May 20, 2019

To the Honorable Mayor, Commissioners, and Citizens of the City of Safety Harbor:

The Comprehensive Annual Financial Report of the City of Safety Harbor, Florida for the fiscal year ended September 30, 2018, is hereby submitted in accordance with Florida Statutes Chapter 218.39 and Chapter 10.550 of the Rules of the Auditor General of the State of Florida.

This report has been compiled and prepared by the City's Finance Department. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the City has established a comprehensive internal control framework that is designed both to protect the City's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City's financial statements in conformity with GAAP. The City's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

CliftonLarsonAllen LLP, Certified Public Accountants, have issued an unmodified ("clean") opinion on the City of Safety Harbor's financial statements for the year ended September 30, 2018. The independent auditor's report is located at the front of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditors' report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

Profile of the Government

The City of Safety Harbor, incorporated on June 11, 1917, is located in the Tampa Bay area and is primarily a bedroom community with a limited amount of supporting commercial and industrial uses. The City is located halfway between the Tampa International Airport and Pinellas County Beaches; making it perfect for homeowners who travel often but want to share in the beauty of what Pinellas County has to offer. It currently occupies approximately 5 square miles and serves a population of approximately 17,844. The City of Safety Harbor is empowered to levy a property tax on real property located within its boundaries. The City is also empowered by State Statute to extend its corporate limits by annexation, which it has done from time to time.

The City operates under the Commission-Manager form of government. The City Commission is comprised of the Mayor and four Commissioners and is responsible for enacting ordinances, resolutions, and regulations governing the City as well as appointing members to various statutory and advisory boards, the City Manager, and the City Attorney. As chief administrative officer, the City Manager is responsible for enforcement of laws and ordinances and appoints and supervises the City's department heads.

The City provides a full range of municipal services normally associated with a municipality including fire protection, street construction and maintenance, planning, zoning and redevelopment, recreation and parks, library services, storm water management and general administrative services. Law enforcement service is provided via an annual contract with the Pinellas County Sheriff's Office. In addition, water, sewer, solid waste and stormwater services are provided under an enterprise fund concept with user charges set by the City Commission to ensure adequate coverage of operating expenses and payment of outstanding debt.

Local economy

The City continues to take a guarded financial approach and monitors accounts very closely. The City budgets conservatively and in the current fiscal year has managed accordingly given the impact of a 6.9 percent increase in the City's property tax base and an unemployment rate for the local metropolitan area of 3.2 percent. Safety Harbor's advantage is the fact that the City has continued to experience an extremely sound fiscal condition, and as a result has been able to continue on with planned expenditures.

Long-term financial planning

Funding for operations and capital projects is derived from various sources, including user fees, state shared revenue, local option gas tax, Penny for Pinellas 1% sales tax, grants and contributions from state and local governments and investment returns. As sources decline or are no longer available over the next five years, the City cautiously prioritizes critical capital improvements giving consideration to the projects that are matched by grant funds and/or a dedicated funding source.

Relative to operations and economic conditions, in Fiscal Year 2018/2019, the City budgeted for a 7.2 percent increase in property taxable value and maintained the millage rate at 3.95 adding \$175,240 to General Fund reserves. Citywide revenues excluding transfers and debt proceeds were assumed to increase by \$1,884,420 or 5.7 percent over the prior years adopted budget with budgeted appropriations excluding transfers increasing by \$1,232,796 or 2.9 percent.

Relevant financial policies

It is a policy of the City Commission to maintain a General Fund minimum reserve of seventeen (17) percent of General Fund expenditures of the prior years audited financial statements. Additionally, the City Commission approved by resolution a fund balance policy that twenty (20) percent of General Fund operating expenditures, based on the current year's adopted budget, be committed for the specific purpose for use in the event of a major storm or other unforeseen disaster of a nonrecurring character, including environmental damage, flood, fire or tornado; provided that if federal or state funds are received to offset appropriations for such purposes, such monies shall be returned to the Stabilization Arrangement. If needed, replenishment of the stabilization arrangement will be from Unassigned Fund Balance over a period of five (5) years.

The City utilizes the modified accrual basis of accounting for all governmental fund types. Under this modified accrual basis, expenditures are generally recognized when the related liability is incurred. Revenues are recognized in the accounting period when they become measurable and available.

Accounting records for the City's proprietary funds, water, wastewater, solid waste and stormwater, are maintained on an accrual basis with revenues being recognized when earned and expenses recognized when incurred.

Budgetary control is maintained at the departmental level. All purchase orders are compared to available line item control accounts and if necessary, budgetary adjustments are made prior to issuing purchase orders. The City Manager is authorized to transfer any unencumbered appropriated balance or portion thereof between specific classifications of expenditures within a department. By Resolution, the City Commission may authorize the transfer of any unencumbered appropriated balance or portion thereof from one fund, office, or department to another.

Major initiatives

In preparing the Fiscal Year 2018/2019 Budget, the City identified a number of major programs and projects to continue to maintain the City's position of excellent service provision, financial performance, and quality of operational facilities. The Five-year Capital Improvements Plan (CIP) for FY 2018/19 to FY 2022/23 is \$41.3 million, of which \$13.3 million is appropriated in FY 2018/2019. Proprietary fund infrastructure projects make up 71.0 percent of the \$41.3 million five-year budget.

The City remains active with construction projects in the area of drainage including citywide improvements and pipe relining as well as water and wastewater main replacements. Major capital project improvements are programmed in recreation, parks, and streets.

In fiscal 2019, the City Commission prioritized economic and development activities to include the continued promotion of the competitive advantages of living, working and doing business in Safety Harbor; service development to include parks and recreation programs; capital improvement projects and funding to include opportunities to purchase properties and budget development to include the third year of rate increases for long-term sustainability of the City's proprietary funds, which includes an 11.5 percent increase in water and wastewater rates and a 3.00 percent increase in the stormwater rate.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Safety Harbor for its comprehensive annual financial report for the fiscal year ended September 30, 2017. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

This preparation and submission of this report is due to the efficient and dedicated services of the Finance Department staff. We would like to express our sincere appreciation to all members of the department who contributed to the year-end close out process and document preparation. We would also like to express our appreciation to City departmental staff who provided a significant contribution by ensuring the accuracy and integrity of accounting information compiled and submitted throughout the entire year. Our sincerest appreciation is expressed for the City Commission's continued support and interest in the planning and conducting of the City's financial operations in a responsible manner.

We extend our gratitude to the Audit Committee for their continued support and high level of professionalism, and CliftonLarsonAllen LLP for their professionalism and expertise.

INDEPENDENT AUDITORS' REPORT

Honorable Mayor and
Members of the City Commission
City of Safety Harbor, Florida

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Safety Harbor, Florida (City), as of and for the year ended September 30, 2018, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Honorable Mayor and
Members of the City Commission
City of Safety Harbor, Florida

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City as of September 30, 2018, and the respective changes in financial position and cash flows, where applicable, thereof, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As described in Note 13, the City adopted the provisions of Governmental Accounting Standards Board Statement (GASBS) No. 75, *Accounting and Financial Reporting for Postemployment Plans Other Than Pensions*. As a result of the implementation of GASBS No. 75, the City reported a restatement for the change in accounting principle. The auditors' opinion was not modified with respect to the restatement.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis (MD&A), budgetary comparison schedules for the general fund and community redevelopment fund, and pension and other postemployment benefit schedules as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, and budget and actual schedules and statistical section, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and budget and actual schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Honorable Mayor and
Members of the City Commission
City of Safety Harbor, Florida

The introductory section and the statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated May 17, 2019, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

This page left blank intentionally.

The City of Safety Harbor's (the City) annual financial report presents management's discussion and analysis of the City's financial performance during the fiscal year that ended on September 30, 2018. Please read it in conjunction with the transmittal letter at the front of this report (beginning on page v) and the City's basic financial statements (beginning on page 18).

FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of the City of Safety Harbor exceeded its liabilities and deferred inflows at September 30, 2018 by \$71,522,419 (net position). Of this amount, \$13,238,035 (unrestricted net position) may be used to meet the City's ongoing obligations to citizens and creditors.
- The City's total net position increased over prior period by \$2,564,692 or 3.7 percent. Governmental net position increased by \$836,590 or 2.5 percent while business type net position increased by \$1,728,102 or 4.8 percent as of September 30, 2018.
- As of September 30, 2018, the City of Safety Harbor's governmental funds reported combined ending fund balances of \$12,222,091, an increase of \$937,909 in comparison with the prior year. Of this total amount, committed, assigned and unassigned fund balances of \$9,625,399 or 78.8 percent are available for spending.
- The City's total debt for revenue bonds and notes decreased by \$868,023 or 8.8 percent during the fiscal year. This decrease is due to the repayment of principal on outstanding revenue notes and bonds. The City entered into a fifty-year lease agreement with the School Board of Pinellas County for the lease of property on Elm Street for creation of a neighborhood park. The lease of \$250,000 with annual principal payments of \$5,000 has a balance of \$220,000 at September 30th.

OVERVIEW OF THE FINANCIAL STATEMENTS

The financial statements' focus is on both the City as a whole (government-wide) and on the individual funds. Both perspectives (government-wide and individual funds) allow the user to address relevant questions, broaden the basis for comparison from year to year or government to government and enhance the City's accountability.

This discussion and analysis is intended to serve as an introduction to the City of Safety Harbor's basic financial statements, which are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements.

Government-wide financial statements

The *government-wide financial statements* are designed to provide readers with a broad overview of the City's financial position and results of operations in a manner similar to a private-sector business. The government-wide financial statements are located on pages 18 through 20 of this report.

The Statement of Net Position presents information on all of the City's assets and deferred outflows, less liabilities and deferred inflows, with the difference reported as *net position*. The focus of the Statement of Net Position is designed to be similar to bottom line results for the City and its governmental and business-type activities. This statement combines and consolidates governmental fund current economic resources (short-term spendable resources) with capital assets and long-term obligations. Over time, the increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The Statement of Activities presents information showing how the City's net position changed during the most recent fiscal year, focusing on both the gross and net costs of various activities, both governmental and business-type, that are supported by the government's general tax and other revenues. This is intended to summarize and simplify the user's analysis of the cost of basic governmental services as well as any subsidy in the business-type activities.

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City includes general government; law enforcement, fire protection and building department, which provide public safety; physical environment; transportation, which includes activities associated with street lights, streets and sidewalks; library; and parks and recreation, which also includes Main Street events and marina activities. The business-type activities of the City include water and sewer, solid waste and stormwater.

The government-wide financial statements include the City of Safety Harbor as a whole, as well as the component unit the Safety Harbor Community Redevelopment Agency (CRA). The CRA is reported within the general government activities.

Fund financial statements

A *fund* is a grouping of related accounts used to maintain control over the resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the City's near-term financing requirements. The basic governmental fund financial statements can be found on pages 21 through 24 of this report.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the City's near-term financing decisions. The governmental funds' Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balances provide reconciliations to facilitate this comparison between *governmental funds* and *governmental activities*.

The City maintains fifteen individual governmental funds. Information is presented separately in the governmental fund Balance Sheet and the governmental fund Statement of Revenues, Expenditures and Changes in Fund Balances for the General Fund, Community Redevelopment Agency and Capital Projects Funds, which are considered to be major funds. Data from twelve of the governmental funds are combined into a single, aggregate presentation. Individual fund data for each of these non-major governmental funds (Special Revenue and Debt Service Funds) is provided in the form of combining statements in this report, following the Notes to the Financial Statements on pages 89 and 90.

The City adopts an annual appropriated budget for all funds. Budgetary comparison statements have been provided for all major and non-major governmental funds to demonstrate compliance with the budget. The budgetary comparison reporting can be found on pages 78 through 80 and 91 through 102, respectively, of this report.

Proprietary funds. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The City uses enterprise funds to account for its Water and Sewer, Solid Waste and Stormwater (drainage) operations.

The proprietary fund statements provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the City's water and sewer operations, solid waste operation and stormwater operation, all of which are considered major funds. The basic proprietary fund financial statements can be found on pages 25 through 28 of this report.

Internal service funds. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among a government's various functions. The City does not currently utilize internal service funds.

Fiduciary funds. *Fiduciary funds* are used to account for resources held for the benefit of parties outside the City. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support the City's programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The City has one fiduciary fund to account for the firefighters' retirement benefit. The fund is with the Florida League of Cities, Florida Municipal Pension Trust Fund. The basic fiduciary fund financial statements can be found on pages 29 and 30 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 31 through 77 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents *required supplementary information* concerning the City's budgetary legal compliance for the General and Community Redevelopment Agency funds; the City's progress in funding the firefighters' pension obligation, general employee Florida Retirement System pension obligation; and the funding progress of the retiree health plan. *Required supplementary information* and the *notes to the required supplementary information* can be found on pages 78 through 88 of this report.

GOVERNMENT WIDE FINANCIAL STATEMENT ANALYSIS

Statement of Net Position. Net position over time may serve as a useful indicator of a government's financial position. For the current year, the City's assets and deferred outflows exceeded liabilities and deferred inflows by \$71.5 million. The following table reflects the condensed Statement of Net Position compared to the prior year. Throughout this report, increases and decreases are reflected based on current year impacts. For more detailed information see the Statement of Net Position on page 18.

The largest portion of the City's net position, 63.6 percent, reflects its investment in capital assets (e.g., land, buildings, infrastructure improvements, and vehicles and equipment) less any related debt used to acquire those assets that remains outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Resources that are subject to external or enabling legislation that restricts how they may be used make up \$12.8 million (17.9 percent) of net position. The remaining balance of unrestricted net position or \$13.2 million (18.5 percent) may be used to meet the City's ongoing obligations to citizens and creditors.

At September 30, 2018, the City is able to report positive balances in all three categories of net position, both for the City as a whole, as well as for its separate governmental and business-type activities. The same situation held true for the prior fiscal year.

Statement of Activities. The following schedule compares the revenues and expenses for the current and previous fiscal year. More detailed information regarding the Statement of Activities can be found on pages 19 and 20 of this report.

Governmental activities. The net position for the City's governmental activities increased by \$1,353,611.

Total revenues for the City's governmental activities increased by \$497,345 (2.9 percent) over prior year. Key elements are as follows:

- Program revenues decreased by 1.95 percent or \$69,383.
 - Charges for services increased by \$69,599, which reflects a \$264,317 (74.6 percent) increase in the Building Department to include building permits, inspection fees plan checks, fire protection fees, and tree permits with an offset of a decrease in parkland impact fees of \$186,893 under the prior year.

- Operating grants and contributions increased by a net amount of \$122,825. Of this increase, public safety revenue for fire and EMS increased by 6.3 percent. Library revenue from the Pinellas Public Library Cooperative and other contributions increased by 31.2 percent.
- Capital grants and contributions decreased by \$261,807. Current year revenue of \$73,297 is funding Folly Farms, the Mease Area Park Playground and a citizen driven GoFundMe account for the Baranoff Oak contribution to the city in the amount of \$3,054.
- General revenues increased by 4.2 percent or \$566,728.
 - Property tax revenue increased by \$342,549 (7.5 percent). Gross taxable values in the City increased by 6.9 percent over prior year. City taxable values in the Community Redevelopment District increased by 8.38 percent over prior year. The millage rate remained at 3.95 consistent with prior year.
 - Investment income and market value decreased by \$101,332 under prior year, with interest earnings of \$265,950 and a market value decrease of \$324,471. The annual average yield on the city's agency and mortgage obligations increased to 2.64 percent from prior year 2.34 percent.
 - The local option tax increased by \$102,324 (4.8 percent) over prior year. The Penny tax for local government infrastructure improvements throughout the city reflected the largest increase with 6.0 percent over prior year.
 - Franchise fees increased by \$100,910 (7.7 percent) over prior year. The city collects franchise fees of 6.0 percent of gross receipts levied on businesses in exchange for the purpose of operating a franchise for an electric power plant (Duke Energy) or a gas system (Clearwater Gas).

Expenses for the City's governmental activities decreased by \$230,456 or 1.4 percent. Key elements of the net decrease are as follows:

- General government expenses decreased by 2.4. The largest decreases for general government functions were reported in Planning (8.4 percent) due to turnover in the department and Building Maintenance (9.4 percent) due to a reorganization.
- Fire department expenses decreased overall by 3.0 percent. Expenses not requiring the use of current financial resources including pension, depreciation, compensated absences and other post-employment benefits, remained flat in the current year. Further, capital outlay, contracted and other services and expenses as well as materials and supplies all decreased current year. Salaries and fringes increased by 1.6 percent.
- Transportation expenses decreased by 17.3 percent due to staff vacancies and a realignment of staff resources resulting in a corresponding decrease in compensated absences, a decrease in street resurfacing maintenance and other contractual services.

Business-type activities. Business-type activities resulted in an increase in the City's net position by \$1,936,920.

Total revenues for the City's business-type activities increased by \$708,608 (5.2 percent) over prior year. Key elements are as follows:

- Program revenues increased by \$1,059,166 .

- Charges for services includes revenue for water, sewer, and stormwater.
 - The city implemented the first year of a five-year rate change on January 1st of 2017. The current year reflects the second year of the rate increase for water and sewer. Both water and sewer rate changes are an annual 11.5 percent rate increase. Water and sewer revenue increased by \$746,057 a combined increase of 8.7 percent over prior year. The current fiscal year saw a 9.8 percent drop in consumption under prior year, an increase in rainfall of 29.5 percent and no declaration of drought conditions such as occurred in the prior year with lower rainfall.
 - The city implemented the first year of a five-year rate change on January 1st of 2017. The increase in stormwater rates effective October 1st of the current fiscal year was 17.65 percent. Stormwater revenue in the second year of the rate change increased by \$249,183, which is a 21.7 percent increase.
 - Even though evaluated, no rate changes were implemented in solid waste. Solid waste realized a minimal increase of \$1,134 or 0.04 percent.
- General revenues decreased by \$350,558.
 - Investment income decreased by a net amount of \$170,018. Interest earnings increased by \$48,818 to \$355,707 with a decrease in market value of \$218,836 to \$462,735,
 - Other miscellaneous revenues decreased by \$93,792 (12.5 percent). Revenues decreased by 53.33 percent as a result of no current year claims for damages and minor decrease in scrap sales. Indirect allocation of engineering services for water and sewer infrastructure projects decreased by 5.2 percent due to programmed infrastructure projects.
 - The gain on sale of equipment of \$35,888 from the Enterprise funds decreased by \$31,517 for assets in the water, sewer, and stormwater funds.

Expenses for the City's business-type activities increased by \$205,655. Key elements of the increase are as follows:

- Water and sewer expenses increased by \$135,718, which is 1.6 percent over prior year. Of the total, the largest increase is in the purchase of sewer for the city's portion of the Northeast Treatment Plant at \$296,803 or 21.7 percent for a total of \$1,667,750. Purchases of water from Pinellas County decreased under prior year in the amount of \$86,195 or 3.8 percent for a total of \$2,159,978.
- Solid waste expenses decreased by \$53,520 or 1.9 percent under prior year. Of the net decrease, personal services decreased by \$64,746 due to a decrease in the FRS pension valuation and sick and vacation accruals for sanitation employees.
- Stormwater expenses increased by \$123,457 or 11.8 percent to \$1,166,631. Materials and supplies increased by just over \$66,000 for stormwater drainage maintenance activities. Contracted services increased by \$5,343 and \$12,879 for landfill fees and street sweeping services, respectively. Increases are also reflected in depreciation expense and compensated absences for employees of the division.

FUND FINANCIAL STATEMENT ANALYSIS

Governmental funds. The focus of the City's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unrestricted fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of September 30, 2018, the City's governmental funds reported combined ending fund balances of \$12,222,091, an increase of \$937,909 in comparison with the prior year. Of this total amount, \$4,121,377 or 33.7 percent is unassigned and available for spending at the City's discretion. The remainder of fund balance, \$8,100,714 is either not in spendable form or restricted, committed or assigned for specific purposes.

The **General Fund** is the chief operating fund of the City. At September 30, 2018, committed (emergency/stabilization) and unassigned fund balance was \$7,227,003. As a measure of the general fund's liquidity, it may be useful to compare both non-spendable and restricted fund balance as well as unrestricted fund balance to total general fund expenditures. Fund balance that is either non-spendable (inventories and prepaids) or restricted for a specific purpose is 0.4 percent of total general fund expenditures, while committed and unassigned fund balance is 48.3 percent of total general fund expenditures. The City Commission's desire of a minimum unassigned general fund balance of the prior year's operating expenditures is 17 percent (\$2,465,763). As of September 30, 2018, the City's unassigned fund balance meets this goal at 28.4 percent of prior year's operating expenditures.

General Fund balance decreased by \$411,492 in the current fiscal year. Key elements of the decrease are as follows:

- Revenues, including transfers in, total \$14,539,273, which is a net increase of \$715,094 over prior year.
 - Ad valorem revenue increased by \$281,405 with a millage rate of 3.95 consistent with prior year and an increase in property values of 7.23 percent.
 - Utility taxes are increased over prior year by a net amount of \$35,609 or 1.6 percent. The communications service tax decreased by 3.6 percent.
 - Franchise fees increased by \$100,910 (7.7 percent for electric and gas). Fees for electric are based on gross receipts for all retail electrical sales less governmental services not subject to franchise fees, the increase in electric is a result of a increase in gross retail sales for the City's local energy provider Duke Energy.
 - Sales tax increased by \$47,146 or 4.4 percent over prior year. This is based on economic conditions in the current fiscal year.
 - Charges for services increased by \$179,205 (16.8 percent). Building permit and inspections revenues increased overall by \$111,615 (35.6 percent) over prior year. Recreation programs revenue increased by \$71,853 (8.8 percent) over prior year.
 - Interest income and net depreciation in the fair value of investments decreased by \$77,535 due to decrease in market value at September 30, 2018.
 - Intergovernmental revenues from the Pinellas Public Library Consortium increased by 40.9 percent over prior year while revenues from Pinellas County EMS increased by \$72,897. Of note, EMS was overfunded in the current fiscal year and \$60,121 will be repaid to Pinellas County EMS in FY 2019.

- Expenditures of \$14,950,765, including transfers out of \$583,333, reflect a net increase of \$446,277 or 3.0 percent over prior year.
 - Personnel services of \$9,355,522 are increased over prior year by \$84,256 or 0.9 percent. Several factors impacting the current year increase includes:
 - 3 percent merit increases;
 - turnover and staff vacancies;
 - nominal increase of 4.67 percent in health insurance due to turnover and vacancies; and,
 - a decrease of one full-time position in the library and increases in on-call and seasonal positions of 5.21 full-time equivalents in recreation, library and building maintenance.
 - Materials and supplies of \$468,309 decreased by \$3,011 under prior year.
 - Contracted/other operating expenses, including interfund allocations and grants to non-profits, of \$4,432,544 increased by \$227,840 or 5.4 percent. The net increase includes disaster expenses for Hurricane Irma (\$49,517), law enforcement, damages at fire station 52, velocity pumper repairs, and building inspection services.
 - Capital outlay of \$111,057 increased by \$3,733 over prior year. The purchase of library books remains relatively consistent with a nominal drop of 5.7 percent in expenditures under prior year. The library installed new carpeting and new audio-visual equipment was installed at the Museum.
 - Transfers out of \$583,333 are \$133,457 higher than prior year with funds transferred from General Fund to the Street Improvement fund for street resurfacing, Capital Projects fund for deposit to escrow for land acquisitions to include the Baranoff Oak property and King property in fiscal 2019, and Parkland Fund for deposit to escrow for land acquisition in 2019 of additional property adjacent to the Folly Farms park.

The **Community Redevelopment Agency (CRA)** fund balance is \$351,975 as of September 30, 2018. Revenue of \$492,745 is \$58,201 over prior year. Municipal taxable values and County taxable values increased by 8.4 and 8.4 percent, respectively, in the tax increment financing district over prior year. With millage of 3.9500 remaining consistent with prior year, the increase in ad valorem revenue is \$61,144 over prior year. Expenditures of \$588,146, including a transfer of \$157,000 to the General Fund for Waterfront Park, are 0.5 percent lower than the prior year's expenditures. The details for all CRA activities are included in Note 10 on page 76 within this document.

The **Capital Projects** fund balance is \$2,061,773 at September 30, 2018. Revenue of \$1,882,870 from the Penny for Pinellas sales tax is \$105,894 (6.0 percent) over prior year. The "Penny" is eligible for capital infrastructure improvements as well as the servicing of debt. Revenue also includes a contribution of \$45,000 for the Mease Area Park Playground and donations of \$3,054 for the Baranoff Oak property. Current year capital improvements and acquisitions are \$406,815. The most significant capital outlay is for the Waterfront Park, tennis court light replacements at Marshall Street Park, replacement of two vehicles and one bobcat and trailer for the Parks department, improvements at Fire Station 53, the beginning of work for Community Center improvements and brick street restoration and reconstruction. Transfers out to General Fund for Waterfront Park repayment is \$100,000 and to debt service funds is \$903,220. Debt services include a 2008 issuance for library renovations, a 2006 issuance for brick streets and a 2012 issuance for purchase of the Waterfront Park property.

More detail regarding the governmental funds can be found in the Balance Sheet and Statement of Revenues, Expenditures, and Changes in Fund Balance on pages 21 through 24 of this report.

Proprietary funds. The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. Unrestricted net position of the Water and Sewer, Sanitation and Stormwater funds at the end of the year were \$1,412,657, \$1,697,428 and \$1,170,760, respectively. Cumulatively, the unrestricted net position for the enterprise funds decreased by \$1,089,453 under prior year or by 41.7 percent and 9.1 percent in the Water/Sewer and Sanitation funds, respectively and increased by 8.3 percent in the Stormwater fund. Funds restricted for debt service increased by \$99,272 and capital projects decreased by \$346,321. The total increase in net position current year is \$1,728,102, of which investment in capital assets less related debt used to acquire the debt increased by \$3,064,604.

Total operating and non-operating revenue in the proprietary funds increased by \$708,609 with charges for services 7.9 percent or \$996,375 higher than prior year; total investment income is \$170,018 lower than prior year, of which interest income increased by \$48,818 for a total of \$355,707 and the September 30th market value adjustment prior year decreased an additional \$218,836 for a total depreciation of \$462,735; and, other revenues, including intergovernmental, and gain on the sale of capital assets, decreased by 13.5 percent or \$117,748 under prior year. Of the total increase in revenue, water and sewer increased by \$459,691, sanitation revenue decreased by \$27,993 and stormwater increased by \$276,910.

Total expenses in the City's proprietary funds increased by \$205,655 (1.7 percent) over prior year. Cumulatively the total of all funds in each category including salaries and fringes, materials and supplies and contracted/other services increased by \$260,341 while depreciation and amortization of assets decreased by \$59,801. The least significant increase was in salaries with an increase of \$30,335 or 0.9 percent. Materials and supplies increased by \$68,480 or 11.9 percent for citywide technology improvements that are allocated across governmental and enterprise funds. Water includes a decrease of \$86,195 (3.8 percent) for the purchase of water from Pinellas County. Wastewater includes an increase of \$296,803 (21.65 percent) for the treatment of wastewater at the Northeast Treatment Plant.

More detail regarding the proprietary funds can be found on pages 25 through 28 of this report.

General Fund Budgetary Highlights

During the current year, the total increase between adopted and final budget was \$215,369, with a final adopted General Fund budget of \$22,752,419, including budgeted reserves. Supplemental budget amendments for budgeted revenue increased between adopted and final budget by \$79,148 with an increase to balance forward of \$136,221. The most significant differences between adopted and final budget were increases in projected revenues for building permits, proceeds from the sale of assets and insurance settlement recoveries. Supplemental budget amendments for budgeted appropriations increased between the adopted and final budget by \$482,252 with a decrease in budgeted fund reserve of \$266,883. Overall, budgeted appropriations increased in general government, public safety, and transfers to other funds for projects by \$382,477, while engineering services, transportation, library, and parks and recreation appropriations decreased by \$290,854. Larger increases include \$82,500 for inspection services provided by Pinellas County, \$40,000 for the Centennial Celebration, and a \$155,000 transfer from General fund to the Capital Project fund to meet the need of placing funds in escrow for the purchase of two properties in FY 2019.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets. The City's investment in capital assets for governmental and business-type activities as of September 30, 2018 is \$54,867,267, net of accumulated depreciation. As reflected in the following schedule, the City's investment in capital assets increased in construction in progress and improvements other than buildings within governmental and business-type activities. The net increase in the City's investment in capital assets is \$2,020,761 over prior year.

Economic Factors and Next Year's Budgets and Rates

The State of Florida, by Constitution, does not have a state personal income tax and, therefore, the State operates primarily using sales, gasoline, and corporate income taxes. Local governments (cities, counties, and school boards) primarily rely on property and a limited array of permitted other taxes (sales, gasoline, utility services, etc.) and fees (franchise, occupational license, etc.) and limited state-shared revenues for their governmental activities.

- The unemployment rate for the Tampa-St. Petersburg-Clearwater Metropolitan area at September 30, 2018 was 3.2 percent compared to the prior year's 3.6 percent. This compares favorably to Florida's unemployment rate of 3.5 percent and the national unemployment rate of 3.7 percent.
- For the sixth fiscal year, property values have shown recovery with an increase of 7.2 percent in assessed values moving into the 2019 budget cycle. The millage rate was held at 3.9500 for the third consecutive year, budgeting for a General Fund ad valorem revenue increase of \$319,390.
- In FY 2019, \$175,240 was returned to General Fund reserves to balance the budget. Future years' Capital Improvements will require transfers from General Fund reserves to continue with programmed street improvements and other capital projects.
- A rate study for the Enterprise Funds was adopted by City Commission and implemented on January 1st of 2017. Effective October 1, 2018, water and wastewater increased by 11.5 percent, respectively, with a change in base charges and tiers. Stormwater increased by 3.0 percent with the equivalent residential unit (ERU) moving from \$10.00 in fiscal 2018 to \$10.30 in fiscal 2019. No rate increase was recommended for the Sanitation fund.

RECONCILIATION TO THE STATEMENT OF REVENUES,
EXPENDITURES, AND CHANGES IN FUND BALANCES OF
GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED SEPTEMBER 30, 2018

Net change in fund balances - total governmental funds \$ 937,909

Amounts reported for governmental activities in the statement
of activities are different because:

Governmental funds report capital outlays as expenditures. However, in
the statement of activities, the cost of those assets is allocated over their
estimated useful lives as depreciation expense.

Expenditure for capital assets	\$ 1,357,742	
Less, current year depreciation	<u>1,609,862</u>	(252,120)

Repayment of principal on long-term debt is reported as an expenditure in
governmental funds, but a reduction of long-term liabilities in the
statement of net position.

Principal payments	\$ 303,141	
Capital lease payment	<u>5,000</u>	308,141

Some expenses reported in the statement of activities do not require the
use of current financial resources and therefore are not reported as
expenditures in governmental funds.

Pension related amounts	338,332	
Accrued interest on long-term debt	10,799	
Compensated absences	45,439	
Other post employment benefits	<u>(34,889)</u>	<u>359,681</u>

Change in net position - governmental activities	\$ 1,353,611

CITY OF SAFETY HARBOR, FLORIDA
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2018

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The City of Safety Harbor, Florida (the City) is a political subdivision of the state of Florida. The City was originally incorporated on June 11, 1917 and in 1982, the citizens of the City ratified the current City Charter (“the Charter”). The Charter provides for a Commission-Manager form of government. The City was created under legal authority of Chapter 61-2735, laws of Florida, which was subsequently amended by and adopted as ordinance No. 92-36 on December 21, 1992, and passed at referendum on March 9, 1993. The government of the City is operated by the authority of the powers granted by its Charter, as limited by the State Legislature. The City provides a full complement of municipal services, except for certain education, health and welfare services, which are administered by other governmental entities.

The City’s financial statements are prepared in accordance with generally accepted accounting principles (GAAP) as applicable to governmental units, in accordance with the Governmental Accounting Standards Board (GASB). The more significant accounting policies established under GAAP and used by the City are discussed below.

The Reporting Entity

In evaluating the City as a reporting entity, management has addressed all potential component units (traditionally separate reporting entities) for which the City may or may not be financially accountable, and, as such, be included in the City’s financial statements. In accordance with GASB Statement No. 61, the Financial Reporting Entity, the City (the primary government) is financially accountable if it appoints a voting majority of the organization's governing board and (1) it is able to impose its will on the organization or (2) there is a potential for the organization to provide specific financial benefit to or impose specific financial burden on the City. Additionally, the primary government is required to consider other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity’s financial statements to be misleading or incomplete. Management has determined that the Community Redevelopment Agency is the only organization that should be included in the City’s financial statements as a blended component unit.

Blended Component Unit

The Community Redevelopment Agency (CRA) was created in 1992 pursuant to Chapter 163.356, Florida Statutes, City Ordinance 92-24 and City Resolutions 92-25 and 92-26. The City Commission serves as the CRA Board and there is a financial benefit or burden relationship between the City and the CRA. Although legally separate, the CRA is appropriately blended as a special revenue fund type component unit into the primary government. Separate financial statements are not prepared for the CRA.

The City includes advisory boards and commissions within the City in its financial statements in circumstances where the City selects the governing authority, designates management, has the ability to influence operations, and has accountability for fiscal matters of the advisory boards and commissions.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

Government-Wide and Fund Financial Statements

Government-Wide Financial Statements

The government-wide financial statements include the statement of net position and the statement of activities. These statements report financial information for the City as a whole excluding fiduciary activities, such as employee pension plans. Individual funds are not displayed but the statements distinguish governmental activities, generally supported by taxes and City general revenues, from business-type activities, generally financed in a whole or in part with fees charged to external customers.

The statement of activities reports the expenses of a given function offset by program revenues directly connected with the function's program. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with a distinct functional activity. Program revenues include: (1) charges for services, which report fees, fines and forfeitures, and other charges to users of the City's services; (2) operating grants and contributions, which finance annual operating activities; and (3) capital grants and contributions, which fund the acquisition, construction, or rehabilitation of capital assets. These revenues are subject to externally imposed restrictions to these program uses. Taxes and other revenue sources not properly included with program revenues are reported as general revenues. As a general rule, interfund accounts and transactions are eliminated.

Fund Financial Statements

Fund financial statements are provided for governmental, proprietary, and fiduciary funds. Major individual governmental and enterprise funds are reported in separate columns with composite columns for nonmajor funds.

Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements, regardless of the measurement focus applied.

The government-wide financial statements are presented on the accrual basis of accounting. The government funds in the fund financial statements are presented on a modified accrual basis of accounting.

All proprietary funds are maintained on the accrual basis of accounting with revenues being recognized when earned and expenses recognized when incurred. Operating revenues and expenses of the proprietary funds are defined revenues or expenses related to the provision of the applicable service. Non-operating revenues and expenses include items unrelated to the provision of services.

Under the modified accrual basis, revenues are recognized in the accounting period when they become measurable and available. Revenues are generally considered available when they are received in cash (unless legally restricted to some future period) or when earned and expected to be collected soon enough after year-end to pay liabilities of the current period (i.e., within 60 days of the end of the current fiscal period) with the exception of grant receivables which are collected within twelve months. Revenues which are susceptible to accrual are as follows: water, sewer and solid waste collection revenue, state revenue sharing, franchise fees, local infrastructure tax, and intergovernmental grants.

Expenditures are recognized at the time the fund liability is incurred, if measurable. Interest and principal payments on general long-term debt and compensated absences are recognized when paid. When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as needed.

CITY OF SAFETY HARBOR, FLORIDA
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2018

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

Measurement Focus

The governmental fund measurement focus (in the fund financial statements) is based on determination of financial position and changes in financial position rather than on net income. The proprietary fund measurement focus is on the determination of operating income, changes in net position and cash flows similar to businesses in the private sector.

Fund Accounting

In order to ensure observance of limitations and restrictions on the use of the available resources, the financial records and accounts are maintained in accordance with the principles of fund accounting. The financial transactions of the City are recorded in individual funds. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, fund equity, revenues and expenditures or expenses.

The fund financial statements are presented to emphasize the major funds of the City. GASB Statement No. 34, *Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Governments*, sets forth criteria for the determination of major funds. The general fund is always a major governmental fund. Based on the criteria of GASB No. 34, community redevelopment agency and capital projects funds are also considered major governmental funds. The combined total of nonmajor funds is reflected as other governmental funds. For the business-type activities, the water and sewer, solid waste and stormwater funds are considered major funds. There are no other business-type activity funds for consideration. The fund financial statements are prepared on the modified accrual basis for governmental activities and the accrual basis for business-type activities.

Governmental Fund Types

Governmental fund types are as follows:

- General Fund – accounts for and reports for all financial resources not accounted for in another fund.
- Community Redevelopment Agency – accounts for and reports the proceeds of property tax revenue restricted for financing or refinancing community redevelopment pursuant to the City's adopted community redevelopment plan.
- Capital Projects Fund – accounts for and reports financial resources that are restricted, committed or assigned to expenditure for capital outlay.

Proprietary Fund Types

Proprietary fund types are as follows:

- Water and Sewer – to account for the provision of water and sewer services to the residents of the City and some county residents. All activities necessary to the provision of these services are accounted for in this fund, including, but not limited to, administration and system maintenance.
- Solid Waste – to account for the provision of solid waste removal service to the residents of the City. All activities necessary to the provision of this service are accounted for in this fund.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

- Stormwater Utility Fund – to account for the provision of stormwater and drainage services to the City and some County residents. All activities necessary to the provision of this service are accounted for in this fund.

Fiduciary Fund Type

- Fiduciary fund includes the pension trust fund. The measurement focus of the pension trust fund is similar to proprietary funds. Trust funds are used to account for assets held by the City in a trustee capacity. The City reports the Retirement Plan for the Firefighters of the City of Safety Harbor as a pension trust fund.

Interfund Activity

Interfund activity is reported as loans, services provided reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements to a fund for payments initially made, but which are applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reduction of expenditures/expenses in the fund that is reimbursed. All other interfund transactions are treated as transfers. Interfund services provided and used are not eliminated in the process of consolidation. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government-wide statements.

Budgets and Budgetary Accounting

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

- a. At least thirty days prior to October 1, the Budget Officer submits to the City Commission an operating budget and an explanatory message. The budget message contains an outline of the proposed financial policies for the fiscal year: (1) identifies any important changes from the current year in revenue items or appropriations, (2) lists pending funding, (3) presents a complete program and financial plan for the appropriation of expenditures, and (4) presents anticipated revenues and revenue sources.
- b. Public hearings are conducted by the City Commission as required by state and federal law to obtain taxpayer comments on the proposed budget.
- c. The budget is adopted by a majority of all members of the City Commission not later than three days before October 1.
- d. The City Manager is authorized to transfer budgeted amounts between line items within a department; however, any revisions that alter the total expenditures of any department must be approved by the City Commission.
- e. Budgets for the general, special revenue, debt service and capital projects funds are adopted on a basis consistent with GAAP. Budgeted amounts are, as originally adopted or as amended, in accordance with City Ordinance.

Section 7.28 of the City's Code of Ordinances prohibits the expenditure of any money or the incurrence of any liability in excess of the amounts appropriated for these general classifications of expenditures: personal services, contractual and other services, materials and supplies, capital outlay and debt service.

CITY OF SAFETY HARBOR, FLORIDA

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

Appropriations for outstanding authorized encumbrances are automatically reappropriated on October 1st of the new budget year without any further action by City Commission per Section 7.13 of City Code. However, it is management's policy to request City Commission re-appropriate unexpended or unencumbered appropriations in the succeeding year's budget.

Supplemental appropriations in the governmental funds were enacted during the year, as follows:

	<u>Supplemental Appropriations</u>
General Fund	\$ 91,623
Public Safety	5,849
Marina	5,000
Transportation Impact Fees	50,000
Parkland	88,544

Pooled Cash and Investments

The City utilizes a consolidated cash pool to account for cash and investments of all City funds other than those which are required by ordinance to be physically segregated. The consolidated cash pool concept allows each participating fund to benefit from the economies of scale and improved yield which are inherent to a larger investment pool. Formal accounting records detail the individual equities of the participating funds.

Investments in U.S. Treasury, government agency securities and commercial paper are recorded at fair value, as determined by quoted market prices. If quoted market prices are not available, fair values are estimated on the basis of dealer quotes, pricing models, or quoted prices for instruments with similar characteristics. The Local Government Surplus Funds Trust Fund operated by the Florida State Board of Administration is treated as a "2a-7 like" pool in accordance with GASB Statement No.31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*; therefore, it is presented at its actual pooled share price, which approximates fair value.

Cash Equivalents

For purposes of the statement of cash flows, the proprietary funds consider pooled cash and investments to be cash equivalents, since the funds can deposit or effectively withdraw cash at any time without prior notice or penalty.

Receivables

Utility (water and sewer, solid waste and stormwater) operating revenues are generally recognized on the basis of cycle billings rendered monthly. The City recognizes as revenue the estimated unbilled consumption as of September 30. The City has recorded an allowance for potentially uncollectible water and sewer, solid waste and stormwater billings. Accounts receivable of \$1,270,136 in the proprietary funds are shown net of the allowance of \$203,704.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

Taxes Receivable

In the governmental funds, delinquent ad valorem taxes receivable are measurable, but not available as of the end of the fiscal year and are shown as deferred inflows of resources if not expected to be collected soon enough after year-end to pay current liabilities. The deferred inflow will be recognized as revenue in the fiscal year that it becomes available. There were no delinquent ad valorem taxes receivable and related inflows of resources reported by the City for the year ended September 30, 2018.

Property Taxes

Under Florida Law, the assessment of all properties and the collection of all City property taxes are consolidated in the offices of the Pinellas County Property Appraiser and the Pinellas County Tax Collector. The laws of the State regulating tax assessments are also designed to assure a consistent property valuation method statewide. Florida Statutes permit cities to levy property taxes at a rate of up to 10 mils. The millage rate in effect for the fiscal year ended September 30, 2018 was 3.9500.

The tax levy of the City is established by the City Commission prior to October 1 of each year and the Pinellas County Property Appraiser incorporates the millage into the total tax levy, which includes the tax requirements of the municipalities, independent districts, and the Pinellas County School Board.

All property is reassessed according to its fair value on January 1 of each year. Each assessment roll is submitted to the Executive Director of the State Department of Revenue for review to determine if the rolls meet all of the appropriate requirements of Florida Statutes.

All taxes are due and payable on November 1 of each year or as soon thereafter as the assessment roll is certified and delivered to the Pinellas County Tax Collector. All unpaid taxes become delinquent on April 1 following the year in which they are assessed. At this time a lien is placed on the property. Discounts are allowed for early payment at the rate of 4% in the month of November, 3% in the month of December, 2% in the month of January and 1% in the month of February. The taxes paid in March are without discount.

Delinquent taxes on real property bear interest up to 18% per year. On or prior to June 1 following the tax year, certificates are sold for all delinquent taxes on real property. Application for a tax deed on any unredeemed tax certificates may be made by the certificate holder after a period of two years. Unsold certificates are held by Pinellas County.

Delinquent taxes on personal property bear interest of 18% per year until the tax is satisfied either by seizure and sale of the property or by the five-year statute of limitations.

Inventories and Prepaids

Inventories are stated at cost (determined on the first-in, first-out method). Equipment and office supply inventories in the governmental funds are accounted for by the purchase method where inventories are recorded as expenditures when they are acquired. The unused balance is reclassified from expenditure to inventory at year end, and a portion of fund balance is considered nonspendable for the balance of these inventories on hand at year-end. Fuel inventory in the governmental funds is accounted for by the consumption method, where inventories are recorded as expenditures when used.

CITY OF SAFETY HARBOR, FLORIDA
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2018

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

The following is the breakdown in governmental fund inventories at September 30, 2018:

	<u>Amount</u>
Equipment supplies	\$ 21,240
Office supplies	1,052
Fuel supplies	<u>32,335</u>
	<u><u>\$ 54,627</u></u>

Certain advance payments to vendors, i.e. insurance premiums, reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and individual fund financial statements. The cost of these items are recorded as expenditures when consumed rather than when purchased. Prepaid items are equally offset by non-spendable fund balance and are not available for spending even though they are a component of net current assets.

Capital Assets

The City's property, plant, equipment, and infrastructure with useful lives of more than one year are stated at historical cost and comprehensively reported in the government-wide financial statements. The City maintains infrastructure asset records consistent with all other capital assets. Proprietary capital assets are also reported in their respective fund financial statements. Donated assets are stated at acquisition value on the date donated. Acquisition value represents the price that would be paid to acquire an asset with equivalent service potential in an orderly market transaction at acquisition date. The City generally capitalizes assets with a cost of \$5,000 or more. The costs of normal maintenance and repairs that do not add to the asset value or materially extend useful lives are not capitalized. Capital assets, including those of component units, are depreciated using the straight-line method. When capital assets are disposed, the cost and applicable accumulated depreciation are removed from the respective accounts, and the resulting gain or loss is recorded in operations.

The estimated useful lives of the various classes of depreciable assets are as follows:

<u>Assets</u>	<u>Years</u>
Buildings	10 - 50
Infrastructure	5 - 50
Machinery and equipment	3 - 15

Depreciation expense for the year ended September 30, 2018 totaled \$1,609,862 and \$1,890,780 for governmental and business type activities, respectively.

Unamortized Bond Premiums and Prepaid Insurance Costs

Bond premiums and prepaid insurance costs on the proprietary funds' long-term debt are being deferred and amortized over the term of the related bond issue under the bonds outstanding method. Bond premiums are presented as an increase of the face amount of the related bonds payable and prepaid insurance costs are recorded as other assets.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

Compensated Absences

It is the City's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. Vacation and sick leave maximum limits vary depending on an employee's class of service, hire date, etc. but generally vacation cannot exceed 280 hours and sick leave cannot exceed 1,800 hours. Upon separation from the City, an eligible employee is paid for all vacation time not exceeding their maximum limit and from one-quarter to one-half of accumulated unused sick leave not exceeding the sick leave maximum limit, i.e. sick leave payout is 900 hours for an employee with a 1,800-hour maximum limit. The City accrues for all earned but unused vacation pay up to the maximum limit and the portion of unused sick leave estimated to be payable upon retirement. The current portion of compensated absences is the amount estimated to be used in the following year. For governmental activities, compensated absences are liquidated within the governmental fund where the vacation and/or sick are earned.

Long-Term Obligations

In the government-wide financial statements and proprietary fund type financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund type statement of net position. Bond premiums, discounts, and deferred outflows of resources or deferred inflows of resources are amortized over the life of the related debt using the straight-line method, which approximates the effective interest method. Bonds payable are reported net of bond premiums or discounts.

In the separate fund financial statements, governmental fund types recognize bond premiums and discounts as other financing sources. Premiums received on debt issuance are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Postretirement Health and Life Insurance Benefits

The City makes healthcare insurance available for eligible retirees through the City's group health insurance plan, which covers both active and retired members. Retirees pay the full cost of healthcare insurance, which is a single, blended premium rate that is used for both active employees and retired members.

Unearned Revenue

In the government-wide financial statements as well as in governmental, proprietary, and fiduciary fund financial statements, proceeds are reported as an unearned revenue in connection with resources that have been received but not yet earned.

The City sold a 50-year interest in cell tower leases for \$1,027,000 in April 2011. The City's annual expected revenue from the leases is \$20,540. The sale is from the time period of April 19, 2011 through April 30, 2061.

Unearned Revenue (continued)

The sales proceeds of \$1,027,000 are recognized as unearned revenue and amortized over the life of the agreement. As of September 30th, the amount remaining to be amortized for the sale of the cell tower lease is \$874,662. For the fiscal year ending September 30, 2018, \$20,540 was amortized as other revenue. Additionally, recreation, library, and street assessment revenues received but not yet earned total \$92,438 at September 30, 2018.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position reports a separate section for deferred inflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The deferred outflows of resources reported in the City's statement of net position pertain to one or more of the City's pension plans: the Florida Retirement System Pension Plan, the Retiree Health Insurance Subsidy Program, and the Firefighters' Pension Plan. These amounts will be recognized as increases in pension expense in future years.

In addition to liabilities, the statement of financial position reports a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The deferred inflows of resources reported in the City's statement of net position pertain to one or more of the City's pension plans: the Florida Retirement System Pension Plan, the Retiree Health Insurance Subsidy Program, and the Firefighters' Pension Plan. These amounts will be recognized as reductions in pension expense in future years.

Fund Balances

Governmental funds

The City Commission established and adopted by resolution a fund balance policy consistent with the Government Accounting Standards Board Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. The City's policy identifies the classification of fund balances as follows:

- Non-spendable fund balance cannot be spent because it is not in spendable form, legally or contractually required to be maintained intact or is not yet available for spending. The City reports inventories and prepaids as fund balance amounts that are not in spendable form.
- Restricted fund balance is restricted for specific purposes that are either externally imposed by creditors, grantors or laws and regulations of other governments or imposed by law through constitutional provisions or enabling legislation. The City's Special Revenue fund balance policy accounts for the following funds as restricted:

Capital Projects Fund

The Capital Projects fund is used to account for and report the proceeds of the local government infrastructure (Penny for Pinellas) discretionary sales tax that is *restricted* for the purpose of capital outlay, including the acquisition or construction of new facilities and other capital assets, pursuant to Section 212.055(2), Florida Statutes, as may be amended.

Street Light Assessment Fund

The Street Light Assessment Fund is used to account for the proceeds of special assessment revenue *restricted* to expenditure for street lighting services and facilities charges pursuant to Section 170.201, Florida Statutes, as may be amended.

Debt Service Fund

The Debt Service fund is used to account for and report resources that are *restricted* to expenditure for principal and interest of debt service pursuant to bond covenants.

In the event the City no longer expects that a substantial portion of Special Revenue Fund inflows will be derived from restricted or committed revenue sources, the City shall discontinue reporting these funds as a Special Revenue Fund and shall report the funds remaining as resources in the General Fund.

- Committed fund balance may only be used for specific purposes as imposed by formal action of the City Commission, which is the highest level of decision-making authority. Commitments of fund balance may only be removed or changed by taking the same type of action formally used to commit the amount, which is by resolution.

Marina Fund

The Marina fund is used to account for and report the proceeds from marina slip rentals that are *committed* for the specific purpose of marina expenditures, including operating, maintenance and capital outlay and improvements.

City Tree Bank Fund

The City Tree Bank fund is used to account for and reports the proceeds from fines and mitigation for tree removal fees collected in lieu of replacing protected trees that are *committed* for the specific purpose of purchasing trees for use on city property or for use in a City sponsored reforestation program within the City limits; for the payment of fees by the City to a landscape professional or certified arborist for educating City Staff or the general public with regard to tree protection and preservation; or, for such other services or programs deemed to further the intent of Article X, Section 153.07(F) of the City of Safety Harbor Land Development Code.

CITY OF SAFETY HARBOR, FLORIDA
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2018

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

Stabilization Arrangement

Commitment of general fund balance may be made by the City Commission by authorizing resolution for such purposes including, but not limited to, a) meeting future obligations resulting from a natural disaster; b) accumulating resources pursuant to a stabilization arrangement; and/or c) setting aside amounts for specific projects. Once a fund balance has been committed, the City Commission may only change the classification upon duly adopted resolution. The City maintains at a minimum, a fund balance of twenty (20) percent of General Fund operating expenditures based on the current year's adopted budget, including amendments thereto, committed for the specific purpose for use in the event of a major storm or other unforeseen disaster of a nonrecurring character, including environmental damage, flood, fire or tornado; provided that if federal or state funds are received to offset appropriations for such purposes, such monies shall be returned to the Stabilization Arrangement. Replenishment of the stabilization arrangement will be from Unassigned Fund Balance over a period of five (5) years. At September 30, 2018, the fund balance committed for stabilization is \$3,105,626.

- Assigned fund balance is established by City Commission or City Management, the City Manager, and is intended to be used for specific purposes, which are neither considered restricted or committed. The subsequent year's budgeted fund balance shall be assigned by the City Commission and/or City Management (the City Manager) as set forth in the annual budget, and any amendments thereto, to appropriate a portion of existing unassigned fund balance to eliminate a projected deficit in the subsequent year's budget in an amount not to exceed the projected excess of estimated expenditures over estimated revenues, transfers, and other financing sources.
- Unassigned fund balance is the residual classification for the general fund that has not been assigned to other funds and has not been restricted, committed or assigned to a specific purpose within the general fund. The City Commission adopted a resolution whereby there shall be a targeted minimum unassigned fund balance of two months or seventeen (17) percent of General Fund operating expenditures based on the prior year's audited financial statements. This minimum unassigned fund balance shall be in addition to all other categories of unrestricted fund balances.

The spending order of fund balances as established by the City is to first spend restricted amounts when both restricted and unrestricted fund balances are available, unless there are legal restrictions that prohibit such action, such as grant agreements that require a dollar match. Additionally, when expenditures are incurred for purposes for which unrestricted fund balances could be used, the City shall first spend committed fund balance, followed by assigned fund balance, and then unassigned fund balance.

Restrictions on Net Position (Proprietary and Government-Wide)

Restrictions are used to indicate a segregation of a portion of net position equal to the current assets that are restricted for meeting various covenants as may be specified and defined in the revenue bond indenture or by enabling legislation. Usage of restrictions has been limited to the following items:

- Restricted for Debt Service - indicates a portion of net position that is restricted by bond ordinance for payment of governmental and proprietary funds' long-term debt.

Fiduciary Fund Type

Fiduciary net position is used to indicate that a portion of net position that is not available for appropriation or expenditure or are legally segregated for a specified future use.

NOTE 2 – DEPOSITS AND INVESTMENTS

Equity in Pooled Cash and Investments

At September 30, 2018, the carrying amount of the City's deposits with financial institutions was \$5,355,777 and the bank account balance was \$5,740,281. The City's cash deposits were fully insured by federal depository insurance or by collateral held by the City's agent pursuant to the Public Depository Security Act of the State of Florida. This act establishes a multiple financial institution collateral pool in which all financial institutions holding public deposits pledge a pool of collateral against all public deposits they collectively hold. In the event of a default or insolvency by a qualified public depository, any loss not covered by deposit insurance or the proceeds from the sale of securities pledged by the defaulting depository is covered by an assessment against the other qualified public depositories of the same type as the depository in default. The assessment is based upon the average share of the public fund deposits held by each of these depositories during the previous 12 months in relation to total public deposits held by all depositories of the same type during the same period.

Equity in Pooled Investments

Custodial Risk

Custodial credit risk is the risk that a government will not be able to recover deposits or the value of investments in the event of the failure of a depository financial institution or a third party holding the investments' securities. All investments are held in the name of the City and all time deposits are maintained with qualified public depositories, as previously discussed.

Credit Risk

Credit quality risk results from potential default of investments that are not financially sound. Florida Statutes (166.261 and 218.415) and the City's investment policy authorize the City to invest surplus public funds in:

- The Local Government Surplus Funds Trust Fund;
- Direct obligations of the United States Government;
- Obligations guaranteed by the U.S. Government as to principal and interest;
- Interest bearing time deposits or savings accounts:
 - In banks organized under the laws of Florida,
 - In national banks organized under the laws of the United States and doing business and situated in the State of Florida,
 - In savings and loan associations which are under the State of Florida's supervision and in federal savings and loan associations located in Florida and organized under federal law and federal supervision;
 - Financial institution must be approved as a qualified public depository by the State of Florida, Department of Insurance and Treasurer;
- Obligations of the Federal Home Loan Mortgage Corporation; Federal Home Loan Mortgage Corporation Participation Certificates; Obligations of the Federal Home Loan Banks or its district banks; Obligations guaranteed by the Government National Mortgage Association.

The City does not have a policy with respect to credit rating limitations beyond the types of authorized investments.

The City is a participant in the State of Florida State Board of Administration (SBA) Local Government Surplus Funds Trust Fund (Florida PRIME). The SBA Florida PRIME, with a current Standard & Poor's rating of AAAM, manages \$9.5 billion for State and local governments. The SBA is authorized to administer and invest Florida PRIME consistent with Chapter 215.47, Florida Statutes. Florida PRIME operates as a "2a-7 like" fund reporting a dollar weighted average days to maturity at September 30, 2018 of 33 days. The investment policy of Florida PRIME is to manage the dollar weighted average maturity to 60 days or less.

On September 30, 2018, the fair value of the City's investments in Florida PRIME was \$301,533 with no liquidity restrictions.

CITY OF SAFETY HARBOR, FLORIDA
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2018

NOTE 2 – DEPOSITS AND INVESTMENTS (continued):

Qualifying local government investment pools in the State of Florida must comply with applicable Florida statutory requirements. Chapter 218.409(8)(a), Florida Statutes, states that the principal balance within an LGIP trust fund is subject to withdrawal at any time. However, the Executive Director may, in good faith, on the occurrence of an event that has a material impact on liquidity or operations of the trust fund, for 48 hours limit contributions to or withdrawals from the trust fund to ensure that the Board can invest in the monies entrusted to it in exercising its fiduciary responsibility. Such action must be immediately disclosed to all participants, the Trustees, the Joint Legislative Auditing Committee, the Investment Advisory Council, and the Participant Local Government Advisory Council.

With regard to liquidity fees, Chapter 218.409(4) provides authority for an LGIP to impose penalties for early withdrawal, subject to disclosure in the enrollment materials of the amount and purpose of such fees. At present, no such disclosure has been made by the SBA.

At September 30, 2018, there were no redemption fees or maximum transaction amounts, or any other requirements that serve to limit a participant's daily access to 100% of their account value within Florida PRIME.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributable to the quantity of the government's investment in a single user. Pursuant to the City's investment policy, the City diversifies its portfolio to control risk of loss resulting from over concentration of assets in a specific maturity, a specific issuer or a specific instrument and/or class of instruments. This is accomplished by limiting investments to avoid over concentration from a specific issuer or business sector, limiting investments in securities that have higher credit risk, investing in securities with varying maturities, and continuously investing in readily available funds.

The following table shows the City's level of investment in each financial instrument issuer as a percentage of total investments along with the maximum allowed concentration by investment type.

NOTE 2 – DEPOSITS AND INVESTMENTS (continued):

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Pursuant to the City's investment policy, the City manages exposure to declines in fair value caused by rising interest rates by not investing in securities having a maturity date of more than five years from the date of purchase. Reserve funds and other funds with longer-term investment horizons may be invested in securities exceeding five (5) years if the maturity of such investments is made to coincide as nearly as practical with the expected use of the funds. Investment maturities are also laddered (staggered) throughout the year so that a portion of investments mature monthly, which further reduces exposure to declines in fair value. In addition, it is the City's practice to hold all investments until maturity, therefore, decline in fair value, if any, caused by rising interest rates are recognized for accounting purposes, but are never realized. Maturities of the City's investment portfolio are displayed in the table below.

City's Firefighter Pension Plan Deposit and Investments

The City participates in the Florida Municipal Pension Trust Fund which invests assets in the Florida Municipal Investment Trust (FMIvT). The FMIvT is a Local Government Investment Pool (LGIP) administered by the Florida League of Cities for the Firefighters' Pension Plan. The FMIvT is an interlocal government entity and authorized investment under Section 163.01, Florida Statutes used to invest surplus and pension funds. The FMIvT is governed by a Board of Trustees consisting of the president and second vice president of the Florida League of Cities, two representatives who are appointed from the Florida Municipal Insurance Trust and up to three members who are elected officials of governmental entities actively participating in the FMIvT.

Credit Risk

Credit risk exists when there is a possibility the issuer, or other counterparty to an investment, may be unable to fulfill its obligations. The FMIvT is a Local Government Investment Pool (LGIP), and, therefore, considered an external investment pool for GASB reporting requirements. The City is a participating employer in the FMPTF and has a beneficial interest in shares of the FMIvT portfolio – 401(a) Defined Benefit/OPEB. The City's investment is a beneficial interest in the FMIvT 401(a) Defined Benefit/OPEB portfolio, not the individual securities held in the portfolio.

NOTE 2 – DEPOSITS AND INVESTMENTS (continued):

Interest Rate Risk

Through its investment policy and guidelines, the FMIVT manages its exposure to fair value losses arising from increasing interest rates by limiting the modified duration of certain bond funds as follows:

	Fire Pension Investment Pool (FMIVT)	
	Modified Duration	Weighted Average
Fixed Income Fund	in Years	Maturity (WAM) in Years
FMIVT Broad Market HQ Bond Fund	5.00	6.40
FMIVT Core Plus Fixed Income	2.13	7.00

Fair Value Measurement

The City and the Firefighters' Pension Plan categorize fair value measurements within the fair value hierarchy established by generally accepted accounting principles. Investments are reported at fair value other than those using Net Asset Value ("NAV") or amortized cost. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value determination, other than those measured using the NAV as a practical expedient, are made based upon a hierarchy that prioritizes the inputs to valuation techniques. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

Level 1 – Inputs are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 – Inputs include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability, and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

NOTE 2 – DEPOSITS AND INVESTMENTS (continued):

FMIVT Broad Market High Quality Bond Fund

This fund invests mainly in US government and agency securities, asset-backed securities and corporate bonds and notes. The underlying securities have observable level 1 quoted pricing inputs or observable level 2 significant other observable pricing inputs. Most of the security prices were obtained from a pricing service, Interactive Data Corporation (IDC). While the underlying asset values are based on quoted prices or market-corroborated inputs, the net asset value of the portfolio is not publicly quoted. The City reports these shares as level 2, since the value is based on market-corroborated data.

FMIVT Core Plus Fixed Income Fund

This fund invests in two underlying funds, the Franklin Templeton Global Multi-Sector Plus Fund, LP and the Pioneer Institutional Multi-Sector Fixed Income Portfolio, LLC. Shares of these funds are not publicly quoted. These underlying funds invest in a variety of financial instruments, including equity investments, asset-backed securities, debt securities, swaps, forward exchange contracts, credit-linked notes, escrow accounts and litigation trusts for both U.S. and foreign companies and governments. The City reports shares of this fund as level 3, since the value is based on unobservable inputs.

FMIVT Diversified Large Cap Equity Portfolio

This portfolio invests mainly in domestic stocks and in a single underlying fund, the Intech U.S. Broad Enhanced Plus Fund, LLC (Intech Fund), shares of which are not publicly quoted. The majority of the underlying securities have observable level 1 quoted pricing inputs. Most of the security prices were obtained from a pricing service, Interactive Data Corporation (IDC). The value of the portfolio's shares of the Intech Fund investment is determined based on the net asset value provided by the Intech Fund, which was calculated in accordance with generally accepted accounting principles. While most of the underlying asset values are based on quoted market prices, the net asset value of the portfolio is not publicly quoted. The City reports these shares as level 2, since the value is based on market-corroborated data.

FMIVT Diversified Small to Mid Cap Equity Portfolio

This portfolio invests mainly in domestic stocks. The majority of the underlying securities have observable level 1 quoted pricing inputs. Most of the security prices were obtained from a pricing service, Interactive Data Corporation (IDC). While the underlying asset values are based on quoted market prices, the net asset value of the portfolio is not publicly quoted. The City reports these shares as level 2, since the value is based on market-corroborated data.

FMIVT International Equity Portfolio

This portfolio invests in two underlying funds, the Investec International Dynamic Equity Fund, LLC (Investec Fund) and the Wells Capital Management 525 Market Street Fund, LLC (Wells Fund), shares of which are not publicly quoted. Both Funds invest in stocks sold on U.S. and international exchanges, all of which have observable level 1 quoted pricing inputs. The value of the shares of the Investec Fund and the Wells Fund investment is determined based on the net asset value provided by the Funds, which was calculated in accordance with generally accepted accounting principles. The City reports these shares as level 2, since the value is based on market-corroborated data.

FMIVT Core Real Estate Fund

This portfolio invests in a single underlying fund, the Morgan Stanley Prime Property Fund (Morgan Stanley Fund), shares of which are not publicly quoted. The Morgan Stanley Fund invests in core real estate in the U.S. The value of the Morgan Stanley Fund investments was determined based on quarterly real estate appraisals, which were calculated in accordance with generally accepted accounting principles. The City reports these shares as level 3, since the value is based on unobservable inputs.

NOTE 2 – DEPOSITS AND INVESTMENTS (continued):

The assets of the Firefighters' Pension Plan are invested through the Florida Municipal Investment Trust (FMIvT), an external investment pool. The funds within the portfolio are valued at the net asset values provided by FMIvT, which are based upon the values of the underlying assets of the various funds and portfolios. The values of the bond funds and equity portfolios classified as Level 2 are derived from market-corroborated data, while the value of the bond fund classified as Level 3 is based on unobservable inputs. The bonds funds classified as Level 2 invest in U.S. Treasury and agency securities, asset-backed securities and corporate bonds and notes. The investment objective of these funds is to meet or exceed the return of its benchmark. The Core Plus Fixed Income Fund and Core Real Estate Fund, both classified as Level 3, include securities for which exchange quotations are not readily available, and therefore the values are based on various valuation methodologies and are ultimately determined in good faith by the fund's management.

The Core Plus Fixed Income Fund is designed to provide an investment alternative to members that seek a broadly diversified portfolio of fixed-income securities in order to maximize total investment return through a combination of interest income, capital appreciation and currency gains. The commingled funds of the Core Plus Fixed Income Fund invest in a broad spectrum of fixed and floating-rate debt securities that are diversified by credit quality, geography and duration. The equity and international portfolios invest in domestic and foreign stocks. The investment objectives of these funds is to meet or exceed the return of its benchmark. Depending on the fund or portfolio, withdrawals can be made on a semi-monthly or monthly basis. All funds and portfolios require five days' notice, with exception of the International Equity Portfolio, which requires thirty days.

Capital Lease

The City entered into a lease-purchase agreement with the School Board of Pinellas County, Florida for property located at 0 Elm Street, Safety Harbor, which is the site of the former Secondary School that was demolished in 2009. The lease term is fifty (50) years for a purchase price of \$250,000 and requires annual installments of \$5,000 with no annual interest rate. The City may pay in full any time during the term of the lease the outstanding balance of the lease. The future minimum lease payment as of September 30, 2018 is \$220,000.

NOTE 7 – PENSION PLANS:

The City currently contributes to three defined benefit plans, two of which are no longer available to incoming employees. The Florida Retirement System Plan along with its Retiree Health Insurance Subsidy are both multiple employer cost sharing plans. These two plans are no longer offered to incoming full-time general employees. The Safety Harbor Firefighter's Pension Fund is a single employer defined benefit plan and is still offered to full-time firefighters employed with the City. The Florida Retirement System defined benefit plans were replaced with a defined contribution plan currently offered to all full-time general employees. Each of the City's pension plans are administered by a third party.

NOTE 7 – PENSION PLANS (continued):

The City's pension expense totaled \$465,339 for the FRS Pension Plan, HIS Plan and Firefighters Pension Plan for the year ended September 30, 2018.

A. Florida Retirement System

Plan Description

The City contributes to the Florida Retirement System (FRS), a cost-sharing multiple employer Public Employees Retirement System (PERS) defined benefit pension plan controlled by the State Legislature and administered by the Florida Department of Administration and Division of Retirement and covers twenty-seven percent of all the City's full-time employees. The FRS provides retirement and disability benefits, annual cost-of-living adjustments, health insurance subsidy, and survivor benefits to plan members and beneficiaries, respectively. The FRS was established in 1970 by Chapter 121, Florida Statutes. Changes to the law can be made only by an act of the Florida Legislature. Rules governing the operations and administration of the System may be found in Chapter 60S of the Florida Administrative Code. A comprehensive annual financial report of the Florida Retirement System, which includes its financial statements, required supplementary information, actuarial report, and other relevant information, is available from the Florida Department of Management Services' website www.dms.myflorida.com/workforce_operations/retirement/publications.

There are over 1,000 participating employers served by the FRS and Retiree Health Insurance Subsidy (HIS) defined benefit plans. Since January of 1996, the FRS pension plan has been closed to new entrants. The number of years of creditable service required to vest for enrolled employees is determined by the employee's membership class. Employees vest after completing 10 years of creditable service with the exception of the senior management class which vests after completion of 7 years of creditable service. This plan includes an early retirement option which allows members who are vested but have not reached the normal retirement age or date to take a benefit reduction for each year the retirement date precedes the normal retirement age.

Deferred Retirement Option Program (DROP)

The FRS pension plan allows eligible members to participate in the Deferred Retirement Option Program (DROP). This program allows members to retire and continue working, drawing both salary and retirement benefits during participation in this program, up to 60 months. There were 5 employees participating in DROP as of September 30, 2018.

Benefits Provided

The monthly benefit an employee receives is dependent upon the years of creditable service, percentage value of each year of creditable service and average final compensation. Average final compensation is the average of the five highest fiscal years of salary earned during covered employment. The total percentage value of the benefit received is determined by calculating the total value of all service, based on the retirement plan and/or class the employee belonged to when the service credit was earned.

CITY OF SAFETY HARBOR, FLORIDA
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2018

NOTE 7 – PENSION PLANS (continued):

Benefits received by retirees and beneficiaries are increased by a cost-of-living adjustment each July which is based on the June benefit amount. The cost-of-living adjustment (COLA) for retirements or DROP participation effective prior to August 1, 2011 is 3 percent per year. The COLA calculation for retirements with effective retirement dates or DROP begin dates on or after August 1, 2011 is calculated by dividing pre-July 2011 service credit by total service credit at retirement and multiplying by 3 percent.

Contributions

Presently, the System requires a 3.00% contribution from covered members in the regular, special risk and senior management classes. The City is required to contribute an actuarially determined rate. The employers contribution rates are based upon employees' gross earnings and are effective from July 1 thru June 30. The rates effective for July 1, 2018 thru June 30, 2019 are: regular employees, 8.26%; special risk, 24.50%; and senior management, 24.06%. The rates effective for July 1, 2017 thru June 30, 2018 are: regular employees, 7.92%; special risk, 23.27%; and senior management, 22.71%. The contribution requirements of the City are established by and may be amended by the State Legislature. The City's contributions to the System for the fiscal year ending September 30, 2018 was \$147,506 equal to the required contribution for this year.

Pension Costs

At September 30, 2018, the City reported a liability of \$1,646,676 for its proportionate share of the FRS pension plan's net pension liability. The net pension liability was measured as of June 30, 2018 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2018. The City's proportion of the net pension liability was based on contributions made by the city to FRS during the measurement period relative to the total employer contributions made to FRS by all participating employers. At June 30, 2018, the City's proportion was .005466957%, which was a decrease of .00147% from the proportion measured as of June 30, 2017.

The City recognized pension expense of \$57,923 for its proportionate share at September 30, 2018. The proportionate share of deferred outflows of resources and deferred inflows of resources were as follows:

Retiree Health Insurance Subsidy Program

Plan Description

The Retiree Health Insurance Subsidy (HIS) Program is a cost-sharing, multiple-employer defined benefit pension plan established and administered in accordance with section 112.363, Florida Statutes. The Florida Legislature establishes and amends the contribution requirements and benefit terms of the HIS Program.

Plan Benefits

The Program provides a monthly payment to assist retirees of the state-administered retirement systems in paying their health insurance costs. For the fiscal year ended September 30, 2018, eligible retirees and beneficiaries received a monthly HIS payment equal to the number of years of service credited at retirement multiplied by \$5. The minimum payment is \$30 and the maximum payment is \$150 per month, pursuant to section 112.363, Florida Statutes. To be eligible to receive a HIS benefit, a retiree under one of the state administered retirement systems must provide proof of eligible health insurance coverage, which may include Medicare.

CITY OF SAFETY HARBOR, FLORIDA
NOTES TO THE BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2018

NOTE 7 – PENSION PLANS (continued):

Contributions

The HIS plan is funded by required contributions from FRS participating employers set by the Florida Legislature. Employer contributions are a percentage of gross compensation for active FRS members. The City is required to contribute an actuarially determined rate. The contribution requirements of the City are established by and may be amended by the State Legislature. Pursuant to Section 112.363, Florida Statutes, for the fiscal year ended September 30, 2018, the contribution rate was 1.66 percent of gross compensation. The City's contribution to the HIS plan for fiscal year ending September 30, 2018 was approximately \$21,810, equal to the required contribution for this year.

Pension Costs

At September 30, 2018, the City reported a liability of \$452,206 for its proportionate share of the HIS pension plan's net pension liability. The net pension liability was measured as of June 30, 2018 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2018. The City's proportion of the net pension liability was based on contributions made by the city during the measurement period relative to the total employer contributions made by all participating employers. At June 30, 2018, the City's proportion was .004272498%, which was a decrease of .00108% from the same as the proportion measured as of June 30, 2017.

The City recognized a pension contra-expense in the amount of \$43,442 for its proportionate share at September 30, 2018. The proportionate share of deferred outflows of resources and deferred inflows of resources were as follows:

Description	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences Between Expected and Actual Economic Experience	\$ 6,923	\$ 768
Changes in Actuarial Assumptions	50,291	47,811

NOTE 7 – PENSION PLANS (continued):

A total of \$5,306 was reported as deferred outflows of resources as a result of contributions subsequent to the measurement date. This amount will be recognized as a reduction of the net pension liability in the year ending September 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in pension expense as follows:

<u>Year Ending June 30</u>	<u>Amount</u>

2023	(47,274)
Thereafter	(19,626)

Actuarial Assumptions

Valuations for the HIS program are performed biennially. Total pension liability was determined by actuarial valuation using the following assumptions:

<u>HIS Pension Plan Assumptions</u>	
Valuation date	7/1/2018
Measurement date	6/30/2018
Inflation	2.60%
Salary increases (including inflation)	3.25%
Mortality	Generational RP-2000 with Projection Scale BB tables
Actuarial cost Method	Individual Entry Age
Municipal Bond Rate*	3.87%

*The municipal rate used to determine total pension liability increased from 3.58% to 3.87%

The discount rate used to measure the total pension liability was 3.87% for the HIS Plan. In general, the discount rate for calculating the total pension liability is equal to the single rate equivalent to discounting at the long-term rate of return for benefit payments prior to the projected depletion date. Because the HIS benefit is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate, and the single equivalent discount rate is equal to the municipal bond rate selected by the HIS Plan sponsor. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the municipal bond index.

B. Defined Contribution Plan

The City contributes to one defined contribution plan for employees starting after January 1, 1996 (Opt-Out Plan). Plan provisions and contributions are established by City Resolution. The plan is administered by ICMA Retirement Corporation. Plan investments are recorded at fair value. The Opt-Out Plan is fully vested upon completion of five or more years of service. The City contributes 8% of participants' earnings to the 401(a) plan accounts for general employees. Employees are not permitted to contribute to this plan. Employer contributions are recognized in the period that the contributions are due. The City contribution to the 401(a) plan accounts for general employees was \$397,240 for the year ended September 30, 2018. For the City Manager, retirement participation is in a 401(a) plan with the ICMA with a 12.5% City contribution. The total plan contribution for fiscal year 2018 for the City Manager was \$18,040.

C. Firefighters' Pension Plan

Plan Description

Plan Administration. The City of Safety Harbor Firefighter Pension Fund ("Firefighters Plan") has been established to conform to the Retirement Trust Fund provisions of Chapter 175 of Florida Statutes, as modified by local ordinance. The Firefighters Plan is a single employer defined benefit plan, which is administered by the Board of Trustees, which was established by local ordinance and covers all firefighters employed by the City of Safety Harbor.

The Board of Trustees is composed of five members. Two members are appointed by City Commission, two are elected by plan members and one is elected by the Board of Trustees and appointed by the City Commission.

The Firefighters Plan issues a stand-alone financial report each year that contains information about the plan's fiduciary net position. The plan's fiduciary net position has been determined on the same basis used by the pension plan and is equal to the market value of assets calculated under the accrual basis of accounting. This report is available to the public at the plan's administrative office: Retirement Department, Florida League of Cities, Inc., P.O. Box 1757, Tallahassee, FL 32302 or calling (800) 342-8112.

NOTE 7 – PENSION PLANS (continued):

Plan Membership. At September 30, 2018, pension plan membership consists of the following:

Membership Classification	Number of Plan Members
Inactive plan members or beneficiaries currently receiving benefits	0
Inactive plan members entitled to but not yet receiving benefits	3
Active plan members	23
	<u>26</u>

Benefits Provided. The Firefighters Plan provides retirement, disability and pre-retirement death benefits. Retirement benefits for plan members are calculated as 3 percent of average earnings (highest 5 years of pensionable earnings out of last 10 years) times the members' years of service. Disability benefits are calculated as 42 percent of average earnings or result of retirement pension formula, whichever is largest. The minimum disability benefit is calculated as 2 percent of average earnings times the years of service. Pre-retirement death benefits are calculated as 50 percent of pensionable earnings. Normal retirement for plan members is 55 years of age with 10 years of service or any age with at least 25 years of service. Early retirement is available to plan members 50 years of age with at least 10 years of service. Early retirement pension is reduced by 3 percent for each year by which the early retirement date precedes the normal retirement date. Plan members become 100 percent vested after 10 years of service. Benefit terms provide for annual cost-of-living adjustments of 2 percent per annum.

Contributions. Plan members are required to contribute 1 percent of their annual covered salary. The City's contribution to the fund is determined by actuarial valuation. The City is required to contribute an amount equal to the minimum required contribution as a percentage of covered payroll. The employee contribution requirement may be amended by City ordinance but the employer contribution requirement is subject to State minimums. The City's contribution of \$419,768 (24.52 percent of covered payroll) for 2018 is reflected in the departmental expenditures section of the General Fund. The State of Florida levies a tax on property, casualty and auto insurance premiums, the proceeds of which are distributed to the Plan. The State of Florida's contribution to the retirement trust fund was \$92,010 for 2018 and represents on-behalf payments of fringe benefits and salaries that are reflected as both revenue and expenditures in the General Fund and government wide statements.

Pension Expense and Deferred Outflows and Inflows of Resources. At September 30, 2018, the City reported a net pension asset of \$1,971,895. The net pension asset was measured as of September 30, 2018. The City recognized pension expense of \$450,858 at September 30, 2018. Deferred outflows of resources and deferred inflows of resources were as follows:

Investments

Investment Policy. The Plan's policy in regard to the allocation of invested assets is established and may be amended by the Florida League of Cities. The primary investment objective is long-term capital and income growth consistent with capital conservation. Consistent returns and avoiding extreme market value volatility is emphasized. Plan target allocation as of September 30, 2018 was as follows:

Investment Category	Target Allocations
Core Bonds	16%
Multi-Sector	24%
US Large Cap Equity	39%
US Small Cap Equity	11%
Non US Equity	10%
Total or Weighted Arithmetic Average	<u>100%</u>

For the year ended September 30, 2018, the long-term investment rate of return assumption was 4.08%. The money-weighted rate of return, which expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested, was 8.20% for the year ended September 30, 2018.

Cost of living increases	2.00% per annum

*The discount rate was used to discount all future benefit payments (2.92 % per annum is attributable to long-term inflation).

**Because the aggregate actuarial cost method does not identify or separately amortize unfunded actuarial liabilities, information about funded status and funded progress is prepared using the entry age normal cost method and is intended to serve as a surrogate for the funded status of the plan.

Mortality Basis: Sex-distinct rates set forth in the RP-2000 Blue Collar Mortality Table with full generational improvements in mortality using Scale BB.

Retirement is assumed to occur at the most valuable retirement age.

Firefighters' Pension Plan – Share Plan

Plan Description

In accordance with Chapter 175, Section 351(6) of Florida Statutes, the Firefighters Plan has a defined contribution plan component ("Share Plan") which provides special benefits to firefighters enrolled in the defined benefit plan. This Share Plan is funded solely by Chapter 175 premium tax monies allocated to the plan. Since 1999 annual premium tax proceeds have been set aside for extra benefits and in fiscal year 2014, City Commission adopted a resolution allowing firefighters enrolled in the Firefighters Plan a share of these proceeds based on years of service until retirement. Normal vesting in this plan occurs after 10 years of employment. The Share Plan balance as of September 30, 2018 is \$1,157,113.

NOTE 8 – DEFERRED COMPENSATION PLAN:

The City offers an optional deferred compensation plan, created in accordance with Internal Revenue Code Section 457, to all employees in addition to pension plans. Under the provisions of Internal Revenue Code Section 457, *Deferred Compensation Plans*, and GASB Statement No. 32, *Accounting and Financial Reporting for IRS Code Section 457 Deferred Compensation Plans*, all assets and income of the plan are held in trust for the exclusive benefit of participants. Accordingly, the assets and liabilities of the plan are not reported within the City's financial statements at September 30, 2018.

NOTE 9 – OTHER POSTEMPLOYMENT BENEFITS (OPEB):

Plan description

The City operates a single-employer retiree benefit plan (the "Plan") that provides certain healthcare related benefits to retirees and certain other employees. The City is required by section 112.0801, Florida Statutes, to allow retirees and certain other former employees to continue to participate in the City's fully insured plan.

Benefits provided

Retirees are fully responsible for payment of their insurance premiums, and the City generally does not contribute toward this payment. However, retirees pay for the cost of this benefit at a single, blended premium rate that the City uses for both active employees and retirees. The difference between the amount the retiree is required to pay at the implicitly subsidized premium rates and the actual cost to the City meets the definition of OPEB.

Plan Membership. At September 30, 2018, pension plan membership consists of the following:

<u>Membership Classification</u>	<u>Number of Plan Members</u>
Inactive plan members or beneficiaries currently receiving benefits	13
Inactive plan members entitled to but not yet receiving benefits	0
Active plan members	143
	<u>156</u>

Contributions

The required contribution by the City is based on pay-as-you-go financing requirements. Retirees must contribute an amount equal to 100% of the applicable health insurance premium as determined by the carrier. The City has no legal or contractual obligation to make contributions to a qualified trust to fund OPEB.

Net OPEB Liability

The City's net OPEB Liability was measured as of September 30, 2018, and the total OPEB Liability used to calculate the net OPEB Liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions

Total pension liability was determined by actuarial valuation as of September 30, 2018, using the following actuarial assumptions:

Actuarial valuation date	10/1/2017
Measurement date	9/30/2018
Discount rate*	3.64% per annum
Salary increases	3.00% per annum
Cost-of-living Increases	Retiree contributions, health insurance premiums, and the implied subsidy have been assumed to increase in accordance with the healthcare cost trend rates.
Healthcare cost trend rates	Increases in healthcare costs are assumed to be 8.00% for the 2017/18 fiscal year graded down by 0.50% per year to 5.00% for the 2023/24 and later fiscal years.
Mortality	Sex-distinct rates set forth in the RP-2000 Combined Mortality Table (general employees) or RP-2000 Blue Collar Mortality Table (firefighters), both with full generational improvements in mortality using Scale BB.
Retirement	For general employees, retirement is assumed to occur at age 62 with five years of service; for firefighters, retirement is assumed to occur at age 55 with 10 years of service.
	No assumptions were changed since the prior measurement date

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point.

This actuarial valuation involves estimates of the value of reported amounts and assumptions about the probability of events far into the future. Examples include assumptions about future employment, mortality and the healthcare cost trend. Amounts determined in the valuation are subject to constant revision as actual experience are compared with past expectations and new estimates are made about the future. The schedule of changes in the City's net OPEB liability, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information and shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial liabilities for benefits.

NOTE 11 – RISK MANAGEMENT:

The City is a member of Public Risk Management (PRM), a local government liability risk pool. PRM administers insurance activities relating to property, general, automobile and public officials' liability, employees' health and auto physical damage. PRM absorbs losses up to a specified amount annually and purchases excess and other specific coverages from third-party carriers. PRM assesses each member their pro rata share of the estimated amount required to meet current year losses and operating expenses. If total member assessments (premiums) do not produce sufficient funds to meet its obligations, PRM can make additional limited assessments. Losses, if any, in excess of PRM's ability to assess its members would revert back to the member that incurred the loss. No additional assessments were levied by PRM to the City for the fiscal year ended September 30, 2018. The City had no significant reductions in insurance coverage during the fiscal year ended September 30, 2018. In addition, there have been no settlements that exceeded the City's insurance coverage in any of the past three fiscal years.

NOTE 11 – RISK MANAGEMENT (continued):

The City is a defendant in various legal actions that, in the opinion of management, will not have a significant effect on the financial position or results of operations of the City.

NOTE 12 – STATE AND FEDERAL GRANT CONTINGENCIES:

Grant monies received and disbursed by the City are for specific purposes and are subject to review by the grantor agencies. Such audits may result in requests for reimbursement due to disallowed expenditures. Based upon prior experience, the City does not believe that such disallowance, if any, would have a material effect on the financial position of the City.

NOTE 13 – CHANGE IN ACCOUNTING PRINCIPLE:

During the year ended September 30, 2018, the City adopted GASB Statement No. 75 Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. These pronouncements require the restatement of the September 30, 2017 net position of the governmental activities and proprietary funds as follows:

NOTE 14 – SUBSEQUENT EVENTS

In November 2018, the City adopted Resolution No. 2018-31 authorizing issuance of Revenue Note, Series 2018 in the amount of \$1,395,000, with an interest rate of 3.43% with a 10-year term. The obligation will be paid from budgeted and appropriated non-ad valorem revenue. This Note is issued to finance the acquisition of two real properties that are situated within the City Limits. The Commission entered into Purchase and Sale agreement for the property known as the Baranoff Oak to be used for park land and the King property to be used for public works and building maintenance purposes. The Baranoff property closed in March 2019 and the King property closed in December 2018. The Baranoff Oak tree property was \$1M; \$350k for the King property; and the balance of \$45.5k was for closing costs. The first principal and interest is scheduled for March 2019 and is in Budget Resolution 2018-27.

In December 2018, the City adopted of Resolution No. 2018-36 authorizing the issuance of the Water and Sewer Revenue Note, Series 2018 in the principal amount of \$8,663,200 for the purpose of financing and/or reimbursing the costs associated with improvements to the City's Water and Sewer Utility System; fixing certain terms and details of such note; authorizing the private negotiated sale of such note to Centerstate Bank N.A. This would be a 10-month non-revolving line of credit, with a fixed interest rate of 3.36% for the term of the loan (15 years, with principal amortization providing a level annual debt service payment). Should interest rate lower, this could be pre-payable without penalties.

CITY OF SAFETY HARBOR FLORIDA
NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION
SEPTEMBER 30, 2018

Firefighters' Pension Plan

Actuarial assumptions and methods. The amounts reported for the year ended September 30, 2018 are based on the October 1, 2017 actuarial valuation. This valuation used the aggregate cost actuarial method. Information about funded status and funded progress is prepared using the entry age normal cost method due to the aggregate actuarial cost method not identifying or separately amortizing unfunded actuarial liabilities. Assets were valued using the market value method. The discount rate used was 7.00% and the valuation assumes per annum increases in salaries at a rate of 4.50% and cost-of-living at a rate of 2.00%

Changes to benefit terms. There were no changes to the plans benefit terms since the prior measurement date.

Changes to assumptions. The mortality basis was changed from a 2015 projection of the RP-2000 Mortality Table for annuitants to the RP-2000 Blue Collar Mortality Table with full generational improvements in mortality using Scale BB.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

Honorable Mayor and
Members of the City Commission
City of Safety Harbor, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Safety Harbor, Florida (City) as of and for the year ended September 30, 2018, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated May 17, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Honorable Mayor and
Members of the City Commission
City of Safety Harbor, Florida

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

MANAGEMENT LETTER

Honorable Mayor and
Members of the City Commission
City of Safety Harbor, Florida

Report on the Financial Statements

We have audited the financial statements of the City of Safety Harbor, Florida (the City), as of and for the fiscal year ended September 30, 2018, and have issued our report thereon dated May 17, 2019.

Auditors' Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and Chapter 10.550, Rules of the Auditor General.

Other Reporting Requirements

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards* and Independent Accountants' Report on an examination conducted in accordance with *AICPA Professional Standards*, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports, which are dated May 17, 2019, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding financial audit report. The status of prior year's finding and recommendation are listed in Appendix A.

Official Title and Legal Authority

Section 10.554(1)(i)4., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. The City discloses this information in the notes to the financial statements.

Financial Condition and Management

Sections 10.554(1)(i)5.a. and 10.556(7), Rules of the Auditor General, require us to apply appropriate procedures and communicate the results of our determination as to whether or not the City has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and to identify the specific condition(s) met. In connection with our audit, we determined that the City did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Honorable Mayor and
Members of the City Commission
City of Safety Harbor Florida

Pursuant to Sections 10.554(1)(i)5.b. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures for the City. It is management's responsibility to monitor the City's financial condition, and our financial condition assessment was based in part on representations made by management and review of financial information provided by same.

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we communicate any recommendations to improve financial management. See Appendix B.

Special District Component Units

Section 10.554(1)(i)5.d., Rules of the Auditor General, requires, if appropriate, that we communicate the failure of a special district that is a component unit of a county, municipality, or special district, to provide the financial information necessary for proper reporting of the component unit within the audited financial statements of the county, municipality, or special district in accordance with Section 218.39(3)(b), Florida Statutes. The City does not have any special district component units.

Additional Matters

Section 10.554(1)(i)3., Rules of the Auditor General, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but warrants the attention of those charged with governance. In connection with our audit, we did not note any such findings.

Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, the City Commission, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.

Appendix A – Status of Prior Year Finding and Recommendation

Prior Year Findings and Recommendations		Current Year Status		
		Cleared	Partially Cleared	Not Cleared
2017-001	Timing of Bank Reconciliations		See 2018-001	

Appendix B – Current Year Findings and Recommendations

2018-001 – Adequate Preparation and Review of Bank Reconciliations

Criteria:

Bank reconciliations must be adequately prepared, reviewed, and approved.

Condition:

During our testing of cash, we noted a post-closing entry of \$88,525 to reconcile the September monthly bank reconciliation back to the general ledger.

Cause:

Reclassification error in posting of transaction to the proper account as this transaction should have been a liability as of year-end.

Effect:

Reclassification to liability and debit to cash in the amount of \$88,525, which was provided as a post-closing entry by the client.

Recommendation:

Management should ensure bank reconciliations are performed adequately and any adjustments should be discovered timely.

Management Response:

Management concurs.

INDEPENDENT ACCOUNTANTS' REPORT

Honorable Mayor and
Members of the City Commission
City of Safety Harbor, Florida

We have examined the City of Safety Harbor, Florida's (City) compliance with Section 218.415, Florida Statutes, regarding the investment of public funds during the year ended September 30, 2018. Management of the City is responsible for the City's compliance with the specified requirements. Our responsibility is to express an opinion on the City's compliance with the specified requirements based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the City complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether the City complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Our examination does not provide a legal determination on the City's compliance with specified requirements.

In our opinion, the City complied, in all material respects, with the Section 218.415, Florida Statutes, regarding the investment of public funds during the year ended September 30, 2018.

This report is intended solely for the information and use of the City and the Auditor General, State of Florida and is not intended to be, and should not be, used by anyone other than these specified parties.
