### SCHOOL DISTRICT OF MANATEE COUNTY

January 22, 2019

Dear Chair, School Board Members, and the Citizens of Manatee County:

We are pleased to submit the Comprehensive Annual Financial Report (CAFR) of the School Board of Manatee County, Florida (District) for the fiscal year ended June 30, 2018. State law requires all school districts publish within 9 months of the close of each fiscal year a complete set of financial statements presented in conformity with accounting principles generally accepted in the United States (GAAP) and audited in accordance with generally accepted auditing standards by an independent certified public accountant.

This report consists of management's representations concerning the finances of the District. Responsibility for the accuracy, completeness and fairness of the information presented, including all disclosures, rests with the District's management. To provide a reasonable basis for making these representations, management of the District has established a comprehensive internal control framework that is designed both to protect District assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the District's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the District's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

This report will provide the taxpayers of the School District with financial data in a format enabling them to gain an understanding of the financial affairs and standing of the District.

### **Independent Audit**

Moore Stephens Lovelace, P.A., has independently audited the District's financial statements for the fiscal year ended June 30, 2018. Sections 11.45. and 218.39. Florida Statutes, require an annual audit conducted by independent certified public accountants. The goal of the independent audit is to provide reasonable assurance that the financial statements of the District are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The report on the basic financial statements by Moore Stephens Lovelace, P.A., is included in the Financial Section of the CAFR. The independent auditor concluded there was a reasonable basis for rendering an unmodified opinion that based on the audit and reports of other auditors, the District's financial statements are fairly presented in all material respects, in conformity with GAAP.

The independent audit of the financial statements of the District was part of a broader, Federally mandated "Single Audit" designed to meet the special needs of Federal grantor agencies. The District is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1996 and the United States Office of Management and Budget Title 2 U.S. Code of Federal Regulations, Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.* The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements but also the audited government's internal controls and compliance with the legal requirements with special emphasis on internal controls and legal requirements involving the administration of Federal awards. Information related to this single audit, including the schedule of expenditures of Federal awards, findings and questioned costs, summary of prior audit findings, and the independent auditor's reports on the system of internal control and on compliance with applicable requirements, are included in the single audit section.

The CAFR includes all funds of the District, the Manatee School Board Leasing Corporation (Leasing Corporation), and 11 charter schools, which comprise the reporting entity. The Leasing Corporation was formed by the School Board to be the lessor in connection with financing the acquisition and/or construction of certain educational facilities. The charter schools are public schools operating under contracts with the District. The charter schools are included in the CAFR as discretely presented component units. One charter school, the State College of Florida Collegiate School, operates under another governmental agency and therefore, is not included as a discretely presented component unit of the District.

The CAFR is presented in three sections as follows:

- 1. The Introductory Section, which contains the Letter of Transmittal, List of Principal Officials, and an Organizational Chart of the District.
- 2. The Financial Section, which includes the Independent Auditor's Report, Management's Discussion and Analysis (MD&A), basic financial statements, notes to the financial statements, and other supplemental information.

The basic financial statements and notes provide an overview of the District's financial position and operating results. The other supplemental information provides more detailed information relative to the basic financial statements, which includes combining statements for non-major governmental funds, combining statements for each fund type, budget to actual statements for all governmental funds, and combining statements for the discretely presented component units. The MD&A immediately follows the independent auditor's report and provides a narrative introduction, overview and analysis of the basic financial statements. The MD&A complements the letter of transmittal and should be read in conjunction with it.

3. The Statistical Section presents on a multi-year basis, selected social and economic data, financial trends and the fiscal capacity of the District.

Reports and schedules required by *Governmental Auditing Standards* and United States Office of Management and Budget (OMB) follow the three sections identified above.

#### **Profile of the School District**

The District and its governing body were created pursuant to Section 4, Article IX of the Constitution of the State of Florida. The District is an independent taxing and reporting entity managed, controlled, operated, administered, and supervised by the District in accordance with Chapter 1001, Florida Statutes. The District consists of five elected officials responsible for the adoption of policies, which govern the operation of public schools in Manatee County. The Superintendent of Schools is responsible for the administration and management of the schools within the applicable parameters of Florida Statutes, State Board of Education Rules, and District policies. Section 1010.01, Florida Statutes, requires each school district to prepare and maintain financial records and accounts as prescribed by law and rules of the State Board of Education.

The geographic boundaries of the District are those of Manatee County. The County encompasses a 742 square mile area located in west central Florida and is approximately 45 miles south of the city of Tampa. The County operates under a constitution adopted in 1921 and has a current estimated population of 385,571 persons. Within its borders are six municipalities: City of Anna Maria, Bradenton, Bradenton Beach, Holmes Beach, Palmetto and the Town of Longboat Key.

During the 2017-18 fiscal year, the District operated 54 schools at 53 sites; including 32 elementary schools, 9 middle schools, 6 high schools, 1 alternative education school, 1 ESE center, 1 post-secondary school (operated at four school sites) and 1 virtual school. The District also managed 13 contract sites; including 4 Department of Juvenile Justice sites, and authorized operating contracts with 12 charter schools. The charter schools are separate not-for-profit corporations organized pursuant to Chapter 617, Florida Statutes, the Florida Not-For-Profit Corporation Act, and Section 1002.33, Florida Statutes. The average age of schools for the District is 44 years. The District reported serving approximately 48,466 unweighted, full-time equivalent students for the 2017-18 fiscal year and projects it will enroll 48,686 students for the 2018-19 fiscal year.

The District serves students from infants through adults. Students in the District represent a diverse community of learners, including a variety of ethnic and cultural backgrounds. The student population breaks down as follows: 46.9% White not Hispanic, 33.4% Hispanic, 13.7% Black not Hispanic, 2.1% Asian, 3.8% Multi Racial, 0.1% Native American.

In addition to the various educational programs offered to K-12 students, the District offers services including: programs for babies of teen parents who are progressing toward achieving high school diplomas; programs for special education from age 3 to 21; preschool programs for children from birth through five years; programs for eligible homeless or at risk of becoming homeless students; and voluntary pre-kindergarten services.

The District also offers programs for adults to learn the necessary skills in order to enter the workforce or increase opportunities for advancement in current positions. Students from foreign countries have the opportunity to learn communication skills through the District's English Language Learner (ELL) programs, and all citizens can take fee-supported courses to increase personal development in various subjects such as computers, photography and personal financial planning.

#### **Economic Condition and Outlook**

The County is part of the North Port-Bradenton-Sarasota Metropolitan Statistical Area (MSA) that includes Manatee and Sarasota Counties. Since 2010, the population of Manatee County has increased 14.2 percent to approximately 368,782. For the 2017 calendar year, The Office of Economic & Demographic Research ranks Manatee County as the 15<sup>th</sup> most populous county (out of 67 counties) in the State with 1.8 percent of Florida's population. Manatee County's unemployment rate was 3.9 percent.

The County experienced a decrease in growth in the housing market. In 2017, there were 3,835 housing units permitted in Manatee County down from 4,168 in 2016. Housing values increased by 7.7 percent. The median sales price for an existing single-family home in Manatee County is \$295,000 and expected to rise by 2 percent in 2018.

The District recognizes it benefits financially from the growth in population as well as the increase in property values. The District anticipates continued growth in the number of students served by District schools. The 2020 population projection for Manatee County is 394,332.

### **Major Initiatives and Accomplishments**

Fiscal year 2017-18 was a busy and successful year for the School District of Manatee County. The District's accomplishments include:

Ninety percent of Manatee District schools received grades of "A, B or C"; the number of "D" schools dropped from 11 to six and for the second-consecutive year, not a single Manatee District school received an "F" grade. District wide, the Florida Department of Education gave the Manatee District a "B" grade for a third time in the last four years (2015, 2017, and 2018) after receiving a "C" grade the previous three years and increased its ranking from 39th to 33rd in the State.

Manatee Technical College graduated 1,404 students in Adult Education and 1,371 students in Career and Technical Education during the 2017-18 school year.

The District provided pay increases to all employees for the fourth consecutive year.

County voters demonstrated their commitment to the School District of Manatee County by voting for a 1 millage increase for four years, which will allow the District to increase instruction time by 30 minutes each day, increase pay for teachers, bus drivers and other staff who work directly with students and expand career, technical and science/engineering programs in order to address the continuous growth in our county.

S&P Global Ratings Agency raised its long-term rating of Manatee County School Board's Certificates of Participation (COPs) two notches to 'A' (Strong Investment) from 'BBB+' (Adequate Investment) with an outlook of stable.

Moody's Investor Service boosted the District's Issuer Default Rating from Baa1 to Aaa; and \$160 million in COPs rose from Baa2 to Aaa. Obligations of Aaa are judged to be of the highest quality subject to the lowest level of credit risk. The upgrade reflects a growing tax base and low debt; and the District's finances have been deemed stable.

Fitch Ratings has upgraded the following outstanding Manatee County School Board, FL, ratings: Long-Term Issuer Default Rating (IDR) to 'A' from 'A-'; reflects the District's improved financial flexibility, as demonstrated by its ability to rebuild and maintain reserves for the past four fiscal years. The rating also reflects the District's revenue growth prospects, moderate carrying costs, and low long-term liabilities. Certificates of participation (COPs) to 'A-' from 'BBB+'; reflect the one-notch distinction from the IDR and the slightly higher degree of optionality associated with lease payments subject to appropriation. Manatee County School District (FL) sales tax revenue bonds, series 2017 to 'A' from 'A- reflects the solid growth prospects for pledged revenues and a very high resilience to economic downturns based on historical results. The Rating Outlook is revised to Stable from Positive.

#### **Financial Information**

The District is responsible for maintaining budgetary controls, and ensuring spending is in compliance with the annual appropriated budget approved by the District. All governmental fund types utilized by the District are included in the annual appropriated budget. The legal level of budgetary control is established at the fund-function-object level for all funds, meaning, this is the level at which expenditures cannot exceed the appropriated amount.

At June 30, 2018, the District's General Fund, fund balance was \$30,240,826; a \$4,678,752 increase over June 30, 2017. Of this amount, \$647,626 is considered nonspendable, \$8,955,032 restricted, \$4,840,580 assigned and \$15,797,588 unassigned fund balance. The District's assigned and unassigned General Fund balance increased to 5.44 percent at June 30, 2018, a .52 percent increase over the prior year of 4.92 percent.

The School District of Manatee County continues to demonstrate strong financial stewardship. For the fifth consecutive fiscal year, the District closed the year with a positive fund balance exceeding the state mandated 3% requirement, despite only a .4% increase in State funding. The District's assigned and unassigned fund balance totaled \$20,638,168 or 5.44% of revenues, exceeding the Board policy goal of establishing a 5% fund balance. The District provided financial oversight to support a staffing and academic plan to enhance the educational environment.

### Certificate of Excellence in Financial Reporting

The Association of School Business Officials, International (ASBO) awarded a Certificate of Excellence in Financial Reporting to the District for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2017. This is the 12th year the District received this prestigious award. In order to be awarded the Certificate of Excellence in Financial Reporting, the District must publish an easily readable and efficiently organized CAFR. The Certificate of Excellence is valid for a period of one year only. Upon completion of the CAFR this year, the District will once again apply for consideration of this award.

### Acknowledgements

The preparation of the CAFR was made possible by the dedicated service of the entire staff of the District's Finance Department. Our sincere appreciation is extended to each member of the department for their contributions in the preparation and completion of this report.

In closing, we would like to thank the members of the District School Board and the Audit Committee for their leadership that has contributed to the accomplishments of the School District of Manatee County. We also thank the District's teachers, staff, and the citizens of Manatee County, who have contributed greatly to the educational accomplishments of the students and to the operation of this innovative school system.

Respectfully submitted,

#### INDEPENDENT AUDITOR'S REPORT

Chair and Members of the School Board School District of Manatee County, Florida

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the School District of Manatee County, Florida (the "District") as of and for the fiscal year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the aggregate discretely presented component units. Those financial statements were audited by other auditors, whose reports have been furnished to us and our opinion, insofar as it relates to the amounts included for the discretely presented component units, is based solely on the reports of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### INDEPENDENT AUDITOR'S REPORT

(Continued)

#### **Opinions**

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to in the first paragraph present fairly, in all material respects, the respective financial position of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the District as of June 30, 2018, and the respective changes in financial position, and, where applicable, cash flows thereof, and the budgetary comparison for the general fund for the fiscal year then ended in conformity with accounting principles generally accepted in the United States of America.

### **Emphasis-of-Matter – Change in Accounting Principle**

As discussed in Note II to the financial statements, in the year ended June 30, 2018, the District adopted the provisions of Governmental Accounting Standards Board Statement ("GASBS") 75, Accounting and Financial Reporting for Postemployment Benefits Other than Pensions. As a result of the implementation of GASBS 75, the District reported a restatement for the change in accounting principle as of July 1, 2017. Our opinions are not modified with respect to this matter.

#### Other Matters

### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and Required Supplementary Information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements as a whole. The introductory section, combining and individual fund financial statements and schedules, and statistical section, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the financial statements. The combining and individual fund financial statements and schedules are the responsibility of management and were derived from, and relate directly to, the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated, in all material respects, in relation to the financial statements as a whole.

### INDEPENDENT AUDITOR'S REPORT (Concluded)

The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 14, 2019, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

The management of the District School Board of Manatee County, Florida (the "District") has prepared the following discussion and analysis to (a) assist the reader in focusing on significant financial issues, (b) provide an overview and analysis of the District's financial activities, (c) identify changes in the District's financial position, (d) identify material deviations from the approved budget, and (e) highlight significant issues in individual funds.

Because the information contained in the Management's Discussion and Analysis (MD&A) is intended to highlight significant transactions, events and conditions, it should be considered in conjunction with the District's financial statements.

### **Financial Highlights**

- The assets and deferred outflows of resources of the District exceeded its liabilities and deferred inflows of resources at June 30, 2018 by \$620,231,242 (net position). Of this amount, \$153,582,134 represents a deficit unrestricted net position.
- This deficit in unrestricted net position was due primarily to the District's long-term liabilities for employee benefits at June 30, 2018. Significant liabilities and deferrals included: Other Postemployment Benefits Payable \$13,583,741; Compensated Absences Payable \$22,444,261; and Net Pension Liability \$226,631,971;
- The District's total net position increased by \$22,038,126 or 3.68 percent.
- As of the close of the current fiscal year, the District's total governmental funds reported combined fund balances of \$177,504,515, a decrease of \$46,834,999 in comparison with the prior fiscal year. This decrease is mainly attributed to the drawdown of sales tax revenue bond funds for the construction of new schools.
- S&P Global Ratings Agency raised its long-term rating of the District's certificates of participation (COPs) two notches to 'A' from 'BBB+' and the outlook to stable. As stated in the report "The upgrade reflects the board's recent trend of stable operating performance and improved reserves, supported by the formalization of financial management policies and practices."
- Moody's Investors Service upgraded the District's issuer rating to A2 from Baa1 and the District's COPs were upgraded to A3 from Baa2 with an outlook of stable. The credit strengths cited were a "large and growing tax base, low debt and pension burdens and improved financial position." The ratings outlook also stated, "The outlook reflects the likelihood that the district's finances will be stable because of new revenues, a trend of improved budgeting practices resulting in operating surpluses and growing enrollment."
- Fitch Ratings upgraded the District's Long-Term Issuer Default Rating (IDR) to 'A' from 'A-'; the COPs to 'A-' from 'BBB+'; and Manatee County School District (FL) Sales Tax Revenue Bonds, series 2017 to 'A' from 'A-'. The release stated, "The district's reserves, maintained at a level in accordance with its reserve policy over the past four fiscal years,

are consistent with the reserve safety margins for an 'a' level financial resilience assessment."

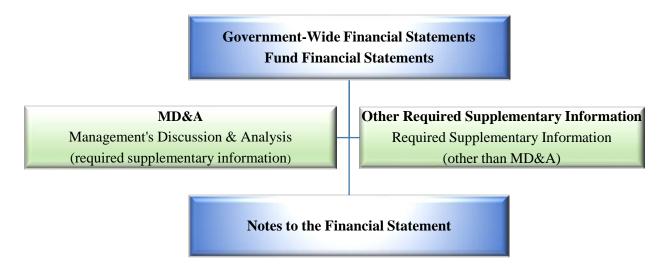

• As of the close of the current fiscal year, the District's assigned and unassigned fund balance for the General Fund was \$20,638,168 or 5.44 percent of total General Fund revenues, which exceeds the 3 percent reporting threshold and the District's Board policy goal of establishing a 5 percent fund balance. The total fund balance was \$30,240,826 or 7.98 percent of total General Fund revenues.

#### **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplemental information in addition to the basic financial statements themselves.

The government-wide financial statements provide both long-term and short-term information about the District's overall financial status. The subsequent statements are fund financial statements that focus on individual parts of the District and provide greater detail of the District's operations than the government-wide statements. Additionally, the basic financial statements include notes, which explain some of the information in the statements and provide more detailed data. The illustration below shows how the various parts of the financial section are arranged and relate to one another.

### **Basic Financial Statements**

**Government-Wide Financial Statements.** The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position provides information about the District's financial position, its assets, liabilities, and deferred inflows/outflows of resources, using an economic resources measurement focus. Assets plus deferred outflows of resources, less liabilities and deferred inflows of resources, equals net position, which is a measure of the District's financial health. The statement of activities presents information about the change in the District's net position, the results of operations, during the fiscal year. An increase or decrease in net position is an indication of whether the District's financial health is improving or deteriorating.

The statement of activities provides information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in the future fiscal periods (e.g., uncollected taxes and earned but unused vacation and sick leave).

Both above government-wide financial statements distinguish functions of the District that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the District include such functions as instruction, pupil personnel services, administration, pupil transportation, maintenance, and other items. The District does not report any business-type activities.

The government-wide financial statements include not only the District itself (known as the primary government), but also 11 charter schools for which the District is financially accountable. Financial information for these component units is reported separately from the financial information presented for the primary government itself. The Manatee School Board Leasing Corporation (Leasing Corporation), although legally separate, was formed to facilitate financing for the acquisition of facilities and equipment. Due to the substantive economic relationship between the District and Leasing Corporation, the Leasing Corporation has been included as an integral part of the primary government.

The government-wide financial statements can be found on pages 21 through 23 of this report.

**Fund Financial Statements**. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All the funds of the District can be put into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental funds financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains 10 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General Fund. The General Fund, one debt service fund (Other Debt Service Fund) and one capital projects fund (Other Capital Projects Fund) are considered to be major funds and are presented in the same manner. Data from the other 7 governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The District adopts an annual appropriated budget for its governmental funds. Budgetary comparison statements have been provided for the General Fund to demonstrate compliance with this budget on pages 34 through 35 of this report.

The basic governmental fund financial statements can be found on pages 24 through 31 of this report.

**Proprietary Funds**. The District maintains one type of proprietary fund. Internal service funds are an accounting device used to accumulate and allocate costs internally among the District's various functions. The District uses the internal service fund to account for its self-insurance programs Health and Casualty/Liability. Because these services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statement, only in more detail. The proprietary fund financial statements provide separate information for the District's self-insurance programs. The two internal service funds are combined in a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of combining statements on pages 36 through 38 of this report.

**Fiduciary Funds.** Fiduciary funds are used to report assets held in a trustee or fiduciary capacity for the benefit of external parties, such as student activity funds. Fiduciary funds are not reflected in the government-wide statements because the resources are not available to support the District's own programs. In its fiduciary capacity, the District is responsible for ensuring the assets reported in these funds are used only for their intended purposes. The basic fiduciary fund financial statements can be found on pages 39 through 40 of this report.

**Notes to the Financial Statements**. The notes provide additional information that is essential to fully understand the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 41 through 84 of this report.

**Required Supplementary Information.** In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information concerning the District's changes in Other Postemployment Benefits (OPEB) to its employees and related ratios and supplementary information concerning the District's proportionate share of net pension liability and contributions to the defined benefit pension plan. The required supplementary information can be found on pages 86 through 88 of this report.

**Other Supplemental Information**. The combining statements referred to earlier in connection with non-major governmental funds are presented immediately following the notes to financial statements. Combining and individual fund statements and schedules can be found on pages 90 through 133 of this report.

### **Government-Wide Financial Analysis**

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$620,231,242 at the close of the current fiscal year. The following is a summary of the District's net position as of June 30, 2018, compared to net position as of June 30, 2017:

The District's total net position was larger on June 30, 2018, than the previous fiscal year, increasing \$22.0 million or 3.7 percent, to \$620.2 million, with a substantial portion of the change resulting in an increase in the net investment of capital assets and a decrease in restricted assets. This was due to the spend down of capital related bond proceeds.

<sup>(\*)</sup> Balances for the June 30, 2017 have not been restated for adjusting to beginning net position in the fiscal year ended June 30, 2018 due to the implementation of GASB Statement No. 75.

Long-term liabilities decreased by \$19.3 million, largely due to a reduction in debt. Final payments for the Sales Tax Revenue Bonds, Series 2003 and 2012 were made, and the Certificates of Participation, Series 2008A and 2011A were refunded.

The District's current and other assets decreased by \$39.9 million, or 13.6 percent due to the spend down of bond proceeds related the construction of three new schools and other capital projects. This also accounts for the increase in capital assets of \$49.3 million, or 5.7 percent.

The largest portion of the District's net position, \$616,037,356, is its investment in capital assets (e.g., land, buildings, machinery, and equipment); less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to educate the students of Manatee County, Florida; consequently, these assets are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The restricted portion of the District's net position \$157.8 million, represents resources that are subject to external restrictions on how they may be used. The unrestricted net position, a deficit amount of \$153.6 million, was the result of accruing net pension, compensated absences and postemployment benefit liabilities.

The key elements of the changes in the District's net position for the fiscal years ended June 30, 2018, and June 30, 2017, are as follows:

The District's total revenues increased by 5.3 percent to \$544.2 million. Property taxes, FEFP funding, grants and contributions, accounted for most of the District's revenue. The remainder came from operating grants and contributions, capital grants and contributions, sales tax, fees charges for services, investment earnings and other sources.

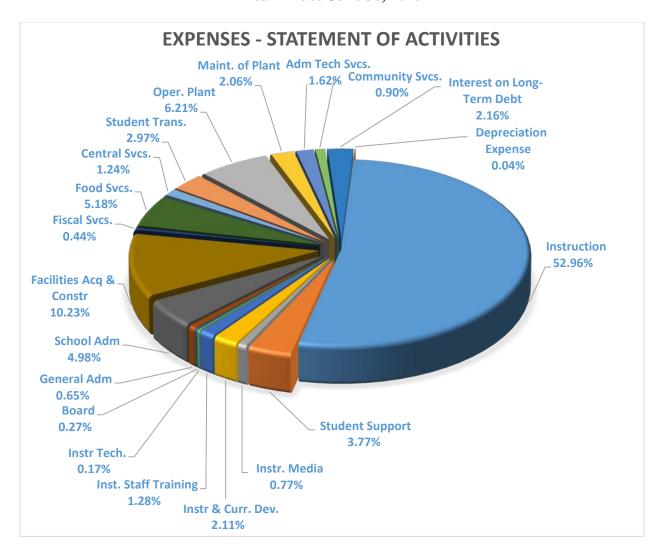

The adjustment to beginning net position of \$29.1 million, is related to the adoption of a new GASB Pronouncement, Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions.

The total cost of all programs and services increased by less than 1 percent to \$493.1 million. Approximately 88 percent of the District's expenses are related to student instruction, student services, facilities services, transportation, operation of plant and maintenance of schools. The District's administrative activities, including school administration, account for approximately 12 percent of total costs.

Total revenues surpassed expenses, increasing the net position by \$51.0 million and contributing to the District's improvement in financial condition. Key components of this increase are as follows:

- Property taxes for all governmental activities increased by \$9.0 million, over the previous year. This overall change is due to an increase in tax collections resulting from growth in property values and home ownership.
- Miscellaneous revenue increased by \$10.4 million, due to increases in the scheduled impact fee collections from prior years and additional indirect costs related to federal programs.
- Grant revenues and contributions increased \$3.4 million, related to increased grant awards and roll forward funds.
- Interest earnings on invested funds increased by \$2.4 million dollars.
- Instruction, curriculum and school administration related expenses decreased by approximately \$6.5 million, mainly due to staffing attrition. unfilled vacant positions and a reduction in contracted services.
- Expenses decreased \$2.4 million, in central services as the District did not negotiate an additional transfer to the health insurance fund for the 2017-18 fiscal year.

### Financial Analysis of the Government's Funds

### **Major Governmental Funds**

The General Fund is the chief operating fund of the District. Presented below is an overall analysis of the General Fund as compared to the prior year.

At the end of the current fiscal year, unassigned fund balance of the General Fund was \$15,797,588, the District's assigned and unassigned fund balance for the General Fund was \$20,638,168 or 5.44 percent of total General Fund revenues, while total fund balance was \$30,240,826 or 7.98 percent of total General Fund revenues. The remainder of fund balance is not available for new spending because it is (1) nonspendable in the form of inventory amounts, \$647,626 and (2) restricted for specific State categorical programs and grants, \$8,955,032.

The fund balance of the District's General Fund increased due to revenues exceeding expenditures by \$4,678,752 for the current fiscal year. The net change is primarily attributed to staffing attrition and the inability to fill vacant positions, most notably for teachers and transportation. The District continues to manage cost through improved operational efficiencies and strict cost containment measures.

The Other Federal Programs Fund - is used to report program revenues and expenditures for federal awards that are not federal economic stimulus programs.

The Debt Service - Other Debt Service Fund is used to account for the payment of principal, interest, and related costs on the sales tax bond issues, certificates of participation issues and other debt issues. This fund ended with a fund balance restricted for debt service of \$2,181,853, the fund balance increased during the fiscal year by \$196,306. The increase in fund balance was a result of QZAB installments set aside for future principal payments.

The Capital Projects - Other Capital Projects Fund is used to account for the financial resources generated by various sources. Included in this fund were sales tax revenues and other miscellaneous capital outlay funded projects. The fund balance for this fund at the current fiscal

year end, which was restricted for capital projects, was \$119,175,149. The fund balance decreased during the fiscal year by \$35,242,483. The decrease in fund balance is primarily due to the construction in progress of three new schools.

**Proprietary Funds**. The District's proprietary fund financial statements provide the same type of information found in the government-wide financial statements. Net position at the end of the current fiscal year for the District's Self-Insurance programs was \$21,708,393. The total increase in the District's self-insurance program's net position was \$4,480,824.

### **General Fund Budgetary Highlights**

The District's original budget is prepared in accordance with Florida Statutes and is based on the modified accrual basis of accounting, which is the same basis as is used to account for actual transactions. The most significant budgeted fund is the General Fund.

During the current fiscal year, the District amended its General Fund budget several times. The original budget projected a \$12,427,711 decrease in fund balance with an ending unassigned fund balance of \$15,088,034. At fiscal year-end, the District's actual ending total fund balance was \$30,240,826, with an unassigned fund balance of \$15,797,588.

The variance between the final General Fund budgeted revenues and actuals, is primarily due to a shortfall in local revenues and Medicaid reimbursements. The District's revenues were \$3,789,893 less than budgeted and the District's actual expenditures were \$19.2 million less than budgeted. The most significant area of reduction was in the instructional function, \$12 million less than budgeted. All other functional areas of the District experienced cost savings compared to budgeted amounts. The budget variances by function may be found on page 35.

### **Capital Assets and Debt Administration**

Capital Assets. The District's investment in capital assets for the governmental activities as of June 30, 2018, totals \$918,116,996 (net of accumulated depreciation). This investment in capital assets includes land, construction in progress, improvements other than buildings, buildings and fixed equipment, furniture, fixtures and equipment, motor vehicles, property under capital lease, and computer software. The total increase in the District's investment in capital assets (net of accumulated depreciation) for the current fiscal year was \$49,259,899 or approximately 5.7 percent.

The increase in net capital assets is primarily due to acquisitions of \$76.5 million, offset by depreciation of \$32.4 million.

Major capital asset events during the current fiscal year included the following:

• Johnson/Wakeland IB-K8 work was completed in August 2018 and the school opened as the District's first K-8 facility. The team is working on closeout and warranty. Phase two of the project will address traffic issues due to the additional number of car riders.

- Gullett Elementary school addition structure is complete, roof is complete, and interior finishes have begun. Scheduled to open in January 2019.
- Barbara Harvey Elementary school structure and site work are in process. The school is scheduled to open in August 2019.
- North River High school structure is nearly complete. Brick, roofing, site work, and interior finishes are in process. The school is scheduled to open in August 2019.
- Dr. Mona Jain Middle school structure and site work are in process. Scheduled to open in August 2019.
- Manatee High school HVAC, Chiller, Clinic, Café, Fire Alarm work were completed in August 2018. The team is working on closeout and warranty.

### Fiscal Year 2018 Budget and Economic Factors

The District's primary source of General Fund discretionary operating revenue is District School Taxes derived from local Ad Valorem taxes. Revenue from local taxes is expected to increase by 22.82 percent or \$40.6 million over the current fiscal year. The increase is primarily attributed to an additional voted one mill. County voters demonstrated their commitment to the School District of Manatee County by voting 1 millage increase for four years, which will allow the District to increase instruction time by 30 minutes each day, increase pay for teachers, bus drivers and other staff who work directly with students and expand career, technical and science/engineering programs in order to address the continuous growth in our county. In addition, Manatee County is continuing to experience growth and an increase in property values related to a strong housing market. This increase in taxable value was offset by a decrease in the required local effort millage rate, from 4.360 in the current fiscal year to 4.083 in the next fiscal year, as established by the Florida Department of Revenue.

Florida Education Finance Program (FEFP) provides funding to Florida schools districts based upon student enrollment (FTE). Enrollment is projected to increase by 219.4 or .5 percent unweighted FTE from the fourth calculation of FY 2017-18 to the second calculation of FY 2018-19. FEFP funding for the current fiscal year increased by \$3.26 million or 1.2 percent.

Overall, General Fund operating revenues are projected to increase by 10.2 percent from the prior fiscal year.

Salaries and benefits are the largest operating expenditure of the District accounting for 66 percent of the operating budget or \$310 million.

The Districts self-insured health insurance program provides affordable plans for district employees and their dependent children. Spouses of employees may also participate in the district program at a rate commensurate with the cost of their claims. Due to several program structural changes during last two years, the cost to provide benefits is expected to remain flat in the 2018-19 fiscal year.

The District relies upon capital funding from District School Taxes (Ad Valorem) and a half-cent sales tax approved by referendum in 2002 and extended in November 2016, to maintain, construct or purchase District facilities, equipment and technology.

District Capital School Taxes are anticipated to be \$3,763,198 higher in the next fiscal year, over the current fiscal year. The current half-cent sales tax referendum is scheduled to expire in December 2032.

# SCHOOL DISTRICT OF MANATEE COUNTY, FLORIDA RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET POSITION June 30, 2018

| Total Fund Balance - Governmental Funds  |                              | \$<br>177,504,515 |
|--|------------------------------|-------------------|
| Amounts reported for governmental activities in the Statement of Net Position are different because:   |                              |                   |
| Capital assets, net of accumulated depreciation, used in governmental activities are not financial resources and, therefore, are not reported as assets in the governmental funds.   |                              | 918,116,996       |
| Interest on long-term debt is accrued as a liability in the government-wide statements, but is not recognized in the governmental funds until due.   |                              | (1,686,838)       |
| The difference between the acquisition price and the net carrying amount of refunded debt is reported as a deferred outflow of resources in the government-wide statements, but is not reported in the governmental funds.   |                              | 8,436,963         |
| Internal service funds are used by management to charge the costs of certain activities to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the Statement of Net Position.  |                              | 21,708,393        |
| Long-term liabilities are not due and payable in the current period and, therefore, are not reported as liabilities in the governmental funds. Long-term liabilities at year-end consist of:   |                              |                   |
| Bonds Payable (152,72 Certificates of Participation Payable (158,67 Early Retirement Plan Payable (9) Other Postemployment Benefits Payable (13,58)  |                              | (348,879,659)     |
| Deferred outflows of resources and deferred inflows of resources related to other postemployment benefits are applicable to future periods and therefore, are not reported in the governmental funds   |                              |                   |
| Deferred inflows of resources related to OPEB  |                              | (2,663,257)       |
| On the governmental fund statements, a net pension liability is not recorded until an amount is due and payable and the pension plan's fiduciary net position is not sufficient for payment of those benefits (no such liability exists at the end of the current fiscal year). On the Statement of Net Position, the District's proportionate share of the net pension liability of the cost-sharing defined benefit pension plans in which the District participates is reported as a noncurrent liability. Additionally, deferred outflows of resources and deferred inflows of resources related to pensions are also reported in accordance with GASB Statement No. 68. |                              |                   |

# SCHOOL DISTRICT OF MANATEE COUNTY, FLORIDA RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES For the Fiscal Year Ended June 30, 2018

| Net Change in Fund Balances - Governmental Funds  | \$ | (46,834,999) |
|---|----|--------------|
| Amounts reported for governmental activities in the Statement of Activities are different because:  |    |              |
| Capital outlays are reported in governmental funds as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation expense exceeds capital outlays in the current period.   |    |              |
| Capital Outlay \$ 84,300,019  |    |              |
| Less Depreciation Expense (32,377,868)  | _  | 51,922,151   |
| Donated capital assets are reported as revenues on the Statement of Activities, however, they do not provide current financial resources and are not reported as revenues in the governmental funds.  |    | 37,567       |
| In the government funds, the costs of capital assets was recognized as an   |    |              |
| expenditure in the year purchased. Thus the change in net position differs from the   |    |              |
| change in fund balances by the undepreciated cost of the disposed assets.   |    | (2,699,817)  |
| Capital lease proceeds provide current financial resources to the governmental funds, but issuance of capital leases increase long-term liabilities in the the Statement of Net Position.   |    | (577,183)    |
| Proceeds of refunding debt are reported as other financing sources in the governmental funds, while payments to the escrow agent for advance-refunding of outstanding debt are shown as other financing uses. Government-wide statements are affected only to the extent these amounts differ. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position. |    |              |
| Payment to Escrow Agent for Refunding COPS 55,694,429   |    |              |

#### I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### A. Description of Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all the nonfiduciary activities of the primary government and its component units. All fiduciary activities are reported only in the fund financial statements. The primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities presents the comparison between direct expenses and program revenues for each function or program of the Manatee County School District's (District) governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and are thereby clearly identifiable to a particular function.

# **B.** Reporting Entity

The Manatee County District School Board (Board) has direct responsibility for operation, control, and supervision of District schools and is considered a primary government for financial reporting. The District is considered part of the Florida system of public education, operates under the general direction of the Florida Department of Education (FDOE), and is governed by State law and State Board of Education (SBE) rules. The governing body of the District is the Board, which is composed of five elected members. The appointed Superintendent of Schools is the executive officer of the Board. Geographic boundaries of the District correspond with those of Manatee County.

Criteria for determining if other entities are potential component units that should be reported within the District's basic financial statements are identified and described in the Governmental Accounting Standards Board's (GASB) Codification of Governmental Accounting and Financial Reporting Standards, Sections 2100 and 2600. The application of these criteria provides for identification of any legally separate entities for which the School Board is financially accountable and other organizations for which the nature and significance of their relationship with the Board are such that exclusion would cause the District's basic financial statements to be misleading.

Based on the application of these criteria, the following component units are included within the District's reporting entity:

Blended Component Units. Blended component units are, in substance, part of the District's operations, even though they are legally separate entities. Thus, the blended component units are appropriately presented as funds of the District. The Manatee County School Board Leasing Corporation (Leasing Corporation) was formed to facilitate financing for the acquisition of facilities and equipment as further discussed in note III.I. Due to the substantive economic relationship between the District and the Leasing Corporation, the financial activities of the Leasing Corporation are included in the accompanying basic financial statements. Separate financial statements for the Leasing Corporation are not published.

For the Fiscal Year Ended June 30, 2018

<u>Discretely Presented Component Units</u>. The component units' columns in the government-wide financial statements include the financial data of the District's other component units. A separate column is used to emphasize that they are legally separate from the District.

Manatee School of Arts and Sciences, Inc.; Renaissance Arts and Education, Inc., d/b/a Manatee School for the Arts; The Lee Foundation Inc., d/b/a Manatee Charter School; Oasis Middle School, Inc.; Palmetto Charter School, Inc.; Team Success A School of Excellence, Inc.; Visible Men Academy, Inc.; William Monroe Rowlett Academy for Arts & Communication, Inc.; and William Monroe Rowlett Academy for the Arts & Communication, Inc. d/b/a William Monroe Rowlett Middle Academy for Leadership, Arts and Communication are not-for-profit corporations organized pursuant to Chapter 617, Florida Statutes, the Florida Not For Profit Corporation Act, and Section 1002.33, Florida Statutes. Imagine – Manatee County, LLC, d/b/a Imagine Charter School at North Manatee and Imagine - East Manatee County, LLC, d/b/a Imagine School at Lakewood Ranch are organized as limited liability corporations pursuant to Chapter 605, Florida Statutes, the Florida Limited Liability Company Act, and Section 1002.23, Florida Statutes. The charter schools operate under a charter approved by their sponsor, the Manatee County District School Board. The charter schools are considered to be component units of the District because the District is financially accountable for the charter schools as the District established the charter schools by approval of the charter, which is tantamount to the initial appointment of the charter schools, and there is the potential for the charter schools to provide specific financial burdens on the District. In addition, pursuant to the Florida Constitution, the charter schools are public schools and the District is responsible for the operation, control, and supervision of public schools within the District.

One component unit, Team Success A School of Excellence, Inc. has identified in their audit potential losses of funds of approximately \$310,000 due to fraud for the fiscal year ended June 30, 2018. The school has taken appropriate action and contracted for an independent investigation. The amount is reported as a special item in the financial statements of the school.

The financial data reported on the accompanying statements was derived from the charter schools' audited financial statements for the fiscal year ended June 30, 2018. The audit reports are filed in the District's administrative offices at 215 Manatee Avenue West, Bradenton, Florida 34205.

<u>Related Organizations</u>. One charter school, the State College of Florida Collegiate School, operates under another governmental agency and therefore, is not included as a discretely presented component unit of the District. The school operates under a charter approved by their sponsor, the Manatee County District School Board.

### C. Basis of Presentation: Government-Wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds and the internal service funds. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

The effects of interfund activity have been eliminated from the government-wide financial statements except for interfund services provided and used.

For the Fiscal Year Ended June 30, 2018

### D. Basis of Presentation: Fund Financial Statements

The fund financial statements provide information about the District's funds, including the proprietary funds, fiduciary funds and blended component units. Separate statements for each fund category – governmental, proprietary, and fiduciary – are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

The District reports the following major governmental funds:

- <u>General Fund</u> to account for all financial resources not required to be accounted for in another fund, and for certain revenues from the State that are legally restricted to be expended for specific current operating purposes.
- <u>Debt Service Other Debt Service Fund</u> to account for the accumulation of resources for and the payment of, debt principal, interest, and related costs on the sales tax revenue bond, certificates of participation, and other debt service.
- <u>Capital Projects Other Fund</u> to account for various financial resources (e.g., certificates
  of participation, capital outlay sales tax, impact fees, sales tax revenue bonds, etc.) to be used
  for educational capital outlay needs, including new construction and renovation and
  remodeling projects.

Additionally, the District reports the following proprietary and fiduciary fund types:

- <u>Internal Service Funds</u> to account for the District's individual self-insurance programs.
- <u>Private-Purpose Trust Funds</u> to account for financial fees and other moneys for which principal and income benefit individuals or private organizations.
- Agency Funds to account for resources of the school internal funds, which are used to
  administer moneys collected at several schools in connection with school, student athletic,
  class, and club activities.

During the course of operations, the District has activity between funds for various purposes. Any residual balances outstanding at fiscal year end are reported as due from/to other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements, these amounts are reported at gross amounts as transfers in and out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in the governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column.

For the Fiscal Year Ended June 30, 2018

# E. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized in the year for which they are levied. Revenues from grants, entitlements, and donations are recognized as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues, except for certain grant revenues, are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal year. When grant terms provide that the expenditure of resources is the prime factor for determining eligibility for Federal, State, and other grant resources, revenue is recognized at the time the expenditure is made. Entitlements are recorded as revenues when all eligibility requirements are met, including time requirements, and the amount is received during the period or within the availability period for this revenue sources (within 60 days of year end). Property taxes, sales taxes, state education funding, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period. Expenditures are generally recognized when the related fund liability is incurred, as under accrual accounting. However, debt service expenditures, claims and judgements, pension benefits, other postemployment benefits, and compensated absences, are only recorded when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources. Allocations of cost, such as depreciation, are not recognized in governmental funds.

The proprietary and private-purpose trust funds are reported using the economic resources measurement focus and the accrual basis of accounting. The agency funds have no measurement focus but utilize the accrual basis of accounting for reporting assets and liabilities.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary funds' principal ongoing operations. The principal operating revenues of the District's internal service funds are charges for employee health insurance premiums and workers' compensation premiums. Operating expenses include insurance claims and excess coverage premiums. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The charter schools are accounted for as governmental organizations and follow the same accounting model as the District's governmental activities.

For the Fiscal Year Ended June 30, 2018

# F. Budgetary Information

### **Budgetary Basis of Accounting**

The Board follows procedures established by State law and SBE rules in establishing budget balances for governmental funds, as described below:

- Budgets are prepared, public hearings are held, and original budgets are adopted annually for all
  governmental fund types in accordance with procedures and time intervals prescribed by law
  and SBE rules.
- Appropriations are controlled at the object level (e.g., salaries, purchased services, and capital
  outlay) within each activity (e.g., instruction, student support services, and school
  administration) and may be amended by resolution at any Board meeting prior to the due date
  for the annual financial report.
- Budgets are prepared using the same modified accrual basis as is used to account for governmental funds.
- Budgetary information is integrated into the accounting system and, to facilitate budget control, budget balances are encumbered when purchase orders are issued. Appropriations lapse at fiscal year end and encumbrances outstanding are honored from the subsequent year's appropriations.

## G. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance

### 1. Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term, liquid investments with original maturities of 3 months or less from the date of acquisition, except that short-term investments in the agency funds are not considered to be cash equivalents.

Cash deposits are held by banks qualified as public depositories under Florida law. All deposits are insured by the Federal depository insurance, up to specified limits, or collateralized with securities held in Florida's multiple financial institution collateral pool as required by Chapter 280, Florida Statutes.

#### 2. Investments

Investments consist of amounts placed with the SBA debt service accounts for investment of debt service moneys, amounts placed with the SBA for participation in the Florida PRIME investment pool created by Section 218.405, Florida Statutes, and those made locally. The investment pool operates under investment guidelines established by Section 215.47, Florida Statutes.

The District's investments in Florida PRIME, which the SBA indicates is a Securities and Exchange Commission Rule 2a7-like external investment pool, are similar to money market funds in which shares are owned in the fund rather than in the underlying investments. These investments are reported at fair value, which is amortized cost.

Investments made locally consist of money market funds, commercial paper, a United States Treasury bond, United States Treasury notes, a United States Treasury bill, and United States

For the Fiscal Year Ended June 30, 2018

Treasury State and Local Government Services - Certificates of Indebtedness and are reported at fair value.

Types and amounts of investments held at fiscal year-end are described in a subsequent note on investments.

### 3. Inventories and Prepaid Items

Inventories consist of expendable supplies held for consumption in the course of District operations. Inventories are stated at cost on the first-in, first-out-basis, except that United States Department of Agriculture donated foods are stated at their fair value as determined at the time of donation to the District's food service program by the Florida Department of Agriculture and Consumer Services, Bureau of Food Distribution. The costs of inventories are recorded as expenditures when used rather than purchased.

# 4. Capital Assets

Expenditures for capital assets acquired or constructed for general District purposes are reported in the governmental fund that financed the acquisition or construction. The capital assets so acquired are reported at cost in the government-wide statement of net position but are not reported in the governmental fund financial statements. Capital assets are defined by the District as those costing more than \$1,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated assets are recorded at acquisition value at the date of donation. Land and buildings acquired or constructed prior to July 1, 1967, are stated at estimated historical cost. Land acquired prior to July 1, 1967, is valued at 1974 assessed values (Manatee County Property Appraiser's report of assessed values dated August 23, 1975). Buildings acquired prior to July 1, 1967, are valued at their "depreciated value" (estimated replacement costs, multiplied by the percent of remaining estimated life) at June 30, 1978. Improvements other than buildings (parking lots, sidewalks, fences, etc.) include assets acquired after July 1, 1979.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

| <b>Description</b>                 | <b>Estimated Useful Lives</b> |
|------------------------------------|-------------------------------|
| Improvements Other Than Buildings  | 10 - 35 years                 |
| Buildings and Fixed Equipment      | 10 - 60 years                 |
| Furniture, Fixtures, and Equipment | 3 - 15 years                  |
| Motor Vehicles                     | 5 - 10 years                  |
| Property Under Capital Lease       | 5 - 7 years                   |
| Audio-Visual Materials             | 3 - 7 years                   |
| Computer Software                  | 5 years                       |

Current year information relative to changes in capital assets is described in note III.D.

### 5. Pensions

In the government-wide statement of net position, liabilities are recognized for the District's proportionate share of each pension plan's net pension liability. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Florida

For the Fiscal Year Ended June 30, 2018

Retirement System (FRS) defined benefit plan and the Health Insurance Subsidy (HIS) defined benefit plan and additions to/deductions from the FRS and the HIS fiduciary net position have been determined on the same basis as they are reported by the FRS and the HIS plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

The District's retirement plans, and related amounts are described in note III.E.

### 6. Long-Term Liabilities

Long-term obligations that will be financed from resources to be received in the future by governmental funds are reported as liabilities in the government-wide statement of net position. Debt premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds and certificates of participation payable are reported net of the applicable premium or discount.

In the governmental fund financial statements, bonds and other long-term obligations are not recognized as liabilities until due. Governmental fund types recognize debt premiums and discounts, during the current period. The face amount of debt issued is reported as other financing sources, while discounts on debt issuances are reported as other financing uses.

Changes in long-term liabilities for the current year are reported in note III.K.4.

#### 7. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to future period(s) and so will not be recognized as an outflow of resources (expenditure) until then. The District has two items that qualify for reporting in this category. The deferred outflows of resources related to pensions and OPEB are discussed in subsequent notes.

The *deferred charge on refunding* reported in the government-wide statement of net position results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has two type of items that qualify for reporting in this category. The deferred inflows of resources related to pensions and OPEB are discussed in subsequent notes.

### 8. Net Position Flow Assumption

The District occasionally funds outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. To calculate the amounts to report as restricted net position and unrestricted net position in the government-wide, proprietary fund and fiduciary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. Consequently, it is the District's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

For the Fiscal Year Ended June 30, 2018

# 9. Fund Balance Flow Assumptions

The District may fund outlays for a particular purpose from both restricted and unrestricted sources (the total of committed, assigned, and unassigned fund balance). To calculate the amounts to report as restricted, committed, assigned and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

#### 10. Fund Balance Policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The District itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance). Fund balances are classified as follows, as applicable:

<u>Nonspendable</u>: Fund balances are classified as nonspendable when amounts cannot be spent because they are either (a) not in spendable form (i.e., items that are not expected to be converted to cash) or (b) legally or contractually required to be maintained intact.

**Restricted:** Fund balances are classified as restricted when there are limitations imposed on their use either through the enabling legislation, constitutional provisions, or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

Committed: The committed fund balance classification includes amounts that can be used only for specific purposes determined by a formal action of the District's highest level of decision-making authority. The Board is the highest level of decision-making authority for the District that can, by adoption of a resolution prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the resolution remains in place until a similar action is taken (the adoption of another resolution) to remove or revise the limitation. The District reported no committed fund balances at June 30, 2018.

Assigned: Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as committed. The Board has by policy authorized the Superintendent to assign fund balance. The Board may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

<u>Unassigned</u>: Fund balances classified as unassigned are the residual spendable amounts not contained in any other of the above classifications. The General Fund is the only fund that may report a positive unassigned fund. When expenditures incurred for specific purposes exceed the amounts restricted, committed, or assigned to those purposes, it is necessary to report a negative unassigned fund balance.

For the Fiscal Year Ended June 30, 2018

In addition, the District has adopted Board Policy 6235, which provides for an adequate fund balance reserve necessary to cover unforeseen events (e.g. revenue short falls, student enrollment under projections, etc.). If feasible, the Board shall maintain a general fund reserve of ending fund balance not classified as restricted, committed, or nonspendable of up to 5 percent of recurring general fund reserves, but no less than 3 percent. The additional 2 percent will be assigned by the Board as contingency funds to be used only for fiscal short falls.

# H. Revenues and Expenditures/Expenses

# 1. Program Revenues

Amounts reported as program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than program revenues. Revenues that are not classified as program revenues are presented as general revenues. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

#### 2. State Revenue Sources

Significant revenues from State sources for current operations include the Florida Education Finance Program administered by the FDOE under the provisions of Section 1011.62, Florida Statutes. In accordance with this law, the District determines and reports the number of full-time equivalent (FTE) students and related data to the FDOE. The FDOE performs certain edit checks on the reported number of FTE and related data and calculates the allocation of funds to the District. The District is permitted to amend its original reporting during specified time periods following the date of the original reporting. The FDOE may also adjust subsequent fiscal period allocations based upon an audit of the District's compliance in determining and reporting FTE and related data. Normally, such adjustments are treated as reductions or additions of revenue in the year when the adjustments are made.

The State provides financial assistance to administer certain educational programs. SBE rules require that revenue earmarked for certain programs be expended only for the program for which the money is provided and require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the same educational programs. The FDOE generally requires that these educational program revenues be accounted for in the General Fund. A portion of the fund balance of the General Fund is restricted in the governmental fund financial statements for the balance of categorical and earmarked educational program resources.

The State allocates gross receipts taxes, generally known as Public Education Capital Outlay money, to the District on an annual basis. The District is authorized to expend these funds only upon applying for and receiving an encumbrance authorization from the FDOE.

A schedule of revenue from State sources for the current year is presented in note III.M.1.

# 3. District Property Taxes

The Board is authorized by State law to levy property taxes for district school operations, capital improvements, and debt service.

For the Fiscal Year Ended June 30, 2018

Property taxes consist of ad valorem taxes on real and personal property within the District. Property values are determined by the Manatee County Property Appraiser, and property taxes are collected by the Manatee County Tax Collector.

The School Board adopted the 2017 tax levy on September 5, 2017. Tax bills are mailed in October and taxes are payable between November 1 of the year assessed and March 31 of the following year at discounts of up to 4 percent for early payment.

Taxes become a lien on the property on January 1, and are delinquent on April 1, of the year following the year of assessment. State law provides for enforcement of collection of personal property taxes by seizure of the property to satisfy unpaid taxes, and for enforcement of collection of real property taxes by the sale of interest-bearing tax certificates to satisfy unpaid taxes. The procedures result in the collection of essentially all taxes prior to June 30 of the year following the year of assessment.

Property tax revenues are recognized in the government-wide financial statements when the Board adopts the tax levy. Property tax revenues are recognized in the governmental fund financial statements when taxes are received by the District, except that revenue is accrued for taxes collected by the Manatee County Tax Collector at fiscal year-end but not yet remitted to the District. Because any delinquent taxes collected after June 30 would not be material, delinquent taxes receivable are not accrued, and no delinquent tax revenue is recorded.

Millages and taxes levied for the current year are presented in note III.M.2.

# 4. Capital Outlay Surtax

In May 2002, the voters of Manatee County approved a one-half cent discretionary sales surtax on sales in the County for 15 years, effective January 1, 2003, to pay construction, reconstruction or improvements of school facilities and related costs, land acquisitions, improvements and related costs, and costs for retrofitting and providing for technology implementation, including hardware and software for the various sites within the District in accordance with Section 212.055(6), Florida Statutes. In November 2016, the voters of Manatee County approved an extension of the one-half cent discretionary sales surtax, effective January 1, 2018 through December 31, 2032.

### 5. Educational Impact Fees

Manatee County imposes an educational impact fee based on an ordinance adopted by the Manatee County Board of County Commissioners (BOCC) in 2002. This ordinance was most recently amended in January 2016 when Ordinance 2016-03 established, in part, revised fees to be collected. The educational impact fees are collected for most new residential construction by the County and each municipality within the County based on an interlocal agreement. The fees are to be used solely for the purpose of providing capital improvements to the public educational system necessitated by new residential development and are not to be used for any expenditures that would be classified as maintenance or repair expense. The authorized uses include, but are not limited to, land acquisition; facility design and construction costs; furniture and equipment; and payment of principal, interest and related cost of indebtedness necessitated by new residential development.

For the Fiscal Year Ended June 30, 2018

#### 6. Federal Revenue Sources

The District receives Federal awards for the enhancement of various educational programs. Federal awards are generally received based on applications submitted to, and approved by, various granting agencies. For Federal awards in which a claim to these grant proceeds is based on incurring eligible expenditures, revenue is recognized to the extent that eligible expenditures have been incurred.

### 7. Compensated Absences

In the government-wide financial statements, compensated absences (i.e., paid absences for employee vacation leave and sick leave) are accrued as liabilities to the extent that it is probable that the benefits will result in termination payments. A liability for these amounts is reported in the governmental fund financial statements only if it has matured, such as for occurrences of employee resignations and retirements. The liability for compensated absences includes salary-related benefits, where applicable.

# 8. Proprietary Funds Operating Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connections with the proprietary funds principal ongoing operations. The principal operating revenues of the District's internal service funds are charges to employee health insurance and casualty premiums. Operating expenses include insurance claims and excess coverage premiums. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

### **Use of Estimates**

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimated.

#### II. ACCOUNTING CHANGE

### Governmental Accounting Standards Board Statement No. 75

The District implemented GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, which replaces GASB Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions, as amended. The Statement addresses accounting and financial reporting for postemployment benefits other than pensions (OPEB) provided to employees of state and local government employers; establishes standards for recognizing and measuring liabilities, deferred outflows of resources, and expenses; requires governments to report a liability, deferred outflows of resources, deferred inflows of resources, and expenses on the face of the financial statement for the OPEB that they provide; and requires more extensive note disclosures and supplementary information about a government's OPEB liability. The beginning net position of the District was decreased by \$29,051,831 due to the implementation of GASB Statement No. 75. The

For the Fiscal Year Ended June 30, 2018

District's OPEB related liability reported at June 30, 2017 increased by \$25,740,580 to \$38,135,494 as of July 1, 2017, due to the transition in the valuation methods under GASB Statement No. 45 to GASB Statement No. 75, and beginning balances for deferred outflows/inflows of resources were not restated.

# III. DETAILED NOTES ON ALL ACTIVITIES AND FUNDS

### A. Cash Deposits with Financial Institutions

<u>Custodial Credit Risk.</u> In the case of deposits, this is the risk that, in the event of the failure of a depository financial institution, the District will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The District does not have a policy for custodial credit risk. All bank balances of the District are fully insured and collateralized as required by Chapter 280, Florida Statutes.

#### **B.** Investments

The District's investments at June 30, 2018, are reported as follows:

- (1) These investments are reported as cash equivalents for financial statement reporting purposes.
- (2) At June 30, 2018, investments held by the Agency Funds in Florida PRIME totaling \$104,411 are not considered cash equivalents.

### Fair Value Measurement

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

The District's investments in SBA debt service accounts are valued using Level 1 inputs. All other recurring fair value measurements as of June 30, 2018 are valued using a matrix pricing model, Level 2 inputs.

# **Interest Rate Risk**

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Section 218.415(17), Florida Statutes, limits investment maturities to provide sufficient liquidity to pay obligations as they come due.

Florida PRIME, the money market funds, FEITF, FLCLASS and FL-FIT use weighted average days to maturity (WAM). A portfolio's WAM reflects the average maturity in days based on final maturity or reset date, in the case of floating rate instruments. WAM measures the sensitivity of the portfolio to interest rate changes.

For Florida PRIME, with regard to redemption gates, Section 218.409(8)(a), Florida Statutes, states, "The principal, and any part thereof, of each account constituting the trust fund is subject to payment at any time from the moneys in the trust fund. However, the executive director may, in good faith, on the occurrence of an event that has a material impact on liquidity or operations of the trust fund, for 48 hours limit contributions to or withdrawals from the trust fund to ensure that the Board [State Board of Administration] can invest moneys entrusted to it in exercising its fiduciary responsibility. Such action must be immediately disclosed to all participants, the trustees, the Joint Legislative Auditing Committee, the Investment Advisory Council, and the Participant Local Government Advisory Council. The trustees shall convene an emergency meeting as soon as practicable from the time the executive director has instituted such measures and review the necessity of those measures. If the trustees are unable to convene an emergency meeting before the expiration of the 48-hour moratorium on contributions and withdrawals, the moratorium may be extended by the executive director until the trustees are able to meet to review the necessity for the moratorium. If the trustees agree with such measures, the trustees shall vote to continue the measures for up to an additional 15 days. The trustees must convene and vote to continue any such measures before the expiration of the time limit set, but in no case may the time limit set by the trustees exceed 15 days. As of June 30, 2018, there were no redemption fees, maximum transaction amounts, or any other requirements that serve to limit a participant's daily access to 100 percent of their account value.

For the Fiscal Year Ended June 30, 2018

### **Credit Risk**

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Section 218.415(17), Florida Statutes, limits investments to the Local Government Surplus Funds Trust Fund [Florida PRIME], or any intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperation Act as provided in Section 163.01, Florida Statues; Securities and Exchange Commission registered money market funds with the highest credit quality rating from nationally recognized rating agency; interest-bearing time deposits or savings accounts in qualified public depositories, as defined in Section 280.02, Florida Statutes; and direct obligations of the United States Treasury.

The District's investment policy authorizes the following investments which are limited to credit quality ratings from nationally recognized rating agencies as follows:

- Florida PRIME when rated at least AAAm by S&P Global Ratings or the equivalent by another Nationally Recognized Statistical Rating Organization (NRSRO)
- United States Government Securities
- United States Government Agencies
- Federal Instrumentalities (United States Government Sponsored Enterprise ("GSE") limited to
  the Federal Farm Credit Bank (FFCB), Federal Home Loan Bank or its District banks (FHLB),
  Federal National Mortgage Association (FNMA) and the Federal Home Loan Mortgage
  Corporation (Freddie-Mac) including Federal Home Loan Mortgage Corporation participation
  certificates
- Interest Bearing Time Deposit or Savings Accounts
- Repurchase Agreements
- Commercial Paper of any United States company that is rated, at the time of purchase, P-1 by Moody's Investors Service and A-1 by S&P Global Ratings (prime commercial paper)
- Corporate Notes issued by corporations organized and operating within the United States or by depository institutions licensed by the United States that have a long-term debt rating, at the time of purchase, at a minimum single A category by any two NRSROs
- State and/or Local Government Taxable and/or Tax-Exempt Debt, general obligation and/or revenue bonds, rated at the time of purchase, at a minimum single A category by any two NRSROs for long-term debt, or rated at least MIG-1 by Moody's Investors Service or SP-1 by S&P Global Ratings for short-term debt
- Money Market Mutual Funds rated AAAm by S&P Global Ratings or the equivalent by another NRSRO
- Short Term Bonds rated AAf or better by S&P Global Ratings or the equivalent by another NRSRO

For the Fiscal Year Ended June 30, 2018

• Intergovernmental Investment Pools rated AAAm/AAf by S&P Global Ratings or the equivalent by another NRSRO

The District's investments in the SBA Debt Service Accounts are to provide for debt service payments on bond debt issued by the SBE for the benefit of the District. The District relies on policies developed by the SBA for managing interest rate risk and credit risk for this account. Disclosures for the Debt Service Accounts are included in the notes to financial statements of the State's Comprehensive Annual Financial Report.

- The District's investment in Florida PRIME is rated AAAm by S&P Global Ratings.
- The District's investment in the FEITF was rated AAAm by S&P Global Ratings.
- The District's investment in the FLCLASS was rated AAAm by S&P Global Ratings.
- The District's investment in the FL-FIT was rated AAAf<sup>1</sup>/S1+<sup>2</sup> by S&P Global Ratings.
- Commercial paper was rated P-1 short term by Moody's Investors Service.

### **Custodial Credit Risk**

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the District will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. Section 218.415(18), Florida Statutes, requires the District to earmark all investments and (1) if registered with the issuer or its agents, the investment must be immediately placed for safekeeping in a location that protects the governing body's interest in the security; (2) if in book-entry form, the investment must be held for the credit of the governing body by a depository chartered by the Federal Government, the State, or any other state or territory of the United States which has a branch or principal place of business in this State, or by a national association organized and existing under the laws of the United States which is authorized to accept and execute trusts and which is doing business in this State, and must be kept by the depository in an account separate and apart from the assets of the financial institution; or (3) if physically issued to the holder but not registered with the issuer or its agents, the investment must be immediately placed for safekeeping in a secured vault.

The District's investment policy requires all securities, except for certificates of deposits, shall be held with a third-party custodian; and all securities purchased by, and all collateral obtained by, the District should be properly designated as an asset of the District. The securities must be held in an account separate and apart from the assets of the financial institution. Certificates of deposits will be placed in the provider's safekeeping department for the term of the deposit.

# **Concentration of Credit Risk**

The District's investment policy has established permitted investment sectors which are designed to reduce concentration of credit risk of the District's investment portfolio. Adequate diversification of the District's portfolio is necessary to minimize market risk. It is the policy of the District to diversify its investment portfolio to protect against issuer defaults, market price changes, and technical complications of assets in a specific maturity, a specific issuer, a specific geographical distribution, or a specific class of securities.

For the Fiscal Year Ended June 30, 2018

Investments of \$954,939 in commercial paper are 0.4 percent of the District's total investments and 5.9 percent of the investments in the Debt Service - Other Debt Service Fund, respectively. These investments are made pursuant to agreements with Qualified Zone Academy Bonds paying agents.

#### C. Receivables

All receivables are deemed collectable by the District. Therefore, the District does not report an allowance for doubtful accounts.

### 1. Due from Other Agencies

The majority of receivables are due from other agencies. At June 30, 2018, the District has recorded due from other agencies as follows:

#### E. Retirement Plans

### 1. FRS – Defined Benefit Pension Plans

#### **General Information about the FRS**

The FRS was created in Chapter 121, Florida Statutes, to provide a defined benefit pension plan for participating public employees. The FRS was amended in 1998 to add the Deferred Retirement Option Program (DROP) under the defined benefit plan and amended in 2000 to provide a defined contribution plan alternative to the defined benefit plan for FRS members effective July 1, 2002. This integrated defined contribution pension plan is the FRS Investment Plan. Chapter 112, Florida Statutes, established the Retiree HIS Program, a cost-sharing multiple-employer defined benefit pension plan, to assist retired members of any State-administered retirement system in paying the costs of health insurance.

Essentially all regular employees of the District are eligible to enroll as members of the State-administered FRS. Provisions relating to the FRS are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and FRS Rules, Chapter 60S, Florida Administrative Code; wherein eligibility, contributions, and benefits are defined and described in detail. Such provisions may be amended at any time by further action from the Florida Legislature. The FRS is a single retirement system administered by the Florida Department of Management Services, Division of Retirement, and consists of the two cost-sharing, multiple-employer defined benefit plans and other nonintegrated programs. A comprehensive annual financial report of the FRS, which includes its financial statements, required supplementary

information, actuarial report, and other relevant information, is available from the Florida Department of Management Services Web site (www.dms.myflorida.com).

The District's FRS and HIS pension expense totaled \$28,883,516 for the fiscal year ended June 30, 2018.

#### **FRS Pension Plan**

<u>Plan Description</u>. The FRS Pension Plan (Plan) is a cost-sharing multiple-employer defined benefit pension plan, with a DROP for eligible employees. The general classes of membership are:

- Regular Members of the FRS who do not qualify for membership in the other classes.
- Elected County Officers Members who hold specified elective offices in local government.
- Senior Management Service Members in senior management level positions.

Employees enrolled in the Plan prior to July 1, 2011, vest at 6 years of creditable service and employees enrolled in the Plan on or after July 1, 2011, vest at 8 years of creditable service. All vested members, enrolled prior to July 1, 2011, are eligible for normal retirement benefits at age 62 or at any age after 30 years of service. All members enrolled in the Plan on or after July 1, 2011, once vested, are eligible for normal retirement benefits at age 65 or any time after 33 years of creditable service. Employees enrolled in the Plan may include up to 4 years of credit for military service toward creditable service. The Plan also includes an early retirement provision; however, there is a benefit reduction for each year a member retires before his or her normal retirement date. The Plan provides retirement, disability, death benefits, and annual cost-of-living adjustments to eligible participants.

The DROP, subject to provisions of Section 121.091, Florida Statutes, permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payments while continuing employment with an FRS participating employer. An employee may participate in DROP for a period not to exceed 60 months after electing to participate, except that certain instructional personnel may participate for up to 96 months. During the period of DROP participation, deferred monthly benefits are held in the FRS Trust Fund and accrue interest. The net pension liability does not include amounts for DROP participants, as these members are considered retired and are not accruing additional pension benefits.

Benefits Provided. Benefits under the Plan are computed based on age and/or years of service, average final compensation, and service credit. Credit for each year of service is expressed as a percentage of the average final compensation. For members initially enrolled before July 1, 2011, the average final compensation is the average of the five highest fiscal years' earnings; for members initially enrolled on or after July 1, 2011, the average final compensation is the average of the eight highest fiscal years' earnings. The total percentage value of the benefit received is determined by calculating the total value of all service, which is based on the retirement class to which the member belonged when the service credit was earned. Members are eligible for in-line-of-duty or regular disability and survivors' benefits. The following table shows the percentage value for each year of service credit earned:

For the Fiscal Year Ended June 30, 2018

| Class, Initial Enrollment, and Retirement Age/Years of Service | <b>Percent Value</b> |
|--|----------------------|
| Regular Members Initially Enrolled Before July 1, 2011         |                      |
| Retirement up to age 62 or up to 30 years of service           | 1.60                 |
| Retirement at age 63 or with 31 years of service               | 1.63                 |
| Retirement at age 64 or with 32 years of service               | 1.65                 |
| Retirement at age 65 or with 33 or more years of service       | 1.68                 |
| Regular Members Initially Enrolled On or After July 1, 2011    |                      |

As provided in Section 121.101, Florida Statutes, if the member is initially enrolled in the Plan before July 1, 2011, and all service credit was accrued before July 1, 2011, the annual cost-of-living adjustment is 3 percent per year. If the member is initially enrolled before July 1, 2011, and has service credit on or after July 1, 2011, there is an individually calculated cost-of-living adjustment. The annual cost-of-living adjustment is a proportion of 3 percent determined by dividing the sum of the pre-July 2011 service credit by the total service credit at retirement multiplied by 3 percent. Plan members initially enrolled on or after July 1, 2011, will not have a cost-of-living adjustment after retirement.

<u>Contributions</u>. The Florida Legislature establishes contribution rates for participating employers and employees. Contribution rates during the 2017-18 fiscal year were as follows:

|                                       | Percent of Gross Salar |          |  |  |

| FRS, Elected County Officers          | 3.00                   | 45.50    |  |  |
| FRS, Senior Management Service        | 3.00                   | 22.71    |  |  |
| DROP - Applicable to                  |                        |          |  |  |
| Members from All of the Above Classes | 0.00                   | 13.26    |  |  |
| FRS, Reemployed Retiree               | (2)                    | (2)      |  |  |

Notes: (1) Employer rates include 1.66 percent for the postemployment health insurance subsidy. Also, employer rates, other than for DROP participants, include 0.06 percent for administrative costs of the Investment Plan.

(2) Contribution rates are dependent upon retirement class in which reemployed.

The District's contributions to the Plan totaled \$14,832,480 for the fiscal year ended June 30, 2018.

For the Fiscal Year Ended June 30, 2018

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions.</u>

At June 30, 2018, the District reported a liability of \$151,103,695 for its proportionate share of the Plan's net pension liability. The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2017. The District's proportionate share of the net pension liability was based on the District's 2016-2017 fiscal year contributions relative to the total 2016-17 fiscal year contributions of all participating members. At June 30, 2017, the District's proportionate share was 0.5108 percent, which was a decrease of 0.02 percent from its proportionate share of 0.5354 percent measured as of June 30, 2016.

For the fiscal year ended June 30, 2018, the District recognized the Plan pension expense of \$23,686,915. In addition, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

The deferred outflows of resources related to pensions resulting from District contributions to the Plan subsequent to the measurement date, totaling \$14,832,480, will be recognized as a reduction of the net pension liability in the fiscal year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Actuarial Assumptions</u>. The total pension liability in the July 1, 2017, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement.

| Inflation                 | 2.60 percent                              |
|---------------------------|---|
| Salary Increases          | 3.25 percent, average including inflation |
| Investment Rate of Return | 7.10 percent, net of pension plan         |
|                           | investment expense, including inflation   |

Mortality rates were based on the Generational RP-2000 with Projection Scale BB.

The actuarial assumptions used in the July 1, 2017, valuation were based on the results of an actuarial experience study for the period July 1, 2008 through June 30, 2013.

The long-term expected rate of return on pension plan investments was not based on historical returns, but instead is based on a forward-looking capital market economic model. The allocation policy's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions and includes an adjustment for the inflation assumption. The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

| Asset Class              | Target Allocation (1) | Annual<br>Arithmetic<br>Return | Compound Annual (Geometric) Return | Standard<br>Deviation |

For the Fiscal Year Ended June 30, 2018

(1) As outlined in the Plan's investment policy.

<u>Discount Rate</u>. The discount rate used to measure the total pension liability was 7.1 percent. The Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return. The discount rate used in the 2017 valuation was updated from 7.6 percent to 7.1 percent.

<u>Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate</u>. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.1 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.1 percent) or 1 percentage point higher (8.1 percent) than the current rate:

#### **HIS Pension Plan**

<u>Plan Description</u>. The HIS Pension Plan (HIS Plan) is a cost-sharing multiple-employer defined benefit pension plan established under Section 112.363, Florida Statutes, and may be amended by the Florida Legislature at any time. The benefit is a monthly payment to assist retirees of State-administered retirement systems in paying their health insurance costs and is administered by the Florida Department of Management Services, Division of Retirement.

<u>Benefits Provided</u>. For the fiscal year ended June 30, 2018, eligible retirees and beneficiaries received a monthly HIS payment equal to the number of years of creditable service completed at the time of retirement with a minimum of \$30 and a maximum HIS payment of \$150 per month, pursuant to Section 112.363, Florida Statutes. To be eligible to receive a HIS Plan benefit, a retiree under a State-administered retirement system must provide proof of health insurance coverage, which can include Federal Medicare.

<u>Contributions</u>. The HIS Plan is funded by required contributions from FRS participating employers as set by the Florida Legislature. Employer contributions are a percentage of gross compensation for all active FRS members. For the fiscal year ended June 30, 2018, the contribution rate was 1.66 percent

For the Fiscal Year Ended June 30, 2018

of payroll pursuant to Section 112.363, Florida Statutes. The District contributed 100 percent of its statutorily required contributions for the current and preceding 3 years. HIS Plan contributions are deposited in a separate trust fund from which payments are authorized. HIS Plan benefits are not guaranteed and are subject to annual legislative appropriation. In the event the legislative appropriation or available funds fail to provide full subsidy benefits to all participants, benefits may be reduced or canceled.

The District's contributions to the HIS Pension Plan totaled \$3,909,833 for the fiscal year ended June 30, 2018.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At June 30, 2018, the District reported a net pension liability of \$75,528,276 for its proportionate share of the HIS Plan's net pension liability. The current portion of the net pension liability is the District's proportionate share of benefit payments expected to be paid within 1 year, net of the District's proportionate share of the HIS Plan's fiduciary net position available to pay that amount. The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2016, and update procedures were used to determine liabilities as of July 1, 2017. The District's proportionate share of the net pension liability was based on the District's 2016-17 fiscal year contributions relative to the total 2016-17 fiscal year contributions of all participating members. At June 30, 2017, the District's proportionate share was 0.7064 percent, which was a decrease of 0.0299 percent from its proportionate share of 0.7363 measured as of June 30, 2016.

For the year ended June 30, 2018, the District recognized the HIS Plan pension expense of \$5,196,601. In addition, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| <u>Description</u>  |    | Deferred<br>Outflows of<br>Resources |    | Deferred<br>Inflows of<br>Resources |  |

<u>Actuarial Assumptions</u>. The total pension liability in the July 1, 2016, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.60 percent

Salary Increases 3.25 percent, average, including inflation

Municipal Bond Rate 3.58 percent

Mortality rates were based on the Generational RP-2000 with Projected Scale BB.

While an experience study had not been completed for the HIS Pension Plan, the actuarial assumptions that determined the total pension liability for the HIS Plan were based on certain results of the most recent experience study for the FRS Plan. The following changes in actuarial assumptions occurred in 2017:

<u>Discount Rate</u>. The discount rate used to measure the total pension liability was 3.58 percent. In general, the discount rate for calculating the total pension liability is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS benefit is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate, and the single equivalent discount rate is equal to the municipal bond rate selected by the HIS Plan sponsor. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index. The discount rate changed from 2.85 percent to 3.58 percent.

<u>Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate</u>. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 3.58 percent, as well as what the District's proportionate share of the new pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (2.58 percent) or 1 percentage point higher (4.58 percent) than the current rate:

For the Fiscal Year Ended June 30, 2018

<u>Pension Plan Fiduciary Net Position</u>. Detailed information about HIS Plan's fiduciary net position is available in the separately issued FRS Pension Plan and Other State-Administered Systems Comprehensive Annual Financial Report.

<u>Payables to the Pension Plan.</u> At June 30, 2018, the District reported a payable of \$4,130,557 for the outstanding amount of contributions to the Plan required for the fiscal year ended June 30, 2018.

The amount included both employee contributions withheld in the month of June as well as the required employer contributions on June payroll, for all FRS related plans, as follows:

### 2. FRS - Defined Contribution Pension Plan

The SBA administers the defined contribution plan officially titled the FRS Investment Plan (Investment Plan). The Investment Plan is reported in the SBA's annual financial statements and in the State's Comprehensive Annual Financial Report.

As provided in Section 121.4501, Florida Statutes, eligible FRS members may elect to participate in the Investment Plan in lieu of the FRS defined benefit plan. District employees participating in DROP are not eligible to participate in the Investment Plan. Employer and employee contributions, including amounts contributed to individual member's accounts, are defined by law, but the ultimate benefit depends in part on the performance of investment funds. Retirement benefits are based upon the value of the member's account upon retirement. Benefit terms, including contribution requirements, for the Investment Plan are established and may be amended by the Florida Legislature. The Investment Plan is funded with the same employer and employee contribution rates that are based on salary and

For the Fiscal Year Ended June 30, 2018

membership class (Regular, Elected County Officers, etc.), as the FRS defined benefit plan. Contributions are directed to individual member accounts and the individual members allocate contributions and account balances among various approved investment choices. Costs of administering the Investment Plan, including the FRS Financial Guidance Program, are funded through an employer contribution of 0.06 percent of payroll and by forfeited benefits of Investment Plan members. Allocations to the Investment Plan member accounts during the 2017-18 fiscal year were as follows:

| Class                          | Percent of Gross Compensation |
|--------------------------------|-------------------------------|
| FRS, Regular                   | 6.30                          |
| FRS, Elected County Officers   | 11.34                         |
| FRS, Senior Management Service | 7.67                          |

For all membership classes, employees are immediately vested in their own contributions and are vested after 1 year of service for employer contributions and investment earnings, regardless of membership class. If an accumulated benefit obligation for service credit originally earned under the FRS Pension Plan is transferred to the Investment Plan, the member must have the years of service required for FRS Pension Plan vesting (including the service credit represented by the transferred funds) to be vested for these funds and the earnings on the funds. Nonvested employer contributions are placed in a suspense account for up to 5 years If the employee returns to FRS-covered employment within the 5-year period, the employee will regain control over their account. If the employee does not return within the 5-year period, the employee will forfeit the accumulated account balance. For the fiscal year ended June 30, 2018, the information for the amount of forfeitures was unavailable from the SBA; however, management believes that these amounts, if any, would be immaterial to the District.

After termination and applying to receive benefits, the member may rollover vested funds to another qualified plan, structure a periodic payment under the Investment Plan, receive a lump-sum distribution, leave the funds invested for future distribution, or any combination of these options. Disability coverage is provided in which the member may either transfer the account balance to the FRS Pension Plan when approved for disability retirement to receive guaranteed lifetime monthly benefits under the FRS Pension Plan or remain in the Investment Plan and rely upon that account balance for retirement income.

The District's Investment Plan pension expense totaled \$5,196,601 for the fiscal year ended June 30, 2018.

### 3. Early Retirement Plans

As authorized by Section 1012.685, Florida Statutes, the Board implemented Early Retirement Plans as described below:

On March 20, 1995, the School Board approved the Manatee County School Board One-time Only Retirement Incentive Plan (Plan). This plan provided that eligible employees who elected to retire by June 30, 1995, be paid special termination benefits. The Plan was offered to members of the instructional and classified bargaining units and administrative personnel who signed an agreement to participate in the Plan, who agreed to retire from employment under the provisions of the Florida

For the Fiscal Year Ended June 30, 2018

Retirement System (FRS), and who met certain age and length of service requirements. One hundred fifty-nine (159) employees elected to participate in the Plan. Special termination benefits included payment for 100 percent of accrued sick and vacation leave, either a bonus based on 25 percent of the retiree's final year's compensation or an amount to compensate the employee for the FRS early retirement penalty, single coverage for health insurance, and a specified amount of life insurance. The Plan provided that the accrued sick and vacation leave, bonus pay, and the FRS early retirement penalty be paid out to the retirees and to a third-party administrator over a period of 5 years. The premiums for health insurance are to be paid for a period of 8 years, while the premiums for the life insurance are to be paid out over the respective retiree's life. The total paid by the District pursuant to this retirement incentive during the 2017-18 fiscal year was \$16,271. The District reported a liability of \$32,875 in the statement of net position representing the present value of the estimated future payments under the Plan.

On May 9, 2011, the School Board approved an On-Time Retirement Incentive Program for all Supervisory, Administrative and Managerial personnel (SAMP) and non-bargaining employees. Eligible employees received 1 month of salary (20 days), a 10-year life insurance policy in the amount of \$25,000 paid by the District, and 3 months of retiree single health insurance immediately following resignation. Employees were required to retire or resign no later than December 31, 2011. Twenty (20) employees elected to participate in the program. The total paid by the District pursuant to this retirement incentive during the 2017-18 fiscal year was \$8,046. The District reported a liability in the amount of \$24,138 in the statement of net position representing the present value of the estimated future payments under the program.

On October 22, 2012, the School Board approved an On-Time Retirement Incentive Program for all Supervisory, Administrative and Managerial personnel (SAMP) and non-bargaining employees. Eligible employees will receive 1 month of salary (20 days), a 10-year life insurance policy in the amount of \$25,000 paid by the District, and 3 months of single health insurance immediately following resignation. Employees were required to retire or resign no later than December 31, 2012, with an effective date of no later than July 31, 2013. Nineteen (19) employees elected to participate in the program. The total paid by the District pursuant to this retirement incentive during the 2017-18 fiscal year was \$8,493. The District reported a liability in the amount of \$33,972 in the statement of net position representing the present value of the estimated future payments under the program.

### F. Other Postemployment Benefit Obligations

Plan Description. The Other Postemployment Benefits Plan (OPEB Plan) is a single-employer defined benefit plan administered by the District that provides OPEB for all employees who satisfy the District's retirement eligibility provisions. Pursuant to Section 112.0801, Florida Statutes, former employees who retire from the District, are eligible to participate in the District's health and hospitalization plan for medical, prescription drug, dental, vision and life insurance coverage. Retirees and their eligible dependents shall be offered the same health and hospitalization insurance coverage as is offered to active employees at a premium cost of no more than the premium cost applicable to active employees. The District subsidizes the premium rates paid by retirees by allowing them to participate in the OPEB Plan at reduced or blended group (implicitly subsidized) premium rates for both active and retired employees. These rates provide an implicit subsidy for retirees because, retiree healthcare costs are generally greater than active employee healthcare costs. The OPEB plan contribution requirements and benefit terms of the District and the OPEB plan members are established and may be amended through recommendation of the Health Insurance Committee and

For the Fiscal Year Ended June 30, 2018

action from the Board. No assets are accumulated in a trust that meet the criteria in paragraph 4 of GASB Statement No. 75.

<u>Benefits Provided</u>. The OPEB plan provides healthcare, prescription drug, dental vision and life insurance benefits for retirees and their dependents. The OPEB plan only provides an implicit subsidy as described above. Retirees are assumed to enroll in the Federal Medicare program for their primary coverage as soon as they are eligible. The rates paid by retirees eligible for Medicare are reduced by the Medicare premium. The OPEB Plan does not issue a stand-alone report and is not included in the report of a public employee retirement system or another entity.

<u>Changes in Plan Provisions</u>. Effective January 1, 2019, Medicare eligible retirees will no longer have the option to enroll in the School District's self-insured medical plans. Instead, these retirees will have the option to receive coverage through the Florida Schools Retiree Benefit Consortium, paying the full cost of their retiree medical coverage.

<u>Employees Covered by the Benefit Terms</u>. At June 30, 2017, the following employees were covered by the benefit terms:

| Inactive Employees or Beneficiaries Currently Receiving Benefits | 397          |
|--|--------------|
| Active Employees   | <u>4,357</u> |
|  |              |

Total 4,754

<u>Total OPEB Liability</u>. The District's total OPEB liability of \$13,583,741 was measured as of June 30, 2018 and was determined by an actuarial valuation as of June 30, 2017.

<u>Actuarial Assumptions and Other Inputs</u>. The total OPEB liability was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation 2.60 percent
Salary Increases 4.25 percent
Discount Rate 3.87 percent

Healthcare Cost Trend Rate 7.90 percent for pre-65 and 8.60 percent for post-65

participants for fiscal year ended June 30, 2018. These rates grade to 4.50 percent for fiscal year ending

June 30, 2027.

The discount rate was based on the employer's funding policy, projected assets are not projected to always be sufficient to cover projected benefit payments, so the EROA is not used as the discount rate.

Mortality rates are based on the Aggregate 2006 base rates from the RP-2014 mortality study projected generationally from 2006 using Scale MP-2017 and the RP-2000.

The demographic actuarial assumptions for retirement, disability incidence and withdrawal used in the June 30, 2017, valuation were based on the results of an actuarial experience study for the period January 1, 2010, through December 31, 2014, adopted by the FRS.

For the Fiscal Year Ended June 30, 2018

The remaining actuarial assumptions (e.g., initial per capita costs, health care cost trends, rate of plan participation, rates of plan election, etc.) used in the June 30, 2017, valuation were based on a review of recent plan experience done concurrently with the June 30, 2018, valuation.

#### Changes in the Total OPEB Liability

Changes of assumptions and other inputs reflect a change in the discount rate from 4.0 percent at June 30, 2017 under GASB 45 to 3.58 percent at June 30, 2017 under GASB 75 and 3.87 percent at June 30, 2018.

Medical trend, including impact of excise tax, was reset based on recent legislative updates and the current outlook.

<u>Sensitivity of the Total OPEB Liability to Changes in the Discount Rate.</u> The following table presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (2.87%) or 1 percentage point higher (4.87%) than the current rate:

### H. Risk Management Programs

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Workers' compensation, automobile liability, and general liability coverage are being provided on a self-insured basis up to specified limits, and the District has entered into agreements with various insurance companies to provide specific excess coverage of property claim amounts above the self-insured retention amount; currently \$100,000 for property excluding named storm, wind/hail and flood damages. Named windstorm deductible is 3 percent of replacement value per building, per occurrence for wind and hail damages with \$250,000 minimum; and \$1,000,000 for automobile and general liability. The District has contracted with an insurance administrator, Johns Eastern Company, to administer these self-insurance programs, including the processing, investigating, and payment of claims.

A third-party administrator, Florida Blue, Inc., administers the District's health and hospitalization insurance program. In plan year 2018, the District paid \$38.75 per employee per month for administrative fees. The payment agreement with Florida Blue provides for liability limits based on fixed rates and average numbers of insured employees and dependents. In 2018, there was a \$1,000,000 specific stop loss deductible including medical and pharmacy, with an unlimited lifetime maximum per covered member. To remain in compliance with health care reform and the Patient Protection and Affordable Care Act, there are no longer lifetime maximums included in the Florida Blue plans.

Settled claims resulting from the risks described above have not exceeded commercial insurance coverage in any of the past 4 fiscal years.

A liability in the amount of \$7,656,304 was actuarially determined to cover estimated incurred, but not reported, insurance claims payable at June 30, 2018. The estimated insurance claims payable for the workers' compensation/property/liability programs of \$5,333,304 was determined using the actuarial central estimate for unpaid losses on a discounted basis. The discounted basis recognized the expected rate of return on investments held in the Internal Service Fund using a discount rate of 4 percent. The estimated insurance claims payable for the self-insured health insurance program is \$2,323,000, including medical and pharmacy claims. This figure was not discounted and was calculated according to Actuarial Standards of Practice No. 5.

The following schedule represents the changes in claims liability for the past 2 fiscal years for the District's self-insurance program:

|           | Beginning of Fiscal Year Liability | Current Year Claims and Changes in Estimates | Claims<br>Payments | Balance at Fiscal Year End |

Note (1): The Federal government pays Interest on QZAB and QSCB certificates to the purchasers of the certificates in the form of tax credits.

The District entered into financing arrangements, which was characterized as lease-purchase agreements, with the Leasing Corporation whereby the District secured financing of various educational facilities. The financing was accomplished through the issuance of certificates of participation to be repaid from the proceeds of rents paid by the District.

Except for the Qualified Zone Academy Bond (QZAB) and Qualified School Bond (QSCB) Certificates which are discussed below, the financing was accomplished through the issuance of Certificates of Participation, Series 2007 for \$60,040,000; Series 2009A for \$47,065,000, Series 2011A for \$39,850,000, Series 2015 for \$38,470,000, Series 2016 for \$36,780,000, and Series 2017 for \$55,890,000.

As a condition of the financing arrangements, the District gave ground leases on District property to the Leasing Corporation, with a rental fee of \$10 per year for Certificates of Participation, Series 2007, 2009A, 2011A, 2015, 2016, and 2017, respectively. The master lease-purchase agreement is automatically renewable each fiscal year through July 1, 2031. If the District fails to renew the lease and to provide for the rent payments through to term, the District may be required to surrender the sites included under the Ground Lease Agreement for the benefit of the securers of the certificates for a period of time specified by the arrangements.

For the Fiscal Year Ended June 30, 2018

On July 22, 2004, and December 20, 2005, the District entered into financing arrangements (Series 2004-QZAB and Series 2005-QZAB, respectively), which were characterized as lease-purchase agreements, with the Leasing Corporation. These agreements were structured to qualify as "Qualified Zone Academy Bonds" pursuant to Section 1397E of the Internal Revenue Code, as amended. There is no interest cost to the District for borrowing moneys under this program. Interest on the Series 2004-QZAB and Series 2005-QZAB is paid by the Federal government in the form of annual tax credits to the banks or other eligible financial institutions that hold the certificates. Mandatory annual deposits, for the Series 2004-QZAB, of \$78,455 are made to a sinking fund account with a paying agent beginning July 21, 2005 and ending July 21, 2018. Mandatory annual deposits, for the Series 2005-QZAB, of \$67,616 are made to a sinking fund account with a paying agent beginning December 20, 2006 and ending December 20, 2021. Such deposits are held and accumulated by the paying agent to be applied solely to the payments due under the leases on the final rental payment date.

The American Recovery and Reinvestment Act (ARRA) of 2009, signed into law on February 17, 2009, created a new category of direct subsidy debt for school districts known as QSCBs. The QSCB does not represent incremental Federal funding; the District must repay it.

As a condition of the financing arrangement, the District has given a ground lease on District property to the Leasing Corporation, with a rental fee of \$10 per year. The initial term of the lease for the Series 2010A-QSCB is 19 years commencing October 29, 2010. The properties covered by the ground lease are, together with the improvements constructed thereon from the financing proceeds, leased back to the District. If the District fails to renew the lease and to provide for the rent payments through to term, the District may be required to surrender the sites included under the Ground Lease Agreement for the benefit of the securers of the certificates.

For the Series 2010A-QSCB, the principal portion of the basic lease payment, \$19,920,000, is due on October 1, 2029. The interest portion of the basic lease payments is due each April 1 and October 1, commencing April 1, 2011. The sinking fund payments are made by the District with respect to the Series 2010A-QSCB and are deposited by the Trustee into the Series 2010 Sinking Fund Account pursuant to the Trust Agreement. Such funds are invested in investment securities in accordance with the Trust Agreement. The District may offset sinking fund payments with the interest earnings on amounts in the Series 2010 Sinking Fund Account, provided that the sinking fund payments will be funded at a rate not more rapid than equal, annual installments in an aggregate amount not in excess of the principal component due at maturity. Sinking fund payments on deposit in the Series 2010 Sinking Fund Account will be retained therein until transferred to the Series 2010 Lease Payment Account and applied to the payment of the \$19,920,000 principal component due on the Series 2010 Certificates at maturity (October 1, 2029) or upon earlier prepayment.

The District properties included in the various ground leases under these arrangements include:

For the Fiscal Year Ended June 30, 2018

The various bonds were issued to finance capital outlay projects of the District. The following is a description of the bonded debt issues:

#### **State School Bonds**

These bonds are issued by the SBE on behalf of the District. The bonds mature serially and are secured by a pledge of the District's portion of the State-assessed motor vehicle license tax. The State's full faith and credit is also pledged as security for these bonds. Principal and interest payments, investment of debt service fund resources, and compliance with reserve requirements are administrated by the SBE and SBA.

### **District Revenue Bonds**

The School Board issued Sales Tax Revenue Bonds, Series 2017 in the amount of \$131,785,000 on February 23, 2017. These bonds are authorized by Chapter 1001, Florida Statutes, and Chapter 212, Florida Statutes. These bonds are secured by a pledge of proceeds received by the District from the levy and collection of a one-half cent discretionary sales surtax pursuant to Section 212.055(6), Florida Statutes. Proceeds of the bonds were used to finance fixed capital expenditures or fixed capital costs associated with the construction, reconstruction or improvement of school facilities and campuses which have a useful life expectancy of five or more years and any land acquisition, design and engineering cost related thereto and for costs of retrofitting and providing for technology implementation including hardware and software for various sites within the District.

The sales tax collections began on January 1, 2003. On November 8, 2016, the voters of Manatee County approved the extension of the one-half cent Sales Tax to be effective January 1, 2018 through December 31, 2032, thereby maintaining revenues statutorily available to be used for capital expenditures to reduce overcrowding, reduce portable classrooms, renovate existing schools, build new schools where needed, purchase technology, and improve student safety and achievement.

During the 2017-18 fiscal year, the District recognized sales tax revenues totaling \$30,599,626 and expended \$21,928,449 (71.66 percent) of these revenues for debt service directly collateralized by these revenues.

Annual requirements to amortize all bonded debt outstanding as of June 30, 2018, are as follows:

#### 3. Defeased Debt

On December 20, 2017, the Board entered into an agreement to refund the outstanding District's Certificates of Participation, Series 2008A and advance refund a portion of the District's Certificates of Participation, Series 2011A. The refunding's were accomplished through the issuance and direct placement of \$55,890,000 of Certificates of Participation, Refunding Series 2017A with an interest rate of 2.57 percent. At the time of closing, the District contributed \$1,271,525 into escrow for the refunding arrangement. The principal and additional contribution was used to currently refund \$21,005,000, the principal amount of the District's Certificates of Participation, Series 2008A and advance refund \$31,130,000 in principal amount for the District's Certificates of Participation, Series 2011A.

The net proceeds and additional contribution of \$57,161,525 less payments of \$195,571 in underwriting fees and other issuance costs were placed in an irrevocable trust to provide for the principal and interest payments on the Certificates of Participation, Series 2008A maturing July 1, 2018 and to call all outstanding Certificates of Participation, Series 2008A, maturing after July 1, 2018, on January 25, 2018 and to call all of the outstanding Certificates of Participation, Series 20011A, maturing July 1, 2022 through July 1, 2031, on July 1, 2021.

As a result, \$21,005,000 of the Certificates of Participation, Series 2008A and \$31,130,000 of the Certificates of Participation, Series 2011A, are considered to be in-substance defeased and the liability for these bonds has been removed from the government-wide financial statements.

The Series 2017A bonds were issued to reduce the total debt service over the next 13 years by \$5,042,952 and to obtain an economic gain (difference between the present value of the debt service payment on the old and new debt) of \$4,317,413.

The total amount of defeased debt outstanding at June 30, 2018 is \$70,640,000.

For the Fiscal Year Ended June 30, 2018

#### IV. SUMMARY DISCLOSURE OF SIGNIFICANT CONTINGENCIES

#### A. Litigation

The District is defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the District's legal counsel, the resolution of these matters will not have a material effect on the financial condition of the District.

#### **B.** Other Loss Contingencies

The District received financial assistance from Federal and State agencies in the form of grants and appropriations. The disbursement of funds received under these programs generally requires compliance with specified terms and conditions and is subject to final determination by the applicable Federal and State agencies. Any disallowed claims should become a liability of the General Fund or other applicable funds.

#### V. SUBSEQUENT EVENTS

The Board authorized the issuance of a tax anticipation note (Note) in the amount of \$20 million dollars. The proceeds will be used for operating expenses for the fiscal year ending June 30, 2019. The closing of the Note took place on September 13, 2018 and the Note is to mature on March 14, 2019. The stated interest rate is 2.246 percent.

#### **Nonmajor Governmental Funds**

#### **Special Revenue Funds**

The Special Revenue Funds account for certain revenues derived from the State of Florida, Federal government, and other local and private sources that are required to finance designated activities. Activities included within the fund are as follows:

Food Services Fund - To account for and report on activities of the food service program in serving breakfast and lunch at the schools.

Federal Contracted Programs Fund - To account for and report on activities of various Federal programs according to the specifications and requirements of each funding source.

#### **Debt Service Funds**

The Debt Service Funds account for the payment of principal and interest on long-term debt.

ARRA Economic Stimulus Fund - To account for the accumulation of resources for and the payment of sinking fund interest and related costs on the Certificates of Participation, Series 2010A Qualified School Construction Bonds.

State Board of Education Bonds Fund - To account for and report on the payment of principal, interest, and related costs of the school bonds issued by the State Board of Education on behalf of the District. These bonds are payable from the District's portion of the State-assessed motor vehicle license tax.

#### **Capital Projects Funds**

The Capital Projects Funds are used to account for the financing and acquisition or construction of major capital facilities, such as new school buildings or additions to existing buildings, or for major renovation projects. Specific funding sources included herein are:

Public Education Capital Outlay Fund - To account for and report on funds received from the State for the construction and maintenance of schools.

Capital Outlay & Debt Service Fund - To account for and report on the excess dollars received through the State's Capital Outlay and Debt Service program used for construction and maintenance of schools.

Section 1011.71(2), F.S., Local Capital Improvement Tax Fund - To account for the financial resources generated by the local capital improvement tax levy to be used for educational capital outlay needs, including new construction, renovation and remodeling projects, and debt service payments on revenue anticipation notes and certificates of participation.

### **Capital Projects Funds**

The Capital Projects Funds are used to account for the financing and acquisition or construction of major capital facilities, such as new school buildings, additions to existing buildings, or major renovation projects. Specific funding sources included herein are:

#### **Major Capital Projects Funds**

Other Capital Projects Fund - To account for and report on funds received from various sources designated for construction remodeling and renovation, expansion of schools and ancillary facilities, and maintenance of schools. Those various sources include sales tax funds collected through a voter approved sales tax referendum; funds received through the issuance of certificates of participation; impact fees levied by the county and city which are transferred to the District through an interlocal agreement; and local capital improvement funds not required to be accounted for separately.

### **Nonmajor Capital Projects Funds**

Section 1011.71(2), F.S., Local Capital Improvement Tax Fund - To account for the financial resources generated by the local capital improvement tax levy to be used for educational capital outlay needs, including new construction, renovation and remodeling projects, and debt service payments on revenue anticipation notes and certificates of participation.

Public Education Capital Outlay Fund - To account for and report on funds received from the State for the construction and maintenance of schools.

Capital Outlay & Debt Service Fund - To account for and report on the excess dollars received through the State's Capital Outlay & Debt Service program used for construction and maintenance of schools.

### **Fiduciary Funds**

Fiduciary Funds are used to account for assets held by the District on behalf of outside related organizations or on behalf of other funds within the District.

The Private-Purpose Trust Fund serves to account for financial aid trust fund fees and other moneys for which principal and income benefit individuals or private organizations. They include:

The Donations Trust Fund accounts for employee and public donations held by the District to be used to assist homeless students enrolled in Manatee County schools.

The Financial Aid Fee Trust Fund accounts for the collection of financial aid fees at Manatee Technical Institute. These fees provide scholarships for students meeting the criteria for the award.

Agency Funds are used to account for resources held by the District in a trustee capacity or as an agent for individuals or private organizations. These resources include student and club activity funds that are held in trust for student, athletic, class, and club activities, and other resources held in trust. The District retains no equity interest in these funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of the results of operations.

#### **Discretely Presented Component Units**

The component units' columns in the basic financial statements, pages 21 through 23, include the financial data of the District's discretely presented component units.

#### **Nonmajor Discretely Presented Component Units**

Manatee School of Arts and Sciences, Inc.; Renaissance Arts and Education, Inc., d/b/a Manatee School for the Arts; The Lee Foundation, Inc, d/b/a Manatee Charter School; Oasis Middle School, Inc.; Palmetto Charter School, Inc.; Team Success A School of Excellence, Inc.; Just for Girls Academy, Inc., Visible Men Academy, Inc., and William Monroe Rowlett Academy for Arts & Communication, Inc. are charter schools and separate not-for-profit corporations organized pursuant to Chapter 617, F.S., the Florida Not For Profit Corporation Act, and Section 1002.33, F.S.. Imagine – Manatee County, LLC, d/b/a Imagine Charter School at North Manatee and Imagine - East Manatee County, LLC, d/b/a Imagine School at Lakewood Ranch are organized as a limited liability corporations pursuant to Chapter 608, F.S., the Florida Limited Liability Company Act, and Section 1002.23, F.S. The charter schools operate under charters approved by their sponsor, the Manatee County District School Board. The charter schools are considered to be component units of the District because the District is financially accountable for the charter schools as the District established the charter schools by approval of the charter, which is tantamount to the initial appointment of the charter schools, and there is the potential for the charter schools to provide specific financial burdens on the District. In addition, pursuant to the Florida Constitution, the charter schools are public schools, and the District is responsible for the operation, control, and supervision of public schools within the District.

Note: Property Taxes become due and payable on November 1st of each year. A four percent (4%) discount is allowed if taxes are paid in November, with the discounts declining by one percent (1%) each month thereafter. Accordingly, taxes collected will never be 100% of the tax levy. Taxes become delinquent on April 1st of each year and tax certificates for the full amount of any unpaid taxes and assessments must be sold not later than June 1st of each year. Accordingly, the majority of taxes are collected in the fiscal year levied.

# INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Chair and Members of the School Board School District of Manatee County, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the School District of Manatee County, Florida (the "District") as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated January 14, 2019. Our report includes a reference to other auditors who audited the financial statements of the discretely presented component units, as described in our report on the District's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

# **Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Chair and Members of the School Board School District of Manatee County, Florida

# **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Pursuant to provisions of Chapter 10.800, *Rules of the Auditor General*, we reported certain matters to management of the District in a separate management letter and Independent Accountant's Report dated January 14, 2019.

# **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

# INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE AND REPORT ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS IN ACCORDANCE WITH THE UNIFORM GUIDANCE

Chair and Members of the School Board School District of Manatee County, Florida

# Report on Compliance for Each Major Federal Program

We have audited the compliance of the District School Board of Manatee County, Florida (the "District") with the types of compliance requirements described in the U.S. Office of Management and Budget ("OMB") *Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2018. The District's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs.

### Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

# Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations*, Part 200, *Uniform Administrative Requirements*, *Cost Principles*, *and Audit Requirements for Federal Awards* ("Uniform Guidance"). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

### Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2018.

# **Report on Internal Control over Compliance**

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to in the first paragraph. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

# Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the District as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements. We issued our report thereon dated January 14, 2019, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. Our report on the basic financial statements included disclosures regarding our reference to the reports of other auditors.

# Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance (Cont.)

The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis, as required by the Uniform Guidance, and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

#### **Notes:**

- (1) <u>Basis of Presentation</u> The Schedule of Expenditures of Federal Awards (Schedule) includes the Federal award activity of the Manatee County District School Board under programs of the Federal government for the year end June 30, 2018. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the District.
- (2) <u>Summary of Significant Account Policies</u> Expenditures are reported on the modified accrual basis of accounting. Such expenditures are recognized following, as applicable, either the cost principles in Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* or the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.
- (3) <u>Indirect Cost Rate</u> The District has not elected to use the 10 percent de minimus cost rate allowed under the Uniform Guidance.
- (4) <u>Noncash Assistance: National School Lunch Program.</u> Includes \$1,930,952.72 of donated food received during the fiscal year. Donated foods are valued at fair value as determined at the time of donation.

#### INDEPENDENT AUDITOR'S MANAGEMENT LETTER

Chair and Members of the School Board School District of Manatee County, Florida

# **Report on Financial Statements**

We have audited the financial statements of the School District of Manatee County, Florida (the "District") as of and for the fiscal year ended June 30, 2018, and have issued our report thereon dated January 14, 2019.

# **Auditor's Responsibility**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. *Code of Federal Regulations*, Part 200, *Uniform Administrative Requirements*, *Cost Principles*, *and Audit Requirements for Federal Awards* ("Uniform Guidance"); and Chapter 10.800, *Rules of the Auditor General*.

# **Other Reporting Requirements**

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*, Independent Auditor's Report on Compliance for Each Major Federal Program and on Internal Control over Compliance and Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance, Schedule of Findings and Questioned Costs, and our Independent Accountant's Report in accordance with the provisions of Chapter 10.800, *Rules of the Auditor General*. Disclosures in those reports and schedule, which are dated January 14, 2019, should be considered in conjunction with this management letter.

# **Prior Audit Findings**

Section 10.804(1)(f)1., *Rules of the Auditor General*, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial report. Corrective actions have been taken to address findings and recommendations made in the preceding annual financial report.

### **Financial Condition and Management**

Section 10.804(1)(f)2., *Rules of the Auditor General*, requires us to communicate whether or not the District has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and identification of specific condition(s) met. In connection with our audit, we determined that the District did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

#### INDEPENDENT ACCOUNTANT'S REPORT

Chair and Members of the School Board School District of Manatee County, Florida

We have examined the School District of Manatee County, Florida's ("District") compliance with the requirements of Section 218.415, Florida Statutes, during the fiscal year ended June 30, 2018. Management is responsible for the District's compliance with those requirements. Our responsibility is to express an opinion on the District's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the District complied with those requirements. An examination involves performing procedures to obtain evidence about the District's compliance with those requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion. Our examination does not provide a legal determination on the District's compliance with specified requirements.

In our opinion, the District complied, in all material respects, with the aforementioned requirements for the fiscal year ended June 30, 2018.

Chair and Members of the School Board School District of Manatee County, Florida

# Financial Condition and Management (Continued)

Pursuant to Sections 10.804(1)(f)5.a. and 10.805(7), *Rules of the Auditor General*, we applied financial condition assessment procedures. It is management's responsibility to monitor the District's financial condition, and our financial condition assessment was based, in part, on representations made by management and the review of financial information provided by the same.

Section 10.804(1)(f)3., *Rules of the Auditor General*, requires that we address in the management letter any recommendations to improve financial management. Current year findings and recommendations are listed in Appendix A.

# **Transparency**

Section 10.804(1)(f)6., *Rules of the Auditor General*, requires that we report the results of our determination as to whether the District maintains on its website the information specified in Section 1011.035, Florida Statutes. In connection with our audit, we determined that the District maintained on its website the information specified in Section 1011.035, Florida Statutes.

#### **Additional Matters**

Section 10.804(1)(f)4., *Rules of the Auditor General*, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that has occurred, or is likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with our audit, we did not note any such findings.

# **Purpose of this Letter**

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, federal and other granting agencies, the District School Board members, and applicable management and is not intended to be, and should not be, used by anyone other than these specified parties.

### APPENDIX A

# SCHOOL DISTRICT OF MANATEE COUNTY, FLORIDA Current Year Findings and Recommendations June 30, 2018

# 2018-01 - Schedule of Expenditures of Federal Awards Preparation

### Observation

During our test work over the accuracy of the Schedule of Expenditures of Federal Awards (the "SEFA"), we noted that the District had incorrectly included non-federal expenditures for the Adult Education grant on the SEFA. The error was identified as part of our audit and the SEFA was subsequently revised, resulting in a reduction of expenditures reported on the SEFA of approximately \$1,780,000.

#### Criteria

The Uniform Guidance requires auditees to prepare the SEFA and accurately report the federal expenditures associated with each grant. The expenditure amounts reported in the SEFA are then used by the auditor in determining the programs that are selected for testing.

# Recommendation

We recommend that the District review its procedures regarding the completeness and accuracy of the data reported in the District's SEFA. These procedures should include having a responsible individual agree each grant and amount reported on the SEFA to the corresponding award notification to ensure that all reported expenditures are accurate.

# **Management Response**

Due to the taxing of resources on the Finance Department caused by the implementation and timing of PeopleSoft software, additional new staff members were assigned to assist with the year-end close processes. The report parameters utilized for the SEFA schedule were not correctly selected resulting in additional non-federal expenditures being reported. The error was overlooked in the review process and corrected upon notification to the District.

The District will ensure the SEFA schedule is properly tested and reviewed by additional staff members to report only federal expenditures as required.
