February 28, 2020

Honorable Mayor and City Commission City of Plant City, Florida

We are pleased to present the Comprehensive Annual Financial Report (CAFR) for the fiscal year ended September 30, 2019.

Florida Statutes, Chapter 218.32, requires that each local government entity submit an annual financial report with the audit report no later than nine months after the end of the fiscal year. This requirement has been met for the fiscal year ended September 30, 2019, and the report of the independent auditing firm has been included in the financial section of this report.

This report was prepared in accordance with generally accepted accounting principles (GAAP) by the Finance Department. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with management. We believe the data as presented is accurate in all material aspects and presented in a manner designed to set forth the financial position of the City of Plant City (the "City") as measured by the financial activity of its various funds; and that all disclosures necessary to enable the reader to gain a comprehensive understanding of the City's financial activity have been included.

The Finance Department is responsible for establishing and maintaining adequate internal controls to provide reasonable assurances regarding safeguarding assets against loss from unauthorized use or disposition, and preparing financial statements from reliable information. The cost of internal controls should not outweigh their benefit. The City's comprehensive framework of internal controls has been designed to provide reasonable, rather than absolute, assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The City's financial statements have been audited by Mauldin & Jenkins, LLC. The scope of the independent audit is to provide reasonable assurance that the financial statements for the fiscal year ended September 30, 2019, are accurate and fairly presented. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditors concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the City's financial statements for fiscal year ended September 30, 2019, are fairly presented in conformity with GAAP. The independent auditors' report is presented as the first component of the financial section of this report.

GAAP requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the independent auditors' report.

Profile of the Government

The City of Plant City, a municipal corporation of the State of Florida located in Hillsborough County, was initially incorporated on January 10, 1885. The City is strategically located in Central Florida, along the I-4 corridor, nestled between three large metropolitan cities: 25 miles east of Tampa, and 50 miles west of Orlando, and adjacent to Lakeland. The City prides itself as the "Winter Strawberry Capital of the World," and offers the hometown feel of a warm, thriving community. With its network of highways, state roads, and active rail lines that run through the community, The City provides the perfect location for manufacturing and distribution ventures. In addition, The City has proven to be an integral part of the global marketplace utilizing the cargo facilities at three international airports, three regional airports and the Port of Tampa.

The City has a reputation as a community that proudly offers safe walkable neighborhoods, charming historic districts, high quality schools, unique retail, dining and entertainment options. The City's location, climate, natural resources, and sense of community have influenced the City's growth. Residents and visitors enjoy numerous year-round recreational opportunities, which results in the perfect blend of community and prosperity.

The citizens of Plant City enjoy a full range of services including general government, police and fire protection, ambulance service, engineering, streets, traffic, parks, recreation, planning, zoning, community services, code enforcement, and a library. The City also provides water, wastewater treatment, solid waste and stormwater as enterprise activities. Electric, telephone, gas and cable television services are provided by franchisees. The City includes two dependent special districts consisting of Community Redevelopment Agency and Walden Lake Community Association Local Government Neighborhood Improvement District.

City Structure

The City operates under the Commission/Manager form of government. Five Commissioners are elected at large for a three-year term with no term limits, which constitute the governing body of the City with legislative authority. The City Commission enacts laws and ordinances, approves the annual budget, sets policy and direction for various functions of the government, and appoints citizens to serve on various advisory boards and committees. At the first regular meeting in June, the City Commission shall, by majority, elect one of its members as Mayor. The Mayor selects the Vice-Mayor, and together, they serve a one-year term.

The City Manager is the Chief Administrative Officer of the City and responsible to the City Commission for administration of all City affairs and performance of its municipal functions. The City Manager appoints, removes and determines compensation for the department heads and all other City employees, except those specified by the Charter.

The annual budget and capital improvement plan serve as a foundation for the City's financial planning and are employed as management control devices during the year. City department directors submit their budget requests in accordance with the budget calendar schedule. Upon conducting work sessions on department budgets, the City Manager presents a tentative budget to the City Commission. The City Commission holds two public hearings on the proposed budget to obtain public comment in order to adopt the final budget and set the

millage rate for the ensuing year. The legal level of budgetary control is maintained at the department director level, who are authorized to transfer funds between line items within their department. Transfers between major categories within a department or among programs within a department must be approved by the City Manager. All other budget transfers including transfers between funds or use of unallocated fund balances require City Commission approval. Budget to actual comparisons are presented in this report for each individual fund for which an annual budget has been adopted. The City of Plant City follows the laws of Florida regarding the control, adoption and amendment of the budget during each fiscal year.

Local Economy

Plant City has a population of approximately 39,478 residents, and is also a popular seasonal destination for visitors and part-time residents from both the United States and abroad during the winter months. Close proximity to Tampa International Airport provides convenient access for part-time residents and out-of-state visitors. The population has increased over the last six years and is projected to continue to steadily increase.

Seasonal employment is common in Plant City due to the influx of seasonal residents and visitors during the winter months. The length of the typical "season," when most visitors and seasonal residents visit, lasts from approximately November through April. The seasonal influx of visitors and part-time residents does not create challenges for retail and commercial businesses, it only enhances the year-round client base to remain financially sustainable.

The property values steadily increased since the lowest level in 2012 and rose significantly in 2019. These values are split 50-50 between residential and non-residential types. As the second largest city in Hillsborough County, the City's number one priority is "Economic Development." The City continues to support the Plant City Economic Development Corporation, which is assisting with job creation and capital investment to expand the local tax base. Commercial developments continue to grow on Park Road and County Line Road. The City is committed to expanding utilities on SR39 South to aid in additional commercial development. The road expansion on Sam Allen Road will expand new residential stock over the next ten years as new developments are approved in the northeast sector. The City is optimistic about the economic growth occurring in the community.

Employment Types and Trends. The major employers in Plant City include:

South Florida Baptist Hospital	775
Dart Container	450
City of Plant City	434
Highland Packaging Solutions, Inc.	350
James Hardie Products	350
Sunoco	350
Star Distribution Systems	325
QGS Development	310
Gordon Food Service	300

There are approximately 21,300 jobs in over 1,500 registered businesses in Plant City. The municipality accounts for approximately 3.4% of the total number of full-time jobs in all of Hillsborough County. The three largest workplace sectors include: Retail Trade (7,000+ jobs), Finance/Insurance/Real Estate Services (6,200+ jobs) and Manufacturing (2,200+ jobs). The municipality has a current jobs-to-population ratio of 0.54 or one-half a job for every resident living in Plant City. Today, there is greater employee inflow than

outflow, with the highest employment densities located near Plant City Airport, around South Florida Baptist Hospital, and in the commercial cluster along James L. Redman Parkway/East Alexander Street.

Redevelopment. Plant City's primary redevelopment area called "Midtown" is comprised of 15 acres adjoining the current central business district. Over the years, the City purchased properties and completed various street, water, sewer, parks, and stormwater projects, making the area prime for a firm to develop. The mixed-use development should be consistent with the *CRA Redevelopment Plan and Midtown Redevelopment Vision Plan* and is expected to include residential, retail, commercial and public components coupled with pedestrian-friendly amenities that promotes safety and provides a desirable destination. The City is in negotiations with a development firm to begin construction within 12 to 18 months. The CRA district continues to invest in downtown and midtown through incentives that create jobs and retain existing businesses, as well as improve the tax base.

Housing. Currently, Plant City's housing stock is comprised of 72% single-family detached homes and mobile homes with the remaining balance being divided between two-family (duplex) homes (3%), multifamily homes (17%) and mobile home parks (8%). In 2019, there were almost 14,000 homes in the municipality. The average and median home values were \$101,060 and \$105,302, respectively. Over the last ten years, new home starts averaged 100 per year. Single-family detached homes accounted for approximately 80% of new residential construction. The local housing market is stable and growing with an owner vacancy rate of only 1.7% and rental vacancy rate of 6.5%.

Comprehensive Plan and Zoning Code. The Plant City Commission adopted a major update to the Imagine 2040: Plant City Comprehensive Plan on February 8, 2015. This update was crafted to streamline and improve the overall understanding of the document, address legislative mandates, remove duplications, correct inconsistencies, prioritize staff resources, update project statuses, and encourage future economic opportunities within Plant City. Furthermore, the policy direction contained within this plan protects the integrity and character of our neighborhoods and the natural environment of Plant City. In addition, the adopted level-of-service standards for potable water, wastewater, transportation, solid waste, stormwater, public schools and recreation will be maintained through and beyond the horizon year of 2040.

Looking ahead, Plant City is projected to increase in population to more than 71,000 by 2040. Where will they live? Where will they work? Where will they play? How will they get there? Based on the results of extensive public outreach on these and other questions, the general structure and framework of the *Imagine 2040: Plant City Comprehensive Plan* was reorganized to include an introduction and four major components that, when combined, represent Plant City as a whole: **People, Places, Natural Spaces** and **Governance**. These four components are representative of those fundamental growth management elements required by Chapter 163, Part II, *Florida Statues*.

On February 8, 2015, Plant City's Zoning Code was also updated to ensure the implementation of the vision and goals outlined in the *Imagine 2040: Plant City Comprehensive Plan*. Plant City's vision is as follows:

Plant City is a diverse and vibrant "hometown" community. People work together to solve problems and ensure a better future for their children. Local businesses grow and prosper through innovation and hard work. Local government makes prudent investments in infrastructure and services. The safety and wellbeing of our citizens is a priority.

To this end the major goals of the Comprehensive Plan and Zoning Code is to promote or provide for a:

- Unique Sense of Place
- Thriving Local Economy
- Superior Education/Skills
- Quality Services and Infrastructure
- Citizen Involvement

Long-term Financial Planning

The City is committed to long- and short-term financial planning to facilitate decision making and handle day-to-day financial business. All long-term financial plans help achieve the City's core strategies:

- > Facilitate economic development
- > Foster community engagement
- > Empower outstanding customer service
- Engage in effective communication with internal and external stakeholders
- ➤ Maximize organizational effectiveness

The financial policy in the budget document establishes financial guidelines that provide a performance standard endorsed by the City Commission and management. Financial planning and discussions regarding maintaining a minimum fund balance of 15% in the General Fund includes stabilizing tax rates to sustain a complete economic cycle that also provides for emergency and disaster relief reserves. The proprietary funds are monitored to ensure that rates are sufficient to recover all operating costs and provide for debt service payments and asset replacement. Debt and investment policies provide guidance on cash management to maintain high bond ratings and preserve City funds for liquidity when needed.

During the annual budget process, the City Commission reviews and approves a five-year capital improvement plan that identifies projects to replace and maintain current assets, program enhancements, and the expansion needs of a growing City. The plan addresses project costs and funding of the projects that provide for public betterments and ensure a stable community infrastructure. Consideration for new projects includes the impact on future operating expenditures and potential revenue. Projects are established based on the five core strategies of the City. The plan is designed to budget adequate reserves to replace obsolete vehicles and equipment, and provide reliability of City-wide infrastructure for the utility systems.

Major Capital Improvements

Management's goals and objectives flow from the responsibility to maintain City assets and provide a level of infrastructure to complement the residents' lifestyle. The City's five-year annual capital planning process provides the mechanism to prioritize capital needs and determine available funding sources. Some of the major projects for the upcoming fiscal year are listed below under the related core strategy.

Customer Service

- Re-lamp the Washington Baseball Field to provide adequate lighting with new wiring and LED fixtures.
- Install trail lighting at the Ellis-Methvin Park.

Economic Development

- Invest \$2.2 million to resurface arterial roads and neighborhood streets. This revenue is generated from the 1.0 mil property tax.
- Resurface W. Bates Street, W. Strickland Street, and W. Merrick Street and convert W. Alsobrook Street from a dirt road to a paved street. These improvements will be funded by a Community Development Block Grant.
- Upgrade five signalized intersections with LED illuminated street signs including: Alexander Street/Grant Street; Franklin Street/Baker Street; Alexander Street/I-4; Alexander Street/Mendonsa Road; and MLK Boulevard/Wheeler Street
- Invest \$500,000 towards the Roseland Park stormwater drainage improvement project to reduce flooding in the neighborhood.
- Dedicate over \$3,000,000 to improve water and sewer infrastructure by replacing waterlines, gravity sewer lines, and force mains.
- Evaluate, design and construct an upgrade to Lift Basin 2.
- Provide adequate sewer service to Midtown.

Organizational Effectiveness

- Upgrade tile and carpet at the Police Department lobby to reduce tripping hazards.
- Renovate the interior of Fire Station 2, which includes dorms, kitchen, bathrooms, offices, and fitness area.
- Complete fiber loop project to provide redundant communication to departments.
- Install secure GPS radio-enabled preemption system for fire rescue vehicles to communicate with traffic signals.
- Update Library and renovate the space to provide more customer conveniences.

Overall, the City continues to provide funding for future assets, included in the Asset Management Program in order to maintain, upgrade, and dispose of assets cost-effectively.

Relevant Financial Policies

Internal Controls. In developing and evaluating the City's accounting system, consideration is given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance to safeguard assets against loss from unauthorized use or disposition; and provide reliable financial records to prepare financial statements and maintain accountability for assets. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived; and the evaluation of costs and benefits requires estimates and judgments by management. All internal control evaluations occur within the above framework. We believe that the City's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

Budgetary Process. The City's budget is a detailed operating plan, which identifies estimated costs and revenues to fund program initiatives. The budget includes: (1) the programs, projects, services, and activities to be carried on during the fiscal year; (2) the estimated revenue available to finance the operating plan; and, (3) the estimated spending requirements of the operating plan. The budget represents a process where the Mayor, City Commission and City Manager make, implement, and control policy decisions.

Cash Management. The City's pooled deposits and investments are conservatively invested pursuant to policy established by Resolution on January 25, 2016. The City's investment policy seeks to preserve capital, provide liquidity, and generate yield, in that order of priority. The policy addresses the types of investments and maturity limitations permitted. The earned yield net of fees for the fiscal year was 3.1%, which is above the benchmark of 2.2%. The Safety Employees' Retirement System deposits and investments follow policies established by their governing board.

Awards

On November 6, 2019, the Government Finance Officers Association (GFOA) awarded the City its second Certificate of Achievement for Excellence in Financial Reporting for its Comprehensive Annual Financial Report (CAFR) for the Fiscal Year ended September 30, 2018. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only.

The City of Plant City will apply to achieve this prestigious award that has the highest form of recognition for excellence in state and local government financial reporting. We believe the current comprehensive annual financial report will meet the Certificate of Achievement Program's requirements to receive the award.

Acknowledgment

The Finance Department is committed to advancing its fiscal accountability, efficiency and integrity in the City's financial operations. Our sincerest appreciation is extended to all contributing finance staff members in cooperation with all City departments. We also appreciate the professional service and assistance rendered by Mauldin & Jenkins, LLC to conduct an independent audit.

Thank you to the City Commission for their leadership and support in planning and guiding the financial affairs of the City in a responsible and progressive manner.

Respectfully submitted,

Bill McDaniel

INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor,
Members of the City Commission and City Clerk
City of Plant City, Florida

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Plant City, Florida (the "City"), as of and for the year ended September 30, 2019, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City, as of September 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, budgetary comparison information and pension and other post-employment benefit schedules on pages 5-16 and 63-70, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, combining and individual fund statements and schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), and is also not a required part of the basic financial statements of the City.

The combining and individual fund statements and schedules and the Schedule of Expenditures of Federal Awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund statements and schedules and the Schedule of Expenditures of Federal Awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 28, 2020, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Mauldin & Jerkins, LLC

This page intentionally left blank.

The City of Plant City's (the "City") Management Discussion and Analysis (MD&A) is designed to provide the users with a narrative introduction, overview and analysis of the basic financial statements. Please read the information presented here in conjunction with the City's financial statements and footnotes that follow this report.

FINANCIAL HIGHLIGHTS

- The assets and deferred outflow of resources of the City exceeded its liabilities and deferred inflow of resources at September 30, 2019, by \$250.2 million (net position). Of this amount, unrestricted net position totals \$86.4 million.
- The City's total net position increased by \$14.9 million.
- As of September 30, 2019, the City's governmental funds reported combined ending fund balances of \$48.9 million, an increase of \$7.3 million over the prior year. Of this amount, unassigned fund balance totals \$14.7 million.
- The City's total long-term liabilities decreased by \$3.5 million during the current fiscal year for three reasons: (1) annual debt service principal payments; (2) payoff of two stormwater debts, and (3) reduction in the net pension liability. The City has not issued any new debt.

OVERVIEW OF THE FINANCIAL STATEMENTS

The financial statements' focus is on both the City as a whole (government-wide) and on the major individual funds. Both perspectives (government-wide and major fund) allow the user to address relevant questions, broaden a basis for comparison (year to year or government to government) and enhance the City's accountability.

The City's basic financial statements are comprised of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. The annual financial report also contains other supplementary information in addition to the basic financial statements.

Government-wide Financial Statements

The financial statements' focus is on both the City as a whole (government-wide) and on the major individual funds. Both perspectives (government-wide and major fund) allow the user to address relevant questions, broaden a basis for comparison (year to year or government to government) and enhance the City's accountability.

The City's basic financial statements are comprised of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. The annual financial report also contains other supplementary information in addition to the basic financial statements.

Government-wide Financial Statements

The *government-wide financial statements* are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business. The focus is on "activities" rather than "fund types."

The *Statement of Net Position* presents information on all of the City's assets and liabilities, with the difference reported as net position. The focus of the Statement of Net Position is designed to be similar to bottom line results for the City and its governmental and business-type activities. Over time, the increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, public safety, physical environment, transportation, economic development, and culture and recreation. The business-type activities of the City consist of the water/sewer and stormwater utilities, solid waste services, and industrial park operations.

The government-wide financial statements include not only the City of Plant City itself (the primary government) but also one district of the legally separate Community Redevelopment Agency. Financial information for this component unit is blended with the financial information presented for the primary government itself since board members are the same as the members of the City Commission.

The City has one defined benefit pension plan and one defined contribution pension plan established for the exclusive benefit of its employees and beneficiaries. Reporting on the defined benefit pension plan is included in these statements, and information about the defined contribution pension plan can be found in the footnotes to the Financial Statements.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over the resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: (1) governmental funds, (2) proprietary funds, and (3) fiduciary funds. Traditional users of governmental fund financial statements will find the fund financial statements presentation more familiar.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the City's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the City's near-term financing decisions. Both the Governmental Fund Balance Sheet and the Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains 16 individual governmental funds. Information is presented separately in the Governmental Fund Balance Sheet and in the Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balances for the General Fund and the Community Redevelopment Agency Fund, which are considered to be major funds. Data from the other 14 governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements in this report, following the notes to the financial statements.

The City adopts an annual appropriated budget for its General Fund and the Special Revenue Funds. Budgetary comparison schedules have been provided for the major governmental funds that adopt an annual operating budget to demonstrate compliance with the budget.

Proprietary Funds

The City maintains two different proprietary fund types. Enterprise Funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses Enterprise Funds to account for its water/sewer and stormwater utility systems, solid waste service and its industrial park operations. The Internal Service Funds are an accounting device used to accumulate and allocate the costs of workers' compensation insurance and fleet acquisitions internally among the City's various functions. The Proprietary Fund statements provide the same type of information as the government-wide financial statements, only in more detail.

Fiduciary Funds

Fiduciary Funds are used to account for resources held for the benefit of parties outside the City. Fiduciary Funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The accounting used for Fiduciary Funds is much like that used for Proprietary Funds. The City's safety employee's pension trust fund is included in the fiduciary fund type.

Notes to the Financial Statements

The notes provide additional information that is essential to have a full understanding of the data provided in the government-wide and fund financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Statements of Net Position

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. For the current year, the City's assets exceeded liabilities by \$250.2 million.

The following table reflects the condensed Statements of Net Position for the current and prior year:

	Government	al Activities	Business-ty	pe Activities	To	tal
	2019	2018	2019	2018	2019	2018
Current and Other						
Assets	\$ 57,646,192	\$ 52,032,598	\$ 72,727,292	\$ 67,470,697	\$130,373,484	\$119,503,295
Capital Assets	68,295,837	65,739,985	106,830,825	109,885,788	175,126,662	175,625,773

Unrestricted	23,087,430	20,189,677	63,330,810	48,110,113	86,418,240	68,299,790
Total Net Position	\$101,113,211	\$ 90,466,483	\$149,081,873	\$144,799,640	\$250,195,084	\$ 235,266,123

Fifty-eight percent (58%) of the City's net position reflects its investment in capital assets (e.g., land, buildings, improvements, infrastructure, vehicles and equipment) less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. Eleven percent (11%) of the City's net position represents resources that are subject to external restrictions on how they may be used.

As of September 30, 2019, the City is able to report positive balances in all three categories of net position, both for the City as a whole, as well as for its separate governmental and business-type activities. This also held true for the previous fiscal year-end.

Total net position increased by \$14.9 million. Although the restricted category decreased by \$6.7 million due to the business-type debt service revenue, net investment in capital assets increased by \$3.5 million, and unrestricted funds increased by \$18.1 million. Unrestricted funds for governmental activities increased \$2.9 million, while business-type activities increased by \$15.2 million.

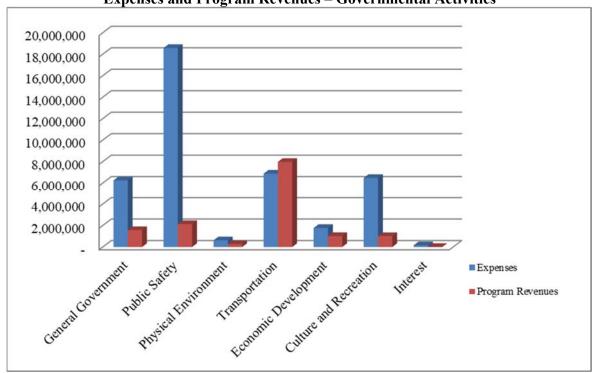

The total value of the City's net investment in capital asset category increased by \$2 million. Capital assets are generally purchased with cash and long-term debt associated with capital assets declined by \$3.5 million. While accumulated depreciation increased \$9.2 million, more detail regarding the asset increases can be found in the Capital Asset and Debt Administration section in Note 3D.

Statements of Activities

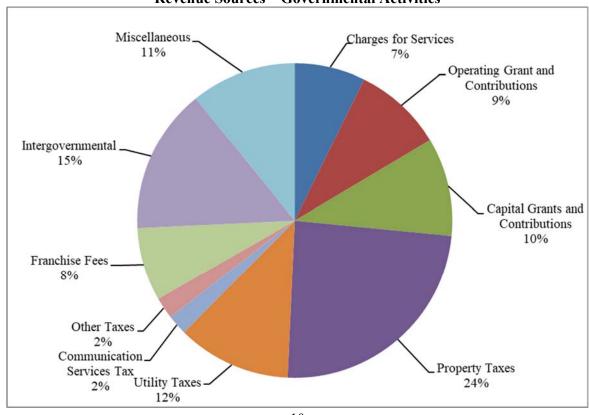

The following table reflects the condensed Statements of Activities for the current and prior year:

	Government	al Activities	Business-ty	pe Activities	Total

Expenses and Program Revenues – Governmental Activities

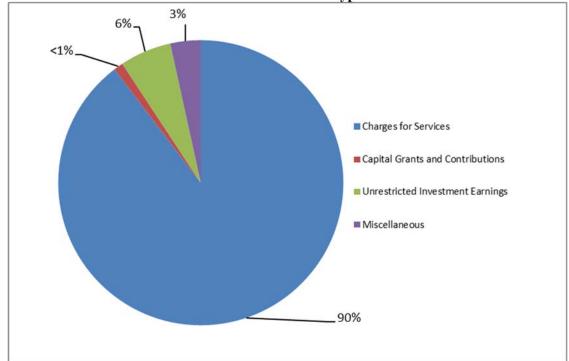

Revenue Sources – Governmental Activities

Expenses and Program Revenues – Business-type Activities

Revenue Sources – Business-type Activities

Governmental Activities

Governmental activities net position increased by \$10,646,728.

Total revenues of governmental activities increased \$8,675,590. General revenues increased by \$2,760,513 primarily due to an increase in property tax of \$1,043,308. Program revenues of governmental activities increased by \$5,759,889 primarily due to an increase in capital grants of \$4,858,016. Charges for services increased \$1,715,523, and operating grants and contributions decreased \$813,650.

Governmental activities expenses increased by a total of \$1,508,698, mainly due to increases in public safety of \$2,058,786, economic development of \$101,442, and a \$136,995 increase in culture and recreation. Other major changes include decreases to general government of \$148,323, physical environment of \$252,817, transportation of \$348,495, and a decrease in interest on long-term debt of \$38,890.

Business-type Activities

Business-type activities net position increased by \$4,282,233.

Business-type activity revenues increased \$2,189,375 because general revenues showed an increase of \$1,857,748, primarily due to an increase in investment earnings of \$1,363,761. Program revenues increased by \$331,627 due to an increase in charges for services of \$752,781, which was offset by decreases in operating grants and contributions of \$62,980 and capital grants and contributions of \$358,174.

Expenses of business-type activities increased by \$755,394 primarily due to an increase cost in disposal charges of \$275,769 for the solid waste division based on posting a full year compared to nine months of expense associated with the additional 1,400 customers added to the system in January 2018. Personal services costs increased across all of the Enterprise Funds related to the 7.5% market adjustment to wages. Stormwater fund actually realized a decrease in Personal Services due to several vacancies. Water/Sewer Fund operating expenses declined since there were some one-time expenses that incurred in fiscal year 2017-2018 namely a water system assessment for \$343,055. Also, the following accounts in the Water/Sewer Fund declined: collection system repairs by \$29,996, and distribution system repairs by \$49,639. Stormwater increased slightly due to an increase cost of \$29,306 to lease vehicles and \$23,035 to maintain the fleet.

FINANCIAL ANALYSIS OF THE CITY'S FUNDS

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

As of September 30, 2019, the City's governmental funds reported a combined ending fund balance of \$48,861,034, an increase of \$7,272,758 in comparison with the prior year. The unassigned fund balance of \$14,677,136 constitutes approximately 30% of the total ending fund balance.

The General Fund is the chief operating fund of the City. At September 30, 2019, the unassigned fund balance of the General Fund was \$14,677,136, while the total fund balance was \$18,616,412. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 51% of total General Fund expenditures (\$28,629,613), while total fund balance represents 65% of that same amount.

The fund balance of the City's General Fund increased by \$1,538,979 during the fiscal year. Revenue collected was greater than the budgeted amount by \$2,517,922 due to property taxes, utility taxes, franchise fees, permit fees, intergovernmental revenue, charges for services, and interest exceeding the budget. In addition, department expenditures were under budget by \$1,375,448 or 5%. The savings are scattered throughout all departments and the fund was able to transfer an additional \$1.2 million toward the Recreation Community Center.

The fund balance of the Community Redevelopment Agency Fund decreased by \$900,889 during the fiscal year. The decrease was associated with the capital projects planned for the year specifically an allocation to the Recreation Center and land purchases.

Proprietary Funds

The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net position of the Water/Sewer Fund, Solid Waste Fund and the Stormwater Fund at September 30, 2019, amounted to \$38,324,218, \$14,779,681, and \$4,736,468, respectively. The change in net position was an increase of \$3,174,107, \$1,933,773, and negative \$8,589, respectively.

GENERAL FUND BUDGETARY HIGHLIGHTS

Differences in appropriations between the original budget and the final amended budget amounted to \$2,615,180. Of this amount, \$320,415 is attributed to an increase in budget appropriations that was offset by additional revenues as summarized below:

- The local financial support for qualified target industry refunds were offset by the additional electric utility service taxes of \$192,293.
- The Staffing for Adequate Fire and Emergency Response (SAFER) Grant of \$88,120 was used to partially fund three additional firefighters to staff Fire Station 3.
- C&S Wholesale Grocers, Inc. donated \$2,000 to purchase a portable deck monitor with nozzle and additional operating supplies for the Fire Department.
- The Hillsborough County EMS grant of \$6,584 to purchase CPR-AED training manikins.
- The 2019 Edward Byrne Memorial Justice Assistance Grant of \$13,103 to purchase active shooter quick response ballistic vest to enhance law enforcement capabilities.
- Increased participation in summer sports camps provided \$18,315 more revenue.

The following increase, along with the \$29,493 reserved for previous year's encumbrances, was appropriated from fund balance:

- Construction of a new Community Center on MLK Boulevard for \$1,210,000.
- Hired additional firefighters to staff Fire Station 3. Appropriated \$146,864 from fund balance and received partial funding from the Staffing for Adequate Fire & Emergency Response (SAFER) Grant.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

The City's investment in capital assets for its governmental and business-type activities as of September 30, 2019, amounts to \$175 million (net of accumulated depreciation). This investment in capital assets includes land, buildings, improvements, infrastructure, vehicles and equipment. The total decrease in the City's investment in capital assets for the current fiscal year (net of accumulated depreciation) was \$499,111.

In governmental activities, total capital assets increased by \$2,555,852, which can be attributed to assets purchased with cash. This increase is offset by an increase in accumulated depreciation of \$4,244,398, which was less than the value of the assets added to the system. The following three categories increased: land - \$1,197,387, Construction Work in Progress (CWIP) - \$3,537,125, and fleet - \$687,606. Some of the governmental projects completed during the current fiscal year are:

- Purchased property at 404 Mahoney Street for \$336,113;
- Purchased the Historic Post Office for a cost of \$320,256;
- Replaced the roof at Fire Station 2 for \$104,000;
- Completed the P-25 radio compliance system and equipment costing \$370,877;
- Replaced the carpet at City Hall for \$130,228;
- Installed playground improvements at Otis Andrew and Marie B. Ellis parks totaling \$107,807;
- Remodeled the kitchen at Planteen for \$104,253;
- CRA purchased property in Midtown for \$359,295 and a parking lot for \$228,922.

There are two major projects under construction included in CWIP that should be complete by summer 2020:

- Sadye Gibbs Martin Community Center \$2,447,421;
- Fire Station 3 on Park Road \$1,117,095.

In business-type activities, total capital assets decreased by \$3,054,963. The overall change in accumulated depreciation of \$5,019,182 exceeded the increase in capital asset value on aging buildings and equipment. All categories decreased except equipment increased slightly and CWIP increased by \$1,383,174. The following two business-type projects were completed and capitalized in 2019:

- Water and sewer line repairs associated with resurfacing Grant Street for \$590,364;
- Installation of automatic meter reading (AMR) devices for \$228,896.

There are several major projects under construction included in the CWIP increase of \$1,383,174 that were not complete prior to September 30, 2019:

- SR 39 South Utility Extension \$308,408;
- Utility Pipeline Masterplan \$373,232;
- Water System Improvements \$961,719;
- Upgrade to Lift Stations 5, 9, 12, and 22 \$194,718.

Additional information on the City's capital assets can be found in the notes to the financial statements in Note 3D.

Long-Term Debt

At the end of the current fiscal year the City had total long-term liabilities outstanding of \$52.3 million, a decrease of \$3.5 million from the prior year.

Long-term Debt at Year-End

	Governmental Activities				Business-ty	pe Act	Activities Total					
		2019	9 2018		2019		2018		2019			2018

Additional information on the City's long-term debt can be found in the notes to the financial statements in Note 3F.

NEXT YEAR'S BUDGETS AND RATES

The City's millage rate for fiscal year 2020 remains at 5.7157, which includes 1.0 mil dedicated solely to street resurfacing. The rolled-back rate for fiscal year 2020 was 5.3277. For fiscal year 2020, the City's property tax valuation increased by \$206,978,338 (9.4%).

The City's stormwater rates will increase by 3%. The water and sewer rates will increase by 1.9% for fiscal year 2020. The Solid Waste Fund rates for multi-family residential, commercial and special pickups will increase by 3%, while single-family residential rates will remain the same. The single-family residential rates have remained stable for 12 years.

The fiscal year 2020 budget includes a three percent (3%) pay increase for employees. City-wide expenses increased by 13.3% or \$10,082,553 over the prior year original budget. This increase is primarily due to the new Transportation Surtax derived from an additional one cent sales tax revenue approved by voters. This revenue is anticipated to generate \$3,200,000 in fiscal year 2020, which will be used to fund the transportation improvements. The increase in property value mentioned above will generate an additional \$1,123,874. Other revenue in General Fund have also increased by \$2,042,572 due to the economic upswing. Balances available in various Impact Fee funds totaling \$1,215,000 is being allocated to fund eligible capital projects.

The Enterprise Fund revenues for the Water/Sewer, Solid Waste, and Stormwater Funds show an increase of approximately \$2,500,000 due to rate changes, consumption, and/or number of customers utilizing City services. Fleet Replacement Fund increased by \$801,211 based on the fleet replacement schedule.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the City's finances for all those with an interest in the City's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Chief Financial Officer, City of Plant City, P. O. Box C, Plant City, Florida 33564.

CITY OF PLANT CITY, FLORIDA RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES—GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED SEPTEMBER 30, 2019

Net Change in Fund Balances, Total Governmental Funds Amounts reported for governmental activities in the Statement of Activities are different because:	\$	7,272,758
Governmental funds report capital outlays as expenditures while governmental activities report depreciation expense to allocate those expenditures over the life of the assets:		
Capital outlays \$ 6,401,237 Depreciation expense (4,379,875		2,021,362
The net effect of various miscellaneous transactions involving capital assets (i.e. sales, trade-ins and donations) is to decrease net position.		(149,226)
Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.		421,522
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items as expenditures when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.		
Principal repayment of long-term debt		1,400,000
In the governmental funds, current year expenditures related to pensions and OPEB are comprised solely of amounts contributed to the plans for the current year. However, in the statement of activities, expenses related to pensions and OPEB include amounts that do not require the use of current financial resources. This amount represents the difference in the required accounting treatment of pensions, OPEB, and related items.		(123,052)
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds: Amortization of discounts/premiums Change in compensated absences Change in accrued interest payable (15,170 (173,499 7,735)	(180,934)
Internal service funds are used by management to charge the costs of certain activities, such as fleet acquisitions and workers' compensation insurance, to individual funds. This is the net revenue of the internal service funds reported within governmental activities. Change in Net Position, Governmental Activities	\$	(15,702) 10,646,728

NOTES TO FINANCIAL STATEMENTS SEPTEMBER 30, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The City of Plant City, Florida (the "City"), was incorporated under the 1927 Laws of Florida, Chapter 13282, Section 2. It operates under the Commission–Manager form of government. The City provides traditional municipal services as authorized by its charter. These include police and fire protection, streets, traffic, stormwater, water, sewer and solid waste, parks and recreation, planning and zoning, cultural and general administrative services.

The financial statements of the City have been prepared in accordance with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standard Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the government's accounting policies are described below.

In evaluating the City as a reporting entity, management has included all component units in accordance with GASB statements. The financial reporting entity consists of the City (the primary government), and its blended component units. Blended component units are legally separate organizations for which the City is financially accountable. The component units discussed below are included in the City's reporting entity.

The following component units are blended with the primary government for financial statement purposes because the component unit's governing body is substantially the same as the City Commission or because the component unit exclusively serves the City.

Community Redevelopment Agency (the "CRA")

The CRA was created in 1969 under Local Ordinance 12-1981 and under Section 163.356 *Florida Statutes*. Its sole purpose is to finance and redevelop the City's designated redevelopment areas. The CRA is governed by a Board, all of whom are members of the City Commission. The CRA is reported as a major governmental fund.

Walden Lake Community Association Local Government Neighborhood Improvement District (the "District")

The District was formed under Local Ordinance 03-1993 and under Section 163.503 *Florida Statutes*. The District is authorized to levy an ad valorem tax of up to two mills annually, on real and personal property located in the District. Proceeds collected are to be used to facilitate planning and improvements in the Walden Lakes Master Community. The City Commission of the City serves as the Board of Directors for the District. At this time, the District has not levied or collected any ad valorem taxes and its operations are dormant.

NOTES TO FINANCIAL STATEMENTS SEPTEMBER 30, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the non-fiduciary activities of the primary government and its component units. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include: (1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment, and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

The City's Internal Service Fund (which provides services to other funds of the City) is presented as part of the proprietary fund financial statements. Since the principal users of the internal services are the City's governmental activities, financial statements of internal service funds are consolidated into the governmental activities column when presented at the government-wide level. To the extent possible, the costs of these services are reflected in the appropriate governmental activities.

The government-wide financial statements, the proprietary fund financial statements and the fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

NOTES TO FINANCIAL STATEMENTS SEPTEMBER 30, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues, shown for proprietary operations, generally result from producing or providing goods and services such as water, sewer and solid waste collection. Operating expenses for these operations include all costs related to providing the service or product. These costs include salaries, supplies, travel, contract services, depreciation, administrative expenses, and other expenses directly related to costs of services. All other revenue and expenses not meeting these definitions are reported as nonoperating revenues and expenses.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise fees, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The City reports the following major governmental funds:

- The General Fund is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.
- The Community Redevelopment Agency Fund accounts for various redevelopment projects that are funded by the Community Redevelopment Agency. Financial resources come from Hillsborough County, Tampa Port Authority, and the City of Plant City.

The City reports the following major proprietary funds:

- The Water/Sewer Fund accounts for the operations of the City's water and sewer system.
- The Solid Waste Fund accounts for the operations of the City's garbage and recycling programs.
- The Stormwater Fund accounts for the operations of the City's stormwater system.

NOTES TO FINANCIAL STATEMENTS SEPTEMBER 30, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Additionally, the City reports the following fund types:

- The Internal Service Funds account for the uninsured risk of loss due to work-related injuries suffered by employees of the City and the costs of replacement vehicles in the City's fleet.
- The Pension Trust Fund accounts for the activities of the Safety Employees' Retirement Plan, which accumulates resources for pension benefit payments to qualified employees.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as program revenues include: (1) charges to customers or applicants for goods, services or privileges provided, as well as fees, fines and forfeitures, (2) operating grants and contributions, and (3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

The City allocates charges for indirect services provided by various funds based on a cost allocation plan. The costs are included in the program expense reported by functional activity in the Statement of Activities.

D. Assets, Liabilities and Net Assets

Deposits and Investments

The City's cash and cash equivalents include cash on hand, time and demand deposits and short-term investments. For the purposes of the Statement of Cash Flows, the City considers all highly liquid investments (including restricted assets) with an original maturity of three months or less when purchased to be cash equivalents.

All investments, including Pension Funds, are stated at fair value. All fair market valuations are based on quoted market prices.

Receivables and Payables

Receivables consist of trade receivables, homeowner down payment assistance loan receivables, amounts due from other governments, and interest receivable, and are recorded net of any allowance for uncollectible amounts, if applicable.

NOTES TO FINANCIAL STATEMENTS SEPTEMBER 30, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year (if any) are reported as "advances to/from other funds." All other outstanding balances between funds (if any) are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities (if any) are reported in the government-wide financial statements as "internal balances."

Inventories and Prepaid Items

All inventories are valued at cost using the first-in, first-out (FIFO) method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

Restricted Assets

Certain proceeds of revenue bonds and loans, as well as certain resources set aside for their repayment, are classified as restricted assets on the balance sheet because their use is limited by applicable bond/loan covenants. In addition, customer deposits are reported as restricted assets.

Capital Assets

Capital assets, which include land, land improvements, plant and plant improvements, buildings, building improvements, furniture and equipment, and infrastructure (i.e., roads, bridges, sidewalks, and similar items), are reported in the applicable government or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an estimated useful life of two years or more and a cost of \$1,000 or more for general fixed assets and \$5,000 for vehicles. Capital improvement projects, which include infrastructure, equipment and construction, costing more than \$50,000 are capitalized. Capital assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets, donated works of art and similar items, and capital assets received in a service concession arrangement are reported at acquisition value.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

NOTES TO FINANCIAL STATEMENTS SEPTEMBER 30, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Depreciable capital assets are amortized using the straight-line method (except library books, which use a composite method) over the following useful lives:

Infrastructure	20-50 years
Buildings and improvements	10-50 years
Equipment	3-20 years
Library books	7 years

Compensated Absences

All regular employees with less than five years continuous service earn 80 hours of annual leave. The number of hours of annual leave increases in increments of five years, relative to the number of years of continuous service. The maximum of 160 hours of annual leave is obtained after 20 years of continuous service. All hours earned during a fiscal year must be used by the end of the following fiscal or are forfeited. Employees who terminate with more than one year of service are paid for 100% of their unused annual leave. The City has accrued 100% of the annual leave liability.

All regular employees earn eight hours of sick leave per month. There is no maximum limitation on the number of sick leave days which may be accumulated. Employees who voluntarily terminate or retire after ten years of continuous service are paid for 50% of their accumulated sick leave balance. The City has accrued the estimated amount of vested sick leave for employees who have completed ten years of continuous service.

Long-term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund type Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bond issuance costs are expensed when incurred. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Fund Equity

Government-wide and proprietary fund net position are divided into three components:

• *Net investment in capital assets*—consists of the historical cost of capital assets less accumulated depreciation and less any debt that remains outstanding that was used to finance those assets.

NOTES TO FINANCIAL STATEMENTS SEPTEMBER 30, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

- Restricted—consists of funds that have constraints placed on them either externally by third parties (creditors, grantors, contributors, or laws or regulations of other governments) or by constitutional provisions or enabling legislation.
- *Unrestricted*—consists of the balance of net position.

In the governmental fund financial statements, the fund balances are classified as follows:

- *Nonspendable*—consists of amounts that cannot be spent, either because they are in a nonspendable form or because they are legally or contractually required to be maintained intact.
- Restricted—consists of funds that have constraints placed on them either externally by third parties (creditors, grantors, contributors, or laws or regulations of other governments) or by constitutional provisions or enabling legislation.
- *Committed*—consists of amounts that can only be used for specific purposes determined by a formal action by the City Commission through adoption of an ordinance or resolution, which are equally binding.
- Assigned—consists of amounts that have been designated by the City for a particular purpose, but are neither restricted nor committed. The Finance Director and City Manager are authorized to assign fund balance.

At fiscal year-end, any appropriation of existing fund balance to eliminate a projected budgetary deficit in the next year's budget is considered to be an assignment of fund balance.

• *Unassigned*—consists of all amounts not included in other classifications.

Flow Assumptions—When both restricted and unrestricted amounts of fund balance/net position are available for use for expenditures/expenses incurred, it is the City's policy to use restricted amounts first and then unrestricted amounts as they are needed.

For unrestricted amounts of fund balance, it is the City's policy to use fund balance in the following order: committed, assigned and unassigned.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from management's estimates.

NOTES TO FINANCIAL STATEMENTS SEPTEMBER 30, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Deferred Outflows/Inflows of Resources

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The following items qualify for reporting in this category.

A deferred charge on refunding, which is reported in the government-wide Statement of Net Position, results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded debt or the refunding debt.

Deferred inflows and deferred outflows related to the recording of changes in its net pension liability are recognized as pension expense over time instead of all being recognized in the year of occurrence. Experience gains or losses result from periodic actuary studies and changes in actuarial assumptions adjust the net pension liability based on actual experience that was previously assumed, such as the assumed dates of retirement of plan members. These differences are deferred and amortized into pension expense over the expected remaining service life of plan members. The difference between projected investment return on pension investments and actual return on those investments is also deferred and amortized against pension expense over a five year period. The changes in proportion and differences between City contributions and proportionate share of contributions are also deferred and amortized against pension expense over a five year period. Additionally, any contributions made by the City to the pension plan before year-end but subsequent to the measurement date of the City's net pension liability are reported as deferred outflows of resources.

The City also has deferred inflows and deferred outflows related to the recording of changes in its total other post-employment benefit (OPEB) liability. Certain changes in the total OPEB liability are recognized as OPEB expense over time instead of all being recognized in the year of occurrence. Experience gains or losses resulting from periodic actuary studies and changes in actuarial assumptions adjust the total OPEB liability based on actual experience that was previously assumed, such as the assumed dates of retirement of plan members. These differences are recorded as deferred outflows of resources or deferred inflows of resources and are amortized into OPEB expense over the expected remaining service life of plan members. Additionally, any benefits paid by the City to the OPEB plans before year-end but subsequent to the measurement date of the City's total OPEB liability are reported as deferred outflows of resources.

NOTES TO FINANCIAL STATEMENTS SEPTEMBER 30, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

In addition to the above pension related deferred inflows, the City also has one other type of these items, which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, *unavailable revenue*, is reported only in the Governmental Funds Balance Sheet. The governmental funds report unavailable revenues from certain charges for services and fines and these amounts are deferred and will be recognized as an inflow of resources in the period in which the amounts become available.

Pension

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the City's plan and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by the plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE 2 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Property Taxes

Property tax collections are governed by Chapter 197, *Florida Statutes*. The Hillsborough County Tax Collector bills and collects all property taxes levied within the County. Discounts of 4%, 3%, 2%, and 1% are allowed for early payment in November, December, January, and February, respectively.

The Tax Collector remits collected taxes at least monthly to the City. The City recognizes property tax revenue as it is received from the Tax Collector since virtually all taxes levied will be collected through the tax collection process.

A calendar of events is as follows:

January 1 Property taxes are based on assessed value at this date as determined by the Hillsborough

County Property Appraiser.

July 1 Assessment roll approved by the state.

September 30 Millage resolution approved by the City Commission.

October 1 Beginning of fiscal year for which taxes have been levied.

November 1 Property taxes due and payable.

November 30 Last day for 4% maximum discount.

April 1 Unpaid property taxes become delinquent.

May 15 Tax certificates are sold by the Hillsborough County Tax Collector.

This is the first lien date on the properties.

NOTES TO FINANCIAL STATEMENTS SEPTEMBER 30, 2019

NOTE 2 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (CONTINUED)

B. Budget

On or before September 1 each year, the City Manager submits to the City Commission a proposed operating budget for the fiscal year commencing October 1. A public hearing is conducted at City Hall to obtain taxpayer comments. Prior to October 1, the budget is legally enacted through passage of an ordinance.

Annual budgets are adopted for the General Fund, Special Revenue Funds and Debt Service Funds on a basis consistent with generally accepted accounting principles. All annual appropriations lapse at the end of each fiscal year for these funds. Project-length budgets are adopted for Capital Projects Funds. Appropriations in these funds remain open and carry over to succeeding years until the related expenditures are made, modified or cancelled.

Budgetary control is maintained at the department level. Department Heads are permitted to transfer appropriations between line items within their department, with the approval of the City Manager. All other types of budget transfers or amendments must be approved by the City Commission. Expenditures may not legally exceed budgeted appropriations at the department level.

NOTE 3 – DETAILED NOTES ON ALL FUNDS

A. Deposits with Financial Institutions

At September 30, 2019, the bank balances of the City's total deposits with banks was \$54,398,475. All of the City's public deposits are held in qualified public depositories pursuant to Florida Statutes, Chapter 280, Florida Security for Public Deposits Act. Under the Act, all qualified public depositories are required to pledge eligible collateral having a market value equal to or greater than the average daily or monthly balance of all public deposits, times the depository's collateral pledging level. The pledging level may vary depending upon the depository's financial condition and establishment period. All collateral must be deposited with an approved financial institution. Any losses to public depositors are covered by applicable deposit insurance, sale of securities pledged as collateral and, if necessary, assessments against other qualified public depositories of the same type as the depository in default. When public deposits are made in accordance with Chapter 280, no public depositor shall be liable for any loss thereof.

NOTES TO FINANCIAL STATEMENTS SEPTEMBER 30, 2019

NOTE 3 – DETAILED NOTES ON ALL FUNDS (CONTINUED)

B. Investments

As of September 30, 2019, the City had the following investments and maturities:

	Credit		Maturities			
	Rating (Moody's)	Fair Value	Less Than 1	1 to 5	6 to 10	Over 10
City Investments						
Government Securities	Aaa	42,264,791	6,619,764	35,645,027	-	-
Corporate Bonds and Notes	Not Rated	22,024,420	6,298,225	15,726,195		
		\$ 64,289,211	\$ 12,917,989	\$ 51,371,222	\$ -	\$ -
Safety Employees' Retirement Fund						
U. S. Government Agencies	Aaa	\$ 3,909,844	\$ 96,224	\$ 1,231,575	\$ 999,912	\$ 1,582,133
Corporate Bonds and Notes	Aaa-Baa3	8,542,415	215,238	5,110,739	1,201,672	2,014,766
Common Stocks	Not Rated	18,044,920	18,044,920	-	-	-
Mutual Funds	Not Rated	16,202,577	16,202,577			
		\$ 46,699,756	\$ 34,558,959	\$ 6,342,314	\$ 2,201,584	\$ 3,596,899

Fair Value Measurements.

The City categorizes its fair value measurements within fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs for similar assets, and Level 3 inputs are significant unobservable inputs. The City has the following recurring fair value measurements as of September 30, 2019:

	Level 1	Level 2	Level 3	Fair Value
City Investments				
Government Securities	\$ 16,584,098	\$ 25,680,693	\$ -	\$ 42,264,791
Corporate Bonds and Notes		22,024,420	<u> </u>	22,024,420
	\$ 16,584,098	\$ 47,705,113	\$ -	\$ 64,289,211
Safety Employees' Retirement Fund				
U. S. Government Agencies	\$ 2,104,858	\$ 1,804,986	\$ -	\$ 3,909,844
Corporate Bonds and Notes	-	8,542,415	-	8,542,415
Common Stocks	18,044,920	-	-	18,044,920
Mutual Funds		12,500,752	1,524,470	14,025,222
Total investments	\$ 20,149,778	\$ 22,848,153	\$ 1,524,470	44,522,401
Investments measured at NAV				
Mutual Fund				2,177,355
Total investments				\$ 46,699,756

Securities classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices. Mutual funds classified in Level 3 are valued using discounted cash flow techniques.

NOTES TO FINANCIAL STATEMENTS SEPTEMBER 30, 2019

NOTE 3 – DETAILED NOTES ON ALL FUNDS (CONTINUED)

Interest Rate Risk

The risk that changes in interest rates will adversely affect the fair value of an investment.

City Investments

The City manages exposure to interest rate risk by matching investment maturities with known cash needs. Investment maturities of investments of current operating funds shall not exceed two months. Investments of other nonoperating funds may have varying terms not to exceed five years.

Pension Plan Investments

The Plan's investment portfolio is structured to provide sufficient liquidity to meet known cash flow requirements. The Plan also manages interest rate risk by evaluating credit ratings, diversifying the investment portfolio and by utilizing an outside investment manager to monitor performance. The Plan does not limit the weighted average maturity of their portfolio.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations.

City Investments

Section 218.415, *Florida Statutes*, limits the types of investments that the City can invest in unless specifically authorized in the City's investment policy. The City has a formal investment policy that allows investments in the following: Florida Local Government Surplus Funds Trust, U.S. Government securities, U.S. Government agencies and instrumentalities, interest bearing time deposits or savings accounts held at qualified public depositories, repurchase agreements, and fixed income mutual funds that invest in authorized investments, commercial paper rated P-1 by Moody's and/or A-1 by Standard and Poor's or an equivalent rating, corporate bonds and medium term notes with ratings of at least "A" at the time of purchase, municipal bonds rated "A" or better and money market funds registered with the Securities and Exchange Commission that have the highest credit quality rating.

Safety Employees' Pension Trust Fund

Investments are limited by Florida Statute, Chapter 185, and by an investment policy adopted by the fund's Board of Trustees. The allowable investments include: U.S. Government securities, U.S. Government agencies, interest bearing time agreements, corporate bonds, common stocks, foreign equities, mutual funds and money market funds. Cash instruments must have a quality rating at least "A-1" by Standard & Poor's or P-1 by Moody's. Bonds must have a quality rating of at least "A" by Standard & Poor's or Moody's. Equity investments are limited to fully and easily negotiable equity securities listed on one of the recognized national exchanges or on the National Market System of the NASDAQ stock market. Investments in equities may not exceed 65% of the fund's assets at cost. Foreign equities are limited to 10% of the fund's assets at cost.

NOTES TO FINANCIAL STATEMENTS SEPTEMBER 30, 2019

NOTE 3 – DETAILED NOTES ON ALL FUNDS (CONTINUED)

Custodial Credit Risk

Custodial credit risk is the risk that the City will not be able to recover the fair value of an investment or collateral securities that are in possession of an outside party, if the counterparty to the transaction fails.

City Investments

The City's investments are held under a third party custodial agreement with all securities and collateral properly designated as assets of the City.

Pension Plan Investments

The City utilizes a third party custodian to hold plan assets in the name of the City.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributable to the quantity of an investment in a single issuer.

City Investments

	Portfolio
	Composition
	Limits
Florida Local Government Surplus Trust Fund	0-50%
U.S. Government Securities	No limits
U.S. Government Agency Securities	0-50%
Certificates of Deposit	0-100%
Repurchase Agreements	0-20%
Commercial Paper	0-50%
Corporate Obligations	0-50%
Municipal Bonds	0-50%
Fixed Income Mutual Funds	0-40%
Money Market Funds	0-40%

D . O . I

For repurchase agreements, commercial paper, corporate obligations, and municipal bonds, a maximum of 5% of the portfolio may be invested with any one financial institution, dealer or issuer. Fixed income mutual funds are limited to a maximum of 30% of the portfolio with any one fund, and money market funds are limited to 20% of the portfolio being invested with any one fund.

Safety Employees' Pension Plan Investments

No more than 5% of the fund's assets may be invested in the stock of any one company, nor shall the aggregate investment in any one company exceed 5% of the outstanding stock of that company.

NOTES TO FINANCIAL STATEMENTS SEPTEMBER 30, 2019

NOTE 3 – DETAILED NOTES ON ALL FUNDS (CONTINUED)

C. Receivables

At year-end, receivables for the City, including any applicable allowances for uncollectible accounts, are as follows:

	Down-payme nt			
Accounts	Assistance Loan	Interest	Other	
Receivable	Receivable	Receivable	Governments	Total
\$ 1,380,000	\$ -	\$ 61,699	\$ 897,105	\$ 2,338,804

F. Long-term Debt

Changes in Long-term Debt

The following is a summary of changes in long-term debt for the governmental activities of the City for the year ended September 30, 2019:

Governmental Activities	Beginning Balance		Increases		Decreases		Ending Balance		Due in One Year	
Non-Ad Valorem Refunding Revenue Note,										
Series 2012	\$	2,005,000	\$	-	\$	(320,000)	\$	1,685,000	\$	325,000
Non-Ad Valorem Refunding Revenue Note Payable,										
Series 2010		2,285,000		-		(350,000)		1,935,000		360,000
Notes Payable from Direct Borrowings:										
Florida Municipal Loan Council, Series 2005B		730,000		-		(730,000)		-		-
Plus Loan Premium		4,078		-		(4,078)		-		-
Brownfields Loan, Stock Lumber		83,750		-		-		83,750		-
Brownfields Loan, Gromor		167,500		-		-		167,500		-
Estimated Claims Payable		421,237		346,712		(288,084)		479,865		240,500
Compensated Absences		1,048,531		987,189		(813,690)		1,222,030		838,101
Net Pension Liability		18,629,563		7,217,849		(7,171,287)		18,676,125		-
Other Post-Employment Benefits		1,332,248		200,700		(122,130)		1,410,818		
Total Governmental Activities	\$	26,706,907	\$	8,752,450	\$	(9,799,269)	\$	25,660,088	\$	1,763,601

Predominantly, the General Fund will be used to liquidate compensated absences, pension and other post-employment benefits for governmental activities.

Governmental activities debt consists of the following at year-end:

\$3,290,000 Non-Ad Valorem Refunding Revenue Note, Series 2012—Issued to advance refund the principal amount of the City's Infrastructure Sales Tax Revenue Bonds, Series 2004 and to pay the costs of issuance. Interest is payable semi-annually at a rate of 2.035% with final maturity on September 1, 2024.

NOTES TO FINANCIAL STATEMENTS SEPTEMBER 30, 2019

NOTE 3 – DETAILED NOTES ON ALL FUNDS (CONTINUED)

\$4,610,000 Non-ad Valorem Refunding Revenue Note Payable, Series 2010—Issued to redeem the Series 1999 Infrastructure Sales Tax Revenue Bonds and to finance capital improvements. Interest is payable semi-annually at 3.66% with final maturity on September 1, 2024. The loan is secured by the City's covenant to budget and appropriate its share from the collection of the one-half cent discretionary infrastructure sales surtax and a pledge of those revenues.

\$3,180,000 Loan Payable Series 2005B, Florida Municipal Loan Council—Funds borrowed to refinance a portion of the Series 1999B Florida Municipal Loan Council loan payable. The City has pledged to appropriate in its annual budget sufficient non-ad valorem revenues to satisfy the required loan payments. The loan is payable over 14 years, with semi-annual interest payable at rates varying from 3.0% to 5.0%. The issuance was paid off in October 2018.

\$400,000 Loans Payable to Hillsborough County—Funds borrowed by the CRA under the Florida Brownfields Act for the redevelopment of two City properties. The loans are non-interest bearing to be repaid upon sale of the properties or at maturity in ten years. At September 30, 2019, the City had drawn a total of \$251,250 of the available funds.

The following is a summary of changes in long-term debt for the business-type activities of the City for the year ended September 30, 2019:

		Beginning						Ending		Due in
Business-type Activities	Balance		Increases		Decreases		Balance		One Year	
Notes Payable from Direct Borrowings:										
SRF Loan Fund, Wastewater Treatment Plant	\$	1,622,269	\$	-	\$	(145,035)	\$	1,477,234	\$	148,610
SRF Loan Fund, Wastewater Treatment Plant		23,417,710		-		(2,095,585)		21,322,125		2,146,803
SRF Loan Fund, Wastewater Treatment Plant		2,894,311		-		(258,157)		2,636,154		264,652
Compensated Absences		457,071		530,261		(527,388)		459,944		271,444
Other Post-Employment Benefits		659,954		106,545		(64,835)		701,664		-
Total Business-type Activities	\$	29,051,315	\$	636,806	\$	(3,091,000)	\$	26,597,121	\$	2,831,509

Business-type activities debt consists of the following notes payable from direct borrowings at year-end:

\$2,670,199 State Revolving Fund Loan—Funds borrowed to finance the expansion and upgrading of the wastewater treatment plant. The loan is secured by the net revenues of the operation of the utility system (water and wastewater systems) and certain reserves and covenants must be met. The loan will be repaid in 40 semi-annual payments including interest at 2.45% with final maturity on July 15, 2028.

\$40,000,000 State Revolving Fund Loan—Funds borrowed to finance the expansion and upgrading of the wastewater treatment plant. The loan is secured by the net revenues of the operation of the utility system (water and wastewater systems) and certain reserves and covenants must be met. The loan will be repaid in 40 semi-annual payments including interest at 2.35% to 2.51% with final maturity on July 15, 2028.

\$5,000,000 State Revolving Fund Loan—Funds borrowed to finance the expansion and upgrading of the wastewater treatment plant. The loan is secured by the net revenues of the operation of the utility system (water and wastewater systems) and certain reserves and covenants must be met. The loan will be repaid in 40 semi-annual payments including interest at 2.5% with final maturity on July 15, 2028.

NOTES TO FINANCIAL STATEMENTS SEPTEMBER 30, 2019

NOTE 3 – DETAILED NOTES ON ALL FUNDS (CONTINUED)

The annual debt service requirements to maturity for debt outstanding as of September 30, 2019, are as follows:

	Governmental Activities								Business-type Activities				
		Bor	ıds		Note	es from Dire	owings	Notes from Direct Borrowings					
Fiscal Year Ending		Principal	Interest		Principal		Interest			Principal		Interest

2024		765,000		25,583		-		-		2,820,638		344,072	
2025-2028		_								11,991,655		667,186	
	\$	3,620,000	\$	368,319	\$	251,250	\$	-	\$	25,435,513	\$	3,046,882	

Defeasance of Long-term Debt

A portion of the proceeds of the Florida Municipal Loan Council Loan Payable, Series 2005B was deposited in trust in an escrow account to provide for the future debt service on a portion of the Florida Municipal Loan Council Loan Payable, Series 1999B. As a result, that portion of the Series 1999B loan is considered defeased, and the City has removed that liability from its accounts. The Series 2005B loan had an original maturity of November 1, 2019. However, sufficient funds were deposited with the trustee on October 10, 2018, a notice of redemption was issued on October 19, 2018, and the outstanding bonds were fully redeemed on November 19, 2018. The outstanding principal balance of the 2005B loan is \$0 at September 30, 2019.

NOTES TO FINANCIAL STATEMENTS SEPTEMBER 30, 2019

NOTE 3 – DETAILED NOTES ON ALL FUNDS (CONTINUED)

H. CRA Fund

In accordance with the provisions of Florida Statutes, the City has established a Community Redevelopment Trust Fund to account for funds held by the City for and on behalf of the CRA. These funds, which arise from incremental increases in ad valorem taxes levied each year, are disbursed to the agency as provided by appropriation ordinance. The funds are to be used for community redevelopment activities as approved by the CRA and pursuant to the City's community redevelopment plan.

A summary of the available funding for future projects of the CRA Fund at year-end are as follows:

Funds Available for Projects at September 30, 2018			\$	2,256,472

NOTES TO FINANCIAL STATEMENTS SEPTEMBER 30, 2019

NOTE 4 – OTHER INFORMATION

A. Risk Management

The City has established a self-insured Workers' Compensation Fund (an Internal Service Fund) to account for and partially finance its uninsured risks of loss due to work-related injuries suffered by employees of the City. Under this program, the Workers' Compensation Fund provides coverage of up to \$300,000 in claims per employee, per incident, to an annual maximum liability of \$1,000,000 in aggregate claims. The City has purchased workers' compensation insurance for claims in excess of the coverage provided by the Fund.

All departments of the City participate in the program and make payments to the Workers' Compensation Fund based on estimates, by an outside administrator, of the amounts needed to pay prior and current year claims and to accumulate a reserve for future catastrophic losses. Unrestricted net position of the fund is \$353,516 at September 30, 2019.

The claims liability of \$479,865 reported in the Fund at year-end is based on the requirements of Governmental Accounting Standards Board Statement No. 10 which requires that a liability for claims be reported, if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. Changes in the Fund's estimated claims liability amounts for the last three fiscal years were as follows:

Current Year										
	Beginning Liability		Claims/Change in Estimate		Claim Payments		Ending			
							Liability			
2016-2017	\$	358,073	\$	252,076	\$	(283,677)	\$ 326,472			
2017-2018		326,472		440,139		(345,374)	421,237			
2018-2019		421,237		346,712		(288,084)	479,865			

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the City carries commercial insurance. There have been no significant reductions in insurance coverage from the previous year. Settlement amounts have not exceeded insurance coverage for the current year nor for the three prior years.

B. Contingent Liabilities

The City receives revenues from various federal grants. These grants are for specific purposes and are subject to review and audit by the grantor agencies. Such audits could result in disallowed expenditures under the terms of the grants. Based upon prior experience, City management believes such disallowances, if any, would be immaterial.

The City is involved in legal actions which, in the opinion of management, will not have a material effect on the financial statements of the City.

NOTES TO FINANCIAL STATEMENTS SEPTEMBER 30, 2019

NOTE 4 – OTHER INFORMATION (CONTINUED)

C. Post-employment Benefits Other Than Pensions

Plan Description and Funding Policy

The City administers a single employer defined benefit health care and life insurance plan. The plan provides lifetime healthcare and life insurance for eligible retirees and their dependents, as long as they pay the full premium, through the City's group health and life insurance plan, which covers both active and retired members. This conforms with the minimum requirement for governmental employers under Florida state law. The City's contributions to active employees is limited to a fixed dollar contribution as approved by the City Commission, and the City is not required to contribute any additional amounts to provide benefits. Funding is on a "pay as you go" basis. The plan does not issue a publicly available financial report.

Plan Membership

Membership of the plan consisted of the following at September 30, 2017, the date of the latest actuarial valuation:

Retirees and Beneficiaries	51
Inactive, Nonretired Members	-
Active Members	391
Total	442

Total OPEB Liability of the City

Effective October 1, 2017, the City implemented the provisions of GASB Statement No. 75, *Accounting and Financial Reporting for Post-employment Benefits Other Than Pensions*, which significantly changed the City's accounting for OPEB amounts. The information disclosed below is presented in accordance with this new standard.

The City's total OPEB liability was measured as of September 30, 2018, and was determined by an actuarial valuation as of September 30, 2017.

NOTES TO FINANCIAL STATEMENTS **SEPTEMBER 30, 2019**

NOTE 4 – OTHER INFORMATION (CONTINUED)

Actuarial assumptions

Discount rate

The total OPEB liability in the September 30, 2017, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

> Starting at -6.00% based on actual premium rates effective October 1, 2018, and thereafter trend based on Healthcare cost trend rate

the Getzen Model, with trend rate increasing to 6.75% effective October 1, 2019, and gradually decreasing to an

ultimate trend rate of 4.24% plus 0.43% increase for

excise tax Inflation rate 2.50%

Safety Employees: 4.0-10.0% per year Salary increase General Employees: 6% per year

Medical Coverage: 20% Participation rate Life Coverage: 50%

Mortality rates were based on the mortality tables used in the July 1, 2017, actuarial valuation of the Florida Retirement System. They are based on the results of a statewide experience study covering the period 2008 through 2013.

Discount Rate

Under GASB Statement No. 75, when there are currently no invested plan assets held in trust to finance the OPEB obligations, the discount rate equals the tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date. The rate used in the September 30, 2017, valuation was 3.83%.

Changes in the Total OPEB Liability of the City

The changes in the total OPEB liability of the City for the year ended September 30, 2019, were as follows:

	-	Total OPEB Liability	
Balances at September 30, 2018	\$	1,992,202	
Changes for the year:			
Service cost		231,382	
Interest on the total OPEB liability		75,863	
Changes of benefit terms		-	
Difference between expected and actual		-	
experience of the total OPEB liability			
Changes in assumptions and other inputs		(74,837)	
Benefit payments		(112,128)	
Net changes		120,280	
Balances at September 30, 2019	\$	2,112,482	

NOTES TO FINANCIAL STATEMENTS SEPTEMBER 30, 2019

NOTE 4 – OTHER INFORMATION (CONTINUED)

The required schedule of changes in the City's total OPEB liability and related ratios in the Required Supplementary Information immediately following the notes to the financial statements presents multi-year trend information about the total OPEB liability.

Sensitivity of the total OPEB liability to changes in the discount rate

The following presents the total OPEB liability of the City, as well as what the City's total OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.83%) or 1-percentage-point higher (4.83%) than the current discount rate:

		Current		
	1% Decrease	Discount Rate	1%	Increase
	2.83%	3.83%		4.83%
Total OPEB liability	\$ 2,352,481	\$ 2,112,482	\$	1,907,503

Sensitivity of the total OPEB liability to changes in the healthcare cost trend rate

The following presents the total OPEB liability of the City, as well as what the City's total OPEB liability would be if it were calculated using a healthcare cost trend rate that is 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rate:

		Current		
		Healthcare Cost		
	1% Decrease	Trend Rate	1% Increase	
Total OPEB liability	\$ 1,832,451	\$ 2,112,482	\$ 2,337,382	

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revisions as results are compared to past expectations and new estimates are made about the future. Actuarial calculations reflect a long-term perspective. Calculations are based on the substantive plan in effect as of September 30, 2017, and the current sharing pattern of costs between employer and inactive employees.

NOTES TO FINANCIAL STATEMENTS SEPTEMBER 30, 2019

NOTE 4 – OTHER INFORMATION (CONTINUED)

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended September 30, 2019, the City recognized OPEB expense of \$286,084. At September 30, 2019, the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources Resources		flows of	
Differences between expected and actual experience	\$	-	\$	-
Changes in assumptions and other inputs		-		126,365
Benefits Paid subsequent				
to the measurement date	1	16,177		
Total	\$ 1	16,177	\$	126,365

The deferred outflows of resources related to the total OPEB liability, totaling \$116,177 resulting from benefits paid subsequent to the measurement date, will be recognized as a reduction of the total OPEB liability in the fiscal year ended September 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ended September 30,	
2020	\$ (21,161)
2021	(21,161)
2022	(21,161)
2023	(21,161)
2024	(21,161)
Thereafter	(20,560)
Total	\$ (126,365)

D. Pension Plan Information

Defined Contribution Plan

The City provides pension benefits for all other employees through a defined contribution plan "The City of Plant City Miscellaneous Employees' Money Purchase Retirement Plan" (the "Plan") administered by the Florida League of Cities, Inc. It is a qualified plan under Section 401(a) of the Internal Revenue Code. In a defined contribution plan, benefits depend solely on amount contributed to the Plan plus investment earnings. Employees are eligible to participate from the date of employment. The City contributes an amount equal to 8% of total wages for each eligible employee. The City's contributions for each employee and earnings on investments allocated to the employee's account are fully vested after five years of continuous service. City contributions for, and investment earnings forfeited by, employees who leave employment before five years of service are used to reduce the City's current period contribution requirement. The City Commission has the authority to amend Plan provisions, including contribution rates.

The City's contributions to the Plan for the year ended September 30, 2019, totaled \$1,070,384.

NOTES TO FINANCIAL STATEMENTS SEPTEMBER 30, 2019

NOTE 4 – OTHER INFORMATION (CONTINUED)

Defined Benefit Plan

The City maintains for its safety employees a single employer defined benefit pension plan administered by the Plan's Board of Trustees which is comprised of two City employees, one police officer and one firefighter, and the fifth member is elected by the other four and is appointed by the City. The Safety Employees' Retirement Plan (the "Plan") provides retirement, disability and death benefits to all of its police and fire department employees who qualify as Plan members. The Plan has been in existence since October 1, 1960, and is a deposit administration type plan. The City Commission has the authority to amend Plan provisions, including contribution rates. The Plan does not issue a stand-alone financial report and is not included in any other retirement system or entity's financial report.

Membership

Membership in the Plan consisted of the following at October 1, 2019, the date of the latest actuarial valuation:

Inactive Plan Members or Beneficiaries currently	
receiving benefits	85
Inactive Plan Members entitled to but not yet	
receiving benefits	15
Active Plan Members	99
Total	199

Participants in the Safety Employees' Retirement Plan are required to make contributions to the plan equal to 10% of the participant's earnings. Contributions from participants in the Safety Employees' Retirement Plan amounted to \$712,398 for the fiscal year ended September 30, 2019. The State and City contribute the remaining required annual contribution, which amounted to \$616,860 and \$2,794,684, respectively, for the fiscal year ended September 30, 2019. The State of Florida makes contributions from taxes on casualty insurance premiums. The City recognized these on-behalf payments from the State as revenues and expenditures in the governmental fund financial statements.

NOTES TO FINANCIAL STATEMENTS SEPTEMBER 30, 2019

NOTE 4 – OTHER INFORMATION (CONTINUED)

The following is a summary of the funding policies, contribution methods and benefit provision of the defined benefit plan for safety employees:

Eligibility to Participate Full-time Sworn Police Officers or Certified Firefighters

Required Employer Contributions Actuarially Determined

Required Member Contributions 10% of W-2 income, plus tax-exempt and tax-deferred items of income

Funding of Administrative Costs Investment Earnings

Vesting 10 years

Normal Retirement Earlier of: (1) age 60, (2) the completion of 20 years of credited service,

regardless of age, or (3) the attainment of age 55 with 10 years

of credited service

For Members hired on or after September 26, 2016, it will be the earlier of: (1) age 52 and the completion of 25 years of credited service, or (2) the attainment of age 55 with 10 years of credited service

Early Retirement Age 50 and 10 years of credited service

Benefits

Normal Retirement 3.75% (3.00% for those hired on or after September 26, 2016) of

average final compensation times credited service

Early Retirement Accrued benefit, reduced 3% a year

The Plan also has provision for benefits in case of death or disability.

Investment Policy

The following was the Board's adopted asset allocation policy as of September 30, 2019:

	Target
Asset Class	Allocation
Domestic Equity	35.0%
International Equity	12.0%
Bonds	28.0%
High Yield Bonds	5.0%
Convertibles	8.0%
Private Real Estate	5.0%
MLPs	5.0%
Cash	2.0%
Total	100.0%

Concentrations

There were no investments (other than U.S. Government and U.S. Government-guaranteed obligations) that represent more than 5% of net position restricted for benefits.

There are no investments in, loans to, or leases with, any City official, government employer official, party related to a town official or government employer official, non-employer contributor, or organization included in the reporting entity.

NOTES TO FINANCIAL STATEMENTS SEPTEMBER 30, 2019

NOTE 4 – OTHER INFORMATION (CONTINUED)

Rate of Return – For the year ended September 30, 2019, the annual money-weighted rate of return on the City's pension plan investments, net of pension plan investment expense, was 3.11%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Deferred Retirement Option Program (DROP) – The City has a DROP for the Safety Employees' Pension Plan. A participant may join when he/she has satisfied normal retirement requirements (earlier of age 60, age 55 with the completion of ten years of credited service, or 20 years of credited service). Participation in the DROP cannot exceed 96 months. DROP benefits at the participant's election include: (a) actual net rate of investment return, or (b) 1.5% less than the actuarial assumption at the time of DROP. The DROP balance as of September 30, 2019, the date of the most recent actuarial valuation, is \$2,498,480.

Net Pension Liability of the City

Effective October 1, 2014, the City implemented the provisions of GASB Statement No. 68, Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27, as well as Statement No. 71, Pension Transition for Contributions made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68, which significantly changed the disclosures required related to the plans. The information disclosed on the following pages is presented in accordance with this new standard. The City's Plan does not issue separate financial statements.

The measurement date for the City's net pension liability is September 30, 2018. The total pension liability used to calculate the net pension liability was determined as of that date. The components of the net pension liability of the City for its September 30, 2019, financial statements, were as follows:

Total pension liability	\$ 64,166,702
Plan fiduciary net position	 (45,490,577)
City's net pension liability	\$ 18,676,125
Plan fiduciary net position as a percentage	_
of total pension liability	70.89%

In addition, in accordance with GASB Statement No. 67, information related to the plan measured as of September 30, 2019, is as follows:

Total pension liability	\$ 67,774,237
Plan fiduciary net position	 (48,360,189)
City's net pension liability	\$ 19,414,048
Plan fiduciary net position as a percentage	_
of total pension liability	71.35%

NOTES TO FINANCIAL STATEMENTS SEPTEMBER 30, 2019

NOTE 4 – OTHER INFORMATION (CONTINUED)

For the year ended September 30, 2019, the City recognized pension expense of \$3,912,201 for the Plan. At September 30, 2019, the City reported deferred outflows of resources and deferred inflows related to its pension plan from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 645,809	\$ 194,126
Changes in assumptions	742,837	-
Differences between expected and actual earnings on pension plan investments	-	390,612
City pension plan contributions subsequent		
to the measurement date	3,411,544	
Total	\$ 4,800,190	\$ 584,738

The deferred outflows of resources related to the Pension Plan, totaling \$3,411,544 resulting from City and State contributions to the plan subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the fiscal year ended September 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the plans will be recognized in pension expense as follows:

Year ended September 30,	
2020	\$ 821,792
2021	(52,943)
2022	(79,930)
2023	114,989
Total	\$ 803,908

The required schedule of changes in the City's net pension liability and related ratios immediately following the notes to the financial statements presents multi-year trend information about whether the value of plan assets is increasing or decreasing over time relative to the total pension liability.

Actuarial assumptions. The total pension liability was determined by an actuarial valuation as of October 1, 2018, with update procedures performed by the actuary to roll forward to the total pension liability measured as of September 30, 2018, using the following actuarial assumptions applied to all periods included in the measurement:

Inflation	2.70%
Salary Increases	4.00-10.00%
Discount Rate	7.50%
Investment Rate of Return	7.50%

The actuarial assumptions used in the October 1, 2018, valuation were based on the results of an actuarial experience study dated May 5, 2014.

NOTES TO FINANCIAL STATEMENTS SEPTEMBER 30, 2019

NOTE 4 – OTHER INFORMATION (CONTINUED)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of September 30, 2019, are summarized in the following table:

	Long-Term Expected
Asset Class	Real Rate of Return
Domestic Equity	7.3%
International Equity	2.7%
Bonds	3.6%
High Yield Bonds	5.7%
Convertibles	6.3%
Private Real Estate	4.9%
MLPs	8.1%
Cash	0.6%

Discount Rate: The discount rate used to measure the total pension liability for the Safety Employees' Plan was 7.50%.

The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that sponsor contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plans' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

NOTES TO FINANCIAL STATEMENTS SEPTEMBER 30, 2019

NOTE 4 – OTHER INFORMATION (CONTINUED)

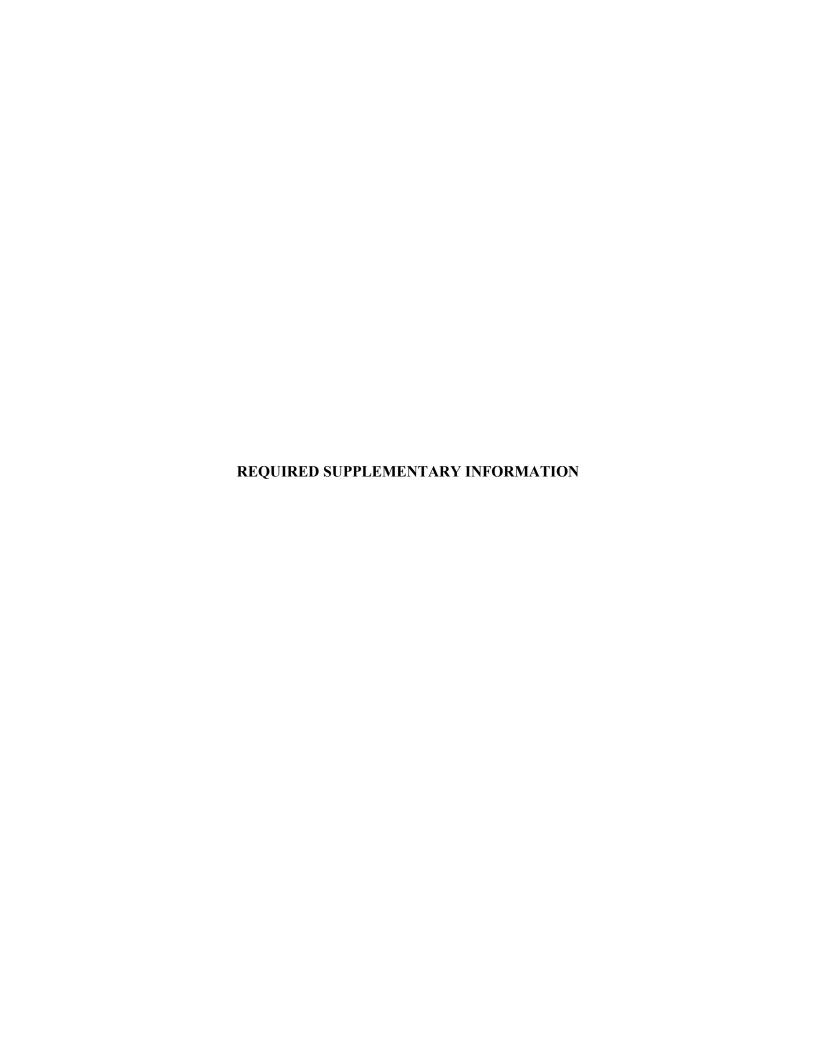

Changes in the Net Pension Liability of the City. The changes in the components of the net pension liability of the City for the fiscal year ended September 30, 2019, were as follows:

	Total Pension	Plan Fiduciary	nry Net Pension		
	Liability (a)	Net Position (b)	Liability (a-b)		
Balances at September 30, 2018	\$ 59,680,312	\$ 41,050,749	\$ 18,629,563		
Changes for the year:

Contributions - buyback	67,174	-	67,174		
Net investment income	-	3,252,675	(3,252,675)		
Benefit payments, including refunds of employee contributions	(2,575,102)	(2,575,102)	-		
Administrative expenses	84,153	(156,357)	240,510		
Net change	4,486,390	4,439,828	46,562		
Balances at September 30, 2019	\$ 64,166,702	\$ 45,490,577	\$ 18,676,125		

Sensitivity of the net pension liability to changes in the discount rate. The following presents the net pension liabilities of the City, calculated using the discount rates noted above, as well as what the City's net pension liabilities would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	Current						
	1% Decrease	Discount Rate	1% Increase				
	6.50%	7.50%	8.50%				
City's Net Pension Liability - September 30, 2018	\$ 26,341,831	\$ 18,676,125	\$ 12,231,786				
City's Net Pension Liability - September 30, 2019	\$ 27,381,201	\$ 19,414,048	\$ 12,806,169				

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revision as results are compared to past expectations and new estimates are made about the future. Actuarial calculations reflect a long-term perspective. Calculations are based on the substantive plan in effect as of September 30, 2018, and the current sharing pattern of costs between employer and employee.

CITY OF PLANT CITY, FLORIDA NOTES TO REQUIRED SUPPLEMENTARY INFORMATION BUDGET COMPARISONS

SEPTEMBER 30, 2019

On or before September 1 each year, the City Manager submits to the City Commission a proposed operating budget for the fiscal year commencing October 1. A public hearing is conducted at City Hall to obtain taxpayer comments. Prior to October 1, the budget is legally enacted through passage of an ordinance.

Annual budgets are adopted for the General Fund, Special Revenue Funds and Debt Service Fund in accordance with generally accepted accounting principles. All annual appropriations lapse at the end of each fiscal year for these funds. Project length budgets are adopted for Capital Project Funds. Appropriations in these funds remain open and carry over to succeeding years until the related expenditures are made, modified or cancelled.

Budgetary control is maintained at the department level. Department heads are permitted to transfer appropriations between line items within their department, with the approval of the City Manager. All other types of budget transfers or amendments must be approved by the City Commission. Expenditures may not legally exceed budgeted appropriations at the department level.

Contributions as a percentage of covered payroll		47.13%		42.69%		42.31%		44.35%		48.83%		47.89%

Notes to the Schedule:

Valuation Date October 1, 2017

Actuarially determined contribution rates are calculated as of October 1, two years prior to the end of the fiscal year in which contributions are reported.

Methods and assumptions used to determine contribution rates:

Funding method: Entry age normal actuarial cost method Amortization method: Level percentage of pay, closed Remaining amortization period: 30 years (as of 10/1/2017)

Mortality:

RP-2000 Table with no projection - disabled lives set forward 5 years. Based on a study of over 650 public safety funds, this

table reflects a 10% margin for future mortality improvements.

Interest Rate: 7.50% per year, compounded annually, net of investment-related expenses.

Retirement age:

The earlier of age 60, age 55 with the completion of 10 years of credited service or the completion of 20 years of credited service.

Members who are eligible to retire on the valuation date are assumed to work one additional year.

Early retirement: Commencing with the earliest early retirement age (50), members are assumed to retire with an immediate subsidized benefit at

the rate of 5% per year.

2.7% per year.

Disability and Termination Rates:

See table below. It is assumed that 75% of disablements and active Member deaths are service related.

Salary increases:

6.0% per year up to the assumed retirement age. In addition, the projected salary in the year of retirement is increased 20% to

account for non-regular compensation.

Payroll growth:

Asset valuation method:

Each year, the actuarial value of assets is brought forward using the historical geometric four-year average market value return.

Over time, this may result in a deminis bias that is above or below the market value of assets. 0/ D :

Termination and Disability Rate Table:		% Becoming Disabled During	% Terminating During the
	Age	the Year	Year
	20	0.051%	12.4%
	30	0.058%	10.5%
	40	0.121%	5.7%
	50	0.429%	1.5%

The schedule will present 10 years of information once it is accumulated.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Honorable Mayor, Members of the City Commission and City Clerk City of Plant City, Florida, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Plant City, Florida (the "City"), as of and for the year ended September 30, 2019, and the related notes to the financial statements, which collectively comprise the City's basic financial statements and have issued our report thereon dated February 28, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Mauldin & Jerkins, LLC

Bradenton, Florida February 28, 2020

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Honorable Mayor, Members of the City Commission and City Clerk City of Plant City, Florida, Florida

Report on Compliance for Each Major Federal Program

We have audited the City of Plant City, Florida's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the City's major federal programs for the year ended September 30, 2019. The City's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the City's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City's compliance.

Opinion on Each Major Federal Program

In our opinion, the City of Plant City, Florida complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended September 30, 2019.

Report on Internal Control over Compliance

Management of the City, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

CITY OF PLANT CITY, FLORIDA NOTES TO SCHEDULE OF EXPENDITURE OF FEDERAL AWARDS

FOR THE YEAR ENDED SEPTEMBER 30, 2019

NOTE 1. BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards includes the federal grant activity of the City of Plant City, Florida (the "City"), and is presented on the modified accrual basis of accounting.

The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Therefore, some amounts presented in the schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

NOTE 2. DE MINIMIS INDIRECT COST RATE

The City chose not to use the ten percent de minimis cost rate for the year ended September 30, 2019.

NOTE 3. NON-CASH AWARDS

The City did not receive non-cash federal awards during the year ended September 30, 2019.

NOTE 4. CONTINGENCIES

Grant monies received and disbursed by the City are for specific purposes and are subject to review by the grantor agencies. Such audits may result in disallowed expenditures under the terms of the grants. Based upon prior experience, the City does not believe that such disallowances, if any, would be material.

NOTE 5. LOANS OUTSTANDING

The City had \$25,435,513 in State Revolving Fund loans outstanding at September 30, 2019.

CITY OF PLANT CITY, FLORIDA SCHEDULE OF FINDINGS AND QUESTIONED COSTS

FOR THE YEAR ENDED SEPTEMBER 30, 2019

SECTION III FEDERAL PROGRAMS FINDINGS AND QUESTIONED COSTS

None noted.

SECTION IV SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

2018-001 Utility Receivables

Condition: During testing of the City's utility accounts receivable, we noted the need to increase unbilled utility accounts receivable balances as of September 30, 2019, by \$546,374 (\$302,461 in the Water and Sewer Fund; \$165,626 in the Solid Waste Fund; and 78,286 in the Stormwater Fund). This entry was made after discussions with management, which revealed the City changed its recognition of utility revenue balances in order for the general ledger to provide better information on the different types of utility services provided. This change was not reflected in the year-end unbilled adjustment prepared by management.

Status: Resolved.

INDEPENDENT AUDITOR'S MANAGEMENT LETTER

To the Honorable Mayor,
Members of the City Commission and City Clerk
City of Plant City, Florida

Report on the Financial Statements

We have audited the financial statements of the City of Plant City, Florida (the "City"), as of and for the fiscal year ended September 30, 2019, and have issued our report thereon dated February 28, 2020.

Auditor's Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance); and Chapter 10.550, Rules of the Auditor General

Other Reporting Requirements

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards;* Independent Auditor's Report on Compliance for Each Major Program and on Internal Control over Compliance Required by the Uniform Guidance; Schedule of Findings and Questioned Costs; and Independent Accountant's Report on an examination conducted in accordance with *AICPA Professional Standards*, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, *Rules of the Auditor General*. Disclosures in those reports and schedule, which are dated February 28, 2020, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.554(1)(i)1., *Rules of the Auditor General*, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. Prior year audit findings have been properly cleared by the City.

Official Title and Legal Authority

Section 10.554(1)(i)4., *Rules of the Auditor General*, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. The City of Plant City, Florida was incorporated in 1927. Additional information on the City's creation and the City's component units are disclosed within the City's footnotes.

Financial Condition and Management

Section 10.554(1)(i)5.a. and 10.556(7), *Rules of the Auditor General*, requires us to apply appropriate procedures and communicate the results of our determination as to whether or not the City has met one or more of the conditions described in Section 218.503(1), *Florida Statutes*, and to identify the specific condition(s) met. In connection with our audit, we determined that the City did not meet any of the conditions described in Section 218.503(1), *Florida Statutes*.

Pursuant to Sections 10.554(1)(i)5.b. and 10.556(8), *Rules of the Auditor General*, we applied financial condition assessment procedures for the City. It is management's responsibility to monitor the City's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.

Section 10.554(1)(i)2., *Rules of the Auditor General*, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Special District Component Units

Section 10.554(1)(i)5.d, *Rules of the Auditor General*, requires, if appropriate, that we communicate the failure of a special district that is a component unit of a county, municipality, or special district, to provide the financial information necessary for proper reporting of the component unit, within the audited financial statements of the county, municipality, or special district in accordance with Section 218.39(3)(b), *Florida Statutes*. In connection with our audit, we determined that all special district component units provided the necessary information for proper reporting in accordance with Section 218.39(3)(b), *Florida Statutes*.

Additional Matters

Section 10.554(1)(i)3., *Rules of the Auditor General*, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with our audit, we did not have any such findings.

Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, federal and other granting agencies, the Mayor and Members of the City Commission, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT ACCOUNTANT'S REPORT

To the Honorable Mayor, Members of the City Commission and City Clerk City of Plant City, Florida

We have examined the City of Plant City, Florida's (the "City") compliance with Section 218.415, *Florida Statutes*, regarding the investment of public funds during the year ended September 30, 2019. Management is responsible for the City's compliance with those requirements. Our responsibility is to express an opinion on the City's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the City complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether the City complied with the specified requirements. The nature, timing and extent of the procedures selected depend on our judgement, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Our examination does not provide a legal determination on the City's compliance with specified requirements.

In our opinion, the City complied, in all material respects, with the aforementioned requirements for the year ended September 30, 2019.

This report is intended solely for the information and use of the City and the Auditor General, State of Florida, and is not intended to be and should not be used by anyone other than these specified parties.
