KAREN M. BRILL BOARD CHAIR

BARBARA MCQUINN
BOARD VICE CHAIR

MARCIA ANDREWS ALEXANDRIA AYALA FRANK A. BARBIERI, JR., ESQ. EDWIN FERGUSON, ESQ. BARBARA MCQUINN

November 27, 2023

To: School Board Members

Citizens of Palm Beach County

We respectfully submit the Annual Comprehensive Financial Report (ACFR) of the School District of Palm Beach County, Florida (District) for the fiscal year ended June 30, 2023. These financial statements are presented to conform to accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units and are audited in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

This report consists of management's representations concerning the finances of the District. Consequently, District management assumes full responsibility for the completeness and reliability of all the information presented in this report. To provide a reasonable basis for making these representations, District management has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse, and to compile sufficient reliable information for the preparation of the District's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the District's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

Section 218.39(1), Florida Statutes, requires that each school district have an annual financial audit of its accounts and records completed within nine months after the end of its fiscal year by an independent certified public accountant. The District engaged RSM US LLP, a firm of licensed certified public accountants, to audit the District's financial statements for fiscal year ended June 30, 2023.

The District received an unmodified ("clean") opinion on the financial statements for the fiscal year ended June 30, 2023. The independent auditor concluded, based upon the audit, that there was reasonable assurance the financial statements are free of material misstatement. The audit included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management and evaluating the overall financial statement presentation. The independent auditor's report is presented as the first component of the financial section of this report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A which can be found immediately following the report of the independent certified public accountants.

#### **PROFILE OF THE GOVERNMENT**

The District and its governing board (Board) were created pursuant to Section 4, Article IX of the Constitution of the State of Florida. The District is an independent taxing and reporting entity managed, controlled, operated, administered, and supervised by District school officials in accordance with Chapter 1001, Florida Statutes. The Board consists of seven elected officials responsible for the adoption of policies, which govern the operation of the District's public schools. The Superintendent is responsible for the administration and management of the schools within the applicable parameters of State Laws, State Board of Education Rules, and School Board Policies. The Superintendent is also specifically delegated the responsibility of maintaining a uniform system of records and accounts for the District by Section 1010.01, Florida Statutes, as prescribed by the State Board of Education.

The ACFR contains the audited financial statements for all operations over which the District is financially accountable. District management has determined that the Palm Beach School Board Leasing Corporation (Corporation), represents a blended component unit of the District therefore, the Corporation's activities are reported with the operations of the District in the accompanying financial statements. The Corporation's sole purpose is to provide for financing and construction of certain District school facilities under the District's Certificates of Participation (COPs) Program.

The District is legally responsible for providing a full range of educational programs in Palm Beach County. These include Early Childhood, Kindergarten through Grade 12, Basic Regular and Enriched Programs, Exceptional Student Education, Vocational Education, Adult Education, and specialized instruction in areas such as English proficiency for speakers of other languages.

Covering 1,970 square miles (2,383 square miles including lakes), it is one of the largest counties east of the Mississippi River. To fully appreciate its size, consider that Palm Beach County is larger than both Rhode Island and Delaware. Total population in the county is over 1.3 million, which represents a steady growth. The community is vastly diverse in both geographical aspects and population. The eastern portion of the county is a rich thriving urban area, while the western portion is primarily agricultural.

The District is the tenth largest in the nation and the fifth largest in the State of Florida with 182 District schools and 48 charter schools. Approximately 193,800 students were enrolled in Palm Beach County public schools during fiscal year 2023. Of the total students enrolled, approximately 163,300 are in District schools, 22,500 are in charter schools and 8,000 Family Empowerment Scholarship (FES), representing an increase of approximately 900 students in District schools and an increase of approximately 350 students in charter schools and 1,700 in FES. As the largest employer in Palm Beach County, the District has approximately 23,900 full-time employees, including more than 13,000 teachers. The District owns and maintains 30 million square feet of buildings with an average age of 21 years.

District management has determined that charter schools are not part of the District's reporting entity and should not be reported as discretely presented component units. The District is not financially accountable for charter schools since charter schools are not fiscally dependent on the District. Charter schools also fail to meet the definition of "misleading to exclude" since the District does not have the ability to access the economic or organizational resources received or held by a charter school. Additional information on component units can be found in the notes to the financial statements. Charter schools are separate legal entities with independent boards that were created by Florida Statute and are authorized to operate in each county by the sponsoring district. Charter schools receive a per student allocation based on the Florida Department of Education standard formula that is passed through the sponsoring district. The District is not financially accountable for charter schools and therefore their financial information is not included in this report.

The demographics of our District reflect our rich cultural diversity. For example, our students speak approximately 150 languages with more than 197 different countries or territories of birth. The Dual Language Program has over 7,000 participants

across 33 schools. The population of the county is approximately 52 percent White; 24 percent Hispanic; 20 percent Black; 3 percent Asian; and 1 percent American Indian, Alaska Native, Multiple Races and Others (approximately 19 percent of the population is under the age of 18; 56 percent is between the ages of 18 and 64; and 25 percent is 65 or older). There are approximately 34,000 students with Individualized Education Plans or Educational Plans (for gifted students).

The District maintains budgetary controls to ensure compliance with legal provisions embodied in the annual appropriations budget approved by the Board. Activities of the General Fund, Special Revenue Funds, Debt Service, and Capital Projects Funds are included in the annual appropriations budget. Although financial plans are adopted for the Capital Projects Funds based on the actual length of the project, the continued funding for the projects is contingent upon the annual budget adoption. The level of budgetary control (the level at which expenditures cannot legally exceed the appropriated amount) is established by function within each school center, department, or project. Budgetary control is maintained at the function level by the encumbrance of estimated purchase commitments prior to the release of purchase orders (PO) to vendors. When commitments exceed established function balances, POs are not released until additional appropriations are made available. Open encumbrances are reported as a restriction or assignment of fund balance at the end of the fiscal year. Budgetary control over salary expenditures is achieved through the position authorization process.

#### **District Mission**

The mission of the School District of Palm Beach County is to educate, affirm, and inspire each student in an equity-embedded school system.

#### **Equity Definition**

Equity means each student—regardless of race, ethnicity, poverty, disability, language status, undocumented status, religious affiliation, gender identity, and sexual orientation—will have access to the opportunities, resources, and support they need to imagine, nurture, and achieve their dreams.

#### **FACTORS AFFECTING FINANCIAL CONDITION**

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the District operates.

#### **Local Economy**

In 2023, the County has a labor force of approximately 776,000 and the median family income is approximately \$68,800. There is no income tax in Florida. Palm Beach County residents pay 7 percent retail sales tax. Property values and sales tax revenues continue to increase. Efforts continue within Palm Beach County to build an economic base that is broad and diverse. Industries include tourism, agriculture, construction, tech product manufacturing, aerospace, medical and biomedical, and business and professional services.

Public-private partnerships, including the Business Development Board and Career Source Palm Beach County, are shaping strategies to attract and cultivate companies that will pay high wages for highly skilled jobs in targeted areas with growth potential, such as medical services and computer technology. The District has become an integral part of these efforts. Preparing students for productive employment is crucial to successful economic development.

#### **Long-Term Financial Planning**

The legislation passed during the 2023 legislative session fundamentally changed public education in Florida. The expansion of the voucher program has effectively created a universal voucher program. In addition to creating a universal voucher program,

the legislature also approved the sharing of capital funds with charter schools resulting in a loss of \$437 million in the District's capital budget over the next 10 years. It may take several years to feel the true impact of the legislation passed this session.

The overall increase in FY24 per student funding is \$447.01 or 5.11 percent when comparing to the FY23 Florida Education Finance Program (FEFP) budget. The 5 percent increase in per student funding is tempered by the expansion of the voucher program. Enrollment is expected to increase with the majority of the increase in FES. The FEFP includes \$183.44 or 3.54 percent increase in base student allocation (after adjusting for the collapse of categoricals into the Base Student Allocation BSA)). The BSA funds a state-mandated 1.8 percent increase in the Florida Retirement System rate and \$16.9 million (including charter schools) increase in teacher salary "categorical". Property values increased a surprising 15.86 percent which increases the amount of funds generated from the discretionary operating millage, voter approved millage, and the capital millage. In addition to the increases in the operating and capital funds, Elementary and Secondary School Emergency Relief (ESSER), will sunset September 2024. Applying federal funds to eligible expenditures in FY21 through FY23 has freed up one-time funds to help soften the federal funding cliff in FY25.

Future budgets are dependent on the economic environment, Florida Legislature, and voter support. Due to the far-reaching legislative changes this session, continued local support is necessary for both the additional 1.0 mill operating millage renewed in November 2022 that will sunset June 30, 2027, and represents \$320 million annually and the capital local one cent local government infrastructure sales tax approved in November 2016 which will sunset no later than December 31, 2026.

#### ACADEMIC BASED AWARDS AND ACKNOWLEDGEMENTS

- SDPBC was one of two of the Seven Largest Florida Districts to earn an "A" grade in FY22
- 335 award-winning programs in technical education and career academies
- Five schools in top 100 by US News Magazine's Best High Schools in Florida 2023 rankings
- Graduation rate of 92.8 percent for District-operated high schools
- The District is fully accredited by Cognia, formerly known as AdvancED, the world's largest education community using International Standards and is the 3<sup>rd</sup> largest school district in the world to receive this distinction

#### FINANCIAL AWARDS AND ACKNOWLEDGEMENTS

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for its ACFR for the fiscal year ended June 30, 2022. This was the 33rd consecutive year that the District has received this prestigious award. To be awarded a Certificate of Achievement, the District published an easily readable and efficiently organized ACFR. This report satisfied both GAAP and applicable legal requirements.

The Association of School Business Officials International (ASBO) awarded a Certificate of Excellence in Financial Reporting to the District for its ACFR for the fiscal year ended June 30, 2022. The Certificate of Excellence in Financial Reporting awarded by ASBO certifies that the ACFR substantially conforms to the accounting and reporting standards adopted by ASBO. The District has received a Certificate of Excellence in Financial Reporting for the last 26 consecutive years for which it was submitted.

The GFOA Certificate of Achievement and the ASBO Certificate of Excellence are valid for a period of one year only. We believe that our current ACFR continues to meet the requirements of the Certificate of Achievement Program as well as the Certificate of Excellence Program. Accordingly, we are submitting it to both the GFOA and ASBO for consideration for another award.

The preparation of the ACFR would not have been possible without the efficient and dedicated services of the entire staff of the Accounting Department. We would like to express our appreciation to all members of the department who assisted and contributed to the preparation of this report. In closing, we would like to thank the School Board for their support in planning and conducting the financial operations of the District.

Respectfully submitted,

Michael J. Burke, Superintendent of Schools

Heather Frederick, CPA, Chief Financial Officer

Nancy Samuels, CPA, Director, Fiscal Accountability

# FINANCIAL SECTION

RSM US LLP

#### **Independent Auditor's Report**

Honorable Chairperson and Board Members of The School District of Palm Beach County, Florida

#### **Report on the Audit of the Financial Statements**

#### **Opinions**

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the School District of Palm Beach County, Florida (the District), as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2023, and the respective changes in financial position, and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Emphasis of Matter

As discussed in Note 1 to the financial statements, the District adopted the recognition and disclosure requirements of Governmental Accounting Standards Board (GASB) Statement No. 96, *Subscription-Based Information Technology Arrangements*, as of July 1, 2022. As a result of the adoption, beginning property under leases and SBITA and obligations under leases and SBITA were restated. Our opinions are not modified with respect to this matter.

#### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

THE POWER OF BEING UNDERSTOOD AUDIT | TAX | CONSULTING

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to
  fraud or error, and design and perform audit procedures responsive to those risks. Such procedures
  include examining, on a test basis, evidence regarding the amounts and disclosures in the financial
  statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant
  accounting estimates made by management, as well as evaluate the overall presentation of the
  financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other post-employment benefits and pension schedules be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual nonmajor fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 27, 2023, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

RSM US LLP

West Palm Beach, Florida November 27, 2023

### MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) FOR THE FISCAL YEAR ENDED JUNE 30, 2023

The School District of Palm Beach County, Florida's (District) management discussion and analysis (MD&A) is designed to provide an objective and easy to read analysis of the District's financial activities for the fiscal year ended June 30, 2023, based on currently known facts, decisions or conditions. It is intended to provide a broad overview using a short-term and long-term analysis of the District's activities based on information presented in the financial report and fiscal policies that have been adopted by the seven elected members of the school board (Board). Specifically, this section is designed to assist the reader in focusing on significant financial issues, provide an overview of the District's financial activity, identify changes in the District's financial position (its ability to address the next and subsequent year challenges), identify any material deviations from the financial plan (the approved budget), and identify individual fund issues or concerns. As with other sections of this financial report, the information contained within this MD&A should be considered only a part of a greater whole. The reader of this statement should take time to read and evaluate all sections of this report, including the notes that are provided in addition to this MD&A.

#### FINANCIAL HIGHLIGHTS

The net position of the District increased \$201.3 million, or 9.6 percent, from \$2.107 billion to \$2.309 billion. Property tax revenues increased \$244.8 million (mainly due to a 22.3 percent increase in property values) and investment earnings increased \$75.1 million, primarily due to increases in interest rates. The additional revenues were partially offset by enrollment at District schools which increased approximately 500 students and charter schools which increased approximately 285 students passing through additional Florida Education Finance Program (FEFP) revenue of \$25.0 million to charter schools, additional costs related to Family Empowerment Scholarships (FES) of \$24.5 million, and charter school Referendum settlement accrual of \$60.0 million.

The District's total long-term debt increased by \$97.5 million, or 6.8 percent, primarily due to the issuance of new certificates of participation of \$185.9 million, partially offset by debt repayments of \$89.0 million (discussed in Note 11).

Total revenues increased by \$325.2 million, or 10.9 percent, from \$2.973 billion to \$3.298 billion compared to the prior year.

- General revenues accounted for \$2,498 billion, or 75.7 percent, of all revenues and increased \$335.2 million or 15.5 percent. Property tax revenues increased \$244.8 million, investment earnings increased \$75.1 million, and local sales taxes increased by \$12.4 million.
- Program specific revenues in the form of charges for services, grants, and contributions accounted for \$800.2 million, or 24.3 percent, of all revenues and decreased by \$9.4 million, or 1.2 percent. Operating grants and contributions decreased overall by \$13.7 million, or 1.8 percent, primarily due to the decrease of \$15.3 million in food service-related grants partially offset by \$1.6 million in additional class size reduction funding from the state.

Total expenses increased by \$464.1 million from \$2.632 billion to \$3.096 billion. This was primarily due to increases for settlements related to the charter school referendum case of \$60.0 million; \$54.7 million in non-capitalizable capital outlay; \$24.0 million in textbook spending; \$65.0 million to charter schools and FES; \$32.5 million related to FRS, HIS, and OPEB actuarial valuations; and increased costs associated with salary increases, food service, additional healthcare costs, and increased enrollment in aftercare programs.

The District's governmental funds combined ending fund balances increased by \$332.5 million to \$1.583 billion, from \$1.251 billion in prior year. For the fiscal year ended June 30, 2023, the District's funds were as follows:

• General Fund (the primary operating fund), reflected on a current financial resources basis, ended the year with a fund balance of \$382.4 million, an increase of \$34.5 million, or 9.9 percent, over the prior year. Of the fund balance amount, \$75.0 million was classified as unassigned (available to cover unanticipated financial needs and includes the Board-approved contingency); \$182.3 million was classified as assigned; \$118.4 million was classified as restricted; and \$6.7 million was

### MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) FOR THE FISCAL YEAR ENDED JUNE 30, 2023

classified as nonspendable. During the current year, General Fund revenues (including other financing sources) exceeded expenditures (including other financing uses) by \$34.5 million, primarily due to increased property taxes (including referendum), staff vacancies, and receipt of ESSER funds which shifted expenditures from General Fund to Special Revenue ESSER Fund.

- <u>Capital Improvement Fund</u>, a major fund, had a restricted fund balance of \$428.8 million, an increase of \$129.9 million, or 43.5 percent, over the prior year. Ad valorem taxes for capital projects totaled \$414.1 million and exceeded current year spending of \$53.6 million and transfers to the General Fund of \$107.9 million (mainly for capital maintenance and insurance) and to Other Non-Major Governmental Funds of \$140.5 million (mainly for debt service).
- <u>Sales Tax Fund</u>, another major fund, ended the year with a restricted fund balance of \$431.0 million, an increase of \$97.9 million, or 29.4 percent, over the prior year. The increase was primarily due to sales tax revenue in excess of capital outlay spending.
- Other Non-Major Governmental Funds ended the year with a fund balance of \$341.2 million, an increase of \$70.2 million, or 25.9 percent, over the prior year. Of the fund balance, \$4.6 million is classified as nonspendable; \$293.4 million is restricted for debt service and capital projects; \$39.7 million is restricted for child nutrition; and \$3.5 million is assigned for capital projects.

#### **OVERVIEW OF THE FINANCIAL STATEMENTS**

This annual report consists of two parts – MD&A (this section) and the basic financial statements. The basic financial statements include two kinds of statements that present different views of the District:

The first two statements are *government-wide* financial statements that provide both *short-term* and *long-term* information about the District's *overall* financial status.

The remaining statements are *fund* financial statements that focus on *individual parts* of the District, reporting the District's operations *in more detail* than the government-wide statements.

- The *governmental funds* statements tell how *basic* services like instruction and instructional support services were financed in the *short-term* as well as what remains for future spending.
- Proprietary funds statements offer short-term and long-term financial information about the activities the District operates like businesses, such as group health and long-term claim self-insurance.
- *Fiduciary funds* statements provide information about the financial relationships in which the District acts solely as a *trustee* or *agent* for the benefit of others.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data.

Figure 1									
Major Features of Government-Wide and Fund Financial Statements									
	Government-Wide		Fund Financial Statements						
	Statements	Governmental Funds	Proprietary Funds	Fiduciary Funds					
Scope	Entire District (except fiduciary funds)	The activities of the District that are not proprietary or fiduciary, such as instructional costs  Activities the District operates similar to private businesses: health internal service fund and worker's compensation, automobile and general liability claims fund; and school police internal service fund		Instances in which the District administers resources on behalf of someone else, such as scholarship programs and student activities monies					
Required financial statements	Statement of net position     Statement of activities	Balance sheet     Statement of revenue, expenditures, and changes in fund balances	<ul> <li>Statement of net position</li> <li>Statement of revenue, expenses, and changes in fund net position</li> <li>Statement of cash flows</li> </ul>	Statement of fiduciary net position     Statement of changes in fiduciary net position					
Accounting basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus					

### MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) FOR THE FISCAL YEAR ENDED JUNE 30, 2023

Figure 1, above, summarizes the major features of the District's financial statements, including the portion of the District's activities they cover and the types of information they contain. The remainder of this overview section of MD&A highlights the structure and contents of each of the statements.

#### **Government-Wide Financial Statements**

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes *all* of the District's assets and liabilities. All of the current year's revenue and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's *net position* and how they changed. Net position, the difference between the District's assets, deferred outflows, liabilities, and deferred inflows, is one way to measure the District's financial health or position. Over time, increases or decreases in the District's net position is an indicator of whether its financial position is improving or deteriorating, respectively. To assess the overall health of the District, the reader should consider additional non-financial factors such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the government-wide financial statements, all the District's activities are reported as governmental activities. All of the District's basic services are included here, such as regular and special education, transportation, and administration. Property taxes, sales taxes, and State formula aid finance most of the activities.

#### **Fund Financial Statements**

The fund financial statements provide more detailed information about the District's *funds*, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs. Some funds are required by State law and by bond covenants. The District establishes other funds to control and manage money for particular purposes (like repaying its long-term debts) or to show that it is properly using certain revenues (like Federal grants).

The District has three kinds of funds:

- Governmental funds Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out, and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, the District provides additional information with the governmental funds statements that explain the relationship (or differences) between them.
- *Proprietary funds* Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the government-wide statements. There are two types of proprietary funds:
  - o *Enterprise funds* account for goods and services provided to those outside the District, generally on a user-charge basis. Currently, the District has no enterprise funds.
  - o *Internal service funds* report self-insurance activities charged to the District's other programs and activities and Internal Service fund activities charged to schools for school police officers.
- Fiduciary funds The District is the trustee, or fiduciary, for assets that belong to others, such as the scholarship fund and the student activities funds. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the government-wide financial statements because the District cannot use these assets to finance its operations.

**Notes to the Financial Statements** – The notes provide disclosures and additional information that are essential to a full understanding of the financial information presented in the government-wide and fund financial statements.

### MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) FOR THE FISCAL YEAR ENDED JUNE 30, 2023

**Other Information** – In addition to the basic financial statements and accompanying notes, this report also provides certain required supplementary information, as well as combining and individual fund statements and schedules.

#### FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

#### Government-Wide

The District's net position was \$2.309 billion at June 30, 2023. The largest portion of the District's net position, \$1.751 billion, reflects its investment in capital assets (i.e. land, buildings, furniture, buses, and equipment), less any outstanding related debt used to acquire those assets. The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets are reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. An additional portion of the District's net position (\$1.183 billion) represents resources that are subject to external restrictions on how they may be used.

<sup>\*</sup> Revised for GASB Statement No 96, Subscription-Based Information Technology Arrangements; see Note 8.

Cash and other assets increased \$396.9 million, or 21.6 percent, primarily as a result of receipt of ESSER and grant funds and issuance of COPs Series 2022B. Pension and OPEB deferred outflow of resources increased by \$64.2 million, or 13.4 percent, primarily due to changes in actuarial assumptions and experience. Current liabilities increased by \$72.4 million, or 30.1 percent, primarily due to accrual of charter school referendum settlement of \$60.0 million and additional construction projects currently

## MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) FOR THE FISCAL YEAR ENDED JUNE 30, 2023

underway. Long-term liabilities increased \$868.3 million, or 36.7 percent, primarily due to increases of \$709.5 million in net pension liability and \$38.7 million in OPEB liability which were both actuarially determined, and debt issuance proceeds of \$206.9 million, offset in part by debt repayments of \$89.0 million and amortization of premiums of \$21.9 million. Pension and OPEB-related deferred inflows of resources decreased \$651.4 million, or 83.7 percent, as a result of changes in actuarial values. See Notes 11, 12, and 13 for additional information regarding long-term liabilities.

The analysis in Table 1, on page 4, and Table 2, below, focus on the summary of net position and summary of changes in net position for the District's governmental activities.

### MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) FOR THE FISCAL YEAR ENDED JUNE 30, 2023

The results of this year's operations for the District as a whole are reported in the statement of activities. Table 2, on page 5, takes the information from that statement and rearranges them slightly so the reader can see the total revenues and expenses for the current year compared to the prior year.

As reported in the statement of activities, the cost of all of the governmental activities this year was \$3.096 billion. Some costs were paid by those who benefited from the programs (\$41.8 million), or by other governments and organizations who subsidized certain programs with grants and contributions (\$758.4 million). The District paid for the remaining "public benefit" portion of the governmental activities with \$1.799 billion in property taxes, \$206.1 million in local sales tax, \$365.2 million in grants and contributions not restricted to specific programs, \$75.4 million in interest earnings, and \$51.5 million in other general revenue.

Property taxes increased \$244.8 million, or 15.7 percent, which was primarily attributed to a 22.3 percent increase in property values. As a property rich county, Palm Beach County property taxpayers funded 65 percent of the District's education costs in fiscal year 2023 compared to an average of 45 percent statewide not including voter approved referendums. Sales tax revenue increased \$12.4 million, or 6.4 percent, as a result of an increase in economic activity

The pie chart below represents total expenses classified by function. #### FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

#### **Governmental Funds**

As of June 30, 2023, the District's governmental funds reported a combined fund balance of \$1.583 billion, which was an increase of \$332.5 million, or 26.6 percent, over the prior year.

### MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) FOR THE FISCAL YEAR ENDED JUNE 30, 2023

The General Fund, which is the chief operating fund of the District, had a fund balance of \$382.4 million, an increase of \$34.5 million, or 9.9 percent, over the prior year. The increase was primarily due to increased funding through property taxes (including referendum), staff vacancies, and receipt of ESSER funds which shifted expenditures from General Fund to Special Revenue Funds.

The Capital Improvement Fund, reported an ending fund balance of \$428.8 million, an increase of \$129.9 million, or 43.5 percent, over the prior year. The increase was due to the timing of ad valorem tax revenue and capital outlay spending and transfers to the General Fund for capital maintenance and Other Non-Major Government Funds for debt service payments.

The Sales Tax Fund, reported an ending fund balance of \$431.0 million, an increase of \$97.9 million compared with the prior year, as a result of sales tax collections over capital spending.

Other Non-Major Governmental Funds, which represent a summarization of all the other non-major governmental funds, ended the year with total fund balance of \$341.2 million, an increase of \$70.2 million, or 25.9 percent, over prior year. The increase was primarily due to an additional \$29.6 million debt service required for August 2023, partially offset by a \$5.4 million loss in school food service operations.

#### **Proprietary Funds**

The District's internal service funds reported a combined net position of \$213.6 million. The Health Internal Service Fund ended the year with a net position of \$93.6 million, a decrease of \$29.5 million from prior year as a result of claims exceeding premiums collected. The Workers' Compensation and Claims Fund ended the year with a net position of \$113.8 million, an increase of \$30.5 million due to premiums exceeding claims and other expenses. The School Police Internal Service Fund ended the year with a net position of \$6.2 million, a decrease of \$985 thousand compared with the prior year primarily as a result of booking actuarially determined liabilities for Pension and OPEB. Proprietary funds use accrual basis accounting, thus this fund records actuarially determined long-term liabilities.

#### General Fund Budgetary Highlights

During the year, budgeted General Fund revenue increased \$83.4 million to \$2.157 billion. The increase in revenue was attributed to an increase of \$39.7 million in State and Federal funding resulting from FEMA collections and additional funding from the state, and \$43.7 million more in local property tax revenue resulting primarily from higher interest earnings and property taxes (including referendum).

The General Fund actual expenditures were less than the budgeted appropriations. This was primarily due to staff vacancies, as well as transfer of eligible costs to ESSER funds.

#### CAPITAL ASSETS AND DEBT ADMINISTRATION

#### **Capital Assets**

As shown in Table 3, on page 8, at June 30, 2023, the District had \$3.175 billion invested in a broad range of capital assets, including land; construction in progress; improvements other than buildings; buildings and improvements; furniture, fixtures and equipment; motor vehicles; lease assets; subscription assets; audio/video materials and software. This amount represents a net increase (including additions, deletions, amortization, and depreciation) of \$61.6 million from last year. Capital spending in the current year included the acquisition of 50 new buses for \$5.7 million; 50 new school police vehicles for \$2.7 million; 34 white fleet vehicles to replace our aging maintenance fleet and school food service vehicles for \$1.8 million; capital construction for \$132.2 million, and subscription-based information technology arrangements of \$13.3 million. See Note 6 of the notes to the financial statements for more information on capital assets.

<sup>\*</sup> Revised for GASB Statement No 96, Subscription-Based Information Technology Arrangements; see Note 8.

In November 2016, the taxpayers of Palm Beach County approved a one-penny sales surtax of which 50 percent was allocated to the District. This surtax provides the District the ability to continue to provide state-of-the-art facilities, which include modernizations, facility renewal projects, remodeling projects, new school construction, buses and support vehicles, security systems, and technology infrastructure for all of its students.

#### Long-Term Debt

As shown in Table 4 below, at June 30, 2023, the District had \$1.522 billion in debt outstanding, which was \$97.5 million, or 6.8 percent, higher than the prior year. The increase was primarily related to the issuance of new certificates of participation offset by principal payments on existing debt. See Note 11 of the notes to the financial statements for more information on long-term liabilities.

### MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) FOR THE FISCAL YEAR ENDED JUNE 30, 2023

The limit for lease purchase agreement debt is tied to District capital millage. Annual debt service payments for lease purchase agreements may not exceed 75 percent of current year capital millage proceeds. Historically, the District has always been well within its 75 percent capacity; however, legislators reduced district debt service capacity by 25 percent from 2.0 to 1.75 mills in fiscal year 2009 and again from 1.75 to 1.50 mills in fiscal year 2010, and property values declined between fiscal years 2009 and 2013. These two factors have tightened up the District's margin of compliance. Other long-term obligations (not included above) include liabilities for compensated absences, estimated long-term claims, other post-employment benefits, and net pension liabilities.

#### FACTORS BEARING ON THE DISTRICT'S FUTURE

The District's revenues are determined in large part by the Florida Legislature and Governor. Funding per student is set as part of the State's annual budget approval. Local school board taxing authority is also governed at the State level with the Legislature dictating the largest component of school property taxes, known as the Required Local Effort (RLE), and through statutory caps that limit the remaining components of the school levy.

Enrollment is expected to increase 9,579 students district-wide compared with fiscal year 2023. Enrollment in district-operated schools is expected to increase by approximately 700 students while charter school and McKay and FES are expected to increase by approximately 8,900 students combined. A one-time state-wide reserve of \$350 million has been set aside to cover growth beyond state projections to hopefully eliminate the need for a prorated holdback. The pass-through to charter schools is estimated at \$206.5 million and \$149.5 million to FES students. Staffing at the school sites was fully aligned based on projected enrollment.

The overall increase in fiscal year 2024 per-student funding is \$447.01 or 5.11 percent when comparing to the fiscal year 2023 FEFP budget. The 5 percent increase in per-student funding is tempered by the expansion of the voucher program. Enrollment is expected to increase with the majority of the increase in FES. The FEFP includes a \$183.44, or 3.54 percent, increase in base student allocation (after adjusting for the collapse of categoricals into the Base Student Allocation (BSA). The BSA funds a state-mandated 1.8 percent increase in the FRS rate and \$16.9 million (including charter schools) increase in teacher salary "categorical". In addition to the increases in the operating and capital funds, the District's share of COVID-19 related federal funds, ESSER, will sunset September 2024. Applying federal funds to eligible expenditures in fiscal years 2021 through 2023 has freed up one-time funds to help soften the Federal funding cliff in fiscal year 2025, as was done with the American Recovery and Reinvestment Act funds after the Great Recession.

The District will continue to receive the 1.00 millage referendum approved in November 2022 generating over \$275 million for District-operated schools. The referendum invests in teacher pay through recruitment and retention supplements, school behavioral health positions, school psychologists, expanded mental health co-located services, arts and music education, and school safety. The millage referendum was approved through 2027.

The capital budget is supported by a one cent local government infrastructure sales tax approved in November 2016. The District receives 50 percent of this sales tax revenue or approximately \$200.0 million per year. As stipulated in the ballot language, the sales tax levy must sunset no later than December 31, 2026.

## THE SCHOOL DISTRICT OF PALM BEACH COUNTY, FLORIDA RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET POSITION JUNE 30, 2023 (amounts expressed in thousands)

Total Fund Balances - Governmental Funds		\$ 1,583,378
Amounts reported for governmental activities in the statement of net position are different because:		
Capital assets used in governmental activities are not financial resources and therefore are not reported in the governmental funds.		
Cost of Capital Assets Accumulated Depreciation Total Capital Assets, Net of Depreciation	\$ 5,296,703 (2,121,478)	3,175,225
Deferred outflows/inflows of resources are reported in the statement of net position but not recognized in the governmental funds since they do not represent current resources:		
Deferred Outflows - Net Unamortized Amount for Refunding Transactions Deferred Outflows - Pensions Deferred Outflows - OPEB Deferred Inflows - Pensions Deferred Inflows - OPEB	47,983 454,134 75,975 (68,679) (55,301)	
	(00,001)	454,112
Expenditures for insurance and software extending over more than one accounting period not allocated between or among accounting periods, but accounted for as expenditures of the period of acquisition in the funds.		7,929
An internal service fund is used by management to charge the costs of health premiums, workers compensation, auto and general liability, and school police to individual funds. The net position of the internal service fund is included in governmental activities in the statement of net position.		
Assets and Deferred Outflows of Resources	337,029	
Liabilities and Deferred Inflows of Resources  Net Position	123,479	213,550
Revenues that have been deferred or unearned in the governmental funds but are recognized as revenue in the governmental-wide financial statements.		7,850
Long-term liabilities are not due and payable in the current period and not reported as liabilities in the governmental funds. Long-term liabilities (net of premiums) at year-end consist of:		
Loans / Notes payable Obligations Under Leases and SBITA Bonds Payable Certificates of Participation Payable Arbitrage and Yield Restriction Rebate Liability Compensated Absences Other Postemployment Benefits Net Pension Liability	(6,240) (21,738) (3,929) (1,490,555) (714) (211,493) (100,611) (1,274,010)	
Accrued Interest on Long-Term Debt	(24,198)	 (3,133,488)

The notes to the financial statements are an integral part of this statement.

**Total Net Position - Governmental Activities** 

\$ 2,308,556

## THE SCHOOL DISTRICT OF PALM BEACH COUNTY, FLORIDA RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED JUNE 30, 2023

(amounts expressed in thousands)

Net Change in Fund Balances - Governmental Funds			\$	332,534
Amounts reported for governmental activities in the statement of activities are different because:				
Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount of capitalized capital outlay (\$183,301) in excess of depreciation and amortization expense (\$138,857) in the current period.				44,444
Governmental funds report the effect of the issuance of long-term debt, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.				
Debt Refunding Amortization Premium on Current Year Issuance	\$	(10,363) (21,045)		
Premium/Discount Amortization		21,945		(9,463)
Revenues reported in the statement of activities that do not provide current financial resources are not reported as revenues in the governmental funds.				7,850
Revenues reported in the governmental funds that were reported as revenue in the statement of activities in the prior year under full accrual.				(41,399)
Repayment of notes / loans and leases is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.				6,294
Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.				82,289
Proceeds of Lease-Purchase Agreements provide current financial resources for governmental funds, but issuing debt increases long-term liabilities in the statement of net position.				(185,900)
Repayment of lease and SBITA principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.				12,371
The effect of additional capitalized leases and SBITA (GASB 87 and GASB 96) is to decrease net position.				(13,410)
The net effect of various miscellaneous transactions involving capital assets (sales, trade-ins, and donations) is to decrease net position.				(2,008)
Some expenses in the statement of activities that do not require the use of current financial resources are not reported in the governmental funds.				
Prepaid Insurance and Software Compensated Absences Arbitrage and Yield Restriction Other Postemployment Benefits Pension Expense Accrued Interest on Long-Term Debt	_	2,551 (4,030) (714) (2,905) (28,677) 1,497		(00.077)
An internal service fund is used by management to charge the costs of self insurance claims				(32,278)
(including health, workers compensation, auto and general liability) to individual funds, and the cost of school police to schools. The net loss of the internal service fund is reported				
with governmental activities.			-	(12)
Change in Net Position - Governmental Activities			\$	201,312

#### NOTES TO THE FINANCIAL STATEMENTS

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the School District of Palm Beach County, Florida (District) have been reported to conform with Generally Accepted Accounting Principles (GAAP) in the United States of America as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. Pursuant to Section 1010.01, Florida Statutes, the Superintendent of Schools is responsible for keeping records and accounts of all financial transactions in the manner prescribed by the State Board of Education. The following is a summary of the more significant of these policies.

#### A. Reporting Entity

The District and its governing board are organized and operated under Section 4, Article IX, of the Constitution of Florida and Chapter 1001, Florida Statutes. The District's boundaries are coterminous with those of Palm Beach County. Management of the District is independent of county and city governments. The membership of the governing board of the District (Board) consists of seven members elected from single member districts for overlapping four-year terms. The Superintendent is appointed by the Board to act as executive officer of the District.

For financial reporting purposes, the accompanying financial statements include all of the operations over which the District is financially accountable. The District is financially accountable for organizations that make up its legal entity, as well as legally separate organizations that meet certain criteria. In accordance with GASB Statement No. 14, The Financial Reporting Entity, as amended by GASB Statement No. 39, Determining Whether Certain Organizations Are Component Units, and GASB Statement No. 61, The Financial Reporting Entity: Omnibus an amendment of GASB Statements No. 14 and No. 34, the criteria for inclusion in the reporting entity involve those cases where the District or its officials appoint a voting majority of an organization's governing body, and are either able to impose its will on the organization and there is a potential for the organization to provide specific financial benefits to or to impose specific financial burdens on the District or the nature and significance of the relationship between the District and the organization is such that exclusion would cause the District's financial statements to be incomplete. Applying this definition, District management has determined that the component unit reportable within the accompanying financial statements is the Palm Beach School Board Leasing Corporation (Corporation).

Blended Component Unit. Although the Corporation is legally separate from the District, the Board of the Corporation consists of the seven District Board members. The Corporation was formed to facilitate financing and construction of certain District school facilities. Due to the substantive economic relationship between the District and the Corporation, the District is financially accountable for the Corporation and its financial activities. Therefore the financial activities of the Corporation have been blended (reported as if it were part of the District) with those of the District. Separate financial statements for the Corporation are not published.

Based on assessing the criteria for classifying entities as component units under GASB Statement No. 61, charter schools do not meet the component unit requirements and are not reported within the District's financial statements.

Since the District is independent of and is not financially accountable for other governmental units or civic entities, these financial statements represent the operations of the District, the Corporation, as well as all of the funds of the District as a governmental unit.

#### B. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

#### Government-Wide Financial Statements

The statement of net position and the statement of activities display information about the District as a whole. The statements include financial activities of the primary government, except fiduciary funds. Eliminations have been made from the statements to remove the "doubling-up" effect of interfund activity.

The government-wide statements are prepared using the economic resources measurement focus and accrual basis accounting. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and are therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

#### **Fund Financial Statements**

Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds, each presented in a separate column. All remaining non-major funds are aggregated and presented in a single column. Internal service funds are aggregated and presented in a single column in the proprietary fund statements. Fiduciary funds are reported by fund type.

The governmental funds are accounted for on the "flow of current financial resources" measurement focus. Governmental fund financial statements are prepared using the current financial resource measurement focus and the modified accrual basis of accounting. The proprietary funds are accounted for on an "economic resources" measurement focus. Accordingly, the statement of revenues, expenses and changes in fund net position for the proprietary funds reports increases and decreases in total economic net worth. The private purpose trust fund is reported using the economic resources measurement focus.

#### **GOVERNMENTAL FUNDS**

Governmental funds are those through which most District functions are financed. The acquisition, use, and balances of the District's expendable financial resources and the related liabilities (except those accounted for in the proprietary and fiduciary funds) are accounted for through governmental funds. The measurement focus is upon determination of changes in financial resources rather than upon determination of net income. The District reports the following major governmental funds:

#### General Fund

The General Fund is the primary operating fund of the District. Ad valorem tax revenues, revenues from the Florida Education Finance Program (FEFP), and other receipts not allocated by law or contractual agreement to other funds are accounted for in this fund. Similarly, general operating expenditures, fixed charges, and capital improvement costs that are not paid through other funds are paid from this fund.

#### Capital Improvement Fund

The Capital Improvement Fund accounts for locally received funds, primarily ad valorem tax revenue, and funds are used to fund COPs debt service, capital maintenance, and other capital projects.

#### Sales Tax Fund

The Sales Tax Fund accounts for locally received funds, primarily sales tax revenue; acquisition, construction or renovation of capital facilities; and acquisition of new computer technology, equipment, and vehicles.

#### Other Non-Major Governmental Funds

The Other Non-Major Governmental Funds are a summary of all the other non-major funds.

#### PROPRIETARY FUNDS

The proprietary funds are used to account for ongoing activities where the intent is that charges made to users will cover the costs of the services provided. The measurement focus is upon the determination of net income. The only proprietary funds the District has are its internal service funds. A proprietary fund distinguishes operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Operating expenses for internal service funds include salaries, benefits, administrative expenses, and claims paid. All items not meeting this definition are reported as nonoperating revenues and expenses.

#### Internal Service Funds

The internal service funds are used to account for the financing of goods and services provided by one department to another on a cost reimbursement basis. The District has two self-insurance internal service funds, one for group health and one for workers' compensation, general and auto liability claims. Expenditures of the self-insurance funds are charged back to the appropriate governmental fund. The District also has a school police internal service fund to aggregate and charge out the actual cost of school police officers to the schools.

#### FIDUCIARY FUNDS

Fiduciary funds are used to account for assets held by the District on behalf of outside related organizations or on behalf of other funds within the District. The fiduciary funds are prepared under the economic resources measurement focus and the accrual basis of accounting.

#### **Custodial Funds**

Custodial funds consist of activity funds, which are established at each school to record the receipts and disbursements of various school activities administered for the general welfare of the students and completion of certain planned objectives and special programs of school groups. The District retains no equity interest in these funds.

#### Private Purpose Trust Fund

A trust fund was established in January 1993 and is used to account for a District-supported Florida Future Educators of America. Revenues consist of employee donations and interest income. Expenditures represent scholarships for future teachers, which are awarded in accordance with the trust requirements.

#### BASIS OF ACCOUNTING

Basis of accounting determines when transactions are recognized in the financial records and reported in the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds use the accrual basis of accounting.

#### **Modified Accrual**

Under the modified accrual basis, revenues are recognized in the accounting period in which they become susceptible to accrual, i.e., both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Significant revenues susceptible to accrual include ad valorem taxes, reimbursable-type grants, and interest on investments. The District considers all revenues (with the exception of the expenditure-driven grants) as available if they are collected within 60 days after year-end. The expenditure driven grants are considered available if received within one year from the balance sheet date. Current year property tax revenue is recognized when levied for, if available. Amounts are considered available if received by the District within 60 days subsequent to fiscal year end. Under the

modified accrual basis of accounting, expenditures are generally recognized when the related fund liability is incurred. The principal exceptions to this general rule are: (1) interest on general long-term debt is recognized as expenditures when due/paid; and (2) expenditures related to liabilities reported as general long-term obligations are recognized when due, such as compensated absences, other postemployment benefits, pensions, claims payable, bonds, loans, and leases.

In applying the susceptible to accrual concept to revenues from Federal and State sources, the legal and contractual requirements of the numerous individual programs are used as guidance. Revenue from grants and entitlements is recognized when all eligibility requirements have been satisfied. There are, however, essentially two types of these revenues. In one, monies must be expended for the specific purpose or project before the District will receive any amounts; therefore, revenues are recognized based upon the occurrence of expenditures. In the other type, monies are virtually unrestricted as to purpose of expenditure and are usually revocable only for failure to comply with prescribed legal and contractual requirements. These resources are reflected as revenues at the time of receipt or earlier if the susceptible to accrual criteria are met. In all cases, monies received before the revenue recognition criteria have been met are reported as advance payments or deferred inflows.

#### Accrual

Under the accrual basis of accounting, revenues are recognized in the period earned and expenses are recognized in the period incurred.

#### REVENUE RECOGNITION

**Program and General Revenues** – Amounts reported as program revenues include charges paid by the recipient of the goods or services offered by the program, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than program revenues. Revenues that are not classified as program revenues are presented as general revenues. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

**State Revenue Sources** – Revenues from State sources for current operations are primarily from the Florida Education Finance Program (FEFP), administered by the Florida Department of Education (FDOE), under the provisions of Chapter 1011, Florida Statutes. This revenue is recognized in the year of entitlement. The District files reports on full time equivalent (FTE) student membership with the FDOE. The FDOE accumulates information from these reports and calculates the allocation of FEFP funds to the District. After review and verification of FTE reports and supporting documentation, the FDOE may adjust subsequent fiscal period allocations of FEFP funding for prior year errors disclosed by its review. Normally, such adjustments are treated as reductions of revenue in the year the reduction is made, as amounts are not significant.

The District receives and recognizes revenue from the State to administer certain categorical educational programs. State Board of Education rules require that revenue earmarked for these programs be expended only for the program for which the money is provided and require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the same categorical educational programs.

The State allocates gross receipt taxes, generally known as Public Education Capital Outlay money, to the District on an annual basis. The District is authorized to expend these funds only upon applying for and receiving an encumbrance authorization from FDOE.

**Property Taxes** – Property tax revenue anticipated to be collected is recognized in the fiscal year for which it is levied. Delinquent taxes collected in subsequent periods are recognized as revenue during the fiscal year in which they are received.

**Sales Tax and Impact Fees** – Sales tax and impact fee revenue anticipated to be collected within 60 days of year-end are recognized in the fiscal year collected by the county.

**Federal Revenue Sources** – The District receives Federal awards for the enhancement of various educational programs. Federal awards are generally received based on applications submitted to, and approved by, various granting agencies. For Federal awards in which a claim to these grant proceeds is based on incurring eligible expenditures, revenue is recognized to the extent that eligible expenditures have been incurred.

**Use of Resources** – When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, and then unrestricted resources as they are needed.

#### C. Budgetary Policies

Expenditures are controlled by budgetary systems in accordance with various legal and administrative requirements that govern the District's operations. The budget represents a process through which policy decisions are made, implemented, and controlled. The budget is adopted on a basis consistent with GAAP, except for encumbrances. The budgetary process includes encumbrances in the current year budget. The encumbrances are reported as expenditures on the budgetary basis of accounting.

Annual budgets are legally adopted for all funds except the fiduciary funds. The budget amounts for revenues and expenditures reflect all amendments to the original budget dated September 7, 2022, with the final amendments approved by the Board. Significant dates in the budgeting timetable follow:

- 1. The Palm Beach County Property Appraiser (Property Appraiser) certifies to the District the taxable value of all nonexempt District property by July 1 of each year, or the Clerk of the Circuit Court is required to certify an interim tax roll.
- 2. Within 24 days of tax roll certification, the Board considers and approves for advertising a tentative budget.
- 3. Within 29 days after tax roll certification, the District advertises the tentative budget and the millage rates therein.
- 4. A public hearing to adopt the tentative budget and proposed millage rate is held not less than two nor more than five days after the budget is advertised.
- 5. Within 35 days of tax roll certification, the District notifies the Property Appraiser of proposed millage rates.

At a final public hearing within 80 days, but not less than 65 days, after tax roll certification, the Board adopts the District budget.

The major functional level is the legal level of budgetary control. Per Board policy, management is authorized to make budget amendments at function level with Board approval. All interim budget amendments between major functional areas within each fund are submitted to the Board for approval. Federal and State grant budget amendments which require State approval prior to processing are also submitted to the Board for approval with monthly amendments.

Unreserved appropriations are canceled at the end of the fiscal year. However, encumbered appropriations for funds do not lapse at the end of the fiscal year. Restricted, committed, and assigned fund balances at June 30, 2023, for funds under budgetary control have been re-appropriated for the June 30, 2024, fiscal year operating budget within the appropriate fund. Programs restricted for carryover include all State categorical grants required to be expended on specific programs and District-approved carryover programs.

#### D. Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of funds are recorded to reserve a portion of an applicable appropriation, is utilized for budgetary control purposes. Encumbrances are not the equivalent of expenditures, and accordingly, amounts assigned for encumbrances at the governmental fund level indicate that portion of the fund balance segregated for expenditure upon vendor performance.

#### E. Cash, Cash Equivalents, and Investments

The District maintains a Treasurer's pool for the District's cash and investments. Each fund's portion of the pool is reported as cash, cash equivalents, and investments in the financial statements. Investments recorded at fair value consist of direct obligations of the U. S. Treasury, U.S. Government Agency Securities, U.S. Government sponsored agencies, U.S. Treasury Securities, AAA-rated local government investment pools, corporate notes, U.S. Government Supported Corporate Debt, and other investments allowable by the District's investment policy. The District categorizes its investments according to the fair value hierarchy established by GASB Statement No. 72. The hierarchy is based on observable and unobservable inputs used in establishing the fair value of a financial asset or liability. All money market mutual funds are AAA rated by the various rating agencies and each fund is registered as a 2a-7 fund with the Securities and Exchange Commission and recorded at amortized cost. Rule 2a-7 of the Investment Company Act of 1940 comprises the rules governing money market funds. For purposes of the statement of cash flows, each fund's portion of the pool is considered cash equivalents, which are money market funds and all highly liquid investments with a maturity of three months or less when purchased (see Note 3).

#### F. Inventories

Inventories are stated at cost, principally on a weighted average cost basis. The District's inventories include various items consisting of school supplies, paper, textbooks, fuel, commodities, etc. United States Department of Agriculture (USDA) commodities received from the Federal government are recorded at the value established by the Federal government using the average cost method. Inventorial items are recorded as expenditures when shipped to schools and department offices (the consumption method). The nonspendable fund balance at the governmental fund level is equal to the amount of inventories at year-end to indicate the portion of the governmental fund balances that are nonspendable.

#### G. Prepaid Items

Expenditures for insurance and similar services extending over more than one accounting period are not allocated between or among accounting periods in the governmental funds and are instead accounted for as expenditures in the period of acquisition (purchase method). In the government-wide financial statements these amounts are reported as other assets and will be charged to expense in the period used or consumed.

#### H. Capital Assets

Capital assets represent the cumulative amount of capital assets owned and in use by the District. Purchased assets are recorded as expenditures in the governmental fund financial statements and are capitalized at cost on the government-wide statement of net position. Gifts or contributions are recorded at estimated acquisition value at the time received. The District's capitalization levels are \$1,000 on tangible personal property, \$50,000 on improvements other than buildings, and \$100,000 on building improvements and intangible assets. Other costs incurred for repairs and maintenance is expensed as incurred. All reported capital assets except land and construction in progress are depreciated or amortized (see Note 6).

Depreciation and amortization is computed using the straight-line method over the following estimated useful lives:

Description	Estimated Lives
Furniture, Fixtures, and Equipment	3 – 15 years
Motor Vehicles	5 – 10 years
Audio/Video Materials & Software	3 – 5 years
Lease Assets	2 – 5 years
Buildings and Improvements	15 – 50 years
Improvements Other Than Buildings	15 years
Intangibles	5 years

#### I. Leases

The District is a lessee for noncancelable leases of equipment and facilities. The District recognizes a lease liability and an intangible right-to-use lease asset in the government-wide financial statements. The District recognizes lease assets with an initial value of \$50,000 or more.

At the commencement of the lease, the District measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of lease liability, adjusted for any payments made at or before the lease commencement date, plus certain initial direct costs. The lease asset is amortized on a straight-line basis over the shorter of the lease term or the useful life of the underlying asset.

Key estimates and judgments related to leases include how the District determines: (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments. The lease contracts did not contain an implicit rate; therefore the District used an incremental borrowing rate. The lease term includes the noncancelable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments and renewal options that the District is reasonably certain to exercise.

The District monitors changes in circumstances that would require a remeasurement of its lease and will do so if certain changes occur that would be expected to significantly affect the amount of the lease liability.

Lease assets are reported with other capital assets and lease liabilities are reported with long-term debt on the statement of net position (see Notes 6, 7, and 11).

#### J. Subscription-Based Information Technology Arrangements

The District has recorded subscription-based information technology arrangement (SBITA) assets and liabilities as a result of implementing GASB Statement No. 96. The SBITA assets are initially measured at an amount equal to the initial measurement of the related SBITA liability plus any SBITA payments made prior to the subscription term, less SBITA incentives, plus any ancillary charges necessary to place the SBITA into service. The SBITA assets are amortized on a straight-line basis over the life of the related contract.

The costs of normal maintenance and repairs that do not add to the values of the assets or materially extend the asset lives are not capitalized and are expensed as incurred.

The District monitors changes in circumstances that would require a remeasurement of its SBITAs and will do so if certain changes occur that would be expected to significantly affect the amount of the lease liability.

SBITA assets are reported with other capital assets and SBITA lease liabilities are reported with long-term debt on the statement of net position (see Notes 6, 8, and 11).

#### K. Deferred Outflows/ Inflows of Resources

In addition to assets, the statement of net position has a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) that will not be recognized as an outflow of resources (expense/expenditure) until then. One item is the net carrying amount of debt refunding reported in the government-wide statement of net position. A deferred loss on debt refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded debt or new refunding debt. A second item, in accordance with GASB Statement No. 68, reports pension-related deferred outflows of resources and deferred inflows of resources on its financial statements. A third item, in accordance with GASB Statement No. 75, reports OPEB-related deferred outflows of resources and deferred inflows of resources on its financial statements.

On the government-wide financial statements, deferred outflows of resources total \$593.1 million with activity for fiscal year ended June 30, 2023, as follows (in thousands):

	Ending								
	Ε	Balance					Balance		
<b>Deferred Outflows of Resources</b>	June 30, 2022 Inc			Increase Decrease			June 30, 2023		
Net Carrying Amount of Deferred				·				,	
Refunding	\$	58,346	\$	-	\$	10,363	\$	47,983	
Pension Related - FRS		345,173		397,742		345,173		397,742	
Pension Related - HIS		89,372		70,427		89,372		70,427	
OPEB Related		46,385		30,593		-		76,978	
<b>Total Deferred Outflows of Resources</b>	\$	539,276	\$	498,762	\$	444,908	\$	593,130	

In addition to liabilities, the statement of net position has a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. One item, in accordance with GASB Statement No. 87, reports right to use leases related to deferred inflows of resources on its financial statements. In the governmental funds, the District had \$24.1 million related to leases and \$7.2 million unavailable revenue (primarily \$5.4 million related to Medicaid administration claims and \$1.5 million related to the School Hardening Grant) that qualified as a deferred inflow of resources and is shown in the governmental funds balance sheet under the modified accrual basis of accounting.

On the government-wide financial statements, deferred inflows of resources totaled \$150.5 million with activity for fiscal year ended June 30, 2023, as follows (in thousands):

				Ending					
	E	Balance					E	Balance	
Deferred Inflows of Resources	June 30, 2022 Increase			June 30, 2022 Increase Decrease			ecrease	Jun	e 30, 2023
Leases	\$	2,310	\$	22,275	\$	520	\$	24,065	
Pension Related - FRS		690,600		-		686,656		3,944	
Pension Related - HIS		26,229		40,276		-		66,505	
OPEB Related		61,095		_		5,064		56,031	
Total Deferred Inflows of Resources	\$	780,234	\$	62,551	\$	692,240	\$	150,545	

#### L. Long Term Debt

In the fund-level financial statements, governmental funds report the face amount of debt issued and debt principal payments as well as any premiums (discounts) as other financing sources (uses). Debt issuance costs and principal payments are reported as debt service expenditures. In the government-wide financial statements, long-term debt is reported as a liability in the statement of net position. Bond premiums/discounts and bond insurance cost are amortized over the life of the bonds. See also Note 11.

#### M. Self-Insurance

The District is self-insured for health (health insurance for employees and eligible dependents) and portions of its general and automobile liability insurance and workers' compensation (insurance for various risks of loss related to torts; theft of; damage to; destruction of assets; errors and omissions; injury to employees; and natural disasters). The estimated liability for self-insured risks represents an estimate of the amount to be paid on insurance claims reported and on insurance claims incurred but not reported (see Note 9).

Consistent with GAAP guidelines, in the proprietary fund financial statements, the liability for self-insured risks is recorded under the accrual basis of accounting. Expenditures of the self-insurance funds are charged back to the appropriate governmental fund.

#### N. Compensated Absences

Compensated absences are obligations to employees for accumulated vacation and sick leave. These amounts also include the related employer's share of applicable taxes and retirement contributions. District employees may accumulate unused vacation and sick leave up to a specified amount depending on their date of hire. Vacation and sick leave are payable to employees upon termination or retirement at the current rate of pay on the date of termination or retirement.

The District uses the vesting method to calculate the compensated absences amounts. The entire compensated absence liability is reported on the government-wide financial statements. The portion related to employees in the internal service fund is recorded at the fund level. The current portion is the amount estimated to be used in the following year. To liquidate the liability, an expenditure is recognized primarily in the general fund as payments come due each period, for example, as a result of employee resignations and retirements. At June 30, 2023, the amount recorded in the general fund for compensated absences was \$7.7 million and was paid in July. Compensated absences not recorded at the fund level represent a reconciling item between the fund level and government-wide presentations (see Note 11).

#### O. Pensions

In the government-wide statement of net position, liabilities are recognized for the District's proportionate share of each pension plan's net pension liability. The portion related to employees in the internal service fund is recorded at the fund level. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Florida Retirement System (FRS) defined benefit plan and the Health Insurance Subsidy (HIS) defined benefit plan and additions to and deductions from the FRS's and the HIS's fiduciary net position have been determined on the same basis as they are reported by the FRS and the HIS plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Pension liabilities are liquidated in the governmental fund in which the employee is charged. Investments are reported at fair value. The District's retirement plans and related amounts are described in Note 12.

#### P. Accounting Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets/deferred outflows of resources and liabilities/deferred inflows of resources and disclosures of contingent assets/deferred outflows of resources and liabilities/deferred inflows of resources at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

#### Q. Postemployment Benefits Other Than Pensions (OPEB)

The District applies GASB Statement No. 75, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions, for the measurement, recognition, and display of OPEB expenditures or expenses, liabilities, and assets as discussed in Note 13. OPEB is unfunded at June 30, 2023.

#### R. Impact of Recently Issued Accounting Principles

#### Recently Issued and Adopted Accounting Pronouncements

In May 2019, the GASB issued Statement No. 91, *Conduit Debt Obligations*, which became effective for fiscal year ended June 30, 2023. This standard will provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This statement achieves those objectives by clarifying the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improving required note disclosures. This standard did not have an impact on the District's financial statements.

In March 2020, the GASB issued Statement No. 93, Replacement of Interbank Offered Rates, which became effective for fiscal year ended June 30, 2022, with the exception of the removal of the London Interbank Offered Rate (LIBOR) as an appropriate benchmark interest rate which became effective for fiscal year ended June 30, 2023. The objective of this statement is to address accounting and financial reporting implications that result from the replacement of in Interbank Offered Rate (IBOR). This statement achieves that objective by: (1) providing exceptions for certain hedging derivative instruments to the hedge accounting termination provisions when an IBOR is replaced as the reference rate of the hedging derivative instrument's variable payment; (2) clarifying the hedge accounting termination provisions when a hedged item is amended to replace the reference rate; (3) clarifying that the uncertainty related to the continued availability of IBORs does not, by itself, affect the assessment of whether the occurrence of a hedged expected transaction is probable; (4) removing LIBOR as an appropriate benchmark interest rate for the qualitative evaluation of the effectiveness of an interest rate swap; (5) identifying a Secured Overnight Financing Rate and the Effective Federal Funds Rate as appropriate benchmark interest rates for the qualitative evaluation of the effectiveness of an interest rate swap; (6) clarifying the definition of reference rate, as it is used in Statement No. 53, as amended; and (7) providing an exception to the lease modifications in Statement No. 87, as amended, for certain lease contracts that are amended solely to replace an IBOR as the rate upon which variable payments depend. The exceptions to the existing provisions for hedge accounting termination and lease modifications in this statement will reduce the cost of the accounting and financial reporting ramifications of replacement IBORs with other reference rates. The reliability and relevance of reported information will be maintained by requiring that agreements that effectively maintain an existing hedging arrangement continue to be accounted for in the same manner as before the replacement of a reference rate. As a result, this statement will preserve the consistency and comparability of reporting hedging derivative instruments and leases after governments amend or replace agreements to replace an IBOR. This standard did not have an impact on the District's financial statements.

In March 2020, the GASB issued Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements* which became effective for fiscal year ended June 30, 2023. The requirements of this statement will improve financial reporting by establishing the definitions of public-private and public-public partnership (PPPs) arrangements and availability payment arrangements and providing uniform guidance on accounting and financial reporting for transactions that meet those definitions. That uniform guidance will provide more relevant and reliable information for financial statement users and create greater consistency in practice. This statement will enhance the decision usefulness of a government's financial statements by requiring governments to report assets and liabilities related to PPPs consistently and disclose important information about PPP transactions. The required disclosures will allow users to understand the scale and important aspects of a government's PPPs and evaluate a government's future

obligations and assets resulting from PPPs. This standard did not have an impact on the District's financial statements.

In May 2020, the GASB issued Statement No. 96, Subscription-Based Information Technology Arrangements (GASB 96) which became effective for fiscal year ended June 30, 2023. The objective of this statement is to improve financial reporting by establishing a definition for subscription-based information technology arrangements (SBITAs) and providing uniform guidance for accounting and financial reporting for transactions that meet that definition. That definition and uniform guidance will result in greater consistency in practice. Establishing the capitalization criteria for implementation costs also will reduce diversity and improve comparability in financial reporting by governments. This statement also will enhance the relevance and reliability of a government's financial statements by requiring a government to report a subscription asset and subscription liability for a SBITA and to disclose essential information about the arrangement. The disclosures will allow users to understand the scale and important aspects of a government's SBITA activities and evaluate a government's obligations and assets resulting from SBITAs.

This statement requires the cumulative effect of applying this statement be reported as a restatement of beginning net position and impacts the beginning balances in Notes 6, 8, and 11. The cumulative effect of applying this standard is reported as shown below (in thousands):

	Governmental Activities				
	Rig	ht-to-Use			
	SBI	TA Asset	SBITA Liability		
Balances, June 30, 2022, as Previously Reported	\$	-	\$	-	
Adjustment for Implementation of GASB 96		19,160		19,160	
Balances, July 1, 2022, as Restated	\$ 19,160 \$		19,160		

In April 2022, the GASB issued Statement No. 99, *Omnibus 2022*, which became effective, in part, for fiscal year ended June 30, 2023. The objectives of this statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing (1) practice issues that have been identified during implementation and application of certain GASB Statements and (2) accounting and financial reporting for financial guarantees.

- The requirements related to leases, PPPs, and SBITAs became effective for fiscal year ended June 30, 2023, and are implemented in the District's financial statements, as applicable.
- The requirements related to financial guarantees and the classification and reporting of derivative instruments within the scope of GASB Statement No. 53 will become effective for fiscal year ending June 30, 2024. Management is currently evaluating the impact of the adoption of this statement on the District's financial statements.

#### Recently Issued Accounting Pronouncements

In June 2022, the GASB issued Statement No. 100, Accounting Changes and Error Corrections – an amendment of GASB Statement No. 62, which will become effective for fiscal year ending June 30, 2024. The primary objective of this statement is to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. This statement defines accounting changes as changes in accounting principles, changes in accounting estimates, and changes to or within the financial reporting entity and describes the transactions or other events that constitute those changes. This standard is not expected to impact the District's financial statements.

In June 2022, the GASB issued Statement No. 101, *Compensated Absences*, which will become effective for the fiscal year ending June 30, 2025. The objective of this statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified

model and by amending certain previously required disclosures. Management is currently evaluating the impact of the adoption of this statement on the District's financial statements.

#### 2. AD VALOREM TAXES

The Board is authorized by Florida Statutes to levy property taxes for District operations, capital improvements, and debt service. Property taxes consist of ad valorem taxes on real and personal property within the District. The Palm Beach County Property Appraiser assesses property values and the Palm Beach County Tax Collector (Tax Collector) collects the property taxes.

Property values are assessed as of January 1 each year. The Board levies the property tax at the final budget hearing each year based on the assessed valuation of all non-exempt property. This levy finances the expenditures of the current fiscal year. Tax bills are mailed by the Tax Collector on November 1 and are due no later than April 1. After this date, taxes become an enforceable lien on property. Discounts of up to 4 percent are available for early payment. The majority of ad valorem taxes are collected in November and December and remitted to the Board. Section 197.383, Florida Statutes, requires the Tax Collector to distribute the taxes collected to each taxing authority at least four times during the first two months after the tax roll comes into the Tax Collector's possession, and at least once per month thereafter. Taxes are considered delinquent if not paid prior to April 1. State law provides for enforcement of collection of taxes by the sale of tax certificates on real property and for levy upon, seizure and sale of personal property after the Tax Collector initiates a sequence of required procedures resulting in a court order to carry out the action.

The State Legislature prescribes the maximum non-voted millage that may be levied by the Board for each fiscal year. For the 2022-23 fiscal year, the total millage rate levy was 6.519 mills (including 1.00 mills approved by voters in November 2018) and the total assessed value on which the levy was based was \$287.3 billion. Gross taxes levied were approximately \$1.8 billion. Total revenue, net of discounts, was approximately \$1.8 billion. A portion of the taxes levied for the local capital improvement capital project fund, designated for repairs and maintenance programs are transferred to the general fund as provided by Chapter 1013, Florida Statutes. For the 2022-23 fiscal year, the maintenance transfer amounted to approximately \$98.5 million. Additionally, approximately \$15.9 million was transferred for property insurance. The total transfer from nonvoted capital improvement funds was approximately \$107.9 million and \$6 million from other non-major funds.

#### 3. CASH, CASH EQUIVALENTS, AND INVESTMENTS

#### Cash and Cash Equivalents

Florida Statutes authorize the deposit of District funds in demand deposits or time deposits of financial institutions approved by the State Treasurer and are defined as public deposits. All District public deposits are held in qualified public depositories pursuant to Chapter 280, Florida Statutes, the "Florida Security for Public Deposits" Act. Under the Act, all qualified public depositories are required to pledge eligible collateral having a fair value equal to or greater than the average daily or monthly balance of all public deposits times the depository's collateral pledging level. The collateral pledging level may range from 50 percent to 125 percent depending upon the depository's financial condition and the length of time that the depository has been established. All collateral must be deposited with the State Treasurer. Any losses to public depositors resulting from insolvency are covered by applicable deposit insurance, sale of securities pledged as collateral and, if necessary, assessment against other qualified public depositories of the same type as the depository in default. All bank balances of the District are fully insured or collateralized. At June 30, 2023, the carrying amount of the District's cash deposits was approximately \$342.3 million and the bank balance was approximately \$131.8 million. The carrying amount of the Custodial Fund - School Internal Funds cash deposits was approximately \$24.7 million.

The District receives interest on all balances in its cash accounts from the qualified public depository acting as its banking agent. Interest earnings are allocated to all funds based on the average daily balance of each fund's equity in the Treasurer's Pool.

Cash equivalents consist of amounts invested in money market mutual funds, Florida Public Assets for Liquidity Management (FL Palm), and Florida PRIME. FL Palm and Florida PRIME are external investment pools that are not registered with the Securities Exchange Commission (SEC), but do operate in a manner consistent with the SEC's Rule 2a-7 of the Investment Company Act of 1940. Rule 2a-7 allows funds to use amortized cost to maintain a constant net asset value (NAV) of \$1.00 per share. Accordingly, the District's investments in both FL Palm and Florida PRIME are reported at the account balance, which is amortized cost. There are no restrictions or fees to withdraw from either of these pools.

#### **Investments**

The District's investment policy permits investments in the Florida PRIME, FL Palm, securities of the U.S. Government, U.S. Government agencies, Federal instrumentalities, interest bearing time deposit or savings accounts, repurchase agreements, commercial paper, corporate notes, bankers' acceptances, state and/or local government debt, and money market mutual funds. The District's investment advisor used the effective duration method to calculate effective duration measures for the securities held by the District. Besides measuring the sensitivity of the securities fair value to changes in interest rates, the effective duration method accounts for any call (early redemption) features that a security may have.

In accordance with GASB Statement No. 72, Fair Value Measurement and Application, the District categorizes investments according to the fair value hierarchy established by this statement. The hierarchy is based on valuation inputs used to measure the fair value of the asset as follows: Level 1 assets are quoted prices in active markets for identical assets; Level 2 assets are valued using a matrix pricing technique of quoted prices for similar assets or liabilities in active markets. Certain investments are measured at fair value using the net asset value per share (or its equivalent) practical expedient and have not been classified in the fair value hierarchy. The fair value amounts, presented in the following table, are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of net position.

As of June 30, 2023, the District had the following unrestricted cash, cash equivalents, and investments with stated maturities that were categorized as Level 1 and Level 2 (in thousands):

		Fai	ir Value Meası	uremei	nts Using	
Investments by Level	Balance thousands)	Active Iden	ed Prices in Markets for tical Assets Level 1)	0	ignificant Other bservable its (Level 2)	Effective Duration (years)

<sup>\*</sup> Excludes Fiduciary Funds.

#### **Interest Rate Risk**

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. To limit exposure to fair value losses resulting from increases in interest rates, the District's investment policy limits operating funds to maturities of two years or less. Investments of reserves, project funds, debt proceeds, and other non-operating funds (core funds) shall have a term appropriate to the need for funds and in accordance with debt covenants, but in no event shall exceed 5.5 years and the average duration of the funds as a whole may not exceed 3 years. The District's investment in the Federally Backed Securities (Fannie Mae, Freddie Mac (also known as Federal Home Loan Mortgage Corporation) and Farmer Mac) matures between July 2022 and December 2023. As of June 30, 2023, the District held \$31.0 million in corporate notes of which \$19.8 million in fair value was callable, which permit the issuer to redeem the securities prior to their original maturity date.

#### **Concentration of Credit Risk**

Concentration of credit risk is the risk of losses due to too high a concentration of investments in a single investment. The District's investment policy specifies the maximum percentage allocation to any single investment type as well as the maximum percentage holding per issuer. Up to 100 percent of the portfolio may be invested in U.S. Government securities, 80 percent may be invested in Federal instrumentalities (U.S.

Government-sponsored agencies) with no more than 50 percent with a single issuer and 50 percent may be invested in U.S. Government agencies with no more than 25 percent with a single issuer. Corporate notes are limited to 30 percent of the portfolio with no more than 5 percent with a single issuer.

<sup>(1)</sup> Commercial Paper rating range: S&P (A-1+ to A-1) and Moody's (P-1).

As of June 30, 2023, all District investments were in compliance with the District's investment policy or debt management policy and did not exceed portfolio allocation or issuer maximums.

#### Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The District's investment policy lists the authorized investment types as well as the minimum allowable credit rating for each investment type. Corporate notes purchased for investment must be issued by corporations organized and operating within the United States or by depository institutions licensed by the United States that have a long-term debt rating, at the time of purchase, at a minimum "A" by Moody's and "A" by Standard & Poor's (S&P). The maximum length to maturity for corporate notes shall be 5.5 years from the date of purchase. As of June 30, 2023, the District held \$31.0 million of corporate notes which had an S&P rating between AA and BBB+. All investments in the Federally Backed Securities (Fannie Mae, Freddie Mac (also known as Federal Home Loan Mortgage Corporation) and Farmer Mac) had an S&P rating of AA+ and a Moody's rating of Aaa for securities held for more than one year. All other rated investments were rated between BBB+ and AAAm by S&P. As of June 30, 2023, the Local Government Investment Pools were rated AAAm by S&P.

<sup>(2)</sup> Ninety-four Corporate Notes rating range: S&P (AA to BBB+) and Moody's (Aaa to A3).

<sup>(3)</sup> Municipal Bonds rating range: S&P (AAA to AA-) and Moody's (Aaa to Aa3).

#### **Custodial Credit Risk**

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the District will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. The District's investment policy requires that all securities, with the exception of certificates of deposit, be held with a third party custodian; and all securities purchased by, and all collateral obtained by the District should be properly designated as an asset of the District. The securities must be held in an account separate and apart from the assets of the financial institution. A third-party custodian is defined as any bank depository chartered by the Federal government, the State of Florida, or any other state or territory of the United States which has a branch or principal place of business in the State of Florida as defined in Section 658.12, Florida Statutes, or by a national association organized and existing under the laws of the United States which is authorized to accept and execute trusts and which is doing business in the State of Florida. Certificates of deposit will be placed in the provider's safekeeping department for the term of the deposit. Security transactions between a broker/dealer and the custodian involving the purchase or sale of securities by transfer of money or securities are made on a "delivery vs. payment" basis, if applicable, to ensure that the custodian will have the security or money, as appropriate, in hand at the conclusion of the transaction. As of June 30, 2023, the District's investment in fixed income securities was held with a third-party custodian.

#### 4. DUE FROM OTHER GOVERNMENTS OR AGENCIES

At June 30, 2023, the District had a total of approximately \$62.7 million in due from other governments or agencies which consisted of the following balances (in thousands):

			Other Non-		Internal			
	G	eneral		Major		Service		
	]	Fund	Gove	rnmental	Fund			Total
Federal and State Sources								
Medicaid*	\$	5,434	\$	-	\$	-	\$	5,434

<b>Total Due From Other Governments</b>								
or Agencies	\$	6,734	\$	49,242	\$	6,705	\$	62,681

<sup>\*</sup> All or partially recorded as Deferred Inflows- Unavailable Revenue at the fund level.

### 5. INTERFUND ACTIVITIES

Due to/from other funds consisted of the following balances at June 30, 2023, (in thousands):

	Iı	nterfund	Interfund		
	Re	ceivables	Payables		
General Fund	\$	18,000	\$	-	
Other Non-Major Governmental Funds		_		18,000	
Total Interfund	\$	18,000	\$	18,000	

The amount payable by the Other Non-Major Governmental Funds are to cover temporary cash shortages related to timing of receipts.

Interfund transfers for the year ended June 30, 2023, were as follows (in thousands):

		Transfer To:						
			O	ther Non-		_		
				Major	Total			
			Gov	ernmental	Governmental			
Transfer From:	General Fund			Funds	Funds			
				_		_		
General Fund	\$	_	\$	10	\$	10		
Capital Improvement		107,877		140,541		248,418		
Other Non-Major Governmental		18,614		34,301		52,915		
Total	\$	126,491	\$	174,852	\$	301,343		

Transfers to the general fund relate primarily to funding for the property insurance, maintenance, renovation and/or repair of school facilities, pursuant to Section 1011.71, Florida Statutes. Transfers to other non-major funds mainly relate to amounts needed to make debt service payments.

#### 6. CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2023, is as follows (in thousands):

3	,	'Restated		•	Ret	irements		
	Ε	Beginning	Α	dditions		and		Ending

Capital Assets, Net	\$	3,132,789	\$	80,219	\$	37,783	\$	3,175,225
			_					

<sup>\*</sup>Restated for GASB Statement No. 96, Subscription-Based Information Technology Arrangements, as of July 1, 2022; see Note 8.

Depreciation and amortization expense for the year ended June 30, 2023, of approximately \$138.9 million was not allocated to specific functions. The District's capital assets essentially serve all functions and as such, the depreciation and amortization expense is included as a separate line item in the statement of activities.

#### 7. LEASES

#### Leases Pavable

The District has entered into agreements to lease certain equipment and facilities. The lease agreements qualify as other than short-term leases under GASB Statement No. 87 and have been recorded at the present value of the future minimum payments of the date of inception. The lease liability is calculated using an implicit rate of 3.5 percent, which represents the District's incremental borrowing rate. The lease assets are initially measured at an amount equal to the initial measurement of the related lease liability plus any lease payment made. The lease assets are amortized on a straight-line basis over the shorter of the life of the assets or the related lease.

The classes and amounts of lease assets as of June 30, 2023, are as follows (in thousands):

	Asse	t Balances
GPS Systems	\$	1,382
Office Equipment		198
Facilities		327
Total	\$	1,907

A summary of changes of changes in leases payable for the fiscal year ended June 30, 2023, is as follows (in thousands):

	Aı	nount	Interest								
	Issued		Rate	June 30, 2022		Increases		Decreases		June 30, 2023

2034-2038		5,279		2,983		8,262
2039-2043		4,193		3,422		7,615
2044-2045		1,213		1,323		2,536
Total Minimum Lease Payments	\$	24,065	\$ 1	0,464	\$	34,529

### 8. SUBSCRIPTION-BASED INFORMATION TECHNOLOGY ARRANGEMENTS

The District has recorded several multi-year subscription-based information technology arrangements (SBITAs) as a result of implementing GASB Statement No. 96. The District has several SBITAs for the right-to-use educational and non-educational software totaling \$32.5 million. The District has discounted the future minimum payments using its incremental borrowing rate of 3.5 percent.

The classes and amounts of SBITAs as of June 30, 2023, are as follows (in thousands):

Asset Balances				
\$	25,343			
	7,136			
\$	32,479

	2027		1,272		45		1,317	
	Total		\$20,620		\$1,261		\$21,881	

#### 9. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; administrative errors and omissions; injuries to employees, students and guests; as well as natural disasters and employee health and medical insurance. The District is self-insured for portions of its general and automobile liability insurance, workers compensation and employee health and medical insurance. Losses involving auto and general liability claims are limited (generally) by provisions of Section 768.28, Florida Statutes. A third party administers these self-insured funds. The District purchases commercial insurance for other risks including property, construction, and other miscellaneous risks. The District has not experienced any significant reduction in insurance coverage from previous years nor has it paid any settlements in excess of insurance coverage in the past three years. This liability is typically liquidated from the internal service fund.

The employee health insurance claims liability is based on an analysis performed by management, which is based on historical trends. The remaining claims liability is based on an actuarial evaluation performed by an independent actuary as of June 30, 2023, using a discounted rate factor of 2 percent. The liability consists of claims reported and payable, as well as an estimate for claims incurred but not reported. At June 30, 2023, the liability for claims consisted of approximately \$20.9 million, \$7.0 million, and \$34.2 million for employee health, auto and general liability, and workers' compensation, respectively.

A summary of changes in the estimated liability for self-insured risks is as follows (in thousands):

	 ll Year Ended le 30, 2022	 al Year Ended ae 30, 2023

#### 10. SHORT-TERM DEBT

#### **Revolving Line of Credit**

The District has an unused revolving line of credit (RLOC) of \$80.0 million from PNC Bank, used to finance sales tax projects. The District pays an unused fee of 0.10 percent each month. Should the District make a draw on the RLOC, interest would be assessed at a rate of 79 percent of 1-M Bloomberg Short-Term Bank Yield plus 35 LIBOR plus 0.41 percent. The RLOC can be increased to a maximum amount of \$200.0 million with appropriate notice to the bank. The RLOC matures on July 13, 2023.

Events of default related to RLOC would be failure to pay timely, failure to observe and perform any covenant, condition or agreement for a period of 90 days, false statement or representations related to the agreement, filing of bankruptcy, reorganization, and insolvency. In addition, if any debt of or assumed by the District with combined annual debt service in excess of \$10.0 million is not paid within any applicable grace period, the RLOC becomes due and payable.

#### 11. LONG-TERM LIABILITIES

A summary of changes in long-term liabilities for the year ended June 30, 2023, is as follows (in thousands):

	*	Restated								
	E	Beginning						Ending	P	Amounts

<sup>\*</sup> Restated for GASB Statement No. 96, Subscription-Based Information Technology Arrangements, as of July 1, 2022.

The compensated absences are generally liquidated by the general fund. Long-term claims and judgments are liquidated by the internal service funds. Pension contributions are paid by the governmental fund consistent with employee compensation. OPEB is pay as you go and charged to the governmental fund consistent with employee benefits.

#### Notes/Loans Payable

On October 18, 2018, the District entered into loan agreement 2018 with Banc of America Public Capital Corp for financing the acquisition of various HVAC systems and other components, a \$16.1 million issue with a coupon rate of 3.044 percent. Under the terms of the loan agreement, the debt was payable over five years and will mature on August 1, 2023.

On September 6, 2019, the District entered into loan agreement 2019 with Banc of America Public Capital Corp for financing the acquisition of various HVAC systems and other components, a \$14.7 million issue with a coupon rate of 1.719 percent. Under the terms of the loan agreement, the debt is payable over five years and will mature on August 1, 2024.

A summary of loans payable terms are presented as follows (in thousands):

			Remaining			De bt				Debt
Equipment	Date of	Amount	Interest Rates	Final Maturity	Out	tstanding		Debt	Outs	standing
Loans	Issue	Issued	(Percent)	Date	June	e 30, 2022	Red	deemed	June	30, 2023
2018	10/18/18	\$ 16,072	3.10%	08/01/23	\$	5,039	\$	3,334	\$	1,705
2019	09/16/19	14,700	1.72%	08/01/24		7,495		2,960		4,535
		\$ 30,772			\$	12,534	\$	6,294	\$	6,240

The annual future minimum loan payments are as follows (in thousands):

Year Ended					Tota	l Principal
June 30	Pr	incipal	Int	erest	and	Interest
2024	\$	4,716	\$	91	\$	4,807
2025		1,524		13		1,537
	\$	6,240	\$	104	\$	6,344

The District uses a Master Equipment Lease Purchase Agreement dated 2015 (direct placement), to finance the purchase of vehicles and equipment. In the event of a default, the lessor may terminate the lease. The lessor may also demand all unpaid rental payments and liquidated damages. The lessor may also request the District to convey any or all the equipment to the lessor so the equipment can be leased or sold. The proceeds will be applied to the unpaid obligations. As of June 30, 2023, the District has two direct borrowings with \$6.2 million outstanding under the Master Equipment Lease Purchase Agreement.

Events of default related to the Equipment Lease would be failure to pay within 10 days or failure to maintain insurance, failure to observe and perform any covenant, condition or agreement for a period of 30 days after written notice specifying such failure and requesting it be remedied. In addition, false statements or representation pursuant to the lease, any default under any other agreement for borrowing money, lease financing, or otherwise receiving credit under which there is outstanding aggregate amount of at least 10 percent of the District's current indebtedness, appointment of a receiver, trustee, custodian or liquidator of all or a substantial part of the assets of the District, filing of bankruptcy, consolidation, merger or otherwise combine with any other entity, or sell, lease, or dispose of all or a substantial portion of assets.

### State Board of Education Capital Outlay Bond Issues

State Board of Education (SBE) Capital Outlay Bond Issues (COBI) are serviced entirely by the State using a portion of the District's share of revenue derived from motor vehicle license taxes pursuant to Chapter 320, Florida Statutes, and Article XII, Section 9(d), of the Florida Constitution. The State Board of Administration (SBA) determines the annual sinking fund requirements. The amounts necessary to retire bonds and interest payable are withheld from the entitlement to the District. The interest rate on the COBI bonds is 5 percent. Interest is payable semiannually on January 1 and July 1. The bonds are redeemable at par. A summary of bond terms is presented as follows (in thousands):

			Remaining	Final		De bt				Debt
Capital Outlay	Date of	Amount	Interest Rates	Maturity	Out	standing	I	De bt	Out	standing
Bond Issues	Issue	Issued	(Percent)	Date	June	30, 2022	Ma	tured	June	30, 2023
COBI 2011-A	12/7/2011	\$ 5,820	-	1/1/2023	\$	565	\$	565	\$	-
COBI 2020-A	1/14/2020	4,918	5.00%	1/1/2031		3,708		394		3,314
		\$ 10,738			\$	4,273	\$	959	\$	3,314

The debt service requirements through maturity to the holders of the COBI are as follows (in thousands):

					Total

2029-2031		1,071		81		1,152			
Total	\$	3,314	\$	697	\$	4,011			

#### **Certificates of Participation**

On November 16, 1994, the District entered into a Master Lease Purchase Agreement (Master Lease) dated November 1, 1994, with the Palm Beach School Board Leasing Corporation (Corporation), a Florida not-for-profit corporation, to finance the acquisition and construction of certain facilities, and equipment for District operations. The Corporation was formed by the Board solely for the purpose of acting as the lessor for Certificates of Participation (COP) financed facilities, with the District as lessee. The Corporation issues COPs to third parties, evidencing undivided proportionate interest in basic lease payments to be made by the District, as lessee, pursuant to the Master Lease. Simultaneously therewith, the District entered into Ground Leases with the Corporation for the facilities sites.

As part of the American Reinvestment and Recovery Act (ARRA), the District was authorized to issue up to \$67.7 million of Qualified School Construction Bonds (QSCB) for the purpose of new construction. The District chose to modernize two schools (Galaxy Elementary and Gove Elementary) and replace two roofs (Belle Glade Elementary and Pioneer Park Elementary). The District issued the bonds as taxable COPs through the Build America Bonds program, also created by the ARRA legislation. The District issued taxable bonds and receives a federal subsidy from the U.S. Treasury department equal to the difference between the taxable and tax-exempt rates prior to each payment date. The COPs were sold to Bank of America during a competitive sale held on November 3, 2010, and closed on November 15, 2010. The par amount was \$67.7 million and the interest rate was 5.4 percent. The District paid interest only until August 2019 when annual deposits to the sinking fund began. The final maturity of the bonds is August 1, 2025. The total interest that will be paid over the life of the bonds is \$53.7 million. A total subsidy of \$51.7 million was expected to be recorded as revenue in the year earned. Starting in 2013, sequestration reduced the subsidy and the current projected subsidy is \$48.8 million. Therefore, the District will pay interest of \$4.9 million of the federal subsidy. In the current year, the District recorded \$3.3 million subsidy as revenue and \$3.7 million as interest expense resulting in a net interest payment of \$0.4 million.

Subsequent to the sale of the QSCBs, the District entered into a forward delivery agreement (FDA) classified as a nonparticipating interest-earning investment contract with Barclays Bank related to the COP 2010A QSCB. An FDA is a type of investment in which the investor purchases eligible securities on a periodic basis from the agreement provider at a fixed rate of return. The Board expects to purchase eligible securities, which consist of direct obligations of or obligations guaranteed by the U.S. Treasury and AAA-rated senior debt obligations of Fannie Mae, Freddie Mac, the Federal Home Loan Bank System, and Federal Farm Credit System from Barclays on a semi-annual basis beginning July 19, 2019, through the final maturity date of August 1, 2025. The FDA will generate a guaranteed fixed rate of return of 4.262 percent or \$8.1 million. The interest earnings associated with this transaction will completely offset the interest due (net of the federal subsidy) and will generate an additional \$3.0 million to be used to repay the principal in 2025.

The Corporation leases facilities and equipment to the District under the Master Lease. The Master Lease is automatically renewable annually unless terminated, in accordance with the provisions of the Master Lease, as a result of default or the failure of the Board to appropriate funds to make lease payments in its final official budget. Failure to appropriate funds to pay lease payments under any lease will, and an event of default under any lease may, result in the termination of all leases. The remedies on default or upon an event of non-appropriation include the surrender of the COP Series 2000A, Series 2001A, Series 2002B, Series 2002C, Series 2002D, Series 2003B, Series 2004A, Series 2006A, Series 2007A, Series 2007B, Series 2007E, Series 2010A, Series 2020A, Series 2021A, Series 2021B; Series 2022A, Series 2022B, and QSCB Series 2010A Facilities by the District and the Trustee's re-letting for the remaining Ground Lease term or sale of the facilities. In either case, the proceeds will be applied against the Board's obligations under the Master Lease.

A summary of lease terms is presented as follows (in thousands):

Certificate	Date of	Amount	Remaining Interest Rates		Final Maturity	Debt Outstanding	Debt	Debt	Debt Outstanding	Ground Lease

- \*\* These refunding issues were done in order to achieve debt service savings.

The certificates are not separate legal obligations of the Board but represent undivided proportionate interests in lease payments to be made from appropriated funds budgeted annually by the Board for such purpose from current or other funds authorized by law and regulations of the Department of Education, including the local optional millage levy. However, neither the Board, the District, the State of Florida, nor any political subdivision thereof are obligated to pay, except from Board-appropriated funds, any sums due under the Master Lease from any source of taxation. The full faith and credit of the Board and the District are not pledged for payment of such sums due under the Master Lease, and such sums do not constitute an indebtedness of the Board or the District within the meaning of any constitutional or statutory provision or limitation. A trust fund was established with a trustee to facilitate payments in accordance with the Master Lease and the trust agreement. Various accounts are maintained by the trustee in accordance with the trust indenture. Interest earned on invested funds is applied toward the basic lease payments. Basic lease payments are deposited with the trustee semi-annually on June 30 and December 30, and are payable to certificate holders on August 1 and February 1.

Due to the economic substance of the issuances of COPs as a financing arrangement on behalf of the Board, the financial activities of the Corporation have been blended in with the financial statements of the District. For accounting purposes, due to the blending of the Corporation within the District's financial statements, basic lease payments are reflected as debt service expenditures when payable to certificate holders. During the fiscal year ended June 30, 2023, \$154.9 million was expended for capital outlay in the COPs capital projects funds.

The District uses COPs to finance capital projects, which is based on a COP Master Lease Purchase Agreement dated 1994. If the Board defaults on one series under the COP Master Lease, the default will apply to all series under the COP Master Lease. In the event of a default, the Board is required to surrender and deliver all facilities financed under the COP Master Lease to the trustee. The trustee will then sell or lease the facilities. The proceeds will be applied to the unpaid obligations. Any excess remaining will be paid to the Board. As of June 30, 2023, the District has two direct placements with \$72.9 million outstanding under the COP Master Lease.

Events of default related to COPs would be if the Board fails to pay in full any lease payment, failure to observe and perform any covenant or condition or agreement for 60 days after written notice specifying such failure and requesting it be remedied, filing of bankruptcy, insolvency, or reorganization. However, any of these items caused by a failure of the Board to appropriate funds shall not constitute an event of default.

All COPs issued are subject to arbitrage rebate. At June 30, 2023, the arbitrage and yield restriction liability was \$714 thousand.

The debt service requirements through maturity to the holders of the COPs, which will be serviced by the annual lease payments, are as follows (in thousands):

2028		10,345		-		123,055		40,454		163,509		
2029-2033		22,210		-		483,670		122,282		605,952		
2034-2038		51,575		-		153,730		53,843		207,573		
2039-2041		60,140		-		120,020		9,432		129,452		
Total	\$	185,900	\$	67,665	\$	1,369,995	\$	450,980	\$	1,820,975		

State law requires that no more that 75 percent of the capital millage levy be used for COP debt service. During fiscal year 2020, the District analyzed the best structure of the future COP issues. Since most previously issued COP debt matures by 2030 and the remaining by 2032, it was determined that

significant savings should be achieved by shortening the maturity of future debt from 25 to 15 – 20 years with the principal payments beginning in 2030 with interest only for the first 10 years. This structure will be reviewed and revised with each future debt issue. Based on the wrapped structure, the District's legal lease purchase agreement remaining debt issuance capacity is \$166.2 million and \$62.8 million based on Board policy which recommends no more than 50 percent of capital millage levy be used for COP debt service. During the 2022-23 fiscal year, debt service payments remained in compliance at 41.6 percent of capital millage proceeds.

#### 12. RETIREMENT PLANS

#### Florida Retirement System (FRS)

#### General Information about the FRS

The FRS was created in Chapter 121, Florida Statutes, to provide a defined benefit pension plan for participating public employees. The FRS was amended in 1998 to add the Deferred Retirement Option Program (DROP) under the defined benefit plan and amended in 2000 to provide a defined contribution plan alternative to the defined benefit plan for FRS members effective July 1, 2002. This integrated defined contribution pension plan is the FRS Investment Plan. Chapter 112, Florida Statutes, established the Retiree Health Insurance Subsidy (HIS) Program, a cost-sharing multiple-employer defined benefit pension plan, to assist retired members of any State-administered retirement system in paying the costs of health insurance.

Essentially all regular employees of the District are eligible to enroll as members of the State-administered FRS. Provisions relating to the FRS are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and FRS Rules, Chapter 60S, Florida Administrative Code; wherein eligibility, contributions, and benefits are defined and described in detail. Such provisions may be amended at any time by further action from the Florida Legislature. The FRS is a single retirement system administered by the Florida Department of Management Services, Division of Retirement, and consists of the two cost-sharing, multiple-employer defined benefit plans and other nonintegrated programs. An annual comprehensive financial report of the FRS, which includes its financial statements, required supplementary information, actuarial report, and other relevant information, is available from the Florida Department of Management Services' Web site (www.dms.myflorida.com).

### Aggregate Amount of Net Pension Liability, Deferred Outflow/Inflow and Expenses

The aggregate amount of deferred outflows, deferred inflows, and net pension liability reported in the statement of net position and the aggregate total pension expense reported in the statement of activities is as follows (in thousands):

	 et Pension Liability	0	Deferred utflow of esources	I	eferred nflow of esources	Pension Expense
District's Proportion of the FRS Pension Plan	\$ 966,322	\$	397,742	\$	3,944	\$ (30,222)
District's Proportion of the HIS Pension Plan	359,182		70,427		66,505	763
Total	\$ 1,325,504	\$	468,169	\$	70,449	\$ (29,459)

#### FRS Pension Plan - Defined Benefit

<u>Plan Description</u>. The FRS Pension Plan (Plan) is a cost-sharing multiple-employer defined benefit pension plan, with a DROP for eligible employees. The general classes of membership are:

- Regular Members of the FRS who do not qualify for membership in the other classes.
- *Elected County Officers* Members who hold specified elected offices in local government.
- Senior Management Service Members in senior management level positions.
- Special Risk Members who are employed as law enforcement officers and meet the criteria to qualify for this class.

Employees enrolled in the Plan prior to July 1, 2011, vest at 6 years of creditable service and employees enrolled in the Plan on or after July 1, 2011, vest at 8 years of creditable service. All vested members, enrolled prior to July 1, 2011, are eligible for normal retirement benefits at age 62 or at any age after 30 years of service, except for members classified as special risk who are eligible for normal retirement benefits at age 55 or at any age after 25 years of service. All members enrolled in the Plan on or after July 1, 2011, once vested, are eligible for normal retirement benefits at age 65 or any time after 33 years of creditable service except for members classified as special risk who are eligible for normal retirement benefits at age 60 or at any age after 30 years of service. Employees enrolled in the Plan may include up to 4 years of credit for military service toward creditable service. The Plan also includes an early retirement provision; however, there is a benefit reduction for each year a member retires before his or her normal retirement date. The Plan provides retirement, disability, death benefits, and annual cost-of-living adjustments to eligible participants.

The DROP, subject to provisions of Section 121.091, Florida Statutes, permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payments while continuing employment with an FRS employer. An employee may participate in DROP for a period not to exceed 60 months after electing to participate, except that certain instructional personnel may participate for up to 96 months. During the period of DROP participation, deferred monthly benefits are held in the FRS Trust Fund and accrue interest. The net pension liability does not include amounts for DROP participants, as these members are considered retired and are not accruing additional pension benefits.

<u>Benefits Provided</u>. Benefits under the Plan are computed on the basis of age and/or years of service, average final compensation, and service credit. Credit for each year of service is expressed as a percentage of the average final compensation. For members initially enrolled before July 1, 2011, the average final compensation is the average of the five highest fiscal years' earnings; for members initially enrolled on or after July 1, 2011, the average final compensation is the average of the eight highest fiscal years' earnings. The total percentage value of the benefit received is determined by calculating the total value of all service, which is based on the retirement class to which the member belonged when the service credit was earned. Members are eligible for in-line-of-duty or regular disability and survivors' benefits.

The following chart shows the percentage value for each year of service credit earned:

Class, Initial Enrollment, and Retirement Age/Years of Service	% Value
Regular Class members initially enrolled before July 1, 2011	
Retirement up to age 62 or up to 30 years of service	1.60%
Retirement at age 63 or with 31 years of service	1.63%
Retirement at age 64 or with 32 years of service	1.65%
Retirement at age 65 or with 33 or more years of service	1.68%
Regular Class members initially enrolled on or after July 1, 2011	
Retirement up to age 65 or up to 33 years of service	1.60%
Retirement at age 66 or with 34 years of service	1.63%
Retirement at age 67 or with 35 years of service	1.65%
Retirement at age 68 or with 36 or more years of service	1.68%
Elected County Officers	3.00%
Senior Management Service	2.00%
Special Risk	3.00%

As provided in Section 121.101, Florida Statutes, if the member was initially enrolled in the Plan before July 1, 2011, and all service credit was accrued before July 1, 2011, the annual cost-of-living adjustment is 3 percent per year. If the member was initially enrolled before July 1, 2011, and has service credit on or after July 1, 2011, there is an individually calculated cost-of-living adjustment. The annual cost-of-living adjustment is a proportion of 3 percent determined by dividing the sum of the pre-July 2011 service credit by the total service credit at retirement multiplied by 3 percent. Plan members initially enrolled on or after July 1, 2011, will not have a cost-of-living adjustment after retirement.

<u>Contributions</u>. The Florida Legislature establishes contribution rates for participating employers and employees. Contribution rates during the 2022-23 fiscal year were as follows:

	Percent of Gross Salary						
Class	Employee	Employer (1)					
FRS, Regular	3.00	11.91					
FRS, Elected County Officers	3.00	57.00					
FRS, Senior Management Service	3.00	31.57					
FRS, Special Risk Regular	3.00	27.83					
DROP - Applicable to Members							
from All of the Above Classes	0.00	18.60					
FRS, Reemployed Retiree	(2)	(2)					

<sup>(1)</sup> Employer rates include 1.66 percent for the postemployment health insurance subsidy. Also, employer rates, other than for DROP participants, include 0.06 percent for administrative costs of the Investment Plan.

The District's contributions to the Plan totaled \$119.3 million for the fiscal year ended June 30, 2023. This excludes the HIS defined benefit pension plan contributions.

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions</u>. At June 30, 2023, the District reported a liability of \$966.3 million for its proportionate share of the Plan's net pension liability. The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as

<sup>(2)</sup> Contribution rates are dependent upon retirement class in which reemployed.

of July 1, 2022. The District's proportionate share of the net pension liability was based on the District's 2021-22 fiscal year contributions relative to the total 2021-22 fiscal year contributions of all participating members. At June 30, 2022, the District's proportionate share was 2.597 percent, which was a decrease of 0.009 from its proportionate share measured as of June 30, 2021.

For the fiscal year ended June 30, 2023, the District recognized pension expense of \$30.2 million. In addition, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources (in thousands):

Description	 red Outflows Resources	Deferred Inflows of Resources		
Differences Between Expected and Actual Experience	\$ 45,895	\$	-	
Change of Assumptions	119,007		-	
Net Difference Between Projected and Actual				
Earnings on FRS Pension Plan Investments	63,806		-	
Changes in Proportion and Differences Between				
District FRS Contributions and Proportionate				
Share of Contributions	49,691		(3,944)	
District FRS Contributions Subsequent to the				
Measurement Date	 119,343		-	
Total	\$ 397,742	\$	(3,944)	

The deferred outflows of resources related to pensions, totaling \$119.3 million, resulting from District contributions to the Plan subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the fiscal year ending June 30, 2024. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows (in thousands):

Fiscal Year Ending June 30	Amount		
2024	\$	69,054	
2025		34,735	
2026		(5,105)	
2027		167,309	
2028		8,462	
Total	\$	274,455	

<u>Actuarial Assumptions</u>. The total pension liability in the July 1,  $\overline{2022}$ , actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	Inflation	2.40 percent
	Salary Increases	3.25 percent, average, including inflation
Investment Rate of Return	6.70 percent, net of pension plan investment	
investment kate of keturn	expense, including inflation	

Mortality rates were based on the PUB-2010 base table, projected generationally with Scale MP-2018.

The actuarial assumptions used in the July 1, 2022, valuation were based on the results of an actuarial experience study for the period July 1, 2013, through June 30, 2018.

The long-term expected rate of return on pension plan investments was not based on historical returns, but instead is based on a forward-looking capital market economic model. The allocation policy's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class

assumption is based on a consistent set of underlying assumptions, and includes an adjustment for the inflation assumption. The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation (1)	Annual Arithmetic Return	Compound Annual (Geometric) Return	Standard Deviation
Cash	1.0%	2.6%	2.6%	1.1%
Fixed Income	19.8%	4.4%	4.4%	3.2%
Global Equity	54.0%	8.8%	7.3%	17.8%
Real Estate	10.3%	7.4%	6.3%	15.7%
Private Equity	11.1%	12.0%	8.9%	26.3%
Strategic Investments	3.8%	6.2%	5.9%	7.8%
Total	100%			
Assumed inflation - Mean			2.4%	1.3%

<sup>(1)</sup> As outlined in the Plan's investment policy.

<u>Discount Rate.</u> The discount rate used to measure the total pension liability was 6.7 percent. The Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return. The discount rate changed from 6.8 percent to 6.7 percent.

<u>Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate</u>. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 6.7 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.7 percent) or 1-percentage-point higher (7.7 percent) than the current rate (amounts in thousands):

	1%	Discount Rate (6.7%)		1%
	Decrease (5.7%)			Increase (7.7%)
District's Proportionate Share of the				
Net Pension Liability	\$ 1,671,187	\$	966,322	\$ 376,971

<u>Pension Plan Fiduciary Net Position</u>. Detailed information about the Plan's fiduciary net position is available in the separately issued FRS Pension Plan and Other State Administered Systems Annual Comprehensive Financial Report.

<u>Payables to the Pension Plan</u>. At June 30, 2023, the District reported a payable of \$26.2 million for the outstanding amount of contributions to the FRS Plan required for the fiscal year ended June 30, 2023.

#### **HIS Pension Plan**

<u>Plan Description</u>. The HIS Pension Plan (HIS Plan) is a cost-sharing multiple-employer defined benefit pension plan established under Section 112.363, Florida Statutes, and may be amended by the Florida Legislature at any time. The benefit is a monthly payment to assist retirees of State-administered retirement systems in paying their health insurance costs and is administered by the Florida Department of Management Services, Division of Retirement.

<u>Benefits Provided</u>. For the fiscal year ended June 30, 2023, eligible retirees and beneficiaries received a monthly HIS payment of \$5 for each year of creditable service completed at the time of retirement, with a minimum HIS payment of \$30 and a maximum HIS payment of \$150 per month, pursuant to Section 112.363, Florida Statutes. To be eligible to receive a HIS Plan benefit, a retiree under a State-administered retirement system must provide proof of health insurance coverage, which may include Federal Medicare.

<u>Contributions</u>. The HIS Plan is funded by required contributions from FRS participating employers as set by the Florida Legislature. Employer contributions are a percentage of gross compensation for all active FRS members. For the fiscal year ended June 30, 2023, the contribution rate was 1.66 percent of payroll pursuant to Section 112.363, Florida Statutes. The District contributed 100 percent of its statutorily required contributions for the current and preceding three years. HIS Plan contributions are deposited in a separate trust fund from which payments are authorized. HIS Plan benefits are not guaranteed and are subject to annual legislative appropriation. In the event the legislative appropriation or available funds fail to provide full subsidy benefits to all participants, benefits may be reduced or canceled.

The District's contributions to the HIS Plan totaled \$21.6 million for the fiscal year ended June 30, 2023.

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions</u>. At June 30, 2023, the District reported a net pension liability of \$359.2 million for its proportionate share of the HIS Plan's net pension liability. The current portion of the net pension liability is the District's proportionate share of benefit payments expected to be paid within one year, net of the District's proportionate share of the HIS Plan's fiduciary net position available to pay that amount. The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2022. The District's proportionate share of the net pension liability was based on the District's 2021-22 fiscal year contributions relative to the total 2021-22 fiscal year contributions of all participating members. At June 30, 2022, the District's proportionate share was 3.391 percent, which was a decrease of 0.026 from its proportionate share measured as of June 30, 2021.

For the fiscal year ended June 30, 2023, the District recognized negative pension expense of \$0.8 million. In addition, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources (in thousands):

Description	 ed Outflows Resources	 Deferred Inflows of Resources	
Differences Between Expected and Actual Experience	\$ 10,902	\$ (1,581)	
Change of Assumptions	20,589	(55,565)	
Net Difference Between Projected and Actual			
Earnings on HIS Pension Plan Investments	520	-	
Changes in Proportion and Differences Between			
District HIS Contributions and Proportionate			
Share of Contributions	16,833	(9,359)	
District HIS Contributions Subsequent to the			
Measurement Date	21,583	-	
Total	\$ 70,427	\$ (66,505)	

The deferred outflows of resources related to pensions, resulting from District contributions to the HIS Plan subsequent to the measurement date, totaling \$21.6 million will be recognized as a reduction of the net pension liability in the fiscal year ending June 30, 2024. Other amounts reported as deferred outflows of

resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows (in thousands):

Fiscal Year Ending June 30		mount
2024	\$	(4,005)
2025		(1,354)
2026		363
2027		(1,181)
2028		(7,824)
Thereafter		(3,660)
Total	\$	(17,661)

<u>Actuarial Assumptions</u>. The total pension liability in the July 1, 2022, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.40 percent

Salary Increases 3.25 percent, average, including inflation

Municipal Bond Rate 3.54 percent

Mortality rates were based on the PUB-2010 base table, projected generationally with Scale MP-2018.

While an experience study had not been completed for the HIS Plan, the actuarial assumptions that determined the total pension liability for the HIS Plan were based on certain results of the most recent experience study for the FRS Plan.

<u>Discount Rate</u>. The discount rate used to measure the total pension liability was 3.54 percent. In general, the discount rate for calculating the total pension liability is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS benefit is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate, and the single equivalent discount rate is equal to the municipal bond rate selected by the HIS Plan sponsor. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index. The discount rate changed from 2.16 percent to 3.54 percent.

<u>Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate</u>. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 3.54 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.54 percent) or 1-percentage-point higher (4.54 percent) than the current rate (in thousands):

	Current					
	1% Decrease (2.54%)		Discount Rate (3.54%)		1% Increase (4.54%)	
District's Proportionate Share of the						
Net Pension Liability	\$	410,934	\$	359,182	\$ 316,359	

<u>Pension Plan Fiduciary Net Position</u>. Detailed information about the HIS Plan's fiduciary net position is available in the separately issued FRS Pension Plan and Other State Administered Systems Annual Comprehensive Financial Report.

<u>Payables to the Pension Plan</u>. At June 30, 2023, the District reported a payable of \$3.4 million for the outstanding amount of contributions to the HIS Plan required for the fiscal year ended June 30, 2023.

#### FRS - Defined Contribution Pension Plan

The District contributes to the FRS Investment Plan (Investment Plan), a defined contribution pension plan, for its eligible employees electing to participate in the Investment Plan. The Investment Plan is administered by the SBA, and is reported in the SBA's annual financial statements and in the State of Florida Annual Comprehensive Financial Report.

As provided in Section 121.4501, Florida Statutes, eligible FRS members may elect to participate in the Investment Plan in lieu of the FRS defined-benefit plan. District employees participating in DROP are not eligible to participate in the Investment Plan. Employer and employee contributions, including amounts contributed to individual member's accounts, are defined by law, but the ultimate benefit depends in part on the performance of investment funds. Retirement benefits are based upon the value of the member's account upon retirement. Benefit terms, including contribution requirements, for the Investment Plan are established and may be amended by the Florida Legislature. The Investment Plan is funded with the same employer and employee contribution rates that are based on salary and membership class (Regular Class, Elected County Officers, etc.), as the FRS defined benefit plan. Contributions are directed to individual member accounts and the individual members allocate contributions and account balances among various approved investment choices. Costs of administering the Investment Plan, including the FRS Financial Guidance Program, are funded through an employer contribution of 0.06 percent of payroll and by forfeited benefits of Investment Plan members. Allocations to the Investment Plan member's accounts during the 2022-23 fiscal year were as follows:

Class	Percent of Gross Compensation
FRS, Regular	9.30%
FRS, Elected County Officers	14.34%
FRS, Senior Management Service	10.67%
FRS, Special Risk Regular	17.00%

For all membership classes, employees are immediately vested in their own contributions and are vested after one year of service for employer contributions and investment earnings, regardless of membership class. If an accumulated benefit obligation for service credit originally earned under the FRS Pension Plan is transferred to the Investment Plan, the member must have the years of service required for FRS Pension Plan vesting (including the service credit represented by the transferred funds) to be vested for these funds and the earnings on the funds. Nonvested employer contributions are placed in a suspense account for up to five years. If the employee returns to FRS-covered employment within the five-year period, the employee will regain control over their account. If the employee does not return within the five-year period, the employee will forfeit the accumulated account balance. For the fiscal year ended June 30, 2023, the information for the amount of forfeitures was unavailable from the SBA; however, management believes that these amounts, if any, would be immaterial to the District.

After termination and applying to receive benefits, the member may rollover vested funds to another qualified plan, structure a periodic payment under the Investment Plan, receive a lump-sum distribution, leave the funds invested for future distribution, or any combination of these options. Disability coverage is provided in which the member may either transfer the account balance to the FRS Pension Plan when approved for disability retirement to receive guaranteed lifetime monthly benefits under the FRS Pension Plan, or remain in the Investment Plan and rely upon that account balance for retirement income.

The District's contribution to the Investment Plan totaled \$19.7 million (which includes \$9.2 million of employee contribution) for the fiscal year ended June 30, 2023. This excludes the HIS defined benefit pension plan contributions.

<u>Payables to the Investment Plan</u>. At June 30, 2023, the District reported a payable of \$1.7 million for the outstanding amount of contributions to the Investment Plan required for the fiscal year ended June 30, 2023.

#### 13. OTHER POSTEMPLOYMENT BENEFIT OBLIGATIONS

Discount Rate

The District follows the guidance contained in GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions (GASB 75), for certain postemployment health care benefits provided by the District for the fiscal year ended June 30, 2023.

<u>Plan Description</u>. The Other Postemployment Benefits Plan (OPEB Plan) is a single-employer defined benefit plan administered by the District that provides OPEB for all employees who satisfy the District's retirement eligibility provisions. Pursuant to Section 112.0801, Florida Statutes, the District is required to permit participation in the health insurance program by retirees and their eligible dependents at a cost to the retiree that is no greater than the cost at which coverage is available for active employees. Retirees pay 100 percent of the blended (active and retiree combined) equivalent premium rates. The blended rates provide an implicit subsidy for retirees because, on an actuarial basis, their current and future claims are expected to result in higher costs to the plan on average than those of active employees. The OPEB Plan contribution requirements and benefit terms of the District and the OPEB Plan members are established and may be amended through recommendations of District staff and action from the Board. No assets are accumulated in a trust that meet the criteria in paragraph 4 of GASB 75.

<u>Benefits Provided</u>. The OPEB Plan provides healthcare insurance benefits for retirees and their dependents. The OPEB Plan only provides an implicit subsidy as described above.

<u>Employees Covered by Benefit Terms</u>. At June 30, 2023, the following employees were covered by the benefit terms:

Active Employees	19,668
Inactive Employees or Beneficiaries Currently Receiving Benefits	437
Total	20,105

<u>Total OPEB Liability</u>. The District's total OPEB liability of \$101.9 million was measured as of June 30, 2023, and was determined by an actuarial valuation as of June 30, 2023.

<u>Actuarial Assumptions and Other Inputs</u>. The total OPEB liability was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

3.65 percent

20-Year Tax-Exempt General Obligation Bonds	3.65 percent
Salary Increase Rate	3.25 percent per annum
Inflation	2.5 percent per annum
Census Data	Provided by the District as of June 2023.
Medicare Eligibility	All current and future retirees are assumed to be eligible for Medicare at age 65.
Actuarial Cost Method	Entry Age Normal based on level percentage of projected salary.

Amortization Method Experience/Assumptions gains and losses are amortized over a

closed period of 18.6 years starting the current fiscal year, equal to the average remaining service of active and inactive plan

members (who have no future service).

Plan Participation Percentage The participation percentage is the assumed rate of future

eligible retirees who elect to continue health coverage at retirement. It is assumed that 40 percent of all employees and their dependents who are eligible for early retiree benefits will participate in the retiree medical plan. This assumes that a one-time irrevocable election to participate is made at retirement. The assumption is based on the actual participation experience

covering calendar years ending 2018 through 2022.

Mortality Rates PUB-2010 headcount weighted base mortality table, projected

generationally using Scale MP-2021, applied on a gender-specific and job class basis (teacher, safety, or general, as applicable).

Termination Tables FRS Actuarial Valuation as of July 1, 2022

Retirement Tables FRS Actuarial Valuation as of July 1, 2022

The discount rate was based on the daily rate of Fidelity's 20-Year Municipal General Obligation AA Index closest to but not later than the measurement date.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment and termination, mortality, and the healthcare cost trends.

Projection of benefits for financial reporting purposes are based on the substantive plan provisions, as understood by the employer and participating members, and include the type of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employer and participating members. The actuarial methods and assumptions used include techniques that are designed to reduce the effect of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

<u>Changes in the Total OPEB Liability</u>. Below are the details regarding the total OPEB liability for the measurement period from July 1, 2022, to June 30, 2023, (in thousands):

	Total OPEB Liability		
Balance at July 1, 2022	\$	63,218	
Changes for the Fiscal Year:			
Service Cost		3,509	
Interest		2,296	
Difference Between Expected and Actual Experience		12,249	
Changes in Assumptions and Other Inputs		24,395	
Benefit Payments		(3,728)	
Net Change in Total OPEB		38,721	
Balance at June 30, 2023	\$	101,939	

Changes of assumptions and other inputs reflect a recent census survey which increased the expected participation rate from 30 percent to 40 percent and a change in the discount rate from 3.54 percent as of June 30, 2022, to 3.65 percent as of June 30, 2023.

<u>Sensitivity of the Total OPEB Liability to Changes in the Discount Rate</u>. The following presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (2.65 percent) or 1 percentage point higher (4.65 percent) than the current discount rate (amounts in thousands):

	1%		Current		1%		
	Decrease (2.65%)		Discount Rate (3.65%)		Increase (4.65%)		
Total OPEB Liability	\$	110,856	\$	101,939	\$	93,791	

<u>Sensitivity of the Total OPEB Liability to Changes in the Healthcare Cost Trend</u>. The following presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1 percentage point lower and 1 percentage point higher than the current healthcare cost trend rates (in thousands):

		1%	Heal	thcare Cost	1%	
	D	ecrease	Tre	end Rates	Increase	
Total OPEB Liability	\$	90,090	\$	101,939	\$ 116,053	

<u>OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB</u>. For the year ended June 30, 2023, the District recognized OPEB expense of \$6.8 million. At June 30, 2023, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources (in thousands):

D	eferred		D	Deferred
O	utflows		]	Inflows
		_		
\$	11,590		\$	(40,415)
	65,388			(15,616)
\$	76,978		\$	(56,031)
	<u>o</u>	65,388	<b>Outflows</b> \$ 11,590 65,388	Outflows         \$ 11,590       \$ 65,388

Amounts recognized in the deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows (in thousands):

Year Ending June 30	Amount
2024	\$ 987
2025	987
2026	987
2027	987
2028	987
Thereafter	16,012
	\$ 20,947

#### 14. NET POSITION AND FUND BALANCE REPORTING

#### **Fund Balance**

GASB Statement No. 54 categorizes fund balance as either nonspendable or spendable. Nonspendable is defined as the portion of fund balance that includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. District nonspendable items include inventories.

Spendable is defined as a hierarchy of fund balance classifications that is available to be spent based on the element to which the District is bound to observe constraints imposed upon the use of resources:

- Restricted fund balance is constrained by external parties, and constitutional provisions or enabling legislation. District restricted balances includes: Carryover balances as a result of revenue received with constraints from Federal laws, Florida Statutes, Florida School Board Rules, local ordinances, or contract provisions.
- Committed fund balance can only be used for specific purposes pursuant to constraints imposed by formal action of the Board. District committed balance includes: Funds committed by the Board on June 2, 2010, for future purchase and installation of equipment needed to transmit and receive programming for The Education Network (TEN). It is recommended that the funds received related to the U.S. DOJ Equitable Sharing Program be specifically earmarked for the expenses related to the program. Formal action by the Board is required to establish, modify, or rescind a fund balance commitment.
- Assigned fund balances are amounts that are constrained by the Board or Superintendent to be used for a specific purpose. Section 1001.51, Florida Statutes, *Duties and Responsibilities of District School Superintendent*, delegates certain financial authority to the Superintendent.
- Unassigned fund balance is the residual classification for the general fund.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, it is the District's policy to use restricted assets first, followed by unrestricted assets. Committed amounts would be reduced first, followed by assigned amounts, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

The District has not established a stabilization arrangement. Instead, the Board has established Board Policy 2.55, *Fund Balance for Contingency*, to set aside 3 percent of total annual operating fund appropriations and transfers from the operating fund to cover unanticipated financial needs and to avoid a budget deficit. At the end of the fiscal year, the unassigned general fund balance was \$75.0 million or 3.5 percent of general fund total expenditures.

The following table shows the District's fund balance classification at June 30, 2023, (in thousands):

		Major Funds							
	General	Capital		Other Non-	Total

#### 15. COMMITMENTS AND CONTINGENCIES

The District receives funding from the State that is based, in part, on a computation of the number of full time equivalent (FTE) students enrolled in different types of instructional programs. The accuracy of data compiled by individual schools supporting the FTE count is subject to State audit and, if found to be in error, could result in refunds or in decreases in future funding allocations. It is the opinion of management that any amounts of revenue which may be remitted back to the State due to errors in the FTE count, if any, will not be material to the financial position of the District.

The District received financial assistance from Federal and State agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material effect on the overall financial position of the District.

On September 9, 2021, the Florida Supreme Court declined to entertain the District's appeal of the Fourth District Court of Appeal's decision in the Charter School Referendum (Referendum) case. The District began distributing funds monthly starting July 2021. The issue about the first two years of the Referendum (2019-20 and 2020-21 fiscal years) was still being litigated. On May 17, 2023, the Fourth District Court of Appeal denied the District's request for a rehearing, indicating that charter schools continue to prevail regarding the first two years of the Referendum. The District's only option is to request the Florida Supreme Court to hear the case, although the chances of prevailing are considered unlikely based on past history of related court cases. As a result, District management determined the 2019-20 and 2020-21 fiscal year retroactive amount of \$45 million plus \$15 million in interest is considered probable and was accrued in June 2023. The District expects to make these payments during the 2023-24 fiscal year; however, District management will continue to monitor the case and should any significant developments occur, will reassess the liability and make any revisions as applicable.

The District is also involved in various lawsuits arising in the ordinary course of operations. In the opinion of management, the District's estimated aggregate liability with respect to probable losses has been provided for in the estimated liability for insurance risks and pending claims in the accompanying financial statements, after giving consideration to the District's related insurance coverage, as well as the Florida statutory limitations of governmental liability on uninsured risks. It is the opinion of management in consultation with legal counsel that any final settlements in these matters will not result in a material adverse effect on the financial position of the District.

The District has entered into various construction and other contracts that extend beyond year end. The District has capital outlay commitments of \$302.7 million and other encumbrances of \$11.9 million as of June 30, 2023, and are shown below (in thousands):

Encu	mbrances	Com	imitments		Total
\$	1,223	\$		\$	1,223
	-		36,937		36,937
	-		144,032		144,032

#### 16. SUBSEQUENT EVENTS

As noted in Note 10, the unused RLOC of \$80.0 million from PNC Bank matured on July 13, 2023. The District will no longer have access to this RLOC.

On November 2, 2022, the Board approved the issuance of COPs Series 2023A (tax-exempt) with principal of \$200 million and Series 2023B (taxable) with a principal of \$25 million. The issuance was delayed while awaiting final project budgets. Subsequently, on October 18, 2023, as the previously approved resolution was out of date, the Board authorized the resolution to issue the COPs Series 2023A with an aggregate principal amount not to exceed \$165 million. The issuance will provide the funding needed to finance certain educational facilities and equipment. The estimated costs associated with the issuance of debt is not to exceed \$1.3 million. The 2023A transaction will mature no later than August 1, 2048.

# COMBINING AND INDIVIDUAL FUND STATEMENTS AND SCHEDULES

# Non-Major Governmental Funds Special Revenue Funds

Special Revenue Funds are maintained to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes.

### **Food Service Fund**

To account for all School District cafeteria and food service programs.

### Other Special Revenue Fund

To account for federal, state and local grant revenue sources which are legally restricted.

### **ESSER Fund**

To account for federal coronavirus relief programs awarded through the Elementary and Secondary School Emergency Relief Fund.

### **Debt Service Funds**

Debt Service Funds are maintained to account for the payment of interest and principal requirements on long-term debt.

### State Board of Education/Capital Outlay Bond Indebtedness (SBE/COBI) Fund

To account for the repayment of the State Board of Education Capital Outlay Bonds.

### **Buses and Equipment Debt Service Fund**

To account for the repayment of loans used to acquire buses and other equipment.

### **COPs Debt Service Fund**

To account for the repayment of Certificates of Participation (COPS)

#### ARRA Qualified School Construction Bonds (QSCB) Fund

To account for the payment of interest and principal of ARRA Qualified School Construction Bonds.

#### **Capital Projects Funds**

Capital project funds are maintained to account for the financial resources to be used for educational capital outlay needs, including new construction, renovation and remodeling projects, and acquisition of buses and equipment.

#### Public Education Capital Outlay (PECO) Fund

To account for capital projects from proceeds received from the State of Florida for approved projects.

#### Capital Outlay and Debt Service (CO & DS) Fund

To account for capital projects financed through the District's allocation of the state Capital Outlay and Debt Service program.

### **Buses and Equipment Capital Fund**

To account for the acquisition of the buses and other equipment financed by loans.

### Certificates of Participation (COPs) Capital Fund

To account for construction projects and equipment purchases financed by the sale of certificates of participation.

### Other Capital Projects Fund

To account for various other miscellaneous revenues designated for construction projects.

### The School District of Palm Beach County

# STATISTICAL SECTION

#### STATISTICAL SECTION

(Unaudited)

This part of The School District of Palm Beach County's annual comprehensive financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures and required supplemental information says about the district's overall financial position.

#### **CONTENTS**

#### **Financial Trends**

These schedules contain trend information to assist the reader in understanding how the District's financial position has changed over time.

#### **Revenue Capacity**

These schedules contain information to assist the reader in assessing the District's major revenue sources.

#### **Debt Capacity**

These schedules present information to assist the reader in assessing the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.

### **Demographic and Economic Information**

These schedules offer demographic and economic indicators to assist the reader in understanding the environment within which the District's financial activities take place.

### **Operating Information**

These schedules contain service and infrastructure data to assist the reader in understanding how the information in the District's financial report relates to the service the District provides and the activities it performs.

**Sources:** Unless otherwise noted, the information in these schedules is derived from annual comprehensive financial reports for the relevant year.

THE INFORMATION CONTAINED IN THIS STATISTICAL SECTION HAS BEEN OBTAINED FROM PUBLIC DOCUMENTS, RECORDS AND OTHER SOURCES CONSIDERED TO BE RELIABLE AND, WHILE NOT GUARANTEED AS TO COMPLETENESS OR ACCURACY, MANAGEMENT BELIEVES IT TO BE CORRECT.

#### COMPUTATION OF LEGAL DEBT MARGIN LAST TEN FISCAL YEARS (UNAUDITED) (amounts expressed in thousands)

The Florida State Board of Education Administrative Rule 6A-1.37(2) establishes a parameter on bonded indebtedness for school districts. Limits are computed as a stated percentage of the nonexempt assessed value of taxable property as of the most current year.

	2014	2015	2016	2017
Limit of bonded indebtedness, 10% of net assessed value of taxable property	\$12,995,978	\$13,921,888	\$15,232,150	\$16,475,621
Total bonded debt Less amount available in Debt Service Funds	23,956 535	19,103 326	15,175 307	12,647 248
Total amount applicable to debt limit	23,421	18,777	14,868	12,399
Legal debt margin on bonded debt	\$12,972,557	\$13,903,111	\$15,217,282	\$16,463,222
Legal debt margin on bonded debt as a percentage of bonded debt limit	99.82%	99.87%	99.90%	99.92%

2023	2022	2021	2020	2019	2018

#### **Independent Auditor's Report**

Honorable Chairperson and Board Members of The School District of Palm Beach County, Florida

#### **Report on the Audit of the Financial Statements**

#### **Opinions**

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the School District of Palm Beach County, Florida (the District), as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2023, and the respective changes in financial position, and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Emphasis of Matter

As discussed in Note 1 to the financial statements, the District adopted the recognition and disclosure requirements of Governmental Accounting Standards Board (GASB) Statement No. 96, *Subscription-Based Information Technology Arrangements*, as of July 1, 2022. As a result of the adoption, beginning property under leases and SBITA and obligations under leases and SBITA were restated. Our opinions are not modified with respect to this matter.

#### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

THE POWER OF BEING UNDERSTOOD AUDIT | TAX | CONSULTING

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to
  fraud or error, and design and perform audit procedures responsive to those risks. Such procedures
  include examining, on a test basis, evidence regarding the amounts and disclosures in the financial
  statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant
  accounting estimates made by management, as well as evaluate the overall presentation of the
  financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other post-employment benefits and pension schedules be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual nonmajor fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 27, 2023, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

# Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards

#### **Independent Auditor's Report**

Honorable Chairperson and Board Members The School District of Palm Beach County, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the School District of Palm Beach Company, Florida (District), as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 27, 2023. Our report includes an emphasis of matter paragraph for the adoption of Governmental Accounting Standards Board (GASB) Statement No. 96, *Subscription-Based Information Technology Arrangements*, effective July 1, 2022.

#### Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

#### **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## **Purpose of This Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

RSM US LLP

#### Report on Compliance for Each Major Federal Program; Report on Internal Control Over Compliance; and Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

#### **Independent Auditor's Report**

Honorable Chairperson and Board Members The School District of Palm Beach County, Florida

#### Report on Compliance for Each Major Federal Program

#### Opinion on Each Major Federal Program

We have audited the School District of Palm Beach County, Florida's (the District) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2023, the District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2023.

#### Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

#### Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the District's federal programs.

THE POWER OF BEING UNDERSTOOD AUDIT | TAX | CONSULTING

#### Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order
  to design audit procedures that are appropriate in the circumstances and to test and report on internal
  control over compliance in accordance with the Uniform Guidance, but not for the purpose of
  expressing an opinion on the effectiveness of the District's internal control over compliance.
  Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

#### **Report on Internal Control Over Compliance**

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements. We issued our report thereon, dated November 27, 2023, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### Notes to Schedule of Expenditures of Federal Awards

#### Note 1. General and Basis of Presentation

The accompanying schedule of expenditures of federal awards (the schedule) presents the expenditure activity of all federal awards of The School District of Palm Beach County, Florida (the District), for the year ended June 30, 2023. The District's reporting entity is defined in Note 1 of the District's basic financial statements. All federal awards received directly from federal and indirectly through state agencies, as well as amounts passed through other government agencies are included in the accompanying schedule of expenditures of federal awards. Because the schedule presents only a selected portion of the expenditures of the District, it is not intended to and does not present the financial position, changes in net position/fund balance or cash flows of the District. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Therefore, some amounts presented in this Schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

### Note 2. Basis of Accounting

The accompanying Schedule is presented using the modified accrual basis of accounting since grants are accounted for in the governmental fund types of the District. Such expenditures are reported following the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance), wherein certain types of expenditures are not allowable or are limited as to reimbursement.

#### Note 3. Indirect Cost Recovery

The District did not recover its indirect costs using the 10% de minimis indirect cost rate provided under Section 200.414 of the Uniform Guidance.

#### Note 4. Noncash Awards

- (A) National School Lunch Program: ALN# 10.555 and Summer Food Service Program ALN# 10.559 Includes \$5,210,667 and \$1,712,787, respectively, of donated food received during the fiscal year. Donated foods are valued at fair value as determined at the time of donation.
- (B) Emergency Connectivity Fund: Includes \$306,871 of services received during the fiscal year.

#### INTEROFFICE COMMUNICATION

TO:

Joseph Abruzzo

Palm Beach County Clerk & Comptroller

FROM:

Sherry Brown, Director

Office of Financial Management & Budget

DATE:

December 7, 2023

**SUBJECT:** Certification of Compliance (Sec. 163.31801 F.S.)

Pursuant to law, the County's Chief Financial Officer is required to file an affidavit with the County's annual audit submittal to the Auditor General, stating that the County has complied with Sec. 163.31801 F.S.

The County has complied with Sec. 163.31801 F.S. for the fiscal year ended 9/30/2023 and OFMB certifies as follows:

- Impact fees are adopted by ordinance.
- Fee calculations are based on the most recent and localized data.
- The County's impact fee ordinance provides for accounting and reporting of impact fee collections and expenditures.
- Revenues and expenditures for each impact fee are accounted for in a separate accounting fund.
- Administrative charges are limited to actual costs.
- Notice is provided not less than 90 days before any amendment of impact fees.
- The County does not require payment of the impact fee before the date of issuance of the building permit.

The impact fee is proportional and reasonably connected to, or has a rational nexus with, the need for additional capital facilities and the increased impact generated by the new residential or commercial construction.

The County specifically (earmarks) uses the impact fee to acquire, construct or improve capital facilities to benefit new users.

The County does not use revenues generated by the impact fee to pay existing debt for previously approved projects unless the expenditure is reasonably connected to or has a rational nexus with the increased impact generated by the new residential or commercial construction.

If there are questions concerning any of these points, please contact Robyn Lawrence, Director of the Financial Management Division, at 355-4369.

#### Independent Accountant's Report on Compliance With Local Government Investment Policies in Accordance With Chapter 10.800 of the Rules of the Auditor General of the State of Florida

Honorable Chairperson and Board Members of The School District of Palm Beach County, Florida

We have examined the School District of Palm Beach County, Florida's (the District) compliance with *Section 218.415*, *Florida Statutes*, *Local Government Investment Policies* during the period July 1, 2022 to June 30, 2023. Management of the District is responsible for the District's compliance with the specified requirements. Our responsibility is to express an opinion on the District's compliance with the specified requirements based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and the standards applicable to attestation engagements contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the District complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether the District complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Our examination does not provide a legal determination on the District's compliance with the specified requirements.

We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to the engagement.

In our opinion, the District complied, in all material respects, with the specified requirements during the period July 1, 2022 to June 30, 2023.

This report is intended solely for the information and use of the Florida Auditor General, the Honorable Chairperson and Board Members of the School District and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.
