INDEPENDENT AUDITORS' REPORT

The Honorable Mayor and
Town Council
Town of Howey-in-the-Hills, Florida

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Howey-in-the-Hills, Florida (the "Town") as of and for the year ended September 30, 2018, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town as of September 30, 2018, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison schedules, and pension trend information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town's basic financial statements. The supplementary information listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated September 25, 2019 on our consideration of the Town's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town's internal control over financial reporting or on compliance. That report is an

integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town's internal control over financial reporting and compliance.

Cam, Riggs & Ingram, L.L.C.

Gainesville, Florida
September 25, 2019

Management's Discussion and Analysis

This discussion and analysis of the Town of Howey-in-the-Hill's financial performance provides an overview of the Town's financial activities for the fiscal year ended September 30, 2018. Please read it in conjunction with the Town's financial statements, which follow this section.

OVERVIEW OF THE BASIC FINANCIAL STATEMENTS

This annual report contains government-wide financial statements that report on the Town's activities as a whole and fund financial statements that report on the Town's individual funds.

Government-wide Financial Statements

The first financial statement is the Statement of Net Position. This statement includes all of the Town's assets, liabilities, and deferred outflows/inflows using the accrual basis of accounting. Accrual accounting is similar to the accounting used by most private-sector companies. All of the current year revenues and expenses are recorded, regardless of when cash is received or paid. Net position – the difference between assets, liabilities, and deferred outflows/inflows – can be used to measure the Town's financial position.

The second financial statement is the Statement of Activities. This statement is also shown using the accrual basis of accounting. It shows the increases and decreases in net position during the fiscal year. Over time, the increases or decreases in net position are useful indicators of whether the Town's financial health is improving or deteriorating. However, other non-financial factors, such as road conditions or changes in the tax base, must also be considered when assessing the overall health of the Town.

In these statements, the Town's activities are divided as follows:

- *Governmental activities* – Most of the Town's basic services are reported here, including administration, police services, road and bridge, and maintenance. Taxes and charges for services finance most of these activities.
- *Business-type activities* – These activities are financed in whole or in part by fees charged to external parties for goods or services. The activities of the water, sewer, refuse systems and stormwater services are reported as business-type activities.

Fund Financial Statements

Following the government-wide financial statements are the fund financial statements. They provide more detailed information about the Town's funds.

- *Governmental funds* – The Town's governmental funds are the General Fund, Taylor Memorial Cemetery, Law Enforcement Trust, Police Automation, Special Law Enforcement, Tree, and Impact Fees funds. These funds are accounted for using modified accrual accounting. Modified accrual accounting focuses on available cash and other financial assets that can readily be converted to cash. This provides a shorter-term view of the governmental fund's financial position. A reconciliation is provided with these statements, which helps to explain the difference between the fund financial statements and the government-wide financial statements.
- *Proprietary funds* – The Town's proprietary funds are the Utility and Stormwater Funds. Proprietary funds are reported using the accrual basis of accounting and, accordingly, there is a correlation between the amounts reported in the fund financial statements and the amounts reported in the government-wide financial statements.

Town of Howey-in-the-Hills, Florida

Management's Discussion and Analysis

The following tables present condensed, government-wide data about net position and changes in net position.

Management's Discussion and Analysis

OVERALL FINANCIAL POSITION AND RESULTS OF OPERATIONS

Governmental Activities

The governmental activities generated \$563,691 in program revenues and \$1,352,163 of general revenues, and incurred \$1,612,145 of program expenses. This resulted in a \$303,709 increase in net position.

Business-type Activities

Program revenues of the business-type activities were \$850,947 and general revenues were \$37,958 compared to expenses of \$686,763. This resulted in a \$202,142 increase in net position.

THE TOWN'S INDIVIDUAL FUNDS

General Fund

The General Fund's fund balance decreased by \$7,749, from a restated beginning balance of \$611,370 to \$603,621.

Impact Feed Fund

The Impact Fees Fund's fund balance increased by \$202,041, from \$371,919 to \$573,960.

Utility

The Utility Fund's net position increased by \$207,182, from \$1,686,479 to \$1,893,661.

BUDGETARY HIGHLIGHTS

There were no significant budget adjustments made during the year. In the general fund, total revenues exceeded budget by approximately \$5,600, and total expenditure budget exceeded the final actual amount by approximately \$160,000.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The Town had capital asset acquisitions during the year primarily for system improvements. Please refer to a note to the accompanying financial statements entitled *Capital Asset Activity* for more detailed information about the Town's capital asset activity.

Debt Administration

The Town incurred no new debt during the year. Please refer to a note to the accompanying financial statements entitled *Long-term Obligations* for more detailed information about the Town's long-term debt activity.

ECONOMIC FACTORS

We are not currently aware of any conditions that are expected to have a significant effect on the Town's financial position or results of operations.

See accompanying notes.

**Reconciliation of the Statement of Revenues, Expenditures and Changes in
Fund Balances to the Statement of Activities
Year ended September 30, 2018**

Net change in fund balances	\$	194,546
------------------------------------	----	---------

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is depreciated over their estimated useful lives.

Acquisitions of capital assets		200,480
Current year depreciation expense		(82,040)

The repayment of debt principal is an expenditure in the governmental funds but has no effect on net position of governmental activities.

Principal payments		37,160
--------------------	--	--------

The accounting for pension costs differs between governmental funds and governmental activities.

Change in net pension liability		63,611
Change in deferred outflows related to pensions		(75,165)
Change in deferred inflows related to pensions		(23,811)

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.

Compensated absences		(11,072)
----------------------	--	----------

Change in net position of governmental activities	\$	303,709
--	-----------	----------------

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Town of Howey-in-the-Hills, Florida (the “Town”), conform to generally accepted accounting principles as applicable to governments. The following is a summary of the more significant policies:

Reporting Entity

The Town is a Florida political subdivision established under the Laws of Florida, Chapter 10675(1925), with an elected mayor and four elected members of the Council.

As required by generally accepted accounting principles, the accompanying financial statements present the Town as a primary government. Component units are entities for which a primary government is considered to be financially accountable, or entities that would be misleading to exclude.

The Town is financially accountable for the organizations that make up its legal entity. It is also financially accountable for legally separate organizations if its officials appoint a voting majority of an organization’s governing body and either it is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on, the primary government. The Town may also be financially accountable for governmental organizations that are fiscally dependent on it.

Blended component units, although legally separate entities, are in substance part of the Town’s operations and, accordingly, data from these units would be combined with data of the Town. There are no blended component units included in the Town’s reporting entity.

Discretely presented component units, on the other hand, would be reported in separate columns to emphasize that they are legally separate from the Town. There are no discretely presented component units included in the Town’s financial reporting entity.

The Town did not participate in any joint ventures during the 2017 – 2018 fiscal year.

Government-wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the Town. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees charged to external parties.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function. *Program revenues* include: charges for services that are directly related to a given function; and grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other revenues not properly included among program revenues are reported instead as *general revenues*.

Notes to Financial Statements

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fund Financial Statements

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements, but all nonmajor funds are aggregated and displayed in a single column. The governmental fund financial statements include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for the governmental funds.

The Town reports the following major governmental funds:

General Fund – the primary operating fund, used to account for and report all activities not accounted for and reported in another fund.

Impact Fees Fund – to account for Police, Water, and Parks impact fees.

The Town reports the following major enterprise fund:

Utility Fund – to account for the activities of the Town's water and refuse system.

Additionally, the Town reports the following fiduciary fund:

Pension Trust Fund – to account for activities of the Town's pension plan.

Measurement Focus and Basis of Accounting

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of the timing of related cash flows.

Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental funds are accounted for using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they become measurable and available as net current assets. For this purpose, the Town considers revenues to be available if they are collected within 60 days of the end of the current fiscal year. Certain intergovernmental revenues constitute the most significant sources of revenue considered susceptible to accrual. In governmental funds, expenditures are generally recognized when the related liability is incurred. However, debt service expenditures, and expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Cash and Cash Equivalents

For purpose of the Statement of Cash Flows, the Town considers all highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents.

Notes to Financial Statements

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investments

The Town invests surplus funds in an external investment pool, the Local Government Surplus Funds Trust Fund (the "State Pool"). The State Pool is administered by the Florida State Board of Administration ("SBA"), who provides regulatory oversight.

The State Pool has adopted operating procedures consistent with the requirements of GASB Statement No.79 and, accordingly, the Town's investment in the State Pool is reported at amortized cost.

Pension Investments

Investments of the pension plan are stated at fair value.

Accounts Receivable

Receivables are stated at net realizable value, reduced by an allowance for uncollectible accounts of \$20,053 in the Utility Fund.

Inventory

Inventory of the Utility Fund is valued at cost under the first-in, first-out method.

Capital Assets

Capital assets are recorded at historical cost or estimated historical cost, except for contributed assets which are recorded at fair value at the date of contribution. The Town uses a capitalization threshold of \$1,000 for all classes of capital assets.

In accordance with GASB Statement No. 34, as amended, the Town has elected to report general infrastructure prospectively, effective October 1, 2003.

Depreciation of capital assets is provided using the straight-line method over the estimated useful lives of the assets, which range as follows:

	<u>Years</u>
Buildings	10 – 50
Improvements	15 – 50
Furniture, equipment and vehicles	3 – 15

Notes to Financial Statements

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

For its business-type activities, the Town's policy is to capitalize construction period interest costs on projects funded specifically through debt financing. No interest costs were capitalized during 2018.

Deferred Outflows/Inflows of Resources – Pension Related

A *deferred outflow of resources* is a consumption of net assets that is applicable to a future reporting period.

A *deferred inflow of resources* is an acquisition of net assets that is applicable to a future reporting period.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Police Officers' Retirement Plan and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by the plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Compensated Absences

The Town's policy is to allow limited vesting of employee vacation pay and compensatory leave balances. A liability for accrued compensated absences of employees of the governmental funds has been accrued. Since this liability will not be liquidated with expendable available financial resources, the liability has not been reported in the governmental funds. A liability for compensated absences is accrued when incurred in the government-wide and proprietary fund financial statements.

Property Taxes

The Lake County Tax Collector bills and collects property taxes for the Town.

Details of the Town's tax calendar are presented below:

Lien date	January 1
Levy date	October 1
Discount period	November - February
No discount period	March
Delinquent date	April 1

Notes to Financial Statements

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Operating Revenues and Expenses

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with an enterprise fund's principal ongoing operations. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Restricted Net Position

In the accompanying statements of net position, *restricted net position* is subject to restriction beyond the Town's control. The restriction is either externally imposed (for instance, by creditors, grantors, contributors, or laws/regulations of other governments) or is imposed by law through constitutional provisions or enabling legislation.

The statement of net position reports \$573,960 of net position restricted by enabling legislation relating to impact fees.

When both restricted and unrestricted resources are available for use, it is the Town's policy to use restricted resources first, then unrestricted resources as they are needed.

Fund Balance

The Town follows the provisions of GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, to classify fund balances for governmental funds into specifically defined classifications. The classifications comprise a hierarchy based primarily on the extent to which the Town is bound to honor constraints on the specific purposes for which amounts in the funds can be spent.

The fund balance classifications specified in GASB Statement No. 54 are as follows:

Nonspendable Fund Balance – Nonspendable fund balances are amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

Restricted Fund Balance – Restricted fund balances are restricted when constraints placed on the use of resources are either: (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

Committed Fund Balance – Committed fund balances are amounts that can only be used for specific purposes as a result of constraints imposed by formal action of the Town's highest level of decision-making authority, which is an ordinance of the Town Council. Committed amounts cannot be used for any other purpose unless the Town Council removes those constraints by taking the same type of action.

Notes to Financial Statements**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

Assigned Fund Balance – Assigned fund balances are amounts that are constrained by the Town's intent to be used for specific purposes, but are neither restricted nor committed. Intent is expressed by (a) the Town Council or (b) a body or official to which the Town Council has delegated the authority to assign amounts to be used for specific purposes.

Unassigned Fund Balance – Unassigned fund balance is the residual classification for the General Fund.

The Town's policy is to expend resources in the following order: restricted, committed, assigned, and unassigned.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make various estimates. Actual results could differ from those estimates.

NOTE 2 – DEPOSITS AND INVESTMENTS***Deposits***

The Town's deposits are with qualified public depositories pursuant to Chapter 280, Florida Statutes, and are entirely insured or collateralized pursuant to the Florida Public Deposits Act.

Investments – Other than Pension

The Town invests excess public funds pursuant to the guidelines established in Section 218.415, Florida Statutes. Accordingly, the Town is authorized to invest excess public funds in the following instruments: the Local Government Trust Fund; Securities and Exchange Commission registered money market funds with the highest credit quality rating; savings accounts and certificates of deposits in qualified public depositories; and direct obligations of the U.S. Treasury.

The Town's investment in the State Pool exposes it to credit risk. The Town does not have a formal investment policy relating to that risk, which is described as the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The State Pool is rated by Standard & Poors and has a rating at September 30, 2018, of AAAm.

Notes to Financial Statements

NOTE 2 – DEPOSITS AND INVESTMENTS (CONTINUED)

Pension Investments

The Town is a participating employer in the Florida Municipal Pension Trust Fund (FMPTF), which is sponsored by the Florida League of Cities, Inc. The Town's pension plan assets are invested by the FMPTF through the Florida Municipal Investment Trust (FMIvT), which is an external investment pool. The fair value of the position in the pool is equal to the value of the Town's beneficial interest in the pool's portfolio. The pool is not registered with the Securities and Exchange Commission.

The Town's beneficial interest in the FMIvT portfolio is summarized below:

Cash and Money Market	\$ 6,482
FMIvT Broad Market High Quality Bond Portfolio	234,975
FMIvT Core Plus	278,729
FMIvT Large Cap Diversified Value Portfolio	529,909
FMIvT Diversified Small to Mid Cap Equity Portfolio	194,462
FMIvT International Equity Portfolio	230,113
FMIvT Core Real Estate Portfolio	145,846
<hr/>	
Total	\$ 1,620,516

Fair Value Measurements

Since the Town's pension investments are in an external investment pool, its investments are not required to be categorized within the fair value hierarchy.

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The Town's investment policies limit investments in bonds to those rated in the top four quality grades by a major rating service. The Bond Portfolio is rated by Fitch and has a rating at September 30, 2018, of AAf/S4.

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. The Town's investment policies do not provide specific restrictions as to maturity length of investments. The weighted average maturity of the Bond Portfolio is 6.40 years.

Foreign Currency Risk

The Town's pension funds contain investments in foreign stock mutual funds; however, all of the investments are denominated in U.S. Dollars and are not exposed to foreign currency risk.

Town of Howey-in-the-Hills, Florida

Notes to Financial Statements

NOTE 3 – RESTATEMENT

The Town restated its September 30, 2017 beginning net position and fund balances as follows:

Fund balance/net position	General Fund	Cemetery Fund	Governmental Activities
Beginning of year, as previously reported	\$ 616,078	\$ 4,134	\$ 2,726,693
Restatement of cash due to prior year errors	(4,708)	(4,134)	(8,842)

Notes to Financial Statements

NOTE 5 – LONG-TERM OBLIGATIONS (CONTINUED)

Revenue Refunding Note

\$285,000 Revenue Refunding Note, Series 2013. Interest and principal are payable monthly in the amount of \$2,997. The interest rate is 4.75%.

State Revolving Loan

Payable in semi-annual installments of \$81,270 on April 15 and October 15, including interest ranging from 2.12 - 2.71%. The debt's covenants require pledged revenues adequate to cover the payments due in any fiscal year. The Revenue Refunding Note, Series 2013 is senior to this obligation.

Aggregate Maturities

Year ending September 30,	Principal	Interest	Principal	Interest
2019	\$ 28,372	\$ 7,592	\$ 98,833	\$ 63,707
2020	29,749	6,215	102,345	60,195
2021	31,193	4,771	105,981	56,559
2022	32,707	3,257	109,747	52,793

2024-2028	16,412	190	631,747	180,953
2029-2033	-	-	612,532	60,456
Totals	\$ 172,727	\$ 23,695	\$ 1,774,831	\$ 523,557

Pledged Revenues

The Town has pledged future water customer revenues, net of specified operating expenses, to repay approximately \$220,000 of the water revenue refunding note and \$2,000,000 of the State Revolving Fund Loan. The debt was used to construct and improve the Town's water system and is payable through 2033. The total principal and interest remaining to be paid on the debt secured by pledged revenues is approximately \$2,500,000. For 2018, the Town paid approximately \$198,500 of principal and interest on the water revenue refunding note and State Revolving Fund loan. Pledged net revenues for the water system were approximately \$187,000.

Debt Covenants

For the year ended September 30, 2018, the pledged revenues were sufficient to meet the covenant requirement to exceed 1.15 times the State Revolving Fund Loan debt service due in the fiscal year.

Notes to Financial Statements

NOTE 6 – PENSION PLAN

Plan Description

The Town sponsors a public employee retirement system (the “System”) administered by the Town of Howey-in-the-Hills, Pension Board of Trustees. The System administers the Police Officers’ Retirement Plan (the “Plan”) an employee contributory single-employer defined benefit pension plan. Members of the Plan include all sworn police officers of the Town. The Plan’s basis of accounting is accrual; benefits and refunds of the Plan are recognized when due and payable in accordance with the terms of the Plan.

The Town does not issue separate financial statements for the Plan.

Benefits Provided

Officers attaining the age of 55 who have completed 10 or more years of creditable service or attaining the age of 52 who have completed 25 years of creditable service are entitled to monthly benefits of 3 percent of their average final compensation times years of credited service. The plan permits early retirement at the completion of 10 years of contributing service and attaining the age of 50. Active officers who retire disabled with disability that occurs in the line of duty and have 10 years of credited and contributing service shall receive the greater of 42 percent of average financial compensation or the accrued benefit actuarially reduced. Disability benefits are paid for 10 years certain or life or until recovery from disability. If an active officer dies before retirement eligibility, his or her beneficiary receives a refund of the officer’s contributions to the Plan. If the officer dies prior to retirement but has at least 10 years of contributing service, his or her beneficiary is entitled to either early or normal retirement benefits.

Employees Covered by Benefit Terms

At September 30, 2018, the following employees were covered by the benefit terms:

Active employees	6
Inactive employees receiving benefits	4
Total	10

Contributions

The contribution requirements of plan members and the Town are established and approved by the Town Council in accordance with applicable State statute. In addition, State contributions are also made to the Plan on behalf of the Town.

For the year ended September 30, 2018, the active employee contribution rate was 5.0% of pensionable earnings. The Town’s contribution rate, actuarially determined, was 30.59% of pensionable earnings, and the State’s contribution rate was 6.03%.

Notes to Financial Statements

NOTE 6 – PENSION PLAN (CONTINUED)

Net Pension Liability

The Town's net pension liability was measured as of September 30, 2018, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of October 1, 2016, rolled forward to September 30, 2018.

Actuarial Assumptions

The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.92%
Salary increases	4.00%
Cost-of-living increases	None assumed
Investment rate of return	7.00%, net of pension plan investment expense, including inflation

Mortality rates were based on sex-distinct rates set forth in the RP-2000 Blue Collar Mortality Table with full generational improvements in mortality using Scale BB.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Investment category	Target Allocation	Expected Long-term Real Return
Core bonds	16%	0.58%
Multi-sector	24%	1.08%
U.S. large cap equity	39%	6.08%
U.S. small cap equity	11%	6.83%
Non-U.S. equity	10%	6.83%
Total or weighted arithmetic average	100%	4.08%

Notes to Financial Statements

NOTE 6 – PENSION PLAN (CONTINUED)

Discount Rate

The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and the Town and State contributions will be made at rates equal to the difference between actuarially determined contribution rates and the employee rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Investment Rate of Return

For the year ended September 30, 2018, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 7.64%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Changes in the Net Pension Liability

	Total Pension Liability	Plan Fiduciary Net Position	Net Pension Liability
Balances as of October 1, 2017	\$ 1,616,818	\$ (1,469,969)	\$ 146,849
Changes for the year:			
Service cost	61,873	-	61,873
Expected interest growth	114,769	(104,617)	10,152
Unexpected investment income	-	(6,046)	(6,046)
Demographic experience	(24,948)	-	(24,948)
Employer contributions	-	(97,179)	(97,179)
Employee contributions	-	(14,544)	(14,544)
Benefit payments and refunds	(54,670)	54,670	-
Administrative expenses	-	7,081	7,081
Balances as of September 30, 2018	\$ 1,713,842	\$ (1,630,604)	\$ 83,238

Notes to Financial Statements

NOTE 6 – PENSION PLAN (CONTINUED)

Sensitivity Analysis

The following tables demonstrate the sensitivity of the net pension liability to changes in the discount rate. The sensitivity analysis shows the impact to the Town's net pension liability if the discount rate was 1.00% higher or 1.00% lower than the current discount rate.

	1% Decrease (6.00%)	Current Discount Rate (7.00%)	1% Increase (8.00%)
Net pension liability (asset)	\$ 278,513	\$ 83,238	\$ (81,526)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended September 30, 2018, the Town recognized pension expense of \$152,434.

At September 30, 2018, the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between projected and actual earnings on pension plan investments	\$ -	\$ 38,671
Differences between expected and actual experience	167,538	45,095
Changes to assumptions	198,725	-
Total	\$ 366,263	\$ 83,766

Amounts reported as deferred inflows and outflows of resources related to pensions will be recognized in pension expense as follows:

Year ending September 30,	
2019	\$ 67,981
2020	46,686
2021	49,508
2022	66,002
2023	52,320
Total	\$ 282,497

Notes to Financial Statements

NOTE 6 – PENSION PLAN (CONTINUED)

The Town also offers a 457 plan that is available to employees who do not qualify for the Police Officers' Retirement Plan. During the year ended September 30, 2018, contributions of approximately \$5,000 were made to the 457 plan.

NOTE 7 – RISK MANAGEMENT

The Town is exposed to various risks of loss related to general liability, workers' compensation, public liability, law enforcement liability, health benefits, property damage, and errors and omissions. To manage its risks, the Town purchases insurance coverage. The Town's settled claims have not exceeded coverage in any of the past three fiscal years.

NOTE 8 – CONTINGENCIES

The Town is sometimes a party to lawsuits and claims arising out of the normal conduct of its activities. While the results of lawsuits or other proceedings against the Town cannot be predicted with certainty, management does not expect that these matters will have a material adverse effect on the financial condition of the Town.

NOTE 9 – FUTURE ACCOUNTING PRONOUNCEMENTS

The Governmental Accounting Standards Board has issued statements that will become effective in subsequent years. The statements address:

- FY 2019 – Asset retirement obligations (GASB Statement No. 83) and debt disclosures (GASB Statement No. 88).
- FY 2020 – Fiduciary activities (GASB Statement No. 84) and majority equity interests (GASB Statement No. 90).
- FY 2021 – Leases (GASB Statement No. 87) and accounting for interest during construction periods (GASB Statement No. 89).
- FY 2022 – Conduit debt obligations (GASB Statement No. 91).

The Town is currently evaluating the effects these statements will have on its future financial statements.

Notes to Budgetary Comparison Schedules

The budget was prepared on a basis that did not differ materially from generally accepted accounting principles.

The Town's procedures in establishing the budgetary data reflected in the financial statements are generally as follows:

- In July, the Lake County Property Appraiser notifies the Town as to its tentative property tax assessed valuation, from which the Town can estimate the property tax resources available and the limitations thereon.
- During August, budget workshops are held to determine proposed expenditures and the means of financing them. The Council then adopts the proposed property tax millage rate and sets the date, time and place of the first public hearing.
- A public hearing on the tentative budget is held. Within fifteen (15) days of the first public hearing, the Town advertises its intention to finalize its budget and millage rate, and a date, time, and place for a public hearing. The second public hearing is convened several days after the final advertisement, at which time the final budget and millage are adopted.
- Appropriations lapse at year-end.
- The fund is the legal level of control.

MANAGEMENT LETTER

The Honorable Mayor and Town Council
Town of Howey-in-the-Hills, Florida

Report on the Financial Statements

We have audited the financial statements of the Town of Howey-in-the-Hills, Florida (the "Town") as of and for the fiscal year ended September 30, 2018, and have issued our report thereon dated September 25, 2019. That report should be considered in conjunction with this management letter.

Auditors' Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and Chapter 10.550, Rules of the Auditor General, which govern the conduct of local governmental entity audits performed in the State of Florida and require that certain items be addressed in this letter.

Other Reporting Requirements

We have issued our Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards*; and Independent Accountants' Report on an examination conducted in accordance with the *AICPA Professional Standards*, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports, which are dated September 25, 2019, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding financial audit report. If the audit findings in the preceding audit report are uncorrected, we are required to identify those findings that were also included in the second preceding audit report. These requirements of the Rules of the Auditor General are addressed in the Schedule of Findings that accompanies this letter. Prior year finding 2017-002 was corrected, while prior year finding 2017-001 was repeated as 2018-001.

Financial Condition

Sections 10.554(1)(i)5.a. and 10.556(7), Rules of the Auditor General, require us to apply appropriate procedures and communicate the results of our determination as to whether or not the Town has met one or more of the conditions described in Section 218.503(1), *Florida Statutes*, and to identify the specific conditions met. In connection with our audit, we determined that the Town did not meet any of the conditions described in Section 218.503(1), *Florida Statutes*.

Pursuant to Sections 10.554(1)(i)5.b. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures for the Town. It is management's responsibility to monitor the Town's

financial condition, and our financial condition assessment was based in part on representations made by management and review of financial information provided by same. The application of such procedures did not reveal evidence of "deteriorating financial condition" as that term is defined in Rule 10.554.

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations required to be included herein.

Additional Matters

Our audit did not reveal any other matters that we are required to include in this management letter.

Purpose of this Letter

The purpose of this management letter is solely to comply with the requirements of Chapter 10.550, Rules of the Auditor General. Accordingly, this communication is not suitable for any purpose. Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, the Mayor and Town Council, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.

We wish to take this opportunity to thank you and your staff for the cooperation and courtesies extended to us during the course of the audit. Please let us know if you have any questions or comments concerning this letter, our accompanying reports, or other matters.

INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE WITH SECTION 218.415, FLORIDA STATUTES

The Honorable Mayor and Town Council
Town of Howey-in-the-Hills, Florida

We have examined the Town of Howey in the Hills' (the "Town") compliance with the specified requirements of Section 218.415, Florida Statutes, *Local Government Investment Policies*, during the year ended September 30, 2018. Management of the Town is responsible for the Town's compliance with the specified requirements. Our responsibility is to express an opinion on the Town's compliance with the specified requirements based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the Town complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether the Town complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Our examination does not provide a legal determination on the Town's compliance with the specified requirements.

In our opinion, the Town complied, in all material respects, with the aforementioned requirements for the year ended September 30, 2018.

This report is intended solely for the information and use of management and the State of Florida Auditor General and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Honorable Mayor and Town Council
Town of Howey-in-the-Hills, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Howey-in-the-Hills, Florida (the "Town"), as of and for the year ended September 30, 2018, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements and have issued our report thereon dated September 25, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying Schedule of Findings as items 2018-001 to 2018-005 that we consider to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect

on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying Schedule of Findings as items 2018-006 and 2018-007.

Town's Response to Findings

The Town's response to the findings identified in our audit is described in its accompanying letter of response. The Town's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Cam, Riggs & Ingram, L.L.C.

Gainesville, Florida
September 25, 2019

Town of Howey-in-the-Hills, Florida

Schedule of Findings

2018-001 (Similar to previously reported items 2017-001 and 2016-001.)

Criteria – Section 218.33, *Florida Statutes*, requires that local government entities follow uniform accounting practices and procedures including the use of proper accounting and fiscal management, which includes establishing and maintaining effective internal controls to help ensure that appropriate goals and objectives are met and ensuring that management and financial information is reliable and properly reported.

Condition – As part of the audit process, we proposed multiple material adjustments to the City's financial statements.

Cause – The Town's finance team is small and does not have the capacity to perform this role.

Effect – The results reported by the Town could be non-compliant with Generally Accepted Accounting Standards if corrections were not made by the auditor.

Recommendation – The Town should consider and evaluate the costs and benefits of improving internal controls relative to the financial reporting process.

2018-002 **Criteria** – Section 218.33, *Florida Statutes*, requires that local government entities follow uniform accounting practices and procedures including the use of proper accounting and fiscal management, which includes establishing and maintaining effective internal controls to help ensure that appropriate goals and objectives are met and ensuring that management and financial information is reliable and properly reported.

Condition – During the audit, we determined that the December 2018 utility billings were not posted to the general ledger, revenue was not recorded in the proper period, and faulty meters caused adjustments to several billings. This month was outside our audit period.

Cause – The Town did not have the necessary controls in place to detect material errors in the utility billing process.

Effect – The amount of revenue and accounts receivable recorded for the utility was materially understated, requiring audit adjustments to correct.

Recommendation – The Town should change its current procedures to add a layer of review at every step of the utility billing and reconciliation process. In addition, a comparative analysis should be incorporated to the monthly close process to identify any significant swings in the overall water usage or billing.

Schedule of Findings

- 2018-003 **Criteria** – Section 218.33, *Florida Statutes*, requires that local government entities follow uniform accounting practices and procedures including the use of proper accounting and fiscal management, which includes establishing and maintaining effective internal controls to help ensure that appropriate goals and objectives are met and ensuring that management and financial information is reliable and properly reported.
- Condition** – During the audit we noted that bank reconciliations were not completed correctly and that there were material unexplained variances and invalid reconciling items.
- Cause** – The Town has limited staff in the finance role.
- Effect** – Without the audit adjustments, cash was materially overstated. Lack of accurate and timely bank reconciliations could result in delay or inability to identify misappropriation or errors.
- Recommendation** – The Town should implement a review process of bank reconciliations by a knowledgeable individual in a timely manner. All reconciling items should be clearly understood and any variances should be investigated and corrected promptly.
-
- 2018-004 **Criteria** – Section 218.33, *Florida Statutes*, requires that local government entities follow uniform accounting practices and procedures including the use of proper accounting and fiscal management, which includes establishing and maintaining effective internal controls to help ensure that appropriate goals and objectives are met and ensuring that management and financial information is reliable and properly reported.
- Condition** – The Town is not reconciling its utility deposits balance to a subsidiary ledger.
- Cause** – The Town has limited finance staff.
- Effect** – Errors or misappropriations may go undetected.
- Recommendation** – The Town should implement a monthly reconciliation of the deposit balance on the trial balance to the subsidiary ledger.

Schedule of Findings

- 2018-005 **Criteria** – Section 218.33, *Florida Statutes*, requires that local government entities follow uniform accounting practices and procedures including the use of proper accounting and fiscal management, which includes establishing and maintaining effective internal controls to help ensure that appropriate goals and objectives are met and ensuring that management and financial information is reliable and properly reported.
- Condition** – The Town uses external hard drives to back up its electronic records, including the accounting system.
- Cause** – The Town has limited finance resources.
- Effect** – The lack of offsite backup increases the risk of data corruption or loss, especially in the event of a natural disaster to City Hall.
- Recommendation** – The Town should implement an off-site backup of all critical files.
- 2018-006 **Criteria** – Section 280.17, *Florida Statutes*, requires that local government entities file an annual report listing all investments in qualified public depositories in order to maintain full coverage of bank balances in the event of a bank failure.
- Condition** – During the audit, we noted that the Town is not filing the required qualified public depository report.
- Cause** – The Town has limited finance staff and those staff do not receive sufficient training on compliance requirements.
- Effect** – The Town's bank balances may not be insured beyond the FDIC levels. The Town is not in compliance with this section of the Florida Statutes.
- Recommendation** – The Town should immediately file the required report. The Town should ensure its finance staff receive regular training on compliance.
- 2018-007 **Criteria** – Section 717.117, *Florida Statutes*, requires that the Town submit a report before May 1 each year, listing all unclaimed property which is defined by statute as any deposits held by a utility that remains unclaimed for more than one year after termination of services and as any intangible property, including uncashed checks, which has not been claimed within one year after the payment date. The total amount of unclaimed property each year must be remitted to the State by that date and should be removed from the bank reconciliation at that point. The Statutes also require the Town to perform due diligence, including sending a written notice to the apparent owner's last known address for all unclaimed property valued at \$50 or more, prior to remittance to the state.

Schedule of Findings

Condition – During the audit, we noted eighteen stale checks on the bank reconciliation, totaling \$1,065, which are required to be remitted to the state. Of these, five exceed the threshold requiring due diligence letters to be sent to the apparent owner. We noted that the Town was not in compliance with Florida Statute 717 related to unclaimed property.

Cause – The Town has limited finance staff and those staff do not receive sufficient training on compliance requirements.

Effect – The Town is not in compliance with Chapter 717, *Florida Statutes*. The Town could be subject to a penalty of up to \$500 for each year that there is a failure to timely report.

Recommendation – The Town should immediately perform the due diligence and file the required report and remit the unclaimed funds to the State. The Town should ensure its finance staff receive regular training on compliance.

September 25, 2019

2018-001 (Similar to previously reported items 2017-001 and 2016-001.)

Criteria – Section 218.33, *Florida Statutes*, requires that local government entities follow uniform accounting practices and procedures including the use of proper accounting and fiscal management, which includes establishing and maintaining effective internal controls to help ensure that appropriate goals and objectives are met and ensuring that management and financial information is reliable and properly reported.

Condition – As part of the audit process, we proposed multiple material adjustments to the City's financial statements.

Cause – The Town's finance team is small and does not have the capacity to perform this role.

Effect – The results reported by the Town could be non-compliant with Generally Accepted Accounting Standards if corrections were not made by the auditor.

Recommendation – The Town should consider and evaluate the costs and benefits of improving internal controls relative to the financial reporting process.

Response–The Town of Howey in the Hills will continue to evaluate the cost of additional staff.

2018-002 **Criteria** – Section 218.33, *Florida Statutes*, requires that local government entities follow uniform accounting practices and procedures including the use of proper accounting and fiscal management, which includes establishing and maintaining effective internal controls to help ensure that appropriate goals and objectives are met and ensuring that management and financial information is reliable and properly reported.

Condition – During the audit, we determined that the December 2018 utility billings were not posted to the general ledger, revenue was not recorded in the proper period, and faulty meters caused adjustments to several billings. This month was outside our audit period.

Cause – The Town did not have the necessary controls in place to detect material errors in the utility billing process.

Effect – The amount of revenue and accounts receivable recorded for the utility was materially understated, requiring audit adjustments to correct.

Town of Howey-in-the-Hills

Recommendation – The Town should change its current procedures to add a layer of review at every step of the utility billing and reconciliation process. In addition, a comparative analysis should be incorporated to the monthly close process to identify any significant swings in the overall water usage or billing.

Response–The Town implemented a procedure addressing the finding. The material error in the Utility Billing process occurred in the first month (October) of the current Fiscal Year and when staff addressed the it was corrected immediately.

2018-003

Criteria – Section 218.33, *Florida Statutes*, requires that local government entities follow uniform accounting practices and procedures including the use of proper accounting and fiscal management, which includes establishing and maintaining effective internal controls to help ensure that appropriate goals and objectives are met and ensuring that management and financial information is reliable and properly reported.

Condition – During the audit we noted that bank reconciliations were not completed correctly and that there were material unexplained variances and invalid reconciling items.

Cause – The Town has limited staff in the finance role.

Effect – Without the audit adjustments, cash was materially overstated. Lack of accurate and timely bank reconciliations could result in delay or inability to identify misappropriation or errors.

Recommendation – The Town should implement a review process of bank reconciliations by a knowledgeable individual in a timely manner. All reconciling items should be clearly understood and any variances should be investigated and corrected promptly.

Response–The Town has identified the bank reconciliation amount that needed to be adjusted. The Town implemented a procedure in March 2019 to run an additional report and have staff sign with Town Clerk’s final approval. The Town plans to supplement financial staff.

2018-004

Criteria – Section 218.33, *Florida Statutes*, requires that local government entities follow uniform accounting practices and procedures including the use of proper accounting and fiscal management, which includes establishing and maintaining effective internal controls to help ensure that appropriate goals and objectives are met and ensuring that management and financial information is reliable and properly reported.

Condition – The Town is not reconciling its utility deposits balance to a subsidiary ledger.

Cause – The Town has limited finance staff.

Effect – Errors or misappropriations may go undetected.

Recommendation – The Town should implement a monthly reconciliation of the deposit balance on the trial balance to the subsidiary ledger.

Response- The Town has added an additional step to the end of month procedure, it will be reviewed by the Town Clerk and any differences are reconciled.

2018-005

Criteria – Section 218.33, *Florida Statutes*, requires that local government entities follow uniform accounting practices and procedures including the use of proper accounting and fiscal management, which includes establishing and maintaining effective internal controls to help ensure that appropriate goals and objectives are met and ensuring that management and financial information is reliable and properly reported.

Condition – The Town uses external hard drives to back up its electronic records, including the accounting system.

Cause – The Town has limited finance resources.

Effect – The lack of offsite backup increases the risk of data corruption or loss, especially in the event of a natural disaster to City Hall.

Recommendation – The Town should implement an off-site backup of all critical files.

Response-The Town has taken subsequent action to upgrade to upgrade the computer external hard drives by adding additional offsite secure cloud hosting.

2018-006

Criteria – Section 280.17, *Florida Statutes*, requires that local government entities file an annual report listing all investments in qualified public depositories in order to maintain full coverage of bank balances in the event of a bank failure.

Condition – During the audit, we noted that the Town is not filing the required qualified public depository report.

Cause – The Town has limited finance staff and those staff do not receive sufficient training on compliance requirements.

Effect – The Town's bank balances may not be insured beyond the FDIC levels. The Town is not in compliance with this section of the Florida Statutes.

Recommendation – The Town should immediately file the required report. The Town should ensure its finance staff receive regular training on compliance.

Response-The Town will file the public depository report with the State of Florida on an annual basis. The Town Clerk will sign and file the report and confirm it is accepted by the State of Florida.

2018-007

Criteria – Section 717.117, *Florida Statutes*, requires that the Town submit a report before May 1 each year, listing all unclaimed property which is defined by statute as any deposits held by a utility that remains unclaimed for more than one year after termination of services and as any intangible property, including uncashed checks, which has not been claimed within one year after the payment date. The total amount of unclaimed property each year must be remitted to the State by that date and should be removed from the bank reconciliation at that point. The Statutes also require the Town to perform due diligence, including sending a written notice to the apparent owner's last known address for all unclaimed property valued at \$50 or more, prior to remittance to the state.

Condition – During the audit, we noted eighteen stale checks on the bank reconciliation, totaling \$1,065, which are required to be remitted to the state. Of these, five exceed the threshold requiring due diligence letters to be sent to the apparent owner. We noted that the Town was not in compliance with Florida Statute 717 related to unclaimed property.

Cause – The Town has limited finance staff and those staff do not receive sufficient training on compliance requirements.

Effect – The Town is not in compliance with Chapter 717, *Florida Statutes*. The Town could be subject to a penalty of up to \$500 for each year that there is a failure to timely report.

Recommendation – The Town should immediately perform the due diligence and file the required report and remit the unclaimed funds to the State. The Town should ensure its finance staff receive regular training on compliance.

Response–The Town will comply with Chapter 717, *Florida Statutes* and will immediately file the required report and remit the unclaimed funds to the State.

Martha MacFarlane

Mayor

Dairian Burke

Town Clerk
