INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees of the City Pension Fund for
Firefighters and Police Officers in the City of Pembroke Pines

We have audited the accompanying financial statements of the City Pension Fund for Firefighters and Police Officers in the City of Pembroke Pines, which comprise the statement of fiduciary net position as of September 30, 2018, and the related statement of changes in fiduciary net position for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the fiduciary net position of the City Pension Fund for Firefighters and Police Officers in the City of Pembroke Pines as of September 30, 2018, and the changes in its fiduciary net position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Prior Year Comparative Information

We have previously audited the City Pension Fund for Firefighters and Police Officers in the City of Pembroke Pines' 2017 financial statements, and our report dated February 1, 2018, expressed an unmodified opinion on those financial statements. In our opinion, the summarized comparative information presented herein as of and for the year ended September 30, 2017, is consistent, in all material respects, with the audited financial statements from which it has been derived.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis on pages 4-7 and the schedules of contributions from employers and other contributors, schedule of investment returns and schedules of changes in the employer's net pension liability and related ratios on pages 29-33 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The schedules of investment and administrative expenses are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with audited standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated February 21, 2019, on our consideration of the City Pension Fund for Firefighters and Police Officers in the City of Pembroke Pines' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City Pension Fund for Firefighters and Police Officers in the City of Pembroke Pines' internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the City Pension Fund for Firefighters and Police Officers in the City of Pembroke Pines' internal control over financial reporting and compliance.

CITY PENSION FUND FOR FIREFIGHTERS AND POLICE OFFICERS IN THE CITY OF PEMBROKE PINES

MANAGEMENT’S DISCUSSION AND ANALYSIS

This section of the annual financial report presents Management Discussion and Analysis (MD&A) of the City Pension Fund for Firefighters and Police Officers in the City of Pembroke Pines’ (the Plan) financial performance. This analysis provides an overview of the financial activities and funding conditions for the fiscal year ended September 30, 2018. Please read it in conjunction with the Plan’s financial statements, which immediately follow.

General Overview of the Plan

The Plan was first established on February 19, 1981 by Ordinance No. 557. The Plan is amended from time to time. The Plan is also governed by certain provisions of Part VII, Chapter 112, Chapter 175 and Chapter 185 of the Florida Statutes.

There is a Board of Trustees (the Board) in whom the general administration, management and responsibility for the proper operation of the Plan is vested.

Overview of the Financial Statements

The financial section of this annual report consists of four parts: the MD&A, the financial statements, notes to the financial statements and supplementary information.

The financial statements provide both long-term and short-term information about the Plan’s overall financial status. The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of other supplementary information that further explains and supports the information in the financial statements.

The Plan’s financial statements are prepared in conformity with accounting principles generally accepted in the United States of America (GAAP). Under GAAP, revenues are recognized in the period in which they are earned, expenses are recognized in the period in which they are incurred and appreciation (depreciation) of assets is recognized in the statement of changes in fiduciary net position. All assets and liabilities associated with the operation of the Plan are included in the statement of fiduciary net position.

The statement of fiduciary net position reports fiduciary net position and how it has changed. A net asset is the difference between the asset and any related liabilities. It is one measurement of the financial health or current position of the Plan.

Financial Highlights

The Plan’s net results from operations for fiscal year 2018 reflected the following financial activities:

- Total net position restricted for pensions was \$662,653,584, which was 11% greater than 2017 total net position restricted for pensions.
- Total contributions were \$31,979,728, which was 7% greater than the 2017 contributions.
- Total interest and dividend income were \$7,854,023, which was 10% lower than the 2017 income.
- Net investment income was \$64,922,938, which was 5% greater than the 2017 income.
- Benefits paid were \$27,200,714, which was 6% greater than the benefits paid during 2017.

MANAGEMENT'S DISCUSSION AND ANALYSIS
(Continued)

Financial Highlights (Continued)

Total contributions for the year were \$31,979,728, which was 7% greater than the 2017 contributions. The amount of employer contributions varies from year to year and is actuarially determined. Participant contributions were 7.0% of compensation for firefighters and police officers hired on or after May 1, 2010 until completion of 26^{2/3} years of continuous service. Participant contributions were 10.4% (6% prior to April 1, 1991) of compensation for firefighters and police officers hired before May 1, 2010 until completion of 26^{2/3} years of continuous service.

Statement of Fiduciary Net Position

The following condensed comparative statement of fiduciary net position is a snap shot of account balances at the fiscal year end of the Plan. It reports the assets available for future payments to retirees and any current liabilities that are owed as of the financial statement date. The resulting net asset value, or assets minus liabilities, represents the value of assets held in trust for Plan benefits.

The Plan continues to be evaluated for actuarial soundness by the actuary of the Plan. It should be noted that retirement system funding is based on a long-term perspective and that temporary fluctuations in the market are to be expected.

- Net position restricted for pensions at September 30, 2018 was \$662,653,584, an 11% increase from the net position at September 30, 2017.
- Total investments at September 30, 2018 were \$642,180,548, a 12% increase from the investments at September 30, 2017.

The table below presents condensed comparative statements of fiduciary net position as of September 30:

	2018	2017	% Change
Cash and cash equivalents	\$ 15,067,413	\$ 21,243,741	(29%)
Receivables	3,690,572	3,048,907	21%
Prepaid expense	2,507,141	2,223,900	13%
Investments, at fair value	642,180,548	573,288,793	12%
Property and equipment, net	335,272	346,406	(3%)
Total assets	663,780,946	600,151,747	11%
Total liabilities	1,127,362	826,023	36%
Net position restricted for pensions	\$ 662,653,584	\$ 599,325,724	11%

Statement of Changes in Fiduciary Net Position

The statement of changes in fiduciary net position presents the effect of Plan's transactions that occurred during the fiscal year. On the statement, additions to the Plan minus deductions from the Plan equal the net increase or decrease in fiduciary net position.

The funding objective is to meet long-term obligations and fund all Plan benefits.

MANAGEMENT’S DISCUSSION AND ANALYSIS
(Continued)

Statement of Changes in Fiduciary Net Position (Continued)

- Revenues (additions to fiduciary net position) for the Plan were \$96,937,715, which was made up of total contributions of \$31,979,728, plus net investment income of \$64,922,938, and other income of \$35,049.
- Expenses (deductions from fiduciary net position) increased from \$31,350,020 during 2017, to \$33,609,855 during 2018.

The table below presents a condensed comparative of the changes in fiduciary net position for the year ended September 30:

	2018	2017	% Change
Total contributions	\$ 31,979,728	\$ 30,018,943	7%
Net investment income	64,922,938	61,789,524	5%
Other income	35,049	8,131	331%
Total additions	96,937,715	91,816,598	6%
Total deductions	33,609,855	31,350,020	7%
Net increase	63,327,860	60,466,578	5%
Net position restricted for pensions – beginning	599,325,724	538,859,146	11%
Net position restricted for pensions – ending	\$ 662,653,584	\$ 599,325,724	11%

Asset Allocation

The table below indicates the Plan’s investment policy limitations and actual asset allocations as of September 30, 2018:

Type of Investment	Investment Policy	Actual Allocation
Domestic equities	42% to 62%	56.60%
International equities	0% to 10%	7.29%
Fixed income	15% to 35%	12.84%
Real assets	0% to 20%	23.27%

The investment guidelines provide for the appropriate diversification of the portfolio. Investments have been diversified to the extent practicable to control risk of loss resulting from over-concentration of a specific maturity, issuer, instrument, dealer or bank through which financial instruments are bought and sold.

The Board recognizes that some risk must be assumed to achieve the Plan’s long-term investment objectives. In establishing the risk tolerances, the Plan’s ability to withstand short and intermediate term variability has been considered. However, the Plan’s financial condition enables the Board to adopt long-term investment perspective.

Investment Activities

Investment income is vital to the Plan for current and future financial stability. The Board has a fiduciary responsibility to act prudently when making plan investment decisions. To assist the Board in this area, the Board retains investment managers who supervise and direct the investment of the assets. The Board also retains an investment monitor to evaluate and report on quarterly basis compliance by the investment managers with the investment policy of the Board and investment performance of the Plan. The investment policy statement was last amended during May 2017.

The Board and its investment consultant review portfolio' performance in compliance with the investment policy statement quarterly. Performance is evaluated both individually by money manager style and collectively by investment type and for the aggregate portfolio.

Financial Analysis Summary

The investment activities for the fiscal year ended September 30, 2018 are a function of the underlying market, money managers' performance and the investment policy's asset allocation model. The Plan has consistently implemented a high quality, conservative approach.

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED SEPTEMBER 30, 2018

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Investment Valuation and Income Recognition

Investments are reported at fair value (see Note 3). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants (see Note 4 for discussion of fair value measurements).

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Basis of Accounting and Use of Estimates

The accompanying financial statements have been prepared using the accrual basis of accounting. The preparation of financial statements in accordance with generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, benefit obligations and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Concentration of Credit Risk

Financial instruments which potentially expose the Plan to concentration of credit risk, as defined by GAAP, consist primarily of cash and cash equivalents, contribution receivables and related income.

The Plan maintains its cash deposits at a financial institution which, from time to time, may exceed federally insured limits. The exposure of the Plan from these transactions is solely dependent upon the daily account balance and the financial strength of the respective institution. The Plan manages this risk by maintaining its deposit accounts at a high quality financial institution. As of September 30, 2018, the Plan had no deposits in excess of federally insured limits.

The Plan's investments consist of common stocks, government securities, corporate bonds, real estate funds, farmland funds, timber funds, mutual funds and money market funds, which inherent in the fair market value determination, include the risk factor of credit worthiness for each individual security.

Cash and Cash Equivalents

The Plan considers all highly liquid investments with an original maturity of three months or less when purchased to be cash equivalents. Deposits are carried at cost and are included in cash and cash equivalents in the statement of fiduciary net position. Cash and cash equivalents include money market accounts at September 30, 2018.

Property and Equipment

Property and equipment are stated at cost and depreciated using the straight line method over the estimated useful lives of the related assets.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Comparative Information

The financial statements include certain prior-year comparative information. Such summarized information does not include sufficient detail in the notes to financial statements to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the Plan's financial statements for the year ended September 30, 2017, from which the information was derived. Certain reclassifications have been made to the prior year financial statements in order for them to be in conformity with the current year presentation.

NOTE 2. DESCRIPTION OF THE PLAN

The following description of the City Pension Fund for Firefighters and Police Officers in the City of Pembroke Pines (the Plan) provides only general information. Participants should refer to the City of Pembroke Pines, Florida's ordinance for more complete information.

General

The Plan is a single-employer defined benefit plan, established by the City of Pembroke Pines, Florida (the City), pursuant to City Ordinance No. 557 (as amended) which became effective February 19, 1981. As the Plan is sponsored by the City, the Plan is included as a pension trust fund in the City's comprehensive annual financial report as part of the City's financial reporting entity.

The Plan is administered by a board of nine trustees (the Board) comprised of three legal residents of the City appointed by the city commission, three active firefighters elected by the active participants of the Plan and three active police officers elected by the active participants of the Plan.

Plan Participation

At September 30, 2018, Plan participation consisted of the following:

Fully vested, partially vested and non-vested	
active employees covered by the Plan	335
Retirees and beneficiaries	389
Terminated employees entitled to benefits	
but not receiving them	<u>5</u>
	<u>729</u>

Eligibility

Participants as of February 19, 1981 are automatically and immediately included. Participation is mandatory for firefighters and police officers upon date of hire or attainment of age 18, if later. The Fire Chief and the Police Chief may elect to participate.

NOTE 2. DESCRIPTION OF THE PLAN (Continued)

Average Monthly Earnings

Average monthly earnings (AME) shall be used and defined in the determination of certain benefits. AME during the highest two years of continuous service for firefighters and police officers preceding the date on which the participant retires or terminates.

Benefits

Participants who have attained age 50 with 10 years of credited service or completion of 20 years of continuous service are eligible for retirement benefits.

Normal Retirement Benefits

- (a) Firefighters - 3.0% times AME times years of continuous service. Maximum 80% of average monthly earnings for the highest two years of continuous service.

Firefighters hired on or before June 18, 2003 shall receive a benefit amount equal to 4.0% per year of continuous service prior to May 1, 2010 plus 3.5% per year of continuous service after April 30, 2010 times AME – maximum 80% of AME, provided they retire or enter the Deferred Retirement Option Plan (DROP) anytime on or after attaining age 50 with 10 years of continuous service but no later than the date they accrue the maximum 80% benefit.

Firefighters hired after June 18, 2003 but before May 1, 2010 shall receive a benefit amount equal to 4.0% per year of continuous service prior to May 1, 2010 plus 3.5% per year of continuous service after April 30, 2010 times AME – maximum 80% of AME. To obtain this benefit, such firefighters were previously required to retire or enter the DROP upon the earlier of completion of 20 years of continuous service or attainment of age 50 with 10 years of service. To obtain this benefit, such firefighters now are required to retire or enter DROP no earlier than upon completion of 20 years of continuous service or attainment of age 50 with 10 years of service, and no later than the date they accrue the same accrual percentage they would have reached under the terms of the Plan in effect prior to April 30, 2010.

In no event shall the benefit for firefighters hired after March 31, 2006 exceed 98% of average monthly regular wages.

Firefighters hired after April 30, 2010 shall receive a benefit amount equal to 3.0% times AME times years of continuous service – maximum 80% of AME.

- (b) Police officers - 3.0% times AME times years of continuous service up to 20 years of service plus 3.5% times AME times years of continuous service in excess of 20 years. Maximum 80% of average monthly earnings for the highest two year of continuous service.

Participants with total and permanent disability not incurred in the line of duty after completion of 10 years of credited service but prior to normal retirement date are entitled to the greater of the then accrued benefit or 35% of average final compensation as of disability date.

Death Benefits

(a) Service Incurred:

To spouse, 50% of AME payable for life. To unmarried children, 5% of AME until death or attainment of age 18 (if full time student attainment of age 22). Total monthly benefit not to exceed 60% of AME. Upon death of spouse, the 5% child allowance shall be increased to 10%, subject to a maximum combined total of 35% of AME.

Benefit above reduced by the actuarial equivalent of payment of:

- If the participant had less than 10 years of continuous service, participant contributions to the beneficiary with 3% simple interest, or
- If the participant had 10 or more years of continuous service, benefit otherwise payable to the participant at the participant's normal retirement date, if applicable, for 10 years certain.

Death Benefits (Continued)

(b) Non-Service Incurred:

Less than 5 years of continuous service, the designated beneficiary receives a lump sum of \$2,500 or return of participant contributions with 3% interest, whichever is greater.

Five or more years of continuous service, the designated beneficiary receives a lump sum of the greater of participant contributions (without interest) or \$2,500, plus, if married, the spouse receives a monthly benefit equal to 50% of the accrued benefit as of participant's date of death but not less than 20% of the monthly earnings rate. To unmarried children of the deceased participant, same benefits as are payable for service incurred death. Combined monthly benefit not to exceed 50% of AME, or 35% of AME after the death or remarriage of spouse.

Benefit above reduced by the actuarial equivalent of payment of:

- If the participant had 10 years or more years of continuous service, benefit otherwise payable to the participant at the participant's normal retirement date, if applicable, for 10 years certain.

Cost of Living Adjustment

- (a) Firefighters - effective April 1, 2005 and each April 1st thereafter, retirees, beneficiaries and DROP participants who were receiving benefits on June 18, 2003 will receive either a 2% cost of living adjustment or an adjustment equal to the total percentage increase in base wages, excluding performance or merit adjustments, whichever is greater.

For firefighters, effective April 1, 2005 and each April 1st thereafter, retirees, beneficiaries and DROP participants who were hired on or before June 18, 2003 and retire or enter the DROP prior to May 1, 2010 and anytime on or after attaining age 50 with 10 years of service but no later than attainment of 20 years of service will receive either a 2% cost of living adjustment or an adjustment equal to the total percentage increase in base wages, excluding performance or merit adjustments, whichever is greater. For those receiving for less than one year the increase shall be prorated.

Firefighter participants who were hired prior to April 1, 2006 who retire prior to May 1, 2010, current retirees and DROP participants shall have the option within 60 days of the effective date of Ordinance 2006-10 to irrevocably elect to receive the cost of living adjustment provided above in lieu of their current cost of living adjustment.

For firefighters, effective April 1, 2011 and each April 1st thereafter, retirees, beneficiaries and DROP participants who were hired before My 1, 2010 and retire or enter the DROP after April 30, 2010 at their normal retirement age receive a 2% cost of living adjustment – prorated for less than one year receipt of benefits.

For firefighters hired after April 30, 2010, the cost of living adjustment is 1.5%.

Cost of Living Adjustment (Continued)

- (b) Police Officers - Police officer retirees, DROP participants, disabled participants and their beneficiaries who retired prior to October 1, 2003 eligible for any supplemental benefit based upon an 8% Plan return threshold subject to cumulative actuarial gains may elect within 60 days to replace this supplemental benefit eligibility entitlement with an annual 2.0% cost of living adjustment retroactive to October 1, 2004.

Police officer retirees, DROP participants, disabled participants and their beneficiaries who retired on or after October 1, 2003 but not later than September 30, 2006 or were in the DROP on or after October 1, 2003 and entered the DROP not later than September 30, 2006 eligible for any supplemental benefit based upon a 9% Plan return threshold subject to cumulative actuarial gains along with a 1.5% cost of living adjustment effective October 1, 2009 and each October 1st thereafter may elect within 60 days to replace this supplemental benefit eligibility and 1.5% deferred cost of living adjustment entitlement with an annual 2.5% cost of living adjustment retroactive to October 1, 2004.

Police officer retirees, DROP participants, disabled participants and their beneficiaries who retire or enter the DROP on or after October 1, 2006 but not later than April 30, 2010 will receive a 3.0% cost of living adjustment effective October 1, 2009 and each October 1st thereafter.

For police officers, effective October 1, 2010 and each October 1st thereafter, retirees, beneficiaries and DROP participants who were hired before May 1, 2010 and retire or enter the DROP after April 30, 2010 at their normal retirement age receive a 2% cost of living adjustment-prorated for less than one year receipt of benefits.

For police officers hired after April 30, 2010, the cost of living adjustment is 1.5%.

Deferred Retirement Option Plan (DROP)

A participant who has reached normal retirement date is eligible to elect to participate in the DROP. A firefighter who reaches normal retirement date before age 50 may participate for the lesser of 5 years or until age 55, provided that firefighters employed as of December 20, 2000 and hired after their 30th birthday, may participate in the DROP no later than completion of 20 years of continuous service in order to participate in the DROP for all full 5 years. A police officer hired after their 25th birthday may participate in the DROP no later than completion of 25 years of continuous service in order to participate in the DROP for a full 5 years. An election to participate in the DROP is irrevocable.

Participants entering the DROP prior to May 1, 2010 could elect annually in advance interest credits of a fixed 8% per annum or Plan's return.

Participants hired before May 1, 2010 entering the DROP after April 30, 2010, may elect annually in advance DROP interest credits based upon either Plan gross return or Plan gross return subject to a minimum of 5% and a maximum of 8% per annum.

13th Check Program (Police Officers Only)

For police officers retired prior to October 1, 2003, up to 2% of investment return in excess of 8% based upon present value of future pension payments of current police officer participants, not to exceed outstanding balance of cumulative net actuarial gains. Any distribution amount allocated to eligible participants based upon years of service with pro-rata share during the first year of entitlement.

For police officers retired on or after October 1, 2003 but before October 1, 2006, up to 2% of investment return in excess of 9% based upon present value of future pension payments of current police officer participants, not to exceed outstanding balance of cumulative net actuarial gains. Any distributable amount allocated to eligible participants based upon years of service with prorata share during first year of entitlement.

For police officers retired on or after October 1, 2006 there is no 13th check.

Funding

All participants are required to contribute 7.00% of their compensation for firefighters and police officers hired on or after May 1, 2010 until completion of 26^{2/3} years of continuous service. Participants are required to contribute 10.40% (6.00% prior to April 1, 1991) of their compensation for firefighters and police officers hired before May 1, 2010 until completion of 26^{2/3} years of continuous service.

Pursuant to Florida Statutes Chapter 175, the City imposes a 1.85% tax on fire insurance premiums paid to insure real or personal property within the City. The proceeds of this tax are contributed to this Plan as part of the City's contribution.

Pursuant to Florida Statutes, Chapter 185, the City imposes a 0.85% tax on casualty insurance premiums paid to insure property within its corporate limits. The proceed of this tax are contributed to the Plan.

The City is expected to contribute such additional amounts as are necessary on an actuarial basis to fund the Plan's expenses, normal cost, and to amortize the unfunded actuarial accrued liability. For the year ended September 30, 2018, the Plan's actuary determined that the required City contribution was \$26,710,046. This amount was paid during the Plan year end.

Rate of Return

For the year ended September 30, 2018, the annual money-weighted rate of return on Plan investments, net of Plan investment expense, was 10.99%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

NOTE 3. INVESTMENTS

The Plan's policy in regard to the allocation of invested assets is established and may be amended by the Board. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the Plan. The Board is authorized to acquire and retain every kind of property, real, personal or mixed, and every kind of investment specifically including, but not by way of limitation, bonds, debentures, and other corporate obligations, and stocks, preferred or common. The investment policy statement was last amended on May 2017. The following was the Board's adopted asset allocation policy as of September 30, 2018:

<u>Type of Investment</u>	<u>Target Allocation</u>
Domestic equities	42% to 62%
International equities	0% to 10%
Fixed income	15% to 35%
Real assets	0% to 20%

During the year ended September 30, 2018, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$60,445,067 (reported as net appreciation in fair value of investments in the statement of changes in fiduciary net position) as follows:

Common stocks	\$ 42,576,640
Fixed income mutual funds	(28,267)
Commingled equity funds	19,473,533
Government securities	(184,533)
Corporate bonds	(3,304,956)
Real estate funds	2,891,649
Farmland fund	643,412
Timber funds	<u>(1,622,411)</u>
Total	<u>\$ 60,445,067</u>

The Plan's investment policy does not use limits on investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The Plan's investments in fixed income investments had maturities as follows:

<u>Investment Type</u>	<u>Fair Value</u>	<u>Less than 1</u>	<u>1 to 5</u>	<u>6 to 10</u>	<u>More than 10</u>
Corporate bonds	\$ 74,603,436	\$ 4,022,987	\$ 41,322,449	\$ 29,258,000	\$ -

The Plan limits investment in the securities of any one issuer, other than the U.S. Government and its agencies, to no more than 5% of fiduciary net position. The Plan had no investments in excess of 5% of fiduciary net position.

“Foreign currency risk” is the risk that fluctuations in currency exchange rate may affect transactions conducted in currencies other than U.S. Dollars and the carrying value of foreign investments. The Plan's exposure to foreign currency risk derives mainly from its investments in international equity funds.

The investment policy limits the foreign investments to no more than 10% of the Plan's investment balance. As of September 30, 2018, the foreign investments were 7.29% of total investments.

NOTE 4. FAIR VALUE MEASUREMENTS

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The fair value hierarchy categorizes the inputs to valuation techniques used to measure fair value into three levels based on the extent to which inputs used in measuring fair value are observable in the market as follows:

Level 1- Inputs to the valuation methodology are based upon quoted prices for identical assets in active markets.

Level 2- Inputs to the valuation methodology are based upon observable inputs for the assets either directly or indirectly, other than those considered Level 1 inputs, which may include quoted prices for identical assets in markets that are not considered to be active, and quoted prices of similar assets in active or inactive markets.

Level 3- Inputs to the valuation methodology are based upon unobservable inputs.

The following is a description of the valuation methodologies used for asset measured at fair value.

Common stocks: Valued at the closing price reported on the New York Stock Exchange.

Fixed income mutual funds: Valued at the daily closing price as reported by the Plan. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Government securities: Valued using pricing models maximizing the use of observable inputs for similar securities.

Corporate bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing the value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs, such as current yield of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks or a broker quote, if available.

Real estate: Valued at the net asset value of shares held by the Plan at year end. The Plan has investments in private market real estate investments for which no liquid public market exists.

Timber funds and farmland funds: Valued at the net asset value of shares held by the Plan at year end.

Commingled equity funds: Valued at the net asset value of shares held by the Plan at year end.

NOTE 6. NET PENSION LIABILITY

The components of the net pension liability of the Plan at September 30, 2018 were as follows:

Total pension liability	\$ 846,652,694
Plan fiduciary net position	<u>662,653,584</u>
City's net pension liability	<u>\$ 183,999,110</u>

Plan fiduciary net position as a percentage of the total pension liability	78.27%
---	--------

The total pension liability was determined by an actuarial valuation as of October 1, 2017, and rolled forward to the measurement date of September 30, 2018, using the following most significant actuarial assumptions, 7.90% for the investment rate of return, 3.00% to 8.00% for projected salary increases and 2.75% for inflation.

Mortality rates are calculated as follows. For healthy participants during employment, RP-2000 Combined Healthy Participant Mortality Tables, separate rates for males and females, with 10% White Collar and 90% Blue Collar adjustment, with fully generational mortality improvements projected to each future decrement date with Scale BB. For healthy participants post employment, RP-2000 Annuitant Mortality Table, separate rates for males and females, with 10% White Collar adjustment and 90% Blue Collar adjustment, with fully generational mortality improvements projected to each future decrement date with Scale BB. For disabled male participants, 60% RP-2000 Disabled Male Mortality Table setback four years and 40% RP-2000 Annuitant Male Mortality Table with White Collar adjustment with no setback, without projected mortality improvements. For disabled female participants, 60% RP-2000 Disabled Female Mortality Table set forward two years and 40% RP-2000 Annuitant Female Mortality Table with White Collar adjustment, without projected mortality improvements.

The long-term expected rate of return on Plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of Plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the Plan's target asset allocation as of September 30, 2018 (see the discussion of the Plan's investment policy) are summarized in the following table:

<u>Asset Class</u>	<u>Long-term expected real rate of return</u>
Large cap equity	5.70%
Mid cap equity	8.60%
Small cap equity	7.60%
International equity	15.40%
Real estate	5.50%
Fixed income	1.40%

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED SEPTEMBER 30, 2018
(Continued)

NOTE 6. NET PENSION LIABILITY (Continued)

The discount rate used to measure the total pension liability was 7.85%. The projection of cash flows used to determine the discount rate assumed that Plan participant contributions will be made at the current contribution rate and that City contributions will be made at rates equal to the difference between actuarially determined contribution rates and the participant rate. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current Plan participants. Therefore, the long-term expected rate of return on Plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The sensitivity of the net pension liability to changes in the discount rate was measured as follows. The net pension liability of the Plan was calculated using the discount rate of 7.85%. It was also calculated using a discount rate that was 1-percentage-point lower (6.85%) and 1-percentage-point higher (8.85%) and the different computations were compared.

	1% decrease	Current discount rate	1% increase
	<u>(6.85%)</u>	<u>(7.85%)</u>	<u>(8.85%)</u>
Net pension liability	\$275,606,718	\$183,999,110	\$100,584,999

NOTE 7. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of fiduciary net position.

Plan contributions are made and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 8. INCOME TAXES

The Plan is exempt from federal income taxes under the Internal Revenue Code and, accordingly, no provision for federal income taxes has been made.

On September 26, 2014, the Plan obtained its most recent determination letter in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with applicable requirements of Internal Revenue Code 401(a).

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a taxing authority. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 9. LEGAL MATTER

The Plan is a party to legal proceedings, investigations, and claims in the ordinary course of operations. The Plan is currently in a legal proceeding whereby a participant claims that the City and the Plan have improperly reduced the participant's benefits due to the participant's election of a non-spousal beneficiary.

The participant asserts that such a reduction is discriminatory on the basis of marital status in violation of Section 175.333(1), of the Florida Statutes, which prohibits discrimination in benefit calculation formulas.

The case was tried during April 2017, and the court entered judgment in favor of the participant. In the judgment, the Court awarded the participant an adjustment of their future benefit payments of \$70,089.32, which represented the difference between what the participant would have received in higher benefits had there been no discriminatory conduct, and ordered the Plan to amend its provisions to comply with Section 175.333(1), of the Florida Statutes. On rehearing, the Court determined that it could not order reformation of future benefits. The Plan and the City of Pembroke Pines have appealed the court's judgment, and the participant has appealed the court's order on rehearing. The appeal is currently pending before the Fourth District Court of Appeal.

The Plan records an accrual for outstanding legal matters when it believes it is probable that a loss will be incurred and the amount can be reasonably estimated. The Plan evaluates along with legal counsel, developments in legal matters that could affect the amount of any accrual and developments that would make a loss contingency both probable and reasonably estimable. If a loss contingency is not both probable and estimable the Plan does not establish an accrued liability. In the opinion of management the ultimate outcome of the claim and litigation, if any, will not have a material effect on the Plan's financial position.

NOTE 10. SUBSEQUENT EVENTS

Management has evaluated subsequent events through February 21, 2019, the date the financial statements were available to be issued.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT
AUDITING STANDARDS**

To the Board of Trustees of the City Pension Fund for
Firefighters and Police Officers in the City of Pembroke Pines

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the City Pension Fund for Firefighters and Police Officers in the City of Pembroke Pines, as of and for the year ended September 30, 2018, and the related notes to the financial statements, which collectively comprise the City Pension Fund for Firefighters and Police Officers in the City of Pembroke Pines' basic financial statements, and have issued our report thereon dated February 21, 2019.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City Pension Fund for Firefighters and Police Officers in the City of Pembroke Pines' internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City Pension Fund for Firefighters and Police Officers in the City of Pembroke Pines' internal control. Accordingly, we do not express an opinion on the effectiveness of the City Pension Fund for Firefighters and Police Officers in the City of Pembroke Pines' internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Plan's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City Pension Fund for Firefighters and Police Officers in the City of Pembroke Pines' financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City Pension Fund for Firefighters and Police Officers in the City of Pembroke Pines' internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the City Pension Fund for Firefighters and Police Officers in the City of Pembroke Pines' internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
