I. INTRODUCTORY SECTION

City of North Miami Beach, Florida

April 30, 2021

To the Citizens, Mayor, and City Commission of the City of North Miami Beach:

We are pleased to submit the Comprehensive Annual Financial Report (“CAFR”) of the City of North Miami Beach, Florida, for the fiscal year ended September 30, 2020. The CAFR is issued pursuant to Florida Statute 218.39(1) which requires municipalities meeting certain criteria to have an annual financial audit of its accounts and records by an independent certified public accountant in accordance with rules of the Auditor General within nine months of the close of each fiscal year.

This report consists of management's representations concerning the finances of the City of North Miami Beach. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the City has established a comprehensive internal control framework that is designed both to protect the City's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City of North Miami Beach's financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP). Because the cost of internal controls should not outweigh their benefits, the City's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The City's financial statements have been audited by Caballero Fierman Llerena + Garcia, LLP, a licensed certified public accounting firm. The goal of the independent audit is to provide reasonable assurance that the City's financial statements for the fiscal year ended September 30, 2020, were free of material misstatement. An independent audit involves examining on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. Based upon their audit, the independent auditors concluded that there was a reasonable basis for rendering an unmodified opinion that the City of North Miami Beach's financial statements for the fiscal year ended September 30, 2020, are fairly presented in conformity with GAAP. The report of the independent certified public accountants is presented as the first component of the financial section of this report.

The CAFR is used to assist in making economic decisions, and to assist citizens in assessing accountability and transparency by:

- Assessing financial condition and results of operations;
- Comparing actual financial results with legally adopted budgets, where appropriate;
- Assisting in determining compliance with finance related laws, rules and regulations; and
- Assisting in evaluating the efficiency and effectiveness of City operations.

This report includes all funds of the City as well as criteria for defining the financial reporting entity of the City as promulgated by the Governmental Accounting Standards Board (GASB). The GASB is the official standard setting body of the accounting principles generally accepted in the United States of America as it applies to local governmental units.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The City of North Miami Beach's MD&A can be found immediately following the report of the independent certified public accountants.

Profile of the Government

The City of North Miami Beach was incorporated on October 4, 1926 and operates under a Commission - Manager form of government. The City Commission is comprised of the Mayor and six Commission members. Together they are responsible for enacting ordinances, resolutions and regulations governing the City as well as appointing the members of various advisory boards, the City Manager, City Attorney and City Clerk. As Chief Administrative Officer, the City Manager is responsible for the enforcement of laws and ordinances; appointing and supervising the department directors of the City; submitting the proposed annual budget; advising Commission as to the financial condition of the City; and overseeing the day-to-day operations of the City.

The City of North Miami Beach is a first-tier suburb covering an area of five and a third square miles located in northeastern Miami-Dade County, which is in the southeast part of Florida. The City is strategically located midway between Fort Lauderdale and Miami. 163rd Street is the most heavily traveled east to west corridor in Miami-Dade County as it is the gateway to both the Oleta River State Park and the beaches, and the Golden Glades Interchange: the convergence of five major roadways serving eastern and southern Florida, including Florida's Turnpike, the Palmetto Expressway (State Road 826), and Interstate 95 (I-95). 163rd Street also intersects with Biscayne Boulevard and U.S. Route 1 (US1). In the immediate vicinity of the City are two large higher education campuses: Florida International University's (FIU) Biscayne Bay Campus and Nova Southeastern University's Fischler Graduate School.

Based on the number of parcels, the City is primarily a residential and shopping community. Single-family and multi-family residential uses amount to 53.2% and 6.4%, respectively. Commercial uses and industrial development represent 15% and 3%, respectively, of the City's land parcels. Actual manufacturing activities are limited to a few small fabricating enterprises. Recreational uses and conservation lands represent 2.7% and 12.6% of the City's land parcels respectively. The remaining land area is occupied by schools, churches and other related establishments.

The City of North Miami Beach provides a full range of municipal services for its citizens. These include public safety (fire protection is provided by Miami-Dade County), water, sewer, and stormwater utilities, public works, parks and recreation facilities, public library, code compliance, planning and zoning, economic development, and general and administrative services. A franchise contractor provides the City's sanitation services.

The *North Miami Beach Community Redevelopment Agency (the CRA)* was created by the Mayor and City Commission on December 21, 2004 by adoption of Resolution R2004-86 accepting a delegation of powers from the Miami-Dade Board of County Commissioners and declaring the Mayor and City Commission to be the Agency in accordance with Section 163.357 of the Florida Statutes under the Community Redevelopment Act of 1969, enacted by the Florida Legislature. Miami-Dade County retains the final authority to approve the annual CRA budget, redevelopment plan and amendments, and the issuance of long-term debt. The City Commission acts as the CRA's Board of Directors, the Mayor is the Chairman and the City Manager is the Executive Director. The purpose of the CRA is the elimination and prevention of blight conditions within the designated community redevelopment area. The CRA is a special revenue fund of the City of North Miami Beach and, therefore, has been included as a blended component unit and integral part of the attached financial statements. Additional information on this component unit can be found in the notes to the financial statements.

The annual budget serves as the foundation for the City of North Miami Beach's financial planning and control. All departments of the City submit requests for appropriation to the City Manager and these requests are the starting point for developing a proposed budget. The City Manager, thereafter, proposes a budget to the Commission for review. The Commission is required to hold public hearings on the proposed budget and to adopt a final budget no later than September 30, the close of the City's fiscal year. The appropriated budget is prepared by fund and department (e.g., police). No department may legally expend in excess of amounts appropriated for that department within an individual fund. The City Manager may make transfers of appropriations within a department and to a department from the contingency account. The City Commission approves supplemental appropriations; however, the City Manager is granted authority to amend, modify, or otherwise adjust the annual budget to a maximum limit of \$50,000 per individual occurrence. Budget-to-actual comparisons are provided in this report for the general fund and for each non-major governmental fund for which an appropriated annual budget has been adopted. For the General Fund and CRA, this comparison is presented as part of the required supplementary information.

Factors Affecting Financial Condition

Local economy. The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the environment within which the City of North Miami Beach operates. From a global perspective, the Congressional Budget Office (CBO) projects real GDP (gross domestic product) to decline over the next several years from the current rate of 3.7% to around 2.3% over the next several years and 1.6% over the years 2026-2031. The change in the inflation rate is expected to hover between 1.8% and 2.1 % over the next ten years. The annual average unemployment rate is projected to decrease from the current level of 5.7% to around 4.1% to 4.2% over the same period. The Florida Economic Estimating Conference published statistics in November 2020 indicating GDP for the State to remain fairly consistent between 1.6% and 2.4% over the ten-year period from 2021 to 2030. The civilian unemployment rate estimates remain relatively low between 3.7% to 4.1% over the same period.

The City is undergoing a renaissance period, demonstrated by a significant increase in new construction, increase in home values and a decrease in unemployment. In fact, the City has begun to see sustained growth in property values as there have been increases in each of the past five fiscal years. The development climate in the City is very positive as evidenced by the building permit revenue over the past several years. Management expects new growth and development to continue in the near future based on developer interest in the area.

Long-term financial planning. Financial planning continues to be of the utmost importance to the City, including the development of the City's Strategic Plan. During 2014, the City Commission developed its inaugural Strategic Plan, which established a Vision, a Mission and Goals. The Strategic Plan was updated during the spring of 2017. The current plan prioritizes policy and management agendas to provide focus for the City's long-term financial planning. The goals of the City's Strategic Plan include:

- Financially Sound City Government
- The Place to Live: Beautiful, Safe and Livable
- High Performing City Organization Providing Great Customer Services
- Revitalized Downtown and Major Corridors

Financially Sound City Government. The City's commitment to maintaining a Financially Sound City Government is demonstrated through substantial capital investment and maintenance programs. Unassigned fund balance is a useful measure for the City's current financial resources available for discretionary spending. This will ensure the City will have sufficient funds for future expected and unexpected events. For the fiscal year ended September 30, 2020, the General Fund unassigned fund balance was \$18.0 million, a decrease of 38.4 % below the prior year of \$29.2 million. The City has appropriated \$9.4 million of the unassigned fund balance for next year's capital improvement program in the fiscal year 2021 budget. The \$1.7 million reduction in the balances results from a necessary accounting adjustment as a result of implementation of a new utility billing system.

High Performing City Organization Providing Great Customer Services. The City has invested significant capital to enhance the services provided to customers through the development and promotion of the most qualified and motivated individuals to perform the duties and responsibilities required to make the City of North Miami Beach best in class. Some of the investments in human capital include the implementation of leadership development and training programs, the expansion of onboarding/orientation, and the expansion of wellness initiatives.

The Place to Live: Beautiful, Safe and Livable. The City continued implementation of the Parks and Recreation Master Plan including completion of Jack Chaiken Park and Hazel Fazzino Park. License Plate Readers were installed in strategic locations within the city to enhance traffic safety and assist with identification of vehicles reportedly involved in illegal activity. The City planted over 260 new trees and enhanced other plantings along Hanford Boulevard.

Revitalized Downtown and Major Corridors. The City is also committed to fostering an environment conducive to economic development, through the continued revitalization of the areas covered by the Community Redevelopment Agency (CRA). The City and CRA continue to work together to market the City and the redevelopment area to attract new businesses and improvement projects.

ACCOMPLISHMENTS AND INITIATIVES

► City Response to COVID

The City worked diligently to provide safe and sanitized facilities, including daily routine cleaning of the trolleys. Departments directly serving the public implemented social distancing measures; the City's face covering order has been rigorously observed; and daily temperature check-ins are in place for employees to access City facilities. Related departments partnered for "New Normal" education and inspections to encourage public compliance with City, County, and nationally issued COVID-related directives.

A Parks Virtual Programming Platform was developed to engage our youth, and Summer Care was successfully implemented under "New Normal" and CDC guidelines. Four to six remote programs have been delivered daily to all age groups by the City's Library. A COVID-19 survey and resources package was developed by the CRA for the business community.

The City continues to feed families through home deliveries and distribution events, and we are currently working with local partners to provide COVID-19 testing and food distribution for seniors.

To help keep our youth connected, 15 drive-by caravan birthday and graduation celebrations were held. A Virtual Job Fair featured 20 businesses that were hiring, and over 500 children were registered for a Book Bag Delivery event. Citizenship courses, gatherings for practicing conversational English, and story times are among our virtual offerings.

We have successfully transitioned to virtual meetings, enabling public participation to continue without interruption at our policy meetings.

A dedicated COVID hotline was established to provide callers with up-to-date information about City services and operations during the pandemic. Initially also a medium for keeping residents aware of City operations during the pandemic, Let's Talk NMB later became a forum for discussing a number of topics and featured over 40 community guests. We cultivated new partnerships with many local and national partners, who shared our vision for community engagement during the pandemic.

This summary reflects that our team has been extremely flexible and effective in responding to the pandemic, working within its confines and maintaining a high level of customer engagement with our community.

EXCEPTIONAL MUNICIPAL SERVICES

► Key Accomplishments

This has been a year of significant large-scale initiatives that are foundational to our providing exceptional municipal services for a long time to come. We have re-launched our annexation effort; implemented a Census 2020 community awareness program designed to achieve maximum count of all residents; adopted a new Strategic Plan; approved a citywide branding and marketing plan; conducted thorough, cross-departmental negotiations for our water contract; and began negotiations for the provision of solid waste collection and disposal.

We completed Mixed-Use Zoning Phase II Comprehensive Plan and Zoning Code Amendments. Approximately 12 land development applications were processed through to completion. Our Floodplain Management ordinance was approved. The City's e-permitting program was executed. Short-term rental enforcement was implemented via Host Compliance Software.

Jack Chaiken Park and Hazel Fazzino Park were completed, and our free, award-winning trolley service was expanded to Uleta. Our award of Road to Zero Grant allows for increased traffic calming efforts along neighborhood streets where there is higher-than-average speeding and cut-through traffic.

► Continuing Initiatives

The North Miami Beach Police Department (the PD) will continue initiatives that will keep our residents and neighborhoods safe from harm, improve quality of life and reduce crime. The PD will provide businesses and business owners with excellent service, engage our youth through our PAL (Police Athletic League) programs, and focus on community involvement. The Police Department is committed to adjusting resources and manpower according to current crime trends, increasing traffic enforcement, and working with communities to establish better communication.

The City will continue to invest in safety and security through the installation of security devices in strategic areas to assist in our primary efforts of making NMB and its surrounding areas safe and livable.

The PD will continue to employ best practices in investing Law Enforcement Trust Fund (LETF) as provided, and available, to provide for a safer community.

Ordinances related to Impact/Development Review Fees, Public Arts, Special Events, and Parking are in development.

Complete remediation of Mishcon Park is anticipated in Fiscal Year 2021.

Completion of work on the playground and Skate Park at Barry Schreiber Promenade is expected in Fiscal Year 2021.

Public Works will continue to invest in sidewalk improvements, street re-striping, and American with Disabilities Act (ADA) accessibility throughout our city, parks, and infrastructure.

The second phase of mixed-use zoning initiatives along the NE 167th to NE 163rd Street corridor was adopted by the City Commission in January 2021.

Development projects such as the Intracoastal Mall Mixed-use, Oleta House, and Echlad Holdings Mixed-Use are under review.

The City will continue the outreach efforts to ensure successful implementation of the Northeast Miami-Dade Transit Corridor and the creation of the North Miami Beach transit station through to final decision.

We are continuing the testing and implementation plan for EnerGov software, which will allow divisions to provide improved customer service and time-saving efficiencies. It will be expanded to include additional assistance with Rental Monitoring Services in Fiscal Year 2021.

Alternative enhanced recreational-related use of the Judge Arthur Snyder Tennis Center and Daniel Diefenbach Bicentennial Park are under consideration.

FINANCIAL RESPONSIBILITY

► Key Accomplishments

The City implemented a 24/7 cybersecurity monitoring solution to keep us safe from ransomware. For the 30th consecutive year, the GFOA Award for Excellence in Financial Reporting (2018) was awarded. For the 3rd consecutive year, the Distinguished Budget Presentation Award (2020) was achieved. The Comprehensive Annual Report for Fiscal Year 2019 was completed by external auditors with no concerns expressed. We continued advocacy to obtain reimbursement from FEMA for Hurricane Irma expenditures. We issued \$40 million par amount of water revenue bonds; an \$11 million sewer bank loan; and \$44.2 million in WIFIA bonds.

The City gained \$50,000 through the sale of surplus property deemed obsolete or no longer operational. We audited 315 contracts for renewal and/or compliance. Procurement efforts resulted in the achievement of \$2,272,000 in cost avoidance. Cost-containment was enhanced through the use of BidSync, our electronic bidding system. We have submitted requests for reimbursement for COVID-related expenses from Miami-Dade County (through the CARES Act) and from FEMA.

► Continuing Initiatives

The City will continue to:

- emphasize the use of cost-effective project management to ensure projects are completed on time and within budget.
- assess debt and cash balances to ensure objectives are obtained to ensure sound financial position.
- invest in new security initiatives which will help protect the City from financial harm because of cyberattacks.
- provide financial management advice and policy support to the Mayor and City Commission.
- update property and contents appraisal on an annual basis to ensure all properties are insured, thereby reducing the City's risk exposure.
- engage our pool of grant writers to seek and secure grant funding sources that will afford us an opportunity to augment and enhance programs, projects, and infrastructure.
- be fiscally responsible while monitoring spending and ensuring appropriate use of City funds.

The City's financing strategies will be implemented with assistance from the City's financial advisors, underwriters and bond counsel.

By following the Commission's directives to promote redevelopment, staff will ensure that new, well-planned and responsible growth and development will be encouraged. The development approval process will continue to be streamlined and applicant-friendly, leading to more development and ultimately, a more robust tax base.

Areas with development potential will be identified

Changes to the regulations that will foster redevelopment and benefit the City and its residents will be proposed.

ENVIRONMENTAL RESPONSIBILITY

► Key Accomplishments

The City has planted over 260 new trees in our swales and public rights of way. In addition to a Transportation Master Plan, we have adopted a Stormwater Master Plan, providing a roadmap to improvements in stormwater management and the citywide system, resulting in great health and safety benefits to city residents. The \$200,000 Hanford Tree Pit Project has been completed, assisting in stormwater management by reducing pollutant discharges and flooding. Over \$95 million in bonds/loans have been issued to fund capital improvements in our water and sewer systems.

► Continuing Initiatives

The Public Works Department will continue to modernize landscape irrigation systems, install water wells, and provide other low-cost water measures and water conservation initiatives.

ENGAGEMENT OF RESIDENTS AND BUSINESSES

► Key Accomplishments

We coordinated the first State of the City address since 2016, affording constituents an intimate opportunity to gather and hear directly from the Mayor about the exciting plans for NMB's future. We offered successful Monster Mash Bash (the first on 19th Avenue); Tree Lighting; Menorah Lighting; and Snow Fest.

The City continues to engage residents and businesses through a variety of platforms, including, but not limited to radio, television, newsletters (both print and email), web streaming, and social media (Twitter, Instagram, Facebook), Channel 77, recently replaced high definition digital signage boards, website, and Constant Contact. Higher levels of participation are generated through multilingual marketing to reach our diverse population. To establish a professional social network presence, we continue to cultivate our partnerships with Aventura Marketing Council, NMB Chamber of Commerce, Florida League of Cities, Miami-Dade County League of Cities, and Miami-Dade City and County Managers Association.

The OneNMB Concert Series attendance increased by 30% from the previous year. Events also included Shop with a Cop, WinterFest Toy Drive, and Staff Walks. Participants in the Explorer Program assisted in disseminating important public information and crime prevention tips.

NMB WorkShare opened at the Library to support entrepreneurial endeavors.

► Continuing Initiatives

Residents and business owners will be encouraged and enabled to participate in City government.

The City will strive for higher levels of participation in and attendance at City programs and events.

Residents, property owners, and businesses will be engaged through a variety of platforms, including but not limited to radio, television, newsletters (both print and email), web streaming, and social media.

The City will build university partnerships and establish professional social network presence.

Credibility will be reinforced by the provision of honest and responsive communications to help build trust and reliability with audiences.

ENGAGING OUR EMPLOYEES

Our employees are critical to the execution of our daily operations. We could not successfully carry out this mission without engaging our team of committed staff members.

► Key Accomplishments

Fifty-one employees were screened, hired, and onboarded. We put into effect a database for managing and tracking employment eligibility verification (I-9) and conducted a self-audit to confirm compliance.

We successfully established a schedule of shifts where applicable to reduce the number of team members in the same office. Antibacterial and antiviral cleaning and sanitizing has been coordinated for City facilities, based on the guidelines recommended by the CDC. Onsite COVID testing has been made available for all City employees. Safety protocols have been established for employees entering City facilities to reduce risk of transmission. City administrators have met with each department to provide employees with an opportunity to ask questions or express their concerns. There is a conference call each morning to provide a forum for senior managers to discuss any items so that regular communication is maintained during remote shifts.

We successfully implemented the IUPA Contract.

The City's health insurance renewals were presented to the City Commission and preparations are being made for open enrollment for Fiscal Year 2021.

► Continuing Initiatives

The City will create a comprehensive compensation program.

An electronic fillable employment application is available on the City's website and an online application/applicant tracking system is being requested for Fiscal Year 2021.

The Human Resources Department will develop and promote the most qualified and motivated individuals to perform the duties and responsibilities required to make the City of North Miami Beach best in class, i.e. implement leadership development and training programs, expand onboarding/orientation, establish team building, expand wellness initiative, and implement engagement survey. (Trainings are on hold because of the pandemic.)

A draft of a City-wide safety manual has been created and a Safety Committee consisting of representatives from different departments has been established; finalization of the manual is pending.

To provide greater financial transparency and accountability, the City has invested in an "Enterprise Resource Planning" (ERP) system which will replace the City's legacy computer systems with a modern, integrated financial and information management system. The General Ledger suite of applications, the Payroll module, and the procurement card module are fully functional. Current resources are focused on implementation of the Energov module for planning, zoning and permitting; Employee Self-service, cashiering for all city departments and the Human Resources module.

The City will strive to attract, retain, and recruit the most qualified candidates to ensure the right person is in the right job at the right time. A compliant and customer centric workplace focused on being Employer of Choice will be ensured.

Relevant financial policies

Fund Balance Policy

Governmental Accounting Standards Board (“GASB”) Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definition* establishes various classifications of fund balances based on a hierarchy which details constraints placed on the use of resources by creditors, grantors, contributors or laws or regulations of other governments. Fund balances can be classified as non-spendable, restricted, committed, assigned and unassigned. Committed fund balances can only be used for specific purposes determined by formal action of the City Commission through an ordinance or a resolution and may be changed or lifted only by the City Commission through formal action. Assigned fund balances are amounts that the City intends to use for a specific purpose but are neither restricted nor committed. Unassigned fund balance can be viewed as the net resources available at the end of the fiscal year.

The City’s fund balance policy requires a minimum unassigned general fund balance of at least 10% of budgeted revenues. It is the City's policy to consistently add to the fund reserves each year and in Fiscal Year 2020 that policy continued.

Investment Policy

The City administers a comprehensive cash management and investment program. The primary goals of the program are to maximize the amount of cash available to meet daily cash requirements and to obtain the highest possible yields consistent with restraints imposed by Florida Statutes and the City’s adopted investment policy for capital protection.

Millage Rate Policy

During fiscal year 2018, the City adopted a comprehensive millage rate policy to establish parameters whereby the operating millage rate may increase or decrease during the annual budget process. The policy is designed to ensure that the City remains in compliance with the Fund Balance Policy to provide rate stability and to avoid conditions of fiscal constraint and provides options for reducing excess unassigned fund balance in the General Fund.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of North Miami Beach for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended September 30, 2019. This was the thirty-first consecutive year that the City has received this prestigious award. In order to be awarded a Certificate of Achievement, the City published an easily readable and efficiently organized CAFR. This report satisfied both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

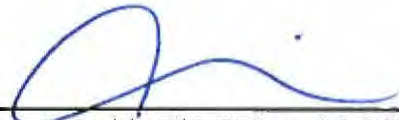

The preparation of this report could not have been accomplished without the efficient and dedicated services of the entire staff of the Finance Department. Each member of the department has our sincere appreciation for the contributions made in the preparation of this report. We express our appreciation to all members of other departments who assisted and contributed to the preparation of this report. A special note of thanks and appreciation is also extended to our auditors, Caballero Fierman Llerena + Garcia, LLP, for their professional approach and high standards in the conduct of their independent audit of the City's financial records.

In closing, the Mayor and Commission's guidance and cooperation in planning and conducting the financial affairs of the City in a responsible and progressive manner is greatly appreciated. Without their leadership and support, preparation of this report would not have been possible.

Respectfully submitted,

Horace McHugh, Interim City Manager

INDEPENDENT AUDITORS' REPORT

INDEPENDENT AUDITORS' REPORT

Honorable Mayor and Members of the City Commission
City of North Miami Beach, Florida

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of North Miami Beach, Florida (the "City") as of and for the fiscal year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Retirement Plan for General Employees of the City of North Miami Beach, which represents 36%, 35% and 19%, respectively, of the assets, net position/fund balance, and revenues/additions of the aggregate remaining fund information. Also, we did not audit the financial statements of the Retirement Plan for Police Officers and Firefighters of the City of North Miami Beach, which represents 45%, 44% and 27%, respectively, of the assets, net position/fund balance, and revenues/additions of the aggregate remaining fund information. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Retirement Plan for General Employees of the City of North Miami Beach and the Retirement Plan for Police Officers and Firefighters of the City of North Miami Beach, are based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the reports of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City, as of September 30, 2020, and the respective changes in financial position, and where applicable, cash flows for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, Schedule of Revenues Expenditures and Changes in Fund Balance – Budget to Actual – General Fund and Community Redevelopment Agency Fund, and Pension and Other Post-Employment Benefits Schedules as listed in the table of contents on pages 19 to 36 and 100 to 111, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, budgetary comparison schedules, statistical section, schedule of expenditures of federal awards, as required by Title 2 U.S Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)* are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements, budgetary comparison schedules and the schedules of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, budgetary comparison schedule and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated April 30, 2021 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS
(MD&A)

CITY OF NORTH MIAMI BEACH, FLORIDA

MANAGEMENT'S DISCUSSION AND ANALYSIS (unaudited) SEPTEMBER 30, 2020

As management of the City of North Miami Beach, we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended September 30, 2020. Readers are encouraged to consider the information presented here in conjunction with additional information that is furnished in the letter of transmittal, which can be found on pages 1 to 12 of this report.

Financial Highlights

- *Total net position* of the City of North Miami Beach decreased by \$13.5 million or 7.5% less than the prior fiscal year net position to \$165.5 million because of the COVID-19 pandemic and a sharp increase in the uncollectible accounts across all major funds except the Community Redevelopment Agency (CRA).
- *Total assets* increased by \$49.4 million or 13.7%. Governmental activities contributed \$0.4 million, while Business-type activities contributed \$49.0 million to the total as a result of debt proceeds that have yet to be invested in the water and sewer utility master plans. *Deferred outflows of resources* decreased by \$0.6 million, indicating slightly lower pension costs.
- *Total liabilities* increased by \$65.1 million or 32.1%. Governmental activities contributed \$8.9 million because of increasing pension and OPEB liabilities. Business-type activities contributed \$57.3 million reflecting the issuance of approximately \$61.0 million of new debt. *Current liabilities* increased by about \$9.8 million as a result of additional debt service payments due next fiscal year. *Deferred inflows of resources* decreased by \$2.9 million.
- *Total governmental activities revenues* decreased by about \$1.0 million, or 1.7% because the COVID-19 pandemic forced the closure of parks, pools and theater programs and fines and forfeiture revenues were affected by stay-at-home orders and curfews. Total governmental activities expenses increased by \$10.4 million primarily as a result of the aforementioned uncollectible accounts.
- *Total business-type activities revenues* were relatively flat increasing by \$1.5 million or 2.3% despite significant rate increases in the Water and Wastewater utilities. Late fees and cut-offs were suspended throughout much of the fiscal year because of the pandemic. Total business-type activities expenses increased by \$8.8 million or 15.5% primarily as a result of the adjustment for uncollectible accounts.
- At the close of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$46.6 million, a decrease of \$1.7 million below the prior fiscal year. Approximately 38.7% or \$18.0 million of this amount is available for spending at the City's discretion (*unassigned fund balance*).

CITY OF NORTH MIAMI BEACH, FLORIDA

MANAGEMENT'S DISCUSSION AND ANALYSIS (unaudited) SEPTEMBER 30, 2020

- The City's Water Fund lost \$3.4 million, the Wastewater Fund lost \$2.1 million, the Solid Waste Fund lost \$0.6 million and the other enterprise funds reported combined net losses of \$0.2 million because of the pandemic and the adjustment to the uncollectible accounts. Although the Building Permit Fund was spared the adjustment to uncollectible accounts, all enterprise funds were negatively impacted by the pandemic.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City of North Miami Beach's basic financial statements. The components of the basic financial statements include:

- Government-wide financial statements
- Fund financial statements
- Notes to the financial statements

Other supplementary information is also included in this report. These financial statements are prepared in accordance with accounting principles generally accepted in the United States of America promulgated by the Governmental Accounting Standards Board (GASB).

Government-wide financial statements:

The *government-wide financial statements* are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the City's assets plus deferred outflows of resources, and liabilities plus deferred inflows of resources with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial condition of the City is improving or deteriorating.

The *statement of activities* presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City include public safety, public services, parks and recreation services, code compliance, planning and zoning, economic development, and general and administrative services. The business-type activities of the City include water, sewer, and stormwater operations, sanitation services and building permitting.

CITY OF NORTH MIAMI BEACH, FLORIDA

MANAGEMENT'S DISCUSSION AND ANALYSIS (unaudited) SEPTEMBER 30, 2020

The government-wide financial statements include not only the City of North Miami Beach (known as the *primary government*), but also a legally separate community redevelopment agency for which the City is financially accountable. This *component unit* functions for all practicable purposes as a department and special revenue fund of the City and has been included as an integral part of the primary government.

The government-wide financial statements can be found on pages 37-38 of this report.

Fund financial statements:

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental funds:

Governmental funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating the City's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the City's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City maintains several individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, which is considered to be a major fund. Data from the other governmental funds is combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of *combining statements* elsewhere in this report.

The basic governmental fund financial statements can be found on pages 39-42 of this report.

CITY OF NORTH MIAMI BEACH, FLORIDA

MANAGEMENT'S DISCUSSION AND ANALYSIS (unaudited) SEPTEMBER 30, 2020

Proprietary funds:

Proprietary funds are used when fees are charged to customers for the use of specific goods or services. The proprietary fund statements provide the same type of information as the government-wide financial statements, only in more detail. The City maintains two different types of proprietary funds:

Enterprise funds provide separate information for the water and wastewater operations and solid waste services, which are considered to be major funds of the City. Data from the other enterprise funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major funds is provided in the form of *combining statements* elsewhere in this report

Internal service funds are used to accumulate and allocate costs for goods and services provided internally among the City's various funds and functions. Any net increase or deficiency in net position in the internal service fund is allocated back to the participating funds.

The basic proprietary fund financial statements can be found on pages 43-45 of this report.

Fiduciary funds:

Fiduciary funds are used to account for resources held for the benefit of parties outside the City. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. Fiduciary funds are accounted for in a manner similar to proprietary funds.

The basic fiduciary fund financial statements can be found on pages 46-47 of this report.

Notes to the financial statements:

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. Note 14 includes information regarding the Community Redevelopment Agency.

The notes to the basic financial statements can be found on pages 48-99 of this report.

Other information:

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information (RSI). The City adopts an annual appropriated budget for its General Fund and Community Redevelopment Agency. A budgetary comparison schedule has been provided for these funds to demonstrate compliance with this budget. Additional RSI displays the City's changes in net pension and OPEB liabilities and employer contributions to the various plans.

Required supplementary information can be found on pages 100-111 of this report.

CITY OF NORTH MIAMI BEACH, FLORIDA

MANAGEMENT’S DISCUSSION AND ANALYSIS (unaudited) SEPTEMBER 30, 2020

The combining statements referred to earlier in connection with non-major funds are presented immediately following the required supplementary information. Budgetary comparison schedules are included for non-major governmental funds that legally adopt budgets.

Combining statements and budgetary schedules can be found on pages 112-131 of this report.

Government-Wide Financial Analysis

Net investment in capital assets - The largest portion of the City's net position (64.5%) reflects its investment in capital assets (e.g.; land, buildings, and equipment) less any outstanding debt used to acquire those assets. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources to repay this debt must be provided from other sources, since capital assets themselves cannot be used to liquidate these liabilities.

Restricted net position - Some of the City's net position (21.9%) is subject to external restrictions on how it may be used. These resources have been set aside for capital projects, debt service payments, and other contractual obligations.

Unrestricted net position - The City’s unrestricted net position is \$22.6 million or 13.6% of total net position at September 30, 2020.

The following chart displays the City’s **total net position** over the last ten fiscal years (in millions).

CITY OF NORTH MIAMI BEACH, FLORIDA

MANAGEMENT'S DISCUSSION AND ANALYSIS (unaudited)
SEPTEMBER 30, 2020

Governmental activities:

Net position of the City's governmental activities decreased by \$7.1 million resulting in a balance of \$33.0 million at the end of the current fiscal year. The COVID-19 pandemic dampened the collection of many user fees for parks programs, swimming pool attendance, theater programs and stay-at-home orders and curfews had a significant effect on the City's assessment of fines and forfeitures. Also during the current fiscal year, the City implemented a new utility billing system. The new system is able to age the amounts owed by customers; previously unavailable in the legacy billing system. The adjustments to the uncollectible accounts were significant in the Water, Wastewater, Stormwater, Solid Waste and General Funds.

Governmental activities Net Position (in millions)

CITY OF NORTH MIAMI BEACH, FLORIDA

MANAGEMENT'S DISCUSSION AND ANALYSIS (unaudited)
 SEPTEMBER 30, 2020

Business-type activities:

The City's net position of the business-type activities decreased by approximately \$6.4 million or (4.6%) below the prior fiscal year amount. The pandemic and uncollectible account adjustments are the primary reasons for the losses. The City suspended the application of late fees and cut-offs for all customers for most of the fiscal year. Likewise, building permit activity was dampened by the stay-at-home orders.

CITY OF NORTH MIAMI BEACH, FLORIDA

MANAGEMENT'S DISCUSSION AND ANALYSIS (unaudited)
SEPTEMBER 30, 2020

Financial Analysis of the City's Funds

The City of North Miami Beach uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The focus of the fund financial statements is on major funds, rather than fund types. Traditional users of the fund financial statements will find the fund financial statements presentation more familiar.

Governmental funds: The focus of the City's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. The Governmental Funds presentation is designed to show the sources and uses of liquid resources. This is the manner in which the budget is typically developed. Such information is useful in assessing the City's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of the City's current financial resources available for discretionary spending.

As of the end of the current fiscal year, the City's *governmental funds* reported combined ending fund balances (nonspendable, restricted, committed, assigned, and unassigned) of \$46.6 million, a decrease of \$1.7 million below the prior year. Approximately 2.2% of the fund balance of the governmental funds was in nonspendable form. In other words, the assets are not cash and will not be converted into cash. This classification includes items such as prepaid costs and inventory. The use of 21.9% of fund balance is restricted by third parties such as grantors, creditors or other governmental entities for specific types of expenditures and for mitigation of the effect of development on parks and public safety. The City Commission through ordinance or resolution has committed 7.1% of fund balance to be used for the specific purposes of alley restoration and disaster recovery. The City Manager has assigned approximately 30.1% of fund balance to be used for capital projects and equipment, land acquisition, liability and workers' compensation claims and expenditures for next fiscal year. *Unassigned fund balance* is the portion of fund balance that is available for spending at the City's discretion 38.7% of fund balance (\$18.0 million) constitutes unassigned fund balance.

The General Fund is the chief operating fund of the City. All revenues and other receipts and expenditures, fixed charges and capital improvement costs that are not required by law or contractual agreement to be accounted for in another fund are accounted for in this fund. At the end of the current fiscal year, fund balance in the general fund is \$37.5 million. The unassigned fund balance of \$18.0 million constitutes 48.2% of total general fund balance which represents a decrease of \$11.1 million or 38.2% below the prior year. The CRA is a blended component unit. Its fund balance increased by \$1.2 million as a result of increased tax collections.

Total General Fund revenues decreased \$0.8 million below last fiscal year. The following graphics display (in millions) the classifications of revenues relative to the total fiscal year 2020 general fund revenues and relative to the fiscal year 2019 General Fund revenues.

General Fund Revenues by Source (in millions)

Current Year vs. Prior Year General Fund Revenues (in millions)

CITY OF NORTH MIAMI BEACH, FLORIDA

MANAGEMENT'S DISCUSSION AND ANALYSIS (unaudited) SEPTEMBER 30, 2020

Total General Fund expenditures increased by \$4.0 million or 7.8% as compared to the prior year. The cost of general government services was the primary sources of the increase. The adjustment to the allowance for uncollectible accounts is categorized as a non-departmental expense and is included in general government expenditures.

The following graphic displays (in millions) the classifications of expenditures relative to the total fiscal year 2020 general fund expenditures.

General Fund Expenditures (in millions)

Proprietary funds: The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. Proprietary funds account for services that are generally supported by user fees charged to customers. Proprietary funds are presented on a total economic resources basis. Proprietary fund statements, like government-wide statements, provide both short- and long-term financial information.

MANAGEMENT'S DISCUSSION AND ANALYSIS (unaudited) SEPTEMBER 30, 2020

General Fund Budgetary Highlights

A budgetary comparison schedule for the General Fund is part of the required supplementary information and can be found on pages 100-101 of this report.

Differences between the *original budget* and the *final amended budget* amounted to an increase of approximately \$2.6 million during the current fiscal year. The original budget was increased to provide amounts encumbered for capital projects at the end of the prior fiscal year and amended to increase funding available for repairs and maintenance in the public services division.

The differences in the *actual* revenues and expenditures as compared to the *final amended budget* are summarized as follows:

- Actual revenue was greater than planned by approximately \$41,000. The City's conservative approach to budgeting General Fund revenues enabled a positive outcome as related to actual revenue collections.
- All expenditures exhibited positive variances except operating expenditures for the Legislative Department. This Department includes the Governmental Non-Departmental Division where payments that can't be attributed to a specific department are made. For example, debt service, mailroom, user charges for self-insurance funds, census, annexation and other types non-department specific payments are made from this division. As mentioned previously, the City implemented a new utility billing system which required adjustments to accounts receivable and uncollectible accounts. The adjustment to the General Fund totaled over \$2.1 million. The final Accounts Receivable report was presented in early April. Florida Statutes prohibit budget transfers after 60 days after fiscal year end. Consequently, a budget amendment could not be effectuated.
- The negative variance of \$17,140 for transfers into the General Fund results from lower than anticipated administrative costs related to the Eastern Shores Guardhouse Funds.
- Significant savings were realized in both operating and capital outlay expenditures. Overall, the positive expenditure variance was \$15.5 million.
- The total budgetary variance was a negative \$0.8 million.

CITY OF NORTH MIAMI BEACH, FLORIDA

MANAGEMENT'S DISCUSSION AND ANALYSIS (unaudited) SEPTEMBER 30, 2020

Capital Assets and Debt Administration

Capital assets

The City's investment in capital assets for its governmental and business-type activities as of September 30, 2020 amounts to \$247.9 million (net of accumulated depreciation).

This investment in capital assets includes land, buildings, improvements other than buildings, and machinery and equipment. The City's investment in capital assets for the current fiscal year increased by \$2.0 million or 0.8%.

A significant amount of construction projects were started during the fiscal year in both the business-type and governmental activities resulting in an increase in the construction in progress category. All other categories have declined as a result of depreciation, except land, which does not depreciate and furniture, fixtures, machinery and equipment that saw a slight uptick.

The following chart provides a condensed schedule of government-wide capital assets with comparative balances between the current and last fiscal year.

Capital Assets, net of accumulated depreciation (in millions)

	Governmental Activities		Business-type Activities		Total	
	2020	2019	2020	2019	2020	2019
Land	\$ 4.3	\$ 4.3	\$ 5.9	\$ 5.9	\$ 10.2	\$ 10.2
Buildings and plant	1.1	1.2	123.0	129.8	124.1	131.0

Construction in progress	32.6	28.9	43.5	36.5	76.1	65.4
Total capital assets	<u>\$ 72.8</u>	<u>\$ 70.8</u>	<u>\$ 175.1</u>	<u>\$ 175.1</u>	<u>\$ 247.9</u>	<u>\$ 245.9</u>

Additional information on the City's capital assets can be found in Note 7 of this report.

CITY OF NORTH MIAMI BEACH, FLORIDA

MANAGEMENT'S DISCUSSION AND ANALYSIS (unaudited) SEPTEMBER 30, 2020

Long-term Debt

In 2012, the City received a rating letter which indicated that Standard and Poor's (S&P) Rating Services assigned an "A+" rating with a stable outlook on the City's water revenue bonds. FitchRatings also had assigned an "A+" rating with a stable outlook on those same bonds. FitchRatings upgraded the bond rating to "AA-" with a stable outlook during 2016. S&P and Fitch affirmed the City's ratings in January 2020.

On January 29, 2020, the Water Utility issued \$40,030,000 par amount of Water Revenue Bonds, Series 2020A at a premium of \$10,267,112.55 and \$39,945,000 par amount of Taxable Water Revenue Refunding Bonds, Series 2020B at coupon rates of 5%. The proceeds of Series A will be used to invest in the Utility's five-year Capital Improvement Plan. The proceeds of Series B were transferred to TD Bank, N.A. to provide for the escrow requirements for the partial redemption of the Water Revenue Refunding Bonds, Series 2012. The unrefunded portion of the Series 2012 bonds total \$7,730,000 and will be fully redeemed on August 1, 2022. The remainder of the Series 2012 bonds will be considered defeased and the liability will be removed from the Statement of Net Position for the fiscal year September 30, 2020. The refinancing resulted in an economic gain of approximately \$2.7 million and a decrease of approximately \$316,000 in annual debt service payments.

On June 25, 2020, the Water Utility was awarded a loan from the United States Government under the Water Infrastructure and Finance Innovation Act (WIFIA) administered by the Environmental Protection Agency. The loan was issued at an amount not to exceed \$44,204,486 and will be used for the Norwood Water Treatment Plant Upgrade and Transmission Main Improvements and Replacement Projects. The loan is secured by the Water Utility operating revenues, requires a 51% match and carries an interest rate of 1.36%. Interest becomes payable upon the first drawdown. The principal payback period begins five years after completion of the project which is estimated to be August 1, 2025. The first of 30 annual installments is due on August 1, 2031.

At the end of the current fiscal year, the City had total bonded debt outstanding, net of bond premiums of \$139.7 million, total notes payable of \$1.3 million, and State Revolving loans outstanding of \$19.0 million. Of this amount, \$13.4 million was approved by referendum of the City's voters. The remaining \$106.0 million of the bonds, notes and loans has been secured by specified revenue sources of the water and sewer utility operating income. Tax Increment Financing revenues have been pledged for the CRA debt totaling \$1.1 million.

CITY OF NORTH MIAMI BEACH, FLORIDA

MANAGEMENT'S DISCUSSION AND ANALYSIS (unaudited) SEPTEMBER 30, 2020

The following chart provides information on the City's outstanding long-term debt with comparative balances between the current and last fiscal year.

Denominated Long-Term Debt Outstanding (in millions)

	Governmental activities		Business-type activities		Total	
	2020	2019	2020	2019	2020	2019
General obligation bonds	\$ 13.4	\$ 14.8	\$ -	\$ -	\$ 13.4	\$ 14.8
Revenue bonds	-	0.6	106.0	49.6	106.0	50.2
Notes payable	1.1	1.3	0.2	0.4	1.3	1.7
State Revolving Loans	-	-	19.0	20.2	19.0	20.2
Total	\$ 14.5	\$ 16.7	\$ 125.2	\$ 70.2	\$ 139.7	\$ 86.9

Even though the City's long-term liabilities have increased dramatically with the addition of the net pension and OPEB liabilities, this chart indicates that the City continues to make steady progress in paying down its debt obligations. Additional information on the City's long-term debt can be found in Note 9 of this report.

Economic Factors and Next Year's Budgets and Rates

During 2019, the City Commission updated the City's Strategic Plan and it continues to be used as a guide to prioritize funding for the adopted budgets. Each expenditure and revenue generation has been strategically linked to the City's Vision, Mission and Goals.

The goals identified during the Strategic Planning sessions included:

- Financially Sound City Government
- The Place to Live: Beautiful, Safe and Livable
- High performing City organization providing great customer services
- Revitalized Downtown and Major Corridors

Prior to March 2020, the economy appeared to be stabilizing, including a slowly recovering real estate market and slowly declining unemployment rates. Then the world was faced with the worst pandemic since the Spanish Flu of the 1918. The COVID-19 virus brought the world to a screeching halt. The Centers for Disease Control advised everyone except essential workers to remain at home, wear personal protective equipment such as facemasks, face shields and latex gloves. People were advised to keep a distance of six feet from any other human, to wash hands thoroughly and often and to quarantine if they were feeling any relevant symptoms of the infection.

CITY OF NORTH MIAMI BEACH, FLORIDA

MANAGEMENT'S DISCUSSION AND ANALYSIS (unaudited) SEPTEMBER 30, 2020

Needless to say, state and municipal revenues were pummeled by lack of activity. Sales taxes, gas taxes, entrance fees for programs and events, rental fees for facilities, code enforcement and public safety fines, building permits, franchise fees all practically non-existent for the second half of the fiscal year.

Given these conditions, one would surmise that the water and wastewater utility charges and utility taxes would have remained stable and perhaps even increase under the circumstances. However, the City postponed late fees and service disconnections during the emergency conditions and the utility revenues suffered the consequences.

Thus far, there is no indication that the City's ad valorem taxes will be impacted by the pandemic. However, municipal operations tend to lag the effects of economic conditions, either positive or negative. Like many local governments across the country, the City is working to strike the delicate balance of maintaining service levels while keeping taxes and service charges as low as possible, especially in this time that so many City residents have been severely impacted.

As preparation begins on next year's budget, the City Manager will continue to focus on the implementation of the revised Strategic Plan initiatives and recovery from the effects of the COVID-19 pandemic.

Requests for Information

This financial report is designed to provide a general overview of the City of North Miami Beach's finances for all those with an interest in the City's finances and to demonstrate the City's accountability. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to:

FISCAL YEAR ENDED SEPTEMBER 30, 2020

Net change in fund balances - total governmental funds (page 41) \$ (1,750,595)

Amounts reported for governmental activities in the Government-wide Statement of Activities (page 38)
are different because:

Governmental funds report capital outlays as expenditures while the Statement of Activities reports depreciation expense on capital assets. This is the amount by which capital outlays exceeded depreciation in the current period. The details of the difference (excluding the internal service fund) are as follows:

Capital outlay	\$ 5,952,086	
Depreciation expense	(4,011,974)	
Net adjustment		1,940,112

The issuance of long-term debt provides current financial resources to governmental funds. Repayment of the principal consumes current financial resources of governmental funds. Neither transaction, however, has any effect on net position. The details of the difference (excluding the internal service fund) are as follows:

Principal payments:		
General obligation and capital improvement bonds	1,385,000	
Revenue bonds	645,116	
Notes payable	166,667	
Net adjustment		2,196,783

Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.

Changes in:		
Compensated absences	(711,719)	
Estimated claims	285,000	
OPEB liability	(1,393,049)	
Accrued interest	18,323	
Deferred outflows of resources	(589,099)	
Deferred inflows of resources	1,830,882	
Net pension liability	(9,018,998)	
		(9,578,660)

The internal service fund is used by management to charge the costs of information technology to other funds. The net revenue is reported with governmental activities. 20,015

Change in net position of governmental activities (page 38) \$ (7,172,345)

CITY OF NORTH MIAMI BEACH, FLORIDA

NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2020

Note 1 - Summary of Significant Accounting Policies

The City of North Miami Beach (the City) was incorporated in 1926. The City operates under a Commission-Manager form of government. In addition to general government services including police, library, parks and recreation, code compliance and public works provided to its residents, the City operates water, sewer, stormwater and solid waste utilities, provides building permitting and inspection services and maintains various trust and agency funds in a fiduciary capacity. The City does not provide educational, fire or hospital facilities. Those services are provided by the Miami-Dade County School Board and Miami-Dade County, respectively.

Financial Reporting Entity

The financial statements were prepared in accordance with Governmental Accounting Standards. Those standards establish definitions for reporting on the financial reporting entity. The definition of the financial reporting entity is based upon the concept that elected officials are accountable to their constituents for their actions. One of the objectives of financial reporting is to provide users of financial statements with a basis for assessing the accountability of the elected officials. The financial reporting entity consists of the primary government (the City), organizations for which the City is financially accountable and other organizations for which the nature and significance of their relationship with the City are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The City is financially accountable for a component unit if it appoints a voting majority of the organization's governing board and is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to or impose specific financial burdens on the City.

The North Miami Beach Community Redevelopment Agency (the CRA) was created by the Mayor and City Commission on December 21, 2004 by adoption of Resolution R2004-86 accepting a delegation of powers from the Miami-Dade Board of County Commissioners and declaring the Mayor and City Commission to be the Agency in accordance with Section 163.357 of the Florida Statutes under the Community Redevelopment Act of 1969, enacted by the Florida Legislature. Miami-Dade County retains the final authority to approve the annual CRA budget, redevelopment plan and amendments, and the issuance of long-term debt. The purpose of the CRA is the elimination and prevention of blight conditions within the designated community redevelopment area. Since the CRA area is entirely within City limits, CRA activities benefit the City almost exclusively. The City Commission acts as the CRA's Board of Directors, the Mayor is the Chairman and the City Manager is the Executive Director. The governance structure allows the City to exert significant influence over the activities of the CRA. Considering these parameters, the CRA meets the criteria of a blended component unit and has been included as an integral part of the attached financial statements as a special revenue fund of the City of North Miami Beach. Additional information on the CRA can be found in Note 14 to the financial statements.

CITY OF NORTH MIAMI BEACH, FLORIDA

NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2020

Note 1 - Summary of Significant Accounting Policies (continued)

Government-wide and Fund Financial Statements

The basic financial statements of the City have been prepared in conformity with accounting principles generally accepted in the United States (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The following GASB Pronouncements have been implemented during the current fiscal year:

- GASB Statement No. 84, *Fiduciary Activities* issued in January 2017;
- GASB Statement No. 90, *Majority Equity Interests - an amendment of GASB Statements No. 14 and No. 61* issued in August 2018;

The basic financial statements consist of the government-wide and fund financial statements. Each set of statements distinguish between the governmental and business-type activities of the City. The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on the non-fiduciary activities of the primary government and its component units. The statement of net position reports financial and capital resources of the City's governmental and business-type activities. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for services provided. The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported as *general revenues*.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. The primary exception is charges between the City's various utility functions and administrative functions of the City. Elimination of these charges would distort the costs reported for the business-type activities and incurred by the administrative departments.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. All remaining non-major funds are aggregated and reported as other governmental or other enterprise funds.

CITY OF NORTH MIAMI BEACH, FLORIDA

NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2020

Note 1 - Summary of Significant Accounting Policies (continued)

Measurement Focus, Basis of Accounting and Financial Statement Presentation

Government-Wide Financial Statements

The government-wide financial statements are reported using the *economic resources measurement* focus and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Agency funds are fiduciary funds with no measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Fund Financial Statements

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Certain taxes, and franchise fees are considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. Revenue for expenditure driven grants are recognized when the qualifying expenditures are incurred. All other revenue items are considered to be measurable and available only when cash is received by the City.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's proprietary funds are charges to customers for services. Operating expenses for proprietary funds include the cost of services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The City reports the following major governmental funds:

- The *General Fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for separately.
- The *Community Redevelopment Agency* is used to account for the operations of the North Miami Beach Community Redevelopment Agency (CRA) as a blended component unit. The agency is funded by tax increment financing from the City and Miami-Dade County.

CITY OF NORTH MIAMI BEACH, FLORIDA

NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2020

Note 1 - Summary of Significant Accounting Policies (continued)

Measurement Focus, Basis of Accounting and Financial Statement Presentation (continued)

Fund Financial Statements (continued)

The City reports the following major proprietary funds:

- The *Water Utility System Fund* accounts for the activities of providing water treatment and distribution service to the utility's customers.
- The *Wastewater Utility System Fund* accounts for the operation of the sewage pumping stations and collection systems to customers both inside and outside the City's boundaries.
- The *Solid Waste Fund* accounts for providing sanitation services within the City.

Additionally, the City reports the following fund types:

Internal Service Fund - The *Information Technology Fund* is classified as a governmental activity because it provides City-wide services on a cost reimbursement basis.

Fiduciary Funds – The City acts in a fiduciary capacity with regard to the *Pension Trust Funds, OPEB Trust Fund and Police Holding Account Agency Fund* which is used to segregate, and hold seized assets until adjudication orders are received and distribution is determined by the courts.

Assets, Deferred outflows of resources, Liabilities and Deferred inflows of resources

1. Pooled Cash and Investments

Resources of all funds, with the exception of the fiduciary funds and certain other investment accounts, have been combined into a pooled cash and investment system for the purpose of maximizing earnings. Interest earned on pooled cash and investments is allocated monthly based upon equity balances of the participating funds. Cash and cash equivalents include pooled cash and investments and are defined as short-term, highly liquid investments with original maturities of three months or less. Restricted assets include resources subject to externally imposed restrictions such as creditors, grantors, laws and regulations. Assets are restricted for customer deposits and funds provided by debt issuance to finance the cost of capital equipment and improvement projects.

Surplus funds are invested in accordance with the provisions of the City's adopted investment policy. City investments are recorded in accordance with GASB Statement No. 72, *Fair Value Measurement and Application*, which establishes a hierarchy based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are based on quoted prices in active markets for identical assets; Level 2 inputs are based on significant other observable inputs; Level 3 inputs are based on unobservable inputs. As of September 30, 2020, all of the City's, OPEB Trust Fund's and General Management Employee Pension Plan's government securities and corporate bonds have fair value measurements using level 2 valuation inputs using pricing models maximizing the use of observable inputs for similar securities. There are no assets valued using non-recurring fair value measurements.

CITY OF NORTH MIAMI BEACH, FLORIDA

NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2020

Note 1 - Summary of Significant Accounting Policies (continued)

Assets and Liabilities (continued)

2. Receivables and Payables

Activities between funds that represent lending and borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to or due from other funds". Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

3. Inventories and Prepaid Items

Inventories are stated at average cost on a specific identification basis and are recorded as an asset when purchased and as an expense when consumed (consumption method). Prepaid costs are payments that are applicable to future accounting periods and are recorded as an asset when purchased and as an expense when consumed (consumption method) in both government-wide and fund financial statements.

4. Capital Assets

Capital assets, including property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks) are reported in the applicable government or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$1,000 for tangible capital assets, \$30,000 for software, and \$75,000 for easements, and an estimated useful life in excess of one year.

Outlays for capital assets and improvements, including design, engineering, installation and similar costs are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. Purchased or constructed assets are recorded at actual cost or estimated historical cost if actual cost is unavailable. Donated capital assets are recorded at acquisition value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Capital assets of the City are depreciated using the straight-line method over the following estimated useful lives:

<u>Asset</u>	<u>Years</u>
Buildings and utility plant	30-50
Improvements other than buildings	20
Furniture, fixtures, machinery and equipment	5-10
Infrastructure	30

CITY OF NORTH MIAMI BEACH, FLORIDA

NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2020

Note 1 - Summary of Significant Accounting Policies (continued)

Assets and Liabilities (continued)

5. Revenue Received in Advance, Deferred Inflows and Deferred Outflows of Resources

Grants received in advance are recorded as a liability in the Statement of Net Position and the Governmental Funds Balance Sheet until the eligibility criteria required to recognize the revenue has been completed. Business tax receipts collected in advance, and deferred pension and OPEB income represent acquisition of net position that applies to future periods and are recorded as deferred inflows of resources. Deferred pension and OPEB expense represent the consumption of net position applicable to future periods and is recorded as deferred outflows of resources. Because of their long-term attributes, deferred pension inflows and outflows are not included in the governmental fund financial statements.

6. Compensated Absences

It is the City's policy to permit full-time employees to accumulate limited amounts of earned vacation and sick leave. Upon separation from service, employees receive payment for a portion of unused vacation time and sick leave subject to length of service and contract classification. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements. The fund in which the employee's payroll expense has been recorded is used to liquidate such amounts. Typically, the General Fund, Transit Surtax Fund and the Community Redevelopment Agency are used for liquidation of the liability in the governmental funds.

7. Long-term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund type statements of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. In the governmental fund financial statements, bond premiums, discounts and bond issuance costs are recognized during the current period. The face amount of debt issued is reported as other financing sources. Premiums are reported as other financing sources while discounts are reported as other financing uses. Issuance costs are reported as debt service expenditures.

8. Pensions

Net pension liability, deferred outflows and inflows of resources, pension expense, fiduciary net position and changes to fiduciary net position have been determined and reported on the same basis as they are reported by the plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Liability liquidation occurs in the CRA, Transit Surtax and General Fund.

CITY OF NORTH MIAMI BEACH, FLORIDA

NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2020

Note 1 - Summary of Significant Accounting Policies (continued)

Fund Equity

The City reports the following fund equity classifications:

Nonspendable fund balance. Nonspendable fund balances are amounts that cannot be spent because they are either (a) not in spendable form-such as inventory or prepaid amounts or (b) legally or contractually required to be maintained intact-such as a perpetual trust.

Restricted fund balance. This classification reflects the constraints imposed on resources either (a) externally by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation. For example, governmental and proprietary funds collect impact fees as imposed under local ordinances 2005-16, 2005-17 and 2006-20. The intent of these ordinances is to assist in the implementation of the City's state-required comprehensive plan and to assure that new development bears a proportionate share of the cost of capital expenditures necessary to provide improvements to infrastructure.

Committed fund balance. These amounts can only be used for specific purposes pursuant to constraints imposed by formal resolutions or ordinances of the City Commission (which are both equal and the government's highest level of decision-making authority). Committed amounts cannot be used for any other purpose unless the City Commission removes the specified use by taking the same type of action (resolution or ordinance) imposing the commitment. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements.

Assigned fund balance reflects the amounts constrained by the City's intent to be used for specific purposes but are neither restricted nor committed. The City Commission and City Manager have the authority to assign amounts to be used for specific purposes at will.

Unassigned fund balance is the residual classification for the General Fund. It is the City's policy to maintain an amount equal to at least ten percent of total budgeted revenues of the General Fund as originally adopted as unassigned fund balance. This fund balance classification is also used to report negative fund balances in other governmental funds. When both restricted and unrestricted resources are available for use, it is the City's policy to use externally restricted resources first, then unrestricted resources, committed, assigned, and unassigned, in order as needed.

Property Taxes

Under Florida law, the assessment of all properties and the collection of all county, municipal, school district and special district property taxes are consolidated in the offices of the County Property Appraiser and County Tax Collector. Property taxes (ad valorem taxes) are assessed on January 1 (the lien date) and are billed and payable November 1, with discounts of one to four percent if paid prior to March 1 of the following calendar year. All unpaid taxes on real and personal property become delinquent on April 1 and accrue interest charges from April 1 until June 1, when tax certificates are sold at auction.

CITY OF NORTH MIAMI BEACH, FLORIDA

NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2020

Note 1 - Summary of Significant Accounting Policies (continued)

Property Taxes (continued)

The City is permitted by Article 7, Section 8 of the Florida Constitution to levy taxes up to \$10 (10 mills) per \$1,000 of assessed valuation for governmental operations. In addition, unlimited amounts may be levied for the payment of principal and interest on general obligation long-term debt, subject to a limitation on the amount of debt outstanding. The millage rate to finance general governmental services for the year ended September 30, 2020, was 6.2000 mills per \$1,000 of assessed valuation; the millage rate for bonded debt service was 0.6194 mills.

Note 2 - Stewardship, Compliance and Accountability

At September 30, 2020, the City reported deficit fund balances in the Series 2011 Debt Service Fund. The deficit in the debt service fund is related to inadequate transfers from supporting sources. The deficit is expected to be eliminated during the next fiscal year.

Note 3 - Deposits and Investments

GASB Statement No. 40 *Deposit and Investment Risk Disclosure* (GASB Statement No. 40) is designed to inform financial statement users about deposit and investment risks that could affect a government's ability to provide services and meet its obligations as they become due. GASB Statement No. 40 addresses common deposit and investment risks related to credit risk, custodial credit risk, concentration of credit risk, interest rate risk, and foreign currency risk and requires that deposit and investment policies related to the risks be disclosed, as applicable.

In addition to insurance provided by the Federal Depository Insurance Corporation, all deposits are held in banking institutions approved by the State Treasurer of the State of Florida to hold public funds. Under Florida Statutes Chapter 280, *Florida Security for Public Deposits Act*, the State Treasurer requires all Florida qualified public depositories to deposit with the Treasurer or banking institution eligible collateral. In the event of a failure of a qualified public depository, the remaining public depositories would be responsible for covering any resulting losses. Accordingly, all amounts reported as deposits are deemed as insured or collateralized with securities held by the entity or its agent in the entity's name.

The State Board of Administration (SBA) administers the Florida PRIME Fund which is governed by Chapter 19-7 of the Florida Administrative Code and Chapters 218 and 215 of the Florida Statutes. These rules provide guidance and establish the policies and general operating procedures for the administration of the Florida PRIME. The Fund is not a registrant with the Securities and Exchange Commission (SEC); however, the Board has adopted operating procedures consistent with the requirements for a 2a-7 fund, which permits money market funds to use amortized cost to maintain a constant NAV of \$1 per share. The Florida PRIME is a Local Governmental Investment Pool (LGIP), and therefore considered an external investment pool for GASB reporting purposes. The fair value of the position in the Florida PRIME is equal to the value of the pool shares. The investments in the Florida PRIME are not insured by FDIC or any other governmental agency.

CITY OF NORTH MIAMI BEACH, FLORIDA

NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2020

Note 3 - Deposits and Investments (continued)

The investment policies of the Retirement Plans for the General Employees and for Police Officers and Firefighters have been adopted by their respective Boards of Trustees. The policies have been designed to maximize Plan asset values while assuming risk levels that are consistent with the respective Board's risk tolerance and diversifying risk across various asset classes including bonds, debentures and other corporate obligations, equity securities and domestic real estate.

The OPEB Trust and the Retirement Plan and Trust for General Management Employees are invested in the Florida Municipal Investment Trust (FMIvT). The FMIvT operates as a fiduciary trust fund under governmental accounting rules that require preparation of financial statements. The FMIvT is a Local Governmental Investment Pool (LGIP), and therefore considered an external investment pool for GASB reporting purposes. The Board of Trustees is designated as having oversight authority and official custody of the funds, which are invested by the purchase of shares of beneficial interest in the trust, not the individual securities held by the trust. The fair value of the positions in the FMIvT is equal to the value of the portfolio shares. The investments in the FMIvT are not insured by FDIC or any other governmental agency. Deposit and investment balances as of September 30, 2020 are as follows:

NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2020

Note 3 - Deposits and Investments (continued)

Risk Disclosures

Credit Risk is the risk that a security or a portfolio will lose some or all of its value due to a real or perceived change in the ability of the issuer to repay its debt. A credit risk exists when there is a possibility the issuer or other counterparty to an investment may be unable to meet its obligations. The City's, the OPEB Trust's and the Retirement Plan and Trust for General Management Employees' investment policy limits the quality and quantity of investments and requires pre-qualification of the financial institutions, broker/dealers, intermediaries, and advisors with which the City conducts investment transactions. These policy requirements are intended to mitigate the effects of credit risk.

Custodial Credit Risk is the risk that, in the event of the failure of the counterparty, the City or Pension Trust Plans will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Consistent with the investment policies of the City, the Retirement Plans for General Employees and for Police Officers and Firefighters, the investments are held by each entity's custodial bank and registered in each entity's name.

Foreign Currency Risk is the risk that fluctuations in currency exchange rates may affect transactions conducted in currencies other than U.S. dollars and the carrying value of foreign investments. The City, the OPEB Trust nor the Retirement Plan and Trust for General Management Employees invests in securities denominated in foreign currencies. The value of investments of the Retirement Plan for General Employees subject to foreign currency risk at September 30, 2020 is approximately 11.4% of total investments. The Plan's investment policy limit is 25% of any manager's total Plan portfolio. The value of investments of the Retirement Plan for Police Officers and Firefighters subject to foreign currency risk at September 30, 2020 is approximately 15% of total investments. The Plan's investment policy limit is 25% of any manager's total Plan portfolio.

Concentration Credit Risk The City's investment policy and the investment policies of the Retirement Plans for the General Employees and for Police Officers and Firefighters have limitations on the amount that can be invested in any one issuer other than the U.S. Government and its agencies. Neither the City nor either Retirement Plan held investments of any one issuer of more than 5% of Fiduciary Net Position as of September 30, 2020. The following were the Boards' adopted asset allocation policies as of September 30, 2020:

CITY OF NORTH MIAMI BEACH, FLORIDA

Interest Rate Risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. Interest rate risk disclosures are required for all debt instruments as well as investments in mutual funds, external investment pools and other pooled investments that do not meet the definition of a "2a-7 like" pool.

CITY OF NORTH MIAMI BEACH, FLORIDA

NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2020

Note 3 - Deposits and Investments (continued)

Risk Disclosures (continued)

Interest Rate Risk (continued)

The City's investment policy is structured to mitigate the effects of interest rate risk by placing limits on the maturity and duration of specific investment vehicles. The objective is to structure the portfolio so that securities mature to meet cash requirements for ongoing operations thereby avoiding the need to sell securities on the open market prior to maturity. The City has approximately 81.1% of its portfolio invested in securities that are at risk due to the portfolio's exposure to fair value losses arising from increasing interest rates. At September 30, 2020 the City's investments had the following distribution of maturities:

<u>Investment Type</u>	<u>Fair Value</u>	<u>Investment Maturities (in years)</u>			
		<u>Less than 1</u>	<u>1 to 5</u>	<u>6 to 10</u>	<u>More than 10</u>
US Agencies	\$ 64,424,681	\$ 58,587,303	\$ 5,837,378	\$ -	\$ -

Commercial paper	31,876,542	31,876,542	-	-	-
Municipal bonds	3,466,656	1,283,785	2,182,871	-	-
Total	<u>\$ 118,437,069</u>	<u>\$ 103,152,295</u>	<u>\$ 15,284,774</u>	<u>\$ -</u>	<u>\$ -</u>

The OPEB Trust Fund's and the General Management Employees Pension Plan's investments are all mutual funds which do not meet the definition of a 2a-7 like pool. The Plans use the weighted average maturity method (WAM) for the FMIvT Broad Market High Quality Bond Fund which results in a modified duration of 5.52 years and a weighted average maturity of 6.60 years.

The investment policy for the Retirement Plan for General Employees does not use limits on investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. Investments in government securities and corporate bonds totaled 21.8% of the portfolio and had the following distribution of maturities at September 30, 2020:

<u>Investment Type</u>	<u>Fair Value</u>	<u>Investment Maturities (in years)</u>			
		<u>Less than 1</u>	<u>1 to 5</u>	<u>6 to 10</u>	<u>More than 10</u>
Corporate bonds	\$ 8,719,507	\$ -	\$ 3,054,362	\$ 4,135,486	\$ 1,529,659

NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2020

Note 4 – Receivables (continued)

Accounts Receivable (continued)

Receivables at September 30, 2020, consist primarily of billed and unbilled charges for services in the enterprise funds. The governmental funds' receivables consist of grants, taxes and intergovernmental receivables mostly due from the state and county pursuant to shared revenue agreements; franchise fees and utility taxes paid in arrears. Other receivables include business tax receipts and fees charged to other municipalities for utility bill processing and collection.

Notes Receivable

The sewer utility reports a long-term loan receivable totaling \$275,298 in association with the State Revolving Loan program for the Highland Village Sewer Connection Project whereby the City has paid for sewer connections to certain properties within Highland Village and the participants will repay the cost over time.

Note 5 - Restricted Assets

Restricted assets are cash and investments held by the City that are likely to require repayment. These resources are classified as restricted cash with offsetting liabilities on the balance sheet. Revenue bond proceeds are required to be expended for the capital improvement projects for which the bonds were issued. Customer deposits are collected in the water, sewer, and solid waste funds and are repaid to the customer at the time the account is closed or applied to the customer's final bill in the case of non-payment. The restricted assets balances at year end are as follows:

	Revenue bond proceeds	Customer Deposits	Total
Business-type activities:			
Water	\$ 50,986,599	\$4,065,023	\$ 55,051,622
Wastewater	11,106,624	476,850	11,583,474
Solid Waste	-	21,837	21,837
Total business-type activities	\$ 62,093,223	\$4,563,710	\$ 66,656,933

CITY OF NORTH MIAMI BEACH, FLORIDA

NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2020

Note 6 – Interfund Receivables, Payables and Transfers

Interfund Receivables

The purpose of all interfund receivables is to eliminate credit cash balances for financial statement presentation. Interfund receivables as of September 30, 2020 are as follows:

Fund	Due to Other Funds	Due from Other Funds
<u>Governmental Activities</u>		
General Fund	\$ -	\$ 482,183
<u>Non-major Governmental Funds</u>		
Grants Fund	331,866	-
Transit Surtax Fund	133,957	
Series 2011 Bond Debt Service Fund	16,360	-
Total due to/from other funds	\$ 482,183	\$ 482,183

Interfund transfers

Interfund transfers into the general fund are used to allocate expenses to other operating funds. Allocated costs include general liability and worker's compensation insurances as well as administrative expenses. Interfund transfers into the non-major governmental funds are to provide for debt service payments and grant matching requirements. Interfund transfers made during fiscal year 2020 are as follows:

Transfers out	Transfers In		
	General Fund	Non-major Governmental Funds	Total
General fund	\$ -	\$ 25,488	\$ 25,488
Community Redevelopment Agency	279,406	-	279,406
Non-major governmental funds	207,564	625,301	832,865
Water utility	3,967,240	-	3,967,240
Sewer utility	1,045,060	-	1,045,060
Solid waste	981,354	-	981,354
Non-major enterprise funds	442,565	-	442,565
Information Technology fund	4,861	-	4,861
Total transfers out	\$ 6,928,050	\$ 650,789	\$ 7,578,839

NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2020

Note 7 - Capital Assets (continued)

Depreciation

Depreciation expense for fiscal year 2020 was charged to the following functions of the City:

Governmental Activities:	
General government	\$ 2,399,317
Public safety	1,052,523
Parks & Recreation	229,977
Library	46,857
Public works	283,300
Information Technology	90,833
Total depreciation expense - governmental activities	<u>\$ 4,102,807</u>
Business-type activities:	
Water	\$ 5,886,468
Sewer	1,123,994
Stormwater	286,652
SolidWaste	120,473
Building permit	18,939
Total depreciation expense - business-type activities	<u>\$ 7,436,526</u>

Construction Commitments

Beginning in fiscal year 2009, the City received funding for various capital projects from the Florida Department of Environmental Protection State Revolving Loan Fund. These loans are considered grants from the U.S. Environmental Protection Agency passed-through the State of Florida and include \$5.5 million of principal forgiveness. The awards include \$10.0 million for the removal of volatile organic chemicals from drinking water produced by the City's utility plant, \$10.3 million for the installation of an automated meter reading system for the City's water meters, \$1.6 million to facilitate sewer connections to City facilities in the Highland Village neighborhood, \$3.8 million for the inflow and infiltration reduction program, \$3.6 million for the design and construction of a major sewer rehabilitation project. As of fiscal year 2020, all of the City has met its commitments with regard to all of the projects.

Encumbrances

Purchase orders are issued throughout the fiscal year to encumber budgets in the governmental funds. Encumbrances as of September 30, 2020 are as follows:

Major Funds:	
General Fund	\$ 78,333
Other governmental funds	<u>671,954</u>
Total encumbrances	<u>\$ 750,287</u>

CITY OF NORTH MIAMI BEACH, FLORIDA

NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2020

Note 8 – Deferred Outflow/Inflows of Resources

In addition to assets, the Statement of Net Position includes separate sections for the financial statement elements *deferred outflows of resources* and *deferred inflows of resources* that represent consumption of net position and acquisition of net position, respectively that applies to a future period and will be recognized as expenditures or revenues in the future period to which it applies. As of September 30, 2020, the City reported deferred outflows of resources consisting of deferred pension expenses totaling \$21,832,050 and deferred OPEB expenses of \$3,650,211. Deferred inflows of resources consist of business tax receipts (taxes received in advance) that were billed at the end of the fiscal year but are not due until the following fiscal year totaling \$738,389, deferred pension income of \$834,142 and deferred OPEB income of \$353,166.

Note 9 - Long-term Debt

CITY OF NORTH MIAMI BEACH, FLORIDA

NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2020

Note 9 - Long-term Debt (continued)

There are a number of limitations and restrictions contained in the various bond indentures. At September 30, 2020 the City is in compliance, in all material respects, with significant covenants and restrictions except for the debt coverage limits related to wastewater loans established by the State of Florida Department of Environmental Protection Revolving Loan Program and the Wastewater Revenue Bonds, Series 2020. Each agreement requires debt service coverage of at least 1.15 times and the City's coverage for fiscal year 2020 coverage was 0.34 times. Interest and principal payments have been made timely on all debt obligations.

Bonds Payable

On January 29, 2020, the Water Utility issued \$40,030,000 par amount of Water Revenue Bonds, Series 2020A at a premium of \$10,267,112.55 and \$39,945,000 par amount of Taxable Water Revenue Refunding Bonds, Series 2020B at coupon rates of 5%. The proceeds of Series A will be used to invest in the Utility's five-year Capital Improvement Plan. The proceeds of Series B were transferred to TD Bank, N.A. to provide for the escrow requirements for the partial redemption of the Water Revenue Refunding Bonds, Series 2012. The unrefunded portion of the Series 2012 bonds total \$7,730,000 and will be fully redeemed on August 1, 2022. The remainder of the Series 2012 bonds will be considered defeased and the liability will be removed from the Statement of Net Position for the fiscal year September 30, 2020. The refinancing resulted in an economic gain of approximately \$2.7 million and a decrease of approximately \$316,000 in annual debt service payments. The outstanding amount of escrow bonds total \$37,130,000 which is due and payable in full on August 1, 2022.

On June 25, 2020, the Water Utility was awarded a loan from the United States Government under the Water Infrastructure and Finance Innovation Act (WIFIA) administered by the Environmental Protection Agency. The loan was issued at an amount not to exceed \$44,204,486 and will be used for the Norwood Water Treatment Plant Upgrade and Transmission Main Improvements and Replacement Projects. The loan is secured by the Water Utility operating revenues, requires a 51% match and carries an interest rate of 1.36%. Interest becomes payable upon the first drawdown. The principal payback period begins five years after completion of the project which is estimated to be August 1, 2025. The first of 30 annual installments is due on August 1, 2031.

CITY OF NORTH MIAMI BEACH, FLORIDA

NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2020

Note 9 - Long-term Debt (continued)

Bonds Payable (continued)

Bond issues authorized and outstanding at September 30, 2020 are summarized as follows:

<u>General Obligation Bonds and Notes</u>	<u>Principal Outstanding</u>
\$8,190,000 General Obligation Refunding Bond, Series 2012 Capital Appreciation and term bonds; secured by revenues pledged from voted debt millage; due in annual installments of \$585,000 to \$760,000 from May 1, 2013 to May 1, 2024; interest at 2.08%.	\$ 2,955,000

State Revolving Loan Programs

In 2009, the City began participating in the Revolving Loan Program administered by the State of Florida. This program provides funding for local governments from the Department of Environmental Protection for the construction of wastewater pollution control facilities and public water systems. The loans require semi-annual principal and interest payments and have repayment terms of 20 years with fixed interest rates. Capitalized interest has been included in the loan amount. Primary terms of each agreement are provided as follows:

WW Series	Gross revenue less operating expenses and senior debt obligations	0.34

Note 10 – Risk Management

Self-Insurance

The City is exposed to various risks of loss related to torts, theft or damage to and destruction of assets, errors and omissions and natural disasters for which the City carries commercial insurance. The City established a risk management program for workers' compensation and general liabilities. Premiums are paid into the self-insurance funds, which are reported with the General Fund. Florida law limits the liability in negligence matters to \$200,000 per person up to \$300,000 per occurrence. Liabilities are reported when it is probable that a loss has occurred, and the amount of the loss can be reasonably estimated. Liabilities include an estimated amount for claims that have been incurred but not reported (IBNR). Claim liabilities are calculated considering the effects of inflation, recent claim settlement trends including frequency and amount of pay-outs and other economic factors.

CITY OF NORTH MIAMI BEACH, FLORIDA

NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2020

Note 10 – Risk Management (continued)

Self-Insurance (continued)

There were no reductions in insurance coverages from the prior years, however, the deductible on property insurance changed from \$50,000 to \$100,000 in order to contain costs. The City did not settle any claims that exceeded this coverage within the last three fiscal years. Additional coverage was obtained to protect the City from employment practices liability, after a careful market review. Finally, in order to ensure that an effective, comprehensive risk management program is in place, careful analysis of all coverage and related activity is monitored on a regular basis.

Balances and changes in the balances of claims liabilities during the past two fiscal years are as follows (in thousands):

	<u>2020</u>	<u>2019</u>
Unpaid claims, beginning	\$ 2,472	\$ 3,042
IBNR claims	278	623
Claim payments	<u>(563)</u>	<u>(1,193)</u>
Unpaid claims, ending	<u>\$ 2,187</u>	<u>\$ 2,472</u>

Contingent Liabilities

Federal and State programs were audited in accordance with the provisions of the Single Audit Act, the U.S. Office of Management and Budget Circular A-133, and the Rules of the Auditor General of the State of Florida. Pursuant to those provisions, financial assistance programs were tested for compliance with applicable grant requirements. Grantor agencies may subject grant programs to additional compliance tests, which could result in disallowed expenditures. Future disallowances of grant program expenditures, while not expected, could be material.

Litigation

The City is the defendant in several lawsuits incidental to its operations. Based upon the City Attorney's evaluation of pending cases, the estimated liability to which the City might be exposed is below \$1.0 million. The self-insurance funds, which are included in the General Fund, have assigned fund balances of approximately \$4.5 million at September 30, 2020.

Risks and Uncertainties

During March 2020, the COVID-19 virus was declared a global pandemic. The City has taken significant and unprecedented measures to mitigate the effects of the pandemic. Management is carefully monitoring the situation and is continually evaluating conditions and options. No adjustments have been made to these financial statements as a result of this uncertainty.

CITY OF NORTH MIAMI BEACH, FLORIDA

NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2020

Note 11 - Employee Retirement Systems

The City, as a single employer, maintains the following three public employee retirement system defined benefit pension plans covering substantially all full-time employees and certain former City firemen: the Retirement Plan for General Employees of the City of North Miami Beach, the Retirement Plan for Police Officers and Firefighters of the City of North Miami Beach and the Retirement Plan and Trust for General Management Employees of the City of North Miami Beach. These Plans are recorded as Pension Trust Funds. The Plans are administered by separate Boards of Trustees. In accordance with various provisions of State statutes and the City Charter, the City is obligated to fund the liabilities of the Plans based upon actuarial valuations performed at least every two years.

The Retirement Plan for General Employees of the City of North Miami Beach and the Retirement Plan for Police Officers and Firefighters of the City of North Miami Beach issue a publicly available report that includes financial statements and required supplementary information for the Plans. These reports may be obtained by writing to: City of North Miami Beach Employees' Retirement System, 17011 NE 19th Ave., North Miami Beach, Florida 33162.

Plan Membership

Membership in each of the City's pension plans is included in the following schedule.

	<u>General Employees</u>	<u>Police & Firefighters</u>	<u>General Management Employees</u>	<u>OPEB</u>
Covered Payroll	\$ 5,695,108	\$ 6,087,500	\$ 812,928	\$ 20,537,603

Note 11 - Employee Retirement Systems (continued)

Summary of Significant Accounting Policies

Basis of Accounting

Public Employee Retirement Systems (PERS) financial statements are prepared using the accrual basis of accounting. Employee and employer contributions are recognized as revenues in the period in which employee services are performed. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plan.

Method Used to Value Investments

The investment portfolios of the Retirement Plan for General Employees and the Retirement Plan for Police Officers and Firefighters are recorded in accordance with GASB Statement No. 72, *Fair Value Measurement and Application*, which establishes a hierarchy based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are based on quoted prices in active markets for identical assets; Level 2 inputs are based on significant other observable inputs; Level 3 inputs are based on unobservable inputs. A description of valuation methodologies follows.

Common stock: closing price reported on the New York Stock Exchange

Government securities: pricing models maximizing observable inputs for similar securities

Corporate bonds: pricing models maximizing the use of observable inputs for similar securities. This includes basing the value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs, such as current yield of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks or a broker quote, if available.

Hedge funds: net asset value per share, without further adjustment. Net asset value is based upon the fair value of the underlying investment.

Real estate: net asset value of shares held by the Plan at year end. The Plans have investments in a private market real estate investment for which no liquid public market exists.

Note 11 - Employee Retirement Systems (continued)

Plan Descriptions

The following brief descriptions of the Retirement Plans are provided for general information purposes only. Participants should refer to the Plan documents for more complete information.

Retirement Plan for General Employees

The benefit provisions and all other requirements of the Retirement Plan for General Employees are established by City Ordinance and are summarized as follows:

Vesting

Benefits are fully vested after 6 years of credited service if attained prior to September 30, 2013 and 10 years thereafter.

Eligibility for Retirement

Attainment of age 62 or age 55 with 20 years of credited service; or attainment of age 55 with 15 years of credited service, or completion of 20 years of credited service; or attainment of age 62 with 10 years of credited service, or age 60 with 25 years of credited service depending on bargaining unit and hire date.

Annual Retirement Benefit

Normal retirement benefits are based upon 3.0% of "final monthly compensation" ("FMC"), as defined by the pension plan, times years of credited service through December 31, 2013 and 2.5% of "FMC" times credited service after December 31, 2013.

Other Benefits

The Plan provides for optional retirement benefits, early retirement, deferred retirement, deferred retirement option program (DROP) disability retirement and death benefits to some members.

Employee Contributions

Employees contribute 7% of their basic annual compensation beginning after two years of service. If any employee leaves covered employment before vesting, accumulated employee contributions plus interest are refunded to the employee.

City Contributions

City contributions are based upon actuarially determined amounts, which together with employee contributions and fund earnings, are sufficient to fund the plan. The City's actuarially determined and actual contribution amount for the current year was 3,375,895, or 52.22% of covered payroll.

CITY OF NORTH MIAMI BEACH, FLORIDA

NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2020

Note 11 - Employee Retirement Systems (continued)

Plan Descriptions (continued)

Retirement Plan for General Employees (continued)

Actuarial methods and assumptions

Actuarially determined contribution amounts for the Plan for the current year were determined as part of the October 1, 2019 actuarial valuation using the entry age normal cost method. Additional information as of the latest actuarial valuation follows:

Valuation Date	October 1, 2019
Actuarial cost method	Entry age normal
Amortization method	Level percent of pay, closed
Remaining amortization period	30 years
Asset valuation method	Smoothed market value

Actuarial Assumptions

Investment rate of return	7.65%
Projected salary increases	3.5% to 5.0%
Cost of living adjustments	0%, 0.75%, 2.25%
Inflation	2.75%

RP 2000 Combined Mortality Table for males and females with fully generational projections to each future decrement date using Scale BB

Retirement Plan for Police Officers and Firefighters

The benefit provisions and all other requirements of the Retirement Plan for Police Officers and Firefighters are established by City Ordinance and are summarized as follows:

Vesting

Benefits are fully vested after ten years of credited service.

Eligibility for Retirement

Normal retirement is the earlier of age 52 or 22 years of service for firefighters and the earlier of age 52 or 20 years of credited service for police officers.

Annual Retirement Benefit

Normal retirement benefits are based upon 3.3% for firefighters and 3% for police officers of "final monthly compensation", as defined by the pension plan, times years of credited service.

CITY OF NORTH MIAMI BEACH, FLORIDA

NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2020

Note 11 - Employee Retirement Systems (continued)

Plan Descriptions (continued)

Retirement Plan for Police Officers and Firefighters (continued)

Other Benefits

The Plan also provides for optional retirement benefits, early retirement, deferred retirement, deferred retirement option program (DROP) disability retirement and death benefits.

Employee Contributions

7% of pretax earnings

City Contributions

City contributions are based upon actuarially determined amounts, which together with employee and state contributions and fund earnings are sufficient to fund the Plan. The City's actuarially determined and actual contribution amounts for the current year were \$6,273,855 or 96.51% of covered payroll.

Actuarial methods and assumptions

Pursuant to Florida Statutes Section 185 and Section 175, the State of Florida makes contributions to fund police and firefighter benefits. These State contributions were recognized as revenue and expenditures by the City. During fiscal year 2020, the amounts were \$327,378 and \$179,135 for police and firefighters, respectively. Information related to the latest actuarial valuation, follows:

Valuation Date	October 1, 2019
Actuarial cost method	Entry age normal
Amortization method	Level percent closed
Remaining amortization period	30 years

Note 11 - Employee Retirement Systems (continued)

Plan Descriptions (continued)

Retirement Plan and Trust for General Management Employees

On January 7, 2003, the City Commission approved the creation of the General Management Employees Pension Plan. The Plan includes all full-time employees not eligible for inclusion in the General Employees or Police and Firefighters Plans. The creation of this plan allowed employees previously in the City's defined contribution 401(a) plan the option of transferring their holdings and join this Plan. During fiscal year 2013, the Plan was amended to reduce the cost of providing retirement benefits to the City's management.

The Florida Municipal Pension Trust Fund, a division of the Florida League of Cities, administers the Plan. The benefit provisions and all other requirements of the Plan are established by City ordinance and are summarized as follows:

Vesting

Benefits are fully vested after six years of credited service, 50% after four years.

Eligibility for Retirement

Normal retirement is the attainment of the age at which normal social security benefits may be collected with four years of service.

Annual Retirement Benefit

Normal retirement benefits are based upon 3% of "average final compensation", as defined by the pension plan, times the number of years of credited service prior to February 1, 2013 and 2% thereafter.

Employee Contributions

Management personnel contribute 8% of their basic annual compensation.

City Contributions

City contributions are based upon actuarially determined amounts, which together with employee contributions and fund earnings are sufficient to fund the Plan. The City's actuarially determined contribution amount and actual contributions for the current year were \$364,641 or 44.86% of covered payroll.

CITY OF NORTH MIAMI BEACH, FLORIDA

NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2020

Note 11 - Employee Retirement Systems (continued)

Plan Descriptions (continued)

Retirement Plan and Trust for General Management Employees (continued)

Actuarial methods and assumptions

Actuarially determined contribution amounts for the Plan for the current year were determined as part of the October 1, 2019 actuarial valuation using the aggregate actuarial cost method.

Additional information related to the actuarial valuation follows:

Valuation Date	October 1, 2019
Actuarial cost method	Aggregate
Amortization method	Level dollar, fixed
Remaining amortization period	18 years
Asset valuation method	Market value

Actuarial Assumptions

Investment rate of return	7.50%
Inflation	2.92%
Projected salary increases	4.00%
Cost of living adjustments (prior to February 1, 2013)	2.25%

PUB-2010 Headcount-Weighted Below Median Healthy Retiree Mortality
with full generational improvements using sex-distinct Scale MP-2018

Florida Retirement System (FRS) and Retiree Health Subsidy Program (HIS)

The City contributes to the FRS and HIS on behalf of its elected officials. FRS is a cost-sharing multiple employer defined benefit pension plan established by and administered in accordance with Chapter 121, Florida Statutes. HIS is a cost-sharing multiple employer defined benefit pension plan established by and administered in accordance with section 112.363, Florida Statutes. The City's covered payroll for the 7 elected officials covered by the FRS and HIS for the year ended September 30, 2020 was \$21,765.

Vesting

Benefits are fully vested after eight years of credited service.

Plan Descriptions (continued)

Florida Retirement System (FRS) and Retiree Health Subsidy Program (HIS) (continued)

Eligibility for Retirement

Normal retirement is the attainment of the age 65 or after 33 years of creditable service.

Annual Retirement Benefit

Normal retirement benefits are based upon 3% of "average final compensation", as defined by the pension plan, times the number of years of credited service.

Employee Contributions

Elected officials contribute 3% of their basic annual compensation.

City Contributions

City contributions are established by the Florida Legislature. The City's proportionate share of pension contributions and allocated contributions were as follows:

Contribution Period	Florida Retirement System	
	Proportion	Contribution
July 1, 2017 to June 30, 2018	0.000226949%	\$ 6,468
July 1, 2018 to June 30, 2019	0.000310992%	9,643

CITY OF NORTH MIAMI BEACH, FLORIDA

NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2020

Note 11 - Employee Retirement Systems (continued)

Net Pension Liability

Discount Rate

The discount rate used to measure the total pension liability was 7.55% for the Retirement Plan for the General Employees, 7.50% for the Retirement Plan for Police Officers and Firefighters, 7.50% for the Retirement Plan and Trust for General Management Employees, 6.80% for the FRS and 2.21% for the HIS Program. These rates were based on the expected rate of return on Plan investments. The projection of cash flows used to determine this discount rate assumed member contributions will be made at the current contribution rate and employer contributions will be made at rates equal to the difference between actuarially determined current contribution rates and the member contribution rate. Based on these assumptions, the pension Plan's fiduciary net position was projected to be available to make all projected future expected benefit payments of current Plan members. Therefore, the long-term expected rate of return on Plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to the Discount Rate Assumption

The following table presents the City's net pension liability calculated using the current discount rates and the liability using discount rates that are one percentage point lower and one percentage point higher than the current rates to indicate the sensitivity of the net pension liability to changes in discount rate assumptions.

Retirement Plan	1% Decrease	Current Discount Rate	1% Increase
General Employees (7.55%)	\$ 47,313,155	\$ 33,973,607	\$ 22,900,513
Police and Firefighters (7.50%)	77,670,652	58,331,552	42,405,367
General Management (7.50%)	4,170,007	1,753,330	(278,259)
Florida Retirement System (6.80%)	200,112	125,318	62,850
Health Insurance Subsidy (2.21%)	8,954	7,746	6,757

Long-term Expected Rate of Return

Long-term expected rates of return on the Plans' investments were determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of Plan investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

CITY OF NORTH MIAMI BEACH, FLORIDA

NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2020

Note 11 - Employee Retirement Systems (continued)

Net Pension Liability (continued)

Long-term Expected Rate of Return (continued)

Best estimates of arithmetic real rates of return for each major asset class included in the General Employees, the Police and Firefighters and the General Management Employees Plans' target asset allocations as of October 1, 2019 and the Florida Retirement System Plan as of July 1, 2019 are summarized in the following table:

<u>Retirement Plan</u>	<u>Asset Class</u>	<u>Real Rate of Return</u>
General Employees	Large Cap Value	6.97%
	Large Cap Growth	7.16%
	Small/Mid Cap Value	7.65%
	Mid Cap Growth	7.85%
	International Value	6.20%
	International Growth	6.20%
	Hedge Funds	4.30%

Management Employees Excess Benefits Plan

Plan Description

On January 7, 2003, the City established the Management Employees Excess Benefit Plan as part of the General Management Employees Pension Plan to be an unfunded, nonqualified excess benefit plan, containing the terms and provisions set forth in the subpart (Sec. 15-341) and intended to be a qualified governmental excess benefit arrangement as defined in Section 415 (m) (3) of the Internal Revenue Code.

Excess Benefit Participants

Any member of the Retirement Plan and Trust for General Management Employees whose retirement benefit exceeds the maximum benefit under Section 415 of the Code is a participant.

Benefits Provided

A participant shall be eligible to receive benefits after termination of employment, as an unrestricted monthly benefit that otherwise would have been received under the terms of the Retirement Plan and Trust for General Management Employees in the absence of IRS Code Section 415 limits.

CITY OF NORTH MIAMI BEACH, FLORIDA

NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2020

Note 11 - Employee Retirement Systems (continued)

Management Employees Excess Benefits Plan (continued)

Funding Policy

The City cannot advance fund assets, or any benefit payable under the Plan, and any assets held by the Plan during any period can only pay benefits coming due or the expenses of the plan during the period. The City cannot restrict any assets to provide funding for these benefits. The City has in the past and will continue to stand by its obligation to pay these benefits from its annual budgeted funds, as the liability becomes payable under this plan. An actuarial valuation has not been performed because the plan costs must be paid on an annual basis. A schedule of changes in net pension liability has not been provided as the plan does not maintain assets. Accordingly, the plan held no assets at September 30, 2020. The City's annual pension cost at September 30, 2020 is as follows:

Annual required contribution	<u>\$ 318,324</u>
Annual pension cost	318,324
Contributions made	<u>318,324</u>
Change in net pension liability	-
Net pension liability, beginning of year	<u>-</u>
Net pension liability, end of year	<u><u>\$ -</u></u>

Retirement Plan and Trust for General Management Employees

On July 18, 2017, City Commission approved Ordinance 2017-8 to close the Retirement Plan and Trust for General Management Employees to new members and provided for the option of existing non-vested plan members to transfer to the Management Employee Defined Contribution Money Purchase Plan. As part of that ordinance, the Money Purchase Plan was also amended to reduce the City's contribution from 17% of members' salary to 10%.

CITY OF NORTH MIAMI BEACH, FLORIDA

NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2020

Note 12 - Defined Contribution Plan

The City is a single employer that contributes to two Money Purchase Plans, which are defined contribution pension plans created in accordance with Internal Revenue Code 401(a). The City contributes 10% of annual covered payroll and the employee is required to contribute 5% for the Management Plan. The City contributes 20% of annual covered payroll and the employee is not required to contribute to the Charter Officer Plan. During the fiscal year ending September 30, 2020, the City did not make any contributions to the Charter Officer Plan and approximately \$272,840 to the Management Plan. Plan provisions and contribution requirements are established and may be amended by the City Manager.

Note 13 - Other Post-Employment Benefits (OPEB)

Description of Benefits

In addition to providing the pension benefits described, the City provides optional post-employment healthcare coverage to eligible individuals, as well as dental and vision benefits. In addition, all retirees are covered by a group life insurance policy under a single-employer plan.

Eligibility

Eligible individuals include certain regular employees of the City of North Miami Beach who retire from active service and are eligible for retirement or disability benefits under one of the pension plans sponsored by the City. Elected officials elected prior to October 1, 2008 are eligible after serving at least four terms. In most cases, eligibility for healthcare coverage also includes spouses and dependent children. Spousal coverage generally ends at age 65 or after the employee's death.

Healthcare Plans

Eligible individuals may choose healthcare coverage under three plans from the City's current health insurance provider. Options include a Health Maintenance Organization (HMO) plan, a Preferred Provider Organization (PPO) plan or a High Deductible Health Plan (HDHP) with a Health Savings Account (HSA) partially funded by the City. Medicare-eligible individuals may choose any of the three plans or choose coverage under a Medicare supplement plan. Retirees must pay a monthly premium as determined by the insurance carrier, less any applicable subsidies provided by the City. The premiums vary depending on the chosen plan and the type of coverage.

CITY OF NORTH MIAMI BEACH, FLORIDA

NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2020

Note 13 - Other Post-Employment Benefits (continued)

The City subsidizes 100% of the premium for single coverage under the PPO plan for eligible elected officials. In addition, the City subsidizes a portion of the premium for single coverage under the PPO plan for retired management-level personnel (and some currently employed) hired prior to October 1, 2008 depending on age and length of service at retirement.

Post-employment Life Insurance Coverage

The City provides \$ 10,000 of life insurance coverage to all retirees. Management-level personnel receive an additional \$10,000 of coverage if they have earned at least 15 years of service at retirement or an additional \$20,000 of coverage if they have earned at least 20 years of service.

Actuarial methods and assumptions

During fiscal year 2011, the City established an OPEB Trust to accumulate the assets necessary to fund the OPEB liability and to pay future benefits. The fund in which the employee's payroll expense has been recorded is typically used to liquidate OPEB liabilities. The annual required contributions for the Plan were determined as part of the October 1, 2019 actuarial valuation using the projected unit credit cost method. Information related to the actuarial valuation follows:

Actuarial methods and assumptions (continued)

Note 14 - Community Redevelopment Agency

The North Miami Beach Community Redevelopment Agency (NMBCRA) Component Unit incurred the following expenditures during the fiscal year ended September 30, 2020:

<u>Expenditures</u>	<u>Amount</u>
General government	\$ 652,681
Capital outlay	287,127
Debt service:	
Principal	166,667
Interest	28,827
Total expenditures	\$ 1,135,302

In 2020, the CRA sponsored the OneNMB Concert Series and partially funded a parking study and hired a consultant to develop programming for the redevelopment area.

CITY OF NORTH MIAMI BEACH, FLORIDA

NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2020

Note 14 - Community Redevelopment Agency (continued)

Tax Abatements

During fiscal year 2015, the CRA created a new redevelopment program aimed at spurring the redevelopment of properties within the redevelopment area via CRA Policy Resolution 2015-4. Applicants whose projects are deemed acceptable to the CRA Board may receive a partial return of the property taxes that were paid. The rebate is calculated based on the increment by which the development increases in property value. A total of 75% of the taxes paid on the increment will be rebated if the total real estate taxes are paid prior to delinquency. If the taxes are not paid timely, there is no rebate of the property tax increment. This rebate program has no effect on the revenues of the primary government, the City of North Miami Beach.

One award was granted in January 2016 to the NoMa project, a 249 residential unit mixed use development located at 2145 NE 164th Street and West Dixie Highway. As part of the TIF Recapture program, the recipient has agreed to install certain Waterfront Improvements and Art in Public Places as defined in the agreement. The project was completed during early 2018, which is considered the base year for increment measurement. The amount rebated in fiscal year 2019 was \$264,700 and in fiscal year 2020 was \$433,637.

Note 15 - Pronouncements Issued, Not Yet Effective, and Recently Adopted

The Governmental Accounting Standards Board (GASB) has issued several pronouncements that have effective dates that may impact future financial presentations. Management has not currently determined what effect, if any, implementation of the statements may have on the financial statements of the City.

Note 16 – Subsequent Events

On August 4, 2020, the City Commission voted to terminate the contract with CH2M Hill to provide operations, maintenance, repair, replacement and program management services to the Water and Sewer Utilities. The transition to City provided services required extensive involvement from the administrative divisions involving the recruitment, interview and on-boarding of 126 new employees; the purchase of 59 vehicles, 80 computer workstations and laptops along with the purchase and training on 9 new software programs required; the re-establishment of some 33 contracts for goods and services required to operate, maintain and repair the utilities. The first phase of the transition began with the Customer Service and facility maintenance in November 2021. The final transition was completed on February 4, 2021. To date, the transition cost is approximately \$1.65 million.

CITY OF NORTH MIAMI BEACH, FLORIDA

NOTES TO BUDGETARY COMPARISON SCHEDULE SEPTEMBER 30, 2020

Note 1 - Budgets and Budgetary Accounting

Annual budgets are adopted for the General Fund, the Transit Surtax Fund, the Community Redevelopment Agency, the Eastern Shores Special Taxing Districts, the debt service funds and the Alley Restoration Program on a basis consistent with generally accepted accounting principles.

1. Prior to July 1, the City Manager submits a budget estimate of revenues and expenditures for all City departments for the fiscal year commencing October 1 to the City Commission.
2. The City Commission holds budget workshops to review and amend the proposed budget.
3. Two public hearings are conducted to obtain taxpayers' comments.
4. Prior to October 1, the budget is legally enacted through passage of a resolution.
5. No department may legally expend or contract to expend amounts in excess of amounts appropriated for any department within an individual fund. Budget appropriations for salary and related costs and for operating costs lapse at year end. Appropriations for capital outlay expenditures carry forward to the next fiscal year for open purchase orders.
6. The resolution authorizes the City Manager to amend, modify, or otherwise adjust the City's annual budget in accordance with the spending limitations as established by Chapter 3, Purchasing, of the North Miami Beach Code of Ordinances (\$50,000). The City Commission approves all other budget amendments.
7. Encumbrance accounting is used in governmental funds. Encumbered purchase orders outstanding at year-end are reported as assignments of fund balances to indicate that they are not available for appropriation and are not expendable available financial resources.

Note 2 – Negative Variances

The negative variance in the Series 2011 General Obligation Debt Service Fund results from the City failing to appropriately budget the ad valorem revenue. The revenue was budgeted at 100% of the levy, but the County provides discounts of up to 5% for early payment of property taxes. An appropriate amount of excess revenue has been budgeted in fiscal year 2021 to eliminate the fund deficit.

The negative revenue variances in the General Fund are the direct result of the COVID-19 pandemic. The negative variance in the General Fund Legislative expenses are the result of an adjustment to uncollectible accounts receivable as a result of the implementation of a new utility billing software system.

NON-MAJOR GOVERNMENTAL FUNDS

CITY OF NORTH MIAMI BEACH, FLORIDA

FUND DESCRIPTIONS – NON-MAJOR GOVERNMENTAL FUNDS SEPTEMBER 30, 2020

Special Revenue Funds

Special revenue funds are used to account for specific sources of revenue that are legally restricted to expenditure for particular purposes.

Grants – This fund is used to account for the various federal, state and local grants awarded to the City.

Transit Surtax – This fund is used to account for the City's portion of the Miami-Dade County one-half percent sales surtax approved by voters in November 2002.

Confiscated Property – This fund is used to account for confiscated and forfeited property received from federal and state government. The uses of the property are governed by State of Florida Statutes, Chapter 932; the United States Department of Justice publication, *A Guide to Equitable Sharing of Federally Forfeited Property for State and Local Law Enforcement Agencies*; and the United States Treasury Department publication, *Guide to Equitable Sharing for Foreign Countries and Federal, State and Local Law Enforcement Agencies*.

Eastern Shores Security Special Taxing District – This fund is used to account for the activities related to the guard house located at the 35th Avenue entrance to the Eastern Shores subdivision. The Special Taxing District was created on November 21, 1995 for the purpose of providing security for the area. Administration of the district was transferred from Miami-Dade County to the City of North Miami Beach on February 2, 2018.

Eastern Shores First Addition Security Guard Special Taxing District – This fund is used to account for the activities related to the guard house located at the 164th Street entrance to the Eastern Shores subdivision. The Special Taxing District was created on April 7, 1994 for the purpose of providing security for the area. Administration of the district was transferred from Miami-Dade County to the City of North Miami Beach on February 2, 2018.

Debt Service Funds

Debt service funds are used to account for the resources accumulated and payments made for principal and interest on long-term debt of governmental funds.

Series 2011 – This fund is used to account for the principal and interest payments relating to the \$14,835,000 promissory note issued to defease the Series 2000B bonds originally issued to fund improvements related to the Proud Neighborhood plan.

Series 2012 – This fund is used to account for the debt service of the \$8,190,000 promissory note issued to defease the Series 2002A Series Capital Appreciation and Term Bonds. The 2002A bond proceeds were used to defease the Series 1994 bonds originally issued to fund the expansion of the police station and various neighborhood improvements.

CITY OF NORTH MIAMI BEACH, FLORIDA

FUND DESCRIPTIONS – NON-MAJOR GOVERNMENTAL FUNDS SEPTEMBER 30, 2020

Series 2013 – This fund is used to account for the principal and interest payments relating to the \$3,635,000 Revenue Bonds, Series 2013. The proceeds were used to refund Florida Municipal Loan Council Revenue Bonds, Series 2003B. The original issue was used to fund various transit/transportation related projects.

Series 2015 – This fund is used to account for the principal and interest payments relating to the City's portion of the Series 2015 Revenue Refunding bonds issued to refund the Florida Municipal Loan Council Revenue Bonds, Series 2005C. The bond proceeds were used to defease the Series 2000A bonds originally issued to fund the bike path and street improvements, including lighting and traffic calming devices.

Capital Projects Fund

Capital projects funds are used to account for the acquisition and construction of major capital facilities other than those financed by proprietary funds and trust funds.

Alley Restoration Program – This fund accounts for improvements to the City's alley infrastructure in order to facilitate traffic flow of solid waste equipment, stormwater run-off and trash collection.

IV. STATISTICAL SECTION

STATISTICAL SECTION

This part of the City of North Miami Beach's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health.

<u>Contents</u>	<u>Page</u>
Financial Trends <i>These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.</i>	132-135
Revenue Capacity <i>These schedules contain information to help the reader assess the City's most significant local revenue source, the property tax.</i>	136-142
Debt Capacity <i>These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.</i>	143-146
Demographic and Economic Information <i>These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.</i>	147-149
Operating Information <i>These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.</i>	150-151

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

CITY OF NORTH MIAMI BEACH, FLORIDA
DIRECT AND OVERLAPPING GOVERNMENTAL ACTIVITIES DEBT
SEPTEMBER 30, 2020
(AMOUNTS EXPRESSED IN THOUSANDS)

<u>Government Unit</u>	2020		
	<u>Net Debt Outstanding</u>	<u>Percentage Applicable to the City of North Miami Beach (1)</u>	<u>Amount Applicable to the City of North Miami Beach</u>
Debt repaid with property taxes:			
Miami-Dade County	\$ 2,260,964	1.02%	\$ 23,077
Miami-Dade County School Board	2,233	0.94%	21
Other debt:			
Miami-Dade County	2,395,810	1.02%	24,453
Miami-Dade County School Board	867	0.94%	<u>8</u>
Subtotal, Overlapping Debt			47,559
City of North Miami Beach Direct Debt			<u>14,518</u>
Total Direct and Overlapping Debt			<u><u>\$ 62,077</u></u>

Sources: Data provided by the Miami-Dade County Finance Department and the Miami-Dade County School Board.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City. This process recognizes that, when considering the City's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident and therefore responsible for repaying the debt of each overlapping government.

(1) For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using net taxable assessed property values. It is calculated by taking the value that is within the City's boundaries and dividing it by the County's and School Board's total net taxable assessed value. This approach was also used for the other debt.

IV. COMPLIANCE SECTION

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Honorable Mayor and Members of the City Commission
City of North Miami Beach, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of North Miami Beach, Florida (the "City"), as of and for the fiscal year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated April 30, 2021. Our report includes a reference to other auditors who audited the financial statements of the Retirement Plan for General Employees and the Retirement Plan for Police Officers and Firefighters of the City of North Miami Beach, as described in our report on the City's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the City's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON
INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

To the Honorable Mayor and Members of the City Commission
City of North Miami Beach, Florida

Report on Compliance for Each Major Federal Program

We have audited the City of North Miami Beach, Florida's (the "City") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the City's major federal programs for the fiscal year ended September 30, 2020. The City's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the City's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City's compliance.

Opinion on Each Major Federal Program

In our opinion, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the fiscal year ended September 30, 2020.

Report on Internal Control over Compliance

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

Report on Internal Control over Compliance (Continued)

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Purpose of this Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

CITY OF NORTH MIAMI BEACH, FLORIDA
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2020

NOTE 1 - BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal grant expenditure activity of the City of North Miami Beach (the "City") for the fiscal year ended September 30, 2020. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations, Part 200, *Uniform Administrative Requirements, Cost Principles, Audit Requirements for Federal Awards* (Uniform Guidance) and cost principles applicable to the Equitable Sharing Program. Because the Schedule presents only a selected portion of the operations of the City, it's not intended to and does not present the financial position, changes in net position/fund balance or cash flows of the City.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting for grants which are accounted for in the governmental fund types and on the accrual basis of accounting for grants which are accounted for in the proprietary fund types. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Pass-through entity identifying numbers are presented where available.

NOTE 3 - CONTINGENCY

The grant revenue amounts received are subject to audit and adjustment. If any expenditures are disallowed by grantor agency as a result of such an audit, any claim for reimbursement to the grantor agencies would become a liability of the City. In the opinion of management, all grant expenditures are in compliance with the terms of the grant agreements and applicable federal and state laws and regulations.

NOTE 4 - INDIRECT COST RECOVERY

The City has elected not to use the 10 percent de minimis indirect cost rate allowed under the Uniform Guidance.

**MANAGEMENT LETTER IN ACCORDANCE WITH THE RULES
OF THE AUDITOR GENERAL OF THE STATE OF FLORIDA**

Honorable Mayor and Members of the City Commission
City of North Miami Beach, Florida

Report on the Financial Statements

We have audited the financial statements of the City of North Miami Beach (the “City”), as of and for the fiscal year ended September 30, 2020, and have issued our report thereon dated April 30, 2021. Our report includes a reference to other auditors. Other auditors audited the financial statements of the Retirement Plan for General Employees and the Retirement Plan for Police Officers and Firefighters of the City of North Miami Beach, Florida.

Auditors’ Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance); and Chapter 10.550, Rules of the Florida Auditor General.

Other Reports and Schedule

We have issued our Independent Auditors’ Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards*; Independent Auditors’ Report on Compliance for Each Major Program and Report on Internal Control Over Compliance; Schedule of Findings and Questioned Costs; Summary Schedule of Prior Audit Findings; and Independent Accountants’ Report on an examination conducted in accordance with *AICPA Professional Standards*, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports and schedule, which are dated April 30, 2021, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. In accordance with our audit, corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report.

Official Title and Legal Authority

Section 10.554(1)(i)4., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. This information is disclosed in the notes to the financial statements. The City included the following blended component unit: The North Miami Beach Community Redevelopment Agency (the CRA).

Financial Condition and Management

Sections 10.554(1)(i)5.a. and 10.556(7), Rules of the Auditor General, requires that we apply appropriate procedures and report the results of our determination as to whether or not the City has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and identification of the specific condition(s) met. In connection with our audit, we determined that the City did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.554(1)(i)5.b. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures. It is management's responsibility to monitor the City's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same. Our assessment was performed as of the fiscal year end.

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Additional Matters

Section 10.554(1)(i)3., Rules of the Auditor General, requires that we address noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material, but which warrants the attention of those charged with governance. In connection with our audit, we did not have any such findings.

Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and State awarding agencies, the Mayor, Members of the City Commission and management of the City and is not intended to be and should not be used by anyone other than these specified parties.

Caballero Fierman Llerena & Garcia, LLP

Caballero Fierman Llerena & Garcia, LLP

**INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE WITH THE REQUIREMENTS OF
SECTION 218.415 FLORIDA STATUTES**

Honorable Mayor and Members of the City Commission
City of North Miami Beach, Florida

We have examined City of North Miami Beach, Florida, (the "City") compliance with the requirements of Section 218.415 Florida Statutes during the period of October 1, 2019 to September 30, 2020. Management of the City is responsible for the City's compliance with those specified requirements. Our responsibility is to express an opinion on the City's compliance with the specified requirements based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the City complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether the City complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Our examination does not provide a legal determination on the City's compliance with specified requirements. In our opinion, the City complied, in all material respects, with the requirements of Section 218.415 Florida Statutes during the period of October 1, 2019 to September 30, 2020.

This report is intended solely for the information and use of management, the Mayor, the City Commission, others within the City and the Auditor General of the State of Florida and is not intended to be and should not be used by anyone other than these specified parties.
