District School Board of Hernando County 919 North Broad Street Brooksville, Florida 34601

Dear Chair, Members of the School Board and Citizens of Hernando County:

The Comprehensive Annual Financial Report of the District School Board of Hernando County, Florida (District) for the fiscal year ended June 30, 2017, is submitted herewith. We believe the information, as presented, is accurate in all material aspects; that it is presented in a manner designed to set forth fairly the financial position and the changes in financial position of the District as measured and reported by the financial activity of its various funds; and that all disclosures necessary to enable the reader to gain an adequate understanding of the District's financial affairs have been included. The responsibility for the preparation of the accompanying financial statements and other information contained in this report, based on the above standards, rests with the District's management.

This report consists of management's representations concerning the finances of the District. Consequently, management assumes full responsibility for the completeness and reliability of all the information presented in this report. To provide a reasonable basis for making these representations, management of the District has established a comprehensive internal control framework that is designed both to protect the District's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the District's financial statements in conformity with Generally Accepted Accounting Principles (GAAP). Because the cost of internal controls should not outweigh their benefits, the District's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatements. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all materials respects.

The District's financial statements have been independently audited by the independent certified accounting firm, Purvis Gray and Company, CPA's. The goal of the independent audit was to provide reasonable assurance that the financial statements of the District for the fiscal year ending June 30, 2017, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded that there was a reasonable basis for rendering an unmodified opinion on the District's financial statements for the fiscal year ended June 30, 2017. The independent auditor's report on financial statements is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the District is part of a broader, federally mandated "Single Audit" designed to meet the special needs of Federal grant agencies. The District is required to undergo an annual single audit in conformity with the provisions of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). The standards of governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the District's internal controls and legal requirements involving the administration of Federal awards. Information related to this single audit, including the Schedule of Expenditures of Federal Awards (SEFA), schedule of findings and questioned costs, summary schedule of prior audit findings, and the independent auditor's reports on the system of internal control and on compliance with applicable requirements, is included in the compliance section.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditor.

The accompanying report includes all funds of both the District and the Hernando School Board Leasing Corporation (Leasing Corporation). The Leasing Corporation was formed by the School Board to be the lessor in connection with financing the acquisition and/or construction of certain educational facilities and is considered a blended component unit.

## **PROFILE OF THE DISTRICT**

The District and its governing Board were created pursuant to Section 4, Article IX of the Constitution of the State of Florida. The District is an independent taxing and reporting entity managed, controlled, operated, administered, and supervised by the District school officials in accordance with Chapter 1001.30, Florida Statutes. The Board consists of five elected officials responsible for the adoption of policies, which govern the operation of public schools in Hernando County. The Superintendent of Schools is responsible for the administration and management of the schools within the applicable parameters of Florida Statutes, State Board of Education Rules, and District policies. The Superintendent is also specifically delegated the responsibility of maintaining a uniform system of records and accounts in the District by State Board of Education Rule 6A-1.001, Florida Administrative Code.

This report contains the audited financial statements for all operations over which the School Board is financial accountable. Various potential component units were evaluated to determine whether they should be considered as part of the District's reporting entity. Accordingly, included in the reporting entity are the Hernando County Education Direct Support Organization, Inc., (Foundation) a separate not-for-profit corporation organized and operated as a direct-support organization under Section 1001.453, Florida Statutes, and the three charter schools, B.E.S.T. Academy, Inc., Gulf Coast Middle School, Inc., and Gulf Coast Academy of Science and Technology, Inc. The charter schools are not-for-profit corporation Act, and Section 1002.33, Florida Statutes. The Charter Schools are funded through the District with FEFP funds. Both the Foundation and the charter schools are included as discretely presented component units in the accompanying financial statements. Additional information regarding these component units can be found in the notes to the financial statements.

The geographic boundaries of the District are those of Hernando County. Hernando County is located on the central-west coast of Florida, north of Tampa Bay. It is bounded by the Gulf of Mexico on the west, Citrus County to the north, Sumter County to the east, and Pasco County to the south. Hernando County stretches 37 miles east to west, and 18 miles north to south, for a total of approximately 479 square miles.

During the 2016-2017 fiscal year, the District had 26 schools, including 9 elementary schools, 4 middle schools, 5 high schools, 4 K-8 schools (Challenger K-8, Explorer K-8, J.D. Floyd K-8, and Winding Waters K-8), 1 alternative school, and 3 charter schools, and served approximately 22,192 prekindergarten through adult students. The projected prekindergarten through grade 12 student enrollment for fiscal year 2017-2018 is 22,298 unweighted full-time equivalent students. The average age of the school buildings within the District is approximately 29.4 years.

The District serves students from infants through adults. Students in the District represent a diverse community of learners, including a variety of ethnic and cultural backgrounds. In addition to the various educational programs offered to K-12 students, the District offers pre-kindergarten services including: programs for babies of teen parents who are progressing toward achieving high school diplomas; programs for special education infants and toddlers below the age of three; pre-kindergarten programs for three and four-year-old disabled students; and programs for eligible low-income, at-risk students.

The District also offers programs for adults to learn the necessary skills in order to enter the workforce or increase opportunities for advancement in current positions. Also, students from foreign countries have the opportunity to learn communication skills through the District's English for Speakers of Other Languages (ESOL) programs, and all citizens can take fee-supported courses to increase personal development in various subjects such as computers, photography, and personal financial planning.

The annual budget serves as the foundation for the District's financial planning and control. The District establishes and maintains budgetary controls. The objective is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the District. Activities of all governmental fund types are included in the annual appropriated budget. The level of budgetary control (that is, the level at which expenditures cannot exceed the appropriated amount) is established at the object level within each function level for all funds.

Budgetary information is integrated into the accounting system. To facilitate budgetary control, budget balances are encumbered when purchase orders are issued. Appropriations expire at yearend and encumbrances outstanding are honored in the subsequent year's appropriations.

In order to provide budgetary control for salaries, the District utilizes a centralized position control system. The District has an adopted a staffing plan that establishes teaching positions based primarily on student populations served. Additionally, support and administrative positions are created based on established criteria.

# FACTORS AFFECTING FINANCIAL CONDITION

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the District operates.

# **Economic Conditions**

Hernando County has experienced limited population growth, increasing 5.4 percent (9,336) since the 2010 census. The County's current population as of February 1, 2017, is 182,114 with anticipated growth estimated to be 181,400 in the year 2020 and 193,200 in the year 2030. The median age is 47.7 years.

The local area economy continues to be affected by the national and State economic downturn. Unemployment improved during 2016-2017 but still remains high at 5.9 percent for Hernando County and 3.7 percent for the State as of December 2016. These rates are reportedly higher than the national average of 4.9 percent during the same period.

The final property tax roll for Hernando County increased approximately \$322 million or 3.83 percent, bringing the tax roll to \$8.73 billion. This marks the first year the final tax roll actually increased after three consecutive years of decline. Property taxable values experienced steady growth by double digit growth rates through the 2007-2008 fiscal year. Subsequent to the economic downturn, the tax roll significantly decreased and 2013-2014 taxable values are only slightly greater than the 2005-2006 taxable values.

While the District is heavily reliant upon State funding for the core of the educational programs within the District, and while the economic conditions of the nation and State interact with State funding adequacy and availability, the economic outlook for the District is consistent with the national situation. The State of Florida is heavily dependent upon sales tax collections and tourism. Any funding fluctuations will mean new programs, innovative initiatives, and educational enhancements may not be available within the desired time frames, but the positive improvements will continue to occur. In addition, the Board, Superintendent and staff are acutely aware of the perils of interrupted revenue receipts. Prudent business practices, accompanied by statutes mandating balanced budgets, result in a continual review of the financial condition of the District.

The District recognizes that the continued enhancement of the local economy is of mutual benefit to both the District and the County and that an excellent system of public education is a significant factor in attracting new business and industry to the County. The District remains Hernando County's largest employer, employing 2,838 full-time employees, including 1,520 instructional personnel.

# Long-Term Financial Planning

Funding for school districts in the State of Florida is set by the Florida Legislature annually through the General Appropriations Act.

# **Relevant Financial Policies**

The District follows procedures established by Board Policy, Florida Statutes and the State Board of Education rules in establishing and adopting annual budgets for each of the governmental fund types.

Budgets are prepared using the same modified accrual basis as is used to account for governmental funds. Appropriations are controlled at the object level (e.g. salaries, benefits and purchased services) within each function activity (e.g. instruction, pupil personnel services, and school administration) and may be amended by resolution at any Board meeting prior to the due date for the annual financial report.

The District has adopted a comprehensive set of financial policies. In accordance with Government Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions* (implemented in fiscal year 2015), the District now includes in the government-wide statements it proportionate share of the net pension liability of the cost-sharing pension plans in which it participates. This proportionate amount represents a share of the present value of projected benefit payments to be provided through the cost-sharing pension plan to current active and inactive employees that is attributed to those employees' past periods of service (total pension liability), less the amount of the cost-sharing pension plan's fiduciary net position. See Note 14 to the financial statements for more information.

# ACADEMIC ACCOMPLISHMENTS

One of the ways to judge a school district is to compare the results of its students on national and statewide testing and the accomplishments of its staff. The District believes that its students and staff have performed remarkably well based on various tests and accomplishments as noted below.

- Schools through Florida are held accountable and receive school grades based on the results of the Florida Standards Assessment Test (FSA). The 2016-2017 fiscal year marks the eighteenth year of this accountability program. The District received a "B" grade in the 2016-2017 fiscal year under the State A+ Plan. This year three schools received a grade of "A", nine received a grade of "B", nine received a grade of a "C", and one received a grade of "D".
- The District had 52 percent of all students scoring proficient in reading and 51 percent making learning gains in reading under the State's A+ Plan. Hernando had 44 percent of students in the lowest 25 percentile make learning gains in reading.
- District students scored at 59 percent proficient in math and 53 percent making learning gains in math under the State's A+ plan. Hernando had a 44 percent of students in the lowest 25<sup>th</sup> percentile making learning gains in math.

More than 33 percent of Hernando County School District teachers have earned Master's degrees or higher. Additionally, the District has 42 teachers who have successfully completed the rigorous and time-intensive program of the National Board of Professional Teaching Standards. To achieve the highly esteemed National Certification, teachers are required to provide a portfolio of information regarding teaching styles, examples of work performed by students, and successfully pass an examination.

# Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the District School Board Hernando County for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2016. This was the fifteen consecutive year that the District has received this prestigious award. In order to be awarded a Certificate of Achievement, the District the District must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles (GAAP) and applicable legal requirements.

The Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation and completion of this Report on a timely basis was made possible by the dedicated service of the entire staff of the Finance department. Each member of the department has our sincere appreciation for the contributions made in the preparation and completion of this report.

In closing, we would like to thank the members of the School Board for their leadership and support in planning and conducting the financial operations of the District. We also thank the citizens of Hernando County, whose cooperation, support, and assistance have contributed greatly to the operation of this innovative school system.

Respectfully submitted,

Lori M. Romano

## **INDEPENDENT AUDITORS' REPORT**

Hernando County District School Board and Superintendent of Schools Brooksville, Florida

#### **Reports on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Hernando County District School Board (the District) as of and for the fiscal year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principle generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### **Auditors' Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the three Charter Schools listed with the aggregate discretely presented component units, nor did we audit the Agency Funds listed as a Fiduciary Fund in the aggregate remaining fund information. The Charter Schools represent 67% of the assets, 62% of the net position, and 73% of the revenues of the discretely presently component units; and the Agency Funds represent 62% of the assets of the aggregate remaining fund information. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the aggregate discretely presented component units and aggregate remaining fund information, is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

## INDEPENDENT AUDITORS' REPORT (Continued)

#### Auditors' Responsibility (Concluded)

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, based on our audit and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the District as of June 30, 2017, and the respective changes in financial position thereof for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedule of funding progress for other postemployment benefit plans, schedules related to the Florida Retirement System (FRS) and the FRS Health Insurance Subsidy Pension Plan and major fund budgetary comparison information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and other auditors have applied certain limited procedures to the required supplementary information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### **Other Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, other budgetary comparison schedules, and statistical section, are presented for purposes of additional analysis, and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards,* and is also not a required part of the financial statements.

The combining and individual nonmajor fund financial statements, other budgetary comparison schedules, and the schedule of expenditures of federal awards are the responsibility of management were derived from, and relate directly to, the underlying accounting and other records used to prepare the basic financial statements.

## INDEPENDENT AUDITORS' REPORT (Concluded)

#### **Other Matters (Concluded)**

#### Other Information (Concluded)

Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, based on our audit, the procedures performed as descried above, and the report of the other auditors, the combining and individual nonmajor fund financial statements, other budgetary comparison schedules and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 23, 2018, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

# MANAGEMENT'S DISCUSSION AND ANALYSIS

The management of the Hernando County District School Board (District) has prepared the following discussion and analysis to provide an overview of the District's financial activities for the fiscal year ended June 30, 2017. The information contained in the Management's Discussion and Analysis (MD&A) is intended to highlight significant transactions, events, and conditions, and should be considered in conjunction with the District's financial statements and notes to financial statements found immediately following the MD&A.

# FINANCIAL HIGHLIGHTS

Key financial highlights for the 2016-2017 fiscal year are as follows:

- Total Net Position is \$210,757,298 which represents a 4.82 percent increase from the 2015-2016 fiscal year.
- General revenues totaled \$199,558,959, or 94 percent of all revenues. Program specific revenues in the form of charges for services, operating grants and contributions, and capital gains and contributions total \$13,302,669 or 6.25 percent of all revenues.
- Expenses total \$203,166,169; only \$13,302,669 of these expenses were offset by program revenues, with the remainder paid from general revenues.
- The assets and deferred outflows of resources of the District exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$210,757,298.
- The total combined assigned and unassigned fund balance of the General Fund representing the net fund balance that is spendable and not restricted, totals \$17,497,289, or 10.79 percent of total General Fund revenues.

# **OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplemental information in addition to the basic financial statements themselves.

**Government-Wide Financial Statements.** The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. The statements include a statement of net position and a statement of activities that are designed to provide consolidated financial information about the governmental activities of the primary government presented on the accrual basis of accounting. The statement of net position provides information about the government's financial position, its assets, its liabilities, and its deferred outflows of resources using an economic resources measurement focus. Assets plus deferred outflows of resources, less liabilities, equals net position, which is a measure of the District's financial health. The statement of activities presents information about the change in the District's net position, the results of operations during the fiscal year. An increase or decrease in net position is an indication of whether the District's financial health is improving or deteriorating.

Both of the government-wide financial statements distinguish functions of the District that are principally supported by taxes and intergovernmental revenues (governmental activities). The government activities of the District include such functions as instruction, pupil personnel services, administration, pupil transportation, maintenance, and other items.

The government-wide financial statements include not only the District itself (known as the primary government), but also Brooksville Engineering, Science & Technology, Inc., Gulf Coast Middle School, Inc. and Gulf Coast Academy of Science and Technology, Inc., all Charter Schools, which the District is required to report as component units. Financial information for the component units is reported separately from the financial information presented for the primary government itself.

The government-wide financial statements can be found in Exhibits B-1 and B-2 of this report.

**Fund Financial Statements.** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be classified under two categories: governmental funds and fiduciary funds.

 Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental funds financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financial requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financial decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains 13 individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the General Fund, Federal Economic Stimulus Programs Funds, Special Revenue – Federal Fund, Capital Improvement Section 1011.71 Project Fund and Other Capital Projects Fund all of which are

considered to be major funds. Data from the other eight governmental funds are combined into a single, aggregated presentation.

The District adopts an annual appropriated budget for its governmental funds. A budgetary comparison schedule has been provided for all the major funds to demonstrate compliance with this budget.

The basic governmental fund financial statements and the budgetary comparison schedules presented as required supplementary information can be found in Exhibit C-1 through Exhibit C-4 and Exhibit E of this report.

• Fiduciary Funds. Fiduciary funds are used to report assets held in a trustee or fiduciary capacity for the benefit of external parties, such as student activity funds. Fiduciary funds are not reflected in the government-wide statements because the resources are not available to support the District's own programs. In its fiduciary capacity, the District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes.

The District uses private-purpose trust funds to account for scholarship funds established by private donors. The District uses agency funds to account for resources held for student activities and groups.

The basic fiduciary funds financial statements can be found in Exhibit C-8 and Exhibit C-9 of this report.

**Notes to Financial Statements.** The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements. The notes to financial statements can be found in Exhibit D-1 of this report.

**Other Supplementary Information.** In addition to this management's discussion and analysis, this report also presents certain required supplementary information concerning the District's progress in funding its obligations to provide postemployment benefits other than pensions to its employees. The schedule of funding progress, other postemployment benefits plan, required supplementary information can be found in Exhibit D-2 of this report.

The combining statements referred to earlier in connection with non-major governmental funds are presented immediately following the Required Supplementary Information. Combining and individual fund statements and other schedules can be found in Exhibits F-1 through J-2 of this report.

The largest portion of the District's net position reflects its investment in capital assets (e.g., land; buildings and fixed equipment; furniture, fixtures and equipment net of depreciation), less any related debt still outstanding net of unspent debt proceeds. The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending. Although the investment in capital assets is reported net of related debt, the resources used to repay the debt must be provided from other sources, since the capital assets cannot be used to liquidate these liabilities.

The key elements of the changes in the District's net position for the fiscal years ended June 30, 2017, and June 30, 2016, are as follows:

# FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

**Major Governmental Funds.** The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financial requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$53,831,094, an increase of \$7,284,017 in comparison with the prior year. The following schedule indicates the fund balances and changes in fund balances by major fund and other governmental (nonmajor) funds as reported in the basic financial statements for the fiscal years ended June 30, 2017 and June 30, 2016.

| Fund Balance                        | June 30,<br>2017 | June 30,<br>2016 | Increase<br>(Decrease) | Percentage<br>Change |

**General Fund.** The General Fund is the primary operating fund of the District. At the end of the current fiscal year, the unassigned fund balance of the General Fund was \$13,288,610, while total fund balance was \$19,500,773. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total revenues. Unassigned fund balance represents 8.20 percent of General Fund revenues, while total assigned and unassigned fund balance represents 10.79 percent of that same amount.

During the current fiscal year, the total fund balance of the General Fund increased by \$9,465,201.

The following schedule shows the changes in General Fund revenues and transfers in for fiscal years ended June 30, 2017 and June 30, 2016.

As the table above illustrates, the largest portions of General Fund expenditures are for salaries and employee benefits with \$131,195,352 expended or 83.77 percent of total expenditures in the 2016-2017 fiscal year compared to \$134,078,268 or 84.22 percent in the 2015-2016 fiscal year. Expenditures are down \$2,595,527 or 1.63 percent lower than the 2015-2016 fiscal year due to the implementation of budget reduction strategies.

**Special Revenue – Other Federal Programs Fund.** These funds are federally provided grants and entitlements that are received by the District from various federal and state agencies. Special Revenue Funds do not report fund balance because revenues are reported to the extent of expenditures.

**Other Debt Service** – The Fund balance of the Debt Service Fund decreased from \$14,048,219 to \$6,824,570. This decrease was due to debt service payments paid directly from Debt Service funds.

**Capital Projects – Nonvoted Capital Improvements Fund.** The fund balance of the Capital Projects – Nonvoted Capital Improvements Fund decreased by \$9,833 to \$12,065,987.

**Capital Projects – Other Fund.** The fund balance of the Capital Projects – Other Fund increased by \$5,431,283 to \$10,204,525 primaryly due to the reinstatement of the local half cent sales tax.

#### ECONOMIC FACTORS AND FORECAST

As of June 2016, the unemployment rate for Hernando County is currently 5.9 percent, which is a decrease from the rate of 6.2 percent a year ago. This compares to the State's average unemployment rate of 3.7 percent. These factors were considered in preparing the District budget for the 2017-2018 fiscal year.

During the current fiscal year, the fund balance in the General Fund increased by \$9,465,201 to \$19,500,773. Included in this total, the District has inventories of \$1,343,934 that are classified as nonspendable, \$547,735 in State categorical funds reported as restricted, and \$263,993 in encumbrances reported as assigned, which are re appropriated in the budget for the 2017-2018 fiscal year. Assigned fund balance also includes \$2,308,698 health insurance rebates and profit sharing, which will be held in fund balance until appropriated. It is anticipated that this use of unassigned fund balance will be replenished at year-end through unspent appropriations and operating fund property tax revenues in excess of the budget. It is anticipated that the fund balance at June 30, 2018, will be in excess of 3 percent of general fund revenues.

#### DISTRICT SCHOOL BOARD OF HERNANDO COUNTY, FLORIDA RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES For the Fiscal Year Ended June 30, 2017

| Net Change in Fund Balances - Governmental Funds  | \$        | 7,284,017   |
|---|-----------|-------------|
| Amounts reported for governmental activities in the statement of activities are different because:  |           |             |
| Governmental funds report capital outlays as expenditures; however, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount of depreciation expense in excess of capital outlays in the current period.   |           |             |

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### <u>Reporting Entity</u>

The Hernando County District School Board (Board) has direct responsibility for operation, control, and supervision of Hernando County School District (District) schools and is considered a primary government for financial reporting. The District is considered part of the Florida system of public education. The governing body of the District is the Board, which is composed of five elected members. The appointed Superintendent of Schools is the executive officer of the Board. Geographic boundaries of the District correspond with those of Hernando County.

Criteria for determining if other entities are potential component units which should be reported within the District's basic financial statements are identified and described in the Governmental Accounting Standards Board's (GASB) *Codification of Governmental Accounting and Financial Reporting Standards*, Sections 2100 and 2600. The application of these criteria provides for identification of any entities for which the District School Board is financially accountable and other organizations for which the nature and significance of their relationship with the School Board are such that exclusion would cause the District's basic financial statements to be misleading.

Based on the application of these criteria, the following component units are included within the Board's reporting entity:

- Blended Component Unit. The Hernando School Board Leasing Corporation (Leasing Corporation) was formed in July 2011 to facilitate financing for the acquisition of facilities and equipment as further discussed in Note 6. The governing board of the Leasing Corporation is the District School Board. Due to the substantive economic relationship between the District and the Leasing Corporation, the financial activities of the Leasing Corporation are included in the accompanying basic financial statements. Separate financial statements of the Leasing Corporation are not published.
- <u>Discretely Presented Component Units</u>. The component unit columns in the government-wide financial statements include the financial data of The Hernando County Education Direct Support Organization, Inc., (Foundation), and the following charter schools: Brooksville Engineering, Science & Technology, Inc., Gulf Coast Middle School, Inc., and the Gulf Coast Academy of Science and Technology, Inc.

The Foundation is a separate not-for-profit corporation organized and operated as a direct-support organization under Section 1001.453, Florida Statutes, to receive, hold, invest, and administer property and to make expenditures to or for the benefit of the District. The Foundation is considered to be a component unit of the District because of the nature and significance of its relationship to the District.

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The charter schools are separate not-for-profit corporations organized pursuant to Chapter 617, Florida Statutes, the Florida Not For Profit Corporation Act, and Section 1002.33, Florida Statutes. The charter schools operate under a charter of the sponsoring District. The charter schools are considered to be a component units of the District because the District is financially accountable for the charter schools as the District established the charter schools by approval of the charter, which is tantamount to the initial appointment of the charter schools, and there is the potential for the charter schools to impose specific financial burdens on the District. In addition, pursuant to the Florida Constitution, the charter schools are public schools and the District is responsible for the operation, control, and supervision of public schools within the District.

Annual audits of the Foundation's and the charter schools' financial statements are conducted by independent certified public accountants and are filed in the District's administrative office at 919 North Broad Street, Brooksville, Florida, 34601.

#### • Basis of Presentation

<u>Government-wide Financial Statements</u> - Government-wide financial statements, including the statement of net position and the statement of activities, present information about the School District as a whole. These statements include the nonfiduciary financial activity of the primary government and its component units.

Government-wide financial statements are prepared using the economic resources measurement focus. The statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and are thereby clearly identifiable to a particular function. Depreciation expense associated with the District's motor vehicles is allocated to the applicable functions, while remaining depreciation expense is not readily associated with a particular function and is reported as unallocated.

Program revenues include charges paid by the recipient of the goods or services offered by the program, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

The effects of interfund activity have been eliminated from the government-wide financial statements.

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

<u>Fund Financial Statements</u> - Fund financial statements provide detailed information about the District in the governmental and fiduciary funds. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is reported in a separate column. Nonmajor funds are aggregated and reported in a single column. Because the focus of governmental fund financial statements differs from the focus of government-wide financial statements, reconciliation is presented with each of the governmental fund financial statements.

The District reports the following major governmental funds:

 <u>General Fund</u> – to account for all financial resources not required to be accounted for in another fund, and for certain revenues from the State that are legally restricted to be expended for specific current operating purposes.

<u>Food Service Fund</u> – to account for and report on activities of the food service program in serving breakfast and lunch at the schools. These activities are primarily funded through local charges and federal awards.

- <u>Special Revenue Other Federal Programs Fund</u> to account for certain Federal Grant program revenue sources that are legally restricted for specified purposes. This Special Revenue Fund tracks Federal grants and entitlements that are received by the District from various Federal and State agencies.
- <u>Capital Project Local Capital Improvement Fund</u> to account for the financial resources generated by the local capital improvement tax levy to be used for educational capital outlay needs, including new construction, renovation, and remodeling project, and debt service payments on leasepurchase agreements for educational facilities.
- Capital Projects Other Fund to account for the financial resources generated by the local voted sales tax and the impact fees levied by the Hernando County Board of County Commissioners. The sales tax is to be used for new school construction. The impact fees may be used for educational capital outlay needs, including new construction, renovation and remodeling projects, and debt service payments.

Additionally, the District reports the following fiduciary fund types:

- <u>Private-Purpose Trust Fund</u> to account for resources of the Hernando High School Renaissance Scholarship Endowment Fund which are used for student scholarships.
- <u>Agency Funds</u> to account for resources of the school internal funds which are used to administer moneys collected at the various schools in connection with school, student athletic, class, and club activities.

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

During the course of operations the District has activity between funds for various purposes. Any residual balances outstanding at fiscal year-end are reported as due from/to other funds. Interfund services provided and used are not eliminated in the process of consolidation. Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements, these amounts are reported at gross amounts as transfers in and out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements to report only the net amount of transfers.

#### Basis of Accounting

Basis of accounting refers to when revenues and expenditures, or expenses, are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The government-wide financial statements are prepared using the accrual basis of accounting, as are the fiduciary funds financial statements. Revenues are recognized when earned and expenses are recognized when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized in the year for which they are levied. Revenues from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are prepared using the modified accrual basis of accounting. Revenues, except for certain grant revenues, are recognized when they become measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period.

The District considers property taxes, sales taxes, and interest to be available if they are collected within 30 days of the end of the current fiscal year. When grant terms provide that the expenditure of resources is the prime factor for determining eligibility for Federal, State, and other grant resources, revenue is recognized at the time the expenditure is made.

Under the modified accrual basis of accounting, expenditures are generally recognized when the related fund liability is incurred, except for principal and interest on long-term debt, claims and judgments, pensions, and other postemployment benefits, and compensated absences, which are recognized when due. Allocations of cost, such as depreciation, are not recognized in governmental funds.

Revenues can be classified into two kinds of transactions: (a) exchange and exchangelike transactions, in which each party receives and gives up essentially equal value and (b) non-exchange transactions, in which a government gives (or receives) value without directly receiving (or giving) equal value in exchange. Revenue resulting from exchange transactions is recorded on the accrual basis when the exchange takes place.

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Revenues resulting from non-exchange transactions are further classified into (a) derived tax revenues, (b) imposed non-exchange revenues, (c) governmentmandated non-exchange transactions, and (d) voluntary non-exchange transactions. Derived tax revenues (e.g., sales tax) are recorded when the exchange transaction occurs. Imposed non-exchange transactions (e.g., property taxes) are recorded when use of the resource is required or first permitted by time requirements (e.g., for property taxes, the period for which they are levied). Government-mandated and voluntary non-exchange transactions, (e.g., Federal mandates, grants, and donations) are recorded when all eligibility requirements have been met. When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

The three charter schools, shown as discretely presented component units, are accounted for as governmental organizations and follow the same accounting model as the District's governmental activities.

The Hernando County Education Direct Support Organization, Inc., shown as a discretely presented component unit, is accounted for under the not-for-profit basis of accounting and uses the accrual basis of accounting whereby revenues are recognized when earned and expenses are recognized when incurred.

#### • <u>Deposits</u>

The District's cash and cash equivalents are considered to be demand deposits. On June 30, 2017, the carrying amount of the District's bank deposit accounts was \$25,802,489 (Statement of Net Position) and \$192 (Fiduciary Funds).

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Cash deposits are held by banks qualified as public depositories under Florida law. All deposits are insured by Federal depository insurance and collateralized with securities held in Florida's multiple financial institution collateral pool as required by Chapter 280, Florida Statutes. The Agency Funds consider cash as those accounts used as demand deposit accounts and considers cash equivalents as those amounts invested in certificates of deposit.

#### • Investments

The District holds assets that are defined as investments. The District's investments are recorded at fair value unless the investment qualifies as an external investment pool under the guidance in GASB Statement No. 79.

**Fair Value Measurement** The fair value hierarchy categorizes the inputs to valuation techniques used to measure fair value into three levels:

- Level 1 inputs-are quoted prices (unadjusted) for identical assets or liabilities in active markets that a government can access at the measurement date.
- Level 2 inputs-are inputs other than quoted prices included within Level 1 that are observable for an asset or liability, either directly or indirectly
- Level 3 inputs-are unobservable inputs for an asset or liability. The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs. If a price for an identical asset or liability is not observable, a government should measure fair value using another valuation technique that maximizes the use of relevant observable inputs and minimizes the use of unobservable inputs.

Investments consist of amounts placed in State Board of Administration (SBA) Debt Service accounts for investment of debt service moneys and amounts placed with the SBA for participation in Florida PRIME (formerly known as the Local Government Surplus Funds Trust Fund Investment Pool) investment pool created by Section 218.405, Florida Statutes, and those made locally. The investment pools operate under investment guidelines established by Section 215.47, Florida Statutes.

The District's investments in Florida PRIME and the Florida Education Investment Trust Fund (FEIT) are external investment pools and are similar to money market funds in which shares are owned in the fund rather than the underlying investments. In accordance with GASB 79, the investments are recorded at amortized costs.

None of the external investment pools have limitations or restrictions on participant withdrawals including items such as redemption notices, maximum transaction amounts, and the pool's authority to impose liquidity fees or redemption gates.

The District's other investments consist of United States Treasury securities, and are reported at fair value. Under the fair value hierarchy, investments in United States Treasury securities are considered to be Level 1.

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Inventories

Inventories consist of expendable supplies held for consumption in the course of District operations. Inventories are stated at average cost, except for transportation and food service inventories which are stated at last invoice, which approximates the first-in, first-out basis. The United States Department of Agriculture donated foods are stated at their fair value as determined at the time of donation to the District's food service program by the Florida Department of Agriculture and Consumer Services, Bureau of Food Distribution. The costs of inventories are recorded as expenditures when used rather than purchased.

#### <u>Capital Assets</u>

Expenditures for capital assets acquired or constructed for general District purposes are reported in the governmental fund that financed the acquisition or construction. The capital assets so acquired are reported at cost in the government-wide statement of net position but are not reported in the governmental fund financial statements. Capital assets are defined by the District as those costing more than \$1,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets, donated works of art and similar items, and capital assets received in a service concession arrangement (if any) should be recorded at acquisition value.

Interest costs incurred during construction of capital assets are not considered material and are not capitalized as part of the cost of construction.

Capital assets are depreciated using the composite method over the following estimated useful lives:

|                                    | Estimated |
|------------------------------------|-----------|
| Description                        | Lives     |
| Buildings and Fixed Equipment      | 50 years  |
| Improvements Other than Buildings  | 25 years  |
| Furniture, Fixtures, and Equipment | 7 years   |
| Motor Vehicles                     | 10 years  |

Current-year information relative to changes in capital assets is described in a subsequent note.

#### Pensions

In the government-wide statement of net position, liabilities are recognized for the District's proportionate share of each pension plan's net pension liability. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Florida Retirement System (FRS) defined benefit plan and the Health Insurance Subsidy (HIS) defined benefit plan and additions to/deductions from the FRS's and the HIS's fiduciary net position have

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

been determined on the same basis as they are reported by the FRS and the HIS plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

The District's retirement plans and related amounts are described in a subsequent note.

#### • Long-Term Liabilities

Long-term obligations that will be paid from resources to be received in the future by governmental funds are reported as liabilities in the government-wide statement of net position. Debt premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds and certificates of participation payable are reported net of the applicable premium or discount. As a result of the implementation of GASB Statement No. 65, debt issuance costs (except for Bond Insurance) are no longer treated as deferred charges.

Governmental fund types recognize debt premiums and discounts, as well as debt issuance costs, during the current period. The face amount of debt issued, and premiums on debt issuances, are reported as other financing sources. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

In the government-wide financial statements, compensated absences (i.e., paid absences for employee vacation leave and sick leave) are accrued as liabilities to the extent that it is probable that the benefits will result in termination payments. A liability for these amounts is reported in the governmental fund financial statements only if it has matured, for example, unused reimbursable leave still outstanding following employee resignations and retirements.

Changes in long-term liabilities for the current year are reported in a subsequent note.

#### • Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District only has one item that qualifies for reporting in this category, the deferred amounts related to pensions. The deferred outflows of resources related to pensions are discussed in a subsequent note.

In addition to liabilities, the statement of net position and the governmental funds balance sheet report a separate section for deferred inflows of resources. This

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future periods and so will not be recognized as an inflow of resources (revenue) until that time.

The District has two types of items that qualify for reporting in this category. The first is the deferred amount on pension reported only in the government-wide statement of net position. A deferred amount on pension results from the difference in the expected and actual amounts of experience, earnings, and contributions. This amount is deferred and amortized over the service life of all employees that are provided with pensions through the pension plan except earnings which are amortized over five years. The second item is unavailable revenue from Hernando County impact fees and the State of Florida for Capital Outlay and Debt Service.

#### • <u>State Revenue Sources</u>

Revenues from State sources for current operations are primarily from the Florida Education Finance Program (FEFP) administered by the Florida Department of Education (Department) under the provisions of Section 1011.62, Florida Statutes. In accordance with this law, the District determines and reports the number of full-time equivalent (FTE) students and related data to the Department. The Department performs certain edit checks on the reported number of FTE and related data, and calculates the allocation of funds to the District. The District is permitted to amend its original reporting for a period of nine months following the date of the original reporting. Such amendments may impact funding allocations for subsequent years.

The Department may also adjust subsequent fiscal period allocations based upon an audit of the District's compliance in determining and reporting FTE and related data. Normally, such adjustments are treated as reductions or additions of revenue in the year when the adjustments are made.

The State provides financial assistance to administer certain categorical educational programs. State Board of Education rules require that revenue earmarked for certain programs be expended only for the program for which the money is provided, and require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the same categorical educational programs. The Department generally requires that categorical educational program revenues be accounted for in the General Fund. A portion of the fund balance of the General Fund is restricted in the governmental fund financial statements for the balance of categorical educational program resources.

The State allocates gross receipts taxes, generally known as Public Education Capital Outlay money, to the District on an annual basis. The District is authorized to expend these funds only upon applying for and receiving an encumbrance authorization from the Department.

A schedule of revenue from State sources for the current year is presented in a subsequent note.

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

## • <u>District Property Taxes</u>

The School Board is authorized by State law to levy property taxes for district school operations, capital improvements, and debt service. Property taxes consist of ad valorem taxes on real and personal property within the District.

Property values are determined by the Hernando County Property Appraiser, and property taxes are collected by the Hernando County Tax Collector.

The School Board adopted the 2016 tax levy on July 19, 2016. Tax bills are mailed in October and taxes are payable between November 1 of the year assessed and March 31 of the following year at discounts of up to 4 percent for early payment.

Taxes become a lien on the property on January 1, and are delinquent on April 1, of the year following the year of assessment. State law provides for enforcement of collection of personal property taxes by seizure of the property to satisfy unpaid taxes, and for enforcement of collection of real property taxes by the sale of interest-bearing tax certificates to satisfy unpaid taxes. The procedures result in the collection of essentially all taxes prior to June 30 of the year following the year of assessment.

Property tax revenues are recognized in the government-wide financial statements when the Board adopts the tax levy. Property tax revenues are recognized in the governmental fund financial statements when taxes are received by the District, except that revenue is accrued for taxes collected by the Hernando County Tax Collector at fiscal year-end but not remitted to the District. Millages and taxes levied for the current year are presented in a subsequent note.

## Local Sales Tax

On March 9, 2004, the voters of Hernando County approved a one-half cent school capital outlay sales tax on sales in Hernando County for ten years, commencing January 1, 2005 and ending December 31, 2014, to pay for the construction of certain educational facilities and other related costs, in accordance with Section 212.055(6), Florida Statutes. An extension of the one half cent school capital outlay sales tax was not approved by the voters on November 4, 2014, however a new ten year one-half cent sales tax, commencing on January 1, 2017, was subsequently approved in a special election held on September 8, 2015.

## • Educational Impact Fees

The District receives residual educational impact fees based on an ordinance adopted by the Hernando County Commission (County) on October 28, 1986. The fees are collected by the County and each municipality within the County for most new residential construction based on an interlocal agreement. The fees shall be used solely for the purpose of providing capital improvements to the

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Concluded)

public educational system necessitated by new residential development, and shall not be used for any expenditure that would be classified as a maintenance or repair expense. The authorized uses include land acquisition; facility design and construction costs; furniture and equipment; and payment of principal, interest, and related costs of indebtedness necessitated by new residential development. Because the educational impact fee is similar to a capital-type special assessment, it is reported as program revenue in the government-wide financial statements. The District anticipates reinstatement of the impact fees in the future.

#### 2. INVESTMENTS

**Cash and Cash Equivalents and Investment Portfolio**. On February 15, 2000, the District formally adopted a comprehensive investment policy, as revised on January 14, 2014, pursuant to Section 218.415, Florida Statutes that established permitted investments, asset allocation and issuer limits, credit rating requirements, and maturity limits to protect the District's cash and investment assets. The District maintains a common cash and investment pool for the use of all funds. In addition, cash and investments are separately held by the District's special revenue, debt service, capital projects, enterprise and trust funds.

**Investment Portfolio.** Investment holdings, totaling \$27,822,119 (Statement of Net Position) and \$57,479 (Fiduciary Funds) consist of amounts placed in a Local Government Surplus Funds Trust Fund, Registered Investment Companies (Money Market Mutual Funds), an Intergovernmental Investment Pool, and U.S. Treasury Bonds

Section 218,415, Florida Statutes, limits the types of investments that the District can invest in unless specifically authorized in the District's investment policy. The District's formal investment policy allows for the following investments: United States Government Securities, Unites States Government Agencies, Federal Instrumentalities, Non-Negotiable Interest Bearing Time Certificates of Deposit, Commercial Paper, Bankers Acceptances, Corporate Notes, State and/or Local Government Taxable and/or Tax-Exempt Debt, Registered Investment Companies (Money Market Mutual Funds), Local Government Surplus Funds Trust Fund ("Florida PRIME"), and Intergovernmental Investment Pools.

#### Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Section 218.415(17), Florida Statutes, limits investment maturities to provide sufficient liquidity to pay obligations as they come due. The District's investment policy limits interest rate risk by attempting to match investment maturities with known cash needs and anticipated cash flow requirements. Investments of current operating funds shall have maturities of no longer than 24 months. Investments of bond reserves, construction funds, and other non-operating funds ("core funds") shall have a term appropriate to the need for funds and in accordance with debt covenants. The purchase of investments for core funds with maturities longer than 5 years requires Board approval prior to purchase.

The money market mutual funds and Florida Prime use a weighted average days to maturity (WAM).

The District also uses WAM as a measurement of interest rate risk and as of June 30, 2017, the investment portfolio had a weighted average duration of 0.12 years. A portfolio's WAM reflects the average maturity in days based on final maturity or reset date, in the case of floating rate instruments. WAM measures the sensitivity of the portfolio to interest rate changes.

#### Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The District's investment policy permits for investments which are limited to credit quality ratings from nationally recognized rating agencies as follows:

Commercial paper of any United States company that is rated, at the time or purchase, "Prime-1" by Moody's and "A-1" by Standard & Poor's (prime commercial paper). In addition, corporate obligations allowed are corporate obligations issued by financial institutions that participate in the FDIC's Temporary Liquidity Guarantee Program and are fully insured by the FDIC and are guaranteed by the full faith and credit of the United States Government.

Bankers' acceptances which are issued by a domestic bank which has at the time of purchase, an unsecured, uninsured and unguaranteed obligation rating of at least "Prime-1" by Moody's or "A-1" by Standard & Poor's.

Corporate notes issued by corporations organized and operating within the United States or by depository institutions licensed by the United States that have a long term debt rating, at the time or purchase, at a minimum single "Aa" by Moody's and a minimum long term debt rating of "AA" by Standard & Poor's. In addition, corporate obligations allowed are corporate obligations issued by financial institutions that participate in the FDIC's Temporary Liquidity Guarantee Program and are fully insured by the FDIC and are guaranteed by the full faith and credit of the United States Government.

State and/or local government taxable and/or tax-exempt debt, general obligation and/or revenue bonds, rated at least "Aa" by Moody's or "AA" by Standard & Poor's for long-term debt, or rated at least "MIG-2" by Moody's or "SP-2" by Standard & Poor's for short-term debt.

Registered Investment Companies (Money Market Mutual Funds) shall be rated "AAAm" by Standard & Poor's or the equivalent by another national rating agency.

Investment pools shall be rated "AAAm" by Standard & Poor's or the equivalent by another rating agency.

As of June 30, 2017, \$27,822,119 of the District's investment securities were individually rated "AAAm" by Standard & Poor's, and \$57,354 rated "AA+" by Standard & Poor's.

The District's bank balance of \$25,802,489 was deposited in a qualified public depository, as required by Chapter 280, Florida Statutes.

## Custodial Credit Risk

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the District will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. The District's investment policy pursuant to Section 218.415(18), Florida Statutes, requires securities, with the exception of certificates of deposits, shall be held with a third-party custodian; and all securities purchased by, and all collateral obtained by the District should be properly designated as an asset of the District. The securities must be held in an account separate and apart from the assets of the financial institution. A third-party custodian is defined as any bank depository chartered by the Federal Government, the State of Florida, or any other state or territory of the United States which has a branch or principal place of business in the State of Florida, or by a national association organized and existing under the laws of the United States which is authorized to accept and execute trusts and is doing business in the State of Florida. Certificates of Deposit will be placed in the provider's safekeeping department for the term of the deposit.

As of June 30, 2017, the District's investment portfolio was held with a third-party custodian as required by the District's investment policy.

## Concentration of Credit Risk

The District's investment policy has established asset allocation and issuer limits, which are designed to reduce concentration of credit risk of the District's investment portfolio, for the following investments:

A maximum of 100% of available funds may be invested in the United States Government Securities, 50% of available funds may be invested in United States Government agencies with a 25% limit on individual issuers, 75% of available funds may be invested in Federal

#### 2. INVESTMENTS (Concluded)

Instrumentalities with a 25% limit on individual issuers, 75% of available funds may be invested in non-negotiable interest bearing time certificates of deposit with a 25% limit on individual issuers, 25% of available funds may be invested in commercial paper with a 10% limit on individual issuers, 25% of available funds may be invested in corporate notes with a 10% limit on individual issuers, 30% of available funds may be invested in State and/or Local Government Taxable and/or Tax-Exempt Debt with a 10% limit on individual issuers, 50% of available funds may be invested in Companies (Money Market Mutual Funds) with a 25% limit of individual issuers, and 25% of available funds may be invested in Intergovernmental Investment Pools.

As of June 30, 2017, the District had the following issuer concentration based on fair value:

# 5. CERTIFICATES OF PARTICIPATION

The District entered into various financing arrangements each of which was characterized as a lease-purchase agreement, with the Florida School Boards Association, Inc., whereby the District secured financing of various educational facilities in the total amount of \$30,000,000 for the Certificates of Participation, Series 2003A; \$106,670,000 for the Certificates of Participation, Series 2005 and \$29,162,000 for the Certificates of Participation, Series 2013A. The Certificates of Participation, Series 2013A were used to advance refund the outstanding Certificates of Participation, Series 2003A. The financings were accomplished through the issuance of Certificates of Participation to be repaid from the proceeds of rents paid by the District.

On August 10, 2011, the Florida School Boards Association, Inc., irrevocably assigned to the Hernando School Board Leasing Corporation (Leasing Corporation) all of its rights, title and interest under the Master Trust Agreement and the Ground Lease Agreements.

As a condition of the financing arrangement, the District has given ground leases on District property to the Leasing Corporation, with terms ranging from 20 to 30 years.

#### 5. CERTIFICATES OF PARTICIPATION (Continued)

The properties covered by the ground leases are, together with the improvements constructed thereon from the financing proceeds, leased back to the District. If the District fails to renew the lease and to provide for the rent payments through to term, the District may be required to surrender the sites included under the Ground Lease Agreements for the benefit of the securers of the Certificates for a period of time specified by the arrangement which may be up to 35 years from the date of inception of the arrangements.

The District properties included in the ground leases under this arrangement include land on which the projects have been constructed. The projects related to the ground leases are as follows:

#### Series 2005 Certificates

Series 2013 Certificates Challenger K-8 School Science and Mathematics

Explorer K-8 School Winding Waters K-8 School Grade Specific Additions at Pine Grove Elementary School, West Hernando Middle School, and Central High School Improvements and Additions to Hernando High School Improvements and Additions to Springstead High School Improvements and Additions to Spring Hill Elementary School

The lease payments for the 2013A & 2016A Series are payable by the District, semiannually, on July 1 and January 1, at interest rates ranging from 2.08 to 5 percent. The payment of principal and interest on the bonds underlying the lease agreements are due on July 1 and January 1 of each year. The July 1 payment is typically made on or around June 15 and is considered to be a reduction of bond principal as of June 30.

The following is a schedule by years of future minimum lease payments under the lease agreements together with the present value of minimum lease payments as of June 30:

#### 6. BONDS PAYABLE (Continued)

#### • <u>State School Bonds</u>

These bonds are issued by the State Board of Education (SBE) on behalf of the District. The bonds mature serially, and are secured by a pledge of the District's portion of the State-assessed motor vehicle license tax.

The State's full faith and credit is also pledged as security for these bonds. Principal and interest payments, investment of Debt Service Fund resources, and compliance with reserve requirements are administered by the SBE and the SBA.

## • <u>District Revenue Bonds</u>

Refunding and Capital Improvement Revenue Bonds, Series 2001. These bonds were issued in June 2001 to refund the Refunding and Improvement Revenue Bonds, Series 1992, and to finance the costs of various capital improvements within the school district. These bonds were authorized by Chapter 79-471, Laws of Florida, which provides that the bonds be secured from racetrack funds and jai alai fronton funds accruing annually to the District from the State's Pari-mutuel Tax Collection Trust Fund pursuant to Chapter 550, Florida Statutes (effective July 1, 2000, tax proceeds are distributed pursuant to Section 212.20(6)(d)7.a., Florida Statutes (2001), now Section 212.20(6)(d)6.a., Florida Statutes (2014). The annual distribution is remitted by the Florida Department of Financial Services to the District. The District has pledged as sole security for the bonds, the entire annual pari-mutuel tax proceeds of \$363,739, which is remitted by the Florida Department of Financial Services to the District. The pledged revenue is committed until final maturity of the debt, or December 1, 2031. Approximately 98 percent of this revenue stream has been pledged in connection with the debt service on the revenue bonds. As required by the bond resolution, the District has established the sinking fund and reserve account and has accumulated and maintained adequate resources in the sinking fund and reserve account.

The Series 2001 bonds, totaling \$3.3 million, were issued to provide funds, together with other available funds of the Board, sufficient to refund the District's outstanding Refunding Revenue Bonds, Series 1990 and finance the costs of acquisition, construction, and installation of, and renovation to, certain capital improvements and educational facilities within the District, and pay costs associated with the issuance of the bonds.

## 7. DEFEASED DEBT

In prior years, the Board defeased in substance certain outstanding bonds by placing the proceeds of new bonds in irrevocable trusts to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the In-substance defeased bonds are not included in the District's financial statements.

On December 2, 2014, bond proceeds totaling \$1,299,000 received for the issuance of the SBE Capital Outlay Bonds, 2014 Series B, refunded certain callable portions of the SBE Capital Outlay Bonds, 2005 Series A and 2005 Series B. Accordingly, \$55,000 of the Series A and \$1,400,000 of the Series B is considered defeased.

On June 30, 2017, bonds considered defeased in substance are as follows:

For the governmental activities, compensated absences, pensions, and other postemployment benefits are generally liquidated with resources of the General Fund.

## 9. FUND BALANCE REPORTING

GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions* (GASB 54) provides a more structured classification of fund balance and to improve the usefulness of fund balance reporting to the users of the District's financial statements. The reporting standard establishes a hierarchy for fund balance classifications and the constraints imposed on the uses of those resources.

GASB 54 provides two major types of fund balances, which are nonspendable and spendable. Nonspendable fund balances are balances that cannot be spent because they are not expected to be converted to cash or they are legally or contractually required to remain intact. Examples of this classification are prepaid items, inventories, and principal (corpus) of an endowment fund. The District has inventory items that are considered nonspendable. The District has no nonspendable funds related to endowment.

## 9. FUND BALANCE REPORTING (Continued)

In addition to the nonspendable fund balance, GASB 54 has provided a hierarchy of the spendable fund balances, based on a hierarchy of spending constraints.

- <u>Restricted:</u> Fund balances that are constrained by external parties, constitutional provisions, or enabling legislation.
- <u>Committed</u>: Fund balances that contain constraints imposed by formal action of the government from its highest level of decision making authority. At the end of the fiscal year, there were no commitments.
- <u>Assigned:</u> Fund balances that contain self-imposed constraints by the governing body to be used for a particular purpose.
- <u>Unassigned:</u> Fund balance of the General Fund that is not constrained for any particular purpose. The General Fund is the only fund that reports a positive unassigned fund balance amount. However, in governmental funds other than the General Fund, if expenditures incurred for specific purposes exceed the amounts that are restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance in that fund.

The District has classified its fund balances with the following hierarchy:

<u>Nonspendable:</u> The District has inventories totaling \$1,485,622 that are classified as nonspendable.

<u>Spendable:</u> The District has classified the spendable fund balances as *Restricted, Assigned, and Unassigned* and considered each to have been spent when expenditures are incurred. The District currently has no fund balances classified as *Committed*.

• <u>Restricted for State Categorical Programs, Workforce Development, Food Services,</u> <u>Debt Service, and Capital Projects:</u>

Federal Laws, Florida Statutes, and local ordinances require that specifically designated for the purposes of capital and debt service requirements and for certain designated State categorical spending. These funds have been included in the restricted category of fund balance. The restricted fund balance totaled \$26,945,745 and represented \$547,735 for State categorical programs, \$111,815 for workforce development programs, \$2,581,169 for food services, \$7,186,252 for debt service, and \$16,518,774 for capital projects.

• <u>Assigned for School Operations, Department Of Education (Department) Obligations,</u> <u>Health Insurance Rebates:</u>

In accordance with Fund Balance Policy 7.11, the assigned fund balance includes amounts which are assigned for a specific purpose by the Board or by delegation to the Superintendent or his or her designee. The School Board has set aside certain spendable fund balance for school operations. At year end, the assigned general fund balance of \$10,197,334 consists of \$7,888,636 assigned for outstanding encumbrances for school operations and \$2,308,698 assigned for health insurance rebates received to be used for premium increases.

## 9. FUND BALANCE REPORTING (Concluded)

#### Unassigned:

The unassigned fund balance for the General Fund is \$13,288,610.

## 13. RETIREMENT PLANS

## A. Florida Retirement System (FRS) – Defined Benefit Pension Plans

#### General Information about the FRS

The FRS was created in Chapter 121, Florida Statutes, to provide a defined benefit pension plan for participating public employees. The FRS was amended in 1998 to add the Deferred Retirement Option Program under the defined benefit plan and amended in 2000 to provide a defined contribution plan alternative to the defined benefit plan for FRS members effective July 1, 2002. This integrated defined contribution plan is the FRS Investment Plan. Chapter 112, Florida Statutes, established the Retiree HIS Program, a cost-sharing multiple-employer defined benefit pension plan, to assist retired members of any State-administered retirement system in paying the costs of health insurance.

Essentially all regular employees of the District are eligible to enroll as members of the State-administered FRS. Provisions relating to the FRS are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and FRS Rules, Chapter 60S, Florida Administrative Code; wherein eligibility, contributions, and benefits are defined and described in detail. Such provisions may be amended at any time by further action from the Florida Legislature. The FRS is a single retirement system administered by the Florida Department of Management Services, Division of Retirement, and consists of the two cost-sharing, multiple-employer defined benefit plans and other nonintegrated programs. A comprehensive annual financial report of the FRS, which includes its financial statements, required supplementary information, actuarial report, and other relevant information, is available from the Florida Department of Management Services Web site (www.dms.myflorida.com).

#### 13. RETIREMENT PLANS (Continued)

The District's pension expense totaled \$5,740,862 for the fiscal year ended June 30, 2017.

#### FRS Pension Plan

<u>Plan Description</u>. The FRS Pension Plan (Plan) is a cost-sharing multiple-employer defined benefit pension plan, with a Deferred Retirement Option Program (DROP) for eligible employees. The general classes of membership are as follows:

- *Regular Class* Members of the FRS who do not qualify for membership in the other classes.
- *Elected County Officers Class* Members who hold specified elective offices in local government.
- Senior Management Service Class (SMSC) Members in senior management level positions.

Employees enrolled in the Plan prior to July 1, 2011, vest at 6 years of creditable service and employees enrolled in the Plan on or after July 1, 2011, vest at 8 years of creditable service. All vested members, enrolled prior to July 1, 2011, are eligible for normal retirement benefits at age 62 or at any age after 30 years of service. All members enrolled in the Plan on or after July 1, 2011, once vested, are eligible for normal retirement benefits at age 65 or any time after 33 years of creditable service. Members of the Plan may include up to 4 years of credit for military service toward creditable service. The Plan also includes an early retirement provision; however, there is a benefit reduction for each year a member retires before his or her normal retirement date. The Plan provides retirement, disability, death benefits, and annual cost-of-living adjustments to eligible participants.

DROP, subject to provisions of Section 121.091, Florida Statutes, permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payments while continuing employment with an FRS participating employer. An employee may participate in DROP for a period not to exceed 60 months after electing to participate, except that certain instructional personnel may participate for up to 96 months. During the period of DROP participation, deferred monthly benefits are held in the FRS Trust Fund and accrue interest. The net pension liability does not include amounts for DROP participants, as these members are considered retired and are not accruing additional pension benefits.

<u>Benefits Provided</u>. Benefits under the Plan are computed on the basis of age and/or years of service, average final compensation, and service credit. Credit for each year of service is expressed as a percentage of the average final compensation. For members initially enrolled before July 1, 2011, the average final compensation is the average of the five highest fiscal years' earnings; for members initially enrolled on or after July 1, 2011, the average final compensation is the 8 highest fiscal years' earnings. The total percentage value of the benefit received is determined by calculating the total value of all service, which is based on the retirement class to which the member belonged when the service credit was earned. Members are eligible for in-line-of-duty or

regular disability and survivors' benefits. The following chart shows the percentage value for each year of service credit earned:

| Class, Initial Enrollment, and Retirement Age/Years of Service    | % Value |
|---|---------|
| Regular Class members initially enrolled before July 1, 2011      |         |
| Retirement up to age 62 or up to 30 years of service              | 1.60    |
| Retirement at age 63 or with 31 years of service                  | 1.63    |
| Retirement at age 64 or with 32 years of service                  | 1.65    |
| Retirement at age 65 or with 33 or more years of service          | 1.68    |
| Regular Class members initially enrolled on or after July 1, 2011 |         |
| Retirement up to age 65 or up to 33 years of service              | 1.60    |
| Retirement at age 66 or with 34 years of service                  | 1.63    |
| Retirement at age 67 or with 35 years of service                  | 1.65    |
| Retirement at age 68 or with 36 or more years of service          | 1.68    |
| Elected County Officers   | 3.00    |
| Senior Management Service Class                                   | 2.00    |

As provided in Section 121.101, Florida Statutes, if the member is initially enrolled in the FRS before July 1, 2011, and all service credit was accrued before July 1, 2011, the annual cost-of-living adjustment is 3 percent per year. If the member is initially enrolled before July 1, 2011, and has service credit on or after July 1, 2011, there is an individually calculated cost-of-living adjustment. The annual cost-of-living adjustment is a proportion of 3 percent determined by dividing the sum of the pre-July 2011 service credit by the total service credit at retirement multiplied by 3 percent. Plan members initially enrolled on or after July 1, 2011, will not have a cost-of-living adjustment after retirement.

*Contributions.* The Florida Legislature establishes contribution rates for participating employers and employees. Contribution rates during the 2016-2017 fiscal year were as follows:

|  | Percent of Gross Salary |               |  |
|--|-------------------------|---------------|--|
| Class  | Employee                | Employer (1)  |  |

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred</u> <u>Inflows of Resources Related to Pensions</u>. At June 30, 2017, the District reported a liability of \$61,595,303 for its proportionate share of the Plan's net pension liability. The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2015. The District's proportionate share of the net pension liability was based on the District's 2015-2016 fiscal year contributions relative to the 2015-2016 fiscal year contributions of all participating members. At June 30, 2016, the District's proportionate share was 0.24394104100827 percent, which was a decrease of 0.000315003 from its proportionate share measured as of June 30, 2016.

For the fiscal year ended June 30, 2017, the District recognized the Plan pension expense of \$5,740,861. In addition, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| Description  | Deferred Inflows<br>of Resouces | Deferred Outflows<br>of Resouces |

The deferred outflows of resources related to pensions, totaling \$5,740,862, resulting from District contributions to the Plan subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the fiscal year ended June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| Fiscal Year Ending June 30 | Amount       |

<u>Actuarial Assumptions</u>. The total pension liability in the July 1, 2016 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| Inflation                 | 2.60 percent  |
|---------------------------|---|
| Salary Increases          | 3.25 percent, average, including inflation            |
| Investment rate of return | 7.60 percent, net of pension plan investment expense, |
|                           | including inflation                                   |

Mortality rates were based on the Generational RP-2000 with Projection Scale BB.

The actuarial assumptions used in the July 1, 2016, valuation were based on the results of an actuarial experience study for the period July 1, 2008, through June 30, 2014.

The long-term expected rate of return on pension plan investments was not based on historical returns, but instead is based on a forward-looking capital market economic model. The allocation policy's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes an adjustment for the inflation assumption. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Note: (1) As outlined in the Plan's investment policy

<u>Discount Rate</u>. The discount rate used to measure the total pension liability was 7.60 percent. The Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return.

### HIS Pension Plan

<u>Plan Description</u>. The HIS Pension Plan (HIS Plan) is a cost-sharing multiple-employer defined benefit pension plan established under Section 112.363, Florida Statutes, and may be amended by the Florida Legislature at any time. The benefit is a monthly payment to assist retirees of State-administered retirement systems in paying their health insurance costs and is administered by the Division of Retirement within the Florida Department of Management Services.

<u>Benefits Provided</u>. For the fiscal year ended June 30, 2017, eligible retirees and beneficiaries received a monthly HIS payment of \$5 for each year of creditable service completed at the time of retirement, with a minimum HIS payment of \$30 and a maximum HIS payment of \$150 per month, pursuant to Section 112.363, Florida Statutes. To be eligible to receive a HIS Plan benefit, a retiree under a State-administered retirement system must provide proof of health insurance coverage, which may include Medicare.

<u>Contributions</u>. The HIS Plan is funded by required contributions from FRS participating employers as set by the Florida Legislature. Employer contributions are a percentage of gross compensation for all active FRS members. For the fiscal year ended June 30, 2017 the contribution rate was 1.26 percent of payroll pursuant to section 112.363, Florida Statutes. The District contributed 100 percent of its statutorily required contributions for the current and preceding 3 years. HIS Plan contributions are deposited in a separate trust fund from which payments are authorized. HIS Plan benefits are not guaranteed and are subject to annual legislative appropriation. In the event the legislative appropriation or available funds fail to provide full subsidy benefits to all participants, benefits may be reduced or canceled.

### 13. RETIREMENT PLANS (Continued)

The District's contributions to the HIS Plan totaled \$1,626,251 for the fiscal year ended June 30, 2017.

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources Related to</u> <u>Pensions</u>. At June 30, 2017, the District reported a net pension liability of \$41,412,206 for its proportionate share of the HIS Plan's net pension liability. The current portion of the net pension liability is the District's proportionate share of benefit payments expected to be paid within one year, net of the District's proportionate share of the pension plan's fiduciary net position available to pay that amount. The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2016. The District's proportionate share of the net pension liability was based on the District's 2015-2016 fiscal year contributions relative to the total 2015-2016 fiscal year contributions of all participating members. At June 30, 2016, the District's proportionate share was .35532970432956 percent, which was a decrease of 0.001817832 from its proportionate share measured as of June 30, 2016.

For the fiscal year ended June 30, 2017, the District recognized pension expense of \$1,626,251 related to the HIS Plan. In addition, the District reported deferred outflows of resources related to pensions from the following sources:

The deferred outflows of resources totaling \$1,626,251, resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the fiscal year ended June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Actuarial Assumptions</u>. The total pension liability in the July 1, 2014, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| Inflation           | 2.60 percent                               |

| Salary Increases    | 3.25 percent, average, including inflation |
| Municipal Bond Rate | 4.29 percent                               |

Mortality rates were based on the Generational RP-2000 with Projected Scale BB.

While an experience study had not been completed for the plan, the Florida Retirement System Actuarial Assumptions Conference reviewed the actuarial assumptions for the plan.

<u>Discount Rate</u>. The discount rate used to measure the total pension liability was 3.80 percent. In general, the discount rate for calculating the total pension liability is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS benefit is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate, and the single equivalent discount rate is equal to the municipal bond rate selected by the HIS Plan sponsor. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index.

<u>Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in</u> <u>the Discount Rate</u>. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 2.85 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (1.85 percent) or 1-percentagepoint higher (3.85 percent) than the current rate:

### B. FRS – Defined Contribution Pension Plan

The District contributes to the FRS Investment Plan (Investment Plan), a defined contribution pension plan, for its eligible employees electing to participate in the Investment Plan. The Investment Plan is administered by the SBA, and is reported in the SBA's annual financial statements and in the State of Florida Comprehensive Annual Financial Report.

As provided in Section 121.4501, Florida Statutes, eligible FRS members may elect to participate in the Investment Plan in lieu of the FRS defined-benefit plan. District employees participating in DROP are not eligible to participate in the Investment Plan. Employer and employee contributions, including amounts contributed to individual member's accounts, are defined by law, but the ultimate benefit depends in part on the performance of investment funds. Benefit terms, including contribution requirements, for the Investment Plan are established and may be amended by the Florida Legislature.

The Investment Plan is funded with the same employer and employee contribution rates that are based on salary and membership class (Regular Class, Elected County Officers, etc.), as the FRS defined benefit plan. Contributions are directed to individual member accounts, and the individual members allocate contributions and account balances among various approved investment choices. Costs of administering plan, including the FRS Financial Guidance Program, are funded through an employer contribution of 0.04 percent of payroll and by forfeited benefits of plan members. Allocations to the investment member's accounts during the 2016-2017 fiscal year were as follows:

|                                | Percent of   |
|--------------------------------|--------------|
|                                | Gross        |
| Class                          | Compensation |
|                                |              |
| FRS, Regular                   | 7.52         |
| FRS, Elected County Officers   | 42.47        |
| FRS, Senior Management Service | 21.77        |

For all membership classes, employees are immediately vested in their own contributions and are vested after 1 year of service for employer contributions and investment earnings. If an accumulated benefit obligation for service credit originally earned under the FRS Pension Plan is transferred to the Investment Plan, the member must have the years of service required for FRS Pension Plan vesting (including the service credit represented by the transferred funds) to be vested for these funds and the earnings on the funds. Nonvested employee contributions are placed in a suspense account for up to 5 years. If the employee returns to FRS-covered employment within the 5-year period, the employee will regain control over their account. If the employee does not return within the 5-year period, the employee will forfeit the accumulated

account balance. For the fiscal year ended June 30, 2017, the information for the amount of forfeitures was unavailable from the SBA; however, management believes that these amounts, if any, would be immaterial to the District.

After termination and applying to receive benefits, the member may rollover vested funds to another qualified plan, structure a periodic payment under the Investment Plan, receive a lump-sum distribution, leave the funds invested for future distribution, or any combination of these options. Disability coverage is provided; the member may either transfer the account balance to the FRS Pension Plan when approved for disability retirement to receive guaranteed lifetime monthly benefits under the FRS Pension Plan, or remain in the Investment Plan and rely upon that account balance for retirement income.

The District's Investment Plan pension expense totaled \$1,197,630 for the fiscal year ended June 30, 2017.

### 14. OTHER POSTEMPLOYMENT BENEFITS PAYABLE

**Plan Description.** The Other Postemployment Benefits Plan (OPEB Plan) is a singleemployer defined benefit plan administered by the District. Pursuant to the provisions of Section 112.0801, Florida Statutes, former employees who retire from the District and eligible dependents, may continue to participate in the District's fully insured group health plan. The District subsidizes the premium rates paid by retirees by allowing them to participate in the Plan at blended group (implicitly subsidized) premium rates for both active and retired employees. These rates provide an implicit subsidy for retirees because, on an actuarial basis, their current and future claims are expected to result in higher costs to the Plan on average than those of active employees. Retirees are required to enroll in the Federal Medicare program for their primary coverage as soon as they are eligible. The Plan does not issue a stand-alone report and is not included in the report of a Public Employee Retirement System or another entity.

*Funding Policy.* Benefit provisions for the Plan are pursuant to provisions of Section 112.081, Florida Statutes, and are amended through negotiations between the District and the respective unions.

The District has not advance-funded or established a funding methodology for the annual Other Postemployment Benefit (OPEB) costs or the net OPEB obligation, and the Plan is financed on a pay-as-you-go basis. For the 2016-2017 fiscal year, 106 retirees received postemployment group healthcare benefits. The District's contribution to the OPEB obligation is the implicit subsidy for the retirees, which was \$262,693. Plan members receiving benefits contributed \$725,372 through their required contributions ranging from \$576 to \$617 per month for retiree-only coverage and from \$1,103 to \$1,173 for retiree and spouse coverage, depending on health plan selected.

<u>Annual OPEB Cost and Net OPEB Obligation</u>. The District's annual OPEB cost (expense) is calculated based on the annual required contribution (ARC), an amount actuarially determined in accordance with the parameters of Governmental Accounting

Standards Board Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*. The ARC represents a level of funding that is paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years.

The following table shows the District's annual OPEB cost for the fiscal year, the amount actually contributed to the plan, and changes in the District's net OPEB obligation for Postemployment Healthcare Benefits:

**Funded Status and Funding Progress.** As of July 1, 2017, the most recent actuarial valuation date accrued liability for benefits was \$13,352,567, and the actuarial value of assets was \$0, resulting in an unfunded actuarial accrued liability of \$13,352,567 and a funded ratio of 0 percent. The covered payroll (annual payroll of active participating employees) was \$109,705,301 for the 2016-2017 fiscal year, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 12.17 percent.

### 14. OTHER POSTEMPLOYMENT BENEFITS PAYABLE (Concluded)

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment and termination, mortality, and the healthcare cost trends. Amounts determined regarding the funded status of the OPEB Plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress presents multiyear trend information about whether the actuarial value of the OPEB Plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits. The schedule of funding progress can be found on page 82 of this report.

<u>Actuarial Methods and Assumptions</u>. Projections of benefits for financial reporting purposes are based on the substantive plan provisions, as understood by the employer and participating members, and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and participating members. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of the assets, consistent with the long-term perspective of the calculations.

The District's OPEB actuarial valuation as of July 1, 2017, used the projected unit credit actuarial cost method to estimate the unfunded actuarial accrued liability as of June 30, 2017, and to estimate the District's 2016-2017 fiscal year annual required contribution. Because the OPEB liability is currently unfunded, the actuarial assumption included a 4 percent rate of return on invested assets. The actuarial assumptions also included a payroll growth rate of 3 percent annually and an annual healthcare cost trend of 7.75 percent for the 2015-16 fiscal year, reduced by 0.5 percent per year, to an ultimate rate of 5 percent after 6 years. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payrolls on an open basis over a 30-year period. The remaining amortization period at June 30, 2017, was 30 years.

### 15. COMMITMENTS

The District uses encumbrance accounting for recording purchase order commitments for goods and services. At June 30, 2017, encumbrances totaled \$7,888,636 consisting of \$1,517,807 within the School Food Service, \$2,071,788 within the Local Capital Improvement Fund, and \$4,299,041 within Other Capital Projects.

### 16. MEMBERSHIP IN NONPROFIT CORPORATION

The District participated in a nonprofit electric cooperative, the Withlacoochee River Electric Cooperative, Inc., established under the provisions of Chapter 425, Florida Statutes. In accordance with this statute, revenues in excess of operating expenses, unless determined by a vote of the membership, are distributed by the Cooperative on a pro rata basis to its members. The policy of the Cooperative is to credit the excess revenues to members' accounts. Capital credits are distributed only after the

Cooperative attains a certain margin of profit required by the Rural Electrification Administration. At June 30, 2017, the accumulated credits to the District's account are \$4,169,079. During the 2016-2017 fiscal year, the District received \$150,618 in capital credits.

### 17. RISK MANAGEMENT PROGRAMS

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District is a participating district of the North East Florida Educational Consortium (Consortium) under which several district school boards have established a combined limited self-insurance program for property protection, general liability, automobile liability, workers' compensation, money and securities, employee fidelity and faithful performance, boiler and machinery, and other coverage deemed necessary by the members and participants of the Consortium. Section 1001.42(12) (k), Florida Statutes, provides the authority for the District to enter into such a risk management program. The Consortium is self-sustaining through member and participant assessments (premiums), and purchases coverage through commercial companies for claims in excess of specified amounts. Reinsurance from commercial companies provided excess property coverage of up to \$75 million during the 2016-2017 fiscal year, which is the same excess property coverage provided during the 2015-2016 fiscal year. The Board of Directors for the Consortium is composed of superintendents of all member districts. The Putnam County District School Board serves as fiscal agent for the Consortium.

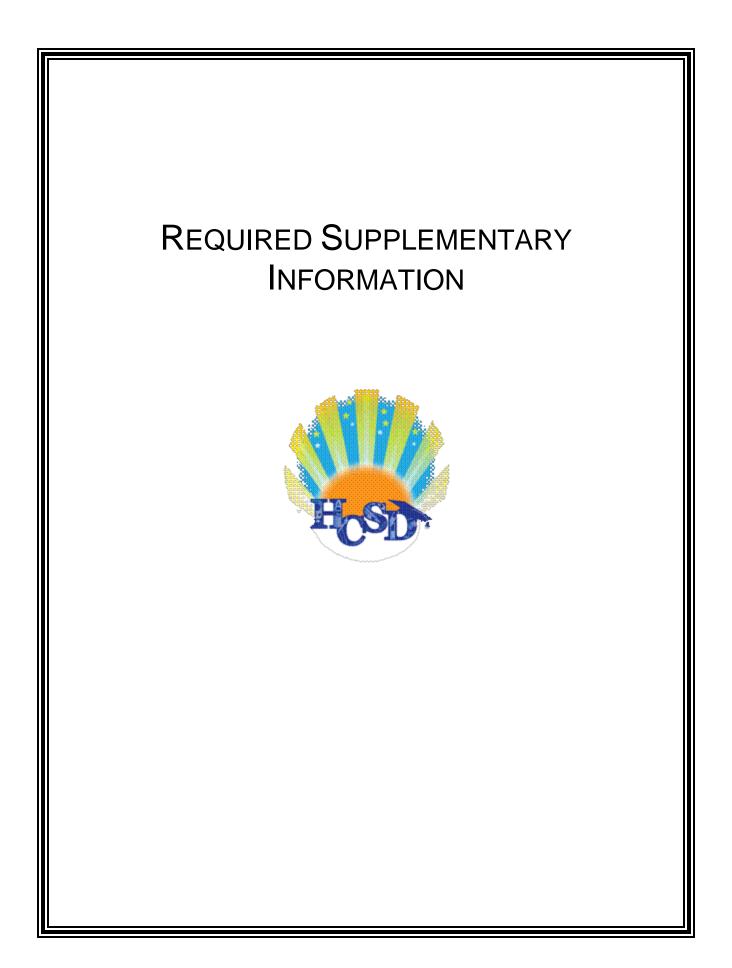

Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past 3 fiscal years.

Health and hospitalization coverage is being provided through purchased commercial insurance with minimum deductibles for each line of coverage. Settled claims resulting from these risks have not exceeded commercial coverage in any of the past 3 fiscal years.

### 18. LITIGATION AND CONTINGENCIES

The District is subject to potential litigation in the normal course of business. It is the opinion of management, after giving consideration to the District's related insurance coverage, as well as the Florida statutory limitations on governmental liability on uninsured risks, that the amount of losses resulting from litigation, which exceed the above-mentioned limits, would not be material to the financial position of the District.

Amounts received or receivable from grantors are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures, which may be disallowed by grantors, cannot be determined at this time. In the opinion of the management of the District, no material refunds will be required as a result of expenditures disallowed by grantors.

# DISTRICT SCHOOL BOARD OF HERNANDO COUNTY, FLORIDA NOTES TO REQUIRED SUPPLEMENTARY INFORMATION June 30, 2017

### 1. GAAP TO BUDGET COMPARISON

There is no GAAP reconciliation required between budgetary inflows and outflows and generally accepted accounting principles revenues and expenditures since both reflect the modified accrual basis of accounting.

### 2. BUDGETARY COMPLIANCE AND ACCOUNTABILITY

The Board follows procedures established by State statutes and State Board of Education rules in establishing budget balances for governmental funds, as described below:

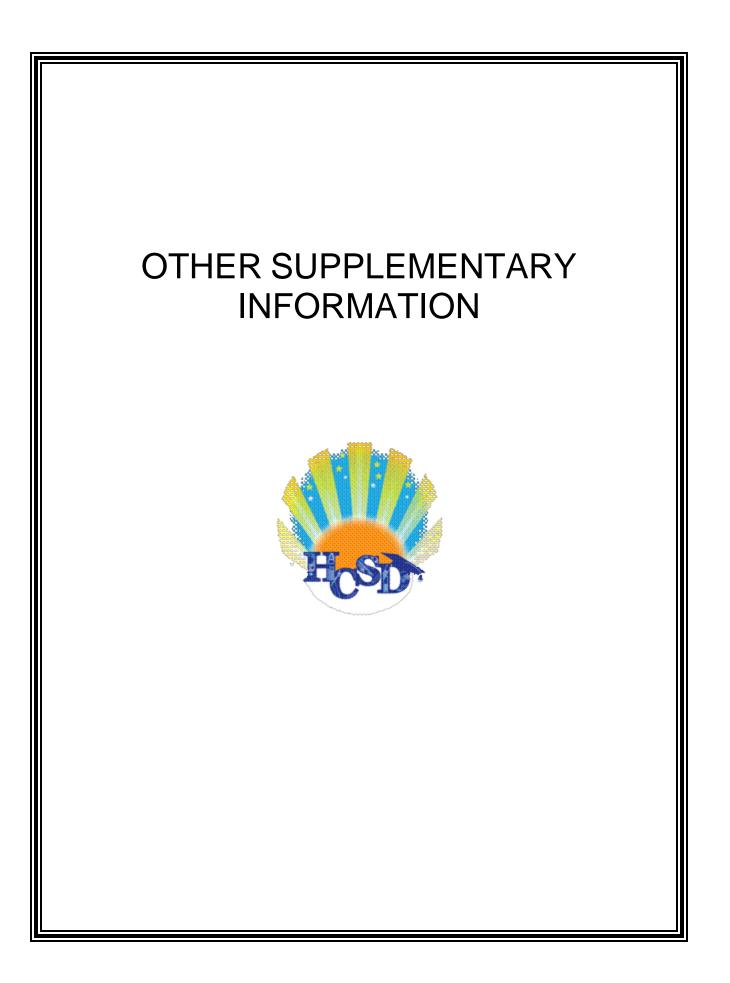

- Budgets are prepared, public hearings are held, and original budgets are adopted annually for all governmental fund types in accordance with procedures and time intervals prescribed by law and State Board of Education rules.
- Appropriations are controlled at the object level (e.g., salaries, purchased services, and capital outlay) within each activity (e.g., instruction, pupil personnel services, and school administration) and may be amended by resolution at any School Board meeting prior to the due date for the annual financial report.
- Budgets are prepared using the same modified accrual basis as is used to account for governmental funds except that no budget appropriation is made for capital leases in the year of inception.
- Budgetary information is integrated into the accounting system and, to facilitate budget control, budget balances are encumbered when purchase orders are issued. Appropriations lapse at fiscal year-end and encumbrances outstanding are honored from the subsequent year's appropriations.

### 3. SCHEDULE OF NET PENSION LIABILITY AND SCHEDULE OF CONTRIBUTIONS – FLORIDA RETIREMENT SYSTEM PENSION PLAN

*Changes of Assumptions.* As of June 30, 2016, the inflation rate assumption was decreased from 3 percent to 2.60 percent, the real payroll growth assumption was decreased from 1 percent to 0.65 percent, and the overall payroll growth rate assumption was decreased from 3.25 percent to 2.30 percent. The long-term expected rate of return decreased from 7.65 percent to 3.76 percent.

### 4. SCHEDULE OF NET PENSION LIABILITY AND SCHEDULE OF CONTRIBUTIONS – HEALTH INSURANCE SUBSIDY PENSION PLAN

*Changes of Assumptions.* The municipal rate used to determine total pension liability decreased from 4.29 percent to 3.80 percent.

(1) Prior to 2011, the growth in net position was due primarily to the increase in property taxes, increase in impact fees, and inception of the second voter approved local option half cent sales tax. These revenues were used to payoff debt and to construct or purchase capital assets that will be expensed in future years through depreciation. The recent decline in net position is primarily due to the implementation of GASB 68 which required the District to report a proportionate share pension liabilities, reduction of State education funding, Federal ARRA funding and the collection of property taxes.

#### DISTRICT SCHOOL BOARD OF HERNANDO COUNTY, FLORIDA GOVERNMENTAL ACTIVITIES TAX REVENUES BY SOURCE LAST TEN FISCAL YEARS (Accrual Basis of Accounting) (Unaudited)

(1) Fiscal year ending June 30, 2005, the District began receiving a new 10-year local option half cent sales tax that was approved by voters on March 9, 2004. The half cent sales tax expired on December 31, 2014, however a new ten year half cent sales tax, commencing on January 1, 2016, was subsequently approved in a special election held in September 8, 2015.

(2) The property tax for Debt Service steadily declined over the years because the debt service requirement also declined. In prior years, the combination of an increase in taxable property values and the decline in millage necessary to meet the debt service, reduced the amount levied for debt service. However, in the 2009-2010 fiscal year, sufficient funds were available to meet the debt service requirement thereby eliminating the need to levy a specific debt service millage. Collections represent collections from prior years.

(1) Fair Market Value of property is amount it could sell for in a competitive open market, assuming that the buyer and seller both acted knowledgeably and without duress.

(2) Assessed value of property is different than fair market value for those properties that have assessment limitations on them, such as the Save Our Homes (SOH) limitation, "greenbelt" for properties which have an agricultural use classification, and pollution control devices.

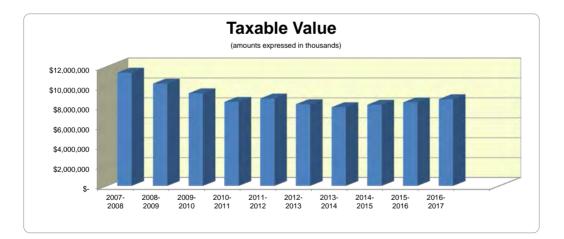

(3) There are a number of property tax exemptions which include, but are not limited to; homestead, low income seniors, widow/widowers, blind, disabled, veterans, government, and institutional.

(4) Taxable value of property is the resulting value after all applicable exemptions have been deducted from the assessed value of the property. The taxable value is what the millage rates are applied to develop the ad valorem property tax. The 2011 Values based on Final Certification dated October 4, 2011. All other years based on re-certification values after the Value Adjustment Board.

(5) Centrally assessed property are the railroad tracks and train cars which cross county lines and are assessed by the Florida Department of Revenue, who provides the assessed values to the respective Property Appraiser.

(6) Base Millage Rate comprised of total County, total School and Southwest Florida Management District countywide levy. Specific basins, special ad valorem districts, and municipalities are not included. See calculation of base millage rate on Table 8 page 109.

(1) Net of allowable discounts

Note: Property taxes become due and are payable between November 1st of the year assessed and March 31st of the following year. A four percent (4%) discount is allowed if the taxes are paid in November, with the discount declining by one percent (1%) each month thereafter. Accordingly, taxes collected will never equal 100% of the tax levy. Taxes become delinquent on April 1st of each tax year and tax certificates for the full amount of any unpaid taxes and assessments must be sold no later than June 1st of each year. Accordingly, the majority of taxes are collected in the fiscal year levied.

(1) Overlapping governments are those whose geographic area coincides at least in part with the area of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the property taxpayers of Hernando County. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the property taxpayers should be taken into account.

Notes:

(1) <u>Basis of Presentation</u> - The Schedule of Expenditures of Federal Awards represents amounts expended from Federal Programs during the 2016-2017 fiscal year as determined based on the modified accrual basis of accounting. The amounts reported on the Schedule have been reconciled to and are in material agreement with amounts recorded in the District's accounting records from which the basic financial statements have been reported.

(2) <u>Noncash Assistance - Food Donation</u> - Represents the amount of donated food received during the 2016-2017 fiscal year totaling \$0 and for cash-in-lieu of foods totaling \$794,019. Donated food is valued at fair value as determined at the time of donation by the Florida Department of Agriculture and Consumer Services, Bureau of Food Distribution.

# INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Hernando County District School Board and Superintendent of Schools Brooksville, Florida

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Hernando County District School Board (the District), as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated February 23, 2018. Our report includes a reference to other auditors who audited the financial statements of the three Charter Schools listed as discretely presented component units and the Agency Fund listed as aggregate remaining fund information, as described in our report on the District's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

## **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify a certain deficiency in internal control that we consider to be a significant deficiency in internal control, as follows:

# INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS (Concluded)

### Internal Control Over Financial Reporting (Concluded)

Finding-2017-1—Inventory of Capital Assets (Also included in the 2014, 2015, and 2016 prior year audit reports and elevated to a significant deficiency during the 2017 audit as a result of an additional matter noted).

Per our review of the capital asset records and discussion with management, we noted that an inventory of capital assets should be performed that reconciles all capital assets in the subsidiary ledger with capital assets on hand. Additionally, we recommend that a schedule of approved construction projects in process be maintained to further reconcile records with responsible departments to monitor costs to-date and completion of costs for future capitalization.

During our review of the capital asset audit area, we noted discrepancies of the information provided and management was required to provide additional information and reconciliations. In addition we noted in the 2017 fiscal year that an invoice for construction costs of approximately \$900,000 was never submitted for payment from the department responsible for the approval of construction invoices.

We recommend that the departments responsible for the safeguarding of these capital assets and record keeping, perform additional reviews and reconciliations of the physical locations of these capital assets, including the documentation of the procedures to ensure that the inventory records and the financial records are in agreement. These additional procedures should provide for improvement in financial reporting, timely payment, and monitoring of construction and capital assets.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's basic financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted another matter that we reported to management of the District in a separate letter dated February 23, 2018.

### **School Boards Response to Findings**

The School Board's response to the findings identified in our audit is described in the accompanying letter. The School Board's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of the audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Hernando County District School Board and Superintendent of Schools Brooksville, Florida

## **Report on Compliance for Each Major Federal Program**

We have audited the Hernando County District School Board's (the District) compliance with the types of compliance requirements described in the Office of Management and Budget, *Compliance Supplement*, that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2017. The District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

### **Management's Responsibility**

Management is responsible for compliance with the federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

### **Auditors' Responsibility**

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures, as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination on the District's compliance.

### **Opinion on Each Major Federal Program**

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2017.

## INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE (Concluded)

## **Report on Internal Control Over Compliance**

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance; such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected and corrected on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program will not be prevented or detected and corrected on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

# MANAGEMENT LETTER

Hernando County District School Board and Superintendent Brooksville, Florida

### **Report on the Financial Statements**

We have audited the financial statements of the Hernando County District School Board, Florida (the District), as of and for the fiscal year ended June 30, 2017, and have issued our report thereon dated February 23, 2018. Our report includes a reference to other auditors. Other auditors audited the financial statements of the three Charter Schools included in the aggregate discretely presented component units and the Fiduciary Funds included in the aggregate remaining fund information, as described in our report on the District's financial statements. This letter does not include the results of the other auditors' and such information related to those audits is reported on separately by those auditors.

### **Auditors' Responsibility**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance); and Chapter 10.800, *Rule of the Auditor General* 

## **Other Reporting Requirements**

We have issued our Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standard*, Independent Auditors' Report on Compliance for Each Major Program and on Internal Control over Compliance Required by the Uniform Guidance, Schedule of Findings and Questioned Costs, and our Independent Accountants' Report in accordance with Chapter 10.800, *Rules of the Auditor General*. Disclosures in those reports and schedule, which are dated February 23, 2018, should be considered in conjunction with this Management Letter.

## **Prior Audit Findings**

Section 10.804(1)(f)1., *Rules of the Auditor General*, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. Corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report except as noted below under the heading Prior Year Findings and Recommendations (see Management Letter Comment).

# MANAGEMENT LETTER (Concluded)

# **Financial Condition and Management**

Section 10.804(1)(f)2., *Rules of the Auditor General*, requires us to communicate whether or not the District has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and identification of the specific condition(s) met. In connection with our audit, we determined that the District did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.804(1)(f)5.a and 10.805(7), *Rules of the Auditor General*, we applied financial condition assessment procedures for the District. It is management's responsibility to monitor the District's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by the same.

Section 10.804(1)(f)3., *Rules of the Auditor General*, requires that we communicate any recommendations to improve financial management. In connection with our audit, please see the accompanying Management Letter Comments.

## Transparency

Section 10.804(1)(f)6., *Rules of the Auditor General*, requires that we communicate results of our determination as to whether or not the District maintains on its Web site the information specified in Section 1011.035, Florida Statutes. (Section 1011.035, Florida Statutes, provides that district school boards shall prominently post on their Web site a plain language version of each proposed, tentative, and official budget that describes each budget item in terms that are easily understandable to the public). In connection with our audit, we determined that the District maintained on its Web site the information specified in Section 1011.035, Florida Statues.

## **Additional Matters**

Section 10.804(1)(f)4., *Rules of the Auditor General*, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with our audit, we did not have any such findings.

## **Purpose of this Letter**

Our Management Letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, the District School Board members, and applicable management and is not intended to be and should not be used by anyone other than these specified parties.

# MANAGEMENT LETTER COMMENTS

Hernando County District School Board and Superintendent Brooksville, Florida

During the course of our 2017 audit, the following items came to our attention. These items involve primarily operational matters, which, if improved, will result in more efficient and effective operations.

## **Prior Year Findings and Recommendations**

# 2017-2 Information Technology System and Controls (Prior Year 2016-1) (Updated for 2017)

During our review of the District's current information technology system (IT) and general access controls to the system, we noted certain areas that need to be considered for improvement:

Both the current AS400 system that supports the TERMS financial application system and the TERMS application system itself, is aging and well behind modern technology. The age of the system and financial application is making it difficult and cumbersome to offer the functionality and capability to achieve the District's objectives and requirements. We recommend that management determine if the continued use of this outdated technology will be able to serve the needs of the School Districts technology needs.

At this time, we would like to thank the management and Superintendent of the District for the professionalism and courteous assistance provided throughout the audit process.

## INDEPENDENT ACCOUNTANTS' REPORT

Hernando County District School Board and Superintendent of Schools Brooksville, Florida

We have examined Hernando County District School Board (the District)'s compliance with the requirements of Section 218.415, Florida Statutes with regards to the District's investments during the fiscal year ended June 30, 2017. Management is responsible for the District's compliance with those requirements. Our responsibility is to express an opinion on the District's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the District complied, in all material respects, with the requirements referenced above. An examination involves performing procedures to obtain evidence about whether the District complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Our examination does not provide a legal determination on the District's compliance with specified requirements.

In our opinion, the District complied, in all material respects, with the aforementioned requirements during the fiscal year ended September 30, 2017.

This report is intended solely for the information and use of the Florida Auditor General, the Board of Supervisors of the District, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties

Re: Hernando County District School Board Preliminary and Tentative Audit Findings for the Fiscal Year Ended June 30, 2017

Dear Ms. Painter,

Please accept the following written response concerning the preliminary and tentative audit findings for the Hernando County School Board's 2016-2017 fiscal year financial and federal audit.

# Finding No. 2017-1 Inventory of Capital Assets

The District has developed and implemented the auditor's recommendations by establishing written procedures that document additional reviews to properly reflect the assignment of capital assets. District Warehouse and Property Control staff have been trained on the new inventory procedures to ensure the completeness and accuracy of reporting inventory. Also, the Manager of Warehouse will participate in bookkeeper trainings throughout the year to review property control and capital asset procedures.

Districtwide inventory of capital assets will be conducted periodically throughout the school year. Upon completion, Technology Information Services will run a missing property report by site location. Sites with missing property will receive a copy of this report and will be required to provide any missing documentation to the Property Control Department within ten working days upon receipt of the report.

Technology Information Services has established security controls within our current Enterprise Resource Software system to require the approval of the Manager of Warehouse for any purchases with the acquisition cost of more than \$1,000 to ensure that all capital asset purchases will be properly labeled and recorded into inventory. All capital asset purchases will be logged into a spreadsheet by site location indicating the date of acquisition, vendor name, purchase order number, cost, account number and asset number. The spreadsheet will include district and internal purchases, cannibalizations and donations. A Property Transfer form is required when property is transferred within the District. All Property Transfer forms are entered and tracked in School Dude Software.

Facilities has developed procedures for processing construction projects and reconciling records within departments. All construction projects will be maintained on a spreadsheet that lists the project name, account number, purchase order number, payment history and retainage payable. The spreadsheet will be cross referenced to the Districts Enterprise Resource Software to monitor cost to date and completion of costs for future capitalization.

Re: Hernando County District School Board Preliminary and Tentative Audit Findings for the Fiscal Year Ended June 30, 2017

Dear Ms. Painter,

Please accept the following written response to the prior year finding for the Hernando County School Board's 2016-2017 Fiscal Year financial and federal audit.

Finding No. 2017-2 Information Technology System and Controls (Prior Year 2016-1) (Updated for 2017)

On February 13, 2018, the District received tentative approval to purchase a new Enterprise Resource Planning (ERP) system (Skyward). The final approval to purchase the new ERP system is scheduled to be presented for Board approval on February 27, 2018. Skyward will be replacing a legacy system that has been used by the District for more than 23 years. This new system will allow current manual processes to become automated which will increase efficiencies and sustainable operations, enhance internal controls, and ensure accuracy in financial reporting.

If you should have any questions or concerns, please contact Joyce McIntyre, Director of Finance & Purchasing at (352) 797-7004.
