## INDEPENDENT AUDITORS' REPORT

Town Council and Town Manager  
Town of Orange Park, Florida

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Orange Park, Florida (the Town) as of and for the year ended September 30, 2018, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditors' Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Town's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

**Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town, as of September 30, 2018, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

**Emphasis of Matter**

As discussed in Note 13 to the financial statements, during the current year, the Town adopted Governmental Accounting Standards Board (GASB) Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, for Other Post-employment Benefits (OPEB). This statement establishes new accounting and financial reporting requirements for governments whose employees are provided with OPEB, including the recognition and measurement of liabilities, deferred outflows of resources, deferred inflows of resources, and expenses. In connection with the implementation of this statement, the Town decreased its beginning net position in the governmental activities and the business-type activities by \$542,588 and \$78,533, respectively. Our opinion is not modified with respect to this matter.

**Other Matters**

*Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, and required supplementary information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

*Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town's basic financial statements. The other supplementary information, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The other supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures, in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report, dated May 14, 2019, on our consideration of the Town's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town's internal control over financial reporting and compliance.

**TOWN OF ORANGE PARK, FLORIDA  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
SEPTEMBER 30, 2018**

The management of the Town of Orange Park, Florida (the "Town"), offers readers of the Town's financial statements this narrative overview and analysis of the financial activities of the Town for the fiscal year ended September 30, 2018. All amounts, unless otherwise indicated, are expressed in thousands of dollars.

**Financial Highlights**

- The assets and deferred outflows of the Town exceeded its liabilities and deferred inflows at the close of fiscal year 2018 by \$57 million (net position). Of this amount, \$9.1 million (unrestricted net position) may be used to meet the Town's ongoing obligations to citizens and creditors.
- At September 30, 2018, the Town's governmental funds reported a combined ending fund balance of \$8.9 million, a decrease of \$0.6 million in comparison with the prior year.
- At September 30, 2018, unassigned fund balance for the General Fund was \$5.96 million or 67% of total General Fund expenditures.
- The governmental activities and the business-type activities have no outstanding debt. The Town paid off the balances of the notes payable and bonded debt in the business-type activities in October 2015.

**Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the Town's basic financial statements. The Town's basic financial statements are made up of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also contains required and other supplementary information in addition to the basic financial statements themselves.

**Government-wide financial statements.** The government-wide financial statements are designed to provide readers with a broad overview of the Town's finances, in a manner similar to a private-sector business.

The Statement of Net Position presents information on all of the Town's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

The Statement of Activities presents information showing how the Town's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Both of the government-wide financial statements distinguish functions of the Town that are principally supported by taxes, licenses and permits, and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Town include general government, public safety, public works, and culture and recreation. The business-type activities of the Town include water and sewer and sanitation services.

**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
**SEPTEMBER 30, 2018**  
*(Continued)*

**Fund financial statements.** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

**Governmental funds.** Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a Town's near-term financing requirements. Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the Town's near-term financing decisions. Reconciliations are provided between the governmental fund balance sheet and the statement of net position and the governmental fund statement of revenues, expenditures, and changes in fund balances and statement of activities to facilitate this comparison between governmental funds and governmental activities.

The Town maintains nine individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund and Sales Tax Fund, which are major funds. Financial information for the other seven governmental funds is combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

**Proprietary funds.** The Town maintains two proprietary or "enterprise funds." Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The Town uses enterprise funds to account for its Water and Sewer Fund and Sanitation Fund.

The proprietary fund financial statements provide separate information for the Water and Sewer Fund and the Sanitation Fund, considered to be major funds of the Town.

**Fiduciary funds.** Fiduciary funds are used to account for resources held for the benefit of those individuals that have retired from the Town and those that will retire in the future (e.g., pension beneficiaries). Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the Town's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

**Notes to the financial statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

**Required Supplementary Information.** In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Town's progress in funding its obligation to provide pension benefits and other post-employment benefits.

**Other Supplementary Information.** The combining fund statements referred to earlier in connection with non-major governmental funds are presented immediately following the required supplementary information.

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the Town, assets exceeded liabilities by \$57 million at the close of the fiscal year ended September 30, 2018.

By far, the largest portion of the Town's net position (79.7%) reflects its net investment in capital assets (e.g., land, buildings, infrastructure, and equipment). The Town uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Town's net investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

A portion of the Town's net position, \$2.5 million (4.4%), represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position, \$9.1 million (15.9%), may be used to meet the government's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the Town is able to report positive balances in total net position, both for the government as a whole, as well as for its separate governmental and business-type activities.

Below is a summary of the changes in net position for the Town during the fiscal years ended September 30, 2018 and 2017:

**Governmental activities.** Governmental activities net position increased by \$1,292,000. This is primarily due to increased property, sales and utility service taxes, red light camera fines, and Federal Emergency Management Agency reimbursements due to Hurricane Matthew which occurred in October 2016.

**Business-type activities.** Business-type activities net position increased \$1,902,000 accounting for 7.1% increase in the business-type activities net position. This increase is due to normal business operations of the enterprise funds.

**Overall financial position.** The overall financial position of the Town has been stable. Net position increased by \$3,194,000 thereby accounting for a total increase of 5.9%. This was attributable to the explanations given above for governmental activities and business-type activities.

**TOWN OF ORANGE PARK, FLORIDA**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
**SEPTEMBER 30, 2018**  
*(Continued)*

**Financial Analysis of the Town's Funds**

As noted earlier, the Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental funds.** The focus of the Town's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Town's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. At the end of fiscal year 2018, the Town's governmental funds reported combined ending fund balances of \$8.9 million, a decrease of \$570,674 in comparison with the prior year.

The General Fund is the primary operating fund of the Town. At the end of fiscal year 2018, unassigned fund balance of the General Fund was \$5.96 million. Unassigned fund balance represents 67% of the total General Fund expenditures. The fund balance of the Town's General Fund increased by \$138,361 during the fiscal year ended September 30, 2018 (compared to a 2017 increase of \$775,103). This is due in part to net increase in revenues of \$446,000, a net increase in expenditures of \$472,000, and a net increase in transfers out of \$610,000.

Changes in revenue consisted of the following:

- Increase in ad valorem tax revenue of \$131,000;
- Decrease in communications services tax revenue of \$24,000;
- Increase in utility service tax on electricity of \$5,000;
- Increase in red light camera revenue of \$135,000;
- Decrease in franchise fee – electricity of \$2,000;
- Increase in investment earnings revenue of \$10,000;
- Increase in miscellaneous revenues of \$31,000;
- Increase in cardroom tax of \$8,000;
- Increase in FL Department of Transportation Revenue Sharing of \$3,000;
- Increase in interfund charges of \$15,000.

The Sales Tax Fund is a major governmental fund. This fund includes capital projects requested by and approved by the Town Council funded by sales taxes. Fund balance for the Sales Tax Fund decreased \$929,870 or 36.3% due to increased expenditures in capital outlay and due to the return of a prior year transfer of \$860,000 back to the Sanitation Fund. Major capital projects expenditures during the year were for the Miller Street Roadway & Utilities project, the Kingsley Avenue East Improvements project, the River Road Roadway & Utilities Improvements, Winfred Drive Sewer Improvements and improvements to the Orange Park Athletic Association sports complex. There was also \$1.3 million expended on equipment purchases which included \$475,000 for a new fire truck and \$146,000 for a new trash truck.

Non-major governmental funds consisting of special revenue funds have a combined fund balance of \$1,030,967. The net increase in fund balance during the current year for non-major governmental funds was \$220,835.

**Proprietary funds.** The Town's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net position of the Water and Sewer Fund at the end of the year amounted to \$3.8 million or 14.1% of total net position. Net position is accumulated in the Water and Sewer Fund to fund future capital projects that are of long-term duration.

**TOWN OF ORANGE PARK, FLORIDA**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
**SEPTEMBER 30, 2018**  
*(Continued)*

Unrestricted net position of the Sanitation Fund at the end of the year amounted to \$1,372,457 or 99.2% of total net position.

The Water and Sewer fund reported an increase in net position of \$1,064,834 or 3.8% and the Sanitation Fund reported an increase in net position of \$669,000 or 123% for fiscal year ended September 30, 2018 due to transfers received back from the Sales Tax Capital fund.

**General Fund Budgetary Highlights**

- All of the Town's departments combined spent \$629,516 less than budgeted. The amount saved was between 0.4% and 18.8% per function.
- The Town fund balance increased \$138,361 in fiscal year 2017-2018.
- The Town received 105.1% of budgeted revenue.

**Capital Asset and Debt Administration**

**Capital assets.** The Town's investment in capital assets for its governmental and business-type activities as of September 30, 2018, amounts to \$45.4 million (net of accumulated depreciation). This investment in capital assets includes land, buildings, infrastructure, improvements which are other than buildings, equipment, and construction in progress.

**MANAGEMENT'S DISCUSSION AND ANALYSIS**

*(Continued)*

**Long-term debt.** At the end of fiscal year 2018, the Town had no outstanding debt. The Town's long-term debt of bonds and the Florida Department of Environmental Protection loans were paid in full in October 2015.

Under *Florida Statutes*, no debt limit margin is placed on local governments.

Additional information on the Town's long-term debt can be found in Note 6 of the notes to the financial statements of this report.

### **Economic Factors and Future Budgets and Rates**

The State of Florida, by Constitution, does not have a state personal income tax and, therefore, the State operates primarily using sales tax revenue, gasoline tax revenue, and corporate income taxes. Local governments (cities and counties) primarily rely on property assessments combined with a limited array of authorized other taxes (sales, gasoline, utilities services, etc.) and fees (franchise, occupational license, etc.) to support their governmental activities. There are a limited number of state shared revenues and recurring and non-recurring (one time) grants from both state and Federal government agencies.

- The unemployment rate as of September 30, 2018, for the municipal service area was 2.7%. This compared favorably with the state's average unemployment rate of 3.3% and with the national average unemployment rate of 3.7%.
- Since the Town is effectively built out, new construction is not expected to produce significant annual increases in property assessments. Currently, about thirty-five percent (35.0%) of the General Fund's annual revenues are from property taxes. The Town implemented a utility service tax on electricity which went into effect on April 1, 2015, and generated \$836,000 in revenue in fiscal year 2018. Other current revenues are not expected to increase significantly, and many of these are beyond the Town's control. Continued diversification of revenues where possible could help to alleviate pressure on property tax rates.
- Although the Town is constantly being challenged by increasing costs for employee benefits, it does not face demand to add personnel in order to extend current levels of services to new areas.
- Public Safety-related activities, such as Police and Fire Services, make up 58% of the General Fund Expenditures, down from the prior year at 59%.

### **Requests for Information**

This financial report is designed to provide a general overview for those with an interest in the Town's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Town of Orange Park, Finance Director, 2042 Park Avenue, Orange Park, Florida 32073.

RECONCILIATION OF THE STATEMENT OF REVENUES,  
EXPENDITURES, AND CHANGES IN FUND BALANCES OF  
GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES  
SEPTEMBER 30, 2018**

**Net Change in Fund Balance - Total Governmental Funds** \$ (570,674)

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of these assets is depreciated over their estimated useful lives:

Capital Outlay	\$ 2,898,690	
Loss on Disposal of Assets	(47,532)	
(Less Current Year Depreciation)	<u>(1,455,996)</u>	1,395,162

The changes in net pension liability or asset and pension related deferred outflows and inflows of resources result in an adjustment to pension expense in the statement of activities, but not in the governmental fund statements. 255,416

The net change in net other postemployment benefit obligation liability (OPEB) and related deferred outflows and inflows of resources is reported in the statement of activities, but not in the governmental fund statements. 40,922

Certain revenues reported in the statement of activities are not considered current financial resources, and, therefore, are not reported as revenue in the governmental funds. Prior unavailable revenues subsequently collected and recognized as revenue in the governmental funds in the current period are not reported in the statement of activities. 250,069

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds:

**TOWN OF ORANGE PARK, FLORIDA**  
**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2018**

**Note 1 - Summary of Significant Accounting Policies**

The financial statements of the Town of Orange Park, Florida (the Town) have been prepared in conformity with accounting principles generally accepted (GAAP) in the United States of America as applied to governmental units. The more significant of the Town's accounting policies are described below. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

**(a) Reporting Entity**

The Town was first incorporated on February 18, 1879. There was considerable controversy over the original date of incorporation so the Florida Legislature passed Bill Number 86 on June 1, 1981, to confirm the *1879 Act*. The Town operates under an elected mayor-council form of government under the administration of an appointed Town Manager and provides the following services: police and fire rescue services, street maintenance and construction, water and sewer services, sanitation, planning, zoning, culture and recreation, and economic development.

The accompanying financial statements present the financial position, results of operations and cash flows of the applicable fund types governed by the Council of the Town (the Town Council), the reporting entity of government for which the Town Council is considered to be financially accountable. There are no potential component units or related organizations of the Town that meet the criteria for inclusion in the Town's basic financial statements.

**(b) Basic Financial Statements**

The government-wide and fund financial statements, along with the notes to the financial statements, comprise the basic financial statements. The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the Town. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

Net position is reported as one of three categories: (1) Net Investment in Capital Assets; (2) Restricted; or (3) Unrestricted.

The Statement of Activities demonstrates the degree that direct expenses of a given function or activity are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods; (2) services or privileges provided by a given function or segment; and (3) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or activity. Taxes and other items not properly included among program revenues are reported instead as general revenues.

**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2018**  
*(Continued)*

**Note 1 - Summary of Significant Accounting Policies (Continued)**

**(b) Basic Financial Statements (Concluded)**

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

**(c) Measurement Focus, Basis of Accounting, and Financial Statement Presentation**

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Town considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, other postemployment benefits, pension expense, and claims and judgments, are recorded only when payment is due.

Taxes, licenses and permits, intergovernmental revenue, charges for services, and investment earnings associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

Governmental funds are those funds through which most governmental functions typically are financed. The measurement focus of governmental funds is on the sources, uses, and balance of current financial resources. The Town has presented the following governmental funds:

- **Major Governmental Funds**—The General Fund is the Town’s primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund. The Capital Projects - Sales Tax Fund is also considered a major fund. This capital projects fund accounts for resources accumulated and payments made for the acquisition and construction of major capital facilities.

**SEPTEMBER 30, 2018**  
*(Continued)*

**Note 1 - Summary of Significant Accounting Policies (Continued)**

**(c) Measurement Focus, Basis of Accounting, and Financial Statement Presentation**  
*(Concluded)*

- **Nonmajor Governmental Funds**—Special Revenue Funds account for revenue sources that are legally restricted to expenditures for specific purposes. Nonmajor special revenue funds include the Gas Tax Fund, Confiscated Property Fund, Police Education Fund, Magnolia Cemetery Fund, Police Investigative and Evidentiary Fund, Building Fund, and the Fair Share Fund.

Proprietary funds are accounted for using the economic resources measurement focus and the accrual basis of accounting. The accounting objectives are determination of operating income and changes in net position, financial position, and cash flow. All assets, deferred outflows, liabilities, and deferred inflows are included on the Statement of Net Position. The Town's proprietary funds are all classified as enterprise funds. The Town has presented the following proprietary fund:

- **Major Proprietary Funds**—The Water and Sewer Fund accounts for the activities of the Town's water distribution system, sewage treatment plant, sewage pumping stations, and collections systems. The Sanitation Fund accounts for the activities of the Town's sanitation and recycling services.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Town's enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets and amortization of intangible assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Additionally, the Town reports the following fund type:

- **Fiduciary Fund Type**—This fund type accounts for the activities of the Town of Orange Park, Florida General Employees' Pension Plan Fund, the Firefighters' Pension Plan Fund, and the Police Officers' Pension Plan Fund (collectively, Pension Trust Funds), which accumulate resources for pension and disability benefit payments to retired or disabled employees.

**(d) Budgets and Budgetary Accounting**

Annual appropriated budgets are adopted for all funds. The legally adopted budgets are prepared on a basis consistent with GAAP.

The Town's procedures in establishing the budgetary data reflected in the financial statements generally are as follows:

**TOWN OF ORANGE PARK, FLORIDA**  
**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2018**  
*(Continued)*

**Note 1 - Summary of Significant Accounting Policies (Continued)**

**(d) Budgets and Budgetary Accounting (Concluded)**

On or before August 1, the Town Manager submits to the Town Council a proposed operating budget for the fiscal year commencing the following October. The operating budget includes proposed expenditures and the means of financing them. Public hearings are conducted to obtain taxpayer comments. Prior to October 1, the budget is legally enacted through passage of an ordinance. Budget changes during the fiscal year are approved by the Town Council. Appropriations lapse at the end of the fiscal year. Expenditures may not legally exceed appropriations for each budgeted department of the Town; however, the Town Manager is authorized to transfer budgeted amounts within a department. The legal level of budgetary control is the department level.

The budgets are integrated into the accounting system. The budgetary information presented for the general fund is prepared on the modified accrual basis of accounting. Accordingly, the budgetary comparison schedule for the General Fund presents actual expenditures in accordance with GAAP in the United States of America on a basis consistent with the legally adopted budget as amended.

**(e) Cash and Cash Equivalents**

Cash and cash equivalents are defined as short-term highly liquid investments that are both readily convertible to known amounts of cash and have an original maturity of three months or less. The cash and cash equivalents presented on the Statement of Cash Flows–Proprietary Funds are composed of restricted and unrestricted cash and cash equivalents and equity in pooled investments presented on the Statement of Net Position–Proprietary Funds.

**(f) Investments**

Investments of the Town and within the pension trust funds are made through financial brokers, are held with trustees, and are stated at fair value.

**(g) Receivables and Interfund Obligations**

Receivables consist of trade receivables, amounts due from other governments, and interest receivables and are shown net of an allowance for uncollectible accounts. Uncollectible accounts receivable allowances are based on historical trends.

The unbilled portion of water and sewer revenue accrued at year-end is based upon prorating the October billing cycle.

Outstanding balances between funds at the end of the fiscal year are referred to as either “due to/from other funds” (i.e. the current portion of interfund loans) or “advances to/from other funds” (i.e. the noncurrent portion of interfund loans). Any residual balances outstanding between governmental activities and business-type activities are reported in the government-wide financial statements as internal balances.

**TOWN OF ORANGE PARK, FLORIDA**  
**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2018**  
*(Continued)*

**Note 1 - Summary of Significant Accounting Policies (Continued)**

**(h) Interfund Transactions**

Interfund transactions are reflected as loans, services provided, reimbursements, or transfers. Loans are reported as receivables and payables as appropriate and are subject to elimination upon consolidation. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund, and reduces its related costs as a reimbursement. All other interfund transactions are treated as transfers.

**(i) Inventories**

Inventories are valued at cost, which approximates market value, using the first-in first-out (FIFO) method. In the fund financial statements, the cost of the inventory is recorded as an expenditure when consumed, rather than when purchased. An offsetting nonspendable fund balance is reported in the governmental funds to indicate that the asset is not available for appropriation or expenditure.

**(j) Prepaid Items**

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. An offsetting nonspendable fund balance is reported to indicate that the asset is not available for appropriation or expenditure.

**(k) Restricted Assets**

Assets are reported as restricted when limitations on their use change the nature or normal understanding of the availability of the asset. Such constraints are either externally imposed by creditors, contributors, grantors, or laws of other governments, or are imposed by law through constitutional provisions or enabling legislation. Restricted assets in the enterprise funds represent cash and cash equivalents set aside for repayment of deposits to utility customers.

**(l) Deferred Outflows/Inflows of Resources**

Deferred outflows of resources represent the consumption of net position that is applicable to a future reporting period and will not be recognized as an outflow of resources (expense) until that future time. Deferred inflows of resources represent the acquisition of net position that is applicable to a future reporting period and will not be recognized as an inflow of resources (revenue) until that future time. Deferred outflows have a positive effect on net position, similar to assets, while deferred inflows have a negative effect on net position, similar to liabilities. The Town reports deferred outflows and inflows of resources related to pensions and other postemployment benefits (OPEB).

*Unavailable Revenues* – revenues which are measurable, but not available, are recorded as deferred inflows or resources in governmental funds financial statements.

*Pension and OPEB Related* – the difference between expected and actual experience with regard to economic or demographic factors and changes to assumptions in the measurement of total pension and OPEB liability and the differences between expected and actual earnings on pension plan investments, are reported as deferred inflows or outflows of resources, to be recognized in expense in future years. Contributions made subsequent to the measurement date, but prior to the reporting date, are reported as deferred outflows of resources.

**TOWN OF ORANGE PARK, FLORIDA**  
**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2018**  
*(Continued)*

**Note 1 - Summary of Significant Accounting Policies (Continued)**

**(m) Capital Assets**

Capital assets, which include property, plant and equipment, are reported in the applicable governmental or business-type activities columns in the government-wide statements and in the proprietary fund statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of five years. Such assets are recorded at historical cost. Where cost could not be determined from the available records, estimated historical costs were used to record the estimated value of the assets. Assets acquired by gift or bequests are recorded at their fair market value at the date of transfer.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred, if any, during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. General infrastructure assets acquired subsequent to June 30, 1980, are included in the governmental activities in the basic financial statements.

Property, plant and equipment are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings and improvements	5-40
Improvements other than buildings	5-40
Infrastructure	10-30
Equipment	3-10

**(n) Long-term Obligations**

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt, and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. In the fund financial statements, governmental fund types recognize premiums/discounts and issuance costs during the current period. The face amount of debt issued and premiums received are reported as other financing sources. Discounts on debt issuances are reported as other financing uses. Issuance costs whether or not withheld from the actual debt proceeds received, are reported as expenditures.

**(o) Compensated Absences**

Town employees are entitled to certain compensated absences (personal leave) based on their length of employment. All leave pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported. For the governmental activities, compensated absences and other postemployment benefits are generally liquidated by the General Fund.

**TOWN OF ORANGE PARK, FLORIDA**  
**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2018**  
*(Continued)*

**Note 1 - Summary of Significant Accounting Policies (Continued)**

**(p) Pension Plans**

The Town records pension contributions in the period in which contributions are due. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plan. Plan assets are valued at fair value. The net pension liability and pension related deferred outflows and inflows of resources, as well as the changes in these accounts are recognized in the government-wide financial statements and in the proprietary fund statements.

**(q) Fund Balance/Net Position**

Fund equity at the governmental fund financial reporting level is classified as “fund balance.” Fund equity for all other reporting is classified as “net position.”

- **Fund Balance**—Generally, fund balance represents the difference between current assets and current liabilities. In the fund financial statements, governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the Town is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Fund balances are classified as follows:
  - *Nonspendable*—Fund balances are reported as nonspendable when amounts cannot be spent because they are either: (a) not in spendable form (i.e. items that are not expected to be converted to cash such as inventory and prepaid items); or (b) legally or contractually required to be maintained intact.
  - *Restricted*—Fund balances are reported as restricted when there are limitations imposed on their use either through enabling legislation or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.
  - *Committed*—Fund balances are reported as committed when they can be used only for specific purposes pursuant to constraints imposed by formal action of the Town Council through the adoption of an ordinance. Only the Town Council may modify or rescind the commitment. These self-imposed limitations must be set in place prior to the end of the fiscal year.
  - *Assigned*—Fund balances are reported as assigned when amounts are constrained by the Town’s intent to be used for specific purposes, but are neither restricted nor committed. Intent is stipulated by the Town Council or an official for whom that authority has been given by Town Council. With the exception of the General Fund, amounts in all other governmental funds that are not nonspendable, restricted, or committed will be considered to be assigned. Also, at fiscal year-end, any appropriation of existing fund balance to eliminate a projected budgetary deficit in the next year’s budget is considered to be an assignment of fund balance.
  - *Unassigned*—Fund balances reported as unassigned are the residual amount of balances that do not meet any of the above criteria. The Town reports positive unassigned fund balance only in the General Fund. Negative unassigned fund balances may be reported in other funds.

**TOWN OF ORANGE PARK, FLORIDA**  
**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2018**  
*(Continued)*

**Note 1 - Summary of Significant Accounting Policies (Continued)**

**(q) Fund Balance/Net Position (Concluded)**

- **Net Position**—Net position represents the difference between assets, deferred outflows of resources, liabilities, and deferred inflows of resources. The net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets, and adding back unspent proceeds. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. Net position that does not meet the definition of net investment in capital assets or restricted is classified as unrestricted.
- **Flow Assumptions**—When both restricted and unrestricted amounts of fund balance/net position are available for use for expenditures/expenses, it is the Town’s policy to use restricted amounts first and then unrestricted amounts, as they are needed.

For unrestricted amounts of fund balance, it is the Town’s policy to use fund balance in the following order: committed, assigned, and then unassigned.

- **Minimum Fund Balance Policy**—The Town has established the following minimum fund balance policy for each of the respective funds.
  - *General Fund*—The unassigned fund balance shall not be less than 33% and not more than 67% of the total budgeted expenditures of the General Fund budget.
  - *Water and Sewer Fund*—The unrestricted net asset balance shall not be less than 33% and not more than 67% of the total budgeted operating expenses including debt repayment, bond coverage, and transfer/charges to other funds, but excluding depreciation.
  - *Sanitation Fund*—The unrestricted net asset balance shall not be less than 33% and not more than 67% of the total budgeted operating expenses including debt repayment, bond coverage, and transfer/charges to other funds, but excluding depreciation.

**(r) Property Taxes**

The assessment of all properties and the collection of all property taxes are made through the Property Appraiser and Tax Collector of Clay County, Florida. General property taxes are recorded when received in cash, which approximates tax levied, less discounts, for the current fiscal year.

Details of the tax calendar are presented below:

**(s) Use of Estimates**

The preparation of basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

**(t) Future Adoption of New Accounting Standards**

The Town is currently evaluating the effects that the following GASB Statements, which will be implemented in future financial statements, will have on its financial statements for subsequent fiscal years:

- Statement No 83, “*Certain Asset Retirement Obligations (AROs).*” This Statement addresses accounting and financial reporting for certain AROs. An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. A government that has legal obligations to perform future asset retirement activities related to its tangible capital assets should recognize a liability. This Statement establishes criteria for determining the timing and pattern of recognition of a liability and a corresponding deferred outflow of resources for AROs. This statement is currently under review and the Town will consider the impact, if any, upon financial reporting. The provisions of this statement are effective for fiscal years beginning after June 15, 2018.
- Statement No. 87, “*Leases.*” This Statement increases the usefulness of governments’ financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments’ leasing activities. This statement is currently under review and the Town will consider the impact, if any, upon financial reporting. The provisions of this statement are effective for fiscal years beginning after December 15, 2019.

**Note 2 - Cash Deposits and Investments**

The Town maintains a cash and investment pool for all funds. Each fund’s portion of this pool is included in the balance sheet account “Equity in pooled cash and investments.” Interest earnings are allocated in accordance with the participating fund’s relative percentage of investments.

The Town does not have a written investment policy and follows the State of Florida investment policy as set forth in Florida Statute 218.415. Florida Statutes authorize the Town to invest in Local Government Surplus Funds Trust Fund administered by the State Board of Administration (SBA), direct obligations of the United States Treasury, interest bearing time deposits or savings accounts in qualified public depositories, and Securities and Exchange Commission registered money market funds with the highest credit quality rating from a nationally recognized rating agency.

Both the Firefighters’ and Police Officers’ Pension Plans have written investment policies.

The Firefighters’ Pension Plan is authorized to invest in equities, fixed income, and money market funds, subject to certain restrictions. The Police Officers’ Pension Plan is authorized to invest in equities, fixed income, pooled funds, and money market funds, subject to certain restrictions. The General Employee Pension Plan invests in the Florida Municipal Investment Trust local government investment pool.

At September 30, 2018, the Town’s equity in pooled cash and investments included the following:

Investment Controlled by the Town:	
SBA Local Government Surplus Funds	
Trust Funds (Florida Prime)	\$ 264,372
Money Markets	<u>4,540,351</u>
Total Investment Controlled by the Town	<u>4,804,723</u>
Cash Deposits	<u>10,420,669</u>
<b>Total Cash and Investments</b>	<b><u>\$ 15,225,392</u></b>

*Custodial Credit Risk:* Custodial credit risk for investments is the risk that, in the event of a failure of a counterparty, the Town will not be able to recover the value of the investment or collateral securities that are in the possession of an outside party.

*Custodial Credit Risk: (Concluded)*

At September 30, 2018, the carrying amount of the Town's cash deposits was \$10,420,669 and the bank balance was \$10,509,154. Included in the carrying amount of the Town's deposits is \$750 in petty cash. All of the Town's cash deposits are fully insured by the Federal Deposit Insurance Corporation or collateralized in accordance with *Florida Security for Public Deposits Act* (the Act). Under the Act, every qualified public depository shall deposit with the Treasurer eligible collateral having a market value equal to 50% of the average daily balance for each month that all public deposits are in excess of any applicable deposit insurance. If the public deposits exceed the total amount of the regulatory capital accounts of a bank or the regulatory net worth of a savings association, the required collateral shall have a market value equal to 125% of the deposits.

The Town's investments in the Florida Local Government Surplus Funds Trust Fund Investment Pool (LGIP), currently known as Florida Prime, is similar to money market funds in which shares are owned in the fund rather than the underlying investments. Florida Prime is administered by the SBA pursuant to Section 218.405 of the Florida Statutes.

The pool invests in short-term, high-quality fixed income securities. To be considered high-quality, the security must be rated highest in the short-term rating category by one or more nationally recognized statistical ratings organizations, or deemed to be of comparable quality by the investment manager. The account balance of this fund is considered to be the fair value of this investment. As of September 30, 2018, Standard & Poor's ratings service assigned an "AAAm" rating to the Florida Prime.

All of the investments of the Firefighters', Police Officers', and General Employees' Pension Plan Funds are held with a third-party custodian, and all securities purchased by, and collateral obtained by each plan is properly designated as plan assets. The General Employees' Pension Plan funds are held with the Florida Municipal Pension Trust Fund (FMPTF). The FMPTF invests the General Employees' Pension Plan funds through the Florida Municipal Investment Trust (FMIVT). The FMIVT is a Local Government Investment Pool (LGIP) and, therefore, considered an external investment pool for GASB reporting requirements.

*Interest Rate Risk:* Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The Town does not have a written investment policy on interest rate risk. Information about the sensitivity of the fair values of the Town's investments (including investments held by the pension trustee) to market interest rate fluctuations is provided by the following table that shows the Town's investments and the distribution by maturity for those that have scheduled maturity dates. The dollar weighted average days to maturity (WAM) of Florida Prime at September 30, 2018, is 33 days. The General Employees' Pension Plan is invested with the FMIVT, which is an external investment pool. The FMIVT investment portfolio includes the FMIVT Broad Market High Quality Bond Fund and the FMIVT Core Plus Fixed Income which have dollar weighted average days to maturity (WAM) of 6.40 and 7.00 years, respectively.

*Credit Risk:* Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations.

The investment policies for the Firefighters' and Police Officers' Pension Plans permit investments limited to credit quality ratings from nationally recognized rating agencies as follows:

- All fixed income investments shall have a minimum rating of investment grade or higher as reported by a major credit rating service.
- Money market funds should have a minimum rating of Standard & Poor's A1 or Moody's P1.

The General Employees' Pension Fund's investments are held in the FMPTF and invested through the FMIvT. Participating Employers' investments through the FMIvT are evidenced by shares of the pool. Investments in pools should be disclosed, but not categorized because they are not evidenced by securities that exist in physical or book-entry form. The General Employees' Pension Plan investment is with the pool, not the securities that make up the pool; therefore, no credit rating disclosures are required.

*Concentrations of Credit Risk:* Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investments in a single issuer. Investments issued or explicitly guaranteed by the United States government and investments in mutual funds, external investment pools, and other pooled investments are excluded from this disclosure requirement.

The investment policies for the Firefighters' and Police Officers' Pension Plans have established asset allocation limits on the following investments which are designed to reduce the concentration of credit risk as follows:

- Investments in corporate common stock and convertible bonds shall not exceed 70% of the plan assets at market.
- Not more than 5% of the plan assets at the time of purchase shall be invested in the common stock, capital stock, or convertible stock of any one issuing company nor shall the aggregate investment in any one issuing company exceed 5% of the outstanding capital stock of the company.
- The value of bonds issued by any single corporation shall not exceed 10% of the total fund.
- All equity and fixed income securities must be readily marketable.
- Foreign securities shall not exceed 15% of the plan's market value.

Asset allocation in the FMPTF external investment pool at September 30, 2018, is as follows:

As of September 30, 2018, the Town’s investments subject to this disclosure requirement do not exceed 5% of its total investments in any single issuer.

*Foreign Currency Risk:* Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment or deposit. All foreign securities held by the pension plans are traded in U.S. dollars.

*Fair Value Measurements:* The fair value hierarchy categorizes the inputs to valuation techniques used to measure fair value into three levels:

- **Level 1 Inputs**—are quoted prices (unadjusted) for identical assets or liabilities in active markets that a government can access at the measurement date.
- **Level 2 Inputs**—are inputs other than quoted prices included within Level 1 that are observable for an asset or liability, either directly or indirectly.
- **Level 3 Inputs**—are unobservable inputs for an asset or liability. The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs. If a price for an identical asset or liability is not observable, a government should measure fair value using another valuation technique that maximizes the use of relevant observable inputs and minimizes the use of unobservable inputs.

The Plans’ investments are measured at fair value on a recurring basis. Fair value measurements are categorized based on the valuation inputs used to measure an asset’s fair value in the hierarchy described above. The fair value measurements for the Plan’s operating investments are as follows at September 30, 2018:

*Fair Value Measurements: (Concluded)*

Equities are valued based on prices quoted in active markets and are categorized as Level 1 in the fair value hierarchy. Federal Agency Securities are valued using matrix pricing techniques that value securities based on their relationship to benchmark quoted prices and are categorized as Level 2. Corporate bonds are valued using quoted prices for similar securities in active markets and are categorized as Level 2 in the fair value hierarchy. The Florida Municipal Investment Trust Fund is an investment pool that offers both fixed income and equity portfolios. The FMIT portfolios are categorized in the fair value hierarchy depending on their underlying securities. The Florida PRIME SBA is valued at Net Asset Value (NAV), which is included in the information released by Florida PRIME annually in its own financial statements. GASB 72 lists several types of investments, including money markets, which are excluded from the fair value measurement and disclosure requirements. Therefore, the Town's money market investment accounts are recorded at cost and are excluded from fair value measurement and disclosure.

**Note 3 - Receivables**

Receivables at September 30, 2018, consist of the following:

	<b>General Fund</b>	<b>Sales Tax Fund</b>	<b>Nonmajor Funds</b>	<b>Water and Sewer Fund</b>	<b>Sanitation Fund</b>	<b>Total</b>
<b>Receivables</b>

**Note 7 - Pension Plans**

**General Employees' Pension Plan**

**Plan Description**

The Town contributes to the General Employees' Pension Plan, which is a single-employer defined benefit public employees' retirement system (PERS), established pursuant to Town Ordinance 11-89 adopted May 2, 1989, and as subsequently amended by Town Council. The PERS does not issue a financial report separate from the Town's financial statements. The plan has three distinct classes of participants:

- Group A:* Non-union participants (not identified as Local 630 or in a dispatcher position)
- Group B:* Local 630 participants
- Group C:* Dispatcher participants

**Plan Benefits and Contributions**

The General Employees' Pension Plan provides pension and death benefits to its members. As stipulated by Town ordinance, authority to establish and amend benefit provisions of the General Employees' Pension Plan along with the authority to provide for cost of living adjustments rests with the Town Council.

*Vesting*

All general, full-time, permanent employees who have completed one year of service are eligible to participate in PERS. Under the provisions of the PERS, pension benefits vest upon completion of five years of credited service. An employee may retire at the earlier of age 65 with ten years of service, or age 62 with 20 years of service.

*Actuarial Assumptions.* The total pension liability was determined by an actuarial valuation as of October 1, 2016, updated to September 30, 2017, using the following actuarial assumptions applied to all measurement periods:

Inflation	2.75%
Salary Increases	4.75%
Investment Rate of Return	7.00%
Mortality	For Healthy Participants, the RP 2000 Fully Generational w/ Scale BB; For Disabled Participants, the RP 2000 Disabled Mortality Table

*Discount Rate.* A discount rate of 7.0% was used to measure the total pension liability. The discount rate was based on the expected rate of return on Plan investments of 7.0%. The projection of cash flows used to determine this discount rate assumed member contributions will be made at the current contribution rate and employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member contribution rate. Based on these assumptions, the Plan's fiduciary net position was projected to be available to make all projected future expected benefit payments of current Plan Members. Therefore, the long-term expected rate of return on Plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**Firefighters' Pension Plan**

**Plan Description**

The Firefighters' Pension Plan, a single-employer defined benefit plan, was established pursuant to Town Ordinance 8-89 adopted March 21, 1989, and as subsequently amended by the Town Council. Members of the Firefighters' Pension Plan include full-time state certified firefighters. The funding method and determination of benefits payable are provided in various acts of the Florida Legislature (Act), which created funds, including subsequent amendments, thereto. The Act provides, in general, that funds are to be accumulated from employee contributions, Town contributions, State appropriations, and income from investment of accumulated funds. The Act also provides that, should the accumulated funds at any time be insufficient to meet and pay the benefits due, the Town shall supplement the fund by an appropriation from current funds or from any revenue which may lawfully be used for said purposes in an amount sufficient to make up the deficiency. The Firefighters' Pension Plan is administered by a Board of Trustees. The Board consists of five Trustees, two of whom are legal residents of the Town who are appointed by the Town Council, two of whom are members of the Plan who are elected by the membership, and a fifth member is elected by the other four and appointed by the Town Council. Each Trustee serves a two-year term. Investments are reported at fair value. The Firefighters' Pension Plan does not issue a stand-alone financial report.

**Plan Benefits and Contributions**

The Firefighters' Pension Plan provides pension, death, and disability benefits to its members. As stipulated by Town ordinance, authority to establish and amend benefit provisions of the Firefighters' Pension Plan along with the authority to provide for cost of living adjustments rests with the Town Council.

*Vesting*

Each person employed by the Town Fire Department as a full-time Firefighter becomes a member of the Plan. Members are considered vested after 5 years of credited service and are entitled to plan benefits. Fire Department employees attaining the earlier of the age of 55 and ten years of credited service or 25 years of credited service regardless of age are considered fully vested in the plan.

*Benefit*

If hired prior to June 7, 2016, the retirement benefit is equal to 3.00% of average final compensation for each year of credited service. If hired after June 6, 2017, the retirement benefit is equal to 2.75% of average final compensation for each year of credited service.

*Maximum Benefit*

If hired prior to June 7, 2017, 80% of average final compensation. If hired after June 6, 2017, 75% of average final compensation.

*Early Retirement*

Members are eligible for early retirement upon reach age 50 and 10 years of credited service. The retirement benefit is based on the accrued benefit, reduced 3.0% per year for each year prior to normal retirement.

*Disability Benefits*

For service incurred disabilities, active employees receive disability benefits accrued to the date of disability but not less than 42% of average final compensation, subject to the maximum limit. For nonservice incurred disabilities, employees with ten years of credited service receive disability benefits accrued to the date of disability. Disability benefits are payable for life with 120 monthly payments guaranteed, or until recovery, as determined by the Board.

*Pre-Retirement Death Benefits*

If an employee dies before completion of five (5) years of continuous service, employee contributions are refunded without interest. If an employee dies after the completion of at least five (5) years of continuous service, the monthly accrued benefits, reduced actuarially, are payable to the designated beneficiary for their lifetime. After retirement, benefits are payable to the beneficiary in accordance with the option selected at retirement.

**Contributions**

The Town is required to contribute at an actuarially determined rate of 25.63% valuation payroll for the year ended September 30, 2018). The Town and State contributions to the Firefighters' Pension Plan were \$309,702 for the year ended September 30, 2018. Under the provisions of the Town Ordinance, Fire Department employees of the Town are required to contribute 4% of their annual compensation to the Firefighters' Pension Plan. The payments are deducted from the employees' wages and remitted by the Town to the Firefighters' Pension Plan bi-weekly.

Administrative costs are funded by contributions made to the Plan. Significant actuarial assumptions used to compute contribution requirements are the same as those used to compute the standardized measure of the pension benefit obligation. The Town must provide annual contributions sufficient to satisfy any actuarially determined contribution requirements not covered by the State premium tax refunds and employee contributions.

**Plan Investments**

The Firefighters' Pension Board of Trustees is responsible for establishing and amending the Plans' investments. The Plan's current investment policy gives the Board discretion to allocate assets provided that no more than 60% of the funds at cost are invested in common stock or capital stock.

The Plan did not hold investments in any one organization that represents 5% or more of the Pension Plan's fiduciary net position. The money-weighted rate of return on Plan investments, net of related investment expenses, was 7.71% for the year ended September 30, 2018.

**Measurement Date**

As permitted by GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, the Town elected to use a measurement date to value the net pension liability and related deferred inflows and outflows as of September 30, 2017, one year prior to the reporting date. *Discount Rate.* The discount rate used to measure the total pension liability was 7.75%. The projection of cash flows used to determine the discount rate assumed that Plan member contributions will be made at the current contribution rate and that sponsor contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the Pension Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on Pension Plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

*Sensitivity of the Net Pension Liability to Changes in the Discount Rate.* The following presents the net pension liability of the Firefighters' Pension Plan Fund, calculated using the discount rate of 7.75%, as well as what the Plan's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

**Plan Benefits**

The Police Officers' Pension Plan provides pension, death, and disability benefits to its members. As stipulated by Town ordinance, authority to establish and amend benefit provisions of the Police Officers' Plan along with the authority to provide for cost of living adjustments rests with the Town Council. In 2014, the Town passed Ordinance 12-14 amending the Police Officers' Pension Plan. The Ordinance amended several key provisions of the Plan as noted throughout the paragraphs below.

*Vesting*

All Police Department employees attaining the earlier of the age of 55 and ten years of credited service or age 52 and 25 years of credited service are entitled to a retirement benefit.

*Accrued Benefit*

The accrued benefit is a percentage of average monthly earnings, based on the following accrual rates:

<u>Hire Date</u>	<u>Applicable Credited Service</u>	<u>Accrual Rate</u>
Before 11/13/12	Prior to 11/13/12	3.75%
11/13/12-06/02/14		3.50%

On and After 05/03/16	All years of Credited Service	3.00%

*Maximum Benefit*

If hired prior to November 13, 2012, 90% of average monthly earnings. If hired after November 13, 2012, 75% of average monthly earnings.

*Supplemental Benefit*

Each Member hired prior to November 13, 2012, who retires under Normal Retirement shall receive an additional \$200 per month payable for life. For members hired on or after November 13, 2012, the additional benefit shall be \$100 per month payable for life.

*Early Retirement*

Employees who have attained age 45 and have completed ten (10) years of service are eligible for an early retirement equal to the applicable multiplier times average monthly earnings times years of credited service (excluding the supplement), reduced 3% for each year that early retirement precedes normal retirement.

*Disability Benefits*

Active employees who become disabled receive disability benefits (upon expiration of accrued sick pay and vacation pay), of 50% of pay on date of disability if service connected. Employees who become disabled from a nonservice connected disability must have ten (10) years of credited service to receive benefits of 25% of pay on date of disability. is 2% of average monthly earnings times years of credited service. The benefits are payable for life, with 120 monthly payments guaranteed, or until recovery, as determined by the Board. If an employee is terminated before completion of five years of continuous service, employee contributions are refunded without interest.

**Contributions**

The Town is required to contribute at an actuarially determined rate (50.53% of valuation payroll for the year ended September 30, 2018). Town and State contributions to the Plan were \$653,895 for the year ended September 30, 2018. Employees are required to contribute a rate of not less than 6.5% of gross earnings. For employees hired before the effective date of Ordinance 12-14, their contribution is reduced to 3% of gross earnings once such employees reach the maximum accrual of 90% of average monthly earnings.

**Plan Investments**

The Board of Trustees is responsible for establishing and amending the Plan's investment policies. The Plan's current investment policy gives the Board discretion to allocate assets provided that no more than 70% of the total market value of assets of the fund shall at any time be invested in common and/or preferred stocks nor shall the aggregate investment in any one issuing company exceed one percent of the outstanding capital stock of that company. The Plan did not hold investments in any one organization that represents 5% or more of the Pension Plan's fiduciary net position. The money-weighted rate of return on Plan investments, net of related investment expenses, was 12.03% for the year ended September 30, 2018.

**Measurement Date**

As permitted by GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, the Town elected to use a measurement date to value the net pension liability and related deferred inflows and outflows as of September 30, 2017, one year prior to the reporting date. The Town's Pension Plans do not issue separate financial statements. Therefore, the disclosures required by GASB 67 as of September 30, 2018, are also included below.

Plan membership in the Police Officer's Pension Plan is as follows:

<b>Total</b>	<b>\$ (158,963)</b>

*Actuarial Assumptions.* The total pension liability was determined by an actuarial valuation as of October 1, 2017, updated to September 30, 2018, using the following actuarial assumptions applied to all measurement periods:

Inflation	2.50%
Salary Increases	6.00%
Discount Rate	7.60%
Investment Rate of Return	7.60%
Mortality	RP2000 Generational, Scale BB
Mortality Disabled	RP2000 Disabled, No Projection Scale

<b>Asset Class</b>	<b>Target Allocation</b>	<b>Long-term Expected Real Rate of Return</b>
Domestic Equity	55%	7.5%
International Equity	10%	8.5%
Broad Market Fixed Income	35%	2.5%

*Discount Rate.* The discount rate used to measure the total pension liability was 7.60%. The projection of cash flows used to determine the discount rate assumed that Plan member contributions will be made at the current contribution rate and that sponsor contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the Pension Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current Plan members. Therefore, the long-term expected rate of return on Pension Plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

*Sensitivity of the Net Pension Liability to Changes in the Discount Rate.* The following presents the net pension liability of the Police Pension Fund, calculated using the discount rate of 7.60%, as well as what the Plan's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

<b>As of September 30, 2018</b>	<b>1% Decrease (6.7%)</b>	<b>Current Discount Rate (7.6%)</b>	<b>1% Increase (8.6%)</b>
Net Pension Liability	\$ 3,384,628	\$ 895,568	\$ (1,150,173)

**Note 8 - Deferred Compensation Plans**

The Town maintains for its employees two deferred compensation plans under provisions of Internal Revenue Code Section 457 (the Plans). The Plans, available to all full-time employees, allow participants to defer a portion of their salary until future years. Plan assets are held in trust for the exclusive benefit of participants and their beneficiaries. The Town has very little administrative involvement, performs no investing function and has no fiduciary responsibility for these Plans. All amounts of compensation deferred under the Plans, all property and rights purchased with those amounts and all income attributable to those amounts, property or rights are solely the property and rights of the participants and are not subject to claims of the Town's creditors. Accordingly, these Plan assets are not reported as a part of these financial statements.

**Note 9 - Other Postemployment Benefits (OPEB)**

The Town provides retirees with the option to purchase health and dental insurance (at their own expense) from the Town's single employer, experience rated health insurance plan (the Plan) that provides medical and dental benefits to active and eligible retirees at the Town's group rate as mandated by Florida Statute 112.0801. State law prohibits the Town from separately rating retirees and active employees; therefore, this requirement creates an implicit rate benefit for the retirees' because, on an actuarial basis, their current and future claims are expected to result in higher costs to the Plan on average than those of active employees. As a result, the Town is subsidizing the premium rates paid by retirees by allowing them to participate in the Plan at reduced or blended group premium rates. The Plan does not issue a separate publicly available financial report.

**Membership Information**

The following table provides a summary of the number of participants in the plan as of October 1, 2017 (the latest valuation date).

Inactive Plan Members or Beneficiaries Currently Receiving Benefits	19
Inactive Plan Members Entitled to But Not Yet Receiving Benefits	0
Active Plan Members	<u>86</u>
<b>Total Plan Members</b>	<u><u>105</u></u>

**Funding Policy**

Contribution requirements for the Plan of the Town are established and may be amended by Town Council. The Town has followed the pay-as-you-go funding policy. The Town pays any remaining required amounts after contributions of Plan members are taken into account. Currently, retired members pay the full premium associated with the coverage elected and there is no direct Town subsidy. Spouses and other dependents are also eligible for coverage, and the member is responsible for payment of the applicable premiums.

**Total OPEB Liability** – The Town's total OPEB liability of \$657,779 was measured as of October 1, 2017, which is one year prior to the reporting date. The actuarial valuation date was October 1, 2017.

**Actuarial Methods and Assumptions**

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of the valuation and the historical pattern of sharing benefit costs between the employer and plan members. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

Actuarial methods and assumptions include the following:

Actuarial Valuation Date:	October 1, 2017
Measurement Date:	October 1, 2017
Reporting Date:	September 30, 2018
Actuarial Cost Method:	Entry Age Normal Cost
Inflation Rate:	2.75%
Discount Rate:	3.50%
Projected Salary Increases:	4.75%-6.00%
Retirement Age:	Retirement ages follow the pension plan retirement ages as described in Note 7.
Mortality:	Healthy members based on various RP-2000 mortality tables with varying Collar adjustments and generational mortality improvements with Scale BB.
Healthcare Cost Trend Rate:	Based on the Getzen Model, with trend starting at 6.50% and gradually trending to an ultimate trend rate of 4.40% in 2040
Expenses:	Administrative expenses are equal to expected expenses during the measurement period as provided by the Town.

**Note 10 - Interlocal Agreement**

The Town annually executes agreements with the Board of County Commissioners of Clay County, Florida (the County). The agreements specify services related to transportation, public safety, culture/recreation, and physical environment that will be performed by the Town or reimbursed to the County for their performance of the services. The intent and purpose of the agreements is to ensure that tax dollars collected in the Town are not allocated to pay costs incurred by the County for providing services in unincorporated areas.

**Note 11 - Risk Management**

The Town is exposed to various risks of loss related to general/professional liability, automobile liability, property damage, and workers' compensation. The Town purchases commercial insurance with various deductibles for the various types of losses. The Town has not had any significant reduction in insurance coverage, and the amounts of insurance settlements have not exceeded insurance coverage for any of the last three years.

**Note 12 - Commitments and Contingencies**

The Town is subject to various disputes, legal proceedings, and labor relation claims, which arise in the normal course of its operations. Although the outcome of these issues is not presently determinable, it is the opinion of the Town that the resolution of these matters will not have a material adverse effect to the financial condition of the Town.

**Note 13 - Restatement**

During the fiscal year ended September 30, 2018, the Town implemented GASB 75 – *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. GASB 75 establishes standards for measuring and recognizing liabilities, deferred outflows of resources, deferred inflows of resources, and expenses/expenditures. In compliance with this statement, the Town's liability for its proportionate share of the net OPEB liability and related deferred outflows and deferred inflows of resources have been recorded resulting in a restatement of beginning net position as follows:

	<b>Net Position Beginning of the Year</b>	<b>Cumulative Effect of Implementing GASB 75</b>	<b>Net Position Beginning of the Year (Restated)</b>

**Notes to Schedule:**

*Changes of Benefit Terms:*

For measurement date 9/30/2016, Ordinance 11-16 was adopted by Town Council on June 7, 2016, which amended benefits for employees not represented by Local 630 or in dispatcher positions. The plan changes that were made in conjunction with that Ordinance are as follows:

- Average annual earnings are the average for the highest five years of service for the last ten years preceding retirement, termination, or death. However, average annual earnings cannot be less than the average annual earnings as of June 7, 2016.
- The benefit multiplier is 2.00% for participants hired on or after June 7, 2016.
- The maximum pension benefit is 75% of average earnings but not less than the maximum pension benefit as of June 7, 2016.
- Employee contributions are 3.00% of gross earnings effective June 7, 2016.

*Changes of Assumptions:*

For measurement date 09/30/2017, as a result of Chapter 2015-157, Laws of Florida, the assumed rates of mortality were changed to the assumptions used by the Florida Retirement System.

*Changes of Benefit Terms:*

For measurement date 09/30/2016, amounts reported as changes of benefit terms resulted from the following changes:

1. Ordinance No. 10-16, adopted and effective June 7, 2016, implemented the following benefit changes:
  - An increase in the Member Contribution Rate
  - An increase in the averaging period for calculation of Average Final Compensation
  - A reduced benefit accrual rate for Members, hired after June 6, 2016
  - Maximum benefit limitations for all Members, expressed as a percentage of Average Final Compensation
  - A benefit commencement date upon attainment of age 55 for Vested Terminated Members
2. Ordinance No. 07-16, adopted and effective April 5, 2016, incorporated language for compliance with the Internal Revenue Code. A letter of No Actuarial Impact was submitted for these changes.

*Change of Assumptions:*

For measurement date 09/30/2016, amounts reported as changes of assumptions resulted from the Experience Study dated 08/08/2016, the Board has adopted the following changes of assumptions:

- Salary Increases
- Mortality Rates
- Normal and Early Retirement Rates
- Withdrawal Rates
- Investment Return
- Payroll Growth

Additionally, the inflation assumption rate was lowered from 3.00% to 2.50%, matching the long-term inflation assumption utilized by the Plan's investment consultant.

**NOTES TO SCHEDULE**

Valuation Date: October 1, 2016  
Actuarially determined contribution rates are calculated as of October 1, two years prior to the end of the fiscal year in which contributions are reported.

Methods and assumptions used to determine contribution rates:

Funding Method: Entry Age Normal Actuarial Cost Method  
Amortization Method: Level Percentage of Pay, Closed  
Remaining Amortization Period: 29 Years (as of 10/01/2016)  
Mortality Rate: Healthy Lives:  
Female: RP2000 Generational, 100% Annuitant White Collar, Scale BB  
Male: RP2000 Generational, 10% Annuitant White Collar / 90% Annuitant Blue Collar, Scale BB  
Disabled Lives:  
Female: 60% RP2000 Disabled Female set forward two years / 40% Annuitant White Collar with no setback, no projection scale  
Male: 60% RP2000 Disabled Male setback four years / 40% Annuitant White Collar with no setback, no projection scale.  
The assumed rates of mortality were mandated by Chapter 2015-157, Laws of Florida. This law mandates the use of the assumptions used in either of the two most recent valuations of the Florida Retirement System (FRS) for special risk participants. The above rates are those outlined in the July 1, 2015 FRS actuarial valuation report.

Termination Rates:	Credited Service	Probability of Termination
	0-5	7%
	6-9	6%
	10-14	3%
	15-19	2%
	20-24	1%

Disability Rates: See table below. 75% of Disability and Pre-Retirement Deaths are assumed to be service connected.

	% Becoming Disabled During the
Age	Year
20	0.03%
30	0.04%
40	0.07%
50	0.18%

Asset Smoothing Methodology: The Actuarial Value of Assets is brought forward using the historical four-year geometric average of Market Value Returns (net-of-fees). Over time, this may result in a de minimis bias that is above or below the Market Value of the Assets.

Inflation: 3.0% per year

Salary Increases: 6.0% per year for less than 5 years of Credited Service, and 5.0% per year for 5 or more years of Credited Service.

Interest Rate: 7.75% per year compounded annually, net of investment related expenses.

Payroll Growth: 0% annually. This assumption is limited by statute to the ten-year payroll growth average.

Retirement Age: Earlier of age 55 and 10 years of service or 25 years of service, regardless of age.

Also, any Member who has reached Normal Retirement Age is assumed to continue employment for one additional year.

Early Retirement: Commencing at the Member's eligibility for Early Retirement (Age 50 with 10 years of service), Members are assumed to retire with an immediate subsidized benefit at the rate of 5% per year.

*Changes of Benefit Terms:*

For measurement date 09/30/2016, Ordinance 08-16 was adopted by Town Council on May 3, 2016. The plan changes that were made in conjunction with that Ordinance are as follows:

- The benefit accrual rate was reduced from 3.20% to 3.00% per year for future new hires, effective May 3, 2016. The supplemental benefit will be \$100 per month.
- A DROP Plan was established for future retirees. The period of participation shall not exceed sixty (60) months and participant DROP accounts will receive the same net-of-fees investment returns that are realized by the Fund while participating in DROP.
- Pursuant to the requirements of Chapter 2015-39, Laws of Florida, a Share Plan was established. A letter of no actuarial impact for the above plan changes was issued, dated March 29, 2016. Future savings will be realized as the current active membership is replaced with new hires at the lower benefit structure.

*Changes of Assumptions:*

For measurement date 09/30/2016, amounts reported as changes of assumptions are as follows:

- The investment return assumption was lowered from 7.90% to 7.80% per year, net of investment related expenses. Additionally, the Board adopted the following assumption changes for future valuations:

<u>Valuation Date</u>	<u>Investment Return Assumption</u>
10/1/2017	7.70%
10/1/2018	7.60%
10/1/2019	7.50%

- The payroll growth assumption was lowered from 0.90% to 0.80% per year in order to comply with the requirements of Part VII of Chapter 112, Florida Statutes.
- As mandated by Chapter 2015-157, Laws of Florida, the assumed rates of mortality were changed from RP-2000 Combined Healthy Tables to the mortality tables for special risk employees used by the Florida Retirement System actuary in the July 1, 2015 actuarial valuation
- The assumed rate of annual COLA increases was lowered from 3.00% to 2.50% per year, equal to the expected long-term inflation rate as provided by the plan's investment consultant.
- For measurement date 9/30/2015, amounts reported as changes of assumption were resulted from lowering the investment rate of return from 8.00% to 7.90%.

**NOTES TO SCHEDULE**

Valuation Date:	October 1, 2016
Actuarially determined contribution rates are calculated as of October 1, two years prior to the end of the fiscal year in which contributions are reported.	
Methods and assumptions used to determine contribution rates:	
Cost Method:	Entry Age Normal Actuarial Cost Method
Amortization Method:	Level Percentage of Pay, Closed
Remaining Amortization Period:	28 Years (as of 10/01/15)
Salary Increases:	6.0% per year up to the assumed retirement age. Projected salary in the year of retirement is increased 20% to account for non-regular compensation.
Interest Rate:	7.8% per year, compounded annually (prior assumption 7.9)%
Payroll Growth Assumption:	0.8% per year
Post Retirement COLA:	2.5% per year, beginning at age 55
Retirement Age:	Earlier of age 55 and 10 years of service or age 52 and 25 years of service.
Early Retirement:	Commencing with the earliest Early Retirement Age (45), Members are assumed to retire with an immediate subsidized benefit at the rate of 5% per year.
Termination Rates:	See table below.
Disability Rates:	See table below. 75% of disablements are assumed to service related.
Mortality:	RP-2000 Table with no Projection (Disabled lives set forward 5 years)
Other Information:	Termination and Disability Rate Table

<b>Age</b>	<b>% Terminating During the Year</b>	<b>% Becoming Disabled During the Year</b>
20	9.3%	0.14%
30	7.9%	0.18%
40	4.3%	0.30%
50	1.1%	1.00%

Marriage Assumption:	100% of participants are assumed to be married, with husbands 3 years older than wives
Asset Valuation Method:	Each year, the prior Actuarial Value of Assets is brought forward utilizing the historical geometric 4-year average Market Value return. It is possible that over time this technique will produce an insignificant bias above or below Market Value.

## **OTHER REPORTS**

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER  
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN  
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

Town Council and Town Manager  
Town of Orange Park, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Orange Park, Florida (the Town), as of and for the year ended September 30, 2018, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements, and have issued our report thereon dated May 14, 2019.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Town's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Town's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE  
WITH SECTION 218.415, FLORIDA STATUTES**

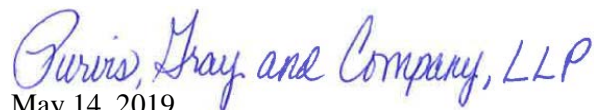

Town Council and Town Manager  
Town of Orange Park, Florida

We have examined the Town of Orange Park, Florida's (the Town) compliance with Section 218.415, Florida Statutes, as of and for the year ended September 30, 2018, as required by Section 10.556(10)(a), *Rules of the Auditor General*. Management is responsible for the Town's compliance with those requirements. Our responsibility is to express an opinion on the Town's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence about the Town's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination does not provide legal determination of the Town's compliance with specified requirements.

In our opinion, the Town complied, in all material respects, with the aforementioned requirements for the year ended September 30, 2018.

This report is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies and pass-through entities, the Mayor, and Town Council members, and applicable management, and is not intended and should not be used by anyone other than these specified parties.

## MANAGEMENT LETTER

Town Council and Town Manager  
Town of Orange Park, Florida

### Report on the Financial Statements

We have audited the financial statements of the Town of Orange Park, Florida (the Town), as of and for the fiscal year ended September 30, 2018, and have issued our report thereon dated May 14, 2019.

### Auditors' Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and Chapter 10.550, *Rules of the Auditor General*.

### Other Reporting Requirements

We have issued our Independent Auditors' Report on Internal Control over Financial Reporting and Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards*; and Independent Accountants' Report on an examination conducted in accordance with AICPA Professional Standards, Section AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, *Rules of the Auditor General*. Disclosures in those reports, which are dated May 14, 2019, should be considered in conjunction with the management letter.

### Prior Audit Findings

Section 10.554(1)(i)1., *Rules of the Auditor General*, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. Corrective actions have been taken to address findings and recommendations made in the preceding annual financial report.

### Official Title and Legal Authority

Section 10.554(1)(i)4., *Rules of the Auditor General*, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. This information is included in the notes to the financial statements.

### Financial Condition and Management

Sections 10.554(1)(i)5.(a.) and 10.556(7), *Rules of the Auditor General*, require that we apply appropriate procedures and report the results of our determination as to whether or not the Town has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and identification of the specific condition(s) met. In connection with our audit, we determined that the Town did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

**MANAGEMENT LETTER**  
*(Concluded)*

**Financial Condition and Management (Concluded)**

Pursuant to Sections 10.554(1)(i)5.(b.) and 10.556(8), *Rules of the Auditor General*, we applied financial condition assessment procedures for the Town. It is management's responsibility to monitor the Town's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.

Section 10.554(1)(i)2.), *Rules of the Auditor General*, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

**Special District Component Units**

Section 10.554(1)(i)5.(c.), *Rules of the Auditor General*, requires, if appropriate, that we communicate the failure of a special district that is a component unit of a county, municipality, or special district, to provide the financial information necessary for proper reporting of the component unit, within the audited financial statements of the county, municipality, or special district in accordance with Section 218.39(3)(b), Florida Statutes. In connection with our audit, we determined that there were no special district component units that were required to be reported in accordance with Section 218.39(3)(b), Florida Statutes.

**Additional Matters**

Section 10.554(1)(i)3., *Rules of the Auditor General*, requires that we address noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with our audit, we did not have any such findings.

**Purpose of this Letter**

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, the Commissioners, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.
