Dr. Peter B. Licata
Superintendent of Schools

Members of the School Board and Citizens of Broward County:

We are pleased to present the Annual Comprehensive Financial Report (ACFR) of The School Board of Broward County, Florida, (the District or Broward County Public Schools) for the fiscal year ended June 30, 2023. These financial statements are presented to conform with the Generally Accepted Accounting Principles (GAAP) in the United States as applied to governmental units. The Florida Statutes require that the District publish, within nine months of the close of each fiscal year, a complete set of audited financial statements. The U.S. Securities and Exchange Commission (SEC) also requires a legal undertaking on the part of governmental debt issuers to provide annual audited financial information. The ACFR is published to fulfill these requirements. In addition to meeting legal requirements, this report is intended to provide informative and relevant financial information for the residents of Broward County, School Board Members (the Board), investors, creditors, and other concerned

readers. We believe that the information, as presented, is accurate in all material aspects; that it is designed to present fairly the financial position and changes in the financial position of the District; and that all disclosures necessary to enable the reader to gain an adequate understanding of the District's financial condition have been included. The responsibility for the preparation of the accompanying financial statements and other information contained in this ACFR rests with the District's management.

The District's management is responsible for the establishment and maintenance of a comprehensive internal control framework to ensure compliance with applicable laws and District policies. The District's internal control framework also ensures that financial transactions are properly recorded and documented to provide reliable information for the preparation of the District's financial statements in accordance with GAAP. Since the cost of internal controls should not outweigh their benefits, the District's internal control framework has been designed to provide reasonable, rather than absolute, assurance that the financial statements will be free from material misstatement.

State statutes allow an outside independent audit of school districts by a firm of certified public accountants in lieu of an audit by the State of Florida Auditor General, under certain conditions. The accounting firm of MSL, P.A. was selected by the Board to perform the audit function. In keeping with the minority business enterprise program established by the Board, MSL, P.A. was assisted by S. Davis & Associates, P.A., Certified Public Accountants. The independent auditor concluded that there was a reasonable basis for rendering an unmodified opinion on the District's financial statements for the year ended June 30, 2023. The independent auditor's report is presented as the first component of the financial section of this report.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statement in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the independent auditor's report.

PROFILE OF THE GOVERNMENT

The District is the sixth largest school district in the United States – and second largest in Florida, encompassing all of Broward County, Florida (Broward County). Cognia (formerly AdvancEd), and the Southern Association of Colleges and Schools (SACS) are the accreditation agencies for Broward County Public Schools, the nation's second largest fully accredited K-12 school district. Broward County was recommended to the Cognia Accreditation Commission to be accredited again in 2021 and proudly earned re-accreditation for a five year period. On May 10, 2021, the District received the Cambridge

District of the Year distinction for having high academic achievements among students participating in Cambridge programs. It is one of three Districts in the United States to receive this distinction. The General Fund, the primary operating fund of the District, had an annual adopted operating budget of approximately \$2.6 billion for the fiscal year ended June 30, 2023. This budget served 254,384 pre-kindergarten through 12th grade students at 326 schools.

The District has taxing authority and provides pre-kindergarten, elementary, secondary, vocational education services and technical colleges to the residents of Broward County. Besides the various educational programs offered to K-12 students, pre-kindergarten services include: programs for babies whose teen parents are progressing toward achieving high school diplomas; programs for special education infants and toddlers below the age of three; pre-kindergarten programs for three and four-year-old students; and programs for eligible low-income, at-risk students.

College & Career Readiness

In addition to services provided for children, the District offers programs for adults to learn the necessary skills in order to enter the workforce or increase opportunities for advancement in current positions. Also, nearly 32,000 active English Language Learners (ELL) from 183 countries and speaking 153 languages have the opportunity to learn communication skills through our English for Speakers of Other Languages (ESOL) programs, and all citizens can take fee-supported courses to increase personal development in various subjects such as nursing, automotive technology, culinary arts, and finance.

The District was created by the state constitution and is part of the state system of public education operated under the general direction and control of the State Board of Education. Established in 1915, the District is governed by nine elected members. The appointed Superintendent of Schools serves as executive officer of the District. As of November 16, 2023, the Board members are: Lori Alhadeff, Chair; Debra Hixon, Vice Chair; Torey Alston, Brenda Fam, Esq., Daniel P. Foganholi, Dr. Jeff Holness, Sarah Leonardi, Nora Rupert, and Dr. Allen Zeman. The ACFR includes all funds of the District, the Broward School Board Leasing Corporation, as well as the Broward Education Foundation and charter schools, which are reported discretely as component units, thus all combined comprise the reporting entity.

In accordance with the Florida Statutes, the District has formally established budgetary accounting control for its operating funds. Budgetary control is maintained at the function level by the encumbrance of estimated purchase amounts prior to the release of purchase orders to vendors. Purchase orders which result in an overrun of budget balances are not released until additional appropriations are made available through transfer from other accounts by the Board.

FACTORS AFFECTING FINANCIAL CONDITION

Local Economy

Located on the southeastern coast of Florida, Broward County has an area of approximately 1,200 square miles. It is bordered to the north by Palm Beach County and to the south by Miami-Dade County. Broward County ranks second in population in the state, with a 2023 estimated population of 2 million. The largest private sector employers in Broward County include the following: Memorial Healthcare System, Broward Health, Nova Southeastern University, and First Service Residential.

The District's Demographics and Student Assignments Department forecasted student enrollment for all levels for fiscal years 2022-23 through 2027-28. For the fiscal year ended June 30, 2023, the overall enrollment in kindergarten through twelfth grade (excluding charter schools) decreased by 13,837 students by the end of the five-year period, with a decrease of 5,783 students at the elementary level and a decrease of 4,173 students for middle schools. High school enrollment is forecasted to decrease by 3,881 students.

As of June 30, 2023, 35 percent of the District's school facilities were over 40 years old. The District's Capital Improvement Program identifies and addresses the maintenance needs of these aging school facilities.

Long-Term Planning

Each year the District prepares, and the School Board adopts a District Educational Facilities Plan (DEFP) for five years to keep the School Board and the public fully informed of how the District is using sound policies and practices that meet the essential needs of students and warrant public confidence in District operations. The DEFP is incorporated in the District's adopted budget annually as required by Florida Statute 1013.35. The 2022-23 DEFP lays out a \$3.5 million long-term financial plan including the **S**afety, **M**usic and Art, **A**thletics, **R**enovation, and **T**echnology (SMART) Program and was adopted on September 6, 2022.

The DEFP highlights SMART construction projects across the District. These projects are being implemented through contracts the District has entered with outside firms to provide Owner's Representative and Cost/Program Controls management services. Using these firms, the District is enhancing efficiency by keeping current with the latest developments in construction management systems and practices. In addition, the firms are establishing a centrally coordinated repository of data by implementing, maintaining, and upgrading management information systems appropriate to facilitate the efficient and effective use of information throughout the District's capital projects. The District sustains reserves to stabilize the SMART Program and other projects in the DEFP. These reserves protect ongoing projects over the duration of the SMART Program so that changes in the economic environment and other risks are mitigated.

Since the Marjory Stoneman Douglas (MSD) High School tragedy on February 14, 2018, the District and school leadership remain focused on meeting the needs of students, employees and the entire school community during an emotional and difficult recovery process. In fiscal year 2019, Senate Bill 7026 provided funding for MSD to meet the facility needs necessary to recover from this tragedy. In total, Florida Legislature approved \$26.3 million for the District to:

- Provide portables
- Build a new permanent building
- Demolish the 1200 Building (Florida Inventory Of School Houses, (FISH), Building 12)
- Construct a memorial

This year, the District identified local funding to upgrade and replace security cameras. The State Security Grant funds provided \$1.9 million for District schools and charter schools to continue to upgrade school security hardware. In addition, the District is using Federal funding in the E-rate program to further improve its infrastructure security.

General Obligation Bond Referendum

The School Board and District leadership are committed to invest in the funding to enhance students' learning environments by focusing on improvements in SMART to achieve its long term goals. To meet this commitment, in 2014 the School Board unanimously approved a resolution and on November 4, 2014, Broward County voters gave their overwhelming support of the District's request

to pass \$800 million in General Obligation Bond (GOB) with a 74 percent approval margin. The first series of the GOB was issued, and the District received \$155.1 million in June 2015. In February 2019, the second series of the GOB was issued, and the District received \$174.7 million. In February 2021, the third series of the GOB was issued, and the District received \$207.5 million. In May 2022, the fourth and last series of the GOB was issued, and the District received \$262.7 million. Proceeds from the bonds issue are being used to modernize and improve the safety of outdated educational facilities and upgrade instructional technology. This was in direct response to years of unsuccessful advocacy requesting the Florida legislature to restore the capital millage to historic levels and the current push in an ongoing effort to address the District's critical capital budget situation. When the general obligation bond is combined with other capital outlay funds, the SMART program totals \$1.6 billion.

Secure the Next Generation Referendum

On August 28, 2018, voters in Broward County approved the Secure the Next Generation referendum. This half-mill initiative provided additional School Resource Officers and security staff for all schools, including charter schools with more than 900 students, and improved compensation for teachers and school related non-administrative staff. It also served to guarantee essential programs in District schools such as additional guidance counselors, social workers and behavior specialists. The referendum took effect on July 1, 2019, and funds were allocated starting the 2019-20 school year through June 30, 2023.

On August 23, 2022, voters in Broward County approved the renewal of the Secure the Next Generation Referendum which will increase voters' investment in education from a half-mill to one mill to continue securing funds for all public schools - and will now also include all charter schools. This initiative will allow the District to: recruit and retain high-quality teachers and staff by increasing compensation supplements, maintain and enhance school resource officers and school safety staff, and maintain and enhance essential programs such as mental health services.

Post COVID-19

With the return of the students to 100% in person learning for the school year 2021-2022, the District provided students with increased in-person instructional time with highly qualified teachers. Additional teachers were hired to provide targeted academic assistance during the school days and extended learning opportunities with Saturday, winter and spring break academic camps and after-school tutoring options were implemented. The District again offered the BCPS Summer 2023 for students with academic needs in core subject areas such as reading and math, as well as credit recovery options.

To continuously meet the mental health and social-emotional learning needs of students and staff, the District has made available mental health professionals in every school.

Federal Education Stabilization Fund

In 2020-21, Congress passed three funding bills to address the economic aftermath of the COVID-19 pandemic and its impact on the country's educational system. On March 27, 2020, the Coronavirus Aid, Relief and Economic Security (CARES) Act provided initial funding support. The Elementary and Secondary School Emergency Relief (ESSER) Fund was established granting the District \$64.5 million. The Governor's Emergency Education Relief (GEER) Fund was created through the CARES Act to provide additional funds to

support education systems, including workforce and postsecondary sectors. The District was awarded \$8.2 million in funding to assist with: rapid credentialing for areas with critical workforce needs, expansion of apprenticeship and dual enrollment programs, summer recovery and learning loss mitigation activities, and career and technical education and workforce pathway supports.

On December 27, 2020, the Coronavirus Response and Relief Supplemental Appropriation (CRRSA) Act awarded the District through the Elementary and Secondary School Emergency Relief Fund (ESSER II) with \$264.7 million funding to address the impact COVID-19 has had and continues to have on elementary and secondary schools.

On March 11, 2021, the American Rescue Plan (ARP) was established which allocated to local education agencies with developed plans for the intended use of their ARP funds. This provided the District with \$599.7 million, through the Elementary and Secondary School Emergency Relief Fund (ARP ESSER) to address loss of learning in students, focusing on the impact of lost instructional time, summer enrichment and afterschool programs.

Transition of Summer Food Service Program

The Summer Food Service Program (SFSP) is a federally funded, state administered program that provides free healthy meals and snacks to children and teens in low-income areas, ensuring children have access to nutritious meals when schools are not in session. For the fiscal year ended June 30, 2023, the District moved to a hybrid model of the National School Lunch Program (NSLP) by implementing the Community Eligibility Provision (CEP). CEP is a non-pricing meal service option for schools and school districts in low-income areas that allows the qualifying schools and districts to serve breakfast and lunch at no cost to all enrolled students without collecting household meal applications.

Relevant Financial Policies

Presented below is an explanation of financial information, management of financial resources and obligations, and control techniques applicable to financial resources and obligations.

Financial Information. The MD&A summarizes the Statement of Net Position and the Statement of Activities and reviews the activity for the year. The actual government-wide statements are presented in detail. These statements are intended to present the District in a more corporate style and provide a view of the “big picture.”

Additionally, the Fund Financial Statements are designed to address by category the major governmental funds, as well as proprietary and fiduciary funds. An explanation of these complementary presentations can be found in the MD&A and in the notes (see Note 1).

Accounting Systems. In developing and evaluating the District’s accounting control framework, consideration is given to the adequacy of internal accounting controls. Accounting controls are comprised of the plan of organization, procedures and records that are concerned with the safeguarding of assets, and the reliability of financial records. Consequently, accounting controls are designed to provide reasonable assurance that:

- Transactions are executed in accordance with management’s general or specific authorization.
- Transactions are recorded as necessary (1) to permit preparation of financial statements in conformity with generally accepted accounting principles in the United States of America or any other criteria, such as finance-related legal and contractual compliance requirements applicable to such statements, and (2) to maintain accountability of assets.
- Access to assets is permitted only in accordance with management’s authorization.
- The recorded accountability for assets is compared with the existing assets at reasonable intervals and appropriate action is taken with respect to any differences.

All internal control evaluations occur within the above framework. We believe the District’s internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

Fund Balance Policy. Board Policy 3111 – Fund Balance provides for a minimum general fund balance of 3 percent of the total annual operating expenditures. It mandates monthly reporting to the Board an estimate of the fund balance amount by dollar amount and percentage. It also provides for alerts to the Superintendent and the School Board if the fund balance falls below 3.5 percent.

Budget Policy. The Board follows procedures established by State Statute and State Board of Education rules in establishing annual budgets for governmental funds. Budgets are prepared, public hearings are held, and original budgets are adopted annually for all governmental fund types in accordance with procedures and time intervals prescribed by law and State Board of Education rules.

Cash Management Policies and Practices. The District's investment policy authorizes investments with the State Board Administration (SBA), interest-bearing time deposits, savings accounts, and U. S. Treasury and Agency securities. All public deposits are held in qualified public depositories. Cash management and investment activities are discussed in greater detail in the notes to the financial statements.

AWARDS AND ACKNOWLEDGEMENTS

Broward County Public Schools (BCPS) Financial Division was the 2008 Council of the Great City Schools (CGCS) Award Winner for Excellence in Financial Management. Our District is the first district in the nation to receive this prestigious award. The CGCS Award for Excellence in Financial Management focuses on policies, procedures and outcomes across a broad range of financial areas. A rigorous Best of Financial Management Policies Peer Review process assesses our District's financial management practices; and Key Performance Indicators are used as an evaluative research and objective analytical baseline to demonstrate the efficient and effective use of financial resources.

This award represents a significant achievement by the School District, Board of Education, Superintendent and administrative staff that support the highest standards in financial accountability and controls that are needed to safeguard and protect the financial integrity of the District. Their efforts reflect an extraordinary dedication to excellence in financial management and demonstrate outstanding stewardship of taxpayer dollars with the ultimate beneficiaries being the children of Broward County Public Schools.

To receive this award, the District achieved 95 percent or 2,309 of a possible 2,430 points by complying with all 95 mandatory practices and a minimum of 41 of 53 recommended practices in the following nine categories: 1) Treasury, 2) General Financial Management, 3) Internal Controls, 4) Capital Asset Management, 5) Budget, Strategic Planning & Management, 6) Debt Management, 7) Internal and External Financial Auditing, 8) Risk Management and 9) Purchasing.

The Association of School Business Officials (ASBO) International awarded a Certificate of Excellence in Financial Reporting to the District for its ACFR for the fiscal year ended June 30, 2022. In order to be awarded a Certificate of Excellence, a governmental unit must publish an easily readable and efficiently organized ACFR, the contents of which conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Excellence is valid for a period of one year only. For the fiscal year ended June 30, 2023, ASBO also awarded the District the Meritorious Budget Award for excellence in the preparation and issuance of its annual budget.

The School Board of Broward County, Florida
November 16, 2023

Additionally, the Government Finance Officers Association of the United States and Canada (GFOA) awarded the District the Certificate of Achievement for Excellence in Financial Reporting and the Distinguished Budget Presentation Award. The Certificate of Achievement for Excellence in Financial Reporting award certifies that the ACFR substantially conformed to the accounting and reporting standards adopted by GFOA for the fiscal year ended June 30, 2022.

We believe our current Annual Comprehensive Financial Report continues to conform to the standards established for both the Certificate of Excellence Program and the Certificate of Achievement Program. Accordingly, we are submitting the ACFR for fiscal year ended June 30, 2023, to both ASBO and GFOA to be considered for these prestigious awards once again.

The preparation of this ACFR could not have been accomplished without the efficient and dedicated services of the entire staff of the Office of the Associate Superintendent, Finance, the Audit Committee, the Office of the Chief Auditor, as well as other departments that provided assistance throughout the preparation of this report. In addition, we appreciate the thoroughness with which our auditors, MSL, P.A. and S. Davis & Associates, P.A., performed their audit function.

Finally, we would like to thank the Board for their leadership and support in planning and conducting the financial operations of the District.

INDEPENDENT AUDITOR'S REPORT

Chairperson and Members of
School Board of Broward County, Florida

Opinions

We have audited the accompanying financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the School Board of Broward County, Florida (the District) as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, based on our audit and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2023, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of the District's fiduciary funds, which represent 10% of the assets and 2% of the liabilities of the aggregate remaining fund information of the District as of June 30, 2023. In addition, we did not audit the financial statements of the discretely presented component units, which comprises of 100% of the assets, net position, and revenues of the discretely presented component units of the District as of June 30, 2023. The financial statements of the school internal funds and the aggregate discretely presented component units were audited by other auditors whose reports have been furnished to us, and our opinions, insofar as they relate to the amounts included for those financial statements, are based solely on the reports of the other auditors.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

INDEPENDENT AUDITOR'S REPORT
(Continued)

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

INDEPENDENT AUDITOR'S REPORT

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, budgetary comparison schedules for the General Fund and the Federal Education Stabilization Funds, Other Postemployment Benefit Schedules, and Pension Schedules, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements as a whole. The introductory section, combining and individual major and non-major fund financial statements and schedules, and statistical section, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, based on our audit and the report of the other auditors, the combining and individual nonmajor fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

INDEPENDENT AUDITOR'S REPORT
(Concluded)

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 17, 2023, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Management's Discussion and Analysis (MD&A)

The purpose of MD&A is to provide users of the basic financial statements with a narrative introduction, overview, and analysis of those statements.

THE SCHOOL BOARD OF BROWARD COUNTY, FLORIDA

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2023

As management of The School Board of Broward County, Florida (the District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2023. The narrative is designed to assist the reader in focusing on significant financial issues, provide an overview of the District's financial activity, identify changes in the District's financial position, and identify individual fund issues or concerns. As with other sections of this financial report, the information contained within this narrative should be considered only a part of a greater whole. The reader of this statement should take time to read and evaluate all sections of this report, including the footnotes and other required supplemental information.

FINANCIAL HIGHLIGHTS

Government-Wide Financial Statements

- The District's financial status, as reflected in the ***total net position***, increased by \$152.6 million, or 31.5 percent, from \$484.4 million, to \$637.1 million when compared to the prior year. The increase in total net position is due to the net increases in total assets of \$49.4 million, an increase in deferred outflows of resources of \$55.4 million, offset by the net increases in total liabilities of \$659.0 million offset by a net decrease in deferred inflows of resources of \$706.8 million. Moreover, the increase in net position is attributable to the increase in net pension liability (refer to Note 13 of the Notes to the Basic Financial Statements for more information).
- ***Total revenues*** increased by \$133.9 million, or 4.0 percent, from \$3.3 billion to \$3.5 billion when compared to the prior year; primarily due to an increase in other general revenues (including Federal Education Stabilization Funds and Florida Education Finance Program (FEFP)) of \$12.3 million; an increase in ad valorem taxes of \$103.0 million (including General, Referendum, Debt Service and Capital Projects Funds) primarily attributable to an increase in the total assessed property values; and an increase in program revenues (charges for services, operating grants and contributions, and capital grants and contributions) of \$18.5 million. The increase in program revenues is attributable to an increase in charges for services of \$9.7 million, an increase in operating grants and contributions of \$7.3 million, and an increase in capital grants and contributions of \$1.5 million.
- The District had \$3.3 billion in ***expenses*** related to programs, an increase of \$229.2 million or 7.4 percent, from the prior year primarily due to an increase in instructional services, student transportation services, operation and maintenance of plant, school administration, and food services. There were decreases in general administration and interest expenses.
- The District's ***debt*** (Bonds Payable, Certificates of Participation, Equipment Finance Agreements, and Leases) decreased by \$128.4 million, or 5.7 percent, to \$2.1 billion from \$2.3 billion in the prior year. This decrease was primarily due to the payment of debt (refer to Notes 8 through 10 of the Notes to the Basic Financial Statements for more information).

THE SCHOOL BOARD OF BROWARD COUNTY, FLORIDA

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2023

Governmental Funds Financial Statements

- The overall General Fund balance (the primary operating fund) decreased by \$27.2 million, or 12.5 percent, to \$190.9 million from \$218.1 million in the prior year.
- The assigned and unassigned portion of the general fund balance decreased by \$34.5 million compared to prior year from \$120.4 million as of June 30, 2022, to \$85.9 million as of June 30, 2023.

OVERVIEW OF THE FINANCIAL STATEMENTS

The District's Annual Comprehensive Financial Report (ACFR) includes a series of basic financial statements and accompanying notes, with the primary focus being on the District as a whole. The Statement of Net Position and the Statement of Activities are government-wide financial statements that provide both short-term and long-term information about the District's overall financial status. The governmental fund financial statements report the District's operations in more detail by providing information as to how services are financed in the short-term, as well as the remaining available resources for future spending. Additionally, the governmental fund financial statements focus on major funds rather than fund types. The proprietary

fund statements offer short-term and long-term financial information about the activities the District operates like businesses, such as printing services. The remaining statements, the fiduciary fund statements, provide financial information for those activities in which the District acts solely as a trustee or agent for the benefit of others. The accompanying notes provide essential information that may not be readily available on the face of the basic financial statements. Consequently, these notes form an integral part of the basic financial statements.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

Government-wide financial statements incorporate governmental, as well as its non-fiduciary component units. They contain various adjustments, elimination and reclassification entries, such as the recording of depreciation, the recognition of other revenues, and the recognition of long-term liabilities. The government-wide financial statements are designed to provide the readers with a view of the District as a whole. While this document contains the large number of funds used by the District to provide programs and activities, the view of the District as a whole, looks at all financial transactions and asks the question, "How did the District do financially during 2023?" The Statement of Net Position and the Statement of Activities answer this question. These statements include all assets and liabilities and the District's operating results under the economic resources measurement focus. Both statements are prepared using the accrual basis of accounting similar to that used by most private-sector companies, matching the financial impact of long-term financial decisions to the period in which the expense or revenue is more properly attributed. In short, the financial impact of long-term decisions is promptly recorded as the transaction occurs, as opposed to recording it when paid. A good example of this is the recording of compensated absences, such as vacation and sick leave. In the fund financial statements, vacation and sick leave are expensed when used, not when accrued, with the unused hours accumulating over time. Consequently, the reader of the ACFR would never see the potential financial impact the accumulated leave would have on the District's financial health. In the government-wide financial statements, vacation and sick leave are expensed when accrued, allowing the reader to see the full financial impact.

The Statement of Net Position combines and/or consolidates the governmental funds' current financial resources (short-term spendable resources) with capital assets and long-term obligations. The Statement of Net Position also provides information about the nature and amounts of investment of resources and obligations to creditors.

The Statement of Activities provides information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation and sick leave).

THE SCHOOL BOARD OF BROWARD COUNTY, FLORIDA

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2023

The difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources, as reported in the Statement of Net Position, is one way to measure the District's financial health or financial position. A reader can think of the District's net position as the difference between what the District owns (assets) and what the District owes (liabilities). Over time, the increase or decrease in the District's net position, as reported in the Statement of Activities, is another indicator of whether its financial health is improving or deteriorating. The difference between revenues and expenses is the District's operating results. However, the District's goal is to provide services to our students, not to generate profits as commercial entities do. To fully assess the financial health of any government entity, the reader must also consider other non-financial factors such as the quality of education provided, the safety of the schools, fluctuations in the local economy, state-mandated programs, administrative changes, and the physical condition of the District's capital assets.

FUND FINANCIAL STATEMENTS

Fund financial statements are generally presented on a modified accrual basis, using the current financial resources measurement focus, and report expenditures rather than expenses as used in the government-wide financial statements. Fund financial reports provide detailed information about the District's major funds. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District's most significant funds. The District's major governmental funds are the General Fund, the Federal Education Stabilization Funds, the Certificates of Participation (COP) Series Debt Service Funds, District Bonds Funds, Local Millage Capital Improvement Funds, and Other Capital Projects Funds. Data from the other ten governmental funds are combined into a single, aggregated presentation.

Governmental Funds. Most of the District's activities are reported in governmental funds which describe how money flows into and out of those funds and the balances remaining at year-end that are available for spending in future periods. These funds are reported using an accounting method called "modified accrual accounting," which measures cash and all other financial assets that can readily be converted to cash. The governmental fund financial statements provide a detailed short-term view of the District's general government operations and services. Governmental fund information helps determine what financial resources will be available in the near future to support educational programs. The relationship (or difference) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Proprietary Funds. Based on the nature of the activities, proprietary funds are used to report the activities in the District's Internal Service Funds. The Internal Service Funds are used to record the financing of goods or services provided by one department to another on a cost reimbursement basis.

Proprietary funds are reported in the same way as government-wide financial statements. The Internal Service Funds are presented in the proprietary fund financial statements. The proprietary funds are included in the governmental activities in the government-wide financial statements.

Fiduciary Funds. Fiduciary funds are used to account for resources held for the benefit of parties outside of the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. The accounting used for fiduciary funds are much like that used for proprietary funds. The District's fiduciary fund consists of a custodial fund used to account for student activity funds.

Notes to the Basic Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information. In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information concerning the District's net pension liability and changes in its total other postemployment benefits (OPEB) liability.

ANALYSIS OF THE OVERALL FINANCIAL POSITION AND RESULTS OF OPERATIONS

The analysis below focuses on the Net Position (Table 1) and Changes in Net Position (Table 2) of the District's governmental activities.

Table 1
Summary Statement of Net Position

Unrestricted	<u>(1,307,389)</u>	<u>(1,246,422)</u>	<u>(60,967)</u>
Total net position	<u>\$ 637,078</u>	<u>\$ 484,438</u>	<u>\$ 152,640</u>

Government-Wide Financial Analysis. The District's financial status, as reflected in the total net position, increased by \$152.6 million, from \$484.4 million, to \$637.1 million when compared to the prior year. The increase in total net position is due to the net increases in total assets and deferred outflows of resources, offset by the net increases in total liabilities and net decrease in deferred inflows of resources. By far, the largest portion of the District's net position reflects its net investment in capital assets (i.e., land; buildings; furniture, fixtures, and equipment).

Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. The increase in the long-term liabilities is primarily due to an increase in the pension liabilities.

The second largest portion of the District's net position represents resources that are subject to external restrictions on how they may be used. Of the \$597.6 million in restricted net position, \$434.7 million is restricted for capital projects. There was a deficit of \$1.3 billion in the unrestricted net position as of June 30, 2023. The deficit in the Statement of Net Position should not be viewed as an indication of financial difficulties. The District would only experience an actual deficit if it had to pay all of its long-term liabilities at once.

As shown in Table 2, governmental activities increased the District's net position by \$152.6 million from the prior year. Key highlights are as follows:

- Other general revenues increased by \$12.3 million due to increases in Federal Education Stabilization Funds and FEFP.
- Ad valorem taxes (property taxes) increased by \$103.0 million (including General, Referendum, Debt Service, and Capital Funds) primarily due to an increase in the total assessed property values.

THE SCHOOL BOARD OF BROWARD COUNTY, FLORIDA

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2023

- Program revenues (charges for services, operating grants and contributions, and capital grants and contributions) increased by \$18.5 million as a result of schools reopening at full capacity.
- Total expenses increased by \$229.2 million primarily due to increases in instructional services expense of \$176.8 million, operation and maintenance of plant of \$48.4 million, student transportation services of \$12.5 million, school administration of \$11.5 million, and food services of \$13.4 million mainly due to the School Board opting to give substantial four percent raises, an increase of payments for School Resource Officers as well as the District continuing to face the challenges of the COVID-19 pandemic. These increases were offset by decreases in general administration expenses of \$11.9 million and interest expenses of \$ 36.3 million.

Financial Analysis of the Government's Funds. As was noted earlier, the District uses funds to help control and manage money for particular purposes. Looking at the funds aids in determining if the District is being accountable for the resources taxpayers and others provide; and may also give more insight into the District's overall financial health. In particular, the combination of assigned and unassigned fund balance may serve as a useful measure of a government's net resources available at the end of the fiscal year.

THE SCHOOL BOARD OF BROWARD COUNTY, FLORIDA

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2023

Governmental Funds. As of June 30, 2023, the District's governmental funds reported a combined fund balance of \$1.2 billion, a decrease of \$137.0 million, or 10.2 percent from the prior year. The decrease in fund balance is due to the following funds: a decrease of \$204.3 million in the District Bonds (Capital Projects) Funds, a decrease of \$27.2 million in the General Fund and a decrease of 117.1 thousand in the COP Series Debt Service Funds, offset by increases of \$6.0 million in the Other Capital Projects Funds, \$70.0 million in the Local Millage Capital Improvement Funds, and \$18.7 million in the Other Governmental Funds.

General Fund. The fund balance for the General Fund decreased by \$27.2 million, due to the School Board opting to give substantial four percent raises and to increase payments for School Resource Officers. The assigned and unassigned portion of the fund balance decreased by \$34.5 million compared to the prior year from, \$120.4 million as of June 30, 2022, to \$85.9 million as of June 30, 2023.

Other Major Funds:

Federal Education Stabilization Funds. There is no fund balance as assets equal liabilities. These funds are used to account for the following emergency relief funds: Elementary and Secondary School Emergency Relief (ESSER) Funds and Governor's Emergency Education Relief (GEER) Funds. Both funds were established in phases as a result of: (1) the Coronavirus Aid, Relief, and Economic Security (CARES) Act established on March 27, 2020, (2) the Coronavirus Response and Relief Supplemental Appropriation (CRRSA) Act established on December 27, 2020, and (3) American Rescue Plan (ARP) established on March 11, 2021.

District Bonds (Capital Projects) Funds. The fund balance of the major District Bonds (Capital Projects) Funds decreased by \$204.3 million. The District continues to complete approved projects funded by the accumulated capital reserves of the General Obligation Bonds.

COP Series Debt Service Funds. The fund balance of the major COP Series Debt Service Funds decreased by \$117.1 thousand (refer to Note 9 of the Notes to the Basic Financial Statements for more information).

Local Millage Capital Improvement Funds. The fund balance of the major Local Millage Capital Improvement Funds increased by \$70.0 million compared to the prior year mainly due to an increase in the revenues received from local sources, including ad valorem taxes.

Other Capital Projects Funds. The fund balance of the Other Capital Projects Funds increased by \$6.0 million compared to the prior year.

General Fund Budgetary Highlights (Reported on a Budgetary Basis). Over the course of the year, the District revises its budget to deal with unexpected changes in revenues and expenditures. The District's original and final budget amounts compared with actual amounts are provided in Table 3.

The final budget as compared to the original budget for revenues and other financing sources decreased by \$77.6 million primarily due to a decrease in the State's FEFP, federal revenue including Medicaid, local revenues including ad valorem taxes, and other sources such as school-age childcare fees, course fees. The decreases were offset by increases in state revenues such as Voluntary Prekindergarten Program and other financing sources. The decrease in ad valorem taxes is due to the District collecting less than the original budgeted proceeds based on 96 percent of the current year gross taxable value per Section 1011.62(4)(a), Florida Statutes.

During the year, final appropriations including other financing uses decreased by \$20.2 million from original appropriations as the District continues to face the challenges of COVID-19 such as reductions in substitutes, temporary employees, and supplies. The decreases were offset by the employee reopening supplements given to the District's employees as well as a pay increase for employees.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2023

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets. As shown in Table 4, as of June 30, 2023, the District had invested approximately \$3.3 billion in a broad range of capital assets. This amount represents a net increase (including additions, deletions, and depreciation) of \$144.1 million from the prior year. The District is focused on keeping vital components of school buildings running, such as air conditioning and roofing systems while keeping the schools safe and accessible. The District had \$402.5 million committed towards various construction contracts (refer to Note 18 of the Notes to the Basic Financial Statements for more information). Due to the implementation of GASB Statement No. 87, *Leases*, \$2.2 million in intangible right-to-use lease assets (net of accumulated amortization) was recognized by the District.

On February 14, 2018, the District experienced a horrific tragedy at Marjory Stoneman Douglas (MSD) High School. As a result of this tragedy, the 1200 Building (Florida Inventory of School Houses (FISH), Building 12) at the school is deemed evidentiary and cannot be used by the District or demolished until the conclusion of all investigations and legal matters. In 2018, Senate Bill, SB 7026, cited as the "Marjory Stoneman Douglas High School Public Safety Act," earmarked \$26.3 million for the projects at MSD to meet the facility needs necessary to recover from this tragedy that includes providing temporary portables (this project is complete and closed), building a new permanent building (this project is substantially complete and occupied; pending certificate of final inspection for full close-out), demolishing the 1200 Building (FISH, Building 12), and constructing a memorial.

On March 5, 2021, there was a partial roof collapse in the media center at the District's James S. Rickards Middle School. As a result of the partial roof collapse, Building 1 of Rickards Middle School has been deemed a total loss and will be entirely replaced. The District's efforts to continue educating the Rickards Middle School students will include temporary placement of the students in three nearby campuses, renovations to Buildings 2 and 5 on the Rickards Middle School campus to restore life safety and communications systems that were originally housed in Building 1, placement of temporary modular buildings on the Rickards Middle School campus so that all the students can return, and a full building replacement project for Building 1. It is currently anticipated that the replacement building will be completed in two years. When the replacement building is completed, the temporary modular buildings will be removed from the campus.

Debt Administration. As shown in Table 5, at the end of June 30, 2023, the District had \$2.1 billion in debt outstanding compared to \$2.3 billion in the prior year, a decrease of \$128.4 million, or 5.7 percent, from the prior year. The decrease was primarily due to the payment of debt GOB and COPs principal obligations. Due to the implementation of GASB Statement No. 87, *Leases*, \$2.2 million in lease liabilities was recognized by the District (refer to Notes 8 through 10 of the Notes to the Basic Financial Statements for more information).

ECONOMIC FACTORS

The State of Florida, by constitution, does not have a State personal income tax and therefore the State operates primarily using sales, gasoline, and corporate income taxes. State funds to school districts are provided by legislative appropriations from the State's general revenue funds under the Florida Education Finance Program (FEFP) and local property taxes. The level of tourism in the State heavily influences the amount collected. Any change in the anticipated amount of revenues collected by the State would directly impact the revenue allocation to the District.

On August 23, 2022, Broward County residents approved the Secure the Next Generation Referendum renewal which became effective July 1, 2023. This renewed referendum supports the District's continued commitment to secure a high-quality education and safe learning environment for students, teachers, and staff. The approved referendum increased the local millage from ½ mill approved in 2018 to 1 mill for a period of four years through June 30, 2027. Referendum funds have secured safety and security positions, improved compensation for teachers and staff, and expanded educational opportunities for our students.

The District continues to recover from the impact of the COVID-19 pandemic. Since March 2020, the District has faced and overcome unique and extraordinary challenges brought about by the pandemic. Among the greatest of these was the safe reopening of schools. Keeping students, teachers, and staff safe has been the number one priority, while continuing the District's mission to educate all students to reach their highest potential. In August 2020, Broward County Public Schools (BCPS) opened the school year with 100% eLearning. The District consulted with local public health officials and medical experts to determine when students, teachers, and staff could return safely to our school campuses. In October 2020, BCPS brick-and-mortar schools reopened with new and expanded sanitation procedures, personal protective equipment, safety signage, and additional medical personnel, providing an option for face-to-face instruction. The District continues to consult with local medical experts and follows recommendations for health and safety from the Centers for Disease Control and Prevention

Fund Financial Statements (FFS)

Fund financial statements are aimed at demonstrating the fiscal accountability of a government's finances. Governmental funds use the current financial resources measurement focus and the modified accrual basis of accounting, whereas proprietary (internal service) funds and fiduciary (custodial) fund use the economic resources measurement focus and the accrual basis of accounting.

**RECONCILIATION OF STATEMENT OF REVENUES, EXPENDITURES AND CHANGES
IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
FOR THE FISCAL YEAR ENDED JUNE 30, 2023
(in thousands)**

Total net change in fund balances - governmental funds	\$ (136,961)
Amounts reported for governmental activities in the Statement of Activities is different because:	
Governmental funds report capitalizable and non-capitalizable capital outlays as expenditures. However, in the Statement of Activities, the cost of those capitalizable assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capitalized capital outlays (\$290,624) were greater than depreciation (\$142,701) in the current period.	147,922
The issuance of long-term debt provides a source of current financial resources to governmental funds. However, issuing debt increases long-term liabilities in the Statement of Net Position. Refundings of debt represent a use of current financial resources in governmental funds. However, refunding of debt decreases long-term liabilities in the Statement of Net Position. Also, governmental funds report the effect of debt premiums, discounts, deferral amounts on refunding when debt is first issued, but these amounts are deferred and amortized in the Statement of Activities:	
Equipment finance proceeds	(4,604)
Lease	-
The repayment of long-term debt principal amount is reported as an expenditure in the governmental funds but reduces the liability in the Statement of Net Position. Premiums and discounts on debt issued are reported in the governmental funds in the year the debt is issued and are amortized over the life of the debt in the Statement of Activities.	
Net principal payments and amortized premiums and discounts	166,425
Internal service funds are used by the District to charge the costs of services, such as printing services to individual funds. The change in net position of internal service funds is reported within the governmental activities.	(47)
Revenues reported in the statement of activities that do not provide current financial resources are not reported as revenues in the governmental funds.	(1,275)
In the Statement of Activities, certain expenses - compensated absences (vacation and sick leave and other postemployment benefits) - are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amount actually paid) and for new retirees, the amount expected to be paid out for terminal sick leave over the next year.	
Net change in postemployment benefits obligation	(4,456)
Net change in compensated absences	(1,669)
Net change in estimated liability for self-insured risks	(172)
Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due, except matured interest payable which is accrued in the debt service funds.	
Net change in accrued interest on long-term debt	181
Change in debt related deferrals including deferred amounts are recognized as paid or received in the governmental funds but must be capitalized and amortized in the government-wide presentation. This amount represents the net amount between current year's additions and amortization of current and prior year's amounts.	16,764
Governmental funds report District pension contribution as expenditures. However, in the Statement of Activities, the cost of pension benefits earned net of employee contributions is reported as pension expense. In addition, the amortization of changes in deferred pension adjustments is recorded through pension expense.	(25,620)
Net effect of various miscellaneous transactions involving capital assets (i.e., changes in capitalization threshold, sales, disposals, recoveries and donations).	(3,848)

THE SCHOOL BOARD OF BROWARD COUNTY, FLORIDA

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2023

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The School Board of Broward County, Florida (the District) has direct responsibility for operation, control, and supervision of schools in Broward County and is considered a primary government for financial reporting purposes. The financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The general operating authority of the District and the Superintendent is contained in chapters 1000 through 1013, Florida Statutes. Pursuant to Section 1010.01, Florida Statutes, the Superintendent of Schools is responsible for keeping records and accounts of all financial transactions in the manner prescribed by the State Board of Education. The District's significant accounting policies are described below.

A. FINANCIAL REPORTING ENTITY

The District was created by the State Constitution and is part of the state system of public education operated under the general direction and control of the State Board of Education. Established in 1915, the District is governed by nine elected board members (the Board). The appointed Superintendent of Schools is the executive officer of the District. The District has taxing authority and provides elementary, secondary and vocational education services to the residents of Broward County, Florida (Broward County).

Criteria for determining if other entities are potential component units that should be reported within the District's basic financial statements are identified and described in the GASB *Codification of Governmental Accounting and Financial Reporting Standards*, Section 2100. The application of these criteria provides for identification of any entities for which the District is financially accountable and other organizations that the nature and significance of their relationship with the District are such that exclusion would cause the District's basic financial statements to be misleading or incomplete.

Based on the application of these criteria, District management has determined that the component units reportable with the accompanying basic financial statements are the Broward School Board Leasing Corporation (the Corporation), the Broward Education Foundation (the Foundation) and 87 charter schools.

Blended Component Units – The Corporation was formed to facilitate financing for the acquisition of facilities and equipment as further discussed in Note 10 of the Notes to the Financial Statements. Due to the substantive economic relationship between the District and the Corporation, the financial activities of the Corporation are included in the accompanying basic financial statements. Separate financial statements for the Corporation are not published.

Discretely Presented Component Units – The Foundation, a non-profit direct-support organization of the District, is included as a discretely presented component unit in the accompanying basic financial statements. The purpose of the Foundation is exclusively educational and charitable, namely, to receive, hold, invest, and administer property and to make expenditures for the benefit of the District. In addition, the Foundation is fiscally dependent on the District to provide financial support for its ongoing operating expenses.

Additionally, in accordance with Section 1002.33, Florida Statutes, district school boards are authorized to approve charter school applications. Charter schools are public schools operating under a performance contract with the local school district and are fiscally dependent on the District for a majority of their funding. Revenues such as Florida Education Finance Program (FEFP), State Categoryals and other State and Federal revenue sources are received by the District on behalf of the charter schools and then remitted to them. As such, charter schools are funded on the same basis and are subject to the same financial reporting requirements as the District. Additionally, all students enrolled in charter schools are included in the District's total enrollment. There were 87 operating charter school sites in the 2023 fiscal year. All of the charter schools are considered component units of the District or another legal entity. For financial reporting

THE SCHOOL BOARD OF BROWARD COUNTY, FLORIDA

NOTES TO THE BASIC FINANCIAL STATEMENTS, Continued

purposes, 84 of the charter schools are included in the basic financial statements of the District as discretely presented component units. Alpha International Academy, Championship Academy of Distinction High School, Championship Academy of Distinction of West Broward, and The Ben Gamla Preparatory Academy were closed as of June 30, 2023.

The operations of charter schools within multiple locations operating under a single contract with the District are presented on a consolidated basis. Therefore, the operations of The Ben Gamla Preparatory Academy and Ben Gamla Charter School South Broward have been consolidated.

The audited financial information for Alpha International Academy, Championship Academy of Distinction High School, and Championship Academy of Distinction of West Broward were not reported to the District as of the date of publication of the ACFR.

The component units beginning net position does not agree to prior year ending net position on the Statement of Net Position because availability of financial information for individual charter schools varies from year to year. The accompanying basic financial statements include the operations of the District, the Corporation, the Foundation, and the 86 charter schools. The District is independent of and is not financially accountable for any other local governmental units or civic entities other than those mentioned above. The Foundation and charter schools are presented as discrete component units in the government-wide presentation.

B. MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND FINANCIAL STATEMENT PRESENTATION

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The basis of accounting refers to when revenues and expenditures/expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

Government-Wide Financial Statements – The Government-Wide Financial Statements are prepared under the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place. Non-exchange transactions, in which the District gives or receives value without directly receiving or giving value in exchange, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The Statement of Net Position and the Statement of Activities present financial information about the District's governmental and business-type activities. These statements include the financial activities of the government in its entirety, except for those that are fiduciary, and distinguish between the District's governmental and business-type activities. Governmental activities, which normally are supported by taxes and inter-governmental revenues, are reported separately from business-type activities, which are generally supported by fees charged. The District currently does not have any business-type activities.

The Statement of Net Position includes all assets and deferred outflows and liabilities and deferred inflows of the District. The Statement of Activities presents a comparison between the direct expenses and program revenues of the District. Direct expenses are those that are specifically associated with a program or function and therefore, are clearly identifiable to a particular function.

Amounts reported as program revenues include: 1) charges to students for tuition fees, rentals, materials, supplies, or services provided, 2) operating grants and contributions, and 3) capital grants and contributions. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

THE SCHOOL BOARD OF BROWARD COUNTY, FLORIDA

NOTES TO THE BASIC FINANCIAL STATEMENTS, Continued

The District eliminates from the Statement of Net Position and the Statement of Activities most interfund receivables and payables and transfers between funds as well as the transactions associated with its Internal Service Funds to minimize the effect of double counting. However, direct expenses are not eliminated from the various functional categories.

Fund Financial Statements – Governmental fund financial statements are prepared using the current financial resource measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, expenditures are generally recognized when the related fund liability is incurred. The main exceptions to this general rule are interest and principal on long-term debt, including lease liabilities, as well as expenditures related to compensated absences, pension obligation, self-insured claims, and other postemployment benefits, which are recognized when due, unless funds have been set aside in the debt service funds for repayments. General capital asset acquisitions, including entering into contracts giving the District the intangible right-to-use assets, are reported as expenditures in governmental funds. Issuance of long-term debt and financing through leases are reported as other financing sources. Allocations of cost, such as depreciation, are not recognized in governmental funds.

Revenues can be classified into two kinds of transactions: (a) exchange and exchange-like transactions, in which each party receives and gives up essentially equal value and (b) non-exchange transactions, in which a government gives (or receives) value without directly receiving (or giving) equal value in exchange.

Revenue resulting from exchange transactions is recorded on the modified accrual basis when the exchange takes place, if available.

Revenues resulting from non-exchange transactions are further classified into (a) derived tax revenues, (b) imposed non-exchange revenues, (c) government-mandated non-exchange transactions, and (d) voluntary non-exchange transactions. Derived tax revenues (e.g., sales taxes) are recorded when the transaction occurs. Imposed non-exchange transactions (e.g., property taxes) are recorded when the use of the resource is required or first permitted by time requirement (e.g., property taxes, the period for which they are levied). Government-mandated and voluntary non-exchange transactions (e.g., Federal mandates, grants, and donations) are recorded when all eligibility requirements have been met and the item is susceptible to accrual.

When applying the “susceptible to accrual” concept under the modified accrual basis, revenues are recognized when they become measurable and available. Measurable means the amount of the transaction can be determined. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met if available. The District considers all revenues except grant revenues to be available if they are collected within 60 days of the end of the current fiscal period. Grant revenues are considered available if collected within six months of the end of the current fiscal period.

The Proprietary fund financial statements are prepared under the economic resources measurement focus and the accrual basis of accounting.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund’s principal ongoing operations. The principal operating revenues of the District’s internal service funds are for graphics and printing, maintenance services and facility construction management provided to other funds. Operating expenses for the internal service funds include salaries, employee benefits, purchased services, supplies, materials, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

THE SCHOOL BOARD OF BROWARD COUNTY, FLORIDA

NOTES TO THE BASIC FINANCIAL STATEMENTS, Continued

Fiduciary (Custodial) funds are prepared under the economic resources measurement focus and the accrual basis of accounting.

The fund statements provide information about the District's funds, including fiduciary funds. Separate statements for each fund category – governmental, proprietary, and fiduciary – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds rather than reporting funds by type. Each major fund is reported in a separate column. Non-major funds are aggregated and reported in a single column. Currently, the District does not have any funds classified as enterprise funds. The District reports the following major funds:

GENERAL FUND

The General Fund is the primary operating fund of the District. The General Fund is used to account for all financial resources not required to be accounted for in another fund, and for certain revenues from the State that are legally restricted to be expended for specific current operating purposes.

FEDERAL EDUCATION STABILIZATION FUNDS

These funds are used to account for funding provided through (1) CARES Act: ESSER I Fund, (2) CRRSA Act: ESSER II Fund, and (3) ARP Act: ARP ESSER and ARP Other Funds. Direct funding provided to Local Educational Agencies (LEAs) for the purpose of addressing the impact that the COVID-19 pandemic has had, and continues to have, on elementary and secondary schools in Florida, including K-12 education, workforce education, and voluntary prekindergarten education. These funds are intended to provide emergency relief to ensure school districts are equipped to provide instructional services despite the challenges caused by COVID-19 and to assist students who have fallen behind as a result of the pandemic.

CERTIFICATE OF PARTICIPATION (COP) SERIES DEBT SERVICE FUNDS

These funds are used to account for the accumulation of resources for the payment of debt principal, interest, and related costs on the long-term certificates of participation series.

DISTRICT BONDS FUNDS– SMART

On November 4, 2014, the residents of Broward County approved the issuance of up to \$800 million of General Obligation Bond funds; the District has provided additional funding to aid in this project. This amount will be used to provide resources to fund critically needed projects and programs in Safety, Music and Art, Athletics, Renovation and Technology.

LOCAL MILLAGE CAPITAL IMPROVEMENT FUNDS

These funds are used to account for financial resources received from millage to be used for maintenance and other educational capital needs, including new construction, renovation, and remodeling projects.

OTHER CAPITAL PROJECTS FUNDS

These funds are used to account for financial resources that are not already captured in one of the other capital outlay funds. This includes, proceeds from certificates of participation, proceeds from capital equipment leases, school impact fees revenues, and also includes School Safety / School Hardening Grant proceeds from the State of Florida.

THE SCHOOL BOARD OF BROWARD COUNTY, FLORIDA

NOTES TO THE BASIC FINANCIAL STATEMENTS, Continued

The District also reports the following additional fund types:

PROPRIETARY FUNDS – INTERNAL SERVICE FUNDS

Internal Service Funds are used to account for the financing of goods or services provided by one department to another on a cost reimbursement basis. These funds are used to account for printing and other services provided to other District funds. Proprietary funds are included in the governmental activities in the government-wide financial statements.

FIDUCIARY FUND – CUSTODIAL FUND

This fund is used to account for resources of each school's internal fund, which is used to administer monies collected at the schools in connection with school, student athletics, classes, and club activities.

C. DEPOSITS AND INVESTMENTS

The District maintains an accounting system in which substantially all general District cash, investments, and accrued interest are recorded and maintained in a separate group of accounts. All such cash and investments are reflected as "Equity in Pooled Cash and Investments" in each fund in the accompanying financial statements. Investment income is allocated based on the weighted average balances of each fund's Equity in Pooled Cash and Investments.

Cash includes amounts in demand and time accounts as well as cash on hand. For purposes of the statement of cash flows, cash and cash equivalents also include highly liquid investments with an original maturity of three months or less at time of purchase.

The District currently holds investments in two short-term external accounts: 1) Florida Public Assets for Liquidity Management (FL PALM), which the FL PALM indicates is a Securities and Exchange Commission Rule 2a7-like external investment pool, as of June 30, 2023, is similar to money market funds in which shares are owned in the fund rather than the underlying investments; 2) The Local Government Surplus Funds Trust Fund (Trust Fund or Fund) administered by the State Board of Administration (Board) was created in 1977, is governed by Part IV of Chapter 218, Florida Statutes, titled Investment of Local Government Surplus Funds, and is now known as Florida PRIME. These amounts are reported at amortized cost which approximates fair value.

Investments are stated at fair value as determined from quoted market prices. Funds are invested in various instruments allowed by the District's investment policy and by Florida Statutes, including money market funds and bank certificates of deposit.

Types and amounts of investment held at fiscal year-end are described in a subsequent note.

D. INVENTORIES AND PREPAIDS

Inventories consist of expendable supplies held for consumption in the course of the District's operations. Inventories are stated at cost, as determined on a first-in, first-out basis, or a moving weighted average cost basis. United States Department of Agriculture commodities received from the Federal Government are recorded at the unit rate established by the Federal Government. This inventory is accounted for under the consumption method, and as such, is recorded as an expenditure when used.

Prepaid expenses are recognized when the goods or services are purchased but not consumed at year-end. The expenditure is recorded when the asset is used.

E. CAPITAL ASSETS

Capital assets are tangible and intangible assets, which include property, plant, equipment, land, and land improvements are reported in the government-wide financial statements and in the proprietary fund financial statements. Capital assets, which the District defines as those with an initial useful life of more than one year and costing more than \$1,000 for furniture and equipment, audio visual equipment, and motor vehicles; \$5,000 for land, buildings and fixed equipment, improvements other than buildings; \$100,000 for intangible assets including computer software and right-to-use lease assets. Such assets are recorded at historical cost or at estimated historical cost if the actual historical cost is not available (except for intangible right-to-use lease assets, the measurement of which is discussed below in subsection I. LEASES). Donated capital assets are recorded at acquisition value at the date of donation. Land, land improvements, construction in progress, and broadcast license intangible are not depreciated. Other capital assets used in operations are depreciated/amortized using the straight-line method over their estimated useful lives.

The estimated useful lives are as follows:

<u>Description</u>	<u>Estimated Useful Lives</u>
Land improvements	15 to 35 years
Buildings and fixed equipment	7 to 50 years
Furniture, fixtures, and equipment	5 to 20 years
Audio visual	5 years
Computer software	5 years
Motor vehicles	10 to 15 years

Depreciation expense on school buses has been allocated to the student transportation services function on the government-wide Statement of Activities. All other depreciation/amortization expense has been ratably allocated to the various expense functions based on an analysis of the use of each room in the District and its relative square footage. When capital assets are sold or retired, the related cost and accumulated depreciation are removed from the accounts and the resulting gain or loss is reflected in the results of operations in the government-wide statements and in the proprietary fund financial statements.

The District is required annually to evaluate prominent events or changes in circumstances affecting capital assets to determine whether impairment of a capital asset has occurred. Such events or changes in circumstances that may be indicative of impairment include evidence of physical damage, enactment or approval of laws or regulations or other changes in environmental factors, technological changes or evidence of obsolescence, changes in manner or duration of use of a capital asset, and construction stoppage. A capital asset is considered impaired when its service utility has declined significantly and unexpectedly. Based on these criteria, there was no impairment recognized in the 2023 fiscal year.

F. REVENUE

State Revenue Sources – Revenues from state sources for current operations are primarily from the Florida Education Finance Program (FEFP), administered by the Florida Department of Education (FDOE), under the provisions of Section 1011.62, Florida Statutes. The District files reports on full time equivalent (FTE) student membership with the FDOE. The FDOE accumulates information from these reports and calculates the allocation of FEFP funds to the District. After review and verification of FTE reports and supporting documentation, the FDOE may adjust subsequent fiscal period allocations of FEFP funding for prior year errors disclosed by its review. Normally, such adjustments are treated as reductions of revenue in the year the reduction is made.

The District receives revenue from the State to administer certain categorical educational programs. State Board of Education rules require that revenue earmarked for these programs be expended only for the program for which the money is provided and require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the same categorical educational

THE SCHOOL BOARD OF BROWARD COUNTY, FLORIDA

NOTES TO THE BASIC FINANCIAL STATEMENTS, Continued

programs. These funds are described as “restricted for categorical carryover programs” in the Statement of Net Position and the Governmental Funds Balance Sheet. The revenues for FEFP and categorical programs are recognized in the period in which the funds are available for use, when all eligibility requirements have been met, and when the funds are available.

From the Public Education Capital Outlay and Debt Service Trust Fund (PECO), the State allocates funding on an annual basis. Funds are used for maintenance, repair, renovation, and remodeling. In recent years, 100 percent of K-12 district funding was for charter schools. The State allocates from the General Revenue Fund the School Hardening Grant Program to improve the physical security of school buildings. Funds may only be used for capital outlay purposes and are allocated based on approved applications annually. From motor vehicle license revenues, the State collects and remits annually to the district Capital Outlay and Debt Services funds (CO&DS). Funds are for capital outlay purposes.

Educational Impact Fees – Broward County imposes an educational impact fee based on an ordinance adopted by the County Commission in 1982. This ordinance was most recently amended in May 2020 when Ordinance 2020-22 established revisions to the educational impact fees. The educational impact fee is collected for most new residential development by the County and each municipality within the County based on an interlocal agreement. A new interlocal agreement was entered on September 2020 providing additional clarity on expending school impact fees. The fees are to be used solely for the acquisition of school sites or the provision of facilities to the public educational system necessitated by new residential development and are not to be used to pay new or existing debt for previously approved projects unless the expenditure is reasonably connected to, or has a rational nexus with, the increased impact generated by the new residential development. The authorized uses primarily include needed school facilities including, but are not limited to, acquiring new school sites; construction of new schools; classroom additions; addition to core capacities; and acquiring technology by the growth necessitated by new residential development.

Property Taxes – In the fund financial statements, property tax revenue is recognized when levied for, and available, which is when received, except at year end when revenue is accrued for taxes collected by the Broward County Revenue Collector as of fiscal year end but remitted to the District within 60 days subsequent to fiscal year end. Any delinquent taxes expected to be collected in the subsequent fiscal year are accrued for and reported as unavailable revenue at year-end. Delinquent taxes collected in subsequent periods are recognized as revenue during the fiscal year in which they are received. In the government-wide financial statements, property tax revenue is recognized when levied for, net of allowance for estimated uncollectible amounts. Accordingly, uncollected, but earned, property tax revenue, net of uncollectible amounts, represent a reconciling item between the fund and government-wide presentation.

Federal Revenue Sources – The District receives Federal awards for the enhancement of various educational programs. Federal awards are generally awarded based on applications submitted to, and approved by, various granting agencies. For Federal awards for which a claim to these grant proceeds is based on incurring eligible expenditures, revenue is recognized to the extent that eligible expenditures have been incurred, at the government-wide level and if incurred and available in the governmental funds.

G. UNEARNED/UNAVAILABLE REVENUE

Resources that do not meet revenue recognition requirements (not earned) are recorded as unearned revenue in the government-wide and the fund financial statements. In addition, amounts related to government fund receivables that are measurable, but not available are recorded as unavailable revenue in the governmental fund financial statements.

H. LONG-TERM OBLIGATIONS

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the Statement of Net Position. Debt premiums and discounts and deferral amounts on refunding are deferred and amortized over the life of the bonds using the effective interest method, or the straight-line

method if it does not differ materially from the effective interest method. Debt payable is reported net of the applicable debt premium or discount. Debt issuance costs are expensed when incurred. Deferred gains (losses) on refundings are reported as deferred outflows or inflows of resources.

In the fund financial statements, governmental fund types recognize debt premiums and discounts and prepaid insurance costs during the current period. The face amount of the debt issues is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Debt issuance costs, whether or not withheld from the actual debt proceeds received and principal payments, are reported as debt service expenditures.

I. LEASES

The District is a lessee for a noncancellable leases of buildings and fixed equipment. The District recognizes a lease liability and an intangible right-to-use lease asset in the government-wide financial statements. Lease liabilities are recognized with an initial, individual value of \$100,000 or more.

At the commencement of a lease, the District initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion as lease payments are made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for any payments made at or before the lease commencement date, plus certain direct costs. The lease asset is amortized on a straight-line basis over the shorter of the lease term or the useful life of the underlying asset.

Key estimates and judgments related to leases include how the District determines 1) the discount rate it uses to discount the expected lease payments to present value, 2) lease term, and 3) lease payments.

- The District uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the District generally uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that the District is reasonably certain to exercise.

The District monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Lease assets are reported with other capital assets and lease liabilities are reported with long-term debt on the statement of net position.

J. COMPENSATED ABSENCES

Compensated absences are salary related payments to employees for accumulated vacation and sick leave. These amounts also include the related employer's share of Social Security and Medicare and retirement contributions. They are recorded as expenditures when used or are accrued as a payable to employees who are entitled to cash payment in lieu of taking leave. District employees may accumulate unused sick leave without limitation and unused vacation up to a specified amount depending on their date of hire. Vacation leave is payable to employees upon termination or retirement at the current rate of pay on the date of termination or retirement. Sick leave is payable to employees upon retirement at the rate of pay in effect at the time the leave is earned. The number of days payable is subject to limitations as set forth in District policies.

The government-wide financial statements report long-term liabilities or obligations that are expected to be paid in the future. Long-term liabilities reported include vested vacation and sick pay benefits and an estimate for anticipated non-vested sick pay benefits. The current portion represents the estimated terminal sick-leave amount that is due to, and has not been paid out to, employees who have retired on or prior to June 30, 2023.

The non-current portion (the amount estimated to be used in subsequent fiscal years) is maintained separately and represents a reconciling item between the fund financial statements and government-wide financial statements.

K. SELF-INSURANCE

The District is self-insured for portions of its general and automobile liability insurance, workers' compensation, and health insurance. The estimated liability for self-insured risks represents an estimate of the amount to be paid on claims reported and on claims incurred but not reported (see Note 15 of the Notes to the Basic Financial Statements). For the governmental funds, in the fund financial statements, the liability for self-insured risks is considered long-term and therefore, is not a fund liability (except for any amounts due and payable at year end) and represents a reconciling item between the governmental fund level and government-wide presentations.

L. FUND BALANCE

Fund balance is the difference between fund assets and liabilities in the governmental fund financial statements that are based on the modified accrual basis of accounting. GASB Statement No. 54 (GASB 54), *Fund Balance Reporting and Governmental Fund Type Definitions*, provides for two major fund balance classifications: nonspendable and spendable. Nonspendable fund balance includes amounts that cannot be spent because they are not expected to be converted to cash or they are legally or contractually required to remain intact. Examples of nonspendable fund balance include inventory, prepaid items, and the principal (corpus) of a permanent fund. The District has classified inventory and prepaids as nonspendable.

GASB 54 provides for four categories of the spendable fund balance classification based on the level of constraint placed on the use of those resources:

- Restricted fund balance includes amounts on which constraints have been placed by creditors, grantors, contributors, laws or regulations of other governments, constitutional provisions or enabling legislation.
- Committed fund balance includes resources constrained to a specific purpose by the District's highest level of decision-making authority, the School Board. This formal action is completed through a Board resolution. These items cannot be used for any other purpose unless the Board takes action to remove or change the constraint through the same formal action of a Board resolution.
- Assigned fund balance represents amounts that are constrained by the District's intent to be used for specific purposes but are neither restricted nor committed. Under the provisions of Section 1001.51, Florida Statutes, Duties and Responsibilities of District School Superintendent, the superintendent is delegated certain financial authority. The District's management can assign fund balance based on Board direction.
- Unassigned fund balance in the General Fund includes the remaining fund balance, or net resources, available for any purpose. A negative unassigned fund balance may be reported in other governmental funds if expenditures incurred for specific purposes exceeded the amounts restricted, committed, or assigned to those purposes.

THE SCHOOL BOARD OF BROWARD COUNTY, FLORIDA

NOTES TO THE BASIC FINANCIAL STATEMENTS, Continued

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed.

In addition, the District has adopted Board Policy 3111 which provides for a minimum unreserved and undesignated General Fund balance of 3 percent of the total annual operating expenditures. In the event the fund balance falls below 3.5 percent, the Chief Financial Officer must notify the Superintendent and the Board and future requests to draw from the fund balance must be approved by the Board by super majority. In the event the fund balance falls below 3 percent, the Chief Financial Officer is required to provide a financial plan to the Board to restore the funds to the minimum 3 percent amount, along with a timeline for restoration.

M. NET POSITION

In the Statement of Net Position, assets, plus deferred outflows of resources, less liabilities, less deferred inflows of resources, equals net position on the government-wide and proprietary fund financial statements that are based on the accrual basis of accounting. Net position is displayed in three components:

- The Net Investment in Capital Assets component of net position consists of capital assets (net of accumulated depreciation) and deferred outflow of resources for losses on refunding transactions, reduced by the outstanding balance of debt related to the acquisition or construction of those assets and deferred inflow of resources for gains on refunding transactions.
- The Restricted component of net position consists of restricted net assets (where constraints on their use are: 1) externally imposed by creditors, grantors, contributors or laws or regulations of other governments, or 2) imposed by law through constitutional provisions or enabling legislation), reduced by liabilities and deferred inflows of resources related to those assets.
- The Unrestricted component of net position (deficit) consists of the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of the other two components of net position.

When both restricted and unrestricted assets are available for a specific purpose, it is the District's policy to use restricted assets first, until exhausted, before using unrestricted resources. Further descriptions of the components of net position are addressed in Note 17 of the Notes to the Basic Financial Statements.

N. MANAGEMENT'S USE OF ESTIMATES

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, deferred inflows and outflows, contingent assets and liabilities disclosed at the date of the financial statements, and the reported amount of revenues and expenses/expenditures during the reporting period. Actual results could differ from those estimates.

O. DEFERRED OUTFLOWS/INFLOWS OF RESOURCES

In addition to assets, the Statement of Net Position has a separate section for deferred outflows of resources. The separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to future period(s) and will not be recognized as an outflow of resources (expense) until then. Deferred inflows of resources represents an acquisition of net assets that applies to future period(s) and will not be recognized as inflow of resources (revenue) until then. Deferred outflows of resources include deferred loss on refunding debt, pension actuarial adjustments, and OPEB actuarial adjustments.

THE SCHOOL BOARD OF BROWARD COUNTY, FLORIDA

NOTES TO THE BASIC FINANCIAL STATEMENTS, Continued

In addition to liabilities, the Statement of Net Position has a separate section for deferred inflows of resources. The separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future periods and will not be recognized as an inflow of resources (revenue) until that time. Deferred inflows of resources include deferred gain on refunding debt, pension actuarial adjustments, and OPEB actuarial adjustments.

A deferred loss/gain on refunding results from the difference in the carrying value of the refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded debt or new refunding debt. The deferred outflows/inflows of resources related to pensions and OPEB are discussed in subsequent notes.

P. PENSIONS

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, information about the fiduciary net position of the Florida Retirement System (FRS) and Health Insurance Subsidy (HIS) pension plans, and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by the Plans and are recorded in the government-wide financial statements. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Q. IMPACT OF NEW ACCOUNTING PRONOUNCEMENTS

In May 2019, GASB issued Statement No. 91, *Conduit Debt Obligations*. This Statement became effective for fiscal year end June 30, 2023. This Statement will provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement achieves those objectives by clarifying the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improving required note disclosure. This standard did not impact the District's financial statements.

In March 2020, GASB issued Statement No. 93, *Replacement of Interbank Offered Rates*. This Statement became effective for fiscal year end June 30, 2022, with the exception of the removal of LIBOR as an appropriate benchmark interest rate which became effective June 30, 2023. This Statement addresses accounting and financial reporting implications that result from the replacement of an Interbank Offered Rate. This Statement achieves that objective by: (1) providing exceptions for certain hedging derivative instruments to the hedge accounting termination provisions when an IBOR is replaced as the reference rate of the hedging derivative instrument's variable payment; (2) clarifying the hedge accounting termination provisions when a hedged item is amended to replace the reference rate; (3) clarifying that the uncertainty related to the continued availability of IBORs does not, by itself, affect the assessment of whether the occurrence of a hedged expected transaction is probable; (4) removing LIBOR as an appropriate benchmark interest rate for the qualitative evaluation of the effectiveness of an interest rate swap; (5) identifying a Secured Overnight Financing Rate and the Effective Federal Funds Rate as appropriate benchmark interest rates for the qualitative evaluation of the effectiveness of an interest rate swap and (6) clarifying the definition of reference rate, as it is used in Statement 53, *Accounting and Financial Reporting for Derivative Instruments*, as amended. This standard did not impact the District's financial statements.

In March 2020, GASB issued Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*. This Statement became effective for fiscal year end June 30, 2023. This Statement will improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). This Statement also provides guidance for accounting and financial reporting for availability payment arrangements (APAs). The requirements of this Statement will improve

THE SCHOOL BOARD OF BROWARD COUNTY, FLORIDA

NOTES TO THE BASIC FINANCIAL STATEMENTS, Continued

financial reporting by establishing the definitions of PPPs and APAs and providing uniform guidance on accounting and financial reporting for transactions that meet those definitions. This standard did not impact the District's financial statements.

In May 2020, GASB issued Statement No. 96, *Subscription-Based Information Technology Arrangements*. The District implemented GASB Statement No. 96, *Subscription-Based Information Technology Arrangements*, for the fiscal year ended June 30, 2023. The primary objective of this statement is to enhance the relevance and consistency of information about governments' subscription activities. This statement, implemented for the year ended June 30, 2023, establishes a single model for subscription accounting based on the principle that subscriptions are financings of the right to use an underlying asset. This standard did not impact the District's financial statements.

In April 2022, GASB issued GASB 99 - *Omnibus 2022*. The requirements of this Statement that are related to the accounting and financial reporting for leases, PPPs, and SBITAs became effective for fiscal year end June 30, 2023 and requirements related to financial guarantees and derivative instruments within the scope of Statement 53 are effective for fiscal year end June 30, 2024, while all other requirements are effective immediately. The objectives of this Statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing (1) practice issues that have been identified during implementation and application of certain GASB Statements and (2) accounting and financial reporting for financial guarantees. The practice issues addressed by this Statement are as follows: (1) classification and reporting of derivative instruments within the scope of Statement No.53, *Accounting and Financial Reporting for Derivative Instruments*; (2) clarification of provisions in Statement No. 87, *Leases*; (3) clarification of provisions in Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, related to (a) the determination of the public-private and public-public partnership (PPP) term and (b) recognition and measurement of installment payments and the transfer of the underlying PPP asset; (4) clarification of provisions in Statement No. 96, *Subscription-Based Information Technology Arrangements*, related to the subscription-based information technology arrangement (SBITA) term, classification of a SBITA as a short-term SBITA, and recognition and measurement of a subscription liability; (5) extension of the period during which the London Interbank Offered Rate (LIBOR) is considered an appropriate benchmark interest rate for the qualitative evaluation of the effectiveness of an interest rate swap that hedges the interest rate risk of taxable debt; (6) accounting for the distribution of benefits as part of the Supplemental Nutrition Assistance Program (SNAP); (7) disclosures related to nonmonetary transactions; (8) pledges of future revenues when resources are not received by the pledging government; (9) clarification of provisions in Statement No. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*; (10) terminology updates related to certain provisions of Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position* and (11) terminology used in Statement 53, *Accounting and Financial Reporting for Derivative Instruments*, to refer to resource flows statements. This standard did not impact the District's financial statements.

In June 2022, GASB issued Statement No. 100, *Accounting Changes and Error Corrections*—an amendment of GASB Statement No. 62. This Statement will become effective for fiscal year end June 30, 2024. This Statement establishes accounting and financial reporting requirements for (a) accounting changes and (b) the correction of an error in previously issued financial statements (error correction). The requirements of this Statement do not apply to the initial application of U.S. generally accepted accounting principles (GAAP) established by the GASB as a financial reporting framework in circumstances in which a government is asserting for the first time that its financial statements are prepared in accordance with U.S. GAAP established by the GASB. This standard is not expected to impact the District's financial statements.

In June 2022, GASB issued Statement No. 101, *Compensated Absences*. This Statement will become effective for fiscal year end June 30, 2025. This Statement establishes standards of accounting and financial reporting for (a) compensated absences and (b) associated salary-related payments, including certain defined contribution pensions and defined contribution other postemployment benefits (OPEB). This standard is not expected to impact the District's financial statements.

THE SCHOOL BOARD OF BROWARD COUNTY, FLORIDA

NOTES TO THE BASIC FINANCIAL STATEMENTS, Continued

Management of the District is still in the process of determining what effect, if any, the above Statements with an implementation date after June 2023 will have on the basic financial statements and related disclosures.

R. ROUNDING

Due to rounding of whole numbers, some tables or schedules within the financial statements may not add to total.

2. DEPOSITS AND INVESTMENTS

Board Policy Number 3110, a comprehensive investment policy pursuant to Section 218.415, Florida Statutes, establishes permitted investments, asset allocation limits and issuer limits, credit ratings requirements and maturity limits to protect the District's cash and investment assets. The policy's main objectives are geared to maintaining the safety of principal, liquidity, and return on investment.

Cash and Cash Equivalents:

As of June 30, 2023, the carrying amount of the District's bank deposit account was \$57 million. Banks qualified as public depositories under the Florida Security for Public Deposits Act as required by Chapter 280, Florida Statutes, all deposits.

Cash equivalents consist of amounts placed with Bank of America, FL PALM, and Florida PRIME.

Funds can be invested in non-negotiable interest-bearing time certificates of deposit or savings accounts in banks organized under the laws of this state and/or in National Banks organized by the laws of the United States and doing business and situated in the State of Florida, provided that any such deposits are secured by the Florida Security for Public Deposits Act, Chapter 280, Florida Statutes. A maximum of 25 percent of available funds may be invested in non-negotiable interest-bearing time certificates of deposit. A maximum of 15 percent of available funds may be deposited with any one issuer. The maximum maturity on any certificate is one year from the date of purchase.

Cash and investments at June 30, 2023, are shown below (in thousands):

NOTES TO THE BASIC FINANCIAL STATEMENTS, Continued

Fair Value:

In February 2015, GASB issued Statement No. 72, addressing the accounting and financial reporting issues related to fair value measurements. GASB No. 72 defines fair value as the price that would be received to sell an asset. The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets; Level 2 inputs are based on other significant observable inputs such as indices for fixed income bonds and quoted prices for similar assets in markets that are not active. As of June 30, 2023, the District did not have any Level 3 investments.

In accordance with GASB No.79, the Bank of America Money Market Funds, FL PALM, and Florida PRIME accounts meet the necessary criteria and report their investments at amortized cost. Therefore, the pool participants do not need to adjust the investments to fair value.

As of June 30, 2023, the District has the following recurring fair value measurements (in thousands):

	Total Assets 6/30/2023	Fair Value Measurement Using	
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)
<u>Investments by fair value level</u>

Credit Risk:

The District has adopted an investment policy that authorizes the District to participate in the Florida PRIME. The policy also authorizes the District to invest in interest-bearing time deposits or savings accounts, direct obligations of the United States Treasury, Federal Agencies, discount notes, and money market funds with the highest credit quality rating from nationally recognized statistical rating organizations and registered with the Securities and Exchange Commission; State and/or local government taxable and/or tax exempt debt, general obligation and/or revenue bonds, rated at least "Aa" by Moody's and "AA" by Standard & Poor's for long term debt, or rated at least "MIG-2" by Moody's and "SP-2" by Standard & Poor's for short-term debt; and bankers acceptances issued by a domestic bank or a federally chartered domestic office of a foreign bank, which are eligible for purchase by the Federal Reserve System, at the time of purchase, the short term paper is rated, at a minimum, "P-1" by Moody's Investors Services and "A-1" by Standard & Poor's. Additionally, the bank shall not be listed with any recognized credit watch information service.

Interest Rate Risk:

The District manages its exposure to interest rate risk by forecasting cash outflows and inflows. To the extent possible, an attempt will be made to match investment maturities with known cash needs and anticipated cash flow requirements. Investments of current operating funds shall have maturities of no longer than twenty-four (24) months. According to the District’s policy, securities may be purchased at a premium or traded for other securities to improve yield, maturity, or credit risk.

Investments of bond reserves, construction funds, and other non-operating funds (core funds) shall have a term appropriate to the need for funds and in accordance with debt covenants, but in no event shall exceed five (5) years.

Concentration of Credit Risk:

The District's Investment policy has established asset allocation and issuer limits on the following investments, which are designed to reduce concentration of credit risk of the District's Investment Portfolio.

Asset-Backed Securities (ABS):

The Treasurer may invest in asset-backed securities (ABS) which are bonds or notes backed by financial assets. A maximum of 10 percent of available funds may be invested in ABS. A maximum of 5 percent of available funds may be invested with any one ABS. ABS shall be "AA" rated or better by Standard & Poor's or the equivalent by another nationally recognized rating agency. The maximum length to maturity for an investment in any ABS is ten (10) years from the date of purchase.

THE SCHOOL BOARD OF BROWARD COUNTY, FLORIDA

NOTES TO THE BASIC FINANCIAL STATEMENTS, Continued

Commercial Paper:

The Treasurer may invest in commercial paper of any United States company that is rated, at the time of purchase, "Prime-1" by Moody's and "A-1" by Standard & Poor's (prime commercial paper). If the commercial paper is backed by a letter of credit (LOC), the long-term debt of the LOC provider must be rated "A" or better by at least two (2) nationally recognized rating agencies. A maximum of 35 percent of available funds may be directly invested in prime commercial paper. The maximum length to maturity for prime commercial paper shall be 270 days from the date of purchase.

Corporate Notes:

The Treasurer may invest in Corporate Notes issued by corporations organized and operating within the United States or by depository institutions licensed by the United States that have a long-term debt rating, at the time of purchase, at a minimum "Aa" by Moody's and a minimum long term debt rating of "AA" by Standard & Poor's. A maximum of 25 percent of available funds may be invested in corporate notes. Only 5 percent may be invested with any one (1) issuer. The length of maturity shall be five (5) years from the date of purchase.

Federal Agency (U.S. Government sponsored agencies):

The Treasurer may invest in bonds, debentures, notes or callables issued or guaranteed by the United States Government sponsored Agencies (Federal Instrumentalities), which are non-full faith. A maximum of 80 percent of available funds may be invested in Federal Instrumentalities. A maximum of 40 percent may be invested in any one issuer. The maximum length to maturity for an investment is ten (10) years from the date of purchase.

Municipal Bonds:

The Treasurer may invest in state and/or local government taxable and/or tax-exempt debt, general obligation and/or revenue bonds, rated at least "Aa" by Moody's and "AA" by Standard & Poor's for long-term debt, or rated at least "MIG-2" by Moody's and "SP-2" by Standard & Poor's for short-term debt. A maximum of 20 percent of available funds may be invested in taxable and tax-exempt debts. A maximum length to maturity for an investment in any state or local government debt security is three (3) years from the date of purchase.

U.S. Government Securities:

The Treasurer may invest in negotiable direct obligations, or obligations the principal and interest of which are unconditionally guaranteed by the United States Government. A maximum of 100 percent of available funds may be invested in these securities; the maximum length to maturity is ten (10) years from the date of purchase. These securities include but are not limited to: Cash Management Bills, Treasury Securities - State and Local Government Series (SLGS), Treasury Bills, Treasury Notes, Treasury Bonds, and Treasury Strips.

Custodial Risk:

Pursuant to Florida Statute 218.415 (10), securities, with the exception of certificates of deposit, are held with a third-party custodian, and all securities purchased by, and all collateral obtained by the District is properly designated as an asset of the District. The securities are held in an account separate and apart from the assets of the financial institution.

As of June 30, 2023, the District's investment portfolio was held by Principal Custody Solutions, a third-party custodian, as required by the School Board's investment policy.

4. AD VALOREM TAXES

The District is authorized by Florida Statutes to levy property taxes for District operations, capital improvements and debt service. Property taxes consist of ad valorem taxes on real and personal property within the District. Property taxes are assessed by the Broward County Property Appraiser and are collected by the Broward County Revenue Collector who remits them to the District. The Board adopted the 2022 tax levy on September 13, 2022.

THE SCHOOL BOARD OF BROWARD COUNTY, FLORIDA

NOTES TO THE BASIC FINANCIAL STATEMENTS, Continued

Property values are assessed as of January 1 of each year, and levied on November 1, at which time taxes become an enforceable lien on property. Such levy serves to finance expenditures of the following fiscal year. Tax bills are mailed in October and taxes are payable between November 1 of the year assessed and March 31 of the following year at discounts of up to four percent for early payment.

On April 1 of the year following the year of assessment, taxes become delinquent and Florida Statutes provide for enforcement of collection of personal property taxes by seizure of the property to satisfy unpaid taxes and for enforcement of collection of real property taxes by the sale of interest-bearing certificates to satisfy unpaid taxes at any time after they become delinquent. The District recognizes revenue during the fiscal year following the year of assessment. Accordingly, substantially all the taxes assessed on January 1, 2022, have been recognized during the fiscal year ended June 30, 2023.

The following is a summary of millages and taxes levied on the final 2022 tax rolls for the fiscal year 2023 (dollars in thousands):

	Millages	Taxes		
		Levied	Collected	Uncollected
<u>General Fund</u>				
Non-voted School Tax:				
Required Local Effort	3.203	\$ 856,949	\$ 819,472	\$ 3,199

<u>Debt Service Funds</u>				
Voted Tax:				
Debt Service	<u>0.187</u>	<u>\$ 50,111</u>	<u>\$ 47,929</u>	<u>\$ 178</u>

The State Constitution limits the non-voted levying of taxes by the District to 10 mills (\$10.00 per thousand of assessed valuation). State law prescribes the upper limit of non-voted taxes to be levied on an annual basis, with the fiscal year 2023, limit being 5.45 mills, which includes up to 1.50 mills for the Capital Projects Funds. The voter approved levy for debt service is limited to 6.00 mills; for fiscal year 2023, the levy was 0.19 mills for Debt Service Funds and 0.50 mills for the Referendum Fund.

The total assessed value for calendar year 2022, on which the fiscal 2023 levy was based, was approximately \$267.5 billion, which is subject to change based upon appeals to the Broward County Value Adjustment Board.

The Broward County Revenue Collector is not required by law to make an accounting to the District of the difference between taxes levied and taxes collected. The State required the District to budget at a 96 percent collection rate. The actual property taxes collected or accrued for fiscal year 2023 were 95.63 percent of the taxes levied.

8. LEASES PAYABLE

The primary objective of the GASB Statement No. 87, *Leases* statement is to enhance the relevance and consistency of information about governments' leasing activities. This statement, implemented for the year ended June 30, 2022, establishes a single model for lease accounting based on the principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources. For additional information, refer to the disclosures below.

On July 1, 2021, the District recognized a 90-month lease as Lessee for the use of American Tower's Antenna/Transmitter Site for BECON TV. An initial lease liability was recorded in the amount of \$1.4 million. As of June 30, 2023, the value of the lease liability is \$1.1 million. The District is required to make monthly fixed payments of \$14.8 thousand. The lease has an interest rate of 1.45%. The value of the right to use asset as of June 30, 2023, of \$1.4 million with accumulated amortization of \$374.9 thousand is included with buildings and fixed equipment on the lease asset by major class table found below. The District has four extension options, each for 60 months. The District had a termination period of six months as of the lease commencement.

On July 1, 2021, the District recognized a 65-month lease as Lessee for the use of Lauderhill Partner's Warehouse and Storage Yard. An initial lease liability was recorded in the amount of \$1.7 million. As of June 30, 2023, the value of the lease liability is \$1.1 million. The District is required to make monthly fixed payments of \$26.8 thousand. The lease has an interest rate of 1.06%. The value of the right to use asset as of June 30, 2023, of \$1.7 million with accumulated amortization of \$626.4 thousand is included with buildings and fixed equipment on the lease asset by major class table found below. The District has one extension option of 60 months.

On June 30, 2023, the various lease assets (by major class of underlying asset) reported in the government-wide statements were as follows (in thousands):

	Amount
Lease asset - Buildings and fixed equipment	\$ 3,102
Less: Accumulated amortization	(1,001)

NOTES TO THE BASIC FINANCIAL STATEMENTS, Continued

- (i) Series 2009A-QSCBs (Qualified School Construction Bonds) are issued with principal only repaid by the District (no interest) and the investor receives a tax credit in lieu of interest payment. Annual payments of \$4,540,000 are being made for 11 consecutive years, being deposited in an escrow account held by a fiscal agent. The annual payment however, may be reduced through the purchase of Treasury Strips by the fiscal agent, which when coupled with interest earnings and net appreciation in market value, will be sufficient to pay off the principal balance of the QSCB, in full, at maturity on July 1, 2024.

On November 4, 2014, the residents of Broward County approved the issuance of up to \$800 million of General Obligation Bond funds; the District has also provided an additional \$461 million to aid in this project. This amount will be used to provide resources over a five year period to fund critically needed projects and programs in Safety, Music and Art, Athletics, Renovation and Technology.

Four separate bond series have been issued pursuant to this referendum. The General Obligation Bonds, Series 2015 were issued on June 18, 2015 in the amount of \$155 million, General Obligation Bonds, Series 2019 were issued on February 13, 2019 in the amount of \$174.7 million, General Obligation Bonds, Series 2021 were issued on February 16, 2021 in the amount of \$207.5 million and General Obligation Bonds and Series 2022 were issued on May 18, 2022 in the amount of \$262.7 million. All series are secured by the general taxing authority of the District.

The Capital Outlay Bond Issues (COBI) are retired by the State for the District. The bonds mature serially and are secured by a pledge of the District's share of revenue from the sale of license plates. The State Board of Administration determines the sinking fund requirements for these bonds annually. The sinking fund, maintained in the COBI Debt Service Fund, at June 30, 2023 was \$83 thousand.

The School Board entered into certain annual appropriation master lease purchase agreements under which it has financed to date \$296 million of buses, vehicles, equipment, computer devices and software, \$124.5 million are presently outstanding. The School Board expects to finance additional items from time to time under such Equipment Finance Agreements. Payments are expected to be made from local option millage levy revenues.

State school bonds are issued by the State Board of Education (SBE) on behalf of the District. The bonds mature serially and are secured by a pledge of the District's portion of the State-assessed motor vehicle license tax. The State's full faith and credit is also pledged as security for these bonds. Principal and interest payments, investment of Debt Service Fund resources, and compliance with reserve requirements are administered by the SBE and the SBA.

The Tax Reform Act of 1986 requires local units of government to rebate to the Federal Government the income (in excess of interest costs) received from investing proceeds on substantially all tax-exempt debt issued subsequent to August 1986. Such rebate of cumulative arbitrage earnings must be paid every five years until such time as the proceeds have been expended. For the fiscal year ended June 30, 2023, the District has no accrued liability for rebatable arbitrage.

The Tax Cut and Job Act of 2017 amended the Internal Revenue Code of 1986. One of the changes affecting the District and other public issuers was the elimination of advance refunding.

10. OBLIGATION UNDER LEASE PURCHASE AGREEMENT-CERTIFICATES OF PARTICIPATION

The District entered into a Lease Purchase Agreement with the Corporation on June 15, 1989 and a Master Lease Purchase Agreement on July 1, 1990 (the "lease agreements") to finance the acquisition or construction of certain facilities, vehicles and equipment for District operations.

The following table shows issues/refunding to third parties, evidencing undivided proportionate interest in basic lease payments to be made by the District as lessee pursuant to the lease agreements. Interest rates ranged from 3.25 percent to 6.45 percent. The actual interest rate for the outstanding issuance as of June 30, 2023 is reflected in the table below:

Annual payments of \$4,540,000 are being made for 11 consecutive years, being deposited in an escrow account held by a fiscal agent.

(1) **2009A-QSCB**

Issued to finance the cost of acquisition, construction, installation and equipping education facilities. These are non-interest obligations and are issued as "principal only" (i.e. the principal is repaid by the District). The Certificates are not insured by any municipal bond insurance policy. Principal payments may be reduced through the purchase of Treasury Strips by the fiscal agent, which when coupled with interest earnings and net appreciation in market value, will be sufficient to pay off the principal balance of the QSCB, in full, at maturity on July 1, 2024.

(2) **2010A-QSCB**

Issued to finance the cost of acquisition, construction, installation and equipping education facilities. This is a taxable obligation with the District receiving a direct subsidy rebate of a portion of the interest cost from the U.S. Treasury. The Certificates are not insured by any municipal bond insurance policy. Principal payments may be reduced through the purchase of Treasury Strips by the fiscal agent, which when coupled with interest earnings and net appreciation in market value, will be sufficient to pay off the principal balance of the QSCB, in full, at maturity on July 1, 2027.

NOTES TO THE BASIC FINANCIAL STATEMENTS, Continued

The Certificates are not separate legal obligations of the District, but represent undivided interests in the basic lease payments to be made from appropriated funds budgeted annually by the Board for such purposes from current or other funds authorized by law and regulations of the Department of Education. However, neither the District, the State of Florida, nor any political subdivision thereof, shall be obligated to pay, except from appropriated funds, any sums due under the leases from any source of taxation. The full faith and credit of the District is not pledged for payment of such sums due hereunder and such sums do not constitute an indebtedness of the District within the meaning of any constitutional or statutory provision or limitation. The American Recovery and Reinvestment Act (ARRA) of 2009, signed into law on February 17, 2009, created another category of direct subsidy debt for school districts: Qualified School Construction Bonds (QSCBs). The QSCBs does not represent incremental federal funding and must be repaid by the District.

The Corporation leases the facilities, vehicles and equipment to the District under the lease agreements, which are automatically renewable through varying dates (see summary below), unless earlier terminated following the occurrence of an event of default or a non-appropriation of funds to make lease payments, all as described and defined in the leases. Failure to appropriate funds to pay lease payments under any lease will, and an event of default under any lease may, result in the termination of all leases, including the 2009A-QSCB, 2010A-QSCB, 2015A, 2015B, 2016A, 2016B, 2017B, 2017C, 2019A, 2019B, 2020A, 2022A, and 2022B. Events of default related to a lease would result from the School Board's failure to pay in full any lease payment, failure to observe and perform any covenant or condition or agreement for sixty (60) days after written notice specifying such failure and requesting that it be remedied, filing of a petition in bankruptcy, insolvency, or reorganization. The remedies on default include the immediate surrender and delivery of possession of all facilities, vehicles and certain equipment (excludes certain computer equipment) financed under all leases to the Trustee in the condition, state of repair and appearance required under the leases. Upon such surrender, the Trustee will sell or lease such facilities, vehicles and certain equipment in such manner and to such person as it determines appropriate. The proceeds of any sale or lease will be applied first to the payment in full of the Certificates and then to the payment of the District's obligations under the reimbursement agreement and finally to the payment of the District.

NOTES TO THE BASIC FINANCIAL STATEMENTS, Continued

The Corporation entered into trust agreements with the Trustee pursuant to which the Certificates will be executed, delivered and paid under the terms of which (together with the leases) the facilities, vehicles and equipment will be acquired and/or constructed. Trust funds have been established with the Trustee to facilitate payments in accordance with the lease purchase agreement and the trust agreements securing payment of the Certificates.

As a condition of the financing arrangement, the District has given ground leases on District properties to the Broward School Board Leasing Corporation, with a rental fee of \$1 per year. The properties covered by the ground leases are, together with the improvements constructed thereon from the financing proceeds, leased back to the District. If the District fails to renew the leases and to provide for the rent payments through to term, the District may be required to surrender the sites included under the various Ground Lease Agreements for the benefit of the securers of the Certificates until the earlier of the date paid in full or for a period of time as specified by the respective lease term.

11. COMPENSATED ABSENCES

District employees are granted a specific number of vacation days and sick leave with pay as services are rendered. Certain employees are paid for portions of sick leave accrued but not used in a fiscal year. Administrative, supervisory and non-instructional professional employees are paid for unused vacation (up to a maximum of 60 days) upon termination. All other eligible employees are paid for unused vacation (up to a maximum of 50 days) upon termination.

All employees are eligible to receive portions of accumulated unused sick pay upon retirement. Such portions are determined based upon the employee's length of service. Prior to July 1, 2004, Florida Statutes and Board policy limited retirement sick leave payments to no more than 25 percent of the sick leave accumulated on or after July 1, 2001, up to a maximum payment of 60 days. Beginning July 1, 2004, this limitation was eliminated.

At June 30, 2023, the balance of compensated absences payable from future resources was \$32.2 million for accumulated vacation leave and \$146.6 million for accumulated sick leave and are only reflected in the governmental activities in the government-wide presentation. The net change between the prior year balance and the current year balance of the non-current portion was recorded in the government-wide statements as a current year expense. The General and Special Revenue Funds are typically used to liquidate the long-term liabilities associated with compensated absences.

The following is a summary of changes in the liability for compensated absences for the fiscal year ended June 30, 2023 (in thousands):

12. OTHER POSTEMPLOYMENT BENEFITS

Plan Description

The District administers a single-employer defined benefit OPEB plan (Plan) for certain postemployment benefits, including continued coverage for retirees and dependents in the medical/prescription plans, as well as participation in the employer-sponsored dental group plan. In addition, retirees are eligible to continue the employer-sponsored term life insurance policy provided by the District. The benefits of the Plan conform to Florida Statutes, which are the legal authority for the Plan. Eligible retirees may choose among the same medical plan options available for active employees of the District. Prescription drug coverage is automatically extended to retirees and their dependents who continue coverage under any one of the medical plan options. Covered retirees and their dependents are subject to all the same medical, prescription and life insurance benefits and rules for coverage as are active employees. Retirees and their dependents are permitted to remain covered under the District's respective medical plans as long as they pay the premium for the plan and coverage elected. This conforms to the requirement for Florida governmental employers' provision of Section 112.0801, Florida Statutes. The premiums charged are based on a blending of the experience among younger active employees and older retired employees. Since the older retirees actually have higher costs, that means that the District is actually subsidizing the cost of the retiree coverage because it pays all or a significant portion of that premium on behalf of the active employees, providing an implicit rate subsidy. Additionally, certain retirees receive insurance coverage at a lower (explicitly subsidized) premium rate under the District's Retirement Assistance Program. The District, therefore, has assumed an obligation to pay for that implicit subsidy for the covered lifetime of the current retirees and their dependents, as well as the covered lifetime of the current employees after they retire in the future. The District does not prepare a standalone financial report for the Plan, and the Plan is not included in the report of a Public Entity Retirement System or another entity. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75. For the governmental activities, other postemployment benefits are generally liquidated with resources of the General Fund.

Benefit Terms and Employees Covered

The authority for establishing and amending the Plan funding policy and benefit terms rests with the Board. The District has not advanced funded or established a funding methodology for the annual OPEB costs or the net OPEB obligation and plans to fund this postemployment benefit on a pay-as-you-go basis. As of the valuation date, June 30, 2022, there were approximately 27,724 active participants and 590 inactive participants (retirees and beneficiaries) receiving postemployment benefits. The District provided required employer contributions toward the annual OPEB cost in the amount of \$7.6 million, comprised of benefit payments made on behalf of retirees for claims expense and retention costs.

Total OPEB Liability

The District's total OPEB liability of \$168.1 million was based on the measurement date of June 30, 2022, and was determined using the results of a full actuarial valuation as of June 30, 2022.

NOTES TO THE BASIC FINANCIAL STATEMENTS, Continued

The District furnished the participant data, economic, demographic, healthcare trend and mortality assumptions, and benefit provisions used in the June 30, 2022, valuation. The demographic assumptions were based on those employed in the July 1, 2022, actuarial valuation of the FRS, which were developed by the FRS from a statewide experience study covering the period 2013 through 2018. These include assumed rates of future termination, mortality, disability, and retirement. In addition, salary increase assumptions for development of the pattern of the normal cost increases were the same as those used by the FRS.

There were no benefit changes during the measurement period. The schedule of changes to the total OPEB liability for fiscal year ending June 30, 2023, is as follows:

Changes to the Total OPEB Liability

Below are the details regarding the total OPEB liability from June 30, 2022, to June 30, 2023 (in thousands):

Expenses, Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the fiscal year ended June 30, 2023, the District recognized OPEB expense of \$10.2 million. At June 30, 2023, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources (in thousands):

Description	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 834	\$ 24,151
Changes of assumptions or other inputs	31,665	68,816
Benefits paid subsequent to the measurement date	5,722	-
Total	<u>\$ 38,221</u>	<u>\$ 92,967</u>

The deferred outflows of resources related to OPEB resulting from District contributions to the Plan subsequent to the measurement date, totaling \$5.7 million, will be recognized as a reduction in the total OPEB liability in fiscal year ending June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be amortized and recognized as OPEB expense as follows:

Fiscal Year Ending June 30,	Amount (in thousands)

13. RETIREMENT PLANS

The District provides retirement benefits to its employees through the Florida Retirement System (FRS), a State-administered cost-sharing multiple-employer defined benefit retirement plan with a Deferred Retirement Option Program (DROP). The Retiree Health Insurance Subsidy (HIS) Program is available for eligible employees. The General Fund typically has been used in prior years to liquidate the long-term liabilities associated with the net pension obligation.

Florida State Retirement Programs

Plan Description. Essentially all regular employees of the District are eligible to enroll as members of the State-administered FRS. Provisions relating to the FRS are established by Chapter 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and FRS Rules, Chapter 60S, Florida Administrative Code; wherein eligibility, contribution, and benefits are defined and described in detail. Such provisions may be amended at any time by further action from the Florida Legislature. The FRS is a single retirement system administered by the Florida Department of Management Services, Division of Retirement, and consists of the two cost-sharing multiple-employer defined benefit plans and other nonintegrated programs. A Annual Comprehensive Financial Report of the FRS, which includes its financial statements, required supplementary information, actuarial report, and other relevant information, is available from the Florida Department of Management Services website (<https://www.dms.myflorida.com/>).

FRS Pension Plan

Plan Description. The FRS Pension Plan (Plan) is a cost-sharing multiple-employer defined benefit pension plan, with a DROP for eligible employees. The general classes of membership are as follows:

- *Regular Class* – Members of the FRS who do not qualify for membership in the other classes.
- *Elected County Officers' Class* – Members who hold specified elective offices in local government.
- *Senior Management Service Class (SMSC)* – Members in senior management level positions.
- *Special Risk Class* – Members who are employed as law enforcement officers and meet the criteria to qualify for this class.

Employees enrolled in the Plan prior to July 1, 2011, vest at 6 years of creditable service and employees enrolled in the Plan on or after July 1, 2011, vest at 8 years of creditable service. All vested members, enrolled prior to July 1, 2011, are eligible for normal retirement benefits at age 62 or at any age after 30 years of service (except for members classified as special risk who are eligible for normal retirement benefits at age 55 or at any age after 25 years of service). All members enrolled in the Plan on or after July 1, 2011, once vested, are eligible for normal retirement benefits at age 65 or any time after 33 years of creditable service (except for members classified as special risk who are eligible for normal retirement benefits at age 60 or at any age after 30 years of service). Members of the Plan may include up to 4 years of credit for military service toward creditable service. The Plan also includes an early retirement provision; however, there is a benefit reduction for each year a member retires before his or her normal retirement date. The Plan provides retirement, disability, death benefits, and annual cost-of-living adjustments to eligible participants.

THE SCHOOL BOARD OF BROWARD COUNTY, FLORIDA

NOTES TO THE BASIC FINANCIAL STATEMENTS, Continued

The DROP, subject to provisions of Section 121.091, Florida Statutes, permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payments while continuing employment with an FRS employer. An employee may participate in DROP for a period not to exceed 60 months after electing to participate, except that certain instructional personnel may participate for up to 96 months. During the period of DROP participation, deferred monthly benefits are held in the FRS Trust Fund and accrue interest. The net pension liability does not include amounts for DROP participants, as these members are considered retired and are not accruing additional pension benefits.

Benefits Provided. Benefits under the Plan are computed on the basis of age and/or years of service, average final compensation, and service credit. Credit for each year of service is expressed as a percentage of the average final compensation. For members initially enrolled before July 1, 2011, the average final compensation is the average of the five highest fiscal years' earnings; for members initially enrolled on or after July 1, 2011, the average final compensation is the average of the eight highest fiscal years' earnings. The total percentage value of the benefit received is determined by calculating the total value of all service, which is based on the retirement class to which the member belonged when the service credit was earned. Members are eligible for in-line-of-duty or regular disability and survivors' benefits. The following chart shows the percentage value for each year of service credit earned:

<u>Class, Initial Enrollment, and Retirement Age/Years of Service</u>	<u>Percent Value</u>
Regular Class members – initially enrolled before July 1, 2011	
Retirement up to age 62 or up to 30 years of service	1.60
Retirement at age 63 or with 31 years of service	1.63
Retirement at age 64 or with 32 years of service	1.65
Retirement at age 65 or with 33 or more years of service	1.68
Regular Class members – initially enrolled on or after July 1, 2011	
Retirement up to age 65 or up to 33 years of service	1.60
Retirement at age 66 or with 34 years of service	1.63
Retirement at age 67 or with 35 years of service	1.65
Retirement at age 68 or with 36 years of service	1.68
Elected County Officers' Class	3.00
Senior Management Service Class	2.00
Special Risk Class	3.00

As provided in Section 121.101, Florida Statutes, if the member is initially enrolled in the FRS before July 1, 2011, and all service credit was accrued before July 1, 2011, the annual cost-of-living adjustment is 3 percent per year. If the member is initially enrolled before July 1, 2011, and has service credit on or after July 1, 2011, there is an individually calculated cost-of-living adjustment. The annual cost-of-living adjustment is a proportion of 3 percent determined by dividing the sum of the pre-July 2011 service credit by the total service credit at retirement multiplied by 3 percent. Plan members initially enrolled on or after July 1, 2011, will not have a cost-of-living adjustment after retirement.

Contributions. The Florida Legislature establishes contribution rates for participating employers and employees. Contribution rates during the 2022-23 fiscal year were as follows:

Class	Percent of Gross Salary	
	Employee	Employer ⁽¹⁾
FRS, Regular	3.00	11.91
FRS, Elected County Officers'	3.00	57.00
FRS, Senior Management Service	3.00	31.57
FRS, Special Risk	3.00	27.83
Teachers' Retirement System, Plan E	6.25	13.56
DROP – applicable to members from all of the above classes	0.00	18.60
FRS, Reemployed Retiree	(2)	(2)

(1) Employer Rates include 1.66 percent for the postemployment health insurance subsidy. Also, employer rates, other than for DROP participants, include 0.06 percent for administrative costs of the Investment Plan.

(2) Contribution rates are dependent upon retirement class in which reemployed.

The District's contributions to the Plan totaled \$137.6 million for the fiscal year ending June 30, 2023, which was equal to the required contributions for the fiscal year.

Liabilities, Expenses, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. As a result of GASB 68, at June 30, 2023, the District reported a liability of \$1.1 billion for its proportionate share of the Plan's net pension liability. The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2022. The District's proportionate share of the net pension liability was based on the District's 2021-22 fiscal year contributions relative to the total 2021-22 fiscal year contributions of all participating members. At June 30, 2022, the District's proportionate share was 3.02 percent, which was a decrease of 0.02 percent from its proportionate share measured as of June 30, 2021.

For the fiscal year ended June 30, 2023, the District recognized pension expense of \$168 million related to the Plan. In addition, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources (in thousands):

Description	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experiences	\$ 53,456	\$ -
Net differences between projected and actual earnings on FRS pension plan investments	74,318	-

The deferred outflows of resources related to pensions resulting from District contributions to the Plan subsequent to the measurement date, totaling \$137.6 million, will be recognized as a reduction in the net pension liability in the fiscal year ending June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be amortized and recognized as pension expense as follows:

Actuarial Assumptions. The total pension liability in the July 1, 2022 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.40 percent
Salary Increases	3.25 percent, average, including inflation
Investment Rate of Return	6.70 percent, net of pension plan investment expense, including inflation

Mortality rates were based on the PUB-2010 base table, projected generationally with Scale MP-2018. The amortization period was reduced to 20 years for all current and future amortization bases.

The actuarial assumptions used in the July 1, 2022, valuation were based on the results of an experience study for the period July 1, 2013, through June 30, 2018.

The long-term expected rate of return on pension plan investments was not based on historical returns, but instead is based on a forward-looking capital market economic model. The allocation policy's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes an adjustment for the inflation assumption. The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation ⁽¹⁾	Annual Arithmetic Return	Compound Annual (Geometric) Return	Standard Deviation
Cash	1.0%	2.6%	2.6%	1.1%
Fixed income	19.8%	4.4%	4.4%	3.2%

Discount Rate. The discount rate used to measure the total pension liability was 6.70 percent. The Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return. The discount rate used in the 2022 valuation is 6.70 percent.

Sensitivity of the District's Proportionate Share of the Net Position Liability to Changes in the Discount Rate. The following presents the District's proportionate share (in thousands) of the net pension liability calculated using the discount rate of 6.70 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (5.70 percent) or 1 percentage point higher (7.70 percent) than the current rate:

	1% Decrease (5.70%)	Current Discount Rate (6.70%)	1% Increase (7.70%)

Pension Plan Fiduciary Net Position. Detailed information about the Plan's fiduciary net position is available in the separately issued FRS Pension Plan and other State Administered Systems Comprehensive Annual Financial Report.

Payables to the Pension Plan. At June 30, 2023, the District reported a payable of \$15.3 million for the outstanding amount of contributions to the Plan required for the fiscal year ended June 30, 2023.

HIS Pension Plan

Plan Description. The HIS Pension Plan (HIS Plan) is a cost-sharing multiple-employer defined benefit pension plan established under section 112.363, Florida Statutes, and may be amended by the Florida Legislature at any time. The benefit is a monthly payment to assist retirees of State-administered retirement systems in paying their health insurance costs and is administered by the Division of Retirement within the Florida Department of Management Services.

Benefits Provided. For the fiscal year ended June 30, 2023, eligible retirees and beneficiaries received a monthly HIS payment of \$5 for each year of creditable service completed at the time of retirement, with a minimum HIS payment of \$30 and a maximum HIS payment of \$150 per month, pursuant to Section 112.363, Florida Statutes. To be eligible to receive a HIS Plan benefit, a retiree under a State-administered retirement system must provide proof of health insurance coverage, which may include Medicare.

Contributions. The HIS Plan is funded by required contributions from FRS participating employers as set by the Florida Legislature. Employer contributions are a percentage of gross compensation for all active FRS members. For the fiscal year ended June 30, 2023, the contribution rate was 1.66 percent of payroll pursuant to section 112.363, Florida Statutes. The District contributed 100 percent of its statutorily required contributions for the current and preceding three years. HIS Plan contributions are deposited in a separate trust fund from which payments are authorized. HIS Plan benefits are not guaranteed and are subject to annual legislative appropriation. In the event the legislative appropriation or available funds fail to provide full subsidy benefits to all participants, benefits may be reduced or canceled.

The District's contributions to the HIS Plan for the fiscal year ending June 30, 2023, totaled \$24.7 million, which was equal to the required contributions for the fiscal year.

Liabilities, Expenses, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At June 30, 2023, the District reported a net pension liability of \$418 million for its proportionate share

THE SCHOOL BOARD OF BROWARD COUNTY, FLORIDA

NOTES TO THE BASIC FINANCIAL STATEMENTS, Continued

of the HIS Plan's net pension liability. The current portion of the net pension liability is the District's proportionate share of benefit payments expected to be paid within 1 year, net of the District's proportionate share of the HIS Plan's fiduciary net position available to pay that amount. The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2022. The District's proportionate share of the net pension liability was based on the District's 2021-22 fiscal year contributions relative to the total 2021-22 fiscal year contributions of all participating members. At June 30, 2022, the District's proportionate share was 3.95 percent, a decrease of 0.03 percent from its proportionate share measured as of June 30, 2021.

For the fiscal year ended June 30, 2023, the District recognized the HIS Plan pension expense of \$19.9 million. In addition, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources (in thousands):

Description	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experiences	\$ 12,687	\$ 1,839
Net differences between projected and actual earnings on HIS pension plan investments	605	-
Changes of assumptions	23,960	64,664

District HIS contributions subsequent to the measurement date	24,669	-
Total	\$ 64,952	\$ 78,523

The deferred outflows of resources related to pensions resulting from District contributions to the HIS Plan subsequent to the measurement date, totaling \$24.7 million, will be recognized as a reduction in the net pension liability in the fiscal year ending June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be amortized and recognized as pension expense as follows:

Fiscal Year Ending June 30,	Amount (in thousands)
2024	\$ (7,768)

Actuarial Assumptions. The total pension liability in the July 1, 2022, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.40 percent
Salary Increases	3.25 percent, average, including inflation
Municipal Bond Rate	3.54 percent

THE SCHOOL BOARD OF BROWARD COUNTY, FLORIDA

NOTES TO THE BASIC FINANCIAL STATEMENTS, Continued

Mortality rates were based on the PUB-2010 base table, projected generationally with Scale MP-2018.

The actuarial assumptions for July 1, 2022, which were used to determine the total pension liability for the HIS program were based on certain results of the most recent experience study for the FRS Pension Plan.

Discount Rate. The discount rate used to measure the total pension liability was 3.54 percent. In general, the discount rate for calculating the total pension liability is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS benefit is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate, and the single equivalent discount rate is equal to the municipal bond rate selected by the HIS Plan sponsor. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index. The discount rate changed from 2.16 percent to 3.54 percent.

Sensitivity of the District's Proportionate Share of the Net Position Liability to Changes in the Discount Rate. The following presents the District's proportionate share (in thousands) of the net pension liability calculated using the discount rate of 3.54 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (2.54 percent) or 1 percentage point higher (4.54 percent) than the current rate:

	1% Decrease (2.54%)	Current Discount Rate (3.54%)	1% Increase (4.54%)
District's proportionate share of the net pension liability	\$ 478,219	\$ 417,993	\$ 368,158

Pension Plan Fiduciary Net Position. Detailed information about the HIS Plan's fiduciary net position is available in the separately issued FRS Pension Plan and Other State Administered Systems Annual Comprehensive Financial Report.

Payables to the Pension Plan. At June 30, 2023, the District reported a payable of \$2 million for the outstanding amount of contributions to the HIS Plan required for the fiscal year ended June 30, 2023.

Aggregate Net Pension Liabilities, Expenses, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions.

The District's FRS and HIS pension expense totaled \$187.9 million for the fiscal year ended June 30, 2023. Aggregate net pension liability for all plans was \$1.5 billion, with balances of \$517 million for deferred outflows of resources and \$88.8 million for deferred inflows of resources.

Below is a summary for each of the District's plans related to pensions (in thousands):

Defined Benefit Pension Plans	Net Pension Liability	Deferred Outflows of Resources	Deferred Inflows of Resources	Total Expense

FRS – Defined Contribution Pension Plan

The District contributed \$7.3 million in the 2023 fiscal year to the FRS Investment Plan (Investment Plan), a defined contribution pension plan, for its eligible employees electing to participate in the Investment Plan. The Investment Plan is administered by the State Board of Administration (SBA), and is reported in the SBA's annual financial statements and in the State of Florida Annual Comprehensive Financial Report.

As provided in Section 121.4501, Florida Statutes, eligible FRS members may elect to participate in the Investment Plan in lieu of the FRS defined benefit plan. District employees participating in DROP are not eligible to participate in the Investment Plan. Employer and employee contributions, including amounts contributed to individual member's accounts, are defined by law, but the ultimate benefit depends in part on the performance of investment funds. Benefit terms, including contribution requirements, for the Investment Plan are established and may be amended by the Florida Legislature.

The Investment Plan is funded with the same employer and employee contribution rates that are based on salary and membership class (Regular Class, Elected County Officers', etc.), as the FRS defined benefit plan. Contributions are directed to individual member accounts, and the individual members allocate contributions and account balances among various approved investment choices. Costs of administering the Investment Plan, including the FRS Financial Guidance Program, are funded through an employer contribution of 0.06 percent of payroll and by forfeited benefits of Investment Plan members. Allocations to the Investment Plan member accounts during the 2022-23 fiscal year were as follows:

Class	Percent of Gross Compensation
FRS, Regular	9.30
FRS, Elected County Officers'	14.34
FRS, Senior Management Service	10.67
FRS, Special Risk	17.00

For all membership classes, employees are immediately vested in their own contributions and are vested after 1 year of service for employer contributions and investment earnings. If an accumulated benefit obligation for service credit originally earned under the FRS Pension Plan is transferred to the Investment Plan, the member must have the years of service required for FRS Pension Plan vesting (including the service credit represented by the transferred funds) to be vested for these funds and the earnings on the funds. Non-vested employer contributions are placed in a suspense account for up to five years. If the employee returns to FRS-covered employment within the five year period, the employee will regain control over their account. If the employee does not return within the five year period, the employee will forfeit the accumulated account balance. For the fiscal year ended June 30, 2023, the information for the amount of forfeitures was unavailable from the SBA; however, management believes that these amounts, if any, would be immaterial to the District.

After termination and applying to receive benefits, the member may rollover vested funds to another qualified plan, structure a periodic payment under the Investment Plan, receive a lump-sum distribution, leave the funds invested for future distribution, or any combination of these options. Disability coverage is provided; the member may either transfer the account balance to the FRS Pension Plan when approved for disability retirement to receive guaranteed lifetime monthly benefits under the FRS Pension Plan, or remain in the Investment Plan and rely upon that account balance for retirement income.

Payables to the Investment Plan. At June 30, 2023, the District reported a payable of \$1.4 million for the outstanding amount of contributions to the Investment Plan required for the fiscal year ended June 30, 2023.

14. FICA ALTERNATIVE

The District has established the FICA Alternative Retirement Plan (the FICA Plan), a defined contribution retirement plan, for certain temporary employees not covered under the Plan. Under provision of the Internal Revenue Code (IRC) section 3121(b)(7)(F), public employers could place employees not covered under existing employer pension plans into an alternative retirement plan in place of social security contributions. The FICA Plan was established under IRC section 401(a) and requires a mandatory pre-tax contribution of 7.5 percent in lieu of social security. The FICA Plan is noncontributory for the District and eliminates the required match of social security contributions. Approximately 1,508 temporary employees are currently participating in the FICA Plan. For the period ended June 30, 2023, \$1.0 million was contributed by participating employees based on gross wages of \$14.0 million. A third-party administrator administers the FICA Plan, with administrative fees being paid for by the District. The District does not have any fiduciary responsibility.

15. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees and students, and natural disasters. Worker's compensation, automobile liability, general liability and health insurance coverage are being provided on a self-insurance basis up to specified limits. The District purchases commercial insurance for certain risks in excess of the self-insurance coverage and for other risks of loss. The District has contracted with an insurance administrator to administer these self-insurance programs, including the processing, investigating and payment of claims.

The District is self-insured for portions of its health insurance, general and automobile liability insurance, and workers' compensation. Claim activity (expenditures for general and automobile liability, workers' compensation and health insurance) is recorded in the general fund as payments become due each period. The estimated liability for self-insured risks represents an estimate of the amount to be paid on claims reported and on claims incurred but not reported. For the governmental funds, in the fund financial statements, the liability for self-insured risks is considered long-term and, therefore, is not a fund liability (except for any amounts due and payable at year-end) and represents a reconciling item between the fund level and government-wide presentations. Settled claims resulting from risks described above have not exceeded commercial coverage for the past three years.

The claims liability for workers' compensation, automobile liability and general liability are based on an actuarial valuation performed by an independent actuary as of June 30, 2023, using a margin for a 50 percent confidence level. With the 50 percent confidence level, the actuary is estimating the margin necessary so that there is a 50 percent likelihood that the funding level will be sufficient to cover the actual liabilities. The employee health insurance liability is based on an actuarial calculation of estimated claims that have been incurred but not reported. The total claims liability of \$73.7 million on June 30, 2023, includes estimated losses for all reported claims and for claims incurred but not reported.

16. FUND BALANCE REPORTING

The District's fund balance is reported with the following hierarchy:

Nonspendable:

The District has \$16.5 million in inventory and \$21.3 million in prepaids classified as nonspendable.

Spendable:

Restricted for State Categorical Programs, Debt Service, Capital Projects, Food Service and Special Revenue:

Florida Statutes require certain revenues to be designated for the purposes of state required carryover programs, debt service, capital projects, and food service. The restricted fund balance totaling \$1 billion represents \$16.4 million in State required carryover programs, \$1.9 million for Workforce Development, \$78.2 million in Debt Service, \$871 million in Capital Projects, and \$60.5 million in Food Service for Special Revenue.

Committed for Self Insurance:

The School Board through resolution has committed \$54.3 million for future self-insured claims.

Assigned for School Operations:

The District has assigned spendable fund balance for its General Fund of \$56.1 million and Special Revenue Fund of \$673 thousand, totaling \$56.7 million. The General Fund assigned fund balance is comprised of outstanding encumbrances of \$27.7 million for goods and services including supplies, furniture, fixture and equipment, and fuel; next year budget appropriations of \$23.4 million, and obligations for other postemployment benefits of \$5 million.

17. NET POSITION

The government-wide Statement of Net Position reports all financial and capital resources of the District, as well as its liabilities. The difference between assets and deferred outflows and liabilities and deferred inflows are reported as net position. Net position is displayed in three components:

- **Net investment in capital assets:** Capital assets, net of accumulated depreciation/amortization and reduced by the outstanding balance of debt that is attributable to the acquisition, construction, or improvement of those assets.
- **Restricted net position:** Net position where constraints on their use are: (1) externally imposed by creditors, grantors, contributors, laws, or regulations of other governments, or (2) imposed by law through constitutional provisions or enabling legislation.
- **Unrestricted net position (deficit):** All other assets and liabilities not part of the above categories. This amount represents the accumulated results of all past years' operations. The deficit in net position of governmental activities is due to long-term liabilities, including compensated absences, pension liabilities and OPEB.

The composition of net investment in capital assets as of June 30, 2023 is shown in the table below (in thousands):

Total capital assets, net of accumulated depreciation		\$ 3,324,997
Less:		
Total debt outstanding, net of unspent proceeds	\$ (1,949,047)

⁽¹⁾ The deferred amount on refunding is included in the calculation of the net investment in capital assets.

18. COMMITMENTS AND CONTINGENCIES

The District has entered into various construction and other contracts that extend beyond year-end. The District has capital outlay commitments of \$444.3 million, of which \$402.5 million was for various construction contracts, and other encumbrances of \$41.8 million as of June 30, 2023.

The following is a summary of the District's commitments and contingencies as of June 30, 2023 (in thousands):

THE SCHOOL BOARD OF BROWARD COUNTY, FLORIDA

NOTES TO THE BASIC FINANCIAL STATEMENTS, Continued

The District has various agreements with other governmental agencies that may require the District to contribute additional financial resources, as anticipated by such agreements. Such liabilities are accrued at the time they become known to the District.

The District receives funding from the State of Florida under the FEFP and is based in part on a computation of the number of students attending different types of instruction (FTE Computation). The accuracy of data compiled by individual schools supporting the FTE Computation is subject to audit by the State and, if found to be in error, could result in refunds to the State or in decreases to future funding allocations. Additionally, the District participates in a number of federal, state and local grants, which are subject to financial, and compliance audits. It is the opinion of management that the amount of revenue, if any, which may be remitted back to the State due to errors in the FTE computation or the amount of grant expenditures, which may be disallowed by grantor agencies, would not be material to the financial position of the District.

The District is a defendant in numerous lawsuits as of June 30, 2023. In the opinion of management, the District's estimated aggregate liability with respect to probable losses has been provided for in the estimated liability for insurance risks and pending claims in the accompanying financial statements, after giving consideration to the District's related insurance coverage, as well as the Florida statutory limitations of governmental liability on uninsured risks. It is the opinion of management in consultation with its legal counsel, that the final settlements of these matters will not have a material adverse effect on the financial condition, changes in financial position, cash flows or changes in fund balance of the affected fund.

19. SUBSEQUENT EVENTS

On July 27, 2023, the District issued \$197.5 million Tax Anticipation Notes, Series 2023, pursuant to Section 1011.13, Florida Statutes, to provide interim funds for the payment of operating expenses of the District for the fiscal year commencing July 1, 2023 and ending June 30, 2024, in anticipation of the receipt of the ad valorem taxes. The Notes and the interest thereon will be special, limited obligations of the District, payable from and secured by a pledge of the ad valorem taxes levied and collected for the benefit of the District for operating purposes. The Notes are not subject to redemption prior to maturity.

**NOTES TO THE BUDGETARY COMPARISON SCHEDULE
FOR THE FISCAL YEAR ENDED JUNE 30, 2023**

I. BUDGET

Budget Information. GASB 34 requires governments to include as required supplementary information (RSI), budgetary comparison schedules for the general fund and each major special revenue fund that has a legally adopted budget.

Budgets are legally adopted annually for the General Fund and the major Special Revenue Fund. Unencumbered appropriations lapse at year-end for the General Fund and encumbered appropriations are carried forward, if applicable, to the following year and closed after a three-month period. Management may not amend the budget without the specific approval of the School Board. Accordingly, no expenditure may be authorized and no obligation incurred in excess of the current budgetary appropriation without Board authorization. The budgetary basis of accounting is the modified accrual basis plus encumbrances authorized for the fiscal year.

The budgeted revenues and expenditures shown in the accompanying schedule reflect all amendments to the original budget through September 5, 2023, the date the final amendments were approved by the Board.

II. EXPLANATION OF DIFFERENCES BETWEEN BUDGETARY INFLOWS AND OUTFLOWS AND GAAP REVENUES AND EXPENDITURES

The following table presents a reconciliation of the differences between the budgetary and GAAP basis of accounting for the General Fund (in thousands):

Sources/inflows of resources:

Actual amounts (budgetary basis) "available for appropriation" from the budgetary comparison schedule	\$ 2,540,553
Transfers from other funds, other loss recoveries and sale of capital assets are inflows of budgetary resources but are not revenues for financial reporting purposes	<u>(161,676)</u>

Total expenditures as reported on the Statement of Revenues, Expenditures and Changes in Fund Balance – Governmental Funds (budgetary basis)	<u>2,600,265</u>
Encumbrances for goods and services is reported in the year the purchase order, contract or commitment for expenditures is initiated; but reported in the year received or delivered for financial reporting purposes	<u>(35,226)</u>
Total expenditures as reported on the Statement of Revenues, Expenditures and Changes in Fund Balance (GAAP)	<u>\$ 2,565,039</u>

The following table presents a reconciliation of the differences between the budgetary and GAAP basis of accounting for the major Special Revenue Funds (in thousands):

Uses/outflows of resources:

Total expenditures as reported on the Statement of Revenues, Expenditures and Changes in Fund Balance – major Special Revenue Funds (budgetary basis)	<u>\$ 273,444</u>
Encumbrances for goods and services is reported in the year the purchase order, contract or commitment for expenditures is initiated; but reported in the year received or delivered for financial reporting purposes	<u>(15,940)</u>

**NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION
FOR THE FISCAL YEAR ENDED JUNE 30, 2023**

I. BUDGETARY BASIS OF ACCOUNTING

The Board follows procedures established by State Statute and State Board of Education rules in establishing annual budgets for governmental funds as described below:

- Budgets are prepared, public hearings are held, and original budgets are adopted annually for all governmental fund types in accordance with procedures and time intervals prescribed by State law and SBE rules.
- The major functional level is the legal level of budgetary control. Budgeted amounts may be amended by resolution at any Board meeting prior to the due date for the annual financial report. The following are legally adopted budgets by the School Board for the fiscal year 2022-23: 1) General Fund, 2) Food Service Fund, 3) Capital Funds, 4) Debt Service Funds, 5) Internal Service Funds, 6) Special Revenue - Other Federal Programs, 7) Special Revenue - Elementary Secondary School Emergency Relief Act (ESSER), 8) Special Revenue - Elementary Secondary School Emergency Relief Act (ESSER II), 9) Special Revenue - Elementary And Secondary School Emergency Relief III (ESSER III), 10) Special Revenue - Other Arp Act Relief Fund and, 11) Special Revenue - Miscellaneous Funds.
- Budgets are prepared using the same modified accrual basis as is used to account for governmental funds. (A description of any differences in the basis of accounting used to prepare the budgets should be included, if applicable. For example: "except that no budget appropriation is made for capital leases in the year of inception.")
- Budgetary information is integrated into the accounting system and, to facilitate budget control, budget balances are encumbered when purchase orders are issued. Appropriations lapse at fiscal year end and encumbrances outstanding are honored from the subsequent year's appropriations.

II. SCHEDULE OF CHANGES IN THE DISTRICT'S TOTAL OTHER POSTEMPLOYMENT BENEFITS LIABILITY AND RELATED RATIOS

No assets are accumulated in a trust that meet the criteria in paragraph 4 of GASB Statement No. 75 to pay related benefits.

Changes of Assumptions. 1) The discount rate was changed from 1.92 percent as of the beginning of the measurement period to 3.69 percent as of June 30, 2022, 2). The expected claims costs and premiums were updated to reflect recent information provided for this valuation and, 3). The healthcare cost trend assumption was updated.

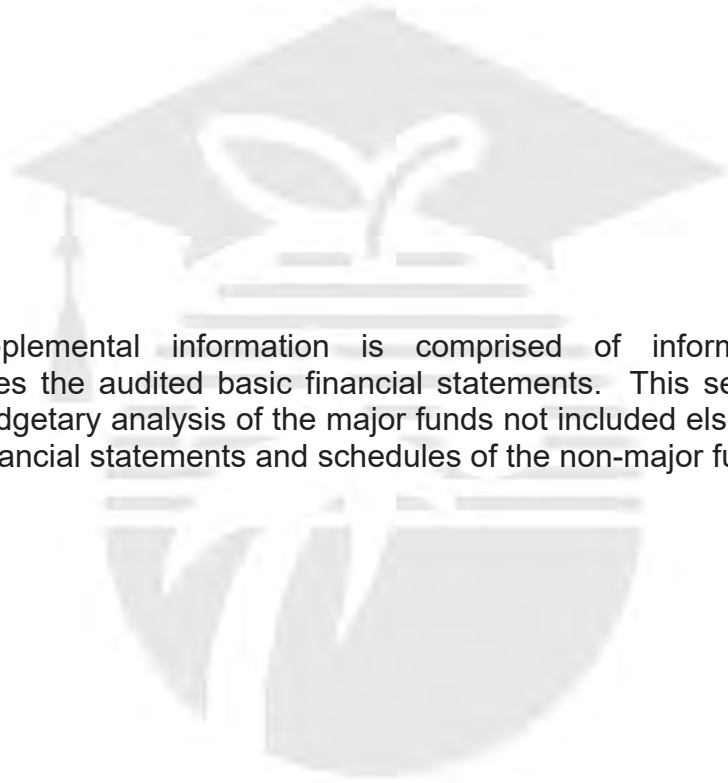

III. SCHEDULE OF NET PENSION LIABILITY AND SCHEDULE OF CONTRIBUTIONS – FLORIDA RETIREMENT SYSTEM PENSION PLAN

Changes of Assumptions. The long-term expected rate of return was decreased from 6.80 percent to 6.70 percent.

IV. SCHEDULE OF NET PENSION LIABILITY AND SCHEDULE OF CONTRIBUTIONS – HEALTH INSURANCE SUBSIDY PENSION PLAN

Changes of Assumptions. 1). The municipal bond rate used to determine total pension liability was increased from 2.16 percent to 3.54 percent, 2). The demographic assumptions for the Special Risk class were updated to reflect plan changes due to HB5007, HB689, and SB838 and, 3). The election assumption for vested terminated members was updated from 20% to 50% to reflect recent experience.

Component Units

Component units are entities where the District or its officials appoint a voting majority of an organization's governing body, and is either able to impose its will on the organization or there is a potential for the organization to provide specific financial benefits to or to impose specific financial burdens on the District or the nature and significance of the relationship between the District and the organization is such that exclusion would cause the District's financial statements to be incomplete.

The Broward Education Foundation – a non-profit direct-support organization of the District, established to receive, hold, invest and administer property and to make expenditures to enhance public education.

Charter Schools – Charter schools are public schools operating under a performance contract with the local school district.

Statistical Tables

This section of the School Board of Broward County's Annual Comprehensive Financial Report (ACFR) is the chief source of information regarding the School Board's economic condition. It presents detailed information for understanding what the information in the financial statements, note disclosures and required supplemental information says about the School Board's overall financial position. All of the information presented in the statistical section is organized around five specific objectives.

Financial Trends (Table 1 – 4)

These schedules contain trend information to assist the reader in understanding how the School Board's financial position has changed over time.

Revenue Capacity (Table 5 – 10)

These schedules contain information to assist the reader in understanding and assessing the School Board's major revenue sources.

Debt Capacity (Table 11 – 15)

These schedules present information to assist the reader in understanding the School Board's current levels of outstanding debt and its ability to issue additional debt in the future.

Demographic & Economic Information (Table 16 - 19)

These schedules offer demographic and economic indicators to assist the reader in understanding the environment in which the School Board's financial activities take place.

Operating Information (Table 20 – 23)

These schedules contain service and infrastructure data to assist the reader in understanding how the information in the School Board's financial report relates to the service the School Board provides and the activities it performs.

INDEPENDENT AUDITOR’S REPORT ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY THE UNIFORM GUIDANCE

Chairperson and Members of
The School Board of Broward County, Florida

Report on the Schedule of Expenditures of Federal Awards

Opinion

We have audited the accompanying schedule of expenditures of federal awards of The School Board of Broward County, Florida (“the District”) for the year ended June 30, 2023, and the related notes (collectively, “the schedule”).

In our opinion, the accompanying schedule of expenditures of federal awards presents fairly, in all material respects, the expenditures of federal awards of the District for the year ended June 30, 2023, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor’s Responsibilities for the Audit of the Schedule section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Schedule

Management is responsible for the preparation and fair presentation of the schedule in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the schedule that is free from material misstatement, whether due to fraud or error.

Auditor’s Responsibilities for the Audit of the Schedule

Our objectives are to obtain reasonable assurance about whether the schedule as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect a material misstatement when it exists. The risk of not detecting a material

**INDEPENDENT AUDITOR'S REPORT ON THE SCHEDULE OF EXPENDITURES
OF FEDERAL AWARDS REQUIRED BY THE UNIFORM GUIDANCE - Continued**

misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the schedule.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the schedule, whether due to fraud, or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the schedule.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the schedule.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Chairperson and Members of
The School Board of Broward County, Florida

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited The School Board of Broward County, Florida's ("the District") compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2023. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2023.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the District's federal programs.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR
PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY
THE UNIFORM GUIDANCE – Continued**

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR
PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY
THE UNIFORM GUIDANCE -- Continued**

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed. The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

THE SCHOOL BOARD OF BROWARD COUNTY, FLORIDA
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
FOR THE YEAR ENDED JUNE 30, 2023

Notes:

- (1.) Basis of Presentation. The accompanying Schedule of Expenditures of Federal Awards (Schedule) includes the Federal award activity of the Broward County District School Board under programs of the Federal Government for the fiscal year ended June 30, 2023. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the District.
- (2.) Summary of Significant Accounting Policies. Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following as applicable, either the cost principles in Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* or the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.
- (3.) Indirect Cost Rate. The District has not elected to use the 10 percent de minimis cost rate allowed under the Uniform Guidance.
- (4.) Noncash Assistance - National School Lunch Program - Includes \$10,126,119 of donated food received during the fiscal year. Donated foods are valued at fair value as determined at the time of donation.
- (5.) Head Start. Expenditures include \$5,135,712 for grant number/program year 04CH011046-04 and \$13,894,617 for grant number/program year 04CH011046-05.
- (6.) Disaster Grants - Public Assistance (Presidentially Declared Disaster). The District incurred \$351,931 in expenditures for the Disaster Grants - Public Assistance (Presidentially Declared Disaster) grant in the 2005-06, 2016-17, and 2017-18 fiscal years.
- (7.) Subsequent Events. Management has reviewed subsequent events through January 16, 2024. No additional disclosures are necessary.

BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

Chairperson and Members of
School Board of Broward County, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the School Board of Broward County, Florida (the "District") as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated November 17, 2023. Our report includes a reference to other auditors who audited the financial statements of the agency funds and the discretely presented component units, as described in our report on the District's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Chairperson and Members of
School Board of Broward County, Florida

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Pursuant to provisions of Chapter 10.800, *Rules of the Auditor General*, we reported certain matters to management of the District in a separate management letter and Independent Accountant's Report dated November 17, 2023.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

We have audited the financial statements of the School Board of Broward County, Florida (the "District") as of and for the year ended June 30, 2023 and have issued our report thereon dated November 17, 2023. Our report includes a reference to other auditors who audited the financial statements of the agency funds and the discretely presented component units, as described in our report on the District's financial statements. This report does not include the results of the other auditors' testing of internal control or compliance and other matters that are reported on separately by those auditors.

Auditor's Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the audit requirements Chapter 10.800, *Rules of the Auditor General*.

Other Reporting Requirements

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards* and our Independent Accountant's Report on an examination conducted in accordance with *AICPA Professional Standards*, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.800, *Rules of the Auditor General*. Disclosures in those reports, which are dated November 17, 2023, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.804(1)(f)1., *Rules of the Auditor General*, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial report. No recommendations were made in the preceding annual financial report.

Financial Condition and Management

Section 10.804(1)(f)2., *Rules of the Auditor General*, requires us to communicate whether or not the District has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and to identify the specific conditions met. In connection with our audit, we determined that the District did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.804(1)(f)5.a. and 10.805(7), *Rules of the Auditor General*, we applied financial condition assessment procedures for the District. It is management's responsibility to monitor the District's financial condition, and our financial condition assessment was based, in part, on representations made by management and the review of financial information provided by the same.

Section 10.804(1)(f)3., *Rules of the Auditor General*, requires that we communicate any recommendations to improve financial management. In conjunction with our audit, we did not have any such recommendations.

Transparency

Section 10.804(1)(f)6., *Rules of the Auditor General*, requires that we communicate the results of our determination as to whether the District maintains on its website the information specified in Section 1011.035, Florida Statutes. In connection with our audit, we determined that the District maintained on its website the information specified in Section 1011.035, Florida Statutes.

Additional Matters

Section 10.804(1)(f)4., *Rules of the Auditor General*, requires us to communication noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with our audit, we did not have any such findings.

Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, federal and other granting agencies, the District School Board members, and applicable management and is not intended to be, and should not be, used by anyone other than these specified parties.

INDEPENDENT ACCOUNTANT'S REPORT

Chairperson and Members of
School Board of Broward County, Florida

We have examined the School Board of Broward County, Florida's (the "District") compliance with the requirements of Section 218.415, Florida Statutes, during the year ended June 30, 2023. Management is responsible for the District's compliance with those requirements. Our responsibility is to express an opinion on the District's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the District complied, in all material respects, with the aforementioned requirements referenced above. An examination involves performing procedures to obtain evidence about the whether the District's complied with the aforementioned requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material misstatement of the District's compliance with those requirements, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to the examination engagement. Our examination does not provide a legal determination on the District's compliance with the specified requirements.

In our opinion, the District complied with the aforementioned requirements for the year ended June 30, 2023, in all material respects.
