INDEPENDENT AUDITORS' REPORT

The Honorable Mayor and Members of the City Council, City of Laurel Hill, Florida

Report on the Financial Statements

I have audited the accompanying financial statements of the governmental activities, and the business-type activities, of the City of Laurel Hill, Florida as of, and for the year ended, September 30, 2018, and the related notes to the financial statements, which collectively comprise the City of Laurel Hill's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express opinions on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Opinions

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, and the business-type activities, of the City of Laurel Hill, Florida, as of September 30, 2018, and the respective changes in financial position, and where applicable, cash flows thereof for the year ended in accordance with accounting principles general accepted in the United States of America.

Other Matters

Required Supplementary Information

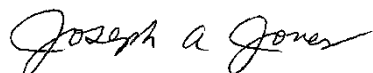

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basis financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

Other Information

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Laurel Hill's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, and statistical section, are presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, I have also issued a report dated May 9, 2019 on my consideration of the City of Laurel Hill's internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City of Laurel Hill's internal control over financial reporting on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Laurel Hill's internal control over financial reporting and compliance.

Joseph A. Jones, CPA
Crestview, Florida

CITY OF LAUREL HILL, FLORIDA
Management Discussion and Analysis
(Unaudited)

This discussion and analysis of the City of Laurel Hill's financial statements is designed to introduce the basic financial statements and provide an analytical overview of the city's financial activities for the fiscal year ended September 30, 2018. The basic financial statements are comprised of the government-wide financial statements, governmental fund financial statements, proprietary fund financial statements, and footnotes.

City Highlights

Fiscal year 2018: At the close of the fiscal year, the city had \$673,542 of cash in banks. The city's assets exceeded its liabilities by \$2,703,406. General Fund revenues were \$285,514 compared to the prior year \$268,264, and part of the increase is \$10,786 of grants revenue received from FL Department of Agriculture and the NW FL Water Management District. General Fund operating expenditures (excluding capital outlay) decreased \$2,448. General Fund capital outlay expenditures totaled \$271,099, and include Mill Side Road survey, design, and permitting \$6,565, Sunnyside Avenue street paving \$247,782, park improvements in progress \$2,550, and fire department gear \$14,202. Water and garbage revenues increased \$34,616. Water and garbage expenses increased \$10,781. The Water and garbage fund reported a net income of \$7,103, compared with prior year net loss of \$16,732.

Government-wide Financial Statements

Government-wide financial statements (statement of net position and statement of activities) are intended to assess the city's operational accountability. Operational accountability is defined as the extent to which the city government has met its operating objectives efficiently and effectively, using all resources available for the purpose, and whether it can continue to meet its objectives for the foreseeable future. Government-wide financial statements concentrate on the city as a whole and do not emphasize fund types.

The Statement of Net Position presents information on all city assets and liabilities, with the difference between the two reported as net position. The city's capital assets (property, plant, and equipment) are included in this statement and are reported net of their accumulated depreciation.

The Statement of Activities presents revenue and expense information showing how the city's net assets changed during the fiscal year. Both statements are measured and reported using the economic resources measurements focus (revenue and expense) and accrual basis of accounting (revenues recognized when earned and expense recognized when a liability is incurred).

Governmental Fund Financial Statements

The general fund is the sole governmental fund of the city. All of the city's basic services are reported in the general fund, and the focus is on how money flows into and out of this fund and the balance left at year end that is available for spending. This fund is reported using an

accounting method called modified accrual accounting which measures cash and all other financial assets that can readily be converted to cash. The general fund's statements provide a detailed short-term view of the city's general government operations and basic services it provides. This information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the city's programs.

Proprietary Fund Financial Statements

When the city charges customers for services it provides, these services are reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Position and the Statement of Activities. The city's proprietary fund (the Water Fund) is the same as the business-type activities reported in the government-wide statements but provides more detail and additional information such as cash flows.

Notes to the Financial Statements

The notes to the financial statements explain in detail some of the data contained in the preceding statements. These notes are essential to a full understanding of the data provided in the government-wide and fund financial statements.

Government-Wide Financial Analysis

The government-wide financial statements were designed so that the user could determine if the city is in better or worse financial condition from year to year.

The following is a condensed summary of net position at September 30, 2018:

	<u>Governmental</u>		<u>Business Type</u>		<u>Total</u>

Fiscal year 2018: The city's cash balances decreased \$144,818 after the city invested in \$271,099 of capital assets. Cash balances would have increased if there had been no investment in capital assets. The city has cash of \$673,542, consisting of unrestricted cash of 518,059 (\$225,424 in General Fund and \$292,635 in Water Fund), and restricted cash of \$155,483 (\$26,887 in General Fund and \$128,596 in Water Fund). The unrestricted cash represents amounts that are available for spending at the city's discretion, such as paying down debt, equipment purchases, or street paving. Restricted Water Fund cash balances include impact fees, water customer deposits, and debt service reserve funds. Restricted General funds include fire impact funds, and Evaluation and Appraisal Report (EAR) funds. Current assets, including cash, decreased \$133,255. Current assets would have increased if there had been no investment in capital assets. The General Fund has no long term debt. The Water Fund long term debt consists of the U.S. Department of Agriculture (USDA) water system loan. The USDA loan principal balance as of fiscal year end was \$329,800.

The following schedule reports the revenues, expenses, and changes in net assets for the City, for fiscal year ending September 30, 2018 and September 30, 2017:

CITY OF LAUREL HILL, FLORIDA
 RECONCILIATION OF STATEMENT OF REVENUES, EXPENDITURES AND
 CHANGES IN NET POSITION OF GOVERNMENTAL FUND TO THE
 STATEMENT OF ACTIVITIES
 FOR FISCAL YEAR ENDED SEPTEMBER 30, 2018

Excess Revenues over Expenditures \$ (175,780)

Amounts reported for governmental activities in
 the statement of activities are different because:

Governmental fund reports capital outlay as expenditures
 while governmental activities reports depreciation expense
 to allocate capital outlay expenditures over the life of the assets:

Plus Capital assets purchases capitalized	271,099
Minus Depreciation expense	(65,547)
Subtotal	205,552

Repayment of debt principal is an expenditure in the
 governmental fund, but the repayment reduces long-
 term liabilities in the Statement of Net Position:

Note principal payments	-

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Laurel Hill was created by an act of Legislature of the State of Florida on June 3, 1953. The City's financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements. Governments are also required to follow the pronouncements of the Financial Accounting Standards Board (FASB) that do not conflict with or contradict GASB pronouncements. The more significant accounting policies used by the city are discussed below:

The City's financial statements include:

A Management Discussion and Analysis (MD&A) section providing an analysis of the city's overall financial position and results of operations.

Financial statements prepared using full accrual accounting for all city activities.

Reporting Entity

In evaluating how to define the government, for financial reporting purposes, management has considered all potential component units. No potential component units were identified.

BASIC FINANCIAL STATEMENTS: GOVERNMENTAL –WIDE STATEMENTS

The city's basic financial statements include both government-wide (reporting the city as a whole) and fund financial statements (reporting the city's general and proprietary funds). Both government-wide and fund financial statements categorize primary activities as either governmental or business-type. The city's fire protection, parks and recreation, street, and general administration services are classified as governmental activities.

In the government-wide Statement of Net Position, both governmental and business-type activities are presented on a consolidated basis, and are reported in full accrual, economic resource measurement basis, which recognizes all long-term assets and receivables as well as long-term debt obligations. The city's net position is reported in three parts: invested in capital assets, net of related debt; restricted net assets; and unrestricted net assets. The city first uses restricted resources to finance qualifying activities. The government-wide Statement of Position reports as restricted net assets those resources that are restricted by legislation.

The government-wide Statement of Activities reports both gross and net cost of each of the city's functions and business-type activities: general government, fire, etc. The functions are also supported by general government revenues (Ad valorem Taxes, State Revenue Sharing, etc.) The Statement of Activities reduces gross expenses (including depreciation) by related program revenues and capital grants. Program revenues must be directly associated with the function or business-type activity. The capital grants reflect capital-specific grants.

The net costs (by function or business-type activity) are normally covered by general revenue (Electric Franchise or Utility taxes, Communication Services taxes, etc.). The city does not allocate indirect costs. This government-wide focus is more on the sustainability of the city as an entity and the change in the city's net assets resulting from current year activities.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

BASIC FINANCIAL STATEMENTS:

Fund Financial Statements:

Government Funds are used to account for the general government activities. Governmental fund types use the flow of current financial measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they are “measurable and available”). “Measurable” means the amount of the transaction can be determined and “available” means collectible within the current period or soon enough thereafter to pay liabilities of the current period. The city considers all revenues available if they are collected within 60 days after year end. Expenditures are recorded when the related fund liability is incurred, except for un-matured interest on long-term debt which is recognized when due, and certain compensated absences and claims and judgments which are recognized when the obligations are expected to be liquidated with expendable available financial resources. Ad valorem taxes, reimbursements for incidents and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current period. All other revenue items are considered to be measurable and available only when cash is received by the city. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met.

The financial transactions of the city are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that includes assets, liabilities, reserves, fund equity, revenues and expenditures/expenses. The focus of the governmental funds’ measurement is upon determination of financial position and changes in financial position, rather than upon net income.

General Fund: The general fund is the general operating fund of the city. It is used to account for all financial resources except those required to be accounted for in another fund.

Proprietary Funds are used to account for the enterprise activities such as selling water or garbage utility services to customers. The focus of proprietary funds is upon determination of operating income, changes in net position, financial position, and cash flows. The generally accepted accounting principles applicable are those similar to private sector business. Proprietary funds distinguish operating revenues and expenses from non-operating revenues and expenses. Operating revenues and expenses result from providing and delivering services in connection with the principal ongoing operation of the fund. Operating expenses include all costs associated with providing these services, including depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses. Contributions to capital arise from contributions of resources restricted to capital acquisition and construction. The **Water Fund** is the proprietary fund of the city, and is used to account for user charges and expenses associated with providing water services and garbage collection services.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The emphasis in fund financial statements is on the major funds in either the governmental or business-type activities. The city determined that all funds met the criteria of a major fund.

Fund Balances

The following is a description of the city’s various fund balance accounts:

Non-spendable fund balance includes amounts that are not spendable form or are required to be maintained intact.

Restricted fund balance includes amounts restricted by creditor, grantors, contributors, laws, or regulations of other governments, constitutional provisions, or enabling legislation.

Committed fund balance can be used only for specific purposes as imposed by formal action of the city council. There are no committed funds at the end of this fiscal year.

Assigned fund balance includes resources that are intended to be used for specific purposes, but are neither restricted nor committed. These are resources that have been set aside for a specific purpose by the city council. There are no assigned funds as of the end of this fiscal year.

Unassigned fund balance is the residual classification for the general fund and includes amounts not contained in other classifications. Unassigned amounts are available for any purpose.

Restricted – This component of net position consists of constraints placed on net positions imposed by creditors (such as through debt covenants), reserve for repayment of water bonds, contributors, customer water deposits, impact fees, or laws or regulations of other governments, or constraints imposed by law through constitutional provisions or enabling legislation.

Unrestricted – This component of net position consists of amounts that do not meet the definition of “restricted” or “invested in capital assets, net of related debt”. Restricted resources are only used for their specific designation and with approval from the city council. Committed and Assigned funds are used for their specific designation. If the city does not have sufficient funds allocated to committed or assigned funds to cover the full cost of expenditures, then unassigned funds would be used to cover the remaining portion of the expense. In the event that expenditures exceed available restricted funds, then expenditures will be funded out of restricted funds to the extent of the restricted fund balance, and the remainder will be funded by the unrestricted fund balance. The city considers committed amounts to be reduced first, followed by assigned amounts, and then unassigned amounts when expenditures are incurred for purposes for which amounts in unrestricted fund balance classification could be used.

BASIS OF ACCOUNTING

Basis of accounting refers to the point that revenues and expenditures/expenses are recognized in the accounts and reported in financial statements. It relates to the timing of measurements made regardless of the measurement focus applied.

Accrual:

Both governmental and business-type activities in the government-wide financial statements and the proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Modified Accrual:

The governmental fund financial statements are presented on the modified accrual basis of accounting. Under modified accrual basis of accounting, revenues are recorded when susceptible to accrual, and when they are measurable and available. Measurable means the amount the transaction is known, or can reasonably be estimated. Available means collectible within the current period or with 60 days after year end. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred, as under accrual accounting. The exception to this general rule is that principal and interest on general obligations long-term debt, are recorded only when payment is due.

FINANCIAL STATEMENT AMOUNTS

Cash, Deposits, and Investments

The city is authorized to invest in financial instruments as established in Section 218.415, Florida Statutes. The city maintains deposits with “Qualified Public Depositories” as defined in Chapter 280 Florida Statutes. The city has an investment policy that places the highest priority on the safety of principal and liquidity of funds. Funds in excess of amounts needed to meet current expenses are invested in money market accounts or in certificate of deposits of banks that are insured by the Federal Deposit Insurance Corporation. Investments in money market funds are reported at fair value.

Interest Rate Risk

Section 218.415(17), Florida Statutes, limits investment maturities to provide sufficient liquidity to pay obligations as they come due. The city minimizes interest rate risk by structuring investments to mature to meet future operating cash requirements and investing primarily in short-term security such as money market accounts.

Concentration of Credit Risk

As mentioned above, the city limits investments to money market accounts or in certificate of deposits of banks that are insured by the Federal Deposit Insurance Corporation.

Custodial Credit Risk

For an investment, custodial credit risk is the risk that the city will not be able to recover the value of the investments or collateral securities that are in the possession of an outside party. The city has no formal policy for custodial risk.

Inter-fund Transfers

During the course of operations, transactions occur between individual funds for goods provided or services rendered. These transactions are classified as “Inter-fund Transfers” in the financial statements, and are listed as revenues, expenditures, or reimbursements. Inter-fund transactions that

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

are reimbursements to a fund for expenditures/expenses initially made from it, and that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund, and as reductions of expenditures/expense in the fund being reimbursed. The payroll costs for all funds are paid out of the General Fund, and the Water Fund transfers funds to the General Fund to pay for Water Fund payroll costs.

Investment in capital assets – This component of net position consists of capital assets, included restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds is not included in the calculation of invested in capital assets, net of related debt. Rather, that portion of the debt is included in the same net position component as unspent proceeds. Capital assets, which include property and equipment are reported in the government-wide financial statements but are not recorded in the governmental fund financial statements. Capital assets are defined by the city as assets with an initial/individual cost of more than \$1,000. Such assets are recorded at historical cost and estimated historical cost if purchased or constructed. Donated asset are recorded at estimated fair market value at the date of donation. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the following useful lives:

Building and improvements	30 to 50 years
Improvements other than buildings	7 to 50 years
Machinery and equipment	5 to 20 years
Infrastructure	30 years

Governmental Accounting Standards Board (GASB) statement number 34 requires the city to report and depreciate new infrastructure assets. Infrastructure assets include road, drainage systems, water systems, etc.

Long Term Obligations

In the government-wide financial statements, and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities.

Ad Valorem Tax Revenue

The Okaloosa County Property Tax Calendar Significant dates relative to ad valorem tax revenue are as follows:

- Assessment date, Lien date – January 1
- Levy date – November 1
- Due Date – November 1
- Maximum Discount – November 30
- Past Due or Delinquent date – April 1
- Tax Certificates Sold – June 1

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Budgets and and Budgetary accounting

The city adopted a formal budget for the fiscal year. A Budgetary Comparison Schedule is included in the financial statements.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, results could differ from those estimates.

NOTE B – DEPOSITS AND INVESTMENTS

The city has a written policy for deposits or investing surplus funds. Regarding the investment of surplus funds, the Florida State Statutes were followed. There are several restricted funds. Impact funds are restricted for water line extensions. Water Reserve funds are restricted for repayment of the U.S. Department of Agriculture (USDA) Water Revenue bonds payable. Water customer deposits funds are restricted for payment of unpaid water bills. Fire impact fees are restricted to fund fire public safety facilities such as land, building, equipment and facilities. Evaluation and Appraisal Report (EAR) are restricted for funding the EAR study.

NOTE C – BUDGETARY ACCOUNTING AND LEGAL COMPLIANCE

Budgetary data reflected in the financial statements are established by the following city procedure: During the month of June, the city clerk submits the city's proposed expenditures and requested appropriations to the City Council for consideration.

Proposed budgets are advertised by a newspaper of general circulation and public hearings are conducted during September for the purpose of hearing requests and complaints from the public. In the event the final budget has not been adopted by October 1, the beginning of the fiscal year, Florida Statutes provide for expenditures based on the adopted tentative budget. The final budget is adopted by resolution. Any subsequent amendment must be enacted in the same manner as the original budget.

Expenditures may not exceed budgeted appropriations at the fund level. The city clerk is authorized to transfer budgeted amounts within departments of a fund. Any revision that alters the total expenditures of any fund or department must be approved by the City Council.

The General Fund Statement of Revenues, Expenditures and Changes in Fund Balance – Budget and Accrual presents comparisons of legally adopted budget with actual data on a budgetary basis. Accounting principles applied for purposed of developing data on a budgetary basis often differ from those used to present financial statements in conformity with Generally Accepted Accounting Principles (GAAP).

CITY OF LAUREL HILL, FLORIDA
 NOTES TO FINANCIAL STATEMENTS
 FOR FISCAL YEAR ENDED SEPTEMBER 30, 2018

NOTE E – LONG TERM DEBT

The Governmental activities General Fund does not have any long term debt.

The Water Fund has long term debt due to the U.S. Department of Agriculture (USDA). Revenues of the City’s water system are pledged as collateral on the 5.25% USDA Water Revenue Bonds. There are a number of other limitations and restrictions, pertaining to sinking fund and reserve cash requirements, insurance, user fees, etc. contained in various debt instruments. The city is in compliance with all significant limitations and restrictions.

The following is a summary of long-term debt transactions for the year ended September 30, 2018

	Balance <u>Oct. 1, 2017</u>	<u>Additions</u>	<u>Retirements</u>	Balance <u>Sep. 30, 2018</u>	Due within <u>one year</u>	Long Term <u>portion</u>
<u>Governmental Activities:</u>						
None	\$ -		\$ -	\$ -	\$ -	\$ -
<u>Business Type Activities:</u>						
Revenue Bonds, Series 1993	\$ 345,500		\$ 15,700	\$ 329,800	\$ 16,500	\$ 313,300
<u>Total - All Funds</u>	\$ 345,500		\$ 15,700	\$ 329,800	\$ 16,500	\$ 313,300

NOTE F – GRANTS REVENUE

The city received \$10,786 of grants for the General Fund, including \$3,685 from the Northwest Florida Water Management District (NFWWMD) and \$7,101 from the Florida Department of Agriculture. No grant funds were received for the Water Fund.

The \$3,685 grant from NFWWMD was used to help pay for \$6,565 of surveying, design, and permitting for future movement of water lines on Mill Side Road.

The \$7,101 grant (a 50/50 grant) from the Florida Department of Agriculture was used to help pay for \$14,202 of fire department gear, including trays, shelves, brackets, chainsaws, LED light kits, turn out gear coats and pants, bunker boots and gloves, trauma bags, and gear bags.

The city was awarded a \$50,000 from the Florida Recreation Development Assistance Program (FRDAP) to pay for improvements to the Gene Clary recreation park, including baseball fields, softball fields, basketball courts, picnic areas, restrooms, playground, and parking lot. FY2018 expenditures were \$2,550 for survey, design, and permitting. Construction is expected to be completed in FY2019.

NOTE G – RISK MANAGEMENT

The city of Laurel Hill, Florida is exposed to various risks of loss related to tort, theft, damage to, and destruction of assets, errors, and omissions, injuries to employees, and natural disasters. The city purchases insurance through commercial carriers and participates in the Florida Municipal Insurance Trust, and the Florida Municipal Self-Insurers Fund, which is a public entity risk pool. The city maintains minimal insurance deductibles for insurance policies from its carriers. There has been no significant reduction in insurance coverage from the prior fiscal year. Insurance coverage has been sufficient to cover all claims made in the past two years.

NOTE H – SUBSEQUENT EVENTS

Subsequent events have been evaluated through May 9, 2019, the date these financial statements were available to be issued, and no event was deemed to warrant recognition or disclosure.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Honorable Mayor and Members of the City Council
City of Laurel Hill, Florida

I have audited, in accordance with the auditing standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities and the business-type activities of the City of Laurel Hill, Florida, as of and for the year ended September 30, 2018, and the related notes to the financial statements, which collectively comprise the City of Laurel Hill's basic financial statements and have issued my report thereon dated May 9, 2019.

Internal Control Over Financial Reporting

In planning and performing my audit of the financial statements, I considered the City of Laurel Hill's internal control over financial reporting to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing my opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Laurel Hill's internal control. Accordingly, I do not express an opinion on the effectiveness of the City of Laurel Hill's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency* is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged in governance.

Internal Control Over Financial Reporting (Continued)

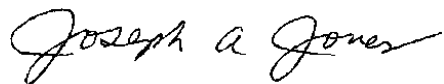

My consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during my audit I did not identify any deficiencies in internal control that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Laurel Hill's financial statements are free from material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

This report is intended solely to describe the scope of my testing of internal control and compliance and the results of testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

MANAGEMENT LETTER

The Honorable Mayor and Members of the City Council
City of Laurel Hill, Florida

Report on the Financial Statements

I have audited the financial statements of the City of Laurel Hill, Florida, as of and for the year ended September 30, 2018, and I have issued my report thereon dated May 9, 2019.

Auditor's Responsibility

I conducted my audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Other Reports and Schedule

I have issued my Independent Auditor's Report on Internal Control over Financial Reporting and Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards*. Disclosures in that report, which are dated May 9, 2019, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.554(1)(i)1., Rules of the Auditor General, requires that I determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding financial audit report. Corrective actions have been taken to address findings and recommendation made in the preceding annual financial audit report.

Audit finding 2017-01, Reconcile and balance Water Fund Accounts Payable
The Water Fund Accounts Payable balance has posting errors that total to a net debit balance of \$3,268.32 as of September 30, 2017. It appears that the total bills paid are in excess of the total bills entered, and this created the \$3,268.32 debit balance. Normally the Accounts Payable balance should zero out over time. It

appears that the majority of the bills that were not entered are for Water Fund Repairs to the water lines. Recommend the city clerk personnel take actions to correct the postings in the Water Fund Accounts Payable so that the “total bills entered” agree with the “total bills paid” so that the Water Fund Accounts Payable balance will zero out over time. Recommend the city clerk personnel take actions to ensure that the Water Fund Accounts Payable balance gets reconciled on a monthly basis.

Status of Audit finding 2017-01: The city has taken corrective actions to ensure that the Water Fund Accounts Payable posting errors were corrected, and the city has taken actions to reconcile the accounts payable on a monthly basis. This finding is closed.

Official Title and Legal Authority

Section 10.554(1)(i)4., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. The City of Laurel Hill is a municipality in Okaloosa County, Florida. The City has no component units.

Financial Condition and Management

Sections 10.554(1)(i)5.a. and 10.556(7), Rules of the Auditor General, require me to apply appropriate procedures and communicate the results of my determination as to whether or not the City of Laurel Hill has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and to identify the specific condition(s) met. In connection with my audit, I determined that the City of Laurel Hill did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.554(1)(i)5.b. and 10.556(8), Rules of the Auditor General, I applied financial condition assessment procedures for the City of Laurel Hill. It is management’s responsibility to monitor the City of Laurel Hill’s financial condition, and my financial condition assessment was based in part on representations made by management and the review of financial information provided by same.

Section 10.554(1)(i)2., Rules of the Auditor General, requires that I communicate any recommendations to improve financial management. In connection with my audit, I did not have any such recommendations.

Special District Component Units

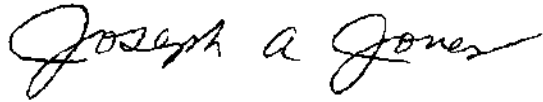

Section 10.554(1)(i)5.c., Rules of the Auditor General, requires, if appropriate, that I communicate the failure of a special district that is a component unit of a county, municipality, or special district, to provide the financial information necessary for proper reporting of the component unit within the audited financial statements of the county, municipality, or special district in accordance with Section 218.39(3)(b), Florida Statutes. In connection with my audit, I determined that the City of Laurel Hill has no component units.

Additional Matters

Section 10.554(1)(i)3., Rules of the Auditor General, requires me to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with my audit, I did not have any such findings.

Purpose of this Letter

My management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, the City officials, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.

A handwritten signature in black ink that reads "Joseph A. Jones". The signature is written in a cursive style with a prominent initial "J" and a long, sweeping underline.

**INDEPENDENT ACCOUNTANT'S REPORT ON COMPLIANCE WITH SECTION 218.415, FLORIDA
STATUTES, LOCAL GOVERNMENT INVESTMENT POLICIES**

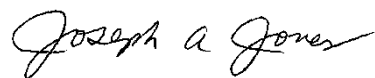

The Honorable Mayor and Members
of the City Council, City of Laurel Hill, Florida

I have examined the City of Laurel Hill, Florida's (the City) compliance with Section 218.415, Florida Statutes, regarding the investment of public funds during the year ended September 30, 2018. Management is responsible for the City's compliance with those requirements. My responsibility is to express an opinion on the City's compliance based on my examination.

My examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as I considered necessary in the circumstances. I believe that my examination provides a reasonable basis for my opinion. My examination does not provide a legal determination on the City's compliance with specified requirements.

In my opinion, the City complied, in all material respects, with the aforementioned requirements for the year ended September 30, 2018.

This report is intended solely for the information and use of the City and the Auditor General, State of Florida, and is not intended to be and should not be used by anyone other than these specified parties.
