#### INDEPENDENT AUDITOR'S REPORT

The Board of Directors of Innovation Charter School, Inc.

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities and each major fund of Innovation Charter School, Inc. (the "School"), a component unit of the School Board of Broward County, Florida, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the School's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

SOUTH FLORIDA BUSINESS TOURNAL

Innovation Charter School, Inc.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the School, as of June 30, 2021, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 27, 2021, on our consideration of the School's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School's internal control over financial reporting and compliance.

# MANAGEMENT'S DISCUSSION AND ANALYSIS

Our discussion and analysis of the Innovation Charter School, Inc.'s (the "School") financial performance provides an overview of the School's financial activities for the fiscal year ended June 30, 2021 with certain comparative information for 2020. Please read it in conjunction with the School's basic financial statements which immediately follow this discussion.

#### **Financial Highlights**

Our basic financial statements provide these insights into the results of this year's operations:

- As of June 30, 2021, the School had net position of \$2,072,012 as compared to \$1,783,118 as of June 30, 2020.
- As of June 30, 2021, the School's governmental fund balances were \$2,052,786 as compared to \$1,741,343 as of June 30, 2020.

#### Overview of the Basic Financial Statements

This discussion and analysis is intended to serve as an introduction to the School's basic financial statements. The School's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also includes required supplementary information intended to furnish additional detail to support the basic financial statements themselves.

**Government-Wide Financial Statements**: The government-wide financial statements, which consist of the statement of net position and the statement of activities, are designed to provide readers with a broad overview of the School's finances, in a manner similar to a private-sector business.

The statement of net position presents financial information on all of the School's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the School's financial position is improving or deteriorating. However, as a governmental entity, the School's activities are not geared toward generating profit as are the activities of commercial entities. Other factors such as the safety at the School and quality of education must be considered in order to reasonably assess the School's overall performance.

The statement of activities presents information showing how the School's net position changed during the year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements can be found on pages 7 and 8 of this report.

**Fund Financial Statements**: A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The School, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental Funds**: Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in assessing the School's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the School's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between the governmental fund and governmental activities.

**Notes to the Basic Financial Statements:** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

**Required Supplementary Information:** In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the School's adopted budget to actual results.

#### **Government-Wide Financial Analysis**

As noted earlier, net position over time, may serve as a useful indicator of financial position. The following table presents a comparative analysis of the condensed government-wide statements of net position:

### Innovation Charter School, Inc. Net Position

		June 30, 2021	June 30, 2020
Assets: Current assets Non-current assets	\$.	2,326,251 41,226	\$ 1,895,491 63,775
Total assets		2,367,477	1,959,266
Liabilities: Current liabilities		295,465	176,148
Total liabilities		295,465	176,148
Net Position: Net investment in capital assets Unrestricted		19,226 2,052,786	41,775 1,741,343
Total net position	\$	2,072,012	\$ 1,783,118

The following table presents comparative information of the condensed government-wide statements of change in net position:

#### Innovation Charter School, Inc. Change in Net Position

	June 30, 2021	_	June 30, 2020
Revenues: General revenues Program revenues	\$ 3,414,680 1,033,735	\$	3,406,679 971,663
Total revenues	4,448,415	-	4,378,342
Expenses: Instruction Instructional support services Non-instructional services	2,204,893 1,294,869 659,759	-	2,009,112 1,214,449 690,774
Total expenses	4,159,521		3,914,335
Change in net position	\$ 288,894	\$	464,007

General revenues increased from the prior year due to an increase in donations. Total expenses also increased primarily in salaries, benefits and COVID safety supplies.

#### Financial Analysis of the School's Funds

As noted earlier, the School uses fund accounting to maintain control over resources that have been segregated for specific activities or objectives. The focus of the School's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the School's financing requirements.

As of the end of fiscal year 2020/2021 the School's governmental funds reported ending fund balance of \$2,052,786. The fund balance unassigned and available for spending at the School's discretion is \$2,029,196. These funds will be available for the School's future ongoing operations.

#### **General Fund Budgetary Highlights**

Total revenues were favorable to the budget by approximately \$ 135,000.

Total expenditures were favorable to the budget by approximately \$ 176,000. See page 19 for budget and actual comparisons.

#### **Capital Assets and Debt Administration**

As of June 30, 2021, the School had an investment in capital assets of \$ 19,226. This amount is net of accumulated depreciation of \$ 196,003.

The School has no outstanding debt.

#### **Economic Factors**

Facts, decisions or conditions that have had a significant effect on the financial position or results of operations of the School in fiscal year 2020/2021, as well as future expectations, include the following:

- The 2020/2021 school year represents our seventh year of operation as a school. With the implementation of our school improvement plan, we focused on student achievement with additional administrative support (literacy coach and curriculum facilitator). We also implemented periodic FSA student practice and practice assessments for further curricular evaluation and instructional modifications to increase student achievement.
- Due to the coronavirus (COVID-19) pandemic, the 2020/2021 school year ended with a decreased enrollment of 435 students. The previous school year ended with enrollment at 450 students. We anticipate an enrollment of 445 students for the 2021/2022 school year based on reenrollment applications and new registration inquiries.

The following items represent other important highlights:

- Title 1 funds continued to provide necessary funding for educational specialists, allowing for critical support to students. The School also received funds from the Unified School Improvement Grant (UNISIG).
- The School received Elementary and Secondary School Emergency Relief Fund (ESSER), Governor's Emergency Education Relief Fund (GEER) and Charter Schools Program (CSP) grants to purchase COVID-19 related safety supplies and technology needs.
- Curriculum reserves are being held to allow for the appropriate curriculum replacement on a five-year cycle.

#### **Requests for Information**

This financial report is designed to provide a general overview of the Innovation Charter School, Inc.'s finances for all those with an interest. If you should have any questions pertaining to the information presented in this report or would like additional information, please contact the Finance Director of Innovation Charter School, Inc. at 600 SW 3<sup>rd</sup> Street, Pompano Beach, FL 33060.

Current year provision for depreciation	_	(22,549)
Change in Net Position of Governmental Activities	\$ _	288,894

#### Note 1 - Organization and Operations

**Reporting Entity:** Innovation Charter School, Inc. (the "School") was incorporated as a not for profit corporation on July 10, 2013 organized pursuant to Chapter 617, Florida Statutes, the Florida Not for Profit Corporation Act and Section 228.056, Florida Statutes. The governing body of the School is the Board of Directors (the "Board"), which is comprised of five members. The School's charter started July 1, 2015 and operations began August 2015. The School serves students in kindergarten through fifth grade.

The School operates under a charter of the sponsoring school district, the School Board of Broward County, Florida (the "District"). The current charter is effective until June 30, 2025. The School is a component unit of the District.

Criteria for determining if other entities are potential component units of the School which should be reported with the School's basic financial statements are identified and described in the Government Accounting Standards Board (GASB) Codification of Governmental Accounting and Financial Reporting Standards. The application of these criteria provide for identification of any entities for which the School is financially accountable and other organizations for which the nature and significance of their relationship with the School are such that exclusion would cause the School's basic financial statements to be misleading or incomplete. Based on these criteria, no component units are included with the reporting entity of the School.

#### **Note 2 - Summary of Significant Accounting Policies**

**Basis of presentation**: Based on the guidance provided in the American Institute of Certified Public Accountants, Audit and Accounting Guide - Not-for-Profit Organizations and provisions of Section 228.056(9), Florida Statutes, the School is presented as a governmental organization for financial statement reporting purposes.

**Government-wide financial statements:** Government-wide financial statements, including the statement of net position and the statement of activities, present information about the School as a whole.

Government-wide financial statements are prepared using the economic resources measurement focus. The statement of activities presents a comparison between direct expenses and program revenues for each function or program of the School's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and are thereby clearly identifiable to a particular function.

Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the School.

**Fund financial statements:** Fund financial statements report detailed information about the School in the governmental funds. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is reported in a separate column. Because the focus of governmental fund financial statements differs from the focus of government-wide financial statements, a reconciliation is presented with each of the governmental fund financial statements.

The School reports the following major governmental funds:

**General Fund** - This fund is used to account for all operating activities of the School except for those required to be accounted for in another fund.

**Special Revenue Fund** - This fund is used to account for federal grants and certain state grants that are legally restricted to expenditures for particular purposes.

**Capital Outlay Fund** - This fund is used to account for state and local capital outlay funding that is legally restricted to expenditures for particular purposes.

**Basis of accounting:** Basis of accounting refers to when revenues and expenditures, or expenses, are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

Governmental activity in the government-wide financial statements is presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when a liability is incurred.

Governmental fund financial statements are prepared using the modified accrual basis of accounting. Revenues are recognized when they become measurable and available. Measurable means the amount of the transaction can be determined and available means collectible within the current period or soon enough thereafter to pay liabilities of the current period. The School considers revenues to be available if they are collected within sixty days of the end of the current period. Under the modified accrual basis of accounting, expenditures are generally recognized when the related fund liability is incurred, except for principal and interest on long-term debt, claims and judgments, and compensated absences, which are recognized when due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

**Cash and cash equivalents:** The School considers all demand accounts and money market funds which are not subjected to withdrawal restrictions to be cash and cash equivalents.

The School maintains its cash accounts with one financial institution. The School's accounts at this institution, at times, may exceed the federally insured limit. The School has not experienced any losses in such accounts and does not believe it is exposed to any significant credit risk (Note 3).

**Due from other governments:** Amounts due to the School by other governments or agencies are for grants or programs under which the services have been provided by the School.

**Due to and due from other funds:** Interfund receivables and payables arise from interfund transactions and are recorded by all funds affected in the period in which transactions are executed. The balances result from the time lag between the dates that interfund goods and services are provided or reimbursable expenditures occur, transactions are recorded in the accounting system, and payments between funds are made.

**Prepaid items:** Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

**Capital assets:** Capital assets purchased or acquired with an original cost of \$ 1,000 or more are capitalized at historical cost or estimated historical cost and are reported in the government-wide financial statement. Donated capital assets are valued at the estimated fair market value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized and depreciated over the remaining useful lives of the related capital assets. Other costs incurred for repairs and maintenance are expensed as incurred.

Capital assets, which include equipment acquired with state shared revenues are reported in the government-wide financial statements.

Depreciation on all assets is provided on the straight-line basis over the estimated useful lives as follows:

Furniture and equipment

3-5 years

Within the governmental funds, amounts incurred for the acquisition of capital assets are reported as fund expenditures. Depreciation expense is not reported within the governmental fund financial statements.

**Deferred outflows/inflows of resources**: In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The School does not have any items that qualify for reporting in this category.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The School does not have any items that qualify for reporting in this category.

**Unearned revenue:** Unearned revenue arises when the School receives resources before it has a legal claim to them.

**Net position classifications:** Net position is classified in three categories. The general meaning of each is as follows:

**Net investment in capital assets** - consists of capital assets net of accumulated depreciation and reduced by the outstanding balances of any bonds or other borrowings that are attributable to the acquisition, construction or improvement of those assets.

**Restricted** - consists of net position with constraints placed on their use either by: 1) external groups such as creditors, grantors, contributors or laws or regulations of other governments, or 2) imposed by law through constitutional provisions or enabling legislation. There are no restricted net assets as of the year-end.

**Unrestricted** - indicates that portion of net position that is available to fund future operations and that do not meet the definition of "restricted" or "net investment in capital assets".

**Fund balance** - The governmental fund financial statements present fund balances based on the provisions of GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. This statement provides more clearly defined fund balance classifications and also sets a hierarchy which details how the School may spend funds based on certain constraints. The following are the fund balance classifications used in the governmental fund financial statements.

The following classifications describe the relative strength of the spending constraints:

- Nonspendable this classification includes amounts that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. The School classifies inventories, prepaid items, long-term notes receivable and deposits as nonspendable since they are not expected to be converted to cash or are not expected to be converted to cash within the next year.
- Restricted this classification includes amounts that are restricted for specific purposes by external parties such as grantors and creditors or are imposed by law through constitutional provisions or enabling legislation.
- Committed this classification includes amounts that can be used for specific purposes voted on through formal action of the Board of Directors (the highest level of decision-making authority). The committed amount cannot be used for any other purpose unless the Board of Directors removes or changes the commitment through formal action.
- Assigned this classification includes amounts that the Board of Directors intends to use for a specific purpose, but they are neither restricted nor committed. The School classifies existing fund balance to be used in the subsequent year's budget for elimination of a deficit as assigned.
- Unassigned this classification includes amounts that have not been restricted, committed or assigned for a specific purpose within the General Fund.

The details of the fund balances are included in the Governmental Funds Balance Sheet on page 9.

When the School incurs expenditures for which restricted or unrestricted fund balance is available, the School would consider restricted funds to be spent first. When the School has expenditures for which committed, assigned or unassigned fund balance is available, the School would consider committed funds to be spent first, then assigned funds and lastly unassigned funds.

State funding (primary source of revenue): Student funding is provided by the State of Florida through the District. In accordance with the Charter Agreement, the District retains not more than 5% as an administrative fee. This funding is received on a pro rata basis over the twelve-month period and is adjusted for changes in full-time equivalent student population. After review and verification of Full-Time Equivalent ("FTE") reports and supporting documentation, the Florida Department of Education may adjust subsequent fiscal period allocations of FTE funding for prior year's errors disclosed by its review as well as to prevent the statewide allocation from exceeding the amount authorized by the State Legislature. Normally, such adjustments are reported in the year the adjustments are made.

**Budget:** An operating budget is adopted and maintained by the governing board for the School pursuant to the requirements of Florida Statutes. The budget is adopted using the same basis of accounting that is used in the preparation of the financial statements.

**Income taxes:** The School qualifies as a tax-exempt organization under Internal Revenue Code Section 501(c)(3), and is, therefore, exempt from income tax. Accordingly, no tax provision has been made in the accompanying financial statements.

**Use of estimates**: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

**Date of management review:** Subsequent events were evaluated by management through September 27, 2021, which is the date the financial statements were available to be issued.

#### Note 3 - Cash and cash equivalents

At June 30, 2021, the carrying amount of the School's deposits and cash on hand totaled \$ 2,230,036 with a bank balance of \$ 2,242,838.

State statutes require, and it is the School's policy, that all deposits be made into, and be held by, financial institutions designated by the Treasurer of the State of Florida as qualified public depositories as defined by Chapter 280 of the Florida Statutes. This statute requires that every qualified public depository institution maintain eligible collateral to secure the public entity's funds. The minimum collateral to be pledged by an institution, the collateral eligible for pledge, and reporting requirements of the qualified public depositor to the Treasurer is defined by the statute. Collateral is pooled in a multiple qualified public depository institution pool with the ability to assess members of the pool should the need arise. The School's deposits are held in a qualified public depository. They are covered by the collateral pool, as the School has identified itself as a public entity at June 30, 2021.

#### Note 4 - Capital Assets

A summary of changes in governmental capital assets is as follows:

	_	Balance July 1, 2020	_	Additions	 Deletions	_	Balance June 30, 2021
Furniture and equipment Less: accumulated depreciation	\$	215,229 173,454	\$ _	- 22,549	\$ -	\$ -	215,229 196,003
	\$	41,775	\$_	(22,549)	\$ -	\$	19,226

The provision for depreciation for the year ended June 30, 2021 amounted to \$22,549. The School allocated depreciation to instruction.

#### **Note 5 - Related Party Transactions**

Several members of the School's Board of Directors are employees of the company from which the School leases its main facility (Note 6).

#### Note 6 - Commitments

**Leases:** The School currently has an operating lease agreement in place with a related party (Note 5) for its main facility extended through June 30, 2022. In addition, the School leases office equipment through May 2026. Monthly lease payments during fiscal year 2021 amounted to approximately \$ 38,800. Minimum lease payments expected to be paid under these agreements are estimated to be approximately as follows:

Year Ending June 30,		
2022	\$	466,000
2023	\$	11,000
2024	\$	11,000
2025	\$	11,000
2026	\$	10,000
Thereafter	Ś	_

#### Note 7 - Risk Management

The School is exposed to various risks of loss related to torts, thefts of, damage to and destruction of assets, errors and omissions, employee health, workers' compensation and natural disasters for which the School carries commercial insurance. During the fiscal year 2021, the School did not experience any claims resulting from the risks described above.

#### Note 8 - Risk and Uncertainties

The coronavirus (COVID-19) outbreak has caused disruption in international and U.S. economies and markets. The coronavirus and fear of further spread has caused quarantines, cancellation of events, and overall reduction in business and economic activity. On March 11, 2020, the *World Health Organization* designated the coronavirus outbreak a pandemic. Management and the Board of Directors continue to evaluate and monitor the potential adverse effect that this event may have on the School's financial position and operations. The full impact of COVID-19 is unknown at this time and cannot be reasonably estimated as these events are still developing.

The School received a notification from the Broward County District School Board of a proposed citation. The School intends to aggressively challenge this citation. At this time, an unfavorable outcome arising from this matter cannot be determined.

### OTHER INDEPENDENT AUDITOR'S REPORTS

### INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF THE FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Directors Innovation Charter School, Inc.

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of Innovation Charter School, Inc., (the "School"), a component unit of the School Board of Broward County, Florida, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the School's basic financial statements, and have issued our report thereon dated September 27, 2021.

#### **Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the School's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School's internal control. Accordingly, we do not express an opinion on the effectiveness of the School's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Innovation Charter School, Inc.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the School's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

#### INDEPENDENT AUDITOR'S REPORT TO THE BOARD OF DIRECTORS

To the Board of Directors Innovation Charter School, Inc.

#### **Report on the Financial Statements**

We have audited the financial statements of the Innovation Charter School, Inc. (the "School"), a component unit of the School Board of Broward County, Florida, as of and for the year ended June 30, 2021, and have issued our report thereon dated September 27, 2021.

#### **Auditor's Responsibility**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and Chapter 10.850, Rules of the Auditor General.

#### **Other Reporting Requirements**

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards*. Disclosures in that report, which is dated September 27, 2021, should be considered in conjunction with this management letter.

#### **Prior Audit Findings**

Section 10.854(1)(e)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. There were no recommendations made in the preceding audit report.

#### Official Title

Section 10.854(1)(e)5., Rules of the Auditor General, requires the name or official title of the entity and the school code assigned by the Florida Department of Education be disclosed in this management letter. The official title and school code assigned by the Florida Department of Education of the entity are Innovation Charter School, Inc. and school code 065177.

BEST PLACES TO WORK

Innovation Charter School, Inc.

#### **Financial Condition and Management**

Section 10.854(1)(e)2. and 10.855(11), Rules of the Auditor General, require us to apply appropriate procedures and communicate whether or not the School has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and to identify specific condition(s) met. In connection with our audit, we determined that the School did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.854(1)(e)6.a. and 10.855(12), Rules of the Auditor General, we applied financial condition assessment procedures for the School. It is management's responsibility to monitor the School's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.

Section 10.854(1)(e)3., Rules of the Auditor General, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

#### **Transparency**

Sections 10.854(1)(e)7. and 10.855(13), Rules of the Auditor General, require us to apply appropriate procedures and communicate the results of our determination as to whether the School maintains on its website the information specified in Section 1002.33(9)(p), Florida Statutes. In connection with our audit, we determined that the School maintained on its website the information specified in Section 1002.33(9)(p), Florida Statutes.

#### **Additional Matters**

Section 10.854(1)(e)4., Rules of the Auditor General, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but warrants the attention of those charged with governance. In connection with our audit, we did not note any such findings.

#### **Purpose of this Letter**

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, federal and other granting agencies, the Board of Directors and applicable management and is not intended to be and should not be used by anyone other than these specified parties.
