DISCOVERY ACADEMY OF LAKE ALFRED, INC. MANAGEMENT'S DISCUSSION AND ANALYSIS

Management of Discovery Academy of Lake Alfred, Inc. (the "School") offers the following narrative overview and analysis of the financial activities of the School for the fiscal year ended June 30, 2020. Readers are encouraged to use this information in conjunction with information furnished in the School's financial statements. This summary should not be taken as a replacement for the audit, which consists of the basic financial statements and other supplemental information.

FINANCIAL HIGHLIGHTS

- On March 27, 2020, the President of the United States signed the Coronavirus Aid, Relief and Economic Security Act (the CARES Act). The CARES Act offers, in part, stimulus funds in the form of forgivable loans, and modifications of tax provisions previously passed in the Tax Cuts and Jobs Act. The uncertainty of the pandemic required Schools to move to distance learning for end of the School year.
- ❖ During year fiscal year June 30, 2020, the School applied and received proceeds from a loan originated from First Federal Bank and the Small Business Administration (SBA) in the amount of approximately \$1.7 million that can be partially or totally forgiven if the proceeds are spent on eligibile expenses. This loan was created through the CARES Act.
- ❖ The School's total governmental fund balance at June 30, 2020 is approximately \$1.65 million, an increase of approximately \$1.4 million due to proceeds received from the issuance of debt.
- ❖ The School's governmental revenue and other financial sources exceeded total expenditures by approximately \$1.4 million.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to the School's basic financial statements. The School's basic financial statements consist of three components; 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. The basic financial statements present two different views of the School through the use of government-wide statements and fund financial statements. In addition to the basic financial statements, this report contains other supplemental information that will enhance the understanding of the financial condition of School.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide a broad overview of the School's finances, similar in format to a financial statement of a private-sector business. The government-wide statements provide short and long-term information about the School's financial status as a whole.

The two government-wide statements report the School's net position and the current year changes. The net position is the difference between the School's total assets and total liabilities. Measuring the net position is one way to evaluate the School's financial condition.

The government-wide statements are divided into three categories: 1) governmental activities, 2) business-type activities, and 3) component units. The governmental activities include the School's basic services. The business-type activities are those services that the School charges for not directly related to the School's mission. For the year ended June 30, 2020, the School had no business-type activities or component units.

Fund Financial Statements

The fund financial statements provide a more detailed look at the School's most significant activities. A fund is a grouping of related accounts used to maintain control over resources segregated for specific activities or objectives. All of the operations of the School are presented in governmental funds only.

Governmental funds are used to account for those functions reported as governmental activities in the government-wide financial statements. The School's basic services are accounted for in governmental funds. These funds focus on how assets that can readily be converted into cash flow in and out, and what monies are left at year-end will be available for spending in the next year. Governmental funds are reported using an accounting method called modified accrual accounting. This method also has a current financial resources focus. As a result, the governmental fund financial statements provide a detailed short-term view of the financial resources available to finance the School's programs. The relationship between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is described in a reconciliation that is a part of the fund financial statements.

The School adopts an annual budget for its general fund and special revenue fund as required by the Florida Statutes. The budget is legally adopted by management of the School and its Board. Budgetary comparison schedules have been included as part of the required supplementary information. The budgetary comparison schedules show four columns: 1) the original budget as adopted by the board, 2) the final budget as amended by the board, 3) the actual resources, charges and ending balances in the general fund, and 4) the variance between the final budget and the actual resources and charges.

Notes to Financial Statements

The notes to financial statements provide additional information that is essential to the full understanding of the information reported in the government-wide and fund financial statements. The notes to the financial statements start on page 15 of this report.

Other Reports

This report includes the Independent Auditor's Report on Internal Controls Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards, as well as the management letter required by the Rules of the Auditor General, Chapter 10.850, Audits of Charter Schools and Similar Entities.

GOVERNMENT FUNDS ANALYSIS OF THE SCHOOL

Fund Balances

The School's total governmental fund balance as of June 30, 2020 and 2019 is summarized as follows:

	2020 2019		2019		Increa 019 (Decre		
Assets:							
Current assets	\$	2,289,450	\$	1,009,533	\$	1,279,917	
Total assets		2,289,450		1,009,533		1,279,917	
Liabilities:							
Accounts payable and accrued expenditures		485,854		629,433		(143,579)	
Due to related party		157,128		98,033		59,095	
Total liabilities	-		-	<u> </u>			
Total habilities		642,982		727,466		84,484	
Fund Balances:							
Nonspendable		21,463		22,639		(1,176)	
Restricted for:							
Food services		210,005		209,856		149	
Unassigned		1,415,000		49,572		1,365,428	
Total fund balances	\$	1,646,468	\$	282,067	\$	1,364,401	

The change in current assets is due to an increase in cash balances at year end, as a result of the proceeds from issuance of debt. The overall decrease in payables is due to timing of cash payments.

Change in Fund Balances of Governmental Funds

The School's total revenues and other financial sources exceeded expenditures by approximately \$1.4 million in fiscal 2020—see table below.

	 2020	 2019	(Increase Decrease)
Revenues:				
Federal sources	\$ 1,074,288	\$ 1,244,259	\$	(169,971)
State and local sources	6,762,191	6,554,702		207,489
Contributions and other revenues	947,978	 1,997,457		(1,049,479)
Total revenues	 8,784,457	 9,796,418		(1,011,961)
Expenses:				
Instruction	3,380,345	3,298,969		81,376
Pupil personnel services	724,843	681,983		42,860
Instructional media services	96,519	94,677		1,842
Instructional staff training	153,115	186,365		(33,250)
Board	29,745	38,673		(8,928)
General administration	82,358	81,866		492
School administration	927,018	980,665		(53,647)
Fiscal services	68,645	60,500		8,145
Food services	726,775	926,761		(199,986)
Central services	11,240	31,527		(20,287)
Pupil transportation	983,171	962,292		20,879
Operation of plant	416,622	406,064		10,558
Debt service				
Principal	328,155	405,729		(77,574)
Interest	864,881	922,266		(57,385)
Capital outlay	633,064	 4,817,309		(4,184,245)
Total expenses	 9,426,496	 13,895,646		(4,469,150)
Excess (deficiency) of revenues				
over expenditures	(642,039)	(4,099,228)		3,457,189
Other Financial Sources				
Proceeds from issuance of debt	 2,006,440	 4,352,610		(2,346,170)
Change in fund balance	\$ 1,364,401	\$ 253,382	\$	(1,111,019)

The decrease in contributions and other revenues is due to the decrease in food service and other revenue due to the COVID 19 pandemic. Instructional and pupil personnel services increased due to an increase in personnel. Food service expenditures decreased due to service declines as a result of Covid-19 School closure. Debt service related cost decreased as a result of postponing of three debt service payments which was allowed by the USDA's COVID 19 rules. Capital outlay expenditures decreased as a result of reduced construction on expansion projects compared to 2019.

FINANCIAL ANALYSIS OF THE SCHOOL'S FUNDS

The focus of the School's governmental funds is to provide information on near term inflows, outflows, and balances of usable resources. Such information is useful in assessing the School's financing requirements. Specifically, unrestricted fund balance can be a useful measure of a government's net resources available for spending at the end of the fiscal year.

As the School completed the year, its governmental funds reported a combined fund balance of approximately \$1.6 million.

General and Special Revenue Funds Budgetary Highlights

During the fiscal year, the School amended its budgets twice. Generally, budget amendments fall into one of three categories: 1) amendments made to adjust the estimates that are used to prepare the original budget once exact information is available; 2) amendments made to recognize changes in funding amounts and 3) changes in appropriations that become necessary to maintain services.

In the general fund, budgeted revenues were more than actual amounts by approximately \$781,000. Budgeted expenditures were approximately \$501,000 more than actual amounts.

In the special revenue fund, total budgeted revenues exceeded actual amounts by approximately \$364,000. Expenditures were approximately \$280,000 less than budgeted amounts.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At the end of fiscal 2020, the School invested approximately \$23 million in capital assets, gross of accumulated depreciation of approximately \$3.6 million.

As of June 30, 2020 and 2019 information regarding the School's capital assets is as follows:

	Governme		Increase		
	2020		2019	-'	(Decrease)
Land	\$ 1,870,537	\$	1,870,537		-
Construction in progress	583,264		304,571		278,693
Building	15,828,909		15,828,909		-
Furniture, fixtures, and					
equipment	1,296,623		1,270,882	\$	25,741
Vehicles	2,979,042	•	2,664,046		314,996
Total capital assets	\$ 22,558,375	\$	21,938,945	\$	619,430

This year's major capital asset additions included the following:

- Buses (3) \$315,984
- Construction of building \$278,091

Furniture and equipment assets is presented in Note 5 to the financial statements.

Long-Term Debt

As of June 30, 2020, the School has a total of approximately \$18 million in notes payable outstanding. For more detailed information about the School's long-term liabilities, see Note 6 to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

Amounts available for appropriation in the general fund are approximately \$8.6 million, an increase of approximately \$991,000 from 2020 actual amount exclusive of revenues from internal funds.

Budgeted expenditures in the general fund are approximately \$8 million, including funding for the debt service payments. If these estimates are realized, the School's general fund balance is expected to increase by the end of fiscal year 2021.

CONTACTING THE SCHOOL'S FINANCIAL MANAGEMENT

This financial report is designed to provide interested parties with a general overview of the School's finances and to demonstrate the School's accountability for the money it receives. Should additional information be required, please contact the School's administrative offices at 1000 North Buena Vista Drive, Lake Alfred, Florida 33850.

Independent Auditor's Report

To the Board of Directors of Discovery Academy of Lake Alfred, Inc. a Charter School and Component Unit of the District School Board of Polk County, Florida

Report of Financial Reports

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Discovery Academy of Lake Alfred, Inc. (the "School"), a charter school and component unit of the District School Board of Polk County, Florida, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the School's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the Auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of the School, as of June 30, 2020, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information and pension liability on pages 1 - 6 and 38 - 42 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 30, 2020, on our consideration of the School's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School's internal control over financial reporting and compliance.

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities

For the Year Ended June 30, 2020

Net changes in fund balances - total governmental funds	\$ 1,364,401
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation expense (\$770,553) exceeds capital outlays (\$628,751) in the current period.	(141,802)
Compensated absences included in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.	(274,563)
Proceeds from issuance of long-term debt are reported as an other financial source in the governmental funds. However, in the statement of net position, the amount of funds borrowed is reported as an increase in long-term debt liabilities.	(2,006,440)
Principal payments on long-term liabilities are expenditures in the governmental funds, but the repayments reduce long-term liabilities in the statement of net position.	328,155
In the Statement of Activities, some revenues and expenses are recognized that do not provide current financial resources and are not recognized in the governmental funds, such as deferred inflow and outflow of resources.	(675,149)
Change in net position of governmental activities	\$ (1,405,398)

A Charter School and Component Unit of the District School Board of Polk County, Florida

Notes to Financial Statements

For the Year Ended June 30, 2020

1 ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

Discovery Academy of Lake Alfred, Inc. (the "School") is a not-for-profit corporation organized pursuant to chapter 617, Florida Statutes and the Florida Not-for-Profit Corporation Act. The governing body of the School is the not-for-profit corporation Board of Directors (the "Board"), which is composed of five members. Effective July 1, 2001, the School converted from a public school to a charter school.

The general operating authority of the School is contained in Section 1002.33, Florida Statutes. The School operates under a charter of the sponsoring school district, the District School Board of Polk County, Florida, (the "School Board"). The School is considered a component unit of the School Board of Polk County, Florida and meets the definition of a governmental entity under the Governmental Accounting Standards Board ("GASB").

Charter Contract

The current charter expires June 30, 2033 and may be renewed for a maximum of an additional fifteen years by mutual written agreement between the School and the School Board. Upon the expiration of the charter, the School Board may elect not to renew the charter under grounds specified in the charter. In this case, the School Board is required to notify the School in writing at least 90 days prior to the charter's expiration. However, the School Board may terminate the current charter at any time if good cause is shown. In the event of termination of the charter, any property purchased by the School with public funds and any unencumbered public funds revert back to the School Board.

Basis of Presentation

Based on the guidance provided in the American Institute of Certified Public Accountants Audit and Accounting Guide – *Audits for States and Local Governments* and provisions in the Florida Statutes, the School is considered a governmental organization for financial statement reporting purposes. The School is required by its agreement with the School Board to use the governmental reporting model and follow the fund and accounting structure provided in the "Financial and Program Cost Accounting and Reporting for Florida Schools – The Red Book" issued by the Florida Department of Education ("FDOE").

Government-Wide Financial Statements

The government-wide financial statements provide both short-term and long-term information about the School in a manner similar to those of a private-sector business. The statement of net position and statement of activities are designed to provide financial information as a whole about the School on an accrual basis of accounting. The statement of net position provides information about the School's financial position, its assets and its liabilities, using an economic resources measurement focus.

A Charter School and Component Unit of the District School Board of Polk County, Florida

Notes to Financial Statements

(continued)

The statement of activities presents a comparison between direct expenses and program revenue for each function or program of the School's governmental activities. Direct expenses are those that are specifically associated with a program or function, therefore, are clearly identifiable to a particular function.

Program revenues include charges paid by the recipient of goods and services offered by the program and grants and contributions that are restricted for meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues.

Fund Financial Statements

The governmental fund financial statements report detailed information about the School's most significant funds, not the School as a whole. A fund is a group of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The School uses fund accounting to ensure and demonstrate compliance with finance related requirements. Certain funds received are established by law while others are created by grant agreements. The following are the individual governmental funds that are reported in these fund financial statements:

- General Fund the School's primary operating fund that accounts for all financial resources of the school, except those that are required to be accounted for in another fund.
- <u>Special Revenue Fund</u> to account for the proceeds of specific revenue sources that are restricted or committed to expenditures for a specific purpose.
- <u>Debt Service Fund</u> to account for the accumulation of resources for, and payment of, general long-term debt principal, interest and related costs.
- <u>Capital Projects Fund</u> to account for all resources for the acquisition of capital items by School purchased with capital outlay funds.

For the purpose of these statements, the general, special revenue and capital projects funds are considered major funds. The debt service fund is reported as an other governmental fund.

Basis of Accounting

Basis of accounting refers to when revenues and expenses/expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The government-wide financial statements are reported using the accrual basis of accounting. Revenues are recognized when earned and expenses/expenditures are recognized when a liability is incurred, regardless of the timing the related cash flows take place.

A Charter School and Component Unit of the District School Board of Polk County, Florida

Notes to Financial Statements

(continued)

The governmental fund financial statements are reported using the modified accrual basis of accounting. Under this method, revenues, except for certain grant revenues, are recognized when they become measurable and available. Revenues are considered to be available when they are collectable within a current period. The School considers revenues to be available if they are collected within 60 days after the end of the current fiscal year. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on long-term debt, claims and judgments, and compensated absences, which are recognized when due. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisition of capital leases are reported as other financing sources.

Budgetary Basis Accounting

Budgets are prepared using the modified accrual basis of accounting and the governing board must approve all budgets and amendments. During the fiscal year, expenditures were controlled at the object level. Budgets may be amended by resolution of the Board prior to the date of the annual report.

Use of Estimates

In preparing the financial statements in conformity with accounting principles generally accepted in the United States, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the balance sheet and revenues and expenses/expenditures for the period presented. Actual results could differ significantly from those estimates.

Cash and Cash Equivalents and Investments

The School's cash and cash equivalents consist primarily of demand deposits with financial institutions.

As State of Florida Statutes and the School's policy require, all deposits be made into and held by financial institutions designated by the treasurer of the State of Florida as qualified public depositories as defined by Chapter 280 of the Florida Statutes. This statute requires that every qualified public depository institution maintain eligible collateral to secure the public entity's funds. The minimum collateral to be pledged by the institution, the collateral eligible for pledge, and reporting requirements of the qualified public depositor to the treasurer is defined by the ability to assess members of the pool should the need arise. The School's deposits are held in a qualified public depository. They are covered by the collateral pool as the School has identified itself as a public entity at June 30, 2020.

A Charter School and Component Unit of the District School Board of Polk County, Florida

Notes to Financial Statements

(continued)

Interfund Receivables and Payables

Activities between the funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as due to/from other funds. The general fund has recorded total receivables of approximately 99,000 which relates to amounts paid by the special revenue fund on behalf of the general fund.

Interfund Transfers

The School reports its debt service fund funds expenditures in the other governmental funds. For the year ended June 30, 2020, the general fund transferred approximately \$600,000 to the capital projects fund and \$1,136,000 to the other governmental funds for the current year capital outlay and debt service payments, respectively.

Capital Assets and Depreciation

The School's capital assets with useful lives of more than one year are stated at historical cost and reported in the statement of net position in the government-wide financial statements. Donated capital assets are recorded at their estimated fair value on the date donated. The School capitalizes assets with a cost of \$1,000 or more. Expenditures of normal maintenance and repair that do not add to the assets value or extend the useful lives are not capitalized. Depreciation is computed using the straight-line method. Estimated useful lives of the assets are as follows:

	<u>Years</u>
Furniture, fixtures, and equipment	3 – 5
Vehicles	10
Building	39

Compensated Absences

Compensated absences (i.e. paid absences for employee vacation leave and sick leave) are recorded as expenditures in the governmental funds when leave is used or when accrued as payable to employees entitled to cash payment in lieu of taking leave. In the government-wide financial statements, compensated absences are recorded as an expense when earned by the employee.

Pensions

In the government-wide statement of net position, liabilities are recognized for the School's proportionate share of each pension plan's net pension liability. The net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and additions to/deductions from the FRS's and the HIS's fiduciary net position have been determined on the same basis as they are reported by the FRS and the HIS plans. For this

A Charter School and Component Unit of the District School Board of Polk County, Florida

Notes to Financial Statements

(continued)

purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value. The School's retirement plans and related amounts are described in Note 7.

Net Position and Fund Balance Classifications

Government-wide financial statements

Net position is classified and reported in three components:

- <u>Investment in capital assets, net of related debt</u> consists of capital assets net of accumulated depreciation and reduced by the outstanding balances of any borrowings that are attributed to the acquisition or improvement of those assets.
- Restricted consists of amounts with constraints placed on their use either by external groups such as creditors, grantors, contributors or laws or regulations of other governments.
- <u>Unrestricted</u> all other amounts that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."

Fund financial statements

GASB Codification Section 1800.142, *Fund Balance Reporting and Governmental Fund Type Definitions*, defines the different types of fund balances that a governmental entity must use for financial reporting purposes. GASB requires the fund balance amounts to be reported within one of the following fund balance categories:

- <u>Nonspendable</u> fund balance associated with inventories, prepaid expenses, long-term loans and notes receivable, and property held for resale (unless the proceeds are restricted, committed or assigned). All nonspendable fund balances at year end relate to assets that are in nonspendable form.
- Restricted fund balance that can be spent only for the specific purposes stipulated by the constitution, external resource providers, or through enabling legislation.
- <u>Committed</u> fund balance that can be used only for the specific purposes determined by a formal action of the School's Board of Governance.
- <u>Assigned</u> fund balance that is intended to be used by the School's management for specific purposes but does not meet the criteria to be classified as restricted or committed.
- <u>Unassigned</u> fund balance that is the residual amount for the School's general fund and includes all spendable amounts not contained in the other classifications.

This statement also clarifies the definition of the Special Revenue Fund to denote it may be used to account for the proceeds of specific revenue sources (other than trusts for individual, private organizations or other governmental agencies or for major capital projects) that are legally restricted to expenditures for specified purposes.

A Charter School and Component Unit of the District School Board of Polk County, Florida

Notes to Financial Statements

(continued)

Order of Fund Balance Spending Policy

The School's policy is to apply expenditures against non-spendable fund balance, restricted fund balance, committed fund balance, assigned fund balance, and unassigned fund balance at the end of the fiscal year. First, nonspendable fund balances are determined. Then restricted fund balances for specific purposes are determined (not including nonspendable amounts). Any remaining fund balances not included in the general funds are classified as restricted fund balance. It is possible for the amounts not included in the general fund to be classified as restricted fund balance. It is possible for the amounts not included in the general fund to have negative unassigned fund balance when nonspendable amounts plus the restricted fund balances for specific purposes amounts exceed the positive fund balance for the non-general fund.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position reports a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The school has one item that qualifies for reporting in this category which is the deferred amount of pension reported in the government-wide statement of net position.

In addition to liabilities, the statement of financial position reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The School has one item that qualifies for reporting in this category which is the deferred amount of pension reported in the government-wide statement of net position. A deferred amount of pension results from the difference in the expected and actual amounts of experience, earnings and contributions. This amount is deferred and amortized over the service life of all employees that are provided with pensions through the pension plan. However, earnings are amortized over 5 years.

Revenue Sources

Revenues for operations are provided primarily from the District School Board of Polk County, Florida pursuant to the funding provisions included in the School's charter. In accordance with the funding provisions of the charter and Section 1002.33, Florida Statutes, the School reports the number of full-time equivalent (FTE) students and related data to the School Board. The School Board receives a 5% administrative fee from the School, which is withheld from the respective Florida Education Finance Program (FEFP) payments. The administrative expense is reflected as a general administration expense/expenditure in the accompanying statement of activities and statement of revenues, expenditures and changes in fund balances of governmental funds. The administrative fee is calculated on the FEFP revenue up to 250 students. The difference between the actual expense and the expense calculated on total FEFP revenue is

A Charter School and Component Unit of the District School Board of Polk County, Florida

Notes to Financial Statements

(continued)

restricted for capital outlay expenditures. As of June 30, 2020, the School had expended all restricted funds for this purpose.

Under provisions of Section 1011.62, Florida Statutes, the District reports the number of FTE students and related data to the Florida Department of Education (FDOE) for funding through the FEFP. Funding for the School is adjusted during the year to reflect the revised calculations by the FDOE under FEFP and the actual weighted full-time equivalent students reported by the School during the designated full-time equivalent student survey period. The FDOE may also adjust subsequent fiscal period allocations based on an audit of the School's compliance in determining and reporting FTE and related data. Generally, such adjustments are treated as reductions or additions of revenues in the year when the adjustments are made.

The basic amount of funding through the FEFP under Section 1011.62 is calculated based on (1) unweighted FTE, multiplied by (2) the cost factor for each program multiplied by (3) the base student allocation established by the Florida legislature. Additional funds for exceptional students who do not have a matrix of services are provided through the guaranteed allocation designated in Section 1011.62(1)(e)2., Florida Statutes. For the year ended June 30, 2020, the School reported 970.94 unweighted FTE.

The School received additional funding under other federal and state grants. This assistance is generally received based on applications submitted to various granting agencies. For federal and state grants in which funding is awarded based on incurring eligible expenditures, revenue is recognized as the amount of eligible expenditures have been incurred.

Recently Issued Accounting Pronouncements

In January 2017, the GASB issued Statement No. 84, Fiduciary Activities, which provides additional clarity and improves guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. Fiduciary activities include the cumulative effect of any changes adopted to conform to the provisions of this guidance would be reported as a restatement of beginning net position and fund balance. The School did not identify fiduciary activities that would materially affect financial statements for this reporting period. The effective implementation date is June 30, 2020.

In June 2017, the GASB issued Statement No. 87, Leases. This pronouncement requires recognition and reporting of certain lease assets and liabilities for leases that previously were classified as operating leases. Under this pronouncement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, thereby enhancing the relevance and consistency of information about a school's leasing activities. The cumulative effect of any changes implemented to conform to this pronouncement would be reported as a restatement of beginning net position and fund balance. The School is currently evaluating the effect that implementation of the new standard will have on its financial statements. The effective implementation date is June 30, 2021.

A Charter School and Component Unit of the District School Board of Polk County, Florida

Notes to Financial Statements

(continued)

In June 2018, the GASB issued Statement No. 89, Capitalized Interest. GASB would now require interest costs incurred during the construction period to be recognized as an expense in the period in which the cost is incurred under the economic resource measurement focus. The effective implementation date is June 30, 2021.

The GASB issued in May 2020, Statement No 95, Postponement of the Effective Dates of Certain Authoritative Guidance, due to the ramifications of the Pandemic. This pronouncement was effective immediately upon issuance. The School will continue to evaluate these pronouncements with their current situation.

2 FAIR VALUE MEASUREMENTS

Accounting principles generally accepted in the United States (GAAP) define fair value for an investment generally as the price an organization would receive upon selling the investment in an orderly transaction to an independent buyer in the principal or most advantageous market for the investment. The information available to measure fair value varies depending on the nature of each investment and its market or markets. Accordingly, GAAP recognizes a hierarchy of "inputs" an organization may use in determining or estimating fair value. The inputs are categorized into "levels" that relate to the extent to which an input is objectively observable and the extent to which markets exist for identical or comparable investments. In determining or estimating fair value, an organization is required to maximize the use of observable market data (to the extent available) and minimize the use of unobservable inputs. The hierarchy assigns the highest priority to unadjusted quoted prices in active markets for identical items (Level 1 inputs) and the lowest priority to unobservable inputs (Level 3 inputs).

The fair value hierarchy distinguishes between independent observable inputs and unobservable inputs used to measure fair value as follows:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.
- Level 2: Inputs other than quoted market prices included within Level 1 that are observable for an asset or liability, either directly or indirectly.
- Level 3: Unobservable inputs for an asset or liability. Level 3 inputs should be used to measure fair value to the extent that observable level 1 or 2 inputs are not available.

A Charter School and Component Unit of the District School Board of Polk County, Florida

Notes to Financial Statements

(continued)

The estimated fair value of the School's pension liability and related deferred outflows and inflows determined using Level 3 inputs is based on information provided by the Auditor General. The estimated fair value of the School's pensions and related deferred outflows and inflows using Level 3 inputs is determined by calculating the present value of the future distributions expected to be paid, using published life expectancy tables and discount rates ranging from approximately 2% to 7.6%. There were no changes in valuation techniques during the year.

The carrying values of cash and cash equivalents, investments, cash restricted for long-term purposes, and the note payable do not differ materially from reasonable estimates of fair value, as the terms of such instruments do not vary significantly from the assumptions that would be made in estimating fair value.

Estimated fair value of certain assets and (liabilities) measured on a recurring basis at June 30, 2020, are as follows:

	 Level 1		evel 2	Level 3	Total
Investments Pension liability Deferred inflows and outflows relating to	\$ 781,690 -	\$	- -	\$ - (5,486,793)	\$ 781,690 (5,486,793)
pension liability	-		-	2,157,725	2,157,725
Total	\$ 781,690	\$	-	\$(3,329,068)	\$(2,547,378)

3 INVESTMENTS

The School had the following investments and maturities as of June 30, 2020:

Investment		Investment Maturities (in Years)			
	Fair Value		Less than 1		1 - 5
Exchange traded equity funds	\$ 130,383	\$	130,383	\$	-
Equity mutual funds	801,097		801,097		-
Bond mutual funds	 125,493		125,493		
Total securities	\$ 1,334,642	\$	1,334,642	\$	-
Unsettled cash	 (552,952)		(552,952)		
Total investment balance	\$ 781,690	\$	781,690	\$	-

A Charter School and Component Unit of the District School Board of Polk County, Florida

Notes to Financial Statements

(continued)

Interest Rate Risk: As a means of limiting its exposure to fair value losses, the School's investment policy adheres to Florida Statutes.

Credit Risk: State law limits investments of surplus public funds to the Prudent Investment Act. The School's investment policy is to follow the guidelines of the Prudent Investment Act. All of the School's investments are in compliance as of June 30, 2020.

Concentration of Credit Risk: More than 5 percent of the School's investments are from the following issuers:

Issuer:	Amount	Percentage of Total Investments
Glenmede Large Cap Growth Fund	\$143,850	10.95%
IShares Russell 1000 Growth ETF	\$126,516	9.63%
JPMorgan Equity Income Select Shares	\$134,526	10.24%
IShares Russell 1000 Value EFT	\$102,539	7.80%

4 DUE FROM OTHER AGENCIES

Due from other agencies included in the accompanying financial statements includes approximately \$64,000 in reimbursements from the School Board for Title I due to the School. Based on the source of these funds, management has evaluated the collectability and an allowance for doubtful accounts is not considered necessary.

A Charter School and Component Unit of the District School Board of Polk County, Florida

6 NOTES PAYABLE

The School's long-term notes payable are as described below:

USDA Guaranteed promissory note to a financial institution with maximum available of \$4,380,000 for the purpose additional school facilities. The interest rate is established by the 5-year Consistent Maturity Treasury (CMT) plus 280 basis points (6.5% at June 30, 2020). The interest rate is adjusted every 5-years during the term of the loan based on the 5-year CMT as of the adjustment date plus 280 basis points. Provisions of the loan provide for interest only payments for the first 12 months during the construction phase. The loan converts after the first 12 months to require monthly interest and principal payments amortized over the remaining term of the loan, which commences September 2019. The loan has a 40 year amortization and matures March 2059.

\$ 4,375,567

Promissory note to a financial institution secured by the land and building. There is a fixed interest rate of 5.88% per annum until February 2022. The interest rate will then be adjusted every 5 years to 4.0% over the U.S. Treasury Security 5 year rate. Terms of the note include annual interest only payments beginning February 2018 until January 2018. Annual principal and interest payments of \$45,767 commences February 2018. The note is due and payable in full December 2041.

6,669,878

Promissory note to a financial institution secured by the land and building. There is a fixed interest rate of 5.03% per annum until September 2022. The interest rate will then be adjusted every 5 years to 3.2% over the U.S. Treasury Security 5 year rate. Terms of the note include annual interest only payments beginning May 2018 until September 2018. Annual principal and interest payments of \$24,645 commences October 2018. The note is due and payable in full in September 2057.

4,940,196

Note payable to a financial institution is secured by the School's vehicles purchased under the notes. Terms of the note include monthly interest and principal payments of \$7,396, with a fixed interest rate of 4.59%. The note payable matures June 2021.

86,497

Note payable to a financial institution is secured by the School's vehicles purchased under the notes. Terms of the note include monthly interest and principal payments of \$5,938, with a fixed interest rate of 5.25%. The note payable matures September 2022.

104,560

A Charter School and Component Unit of the District School Board of Polk County, Florida

Notes to Financial Statements

(continued)

Note payable to a financial institution is secured by the School's vehicles purchased under the notes. Terms of the note include monthly interest and principal payments of \$1,968, with a fixed interest rate of 6.50%. The note payable matures September 2023

73,887

Note payable to a financial institution is secured by the School's vehicles purchased under the notes. Terms of the note include monthly interest and principal payments of \$6,152, with a fixed interest rate of 6.15%. The note payable matures July 2024

301,980

In April 2020, the School entered into a note payable with CenterState Bank as lender, in the amount of \$1,691,443 plus interest. The School received this loan pursuant to the Paycheck Protection Program under the Coronavirus Aid, Relief, and Economic Security Act (CARES) which is funded by Small Business Administration. The School anticipates using all the proceeds for eligible expenses and, therefore, expects all of the loan will be forgiven.

1,691,443

Total

\$ 18,244,006

Future debt service requirements related to the long-term notes payable are as follows:

Year Ended June 30:	Principal		Principal Interest			Total

Total	\$	18,244,006	\$	16,793,500	 \$	35,037,506

Interest paid during the year ended June 30, 2020 totaled approximately \$865,000.

A Charter School and Component Unit of the District School Board of Polk County, Florida

Notes to Financial Statements

(continued)

Activity during fiscal year 2020 was as follows:

Balance outstanding at the beginning of year	\$ 16,565,721
Additions	2,130,163
Reductions	 451,877
Balance outstanding at the end of year	\$ 18,244,006

7 PENSION PLANS

The Florida Department of Management Services, Division of Retirement ("Division"), is part of the primary government of the state of Florida and is responsible for administering the Florida Retirement System Pension Plan and Other State-Administered Systems ("System"). The School participates in two defined benefit plans administered by the Division. The Division issued a publicly available, audited comprehensive annual financial report (CAFR) on behalf of the system that includes financial statements, notes and required supplementary information for each of the pension plans. Detailed information about the plans is provided in the CAFR, which is available online, or by contacting the Division.

Cost-Sharing Defined Benefit Plans

As required by Governmental Accounting Standards Board Statement No. 68, *Accounting and Financial Reporting for Pensions* (GASB 68), this report includes the allocation of the collective net pension liability and associated pension expense, deferred outflows of resources and deferred inflows of resources for each of the participating employers in the system's cost-sharing, multiple employer defined benefit plans:

• The Florida Retirement System ("FRS") Pension Plan is a cost-sharing, multiple-employer qualified defined benefit pension plan with a Deferred Retirement Option Program ("DROP") available for eligible employees. The FRS was established and is administered in accordance with Chapter 121, Florida Statutes. The Florida Legislature establishes and amends the contribution requirements and benefit terms of the FRS Pension Plan. Retirees receive a lifetime pension benefit with joint and survivor payment options. FRS membership is compulsory for employees filling regularly established positions in a state agency, county agency, state university, state community college, or district school board, unless restricted from FRS membership under sections 121.053 and 121.122, Florida Statutes, or allowed to participate in a nonintegrated defined contribution plan in lieu of FRS membership. Participation by cities, municipalities, special districts, charter schools and metropolitan planning organizations is optional.

A Charter School and Component Unit of the District School Board of Polk County, Florida

Notes to Financial Statements

(continued)

• The Retiree Health Insurance Subsidy ("HIS") Program is a cost-sharing, multiple-employer defined benefit pension plan established and administered in accordance with section 112.363, Florida Statutes. The Florida Legislature establishes and amends the contribution requirements and benefit terms of the HIS Program. The benefit is a monthly payment to assist retirees of the state-administered retirement systems in paying their health insurance costs. For the fiscal year ended June 30, 2019, eligible retirees and beneficiaries received a monthly HIS payment equal to the number of years of service credited at retirement multiplied by \$5. The minimum payment is \$30 and the maximum payment is \$150 per month, pursuant to section 112.363, Florida Statutes. To be eligible to receive a HIS benefit, a retiree under one of the state-administered retirement systems must provide proof of eligible health insurance coverage, which may include Medicare.

Employer Contributions

Contributions are recognized as revenue in the period for which the contributions are due pursuant to statutory and contractual requirements. Employee contributions required pursuant to section 121.71(3), Florida Statutes, are accounted for by the FRS as employer-paid employee contributions and are treated as employer contributions under 26 U.S.C. s. 414(h)(2) allowing these contributions to be deducted on a pre-tax basis. Pension expense reported in the pension allocation schedules is reduced by these amounts.

Total employer contributions are determined on a uniform basis (blended rate) as required by Part III of Chapter 121, Florida Statutes. Employer contributions reflected in the financial statements and in the pension allocation schedules for the cost-sharing defined benefit plans represent contributions specific to each defined benefit plan and do not equal total blended contributions remitted by the employer.

Contribution rates were as follows:

	Percent o	f Gross Salary
Class or Plan	Employee	Employer (A)
Regular class	3%	8.47%
Senior management	3%	25.48%
Drop	N/A	14.60%

⁽A) Employer rates include 1.66% for the Retiree Health Insurance Subsidy, assessment of 0.06% for administration for the FRS Investment Plan and the administration of the MyFRS Financial Guidance Program for both plans, and an unfunded actuarial liability contribution determined by membership class.

A Charter School and Component Unit of the District School Board of Polk County, Florida

Notes to Financial Statements

(continued)

Net Pension Liability

The components of the collective net position liability of the participating employers for each defined benefit plan for the measurement date of June 30, 2019 are shown below (in thousands):

		FRS	 HIS
Total pension liability Plan fiduciary net position	\$	198,012,334 (163,573,726)	\$ 11,491,044 (302,045)
Net pension liability	\$	34,438,608	\$ 11,188,999
Plan fiduciary net position as a percentage Of the total pension liability		82.61%	2.63%

The total pension liability for the FRS was determined by the plan's actuary and reported in the plan's GASB 67 valuation as of June 30, 2019. The fiduciary net position used by the actuary to determine the net pension liability (as shown above) was determined on the same basis used by the plan. The fiduciary net position is reported in the financial statements and the net pension liability is disclosed in the notes to the financial statements. Update procedures were not used.

The HIS actual valuation was prepared as of July 1, 2018, and update procedures were used to determine liability as of June 30, 2019. The fiduciary net position used by the actuary to determine the net position liability (as shown above) was determined on the same basis used by the plan. The fiduciary net position is reported in the financial statements and the net position liability is disclosed in the notes to the financial statements.

Actuarial Methods and Assumptions

The Florida Retirement System (FRS) Actuarial Assumption Conference is responsible for setting the assumptions used in the funding valuations of the defined benefit pension plan pursuant to section 216.136(10), Florida Statutes. The Division determines the assumptions in the valuations for GASB 67 reporting purposes. The FRS Pension Plan's GASB 67 valuation is performed annually. The HIS Program has a valuation performed biennially that is updated for GASB reporting in the year a valuation is not performed. The most recent experience study for the FRS Pension Plan was completed in 2019 for the period July 1, 2013, through June 30, 2018. Because the HIS Program is funded on a pay-as-you-go basis, no experience study has been completed for that program. The actuarial assumptions that determined the total pension liability for the HIS Program were based on certain results of the most recent experience study for the FRS Pension Plan.

A Charter School and Component Unit of the District School Board of Polk County, Florida

Notes to Financial Statements

(continued)

The total pension liability for each cost-sharing defined benefit plan was determined using the individual entry age actuarial cost method. Inflation increases for both plans is assumed at 2.60%. Payroll growth, including inflation, for both plans is assumed at 3.25%. Both the discount rate and the long-term expected rate of return used for FRS Pension Plan investments is 6.90%. The plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return.

Because the HIS Program uses a pay-as-you-go funding structure, a municipal bond rate of 3.50% was used to determine the total pension liability for the program (Bond Buyer General Obligation 20-Bond Municipal Bond Index). Mortality assumptions for both plans were based on the PUB-2010 base table, projected generationally with Scale MP-2018, and mortality assumptions for the HIS Program were based on the Generational RP-2000 with Projected Scale BB tables.

The following changes in actuarial assumptions occurred in 2019:

- FRS: The long-term expected rate of return was decreased from 7.00% to 6.90%, and the mortality assumption was changed from the Generational PR-2000 with Projection Scale BB tables to the PUB-2010 base table, projected generationally with Scale MP-2018.
- HIS: The municipal rate used to determine total pension liability was decreased from 3.87% to 3.50%.

Sensitivity Analysis

The following tables demonstrate the sensitivity of the net pension liability to changes in the discount rate. The sensitivity analysis shows the impact to the collective net pension liability of the participating employers if the discount rate was 1.00% higher or 1.00% lower than the current discount rate at June 30, 2019.

School's Proportionate Share of FRS
Net Pension Liability

Notes to Financial Statements

(continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions:

At June 30, 2020, the School reported a liability of \$5,486,793 for its proportionate share of the Plan's net pension liability. The School's proportionate share reported in the pension allocation schedules was calculated using accrued retirement contributions related to the reporting periods included in the system's fiscal years ended June 30, 2013, through June 30, 2019, for employers that were members of the FRS and HIS during those fiscal years.

The proportion calculated based on contributions for each of the fiscal years presented in the pension allocation schedules was applied to the net pension liability and other pension amounts applicable to that fiscal year to determine each employer's proportionate share of the liability, deferred outflows of resources, deferred inflows of resources and associated pension expense.

The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2019. The School's proportionate share of the net pension liability was based on the School's 2018-19 fiscal year contributions relative to the 2016-17 fiscal year contributions of all participating members.

The School's proportions are as follows:

June 30, 2019 June 30, 2018 Change	FRS	HIS		
•	.01031% .00957%	.01732% .01613%		
Change	.00074%	.000119%		

In accordance with GASB 68, paragraphs 54 and 71, changes in the School's proportionate share of the net pension liability are recognized in pension expense in the current measurement period, except as indicated below. For each of the following, a portion is recognized in pension expense in the current reporting period, and the balance is amortized as deferred outflows or deferred inflows of resources using a systematic and rational method over a closed period, as defined below:

- Differences between expected and actual experience with regard to economic and demographic factors – amortized over the average expected remaining service life of all employees that are provided with pensions through the pension plan (active and inactive employees).
- Changes of assumptions or other inputs amortized over the average expected remaining service life of all employees that are provided with pensions through the pension plan (active and inactive employees).
- Changes in proportion and differences between contributions and proportionate share of

A Charter School and Component Unit of the District School Board of Polk County, Florida

Notes to Financial Statements

(continued)

contributions amortized over the average expected remaining service life of all employees that are provided with pensions through the pension plan (active and inactive employees)

 Differences between expected and actual earnings on pension plan investments – amortized over five years.

Employer contributions to the pension plans from the School's employers are not included in collective pension expense; however, employee contributions are used to reduce pension expense.

The average expected remaining service life of all employees provided with pensions through the pension plans at June 30, 2019, was 6.4 years for FRS and 7.2 years for HIS.

At June 30, 2019, the School reported deferred outflows of resources and deferred inflow of resources related to the pensions from the following sources:

		FF	RS	
Description	Deferred Outflows of Resources		I	eferred nflows of esources
Differences between expected and actual experience	\$	210,498	\$	2,202
Changes of assumptions		911,521		-
Net difference between projected and actual earnings investments		-		196,346
Employer-specific amounts due to changes in employer proportion		380,851		35,091
School FRS contributions subsequent to the measurement date		352,426		
Total	\$	1,855,296	\$	233,639

A Charter School and Component Unit of the District School Board of Polk County, Florida

Notes to Financial Statements

8 SCHEDULE OF STATE AND LOCAL REVENUE SOURCES

District School Board of Polk County, Florida:

Florida Education Finance Program	\$ 4,039,572
Class size reduction	843,349
Transportation	576,762
Discretionary millage funds	270,922
Supplemental academic instruction	249,740
Discretionary stabilization	247,441
ESE guaranteed allocation	197,307
Best and brightest	89,657
Instructional materials	78,004
Total funds compression	52,809
Safe schools	51,874
Reading allocation	37,595
Lead teacher	14,976
Fuel rebate	8,389
Digital classroom allocation	2,916
Discretionary lottery funds	878
Total	\$ 6,762,191

The administrative fee paid to the School Board during the year ended June 30, 2020 totaled approximately \$82,000, which is reflected as a general administration expense/expenditure in the accompanying statement of activities and statement of revenues, expenditures and changes in fund balances of governmental funds.

9 RISK MANAGEMENT PROGRAM

Workers' compensation coverage, health and hospitalization, general liability, professional liability and property coverage are being provided through purchased commercial insurance with minimum deductibles for each line of coverage. Settled claims resulting from these risks have not historically exceeded commercial coverage.

A Charter School and Component Unit of the District School Board of Polk County, Florida

Notes to Financial Statements

(continued)

10 RELATED PARTY TRANSACTIONS

The School is related to Discovery High School, Inc. by a common board of directors. There are several transactions that occurred between the School and Discovery High School. The following transactions occurred:

- The School purchased land with the intention of leasing the land to the Discovery High School. The agreement indicates that the amount will be determined annually. Under the current agreement, rent expense charged to Discovery High School was \$600,000.
- The School signed the notes payable relating to the aforementioned land and building totaling approximately \$12,000,000 and Discovery High School co-signed on the loans.
- There is approximately \$15.4 million non-current asset relating to the notes payable the Schools signed.
- There is approximately \$160,000 payable to Discovery High School for operating costs in the current year.
- Discovery Academy provided for food and transportation services for Discovery High School students. The School received approximately \$252,000 in transportation revenue from Discovery High School.

11 COMMITMENTS AND CONTINGENT LIABILITIES

In response to the order by the Governor of Florida and in response to the coronavirus (COVID-19) pandemic, in March 2020, most local business and Schools were required to close operations indefinitely or temporarily in order to attempt to slow the spread of the virus. The School does not know the overall financial effects, at this time, on its operation from COVID-19 pandemic.

Grants

The School participates in state and federal grant programs, which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the School has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectability of any related receivable as of year end may be impaired.

Management also believes there are no significant contingent liabilities related to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying financial statements for such contingencies.

A Charter School and Component Unit of the District School Board of Polk County, Florida

Notes to Financial Statements

(continued)

Legal matters

In the normal course of conducting its operations, the School occasionally becomes party to various legal actions and proceedings. Management believes the ultimate resolution of such legal matters will not have a significant adverse effect on the accompanying financial statements.

12 CAMPUS FACILITIES

The title of the school building and facilities acquired prior to July 1, 2001 remain with the School Board. Florida Statutes provide that the use of the school building and facilities be furnished to charter schools on the same basis as made available to other public schools in the district. No rental or leasing fee may be charged by the district school board to the charter school or to the parents and educators who organize the charter school.

In management's opinion, the value of facilities utilized by the School are significant; therefore, any substantial changes in Florida Statutes related to facilities used by conversion schools could have a material effect on the School's operations.

Originally, any capital assets acquired prior to July 1, 2001 also remained with the School Board. However, on May 14, 2013, the School District transferred ownership, title and all inherent duties related to these capital assets located on the School campus to Discovery Academy of Lake Alfred, Inc.

13 INCOME TAXES

The School qualifies as a tax-exempt organization under Internal Revenue Code Section 501(c)(3), and is therefore, exempt from income taxes. Accordingly, no tax provision has been made in the accompanying financial statements. Additionally, no uncertain tax positions have been made requiring disclosure in the related notes to the financial statements. The School's income tax returns for the past three tax years are subject to examination by tax authorities, and may change upon examination.

14 SUBSEQUENT EVENTS

In accordance with GASB Codification Section 2250.106, the School has evaluated subsequent events and transactions for potential recognition or disclosure through September 30, 2020 which is the date the financial statements were available to be issued. On September 24, 2020 the School closed on \$27,080,000 bond to refinance the existing property and addition to financing of a new building.

Notes to Budgetary Schedules

For the Year Ended June 30, 2020

1 BUDGETARY BASIS OF ACCOUNTING

Budgets are presented on the modified accrual basis of accounting. During the fiscal year, expenditures were controlled at the object level (e.g., salaries and benefits, purchased services, materials and supplies and capital outlay) within each activity (e.g., instruction, pupil personnel services and school administration). Budgets may be amended by resolution at any Board meeting prior to the date for the annual report.

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based On an Audit of Financial Statements Performed in Accordance With Government Auditing Standards

To the Board of Directors of Discovery Academy of Lake Alfred, Inc., a Charter School and Component Unit of the District School Board of Polk County, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Discovery Academy of Lake Alfred, Inc., a Charter School and Component Unit of the District School Board of Polk County, Florida, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the School's basic financial statements, and have issued our report thereon dated September 30, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the School's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School's internal control. Accordingly, we do not express an opinion on the effectiveness of School's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

McCrady & Associates, PLLC

Altamonte Springs, Florida September 30, 2020 Additional Information Required by Rules of the Auditor General, Chapter 10.850, Audits of Charter Schools and Similar Entities

Management Letter as Required by Rules of the Florida Auditor General, Chapter 10.850, Florida Statutes, *Charter School Audits*

To the Board of Directors of Discovery Academy of Lake Alfred, Inc., a Charter School and Component Unit of the District School Board of Polk County, Florida.

Report on the Financial Statements

We have audited the financial statements of Discovery Academy of Lake Alfred, Inc. (the "School") as of and for the fiscal year ended June 30, 2020, and have issued our report thereon dated September 30, 2020.

Auditor's Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Tittle 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) and Chapter 10.850, Rules of the Auditor General.

Other Reporting Requirements

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with Government Auditing Standards. Disclosures in that report, if applicable, which is dated. September 30, 2020, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.854(1)(e)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. There were no findings and recommendations made in the preceding annual financial audit report.

Official Title

Section 10.854(1)(e)5. Rules of the Auditor General, requires the name or official title of the entity be disclosed in this management letter. The official title of the entity is Discovery Academy of Lake Alfred, Inc.

Financial Condition and Management

Sections 10.854(1)(e)2., and 10.855(11). Rules of the Auditor General, require us to apply appropriate procedures and communicate whether or not the School has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and to identify the specific

condition(s) met. In connection with our audit, we determined that the School did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.854(1)(e)6.a. and 10.855(12), Rules of the Auditor General, we applied financial condition assessment procedures for the School. It is management's responsibility to monitor the School's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.

Section 10.854(1)(e)3., Rules of the Auditor General, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Transparency

Sections 10.854(1)(e)7. and 10.855(13), Rules of the Auditor General, require us to apply appropriate procedures and communicate the results of our determination as to whether the School maintains on its Web site the information specified in Section 1002.33(9)(p), Florida Statutes. In connection with our audit, we determined that the School maintained on its Web site the information specified in Section 1002.33(9)(p), Florida Statutes.

Additional Matters

Section 10.854(1)(e)4., Rules of the Auditor General, requires that we address noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with our audit, we did not note any such findings.

Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, the Board of Directors, applicable management, and Polk County School Board and is not intended to be and should not be used by anyone other than these specified parties.
