The official title and the school code assigned by the Florida Department of Education of the entity are The Seaside School, Inc., 661110.

Financial Condition and Management

Sections 10.854(1)(e)2 And 10.855(11), Rules of the Auditor General, require us to apply appropriate procedures to communicate whether or not The Seaside School, Inc. has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and to identify the specific condition(s) met. In connection with our audit, we determined that The Seaside School, Inc. did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.854(1)(e)6.a. and 10.855(12), Rules of the Auditor General, we applied financial condition assessment procedures for The Seaside School, Inc.. It is management's responsibility to monitor The Seaside School, Inc.'s financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.

Section 10.854(1)(e)3., Rules of the Auditor General, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Transparency

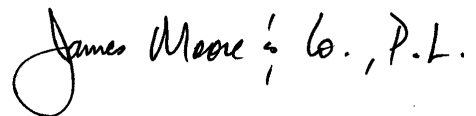

Sections 10.854(1)(e)7. and 10.855(13), Rules of the Auditor General, require that we report the results of our determination as to whether The Seaside School, Inc. maintains on its Web site the information specified in Section 1002.33(9)(p), Florida Statutes. In connection with our audit, we determined that the The Seaside School, Inc. did maintain all of the required information on its Web site as specified in Section 1002.33(9)(p), Florida Statutes.

Additional Matters

Section 10.854(1)(e)4., Rules of the Auditor General, requires that we address noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with our audit, we did not have any such findings.

Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, Walton County District School Board, the Board of Directors, and applicable management and is not intended to be and should not be used by anyone other than these specified parties.
