#### INDEPENDENT AUDITORS' REPORT

To the Honorable Mayor and Members of City Council, City of Chattahoochee, Florida:

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Chattahoochee, Florida (the City), as of and for the year ended September 30, 2018, and the related notes to the financial statements, which collectively comprise City of Chattahoochee, Florida's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

City of Chattahoochee, Florida's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our (1) unmodified audit opinion on the General Fund and aggregate remaining fund information; and (2) qualified audit opinion on the governmental activities, business-type activities, and Utility Fund.

#### Basis for Qualified Opinion on the Governmental Activities, Business-type Activities, and Utility Fund

As discussed in Note III. C. to the financial statements, the City has not implemented the provisions of GASB Statement No. 75, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions. Accounting principles generally accepted in the United States of America require recording of an obligation for postemployment benefits other than pensions, which would increase liabilities, decrease net position, and change the expenses in the governmental activities, business-type activities, and the Utility Fund.

In addition, as discussed in Note III. D. to the financial statements, the City has not implemented the provisions of Statement No. 67 *Financial Reporting for Pension Plans* and Statement No. 68 *Accounting and Financial Reporting for Pensions*, for its Municipal Firefighters' Pension Trust Fund. Accounting principles generally accepted in the United States of America require recording of an obligation for the net pension liability, and any associated deferred inflow and outflow related to the pension fund. This would increase liabilities, increase deferred inflows and outflows, decrease net position, and change the expenses in the governmental activities.

The amounts by which these departures would affect the deferred inflows, liabilities, deferred outflows, net position, and expenses of the governmental activities, business-type activities, and Utility Fund has not been determined.

#### Qualified Opinion on the Governmental Activities, Business-type Activities, and Utility Fund

In our opinion, except for the effects of the matters described in the Basis for Qualified Opinion paragraph on the governmental activities, business-type activities, and Utility Fund, the financial statements referred to above present fairly in all material respects, the respective financial position of the governmental activities, business-type activities, and Utility Fund of the City as of September 30, 2018, and the respective changes in financial position, and where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Unmodified Opinion on the General Fund and Aggregate Remaining Fund Information

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the general fund and the aggregate remaining fund information for the City, as of September 30, 2018, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and Florida Retirement System (FRS) pension information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the Firefighters' Pension and other postemployment benefit information that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated July 9, 2019, on our consideration of City of Chattahoochee, Florida's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City of Chattahoochee, Florida's internal control over financial reporting and compliance.

James Moore : Co., P.L.

Tallahassee, Florida July 9, 2019

As management of the City of Chattahoochee, Florida, we offer readers of this narrative overview and analysis of the financial activities of the City of Chattahoochee, Florida for the fiscal year ended September 30, 2018.

#### **Overview of the Financial Statements**

This discussion and analysis are intended to serve as an introduction to the City of Chattahoochee, Florida's basic financial statements. The City of Chattahoochee, Florida's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**Government-wide financial statements.** The *government-wide financial statements* are designed to provide readers with a broad overview of the City of Chattahoochee, Florida's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the City of Chattahoochee, Florida's assets and liabilities, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City of Chattahoochee, Florida is improving or deteriorating.

The *statement of activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City of Chattahoochee, Florida that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City of Chattahoochee, Florida include general government, public safety, transportation, physical environment, intergovernmental services, and culture and recreation. The business-type activities of the City of Chattahoochee, Florida include a water, sewer, electric, and gas operation.

The government-wide financial statements can be found on pages 11 - 12 of this report.

**Fund financial statements.** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Chattahoochee, Florida, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City of Chattahoochee, Florida can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City of Chattahoochee, Florida maintains one individual governmental fund. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the general fund which is considered to be a major fund.

The City of Chattahoochee, Florida adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 13 - 16 of this report.

**Proprietary funds**. The City of Chattahoochee, Florida maintains a proprietary fund. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The City of Chattahoochee, Florida uses an enterprise fund to account for its water, sewer, gas and electric operations.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide information for the water, sewer, electric, and gas operations, which is considered to be a major fund.

The basic proprietary fund financial statements can be found on pges 17 - 19 of this report.

**Fiduciary funds.** Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support the City of Chattahoochee, Florida's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found on pages 20 - 21 of this report.

**Notes to the financial statements**. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 22–42 of this report.

**Other information**. In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning the City of Chattahoochee, Florida's budgetary and pension information. Required supplementary information can be found on pages 44 – 47 of this report.

#### **Government-wide Financial Analysis**

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City of Chattahoochee, Florida, assets and deferred outflows exceeded liabilities and deferred inflows by \$7,515,431 at the close of the most recent fiscal year.

# **Government-wide Financial Analysis** (Continued)

By far the largest portion of the City of Chattahoochee, Florida's net position (85 percent) reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment) less any related debt used to acquire those assets that are still outstanding. The City of Chattahoochee, Florida uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the City of Chattahoochee, Florida's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

#### City of Chattahoochee, Florida's Net Position

		2018	
	Governmental Activities	Business-type Activities	Total
Current and other assets	\$ 506,124	\$ 3,353,621	\$ 3,859,745

Net investment in capital assets	2,744,859	3,495,978	6,240,837
Restricted	8,019	-	8,019
Unrestricted	(821,142)	2,703,248	1,882,106
Total net position	\$ 1,931,736	\$ 6,199,226	\$ 8,130,962

An additional portion of the City of Chattahoochee, Florida's net position (1 percent) represents resources that are subject to external restrictions on how they may be used. The remaining balance of *unrestricted net position*, \$1,100,545, may be used to meet the government's ongoing obligations to citizens and creditors. At the end of the current fiscal year, the City of Chattahoochee, Florida is able to report a positive balance in net position for its business-type activities.

**Governmental activities** Governmental activities decreased the City of Chattahoochee, Florida's net position by \$188,703.

Key element of this decrease are as follows:

• Increase in expenses for various road construction projects completed during the 2018 fiscal year.

**Business-type activities** Business-type activities decreased the City of Chattahoochee, Florida's net position by \$426,828.

Key element of this decrease are as follows:

• The City transferred out funds to support the general operation of the City.

# Financial Analysis of the Government's Funds

As noted earlier, the City of Chattahoochee, Florida uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental fund The focus of the City of Chattahoochee, Florida's governmental fund is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City of Chattahoochee, Florida's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City of Chattahoochee, Florida's governmental fund reported ending fund balance of \$395,390, an increase of \$9,982 in comparison with the prior year. Of this total amount, \$370,668 constitutes *unassigned fund balance*, which is available for spending at the government's discretion.

The general fund is the chief operating fund of the City of Chattahoochee, Florida. At the end of the current fiscal year, unassigned and total fund balance of the general fund was \$370,668 and \$395,390, respectively. As a measure of the general fund's liquidity, it may be useful to compare total fund balance to total fund expenditures. Fund balance represents 13 percent of total general fund expenditures.

**Proprietary fund** The City of Chattahoochee, Florida's proprietary fund provides the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net position of the Utility fund at the end of the year amounted to \$2,068,254. The total decrease in net position for the fund was \$426,828. Other factors concerning the finances of these three funds have already been addressed in the discussion of the City of Chattahoochee, Florida's business-type activities.

#### **General Fund Budgetary Highlights**

There was no difference between the original budget and the final amended budget. Variances in the budget and actual resulted mainly from a capital grant that did not occur in the current fiscal year.

#### **Capital Asset and Debt Administration**

Capital assets The City of Chattahoochee, Florida's investment in capital assets for its governmental and business type activities as of September 30, 2018, amounts to \$8,094,751 (net of accumulated depreciation). This investment in capital assets includes land, buildings and system, improvements, machinery and equipment, park facilities and roads.

Additional information on the City of Chattahoochee, Florida's capital assets can be found in Note II. C. on pages 29-30 of this report.

**Long-term debt** - At the end of the current fiscal year, the City of Chattahoochee, Florida had debt outstanding of \$1,607,604.

#### City of Chattahoochee, Florida's Long-term Outstanding Debt

Additional information on the City of Chattahoochee, Florida's long-term debt can be found in note II.E on pages 31 - 34 of this report.

#### **Economic Factors and Next Year's Budgets and Rates**

Changes in state budgets and legislation make financial forecasting difficult; however, past
performances and trends, expected growth, and expected tax revenue projections, as well as
anticipated operational and capital expenditures, are all factors in determining next year's budget.

All of these factors were considered in preparing the City of Chattahoochee, Florida's budget for the 2019 fiscal year.

#### **Requests for Information**

This financial report is designed to provide a general overview of the City of Chattahoochee, Florida's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Ms. Wendy Doyal, City Clerk, P.O. Box 188, Chattahoochee, Florida 32324.

# CITY OF CHATTAHOOCHEE, FLORIDA RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED SEPTEMBER 30, 2018

Net change in fund balance - governmental fund		\$ 9,982
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.		
Depreciation expense Capital outlay	(182,909) 58,483	(124,426)
In the statement of activities, only the capital lease liability is reported, whereas in the governmental funds, the proceeds from the capital lease are reported in other financial resources. Thus, the change in net position differs from the change in fund		
balance by the cost of the capital assets acquired by the capital lease.		(111,686)
Net pension liability expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. Changes in:		
Net pension liability	(69,183)	
Deferred outflows related to pensions	30,510	
Deferred inflows related to pensions	(34,075)	(72,748)
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of		
long-term debt and related items.		112,192
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures		
in governmental funds.  Compensated absences and other		(2,017)

#### I. Summary of Significant Accounting Policies:

#### A. Reporting entity

City of Chattahoochee, Florida (the "City") is a municipal corporation operating under the councilmanager form of government and provides the following services: public safety, transportation, sanitation, culture and recreation, and general administration services. Other public utility services include electric, gas, water, and sewer.

Chattahoochee Main Street, Inc. (Organization) is operated by a separate nonprofit corporation. The Organization was approved in 2014 as a participant in the Florida Main Street Program. No City officials serve on the board and the organization is not fiscally dependent on the City. Furthermore, while the Organization is a tax exempt organization and the economic resources are almost entirely for the benefit of the City constituents, the City does not have the ability to otherwise access or control the resources received by the Organization. As such, the Organization is not considered a component unit of the City.

#### B. Description of government wide financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. *Governmental activities*, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from *business- type activities*, which rely to a significant extent on fees and charges to external customers for support.

#### C. Basis of presentation - government-wide financial statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds, while business-type activities incorporate data from the government's enterprise funds. Separate financial statements are provided for governmental funds and proprietary funds.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

#### D. Basis of presentation – fund financial statements

The fund financial statements provide information about the government's funds. Separate statements for each fund category-governmental and proprietary – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

The City reports the following major governmental fund:

The *general fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

#### I. Summary of Significant Accounting Policies: (Continued)

#### **D.** Basis of presentation – fund financial statements (Continued)

The City reports the following major proprietary fund:

The *enterprise* – *utility fund* accounts for the activities of the government's electric distribution operations, gas distribution operations, water collection operations, and sanitation operations.

Additionally, the City reports the following fiduciary funds:

The Firefighters' Pension Plan Trust Fund accounts for the assets, contributions, and benefit payments to plan members.

The Rosedale Agency Fund accounts for the collection of water utility charges for service and the remittance of these funds collected for the Rosedale Water Association, Inc., a Florida not-for-profit corporation, that owns and operates a water distribution system within the unincorporated area of Gadsden County, Florida, contiguous with the City.

During the course of operations the City has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

#### E. Measurement focus and basis of accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources measurement* focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

#### I. <u>Summary of Significant Accounting Policies:</u> (Continued)

#### E. Measurement focus and basis of accounting (Continued)

The governmental fund financial statements are reported using the *current financial resources* measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due.

General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, sales taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of yearend). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of yearend). All other revenue items are considered to be measurable and available only when cash is received by the government.

The proprietary funds are reported using the *economic resources measurement focus* and the *accrual basis of accounting*.

#### F. Budgetary information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the general fund.

The appropriated budget is prepared by fund, function, and department. The City's department heads may make transfers of appropriations within a department. Transfers of appropriations between departments require the approval of the council. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the fund level.

Appropriations in all budgeted funds lapse at the end of the fiscal year even if they have related encumbrances. Encumbrances are commitments related to unperformed (executory) contracts for goods or services (i.e., purchase orders, contracts, and commitments). Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. While all appropriations and encumbrances lapse at year end, valid outstanding encumbrances (those for which performance under the executory contract is expected in the next year) are re-appropriated and become part of the subsequent year's budget.

#### I. Summary of Significant Accounting Policies: (Continued)

#### G. Assets, deferred outflows, liabilities, deferred inflows, and net position/fund balance

#### 1. Deposits

The City's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

State statutes authorize the City to invest in direct obligations of the U.S. Treasury, Local Government Surplus Funds Trust Fund, or any intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperation Act of 1969, SEC registered money market funds with the highest credit quality rating, and savings and CD accounts in state-certified public depositories.

#### 2. Capital assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. For financial reporting purposes, capital assets are defined by the government as assets with an initial, individual cost of more than \$1,000 (amount not rounded) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Property, plant, and equipment of the City is depreciated using the straight line method over the following estimated useful lives:

Assets	Years
Buildings	39
Public domain infrastructure	30 - 50
System infrastructure	7 - 50
Vehicles and other equipment	3 - 10
Office equipment	5
Computer equipment	5

#### 3. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

#### I. Summary of Significant Accounting Policies: (Continued)

# G. Assets, deferred outflows, liabilities, deferred inflows, and net position/fund balance (Continued)

#### 4. Long-term Obligations

In the government-wide financial statements, and for proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position.

#### 5. Net position flow assumption

Sometimes the City will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the City's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

#### 6. Fund balance flow assumptions

Sometimes the City will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the City's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

#### 7. Fund balance policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The government itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the City's highest level of decision-making authority. The City council is the highest level of decision making authority for the City that can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

#### I. Summary of Significant Accounting Policies: (Continued)

# G. Assets, deferred outflows, liabilities, deferred inflows, and net position/fund balance (Continued)

#### 7. Fund balance policies (Continued)

Amounts in the assigned fund balance classification are intended to be used by the City for specific purposes but do not meet the criteria to be classified as committed. The City Council may assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment

#### 8. Deferred outflows/inflows of resources

In addition to assets and liabilities, the statement of financial position will, if required, report a separate section for deferred outflows of resources and deferred inflows of resources, respectfully. These separate financial statement elements, deferred outflows/inflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow/inflow of resources (expense/expenditure or revenue) until then. Currently, the only item in this category consisted of deferred amounts related to pension, as discussed further in Note (III b).

#### 9. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Florida Retirement System (FRS) and additions to/deductions from FRS's fiduciary net position have been determined on the same basis as they are reported by FRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### 10. Certificates of deposit

Certificates of deposit are held locally in commercial banks with maturity dates greater than three months of date acquired by the City.

#### H. Revenues and expenditures/expenses

#### 1. Program revenues

Amounts reported as *program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions (including special assessments) that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

#### I. <u>Summary of Significant Accounting Policies</u>: (Continued)

#### H. Revenues and expenditures/expenses (Continued)

#### 2. Property taxes

Property taxes are billed and collected for the City by the County Tax Collector according to Florida Statute under the following calendar:

Lien Date:

Levy Date:

October 1

Due Date:

November 1

Delinquency Date:

April 1, of the following year

# 3. Compensated absences

It is the City's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. All vacation and partial sick pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

#### 4. Proprietary funds operating and nonoperating revenues and expenses

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the water fund, sewer fund and sanitation fund are charges to customers for sales and services. The water fund, sewer fund and sanitation fund also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as *nonoperating* revenues and expenses.

#### II. Detailed Notes on All Funds:

#### A. Deposits and Investments in Certificates of Deposit

Custodial credit risk—deposits. In the case of deposits, this is the risk that in the event of a bank failure, the City's deposits may not be returned. The bank balances are covered by Federal depository insurance or by collateral held by the City's custodial bank which is pledged to a state trust fund that provides security for amounts held in excess of FDIC coverage in accordance with the Florida Security for Deposits Act Chapter 280, Florida Statutes.

The Florida Security for Public Deposits Act established guidelines for qualification and participation by banks and savings associations, procedures for the administration of the collateral requirements and characteristics of eligible collateral.

# II. <u>Detailed Notes on All Funds</u>: (Continued)

#### B. Receivables

Receivables as of year-end, including the applicable allowances for uncollectible accounts, are as follows:

	General		<u>Utility</u>		Total	
Accounts receivable	\$	15,201	\$	705,155	\$	720,356
Grants receivable		114,044		17,657		131,701
Due from other government		66,929		-		66,929
Gross receivables		196,174		722,812		918,986
Less: Allowance for uncollectible		-		24,584		24,584
Net total receivables	\$	196,174	\$	698,228	\$	894,402

# C. Capital assets

Capital asset activity for the year ended September 30, 2018 was as follows:

	Beginning Balance	Increases	Decreases	Ending Balance
Governmental activities:				
Capital assets, not being depreciated:				
Land	\$ 632,537	\$ -	\$ -	\$ 632,537

Total	\$ 248,336

# II. <u>Detailed Notes on All Funds:</u> (Continued)

#### D. Transfers to/from other Funds

The composition of interfund transfers as of September 30, 2018, is as follows:

Transfers are used to move revenues between funds to reflect operating activities of the fund with the primary government:

	Transfers In		Transfers out		
General Fund	\$	1,575,076	\$	-	
Utility Fund		-		1,575,076	
Total	\$	1,575,076	\$	1,575,076	

The interfund amounts were used to cover deficits in cash balances due to timing of cash collection.

As of September 30, 2018, Interfund balances consisted of:

	Due From Other Funds					To Other Funds
Governmental funds						
General fund	\$	-	\$	154,969		
Proprietary funds						
Utility Fund		154,969				
Total	\$	154,969	\$	154,969		

#### E. Long-term debt

#### Governmental-type activities:

Notes payable consisted of the following at September 30, 2018:

#### Note payable

\$1,200,000 SunTrust loan, payable in annual installments of \$93,455, through September 1, 2026, plus interest at 4.65%, collateralized by net revenues.

Less current amount

\$ 620,669
64,966
\$ 555,703

#### II. <u>Detailed Notes on All Funds:</u> (Continued)

#### E. Long-term debt (Continued)

Debt service requirements to maturity are as follows:

Year Ending September 30,	P	rincipal	1	nterest
2019	\$	64,966	\$	28,488
2020		67,987		25,467
2021		71,148		22,306
2022		74,457		18,998
2023		77,919		15,535
2024 - 2026		264,192		24,186
	\$	620,669	\$	134,980

#### Capital lease obligation

At September 30, 2018, the City had an outstanding capital lease for equipment with an interest rate of 3.41%. The total cost of the leased equipment was \$135,000 and total accumulated depreciation in the governmental activities of the Statement of Net Position was \$23,625. Future lease payments, together with the present value of the minimum lease payments, are summarized in the following tabulation:

Year ending September 30,		
2019	\$	89,100
Total		89,100
Less: amount representing interest		(5,984)
Present value of net minimum lease		
payments	\$	83,116

#### **Business-type activities:**

#### Revenue bonds

The City also issues bonds where the City pledges income derived from the acquired or constructed assets to pay debt service. Amounts outstanding at the end of the current fiscal year related to these issues in prior years totaled \$896,000. For the year ended September 30, 2018, the City did not maintain a sinking fund as required by the bond covenants.

# II. Detailed Notes on All Funds: (Continued)

# E. Long-term debt (Continued)

Water and sewer revenue bonds outstanding at September 30, 2018 are comprised of the following:

\$1,077,000 2005 Revenue Bond, payable in annual installments through September 1, 2044, plus interest at 4.25%, collateralized by net revenues of the sewer system.

Less current amount

20,000
\$ 876,000

Debt service requirements to maturity are as follows:

Year Ending September 30,	Principal			Interest	
2019	\$	20,000	\$	38,080	
2020		20,000		37,230	
2021		21,000		36,380	
2022		22,000		35,488	
2023		23,000		34,553	
2024 - 2028		130,000		157,251	
2029 - 2033		162,000		127,034	
2034 - 2038		198,000		89,718	
2039 - 2043		245,000		43,776	
2044		55,000		2,338	
	\$	896,000	\$	601,848	

#### Note payable

State Revolving Loan, payable in semi-annual installments of \$23,650, through May 15, 2020, plus interest at 1.54%, collateralized by net revenues of the sewer system.

\$ 90,935 44,746 \$ 46,189

Debt service requirements to maturity are as follows:

Less current amount

Year Ending September 30,	Principal			Interest	
2019	\$	44,746	\$	2,555	
2020		46,189		1,111	
	\$	90,935	\$	3,666	

# II. <u>Detailed Notes on All Funds:</u> (Continued)

#### E. Long-term debt (Continued)

#### Changes in long-term liabilities

Long-term liability activity for the year ended September 30, 2018, was as follows:

		Beginning Balance	A	dditions	Reductions		Ending Balance			ne within
Governmental activities:										
Long-term note payable	\$	677,567	\$	-	\$	56,898	\$	620,669	\$	64,966

term liabilities	\$	1,090,137	\$	263,711	\$	256,653	\$	1,097,195	\$	153,153

# F. Line of Credit

At September 30, 2018, the City had a \$500,000 unsecured line of credit with the bank to be drawn upon as needed. As of September 30, 2018, the balance outstanding on the line of credit was \$161,893. \$78,949 was allocated to the governmental activities and \$82,944 was allocated to the business-type activities. The interest rate is a variable rate beginning at 3.0%. The line of credit is due on demand, but if no demand the line of credit matures on January 10, 2019.

# III. Other Information:

#### A. Contingent Liabilities

**Grant Programs**—Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the Federal and State governments. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the City expects amounts, if any, to be immaterial.

# III. Other Information: (Continued)

#### **B. FRS Pension Plan**

#### Plan Description and Administration

The City participates in the Florida Retirement System (FRS), a multiple-employer, cost sharing defined public employee retirement system which covers all of the City's full-time employees. The System is a noncontributory retirement plan, administered by the State of Florida, Department of Administration, Division of Retirement to provide retirement and survivor benefits to participating public employees. Provisions relating to the FRS are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and FRS Rules, Chapter 60S, Florida Administrative Code; wherein eligibility, contributions, and benefits are defined and described in detail. The FRS is a single retirement system administered by the Department of Management Services, Division of Retirement, and consists of two cost-sharing, multiple-employer retirement plans and other nonintegrated programs. These include a defined-benefit pension plan (Plan), with a Deferred Retirement Option Program (DROP), and a defined-contribution plan, referred to as the FRS Investment Plan (Investment Plan).

In addition, all regular employees of the entity are eligible to enroll as members of the Retiree Health Insurance Subsidy (HIS) Program. The HIS is a cost-sharing, multiple-employer defined benefit pension plan established and administered in accordance with section 112.363, Florida Statutes. The benefit is a monthly payment to assist retirees of the state-administered retirement systems in paying their health insurance costs. For the fiscal year ended September 30, 2018, eligible retirees and beneficiaries received a monthly HIS payment equal to the number of years of service credited at retirement multiplied by \$5. The minimum payment is \$30 and the maximum payment is \$150 per month, pursuant to section 112.363, Florida Statutes. To be eligible to receive a HIS benefit, a retiree under one of the state-administered retirement systems must provide proof of eligible health insurance coverage, which can include Medicare.

# Benefits Provided and Employees Covered

Employees enrolled in the Plan prior to July 1, 2011, vest at six years of creditable service and employees enrolled in the Plan on or after July 1, 2011, vest at eight years of creditable service. All vested members, enrolled prior to July 1, 2011, are eligible for normal retirement benefits at age 62 or at any age after 30 years of service. All members enrolled in the Plan on or after July 1, 2011, once vested, are eligible for normal retirement benefits at age 65 or any time after 33 years of creditable service. Members of both Plans may include up to four years of credit for military service toward creditable service. The Plan also includes an early retirement provision; however, there is a benefit reduction for each year a member retires before his or her normal retirement date. The Plan provides retirement, disability, death benefits, and annual cost-of-living adjustments. Benefits under the Plan are computed on the basis of age and/or years of service, average final compensation, and service credit. Credit for each year of service is expressed as a percentage of the average final compensation. For members initially enrolled before July 1, 2011, the average final compensation is the average of the five highest fiscal years' earnings; for members initially enrolled on or after July 1, 2011, the average final compensation is the average of the eight highest fiscal years' earnings. The total percentage value of the benefit received is determined by calculating the total value of all service, which is based on the retirement plan and/or class to which the member belonged when the service credit was earned.

#### **III.** Other Information: (Continued)

#### B. FRS Pension Plan (Continued)

#### Benefits Provided and Employees Covered (Continued)

DROP, subject to provisions of Section 121.091, Florida Statutes, permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payments while continuing employment with an FRS employer. An employee may participate in DROP for a period not to exceed 60 months after electing to participate, except that certain instructional personnel may participate for up to 96 months. During the period of DROP participation, deferred monthly benefits are held in the FRS Trust Fund and accrue interest.

Employees may elect to participate in the Investment Plan in lieu of the FRS defined-benefit plan. Employer and employee contributions are defined by law, but the ultimate benefit depends in part on the performance of investment funds. The Investment Plan is funded by employer and employee contributions that are based on salary and membership class (Regular, DROP, etc.). Contributions are directed to individual member accounts, and the individual members allocate contributions and account balances among various approved investment choices. Employees in the Investment Plan vest at one year of service.

#### Financial Statements

Financial statements and other supplementary information of the FRS are included in the State's Comprehensive Annual Financial Report, which is available from the Florida Department of Financial Services, Bureau of Financial Reporting Statewide Financial Reporting Section by mail at 200 E. Gaines Street, Tallahassee, Florida 32399-0364; by telephone at (850) 413-5511; or at the Department's Web site (www.myfloridacfo.com). An annual report on the FRS, which includes its financial statements, required supplementary information, actuarial report, and other relevant information, is available from:

Florida Department of Management Services Division of Retirement, Research and Education Services P.O. Box 9000 Tallahassee, FL 32315-9000 850-488-5706 or toll free at 877-377-1737

#### **Contributions**

Employers may participate in certain classes of FRS membership. The employee contribution rate for eligible employees are 3.0%. Each class has descriptions and employer contribution rates in effect during the fiscal year ended September 30, 2018, as follows (contribution rates are in agreement with the actuarially determined rates):

# **III.** Other Information: (Continued)

# B. FRS Pension Plan (Continued)

**Contributions** (Continued)

FRS Membership Plan & Class	Through June 30, 2018	After June 30, 2018		
Regular Class	7.92%	8.26%		
Senior Management	22.71%	24.06%		
Special Risk	23.27%	24.50%		
DROP – Applicable to members above	13.26%	14.03%		

Current-year employer HIS contributions were made at a rate of 1.66% of covered payroll.

Actual contributions made for City employees participating in FRS and HIS for the year ended September 30, 2018 were as follows:

	 2018
Contributions – FRS	\$ 137,978
Contributions – HIS	24,443
Employee Contributions – FRS	44,175

Net Pension Liability, Pension Expense, and Deferred Outflows and Inflows of Resources Related to Pensions

	Net Pension				
Plan		Liability			
FRS	\$	1,458,271			
HIS		477,059			
Total	\$	1,935,330			

The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer proportion of the net pension liability was based on a projection of the organization's long-term share of contributions to the pension plan relative to the projected contributions of all participating governmental entities, as actuarially determined. At September 30, 2018 and September 30, 2017, the organization's proportionate share of the FRS and HIS net pension liabilities were as follows:

Plan	2018	2017
FRS	0.004841453%	0.004680612%
HIS	0.004507308%	0.004476736%

# III. Other Information: (Continued)

#### B. FRS Pension Plan (Continued)

Net Pension Liability, Pension Expense, and Deferred Outflows and Inflows of Resources Related to Pensions (Continued)

For the plan year ended September 30, 2018, pension expense was recognized related to the FRS and HIS plans as follows:

FRS	\$ 222,946
HIS	27,819
Total	\$ 250,765

Deferred outflows/inflows related to pensions:

At September 30, 2018, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	FRS				Н	HIS		
	0	Deferred Outflows of Resources		Deferred Inflows of Resources		Deferred Outflows of Resources		Deferred nflows of Resources
Differences between expected and actual experience Changes of assumptions Net different between projected and actual investment earnings	\$	123,537 476,492 -	\$	(4,484) - (112,669)	\$	7,304 53,055 288	\$	(811) (50,439)
Change in proportionate share Contributions subsequent to measurement date		32,506 38,230		(91,909)		9,579 6,084		(36,057)
•	\$	670,765	\$	(209,062)	\$	76,310	\$	(87,307)

The above amounts for deferred outflows of resources for contributions related to pensions resulting from City contributions subsequent to the measurement date and will be recognized as a reduction of the net pension liability in the year ended September 30, 2018. Other amounts reported as deferred outflows and deferred inflows of resources related to pensions being amortized for a period of greater than one year will be recognized in pension expense in succeeding years as follows:

2019	\$ 170,347
2020	120,971
2021	11,043
2022	81,404
2023	51,936
Thereafter	 (29,309)
Total	\$ 406,392

# **III.** Other Information: (Continued)

#### B. FRS Pension Plan (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

Actuarial assumptions:

The Actuarial assumptions for both defined benefit plans are reviewed annually by the Florida Retirement System Actuarial Assumptions Conference. The FRS has a valuation performed annually. The HIS Program has a valuation performed biennially that is updated for GASB reporting in the year a valuation is not performed. The most recent experience study for the FRS was completed in 2014 for the period July 1, 2008, through June 30, 2013. Because HIS is funded on a pay-as-you-go basis, no experience study has been completed.

The total pension liability for each of the defined benefit plans was determined by an actuarial valuation, using the entry age normal actuarial cost method. Inflation increases for both plans is assumed at 2.60%. Payroll growth, including inflation, for both plans is assumed at 3.25%. Both the discount rate and the long-term expected rate of return used for FRS investments is 7.00%. This rate decreased from the prior year rate, which was 7.10%. The plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return. Because HIS Program uses a pay-as-you-go funding structure, a municipal bond rate of 3.87% was used to determine was used to determine the total pension for the program. This rate increased from the prior year rate, which was 3.58%. Mortality assumptions for both plans were based on the Generational RP-2000 with Projection Scale BB tables.

#### Long-term expected rate of return:

To develop an analytical basis for the selection of the long-term expected rate of return assumption, in October 2018, the FRS Actuarial Assumptions conference reviewed long-term assumptions developed by both Milliman's capital market assumptions team and by a capital market assumptions team from Aon Hewitt Investment Consulting, which consults to the Florida State Board of Administration. The table below shows Milliman's assumptions for each of the asset classes in which the plan was invested at that time based on the long-term target asset allocation. The allocation policy's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes an adjustment for the inflation assumption. These assumptions are not based on historical returns, but instead are based on a forward-looking capital market economic model.

Sensitivity of the net pension liability to changes in the discount rate:

The following presents the proportionate shares of the FRS and HIS net pension liability of the City calculated using the current discount rates, as well as what the City's net pension liability would be if it were calculated using a discount rate that is 1% lower or 1% higher than the current rate:

 Plan	Current Discount Rate	NPL with 1% Decrease		NPL at Current Discount Rate		NPL with 1% Increase		
FRS	7.00%	\$	2,661,405	\$	1,458,271	\$	458,996	
HIS	3.87%		543,342		477,059		421,808	

#### C. Other Postemployment Benefits

The City provides other postemployment benefits (OPEB) to its employees by providing retirement healthcare benefits. The City contributes, along with its employees and retirees, to the Capital Health Plan (Plan) to provide certain healthcare benefits to active and retired employees and their dependents. The Plan is a single-employer plan administered by Capital Health Plan, Inc. and the City. The benefits, benefit levels, employee contributions and employer contributions are governed by the Plan.

Post-employment health care benefits are offered to retired employees and their dependents. All employees are eligible to receive benefits upon their retirement. All health care benefits are provided through the City's Capital Health Plan employee health care plan. The benefit levels are the same as those afforded to active employees. Benefits include general inpatient and outpatient medical services; mental and substance abuse care; dental care; and prescriptions. Upon retirees reaching 65 years of age, Medicare becomes the primary insurer and the City's plan will not pay benefits already paid by Medicare.

#### III. Other Information: (Continued)

#### C. Other Postemployment Benefits (Continued)

The City does not contribute any portion of the premiums for current retired employees. All premiums are paid entirely by the plan participant. The use of age-adjusted premiums results in an implicit rate subsidy funded by the City since the healthcare premiums for retirees and active employees are identical.

The state of Florida's Division of Retirement contributes each month \$5 for each year of service, up to \$150 per month. The City's Capital Health Plan contract establishes the individual premium to be paid by the retired employees. The state of Florida prohibits the City from separately rating retired employees and active employees. As a result, the City's premium charges to retired employees can be no more than the premium cost applicable to active employees.

The City has not implemented the provisions of GASB Statement No. 75, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions. Statement No. 45 establishes standards for the measurement, recognition, and display of OPEB expense/expenditures and related liabilities, note disclosures, and required supplementary information.

# D. Municipal Firefighter's Pension Trust Fund (MFPTF)

The Municipal Firefighters' Retirement Trust Fund is a single-employer defined benefit pension plan that provides pensions for qualified firefighters pursuant to Florida Statute, Chapter 175. The City adopted a "chapter plan" that provides benefits based on years of service. The benefits are provided through a State contribution from collections of a Fire Insurance Premium Tax. The City is required to participate only when the State contributions are insufficient to fund the plan.

The City has not implemented the provisions of GASB Statement No. 67 Financial Reporting for Pension Plans and Statement No. 68 Accounting and Financial Reporting for Pensions. Statements No. 67 and 68 establishes standards for the measurement, recognition, and display of pension expense/expenditures and related liabilities, note disclosures, and required supplementary information.

#### E. Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the City carries commercial insurance.

#### F. Commitments

The City of Chattahoochee, Florida is in the process of construction activities for a new public water system. The total estimated cost of these activities is expected to exceed \$600,000. Construction activities are being funded through a grant from the State of Florida, Department of Environmental Protection. As of September 30, 2018, the City has incurred \$22,000 in costs related to this activity.

In October 2016, the City entered an agreement for refuse collection services through September 30, 2021. During the fiscal year ended September 30, 2018, the City incurred approximately \$265,000 in costs related to this agreement. Future annual costs may vary slightly based on weight of refuse collected.

### III. Other Information: (Continued)

#### F. Commitments (Continued)

In April 2017, the City entered into an agreement for software services. The agreement will terminate seven years from the January 1, 2018, effective date. Annual subscription costs related to the agreement are \$27,888.

# **G. Future Accounting Pronouncements**

In November 2016, the GASB issued Statement No. 83, Certain Retirement Obligations, which addresses accounting and financial reporting for certain asset retirement obligations, which are legally enforceable liabilities associated with the retirement of a tangible capital asset. The provisions in GASB Statement No. 83 are effective for periods beginning after June 15, 2018. The City is currently evaluating the effect that Statement No. 88 will have on its financial statements.

In January 2017, the GASB issued Statement No. 84, *Fiduciary Activities*, which is intended to improve guidance regarding the identification and reporting of fiduciary activities. The provisions in GASB Statement No. 84 are effective for periods beginning after December 15, 2018. The City is currently evaluating the effect that Statement No. 84 will have on its financial statements.

In June 2017, the GASB issued Statement No. 87, *Leases*, which aims to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. The provisions in GASB Statement No. 87 are effective for periods beginning after December 15, 2019. The City is currently evaluating the effect that Statement No. 87 will have on its financial statements.

#### **H. Subsequent Events**

Subsequent to year end, on October 10, 2018, Hurricane Michael impacted the gulf coast of Florida, including the City of Chattahoochee. The City suffered significant damage and required extensive repair. At this time, management is still determining the costs associated with repair and replacement of the damaged items, most of which are expected to be covered by insurance. The City took out a \$7 million loan after year end due to the damage caused to the City's electric utility.

# CITY OF CHATTAHOOCHEE, FLORIDA NOTE TO SCHEDULE OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES – BUDGET AND ACTUAL FOR THE YEAR ENDED SEPTEMBER 30, 2018

#### A. Budgetary Information:

An annual budget is adopted on a basis consistent with accounting principles generally accepted in the United States of America for the general fund. All annual appropriations lapse at fiscal year-end.

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. Prior to October 1, the City Council prepares a proposed operating budget for the fiscal year commencing the following October 1. The operating budget includes proposed expenditures and the means of financing them.
- 2. Public hearings are conducted to obtain taxpayer comments.
- 3. Prior to October 1, the budget is legally enacted through passage of an ordinance.
- 4. Revisions that alter the total expenditures of any fund must be approved by the City Council.
- 5. Formal budgetary integration is employed as a management control device during the year for the General Fund. The legal level of budgetary control is the fund level.
- 6. The budget for the General Fund is adopted on a basis consistent with accounting principles generally accepted in the United States of America.

# INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Honorable Mayor and Members of City Council, City of Chattahoochee, Florida:

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities and each major fund of the City as of and for the year ended September 30, 2018, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated July 9, 2019.

# Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings, we identified certain deficiencies in internal control that we consider to be material weaknesses.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying schedule of findings as Finding 2018-001 and Finding 2018-002 to be material weaknesses.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance that is required to be reported under *Government Auditing Standards*: 2018-003.

#### City of Chattahoochee, Florida's Response to Findings

The City's response to the findings identified in our audit is described in the accompanying corrective action plan. The City's response was not subjected to the auditing procedures applied in the audit of the financial statements and accordingly, we express no opinion on it.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

James Meore : Co., P.L.

Tallahassee, Florida July 9, 2019

# CITY OF CHATTAHOOCHEE, FLORIDA SCHEDULE OF FINDINGS SEPTEMBER 30, 2018

# Finding 2018-001: Audit Adjustments

Criteria: Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP").

**Condition:** Adjustments were required to be made to the accounting records as part of the audit process to be in accordance with GAAP.

Cause: Management relied on auditors to propose entries that had not been recorded at the time of the audit.

Effect: Incorrect recording of accounting records could lead to a material misstatement on the financial statements.

**Recommendation:** We recommend that the process for identifying accounting transaction be reviewed and updated.

# Finding 2018-002: Segregation of Duties

**Criteria:** Internal controls are designed to safeguard assets and help prevent or detect losses from employee dishonesty or error. A fundamental concept in a good system of internal control is the segregation of duties. The basic premise is that no one employee should have access to both physical assets and the related accounting records or to all phases of a transaction.

**Condition**: The size of the City's accounting staff precludes certain internal controls that would be preferred. We believe that certain practices could be implemented to improve existing internal control without impairing efficiency.

**Cause**: The size of the City's accounting and administrative staff precludes certain internal controls that would be preferred – including the following:

- Deputy Clerk prepares the bank reconciliation, processes the accounts payable, prints checks, and has access to accounting system. We recommend the City implement a segregated process involving 2 persons for the processes above or a timely review by a third-party.
- Journal entries made in the accounting system are not being reviewed and approved. We recommend that an individual other than the person preparing and making the entry review and approve it as it was posted in the system. This review can be evidenced by signing off on the entry. A copy of the entry should be filed along with the supporting documentation.

**Effect:** Errors or material misstatements in the financial statements presented to the board by management may exist and not be detected.

**Recommendation:** We recommend management develop compensating controls.

# CITY OF CHATTAHOOCHEE, FLORIDA SCHEDULE OF FINDINGS SEPTEMBER 30, 2018

(Continued)

# Finding 2018-003: Bond Series 2005, Sinking Fund Compliance

**Condition and Criteria:** The City is required by the bond covenant to deposit the debt service payment into the sinking fund monthly.

Cause: The City did not deposit the debt service payment into the sinking fund.

**Effect:** The City was not in compliance with the bond covenant.

**Recommendation:** We recommend the City deposit the required payment according to the requirements in the bond covenants.

# INDEPENDENT AUDITORS' MANAGEMENT LETTER REQUIRED BY CHAPTER 10.550, RULES OF THE STATE OF FLORIDA, OFFICE OF THE AUDITOR GENERAL

To the Honorable Mayor and Members of City Council, City of Chattahoochee, Florida:

#### **Report on the Financial Statements**

We have audited the financial statements of the City of Chattahoochee, Florida, as of and for the fiscal year ended September 30, 2018, and have issued our report thereon dated July 9, 2019.

# **Auditors' Responsibility**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States and Chapter 10.550, Rules of the Auditor General.

### **Other Reporting Requirements**

We have issued our Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with Government Auditing Standards; and Independent Accountant's Report on an examination conducted in accordance with AICPA Professional Standards, Section 601, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports and schedule, which are dated July 9, 2019, should be considered in conjunction with this management letter.

#### **Prior Audit Findings**

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. Corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report except as noted in the table below.

Tabulation of Uncorrected Audit Findings					
	Current Year	2016-17 FY	2015-16 FY		
Description	Finding #	Finding #	Finding #		
Audit adjustments	2018-001	2017-001	2016-001		
Segregation of duties	2018-002	2017-002	2016-002		

#### Official Title and Legal Authority

Section 10.554(1)(i)4., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. There are no component units of City of Chattahoochee, Florida to be disclosed as required by accounting principles generally accepted in the United States of America.

#### **Financial Condition and Management**

Section 10.554(1)(i)5.a. and 10.556(7), Rules of the Auditor General, require us to apply appropriate procedures and communicate the results of our determination as to whether or not the local governmental entity has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and identification of the specific condition(s) met. In connection with our audit, we determined that the City of Chattahoochee, Florida did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.554(1)(i)5.b. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures for the City of Chattahoochee, Florida. It is management's responsibility to monitor the City of Chattahoochee, Florida's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

# **Additional Matters**

Section 10.554(1)(i)3., Rules of the Auditor General, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with our audit, we did not have any such findings.

#### City of Chattahoochee, Florida's Response to Findings

The City of Chattahoochee, Florida's response to the finding identified in our audit in the following corrective action plan. The City of Chattahoochee, Florida's response was not subjected to the auditing process applied to the audit of the financial statements and, accordingly, we express no opinion on it.

# **Purpose of this Letter**

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, the Council Members, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.

James Maore : Co., P.L.

Tallahassee, Florida July 9, 2019

#### INDEPENDENT ACCOUNTANTS' EXAMINATION REPORT

To the Honorable Mayor and Members of City Council, City of Chattahoochee, Florida:

We have examined the compliance of the City of Chattahoochee, Florida (the City) with Section 218.415, Florida Statutes, *Local Government Investment Policies*, for the year ended September 30, 2018. Management is responsible for City of Chattahoochee, Florida's compliance with those requirements. Our responsibility is to express an opinion on the City's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the City complied with the aforementioned statutes, for the year ended September 30, 2018, in all material respects. An examination involves performing procedures to obtain evidence about the City's compliance with those requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of risks of material noncompliance with those requirements, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

In our opinion, the City complied, in all material respects, with the aforementioned requirements for the year ended September 30, 2018.

James Maore : Co., P.L.

July 9, 2019

The Auditor General State of Florida Tallahassee, FL

Re: Response to Findings Audit for City of Chattahoochee FYE September 30, 2018

Dear Sir/Madam:

Attached below please find the responses to FYE audit findings from the City of Chattahoochee:

- a. Finding 2018-001-Audit Adjustments-During the current FY the city has obtained the services of a 3<sup>rd</sup> party accountant to assist with the preparation of financial statements in order to alleviate the need for many of the adjustments prepared in the past and feel that this added assistance will reduce the need for adjustments to a very minimum in the future. Also, now that the city moved to a new accounting system budget to actual reports will be prepared to the City Council monthly.
- b. Finding 2018-002-Segregation of Duties-With a limited staff the segregation of duties is spread out among the staff as much as possible. The Deputy Clerk prepares the bank reconciliation, processes the accounts payable, prints check, and has access to the accounting system. As a result of this finding the utility billing clerk has been assigned to review the bank statements, in addition to the City Manager doing a review. No one at City Hall picks up the mail or takes the deposits to the bank in another effort to segregate duties as much as possible. The 3<sup>rd</sup> party accountant referred to in Finding 2018-001 also assists with reviewing and assisting with journal entries which are approved by the City Manager.
- c. Finding 2018-003- Bond Series 2005 Sinking Fund Compliance-The City has set up a sinking fund account and is current on all sinking fund payments required through the 2019-2020 fiscal year.

We feel these actions will help alleviate future audit finds for these topics.

Sincerely,

Robert Presnell, City Manager

Cc: James Moore, CPA; City Clerk; City Mayor and Council

#### INDEPENDENT AUDITORS' REPORT

To the Honorable Mayor and Members of City Council, City of Chattahoochee, Florida:

# **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Chattahoochee, Florida (the City), as of and for the year ended September 30, 2018, and the related notes to the financial statements, which collectively comprise City of Chattahoochee, Florida's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

City of Chattahoochee, Florida's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our (1) unmodified audit opinion on the General Fund and aggregate remaining fund information; and (2) qualified audit opinion on the governmental activities, business-type activities, and Utility Fund.

# Basis for Qualified Opinion on the Governmental Activities, Business-type Activities, and Utility Fund

As discussed in Note III. C. to the financial statements, the City has not implemented the provisions of GASB Statement No. 75, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions. Accounting principles generally accepted in the United States of America require recording of an obligation for postemployment benefits other than pensions, which would increase liabilities, decrease net position, and change the expenses in the governmental activities, business-type activities, and the Utility Fund.

In addition, as discussed in Note III. D. to the financial statements, the City has not implemented the provisions of Statement No. 67 Financial Reporting for Pension Plans and Statement No. 68 Accounting and Financial Reporting for Pensions, for its Municipal Firefighters' Pension Trust Fund. Accounting principles generally accepted in the United States of America require recording of an obligation for the net pension liability, and any associated deferred inflow and outflow related to the pension fund. This would increase liabilities, increase deferred inflows and outflows, decrease net position, and change the expenses in the governmental activities.

The amounts by which these departures would affect the deferred inflows, liabilities, deferred outflows, net position, and expenses of the governmental activities, business-type activities, and Utility Fund has not been determined.

#### Qualified Opinion on the Governmental Activities, Business-type Activities, and Utility Fund

In our opinion, except for the effects of the matters described in the Basis for Qualified Opinion paragraph on the governmental activities, business-type activities, and Utility Fund, the financial statements referred to above present fairly in all material respects, the respective financial position of the governmental activities, business-type activities, and Utility Fund of the City as of September 30, 2018, and the respective changes in financial position, and where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Unmodified Opinion on the General Fund and Aggregate Remaining Fund Information

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the general fund and the aggregate remaining fund information for the City, as of September 30, 2018, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and Florida Retirement System (FRS) pension information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the Firefighters' Pension and other postemployment benefit information that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated July 9, 2019, on our consideration of City of Chattahoochee, Florida's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City of Chattahoochee, Florida's internal control over financial reporting and compliance.

James Moore : Co., P.L.

Tallahassee, Florida July 9, 2019

As management of the City of Chattahoochee, Florida, we offer readers of this narrative overview and analysis of the financial activities of the City of Chattahoochee, Florida for the fiscal year ended September 30, 2018.

#### **Overview of the Financial Statements**

This discussion and analysis are intended to serve as an introduction to the City of Chattahoochee, Florida's basic financial statements. The City of Chattahoochee, Florida's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**Government-wide financial statements.** The *government-wide financial statements* are designed to provide readers with a broad overview of the City of Chattahoochee, Florida's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the City of Chattahoochee, Florida's assets and liabilities, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City of Chattahoochee, Florida is improving or deteriorating.

The *statement of activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City of Chattahoochee, Florida that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City of Chattahoochee, Florida include general government, public safety, transportation, physical environment, intergovernmental services, and culture and recreation. The business-type activities of the City of Chattahoochee, Florida include a water, sewer, electric, and gas operation.

The government-wide financial statements can be found on pages 11 - 12 of this report.

**Fund financial statements.** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Chattahoochee, Florida, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City of Chattahoochee, Florida can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City of Chattahoochee, Florida maintains one individual governmental fund. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the general fund which is considered to be a major fund.

The City of Chattahoochee, Florida adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 13 - 16 of this report.

**Proprietary funds**. The City of Chattahoochee, Florida maintains a proprietary fund. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The City of Chattahoochee, Florida uses an enterprise fund to account for its water, sewer, gas and electric operations.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide information for the water, sewer, electric, and gas operations, which is considered to be a major fund.

The basic proprietary fund financial statements can be found on pges 17 - 19 of this report.

**Fiduciary funds.** Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support the City of Chattahoochee, Florida's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found on pages 20 - 21 of this report.

**Notes to the financial statements**. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 22–42 of this report.

**Other information**. In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning the City of Chattahoochee, Florida's budgetary and pension information. Required supplementary information can be found on pages 44 – 47 of this report.

#### **Government-wide Financial Analysis**

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City of Chattahoochee, Florida, assets and deferred outflows exceeded liabilities and deferred inflows by \$7,515,431 at the close of the most recent fiscal year.

# **Government-wide Financial Analysis** (Continued)

By far the largest portion of the City of Chattahoochee, Florida's net position (85 percent) reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment) less any related debt used to acquire those assets that are still outstanding. The City of Chattahoochee, Florida uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the City of Chattahoochee, Florida's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

# City of Chattahoochee, Florida's Net Position

	Governmental Activities	Business-type Activities	Total
Current and other assets	\$ 506,124	\$ 3,353,621	\$ 3,859,745

Net investment in capital assets	2,744,859	3,495,978	6,240,837
Restricted	8,019	-	8,019
Unrestricted	(821,142)	2,703,248	1,882,106
Total net position	\$ 1,931,736	\$ 6,199,226	\$ 8,130,962

An additional portion of the City of Chattahoochee, Florida's net position (1 percent) represents resources that are subject to external restrictions on how they may be used. The remaining balance of *unrestricted net position*, \$1,100,545, may be used to meet the government's ongoing obligations to citizens and creditors. At the end of the current fiscal year, the City of Chattahoochee, Florida is able to report a positive balance in net position for its business-type activities.

**Governmental activities** Governmental activities decreased the City of Chattahoochee, Florida's net position by \$188,703.

Key element of this decrease are as follows:

• Increase in expenses for various road construction projects completed during the 2018 fiscal year.

**Business-type activities** Business-type activities decreased the City of Chattahoochee, Florida's net position by \$426,828.

Key element of this decrease are as follows:

• The City transferred out funds to support the general operation of the City.

### Financial Analysis of the Government's Funds

As noted earlier, the City of Chattahoochee, Florida uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental fund The focus of the City of Chattahoochee, Florida's governmental fund is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City of Chattahoochee, Florida's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City of Chattahoochee, Florida's governmental fund reported ending fund balance of \$395,390, an increase of \$9,982 in comparison with the prior year. Of this total amount, \$370,668 constitutes *unassigned fund balance*, which is available for spending at the government's discretion.

The general fund is the chief operating fund of the City of Chattahoochee, Florida. At the end of the current fiscal year, unassigned and total fund balance of the general fund was \$370,668 and \$395,390, respectively. As a measure of the general fund's liquidity, it may be useful to compare total fund balance to total fund expenditures. Fund balance represents 13 percent of total general fund expenditures.

**Proprietary fund** The City of Chattahoochee, Florida's proprietary fund provides the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net position of the Utility fund at the end of the year amounted to \$2,068,254. The total decrease in net position for the fund was \$426,828. Other factors concerning the finances of these three funds have already been addressed in the discussion of the City of Chattahoochee, Florida's business-type activities.

#### **General Fund Budgetary Highlights**

There was no difference between the original budget and the final amended budget. Variances in the budget and actual resulted mainly from a capital grant that did not occur in the current fiscal year.

#### **Capital Asset and Debt Administration**

Capital assets The City of Chattahoochee, Florida's investment in capital assets for its governmental and business type activities as of September 30, 2018, amounts to \$8,094,751 (net of accumulated depreciation). This investment in capital assets includes land, buildings and system, improvements, machinery and equipment, park facilities and roads.

Additional information on the City of Chattahoochee, Florida's capital assets can be found in Note II. C. on pages 29-30 of this report.

**Long-term debt** - At the end of the current fiscal year, the City of Chattahoochee, Florida had debt outstanding of \$1,607,604.

#### City of Chattahoochee, Florida Management's Discussion and Analysis September 30, 2018

Additional information on the City of Chattahoochee, Florida's long-term debt can be found in note II.E on pages 31 - 34 of this report.

#### **Economic Factors and Next Year's Budgets and Rates**

Changes in state budgets and legislation make financial forecasting difficult; however, past
performances and trends, expected growth, and expected tax revenue projections, as well as
anticipated operational and capital expenditures, are all factors in determining next year's budget.

All of these factors were considered in preparing the City of Chattahoochee, Florida's budget for the 2019 fiscal year.

#### **Requests for Information**

This financial report is designed to provide a general overview of the City of Chattahoochee, Florida's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Ms. Wendy Doyal, City Clerk, P.O. Box 188, Chattahoochee, Florida 32324.

#### I. Summary of Significant Accounting Policies:

#### A. Reporting entity

City of Chattahoochee, Florida (the "City") is a municipal corporation operating under the councilmanager form of government and provides the following services: public safety, transportation, sanitation, culture and recreation, and general administration services. Other public utility services include electric, gas, water, and sewer.

Chattahoochee Main Street, Inc. (Organization) is operated by a separate nonprofit corporation. The Organization was approved in 2014 as a participant in the Florida Main Street Program. No City officials serve on the board and the organization is not fiscally dependent on the City. Furthermore, while the Organization is a tax exempt organization and the economic resources are almost entirely for the benefit of the City constituents, the City does not have the ability to otherwise access or control the resources received by the Organization. As such, the Organization is not considered a component unit of the City.

#### B. Description of government wide financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. *Governmental activities*, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from *business- type activities*, which rely to a significant extent on fees and charges to external customers for support.

#### C. Basis of presentation - government-wide financial statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds, while business-type activities incorporate data from the government's enterprise funds. Separate financial statements are provided for governmental funds and proprietary funds.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

#### D. Basis of presentation – fund financial statements

The fund financial statements provide information about the government's funds. Separate statements for each fund category-governmental and proprietary – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

The City reports the following major governmental fund:

The *general fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

#### I. Summary of Significant Accounting Policies: (Continued)

#### **D.** Basis of presentation – fund financial statements (Continued)

The City reports the following major proprietary fund:

The *enterprise* – *utility fund* accounts for the activities of the government's electric distribution operations, gas distribution operations, water collection operations, and sanitation operations.

Additionally, the City reports the following fiduciary funds:

The Firefighters' Pension Plan Trust Fund accounts for the assets, contributions, and benefit payments to plan members.

The Rosedale Agency Fund accounts for the collection of water utility charges for service and the remittance of these funds collected for the Rosedale Water Association, Inc., a Florida not-for-profit corporation, that owns and operates a water distribution system within the unincorporated area of Gadsden County, Florida, contiguous with the City.

During the course of operations the City has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

#### E. Measurement focus and basis of accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources measurement* focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

#### I. <u>Summary of Significant Accounting Policies:</u> (Continued)

#### E. Measurement focus and basis of accounting (Continued)

The governmental fund financial statements are reported using the *current financial resources* measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due.

General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, sales taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of yearend). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of yearend). All other revenue items are considered to be measurable and available only when cash is received by the government.

The proprietary funds are reported using the *economic resources measurement focus* and the *accrual basis of accounting*.

#### F. Budgetary information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the general fund.

The appropriated budget is prepared by fund, function, and department. The City's department heads may make transfers of appropriations within a department. Transfers of appropriations between departments require the approval of the council. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the fund level.

Appropriations in all budgeted funds lapse at the end of the fiscal year even if they have related encumbrances. Encumbrances are commitments related to unperformed (executory) contracts for goods or services (i.e., purchase orders, contracts, and commitments). Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. While all appropriations and encumbrances lapse at year end, valid outstanding encumbrances (those for which performance under the executory contract is expected in the next year) are re-appropriated and become part of the subsequent year's budget.

#### I. Summary of Significant Accounting Policies: (Continued)

#### G. Assets, deferred outflows, liabilities, deferred inflows, and net position/fund balance

#### 1. Deposits

The City's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

State statutes authorize the City to invest in direct obligations of the U.S. Treasury, Local Government Surplus Funds Trust Fund, or any intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperation Act of 1969, SEC registered money market funds with the highest credit quality rating, and savings and CD accounts in state-certified public depositories.

#### 2. Capital assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. For financial reporting purposes, capital assets are defined by the government as assets with an initial, individual cost of more than \$1,000 (amount not rounded) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Property, plant, and equipment of the City is depreciated using the straight line method over the following estimated useful lives:

Assets	Years
Buildings	39
Public domain infrastructure	30 - 50
System infrastructure	7 - 50
Vehicles and other equipment	3 - 10
Office equipment	5
Computer equipment	5

#### 3. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

#### I. Summary of Significant Accounting Policies: (Continued)

### G. Assets, deferred outflows, liabilities, deferred inflows, and net position/fund balance (Continued)

#### 4. Long-term Obligations

In the government-wide financial statements, and for proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position.

#### 5. Net position flow assumption

Sometimes the City will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the City's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

#### 6. Fund balance flow assumptions

Sometimes the City will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the City's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

#### 7. Fund balance policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The government itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the City's highest level of decision-making authority. The City council is the highest level of decision making authority for the City that can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

#### I. Summary of Significant Accounting Policies: (Continued)

### G. Assets, deferred outflows, liabilities, deferred inflows, and net position/fund balance (Continued)

#### 7. Fund balance policies (Continued)

Amounts in the assigned fund balance classification are intended to be used by the City for specific purposes but do not meet the criteria to be classified as committed. The City Council may assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment

#### 8. Deferred outflows/inflows of resources

In addition to assets and liabilities, the statement of financial position will, if required, report a separate section for deferred outflows of resources and deferred inflows of resources, respectfully. These separate financial statement elements, deferred outflows/inflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow/inflow of resources (expense/expenditure or revenue) until then. Currently, the only item in this category consisted of deferred amounts related to pension, as discussed further in Note (III b).

#### 9. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Florida Retirement System (FRS) and additions to/deductions from FRS's fiduciary net position have been determined on the same basis as they are reported by FRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### 10. Certificates of deposit

Certificates of deposit are held locally in commercial banks with maturity dates greater than three months of date acquired by the City.

#### H. Revenues and expenditures/expenses

#### 1. Program revenues

Amounts reported as *program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions (including special assessments) that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

#### I. <u>Summary of Significant Accounting Policies</u>: (Continued)

#### H. Revenues and expenditures/expenses (Continued)

#### 2. Property taxes

Property taxes are billed and collected for the City by the County Tax Collector according to Florida Statute under the following calendar:

Lien Date:

Levy Date:

October 1

Due Date:

November 1

Delinquency Date:

April 1, of the following year

#### 3. Compensated absences

It is the City's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. All vacation and partial sick pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

#### 4. Proprietary funds operating and nonoperating revenues and expenses

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the water fund, sewer fund and sanitation fund are charges to customers for sales and services. The water fund, sewer fund and sanitation fund also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as *nonoperating* revenues and expenses.

#### II. Detailed Notes on All Funds:

#### A. Deposits and Investments in Certificates of Deposit

Custodial credit risk—deposits. In the case of deposits, this is the risk that in the event of a bank failure, the City's deposits may not be returned. The bank balances are covered by Federal depository insurance or by collateral held by the City's custodial bank which is pledged to a state trust fund that provides security for amounts held in excess of FDIC coverage in accordance with the Florida Security for Deposits Act Chapter 280, Florida Statutes.

The Florida Security for Public Deposits Act established guidelines for qualification and participation by banks and savings associations, procedures for the administration of the collateral requirements and characteristics of eligible collateral.

#### II. <u>Detailed Notes on All Funds</u>: (Continued)

#### B. Receivables

Receivables as of year-end, including the applicable allowances for uncollectible accounts, are as follows:

	 General	Utility	 Total
Accounts receivable	\$ 15,201	\$ 705,155	\$ 720,356
Grants receivable	114,044	17,657	131,701
Due from other government	66,929	-	66,929
Gross receivables	 196,174	 722,812	918,986
Less: Allowance for uncollectible	-	24,584	24,584
Net total receivables	\$ 196,174	\$ 698,228	\$ 894,402

#### C. Capital assets

Capital asset activity for the year ended September 30, 2018 was as follows:

	Beginning Balance	Increases	Decreases	Ending Balance
Governmental activities:				
Capital assets, not being depreciated:				
Land	\$ 632,537	\$ -	\$ -	\$ 632,537
Total capital assets, not being depreciated	632,537			632,537

Capital assets, net	\$ 4,545,259	\$ 174,321	\$ (28,501)	\$ 4,691,079

Depreciation and amortization expense was charged to functions/programs as follows:

Governmental activities:	
General government	\$ 7,070
Public safety	32,722
Transportation	105,866
Culture and recreation	37,251
Total	\$ 182,909
Business-type activities:	
Electric	\$ 80,080
Gas	20,577
Sewer	140,412
Water	7,267
Total	\$ 248,336

#### II. <u>Detailed Notes on All Funds:</u> (Continued)

#### D. Transfers to/from other Funds

The composition of interfund transfers as of September 30, 2018, is as follows:

Transfers are used to move revenues between funds to reflect operating activities of the fund with the primary government:

	<u></u>	Transfers In		ansfers out
General Fund	\$	1,575,076	\$	-
Utility Fund		-		1,575,076
Total	\$	1,575,076	\$	1,575,076

The interfund amounts were used to cover deficits in cash balances due to timing of cash collection.

As of September 30, 2018, Interfund balances consisted of:

	Due From Other Funds		Due To Other Funds		
Governmental funds					
General fund	\$	-	\$	154,969	
Proprietary funds					
Utility Fund		154,969			
Total	\$	154,969	\$	154,969	

#### E. Long-term debt

#### Governmental-type activities:

Notes payable consisted of the following at September 30, 2018:

#### Note payable

\$1,200,000 SunTrust loan, payable in annual installments of \$93,455, through September 1, 2026, plus interest at 4.65%, collateralized by net revenues.

Less current amount

\$ 620,669
64,966
\$ 555,703

#### II. <u>Detailed Notes on All Funds:</u> (Continued)

#### E. Long-term debt (Continued)

Debt service requirements to maturity are as follows:

Year Ending September 30,	P	rincipal	1	nterest
2019	\$	64,966	\$	28,488
2020		67,987		25,467
2021		71,148		22,306
2022		74,457		18,998
2023		77,919		15,535
2024 - 2026		264,192		24,186
	\$	620,669	\$	134,980

#### Capital lease obligation

At September 30, 2018, the City had an outstanding capital lease for equipment with an interest rate of 3.41%. The total cost of the leased equipment was \$135,000 and total accumulated depreciation in the governmental activities of the Statement of Net Position was \$23,625. Future lease payments, together with the present value of the minimum lease payments, are summarized in the following tabulation:

Year ending September 30,	_	
2019	\$	89,100
Total		89,100
Less: amount representing interest		(5,984)
Present value of net minimum lease		
payments	\$	83,116

#### **Business-type activities:**

#### Revenue bonds

The City also issues bonds where the City pledges income derived from the acquired or constructed assets to pay debt service. Amounts outstanding at the end of the current fiscal year related to these issues in prior years totaled \$896,000. For the year ended September 30, 2018, the City did not maintain a sinking fund as required by the bond covenants.

#### II. Detailed Notes on All Funds: (Continued)

#### E. Long-term debt (Continued)

Water and sewer revenue bonds outstanding at September 30, 2018 are comprised of the following:

\$1,077,000 2005 Revenue Bond, payable in annual installments through September 1, 2044, plus interest at 4.25%, collateralized by net revenues of the sewer system.

Less current amount

20,000
\$ 876,000

Debt service requirements to maturity are as follows:

Year Ending September 30,	<u>P</u>	rincipal	]	Interest
2019	\$	20,000	\$	38,080
2020		20,000		37,230
2021		21,000		36,380
2022		22,000		35,488
2023		23,000		34,553
2024 - 2028		130,000		157,251
2029 - 2033		162,000		127,034
2034 - 2038		198,000		89,718
2039 - 2043		245,000		43,776
2044		55,000		2,338
	\$	896,000	\$	601,848

#### Note payable

State Revolving Loan, payable in semi-annual installments of \$23,650, through May 15, 2020, plus interest at 1.54%, collateralized by net revenues of the sewer system.

Less current amount 44,746 \$ 46,189

\$

90,935

Debt service requirements to maturity are as follows:

Year Ending September 30,	P	rincipal	Ir	nterest
2019	\$	44,746	\$	2,555
2020		46,189		1,111
	\$	90,935	\$	3,666

#### II. <u>Detailed Notes on All Funds:</u> (Continued)

#### E. Long-term debt (Continued)

#### Changes in long-term liabilities

Long-term liability activity for the year ended September 30, 2018, was as follows:

		Beginning Balance	A	Additions Rec		Reductions		Reductions		Reductions		Reductions		Reductions		Reductions		Ending Balance		ne within

#### F. Line of Credit

At September 30, 2018, the City had a \$500,000 unsecured line of credit with the bank to be drawn upon as needed. As of September 30, 2018, the balance outstanding on the line of credit was \$161,893. \$78,949 was allocated to the governmental activities and \$82,944 was allocated to the business-type activities. The interest rate is a variable rate beginning at 3.0%. The line of credit is due on demand, but if no demand the line of credit matures on January 10, 2019.

#### III. Other Information:

#### A. Contingent Liabilities

**Grant Programs**—Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the Federal and State governments. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the City expects amounts, if any, to be immaterial.

#### III. Other Information: (Continued)

#### **B. FRS Pension Plan**

#### Plan Description and Administration

The City participates in the Florida Retirement System (FRS), a multiple-employer, cost sharing defined public employee retirement system which covers all of the City's full-time employees. The System is a noncontributory retirement plan, administered by the State of Florida, Department of Administration, Division of Retirement to provide retirement and survivor benefits to participating public employees. Provisions relating to the FRS are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and FRS Rules, Chapter 60S, Florida Administrative Code; wherein eligibility, contributions, and benefits are defined and described in detail. The FRS is a single retirement system administered by the Department of Management Services, Division of Retirement, and consists of two cost-sharing, multiple-employer retirement plans and other nonintegrated programs. These include a defined-benefit pension plan (Plan), with a Deferred Retirement Option Program (DROP), and a defined-contribution plan, referred to as the FRS Investment Plan (Investment Plan).

In addition, all regular employees of the entity are eligible to enroll as members of the Retiree Health Insurance Subsidy (HIS) Program. The HIS is a cost-sharing, multiple-employer defined benefit pension plan established and administered in accordance with section 112.363, Florida Statutes. The benefit is a monthly payment to assist retirees of the state-administered retirement systems in paying their health insurance costs. For the fiscal year ended September 30, 2018, eligible retirees and beneficiaries received a monthly HIS payment equal to the number of years of service credited at retirement multiplied by \$5. The minimum payment is \$30 and the maximum payment is \$150 per month, pursuant to section 112.363, Florida Statutes. To be eligible to receive a HIS benefit, a retiree under one of the state-administered retirement systems must provide proof of eligible health insurance coverage, which can include Medicare.

#### Benefits Provided and Employees Covered

Employees enrolled in the Plan prior to July 1, 2011, vest at six years of creditable service and employees enrolled in the Plan on or after July 1, 2011, vest at eight years of creditable service. All vested members, enrolled prior to July 1, 2011, are eligible for normal retirement benefits at age 62 or at any age after 30 years of service. All members enrolled in the Plan on or after July 1, 2011, once vested, are eligible for normal retirement benefits at age 65 or any time after 33 years of creditable service. Members of both Plans may include up to four years of credit for military service toward creditable service. The Plan also includes an early retirement provision; however, there is a benefit reduction for each year a member retires before his or her normal retirement date. The Plan provides retirement, disability, death benefits, and annual cost-of-living adjustments. Benefits under the Plan are computed on the basis of age and/or years of service, average final compensation, and service credit. Credit for each year of service is expressed as a percentage of the average final compensation. For members initially enrolled before July 1, 2011, the average final compensation is the average of the five highest fiscal years' earnings; for members initially enrolled on or after July 1, 2011, the average final compensation is the average of the eight highest fiscal years' earnings. The total percentage value of the benefit received is determined by calculating the total value of all service, which is based on the retirement plan and/or class to which the member belonged when the service credit was earned.

#### **III.** Other Information: (Continued)

#### B. FRS Pension Plan (Continued)

#### Benefits Provided and Employees Covered (Continued)

DROP, subject to provisions of Section 121.091, Florida Statutes, permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payments while continuing employment with an FRS employer. An employee may participate in DROP for a period not to exceed 60 months after electing to participate, except that certain instructional personnel may participate for up to 96 months. During the period of DROP participation, deferred monthly benefits are held in the FRS Trust Fund and accrue interest.

Employees may elect to participate in the Investment Plan in lieu of the FRS defined-benefit plan. Employer and employee contributions are defined by law, but the ultimate benefit depends in part on the performance of investment funds. The Investment Plan is funded by employer and employee contributions that are based on salary and membership class (Regular, DROP, etc.). Contributions are directed to individual member accounts, and the individual members allocate contributions and account balances among various approved investment choices. Employees in the Investment Plan vest at one year of service.

#### Financial Statements

Financial statements and other supplementary information of the FRS are included in the State's Comprehensive Annual Financial Report, which is available from the Florida Department of Financial Services, Bureau of Financial Reporting Statewide Financial Reporting Section by mail at 200 E. Gaines Street, Tallahassee, Florida 32399-0364; by telephone at (850) 413-5511; or at the Department's Web site (www.myfloridacfo.com). An annual report on the FRS, which includes its financial statements, required supplementary information, actuarial report, and other relevant information, is available from:

Florida Department of Management Services Division of Retirement, Research and Education Services P.O. Box 9000 Tallahassee, FL 32315-9000 850-488-5706 or toll free at 877-377-1737

#### **Contributions**

Employers may participate in certain classes of FRS membership. The employee contribution rate for eligible employees are 3.0%. Each class has descriptions and employer contribution rates in effect during the fiscal year ended September 30, 2018, as follows (contribution rates are in agreement with the actuarially determined rates):

#### **III.** Other Information: (Continued)

#### B. FRS Pension Plan (Continued)

**Contributions** (Continued)

FRS Membership Plan & Class	Through June 30, 2018	After June 30, 2018
Regular Class	7.92%	8.26%
Senior Management	22.71%	24.06%
Special Risk	23.27%	24.50%
DROP – Applicable to members above	13.26%	14.03%

Current-year employer HIS contributions were made at a rate of 1.66% of covered payroll.

Actual contributions made for City employees participating in FRS and HIS for the year ended September 30, 2018 were as follows:

	 2018
Contributions – FRS	\$ 137,978
Contributions – HIS	24,443
Employee Contributions – FRS	44,175

Net Pension Liability, Pension Expense, and Deferred Outflows and Inflows of Resources Related to Pensions

	Net Pension			
Plan		Liability		
FRS	\$	1,458,271		
HIS		477,059		
Total	\$	1,935,330		

The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer proportion of the net pension liability was based on a projection of the organization's long-term share of contributions to the pension plan relative to the projected contributions of all participating governmental entities, as actuarially determined. At September 30, 2018 and September 30, 2017, the organization's proportionate share of the FRS and HIS net pension liabilities were as follows:

Plan	2018	2017
FRS	0.004841453%	0.004680612%
HIS	0.004507308%	0.004476736%

#### III. Other Information: (Continued)

#### B. FRS Pension Plan (Continued)

Net Pension Liability, Pension Expense, and Deferred Outflows and Inflows of Resources Related to Pensions (Continued)

For the plan year ended September 30, 2018, pension expense was recognized related to the FRS and HIS plans as follows:

FRS	\$ 222,946
HIS	27,819
Total	\$ 250,765

Deferred outflows/inflows related to pensions:

At September 30, 2018, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	FRS				HIS			
	D Ou Re		Iı	Deferred of ows of esources	Ou	eferred tflows of esources	I	Deferred nflows of Resources
Differences between expected and actual experience Changes of assumptions Net different between projected and actual investment earnings	\$	123,537 476,492 -	\$	(4,484) - (112,669)	\$	7,304 53,055 288	\$	(811) (50,439)
Change in proportionate share Contributions subsequent to measurement date		32,506 38,230		(91,909)		9,579 6,084		(36,057)
•	\$	670,765	\$	(209,062)	\$	76,310	\$	(87,307)

The above amounts for deferred outflows of resources for contributions related to pensions resulting from City contributions subsequent to the measurement date and will be recognized as a reduction of the net pension liability in the year ended September 30, 2018. Other amounts reported as deferred outflows and deferred inflows of resources related to pensions being amortized for a period of greater than one year will be recognized in pension expense in succeeding years as follows:

2019	\$ 170,347
2020	120,971
2021	11,043
2022	81,404
2023	51,936
Thereafter	 (29,309)
Total	\$ 406,392

#### **III.** Other Information: (Continued)

#### B. FRS Pension Plan (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

Actuarial assumptions:

The Actuarial assumptions for both defined benefit plans are reviewed annually by the Florida Retirement System Actuarial Assumptions Conference. The FRS has a valuation performed annually. The HIS Program has a valuation performed biennially that is updated for GASB reporting in the year a valuation is not performed. The most recent experience study for the FRS was completed in 2014 for the period July 1, 2008, through June 30, 2013. Because HIS is funded on a pay-as-you-go basis, no experience study has been completed.

The total pension liability for each of the defined benefit plans was determined by an actuarial valuation, using the entry age normal actuarial cost method. Inflation increases for both plans is assumed at 2.60%. Payroll growth, including inflation, for both plans is assumed at 3.25%. Both the discount rate and the long-term expected rate of return used for FRS investments is 7.00%. This rate decreased from the prior year rate, which was 7.10%. The plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return. Because HIS Program uses a pay-as-you-go funding structure, a municipal bond rate of 3.87% was used to determine was used to determine the total pension for the program. This rate increased from the prior year rate, which was 3.58%. Mortality assumptions for both plans were based on the Generational RP-2000 with Projection Scale BB tables.

#### Long-term expected rate of return:

To develop an analytical basis for the selection of the long-term expected rate of return assumption, in October 2018, the FRS Actuarial Assumptions conference reviewed long-term assumptions developed by both Milliman's capital market assumptions team and by a capital market assumptions team from Aon Hewitt Investment Consulting, which consults to the Florida State Board of Administration. The table below shows Milliman's assumptions for each of the asset classes in which the plan was invested at that time based on the long-term target asset allocation. The allocation policy's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes an adjustment for the inflation assumption. These assumptions are not based on historical returns, but instead are based on a forward-looking capital market economic model.

#### III. Other Information: (Continued)

#### **B.** FRS Pension Plan (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

Asset Class	Target Allocation	Long-Term Arithmetic Expected Rate of Return
Cash	1.0%	2.9%
Fixed income	18.0%	4.4%
Global equities	54.0%	7.6%
Real estate	11.0%	6.6%
Private equity	10.0%	10.7%
Strategic investments	6.0%	6.0%
Total	100.0%	

Sensitivity of the net pension liability to changes in the discount rate:

The following presents the proportionate shares of the FRS and HIS net pension liability of the City calculated using the current discount rates, as well as what the City's net pension liability would be if it were calculated using a discount rate that is 1% lower or 1% higher than the current rate:

1	Plan	Current Discount Rate	NPL with 1% Decrease		at Current count Rate	_	NPL with % Increase
-	FRS	7.00%	\$	2,661,405	\$ 1,458,271	\$	458,996
	HIS	3.87%		543,342	477,059		421,808

#### C. Other Postemployment Benefits

The City provides other postemployment benefits (OPEB) to its employees by providing retirement healthcare benefits. The City contributes, along with its employees and retirees, to the Capital Health Plan (Plan) to provide certain healthcare benefits to active and retired employees and their dependents. The Plan is a single-employer plan administered by Capital Health Plan, Inc. and the City. The benefits, benefit levels, employee contributions and employer contributions are governed by the Plan.

Post-employment health care benefits are offered to retired employees and their dependents. All employees are eligible to receive benefits upon their retirement. All health care benefits are provided through the City's Capital Health Plan employee health care plan. The benefit levels are the same as those afforded to active employees. Benefits include general inpatient and outpatient medical services; mental and substance abuse care; dental care; and prescriptions. Upon retirees reaching 65 years of age, Medicare becomes the primary insurer and the City's plan will not pay benefits already paid by Medicare.

#### III. Other Information: (Continued)

#### C. Other Postemployment Benefits (Continued)

The City does not contribute any portion of the premiums for current retired employees. All premiums are paid entirely by the plan participant. The use of age-adjusted premiums results in an implicit rate subsidy funded by the City since the healthcare premiums for retirees and active employees are identical.

The state of Florida's Division of Retirement contributes each month \$5 for each year of service, up to \$150 per month. The City's Capital Health Plan contract establishes the individual premium to be paid by the retired employees. The state of Florida prohibits the City from separately rating retired employees and active employees. As a result, the City's premium charges to retired employees can be no more than the premium cost applicable to active employees.

The City has not implemented the provisions of GASB Statement No. 75, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions. Statement No. 45 establishes standards for the measurement, recognition, and display of OPEB expense/expenditures and related liabilities, note disclosures, and required supplementary information.

#### D. Municipal Firefighter's Pension Trust Fund (MFPTF)

The Municipal Firefighters' Retirement Trust Fund is a single-employer defined benefit pension plan that provides pensions for qualified firefighters pursuant to Florida Statute, Chapter 175. The City adopted a "chapter plan" that provides benefits based on years of service. The benefits are provided through a State contribution from collections of a Fire Insurance Premium Tax. The City is required to participate only when the State contributions are insufficient to fund the plan.

The City has not implemented the provisions of GASB Statement No. 67 Financial Reporting for Pension Plans and Statement No. 68 Accounting and Financial Reporting for Pensions. Statements No. 67 and 68 establishes standards for the measurement, recognition, and display of pension expense/expenditures and related liabilities, note disclosures, and required supplementary information.

#### E. Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the City carries commercial insurance.

#### F. Commitments

The City of Chattahoochee, Florida is in the process of construction activities for a new public water system. The total estimated cost of these activities is expected to exceed \$600,000. Construction activities are being funded through a grant from the State of Florida, Department of Environmental Protection. As of September 30, 2018, the City has incurred \$22,000 in costs related to this activity.

In October 2016, the City entered an agreement for refuse collection services through September 30, 2021. During the fiscal year ended September 30, 2018, the City incurred approximately \$265,000 in costs related to this agreement. Future annual costs may vary slightly based on weight of refuse collected.

#### III. Other Information: (Continued)

#### F. Commitments (Continued)

In April 2017, the City entered into an agreement for software services. The agreement will terminate seven years from the January 1, 2018, effective date. Annual subscription costs related to the agreement are \$27,888.

#### **G. Future Accounting Pronouncements**

In November 2016, the GASB issued Statement No. 83, Certain Retirement Obligations, which addresses accounting and financial reporting for certain asset retirement obligations, which are legally enforceable liabilities associated with the retirement of a tangible capital asset. The provisions in GASB Statement No. 83 are effective for periods beginning after June 15, 2018. The City is currently evaluating the effect that Statement No. 88 will have on its financial statements.

In January 2017, the GASB issued Statement No. 84, *Fiduciary Activities*, which is intended to improve guidance regarding the identification and reporting of fiduciary activities. The provisions in GASB Statement No. 84 are effective for periods beginning after December 15, 2018. The City is currently evaluating the effect that Statement No. 84 will have on its financial statements.

In June 2017, the GASB issued Statement No. 87, *Leases*, which aims to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. The provisions in GASB Statement No. 87 are effective for periods beginning after December 15, 2019. The City is currently evaluating the effect that Statement No. 87 will have on its financial statements.

#### **H. Subsequent Events**

Subsequent to year end, on October 10, 2018, Hurricane Michael impacted the gulf coast of Florida, including the City of Chattahoochee. The City suffered significant damage and required extensive repair. At this time, management is still determining the costs associated with repair and replacement of the damaged items, most of which are expected to be covered by insurance. The City took out a \$7 million loan after year end due to the damage caused to the City's electric utility.

# CITY OF CHATTAHOOCHEE, FLORIDA REQUIRED SUPPLEMENTARY INFORMATION SEPTEMBER 30, 2018

#### CITY OF CHATTAHOOCHEE, FLORIDA SCHEDULE OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES– BUDGET AND ACTUAL – GENERAL FUND

#### CITY OF CHATTAHOOCHEE, FLORIDA NOTE TO SCHEDULE OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES – BUDGET AND ACTUAL FOR THE YEAR ENDED SEPTEMBER 30, 2018

#### A. Budgetary Information:

An annual budget is adopted on a basis consistent with accounting principles generally accepted in the United States of America for the general fund. All annual appropriations lapse at fiscal year-end.

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. Prior to October 1, the City Council prepares a proposed operating budget for the fiscal year commencing the following October 1. The operating budget includes proposed expenditures and the means of financing them.
- 2. Public hearings are conducted to obtain taxpayer comments.
- 3. Prior to October 1, the budget is legally enacted through passage of an ordinance.
- 4. Revisions that alter the total expenditures of any fund must be approved by the City Council.
- 5. Formal budgetary integration is employed as a management control device during the year for the General Fund. The legal level of budgetary control is the fund level.
- 6. The budget for the General Fund is adopted on a basis consistent with accounting principles generally accepted in the United States of America.

#### **CONTRIBUTIONS**

# INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Honorable Mayor and Members of City Council, City of Chattahoochee, Florida:

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities and each major fund of the City as of and for the year ended September 30, 2018, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated July 9, 2019.

# Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings, we identified certain deficiencies in internal control that we consider to be material weaknesses.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying schedule of findings as Finding 2018-001 and Finding 2018-002 to be material weaknesses.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance that is required to be reported under *Government Auditing Standards*: 2018-003.

#### City of Chattahoochee, Florida's Response to Findings

The City's response to the findings identified in our audit is described in the accompanying corrective action plan. The City's response was not subjected to the auditing procedures applied in the audit of the financial statements and accordingly, we express no opinion on it.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

James Meore : Co., P.L.

Tallahassee, Florida July 9, 2019

# CITY OF CHATTAHOOCHEE, FLORIDA SCHEDULE OF FINDINGS SEPTEMBER 30, 2018

#### Finding 2018-001: Audit Adjustments

Criteria: Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP").

**Condition:** Adjustments were required to be made to the accounting records as part of the audit process to be in accordance with GAAP.

Cause: Management relied on auditors to propose entries that had not been recorded at the time of the audit.

Effect: Incorrect recording of accounting records could lead to a material misstatement on the financial statements.

**Recommendation:** We recommend that the process for identifying accounting transaction be reviewed and updated.

#### Finding 2018-002: Segregation of Duties

**Criteria:** Internal controls are designed to safeguard assets and help prevent or detect losses from employee dishonesty or error. A fundamental concept in a good system of internal control is the segregation of duties. The basic premise is that no one employee should have access to both physical assets and the related accounting records or to all phases of a transaction.

**Condition**: The size of the City's accounting staff precludes certain internal controls that would be preferred. We believe that certain practices could be implemented to improve existing internal control without impairing efficiency.

**Cause**: The size of the City's accounting and administrative staff precludes certain internal controls that would be preferred – including the following:

- Deputy Clerk prepares the bank reconciliation, processes the accounts payable, prints checks, and has access to accounting system. We recommend the City implement a segregated process involving 2 persons for the processes above or a timely review by a third-party.
- Journal entries made in the accounting system are not being reviewed and approved. We recommend that an individual other than the person preparing and making the entry review and approve it as it was posted in the system. This review can be evidenced by signing off on the entry. A copy of the entry should be filed along with the supporting documentation.

**Effect:** Errors or material misstatements in the financial statements presented to the board by management may exist and not be detected.

**Recommendation:** We recommend management develop compensating controls.

# CITY OF CHATTAHOOCHEE, FLORIDA SCHEDULE OF FINDINGS SEPTEMBER 30, 2018

(Continued)

# Finding 2018-003: Bond Series 2005, Sinking Fund Compliance

**Condition and Criteria:** The City is required by the bond covenant to deposit the debt service payment into the sinking fund monthly.

Cause: The City did not deposit the debt service payment into the sinking fund.

**Effect:** The City was not in compliance with the bond covenant.

**Recommendation:** We recommend the City deposit the required payment according to the requirements in the bond covenants.

# INDEPENDENT AUDITORS' MANAGEMENT LETTER REQUIRED BY CHAPTER 10.550, RULES OF THE STATE OF FLORIDA, OFFICE OF THE AUDITOR GENERAL

To the Honorable Mayor and Members of City Council, City of Chattahoochee, Florida:

#### **Report on the Financial Statements**

We have audited the financial statements of the City of Chattahoochee, Florida, as of and for the fiscal year ended September 30, 2018, and have issued our report thereon dated July 9, 2019.

#### **Auditors' Responsibility**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States and Chapter 10.550, Rules of the Auditor General.

#### **Other Reporting Requirements**

We have issued our Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with Government Auditing Standards; and Independent Accountant's Report on an examination conducted in accordance with AICPA Professional Standards, Section 601, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports and schedule, which are dated July 9, 2019, should be considered in conjunction with this management letter.

#### **Prior Audit Findings**

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. Corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report except as noted in the table below.

Tabulation of Uncorrected Audit Findings			
	Current Year	2016-17 FY	2015-16 FY
Description	Finding #	Finding #	Finding #
Audit adjustments	2018-001	2017-001	2016-001
Segregation of duties	2018-002	2017-002	2016-002

#### Official Title and Legal Authority

Section 10.554(1)(i)4., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. There are no component units of City of Chattahoochee, Florida to be disclosed as required by accounting principles generally accepted in the United States of America.

#### **Financial Condition and Management**

Section 10.554(1)(i)5.a. and 10.556(7), Rules of the Auditor General, require us to apply appropriate procedures and communicate the results of our determination as to whether or not the local governmental entity has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and identification of the specific condition(s) met. In connection with our audit, we determined that the City of Chattahoochee, Florida did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.554(1)(i)5.b. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures for the City of Chattahoochee, Florida. It is management's responsibility to monitor the City of Chattahoochee, Florida's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

#### **Additional Matters**

Section 10.554(1)(i)3., Rules of the Auditor General, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with our audit, we did not have any such findings.

#### City of Chattahoochee, Florida's Response to Findings

The City of Chattahoochee, Florida's response to the finding identified in our audit in the following corrective action plan. The City of Chattahoochee, Florida's response was not subjected to the auditing process applied to the audit of the financial statements and, accordingly, we express no opinion on it.

# **Purpose of this Letter**

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, the Council Members, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.

James Maore : Co., P.L.

Tallahassee, Florida July 9, 2019

#### INDEPENDENT ACCOUNTANTS' EXAMINATION REPORT

To the Honorable Mayor and Members of City Council, City of Chattahoochee, Florida:

We have examined the compliance of the City of Chattahoochee, Florida (the City) with Section 218.415, Florida Statutes, *Local Government Investment Policies*, for the year ended September 30, 2018. Management is responsible for City of Chattahoochee, Florida's compliance with those requirements. Our responsibility is to express an opinion on the City's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the City complied with the aforementioned statutes, for the year ended September 30, 2018, in all material respects. An examination involves performing procedures to obtain evidence about the City's compliance with those requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of risks of material noncompliance with those requirements, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

In our opinion, the City complied, in all material respects, with the aforementioned requirements for the year ended September 30, 2018.

James Maore : Co., P.L.

Tallahassee, Florida July 9, 2019

# Corrective action plan

# Corrective action plan
