INDEPENDENT AUDITOR'S REPORT

**To the Board of Trustees of St. Petersburg College
On Behalf of St. Petersburg College Collegiate High School
St. Petersburg, Florida**

Report on the Financial Statements

We have audited the accompanying financial statements of **St. Petersburg College Collegiate High School** (the "Charter School") (a charter school and a restricted Fund of St. Petersburg College (the "College"), St. Petersburg, Florida), as of June 30, 2021, and the related notes to the financial statements, which collectively comprise the Charter School's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Charter School as of June 30, 2021, and the changes in its net position and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As described in Note 1, the accompanying financial statements referred to above present only the financial position of the Charter School as of June 30, 2021, and the respective changes in financial position for the year then ended, and is not intended to be a complete presentation of the St. Petersburg College. These financial statements do not purport to, and do not, present fairly the financial position of the College as of June 30, 2021, and its changes in financial position for the year then ended in conformity with the accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to these matters.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis on Pages 3 through 9 be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquires, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 22, 2021, on our consideration of the Charter School's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Charter School's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Charter School's internal control over financial reporting and compliance.

Using This Annual Report

This report consists of three basic financial statements: the statement of net position; the statement of revenues, expenses, and changes in net position; and the statement of cash flows. These financial statements are prepared in accordance with Governmental Accounting Standards Board (GASB) principles, which establish standards for external financial reporting for public colleges and universities. These statements provide information on the Charter School as a whole and, over time, will present a long-term view of the Charter School's finances and fiscal health.

The Charter School, located on the St. Petersburg College St. Pete Gibbs campus, is a public charter school of the Pinellas County School District open to Pinellas County public, private, and home-schooled students who are in grades 10 through 12. Students entering grades 10 or 11 are accepted into the program. The purpose of the Charter School is to provide academic educational opportunities for students who are emotionally and academically prepared to participate in college-level studies. The three-year curriculum allows serious students to simultaneously complete the requirements for a high school diploma and an Associate in Arts degree from the College. The educational programs are distinctive in that they meld secondary and post-secondary curricula. The programs employ various instructional

techniques to accommodate different learning styles, use of technology across the curriculum and utilization of extensive group and individual counseling and mentoring.

The Charter School is organized by a nonprofit organization, the College. The College is governed by a local board of trustees appointed by the governor of the State of Florida. The Southern Association of Colleges and Schools accredits the College. The Board of Trustees of the College employs a president to act on its behalf in implementing its policies and to serve as the chief administrative officer of the College. The Board of Trustees also serves as the "Governing Board" of the Charter School.

The contract between the Board of Trustees of the College on behalf of the Charter School and the School Board of Pinellas County was amended in 2013. The Collegiate High School Charter became effective July 1, 2004, renewed in 2009, amended in 2013 and shall end on June 30, 2024. The charter stipulates that the Charter School shall serve students in grades 10 through 12, with a maximum funded school enrollment of 230 students.

The Charter School is recognized as a separate and discrete department in the accounting system of the College. Currently, the State of Florida Auditor General's Office audits the College's financials and operations. The College currently adheres to internal control procedures contained in the Board of Trustee Rules and the Accounting Manual for Florida's College System. The College has also established additional internal control procedures in accordance with standards contained in the Florida Schools Red Book and other stipulated guidelines for charter schools.

Statements of Net Position and Statements of Revenues, Expenses, and Change in Net Position

One of the most important questions asked about the institution's finances is "Is St. Petersburg College Collegiate High School, as a whole, better or worse off as a result of the year's activities?" The statement of net position and the statement of revenues, expenses, and changes in net position report information on the institution as a whole and on its activities in a way that helps answer this question. When revenues and other support exceed expenses, the result is an increase in net position. When the reverse occurs, the result is a decrease in net position. The relationship between revenues and expenses may be thought of as the Charter School's operating results.

These two statements report the Charter School's net position and change in them. One may think of the Charter School's net position, the difference between assets and liabilities, as one way to measure the institution's financial health or financial position. Over time, increases or decreases in the institution's net position are one indicator of whether its financial health is improving or deteriorating.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Economic Factors That Will Affect the Future

The economic position of the Charter School continues to be closely tied to that of the State of Florida. It is expected that the Charter School will continue to maintain its present level of services and financial health.

For the 2020-2021 school year, the High Performing Charter School status was maintained, which kept the Pinellas County Schools administrative fee reduced from 5% to 2%.

Additionally, the Charter School received the honor of being selected as one of Newsweek's best high schools in America. <https://www.usnews.com/education/best-high-schools/florida/districts/pinellas/st-petersburg-collegiate-high-school-5488>

The renewed Charter School charter became effective on July 1, 2009, for a period of 15 years, which is the longest term pursuant to Florida law. The present contract, as amended in 2013, provides funding for up to 230 students and will continue through June 30, 2024. Occasionally the enrollment exceeds 230 students, allowing for a certain expected amount of student withdrawals. St. Petersburg College Collegiate High School received funding for 230 students for the 2020-2021 school year and expects to receive funding for 240 students for the 2021-2022 school year.

As a result of the spread of the COVID-19 Coronavirus, economic uncertainties continue which may impact the Charter School's revenues. Other financial impact could occur, though such potential impact is unknown at this time.

NOTES TO BASIC FINANCIAL STATEMENT

NOTE 1. NATURE OF ACTIVITIES AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Activities

St. Petersburg College Collegiate High School (the "Charter School") is a restricted fund of St. Petersburg College (the "College"). The general operating authority of the Charter School is contained in Section 1002.33, Florida Statutes. The Charter School operates under a charter with the sponsoring school district, the School Board of Pinellas County (Sponsor or District). The initial charter became effective on July 1, 2009, and is effective through June 30, 2024. The charter can be renewed every five school years or longer by mutual written agreement of the parties, pursuant to Florida law. At the end of the term of the charter, the Sponsor may choose not to renew the charter under grounds specified in the charter, in which case, the Sponsor is required to notify the Charter School in writing at least 90 days prior to the charter's expiration. During the term of the charter, the Sponsor may also terminate the charter if good cause is shown. The Charter School shall notify the Sponsor in writing at least 90 days prior to the expiration of the charter as to its intent to renew or not renew.

Basis of Presentation

The records of the Charter School are maintained as a fund on the books of the College and, accordingly, they follow the same basis of presentation. The Charter School's accounting policies conform to accounting principles generally accepted in the United States of America applicable to colleges and universities as prescribed by the Governmental Accounting Standards Board (GASB). The National Association of College and University Business Officers (NACUBO) also provides the College with recommendations prescribed in accordance with generally accepted accounting principles promulgated by GASB and the Financial Accounting Standards Board (FASB)., such as GASB Statement No. 35, *Basic Financial Statements and Management's Discussion and Analysis for Public Colleges and Universities*. GASB Statement No. 35 includes public colleges and universities within the financial reporting guidelines of GASB Statement No. 34, *Basic Financial Statements and Management Discussion and Analysis for State and Local Governments*. GASB No. 35 allows public colleges and universities the option of reporting as a government either engaged in only business-type activities, or engaged in both governmental and business-type activities. The College elected to report as an entity engaged in only business-type activities. Therefore, these financial statements are presented accordingly.

ST. PETERSBURG COLLEGE COLLEGIATE HIGH SCHOOL

NOTES TO BASIC FINANCIAL STATEMENT

NOTE 1. NATURE OF ACTIVITIES AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of Accounting

Basis of accounting refers to when revenues, expenses, and related assets and liabilities are recognized in the accounts and reported in the financial statements. Specifically, it relates to the timing of the measurements made, regardless of the measurement focus applied. The Charter School's financial statements are presented using the economic resource measurement focus and accrual basis of accounting. Revenues, expenses, gains, losses, assets, and liabilities resulting from nonexchange activities are generally recognized when all applicable eligibility requirements, including time requirements, are met.

The Charter School's principal activity is instruction. Operating expenses include all fiscal transactions related to instruction as well as administration, academic support, student services, and physical plant operations. Nonoperating revenues include state appropriations from the county school district, a State of Florida School Recognition Award, Charter School Capital Outlay Funds and Elementary and Secondary School Emergency Relief Fund (ESSER).

Cash and Cash Equivalents

Amounts reported as cash and cash equivalents consist of cash on hand. Cash deposits of the Charter School are held by banks qualified as public depositories under Florida Statute Chapter 280. All such deposits are insured by federal depository insurance or collateralized with securities held in Florida's multiple financial institution collateral pool.

Accounts Receivable

Management considers all receivables at June 30, 2021 to be collectible. Accordingly, no allowance for uncollectible accounts has been provided at June 30, 2021.

Capital Assets

The Charter School uses the policies of the College for capitalization and depreciation. The Charter School has a capitalization threshold of \$5,000 for tangible personal property and \$25,000 for improvements other than buildings. There were no capital assets as of June 30, 2021.

ST. PETERSBURG COLLEGE COLLEGIATE HIGH SCHOOL

NOTES TO BASIC FINANCIAL STATEMENT

NOTE 1. NATURE OF ACTIVITIES AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Net Position

Net position represents the difference between assets and liabilities. Net position is reported as restricted when there are limitations imposed on their use either through enabling legislation or through external restrictions imposed by creditors, grantors, laws or regulations. Net position not reported as restricted net position is reported as unrestricted net position.

When both restricted and unrestricted amounts of net position are available for use for expenses incurred, it is the Charter School's policy to use restricted amounts first and then unrestricted amounts as they are needed.

Revenue Sources

Revenue for current operations is received primarily from the School Board of Pinellas County, Florida pursuant to the funding provisions included in the Charter School's charter. In accordance with the funding provisions of the charter and Section 1002.33(18)(b), Florida Statutes, the Charter School reports the number of fulltime equivalent (FTE) students and related data to the District. State appropriations, contributions, and grant funding are classified as nonoperating revenue. The level of the Charter School's operations and program services may be impacted or discontinued if funding is not renewed.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Subsequent Events

NOTE 3. COMPENSATED ABSCENCES LIABILITY

College employees may accrue annual vacation and sick leave based on length of service, subject to certain limitations regarding the amount that will be paid upon termination. The College reports a liability for the accrued leave; however, state noncapital appropriations fund only the portion of accrued leave that is used or paid in the current fiscal year. Although the College expects the liability to be funded primarily from future appropriations, generally accepted accounting principles do not permit the recording of a receivable in anticipation of future appropriations.

At June 30, 2021, the estimated liability for compensated absences payable to Charter School employees, which includes the College's share of the Florida Retirement System and FICA contributions, totaled \$75,483.

The current portion of the compensated absences liability at June 30, 2021 totaled \$7,548 and is expected to be paid in the coming fiscal year. The current portion was determined by calculating 10% of the compensated absences liability at June 30, 2021, estimated based on amounts that were historically paid out at the College.

The following is a summary of changes in compensated absences:

Beginning Balance June 30, 2020	Additions	Deletions	Ending Balance June 30, 2021
\$ 70,153	\$ 15,651	\$ 10,321	\$ 75,483

NOTE 4. FUNCTIONAL DISTRIBUTION OF EXPENSES

Operating expenses on the statement of revenues, expenses, and change in net position are presented in natural classifications. Below are those same expenses presented in functional classifications as recommended by NACUBO. The functional classification is assigned to a department based on the nature of the activity, which represents the material portion of the activity attributable to the department. Functional classification of expenses for the year ended June 30, 2021, is summarized in the following table:

Instruction	\$ 1,063,040
Acadmic support	830,635
Total operating expenses	<u>\$ 1,893,675</u>

Florida Retirement System

The College participates in the Florida Retirement System (FRS) defined benefit pension plan and the Health Insurance Subsidy (HIS) defined benefit plan administered by the Florida Division of Retirement. As a participating employer, the College implemented Governmental Accounting Standards Board (GASB) Statement No 68, *Accounting and Financial Reporting for Pensions*, which requires employers participating in cost-sharing multiple-employer defined benefit pension plans to report the employers' proportionate share of the net pension liabilities of the defined benefit pension plan. The Charter School employees are employees of the College, and thus, no liability is recorded at the Charter School level. Please refer to the St. Petersburg College audited financial statements, in which complete pension and OPEB disclosures are reported.

Essentially all regular employees of the College, including the Charter School are eligible to enroll as members of the state administered FRS. Provisions relating to FRS are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and Florida Retirement System Rules, Chapter 60S, *Florida Administrative Code*, wherein eligibility, contributions, and benefits are defined and described in detail.

The FRS is a cost-sharing, multiple-employer public-employee retirement system with two defined benefit plans and other nonintegrated programs administered by the Department of Management Services, Division of Retirement. These include a defined-benefit pension plan (Pension Plan) and a defined contribution plan, referred to as the Florida Retirement System Investment Plan (Investment Plan).

Employees enrolled in the Pension Plan prior to July 1, 2011, vest at six years of creditable service, and employees enrolled in the Pension Plan on or after July 1, 2011, vest at eight years of creditable service. All vested members enrolled prior to July 1, 2011, are eligible for normal retirement benefits at age 62 or at any age after 30 years of service.

All members enrolled in the Pension Plan on or after July 1, 2011, once vested, are eligible for normal retirement benefits at age 65, or any time after 33 years of creditable service. Members of both Plans may include up to four years of credit for military service toward creditable service. The Pension Plan also includes an early retirement provision; however, there is a benefit reduction for each year a member retires before his or her normal retirement date. The Pension Plan provides retirement, disability, death benefits, and annual cost-of-living adjustments.

As provided in Section 121.4501, Florida Statutes, eligible FRS members may elect to participate in the Investment Plan in lieu of the FRS defined-benefit plan. Employer contributions are defined by law, but the ultimate benefit depends in part on the performance of investment funds.

NOTE 5. STATE RETIREMENT PROGRAMS (CONTINUED)

The Investment Plan is funded by employer and employee contributions that are based on salary and membership class (Regular Class, Senior Management Service Class, etc.). Contributions are directed to individual member accounts, and the individual members allocate contributions and account balances among various approved investment choices. Employees in the Investment Plan vest at one year of service for employer contributions and vest fully and immediately for employee contributions.

Contributions

The State of Florida establishes contribution rates for participating employers and employees. Contribution rates during for the year ended June 30, 2021, were as follows:

Class or Plan	Percent of Gross Salary	
	Employee	Employer ^(a)
FRS - Regular	3.00%	10.00%
FRS - Senior Management Services	3.00%	27.29%

^(a) *Employer rates include 1.66% for the post-employment mental health insurance subsidy. Also, employer rates, include .06% for administrative costs of the Investment Plan.*

The Charter School's liability for participation is limited to the payment of the required contribution at the rates and frequencies established by law on future payrolls of the College. The Charter School's contributions to the state administered FRS for the year ended June 30, 2021, were \$69,995.

During the year ended June 30, 2021, there were eight school participants enrolled in the Pension Plan and seven participants enrolled in the Investment Plan. Employee contributions totaled \$20,982 for the year ended June 30, 2021.

A Comprehensive Annual Financial Report of the FRS, which includes its financial statement, required supplementary information, actuarial report, and other relevant information, is available from the Florida Department of Management Services, Division of Retirement. The FRS Investment Plan is administered by the Florida State Board Administration (SBA), and is reported in an SBA annual financial statement and in the State of Florida Comprehensive Annual Financial Report.

NOTE 5. STATE RETIREMENT PROGRAMS (CONTINUED)

The College administers a single-employer defined benefit plan, Other Post-Employment Benefits Plan (OPEB Plan) that provides healthcare benefits for retirees and their benefits for all employees who satisfy the College's retirement eligibility provisions. Pursuant to the provisions of Section 112.0801, Florida Statutes, former employees who retire from the College are eligible to participate in the College's self-insured dental, health and hospitalization plan for medical and prescription drug, and life insurance coverage. The College subsidizes the premium rates paid by retirees by allowing them to participate in the OPEB Plan at reduced or blended group (implicitly subsidized) premium rates for both active and retired employees. These rates provide an implicit subsidy for retirees because, on an actuarial basis, their current and future claims are expected to result in higher costs to the OPEB Plan on average than those of active employees. The College does not offer any explicit subsidies for retiree coverage. Retirees are required to enroll in the Federal Medicare (Medicare) program for their primary coverage as soon as they are eligible. The OPEB Plan contribution requirements and benefit terms of the College and the OPEB Plan members are established and may be amended by action from the Board. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75.

NOTE 6. RISK MANAGEMENT PROGRAMS

The College is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The College provided coverage for these risks through a self-insured program and the Florida Community Colleges Risk Management Consortium. The Charter School is part of the College's self-insured program for risk management. Health and hospitalization coverage was added beginning January 1, 2021. Prior to January 1, 2021, the Board was self-insured for its group health and hospitalization for employees, retirees, former employees, and their dependents. The College's liability was limited by the excess insurance of \$350,000 per insured person. The plan was provided by an insurance company licensed by the Florida Office of Insurance Regulation.

Life insurance, dental, and eye coverage for employees is provided through purchased commercial insurance. The College contributes employee premiums as a fringe benefit. Employee dependent coverage is by payroll deduction and coverage for retirees, former employees, and their dependents is by prepaid premium.

Consortium

The College participated in the Florida Community Colleges Risk Management Consortium (the "Consortium"), which was created under authority of Section 1001.64(27), Florida Statutes, by the Boards of Trustees of Florida public community colleges for the purpose of joining a cooperative effort to develop, implement, and participate in a coordinated statewide community college risk management program.

NOTE 6. RISK MANAGEMENT PROGRAMS (CONTINUED)

The Consortium is self-sustaining through member assessments (premiums) and is reinsured through commercial companies for claims in excess of specified amounts. Insurance coverage obtained through the Consortium included fire and extended property, general and automobile liability, workers' compensation, and other liability coverage. Settled claims resulting from these risks have not exceeded coverage in any of the past three years. The Charter School is part of the College's participation in the Consortium.

NOTE 7. RELATED PARTIES

There is a formal lease agreement between the Charter School and the College for facility space utilized by the Charter School. The term of the lease agreement is 30 years and commenced on September 1, 2007. Either party may terminate this agreement upon giving the other party no less than 360 days' notice. The Charter School will pay to the College base rent for the leased premises for each year during the lease term in the amount of \$15 per square foot or \$168,630. The base rent shall escalate on the anniversary date of each year during the lease term at a rate of 2% from the immediately preceding year's base rent. Lease payments made for the year ended June 30, 2021, were \$211,767.

Tuition

Florida Statute Section 1007.271, *Dual Enrollment Programs*, addresses enrollment of eligible secondary students in postsecondary courses creditable toward high school completion and a career certificate or an associate or baccalaureate degree.

The Statute requires each district school superintendent and each public postsecondary institution president to develop a comprehensive dual enrollment articulation agreement for the respective school district and postsecondary institution. Such agreement must be submitted annually to the Florida Department of Education. The components of the articulation agreement include a requirement for a funding provision that delineates costs incurred by each entity.

The funding provision requirement further details that school districts shall pay public postsecondary institutions the standard tuition rate per credit hour from funds provided in the Florida Education Finance Program when dual enrollment course instruction takes place on the postsecondary institution's campus, and the course is taken during the fall or spring term.

In accordance with this legislation, the College invoiced the Charter School for the number of semester hours taken by Charter School students for classes at St. Petersburg College, multiplied by the standard tuition rate per credit hour, for the fall and spring terms. The Charter School recorded this tuition expense which totaled \$386,533 for the fiscal year ended June 30, 2021.

As no additional state appropriations were provided to the Charter School, the College contributed funds in the amount of \$386,533 for the fiscal year ended June 30, 2021 to help offset various operating expenses such as the costs for textbooks, nutrition, contracted services, and educational supplies.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

**To the Board of Trustees of St. Petersburg College
On Behalf of St. Petersburg College Collegiate High School
St. Petersburg, Florida**

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of St. Petersburg College Collegiate High School (the "Charter School") as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the Charter School's basic financial statements, and have issued our report thereon dated September 22, 2021.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Charter School's internal control over financial reporting (internal control) to determine audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Charter School's internal control. Accordingly, we do not express an opinion on the effectiveness of the Charter School's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Charter School's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Charter School's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Charter School's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
