December 19, 2022

Dear Chair, Members of the School Board and the Citizens of Lake County:

The Annual Comprehensive Financial Report of the District School Board of Lake County, Florida (the "District") for the fiscal year ended June 30, 2022, is submitted herewith. We believe the information, as presented, is accurate in all material aspects; that it is presented in a manner designed to set forth fairly, in all material respects, the financial position and the changes in financial position of the District as measured and reported by the financial activity of its various funds; and that all disclosures necessary to enable the reader to gain an adequate understanding of the District's financial affairs have been included. The responsibility for the preparation of the accompanying financial statements and other information contained in this report, based on the above standards, rests with the District's management.

This report consists of management's representations concerning the finances of the District. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the District has established a comprehensive internal control framework that is designed both to protect the District's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the District's financial statements in conformity with Generally Accepted Accounting Principles (GAAP). Because the cost of internal controls should not outweigh their benefits, the District's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The District's financial statements have been independently audited by the independent certified accounting firm, Purvis Gray and Company, CPA's. The goal of the independent audit was to provide reasonable assurance that the financial statements of the District for the fiscal year ended June 30, 2022, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the District's financial statements for the fiscal year ended June 30, 2022, are fairly presented in conformity with GAAP. The independent auditor's report on financial statements is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the District was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The District is required to undergo an annual Single Audit in conformity with the provisions of the

1

Uniform Guidance. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of Federal awards. Information related to this Single Audit, including the schedule of expenditures of Federal Awards, the independent auditor's reports on internal control over financial reporting and on compliance and other matters, the independent auditor's report on federal program compliance, and the schedule of findings and questioned costs, is included in section IV as additional elements of this report.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

Profile of the School District

The District and its governing body were created pursuant to Section 4, Article IX of the Constitution of the State of Florida. The District is an independent taxing and reporting entity managed, controlled, operated, administered and supervised by the District school officials in accordance with Chapter 1001.30, Florida Statutes. The District School Board consists of five elected officials responsible for the adoption of policies, which govern the operation of public schools in Lake County. The Superintendent of Schools is responsible for the administration and management of the schools within the applicable parameters of Florida Statutes, State Board of Education Rules and District policies. The Superintendent is also specifically delegated the responsibility of maintaining a uniform system of records and accounts in the District, as prescribed by the State Board of Education. The geographic boundaries of the District are those of Lake County.

This report contains the audited financial statements for all operations over which the School Board is financially accountable. Various potential component units were evaluated to determine whether they should be considered as a part of the District's reporting entity. Accordingly, included are all funds of the District, the Financing Corporation for the School Board of Lake County, Florida, Inc., the Educational Foundation of Lake County, Inc., (the "Foundation") and ten charter schools, which comprise the reporting entity. The Financing Corporation for the School Board of Lake County, Florida, Inc., was formed by the School Board to be the lessor in connection with financing the acquisition and/or construction of certain educational facilities. The Foundation is a separate not-for-profit corporation organized and operated as a direct-support organization. The Foundation's purpose is exclusively educational and charitable for the constituents of Lake County. The charter schools are public schools operating under performance contracts with the District. The Foundation and charter schools are included in the Annual Comprehensive Financial Report as discretely presented component units.

The District provides a full range of educational programs in Lake County. These include early childhood, kindergarten through 12th grade, basic and enriched programs, exceptional

education, vocational and adult education. During the 2021-22 fiscal year, the District operated 42 schools, including 20 elementary schools, 10 middle schools, 1 K through 8 school, 8 high schools and 3 specialized school. In addition, there are 12 charter schools that are component units of the District. In total, the District reported serving approximately 46,741 unweighted full-time equivalent students. State projected enrollment for the 2022-23 fiscal year is 48,737. In the 2013-14 fiscal year, the State of Florida changed the reporting of FTE by limiting the base funding for any unweighted student enrolled to one FTE regardless of any enrollment in excess of one FTE. This change in reporting is reported as "Recalibrated FTE" and is the result of the Legislative appropriation process.

The annual budget serves as the foundation for the District's financial planning and control. The District establishes and maintains budgetary controls. The objective is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the District. Activities of all governmental fund types are included in the annual appropriated budget. The level of budgetary control (that is, the level at which expenditures cannot exceed the appropriated amount) is established at the fund-function-object level for all funds.

Budgetary information is integrated into the accounting system; and, to facilitate budgetary control, budget balances are encumbered when purchase orders are issued. Appropriations lapse at year-end and encumbrances outstanding are honored in the subsequent year's appropriations.

In order to provide budgetary control for salaries the District utilizes a centralized position control system. On an annual basis, the District adopts a District staffing plan that establishes teaching positions based generally on student populations served. Additionally, support and administrative positions are created based on established criteria. See further discussion of future changes to the budgeting process under "Long-term Financial Planning".

Economic Condition and Outlook

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the District operates.

While the District is heavily reliant upon state funding for the core of the educational programs within the District, and while the economic conditions of the nation and state interact with state funding adequacy and availability, the economic outlook for the District is consistent with the national situation. The State of Florida is heavily dependent upon sales tax collections and tourism. In addition, the community within the District is wholly supportive of the educational program, as evidenced by the contribution of money, time and effort. Any funding fluctuations will mean that new programs, innovative initiatives and educational enhancements may not be available within the desired time frames, but the positive improvements will continue to occur. In addition, the Board, Superintendent and staff are acutely aware of the perils of interrupted revenue receipts. Prudent business practices, accompanied by statutes mandating balanced budgets, result in a continual review of the financial condition of the District.

The District recognizes that the continued enhancement of the local economy is of mutual benefit to both the District and the County and that an excellent system of public education is

a significant factor in attracting new business and industry to the County. The District remains Lake County's largest employer, employing 5,763 full and part-time employees, including 3,138 Instructional personnel during the 2021-22 fiscal year.

Financial Information

Long-term Financial Planning

Long-term financial planning needs are addressed in a Five-Year District Facilities Work Plan encompassing all construction, maintenance, and facility renovation. The Facilities Work Plan is updated every year. Funding is provided primarily from the local capital outlay millage levy.

Financial Information

A detailed explanation of the financial position and operating results of the District is provided in the Annual Comprehensive Financial Report. Presented below is a brief description of financial information, management of financial resources and obligations, and control techniques applicable to financial resources, obligations, and information.

The accounting policies of the District conform to GAAP applicable to governmental units. The statements and schedules included in the financial section of this report demonstrate the District's continued commitment to sound financial management.

Budgetary Controls

The District maintains budgetary controls to ensure compliance with legal provisions embodied in the annual appropriations budget approved by the Board. Activities of the General Fund, Special Revenue Funds, Debt Service Funds, and Capital Projects Funds are included in the annual appropriations budget. Although a Five-Year District Facilities Work Plan is adopted for the capital projects funds, the funding for the projects is contingent upon the annual budget adoption. The budgetary process is discussed under the Budgetary Compliance and Accountability section of the Notes to Required Supplementary Information.

Retirement Program

The District participates in the Florida Retirement System, which is administered by the State. Note 2 E to the financial statements describes the District's retirement program in greater detail.

<u>Audit</u>

State statutes require an audit by the State of Florida Auditor General every three years. Annual audits by other independent certified public accountants are performed in the intervening years. The auditor's report is included at the beginning of the financial section in this Annual Comprehensive Financial Report.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to District School Board of Lake County for its Annual Comprehensive Financial Report for the fiscal year ended June 30, 2021. This was the eighteenth consecutive year that the District received this prestigious award. In order to be awarded a Certificate of Achievement, the government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current Annual Comprehensive Financial Report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this Annual Comprehensive Financial Report was made possible by the dedicated service of the entire staff of the District's Finance Department, whose hard work and excellence is apparent. Each member of the department has our sincere appreciation for the contributions made in the preparation of this report. In closing, we would like to thank the School Board for their leadership and support in planning and conducting the financial operations of the District in an accountable and progressive manner. We also thank the citizens of Lake County, whose cooperation, support, and assistance have contributed greatly to the operation of this innovative school system.

Respectfully submitted,

Niene Kaine gaug

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the businesstype activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the District School Board of Lake County, Florida (the District) as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's financial statements as listed in the table of contents.

In our opinion, based on our audit and the reports of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2022, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of the aggregate discretely presented component units (identified in Note 1) as of June 30, 2022. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the aggregate discretely presented component units, is based solely on the report of the other auditors.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

INDEPENDENT AUDITOR'S REPORT

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

District School Board of Lake County, Florida and Superintendent Tavares, Florida

INDEPENDENT AUDITOR'S REPORT

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedule of funding progress for other postemployment benefits, schedules of District contributions – FRS/HIS, schedules of District's proportionate share of net pension liability – FRS/HIS, and major fund budgetary comparison schedules, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual non-major fund financial statements, other budgetary comparison schedules, and schedule of expenditures of federal awards as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, based on our audit, and the report of the other auditors, the combining and individual non-major fund financial statements, other budgetary comparison schedules, and schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

District School Board of Lake County, Florida and Superintendent Tavares, Florida

INDEPENDENT AUDITOR'S REPORT

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 19, 2022, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

MANAGEMENT DISCUSSION AND ANALYSIS

LAKE COUNTY DISTRICT SCHOOL BOARD MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the District School Board of Lake County, Florida, (the District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2022. We encourage readers to consider the information presented here in conjunction with our financial statements.

Financial Highlights

Key financial highlights for the fiscal year 2021-22 are as follows:

- The assets and deferred outflows of the District exceeded its liabilities and deferred inflows at the close of the most recent fiscal year by \$609,314,457.
- The District's total Net Position increased by \$107,468,062.
- As of the close of the current fiscal year, the District's governmental funds reported combined fund balances of \$296,322,858 an increase of \$78,441,308 in comparison with the prior fiscal year.
- The District's government-wide revenues totaled \$602,505,591, of which general revenues totaled \$568,726,848, or 94.0 percent of all revenues. In the prior fiscal year, general revenues totaled \$517,118,739, or 97.0 percent.
- At the end of the current fiscal year, assigned and unassigned fund balance for the General Fund was \$53,292,949 or 7.4 percent of total General Fund Revenues. The unassigned fund balance is available for spending at the District's discretion.
- The District's total long-term liabilities decreased by \$154,461,328 or approximately 34.8 percent during the current fiscal year. The key factors in this decrease was the net decrease of \$38,118,818 from the repayment of outstanding debt, and a decrease to the net pension liability of \$137,778,703. A complete discussion of all long term-liabilities are included in the notes to the financial statements, note 3.K.

Overview of the Financial Statements

The annual financial report consists of three parts: management's discussion and analysis, the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District.

- The first two statements are government-wide financial statements that provide both short-term and long-term information about the District's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the District, reporting the District's operations in more detail than the government-wide statements.

- The governmental funds statements tell how basic services, such as regular and special education, were financed in the short-term, as well as what remains for future spending.
- The proprietary funds statements offer short-term and long-term financial information about the activities the District operates as internal service funds, such as self-insurance.
- The fiduciary funds statements provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others.

Major Features of the Government-wide and Fund Financial Statements

The financial statements also include notes that explain information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the District's budget for the fiscal year.

Government-Wide Financial Statements Reporting the District as a Whole

The government-wide financial statements provide both long-term and short-term information about the District's overall financial status. The subsequent statements are fund financial statements that focus on individual parts of the District and provide greater detail of the District's operations than the government-wide statements. Additionally, the basic financial statements include notes, which explain some of the information in the statements and provide more detailed data.

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the District's non-fiduciary assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as useful indicators of whether the financial position of the District is improving or deteriorating.

The statement of activities provides information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in the future fiscal periods (e.g., uncollected taxes and earned but unused vacation and sick leave.)

Both of the government-wide financial statements distinguish functions of the District that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the District include such functions as instruction, pupil personnel services, administration, pupil transportation, maintenance, and other items. The business-type activities of the District include the Extended Learning Center Program.

The government-wide financial statements include not only the District itself (known as the primary government), but also 12 charter schools and the Educational Foundation of Lake County, Inc., for which the District is financially accountable. Financial information for these component units is reported separately from the financial information presented for the primary government itself. The financial data reported for the Charter Schools and the Foundation was derived from individual audited financial statements on file in the District's administrative offices. The Financing Corporation for the School Board of Lake County, Florida, Inc. (Financing Corporation), although also legally separate, was formed to facilitate financing for the acquisition of facilities and equipment. Due to substantive economic relationship between the District and Financing Corporation, the Financing Corporation has been included as an integral part of the primary government.

The government-wide financial statements can be found on pages 23 through 25 of this report.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-

related legal requirements. All of the funds of the District can be put into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental funds financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains 11 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General Fund, Special Revenue – Other Federal Programs Fund, and Capital Projects – Other Capital Projects Fund which are considered to be major funds. Data from the other 8 governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements found on pages 92 through 95 of this report. The basic governmental fund financial statements can be found on pages 28 through 31 of this report.

Proprietary Funds. The District maintains two different types of proprietary funds. The enterprise fund is used to report the same functions as business-type activities in the government-wide financial statements. The District uses the enterprise fund to account for its Extended Learning Center (before-and after-school child care) Program. Internal service funds are an accounting device used to accumulate and allocate cost internally among the District's various functions. The District uses three internal service funds to account for its self-funded health insurance program, employee flexible spending program, and workers' compensation program. Because these services predominantly benefit the governmental rather than the business-type functions, they have been included within the governmental activities in the government-wide financial statements. Individual fund data for each of these internal service funds is provided in the form of combining statements found on pages 104 through 106 of this report.

Proprietary funds provide the same type of information as the government-wide financial statement, only in more detail. The proprietary fund financial statements provide separate information for the Extended Learning Center Program. The Extended Learning Centers provide before- and after-school care to elementary and middle school students enrolled in Lake County Schools. Expenses incurred for the operation of these programs are paid totally by fees collected for services. The basic proprietary fund financial statements can be found on pages 32 through 34 of this report.

Fiduciary Funds. Fiduciary funds are used to report assets held in a trustee or fiduciary capacity for the benefit of external parties, such as student activity funds. Fiduciary funds are not reflected in the government-wide statements because the resources are not available to

support the District's own programs. In its fiduciary capacity, the District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes. The Statement of Fiduciary Net Position and the Statement of Changes in Fiduciary Net Position can be found on pages 35 through 36 of this report.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to fully understand the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found following the basic financial statements on pages 37 through 79 of this report.

Required Supplementary Information

The District adopts an annual budget for its General Fund. A budgetary comparison schedule and required note disclosure have been provided for the General Fund and the Special Revenue – Other Federal Programs Fund on pages 83 and 84 to demonstrate compliance with this budget.

In addition, this report also presents required supplementary information concerning the District's net pension liability and its progress in funding its obligation to provide other postemployment benefits to its employees on pages 85 through 87.

Notes to the Required Supplementary Information

The notes provide additional information that is essential to fully understand the data provided in the required supplementary information. The notes to required supplementary information can be found following the basic financial statements on pages 88 and 89 of this report.

Government-Wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets and deferred outflows exceed liabilities and deferred inflows by \$609,314,457 at June 30, 2022.

By far, the largest portion of the District's net position reflects its Net Investment in Capital Assets (e.g., land, buildings, machinery, and equipment); less any related debt used to acquire those assets that are still outstanding. The District uses these capital assets to educate the students of Lake County, Florida; consequently, these assets are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The following is a summary of the District's Net Position as of June 30, 2022 compared to the Net Position as of June 30, 2021.

A portion of the District's net position, \$242,736,333, represents resources that are subject to external restrictions on how they may be used. An increase of \$68,940,188 in restricted net position reported in connection with the District's governmental activities was the result of an increase in capital projects fund balance during the fiscal year.

The remaining deficit net position, \$131,413,599, reflects the shortfall that the District would have faced in the event that it would have had to liquidate all of its non-capital liabilities at June 30, 2022. The most significant liabilities (claims) against the unrestricted assets include the pension liability of \$104,497,180, compensated absence liability of \$21,440,673, and the other postemployment benefits (OPEB) liability of \$14,742,611.

The key elements of the changes in the District's Net Position for the fiscal years ended June 30, 2022 and June 30, 2021 are as follows:

The District's Net Position increased by \$108,142,951 during the current fiscal year.

Governmental Activities. Governmental activities increased the District's net position by \$107,468,062. Most of this increase can be attributed to an increase in Federal Grants related to the Elementary and Secondary School Emergency Relief funds in the amount of \$43,434,994. The District's Impact Fees also increased by \$15,262,714. This can be attributed to the increase in construction in the County. An increase in property values resulted in \$6,888,220 in additional property taxes revenue.

Business-Type Activities. Business-type activities increased the District's net position by \$674,889.

Financial Analysis of the Government's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Major Governmental Funds

The focus of the District governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$296,322,858 an increase of \$78,441,308 in comparison with the prior fiscal year. This increase can be attributed to the increase in Federal Grants related to the Elementary and Secondary School Emergency Relieve funds as was as an increase in total property taxes.

As more fully discussed in the Notes to Basic Financial Statements, the Governmental Accounting Standards Board (GASB) has issued Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions* (GASB 54) to provide a more structured classification of fund balance and to improve the usefulness of fund balance reporting to the users of the District's financial statements. The reporting standard establishes a hierarchy for fund balance classifications and the constraints imposed on the uses of those resources.

GASB 54 provides for two major types of fund balances, which are non-spendable and spendable. In addition to the non-spendable fund balance, GASB 54 has provided a hierarchy of spendable fund balances, based on spending constraints, as follows:

- > Restricted
- Committed
- > Assigned
- > Unassigned

The General Fund is the chief operating fund of the District. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$53,292,949 while the total fund balance was \$72,021,916. The total fund balance increased by \$17,647,521. The main reason for the increase is a reduction in operating cost due to shifting cost to the additional Federal grants related to the Corona Virus.

As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total revenues. Unassigned fund balance represents approximately 14.3 percent of total General Fund revenues, while total fund balance represents approximately 19.4 percent of that same amount. The remainder of fund balance is spendable subject to the level of restriction. The assigned fund balance includes encumbrances of \$782,574 which are not available for new spending because it has already been assigned to liquidate contracts and purchase orders outstanding. Funds related to specific State required carryover programs of \$3,794,240 and scholarships, endowments, and other programs of \$12,282,837 are reported as restricted; inventory and prepaid instructional material items totaling \$1,869,316 are reported as non-spendable.

Special Revenue Fund – Other Federal Programs Fund is used to account for the revenues and expenditures of Federal Grant programs. Because revenues in this fund are recognized to the extent expenditures are incurred, this fund generally does not accumulate a fund balance.

The Capital Projects - Other Capital Projects Fund is used to account for the financial resources generated by various capital funding sources. Included in this fund were

Certificates of Participation Proceeds, Impact Fees, Voter Approved Sales Tax, and other capital outlay-funded projects. The fund balance for this fund at the fiscal year end, which is restricted for capital projects, was \$161,208,139, an increase of \$43,507,233 from the prior fiscal year.

Proprietary Funds

The District's proprietary funds provide the same type of information as business-type activities found in the government-wide financial statements. The internal service funds net position was \$13,652,827, a decrease of \$3,636,674, resulting from a decrease in claims related expense in the Self-Funded Employee Health Insurance Fund.

General Fund Budgetary Highlights

During the fiscal year, the District's revenue and expenditure projections remained similar to original budgeted amounts.

The main reason for the increase is a reduction in operating cost due to shifting cost to the additional Federal grants related to the Corona Virus.

Capital Assets and Debt Administration

<u>Capital Assets.</u> The District's investment in capital assets for the governmental activities as of June 30, 2022, amounted to \$642,118,569 (net of accumulated depreciation). This investment in capital assets includes land; improvements other than buildings; buildings and fixed equipment; furniture, fixtures and equipment; motor vehicles; audio visual materials and computer software; and construction in progress. The total increase in the District's investment in capital assets (net of accumulated depreciation) for the current fiscal year was approximately 0.72 percent.

Additional information on the District's capital assets can be found in note 3.D. of this report.

Long-Term Debt. At the end of the current fiscal year, the District had total long-term debt related to capital assets outstanding of \$148,493,598 as follows:

| State School Bonds | \$ 2,638,000 |
|-------------------------------|-------------------|
| Certificates of Participation | 140,265,000 |
| Unamortized Premium | 5,590,599 |
| Total | \$ 148,493,599 |

During the current fiscal year, the District paid \$14,018,818 for principal payments and premium amortization on existing long-term debt related to capital assets as follows:

| Scheduled Payments: | |
|---------------------------------------|------------------|
| State School Bonds | \$ 608,000 |
| Certificates of Participation Payable | 12,765,000 |
| Premium Amortization | 645,818 |
| Total | \$ 14,018,818 |

Additional information on the District's long-term debt can be found in note 3.K. of the notes to the basic financial statements.

Other Matters of Significance

Factors Bearing on the District's Future

At the time these financial statements were prepared, the District was aware of two existing circumstances that could significantly affect its financial future.

- Florida economic conditions continue to improve. Per student funding has almost returned to the level of fiscal year 2007-08; however, when the 2007-08 funding is adjusted for inflation, the current funding remains significantly less.
- Property values in 2021-22 fiscal year show an increase, the eighth consecutive year of gradual growth. State forecasts indicate property values will continue to show growth in the near future.

Requests for Information

This report is designed to provide citizens, taxpayers, customers, investors, and creditors with a general overview of the District's finances and to demonstrate compliance and accountability for its resources. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Assistant Superintendent of Business Services, Lake County Schools, 201 West Burleigh Boulevard, Tavares, Florida 32778.

NOTES TO THE BASIC FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Description of Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. All fiduciary activities are reported only in the fund financial statements. Governmental activities, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from business-type activities, which rely to a significant extent on fees charged to external customers for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities presents a comparison between direct expenses and program revenues for each function or program of the Lake County School District's (District) governmental activities and for each segment of the business-type activities. Direct expenses are those that are specifically associated with a service, program, or department and thereby clearly identifiable to a particular function.

B. Reporting Entity

The District School Board of Lake County, Florida (District) has direct responsibility for the operation, control, and supervision of District schools and is considered a primary government for financial reporting. The District is considered part of the Florida system of public education, operates under the general direction of the Florida Department of Education (FDOE), and is governed by State law and State Board of Education (SBE) rules. The governing body of the District is the Board, which is composed of five elected members. The appointed Superintendent of Schools is the executive officer of the Board. Geographic boundaries of the District correspond with those of Lake County.

Component Units

Criteria for determining if other entities are potential component units that should be reported within the District's basic financial statements are identified and described in the Governmental Accounting Standard Board's (GASB) *Codification of Governmental Accounting and Financial Reporting Standards,* Sections 2100 and 2600. The application of these criteria provides for identification of any entities for which the District is financially accountable and other organizations for which the nature and significance of their relationship with the Board are such that exclusion would cause the District's basic financial statements to be misleading or incomplete. The District used guidance provided in the FDOE memorandum, dated October 8, 2012, in the application of these criteria for

identification of any entities for which the District is financially accountable and has a financial benefit or burden relationship present and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's basic financial statements to be misleading or incomplete. The Florida Department of Education has directed that all charter schools be reported as component units of the District.

Based on the application of the above criteria, the following component units are included within the District's reporting entity:

Blended Component Unit. A blended component unit is, in substance, part of the District's operations, even though it is a legally separate entity. The Financing Corporation for the School Board of Lake County, Florida, Inc. (Financing Corporation) was formed to facilitate financing for the acquisition of facilities and equipment. The governing board of the Financing Corporation is the Lake County District School Board. Due to the substantive economic relationship between the District and the Financing Corporation, the financial activities of the Financing Corporation are included in the accompanying basic financial statements as part of the debt service and capital projects funds. Separate financial statements for the Financing Corporation are not published.

Discretely Presented Component Units. The component units' columns in the basic financial statements include the financial data of the District's other component units that are required to be reported separately. These component units consist of the Educational Foundation of Lake County, Inc., as well as the following twelve charter schools: Alee Academy, Inc.; Altoona Charter School, Inc.; Imagine Schools of South Lake (dba South Lake Charter School); Lake Technical College, Inc.; Mascotte Elementary Charter School, Inc.; Minneola Elementary Charter School, Inc.; Pinecrest Lakes Academy (Pinecrest Academy, Inc.); Pinecrest Four Corners (Pinecrest Academy, Inc.); Pinecrest Academy Tavares (Pinecrest Academy, Inc.); Pinecrest Lakes Middle High School (Pinecrest Academy, Inc.); Round Lake Elementary Charter School, Inc.; and Spring Creek Charter School, Inc.

The Educational Foundation of Lake County, Inc. (Foundation), is a separate not-for-profit corporation organized and operated as a direct-support organization under Section 1001.453, Florida Statutes, to receive, hold, invest, and administer property and to make expenditures to and for the benefit of the District. The Foundation is considered to be a component unit of the District because the District must approve all members of the Foundation Board, and the District has the ability to impose its will on the Foundation. The financial data reported for the Foundation was derived from audited financial statements on file in the District's administrative offices.

The charter schools are separate not-for-profit corporations organized under Section 1002.33, Florida Statutes, to operate as public (as opposed to private) schools and are held responsible for prudent use of the public funds they receive. They operate under a charter approved by their sponsor, the District School Board of Lake County, and are considered to be component units of the District since they are fiscally dependent on the District for their tax levy and the majority of their budget. In addition, they create a financial burden on the District because the charter schools'

full-time equivalent (FTE) student enrollment is the basis for the District to provide funding to the charter schools. In addition, pursuant to the Florida Constitution, the charter schools are public schools and the District is responsible for the operation, control, and supervision of public schools within the District.

Audits of charter schools' financial statements are conducted by independent certified public accountants. Separate financial statements for the charter schools are filed in the District's administrative offices.

In addition to being charter schools, Lake Technical College, Inc.; Mascotte Elementary Charter School, Inc.; Minneola Elementary Charter School, Inc.; Round Lake Elementary Charter School, Inc.; and Spring Creek Charter School, Inc. operate as conversion charter schools. In accordance with the respective contract provisions, employees at each of these schools are employees of the District. The conversion charter schools reimburse the District for salaries and benefits. As such, the conversion charter schools' proportionate share of liabilities related to Florida Retirement System (FRS) and Postemployment Health Care Benefits are reported in the annual financial reports of the respective conversion charter schools. The District's proportionate share of each liability is discussed further under notes 3.E. and 3.F.

In accordance with School Board Policy 3.90, Charter Schools, Section 13h, "Conversion charter school employees will become employees of the charter school upon commencement of the charter school contract and will no longer be employees of the Lake County School District. Lake County School Board employees who elect to teach at a charter school may request charter school leave indefinitely but this leave must be requested annually." Following the contract renewals of the current conversion charter schools in 2022, the specific disclosure areas of employee benefits, discussed above, will no longer apply as the employees will no longer be employees of the Lake County School District. This change will take place for the following schools as of July 1, 2022: Spring Creek Elementary Charter School, Mascotte Elementary Charter School, and Minneola Elementary Charter School.

C. Basis of Presentation – Government-Wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds and internal service funds, while business-type activities incorporate data from the government's enterprise fund. Separate financial statements are provided for governmental funds, propriety funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

The effects of interfund activity have been eliminated from the government-wide financial statements except for interfund services provided and used and net residual amounts between governmental and business-type activities.

D. Basis of Presentation – Fund Financial Statements

The fund financial statements provide information about the District's funds, including the fiduciary funds and blended component unit. Separate statements for each fund category

– governmental, proprietary, and fiduciary – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

The District reports the following major governmental funds:

- <u>General Fund</u>- to account for all financial resources not required to be accounted for in another fund, and for certain revenues from the State that are legally restricted to be expended for specific current operating purposes.
- <u>Special Revenue Other Federal Programs Fund –</u> to account for certain Federal grant program resources of the District.
- <u>Special Revenue Federal Education Stabilization Fund</u> to account for Federal funds received under the Coronavirus Aid, Relief, and Economic Security (CARES) Act.
- <u>Capital Projects Nonvoted Capital Improvement Fund</u> to account for the financial resources generated by the nonvoted capital improvement tax levy to be used for educational capital outlay needs, including new construction, renovation and remodeling projects, new and replacement equipment, motor vehicle purchases, and debt service payments.
- <u>Capital Projects Other Capital Projects Fund</u> to account for the financial resources generated by various sources. Included in the Capital Projects – Other Capital Projects Fund are certificates of participation proceeds; impact fees; sales tax; effort index; class size reduction; and other capital outlay appropriations. These funds are to be used for educational capital outlay needs, including debt payments, new construction and renovation and remodeling projects as specified in statute, ordinance, or contract.

The District reports the following proprietary funds:

- <u>Enterprise Fund Extended Learning Center Program</u> to account for the financial resources of the District's Extended Learning Center Program. This program provides before and after school care to students.
- <u>Internal Service Funds</u> to account for the financial resources of the District's Self-Funded Health Insurance Program, Employee Flexible Spending Program, and Workers' Compensation Program.

The District reports the following fiduciary funds:

• <u>Private-Purpose Trust Fund</u> – a private scholarship fund established to account for resources that are legally restricted by the donor to the extent that only proceeds from interest, and not principal, may be used for scholarship purposes. A complete description of this Donor-Restricted Endowment is included in note 3.0.

During the course of operations, the District has activity between funds for various purposes. Any residual balances outstanding at fiscal year-end are reported as due from/to other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e., the enterprise fund) are eliminated so that only the net amount is included as internal balances in the business-type activities column. Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements, these amounts are reported at gross amounts as transfers in and out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column. The effects of interfund activity have been eliminated from the government-wide statements except for interfund services provided and used.

E. Measurement Focus. Basis of Accounting. and Financial Statement Presentation

Basis of accounting refers to when revenues and expenditures, or expenses, are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The government-wide financial statements are prepared using the economic resource measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recognized when earned and expenses are recognized when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized in the year for which they are levied. Revenues from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements, which include the general, special revenue, debt service and capital projects funds, are prepared using the current financial resource measurement focus and the modified accrual basis of accounting. Under the modified accrual method of accounting, expenditures are generally recognized when the related fund liability is incurred. The principal exceptions to this rule are: (a) prepaid items are

generally not accrued; (b) interest on general long-term debt is recognized as expenditures when due; and (c) expenditures related to long-term liabilities are recognized when due. Issuance of long-term debt is reported as other financing sources. Allocations of cost, such as depreciation, are not recognized in governmental funds.

Revenues can be classified into two kinds of transactions: (a) exchange and exchange-like

transactions, in which each party receives and gives up essentially equal value and (b) nonexchange transactions, in which a government gives (or receives) value without directly receiving (or giving) equal value in exchange. Revenue resulting from exchange transactions is recorded on the accrual basis when the exchange takes place.

Revenues resulting from non-exchange transactions are further classified into (a) derived tax revenues, (b) imposed non-exchange revenues, (c) government-mandated non-exchange transactions, and (d) voluntary non-exchange transactions. Derived tax revenues (e.g., sales taxes) are recorded when the exchange transaction occurs. Imposed non-exchange transactions (e.g., property taxes) are recorded when the use of the resource is required or first permitted by time requirements (for example, for property taxes, the period for which they are levied.) Government-mandated and voluntary non-exchange transactions, (e.g., Federal mandates, grants, and donations) are recorded when all eligibility requirements have been met.

When applying the susceptible to accrual concept under the modified accrual basis, resources also should be available in order to be accrued. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers property and sales taxes to be available if they are collected within 60 days of the end of the current fiscal year. When grant terms provide that the expenditure of resources is the prime factor for determining eligibility for Federal, State, and other grant resources, revenue is recognized at the time the expenditure is made.

The proprietary and private-purpose trust funds are reported using the economic resources measurement focus and the accrual basis of accounting. The agency fund has no measurement focus but utilizes the accrual basis of accounting for reporting assets and liabilities.

The Educational Foundation of Lake County, Inc., shown as a discretely presented component unit, follows the same accounting model as the District's governmental activities.

The charter schools are accounted for as governmental organizations and follow the same accounting model as the District's governmental activities.

F. <u>Assets. Liabilities. Deferred Outflows/Inflows of Resources. and Net Position/Fund</u> <u>Balances</u>

(1) Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand and demand deposits.

Cash deposits are held by banks qualified as public depositories under Florida law or through the Federally Insured Cash Account program, which complies with the provisions of Section 218.415(23), Florida Statutes, and is therefore exempt from Florida's public deposits program pursuant to Section 280.03(3)(f), Florida Statutes. All deposits are insured by Federal depository insurance, up to specified limits, or collateralized with securities held in Florida's

multiple financial institution collateral pool as required by Chapter 280, Florida Statutes.

(2) Investments

Investments consist of amounts placed in the SBA debt service accounts for investment of debt service moneys, amounts placed with the SBA for participation in the Florida PRIME investment pool created by Section 218.405, Florida Statutes, and those made locally. The investment pool operates under investment guidelines established by Section 215.47, Florida Statutes.

The District's investments in Florida PRIME are similar to money market funds in which shares are owned in the fund rather than the underlying investments. The District also invested in the Florida Public Assets for Liquidity Management portfolio (Florida PALM). This investment pool only invests in high quality money market investments. These investments are reported at fair value, which is amortized cost.

Investments made locally consist of money market mutual funds, United States Treasury Bills and commercial paper and are reported at fair value. Types and amounts of investments held at fiscal year-end are described in note 3.B.

(3) <u>Receivables and Payables</u>

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as internal balances.

(4) Inventories and Prepaid Items

Inventories consist of expendable supplies held for consumption in the course of District operations. Warehouse (school supplies) and maintenance inventories are stated at cost on a weighted-average basis. Transportation and food service inventories are stated at cost on the first-in, first-out basis, except that United States Department of Agriculture donated foods are stated at their fair value as determined at the time of donation to the District's food service program by the Florida Department of Agriculture and Consumer Services, Bureau of Food Distribution. The costs of inventories are recorded as expenditures when used rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

(5) Capital Assets

Expenditures for capital assets acquired or constructed for general District purposes are reported in the governmental fund that financed the acquisition or construction. The capital assets so acquired are reported at cost in the government-wide statement of net position but

are not reported in the governmental fund financial statements. Capital assets are defined by the District as those costing more than \$1,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated assets are recorded at acquisition value at the date of donation.

Normal maintenance and repair costs that do not materially increase the value of assets or extend the useful lives of assets are not capitalized.

Interest costs incurred during construction of capital assets are not considered material and are not capitalized as part of the cost of construction.

Capital assets of the primary government, excluding land and construction in progress, are depreciated using the straight-line method over the following estimated useful lives:

- --

. . . .

| Estimated Lives |
|-----------------|
| 10 – 40 years |
| 10 – 50 years |
| 3 – 15 years |
| 5 – 10 years |
| 7 – 50 years |
| 3 – 10 years |
| |

Current-year information relative to changes in capital assets is described in note 3.D.

(6) Long-Term Liabilities

. ..

Long-term obligations that will be financed from resources to be received in the future by governmental funds are reported as liabilities in the government-wide statement of net position. Debt premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds and certificates of participation payables are reported net of the applicable premium or discount. Debt issuance costs are expensed in the period incurred. Prepaid insurance is reported separately as a prepaid expense and amortized over the term of the related debt.

In the governmental fund financial statements, debt and other long-term obligations are not recognized as liabilities until due. Governmental fund types recognize debt premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Changes in long-term debt for the current year are reported in note 3.K.(4).

(7) Pensions

In the government-wide statement of net position, liabilities are recognized for the District's proportionate share of each pension plan's net pension liability. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Florida Retirement System (FRS) defined benefit plan and the Health Insurance Subsidy (HIS) defined benefit plan and additions to/deduction from the FRS and the HIS fiduciary net position have been determined on the same basis as they are reported by the FRS and the HIS plans. For this purpose, defined benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

Current-year information relative to the State Retirement Programs is described in note 3.E.

(8) Deferred Outflows / Inflows of Resources

In addition to assets, the statement of net position has a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net assets that applies to future periods and will not be recognized as an outflow of resources (expense/expenditure) until that time. The District has three items that qualify for reporting as deferred outflows of resources, and reported in the government-wide statement of net position. The first item is the net carrying amount of debt refunding. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded debt or new refunding debt. The second and third items are the deferred outflows related to pensions and OPEB. The deferred outflows of resources related to pensions and 3.F.

In addition to liabilities, the statement of net position has a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net assets that applies to future periods and will not be recognized as an inflow of resources (revenue) until that time. The District has three types of items that qualify for reporting in this category on the statement of net position. Deferred amounts from the FRS and HIS pensions and OPEB along with Capital Outlay and Debt Service (CO & DS) qualify for reporting in this category. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. Details on the composition of deferred outflows and inflows related to pensions and OPEB are reported in notes 3.E. and 3.F.

(9) Compensated Absences

The criteria for determining compensated absences (e.g., paid absences for employee vacation and sick leave benefit) liability are derived from Board policy, negotiated agreements and State law. Vacation benefits are accrued as a liability as the benefits are earned if the employee's right to receive compensation is attributable to services already rendered and it is

probable that the employer will compensate the employee for the benefits through paid time off or other means. Sick leave benefits are accrued as a liability using the termination method. The liability is based on sick leave accumulated at year end by those employees who are eligible to receive termination payments and those employees for whom it is probable that they will become eligible to receive termination benefits in the future.

In the government-wide financial statements, compensated absences (i.e., paid absences for employee vacation leave and sick leave) are accrued as liabilities to the extent that it is probable that the benefits will result in termination payments. A liability for these amounts is reported in the governmental fund financial statements only if it has matured, such as for occurrences of employee resignations and retirements. The liability for compensated absences includes salary-related benefits, where applicable.

Changes in compensated absences for the current year are reported in note 3.K.(4).

(10) Net Position Flow Assumption

The District occasionally funds outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. To calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. Consequently, it is the District's policy to consider restricted - net position to have been depleted before unrestricted – net position is applied.

(11) Fund Balance Flow Assumptions

The District may fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). To calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

(12) Fund Balance Policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The District itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification may include amounts that can be used only for the

specific purposes determined by a formal action of the District's highest level of decision-making authority. The Board is the highest level of decision-making authority for the District that can, by adoption of a resolution prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the resolution remains in place until a similar action is taken (the adoption of another resolution) to remove or revise the limitation. The District reported no committed fund balance as of June 30, 2022.

Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as committed. The Board may assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's

appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

G. <u>Revenues</u>

(1) Program Revenues

Amounts reported as program revenues include charges paid by the recipient of the goods or services offered by the program, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than program revenues. Revenues that are not classified as program revenues are presented as general revenues. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

(2) State Revenue Sources

Revenues from State sources for current operations are primarily from the Florida Education Finance Program administered by the FDOE under the provisions of Section 1011.62, Florida Statutes. In accordance with this law, the District determines and reports the number of full-time equivalent (FTE) students and related data to the FDOE. The FDOE performs certain edit checks on the reported number of FTE and related data, and calculates the allocation of funds to the District. The District is permitted to amend its original reporting during specified time periods following the date of the original reporting. Such amendments may impact funding allocations for subsequent years. The FDOE may also adjust subsequent fiscal period allocations based upon an audit of the District's compliance in determining and reporting FTE and related data. Normally, such adjustments are treated as reductions or additions of revenue in the year when the adjustments are made.

The State provides financial assistance to administer certain educational programs. SBE rules

require that revenue earmarked for certain programs be expended only for the program for which the money is provided and require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the same categorical educational programs. The FDOE generally requires that these educational program revenues be accounted for in the General Fund. A portion of the fund balance of the General Fund is restricted in the governmental fund financial statements for the balance of these categorical and earmarked program resources.

The State may allocate gross receipts taxes, generally known as Public Education Capital Outlay money, to the District on an annual basis. The District is authorized to expend these funds only upon applying for and receiving an encumbrance authorization from the Department.

A schedule of revenue from State sources for the current year is presented in note 3.P.(1).

(3) District Property Taxes

The Board is authorized by State law to levy property taxes for District school operations, capital improvements, and debt service.

Property taxes consist of ad valorem taxes on real and personal property within the District. Property values are determined by the Lake County Property Appraiser and property taxes are collected by the Lake County Tax Collector.

The Board adopted the 2019 tax levy on September 9, 2019. Tax bills are mailed by the Lake County Tax Collector's Office in October and taxes are payable between November 1 of the year assessed and March 31 of the following year at discounts of up to 4 percent for early payment.

Taxes become a lien on the property on January 1, and are delinquent on April 1, of the year following the year of assessment. State law provides for enforcement of collection of personal property taxes by seizure of the property to satisfy unpaid taxes, and for enforcement of collection of real property taxes by the sale of interest-bearing tax certificates to satisfy unpaid taxes. The procedures result in the collection of essentially all taxes prior to June 30 of the year following the year of assessment.

Property tax revenues are recognized in the government-wide financial statements when the Board adopts the tax levy. Property tax revenues are budgeted at 96 percent of the levy to account for the potential early payment discounts. Property tax revenues are recognized in the governmental fund financial statements when taxes are received by the District, except that revenue is accrued for taxes collected by the Lake County Tax Collector at fiscal year-end but not yet remitted to the District. Because any delinquent taxes collected after June 30 would not be material, delinquent taxes receivable are not accrued, and no delinquent tax revenue deferral is recorded.

Millages rates and taxes levied for the current year are presented in note 3.P.(2).

(4) Local Sales Tax

On November 6, 2001, the voters of Lake County approved a one-cent discretionary infrastructure sales surtax on sales in Lake County for fifteen years, effective January 1, 2003. This tax is split between Lake County, Lake County School District and Lake County cities. The District uses this tax to pay for the construction of certain educational facilities and other related costs, in accordance with Section 212.055(6), Florida Statutes.

On November 6, 2015, the voters of Lake County approved the continuation of the one-cent discretionary infrastructure sales surtax on sales in Lake County for an additional fifteen years, effective January 1, 2018.

(5) Educational Impact Fees

Lake County imposes an educational impact fee based on an ordinance adopted by the County Commission in 1996. On December 11, 2007, Lake County amended Chapter 22 of the Lake County Code related to Impact Fees. Ordinance 2007-60 amended the County's Impact Fee Schedule. The educational impact fee is collected by the County for most new residential construction. The fees can only be used to acquire, construct, expand, and equip the educational sites and educational capital facilities necessitated by new development, and to pay for certain collection and legal defense costs.

- (1) On April 5, 2011, the Lake County Board of County Commissioners voted to retroactively suspend collection of the school impact fee from January 1, 2011, through April 1, 2012.
- (2) On March 13, 2013, the Lake County Board of County Commissioners voted to extend this suspension through December 31, 2014.
- (3) On October 8, 2013, the Lake County Board of County Commissioners voted to reinstate the Impact fee at 25 percent of the prior rate effective January 13, 2014.
- (4) On December 2, 2014, the Lake County Board of County Commissioners voted to reinstate the Impact fee at 75 percent of the prior rate effective April 6, 2015. However, these funds were to be held until the School Board provided an updated Impact Fee Study.
- (5) On September 29, 2015, the updated Impact Fee Study was presented to the Lake County Board of County Commissioners and the Commissioners voted to increase the impact fee to 100 percent of the rate recommended in the new study effective January 11, 2016.

(6) Voted Additional Millage

In August 2018, the voters of Lake County approved a three-quarter mill ad valorem tax increase in the County for 4 years, effective July 1, 2019, to pay for essential operating expenses in accordance with Section 1011.71(9), Florida Statutes. Revenues will be used to fund school safety and security for all schools, mental health programs, creating a sustainable funding source critical to improving safety, prevention programs and services, and emergency

response.

(7) Federal Revenue Sources

The District receives Federal awards for the enhancement of various educational programs. Federal awards are generally received based on applications submitted to, and approved by, various granting agencies. For Federal awards in which a claim to these grant proceeds is based on incurring eligible expenditures, revenue is recognized to the extent that eligible expenditures have been incurred. The FDOE may require adjustments to subsequent fiscal period expenditures and related revenues based upon an audit of the District's compliance with applicable Federal awards requirements. Normally, such adjustments are treated as reductions of expenditures and related revenues in the fiscal year when the adjustments are made.

(8) Proprietary Funds Operating and Non-Operating Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary funds' principal ongoing operations. The principal operating revenues of the District's internal service funds are charges for services related to employee health insurance premiums. Operating expenses include salaries and benefits, claims expense, and other costs of providing health insurance. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

2. DETAIL NOTES ON ALL ACTIVITIES AND FUNDS

A. Cash Deposits with Financial Institutions

Custodial Credit Risk. In the case of deposits, this is the risk that, in the event of the failure of a depository financial institution, the District will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The District does not have a policy for custodial credit risk. All bank balances of the District are fully insured or collateralized as required by Chapter 280, Florida Statutes.

B. Investments

The District's investments at June 30, 2022, are reported as follows:

| Investments | Maturities | Credit Rating (1) | Fair Value |
|---|--|-------------------------------------|---|
| Florida Public Assets for Liquidity Management (PALM) U.S. Treasury Bills Commercial Paper Money Market Fund | 25 days 62 days 62 days 44 days | AAAm N/A A-1,A-1+,AA+ AAAm | \$ 66,641,473 8,635,430 9,565,191 9,840,412 |

Fair Value Measurement

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset.

| | | Fair Value Measurements Using | | | ng | |

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Section 218.415(7), Florida Statutes, limits investment maturities to provide sufficient liquidity to pay obligations as they come due. The District's investment policy limits the length of investments of bond reserves, construction funds, and other non-operating funds to a maximum of five and one-half years and the investment of current operating funds to no longer than two years.

Florida PRIME and Florida PALM use a weighted average days to maturity (WAM). A portfolio's WAM reflects the average maturity in days based on final maturity or reset date, in the case of floating rate instruments. WAM measures the sensitivity of the portfolio to interest rate changes.

<u>Credit Risk</u>

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Section 218.415(17), Florida Statutes, limits investments to the Local Government Surplus Funds Trust Fund [Florida PRIME], or any intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperation Act as provided in Section 163.01, Florida Statutes; Securities and Exchange Commission registered money market funds with the highest credit quality rating from a nationally recognized rating agency; interest-bearing time deposits or savings accounts in qualified public depositories, as defined in Section 280.02, Florida Statutes; and direct obligations of the United States Treasury.

The District's investment policy authorizes the following investments:

- US Treasuries
- GNMA
- Other US Government Guaranteed Obligations
- Federal Agency Securities (GSE, FNMA, FHLMC, FHLB, FFCB)
- Federal Agency Securities (Other than noted above)
- Corporate Notes, Bonds or other Debt Obligations
- Municipals Bonds
- Agency Mortgage -Backed Securities
- Non-Negotiable Collateralized Bank Deposits or Savings Accounts
- Commercial Paper
- Repurchase Agreements
- Money Market Funds
- Intergovernmental Investment Pools ("LGIP")

Under the Board's investment policy, proceeds from debt issues are allowed to be invested in accordance with the resolutions authorizing the debt issue and approved by the bond insurer.

The District's investments in the SBA debt service accounts are to provide for debt service payments on bond debt issued by the SBE for the benefit of the District. The District relies on policies developed by the SBA for managing interest rate risk and credit risk for this account. Disclosures for the Debt Service Accounts are included in the notes to financial statements of the State's Comprehensive Annual Financial Report.

Custodial Credit Risk

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the District will not be able to recover the value of the investment or collateral securities that are in the possession of an outside party. Pursuant to Section 218.415 (18), Florida

Statutes, the District's investment policy requires securities, with the exception of certificates of deposit, shall be held with a third-party custodian; and all securities purchased by, and all collateral obtained by, the Board should be properly designated as an asset of the Board. The securities must be held in an account separate and apart from the assets of the financial institution. A third-party custodian is defined as any bank depository chartered by the Federal Government, the State of Florida, or any other state or territory of the United States which has a branch or principal place of business in the State of Florida as defined in Section 658.12, Florida Statutes, or by a national association organized and existing under the laws of the United States which is authorized to accept and execute trusts and which is doing business in the State of Florida. Certificates of deposits will be placed in the provider's safekeeping department for the term of the deposit. As of June 30, 2022, the District's investment portfolio was held with a third-party custodian as required by the District's investment policy.

Concentration of Credit Risk

The District's investment policy has established asset allocation and issuer limits in the investment of available funds, i.e., cash and investments funds, which are designed to reduce the concentration of credit risk of the District's investment portfolio as follows:

- US Treasuries 100%
- GNMA 100%
 - o 40% limit on individual issuers
- Other US Government Guaranteed Obligations 100%
 - o 10% limit in individual issuers
- Federal Agency Securities (GSE, FNMA, FHLMC, FHLB, FFCB) 75%
 - 40% limit in individual issuers
- Federal Agency Securities (Other than noted above) 75%
 - 10% limit in individual issuers
- Corporate Notes, Bonds or other Debt Obligations 35%
 - 5% limit in individual issuers
- Municipals Bonds 25%
 - 5% limit in individual issuers
- Agency Mortgage -Backed Securities 25%
 - 40% limit in individual issuers
- Non-Negotiable Collateralized Bank Deposits or Savings Accounts 50%
- Commercial Paper 35%
 - 5% limit in individual issuers
- Repurchase Agreements 40%
 - o 20% limit in individual issuers
- Money Market Funds 75%
 - 50% limit in individual issuers
- Intergovernmental Investment Pools ("LGIP") 75%
 - o 50% limit in individual issuers

Foreign Currency Risk

The District's investment policy does not allow for investments in foreign currency; therefore, the District has no exposure to foreign currency risk.

C. Receivables

The majority of receivables are due from other agencies. These receivables and the remaining accounts receivable are considered to be fully collectible. As such, no allowance for uncollectible accounts receivable is accrued.

D. Changes in Capital Assets

Changes in capital assets are presented in the table as follows:

| | Beginning Balance June 30, 2021 | Additions | Deletions | Ending Balance June 30, 2022 |
|---|--|--|--|--|
| GOVERNMENTAL ACTIVITIES | · · · · | | | <u>.</u> |

| Total Capital Assets Not Being Depreciated | 63,297,377 | 16,201,820 | 61,000 | 79,438,197 |

E. Retirement Plans

1. FRS – Defined Benefit Plans

General Information about the FRS

The FRS was created in Chapter 121, Florida Statutes, to provide a defined benefit pension plan for participating public employees. The FRS was amended in 1998 to add the Deferred Retirement Option Program (DROP) under the defined benefit plan and amended in 2000 to provide a defined contribution plan alternative to the defined benefit plan for FRS members effective July 1, 2002. This integrated defined contribution pension plan is the FRS Investment Plan. Chapter 112, Florida Statutes, established the Retiree HIS Program, a cost-sharing multiple-employer defined benefit pension plan to assist retired members of any State-administered retirement system in paying the costs of health insurance.

Essentially all regular employees of the District are eligible to enroll as members of the Stateadministered FRS. Provisions relating to the FRS are established by Chapters 121 and 122. Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and FRS Rules, Chapter 60S, Florida Administrative Code; wherein eligibility, contributions, and benefits are defined and described in detail. Such provisions may be amended at any time by further action from the Florida Legislature. The FRS is a single retirement system administered by the Florida Department of Management Services, Division of Retirement, and consists of the two cost-sharing multiple-employer defined benefit plans and other nonintegrated programs. A comprehensive annual financial report of the FRS, which includes its financial statements, required supplementary information, actuarial report, and other relevant information, is available from the Florida Department of Management Services Web site (www.dms.myflorida.com).

The District's FRS and HIS pension expense totaled \$6,005,543 for the fiscal year ended June 30, 2022.

FRS Pension Plan

<u>Plan Description</u>. The FRS Pension Plan (Plan) is a cost-sharing multiple-employer defined benefit pension plan, with a DROP for eligible employees. The general classes of membership are as follows:

- 1. Regular Members of the FRS who do not qualify for membership in the other classes.
- Elected County Officers Members who hold specified elective offices in local government.
- 3. Senior Management Service Members in senior management level positions.

Employees enrolled in the Plan prior to July 1, 2011, vest at 6 years of creditable service and employees enrolled in the Plan on or after July 1, 2011, vest at eight years of creditable

service. All vested members, enrolled prior to July 1, 2011, are eligible for normal retirement benefits at age 62 or at any age after 30 years of service. All members enrolled in the Plan on or after July 1, 2011, once vested, are eligible for normal retirement benefits at age 65 or any time after 33 years of creditable service. Employees enrolled in the Plan may include up to 4 years of credit for military service toward creditable service. The Plan also includes an early retirement provision; however, there is a benefit reduction for each year a member retires before his or her normal retirement date. The Plan provides retirement, disability, death benefits, and annual cost-of-living adjustments to eligible participants.

DROP, subject to provisions of Section 121.091, Florida Statutes, permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payments while continuing employment with an FRS employer. An employee may participate in DROP for a period not to exceed 60 months after electing to participate, except that certain instructional personnel may participate for up to 96 months. During the period of DROP participation, deferred monthly benefits are held in the FRS Trust Fund and accrue interest. The net pension liability does not include amounts for DROP participants, as these members are considered retired and are not accruing additional pension benefits.

Benefits Provided. Benefits under the Plan are computed on the basis of age and/or years of service, average final compensation, and service credit. Credit for each year of service is expressed as a percentage of the average final compensation. For members initially enrolled before July 1, 2011, the average final compensation is the average of the 5 highest fiscal years' earnings; for members initially enrolled on or after July 1, 2011, the average final compensation is the average final compensation or after July 1, 2011, the average final compensation is the average of the 8 highest fiscal years' earnings. The total percentage value of the benefit received is determined by calculating the total value of all service, which is based on the retirement class to which the member belonged when the service credit was earned. Members are eligible for in-line-of-duty or regular disability and survivors' benefits. The following chart shows the percentage value for each year of service credit earned:

| Class, Initial Enrollment and Retirement Age/Years of Service | Percent Value |
|---|---------------|
| Regular members initially enrolled before July 1, 2011 | |
| Retirement up to age 62 or up to 30 years of service | 1.60 |
| Retirement at age 63 or with 31 years of service | 1.63 |
| Retirement at age 64 or with 32 years of service | 1.65 |
| Retirement at age 65 or with 33 or more years of service | 1.68 |
| Regular members initially enrolled on or after July 1, 2011 | |
| Retirement up to age 65 or up to 33 years of service | 1.60 |
| Retirement at age 66 or with 34 years of service | 1.63 |
| Retirement at age 67 or with 35 years of service | 1.65 |
| Retirement at age 68 or with 36 or more years of service | 1.68 |
| Elected County Officers | 3.00 |
| Senior Management Service | 2.00 |

As provided in Section 121.101, Florida Statutes, if the member is initially enrolled in the FRS before July 1, 2011, and all service credit was accrued before July 1, 2011, the annual cost-of-living adjustment is 3 percent per year. If the member is initially enrolled before July 1, 2011, and has service credit on or after July 1, 2011, there is an individually calculated cost-of-living adjustment. The annual cost-of-living adjustment is a proportion of 3 percent determined by dividing the sum of the pre-July 2011 service credit by the total service credit at retirement multiplied by 3 percent. Plan members initially enrolled on or after July 1, 2011, will not have a cost-of-living adjustment after retirement.

<u>Contributions</u>. The Florida Legislature establishes contribution rates for participating employers and employees. Contribution rates during the 2021-22 fiscal year were as follows:

| | Percent of Gross Sal | | | |
|---------------------------------------|----------------------|--------------|--|--|
| <u>Class</u> | Employee | Employer (1) | | |
| FRS, Regular | 3.00 | 10.82 | | |
| FRS, Elected County Officers | 3.00 | 51.42 | | |
| FRS, Senior Management Service | 3.00 | 29.01 | | |
| DROP – Applicable to | 0.00 | 18.34 | | |
| Members from All of the Above Classes | 0.00 | 10.54 | | |
| FRS, Reemployed Retiree | (2) | (2) | | |

(1) Employer rates include 1.66 percent for the postemployment health insurance subsidy. Also, employer rates, other than for DROP participants, include 0.06 percent for administrative costs of the Investment Plan.

(2) Contribution rates are dependent upon retirement class in which reemployed.

The District's contributions totaled \$18,917,388 for the fiscal year ended June 30, 2022.

Pension Liabilities. Pension Expense. and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At June 30, 2022, the District reported a liability of \$33,092,376 for its proportionate share of the Plan's net pension liability. The net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2021. The District's proportionate share of the net pension liability was based on the District's 2020-21 fiscal year contributions relative to the total 2020-21 fiscal year contributions of all participating members. At June 30, 2021, the District's proportionate share was .0484130090 percent, which was an increase of 0.000044174285 from its proportionate share measured as of June 30, 2020.

For the fiscal year ended June 30, 2022, the District recognized the Plan pension expense of \$986,639. In addition, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| Description | Deferred Outflows of Resources | | | | ferred Inflows of Resources |
|---|-----------------------------------|------------|-------------------|--|------------------------------------|
| Differences Between Expected and | | | | | |
| Actual Experience | \$ | 5,672,087 | \$ | | |
| Change of Assumptions | | 22,643,445 | - | | |
| Net Difference Between Projected and Actual Earnings on FRS Pension Plan Investments | | | 115,450,984 | | |
| Changes in Proportion and Differences Between | | | 110,100,001 | | |

| the Measurement Date | | 18,917,388 | - | | |
| Total | \$ | 57,729,864 | \$ 118,606,722 | | |

The deferred outflows of resources related to pensions resulting from District contributions to the Plan subsequent to the measurement date, totaling \$18,917,388 will be recognized as a reduction of the net pension liability in the fiscal year ending June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| Fiscal Year Ending June 30 | Amount |
|----------------------------|-----------------|
| 2022 | \$ (5,044,741) |
| 2023 | (18,540,277) |
| 2024 | (24,989,754) |
| 2025 | (31,418,782) |
| 2026 | 383,122 |
| Thereafter | (183,814) |
| Total | \$ (79,794,246) |

<u>Actuarial Assumptions</u>. The total pension liability in the July 1, 2021, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| Inflation | 2.40 percent |
|---------------------------|--|
| Salary Increases | 3.25 percent, average, including inflation |
| Investment Rate of Return | 6.80 percent, net of pension plan investment |
| | expense including inflation |

Mortality rates were based on the PUB-2010 base table, projected generationally with Scale MP 2018.

The actuarial assumptions used in the July 1, 2021, valuation were based on the results of an actuarial experience study for the period July 1, 2013, through June 30, 2018.

The long-term expected rate of return on pension plan investments was not based on historical returns, but instead is based on a forward-looking capital market economic model. The allocation policy's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions and includes an adjustment for the inflation assumption. The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

| Asset Class | Target Allocation (1) | Annual Arithmetic Return | Annual (Geometric) Return | Standard Deviation |
|--------------------------|--------------------------|--------------------------------|---------------------------------|-----------------------|
| | | | | |
| Cash | 1.0% | 2.1% | 2.1% | 1.1% |
| Fixed Income | 20.0% | 3.8% | 3.7% | 3.3% |
| Global Equity | 54.2% | 8.2% | 6.7% | 17.8% |
| Real Estate (Property) | 10.3% | 7.1% | 6.2% | 13.8% |
| Private Equity | 10.8% | 11.7% | 8.5% | 26.4% |
| Strategic Investments | 3.7% | 5.7% | 5.4% | 8.4% |
| Total | 100% | | | |
| Assumed Inflation - Mean | | | 2.4% | 1.2% |

Note: (1) As outlined in the Plan's investment policy.

Discount Rate. The discount rate used to measure the total pension liability was 6.8 percent. The Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return.

Sensitivity of the District's Proportionate Share of the Net Position Liability to Changes in the Discount Rate. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 6.8 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (5.8 percent) or 1 percentage point higher (7.8 percent) than the current rate:

| | 1% | Current | 1% |
|---|----------------|---------------|----------------|
| | Decrease | Discount Rate | Increase |
| | [5.8%] | (6.8%) | (7.8%) |
| District's Proportionate Share of the Net Pension Liability | \$ 147,991,324 | \$ 33,092,376 | \$(62,950,261) |

FRS Pension Plan Fiduciary Net Position. Detailed information about the Plan's fiduciary net position is available in the separately issued FRS Pension Plan and Other State Administered Systems Comprehensive Annual Financial Report.

<u>HIS Pension Plan</u>

Plan Description. The HIS Pension Plan (HIS Plan) is a cost-sharing multiple-employer defined benefit pension plan established under Section 112.363, Florida Statutes, and may be amended by the Florida Legislature at any time. The benefit is a monthly payment to assist retirees of State-administered retirement systems in paying their health insurance costs and is administered by the Florida Department of Management Services, Division of Retirement.

Benefits Provided. For the fiscal year ended June 30, 2022, eligible retirees and beneficiaries received a monthly HIS payment of \$5 for each year of creditable service completed at the time of retirement, with a minimum HIS payment of \$30 and a maximum HIS payment of \$150 per month, pursuant to Section 112.363, Florida Statutes. To be eligible to receive a HIS Plan benefit, a retiree under a State-administered retirement system must provide proof of health insurance coverage, which may include Federal Medicare.

Contributions. The HIS Plan is funded by required contributions from FRS participating employers as set by the Florida Legislature. Employer contributions are a percentage of gross compensation for all active FRS members. For the fiscal year ended June 30, 2022, the contribution rate was 1.66 percent of payroll pursuant to Section 112.363, Florida Statutes. The District contributed 100 percent of its statutorily required contributions for the current and preceding 3 years. HIS Plan contributions are deposited in a separate trust fund from which payments are authorized. HIS Plan benefits are not guaranteed and are subject to annual legislative appropriation. In the event the legislative appropriation or available funds fail to provide full subsidy benefits to all participants, benefits may be reduced or canceled.

The District's contributions to the HIS Plan totaled \$3,554,346 for the fiscal year ended June 30, 2022.

Pension Liabilities. Pension Expense. and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At June 30, 2022, the District reported a net pension liability of \$71,404,804 for its proportionate share of the HIS Plan's net pension liability. The current portion of the net pension liability is the District's proportionate share of benefit payments expected to be paid within 1 year, net of the District's proportionate share of the HIS Plan's fiduciary net position available to pay that amount. The net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2020, and update procedures were used to determine liabilities as of June 30, 2021. The District's proportionate share of the net pension liability was based on the District's 2020-21 fiscal year contributions relative to the total 2020-21 fiscal year contributions of all participating members. At June 30, 2021, the District's proportionate share was 0.0643294584 percent, which was an increase of 0.00003771871 from its proportionate share measured as of June 30, 2020.

For the fiscal year ended June 30, 2022, the District recognized the HIS Plan pension expense of \$5,018,904. In addition, the District reported deferred outflows of resources and deferred

inflows of resources related to pensions from the following sources:

| Description | Deferred Outflows of Resources | | | | erred Inflows Resources |
|---|-----------------------------------|------------|----|-----------|----------------------------|
| Differences Between Expected and | | | | | |
| Actual Experience | \$ | 2,389,385 | \$ | 29,907 | |
| Change of Assumptions | | 5,610,819 | | 2,942,060 | |
| Net Difference Between Projected and Actual | | | | | |
| Earnings on HIS Pension Plan Investments | | 74,438 | | - | |
| Changes in Proportion and Differences Between | | | | | |
| District FRS Contributions and Proportionate | | | | | |
| Share of Contributions | | 776,724 | | 1,736,449 | |
| District Contributions Subsequent to | | | | | |
| the Measurement Date | | 3,554,346 | | - | |
| Total | \$ | 12,405,712 | \$ | 4,708,416 | |

The deferred outflows of resources related to pensions resulting from District contributions to the HIS Plan subsequent to the measurement date, totaling \$3,554,346 will be recognized as a reduction of the net pension liability in the fiscal year ending June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| Fiscal Year Ending June 30 | Amount | |
|----------------------------|--------|-----------|
| 2022 | \$ | 1,725,314 |
| 2023 | | 350,431 |
| 2024 | | 400,513 |
| 2025 | | 110,385 |
| 2026 | | 1,097,564 |
| Thereafter | | 458,743 |
| Total | \$ | 4,142,950 |

<u>Actuarial Assumptions</u>. The total pension liability in the July 1, 2020, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| Inflation | 2.40 percent |
|---------------------|--|
| Salary Increases | 3.25 percent, average, including inflation |
| Municipal Bond Rate | 2.16 percent |

Mortality rates were based on the Generational PUB-2010 with Projected Scale MP-2018.

While an experience study had not been completed for the HIS Plan, the actuarial assumptions that determined the total pension liability for the HIS Plan were based on certain results of the most recent experience study for the FRS Plan.

Discount Rate. The discount rate used to measure the total pension liability was 2.16 percent. In general, the discount rate for calculating the total pension liability is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS benefit is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate, and the single equivalent discount rate is equal to the municipal bond rate selected by the HIS Plan sponsor. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index. The discount rate changed from 2.21 percent to 2.16 percent.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 2.16 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (1.16 percent) or 1 percentage point higher (3.16 percent) than the current rate:

| | 1% Decrease (1.16%) | Disco | urrent ount Rate 2.16%) | 1% Increase (3.16%) |
|--|-------------------------------|-------|-------------------------------|-------------------------------|
| District's Proportionate Share of the Net Pension Liability | \$ 82,550,870 | \$71 | 1,404,804 | \$ 62,273,095 |

Pension Plan Fiduciary Net Position. Detailed information about the HIS Plan's fiduciary net position is available in the separately issued FRS Pension Plan and Other State Administered Systems Comprehensive Annual Financial Report.

2. FRS – Defined Contribution Pension Plan

The District contributes to the FRS Investment Plan (Investment Plan), a defined contribution pension plan, for its eligible employees electing to participate in the Investment Plan. The Investment Plan is administered by the SBA, and is reported in the SBA's annual financial statements and in the State of Florida Comprehensive Annual Financial Report.

As provided in Section 121.4501, Florida Statutes, eligible FRS members may elect to participate in the Investment Plan in lieu of the FRS defined benefit plan. District employees participating in DROP are not eligible to participate in the Investment Plan. Employer and employee contributions, including amounts contributed to individual member's accounts, are defined by law, but the ultimate benefit depends in part on the performance of investment funds. Retirement benefits are based upon the value of the member's account upon retirement. Benefit terms, including contribution requirements, for the Investment Plan are established and may be amended by the Florida Legislature. The Investment Plan is funded with the same

employer and employee contribution rates that are based on salary and membership class (Regular, Elected County Officers, etc.), as the FRS defined benefit plan. Contributions are directed to individual member accounts, and the individual members allocate contributions and account balances among various approved investment choices. Costs of administering the Investment Plan, including the FRS Financial Guidance Program, are funded through an employer contribution of 0.06 percent of payroll and by forfeited benefits of Investment Plan members. Allocations to the Investment Plan member accounts during the 2021-2022 fiscal year were as follows:

| | Gross |
|--------------------------------|--------------|
| <u>Class</u> | Compensation |
| FRS, Regular | 6.30% |
| FRS, Elected County Officers | 11.34% |
| FRS, Senior Management Service | 7.67% |

For all membership classes, employees are immediately vested in their own contributions and are vested after one year of service for employer contributions and investment earnings, regardless of membership class. If an accumulated benefit obligation for service credit originally earned under the FRS Pension Plan is transferred to the Investment Plan, the member must have the years of service required for FRS Pension Plan vesting (including the service credit represented by the transferred funds) to be vested for these funds and the earnings on the funds. Nonvested employer contributions are placed in a suspense account for up to five years. If the employee returns to FRS-covered employment within the 5-year period, the employee will regain control over their account. If the employee does not return within the 5-year period, the amount of forfeitures was unavailable from the SBA; however, management believes that these amounts, if any, would be immaterial to the District.

After termination and applying to receive benefits, the member may rollover vested funds to another qualified plan, structure a periodic payment under the Investment Plan, receive a lump-sum distribution, leave the funds invested for future distribution, or any combination of these options. Disability coverage is provided in which the member may either transfer the account balance to the FRS Pension Plan when approved for disability retirement to receive guaranteed lifetime monthly benefits under the FRS Pension Plan or remain in the Investment Plan and rely upon that account balance for retirement income.

The District's Investment Plan pension expense totaled \$5,018,904 for the fiscal year ended June 30, 2022.

F. Other Postemployment Benefit Plan – OPEB Plan

<u>Plan Description</u>. The Other Postemployment Benefits Plan (OPEB Plan) is a single-employer defined benefit plan administered by the District that provides OPEB for all employees who satisfy the District's retirement eligibility provisions. Pursuant to Section 112.0801, Florida Statutes, former

employees who retire from the District are eligible to participate in the District's self-insured health and hospitalization plan for medical and prescription drug coverages. Retirees and their eligible dependents shall be offered the same health and hospitalization insurance coverage as is offered to active employees at a premium cost of no more than the premium cost applicable to active employees. The District subsidizes the premium rates paid by retirees by allowing them to participate in the OPEB Plan at reduced or blended group (implicitly subsidized) premium rates for both active and retired employees. These rates provide an implicit subsidy for retirees because retiree healthcare costs are generally greater than active employee healthcare costs. The OPEB Plan contribution requirements and benefit terms of the District and the OPEB Plan members are established and may be amended through recommendations of the Insurance Committee and action from the Board. No assets are accumulated in a trust that meet the criteria in paragraph 4 of GASB Statement No. 75.

<u>Benefits Provided</u>. The OPEB Plan provides healthcare benefits for retirees and their dependents. The OPEB Plan only provides an implicit subsidy as described above.

Employees Covered by Benefit Terms. At June 30, 2021, the following employees were covered by the benefit terms:

| Inactive Employees or Beneficiaries Currently Receiving Benefits | 141 |
|--|-------|
| Active Employees | 4,946 |
| Total | 5,087 |

<u>**Total OPEB Liability</u>**. The District's total OPEB liability of \$14,742,611 was measured as of June 30, 2021, and was determined by an actuarial valuation as of June 30, 2021.</u>

Actuarial Assumptions and Other Inputs. The total OPEB liability was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

| Inflation | 2.25 percent |
|--------------------------------|--|
| Salary Increases | 3.4 – 7.8 percent, average, including inflation |
| Discount Rate | 1.92 percent |
| Healthcare Cost Trend Rates | Based on the Getzen Model, with trend starting at 6.0 percent for 2022, decreasing to 5.75 percent for 2023 and gradually decreasing to an ultimate rate of 3.99 percent. |
| Aging Factors | Based on the 2013 SOA Study "Health Care Costs – From Birth to Death." |
| Expenses | Administrative expenses are included in the per capita health costs. |

The discount rate was based on the daily rate of Fidelity's 20-Year Municipal General Obligation AA Index closest to but not later than the measurement date.

Demographic assumptions employed in the actuarial valuation were the same as those employed in the July 1, 2021, actuarial valuation of the FRS Defined Benefit Pension Plan. These demographic assumptions were developed by FRS from an actuarial experience study, and therefore are appropriate for use in the OPEB Plan actuarial valuation. These include assumed rates of future termination, mortality, disability, and retirement. In addition, salary increase assumptions (for development of the pattern of the normal cost increases) were the same as those used in the July 1, 2020, actuarial valuation of the FRS Defined Benefit Pension Plan. Assumptions used in valuation of benefits for participants of the FRS Investment Plan are the same as for similarly situated participants of the FRS Defined Benefit Pension Plan.

Changes in the Total OPEB Liability.

| | Amount |
|--|------------------|
| Balance at June 30, 2021 | \$ 17,888,069 |
| Changes for the year: | |
| Service Cost | 1,397,754 |
| Interest | 455,235 |
| Differences Between Expected and Actual Experience | (273,070) |

| Benefit Payments | (1,409,672) |
| Net Changes | (3,145,458) |
| Balance at June 30, 2022 | \$ 14,742,611 |

The changes of assumptions or other inputs was based on the following:

- The discount rate decreased from 2.45 percent as of the previous measurement date to 1.92 percent as of June 30, 2021.
- Changes in demographic assumptions developed in a statewide experience study conducted by the FRS covering the period 2013 through 2018 and adopted for its July 1, 2021, valuation.
- The assumed load to model the expected cost of the excise tax was removed, as the excise tax no longer applies.
- The ultimate inflation rate was not changed from 2.25 percent and the long-term healthcare cost trend assumption reflects this rate.
- The medical initial cost and premium assumptions were updated based on claim and premium information provided for the valuation.
- The health coverage acceptance assumption was lowered from 45% to 40% based on experience.
- The long-term healthcare cost trend assumption was lowered from 3.99% in the prior valuation to 3.75% in current year.

<u>Sensitivity of the Total OPEB Liability to Changes in the Discount Rate</u>. The following table presents the total OPEB liability of the District, as well as what the District's total OPEB liability would

be if it were calculated using a discount rate that is 1 percentage point lower (0.92 percent) or 1 percentage point higher (2.92 percent) than the current rate:

| | 1% Decrease | Current Discount Rate | 1% Increase |

I. Risk Management Programs

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Workers' compensation, automobile liability, general liability, school board legal liability, and law enforcement liability are being provided on a self-insured basis up to specified limits. The District has entered into agreements with two insurance companies to provide specific excess coverage of claim amounts above the stated amount on an individual claim basis, and aggregate excess coverage when total claim minus specific excess coverage exceeds the loss fund established annually by the District. The District has contracted with an insurance administrator to administer these self-insurance programs, including the processing, investigating, and payment of claims.

On July 1, 2004, the District entered a participation agreement with 5 school districts to purchase property insurance coverage through the Preferred Government Insurance Trust (PGIT). Under this agreement, the District shares \$240,000,000 of coverage on a per occurrence basis with a \$25,000 deductible for all other perils excluding wind damage from a named storm. The deductible for a named storm is 2 percent of the Total Insured Value, per location, subject to a minimum of \$35,000 deductible per occurrence.

Life insurance coverage is being provided through purchased commercial insurance.

Settled claims resulting from these risks have not exceeded commercial coverage in any of the past three fiscal years.

The District provides health and hospitalization under a self-funded program administered through a commercial provider. By utilizing a self-funded model, the District assumes the claims risk directly and uses a purchased stop-loss policy to mitigate those risks. The stop-loss policy covers any individual claim over \$325,000, with an aggregate stop-loss of \$2,000,000. The District had 11 claims in excess of the stop-loss limit of \$325,000 in the prior three years. The stop-loss insurer for the 2018 year covered the claims directly and did not require the District to pay the claims and then be reimbursed. However, the District changed excess insurers in 2019 and, for 2019 and 2020, the District paid the claims and sought reimbursement from the excess insurer.

Additionally, the District has entered into a contract with CareHere, LLC, to operate 4 health and wellness centers. Employees who have district health insurance may see a doctor free of charge and may receive stocked generic medicines free of charge.

A liability in the amount of \$838,122 was determined to cover outstanding claims and estimated incurred, but not reported, insurance claims payable for the Worker's Compensation Fund, at June 30, 2022.

Funding levels for the program and the run-out claims were actuarially determined. The District filed the required certification to the Office of Insurance Regulation which included a statement prepared by an actuary who is a member of the Society of Actuaries or the American Academy of Actuaries as to the actuarial soundness of the plan. The District reports the self-funded program in the Internal Service Funds. Amounts are charged to various funds to provide sufficient

resources to cover claims incurred, to pay for the purchase of excess insurance, and to pay the insurance services agent's administrative fees. The following schedule represents the changes in claims liability for the past 2 fiscal years for the District's Self-Insured Health Insurance Fund:

K. Long-Term Liabilities

(1) Certificates of Participation

The District entered into a financing arrangement on July 1, 1998, which was characterized as a lease-purchase agreement, with the Financing Corporation for the School Board of Lake County, Florida, Inc. (Financing Corporation), a blended component unit as described in note 1, whereby the District secured financing of various educational facilities in the total amount of \$337,005,000. The financing was accomplished through the issuance of Certificates of Participation, Series 1998 for \$71,355,000; Series 2002 for \$65,155,000; Series 2003 for \$29,515,000; Series 2004A for \$29,025,000; Series 2005A for \$64,240,000; and Series 2006A for \$77,715,000, to be repaid from the proceeds of rents paid by the District.

As a condition of the financing arrangement, the District has given ground leases on District property to the Financing Corporation, with a rental fee of \$10 per year. The initial term of the Series 1998 lease is 30 years commencing on July 1, 1998. The Series 2002, 2003, 2004A, 2005A, and 2006A leases each have an initial term of 25 years commencing on July 1, 2002, February 1, 2003, September 1, 2004, July 28, 2005, and December 1, 2006, respectively. The properties covered by the ground leases are, together with the improvements constructed thereon from the financing proceeds, leased back to the District. If the District fails to renew the lease and to provide for the rent payments through to term, the District may be required to surrender the sites included under the Ground Lease Agreement for the benefit of the securers of the certificates for a period of time specified by the arrangement which may be up to 30 years from the date of the inception of the arrangement.

Certificates of participation payable at June 30, 2022, are as follows:

State School Bonds

These bonds are issued by the SBE on behalf of the District. The bonds mature serially, and are secured by a pledge of the District's portion of the State-assessed motor vehicle license tax. The State's full faith and credit is also pledged as security for these SBE bonds. Principal and interest payments, investment of debt service fund resources, amortization of any premium or discounts, compliance with reserve requirements, and any refundings are administered by and the responsibility of the SBE and the SBA.

(3) Defeased Debt

<u>Refunding Certificates of Participation</u>. On March 3, 2022 the District issued Refunding Certificates of Participation, Series 2022A, to advance refund the District's Certificates of Participation Series 2021A.

The \$24,100,000 principal amount of the District's Certificates of Participation, Series 2021A, was considered defeased in substance and the liability was removed from the government-wide financial statements as of June 30, 2022.

The Certificates of Participation Series 2022A was issued to reduce the total debt service payments over the next 7 years by \$294,564 to obtain an economic gain (difference between the present value of the debt service payments on the old and new debt) of \$257,069.

For the governmental activities, compensated absences, pension liabilities and other postemployment liabilities are generally liquidated with resources of the General Fund. There are no long-term liabilities associated with the business-type activities.

L. <u>Net Position – Net Investment in Capital Assets</u>

In the government-wide statement of net position, the difference between total assets and total liabilities is net position. Generally accepted accounting principles require that net position be subdivided into the following three components: Net investment in capital assets, restricted net position, and unrestricted net position. The composition of net investment in capital assets as of June 30, 2022, is shown in the table below:

| Description | | <u>Amount</u> |

In addition to committed and assigned fund balance categories discussed in the Fund Balance Policies in note 1.F.(12), fund balances may be classified as follows:

- <u>Nonspendable Fund Balance</u>. Nonspendable fund balance is the net current financial resources that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. Generally, not in spendable form means that an item is not expected to be converted to cash.
- <u>Restricted Fund Balance</u>. Restricted fund balance is the portion of fund balance on which constraints have been placed by creditors, grantors, contributors, laws or regulations of other governments, constitutional provisions, or enabling legislation. Restricted fund balance places the most binding level of constraint on the use of fund balance.
- <u>Unassigned Fund Balance</u>. The unassigned fund balance is the portion of fund balance that is the residual classification for the General Fund. This balance represents amounts that have not been assigned to other funds and that have not been restricted, committed, or assigned for specific purposes.

The interfund receivables and payables represent the payment of expenditures by one fund for another fund and will be repaid within 12 months. In general, the General Fund advances funds to the Special Revenue – Other Federal Programs Fund for funding sources that are received by the District as a reimbursement of expenditures.

O. Donor-Restricted Endowments

During the 2003-04 fiscal year the District became the administrator of the Lester J. Bodley Trust Fund in the amount of \$200,000. The terms of the Trust require that the income of the Trust be divided equally between a graduating male and female student from Leesburg High School. These students, who in the sole judgment of the School Board, shall have made the most overall personal improvement during the four years of his or her high

school career. The gifts from the Trust each year are to be given on a one-time basis. The Trust is reported as a Private-Purpose Trust Fund in the District's basic financial statements. Any earnings received on the Private-Purpose Trust Fund investments are earnings that are held in a fiduciary capacity and are not available for general appropriation.

The principal purposes of interfund transfers are the provision of funds for repayment of debt service principal and interest and the funding of certain maintenance costs.

R. DISCLOSURE OF SIGNIFICANT CONTINGENCIES

Litigation and Contingencies

The District is subject to potential litigation in the normal course of business. It is the opinion of management, after giving consideration to the District's related insurance coverage, as well as the Florida statutory limitations on governmental liability on uninsured risks, that the amount of losses resulting from litigation, which exceed the above-mentioned limits, would not be material to the financial position of the District.

Amounts received or receivable from grantors are subject to audit and adjustment by grantor agencies, principally the Federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures, which may be disallowed by grantors, cannot be determined at this time. In the opinion of the management of the District, no material refunds will be required as a result of expenditures disallowed by grantors.

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION

DISTRICT SCHOOL BOARD OF LAKE COUNTY, FLORIDA NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION JUNE 30, 2022

1. Budgetary Basis of Accounting

The Board follows procedures established by State statutes and State Board of Education (SBE) rules in establishing budget balances for governmental funds, as described below:

- Budgets are prepared, public hearings are held, and original budgets are adopted annually for all governmental fund types in accordance with procedures and time intervals prescribed by law and SBE rules.
- Appropriations are controlled at the object level (e.g., salaries, purchased services, and capital outlay) within each activity (e.g., instruction, student transportation services, and school administration) and may be amended by resolution at any Board meeting prior to the due date for the annual financial report.
- Budgets are prepared using the same modified accrual basis as is used to account for governmental funds.
- Budgetary information is integrated into the accounting system and, to facilitate budget control, budget balances are encumbered when purchase orders are issued. Appropriations lapse at fiscal year-end and encumbrances outstanding are honored from the subsequent year's appropriations.

2. Schedule of Changes in the District's Total Other Postemployment Benefits Liability and Related Ratios

No assets are accumulated in a trust that meet the criteria in paragraph 4 of GASB Statement No. 75 to pay related benefits. The June 30, 2022, total OPEB liability increased/decreased from the prior fiscal year as a result of changes to assumptions as discussed below:

- The discount rate was changed from 2.45 percent as of the beginning of the measurement period to 1.92 percent as of June 30, 2022.
- The medical claims cost and premiums were updated based on actual premium information provided for the valuation.
- The healthcare cost trend assumption remained consistent for the long-term inflation assumption from prior year at 2.25 percent.

DISTRICT SCHOOL BOARD OF LAKE COUNTY, FLORIDA NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION JUNE 30, 2022

3. Schedule of Net Pension Liability and Schedule of Contributions – Florida Retirement System Pension Plan

Changes of Assumptions. In 2021, the long-term expected rate of return remained consistent from prior year at 6.8 percent.

4. Schedule of Net Pension Liability and Schedule of Contributions – Health Insurance Subsidy Pension Plan

Changes of Assumptions. In 2021, the municipal bond rate used to determine total pension liability was decreased from 2.21 percent to 2.16 percent, and the mortality assumption was updated.

Note: Property Taxes become due and payable on November 1st of each year. A four percent (4%) discount is allowed if taxes are paid in November, with the discounts declining by one percent (1%) each month thereafter. Accordingly, taxes collected will never be 100% of the tax levy. Taxes become delinquent on April 1st of each year and tax certificates for the full amount of any unpaid taxes and assessments must be sold not later than June 1st of each year. Accordingly, a majority of taxes are collected in the fiscal year levied.

- Notes: (1) <u>Basis of Presentation</u>. The accompanying Schedule of Expenditures of Federal Awards (Schedule) includes the Federal award activity of the Lake County District School Board under programs of the Federal government for the fiscal year ended June 30, 2022. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position or cash flows of the District.
 - (2) <u>Summary of Significant Accounting Policies</u>. Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

(3) Indirect Cost Rate. The District has not elected to use the 10 percent de minimis cost rate allowed under the Uniform Guidance.

(4) <u>Noncash Assistance-National School Lunch Program</u>. Includes \$2,084,580 of donated food received during the fiscal year. Donated foods are valued at fair value as determined at the time of donation.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

District School Board of Lake County, Florida and Superintendent Tavares, Florida

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the District School Board of Lake County, Florida (the District) as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's financial statements and have issued our report thereon dated December 19, 2022.

Our report includes a reference to other auditors, who audited the financial statements of the aggregate discretely presented component units, as described in our report on the District's financial statements. This report does not include the results of the other auditor's testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control weakness, yet important enough to merit attention by those charged with governance.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under *Government Auditing Standards*.

The District's response to the schedule of findings and questioned costs comment identified in our audit is included in that report. We did not audit the District's response and, accordingly, we express no opinion on it.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

MANAGEMENT LETTER

District School Board of Lake County, Florida and Superintendent Tavares, Florida

Report on the Financial Statements

We have audited the financial statements of the District School Board of Lake County, Florida (the District) as of and for the fiscal year ended June 30, 2022, and have issued our report thereon dated December 19, 2022. Our report includes a reference to other auditors. Other auditors audited the financial statements of the aggregate discretely presented component units, as described in our report on the District's financial statements. This letter does not include the results of the other auditors, and such information related to those audits is reported on separately by those auditors.

Auditor's Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards* (Uniform Guidance); and Chapter 10.800, *Rules of the Auditor General*.

Other Reporting Requirements

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards*, Independent Auditor's Report on Compliance for Each Major Federal Program, Report on Internal Control over Compliance Required by the Uniform Guidance, Schedule of Findings and Questioned Costs, and our Independent Accountant's Report on an examination conducted in accordance with American Institute of Certified Public Accountants Professional Standards, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.800, *Rules of the Auditor General*. Disclosures in those reports and schedule, which are dated December 19, 2022, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.804(1)(f)1., *Rules of the Auditor General*, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding District-wide annual financial audit report. There were no findings and recommendations made in the preceding District-wide annual financial audit report.

MANAGEMENT LETTER

Financial Condition and Management

Section 10.804(1)(f)2., *Rules of the Auditor General*, requires us to communicate whether or not the District has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and to identify the specific condition(s) met. In connection with our audit, we determined that the District did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.804(1)(f)5.a and 10.805(7), *Rules of the Auditor General*, we applied financial condition assessment procedures for the District. It is management's responsibility to monitor the District's financial condition, and our financial condition assessment was based in part on representations made by management and review of financial information provided by same.

Section 10.804(1)(f)3., *Rules of the Auditor General*, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Transparency

Section 10.804(1)(f)6., *Rules of the Auditor General*, requires that we communicate the results of our determination as to whether the District maintains on its website the information specified in Section 1011.035, Florida Statutes (Section 1011.035, Florida Statutes, provides that district school boards shall prominently post on their website a plain language version of each proposed, tentative, and official budget that describes each budget item in terms that are easily understandable to the public). In connection with our audit, we determined that the District maintained on its website the information specified in Section 1011.035, Florida Statutes.

Additional Matters

Section 10.804(1)(f)4., *Rules of the Auditor General*, requires us to communicate non-compliance with provisions of contracts or grant agreements, or abuse, that has occurred, or is likely to have occurred, that has an effect on the financial statements that is less than material but warrants the attention of those charged with governance. In connection with our audit, we did not note any such findings.

Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, federal and other granting agencies, the District School Board members, and applicable management and is not intended to be, and should not be, used by anyone other than these specified parties.

INDEPENDENT ACCOUNTANT'S REPORT ON COMPLIANCE WITH FLORIDA STATUTE SECTION 218.415 – INVESTMENTS OF PUBLIC FUNDS

District School Board of Lake County, Florida and Superintendent Tavares, Florida

We have examined the District School Board of Lake County, Florida's (the District) compliance with Section 218.415, Florida Statutes, during the fiscal year ended June 30, 2022. District management is responsible for the District's compliance with those requirements. Our responsibility is to express an opinion on the District's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the District complied, in all material respects, with the requirements referenced above. An examination involves performing procedures to obtain evidence about whether the District complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material non-compliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Our examination does not provide a legal determination on the District's compliance with specified requirements.

In our opinion, the District complied, in all material respects, with the aforementioned requirements during the fiscal year ended June 30, 2022.

This report is intended solely for the information and use of the Florida Auditor General, the Board of Supervisors of the District, and applicable management, and is not intended to be, and should not be, used by anyone other than these specified parties.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

District School Board of Lake County, Florida and Superintendent Tavares, Florida

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited the District School Board of Lake County, Florida's (the District) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2022. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Our report includes a reference to other auditors. Other auditors audited the financial statements of the aggregate discretely presented component units, as described in our report on the District's financial statements. This letter does not include the results of the other auditors, and such information related to those audits is reported on separately by those auditors.

In our opinion the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal program for the year ended June 30, 2022.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material non-compliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material non-compliance when it exists. The risk of not detecting material non-compliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Non-compliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material non-compliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the District's circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

District School Board of Lake County, Florida and Superintendent Tavares, Florida

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Report on Internal Control over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, non-compliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance such that there is a reasonable possibility that material non-compliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency in internal control over compliance is a deficiency or a combination of compliance or equirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance is a severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

- *Brief Description:* Contrary to federal regulations, the Lake County District School Board (the District) has excess net cash resources for its food service program as of June 30, 2019, 2020, and 2022.
- Current Status: The finding is being addressed by the District but has not been resolved. Funds have been expended, but the deficiencies continue to be corrected in the 2021-2022 fiscal year. The District completes a USDA-approved Net Cash Resources Action Plan to describe the intended purchases and plans. The District continues to decrease funds by purchasing food service equipment, alterations and improvements to facilities, and updating menu software where needed. The District plans to complete its corrective action within the 2022-2023 fiscal year.
