MARCIA ANDREWS FRANK A. BARBIERI, JR., ESQ. KAREN M. BRILL BARBARA McQUINN ERICA WHITFIELD

November 29, 2017

To: School Board Members Residents of Palm Beach County

We respectfully submit the Comprehensive Annual Financial Report (CAFR) of the School District of Palm Beach County, Florida (the "District") for the fiscal year ended June 30, 2017. These financial statements are presented to conform to accounting principles generally accepted in the United States of America ("GAAP") as applied to governmental units and are audited in accordance with auditing standards generally accepted in the United States of America financial states of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

ROBERT M. AVOSSA, ED.D.

SUPERINTENDENT

This report consists of management's representations concerning the finances of the District. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the District has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the District's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the District's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

State law Section 218.39(1), Florida Statutes, requires that each school district have an annual financial audit of its accounts and records completed within nine months after the end of its fiscal year by an independent certified public accountant. The District engaged RSM US LLP, a firm of licensed certified public accountants, to audit the District's financial statements for fiscal year 2017.

The District received an unmodified ("clean") opinion on the financial statements for the fiscal year ended June 30, 2017. The independent auditor concluded, based upon the audit, that there was reasonable assurance the financial statements are free of material misstatement. The audit included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management and evaluating the overall financial statement presentation. The independent auditor's report is presented as the first component of the financial section of this report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A which can be found immediately following the report of the independent certified public accountants.

PROFILE OF THE GOVERNMENT

The District and its governing board (the "Board") were created pursuant to Section 4, Article IX of the Constitution of the State of Florida. The District is an independent taxing and reporting entity managed, controlled, operated, administered, and supervised by District school officials in accordance with Chapter 1001, Florida Statutes. The Board consists of seven elected officials responsible for the adoption of policies, which govern the operation of the District's public schools. The Superintendent is responsible for the administration and management of the schools within the applicable parameters of State Laws, State Board of Education Rules, and School Board Policies. The Superintendent is also specifically delegated the responsibility of maintaining a uniform system of records and accounts for the District by Florida Statutes Section 1010.01, as prescribed by the State Board of Education.

The CAFR contains the audited financial statements for all operations over which the District is financially accountable. District management has determined that the Palm Beach School Board Leasing Corporation, (the "Corporation") represents a blended component unit of the District and the Corporation's activities are reported with the operations of the District in the accompanying financial statements. The Corporation's sole purpose is to provide for financing and construction of certain District school facilities under the District's Certificates of Participation (COPS) Program.

The District is legally responsible for providing a full range of educational programs in Palm Beach County. These include Early Childhood, Kindergarten through Grade 12, Basic Regular and Enriched Programs, Exceptional Student Education, Vocational Education, Adult Education and specialized instruction, in areas such as English proficiency for speakers of other languages.

Covering 2,023 square miles (2,578 square miles including lakes), it is one of the largest counties east of the Mississippi River. To fully appreciate its size, consider that Palm Beach County is larger than both Rhode Island and Delaware. In the past decade, total population in the county is 1.4 billion, which represents a slow steady growth. The community is vastly diverse in both geographical aspects as well as population. The eastern portion of the county is a rich thriving urban area, while the western portion is primarily agricultural.

The District is the tenth largest in the Nation and the fifth largest in the State of Florida with 180 District schools and 51 charter schools. Approximately 190,200 students were enrolled in Palm Beach County Public Schools during fiscal year 2017. Of the total students enrolled, approximately 169,300 are in District schools and 20,900 are in charter schools, representing an increase of 2,400 students in District schools and an increase of 300 students in charter schools. As the largest employer in Palm Beach County, the District has over 22,000 full time employees, including nearly 13,000 teachers.

District management has determined that charter schools are not part of the District's Reporting Entity and should not be reported as discretely presented component units. The District is not financially accountable for charter schools since charter schools are not fiscally dependent on the District. Charter schools also fail to meet the definition of "misleading to exclude" since the District does not have the ability to access the economic or organizational resources received or held by a charter school. Additional information on component units can be found in the notes to the financial statements. Charter schools are separate legal entities with independent boards that were created by Florida Statute and are authorized to operate in each county by the sponsoring district. Charter schools receive a per student allocation based on the Florida Department of Education standard formula that is passed through the sponsoring district. The District is not financially accountable for charter schools and therefore their financial information is not included in this report. The demographics of our District reflect our rich cultural diversity. For example, our students speak more than 145 languages with 197 different countries or territories of birth. The population of the county is approximately 56% White, 21.2% Hispanic, 19.4% Black, 2.8% Asian, and 0.6% American Indian and Alaska Native. There are over 39,700 students with Individualized Education Plans or Educational Plans (for gifted students). Of the total, approximately 29,500 are eligible for services under the Individuals with Disabilities Education Act. Approximately 61% of our students participate in the National School Lunch Program which provides free and reduced lunch to children each school day.

The District maintains budgetary controls to ensure compliance with legal provisions embodied in the annual appropriations budget approved by the Board. Activities of the General Fund, Special Revenue Funds, Debt Service, and Capital Projects Funds are included in the annual appropriations budget. Although financial plans are adopted for the capital projects funds based on the actual length of the project, the continued funding for the projects is contingent upon the annual budget adoption. The level of budgetary control (the level at which expenditures cannot legally exceed the appropriated amount) is established by function within each school center, department, or project. Budgetary control is maintained at the function level by the encumbrance of estimated purchase commitments prior to the release of purchase orders (PO) to vendors. When commitments exceed established function balances, POs are not released until additional appropriations are made available. Open encumbrances are reported as a restriction or assignment of fund balance at the end of the fiscal year. Budgetary control over salary expenditures is achieved through the position authorization process.

FACTORS AFFECTING FINANCIAL CONDITION

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the District operates.

Local economy

The economic outlook in Palm Beach County continues to improve. The County's unemployment rate has decreased to 4.4% in September 2017 from 4.8% in December 2016; in addition, property values continue to rise along with sales tax revenues. Efforts continue within Palm Beach County to build an economic base that is broad and diverse. Traditional industries include tourism, agriculture, and construction activities with new business sectors such as aerospace, medical and biomedical, and business and professional services.

Public-private partnerships, including the Business Development Board and Career Source Palm Beach County, are shaping strategies to attract and cultivate companies that will pay high wages for highly skilled jobs in targeted areas with growth potential, such as medical services and computer technology. The District has become an integral part of these efforts. Preparing students for productive employment is crucial to successful economic development.

Long-term financial planning

The District continues to face challenges in the near term due to meager State K-12 education budget forecasts, moderate charter school enrollment growth, and limitations in capital millage rates allowed by Statute which were reduced from 2.0 mills to 1.5 mills by the Legislature.

Although the State economy continues to improve, funding for K-12 education is not expected to grow proportionally due to competition with other budget drivers including tax cuts, Medicaid, and higher education. The District's revenues are determined in large part by the Florida Legislature and Governor. Funding per student is set as part of the State's annual budget approval. Local school board taxing authority is also governed at the Required Local Effort

(RLE) and through statutory caps that limit the remaining components of the school levy. The fiscal year 2018 state budget provided Florida school districts with a 2.26% increase in funding per student for operating costs compared to 1.66% in the fiscal year 2017 state budget. The increase for Palm Beach was slightly higher due to categorical adjustments and local tax levies. Florida continues to rank in the bottom quartile of the nation in terms of education funding (42nd per 2016 National Education Association) and there is no indication this will change in the foreseeable future.

Enrollment in public schools in Palm Beach County is projected to increase by approximately 3,000 students in fiscal year 2018, District enrollment is projected to increase by 1,850 students, while the enrollment in charter schools is expected to increase by 1,150. The trend of charter school enrollment growth has slowed. By fiscal year 2022, charter school enrollment is projected to grow to 23,640 students, up from 20,860 in fiscal year 2017.

The voter approved 0.25 millage property tax levy for operations generated \$43.1 million in revenue in fiscal year 2017 and runs through fiscal year 2019. The revenue is designated for art, music, physical education instruction, choice programs, and career academies and funds over 600 teaching positions. It is important that the community continue to support the referendum to preserve fine arts in District schools.

Providing adequate facilities to all students is fundamental to maintaining an effective education system. The District operates 180 schools in 172 school buildings in Palm Beach County and 99 of those schools were either newly built or modernized over an ambitious ten-year construction program that was supported by new debt issues and a voter approved ½ cent sales tax referendum that sunset in December 2010. Since the capital millage rates allowed by Statute were lowered from 2.0 mills to 1.75 mills in fiscal year 2009, and then to 1.5 mills in fiscal year 2010, the District has utilized carryover balances to bridge the gap between revenue received and the actual costs of facility maintenance and that of non-construction projects. The difference between 2.0 and 1.5 mills resulted in lost revenue totaling \$865 million over the last nine years. In November 2016, Voters in Palm Beach County stepped up to address this significant shortfall by increasing the local sales tax by one penny in order to address the backlog of critical capital needs, including school security and safety, classroom technology, and safe and reliable school buses. This one penny Local Government Infrastructure Surtax to be split 50% to the District, 30% to the County, and 20% to municipalities. The District is anticipated to receive \$1,345 billion over the next ten years.

ACADEMIC BASED AWARDS AND ACKNOWLEDGEMENTS

- 2017 higher percentage of A and B rated elementary, middle, and high schools than that of the State or other large urban district
- Has 60 semifinalists for the 2018 National Merit Scholarship Program, allowing them to continue in the competition for approximately 7,500 National Merit Scholarships worth about \$32 million
- Received \$7.6 million Grant for three Schools of Hope
- 26 schools were recognized as model schools by Florida's Positive Behavioral Interventions & Support Project for the 2017 school year, for their efforts in implementing the School-wide Positive Behavior Support system (SwPBS)
- Three schools received STEM Certification the first year it was offered
- Two schools in top 100 by US News and World Reports Best High Schools
- 12,000 Class of 2017 graduates earned over \$110 million in scholarships to attend top colleges and universities

FINANCIAL AWARDS AND ACKNOWLEDGEMENTS

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for its CAFR for the fiscal year ended June 30, 2016. This was the 27th consecutive year that the District has received this prestigious award. In order to be awarded a Certificate of Achievement, the District published an easily readable and efficiently organized CAFR. This report satisfied both GAAP and applicable legal requirements.

The Association of School Business Officials International (ASBO) awarded a Certificate of Excellence in Financial Reporting to the District for its CAFR for the fiscal year ended June 30, 2016. The Certificate of Excellence in Financial Reporting awarded by ASBO certifies that the CAFR substantially conforms to the accounting and reporting standards adopted by ASBO. The District has received a Certificate of Excellence in Financial Reporting for the last 20 consecutive years for which it was submitted.

The GFOA Certificate of Achievement and the ASBO Certificate of Excellence are valid for a period of one year only. We believe that our current CAFR continues to meet the requirements of the Certificate of Achievement Program as well as the Certificate of Excellence Program. Accordingly, we are submitting it to both the GFOA and ASBO for consideration for another award.

The preparation of the CAFR would not have been possible without the efficient and dedicated services of the entire staff of the Accounting Department. We would like to express our appreciation to all members of the department who assisted and contributed to the preparation of this report.

In closing, we would like to thank the School Board for their support in planning and conducting the financial operations of the District.

Respectfully submitted

Robert M. Avossa, Ed.D., Superintendent of Schools

Michael J. Burke, Chief Financial Officer

Nancy Samuels C.P.A., Director of Accounting

Independent Auditor's Report

The Honorable Chairperson and Board Members of The School District of Palm Beach County, Florida

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of The School District of Palm Beach County, Florida (the District), as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall financial statement presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the School District of Palm Beach County, Florida, as of June 30, 2017, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

THE POWER OF BEING UNDERSTOOD AUDIT | TAX | CONSULTING

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, Schedule of Funding Progress – Other Post-Employment Benefits Plan, Schedule of the District's Proportionate Share of the Net Pension Liability – FRS, Schedule of District Contributions – FRS, Schedule of the District's Proportionate Share of the Net Pension Liability – HIS, and Schedule of District Contributions – HIS, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, combining and individual non-major fund financial statements and schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual non-major fund financial statements and schedules are the responsibility of management and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying combining and individual non-major fund financial statements taken as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued, under separate cover, our report dated November 29, 2017, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

RSM US LLP

West Palm Beach, Florida November 29, 2017

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

The School District of Palm Beach County, Florida's (the "District") management discussion and analysis (MD&A) is designed to provide an objective and easy to read analysis of the District's financial activities for the fiscal year ended June 30, 2017, based on currently known facts, decisions or conditions. It is intended to provide a broad overview using a short-term and long-term analysis of the District's activities based on information presented in the financial report and fiscal policies that have been adopted by the seven elected members of the school board (the "Board"). Specifically, this section is designed to assist the reader in focusing on significant financial issues, provide an overview of the District's financial activity, identify changes in the District's financial position (its ability to address the next and subsequent year challenges), identify any material deviations from the financial plan (the approved budget) and identify individual fund issues or concerns.

As with other sections of this financial report, the information contained within this MD&A should be considered only a part of a greater whole. The reader of this statement should take time to read and evaluate all sections of this report, including the notes that are provided in addition to this MD&A.

FINANCIAL HIGHLIGHTS

- The net position of the District increased \$0.085 billion, or 6.5%, from \$1.310 billion to \$1.395 billion. Funding per student has slowly increased since the low point in school year 2011-12, although it has still not recovered to school year 2007-08 levels. Enrollment at district schools increased 1.5%, approximately 2,435 students. The increase in net position is mainly related to the revenue received for the new ½ penny sales tax with limited expenditures prior to year end.
- The District's total long-term debt decreased by \$128.7 million or 7.7% primarily due to debt repayments of \$85.9 million, amortization of issuance premiums of \$13.4 million, and a decrease in negative fair value of hedging derivative instruments of \$29.1 million (discussed in Notes 10 and 11).
- Total revenues increased by \$161.0 million or 8.1%, from \$1.987 billion to \$2.148 billion when compared to the prior year.
 - General revenue accounted for \$1.559 billion, or 72.6%, of all revenues and increased \$131.5 million or 9.2%. This increase is primarily attributed to new sales tax revenue of \$65.8 million, property tax increase of \$16.7 million (mainly due to 8% increase in property values offset by 6% lower millage rate), increase in the Florida Education Finance Program (FEFP) revenue of \$44.7 million and \$5 million increase in Medicaid revenue.
 - Program specific revenue in the form of charges for services, grants and contributions accounted for \$588.4 million, or 27.4% of all revenues and increased \$29.5 million or 5.3%. The increase is primarily attributed to an increase in reimbursements for school lunch and breakfast programs, increase in Class Size Reduction revenue, PECO, Charter School Capital Outlay and other State revenue, and an increase in Afterschool Program fees.
- Total expenses increased \$106.4 million from \$1.956 billion to \$2.063 billion. The increase in expenses is primarily due to \$72 million higher pension expense in the current year based on actuarially determined Net Pension Liability (and related Deferred Inflows and Outflows) as determined under General Accounting Standards Board (GASB) Statement No. 68, raises given to employees in 2017, and an increase in the amount passed through to charter schools of \$7.3 million.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

- The District's governmental funds reported combined fund balances of \$469.5 million.
 - o The General Fund (the primary operating fund), reflected on a current financial resources basis, ended the year with a fund balance of \$138.5 million. Of this amount, \$52.0 million is classified as unassigned that is available to cover unanticipated financial needs and includes the Board approved contingency, \$58.2 million is classified as assigned, \$20.4 million is classified as restricted and \$7.9 million is classified as nonspendable. During the current year, General Fund revenues (including other financing sources) exceeded expenditures (including other financing uses) by \$11.3 million, primarily due to higher than anticipated revenues, staff vacancies, and less than expected charter school enrollment.
 - Debt Service funds ended the year with a fund balance of \$122.1 million and is restricted to cover debt service payments. COPS Debt Service fund, a major fund, has a restricted fund balance of \$116.4 million, and the remaining debt service funds which are included with the other non-major governmental funds have a restricted fund balance of \$5.7 million.
 - Capital Project funds ended the year with a fund balance of \$183.3 million and is restricted or assigned to fund existing and future capital projects. The Capital Improvement fund, a major fund, has a restricted fund balance of \$55.6 million. Total Non-Major capital funds have a restricted fund balance of \$92.0 million, mainly comprised of new sales tax fund (\$59.8 million), COPS Capital (\$15.1 million), and remaining Capital funds (\$17.1 million), and an assigned fund balance of \$35.7 million in Other Capital Projects Fund.
 - Special Revenue funds ended the year with a fund balance of \$25.6 million, of which \$20.4 million is restricted to child nutrition costs, and \$5.2 million is nonspendable inventory.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of two parts – management's discussion and analysis (this section) and the basic financial statements. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are *government-wide financial statements* that provide both *short-term* and *long-term* information about the District's *overall* financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the District, reporting the District's operations *in more detail* than the government-wide statements.
- The *governmental funds* statements tell how *basic* services like instruction and instructional support services were financed in the *short-term* as well as what remains for future spending.
- *Proprietary funds* statements offer *short-term* and *long-term* financial information about the activities the District operates *like businesses*, such as group health self-insurance and long term claim self-insurance.
- *Fiduciary funds* statements provide information about the financial relationships in which the District acts solely as a *trustee or agent* for the benefit of others.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

| Figure 1 Major Features of Government-Wide and Fund Financial Statements | | | | | | | | | |
|---|--|---|---|---|--|--|--|--|--|
| | Government-wide | Fund Financial Statements | | | | | | | |
| | Statements | Governmental | Proprietary Funds | Fiduciary Funds | | | | | |
| | | Funds | | | | | | | |
| Scope | Entire District (except fiduciary funds) | The activities of the District that are not proprietary or fiduciary, such as instructional costs | Activities the District operates similar to private businesses: health internal service fund and worker's compensation, automobile and general liability claims fund | Instances in which the District administers resources on behalf of someone else, such as scholarship programs and student activities monies | | | | | |
| Required financial statements | Statement of net position Statement of activities | Balance sheet Statement of revenue, expenditures, and changes in fund balances | Statement of net position Statement of revenue, expenses, and changes in fund net position Statement of cash flows | Statement of fiduciary net position Statement of changes in fiduciary net position | | | | | |
| Accounting basis and measurement focus | Accrual accounting and economic resources focus | Modified accrual accounting and current financial resources focus | Accrual accounting and economic resources focus | Accrual accounting and economic resources focus | | | | | |

Figure 1, above, summarizes the major features of the District's financial statements, including the portion of the District's activities they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis highlights the structure and contents of each of the statements.

Government-wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes *all* of the District's assets and liabilities. All of the current year's revenue and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's *net position* and how they have changed. Net position – the difference between the District's assets, deferred outflows liabilities, and deferred inflows – is one way to measure the District's financial health or position.

- Over time, increases or decreases in the District's net position is an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the overall health of the District, the reader needs to consider additional non-financial factors such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the government-wide financial statements, all the District's activities are reported as governmental activities.

• *Governmental activities* – All of the District's basic services are included here, such as regular and special education, transportation, and administration. Property taxes and state formula aid finance most of the activities.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

Fund Financial Statements

The fund financial statements provide more detailed information about the District's *funds*, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by State law and by bond covenants.
- The District establishes other funds to control and manage money for particular purposes (like repaying its long-term debts) or to show that it is properly using certain revenues (like federal grants).

The District has three kinds of funds:

- *Governmental funds* Most of the District's basic services are included in governmental funds, which generally focus on (1) how *cash and other financial assets* that can readily be converted to cash flow in and out, and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed *short-term* view that helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, the District provides additional information with the governmental funds statements that explain the relationship (or differences) between them.
- *Proprietary funds* Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the government-wide statements. There are two types of proprietary funds:
 - *Enterprise funds* account for goods and services provided to those outside the District, generally on a user-charge basis. Currently, the District has no enterprise funds.
 - *Internal service funds* report self-insurance activities charged to the District's other programs and activities.
- *Fiduciary funds* The District is the trustee, or fiduciary, for assets that belong to others, such as the scholarship fund and the student activities funds. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong.
 - The District excludes these activities from the government-wide financial statements because the District cannot use these assets to finance its operations.

Notes to the Financial Statements – The notes provided, disclosures and additional information that are essential to a full understanding of the financial information presented in the government-wide and fund financial statements.

Other Information – In addition to the basic financial statements and accompanying notes, this report also provides certain required supplementary information, as well as combining and individual fund statements and schedules beginning with page 77.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

Government-Wide

The District's net position was \$1.395 billion at June 30, 2017. The largest portion of the District's net position, \$1.757 billion, reflect its investment in capital assets (i.e. land, buildings, furniture, buses and equipment), less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. An additional portion of the District's net position (\$320.0 million) represents resources that are subject to external restrictions on how they may be used, the increase of \$82.3 million is mainly related to new Sales Tax Fund.

| | Table 1 | | | |
|---------------------------------------|-------------------|---------------|------------|------------|
| | Summary of Net Po | | | |
| | Governmental Acti | | | |

| Capital assets (net) | 3,288,764 | 3,370,622 | (81,858) | (2.4%) |
| Total assets | 4,178,921 | 4,043,680 | 135,241 | 3.3% |
| Accumulated Decrease in Fair Value of | | | | |
| Hedging Derivatives | 61,946 | 91,076 | (29,130) | (32.0%) |
| Deferred Loss on Debt Refunding | 61,781 | 68,131 | (6,350) | (9.3%) |
| Pension Related | 378,156 | 159,861 | 218,295 | 136.6% |
| Total Deferred Outflows of Resources | 501,883 | 319,068 | 182,815 | 57.3% |
| Current and other liabilities | 405,045 | 308,677 | 96,368 | 31.2% |
| Long-term liabilities | 2,843,412 | 2,639,323 | 204,089 | 7.7% |
| Total liabilities | 3,248,457 | 2,948,000 | 300,457 | 10.2% |
| Pension Related | 36,952 | 104,152 | (67,200) | |
| Total Deferred Inflows of Resources | 36,952 | 104,152 | (67,200) | 0.0% |
| Net position: | | | | |
| Net investment in Capital Assets | 1,756,568 | 1,760,930 | (4,362) | (0.2%) |
| Restricted | 320,003 | 237,692 | 82,311 | 34.6% |
| Unrestricted (deficit) | (681,176) | (688,026) | 6,850 | 1.0% |
| Total net position | \$ 1,395,395 | \$ 1,310,596 | \$ 84,799 | 6.5% |

Capital assets (net) decreased \$81.9 million or 2.4% compared to prior year and primarily reflects the impact of current year depreciation exceeding capital spending. See Note 7 of the Notes to the Financial Statements for more information on capital assets. Cash and other assets increased \$217.1 million or 32.3%, primarily as a result of \$115 million TANS outstanding at the end of year, and \$65.3 million of cash and taxes receivable generated by the new Sales Tax fund in the second half of the year.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

The analyses in Table 1, on page 7, and Table 2, below, focus on the summary of net position and summary of changes in net position for the District's governmental activities.

The results of this year's operations for the District as a whole are reported in the Statement of Activities. Table 2, above, takes the information from that statement and rearranges them slightly so the reader can see the total revenues and expenses for the current year compared to fiscal year 2016.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

As reported in the Statement of Activities, the cost of all of the governmental activities this year was \$2.063 billion. Some costs were paid by those who benefited from the programs (\$54.4 million), or by other governments and organizations who subsidized certain programs with grants and contributions (\$534.0 million). The District paid for the remaining "public benefit" portion of the governmental activities with \$1.2 billion in property taxes, \$65.8 million in Sales Tax, \$228.2 million in grants and contributions not restricted to specific programs, \$6.0 million in investment earnings, and \$40.9 million in other general revenue.

Property taxes increased \$16.7 million or 1.4%, which is primarily attributed to an 8% increase in property values partially offset by a 6% reduction in millage rate, as well as a \$4.2 million lower collection of prior year taxes than in fiscal year 2016. Sales Tax Revenue of \$65.8 million represents 6 months of collections for the current year for the newly approved penny sales tax, of which the District receives ½ cent.

Grants and contributions not restricted increased \$47.5 million or 26.3%, which is primarily related to an increase of \$44.7 million in FEFP revenue and an increase of \$5.0 million in Medicaid revenue. FEFP revenue increased mainly due to decrease in required local effort provided by property taxes.

The pie chart below represents total expenses classified by function.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

Governmental Funds

As of June 30, 2017 the District's governmental funds reported a combined fund balance of \$469.5 million, which is an increase of \$78.8 million or 20.2% over the prior year.

The General Fund, which is the chief operating fund of the District and is always considered a major fund, had a fund balance of \$138.5 million which is an increase of \$11.3 million or 8.9%. The increase is

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

primarily due to higher than anticipated revenues, staff vacancies and less than expected charter school enrollment. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$52.0 million.

The COPS Debt Service Fund, another major fund, reported an ending fund balance of \$116.4 million, which is a decrease of \$2.4 million or 2.0% when compared with prior year. The decrease is related to the amount of debt service payments the District will need to make in early fiscal year 2018.

The Capital Improvement Fund, another major fund, reported an ending fund balance of \$55.6 million which is an increase of \$15.5 million or 38.5% due to the timing of revenue and capital outlay spending.

Other Non-Major Governmental Funds, which represent a summarization of all the other non-major governmental funds, ended the year with total fund balance of \$159.0 million, an increase of \$54.4 million or 52.1%. This increase is primarily due to the new Sales Tax fund, which had a fund balance of \$59.8 million.

Proprietary Funds

The District's internal service funds reported a combined net position of \$100.0 million. The Health Internal Service Fund ended the year with a net position of \$96.4 million, which is an increase of \$7.4 million or 8.2% over last year due to premiums exceeding claims and other expenses. The Worker's Compensation and Claims Fund ended the year with a net position of \$3.6 million, which is an increase of \$30.9 million. Proprietary funds use accrual basis accounting, thus this Fund records actuarially determined long term claims liabilities. In the current year, the District fully funded the negative position in the Worker's Compensation and Claims Fund.

General Fund Budgetary Highlights

During the year, appropriations increased \$29.5 million from original budget to final budget. The increase in appropriations is primarily attributed to growth in weighted FTE from original appropriation of \$9.8 million, the District received a higher reimbursement for Medicaid eligible services by \$3.9 million, District school tax revenue increased \$2.7 million, miscellaneous local revenue increased \$6.2 million primarily due to an increase in E-rate and federal indirect cost, more investment income generated due to higher rates of \$2.8 million, offset in part by a decrease of \$6.5 million in transfers in from Capital Projects Funds for projects that were not completed during the year. Appropriations were amended to align with total revenue.

The General Fund actual expenditures were less than the budgeted appropriations by approximately \$85.1 million. This is primarily due to enhanced cost containment measures put in place, such as a hiring freeze on non-instructional positions and increased scrutiny of overtime and purchases, as well as unspent funds in programs such as afterschool, International Baccalaureate, Advanced Placement, AICE, Industry Certification, and state categorical programs.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

As shown in Table 3, on the next page, at June 30, 2017, the District had \$3.289 billion invested in a broad range of capital assets, including land, construction in progress, improvements other than buildings, buildings and fixed equipment, furniture, fixtures and equipment, motor vehicles, audio visual materials and computer software. This amount represents a net decrease (including additions, deletions and depreciation) of \$81.9 million from last year. The decrease is primarily due to depreciation expense of \$107.6 million exceeding capital spending of \$26.2 million. Capital spending in the current year reflects

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

the acquisition of 100 buses for \$11.4 million, completion of the installation of new air conditioner chillers at 18 locations for \$3.8 million, and land donation of \$3.7 million for a future Elementary School.

The District's successful building program, which was funded from the proceeds of the Sales Tax Referendum that ended in 2010 and capital millage proceeds, is complete. Between fiscal year 2001 and fiscal year 2017, forty-one (41) new schools were built and fifty-eight (58) others were replaced or totally renovated. In November 2016, the taxpayers of Palm Beach County approved a one penny sales surtax of which $\frac{1}{2}$ will be for the District. These new capital dollars will allow the District to continue its effort to provide state-of-the-art facilities, buses and technology for all of its students. See Note 7 of the Notes to the Financial Statements for more information on capital assets.

| Total capital assets, net | \$ | 3,288,764 | \$ | 3,370,622 | \$ | (81,858) | | | |

Long-term Debt

As shown in Table 4, at the end of this year, the District had \$1.648 billion in debt outstanding, which is \$128.7 million lower than last year. The decrease in outstanding debt is mainly due to debt principle repayments of \$85.9 million, regular amortization of \$13.4 million, and a decrease in negative fair value of hedging derivative instruments of \$29.1 million. See Notes 10 and 11 of the Notes to the Financial Statements for more information on long-term liabilities and derivatives.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

The District's certificates of participation are rated Aa3 by Moody's Investors Service, and AA- by Standard and Poor's Corporation, and AA- by Fitch Ratings Services.

The District is subject to State laws that limit the amount of State Board of Education Capital Outlay Bond Issues outstanding to 10% of the non-exempt assessed valuation. At June 30, 2017, the statutory limit for the District was approximately \$17.6 billion, providing additional debt capacity of approximately \$17.6 billion.

State Statute requires that no more that 75% of the capital millage levy be used for COP debt service. The District's debt policy limits the issuance of COPS by stating that the debt service could not exceed half of the capital millage levy. In fiscal year 2009, when the capital millage levy was reduced to 1.75 mils, the Debt Policy was amended to allow debt service to be up to 1 mil but should be within 50% of the capital millage levy within five years. Based on the reduction of the capital millage levy and existing property values, the District's capacity to issue new COPS debt has been dramatically reduced.

Other long-term obligations include liability for compensated absences, estimated claims liability, other post-employment benefits, and the reporting requirement of GASB No. 68 related to net pension liabilities.

FACTORS BEARING ON THE DISTRICT'S FUTURE

The School District's revenues are determined in large part by the Florida Legislature and Governor. Funding per student is set as part of the State's annual budget approval. Local school board taxing authority is also governed at the state level with the Legislature dictating the largest component of school property taxes, known as the Required Local Effort (RLE), and through statutory caps that limit the remaining components of the school levy. The fiscal year 2018 state budget provided Florida school districts with a disappointing \$100 (1.3%) increase in funding per student compared to a 3.9% projected growth in the State general revenue forecast. The increase for Palm Beach is slightly higher due to an increase in the District cost differential and local tax levies. District-wide enrollment is expected to increase approximately 2,800 students. It is no surprise that Florida continues to rank in the bottom quartile of the nation in terms of education funding. Although the State economy continues to improve, funding for K-12 education is not expected to grow proportionally due to competition with other budget drivers including legislative tax cuts that reduce the RLE to the "rolled back rate", increasing Medicaid demands, and the needs of higher education.

With limited new funds allocated by the state, the primary goal of this, and future budget cycles, is to optimize existing resources. Last year, the District partnered with Educational Resource Strategies (ERS) to perform a comprehensive ten-month review of how we allocate our resources – people, time, and money. The findings from ERS helped to identify three areas of focus necessary to meet the long-term outcomes identified in the District's Strategic Plan including cultivating great teachers, reallocating resources within English Language Learners (ELL) and Students with Disabilities, and increasing supports for the lowest-performing schools. Staff is currently assessing methodologies to differentiate staffing ratios based on proficiency and instructional time.

The District's .25 mill property tax levy for operations was approved by the voters for another four years in 2014, from fiscal year 2016 through fiscal year 2019. For fiscal year 2018, the .25 mills is expected to generate \$47.5 million in revenue. The revenue is designated for art, music, and physical education instruction, choice programs, and career academies.

In recent years, districts throughout Florida have been hard hit by the reduction in local capital outlay taxing authority and the decline in property values. While property values continue to recover, the 2008 and 2009 Florida Legislature reduced the capital millage authority of local school boards to 1.5 mills from 2.0 mills. Over time, the substantial loss of capital revenue crippled the ability of school districts to meet school facility maintenance, classroom technology, and bus fleet demands.

THE SCHOOL DISTRICT OF PALM BEACH COUNTY, FLORIDA

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2017

Voters in Palm Beach County stepped up in November 2016 to address this significant shortfall by increasing the local sales tax by one penny in order to address the backlog of critical capital needs including school security and safety, classroom technology, and safe and reliable school buses. The District is anticipated to receive \$1.345 billion over the next 10 years. Although the passage of HB 7069, this legislative cycle, has again exacerbated the problem by requiring districts to provide charter schools a pro-rata share of local capital outlay millage funding. Without additional funds to compensate for the loss in revenue, an estimated \$230 million over the next ten years, the District will again face a backlog of critical capital needs.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, parents, students, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. (Concluded)

THE SCHOOL DISTRICT OF PALM BEACH COUNTY, FLORIDA RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2017 (amounts expressed in thousands) \$ 78,812 Total net change in fund balances - governmental funds Amounts reported for governmental activities in the statement of activities are different because: Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount of depreciation expense (\$107,633) in excess of capitalized capital outlay (\$26,255) in the current period. (81, 378)Governmental funds report the effect of bond insurance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. Bond Insurance Cost Amortization (109)Debt Refunding Amortization (6, 349)Premium/Discount Amortization 13,414 6,956 Investment loss related to derivative instruments reported in the statement of activities that are not reported as revenue in the governmental funds (25)Revenues reported in the statement of activities that do not provide current financial resources are not reported as revenues in the governmental funds. 2,803 Revenues reported in the governmental funds that were reported as revenue in the statement of activities in the prior year under full accrual. (2, 324)Repayment of notes / loans is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. 8,361 Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. 77,522 The net effect of various miscellaneous transactions involving capital assets (sales, trade-ins, and (480)donations) is to decrease net position. Expenses in the statement of activities that do not require the use of current financial resources are not reported in the governmental funds. 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the School District of Palm Beach County, Florida (the "District") have been prepared to conform with Accounting Principles Generally Accepted in the United States of America ("GAAP") as applied to governmental units. The Governmental Accounting Standards Board ("GASB") is the accepted standard setting body for establishing governmental accounting and financial reporting principles. Pursuant to Florida Statutes, Section 1010.01, the Superintendent of Schools is responsible for keeping records and accounts of all financial transactions in the manner prescribed by the State Board of Education. The following is a summary of the more significant of these policies.

A. Reporting Entity

The District and its governing board are organized and operated under Section 4, Article IX, of the Constitution of Florida and Chapter 1001 of Florida Statutes. The District's boundaries are coterminous with those of Palm Beach County. Management of the School District is independent of county and city governments. The membership of the governing board of the District (the "Board") consists of seven members elected from single member districts for overlapping four-year terms. The Superintendent is appointed by the Board to act as executive officer of the District.

For financial reporting purposes, the accompanying financial statements include all of the operations over which the District is financially accountable. The District is financially accountable for organizations that make up its legal entity, as well as legally separate organizations that meet certain criteria. In accordance with GASB 14, "The Financial Reporting Entity," as amended by GASB 39, "Determining Whether Certain Organizations Are Component Units" and GASB 61, "The Financial Reporting Entity: Omnibus an amendment of GASB Statements No. 14 and No. 34", the criteria for inclusion in the reporting entity involve those cases where the District or its officials appoint a voting majority of an organization's governing body, and are either able to impose its will on the organization and there is a potential for the organization to provide specific financial benefits to or to impose specific financial burdens on the District or the nature and significance of the relationship between the District and the organization is such that exclusion would cause the District's financial statements to be incomplete. Applying this definition, District management has determined that the component unit and/or joint venture reportable within the accompanying financial statements is the Palm Beach School Board Leasing Corporation (the "Corporation").

Blended Component Unit - The Corporation's sole purpose is to provide for financing and construction of certain District school facilities. Additionally, the Corporation is legally separate from the District and the Board of the Corporation consists of the seven Board members of the District. Therefore, the financial activities of the Corporation have been blended (reported as if it were part of the District) with those of the District. The Corporation does not publish individual component unit financial statements.

Based on assessing the criteria for classifying entities as component units under GASB 61, charter schools do not qualify as part of the District's Reporting Entity and will not be reported as discretely presented component units.

Since the District is independent of and is not financially accountable for other governmental units or civic entities, these financial statements represent the operations of the District, the Corporation, as well as all of the funds of the District as a governmental unit.

B. Measurement Focus, Basis of Accounting and Financial Statement Presentation

Government-wide Financial Statements

The Statement of Net Position and the Statement of Activities display information about the District as a whole. These statements include the financial activities of the primary government, except for Fiduciary Funds. The District eliminates from the Statement of Net Position and the Statement of Activities all interfund

receivables and payables and transfers between funds as well as the transactions associated with its Internal Service Funds.

The government-wide statements are prepared using the economic resources measurement focus and accrual basis accounting. This is the same approach used in the preparation of the Proprietary Fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

Fund Financial Statements

Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is reported in a separate column. Non-major funds are aggregated and presented in a single column. Internal Service Funds are aggregated and presented in a single column on the face of the Proprietary Fund statements. Fiduciary Funds are reported by fund type.

The Governmental Funds are accounted for on the "flow of current financial resources" measurement focus. Governmental fund financial statements are prepared using the current financial resource measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, expenditures are generally recognized when the related fund liability is incurred. The Proprietary Fund is accounted for on an "economic resources" measurement focus. Accordingly, the Statement of Revenues, Expenses and Changes in Fund Net Position for the Proprietary Fund reports increases and decreases in total economic net worth. The private purpose trust fund is reported using the economic resources measurement focus.

GOVERNMENTAL FUNDS

Governmental Funds are those through which most District functions are financed. The acquisition, use and balances of the District's expendable financial resources and the related liabilities (except those accounted for in the Proprietary Fund and Fiduciary Funds) are accounted for through Governmental Funds. The measurement focus is upon determination of changes in financial resources rather than upon determination of net income. The following are the District's major Governmental Funds:

General Fund

The General Fund is the primary operating fund of the District. Ad valorem tax revenues, revenues from the Florida Education Finance Program ("FEFP") and other receipts not allocated by law or contractual agreement to other funds are accounted for in this fund. Similarly, general operating expenditures, fixed charges, and capital improvement costs that are not paid through other funds are paid from this fund.

COPS Debt Service Fund

The COPS Debt Service Fund accounts for the repayment of the certificates of participation.

Capital Improvement Fund

The Capital Improvement Fund accounts for locally received funds, primarily ad valorem tax revenue, and funds are used to service COPs debt.

Other Non-Major Governmental Funds

The Other Non-Major Governmental Funds are a summary of all the non-major government Funds.

PROPRIETARY FUNDS

The Proprietary Fund is used to account for ongoing activities where the intent is that charges made to users will cover the costs of the services provided. The measurement focus is upon the determination of net income. The only Proprietary Fund that the District has is its Internal Service Funds. A Proprietary Fund distinguishes operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a Proprietary Fund's principal ongoing operations. Operating expenses for Internal Service Funds include salaries, benefits, administrative expenses, and claims paid. All items not meeting this definition are reported as nonoperating revenues and expenses.

Internal Service Fund

Internal Service Fund is used to account for the financing of goods and services provided by one department to another on a cost reimbursement basis. The District has two Internal Service Funds, one for group health and one for worker's compensation, general and auto liability claims. The District has fully funded the workers compensation and claims insurance fund. Expenditures of the self-insurance funds are charged back to the appropriate governmental fund.

FIDUCIARY FUNDS

Fiduciary Funds are used to account for assets held by the District on behalf of outside related organizations or on behalf of other funds within the District. The Fiduciary Funds are prepared under the economic resources measurement focus and the accrual basis of accounting.

Agency Funds

Agency Funds consist of activity funds, which are established at each school to record the receipts and disbursements of various school activities administered for the general welfare of the students and completion of certain planned objectives and special programs of school groups. The District retains no equity interest in these funds. Agency Funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

Private Purpose Trust Fund

A trust fund was established in January 1993 and is used to account for a District-supported Florida Future Educators of America. Revenues consist of employee donations and interest income. Expenditures represent scholarships for future teachers, which are awarded in accordance with the trust requirements.

BASIS OF ACCOUNTING

Basis of accounting determines when transactions are recognized in the financial records and reported in the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and Fiduciary Funds use the accrual basis of accounting.

Modified Accrual

Under the modified accrual basis, revenues are recognized in the accounting period in which they become susceptible to accrual, i.e., both measurable and available. "Measurable" means the amount of the transaction

THE SCHOOL DISTRICT OF PALM BEACH COUNTY, FLORIDA NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2017

can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Significant revenues susceptible to accrual include ad valorem taxes, reimbursable-type grants and interest on investments. The District considers all revenues (with the exception of the expenditure-driven grants) as available if they are collected within sixty (60) days after yearend. The expenditure driven grants are considered available if received within one year from the balance sheet date. Current year property tax revenue is recognized when levied for, if available. Amounts are considered available if received by the District within sixty (60) days subsequent to fiscal year end. Expenditures are recognized in the accounting period in which the liability is incurred. However, exceptions include the amount of unmatured principal and interest on general long-term debt, compensated absences, OPEB, pension, claims and judgments.

In applying the susceptible to accrual concept to revenues from Federal and State sources, the legal contractual requirements of the numerous individual programs are used as guidance. Revenue from grants and entitlements is recognized when all eligibility requirements have been satisfied. There are, however, essentially two types of these revenues. In one, monies must be expended for the specific purpose or project before the District will receive any amounts; therefore, revenues are recognized based upon the occurrence of expenditures. In the other type, monies are virtually unrestricted as to purpose of expenditure and are usually revocable only for failure to comply with prescribed legal and contractual requirements. These resources are reflected as revenues at the time of receipt or earlier if the susceptible to accrual criteria are met. In all cases, monies received before the revenue recognition criteria have been met are reported as advance payments or deferred inflows.

Accrual

Under the accrual basis of accounting, revenues are recognized in the period earned and expenses are recognized in the period incurred.

Revenue Recognition

Program Revenues – Amounts reported as program revenues include charges paid by the recipient of the goods or services offered by the program, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than program revenues. Revenues that are not classified as program revenues are presented as general revenues. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

State Revenue Sources – Revenues from State sources for current operations are primarily from the Florida Education Finance Program ("FEFP"), administered by the Florida Department of Education ("FDOE"), under the provisions of Chapter 1011, Florida Statutes. This revenue is recognized when received. The District files reports on full time equivalent ("FTE") student membership with the FDOE. The FDOE accumulates information from these reports and calculates the allocation of FEFP funds to the District. After review and verification of FTE reports and supporting documentation, the FDOE may adjust subsequent fiscal period allocations of FEFP funding for prior year errors disclosed by its review. Normally, such adjustments are treated as reductions of revenue in the year the reduction is made, as amounts are not significant.

The District receives and recognizes revenue from the State to administer certain categorical educational programs. State Board of Education rules require that revenue earmarked for these programs be expended only for the program for which the money is provided and require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the same categorical educational programs.

Property Taxes – Property tax revenue anticipated to be collected is recognized in the fiscal year for which it is levied. Delinquent taxes collected in subsequent periods are recognized as revenue during the fiscal year

in which they are received.

Federal Revenue Sources – The District receives Federal awards for the enhancement of various educational programs. Federal awards are generally received based on applications submitted to, and approved by, various granting agencies. For Federal awards in which a claim to these grant proceeds is based on incurring eligible expenditures, revenue is recognized to the extent that eligible expenditures have been incurred.

Use of Resources – When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, and then unrestricted resources as they are needed.

C. Budgetary Policies

Expenditures are controlled by budgetary systems in accordance with various legal and administrative requirements that govern the District's operations. The budget represents a process through which policy decisions are made, implemented and controlled. The budget is adopted on a basis consistent with GAAP, except for encumbrances. The budgetary process includes encumbrances in the current year budget. The encumbrances are reported as expenditures on the budgetary basis of accounting.

Annual budgets are legally adopted for all funds except the Fiduciary Funds. The budget amounts for revenues and expenditures reflect all amendments to the original budget with the final amendment approved by the Board on September 6, 2017. Significant dates in the budgeting timetable follow:

- 1. The Palm Beach County Property Appraiser certifies to the District the taxable value of all nonexempt District property by July 1 of each year, or the Clerk of the Circuit Court is required to certify an interim tax roll.
- 2. Within 24 days of tax roll certification, the Board considers and approves for advertising a tentative budget.
- 3. Within 29 days after tax roll certification, the District advertises the tentative budget and the millage rates therein.
- 4. A public hearing to adopt the tentative budget and proposed millage rate is held not less than two nor more than five days after the budget is advertised.
- 5. Within 35 days of tax roll certification, the District notifies the Palm Beach County Property Appraiser of proposed millage rates.

At a final public hearing within 80 days, but not less than 65 days, after tax roll certification, the Board adopts the District budget.

The major functional level is the legal level of budgetary control. Per Board policy, management is authorized to make budget amendments at function level with Board approval. All interim budget amendments between major functional areas within each fund are submitted to the Board for approval. Federal and State grant budget amendments which require State approval prior to processing are also submitted to the Board for approval with monthly amendments.

Unreserved appropriations are cancelled at the end of the fiscal year. However, encumbered appropriations for funds do not lapse at the end of the fiscal year. Restricted, committed and assigned fund balances at June 30, 2017 for funds under budgetary control have been re-appropriated for the fiscal year 2018 operating budget within the appropriate fund. Programs restricted for carryover include all State categorical grants required to be expended on specific programs and District approved carryover programs.

D. Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of funds are recorded to reserve a portion of an applicable appropriation, is utilized for budgetary control purposes. Encumbrances are not the equivalent of expenditures, and accordingly, amounts assigned for encumbrances at the governmental fund level indicate that portion of the fund balance segregated for expenditure upon vendor performance.

E. Cash, Cash Equivalents and Investments

The District maintains a Treasurer's pool for the District's cash and investments. Each fund's portion of the pool is presented on the financial statements. Investments recorded at fair value consist of direct obligations of the United States Treasury, U.S. Government Agency Securities, U.S. Government sponsored agencies, investing in U.S. Treasury Securities, AAA rated local government investment pools, corporate notes, U.S. Government Supported Corporate Debt, and other investments allowable by the District's investment policy. The District categorizes its investments according to the fair value hierarchy established by GASB Statement No. 72. The hierarchy is based on observable and unobservable inputs used in establishing the fair value of a financial asset or liability. All money market mutual funds are AAA rated by the various rating agencies and each fund is registered as a 2a-7 fund with the SEC and recorded at amortized cost. Rule 2a-7 of the Investment Company Act of 1940, comprises the rules governing money market funds. For purposes of the statement of cash flows, cash equivalents are considered to be the money market funds and all highly liquid investments with a maturity of three months or less when purchased.

F. Inventories

Inventories are valued at the lower of cost or net realizable value, using the average cost method. The District's inventories include various items consisting of school supplies, paper, textbooks, fuel, commodities, etc. USDA commodities received from the Federal government are recorded at the value established by the Federal government using the average cost method. Inventorial items are recorded as expenditures when shipped to schools and department offices (the consumption method). The nonspendable fund balance at the governmental fund level is equal to the amount of inventories at year-end to indicate the portion of the governmental fund balances that are nonspendable.

G. Prepaid Items

Expenditures for insurance and similar services extending over more than one accounting period are not allocated between or among accounting periods in the governmental funds and are instead accounted for as expenditures in the period of acquisition (Purchase method). In the Government-Wide financial statements these amounts are reported as other assets and will be charged to expense in the period used or consumed.

H. Capital Assets

Capital assets represent the cumulative amount of capital assets owned and in use by the District. Purchased assets are recorded as expenditures in the governmental fund financial statements and are capitalized at cost on the government-wide statement of net position. Gifts or contributions are recorded at estimated acquisition value at the time received. The District's capitalization levels are \$1,000 on tangible personal property, \$100,000 on building improvements, \$50,000 on improvements other than buildings and \$100,000 on intangible assets. Other costs incurred for repairs and maintenance is expensed as incurred. All reported capital assets except land and construction in progress are depreciated.

THE SCHOOL DISTRICT OF PALM BEACH COUNTY, FLORIDA NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2017

Depreciation is computed using the straight-line method over the following estimated useful lives:

| Furniture, Fixtures and Equipment3 – 15 yearsMotor Vehicles5 – 10 yearsAudio/Video Materials & Software3 – 5 yearsBuildings and Improvements15 – 50 yearsImprovements Other Than Buildings15 years | Description | Estimated Lives |
|--|-----------------------------------|-----------------|
| Audio/Video Materials & Software3 – 5 yearsBuildings and Improvements15 – 50 years | Furniture, Fixtures and Equipment | 3 – 15 years |
| Buildings and Improvements 15 – 50 years | Motor Vehicles | 5 – 10 years |
| с I | Audio/Video Materials & Software | 3 – 5 years |
| Improvements Other Than Buildings 15 years | Buildings and Improvements | 15 – 50 years |
| | Improvements Other Than Buildings | 15 years |
| Intangibles 5 years | Intangibles | 5 years |

I. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position has a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. One item is accumulated decrease in fair value of hedging derivatives (See Note 11). A second item is the net carrying amount of debt refunding reported in the government-wide statement of net position. A deferred loss on debt refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded debt or new refunding debt. A third item, in accordance with GASB 68, reports pension related deferred outflows of resources and deferred inflows of resources on its financial statements (see footnote 12 for additional information).

On the Government-Wide financial statements Deferred Outflows of Resources activity for fiscal year ended June 30, 2017 is as follows (in thousands):

| | | Ending Balance | Ending Balance | | | | | |
|---|---------------|-------------------|-------------------|---------|----------|---------|-----|------------|
| | June 30, 2016 | | Increase | | Decrease | | Jun | e 30, 2017 |
| Deferred Outflows of Resources | | | | | | | | |
| Accumulated Decrease in Fair Value of | | | | | | | | |
| Hedging Derivatives | \$ | 91,076 | \$ | - | \$ | 29,130 | \$ | 61,946 |
| Deferred Loss on Debt Refunding | | 68,131 | | - | | 6,350 | | 61,781 |
| Pension Related - FRS (see footnote 12) | | 113,703 | | 241,355 | | 60,417 | | 294,641 |
| Pension Related - HIS (see footnote 12) | | 46,158 | | 54,536 | | 17,179 | | 83,515 |
| Total Outflows of Resources | \$ | 319,068 | \$ | 295,891 | \$ | 113,076 | \$ | 501,883 |

In addition to liabilities, the statement of net position has a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has \$2.4 million Unavailable Deferred Revenue (\$2.2 million is related to Medicaid administration claims) that qualifies as a deferred inflow of resources and it is shown in the governmental funds Balance Sheet under the modified accrual basis of accounting.

On the Government-Wide financial statements Deferred Inflows of Resources total \$37.0 million as shown below (in thousands):

| | Ending | | | | | | | | | |
|---|---------------|---------|---------------|--|---|----------|--------|---------------|--------|--|
| | Balance | | | | | | | Balance | | |
| | June 30, 2016 | | 2016 Increase | | | Decrease | | June 30, 2017 | | |
| Deferred Inflows of Resources | | | | | | | | | | |
| Pension Related - FRS (see footnote 12) | \$ | 95,909 | \$ | | - | \$ | 66,732 | \$ | 29,177 | |
| Pension Related - HIS (see footnote 12) | | 8,243 | | | - | | 468 | | 7,775 | |
| Total Inflows of Resources | \$ | 104,152 | \$ | | - | \$ | 67,200 | \$ | 36,952 | |

J. Long Term Debt

In the fund-level financial statements, governmental funds report the face amount of debt issued and debt principal payments, as well as any premiums (discounts) as other financing sources (uses). Debt issuance costs and principal payments are reported as debt service expenditures. In the government-wide financial statements, long-term debt is reported as liabilities in the statement of net position. Bond premiums/ discounts and Bond insurance cost are amortized over the life of the bonds.

The District entered into interest rate swap agreements to modify interest rates on outstanding debt. The fair value of these instruments is reflected on the government-wide financial statements (See Notes 10 and 11).

K. Self-Insurance

The District is self-insured for health (health insurance for employees and eligible dependents) and portions of its general and automobile liability insurance and workers' compensation (insurance for various risks of loss related to torts; theft of; damage to; destruction of assets; errors and omissions; injury to employees and natural disasters). The estimated liability for self-insured risks represents an estimate of the amount to be paid on insurance claims reported and on insurance claims incurred but not reported (See Note 8).

Consistent with GAAP guidelines, in the Proprietary Fund financial statements, the liability for self-insured risks is recorded under the accrual basis of accounting. The District has fully funded the workers compensation and claims insurance fund. Expenditures of the self-insurance funds are charged back to the appropriate governmental fund.

L. Compensated Absences

Compensated absences are obligations to employees for accumulated vacation and sick leave. These amounts also include the related employer's share of applicable taxes and retirement contributions. District employees may accumulate unused vacation and sick leave up to a specified amount depending on their date of hire. Vacation and sick leave are payable to employees upon termination or retirement at the current rate of pay on the date of termination or retirement.

The District uses the vesting method to calculate the compensated absences amounts. The entire compensated absence liability is reported on the government-wide financial statements. The portion related to employees in the Internal Service Fund is recorded at the fund level. The current portion is the amount estimated to be used in the following year. To liquidate the liability, an expenditure is mainly recognized in the general fund as payments come due each period, for example, as a result of employee resignations and retirements. Compensated absences not recorded at the fund level represent a reconciling item between the fund level and government-wide presentations (See Note 10).

M. Pensions

In the government-wide statement of net position, liabilities are recognized for the District's proportionate share of each pension plan's net pension liability. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Florida Retirement System (FRS) defined benefit plan and the Health Insurance Subsidy (HIS) defined benefit plan and additions to deductions from the FRS's and the HIS's fiduciary net position have been determined on the same basis as they are reported by the FRS and the HIS plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Pension liabilities are liquidated in the governmental fund in which the employee is charged. Investments are reported at fair value. See footnote 12 for additional information regarding the District's retirement plans and related amounts.

N. Accounting Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets/deferred outflows of resources and liabilities/deferred inflows of resources and disclosures of contingent assets/deferred outflows of resources and liabilities/deferred inflows of resources at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

O. Impact of Recently Issued Accounting Principles

Recently Issued and Adopted Accounting Pronouncements

In June 2015, GASB Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, will be effective for the District beginning with its year ending June 30, 2017. This Statement will establish rules on reporting by OPEB plans that administer benefits on behalf of governments. The adoption of this statement did not impact the District's financial statements.

In August 2015, GASB Statement No. 77, *Tax Abatement Disclosures*, will be effective for the District beginning with its year ending June 30, 2017. This Statement requires state and local governments, for the first time, to disclose information about tax abatement agreements. It requires governments to disclose information about their own tax abatements separately from information about tax abatements that are entered into by other governments and reduce the reporting government's tax revenues. The adoption of this statement did not impact the District's financial statements.

In December 2015 GASB Statement No. 78, *Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans*, will be effective for the District beginning with its year ending June 30, 2017. The objective of this Statement is to address a practice issue regarding the scope and applicability of Statement No. 68, Accounting and Financial Reporting for Pensions. This issue is associated with pensions provided through certain multiple-employer defined benefit pension plans and to state or local governmental employers whose employees are provided with such pensions. This Statement amends the scope and applicability of Statement 68 to exclude pensions provided to employees of state or local governmental employers through a cost-sharing multiple-employer defined benefit pension plan that (1) is not a state or local governmental employers and to employees of employers that are not state or local governmental employers, and (3) has no predominant state or local governmental employer (either individually or collectively with other state or local governmental employers that provide pensions through the pension plan). This Statement establishes requirements for recognition and measurement of pension expense, expenditures, and liabilities; note disclosures; and required supplementary information for pensions that have the characteristics described above. The adoption of this statement did not impact the District's financial statements.

THE SCHOOL DISTRICT OF PALM BEACH COUNTY, FLORIDA NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2017

In January 2016, GASB Statement No. 80, Blending Requirements for Certain Component Units—an amendment of GASB Statement No. 14, will be effective for the District beginning with its year ending June 30, 2017. This Statement amends the blending requirements for the financial statement presentation of component units of all state and local governments. The additional criterion requires blending of a component unit incorporated as a not-for-profit corporation in which the primary government is the sole corporate member. The additional criterion does not apply to component units included in the financial reporting entity pursuant to the provisions of Statement No. 39, Determining Whether Certain Organizations Are Component Units. The adoption of this statement did not impact the District's financial statements.

In March 2016, GASB Statement No. 82, *Pension Issues—an amendment of GASB Statements No.* 67, *No.* 68, *and No.* 73 will be effective for the District beginning with its year ending June 30, 2017. The objective of this Statement is to address certain issues that have been raised with respect to Statements No. 67, *Financial Reporting for Pension Plans*, No. 68, *Accounting and Financial Reporting for Pensions*, and No. 73, *Accounting and Financial Reporting for Pensions*, and No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68*. Specifically, this Statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. The impact of the adoption of this statement did not impact the District's financial statements.

Recently Issued Accounting Pronouncements

In January 2017, GASB Statement No. 83, *Certain Asset Retirement Obligations*, will be effective for the District beginning with its year ending June 30, 2019. The objective of this Statement is to set guidance for determining the timing and pattern of recognition for liabilities and corresponding deferred outflow of resources related to asset retirement obligations. Management is currently evaluating the impact of the adoption of this statement on the District's financial statements.

In January 2017, GASB Statement No. 84, *Fiduciary Activities*, will be effective for the District beginning with its year ending June 30, 2020. The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should and establishes criteria for identifying fiduciary activities of all state and local governments. Management is currently evaluating the impact of the adoption of this statement on the District's financial statements.

In March 2017, GASB Statement No. 85, *Omnibus 2017*, will be effective for the District beginning with its year ending June 30, 2018. The objective of this Statement is to address practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits (pensions and other postemployment benefits [OPEB]. Management is currently evaluating the impact of the adoption of this statement on the District's financial statements.

In May 2017, GASB Statement No. 86, *Certain Debt Extinguishment Issues*, will be effective for the District beginning with its year ending June 30, 2018. The objective of this Statement is to improve consistency in accounting and financial reporting for in-substance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources—resources other than the proceeds of refunding debt—are placed in an irrevocable trust for the sole purpose of extinguishing debt. This Statement also improves accounting and financial reporting for prepaid insurance on debt that is extinguished and notes to financial statements for debt that is defeased in substance. Management is currently evaluating the impact of the adoption of this statement on the District's financial statements.

In June 2017, GASB Statement No. 87, *Leases*, will be effective for the District beginning with its year ending June 30, 2020. This Statement outlines new guidance that establishes a single approach to accounting for and reporting leases by state and local governments. The goal is to better align reporting these leases with their particular situations, as well as provide greater transparency and usefulness of financial statements. Management is currently evaluating the impact of the adoption of this statement on the District's financial statements.

In June 2015, GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, will be effective for the District beginning with its year ending June 30, 2018. This Statement outlines reporting by governments that provide OPEB to their employees and for governments that finance OPEB for employees of other governments. This standard will require the immediate recognition of the entire net OPEB liability and a more comprehensive measurement of OPEB expense. The implementation of this statement will result in the recognition of a significant liability that is not yet measurable.

2. AD VALOREM TAXES

The Board is authorized by Florida Statutes to levy property taxes for District operations, capital improvements and debt service. Property taxes consist of ad valorem taxes on real and personal property within the District. The Palm Beach County Property Appraiser assesses property values and the Palm Beach County Tax Collector collects the property taxes.

Property values are assessed as of January 1 each year. The Board levies the property tax at the final budget hearing each year based on the assessed valuation of all non-exempt property. This levy finances the expenditures of the current fiscal year. Tax bills are mailed by the Palm Beach County Tax Collector on November 1 and are due no later than April 1. After this date, taxes become an enforceable lien on property. Discounts of up to 4% are available for early payment. The majority of ad valorem taxes are collected in November and December and remitted to the School Board. Section 197.383, Florida Statutes, requires the Palm Beach County Tax Collector to distribute the taxes collected to each taxing authority at least four times during the first two months after the tax roll comes into the Tax Collector's possession, and at least once per month thereafter. Taxes are considered delinquent if not paid prior to April 1. State law provides for enforcement of collection of taxes by the sale of tax certificates on real property and for levy upon, seizure and sale of personal property after the Palm Beach County Tax Collector initiates a sequence of required procedures resulting in a court order to carry out the action.

The State Legislature prescribes the maximum non-voted millage that may be levied by the Board for each fiscal year. The total millage rate levy was 7.070 mills and the total assessed value on which the 2016-17 levy was based was \$187.4 billion. Gross taxes levied were approximately \$1.3 billion. Total revenue, net of discounts, was approximately \$1.2 billion. A portion of the taxes levied for the Local Capital Improvement Capital Project Fund, designated for repairs and maintenance programs are transferred to the General Fund as provided by Chapter 1013, Florida Statutes. For fiscal year 2017, the maintenance transfer amounted to approximately \$76.7 million. Additionally, approximately \$8.3 million was transferred for property insurance; approximately \$5.3 million was transferred for charter school capital outlay bringing the total transfer from capital funds to approximately \$90.3 million.

3. CASH, CASH EQUIVALENTS AND INVESTMENTS

Cash and Cash Equivalents

Florida Statutes authorize the deposit of District funds in demand deposits or time deposits of financial institutions approved by the State Treasurer and are defined as public deposits. All District public deposits are held in qualified public depositories pursuant to chapter 280, Florida Statutes, the "Florida Security for Public Deposits Act." Under the Act, all qualified public depositories are required to pledge eligible collateral having a market value equal to or greater than the average daily or monthly balance of all public deposits times the depository's collateral pledging level. The collateral pledging level may range from 50% to 125%

THE SCHOOL DISTRICT OF PALM BEACH COUNTY, FLORIDA NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2017

depending upon the depository's financial condition and the length of time that the depository has been established. All collateral must be deposited with the State Treasurer. Any losses to public depositors resulting from insolvency are covered by applicable deposit insurance, sale of securities pledged as collateral and, if necessary, assessment against other qualified public depositories of the same type as the depository in default. All bank balances of the District are fully insured or collateralized. At June 30, 2017, the carrying amount of the District's cash deposits was approximately \$258.4 million and the bank balance was approximately \$261.8 million. The carrying amount of the Agency Fund - School Internal Funds cash deposits was approximately \$18.9 million.

The District receives interest on all balances in its cash accounts from the qualified public depository acting as its banking agent. Interest earnings are allocated to all funds based on the average daily balance of each fund's equity in the Treasurer's Pool.

Cash Equivalents consist of amounts invested in money market mutual funds, Florida Education Investment Trust Fund (FEITF) and Florida Prime. FEITF and Florida PRIME are external investment pools that are not registered with the Securities Exchange Commission (SEC), but do operate in a manner consistent with the SEC's Rule 2a-7 of the Investment Company Act of 1940. Rule 2a-7 allows funds to use amortized cost to maintain a constant net asset value (NAV) of \$1.00 per share. Accordingly, the District's investments in both FEITF and Florida PRIME are reported at the account balance which is amortized cost. There are no restrictions or fees to withdrawal from either of these pools.

Investments

The District's investment policy permits investments in the Florida Prime Fund, FEITF, securities of the United States Government, U.S. Government Agencies, Federal instrumentalities, interest bearing time deposit or savings accounts, repurchase agreements, commercial paper, corporate notes, bankers' acceptances, state and/or local government debt, and money market mutual funds. The District's investment advisor used the effective duration method to calculate effective duration measures for the securities held by the District. Besides measuring the sensitivity of the securities market value to changes in interest rates, the effective duration method accounts for any call (early redemption) features which a security may have.

In 2016, the District implemented GASB *Statement No. 72, Fair Value Measurement and Application* issued in February 2015. The District categorized investments according to the fair value hierarchy established by this Statement. The hierarchy is based on valuation inputs used to measure the fair value of the asset as follows: Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs to include quoted prices for similar assets in active and non-active markets; Level 3 inputs are significant unobservable inputs. Certain investments are measured at fair value using the net asset value per share (or its equivalent) practical expedient and have not been classified in the fair value hierarchy. The fair value amounts, presented in the following table, are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net position.

As of June 30, 2017, the District had the following unrestricted cash and investments with stated maturities that were categorized as Level 1 and Level 2 (amounts in thousands):

| | | | Fa | _ | | | |
|---|----|----------------------|--------------|--|----|---|----------------------------------|
| Investments by Level | - | Balance housands) | Activ for | ted Prices in ve Markets Identical ts (Level 1) | Ol | ificant Other oservable its (Level 2) | Effective Duration (years) |

| Total Investments | | 535,670 | | | | | |
| Cash Deposits | | 258,344 | | | | | |
| Total Cash and Investments | \$ | 794,014 | | | | | |

Interest Rate Risk

To limit exposure to fair value losses resulting from increases in interest rates, the District's Investment Policy limits operating funds to maturities of two years or less. Investments of reserves, project funds, debt proceeds and other non-operating funds ("core funds") shall have a term appropriate to the need for funds and in accordance with debt covenants, but in no event shall exceed five (5) years and the average duration of the funds as a whole may not exceed three (3) years. The District's investment in the Federally Backed Securities (Fannie Mae, Freddie Mac (also known as Federal Home Loan Mortgage Corporation) and Farmer Mac) matures between September, 2017 and August, 2019. As of June 30, 2017, the District held no callable securities.

Concentration of Credit Risk

The District's Investment Policy specifies the maximum percentage allocation to any single investment type as well as the maximum percentage holding per issuer. Up to 100% of the portfolio may be invested in U.S. Government securities, 80% may be invested in Federal Instrumentalities (US government sponsored agencies) with no more than 50% with a single issuer and 50% may be invested in US government agencies

THE SCHOOL DISTRICT OF PALM BEACH COUNTY, FLORIDA NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2017

with no more than 25% with a single issuer. Corporate Notes are limited to 15% of the portfolio with no more than 5% with a single issuer.

| PORTFOLIO / INVESTMENTS | | IR VALUE thousands) | PERCENTAGE OF INVESTMENT BALANCE | RATING S&P / MOODY'S |

| Municipal Bonds | | 999 | 0.13% | AA |
| Total Investments | | 535,670 | 67.46% | |
| Plus Cash Deposits | | 258,344 | 32.54% | |
| Total Cash and Investments | \$ | 794,014 | 100.00% | |

As of June 30, 2017, all District investments were in compliance with the District's Investment Policy or Debt Management Policy and did not exceed portfolio allocation or issuer maximums.

Credit Risk

The District's Investment Policy lists the authorized investment types as well as the minimum allowable credit rating for each investment type. Corporate notes purchased for investment must be issued by corporations organized and operating within the United States or by depository institutions licensed by the United States that have a long term debt rating, at the time of purchase, at a minimum "A" by Moody's and a minimum long term debt rating of "A" by Standard & Poor's ("S&P"). The maximum length to maturity for corporate notes shall be three (3) years from the date of purchase. As of June 30, 2017, the District held \$5.2 million of corporate notes of which had an S&P rating between AA- and AA+. All investments in the Federally Backed Securities (Fannie Mae, Freddie Mac (also known as Federal Home Loan Mortgage Corporation) and Farmer Mac) had an S&P rating of AA+ and a Moody's rating of Aaa for securities held for more than one year. All other rated investments were rated between A-1 and AAAm by S&P. As of June 30, 2017, the Local Government Investment Pools were rated AAAm by S&P.

Custodial Risk

The District's investment policy requires that all securities, with the exception of certificates of deposit, be held with a third party custodian; and all securities purchased by, and all collateral obtained by the District should be properly designated as an asset of the District. The securities must be held in an account separate and apart from the assets of the financial institution. A third party custodian is defined as any bank depository chartered by the Federal government, the state of Florida, or any other state or territory of the United States which has a branch or principal place of business in the state of Florida as defined in § 658.12, F.S., or by a national association organized and existing under the laws of the United States which is authorized to accept and execute trusts and which is doing business in the state of Florida. Certificates of deposit will be placed in the provider's safekeeping department for the term of the deposit. Security transactions between a broker/dealer and the custodian involving the purchase or sale of securities by transfer of money or securities are made on a "delivery vs. payment" basis, if applicable, to ensure that the custodian will have the security or money, as appropriate, in hand at the conclusion of the transaction. As of June 30, 2017, the District's investment in fixed income securities was held with a third-party custodian.

4. INVESTMENT DERIVATIVE INSTRUMENTS

The District received an upfront payment of \$3.0 million for allowing the swap counterparty the right to terminate the 2003B Interest Rate Swap if the 180 day average of the BMA Index exceeds 7.0% in the future. The barrier feature was effective June 2003 and is exercisable anytime until August 2018. Once the barrier option expires the District will be left with a fixed-payer swap that matures August 2029. Therefore, for accounting and financial reporting purposes, the barrier option derivative instrument is considered an investment derivative instrument. At June 30, 2017, the fair value of the barrier option is zero (See Note 11).

5. DUE FROM OTHER GOVERNMENTS OR AGENCIES

At June 30, 2017, the District had a total of approximately \$28.9 million in Due From Other Governments or Agencies which consisted of the following balances (amount in thousands):

| - | | General Fund | | Other n-major ernmental Funds | Internal Service Fund | | Total |
|--|----|-----------------|----|--|-----------------------------|-------|--------------|
| Federal and State Sources | | | | | | | |
| Medicaid* | \$ | 4,264 | \$ | - | \$ | - | \$ 4,264 |
| Grants and Entitlements | | - | | 17,705 | | - | 17,705 |

* All or partially recorded as Deferred Inflow - Unavailable Revenue at the fund level.

6. INTERFUND ACTIVITIES

Due to/from other funds consisted of the following balances at June 30, 2017 (amounts in thousands):

| | Ir | iterfund | | Interfund | | | |
|------------------------------------|-----|-----------|----------|-----------|--|--|--|
| | Red | ceivables | Payables | | | | |
| General Fund | \$ | 8,460 | \$ | - | | | |
| Other Non-Major Governmental Funds | | - | | 8,460 | | | |
| Total Interfund | \$ | 8,460 | \$ | 8,460 | | | |

The amount payable by the Other Non-Major Governmental Fund to the General Fund is to cover temporary cash shortages related to timing of receipts.

Interfund transfers for the year ended June 30, 2017 were as follows (amounts in thousands):

| | | | | Tran | sfer t | :0: | | | | |
|------------------------------------|------|--------|----|----------|--------|----------|----|---------|--|--|
| | | | | | (| Other | | | | |
| | | | | | No | n-Major | | | | |
| | C | eneral | C | OPS Debt | Gov | ernmen | | | | |
| Transfer from: | Fund | | | Service | tal | Funds | | Total | | |
| | | | | | | | | | | |
| Capital Improvement | \$ | 75,402 | \$ | 139,180 | \$ | 9,326 | \$ | 223,908 | | |
| General Fund | | - | | - | | 92 | | 92 | | |
| Other Non-Major Governmental Funds | | 14,858 | | - | - | | | 14,858 | | |
| Total | \$ | 90,260 | \$ | 139,180 | \$ | \$ 9,418 | | 238,858 | | |

Transfers to the General Fund relate primarily to funding for the maintenance, renovation and/or repair of school facilities, pursuant to Section 1011.71 of the Florida Statutes, and for charter school capital outlay. Transfers to COPS Debt Service and Other Non-Major Governmental funds mainly relate to amounts transferred to make debt service payments and to fund minor capital projects.

7. CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2017 is as follows (amounts in thousands):

| | | | Retirements | ments | | | |
|-----------------------------------|--------------|-------------|-------------|---------------|--|--|--|
| | Begining | Additions | and | Ending | | | |
| | Balance | and | Transfers | Balance | | | |
| | July 1, 2016 | Transfer In | Out | June 30, 2017 | | | |
| Non-Depreciable Assets: | | | | | | | |
| Land | \$ 338,680 | \$ 3,700 | \$ - | \$ 342,380 | | | |
| Construction in Progress | 1,150 | 2,506 | | 3,656 | | | |
| Total Non-Depreciable Assets | 339,830 | 6,206 | - | 346,036 | | | |
| | | | | | | | |
| Depreciable Assets: | | | | | | | |
| Improvements Other Than Buildings | 58,506 | 328 | - | 58,834 | | | |
| Buildings and Improvements | 4,173,322 | - | 401 | 4,172,921 | | | |
| Furniture, Fixtures & Equipment | 127,183 | 7,442 | 5,100 | 129,525 | | | |
| Motor Vehicles | 116,030 | 12,176 | 9,565 | 118,641 | | | |
| Audio/Video Materials & Software | 41,127 | 103 | 952 | 40,278 | | | |
| Total Depreciable Assets | 4,516,168 | 20,049 | 16,018 | 4,520,199 | | | |
| | | | | | | | |
| Less Depreciation For: | | | | | | | |
| Improvements Other Than Buildings | (31,765) | (3,863) | - | (35,628) | | | |
| Buildings and Improvements | (1,230,315) | (87,037) | (401) | (1,316,951) | | | |
| Furniture, Fixtures & Equipment | (101,804) | (8,497) | (4,941) | (105,360) | | | |
| Motor Vehicles | (81,900) | (7,121) | (9,330) | (79,691) | | | |
| Audio/Video Materials & Software | (39,592) | (1,115) | (866) | (39,841) | | | |
| Total Accumulated Depreciation | (1,485,376) | (107,633) | (15,538) | (1,577,471) | | | |
| Capital Assets, Net | \$ 3,370,622 | \$ (81,378) | \$ 480 | \$ 3,288,764 | | | |

Depreciation expense for the year ended June 30, 2017 of approximately \$107.6 million was not allocated to specific functions. The District's capital assets essentially serve all functions and as such the depreciation expense is included as a separate line item in the statement of activities.

8. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; administrative errors and omissions; injuries to employees, students and guests; as well as natural disasters and employee health and medical insurance. The District is self-insured for portions of its general and automobile liability insurance, workers compensation and employee health and medical insurance. Losses involving auto and general liability claims are limited (generally) by provisions of the Florida State Statute 768.28. These self-insured funds are administered by a third party. The District purchases commercial insurance for other risks including property, construction and other miscellaneous risks. The District has not experienced any significant reduction in insurance coverage from previous years nor has it paid any settlements in excess of insurance coverage in the past three years. This liability is typically liquidated from the internal service fund.

The employee health insurance claims liability is based on an analysis performed by management, which is based on historical trends. The remaining claims liability is based on an actuarial evaluation performed by an independent actuary as of June 30, 2017 using a discounted rate factor of 4.0%. The liability consists of claims reported and payable, as well as an estimate for claims incurred but not reported. At June 30, 2017, the liability for claims consisted of approximately \$14.0 million, \$16.3 million and \$31.7 million for employee health, auto and general liability, and workers' compensation, respectively.

A summary of changes in the estimated liability for self-insured risks is as follows (amounts in thousands):

| | Prior | r Year Ended | Fisc | al Year Ended |
|-------------------------|-------|--------------|------|---------------|
| | Jur | ne 30, 2016 | Ju | ne 30, 2017 |

| changes in estimates | | 195,200 | | 207,061 |
| Reductions: | | | | |
| Claim payments | | (194,217) | | (202,845) |
| Ending Balance | \$ | 57,812 | \$ | 62,028 |

9. SHORT-TERM DEBT

Tax Anticipation Notes

On September 21, 2016, the District issued Tax Anticipation Notes ("TANS") Series 2016. The \$115.0 million issue has a coupon rate of 2.0% with an effective yield of 0.80%. The notes are dated October 11, 2016 and are due August 31, 2017.

Short-term debt activity for the year ended June 30, 2017 was as follows (amount in thousands):

| | Beginning | | | Ending |
|------------------------|--------------|------------|----------|---------------|
| | Balance | | | Balance |
| | July 1, 2016 | Issued | Redeemed | June 30, 2017 |

Notes/Loans Payable

On February 20, 2014, the District entered into loan agreement 2014 with TD Equipment Finance for financing the acquisition of 119 buses. The \$14.0 million issue with a coupon of 1.235% is payable over 5 years and will mature August 1, 2018.

On July 2, 2015, the District entered into loan agreement 2015 with Banc of America Public Capital Corp for financing the acquisition of 125 buses and other equipment \$14.2 million issue with a coupon rate of 1.242%. Under the terms of the loan agreement the debt is payable over five years.

On October 1, 2015, the District entered into loan agreement 2015A with Banc of America Public Capital Corp for financing the acquisition of 18 HVAC systems and other equipment \$7.2 million issue with a coupon rate of 1.274%. Under the terms of the loan agreement the debt is payable over five years.

On March 18, 2016, the District entered into loan agreement 2016 with Banc of America Public Capital Corp for financing the acquisition of 60 buses and other equipment \$6.9 million issue with a coupon rate of 1.255%. Under the terms of the loan agreement the debt is payable over five years.

| Bus & | | | Remaining | | | Debt | | | Debt | | |

State Board of Education Capital Outlay Bond Issues

State Board of Education Capital Outlay Bond Issues ("COBI") are serviced entirely by the State using a portion of the District's share of revenue derived from motor vehicle license taxes pursuant to Chapter 320, Florida Statutes, and Article XII, Section 9(d), of the Florida Constitution. The State Board of Administration determines the annual sinking fund requirements. The amounts necessary to retire bonds and interest payable are withheld from the entitlement to the District. Interest rates on the COBI bonds range from 2.00% to 5.00%. Interest is payable semiannually on January 1 and July 1. The bonds are redeemable at par.

A summary of bond terms are presented as follows (amounts in thousands):

| | | | Remaining | Final | Debt | | Debt |
|----------------|------------|-----------|----------------|----------|---------------|----------|---------------|
| Capital Outlay | Date of | Amount | Interest Rates | Maturity | Outstanding | Debt | Outstanding |

The District is subject to State Board of Education Administrative Rule 6A-1037(2) that limits the amount of State Board of Education Capital Outlay Bond Issues outstanding to 10% of the non-exempt assessed valuation. At June 30, 2017, the statutory limit for the District was approximately \$18.7 billion, providing additional debt capacity of approximately \$18.7 billion.

Certificates of Participation

On November 16, 1994, the District entered into a Master Lease Purchase Agreement (the "Master Lease") dated November 1, 1994, with the Palm Beach School Board Leasing Corporation, a Florida not-for-profit corporation, to finance the acquisition and construction of certain facilities, and equipment for District operations. The Corporation was formed by the Board solely for the purpose of acting as the lessor for Certificates of Participation financed facilities, with the District as lessee. The Corporation issued Certificates of Participation (COP) to third parties, evidencing undivided proportionate interest in basic lease payments to be made by the District, as lessee, pursuant to the Master Lease. Simultaneously therewith, the Board entered into Ground Leases with the Corporation for the Facilities sites.

The District also sold Certificates of Participation Qualified Zone Academy Bonds ("QZAB"). The QZAB program is a financial instrument that provides a different form of subsidy from traditional tax-exempt bonds. Interest on QZABs is paid by the Federal government in the form of an annual tax credit to an eligible financial institution that holds the QZAB. The QZAB issuer is responsible for repayment upon maturity. The tax credits and bonding authority are made available by the Federal government to support innovative school partnerships; enhance reform initiatives, including augmenting Federal education programs, technology and vocational equipment; and development of curriculum or better teacher training to promote market driven technology. To be eligible, a school must:

- 1. Be located in an Empowerment Zone or an Enterprise Community or have 35% or more of its students eligible for free or reduced lunch under the National School Lunch Act.
- 2. Obtain cash and/or in-kind contribution agreements from partnerships equal to at least 10% of the gross proceeds of the QZAB.

The District deposits funds annually into an escrow account, which when coupled with interest earnings will be sufficient to pay off the principal at maturity.

As part of the American Reinvestment and Recovery Act, the District was authorized to issue up to \$67.7 million of Qualified School Construction Bonds (QSCB) for the purpose of new construction. The District chose to modernize two schools (Galaxy Elementary and Gove Elementary) and replace two roofs (Belle Glade Elementary and Pioneer Park Elementary). The District issued the bonds as Taxable Certificates of Participation through the Build America Bonds program, also created by the ARRA legislation. The District issued taxable bonds and receives a federal subsidy from the Treasury department equal to the difference between the taxable and tax-exempt rates. The Certificates were sold to Bank of America during a competitive sale held on November 3, 2010 and closed on November 15, 2010. The par amount was \$67.7 million and the interest rate was 5.40%. The District will pay interest only until 2019 when deposits to the sinking fund begin. The final maturity of the bonds is August 1, 2025. The total interest that will be paid over the life of the bonds is \$53.8 million. A total subsidy of \$48.6 million will be recorded as revenue in the year earned. Therefore, the amount the District will pay net of the federal subsidy is \$5.2 million. In the current year, the District recorded \$3.3 million subsidy as revenue and \$3.7 million as interest expense resulting in a net impact of \$0.4 million.

Subsequent to the sale of the QSCB certificates, the District entered into a forward delivery agreement (FDA) classified as a nonparticipating interest-earning investment contract with Barclays Bank related to the COPs 2010A QSCB. A forward delivery agreement is a type of investment in which the investor purchases eligible securities on a periodic basis from the agreement provider at a fixed rate of return. The Board expects to purchase eligible securities, which consist of direct obligations of or obligations guaranteed by the US Treasury and AAA-rated senior debt obligations of Fannie Mae, Freddie Mac the FHLB and Federal Farm Credit System from Barclays on a semi-annual basis beginning July 19, 2019 through the final maturity date of August 1, 2025. The Agreement will generate a guaranteed fixed rate of return of 4.262% or \$8.1 million. The interest earnings associated with this transaction will completely offset the interest due (net of the federal subsidy) and will generate an additional \$3.0 million to be used to repay the principal in 2025.

The Corporation leases facilities and equipment to the District under the Master Lease. The Master Lease is automatically renewable annually unless terminated, in accordance with the provisions of the Master Lease, as a result of default or the failure of the Board to appropriate funds to make lease payments in its final official budget. Failure to appropriate funds to pay lease payments under any lease will, and an event of default under any lease may, result in the termination of all leases. The remedies on default or upon an event of non-appropriation include the surrender of the COP Series 1994A, Series 2002D, Series 2003A, Series 2003A, Series 2002A, Series 2002B, Series 2002C, Series 2002D, Series 2003A, Series 2003B, Series 2004A, Series 2006A, Series 2010A Facilities by the District and the Trustee's re-letting for the remaining Ground Lease term, or the voluntary sale of the COP Series 2002C, Series 2002D, Series 2003A, Series 2003B, Series 2004A, Series 2001A, Series 2002A, Series 2002B, Series 2002C, Series 2002D, Series 2003A, Series 2003B, Series 2004A, Series 2005, and QSCB Series 2002B, Series 2002C, Series 2002D, Series 2003A, Series 2003B, Series 2004A, Series 2005A, Series 2002A, Series 2007B, Series 2002C, Series 2003A, Series 2003A, Series 2003B, Series 2004A, Series 2005A, Series 2007A, Series 2007B, Series 2007E; QZAB Series 2003A, Series 2003B, Series 2004A, Series 2005A, Series 2007A, Series 2007B, Series 2007E; QZAB Series 2003A, Series 2004B, Series 2005A, Series 2007A, Series 2007B, Series 2007E; QZAB Series 2002, QZAB Series 2004, QZAB Series 2005, and QSCB Series 2010A, Facilities by the School Board. In either case, the proceeds will be applied against the School Board's obligations under the Master Lease.

Notes to Certificates of Participation Series leases on previous pages:

- (1) Issued to advance refund and defease a portion of the Series 1995A and Series 1996A Certificates of Participation.
- (2) On March 20, 2008, the District converted and remarketed the Series 2003B (with no change to principal).
- (3) Issued to advance refund and defease a portion the Series 2001A, and Series 2002C Certificates of Participation. **
- (4) Issued to advance refund and defease Series 2007B Certificates of Participation, refunded and partially defeased by 2015C Certificates of Participation. **
- (5) Issued to advance refund and defease a portion of Series 2002A Certificates of Participation. **
- (6) Issued to advance refund and defease a portion of Series 2003A Certificates of Participation. **
- (7) Issued to advance refund and defease a portion of Series 2002D Certificates of Participation. **
- (8) Issued to advance refund and defease remaining Series 2002D Certificates of Participation. **
- (9) Issued to advance refund and defease a portion of Series 2004A Certificates of Participation. **
- (10) Issued to advance refund and defease remaining Series 2002B Certificates of Participation. **
- (11) Issued to advance refund and defease a portion of Series 2011B Certificates of Participation (which previously refunded Series 2001B Certificates of Participation). **
- (12) Issued to advance refund and defease Series a portion of 2007A Certificates of Participation. **
- (13) Issued to advance refund and defease a portion of Series 2005A Certificates of Participation (which previously refunded Series 2001A, 2002A, 2002C, and 2002D Certificates of Participation). **
- (14) Issued to advance refund and defease a portion of Series 2006A Certificates of Participation. **
- (15) Issued to advance refund and defease portions of Series 2007A and 2007E Cert. of Participation. **
- (16) Issued to advance refund and defease a portion of Series 2011A Cert. of Participation. **

** These refunding issues were done in order to achieve debt service savings.

The Certificates are not separate legal obligations of the Board but represent undivided proportionate interests in lease payments to be made from appropriated funds budgeted annually by the School Board for such purpose from current or other funds authorized by law and regulations of the Department of Education, including the local optional millage levy. However, neither the Board, the District, the State of Florida, nor any political subdivision thereof are obligated to pay, except from Board appropriated funds, any sums due under the Master Lease from any source of taxation. The full faith and credit of the Board and the District are not pledged for payment of such sums due under the Master Lease, and such sums do not constitute an indebtedness of the Board or the District within the meaning of any constitutional or statutory provision or limitation. A trust fund was established with a Trustee to facilitate payments in accordance with the Master Lease and the Trust Agreement. Various accounts are maintained by the Trustee in accordance with the trust indenture. Interest earned on invested funds is applied toward the basic lease payments. Basic lease payments are deposited with the Trustee semi-annually on June 30 and December 30 or January 5 (for variable rate issue), and are payable to Certificate holders on August 1 and February 1.

Due to the economic substance of the issuances of Certificates of Participation as a financing arrangement on behalf of the Board, the financial activities of the Corporation have been blended in with the financial statements of the District. For accounting purposes, due to the blending of the Corporation within the District's financial statements, basic lease payments are reflected as debt service expenditures when payable to Certificate holders. During the year ended June 30, 2017, no amount was expended for capital outlay in the Certificates of Participation Capital Projects Funds. All Certificates of Participation issued are subject to arbitrage rebate. At June 30, 2017, the arbitrage liability was zero.

The debt service requirements through maturity to the holders of the Certificates of Participation, which will be serviced by the annual lease payments, are as follows (amounts in thousands):

State Statute requires that no more that 75% of the capital millage levy be used for COP debt service. Two trends have lowered the district's debt capacity in this area. First, property values decline between fiscal year 2009 and fiscal year 2013. Second, the Florida Legislature lowered the allowable capital millage rate from 2.0 mills to 1.75 mills in fiscal year 2009 and again from 1.75 to 1.50 mills in fiscal year 2010. In the course

of two years, Legislator reduced district debt service capacity by 25%. Debt service payments remain in compliance at 52.6% of capital millage proceeds. The District's legal lease purchase agreement remaining debt issuance capacity is \$61.2 million, however Board Policy recommends no additional issuance until debt service falls below 50% of capital millage.

Defeased Debt

In prior years, the District defeased certain certificates of participation by creating separate irrevocable trust funds. New debt was issued and the proceeds were used to purchase U.S. Government Securities that were placed in an irrevocable trust with an escrow agent to provide for all future debt service payments. These investments and fixed earnings from the investments are sufficient to fully service the defeased debt until the debt is called or matures. For financial reporting purposes, the debt has been considered defeased and therefore removed as a liability from the financial statements. As of June 30, 2017, the total amount of defeased debt outstanding but removed from the District's financial statements amounted to \$234.7 million.

Certificates of Participation:

| | | Ou | tstanding | Defeased by | |

| Total Defe | eased COPS | \$ | 234,670 | | |
| | | | | | |

Hedging Derivative Instrument Payments and Hedged Debt

As of June 30, 2017, aggregate debt service requirements of the District's debt (fixed-rate and variable-rate) and net receipts/payments on associated hedging derivative instruments are as follows. These amounts assume that current interest rates on variable-rate bonds and the current reference rates of hedging derivative instruments will remain the same for their term. As these rates vary, interest payments on variable-rate bonds and net receipts/payments on the hedging derivative instruments will vary.

Refer to Note 11 for information on derivative instruments (amounts in thousands):

| Fiscal Year Ending June 30 | P | rincipal | Interest | Hedging Derivative Istruments, Net | Total |
|----------------------------------|----|----------|--------------|---|---------------|
| 2018 | \$ | 5,130 | \$ 4,705 | \$ 12,027 | \$ 21,862 |
| 2019 | | 8,415 | 4,612 | 11,760 | 24,787 |
| 2020 | | 10,500 | 4,533 | 11,524 | 26,557 |
| 2021 | | 10,810 | 4,410 | 11,156 | 26,376 |
| 2022 | | 20,615 | 4,171 | 10,478 | 35,264 |
| 2023-2027 | | 124,390 | 16,315 | 40,106 | 180,811 |
| 2028-2032 | | 86,435 | 4,142 | 9,122 | 99,699 |
| 2033-2035 | | 80,470 | - | - | 80,470 |
| | \$ | 346,765 | \$ 42,888 | \$ 106,173 | \$ 495,826 |

Borrowings of Hybrid Derivative Instruments

The District sold a swaption with the 2002D certificates with an initial notional amount of \$116,555,000. Upon entering into the swaption, the District received an up-front payments of \$4,240,000 from the counterparty. The up-front payment was composed of the swaptions' intrinsic value and time value. Accordingly, the swaption is a hybrid instrument consisting of a borrowing and an embedded derivative instrument. The embedded derivative instrument – the option – was recorded at a value equal to the time value of the option only and the remaining value of the swaption was allocated to the companion instrument (borrowing). The intrinsic value of the borrowing was calculated using the net present value method and is recorded at historical cost. During the option period, interest accreted at the market rate at inception of the borrowing of 4.40% totaling \$882,451. The 2002D swaption was executed August 1, 2012.

The original borrowing of the 2012B/2002D continues to be amortized over the remaining term. Aggregate debt service requirements of the District's borrowing amounts assume that current interest rates on variable-rate bonds is equal to the market rates at inception of the derivative instruments and will remain the same for their term. As these rates vary, interest payments on variable-rate bonds and net receipts/payments on the derivative instruments will vary. Refer to Note 11 for information on derivative instruments.

Debt service requirements for the 2012B/2002D borrowing at June 30, 2017, are as follows (amounts in thousands):

| Fiscal Year | | | | | | Total rincipal |
|----------------|----|---------|----|--------|----|-------------------|
| Ending June 30 | Pr | incipal | In | terest | an | d Interest |
| 2018 | \$ | 229 | \$ | 98 | \$ | 327 |

| Investment Derivatives: | | | | | | | |
| | Investment earnings | | | | | | |
| 2003B-Barrier Option at 7% | (Loss) | \$ | (25) | Asset | \$ - | 100,000 | Level 2 |
| Total Investment Derivative Instruments | | \$ | (25) | - | \$ - | | |

In February 2015, the GASB issued Statement No. 72, *Fair Value Measurement and Application* which addresses the accounting and financial reporting issues related to fair value measurements, including non-performance risk. The statement is effective for reporting periods beginning after June 15, 2015 and the District adopted GASB Statement No. 72 for the fiscal year ended 2016.

The derivatives had changes in fair value totaling \$29.1 million classified as a decrease of deferred outflows of resources. All expected derivatives cash flows have been calculated using the zero-coupon method by an independent party. This method calculates the future net settlement payments required by the derivatives, assuming that the current forward rates implied by the yield curve are the market's best estimate of future spot interest rates. The income approach is then used to obtain the fair value of the derivatives using a rate of return that takes into account the relative risk of nonperformance associated with the cash flows and time value of money. The observability of inputs used to perform the measurement results in the derivatives fair values being categorized as level 2.

The barrier option is considered an investment derivative instrument. Refer to Note 4. Investment Derivative Instruments for information on investment derivative instruments. All other derivative instruments are considered hedging derivative instruments. Fair values of options may be based on an option pricing model, such as the Black-Scholes-Merton model. That model considers probabilities, volatilities, time, settlement prices, and other variables.

Objective and Terms of Derivative Instruments

The table below displays the objective and terms of the District's derivative instruments outstanding at June 30, 2017, along with the credit rating of the associated counterparty (amounts in thousands):

| | Ohiostino | National | Effective | Maturity | Amount of Cash | T e m e | Counterrot | Counterparty |
|-------------------------------------|---|------------|-----------|-------------|-------------------|---|--|---------------|
| Governmental Activiti | Objective | Notional | Date | Date | Received | Terms | Counterparty | Credit Rating |
| Governmental Activitie | es neuging Derivativo | <u></u> | | | | | | |
| 2002B/2014A - Interest Rate Swap | Hedge changes in cash flows on the 2014A Certificates | \$ 115,350 | 3/20/2002 | 8/1/2027 | N/A | Pay 4.22%; receive 67% of USD LIBOR or SIFMA bps Swap Index | Citigroup Financials Products Inc. | Baa1,BBB+,A |

| 2003B -Barrier option at 7% | Hedge against future increase in interest rates | \$ 100,000 | 6/26/2003 | 8/1/2018 \$ | \$ 3,010 | See Note 1 | UBS AG, Stamford Branch | A1,A,A |

Note 1: Counterparty has right to terminate the 2003B Interest Rate Swap if the 180 day average of the BMA index exceeds 7.0% in the future

Risks

Credit Risk

The District is exposed to credit risk on hedging derivative instruments that are in asset positions. To minimize its exposure to loss related to credit risk, it is the District's policy to require counterparty collateral posting provisions on all swap agreements. These terms require full collateralization of the fair value of derivative instruments in asset positions (net of the effect of applicable netting arrangements) should the counterparty's credit rating fall below AA as issued by Standard & Poor's or Aa as issued by Moody's Investors Service. Collateral posted is to be in the form of U.S. Treasury securities held by a third-party custodian. The District has never failed to access collateral when required.

It is the District's policy to enter into netting arrangements whenever it has entered into more than one derivative instrument transaction with a counterparty. Under the terms of these arrangements, should one party become insolvent or otherwise default on its obligations, close-out netting provisions permit the nondefaulting party to accelerate and terminate all outstanding transactions and net the transactions' fair values so that a single sum will be owed by, or owed to, the nondefaulting party.

The District has no investment derivative instruments in asset positions and no hedging derivative instruments in asset positions at June 30, 2017.

Interest rate risk

The District is exposed to interest rate risk on its interest rate swaps. On its pay-fixed, receive-variable interest rate swaps, as LIBOR or the SIFMA swap index decreases, the District's net payment on the swap increases which is offset by the variable rate paid on the hedged debt.

Termination risk

The District or its counterparties may terminate a derivative instrument if the other party fails to perform under the terms of the contract including if either parties credit rating falls below designated levels. In addition, the District is exposed to termination risk on its 2003B interest rate swap with barrier option because the counterparty has the option to terminate the swap if the 180 day average of the BMA index exceeds 7.0% at any time beginning on the commencement date. If at the time of termination, a hedging derivative instrument is in a liability position, the District would be liable to the counterparty for a payment equal to the liability, subject to netting arrangements.

12. RETIREMENT PLANS

Florida Retirement System (FRS)

General Information about the FRS

The FRS was created in Chapter 121, Florida Statutes, to provide a defined benefit pension plan for participating public employees. The FRS was amended in 1998 to add the Deferred Retirement Option Program under the defined benefit plan and amended in 2000 to provide a defined contribution plan alternative to the defined benefit plan for FRS members effective July 1, 2002. This integrated defined contribution pension plan is the FRS Investment Plan. Chapter 112, Florida Statutes, established the Retiree Health Insurance Subsidy (HIS) Program, a cost-sharing multiple-employer defined benefit pension plan, to assist retired members of any state-administered retirement system in paying the costs of health insurance.

Essentially all regular employees of the District are eligible to enroll as members of the State-administered FRS. Provisions relating to the FRS are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and FRS Rules, Chapter 60S, Florida Administrative Code; wherein eligibility, contributions, and benefits are defined and described in detail. Such provisions may be amended at any time by further action from the Florida Legislature. The FRS is a single retirement system administered by the Florida Department of Management Services, Division of Retirement, and consists of the two cost-sharing, multiple-employer defined benefit plans and other nonintegrated programs. A comprehensive annual financial report of the FRS, which includes its financial statements, required supplementary information, actuarial report, and other relevant information, is available from the Florida Department of Management Services' Website (www.dms.myflorida.com).

The District's pension expense in the governmental funds totaled \$83.1 million for the fiscal year ended June 30, 2017.

FRS Pension Plan - Defined Benefit

<u>Plan Description</u>. The FRS Pension Plan (Plan) is a cost-sharing multiple-employer defined benefit pension plan, with a Deferred Retirement Option Program (DROP) for eligible employees. The general classes of membership are as follows:

- *Regular Class* Members of the FRS who do not qualify for membership in the other classes.
- *Elected County Officers Class* Members who hold specified elective offices in local government.
- Senior Management Service Class (SMSC) Members in senior management level positions.
- *Special Risk Class* Members who are employed as law enforcement officers and meet the criteria to qualify for this class.

Employees enrolled in the Plan prior to July 1, 2011, vest at six years of creditable service and employees enrolled in the Plan on or after July 1, 2011, vest at eight years of creditable service. All vested members, enrolled prior to July 1, 2011, are eligible for normal retirement benefits at age 62 or at any age after 30 years of service, "except for members classified as special risk who are eligible for normal retirement benefits at age 55 or at any age after 25 years of service"). All members enrolled in the Plan on or after July 1, 2011, once vested, are eligible for normal retirement benefits at age 65 or any time after 33 years of creditable service

"except for members classified as special risk who are eligible for normal retirement benefits at age 60 or at any age after 30 years of service"). Members of the Plan may include up to 4 years of credit for military service toward creditable service. The Plan also includes an early retirement provision; however, there is a benefit reduction for each year a member retires before his or her normal retirement date. The Plan provides retirement, disability, death benefits, and annual cost-of-living adjustments to eligible participants.

DROP, subject to provisions of Section 121.091, Florida Statutes, permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payments while continuing employment with an FRS employer. An employee may participate in DROP for a period not to exceed 60 months after electing to participate, except that certain instructional personnel may participate for up to 96 months. During the period of DROP participation, deferred monthly benefits are held in the FRS Trust Fund and accrue interest. The net pension liability does not include amounts for DROP participants, as these members are considered retired and are not accruing additional pension benefits.

<u>Benefits Provided</u>. Benefits under the Plan are computed on the basis of age and/or years of service, average final compensation, and service credit. Credit for each year of service is expressed as a percentage of the average final compensation. For members initially enrolled before July 1, 2011, the average final compensation is the average of the five highest fiscal years' earnings; for members initially enrolled on or after July 1, 2011, the average final compensation is the average final compensation is the average of the eight highest fiscal years' earnings. The total percentage value of the benefit received is determined by calculating the total value of all service, which is based on the retirement class to which the member belonged when the service credit was earned. Members are eligible for in-line-of-duty or regular disability and survivors' benefits.

The following chart shows the percentage value for each year of service credit earned:

Class, Initial Enrollment, and Retirement Age/Years of Service % Value

| Regular Class members initially enrolled before July 1, 2011 | ! |
|--|------|
| Retirement up to age 62 or up to 30 years of service | 1.60 |
| Retirement at age 63 or with 31 years of service | 1.63 |
| Retirement at age 64 or with 32 years of service | 1.65 |
| Retirement at age 65 or with 33 or more years of service | 1.68 |
| Regular Class members initially enrolled on or after July 1, | 2011 |
| Retirement up to age 65 or up to 33 years of service | 1.60 |
| Retirement at age 66 or with 34 years of service | 1.63 |
| Retirement at age 67 or with 35 years of service | 1.65 |
| Retirement at age 68 or with 36 or more years of service | 1.68 |
| Elected County Officers | 3.00 |
| Senior Management Service Class | 2.00 |
| Special Risk Regular | |
| Service from December 1, 1970 through September 30, 1974 | 2.00 |
| Service on and after October 1, 1974 | 3.00 |

As provided in Section 121.101, Florida Statutes, if the member is initially enrolled in the FRS before July 1, 2011, and all service credit was accrued before July 1, 2011, the annual cost-of-living adjustment is 3 percent per year. If the member is initially enrolled before July 1, 2011, and has service credit on or after July 1, 2011, there is an individually calculated cost-of-living adjustment. The annual cost-of-living adjustment is a proportion of 3 percent determined by dividing the sum of the pre-July 2011 service credit by the total service credit at retirement multiplied by 3 percent. Plan members initially enrolled on or after July 1, 2011, will not have a cost-of-living adjustment after retirement.

<u>Contributions</u>. The Florida Legislature establishes contribution rates for participating employers and employees. Contribution rates during the 2016-17 fiscal year were as follows:

| | Percent of Gross Salar | | | | |
|---------------------------------------|------------------------|--------------|--|--|--|
| Class | Employee | Employer (1) | | | |
| FRS, Regular | 3.00 | 7.52 | | | |
| FRS, Elected County Officers | 3.00 | 42.47 | | | |
| FRS, Senior Management Service | 3.00 | 21.77 | | | |
| FRS, Special Risk Regular | 3.00 | 22.57 | | | |
| DROP - Applicable to | | | | | |
| Members from All of the Above Classes | 0.00 | 12.99 | | | |
| FRS, Reemployed Retiree | (2) | (2) | | | |
| TRS, Plan E | 6.25 | 11.90 | | | |

- Notes (1) Employer rates include 1.66 percent for the postemployment health insurance subsidy. Also, employer rates, other than for DROP participants, include 0.06 percent for administrative costs of the
 - (2) Contribution rates are dependent upon retirement class in which reemployed.

The District's contributions to the Plan totaled \$89.0 million (which includes \$28.3 million of employee contributions) for the fiscal year ended June 30, 2017. This excludes the HIS defined benefit pension plan contributions.

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources</u> <u>Related to Pensions</u>. At June 30, 2017, the District reported a liability of \$587.1 million for its proportionate share of the Plan's net pension liability. The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2016. The District's proportionate share of the net pension liability was based on the District's 2015-16 fiscal year contributions relative to the 2015-16 fiscal year contributions of all participating members. At June 30, 2016, the District's proportionate share was 2.325 percent, which was a decrease of 0.108 from its proportionate share measured as of June 30, 2015.

For the fiscal year ended June 30, 2017, the District recognized pension expense of \$25.2 million (\$85.6 million due to the District's share of changes in deferred inflows and deferred outflows of resources, reduced by \$60.4 million for the District's contributions subsequent to the measurement date) related to the FRS Plan. In addition, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources (in thousands):

| Description | | red Outflows Resources | Deferred Inflows of Resources | |
|--|------|---------------------------|----------------------------------|----------|
| Differences between expected and | | | | |
| actual experience | \$ | 44,956 | \$ | (5,467) |
| Change of assumptions | | 35,520 | | - |
| Net difference between projected and actua | al | | | |
| earnings on FRS pension plan investment | s | 151,767 | | - |
| Changes in proportion and differences betw | veen | | | |
| District FRS contributions and proportiona | ate | | | |
| share of contributions | | 1,981 | | (23,710) |
| District FRS contributions subsequent to | | | | |
| the measurement date | | 60,417 | | - |
| m. (. 1 | | 004 (41 | | (00.177) |
| Total | \$ | 294,641 | \$ | (29,177) |

The deferred outflows of resources related to pensions, totaling \$60.4 million, resulting from District contributions to the Plan subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the fiscal year ended June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows (in thousands):

| <u>Fiscal Year Ending June 30</u> | <u>Amount</u> |
|-----------------------------------|---------------|
| 2018 | \$ 25,198 |
| 2019 | 25,197 |
| 2020 | 89,713 |
| 2021 | 57,393 |
| 2022 | 5,703 |
| Thereafter | 1,843 |

<u>Actuarial Assumptions</u>. The total pension liability in the July 1, 2016 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| Inflation | 2.60 percent |
|---------------------------|--|
| Salary Increases | 3.25 percent, average, including inflation |
| Investment rate of return | 7.65 percent, net of pension plan investment expenses, including inflation |

Mortality rates were based on the Generational RP-2000 with Projection Scale BB, with adjustments for mortality improvements based on Scale AA.

The actuarial assumptions used in the July 1, 2016, valuation were based on the results of an actuarial experience study for the period July 1, 2008, through June 30, 2013

The long-term expected rate of return on pension plan investments was not based on historical returns, but instead is based on a forward-looking capital market economic model. The allocation policy's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes an adjustment for the inflation assumption. The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

| | | Annual | Compound Annual | |
|--------------------------|----------------|------------|--------------------|-----------|
| | Target | Arithmetic | (Geometric) | Standard |
| Asset Class | Allocation (1) | Return | Return | Deviation |
| Cash | 1.0% | 3.0% | 3.0% | 1.7% |
| Fixed Income | 18.0% | 4.7% | 4.6% | 4.6% |
| Global Equity | 53.0% | 8.1% | 6.8% | 17.2% |
| Real Estate (Property) | 10.0% | 6.4% | 5.8% | 12.0% |
| Private Equity | 6.0% | 11.5% | 7.8% | 30.0% |
| Strategic Investment | 12.0% | 6.1% | 5.6% | 11.1% |
| Total | 100.00% | | | |
| Assumed inflation - Mean | | 2.60% | | 1.90% |

Note: (1) As outlined in the Plan's investment policy

<u>Discount Rate</u>. The discount rate used to measure the total pension liability was 7.60 percent, down from 7.65 percent in prior year. The Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return.

<u>Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate</u>. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.60 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.60 percent) or 1-percentage-point higher (8.60 percent) than the current rate (amounts in thousands):

| | 1% | Current | 1% |
|---|---------------------|--------------------------|---------------------|
| | Decrease (6.60%) | Discount Rate (7.60%) | Increase (8.60%) |
| District's proportionate share of the net pension liability (asset) | \$1,080,953 | \$ 587,134 | \$ 176,094 |

In the comprehensive annual financial report issued by FRS for the plan year ended June 30, 2016, management of the plan included a disclosure about the investment rate of return assumption as set by the 2016 FRS Actuarial Assumption Conference and the exception taken (unreasonable assumption) by the Plan Actuary in its Actuarial Valuation report of the Plan as of and for the year ended June 30, 2016. Management of the District considered this information, other information as well as the audited financial statements of the FRS Pension Plan and Employer Allocation Reports issued by the Auditor General of the State of Florida as of and for the year ended June 30, 2016, which both contained unmodified opinions and has concluded that the information provided by the Plan for reporting by the cost-sharing employers was reasonable.

<u>Pension Plan Fiduciary Net Position</u>. Detailed information about the Plan's fiduciary net position is available in the separately issued FRS Pension Plan and Other State Administered Systems Comprehensive Annual Financial Report.

<u>Payables to the Pension Plan</u>. At June 30, 2017, the District reported a payable of \$16.4 million for the outstanding amount of contributions owed to the Plan required for the fiscal year ended June 30, 2017.

HIS Pension Plan

<u>Plan Description</u>. The HIS Pension Plan (HIS Plan) is a cost-sharing multiple-employer defined benefit pension plan established under section 112.363, Florida Statutes, and may be amended by the Florida Legislature at any time. The benefit is a monthly payment to assist retirees of State-administered retirement systems in paying their health insurance costs and is administered by the Division of Retirement within the Florida Department of Management Services.

<u>Benefits Provided</u>. For the fiscal year ended June 30, 2017, eligible retirees and beneficiaries received a monthly HIS payment of \$5 for each year of creditable service completed at the time of retirement, with a minimum HIS payment of \$30 and a maximum HIS payment of \$150 per month, pursuant to Section 112.363, Florida Statutes. To be eligible to receive a HIS Plan benefit, a retiree under a State-administered retirement system must provide proof of health insurance coverage, which may include Medicare.

<u>Contributions</u>. The HIS Plan is funded by required contributions from FRS participating employers as set by the Florida Legislature. Employer contributions are a percentage of gross compensation for all active FRS members. For the fiscal year ended June 30, 2017, the contribution rate was 1.66 percent of payroll pursuant to section 112.363, Florida Statues. The District contributed 100 percent of its statutorily required contributions for the current and preceding three years. HIS Plan contributions are deposited in a separate trust fund from which payments are authorized. HIS Plan benefits are not guaranteed and are subject to annual legislative appropriation. In the event the legislative appropriation or available funds fail to provide full subsidy benefits to all participants, benefits may be reduced or canceled.

The District's contributions to the HIS Plan totaled \$17.2 million for the fiscal year ended June 30, 2017.

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources</u> <u>Related to Pensions</u>. At June 30, 2017, the District reported a net pension liability of \$378.3 million for its proportionate share of the HIS Plan's net pension liability. The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2016. The District's proportionate share of the net pension liability was based on the District's 2015-16 fiscal year contributions relative to the total 2015-16 fiscal year contributions of all participating members. At June 30, 2016, the District's proportionate share was 3.246 percent, which was a decrease of 0.047 from its proportionate share measured as of June 30, 2015.

For the fiscal year ended June 30, 2017, the District recognized pension expense of \$14.3 million (\$31.5 million due to the District's share of changes in deferred inflows and deferred outflows of resources, reduced by \$17.2 million for the District's contributions subsequent to the measurement date) related to the HIS Plan. In addition, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| Description | | red Outflows Resources | red Inflows Resources |
|--|----|---------------------------|------------------------------|
| Change of assumptions | \$ | 59,368 | \$ (862) |
| Net difference between projected and actu earnings on HIS pension plan investmen | ts | 191 | - |
| Changes in proportion and differences bet District HIS contributions and proportion | | | |
| share of HIS contributions District contributions subsequent to the | | 6,778 | (6,913) |
| measurement date | | 17,179 | - |
| Total | \$ | 83,516 | \$ (7,775) |

The deferred outflows of resources related to pensions, totaling \$17.2 million, resulting from District contributions to the HIS Plan subsequent to the measurement date will be recognized as a reduction of the net pension liability in the fiscal year ended June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| <u>Fiscal Year Ending June 30</u> | <u>Amount</u> |
|-----------------------------------|---------------|
| 2018 | \$ 10,711 |
| 2019 | 10,711 |
| 2020 | 10,674 |
| 2021 | 10,657 |
| 2022 | 9,222 |
| Thereafter | 6,587 |

<u>Actuarial Assumptions</u>. The total pension liability in the July 1, 2016, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| Inflation | 2.60 percent |
|---------------------|--|
| Salary Increases | 3.25 percent, average, including inflation |
| Municipal Bond Rate | 2.85 percent |

Mortality rates were based on the Generational RP-2000 with Projected Scale BB. The actuarial assumptions used in the July 1, 2016 valuation were based on the results of an actuarial experience study for the period July 1, 2008, through June 30, 2013.

<u>Discount Rate</u>. The discount rate used to measure the total pension liability was 2.85 percent, down from 3.80 percent in the prior year. In general, the discount rate for calculating the total pension liability is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS benefit is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate, and the single equivalent discount rate is equal to the municipal bond rate selected by the HIS Plan sponsor. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index

<u>Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate</u>. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 2.85 percent, as well as what the District's proportionate share of the net pension liability would be if

it were calculated using a discount rate that is 1-percentage-point lower (1.85 percent) or 1-percentage-point higher (3.85 percent) than the current rate (amounts in thousands):

| | 1% | Current | 1% |
|-----------------------------------|---------------------|------------------------|-------------------------|
| | Decrease (1.85%) | Discount Ra (2.85%) | ate Increase (3.85%) |
| District's proportionate share of | | | |
| the net pension liability | \$434,015 | \$ 378,31 | 6 \$332,090 |

<u>Pension Plan Fiduciary Net Position</u>. Detailed information about the HIS Plan's fiduciary net position is available in the separately issued FRS Pension Plan and Other State Administered Systems Comprehensive Annual Financial Report.

<u>Payables to the Pension Plan</u>. At June 30, 2017, the District reported a payable of \$3.4 million for the outstanding amount of contributions owed the HIS Plan required for the fiscal year ended June 30, 2017.

FRS – Defined Contribution Pension Plan

The District contributes to the FRS Investment Plan (Investment Plan), a defined contribution pension plan, for its eligible employees electing to participate in the Investment Plan. The Investment Plan is administered by the SBA, and is reported in the SBA's annual financial statements and in the State of Florida Comprehensive Annual Financial Report. Service retirement benefits are based upon the value of the member's account upon retirement.

As provided in Section 121.4501, Florida Statutes, eligible FRS members may elect to participate in the Investment Plan in lieu of the FRS defined-benefit plan. District employees participating in DROP are not eligible to participate in the Investment Plan. Employer and employee contributions, including amounts contributed to individual member's accounts, are defined by law, but the ultimate benefit depends in part on the performance of investment funds. Benefit terms, including contribution requirements, for the Investment Plan are established and may be amended by the Florida Legislature. The Investment Plan is funded with the same employer and employee contribution rates that are based on salary and membership class (Regular Class, Elected County Officers, etc.), as the FRS defined benefit plan. Contributions are directed to individual members allocate contributions and account balances among various approved investment choices.

Allocations to the investment member's accounts during the 2016-17 fiscal year were as follows:

| | Percent of Gross |
|--------------------------------|---------------------|
| Class | Compensation |
| FRS, Regular | 5.56 |
| FRS, Elected County Officers | 40.57 |
| FRS, Senior Management Service | 19.73 |
| FRS, Special Risk Regular | 20.34 |

For all membership classes, employees are immediately vested in their own contributions and are vested after one year of service for employer contributions and investment earnings. If an accumulated benefit obligation for service credit originally earned under the FRS Pension Plan is transferred to the Investment Plan, the member must have the years of service required for FRS Pension Plan vesting (including the service credit represented by the transferred funds) to be vested for these funds and the earnings on the funds. Nonvested employer contributions are placed in a suspense account for up to five years. If the employee returns to FRScovered employment within the five year period, the employee will regain control over their account. If the

employee does not return within the five year period, the employee will forfeit the accumulated account balance. Costs of administering the Investment Plan, including the FRS Financial Guidance Program, are funded through an employer contribution of 0.06 percent of payroll and by forfeited benefits of Investment Plan members. For the fiscal year ended June 30, 2017, the information for the amount of forfeitures was unavailable from the SBA; however, management believes that these amounts, if any, would be immaterial to the District.

After termination and applying to receive benefits, the member may rollover vested funds to another qualified plan, structure a periodic payment under the Investment Plan, receive a lump-sum distribution, leave the funds invested for future distribution, or any combination of these options. Disability coverage is provided; the member may either transfer the account balance to the FRS Pension Plan when approved for disability retirement to receive guaranteed lifetime monthly benefits under the FRS Pension Plan, or remain in the Investment Plan and rely upon that account balance for retirement income.

The District's Investment Plan pension expense totaled \$5.1 million for the fiscal year ended June 30, 2017.

<u>Payables to the Investment Plan</u>. At June 30, 2017, the District reported a payable of \$2.0 million for the outstanding amount of contributions owed the Investment Plan required for the fiscal year ended June 30, 2017.

13. POST EMPLOYMENT BENEFITS OTHER THAN PENSIONS

The District follows the guidance contained in Governmental Accounting Standards Board Statement No. 45, *Accounting and Reporting by Employers for Post-Employment Benefits Other than Pensions* (GASB 45); for certain post-employment health care benefits provided by the District for the fiscal year ended June 30, 2017. The postemployment health care and life insurance plan does not issue a stand-alone financial report, and is not included in the report of a public employee retirement system (PERS) or another entity.

Plan Description

Pursuant to Section 112.0801, Florida Statutes, the District is required to permit participation in the health insurance program by retirees and their eligible dependents at a cost to the retiree that is no greater than the cost at which coverage is available for active employees. Retirees pay 100% of the blended (active and retiree combined) equivalent premium rates. The blended rates provide an implicit subsidy for retirees because, on an actuarial basis, their current and future claims are expected to result in higher costs to the plan on average than those of active employees. The plan is a single employer plan.

Funding Policy

The District is financing the post-employment benefits on a pay-as-you-go basis. Expenditures for these insurance premiums are prorated between the General Fund and other funds where the personnel are located. For fiscal year 2017, 1,065 retirees received health care benefits. The District provided required contributions of approximately \$10.1 million toward the annual OPEB cost. Retiree contributions totaled approximately \$5.3 million, which represents 0.5 percent of covered payroll.

Annual OPEB Cost and Net OPEB Obligation

The District's annual Other Post Employment Benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost each year to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The table on the next page shows the components of the District's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the District's net OPEB obligation to the retiree health plan (amounts in thousands):

| Annual Required Contribution | \$ 10,069 |
|--|---------------|
| Interest on Net OPEB Obligation | 3,848 |
| Adjustment to Annual Required Contribution | (4,154) |
| Annual OPEB Cost (Expense) | 9,763 |
| Contribution Towards OPEB Cost | (5,330) |
| Increase in Net OPEB Obligation | 4,433 |
| Net OPEB Obligation - Beginning of Year | 107,486 |
| Net OPEB Obligation - End of Year | \$ 111,919 |

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation as of June 30, 2017, and the two preceding years were as follows (amounts in thousands):

| | Percentage of | | | | | | | |
|--------------------|---------------|------------------|------------|---------|--|--|--|--|
| Fiscal Year Annual | | Annual OPEB Cost | Net OPEB | | | | | |
| Ended OPEB Cost | | Contributed | Obligation | | | | | |
| June 30, 2017 | \$ 9,763 | 55% | \$ | 111,919 | | | | |
| June 30, 2016 | 12,277 | 56% | | 107,486 | | | | |
| June 30, 2015 | 12,006 | 47% | | 102,032 | | | | |

Funded Status and Funding Progress

As of June 30, 2017, the actuarial accrued liability for benefits was \$115.1 million, all of which was unfunded. The covered payroll (annual payroll of active employees covered by the plan) was \$1.0 billion, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 11.4%.

The projection of future benefit payments for an ongoing plan involves estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The Projected Unit Cost method (PUC) with benefits attributed from date of hire to expected retirement age was used in the actuarial valuation as of June 30, 2017. The unfunded actuarial accrued liability is amortized over the maximum acceptable period of thirty years on an open basis. It is calculated assuming a level dollar percentage. The remaining amortization period at June 30, 2017 is thirty years (open basis).

The following assumptions were made:

Retirement Age – Annual retirement probabilities have been determined based on the Florida Retirement System Actuarial Valuation as of July 1, 2016.

Spouse Age – Spouse dates of birth were provided by the District. Where this information is missing, male spouses are assumed to be three years older than female spouses.

Per Capita Health Claim Cost – Per capita health claim costs are developed based on 2 years of historical claim experience June 2017. The per capita cost at age 60 is \$10,500 and at age 70 is \$5,500.

Age Based Morbidity – The assumed per capita health claim costs are adjusted to reflect expected increases related to age and gender. These increase are based on a 2013 Society of Actuaries study, with sample rates shown below.

| Sample Age | Male | Female |
|------------|------|--------|
| 45 | 4.6% | 1.6% |
| 50 | 6.2% | 4.2% |
| 55 | 5.4% | 2.4% |
| 60 | 4.7% | 3.6% |
| 65 | 1.7% | 2.4% |
| 70 | 1.8% | 2.0% |
| 75 | 1.2% | 1.3% |
| 80 | 0.8% | 1.1% |

Mortality – Life expectancies were based on Generational Mortality Table. The RP-2014 Table projected to 2030 using Scale MP-16 and applied on a gender specific basis.

Healthcare Cost Trend Rate - The expected rate of increase in healthcare insurance premiums was based on District historical experience, market-place knowledge and macro-economic theory. A rate of 7.0% for under age 65 and 6.0% over age 65 initially, reduced 0.5% each year until reaching the ultimate trend rate of 4.5%.

Retiree Contributions – Contributions are required for both retiree and dependent coverage. Retirees contribute the full active premium equivalent rates for coverage.

Non-Claim Expenses – Non-claim expenses are based on the current amounts charged per retired employee.

Termination – The rate of withdrawal for reasons other than death and retirement has been developed from the Florida Retirement System Actuarial Valuation as of July 1, 2016. The annual termination probability is dependent on an employee's age, gender, and years of service.

Plan Participation Percentage – It is assumed that 30% of all future retirees and their dependents who are eligible for benefits participate in the post-employment benefit plan.

Census Data – The census data was provided as of July 2017.

Salary Increase Assumption – 2.5% per annum.

Discount Rate – 3.58% per annum

Inflation Rate – 2.5%

14. NET POSITION AND FUND BALANCE REPORTING

Fund Balance

GASB 54 categorizes fund balance as either nonspendable or spendable. Nonspendable is defined as the portion of fund balance that includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. District nonspendable items include inventories.

Spendable is defined as a hierarchy of fund balance classifications that is available to be spent based on the element to which the District is bound to observe constraints imposed upon the use of resources:

- Restricted fund balance is constrained by external parties, and constitutional provisions or enabling legislation. District restricted balances includes: Carryover balances as a result of revenue received with constraints from Federal laws, Florida Statute, Florida School Board Rules, local ordinances or contract provisions.
- Committed fund balance can only be used for specific purposes pursuant to constraints imposed by formal action of the School Board. District committed balance includes: Funds committed by the School Board on June 2, 2010 for future purchase and installation of equipment needed to transmit and receive programming for The Education Network (TEN).
- Assigned fund balances are amounts that are constrained by the School Board or Superintendent to be used for a specific purpose. Florida Statute 1001.51, Duties and Responsibilities of District School Superintendent, delegates certain financial authority to the Superintendent.
- Unassigned fund balance is the residual classification for the general fund.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, it is the District's policy to use restricted assets first, followed by unrestricted assets. Committed amounts would be reduced first, followed by assigned amounts, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

The District has not established a stabilization arrangement. Instead, the Board has established policy 2.55, Fund Balance for Contingency to set aside 3% of total annual operating fund appropriations and transfers from the operating fund to cover unanticipated financial needs and to avoid a budget deficit. At the end of the fiscal year, the unassigned general fund balance was \$52.0 million or 3.15% of general fund total expenditures.

15. COMMITMENTS AND CONTINGENCIES

The District receives funding from the State that is based, in part, on a computation of the number of full time equivalent ("FTE") students enrolled in different types of instructional programs. The accuracy of data compiled by individual schools supporting the FTE count is subject to State audit and, if found to be in error, could result in refunds or in decreases in future funding allocations. It is the opinion of management that any amounts of revenue which may be remitted back to the State due to errors in the FTE count, if any, will not be material to the financial position of the District.

The District received financial assistance from Federal and State agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material effect on the overall financial position of the District.

The District is involved in various lawsuits arising in the ordinary course of operations. In the opinion of management, the District's estimated aggregate liability with respect to probable losses has been provided for in the estimated liability for insurance risks and pending claims in the accompanying financial statements, after giving consideration to the District's related insurance coverage, as well as the Florida statutory limitations of governmental liability on uninsured risks. It is the opinion of management in consultation with legal counsel that any final settlements in these matters will not result in a material adverse effect on the financial position of the District.

As part of its capital outlay program, the District has entered into various construction contracts. The District's construction commitments of \$16.1 million and other encumbrances of \$3.7 million as of June 30, 2017 are shown below (amounts in thousands):

| | Construction | | | | | | | |
|------------------------------|--------------|-------|----|-----------|-------|--------|--|--|
| | Encumbrances | | | mmitments | Total | | | |
| General Fund | \$ | 1,417 | \$ | - | \$ | 1,417 | | |
| Capital Improvement | | - | | 5,477 | | 5,477 | | |
| Other Non-Major Governmental | | 2,235 | | 10,662 | | 12,897 | | |
| Total Commitments | \$ | 3,652 | \$ | 16,139 | \$ | 19,791 | | |

16. SUBSEQUENT EVENTS

On September 26, 2017, the District issued Tax Anticipation Notes ("TANS") Series 2017. The \$115.0 million issue has a coupon rate of 3.00% with an effective yield of 0.95%. The notes are dated October 10, 2017.

On September 26, 2017, the District issued \$147.9 million (plus a premium of \$31.9 million) in Certificates of Participation, Series 2017A to refund the Series 2007C publicly owned Certificates. Refinancing the Series 2007C Series will generate \$32.0 million cash flow savings for 2018 through 2027. The Series 2017A Certificates possess underlying credit ratings of Aa3 Moody's and AA- Fitch.

COMBINING AND INDIVIDUAL FUND STATEMENTS AND SCHEDULES

Non-major Governmental Funds

Special Revenue Funds

Special Revenue Funds are maintained to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes.

Food Services Fund

To account for all School District cafeteria and food service programs.

Other Special Revenue Fund

To account for federal, state and local grant revenue sources which are legally restricted.

Federal Economic Stimulus Programs Fund

To account for targeted assistance funds received from the State of Florida under the American Recovery and Reinvestment Act (ARRA) with the intended use of avoiding job losses.

Debt Service Funds

Debt Service Funds are maintained to account for the payment of interest and principal requirements on long-term debt.

State Board of Education/Capital Outlay Bond Indebtedness (SBE/COBI) Fund

To account for the repayment of the State Board of Education Capital Outlay Bonds.

Buses and Equipment Debt Service Fund

To account for the repayment of loans used to acquire buses and other equipment.

ARRA Qualified School Construction Bonds (QSCB) Fund

To account for the payment of interest and principal of ARRA Qualified School Construction Bonds.

Non-major Governmental Funds

Capital Projects Funds

Capital Outlay Bond Indebtedness (COBI) Fund

To account for the repayment of the State Board of Education Capital Outlay Bonds

Capital Outlay and Debt Service (CO & DS) Fund

To account for capital projects financed through the District's allocation of the state Capital Outlay and Debt Service program.

Sales Tax Fund

To account for locally received funds, primarily sales tax revenue, for the acquisition, construction or renovation of capital facilities, including land and equipment.

Buses and Equipment Capital Fund

To account for the acquisition of the buses and other equipment financed by loans.

COPS Fund

Certificates of Participation ("COPS") capital projects fund accounts for construction projects and equipment purchases financed by sale of certificates of participation.

Other Capital Projects Fund

To account for various other miscellaneous revenues designated for construction projects.

Statistical

STATISTICAL SECTION

This part of The School District of Palm Beach County's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures and required supplemental information says about the district's overall financial position.

CONTENTS

Financial Trends

These schedules contain trend information to assist the reader in understanding how the District's financial position has changed over time.

Revenue Capacity

These schedules contain information to assist the reader in assessing the District's major revenue sources.

Debt Capacity

These schedules present information to assist the reader in assessing the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.

Demographic and Economic Information

These schedules offer demographic and economic indicators to assist the reader in understanding the environment within which the District's financial activities take place.

Operating Information

These schedules contain service and infrastructure data to assist the reader in understanding how the information in the District's financial report relates to the service the District provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from comprehensive annual financial reports for the relevant year. The District implemented Statement 34 in 2002; schedules presenting government-wide information include information beginning in that year.

THE INFORMATION CONTAINED IN THIS STATISTICAL SECTION HAS BEEN OBTAINED FROM PUBLIC DOCUMENTS, RECORDS AND OTHER SOURCES CONSIDERED TO BE RELIABLE AND, WHILE NOT GUARANTEED AS TO COMPLETENESS OR ACCURACY, MANAGEMENT BELIEVES IT TO BE CORRECT.

Detail regarding the District's outstanding debt can be found in the notes to the basic financial statements. (1) See Table 18 for personal income and per capita data.

COMPUTATION OF LEGAL DEBT MARGIN LAST TEN FISCAL YEARS (UNAUDITED) (amounts expressed in thousands)

<u>The Florida State Board of Education Administrative Rule 6A-1.37(2)</u> establishes a parameter on bonded indebtedness for school districts. Limits are computed as a stated percentage of the nonexempt assessed value of taxable property as of the most current year.

| | 2008 | 2009 | 2010 | 2011 |
|---|---------------|---------------|---------------|---------------|
| Limit of bonded indebtedness, 10% of net assessed value of taxable property | \$17,022,914 | \$16,823,790 | \$14,811,991 | \$13,446,967 |
| Total bonded debt Less amount available in Debt Service Funds | 45,478 944 | 41,937 842 | 30,132 768 | 38,816 884 |
| Total amount applicable to debt limit | 44,534 | 41,095 | 29,364 | 37,932 |
| Legal debt margin on bonded debt | \$16,978,380 | \$16,782,695 | \$14,782,627 | \$13,409,035 |
| Legal debt margin on bonded debt as a percentage of bonded debt limit | 99.74% | 99.76% | 99.80% | 99.72% |

| 2012 | 2013 | 2014 | 2015 | 2016 | 2017 |
|---------------|---------------|---------------|---------------|--------------|---------------|
| \$13,204,871 | \$13,271,903 | \$13,831,033 | \$14,973,453 | \$16,486,640 | \$178,279,409 |

RSM US LLP

Management Letter in Accordance with Chapter 10.800 of the Rules of the Auditor General of the State of Florida

To the Chairperson and Board Members of The School District of Palm Beach County, Florida

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of The School District of Palm Beach County, Florida (the District), as of and for the fiscal year ended June 30, 2017 and have issued our report thereon dated November 29, 2017.

Auditor's Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Other Reporting Requirements

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards*, Independent Auditor's Report on Compliance for Each Major Federal Program and Report on Internal Control over Compliance in Accordance with the Uniform Grant Guidance, and Schedule of Findings and Questioned Costs and our Independent Accountant's Report on an examination conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants, regarding compliance requirements in accordance with Chapter 10.800, Rules of the Auditor General. Disclosures in those reports, which are dated November 29, 2017, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.804(1)(f)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. Corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report except as reported in *Appendix A – Status of Prior Year's Recommendations to Improve Financial Management, Accounting Procedures and Internal Controls.*

Financial Condition and Management

Section 10.804(1)(f)2., Rules of the Auditor General, requires us to communicate whether or not the District has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and identification of the specific condition(s) met. In connection with our audit, we determined that the District did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

THE POWER OF BEING UNDERSTOOD AUDIT | TAX | CONSULTING Pursuant to Sections 10.804(1)(f)5.a. and 10.805(7), Rules of the Auditor General, we applied financial condition assessment procedures for the District. It is management's responsibility to monitor the District's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.

Section 10.804(1)(f)3., Rules of the Auditor General, requires that we address in the management letter any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Transparency

Section 10.804(I)(f)6., Rules of the Auditor General, requires that we communicate the results of our determination as to whether the District maintains on its website the information specified in Section 1011.035, Florida Statutes. (Section 1011.035, Florida Statutes, provides that district school boards include a plain language version of each proposed, tentative, and official budget that describes each budget item in terms that are easily understandable to the public). In connection with our audit, we determined that the District maintained on its website the information specified in Section 1011.035, Florida Statutes.

Additional Matters

Section 10.804(1)(f)4., Rules of the Auditor General, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with our audit, we did not have any such findings.

Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, the Chairperson and Board Members of District, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.

Independent Accountant's Report

To the Chairperson and Members of The School District of Palm Beach County, Florida

We have examined The School District of Palm Beach County, Florida's (the School District) compliance with Section 218.415, *Florida Statutes, Local Government Investment Policies* during the year ended June 30, 2017. Management is responsible for the School District's compliance with the specified requirements. Our responsibility is to express an opinion on the School District's compliance with the specified requirements based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the School District complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether the School District complied requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Our examination does not provide a legal determination on the School District's compliance with specified requirements.

In our opinion, the School District complied, in all material respects, with Section 218.415, Florida Statutes, Local Government Investment Policies during the period July 1, 2016 to June 30, 2017.

This report is intended solely for the information and use of the Florida Auditor General, the Honorable Superintendent, Board Members of the School District, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*

Independent Auditor's Report

To the Chairperson and Members The School District of Palm Beach County, Florida West Palm Beach County, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of The School District of Palm Beach County, Florida (the District), as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated November 29, 2017.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

THE POWER OF BEING UNDERSTOOD AUDIT | TAX | CONSULTING

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report on Compliance for Each Major Federal Program; Report on Internal Control Over Compliance; and Report on the Schedule of Expenditures of Federal Awards as Required by the Uniform Guidance

Independent Auditor's Report

To the Chairperson and Members The School District of Palm Beach County, Florida Palm Beach County, Florida

Report on Compliance for Each Major Federal Program

We have audited The School District of Palm Beach County, Florida's (the District) compliance with the types of compliance requirements described in the Office of Management and Budget (OMB) *Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2017. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance, require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Organization's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2017.

THE POWER OF BEING UNDERSTOOD AUDIT | TAX | CONSULTING

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements. We issued our report thereon dated November 29, 2017, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements as a whole. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

Notes to Schedule of Expenditures of Federal Awards

Note 1. General and Basis of Presentation

The accompanying schedule of expenditures of federal awards (the schedule) presents the expenditure activity of all federal awards of The School District of Palm Beach County, Florida (the District), for the year ended June 30, 2017. The District's reporting entity is defined in Note 1 of the District's basic financial statements. All federal awards received directly from federal and indirectly through state agencies, as well as amounts passed through other government agencies are included in the accompanying schedule of expenditures of federal awards. Because the schedule presents only a selected portion of the expenditures of the District, it is not intended to and does not present the financial position, changes in net position/fund balance or cash flows of the District. Some amounts presented in this schedule may differ from amounts presented in or used in the preparation of the basic financial statements.

Note 2. Basis of Accounting

The accompanying schedule is presented using the modified accrual basis of accounting. The information in the schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance).

Note 3. Indirect Cost Recovery

The District did not recover its indirect costs using the 10% de minis indirect cost rate provided under Section 200.414 of the Uniform Guidance.

Note 4. Noncash Awards

The National School Lunch Program for CFDA Number 10.555 includes \$5,545,429 of donated food used during the fiscal year. Donated foods are recorded at fair value as determined at the time of the donation.

Schedule of Findings and Questioned Costs Year Ended June 30, 2017

Section II. Financial Statements Findings

No matters to report

Section III. Federal Award Findings and Questioned Costs

No matters to report

Summary Schedule of Prior Audit Findings Year Ended June 30, 2017

I – Financial Statement Findings

Finding Number 2016-001

Condition – Pursuant to guidance from the FDOE, the District was responsible for reporting 47, 53 and 50 charter schools as DPCUs on the District's financial statements for the 2013-14, 2014-15, and 2015-16 fiscal years, respectively. However, for those fiscal years, the District did not report the charter schools as DPCUs on the District's Comprehensive Annual Financial Report (CAFR).

Additionally, financial information for 35 of the District's 50 charter schools was available at the time of the District's AFR publication and the District reported the financial information for the 35 charter schools in a column titled "Charter Schools" on the 2015-16 fiscal year AFR presented for audit. However, the AFR notes to financial statements indicated that charter schools no longer qualify as part of the District's Reporting Entity and should not be reported as DPCUs.

Corrective Action Plan – Management disagrees with the comment. The District assessed and concluded in fiscal year 2013, that charter schools do not meet the criterion to be considered component units. No facts or circumstances have changed to alter the District's position. The District's assessment was based upon extensive review of the standards in collaboration with the District's independent external auditor and multiple discussions with Governmental Accounting Standards Board (GASB) staff in fiscal years ended June 30, 2012, 2013 and October, 2015. The District has received and continues to receive unmodified opinions from the independent auditors since the first year of implementation fiscal year ended June 30, 2013 up to and including June 30, 2017. The District's independent external auditor opinioned that District financial statements present fairly, in all material respects, the respective financial position in accordance with accounting principles generally accepted in the United States of America (GAAP). A change to the presentation of charter schools would potentially put the District at risk for a modification of opinion and noncompliance with GAAP.

II – Federal Awards Findings and Questioned Costs

No material weaknesses or significant deficiencies reported.
