Please read it in conjunction with the School's financial statements, which follow this section.

### FINANCIAL HIGHLIGHTS

- The School's total net position increased compared to the prior year.

### OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts – management's discussion and analysis (this section), the basic financial statements and required supplementary information. The basic financial statements include two kinds of statements that present different views of the School:

- The first two statements are *government-wide financial statements* that provide both long-term and short-term information about the School's overall financial status.
- The remaining statements are *fund financial statements* that focus on individual parts of the School, reporting the School's operations in more detail than the government-wide statements.
  - The *governmental funds* financial statements tell how general school services were financed in the short term, as well as what remains for future spending.
  - The *fiduciary fund* financial statements provide information about the financial activities in which the School serves only as the custodian for assets that belong to others, such as student activities funds.

The financial statements also include *notes* that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of *required supplementary information* that further explains and supports the information in the financial statements.

This document also includes the independent auditor's report on internal control over financial reporting and on compliance and other matters based on an audit of financial statements performed in accordance with *Government Auditing Standards*, as well as the management letter required by the Rules of the Auditor General, Chapter 10.850.

**MANAGEMENT'S DISCUSSION AND ANALYSIS  
(continued)**

The following table summarizes the major features of the School's financial statements, including the portion of the School they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis explains the structure and contents of each of the statements.

## **MANAGEMENT'S DISCUSSION AND ANALYSIS (continued)**

### **Government-wide Financial Statements**

The government-wide financial statements report information about the School as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the School's assets, deferred outflows of resources, liabilities and deferred inflows of resources, but excludes fiduciary funds. All of the current year's revenues and expenses are accounted for in the statement of activities, regardless of when cash is received or paid.

The two government-wide financial statements report the School's net position and how it has changed. Net position – the difference between the School's assets and deferred outflows of resources and its liabilities and deferred inflows of resources – is one way to measure the School's financial condition. Over time, increases or decreases in the School's net position are an indicator of whether its financial condition is improving or deteriorating, respectively. To assess the overall health of the School, one needs to consider additional nonfinancial factors such as changes in the School's student base, the quality of the education and the safety of the School.

The government-wide financial statements of the School are generally divided into three categories:

Governmental Activities – Most of the School's basic services are included here, such as instruction and school administration. Funds received through the Florida Education Finance Program ("FEFP") and state and federal grants finance most of these activities.

Business-type Activities – In certain instances, the School may charge fees to help it cover the costs of certain services it provides. The School currently has no business-type activities.

Component Units – There currently are no component units included within the reporting entity of the School.

### **Fund Financial Statements**

The fund financial statements provide more detailed information about the School's most significant funds, not the School as a whole. A fund is a self-balancing set of accounts which the School uses to keep track of specific sources of funding and spending for particular purposes. Some funds are required by state law, and the School may establish other funds to control and manage money for particular purposes, such as for federal grants.

The School has two types of funds:

Governmental Funds – Most of the School's basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps one determine whether there are more or fewer financial resources that can be spent in the near future to finance the School's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information on the subsequent page that explains the differences between them.

**MANAGEMENT'S DISCUSSION AND ANALYSIS  
(continued)**

Fiduciary Funds – The School is the custodian, or fiduciary, for assets that belong to others, such as student activities funds. The School is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The School excludes these activities from the government-wide financial statements because the School cannot use these assets to finance its operations.

**FINANCIAL ANALYSIS OF THE SCHOOL AS A WHOLE**

**Net Position**

The School's combined net position as of June 30, 2023 and 2022 is summarized as follows – see table below:

Current and other assets of the School and unrestricted net position increased due to the current year operating surplus. Current and other liabilities changed due to the timing of payments at year-end. Net investment in capital assets changed due to the decrease in capital assets, net and current year payments on related debt.

**MANAGEMENT'S DISCUSSION AND ANALYSIS  
(continued)**

**Change in Net Position**

The School's total revenues increased by 8% to \$3,460,746, and the total cost of all programs and services decreased by 5% to \$3,268,526 – see table below.

Change in net position	<u>\$ 192,220</u>	<u>\$ (234,859)</u>	<u>182%</u>

Contributions and other revenue increased due to donations to cover the cost of artificial playground turf. Student support increased due to increases in staffing, salaries and expenses related to the CARES Act-related grants in the current year. Operation and maintenance of plant increased due to an increase in the janitorial contract and increased cleaning and sanitation costs covered by the CARES Act-related grants in the current year. Interest decreased as a result of a lower interest rate on the refinanced debt. Debt issuance costs in the prior year are related to the bond issuance and loan prepayment fees which were financed with bond proceeds and were non-recurring.

**FINANCIAL ANALYSIS OF THE SCHOOL'S FUNDS**

As the School completed the year, its governmental funds reported a fund balance of \$829,102. Both revenues and expenditures changed overall for the same reasons described above.

**MANAGEMENT'S DISCUSSION AND ANALYSIS  
(continued)**

**General Fund Budgetary Highlights**

Over the course of the year, the School revised its budget several times to account for changes in student enrollment and resulting increases in appropriations.

For 2023, actual general fund revenues were approximately \$40,000 above the final budget, which represents a 1% budget variance. Actual general fund expenditures were approximately \$119,000 above the final budget, which represents a 4% budget variance.

**Special Revenue Fund Budgetary Highlights**

For 2023, actual special revenue fund revenues and expenditures were equal to the budgeted amounts.

**CAPITAL ASSET AND DEBT ADMINISTRATION**

**Capital Assets**

**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
**(continued)**

**Long-term Debt**

As of June 30, 2023, the School had \$4,302,513 in long-term debt outstanding. Scheduled payments reduced the amount outstanding in the current year. More detailed information about the School's long-term liabilities is presented in Note 7 to the financial statements.

**ECONOMIC FACTORS AND NEXT YEAR'S BUDGET**

The following economic indicators were taken into account when adopting the general fund budget for fiscal year 2024:

- Projected increase in student population
- Projected salary increases

Amounts available for appropriation in the general fund are approximately \$3,005,000, a decrease of 1% from the final 2023 amount of \$3,044,976. Budgeted expenditures are expected to be approximately \$2,812,000, a decrease of 4% from the final 2023 amount of \$2,930,740. The School has added no major new programs to the fiscal 2024 budget.

If these estimates are realized, the School's budgetary general fund balance is expected to increase by the close of fiscal 2024.

## **INDEPENDENT AUDITOR'S REPORT ON BASIC FINANCIAL STATEMENTS AND SUPPLEMENTARY INFORMATION**

To the Board of Directors of Academie Da Vinci Charter School, Inc., a Charter School  
and Component Unit of the District School Board of Pinellas County, Florida

### **REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS**

#### **Opinions**

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Academie Da Vinci Charter School, Inc. (the "School"), a charter school and component unit of the District School Board of Pinellas County, Florida, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the School's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of Academie Da Vinci Charter School, Inc. as of June 30, 2023, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the School and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the School's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the School's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the School's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 1 – 7 and the budgetary comparison information on pages 31 – 32 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### **OTHER REPORTING REQUIRED BY GOVERNMENT AUDITING STANDARDS**

In accordance with *Government Auditing Standards*, we have also issued our report dated September 12, 2023 on our consideration of the School's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School's internal control over financial reporting and compliance.

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the costs of those assets are allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation expense (\$192,463) exceeds capital outlays (\$136,520) in the current period.	(55,943)

**1 ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Organization**

Academie Da Vinci Charter School, Inc. (the "School") is a not-for-profit corporation organized pursuant to Chapter 617, Florida Statutes, the Florida Not For Profit Corporation Act and Section 1002.33, Florida Statutes. The governing body of the School is the not-for-profit corporation Board of Directors, which is composed of ten members.

The general operating authority of the School is contained in Section 1002.33, Florida Statutes. The School operates under a charter of the sponsoring school district, the District School Board of Pinellas County, Florida (the "School Board"). The current charter is effective until June 30, 2025 and may be renewed by mutual written agreement between the School and the School Board. At the end of the term of the charter, the School Board may choose not to renew the charter under grounds specified in the charter. In this case, the School Board is required to notify the School in writing at least 90 days prior to the charter's expiration. During the term of the charter, the School Board may also terminate the charter if good cause is shown. In the event of termination of the charter, any property purchased by the School with public funds and any unencumbered public funds, except capital outlay funds, revert back to the School Board. Any unencumbered capital outlay funds revert back to the Florida Department of Education ("FDOE") to be redistributed among eligible charter schools. The School is considered a component unit of the School Board and meets the definition of a governmental entity under the Governmental Accounting Standards Board ("GASB") accounting guidance; therefore, for financial reporting purposes, the School is required to follow generally accepted accounting principles applicable to state and local governmental units.

Criteria for determining if other entities are potential component units of the School which should be reported with the School's basic financial statements are identified and described in the GASB's *Codification of Governmental Accounting and Financial Reporting Standards*. The application of these criteria provides for identification of any entities for which the School is financially accountable and other organizations for which the nature and significance of their relationship with the School are such that exclusion would cause the School's basic financial statements to be misleading or incomplete. Based on these criteria, no component units are included within the reporting entity of the School.

**Basis of Presentation**

The School's financial statements have been prepared in accordance with generally accepted accounting principles as prescribed by the GASB. Accordingly, both government-wide and fund financial statements are presented.

**ACADEMIE DA VINCI CHARTER SCHOOL, INC.  
A CHARTER SCHOOL AND COMPONENT UNIT OF THE  
DISTRICT SCHOOL BOARD OF PINELLAS COUNTY, FLORIDA**

**NOTES TO FINANCIAL STATEMENTS  
(continued)**

The government-wide financial statements report information about the School as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the School's assets, deferred outflows of resources, liabilities and deferred inflows of resources, but excludes fiduciary funds. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

Program revenues consist of charges for services, operating grants and contributions, and capital grants and contributions. Charges for services refer to amounts received from those who purchase, use or directly benefit from goods, services or privileges provided by a given function. Grants and contributions consist of revenues that are restricted to meeting the operational or capital requirements of a particular function. Revenues not classified as program revenues are reported as general revenues.

The government-wide financial statements of the School are generally divided into three categories:

Governmental Activities – Most of the School's basic services are included here, such as instruction and school administration. Funds received through the Florida Education Finance Program ("FEFP") and state and federal grants finance most of these activities.

Business-type Activities – In certain instances, the School may charge fees to help it cover the costs of certain services it provides. The School currently has no business-type activities.

Component Units – There currently are no component units included within the reporting entity of the School.

The fund financial statements provide more detailed information about the School's most significant funds, not the School as a whole. A fund is an accounting entity having a self-balancing set of accounts for recording assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund balance, revenues, expenditures, and other financing sources and uses. Resources are allocated to and accounted for in individual funds based on the purposes for which they are to be spent and the means by which spending activities are controlled. The funds in the financial statements of this report are as follows:

Governmental Funds:

General Fund – To account for all financial resources not required to be accounted for in another fund.

Special Revenue Fund – To account for the proceeds of specific revenue sources and grants that are restricted by law or administrative action to expenditure for specific purposes and to provide a single source of accountability for all funds received.

Capital Projects Fund – To account for all resources for the acquisition of capital items by the School purchased with capital outlay and local capital improvement funds.

**ACADEMIE DA VINCI CHARTER SCHOOL, INC.  
A CHARTER SCHOOL AND COMPONENT UNIT OF THE  
DISTRICT SCHOOL BOARD OF PINELLAS COUNTY, FLORIDA**

**NOTES TO FINANCIAL STATEMENTS  
(continued)**

For purposes of these statements, the general, special revenue and capital projects funds are considered major funds. There are no other governmental funds.

Fiduciary Fund:

Custodial Fund – The School is the custodian, or fiduciary, for assets that belong to others, such as student activities funds. The School is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The School excludes these activities from the government-wide financial statements because the School cannot use these assets to finance its operations.

### **Basis of Accounting**

Basis of accounting refers to when revenues and expenses/expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The government-wide and fiduciary fund financial statements are presented using the accrual basis of accounting and an economic resources focus. Under the accrual basis of accounting, revenues and expenses are recognized when they occur.

The modified accrual basis of accounting and current financial resources focus is followed by the governmental funds. Under the modified accrual basis, revenues are recognized when they become measurable and available. Available means collectible within the current year or soon enough thereafter to pay current liabilities. The School considers revenues to be available if they are collected within 60 days of the end of the fiscal year. Under the modified accrual basis of accounting, expenditures are generally recognized when the related fund liability is incurred. The principal exceptions to this general rule are: (1) interest on general long-term debt is recognized when due and (2) expenditures related to liabilities reported as general long-term debt are recognized when due.

### **Budgetary Basis Accounting**

Budgets are presented on the modified accrual basis of accounting. During the fiscal year, expenditures were controlled at the fund level.

### **Cash and Cash Equivalents**

Investments with an original maturity of three months or less at the time they are purchased are considered to be cash equivalents. The School maintains its cash accounts in a financial institution subject to insurance coverage issued by the Federal Deposit Insurance Corporation (the "FDIC"). Under FDIC rules, the School is entitled to aggregate coverage of \$250,000 per account type per separate legal entity per financial institution. As of June 30, 2023, the School had deposits in a financial institution with custodial credit risk exposure in excess of FDIC coverage totaling approximately \$353,000. The School has not historically experienced losses on its cash and cash equivalents.

A CHARTER SCHOOL AND COMPONENT UNIT OF THE  
DISTRICT SCHOOL BOARD OF PINELLAS COUNTY, FLORIDA**

**NOTES TO FINANCIAL STATEMENTS  
(continued)**

**Receivables**

Receivables consist of amounts due from governmental agencies for capital outlay or other programs. Allowances are reported when management estimates that accounts may be uncollectible.

**Capital Assets and Depreciation**

Expenditures for capital assets acquired for general School purposes are reported in the governmental fund that financed the acquisition. Purchased capital assets are reported at cost, net of accumulated depreciation, in the government-wide financial statements. Donated assets are recorded at fair value at the date of donation. Depreciation is computed using the straight-line method over the estimated useful lives of the assets, which range as follows:

	<u>Years</u>
Buildings and improvements	5 - 39
Furniture, fixtures and equipment	3 - 10

Information relative to changes in capital assets is described in Note 5.

**Long-term Liabilities**

Long-term obligations that will be financed by resources to be received in the future by the governmental funds are reported in the government-wide financial statements, not in the governmental funds. Information relative to changes in long-term liabilities is described in Note 7.

**Fund Balance Spending Policy**

The School's adopted spending policy is to spend from the restricted fund balance first, followed by committed, assigned, then the unassigned fund balance. Most funds were designated for one purpose at the time of their creation. Therefore, expenditures made out of the fund will be allocated to the applicable fund balance classifications in the order of the aforementioned spending policy. If expenditures are incurred that meet the purpose of more than one fund, they will be allocated to restricted fund balance first and then follow the order above. Funds can only be committed by formal action of the Board of Directors. There are no minimum fund balance requirements for any of the School's funds.

**NOTES TO FINANCIAL STATEMENTS

**Revenue Sources**

Revenues for current operations are received primarily from the School Board pursuant to the funding provisions included in the School's charter. As such, the School's revenue stream is largely dependent upon the general state of the economy and the amounts allotted to the FDOE by the state legislature. In accordance with the funding provisions of the charter and Section 1002.33(18), Florida Statutes, the School reports the number of full-time equivalent students and related data to the School Board.

Under the provisions of Section 1011.62, Florida Statutes, the School Board reports the number of full-time equivalent students and related data to the FDOE for funding through the FEFP. Funding for the School is adjusted during the year to reflect the revised calculations by the FDOE under the FEFP and the actual weighted full-time equivalent students reported by the School during the designated full-time equivalent student survey periods. The School Board receives a 2% administrative fee from the School, which is reflected as a general administration expense/expenditure in the accompanying statements. This administrative fee is calculated on the FEFP revenue up to 250 students.

The School receives federal awards for the enhancement of various educational programs. This assistance is generally received based on applications submitted to and approved by various granting agencies. For federal awards in which a claim to these grant proceeds is based on incurring eligible expenditures, revenue is recognized to the extent that eligible expenditures have been incurred.

The School is also eligible for charter school capital outlay funding. The amounts received under this program are based on the School's actual and projected student enrollment during the fiscal year. Funds received under this program may only be used for lawful capital outlay expenditures and, as such, any unexpended amounts are reflected as restricted net position and restricted fund balance in the accompanying financial statements.

**Income Taxes**

The School is an organization exempt from income taxation under Section 501(a) as an entity described in Section 501(c)(3) of the Internal Revenue Code of 1986, as amended. Accordingly, no provision for federal income taxes is included in the accompanying financial statements.

**NOTES TO FINANCIAL STATEMENTS

**Use of Estimates**

In preparing the financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities and deferred inflows of resources as of the date of the statement of net position and the balance sheet – governmental funds and affect revenues and expenses/expenditures for the period presented. Actual results could differ significantly from those estimates.

**Subsequent Events**

The School has evaluated subsequent events through September 12, 2023, the date these financial statements were available to be issued.

**2 ACCOUNTS RECEIVABLE**

Accounts receivable in the accompanying financial statements include \$32,270 in amounts primarily due from governmental agencies. Based on the collectibility of funds from these sources, the School believes that an allowance for doubtful accounts is not considered necessary.

**3 INTERFUND ACTIVITIES**

Due to/from other funds consisted of the following balances as of June 30, 2023:

	<b>Interfund Receivables</b>	<b>Interfund Payables</b>
General fund	\$ 32,210	\$ -
Special revenue fund	-	32,210
Total interfund	\$ 32,210	\$ 32,210

The amount payable by the special revenue fund to the general fund is to cover temporary cash shortages related to the timing of receipts.

**6 COMMITMENTS AND CONTINGENT LIABILITIES**

**Grants**

The School participates in state and federal grant programs, which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the School has not complied with the rules and regulations governing the grants, refunds of any money received may be required and collectibility of any related receivable as of June 30, 2023 may be impaired. In the opinion of the School, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying financial statements for such contingencies.

**Legal Matters**

In the normal course of conducting its operations, the School occasionally becomes party to various legal actions and proceedings. In the opinion of management, the ultimate resolution of such legal matters will not have a significant adverse effect on the accompanying financial statements.

**Risk Management Program**

Workers' compensation coverage, health and hospitalization, general liability, professional liability and property coverages are being provided through purchased commercial insurance with minimum deductibles for each line of coverage. Settled claims resulting from these risks have not historically exceeded commercial coverage.

The Bonds were privately placed with Ameris Bank (the "Lender") and do not constitute a debt, liability or obligation of the Issuer, Pinellas County, Florida or of the State of Florida or of any other political subdivision. The School incurred \$164,994 in issuance fees in connection with this debt. Proceeds from this note were recorded in the general fund in 2022.

The School shall pay directly to the Lender, for the account of the Issuer, on or before the dates required under the Bonds and under the financing agreement. **INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the Board of Directors of Academie Da Vinci Charter School, Inc., a Charter School and Component Unit of the District School Board of Pinellas County, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Academie Da Vinci Charter School, Inc. (the "School") as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the School's basic financial statements, and have issued our report thereon dated September 12, 2023.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING**

In planning and performing our audit of the financial statements, we considered the School's internal control over financial reporting ("internal control") as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School's internal control. Accordingly, we do not express an opinion on the effectiveness of the School's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

## **REPORT ON COMPLIANCE AND OTHER MATTERS**

As part of obtaining reasonable assurance about whether the School's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## **PURPOSE OF THIS REPORT**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
