March 23, 2020

Honorable Mayor, Members of the City Commission and Citizens of the City of Lakeland, Florida:

It is our pleasure to submit this Comprehensive Annual Financial Report for the City of Lakeland, Florida for the fiscal year ended September 30, 2019. The organization, form and contents of this report plus the accompanying financial statements and statistical tables are prepared in accordance with the requirements of the Governmental Accounting Standards Board, the American Institute of Certified Public Accountants, and the Governmental Finance Officers Association.

This report has been prepared by the Finance Department of the City of Lakeland, which assumes full responsibility for the completeness and accuracy of the information presented herein. To provide assurance that financial data incorporated into this report is as accurate as possible, the Finance Department has adopted internal control procedures which are intended to ensure that financial transactions are recorded in a manner that is consistent with generally accepted accounting principles. These internal control procedures are also intended to prevent loss of assets due to theft or mismanagement. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met.

Florida Statutes require that all municipalities in the State conduct an annual financial audit of the books and records, performed by an independent certified public accountant. The City has contracted with the firm of Crowe LLP to conduct the audit for the year ended September 30, 2019. The independent auditor's report, which indicates that the financial statements included in this document are free from material misstatement and are fairly presented in conformity with accounting principles generally accepted in the United States of America appears on page B-1 of this document.

The report titled Management's Discussion and Analysis is intended to provide a narrative explanation of the results of operations and financial condition of the City. It should be read in conjunction with this transmittal letter to provide a general overview of the City's finances. This report starts on page C-1 of this bound document.

Profile of the City of Lakeland

Located between two major urban areas – Tampa and Orlando – Lakeland enjoys the quality of life characteristics of smaller cities, while affording easy access and the amenities of larger metropolitan areas. Lakeland's current permanent population estimate as of September 2019 is 107,552 residents. The City limits include approximately 75 square miles.

The City is governed by a seven-member City Commission. This Commission employs a full-time City Manager to run the day-to-day operations of the entity. Page A-5 of this report graphically presents the Organization Chart for the City. The services provided by the City of Lakeland government are extremely diverse, ranging from traditional police, fire, public works, and an extensive parks and recreation system to utility services including electric power generation and supply, treated water, wastewater treatment, stormwater, solid waste collection, municipal parking facilities, an airport, convention center and 27-hole golf course.

Annual operating budgets are formally adopted by the City Commission. Legally authorized appropriations are prepared based on total expenses by fund and department. Any variation between the budgeted expenses and actual expenses at the fund and departmental level of detail must be authorized by the City Commission by affirmative action throughout the year.

The City of Lakeland derives its name from the 28,000 acres of 38 named lakes and numerous smaller lakes, ranging in size from 2.5 acres (Lake Blanton) to 2,272 acres (Lake Parker).

Lakeland boasts many unique features, including the world's largest on-site collection of Frank Lloyd Wright-designed buildings at Florida Southern College. Lakeland hosts Florida's largest aircraft convention – the Sun'n Fun International Fly-In & Expo – which draws more than 140,000 people and 4,000 aircraft to Lakeland Linder International Airport.

Lakeland is the spring home of the Detroit Tigers who have been training in Lakeland since 1934. The organization has a year-round presence and operates one of their minor league teams, developmental squads and rehabilitative facilities in Lakeland.

Profile of the City of Lakeland (continued)

Local Economy

Lakeland is home to the headquarters of Publix Super Markets, which was founded in nearby Winter Haven by Mr. George Jenkins in 1930. Publix operates 1,239 grocery stores in Florida, Georgia, South Carolina, North Carolina, Alabama, Tennessee and Virginia and is the largest employee-owned grocery chain in the United States. It is a Fortune 100 company with \$36.1 billion in retail sales in 2018 and employs over 200,000 people. The total taxable value of real property owned by Publix within the Lakeland city limits is approximately \$355 million.

The City also boasts the fifth largest hospital in the state and the busiest single-site Emergency Department in the state – Lakeland Regional Health, an 864-bed not-for profit hospital. Lakeland is also home to Watson Clinic, LLC which provides over 800,000 outpatient visits annually. In 2020 Lakeland Regional Systems began construction on an 80,000-square foot \$46 million freestanding Center for Behavior Health and Wellness on a 9.3-acre property that is adjacent to the current campus.

Residential construction in Lakeland continues to be very active. Lakeland issued 361 new single-family permits and 844 multi-family permits in 2019. This marks a slight year-over-year decrease for single-family permits and a sharp increase for multi-family permits. Single-family permitting in Lakeland has averaged more than 300 new permits annually over the past 5-years, while multi-family has averaged just over 200 annually. Based on the highs and lows of the single family residential market in Lakeland over the past 25 years, it is widely believed that a healthy market in Lakeland could support 150-200 new single-family permits per year. As we grow beyond that number, Lakeland's market is demonstrating a great deal of core strength as the market signals an expanding pattern for residential development. Prior to the housing crash in the late 2000's, Lakeland averaged more than 350 single family permits per year from 2002-2008. Inflated values and accessible financing drove up the volume of housing units as prices rose to a seemingly sudden and unmanageable peak. Understanding the combined cyclical effects of a historic recession and stagnant unemployment, economists are now seeing a recovery in Lakeland's residential real estate market that is both consistent and sustainable.

Unemployment rates for the Lakeland-Winter Haven MSA and the City of Lakeland both averaged 3.7 percent for the twelve months that ended December 31, 2019. These rates remain consistent with the national average of 3.5 percent and just slightly higher than Florida's 3.2 percent rate during the same period. With a total labor force of 47,176 in Lakeland, a 3.7% unemployment rate indicates that there are only 1,749 workers unemployed in the City. Though not numerically significant, each of these rates indicate a continued decrease that signifies the strength of Lakeland's local job market.

As we have seen in previous years, Lakeland's industrial market continued to be very strong in 2019. Several new projects were completed as Lakeland added approximately 1,691,231 square feet of new industrial, commercial office, institutional and retail space. During that same period, Lakeland permitted 3,258,799 square feet of new industrial, commercial office, institutional and retail space. Looking ahead to 2020, we expect this pace of construction to continue as the City continues to review and permit many large office and industrial projects for new and expanding employers. Lakeland has a history for recruiting high quality value added users to the local market, so we will look forward to more job growth in 2020. These users are adding jobs in a variety of employment sectors. Over the past 5-years Lakeland has seen a 6.2% increase in the total the City's total workforce which has helped to keep pace with the record low unemployment rates.

Significant business and institutional development investments completed within the City in 2019 totaled more than \$100 million and committed to the creation of approximately 700 new jobs. As proof of Lakeland's evolving economy, a few of the examples below highlight the industrial, office, manufacturing and educational growth.

Based on our geographic location, much of Lakeland's economic strength revolves around logistics and distribution. In 2019 developers began the construction of more than 2 million square feet of new speculative industrial space in Lakeland to support this active market.

Rooms to Go is adding an additional 440,000 square feet to their Lakeland facility. This \$20 million capital investment will create 25 new jobs and will increase the footprint of their Lakeland distribution center to 2.7 million square feet.

Tampa Maid Foods completed a 16,000-square foot expansion to their R&D facility in Lakeland that will add 15 high skill/high wage jobs. This \$5 million capital investment will help Tampa Maid Foods to better highlight their manufacturing process while also focusing on education and food science collaboration.

DigArch is an education software company that completed the construction of a new 30,000 square foot office in south Lakeland. This \$5 million capital investment will allow DigArch to add 33 new high skill/high wage jobs to Lakeland.

Supporting Lakeland's downtown, the City participated as a partner in the development of a new 6 level 836 space downtown parking garage. The garage will allow several existing adjacent employers the ability to expand while also adding public spaces for downtown merchants and visitors. Along with the garage structure, the primary property owner constructed a 3 story 30,000 square foot class A office building that will be leased to new and expanding businesses.

Profile of the City of Lakeland (continued)

Local Economy (continued)

At Lakeland's Linder International Airport, development activity continues to expand. Keys to the World Aviation completed a custom 60,000 square foot hanger that will create 20 new jobs. This \$9 million capital investment will serve as a private charter concierge service focused on traveling business executives. Also under construction at the Airport are substantial projects involving Amazon Air and NOAA. Amazon Air is currently building a \$100 million 285,000 square foot facility that will serve as a cargo airline transporting Amazon packages and NOAA is constructing a \$13 million 30,000 square foot expansion to their existing Lakeland facility.

With regards to higher education, in 2019 Florida Southern College constructed their first off campus education building which will house their newly expanded doctorate of Physical Therapy program. Also under construction is the 13,000 square foot Computer Sciences Building and the 22,000-square foot middle school building at the Roberts Academy on the campus of Florida Southern College.

In early 2020, Southeastern University completed their new 27,000 square foot \$10 million Administration Building. This three-story building will allow the University to improve customer service to students and families by connecting all the offices they need to visit into one location. Also coming in 2020 the University is building an Athletic Operations Building with a new soccer facility.

Finally, the state's 12th and newest public university, Florida Polytechnic University broke ground on an 85,000-square foot \$40 million Applied Research Center in 2019. This building will house research and teaching laboratories, student design space, conference rooms and faculty offices for the University.

Long-term financial planning

The City prepares a ten-year capital improvements plan that identifies both capital improvements and related revenue sources anticipated for the next ten annual budget cycles. Capital requirements of enterprise operations – typically utility operations such as electric, water, wastewater and solid waste, are financed from capital reserves accumulated within those enterprise operations and obtained from the users of those services through the imposition of user fees. Capital requirements of general governmental operations are financed primarily from the proceeds from gasoline taxes and the proceeds of an operating lease between the City of Lakeland and a not-for-profit entity that operates the City-owned hospital facility.

Impact Fees are also assessed on new construction within the Water and Wastewater utilities to provide a source of financing for the capital costs associated with growth. The City also levies similar impact fees to offset a portion of the capital costs of Transportation improvements, Parks and Recreation Facilities, and Public Safety.

Relevant financial policies

The City finances a portion of general governmental operating costs from the proceeds of transfers to the General Fund from various utility operations – primarily from an electric utility operation. These transfers finance approximately 25% of the operating costs for general governmental operations within Lakeland.

Reporting Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Lakeland, Florida, for its Comprehensive Annual Financial Report for the fiscal year ended September 30, 2018. To be awarded a Certificate of Achievement for Excellence in Financial Reporting, a governmental unit must publish an easily readable and efficiently organized comprehensive annual financial report, of which its contents conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements. We believe our current report continues to conform to Certificate of Achievement for Excellence in Financial Reporting Program requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgements

The preparation of the Comprehensive Annual Financial Report (CAFR) could not be achieved without many extra hours of work on the part of the City's Finance Department staff. The City is fortunate to have such a fine group of professionals who are highly skilled and complete all tasks accurately and within schedule.

We would like to especially thank Barbara Henry, Chief Accountant and Brent McLain, Interim Electric Utility Controller for their efforts in assisting the external auditors in completing the audit, and for preparation of the CAFR. Their respective roles in coordinating the work of accountants and other professionals have proven to be invaluable to the report preparation process. We would also like to thank the external auditors, Crowe LLP, for their cooperation, professionalism and assistance during the audit process.

We would like to express appreciation to the City Manager, his staff, and the City Commission for their continued support of the Finance Department and for the leadership they have provided to make Lakeland such an exceptional community. This report reflects the favorable financial condition of the City, and we are proud to submit it to you for your review.

Respectfully submitted,

COMPREHENSIVE ANNUAL FINANCIAL REPORT OF THE CITY OF LAKELAND, FLORIDA

FOR THE FISCAL YEAR ENDED
SEPTEMBER 30,
2019

INDEPENDENT AUDITOR'S REPORT

Honorable Mayor, City Commissioners
and City Manager
City of Lakeland, Florida

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Lakeland, Florida (the "City"), as of and for the year ended September 30, 2019, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Police Officers' Defined Benefit Retirement System of the City of Lakeland, Florida (a pension trust fund included in aggregate remaining fund information) and the City of Lakeland Firefighters' Retirement System (a pension trust fund included in aggregate remaining fund information), which represent the percentages of assets, net position, and revenues of the pension and other employee benefit trust fund type listed below.

	<u>Assets</u>	<u>Net Position</u>	<u>Revenues</u>
Aggregate Remaining Fund Information:			
Pension and Other Employee Benefit Trusts			
Police Officers' Defined Benefit Retirement System of the City of Lakeland, Florida	15.12%	15.11%	18.00%
City of Lakeland Firefighters' Retirement System	<u>11.85%</u>	<u>11.88%</u>	<u>11.72%</u>
	<u>26.97%</u>	<u>26.99%</u>	<u>29.72%</u>

Those statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as they relate to the amounts included for the Police Officers' Defined Benefit Retirement System of the City of Lakeland, Florida and the City of Lakeland Firefighters' Retirement System, is based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. The financial statements of the Police Officers' Defined Benefit Retirement System of the City of Lakeland, Florida and the City of Lakeland Firefighters' Retirement System were not audited in accordance with *Government Auditing Standards*.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City, as of September 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matters

As discussed in Note 2 to the financial statements, in November 2016 the Governmental Accounting Standards Board (GASB) issued GASB Statement No. 83, *Certain Asset Retirement Obligations*. This Statement establishes criteria for determining the timing and pattern of recognition of a liability and a corresponding deferred outflow of resources for asset retirement obligations that were not previously addressed in GASB standards. Beginning net position was restated as part of the implementation of this standard. Our opinions are not modified with respect to this matter.

As discussed in Note 2 to the financial statements, in April 2018 the Governmental Accounting Standards Board (GASB) issued GASB Statement No. 88, *Certain Disclosures Related to Debt, including Direct Borrowings, and Direct Placements*. The primary objective of this Statement is to improve the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt. Our opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, General Fund budgetary comparison schedule, schedule of changes in the City's net pension liability and related ratios, schedule of changes in the City's net OPEB liability and related ratios, schedule of OPEB investment returns, schedule of OPEB contributions, and schedule of contributions from employers and other contributing entities on pages C-1 through C-17 and F-1 through F-8 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory information, budgetary comparison schedule – major capital projects fund, combining and individual fund financial statements, schedules and miscellaneous statistical information are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The budgetary comparison schedule – major capital projects fund, combining and individual fund financial statements and schedules are the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the budgetary comparison schedule – major capital projects fund, combining and individual fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory information and miscellaneous statistical information have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated March 23, 2020 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

A handwritten signature in black ink that reads "Crowe LLP". The signature is written in a cursive, flowing style.

Management's Discussion and Analysis

COMPREHENSIVE ANNUAL FINANCIAL REPORT OF THE CITY OF LAKELAND, FLORIDA

FOR THE FISCAL YEAR ENDED

SEPTEMBER 30,

2019

CITY OF LAKELAND, FLORIDA

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

The Management's Discussion and Analysis section provides a narrative overview of the City of Lakeland's (City's) financial activities for fiscal year ending September 30, 2019. This discussion is broken down into three components:

- An overview of the financial statements, consisting of a narrative description of the type of information provided within the Comprehensive Annual Financial Report (which begins on page D-1 of this bound document).
- A concise, condensed financial report that summarizes the results of operations of the City as a whole.
- A narrative financial analysis of the City's overall financial condition and results of operations, supported by additional consolidated information about specific services provided by the City.

OVERVIEW OF THE FINANCIAL STATEMENTS

The City's basic financial statements are comprised of three sections: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. The nature of these three components of the report is described as follows:

GOVERNMENT-WIDE FINANCIAL STATEMENTS

There are two financial statements in this section that address the financial position and results of operations of the City taken as a whole: The Statement of Net Position and the Statement of Activities.

These two financial statements are prepared using the "full accrual" method (basis) of accounting. This is the same accounting method used by most private-sector companies to determine whether they earn a profit in any given year, and to measure the net worth of the company as of the end of the year.

The statement of net position (page D-2 and D-3) is similar to a balance sheet in that it separately identifies the assets (what the City owns) from the liabilities (what the City owes) and the net difference between the two. Cash, receivables, land, buildings and equipment are examples of assets. Bonds, notes, and payables are examples of liabilities. The increase or decrease in net positions from one year to the next indicates whether the City's financial position is improving or deteriorating.

The statement of activities (pages D-4) explains how or why the net position has increased or decreased during the year. The statement of activities resembles a profit and loss statement because it compares the total expenses of the government to the total revenues, with the difference between the two, equaling the increase or decrease in net position over the course of the year.

Under the full accrual basis of accounting, some cash flows into the city and some of the cash flows out are not considered operating revenues or operating expenses and accordingly do not appear on the statement of activities. For example, under the full accrual basis of accounting, the purchase of capital assets (e.g. equipment, land, buildings that have a useful life beyond one year) is not shown as an operating expense on the Statement of Activities.

On the other hand, the full accrual accounting method recognizes certain expenses that may not be funded or budgeted by the City within a given year, such as non-cash expenses like depreciation of capital assets and costs that may be incurred in one accounting cycle but are not paid until some future year.

In many cases, this full accrual method of accounting is very different than the accounting process used to budget and measure the cost of government. The annual budgets for most governmental operations only include provisions for cash outlays that will actually occur in a given year – which would include disbursements for capital assets, and excludes non-cash expenses such as depreciation or expenses paid out in future years. However, the Government Accounting Standards Board ("GASB") requires that a version of the financial activity for all aspects of the city be prepared using the full accrual basis in order to provide the ability to evaluate the financial status of the city in a manner that is compatible with accounting standards normally adopted within the private sector. Hence, the Government-Wide Financial Statements on pages D-2 thru D-4 are prepared on a full accrual basis.

CITY OF LAKELAND, FLORIDA

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

GOVERNMENT-WIDE FINANCIAL STATEMENTS, (continued)

The information in each of these two statements is separated into two categories as follows:

Governmental activities – This portion of the government-wide financial report represents those activities undertaken by the government which cannot, based on practical considerations, be financed by the imposition of a user fee assessed directly and exclusively against the users of those activities. These activities include the services provided by Police and Fire Departments; Public Works (road and drainage construction and maintenance); the Parks & Recreation Department; libraries; growth management; public utilities (such as street lighting); and administrative functions. Because these activities do not lend themselves to recovery of costs through a direct user charge, they are financed primarily from the proceeds of property taxes, sales taxes, franchise fees, interest income, intergovernmental revenues, and state and federal grants.

Business-type activities – This portion of the government-wide financial report includes those activities such as the Electric, Water, Wastewater, and Solid Waste Utilities. The cost of providing these services is directly recovered from a user charge assessed against the users of those services. This category also includes the operations of the City's RP Funding Center, the Parking System, and the Lakeland Linder International Airport.

This category also includes activities within internal service funds – which provide services such as fleet management, information technology, and self-insurance of certain risks to city departments at cost. The value of assets, liabilities and the operating activities of these internal funds are accounted for as Business-type activities, less an allocation of those assets, liabilities and current year operations based on the relative portion of those services that are provided to Governmental activities.

CITY OF LAKELAND, FLORIDA

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

GOVERNMENT-WIDE FINANCIAL STATEMENTS, (continued)

Governmental activities:

Current Assets consist predominantly of \$45.3 million of cash and investments, \$25.5 million of receivables, \$28.6 million of assets held within internal balances of the City; and \$5.6 million in assets to liquidate current apportioned and restricted liabilities. In the aggregate, this represents an increase of \$18.5 million in the value of current assets during 2019.

Asset Apportionments represents assets that are designated by the City Commission for certain specific uses – as opposed to current assets, which generally can be used to finance the cost of any general governmental operations. Apportioned assets are comprised of approximately \$5.9 million in assets related to Stormwater Utilities Fund, \$270 thousand set aside to fund contributions to cultural and community agencies, \$2.5 million set aside to pay future obligations, \$7.6 million set aside to pay for future capital expansion, and \$320 thousand in cash designated for maintaining recreation facilities.

Restricted Assets are legally restricted for expenses for certain purposes. These consist predominately of \$9.8 million in assets held within Community Redevelopment Districts, \$301 thousand in assets held for community development, \$1.3 million in assets held in trust for law enforcement; \$19.3 million of unspent impact fees, \$2 million in assets held from building inspection revenues, \$6.5 million in assets held from transportation, and approximately \$5.5 million held in a fund that is used to provide perpetual maintenance of cemetery plots sold by the City. In the aggregate, there was a \$7.3 million increase in the change in the value of these restricted assets from 2018 to 2019.

Current Liabilities represent obligations payable from Current Assets that are likely to be settled within the next year. These consist of primarily \$3.9 million in amounts owed to vendors, \$6.5 million in undistributed payroll obligations accrued during the last pay period of the fiscal year, \$3.4 million of principal due on long term debt and notes on October 1st.

Restricted and Apportioned Liabilities represent obligations payable from Restricted and Apportioned Assets that are likely to be settled within the next year.

Accrued Liabilities represent payroll-related obligations that are not likely to be settled within the next year. This includes approximately \$5.4 million in unpaid sick and vacation time, \$77.5 million representing the actuarially accrued liability for pension benefits payable to employees during retirement, and approximately \$92.2 million representing the actuarially accrued liability for health insurance benefits payable to employees during retirement. This obligation is the result of a state of Florida mandate, which requires that any city which offers health insurance coverage to retired employees must provide that coverage at the same health insurance premium rates applied to active employees. Since the population of retired employees is prone to higher medical costs than the population of active employees, there is an implied subsidy built into that retiree health insurance premium.

Long term debt payable increased by approximately \$10 million from 2018 to 2019, predominantly because of the issuance of various internal loans to finance road, park, and facility improvements. The dollar value of those outstanding loans was approximately \$61 million as of the end of 2019. Those loans are supported by two fixed interest revenue bonds. The City's long term capital plan calls for the repayment of a little over \$21 million of these loans within the course of the next five years.

Business-type activities:

Current Assets consist predominantly of \$103.9 million of cash and investments, \$50.1 million of receivables, and \$41.9 million of inventories; less approximately \$28.6 million representing the estimated value of those assets held within internal service funds of the City that are allocable to governmental activities. In the aggregate, these assets decreased \$2.3 million during 2019. There was a increase of \$13.5 million within Electric Utilities system – as a result of a increased in liquidity from operations; there was a \$15.6 million decrease within the Internal Loan Fund – as a result of net the repayment/issuance of loans during the year; and there was a \$0.9 million increase in the Solid Waste Fund resulting from an increase in liquidity from operations.

Asset Apportionments represents assets that are designated by the City Commission for certain specific uses – as opposed to current assets, which generally can be used to finance the cost of any general governmental operation. Apportioned assets are primarily comprised of \$140.3 million committed to financing the cost of capital improvements, \$38.6 million in assets held for vehicle replacements, and \$25.2 million in assets held by funds used to self-insure the city against certain risks.

CITY OF LAKELAND, FLORIDA

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

GOVERNMENT-WIDE FINANCIAL STATEMENTS, (continued)

Business-type activities (continued):

Restricted Assets are legally restricted for expenses for certain purposes. These consist predominately of \$16.4 million in customer deposits collected by utility operations, \$37.4 million of unspent water and wastewater impact fees, and \$26 million in unspent bond proceeds. This class of assets decreased approximately \$16.4 million during the year, predominantly from the expenditures related to capital projects.

Current Liabilities represent obligations payable from Current Assets that are likely to be settled within the next year. These consist of primarily \$31.0 million in amounts owed to vendors, \$6.5 million in obligations accrued during the last pay period of the fiscal year, \$44.7 million in bonded debt and loans principal and interest payable on October 1, 2019, \$7.5 million in current obligations of the city's self-insurance program, and approximately \$1.1 million in advance customer deposits held by the RP Funding Center fund for events that have not yet occurred.

Restricted and Apportioned Liabilities represent obligations payable from Restricted and Apportioned Assets. These consist of approximately \$16.2 in obligations of the city's self-insurance program, and \$16.4 million in customer deposits.

Accrued Liabilities represents obligations that are not likely to be settled within the next year. This includes approximately \$6.7 million in unpaid sick and vacation time, \$10.3 million in profits earned on settlement of a natural gas purchase agreement, approximately \$68.3 million representing the actuarially accrued liability for pension benefits, approximately \$3.6 million representing the actuarially accrued liability for asset retirement obligations, and approximately \$94.7 million representing the actuarially accrued liability for health insurance benefits payable to employees during retirement. This obligation is the result of a state of Florida mandate, which requires that any city which offers health insurance coverage to retired employees must provide that coverage at the same health insurance premium rates applied to active employees. Since the population of retired employees is prone to higher medical costs than the population of active employees, there is an implied subsidy built into that retiree health insurance premium.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

GOVERNMENT-WIDE FINANCIAL STATEMENTS, (continued)

Capital asset and debt administration: (continued)

Capital assets (continued)

This investment in capital assets includes land, buildings, improvements, machinery and equipment, plant, distribution and generation facilities, and infrastructure. The total book value of capital assets as of September 30, 2019 was \$1,502,248,912 which represents a net increase of \$48,578,559 for the year.

Gross capital spending for the year exceeded \$119.5 million. Major capital asset additions during the current fiscal year included the following:

- \$5.8 million in land, right of way, and construction for roadway projects
- \$5.4 million in parks and recreation facility improvements
- \$617 thousand in public facility improvements
- \$1.4 million in public safety facility improvements
- \$3.0 million in Stormwater system improvements
- \$7.4 million for new vehicles
- \$1.8 million for computers and software; system upgrades
- \$19.2 million for improvements at the city-owned airport
- \$19.0 million in water and wastewater system improvements
- \$55.9 million in electric transmission, distribution, and generation improvements

Additional information regarding the capital assets of the City can be found in Note 4 of the basic financial statements.

Long-term debt

As of September 30, 2019, the City of Lakeland's total bonded debt outstanding was \$547 million. This represents a net decrease of \$35.2 million compared to 2019. During the year, the City made scheduled retirements of debt of approximately \$30.6 million.

The majority of the long-term debt outstanding represents revenue bonds issued by the Electric and Water/Wastewater Utilities. Payment of annual principal and interest on this outstanding debt is secured by a lien on the net operating revenues of those operations. Revenue bond obligations issued for the benefit of governmental activities are paid from amounts accumulated in legally required sinking funds maintained in the debt service fund. The City has no general obligation bonded debt outstanding.

The City does not have any debt limitations that could affect the financing of planned facilities or services. Additional information regarding the long-term debt of the City can be found in Note 6 of the basic financial statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

GOVERNMENT-WIDE FINANCIAL STATEMENTS, (continued)

Governmental Activities – Revenues, Expenses and increase in net position

The combined amount of tax revenue from all sources (property tax, sales tax and utility taxes) was up 7.33% compared to the prior year due to higher than expected tax revenue collections and increased property values. Total spending on governmental activities was up by 0.50% due to expenditures being held flat. Overall, the City's reliance on taxes as a source of revenue increased slightly from 42.2% in 2018 to 44.5% in 2019 due to relatively flat spending and increased tax revenues. For 2019, the City's property tax millage rate was lowered to 5.4644 mills.

Other operating revenue sources consist of grants, certain lease proceeds, and amounts collected directly from users of city services.

In the aggregate, total revenues collected, not including the Lakeland Regional Health lease payment, in FY 2019 were up 13.10% compared to 2018. Property tax revenues increased as a result of the increased property values; operating grants and contributions increased as a result of the FEMA obligations of Hurricane Irma; the increase in investment earnings and the market value of the City's cash pool at September 30, 2019.

Total governmental expenses for 2019 were 0.50% lower compared to 2018. Direct payroll costs were higher during 2019 (\$94 million) compared to 2018 by 3.2%, as a result of the cost of living adjustment and merit increases.

Altogether, direct revenues of the governmental activities are not sufficient to pay all related expenses. The City has historically addressed the difference by relying on a portion of profits earned from certain business-type activities – namely electric, water, wastewater, and solid waste utility services - to finance a portion of the cost of general governmental activities. These subsidies are embedded in the net amount shown as "Transfers" on the Statement of Activities. For FY 2019, these transfers amounted to a net \$37.0 million. This represents approximately 22.7% of the operating cost of general governmental activities.

Business-type Activities – Revenues, Expenses and increase in net position

In the aggregate, the cost of operating the business-type activities of the City is fully recovered from user charges. Those revenues also provide excess amounts available to subsidize a portion of the cost of general governmental activities and amounts necessary to finance the majority of capital improvements. The City-operated Electric Utility is the largest of the operations accounted for within the business-type activities.

Contributions and grants from other governments increased 34.6% during the year – predominantly the result of the increase in capital grants and contributions for airport operations.

Overall profitability of these business-type activities increased from \$81.0 million (before transfers) in fiscal 2018 to \$117.0 million for 2019.

Of these profits, \$37 million was transferred to help finance the cost of general governmental activities. In the aggregate, the transfer of profits from these business type activities represented 8.9% of gross operating revenues of these business-type entities (excluding revenues associated with recovering the cost of fuel used to generate electricity).

Prior Period Adjustment

During FY 2019, the City implemented GASB 83 *Certain Asset Retirement Obligations*. As a result of this implementation, the City booked a prior period adjustment resulting in a decrease of \$145 thousand in beginning net position for Business-type Activities related to the recognition of an Asset Retirement Obligation (ARO) liability and deferred outflow of resources related to ARO. For FY 2019, the total net position, including the prior period adjustment, increased \$79.9 million (\$80.1 increase from operations, net of transfers).

Other Post Employment Benefit costs

As previously mentioned, the Statement of Net Position of both the governmental and business-type operations includes approximately \$187 million in liabilities associated with post-employment health insurance benefits payable to retired city employees. Also included in both governmental and business-type expenses is approximately \$9.3 million of cost associated with increases in the unfunded portion of those OPEB costs. This cost and increase in liabilities is attributable to the fact that the City does not actuarially fund the implied cost associated with the state mandate to establish a uniform premium rate applying to both retired and active participants in the self-insured health insurance program. In lieu of funding the cost of this program in advance, the City will continue to address this cost on a "pay as you go basis", by offsetting the annual value of that implied subsidy for retired employees with increases in the cost of health insurance assessed against active employees – and paid by both the City (as the employer) and active employees themselves.

CITY OF LAKELAND, FLORIDA

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

GOVERNMENT-WIDE FINANCIAL STATEMENTS, (continued)

Pension Costs

Also included in the Statement of Net Position of both the governmental and business-type operations are approximately \$146 million in liabilities associated with retirement benefits payable to city employees. Also, included in both governmental and business-type expenses is approximately \$20 million in pension expenses.

FUND FINANCIAL STATEMENTS

This is the second section of the basic financial statements, which starts on page D-5. It presents information in more detail, centered on individual "Funds". For record keeping and reporting purposes, the City separates many of its unique operations into separate accounting "companies" called funds. Separating the record keeping into individual funds enables the City to maintain accounting control over resources and expenses that are dedicated to specific activities. The City also uses fund accounting to separate financial transactions as needed to ensure compliance with finance-related legal requirements imposed on the City by other governments and bond covenants.

All the funds of the City can be divided into three types: governmental funds, proprietary funds and fiduciary funds.

Governmental funds

There are two types of financial statements presented for governmental funds – a balance sheet (showing assets, liabilities, and the difference between the two – technically referred to as "fund balance") and a statement of revenues, expenditures, and changes in fund balance (which is similar to a profit or loss statement). The balance sheet appears on page D-5 and the statement of revenues, expenditures, and changes in fund balance is on page D-7.

For purposes of preparing the financial statements for the governmental funds within this section of the report, the basis of accounting used to measure the value of assets, liabilities, revenues and expenditures on more of a "pay as you go" basis – which is the method used to budget for these types of governmental operations. Under this accounting method, the balance sheet only includes working capital assets (cash, investments, receivables) and liabilities that are generally payable within a short period of time. The statement of revenues, expenditures, and changes in fund balance only shows all cash inflows and outflows that actually occur within in a given year.

This accounting method is different than the full accrual method used to prepare the Government-Wide Financial Statements. The reason for this different accounting approach is that the activities in these funds are not financed from charges for services. As a result, there is no emphasis placed on measuring annual "net profit or loss" resulting from those operations. Instead, the accounting focuses on whether there will be enough cash flows available in a given year to finance the costs of providing services. The emphasis is much more focused on activities occurring within a one-year budget period rather than the long-term. This methodology is referred to as the "modified accrual" basis of accounting.

A reconciliation schedule is provided within these fund financial statements to identify differences between the modified accrual basis of accounting used in these fund financial statements and the full accrual basis of accounting used in the government wide statements.

The City has two major governmental funds; the General Fund and the Public Improvement Fund. The General Fund serves as a "catch-all" used to capture the day-to-day operating costs associated with a variety of different programs and activities that are not financed from charges for services and other fees. The Public Improvement Fund is used to finance a variety of capital and maintenance projects and debt service related to governmental activities of the City. These funds appear in own separate columns on the fund financial statements. All of the other governmental funds of the City are consolidated into a single column of information labeled Other Governmental Funds. The activities in this column generally represent the cost of transportation capital improvements required to support general governmental activities, plus certain activities that are legally required to be accounted for separately from the "catch-all" activities reported in the General Fund.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

FUND FINANCIAL STATEMENTS (continued)

Proprietary funds

Those services provided by the City which are classified as business-type activities in the government-wide financial statements, are labeled as proprietary funds within the fund financial statements. The basis of accounting used within these statements is the full accrual basis of accounting, wherein all assets, liabilities, and net position related to a given activity, as well as transactions, events, or interfund activity of the period that affect net position (economic resources measurement) regardless of the timing of related cash flows (accrual basis of accounting).

The major proprietary funds of the City are the Lakeland Electric Utility Fund and the Water and Wastewater Utility Fund. Information for these two funds is presented in two separate columns within the fund financial statements. The remaining proprietary funds of the City that account for user-financed services provided to the general public are consolidated into a single column labeled Other Enterprise Funds within these statements.

In addition, there is a separate column on these financial statements which consolidates the activities that are provided exclusively to support operations of the City government itself, such as a motor pool, centralized purchasing and warehousing, and a self-insurance financing pool. These services are provided to the various City functions on a cost recovery basis. These are labeled Internal Service Funds within the fund financial statements.

The balance sheet (showing assets, liabilities, and the difference between the two) for the proprietary funds appears on pages D-9 and D-10 and a statement of revenues, expenses, and changes in net position (which is similar to a profit or loss statement) is on page D-13.

Fiduciary funds

The City also maintains separate funds called fiduciary funds, which account for the activities of the City's pension funds, private-purpose trust funds, and custodial funds. These activities benefit private parties such as retired City employees and other governmental entities. The fact that these services are not provided to the general public mandates their accounting in this separate section of the report. The balance sheet and statement of changes in fiduciary net position appears on pages D-17 and D-18, respectively.

The following section of this letter discusses the results of operations for the three major funds of the City in more detail.

General Fund

The General Fund is used to account for the majority of the governmental activities of the City, including activities of the Police and Fire Departments; Public Works (road and drainage construction and maintenance); the Parks & Recreation Department; libraries; growth management; public utilities (such as street lighting); and administrative functions. These activities are financed from a combination of taxes, user fees, and transfers of a portion of the operating profits earned by the business-type activities operated by the City.

A summary of the operations of this fund, including a comparison to the approved budget, is as follows:

The schedule above shows the budget that was originally adopted for the General Fund as well as the "Final Budget".

Actual revenues in the aggregate were about 6.98% more than the final budget, with some significant variances within individual categories. Intergovernmental revenue, which includes grants and state shared revenue, were \$2.7 million greater than budget - \$302 thousand in state shared revenues were collected over the amount budgeted and federal, state, and local grant revenues were only \$2.3 million more than the amount budgeted representing reimbursements and obligations related to expenditures incurred over the past two fiscal years from Hurricane Irma.

Fines and forfeits revenues were up \$121 thousand from the previous year, but were \$386 thousand less than the amounts budgeted as a result of a slight increase in police confiscated cash and code enforcement fine revenues.

Miscellaneous revenues were \$2.1 million more than the budget, primarily as a result of investment revenues that were more than budget by approximately \$1.7 million and \$400 thousand in various miscellaneous revenues that were more than budget

CITY OF LAKELAND, FLORIDA

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

FUND FINANCIAL STATEMENTS (continued)

General Fund (continued)

Spending was significantly below budget, however, spending was 0.9% lower than fiscal year 2018. Operating expenses and capital outlay have remained relatively flat. The decrease is due to a lower budgetary operating increase for 2019 as compared to 2018. Controllable cost expenditures were limited to 1.25% of the previous year and health insurance rates were increased 2.5% from a 13% increase in FY 2018.

For the year ended September 30, 2019 the City realized an increase the in fund balance within the General Fund of \$6.58 million – which falls in line with the anticipated revenue increases and spending increases for fiscal years 2018 thru 2019 (including carryovers). Total unrestricted reserves at the end of the year were \$24.3 million, of which \$10.1 million is appropriated to balance the 2020 budget and carryovers.

Public Improvement Fund

The Public Improvement Fund is used to finance a variety of capital and maintenance projects and debt service related to governmental activities of the City, including activities of the Police and Fire Departments; Public Works (road and drainage construction and maintenance); the Parks & Recreation Department; libraries; growth management; public utilities (such as street lighting); and general governmental City facilities. These activities are financed primarily from the hospital lease revenues and impact fee revenues.

A summary of the operations of this fund, including a comparison to the approved budget, is as follows:

PUBLIC IMPROVEMENT FUND

**STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE
FOR THE YEAR ENDED SEPTEMBER 30, 2019**

	<u>Original Budget</u>	<u>Final Amended Budget</u>	<u>2019 Actual</u>	<u>Variance</u>

The schedule above shows the budget that was originally adopted for the Public Improvement Fund as well as the "Final Budget".

Actual revenues in the aggregate were about 18.15% more than the final budget, due an additional \$.830 thousand in interest income received over the amount budgeted and an additional \$1.8 million in investment revenue.

CITY OF LAKELAND, FLORIDA

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

FUND FINANCIAL STATEMENTS (continued)

Public Improvement Fund (continued)

Spending was significantly below budget (50.4%) due to \$18.9 million in various capital projects not completed at year end. For the year ended September 30, 2019 the City realized an increase in fund balance within the Public Improvement Fund of \$10.4 million due to capital expenditures related to the renovations of various city facilities. Total unrestricted reserves at the end of the year were \$21.7 million, of which \$16.9 million was appropriated to balance the 2020 budget and carryovers.

Lakeland Electric

The Lakeland Electric Fund is used to account for the generation and delivery of electric power to residential and commercial customers in the greater Lakeland area. The service territory for Lakeland Electric is a predefined, 246 square mile area, encompassing all of the incorporated City limits and the surrounding area. The utility serves approximately 131,793 retail customers.

A summation of the results of operations for Lakeland Electric is as follows:

DEPARTMENT OF ELECTRIC UTILITIES

CITY OF LAKELAND, FLORIDA

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

FUND FINANCIAL STATEMENTS (continued)

Lakeland Electric (continued)

The net position of Lakeland Electric increased by \$36.2 million during fiscal year 2019 compared to a \$17.6 million increase in 2018. Operating income was \$69.4 million in 2019 compared to \$58.2 million in the preceding year. The year-over-year increases primarily reflect the impact of a 3 percent rate increase, load growth of 2.2 percent and reduced Transmission/Distribution expenses

Lakeland Electric's 2019 retail megawatt hour (MWh) sales were up 2.2 percent from the previous fiscal year resulting in \$4.2 million higher non-fuel revenues. Approximately half of the increase in load was associated with growth in Lakeland Electric's customer base while the rest was weather-related.

Non-operating revenue increase by \$9 million from the previous fiscal year. Investment revenue decreased by \$1.3 million, however a \$5.3 million favorable fair value adjustment on Lakeland Electric's share of the City's pooled investments was recognized in 2019, compared to an unfavorable adjustment of (\$4.7) million recognized in the previous fiscal year. Fair value adjustments, up and down, are caused by the impact of interest rate changes on fixed income securities. Most of Lakeland Electric's investments are held through maturity.

Lakeland Electric's non-fuel operating expenses, excluding gross receipts tax and depreciation, were down (\$4.9) million or (6) percent from \$86.3 million in 2018 to \$81.4 million in 2019. The favorable variance is more than accounted for by reduced tree trimming and pension expenses. Total operating and maintenance costs (excluding fuel, gross receipts tax, and depreciation) averaged \$25.99 per retail MWh in 2019, compared to \$28.17 in 2018.

Although Lakeland Electric anticipates that a substantial percentage of the \$10.4 million of storm recovery costs will be eligible for reimbursement, only \$0.1 million was reimbursed as of fiscal year 2019. A grant agreement was in place before the end of fiscal year, and an accrual of \$0.9 million was recorded for funds obligated in fiscal year 2019.

Administrative and General Expenses were \$1.9 million lower than the previous year largely in relation to pension.

Fuel and purchased power expenses were down \$6.8 million in 2019, reflecting lower natural gas prices. Also, in 2019 McIntosh Unit 3 was in extended outage which reduced the amount of coal purchased during the year.

Lakeland Electric recovers fuel costs from retail customers in the form of a fuel charge that is subject to a quarterly revision based on a forecast of fuel costs for the following twelve months. As of September 30, 2019, the retail fuel charge was \$36.50 per MWh, compared to \$40.75 per MWh twelve months earlier. The fuel recovery balance represents, on an accrual basis, the cumulative difference between fuel expenses incurred to serve retail load and fuel revenues realized. Lakeland Electric began 2019 with a cumulative over-recovered fuel position of \$29.2 million. The fuel reserve was over-funded to the extent of \$10.2 million, for which a regulatory liability was recognized. See Note D.

Lakeland Electric recovers environmental compliance costs from retail customers in the form of an environmental compliance charge which is set annually, with the objective of achieving a zero cumulative recovery balance at the end of the subsequent budget year. Environmental compliance rates of \$2.109 and \$2.109 per MWh were in effect during 2019 and 2018, respectively. Lakeland Electric had a cumulative under-recovered environmental compliance cost balance of \$(55) thousand, classified as a regulatory liability, as of the end of 2019. Based on sales and environmental compliance expense projections, a rate of \$2.776 per MWh was recommended for 2012. See Note D.

Lakeland Electric recovers energy conservation charges in a similar manner to environmental compliance charges. The conservation charge is currently a flat fee of 50¢ per month per customer. Lakeland Electric had a cumulative under-recovered energy conservation charge balance of \$(11) thousand, classified as a regulatory liability, as of the end of 2019. See Note D.

Lakeland Electric provides a dividend at a rate of \$9.96 per MWh to the City of Lakeland's General Fund in the form of monthly cash transfers. The total amount of the dividend in 2019 was \$30.8 million, compared to \$29.7 million in 2018.

Capital Assets

Lakeland Electric has historically funded the cost of capital improvements through a combination of bond financing and cash generated from retail utility rates. Cash set aside from base rates provided funding for the majority of capital spending during the year. Proceeds from the Series 2018 bond issuance provided funding for the purchase and installation of a 125 megawatt peaking unit as well as other energy supply and delivery projects. As of 2019 \$34.5 million has been spent. The remainder of the Series 2018 bond proceeds were carried over to fiscal year 2020. The peaking unit is scheduled to be completed before the end of fiscal year 2020.

CITY OF LAKELAND, FLORIDA

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

FUND FINANCIAL STATEMENTS (continued)

Lakeland Electric (continued)

Capital Assets (continued)

Capital spending (net of contributions in aid of construction) totaled \$55.9 million in 2019 compared to \$47.1 million in 2018 and \$31.9 million in 2017. Capital expenditures during 2019 included \$33.6 million for energy supply projects, \$20.8 million for energy delivery projects, and \$1.5 million for building improvements and equipment.

Depreciation expense, net of amortization of contributions in aid of construction, was \$40.4 million in 2019 compared to \$35.9 million in 2018.

Lakeland Electric recorded contributions in aid of construction from outside the Department in the amount of \$3.5 million during fiscal year 2019, compared to \$5.7 million in 2018. These amounts are included in the *Plant in Service* balance in the Statements of Net Position. See Note 4.

Economic Factors

The average demand for energy placed on the system from retail customers during Fiscal Year 2019 was 366 megawatts (MW), compared to 358 MW during the previous year. The peak demand during the winter was 545 MW on January 19, 2019, and a summer peak demand of 667 MW was reached on June 25, 2019. Lakeland Electric expects to see a growth of approximately 1 percent in the retail customer base during fiscal year 2020. Lakeland Electric's ten largest customers account for less than 20 percent of revenue. Well over half of the annual revenue comes from residential customers.

The Bond Ratings Services of Fitch Ratings™, Moody's™, and Standard & Poor's™ have assigned long-term ratings of AA, Aa3, and AA, respectively, to Lakeland Electric's energy system bonds.

Currently Known Facts or Conditions That May Have a Significant Effect on the Net Position or Results of Operations

Lakeland Electric's rates, among all customer classes, have consistently been among the lowest in Florida for many years. Residential electric rates during September 2019 were the fourth lowest of any municipal electric utility in the state.

Days cash is a key financial metric used as a measure of liquidity, essential for maintaining strong bond ratings. An internal goal of Lakeland Electric is to maintain 180 days of operating cash. At the end of 2019, Lakeland Electric had over 240 days of cash compared to 204 days in the previous fiscal year.

Lakeland Electric has been, and will continue to be impacted by various regulatory and legislative requirements. In the opinion of Lakeland Electric, the System is currently in compliance with all current federal, state and local environmental regulations. Lakeland Electric cannot predict at this time whether any additional legislation or rules will be enacted which might affect operations, and if such laws or rules are enacted, what the additional capital and operating costs, if any, might occur in the future because of such actions. The estimation of costs of compliance is subject to significant uncertainties and the financial impact of future proposals could be substantial.

CITY OF LAKELAND, FLORIDA

Change in net position	<u>\$ 11,172,112</u>	<u>\$ 13,591,365</u>	<u>\$ 24,763,477</u>	<u>\$ 15,766,696</u>

The Wastewater utility system implemented a rate increase of 2.5%.

Total gallons of water sold, upon which the majority of wastewater operating revenues are based, were 6.7 billion gallons. Residential wastewater revenues are capped at 12,000 gallons per customer/per month. In the aggregate, operating revenues increased 5.0% due to the 2.5% rate increase and an additional 1,461 customers. Pretreatment revenues from high strength commercial waste increased by 8.7% over FY 18.

Operating expenses excluding depreciation were down 3% primarily due to the slight decrease in routine repairs and maintenance and increased personnel costs associated with merits and across the board pay increases.

Unrestricted net current assets increased slightly by \$5.1 million over the course of the year, now totaling \$22.3 million. This was the result of increases in operating revenues – operating cash flows were as follows:

Operating income (excluding non-cash items)	\$ 14,850,000
Investment and Other Income (excluding designated and restricted assets)	1,200,000
Debt Service Transfers from rates	(2,800,000)
Capital Funded from rates	(5,050,000)
Transfers to Other Funds	<u>(3,100,000)</u>
Net	<u>\$ 5,100,000</u>

Unrestricted cash liquidity is \$18.8 million – up from \$14.2 million in 2018. The increase in the unrestricted cash component of this liquidity is the result of increases in operating revenues for the year, as documented above.

CITY OF LAKELAND, FLORIDA

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

FUND FINANCIAL STATEMENTS (continued)

Water and Wastewater Utility (continued)

Net position restricted and designated for capital improvements increased from \$27.1 to \$27.6 million during the year – the result of capital grant projects and debt proceeds for capital improvements not completed during the year.

Water

The Water utility system implemented a 4.5% rate increase for FY 19.

Water revenues are based on the measured flow of water sales into each customer's facility. Total sales volume for the water system tends to fluctuate significantly from year to year – due in some degree to changes in weather patterns that affect the amount of water sold for irrigation purposes. Over the past several years, Water Utilities across the state have seen consistent and significant declines- due partially to the introduction of tiered rate structures that encourage conservation, and also due to the slowdown in the economy. Total gallons of water sold in FY 19 were 7.2 billion, up by 5.9% in FY 19 from FY 18.

Operating expenses (excluding depreciation) increased slightly 5.8% for the year due to relatively flat operating costs. Interest costs of debt also remained virtually the same over the previous year. There was no change in the system financed \$1.0 million in debt service costs from impact fee revenues in 2019 from 2018.

Unrestricted net current assets increased from \$13.3 million in 2018 to \$15.1 million in 2019. Excluding non-cash items such as depreciation, amortization, and OPEB expenses, the system earned an operating profit of approximately \$14.7 million. Of that amount, \$5.1 million was transferred to sinking funds to finance debt service obligations, and \$5.7 million was transferred to the General Fund as a dividend payment. The utility transferred \$5.8 million from revenues to finance capital improvements for the year.

The value of net position restricted and designated for financing capital improvements increased from \$25.7 million to \$28.6 million for the year, which was the result of the remaining funds available from the transfer from operations and debt proceeds for capital improvements expended on capital projects during the year.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

The FY 2020 Budget is the City's numerical representation of the FY 2020 Strategic/Business Operating Plan. The Strategic/Business Operating Plan allocates resources through service prioritization based on strategic alignment with the City of Lakeland strategies. The FY 2020 Budget was developed in response to the community needs identified in the Strategic/Business Operating Plan. Factors such as eroding levels of federal, state, and local grants and shared revenue, level of increases in charges for services, citizen needs, and prioritized Strategic Plan and Actionable items.

The adopted operating budget for FY 2020 is \$627 million or 2.4% higher than the FY 2019 adopted budget of \$612 million. The General Fund Budget for FY 2019 is \$134 million or 4.6% higher than the 2019 adopted budget of \$128 million.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the City of Lakeland's finances and was prepared by the Finance Department of the City. This report also contains general information on the blended component unit, Lakeland Community Redevelopment Agency, of the City of Lakeland. Requests for additional information should be addressed to the Finance Director at 228 South Massachusetts Ave, Lakeland, FL 33801.

CITY OF LAKELAND, FLORIDA

RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET
TO THE GOVERNMENT-WIDE STATEMENT OF NET POSITION
SEPTEMBER 30, 2019

Total Fund Balances - Total Governmental Funds \$ 106,676,094

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds:

Governmental capital assets	\$ 526,343,973	
Less accumulated depreciation	<u>(229,267,026)</u>	297,076,947

The value of certain assets and deferred outflows of resources are not recorded in the governmental fund financial statements, because such amounts normally are not convertible to cash on a timely enough basis to pay for the current period's expenditures. These assets consist of the following:

Revenues collected more than 60 days from year end		26,296,158
Deferred outflows of resources related to pensions		23,506,314
Deferred outflows of resources related to OPEB		14,047,558

Certain long-term liabilities, including bonds payable, and deferred inflows of resources are not due and available in the current period and therefore are not reported as liabilities in the governmental funds. Long-term liabilities at year-end consist of:

Accrued liability for long-term compensated absences		(5,372,196)
Net pension liability attributable to employee salaries financed from government fund types		(77,482,422)
Deferred inflows of resources related to pensions		(10,530,264)
Net OPEB liability attributable to retiree benefits financed from governmental fund types		(92,213,219)
Deferred inflows of resources related to OPEB		(21,104,583)
Bonds, loans, notes payable and capital leases payable	\$ (65,984,217)	
Unamortized loss on refunding	<u>19,144</u>	(65,965,073)

Internal Service Funds are used to account for certain operating costs that are common to all City funds, such as the cost of vehicles, insurance, and centralized purchasing. These costs are allocated to the individual funds on a pro-rata basis, however the assets of these Internal Service Funds are recognized within the business-type activities component of the Government-wide Statement of Net Position. The Internal Service Funds operated at a gain for the fiscal year. The cumulative pro-rata share of these gains/losses attributable to governmental activities has been included in the allocation of costs to the governmental activities, resulting in an uncollected receivable from the business type activities.

28,618,861

Net Position of Governmental Activities \$ 223,554,175

The accompanying notes are an integral part of the financial statements.

CITY OF LAKELAND, FLORIDA

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCE OF THE GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED SEPTEMBER 30, 2019

Net change in fund balances - total governmental funds \$ 23,132,385

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives a depreciation expense. This is the amount by which capital outlays exceed depreciation expense in the current period.

Capital outlay	\$ 18,854,989	
Depreciation expense	<u>(14,329,923)</u>	4,525,066

The book value of assets disposed of during the year are not reported as an expenditure in the governmental funds, however it is recognized as a component of gain or loss on the disposition of capital assets in the statement of activities. (4,022,397)

Proceeds from the issuance of internal loans between the Internal Loan Fund and governmental funds is recorded as a revenue in the governmental funds, but the proceeds result in an additional liability in the statement of net position. (12,553,014)

Obligations under capital leases is recorded as a revenue in the governmental funds, but the issuances result in an additional liability in the statement of net position. (3,628,876)

Repayment of bond principal is recorded as an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. 5,610,303

Amortization of bond premium is not reported as an expenditure in the governmental funds, but the amortization reduces long-term liabilities in the statement of net position. (6,381)

Repayment of principal on other long-term debt is recorded as an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. 564,428

Some of the assets capitalized this year were donated from private, third parties. The value of these donations are not recorded as revenues in the governmental funds because they do not represent available, spendable resources. However, these are recognized as Capital Grants and Contributions in the statement of activities. 24,651

Contributions to certain pension plans do not use current financial resources and are recorded in full as expenditures in the governmental funds, however a portion of these disbursements decrease the net pension liability in the statement of activities. (377,488)

Contributions to the retiree benefits do not use current financial resources and are not recorded in full as expenditures in the governmental funds, however these disbursements decrease the net OPEB liability in the statement of activities. (1,959,089)

Certain deferred revenues that do not provide current financial resources are not reported as revenues in the governmental funds, but are included in the statement of activities. (331,770)

In the governmental funds, personnel costs are measured by the amount of financial resources used, which does not include the increase in accrued, compensated absences. These expenses are recorded in the statement of activities. (57,473)

The revenue and expenses of the Internal Service Funds are reported as a component of proprietary funds and accordingly are not recognized in the governmental funds. A portion of these net revenues and expenses are recorded as governmental activities in the statement of activities. 5,879,343

Change in net position of governmental activities \$ 16,799,688

The accompanying notes are an integral part of the financial statements.

CITY OF LAKELAND, FLORIDA

RECONCILIATION OF THE PROPRIETARY FUNDS STATEMENT OF NET POSITION
TO THE GOVERNMENT-WIDE STATEMENT OF NET POSITION
SEPTEMBER 30, 2019

Net position - business-type activities:

Enterprise Funds	\$ 763,012,722
Internal Service Funds	73,856,673
	<u>836,869,395</u>

Amounts reported for business-type activities in the statement of net position are different because:

Internal Service Funds are recognized within the business-type activities component of the Government-Wide Statement of Net Position, however the revenues and expenses of Internal Service Funds are allocated to the governmental and proprietary fund-types on a pro-rata basis. The Internal Service Funds operated at a gain for the fiscal year. The cumulative pro-rate share of the gains/losses resulted in an unpaid liability to the governmental activities in the Government-Wide Statement of Net Position.

(28,618,861)

Net Position of Business-type Activities	<u>\$ 808,250,534</u>

Amounts reported for business-type activities in the statement of activities are different because:

Internal Service Funds are recognized within the business-type activities component of the Government-Wide Statement of Activities, however the revenues and expenses of Internal Service Funds are allocated to the governmental and proprietary fund-types on a pro-rata basis. A portion of the net revenues and expenses of the Internal Service Funds for the year are recorded within the Governmental Activities on the Government-Wide Statement of Activities.

	<u>(5,879,343)</u>

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City's financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB).

There are significant differences in the financing and operating environments between private and public sector entities, resulting in the unique application of accounting principles to government entities. The primary difference is the lack of a profit motive in many aspects of governmental operations, focusing instead on the best and most effective use of limited resources. Nevertheless, the GASB has endeavored to provide financial reporting standards that both satisfy the accounting needs that are unique to government entities, and disclose financial information that is prepared on a basis more comparable to the more widely understood accounting practices adopted by the private sector.

In response to achieving these dual objectives, the Financial Statements include:

- A Management's Discussion and Analysis (MD&A) section providing analysis of the City's overall financial position and results of operations.
- Fund financial statements that focus on individual, "major" funds of the City, with only non-major funds presented in aggregate totals. The traditional accounting policies and procedures that are unique to governmental operations are utilized within these financial statements.
- Government-wide financial statements prepared using full accrual accounting for all the City's activities, including infrastructure (roads, bridges, etc.). These statements are intended to provide accounting data that is prepared using uniform application of the same accounting and debt policies adopted by entities in the private sector.

A. Reporting Entity

The City of Lakeland, Florida (City) is a political subdivision of the State of Florida incorporated under the authority of the Laws of Florida, Chapter 4096 adopted in 1891. The City operates under a commission-manager form of government and provides the following services: public safety, transportation, electric, water, stormwater, solid waste, wastewater treatment, culture/recreation, public improvements, planning and zoning, and general administration.

Component Units - These financial statements represent the City (the primary government) and its component units, entities for which the City is considered to be financially accountable. There are three specific tests for determining whether a particular legally separate entity is a component unit of a primary government: 1) appointment of a majority of the unit's governing board, accompanied by the potential imposition of will or ongoing financial burden, 2) fiscal dependence on the primary government, and 3) the potential that exclusion would result in misleading financial reporting. Blended component units, although legally separate entities, are in substance part of the City's operations. Discretely presented component units are reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the City. The City does not report any discretely presented component units.

Blended Component Unit

The Lakeland Community Redevelopment Agency (CRA) was established in 1979 by the City of Lakeland, Florida (the City) under the provisions of Section 163.340, Florida Statutes. The board of directors of the Agency is comprised of seven members of the City Commission of the City. The City has operational responsibility for the LCRA. Although legally separate, the CRA is blended in the City's financial statements in accordance with the criteria for blending set by GASB 14, as amended by GASB 39 and GASB 61. The City has created a total of four Community Redevelopment Areas; Downtown (1979), Dixieland (2001), Midtown (2001), and Williams (2002). The purpose of the Agency is to eliminate blight and slum conditions within the redevelopment area of the Agency pursuant to the redevelopment plans of the Agency for new residential and commercial activity. In 2016, the City Commission voted to close the Williams Community Redevelopment Area as the decision was made not to pursue the redevelopment activities for which it was designated.

Financial information for the Lakeland Community Redevelopment Agency (CRA) is blended in the Financial Statements of the City. Copies of separately issued financial statements for the CRA may be obtained from the City's Finance Department.

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Government-wide and Fund Financial Statements, and their underlying Basis of Accounting

The City's basic financial statements are presented in two separate and distinct formats. These consist of government-wide statements (reporting the City as a whole using full accrual accounting policies) and fund financial statements (focusing on individual major funds and utilizing the traditional basis of accounting used by local governments for different types of funds). The government-wide financial statements report information on all of the non-fiduciary activities of the primary government and its component units.

Both the government-wide and fund financial statements categorize activities as either governmental or business-type based on their nature and funding practices. The City's planning and zoning, police and fire protection, parks and recreation, public works, and general governmental functions are classified as governmental activities since they generally cannot pass the full cost of providing those services directly to the users of those services in the form of a user fee. The electric, water, wastewater, solid waste, parking, airport and civic center are classified as business type activities because they are able to assess user fees intended to satisfy at least the majority of their annual operating costs. The Public Improvement Fund is used to finance a variety of capital and maintenance projects and debt service related to governmental activities of the City, including activities of the Police and Fire Departments; Public Works (road and drainage construction and maintenance); the Parks & Recreation Department; libraries; growth management; public utilities (such as street lighting); and general governmental City facilities. These activities are financed primarily from the hospital lease revenues and impact fee revenues. The primary government is reported separately from the legally separate component units for which the City is financially accountable.

Government-wide Statements - In the Government-wide Statement of Net Position, both the government and business-type activities are presented on a consolidated basis in separate columns. This statement is prepared using the *economic resources* measurement focus, meaning all assets and liabilities (including capital assets and long-term debt) are included in the Statement of Net Position. This accounting methodology is more consistent with the methodology used for business accounting in the private sector than "traditional" governmental accounting methodology.

Within this statement, the net position of the City (assets and deferred outflows of resources minus liabilities and deferred inflows of resources) are reported in three separate components – net investment in capital assets; restricted net position; and unrestricted net position. Whenever possible, the City utilizes restricted resources first to satisfy financial obligations.

Because different measurement focuses and bases of accounting are used in the government-wide statement of net position than in governmental fund statements, amounts reported as *restricted fund balances* in governmental funds may be different from amounts reported as *restricted net position* in the statement of net position.

The Government-wide Statement of Activities reports the degree to which the gross expenses, including depreciation, of the significant governmental and business-type functions provided by the City, are financed by the program revenues and the operating and capital grants directly related to the costs of providing each function. The statement then reports the extent to which the resulting net costs of these functions (gross expenses less directly-related program revenues and grants) are financed by general revenues of the City (i.e. taxes, interest income, etc.). This statement is prepared using the *full accrual* basis of accounting, which determines the timing of the recording of revenues and expenditures/expenses. Under this basis of accounting, revenues are recorded when earned, and expenses are recorded when an obligation is incurred. These accounting methods are also more consistent with the methodologies used for business accounting in the private sector than "traditional" governmental accounting methodology.

Administrative fees are charged by the General Fund to other funds, which are eliminated (reducing the revenue and expense of the General Fund) to recover the direct costs of providing services to those funds (i.e., finance, personnel, legal, technology management, etc.). All other internal transactions related to services provided by internal service funds of the City to other functions within the City are also eliminated, insuring the related expenses appear only once and are categorized within the appropriate functional activity.

Fund Financial Statements - These statements report information at a higher level of detail, focusing on separate reporting of individual major funds, rather than consolidating financial data into two very broad categories of governmental and business-type activities. Those funds that are considered non-major are consolidated into a single column.

The financial transactions of the City are reported in individual funds within the City's accounting system. Each fund is accounted for by providing a separate, self-balancing set of accounts comprised of the assets, deferred outflows, liabilities, deferred inflows, reserves, fund equity, revenues and expenditures/expenses of each fund. GASB 34, as amended by GASB 65, sets forth the minimum criteria used to determine whether the individual funds are considered major versus non-major. The criteria are based on the value of assets and deferred outflows, liabilities and deferred inflows, revenues and expenditures/expenses of each fund in relation to all funds taken as a whole. Based on these criteria, the City's major funds are the General Fund, Public Improvement Fund, Electric Utility Fund, and Water/Wastewater Utility Fund. Detailed information on these funds is provided in the basic financial statements and the Management's Discussion and Analysis section.

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Government-wide and Fund Financial Statements, and their underlying Basis of Accounting (continued)

Within the fund financial statements, funds are also classified into fund types. A different basis of accounting is applied to the various fund types, based on the nature of the financial information needed to sustain the types of services provided. The various funds are classified based on fund types as follows:

Governmental Funds - Within the fund financial statements, the accounting policies applied to governmental funds is intended to capture only those transactions that will occur in the short-term, and the ability to finance those activities as needed. The financial focus applied to governmental funds is called the *modified accrual* basis of accounting. Revenues are susceptible to accrual in the accounting period in which they become available and measurable, which generally means those revenues that are collected within 60 days after year end. The City accrues an asset equal to the value of all material revenue to which it is entitled. Intergovernmental revenues included in this accrual are recognized as revenue while all other types are deferred. Major sources of revenue meeting the availability criterion include investment earnings, federal, state, and local grants, State shared revenues, and the City's share of State collected taxes. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable. Exceptions are un-matured interest on general long-term debt, which is recognized when due, and the long-term portion of accumulated unpaid vacation and sick pay, which is recognized when paid.

Within governmental fund types, assets and liabilities are recorded using the *flow of current financial resources* measurement focus, meaning only current assets and current liabilities are generally included on their balance sheets. Their reported fund balance (net current assets) is considered a measure of "available spendable resources".

The governmental fund types utilized by the City are broken down as follows:

General Fund – used to account for and report all financial resources not accounted for and reported in another fund.

Special Revenue Funds – account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

Capital Projects Funds – account for and report financial resources that are restricted, committed or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

Permanent Funds – account for and report resources that are restricted to the extent that only earnings, and not principal, may be used for purposes that support the City's programs.

Proprietary Funds - Within the fund financial statements, the financial focus for proprietary funds is identical to the full accrual, "private sector" focus applied within the government-wide statements. Revenues are recognized when they are earned and expenses are recognized when they are incurred, without application of the "measurable and available" criteria applied to governmental funds. Accordingly, full recognition is given to capital assets (and depreciation thereof) and all long-term liabilities. The emphasis is on recovering the costs of supplying needed services over the long-term from user fees charged directly to the persons using those services.

The proprietary fund types utilized by the City are broken down as follows:

Enterprise Funds – account for operations for which a fee is charged to external users for goods or services, i.e., parking, entertainment, airport, and solid waste services provided to residents in geographic areas served by the City.

The City reports the following major proprietary funds:

Department of Electric Utilities – accounts for operations in which fees are charged to external users for electric services provided within the City of Lakeland's service area.

Water and Wastewater Utilities – accounts for operations in which fees are charged to external users for water and wastewater services provided within the City of Lakeland's service area.

Internal Service Funds – account for operations for which a fee is charged to internal users for goods or services. This includes the administrative cost of purchasing and acquisition; the purchase, maintenance and fueling of motorized equipment used by various City departments; the cost of self-insured risk programs administered by the City; the cost of purchasing and maintaining custody of supplies and materials used by the City; the cost of purchasing and maintaining computers, networks, and software used by the City; the maintenance of City facilities; and an internal loan program. To the extent possible, the ultimate costs of these services are reported in the appropriate functional activity.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Government-wide and Fund Financial Statements, and their underlying Basis of Accounting (continued)

Fiduciary Funds - Within the fund financial statements, fiduciary fund types are used to report assets that are held in trust or in an agency capacity by the City on behalf of designated beneficiaries. These consist of pension and other post-employment benefit funds maintained on behalf of retired City employees; and a custodial fund used to accumulate impact fee revenues collected on behalf of Polk County, Florida. The same financial focus applied to proprietary funds types is applied to fiduciary fund types.

Because the assets accounted for within fiduciary funds types cannot be used to address activities or obligations of the City, the activities of these funds are not incorporated into the government-wide financial statements.

C. Budget Policy and Budgetary Data

The City prepares an annual operating budget for the two major funds, the General Fund and Public Improvement Fund (a Capital Projects Fund), and certain Special Revenue Funds and Capital Projects Funds (i.e. Transportation Fund, Community Development Fund, State Housing Initiatives Partnership Program, Neighborhood Stabilization Fund, the Stormwater Fund, and the Lakeland Community Redevelopment Agency Fund). These budgets are prepared on the modified accrual basis of accounting. As of September 30, 2019, there were no material violations of budgetary requirements.

D. Assets, Deferred Outflow of Resources, Liabilities, Deferred Inflows of Resources, and Fund Equity

1. Cash and Cash Equivalents

The City has defined cash and cash equivalents to include cash on hand, demand deposits, cash with paying agents, money market funds, as well as each Fund's equity in pooled cash.

The various funds of the City have combined their resources into an investment pool for the purpose of maximizing investment earnings on daily cash balances. The investment pool is comprised of money market funds, time deposits, notes; bonds, other securities, and accrued interest. These investments are recorded at fair value. Revenue from pooled cash and investments is allocated on the basis of the participation by each fund. Each fund's pro-rata share of pooled cash and investments is included in the caption "cash and cash equivalents". These amounts are also considered a cash equivalent because each fund can withdraw cash at any time without prior notice or penalty.

2. Investments Owned by Individual Funds

Investments owned by individual funds, comprised of time deposits, notes, bonds, and other securities, are reported at fair value. Amounts invested in money market funds are reported at fair value. Fixed income, equity and equity securities are reported at the last reported sales price. Revenue from investments owned by the individual funds is recorded in the respective fund as it is earned.

3. Receivables

Receivables are generally attributable to services provided by the City, amounts due to the City under expenditure driven grant agreements with other governments, and accrued interest on investments. Receivables recorded in governmental fund types may be offset by deferred revenues or a restriction of fund balance depending on the revenue recognition criteria applied to those funds. The components of receivable balances include due from customers, due from commercial customers, due from vendors, due from other governments, interest receivable, and miscellaneous receivables, including liquidated damages. Receivables are reported net of allowances for uncollectible where applicable.

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Assets, Deferred Outflow of Resources, Liabilities, Deferred Inflows of Resources, and Fund Equity (continued)

3. Receivables (continued)

The balances of accounts receivable in the governmental and proprietary funds are as follows:

	<u>Governmental Activities</u>	<u>Business-Type Activities</u>
Unrestricted:		
Due from:		
Taxpayers	\$ 571,751	\$ -
Customers	24,933,493	50,142,962
Employees	3,835	-
	<u>25,509,079</u>	<u>50,142,962</u>
Apportioned:		
Due from:		
Customers	236,189	262
Restricted:		
Due from:		
Customers	992,763	456,677
	<u>\$ 26,738,031</u>	<u>\$ 50,599,901</u>

4. Due To/From Other Funds

Amounts receivable from, or payable to, other funds are reflected in the accounts of the fund until liquidated. Activity between funds that are representative of lending/borrowing arrangements outstanding at year end are referred to as either “due to/from other funds” (i.e. current portion) or “advances to/from other funds (i.e. non-current portion). Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide statements as “internal balances”.

5. Inventories and Prepaid Items

Inventories are valued at cost in governmental funds. In all other funds, inventories are stated at the lower of cost or market using the weighted average method. Inventory and prepaid items are recorded as expenditures (expenses) when actually used in both governmental and proprietary funds.

6. Apportioned Assets

The City has established long-range plans concerning some of its proprietary funds, internal loan funds and capital funds. As part of the plan to achieve its objectives, the City’s elected officials have apportioned certain assets that will be used to fund the cost of expansion of enterprise fund infrastructure, monies accumulated to finance replacement of capital assets at the end of their useful life, funds apportioned for payment of self-insured liability claims, and amounts set aside to pay currently maturing principal and interest on long-term debt. These assets and related liabilities are separate from other assets of the City and appear on the financial statements under the heading “asset apportionments” and “liabilities payable from apportioned assets”. Because these apportionments do not represent legal restrictions imposed by parties external from the local government, the net value of asset apportionments minus liabilities is included in the unrestricted section of net position on the Statement of Net Position.

7. Restricted Assets

Revenue bond ordinances and certain other agreements with parties outside the City require the restriction of certain fund assets for specific purposes such as sinking and reserve accounts required to secure bonded debt; renewal, repair, expansion, and construction funds (bond proceeds) set aside to finance recurring and future capital improvements; meter deposit funds held on behalf of utility customers; and proceeds from impact fees collected for the purpose of financing utility system capacity improvements. These assets and the related liabilities are classified separately from other assets and liabilities, appearing in the accompanying statement of net position under the heading “restricted assets”, “liabilities payable from restricted assets”, and “restricted net position”.

In cases in which both unrestricted and restricted assets are available to finance an expense or program, the City’s policy is to utilize restricted assets first whenever possible.

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Assets, Deferred Outflow of Resources, Liabilities, Deferred Inflows of Resources, and Fund Equity (continued)

7. Restricted Assets (continued)

The balances of restricted asset accounts in the governmental and business-type activities are as follows:

	<u>Governmental Activities</u>	<u>Business-Type Activities</u>
Debt service	\$ 1,889,942	\$ -
Capital improvements	248,509	37,411,676
Transportation	6,915,401	-
Customer deposits	221,684	16,408,450
Law enforcement	1,346,412	-
CRA	10,376,793	-
Building inspection	2,018,899	-
Grant Programs - Community development	1,050,921	-
Endowments - nonspendable	5,520,738	-
Donations received	1,013,539	-
Impact fees	19,342,565	-
	<u>\$ 49,945,403</u>	<u>\$ 53,820,126</u>

8. Capital Assets

Capital equipment purchased with an original value of \$1,500 or more, and additions, improvements and other capital outlays, having an original cost of \$2,500 or more that significantly extend the useful lives are capitalized. Utility plant is capitalized at cost. Capital assets used in governmental fund type operations are accounted for in the government-wide statements, rather than in the fund financial statements. Routine maintenance, repairs, renewals and replacement costs are charged against operations.

Infrastructure assets consisting of certain improvements and additions such as roads, sidewalks and drainage systems having an original cost of \$25,000 or more are capitalized.

Capital assets are valued at historical cost or estimated historical cost if actual historical cost was not available. Donated capital assets are valued at their acquisition value on the date donated.

The depreciation on assets, where disclosed, is provided using the straight-line method over the following estimated useful lives:

Land improvements	10 - 45 years
Buildings	15 - 50 years
Improvements, other than buildings	10 - 45 years
Improvements, sewer lines	40 - 90 years
Office machines	5 - 15 years
Communications equipment	5 - 10 years
Motor vehicles	4 - 20 years
Furnishings and fixtures	5 - 25 years
Maintenance equipment, tools	5 - 15 years
Roads and alleys	10 - 50 years
Easements and right of ways	10 - 50 years
Sidewalks	25 - 50 years
Storm drainage	25 - 100 years
Utility plant	25 - 35 years

Depreciation expense on assets used in governmental activities is included in the expenses of each governmental function on the government-wide Statement of Activities. Depreciation on general infrastructure assets is included within the expenses of the most relevant function.

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Assets, Deferred Outflow of Resources, Liabilities, Deferred Inflows of Resources, and Fund Equity (continued)

9. Bond Discounts, Bond Premiums, and Issuance Costs

In the governmental funds, bond discounts and bond premiums are treated as period costs in the year of issue. Bond premiums and discounts are shown as an "Other Financing Source/Use".

In proprietary funds (and for governmental activities, in the government-wide statements) bond discounts and bond premiums are amortized over the term of the bonds using the straight-line method, which is materially consistent with the effective interest method. Bond discounts and premiums are presented as a reduction and increase, respectively, of the face amount of the revenue bonds payable. Issuance costs, except any portion related to prepaid insurance costs, are recognized as an expense in the period incurred.

10. Unearned Revenues

In the governmental funds, certain revenue transactions have been reported as unearned revenue. Unearned revenues arise when resources are received by the City before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. Revenue cannot be recognized until it has been earned and is available for finance expenditures of the current period. In subsequent periods, when both revenue recognition criteria are met, or when the City has a legal claim to the resources, the liability for unearned revenue is removed from the balance sheet or statement of net position and the revenue is recognized.

	Governmental Activities	Business-Type Activities
Unrestricted	\$ 6,913	\$ 202,260
Restricted	652,099	-
	<u>\$ 659,012</u>	<u>\$ 202,260</u>

In the proprietary funds (and for governmental activities in the government-wide statements), unearned revenue is reported regardless of its availability.

11. Compensated Absences

Within the government-wide Statement of Net Position, the City accrues all accumulated unpaid vacation and sick leave when earned by the employee. Within the fund financial statements, the non-current portion of this liability payable from governmental funds is not recorded, since it would not be paid from expendable available financial resources. Compensated absences are reported in governmental funds only if they have matured.

12. Inter-fund Activity

Inter-fund activity is reported as loans, provided services, reimbursements, or transfers. Loans are reported as inter-fund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at or near market rates, are treated as revenues and expenditures/expenses. Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund, and reduces its related cost as a reimbursement. All other inter-fund transactions are treated as transfers. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government-wide financial statements.

13. Fund Equity

The implementation of GASB 54 was intended to improve the usefulness of information provided to financial report users about fund balance by providing clearer, more structured fund balance classifications, and by clarifying the definitions of existing governmental fund types.

GASB 54 differentiates how the City is bound to honor constraints on the specific purposes for which amounts in those funds can be spent in governmental funds. Fund balance shall be composed of non-spendable, restricted, committed, assigned, and unassigned amounts. These classifications reflect the nature of the funds and provide clarifications and hierarchies on the level of restrictions placed on the fund balances (i.e. internal or external restriction requirements).

The City uses restricted amounts first when both restricted and unrestricted fund balance is available unless there are legal documents/contracts that prohibit doing this, such as in grant agreements requiring dollar for dollar spending. Additionally, the City would first use committed fund balance, followed by assigned fund balance and then unassigned fund balance when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used. For further details of the various fund balance classifications refer to Note 12.

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Assets, Deferred Outflow of Resources, Liabilities, Deferred Inflows of Resources, and Fund Equity (continued)

14. Deferred Inflows/Outflows of Resources

Within the Basic Financial Statements certain items that were previously reported as assets and liabilities are recognized as outflows of resources or inflows of resources because they result in the use of resources in the current period or the acquisition of net assets for the benefit of future periods. The unamortized loss on refunding of debt, deferred outflows of resources related to OPEB, ARO, and pension; and deferred hedging derivative outflows are classified as a deferred outflow of resources. Unearned revenues recognized in governmental fund statements, contributions in aid of construction, deferred inflows of resources related to OPEB and pensions; and deferred hedge derivative inflows of resources are classified as deferred inflows of resources. Deferred revenues related to governmental funds represent the recording of assets such as property tax receivables, lease receivables, and mortgage receivables, relating to revenues not available in the accounting period.

Lakeland Electric receives nonrefundable payments from consumers and developers for extension of electric services, and funds received from developers and customers for assets owned and maintained by Lakeland Electric. Through the use of regulatory accounting, contributions in aid of construction and fuel reserve balance are recorded as deferred inflows of resources, and amortized over the life of the corresponding assets.

The deferred inflows and outflows of resources balances presented in the Statement of Net position as of September 30, 2019 are as follows:

Deferred outflows of resources:	
Unamortized loss on refunding of debt, beginning balance	\$ 29,719,218
Amortization	<u>(3,296,490)</u>
Unamortized loss on refunding of debt, ending balance	26,422,728
Decrease in fair value of interest rate swaps	33,652,445
Deferred outflows of resources related to pensions	39,992,510
Deferred outflows of resources related to OPEB	28,013,193
Deferred outflows of resources related to ARO	<u>3,267,243</u>
Total deferred outflows of resources	<u>\$ 131,348,119</u>
Deferred inflows of resources:	
Deferred inflows of resources related to OPEB	\$ 46,999,042
Contributions in aid of construction	47,249,282
Fuel reserve balance	19,094,941
Unrealized gain on hedges	2,186,812
Deferred inflows of resources related to pensions	<u>27,292,496</u>
Total deferred inflows of resources	<u>\$ 142,822,573</u>

15. Derivatives and Hedging Activities

Derivatives have a market value, require no initial investment, and may be net settled. The City follows GASB 53, Accounting and Financial Reporting for Derivative Instruments. Under GASB 53, derivatives are either categorized as hedging derivative instruments or investment derivatives. Hedging derivative instruments are associated with specific hedging transactions wherein the intent is to significantly reduce risks. Changes in fair value of hedges are reported as either deferred inflows or deferred outflows in the statement of net position. For accounting purposes, in order to qualify as a hedge, the relationship between the derivative and the underlying asset must result in a hedge that is "effective" in mitigating risk. If the hedge transaction is considered "ineffective" the valuation of the instrument is considered investment income or loss on the Statements of Revenues, Expenses and Changes in Net Position. GASB 53 outlines five methods for evaluating hedge effectiveness:

- Consistent Critical Terms
- Synthetic Instrument
- Dollar Offset
- Regression Analysis
- Other Quantitative Methods

For purposes of performing hedge effectiveness testing, Lakeland Electric can use any or all of the evaluation methods and is not limited to using the same method from period to period. Therefore, if the result of any one prescribed evaluation method indicates the hedge is ineffective, Lakeland Electric may apply another method to verify effectiveness. In addition, the calculations for effectiveness may be based on either a life-to-date period or be limited to the immediately preceding annual accounting period.

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Assets, Deferred Outflow of Resources, Liabilities, Deferred Inflows of Resources, and Fund Equity (continued)

15. Derivatives and Hedging Activities (continued)

Fuel Hedges

To achieve its goals of minimizing volatility in both cash flow and fuel rates to the ratepayers, Lakeland Electric hedges at various volumes for a rolling 30-month forward period with emphasis on upside protection through the purchase of swaps. When a swap is placed, at or near the same time, a put option will be placed to provide opportunity to participate in a downward market. Swaps should be placed at no more than a \$1/MMBTU above market and option premiums at \$0.50/MMBTU resulting in a maximum cost of \$1.50/MMBTU. Each quarter, when a fuel rate change is proposed, the next 12 months of forecasted volumes will be approximately 63 percent hedged as follows:

1st quarter will be 100 percent hedged
2nd quarter will be 75 percent hedged
3rd quarter will be 50 percent hedged
4th quarter will be 25 percent hedged

Fuel related derivative transactions are executed in accordance with the fuel hedging policies established by Lakeland Electric's Energy Risk Management Oversight Committee. The primary objective of these policies is to minimize exposure to natural gas price volatility for cash flow and fuel rate stabilization purposes. The Committee has a defined organizational structure and responsibilities, which include approving all brokerage relationships, counterparty credit worthiness, specific fuel volumes and financial limits in addition to overall policy compliance. Acquisition of these hedge transactions are managed by The Energy Authority (TEA) based on a contractual relationship created in March 2007. TEA performs the front and back office functions associated with such trades in accordance with overall hedging policies developed jointly by TEA and the aforementioned oversight committee of Lakeland Electric. The recording of fuel derivatives, when appropriate, is included on the Statement of Net Position as either an asset or liability measured at fair value. Related gains and/or losses are deferred and recognized in the specific period in which the derivative is settled and included as part of Fuel and Purchased Power costs in the Statement of Revenues, Expenses and Changes in Net Position. The premiums associated with the purchase of options are expensed upon expiration of the option. Premiums associated with unexpired options are embedded in the valuation table displayed later in this note. The valuation of market changes for contracts entered into within Lakeland Electric's Risk Management Program resulted in a net increase of \$1,617,950 to the cost of fuel during the fiscal year ended September 30, 2019, which was approximately 1 percent of the total fuel cost.

Lakeland Electric's natural gas swaps and options have been evaluated using the regression analysis method cited above. According to this method, all of Lakeland Electric's derivatives were considered to be effective. Consequently, the R-Squared relationship between the derivative based on the NYMEX index as related to physical natural gas prices based on purchased gas from Florida Gas Transmission Zones 1, 2 and 3 was 0.8 or higher with a slope between -0.8 and -1.25 with a 95 percent confidence. In addition, the effectiveness of options was assessed consistent with the objective of the derivative instrument as mentioned in the goals of hedging above. With GASB compliance, the open swaps and options valuation of \$2,186,812 includes mark-to-market of the swaps and both intrinsic and extrinsic mark-to-market of the options.

Derivative Instruments

Natural Gas Derivative Instruments

Lakeland Electric uses Over-the-Counter (OTC) swaps, put options, swing-swaps and fixed price firm physical purchases of natural gas as tools to stabilize the cost of natural gas that will be needed by the utility in the future. Any gain or loss of the value of these derivatives are ultimately rolled into the price of natural gas burned, offsetting the volatility in the price of that fuel. These derivative instruments are classified in Level 2 of the fair value hierarchy using the market approach of valuation. Derivative instruments classified as Level 2 receive clearing house prices, which are based on models that reflect the contractual terms of the derivatives. As of September 2019, Lakeland Electric had the following options, swaps and physical contracts outstanding in the following amounts, covered fiscal year 2020 and beyond:

<u>Fiscal Year</u>	<u>Options</u>	<u>Swaps</u>	<u>Market Value</u>
2020	\$ 11,448,533	\$ 8,420,000	\$ (1,726,290)
2021	3,240,215	4,300,000	(478,010)
2022	300,000	900,000	17,488
	<u>\$ 14,988,748</u>	<u>\$ 13,620,000</u>	<u>\$ (2,186,812)</u>

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Assets, Deferred Outflow of Resources, Liabilities, Deferred Inflows of Resources, and Fund Equity (continued)

15. Derivatives and Hedging Activities (continued)

Interest Rate Swaps

An interest rate swap is a derivative whose value and terms are derived from a specified financial index (SIFMA). In the case of the interest rate swaps employed by the City of Lakeland, the intent is two-fold. First to achieve an all-in financing cost (representing interest payments to bondholders combined with net interest payments and receipts on the derivatives) that is less than the financing cost associated with traditional fixed rate bonds based on market conditions at the time of each bond issue. The second objective is to minimize the interest rate risk associated with the inherent volatility associated with "naked" variable rate debt. Under the terms of these interest rate swaps, the City of Lakeland pays an amount to a counterparty that is based on a specified notional amount (which closely approximates the outstanding principal amount of the related bonds) times a specified fixed interest rate. In exchange, the counterparty makes a payment to the City that is based on the same notional amount times a variable rate of interest. When the variable and fixed components of the interest rate swaps are combined with the variable cash payments made by the City to the actual bondholders, the end result is a net fixed rate of interest.

In the case of Lakeland's interest rate swaps, effectiveness testing measures the extent to which the terms of the interest rate swaps insulated the City from changes in the market rate of interest payable on the bonds. The City of Lakeland's interest rate swaps have been evaluated using all of the methods cited above except the dollar-offset method. All of the interest rate swaps employed by the City have passed at least one of the effectiveness tests prescribed by the GASB 53. Accordingly, the market values of the derivatives are recorded as offsetting items on the balance sheet i.e. recognition of changes in fair market value are deferred.

Note 6 G - Interest Rate Swaps, refers to the fair value of interest swap derivatives, which are evaluated for effectiveness using the same criteria required for fuel hedge derivatives under GASB 53.

The interest rate swaps are classified in Level 2 of the fair value hierarchy using the market approach to valuation. Derivative instruments classified as Level 2 receive clearing house prices, which are based on models that reflect the contractual terms of the derivatives. The fair value of all of Lakeland Electric's derivatives as of September 30, 2019 was as follows:

<u>Derivatives</u>	<u>September 30, 2019</u>
Interest rate swaps	\$ (33,652,445)
Prepaid fuel	2,244,106
Fuel hedge	2,186,812
	<u>\$ (29,221,527)</u>

16. Regulatory Assets and Liabilities

GASB accounting guidance for regulated operations requires the recognition of revenues provided either before or after the costs are incurred, as assets or liabilities, in accordance with rate actions of the City Commission.

Unamortized debt issue costs

Lakeland Electric treats unamortized debt issuance costs as a regulatory asset, as allowed by GASB No. 62 for regulated operations that recover their debt issuance costs through rates. These costs are amortized, using the effective interest method, over the life of the related debt.

	<u>September 30, 2019</u>
Beginning Balance	\$ 1,449,493
Additions	-
Less	
Amortization	208,155
Ending Balance	<u>\$ 1,241,338</u>

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Assets, Deferred Outflow of Resources, Liabilities, Deferred Inflows of Resources, and Fund Equity (continued)

16. Regulatory Assets and Liabilities (continued)

Environmental compliance and conservation charges

GASB accounting guidance for regulated operations requires the recognition of revenues provided either before or after the cost is incurred as assets or liabilities in accordance with rate actions of the City Commission. The regulatory assets/liabilities below represent the amounts due from, or (payable to) retail customers.

	September 30, 2019
Environmental compliance charge recovery:	
Beginning regulatory liability balance	\$ 403,578
Charges recovered through rates	6,620,502
Less environmental compliance expense	<u>(7,079,466)</u>
Ending balance	<u>\$ (55,386)</u>
Energy conservation charge recovery:	
Beginning regulatory liability balance	\$ 184,257
Charges recovered through rates	738,633
Less future conservation charges	<u>(933,780)</u>
Ending balance	<u>\$ (10,890)</u>
Economic development charge recovery:	
Beginning regulatory liability balance	\$ -
Charges recovered through rates	250,000
Less economic development costs	<u>(22,950)</u>
Ending balance	<u>\$ 227,050</u>

Fuel charges

As of September 30, 2019, a cumulative over-recovery of fuel charges, in excess of the long-term fuel reserve balance (deferred inflow of resources) established by the City Commission in 2015, is classified as a regulatory liability, calculated as follows:

	September 30, 2019
Fuel reserve:	
Fuel reserve balance	\$ 19,094,941
Less cumulative over-recovery of fuel charges	<u>(29,273,521)</u>
Ending balance	<u>\$ 10,178,580</u>

Remainder of Page is Intentionally Blank

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Assets, Deferred Outflow of Resources, Liabilities, Deferred Inflows of Resources, and Fund Equity (continued)

17. Asset Retirement Obligations

Effective October 1, 2018, the City of Lakeland adopted GASB Statement No. 83, *Certain Asset Retirement Obligations (ARO)*. GASB 83 established criteria for determining the timing and pattern for recognizing a liability and the corresponding deferred outflow of resources for AROs. The Statement requires that the measurement of an ARO be based on the best estimate of the current value of outlays to be incurred when retiring the asset. The best estimate should include probability weighting of all potential outcomes, when such information is available or can be obtained at reasonable cost. Otherwise, the best estimate should be the most likely amount.

ARO costs should be recognized on the balance sheet as a liability and as a deferred outflow of resources (i.e., deferred cost) once the liability is both incurred and reasonably estimable. The liability shall be reduced as payment is made, and the deferred outflows of resources shall be reduced and recognized as outflows of resources (e.g., expenses) in a systematic and rational manner over the estimated useful life of the tangible capital asset.

GASB 83 also requires that the government disclose information about the nature of its AROs, the methods and assumptions used for the estimates of the liabilities, and the estimated remaining useful life of the associated tangible capital assets. If a government incurs an ARO (or portions thereof) but has not yet recognized the ARO because it is not reasonably estimable, the government must disclose this and the reasons why the amount is not reasonably estimable.

Procedures

Staff from various departments (e.g., legal, environmental, accounting, production, etc.) and a third-party consultant from PricewaterhouseCoopers (PwC) participated in multiple discussions to determine possible AROs at sites. There are certain asset types that have regulatory requirements related to retirement as well as certain asset types that often have retirement obligations required by permits or contracts. For those that were determined to be located at City sites, staff identified whether or not those assets have legal obligations for retirement. For those with legal retirement obligations, Staff determined if the ARO costs were reasonably estimable and, thus, the ARO liabilities should be recognized.

The following types of assets were determined to have ARO's:

Asset	Deferred outflow amortization period	ARO cost estimate
Water wells	17 years	\$ 1,490,000
Septic tanks	17 years	30,000
PCB fluid-containing electrical equipment	10 years	30,000
Radiological devices	5 years	10,000
Natural gas pipeline	17 years	390,000
Office trailers	17 years	10,000
Asbestos cement piping	25 years	740,000
Total		<u>\$ 2,700,000</u>

Non-Amortizing, Non-Accreting Obligation*

Asset	Deferred Outflow Amortization Period	ARO Cost Estimate
McIntosh Plant Unit 3	N/A	\$ 860,000

*Amount relates to requirement to repurchase land at end of life from joint owner at amount received from land sale at original participation. As amount is fixed, there will be no escalation in cost over remaining life of plant and as amount involves purchase of land no amortization of the deferred outflow to expense as land is a non-depreciable asset.

17. Asset Retirement Obligations (continued)

Water Wells

Florida and federal regulations provide specific requirements for the plugging of water wells upon abandonment in Florida Administrative Code 62-532.500(5). Water wells located in the Southwest Florida Water Management District have the following specific requirement for plugging water wells upon abandonment Florida Administrative Code 40D-3.531(3).

Staff conducted a review of all water wells installed at their sites and provided a list of applicable assets, which included the following wells:

No. of Wells	Area/Well type	Average Depth (ft)	Unit Cost	Cost Estimate
7	McIntosh plant/10-inch drinking water wells	600	\$ 22,500	\$ 157,500
3	McIntosh plant/24-inch drinking water wells	732	68,400	205,200
42	McIntosh plant/2-inch extracting/monitoring wells	22	445	18,690
18	McIntosh plant/4-inch monitoring wells	43	1,280	23,040
8	Larsen plant/2-inch extraction wells	12	445	3,560
2	Larsen plant/4-inch extraction wells	9	400	800
13	Northwest wellfield/drinking wells	747	56,637	736,281
5	Northeast wellfield/drinking wells	751	26,195	130,975
1	Combee wellfield/drinking well	716	45,609	45,609
57	Monitoring wells	103	2,881	164,217
	Misc. costs			4,128
	Total			<u>\$ 1,490,000</u>

The City will likely abandon these water wells with the closure of the respective facilities. Historically The City plugs and abandoned water wells at the site in order to comply with the applicable regulations, the estimated cost was determined by a cost proposal prepared by Terracon Consultants, Inc. for the plugging of a four-inch groundwater monitoring well at McIntosh Plant; from Custom Drilling Services, Inc. and CH2M Hill Engineers, Inc. for the plugging of 13 monitoring wells at the T.B. Williams Plant in 2019. To obtain additional cost data for preparing the best estimate, vendor quotes were requested from local contractors. Green Well Drilling, Inc. of Lakeland, Florida provided the abandonment costs included in the table above. The contractor noted that the Southwest Florida Water Management District may request additional abandonment requirements beyond those prescribed in F.A.C. 40D-3. Based on Green Well Drilling, Inc.'s historical experience with the District, they assumed that the most likely requirements will include filling the wells with grout to the water table and then with Portland cement from the water table to the surface. The cost estimate received in this vendor quote represents the best information currently available on which to base the ARO liability.

The City provides potable water and wastewater services to residential, commercial, and industrial customers in the Lakeland, Florida area of Polk County (part of the Southwest Florida Water Management District). The City owns and operates two facilities: the T.B. Williams Plant and the C. Wayne Combee Plant. The T.B. Williams plant includes 13 water extraction wells in the Florida aquifer and a 51-million gallon per day (gpd) treatment facility. The C. Wayne Combee Plant includes six extraction wells and the Florida aquifer and an 8-million gpd treatment facility. The City's piping system includes approximately nine miles of raw water piling to convey water from the wells to the treatment plants and 998 miles of service piping to deliver treated water to customers. The system includes more than 54,000 active service meters, which provide 100% coverage of water consumption.

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Assets, Deferred Outflow of Resources, Liabilities, Deferred Inflows of Resources, and Fund Equity (continued)

17. Asset Retirement Obligations (continued)

Septic Tanks

Florida regulations provide specific requirements for the abandonment of on-site sewage treatment and disposal systems upon retirement in Florida Administrative Code 64E-6.011(2). The City conducted a review of all septic tanks used at City sites and provided the following applicable assets. McIntosh Plant has four 1,250-gallon tanks, Larsen Plant has one 1,250-gallon tank, Winston Peaking Station has one 1,000-gallon tank (four of which are located beneath asphalt or concrete) and the Wetlands Effluent Treatment Facility has one 900-gallon concrete septic tank approximately 2 feet below a grass surface.

The City will abandon the septic tanks when their respective plant/facilities close. The City has not previously abandoned septic tanks at any sites. To obtain ARO cost data for abandoning the septic tanks, vendor quotes were requested from local contractors. Averett Septic Tank Co., Inc. of Lakeland, Florida provided a cost estimate to abandon the septic tanks in accordance with F.A.C. 64E-6.011(2), which is summarized in the table above. The cost estimate received in this vendor quote represents the best information currently available on which to base the ARO liability.

<u>Number of Septic Tanks</u>	<u>Abandonment Cost per Tank</u>	<u>Cost Estimate (rounded)</u>
7	\$ 3,000	\$ 21,000
Misc. costs		9,000
		<u>\$ 30,000</u>

PCB-Containing Electrical Equipment

Federal regulation 40 CFR § 761.60(a) provides specific requirements for the disposal of materials containing more than 50 parts per million (ppm) of PCBs. Lakeland Electric conducted a review of all electrical equipment located at their sites known to contain PCBs at concentrations greater than 50 ppm. McIntosh plant has two 15-kVA transformers with 55 gallons of PCB-containing dielectric fluids, and also two three gallon 13,800-volt surge capacitors with PCB-containing dielectric fluids.

<u>Size of Transformers (gallons)</u>	<u>Cost per Gallon</u>	<u>PCB Fluid Replacement Cost</u>
110	\$ 218	\$ 23,980
6	218	1,308
Misc. costs		4,712
Total		<u>\$ 30,000</u>

It is currently unknown when these PCB fluids will be disposed. Historically PCB-containing electrical equipment have been serviced on site, standard practice has been to replace the PCB-containing fluids per 40 CFR § 761.60(a) (as opposed to removing and disposing of the equipment itself) so the equipment may continue to used. This process includes removing the fluids, flushing the equipment, refilling the equipment with non-PCB-containing fluids, and transporting the PCB-containing fluids off site to a chemical waste landfill. The cost data was obtained from the contractor (ACT Environmental & Infrastructure) who removed and disposed of PCB fluids from two transformers at the Larsen Plant in 2013. Based on this unit cost of \$218 per gallon, the approximate cost to remove and dispose of the 116 gallons of PCB fluids from the four electrical equipment items to be \$30,000. Because historically ACT has been used for this work, it is assumed that ACT will be used in the future. As such, the quote provided by ACT represents the most likely future cost for the most likely removal/ disposal method.

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Assets, Deferred Outflow of Resources, Liabilities, Deferred Inflows of Resources, and Fund Equity (continued)

17. Asset Retirement Obligations (continued)

Radiological Devices

Federal regulations 49 CFR § Part 173, Subpart I provide specific requirements for the shipment of Type A radioactive materials. Lakeland Electric uses radiation-based measurement at the McIntosh Plant to determine the density of stockpiled coal piles, which requires radioactive sources. Retirement of these gauges is anticipated in 2024 when the coal-fired electric generating unit (Unit 3) is deactivated. Upon retirement of these sources, shipping these sources will be required, and the devices that house them, to the manufacturer as Type A radioactive materials.

The City conducted a review of all radiological devices located at their sites. There were eighteen assets identified, one portable Troxler 3430 nuclear density gauge, five fixed Ohmart SH-F1 source holders and twelve fixed Thermo Fisher 5197 source heads.

<u>Radiological Devices</u>	<u>Number of Devices</u>	<u>Shipping Cost</u>	<u>Cost Estimate</u>
Troxler 3430	1	\$ 243	\$ 243
Ohmart SH-F1	5	680	3,400
Thermo Fisher 5197	12	307	3,684
Misc. costs			2,673
Total			<u>\$ 10,000</u>

A bill of lading from our most recent (October 2019) shipment of the Troxler 3430 gauge (via R+L Carriers) to Troxler Electronic Labs in Apopka, Florida was provided. It was noted that the device plus packaging weighed 75 pounds, and the one-way shipment had a cost of \$243.31. Per review of the device specifications provided on the manufacturers' website, indicated that model "3430" devices weigh 31 pounds and indicates that the shipping container weighs approximately 44 pounds. Also identified was that SH-F1 devices weigh 129 pounds and will be shipped to Ohmart/Vega in Cincinnati, Ohio, and 5197 devices weigh 35 pounds and will be shipped to Thermo Fisher in Sugarland, Texas. Because each radiological device will need to be shipped in a specific container designed for Type A radioactive materials, it was assumed that each device will be shipped in a separate container. R+L Carriers were contacted and requested quotes for these shipments, and the above table summarizes those costs. Because Lakeland Electric has historically used R+L Carriers to ship these devices, it is assumed that R+L Carriers will likely be used for future shipments. As such, the quotes provided by R+L Carriers most likely represent future costs and are considered the best estimate.

Natural Gas Pipelines

Federal regulation 49 CFR § Part 192.727(2) provides requirements for the abandonment of natural gas pipelines upon retirement. Lakeland Electric owns and operates a 16-inch, underground natural gas pipeline. The pipeline is approximately 9.25 miles long and runs from the North East Wellfield to the McIntosh Plant Regulating Station and then to the Larsen Plant. The pipeline is located exclusively on properties for which Lakeland Electric has right-of-way easements and that the pipeline transects two FDOT road crossings. It was assumed that Lakeland Electric will abandon this pipeline in place when both plants have been closed. Upon abandonment Lakeland Electric anticipates that the pipeline will be cut at eight locations (i.e., North East Wellfield, both sides of the McIntosh Plant, the Larsen Plant, and both sides of the two road crossings). The pipeline will be purged with an inert gas and seal each end open of the pipeline by welded cap. Lakeland Electric will also fill the two segments located under road crossings with grout. Lakeland Electric engineers prepared the cost estimate of \$390,000 to perform the necessary work.

The components of this cost estimate are provided in the following table:

<u>Description</u>	<u>Cost Estimate</u>
Labor	\$ 160,098
Equipment rental	37,223
Materials	50,100
Pipeline purging	140,000
Misc. costs	2,579
Total	<u>\$ 390,000</u>

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Assets, Deferred Outflow of Resources, Liabilities, Deferred Inflows of Resources, and Fund Equity (continued)

17. Asset Retirement Obligations (continued)

Office Trailers

Lakeland Electric leases two office trailers located at the McIntosh Plant from Williams Scotsman, Inc. The leases require that Lakeland Electric pay for the “knockdown” of these trailers upon lease termination. Currently these leases do not have termination dates and that Lakeland Electric will continue to lease the trailers at least until Unit 3 is deactivated in 2024. Williams Scotsman, Inc. includes the following predetermined costs for trailer knockdown:

<u>Trailer Size (sq ft)</u>	<u>Cost Estimate</u>
64x48	\$ 4,600
64x24	1,900
Misc. costs	3,500
	<u>\$ 10,000</u>

Because the leases included contractually agreed upon retirement costs, these costs are considered certain, and probability weighting is not considered necessary.

Abestos Cement Pipe

Federal regulations (40 CFR Part 61, Subpart M) provide specific requirements for the abatement and disposal of asbestos-containing materials (ACMs). 40 CFR 61.150(B) states that:

1. A waste disposal site operated in accordance with the provisions of 40 CFR 61.154, or
2. An EP- approved site that converts RACM and asbestos-containing waste material into non-asbestos (asbestos-free) material according to the provisions of 40 CFR 61.155.

The City owns and operates 14.11 miles of asbestos-cement pipe within FDOT right-of-way. Upon abandonment, the City has an obligation to remove and dispose of the piping as opposed to closing in place. FDOT's Utility Procedures Manual requires that each utility's permit includes the following statements, "all asbestos cement pipe and debris removed under the utility permit will be in accordance with the Asbestos National Emissions Standard for Hazardous Air Pollutant (NESHAP) and Title 40 Code of Federal Regulation Part 61, Subpart M."

The unit costs to remove and dispose of the asbestos cement pipelines were estimated by using necessary man hours, using internal labor rates and equipment costs, using disposal costs provided by the City's Solid Waste Department, and using grouting costs provided by a third-party vendor, KMR. The following table provides the cost estimate of the asbestos cement pipelines.

<u>Description</u>	<u>Length (ft)</u>	<u>Unit Cost (per ft)</u>	<u>Cost Estimate</u>
6 inch piping	16,000	\$ 9.98	\$ 159,680
8 inch piping	22,000	9.68	212,960
10 inch piping	14,000	10.29	144,060
12 inch piping	21,000	10.29	216,090
Misc. costs			7,210
			<u>\$ 740,000</u>

McIntosh Plant Unit 3

Although Lakeland Electric does not anticipate deconstructing and demolishing Unit 3 at the McIntosh plant when the unit is retired in 2027 (following deactivation in 2024), Lakeland Electric is contractually obligated to acquire the OUC's 40% ownership share of Unit 3 for the amount that OUC originally paid. Section 19 of the *Participation Agreement Between City of Lakeland and Orlando Utilities Commission for the Joint Ownership of McIntosh Unit Three Generation Project*.

Lakeland Electric's 60% share (\$1,292,000), the cost to repurchase OUC's 40% share will be approximately \$860,000 based on the original purchase price. Because this cost is based upon a contractually agreed upon amount, these costs are considered certain, and probability weighting is not considered necessary.

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Assets, Deferred Outflow of Resources, Liabilities, Deferred Inflows of Resources, and Fund Equity (continued)

17. Asset Retirement Obligations (continued)

Safeguarding Public Health and Safety

Also identified was, an obligation for safeguarding the Larsen Plant based on the requirements of the plant's industrial wastewater facility permit. Lakeland Electric, however, did not recognize the ARO liability because the requirements related to safeguarding the Larsen Plant are not currently known and, as such, the costs are not reasonably estimable.

The Larsen Plant discharges its Unit 8 cooling water, intake screen wash water, and storm water from the petroleum storage areas into Lake Parker under an industrial wastewater facility permit. As such, the Larsen Plant is subject to Florida Administrative Code 62-620, Wastewater Facility and Activities Permitting, which includes requirements for the abandonment of wastewater facilities.

The Florida Department of Environmental Protection (FDEP) has not provided information regarding the tasks that will need to be performed at the Larsen Plant in order to safeguard public health and safety. Lakeland Electric currently does not anticipate that there will be a need for any infrastructure at the plant to safeguard public health and safety beyond security fencing, which already exists at the Larsen Plant. Because Lakeland Electric is currently unable to determine what additional tasks will need to be performed, Lakeland Electric currently does not consider costs for this ARO liability to be reasonably estimable.

It is possible that, through discussions with FDEP, Lakeland Electric will identify additional tasks that will need to be performed to sufficiently safeguard public health and safety. If additional tasks are identified, a cost estimate will be prepared to complete these tasks and the ARO liability will be adjusted as needed.

Subsequent ARO Measurement and Recognition

The current value of the ARO for the effects of general inflation or deflation is adjusted annually using the Consumer Price Index (CPI) as published by the United States Department of Labor Bureau of Labor Statistics to perform the annual computation of the change in the ARO liability. The statement also requires the evaluation, at least annually, of all relevant factors to determine whether the effect of one or more of those factors is expected to significantly increase or decrease the estimated outlays associated with the ARO and the re-measurement of the ARO when results of the evaluation indicate a significant change in the estimated outlays resulting from changes in prices other than inflation/deflation, changes in technology, changes in legal or regulatory requirements, changes in equipment, facilities or services needed to retire the assets. The changes in the estimated outlays will be recognized as increases or decreases in the carrying amount of the ARO liability.

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Revenues, Expenditures, and Expenses

Substantially all governmental fund revenues are accrued. Property taxes, which are levied annually based on the value of real property and tangible personal property as assessed on January 1 and are collected from November through the following March. Accordingly, these revenues are recognized in the same fiscal period in which payment is collected.

Revenues of proprietary funds types are categorized as either operating or non-operating. Operating revenues represent the user charges that are assessed directly to the persons benefiting from the service provided by that fund. All other revenues, including grant revenues and capital contributions, are classified as non-operating.

In the Government-wide Statement of Activities, revenue that is derived directly from the program itself or from outside sources if restricted to a specific program is called program revenue. Program revenue is classified as either charges for services, operating grants or capital grants. Charges for services is revenue received by a particular function for the services that it provides to both entities outside of the City and to other City functions. Operating grant revenues come from other government entities to support the operation costs of particular functions and also from the earnings of permanent funds that are legally restricted to a particular function. Capital grants come from other government entities for the purpose of constructing or purchasing capital assets.

All revenues included in the classification of operating revenues, in proprietary fund types, are pledged as security for revenue bonds to the extent such indebtedness exists within each fund type, except for the indebtedness of the RP Funding Center Fund. The debt of the RP Funding Center Fund is secured by a pledge of the utility tax revenues accounted for within the General Fund.

Unearned revenues that are received prior to revenue recognition are classified as liabilities.

1. Property Taxes

The millage rate levied by the City for the fiscal year ended September 30, 2019 was 5.4644 mills. Current tax collections for the City were approximately 96.14% of the total levy. The property tax calendar provides for the tax revenue to be billed and collected within the applicable fiscal year.

The property tax calendar for revenues billed, received, and accrued for fiscal year ended September 30, 2019 is as follows:

Lien date	January 1, 2018
Levy date	January 1, 2018
Certificate of Taxable Value (DR-420)	July 25, 2018
Final public hearing to adopted proposed millage rate	September 15, 2018
Certificate of Final Taxable Value (DR-422)	October 8, 2018
Beginning of fiscal year for tax assessment	October 1, 2018
Due Dates	November 1, 2018 through March 31, 2019
Delinquent date	April 1, 2019
Tax certificate sale	On or before June 1, 2019

2. Indirect Expenses

Within the government-wide Statement of Activities, indirect expenses are not allocated to the functions of governmental activities. All expenses represent only direct expenses of each function.

3. Expenses

Expenses of proprietary funds types are categorized as either operating or non-operating. Operating expenses represent personal services, other expenses incurred in the normal operations of the proprietary fund, and depreciation expense. All other expenses are classified as non-operating.

F. Use of Estimates

Management has made estimates and assumptions relating to the reporting of assets and liabilities in conformity with GAAP. Actual results may differ.

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

G. Amortization

Bond discounts and premiums are amortized over the life of the issue using the straight line method for all funds with the exception of Lakeland Electric which uses the effective interest rate method. The City considered the effective interest method of amortizing bond discounts and determined that no material difference results from the continued use of the straight-line method. GASB 65, which was implemented by the City for FY2013, generally requires that unamortized debt issuance costs be expensed in the current period. However, Lakeland Electric elects to follow accounting for regulated operations under GASB 62, which allows debt issuance costs to be classified as a regulatory asset, and recovered through rates over the life of the associated debt.

H. Fair Value Hierarchy

The table illustrating investment holdings by the fair value hierarchy can be found in Note 3 – Cash, Cash Equivalents and Investments.

NOTE 2 – ACCOUNTING AND REPORTING CHANGES

A. Reporting Change

In April, 2018, the GASB issued Statement No. 88, *Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements*. The primary objective of this Statement is to improve the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt. This Statement defines debt for purposes of disclosure in notes to financial statements as a liability that arises from a contractual obligation to pay cash (or other assets that may be used in lieu of cash) in one or more payments to settle an amount that is fixed at the date the contractual obligation is established. The requirements of this Statement are effective for reporting periods beginning after June 15, 2018. The new note disclosures (Note 6) are addressed in the City's 2019 financial statements.

In November 2016, the GASB issued Statement No. 83, *Certain Asset Retirement Obligations*. This Statement addresses accounting and financial reporting for certain asset retirement obligations (AROs). This Statement establishes criteria for determining the timing and pattern of recognition of a liability and a corresponding deferred outflow of resources for AROs. The objective of this Statement is to provide financial statement users with information about asset retirement obligations (AROs) that were not addressed in GASB standards by establishing uniform accounting and financial reporting requirements of these obligations. This Statement requires that recognition occur when the liability is both incurred and reasonable estimable. The requirements of this Statement are effective for reporting periods beginning after June 15, 2018. The City has implemented provisions of GASB 83 in the financial statements ending September 30, 2019.

Remainder of Page is Intentionally Blank

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 2 – ACCOUNTING AND REPORTING CHANGES (continued)

A. Reporting Change (Continued)

During fiscal year 2019, the City implemented GASB Statement 83. The implementation of the statement required the City to record a beginning Asset Retirement Obligation (ARO) liability and a deferred outflow of resources associated with the ARO. As a result, net position for the business-type activities decreased by \$145,060.

The effect of the implementation is summarized as follows:

	Government-wide Statements	
	Governmental Activities	Business-type Activities
Net position, beginning of year	\$ 206,754,487	\$ 728,319,991
Prior Period Adjustment:		
Asset Retirement Obligation	-	(3,514,700)
Deferred outflows of resources related to ARO	-	3,369,640
Net position, beginning of year, as restated	\$ 206,754,487	\$ 728,174,931

	Business-type Activities				
	Department of Electric Utilities	Water and Wastewater Utilities	Other Enterprise Funds	Total	Internal Service Funds
Net position, beginning of year	\$ 317,253,250	\$ 266,013,694	\$ 106,985,186	\$ 690,252,130	\$ 60,807,379
Prior period adjustment:					
Asset retirement obligation	(1,715,400)	(1,799,300)	-	(3,514,700)	-
Deferred outflows of resources related to ARO	1,662,485	1,707,155	-	3,369,640	-
Net position, beginning of year, as restated	\$ 317,200,335	\$ 265,921,549	\$ 106,985,186	\$ 690,107,070	\$ 60,807,379

B. Change in Accounting Estimate

Lakeland Electric Management decided in FY2019 to mothball McIntosh Unit 3 by the end of FY2024. The decision to "mothball" rather than "retire" the unit stemmed from the need to preserve Lakeland Electric's transmission and environmental rights while Lakeland Electric seeks to permit and build a new unit. Once the new unit is built, Unit 3 will be officially retired.

As a result, effective October 1, 2018, Lakeland Electric changed the estimated useful lives of depreciable Unit 3 assets to reflect a useful life ending September 30, 2024. Estimated useful lives of the remaining Unit 3 depreciable assets were reduced to six years. The effect of this change in estimate was to increase the FY2019 depreciation expense by \$2,805,253, which reduces the FY2019 net position by the same amount.

C. New Accounting Pronouncements

In January 2017, the GASB issued Statement No. 84, *Fiduciary Activities*. The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This statement describes four fiduciary funds that should be reported, if applicable: (1) pension (and other employee benefit) trust funds, (2) investment trust funds, (3) private-purpose trust funds, and (4) custodial funds. The requirements of this Statement are effective for reporting periods beginning after December 15, 2018. Management has not determined what impact, if any, this GASB statement might have on its financial statements ending September 30, 2020.

In June, 2017, the GASB issued Statement No. 87, *Leases*. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provision of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019. Management has determined that this GASB statement will be implemented for the fiscal period ending September 30, 2021.

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 2 – ACCOUNTING AND REPORTING CHANGES (continued)

C. New Accounting Pronouncements (continued)

In June, 2018, the GASB issued Statement No. 89, *Accounting for Interest Cost Incurred Before the End of a Construction Period*. The objectives of this Statement are (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statement prepared using the economic resources measurement focus. It also reiterates that in financial statements prepared using the current financial resources measurement focus, interest cost incurred before the end of a construction period should be recognized as an expenditure on a basis consistent with governmental fund accounting principles. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019. Management has not determined what impact this GASB statement might have on its financial statements ending September 30, 2021.

In August, 2018, the GASB issued Statement No. 90, *Majority Equity Interests - An Amendment of GASB Statements No. 14 and 61*. The primary objectives of this Statement are to improve the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. This Statement also requires that a component unit in which a government has a 100 percent equity interest account for its assets, deferred outflows of resources, liabilities, and deferred inflows of resources at acquisition value at the date the government acquired a 100 percent equity interest in the component unit. The requirements of this Statement are effective for reporting periods beginning after December 15, 2018. Management has not determined what impact, if any, this GASB statement might have on its financial statements ending September 30, 2020.

In May, 2019, the GASB issued Statement No. 91, *Conduit Debt Obligations*. The primary objectives of this Statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement achieves those objectives by clarifying the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improving required note disclosures. The requirements of this Statement are effective for reporting periods beginning after December 15, 2020. Management has not determined what impact, if any, this GASB statement might have on its financial statements ending September 30, 2022.

In January, 2020, the GASB issued Statement No. 92, *Omnibus 2020*. The objectives of this Statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements. The requirements of this Statement will enhance the comparability in the application of accounting and financial reporting requirements and will improve the usefulness of information for users of state and local government financial statements. The requirements of this Statement are effective as follows:

- The requirements related to the effective date of Statement 87 and Implementation Guide 2019-3, reinsurance recoveries, and terminology used to refer to derivative instruments are effective upon issuance.
- The requirements related to intra-entity transfers of assets and those related to the applicability of Statements 73 and 74 are effective for fiscal years beginning after June 15, 2020.
- The requirements related to application of Statement 84 to postemployment benefit arrangements and those related to nonrecurring fair value measurements of assets or liabilities are effective for reporting periods beginning after June 15, 2020.
- The requirement related to the measurement of liabilities (and assets, if any) associated with ARO's in a government acquisition are effective for the government acquisitions occurring in reporting periods beginning after June 15, 2020.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 3 – CASH, CASH EQUIVALENTS AND INVESTMENTS

A. Deposits

The carrying amount of the amounts on deposit in banks, financial institutions, and cash on hand as of September 30, 2019 is as follows:

	<u>Primary Government</u>
Demand Deposits	\$ 897,851
Cash with Paying Agents	43,561,801
Cash on Hand	20,276
Total Deposits	<u>\$ 44,479,928</u>
Balance per bank	<u>\$ 10,005,883</u>

All balances are collateralized with securities held by the pledging financial institutions but not in the name of the City of Lakeland. This collateral consists of insurance provided by the FDIC and securities held by the State of Florida Public Deposit Security Trust Fund.

Custodial Credit Risk Custodial credit risk is the risk that in the event of a bank failure, the City of Lakeland's deposits may not be returned. Florida Statutes Chapter 280, *Florida Security for Public Deposits Act* requires deposits by governmental units in a financial institution be collateralized. The City of Lakeland's policy, in accordance with Florida Statutes, also requires the use of only authorized dealers and institutions and qualified public depositories, meeting the standards as set forth by the State of Florida and the Securities and Exchange Commission's Rule 15c3-1. In the event of a failure of a qualified public depository, the remaining public depositories would be responsible for covering any resulting losses. Accordingly, all amounts reported as deposits are deemed as insured or collateralized with securities held by the entity or its agent in the entity's name. As of September 30, 2019, \$10,005,883 and \$43,561,801 of the City of Lakeland's bank balance and paying agent deposits were exposed to custodial credit risk as follows:

	<u>Primary Government</u>
<u>Depository Account</u>	
Insured	\$ 725,746
Collateralized:	
Collateral held by the pledging financial institutions not in the City's name:	
Banking institutions	9,280,137
Cash with paying agents	43,561,801
Total Deposits	<u>\$ 53,567,684</u>

B. Fair Value Hierarchy

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs. Investment values are measured consistent with the market approach to valuation using prices and other relevant information generated by market transactions involving identical or similar assets, liabilities, or groups of assets and liabilities.

Debt and equity securities classified as Level 1 were valued using quoted prices as of September 30 (or the most recent market close date if the markets were closed on September 30) in active markets. from the custodian bank's primary external pricing vendors.

Debt and equity securities classified as Level 3 are prices from the custodian bank's external pricing vendors or an alternative pricing source, utilizing inputs such as stale prices, cash flow models, broker bids, or cost. Cost or book value may be used as an estimate of fair value when there is a lack of an independent pricing source.

¹Fixed income strategies - This type includes four private equity fixed income type securities invested primarily in secured and unsecured debt instruments of middle market companies and institutions. These securities can include special situations like rescue financing and restructuring to optimize liquidity often with lower fee structures. *These investments are typically illiquid with disbursements received as underlying assets are liquidated; however, one of these funds is eligible for quarterly redemption with 100 days written notice.

²Real estate strategies - This type includes eight real estate funds invested primarily in commercial and residential real estate. Participation in these funds is typically as a limited partnership with ownership measured in shares of partners' capital. *These holdings are typically illiquid with distributions received as underlying asset are liquidated; however, one fund is eligible for quarterly disbursement with 30 days' notice subject to available cash as determined by the trustee.

³Private equity strategies - This type includes seven private equity funds that invest in domestic and international equities with a variety of investment strategies. Ownership is measured in shares of partners' capital with distributions received as the underlying investments of the fund are liquidated. *These holdings are typically illiquid with distributions received as underlying assets are liquidated; however, two of these funds are eligible for daily withdrawal subject to a 5 or 10 day notice and one fund is eligible for monthly withdrawal subject to a 5 day notice before month end.

⁴Alternative investments - This type includes three private equity funds with a variety of investment strategies that typically offer superior long-term risk/reward profiles, but with more limited liquidity characteristics. Ownership is measured in shares of partners' capital with distributions received as the underlying investments of the fund are liquidated. *These holdings are largely illiquid with distributions only received as underlying assets are liquidated. None of these funds are eligible for withdrawal of equity upon request.

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 3 – CASH, CASH EQUIVALENTS AND INVESTMENTS (continued)

C. Cash Equivalents and Investments

Pooling of Cash and Investments Except for cash in certain restricted and special funds, the City will consolidate cash balances from all funds to maximize investment earnings. Investment income will be allocated to the various funds based on their respective participation in each investment pool and in accordance with GAAP.

The City of Lakeland's cash investment pool is considered to be a cash equivalent for reporting purposes because it is an internally managed mutual fund which allows individual funds and sub-funds to, at any time, deposit additional cash or make withdrawals without prior notice or penalty.

Pooled Investments – Swap Transaction As of September 30, 2019, the City had \$88,205,000 in investment swaps outstanding.

Investments Several forms of legal and contractual provisions govern the types of investments in which the City may directly invest. Allowable investments consist of US Government obligations, US Government agency or instrumentality obligations, and the obligations of federal government sponsored enterprises (GSE's), which have a liquid market with a readily determinable market value; securities whose timely payment of principal and interest are fully guaranteed by any of the above; certificates of deposits and other evidences of deposit at financial institutions, provided that any such investments shall be in a qualified public depository (as defined in Chapter 280 of the Florida Statutes) and/or covered by FDIC insurance; investment-grade obligations of state and local governments and public authorities; repurchase agreements whose underlying purchased securities consist of the foregoing; guaranteed investment contracts (GIC's) which are collateralized by the foregoing; dollar denominated money market mutual funds regulated by the SEC; local government investment pools either state administered or through joint powers statutes and other intergovernmental agreement legislation; High grade corporate debt consisting of dollar denominated debt obligations of domestic or foreign corporations, for foreign sovereignty's issued in the US or foreign markets rated in the highest tier by a nationally recognized rating agency. Any such longer-term investments in this category shall be rated investment grade or better by at least two nationally recognized rating agencies, one of which shall be Moody's or Standard & Poor's; and any other qualified investment permitted under Florida Statutes in effect. The SBA is part of the Local Government Surplus Funds Trust Fund which is governed by Chapter 19-7 of the Florida Administrative Code. The pension trust funds are also authorized for investment in corporate stocks and bonds, money market funds and other qualified securities.

The standard of prudence to be used by investment officials shall be the "prudent person" standard and shall be applied in the context of managing an overall portfolio. All trades, where applicable, will be executed by delivery vs. payment (DVP) to ensure that securities are deposited in an eligible financial institution prior to the release of funds. Safekeeping receipts or other evidence of ownership will be audited on a semi-annual basis with a variance report issued to the Investment Administrator. The following investments and maturities, held by the various funds of the City as of September 30, 2019, are collateralized by registered securities held by the City or its agents in the City's name:

Custodial Credit Risk Custodial credit risk, for an investment, is the risk that, in the event of the failure of the counterparty, the City of Lakeland will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

As of September 30, 2019, the City of Lakeland held \$57,387,156 in Money Market Funds and \$263,692,023 in Mutual Funds. These investments are held by an investment's counterparty, not in the name of the City. The City of Lakeland's investment policy limits the investment in Money Market Funds and Mutual Funds to 10% of total investments in each.

¹Represents accrued interest accounted for within the internally managed pooled investment fund and consolidated investment fund. This asset is allocated to participating funds on a pro-rata basis and is included within the investment caption.

²The rate of return on the money market funds, exchange traded funds, and mutual funds fluctuates during the year based on market conditions. Also, there is no stated maturity date for this type of investment. These funds may be invested, withdrawn, or reinvested at the City's discretion.

³The investment maturities of the fixed income strategies, real estate strategies, and private equity strategies are based principally on redemption eligibility. For funds where redemption is not known, maturities have been estimated based on past experience with similar investment funds in relation to remaining uncalled capital and typical liquidation of underlying assets.

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 3 – CASH, CASH EQUIVALENTS AND INVESTMENTS (continued)

C. Cash Equivalents and Investments (continued)

Interest Rate Risk Interest rate risk exists when there is a possibility that changes in interest rates could adversely affect an investment's fair value. The City utilizes the "segmented time distribution" method as a measure of interest rate risk.

The fair values of the City of Lakeland's fixed maturity investments fluctuate in response to changes in market interest rates. Increases in prevailing interest rates generally translate into a decrease in the fair values of those instruments. Fair values of interest rate-sensitive instruments may be affected by the credit worthiness of the issuer, prepayment options, relative values of alternative investments, the liquidity of the instrument, and other market conditions.

As a means of limiting its exposure to fair value losses arising from rising interest rates, the City of Lakeland's investment policy structures the investment portfolio to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity. The City of Lakeland's investment policy limits the length of maturities of investment securities held by funds of the City, except Pension Funds or any other monies invested under separate ordinance, resolution, policy, or agreement. Unless a portion of the investment is matched to a specific cash flow and invested in cash equivalent investments, the City will not directly invest in securities maturing more than ten (10) years from the date of purchase or in accordance with state and local statutes and ordinances. However, Section IV.7.b of the policy provides for investment horizons exceeding ten years for reserve funds and non-operating funds if, in the judgment of the Investment Administrator, any such investments are sufficiently liquid to provide for unexpected use of such funds. The City owns a significant amount of mortgage-backed debt that have long legal maturities. However, these bonds actually have relatively short average lives. The investment maturity limits and actual limits of investments held by funds of the City as of September 30, 2019, except for the aforementioned funds, are as follows:

Maturity Limitations	% of Total Maximum	% of Total
0-1 years	100%	10.6%
1-5 years	75%	9.9%
5-10 years	50%	11.7%
10+ years	0%*	67.8%

* Except as provided for in section IV.7.b of the Investment Policy.

Foreign Currency Risk Foreign currency risk, for an investment, is the risk associated with currency fluctuations when an investment is denominated in a foreign currency.

The Pooled Investment Fund held \$28,732,283 (5.9%) in fixed income investments of foreign issuers or non-US companies. The investment policy for this fund allows investments in high grade corporate debt consisting of U.S. dollar denominated debt obligations of domestic or foreign corporations, or foreign sovereignty's issued in the U.S. or in foreign markets. As of September 30, 2019 the funds foreign investment holdings were as follows:

NOTE 3 – CASH, CASH EQUIVALENTS AND INVESTMENTS (continued)

C. Cash Equivalents and Investments (continued)

The investments of the City's Perpetual Care Cemetery Fund, Survivor's Benefit Fund, the Baldwin Book Fund, and the Retiree Health Healthcare Trust Fund were pooled into the Consolidated Investment Fund. Section I.2 of the investment policy provides that the funds covered under the policy can be "pooled" for investment purposes to maximize earnings and to minimize associated fees. The Consolidated Investment Fund held \$1,821,718 (10.7%) in equity investments of foreign issuers or non-US companies. The investment policy for this fund limits the investments in foreign securities up to 30% of the fair market value of the equity assets held by the fund. As of September 30, 2019, the fund holdings were as follows:

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 3 – CASH, CASH EQUIVALENTS AND INVESTMENTS (continued)

C. Cash Equivalents and Investments (continued)

Credit Risk Credit risk is the risk of loss due to the failure of the security issuer or other counterparty.

The purpose of the City of Lakeland's investment policy is to minimize credit risk by limiting investments in securities that have higher credit risks, pre-qualifying the financial institutions, brokers/dealers, intermediaries, and advisors with which the City will do business, and diversifying the investment portfolio so that potential losses on individual securities will be minimized.

The City of Lakeland's investment policy requires the following Standard & Poor's (S&P) or Moody's uninsured credit quality ratings for fixed income securities of the Employee Pension Fund, the Municipal Police Officers' Pension Fund, the City of Lakeland Firefighters' Retirement System Fund, the Public Improvement Endowment Fund, and the Consolidated Investment Fund:

<u>Investment Class</u>	<u>S & P Rating</u>	<u>Moody's Rating</u>	<u>Maximum %</u>
Employee Pension Fund			
Fixed Income	BBB	Baa	20%
Fixed Income	Less than BBB	Less than Baa	10%
Fixed Income - Single Issuer	BBB or lower	Baa or lower	2%
Municipal Police Officers' Pension Fund			
Money Market Funds	BBB or higher	Baa or higher	85%
Firefighters' Retirement System Fund			
Money Market Funds	A-1	P-1	
Fixed Income	BBB or higher	Baa or higher	
Commercial Paper	A-1	P-1	
Money Market Funds	A-1	P-1	
Fixed Income	BBB	Baa	20%
Fixed Income	Less than BBB	Less than Baa	10%
Fixed Income - Single Issuer	BBB or lower	Baa or lower	2%

As of September 30, 2019, the City of Lakeland, Consolidated Investment Fund, Public Improvement Endowment Fund, Employee Pension Fund, Firefighters' Retirement System, and Municipal Police Officers' Pension Fund investment types had the following credit quality ratings and aggregate S&P and Moody's uninsured credit quality ratings:

Remainder of Page is Intentionally Blank

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 3 – CASH, CASH EQUIVALENTS AND INVESTMENTS (continued)

C. Cash Equivalents and Investments (continued)

Concentration of Credit Risk The City of Lakeland limits investments to avoid over-concentration in securities from a specific issuer or business sector (excluding U.S. Treasury securities) and continuously invests a portion of the portfolio in readily available funds such as local government investment pools, money market funds or overnight repurchase agreements.

The City of Lakeland's overall investment policy concentration limits and actual concentration limits in investment types for all funds with the exception of Pension funds, the Survivors' Benefit Fund, the Baldwin Book Fund, the Cemetery Perpetual Care Fund, and the Consolidated Investment Fund. As of September 30, 2019, the investments in the Pooled Investment fund were as follows:

Type of Security (Market)	Maximum % of Total	% of Total
US Government Obligations	100%	0.0%
Local Government Investment Pools	100%	0.0%
Federal Agency & Instrumentality Obligations	100%	30.7%
Asset Backed Securities	25%	41.3%
High Grade Corporate Debt & CP	25%	19.4%
State and Local Government Obligations*	25%	8.6%
Collateralized Repurchase Agreements	15%	0.0%
Certificates of Deposit	10%	0.0%
Other Investment Pools (rated "A" or better)	10%	0.0%

* Except as provided for in section IV.7.b

Investment policy provides discretion for temporary variances due to market changes, etc.; therefore, the Asset Backed Securities exceeds the maximum percentage, but the percentages are corrected in the subsequent quarter due to changes in the market. No investments in a single security exceeded 15% of the fixed income portfolio. No individual issue purchased exceeded 50% in relation to the total portfolio.

The City of Lakeland's Consolidated Investment Fund and Public Improvement Endowment Fund are managed in accordance with the guidelines set forth by city ordinance. The investment manager may invest in common stocks, long-term fixed income investments and cash equivalents. Fixed income securities may be US government and agency obligations, obligations guaranteed by the US government, marketable corporate bonds and notes, GNMA's, US agency collateralized mortgage-backed securities, debentures, hybrid securities, commercial paper, and CDs. Up to 10% of fixed income investments may consist of issuers not domiciled in the US. Policy allows for temporary variances due to market shifts and allows the administrator to bring investment allocations into compliance within a short term time frame. As of September 30, 2019 these funds held investments in the following percentages:

Asset Class (Market)	Minimum %	Maximum %	Actual %
Consolidated Investment Fund			
Domestic Equity:			
Large Cap Equity	30%	50%	35.3%
Small/Mid Cap Equity	7%	15%	19.1%
International Equity	15%	30%	8.3%
Total Equity	50%	75%	62.7%
Total Fixed Income (Incl. Cash)	25%	35%	37.3%
Public Improvement Endowment Fund			
Domestic Equity:			
Large Cap Equity	30%	50%	48.8%
Small/Mid Cap Equity	7%	15%	0.0%
International Equity	15%	30%	27.2%
Total Equity	50%	75%	76.0%
Total Fixed Income (Incl. Cash)	25%	35%	24.0%

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 3 – CASH, CASH EQUIVALENTS AND INVESTMENTS (continued)

C. Cash Equivalents and Investments (continued)

The City of Lakeland's Employee Pension Fund, Firefighters' Retirement System, and Municipal Police Officers' Retirement Fund are each managed by their respective Pension Board of Trustees (Board). The Boards employ investment professionals to oversee and invest the assets of their respective funds. Assets are diversified to minimize overall portfolio risk consistent with the level of expected return to improve the long-term return potential of assets. If at the end of any calendar quarter the allocation of an asset class falls outside its allowable range (barring extenuating circumstances) the asset allocation is rebalanced into the allowable range. As of September 30, 2019 no single company's fixed securities or common stock represented more than 3% and 5% respectively of the market value of assets in any fund. The investment allocation limits and actual percentages for these funds as of September 30, 2019 are as follows:

<u>Asset Class (Market)</u>	<u>Minimum %</u>	<u>Maximum %</u>	<u>Actual %</u>

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 4 – CAPITAL ASSETS (continued)

B. Depreciation Expense

Included in the government-wide Statement of Activities is depreciation expense for the year ended September 30, 2019, distributed to governmental and business-type functions as follows:

Governmental activities:	
General government	\$ 617,379
Public safety	1,380,835
Physical environment	810,569
Transportation, including depreciation of general infrastructure assets	5,760,976
Economic environment	382,797
Culture/recreation	5,377,367
Total depreciation expense - governmental activities	<u>\$ 14,329,923</u>
Business-type activities:	
Electric	\$ 43,979,948
Water and Wastewater	8,939,628
Parking	171,957
RP Funding Center	937,921
Lakeland Linder International Airport	4,810,606
Solid Waste	123,886
Internal Service Funds	9,836,604
	<u>68,800,550</u>
Contributions in aid of construction - Lakeland Electric Utilities	<u>(3,573,283)</u>
Total depreciation expense - business-type activities	<u>\$ 65,227,267</u>

NOTE 5 – INTERFUND BALANCES AND TRANSFERS

A. Interfund Receivables and Payables

Individual fund interfund receivables and payables at September 30, 2019 are presented in the following table.

Advances from and Due to other funds	Advances to and Due from other funds		
	General Fund	Internal Service Funds	Totals
Internal Service Funds	\$ -	\$ 5,925,173	\$ 5,925,173
Nonmajor Enterprise Funds	-	16,879,022	16,879,022
Nonmajor Governmental Funds	347	-	347
Fiduciary Funds	598,335	-	598,335
Totals	<u>\$ 598,682</u>	<u>\$ 22,804,195</u>	<u>\$ 23,402,877</u>

The interfund balance of the Internal Service Funds represents the unpaid component of internal loans issued from an internal service fund to finance various capital and operating projects. Of this amount, \$19,445,034 is to be repaid over a period exceeding one year.

The interfund balance of the General Fund represents the unpaid component of amounts transferred to cover cash deficits in other funds.

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 5 – INTERFUND BALANCES AND TRANSFERS (Continued)

B. Interfund Transfers

Interfund transfers for the year ending September 30, 2019 are presented in the following table:

Interfund Transfers From:	Interfund Transfers To:					Total
	General Fund	Public Improvement Fund	Nonmajor Governmental Funds	Nonmajor Enterprise Funds	Internal Service Funds	
General Fund	\$ -	\$ 722,436	\$ 49,873	\$ 2,825,919	\$ 946,820	\$ 4,545,048
Public Improvement Fund	4,750,000	-	-	1,504,891	-	6,254,891
Nonmajor Governmental Funds	533,999	2,972,168	812,510	41,472	66,523	4,426,672
Department of Electric Utilities	30,850,393	-	-	-	430,849	31,281,242
Water & Wastewater Utilities Fund	8,789,411	-	-	-	689,432	9,478,843
Nonmajor Enterprise Funds	1,673,202	-	25,000	-	534,227	2,232,429
Internal Service Funds	1,995	10,875	-	-	198,064	210,934
Fiduciary Funds	29,549	-	-	-	-	29,549
Total	\$ 46,628,549	\$ 3,705,479	\$ 887,383	\$ 4,372,282	\$ 2,865,915	\$ 58,459,608

The majority of transfers are made for the purpose of subsidizing recurring operating losses incurred within funds whose programs and activities do not generate sufficient dedicated revenues to finance those costs in their entirety. Transfers to the Internal Service Funds are intended to finance capital acquisitions accounted for in internal service funds. There are no other significant transfers occurring on a routine basis.

NOTE 6 – LONG-TERM LIABILITIES

A. Totals by Activity

The following is a summary of long-term liability transactions of the City for the year ended September 30, 2019. Additional details are provided on subsequent pages.

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 6 – LONG-TERM LIABILITIES (continued)

A. Totals by Activity (continued)

Revenue bond and note obligations issued for the benefit of governmental activities are paid from amounts accumulated in legally required sinking funds maintained in the debt service fund. Loans issued for the benefit of governmental activities are not secured by one specific revenue pledge. These obligations are repaid directly from various revenue sources accounted for within special revenue funds.

Long-term liabilities payable from the resources of business-type activities are paid from the net revenues generated by those activities.

Other long-term liabilities of governmental activities consisting of compensated absences are repaid as employees separate from service, using current revenues of the general fund as the funding source.

The net OPEB and pension liabilities of governmental activities have been liquidated in prior years using revenues of the general fund, LCRA, stormwater, and community development funds.

Long-term liabilities are classified in the Statement of Net Position as follows:

<u>Current</u>	<u>Governmental Activities</u>	<u>Business-type Activities</u>	<u>Total</u>
Notes and loans payable	\$ 114,575	\$ 2,575,197	\$ 2,689,772

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 6 – LONG-TERM LIABILITIES (continued)

C. Revenue Bonds, Notes Outstanding

Capital Improvement Revenue and Refunding Bonds, Series 2010

In September 2010, the City issued Capital Improvement Revenue and Refunding Bonds, Series A, B, & C in the amounts of \$48,490,000, \$10,140,000, and \$21,115,000 respectively to finance the cost of various capital improvements in the City, to refund, on a current basis, all of the City's outstanding Capital Improvement Revenue Bonds, Refunding Series 1997, and certain other outstanding indebtedness of the City (Sunshine Loans), and to pay certain costs and expenses related to the issuance of the Series 2010 Bonds. The Series 2010A bonds will mature on October 1, 2023. The Series 2010B bonds will mature on October 1, 2020. The Series 2010C bonds will mature on October 1, 2040. Principal payments are payable on October 1 of each year and interest payments are payable October 1 and April 1 of each year.

The Capital Improvement Revenue Bonds are secured by a covenant to budget and appropriate non-ad valorem revenues of the City in sufficient annual amounts to satisfy the debt service requirements on those bonds in each such fiscal year. The City pledged future non ad-valorem revenues to repay \$79,745,000 Capital Improvement Revenue and Refunding bonds. The total principal and interest remaining to be paid on the Capital Improvement Revenue bonds aggregate \$43,985,187.

The Capital Improvement bonds require the establishment of debt service reserve accounts and sinking funds to accumulate the funds needed to make annual debt service payments. Principal and Interest paid for the current year and total non-ad valorem revenues were \$4,987,502 and \$126,642,969 respectively.

Capital Improvement Refunding Note, Series 2012

In September 2013, the City issued Capital Improvement Refunding Notes, Series A, and B, in the amounts of \$15,983,000, and \$1,625,000 respectively, to refund, on a current basis, all of the City's outstanding 2002 Utility Tax Revenue Refunding Bonds, Series A and B, and 2002 Tourist Development Series C and to pay certain costs and expenses relating to the issuance of the Series 2012 Bonds. A portion of the Series 2012A bonds matured on October 1, 2015 and the remainder of the Series 2012A bonds will mature on October 1, 2022. The Series 2012B bonds matured on October 1, 2017. Principal payments are payable on October 1 of each year and interest payments are payable October 1 and April 1 of each year. The total remaining principal and interest requirement of these bonds aggregate \$8,118,488.

Taxable Capital Improvement Refunding Revenue Note, Series 2015

In September 2015, the City issued a Taxable Capital Improvement Refunding Revenue Note, Series 2015, in the amount of \$5,000,000 to refund certain prior bonds which were issued to support a downtown redevelopment project and to pay certain costs and expenses relating to the issuance of the Series 2015 note. The series will mature on October 1, 2020. Principal payments are payable on October 1 of each year and interest payments are payable October 1 and April 1 of each year. The total remaining principal and interest requirement of these notes aggregate \$5,081,250.

Capital Improvement Revenue Bonds, Series 2015

In May, 2015, the City issued Capital Improvement Revenue Bonds, Series 2015, in the amount of \$51,465,000 to pay a variety of capital improvement projects within the City, including the renovation of Joker Marchant Stadium, the spring training facility for the Detroit Tigers professional baseball team and to pay certain costs and expenses relating to the issuance of the Series 2015 note. The series will mature on October 1, 2036. Principal payments are payable on October 1 of each year and interest payments are payable October 1 and April 1 of each year. The total remaining principal and interest requirement of these bonds aggregate \$63,871,288.

Capital Improvement Revenue Notes, Series 2017A and 2017B

In May, 2017, the City issued its Series 2017A and 2017B Capital Improvement Revenue Notes in the amounts of \$16,370,569 and \$15,879,855 respectively. The 2017A Notes were issued to fund improvements at the City's civic center and certain improvements at the Lakeland Linder International Airport. The 2017A Notes bear interest at the rate of 2.44% and mature on April 1, 2032. The 2017B Notes were issued to fund certain other improvements at the Lakeland Linder International Airport. The 2017B Notes bear interest at the rate of 2.10% and mature on April 1, 2026. Both the 2017A and 2017B Notes are payable from non-ad valorem revenues of the City. In addition, the 2017A Notes are payable, in part, from certain tourist development tax revenues payable to the City by Polk County. The total remaining principal and interest requirement of these bonds aggregate \$31,693,457.

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 6 – LONG-TERM LIABILITIES (continued)

C. Revenue Bonds, Notes Outstanding (continued)

Water and Wastewater Revenue Refunding and Improvement Bonds, Series 2012

In January 2012, the City issued the Water and Wastewater Revenue Refunding and Improvement Bonds, Series 2012A in the amount of \$37,325,000 to (i) refund a portion of the City's outstanding Water and Wastewater Revenue Refunding and Improvement Bonds, Series 2002, and (ii) pay certain costs and expenses relating to the issuance of the Series 2012A Bonds. These Bonds will mature on October 1, 2032. The Series 2012 Bonds are subject to optional and mandatory redemption payable October 1 of each year. Interest on the Series 2012 Bonds is payable on October 1 and April 1 of each year. The total principal and interest requirement for these bonds aggregate \$45,576,025.

The Series 2012 Bonds are secured by an irrevocable, valid, and binding lien on and security interest in the gross revenues derived from the operation of the City's Water and Wastewater Utility system, certain connection charges, moneys deposited into certain funds and accounts created by the Bond Ordinance and the earnings thereon, on parity with the Series 2002 Bonds that matured on October 2012, and a portion of the Series 2002 Bonds that matured on October 1, 2016, all of which were not refunded in connection with the issuance of the Series 2012 Bonds, all in the manner and to the extent provided in the Bond Ordinance. Principal and interest paid for the current year and total net customer revenues were \$2,521,075 and \$28,166,408 respectively.

Water and Wastewater Revenue Note, Series 2015

In November 2015, the City issued the Water and Wastewater Revenue Note, Series 2015 in the amount of \$10,600,000 to finance the construction and acquisition of improvements to the City's Water and Wastewater Systems and to pay certain costs and expenses relating to the issuance of the Series 2015 note. The series will mature on October 1, 2025. Principal payments are payable on October 1 of each year and interest payments are payable October 1 and April 1 of each year. The total remaining principal and interest requirement of these bonds aggregate \$9,903,410.

Energy System Refunding and Revenue Bonds, Series 2010

In October 2010, the City issued the Energy System Revenue and Refunding Bonds, Series 2010 in the amount of \$199,300,000 to (1) finance certain capital improvements to the electric power system of the City, (2) to refund on a current basis, a portion of the City's outstanding Electric and Water Refunding Revenue Bonds, Series 1999A and to refund on an advance basis, all of the City's outstanding Energy System Revenue Bonds, Series 2001B, (3) to pay costs associated with the termination of a conditional bond warrant agreement, and (4) to pay certain costs and expenses related to the issuance of the Bonds. The bonds mature on October 1, 2036. Principal payments are payable October 1 of each year and interest payments are payable October 1 and April 1 of each year. The remaining principal and interest requirement for these bonds aggregate to \$172,978,413.

Energy System Revenue and Refunding Bonds, Series 2016

In February 2016, the City issued the Energy System Revenue and Refunding Bonds, Series 2016 in the amount of \$138,650,000. The Series 2016 bonds refunded all of the Series 2014 bonds, a portion of the outstanding Series 2006 bonds, and provided \$37.4 million in proceeds to fund Electric System capital projects. The Series 2016 bonds bear fixed interest rates ranging from 2.00% to 5.00%, and mature from October 1, 2016 through October 1, 2036. In concert with the refunding of the 2014 bonds, which were variable rate obligations, the City terminated portions of three associated floating-to-fixed interest rate swaps. The refunding portion of the transaction did not produce net present value savings or a material economic gain or loss; rather, it was designed to restructure and simplify the Electric System's debt profile. The remaining principal and interest requirements for these bonds aggregate to \$163,456,362. See Footnote 6.F regarding the interest rate swaps associated with the refunding.

The Electric and Energy bonds series are secured by a pledge of operating revenues of the Electric Utility. The total principal and interest remaining to be paid on all of the Electric Revenue Bonds is \$514,963,408. Principal and interest paid for the current year and total net customer revenues were \$35,815,419 and \$99,553,589 respectively.

Variable Rate Energy System Refunding Bonds, Series 2017

In August 2017, the City issued the Variable Rate Energy System Refunding Bond, Series 2017 in the amount of \$97,000,000 to pay the City's outstanding Variable Rate Energy System Revenue and Refunding Bonds, Series 2012 that were scheduled to mature on October 1, 2017. Immediately prior to this 2017 refunding, the City paid down \$3,000,000 of outstanding principal on the Series 2012 Bonds. The 2017 bonds mature on October 1, 2022. The bonds bear a variable rate of interest equal to the one-month LIBOR index plus 0.52 percent. Principal payments of \$1,795,000 and \$7,000,000 are payable on April 1, 2019 and 2020, respectively. Interest payments are payable on the first business day of each month. Although the 2017 bonds bear a variable rate of interest, they have been effectively converted to a fixed rate as a result of pre-existing interest rate swap agreements. There was no gain or loss on refunding of the debt. The remaining principal and interest payments for these bonds aggregate to \$116,245,752.

(continued)

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 6 – LONG-TERM LIABILITIES (continued)

C. Revenue Bonds, Notes Outstanding (continued)

Energy System Revenue Bonds, Series 2018

In September 2018, the City issued the Energy System Revenue Bonds, Series 2018 in the amount of \$43,945,000. Proceeds of the bonds were used to fund various capital projects for Lakeland Electric, including the acquisition and installation of a 125 megawatt peaking unit. The 2018 bonds mature in serial installments on October 1, 2020 through October 1, 2037. The bonds bear interest rates of between 3.25% and 5.00%, with interest payable on April 1 and October 1 of each year. The remaining principal and interest payments for these bonds aggregate to \$62,282,881.

As of September 30, 2019, the City is in compliance with all required covenants of the bond ordinances, including compliance with federal arbitrage regulations.

D. Loans Payable

The debt service requirements of promissory notes are not secured by pledges of any specific revenue sources of the City. Annual debt service payments are made from a variety of non-ad valorem revenues.

State of Florida Revolving Loan Program

The State of Florida Revolving Loan Program provides low-interest loans for planning, designing, and constructing water pollution control and public water facilities. Currently, the City has eleven loans outstanding. The loan program operates on a reimbursement basis. When proceeds are remitted, the loans accrue interest based upon the rate approved by the State at the date of closing. The liability due to the State is the loan amount (as amended) plus accrued interest.

At September 30, 2019, the City had total loans outstanding of \$40,097,631 payable to the State. The loans are secured by a pledge of excess revenues of the Wastewater and Water Utility systems and by a pledge of certain amounts deposited into a loan amortization account and loan amortization reserve established by the City for the purpose of funding future debt service on the loans. Amounts required for deposit are classified as restricted assets.

As of September 30, 2019, the City is in compliance with all covenants of these loan agreements.

State Infrastructure Bank (SIB) Loan

On October 1, 2018, the City approved the SIB Loan with the Florida Department of Transportation (FDOT). The SIB Loan program provides loans for transportation projects eligible for assistance under the Federal Authorization up to \$4,626,400. The loan program operates on a reimbursement basis. When proceeds are remitted, the loans accrue interest based upon the rate approved by the State at the date of closing. The liability due to the State is the loan amount (as amended) plus accrued interest.

At September 30, 2019, the City's SIB loan outstanding was \$2,862,064.

E. Conduit Debt

The City has issued industrial revenue bonds to provide financial assistance to private businesses for economic development purposes. This includes bonds issued to finance capital improvements at the Lakeland Regional Health having an unmatured principal balance of \$297,685,000 as of September 30, 2019; and bonds issued to finance and refinance the acquisition, construction, and equipping of educational facilities located in the City of Lakeland having an unmatured principal balance of \$34,367,321 as of September 30, 2019.

Neither the City nor any political subdivision thereof is obligated in any manner for repayment of these bonds.

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

G. Interest Rate Swaps

As a means to reduce borrowing costs, and to hedge the variable rate exposure related to certain bonds, the City has entered into a number of interest rate swap agreements.

An interest rate swap is a derivative i.e. a financial instrument whose value and terms are derived from a specified financial index (SIFMA). In the case of the interest rate swaps employed by the City of Lakeland, the intent is two-fold. First to achieve an all-in financing cost (representing interest payments to bondholders combined with net interest payments and receipts on the derivatives) that is less than the financing cost associated with traditional fixed rate bonds based on market conditions at the time of each bond issue. The second objective is to minimize the interest rate risk associated with the inherent volatility associated with "naked" variable rate debt. Under the terms of these interest rate swaps, the City of Lakeland pays an amount to a counterparty that is based on a specified notional amount (which closely approximates the outstanding principal amount of the related bonds) times a specified fixed interest rate. In exchange, the counterparty makes a payment to the City that is based on the same notional amount times a variable rate of interest. When the variable and fixed components of the interest rate swaps are combined with the variable cash payments made by the City to the actual bondholders, the end result is a net, fixed rate of interest.

In the case of the City's interest rate swaps, effectiveness testing measures the extent to which the terms of the interest rate swaps insulated the City from changes in the market rate of interest payable on the bonds. All of the interest rate swaps employed by the City have passed at least one of the effectiveness tests prescribed by the GASB 53. Accordingly, the market values of the derivatives are recorded as offsetting items on the balance sheet i.e. recognition of changes in fair market value are deferred. The fair value of Lakeland Electric's interest rate swaps as of September 30, 2019 was \$(33,652,445).

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 6 – LONG-TERM LIABILITIES (continued)

G. Interest Rate Swaps (continued)

Variable Rate Hedges

As a means to hedge the variable rate risk exposure related to certain variable rate Electric System bonds, the City has entered into several interest rate swap agreements. These agreements, which were entered into between 2001 and 2008, were related to certain prior variable rate debt, which has been refunded. The City has elected to apply the existing swap agreements to hedge the new variable rate refunding debt. In August 2017, the City issued the Variable Rate Energy System Refunding Bond, Series 2017 which refunded the outstanding Series 2012 bonds, which were variable rate obligations. Concurrently, the City modified the terms of several of the outstanding variable rate hedges to bring them into closer alignment with the outstanding variable rate bonds. No termination payments were made. The existing swap agreements are summarized in the chart below:

Notional 9/30/2019	Counterparty	Start Date	Maturity Date	City Receives	City Pays	Fair Market Value 9/30/2019*
24,772,000	Goldman Sachs Mitsui Marine Derivative Products, LP	10/2/2017**	10/1/2035	67% of 1 mo. LIBOR	3.92%	\$ (9,097,370)
14,053,000	Citigroup Global Markets Holdings, Inc.	8/29/2017**	10/1/2035	67% of 1 mo. LIBOR	3.92%	(5,044,131)
47,860,000	Citigroup Global Markets Holdings, Inc.	1/22/2003	10/1/2037	67% of 1 mo. LIBOR	3.74%	(19,129,319)
1,520,000	Goldman Sachs Mitsui Marine Derivative Products, LP	10/2/2017***	10/1/2035	67% of 1 mo. LIBOR	3.16%	(381,625)
						<u>\$ (33,652,445)</u>

* Modelled on Bloomberg by COL

** Latest modification; original start date of 3/23/2006

*** Latest modification; original start date of 6/30/2008

As a result of the swap agreements, the City will receive variable rate payments equal to 67% of LIBOR times the notional amount of the swap agreements. The notional amount of the swap agreements roughly corresponds to the outstanding amount of the Series 2017 variable rate bond. In return, the City will make fixed rate payments of between 3.163% and 3.92% times the notional amount of the swap agreements. These agreements fix the variable rate exposure of the 2017 bond at the fixed rates noted above (plus the fixed rate spread paid on the bond) to the extent that the variable rate payments received by the City under the swap agreements are equal to the variable rates paid by the City on the 2017 Bond. Over time the variable rates paid and received are expected to be equivalent.

The swap agreements use the International Swap Dealers Association Master Agreement, which includes standard termination events, such as failure to pay, bankruptcy, or rating downgrades to either counterparty. As of September 30, 2019, the City was not subject to credit risk with its counterparties because the fair market values of the swap agreements were negative.

Accordingly, the market values of the derivatives are recorded as offsetting items on the balance sheet i.e. recognition of changes in fair market value are deferred (see Note 1 D15).

H. Prior-year Defeasement of Debt

In May 2014, the City defeased certain special obligations bonds by transferring an existing escrow and pledging it to the payment of the new bonds. At September 30, 2019, \$12,710,909 of special obligation bonds outstanding are considered defeased. Accordingly, the assets and the liability for the defeased bonds are not included in the City's financial statements. The special obligation bonds are defeased by an escrow consisting of U.S. Treasury bonds and notes. This City is not allowed to restructure or replace the escrow with other types of securities. The final payment on these securities was made on October 1, 2019.

(continued)

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 7 – INTEREST EXPENSE

All interest expense of governmental activities is disclosed separately from related functional expenses on the government-wide Statement of Activities. Interest expense of business-type activities is consolidated into the functional expense categories on the government-wide Statement of Activities. The total amount of interest charged to expenses and the total amount capitalized for the year ended September 30, 2019 is as follows:

	Governmental Activities	Business-type Activities
Amount charged to expense	\$ 2,218,809	\$ 23,195,201
Add: interest expense capitalized	-	2,897,746
Total	<u>\$ 2,218,809</u>	<u>\$ 26,092,947</u>

NOTE 8 – LEASES

The Lakeland Linder International Airport leases land and commercial and industrial space to a variety of tenants. These leases contain terms ranging from 1 to 60 years. Total revenue earned under these leases for the year ended September 30, 2019 was \$6,607,833. The City has leased the operations of the Lakeland Regional Health to a private not-for-profit corporation. A new amendment was entered into in August 2019. Under the terms of this amendment, the lessee will pay the City \$14,378,614 for fiscal year 2020 through fiscal year 2024, thereafter a 2.75% annual escalation starting in fiscal year 2025 through fiscal year 2040. This lease expires in September 2040, and may be extended by mutual agreement. The amount recorded as lease revenues in the current year is \$14,378,614. The projected lease revenue on leases having initial or remaining terms of more than one year is as follows.

Fiscal Year	Airport	LRH
2020	\$ 7,009,188	\$ 14,378,614
2021	6,313,420	14,378,614
2022	6,602,705	14,378,614
2023	7,091,411	14,378,614
2024	6,808,573	14,378,614
Thereafter	31,830,039	291,993,584
Total future minimum lease revenue	<u>\$ 65,655,336</u>	<u>\$ 363,886,654</u>

Included in the capital leases payable is the carrying value of capital leases that the City has entered into for the acquisition of golf carts and maintenance for the benefit of the City-owned golf course, (2) Gradall Excavators and (3) Wheel loaders to assist Construction and Maintenance with projects, (6) street sweepers for street sweeping operations, (2) Vactor Trucks and a Cues truck for Stormwater maintenance, (2) copiers, and various HVAC Equipment purchases and installations at the RP Funding Center. Information about these leases is as follows:

Assets acquired under capital lease program:

Machinery and equipment:

Original cost	\$ 7,549,993
Carrying value	5,823,733
Current depreciation expense	401,868

Lease obligations remaining to be paid:

Current	\$ 1,083,438
Long-Term	4,093,717
	<u>\$ 5,177,155</u>

Future minimum lease payments:

	Total	Interest	Net
2020	\$ 1,214,626	\$ 131,188	\$ 1,083,438
2021	1,239,932	116,705	1,123,227
2022	1,242,500	81,220	1,161,280
2023	724,758	48,409	676,349
2024	713,221	28,522	684,699
2025	457,921	9,759	448,162
	<u>\$ 5,592,958</u>	<u>\$ 415,803</u>	<u>\$ 5,177,155</u>

(continued)

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 9 – DONOR RESTRICTED ENDOWMENTS

The City is the recipient of donor-restricted endowments used to finance maintenance of a mausoleum located at a City-owned cemetery, to finance maintenance of City-owned cemeteries, and to purchase reading materials for the City-owned library system. Total assets held by the City for these endowments equaled \$5,770,885 and total nonspendable fund balances were 5,520,391 as of September 30, 2019. The dollar value of these assets experienced a net increase of \$142,431 for the year ended September 30, 2019.

Funds are expended in accordance with the terms of the original endowments, which were established by City Ordinance. Expenditure of investment income and other appreciation is controlled by the City's Parks and Recreation Department, subject to the scrutiny of the City's Finance Department.

The net position is reported in the Government-wide Statement of Net Position under Governmental Activities as restricted for endowments – nonexpendable, and as a component of nonspendable fund balance of "Other Governmental Funds" within the Governmental Funds in the Fund Financial Statements.

NOTE 10 – RISK FINANCING ACTIVITIES

The City has established a self-insurance fund for worker's compensation, general liability, automobile liability, prescriptions, and health insurance. Significant losses from other forms of risk, including property damage, are covered by commercial insurance. Settlements exceeded the cost of insurance coverage in Fiscal Year 2016-2017 as a result of the McIntosh Power Plant Unit 5 GSU Transformer claim. Settlements have not exceeded the cost of insurance coverage in Fiscal Year 2015-2016, 2017-2018 nor 2018-2019.

At year-end, claim expense accounts and liabilities are adjusted in the health insurance and self-insurance reserves to accrue any changes in unpaid claims outstanding at year-end and the estimated liability for incurred but not reported claims (IBNR). The IBNR includes known and unknown loss events and expected future development on claims already reported.

The IBNR reserve for the self-insurance reserve portion of the fund is the actuarially determined funding requirement minus any unpaid claims outstanding at year-end (current liability). As of September 30, 2019, the current claims due within one year for the self-insurance reserve portion were \$4,979,000. The IBNR reserve for the health insurance reserve portion of the fund is actuarially determined, plus any unpaid claims outstanding at year-end (current liability). As of September 30, 2019, the claims due within one year for the health insurance reserve portion were \$1,799,563. City policy requires that all claims be submitted to the administrator within 90 days of the date of service. Claims received after that period will not be paid. However, any possible liability related to any such claims must be recognized. Expenses resulting from these claims could be incurred over subsequent periods.

The City has also purchased a stop-loss policy to reduce the City's exposure to large losses on health insurance claims. This policy reimburses the City for expenses related to claims exceeding \$435,000. As of September 30, 2019, the City paid \$1,097,063 in premiums for its stop-loss insurance policy and no amounts were deducted from claims liability.

All claims pending and a provision for incurred but not reported claims have been accrued in the financial statements of the self-insurance fund. A reconciliation of the change in the aggregate liabilities reported as liabilities payable from apportioned assets in the Basic Financial Statements of the self-insurance fund as of September 30, 2019 is as follows:

	<u>2019</u>	<u>2018</u>
Claims liability at beginning of year	\$ 22,265,058	\$ 21,941,867
Claims incurred during the year	(33,207,963)	(33,268,555)
Changes in the estimate for claims	1,062,582	721,508
Claims payments	33,502,168	32,870,238
Claims liability at end of year	<u>\$ 23,621,845</u>	<u>\$ 22,265,058</u>
Amount due within one year		
Self insurance reserve	\$ 5,047,967	\$ 4,027,038
Health insurance reserve	2,420,967	2,119,020
Total amount due within one year	<u>\$ 7,468,934</u>	<u>\$ 6,146,058</u>

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 11 – UTILITY PLANT PARTICIPATION AGREEMENT

On April 4, 1978, the City entered into a fifty-year participation agreement with the Orlando Utilities Commission (OUC). Under the terms of this agreement, the City of Lakeland has a 60 percent interest and OUC a 40 percent interest in McIntosh Unit 3, a 365 MW coal-fired steam generating unit. The Orlando Utilities Commission constructed, at its expense, a 230 KV transmission line to deliver its share of the output to its service area.

The City of Lakeland issued revenue bonds to cover a portion of its initial investment in the plant. OUC also issued revenue bonds to cover a portion of its investment in the plant and the cost of its 230 KV transmission line. Each participant is solely responsible for its debt issued.

The City has operational control of this project and accounts for its undivided ownership interest based on its pro-rata share of the project's construction costs and operating expenses. Shared operating expenses and capital costs for the fiscal year ending September 30, 2019 were as follows:

	<u>City Share</u>	<u>OUC Share</u>	<u>Total</u>
Operating Costs:			
McIntosh unit #3 fuel expense	\$ 27,305,735	\$ 18,203,823	\$ 45,509,558
McIntosh unit #3 direct operating & maintenance expenses	11,025,669	7,350,446	18,376,115
Other shared operating and administrative expenses	5,911,561	3,941,041	9,852,602
	<u>\$ 44,242,965</u>	<u>\$ 29,495,310</u>	<u>\$ 73,738,275</u>
Capital Costs:			
McIntosh unit #3	\$ 7,554,445	\$ 5,036,297	\$ 12,590,742

There are no separate financial statements issued for the utility participation agreement.

NOTE 12 – FUND BALANCES

Fund Balance – As defined by the Governmental Accounting, Auditing, and Financial Reporting of the Government Finance Officers Association, fund balance is “the difference between assets, deferred outflows, deferred inflows, and liabilities reported in a governmental fund.” In accordance with GASB 54, the funds balances of governmental funds are classified as follows:

- Non-spendable Fund Balance – Amounts that are (a) not in spendable form or (b) legally or contractually required to be maintained intact. This includes items that are not expected to be converted to cash, for example, inventories and prepaid amounts. It also includes the long-term amount of loans and notes receivable, as well as property acquired for resale.
- Restricted Fund Balance – Amounts that are restricted for a specific purpose when constraints are (a) externally imposed by creditors (through debt covenants), grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.
- Committed Fund Balance – Amounts that can be used only for the specific purposes pursuant to constraints imposed by a formal action (ordinance) of the City Commission, the City’s highest level of decision making authority.
- Assigned Fund Balance – Spendable amounts established by Management of the City (i.e. City Manager or designee), per the City’s expenditure and budgetary policy, intended to be used for specific purposes, but are neither restricted nor committed. Assigned fund balance includes (a) all remaining amounts (except for negative balances) that are reported in governmental funds (Debt Service, Capital Projects, and Special Revenue Funds), other than the general fund that are not classified as non-spendable and are neither restricted or committed and (b) amounts in the general fund intended to be used for a specific purpose.
- Unassigned Fund Balance – The residual classification for the general fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund.

CITY OF LAKELAND, FLORIDA
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2019

NOTE 12 – FUND BALANCES (continued)

A. Non-Spendable Fund Balance

Non-Spendable fund balance as of September 30, 2019 is described below:

Prepays – this represents the value of non-current resources of which the expenditures will be recognized in subsequent periods.

Permanent Fund Principal – this represents the principal amounts of permanent funds that are legally or contractually required to remain intact.

Cemetery Endowment – represents earnings set aside to fund maintenance of all city owned cemeteries after all lots are sold that are contractually required to remain intact.

B. Restricted Fund Balance

Restricted fund balance as of September 30, 2019 is described below:

Restricted for CRA – this represents unexpended resources from property taxes within the Lakeland Community Redevelopment Districts used to finance redevelopment plans of the Agency for residential and commercial activities.

Restricted for Law Enforcement – this represents the value of contraband seized by the Lakeland Police Department. The use of which is restricted by state law.

Restricted for Impact Fee Programs – this represents resources from impact fee collections on new construction projects used to finance transportation, police, fire, and parks & recreation capital related expenditures pursuant to Article VIII of the Florida Constitution and Chapters 163 and 166, Florida Statutes to allocate the fair share of the cost of new public facilities to new users.

Restricted for Capital Improvement – this represents unexpended bond proceeds restricted for capital purposes.

Restricted for Transportation – this represents resources such as state and local gas taxes, developer contributions, grants, impact fees, and other revenues used to finance transportation construction and maintenance capital projects.

Restricted for Donations Received – this represents unexpended net position derived contributions and donations given to the City and spendable amounts of permanent funds legally or contractually maintained for specified purposes such as for the purchase of certain books and periodicals, maintenance of certain parks, and maintenance of the Scott Morris Mausoleum.

Restricted for Debt Service – this represents resources accumulated for and the payment of general long-term debt principal and interest.

Restricted for Grant Programs - Community Development – this represents unexpended net position derived from federal and state grant revenues used to finance housing related expenditures.

Restricted for Building Inspection - this represents unexpended resources from building inspection fees collected used to finance building inspection expenses as defined by State Legislature.

C. Committed Fund Balances

Committed fund balances in the Fund Financial Statements are as follows:

Stormwater – represents stormwater revenues used to finance stormwater related maintenance and capital expenditures.

Working Capital – represents revenues designated by the City Commission for long-term investments.

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 12 – FUND BALANCES (continued)

D. Assigned Fund Balances

Assigned fund balances in the Fund Financial Statements are as follows:

Subsequent Year's Expenditure – represents the subsequent year's budget fund balance of the General Fund assigned by City Management as set forth in the annual budget (and any amendments thereto) to appropriate a portion of the existing unassigned fund balance to eliminate a projected deficit in the subsequent year's budget in an amount no greater than the projected excess of expected expenditures over expected revenues.

Cultural Activities – funds assigned by the City Commission to strengthen the cultural organizations of Lakeland; to make their programs more accessible to Lakeland citizens; and to enrich the lives of the citizens.

Capital Projects – funds assigned by the City Commission to finance various construction and maintenance capital projects.

Recreational Facilities – revenues assigned by the City Commission for the purpose of capital recreational expenditures.

Debt Service – revenues assigned by the City Commission for repayment of general long-term debt principal and interest.

E. Unassigned Fund Balances

Unassigned fund balances in the Fund Financial Statements are as follows:

General Fund – represents the residual classification for the general fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund.

The governmental fund balance in detail as of September 30, 2019 is as follows:

	General Fund	Public Improvement Fund	Other Governmental Funds	Total Governmental Funds
Fund Balances:				
Nonspendable:				
Prepays	\$ 113,329	\$ -	\$ 821	\$ 114,150
Cemetery Endowment	-	-	5,490,915	5,490,915
Permanent Fund Principal	-	-	29,476	29,476
Restricted for:				
CRA	-	-	8,953,615	8,953,615
Law Enforcement	1,346,412	-	-	1,346,412

The negative unassigned fund balance represents expenditures incurred in the SHIP Fund that exceeded amounts restricted for the period.

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 13 – DEFINED BENEFIT PENSION PLANS

The City maintains three separate single employer defined benefit pension plans for its employees. These plans were established by, and are subject to modifications in funding levels and benefits, by ordinance approved by the City Commission. All three plans are subject to periodic review by an independent actuary. This review is used to determine the required funding level upon which the City bases its annual contribution to the Employees' Pension and Retirement System, to the Police Officers' Defined Benefit Retirement System, and the Firefighters' Retirement System.

The City obtains annual reviews by independent actuaries. Each year, the actuary completes a review utilizing census data covering both retired and active members of each plan and balance sheet data regarding net position of the plan based on an effective date of October 1. Those reports are generally issued within 6 months of the end of the fiscal year. Any changes in the funding requirements as identified in each actuarial review are applicable to the City's budget year commencing immediately after the report issuance.

The City of Lakeland implemented GASB Statement 68 in 2015. With the new reporting change, the City recognizes the net pension liability, deferred outflows of resources, deferred inflows of resources, and pension expense associated with each plan. Decisions regarding the allocations are made by the administrators of the pension plans, not by the City of Lakeland's management.

For more information, pertaining to the Plans, refer to the City of Lakeland, Florida stand-alone financial statements for each plan, which can be obtained by contacting the City of Lakeland, Finance Department, City Hall, 228 S. Massachusetts Ave., Lakeland, FL 33801-5086.

On-behalf Payments - Within the basic financial statements, the proceeds of the excise tax from the State of Florida in The City of Lakeland Firefighters' Retirement System and the Police Officers' Defined Benefit Retirement System are recorded as operating grants and contributions and public safety expenses in the amounts of \$780,047 and \$1,007,757 respectively in the Government-wide Statement of Activities.

For the fiscal year ended September 30, 2019, the City recognized an aggregate pension expense of \$19,953,530.

A. Employees' Pension and Retirement System

Summary of Significant Accounting Principles

For purposes of measuring the net pension liability, deferred outflows of resources, and deferred inflows of resources related to pensions, pension expenses, information about the fiduciary net position of the City of Lakeland's Employees' Pension and Retirement System, and additions to/deductions from the Employees' Pension and Retirement System's fiduciary net position have been determined on the same basis as that are reported by the Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms.

The Plan is maintained using the accrual basis of accounting. Employee and employer contributions are recognized as revenue in the period in which the employee services are performed. Expenses are recognized when they are incurred and revenues are recognized when they are earned. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Accounting Principles Generally Accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, the actual results could differ from those estimates. Investments are recorded at fair value. Dividends and interest are recognized when earned. Realized gains and losses are recognized as of trade date.

Plan Description

The City of Lakeland Employees' Pension and Retirement System administers the City of Lakeland Employees' Pension Plan – a single employer defined benefit pension plan that provides pensions for all full-time, regular employees of the City. The authority for the establishment and amendment of the Plan, benefits, vesting, and contributions are established by City Ordinances. Government plans are not subject to the provisions of the Employee's Retirement Income Security Act of 1974 (ERISA).

Management of the plan is vested in the Employees' Pension Board, which consists of seven active members serving 3-year terms; three of which are elected by plan members, three appointed by the City Commission and one appointed by the board.

This Plan is a pension trust fund (fiduciary fund type) of the City that contains three pension plan options (Plans A, B, and C). Each plan option is part of a single employer, defined benefit pension plan offered by the City with a defined contribution option available to certain eligible employees. Plan A is eligible to employees of the City hired prior to October 1, 2003. Plan B is eligible to employees hired on or after October 1, 2003 through February 15, 2012. Plan C is eligible to employees hired after December 29, 2011 or who have made an irrevocable election to convert their prospective benefit calculation to Plan C as of February 15, 2012. The defined contribution option allows certain eligible employees to cease participation in this Plan and begin participation in the City's defined contribution plan.

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 13 - DEFINED BENEFIT PENSION PLANS (continued)

A. Employees' Pension and Retirement System (continued)

Pension plan membership for the Plan as of the actuarial valuation date October 1, 2017 is shown in the following table.

Active plan members	1,407
Retirees and beneficiaries	1,103
DROP Participants	198
Terminated vested plan members	76
Transferred Members	17
	<u>2,801</u>

Deferred Retirement Option Plan (DROP)

A Deferred Retirement Option Plan (DROP) was enacted on December 19, 2009 by Ordinance 4727. Under this Plan, participants who have attained eligibility may continue working with the city for up to sixty months while receiving a retirement benefit that is deposited into a DROP account. At October 1, 2017, there were 198 DROP participants.

Cost of Living Adjustment No cost of living increase was awarded for fiscal year 2019.

Funding Policy, Contributions Required, and Contributions Made

The City obtains an annual review by an independent actuary utilizing census data covering both retired and active plan members and balance sheet data regarding net position of the Plan based on an effective date of October 1 with the report being issued within 6 months of the fiscal year. This review is used to determine the required funding level upon which the City bases its annual contribution to the Employees' Pension and Retirement System for the budget year commencing after the issuance of that report. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by plan members during the year, with an additional amount to finance any unfunded accrued liability. The City is required to contribute at least quarterly to the fund in an amount equal to the required city contribution as shown by the applicable actuarial valuation system. The actuarial experience 0.36 and the Amortization Payment on UAAL (0.05) are added to the prior Contribution Rate (19.75%), plus Change in Cost Sharing (0.11), Change in Normal Cost Rate (0.05) and actuarial experience from DROP variable interest rate option (0.22) to calculate the current year Contribution Rate of 19.68%. For the year ended September 30, 2019, the City contributed \$15,783,779, the employees contributed \$7,755,783, including buybacks.

As a result of the renegotiation of the lease agreement between the hospital and the City, the City received a one-time \$15 million payment from LRH, effective October 1, 2015. The purpose of the payment was to compensate the City for agreeing to cap the growth in the hospital's lease payments for the next 25 years. The City Commission expressed an interest in investing the one-time payment on a long-term basis so that a significant fund would accrue by the time the lease needs to be renegotiated in 25 years. In lieu of creating a new investment fund, the Commission approved an alternative plan whereby:

- The \$15 million was sent to the Employee Pension Fund as an advance payment against the employer's share of the unfunded pension liability.
- In return for this advance payment, the City (as the employer) will receive an annual credit against its regular payment into the fund.
- This credit will be consistent with the current amortization schedule and methodology for the Fund's unfunded liability.
- The budgetary savings from this reduced annual payment will be channeled into a separate investment fund so that the City can recoup its initial payment, plus interest.

The alternative plan will NOT affect employee contribution rates into the pension fund. They will remain unchanged. The alternative plan can be thought of as paying off a mortgage or a credit card balance early. Once the obligation is paid off, the monthly payments (which include interest) no longer have to be made. The monthly savings can then be put in a savings account for the future.

Net Pension Liability

The City's actuarial valuation date is October 1, 2017 rolled forward to September 30, 2018 and net pension liability was measured as of September 30, 2018.

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 13 – DEFINED BENEFIT PENSION PLANS (continued)

A. Employees' Pension and Retirement System (continued)

Actuarial assumptions. The total pension liability in the October 1, 2017 actuarial evaluation rolled-forward to September 30, 2018 was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Investment rate of return	7.25%
Salary increases	4.0% to 12.50% depending on service, including inflation
Inflation rate	2.50%
Post-retirement benefit increases	N/A
Retirement rate	(1)
Mortality table	The RP-2000 Combined Healthy Participant Mortality Table (for pre-retirement mortality) and the RP-2000 Mortality Table for Annuitants (for postretirement mortality), with mortality improvements projected to all future years using Scale BB. (2)

(1) Probabilities of retirement by eligible members are assigned for each attained age and length of service

(2) Effective October 1, 2016, the mortality table was changed to the mortality assumption used by the Florida Retirement System (FRS) for Regular Class members in the FRS actuarial valuation report as of July 1, 2016. This change was made in compliance with Florida House Bill 1309, which requires all public pension plans in Florida to use the same mortality tables used in either of the last two actuarial valuation reports of FRS effective no later than October 1, 2016.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The projected long-term real rate of return for the Plan net of investment expenses is 6.126%. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of measurement date September 30, 2018 (see the discussion of the pension plan's investment policy) are summarized in the following table as required by GASB 67 and 68:

Asset Class (Market)	Target Allocation	Long-term Expected Real Rate of Return	Asset Group Contribution
Domestic Equity	35.00%	7.50%	2.625%
International Equity	15.00%	8.50%	1.275%
Domestic Bonds	15.00%	2.50%	0.375%
International Bonds	5.00%	3.50%	0.175%
Real Estate	10.00%	4.50%	0.450%
Alternate Assets	20.00%	6.13%	1.226%
Total Investments	100.00%		6.126%

The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that the plan members' contributions will be made at the current contribution rate and the City contributions will be made at the rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of the current plan members. Therefore, the long-term expected rate of return on pension plan investments (7.25%) was applied to all periods of projected benefit payments to determine the total pension liability.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 13 – DEFINED BENEFIT PENSION PLANS (continued)

A. Employees' Pension and Retirement System (continued)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the fiscal year ended September 30, 2019, the City recognized pension expenses of \$11,958,680. At September 30, 2019, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference between actual and expected experience	\$ 1,731,763	\$ 382,168
Net Difference between projected and actual earnings	-	18,667,987
Changes of Assumptions	4,176,987	-
Cost Share Change	4,033,664	4,033,664
Contributions Subsequent to the Measurement Date	15,783,779	-
Total	<u>\$ 25,726,193</u>	<u>\$ 23,083,819</u>

\$15,783,779 reported as deferred outflows of resources related to pensions resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending September 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

	<u>Total</u>
2020	\$ 476,024
2021	(5,213,234)
2022	(6,519,400)
2023	(1,884,795)
	<u>\$ (13,141,405)</u>

Payable to the Pension Plan

At September 30, 2019, the City reported a payable of \$1,064,421 for the outstanding amount of contributions to the pension plan required for the year ended September 30, 2019.

B. Police Officers' Defined Benefit Retirement System

Summary of Significant Accounting Principles

For purposes of measuring the net pension liability, deferred outflows of resources, and deferred inflows of resources related to pensions, pension expenses, information about the fiduciary net position of the City of Lakeland's Police Officers' Defined Benefit Retirement System, and additions to/deductions from the Police Officers' Defined Benefit Retirement System's fiduciary net position have been determined on the same basis as that reported by the Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms.

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 13 – DEFINED BENEFIT PENSION PLANS (continued)

B. Police Officers' Defined Benefit Retirement System (continued)

The accrual basis of accounting is used for the Plan. Under the accrual basis of accounting, revenues are recognized when they are earned and collection is reasonably assured, and expenses are recognized when the liability is incurred. Plan participant contributions are recognized in the period in which the contributions are due. City contributions to the plan as calculated by the Plan's actuary, are recognized as revenue when due and the City has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Investments in common stock and bonds traded on a national securities exchange are valued at the last reported sales price on the last business day of the year; securities traded in the over-the-counter market and listed securities for which no sale was reported on that date are valued at the mean between the past reported bid and asked prices; investments in securities not having an established market value are valued at fair value as determined by the Board of Trustees. The fair value of an investment is the amount that the Plan could reasonably expect to receive for it in a current sale between market participants, other than in a forced or liquidation sale. Purchases and sales of investments are recorded on a trade date basis.

Investment income is recognized on the accrual basis as earned. Unrealized appreciation in fair value of investments includes the difference between cost and fair value of investments held. The net realized and unrealized investment appreciation or depreciation for the year is reflected in the Statement of Changes in Fiduciary Net Position.

Plan Description

The Plan is a defined benefit pension plan covering all full-time police officers of the City of Lakeland as established by local law subject to the provisions of Chapter 185 of the State of Florida Statutes. Participation in the Plan is required as a condition of employment. The Plan provides for pension, death, and disability benefits.

The Plan, in accordance with the above statutes, is governed by a five-member pension board. Two police officers who are elected by a majority of the members of the Plan, two City residents, and a fifth member elected by the other four members constitute the pension board. The City and the Plan participants are obligated to fund all Plan costs based upon actuarial valuations. The City is authorized to establish benefit levels and the Board of Trustees approves the actuarial assumptions used in the determination of contribution levels.

On June 1, 2009 the Lakeland City Commission adopted ordinances 5096 and 5095 - which removed all active and retired police officers from the City of Lakeland Employee Pension Plan (the General Plan) and transferred those individuals to an amended version of the Police Officers' Supplemental Pension and Retirement System (the Supplemental Plan) - which had the effect of creating an entirely new replacement plan called the Police Officers' Retirement System (the Police Plan).

Under the terms of this change, all retired police officers and/or their beneficiaries who were receiving benefits from the General Plan and/or the Supplemental Plan as of the effective date of the transfer would from that point forward be paid the exact same level of combined benefits from the Police Plan. All future retired police officers and/or their beneficiaries will receive their retirement benefits exclusively from the Police Plan based on a new defined benefit calculation formula that replaces the benefit formulas that previously existed within the General Plan and the Supplemental Plan.

Three Tier Structure - The current members of the plan have the option of making an election of one of the following 3 tiers within 45 days of the effective date of the Police Plan. Tier 2 is the only option for officers hired after May 20, 2009.

Tier 1 - these members shall have benefits accrued under the provisions of the City of Lakeland Employees' Pension and Retirement System, the City of Lakeland Police Officers' Supplemental Pension and Retirement System (PORF) and the Lakeland Police Officers' Share Benefit Plan frozen as of the effective date of the Police Plan. On and after the effective date of the system, Tier 1 members shall be subject to the same provisions as Tier 2 members except as otherwise provided. These members shall be eligible to have benefits accrued in the PORF included in the City of Lakeland Employees' Pension and Retirement System Section 23.4.5 DROP upon attainment of age sixty (60).

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 13 – DEFINED BENEFIT PENSION PLANS (continued)

B. Police Officers’ Defined Benefit Retirement System (continued)

Tier 2 - these members shall be subject to the provisions of the City of Lakeland Police Officers’ Retirement System not including those administered pursuant to other City of Lakeland Plans or Systems for Tier 1 or Tier 3 members.

Tier 3 – these members who are DROP participants pursuant to Section 23.4.5 of the City of Lakeland Employees’ Pension and Retirement System and making contributions to the City of Lakeland Police Officers’ Supplemental Pension and Retirement System (PORF) which contributions shall continue after the effective date of the City of Lakeland Police Officers’ Retirement System in an amount calculated annually by the system’s actuary and shall be administered pursuant to the provisions of those systems. These members shall be eligible to have benefits accrued in the PORF included in the Section 23.4.5 DROP upon attainment of age sixty (60).

Pension plan membership for the Plan as of the actuary report dated October 1, 2017 is shown in the following table.

Active plan members	210
Retirees and beneficiaries	187
DROP Participants	23
Terminated vested plan members	26
	<u>446</u>

Deferred Retirement Option Plan (DROP)

Any participant who is eligible to receive a normal retirement pension benefit may elect to participate in a deferred retirement option plan (DROP) while continuing his or her active employment as a police officer. Upon participation in the DROP, the participant becomes a retiree for all plan purposes so that he or she ceases to accrue any further benefits under the pension plan. Normal retirement payments that would have been payable to the participant as a result of retirement are accumulated and invested in the DROP to be distributed to the participant upon his or her termination of employment. Participation in the DROP ceases for a member after the 60 months. At October 1, 2017, there were 23 DROP participants.

Partial Lump Sum Option Plan (PLOP)

A participant that does not elect to participate in the DROP may elect to receive an initial lump-sum payment equal to 5%, 10%, 15% or 20% of the participant’s accrued benefit with the remaining 95%, 90%, 85% or 80%, respectively, payable in a form selected by the participant.

Cost of Living Adjustment

No cost of living increase was awarded for fiscal year 2019.

Funding Policy, Contributions Required, and Contributions Made

The Tier 2 participant contribution rate is re-determined each year, such that the increase in the City’s required contribution and the participant’s required contribution are equal. The required participant’s contribution rate for Tier 2 was 16.93% of Salary for the period of October 1, 2018 through September 30, 2019.

Pursuant to Chapter 185 of the Florida Statutes, a premium tax on certain casualty insurance contracts written on City of Lakeland properties is collected by the State and is remitted to the Plan. The City is required to contribute the remaining amounts necessary to finance the benefits through periodic contributions of actuarially determined amounts .

The City and the Union have agreed that beginning with the fiscal year ending September 30, 2017, the default methodology of determining the use of State monies under Chapter 2015-39, Laws of Florida, will apply. Under this methodology, the City will be to utilize all State monies received each year up to \$701,457 to offset funding requirements. Any State monies above that amount will be split 50/50, with 50% going into a Share plan for the Police Officers and 50% going to the City to use to offset funding requirements for that year.

The Fund may also accept rollover contributions from participants’ other qualified deferred compensation plans. Rollover contributions may be used to purchase additional credited service. Participants are immediately vested in rollover contributions.

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 13 – DEFINED BENEFIT PENSION PLANS (continued)

B. Police Officers’ Defined Benefit Retirement System (continued)

A rehired member may buy back not more than 5 years of continuous past service by paying into the Plan the amount of contributions that the participant would otherwise have paid for such continuous past service, plus the interest that would have been earned had such funds been invested by the Plan during that time.

The City’s funding policy is to make an actuarially computed annual contribution to the Plan in an amount, such that when combined with participants’ contributions and the State insurance excise tax rebate, all participants’ benefits will be fully provided for by the time that they retire.

The City’s actuarially determined contribution rate for the year ended September 30, 2019 was 21.12%. for the year ended September 30, 2019, the City contributed \$3,206,499 and the employees contributed \$2,656,469.

Net Pension Liability

The City’s net pension liability was measured as of September 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial assumptions. The total pension liability in the October 1, 2017 actuarial evaluation updated to September 30, 2018 was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Investment rate of return	7.50%
Salary increases	Service based
Inflation rate	2.50%
Mortality table	
Active employees	Female: RP2000 Generational, 100% Combined Healthy White Collar, Scale BB. Male: RP2000 Generational, 10% Combined Healthy White Collar /90% Combined Healthy Blue Collar, Scale BB.
Retired pensioners	Female: RP2000 Generational, 100% Annuitant White Collar, Scale BB. Male: RP2000 Generational, 10% Annuitant White Collar / 90% Annuitant Blue Collar, Scale BB.
Disabled pensioners	Female: 60% RP2000 Disabled Female set forward two years / 40% Annuitant White Collar with no setback, no projection scale. Male: 60% RP2000 Disabled Male setback four years / 40% Annuitant White Collar with no setback, no projection scale.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of geometric real rates of return for each major asset class included in the Pension Plan’s target asset allocation as of measurement date September 30, 2018 are summarized in the following table:

Asset Class (Market)	Target Allocation	Long-term Expected Real Rate of Return
Domestic equity value	45.00%	7.50%
International	17.50%	8.50%
Fixed income	17.50%	2.50%
Global fixed income	5.00%	3.50%
Alternative	10.00%	3.50%
Real estate	5.00%	4.50%
TOTAL	100.00%	

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 13 – DEFINED BENEFIT PENSION PLANS (continued)

B. Police Officers’ Defined Benefit Retirement System (continued)

The discount rate used to measure the total pension liability was 7.50%. The projection of cash flows used to determine the discount rate assumed that the plan members’ contributions will be made at the current contribution rate and the City contributions will be made at the rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of the current plan members. Therefore, the long-term expected rate of return on pension plan investments (7.50%) was applied to all periods of projected benefit payments to determine the total pension liability.

NOTE 13 – DEFINED BENEFIT PENSION PLANS (continued)

B. Police Officers’ Defined Benefit Retirement System (continued)

Pension Plan Fiduciary Net Position

Detailed information about the pension plan’s fiduciary net position is available in the separately issued Police Officers’ Benefit Retirement System financial report.

Changes in Assumptions

There were no changes in assumptions that affected the measurement of the total pension liability since the prior measurement date. However, the payroll growth assumption utilized in amortizing the Unfunded Actuarial Accrued Liability was changed from 2.12% to 1.62% in conjunction with the valuation report. This assumption will be reduced by 0.5% in each future valuation report until it reaches the actual historical 10-year average growth of the non-DROP valuation report.

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the fiscal year ended September 30, 2019, the City recognized pension expenses of \$4,596,900. At September 30, 2019, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Contributions subsequent to measurement date	\$ 4,214,256	\$ -
Difference between actual and expected experience	1,118,230	1,621,615
Changes of assumptions	3,444,106	-
Net difference between projected and actual earnings	-	1,340,689
Total	<u>\$ 8,776,592</u>	<u>\$ 2,962,304</u>

\$4,214,256 reported as deferred outflows of resources related to pensions resulting from City and State contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending September 30, 2020. Other amounts reported as deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Fiscal year ended September 30th:	
2020	\$ 1,783,626
2021	(70,946)
2022	(259,979)
2023	147,331
	<u>\$ 1,600,032</u>

Payable to the Pension Plan

At September 30, 2019, the City reported a payable of \$246,514 for the outstanding amount of contributions to the pension plan required for the year ended September 30, 2019.

NOTE 13 - DEFERRED BENEFIT PENSION PLANS (continued)

C. Firefighters' Retirement System

Summary of Significant Accounting Principles

For purposes of measuring the net pension liability, deferred outflows of resources, and deferred inflows of resources related to pensions, pension expenses, information about the fiduciary net position of the City of Lakeland's Firefighters' Retirement System, and additions to/deductions from the Firefighters' Retirement System's fiduciary net position have been determined on the same basis as that are reported by the Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms

Basis of accounting is the method by which revenues and expenses are recognized in the accounts and are reported in the financial statements. The accrual basis of accounting is used for the Plan. Under the accrual basis of accounting, revenues are recognized when they are earned and collection is reasonably assured, and expenses are recognized when the liability is incurred. Plan member contributions are recognized in the period in which the contributions are due. City contributions to the plan as calculated by the Plan's actuary, are recognized as revenue when due and the City has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Investments in common stock and bonds traded on a national securities exchange are valued at the last reported sales price on the last business day of the year; securities traded in the over-the-counter market and listed securities for which no sale was reported on that date are valued at the mean between the past reported bid and asked prices; investments in securities not having an established market value are valued at fair value as determined by the Board of Trustees. The fair value of an investment is the amount that the Plan could reasonably expect to receive for it in a current sale between a willing buyer and a willing seller, other than in a forced or liquidation sale. Purchases and sales of investments are recorded on a trade date basis.

Investment income is recognized on the accrual basis as earned. Unrealized appreciation in fair value of investments includes the difference between cost and fair value of investments held. The net realized and unrealized investment appreciation or depreciation for the year is reflected in the Statement of Changes in Fiduciary Net Position.

Plan Description

The Plan is a pension trust fund (fiduciary fund type) of the City which accounts for the single employer defined benefit pension plan for all City Firefighters. The provisions of the Plan provide for retirement, disability, and survivor benefits.

The restructured Plan is a defined benefit pension plan covering all full-time firefighters of the City of Lakeland, Florida (City). Participation in the Plan is required as a condition of employment. The Plan provides for pension, death and disability benefits. In addition, the Plan is a local law plan subject to provisions of Chapter 175 of the State of Florida Statutes.

The Plan, in accordance with the above statutes, is governed by a five-member pension board. Two firefighters who are elected by a majority of the members of the Plan, two are City residents, and a fifth member elected by the other four members constitute the pension board. The City and the Plan participants are obligated to fund all Plan costs based upon actuarial valuations. The City is authorized to establish benefit levels and the Board of Trustees approves the actuarial assumptions used in the determination of contribution levels.

Pension Benefits - The pension plan provides retirement, death and disability benefits for its participants. A participant may retire early after reaching age 50 and accumulating 10 or more years of credited service; normal retirement age is 55 and completing 10 years of credited service or after reaching age 52 with 25 years of credited service.

The amount of the normal retirement benefit is as follows:

A member who began employment as a firefighter prior to October 1, 2003 and retires on or after the normal retirement date shall receive a monthly benefit of 3.30 percent of average final compensation for each year of credited service. A member who began employment as a firefighter on or after October 1, 2003 and retires on or after the normal retirement date shall receive a monthly benefit of 3.0 percent of average final compensation for each year of credited service. The monthly benefit shall commence on the first day of the month coincident with or next following a member's retirement and be continued thereafter during the member's lifetime, ceasing upon death, but with 120 monthly payments guaranteed in any event.

Disability Benefits - A member having 10 or more years of credited service or a member who becomes totally and permanently disabled in the line of duty regardless of length of service, may retire from the City if the member becomes totally and permanently disabled as defined in subsection (b) by reason of any cause other than a cause set out in subsection at on or after the effective date of the plan. Such retirement shall herein be referred to as "disability retirement." The applicable disability presumptions in Florida Statutes 112 and 175, in effect at the time of disability shall apply.

(continued)

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 13 – DEFINED BENEFIT PENSION PLANS (continued)

C. Firefighters' Retirement System (continued)

Death Benefits - If the participant dies prior to retirement the beneficiary shall receive the following benefit:

(1) Prior to Vesting. The beneficiary of a deceased member who was not yet vested, or who has no surviving spouse, shall receive a refund of 100% of the member's accumulated contributions, without interest.

(2) Deceased Firefighters with Ten or More Years Credited Service. For any actively employed member who has ten or more years of credited service as of his date of death, his or her beneficiary is entitled to the benefits otherwise payable to the member at early or normal retirement age.

Pension plan membership for the Plan as of October 1, 2017 is shown in the following table.

Active plan members	155
Retirees and beneficiaries	112
DROP Participants	8
Terminated vested plan members	11
	<u>286</u>

Deferred Retirement Option Plan (DROP)

Any eligible participant may elect to participate in a deferred retirement option plan (DROP) while continuing his or her active employment as a firefighter. Upon participation in the DROP, the participant becomes a retiree for all plan purposes so that he or she ceases to accrue any further benefits under the pension plan. Normal retirement payments that would have been payable to the participant as a result of retirement are accumulated and invested in the DROP to be distributed to the participant upon his or her termination of employment. An eligible member may participate in DROP for a maximum of sixty months or any time before and must provide a thirty-day advance notice.

Back DROP

An eligible member may elect the Back-DROP option and must immediately retire and terminate city employment, and is not eligible to participate in DROP or PLOP. Under this option, a member receives a lump sum amount equal to up to sixty months of retirement benefits plus interest at a rate of 3% per annum, upon entry into the DROP, deposited into the DROP account. The member's monthly benefit is actuarially reduced to reflect the actuarial cost to the system of the lump sum amount. The monthly pension benefit is calculated based on the benefit levels in place on the date the member first became eligible for DROP.

Partial Lump Sum (PLOP)

A member with twenty-five (25) or more years of credited service who is eligible for normal or early retirement may, at the time of retirement or entry into DROP, elect to receive or have deposited into the member's DROP account, up to a maximum of twenty percent (20%) in five percent increments, of the total actuarial equivalent value of the member's accrued benefit paid as a lump sum, with the remaining percentage paid in a monthly amount in accordance with the option selected by the member. The benefit amount of the member who has attained age 50 but is not eligible for normal retirement upon electing a partial lump sum option shall be reduced in accordance with the terms of the Plan. The benefit amount of a member who elects a partial lump sum option prior to age 50 shall be actuarially reduced to reflect the actuarial cost to the system of the partial lump sum option.

At October 1, 2017 there were 8 DROP participants.

Cost of Living Adjustment

No cost of living increase was awarded for fiscal year 2019.

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 13 – DEFINED BENEFIT PENSION PLANS (continued)

C. Firefighters' Retirement System (continued)

Funding Policy, Contributions Required, and Contributions Made

As of September 30, 2019, participants were required to contribute 8.71% for Tier 2 members of their annual earnings to the Plan. The 8.71% rate includes an additional 0.08% of salary to satisfy a receivable which accounts for fewer than required contributions in previous years as a result of revised actuarial valuations. The additional 0.08% member contribution rate will be applicable for fiscal years 2019 through 2021. Reflects the regular State distribution applicable to fiscal year corresponding to applicable valuation date. A Collective Bargaining Agreement has been entered into, effective October 1, 2016. Based on the requirements of Chapter 2015-39, Laws of Florida, this means that in absence of mutual consent between the City and the membership, the plan is subject to the default provisions for purposes of allocating future state monies. Based on the default provisions of Chapter 2015-39, Laws of Florida, it is probable that the City will be able to utilize annual state monies received up to \$733,556 to offset its contribution requirements, but an actuarial analysis will be required. Any amounts received in excess of \$733,556 will be split equally between the City and a supplemental benefit component (share plan) that is required to be established for the membership.

Actuarially determined contribution rates are calculated as of October 1, two years prior to the end of the fiscal year in which contributions are reported.

The City's actuarially determined contribution rate for the year ended September 30, 2019 was 14.91%. For the year ended September 30, 2019, the City contributed \$1,833,070 and the employees contributed \$1,147,416.

Net Pension Liability

The City's net pension liability was measured as of September 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial assumptions. The total pension liability in the October 1, 2017 actuarial evaluation updated to September 30, 2018 was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Investment rate of return	7.50%
Salary increases	Age based
Inflation rate	2.50%
Mortality table	
Active employees	Female: RP2000 Generational, 100% Combined Healthy White Collar, Scale BB. Male: RP2000 Generational, 10% Combined Healthy White Collar /90% Combined Healthy Blue Collar, Scale BB.
Retired pensioners	Female: RP2000 Generational, 100% Annuitant White Collar, Scale BB. Male: RP2000 Generational, 10% Annuitant White Collar /90% Annuitant Blue Collar, Scale BB.
Disabled pensioners	Female: 60% RP2000 Disabled Female set forward two years / 40% Annuitant White Collar with no setback, no projection scale. Male: 60% RP2000 Disabled Male setback four years / 40% Annuitant White Collar with no setback, no projection scale.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of measurement date September 30, 2018 are summarized in the following table:

Asset Class (Market)	Target Allocation	Long-term Expected Real Rate of Return
Domestic Equity	45.00%	7.50%
International Equity	15.00%	8.50%
US Core Fixed Income	20.00%	2.50%
International Fixed Income	5.00%	3.50%
Real Estate	5.00%	4.50%
Alternative	10.00%	3.50%
TOTAL	100.00%	

(continued)

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 13 – DEFINED BENEFIT PENSION PLANS (continued)

C. Firefighters’ Retirement System (continued)

The discount rate used to measure the total pension liability was 7.50%. The projection of cash flows used to determine the Discount Rate assumed that Plan Member contributions will be made at the current contribution rate and that Sponsor contributions will be made at rates equal to the difference between actuarially determined contribution rates and the Member rate. Based on those assumptions, the Pension Plan’s Fiduciary Net Position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the Long-Term Expected Rate of Returns on Pension Plan investments was applied to all periods of projected benefit payments to determine the Total Pension Liability.

Changes in the Net Pension Liability

Changes for the year:	Increase (Decrease)		
	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (a) - (b)
Service cost	\$ 2,479,249	\$ -	\$ 2,479,249
Interest	7,520,669	-	7,520,669
Contribution - employer	-	1,575,442	(1,575,442)
Contribution - employee	-	948,721	(948,721)
Contribution - state	-	731,610	(731,610)
Projected Earnings on investments	-	6,873,176	(6,873,176)
Difference between actual & expected experience	1,979,479	-	1,979,479
Difference between projected & actual earnings	-	382,384	(382,384)
Benefit payments	(6,643,739)	(6,643,739)	-
Administrative Expense	-	(125,572)	125,572
Net Change	5,335,658	3,742,022	1,593,636
Total - Beginning	101,035,118	94,103,762	6,931,356
Total - Ending	\$ 106,370,776	\$ 97,845,784	\$ 8,524,992

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the City, calculated using the discount rate of 7.50%, as well as what the City’s net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.50%) or 1-percentage-point higher (8.50 %) than the current rate.

	Decrease Rate (6.50%)	Discount Rate (7.50%)	Increase Rate (8.50%)
City’s net pension liability	\$ 21,000,802	\$ 8,524,992	\$ (1,490,283)

Changes in Assumptions

There were no changes in assumptions that affected the measurement of the total pension liability since the prior measurement date.

Pension Plan Fiduciary Net Position

Detailed information about the pension plan’s fiduciary net position is available in the separately issued City of Lakeland’s Firefighters’ Retirement System financial report.

CITY OF LAKELAND, FLORIDA

For more information, pertaining to the aforementioned plans refer to the City of Lakeland, Florida stand-alone financial statements for each plan, which can be obtained by contacting the City of Lakeland, Finance Department, City Hall, 228 S. Massachusetts Ave., Lakeland, FL 33801-5086.

NOTE 14 – DEFINED CONTRIBUTION PENSION PLAN

The Police Officers' Defined Benefit Retirement System (PODBRS) included a defined contribution Share plan component as of September 30, 2010. In subsequent years, the PODBRS Board will determine Share allocations based on election made by the participants in the plan and their service during the plan year.

For more information pertaining to the PODBRS refer to the City of Lakeland, Florida stand-alone financial statements for the plan, which can be obtained by contacting the City of Lakeland, Finance Department, City Hall, 228 S. Massachusetts Ave., Lakeland, FL 33801-5086.

The assets of the City's Alternate Pension Plan were transferred to a third party administrator in the name of the participants. The City no longer has any fiduciary responsibilities concerning the plan. The City's involvement in the plan is limited to remitting the amounts paid by the participants to a third party.

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 15 – OTHER POST EMPLOYMENT BENEFITS

A. Health Insurance Trust Fund

Plan Description

Effective October 1, 2017, the Retiree Healthcare Trust Fund adopted the provisions of GASB Statement No. 75, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*. This Statement replaces Statements No. 45, *Financial Reporting for Post-Employment Benefit Plans Other Than Pension Plans*. In addition to the relevant disclosures within this note, the City's financial statements reflect a long-term liability of \$92,213,219 and \$94,718,100 related expenses of \$5,016,228 and \$4,251,621 in governmental and business-type activities respectively, resulting from the adoption.

In addition to providing pension benefits, the City Commission has agreed to offer subsidized post-employment health care benefits to former employees who are receiving retirement benefits from the City in conjunction with the Employees' Pension and Retirement System Plan.

The Retiree Health Insurance Plan is a single-employer defined benefit healthcare plan administered by the City of Lakeland Retiree Healthcare Trust. The City Commission serves as the trustees of the plan. The plan provides for healthcare insurance for eligible retirees and their spouses and dependents through the City-sponsored health insurance plan as formally adopted by City ordinance. One other form of subsidy consists of a payment of up to 50 percent of the cost of Part A Medicare insurance coverage purchased by a former employee who is not otherwise eligible for Medicare coverage. To date, there have been no participants in this program. Under Florida Statute 112.08 if the City offers insurance to active employees, the City must offer the same to the retirees. The difference is the City can charge the full premium to the retiree based on the active employees'/city portion of the premiums for the plan their enrolled in.

Funding Policy

The contribution percentages are set forth by City ordinance. The City subsidy is equal to \$5 per month for each year of service accumulated at retirement (maximum 30 years of service or \$150 per month). The City will fund the benefit by placing 1.5% of annual covered payroll into a trust. Retirees are required to make an election as to participation in the City-sponsored health insurance plan upon retirement. Effective January 1, 2003, any employee, who wishes to have his/her spouse and dependents insured on the City of Lakeland's Health Insurance Plan prior to retirement, will be required to have them on the plan one year prior to retirement. Should a participant at any time elect not to purchase coverage from the City-sponsored plan, all eligibility for future participation in that plan, including rights to the subsidy, is terminated. Plan provisions may be amended by city ordinance.

Effective January 1, 2003, all new hires will not be eligible for the retiree subsidy plan which has been formally adopted by City ordinance 4379. The City has established a Trust to accumulate and invest assets necessary to pay for the accumulated liability.

Plan Membership

A summary of the current active and inactive employees and the criteria of the classes participating in the plan is as follows:

	Active plan members	2,080
	Inactive plan members participating in the health plan	619
	Inactive plan members currently receiving a subsidy	1,463
	<u>Normal Retirement</u>	<u>Early Retirement</u>
General Employees:		
Hired before October 1, 2003	60 + 10 years	50 + 10 years or 30 years
Hired after September 30, 2003	62 + 10 years	52 + 10 years or 30 years
Hired after February 25, 2012	62 + 5 years	52 + 5 years
Firefighters	55 + 10 years or 52 + 25 years	50 + 10 years
Police	55 + 10 years or 25 years	50 + 10 years

Actuarial assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of the valuation and the historical pattern of sharing of actuarial methods and assumptions used including techniques that are designed to reduce the effects of short-term volatility in actuarial liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events into the future; as such these actuarial amounts are subject to continual valuation.

Significant Assumptions: The date of the actuarial valuation on which the plan's liability was determined is September 30, 2019. The following actuarial assumptions were applied.

Actuarial cost method	Entry age normal based on level percentage of projected salary
Valuation Date	September 30, 2019
Projected benefit payment period	6.2 years
Discount rate	
Implicit	2.66%
Explicit	7.21%
Health care cost trend rate:	
Medical and Rx benefits	
Select	6.50%
Ultimate	4.50%

Long-term expected rate of return	tax-exempt, high quality municipal bond
Asset valuation	fair market value
Date of experience study	24 months ending September 30, 2019

The total OPEB liability was determined by an actuarial valuation as of September 30, 2019, using the previously listed actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified. The discount rate is the only applicable change in the simplified evaluation.

Interest rates

Discount (or interest) rates are used to reflect the time value of money. Discount rates are used in determining the present value of the valuation date of future cash flows currently expected to be required to satisfy the postretirement benefit obligation. The long-term expected rate of return using arithmetic mean on OPEB investments was determined using the rate of return on tax-exempt, high quality municipal bonds (20 year, tax-exempt municipal bond - 2.66%) blended with the expected rate of return on trust assets.

The discount rate used to measure the total OPEB liability was 2.66% for the implicit subsidy and 7.21% for the explicit subsidy. The discount rate decreased from 4.18%. The municipal bond rate used in the discount rate is the Bond Buyer 20-Bond GO Index.

The annual money-weighted rate of return that expresses investment performance, net of investment expense, adjusted for changes in the amount actually invested was 7.9%.

Investments

Investment are held in the City's Consolidated Investment Fund. For information regarding the Consolidated Fund's investment policies, asset allocations, and descriptions of significant investments, refer to Note 3.C.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 15 – OTHER POST EMPLOYMENT BENEFITS (continued)

A. Health Insurance Trust Fund (continued)

Concentration

The Plan's investment in the consolidated fund comprised of more than 5% of the Plan's total fiduciary net position. However, no individual investment of the Plan's share of the consolidated fund (2%) comprised of more than 5% of the Plan's total fiduciary net position.

The rate of return for the assets of the Trust as of September 30, 2019 are summarized in the following table.

<u>Asset Allocation:</u>	<u>%</u>	<u>Returns (with inflation)</u>	<u>Balance</u>	<u>% of Net Position</u>
Consolidated funds	99.16%	7.25%	\$ 9,009,718	99%
Money market funds	0.00%	1.50%	-	0%
Accounts receivable	0.84%	0.00%	76,670	1%
Total	100.00%		\$ 9,086,388	100%

Rate of Return

For the year ended September 30, 2019, the annual rate of return (with inflation) was 7.21%.

Projected Benefit Payments

The long-term expected rate of return is used for the first two years of the benefit payments. Thereafter, the municipal bond rate index is applied to the remainder of the life of the plan.

Net OPEB Liability

The components of the Net OPEB Liability for the Health Insurance Trust Fund as September 30, 2019 were as follows:

Total OPEB Liability	\$ 196,005,421
Fiduciary Net Position	9,074,102
Net OPEB Liability	\$ 186,931,319
Fiduciary Net Position as a percentage of the total OPEB liability	4.63%

Changes in Net OPEB Liability

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 15 – OTHER POST EMPLOYMENT BENEFITS (continued)

A. Health Insurance Trust Fund continued)

Sensitivity of the net OPEB liability to changes in the discount rate

The sensitivity of the net OPEB liability to a discount rate 1% (3.66%) higher and 1% lower (1.66%) than the discount rate of 2.66% is as follows:

Discount Rate	Net OPEB Liability	% Difference
3.66%	\$ 155,153,000	(17)%
2.66%	186,931,319	N/A
1.66%	228,056,000	22%

Sensitivity to the net OPEB liability to changes in the healthcare cost trend rate

The sensitivity of the net OPEB liability using healthcare cost trend rates 1% higher and 1% lower than the current trend rates is as follows:

Trend	Net OPEB Liability	% Difference
1% decrease	\$ 153,283,000	(18)%
Current trend	186,931,319	N/A
1% increase	233,664,000	25%

Changes in Assumptions

The following assumption changes were since the prior evaluation:

- The discount rate for the implicit subsidy was decreased from 4.18% to 2.66%.
- The termination rates assumption for Police were updated based on the 2018 Lakeland Retirement System Actuarial Valuation.
- The ACA Excise Tax on high-cost employer sponsored healthcare plans is no longer applicable.
- The mortality assumption was updated from the RP-2014 base mortality with generational scale MP-2016 to the PUB-2010 base table with generational scale MP-2019 to reflect the Society of Actuaries' recent mortality study.
- The initial year medical trend rate was updated from 6.0% to 6.5% for pre-Medicare costs and from 5.0% to 5.5% for post-Medicare costs to reflect the generally low claims experience environment.

Plan Fiduciary Net Position

The Plan does not issue a stand-alone publicly available financial report. In accordance with the requirements of GASB Statement 74, *Financial Reporting for Post Employment Benefit Plans Other Than Pension Plans*, the City has elected to present the Lakeland Retiree Healthcare Trust as fiduciary fund and include the required disclosures and required supplementary information in its annual financial statements.

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the fiscal year ended September 30, 2019, the City recognized OPEB expenses of \$9,267,849. At September 30, 2019, the City reported deferred inflows and outflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between projected and actual earnings	\$ -	\$ 416,715
Difference between actual and expected experience	-	23,008,669
Changes in assumptions	23,592,683	19,153,148
Change in cost share allocation	4,420,510	4,420,510
Total	\$ 28,013,193	\$ 46,999,042

Other amounts reported as deferred inflows of resources related to OPEB will be recognized in pension expense as follows:

Fiscal year ended September 30th:	
2020	\$ (5,197,750)
2021	(5,197,750)
2022	(5,090,788)
2023	(3,149,775)
2024	(349,786)

B. Survivor Benefit Trust Fund

The City Commission through Ordinance No. 3434, established the Employees' Survivor's Benefit Fund to provide a life insurance benefit of 12 times the monthly retiree benefits up to \$150,000 to eligible beneficiaries of certain retirees meeting eligibility requirements. Upon the death of any employee who is regularly retired and currently receiving a pension benefit under the City of Lakeland Employee Pension Fund. The City pays an annual insurance premium to the underwriter who assumes the liability for benefit payments to beneficiaries. The City paid \$691,054 in insurance premiums for fiscal year 2019.

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 16 – COMMITMENTS AND CONTINGENCIES

A. Litigation

Various suits and claims arising in the ordinary course of operations are pending against the City. While the ultimate effect of such would not result in losses which would materially affect the financial position of the City or materially compromise its operations. The City relies upon the sovereign immunity protection afforded to local governments under Section 768.28, Florida Statutes, which limits the collection of any judgment to \$200,000 per person and to \$300,000 arising out of the same incident or occurrence. Some cases which arise out of police activity represent a possibility of exposure that would exceed sovereign immunity limits, although the City carries excess coverage for that risk.

B. Contractual Commitments

The City's Fleet Management Operations has contracts to purchase motor vehicles with various vendors. The amount outstanding as of September 30, 2019 is \$4,148,229.

Lakeland Electric has contracts for the purchase and delivery of coal requiring the purchase of a minimum number of tons per year.

Lakeland Electric also has contracts for the supply and transportation of natural gas requiring the purchase and transportation of a minimum and a maximum number of cubic feet of natural gas per year.

Lakeland Electric has contracts for the purchase/sale and delivery of electric energy setting a maximum number of megawatts available for purchase.

Lakeland Electric has a long-term service agreement with Siemens/Westinghouse to provide labor, parts, and materials to cover all planned annual outages for McIntosh Unit 5, a 354 MW combined cycle gas turbine unit. In December 2012, the Lakeland City Commission approved changes to the contract which included a revised payment schedule. During fiscal year 2019 milestone payments of \$6,238,946 were made under the contract. The agreement, which is scheduled to run through 2025, include annual milestone payments and an economic index escalation factor. Future base payments per the schedule, excluding escalation, are as follows:

Fiscal Year	Operating	Capital	Total
2020	\$ 367,320	\$ 7,267,796	\$ 7,635,116
2021	367,320	7,267,796	7,635,116
2022	367,320	7,267,796	7,635,116
2023	367,320	7,267,796	7,635,116
2024-2025	734,640	31,518,131	32,252,771
	<u>\$ 2,203,920</u>	<u>\$ 60,589,315</u>	<u>\$ 62,793,235</u>

Lakeland Electric entered into a total of five Solar Energy Participation Agreements (SEPAs) with Sun Edison, LLC from 2009 through 2016. During FY 2019, Sun Edison's former ownership interests were assigned to new owners as follows:

Location	SEPA Owner	COD	Years	MWs/AC	Rate
Airport I	Longroad Energy Holding, LLC	12/22/2011	25	2.25	\$ 190.00
Airport II	Renewable Holdco I, LLC	9/16/2012	25	2.75	\$ 176.50
Airport III	Clearway Energy Group, LLC	12/21/2016	25	3.15	\$ 112.52
RP Funding Center	Longroad Energy Holding, LLC	4/4/2010	20	0.25	\$ 280.99
West Bella Vista	TerraForm Utility Solar XIX, LLC	7/6/2015	25	6	\$ 112.52

Lakeland Electric has no equity interest in and assumes no financial responsibility for the solar generation systems. Four systems are located on properties owned by the City of Lakeland. The West Bella Vista property is owned by the vendor. The system installations are as follows: the roof of the RP Funding Center, the runway protection zones of the Lakeland Linder International Airport, and 70 acres adjacent to the Sutton Electric Substation. Four of the SEPAs are in effect for twenty-five years and one is at twenty years at a fixed price per MWh with no price escalation clauses. Lakeland Electric's purchases under the SEPAs totaled \$3,579,253 in 2019 and \$3,282,984 in 2018. The total MWs purchased in fiscal year 2019 was 25,834.47 MWs at an average cost of \$138.55 MWh.

Lakeland Electric participates in federal and state programs that are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies. In the opinion of management, no significant contingent liabilities exist related to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying financial statements for such contingencies.

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 16 – COMMITMENTS AND CONTINGENCIES (continued)

B. Contractual Commitments (continued)

The City has active construction projects as of September 30, 2019. The projects include infrastructure projects, construction of existing streets, wastewater treatment facilities, and electric plant. The commitments of major construction projects and capital outlay issued by the City which have not been completed as of September 30, 2019, are as follows:

Transportation/street projects	\$ 566,027	*
Public Improvement projects	3,739,824	*
Public Safety projects	403,082	*
Airport projects	13,091,379	*
Wastewater treatment facilities projects	11,988,578	*
Water Distribution projects	1,408,096	*
McIntosh unit 3 renewal and replacement projects	1,855,987	*
McIntosh unit 5 renewal and replacement projects	1,101,068	*
McIntosh gas turbine 2 project	10,601,058	*
Larsen unit 8 renewal and replacement projects	2,908,786	*
Other power production plant improvements	567,006	*
Energy delivery capital projects	2,633,339	*
Building Improvement projects	151,419	*
	<u>\$ 51,015,649</u>	

*The amounts reported are included in the outstanding encumbrances below.

C. Encumbrances

The City had the following encumbrances outstanding as of September 30, 2019 that were not reported as designations:

Electric Utility Fund	\$ 93,948,757
Water and Wastewater Utilities	14,512,062
Internal Service Funds	6,233,147
Nonmajor Enterprise Funds	13,458,716
	<u>\$ 128,152,682</u>

The following is a summary of the City's encumbrances for Governmental Funds as of September 30, 2019.

	Public Improvement Fund	All Other Governmental Funds	Total Governmental Funds
Building improvements	\$ 270,098	\$ -	\$ 270,098
Land improvements	6,002,782	-	6,002,782
Equipment	321,852	-	321,852
Infrastructure	-	1,630,425	1,630,425
Maintenance and repair	255,434	-	255,434
Transportation projects:			
Road improvements	-	566,027	566,027
Total	<u>\$ 6,850,166</u>	<u>\$ 2,196,452</u>	<u>\$ 9,046,618</u>

In addition to the commitments for capital projects, Lakeland Electric had other outstanding purchase orders in the amount of \$74,130,094 as of September 30, 2019. \$69,119,392 of which represents contracts for the procurement and transportation of fuel and purchased power. It is the opinion of Lakeland Electric's management that Lakeland Electric is in compliance with the requirements of all the aforementioned contractual commitments.

CITY OF LAKELAND, FLORIDA

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2019

NOTE 17 – SUBSEQUENT EVENTS

Water and Wastewater Revenue Refunding Bond, Series 2021

In October 2019, The City of Lakeland entered into a forward delivery agreement with Bank of America, N.A. for the issuance and delivery of the Water and Wastewater Refunding Bond, Series 2021 in the amount of \$28,220,000. The bond, which will take the form of a fixed rate bank loan, will be issued to refund the outstanding Water and Wastewater Revenue Refunding and Improvement Bonds, Series 2012A maturing on and after October 1, 2022 and pay the issuance costs of the 2021 Bonds. The bonds are expected to be issued on October 1, 2021.

Florida Revenue Note, Series 2019

In November 2019, the City of Lakeland issued a Florida Revenue Note, Series 2019. The Notes take the form of a line of credit loan from Wells Fargo Bank, National Association in an amount not to exceed \$32,000,000. Proceeds of the Notes will be used to temporarily finance improvements at Lakeland Linder International Airport and pay necessary and incidental issuance costs. Projects being financed include, but are not limited to: strengthening and rehabilitation of Runway 9-27, upgrading of its Instrument Landing System to Category II, installation of a new ramp area, and construction and improvements to certain hangars owned by the City including one such hanger leased by the National Oceanic and Atmospheric Administration. The Notes pay a variable rate of interest based on the utilization of the line of credit and mature on February 1, 2021. The City intends to permanently finance the aforementioned projects before the expiration of the line of credit.

Taxable Pension Liability Reduction Note, Series 2020

In March 2020, the City issued its Taxable Pension Liability Reduction Note, Series 2020 in the amount of \$81,000,000. The Note, which was issued in the form of a bank loan from Toronto Dominion Bank, N.A, is a fixed rate obligation which amortizes over a period of 20 years. Proceeds of the Note are being used to reduce the unfunded liabilities in the City's three pension plans and to pay associated cost of issuance. Issuance of the note will result in net savings in that required contributions to the various pension plans will be reduced by amounts exceeding the allocable debt service on the bonds.

COVID-19 Pandemic

During December 2019, the Novel Coronavirus (COVID-19) was discovered on the continent of Asia. The COVID-19 was subsequently declared a world-wide pandemic by the World Health Organization. On March 13, 2020, the President declared a National Emergency Concerning the Novel Coronavirus Disease (COVID-19) Outbreak. The City anticipates an economic impact resulting from the effects of the COVID-19 outbreak on the national, state, and local economies. The City has not determined what material impact this outbreak could potentially have on revenues such as state shared revenues, investments, and other local revenues related to economic conditions.

SCHEDULE OF CONTRIBUTIONS FROM EMPLOYERS AND OTHER CONTRIBUTING ENTITIES

Employees' Pension & Retirement System						
Year Ended Sep 30th	Actuarly Determined Contribution **	Annual Actual Contribution	Contribution Deficiency (Excess)	Covered Payroll	Contributions as a % of Covered Payroll	
2019	\$ 17,214,075	\$ 15,783,779	\$ 1,430,296	\$ 87,469,893	18.04%	
2018	16,751,336	15,473,351	1,277,985	84,816,890	18.24%	
2017	16,206,619	14,739,830	1,466,789	84,102,850	17.53%	
2016	15,181,468	29,175,783	(13,994,315)	80,367,748	36.30%	
2015	14,781,148	15,697,556	(916,408)	79,725,716	19.69%	
2014	14,078,112	15,395,603	(1,317,491)	78,211,736	19.68%	

** The actuarially determined contribution is calculated as the actuarially determined contribution percentage multiplied by the actual pensionable payroll for the fiscal year.

The City contributed \$15 million to the Employee Pension Fund in FY 2016 as an advance payment against the employer's share of the unfunded pension liability. In return for this advance payment, the City (as the employer) will receive an annual credit against its regular payment into the fund. As a result of the \$15,000,000 advance payment, a contribution deficiency will be reflected in future years thru FY 2031 as the credit will be amortized over the next 15 years.

Police Officers' Defined Benefit Retirement System						
Year Ended Sep 30th	Actuarly Determined Contribution **	Annual Actual Contribution	Contribution Deficiency (Excess)	Covered Payroll (1)	Contributions as a % of Covered Payroll	
2019	\$ 3,236,329	\$ 3,206,499	\$ 29,830	\$ 15,323,527	20.93%

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

BUDGETS

Budgets of the City are adopted on a modified accrual basis of accounting, which is consistent with Generally Accepted Accounting Principles (GAAP). In cases where appropriations and estimated revenues have been revised during the year, budget data represents final authorized amounts. As of September 30, 2019 there were no material violations of budgetary requirements.

GENERAL, POLICE, AND FIRE PENSION PLANS

Within the basic financial statements, the proceeds of the excise tax from the State of Florida in the City of Lakeland Firefighters' Retirement System and the Police Pension Plan are recorded as operating grants and contributions and public safety expenses in the Government-wide Statement of Activities.

Changes in assumptions/inputs:

The following assumption changes are reflected in the Actuarially Determined Contribution rate as of:

September 30, 2019:

Employee Pension and Retirement System

- There were no revisions in actuarial assumptions or methods since the previous valuation.

Police Officers' Defined Benefit Retirement System

- The payroll growth assumption utilized in amortizing the Unfunded Actuarial Accrued Liability was changed from 2.12% to 1.62% in conjunction with the valuation report. This assumption will be reduced by 0.5% in each future valuation report until it reaches the actual historical 10-year average growth of the non-DROP valuation payroll.

Firefighters' Retirement System

- There were no revisions in actuarial assumptions or methods since the previous valuation.

September 30, 2018:

Employee Pension and Retirement System

- Adoption of the RP2000 Generational Mortality Table
- Salary increase assumption was changed to the service based rates
- The assumed inflation rate was lowered from 3.0% to 2.5%
- The payroll growth rate was lowered from 3.5% to 2.5%
- The amortization period for all existing UAAL bases was shortened to 20 years
- The administrative expense assumption was changed from 0.1% of payroll to average of the actual administrative expenses paid in the prior two fiscal years
- The assumed rate of normal retirement, early retirement, and employment termination were changed

Police Officers' Defined Benefit Retirement System

- Adoption of the RP2000 Generational Mortality Table
- The assumed rates of mortality were changed
- The assumed rates of individual salary increases were changed from 6.0% to aged based assumptions
- The assumed rates of termination were increased by 10% at each age
- The payroll growth assumption utilized in amortizing the Unfunded Actuarial Accrued Liability was changed from 2.62% to 2.12% in conjunction with the valuation report. This assumption will be reduced by 0.5% in each future valuation report until it reaches the actual historical 10-year average growth of the non-DROP valuation payroll

September 30, 2017:

Police Officers' Defined Benefit Retirement System

- The payroll growth assumption utilized in amortizing the Unfunded Actuarial Accrued Liability was changed from 3.01% to 2.62% in conjunction with the valuation report. This assumption will be reduced by 0.5% in each future valuation report until it reaches the actual historical 10-year average growth of the non-DROP valuation payroll.

Firefighters' Retirement System

- Assumed interest was changed to 7.50%
- Assumed salary increase was changed to 6.0%

REQUIRED SUPPLEMENTARY INFORMATION
EMPLOYEE PENSION AND OPEB FUNDS
SEPTEMBER 30, 2019

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION (continued)

GENERAL, POLICE, AND FIRE PENSION PLANS (continued)

For additional information regarding the pensions please refer to Note 13 in the notes to the Basic Financial Statements.

For more information pertaining to the aforementioned plans refer to the City of Lakeland, Florida stand-alone financial statements for each plan, which can be obtained by contacting the City of Lakeland, Finance Department, City Hall, 228 S. Massachusetts Ave., Lakeland, FL 33801- 5086.

OPEB

For additional information regarding the OPEB Trust Fund please refer to Note 15 in the notes to the Basic Financial Statements.

Changes in assumptions/inputs

The following assumption changes are reflected in the calculation of the actuarially determined contributions:

September 30, 2019

- The discount rate was updated from 4.18% to 2.66% for the implicit liability, and from 6.96% to 7.21% for the explicit liability.
- The termination rates assumption for Police was updated based on the 2018 Lakeland Retirement System Actuarial Valuation.
- The ACA Excise Tax on high-cost employer sponsored healthcare plans is no longer applicable as the bill which repealed it pass on December 20, 2019.
- The mortality assumption was updated from the RP-2014 base mortality with generational scale MP-2016 to the Pub-2010 base table with generational scale MP-2019 to reflect the Society of Actuaries' recent mortality study.
- The initial year medical trend rate was updated from 6.0% to 6.5% for pre-Medicare costs and from 5.0% to 5.5% for post-Medicare costs to reflect the generally low claims experience environment.

September 30, 2018

- The discount rate was changed from 3.63% to 4.18% for the implicit liability.

September 30, 2017

- The mortality table was updated to a generational table.
- The amortization method was changed from the projected unit credit method to the entry age normal method per GASB 75.
- The marriage assumption was updated to reflect the current retiree/spouse mix.

COMPREHENSIVE ANNUAL FINANCIAL REPORT OF THE CITY OF LAKELAND, FLORIDA

FOR THE FISCAL YEAR ENDED
SEPTEMBER 30,
2019

NON-MAJOR FUNDS

OTHER GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

Special revenue funds are used to account for proceeds from certain specific revenue sources for purposes other than debt service or capital projects. These funds are recorded separately as directed by legal requirements, regulatory provisions, or administrative action. As with the General Fund, the primary accounting focus is on the sources and uses of available funds and the financial activity is reported using the modified accrual basis accounting.

Community Development Fund – The Federal Department of Housing and Urban Development provides funds for improvement projects and economic development assistance in low to moderate –income areas and down payment assistance to first time home buyers.

State Housing Initiatives Partnership Program – The Florida Housing Finance Corporation through the local housing assistance trust fund provides funds for emergency repairs, new construction, rehabilitation, and other assistance in very low to moderate-income areas.

Neighborhood Stabilization Program – The Federal Department of Housing and Urban Development provides funds for the purchase and rehabilitation of foreclosed homes in low to moderate income areas.

Stormwater Fund – Revenues, received primarily through the collection of residential and commercial fees as well as transfers from the Transportation Fund for drainage and lake projects, are used for projects approved by the City Commission for stormwater capital activities.

Lakeland Community Redevelopment Agency – Revenues that are received primarily from the tax increment of the special taxing district established for the purpose of revitalizing the downtown Lakeland area.

CAPITAL PROJECTS FUNDS

Capital Projects Funds are used to account for and report financial resources that are restricted, committed or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

Transportation Fund – Major sources of revenues for the Transportation Fund include taxes levied on motor fuels and impact fees. These revenues are used for projects approved by the City Commission, such as street improvements.

Impact Fee Fund – The Impact Fee Fund is used to account for impact fees collected for transportation, law enforcement, fire protection, and parks and recreation.

PERMANENT FUNDS

Permanent funds are used to report resources that are legally restricted to the extent that only earnings, not principal, may be used for purposes that support the reporting government's programs.

Cemetery Perpetual Care Fund – When the corpus of this fund is sufficient, it will be used to account for the accumulation of resources used to maintain all City-owned cemeteries.

Scott Morris Mausoleum Fund – This fund accounts for a contribution to provide maintenance of the Scott Morris Mausoleum.

Webster Book Fund – This fund accounts for a bequest received by the City to purchase nonfiction books and periodicals for the City of Lakeland Public Library.

Baldwin Book Fund – This fund accounts for a bequest received by the City to purchase general science and wholesome fiction books for the City of Lakeland Public Library.

NON-MAJOR FUNDS

PROPRIETARY FUNDS

PROPRIETARY FUNDS

Proprietary funds are used to account for business-type activities and include both Enterprise funds and Internal Service funds.

ENTERPRISE FUNDS

Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises. The primary customer of enterprise funds is the general public and the intent is that the costs relating to providing certain goods or services are primarily recovered through user fees and charges.

Parking System Fund – This fund accounts for operating and maintaining parking facilities throughout the City, including three municipal parking garages.

RP Funding Center – This fund accounts for operating and maintaining the RP Funding Center for public shows, civic and cultural events, entertainment and other activities.

Lakeland Linder International Airport Fund – This fund accounts for revenues from leases of buildings and land, commissions on the sale of gasoline, related operating expenses, and capital outlays necessary for maintaining a general aviation facility and an industrial park.

Solid Waste Management Fund – This fund accounts for all activities necessary to provide refuse collection, disposal services and recycling to residents of the City.

NON-MAJOR FUNDS

INTERNAL SERVICE FUNDS

INTERNAL SERVICE FUNDS

Internal service funds account for the financing of goods or services provided by one department to other departments of the City on a cost reimbursement basis.

Purchasing and Stores Fund – This fund accounts for the costs of purchasing and maintaining custody of supplies and materials. Services provided are billed based on an estimate of actual cost, including operating expenses, and overhead.

Fleet Management Fund – This fund accounts for renting and maintaining automotive equipment used by other City departments. User charges are assessed to cover actual costs, including operating expenses, overhead, and depreciation.

Facilities Maintenance Fund – This fund accounts for the cost of maintenance and janitorial services for all City-owned buildings. User charges are assessed to cover actual costs, including operating expenses, and overhead.

Information Technology Fund – This fund accounts for the cost of the information services incurred in providing network services, telephone, radio communications, and general computer services and supplies. User charges are assessed to cover actual costs, including operating expenses, overhead, and depreciation.

Self-Insurance Fund – This fund accounts for the cost of claims and management fees incurred in providing employee health insurance, workers' compensation, general liability, public officials' liability, airport general liability, automobile liability and trustee and fiduciary liability for the City of Lakeland.

Internal Loan Fund – This fund accounts for internal loans that are made to other funds of the City of Lakeland for the purpose of financing operating deficits and capital acquisition costs that the City has determined should not be financed through the traditional tax-free debt market. All loans are interest bearing with defined repayment terms.

NON-MAJOR FUNDS

FIDUCIARY FUNDS

FIDUCIARY FUNDS

Fiduciary funds are used to report assets held in a trustee or agency capacity for others and therefore cannot be used to support the government's own programs. Fiduciary funds include both pension trust funds and custodial funds.

Employees' Pension and Retirement System – This fund accounts for the accumulation of resources used for retirement payments for City employees. Resources for retirement benefits are contributed by employees at a rate of 8.5% of their salary and by the City at a rate of 17.44% of the covered employee's salary.

Police Officers' Defined Benefit Retirement System – This fund accounts for the accumulation of resources used for retirement annuity payments to police officers. Resources are contributed by police officers at a rate of 1% of their salary and by the State of Florida from the proceeds of an excise tax imposed by the City on casualty insurance companies.

Firefighters' Supplemental Pension Plan – This fund accounts for the accumulation of resources used for retirement annuity and death benefit payments for firefighters. Resources are contributed by firefighters at a rate of 3% of their salary and by the State of Florida from the proceeds of an excise tax imposed by the City on fire insurance companies. The tax is collected by the State of Florida and remitted to the fund.

Retiree Healthcare Trust Fund – This fund accounts for the accumulation of resources used for health insurance payments for eligible retirees.

Survivor's Benefit Trust Fund – This fund accounts for the accumulation of resources used for payment of premiums for the insurance policy purchased by the City for the payment of death benefit to surviving spouses of certain retired employees.

County Impact Fee Fund – This fund accounts for the deposits of transportation, emergency medical, and jail construction impact fees collected on behalf of the County.

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
AND STATE FINANCIAL ASSISTANCE

SEPTEMBER 30, 2019

NOTE A - BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards and State Financial Assistance include the federal and state activities of the City of Lakeland, Florida. This schedule summarizes the expenditures incurred under all federal programs and state projects by the City of Lakeland, Florida for the fiscal year ended September 30, 2019. For purposes of this schedule, federal programs and state projects include all grants and contracts entered into directly between the City and agencies and departments of the federal and state government with expenditures during the fiscal year ended September 30, 2019. Federal programs and state projects passed through to other government agencies, if any, are also included in the schedule. Grant-related expenditures for the governmental fund types are presented using the modified accrual basis of accounting. Grant-related expenditures for the proprietary fund types are presented using the accrual basis of accounting.

The information in these schedules is presented in accordance with the requirements of 2 CFR 200 – *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, Section 215.97, *Florida Statutes*, and Chapter 10.550, *Rules of the State of Florida Auditor General*. Therefore, some amounts presented in these schedules may differ from amounts presented in, or used in the preparation of, the basic financial statements. The City has elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

The City maintains separate grant-related accounts in the general ledger system. Individual grant revenue and expense accounts are assigned at the time the City is awarded a grant and it is approved by the City Commission. All grant revenues and eligible expenses are recorded in the individual accounts. The City's accounting policies relating to encumbrances, receivables, and designations of fund balance, and other financial matters are applied to the grant accounts.

The grant revenue amounts received are subject to audit and adjustment. If any expenditures are disallowed by the grantor agency as a result of an audit or any claim for reimbursement to the grantor agencies, the expenditures would become a liability of the City. All grant expenditures are in compliance with the terms of the grant agreements and applicable federal and state laws and regulations.

There were no non-cash awards or Federal Insurance maintained in the current year.

NOTE B - LOAN PAYABLE

The City enters into a low interest loan agreements with the State of Florida Department of Environmental Protection to finance the cost of specified capital improvements to the wastewater system. The loans carry a fixed interest rate of .44% - 1.16% and are to be repaid over a period of 20 years. The loans are secured by a pledge of excess revenues of the wastewater system, and by a pledge of certain amounts, deposited into a loan amortization account and loan amortization reserve established by the City for the purpose of funding future debt service on the loans. Amounts required for deposit are classified as restricted assets.

The proceeds from the loans are disbursed to the City on a reimbursement basis as eligible construction expenditures are incurred. The total amount of the loans outstanding at September 30, 2019 is \$16,099,218.

NOTE C - PRIOR YEAR EXPENDITURES

The amounts reported on the SEFA for Public Assistance - Hurricane Irma (CFDA 97.036) represent expenses incurred in prior fiscal years that were approved by FEMA and obligated by the State in fiscal year 2019.

Statistical Section

COMPREHENSIVE ANNUAL FINANCIAL REPORT OF THE CITY OF LAKELAND, FLORIDA

FOR THE FISCAL YEAR ENDED

SEPTEMBER 30,

2019

STATISTICAL SECTION

The Statistical Section of the City of Lakeland's Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

FINANCIAL TRENDS

These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.

REVENUE CAPACITY

These schedules contain information to help the reader assess the City's most significant local governmental revenue source, the property tax.

DEBT CAPACITY

These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.

DEMOGRAPHIC AND ECONOMIC INFORMATION

These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.

OPERATING INFORMATION

These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.

(1) The State of Florida, by statute, requires property appraisers to assess all property within the State at 100% of market value. Therefore, the assessed valuation and estimated actual value is the same.

(2) Total property tax levy minus any discounts given to taxpayers . Therefore, the realized tax rate may be less than the tax rate used to assess property taxes.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

Honorable Mayor, City Commissioners
and City Manager
City of Lakeland, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Lakeland, Florida (the "City") as of and for the year ended September 30, 2019, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated March 23, 2020. Our report includes a reference to other auditors who audited the financial statements of the Police Officers' Defined Benefit Retirement System of the City of Lakeland, Florida (a pension trust fund included in aggregate remaining fund information) and the City of Lakeland Firefighters' Retirement System (a pension trust fund included in aggregate remaining fund information), as described in our report on the City's financial statements. The financial statements of the Police Officers' Defined Benefit Retirement System of the City of Lakeland, Florida and the City of Lakeland Firefighters' Retirement System were not audited in accordance with *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM
AND STATE FINANCIAL ASSISTANCE PROJECT; REPORT ON INTERNAL CONTROL OVER
COMPLIANCE; AND REPORT ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
AND STATE FINANCIAL ASSISTANCE PROJECT REQUIRED BY THE UNIFORM GUIDANCE AND
CHAPTER 10.550 RULES OF THE AUDITOR GENERAL**

Honorable Mayor, City Commissioners
and City Manager
City of Lakeland, Florida

Report on Compliance for Each Major Federal Program and State Financial Assistance Project

We have audited the City of Lakeland, Florida's (the City's) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* and the requirements described in the *Department of Financial Services' State Projects Compliance Supplement*, that could have a direct and material effect on each of the City's major federal programs or state financial assistance projects for the year ended September 30, 2019. The City's major federal programs and state financial assistance projects are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs and state financial assistance projects.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the City's major federal programs and state financial assistance projects based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance); and Chapter 10.550, *Rules of the Auditor General*. Those standards, the Uniform Guidance, and Chapter 10.550, *Rules of the Auditor General*, require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program and state financial assistance project occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program and state financial assistance project. However, our audit does not provide a legal determination of the City's compliance.

Opinion on Each Major Federal Program and State Financial Assistance Project

In our opinion, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs and state financial assistance project for the year ended September 30, 2019.

Report on Internal Control Over Compliance

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program and state financial assistance project to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and state financial assistance project and to test and report on internal control over compliance in accordance with the Uniform Guidance and Chapter 10.550, *Rules of the Auditor General*, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program or state financial assistance project on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program or state financial assistance project will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program or state financial assistance project that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and Chapter 10.550, *Rules of the Auditor General*. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards and State Financial Assistance Required by the Uniform Guidance and Chapter 10.550, *Rules of the Auditor General*

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City as of and for the year ended September 30, 2019, and the related notes to the financial statements, which collectively comprise the City's basic financial statements. We issued our report thereon dated March 23, 2020, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards and state financial assistance is presented for purposes of additional analysis as required by the Uniform Guidance and Chapter 10.550, *Rules of the Auditor General* and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditure of federal awards and state financial assistance is fairly stated in all material respects in relation to the basic financial statements as a whole.

Honorable Mayor, City Commissioners
and City Manager
City of Lakeland, Florida

Report on the Financial Statements

We have audited the financial statements of the City of Lakeland, Florida (the City) as of and for the fiscal year ended September 30, 2019 and have issued our report thereon dated March 23, 2020. Our report includes a reference to other auditors who audited the financial statements of the Police Officers' Defined Benefit Retirement System of the City of Lakeland, Florida (a pension trust fund included in aggregate remaining fund information) and the City of Lakeland Firefighters' Retirement System (a pension trust fund included in aggregate remaining fund information), as described in our report on the City's financial statements. This report does not include our consideration of the results of the other auditors' testing that are reported on separately by those other auditors.

Auditor's Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance); and Chapter 10.550, *Rules of the Auditor General*.

Other Reports and Schedule

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards*; Independent Auditor's Report on Compliance for Each Major Federal Program and State Financial Assistance Project and Report on Internal Control over Compliance; Schedule of Findings and Questioned Costs; and Independent Accountant's Report on an examination conducted in accordance with *AICPA Professional Standards*, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, *Rules of the Auditor General*. Disclosures in those reports and schedule, which are dated March 23, 2020, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. There were no such findings.

Official Title and Legal Authority

Section 10.554(1)(i)4., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. The City is a political subdivision of the State of Florida incorporated under the authority of the laws of Florida Chapter 4096 adopted in 1891. The City of Lakeland, Florida's financial statements included the following component unit: The Lakeland Community Redevelopment Agency. The Lakeland Community Redevelopment Agency was established under the provisions of Section 163.330, Florida Statutes.

Financial Condition

10.554(1)(i)5.a. and 10.556(7), *Rules of the Auditor General*, require us to apply appropriate procedures and communicate results of our determination as to whether or not the City has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and identification of the specific condition(s) met. In connection with our audit, we determined that the City did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.554(1)(i)5.c. and 10.556(8), *Rules of the Auditor General*, we applied financial condition assessment procedures. It is management's responsibility to monitor the City's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.

Other Matters

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we communicated any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Section 10.554(1)(i)3., *Rules of the Auditor General*, requires that we address noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with our audit, we did not have any such findings.

Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, the Board of Commissioners, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.

**INDEPENDENT ACCOUNTANT'S REPORT ON COMPLIANCE WITH
SECTION 218.415, FLORIDA STATUTES**

Honorable Mayor, City Commissioners
and City Manager
City of Lakeland, Florida

We have examined the City of Lakeland, Florida's (the "City") compliance with Section 218.415, Florida Statutes, concerning the investment of public funds during the year ended September 30, 2019. Management of the City is responsible for the City's compliance with the specified requirements. Our responsibility is to express an opinion on the City's compliance with the specified requirements based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the City complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether the City complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Our examination does not provide a legal determination on the City's compliance with specified requirements.

In our opinion, the City complied, in all material respects, with the requirements contained in Section 218.415, Florida Statutes during the year ended September 30, 2019.

The purpose of this report is solely to comply with Chapter 10.550, Rules of the Florida Auditor General. Accordingly, this report is not suitable for any other purpose.
