INDEPENDENT AUDITORS' REPORT

To the Honorable Mayor, Town Council, and Town Clerk,
Town of Yankeetown:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, and each major fund of the Town of Yankeetown, (the Town), as of and for the year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

The Town's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our (1) unmodified audit opinion on the General Fund; and (2) qualified audit opinion on the governmental activities, business-type activities, and Utility Fund.

Basis for Qualified Opinion on Governmental Activities, Business-type Activities, and Utility Fund

As discussed in Note (8) to the financial statements, the Town has not implemented the provisions of GASB Statement No. 75, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*. Accounting principles generally accepted in the United States of America require recording of an obligation for postemployment benefits other than pensions, which would increase liabilities, decrease net position, and change the expenses in the governmental activities, business-type activities, and Utility Fund. The effects of this departure from accounting principles generally accepted in the United States of America on the governmental activities, the business-type activities, and the Utility Fund has not been determined.

Qualified Opinion on the Governmental Activities, Business-type Activities, and Utility Fund

In our opinion, except for the effects of not implementing the provisions of GASB Statement No. 75, as described in the preceding paragraph, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, and the Utility Fund of the Town as of September 30, 2020, and the respective changes in financial position and, where applicable, cash Town thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Unmodified Opinion on the General Fund

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the General Fund of the Town as of September 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

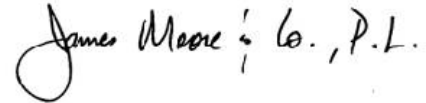

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the schedule of changes in the Town's total OPEB liability that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements are not affected by this missing information.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated May 14, 2021, on our consideration of the Town's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS
SEPTEMBER 30, 2020**

This discussion and analysis of the Town of Yankeetown's financial performance provides an overview of the Town's financial activities for the fiscal year ended September 30, 2020. Please read it in conjunction with the Town's financial statements, which follow this section.

The following are various financial highlights for fiscal year 2020:

- The Town follows GASB Statement No. 68 and reported a net pension liability of \$209,666 at September 30, 2020.
- The Town's overall net position decreased by \$229,360. Net position of business-type activities decreased by \$86,904, while net position of governmental activities decreased by \$142,456.
- Total ending unrestricted net position was \$1,131,117.

OVERVIEW OF THE BASIC FINANCIAL STATEMENTS

This annual report contains government-wide financial statements that report on the Town's activities as a whole and fund financial statements that report on the Town's two individual funds.

Government-wide Financial Statements

The first financial statement is the Statement of Net Position. This statement includes all of the Town's assets and liabilities using the accrual basis of accounting. Accrual accounting is similar to the accounting used by most private-sector companies. All of the current year revenues and expenses are recorded, regardless of when cash is received or paid. Net position – the difference between assets and liabilities – can be used to measure the Town's financial position.

The second financial statement is the Statement of Activities. This statement is also shown using the accrual basis of accounting. It shows the increases and decreases in net position during the fiscal year. Over time, the increases or decreases in net position are useful indicators of whether the Town's financial health is improving or deteriorating. However, other non-financial factors, such as road conditions or changes in the tax base, must also be considered when assessing the overall health of the Town.

In these statements, the Town's activities are divided as follows:

- Governmental activities – Most of the Town's basic services are reported here, including administration, fire services, road and bridge, and maintenance. Taxes and charges for services finance most of these activities.
- Business-type activities – These activities are financed in whole or in part by fees charged to external parties for good or services. The activities of the water system and garbage collections are reported as business-type activities.

Fund Financial Statements

Following the government-wide financial statements are the fund financial statements. They provide more detailed information about the Town's funds.

TOWN OF YANKEETOWN, FLORIDA
MANAGEMENT'S DISCUSSION AND ANALYSIS
SEPTEMBER 30, 2020
(Continued)

- Governmental funds – The General Fund is the Town’s only governmental fund. This fund is accounted for using modified accrual accounting. Modified accrual accounting focuses on available cash and other financial assets that can readily be converted to cash. This provides a shorter-term view of the governmental fund’s financial position. A reconciliation is provided with these statements, which helps to explain the difference between the fund financial statements and the government-wide financial statements.
- Proprietary funds – The Utility Fund is the Town’s only proprietary fund. Proprietary funds are reported using the accrual basis of accounting and, accordingly, there is a correlation between the amounts reported in the fund financial statements and the amounts reported in the government-wide financial statements.

CONDENSED FINANCIAL INFORMATION The following tables present condensed, government-wide comparative data about net position and changes in net position.

OVERALL FINANCIAL POSITION AND RESULTS OF OPERATIONS

Governmental Activities

The governmental activities generated \$116,768 in program revenues and \$362,710 of general revenues, and incurred \$621,934 of expenses. This resulted in a \$142,456 decrease in net position.

TOWN OF YANKEETOWN, FLORIDA
MANAGEMENT'S DISCUSSION AND ANALYSIS
SEPTEMBER 30, 2020
(Continued)

Business-type Activities

Revenues of the Utility Fund were \$461,928, compared to expenses of \$548,832. This resulted in a decrease in net position of \$86,904.

THE TOWN'S INDIVIDUAL FUNDS

General Fund

The General Fund's fund balance decreased by \$119,786 from \$884,495 to \$764,709.

Utility Fund

The Utility Fund's net position decreased by \$86,904, from \$4,741,396 to \$4,654,492.

BUDGETARY HIGHLIGHTS

There was no change between the original and final budgets for the General Fund.

Revenues of the General Fund were less than budgeted amounts by \$386,883. This is largely because the commission anticipated \$387,000 budget for a boat landing construction project that was partially delayed, by the grantor. Additionally, there was \$221,000 of budget reserve carryforward that was not used.

General Fund expenditures were less than budgeted amounts by \$488,769, because they did not progress with the boat landing project until the end of the fiscal year resulting in \$355,387 of budgeted Capital projects unspent at year end. Additionally, they had a \$75,000 contingency fund that was not used at year end.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

During the year, the Town expended \$92,575 on capital projects. \$59,900 related to a storm water drainage project and \$32,675 related to the initial cost of the boat landing project, as discussed above. For further information on smaller purchased, please refer to the note to the accompanying financial statements entitled *Capital Assets* for more detailed information about the Town's capital asset activity.

Debt Administration

The Town's long-term debt was reduced by \$32,423 during the current year. Please refer to the note to the accompanying financial statement entitled *Long-term Debt* for more detailed information about the Town's debt activity.

ECONOMIC FACTORS

We are not currently aware of any conditions that are expected to have a significant effect on the Town's financial position or results of operations.

CONTACTING THE TOWN'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and creditors with a general overview of the Town's finances and to show the Town's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact Town Hall at 6241 Harmony Lane, Yankeetown, Florida.

**TOWN OF YANKEETOWN, FLORIDA
RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF NET POSITION
SEPTEMBER 30, 2020**

Fund balances - total governmental funds \$ 764,709

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds

Total governmental capital assets	3,037,343	
Less: accumulated depreciation	<u>(1,270,761)</u>	1,766,582

On the governmental fund statements, a net pension liability (asset) is not recorded until an amount is due and payable and the pension plan's fiduciary net position is not sufficient for payment of those benefits (no such liability exists at the end of the current fiscal year). On the statement of net position, the Town's net pension liability (asset) of the defined benefit pension plans is reported as a noncurrent liability (asset). Additionally, deferred outflows and deferred inflows related to pensions are also reported.

Net pension liability	(209,666)	
Deferred outflows related to pensions	80,198	
Deferred inflows related to pensions	<u>(24,012)</u>	(153,480)

Long-term liabilities, including bonds payable and notes payable, are not due and payable in the current period and, therefore, are not reported in the funds. These liabilities and other long-term liabilities consist of the following:

Compensated absences		(11,278)
----------------------	--	----------

Net position of governmental activities \$ 2,366,533

The accompanying notes to financial statements are an integral part of this statement.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED SEPTEMBER 30, 2020**

Net change in fund balances - total governmental funds	\$ (119,786)
Differences in amounts reported for governmental activities in the statement of activities are:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is depreciated over their estimated useful lives.	
Capital outlay expenditures	92,575
Depreciation expense	(91,894)
Governmental funds report contributions to defined benefit pension plans as expenditures. However, in the statement of activities, the amount contributed to defined benefit pension plans reduces future net pension liability. Also included in pension expense in the statement of activities are amounts required to be amortized.	
Change in net pension liability and deferred inflows/outflows related to pensions	(26,678)
Under the modified accrual basis of accounting used in the governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. In the statement of activities, however, which is presented on the accrual basis, expenses and liabilities are reported regardless of when financial resources are available. These adjustments are as follows:	
Change in compensated absences liability	3,327
Change in net position of governmental activities	<u>\$ (142,456)</u>

The accompanying notes to financial statements are an integral part of this statement.

TOWN OF YANKEETOWN, FLORIDA
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

(1) Summary of Significant Accounting Policies:

The financial statements of the Town of Yankeetown, Florida (the Town), have been prepared in accordance with accounting principles generally accepted in the United States of America as applicable to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted body for promulgating governmental accounting and financial reporting principles. The following is a summary of the Town's significant accounting policies:

(a) **Reporting entity**—The Town is a political subdivision of the State of Florida, established by Chapter 25-11807, Laws of Florida. The legislative branch of the Town is composed of an elected five-member Town Council consisting of the Mayor and four Councilors. The Town Council is governed by the Town Charter and by state and local laws and regulations. The Town Council is responsible for the establishment and adoption of policy. The execution of such policy is the responsibility of the Council-appointed Town Administrator.

The accompanying financial statements present the financial position, results of operations, and cash flows of the applicable funds governed by the Town Council of the Town, the reporting entity of government for which the Town Council is considered to be financially accountable. In evaluating the Town as a reporting entity, management has addressed all potential component units that may or may not fall within the Town's oversight and control, and thus, be included in the Town's financial statements. No such entities or component units have been identified.

(b) **Government-wide and fund financial statements**—The government-wide financial statements (the Statement of Net Position and the Statement of Activities) report information on all of the activities of the Town. Governmental activities, which are primarily supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely on fees charged to external parties as their primary revenues.

Generally, internal interfund activity has been eliminated from the government-wide financial statements. However, charges between the Town's water system and other governmental functions are not eliminated because elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

The Statement of Net Position reports the Town's financial position as of the end of the fiscal year. In this statement, the Town's net position is reported in three categories: net investment in capital assets; restricted net position; and unrestricted net position. The Statement of Activities is displayed using a net cost format and reports the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include charges for services that are directly related to a given function and grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. General revenues include taxes and other revenues not properly included among program revenues.

(c) **Measurement focus and basis of accounting**—The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

TOWN OF YANKEETOWN, FLORIDA
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

(1) **Summary of Significant Accounting Policies:** (Continued)

Governmental fund financial statements are reported using *the current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers property tax revenues to be available if they are collected within 60 days of the end of the current fiscal period.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and pensions, are recorded only when payment is due.

Taxes, intergovernmental revenue, licenses and permits, charges for services, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

(d) **Financial statement presentation**—The financial transactions of the Town are recorded in individual funds. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, deferred outflows, liabilities, deferred inflows, fund equity, revenues and expenditures/expenses. The various funds are reported by generic classification within the financial statements.

The GASB Codification sets forth minimum criteria (percentage of the assets, liabilities, revenues or expenditures/expenses of either fund category or the governmental and enterprise combined) for the determination of major funds.

The Town reports the following major governmental fund:

The **General Fund** accounts for all financial transactions not accounted for in other funds. The majority of current operating expenditures of the Town other than proprietary fund activities are financed through revenues received by the General Fund.

The Town reports the following major proprietary fund:

The **Utility Fund** accounts for the financial activities of the Town's potable water utility system, including the pumping, treatment, and distribution systems.

(e) **Budgets and budgetary accounting**—Annual budgets for all governmental and proprietary funds were adopted in compliance with Florida law. The basis on which the budgets are prepared is consistent with the basis of accounting utilized by the various fund types. The governmental funds' budgets are prepared on the modified accrual basis of accounting. The proprietary funds' budgets are prepared on a full accrual basis of accounting.

(f) **Use of estimates**—Management uses estimates and assumptions in preparing financial statements in accordance with generally accepted accounting principles. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenue and expenses. Actual results could vary from the estimates assumed in preparing the financial statements.

TOWN OF YANKEETOWN, FLORIDA
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

(1) **Summary of Significant Accounting Policies:** (Continued)

(g) **Deposits and investments**—The Town’s cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments are recorded at fair value. Accordingly, the change in fair value of investments is recognized as an increase or decrease to investment assets and investment income.

(h) **Receivables and payables**—Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either “due to/from other funds” (i.e., the current portion of interfund loans) or “advances to/from other funds” (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as “due to/from other funds.” Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as “internal balances.”

All trade and property tax receivables are reported net of an allowance for uncollectible accounts, which is based upon management's analysis of historical trends. Utility operating sales are generally recognized on the basis of cycle billings rendered quarterly. Unbilled accounts receivable are accrued by the Town at year-end to recognize the sales revenues earned through the end of the fiscal year. All unpaid property taxes receivable at year end are at least 180 days past due, at which time the applicable property is subject to lien, and penalties and interest are assessed.

(i) **Capital assets**—Capital assets include property, plant, equipment and infrastructure assets. The terms general capital assets and general infrastructure assets relate only to the assets associated with governmental activities, whereas the terms capital assets and infrastructure assets relate to all such assets belonging to the Town.

Capital assets are defined by the Town as assets with an initial individual cost of \$500 or more and an estimated useful life of more than one year. Such assets are recorded at historical cost, if purchased or constructed. Contributed assets, including donations and easements or other intangible rights of use, are recorded at acquisition value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are only capitalized if they meet the dollar threshold above for capitalization. Maintenance and repairs of capital assets are charged to operating expenses.

Depreciation is reported for the primary government using the straight-line method calculated on a service-life basis to amortize the cost of the asset over their estimated economic useful lives, which are as follows:

Assets	Years
Buildings and improvements	25 – 40 years
Vehicles	5 – 10 years
Equipment – General	5 – 10 years
Equipment – Park	5 years

(j) **Compensated absences**—The Town’s personnel policies allow for limited accumulation of unused vacation leave. Sick leave does not carryover from one year to the next. The liability for compensated absences is accrued when incurred in the government-wide financial statements. In the fund financial statements, a liability for compensated absences is reported to the extent that the liability will be liquidated with expendable available financial resources.

TOWN OF YANKEETOWN, FLORIDA
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

(1) **Summary of Significant Accounting Policies:** (Continued)

(k) **Property Taxes**—The Levy County Tax Collector bills and collects property taxes for the Town. In governmental funds, property tax revenues are recognized when levied, to the extent that they result in current receivables.

Valuation Date:	January 1, 2019
Levy Date:	October 1, 2019
Due Date:	March 31, 2020
Lien Date:	January 1, 2020

(l) **Long-term obligations**—In the government-wide financial statements and proprietary fund financial statements, long-term debt obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Debt issuance costs are expensed when paid.

(m) **Deferred outflows/inflows of resources**—In addition to assets, the statement of financial position will, if required, report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. Currently, the only item in this category consisted of deferred amounts related to pension, as discussed further in Note (7).

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position or fund balance that applies to future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. Currently, the two items in this category are unavailable revenues, which will be recognized as inflows of resources in the period that the amounts become available, and deferred inflows of resources related to pensions, as discussed further in Note (7).

(n) **Fund equity**—In the fund financial statements, governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the Town is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Those classifications are as follows:

Nonspendable – The nonspendable fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash such as inventories and prepaid amounts. It also includes the long-term amount of loans and notes receivable, as well as the fund balance of the permanent fund which was restricted in perpetuity by referendum.

Restricted – Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation (i.e. when the government assesses, levies, charges, or otherwise mandates payment of resources (from external resource providers) and includes a legally enforceable requirement that those resources be used only for the specific purposes stipulated in the legislation.

TOWN OF YANKEETOWN, FLORIDA
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

(1) **Summary of Significant Accounting Policies:** (Continued)

Committed – Fund balance amounts that can only be used for specific purposes pursuant to constraints imposed by ordinance of the Town Council are reported as committed fund balance. Those committed amounts cannot be used for any other purpose unless the Town removes or changes the specified use by taking the same type of action it employed to previously commit those amounts.

Assigned – Fund balance amounts that are constrained by the government's intent to be used for specific purposes, but are neither restricted nor committed, are reported as assigned fund balance, except for stabilization arrangements. Assignments can be made by the Town Council the Town Council or (b) a body or official to which the Town Council has delegated the authority to assign amounts to be used for specific purposes.

Unassigned – Unassigned fund balance is the residual classification for the general fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund.

For spendable resources, is the Town's policy to use its resources in the following order as needed to fund expenses: restricted, committed, assigned, unrestricted.

(o) **Impact fees**—The Town has not adopted any ordinances or resolutions to levy impact fees in accordance with Section 163.31801, Florida Statutes.

(p) **Net position flow assumption**—Sometimes the Town will fund outlays for a particular purpose from both restricted and unrestricted resources. In order to determine amounts reported as restricted and unrestricted net position, it is the Town's policy to consider restricted net position to have been used before unrestricted net position is applied.

(2) **Reconciliation of Government-Wide and Fund Financial Statement:**

(a) **Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position**—Following the governmental fund balance sheet is a reconciliation between fund balance – total governmental funds and net position – governmental activities as reported in the government-wide statement of net position. A detailed explanation of these differences is provided in this reconciliation.

(b) **Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities**—Following the governmental fund statement of revenues, expenditures, and changes in fund balances, there is a reconciliation between net changes in fund balances - total governmental funds and changes in net position of governmental activities as reported in the government-wide statement of activities. A detailed explanation of these differences is provided in this reconciliation.

TOWN OF YANKEETOWN, FLORIDA
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

(3) Deposits and Investments:

The Town’s cash and equivalents and investments consist of legally authorized demand deposits and certificates of deposit. The institutions in which these deposits are kept are certified as Qualified Public Depositories under the Florida Public Deposits Act. Therefore, in addition to applicable Federal Depository Insurance Corporation (FDIC) insurance, these balances on deposit at September 30, 2020, are insured or collateralized through the Bureau of Collateral Management, Florida Department of Financial Services.

State statutes authorize the Town to invest excess funds in time deposits, obligations of, or obligations the principal and interest of which are unconditionally guaranteed by, the United States Government, commercial paper, corporate bonds, repurchase agreements and/or the State Board of Administration (SBA) Local-Government Surplus Trust Fund Investment Pool or other investment vehicles authorized by local ordinance.

(4) Interfund Balances and Transfers

The interfund balances resulted from the normal course of operations and are expected to be repaid within one year. Interfund transfers were consistent with the purpose of the fund making the transfer.

At September 30, 2020, interfund balances were as follows:

Receivable Funds	Amount	Payable Funds
General Fund	\$ 2,983	Utility Fund
Total	\$ 2,983	

At September 30, 2020, advances were as follows:

Advances from	Amount	Advances to
General Fund	\$ 45,945	Utility Fund
Total	\$ 45,945

2036-2039	149,564	9,540	159,104
Total	<u>\$ 651,103</u>	<u>\$ 178,993</u>	<u>\$ 830,096</u>

Notes payable in the Town’s business-type activities at September 30, 2020, are comprised of the following obligations:

State Revolving Fund note payable, dated November 2, 2010, due in semiannual payments of \$19,888, including interest at 2.77% to 2.82% through August 15, 2039. Repayment of loan balance is secured by a pledge of Water Utility revenues.	\$ 583,546
National Rural Water Association (NRWA) Revolving Fund note payable, dated April 1, 2017, due in monthly payments of \$966, including interest at 3% through April 1, 2037. Repayment of loan balance is secured by a pledge of interest in the assets of the Water Utility fund.	67,557
Total long-term debt, business-type activities	<u>\$ 651,103</u>

The state revolving fund notes payable are secured by pledged water utility revenues. The Town was in compliance with all applicable debt covenants as of and for the year ended September 30, 2020.

TOWN OF YANKEETOWN, FLORIDA
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

(7) **Employees' Retirement Plans:**

A. Florida Retirement System and Health Insurance Subsidy

Plan Description and Administration

The Town participates in the Florida Retirement System (FRS), a multiple-employer, cost sharing defined public employee retirement system which covers all of the Town's full-time employees. The System is administered by the State of Florida, Department of Administration, Division of Retirement to provide retirement and survivor benefits to participating public employees. Provisions relating to the FRS are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and FRS Rules, Chapter 60S, Florida Administrative Code; wherein eligibility, contributions, and benefits are defined and described in detail. The FRS is a single retirement system administered by the Department of Management Services, Division of Retirement, and consists of two cost-sharing, multiple-employer retirement plans and other nonintegrated programs. These include a defined-benefit pension plan (Plan), with a Deferred Retirement Option Program (DROP), and a defined-contribution plan, referred to as the FRS Investment Plan (Investment Plan).

In addition, all regular employees of the entity are eligible to enroll as members of the Retiree Health Insurance Subsidy (HIS) Program. The HIS is a cost-sharing, multiple-employer defined benefit pension plan established and administered in accordance with section 112.363, Florida Statutes. The benefit is a monthly payment to assist retirees of the state-administered retirement systems in paying their health insurance costs. Eligible retirees and beneficiaries receive a monthly HIS payment equal to the number of years of service credited at retirement multiplied by \$5. The minimum payment is \$30 and the maximum payment is \$150 per month, pursuant to section 112.363, Florida Statutes. To be eligible to receive a HIS benefit, a retiree under one of the state-administered retirement systems must provide proof of eligible health insurance coverage, which can include Medicare.

Benefits Provided and Employees Covered

Employees enrolled in the Plan prior to July 1, 2011, vest at six years of creditable service and employees enrolled in the Plan on or after July 1, 2011, vest at eight years of creditable service. All vested members, enrolled prior to July 1, 2011, are eligible for normal retirement benefits at age 62 or at any age after 30 years of service. All members enrolled in the Plan on or after July 1, 2011, once vested, are eligible for normal retirement benefits at age 65 or any time after 33 years of creditable service. Members of both Plans may include up to four years of credit for military service toward creditable service. The Plan also includes an early retirement provision; however, there is a benefit reduction for each year a member retires before his or her normal retirement date. The Plan provides retirement, disability, death benefits, and annual cost-of-living adjustments. Benefits under the Plan are computed on the basis of age and/or years of service, average final compensation, and service credit. Credit for each year of service is expressed as a percentage of the average final compensation. For members initially enrolled before July 1, 2011, the average final compensation is the average of the five highest fiscal years' earnings; for members initially enrolled on or after July 1, 2011, the average final compensation is the average of the eight highest fiscal years' earnings. The total percentage value of the benefit received is determined by calculating the total value of all service, which is based on the retirement plan and/or class to which the member belonged when the service credit was earned.

NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020**

(7) Employees' Retirement Plans: (Continued)

DROP, subject to provisions of Section 121.091, Florida Statutes, permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payments while continuing employment with an FRS employer. An employee may participate in DROP for a period not to exceed 60 months after electing to participate, except that certain instructional personnel may participate for up to 96 months. During the period of DROP participation, deferred monthly benefits are held in the FRS Trust Fund and accrue interest.

Employees may elect to participate in the Investment Plan in lieu of the FRS defined-benefit plan. Employer and employee contributions are defined by law, but the ultimate benefit depends in part on the performance of investment funds. The Investment Plan is funded by employer and employee contributions that are based on salary and membership class (Regular, DROP, etc.). Contributions are directed to individual member accounts, and the individual members allocate contributions and account balances among various approved investment choices. Employees in the Investment Plan vest at one year of service.

Financial Statements

Financial statements and other supplementary information of the FRS are included in the State's Comprehensive Annual Financial Report, which is available from the Florida Department of Financial Services, Bureau of Financial Reporting Statewide Financial Reporting Section by mail at 200 E. Gaines Street, Tallahassee, Florida 32399-0364; by telephone at (850) 413-5511; or at the Department's Web site (www.myfloridacfo.com). An annual report on the FRS, which includes its financial statements, required supplementary information, actuarial report, and other relevant information, is available from:

Florida Department of Management Services
Division of Retirement, Research and Education Services
P.O. Box 9000
Tallahassee, FL 32315-9000
850-488-5706 or toll free at 877-377-1737

Contributions

The entity participates in certain classes of FRS membership. Each class has descriptions and contribution rates in effect at September 30, 2020, as follows (contribution rates are in agreement with the actuarially determined rates):

<u>FRS Membership Plan & Class</u>	<u>Through June 30, 2020</u>	<u>After June 30, 2020</u>
Regular Class	8.47%	10.00%
Senior Management	25.41%	27.29%
Special Risk	25.48%	24.45%
Town Elected Officers	48.82%	49.18%

Current-year employer HIS contributions were made at a rate of 1.66% of covered payroll.

TOWN OF YANKEETOWN, FLORIDA
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

(7) **Employees' Retirement Plans:** (Continued)

For the plan year ended June 30, 2020, actual contributions made for employees participating in FRS and HIS were as follows:

Contributions – FRS	\$	13,397
Contributions – HIS		1,647
Employee Contributions – FRS		2,977

Net Pension Liability, Pension Expense, and Deferred Outflows and Inflows of Resources Related to Pensions

At September 30, 2020, the entity reported a net pension liability related to FRS and HIS as follows:

Plan	Net Pension Liability
FRS	\$ 174,762
HIS	34,904
Total	\$ 209,666

The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer's proportion of the net pension liability was based on a projection of the long-term share of contributions to the pension plan relative to the projected contributions of all participating governmental entities, as actuarially determined. At June 30, 2020 and June 30, 2019, the organization's proportionate share of the FRS and HIS net pension liabilities were as follows:

Plan	2020	2019
FRS	0.000403221%	0.000424921%
HIS	0.000285869%	0.000322680%

For the plan year ended June 30, 2020, pension expense was recognized related to the FRS and HIS plans as follows:

FRS	\$	40,506
HIS		1,263
Total	\$	41,769

Deferred outflows/inflows related to pensions:

At September 30, 2020, the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	FRS		HIS	
	Deferred Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 6,689	\$ -	\$ 1,428	\$ (27)
Changes of assumptions	31,638	-	3,753	(2,030)
Net difference between projected and actual investment earnings	10,406	-	28	-
Change in Town's proportionate share	18,696	(10,051)	3,859	(11,904)
Contributions subsequent to measurement date	3,354	-	347	-
	\$ 70,783	\$ (10,051)	\$ 9,415	\$ (13,961)

**TOWN OF YANKEETOWN, FLORIDA
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020**

(7) Employees' Retirement Plans: (Continued)

The above amounts for deferred outflows of resources for contributions related to pensions resulting from entity contributions subsequent to the measurement date and will be recognized as a reduction of the net pension liability in the year ended September 30, 2021. Other amounts reported as deferred outflows and deferred inflows of resources related to pensions being amortized for a period of greater than one year will be recognized in pension expense in succeeding years as follows:

<u>Year</u>	<u>Amount</u>
2021	\$ 12,625
2022	16,683
2023	14,258
2024	7,843
2025	1,148
Thereafter	(72)
Total	<u>\$ 52,485</u>

Actuarial assumptions:

The actuarial assumptions for both defined benefit plans are reviewed annually by the Florida Retirement System Actuarial Assumptions Conference. The FRS has a valuation performed annually. The HIS Program has a valuation performed biennially that is updated for GASB reporting in the year a valuation is not performed. The most recent experience study for the FRS was completed in 2019 for the period July 1, 2013, through June 30, 2018. Because HIS is funded on a pay-as-you-go basis, no experience study has been completed.

The total pension liability for each of the defined benefit plans was determined by an actuarial valuation, using the entry age normal actuarial cost method. Inflation increases for both plans is assumed at 2.40%. Payroll growth, including inflation, for both plans is assumed at 3.25%. Both the discount rate and the long-term expected rate of return used for FRS investments is 6.80%. This rate decreased from the prior year rate, which was 6.90%. The plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return. Because HIS Program uses a pay-as-you-go funding structure, a municipal bond rate of 2.21% was used to determine the total pension for the program. This rate decreased from the prior year rate, which was 3.50%. Mortality assumptions for both plans were based on the PUB-2010 base table varies by member category and sex, projected generationally with Scale MP-2018 details.

Long-term expected rate of return:

To develop an analytical basis for the selection of the long-term expected rate of return assumption, in October 2020, the FRS Actuarial Assumptions conference reviewed long-term assumptions developed by both Milliman's capital market assumptions team and by a capital market assumptions team from Aon Hewitt Investment Consulting, which consults to the Florida State Board of Administration. The table below shows Milliman's assumptions for each of the asset classes in which the plan was invested at that time based on the long-term target asset allocation. The allocation policy's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes an adjustment for the inflation assumption. These assumptions are not based on historical returns, but instead are based on a forward-looking capital market economic model.

(7) **Employees' Retirement Plans:** (Continued)

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Arithmetic Expected Rate of Return</u>
Cash	1.0%	2.2%
Fixed income	19.0%	3.0%
Global equities	54.2%	8.0%
Real estate	10.3%	6.4%
Private equity	11.1%	10.8%
Strategic investments	4.4%	5.5%
Total	<u>100.0%</u>	

Sensitivity of the net pension liability to changes in the discount rate:

The following presents the proportionate shares of the FRS and HIS net pension liability of the Town calculated using the current discount rates, as well as what the Town's net pension liability would be if it were calculated using a discount rate that is 1% lower or 1% higher than the current rate:

<u>Plan</u>	<u>Current Discount Rate</u>	<u>NPL with 1% Decrease</u>	<u>NPL at Current Discount Rate</u>	<u>NPL with 1% Increase</u>
FRS	6.80%	\$ 279,066	\$ 174,762	\$ 87,647
HIS	2.21%	40,348	34,904	30,449

(8) **Other Postemployment Benefits:**

The Town provides other postemployment benefits (OPEB) to its employees by providing retirement healthcare benefits.

The Town has not implemented the provisions of GASB Statement No. 75, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, which establishes standards for the measurement, recognition, and display of OPEB expense/expenditures and related liabilities, note disclosures, and required supplementary information.

(9) **Risk Management:**

The Town is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the Town carries commercial insurance. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years. There were no significant reductions in coverage from the prior year.

The Town is engaged in routine litigation incidental to the conduct of its municipal affairs. In the opinion of the Town's legal counsel, no legal proceedings are pending which would have a material adverse effect on the financial position or results of operations of the Town.

TOWN OF YANKEETOWN, FLORIDA
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

(10) **Contingencies:**

Amounts received or receivable from grantor agencies in current and prior years are subject to audit and adjustment by grantor agencies, principally the federal and state governments. Any disallowed claims, including amounts already collected, may constitute, a liability of the applicable fund(s). The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the Town expects such amounts, if any, to be immaterial.

The Town is involved in various legal proceedings incidental to the conduct of its affairs. It is the Town's policy to accrue for amounts related to these legal matters if it is possible that a liability has been incurred and an amount is reasonably estimable. At September 30, 2020, no amounts have been accrued.

During the year ended September 30, 2020, local, U.S., and world governments have encouraged self-isolation to curtail the spread of the global pandemic, coronavirus disease (COVID-19), by mandating temporary work stoppage in many sectors and imposing limitations on travel and size and duration of group meetings. Most industries are experiencing disruption to business operations and the impact of reduced consumer spending. There is unprecedented uncertainty surrounding the duration of the pandemic, its potential economic ramifications, and any government actions to mitigate them. Accordingly, while management cannot quantify the financial and other impact to the Town as of May 14, 2021, management believes that a material impact on the Town's financial position and results of future operations is reasonably possible.

(11) **Recent Accounting Pronouncements:**

The Governmental Accounting Standards Board ("GASB") has issued several pronouncements that have effective dates that may impact future financial statements. Listed below are pronouncements with required implementation dates effective for subsequent fiscal years that have not yet been implemented. Management has not currently determined what, if any, impact implementation of the following will have on the Town's financial statements:

- (a) GASB issued Statement No. 84, *Fiduciary Activities*, in January 2017. GASB 84 improves guidance regarding the identification and reporting of fiduciary activities. The provisions in GASB 84 are effective for periods beginning after December 15, 2019.
- (b) (b) GASB issued Statement No. 87, *Leases*, in June 2017. GASB 87 aims to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. The provisions in GASB 87 are effective for periods beginning after June 15, 2021.

**TOWN OF YANKEETOWN
NOTES TO SCHEDULE OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCE
BUDGET AND ACTUAL – GENERAL FUND
SEPTEMBER 30, 2020**

The Town adopts an annual budget for the General Fund. The Town generally follows these procedures in establishing the budgetary data reflected in the schedule:

1. Prior to September 1, the Town Clerk submits to the Town Council a proposed operating budget for the fiscal year commencing the following October 1. The operating budget includes proposed expenditures and the means of financing them.
2. A public hearing is conducted to obtain taxpayer comments.
3. Prior to September 30, the budget is legally enacted through passage of an ordinance.
4. Any revision that alters the expenditures of any fund must be approved by the Town Council. The fund is the legal level of control.

The budget amounts presented in the accompanying financial schedule were prepared on a basis that does not materially differ from the modified accrual basis of accounting.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT
AUDITING STANDARDS***

To the Honorable Mayor and Town Council,
Town of Yankeetown:

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to the financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Yankeetown, Florida, (the Town) as of and for the year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements, and have issued our report thereon dated May 14, 2021.

As discussed in Note (8) to the financial statements, the Town has not implemented the provisions of GASB Statement No. 75, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*. Accounting principles generally accepted in the United States of America require recording of an obligation for postemployment benefits other than pensions, which would increase liabilities, decrease net position, and change the expenses in governmental activities, business-type activities and the utility fund. The effects of this departure from accounting principles generally accepted in the United States of America on the governmental activities, business-type activities and the utility fund, has not been determined.

Internal Control over Financial Reporting

In planning and performing our audit, we considered the Town's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

A handwritten signature in black ink that reads "James Moore & Co., P.L." The signature is written in a cursive style with a large initial 'J'.

Gainesville, Florida
May 14, 2021

**INDEPENDENT AUDITORS' MANAGEMENT LETTER REQUIRED
BY CHAPTER 10.550, RULES OF THE STATE OF FLORIDA
OFFICE OF THE AUDITOR GENERAL**

To the Honorable Mayor and Town Council,
Town of Yankeetown:

Report on the Financial Statements

We have audited the financial statements of the Town of Yankeetown, Florida, as of and for the fiscal year ended September 30, 2020, and have issued our report thereon dated May 14, 2021.

As discussed in Note (8) to the financial statements, the Town has not implemented the provisions of GASB Statement No. 75, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*. Accounting principles generally accepted in the United States of America require recording of an obligation for postemployment benefits other than pensions, which would increase liabilities, decrease net position, and change the expenses in governmental activities, business-type activities and the utility fund. The effects of this departure from accounting principles generally accepted in the United States of America on the governmental activities, business-type activities and the utility fund, has not been determined.

Auditors' Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and Chapter 10.550, Rules of the Auditor General.

Other Reporting Requirements

We have issued our Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards* and Independent Accountant's Report on an examination conducted in accordance with *AICPA Professional Standards*, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports, which are dated May 14, 2021, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. There were no such findings and recommendations identified in the preceding annual financial report.

Official Title and Legal Authority

Section 10.554(1)(i)4., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. The legal authority for the primary government of the reporting entity is disclosed in Note 1 of the basic financial statements.

Financial Condition and Management

Sections 10.554(1)(i)5.a. and 10.556(7), Rules of the Auditor General, require us to apply appropriate procedures and communicate the results of our determination as to whether or not the Town has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and to identify the specific condition(s) met. In connection with our audit, we determined that the Town did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.554(1)(i)5.b. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures for the Town. It is management's responsibility to monitor the Town's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we communicate any recommendations to improve financial management. In connection with our audit, we no such recommendations.

Additional Matters

Section 10.554(1)(i)3., Rules of the Auditor General, requires us to address noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with our audit, we did not have any such findings.

Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and State granting agencies, the Town Council, management, and others within the Town and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT ACCOUNTANTS' EXAMINATION REPORT

To the Honorable Mayor, Town Council, and Town Clerk,
Town of Yankeetown, Florida

We have examined the Town of Yankeetown, Florida's (the Town) compliance with Section 218.415, Florida Statutes, *Local Government Investment Policies*, for the year ended September 30, 2020. Management is responsible for the Town's compliance with those requirements. Our responsibility is to express an opinion on the Town's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the Town complied with Section 218.415, Florida Statutes, *Local Government Investment Policies*, for the year ended September 30, 2020, in all material respects. An examination involves performing procedures to obtain evidence about the Town's compliance with those requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of risks of material noncompliance with those requirements, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

In our opinion, the Town of Yankeetown, Florida complied, in all material respects, with the aforementioned requirements for the year ended September 30, 2020.
