April 16, 2021

To the Honorable Mayor and Members of the City Commission and Citizens of the City of Lake Wales, Florida

The Comprehensive Annual Financial Report (CAFR) of the City of Lake Wales, for the fiscal year ended September 30, 2021, is hereby submitted pursuant to the City Charter, Florida Statutes, and Chapter 10.550, Rules of the Auditor General of the State of Florida.

Management assumes full responsibility for the reliability and completeness of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of material misstatements.

Carr, Riggs & Ingram, Certified Public Accountants, have issued unmodified opinions on the governmental activities, business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Lake Wales for the year ended September 30, 2021. The Report of Independent Auditor is located at the front of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the Report of Independent Auditor and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

Profile of the Government

The City of Lake Wales, Florida was granted its municipal charter in 1921. The City is located in the geographical center of the Florida peninsula, and is accessible by U.S. Hwy. 27 (north/south) and State Road 60 (east/west). Interstate 4 crosses the state 25 miles north of Lake Wales, and both the Tampa and Orlando International Airports are approximately one hour's drive away. It currently occupies 20.20 square miles and serves a population of 16,386.

Because of the region's rich soil and warm climate, citrus has been a major contributor to the local economy since the earliest days of Lake Wales. The stated goal of the City Commission and the city administration is to encourage and facilitate quality growth and economic development without compromising the vintage charm that is so important to the residents of the community. The unhurried environment combined with its location has made the City an ideal choice for living the affordable Florida lifestyle. The City of Lake Wales operates under a commission/manager form of government. A Mayor elected city-wide and four City Commissioners elected by district serve two-year terms. The City is governed by the City Charter, City Ordinances and state laws and regulations. The Commission is responsible for the establishment and adoption of City policy and appointing a City Manager and the City Attorney. The City Manager serves as the Chief Executive Officer of the City and is responsible for the execution of City policy and the oversight of all staff and day-to-day operations of the City.

The City of Lake Wales provides a full range of services including law enforcement and fire/rescue protection, building and code enforcement, water, wastewater and storm water management services, the construction and maintenance of road and street facilities, planning and development services, recreational and cultural activities, solid waste management (via contract), and general administrative services. The financial statements of this report include the funds of all the activities under the jurisdiction of the City Commission. The financial reporting entity includes all the funds of the primary government (i.e., the City of Lake Wales, Florida as legally defined), as well as all of its component units. Component units are other governmental units over which the City (the City Commission, acting as a group) can exercise influence and/or may be obligated to provide financial subsidy. The discretely presented component unit (Lake Wales Airport Authority) is presented as a separate column in the government-wide statements. The blended component unit (Lake Wales Community Redevelopment Agency) is presented as part of the primary government activities.

The annual budget serves as the foundation for the City's financial planning and control. All departments of the City are required to submit requests to the City Manager. The City Manager uses these requests as the starting point for developing the proposed budget. The City Manager then presents the proposed budget to the City Commission for review. The City Commission is required to hold public hearings on the proposed budget and to adopt a final budget no later than September 30th; the close of the City of Lake Wales's fiscal year. The appropriated budget is prepared by fund and department. The level of budgetary control (i.e., the level at which expenditures cannot legally exceed the appropriated amount) is the departmental level for the general fund, and the fund level for all other funds. Budget-to-actual comparisons are provided in this report for each major governmental fund for which an appropriated annual budget has been adopted.

Local Economy

Each fiscal year provides the City an opportunity to identify, address and resolve issues facing our community and citizens. While residents enjoy the quiet suburban lifestyle of this community and public sentiment is to maintain and preserve its residential character, the City's large residential make-up presents a significant challenge for the City government, with respect to all aspects of service delivery and diversity in the upcoming years.

The City's major challenges are to provide the infrastructure and services needed to maintain the quality of life, while continuing to realize growth within our community. History has proven that significant emphasis on support systems such as transportation, potable (drinking) water, wastewater, and storm water management must be balanced fully with the quality of life amenities which include parks, recreation, sports, entertainment, and cultural opportunities to maintain the natural beauty and attractiveness of a community. The following discussion is intended to demonstrate the growth and vitality of the City and to address the challenges and concerns of the near future.

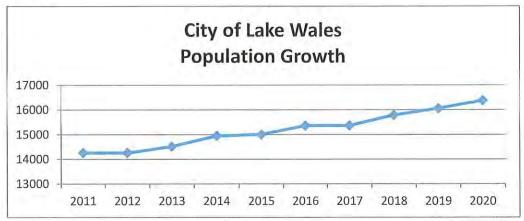

The pandemic-induced economic contraction, caused by COVID-19, has been felt globally. The shutdown of most businesses and end of normal social interactions outside the home became the primary defense in the fight against the spread of Coronavirus. Because a vaccine is expected to be widely deployed by Fiscal Year 2021-22, a recovery from the pandemic is expected to begin. The federal government is providing funding to both state and local governments to assist with expenditures incurred due to the COVID-19 public health emergency. Prior to the pandemic, there had been major developments, in Fiscal Year 2018-19, that continue to have significant impact on the City's future economic development and population growth. The opening of the CSX Inter-Modal facility just west of the City on State Route 60 is generating an increase in transportation and distribution activity in the area. The expansion of the main runway at the municipally owned Lake Wales airport and the City's assumption of responsibility for its operations has already led to an increase in activity there, with future growth of ancillary businesses expected. Significant residential growth is occurring in the northern end of the City as one new multifamily development is currently under construction, and another multi-family and one single-family development have applied for initial development permits, totaling over two thousand new housing units expected in the next

few years. This residential expansion should also lead to new commercial development in this area. A new mixeduse development on the largest undeveloped parcel within the City (1800 acres) has begun the process of obtaining the necessary approvals for a signature project that will add additional residential and commercial properties. Finally, the city continues to expand its utility system service area leading to future annexation and tax base expansion and supporting new economic development.

In the past few years the City also has invested in revitalizing its Downtown by entering into a partnership with Lake Wales Main Street and undertaking an update of its Community Redevelopment plan. It is expected that public infrastructure investment by the City and CRA will lead to significant private sector investment and additional redevelopment in the traditional downtown area, as well as additional projects throughout the CRA area. The increased emphasis on Downtown has already led to the renovation of existing structures and the opening of additional businesses.

Growth

The population in Lake Wales has increased approximately 57.56% since the U. S. Census of 2000 (population of 10,194). Over a ten-year period from 2011 to 2020, the City has experienced an average annual population growth rate of 1.49%. The City currently has several large residential developments which are expected to begin construction within the next eighteen months. Significant population growth is expected from these new development areas.

Year	Population*	% Increase
2011	14,261	-
2012	14,261	0.00%
2013	14,522	1.83%
2014	14,916	2.71%
2015	15,011	0.64%
2016	15,362	2.34%
2017	15,365	0.02%
2018	15,791	2.77%
2019	16,062	1.72%
2020	16,386	2.02%

^{*} Source: Bureau of Business and Economic Research, University of Florida

The City's economic outlook is largely impacted by the state and regional economy with a great deal of reliance placed on surrounding communities for work, shopping and entertainment. Area employment consists predominately of service-related activities, retail trade, manufacturing, government and construction. Because of the pandemic-induced economic contraction unemployment has significantly increase. The Lakeland/Winter Haven Metro Area and the State of Florida unemployment rate as of September 2019 were reported at 7.9% and 7.2%, respectively, while the national unemployment rate was 7.9%.

In 2006, Florida voters adopted a constitutional amendment that requires the State of Florida to development a Long-Range Financial Outlook, setting out recommended fiscal strategies for the state and its departments in order to assist the legislature in making budget decisions. The Legislative Budget Commission is required to issue the Outlook by September 15th of each year. The 2020 Outlook provided the following economic projections:

The key measures of employment are typically job growth and the unemployment rate. While Florida led the nation on the good-side of these measures during the boom, the state was worse than the national averages on both measures from February 2008 until July 2010 when Florida lost jobs at a slower rate than the nation as a whole. It wasn't until August 2010 that Florida again experienced its first over-the-year increase in jobs (until then, this was last seen in June 2007). The state finally passed its prior employment peak in May 2015 and had moved one million jobs beyond that level in February 2020, immediately prior to the pandemic-influenced numbers.

With the onset of Coronavirus outbreak in March, the job market in Florida began an unprecedented contraction when a large part of the state's economy began to shut down, sending workers home to slow the spread of Coronavirus. Employment dropped by nearly 1.2 million jobs in March and April, a decline of 13.0 percent over the two months. Protected by the federal stimulus programs and a partial recovery in consumer demand, some—but not all—of these jobs have returned. While total non-farm payroll employment expanded over the entire period covering May, June and July, the gains in those three months offset less than one-half (48.6 percent) of the jobs lost in March and April. Of the remaining jobs, some may not be restored until the leisure and hospitality industry returns to some semblance of normalcy, and others may not return at all due to the sped-up restructuring towards a more digitized economy

The state's unemployment rate dropped to 2.8 percent in February, which, together with the January 2020 and November 2019 rates, became the lowest unemployment rate since 1976. To put this in context, the rate had been as low as 3.1 percent in March 2006 during the height of the housing boom, before topping out after the collapse of the housing market and the commencement of the Great Recession at 11.3 percent (January 2010).

With the onset of the Coronavirus outbreak, the unemployment rate spiked to 13.8 percent in April 2020, reaching a new series high. The change was breathtaking. Over the space of two months, the unemployment rate shifted from a near 50-year low to a near 50-year high. By July, the state's actual unemployment rate had dropped back to 11.3 percent, matching the high for the Great Recession and markedly higher than the 10.2 percent for the nation as a whole. The State expects the unemployment rate to peak in early Fiscal Year 2020-21 and then gradually drop to 7.8 percent by the last quarter of the state's fiscal year. Thereafter, the rate continues its slow downward drift until it gets close to 4 percent, near the full-employment level, by Fiscal Year 2029-30.

Florida's tourism-sensitive economy is particularly vulnerable to the longer-term effects of the pandemic. Previous economic studies of disease outbreaks have shown that it can take as much as twelve to fifteen months after the outbreak ends for tourism to return to pre-disease levels. The magnitude of this event is greater.

Yet, relative to other hard-hit industries, the housing market has shown some resiliency in the face of the pandemic. Throughout the worst of the crisis, this economic sector slogged forward, although slowing markedly from the stronger growth over the past few years. For the first quarter of the 2020 calendar year, single-family starts were +16.8 percent higher than the same period last year, while multi-family starts were -0.2 percent lower. In spite of the significant losses in both categories during the second quarter, total private housing starts are projected to show overall growth of +10.8 percent for Fiscal Year 2019-20. For Fiscal Year 2020-21, the Economic Estimating Conference projects that residential construction activity will slow, causing an overall decline of -6.9 percent for the year. Thereafter, activity is subdued, remaining in slightly negative territory, but matching the previous forecast levels. Even so, at the end of the ten-year forecast period, total private housing starts are still well below the peak Fiscal Year 2004-05 level of 272,222 units. Weighed down by the protracted recovery in the housing market after the collapse of the housing boom in the 2006-07 and 2007-08 fiscal years, total construction expenditures finally surpassed its prior peak from Fiscal Year 2005-06 in Fiscal Year 2019-20. Now buffeted anew, the category is expected to decline -8.8 percent in Fiscal Year 2020-21, but this time it is held back by losses in private non-residential construction expenditures caused by the pandemic-induced economic contraction. The peak level from Fiscal Year 2019-20 for total construction expenditures is not reached again until Fiscal Year 2024-25.

Long-term Financial Planning

The City Commission and the City Manager continue to develop a vision for the City's future. The plan looks both to respond to the needs of the community, while at the same time meeting these needs in a cost-effective and efficient manner. The following items are planned for the next fiscal year and beyond:

- Implementation of the updated CRA plan to enhance redevelopment in the Downtown and other CRA areas of the City. A community-based planning effort led by nationally recognized planning consultant Dover Kohl is part of this activity
- Continued expansion of the City's utilities to attract new development both residential and commercial and support annexation of additional tax base
- Expansion of recreational activities and facilities through partnerships with private sector organizations to minimize costs and expand quality of life options for residents
- Continue to invest in technology to increase municipal productivity and control operations and maintenance costs

Awards and Acknowledgements

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Lakes Wales for its comprehensive annual financial report (CAFR) for the fiscal year ending September 30, 2020. This was the eleventh year the City received this prestigious award. In order to be awarded a Certificate of Achievement, the City has to publish an easily readable and efficiently organized CAFR that satisfied both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR meets the Certificate of Achievement Program's requirements and staff is submitting it to the GFOA to determine its eligibility for a certificate.

The preparation of this report would not have been possible without the efficient and dedicated services of the entire staff of the finance department. We wish to express our appreciation to all members of the department who assisted and contributed to the preparation of this report. Credit also must be given to the mayor and commission for their unfailing support for maintaining the highest standards of professionalism in the management of the City of Lake Wales's finances.

Respectfully submitted,

James Slaton, City Manager Dorothy Abbott, CPA Finance Director

INDEPENDENT AUDITORS' REPORT

Honorable Mayor, Members of the City Commission, and City Management City of Lake Wales, Florida

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Lake Wales, Florida (the "City"), as of and for the year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Lake Wales, Florida, as of September 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards and state financial assistance and related notes is presented for purposes of additional analysis as required by Title 2 *U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* and Chapter 10.550, *Rules of the Auditor General*, and is also not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements, schedules and the schedule of expenditures of federal awards and state financial assistance are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, schedules and schedule of expenditure of federal awards and state financial assistance are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated April 16, 2021, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Management's Discussion and Analysis September 30, 2020

As management of the City of Lake Wales (the "City"), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended September 30, 2020. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found by referencing the table of contents of this report.

Financial Highlights

- The assets and deferred outflows of resources of the City exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$60,465,864 (*net position*). As of September 30, 2019, the City reports an unrestricted net position of \$2,812,070, as compared to \$2,920,779 in the prior year.
- The City's total net position increased by \$3,635,409. The governmental activities and business-type activities increased their net position by 5% and 7%, respectively.
- As of the close of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$9,269,067; an increase of \$1,100,794 for the year. Approximately 39% of total fund balance is *available for spending* at the government's discretion (unassigned) compared to 40% in the prior year.

Overview of the Financial Statements

The discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements are comprised of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-wide Financial Statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the City's (1) assets and deferred outflows, (2) liabilities, and deferred inflows with the residual measure between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of its costs through user fees and charges (*business-type activities*).

Management's Discussion and Analysis September 30, 2020

The governmental activities of the City include general government, public safety, physical environment, transportation, economic environment, human services, and culture and recreation. The business-type activities of the City include the water and sewer utility, stormwater utility and the Lake Wales Memorial Garden (LWMG) cemetery.

The government-wide financial statements include not only the City of Lake Wales itself (known as the primary government), but also a legally separate airport authority for which the City of Lake Wales is financially accountable. Financial information for this component unit is reported separately from the financial information presented for the primary government itself. The Lakes Wales Airport Authority has been included within the financial statements as a discretely presented component unit.

The City's government-wide financial statements can be found by referencing the table of contents of this report.

Fund Financial Statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the governmental-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the governmental-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City maintains nine individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances. Two of these funds are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report. The basic governmental fund financial statements can be found by referencing the table of contents of this report.

Proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City maintains three enterprise funds to account for its water and sewer distribution operation, its stormwater management system and for cemetery management. The Lake Wales Airport Authority, a discretely presented component unit, uses an enterprise fund to account for the airport's operation.

Management's Discussion and Analysis September 30, 2020

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The public utility fund and the cemetery fund are considered a major fund of the City of Lake Wales. The basic proprietary fund financial statements can be found by referencing the table of contents of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary Funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The basic fiduciary fund financial statements can be found by referencing the table of contents of this report.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found by referencing the table of contents of this report.

Other Information. In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning the changes in net position and contributions to the City's pension and other postemployment benefit plans and budgetary schedules for the general and major special revenue funds. Required supplementary can be found by referencing the table of contents of this report.

The combining statements referred to earlier in connection with nonmajor governmental funds are presented immediately following the required supplementary information on pensions. Combining and individual fund statements and schedules can be found by referencing the table of contents of this report.

Lake Wales Airport Authority financial statements can be found by referencing the table of contents of this report.

Management's Discussion and Analysis September 30, 2020

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$60,465,864 at the close of the most recent fiscal year.

The following schedule is a summary of the Statement of Net Position found on page 19 of this report.

City of Lake Wales Net Position

Unrestricted	(934,505)	(1,412,870)	3,746,575	4,333,649	2,812,070	2,920,779
Total net position	\$ 20,539,953	\$ 19,488,620	\$ 39,925,911	\$ 37,341,835	\$ 60,465,864	\$ 56,830,455

By far the largest portion of the City's net position, \$48,491,401 (80%), reflects its investment in capital assets (e.g., land, buildings, improvements, infrastructure and equipment), less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens. Consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should still be noted that the resources needed to repay this debt must be provided from other sources since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City's net position, \$9,162,393 (15%), represents resources that are subject to external restrictions on how they may be used.

At the end of the current fiscal year, the City reported a negative unrestricted net position in the governmental activities of \$934,505 and positive balances in all other categories of net position for both governmental activities and business-type activities.

Management's Discussion and Analysis September 30, 2020

Management's Discussion and Analysis September 30, 2020

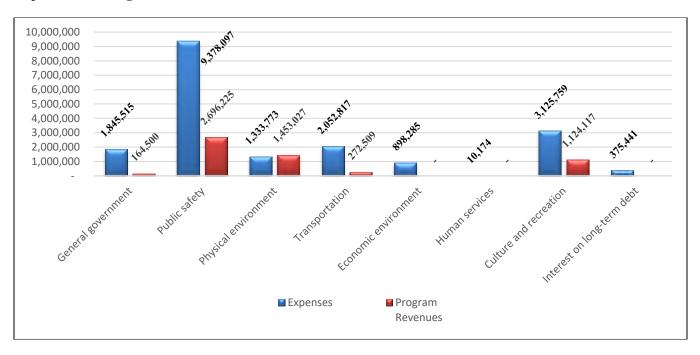

Governmental activities: Governmental activities increased the City's net position by \$1,051,333, as compared to an increase of \$515,872 in the prior year. Key elements of changes in results of activities are as follows:

- Charges for services increased by \$77,680 (2%) from 2019. This change is mainly due to decreased building permit fee revenue (\$283,000), which was offset by increases in public safety charges (\$162,000), library charges (\$38,623) and increased garbage collection fees (\$81,000).
- Operating grants and contributions increased by \$186,188 (15%) from 2019, mainly due to Coronavirus Relief Fund grant revenue (\$120,000) reported in 2020.
- Capital grants and contributions decreased by \$1,888 (10%) from 2019.
- General revenues increased by \$965,081 (8%) from 2019 mainly due to increased property taxes (\$403,000), increased public service tax revenue (\$155,000), increased miscellaneous revenue (\$85,000) and increased gain on the sale of property (\$408,000). These increases were partially offset by declines in fuel taxes (\$38,000), shared revenue (\$32,000).
- General government expenses increased in 2020 by \$201,838 (12%) mainly due to general cost increases as well as increases in personnel costs of \$172,000 (12%) which includes wages, payroll taxes and pension expenses.
- Public safety expenses increased in 2019 by \$292,256 (3%) mainly due to general cost increases and increased personnel costs of \$358,000 (6%) which includes wages, payroll taxes and pension expenses.
- Transportation expenses in 2020 increased by \$32,859 (2%) mainly due to a net increase in a diverse variety of expense accounts.
- Culture and Recreation expenses decreased in 2020 by \$60,252 (2%) mainly due decreased personnel costs of \$35,000 (14%) which includes wages, payroll taxes and pension expenses.
- Physical environment expenses in 2020 increased by \$82,555 (7%) mainly to an overall net increase in a diverse variety of expense accounts.
- Economic environment expenses in 2020 increased by \$225,856 (34%) mainly due to increased project expenditures having to do with development incentives (\$50,000) and downtown improvements plan (\$161,000)

Management's Discussion and Analysis September 30, 2020

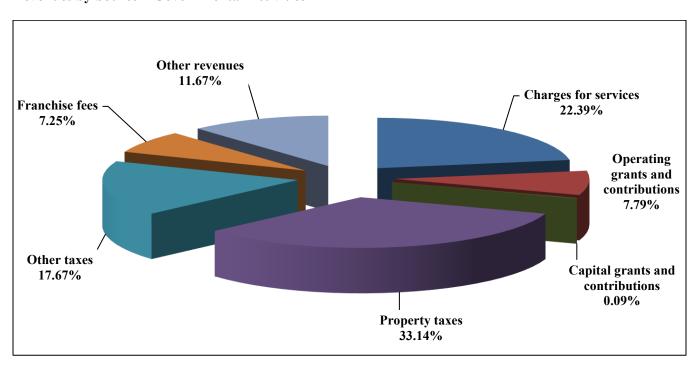

The following chart compares expenses with program revenues for the City's governmental activities:

Expenses and Program Revenues – Governmental Activities

The following graph shows the composition of revenues for the City's governmental activities.

Revenues by Source – Governmental Activities

Management's Discussion and Analysis September 30, 2020

Business-type Activities

Business-type activities increased the City's net position by \$2,584,076 which is \$16,018 (1%) better than the prior year increase in net position. Key elements of this change are as follows:

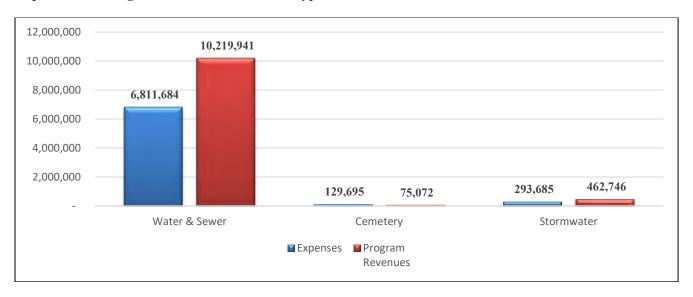

- Charges for services increased in 2020 by \$1,095,108 (12%). This change is mainly due to an increase in water and sewer rates for FY 2020. Following a 'Water and Sewer Revenue Sufficiency Review', the City Commission adopted a new rate structure, which began in FY 2016.
- Capital grants and contributions decreased by \$406,124 (33%) due to decreased impact fee revenue (\$197,000) and decreased grants (\$208,000).
- Water and sewer expenses increased \$554,601 (9%) mainly due to general cost increases and increased personnel costs of \$120,000 (7%) which includes wages, payroll taxes and pension expenses.
- Lake Wales Memorial Gardens cemetery expenses increased by \$4,992 (4%) and stormwater expenses increased by \$45,135 (18%).
- During 2020, \$1,205,328 was transferred out to the governmental activities, as compared to \$1,115,300 being transferred out in the prior year. This is an increase of \$90,028 (8%).

Management's Discussion and Analysis September 30, 2020

Financial Analysis of the Government's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the City's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$9,269,067, an increase of \$1,100,794 for the year. Approximately 39% of this amount (\$5,687,546) constitutes unassigned fund balance, which is available for spending at the City's discretion. The remainder of the fund balance (\$5,687,546) is classified as non-spendable (\$553,244), restricted (\$4,658,555) and assigned (\$475,747).

The general fund is the chief operating fund for the City. At the end of the current fiscal year, unassigned fund balance of the general fund was \$3,581,521 while total fund balance reached \$4,585,360. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. In 2011, the City established a reserve policy for the general fund equal to 15% - 20% of total operating costs. As of September 30, 2020, the general fund's unassigned fund balance represents 23% of total general fund expenditures, while total fund balance represents 29% of the same amount.

The minimum fund balance policy has been established by the City Commission to providing funding necessary for sufficient working capital at the beginning of the fiscal year until the time the City begins receiving ad valorem taxes, to advance funds necessary to pay for construction of grant-funded projects until reimbursement is received from federal or state agencies, to advance financial resources necessary for responding to emergencies that will be reimbursed by insurance proceeds or grants from FEMA or other federal or state agencies, and to mitigate current and future revenue shortfalls, unanticipated expenditures, and to ensure stable taxes rates.

Fund balance of the City's general fund increased by \$304,050 during the current fiscal year. Expenditures (\$15,683,116) exceeded revenue (\$13,333,773) which was offset by a net transfer (\$1,416,650), debt proceeds (\$1,218,365) and proceeds from capital asset sales (\$18,378).

Fund balance of the City's community redevelopment fund increased by \$644,476 during the current fiscal year. Revenue sources within the CRA (\$2,053,651) exceeded debt service requirements (\$697,500) and operating costs (\$711,675).

Proprietary funds. The City's proprietary funds provide essentially the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net position of the Public Utilities Fund at the end of the year amounted to \$3,544,342, a decrease of \$824,974 or 19%. As of September 30, 2020, the utility system had \$3,831,804 restricted for capital projects and \$672,034 restricted for debt service. Other factors concerning the finances of this fund have already been addressed in the discussion of the City's business-type activities.

Management's Discussion and Analysis September 30, 2020

General Fund Budgetary Highlights

During the year there were no changes to the general fund expenditure appropriations between the original and final amended budget. This increase was mainly due to the following items:

During the year there was a net \$178,700 increase in general fund revenues between the original and final amended budget. These increases/decreases were mainly due to the following item:

- An increase in intergovernmental revenue in the amount of \$119,700 due mainly to more than anticipated grant revenue during the year.
- An increase in miscellaneous revenue in the amount of \$59,000.

Capital Asset and Debt Administration

Capital Assets. The City's investment in capital assets for its governmental and business-type activities as of September 30, 2020 is \$75,588,778 (net of accumulated depreciation). This investment in capital assets includes land, construction-in-progress, buildings and improvements, machinery and equipment, and infrastructure (roads, right-of-ways, stormwater and utility). The net increase (additions less retirements and depreciation) in the City's investment in capital assets was \$3,389,333, an increase of 5%. This consisted of a 1% decrease for governmental activities and a 8% increase for business-type activities.

Information on the City's capital assets is summarized in the following table.

Capital Asset Activity, net of accumulated depreciation as of September 30,

Additional information on the City's capital assets can be found in note C on pages 49-50 of this report.

Management's Discussion and Analysis September 30, 2020

Capital asset additions during the current fiscal year included the following:

Governmental Activities:

- Carpet cleaner \$1,444
- Police canine \$9,500
- (7) Police vehicles \$230,221
- Automatic license plate reader system \$14,000
- Air conditioning unit \$3,000
- Air conditioning unit \$4,800
- Air conditioning unit \$5,400
- Roof replacement Fire Station \$88,575
- (3) 2020 Ford F-150 \$102,604
- Bleachers \$3,222
- Bleacher awning \$13,652
- John Deere mower and accessories \$40,512
- Road resurfacing \$233,120
- Intelligent locker system library \$25,950
- Library books \$52,365
- Storage building \$6,468
- Computers \$50,476
- JPA Community Center fence \$4,876
- YMCA building purchase \$590,195
- CWIP YMCA rehabilitation costs \$92,100
- CWIP Freight station rehabilitation costs \$47,858
- CWIP Recreation master plan \$21,327
- CWIP Walking Trail phases I & II \$25,330
- CWIP Downtown Improvements Plan \$161,270

Business-Type Activities

- Computers \$15,090
- Flexnet system upgrades \$56,350
- Data flow system \$3,236
- (2) 2020 Ford F-150 \$54,480
- New service meters \$69,485
- Oxidation ditch improvements \$262,917
- SCADA system improvements \$15,000
- CWIP Galvanized pipe replacement \$1,212,815
- CWIP Ground storage tank construction \$1,305,664
- CWIP Water master plan \$13,582
- CWIP C Street Phase III \$180,863

- CWIP Sewer master plan \$12,850
- CWIP I&I study \$18,720

Management's Discussion and Analysis September 30, 2020

Debt. At the end of the current fiscal year the City had total debt outstanding of \$26,159,043, including the addition of \$2,190,188 in notes payable during fiscal year 2020 to fund construction projects and \$372,845 of additions to lease obligations to purchase vehicles and equipment. The debt obligations are secured by the equipment acquired, a covenant to budget, or a pledge of revenue sources.

City of Lake Wales Outstanding Debt as of September 30,

	Government	Governmental Activities		e Activities	Total

Lease obligations	2,467,855	2,952,843	238,078	323,977	2,705,933	3,276,820	
Total debt obligations	\$ 8,809,819	\$ 8,960,809	\$ 17,349,224	\$ 16,562,857	\$ 26,159,043	\$ 25,523,666	

Additional information on the City's long-term debt can be found in note G on pages 53-60 of this report.

Economic Factors and Next Year's Budget and Rates

The unemployment rate at the end of fiscal year 2020 for Lakeland/Winter Haven Metro Area was 3.0%. The following is a summary of the applicable unemployment rates for Lakeland/Winter Haven Metro Area, the State of Florida, and United States:

Region Name	Current Year Sept. 2020	Previous Year Sept. 2019
Lakeland/Winter Haven Metro Area	7.9%	3.0%
State of Florida	7.2%	2.9%
United States	7.9%	3.5%

^{*}Source: Bureau of Labor Statistics, http://www.bls.gov/lau/

The tax base for the City is composed of real property, personal property and centrally assessed property. The taxable value of such property increased 6.53% from 2019 to 2020.

The City's population increased from 16,386 in 2019 to 16,062 in 2020, a 2% increase.

All of these factors were considered in preparing the City of Lake Wales's budget for the 2020'21 fiscal year.

Requests for Information

The financial report is designed to provide a general overview of the City of Lake Wales, Florida's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or request for additional information should be addressed to the Office of the Finance Director, City of Lake Wales, 201 Central Avenue, Lake Wales, Florida 33859. Information is also available on our website at www.cityoflakewales.com.

Fund balances, beginning of year	4,281,310	2,108,243	1,778,720	8,168,273
Fund balances, end of year	\$ 4,585,360	\$ 2,752,719	\$ 1,930,988	\$ 9,269,067

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of the Governmental Funds to the Statement of Activities For the Year Ended September 30, 2020

Net change in fund balances of the governmental funds		\$ 1,100,794
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is depreciated over their estimated useful lives.		
Capital asset additions Capital asset disposals Depreciation	\$ 1,828,265 (156,753) (1,994,727)	(323,215)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds, but are instead deferred. This item represents the change caused by the "available" revenue recognition criteria.		575,000
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of principal on long-term debt consumes resources of the governmental funds. Neither transaction, however, has any effect on the change in net position.		
New debt Principal paid	(1,218,365) 1,369,355	150,990
Other long-term obligations are reported in the government-wide statement of net position as liabilities, but not at the fund level as they do not require the use of current financial resources and therefore are reported as revenues when received and expenditures when paid:		
(Increase) in Compensated Absences Liability (Increase) in interest accrued on bonds	(25,073) 4,390	(20,683)
Pension expense is reported in the statement of activities which differs from pension expenditures as reported in governmental funds:		
Increase in deferred outflows related to pensions (Increase) in deferred inflows related to pensions (Increase) in the net pension liability	438,576 (3,267) (845,314)	(410,005)
Other postemployment benefit (OPEB) expense is reported in the statement of activities which differs from OPEB expenditures as reported in governmental funds:		
(Decrease) in deferred outflows related to OPEB (Increase) in deferred inflows related to OPEB	125,430 6,339	
Decrease in the total OPEB liability	(153,317)	 (21,548)
Change in net position of governmental activities		\$ 1,051,333

Notes to the Financial Statements September 30, 2020

I. Summary of significant accounting policies

A. Reporting entity

The City of Lake Wales (City) is a political subdivision of the State of Florida founded under the Laws of Florida 7664 in 1917, which act was superseded by Chapter 29224, Special Acts 1953, and incorporated under the authority of Chapter 165, Florida Statutes. The legislative branch of the City is composed of a five-member elected commission. The City Commission is responsible for the establishment and adoption of policy. The execution of such policy is the responsibility of a Commission-appointed City Manager.

The City provides a variety of governmental services to residents including public works (streets and roads), law enforcement, fire protection, parks, community development and culture and recreation. Additionally, the City has a business-type operation that offers services associated with water and sewer utilities, stormwater management and Lake Wales Memorial Garden (LWMG) cemetery operations and management. The financial statements have been prepared in accordance with U.S. generally accepted accounting principles (GAAP) for governmental entities. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The accompanying financial statements present the government and its component units, entities for which the government is considered to be financially accountable. The blended component unit, although a legally separate entity is, in substance, part of the government-wide financial statements (see below for description) to emphasize that it is legally separate from the primary government.

Blended Component Unit. The following component units were determined to be blended component units of the primary government for financial reporting:

- The Lake Wales Community Redevelopment Agency (CRA) was created pursuant to Chapter 163, Florida Statutes, and is governed by Sections 2-71 through 2-74 of the City Code of Ordinances. In accordance with Section 2-72, the City Commission serves as the CRA governing board. In addition, the City and CRA have the same management team. In evaluating this potential component unit, it was determined that the CRA is a separate legal entity but should be treated as a blended component unit and included as part of the primary government for reporting purposes. The CRA is presented in the financial statements of the City as a special revenue fund and issued separate stand-alone audited financial statements for fiscal year ending September 30, 2020.
- The Lake Wales Library Board (Library Board) was created pursuant to Chapter 57-1488, Laws of Florida, and is governed by Section 2-116 of the Code of Ordinances. The City Commission appoints the Board of Directors. Chapter 57-1488, Laws of Florida, authorizes the City Commission to levy up to one mil in property taxes to establish, maintain, and operate a public municipal library. The City Commission approves the Library Board's budget, levies the ad valorem property tax for the library operations, and appoints the Library Board of Directors. Since the Library Board cannot transact business in its own name, it is not considered a separate legal entity. Accordingly, the Library Board's operations are reported in a non-major special revenue fund and its capital assets are included under governmental activities in the statement of net position.

Notes to the Financial Statements September 30, 2020

Discretely Presented Component Unit. The Lake Wales Airport Authority (the Authority) was re-created by Ordinance 2005-44 (the Ordinance) of the City on September 29, 2005, pursuant to Section 189.4041, Florida Statutes. The Ordinance codified, amended, reenacted, and repealed all prior ordinances relating to the Authority and the Airport Advisory Committee. Prior to the adoption of the Ordinance, the activities of the Lake Wales Municipal Airport (the Airport) had been accounted for in the general fund of the City. The Authority was recreated as a dependent special district of the City, a legally separate governmental entity. The Authority has no taxing authority.

A board of seven members known as the Lake Wales Airport Authority Board (the Board) governs the Authority. The City must approve appointments to the Board, and the City retains approval rights over most of the major decisions of the Authority. In addition, the City Manager and City Finance Director serve as the Airport Manager and Airport Finance Director, respectively.

The Airport Authority meets the criteria provided by Florida Statute 189-403(2) of a dependent special district of the City of Lake Wales. Florida Statute 218.39(3) provides that a dependent special district may make provision for an annual financial audit by being included within the audit of another local governmental entity upon which it is dependent. The Airport Authority and the City of Lake Wales have made this election. The Lake Wales Airport Authority did not issue separate audited financial statements for fiscal year ending September 30, 2020.

Other Related Organizations. The following discussion is a brief review of other potential component units that were determined to not be part of the City's reporting entity:

- Lake Wales Housing Authority (the Housing Authority) The Housing Authority was created by Resolution No. 68-3 pursuant to Chapter 421, Florida Statutes. The Housing Authority members are appointed by the City Commission; however, the City's accountability for the Housing Authority does not extend beyond making these appointments. Accordingly, the Housing Authority is considered to be a related organization only and is not included in the financial reporting entity.
- Lake Wales Library Association, Inc. (the Association) The Association is a separate legal entity established as a direct support organization for the Lake Wales Public Library. The City Commission does not appoint a voting majority of the Association's Board of Directors, nor can it impose its will on the Association. Accordingly, the Association is not considered to be a component unit of the City.

B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Notes to the Financial Statements September 30, 2020

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when the liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Sales taxes, franchise fees, licenses and interest associated with the current fiscal period are all considered to be susceptible to accrual. Property taxes are accounted for when measurable and available. Voluntary non-exchange transactions are recorded as revenues when all eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). All other revenue items are considered to be measurable and available only when cash is received by the government.

The City reports the following major governmental funds:

- **General Fund** is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.
- Community Redevelopment Fund accounts for revenues derived from the tax increment funds collected in the City-wide community redevelopment area.

The City reports the following major proprietary fund:

 Public Utilities Fund - accounts for the provision of water and wastewater services to the residents and businesses of the City. All activities necessary to provide such services are accounted for in this fund, including administration, operations, construction, maintenance, financing and related debt service costs, billing and collection.

Notes to the Financial Statements September 30, 2020

Additionally, the City reports the following fund types:

- **Special Revenue Funds** account for revenue sources that are legally restricted to expenditures for specific purposes (not including expendable trusts or major capital projects).
- Capital Projects Funds account for the acquisition of capital assets or construction of major capital projects not being financed by proprietary or nonexpendable trust funds.
- **Pension Trust Funds** account for the activities of the employee retirement systems, which accumulate resources for pension benefit payments to qualified public safety or general employees.
- Lake Wales Memorial Garden (LWMG) Cemetery Fund accounts for the operation and maintenance of the City's LWMG cemetery.
- Stormwater Fund accounts for the operation and maintenance of the City's stormwater system.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the government's public utility fund and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including impact fees. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Public Utilities Fund, Stormwater Fund and the LWMG Cemetery Fund are charges to customers for sales and services. The Public Utilities Fund also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include personal and contractual services, repairs and maintenance, material and supplies, and general and administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Notes to the Financial Statements September 30, 2020

D. Assets, liabilities, and net position or equity

1. Deposits and investments

Cash and Cash Equivalents and Investments

The City maintains a cash and investment pool, which is available for use by all funds and component units. The City considers all investments with an original maturity of three months or less (these include investments with the State Board of Administration, amounts invested in repurchase agreements, and money market mutual funds) as well as investments in the City's cash and investment pool to be cash equivalents for purposes of the statement of cash flows. The City's cash and investment pool essentially allows individual funds, at any time, to deposit additional cash or make withdrawals without prior notice or penalties. Investment earnings are distributed monthly in accordance with the participating funds' relative percentage of the pool.

The City's cash and investment pool includes cash deposits, investments with an original maturity of three months or less and amounts on deposit with paying agents.

Investments - City

By Ordinance No. 95-44 and Florida Statutes, the City is authorized to invest in the Florida PRIME Fund; negotiable direct obligations of the United States Government, or obligations unconditionally guaranteed by the U.S. government; bonds, debentures, notes or other indebtedness of U.S. agencies which are backed by the full faith and credit of the U.S. Government; obligations of certain other government agencies (the Federal Farm Credit Bank (FFCB), Federal Home Loan Bank (FHLB), Federal National Mortgage Association (FNMA), Federal Home Loan Mortgage Corporation, (FHLMC), and the Student Loan Marketing Association (SLMA). In addition, the City may invest in nonnegotiable interest-bearing time certificates of deposits or repurchase agreements in qualified public depositories, as well as certain banker' acceptances, commercial paper, state and/or local government taxable and tax-exempt debt, general obligation and/or revenue bonds, or fixed income mutual funds, assuming they are rated as specified in the Ordinance.

Investments – Pension Funds

Section 16-47(e)(2) of the City Code of Ordinances provides that general employees' pension plan funds may be invested and reinvested in such securities or property, real or personal, wherever situated and of whatever kind, as shall be approved by the Board of Trustees including, but not limited to, stocks (common or preferred), bonds, and other evidences of indebtedness or ownership. Sections 16-161 and 16-231 of the Code of Ordinances provide that the Boards of Trustees of the firefighters' and police officers' pension plan funds shall not invest more than 5% (at cost) of their assets in the common stock or capital stock of any one issuing company, nor shall the aggregate investment in any one issuing company exceed 5% (at cost) of the outstanding capital stock of that company, or the aggregate of the fund's investments in all common stock or capital stock (at cost) exceed 50% of the fund's total assets.

In addition to investments authorized for the City as a whole, the pension trust funds are also authorized to invest in other fixed-income and equity securities, within the individual plan guidelines. All investments are reported at fair value or amortized cost, which approximates fair value.

Notes to the Financial Statements September 30, 2020

2. Receivables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances." Trade receivables are reported net of an allowance for uncollectible accounts.

3. Inventories and prepaid items

Inventories consist of expendable supplies held for consumption during the City's operations. Enterprise fund supplies inventories are stated at cost on the average cost basis. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. Prepaid items are recorded using the consumption method of accounting. Under the consumption method, services paid for in advance are reported as an asset until the period in which the services are consumed.

4. Restricted assets

Certain proceeds of the water and sewer utility fund revenue bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the statement of net position because their use is limited by applicable bond covenants. Impact fees and capacity reserve assets are also restricted in their use.

Community redevelopment fund asset use is limited to certain community redevelopment activities within the community redevelopment area designated in Resolution No. 99-02.

Debt service asset use is restricted or assigned to the payment of principal and interest on long-term debt obligations of the governmental funds.

Impact fees collected within the special revenue, debt service and capital project funds are restricted in their use. Impact fee expenditures are limited to capital outlay which provides new capacity, or debt service related thereto.

Library fund restricted assets are limited to activities provided within the library.

Other restricted assets reflect net position that is not subject solely to the government's own discretion. This category includes resources subject to externally imposed restrictions.

Notes to the Financial Statements September 30, 2020

5. Capital assets

Capital assets, which include property, plant, equipment, intangible and infrastructure assets (e.g., roads, bridges, sidewalks and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets, other than infrastructure assets, are defined by the government as assets with an initial, individual cost of more than \$1,000 and estimated useful life in excess of one year. The government reports infrastructure assets on a network and subsystem basis. Accordingly, the amount spent for the construction or acquisition of infrastructure assets are capitalized and reported in the government-wide financial statements regardless of their amount.

In the case of the initial capitalization of general infrastructure assets (i.e., those reported by governmental activities) the City chose to include all such items regardless of their acquisition date or amount. The City was able to determine the historical cost of the initial reporting of these assets through research and estimating techniques. As the City constructs or acquires additional capital assets each period, including infrastructure assets, they are capitalized and reported at cost. The reported value excludes normal maintenance and repairs, which are essentially amounts spent in relation to capital assets that do not increase the capacity or efficiency of the item or extend its useful life beyond the original estimate. In the case of donations, the City presents these assets at the acquisition value of the item at the date of donation.

Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. Interest costs totaling \$4,556 were capitalized during the year ended September 30, 2020. Property, plant, and equipment of the primary government, as well as the component unit, are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Water and Wastewater Treatment Disposal Plants	50-67
Other Buildings	10-50
Water Distribution System	40
Sewer Collection System	50
Tanks and Storage	40
Airport Runways and Other Airport Infrastructure	10-20
Equipment	3-25
Vehicles	6-10
Wells and Pumping Equipment	15-50
Other Improvements	5-50
Other Infrastructure	15-50

Notes to the Financial Statements September 30, 2020

6. Deferred outflows/inflows of resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The governmental funds report unavailable revenues that are deferred and recognized as an inflow of resources in the period that the amounts become available.

7. Compensated absences

The City's policies permit employees to accumulate vacation and sick time up to certain limits and to be compensated for these upon termination of employment. The liability for these compensated absences is recorded in the government-wide statements and in the proprietary fund financial statement under noncurrent liabilities. The governmental funds do not report the compensated absence liability unless the liability has matured as a result of employee resignations or retirements.

8. Long-term obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts, as well as refunding losses, are amortized over the life of the bonds using the bonds outstanding method or the straight-line method, which both approximate the effective interest method. Bonds payable are reported net of the applicable bond premium, discount or refunding loss. Bond issuance costs are expensed as incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Notes to the Financial Statements September 30, 2020

9. Fund Balances

In accordance with GASB Cod. Sec 1800, the governmental fund balances are categorized into components that comprise a hierarchy based primarily on the extent to which the organization is bound to honor constraints on the specific purpose for which amounts in the funds can be spent. Fund balance is reported, to the extent applicable, in five components – nonspendable, restricted, committed, assigned and unassigned:

- Nonspendable This component of fund balance consists of amounts that cannot be spent because (a) they are not expected to be converted to cash or (b) they are legally or contractually required to remain intact. Examples of this classification are prepaid items, inventories, and principal (corpus) of an endowment fund.
- **Restricted** This component of fund balances consists of amounts that are constrained either (a) externally by third parties (creditors, grantors, contributors, or laws or regulations of other governments), or (b) by law through constitutional provisions or enabling legislation.
- Committed This component of fund balance consists of amounts that can only be used for specific purposes pursuant to constraints imposed by ordinance of the organization's governing authority (the City Commission). These committed amounts cannot be used for any other purpose unless the City Commission removes or changes the specified use by taking the same type of action (ordinance) employed to constrain those amounts.
- Assigned -This component of fund balance consists of amounts that are constrained by a less-thanformal action of the organization's governing authority, or by an individual or body to whom the
 governing authority has delegated this responsibility. At fiscal year end, the Commission has not
 delegated this responsibility. In addition, residual balances in special revenue, capital projects, and
 debt service funds are considered assigned for the general purpose of the respective fund.
- Unassigned -This classification is used for (a) negative unrestricted fund balances in any governmental fund, or (b) fund balances within the general fund that are not restricted, committed or assigned.

Flow Assumption - When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources (committed, assigned and unassigned) as they are needed. When unrestricted resources (committed, assigned and unassigned) are available for use it is the City's policy to use committed resources first, then assigned, and then unassigned as needed.

Minimum Fund Balance Policy - Pursuant to a fund balance policy adopted, July 19, 2011, under the City Commission's Ordinance 2011-11, the City established an emergency sinking account in the general fund.

In the general fund, there shall be created an emergency sinking account with a lower limit of 15% and an upper limit of 20% of General Fund operating expenditures, excluding capital outlay, calculated based on the original adopted fiscal year budget. The purpose of this policy is to provide sufficient working capital at the beginning of the fiscal year until the time the City begins receiving ad valorem taxes, to advance funds necessary to pay for construction of grant-funded projects until reimbursement is received from federal or state agencies, to advance financial resources necessary for responding to emergencies that will be reimbursed by insurance proceeds or grants from FEMA or other federal or state agencies, and to mitigate current and future revenue shortfalls, unanticipated expenditures, and to ensure stable taxes rates.

Law Enforcement – Per Florida Statute 932.705(5)(a), proceeds and interest earned from disposition of liens and forfeited property shall be used for school resource officers, crime prevention, safe neighborhood, drug abuse education and prevention programs, or for other law enforcement purposes, which include defraying the cost of protracted or complex investigations, providing additional equipment or expertise, purchasing automated external defibrillators for use in law enforcement vehicles, and providing matching funds to obtain federal grants. The proceeds and interest may not be used to meet normal operating expenses of the law enforcement agency.

Notes to the Financial Statements September 30, 2020

Transportation Expenditures - Per Florida Statute 206.41(1)9d)-(e), 206.87(1)(b)-(c), 336.021, and 336.025, county governments are authorized to levy up to 12 cents of local option fuel taxes in the form of three separate levies. The first is a tax of 1 cent on every net gallon of motor and diesel fuel sold within the county. Known as the ninth-cent fuel tax, this tax may be authorized by an ordinance adopted by an extraordinary vote of the governing body or voter approval in a countywide referendum. Generally, the proceeds may be used to fund transportation expenditures.

The second is a tax of 1 to 6 cents on every net gallon of motor and diesel fuel sold within a county. This tax may be authorized by an ordinance adopted by a majority vote of the governing body or voter approval in a countywide referendum. Generally, the proceeds may be used to fund transportation expenditures.

The third tax is a 1 to 5 cents levy upon every net gallon of motor fuel sold within a county. Diesel fuel is not subject to this tax. This additional tax shall be levied by an ordinance adopted by a majority plus one vote of the membership of the governing body or voter approval in a countywide referendum. Proceeds received from this additional tax may be used for transportation expenditures needed to meet the requirements of the capital improvement element of an adopted local government comprehensive plan.

Community Redevelopment - Per Florida Statute 163.387, funds allocated to a community redevelopment area shall be used by the agency to finance or refinance any community redevelopment it undertakes pursuant to the approved community redevelopment plan.

REMAINDER OF PAGE INTENTIONALLY LEFT BLANK

Notes to the Financial Statements September 30, 2020

10. Revenue Recognition

Utility revenues are recognized when customers are billed, unless there has been a significant change in meter reading dates. In that event, unbilled or unearned revenues are recorded for consistency. Included in accounts receivable on September 30, 2020, are unbilled amounts totaling \$677,357 (\$546,361 enterprise funds and \$130,996 general fund).

11. Property Taxes

Under Florida law, the assessment of all properties and the collection of all county, municipal and school board property taxes are consolidated in the offices of the Polk County Property Appraiser and the Polk County Tax Collector. The laws of the state regulating tax assessments are also designed to assure a consistent property valuation method state-wide. Florida Statutes permit municipalities to levy property taxes at a rate of up to 10.00 mills. The City's millage rate for the 2020 fiscal year was 6.9339 mills.

The tax levy of the City is established by the City Commission prior to October 1 of each year and the Polk County Property Appraiser incorporates the City millages into the total tax levy, which includes the Polk County and the Polk County District School Board tax requirements.

All property is reassessed according to its fair market value January 1 of each year. Each assessment roll is submitted to the Executive Director of the State Department of Revenue for review to determine if the rolls meet all of the appropriate requirements of Florida Statutes.

All taxes are levied on November 1 of each year or as soon thereafter as the assessment roll is certified and delivered to the Polk County Tax Collector. All unpaid taxes become delinquent on April 1 following the year in which they are assessed. Discounts are allowed for early payment at the rate of 4% in the month of November, 3% in the month of December, 2% in the month of January, and 1% in the month of February. The taxes paid in March are without discount.

On or prior to June 1 following the tax year, certificates are sold for all delinquent taxes on real property. After sale, tax certificates bear interest of 18% per year or at any lower rate bid by the buyer. Application for a tax deed on any unredeemed tax certificates may be made by the certificate holder after a period of two years. Unsold certificates are held by the County. Delinquent taxes on personal property bear interest at 18% per year until the tax is satisfied either by seizure and sale of the property or by the five-year statute of limitations.

12. Pension Plans

The City accounts for its fiduciary pension trust funds under GASB Cod. Sec Po5. The pension plans cover substantially all of the City's full-time employees.

Notes to the Financial Statements September 30, 2020

II. Stewardship, compliance, and accountability

A. Budgetary information

Annual appropriations budgets are adopted for all funds except the pension trust funds. Budgets for the governmental funds are adopted on a basis consistent with generally accepted accounting principles. The budget for the public utilities enterprise fund is prepared on the modified accrual basis of accounting, which is not the same basis of accounting that is used to account for the actual results of operations (the actual results of operations are accounted for on the accrual basis). The following item indicates the primary difference between the budgetary basis and the GAAP basis used to account for the results of operations for the enterprise fund:

 Depreciation expense is not budgeted; however, expenditures for principal payments and capital outlays are budgeted. These outlays have been capitalized on the statements of net position and eliminated from the results of operations for financial reporting purposes.

The annual operating budget serves as legal authorization for expenditures and the proposed means of financing them. The City Charter prescribes the following procedures for the establishment of final budget balances:

- On or before September 1 of each year, the City Manager is to submit to the City Commission a budget for the ensuing fiscal year and an accompanying budget report.
- The budget is to provide a financial plan of municipal funds and activities for the ensuing fiscal year, with the expenditures classified for the main functional divisions and departments of the City.
- The City Commission is to adopt the budget by ordinance after two public hearings.
- Supplemental appropriations are to be made by the City Commission by ordinance when the City Manager certifies that there are revenues in excess of those estimated in the budget available for appropriation. At any time during the fiscal year, the City Manager may transfer part or all of any unencumbered appropriation balance among programs within a department, office, or agency. Upon written request by the City Manager, the City Commission may, by ordinance, transfer part or all of any unencumbered appropriation balance from one department, office, or agency to another. This policy effectively establishes the legal level of budgetary control at the department level.
- Appropriations, except those for capital expenditures, lapse at year-end to the extent that they have not been
 expended or encumbered. Appropriations for capital expenditures continue in force until the purposes for which
 they were made have been accomplished or abandoned.
- Appropriations are controlled at the object level within each department or function. Budgetary information is
 integrated into the accounting system and, to facilitate budget control, budget balances are encumbered when
 purchase orders are issued.

Notes to the Financial Statements September 30, 2020

III. Detailed notes on all funds

A. Deposits and investments

Deposits

All of the City's public deposits are held in qualified public depositories pursuant to Florida Statutes, Chapter 280, Florida Security for Public Deposits Act. Under the Act, all qualified public depositories are required to pledge eligible collateral having a market value equal to or greater than the average daily or monthly balance of all public deposits, times the depository's collateral pledged level. The pledging level may range from 50% to 200%, depending upon the depository's financial condition and establishment period. All collateral must be deposited with an approved financial institution. Any losses to public depositors are covered by applicable deposit insurance, sale of securities pledged as collateral and, if necessary, assessments against other qualified public depositories of the same type as the depository in default.

On September 30, 2020, the carrying amount of cash on hand and on deposit with banks, including interest-bearing deposits was \$15,299,313, and the related bank balance was \$16,200,067.

Investments – City

On September 30, 2020, the carrying amount of investments was \$1,041,485 The investments consisted of nonparticipating certificates of deposit and are presented at amortized cost. The City seeks to optimize return on investments within the constraints of safety and liquidity.

Investments – Pension Funds

The City's pension trust fund investment portfolios are measured against the returns of the benchmarks, the S&P 500 Stock Index, Barclays Capital U.S. Government/Credit Bond Index and Morgan Stanley Capital International EAFE Index. The volatility of returns is expected to be similar to the benchmarks, and the total return is expected to be in the top half of similarly managed portfolios.

On September 30, 2020, pension trust funds' investments are valued at fair value, with the exception of certificates of deposit and money market mutual funds, which are presented at amortized cost, which approximates fair value.

Notes to the Financial Statements September 30, 2020

Investments - Fair Value

Total investments

The City categorizes its fair value measurements within the fair value hierarchy established by U.S. GAAP. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The City's pension trust funds have the following carrying values as of September 30, 2020, based on measurement criteria as specified:

General Employees' Pension Trust Fund:	Se	eptember 30,				A	mortized

Foreign bonds		149,192	-		149,192		-
Corporate bonds and notes		1,124,343	131,758		992,585		-
Common and preferred stock		9,676,317	8,677,493		998,824		_
Total investments measured at fair value		14,317,600	\$ 8,945,862	\$	4,858,440	\$	513,298
Investments measured at net asset value (NAV)							
Real estate investment fund		1,420,083					
Total investments	\$	15,737,683					

Common and preferred stock of the fair value hierarchy are valued using prices quoted in active markets for those securities. Government bonds, government asset-backed securities, taxable municipal bonds and corporate bonds and notes in Level 2 of the fair value hierarchy are valued by surveying various market makers and dealers, as well as data from the new issue market. Foreign bonds in Level 2 of the fair value hierarchy are valued using a discounted cash-flow model using a benchmark yield plus a maturity spread to discount coupon and principal cash flows.

The Firefighters' and Police Officers' pension plans own shares in a real estate investment fund which is a pooled investment fund that is a broadly diversified core real estate fund that reports its value at net asset value (NAV) per share. Redemption requests of units in the real estate investment fund may be made at any time and are effective at the end of the calendar quarter in which the request is received by the investment fund. The units that are subject to a redemption notice may be redeemed in installments as funds become available for such purpose and the redemption price will be the value per unit at such time the payment is made. The real estate investment fund is not required to liquidate or encumber assets or defer investments in order to make redemptions.

The Pension Boards have established the following target asset allocations for the separate pension funds:

	General	Fire	Police
	Employees	Fighters	Officers
Domestic and Equity Securities	50%	45%	45%
Fixed Income Securities	35%	30%	30%
International Equity	15%	15%	15%
Private Real Estate	0%	10%	10%

This allocation target is intended as a maximum exposure to each security class based on the cost value of the assets. The use of cash equivalent securities is not restricted and may be used within both equity and fixed income portfolios.

Pension fund investment policies specify that the quality minimum of all fixed income securities purchased for the fund shall be Standard & Poor's and Moody's rated A or its equivalent.

Notes to the Financial Statements September 30, 2020

Interest rate risk

Interest rate risk exists when there is a possibility that changes in interest rates could adversely affect an investment's fair value. The City and Pension Board limit their exposure to fair value losses arising from rising interest rates by varying investment maturities.

Concentration of credit risk

Concentration of credit risk is the risk of loss attributed to the magnitude of the government's investment in a single issuer. The City and Pension Board investment policies require that assets be diversified to control the risk of loss resulting from over concentration in a specific maturity, issuer, instrument, dealer, or bank through which financial instruments are bought and sold.

Custodial credit risk - deposits

In the case of deposits, this is the risk that in the event of a bank failure, the City's deposits may not be returned to it. As of September 30, 2020, the City's cash deposits were entirely covered by federal depository insurance or by the banking network provided by Chapter 280 of the Florida Statutes. Florida Statutes provide for collateral pooling by banks and savings and loans and limit local government deposits to "qualified public depositories."

Custodial credit risk - investments

For investments, this is the risk that in the event of the failure of the counterparty, the City or Pension Board will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The investment policies require that securities and repurchase agreements only be purchased from certain qualified financial institutions or dealers, that repurchase agreements require a master repurchase agreement, and that all securities purchased (or collateral obtained) be properly designated as an asset of the City/Board and held in safekeeping by a qualified third party custodial bank or institution.

Notes to the Financial Statements September 30, 2020

B. Receivables

Receivables as of year-end for the City's individual major funds and in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

	General		Community Redevelopment	Other Governmental Funds		Total rernmental Funds
Receivable:

Notes to the Financial Statements September 30, 2020

D. Construction commitments

The City has active construction projects as of September 30, 2020. At year-end, the City's commitments with contractors are as follows:

			R	emaining
Projects	Spent-to-Date			
Ground storage tank	\$	2,943,430	\$	1,194,029
S/R/ 60 / U.S. 27 Interchange and relocation		704,941		525,235
S.R. 60 Western Expansion		9,691,813		1,386,722
Total primary government	\$	13,340,184	\$	3,105,986

Lake Wales Airport Authority - discretely presented component unit:

			Ke	maining
Projects	Spent-	Commitment		
Airport projects	\$	137,058	\$	193,850
Total Lake Wales Airport Authority	\$	137,058	\$	193,850

D

Other Commitments:

The City has signed several Inducement and Development Agreements with private businesses as an inducement for those businesses to relocate to the new planned industrial park. In these agreements, the City commits to landscaping and roadway infrastructure improvements.

E. Leases

Operating Leases

The City leases copiers and postage equipment. The future minimum lease payments for these leases are as follows:

Fiscal Year Ending	Copier		P	ostage			
September 30,	Equipment		Eq	uipment	Total		
2021	\$	20,697	\$	5,255	\$	25,952	
2022		20,697		5,255		25,952	
2023		2,396		_		2,396	
Total	\$	43,790	\$	10,510	\$	54,300	

Capital Leases

The City leases equipment with a historical cost and accumulated depreciation of \$4,842,970 and \$1,433,914, respectively, under capital lease arrangements. Future minimum lease payments as of September 30, 2020 can be found at Note G.

Notes to the Financial Statements September 30, 2020

F. Interfund receivable, payables and transfers

The composition of interfund balances on September 30, 2020, were as follows:

Receivable Fund	ceivable Fund Payable Fund		Amount	
General	Transportation	\$	77,205	
General	Forfeitures		305	
General	Library		4,200	
General	Law Enforcement Block Grant		14,000	
Subtotal		\$	95,710	
Public Utilities	Stormwater	\$	150,604	
Due to/from component unit:				
General	Airport Authority	\$	838,328	

The outstanding balances between funds result mainly from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

The composition of interfund transfers for the year ended September 30, 2020 is as follows:

Transfer In:								
	Debt LWMG				WMG			
General		S	ervice		Ce	metery		Total
\$	-	\$		-	\$	121,672	\$	121,672
21	11,322							
	-		697,50	0		-		697,500
1,32	27,000							1,327,000
\$ 1,53	38,322	\$	697,50	0	\$	121,672	\$	2,146,172
	\$ 21		General S	Debt Service	General Debt Service \$ - \$ - 211,322 - 697,500 1,327,000	General Debt Service L Service \$ - \$ - \$ - \$ 211,322 - 697,500 1,327,000	General Debt Service LWMG Cemetery \$ - \$ - \$ 121,672 211,322 - 697,500 - 1,327,000	General Debt Service LWMG Cemetery \$ - \$ - \$ 121,672 \$ 211,322 - 697,500 - 1,327,000

Transfers during the year were used to 1) move revenue from the fund with collection authorization to the debt service fund as debt service principal and interest payments become due, 2) move resources from the capital projects fund to the general fund to return resources that were not utilized for capital projects, 3) move general fund resources as a subsidy to the LWMG fund and 4) fund the annual budgeted transfer from the public utilities fund to the general fund.

Notes to the Financial Statements September 30, 2020

G. Long-term debt

Following is a summary of the changes in long-term debt for the year:

	Beginning Balance	Additions	Disposals	Ending Balance	Due Within One Year
Governmental activities:					
Notes and lease obligations payable:					
Notes payable	\$ 6,007,966	\$ 900,000	\$ (566,002)	\$ 6,341,964	\$ 636,676

Total notes and lease obligations payable	1,773,467	97,150	(89,588)	1,781,029	104,130
Other liabilities:					
Compensated absences	7,818	-	(4,432)	3,386	339
Total other liabilities	7,818	-	(4,432)	3,386	339
Discretely presented component unit					
Total long-term liabilities	\$ 1,781,285	\$ 97,150	\$ (94,020)	\$ 1,784,415	\$ 104,469

Notes to the Financial Statements September 30, 2020

Long-term liabilities, including accumulated compensated absences, OPEB liabilities and the City's net pension liabilities are typically liquidated by the individual fund to which the liability is directly associated. In regard to the governmental funds, other long-term liabilities as mentioned above have historically been liquidated by the general fund.

Listed below are the individual debt issues and the outstanding principal balance on September 30, 2020:

	Frequency Purpose of Payment		1	(originally	0	outstanding	Interest

- (1) Frequency: S = Semiannual, M = Monthly
- (2) Purpose:
 - 1. Construction of reclaimed water reuse facilities. (SRF 59110).
 - 2. Construction of sludge dewatering facilities. (SRF 5912S).

Notes to the Financial Statements September 30, 2020

- 3. Planning and design of wastewater treatment plant expansion. (SRF 5913P).
- 4. Construction of water and wastewater system improvements, including rehabilitation of lift station #2, southside force main and water main extension, and southside reuse transmission lines. This note was initially issued as a non-revolving line of credit during May 2006 but on October 1, 2009, the loan converted to a term loan. (Series 2006B).
- 5. Acquisition, construction and equipping of various capital improvements within the Community Redevelopment Area. (Series 2007).
- 6. Construction of wastewater plant rehabilitation and expansion. (SRF 59140 & 530300).
- 7. Construction funding for fire substation \$1,200,000 and cemetery addition \$500,000. (Series 2013).
- 8. Acquisition, construction, rehabilitation and equipping of various capital improvements, including a YMCA facility.
- 9. Capital lease for 18 vehicles including 9 police vehicles and one pumper truck for the fire department. (Lease FY 2015'16).
- 10. Construction of major sewer system rehabilitation/replacement project (SRF 530310 & SRF 530380).
- 11. Capital lease for 15 vehicles including 6 police vehicles and one dump truck for the transportation fund (Lease FY 2016'17).
- 12. Capital lease for two generators (Generator Lease 2016'17).
- 13. Construction of the State Road 60 utilities extensions (SRF 530320 & SRF 530330).
- 14. Capital lease for 11 passenger vehicles, grapple truck, two tractors and an excavator (Lease FY 2017'18).
- 15. Capital lease for fire department equipment (Fire Department Equipment Lease 2017'2018).
- 16. Lake Wales Municipal Airport capital improvement projects including design, construction and rehabilitation of taxiways, runways, construction of hangars, aircraft apron expansion, access road construction and parking improvements. (Series 2017).
- 17. Capital lease for 5 passenger vehicles, 12 police vehicles, 2 backhoes, one utility tractor and one boom truck (Lease FY 2018'19).
- 18. Capital lease for a new Fire Truck and related fire equipment.
- 19. Capital lease/purchase of 93 Motorola radios for the police and fire departments.
- 20. Capital lease for 11 passenger vehicles and a tractor (Lease FY 2019'20).
- 21. Water line replacement and ground storage tank (SRF 531301).
- 22. Rehabilitation of the City's reuse system (SRF 530350).

The debt obligations are secured by the equipment acquired, a covenant to budget, and/or a pledge of the following revenue sources:

- Utility System Revenue and Refunding Revenue Notes, Series 2006B senior lien on utility system net revenues;
- Redevelopment Revenue Note, Series 2007 shall not constitute a general obligation of the City or the Community Redevelopment Area but shall be payable solely from the tax increment revenues and the non-ad valorem revenues as budgeted and appropriated;
- State Revolving Fund Loans junior lien on utility system net revenues;

Notes to the Financial Statements September 30, 2020

- Ascending Lien Cap Imp Rev Note, Series 2013 senior lien on communication service taxes and a junior lien on electric franchise fees and public service (utility) taxes.
- Subordinate Lien Capital Improvement Revenue Note (Airport Project), Series 2017 junior lien of electric franchise fees.

Most of the debt obligations may be prepaid in whole or in part without penalty, except as follows:

- There is a "breakage fee" on the Utility System Revenue Note, Series 2006B, if interest rates have generally decreased.
- There is a "prepayment charge" on the Redevelopment Revenue Note, Series 2007 to compensate the Bank for all losses, costs and expenses incurring in connection with such prepayment.

There are no large "balloon payments" due in future years. Certain notes require the establishment of sinking or reserve accounts.

- The Utility System Refunding Revenue Note, Series 2006B requires annual debt service reserves equal to 1/6th per month of all interest and 1/12th per month of the annual principal amount coming due. As of September 30, 2020, the sinking fund balance for Series 2006B was \$165,526.
- The Subordinate Lien Capital Improvement Revenue Note (Airport Project), Series 2017 requires annual debt service reserves equal to 1/6th per month of all interest and 1/12th per month of the annual principal amount coming due. As of September 30, 2020, the sinking fund balance for Series 2017 was \$100,303.
- State Revolving Fund loans require a "Loan Debt Service Account". Beginning six months prior to each semiannual loan payment, the City shall make five monthly loan deposits into the Loan Debt Service Account. The Loan Debt Service Account for the existing State Revolving Fund loans is \$530,857.
- Two of the existing State Revolving Fund loans require a "Loan Replacement Reserve Account". The Replacement Reserve Account for the existing loans is \$89,159 (Loan #59110 \$44,490 and 5912S \$44,669).

Notes to the Financial Statements September 30, 2020

The debt obligations all allow for the obligors to take whatever legal actions necessary to collect the amounts due in the event of default. The following debt obligations have additional remedies in the event of defaults as follows:

- Redevelopment Revenue Note, Series 2007 The note holder may declare the entire remaining liability balance
 due and payable and the City would be obligated to pay all costs of collection and enforcement of the provisions
 of the note.
- Capital Improvement Revenue Note, Series 2013 The note holder may, upon written notice, declare the outstanding principal on the note due and payable immediately. The City would also be obligated to pay all costs of collection and enforcement of the note, including such reasonable attorneys' fees as may be incurred during the process by the note holder.
- Capital Improvement Revenue Note, Series 2019 The note holder may charge a late fee of 5% of any payment not received by the note holder within ten days of the due date and may charge an interest rate of 5.59% on the unpaid balance during the period of default.
- Utility System Refunding Note, Series 2006B Any amounts due under this note that are not paid when due shall bear interest equal to the current rate of 1.14% plus 2.00% for a total interest rate from and after the date due of 3.14%.
- Capital lease/purchase agreements The lessor/lender typically has the right to declare the unpaid principal components of the remaining payment to be due and payable upon default and in some cases, can forcibly repossess the asset securing the lease/purchase.
- State Revolving Funds (SRF) Loans The lender, subject to the rights of superior liens on the pledged revenues, may request a court to appoint a receiver to manage the water and sewer systems, intercept the delinquent amount from any unobligated funds due to the City under any revenue or tax sharing fund established by the State of Florida, impose a penalty in the amount not to exceed a rate of 18 percent per annum on the amount due, notify financial market credit rating agencies and potential creditors and may accelerate the repayment schedule or increase the interest rate on the unpaid principal of the loan to as much as three times the loan interest rate.

Notes to the Financial Statements September 30, 2020

All City notes and capital lease/purchase obligations arose through direct borrowings or direct placements.

Annual debt service requirements of the City's notes and capital lease/purchase obligations as of September 30, 2020, are as follows:

Governmen	ıtal	Activ	vities

On December 14, 2016, the City accepted two State Revolving Funds loans from the State of Florida Department of Environmental Protection in the aggregate amount of \$5,380,349, for use in completing the State Road 60 utilities extension project. There were \$4,419,616 of borrowing on these loans through September 30, 2020.

On February 15, 2019, the City received a State Revolving Funds loan from the State of Florida Department of Environmental Protection in the amount of \$1,154,241 for use in rehabilitating the City's reuse water system. There were \$1,073,008 of borrowing on this loan through September 30, 2020.

Notes to the Financial Statements September 30, 2020

Joint Venture Loan Guarantee – The City has entered into an agreement with the Florida Department of Environmental Protection to guarantee to pay the principal and interest of their proportional share of SRF loan funds borrowed by the Polk Regional Water Cooperative to fund the projects of the combined projects implementation agreement. The SRF loan bears interest at 1.89% and principal and interest are due semiannually beginning on December 15, 2024 for a ten-year term to maturity on December 15, 2033. As of September 30, 2019, the Polk Regional Water Cooperative has borrowed \$6,042,249 through this SRF funding of which, \$290,916 has been guaranteed by the City and has been recorded as a liability in the City's public utilities enterprise fund. See Note IV.G for more information on the Polk Regional Water Cooperative and the relationship with the City.

Annual debt service requirements of the City's joint venture loan guarantee are as follows:

Notes to the Financial Statements September 30, 2020

Future Revenues that are Pledged

The City has pledged various future revenue sources for various debt issues. For the water and sewer system, the City has pledged future water and sewer customer revenues, net of certain operating expenses. The following table provides a summary of the pledged revenues for the City's outstanding debt issue.

			Total				% of
	Debt	Principal and Current Year				Revenue to	
	Obligation	Obligation Interest Principal and		Current Year		Principal and

Conduit Debt

The City has issued bonds to provide financing assistance to a private sector entity for acquisition, construction and equipping a senior care facility deemed to be in the public interest. These bonds are payable solely from the revenues of the private sector entity.

The Retirement Facility Revenue Bonds, Series 2008 (Series 2008) and interest thereon do not constitute an indebtedness or pledge of the general credit of the City, Polk County, the State of Florida or any political subdivision or agency thereof. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements. Series 2008 was initially issued for \$26,885,000. As of September 30, 2020, the outstanding balance on these bonds is \$14,490,000.

Notes to the Financial Statements September 30, 2020

IV. Other Information

A. Related party transactions

During 2019, the City provided the use of certain City personnel to the Authority (the discretely presented component unit) at no cost. The City Manager and City Finance Director currently serve as the Airport Manager and Airport Finance Director, respectively. The City's Public Service Director acted in a liaison capacity between the City Commission and the Airport Authority Board. Additional services were provided by City purchasing, information technology, and finance departments. Public Service department costs totaling \$43,581 were charged to the Authority for the year ended September 30, 2019.

In the Ordinance that recreated the Authority, the City retained approval rights over most of the major decisions of the Authority. The following Board actions are subject to the approval of the Lake Wales City Commission:

- Adopting bylaws.
- Adopting an official seal.
- Maintaining an office.
- Suing or being sued.
- Acquiring, leasing, constructing, reconstructing, improving, extending, enlarging, equipping, repairing, maintaining, or operating any airport which may be located on the property of the Authority.
- Issuing bonds, refunding bonds, and revenue certificates.
- Fixing and revising rates, fees, or other charges.
- Acquiring real or personal property.
- Entering into certain contracts or agreements, including those to operate other airports.
- Accepting grant money.
- Doing all things necessary or convenient to carry out the powers granted by the Ordinance

An interlocal agreement was approved and executed by the Airport Authority Board and the City Commission in October 2007 and renewed in October 2012. In this new agreement, both parties reaffirmed that the Authority did not have sufficient funds available to pay all of the costs of operating the Authority, and as a result thereof, it was in the mutual interest of the parties for the City to pay certain costs incurred by the Authority. However, payments by the City contemplated under the agreement were not to continue past five years, at which time it was expected that the Authority would be capable of bearing these costs. In all events, the Authority agreed to comply with the policies and procedures of the City, including but not limited to the policies governing investments and the purchase and acquisition of goods and services. The Airport Authority has a liability to the General Fund of \$838,328 on September 30, 2020.

B. Contingent liabilities

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the City expects such amounts, if any, to be immaterial.

The City is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the City's counsel that resolution of these matters will not have a material adverse effect on the financial condition of the City.

Notes to the Financial Statements September 30, 2020

C. Other postemployment benefits (OPEB)

The City follows GASB Cod. Sec. P50 for certain post-employment health care benefits provided by the City.

Plan Description

The Other Postemployment Benefits Plan (OPEB Plan) is a single employer defined benefit postemployment health care plan administered by the City. The OPEB Plan allows employees who retire and meet retirement eligibility requirements under one of the City's retirement plans to purchase health insurance at the City's group rate.

Benefits Provided

In accordance with Chapter 112.0801, Florida Statutes, the City is required to permit participation in the health insurance program by retirees and their eligible dependents at a cost to the retiree that is no greater than the cost at which coverage is available for active employees. Therefore, the City offers retirees the option of purchasing the City's group health insurance coverage at the cost applicable to active employees.

The City does not offer any explicit subsidies for retiree coverage. The OPEB Plan does not issue a stand-alone financial report and is not included in the annual report of a public employee retirement system or another entity.

Funding Policy

Currently, the City's OPEB benefits are unfunded. The City has not advance-funded or established a funding methodology for the annual other postemployment benefit (OPEB) costs or the OPEB obligation, and the OPEB Plan is financed on a pay-as-you-go basis. The City paid \$22,762 for OPEB costs during fiscal year 2020.

Other postemployment benefits membership is comprised of the following at 9/30/2019, the date in the latest complete actuarial valuation:

Inactive Plan members, or beneficiaries currently receiving benefits	5
Inactive Plan members entitled to but not yet receiving benefits	-
Active Plan members	151
Total	156

Notes to the Financial Statements September 30, 2020

Total OPEB Liability

The City's total OPEB liability as of September 30, 2020 was determined by an actuarial valuation as of September 30, 2019 (measurement date). The actuarial assumptions used in this valuation were as follows:

Inflation rate	2.50%
Discount Rate	3.58%
Initial Trend Rate	7.50%
Ultimate Trend Rate	4.00%
Year to Ultimate Trend Rate	55

Salary Rate Increases: For general pension plan employees, the assumed salary increase is 10% for the first year and 4% each year thereafter. For police and fire pension plan employees, the assumed salary increase is 5.75% per year.

Mortality Rates – Active Lives: For female (non-special risk) lives, the headcount-weighted PubG-2010 female employee table was used. For female special risk lives, the headcount-weighted PubS-2010 female below-median income employee table, set forward one year, was used.

For male (non-special risk) lives, the headcount-weighted PubG-2010 male below-median income employee table, set back one year, was used. For male special risk lives, the headcount-weighted PubS-2010 male below-median income employee table, set forward one year, was used.

Mortality Rates – Inactive Healthy Lives: For female (non-special risk) lives, the headcount-weighted PubG-2010 female below-median income healthy retiree table was used. For female special risk lives, the headcount-weighted PubS-2010 female healthy retiree table, set forward one year, was used.

For male (non-special risk) lives, the headcount-weighted PubG-2010 male below-median income healthy retiree table, set back one year, was used. For male special risk lives, the headcount-weighted PubS-2010 male below-median income healthy retiree table, set forward one year, was used.

For special risk survivors, the headcount-weighted PubG-2010 below-median income healthy retiree table, set back one year for males, was used.

Mortality Rates – Disabled Lives: For female (non-special risk) lives, the headcount-weighted PubG-2010 female disabled retiree table, set forward 3 years, was used. For female special risk lives, an 80% headcount-weighted PubG-2010 female disabled retiree, 20% headcount-weighted PubS-2010 female disabled retiree blended table was used.

For male (non-special risk) lives, the headcount-weighted PubG-2010 male disabled retiree table, set forward 3 years, was used. For male special risk lives, an 80% headcount-weighted PubG-2010 male disabled retiree, 20% headcount-weighted PubS-2010 male disabled retiree blended table was used.

Discount rate – Given the City's decision not to fund the OPEB Plan, all future benefit payments were discounted using a high-quality municipal bond rate of 3.58%. The high-quality municipal bond rate was based on the week closest but not later than the measurement date of the S&P municipal Bond 20-year High Grade Index as published by S&P Dow Jones Indices. The S&P Municipal Bond Index consists of bonds in the S&P Municipal bond Index with a maturity of 20 years. Eligible bonds must be rated at least AA by Standard and Poor's Ratings Services, Aa2 by Moody's or AA by Fitch. If there are multiple ratings, the lowest rating is used.

Notes to the Financial Statements September 30, 2020

Changes in the Total OPEB Liability:

		Total	
	OPEB		
	Liability		
Reporting period ending September 30, 2019	\$	381,828	
Changes for the year:			
Service cost		24,912	
Interest		16,530	
Difference between expected and actual experience		27,016	
Changes of assumptions		141,642	
Contributions - employer		-	
Benefit payments		(22,762)	
Net changes		187,338	
Reporting period ending September 30, 2020	\$	569,166	

Changes in assumptions reflect a change in discount rate from 4.18% for the reporting period ending September 30, 2019 to 3.58% for the reporting period ending September 30, 2020. The changes in assumptions also reflect updated health care costs, premiums and trend rates, mortality rates, termination and disability rates as well as the rate of line-of-duty disabilities for firefighters.

Sensitivity of the Total OPEB Liability to changes in the discount rate

The following presents the total OPEB liability of the City, as well as what the City's total OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.58%) or 1-percentage point higher (4.58%) than the current discount rate:

	1% Decrease (2.58%)		Discount Rate		1% Increase	
				(3.58%)		(4.58%)
Total other postemployment						
benefits liability	\$	628,384	\$	569,166	\$	517,008

Sensitivity of the Total OPEB Liability to changes in the healthcare cost trend rates

The following presents the total OPEB liability of the City, as well as what the City's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower (3.00% to 6.50%) or 1-percentage point higher (5.00% to 8.50%) than the current healthcare cost trend rates:

	1% Decrease		Disc	ount Rate	1% Increase	
	(3.00%	% to 6.50%)	(4.000	% to 7.50%)	(5.00	% to 8.50%)
Total other postemployment						
benefits liability	\$	505,988	\$	569,166	\$	642,918

Notes to the Financial Statements September 30, 2020

OPEB expense and deferred outflows and inflows of resources related to OPEB

For the year ended September 30, 2020, the City recognized OPEB expense of \$64,247. On September 30, 2020, deferred outflows of resources and deferred inflows of resources related to OPEB were as follows:

	Γ	Deferred Outflows of		eferred
	Ou			flows of
Description	R	Resources		esources
Differences between expected and				
actual experience	\$	22,513	\$	-
Change in assumptions		118,035		27,132
City contributions subsequent to the				
measurement date		37,933		
Total	\$	178,481	\$	27,132

Deferred outflows of resources related to City contributions subsequent to the measurement date of September 30, 2019 will be recognized as a reduction of the total OPEB liability in the year ended September 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ending	
September 30,	 Amount
2021	\$ 20,305
2022	20,305
2023	20,308
2024	24,390
2025	 28,108
	\$ 113,416

Notes to the Financial Statements September 30, 2020

D. Employee retirement systems and pension plans

The City maintains three defined benefit single-employer pension plans:

- Municipal General Employees' Pension Plan
- Municipal Police Officers' Pension Plan
- Municipal Firefighters' Pension Plan

Summary of Significant Accounting Policies

The City accounts for all three plans as pension trust funds; therefore, they are accounted for in substantially the same manner as proprietary funds with an economic resources measurement focus and the accrual basis of accounting. Plan member contributions, employer contributions, and contributions from other entities are recognized in the period in which the contributions are due. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, information about the fiduciary net position of the plans and additions to/deductions from the plans' net position have been determined on the same basis as they are reported to the plans. For this purpose, benefits and refunds are recognized when due and payable in accordance with terms of the plans. Plan assets are valued at fair value for financial statement purposes, as reported within the annual trustee statements. The three pension plans were established by City ordinance and can be amended or terminated by City ordinance.

The defined benefit plans do not issue stand-alone financial reports and are not included in any other retirement system's or entity's financial report. Financial statements for the individual pension plans are presented below since separate GAAP financial reports have not been issued for the individual plans.

Cash, Cash Equivalents, and Investments

If available, quoted market prices of identical assets are used to value investments. Purchases and sales of investment securities are recorded on a trade-date basis. Many factors are considered in arriving at fair value. In general, however, certificates of deposit, corporate bonds and government obligations are valued by surveying various market makers and dealers, as well as data from the new issue market and yields currently available on comparable securities of issuers with similar credit ratings. Investments in equity funds are valued at the quoted market price of identical assets. Investments are held with a registered security dealer. Investment decisions are made by the investment advisor who provides quarterly reports of the investment portfolio and its performance to the Board of Trustees for each plan. Performance is assessed quarterly by A.G. Edwards. The Pension Plans did not hold investments in any one organization that represents 5% or more of each Plan's fiduciary net position.

The money weighted rate of return expresses investment performance, net of investment expenses, adjusted for the changing amounts actually invested. For the fiscal year ended September 30, 2020, the money-weighted rate of return on plan investments, net of investment expense, was as follows:

Money-weighted rate of return General Fire Police

3.10% 2.29% 2.00%

Notes to the Financial Statements September 30, 2020

Tax Status: All plans are exempt from federal income taxes under the provisions of Section 501(a) of the Internal Revenue Code.

General Information about the Pension Plans

Plan Description:

Members of the police officers' and firefighters' pension plans consist of full-time police officers and firefighters and members of the general employees' pension plan consists of all full-time employees classified as general employees.

The administration and responsibility for the proper operation of the retirement systems and trusts is vested each plan's Board of Trustees as set forth by City Ordinance. The General Pension Plan's Board consists of: the Mayor and/or Commissioner appointed by the City Commission, the Finance Director as a non-voting member of Board, two employee members to be elected by a majority of the actively employed members of the retirement system, and two members selected by the Board and appointed by the City Commission. The Police and Firefighter Pension Boards each consist of two Commission appointees, two members of the fund elected by membership, and a fifth member elected by the first four members and appointed by the City Commission.

Benefits Provided:

Benefits for police officers and firefighters are payable at normal retirement, the earlier of age 55 with 10 years of creditable service or age 50 with 25 years of creditable service, equal to 3% of average final compensation multiplied by the number of service years with a maximum annual benefit of \$75,000. The average final compensation is based on annual compensation of the 5 highest paid years of the last 10 years of creditable service. Both plans provide for early retirement with reduced benefits at age 50 and provide disability, death, and survivor benefit provisions. Members who have accrued the maximum annual benefit of \$75,000 no longer make contributions to the plan.

Benefits for general employees are payable at normal retirement, upon the attainment of age 60 with 10 years of creditable service. The normal retirement benefit is equal to 2.5% of average final compensation multiplied by the number of creditable service years with a maximum annual benefit of \$75,000. The average final compensation is based on annual compensation of the highest 5 consecutive years of service. The plan provides for early retirement with reduced benefits at age 55 and provides death and survivor benefit provisions. Members who have accrued the maximum annual benefit of \$75,000 no longer make contributions to the plan.

Police, fire and general employees who have satisfied the requirements for normal retirement are eligible to participate in the Deferred Retirement Option Program (DROP) for up to five years. During the DROP period, the member accrues a benefit amount equal to what would have been the members retirement benefit had the member retired as of the date of entry into the DROP program plus earnings. This accumulated amount is paid in a lump-sum when the member leaves active service at the end of the DROP period. Amounts held in DROP accounts as of September 30, 2020, are \$303,175 for the General Pension Plan, \$-0- for the Police Officers' Pension Plan and \$-0- for the Firefighters' Pension Plan.

Notes to the Financial Statements September 30, 2020

Participant Data: Plan membership detail is as follows:

	As of	As of October 1, 2019			
	General	Fire	Police		
	Employees'	Fighters'	Officers'		
	Pension	Pension	Pension		
	Fund	Fund	Fund		
Inactive Plan members or beneficiaries currently receiving benefits	48	13	28		
Inactive Plan members entitled to but not yet receiving benefits	16	6	2		
Active Plan members	107	31	45		
Total	171	50	75		

Contributions Required and Contribution Made

City contributions are based upon an actuarially determined rate recommended by an independent actuary and adopted by the respective Board of Trustees. The City contributes an amount equal to the difference between the total aggregate member contributions and the actuarial required annual contributions to the plans. The Police Officers' and the Firefighters' Pension Funds receive contributions from the State of Florida from a tax on casualty and property insurance premiums, which the City may use to offset the City contribution (subject to limits).

The City's annual contributions for the current year for each plan are as follows:

	Genera	al Employees'	Fir	efighters'	Poli	ce Officers'
Contribution rates/amounts:	Pen	nsion Fund Pension Fund		Pension Fund Pension		sion Fund
City and State contributions	\$	334,913	\$	591,307	\$	548,025
Plan members		5.0%		5.0%		5.0%

The non-employee contributions above include City and State contributions paid to the Plans during the current fiscal year and from contributions recognized as a receivable by the individual Plans.

The annual required contribution for the 2020 fiscal year was determined as part of the October 1, 2018 actuarial valuations. The assumptions did not include post retirement cost of living adjustment.

Changes in the Net Pension Liability: The following schedules represent the changes in the net pension liability as of the City's measurement date of September 30, 2019 for each of the pension plans in which the City participates. As a result, the individual Plan Fiduciary Net Position in the schedules below will not agree to the individual Plan Fiduciary Net Position as of September 30, 2020.

Reporting period ending 9/30/2020	\$	17,652,714	\$	15,884,811	1,767,903

The net pension liability of each Plan was measured as of September 30, 2019 for financial reporting purposes and the total pension liability used to calculate the net pension liability for this purpose was determined by actuarial valuations as of October 1, 2019, updated to September 30, 2020. Significant actuarial assumptions used to measure the total pension liability are as follows:

	General Employees' Pension Fund	Firefighters' Pension Fund	Police Officers' Pension Fund
Significant assumptions:			
Investment rate of return	7.50%	7.75%	7.65%
Projected salary increase*	Service based	Service based	Service based
*Includes inflation at	2.50%	2.50%	2.50%
Post retirement COLA	0.00%	0.00%	0.00%
Experience study used	July 25, 2018	September 24, 2018	September 24, 2018

Mortality rates used to determine the total pension liability as of the September 30, 2019 measurement date were based on the RP-2000 mortality tables for active, inactive and disabled males or females, as appropriate, with adjustments for mortality improvements based on Scale BB.

The long-term rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investments expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Notes to the Financial Statements September 30, 2020

Best estimates of arithmetic real rates of return for each major asset class included in each pension plan's target asset allocation as of September 30, 2020 are summarized below:

General Employees' Pension Plan:

		Long Term Expected Real Rate
Asset Class	Target Allocation	of Return
Domestic Equity	50%	6.54%
International Equity	15%	6.69%
Fixed Income	35%	3.89%
	100%	

Firefighters' and Police Officers' Pension Plans:

		Long Term Expected Real Rate
Asset Class	Target Allocation	of Return
Domestic Equity	45%	8.50%
International Equity	15%	4.10%
Bonds	30%	3.70%
Private Real Estate	10%_	5.00%
	100%	

Pension Expense and Deferred Outflows and Inflows of Resources Related to Pensions

For the year ended September 30, 2020, the City recognized total pension expense of \$1,997,359 comprised of pension expense of \$669,301, \$666,325 and \$661,733 for the General Employees' Pension Fund, Firefighters' Pension Fund and Police Officers' Pension Fund, respectively. On September 30, 2020, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

General Employees' Pension Fund:

	C	Deferred Dutflows Resources	Inflows of Resources		
Differences between expected and actual experience	\$	84,256	\$	77,926	
City contributions made subsequent to the					
measurement date of September 30, 2019		335,298		-	
Change in assumptions		45,633		-	
Net difference between projected and actual					
earnings on pension plan investments		325,551			
Total	\$	790,738	\$	77,926	

Notes to the Financial Statements September 30, 2020

Firefighters' Pension Fund:

	(Deferred Dutflows	Deferred Inflows		
	of Resources		01	Resources	
Differences between expected and actual experience	\$	58,320	\$	284,460	
City contributions made subsequent to the					
measurement date of September 30, 2019		591,307		-	
Change in assumptions		146,079		18,970	
Net difference between projected and actual					
earnings on pension plan investments		289,030			
Total	\$	1,084,736	\$	303,430	

Police Officers' Pension Fund:

	Deferred Outflows of Resources		eferred nflows Resources
Differences between expected and actual experience	\$ -	\$	658,041
City contributions made subsequent to the			
measurement date of September 30, 2019	548,025		-
Change in assumptions	241,019		-
Net difference between projected and actual			
earnings on pension plan investments	522,970		_
Total	\$ 1,312,014	\$	658,041

Amounts reported as deferred outflows of resources related to City contributions subsequent to the measurement date of September 30, 2019 will be recognized as a reduction of the net pension liability in the year ended September 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

		General						
Year ended	Eı	nployees'		Firefighters'		Police Officers'		
September 30,	Per	sion Fund	Pension Fund		Pension Fund		Total	
2021	\$	111,347	\$	37,429	\$	(42,824)	\$	105,952

			_					

Notes to the Financial Statements September 30, 2020

Discount Rate: The discount rate used to measure the total pension liability for each plan was as follows:

- General Employees' Pension Plan 7.50%
- Firefighters' Pension Plan 7.75%
- Police Officers' Pension Plan 7.65%

The projection of cash flow used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that sponsor contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate.

Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liabilities to Changes in the Discount Rate: The following presents the net pension liabilities of the Plans, calculated using the applicable current discount rate as well as what the Plans' net pension liabilities would be if they were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

Sensitivity of the Net Pension Liabilities as of the City's measurement date of September 30, 2019:

	Current			
	Discount		Current	
	Rate	1% Decrease	Discount	1% Increase
City's Net Pension General Employees Liability	7.50%	\$ 2,995,032	\$ 1,480,182	\$ 222,572
City's Net Pension Firefighters Liability	7.75%	\$ 5,175,871	\$ 3,653,096	\$ 2,380,239
City's Net Pension Police Officers Liability	7.65%	\$ 3,823,148	\$ 1,767,903	\$ 51,277
Total		\$ 11,994,051	\$ 6,901,181	\$ 2,654,088

Sensitivity of the Net Pension Liabilities as of the Plans' current fiscal year of September 30, 2020:

	Current			
	Discount		Current	
	Rate	1% Decrease	Discount	1% Increase
City's Net Pension General Employees Liability	7.50%	\$ 3,192,516	\$ 1,670,328	\$ 403,560
City's Net Pension Firefighters Liability	7.75%	\$ 5,462,079	\$ 3,961,108	\$ 2,687,278
City's Net Pension Police Officers Liability	7.60%	\$ 4,438,261	\$ 2,396,281	\$ 664,835
Total		\$ 13,092,856	\$ 8,027,717	\$ 3,755,673

The net effect of significant changes between the City's measurement date of September 30, 2019 and the Plans' reporting date of September 30, 2020 can be seen in the tables above.

Notes to the Financial Statements September 30, 2020

pension mability	87.08%	/0.2/%	86.91%	82.23%

Notes to the Financial Statements September 30, 2020

E. Defined Contribution Plan

The City of Lake Wales Money Purchase Plan, sponsored by the City, is a defined contribution plan available to upper-level management of the City who elect not to participate in the defined benefit plan offered by the City. There is 1 active participant in the plan. The plan required City contributions of 6.8% and employee contribution of 5% for fiscal year ending September 30, 2020.

The funds are invested in life insurance, annuity contracts and a variable rate investment plan. The asset management change is deducted from individual contracts, where applicable. Total pension contributions for the year ended September 30, 2020 were approximately \$60,654 (City's contribution of \$49,067, employees' contributions of \$11,587) on covered payroll of \$275,760. No pension provision changes occurred during the year that affected the City's required contribution. The vesting schedule allows 100% vesting immediately. The plan held no securities of the City or other related parties as of and for the year ended September 30, 2020.

F. Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the City is a member of Florida Municipal Insurance Trust (FMIT), a non-assessable, nonprofit, tax-exempt risk-sharing pool. The FMIT program is structured under a self-insured retention insurance program, whereby FMIT pays claims up to a specified amount annually for property and general liability, public officials' liability, automobile liability and workers' compensation. FMIT purchases excess insurance or stop-loss insurance from commercial carriers to cover losses above the self-insured retention amounts.

The FMIT is governed by a board of elected officials and these officials approve an actuarially recommended premium structure based on loss experience. Losses, if any, in excess of FMIT's ability to assess its members would revert back to the member that incurred the loss. As of September 30, 2020, no additional assessments (premiums) could be required from the City to fund prior year costs of the risk pool. Settlements have not exceeded coverages for each of the past three years.

G. Joint Venture

Background - The Polk Regional Water Cooperative (PRWC) was created on April 1, 2016 by a interlocal agreement between the City of Lake Wales, City of Auburndale, City of Bartow, City of Davenport, City of Eagle Lake, City of Fort Meade, City of Frostproof, City of Haines City, City of Lake Alfred, City of Lakeland, City of Mulberry, Polk City, City of Winter Haven, Town of Dundee, Town of Lake Hamilton and Polk County in accordance with Chapters 163 and 373 of the Florida Statutes. These local government units are collectively considered the Member Governments. The PRWC is a separate legal entity organized under the laws of the State of Florida, and the Member Governments have no equity ownership in the PRWC.

The PRWC is devoted to encouraging the development of fully integrated, robust public water supply systems comprised of diverse sources managed in a manner that take full advantage of Florida's intense climatic cycles to ensure reliable, sustainable and drought resistant systems which maximize the use of alternative water supplies to the greatest extent practicable. The PRWC will evaluate, plan and implement water projects and coordinate partnerships with other water users.

Notes to the Financial Statements September 30, 2020

Membership fees - The terms of the interlocal agreement require each Member Government to contribute their proportionate share of the PRWC's annual working capital needs which are established annually by a resolution of the PRWC's Board of Directors. For the year ended September 30, 2020, the total annual working capital needs of the PRWC was \$198,000, of which the City's proportionate share was \$7,507.

<u>Combined projects background</u> - The Member Governments, except for the City of Frostproof, entered into a combined projects implementation agreement on March 16, 2017. This agreement established three combined projects to be pursued by the PRWC with a total estimated cost of \$23,000,000. The South West Florida Water Management District (SWFWMD) is funding 50% of the total estimated cost and the remainder is funded by the Member Governments based upon their average water use in comparison to the total average water use by all Member Governments.

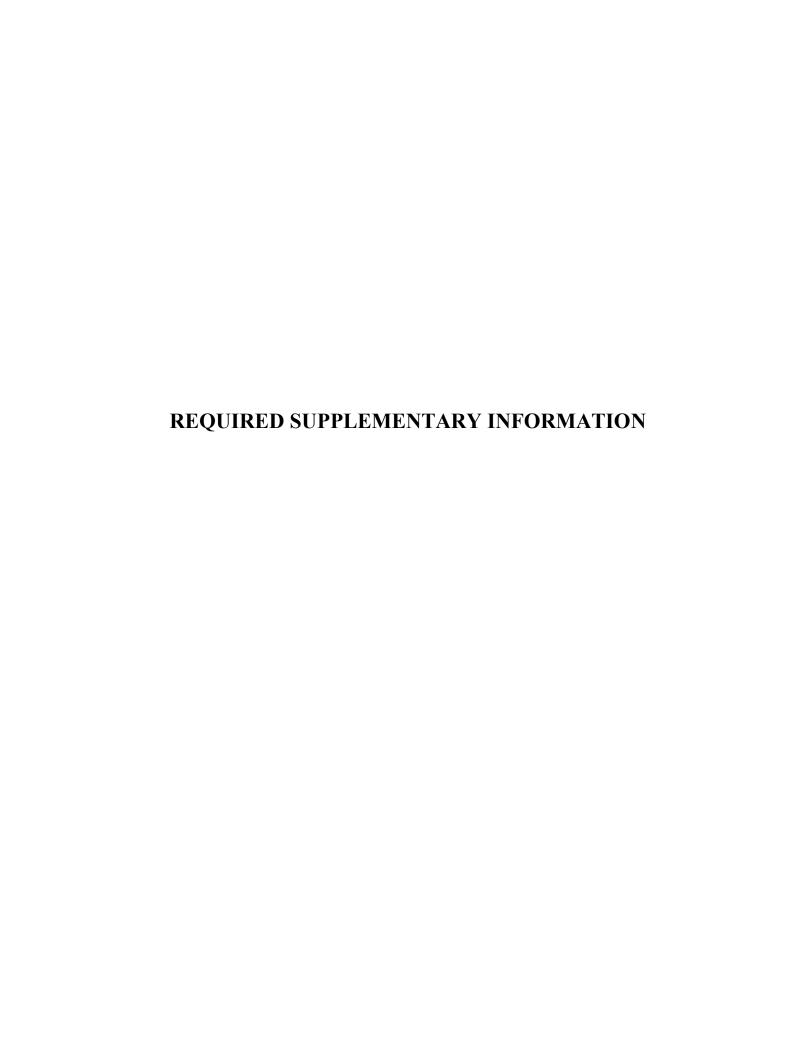

Combined projects funding - The PRWC has entered into a state revolving fund (SRF) loan agreement with the State of Florida Department of Environmental Protection (FDEP) to borrow up to \$9,914,390 to assist Member Governments in meeting their local share of the total estimated combined project costs. Member Governments can elect to fund their local share of the project costs from their existing funds or participate in the SRF loan agreement. The City has elected to participate in the SRF loan agreement to fund their estimated local share (\$467,520) of the project costs and as a result have entered into an agreement with FDEP to guarantee the City's payment of their share of the SRF loan debt service requirements. The SRF loan bears interest at 1.89% and principal and interest are due semiannually beginning on December 15, 2024 for a ten-year term to maturity on December 15, 2033.

As of September 30, 2020, \$6,169,233 of SRF funds have been drawn by the PRWC. The City's proportionate share of this liability totaled \$290,916 as of September 30, 2020 and has been recorded as a City liability in the business-type activities/enterprise fund. See Note III.G for more detail.

<u>Contact</u> - Complete financial statements of the PRWC may be obtained from the PRWC's Executive Director at 330 W. Church Street, P.O. Box 9005, Drawer CA01, Bartow, FL 33831-9005.

Notes to Schedule:

For the year ended September 30, 2018, amounts reported as changes of assumptions resulted from the following:

- The salary increase assumption was changed from 6.50% for all years of service to 10% for the first year of service and 4.5% for all other years.
- The investment return assumption was reduced from 7.75% to 7.50% per year.

For the year ended September 30, 2016, 2018 and 2020, as a result of Chapter 2015-157, Laws of Florida, the assumed rates of mortality were changed to the assumptions used by the Florida Retirement System for special risk employees.

For the year ended September 30, 2016, the inflation rate was lowered from 3.0% to 2.5%, matching the long-term inflation assumption utilized by the Plan's investment consultant.

Notes to Schedule:

For the year ended September 30, 2019, amounts reported as changes of benefit terms resulted from the provisions of Chapter 112.1816 Florida Statutes which states that a death or disability (under the Plan's definition of total and permanent disability) for a firefighter due to the diagnosis of cancer or circumstances that arise out of cancer treatment will be treated as duty related.

For the year ended September 30, 2018, the assumed rates of salary increases were amended from a flat 5.75% per year to a service-based table which assumes a 10.0% increase following the year of employment, 7.50% increases per year in the next four years, and 4.50% increases per year thereafter.

For the year ended September 30, 2016 and 2020, as a result of Chapter 2015-157, Laws of Florida, the assumed rates of mortality were changed to the assumptions used by the Florida Retirement System for special risk employees.

For the year ended September 30, 2016, the inflation rate was lowered from 3.0% to 2.5%, matching the long-term inflation assumption utilized by the Plan's investment consultant.

Notes to Schedule:

For the year ended September 30, 2019, amounts reported as changes of assumptions resulted from lowering the investment return assumption from 7.70% to 7.65%.

For the year ended September 30, 2018, amounts reported as changes of assumptions resulted from the following:

- The salary increase assumption was changed from 5.75% for all years of service to 10% for the first year of service and 5.0% for all other years.
- The investment return assumption was reduced from 7.75% to 7.70% per year.
- The assumed rates of withdrawal were amended from an age-based assumption to a service-based assumption.

For the year ended September 30, 2016 and 2020, as a result of Chapter 2015-157, Laws of Florida, the assumed rates of mortality were changed to the assumptions used by the Florida Retirement System for special risk employees

For the year ended September 30, 2016, the inflation rate was lowered from 3.0% to 2.5%, matching the long-term inflation assumption utilized by the Plan's investment consultant.

Notes to Schedule of Contributions

Valuation Date 10/1/2018

Actuarial determined contribution rates are calculated as of October 1, two years prior to the end of the fiscal year in which contributions are reported.

Methods and assumptions used to determine contribution rates:

Actuarial Cost Method: Frozen entry age

Amortization Method: Level percentage of pay, closed

Actuarial Asset Method: 4-year average market value return, net of fees

Inflation 2.50% Payroll Growth 1.55%

Pensionable Earnings Increase: 10% for the first year of service and 4.5% for all other years.

Interest Rate: 7.50% per year, compounded annually, net of investment related expenses.

Retirement Age: Age 60 and 10 years of service

Mortality: Mortality rates were based on the RP-2000 tables for active, inactive and disabled males or females, as appropriate, with adjustments for

mortality improvements based on Scale BB.

Termination and Disability Rates:

Age	20	30	40	50	60
% becoming disabled during the year	0.05%	0.06%	0.12%	0.43%	1.61%
% terminating during the year	46.32%	23.28%	13.14%	10.44%	10.44%

Notes to Schedule of Contributions

Valuation Date 10/1/2018

Actuarial determined contribution rates are calculated as of October 1, two years prior to the end of the fiscal year in which contributions are reported.

Methods and assumptions used to determine contribution rates:

Actuarial Cost Method: Entry age normal

Amortization Method: Level percentage of pay, closed

Actuarial Asset Method: 4-year average market value return, net of fees

Inflation 2.50%

Payroll Growth 1.0% per year

Salary Increases: 10% for the first year of service, 7.50% for the next four years and 4.5% for all other years.

Interest Rate: 7.75% per year, compounded annually, net of investment related expenses.

Retirement Age: Earlier of age 55 and 10 years of credited service, or age 50 and 25 years of credited service.

Mortality: Mortality rates were based on the RP-2000 tables for active, inactive and disabled males or females, as appropriate, with adjustments for

mortality improvements based on Scale BB.

The Covered Employee Payroll numbers shown are in compliance with GASB 82, except for the 9/30/2015 measurement period which includes DROP payroll.

Termination and Disability Rates:

Age	20	30	40	50		
% becoming disabled during the year	0.14%	0.18%	0.30%	1.00%		
% terminating during the year	6.00%	5.00%	2.60%	0.80%

Total OPEB liability, ending	\$ 569,166	\$ 381,828	\$ 384,402
Covered-employee payroll	\$ 6,890,375	\$ 7,523,224	\$ 7,149,077
Total OPEB liability as a percentage of covered-employee payroll	8.26%	5.08%	5.38%

Notes to Schedule:

No assets are being accumulated in a trust to pay for plan benefits.

Additional information will be provided annually until ten years of data is presented.

Changes of Assumptions:

The following discount rates are those used for each measurement date:

Measurement Date	Discount Rate
September 30, 2016	3.06%
September 30, 2017	3.64%
September 30, 2018	4.18%
September 30, 2019	3.64%

Additional changes in assumptions for the September 30, 2019 measurement date include:

- Updated health care costs, premiums and cost trend rates.
- Updated mortality tables.
- Updated termination and disability rates.
- Added assumption regarding the rate of disabilities occurring in the line of duty for firefighters.

Source: Polk County Property Appraiser - Form DR-403V

Note: Property in the county is reassessed annually, January 1st of each year. The county assesses property at approximately 85% of actual value for real property and 100% for personal property.

Estimated actual value is calculated by dividing assessed value by those percentages. Tax rates are per \$1,000 of assessed value.

- (1) Includes tax-exempt property
- $(2)\ Homestead\ exemption\ was\ increased\ an\ additional\ \$25{,}000\ for\ qualifying\ properties.$

Note: Details regarding the City's outstanding debt can be found in the notes to the financial statements. Per Capita Income information is not available.

City of Lake Wales, Florida Direct and Overlapping Governmental Activities Debt As of September 30, 2020

Taxing Authority	 Debt Outstanding	Estimated Percentage Applicable	Estimated Share of verlapping Debt
City of Lake Wales	\$ 8,809,819	100.00%	\$ 8,809,819
Total Direct Debt	 8,809,819		 8,809,819
County of Polk (1)	174,702,684	2.06%	3,602,322
Polk County School Board (2)	384,617,289	2.06%	7,930,704
Total Overlapping Debt	559,319,973		11,533,026
Total Direct and Overlapping Debt	\$ 568,129,792		\$ 20,342,845

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the city. The schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City of Lake Wales. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account.

Notes to the Schedule of Expenditures of Federal Awards For the Year Ended September 30, 2020

Note 1 – General

The accompanying schedule of expenditures of federal awards presents the activities of all federal award programs of the City of Lake Wales, Florida (the City), as well as the Lake Wales Airport Authority (the discretely presented component unit) for the year ended September 30, 2020.

Federal awards received directly, as well as passed through to other government agencies, if any, are included in the schedule. For the year ended September 30, 2020, the City had no subrecipients and therefore did not pass any awards through to other government agencies.

Note 2 – <u>Basis of Accounting</u>

The accompanying schedule of expenditures of federal awards are presented using the same basis of accounting as the fund in which the grant is recorded, generally the accrual or modified accrual basis, as described in Note 1 to the City's financial statements. The City's federal awards did not include indirect cost reimbursement and, therefore, the City did not elect to use the 10 percent de minimis cost rate as covered by 2 CFR 200.414.

Note 3 – Contingencies

The grant revenue amounts received are subject to audit and adjustment. If any expenditures or expenses are disallowed by the grantor agencies as a result of such an audit, any claim for reimbursement to the grantor agencies would become a liability of the City. In the opinion of management, all grant expenditures are in compliance with the terms of the grant agreements and applicable federal and state laws and regulations.

Grant monies received and disbursed by the City or discretely-presented component unit are for specific purposes and are subject to review by the grantor agencies. Such reviews potentially may result in disallowed expenditures.

Note 4 - Non-Cash Contributions

The City did not receive any federal non-cash assistance, including personal protection equipment, for the fiscal year ended September 30, 2020.

Schedule of Expenditures of State Financial Assistance For the Year Ended September 30, 2020

State Grantor/Program Title	Grant Number	CSFA Number	Expenditures
State of Florida Department of Environmental Protection			
Major Sewer Rehabilitation/Replacement	530380	37.077	427,830
Rehab of Reuse System	530350	37.077	944,034
Lake Wales Sand and Grit Removal	SG048	37.075	262,917
Total State of Florida department of Environmental Protection			1,634,781
Florida Department of Transportation			
Joint Participation Agreement - Taxiway Bravo North	443117-1-94-01, G0U42	55.004	811
Joint Participation Agreement - Taxiway Alpha East	443118-1-94-01, G0U43	55.004	208,708
Joint Participation Agreement - Taxiway Bravo South	443119-1-94-01, G0U45	55.004	16,496
Total Florida Department of Transportation			226,015
Total Expenditures of State Financial Assistance			\$ 1,860,796

⁽¹⁾ SRF - 530310 Loan Balance at September 30, 2020 - \$4,778,423

⁽²⁾ SRF - 530330 Loan Balance at September 30, 2020 - \$2,540,703

⁽³⁾ SRF - 530380 Loan Balance at September 30, 2020 - \$1,109,549

⁽⁴⁾ SRF - 530350 Loan Balance at September 30, 2020 - \$1,073,008

Notes to the Schedule of Expenditures of State Financial Assistance For the Year Ended September 30, 2020

Note 1 – General

The accompanying schedule of state financial assistance presents the activities of all state financial assistance projects of the City of Lake Wales, Florida (the City), as well as the Lake Wales Airport Authority (the discretely presented component unit) for the year ended September 30, 2020.

State financial assistance received directly, as well as those passed through to other government agencies, if any, are included in the schedule. For the year ended September 30, 2020, the City had no subrecipients and therefore did not pass any awards through to other government agencies.

Note 2 – Basis of Accounting

The accompanying schedule of state financial assistance is presented using the same basis of accounting as the fund in which the grant is recorded, generally the accrual or modified accrual basis, as described in Note 1 to the City's financial statements.

Note 3 – Contingencies

The grant revenue amounts received are subject to audit and adjustment. If any expenditures or expenses are disallowed by the grantor agencies as a result of such an audit, any claim for reimbursement to the grantor agencies would become a liability of the City. In the opinion of management, all grant expenditures are in compliance with the terms of the grant agreements and applicable federal and state laws and regulations.

Grant monies received and disbursed by the City or discretely presented component unit are for specific purposes and are subject to review by the grantor agencies. Such reviews potentially may result in disallowed expenditures.

Note 4 – Non-Cash Contributions

The City did not receive any state non-cash assistance, including personal protection equipment, for the fiscal year ended September 30, 2020.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND STATE PROJECT AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE AND CHAPTER 10.550

Honorable Mayor, Members of the City Commission, and City Manager City of Lake Wales, Florida

Report on Compliance for Each Major Federal Program and Each Major State Project

We have audited City of Lake Wales, Florida's (the "City") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* and the requirements described in the Florida Department of Financial Services' State Projects *Compliance Supplement* that could have a direct and material effect on each of the City's major federal programs and major state projects for the year ended September 30, 2020. The City's major federal programs and major state projects are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal and state statutes, regulations, and the terms and conditions of its federal and state awards applicable to its federal programs and state projects.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the City's major federal programs and major state projects based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance); and the audit requirements of Chapter 10.550, *Rules of the Auditor General* ("Chapter 10.550"). Those standards, the Uniform Guidance, and Chapter 10.550 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program or major state project occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program and major state project. However, our audit does not provide a legal determination of the City's compliance.

Opinion on Each Major Federal Program and Each Major State Project

In our opinion, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs and major state projects for the year ended September 30, 2020.

Report on Internal Control Over Compliance

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program and major state project to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and major state project and to test and report on internal control over compliance in accordance with the Uniform Guidance and Chapter 10.550, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program or state project on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program or state project will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program or state project that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and Chapter 10.550. Accordingly, this report is not suitable for any other purpose.

PART V - SUMMARY OF PRIOR YEAR AUDIT FINDINGS

2019-001: US Department of Transportation-Federal Aviation Administration - CFDA 20.109 Airport Improvement Program

Condition: Required Annual Federal Financial Report (SF-425) was not filed with the Federal Aviation Administration (FAA) for grants that were open as of fiscal year end.

Recommendation: The City should file the 2019 SF-425 and establish appropriate monitoring for timely submission of future filing requirements. Any future verbal communications that are contrary to written requirements should be substantiated in writing.

Current Status: The 2019 SF-425 was filed and the 2020 SF-425 was filed timely in accordance with the contract. No similar finding for the current year.

Carr, Riggs & Ingram, LLC 1031 West Morse Boulevard Suite 200 Winter Park, FL 32789

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Mayor, Members of the City Commission, and City Manager City of Wales, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Lake Wales, Florida (the "City"), as of and for the year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise the City's basic financial statements and have issued our report thereon dated April 16, 2021.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

MANAGEMENT LETTER

The Honorable Mayor, Members of the City Commission and City Manager City of Lake Wales, Florida

Report on the Financial Statements

We have audited the financial statements of the City of Lake Wales, Florida (the "City"), as of and for the fiscal year ended September 30, 2020, and have issued our report thereon dated April 16, 2021.

Auditors' Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and Chapter 10.550, Rules of the Auditor General.

Other Reporting Requirements

We have issued our Independent Auditors' Report on Internal Control over Financial Reporting and Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards*, Independent Auditors' Report on Compliance for Each Major Program and Report on Internal Control over Compliance; Schedule of Findings and Questioned Costs; and Independent Accountants' Report on an examination conducted in accordance with *AICPA Professional Standards*, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, Rules of Auditor General. Disclosures in those reports and schedule, which are dated April 16, 2021, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. Audit finding 2019-001 was corrected and no findings noted during the current year.

Financial Condition and Management

Section 10.554(1)(i)5.a. and 10.556(7), Rules of the Auditor General, require us to apply appropriate procedures and communicate the results of our determination as to whether or not the City has met one of more of the conditions described in Section 218.503(1), Florida Statutes, and to identify the specific conditions met. In connection with our audit, we determined that the City did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.554(1)(i)5.b. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures. It is management's responsibility to monitor the City's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we communicate any recommendations to improve financial management. We recommend the City implement a review process of the Schedule of Expenditures of Federal Awards and State Assistance to ensure the expenditures reported are related to the grant agreements.

Additional Matters

Section 10.554(1)(i)3., Rules of the Auditor General, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but warrants the attention of those charged with governance. In connection with our audit, we did not note any such findings.

Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE WITH SECTION 218.415, FLORIDA STATUTES

Honorable Mayor, Members of the City Commission, and City Manager City of Lake Wales, Florida

We have examined City of Lake Wales, Florida's, (the "City"), compliance with the requirements of Section 218.415, Florida Statutes, *Local Government Investment Policies*, during the year ended September 30, 2020. Management is responsible for the City's compliance with the requirements. Our responsibility is to express an opinion on the City's compliance with the specified requirements based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the City complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether the City complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Our examination does not provide a legal determination on the City's compliance with specified requirements.

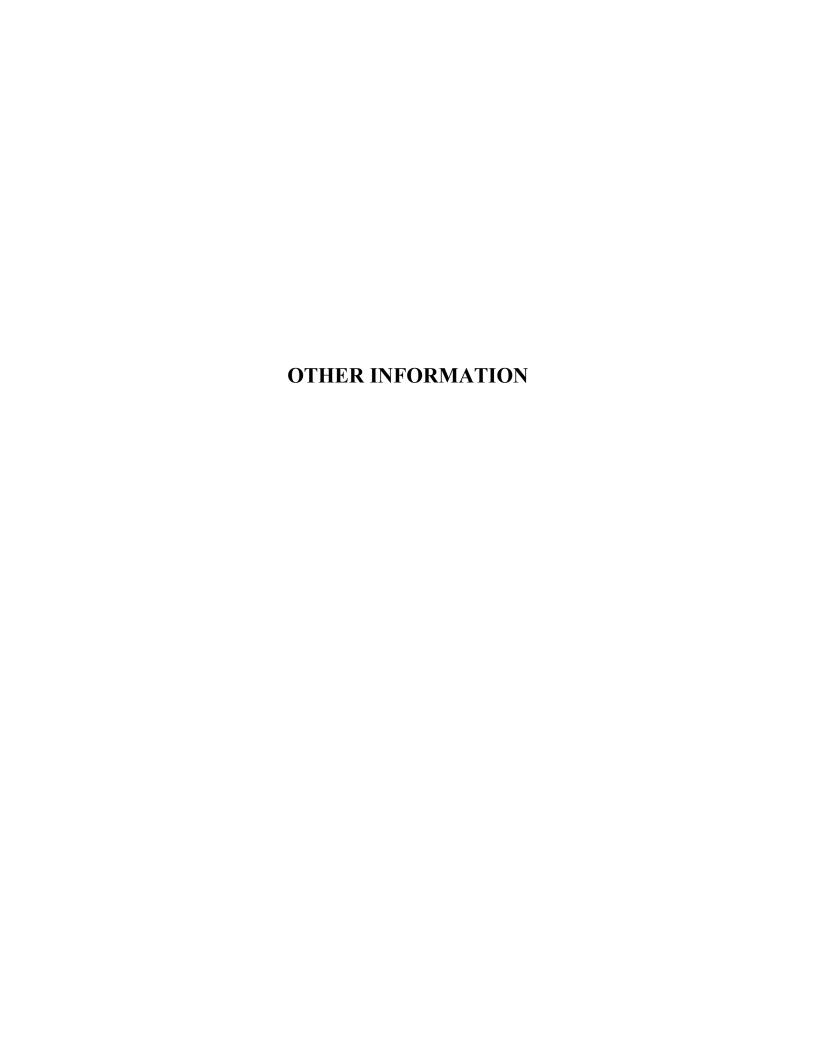

In our opinion, the City complied, in all material respects, with the aforementioned requirements for the year ended September 30, 2020.

This report is intended solely for the information and use of management and the State of Florida Auditor General and is not intended to be and should not be used by anyone other than these specified parties.
