INTRODUCTORY SECTION

Office of Nikki Alvarez-Sowles, Esq. Pasco County Clerk & Comptroller

April 21, 2021

The Honorable Ron Oakley, Chairman
Board of County Commissioners
Pasco County, Florida
37918 Meridian Avenue
Dade City, FL 33525

Dear Chairman Oakley:

The Annual Comprehensive Financial Report (ACFR) of Pasco County, Florida (County) for the fiscal year ended September 30, 2020 is respectfully submitted. The Financial Services Department, within the Office of the Clerk of Circuit Court and County Comptroller (Clerk & Comptroller), prepared this report. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the County. We believe the data, as presented, are accurate in all material respects and are presented in a manner designed to present fairly the financial position and results of operations of the various funds. All disclosures necessary to enable the reader to gain an understanding of the County's financial activities have been included. The report fulfills the requirements set forth in Section 218.39, Florida Statutes, and the Rules of the Florida Auditor General, Chapter 10.550.

In accordance with Section 218.39, Florida Statutes, each county is required to have an annual financial audit of its accounts and records by an independent certified public accountant. The County has complied with this requirement engaging the firm of Carr, Riggs & Ingram, LLC, Certified Public Accountants, to perform the audit for the fiscal year ended September 30, 2020. The goal of an independent audit is to obtain reasonable assurance about whether the financial statements are free of material misstatement. The independent audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. It also includes assessing the accounting principles used and significant estimates made by management, as well as, evaluating the overall financial statement presentation. Carr, Riggs & Ingram, LLC concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified (clean) opinion that Pasco County, Florida's financial statements for the fiscal year ended September 30, 2020, are fairly presented, in all material respects, in conformity with U.S. generally accepted accounting principles (GAAP).

ORGANIZATION AND CONTENT OF THE ACFR

The ACFR complies with the financial reporting model as required by Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments*.

The ACFR is organized into four sections:

- **Introductory Section**
This section is intended to familiarize the reader with the organizational structure of the County, the nature and scope of the services it provides, and the specifics of its legal environment. It also provides economic and major initiative highlights.
- **Financial Section**
This section includes the audited basic financial statements, notes to the financial statements, and supporting statements and schedules necessary to fairly present the financial position and the results of operations of the County in conformity with GAAP, as well as, the independent auditors’ report. Also included in this section are the narrative introduction, overview, and analysis found in Management’s Discussion and Analysis (MD&A). MD&A is intended to disclose any known significant events or decisions that affect, or may affect, the financial condition of the County.
- **Statistical Section**
This section includes selected financial and demographic information, generally presented on a multi-year basis.
- **Compliance Section**
This section includes the Independent Auditors’ Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Governmental Auditing Standards, Management Letter, Independent Accountant’s Report on Compliance with Sections 365.173(10) and 365.173(2) (d), Florida Statutes, and the Independent Accountant’s Report on Compliance with Section 218.415, Florida Statutes.

THE REPORTING ENTITY AND ITS SERVICES

Pasco County is a Non-Charter County established under the Constitution and the laws of the State of Florida. The ACFR is a County-wide report which discloses the results of operations for the following entities: Board of County Commissioners (BCC); Clerk & Comptroller; Property Appraiser; Sheriff; Supervisor of Elections; and Tax Collector. The BCC is the legislative body for Pasco County and, as such, it budgets and provides all funding used by the BCC's departments and the separate Constitutional Officers, with the exception of certain fees and service charges collected by the Clerk & Comptroller, Property Appraiser, Sheriff, Supervisor of Elections, and Tax Collector.

Under the direction of the Clerk & Comptroller, the Financial Services Department maintains the accounting records for the BCC and the Clerk & Comptroller operations. The Property Appraiser, Sheriff, Supervisor of Elections, and Tax Collector maintain their own accounting systems and records. However, for purposes of the ACFR, the operations of the County as a whole, including those of the Constitutional Officers, have been presented.

The process of evaluating potential component units involves the application of criteria set forth by the GASB. The financial reporting entity consists of the primary government, organizations for which the

primary government is financially accountable and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The definition of the reporting entity is based primarily on the notion of financial accountability. The primary government is financially accountable for the organizations that make up its legal entity - the Board and the Constitutional Officers. The primary government is also financially accountable for legally separate organizations if its officials appoint a voting majority of an organization's governing body and, either it is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on, the primary government.

Based on the application of the aforementioned criteria, the Pasco County Housing Finance Authority, the J. "Ben" Harrill Villages of Pasadena Hills Stewardship District, and Connected Cities Stewardship District were determined to be discretely presented component units properly included in the County's reporting entity.

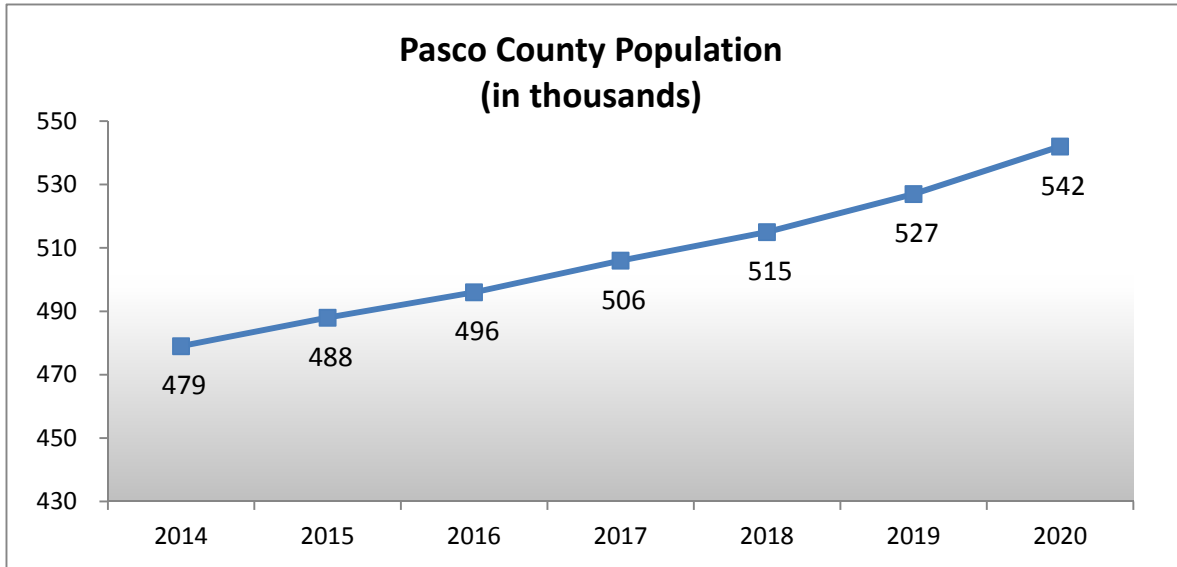

Pasco County provides a full range of services. These include public safety (law enforcement and fire), culture and recreation, health and social services, streets and highways, public improvements, planning and zoning, water and sewer, resource recovery, as well as general and administrative services.

ECONOMIC CONDITION AND OUTLOOK

Pasco County is encompassed as part of the nine-county region commonly referred to as the "Nature Coast". Sitting approximately 30 miles north of Tampa and 50 miles west of Orlando, Pasco County can be defined by three distinct demographic areas:

- Eastern Pasco County is defined as being a largely rural and agriculturally diverse region. It is also home to the County Seat, located in Dade City.
- Central Pasco County remains the main contributor in regards to development. Once considered a discreet area of the county, it has quickly developed in to the county's main tourist draw with various forms of shopping and entertainment.
- Western Pasco County is highly developed suburban area of the county. The West Pasco Government Center and West Pasco Judicial Center are located on this side of the county, in New Port Richey.

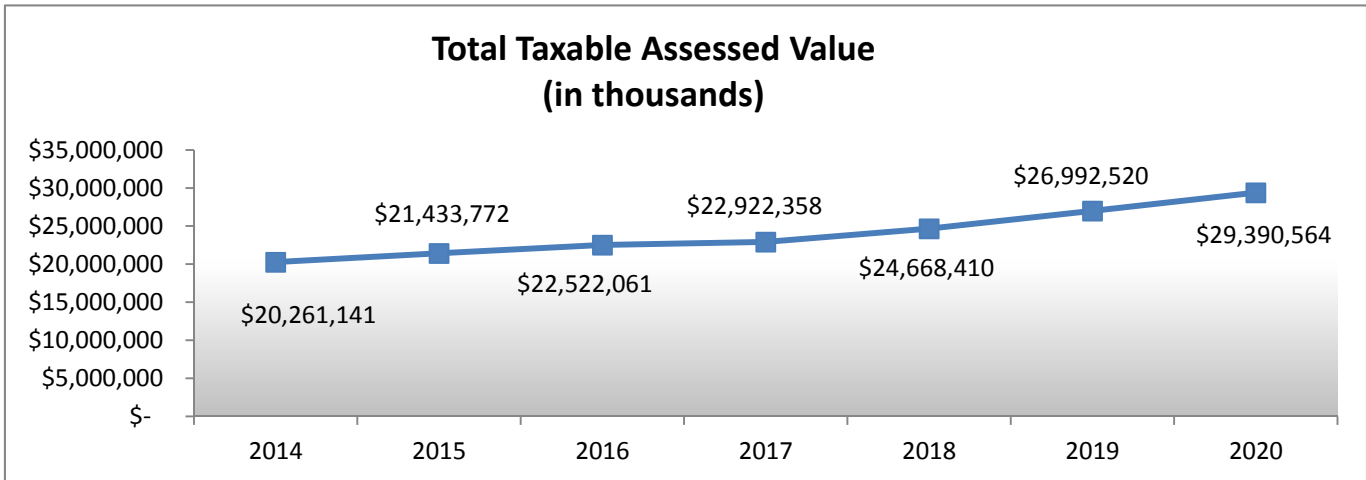

- Resident income levels have steadily increased since 2000, \$32,969 – In 2020, median household income levels were \$46,010.

- Pasco County is considered by many to be located in the heart of the “Super Region”. The population of Pasco County increased from 479,340 in 2014 to 542,638 in 2020. This is the tenth consecutive year of population growth within the county. Currently coming in as the 12th most populous county in Florida, the population is projected to grow another 19.1% (or to 651,000) by 2025.
- As of September 30, 2020 Pasco County’s unemployment rate stood at 6.6%. This is an increase from the previous year’s rate of 3.8%, and is also 1.0% below the state and 1.3% below the national average, respectively. The expectation for 2021 is to see the unemployment rate for the county to remain in line with the state and national average. The US economy suffered a shutdown in response to the COVID-19 pandemic which had a profound impact on the U.S. economy, includes rapid increase in unemployment in 2020.

- As of September 30, 2020 the median value of a home in Pasco County was \$254,995. In the past year alone the median value of a single-family home has increased by 10.5% with an additional 4.8% increase expected by the end of 2021.
- According to the most recent study performed by the Director of Economic Analysis at Florida Polytechnic University, Pasco County's 2019 Florida Price Level Index of 98.01 calculated, under the direction of the Florida Legislature, ranks Pasco County 37th in the State. The index indicates, in general, that Pasco County's cost of living compares favorably with the Florida State average of 94.9.
- Following 5 years of rapid decline, Total Taxable Assessed Values (TTAV) have increased each year since 2014. In fact, TTAV increased by more than 45% since 2014 with the value of new construction accounting for a significant portion of that increase.

- For the first time since 2014 Outstanding Delinquent Taxes saw an increase of 42.7% over prior year. This increase can be attributed to the COVID-19 pandemic.

MAJOR INITIATIVES

- Program Maintenance includes 21.6 lane miles to be paved in FY 2020 with an estimated cost of \$10 million. The paving assessment includes 16.8 lane miles to be paved in FY 2020 with an estimated cost of \$5 million. The County continues to improve their traffic operations through the Signalization Project that currently is in year two of five to complete needed renewal and replacement on signal intersections.
- Provide funding to validate the existing conditions of the most recent Facilities Master Plan and project out additional 5-years of potential growth and update the plan to 2040.
- On June 30, 2020 the County borrowed \$29.3 million in a private placement (BB&T Bank) to finance the acquisition of the commercial Pasco Aqua Utility System (i.e., Aqua System) which will be incorporated into the County's existing combined water and sewer system. The acquisition price will include the amount required to defease Aqua System's Utility Revenue Bonds, Series 2013A issued by the Florida Governmental Utility Authority ("FGUA"), and to fund the cost of capital improvements and replacement and renewal projects to bring the Aqua System facilities up to County standards and to ensure efficient operation, maintenance, and expansion of the utilities capacity to include potable water, wastewater, reclaimed water, and solid wasted services.
- The Utilities CIP comprises 32 scheduled renewal and replacement projects and six major growth projects, including the Southeast and Shady Hills Wastewater Treatment Plants.
- Install surveillance cameras in Central Permitting so the front-line team members interacting with the public feel a sense of safety and security
- Pasco County continues to develop, operate, and maintain a robust multi-modal transportation and roadway infrastructure system with the addition of eight miles of multi-use paths, trails, bike lanes, and sidewalks to the County's transportation network. There is an extension to Asbel Road that is East from US 41 to Central Blvd, includes a new roadway east of US 41 with a new traffic signal at US 41 and Asbel Road Extension, for a total estimated cost of \$1.7 million. The County is partnering with Walmart to complete the work. FDOT will be constructing a new traffic signal at US 19 and Beacon Woods Drive concurrent with the County and Walmart improvements. The total estimated cost is \$1.5 million.
- The County has partnered with the Florida Department of Transportation (FDOT) for the Design and Build of the I-75 and Overpass Road Interchange and Roadway Improvements from Old Pasco Road to East of Boyette Road project, with FDOT as the project manager. The total anticipated cost is \$74.8 million.
- Capital projects in the FY 2019 budget carried over to FY2020 including Ridge Road Extension, Phase I from Ridge Road to the Suncoast Parkway includes the interchange at the Suncoast Parkway with a total estimated cost of \$83.8 million. The county continued the interim safety improvements for Old Pasco Road, The total estimated cost is \$4.9 million. Phase I will upgrade signing and marking, providing median modifications on Foamflower Boulevard and the addition of a left turn lane. Phase II, with Design in FY 2020 and Construction in FY 2021, will add 2' paved shoulders, correct the cross slope, and add turn lanes on Foamflower Boulevard, Dayflower Boulevard, Country Club Road, Sonny Drive, and Lindenhurst Drive.

- Purchase software to facilitate the Budget Request, Entry, and Reporting processes for the County to improve the overall Budget Process and increase transparency throughout the process. Purchase Engage software subscription to administer the annual employee engagement survey and provide comparative data for benchmarking.
- Continue to improve Public Safety response initiatives and service delivery capabilities, Facilities Management is planning to establish a generator replacement plan to prepare for any future replacement needs. Fire rescue is intending to fund the implementation of a series of Quality Assurance initiatives, including software purchases, reclassified positions, new positions, and customer satisfaction surveys.
- Pasco County is planning to implement a new bus route to service the Shady Hills Area, to deliver the essential services to the community.
- On May 21, 2020 the County issued \$7.9 million Park Capital Improvement Non-Ad Valorem Revenue Bond fund. A portion of the requested funding (\$5,200,000) will be used to complete the original design at SRDP. This includes the construction of six additional multi-purpose sports fields, one concession/restroom building, and completing the remainder of the parking lot. The remaining funds (\$2,665,000) will be used at Sun West Park to build-out the remainder of the Park.

The following capital projects give only a partial listing of major improvements recently completed or currently under construction by the County:

- The Construction of a new Fire Station 40 at the intersection of SR52 and Majestic schedule to be completed in 2021. The replacement of Fire Rescue Station 17 (River Ridge) was completed in 2019. The replacement of Fire Rescue station 19 and 20 are scheduled to be completed in 2021 & 2022. Training facility upgrade will be completed in summer of 2021.
- Pasco County approved \$104 million for the Detention Center Expansion. Construction has commenced and is scheduled to be completed in the summer of 2021.
- The 2017 – 2020 Tourist Development Plan (TDP) implemented the acquire, construct, extend, enlarge, remodel, repair, improve, maintain, or operate convention centers, sports stadiums, sports arenas, coliseums, auditoriums, zoological parks, fishing piers, or nature centers within the boundaries of Pasco County which are publicly owned and operated or owned and operated by not-for-profit organizations and open to the public. The Capital Projects that the TDD will be developing in the next five years are Sport Complex, Gateways Welcome Sings, Nature Center, and Cyclist Friendly Visitor Center.
- The CIP consists of 256 projects for a total of \$653 million, of which \$159.3 million is programmed in FY 2020.

FINANCIAL INFORMATION

The County's accounting records for general governmental operations are maintained on the modified accrual basis, with revenues recorded when measurable and available, and expenditures recorded when the services or goods are received and the liabilities are incurred, except for principal and interest on general long-term debt and compensated absences, which are recognized as expenditures to the extent that they have matured.

Accounting records for the County's enterprise and internal service operations are maintained on the accrual basis, with the revenues recorded when earned and expenses recorded when the liabilities are incurred. Procedures have been developed for financial reporting adjustments and reconciling data in order to apply the accrual method of accounting across all funds in accordance with GASB Statement No. 34.

In developing the County's accounting system, consideration is given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding:

- The safeguarding of assets against loss from unauthorized use or disposition; and
- The reliability of financial records for preparing financial statements and maintaining accountability for assets

The concept of reasonable assurance recognizes that:

- The cost of a control should not exceed the benefits likely to be derived; and
- The evaluation of costs and benefits requires estimates and judgments by management.

All internal control evaluations occur within the above framework. We believe that the internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

Budgetary control is maintained at the department level by encumbrance of estimated purchase amounts prior to the release of purchase orders to vendors. Purchase orders, which would result in an overrun of sub-function balances, are not released until additional appropriations are made available. Depending how the original resources were classified, open encumbrances at September 30, 2020 are reported as unassigned or assigned.

Capital Assets

Under Section 273.02, Florida Statutes, property means equipment, fixtures, and other tangible personal property of a non-consumable and non-expendable nature costing over \$1,000 with a normal expected life of one year or more which shall be periodically reviewed for inventory purposes. These properties, as well as, the capital assets of the County are used in the performance of governmental and business-type activities. The County capitalizes all tangible assets with a value in excess of \$5,000 and recognizes depreciation based upon their useful lives (see Note 1H in the Notes to Financial Statements). In accordance with U.S. GAAP, capital assets in Pasco County are recorded at either historical (original) cost, or estimated historical cost if original cost data is not available, except for contributed property which is recorded at its estimated fair value at the date of contribution. In accordance with GASB Statement No. 34, the County has recorded and reported all infrastructure assets acquired since 1980. Infrastructure assets include streets, roads, sidewalks, and bridges.

Independent Audit

Section 218.39, Florida Statutes, requires an independent certified public accountant's financial audit of counties in the State. Pasco County has complied with this requirement, and the report of our independent auditor, Carr, Riggs & Ingram LLC, has been included in this report. As a recipient of federal awards and state assistance, the County is responsible for maintaining an adequate internal control framework to ensure compliance with applicable laws and regulations related to these assistance

programs. The independent certified public accountant issues a report on compliance and internal control over compliance in the annual Single Audit, which covers major federal grant programs, and in the annual Florida Single Audit, which covers major state grant programs. The federal and state Single Audits were designed to meet the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance), as well as, Section 215.97, Florida Statutes, respectively. The independent certified public accountants' Single Audit Report is issued separately.

Reporting Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Pasco County, Florida for its ACFR for the fiscal year ended September 30, 2019. This was the thirty-seventh consecutive year Pasco County has achieved this prestigious award. To be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized ACFR. This report must satisfy both GAAP and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe that our current ACFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

INDEPENDENT AUDITORS' REPORT

Distinguished Members of the
Board of County Commissioners
Pasco County, Florida

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Pasco County, Florida (the County) as of and for the year ended September 30, 2020 and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Pasco County, Florida, as of September 30, 2020, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matters

Corrections of Prior Period

As described in Note 19 to the financial statements; governmental activities – net position beginning of the year and aggregate remaining fund information – fund balance beginning of the year, were restated in the amount of \$3,901,426 due to a correction of the prior period. Also described in Note 19 to the financial statements; business-type activities – net position beginning of the year and Solid Waste Disposal and Resource Fund – fund balance beginning of the year, were restated in the amount of \$6,145,405 due to a correction of the prior period. Our opinions were not modified with respect to these matters.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and other required supplementary information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, budgetary comparison schedules, statistical section and the schedules of receipts, disbursements, and balances in compliance with Section 714(3) of the indenture trust are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards and state financial assistance and related notes is presented for purposes of additional analysis as required by Title 2 *U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* and Chapter 10.550, *Rules of the Auditor General*, and is also not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards and state financial assistance are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and the schedule of expenditure of federal awards and state financial assistance are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections and the schedules of receipts, disbursements, and balances in compliance with Section 714(3) of the indenture trust have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated April 21, 2021, on our consideration of Pasco County, Florida's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Pasco County, Florida's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Pasco County, Florida's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Provides an objective analysis of the County's financial activities.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Management's discussion and analysis provides an overview of the financial activities of Pasco County, Florida (County) for the fiscal year ended September 30, 2020. We encourage readers to consider the information presented here in conjunction with additional information that has been provided in the Letter of Transmittal, on page A-1, and in the County's financial statements that begin on page D-1.

Financial Highlights

Government-wide Statement

- As of September 30, 2020, the County's assets and deferred outflow of resources exceeded its liabilities and deferred inflow of resources by \$2.387 billion (Net Position), an increase of \$190.0 million over the prior year.
- The Total Net Position, of \$2.387 billion, is comprised of the following: (1) \$677 million is restricted as a result of constraints imposed by parties outside the County, such as debt covenants, laws, or regulation; (2) \$1.371 billion of net investment in capital assets, which includes property and equipment, net of accumulated depreciation, reduced for outstanding debt related to the purchase or construction of those capital assets; and (3) \$339 million in unrestricted net position.

Fund Statements

- At September 30, 2020, governmental funds reported a combined ending fund balance total of \$701.4 million, an increase of \$64.5 million (or 10.1%) over the prior year. Of the total, \$56.5 million is available for spending at the County's discretion (assigned or unassigned fund balance), subject to the intent of the Board of County Commissioners or the Office of the Clerk & Comptroller, to which the authority to assign amounts for specific purposes has been delegated by the Board.
- At September 30, 2020, the fund balance of the County's General Fund was \$68.1 million, representing an increase of \$11.1 million (or 19.4%) from the prior year. \$64.5 million of the fund balance total was assigned or unassigned.
- The County's total liabilities increased by \$175.3 million during the fiscal year.
- Governmental fund revenues increased by an overall \$90.9 million, or 14.0%, from prior year. This can be attributed to an increase \$22.3 million in taxes, increase of \$3.0 million in special assessments, decrease of \$3.0 million in licenses and permits, increase of \$102.4 million in intergovernmental revenues, a decrease of \$3.7 million in charges for services, fines and forfeitures, decrease in interest and other earnings by \$2.3 million, and a decrease in miscellaneous revenue of \$27.9 million.
- As of September 30, 2020, there was an increase in Bonds Payable of \$56.3 million. This can be attributed to the issuance of Second Local Option Fuel Tax for \$22.2 million, Capital Improvement Non-Ad Valorem for \$7.9 million and Water and Sewer Revenue bonds for \$26.2 million

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to Pasco County's *Basic Financial Statements*. The *Basic Financial Statements* include three components: (1) Government-wide Financial Statements, (2) Fund Financial Statements, and (3) Notes to the Financial Statements. This Annual Comprehensive Financial Report also contains other Required Supplementary Information and Supplemental Information in addition to the Basic Financial Statements themselves.

Government-wide Financial Statements

The government-wide financial statements are designed to provide a broad overview of the County's finances in a manner similar to a private sector business. The information consists of the following statements:

- The Statement of Net Position presents information on all of the County's assets and liabilities, as well as the deferred inflows/outflows of resources. The differences between the two are then reported as net position. Over time, changes in net position may serve as an indicator as to whether the financial position of the County is strengthening or weakening.
- The Statement of Activities presents information showing how the government's net position changed during the fiscal year. Changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of when cash is received or paid. Therefore, some of the revenues and expenses reported in the statement of activities will only result in cash flows in future periods. For example, certain uncollected taxes are shown as revenues although cash receipts will occur in the following year. Also, an increase in earned, unused vacation leave is recorded as an expense although the related cash outflows will occur in the future.

Both of the financial statements distinguish between activities of the County that are supported primarily by program revenues, taxes, and intergovernmental revenues (governmental activities) and activities that recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include general government, public safety, physical environment, transportation, economic environment, human services, culture and recreation, and court-related functions. The business-type activities of the County are the Water and Sewer Unit and the Solid Waste Disposal and Resource Recovery System. In the government-wide financial statements, emphasis is placed on the position of governmental activities and business-type activities and on the change in net position.

The government-wide financial statements include not only the County itself (known as the *primary government*), but also legally separate entities, the Pasco County Housing Finance Authority and Connected Cities, for which the County is financially accountable. The financial information for these component units are reported separately from the financial information of the primary government. To obtain separately issued financial statements of this discretely presented component unit, see Note 1, *Summary of Significant Accounting Policies, Reporting Entity*, in the *Notes to Financial Statements*. The J. "Ben" Harrill Villages of Pasadena Hills Stewardship District, the other discretely presented component unit, had no financial activities during the year.

Fund Financial Statements

A fund is a subgrouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements, including those involving legislative, administrative and contractual obligations. All of the County's funds can be divided into three categories: governmental, proprietary, and fiduciary.

Governmental Funds

Most of the County's basic services are reported in governmental funds. Governmental funds are used to account for essentially the same functions as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. Consequently, governmental fund financial statements provide a detailed focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. This

information may be useful in evaluating a government's near-term financing requirements. Since the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to perform a comparison of the information presented for the governmental funds with similar information for governmental activities in the government-wide financial statements. This will provide readers with a better understanding the long-term impact of the government's near-term financing decisions.

As of September 30, 2020, the County maintains 178 individual governmental funds. Information regarding these funds can be located within both the governmental fund balance sheet and governmental fund statement of revenues, expenditures and changes in fund balance on pages D-5 and D-7 respectively. The financial information represented in these statements shows a breakdown of the County's General Fund, with the remaining funds represented as Other Governmental Funds. To view financial information for the remaining non-major funds readers should reference the Combining and Individual Fund Statements and Schedules section of this document. Within this section, readers will not only see financial information related to the Board of County Commissioners, but also the Constitutional Officer's.

The County also adopts an annual budget for its general, special revenue, debt service, and capital project funds. Budgetary comparison schedules have been provided for these funds to demonstrate budgetary compliance.

Proprietary Funds

The County maintains two different types of proprietary funds, which are presented as business-type activities in the government-wide financial statements. The County uses enterprise funds to account for its major business type funds, the Water and Sewer Unit and Solid Waste Disposal and Resource Recovery System. In addition, the internal service funds are used to accumulate and allocate costs internally among the County's various functions. The County uses the internal service funds to account for the Equipment Service, County Insurance, County Self Insurance, Clerk and Comptroller's Insurance, and the Sheriff's Health Insurance. As these operations predominantly benefit governmental rather than business-type functions, they are included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements can be found in the *Basic Financial Statements*. Individual fund data for the internal service funds are provided in the *Combining and Individual Fund Statements and Schedules* section of this report.

The basic proprietary fund financial statement can be found on pages D-9 to D-13 of this document.

Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Agency funds are not included in the government-wide financial statements because the resources of these funds are not available to support the County's own programs. However, the separate *statement of fiduciary net position – agency funds* is included in the *Basic Financial Statements*, since the County has custodial responsibility. Additionally, the individual agency funds are included in the *Combining and Individual Fund Statements and Schedules* section of this report.

The basic fiduciary fund financial statement can be found on page D-14 of this document.

Notes to the Financial Statements

The notes provide additional information that is essential for a full understanding of the data provided in both the government-wide financial and fund financial statements. The notes to the financial statements can be found starting on page E-1, with the index starting on the first page.

Other Information

The combining statements for the non-major funds, internal service funds, agency funds, as well as individual fund budget and actual comparison schedules, are found in the *Combining and Individual Fund Statements and Schedules* section of this report beginning on G-1.

Additional information of interest to the reader can be found within the Statistical Section, which starts on Page H-1.

Government-Wide Financial Analysis

In accordance with the requirements of Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments (GASBS No. 34)*, the government-wide financial statements have been prepared using accrual accounting for all of the County’s activities. Accrual accounting measures not just current assets and liabilities but also long-term assets and liabilities, such as capital assets and bond issue debt. The use of accrual accounting results in the reporting of all revenues and all costs of providing services each year, not just those received or paid in the current year or soon after year-end, as does modified accrual basis accounting. As noted earlier, net position may serve, over time, as a useful gauge of a government’s financial position.

At September 30, 2020, the County is able to report positive balances in all 3 categories of net position for both Governmental and Business-Type Activities.

The County's total net position at September 30, 2020 was \$2.387 billion. The largest portion of the County's net position, \$1.371 billion (or 57.4%), is reflected in its investment in capital assets (e.g., land, buildings, equipment, and infrastructure), less any related debt outstanding that was used to acquire those assets. Since Pasco County uses these capital assets to provide services to its citizens, the net assets represented by "investment in capital assets, net of related debt" are not available for future spending. Although the County's investment in capital assets is reported net of related debt, the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. Pasco County's net position include restricted net position of \$677.3 million (or 28.4%) that are subject to external restrictions on how they may be used, such as those imposed by debt covenants, grantors, laws and regulations. The balance in net position, \$339.3 million (or 14.2%), is unrestricted and may be used to meet the County's ongoing obligations to citizens and creditors.

The changes in net position for the years ended September 30, 2020 and 2019 are presented below, followed by information regarding those governmental and business-type activities contributing most significantly to the changes.

**Governmental Activities
Fiscal Year 2020**

Program Revenue versus Total Expenses

The information presented above shows how the program specific revenues are used and allocated during the course of the fiscal year. The reason for high expense to revenue ratios in General Government and Public Safety is due to the timing of when grants and contributions are requested and received.

Total Revenues by Type (in Millions)

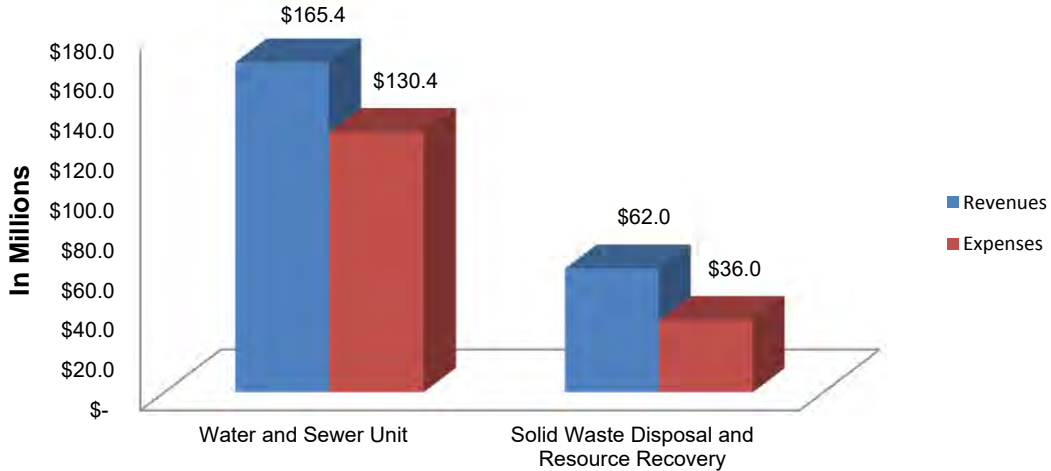

*Includes Interest earnings, Unrestricted Grants and Contributions, and Miscellaneous

The pie chart in the diagram above displays how the county earns and receives a majority of the available revenue during the course of the fiscal year. The largest portion at 34% of the total revenue received by Pasco County is related to property taxes. Charges for Services also experienced an increase due to an increase in county population.

**Business-type Activities
Fiscal Year 2020**

Program Revenues and Expenses

As expected with a growing county, the amount of revenues for the County's Enterprise fund continues to experience an overall increase. The increase in revenues has also led to a corresponding increase in expenses as the County attempts to maintain the expected levels of service that has come with the Water and Sewer and Solid Waste Disposal and Resource Recover Unit.

As can be seen in the diagram above a majority of the receipted revenue for the enterprise funds comes in the form of the always increasing charges for services. With an increase in county population, this has led to an increase in the amount of customers that the enterprise funds serve during the course of the fiscal year.

Governmental Activities

Governmental activities increased Pasco County's net position by \$116.6 million, or 8.9%, during fiscal year 2020. The cost of all governmental activities in 2020 was \$635.2 million, 15.7% higher than in 2020.

In addition, the amount that taxpayers paid through property, sales, franchise, and telecommunications, gasoline, and tourist development taxes increased by approximately 6.9%, to \$332.6 million, in 2020. This increase can be attributed to the continued influx of population during fiscal year 2020. Those who directly benefit from the programs paid some of the cost (\$168.2 million) through charges for services, while other governments and organizations subsidized programs with grants and contributions, and shared revenues (\$214.4 million).

Business-type Activities

As stated earlier, the County has two business-type major funds, the Water and Sewer Unit and the Solid Waste Disposal and Resource Recovery System.

The Water and Sewer Unit provides a potable water supply, and its distribution, as well as wastewater collection and treatment, disposal and reuse. These services are provided through facilities owned by the County and through contracts with other entities. The water distribution system, including pump stations, treatment plants, water mains, and water storage facilities, is connected to two major supply sources - Tampa Bay Water (Starkey, Cypress Creek, and Lake Bridge) and twenty-five individual water supply wells throughout the County. The County also operates thirteen wastewater treatment plants, in addition to a Residual Management Facility and a Grease Facility. Disposal of wastewater is primarily accomplished through the use of reclaimed water systems, spray irrigation evaporation/percolation ponds, and cooling tower water for the County's Waste-to Energy Facility (see below).

The County annually updates its Capital Improvements Plan which will produce population and wastewater flow projections, examine service areas, wastewater treatment and disposal alternatives, and include recommendations concerning construction and implementation schedules. In addition, a Sanitary Sewer Management Plan and the Water Quality and Water Distribution Management Plan have been undertaken to evaluate and address the Unit's infrastructure.

The Solid Waste Disposal and Resource Recovery System is an integrated approach to waste management. Collection is primarily achieved by private hauling firms that are licensed by the Board of County Commissioners. Processed solid waste is trucked either directly to the mass-burn resource recovery facility (the "Facility") or to the East Pasco Transfer Station, for subsequent transportation to the Facility. The Facility converts solid waste to electrical power through a combustion process that generates approximately 31 megawatts of electricity for sale to Duke Energy under a power purchase agreement. The facility has a current capacity of 1,200 tons per day.

Non-processed solid waste disposal is provided for by landfill facilities. The County also actively pursues recycling, following the mandate provided for in the Recycling Act. The recycling rate in the County was 75% with the additional of Waste-to-Energy credits (2020 rate published by the State of Florida, the latest reporting period available).

The activities of the Water and Sewer Unit, and the Solid Waste Disposal and Resource Recovery System are analyzed at C-10 in the proprietary funds section of the **Financial Analysis of the County's Funds**.

Financial Analysis of the County's Funds

As noted earlier, Pasco County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. This information is useful in assessing Pasco County's financing requirements. In particular, unreserved fund balance may serve as a useful measure of the net resources available for spending at the end of the fiscal year. The governmental fund types include the general, special revenue, debt service, and capital projects funds.

As noted previously, at September 30, 2020, Pasco County governmental funds reported an increase in combined fund balances of \$64.5 million over the prior year. Of the total combined ending fund balances of \$701.4 million, 91.7%, or \$643.3 million, represents restricted amounts that can only be used for specific purposes that are imposed by external constraints such as bond covenants, grantors, or regulations of other governments; \$49.6 million or 7.1% is non-restricted; 0.2%, or \$1.6 million, are committed amounts that can only be used in accordance with the formal action taken by the Board of County Commissioners; and 1.0%, or \$6.9 million, are amounts assigned by either the Board, or the Office of the Clerk Comptroller, to be used for specific purposes that are neither restricted nor committed, such as disaster recovery.

Major Governmental Funds

The General Fund, the chief operating fund of the County, increased by \$11.1 million during fiscal year 2020. In 2020 revenues decreased by \$1.6 million, or by 0.5%, from fiscal year 2019. The decrease in revenue for the general fund is attributed to an increase of \$17.5 million in the collection of taxes, increase in intergovernmental revenues of \$1.7 million, decrease in charges for services, fines and forfeitures of \$4.1 million, decrease in interest and other earnings by \$0.3 million, and a decrease in miscellaneous revenue of \$16.4 million.

GASB Statement No. 34 states that major funds are funds whose revenues, expenditures/expenses, assets, or liabilities (excluding extraordinary items) are at least 10 percent of corresponding totals for all governmental or enterprise funds and at least 5 percent of the aggregate amount for all governmental and enterprise funds. Commencing fiscal year 2020, both Penny for Pasco and the Capital Project fund were no longer considered major funds based as they no longer meet the requirement of 5/10 test per GASB Statement No. 34.

Non-major Governmental Funds

Those funds that do not meet GASB Statement No. 34 criteria for major fund classification are considered non-major. Total fund balances of all non-major special revenue funds increased by \$5.1 million from the prior year. The increase in fund balance is the result of CARES funding received to assist the community with the impact of the COVID-19 pandemic.

Debt service funds, all of which are classified as non-major, are used to account for the accumulation of resources for, and the payment of long-term debt principal and interest. During fiscal year 2020, there was an overall fund balance increase of \$0.3 million.

Capital projects service funds, which account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds), exhibited an overall increase in fund balances of \$51.9 the Penny for Pasco Fund and the Capital Project Fund.

General Governmental Functions

For the purpose of this section, general governmental functions are defined as those that include the General, Special Revenue, Debt Service, and Capital Projects Funds. This data is the result of the application of the modified accrual basis of accounting for general governmental functions.

Revenues for general governmental functions totaled \$750.7 million in fiscal 2020, an increase of \$108.8 million, or 17.0% over the prior year. The current tax collections were 99.70% of the tax levy and the ratio of total collections (current and delinquent) to the current tax levy was also 99.80%, which related to an increase of \$23.5 million in total property tax revenues in 2020. Licenses and Permits decreased by \$3.0 million, special assessments increased by \$3.0 million, intergovernmental revenues increased \$102.4 million, charges for services, fines and forfeitures decreased by \$3.7 million, and interest and other earnings decreased by \$2.3 million.

Expenditures for general governmental functions totaled \$635.2 million in fiscal 2020, an increase of \$86.0 million, or 15.7%, from 2019. General government decreased by \$2.7 million; Public Safety increased \$34.2 million; Physical Environment decreased \$1.4 million; Transportation increased \$38.0 million; Economic Environment increased by \$9.4 million; Human Services increased \$2.4 million; Culture and Recreation increased \$2.8 million; Court Related increased \$1.6 million; and Interest and Long-term Debt increased by \$1.7 million.

Proprietary Funds

Proprietary funds statements provide the same type of information found in the government-wide financial statements, because they follow the accrual method of accounting; however, the information is in more detail.

The County's proprietary funds include enterprise funds, comprised of the Water and Sewer Unit Fund and the Solid Waste Disposal and Resource Recovery System Fund, both of which are classified as major funds of the County, and internal service funds that account for equipment and insurance services.

The Water and Sewer Unit Fund had total net position of \$763.1 million at September 30, 2020, which represented a \$45.6 million increase over fiscal year 2019. The increase was driven by operating income increasing by \$5.4 million to \$24.0 million while non-operating revenues increased by \$7.6 million to \$2.6 million resulting in a net contribution before capital grants and contributions of \$26.7 million; capital grants contributed \$20.1 million.

The Solid Waste Disposal and Resource Recovery System Fund's net position at year-end was \$204.6 million, which represented an increase of \$28.5 million over 2019 which reflects the operating net income and non-operating revenues for 2020. This increase was the result of an increase of \$7.1 million in charges for services revenue in conjunction with an increase of \$4.5 million in operating expenses. The majority of operating expense increase is the result of contractual services increased by \$6.2 million from 2019. This resulted in an increase of \$2.6 million to operating income for fiscal year 2020.

The Internal Service Funds had net position at year-end of \$91.2 million, an increase of \$6.7 million over the prior year net position of \$84.6 million. An increase in charges for services revenues along with decreases in contractual services operating expenses netted an operating income of \$4.0 million; interest earnings contributed \$1.4 million; capital contributions were \$1.3 million and transfers in were \$3.5 million and transfers out of \$3.7 million leading to the overall increase for 2020.

General Fund Budgetary Highlights

The budget and actual comparison statement for the General Fund displays the original adopted budget, the final revised budget, and actual costs. The original budget, as approved, may be revised during the year for a number of reasons. The General Fund's amendments and supplemental appropriations for the year were not material. Actual revenues for fiscal year 2020 exceeded budget by \$14.3 million (taxes, intergovernmental revenues, charges for services and interest accounted for increases of \$9.3 million) and actual expenditures for fiscal year 2020 were \$33.5 million less than budgeted. The largest decrease was in General Government, \$20.7 million.

Capital Assets

The County's capital assets, for both governmental and business-type activities at September 30, 2020, totaled approximately \$2.0 billion, net of accumulated depreciation. Capital assets include land, buildings, improvements other than buildings, equipment, and construction in process, infrastructure, and intangibles. Infrastructure includes roads, streets, and sidewalks. The County's intangible assets include easements and internally generated software. The balances are summarized below (in thousands).

The increase in total capital assets from the prior year was 9.7%.

Additional information about Pasco County's capital assets can be found in the Notes to Financial Statements (Note 7).

Debt Administration

At September 30, 2020 Pasco County had total bonded debt (net) outstanding of \$612.5 million. Of this amount, \$233.5 million comprises debt related to governmental activities, and \$379.0 million of the total is bonded debt of business-type activities. All bonded debt of the County is in the form of revenue bonds. Additional information about Pasco County's long-term debt issues can be found in the Notes to Financial Statements (Note 8).

The highest quality ratings available from the respective services are as follows: Fitch AAA; Moody's Aaa. With the exception of the bank qualified issue (1) and those issues which are uninsured and for which a stand-alone rating is presented (2), all Pasco County bond issues are insured, and the payment of principal and interest is guaranteed. Such insurance is non-cancellable.

(Note: Bonds with higher ratings offer cost savings to issuers like Pasco County)

Currently Known Facts and Conditions

Since 2013 there has been an increase of taxable assessed values of about 53%. The main source of this increase is due to increased new construction that comes with the growing county population. The approved total County budget for fiscal year 2021 has decreased by \$66.3 million, or 4.5%, to \$1.399 billion. The County continues to cautiously pursue new initiatives by ensuring they can be sustained in the long run.

Many events have taken place that will have a long standing effect on the community. To ensure a safe and secure community, the County has invested funds to update add, and existing infrastructure for, multiple fire stations throughout the community. The State of Florida and Pasco County are currently under a State of Emergency resulting in all nonessential local businesses suspending operations and commerce due to the COVID-19 Pandemic. The mandatory closure of all non-essential businesses has created significant hardship for the local community and County economy. The Pasco Economic Development Council (Pasco EDC) offers a Microloan Program which awards funding to multiple local business applicants. After careful consideration, the Pasco EDC Microloan Program has been identified as the most expedient and cost-effective way to distribute emergency financial assistance to local small businesses. It is requested that the County provide the Pasco EDC Two Million Dollars (\$2,000,000) to operate the PEBGP funded through the Penny for Pasco Economic Development fund.

Economic Factors and Next Year's Budgets and Rates

Pasco County considered many factors in preparing the budget for the 2020 fiscal year, including the following:

- Total Taxable Assessed Values have increased each year since 2014 following five years of decline. In fact, TTAV has increased by more than 53% since 2013 with the value of new construction accounting for a significant portion of that increase.
- The median value of a single-family home in Pasco County increased from \$108,000 in September of 2012 to \$260,900 in September of 2020.
- In 2020, the amount of delinquent taxes totaled \$194,839. This is about 43.3% higher than 2019, but still below the 10 year average of \$601,549.
- The population of Pasco County has experienced rapid growth every year since 2010 (437,500), hitting an all-time high in 2020 of 542,638. The County's population is projected to grow 2.6% by the year 2021.
- Pasco County's unemployment rate as of September 30, 2020 was 6.6%, an increase of 0.7% from 2019. This spike in unemployment coincided with various mandated stay-at-home orders implemented in response to the Coronavirus Disease 2019 (COVID-19) pandemic.

PASCO COUNTY, FLORIDA
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED SEPTEMBER 30, 2020

Net change in fund balances - total governmental funds		\$ 68,404,506
The change in net position reported for governmental activities in the Statement of Activities is different because:		
Governmental funds report capital outlay as expenditures. However, in the statement of activities, the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital assets (\$190,289,466) exceeded depreciation expense (\$42,228,601) in the current period.		
	148,057,865	
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		
Changes in notes receivable	(16,639,277)	
Property taxes	(23,492,783)	
Interest	2,261,445	
Accrued liabilities	<u>2,894,870</u>	
		(34,975,745)
The net effect of various miscellaneous transactions involving the sale of capital assets is to decrease net position.		
		(2,659,157)
Bond and other debt proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Position. Repayment of bond and other debt principal is an expenditure in the governmental funds, but repayment reduces long-term liabilities in the Statement of Net Position. Also, governmental funds reported the effect premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.		
Issuance of refunding bonds	(22,200,000)	
Bonds Issues	(7,920,000)	
Principal paid on debt	<u>6,973,555</u>	
		(23,146,445)
The internal service funds are used by management to charge the costs of fleet management and risk management to individual funds. The net revenue of certain activities of internal service funds is reported with governmental activities.		
		6,684,315
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.		
Compensated absences	(3,294,050)	
Changes in pension liabilities and related deferred outflows and inflows of resources	(100,508,047)	
Changes in OPEB liabilities and related deferred outflows and inflows of resources	<u>58,031,221</u>

**PASCO COUNTY, FLORIDA
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2020**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

Pasco County (the "County"), founded in 1887, is a non-chartered political subdivision of the State of Florida and is authorized the power of self-government by the Constitution of the State of Florida and Florida Statutes. The Board of County Commissioners (the "Board") is the legislative and governing body of the County. A County Administrator is appointed by the Board and is responsible for administrative and budgetary control of the resources of the Board.

The Constitution of the State of Florida also provides for five Constitutional Officers with specific duties and reporting responsibilities prescribed by Statute. The Officers are as follows: Clerk of Circuit Court and County Comptroller ("Clerk & Comptroller"), Property Appraiser, Sheriff, Supervisor of Elections, and Tax Collector.

The Constitutional Officers and the Board maintain separate accounting records and budgets.

Annual operating budgets of the Clerk & Comptroller, Sheriff, and Supervisor of Elections are submitted to the Board for approval, as the Board's share of the funding for the operations of these Officers is provided primarily from the general revenues of the County as well as supplemented by the fees charged by these Officers pursuant to Statute.

The budgets of the Property Appraiser and the Tax Collector are submitted to the State's Department of Revenue for approval. The budget for court-related functions of the Clerk & Comptroller's operations is submitted to and approved by the Florida Clerks of Court Operations Corporation, a public corporation created under Section 28.35, Florida Statutes.

Separate financial reports are prepared for each of the Constitutional Officers. The financial statements in this report represent a combination of those separate financial reports, together with the operations of the Board. The Board and the Constitutional Officers constitute the Pasco County primary government.

As required by the generally accepted accounting principles (GAAP), these financial statements comprise the Pasco County reporting entity, which includes the primary government and its component units. The process of evaluating potential component units involved the application of criteria set forth in Governmental Accounting Standards Board (GASB). The definition of the reporting entity is based primarily on the notion of financial accountability. A primary government is financially accountable for the organizations that make up its legal entity. It is also financially accountable for legally separate organizations if its officials appoint a voting majority of an organization's governing body and either it is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on, the primary government. GASB Statement No. 39 provides additional guidance to determine whether certain organizations for which the primary government is not financially accountable should be reported as component units based on the nature and significance of their relationship with the primary government. Generally, it requires reporting, as a component unit, an organization that raises and holds economic resources for the direct benefit of a governmental unit.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

A. Reporting Entity (Continued)

Using the aforementioned criteria, the following determinations have been made:

Discretely Presented Component Units

Pasco County Housing Finance Authority

The Pasco County Housing Finance Authority was created by County ordinance as a public body corporate and politic under authority granted by Sec. 159.604, Florida Statutes. The Housing Finance Authority functions to alleviate a shortage of housing and capital for investment in housing within the territorial boundaries of Pasco County. The Board appoints all members of the Housing Finance Authority and may remove members without cause. The Board is empowered to terminate the Housing Finance Authority and may, at its sole discretion, and at any time, alter or change the structure, organization, programs, or activities of the Authority. All rules, regulations, and program guidelines of the Authority are effective only upon approval by the Board. Any and all fees earned by the Authority are required to be placed in a separate fund and the Board shall determine how such funds are to be used; funds are to be used only for low and moderate income housing purposes in Pasco County. The component unit column in the government-wide financial statements includes the financial data of the Pasco County Housing Finance Authority.

J. "Ben" Harrill Villages of Pasadena Hills Stewardship District

The J. "Ben" Harrill Villages of Pasadena Hills Stewardship District (the "District") was created and incorporated as a public body corporate and politic, a limited, special-purpose dependent district, under Chapters 125 and 189, Florida Statutes, and as defined in the Pasco County Land Development Code (the "Code"). The District functions to provide a framework for the delivery of infrastructure, facilities and services to accommodate growth, as well as the financing and oversight of lands, within the District boundaries. The governing board of the District is the Board of Supervisors, which is the Pasco County Board of County Commissioners. The Board exercises general and special powers as provided in the Code and District charter, respectively, as well as other powers, authority, and functions in accordance with Chapter 189, Florida Statutes. The District will remain in existence until terminated and dissolved pursuant to amendment to the Code by the Board, after retirement of any bonds or other obligations of the District. There were no financial activities conducted by the District during the year. However, under current reporting entity criteria, any future activity of the District would be included by the discrete presentation method.

Connected Cities

The County was specifically selected by the State legislature to implement a Pilot Program, which is being pursued as a public-private partnership with Metro Development Group. The private partner is funding the third-party planning consultant expenses for the Pilot Program implementation phase, and the County as public partner has committed substantial staff time and resources to the regulatory approval process. The County will ensure that the Connected City Pilot Program is implemented as authorized and directed by SB 1216 in a manner that is consistent with the County's long-term growth strategy, and the Board of County Commissioners will make the final decision as to the provisions for the Special Planning Area. SB 1216 was passed by the Florida Legislature in April 2015 and established Pasco County as a 10-year pilot program for Connected City Comprehensive Plan Amendments. The Board also will make all future land use and zoning decisions within the Connected City Corridor, just as for any other Comprehensive Plan or Rezoning request. The component unit column in the government-wide financial statements includes the financial data of the Connected Cities.

The fiscal year end for all the discretely presented component units is September 30th.

A. Reporting Entity (Continued)

Related Organizations

Pasco County Health Facilities Authority

The Pasco County Health Facilities Authority was created by County ordinance as a public body corporate and politic under Section 154.207, Florida Statutes. It functions to assist health facilities in the acquisition, construction, financing, and refinancing of projects within Pasco County.

Pasco County Educational Facilities Authority

The Pasco County Educational Facilities Authority was created by County resolution as a public body corporate and politic under authority granted by Section 243.21, Florida Statutes.

The Educational Facilities Authority functions to assist institutions of higher education in the construction, financing, and refinancing of facilities or projects.

While the Board appoints the members of these authorities, and may abolish the authorities by ordinance or resolution, the Board is not able to impose its will on these organizations. In addition, the Board is not able to gain access to their economic resources and the authorities are neither financially accountable to nor fiscally dependent upon the Board. Consequently, these related organizations are not component units and are not included in the accompanying financial statements.

B. Government-wide and Fund Financial Statements

The County's Basic Financial Statements consist of the following:

- Government-wide financial statements
- Fund financial statements
- Notes to the financial statements

Government-wide Financial Statements

The government-wide financial statements include the statement of net position and the statement of activities. These statements report information on the government's activities as a whole, which include the primary government and its component unit. For the most part, the effect of interfund activity has been eliminated from these statements in order to avoid a distortion of financial results. Net residual amounts due between governmental and business-type activities are presented as internal balances on the Statement of Net Position where they are eliminated in the total primary government column. Fiduciary funds of the government are also excluded from this presentation since their resources are not available for government funding purposes. The Statement of Net Position reports all financial and capital resources of the governmental and business-type activities. It is presented in a net position format (assets and deferred outflows, fewer liabilities and deferred inflows, equal net position) and is shown with three components: net investment in capital assets, restricted net assets; and unrestricted net assets. The Statement of Activities reports functional categories of programs provided by the County, and demonstrates the degree to which the direct expenses of a given function are offset by program revenues. In addition, the County chooses to eliminate indirect costs between governmental activities to avoid a "doubling up" effect.

Program revenues are classified into three categories: charges for services; operating grants and contributions; and capital grants and contributions. Charges for services refer to direct recovery of costs from customers for services rendered, such as those for emergency services, libraries, court operations, etc.

B. Government-wide and Fund Financial Statements (Continued)

Grants and contributions refer to revenues restricted for specific programs whose use may be restricted further to operational or capital items. The general revenues section displays revenue collected which helps support all functions of Pasco County government and contribute to the change in the net position for the fiscal year. General revenues include all taxes.

Fund Financial Statements

The fund financial statements appear after the government-wide financial statements and report additional and detailed information about Pasco County's operations for its major funds, individually, and nonmajor funds, in the aggregate, for governmental, proprietary and fiduciary fund types. A major fund is one that meets the criteria set forth in GASB Statement No. 34 or one which the County considers to be of particular importance. If neither of these conditions exists, funds are considered to be nonmajor funds. Included are budgetary comparison statements, which report the County's original budget together with the comparison of final budget and actual results. In addition, reconciliations are provided that convert the results of governmental fund accounting to the government-wide presentation.

Major Funds

General Fund - The General Fund is the County's primary operating fund. The purpose of the fund is to account for all financial resources, except for those required to be accounted for in other funds. The General Fund is subdivided to represent each of the elected officials of the County.

The County's enterprise funds are reported as major funds, with most of the cost involved paid through the collection of charges for services to customers:

Water and Wastewater Unit – This fund accounts for the activities of any water and wastewater services provided to the general public.

Solid Waste Disposal and Resource Recovery System Fund - This fund accounts for the activities of any Solid Waste services provided to the general public.

Non-Major Governmental Funds

In addition to those funds that are reported as major, the County also reports as nonmajor all funds that are included in the following fund types:

Special Revenue Funds - These funds are used to account for the proceeds of specific revenue sources (other than for major capital projects) that are legally restricted to expenditure for specified purposes other than debt service or capital projects.

Debt Service Funds - These funds are used to account for the accumulation of resources for, and the payment of, principal, interest and related costs of governmental activities long-term debt

Capital Projects Funds - These funds account for resources provided by transfers from the General Fund that are used for the acquisition or construction of capital facilities and other projects (other than those financed by Proprietary Fund Types), as well as bond proceeds.

Other Fund Types

Internal Service Funds - These funds account for the County insurance, County self-insurance, Clerk & Comptroller's insurance, Sheriff's Health Insurance, and equipment service operations which provide respective services and commodities to other operations of the County.

Trust and Agency Funds - These funds are used to account for collection/disbursement of monies by the County on behalf of other governments and individuals. Examples are: Security Deposits, Cash Bonds, and Donations.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Non-current Governmental Assets/Liabilities

GASB Statement No. 34 requires all non-current governmental assets and non-current liabilities be reported in the governmental activities column contained within the government-wide Statement of Net Position.

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus is used to describe the types of transactions and events that are reported, or measured. Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements and to the timing of the measurements made, regardless of the measurement focus applied.

The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, respectively. Under the economic resources measurement focus, net position (total assets and deferred outflows less total liabilities and deferred inflows) is measured. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned and expenses are recognized in the period incurred.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The operating revenues of the County's enterprise funds, the Water and Wastewater Unit and the Solid Waste Disposal and Resource Recovery System, are charges for services to customers. Operating expenses of these operations include salaries, contractual services, materials and supplies, utilities, equipment rental and maintenance, communications, administrative charges, and depreciation.

All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses. In addition, when both restricted and unrestricted resources are available for use, it is the County's policy to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted assets are available.

All governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Accordingly, under this measurement focus, only current assets, except as noted below, and current liabilities are included on their balance sheets, and the reported fund balances provide an indication of available spendable or appropriable resources.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Statements of Revenues, Expenditures and Changes in Fund Balances report increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they present a summary of sources and uses of available spendable resources during a period.

Noncurrent portions of long-term receivables due in governmental funds are reported on their balance sheets. However, recognition of governmental fund type revenues represented by these noncurrent receivables is deferred until they become current receivables since they do not represent "available spendable resources" in the spending measurement focus used for governmental funds.

All governmental funds follow the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when they have become earned and they are both measurable and available to finance expenditures of the current period. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the County considers revenues to be available if they are collected within 60 days of the end of the current fiscal period.

Expenditures are recorded when the related liability is incurred except for: (1) principal and interest on general long-term debt, which are recognized when due; (2) the noncurrent portion of accrued compensated absences, which is recorded as a long-term liability on the government-wide financial statements; and (3) prepaid items, reported only on the balance sheet when they occur, and do not affect expenditures.

In applying the susceptibility-to-accrual concept to intergovernmental revenues, the legal and contractual requirements of the numerous individual programs are used as guidance. There are, however, essentially two types of these revenues. In one, monies must be expended for the specific purpose or project before any amounts will be paid to the County; therefore, revenues are recognized based upon the expenditures recorded. In the other, monies are virtually unrestricted as to purpose of expenditure and are substantially irrevocable, the exception being a failure to comply with prescribed compliance requirements. These resources are reflected as revenues at the time of receipt, or earlier if they meet the availability criterion.

Licenses and permits and miscellaneous revenues (except investment earnings) are not recorded until actually received, as, generally, these revenues are not measurable and available until that time. Property taxes and investment earnings are recorded as earned since they are considered to be measurable and available.

Special assessments are measurable when they are levied. They become available when they are due as long as the County receives them soon enough after year-end to pay current liabilities. Amounts that are measurable but not available are recorded as deferred inflows.

D. Assets, Liabilities, Deferred Inflows/Outflows and Net Position (Continued)

Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded as a reservation of budget, is employed as an extension of the statutorily required budgetary process. Under Florida Statutes, appropriations, even if encumbered, lapse at the end of the fiscal year. The following are significant encumbrances outstanding at September 30, 2020:

General Fund	\$ 4,282,916
Nonmajor Governmental Funds	<u>40,383,553</u>
Total, All Funds	<u><u>\$44,666,469</u></u>

Cash and Cash Equivalents

Cash and cash equivalents include cash on hand (petty cash), demand deposits, and short-term investment with original maturities of three months or less from the date of acquisition. The County pools substantially all cash and investments, except for those situations requiring separate cash and investment accounts in accordance with legal restrictions.

Investments

The County accounts for its investments in accordance with the provisions of GASB Statement No. 72, *Fair Value Measurement and Application*. This statement requires governmental entities to report investments at fair value (see Note 3). All changes in fair value of investments are recognized as gains or losses in the Statement of Activities. The SBA's Florida PRIME is a 2a7- like pool and is, therefore, reported at its actual pooled share price (its value) as the pool account balance (amortized cost) is the same as its fair value. A 2a7-like pool is an external investment pool that is not registered with the SEC as an investment company, but nevertheless has a policy that it will, and does operate in a manner consistent with the SEC's Rule 2a7. Rule 2a7 allows SEC-registered mutual funds to use amortized cost to report net assets to compute share prices if certain conditions are met (see Notes 3B and 3C). For purposes of the statement of cash flows, investments in money market funds are considered cash and cash equivalents.

Earnings from pooled cash and investments are allocated to each fund based on a three-month average of the equity balance of each fund. In fiscal 2020 deposits earned interest at the following rates: SBA's Florida PRIME, 0.33% to 2.04%; Florida Class Investment Fund (reported at NAV) 0.26% to 2.11% (SEC yield); Florida Trust Investment Day to Day Fund (reported at NAV) 0.19% to 2.05% (SEC yield); and money market funds at 1.14%.

E. Receivables, Payables, and Amounts Due From/Due To

Trade accounts receivable and various payables of the County are recorded in the government-wide, and in the governmental and proprietary fund financial statements. In proprietary fund types, accounts receivable are recorded with appropriate allowances for uncollectible accounts, which totaled approximately \$10,086,000 at September 30, 2020. Related revenues are recognized as earned.

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2020**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

E. Receivables, Payables, and Amounts Due From/Due To (Continued)

In governmental funds, accounts receivable are recorded with appropriate allowances for uncollectible accounts, which totaled approximately \$30,482,000 at September 30, 2020, primarily related to ambulance billings. In governmental fund types, amounts generated as a result of operations of the County are not recognized as revenue until the amounts are both measurable and available. In addition, a receivable was recorded and revenue recognized in the Water and Wastewater Unit Fund for estimated unbilled consumption at year-end. Such unbilled receivables totaled approximately \$10,257,000 at September 30, 2020. Total allowances for uncollectible accounts, related to customer billings, were \$10,144,261, as September 30, 2020. Activities between funds resulting in balances at year-end are reported as "Due From" and "Due To" amounts and represent interfund loans. Any residual balances outstanding between governmental and business-type activities are reported in the government-wide Statement of Net Position as internal balances.

The County has several agreements with other agencies, and individuals, under which cash has been advanced to those agencies for the purpose of financing loans for various projects (e.g., developers for multi-family affordable housing projects). These interest and noninterest-bearing advances will be repaid to the County over carrying terms. The outstanding principal balances are primarily reported as Notes and Loans Receivable in the Rural Economic and Development Administration Fund, State Housing Initiatives

Partnership Fund, and various special revenue funds. Also included in these amounts are loans receivable associated with the County's Down Payments Assistance, Neighborhood Stabilization and Housing Rehabilitation Programs.

F. Inventories and Assets Held for Resale

Inventories are determined by physical count and are stated at average cost using a moving average cost basis. Purchases of inventories for governmental fund types are reported as expenditures when used (consumption method). Inventories for governmental funds are reported on the balance sheet as an asset of their respective funds with a corresponding classification as a nonspendable amount in fund balance since they do not represent "available spendable resources". Inventories of proprietary fund types, consisting primarily of operating materials held for consumption, are reported as an expense when consumed in the operations of the fund. Inventories that consist of homes held for resale are stated at cost.

G. Restricted Assets

Certain assets are classified as restricted on the Statement of Net Position because of requirements imposed by law, regulation, creditors, grantors, contributors or other controlling provisions.

H. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (roads, streets, bridges and sidewalks) acquired subsequent to October 1, 1980, as well as intangible assets acquired subsequent to October 1, 2009, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements and in the proprietary fund financial statements. Capital assets are defined as those "attractive items" with an initial, per unit cost greater than or equal to \$1,000 and a project useful life of at least one year.

Capital contributions or donations are recorded at their estimated acquisition value at the time received. The cost of normal maintenance and repairs that do not add to the value of a capital asset or materially extend its useful life are not capitalized.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

H. Capital Assets (Continued)

Depreciation (termed amortization for intangible assets with identifiable useful lives) is recorded on capital assets on a government-wide basis. Capital outlays of proprietary funds are recorded as capital assets that are depreciated over their estimated useful lives on a straight-line basis on both the funds basis and the government-wide basis.

Depreciation is provided over the following estimated useful lives (straight-line method):

Assets	Years
Buildings	20 - 50
Improvements Other than Building	10 - 40
Machinery and Equipment	3 - 10
Infrastructure	35 - 40
Intangibles:	
Computer Software	3 - 5
Easements and Right-of-Ways	See (1)

(1) If the value is separable from the underlying land, the useful life is the shorter of the legal or the estimated useful life; if the life is indefinite or unlimited, then it is not amortized. If the value is inseparable from the underlying land, it is not amortized.

I. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position and the balance sheet includes a separate section for the deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The County has multiple items that qualify for reporting in this category including the deferred charge on bond refunding and pension related items such as: differences between expected and actual experience, changes in actuarial assumptions, net difference between projected and actual earnings on pension plan investments, changes in proportion and differences between the County's contributions and proportionate share of contributions, and the County's contributions subsequent to the measurement date, relating to the Florida Retirement System Pension Plan and the Retiree Health Insurance Subsidy Program. A deferred charge on bond refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The other amounts will be recognized as increases in pension expense in future years.

In addition to liabilities, the statement of net position and the balance sheet include a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position or fund balance that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

I. Deferred Outflows/ Inflows of Resources (Continued)

The County has multiple items that qualify for reporting in this category including differences between expected and actual experience, net difference between projected and actual earnings on pension plan investments, and changes in the proportion and differences between the County's contributions and proportionate share of contributions, relating to the Florida Retirement System Pension Plan, Retiree Health Insurance Subsidy Program, and Other Postemployment Benefits.

The County also has several items, which arise only under a modified accrual basis of accounting that qualified for reporting in this category. Accordingly, the items are reported in the governmental fund's balance sheet. The governmental funds report unavailable revenues related to home loan programs. The amounts are deferred and recognized as an inflow of resources in the period in which the amounts become available.

J. Long-term Obligations and Amortization

In the government-wide financial statements and the proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund statements of net position, net of unamortized bond discount or premium.

Bond discounts and premiums related to long-term debt have been capitalized and are amortized over the term of the bonds using the effective interest method. Bond issue costs are expensed/expended in the period incurred. Gains and losses related to the refunding and legal defeasance of certain long-term debt have been recorded as deferred inflows and outflows and are being amortized as a component of interest expense in accordance with GASB Statement No. 65.

K. Unearned Revenue

Any assets received by the County, for services rendered in future periods, have been offset by an unearned revenue liability.

L. Pension Costs

The County participates in the Florida Retirement System ("FRS") pension plan and Florida Retirement System Retiree Health Insurance Subsidy ("HIS") Program. In the government-wide and proprietary fund statements of net position, liabilities are recognized for the County's proportionate share of each pension plan's net pension liability. For purposes of measuring the net pension liability, deferred outflows/inflows of resources, and pension expense, information about the fiduciary net position of the FRS defined benefit plan and the HIS and additions to/deductions from FRS's and HIS's fiduciary net position have been determined on the same basis as they are reported by the FRS and HIS plans. For this purpose, plan contributions are recognized as of employer payroll paid dates and benefit payments and refunds of employee contributions are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value (see Note 14).

M. Postemployment Benefits Other Than Pensions

GASB Statement No. 75 requires local and state government employers to recognize the OPEB Liability and the OPEB Expense on their financial statements along with related deferred outflows and inflows of resources (see Note 15).

N. Compensated Absences

The County accrues accumulated, unpaid vacation, sick pay and associated fringe benefits when such benefits are earned. Both the current and long-term portion of these compensated absences are accrued and reported in the government-wide and proprietary fund financial statements. In governmental funds, compensated absences that have matured are accrued as current-year expenditures.

O. Property Taxes

Property taxes are levied each November 1, based on assessed values on the previous January 1 (the lien date). Property taxes become due and payable on November 1 of each year. The Pasco County Tax Collector bills and collects property taxes on behalf of the County. The tax rate to finance general governmental services for the fiscal year ended September 30, 2020 was \$7.6076 per \$1,000 of assessed taxable property value. Taxes become delinquent on April 1 of each year. The County records delinquent property tax collections on a cash basis as delinquent taxes receivable are immaterial at September 30. This is primarily due to an annual tax certificate sale, held each year, which is advertised by law and creates a lien on the property which must be paid in full with interest.

P. Tax Abatements

Tax abatements, which require approval through voter referendum, are reductions in tax revenues as the result of an agreement between one or more governments and an individual entity. For the fiscal year ended September 30, 2020 there were no tax abatement agreements made between the County or any other entities.

Q. Classification of Fund Balances and Net Position

The County follows the provisions of GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions. The objective of this Statement is to enhance the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund type definitions. This Statement establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. Governments are required to classify fund balance in governmental funds as nonspendable, restricted, committed, assigned, and unassigned.

In accordance with GASB Statement No. 54, the components of the fund balances of governmental funds are classified as follows:

- *Nonspendable Fund Balance* – Amounts within this fund balance cannot be spent because: (a) they are legally or contractually required to be maintained intact or are not spendable as to form, such as inventory or prepaid items or (b) not in spendable form.
- *Restricted Fund Balance* – Amounts within his fund are can only be spent for specific purposes because of constitutional provisions, enabling legislation, or because of constraints by third parties, such as creditors, grantors, contributors, or laws and regulations of other governments.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Q. Classification of Fund Balances and Net Position (Continued)

- *Committed Fund Balance* - Amounts that can be used only for the specific purposes as set forth by a policy that requires a formal action of the Board of County Commissioners, the County's highest level of decision making authority, such as an establishment of an ordinance or resolution of the Board. These commitments may be modified or removed by the Board of County Commissioners through an amendment or repeal of an ordinance or resolution, with both being equally constraining.
- *Assigned Fund Balance* - Amounts reflecting a government's intended use of resources. This intent must be established by the County Administrator, or his or her designee, and approved by the Board of County Commissioners. These amounts are intended to be used for specific purposes that are neither considered restricted or committed.
- *Unassigned Fund Balance* - This is the residual spendable funds that have not been classified as restricted, committed, or assigned to a specific purpose. For purposes of this report, only the general fund is eligible to report a positive unassigned fund balance. It is not appropriate for other governmental funds to report a positive unassigned fund balance amount.

The County has implemented fund balance and spending policies to clearly define the process for tracking the various classification balances. The policy goes on to state when a general fund expenditure is incurred and where restricted, committed, assigned, or unassigned amounts are available to be used. The County will first use restricted amounts, then committed amounts, then assigned amounts, and lastly unassigned amounts. All other funds in which expenditures are incurred and where restricted, committed, assigned, or unassigned amounts are available to be used, the County will first use unassigned amounts, then assigned amounts, then committed amounts, and finally restricted amounts.

When an expense is incurred for purposes for which both restricted and unrestricted net position is available, it is the County's policy to first use restricted net position and then unrestricted net position. The policy further sets forth the following:

General Fund - The policy set forth and adopted by the County is to set aside an emergency fund amount equal to 11.1% of budgeted expenditures for the fiscal year. Furthermore, if expenditures incurred for specific purposes exceed the amounts that are restricted, committed, or assigned to that purpose, it may be necessary to report a negative unassigned fund balance.

Committed Reserve - The policy states that the following funds should have a reserve balance set aside in order to continue operations in case of an emergency. The reserve balance should equal 16.7% of the budgeted expenses within the fiscal year: Municipal Services Fund, Fire MSTU Fund, Building Inspections and Permitting Fund, Road and Bridge Fund, Stormwater Management Fund, Solid Waste System Fund, and Water and Wastewater Fund.

R. Adoption of New Accounting Principles

During the fiscal year ended September 30, 2020 the Governmental Accounting Standards Board (GASB) issued Statement No. 95, *Postponement of the Effective Dates of Certain Authoritative Guidance*. This Statements provided relief to entities in light of the COVID-19 pandemic. As a result there were no new accounting principles adopted for fiscal year 2020.

S. Future Accounting Pronouncements

The following statements will be effective for the fiscal year ending September 30, 2021:

- Statement No. 84, *Fiduciary Activities*
- Statement No. 90, *Majority Equity Interests – an amendment of GASB Statements No. 14 and 61*

The following statements will be effective for the fiscal year ending September 30, 2022:

- Statement No. 87, *Leases*
- Statement No. 91, *Conduit Debt Obligations*

The County has not yet determined the impact, if any, that the implementation of these new pronouncements will have on its financial statements. More detailed information regarding requirements related to GASB Statements may be found at the following website: www.gasb.org/

T. Subsequent Events

Management has evaluated subsequent events through the date that the financial statements were available to be issued, March 31, 2020. See Note 22 for relevant disclosure. Note subsequent events occurring after this date have been evaluated for inclusion in these consolidated financial statements.

2. STEWARDSHIP, COMPLIANCE & ACCOUNTABILITY

The County currently uses the following process in establishing the budgetary data reflected in the Required Supplementary Information and Supplementation Information sections of this financial document:

- The County has adopted the budget in accordance with Chapters 129 and 200, Florida Statutes which governs the preparation, adoption, and administration of the County's annual appropriated budget.
- The Clerk & Comptroller, Sheriff, and Supervisor of Elections are required to submit a tentative budget to the Board by June 1.
- In addition to submission of a Budget to the Board, the Clerk & Comptroller is required to submit a budget, for court-related functions, to the Florida Clerks of Court Corporation.
- The Florida Department of Revenue will review budget requests from both the Property Appraiser (June 1) and Tax Collector (August 1), with a copy of the proposed budgets being sent to the Board of County Commissioners.
- No later than 35 days after certification of the ad valorem tax roll by the Property Appraiser, the County Budget Officer submits, to the Board, a tentative budget for the fiscal year beginning the following October 1.

2. STEWARDSHIP, COMPLIANCE & ACCOUNTABILITY (CONTINUED)

- The public is informed of the proposed budget and tentative millage rates through legal advertising. Public hearings are held to hear comments from the public regarding the budget.
- Prior to September 30, the Board legally adopts the budget by resolution.
- Budgetary control is generally maintained at the department level. The County Administrator acts on intradepartmental budget changes that do not alter a total department budget. All other budgetary changes must be submitted to and approved by the Board in an open session.
- Budgets are monitored at varying levels of classification detail with control generally maintained at the sub function level. In accordance with Section 129.07, Florida Statutes, expenditures cannot legally exceed total appropriations.
- Beginning funds available for financing current appropriations are considered in the budgetary process but are not included in the financial statements of the Governmental Fund Types as budgeted revenue.
- Formal budgetary integration is employed as a management control device during the year for the General, Special Revenue, Debt Service, and Capital Projects Funds.
- The actual result of operations in the Statement of Revenues, Expenditures and Changes in Fund Balances – Budget and Actual – General Fund are presented on a budgetary basis. Adjustments to convert the result of operations at the end of the year from the budgetary basis of accounting to the GAAP basis of accounting for General Fund are as follows:

Budgets for certain Capital Projects Funds, certain Special Revenue Funds, and certain Debt Service Funds are adopted on a basis consistent with GAAP. Budgets were not prepared for the Local Option Gas Tax, Federal Forfeiture, Department of Juvenile Justice, American Recovery and Reinvestment Act, Division of Library Services, Department of Elder Affairs (Florida and Federal), Transportation Services, Department of Children and Families, U.S. Environmental Protection Agency, West Pasco Habitat, Park Impact Fee (Central), Park Impact Fee (East), Municipal Service Benefits Units, Clerk & Comptroller, Sheriff, and Supervisor of Elections' special revenue funds; The Guaranteed Entitlement Refunding Revenue Bonds Series 2003 and Half-Cent Sales Tax Revenue Bonds Series 2003 debt service funds; or the Guaranteed Entitlement CIP, Library Impact Fee (Land), Park Impact Fee VOPH (Land), Park Impact Fee VOPH (Fields), Park Impact Fee VOPH (Water Access), Park Impact Fee VOPH (Other) capital projects funds.

- All appropriations, except those that overlap fiscal years and are budgeted on a life-to-date basis, lapse at year-end, even if encumbered. However, the County intends to honor those purchase orders, contracts and commitments represented by encumbrances outstanding at year-end and reported as assigned fund balance. The subsequent year's appropriations will provide authority to complete these encumbered transactions.

For comparative purposes, certain line items of the budgets in the financial statements have been reclassified to conform to reporting classifications of actual revenues and expenditures. In accordance with Section 129.01, Florida Statutes, only 95% of receipts reasonably anticipated from all appropriate sources, including taxes to be levied, are included in the budgetary data for revenues.

3. CASH AND INVESTMENTS

The County maintains a pooled cash program that is available for use by all Board and Clerk & Comptroller controlled funds. Earnings are allocated to each of the participating funds based on a three-month average of the equity balance within each fund. Cash and investments which must be segregated due to bond covenants or other legal restrictions are not included in this program.

Cash, cash equivalents and investments consist of the following at September 30, 2020:

	<u>Maturity</u>	<u>Fair Value</u>	<u>Portfolio Percentage</u>	<u>Rating ⁽¹⁾</u>

A. Insurance and Collateralization of Demand Deposits

The County's demand deposits are insured by Federal depository insurance or collateralized in accordance with Chapter 280, Florida Statutes. This Statute establishes a multiple financial institution collateral pool in which all financial institutions holding public deposits together pledge a pool of collateral against all public deposits they collectively hold. In the event of a default or insolvency by a qualified public depository, any loss not covered by an assessment against the other qualified public depositories of the same type as the depository in default. The assessment is based upon the average share of the public fund deposits held by each of these depositories during the previous 12 months in relation to total public deposits held by all depositories of the same type during the same period.

B. Investments

Section 218.415, Florida Statutes, the County's formally adopted Investment Policy grants the authority to invest surplus public funds in certain permitted investments. The objectives set forth in the Investment Policy included: minimize capital loss, maintenance of liquidity, and maximize return on investment.

Credit Risk

The Investment Policy is designed to safeguard the County's funds by restricting authorized investments to the following:

Local Government Investment Pools – These are classified as state, local government, or privately-sponsored investment pools that are authorized pursuant to the Florida Interlocal Cooperation Act of 196, as provided in Section 163.01, Florida Statutes.

U.S. Treasury & Government Guaranteed – U.S. Treasury obligations, and obligations in which the principal and interest are guaranteed by the full faith and credit of the U.S. Government.

Commercial Paper – U.S. dollar denominated commercial paper issued or guaranteed by a domestic corporation, company, financial institution, trust or other entity, only unsecured debt permitted. Money Market Funds – Shares in open-end and no-load money market mutual funds, provided such funds are registered under the Investment Company Act of 1940 and operate in accordance with Rule 2a-7.

Other investments authorized by law or by ordinance for a county or a municipality. In addition to Section 218.415(16), Florida Statutes the investment of county funds is authorized by Section 28.33 and 219.075, Florida Statutes.

Custodial Credit Risk

The Investment Policy, pursuant to Section 218.415(18), Florida Statutes, requires that all securities purchased by, and all collateral obtained by the County, must be held in the County's name through the execution of a third-party custodial safekeeping agreement.

Investment Rate Risk

The Investment Policy limits interest risk by attempting to match investment maturities with known cash needs and anticipated cash flow requirement. In addition, the investment portfolio must be diversified as to maturity. The maximum stated investment maturity, for various investment sectors, is 5.50 years. At September 30, 2020, maturities of investment in U.S. Government and Agency Bonds ranged from 2 to 6 years.

D. Fair Value Measurements

GASB Statement No. 72, *Fair Value Measurements and Application*, sets forth the necessary framework needed to improve financial reporting as it relates to the definition of fair value. GASB Statement No. 72 lays the foundation and establishes the necessary hierarchy in regards to financial reporting for assets and liabilities measured at fair value. The hierarchy will allocate the highest priority for identical assets and liabilities (Level 1 measurements) and the lowest priority to unobservable (Level 3 measurements). The three levels of fair value hierarchy established under GASB Statement No. 72 are:

Level 1 – Investments reflect prices quoted in active markets for identical assets or liabilities in active markets that a government can access at the measurement date.

Level 2 – Investments reflect prices that are based on similar observable assets either directly or indirectly, which may include input in markets that are not considered to be active; or other inputs that are observable or can be corroborated by observable market data.

Level 3 – Investments reflect prices based upon unobservable sources

“NAV” – Investments in the Florida Trust and Florida Class represent a total of \$695,920,691 in pooled investment programs. No specific investments are assigned to the County, rather the County’s investment is equal to the total fund net asset value times the District’s units as a percentage of total units outstanding. Any dividends or interest of the programs are reinvested. In addition, the County may withdraw either a portion of or its entire investment at any time in the Program.

Investments classified as Level 1 Inputs are based on a quoted price for identical assets or liabilities in an active market. The fair values of these investments are based on the last reported sales prices on the last day of the fiscal year. Level 1 Inputs are investments that are traded in daily public markets within the United States.

Investments that are traded in markets, but are not considered to be actively traded on a daily basis are classified as Level 2 Inputs. Other criteria that satisfy the Level 2 hierarchy are: valued based on quotes market prices, dealer and broker quotations, bid prices, or alternative pricing sources using observable inputs. Inputs used in fair value measurement should be consistent with the inputs that market participants would use in pricing the asset or liability. Investments that commonly fall within the Level 2 hierarchy are: investment grade corporate bonds, mortgage-backed securities, bank loans, and municipal bonds. The fair values of these investments are based on the last reported observable input on the last day of the year.

The most complex and lowest priority investments are the Level 3 Inputs. These investments have a substantial unobservable input, as they are rarely traded. Level 3 investments include private equity, distressed debt, and non-standard derivatives. The fair values of these investments are determined by estimation with the best information available. All reasonably available information will be used to determine fair value without incurring an excessive cost for this effort.

FOR THE YEAR ENDED SEPTEMBER 30, 2020**

8. LONG-TERM LIABILITIES (CONTINUED)

D. Other Long-Term Liabilities Information

Deferred Charges

Water and Sewer Refunding Revenue Bonds, Series 2020 resulted from the acquisition of the private utility system known as the Pasco County Aqua System (“Aqua System”). Upon the acquisition of the aqua system the County recoded pre-existing deferred outflows of resources in the amount of \$6,652,800 at year ended September 30, 2020, which represents the excess of liabilities assumed of \$14,305,973 over the fair value of assets acquired of \$7,653,173. The amount is anticipated to be amortized over the life of the bond issuance.

Revenue Bond Refunding

Bonds are refunded to retire all or a portion of an outstanding bond issue. Most typically, refunding is done to refinance at a lower interest rate to reduce overall debt service. Certain issues of bonds may be refunded prior to the call date, known as an advance refunding.

Future principal and interest payments on refunding bonds have been provided through advance refunding bond issues whereby refunding bonds are issued and the net proceeds, plus any additional resources that may be required, are used to purchase securities issued and guaranteed by the United States government. The County then deposits these securities in an irrevocable trust under an escrow agreement which states that all proceeds from the trust will be used to fund the principal and interest payments of the previously issued debt being refunded. The trust deposits have been computed so that the securities in the trust, along with future cash flows generated by the securities, will be sufficient to service the previously issued bonds.

During the year, the County issued the Second Local Option Fuel Tax Refunding Revenue Bond, Series 2020. See information below relating to this issuance:

Arbitrage Rebate

The Tax Reform Act of 1986 generally requires earnings from investments of bond proceeds that exceed the issuer's bond yield to be rebated to the U.S. Treasury at periodic intervals, usually every five years. Computations are performed to determine the yield on the bonds, the yield on the invested funds and the determination of the resulting arbitrage rebate liability. The computation period begins at issue date and extends to the 2019 fiscal year-end. When arbitrage rebate liabilities occur they are included in amounts Due to Other Governments and are charged against interest income.

The County had no rebate liability as of September 30, 2020.

Legal Debt Limits

The Florida Constitution and Pasco County set no legal debt limits.

D. Other Long-Term Liabilities Information (Continued)

Restrictions

The official statements and Commission resolutions authorizing the issuance of the bonds contain certain restrictive covenants. The Board of County Commissioners has covenanted that, on a monthly basis, it will deposit specified amounts derived from specific revenue sources into accounts and funds established by resolutions. The deposits into these accounts and funds are used to repay principal and interest coming due on the bonds and to provide sinking funds established for the purpose of retiring term bonds due in future years. The most restrictive of these covenants include rate covenants of not less than 125% of the current Debt Service Requirements and 100% of all reserve and other required payments.

Conduit Debt

Pasco County, through the Board, has issued various bonded debt to provide financial assistance to private-sector entities for the acquisition, construction and equipping of industrial and commercial facilities deemed to be in the public interest. The bonds are secured by the property financed and are payable solely from payments received on the underlying mortgage loans. Upon repayment of the bonds, ownership of the acquired facilities transfers to the private-sector entity served by the bond issuance.

As of September 30, 2020, there were several series of industrial revenue and industrial development bonds outstanding for which the Board was unable to determine the outstanding balances; however, the original aggregate principal amount payable of these bonds was approximately \$46.9 million. In May of 2018, Pasco County had approved an amendment to the outstanding industrial revenue bonds no-to-exceed \$4.7 million.

Additionally, as of September 30, 2020, the Pasco County Housing Finance Authority, a discretely presented component unit, had issued \$18 million in Multifamily Housing Revenue Bonds and \$500,000 Taxable Multifamily Housing Revenue Bonds to provide assistance in the construction of an apartment project; the bonds are secured by loan payments and other trust funds. The Pasco County Educational Facilities Authority, a related organization, had issued \$60 million Variable Rate Demand Revenue Bonds in order to provide financial assistance to local agencies for the acquisition of facilities and retirement of previously issued bond indentures.

Neither the Board, State, nor any political subdivision thereof is obligated in any manner for the repayment of bonds issued by the Pasco County Housing Finance Authority or the Pasco County Educational Facilities Authority. Accordingly, these bonds are not reported as liabilities in the accompanying financial statements.

9. DUE FROM TAMPA BAY WATER

In May, 1998, the County, along with the counties of Hillsborough and Pinellas, and the cities of New Port Richey, St. Petersburg and Tampa, entered into an interlocal agreement to reorganize the West Coast Regional Water Supply Authority (the "Authority") from which the County purchased the majority of its water. In October 1998, the Authority was reorganized under the new name of Tampa Bay Water, a Regional Water Supply Authority. As part of this agreement, each party conveyed certain assets (consisting primarily of land, equipment, and water rights) to the Authority in exchange for credits to be applied against the cost of purchased water over the next 30 years. These credits are applied on a monthly basis, with interest (4.865%) compounded semi-annually.

Pasco County conveyed 6.328 acres at the North Pasco Wellfield, its production capacity at the North Pasco and Starkey Wellfields, and its equity in the Regional System and Cypress Creek Wellfield for a net amount of \$32,235,683 (\$3,000,000 in cash and \$29,235,683 recorded as due from other governments, a receivable that will be received in the form of credits as noted above).

These credits are recognized as a reduction of the cost of purchased water as the credits are received from the Authority. These deferred credits are recorded in the Water and Sewer Fund.

The amount outstanding at September 30, 2020 totaled \$12,094,240 and is receivable in future fiscal years as follows:

Fiscal Year	Credits
2021	1,265,172
2022	1,328,811
2023	1,395,650
2024	1,465,851

11. LANDFILL CLOSURE AND LONG-TERM CARE COSTS – SOLID WASTE DISPOSAL AND RESOURCE RECOVERY SYSTEM OPERATIONS

State and federal laws require that Pasco County place a final cover on its landfill sites when it stops accepting waste and that these sites be monitored for 30 years after closure. Although closure and long-term care costs will be paid only near or after the date that the landfills stop accepting waste, the County reports a portion of these costs as an operating expense in each period based on landfill capacity used as of the balance sheet date.

For the year ending September 30, 2020, the combined liability for landfill closure and post-closure costs increased by \$1,792,449. The accrued costs of closure and long-term care as of September 30, 2020 totaled \$32,503,317. The estimated total current costs of closure and long-term care remaining to be recognized are \$13,759,433 and \$18,743,885 respectively. Amounts related to cost are based on an estimate by the County consulting engineer of the cost to perform all closures and long-term care as of September 30, 2020. Actual costs may be higher due to inflation.

The amounts in escrow at September 30, 2020 include \$20,997,228 for closure and \$17,429,717 for long-term care. The total escrow balance of \$38,896,900 is reported as restricted cash in the Solid Waste Disposal and Resource Recovery System Fund to fund post-closure costs of the West Pasco Class III, West Pasco Class I-SW-I and SW-II, West Pasco Class I – AI, AII, AIII, and AIV, and East Pasco landfills.

The County is required by state and federal laws to make annual contributions to an escrow account to meet financial assurances requirements. At September 30, 2020, the County has funded the total accrual liability for closure and long-term care at approximately 119.67% with restricted investments of \$38,896,900 held for this purpose.

In the event that the annual escrow contribution and interest earnings prove to be inadequate due to inflation, changes in technology, or additional closure and long-term requirement, these costs may need to be covered by charged to future landfill users.

The capacity utilized and estimated remaining useful life for each of the County’s landfills is as follows:

<u>Landfills</u>	<u>Capacity Utilized</u>	<u>Estimated Remaining Life (Years)</u>
East Pasco Class I (13 and 107 acres)	100.00%	-
West Pasco Class I - AI, AII, AIII, AIV	73.12%	8
West Pasco Class III	46.73%	36
West Pasco Class I - SW-I and SW-2	56.25%	4

12. POLLUTION REMEDIATION

GASB 49 provides guidance for estimating and reporting the potential costs of pollution remediation. While GASB 49 does not require the County to search for pollution, it does require the County to reasonably estimate and report a remediation liability when any of the following obligating events has occurred:

- Pollution poses an imminent danger to the public and the County is compelled to take action;
- The County is in violation of a pollution related permit or license;
- The County is named or has evidence that it will be named as a responsible party by a regulator;
- The County is named or has evidence that it will be named in a lawsuit to enforce a cleanup; or
- The County commences or legally obligates itself to conduct remediation activities.

Site investigation, planning and design, cleanup and site monitoring are typical remediation activities under way in the County. The County has knowledge and expertise to estimate the remediation obligations presented herein based upon prior experience in identifying and funding similar remediation activities. The standard requires the County to calculate pollution remediation liabilities using the expected cash flow technique. Where the County cannot reasonably estimate a pollution remediation obligation, it does not report a liability; however, the County has not identified any of these situations.

The remediation obligation estimates that appear in this report are subject to change over time. Cost may vary due to price fluctuations, changes in technology, changes in potential responsible parties, results of environmental studies, changes to statutes or regulations and other factors that could result in revisions to these estimates. Prospective recoveries from responsible parties may reduce the County's obligation. Capital assets may be created when pollution remediation outlays are made under specific circumstances.

As of September 30, 2020 the County has not been named as a responsible party in a lawsuit to enforce a cleanup nor is it aware of any other conditions requiring pollution remediation

13. EMPLOYEE RETIREMENT PLANS

Defined Benefit Plans

Pasco County participates in two defined benefit pension plans that are administered by the State of Florida, Department of Management Services, Division of Retirement. The plans provide retirement, disability or death benefits to retirees or their designated beneficiaries. Chapter 121, Florida Statutes, establishes the authority for benefit provisions. Changes to the law can only occur through an act of the Florida Legislature. The State of Florida issues a publicly available financial report that includes financial statements and required supplementary information for the plans. That report is available from the Florida Department of Management Services' website (www.dms.myflorida.com).

The Florida Retirement System (FRS) Pension Plan is a cost-sharing, multiple-employer defined benefit pension plan with a Deferred Retirement Option Program (DROP) available for eligible employees. The FRS was established and is administered in accordance with Chapter 121, Florida Statutes. Retirees receive a lifetime pension benefit with joint and survivor payment options. FRS membership is compulsory for employees filling regularly established positions in a state agency, county agency, state university, state college, or district school board, unless restricted from FRS membership under Sections 121.053 or 121.122, Florida Statutes, or allowed to participate in a defined contribution plan in lieu of FRS membership. Participation by cities, municipalities, special districts, charter schools and metropolitan planning organizations is optional.

The Retiree Health Insurance Subsidy (HIS) Program is a cost-sharing, multiple-employer defined benefit pension plan established and administered in accordance with Section 112.363, Florida Statutes. The benefit is a monthly payment to assist retirees of the state-administered retirement systems in paying their health insurance costs. To be eligible to receive a HIS benefit, a retiree under a state administered retirement system must provide proof of eligible health insurance coverage, which can include Medicare.

Benefits Provided

Benefits under the FRS Pension Plan are computed on the basis of age and/or years of service, average final compensation, and service credit. Credit for each year of service is expressed as a percentage of the average final compensation. For members initially enrolled before July 1, 2011, the average final compensation is the average of the five highest fiscal years' earnings; for members initially enrolled on or after July 1, 2011, the average final compensation is the average of the eight highest fiscal years' earnings. The total percentage value of the benefit received is determined by calculating the total value of all service, which is based on the retirement plan and/or class to which the member belonged when the service credit was earned.

Eligible retirees and beneficiaries receive a monthly HIS payment equal to the number of years of service credited at retirement multiplied by \$5. The minimum payment is \$30 and the maximum payment is \$150 per month, pursuant to Section 112.363, Florida Statutes.

Actuarial Assumptions

The total pension liability for each of the defined benefit plans was measured as of June 30, 2020. The total pension liability for both the FRS Pension Plan and for the HIS Program were determined by actuarial valuations dated July 1, 2020. The individual entry age actuarial cost method was used for each plan, along with the following significant actuarial assumptions:

	<u>FRS</u>	<u>HIS</u>
Inflation	2.40%	2.40%
Salary increases	3.25%	3.25%
Investment rate of return	6.80%	N/A
Discount rate	6.80%	2.21%

Mortality assumptions for both plans were based on the PUB-2010 base tables projected generationally with Scale MP-2018.

For both plans, the actuarial assumptions were based on the results of an actuarial experience study for the period July 1, 2013, through June 30, 2018.

The following changes in key actuarial assumptions occurred in 2020:

FRS:

- The long-term expected rate of return and the discount rate used to determine the total pension liability decreased from 6.90% to 6.80%.
- The assumed rate of inflation was decreased from 2.60% to 2.40%.

HIS:

- The municipal bond index rate and the discount rate used to determine the total pension liability decreased from 3.50% to 2.21%.
- The assumed rate of inflation was decreased from 2.60% to 2.40%.
- Mortality assumptions for the HIS Program were changed from the Generational RP-2000 with Projection Scale BB to the PUB2010 base tables projected generationally with Scale MP-2018.

The long-term expected investment rate of return for the FRS Pension Plan was not based on historical returns, but instead was based on a forward-looking capital market economic model developed during 2020 by an outside investment consultant to the Florida State Board of Administration. Each asset class assumption is based on a consistent set of underlying assumptions, and includes an adjustment for the inflation assumption of 2.40%.

Actuarial Assumptions (Continued)

For the FRS Pension Plan, the table below summarizes the consulting actuary's assumptions based on the long-term target asset allocation.

Asset Class	Target Allocation	Annual Arithmetic Return	Compound Annual (Geometric) Return	Standard Deviation
Cash	1.0%	2.2%	2.2%	1.2%
Fixed income	19.0%	3.0%	2.9%	3.5%
Global equity	54.2%	8.0%	6.7%	17.1%
Real estate	10.3%	6.4%	5.8%	11.7%
Private equity	11.1%	10.8%	8.1%	25.7%
Strategic investments	4.4%	5.5%	5.3%	6.9%
Totals	100.0%			
Assumed Inflation - Mean			2.4%	1.7%

Discount Rate

The discount rate used to measure the total pension liability for the FRS Pension Plan was 6.80%. The 6.80% reported investment return assumption differs from the 7.00% investment return assumption chosen by the 2020 FRS Actuarial Assumption Conference for funding policy purposes, as allowable under governmental accounting and reporting standards. FRS' fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return.

Because the HIS Program is essentially funded on a pay-as-you-go basis and the depletion date is considered to be immediate, a municipal bond rate of 2.21% was used to determine the total pension liability for the program. The Bond Buyer General Obligation Bond 20-Bond Municipal Bond Index was used as the applicable municipal bond index.

Pension Plans' Fiduciary Net Position

Detailed information about the pension plans' fiduciary net position is available in the State's separately issued financial reports.

Defined Contribution Plan

Pursuant to Chapter 121, Florida Statutes, the Florida Legislature created the Florida Retirement Investment Plan ("FRS Investment Plan"), a defined contribution pension plan qualified under Section 401(a) of the Internal Revenue Code. The FRS Investment Plan is an alternative available to members of the Florida Retirement System in lieu of the defined benefit plan. There is a uniform contribution rate covering both the defined benefit and defined contribution plans, depending on membership class. Required employer contributions made to the plan during the year ended September 30, 2020, totaled \$3,610,237.

14. OTHER POSTEMPLOYMENT BENEFITS (“OPEB”)

A. Plan Description

Pasco County Board of County Commissioners

The Board of County Commissioners defined benefit postemployment healthcare plan, the Group Health Program for Pasco County (“GHPPC”), is a cost-sharing multiple-employer health care plan that primarily provides medical, dental, vision and life insurance benefits (OPEB benefits) to eligible County retirees and their spouses. The Board of County Commissioners and the Constitutional Officers, except the Pasco County Sheriff, participate in GHPPC.

In order to be eligible for benefits an employee must satisfy either normal or early retirement conditions under the Florida Retirement System (“FRS”). The Board of County Commissioners has the authority to establish and amend the benefit provisions of the plan in accordance with Section 110.123, Florida Statutes.

Pasco County Sheriff

The Pasco County Sheriff’s Office (“PCSO”) operates a single-employer health care plan. Pasco County Sheriff Health Care Plan (“PCSOHP”) offers medical and free life insurance paying double the employee’s salary, up to \$50,000. The Sheriff provides postretirement healthcare benefits in accordance with Section 110.123, Florida Statutes, to all employees who retire from the employ of the Sheriff. To be eligible for postretirement healthcare benefits, the retiree must have at least six years of service or attain normal retirement age as defined by Social Security. Retirees with more than 6 years of service, but less than 30 years of service, pay 100% of the premium cost to receive postretirement healthcare benefits. Retirees with 30 or more years of service do not pay a premium to receive postretirement healthcare benefits; however, they surrender their monthly state subsidy of \$150 per month.

Pasco County Clerk & Comptroller

As of October 1, 2019 The Pasco County Clerk & Comptroller’s Office (“PCCC”) offers coverage under the Board of County Commissioners health care program. They do offer a separate single-employer self-funded health care plan (“PCCCHP”) that offers dental, vision and life insurance benefits (OPEB benefits) to eligible retirees and their dependents. In order to be eligible for benefits, a Clerk & Comptroller’s Office employee must satisfy either normal or early retirement conditions under the Florida Retirement System (“FRS”). Authority to establish and amend the benefit provisions of the plan is in accordance with Section 110.123, Florida Statutes.

B. Summary of Membership Information

The following table provides a summary of the number of participants in the OPEB Plans as of the measurement date (October 1, 2019):

B. Summary of Membership Information (Continued)

The County follows the provisions of Governmental Accounting Standards Board Statement No. 75 (“GASB 75”). All plans are not administered as formal trusts, nor are they an equivalent arrangement as of September 30, 2020, and, as such, the plans must follow the accounting and reporting requirements of an agent multi-employer retirement plan. Separate financial statements are not prepared for the three other postemployment benefit plans. As the plans are not administered through a trust the Plan Fiduciary Net Position for each plan is \$0.

C. Changes in the Total OPEB Plan Liability

D. Actuarial Valuation Date

For employee and retiree population purposes and or development of per capita cost purposes and for valuation purposes, October 1, 2019, was the actuarial valuation date.

E. Actuarial Methods and Assumptions

Actuarial valuations of an ongoing OPEB Plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples of significant assumptions include: inflation, healthcare cost trend rates, salary changes, ad hoc postemployment benefit changes and the sharing of benefit-related costs with inactive plan members.

Normal cost and the allocation of benefit values between service rendered before and after the valuation date were determined using the Individual Entry-Age Actuarial Cost Method. The information that was utilized in the OPEB Plan liability calculation was consistent to the salary increase approved by the 2019 FRS Actuarial Assumption Conference used in the, July 1, 2019 actuarial valuation of the Florida Retirement system (FRS).

Demographic assumptions employed in the actuarial valuation were the same as those approved by the 2019 FRS Actuarial Assumption Conference used in the, July 1, 2019 actuarial valuation of the FRS. The demographic assumptions were developed by FRS through an Actuarial Experience Study, and therefore are appropriate for use in the OPEB Plan Actuarial Valuation. Furthermore, the salary assumptions used in the valuation are the same as those used in the July 1, 2019 Actuarial Valuation of the FRS.

14. OTHER POSTEMPLOYMENT BENEFITS (“OPEB”) (CONTINUED)

E. Actuarial Methods and Assumptions (Continued)

The disabled mortality assumptions used are consistent with the disabled mortality assumptions used for all class members in the July 1, 2017 FRS Actuarial Valuation.

The total OPEB Plan liability actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.60%
Salary Increases	3.60% to 8.40%, including inflation as used in the July 1, 2019 actuarial valuation of the Florida Retirement System
Mortality Rates	Healthy members based on various PUB-2010 base tables, generational mortality using gender-specific MP-2018 mortality improvement projection scale. Disabled Employees based on various PUB-2010 Disabled mortality tables and no projected improvements.

Healthcare cost trend rates were based on the forecasting model build and published in Modeling Long-Term Health Care Cost Trends, sponsored by the Society of Actuaries and authored by Professor Thomas E. Getzen. The long term rates reflected 2.60% assumed ultimate inflation rate, 25% resistance level for health care spending as a percent of GDP and a 21 convergence period.

To model the impact of aging, the actuarial study relied on the Society of Actuaries’ 2013 Study “Health Care Costs – From Birth to Death.”

F. Discount Rate

There are no invested plan assets held in trust to finance the OPEB Plan liability. The discount rate used is equal to the tax-exempt municipal bond rated based on an index of 20-year general obligations bonds with an average AA credit rating as of the measurement date. For the purpose of the OPEB Plan valuation, the municipal bond rate was 2.74%, based on the daily rate closest to but not later than the measurement date of the “Fidelity 20-Year Municipal GO AA Index”.

15. RISK MANAGEMENT

Self-insurance fund operations have been established to handle the County's worker's compensation, general liability, automobile liability, health claims and the Clerk & Comptroller and Sheriff health claims. The County uses a combination of self-insurance and third-party insurance to protect itself against risks that cannot be eliminated.

The Clerk & Comptroller has an insurance fund that accounts for a self-insured plan for employee group health, dental, vision and prescription drugs. As of September 30, 2020, the insurance fund had \$6,271,158 of available net position to fund claims liabilities. The claims liability of \$44,088 reported in the Statement of Net Position – Proprietary Funds at September 30, 2020 is based on the provisions of GASB Statement No. 10, Accounting and Financial Reporting for Risk Financing and Related Insurance Issues, which requires that a liability for unpaid claims costs, including estimates of costs related to incurred but not reported claims, be accrued when insured events occur.

The Sheriff has an insurance fund that accounts for a self-insured plan for employee group medical and prescription drug coverage. As of September 30, 2020, the insurance fund had a net position of \$259,650. At September 30, 2020, the claims liability of \$942,795 reported in the Statement of Net Position - Proprietary Funds is based on the provisions of GASB Statement No. 10, Accounting and Financial Reporting for Risk Financing and Related Insurance Issues, which requires that a liability for unpaid claims costs, including estimates of costs related to incurred but not reported claims, be accrued when insured events occur.

The County has worker's compensation insurance with a \$750,000 deductible per occurrence for all claims. The County's general liability insurance has \$500,000 retention per claim with \$1,000,000 coverage per occurrence and \$2,000,000 aggregate. Negligence claims in excess of the statutory limits set in Section 768.28, Florida Statutes, which provide for limited sovereign immunity of \$100,000/\$200,000 per occurrence can only be recovered through an act of the State Legislature. Effective October 1, 2011, sovereign immunity limits were increased to \$200,000 per claim and \$300,000 per occurrence for claims incurred after that date.

Settlements have not exceeded coverage in any of the past three fiscal years. All liabilities associated with these self-insured risks are reported in the basic financial statements of the County.

The automobile liability is self-insured.

Almost all funds of the County participate in the worker's compensation, general liability, and automobile liability program and make payments to the County's insurance fund in accordance with cost allocations based upon the level of personnel staffing.

Effective October 1, 2013, the County transitioned to self-insured coverage for medical and other health related benefits for its employees in order to better insulate the County against increasing health care costs. All claims activity associated with the County's self-insured health plan is reported in the County Self Insurance Internal Service Fund. Total outstanding claim liabilities, inclusive of current claims payable and incurred but not reported claims, were \$1,375,648 as of September 30, 2020.

15. RISK MANAGEMENT (CONTINUED)

For the year ended September 30, 2020, the County reviewed its historical claims experience for purposes of determining estimates of the total claims and loss reserves for all self-insurance risks. The claim liability of \$16,663,108 reported in the fund at September 30, 2020, of which an estimated \$7,568,693 is due within one year, is based on the provisions of GASB Statement No. 10 which requires that a liability for unpaid claims costs, including estimates of costs related to incurred but not reported claims, be accrued when insured events occur. Changes in the funds claims liability amounts during the past two fiscal years are as follows:

Fiscal Year	Beginning of Fiscal Year Liability	Current Year Claims and Changes in Estimates	Claims Payments	Balance at Fiscal Year End
2019	\$ 24,134,404	\$ 26,786,119	\$ 33,427,550	\$ 17,492,974
2020	\$ 17,492,973	\$ 51,146,736	\$ 51,976,601	\$ 16,663,108

The County had no significant reductions in insurance coverage during the fiscal year ended September 30, 2020. There were not settlements which exceeded the County's insurance coverage in any of the past three fiscal years.

18. COMMITMENTS, CONTINGENCIES AND OTHER MATTERS

General Government Construction Commitments

At September 30, 2020, the County had various contract commitments for general government construction projects totaling approximately \$49.5 million.

Enterprise Funds Commitments

At September 30, 2020, purchase and construction contract commitments in the Enterprise Funds were approximately \$19.3 million. On March 28, 1989, the Board entered into a service agreement with Covanta Pasco, Inc. ("Covanta"), formerly known as Ogden Martin Systems of Pasco, Inc., for the operation and maintenance of the Solid Waste Disposal and Resource Recovery System Facility. The agreement commenced on May 15, 1991 and was extended through the December 31, 2024. Under the updated agreement, Covanta is paid a monthly service fee based on an annual operation and maintenance of the Facility, as defined in the service agreement. For the year ended September 30, 2020, charges to the Board under the service agreement totaled \$20,055,904.

Also, on March 28, 1989 the Board entered into an agreement with Duke Energy (formerly Progress Energy Corporation) wherein the Board sells and Duke Energy purchases the net electrical energy generated from the Solid Waste disposal resource Recovery System Facility. For the year ended September 30, 2020, the Board's power sales to Duke Energy totaled \$29,123,315. Under the terms of the agreement, the Board has committed to having available annually, 23 megawatts of electrical energy for purchase by Duke Energy through December 2024. The capacity of energy committed by the Board is subject to adjustment for the period January 2015 through December 2024, as defined in the agreement.

18. COMMITMENTS, CONTINGENCIES AND OTHER MATTERS (CONTINUED)

Grants

All expenditures financed by Federal and State of Florida grants are subject to audit by the granting agencies to determine if such expenditures comply with the conditions of a grant. Management believes that no material liability will arise from any such audits.

Claims and Lawsuits

A number of claims and lawsuits are pending against the County. Based on knowledge of facts, Management believes that the estimated likelihood of current liabilities can be found within the claims payable portion of the financial statements.

The Sheriff is involved as defendant or plaintiff in certain litigations and claims arising from the ordinary course of operations. Funding for any judgments against the Sheriff in excess of available budget funds would be requested from the Board. In the opinion of the Sheriff and legal counsel, the range of potential recoveries or liabilities will not materially affect the financial position of the Sheriff.

In March 2009, a verdict was asserted against the Pasco County Sheriff's office awarding approximately \$8.7 million to the claimant. The Florida statutory sovereign immunity provisions at that time put a cap on damages of \$100,000 and such damages were paid through the Florida Sheriff's Automobile Risk Program (SHARP). However, the claimant pursued the remaining verdict award through a claim bill with the Florida Legislature.

A settlement agreement was reached between the parties in the amount of \$325,000 per year for eight consecutive years, for a total of \$2.6 million. The first payment was made by SHARP in May 2017, with the remaining years to be paid by the Sheriff's office. The Sheriff's office has made payments in fiscal year 2019 and fiscal year 2020. Payment is due each consecutive year thereafter until paid in full. The annual obligation is to be included in each future year budget allocation. As this obligation will not be paid with current available resources, no liability has been recorded in the accompanying financial statements.

21. SUBSEQUENT EVENTS (CONTINUED)

On December 27, 2020 the Consolidated Appropriations Act, 2021 was enacted to provide economic relief for rent, rental arrears, utilities, utility arrears, and other housing expense resulting from the pandemic for household meeting various criteria. Through the Emergency Rental Assistance Program, the program provides for payments to states, tribal governments, territories, and local governments with a population greater than 200,000 to address expenditures necessary to assist citizens during the COVID-19 public health emergency. To receive payment from ERA, local jurisdictions were required to provide a certification that it had a population in excess of 200,000 and that it would spend the ERA funds in accordance with the law and program guidance. Pasco County submitted certification to the U.S. Department of Treasury on January 8, 2020. On January 19, 2021 the County funding in the amount of \$16,726,810. Subsequent on February 17, 2021 the Pasco Helping with Emergency Assistance Relief for Tenants (H.E.A.R.T.) was offered to distribute the funds to the public.

During the year ended September 30, 2020, local, U.S., and world governments encouraged social distancing as a means to curtail the spread of the global pandemic, coronavirus disease (COVID-19). This has led to the a mandating temporary work stoppage in many sectors and imposing limitations on travel and size and duration of group meetings. Most industries are experiencing disruption to business operations and the impact of reduced consumer spending. There is unprecedented uncertainty surrounding the duration of the pandemic, its potential economic ramifications, and any government actions to mitigate them. As a result, uncertainties have arisen that may have a significant negative impact on the revenues, investments, and fund balances/net position of the County.

LOCAL OPTION GAS TAX FUND – To account for transportation expenditures needed to meet the requirements of the capital improvements element of the comprehensive plan, expenditures needed to meet immediate local transportation problems and for other transportation-related expenditures that are critical for building comprehensive roadway networks. Expenditures for the construction of new roads shall be deemed to increase capacity and such projects shall be included in the capital improvements element of the adopted comprehensive plan. This fund shall not include routine maintenance of roads. These expenditures are funded by the Five-Cent Second Local Option Fuel Tax in accordance with Chapter 102, Article III of County Code of Ordinances (§102-162), Section 336.025(1)(b), Florida Statutes, and Chapter 206, Florida Statutes. The Board of County Commissioners passed this ordinance on September 9, 2014.

BUILDING INSPECTIONS AND PERMITTING FUND – To account for the administration of the Florida Building Code pursuant to Chapter 553.79, Florida Statutes, and in accordance with Chapter 18, Article III (§ 18-40) of County Code of Ordinance.

ROAD AND BRIDGE FUND – To account for major and minor maintenance of County roads, bridges, bicycle paths, and sidewalks; roadway and right-of-way maintenance and drainage; traffic signs, traffic engineering, signalization, and pavement markings installation, operation, maintenance, and repair; and street lighting installation, operation, maintenance, and repair. These expenditures are funded by the Two-Cent Constitutional Fuel Tax (Section 206.41 (1)(a), Florida Statutes), One-Cent County Fuel Tax (Section 206.41(1)(b), Florida Statutes), Six-Cent First Local Option Fuel Tax (Section 336.025(1)(a), Florida Statutes and Chapter 102, Article III of County Code of Ordinances (§ 102-151)), and One-Cent Ninth-Cent Fuel Tax (Section 206.41(1)(d), Florida Statutes and Chapter 102, Article III of County Code of Ordinances (§ 102-160)).

LAW ENFORCEMENT FUND – To account for the proceeds from the sale of forfeited property to be expended for law enforcement purposes such as protracted or complex investigations, additional technical equipment or expertise, or matching funds to obtain federal grants, or other law enforcement purposes, which the Board of County Commissioners deems appropriate in accordance with Section 932.7055, Florida Statutes.

CORONAVIRUS RELIEF (CARES ACT) FUND – In April 2020, the County received proceeds for Coronavirus Aid, Relief, and Economic Security (CARES) ACT funds to be used to combat and respond to the COVID-19 outbreak. The County has committed to investing these federal resources in three areas: investing in our business community; investing in our community; and investing in our people.

TOURIST DEVELOPMENT TAX FUND – To account for the collection and use of a two percent Tourist Development Tax imposed pursuant to Chapter 102 of County Code of Ordinances (§102-190) and in accordance with Section 125.0104, Florida Statutes.

This fund is in accordance with Chapter 2, Article IV, of the County Code of Ordinances.

SECOND LOCAL OPTION FUEL TAX FUND – Reflects revenue received from the six cent gas tax funds and 80% of the two cent constitutional gas tax. The Local Option Gas Tax (LOGT) was first levied September 1, 1983, for two cents; a third and fourth cent levied September 1, 1984; and a fifth and sixth cent levied on September 1, 1986. This revenue is used to finance certain road improvements, road maintenance and construction, and road related drainage facilities. Local governments may pledge the LOGT to secure the payment of bonds. In 1993, the Florida Legislature authorized an additional five cents of LOGT on motor fuel, which the Board of County Commissioners (BCC) has not adopted, and a new ninth cent of LOGT on motor fuel and special fuel. On January 1, 1994, special fuel became subject to the ninth cent per gallon in every County of the State. On June 18, 2002, the BCC adopted the levy of the remaining revenue from the ninth-cent gas tax. Effective January 1, 2003, the ninth-cent fuel tax provided for a maintenance crew to help maintain the County's rapidly growing road network.

(1) Section 192.00(2), Florida Statutes, defines assessed value of property as "an annual determination of the just or fair market value of an item or property...."

Consequently, estimated actual value, above, is assessed value before exemptions.

(2) Chapter 196, Florida Statutes, grants various exemptions for qualifying economic development, governmental, historic, and institutional property; the latter including charitable, educational, literary, religious, and scientific property. Exemptions are also granted for residential property for the disabled, blind, widows and widowers as well as the homestead exemption (\$25,000), additional homestead exemption (age 65 or older, \$25,000), and homestead differential.

(3) Centrally-assessed property has been added to the total estimated actual value of real and personal property when computing this percentage.

(4) Total Tax Levy (refer to Property tax Levies and Collections) to Total Taxable Assessed Value (above). Tax rates are in dollars per \$1,000 of taxable assessed value.

(1) Net of allowable discounts. [NOTE: Property taxes become due and payable on November 1st of each year. A 4-percent discount is allowed if the taxes are paid in November, with the discount declining by 1 percent each month thereafter. Accordingly, tax collections will never equal 100 percent of the tax levy. Taxes become delinquent on April 1st of each year and tax certificates for the full amount of any unpaid taxes and assessments must be sold not later than June 1st of each year.

COMPLIANCE SECTION

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Distinguished Members of the
Board of County Commissioners
Pasco County, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Pasco County, Florida (the County) as of and for the year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise the County's basic financial statements and have issued our report thereon dated April 21, 2021.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Pasco County, Florida's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. However, as described in the accompanying schedule of findings and questioned costs, we did identify certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying schedule of findings and questioned costs as items 2020-001, 2020-002, and 2020-003 to be a material weaknesses.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency described in the accompanying schedule of findings and questioned costs as item 2020-004 to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Pasco County, Florida's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and questioned costs as items 2020-001, 2020-002, 2020-003, and 2020-004.

Pasco County, Florida's Response to Findings

Pasco County, Florida's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. Pasco County, Florida's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND STATE PROJECT AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE AND CHAPTER 10.550, RULES OF THE AUDITOR GENERAL

Distinguished Members of the
Board of County Commissioners
Pasco County, Florida

Report on Compliance for Each Major Federal Program and Each Major State Project

We have audited Pasco County, Florida's (the "County") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* and the requirements described in the Florida Department of Financial Services' State Projects *Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs and major state projects for the year ended September 30, 2020. The County's major federal programs and major state projects are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal and state statutes, regulations, and the terms and conditions of its federal and state awards applicable to its federal programs and state projects.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the County's major federal programs and major state projects based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance); and the audit requirements of Chapter 10.550, *Rules of the Auditor General* ("Chapter 10.550"). Those standards, the Uniform Guidance, and Chapter 10.550 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program or major state project occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our qualified and unmodified opinions on compliance major federal programs and major state projects. However, our audit does not provide a legal determination of the County's compliance.

Basis for Qualified Opinion on CSFA 40.901 State Housing Initiative Partnership

As described in the accompanying schedule of findings and questioned costs, the County did not comply with requirements regarding CSFA 40.901 State Housing Initiative Partnership as described in finding number 2020-002 for Reporting and Period of Availability and finding number 2020-003 for Cash Management. Compliance with such requirements is necessary, in our opinion, for the County to comply with the requirements applicable to that project.

Qualified Opinion on CSFA 40.901 State Housing Initiative Partnership

In our opinion, except for the noncompliance described in the Basis for Qualified Opinion paragraph, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on CSFA 40.901 State Housing Initiative Partnership for the year ended September 30, 2020.

Unmodified Opinion on Each of the Other Major Federal Programs and State Projects

In our opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its other major federal programs and state projects identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs for the year ended September 30, 2020.

Other Matters

The County's response to the noncompliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The County's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control Over Compliance

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program and major state project to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and major state project and to test and report on internal control over compliance in accordance with the Uniform Guidance and Chapter 10.550, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. However, as discussed below, we did identify certain deficiencies in internal control over compliance that we consider to be material weaknesses.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program or state project on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program or state project will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as items 2020-002 and 2020-003 to be material weaknesses.

A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program or state project that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We did not identify any deficiencies in internal control over compliance that we consider to be significant deficiencies. However, significant deficiencies may exist that have not been identified.

The County's response to the internal control over compliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The County's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and Chapter 10.550. Accordingly, this report is not suitable for any other purpose.

Pasco County, Florida
Notes to Schedule of Expenditures of Federal Awards and
State Financial Assistance

NOTE 1: BASIS OF PRESENTATION

The accompanying schedule of federal awards and state financial assistance (the Schedule) includes the federal and state grant activity of the County, and is presented on the accrual basis of accounting. The information in the Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (the Uniform Guidance) and Chapter 215.97, *Florida Statutes*. Therefore, some amounts presented in the Schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

The County has elected not to use the 10% de Minimis Indirect Cost Rate as outlined in the Uniform Guidance.

The County’s federal and state awards include loans or loan guarantees.

The County did not receive any federal or state non-cash assistance for the fiscal year ended September 30, 2020.

NOTE 3: LOANS OUTSTANDING

The County had the following loan balances outstanding at September 30, 2020. For federal programs, the outstanding loan balance at the beginning of the year and the current year additions related to the loans are included in the Schedule as expenditures. For state programs, only the current year additions related to the loans are included in the Schedule.

CFDA/CSFA#	Program	Amount
14.218	Community Development Block Grant	\$ 10,333,150
14.239	Home Investment Partnerships Program	\$ 15,409,950
14.256	Neighborhood Stabilization Program NSP 2	\$ 8,367,021
40.901	State Housing Initiative Partnership (SHIP) Program	\$ 21,387,878

NOTE 4: CONTINGENCIES

Expenditures incurred by the County are subject to review by the grantor agencies. Such audits may result in requests for reimbursement due to disallowed expenditures. Management believes that if audited, any adjustment for disallowed expenditures would be immaterial in amount. As of September 30, 2020, management is not aware of any material questioned or disallowed expenditures as a result of grant audits in process or completed.

Pasco County, Florida Schedule of Findings and Questioned Costs

Part II – Financial Statement Findings

Material Weakness

Finding Number: 2020-001: Financial Reporting

Criteria: The County is required to record revenue in the correct fiscal year in accordance with generally accepted accounting principles.

Condition: Pasco County has experienced difficulty in accurately recording revenue in the correct fiscal year in accordance with generally accepted accounting principles.

Cause: The County did not accurately record revenue to the correct fiscal year which caused multiple restatements to previously reported balances. In the aggregate remaining fund information, cash was collected in a prior year as a deposit for mobility fees. The funds will be refunded to developers in future periods as projects are completed. However, the collections had been reported as revenue in a previous period instead of a deposit liability. In the Solid Waste Disposal and Resource Fund, solid waste assessments were reported as revenue in the incorrect period.

Effect: Due to the size of the required corrections to previously reported balances, the corrections were necessary to be recorded to opening net position and fund balance. The entries were as follows:

- Approximately \$3,900,000 adjustment to opening fund balance in the aggregate remaining funds and opening net position in the governmental activities
- Approximately \$6,100,000 adjustment to opening net position in the business-type activities and Solid Waste Disposal and Resource Fund

Recommendation: The County should continue to review revenue, deposit and accounts receivable transactions to ensure related revenue is appropriately recorded to the correct fiscal period. In addition, the County should continue to review accounting policies and processes to limit the opportunity to record revenue in the incorrect period.

Response: See attached Corrective Action Plan.

Significant Deficiency

Finding Number: 2020-004 (originally reported as 2018-001): Preparation of the Schedule of Federal Awards and State Financial Assistance

Criteria: 2 CFR 200.510(b), requires the auditee to prepare a schedule of expenditures of Federal awards for the period covered by the auditee's financial statements which must include the total Federal awards expended as determined in accordance with 2 CFR 200.502.

Condition: The County had a control weakness that resulted in management failing to comply with the requirement to prepare an accurate schedule of expenditures of federal awards and state assistance (2 CFR 200.508(b)). Federal expenditures were overstated on the schedule of expenditures of federal awards by \$613,062 for the Disaster Grants CFDA 97.036. Additionally, one CFDA was incorrectly reported on the schedule of expenditures of federal awards and state assistance.

Cause: Certain grants were not recognized accurately in the client prepared schedule of expenditures of federal awards and state financial assistance and an incorrect CFDA number was presented for one program.

Effect: Failure to properly prepare the schedule affected the reconciliation of the underlying accounting records and financial statements to the schedule.

Pasco County, Florida Schedule of Findings and Questioned Costs

Recommendation: We recommend the County improve its financial reporting close process to more accurately complete and review the schedule of expenditures of federal awards and state financial assistance. This process should also include a procedure to have someone in each department perform an independent review of their portion of the schedule.

Response: See attached Corrective Action Plan.

Part III – Findings and Questioned Costs – Federal Awards

None

Part IV – Findings and Questioned Costs – State Awards

Material Weakness

Finding Number: 2020-002

CSFA # 40.901:

State Project: State Housing Initiatives Partnership Program (SHIP)

Passed through: N/A

Contract Number and Year: N/A, 2020

Compliance Requirement: Reporting and Period of Availability

Questioned Costs: \$700,000

Criteria: Rule Chapter 67-37007(1)(a-c), Florida Administrative Code, requires all local housing distribution funds be Encumbered by June 30 of the State fiscal year following the end of the applicable State fiscal year, funds deposited to the local housing assistance trust fund must be Expended within 24 months from the end of the applicable State fiscal year, and if funds remain unexpended after the original or extended deadline, the County will be deemed to be in non-compliance and funds will be subject to recapture by the Corporation.

Section 420.9075(10), Florida Statutes, requires each county to submit to the corporation by September 15 of each year a report of its affordable housing programs and accomplishments through June 30 immediately preceding submittal of the report. The report shall be certified as accurate and complete by the local government's chief elected official or his or her designee. Transmittal of the annual report by a county's or eligible municipality's chief elected official, or his or her designee, certifies that the local housing incentive strategies, or, if applicable, the local housing incentive plan, have been implemented or are in the process of being implemented pursuant to the adopted schedule for implementation.

Condition: Encumbered amounts of \$700,000 were included in the SHIP annual Close-Out Report for the 2017/2018 LHAP as expended amounts through June 30, 2020 in order for the County to meet the statutory requirement of 30% of SHIP Funds to be used for Extreme and Very Low Income citizens of Pasco County. Funds were subsequently expended in FY2021 outside the period of availability.

Cause: The County did not meet the statutory requirement that 30% of SHIP Funds be used for Extreme and Very Low Income citizens of Pasco County for the 2017/2018 LHAP within the required period of availability.

Effect: SHIP funds not used in accordance with State requirements and funds not expended in the appropriate period could result in loss of future funding or requirement for the County to reimburse the SHIP fund from the General Fund.

Pasco County, Florida Schedule of Findings and Questioned Costs

Recommendation: The County should strengthen its process surrounding review of ongoing cases under the SHIP program to ensure Statutory requirements for populations served are in compliance and will be completed within the appropriate period.

Response: See attached Corrective Action Plan.

Finding Number: 2020-003

CSFA # 40.901:

State Project: State Housing Initiatives Partnership Program (SHIP)

Passed through: N/A

Contract Number and Year: N/A, 2020

Compliance Requirement: Cash Management

Questioned Costs: \$237,024

Criteria: Rule Chapter 67-37005(4)(r)(3), Florida Administrative Code, requires the local housing assistance plan (LHAP) to include the maximum amount of funding per unit for each strategy. Rule Chapter 67-37.006(3), Florida Administrative Code, requires amendments to an approved local housing assistance plan (LHAP) be adopted by resolution and the County to provide a copy to the Corporation within 21 days after adoption.

Condition: The County exceeded the LHAP maximums for six cases reported in the 2017/2018 LHAP Close-Out Report. Approval by the Pasco County Board of County Commissioners was obtained subsequent to year-end on October 20, 2020 and not submitted to the Florida Housing Finance Corporation within 21 days after adoption.

Cause: The County did not obtain Board approval for the overages prior to the submission of the 2017/2018 Close-Out Report and did not amend the LHAP to reflect the overages before the close out period for the 2017/2018 LHAP.

Effect: Costs that exceed the LHAP maximums that are not approved by the Board could be considered unallowable costs/activities and require reimbursement to the SHIP fund.

Recommendation: The County should strengthen its process surrounding review of SHIP cases on a routine bases to ensure the LHAP maximums are not exceeded. However, where maximums are anticipated to be exceeded, the County should seek Board approval and amend the LHAP in a timely manner.

Response: See attached Corrective Action Plan.

Pasco County, Florida Schedule of Findings and Questioned Costs

Part V – Summary of Prior Year Audit Findings

Finding Number: 2019-001 (originally reported as 2018-001): Preparation of the Schedule of Federal Awards and State Financial Assistance

Condition: The County had a control weakness that resulted in management failing to comply with the requirement to prepare an accurate schedule of expenditures of federal awards and state assistance (2 CFR 200.508(b)). Federal expenditures were understated on the schedule of expenditures of federal awards by \$359,442 for the Federal Transit grant and a net of \$4,038,159 for the Disaster Grants. Federal expenditures were overstated on the schedule of expenditures of federal awards by \$1,337,626 for the CDBG grant and \$535,259 for the HMGP. State expenditures were understated on the schedule of expenditures of state assistance by \$245,101 for the Coach Aaron Feis Guardian Program. State expenditures were overstated on the schedule of expenditures of state assistance by \$23,750,358 for the SHIP grant, \$4,839,032 for the TRIP grant and \$842,515 for the CIGP grant.

Recommendation: We recommend the County improve its financial reporting close process to more accurately complete and review the schedule of expenditures of federal awards and state financial assistance. This process should also include a procedure to have someone in each department perform an independent review of their portion of the schedule.

Current Status: Similar findings were identified in the current audit with a program on the SEFA incorrectly reported as well as one CFDA number incorrectly reported. This will be reported as a finding for 9/30/2020 as 2020-004.

Material Weakness

2020-001: Financial Reporting

Condition: Pasco County has had trouble accurately recording revenue in the correct fiscal year in accordance with generally accepted accounting principles.

Cause: The County did not accurately record revenue to the correct fiscal year which caused multiple restatements to previously reported balances. In the aggregate remaining fund information, cash was collected in a prior year as a deposit for mobility fees. The funds will be refunded to developers in future periods as projects are completed. However, the collections had been reported as revenue in a previous period instead of a deposit liability. In the Solid Waste Disposal and Resource Fund, solid waste assessments were reported as revenue in the incorrect period.

Effect: Due to the size of the required corrections to previously reported balances, the corrections were necessary to be recorded to opening net position and fund balance. The entries were as follows:

- Approximately \$3,900,000 adjustments to opening fund balance in the aggregate remaining funds and opening net position in the governmental activities
- Approximately \$6,100,000 adjustment to opening net position in the business-type activities and Solid Waste Disposal and Resource Fund

Criteria: The County is required to record revenue in the correct fiscal year in accordance with generally accepted accounting principles.

Recommendation: The County should continue to review revenue, deposit and accounts receivable transactions to ensure related revenue is appropriately recorded to the correct fiscal period. In addition, the County should continue to review accounting policies and processes to limit the opportunity to record revenue in the incorrect period.

Response and Corrective Action Plan: Pasco County Development Services Administration (DSA) is dedicated to reporting on all applicable transactions processed by our team, including fees to be collected for other divisions and funds, accurately and timely. At the end of FY20 we discovered that select developer credit automations went off-line. This caused selected developer agreements that covered mobility fees to be processed as ordinary revenue, instead of a liability. As a result, DSA's Fiscal team has identified the necessary resources/reports to identify developer agreements that covered mobility fees and began correcting these transactions for FY20 and FY21 as applicable, based on our inquiries and coordination's with Public Infrastructure.

To prevent the opportunity of future misreporting, DSA, along with the Office of Performance Management, has started to review and process map the major events with the intention of creating a multi Division/Org SOP and optimizing the control process proactively. This will allow the Accela (permit software) team to identify the proper data fields and create future developer credit automations to scale

with our growth and future agreements. To further support this process, DSA Fiscal will review and identify of all known developer agreements, reconcile against the applicable automation totals, and make year-end correcting adjustments as necessary, on a semi-annual basis.

Public Infrastructure Fiscal and Business Administration has reviewed the recommendation provided and agrees. We will continue to evaluate, improve, and implement policies and procedures related to revenue recognition including significant journal entries. This year's specific adjustment relates to the re-alignment of Solid Waste Commercial Assessment revenue to the fiscal year versus the calendar year. This resulted in the recognition of an additional 3 months' worth of revenue in this reporting period.

Moving forward, Public Infrastructure Fiscal and Business Administration will work with the Clerk & Comptroller's Finance Department and other County departments to ensure that proper documentation and reporting procedures are followed, and revenues are captured and reported within the fiscal year collected. There has also already been corrective action in monthly reporting procedures to ensure reporting aligns with the fiscal year. In addition, we will continue to identify efficiencies in our financial management software that will allow for increased accuracy in financial reporting.

Condition: Encumbered amounts of \$700,000 were included in the SHIP annual Close-Out Report for the 2017/2018 LHAP as expended amounts through June 30, 2020 for the County to meet the statutory requirement of 30% of SHIP Funds to be used for Extreme and Very Low Income citizens of Pasco County.

Funds were subsequently expended in FY2021 outside the period of availability.

Cause: The County did not meet the statutory requirement that 30% of SHIP Funds be used for Extreme and Very Low Income citizens of Pasco County for the 2017/2018 LHAP within the required period of availability.

Effect: SHIP funds not used in accordance with State requirements and funds not expended in the appropriate period could result in loss of future funding or requirement for the County to reimburse the SHIP fund from the General Fund.

Recommendation: The County should strengthen its process surrounding review of ongoing cases under the SHIP program to ensure Statutory requirements for populations served is complying and will be completed within the appropriate period.

Response and Corrective Action Plan : Community Development Management has reviewed Finding 2020 – 002 and concurs. The Department has already developed and implemented a process to review incoming applications to score and rank them to ensure statutory requirements for populations served are being met within the required time period. The Department is also developing an outreach plan to reach lower income and special needs populations.

Response and Corrective Action Plan : Community Development Management has reviewed Finding 2020 – 003, concurs and has taken appropriate actions to ensure LHAP maximums are not exceeded.

The six cases reported in the 2017/2018 LHAP report occurred under the previous administration and were not discovered until our current team began preparing the report. SHIP jurisdictions have three years in which to expend and report on SHIP cases. Management did bring the overages to the Board for approval on 10/20/20 as soon as these cases were discovered in August 2020. In addition, when the new Local Housing Assistance Plan was written in 2018, maximum amounts per unit were revised. Current administration has procedures in place to ensure these amounts are not exceeded.

The corrected and completed SHIP report will be submitted to the Florida Housing Finance Corporation along with the Board approval of the expenditure overages. The approval of the expenditure overages is not required to be submitted within 21 days of approval; that timeframe exists for an amended LHAP.

MANAGEMENT LETTER

Distinguished Members of the
Board of County Commissioners
Pasco County, Florida

Report on the Financial Statements

We have audited the financial statements of Pasco County, Florida (the County) as of and for the year ended September 30, 2020, and have issued our report thereon dated April 21, 2021.

Auditors' Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance); and Chapter 10.550, Rules of the Auditor General.

Other Reporting Requirements

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards*; Independent Auditor's Report on Compliance for Each Major Federal Program and State Project and Report on Internal Control over Compliance; Schedule of Findings and Questioned Costs; and Independent Accountants' Report on an examination conducted in accordance with AICPA Professional Standards, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports and schedule, which are dated April 21, 2021, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. All findings made in the preceding annual financial report are no longer relevant.

Financial Condition and Management

Section 10.554(1)(i)5.a and 10.556(7), Rules of the Auditor General, require us to apply appropriate procedures and communicate the results of our determination as to whether or not the County has met one of more of the conditions described in Section 218.503(1), Florida Statutes, and to identify the specific conditions met. In connection with our audit, we determined that the County did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.554(1)(i)5.c. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures. It is management's responsibility to monitor the County's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we communicate any recommendations to improve financial management. In connection with our audit, we identified an adjustment to the Solid Waste Disposal and Resource Fund. We recommend that management continue to review accounts receivable to appropriately state the balance at net realizable value and ensure the general ledger is able to be accurately reconciled to the subsidiary ledger. Further, in connection with our audit, we identified a control deficiency related to inaccurate expenditures reported on the client prepared schedule of expenditures of federal awards and state financial assistance. We recommend the County continue to improve its financial reporting close process to ensure the schedule of expenditures of federal awards and state financial assistance is reported completely and accurately.

Special District Component Units

Section 10.554(1)(i)5.d., Rules of the Auditor General, requires, if appropriate, that we communicate the failure of a special district that is a component unit of a county, municipality, or special district, to provide the financial information necessary for proper reporting of the component unit within the audited financial statements of the county, municipality, or special district in accordance with Section 218.39(3)(b), Florida Statutes. In connection with our audit, we did not note any special district component units that failed to provide the necessary information for proper reporting in accordance with Section 218.39(3)(b), Florida Statutes.

Additional Matters

Section 10.554(1)(i)3., Rules of the Auditor General, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but warrants the attention of those charged with governance. In connection with our audit, we did not note any such findings.

Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.

365.172(10) AND 365.173(2)(d), FLORIDA STATUTES**

Distinguished Members of the
Board of County Commissioners
Pasco County, Florida

We have examined Pasco County, Florida's (the County) compliance with the requirements of Section 365.172(10), Florida Statutes, *Authorized Expenditures of E911 Fee*, and Section 365.173(2)(d), Florida Statutes, *Distribution and Use of (E911) Funds*, during the year ended September 30, 2020. Management is responsible for the County's compliance with the specified requirements. Our responsibility is to express an opinion on the County's compliance with the specified requirements based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the County complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether the County complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Our examination does not provide a legal determination on the County's compliance with specified requirements.

In our opinion, the County complied, in all material respects, with the aforementioned requirements for the year ended September 30, 2020.

This report is intended solely for the information and use of management and the State of Florida Auditor General, and is not intended to be and should not be used by anyone other than these specified parties.

Dear Ms. Alvarez-Sowles:

Pursuant to law, the County's Chief Financial Officer is required to file an affidavit with the County's annual audit submittal to the Auditor General, stating that the County has complied with Section 163.31801, Florida Statutes, Florida Impact Fee Act. To permit you to carry out that requirement, the Office of Management & Budget certifies Pasco County has complied.

I hereby affirm Pasco County, Florida has complied with the Florida Impact Fee Act as follows:

Section 163.31801(3), Florida Statutes - Impact fees are adopted by ordinance or by resolution of a special district.

Section 163.31801(3)(a), Florida Statutes - Impact fee calculations are based on the most recent and localized data.

Section 163.31801(3)(b), Florida Statutes - Provides for accounting and reporting of impact fee collections and expenditures. Revenues and expenditures are accounted for in a separate accounting fund.

Section 163.31801(3)(c), Florida Statutes - Administrative charges for the collection of impact fees are limited to actual costs.

Section 163.31801(3)(d), Florida Statutes - Notice is provided no less than 90 days before the effective date of an ordinance or resolution imposing a new or increased impact fee.

Should you have any questions concerning any of these points, please contact Dan Risola, Assistant Budget Director, at (727) 847-8980, Ext. 8449.

INDEPENDENT AUDITORS' REPORT

The Honorable Nikki Alvarez-Sowles, Esq.,
Clerk of Circuit Court and County Comptroller
Pasco County, Florida

Report on the Financial Statements

We have audited the accompanying financial statements of each major fund and the aggregate remaining fund information of the Pasco County Clerk of Circuit Court and County Comptroller (Clerk & Comptroller) as of and for the year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise the Clerk & Comptroller's financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of each major fund and the aggregate remaining fund information of the Clerk & Comptroller as of September 30, 2020, and the respective changes in financial position, and where applicable cash flows, thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1 to the financial statements, the financial statements referred to above were prepared solely for the purpose of complying with the Rules of the Auditor General of the State of Florida. In conformity with the Rules, the accompanying financial statements are intended to present the financial position and changes in financial position, where applicable, of each major fund, and the aggregate remaining fund information, only for that portion of the major funds, and the aggregate remaining fund information, of Pasco County, Florida that is attributable to the Clerk & Comptroller. They do not purport to, and do not, present fairly the financial position of Pasco County, Florida as of September 30, 2020, and the changes in its financial position for the fiscal year then ended in conformity with accounting principles generally accepted in the United States of America. Our opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the budgetary comparison information, as listed in the table of contents, be presented to supplement the financial statements. Such information, although not a part of the financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the financial statements, and other knowledge we obtained during our audit of the financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Clerk & Comptroller's financial statements. The supplementary information listed in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated March 12, 2021 on our consideration of the Clerk & Comptroller's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Clerk & Comptroller's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Clerk & Comptroller's internal control over financial reporting and compliance.

NOTE 1: Summary of Significant Accounting Policies

Reporting Entity

The Pasco County, Florida, Clerk of Circuit Court and County Comptroller (Clerk & Comptroller) is an elected constitutional officer as provided for by Article VIII, Section 1(d) of the Constitution of the State of Florida.

Governmental Accounting Standards Board (GASB) requires the financial statements of a reporting entity to include its component units, if any. A component unit is a legally separate organization for which the elected officials of the primary government or financial reporting entity are financially accountable. Based on the aforementioned criteria, there are no component units included in the Clerk & Comptroller's financial statements.

The financial statements include the general, special revenue, proprietary (internal service), and agency funds of the Clerk & Comptroller. These financial statements have been prepared for the purpose of complying with Section 218.39(2), Florida Statutes, and Chapter 10.550, Rules of the Auditor General – Local Governmental Entity Audits, which allows the Clerk & Comptroller to only present fund financial statements. Accordingly, due to the omission of government-wide financial statements and certain disclosures, as well as management's discussion and analysis, these financial statements do not constitute a complete presentation of the financial position of the Clerk & Comptroller as of September 30, 2020, and the changes in its financial position and its cash flows, where applicable, for the year then ended, in conformity with GASB Statement No. 34, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments, but otherwise constitute financial statements prepared in conformity with U.S. generally accepted accounting principles (GAAP).

As a constitutional officer, the financial activities of the Clerk & Comptroller are included in the Pasco County, Florida, (the County) Annual Comprehensive Financial Report.

Measurement Focus, Basis of Accounting, and Basis of Presentation

Fund financial statements report detailed information about the Clerk & Comptroller. The focus of governmental fund financial statements is on major funds rather than on reporting funds by type. Each major fund is reported in a separate column.

Governmental Funds

Governmental funds are accounted for using the flow of current financial resources measurement focus. Only current assets and current liabilities, generally, are included on the balance sheet. Operating statements for these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in fund balance. In addition to the general fund, the Clerk & Comptroller has special revenue funds to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The Clerk & Comptroller reports the following major funds, all of which are governmental:

NOTE 1: Summary of Significant Accounting Policies (Continued)

General Fund

The general fund is used to account for the general operations of the Clerk & Comptroller, and includes all transactions, which are not accounted for in another fund.

The Clerk & Comptroller's activities are classified as court related and non-court related. The Clerk & Comptroller's General Fund activity is funded through service charges for recording instruments and documents into the official records, and through appropriations from the Pasco County Board of County Commissioners (the Board). Excess appropriations at the end of the year if any, due back to the Board, are shown as a transfer out, distribution of excess appropriations to the Board of County Commissioners in the General Fund.

Special Revenue Funds

Fine and Forfeiture Fund

This special revenue fund was established to account for court related filing fees, service charges, fines, and court costs of the Clerk of Circuit Court and County Comptroller, as mandated by Sections 28.35 and 28.37, Florida Statutes.

The Fine and Forfeiture fund accounts for court related activities that are funded by the collection of charges for services, fines and forfeitures. In the event the collection of such fees does not cover expenditures of the fund, the State will fund the difference up to the annual budget authority. Revenue in this fund is restricted and is to be used exclusively for funding court related operations and, therefore, is reported as a special revenue fund.

Nonmajor Funds – Governmental

The Clerk & Comptroller reports the following nonmajor governmental funds:

The Clerk & Comptroller had the Public Records Modernization Fund, Records Modernization Article V Fund, Foreclosure Surplus Fee Fund, and Legal Resource Center Fund. Special revenue funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

Public Records Modernization Fund

This special revenue fund accounts for service charges paid to the Clerk & Comptroller, for recording instruments in the official records, which are used exclusively for equipment, personnel training, and technical assistance in modernizing the official records system, as mandated by Section 28.24(12)(d), Florida Statutes.

The Public Records Modernization fund is funded by a portion of recording fees. An additional amount is collected pursuant to Section 28.24(12)(e), Florida Statutes, and is used for funding court related functions. In addition, Section 28.37(5), Florida Statutes, mandates that 10% of all court related fines

collected by the Clerk & Comptroller shall be deposited into the Clerk & Comptroller's Public Records Modernization Trust Fund for additional court related operational needs and program enhancements.

Records Modernization Article V Fund

The Records Modernization Article V Fund primarily accounts for service charges paid to the Clerk & Comptroller, for recording instruments in the official records, which are used to fund the information technology day-to-day operations for equipment, personnel, training, and technical assistance in modernizing the official records system and court operations.

Foreclosure Surplus Fee Fund

The Foreclosure Surplus Fee Fund is monies collected from surplus resulting from the foreclosure sale, used for the purposes of educating the public as to the rights of homeowners regarding foreclosure proceedings as established by Section 45.035(2)(a), Florida Statutes.

Legal Resource Center Fund

The Legal Resource Center Fund is the amounts collected under Section 939.185, Florida Statutes and Pasco County Ordinance Section 34-9, to fund personnel and legal materials for the public as part of a law library managed by the Clerk & Comptroller.

Proprietary Fund

Proprietary funds are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services, and from producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Internal Service Fund

This fund is used to account for the health insurance services provided to departments of the Clerk & Comptroller on a cost reimbursement basis. The operating revenues of the Clerk & Comptroller's internal service fund are charges for services to other funds. Operating expenses of this fund include claims payments and other contracted services. Transfers from the general fund and fine and forfeiture fund to the internal service fund occur when expenditures in the internal service fund exceed revenues.

Fiduciary Funds

Agency Funds

These funds are used to account for assets held by the Clerk & Comptroller in a custodial capacity for individuals, private organizations, and other governments. Agency funds (assets equal liabilities), do not involve measurement of results of operations or have a measurement focus. Agency funds are accounted for using the accrual basis of accounting.

Basis of Accounting

The modified accrual basis of accounting is used by governmental funds. Under the modified accrual basis of accounting, revenue is recognized when susceptible to accrual (i.e., when it becomes measurable and available to finance liabilities of the current fiscal year). For this purpose, the Clerk & Comptroller considers revenues to be available if they are collected within sixty days of the end of the current period. Expenditures are recorded when the related fund liability is incurred, except for certain compensated absences, which are recognized as expenditures to the extent they have matured.

Interest income and other revenue are recognized as they are earned and become measurable and available to pay liabilities of the current period.

The general operations of the Clerk & Comptroller are funded principally by fees from third parties and appropriations from the Board. The appropriations from the Board are presented in the Clerk & Comptroller's financial statements as transfers in.

Florida Statutes provide that, in those years when there exists an excess of revenues and other financing sources over expenditures, other uses, and encumbrances held by the Clerk & Comptroller at fiscal year end, such excess is to be distributed to the Board immediately following the fiscal year during which other revenues were recognized. The amount of such excess appropriations at the end of a fiscal year is recorded as a liability and as other financing use in the accompanying financial statements.

Capital outlays expended in governmental fund operations are capitalized in the basic financial statements of the Board rather than in the governmental funds of the Clerk & Comptroller.

Cash and Cash Equivalents

Cash balances are pooled for investment purposes, with the exception of some minor balances. Interest earned from pooled cash is allocated to the respective funds based on each fund's average equity in the pooled fund.

For purposes of the statement of cash flows, the Clerk & Comptroller considers highly liquid investments with a maturity of three months or less when purchased to be cash and cash equivalents.

NOTE 1: Summary of Significant Accounting Policies (Continued)

The Clerk & Comptroller invests excess public funds pursuant to the guidelines established in Section 218.415, Florida Statutes, which authorizes investments in the following instruments: The Local Government Surplus Funds Trust Fund; Securities and Exchange Commission registered money market funds with the highest credit quality rating; savings accounts and certificates of deposit in qualified public depositories; and direct obligations of the U.S. Treasury. The Clerk & Comptroller participates in Florida PRIME, the local government investment pool of the Florida State Board of Administration (SBA), and the Florida Local Government Investment Trust (Florida Trust), the local government investment pool developed through the joint efforts of the Florida Court Clerks and Comptrollers and the Florida Association of Counties.

Inventories and Prepaid Items

Inventories consist of expendable supplies held for consumption in the course of Clerk operations. Inventories are stated at cost based upon the actual date of purchase and remaining value of the inventories at time of consumption. The costs of inventories are recorded as expenditures at the time of consumption rather than when purchased.

Accounts Payable and Other Liabilities

Accounts payable in the governmental funds result from transactions with various vendors and agencies. Amounts due to Board of County Commissioners are due to Pasco County. Other due to, including governmental units, are amounts due to entities other than the county. The Clerk & Comptroller's Office establishes escrow deposit accounts for customers to render certain services as provided under Florida Law, and shall make charges for such services against the customer's escrow account. All amounts included in the escrow account may be maintained by the Clerk & Comptroller's Office in an interest-bearing account and all interest earnings on said accounts shall be retained by the Clerk & Comptroller's Office as revenue to defray costs associated with services provided.

Fund Balance

The Clerk & Comptroller's Office follows the provisions of GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions to classify fund balances for governmental funds into specifically defined classifications. The classifications comprise a hierarchy based primarily on the extent to which the Office is bound to honor constraints on the specific purposes for which amounts in the funds can be spent.

Starting with the most restrictive constraints, fund balance amounts will be reported in the following classifications:

Nonspendable Fund Balance – Nonspendable fund balances are amounts that cannot be spent because they are either: (a) not in spendable form or (b) legally or contractually required to be maintained intact.

Restricted Fund Balance – Restricted fund balances are restricted when constraints placed on the use of resources are either: (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

NOTE 1: Summary of Significant Accounting Policies (Continued)

Committed Fund Balance – Committed fund balances are amounts that can only be used for specific purposes as a result of constraints imposed by formal action of the Clerk & Comptroller's Office highest level of decision making authority, or by designee to whom the Clerk & Comptroller's Office delegates authority. Committed amounts cannot be used for any other purpose unless the Office removes those constraints by taking the same type of action.

Assigned Fund Balance – Assigned fund balances are amounts that are constrained by the Office's intent to be used for specific purposes, but are neither restricted nor committed.

Intent is expressed by (a) the constitutional officer or (b) a body or official to which the constitutional officer has delegated the authority to assign amounts to be used for specific purposes.

Unassigned Fund Balance – Unassigned fund balance is the residual classification for the General Fund.

The Clerk & Comptroller's Office policy is to expend resources in the following order: restricted, committed, assigned, and unassigned.

Interfund Transfers

Transfers are used to distribute amounts to funds that are underfunded due to insufficient revenue streams. Amounts transferred between funds for the fiscal year ended September, 30, 2020 were as follows:

	Transfers In	Transfers Out
Major Funds:		
General Fund	\$ -	\$ 4,175,721

Use of Estimates

The preparation of the financial statements in accordance with U.S. GAAP requires management of the Clerk & Comptroller to make estimates and assumptions that affect the amounts reported in the financial statements and the accompanying notes. Actual results could differ from those estimates.

Subsequent Events

Management has evaluated subsequent events through the date that the financial statements were available to be issued, March 12, 2021, and determined there were no events that occurred that required disclosure. No subsequent events occurring after this date have been evaluated for inclusion in these consolidated financial statements.

NOTE 2: Budgetary Process

The portion of the annual operating budget of the Clerk & Comptroller that is funded through an appropriation from the Board is submitted to the Board for approval. Consequently, funding for the operations of the Clerk & Comptroller is provided from general revenues of the Board and is supplemented by fees charged by the Clerk & Comptroller pursuant to Florida Statutes.

Pursuant to Section 28.36, Florida Statutes, a balanced court related budget must be prepared on or before October 1 and submitted to the Florida Clerks of Court Operations Corporation (the Corporation). The Corporation shall complete its review and adjustments to the various clerks' budget requests and make its recommendations to the Legislature and Supreme Court by December 1 each year.

The budget for the general fund, and special revenue funds, except for the foreclosure surplus fee funds, which are not budgeted, are prepared in accordance with GAAP.

The annual budget serves as the legal authorization for expenditures. Any subsequent amendments to the Clerk & Comptroller's appropriation funded by the Board must be approved by the Board, and any subsequent amendments of the court related budget must be approved by the Corporation. Expenditures may not legally exceed appropriations at the fund level. Budgetary control is maintained at the fund level. Budgetary changes within major object expenditure categories are made at the discretion of the Clerk & Comptroller. The original budget is the first complete appropriated budget. The final budget is the original budget adjusted by all supplemental appropriations and other legally authorized changes applicable to the fiscal year, whenever legally authorized.

NOTE 3: Cash and Cash Equivalents

At September 30, 2020, the carrying value of the Clerk & Comptroller's cash and cash equivalents was as follows:

<u>Type</u>	<u>Carrying Value</u>	<u>Credit Rating</u>	<u>Maturities</u>
Cash and cash equivalents:			
Cash on hand	\$ 21,150	N/A	N/A
Demand Deposits	12,614,286	N/A	N/A
Florida PRIME	8,763,405	AAAm	48 days
Florida Trust	<u>6,078,052</u>	AAAm	27.33 days
Total cash and cash equivalents	<u>\$ 27,476,893</u>		

Such amounts are reported as \$7,459,562, \$6,273,230, \$13,744,101 and in the governmental funds, internal service fund, and agency funds, respectively.

Fair Value Measurement

As required by GASB Statement No. 72, Fair Value Measurement and application, the Clerk & Comptroller categorizes its assets and liabilities carried at fair value within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on valuation inputs used to measure the fair value of the asset. Level I inputs are quoted market prices in active markets for identical assets; Level II inputs are significant other observable inputs; Level III inputs are significant unobservable inputs. The Clerk & Comptroller has no assets or liabilities that are carried at fair value that are subject to the leveling disclosures.

Custodial Credit Risk

At September 30, 2020, the Clerk & Comptroller's deposits were entirely covered by federal depository insurance or by collateral pledged with the State Treasurer pursuant to Chapter 280, Florida Statutes. Under this chapter, in the event of default by a participating financial institution (a qualified public depository), all participating institutions are obligated to reimburse the governmental entity for the loss.

Credit Risk

The Clerk & Comptroller's policy is to follow the guidance in Sections 219.075 and 218.415, Florida Statutes. Investment transactions are limited to qualified public depositories, Florida PRIME, an external investment pool administered by the Florida State Board of Administration (SBA), and the Florida Local Government Investment Trust, an authorized investment under Section 218.415(16)(a), Florida Statutes and is an intergovernmental investment pool created by interlocal agreement under Section 163.01, Florida Statutes.

NOTE 3: Cash and Cash Equivalents (Continued)

Interest Rate Risk

The Clerk & Comptroller's investment maturities are less than five years. As of September 30, 2020, the only investments held by the Clerk & Comptroller were Florida PRIME and the Florida Local Government Investment Trust, which are treated as cash equivalents. These investments are in compliance with Sections 219.075 and 218.415, Florida Statutes.

NOTE 4: Risk Management

The Clerk & Comptroller is exposed to various risks of loss, including, but not limited to, general liability, auto liability, and workers' compensation. The County has established a risk management program to self-insure claims against the Board and the constitutional officers for various risks. The Clerk & Comptroller participates in the County's risk management program.

The County has worker's compensation insurance with a \$750,000 deductible per occurrence for all claims. The County's general liability insurance has \$500,000 retention per claim with \$1,000,000 coverage per occurrence and \$2,000,000 aggregate. Negligence claims in excess of the statutory limits set in Section 768.28, Florida Statutes, which provide for limited sovereign immunity of \$100,000/\$200,000 per occurrence can only be recovered through an act of the State Legislature. Effective October 1, 2011, sovereign immunity limits were increased to \$200,000 per claim and \$300,000 per occurrence for claims incurred after that date. All liabilities associated with these self-insured risks are reported in the basic financial statements of the County.

The Clerk & Comptroller has an insurance fund that accounts for a self-insured plan for employee group dental, vision, and for premiums paid to the County's self-insured plan for health and prescription drugs. As of September 30, 2020, the insurance fund had \$6,271,158 of available net assets to fund claims liabilities and insurance premiums paid to the County's self-insured fund. The claims liability of \$40,288 reported in the Internal Service fund Statement of Net Position at September 30, 2020 is based on the provisions of GASB Statement No. 10, Accounting and Financial Reporting for Risk Financing and Related Insurance Issues, which requires that a liability for unpaid claims costs, including estimates of costs related to incurred but not reported claims, be accrued when insured events occur.

Changes in claims liability amounts during the past two fiscal years are as follows:

	<u>Balance, October 1,</u>	<u>New Claims and Changes in Estimates</u>	<u>Claim Payments</u>	<u>Balance, September 30,</u>
Fiscal year:				
2019	\$ 490,925	4,362,804	4,337,777	\$ 515,952

NOTE 5: Claims and Contingencies

Federal and State Grants

Grant funds received by the Clerk & Comptroller are subject to audit by grantor agencies. Audits of these grants may result in disallowed costs, which may constitute a liability of the Clerk & Comptroller. In the opinion of management, disallowed costs, if any, would be immaterial to the financial position of the Clerk & Comptroller.

Litigation

The Clerk & Comptroller is involved as defendant or plaintiff in certain litigation and claims arising from the ordinary course of operations. Any judgments against the Clerk & Comptroller would be settled by the Board. In the opinion of the Clerk & Comptroller and legal counsel, the range of potential recoveries or liabilities will not materially affect the financial position of the Clerk & Comptroller.

MANAGEMENT LETTER

The Honorable Nikki Alvarez-Sowles, Esq.,
Clerk of Circuit Court and County Comptroller
Pasco County, Florida

Report on the Financial Statements

We have audited the financial statements of the Pasco County Clerk of Circuit Court and County Comptroller (Clerk & Comptroller), as of and for the year ended September 30, 2020, and have issued our report thereon dated March 12, 2021.

Auditors' Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and Chapter 10.550, Rules of the Auditor General.

Other Reporting Requirements

We have issued our Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of the Financial Statements Performed in accordance with *Government Auditing Standards*, and Independent Accountants' Reports on examinations conducted in accordance with *AICPA Professional Standards*, AT-C Section 315 regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports, which are dated March 12, 2021, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.554.(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial report. Corrective action has been taken to address findings and recommendations made in the preceding annual financial report.

Financial Management

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Additional Matters

Section 10.554(1)(i)3., Rules of the Auditor General, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with our audit, we did not note any such findings.

Purpose of this Letter

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

The Honorable Nikki Alvarez-Sowles, Esq.,
Clerk of Circuit Court and County Comptroller
Pasco County, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of each major fund and the aggregate remaining fund information of the Pasco County Clerk of Circuit Court and County Comptroller (Clerk & Comptroller), as of and for the year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise the Clerk & Comptroller's financial statements, and have issued our report thereon dated March 12, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Clerk & Comptroller's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Clerk & Comptroller's internal control. Accordingly, we do not express an opinion on the effectiveness of the Clerk & Comptroller's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Clerk & Comptroller's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Clerk & Comptroller's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Clerk & Comptroller's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE WITH
SECTION 218.415, FLORIDA STATUTES**

The Honorable Nikki Alvarez-Sowles, Esq.,
Pasco County Clerk of Circuit Court and County Comptroller
Pasco County, Florida

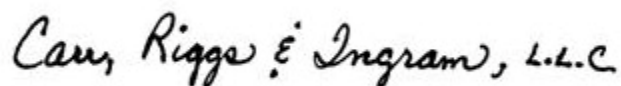

We have examined the Pasco County Clerk of Circuit Court and County Comptroller's (Clerk & Comptroller) compliance with the requirements of Section 218.415, Florida Statutes, *Local Government Investment Policies*, during the year ended September 30, 2020. Management of the Clerk & Comptroller is responsible for the Clerk & Comptroller's compliance with the specified requirements. Our responsibility is to express an opinion on the Clerk & Comptroller's compliance with the specified requirements based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the Clerk & Comptroller complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether the Clerk & Comptroller complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Our examination does not provide a legal determination on the Clerk & Comptroller's compliance with specified requirements.

In our opinion, the Clerk & Comptroller complied, in all material respects, with the requirements of Section 218.415, Florida Statutes, *Local Government Investment Policies*, for the year ended September 30, 2020.

This report is intended solely for the information and use of management and the State of Florida Auditor General, and is not intended to be and should not be used by anyone other than these specified parties.

FINANCIAL SECTION

INDEPENDENT AUDITORS' REPORT

Honorable Mike Wells
Property Appraiser
Pasco County, Florida

Report on the Financial Statements

We have audited the accompanying financial statements of the major fund of the Pasco County, Florida Property Appraiser as of and for the fiscal year ended September 30, 2020, and the related notes to the financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the major fund of the Pasco County, Florida Property Appraiser as of September 30, 2020, and the changes in financial position thereof for the year then ended in accordance with accounting principles generally in the United States of America.

Emphasis of Matter

As discussed in Note 1 to the financial statements, the financial statements referred to above were prepared solely for the purpose of complying with the Rules of the Auditor General of the State of Florida. In conformity with the Rules, the accompanying financial statements are intended to present the financial position and changes in financial position of the major fund only for that portion of the major fund of Pasco County, Florida that is attributable to the Property Appraiser. They do not purport to, and do not, present fairly the financial position of Pasco County, Florida as of September 30, 2020 and the changes in its financial position for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to these matters.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Budgetary Comparison Schedule – General Fund, as listed in the table of contents, be presented to supplement the financial statements. Such information, although not a required part of the financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the financial statements, and other knowledge we obtained during our audit of the financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued a report dated March 18, 2021 on our consideration of the Pasco County, Florida Property Appraiser's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, rules, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Pasco County, Florida Property Appraiser's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Pasco County, Florida Property Appraiser's internal control over financial reporting and compliance.

Property Appraiser
Notes to Financial Statements

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Pasco County, Florida Property Appraiser (the “Property Appraiser”), founded in 1887, is an elected constitutional officer as provided for by the Constitution of the State of Florida. Pursuant to Chapter 195.087, Florida Statutes, the Property Appraiser’s budget is submitted to the Florida Department of Revenue for approval and a copy is forwarded to the Pasco County Board of County Commissioners (the Board).

As an elected official of Pasco County, Florida (the “County”), the Property Appraiser is charged with the responsibility to determine the taxable value of all real and tangible property within the County, maintain associated financial and property records, and providing the Pasco County Tax Collector with the certified value of real and tangible property and tax millages levied by the respective taxing authorities.

Reporting Entity

The Property Appraiser’s financial statements have been prepared solely for the purpose of complying with the Rules of the Auditor General of the State of Florida (the “Rules”). These financial statements are the fund financial statements required by generally accepted accounting principles. However, these fund statements do not constitute a complete presentation because, in conformity with the Rules, the Property Appraiser has not presented reconciliations to the government-wide financial statements, the government-wide financial statements, management’s discussion and analysis, or the pension or the other post-employment benefit related required supplementary information. Also, certain notes to the financial statements may supplement rather than duplicate the notes included in the County’s countywide financial statements. In conformity with the Rules, the accompanying financial statements are intended to present the financial position and changes in financial position, where applicable, of the major fund, only for that portion of the major fund, of Pasco County, Florida, that is attributable to the Property Appraiser. They do not purport to, and do not, present fairly the financial position of Pasco County, Florida, as of September 30, 2020, and the changes in its financial position, for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

Pasco County, Florida
Property Appraiser
Notes to Financial Statements

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Fund Financial Statements

The Property Appraiser's only governmental fund is the general fund. The general fund is used to account for the general operations of the Property Appraiser.

Substantially, all of the Property Appraiser's inflow of resources are received from taxing authorities. These moneys are unrestricted and are revocable only for failure to comply with prescribed compliance requirements. These resources are reflected as revenues at the time of receipt; earlier if the "susceptible to accrual" criteria are met.

Interest income and other revenue are recognized as they are earned and become measurable and available to pay liabilities of the current period.

Florida Statutes provide that the amount by which revenues and transfers exceed annual expenditures be remitted to the Board immediately following the fiscal year during which the other revenues were recognized.

Florida Statutes further provide that the excess of revenues over expenditures held by the Property Appraiser be distributed to each governmental agency in the same proportion as the fees paid by each governmental agency bear to total fee revenues. The amount of this distribution is recorded as a liability and as another financing use in the accompanying financial statements.

Budgetary Information

Budgetary basis of accounting

Section 195.087, Florida Statutes, governs the preparation, adoption, and administration of the Property Appraiser's annual budget. The Property Appraiser prepares a budget for the general fund and submits it to the Florida Department of Revenue for approval. Any subsequent amendments to the total budget must be approved by the Florida Department of Revenue.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Budgetary Information (Continued)

Budgetary basis of accounting (Continued)

The budget for the general fund is prepared on a basis consistent with U.S. generally accepted accounting principles. The annual budget serves as the legal authorization for expenditures. Budgetary control is maintained at the major object expenditure level.

Expenditures may not legally exceed appropriations at the fund level and appropriations lapse at year-end. Budgetary changes within major object expenditure categories are made at the discretion of the Property Appraiser.

The original budget is the first complete appropriated budget. The final budget is the original budget adjusted by all reserves, transfers, allocations, supplemental appropriations, and other legally authorized changes applicable to the fiscal year, whenever legally authorized.

Assets, Liabilities, and Fund Balance

Cash and Cash Equivalents

The Property Appraiser's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Payables

Accounts payable are recorded on the modified accrual basis in the general fund. Under the modified accrual basis, expenditures are recorded when the fund liability is incurred and due.

Compensated Absences

All full-time employees of the Property Appraiser are entitled to paid time off (PTO) and major medical leave. The employees are generally allowed to accumulate PTO with an unlimited amount of hours that can be carried into the next fiscal year. Major medical leave is accrued at a maximum of 80 hours per year and is the maximum amount that can be used during the year. PTO and major medical leave payments are included in personal services expenditures when the payments are made to the employees. The liability for compensated absences is not reported in the general fund, but rather is reported in the basic financial statements of the Board.

Notes to Financial Statements

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make various estimates. Actual results could differ from those estimates.

Subsequent Events

Management has evaluated subsequent events through the date that the financial statements were available to be issued, March 18, 2021 and determined there were no events that occurred that required disclosure. No subsequent events occurring after this date have been evaluated for inclusion in these consolidated financial statements.

Note 2: DETAILED NOTES ON ALL FUNDS

Deposits

As of September 30, 2020, a portion of the Property Appraiser’s bank balances is covered by federal depository insurance (FDIC). Monies invested in amounts greater than the insurance coverage are secured by the qualified public depositories pledging securities with the State Treasurer in such amounts required by the Florida Security for Public Depositories Act. In the event of a default or insolvency of a qualified public depositor, the State Treasurer will implement procedures for payment of losses according to the validated claims of the Property Appraiser pursuant to Section 280.08, Florida Statutes.

At September 30, 2020, the carrying value of the Property Appraiser’s cash and cash equivalents was as follows:

Type	Carrying Value
Cash on hand	\$ 126
Demand deposits	24,925
Money market account	488,856
Total cash and cash equivalents	\$ 513,907

Custodial credit risk – Custodial credit risk for deposits is the risk in the event of the failure of a depository financial institution a government may not be able to recover deposits. Monies placed on deposit with financial institutions in the form of demand deposits, time deposits or certificate of deposits are defined as public deposits. The financial institutions in which the Property Appraiser places its deposits are certified as “qualified public depositories,” as required under the Florida Security for Public Deposits Act. For an investment, this is the risk that, in the event of the failure of the counterparty, the Property Appraiser will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

Pasco County, Florida
Property Appraiser
Notes to Financial Statements

Note 2: DETAILED NOTES ON ALL FUNDS

Deposits (Continued)

Interest rate risk – Interest rate risk is the possibility that interest rates will rise and reduce the fair value of an investment. The Property Appraiser’s investment policy limits interest rate risk by requiring that an attempt be made to match investment maturities with known cash needs and anticipated cash flow requirements. In addition, investments of current operating funds are required to have maturities of no longer than twelve months.

Credit risk – Section 150: *Investments* of the GASB Codification requires that governments provide information about credit risk associated with their investments by disclosing the credit rating of investments in debt securities as described by nationally recognized statistical rating organizations. The Property Appraiser’s investment policy limit investments to securities with specific ranking criteria.

The Property Appraiser has no written investment policy and therefore follows the guidance in Section 219.075, Florida Statutes, regarding the deposit of funds received and the investment of surplus funds. Sections 219.075 and 218.415, Florida Statutes, authorize the Property Appraiser to invest in the Local Government Surplus Funds Trust Fund or any intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperation Act; Securities and Exchange Commission registered money market funds with the highest credit quality rating from a nationally recognized rating agency; and direct obligations of the U.S. Treasury. Additionally, Florida Statutes allow local governments to place public funds in interest bearing time deposits or savings accounts in qualified public depositories that participate in a collateral pool under the Florida Security for Public Deposits Act (Section 280.02 Florida Statutes).

Note 3: RISK MANAGEMENT

Pasco County (the County) is exposed to various risks of loss, including but not limited to general liability, auto liability, and workers’ compensation. The County is substantially self-insured and accounts for and finances its risks of uninsured loss through an internal service fund. The Property Appraiser participates in the County’s risk management program. All liabilities associated with these self-insured risks are reported in the basic financial statements of the Board.

Pasco County, Florida
Property Appraiser
Notes to Financial Statements

Note 3: RISK MANAGEMENT (Continued)

The County has general liability insurance with \$500,000 retention per claim with \$1,000,000 retention limit per occurrence and \$2,000,000 aggregate. Negligence claims in excess of the statutory limits set in Section 768.28, Florida Statutes, which provide for limited sovereign immunity of \$100,000/\$200,000 per occurrence, can only be recovered through an act of the State Legislature. Effective October 1, 2011, sovereign immunity limits were increased to \$200,000 per claim and \$300,000 per occurrence for claims incurred after that date. The County had workers' compensation insurance with a \$650,000 deductible per occurrence for police/fire, and a \$500,000 deductible per occurrence for all others. Settlements have not exceeded coverage in any of the past three fiscal years. All liabilities associated with these self-insured risks are reported in the basic financial statements of the County.

Note 4: RELATED PARTY TRANSACTIONS

During the year ended September 30, 2020, the Board provided funding for the Property Appraiser that amounted to \$5,721,538. At September 30, 2020, the Property Appraiser has a receivable due from the Board of \$125,854 related to Truth in Millage ("TRIM") notice expense reimbursements and a payable due to the Board of \$485,890 related to the distribution of excess commissions.

Note 5: COMMITMENTS AND CONTINGENCIES

In March 2020, the World Health Organization made the assessment that the outbreak of a novel coronavirus (COVID-19) can be characterized as a pandemic. As a result, uncertainties have arisen that may have a significant negative impact on the operating activities and results of the Property Appraiser. The occurrence and extent of such an impact will depend on future developments, including (i) the duration and spread of the virus, (ii) government quarantine measures, (iii) voluntary and precautionary restrictions on travel or meetings, (iv) the effects on the financial markets, and (v) the effects on the economy overall, all of which are uncertain.

The Property Appraiser is involved as defendant or plaintiff in certain litigation and claims arising from the ordinary course of operations, primarily relating to challenges on property value assessments. Any judgments against the Property Appraiser would be settled by the Board. In the opinion of the Property Appraiser and legal counsel, the range of potential recoveries or liabilities will not materially affect the financial position of the Property Appraiser.

Property Appraiser
Pasco County, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the general fund of the Pasco County, Florida Property Appraiser ("Property Appraiser"), as of and for the year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise the Property Appraiser's basic financial statements, and have issued our report thereon dated March 18, 2021, which contains an emphasis of matter to refer to a basis of accounting required for compliance with state filing requirements, however, our report was not modified with respect to this matter.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Property Appraiser's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Property Appraiser's internal control. Accordingly, we do not express an opinion on the effectiveness of the Property Appraiser's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Property Appraiser's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

MANAGEMENT LETTER

Honorable Mike Wells
Property Appraiser
Pasco County, Florida

Report on the Financial Statements

We have audited the financial statements of the Pasco County, Florida Property Appraiser ("Property Appraiser"), as of and for the year ended September 30, 2020, and have issued our report thereon dated March 18, 2021, which contain an emphasis of matter to refer to a basis of accounting required for compliance with state filing requirements however, our report was not modified with respect to this matter.

Auditors' Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and Chapter 10.550, Rules of the Auditor General.

Other Reporting Requirements

We have issued our Independent Auditors' Report on Internal Control over Financial Reporting and Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards*; and Independent Accountants' Report on an examination conducted in accordance with *AICPA Professional Standards*, AT-C 315, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports and schedule, which are dated March 18, 2021, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. Corrective actions have been taken to address all findings and recommendations made in the preceding annual financial audit report.

Official Title and Legal Authority

Section 10.554(1)(i)4., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. The Pasco County, Florida Property Appraiser was established by the Constitution of the State of Florida, Article VIII, Section 1(d). The Pasco County Property Appraiser does not have any component units.

Financial Management

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Additional Matters

Section 10.554(1)(i)3., Rules of the Auditor General, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with our audit, we did not note any such findings

Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, the Pasco County, Florida Property Appraiser, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT ACCOUNTANTS' REPORT

Honorable Mike Wells
Property Appraiser
Pasco County, Florida

We have examined the Pasco County, Florida Property Appraiser's ("Property Appraiser") compliance with Section 218.415, Florida Statutes, regarding the investment of public funds during the year ended September 30, 2020. Management is responsible for the Property Appraiser's compliance with those requirements. Our responsibility is to express an opinion on the Property Appraiser's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the Property Appraiser complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether the Property Appraiser complied with the specified requirements. The nature, timing and extent of the procedures selected depend on our judgement, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Our examination does not provide a legal determination on the Property Appraiser's compliance with specified requirements.

In our opinion, the Property Appraiser complied, in all material respects, with Section 218.415, Florida Statutes, regarding the investment of public funds during the year ended September 30, 2020.

This report is intended solely for the information and use of the Property Appraiser and the Auditor General, State of Florida and is not intended to be, and should not be, used by anyone other than these specified parties.

REPORT

INDEPENDENT AUDITORS' REPORT

Honorable Chris Nocco
Sheriff
Pasco County, Florida

Report on the Financial Statements

We have audited the accompanying financial statements of each major fund and the aggregate remaining fund information of the Pasco County, Florida Sheriff (the Sheriff) as of and for the fiscal year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise the Sheriff's financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of each major fund and the aggregate remaining fund information of the Pasco County, Florida Sheriff as of September 30, 2020, and the respective changes in financial position for the year then ended in accordance with U.S. generally accepted accounting principles.

Emphasis of Matter

As discussed in Note 1 to the financial statements, the financial statements referred to above were prepared solely for the purpose of complying with the Rules of the Auditor General of the State of Florida. In conformity with the Rules, the accompanying financial statements are intended to present the financial position and changes in financial position of each major fund and the aggregate remaining fund information, only for that portion of the major funds and the aggregate remaining fund information, of Pasco County, Florida that is attributable to the Sheriff. They do not purport to, and do not, present fairly the financial position of Pasco County, Florida as of September 30, 2020 and the changes in its financial position for the fiscal year then ended in conformity with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to these matters.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Schedule of Revenues, Expenditures, and Changes in Fund Balance – Budget and Actual – General Fund, as listed in the table of contents, be presented to supplement the financial statements. Such information, although not a required part of the financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the financial statements, and other knowledge we obtained during our audit of the financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Sheriff's financial statements. The supplementary information listed in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued a report dated April 19, 2021, on our consideration of the Pasco County, Florida Sheriff's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, rules, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Sheriff's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Sheriff's internal control over financial reporting and compliance.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The Pasco County, Florida Sheriff (the Sheriff) is an elected constitutional officer as provided for by the Constitution of the State of Florida. Pursuant to Chapter 129, *Florida Statutes*, the Sheriff's budget is submitted to the Pasco County, Florida Board of County Commissioners (the Board) for approval.

The Sheriff is the chief law enforcement officer of Pasco County, Florida (the County) and is responsible for operating the County's corrections facilities. The financial statements include the general fund, special revenue funds, internal service fund, and agency funds of the Sheriff's office. The accompanying financial statements were prepared for the purpose of complying with Section 218.39, *Florida Statutes*, and Section 10.557(3), *Rules of the Auditor General for Local Governmental Entity Audits*.

The Sheriff's financial statements have been prepared solely for the purpose of complying with the Rules of the Auditor General of the State of Florida (Rules). These financial statements are the fund financial statements required by generally accepted accounting principles. However, these fund statements do not constitute a complete presentation because, in conformity with the Rules, the Sheriff has not presented reconciliations to the government-wide financial statements, the government-wide financial statements, management's discussion and analysis, pension and other post-employment benefit related required supplementary information. Also, certain notes to the financial statements may supplement rather than duplicate the notes included in the County's countywide financial statements. In conformity with the Rules, the accompanying financial statements are intended to present the financial position and changes in financial position, where applicable, of each major fund and the aggregate remaining fund information, only for that portion of each major fund and the aggregate remaining fund information, of the Pasco County, Florida, that is attributable to the Sheriff. They do not purport to, and do not, present fairly the financial position of Pasco County, Florida, as of September 30, 2020, and the changes in its financial position, where applicable, for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

The financial activities of the Sheriff, as a constitutional officer, are included in Pasco County, Florida's Comprehensive Annual Financial Report.

Measurement Focus, Basis of Accounting, and Basis of Presentation

Fund financial statements report detailed information about the Sheriff. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is reported in a separate column.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus, Basis of Accounting, and Basis of Presentation (Continued)

Governmental Funds

Governmental funds are accounted for using the flow of current financial resources measurement focus. Only current assets and current liabilities, generally, are included on the balance sheet.

Operating statements for these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets. The Sheriff reports the following major governmental funds:

General Fund – The general fund is used to account for the general operations of the Sheriff and includes all transactions, which are not accounted for in another fund.

Child Protective Services Fund – This fund accounts for funding provided by the Department of Children and Family Services necessary for the Sheriff to assume responsibility for protective services. Funds can only be expended in accordance with the agreement with the state.

Commissary Fund – This fund accounts for the receipts and disbursement of the Sheriff's Commissary activity.

The Sheriff also has 37 nonmajor special revenue funds, the majority of which account for various individual grants.

The modified accrual basis of accounting is used by governmental funds. Under the modified accrual basis of accounting, revenue is recognized when susceptible to accrual (i.e., when they become measurable and available to finance liabilities of the current fiscal year). For this purpose, with the exception of grants, the Sheriff considers revenues to be available if they are collected within 60 days of the end of the current period. Grant revenues are considered available if collected within one year of the current period. Expenditures are recorded when the related fund liability is incurred, except for certain compensated absences, which are recognized as expenditures to the extent they have matured.

Substantially all of the Sheriff's funding is appropriated by the Board. In applying the susceptible to accrual concept to intergovernmental revenue, there are essentially two types of revenue. In one, moneys must be expended on the specific purpose or project before any amounts will be paid to the Sheriff; therefore, revenue is recognized based upon the expenditures incurred. Grant revenue is recorded in this manner. In the other, moneys are virtually unrestricted and are revocable only for failure to comply with prescribed compliance requirements. These resources are reflected as revenue at the time of receipt, or earlier, if the "susceptible to accrual" criteria are met.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus, Basis of Accounting, and Basis of Presentation (Continued)

Governmental Funds (Continued)

Charges for services, interest income, and other revenue are recognized as they are earned and become measurable and available to pay liabilities of the current period.

Florida Statutes provide that the amount by which revenues and transfers exceed annual expenditures be remitted to the Board immediately following the fiscal year for which the funding was provided or following the fiscal year during which other revenue was recognized. The amount of this distribution is recorded as a liability and as another financing use in the accompanying financial statements.

Proprietary Funds

Proprietary funds are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services, and from producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The Sheriff has one proprietary fund.

Internal Service Fund – This fund is used to account for the health insurance services provided to departments of the Sheriff's Office on a cost-reimbursement basis. The operating revenues of the Sheriff's internal service fund are charges for services to other funds. Operating expenses of this fund include claims payments and other contracted services.

Fiduciary funds

Agency Funds – These funds are used to account for assets held by the Sheriff in a trustee capacity or as an agent for individuals, private organizations, and other governments. Agency funds do not involve measurement of results of operations or have a measurement focus (assets equal liabilities). Agency funds are accounted for using the accrual basis of accounting.

Cash and Equity in Pooled Cash

Cash balances are pooled for investment purposes, with the exception of some special revenue and agency funds. Interest earned from pooled cash is allocated to the respective funds based on each fund's average equity in the pooled fund.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Inventory

The general fund maintains inventories of supplies, uniforms, and accessories, which are stated at cost. Inventory items are considered expenditures when they are used (consumption method).

Inventory also consists of materials and supplies used in the inmate commissary major special revenue fund operations, which are stated at cost, determined in accordance with the specific-identification method. The cost is recorded as an expenditure at the time of purchase (purchase method).

Reported inventory, based on physical inventory of supplies on hand at September 30, 2020, does not constitute an available expendable resource and, thus, is reflected in nonspendable fund balance.

Deficit Fund Balances

The deficit fund balances in the Confiscation Fund, Pasco Task Force, Bulletproof Vest Program, Pasco HIDTA Task Force, InVEST, Florida Job Growth, JAG Gang Suppression XI, Varnadoe Forensics, OD2A, CESF, ODMAP, and COPS nonmajor special revenue funds are a result of timing differences between accruing expenses at year-end and requesting reimbursement from the respective granting agencies. Therefore, the Sheriff will fund the deficit through future billings to the granting agency.

Compensated Absences

The Sheriff's employees accumulate annual leave based on years of continuous service. Upon termination of employment, employees can receive payment for accumulated leave time, if they meet certain criteria. Payments for accumulated leave time are included in operating costs when the payments are made to employees. The liability for compensated absences is not reported in the governmental funds but rather is reported in the basic financial statements of the County.

Advances

During the year ended September 30, 2015, the Board of County Commissioners advanced \$1,534,000 to the Sheriff for the purpose of establishing the health insurance internal service fund. Such amounts remain outstanding at September 30, 2020, do not accrue interest and are expected to be repaid with future savings of the fund.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates

The preparation of the financial statements requires management of the Sheriff to make a number of estimates and assumptions relating to the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

Fund Balance Classification

The Sheriff follows the provisions of GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions* (GASB 54). GASB 54 established a fund balance classification hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. Fund balances are differentiated between those amounts that are nonspendable and spendable. Further, spendable fund balances are classified as restricted, committed, assigned, or unassigned.

The classifications are as follows:

Nonspendable Fund Balance – Amounts that are not in spendable form (such as inventory and prepaid items), or are legally or contractually required to be maintained intact.

Restricted Fund Balance – Amounts that can be used only for the specific purposes stipulated by (a) external resource providers such as creditors, grantors, contributors, or laws and regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

Committed Fund Balance – Amounts that can be used only for the specific purposes determined by a formal action (ordinance or resolution) by the Board of County Commissioners, with formal action occurring prior to fiscal year end. Commitments may be changed or removed only by the Commissioners taking the same formal action (resolution) that imposed the constraint originally.

Assigned Fund Balance – Includes spendable fund balance amounts established by the Sheriff or his designee that are intended to be used for specific purposes that are neither considered restricted or committed.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund Balance Classification (Continued)

Unassigned Fund Balance – This is the residual classification for the General Fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the General Fund. Unassigned fund balance may also include the negative balance for any governmental fund, except the General Fund, if expenditures exceed amounts restricted, committed, or assigned for those specific purposes.

When both restricted and unrestricted fund balances are available for expenditure, the Sheriff considers available restricted amounts to have been spent first. Further, when assigned or unassigned funds are available for expenditure, the Sheriff considers available assigned amounts to have been spent first. Assigned fund balances can be authorized by management as long as the assignment relates to an authorized budget expenditure.

Subsequent Events

Management has evaluated subsequent events through the date that the financial statements were available to be issued, April 19, 2021, and determined there were no events that occurred that required disclosure. No subsequent events occurring after this date have been evaluated for inclusion in these financial statements.

Note2: BUDGETARY PROCESS

Florida Statutes Sections 30.49, 129.021, and 129.03 govern the preparation, adoption, and administration of the Sheriff's annual budget. The Sheriff prepares a budget for the general fund and submits it to the Board for approval. The budget for the general fund is prepared on a basis that differs from U.S. GAAP. Certain revenues and expenditures related to extra duty activities, and activity under MOU agreements are not budgeted. Any subsequent amendments to the total budget must be approved by the Board. The annual budget serves as the legal authorization for expenditures. Budgetary control is maintained at the major object expenditure level. Expenditures may not legally exceed appropriations at the fund level, and appropriations lapse at year-end. Budgetary changes within major object expenditure categories are made at the discretion of the Sheriff.

The original budget is the first complete appropriated budget. The final budget is the original budget adjusted by all reserves, transfers, allocations, supplemental appropriations, and other legally authorized changes applicable to the fiscal year, whenever legally authorized.

Note 2: BUDGETARY PROCESS (Continued)

Budgets for other funds, while prepared, are not submitted to the Board for approval as they generally are governed by federal or state grant agreements.

The actual results of operations in the statement of revenues, expenditures, and changes in fund balance – budget to actual – general fund are presented on a budgetary basis. Adjustments to convert the results of operations at the end of the year from the budgetary basis of accounting to the GAAP basis of accounting are as follows:

	Total Revenues	Total Expenditures	Fund Balance
Budgetary basis	\$ 4,554,496	\$ 145,560,519	\$ 210,095
Nonbudgetary activity:			
Extra duty program	1,180,610	1,114,769	175,492
MOU agreements	74,798	83,688	(10,005)
GAAP basis	\$ 5,809,904	\$ 146,758,976	\$ 375,582

Note 3: CASH AND EQUITY IN POOLED CASH

At September 30, 2020, the carrying value of the Sheriff's cash and equity in pooled cash was as follows:

Cash on hand	\$ 100
Demand deposits	19,044,347
	\$ 19,044,447

Such amounts are reported as \$14,674,978 in the governmental funds, \$3,595,085 in the internal service fund, and \$774,384 in the Agency funds.

Note 3: CASH AND EQUITY IN POOLED CASH (Continued)

Fair Value Measurement

As required by Governmental Accounting Standards Board Statement No. 72, *Fair Value Measurements and Application*, the Sheriff categorizes its assets and liabilities carried at fair value within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on valuation inputs used to measure the fair value of the asset or liability. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant observable inputs; Level 3 inputs are significant unobservable inputs.

The Sheriff has no assets or liabilities that are carried at fair value that are subject to the leveling disclosures.

Custodial Credit Risk

At September 30, 2020, the Sheriff's deposits were entirely covered by federal depository insurance or by collateral pledged with the State Treasurer pursuant to Chapter 280, *Florida Statutes*. Under this Chapter, in the event of default by a participating financial institution (a qualified public depository), all participating institutions are obligated to reimburse the governmental entity for the loss.

Interest Rate Risk

The Sheriff has no specific investment policy regarding interest rate risk.

Credit Risk

The Sheriff has no written investment policy and therefore follows the guidance in Section 219.075, *Florida Statutes* regarding the deposit of funds received and the investment of surplus funds. Sections 219.075 and 218.415, *Florida Statutes* authorize the Sheriff to invest in the Local Government Surplus Funds Trust Fund or any intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperation Act; Securities and Exchange Commission registered money market funds with the highest credit quality rating from a nationally recognized rating agency; and direct obligations of the U.S. Treasury. Additionally, Florida Statutes allow local governments to place public funds in interest-bearing time deposits or savings accounts in qualified public depositories that participate in a collateral pool under the Florida Security for Public Deposits Act (Section 280.02 *Florida Statutes*). The pool is administered by the State Treasurer, who may make additional assessments to ensure that no public funds will be lost.

Note 4: RELATED-PARTY TRANSACTIONS

At September 30, 2020, the Sheriff had a payable due to the Board of \$747,002, of which \$474,905 is related to distribution of excess appropriations, \$87,373 is related to a distribution of excess in a Board Interlocal Agreement, \$17,348 is related to a transfer of Federal Forfeiture funds, and the balance of approximately \$167,376 is related to fees earned and miscellaneous amounts.

During the year ended September 30, 2020, the Sheriff received appropriations from the Board amounting to \$141,963,530 and net funds from an interlocal agreement of \$2,212,628. At September 30, 2020, the Sheriff reported various receivables due from the Board totaling \$937,630.

Note 5: RISK MANAGEMENT

The Sheriff is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and injuries to employees. The County has established a risk management program to self-insure claims against the Board and the constitutional officers for various risks.

The Sheriff participates in the County's risk management program to insure against workers' compensation insurance risks and the Statewide Florida Sheriff's Self-Insurance Fund (the Fund) to insure against general liabilities claims. The Fund is managed by representatives of the participating sheriff offices and provides professional liability insurance to participating agencies. The Fund provides liability insurance coverage subject to the following limitations: \$5,000,000 for any claim involving a single individual, \$5,000,000 for any incident that involves multiple claims, and an aggregate of \$10,000,000 ultimate net loss per Sheriff during any policy period. The Sheriff carries insurance through the Florida Sheriff's Automobile Risk program related to automobile insurance. There have been no significant reductions in insurance coverage in the last year. Settlements have not exceeded coverage for each of the past three fiscal years.

Premiums charged to participating sheriffs are based upon amounts believed by the Fund management to meet the estimated annual payout during the fiscal year and to pay for the estimated operating costs of the program. All liabilities associated with these self-insured risks are reported in the basic financial statements of the County or the Statewide Florida Sheriff's Fund.

NOTE 5: RISK MANAGEMENT (Continued)

The Sheriff has an insurance fund that accounts for a self-insured plan for employee group medical and prescription drug coverage. At September 30, 2020, the claims liability of \$942,795 reported in the Internal Service Fund Statement of Net Position is based on the provisions of GASB Statement No. 10, Accounting and Financial Reporting for Risk Financing and Related Insurance Issues, which requires that a liability for unpaid claims costs, including estimates of costs related to incurred but not reported claims, be accrued when insured events occur.

Changes in claims liability amounts during the past two fiscal years is as follows:

	Balance October 1	Incurred Claims and Change In Estimates	Claim Payments	Balance September 30
2018	\$ 1,034,000	\$ 14,623,056	\$ (13,500,056)	\$ 2,157,000
2019	2,157,000	10,211,236	(11,364,215)	1,004,021
2020	1,004,021	12,903,311	(12,964,537)	942,795

No 6: CONTINGENCIES

Litigation

The Sheriff is involved as defendant or plaintiff in certain litigations and claims arising from the ordinary course of operations. Funding for any judgments against the Sheriff in excess of available budget funds would be requested from the Board. In the opinion of the Sheriff and legal counsel, the range of potential recoveries or liabilities will not materially affect the financial position of the Sheriff.

In March 2009, a verdict was asserted against the Pasco County Sheriff's office awarding approximately \$8.7 million to the claimant. The Florida statutory sovereign immunity provisions at that time put a cap on damages of \$100,000 and such damages were paid through the Florida Sheriff's Automobile Risk Program (SHARP). However, the claimant pursued the remaining verdict award through a claim bill with the Florida Legislature.

A settlement agreement was reached between the parties in the amount of \$325,000 per year for eight consecutive years, for a total of \$2.6 million. The first payment was made by SHARP in May 2017, with the remaining years to be paid by the Sheriff's office. The Sheriff's office has made payments in fiscal year 2019 and fiscal year 2020. Payment is due each consecutive year thereafter until paid in full. The annual obligation is to be included in each future year budget allocation. As this obligation will not be paid with current available resources, no liability has been recorded in the accompanying financial statements.

No 6: CONTINGENCIES (Continued)

Federal and State Grants

Grant funds received by the Sheriff are subject to audit by grantor agencies. Audits of these grants may result in disallowed costs, which may constitute a liability of the Sheriff. In the opinion of management, disallowed costs, if any, would be immaterial to the financial position of the Sheriff.

Nonmajor Special Revenue Funds
September 30, 2020

Special Revenue Funds are used to account for the proceeds of special revenue sources that are legally restricted to specified purposes. The Pasco County, Florida Sheriff (the Sheriff) has the following nonmajor special revenue funds:

Training Fund – This fund accounts for fines and forfeitures for noncriminal traffic infraction payments that are paid to the Clerk of the Circuit Court and remitted to the Sheriff to be used for agency training programs.

Confiscation Fund – These funds are generated at the Sheriff’s Office level from funds confiscated as a result of an arrest and forwarded to the Board. Each expenditure within the fund must be approved by the Board before the funds are transferred to the Sheriff to be expended for the specified purpose.

Unclaimed Evidence Fund – Funds are collected within the Unclaimed Evidence Fund when evidence related to formally resolved legal matters is not claimed in a timely manner and the Sheriff has exhausted all of the necessary procedures in an effort to remit payment to the appropriate individual. The money is then deposited into and accounted for in the Unclaimed Evidence Fund. Funds can be expended at the discretion of the Sheriff in accordance with Florida Statute 705.

VOCA Grant Fund – This Fund accounts for federal awards passed through from the Florida Office of Attorney General and are used to provide assistance for victims of crime.

Officer Friendly Grant Fund – This fund accounts for funds received under a grant agreement with the federal government. Funds are received under an interlocal agreement with Pasco County Housing Authority for services in at-risk communities.

At Risk Youth Grant Fund – This fund accounts for funds received from the Department of Juvenile Justice for Youth Diversion programs.

Juvenile Assessment Fund – This fund accounts for funds received from the Department of Juvenile Justice to staff the Juvenile Assessment Center.

Parking Enforcement Fund – Parking citations for illegally parking in a disabled parking area are paid to the Clerk of the Circuit Court, per County Ordinance 97-14. A portion of the amount collected is remitted to the Sheriff and accounted for in the Parking Enforcement Fund. These funds are to be used to defray expenses for the administration and enforcement of the disabled parking sections.

Federal Forfeiture Fund – In accordance with the Federal Government Controlled Substances Act, in an effort to enhance the cooperation of state and local law enforcement offices, any state or local law enforcement agency that directly participates in an investigation or prosecution that results in a federal forfeiture may request an equitable share of the net proceeds of the forfeiture. The amount to be requested can be calculated by using the Guide to Equitable Sharing of Federally Forfeited Property for State and Local Law Enforcement Agencies. The balance held by the Sheriff for this fund was transferred to the Board at the end of the fiscal year, per updated guidance from the program. Additional funds received are now forwarded to the Board after receipt. Each expenditure within the fund must be approved by the Board before the funds are transferred to the Sheriff to be expended for the specified purpose.

Criminal Alien Assistance Fund – This fund accounts for funds received from the United States Department of Justice through the Pasco County Board in order to offset the cost of housing illegal aliens. The funds are used based upon program guidelines.

Pasco Task Force Fund – This fund accounts for funds passed through the Florida Department of Law Enforcement from the U.S. Department of Justice. These funds provide for a multi-jurisdictional drug task force involving all local police departments.

Bulletproof Vest Program – This fund accounts for funds provided by the Department of Justice through the Bulletproof Vest Partnership Grant which helps offset the cost of a law enforcement officer's primary vest.

Pasco HIDTA Task Force Fund – This fund accounts for funds provided by Central Florida High Intensity Drug Trafficking Areas Program from the Office of National Drug Control Policy to fight drug trafficking in Pasco County.

Crime Prevention Fund – This fund accounts for funds received in accordance with the Crime Prevention ordinance per Florida Statute 775.083.

InVEST Fund – This fund accounts for funds provided by the Florida Council against Domestic Violence from a Violence against Women federal grant. Funds provide a dedicated detective to serve victims of domestic and dating violence.

Forensic Evidence Tracking – This fund accounts for funds provided by the Bureau of Justice Assistance Sexual Assault Initiative to provide proper equipment for sexual assault investigations.

Guardian Grant – This fund accounts for funds provided by the Florida Department of Education to train and equip persons to provide security and protection at schools in Pasco County.

LEV-ILP & Victim Services Grant – This fund accounts for funds provided by the Office for Victims of Crime through the Department of Justice, used to allocate dedicated victim services to high crime areas.

JAG Gang Suppression 10 - This fund accounts for funds used to target gang activity funded through the Department of Justice. Funds are used to continue a program targeting gang activity.

SPI-ILP & Social Network Grant – This fund accounts for funds provided by the Bureau of Justice Assistance to provide resources needed to reduce violent crime through innovation.

Florida Job Growth – This fund accounts for funds used to promote economic opportunity by improving public infrastructure and enhancing workforce training from the State of Florida, Department of Economic Opportunity.

OPSG FY18 Florida Pasco & OPSG FY19 Florida Pasco - These funds account for funds in support of joint missions with Homeland Security and the Department of Emergency Management, to secure land-based and waterborne smuggling routes.

End Human Trafficking – This fund accounts for the development of training and information to enable the public to identify, detect and report potential human trafficking.

Explorer/LRC Construction – This fund provides for expansion of Explorer facilities and a Leadership Reaction Course.

Helen Rich – This fund accounts for funds provided by a philanthropic donor to create and/or expand K9 training and treatment areas, as well as kennel space for Pasco Sheriff's Office canine officers.

JAG Gang Suppression 11 - This fund accounts for funds used to target gang activity funded through the Department of Justice. Funds are used to continue a program targeting gang activity.

SNAP PGI Fund – also known as “program generated income.” This fund consists of the net proceeds of a forfeiture in which a detective(s) of the Pasco Task Force fund directly participated in the investigation or prosecution.

Safety Town Expansion – This fund provides for expansion of Safety Town facilities. The goal of Safety Town is to reduce accidental injuries and deaths of children through an on-going community-based safety education program focused on children in kindergarten through second grade.

Varnadoe Forensics Grant – This fund accounts for funds received from the Florida Department of Law Enforcement to expand Intelligence Led Policing and Police Forensics facilities.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED
ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH GOVERNMENT AUDITING STANDARDS**

Honorable Chris Nocco
Sheriff
Pasco County, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of each major fund and the aggregate remaining fund information of the Pasco County, Florida Sheriff (the Sheriff) as of and for the year then ended September 30, 2020, and the related notes to the financial statements, which collectively comprise the Sheriff's basic financial statements, and have issued our report thereon dated April 19, 2021 which contains an emphasis of matter to refer to a basis of accounting required for compliance with state filing requirements, however, our report was not modified for this matter.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Sheriff's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Sheriff's internal control. Accordingly, we do not express an opinion on the effectiveness of the Sheriff's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

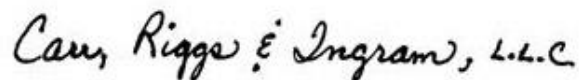

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Sheriff's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Sheriff's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Sheriff's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

MANAGEMENT LETTER

Honorable Chris Nocco
Sheriff
Pasco County, Florida

Report on the Financial Statements

We have audited the financial statements of each major fund and the aggregate remaining fund information of the Pasco County, Florida Sheriff (the Sheriff), as of and for the year ended September 30, 2020, and have issued our report thereon dated April 19, 2021, which contains an emphasis of matter to refer to a basis of accounting required for compliance with state filing requirements, however, our report was not modified with respect to this matter.

Auditors' Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and Chapter 10.550, Rules of the Auditor General.

Other Reporting Requirements

We have issued our Independent Auditors' Report on Internal Control over Financial Reporting and Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards*; and Independent Accountants' Report on an examination conducted in accordance with *AICPA Professional Standards*, AT-C 315, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports, which are dated April 19, 2021, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. Corrective actions have been taken to address all findings and recommendations made in the preceding financial audit report.

Financial Management

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Additional Matters

Section 10.554(1)(i)3., Rules of the Auditor General, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with our audit, we did not note any such findings.

Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, the Pasco County, Florida Property Appraiser, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT ACCOUNTANTS' REPORT

Honorable Chris Nocco
Sheriff
Pasco County, Florida

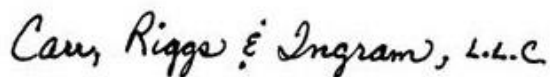

We have examined the Pasco County, Florida Sheriff's (the Sheriff) compliance with Section 218.415, Florida Statutes, regarding the investment of public funds during the year ended September 30, 2020. Management is responsible for the Sheriff's compliance with the specified requirements. Our responsibility is to express an opinion on the Sheriff's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the Sheriff complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether the Sheriff complied with the specified requirements. The nature, timing and extent of the procedures selected depend on our judgement, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Our examination does not provide a legal determination on the Sheriff's compliance with specified requirements.

In our opinion, the Sheriff complied, in all material respects, with Section 218.415, Florida Statutes, regarding the investment of public funds during the year ended September 30, 2020.

This report is intended solely for the information and use of management and the Auditor General, State of Florida and is not intended to be, and should not be, used by anyone other than these specified parties.

FINANCIAL SECTION

INDEPENDENT AUDITORS' REPORT

Honorable Brian E. Corley
Supervisor of Elections
Pasco County, Florida

Report on the Financial Statements

We have audited the accompanying financial statements of each major fund and the aggregate remaining fund information of the Pasco County, Florida Supervisor of Elections as of and for the fiscal year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise the Pasco County, Florida Supervisor of Elections' financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of each major fund and the aggregate remaining fund information of the Pasco County, Florida Supervisor of Elections as of September 30, 2020, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1 to the financial statements, the financial statements referred to above were prepared solely for the purpose of complying with the Rules of the Auditor General of the State of Florida. In conformity with the Rules, the accompanying financial statements are intended to present the financial position and changes in financial position of each major fund, and the aggregate remaining fund information, only for that portion of the major funds, and the aggregate remaining fund information of Pasco County, Florida that is attributable to the Supervisor of Elections. They do not purport to, and do not, present fairly the financial position of Pasco County, Florida as of September 30, 2020 and the changes in its financial position for the fiscal year then ended in conformity with accounting principles generally accepted in the United States of America. Our opinions are not modified with respect to these matters.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Schedule of Revenues, Expenditures, and Changes in Fund Balance – Budget and Actual – Governmental Funds, as listed in the table of contents, be presented to supplement the financial statements. Such information, although not a required part of the financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the financial statements, and other knowledge we obtained during our audit of the financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued a report dated March 31, 2021, on our consideration of the Pasco County, Florida Supervisor of Elections' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, rules, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Pasco County, Florida Supervisor of Elections' internal control over financial reporting and compliance.

Pasco County, Florida
Supervisor of Elections
Notes to Financial Statements
September 30, 2020

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Pasco County, Florida Supervisor of Elections (Supervisor of Elections) is an elected constitutional officer as provided for by the Constitution of the state of Florida. Pursuant to Chapter 129, Florida Statutes, the Supervisor of Elections' budget is submitted to the Pasco County, Florida Board of County Commissioners (Board) for approval.

The financial statements presented include the general fund and special revenue funds of the Supervisor of Elections' office. The accompanying financial statements were prepared for purposes of complying with Section 218.39, Florida Statutes, and Section 10.557(3), Rules of the Auditor General for Local Governmental Entity Audits.

Reporting Entity

The Supervisor of Elections' financial statements have been prepared solely for the purpose of complying with the Rules of the Auditor General of the State of Florida (Rules). These financial statements are the fund financial statements required by generally accepted accounting principles. However, these fund statements do not constitute a complete presentation because, in conformity with the Rules, the Supervisor of Elections' has not presented reconciliations to the government-wide financial statements, the government-wide financial statements, management's discussion and analysis, or the pension or the other post-employment benefit related required supplementary information. Also, certain notes to the financial statements may supplement rather than duplicate the notes included in the County's countywide financial statements. In conformity with the Rules, the accompanying financial statements are intended to present the financial position and changes in financial position of each major fund, and the aggregate remaining fund information, only for that portion of the major fund, and the aggregate remaining fund information, of Pasco County, Florida, that is attributable to the Supervisor of Elections. They do not purport to, and do not, present fairly the financial position of Pasco County, Florida, as of September 30, 2020, and the changes in its financial position, where applicable, for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Measurement Focus, Basis of Accounting, and Basis of Presentation

Fund financial statements report detailed information about the Supervisor of Elections. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is reported in a separate column.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus, Basis of Accounting, and Basis of Presentation (Continued)

Governmental Funds

Governmental funds are accounted for using the flow of current financial resources measurement focus. Only current assets and current liabilities, generally, are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in current assets and liabilities.

The Supervisor of Elections reports the following major governmental funds:

General Fund

The general fund is used to account for the general operations of the Supervisor of Elections and includes all transactions, which are not accounted for in another fund.

Special Revenue Fund

Election Grants Fund – This fund accounts for funds received from the state of Florida. The funds in this account are to be used to support election activities, including the cost of sample ballots and election security.

The Supervisor of Elections reports the following nonmajor governmental fund:

Nonmajor Fund

Pollworker Recruitment and Training Fund – This fund accounts for funds received from the State of Florida. The funds in this account are to be used to help recruit and train poll workers.

The modified accrual basis of accounting is used by governmental funds. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become measurable and available to finance current liabilities of the fiscal year). For this purpose, the Supervisor of Elections considers revenues to be available if they are collected within 60 days of the end of the current period. Expenditures are recorded when the related fund liability is incurred, except for compensated absences, which are recognized as expenditures to the extent they have matured.

The appropriations from the Board are the primary source of funds considered to be susceptible to accrual.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus, Basis of Accounting, and Basis of Presentation (Continued)

Governmental Funds (Continued)

Intergovernmental revenues are recognized when eligibility requirements are met and related amounts are available from the grantor. Such amounts that have yet to be expended for an appropriate purpose are generally included in restricted fund balance at year-end. Interest income is recognized as it is earned and becomes measurable and available to pay liabilities of the current period.

Transfers are provided by appropriations from the Board pursuant to law. Estimated receipts and budgeted fund balances must equal appropriations. The Supervisor of Elections is required to refund to the Board all excess appropriations annually; therefore, no unappropriated fund balance is carried forward.

Florida Statutes provide that the amount by which revenues and transfers exceed annual expenditures be remitted to the Board immediately following the fiscal year for which the funding was provided or following the fiscal year during which other revenue was recognized. The amount of this distribution is recorded as a liability and as another financing use in the accompanying financial statements.

Capital outlays expended in the governmental fund operations are capitalized in the basic financial statements of the Board rather than in the governmental funds of the Supervisor of Elections.

Budgetary Information

Budgetary basis of accounting

Florida Statutes 129.03 and 129.201 govern the preparation, adoption, and administration of the Supervisor of Elections' annual budget. The Supervisor of Elections submits a budget for the general fund to the Board for approval. The annual budget serves as the legal authorization for expenditures. Any subsequent amendments to the Supervisor of Elections' total budget must be approved by the Board. Expenditures may not legally exceed appropriations at the fund level. Appropriations lapse at year-end. Budgetary control is maintained at the major object expenditure level. Budgetary changes within major object expenditure categories are made at the discretion of the Supervisor of Elections.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Budgetary Information (Continued)

Budgetary basis of accounting (Continued)

The original budget is the first complete appropriated budget. The final budget is the original budget adjusted by all reserves, transfers, allocations, supplemental appropriations, and other legally authorized changes applicable to the fiscal year, whenever legally authorized.

Budgets for other funds, while prepared, are not submitted to the Board for approval as they generally are governed by federal or state grant agreements

Assets, Liabilities and Fund Balance

Cash and cash equivalents

The Supervisor of Election's cash and cash equivalents are considered to be cash on hand and demand deposits with original maturities of three months or less from the date of acquisition.

Payables

Accounts payable are recorded on the modified accrual basis in the general fund. Under the modified accrual basis, expenditures are recorded when the fund liability is incurred and due.

Compensated Absences

All regular full-time employees of the Supervisor of Elections are entitled to annual leave with pay pending completion of 60 days of continuous service. The employees are generally allowed to accumulate annual leave up to a maximum of 224 hours, depending on the number of years of service. An employee's accumulated leave that exceeds 187.5 hours as of November 1 of each year is paid out at the first payroll in December of each year if funding permits. Upon termination, the employee is paid for unused annual leave. Annual leave payments are included in operating costs when the payments are made to the employees. The liability for compensated absences is not reported in the governmental funds, but rather is reported in the basic financial statements of the Board.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund Balances and Spending Policy

The components of the Supervisor of Elections' fund balances are classified as follows:

Non-spendable fund balance – Amounts that are not in spendable form (such as inventory and prepaid items), or are legally or contractually required to be maintained intact.

Restricted fund balance – Amounts that can be used only for the specific purposes stipulated by (a) external resource providers such as creditors, grantors, contributors, or laws and regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

Committed fund balance – Committed fund balances are amounts that can only be used for specific purposes as a result of constraints imposed by formal action of the Supervisor of Elections.

Assigned fund balance – Includes spendable fund balance amounts established by the Supervisor of Elections or by the Supervisor of Elections' designee that are intended to be used for specific purposes that are considered neither restricted nor committed.

Unassigned fund balance – Unassigned fund balance is the residual classification for the General Fund.

The Supervisor of Elections has implemented fund balance and spending policies to clearly define the process for tracking the various classifications of fund balance. The policy states that when a general fund expenditure is incurred and where restricted, committed, assigned, or unassigned amounts are available to be used, the Supervisor of Elections will first use restricted amounts, then committed amounts, then assigned amounts, and finally unassigned amounts. All other funds in which expenditures are incurred and where restricted, committed, assigned, or unassigned amounts are available to be used, the Supervisor of Elections will first use unassigned amounts, then assigned amounts, then committed amounts, and finally restricted amounts.

Use of Estimates

The preparation of the financial statements requires management of the Supervisor of Elections to make a number of estimates and assumptions relating to the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the period. Actual results could differ from those estimates.

Subsequent Events

Management has evaluated subsequent events through the date that the financial statements were available to be issued, March 31, 2021, and determined there were no events that occurred that required disclosure. No subsequent events occurring after this date have been evaluated for inclusion in these consolidated financial statements.

Note 2: DETAILED NOTES ON ALL FUNDS

Deposits

As of September 30, 2020, a portion of the Supervisor of Election’s bank balances is covered by federal depository insurance (FDIC). Monies invested in amounts greater than the insurance coverage are secured by the qualified public depositories pledging securities with the State Treasurer in such amounts required by the Florida Security for Public Depositories Act. In the event of a default or insolvency of a qualified public depositor, the State Treasurer will implement procedures for payment of losses according to the validated claims of the City pursuant to Section 280.08, Florida Statutes.

At September 30, 2020, the carrying value of the Supervisor of Election’s cash and cash equivalents was as follows:

Type	Carrying Value
Cash on hand	\$ 100
Demand deposits	611,088
Total cash	\$ 611,188

Custodial credit risk – Custodial credit risk for deposits is the risk in the event of the failure of a depository financial institution a government may not be able to recover deposits. Monies placed on deposit with financial institutions in the form of demand deposits, time deposits or certificate of deposits are defined as public deposits. The financial institutions in which the Supervisor of Election places its deposits are certified as “qualified public depositories,” as required under the Florida Security for Public Deposits Act. For an investment, this is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

Note 2: DETAILED NOTES ON ALL FUNDS (Continued)

Deposits (Continued)

Interest rate risk– The Supervisor of Elections follows Section 219.075, Florida Statutes regarding interest rate risk.

Credit risk –The Supervisor of Elections follows the guidance in Section 219.075, Florida Statutes regarding the deposit of funds received and the investment of surplus funds.

Sections 219.075 and 218.415, Florida Statutes authorize the Supervisor of Elections to invest in the Local Government Surplus Funds Trust Fund or any intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperation Act; Securities and Exchange Commission registered money market funds with the highest credit quality rating from a nationally recognized rating agency; and direct obligations of the U.S. Treasury.

Additionally, Florida statutes allow local governments to place public funds in interest-bearing time deposits or savings accounts in qualified public depositories that participate in a collateral pool under the Florida Security for Public Deposits Act (Section 280.02 Florida Statutes). The pool is administered by the State Treasurer, who may make additional assessments to ensure that no public funds will be lost.

Fair value – As required by Governmental Accounting Standards Board Statement No. 72, Fair Value Measurements and Application, the Supervisor of Elections categorizes its assets and liabilities carried at fair value within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on valuation inputs used to measure the fair value of the asset or liability. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant observable inputs; Level 3 inputs are significant unobservable inputs. The Supervisor of Elections has no assets or liabilities that are carried at fair value that are subject to the leveling disclosures.

Note 3: RISK MANAGEMENT

Pasco County (County) is exposed to various risks of loss, including but not limited to general liability, auto liability, and workers' compensation. The County is substantially self-insured and accounts for and finances its risks of uninsured loss through an internal service fund. The Supervisor of Elections participates in the County's risk management program. All liabilities associated with these self-insured risks are reported in the basic financial statements of the Board.

Note 3: RISK MANAGEMENT (Continued)

The County has general liability insurance with \$500,000 retention per claim with \$1,000,000 retention limit per occurrence and \$2,000,000 aggregate. Negligence claims in excess of the statutory limits set in Section 768.28, Florida Statutes, which provide for limited sovereign immunity of \$100,000/\$200,000 per occurrence, can only be recovered through an act of the State Legislature. Effective October 1, 2011, sovereign immunity limits were increased to \$200,000 per claim and \$300,000 per occurrence for claims incurred after that date. The County had workers' compensation insurance with a \$650,000 deductible per occurrence for police/fire, and a \$500,000 deductible per occurrence for all others. Settlements have not exceeded coverage in any of the past three fiscal years. All liabilities associated with these self-insured risks are reported in the basic financial statements of the County.

Note 4: RELATED PARTY TRANSACTIONS

During the year ended September 30, 2020, the Board provided funding for the Supervisor of Elections that amounted to \$5,361,847. At September 30, 2020, the Supervisor of Elections had a payable due to the Board of \$23,814 related to the distribution of excess appropriations.

Note 5: COMMITMENTS AND CONTINGENCIES

Grant funds received by the Supervisor of Elections are subject to audit by grantor agencies. Audits of these grants may result in disallowed costs, which may constitute a liability of the Supervisor of Elections. In the opinion of management, disallowed costs, if any, would be immaterial to the financial position of the Supervisor of Elections.

In March 2020, the World Health Organization made the assessment that the outbreak of a novel coronavirus (COVID-19) can be characterized as a pandemic. As a result, uncertainties have arisen that may have a significant negative impact on the operating activities and results of the Organization. The occurrence and extent of such an impact will depend on future developments, including (i) the duration and spread of the virus, (ii) government quarantine measures, (iii) voluntary and precautionary restrictions on travel or meetings, (iv) the effects on the financial markets, and (v) the effects on the economy overall, all of which are uncertain.

REPORTS ON INTERNAL CONTROL AND COMPLIANCE MATTERS

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Honorable Brian E. Corley
Supervisor of Elections
Pasco County, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of each major fund and the aggregate remaining fund information of the Pasco County, Florida Supervisor of Elections (Supervisor of Elections), as of and for the year then ended September 30, 2020, and the related notes to the financial statements, which collectively comprise the Supervisor of Elections' basic financial statements, and have issued our report thereon dated March 31, 2021, which contains an emphasis of matter to refer to a basis of accounting required for compliance with state filing requirements, however, our report was not modified for this matter.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Supervisor of Elections' internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Supervisor of Elections' internal control. Accordingly, we do not express an opinion on the effectiveness of the Supervisor of Elections' internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

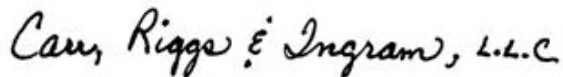

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Supervisor of Elections' financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Supervisor of Elections' internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Pasco County, Florida Supervisor of Elections' internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

MANAGEMENT LETTER

Honorable Brian E. Corley
Supervisor of Elections
Pasco County, Florida

Report on the Financial Statements

We have audited the financial statements of each major fund and the aggregate remaining fund information of the Pasco County, Florida Supervisor of Elections (Supervisor of Elections) as of and for the year ended September 30, 2020, and have issued our report thereon dated March 31, 2021, which contains an emphasis of matter to refer to a basis of accounting required for compliance with state filing requirements, however, our report was not modified with respect to this matter.

Auditors' Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and Chapter 10.550, Rules of the Auditor General.

Other Reporting Requirements

We have issued our Independent Auditors' Report on Internal Control over Financial Reporting and Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards*; and Independent Accountants' Report on an examination conducted in accordance with *AICPA Professional Standards*, AT-C 315, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports, which are dated March 31, 2021, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. Corrective actions have been taken to address all findings and recommendations made in the preceding annual financial audit report.

Official Title and Legal Authority

Section 10.554(1)(i)4., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. The Pasco County, Florida Supervisor of Elections was established by the Constitution of the State of Florida, Article VIII, Section 1(d). The Pasco County Supervisor of Elections does not have any component units.

Financial Management

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we communicate any recommendations to improve financial management. In connection with our audit, we noted certain instances where grant revenue was improperly reported. Generally, grant revenue should be recognized as grant expenditures are incurred or transfers are made with any residual amounts shown as unearned revenue. In addition, significant interfund grant matches should be reflected as interfund transfers and not reported as additional revenue and expenditures. We recommend management review year-end results to properly reflect grant revenue.

Management Response

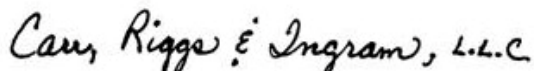

Management concurs with the recommendation and will make necessary adjustments.

Additional Matters

Section 10.554(1)(i)3., Rules of the Auditor General, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with our audit, we did not note any such findings.

Purpose of this Letter

This management letter is intended solely for the information and use of the Supervisor of Elections, management, the Board of County Commissioners of Pasco County, Florida, and the Auditor General of the State of Florida, and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT ACCOUNTANTS' REPORT

Honorable Brian E. Corley
Supervisor of Elections
Pasco County, Florida

We have examined the Pasco County, Florida Supervisor of Elections' (Supervisor of Elections) compliance with Section 218.415, Florida Statutes, regarding the investment of public funds during the year ended September 30, 2020. Management is responsible for the Supervisor of Elections' compliance with those requirements. Our responsibility is to express an opinion on the Supervisor of Elections' compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the Supervisor of Elections complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether the Supervisor of Elections complied with the specified requirements. The nature, timing and extent of the procedures selected depend on our judgement, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Our examination does not provide a legal determination on the Supervisor of Elections' compliance with specified requirements.

In our opinion, the Supervisor of Elections complied, in all material respects, with Section 218.415, Florida Statutes, regarding the investment of public funds during the year ended September 30, 2020.

This report is intended solely for the information and use of the Supervisor of Elections and the Auditor General, State of Florida and is not intended to be, and should not be, used by anyone other than these specified parties.

FINANCIAL SECTION

INDEPENDENT AUDITORS' REPORT

Honorable Mike Fasano
Tax Collector
Pasco County, Florida

Report on Financial Statements

We have audited the accompanying financial statements of the major fund and the aggregate remaining fund information of the Pasco County, Florida Tax Collector (Tax Collector), as of and for the year ended September 30, 2020, and the related notes to the financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the major fund and the aggregate remaining fund information for the Tax Collector as of September 30, 2020, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1 to the financial statements, the financial statements referred to above were prepared solely for the purpose of complying with the Rules of the Auditor General of the State of Florida (Rules). In conformity with the Rules, the accompanying financial statements are intended to present the financial position and changes in financial position of the major fund and the aggregate remaining fund information, only for that portion of the major fund and the aggregate remaining fund information, of Pasco County, Florida that is attributable to the Tax Collector. They do not purport to, and do not, present fairly the financial position of Pasco County, Florida as of September 30, 2020, and the changes in its financial position for the fiscal year then ended in conformity with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to these matters.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Budgetary Comparison Schedule – General Fund, as listed in the table of contents, be presented to supplement the financial statements. Such information, although not a required part of the financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the financial statements, and other knowledge we obtained during our audit of the financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Tax Collector's financial statements. The Combining Balance Sheet – Agency Funds, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the financial statements.

The Combining Balance Sheet – Agency Funds is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Combining Balance Sheet – Agency Funds is fairly stated in all material respects in relation to the financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 31, 2021 on our consideration of the Tax Collector's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, rules, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Tax Collector's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Tax Collector's internal control over financial reporting and compliance.

Notes to the Financial Statements

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Pasco County, Florida Tax Collector (Tax Collector) is an elected constitutional officer as provided for by the Constitution of the State of Florida. Pursuant to Chapter 195.087, *Florida Statutes*, the Tax Collector's budget is submitted to the Florida Department of Revenue for approval and a copy is forwarded to the Pasco County, Florida Board of County Commissioners (the Board).

As an elected official of Pasco County, Florida (the County), the Tax Collector is charged with responsibility for the collection of ad valorem taxes levied by the County, the School Board, special taxing districts, municipalities, and other taxes and fees levied by the County. The office is funded by commissions charged based on the amount of collections. Additionally, the Tax Collector performs services for various state agencies. The following are the State of Florida agencies for which the Tax Collector collects fees:

Department of Highway Safety and Motor Vehicles – serves as agent for the Division of Motor Vehicles, processes title applications and transfers, renews and issues license plates and decals, processes transfers of boat titles, and registers both pleasure and commercial boats on an annual basis. The Tax Collector also serves as agent for the Division of Drivers Licenses.

Department of Revenue – collects sales tax on vessels, motor vehicles, and Lemon Law fees.

Florida Fish and Wildlife Conservation Commission – issues hunting and fishing permits and licenses.

Department of Agriculture – issues concealed weapon permits (new and renewals).

Pasco County Department of Health – issues Florida native born official birth certificates.

Reporting Entity

The Tax Collector's financial statements have been prepared solely for the purpose of complying with the Rules of the Auditor General of the State of Florida (Rules). These financial statements are the fund financial statements required by generally accepted accounting principles. However, these fund statements do not constitute a complete presentation because, in conformity with the Rules, the Tax Collector has not presented reconciliations to the government-wide financial statements, the government-wide financial statements, management's discussion and analysis, or the pension or the other post-employment benefit related required supplementary information.

Pasco County, Florida
Tax Collector
Notes to the Financial Statements

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Reporting Entity (Continued)

Also, certain notes to the financial statements may supplement rather than duplicate the notes included in the County's countywide financial statements. In conformity with the Rules, the accompanying financial statements are intended to present the financial position and changes in financial position, where applicable, of the major fund and the aggregate remaining fund information, only for that portion of the major fund and the aggregate remaining fund information, of Pasco County, Florida, that is attributable to the Tax Collector. They do not purport to, and do not, present fairly the financial position of Pasco County, Florida, as of September 30, 2020, and the changes in its financial position, where applicable, for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

The financial activities of the Tax Collector, as a constitutional officer, are included in Pasco County, Florida's Comprehensive Annual Financial Report.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

Fund financial statements report detailed information about the Tax Collector's operations. The focus of governmental fund financial statements is on major funds rather than reporting funds by type.

Governmental Funds

The governmental funds are accounted for using the flow of current financial resources measurement focus. Only current assets and current liabilities are generally included on the balance sheet. Operating statements for these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets. The Tax Collector's only governmental fund is the general fund. The general fund is used to account for the general operations of the Tax Collector's office and includes all transactions that are not accounted for in another fund.

The modified accrual basis of accounting is used by governmental funds. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become measurable and available to finance liabilities of the current fiscal year). For this purpose, the Tax Collector considers revenues to be available if they are collected within 60 days of the end of the current period. Expenditures are recorded when the related fund liability is incurred, except for certain compensated absences, which are recognized as expenditures to the extent they have matured.

Pasco County, Florida
Tax Collector
Notes to the Financial Statements

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

Governmental Funds (Continued)

A significant amount of the Tax Collector's revenue is received from taxing authorities. These monies are virtually unrestricted and are revocable only for failure to comply with prescribed compliance requirements. These resources are reflected as revenue at the time of receipt; earlier if the "susceptible to accrual" criteria are met.

Investment return is recognized when earned and becomes measurable and available to pay liabilities of the current period.

Florida Statutes provide that the amount by which revenues and transfers exceed annual expenditures be remitted to the Board immediately following the fiscal year for which the funding was provided or following the fiscal year during which other revenue was recognized.

Florida Statutes further provide that the excess of revenues over expenditures held by the Tax Collector be distributed to each governmental agency in the same proportion as the commissions and fees paid by each governmental agency bear to total commission and fee revenue. The amounts of these distributions are recorded as liabilities and as other financing uses in the accompanying financial statements.

Capital outlays expended in the general fund are capitalized in the basic financial statements of the Board rather than in governmental funds of the Tax Collector.

Fiduciary Funds

Agency Funds – These funds are used to account for assets held by the Tax Collector in a trustee capacity or as an agent for individuals, private organizations, and other governments. Agency funds are custodial in nature (assets equal liabilities), and do not involve measurement of results of operations or have a measurement focus. Agency funds are accounted for using the modified accrual basis of accounting.

Budgetary Information

Budgetary basis of accounting

Section 195.087, *Florida Statutes*, governs the preparation, adoption, and administration of the Tax Collector's annual budget. The Tax Collector prepares a budget for the general fund and submits it to the Florida Department of Revenue for approval. Any subsequent amendments to the total budget must be approved by the Florida Department of Revenue.

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Budgetary Information (Continued)

Budgetary basis of accounting (Continued)

The budget is prepared on a basis consistent with U.S. generally accepted accounting principles. The annual budget serves as the legal authorization for expenditures. Expenditures may not legally exceed appropriations at the fund level. Appropriations lapse at year-end. Budgetary control is maintained at the departmental major object expenditure level. Budgetary changes within major object expenditure categories are made at the discretion of the Tax Collector.

The original budget is the first complete appropriated budget. The final budget is the original budget adjusted for all reserves, transfers, allocations, supplemental appropriations, and other legally authorized changes applicable to the fiscal year, whenever legally authorized.

Assets, Liabilities, and Fund Balance

Cash and Cash Equivalents

The Tax Collector's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments

The Tax Collector participates in the Florida Fixed Income Trust Fund (the Fund) and Florida Cooperative Liquid Assets Securities System (FL CLASS). The Fund is a preferred deposit fund consisting of money market funds carried at amortized cost to maintain a constant net asset value (NAV) of \$1.00. FL CLASS is an independent local government investment pool consisting of securities issued or guaranteed by the U.S. government, its agencies, or instrumentalities maintaining a constant net asset value of \$1.00. The investments were formed through indenture of trust pursuant to *Florida Statutes*, Sections 163.01 and 218.415.

Due to/from Funds

The interfund balances capture what is earned by the Tax Collector but not transferred out of the agency fund until the appropriate distributions are created.

Notes to the Financial Statements

Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Compensated Absences

All full-time employees of the Tax Collector are entitled to annual leave and medical leave with pay. The employees are generally allowed to accumulate annual leave up to a maximum of 360 hours and medical leave without limit. Upon termination, the employee is paid for up to one-fourth of accumulated medical leave, depending on length of service, not to exceed 100 hours, and all of the accumulated annual leave. Annual leave and medical leave payments are included in personal services when the payments are made to the employees. The Tax Collector does not, nor is he legally required to, accumulate financial resources for these unmatured obligations. Accordingly, the liability for compensated absences is not reported in the general fund but rather is reported in the basic financial statements of the Board.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make various estimates. Actual results could differ from those estimates.

Subsequent Events

Management has evaluated subsequent events through the date that the financial statements were available to be issued, March 31, 2021 and determined there were no events that occurred that required disclosure. No subsequent events occurring after this date have been evaluated for inclusion in these consolidated financial statements.

Note 2: PROPERTY TAXES

Taxes in Pasco County are levied by the Board and other taxing authorities. The millage levies are determined on the basis of estimates of revenue needs and the total taxable valuations within the jurisdiction of the Board and other taxing authorities. No aggregate ad valorem tax millage in excess of 10 mills on the dollar can be levied by the Board against property in the County as specified in Section 200.071, *Florida Statutes*.

Each year the total taxable property valuation is established by the Pasco County Property Appraiser, and the list of property assessments is submitted to the State Department of Revenue for approval. Taxes, assessed as of January 1 of each year, are due and payable on November 1 of each year or as soon thereafter as the assessment roll is opened for collection. Pursuant to Florida law, all owners of property have the responsibility of ascertaining the amount due and paying it before April 1 of the year following the year in which the tax was assessed.

Pasco County, Florida
Tax Collector
Notes to the Financial Statements

Note 2: PROPERTY TAXES (Continued)

Chapter 197, *Florida Statutes*, governs property tax collections.

Current Taxes

All property taxes become due and payable on November 1, and are delinquent on April 1 of the following year. Discounts are allowed for early payment of 4% in November, 3% in December, 2% in January, and 1% in February.

Unpaid Taxes – Sale of Tax Certificates

The Tax Collector advertises, as required by *Florida Statutes*, and sells tax certificates on all real property for unpaid taxes. The tax receivable is struck off the tax roll to the person who purchased the tax certificate and has paid the taxes. Certificates not sold are transferred to the County. The Tax Collector must receive payment before the certificates are recorded. Any person owning land upon which a tax certificate has been sold may redeem the tax certificate by paying the Tax Collector the face amount of the tax certificate plus interest and other costs.

Tax Deeds

Two years after the purchase of a tax certificate, the certificate holder may file an application for tax deed sale. The County, as a certificate owner, exercises similar procedures. Tax deeds are awarded to the highest bidder for the property, which is sold at public auction by the Clerk of the Circuit Court.

Deposits and Investments

As of September 30, 2020, a portion of the Tax Collector's bank balances is covered by federal depository insurance (FDIC). Monies invested in amounts greater than the insurance coverage are secured by the qualified public depositories pledging securities with the State Treasurer in such amounts required by the Florida Security for Public Depositories Act. In the event of a default or insolvency of a qualified public depositor, the State Treasurer will implement procedures for payment of losses according to the validated claims of the Tax Collector pursuant to Section 280.08, *Florida Statutes*.

Deposits and Investments (Continued)

Custodial credit risk – Custodial credit risk for deposits is the risk in the event of the failure of a depository financial institution a government may not be able to recover deposits. Monies placed on deposit with financial institutions in the form of demand deposits, time deposits or certificate of deposits are defined as public deposits. The financial institutions in which the Tax Collector places its deposits are certified as “qualified public depositories,” as required under the Florida Security for Public Deposits Act.

For an investment, this is the risk that, in the event of the failure of the counterparty, the Tax Collector will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. As of September 30, 2020, approximately \$2.8 million of the Tax Collector’s investments were in local government investment pools. The amounts in this pool are not exposed to custodial credit risk because their existence is not evidenced by securities that exist in physical or book entry form.

Interest rate risk – Interest rate risk is the possibility that interest rates will rise and reduce the fair value of an investment. The Tax Collector has no specific investment policy regarding interest rate risk.

Credit risk – Section 150: Investments of the GASB Codification requires that governments provide information about credit risk associated with their investments by disclosing the credit rating of investments in debt securities as described by nationally recognized statistical rating organizations.

The Tax Collector’s policy is to follow the guidance in Section 219.075, *Florida Statutes*, regarding the deposit of funds received and the investment of surplus funds. Sections 219.075 and 218.415, *Florida Statutes*, authorize the Tax Collector to invest in the Local Government Surplus Funds Trust Fund or any intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperation Act; Securities and Exchange Commission registered money market funds with the highest credit quality ratings from a nationally recognized rating agency; direct obligations of the U.S. Treasury; federal agencies and instrumentalities; or interest-bearing time deposits or savings accounts in banks organized under the laws of the State of Florida, national banks organized under the laws of the United States and doing business and situated in the State of Florida, savings and loan associations that are under State supervision, or in federal savings and loan associations located in the State of Florida and organized under federal law and federal supervision, provided that any such deposits are secured by collateral as may be prescribed by law.

Florida Class	1,400,133	AAAm	1 day
Total investments	2,801,427		
Total cash, cash equivalents, and investments	\$ 12,753,813		

Such amounts are reported as \$3,815,136 and \$8,938,677 in the general fund and agency funds, respectively.

Fair Value Measurement - As required by GASB Statement No. 72, Fair Value Measurement and Application, the Tax Collector categorizes its assets and liabilities carried at fair value within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on valuation inputs used to measure the fair value of the asset. Level I inputs are quoted market prices in active markets for identical assets; Level II inputs are significant other observable inputs; Level III inputs are significant unobservable inputs. The Tax Collector has no assets or liabilities that are carried at fair value that are subject to the leveling disclosures.

Note 4: RISK MANAGEMENT

Pasco County (the County) is exposed to various risks of loss, including but not limited to general liability, auto liability, and workers' compensation. The County is substantially self-insured and accounts for and finances its risks of uninsured loss through an internal service fund. The Tax Collector participates in the County's risk management program. All liabilities associated with these self-insured risks are reported in the basic financial statements of the Board.

Note 4: RISK MANAGEMENT (Continued)

The County has general liability insurance with \$500,000 retention per claim with \$1,000,000 retention limit per occurrence and \$2,000,000 aggregate. Negligence claims in excess of the statutory limits set in Section 768.28, *Florida Statutes*, which provide for limited sovereign immunity of \$100,000/\$200,000 per occurrence, can only be recovered through an act of the State Legislature. Effective October 1, 2011, sovereign immunity limits were increased to \$200,000 per claim and \$300,000 per occurrence for claims incurred after that date. The County had workers' compensation insurance with a \$650,000 deductible per occurrence for police/fire, and a \$500,000 deductible per occurrence for all others. Settlements have not exceeded coverage in any of the past three fiscal years. All liabilities associated with these self-insured risks are reported in the basic financial statements of the County.

Note 5: RELATED-PARTY TRANSACTIONS

During the year ended September 30, 2020, the Board provided funding for the Tax Collector that amounted to \$9,942,954. At September 30, 2020, the Tax Collector has a receivable due from the Board of \$207,131 related to a special funds reimbursement and a payable due to the Board of \$3,457,329 related to the distribution of excess commissions.

Note 6: LEASES

The Tax Collector leases certain office facilities, under noncancelable operating leases, which are utilized solely by the Tax Collector. The commitments under these lease agreements provide for aggregate minimum annual rental payments as follows:

Fiscal years ending September 30,		
2021	\$	196,241
2022		202,880
2023		205,271
2024		180,124
2025		52,500
	\$	<u>837,016</u>

Rental expense for all operating leases aggregated \$212,963 for the year ended September 30, 2020. No contingent rentals or sublease rentals associated with the leases were in effect at September 30, 2020.

Note 7: COMMITMENTS AND CONTINGENCIES

In March 2020, the World Health Organization made the assessment that the outbreak of a novel coronavirus (COVID-19) can be characterized as a pandemic. As a result, uncertainties have arisen that may have a significant negative impact on the operating activities and results of the Tax Collector. The occurrence and extent of such an impact will depend on future developments, including (i) the duration and spread of the virus, (ii) government quarantine measures, (iii) voluntary and precautionary restrictions on travel or meetings, (iv) the effects on the financial markets, and (v) the effects on the economy overall, all of which are uncertain.

The Tax Collector is involved as defendant or plaintiff in certain litigation and claims arising from the ordinary course of operations. Any judgments against the Tax Collector would be settled by the Board. In the opinion of the Tax Collector and legal counsel, the range of potential recoveries or liabilities will not materially affect the financial position of the Tax Collector.

REPORTS ON INTERNAL CONTROL AND COMPLIANCE MATTERS

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Mike Fasano
Tax Collector
Pasco County, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Pasco County, Florida Tax Collector (Tax Collector), as of and for the year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise the Tax Collector's financial statements, and have issued our report thereon dated March 31, 2021, which contains an emphasis of matter to refer to a basis of accounting required for compliance with state filing requirements, however, our report was not modified with respect to this matter.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Tax Collector's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the special-purpose financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Tax Collector's internal control. Accordingly, we do not express an opinion on the effectiveness of the Tax Collector's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Tax Collector's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

MANAGEMENT LETTER

Honorable Mike Fasano
Tax Collector
Pasco County, Florida

Report on the Financial Statements

We have audited the financial statements of the Pasco County, Florida Tax Collector (Tax Collector), as of and for the fiscal year ended September 30, 2020, and have issued our report thereon dated March 31, 2021, which contains an emphasis of matter to refer to a basis of accounting required for compliance with state filing requirements however, our report was not modified with respect to this matter.

Auditors' Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and Chapter 10.550, Rules of the Auditor General.

Other Reporting Requirements

We have issued our Independent Auditors' Report on Internal Control over Financial Reporting and Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards*; and Independent Accountants' Report on an examination conducted in accordance with *AICPA Professional Standards*, AT-C 315, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports, which are dated March 31, 2021, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. There were no findings or recommendations made in the preceding annual financial audit.

Official Title and Legal Authority

Section 10.554(1)(i)4., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. The Pasco County, Florida Tax Collector was established by the Constitution of the State of Florida, Article VIII, Section 1(d). The Pasco County Tax Collector does not have any component units.

Financial Management

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Additional Matters

Section 10.554(1)(i)3., Rules of the Auditor General, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with our audit, we did not note any such findings.

Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, the Tax Collector and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT ACCOUNTANTS' REPORT

Honorable Mike Fasano
Tax Collector
Pasco County, Florida

We have examined the Pasco County, Florida Tax Collector's (Tax Collector) compliance with Section 218.415, *Florida Statutes*, regarding the investment of public funds during the year ended September 30, 2020. Management is responsible for the Tax Collector's compliance with the specified requirements. Our responsibility is to express an opinion on the Tax Collector's compliance with the specified requirements based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the Tax Collector complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether the Tax Collector complied with the specified requirements. The nature, timing and extent of the procedures selected depend on our judgement, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Our examination does not provide a legal determination on the Tax Collector's compliance with specified requirements.

In our opinion, the Tax Collector complied, in all material respects, with Section 218.415, *Florida Statutes*, regarding the investment of public funds during the year ended September 30, 2020.

This report is intended solely for the information and use of the Tax Collector and the Auditor General, State of Florida and is not intended to be, and should not be, used by anyone other than these specified parties.
