Citizens of Deerfield Beach Honorable Mayor and Members of the City Commission

It is our pleasure to submit to you the Annual Comprehensive Financial Report of the City of Deerfield Beach, Florida for the fiscal year ended September 30, 2021.

Local ordinances and Florida Statute require that the City issue a report on the financial position and activity within nine months of the close of each fiscal year. Additionally, the financial statements must be presented in conformity with generally accepted accounting principles (GAAP) and this report must be audited in accordance with generally accepted auditing standards and government auditing standards by an independent firm of certified public accountants.

This report consists of management's representations concerning the finances of the City. Consequently, the responsibility for the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with management. To provide a reasonable basis for making these representations, management has established a comprehensive internal control framework that is designed to safeguard City assets from loss, theft or misappropriation and to compile sufficient reliable information for the preparation of the City's financial statements in conformity with GAAP. The cost of an internal control should not exceed the benefits to be derived; therefore, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements. We believe that the data as presented is accurate in all material aspects; that it fairly presents the City's financial position, the results of operations, and that all disclosures necessary to enable the reader to gain an understanding of the City's financial activities are included.

Marcum LLP, a firm of licensed certified public accountants, audited the City's financial statements. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City of Deerfield Beach for the fiscal year ended September 30, 2021, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering unmodified opinions that the City of Deerfield Beach's financial statements for the fiscal year ended September 30, 2021, are fairly presented in conformity with GAAP. The independent auditors' report is included in the financial section of this report.

In addition to meeting the requirements set forth above, the independent audit was also designed to meet the special needs of federal and state grantor agencies as provided for in the Federal Single Audit Act, Office of Management and Budget (OMB) Uniform Guidance and Florida Single Audit Act in accordance with Chapter 10.550, Rules of the Auditor General. These standards require the independent auditor to report not only on the fair presentation of the basic financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal

and state awards. These reports are available in the City of Deerfield Beach's separately issued Compliance Reports.

This letter of transmittal is designed to complement Management's Discussion & Analysis (MD&A) and should be read in conjunction with it. The City's MD&A can be found immediately following the independent auditors' report on the basic financial statements.

Profile of the City of Deerfield Beach

Incorporated in 1925, the City of Deerfield Beach operates under the commission/manager form of government. The City Commission is comprised of the Mayor, Vice-Mayor, and three Commissioners who adopt legislation and policies, approves the City's annual budget, levies taxes, and sets fees. The Commission appoints a professional City Manager who is responsible for implementing policies adopted by the City Commission and directing city operations through appointment of Department Directors. The Mayor, elected at-large to a four-year term, acts as the formal representative of the City and presides over Commission meetings. The public elects four City Commissioners who serve four-year terms. The Vice Mayor serves for a period of one year and is designated by the Commission as outlined in the City Charter.

The City of Deerfield Beach provides a broad range of municipal services. These services include:

- Public Safety (Police, Fire-Rescue, Ocean Rescue, etc.)
- Solid Waste Collection and Disposal Services
- Water Production, Distribution, Maintenance, and Construction
- Wastewater Distribution System Maintenance and Construction
- Stormwater Management
- Coastal and Environmental Protection and Management
- Road and Bridge Maintenance and Construction
- Grounds Maintenance and Beautification
- Planning, Zoning, and Building Inspection Services
- Public Land/Open Space Management
- Community and Social Services
- Recreational, Leisure, and Cultural Programs and Activities
- General Administrative Services

The City government does not provide primary or secondary education or health care, as these are the responsibility of the Broward County School District and Broward Health, respectively. Both entities are independent special districts that are not part of the City of Deerfield Beach. As such, financial data for them or for any other government has not been included in the financial statements in this report.

Blended component units, although legally separate entities are, in substance, part of the primary government's operations and are included as part of the primary government. Accordingly, the Community Redevelopment Agency (CRA) is reported as a special revenue fund of the primary government.

The annual operating budget and Five-Year Capital Improvement Plan serves as the foundation for the City's financial planning and control. All departments are required to submit requests for appropriation to the City Manager. The City Manager uses these requests as the starting point for developing a proposed budget. The City Manager then presents the proposed budget to the City Commission on or before August 15 of each year. The City Commission is required to hold public hearings on the proposed budget and to adopt a final budget by September 30 of each year. The annual operating budget is prepared and adopted in accordance with Florida Statute Chapter 166.241. The legally adopted budget is prepared by fund (i.e. General Fund), by function (i.e. Public Safety), and department (i.e. Law Enforcement), for current expenditures with separate appropriations established for the annual capital projects, debt service, interfund transfers, intergovernmental expenditures, and other various Enterprise and Special Revenue Funds. Budgetary control is internally administered at more restrictive levels, at a divisional or budget unit (i.e. Parking Authority). Budget-to-actual comparisons are provided in this report for each individual governmental fund for which an appropriated annual budget has been adopted. For the General Fund and the CRA Fund, this comparison is presented as part of the required

supplementary information. For governmental funds, other than the General and CRA funds, with appropriated annual budgets, this comparison is presented in the combining and individual fund statements and schedules.

Factors Affecting Economic Condition

Local Economy

Home to over 86,000 residents, Deerfield Beach is a medium-size coastal city located on the east coast of Florida in Broward County. The City is a diverse residential community with complimentary mix of commercial development such as shopping and retail facilities, office buildings, restaurants, tourist lodgings, distribution, warehousing, manufacturing, and light industry. The major economic influences in this area are predominantly the housing market, travel and tourism, the regional job market, the changing business environment, severe weather events, global inflation and interest rates, and economic uncertainty. Consideration of these economic indicators play an important role in directing and prioritizing the use of City resources now and into the future.

According to the Broward County Property Appraiser's Office, the final taxable value of the City for the year ended September 30, 2021 reflected an increase of 6.96% over the prior year. The City continues to see increases in property values as well as sustained success in its redevelopment efforts, indicating a substantial recovery from the previous economic downturn. Current economic forecasts indicate property values are expected to increase moderately over the next few years or remain stable. Initially, it was projected that the COVID-19 pandemic would have a negative impact on property values, particularly commercial properties. However, as the world emerges from the throws of the pandemic, the outlook appears positive, particularly in Florida where new residents and business continue to relocate.

Since the inception of the global pandemic, the City had to reassess and adapt to a new business model to effectively provide services. Social distancing, facial coverings, business closures, and stay-at-home mandates meant to curb the virus spread, caused economic activity to nearly grinded to a halt. Operations were closed or severely modified and most special events and programs were postponed or canceled due to the pandemic. Police, Fire & Rescue, and most Public Works, Utilities, and Administrative operations continued throughout the shutdown. Following CDC guidelines, safety measures were implemented to protect the employees and citizens doing business with the City. Investments were made to provide personal protective equipment (PPE), expand sanitation protocols, implement remote working, modify the work environment, and provide essential programs and services virtually, or in a non-touch, socially distant environment.

Late into the 4th quarter of FY2020, the City was notified of eligibility to submit COVID-19 related expenses of up to \$4.8 million covering the period from March 2020 through December 2020 for reimbursement through the CARES Act. The CARES Act funding was designed to reimburse for pandemic related expenses such as medical, public health, facilitate compliance expenses, economic support, payroll expenses as it relates to public safety, public health, healthcare, and human services. The City's final allocation and reimbursement was approximately \$2.8M in COVID related expenses of which \$1.3M was recognized in FY2020 and the remainder recognized in FY2021. Approximately \$1 million was provided to local businesses and residents through the CARES Act, CDBG, and other funding sources.

With the ongoing negative outcomes from the COVID Economy - high unemployment rate, lack of travel and tourism, modified shutdowns, stay at home orders, and uncertainty regarding vaccine development and distribution – priorities were re-evaluated during FY2021 budget planning process. Revenue projection was challenging to say the least and therefore the most conservative approach was taken. Cost containment measures continued by deferring capital, maintenance, repair, and replacement projects, and a hiring slowdown along with no compensation increases. In addition, to further assist residents and local businesses, water utility turn-offs remained suspended and a utility rate increase recommendation was postponed.

During the 2nd quarter of FY2021, vaccinations were introduced to the general public. As the year progressed, and vaccination rates increased, hospitalization and death rates due to COVID-19 decreased and America slowly started to reopen.

The City was awarded additional financial relief from the American Rescue Plan Act (ARPA) of approximately \$16.3 million and received its first tranche of \$8.15 million in FY2021. The City completed the planning phase, with the goal of maximizing public safety through infrastructure improvements and economic impact. The City Commission approved the City's ARPA plan in November 2021 and city staff began implementing the various projects and programs included in the plan.

Long-Term Financial Planning

The City maintained its credit rating of "AA" for its General Obligation Refunding Bonds, Series 2012B-2. The City's credit rating for its debt secured by its covenant-to-budget and appropriate non-ad valorem revenue was recently upgraded from "AA-"to "AA" by Standard & Poor's Global Ratings. The City's credit profile for its covenant-to-budget and appropriate debt from Fitch Ratings remained the same at "AA-." Maintaining a good credit rating helps keep the cost of borrowing low which can be a significant factor in the amount of debt which can be used to financed major capital projects.

The City also maintains a General Fund unassigned fund balance of \$35.0 million, which is well above the current Fund Balance Policy limits. Excess can be used to fund capital projects or other one time needs. The City also maintains an Emergency Reserve fund balance of \$3.5 million. These measures are intended to buffer unforeseen economic changes.

During FY2022 budget development, the City has taken steps to prepare estimates of its future budgetary needs. Budget revenue and expenditure allocations continue to be more in alignment with functional areas to improve transparency and to better track full costs for the various functional services the City provides. A Utility Master Plan and Rate Sufficiency Study provided the Utility Enterprise a long-range plan of major capital needs and funding strategy. Additionally, in FY2022 the City budgeted for a rate sufficiency study for the Solid Waste Fund recognizing the negative net position of the Enterprise Fund. In addition, the City's Capital Improvement Plan (CIP) document is updated and adopted on an annual basis. The CIP prioritizes major capital projects and identifies revenue sources available to finance the improvements. For fiscal years 2022 – 2026, the City Commission adopted a CIP budget of approximately \$97.2 million.

Major Initiatives

For Fiscal Year 2022, the City has been working diligently on an array of capital projects that encompass: 1) economic development, 2) infrastructure improvements/replacements, and 3) expansion of existing facilities. In addition, the focus is on several initiatives and staffing reorganizations that are in alignment with the strategic priority of providing the same or enhanced quality of services to our citizens and business owners. This included:

- American Rescue Plan programming and projects:
 - West Deerfield Beach Stormwater Improvements
 - South East 8th Avenue Stormwater Improvements
 - Park Improvements and Aquatic Center Upgrades
 - Community Grants for Non-Profits
 - Water Treatment Chemical Conversion Projects
 - o Advanced Meter Reading Infrastructure Improvements
- Enterprise Resource Planning (ERP) System implementation to manage business and administrative functions and to automate many back-office functions primarily related to finance, technology, customer services, and human resources.
- Design and construction of the new Center for Active Aging and the Johnny Tigner Center.
- Development of a five-year strategic plan (2022-2027) that will establish the major objective of the city for the next five years.

Design and permitting of a regional beach re-nourishment project.

In addition, several organizational changes have taken effect to improve oversight and take advantage of various synergies. These changes include the establishment of the Office of Public Safety, which consolidated various public safety operations that were spread among the City Manager's Office, Parks & Recreation, Planning & Development, and the Financial Services departments. In addition, the Community Services Department was established to restructure the Legislative and Community Affairs and the Senior Services Departments to increase coordination regarding community support programs and services, education outreach and advocacy, and intergovernmental relations. We will continue to evaluate and revise our policies and organization to enhance transparency and efficiency, while maintaining compliancy with all Federal, State, and Local requirements.

Awards and Acknowledgements

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Deerfield Beach for its comprehensive annual financial report for the fiscal year ending September 30, 2020. This was the 41st consecutive year that the City has received this prestigious award. In order to be awarded a Certificate of Achievement, the City published an easily readable and efficiently organized annual financial report. This report satisfied both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of only one year. We believe that our current report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for award.

Additionally, the City of Deerfield Beach also received the GFOA's Distinguished Budget Presentation Award for the FY2021 annual, the 25th consecutive year. In order to qualify for the Distinguished Budget Presentation Award, the City's budget document was judged to be proficient in several categories, including as a policy document, a financial plan, an operations guide, and a communications device.

Thank you for your continued interest and support in planning and conducting the financial operations of the City in a responsible and progressive manner. This report could not have been prepared without the dedicated service of all of the employees of the Department of Financial Services as well as the support of the other City departments. Special thanks also to the City Commission, for their continued guidance and support in our efforts towards fiscal stewardship.

Respectfully submitted,

David Santucci City Manager Stephanie Tinsley

Executive Director/CEO

INDEPENDENT AUDITORS' REPORT

To the Honorable Mayor, City Commission and City Manager City of Deerfield Beach, Florida

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Deerfield Beach, Florida (the "City"), as of and for the year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Pension Trust Funds, which represents 94%, 95% and 85%, respectively, of the assets, net position/fund balance and revenues/additions of the aggregate remaining fund information. Those statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for the Pension Trust Funds is based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the City's

preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City, as of September 30, 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 through 14, the schedules of changes in the city's net pension liability and related ratios, the schedules of city contributions, schedule of city's proportionate share of net pension liability, schedule of changes in the city's total OPEB liability and related ratios, and budgetary comparison schedules for the general fund and major special revenue funds on pages 98 through 109 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and the other auditors, have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our and other auditors inquiries, the basic financial statements, and other knowledge we obtained during our audit and the other auditors audit of the basic financial statements. We and the other auditors, do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual fund statements and schedules and the introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund statements and schedules are the responsibility of management and were derived from and related directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and the other auditors. In our opinion, based on our audit, the procedures performed as described above, and the reports of other auditors, the combining and individual fund statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

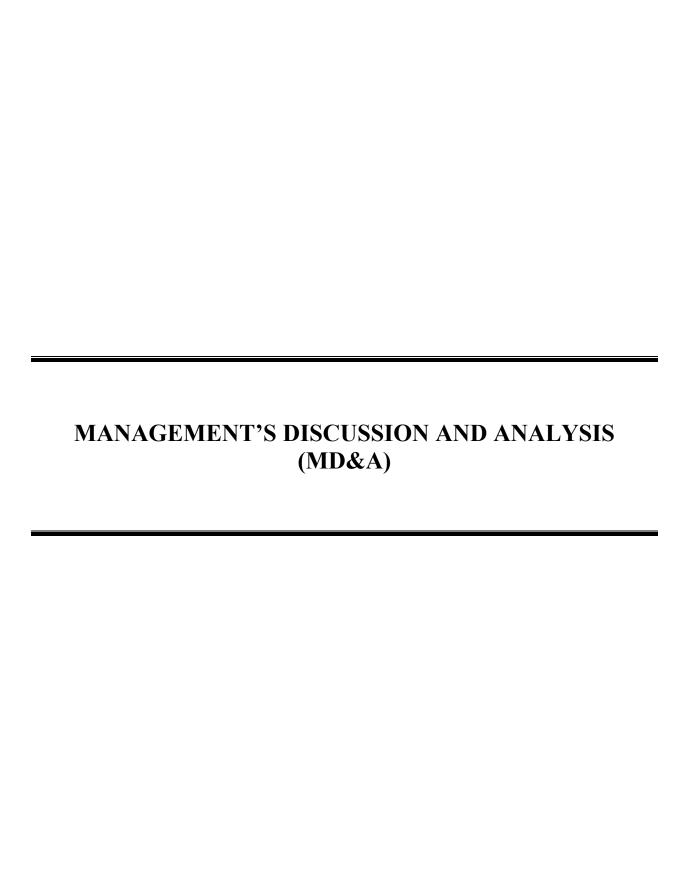

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated June 24, 2022 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the City's internal control over financial reporting and compliance.

Fort Lauderdale, FL

Marcun LLP

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the report is intended to give readers a narrative overview to facilitate both a short and long-term analysis of the financial activities of the City for the fiscal year ended September 30, 2021. This Management's Discussion and Analysis is based on currently known facts, decisions and conditions that existed as of the date of the independent auditors' report. The information presented is in accordance with Governmental Accounting Standards Board Statement No. 34 (GASB 34) as amended. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages i - iv of this report.

FINANCIAL HIGHLIGHTS

- The total assets on the Government-wide basis of the City of Deerfield Beach at September 30, 2021 increased \$12.4 million from \$315.0 million to \$327.4 million, or 3.94% from the prior year.
- The City's total liabilities on a Government-wide basis decreased by \$1.7 million, from \$219.1 million to \$217.3 million from the prior year.
- The assets and deferred outflows of resources of the City exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$107.5 million (net position). Of this amount, \$37.9 million was from governmental activities and \$69.6 million was from business-type activities.
- As of the close of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$90.3 million, an increase of \$8.3 million, in comparison with the amount reported for the prior fiscal year. Of this amount, \$2.0 million was non-spendable, \$48.5 million was restricted, and \$39.2 million was unassigned and therefore available for spending at the government's discretion.
- At the end of the fiscal year, unassigned fund balance in the General Fund was \$35 million, or 35.7% of total General Fund expenditures and transfers. The City has a reserve policy of maintaining an amount in reserves that is at least 10% and 5% of total General Fund expenditures and transfers for unassigned and assigned emergency reserves respectively.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis serve as an introduction to the City of Deerfield Beach's basic financial statements. The basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements: The government-wide financial statements are designed to provide readers with a broad overview of the City of Deerfield Beach's finances, in a manner similar to a private-sector business and include both long-term and short-term information about the City's financial status.

The statement of net position presents information on all the City of Deerfield Beach's assets and liabilities, deferred outflows and inflows of resources, with the difference between the assets (and deferred outflows of resources) and liabilities (and deferred inflows of resources) reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City of Deerfield Beach is improving or deteriorating.

The statement of activities presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in a future fiscal period. Examples of such items include earned but uncollected grant funds and earned, but unused compensated absences.

Both of the government-wide financial statements distinguish functions of the City of Deerfield Beach that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, economic environment, public safety, human services, physical environment, transportation, and culture and recreation. The business-type activities of the City of Deerfield Beach include water and sewer, stormwater utility, and solid waste services.

The government-wide financial statements include not only the City itself (known as the primary government), but also a legally separate Community Redevelopment Agency (CRA) for which the City is financially accountable. Although legally separate, the CRA's governing body is identical to the City Commission, and because the services of the CRA are exclusively for the benefit of the City and its residents, it is included as an integral part of the primary government.

The government-wide financial statements can be found on pages 15-16 of this report.

Fund Financial Statements: A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Deerfield Beach uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds. Governmental funds are used to account for activities where the emphasis is placed on available financial resources, rather than upon net income determination. Therefore, unlike the government-wide financial statements, governmental fund financial statements focus on the acquisition and use of current spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City of Deerfield Beach maintains governmental funds for various sources of revenues. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for those funds that are considered significant (major) to the City as a whole. These financial statements report four major funds: general fund, American rescue plan fund, community redevelopment agency fund, and the general construction fund. Data from the non-major governmental funds are combined into a single, aggregated presentation. Individual fund information for each of these nonmajor governmental funds is provided in the form of combining statements that are found on pages 110-119 of this report.

The City of Deerfield Beach adopts an annual appropriated budget for its General and CRA funds. A budgetary comparison statement has been provided for the General and CRA funds to demonstrate compliance with the budget.

The basic governmental fund financial statements can be found on pages 15-20 of this report.

Proprietary Funds. Proprietary funds are used to account for activities where the emphasis is placed on net income determination. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements with greater detail. The City of Deerfield Beach uses enterprise funds to account for its water and sewer, stormwater utility as well as its solid waste activities. The enterprise funds, which are considered to be major funds of the City, are reported separately as proprietary fund financial statements in the basic financial statements.

The basic proprietary fund financial statements can be found on pages 21-25 of this report.

Fiduciary Funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds (Pension Trust Funds) are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City of Deerfield Beach's own programs. The City is responsible for ensuring that the assets reported in these funds are used for their intended purposes. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found on pages 26-27 of this report.

Notes to the Financial Statements: The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 28-97 of this report and should be read in conjunction with the City's financial statements.

Other Information: In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information (RSI) concerning the City of Deerfield Beach's progress in funding its obligation to provide pension and other post-employment benefits to its employees, budgetary comparisons for the general fund and the CRA Special Revenue Fund. RSI can be found on pages 98-109 of this report.

The combining and individual fund statement and schedules referred to earlier in connection with nonmajor funds are presented immediately following the RSI. Combining and individual fund statements and schedules can be found on pages 110-119 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City of Deerfield Beach, assets plus deferred outflows exceeded liabilities plus deferred inflows by \$107.5 million at the close of fiscal year 2021.

The largest portion of the City of Deerfield Beach's net position of \$114.5 million, or 106.50% of total net position, reflects its investment in capital assets (e.g., land, buildings, equipment, improvements, utility plants and infrastructure), less any related debt and deferred inflows/outflows used to acquire those assets that are still outstanding. The City of Deerfield Beach uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City of Deerfield Beach's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The following analysis summarizes the net position as September 30, 2021 and 2020:

City of Deerfield Beach, Florida Summary of Net Position

An additional portion of the City of Deerfield Beach's net position, approximately 22.36%, represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position, a deficit of \$31.0 million, continues to be impacted by the implementation of GASB Statement No. 75 which had a significant negative impact on the City's unrestricted net position for the governmental activities but is recovering.

The net position of business-type activities increased by \$2.7 million to \$69.5 million in 2021. This increase is primarily due to a lower operating expense in all three proprietary funds and a major decrease in Solid Waste personnel and other contractual services, coming from the discontinuance of the Solid Waste Recycling Service.

The City's current and other assets increased by \$14.7 million from \$137.3 million to \$152.0 million due mainly to an increase in cash and investments. The City received its first half of funds \$8 million dollars from the American Rescue Plan which remained unspent at the end of the fiscal year. In addition to this, infusion of cash reimbursements for expenditures made on capital assets and other projects was received. Overall this contributed to a substantial increase in available cash.

Current liabilities increased from \$12.9 million to \$22.7 million. Most of this is attributable to unearned revenue of grant funds paid in advance to the City from the American Rescue Plan.

The following analysis summarizes the changes in net position for the years ended September 30, 2021 and 2020:

Governmental Activities: Governmental activities increased the City's net position by \$9.6 million. The City's total revenues amounted to \$123.5 million in governmental activities. Of these revenues, 60.9% is generated from taxes, 31.4% is from charges for services, operating grants/contributions comprise 5.1%, intergovernmental and miscellaneous revenues are 2.4%, and unrestricted investment earnings generates approximately 0.1% These significant contributors to the increase revenues were from increased receipts of tax revenues of \$4.8 million due to rising property values and charges for service \$2.3 million some of which can be attributed to the hiring of an additional collection agency.

The City's expenses cover a broad range of services, with approximately 64.1% of governmental activity expenses related to public safety (fire/rescue and police protection). Public safety expenses constitute the largest component of total expenses due to the service level requirements. Public Safety consists of Broward Sheriff's Office Law Enforcement, Fire Rescue, and Emergency Services, and Ocean Rescue. When compared with the previous year, expenses decreased in both the governmental and business type fund. A significant portion of these decreases were from personnel savings from vacancies in General Government and Public safety. Transportation also saw a decrease in cost of \$1.2 million a reduced schedule due to the pandemic.

The following chart compares program revenues and expenses for the individual governmental activities for the fiscal year. As the chart reflects, all governmental activities relied on general revenues to support the function.

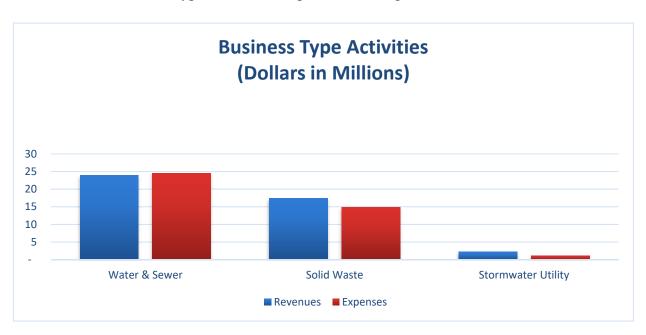

Program and General Revenues by Sources - Governmental Activities.

Business-type Activities. Business-type activities increased the City's net position by \$2.7 million. This increase came primarily from the continued investment in the Energy Performance Siemens Industry Project slated for completion in fiscal year 2022.

The following chart compares program revenues to expenses by individual business-type activity for the current year. These business-type activities recover more costs through program revenues than governmental activities and the water and sewer fund, generating sufficient revenues to cover current expenses.

Business-type Activities- Expenses and Program Revenues

Financial Analysis of the City's Funds

The City of Deerfield Beach uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

Governmental Funds. The focus of the City of Deerfield Beach's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. Unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the fiscal year, the City of Deerfield Beach's governmental funds reported combined ending fund balances of \$90.3 million, an increase of \$8.3 million from the prior year's ending balances of \$81.9 million. Approximately 38.8%, \$35 million of the combined fund balances constitute *unassigned fund balance* that is available to meet the City's current and future needs. The remainder of fund balance is *nonspendable*, *restricted*, *committed and assigned* to indicate that it is not available for new spending.

The General Fund is the chief operating fund of the City. At the end of the current fiscal year, unassigned fund balance was \$35 million, while total fund balance was \$40.1 million. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 35.7% of total general fund expenditures and transfers, while total fund balance represents approximately 40.9% of that same amount.

The total fund balance of the City of Deerfield Beach's General Fund increased by \$8.5 million during the fiscal year. Key factors in this increase were an overall increase in most revenue source for this year over fiscal 2020. The biggest increases were in Property taxes of \$2.9 million, Charges for service of \$1.2 million and Franchise Fees of \$0.9 million. There were also significant decreases in expenditures excluding debts service. Fiscal year 2021 expenditures for Economic environment decreased by \$344K and Human Services by \$585K. These decreases were enough to offset small increases in other areas such as public safety and transportation.

The Community Redevelopment Agency Fund accounts for revenues collected from and expenditures incurred within the community redevelopment area which borders Federal Highway to the west and State Road A1A to the east. At the end of the fiscal year, the restricted and total fund balance in this fund amounted to \$5.5 million.

Proprietary Funds. The City of Deerfield Beach's proprietary funds provide the same type of information found in the government-wide business-type activities financial statements, but in more detail.

Unrestricted net position of the water and sewer fund at the end of the year amounted to \$24.5 million. The Solid Waste Fund had an unrestricted net position deficit of \$7.9 million at the end of the fiscal year. Factors concerning the finances of these two funds have already been addressed in the discussion of the City of Deerfield Beach's business-type activities.

Capital Assets and Debt Administration

Capital Assets. The City of Deerfield Beach's capital assets for its governmental and business-type activities as of September 30, 2021, amounted to \$175.4 million (net of accumulated depreciation). These capital assets include land, buildings, improvements other than building (such as improvements to parks), equipment, utility plants in service and infrastructure (roads, highways, bridges, etc.). The total decrease in the City's capital assets for the current fiscal year was \$2.3 million (1.3%) for governmental activities and (1.3%) for business-type activities due to retirement and disposal of equipment in governmental activities.

The following table summarizes the City's capital assets.

City of Deerfield Beach, Florida Schedule of Capital Assets (Net of Depreciation)

	Governmen	al A	ctivities	Business-type Activities T					otal		
	2021		2020		2021		2020		2021		2020

Total	\$ 102,660,314	\$	104,000,271	\$	72,705,203	\$	73,686,194	\$	175,365,517	\$	177,686,465

Highlights of capital asset activity during the year ended September 30th 2021 included the following:

- \$1.5 added investment in equipment for the Energy Performance Siemens Industry Project.
- \$1.8 million placed in service from CIP
- \$1 million in equipment disposal and retirement across government funds.

Additional information on the City of Deerfield Beach's capital assets can be found in Note III (C) on pages 60-61 of this report.

Long-term Debt. At year-end, the City of Deerfield Beach had \$11.8 million in general obligation bonds outstanding. The City also had \$47.5 million in outstanding covenant bonds (for which the City must "covenant" and appropriate funds necessary to pay the annual debt service), but which are primarily backed by sources other than ad valorem taxes. The business-type activities had \$8.7 million outstanding in revenue bonds and \$4.2 million in loans payable as well as \$9.9 million in capital leases outstanding at the end of the fiscal year.

The City's long-term debt, including capital leases reflected a net decrease of 6.8 million or 7.00% during the twelve-month period. This decrease included \$1.6 million of capital leases and \$1.09 million of general obligation debt. The Water and Sewer Authority debt also decreased by just under \$1 million.

The City maintained its credit rating of "AA" for its General Obligation Refunding Bonds, Series 2012B-2. The City's credit rating for its debt secured by its covenant-to-budget and appropriate non-ad valorem revenue was recently upgraded from "AA-" to "AA" by Standard & Poor's Global Ratings. The City's credit profile for its covenant-to-budget and appropriate debt from Fitch Ratings remained the same at "AA-."

per Outstanding Debt (Bonds, Loans, and Leases Payable)

	Governmen	tal Activities	Business-ty	pe Activities	Total

The City's general obligation debt per capita, excluding enterprise fund debt, was \$136 at the end of fiscal year 2021. The City's outstanding net general obligation debt was 0.62% of the City's assessed property value. The City's debt policy requires that its net general obligation bonded debt not exceed two (2) percent of the assessed valuation of taxable property within the City, unless otherwise directed by the city commission. Net reduction is due to the pay down of principal debt service obligations.

Additional information on the City of Deerfield Beach's long-term debt can be found in Note 3 on pages 65-69 of this report.

Economic Factors and Next Year's Budget and Rates

In FY2021, the pandemic continued to have financial impacts and hardships on Deerfield residents and businesses. Supply chain and logistic issues also impacted projects and future cost projections. As a result, the FY2022 budget was developed to align resources to services and programs that focused on reviving the local economy and the City's continued capacity to provide services and programs. The City Management in a good will gesture to residents who loss jobs caused by COVID-19 paused all disconnection of water service for non-payment during most of the twelve months of FY2021. The following are the major assumptions used in formulating the fiscal year 2022 budget.

Balanced the General Fund Budget while lowering the millage rate.

Streamline Capital Projects due to anticipated increases in cost of goods a supply.

Assist community organizations, businesses and residents in their recovery from the pandemic through enhance services and social programs

Request for Information

This financial report is designed to provide a general overview of the City of Deerfield Beach's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Chief Financial Officer, City of Deerfield Beach, 150 N.E. 2nd Avenue, Deerfield Beach, Florida 33441.

RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS TO THE STATEMENT OF NET POSITION

Fund Balances, Total Governmental Funds Amounts reported for governmental activities in the statement of net position are different because: Capital assets used in governmental activities are not financial		\$ 90,277,600
resources and, therefore, are not reported in the funds.		
Governmental capital assets	200,023,748	
Accumulated depreciation	(97,363,434)	102,660,314
Long-term liabilities, including bonds and loans payable, are not due		
and payable in the current period and are not reported in the funds.		
Interest payable	(1,495,216)	
Bonds, loans and leases payable	(67,670,025)	
Insurance claims payable	(9,421,320)	
Compensated absences payable	(1,387,193)	
Total OPEB liabilities	(16,539,291)	
Net pension liabilities	(62,728,403)	(159,241,448)
Deferred outflows and inflows of resources related to pensions and		
OPEB are recorded in the statement of net position.		
Deferred outflows related to pensions	14,258,226	
Deferred inflows related to pensions	(1,800,542)	12,457,684
Deferred outflow from OPEB	1,111,218	
Deferred inflows related to OPEB	(11,149,676)	(10,038,458)
Deterred inflows related to OTED	(11,142,070)	(10,030,130)
Revenues are unavailable in the government funds because they are not available to pay current period expenditures. They are, however, recognized in the governmental activities.		2,127,418
Bond premiums and discounts, gains, and losses related to the issuance of long-term debt are charged to "Other Financing Sources and Uses" when debt is issued in the governmental funds. These items, however, are capitalized and amortized over the life of the		
bonds in the government-wide financial statements.		(305,023)
Net Position of Governmental Activities		\$ 37,938,087

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

Net Change in Fund Balances - Total Governmental Funds		\$ 8,340,204
Amounts reported for governmental activities in the statement of activities are different because: Governmental funds report capital outlays as expenditures However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported in depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.		
Capital outlay Governmental depreciation	\$ 3,988,425 (5,327,552)	(1,339,127)
The effect of various miscellaneous transactions increased (decreased) net position:		199,170
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		(1,508,401)
Some expenses reported in the statement of activities do not require the use of current financial resources, and therefore are not reported in the funds. Insurance claims and benefits expense Other postemployment benefit expense Pension expense	(2,043,918) 2,622,528 (546,847)	31,763
In the statement of activities, certain operating expenses - compensated absences (sick and vacation pay) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amounts actually used (paid). Compensated absences		149,754
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items. Long-term debt principal repayments Bond premium	3,723,045 57,902	3,780,947
Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus, requires the use of current financial resources. In the statement of activities, however, interest expense is recognized as the interest accrues, regardless of when it is due. The interest expense reported in the statement of activities is the result of accrued		
interest on bonds, leases and loans payable.		(60,996)
Change in Net Position of Governmental Activities		\$ 9,593,314

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2021

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This summary of the City of Deerfield Beach, Florida's (the "City") significant accounting policies is presented to assist the reader in interpreting the financial statements and other information in this report. The policies are considered essential and should be read in conjunction with the accompanying financial statements.

The basic financial statements include both government-wide and fund financial statements. The government-wide focus is on the sustainability of the City as an entity and the change in aggregate financial position resulting from the activities of the fiscal period. The focus of the fund financial statements is on the major individual funds of the governmental and business-type categories.

The City's fiduciary funds are presented in the basic financial statements by type (i.e., pension). Since, by definition, these assets are being held for the benefit of a third party and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements.

A. FINANCIAL REPORTING ENTITY

The City of Deerfield Beach is a political subdivision of the State of Florida, located in Broward County along the lower southeast coast of the state. Originally incorporated in June 1925, the Town of Deerfield was formed under the provisions of Chapter 10462, Special Acts of the 1925 Legislature. In June 1951, Chapter 27503, laws of the State of Florida, created a new charter abolishing the Town and changing its name to City of Deerfield Beach. Today, the City is approximately 16.3 square miles in area. In addition to the public safety, general government, recreation, and public works services provided to its 78,573, residents, the City operates water, sewer, stormwater, and solid waste enterprises. The City does not provide educational or hospital facilities. Those services are provided by the School Board of Broward County and the Broward Health North District, respectively.

The financial reporting entity covered by this report includes the City and its component unit. The reporting entity has been defined by GASB Statement No. 14 (as amended by GASB Statements No. 39, 61 and 80) as the primary government and those component units for which the primary government is financially accountable. Financial accountability exists when a primary government appoints a voting majority of an organization's governing board and may either impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or impose specific burdens on, the primary government. Blended component units, although legally separate entities, are, in substance, part of the City's operations, and so information for these entities is combined with information of the primary government.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2021

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

A. FINANCIAL REPORTING ENTITY (CONTINUED)

The Deerfield Beach Community Redevelopment Agency (the "CRA"), a separate legal entity, which is largely responsible for redevelopment of the area that encompasses most of the beach district and the area along Hillsboro Boulevard from Federal Highway to the intracoastal waterway, was established in November 1999. The CRA is governed by a board which is comprised of the City's elected officials, and management of the City has operational responsibility of the CRA. The CRA is also fiscally dependent upon the City. Accordingly, the CRA is a blended component unit and is presented as a special revenue fund. The CRA has a September 30 year-end. Separate financial statements for the CRA are available.

The Deerfield Beach Housing Authority (the "Housing Authority") is a related organization because the mayor, with the concurrence of the City Commission, has the responsibility of appointing the members of the Housing Authority Board. Its operations are conducted within City boundaries. However, it is not included as a part of the financial reporting entity because it is fiscally independent and it has no financial accountability to the City. The Housing Authority's autonomy prohibits it from providing any financial benefit or imposing a financial burden upon the City. The Housing Authority is not exclusively for the benefit of City residents and the City Commission cannot impose its will over operations, cannot hire, reassign or dismiss management, and cannot remove Housing Authority board members without cause. The Housing Authority is responsible for ensuring that a complete and full financial accounting and an audit is made biennially by a certified public accountant.

The Northeast Focal Point Children, Alzheimer's, Senior, Adult Services, Inc. (hereinafter referred to as "CASA"), is a nonprofit entity organized under the laws of the State of Florida in September 1986. This organization raises funds and makes yearly pledges to the City to subsidize the costs of operating the City's children's, Alzheimer's, senior and adult day care facilities. GASB requires that a legally separate, tax-exempt organization should be reported as a component unit of the City, if the primary government is the sole corporate member of the nonprofit or if all of the following are met: (1) the economic resources received or held by the separate organization are entirely or almost entirely for the direct benefit of the City; (2) the City is entitled to, or has the ability to otherwise access, a majority of the economic resources received or held by the separate organization and (3) the economic resources received or held by the separate organization are significant to the City. The City believes that conditions (1) and (2) apply to CASA. However, the City does not believe that the economic resources held/received by that entity is "significant" to the City's operations and the City is not the sole corporate member of CASA. As such, it is not included as a part of the financial reporting entity.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2021

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the City and its component unit. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operation or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND FINANCIAL STATEMENT PRESENTATION

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met. Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available if they are collected within three months of the end of the current fiscal period, with the exception of property tax revenue, which is deferred unless taxes are received within sixty days subsequent to year-end. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, pensions, other post-employment benefits and claims and judgments, are recorded only when payment is due.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2021

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation (continued)

Property taxes (when levied), franchise taxes, intergovernmental revenue (when the eligibility requirements are met), licenses, special assessments, charges for services for ambulance fees, as well as interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period, if available. All other revenue items are considered to be measurable and available only when cash is received by the City.

The City reports the following major governmental funds:

The *General Fund* is the City's primary operating fund. It accounts for all financial resources of the City, except those required to be accounted for in another fund.

The Community Redevelopment Agency ("CRA") Fund accounts for the proceeds of tax increment revenues and the related expenditures for redevelopment of the area that hovers along Hillsboro Boulevard and that encompasses most of the beach district from Federal Highway to the Intracoastal Waterway. This fund has been deemed a major fund, since management believes it is particularly important to financial statement users for public interest.

The General Construction Fund accounts for all the City's capital projects.

The *American Rescue Plan Fund* accounts for the receipt and expenditure related to federal funding provided to assist with Covid 19/post pandemic related assets and lost revenue recovery.

The City reports the following major proprietary funds:

The *Water and Sewer Fund* accounts for the provision of water and sewer services to the City's residents.

The **Storm Water Utility Fund** accounts for the operations and maintenance of the City's stormwater system, such as storm drains, pipes, catch basins, and other stormwater-related infrastructure.

The **Solid Waste Fund** accounts for the provision of solid waste services to the City's residents.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2021

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation (continued)

Additionally, the City's **pension trust funds**, namely, Fire, Police and Non-uniformed pension funds, account for the activities of the retirement systems for these relevant classes of employees and accumulate resources for pension benefit payments to qualified retirees.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments in lieu of taxes and other charges between the City's water and sewer function and various other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods and services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing goods and services in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Water and Sewer Fund are charges to customers for the provision of water and sewer services. This fund also recognizes as revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Further, the Solid Waste Fund recognizes as revenue charges to customers for the provision of solid waste services. Operating expenses for both enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

D. NEW ACCOUNTING PRONOUNCEMENTS ADOPTED

During fiscal year 2021, the City implemented GASB Statement No. 84, Fiduciary Activities, Statement No. 90, Majority Equity Interests, Statement No. 95 – Postponement of the Effective Dates of Certain Authoritative Guidance and GASB Statement No. 98, The Annual Comprehensive Financial Report. The implementation of these statements did not have a significant impact on the City's Annual Comprehensive Financial Report ("ACFR").

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2021

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

E. ASSETS, LIABILITIES, DEFERRED OUTFLOWS/INFLOWS OF RESOURCES, AND NET POSITION OR EQUITY

1. Deposits and Investments

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and short term investments with original maturities of three months or less from the date of acquisition. The City has established an investment policy in accordance with Section 218.415, Florida Statutes that allows the City to invest in relatively low-risk securities, such as the State Treasurer's Investment Pool, and U.S. Government and Agencies securities. In accordance with GASB all investments of the City have been reported at fair value except money market funds and the State Treasurer's Investment Pool which its reported value is the same as the value of the pool shares and is recorded at amortized cost. Resources of all funds, with the exception of the pension trust funds, have been combined into investment pools for the purpose of maximizing investment yields. Investment revenue is comprised of interest and dividends and realized gains and losses on investments. Net appreciation (depreciation) in the fair value of investments is comprised of unrealized gains and losses on investments. Investment earnings on pooled investments are allocated monthly based upon equity balances of the respective funds. Accrued interest on pooled investments is grouped with investments on the balance sheet at year-end. In addition, the pension trust funds are authorized to invest in corporate bonds, stocks, money market funds, mortgages and notes.

2. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). All other residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

All trade and property tax receivables are shown net of allowance for uncollectibles. Management determines the allowance for uncollectible accounts, based upon a review of the accounts and its knowledge of the debtor's ability to pay. Property taxes are levied as of October 1 on property values assessed as of January 1 of the same year. The tax levy is divided into two billings: the first billing (mailed during September) is an estimate of the current year's levy based on the prior year's taxes; the second billing (mailed on November 1) reflects adjustments to the current year's actual levy. The billings are considered past due on April 1 of the subsequent year, at which time the applicable property is subject to lien, and penalties and interest are assessed.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2021

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

E. ASSETS, LIABILITIES, DEFERRED OUTFLOWS/INFLOWS OF RESOURCES, AND NET POSITION OR EQUITY (CONTINUED)

2. Receivables and Payables (continued)

Amounts reflected as "due from other governments" in the government-wide and the fund financial statements represent amounts that are owed to the City by other governmental entities for services Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). All other residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

All trade and property tax receivables are shown net of allowance for uncollectibles. Management determines the allowance for uncollectible accounts, based upon a review of the accounts and its knowledge of the debtor's ability to pay. Property taxes are levied as of October 1 on property values assessed as of January 1 of the same year. The tax levy is divided into two billings: the first billing (mailed during September) is an estimate of the current year's levy based on the prior year's taxes; the second billing (mailed on November 1) reflects adjustments to the current year's actual levy. The billings are considered past due on April 1 of the subsequent year, at which time the applicable property is subject to lien, and penalties and interest are assessed.

Amounts reflected as "due from other governments" in the government-wide and the fund financial statements represent amounts that are owed to the City by other governmental entities for services

3. Inventories and Prepaid Items

Inventories consisting principally of expendable items held for consumption, are stated at lower of average cost. The consumption method is used for all inventories and prepaid items, that is, items of inventory/prepaids are expended when they are consumed rather than when they are purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2021

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

E. ASSETS, LIABILITIES, DEFERRED OUTFLOWS/INFLOWS OF RESOURCES, AND NET POSITION OR EQUITY (CONTINUED)

4. Restricted Assets

Certain resources of the City's Water and Sewer enterprise fund are classified as restricted assets on the statement of net position because they are maintained in separate accounts and their uses are limited by applicable bond covenants and loan agreements. The state revolving loan sinking fund account is used to segregate resources that are accumulated for the payment of principal and interest on the City's revolving loans with the Florida Department of Environmental Protection.

The "general obligation bond construction account" is used to report those proceeds of general obligation bonds that are restricted for use in the construction of specified projects, as outlined in the bond covenants.

5. Capital Assets

Capital assets, which include property, plant, equipment, intangibles, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide and the proprietary fund financial statements. Capital assets are defined by the City as assets with an initial individual cost of \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost, if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred, net of interest earned on related debt proceeds, during the construction phase of capital assets of business-type activities is included as part of the capitalized cost of the assets constructed. The City had no capitalized interest costs for this fiscal year.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2021

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

E. ASSETS, LIABILITIES, DEFERRED OUTFLOWS/INFLOWS OF RESOURCES, AND NET POSITION OR EQUITY (CONTINUED)

5. Capital Assets (continued)

The City's property, plant and equipment are depreciated using the straight line method over the following estimated useful lives:

Assets	Years
Buildings	40
Building improvements	20
Roads	40
Bridges	50
Other infrastructure	20 - 50
Equipment	5 - 10

In the governmental fund financial statements, capital assets are reported as expenditures and no depreciation expense is recorded.

6. Deferred Outflows/Inflows of Resources

The statements of net position and fund financial statements require the inclusion of a separate section for deferred outflows of resources. A deferred outflow of resources represents the usage of net position that is applicable to future periods.

The statements of net position and fund financial statements, also include a separate section for deferred inflows of resources, which represent the acquisition of net position which is applicable to future periods that will be recognized as revenue (or serve as a reduction of expenses) in a future period.

The City reports within its government-wide statement of net position as deferred outflows amounts that were related to pensions and OPEB during fiscal year 2021 into the pension plans as a result of the net pension liability and total OPEB liability associated with the plans measured as of September 30, 2020. The amounts paid during fiscal year 2021 to the plan will be reflected within the City's pension expense and related liability when the net pension liability is measured for the next fiscal year.

The City reports as deferred inflows amounts representing the net difference between expected and actual results, changes in assumptions and projected and actual earnings of its OPEB and pension plans. The amounts will be amortized over a five year closed period

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2021

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

E. ASSETS, LIABILITIES, DEFERRED OUTFLOWS/INFLOWS OF RESOURCES, AND NET POSITION OR EQUITY (CONTINUED)

6. Deferred Outflows/Inflows of Resources (continued)

beginning in the year in which the difference occurred or over the remaining service lives of all employees, as applicable, and deferred amount on a bond refunding which is being amortized over the remaining life of the debt.

Also, in the governmental fund financial statements the City reported deferred inflows for amounts not recorded within the period of availability.

7. Compensated Absences

It is the City's policy to permit employees to accumulate earned, unused vacation and sick pay benefits. A portion of accumulated sick pay benefits are paid upon separation based on the number of years of service. All vacation pay and applicable portions of sick pay balances are accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

8. Long-term Obligations

In the government-wide and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the government-wide and proprietary fund type statements of net position. Bonds payable are reported net of the applicable bond premium or discounts. Bond premiums and discounts are amortized over the life of the bonds using the effective interest method. Deferred amounts (the difference between the reacquisition price and the net carrying amount) on refunding are amortized over the shorter of the remaining life of the old debt or the life of the new debt using the straight line method, which does not result in a material difference from the effective interest method. Debt issuance costs, except for the portion which relates to prepaid insurance costs, are recognized as an expense in the period incurred. Prepaid insurance costs are reported as an asset and are recognized as expense on a straight line basis over the duration of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts are reported as other financing uses. Debt principal payments and issuance costs, whether or not withheld from actual debt proceeds, are reported as debt service expenditures.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

E. ASSETS, LIABILITIES, DEFERRED OUTFLOWS/INFLOWS OF RESOURCES, AND NET POSITION OR EQUITY (CONTINUED)

9. Fund Equity/Net Position

In accordance with GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, governmental funds report separate classifications of fund balance. The non-spendable fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. The restricted fund balance is defined as having restrictions (a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation. Committed fund balance is defined as amounts that can only be used for specific purposes pursuant to constraints imposed by formal action (i.e. resolution) performed prior to year-end, of the City Commission. Assigned fund balance represents amounts that are constrained by the government's intent to be used for specific purposes, but are neither restricted nor committed.

The City, through resolution establishing its fund balance policy, has given the City Manager the authority to assign fund balance. Assignment of fund balance may be a) made for a specific purpose that is narrower than the general purposes of the fund itself; and/or b) used to reflect the appropriation of a portion of existing unassigned fund balance to eliminate a projected deficit in the subsequent year's budget in an amount no greater than the projected excess of expenditures over expected revenues. Assigned fund balance shall reflect management's intended use of resources as set forth each year by the City Manager. Assigned fund balance may or may not be appropriated for expenditure in the subsequent year depending on the timing of the project/reserve for which it was assigned. Unassigned fund balance is the residual classification for the General Fund, plus any deficits of any other governmental funds. The City government considers restricted or unrestricted amounts to have been spent when expenditures are incurred for purposes for which both restricted and unrestricted fund balance is available. The City government considers committed, assigned, or unassigned amounts to have been spent when expenditures incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used. The City's policy is to expend resources in the following order: restricted, committed, assigned and unassigned.

It is the City's policy to obtain and maintain a minimum level of General Fund unassigned fund balance of at least 10% of General Fund operating expenditures and transfers. The disaster/emergency reserve fund balance is assigned by the City Commission as set forth in the annual budget (and any amendments thereto) to ensure the maintenance of services to the public during hurricanes and other natural disasters, as well as economic changes that might severely impact the City's ability to provide necessary public services.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

- E. ASSETS, LIABILITIES, DEFERRED OUTFLOWS/INFLOWS OF RESOURCES, AND NET POSITION OR EQUITY (CONTINUED)
- 9. Fund Equity/Net Position (continued)

Net Investment in Capital Assets – is intended to reflect the portion of net position which is associated with capital assets (net of accumulated depreciation), less outstanding capital asset related debt, net of unspent bond proceeds and deferred inflow/outflow of resources that are attributed to the acquisition of those assets or related debt which are included in this component of net position.

Restricted Net Position – has third-party (statutory bond covenant or granting agency) limitations on their use or limitations which have been imposed through enabling legislation.

The government-wide statement of net position reports \$24,030,684 of restricted net position.

Unrestricted Net Position – has no third-party limitations as to its use, and consists of all net position that does not meet the definition of the other two components, and any net deficits that exist.

10. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, deferred outflows and inflows of resources at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from management's estimates.

11. Property Taxes

Property taxes attach as an enforceable lien on real property and are levied as of October 1st. The tax levy is divided into two billings: the first billing (mailed mid-August) is an estimate of the current year's levy based on the proposed tax rates, which serves to inform taxpayers of their proposed taxes prior to the final approval of the millage rate in September. The second billing (mailed in November) reflects the current year's actual levy. The billings are considered past due after March 31st of the following year after the respective tax billing date, at which time the applicable property is subject to lien, and penalties and interest are assessed.

FOR THE YEAR ENDED SEPTEMBER 30, 2021

NOTE 2 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

DEFICIT FUND EQUITY

At September 30, 2021, the Community Development Block Grant Fund and Capital Grants Projects Funds had deficit fund balances of \$35,733 and \$3,476 respectively. This deficit is expected to be funded by future grant reimbursements, which were not susceptible to accrual at September 30, 2021.

The Solid Waste Fund also experience a deficit in net position of \$9,673,893 as of September 30, 2021 due the Energy Performance Efficiency audit. Management has undertaken to re-assess the cost of this contract to the benefits received by multiple Funds.

NOTE 3 – DETAILED NOTES ON ALL FUNDS

DEPOSITS AND INVESTMENTS

Deposits

The City maintains a common cash and cash equivalents pool for use by all non-fiduciary funds. Deposits of the City, including time deposit accounts, demand deposit accounts and certificates of deposit, are defined as public deposits. Pursuant to the City's policies, all of the City's deposits are held in qualified public depositories pursuant to Chapter 280.03 of the Florida Statutes, "Florida Security for Public Deposits Act." Under the Act, all qualified public depositories are required to pledge eligible collateral having fair value equal to or greater than the average daily or monthly balance of all public deposits, times the depository's collateral pledging level. The pledging level may range from 50% to 125% depending upon the depository's financial condition and establishment period. All collateral must be deposited with an approved financial institution. Any losses to public depositors are covered by applicable deposit insurance, sale of securities pledged as collateral and, if necessary, assessments against other qualified public depositories of the same type as the depository in fault. When public deposits are made in accordance with Chapter 280, no public depositor shall be liable for any loss. At September 30, 2021, the carrying amount of the City's deposits totaled \$24,253,966.

NOTE 3 – DETAILED NOTES ON ALL FUNDS (CONTINUED)

DEPOSITS AND INVESTMENTS (CONTINUED)

Investments

Authorized Investments

The City's investments are categorized as investments for the City as a whole (hereinafter referred to as "general City investments") and those of its various defined benefit pension plans. The City is authorized by statute and policy to invest public funds (general City investments) in interest-bearing savings accounts, money market accounts and checking accounts, obligations of the United States government, its agencies and instrumentalities; certificates of deposit that are fully insured and collateralized; high-grade commercial paper, repurchase agreements having a defined termination date and collateralized by U.S. Treasury obligations; and Local Government Surplus Trust Funds, as administered by the Florida State Board of Administration ("SBA"). The City invested funds throughout the year in the Florida PRIME, which is not Securities and Exchange Commission ("SEC") registered, but which qualifies as a fluctuating net asset value ("NAV") pool. The City's investment in the SBA at September 30, 2021 represented less than 1% of the total investment assets of the SBA. The City of Deerfield Beach invests in the pool, the value of the City's position is the same as the value of the pool shares and is recorded at amortized cost. At September 30, 2021, the City's investment in the SBA was \$28,794,934.

In accordance with GASB Statement No. 79, Certain External Investment Pools and Pool Participants, the City's investments in the Florida PRIME meets the definition of a qualifying investment pool that measures, for financial reporting purposes, all of its investments at amortized cost and should disclose the presence of any limitations or restrictions on withdrawals. As of September 30, 2021, there were no redemption fees or maximum transaction amounts, or any other requirements that serve to limit a participant's daily access to 100 percent of their account value.

The Florida Municipal Investment Trust (as administered by the Florida League of Cities) is an authorized investment under Section 218.415(115), Florida Statutes, for units of local government in Florida. The operation and administration of the Trust is the responsibility of a Board of Trustees, who are selected from the ranks of elected officials of governmental entities participating in the Trust. The fair value of the City's position in the Trust is the same as the value of the pool share, \$4,665,916.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2021

NOTE 3 – DETAILED NOTES ON ALL FUNDS (CONTINUED)

DEPOSITS AND INVESTMENTS (CONTINUED)

Investments (continued)

Authorized Investments (continued)

The overriding objectives of the City's investment policy are preservation of its principal investment, while providing for liquidity and maximization of investment income.

Each of the City's three individual pension plans is governed by a Board of Trustees, which is responsible for determining the investment policies for the respective plan, namely the City's Fire, Police Officers, and Non-uniformed retirement pension plans. The investment policies for the various plans typically are devised to earn an average rate of return over the long term that will equal or exceed the return of a target index. The trustees are authorized to invest in a wide range of instruments, including but not limited to, federally-guaranteed obligations, bonds, stocks, or other evidences of indebtedness issued or guaranteed by a corporation organized under the laws of the United States or any state or organized territory of the United States, provided that the corporation is listed on any one or more of the recognized national stock exchanges or the National Market System of the NASDAQ Stock Market.

In acquiring these investments on behalf of the various plans, the trustees are required to exercise a level of care, which persons of prudence, discretion and intelligence would exercise when acquiring these same investments for their own (personal) accounts.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2021

NOTE 3 – DETAILED NOTES ON ALL FUNDS (CONTINUED)

DEPOSITS AND INVESTMENTS (CONTINUED)

Investments (continued)

Authorized Investments (continued)

As of September 30, 2021, the City and the Plans had the following investments:

	Pension All

Total	\$ 262,973,456	\$ 111,355,567	\$ 374,329,023

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value is to changes in market interest rates. In accordance with the City's investment policy, the City minimizes the interest rate risk of investments in the portfolio by placing limitations on the duration of such investments. With the exception of funds reserved for capital projects, all of the City's general investments shall be limited to instruments maturing within two years of purchase. This ensures that securities mature to meet cash requirements for operations, thereby avoiding the need to sell securities in the open market prior to maturity.

The Police Officers' Retirement Plan limits its exposure to interest rate risk by varying the durations of the maturities of its investment holdings.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2021

NOTE 3 – DETAILED NOTES ON ALL FUNDS (CONTINUED)

DEPOSITS AND INVESTMENTS (CONTINUED)

Investments (continued)

Interest Rate Risk (continued)

Neither the Municipal Firefighter's Pension Trust Plan nor the Non-Uniform Employees' Retirement Plan has investment policies that use limits on investment maturities as a means of managing its exposure to fair value losses arising from interest rates.

Information about the sensitivity of the fair values of the City's and the Pension Plans' investments to market interest rate fluctuations is provided by the following tables that shows the distribution of the City's and the Plans' investments by maturity:

		Maturities (in Years)

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization (NRSRO's). State law limits investments in commercial paper and corporate bonds to the top 3 ratings issued by NRSRO's. All Treasury obligations are guaranteed by the good faith and credit of the United States and are therefore not subject to credit risk. The amounts held in the Florida Prime is rated by Standard and Poor's. The current rating is AAAm. Florida Municipal Investment Trust is not rated by any nationally recognized statistical rating agency.

NOTE 3 – DETAILED NOTES ON ALL FUNDS (CONTINUED)

DEPOSITS AND INVESTMENTS (CONTINUED)

Investments (continued)

Concentration of Credit Risk

The City limits its investments in any one issuer to no more than 5% of total investments, except for investments issued or explicitly guaranteed by the government and investments in mutual funds, external investment pools, and other pooled investments, which are excluded from this requirement. There were no individual investments that represented 5% or more of the City's total investments at September 30, 2021. The three pension plans limit their exposure by limiting their investments in any one issuer to no more than 5% of plan net position other than those issued by the US Government or its agencies. None of the plans had holdings that exceeded the 5% limit.

Custodial Credit Risk

The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g. broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. These investments are held by the various pension plans' custodial banks and are registered in the name of the pertinent pension plan. With the exception of the investments with the SBA Florida Prime, all of the City's general investments were held by the City's custodial bank and were registered in the City's name as of year-end.

Fair Value Hierarchy

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan categorizes its fair value measurements with the fair value hierarchy established by generally accepted accounting principles. The fair value hierarchy categorizes the inputs to valuation techniques used to measure fair value into three levels based on the extent to which inputs used in measuring fair value are observable in the market. Investments measured and reported at fair value are classified and disclosed in one of the following categories:

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2021

NOTE 3 – DETAILED NOTES ON ALL FUNDS (CONTINUED)

DEPOSITS AND INVESTMENTS (CONTINUED)

Investments (continued)

Fair Value Hierarchy (continued)

Level 1 - Investments traded in an active market with available quoted prices for identical assets as of the reporting date.

Level 2 - Inputs to the valuation methodology are based upon observable inputs for the assets either directly or indirectly, other than those considered Level 1 inputs, which may include quoted prices for identical assets in markets that are not considered to be active, and quoted prices of similar assets in active or inactive markets.

Level 3 - Inputs to the valuation methodology are based upon unobservable inputs.

Fire Pension

The following is a description of the valuation methodologies used for assets measured at fair value for the plan:

Common stock: Valued at the closing price reported on the New York Stock Exchange.

Government securities: Valued using pricing models maximizing the use of observable inputs for similar securities.

Corporate bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing the value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs, such as current yield of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks or a broker quote, if available.

Hedge funds: Value based on the net asset value per share, without further adjustment. Net asset value is based upon the fair value of the underlying investments.

Real estate: Valued at the net asset value of shares held by the Plan at year end. The Plan has investments in private market real estate investments for which no liquid public market exists.

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient, including their related unfunded commitments and redemption restrictions:

			Redemption	Redemption
	Fair	Unfunded	Frequency (if	Notice
	Value	Commitments	Currently Eligible)	Period
Real Estate Fund (1)	\$ 11,885,547	\$	Quarterly	90 Days
Real Estate Fund (2)	4,297,980		Quarterly	10 Days
Real Estate Fund (3)	5,528,555		N/A	N/A
Hedge Fund (4)	879,011		Quarterly	90 Days
Total Investments Measured				
at the NAV	\$ 22,591,093	\$		

- 1. Real estate fund: The fund is an open-ended real estate investment fund investing primarily in core institutional office, retail, industrial, and multi-family properties located throughout the United States. The investment is valued at NAV and its redemptions must be received by the fund 90 days prior to quarter end.
- 2. Real estate fund: The fund is an open-end diversified core real estate commingled fund that invests primarily in core institutional office, retail, industrial, and multi-family properties located throughout the United States. The investment is valued at NAV and its redemptions must be received by the fund 10 days prior to quarter end.
- Real estate fund: This fund is an open-end, comingled real estate fund with a diversified portfolio of
 income producing properties located throughout the United States. The investment is valued at NAV and
 has no redemption frequency or notice period.
- 4. Hedge fund: The fund is a multi-strategy fund of hedge funds that aims to pursue varying strategies in order to diversify risk and reduce volatility. The fund is a diversified portfolio offering investment solutions through activist long/short equity hedge funds, event driven hedge funds and multi-strategy hedge funds. The investment is valued at NAV and holder of capital, upon at least 90 days prior written notice, may request to redeem a minimum of \$100,000 of their capital shares, as of the close of business on the last business day of each calendar year, by giving irrevocable written notice.

NOTE 3 – DETAILED NOTES ON ALL FUNDS (CONTINUED)

DEPOSITS AND INVESTMENTS (CONTINUED)

Investments (continued)

Fair Value Hierarchy (continued)

Police Pension

The following is a description of the valuation methodologies used for assets measured at fair value for the plan:

Debt securities: Debt securities consist primarily of negotiable obligations of the U.S. government and U.S. government-sponsored agencies, corporations, securitized offerings backed by residential and commercial mortgages, TIPS, and foreign debt securities. These securities can be typically be valued using the close or last traded price on a specific date (quoted prices in active markets). When quoted prices are not available, fair value is determined based on valuation models that use inputs that include market observable inputs. These inputs included recent trades, yields, price quotes, cash flows, maturity, credit ratings, and other assumptions based upon the specifics of the investment type.

Equity securities: These include domestic and international equities. Domestic securities traded on a national securities exchange are valued at the last reported sales price on the last business day of the fiscal year. Securities traded in the over-the-counter market and listed securities for which no sale was reported on that date are valued at the last reported bid price. International equities are valued based upon quoted foreign market prices and translated into U.S. dollars at the exchange rate in effect at year end. Securities which are not traded on a national security exchange are valued by the respective fund manager or other third parties based on yields currently available on comparable securities of issuers with similar credit ratings.

NOTE 3 – DETAILED NOTES ON ALL FUNDS (CONTINUED)

DEPOSITS AND INVESTMENTS (CONTINUED)

Investments (continued)

Fair Value Hierarchy (continued)

Non-Uniformed Pension (continued)

Hedge fund: Valued based on the net asset value per share, without further adjustment. Net asset value is based upon the fair value of the underlying investment.

Corporate bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing the value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs, such as current yield of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks or a broker quote, if available.

Real estate fund: Valued at the net asset value of shares held by the Plan at year end. The Plan has an investment in a private market real estate investment for which no liquid public market exists.

Total	\$	4,910,800	\$	2,404,513	\$	20,800	\$	390,371	\$	7,726,484

Transfers to the General Fund by the nonmajor governmental funds represent amounts paid by the nonmajor governmental funds for matching grant requirements for expenditures which were accounted for in the General Fund. Transfers to nonmajor governmental funds represent payments for the City's match in connection with grants that the City participates in cost sharing for the funded project. Transfers to the General Fund by enterprise funds represents amounts paid by the general fund on behalf of enterprise funds.

CAPITAL LEASES

The City has entered into master lease purchase agreements and other lease arrangements as lessee for financing the acquisition of equipment for public safety, public works and for parks and recreational facilities.

The City has also financed the acquisition of sanitation vehicles in its Solid Waste enterprise fund. These lease agreements qualify as capital leases for accounting purposes and, therefore, have been recorded at the present value of their future minimum lease payments as of the date of inception.

The City has entered into a lease purchase agreement as lessee for the acquisition and finance of its Energy Performance Projects. This lease agreement qualifies as capital leases for accounting purposes and, therefore, have been recorded at the present value of their future minimum lease payments as of the date of inception.

NOTES TO FINANCIAL STATEMENTS

Present Value of Future Minimum						
Lease Payments	\$	2,222,334	\$	\$ 9,902,313		12,124,647

As of September 30, 2021, the equipment held under capital leases for governmental activities and business-type activities were \$3,188,960 and \$865,730, respectively. Accumulated depreciation for equipment held under capital leases was \$502,381 and \$280,799 for governmental and business type activities, respectively, as of September 30, 2021.

LONG-TERM DEBT

Governmental Activities Debt

General Obligation Bonds, Series 2000 – The original amount of this issue was divided into two series: Series "A," for which \$9,978,847 in bonds were issued, and Series "B," for which \$2,820,183 in bonds were issued. The proceeds of these bonds were used to finance the construction of a public safety complex, a public works facility, parks improvements, right-of-way improvements and expansion of the senior services facilities. The combined outstanding bonds of the issue, \$2,607,339, have interest rates that range from 4.25% to 6.08%. For Series A, principal is due annually on April 1st and interest is payable semi-annually on April 1st and October 1st with the final maturity date being October 1, 2024.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2021

NOTE 3 – DETAILED NOTES ON ALL FUNDS (CONTINUED)

LONG-TERM DEBT (CONTINUED)

Governmental Activities Debt (continued)

General Obligation Bonds, Series 2012B-2 — The original amount of this issue was \$14,770,000. The proceeds of these bonds were used to refund previously issued debt, namely Florida Municipal Loan Council Revenue Bonds, Series 2000B; Series 2003A and Series 2003B. The interest rates on these bonds range from 2% to 5%. The principal is due annually on April 1st and interest is payable semi-annually on April 1st and October 1st with the final maturity date being October 1, 2028. The principal and interest of this issue will be payable from and secured by the City's ad valorem taxes. For the current year, principal and interest of \$973,150 was paid. Ad valorem taxes amounted to \$44,281,635. The outstanding balance for this issue at year end amounted to \$9,615,000.

The General Obligation Bonds are limited liabilities of the City, payable from ad-valorem taxes, secured by the full faith and credit of the city. In the event of default, bondholders may sue to enforce their rights.

Covenant Bonds, Series 2012B-1 – The original amount of this issue was \$20,090,000. The proceeds of this bond issue were to repay previously issued debt as well as to finance the construction of parks and right of way improvements, in addition to citywide street improvements. The interest rates on these bonds range from 2.00% to 4.00%. Principal is due annually on October 1st and interest is payable semi-annually on April 1st and October 1st, with the final maturity date being October 1, 2032. The remaining outstanding bonds of this issue total \$11,680,000 with total interest payable of \$1,759,492 over the remainder of the term of the bonds. For the current year, principal and interest of \$1,558,919 was paid.

Covenant Bonds, Series 2018 – The original amount of this issue was \$36,155,000. The proceeds of this bond issue were to repay previously issued debt, Series 2006 Covenant Bonds, as well as to finance the renovation and construction of City facilities, parks and citywide street improvements. The interest rates on these bonds range from 2.44% to 5.25%. Principal is due annually on December 1st and interest is payable semi-annually on June 1st and December 1st, with the final maturity date being December 1, 2042. The remaining outstanding bonds of this issue total \$35,850,000 with total interest payable of \$26,564,837 over the remainder of the term of the bonds. For the current year, principal and interest of \$2,043,075 was paid.

Covenant bonds are limited obligations of the City, payable solely from non-ad valorem revenues, set aside by the City in its annual budget. In the event of default, the payment of principal or interest, owners of the bonds shall have remedies as specified by the federal bankruptcy code, the bond indenture of and any bond policy insurance.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2021

NOTE 3 – DETAILED NOTES ON ALL FUNDS (CONTINUED)

LONG-TERM DEBT (CONTINUED)

Business-type Activities Debt

Loans Payable – The City has entered into two loan agreements with the State of Florida Department of Environmental Protection. The primary purpose of these loans is to construct water and wastewater facilities. As of September 30, 2009, the City borrowed \$8,662,208, with interest rates ranging from 2.27% to 3.57%. As of September 30, 2021, the outstanding principal amount of these loans totaled \$2,865,506. Principal and interest payments on the two Florida Water Pollution Control Construction loans are due on April 15 and October 15 of each year. At September 30, 2021, the unpaid principal balances of Water Pollution Control Loan No. WW69302L and Loan No. WW693030 were \$465,121, and \$2,400,385, respectively. Revenues of the Water and Sewer System have been pledged as security for repayment of these loans. Total principal and interest paid during the current year totaled \$528,306.

These loans are payable from Gross Revenues derived yearly from the operation of the Water and Sewer Systems after operation and maintenance expense. Upon any event of default the lender may take action by mandamus or other proceeding at law to enforce the rights of the lender.

Wells Fargo Loan - On April 9, 2015, the City issued Wells Fargo Revenue Loan in the amount of \$8,580,000. The loan matures on November 15, 2021. The loan bears interest on the outstanding principal balance at 1.63%. Payments are due annually starting November 15, 2015. The proceeds of this loan were used to refund State Revenue Loan No. DW060610, which was paid in full, and the liability for this loan was removed from the Business-type activities column in the statement of net position. As of September 30, 2021, the principal balance outstanding was \$1,300,000. The principal and interest paid during the current year totaled \$1,291,459.

Bank of America Revenue and Refunding Note, Series 2018 – On June 13, 2018, the City entered into a loan agreement with Bank of America in the amount of \$11,397,243. The proceeds of this bond issue were used to refund the Florida Municipal Loan Council Revenue Bonds, Series 2008A. The reacquisition price exceeded the net carrying amount of the old debt by \$85,603. This amount is being netted against the new debt and amortized over the remaining life of the refunded debt, which is shorter than the life of the new debt issued. This refunding was undertaken to reduce the total debt service payments over the next 10 years by \$1,068,336 and resulted in an economic gain of \$914,540. The interest rate on the new debt is 3.07%. Principal is due annually on October 1st and interest is payable

Business-type Activities Debt (continued)

semiannually on April 1st and October 1st, with the final maturity date being October 1, 2028. As of September 30, 2021, the principal balance outstanding was \$8,733,448. The principal and interest paid during the current year totaled \$1,227,296.

Remedies on Default allows the lenders of these loans to take whatever action at law or in equity which may appear necessary or desirable to collect amounts then due and thereafter to become due.

Changes in Long-Term Debt

LONG-TERM DEBT (CONTINUED)

Pollution Remediation

The City accepted approximately 44.65 acres of donated land in October 2011 from a private donor. The City plans to redevelop the land (Tam O'Shanter project) and eventually use it for community facilities and recreation, as well as open space. The land has been found to contain contamination from toxic substances. According to studies conducted to determine the extent of the pollution and the expected costs of remediation can range between \$150,000 and \$4,000,000 depending on the prospective use of the land. The donor has contributed \$250,000 towards the future costs of clean-up. No remediation efforts had begun as of September 30, 2021. The remediation outlays are considered necessary to prepare the asset for its intended use, and will be capitalized as part of the newly developed asset as expenditures are incurred, and therefore no expenditure and liability have been accrued at this time.

NOTE 4 – OTHER INFORMATION

RESTRICTED ASSETS

The amounts shown below are those assets restricted by sources external to the City. Ordinances and bond covenants pertaining to long-term debt and other agreements require segregation and restriction of certain assets represented by the following amounts as of September 30, 2021:

Governmental Activities

American Rescue Plan proceeds	\$	8,144,179
Cemetery Trust Fund		1,236,100
Forfeiture		61,440
General Obligation Debt Service	<u> </u>	4,755,772

RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; employee health; and natural disasters. Liability claims in the State of Florida are limited to some extent by Chapter 768.28 of the Florida Statutes, under the Doctrine of Sovereign Immunity. The General Fund provides coverage of up to \$175,000 per participant for employee health claims. The General Fund also provides coverage for workers compensation claims. The City retains the risk of loss up to \$200,000 for general liability claims. For property damage, the City has a deductible of \$500,000 for flood damage and \$5,000 for all other perils. For all other risks of loss, the City has purchased an excess coverage insurance policy covering individual claims in excess of these specified amounts. Settled claims did not exceed the commercial coverage in any of the past three fiscal years.

Various funds of the City participate in the risk management program and make payments to the General Fund based on estimates of the amounts needed to cover costs of current year's claims. Claim expenditures and liabilities are reported when it is probable and a loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported (IBNRs). Claim liabilities are based upon the estimated ultimate cost of settling the claims including specific, incremental claim adjustment expenses, salvage, and subrogation and considering the effects of inflation and recent claim settlement trends including frequency and amount of payouts and other economic and social factors.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2021

NOTE 4 – OTHER INFORMATION (CONTINUED)

RISK MANAGEMENT (CONTINUED)

At September 30, 2021, the amount of these liabilities was \$9,421,320. Changes in the reported liability since October 1, 2020 resulted from the following:

	Current Year's									
	Claims	Claims and								
	Payable	Changes in	Claims	Liability						
	October 1	Estimates	Payments	September 30						
Fiscal Year Ended September 30,										
2021	\$ 7,377,402	\$ 6,216,397	\$ (4,172,479)	\$ 9,421,320						
2020	7,829,171	2,832,319	(3,284,008)	7,377,402						

CONTINGENT LIABILITIES

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally, the federal and state agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds.

At September 30, 2021, portions of some Federal Emergency Management Agency ("FEMA") claims for approximately \$1.9 million were determined, through a review by the Office of the Inspector General, to be overfunded. The City's position is, the expenditures were proper, had been fully reviewed and approved by FEMA representatives at the State and Federal levels, and will be ultimately approved by FEMA. The City and FEMA came to an agreement to offset the over expenditures against current claims. As of September 30, 2021, the City has an outstanding amount of \$883,000 to be utilized against future claims.

The City is currently the defendant in a number of litigation issues and claims that arose in the normal course of operations. City management has indicated that they intend to vigorously defend such matters, the ultimate outcome of which, in the opinion of management, will not have a significant adverse effect on the financial condition of the City.

DEFINED BENEFIT PENSION PLANS

Plan Description

The City of Deerfield Beach, as a single-employer, maintains three defined benefit pension plans covering full-time firefighters employed by the City prior to October 1, 2011, police officers employed by the City prior to January 13, 1990, and non-uniformed employees hired before April 17, 1990. The Deerfield Beach Municipal Firefighters' Pension Trust

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2021

NOTE 4 – OTHER INFORMATION (CONTINUED)

DEFINED BENEFIT PENSION PLANS (CONTINUED)

Plan Description (continued)

Fund (the Fire Pension Plan), the City of Deerfield Beach Police Officers' Retirement Plan (the Police Pension Plan) and the City of Deerfield Beach Non-Uniformed Employees' Retirement Fund (the Non-uniformed Pension Plan) are individual plans administered for each of three employee categories: fire, police and non-uniformed personnel. Each plan is governed by its own board of trustees, which is responsible for establishing employee benefit provisions within the framework of Chapters 175 and 185 of the Florida Statutes and local ordinances. Retirement, disability and death benefits and annual cost-of-living adjustments are provided by all three plans to members and beneficiaries. New members are no longer admitted to any of the three defined benefit plans.

The financial statements for the City's pension plans are prepared using the accrual basis of accounting. Contributions from plan members are recognized in the period in which the contributions are due. The City's contributions are recognized when due and when a formal commitment to provide the contributions has been made. Benefits and refunds are recognized when due and payable in accordance with the terms of each individual plan. All plan investments are reported at fair value with the exception of money market funds which are reported at amortized cost. Securities traded on a national exchange are valued at the last reported sales price on the plan's fiscal year end. Securities without an established market price are reported at estimated fair value.

The Fire Pension Plan, as well as the Police Officers' Retirement Plan, issue publicly available financial reports that include financial statements and required supplementary information. The reports for the Police Officers' Retirement Plan may be obtained by writing or calling the following: Pension Resource Center, 4360 Northlake Blvd., Suite 206, Palm Beach Gardens, FL 33410; (561) 624-3277. The reports for the Fire Pension Plan may also be obtained by contacting the following: Freiman Little Actuaries, LLC; 4105 Savannahs Trail; Merritt Island, FL 32953; (321) 453-6542.

The Non-uniformed Employees' Retirement Plan also issues publicly available financial reports. These reports may be obtained via written request to the following: Benefits USA, Inc., 3810 Inverrary Blvd, Suite 302, Lauderhill, Florida 33319; or by calling (800) 425-2454.

On January 13, 1990 the police officers of the City of Deerfield Beach merged with the Broward County Sheriff's Office. State law provides that these officers, who are now employees of the Broward County Sheriff's Office, could make an irrevocable election to

DEFINED BENEFIT PENSION PLANS (CONTINUED)

Plan Description (continued)

remain in the City's pension plan. On October 1, 2012, the firefighters of the City of Deerfield Beach also merged with the Broward Sheriff's Office. Like the police officers, they were also allowed to make an irrevocable election to remain in the City's pension plan or join the Florida Retirement System.

Funding Policy

The Board of trustees of each plan establishes and may amend the contribution requirements of plan members and of the City.

The Fire Pension Fund, as well as the Police Pension Fund, is partially funded by contributions from the State of Florida. The state's contribution to the pension funds consists of excise taxes collected on fire and casualty insurance premiums on policies written within the City limits. For fiscal year 2021, the state contributed \$557,148 and \$738,278 to the Fire Pension and Police Pension Funds, respectively. On-behalf payments of fringe benefits and salaries for the City's employees were recognized as revenues and expenditures during the period.

Information regarding fiscal year 2021 participant data for the three pension plans is as follows:

FOR THE YEAR ENDED SEPTEMBER 30, 2021

NOTE 4 – OTHER INFORMATION (CONTINUED)

DEFINED BENEFIT PENSION PLANS (CONTINUED)

Funding Policy (continued)

Covered employees in the fire and non-uniformed defined benefit plans are required to contribute 9% of their gross salary. Beginning on January 13, 1990, participants in the police pension plan were no longer required to contribute to the plan. The member's contribution rate is fixed by the authorizing ordinance and the City's contribution rate is actuarially determined. The actuarial assumptions and three to five-year smoothed market methods were selected to fund the plans with the intent of producing future required employer contributions which remain fairly level as a percentage of covered payroll. The contribution rate for normal cost is determined using the entry age or the aggregate cost method, depending on the plan, over a 15 to 30 year period.

Net Pension Liability

The component of net pension liability as of September 30, 2020 (measurement date) were as follows:

	Fire	Police	Non-Uniformed	Total
Total pension liability Plan fiduciary net position	\$ 166,196,697 (129,626,638)	\$ 64,784,629 (40,637,559)		\$ 286,768,945 (221,942,044)

SIGNIFICANT ACTUARIAL ASSUMPTIONS

The total pension liability was determined by an actuarial valuation as of October 1, 2019.

	Fire Pension	Police Pension	Non-Uniformed
Inflation	2.27%	N/A	2.00%
Salary increases	5.2% to 11%	N/A	6.00% per year
Investment rate of return	7.50%	6.50%	6.80%
Mortality	RP-2000 fully generational with scale BB	RP-2000 Table with no RP-2000 Disabled Table for disabled lives projection Disables Lives: RP-2000 disabled males and females	RP-2000 Mortality tables, fully generational with scale BB
Retirement Age	N/A	N/A	Age 64 with 10 years of service or age 55 with 25 years of service

PENSION DISCOUNT RATE

The discount rate used to measure the total pension liability was 7.50%, 6.50%, and 6.80% for the Fire, Police, and Non-Uniformed Pension plans respectively. This is a single rate that reflects the long- term expected rate of return on Pension plan investments expected to be used to finance the payment of benefits, including inflation. The projection of cash flows used to determine the discount rate assumed member contributions are made at 9% of pay and City contributions will be made in an amount equal to the difference between the actuarially determined contributions and member contributions. Fiduciary net position is projected to be sufficient to make projected benefit payments, for purposes of this determination.

DEFINED BENEFITS PENSION PLANS

Investments - Long-Term Expected Rate of Return

The long-term expected rate of return on pension plan investments was determined by using a building-block method. Best estimate ranges of expected future real rates of return (expected returns net of investment expense and inflation) are developed for each major asset class. The long-term expected rate of return on investments is the best-estimate ranges weighted by the asset allocation plus expected inflation. Best estimates of arithmetic real rates of return for each major asset class as provided by the investment monitor for the Fire, Police and non-uniformed pension plans, respectively, are shown below.

Asset Class	Long-Term Expected Real Rate of Return
Fire	Real Rate of Retain
Domestic equity	8.47%
International equity	4.07%
Bonds	3.74%

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

Pension expense and deferred outflows and deferred inflows of resources related to pensions: The net pension liability was measured as of September 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of October 1, 2019. The City reported deferred outflows of resources and deferred inflows of resources from the following sources:

	Deferred Outflows (Inflows)				
		Non-			
Description	Police	Fire	Uniformed		
Contributions subsequent to the measurement					
date	\$ 3,074,175	\$ 6,856,235	\$ 1,372,990		
Difference between expected and actual					
experience		1,451,226			
Change in assumptions		(877,138))		
Difference between expected and actual					
earnings on investments	(89,498)	1,203,641	1,560,182		
Total Deferred Outflows (Inflows)	\$ 2,984,677	\$ 8,633,964	\$ 2,933,172		

The deferred outflows of resources resulting from City contributions to the pension plans subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent year. The amount reported as a deferred inflow/outflow of resources related to the pension will be recognized in pension expense over the four remaining years as follows:

			Non-
Fiscal Year Ending September 30,	Police	Fire	Uniformed

DEFINED CONTRIBUTION PLAN

The City has a defined contribution plan that was established on April 17, 1990 via Ordinance No. 1990-025. This plan covers all full-time employees who are not members of the City's defined benefit pension plans, previously described. This plan was established under the provisions of Section 401(a) of the Internal Revenue Code. The City has authorized the City Commission to establish and amend all plan provisions. The assets of the plan are self-directed, and investment results are reported to participants/employees on a quarterly basis. In a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment returns thereon. The City does not have fiduciary accountability for the plan and, accordingly, the plan is not reported in the accompanying financial statements.

The City contributed 8% of salaries to the plan on a bi-weekly basis, for a contribution for the year ending September 30, 2021 of \$1,306,904. The plan requires a 4% match of all participants. Plan participants become fully vested in the plan after five years of service. Total member contributions for the fiscal year totaled \$641,915.

DEFINED COMPENSATION PLAN

The City offers certain employees the opportunity to participate in a deferred compensation plan that was created on December 1, 1987, via resolution C1987/114. This plan was established in accordance with Section 457 of the Internal Revenue Code. The plan permits employees to defer a portion of their salaries until future years. At the employee's election, such amounts may be invested in mutual funds with varying degrees of risk and return. Loans may be taken against an employee's account for specified purposes. All amounts of compensation deferred under a "Section-457" plan, all property and rights purchased with those amounts, and all investment earnings, are held in trust for the exclusive benefit of the plan's participants and their beneficiaries. Since the City has no control over these assets, they are not reflected in the City's financial statements.

The International City Management Association Retirement Corporation acts as agent for the employees in administering both the defined contribution as well as the deferred compensation plans described above.

COMMUNITY REDEVELOPMENT AGENCY

Pursuant to Florida Statute 163.387, listed below is a summary of the sources and amounts of deposits to, and the purpose and amounts of withdrawals from, the Community Redevelopment Agency Funds (CRA) for the fiscal year ended September 30, 2021:

	Deposits		W	ithdrawals
Source of Deposits				
Tax incremental revenues	\$	4,398,111	\$	
Investment income		3,080		
Purpose of Withdrawals				
Debt service - principal & interest				1,085,581
Other contractual				250,925
Administrative and overhead				660,044
Economic development				835,544
Total	\$	4,401,191	\$	2,832,094

NOTE 5 - COST SHARING DEFINED BENEFIT PLANS

Effective November 6, 2001, the City of Deerfield Beach commenced participation in the Florida Retirement System (FRS), a cost-sharing multiple employer Public Employee Retirement System (PERS). There are two defined benefit plans as part of the Florida Retirement System. The FRS is a cost-sharing, multiple-employer defined benefit pension plan with a Deferred Retirement Option Program (DROP) for eligible employees. The Health Insurance Subsidy Program (HIS) is a cost-sharing, multiple-employer defined benefit pension plan. The FRS and HIS were created by the Florida Legislature and are administered by the State of Florida.

Only Elected members of the City Commission are eligible to enroll as members of the State-administered FRS. Provisions relating to the FRS are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and FRS Rules, Chapter 60S, Florida Administrative Code; wherein eligibility, contributions, and benefits are defined and described in detail. Such provisions may be amended at any time by further action from the Florida Legislature.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2021

NOTE 5 – COST SHARING DEFINED BENEFIT PLANS (CONTINUED)

The FRS is a single retirement system administered by the Florida Department of Management Services, Division of Retirement, and consists of the two cost-sharing, multiple-employer defined benefit plans and other nonintegrated programs. A comprehensive annual financial report of the FRS, which includes its financial statements, required supplementary information, actuarial report, and other relevant information, is available from the Florida Department of Management Services' website:

(http://www.dms.myflorida.com/workforce_operations/retirement/publications).

PLAN DESCRIPTION

FRS Pension Plan

The FRS Pension Plan (Plan) is a cost-sharing multiple-employer defined benefit pension plan, with a Deferred Retirement Option Program (DROP) for eligible employees. Only Elected Officials participate in this plan.

Employees enrolled in the Plan prior to July 1, 2011, vest at six years of creditable service and employees enrolled in the Plan on or after July 1, 2011, vest at eight years of creditable service. All vested members, enrolled prior to July 1, 2011, are eligible for normal retirement benefits at age 62 or at any age after 30 years of service (except for members classified as special risk who are eligible for normal retirement benefits at age 55 or at any age after 25 years of service). All members enrolled in the Plan on or after July 1, 2011, once vested, are eligible for normal retirement benefits at age 65 or any time after 33 years of creditable service (except for members classified as special risk who are eligible for normal retirement benefits at age 60 or at any age after 30 years of service). Members of the Plan may include up to 4 years of credit for military service toward creditable service.

The Plan also includes an early retirement provision; however, there is a benefit reduction for each year a member retires before his or her normal retirement date. The Plan provides retirement, disability, death benefits, and annual cost-of-living adjustments to eligible participants.

DROP, subject to provisions of Section 121.091, Florida Statutes, permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payments while continuing employment with an FRS employer. An employee may participate in DROP for a period not to exceed 60 months after electing to participate. During the period of DROP participation, deferred monthly benefits are held in the FRS Trust Fund and accrue interest. The net pension liability does not include amounts for DROP participants, as these members are considered retired and are not accruing additional pension benefits.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2021

NOTE 5 – COST SHARING DEFINED BENEFIT PLANS (CONTINUED)

PLAN DESCRIPTION (CONTINUED)

HIS Plan

The Retiree Health Insurance Subsidy Program (HIS Plan) is a cost-sharing multiple-employer defined benefit pension plan established under Section 112.363, Florida Statutes, and may be amended by the Florida Legislature at any time. The benefit is a monthly payment to assist retirees of the State administered retirement systems in paying their health insurance costs and is administered by the Division of Retirement within the Florida Department of Management Services.

BENEFITS PROVIDED

FRS Pension Plan

Benefits under the Plan are computed on the basis of age and/or years of service, average final compensation, and service credit. Credit for each year of service is expressed as a percentage of the average final compensation. For members initially enrolled before July 1, 2011, the average final compensation is the average of the five highest fiscal years' earnings; for members initially enrolled on or after July 1, 2011, the average final compensation is the average of the eight highest fiscal years' earnings. The total percentage value of the benefit received is determined by calculating the total value of all service, which is based on the retirement class to which the member belonged when the service credit was earned. Members are eligible for in-line-of-duty or regular disability and survivors' benefits. The following chart shows the percentage value for each year of service credit earned:

Elected Officers' Class: 3.00%

As provided in Section 121.101, Florida Statutes, if the member is initially enrolled in the FRS before July 1, 2011, and all service credit was accrued before July 1, 2011, the annual cost-of-living adjustment is 3 percent per year. If the member is initially enrolled before July 1, 2011, and has service credit on or after July 1, 2011, there is an individually calculated cost-of-living adjustment. The annual cost-of-living adjustment is a proportion of 3 percent determined by dividing the sum of the pre-October 2011 service credit by the total service credit at retirement multiplied by 3 percent. Plan members initially enrolled on or after July 1, 2011, will not have a cost-of-living adjustment after retirement.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2021

NOTE 5 – COST SHARING DEFINED BENEFIT PLANS (CONTINUED)

PLAN DESCRIPTION (CONTINUED)

HIS Plan

For the fiscal year ended September 30, 2021 eligible retirees and beneficiaries received a monthly HIS payment of \$5 for each year of creditable service completed at the time of retirement, with a minimum HIS payment of \$30 and a maximum HIS payment of \$150 per month, pursuant to Section 112.363, Florida Statutes. To be eligible to receive a HIS Plan benefit, a retiree under a State-administered retirement system must provide proof of health insurance coverage, which may include Medicare.

CONTRIBUTIONS

FRS Pension Plan

The Florida Legislature establishes contribution rates for participating employers and employees. Employees are required to contribute 3% of gross salary. Employer contribution is based on class. For the fiscal year ended September 30, 2021, the contribution rate for Elected Officers' Class for the period July 1, 2020 through June 30, 2021 and from July 1, 2021 through September 30, 2021 was 48.82% and 49.59% percent, respectively.

The City's contributions for FRS totaled \$93,373 and employee contributions totaled \$5,148 for the fiscal year ended September 30, 2021.

HIS Plan

The HIS Plan is funded by required contributions from FRS participating employers as set by the Florida Legislature. Employer contributions are a percentage of gross compensation for all active FRS members. For the fiscal year ended September 30, 2021, the HIS contribution was 1.66 percent. The City contributed 100 percent of its statutorily required contributions for the current year and preceding three years. The HIS Plan contributions are deposited in a separate trust fund from which payments are authorized. HIS Plan benefits are not guaranteed and are subject to annual legislative appropriation. In the event the legislative appropriation or available funds fail to provide full subsidy benefits to all participants, benefits may be reduced or canceled.

NOTES TO FINANCIAL STATEMENTS

NOTE 5 - COST SHARING DEFINED BENEFIT PLANS (CONTINUED)

PENSION LIABILITIES, PENSION EXPENSE, AND DEFERRED OUTFLOWS/INFLOWS OF RESOURCES RELATED TO PENSIONS

At September 30, 2021, the City reported liabilities of \$152,858 for its proportionate share of the FRS net pension liability and \$60,391 for the HIS net pension liability. The net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2020. The City's proportionate share of the net pension liability was based on the City's fiscal year 2021 contributions relative to the fiscal year 2021 contributions of all participating members.

For the fiscal year ended September 30, 2021, the City recognized a reduction in pension expense of \$89,434. In addition, the City reported, in the government-wide financial statements, deferred outflows of resources and deferred inflows of resources related to both plans from the following sources:

	Deferred Outflows of Resources				rces	
Description		FRS		HIS		Total
Differences between expected and actual						
experience	\$	26,200	\$	2,021	\$	28,221

ACTUARIAL ASSUMPTIONS

Actuarial assumptions for both cost-sharing defined benefit plans are reviewed annually by the Florida Retirement System Actuarial Assumptions Conference. The FRS plan has a valuation performed annually. The HIS Program has a valuation performed biennially that is updated for GASB reporting in the year a valuation is not performed. The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	Generational RP-2000 with projection scale BB tables			
Mortality Table Experience Study	7/1/13 - 6/30/18			
Actuarial Cost Method	Individual Ent	ry Age Normal		
	FRS	HIS		
Investment rate of return	6.80%	2.16%		
Projected salary increases	3.25%	3.25%		
Inflation	2.40%	2.40%		

LONG-TERM EXPECTED RATE OF RETURN

FRS Pension Plan

The long-term expected rate of return on the plan investments was not based on historical returns, but instead is based on a forward-looking capital market economic model. The allocation policy's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes an adjustment for the inflation assumption. The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Annual Arithmetic Return	Compound Annual (Geometric) Return	Standard Deviation
Cash	1.0%	2.1%	2.1%	1.1%
Fixed income	20.0%	3.8%	3.7%	3.3%
Global equity	54.2%	8.2%	6.7%	17.8%
Real estate (property)	10.3%	7.1%	6.2%	13.8%
Private equity	10.8%	11.7%	8.5%	26.4%
Strategic investments	3.7%	5.7%	5.4%	8.4%
Total	<u>100.0</u> %			
Assumed Inflation-Mean			2.4%	1.2%

Note: As outlined in the Plan's investment policy

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2021

NOTE 5 – COST SHARING DEFINED BENEFIT PLANS (CONTINUED)

DISCOUNT RATE OF RETURN

The discount rate used to measure the total pension liability was 6.90% for the FRS plan. The fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return.

The HIS program uses a pay as you go funding structure, so therefore, the depletion date is considered to be immediate and the single equivalent discount rate is equal to the municipal bond rate. The municipal bond rate of 3.50% was used to determine the total pension liability for the program. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index.

SENSITIVITY OF THE CITY'S PROPORTIONATE SHARE OF THE NET POSITION LIABILITY TO CHANGES IN THE DISCOUNT RATE

The following table presents the sensitivity of the City's proportionate share of the net pension liability to changes in the discount rate. The sensitivity analysis shows the impact to the City's proportionate share of the net pension liability if the discount rate was 1.00% lower or 1.00% higher than the current discount rate at June 30, 2021.

	City's Proportionate Share of the Net Pension Liability (Asset)							
		1%		Current		1%		
		Decrease		Discount Rate		Increase		
Pension Plan		5.80%		6.80%		6.80%		7.80%
FRS	\$	683,592	\$	152,858	\$	(290,776)		
		1%		Current		1%		
		Decrease		Discount Rate		Increase		
Pension Plan		1.16%		2.16%		3.16%		
HIS	\$	69,818	\$	60,391	\$	52,668		

PENSION PLAN FIDUCIARY NET POSITION

Detailed information about the fiduciary net position of both benefit plans are available in the separately issued FRS Pension Plan and Other State Administered Systems Comprehensive Annual Financial Report.

Net pension liability	4,109,772	24,147,070	36,570,059		213,249	65,040,150
Pension expense (income)	(567,033)	2,168,148	(964,834)		(89,434)	546,847

NOTE 6 – OTHER POST-EMPLOYMENT BENEFITS

PLAN DESCRIPTION

The City of Deerfield Beach's Retiree Health Care Plan (Plan) is a single employer defined benefit postemployment health care plan that covers eligible retired employees of the City. The Plan, which is administered by the City, allows employees who retire and meet retirement eligibility requirements under one of the City's retirement plans to continue health and life insurance coverage as a participant in the City's plan. For purposes of applying Paragraph 4 under Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, the Plan does not meet the requirements for an OPEB plan administered through a trust.

Benefit Description and Funding Policy

The City provides a single employer defined benefit post-employment health insurance benefit to its general employees, firefighters and police officers who are members of the Deerfield Beach Municipal Police Officers' Retirement Trust Fund. The City offers three fully-insured PPO plans to retirees. The City pays the premiums for the retiree only until the age of 65. The retiree pays the premium for an optional Medicare Supplementary coverage offered to post-65 retirees. Spouses of retired participants are eligible to participate in the retiree health care plan. Coverage continues to surviving spouses of deceased retirees for firefighters only. Coverage is terminated for spouses of all other retirees upon the death of the retiree.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2021

NOTE 6 – OTHER POST-EMPLOYMENT BENEFITS (CONTINUED)

PLAN DESCRIPTION (CONTINUED)

Benefit Description and Funding Policy (continued)

Pursuant to Section 112.0801, Florida Statutes, general employees, firefighters and police officers who retire from the City may continue their participation in a City-sponsored health and/or dental insurance plan at the same premiums applicable to active employees. Since retiree claims are expected to result in higher costs to the plan, on average, than those for active employees on an actuarial basis, there is an implicit subsidy included in the premiums for the retirees.

Investments. The OPEB plan does not have a formal investment policy. The City uses the Pay-As-You-Go-Approach of funding to provide benefits to participants of the plan.

Benefits. Benefit provisions and City contribution requirements are established and may be amended by the City Commission. The City currently provides direct subsidies for certain retirees by paying a portion of the retiree's premium for individual coverage. As of September 30, 2019, there were 211 retired employees receiving a monthly benefit with an additional 357 eligible for participation in the future.

Employees Covered by benefit terms. As of September 30, 2020, the following employees were covered by the benefit terms:

Inactive plan members, or beneficiaries currently receiving benefits	196
Inactive plan members entitle to but not yet receiving benefits	
Active plan members	<u>318</u>
Total	<u>514</u>

SCHEDULE OF CHANGES IN TOTAL OPEB LIABILITY

The City's Total OPEB Liability (TOL) was measured as of September 30, 2020, and was determined by an actuarial valuation as of September 30, 2020. As of September 30, 2021, the reported TOL of \$27,020,635, represents 130% of the covered payroll. The components of TOL are as follows:

Balance at September 30, 2020	\$ 32,048,147
Changes for the Year	
Services cost	1,605,611
Interest	1,178,083
Differences between expected and actual	
experience	(3,348,371)
Changes in assumptions or other inputs	(2,956,680)
Benefit Payments	(1,506,155)
Net Changes	(5,027,512)
Balance at September 30, 2021	\$ 27,020,635
Covered Employee Payroll	\$ 20,782,600
City's Total OPEB liability as a % of Covered Payroll	130.02%

DISCOUNT RATE AND SENSITIVITY DISCLOSURES

Discount Rate

The City's OPEB plan does not have a GASB compliant trust; therefore, the discount rate equals the tax exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date.

A discount rate of 2.14% was used to measure the September 30, 2020 Total OPEB Liability. A discount rate of 2.14% was used for the beginning of the measurement period. These rates are based on the Fidelity 20-Year Municipal GO AA Index - daily rate closest or equal to but not later than the respective measurement dates.

ACTUARIAL ASSUMPTIONS AND OTHER INPUTS

The Total OPEB Liability was determined based on several actuarial assumptions using the Actuarial Cost Method. Total OPEB liability was calculated by an actuarial valuation as of September 30, 2020, with a measurement date of September 30, 2020, using the following assumptions, applied to all prior periods included in the measurement:

Measurement date	September 30, 2020
Actuarial valuation date	September 30, 2020
Inflation	2.50%
Salary increases	6.00%
Discount rate	2.14%
Projected salary increases	4.0% - 7.5%
Healthcare cost trend rates	7.5% based on the Getzen Model
Retirees' share of benefit-related costs	Retirees pay various portions of full blended
	premium for individual coverage

Discount rate – based on the Fidelity 20-Year Municipal GO AA Index

Mortality rates – All mortality rates were based on the Pub-2010 mortality tables with fully generational improvement using Scale MP-2018. Rates are based on those outlined in Milliman's July 1, 2019 Florida Retirement System (FRS) valuation report with appropriate adjustments made based on plan demographics.

STATEMENT OF OPEB EXPENSES AND DEFERRED OUTFLOWS/INFLOWS OF RESOURCES RELATED TO OPEB

Summary of Outstanding Deferred Inflows and Outflows of Resources Related to OPEB.

For the fiscal year ended September 30, 2021, the City reported deferred outflows and inflows of resources related to OPEB from the following sources:

	Deferred Outflows of	Deferred Inflows of
Description	Resources	Resources
Differences between actual and expected experience	\$	\$ 15,093,969
Changes of assumptions	932,221	3,121,523
Employer contributions subsequent to measurement date	883,204	
Total	\$ 1,815,425	\$ 18,215,492

VILLAGE OF PALM SPRINGS, FLORIDA

NOTES TO BUDGETARY COMPARISON SCHEDULE

FOR THE YEAR ENDED SEPTEMBER 30, 2021

NOTE 1 – STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

The City adopts annual operating budgets on a non-GAAP basis for the General Fund and the enterprise funds, as well as the following special revenue funds: Road and Bridge Tax Fund, Community Development Block Grant Fund, and the Community Redevelopment Agency Fund. The remaining special revenue funds are governed by grants with different fiscal periods and are funded at levels which the City has little control over or measurable knowledge of at the time it adopts the other budgets.

For budgetary control purposes, encumbrance accounting is utilized, whereas purchase orders, contracts and other financial commitments for expenditures are recorded in order to reserve that portion of the applicable appropriation. Encumbrances outstanding at year-end are reported as appropriations of fund balance, since they do not constitute expenditures or liabilities. Unless encumbered by a purchase order, the budget appropriations lapse at the end of each year.

At any time during the fiscal year, the City Manager may authorize a budget adjustment among the various line items within a department, as long as the total budget for the department does not change. Furthermore, if the City Manager certifies that there are revenues available for appropriation in excess of those estimated in the original budget, the City Commission may, by ordinance, make supplemental appropriations for the year up to the amount of such excess.

NOTE 2 – RECONCILIATION OF BUDGET TO ACTUAL

The City adopts annual budgets on a non-GAAP basis which includes encumbrances. Actual data, accounted for on a basis consistent with GAAP, is presented in the "Statement of Revenues, Expenditures, and Changes in Fund Balances – Governmental Funds." Actual data, accounted for on a non-GAAP basis, is presented in the "Budgetary Comparison Schedule – General Fund." Reconciliation of the actual data as presented in the aforementioned statements is shown below:

	GAAP Basis			Non GAAP

Methods and assumptions used to determine rates:

Actuarial valuation date	10/1/2020
Notes	Actuarially determined contribution are calculated as of October 1, one year prior to the end of the fiscal year in which contributions are reported.
Actuarial cost method	Entry age normal
Amortization method	Level dollar, closed
Remaining amortization period	The lesser of 20 years and the average future lifetime of the inactive participants
Asset valuation method	Restricted to 80% - 120% of market value, obtained by smoothing three years' past differences between actual investment earnings and assumed investment return, then adding this number on the current market value.
Inflation	N/A
Salary increases	N/A
Investment rate of return	6.50% compounded annually, net of investment related expenses
Retirement age	N/A
Mortality	Healthy Lives: Female: PubS.H-2010 (Above Median) for Healthy Retirees, set
	forward one year. Male: PubS.H-2010 (Above Median) for Healthy Retirees, set forward one year.
	Disabled Lives: 80% PubG.H-2010 for Disabled Retirees / 20% PubS.H- 2010 for Disabled Retirees.

NONMAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

Special revenue funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes.

Road and Bridge Tax Fund – to account for the proceeds from motor fuel tax revenues that are restricted to the maintenance and acquisition of roads and bridges.

Community Development Block Grant ("CDBG") Fund – to account for federal proceeds which are restricted as to the objectives of community development and revitalization.

State Housing Initiative Partnership ("SHIP") Grant Fund – to account for State funds received for providing assistance to very low, low and moderate-income households in becoming first time homebuyers or in rehabilitating their existing homes.

Miscellaneous Grants Fund – to account for federal, state and county monies restricted to expenditures for projects and programs which are outlined in the individual grant agreements.

Parking Deviation Fund – to account for impact fees collected from property owners, which fees are earmarked for construction of parking facilities within those areas from which the fees were collected.

General Trust Fund – to account for funds received as donations, which have been restricted as to expenditures for specified purposes.

Target Area Trust Fund – to account for monies collected from code violation fines and which have been designated for the rehabilitation of the Target Area within the City.

Beautification and Landscape Trust Fund – to account for tree removal fees, fines and private contributions designated for the preservation of trees within the City.

Crime Prevention Trust Fund – to account for penalties assessed on the violation of local ordinances, which funds are used to increase public awareness and acquire crime prevention tools such as informational brochures, audio visual aids and training of police officers and civilians involved in crime awareness and prevention.

Impact Fees Fund - to account for impact fees collected on new residential and commercial construction within the City.

Law Enforcement Trust Fund - a revolving fund established to account for a portion of the proceeds from the sale of property seized from illegal drug-related activities. Funds may be expended to defray certain qualified law enforcement costs.

Nuisance Abatement Assessment Fund - to account for fees collected for abating the nuisance condition of certain properties.

NONMAJOR GOVERNMENTAL FUNDS (CONTINUED)

DEBT SERVICE FUNDS

Debt Service Funds are used to account for resources accumulated and payments made for principal and interest on long-term debt of governmental funds.

General Obligation Debt Service Fund – to accumulate monies for payment of Series 2000A, and 2012 Florida Municipal Loan Council Revenue bonds, and Series 2018 Construction Revenue Bonds.

CAPITAL GRANTS PROJECTS FUNDS

Capital Grants Capital Projects Fund - used to account for the acquisition and construction of major capital improvements that are financed by grants from federal, state and local agencies.

PERMANENT FUNDS

Permanent Funds are used to report resources that are legally restricted to the extent that only earnings, not principal, may be used for purposes that support the reporting government's programs.

Perpetual Care Permanent Fund – to account for money received for the purpose of providing perpetual care for the City's cemeteries.

Capital Asset Statistics by Function	142

STATISTICAL SECTION (CONTINUED) (UNAUDITED)

This is part of the City of Deerfield Beach's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information reflect about the City's overall financial health.

Financial Trends

These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the City's most significant local revenue, property tax. Information about water and sewer rates is also included.

Debt Capacity

These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt as well as the City's ability to issue additional debt.

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.

Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial statements relate to the services that the City provides as well as the activities that the City performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

Subtotal, Overlapping Debt	1,408,812		873
Total Direct Debt and Overlapping Debt	\$ 69,078,837		\$ 67,670,898

⁽¹⁾ Debt outstanding data provided by each government unit.

Sources: Assessed value data used to estimate applicable percentages provided by the Broward County, Florida Property Appraiser.

Note: The computation of legal debt margin is not included in the statistical section, since neither the Florida statues nor the current ordinances of the City of Deerfield Beach specify a legal debt margin.

Overlapping debt includes only general obligation debt secured by ad valorem taxes as of September 30, 2021.

^{(3) \$4,350,000} of covenant bonds are secured by and payable from the Florida Power and Light Company electric franchise fees. The remaining balance of covenant bonds are payable from all governmental activities revenue sources of the City, except for ad valorem taxes.

^{*} Ratio of taxable assessed value in the City of Deerfield Beach to total Broward County assessed value.

Gross revenue for the purpose of determining debt service coverage, is equal to the sum of the operating revenues of the Water and Sewer Fund and total interest earnings.

Expenses, for the purpose of determining debt service coverage, are equal to the total operating expenses of the Water and Sewer Fund less depreciation and less the general administrative charge.

The debt service requirement for the Florida Municipal Loan Council Revenue bonds, Series 2008A is set forth in the tri-partite loan agreement between the City ("the Borrower"); Banc of America Public Capital Corporation ("the Purchaser"); and the Florida Municipal Loan Council ("the Issuer").

The debt service requirements for the State of Florida Drinking Water Revolving Loan, as well as the State's Water Pollution Control Financing Corporation revolving loans are set forth in the 'Clean Water State Revolving Fund Agreement' between the City and the State of Florida, Department of Environment Protection.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Honorable Mayor, City Commission, and City Manager City of Deerfield Beach, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Deerfield Beach, Florida (the "City"), as of and for the year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated June 24, 2022. Our report includes a reference to other auditors who audited the financial statements of the City of Deerfield Beach Municipal Firefighter's Pension Trust Fund, City of Deerfield Beach Non-Uniformed Employees' Retirement Plan and the City of Deerfield Beach Police Officer's Retirement Plan as described in our report on the City's financial statements. This report does not include the results of the other auditors' testing on internal control over financial reporting or compliance and other matters that are reported separately by those auditors.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify a deficiency in internal control, described in the accompanying schedule of findings and questioned costs as item SD 2018-002 that we consider to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

City's Response to Findings

The City's response to the findings identified in our audit are described in the accompanying schedule of findings and questions costs and corrective action plan. The City's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR THE MAJOR FEDERAL PROGRAM; REPORT ON INTERNAL CONTROL OVER COMPLIANCE; AND REPORT ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY THE UNIFORM GUIDANCE

To the Honorable Mayor, City Commission, and City Manager City of Deerfield Beach, Florida

Report on Compliance for the Major Federal Program

We have audited the City of Deerfield Beach, Florida's (the "City") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on the City's major federal program for the year ended September 30, 2021. The City's major federal program is identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal and state statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for the City's major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. *Code of Federal Regulations, Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance, require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal program. However, our audit does not provide a legal determination of the City's compliance.

Opinion on the Major Federal Program

In our opinion, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on the major federal program for the year ended September 30, 2021.

Report on Internal Control Over Compliance

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on its major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for its major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Purpose of this Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City as of and for the year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise the City's basic financial statements. We issued our report thereon dated June 24, 2022, which contained unmodified opinions on those financial statements. Our report includes a reference to other auditors who audited the pension trust funds, as described in our report on the City's financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance, and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

FOR THE YEAR ENDED SEPTEMBER 30, 2021

NOTE 1 – BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the "Schedule") presents the expenditure activity of all federal awards of the City of Deerfield Beach, Florida (the "City") for the year ended September 30, 2021. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations, Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the City, it is not intended to and does not present the financial position, changes in net position or cash flows of the City.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported in the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

NOTE 3 – INDIRECT COST RATE

The City has elected not to use the 10-percent de minimis indirect cost rate for federal programs allowed under the Uniform Guidance.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS (CONTINUED)

FOR THE YEAR ENDED SEPTEMBER 30, 2021

SECTION II – FINANCIAL STATEMENT FINDINGS

SIGNIFICANT DEFICIENCY

SD 2018-002 – Financial Close and Reporting (Repeat Finding)

Criteria

The City should follow its Accounting Policies and Procedures to ensure the financial statement closing process is completed in a timely manner.

Condition

The City is currently not performing its monthly and annual financial reporting closing process in a timely manner. We commenced audit fieldwork on January 20, 2020 for the audit of the year ended September 30, 2019, and many general ledger accounts were not properly reconciled or recorded. We commenced audit fieldwork on January 18, 2021 for the audit of the year ended September 30, 2020, and many general ledger accounts were not properly reconciled or recorded. This resulted in several entries subsequent to receiving the trial balances.

Cause

The City is not prioritizing the importance to adhere to the monthly and year-end closing procedures that have been established to ensure all transactions are properly captured and reported in the general ledger in a timely manner.

Effect

A lack of completing required closing procedures led to preliminary misstatements to the financial statements and a significant number of adjusting journal entries and reversal entries to be posted after the commencement of the audit.

Prior Year's Recommendation

We believe that the year-end closing could proceed more quickly and smoothly by developing a logical order for closing procedures and assigning responsibility for completing the procedures to specific City personnel. In order to make the financial reports generated by the accounting system as meaningful as possible, the City should reconcile the general ledger accounts on a monthly basis. A benefit of monthly reconciliations is that errors do not accumulate but can be identified and attributed to a particular period, which makes it easier to perform future reconciliations. Also, it provides for accurate and timely financial reports which are relied upon by City management for operational decisions.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS (CONTINUED)

FOR THE YEAR ENDED SEPTEMBER 30, 2021

SECTION II – FINANCIAL STATEMENT FINDINGS (CONTINUED)

SIGNIFICANT DEFICIENCY (CONTINUED)

SD 2018-002 – Financial Close and Reporting (Repeat Finding) (continued)

Prior Year's Views of Responsible Officials and Planned Corrective Actions

Management agrees with the recommendations and have taken steps to correct this deficiency. We have filled all but one position which recruitment has been delayed due to the COVID-19 response. With the new as well as seasoned staff, assignments have been delegated, schedules developed, and a monthly review process is in place.

Current Year Status

Due to various reasons, not limited to; a transition of management in the finance department and COVID-19, a timely close of annual financial reporting closing processes was not addressed in the current year. We commenced audit fieldwork phase on January 10, 2022 for the audit of the year ended September 30, 2021, and many general ledger accounts were not properly reconciled and several transactions were pending to be recorded. This resulted in several entries subsequent to receiving the trial balances and a delay in the completion of the audit procedures.

Current Year's Recommendation

We believe that the year-end closing could proceed more quickly and smoothly by developing a logical order for closing procedures and assigning responsibility for completing the procedures to specific City personnel. In order to make the financial reports generated by the accounting system as meaningful as possible, the City should reconcile the general ledger accounts on a monthly basis. A benefit of monthly reconciliations is that errors do not accumulate but can be identified and attributed to a particular period, which makes it easier to perform future reconciliations. Also, it provides for accurate and timely financial reports which are relied upon by City management for operational decisions.

II. PRIOR YEAR FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

None

MANAGEMENT LETTER IN ACCORDANCE WITH THE RULES OF THE AUDITOR GENERAL OF THE STATE OF FLORIDA

To the Honorable Mayor, City Commission, and City Manager City of Deerfield Beach, Florida

Report on the Financial Statements

We have audited the financial statements of the City of Deerfield Beach, Florida (the City), as of and for the year ended September 30, 2021, and have issued our report thereon dated June 24, 2022. We did not audit the financial statements of the Pension Trust Funds, which represent 94%, 95% and 85%, respectively, of the assets, net position/fund balance and revenues/additions of the aggregate remaining fund information.

Auditors' Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements of Federal Awards* (Uniform Guidance); and Chapter 10.550, Rules of the Auditor General.

Other Reporting Requirements

We have issued our Independent Auditors' Report on Internal Control over Financial Reporting and Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards*; Independent Auditors' Report on Compliance for the Major Federal Program; Report on Internal Control Over Compliance; and Report on Schedule of Expenditures of Federal Awards Required by Uniform Guidance; Schedule of Findings and Questioned Costs; Summary Schedule of Prior Audit Findings and Independent Accountants' Report on an examination conducted in accordance with *AICPA Professional Standards*, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports and schedules, which are dated June 24, 2022, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. The status of recommendations made in the preceding annual financial audit report have been addressed except as noted in the summary schedule of prior audit findings and in Appendix A to this report.

Official Title and Legal Authority

Section 10.554(1)(i)4., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. The information regarding the specific legal authority for the City and its component units is discussed in Note 1 to the financial statements.

Financial Condition and Management

Section 10.554(1)(i)5.a. and 10.556(7), Rules of the Auditor General, require us to apply appropriate procedures and communicate the results of our determination as to whether or not the City has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and to identify the specific condition(s) met. In connection with our audit, we determined that the City did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.554(1)(i)5.b. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures for the City. It is management's responsibility to monitor the City's financial condition, and our financial condition assessment was based in part on representations made by management and review of financial information provided by same. Our assessment was performed as of the fiscal year end.

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did have two recommendations identified as MLC 2020-002 and MLC 2021-001 which are included in Appendix A.

Special District Component Units

Section 10.554(1)(i)5.d., Rules of the Auditor General, requires, if appropriate, that we communicate the failure of a special district that is a component unit of a county, municipality, or special district, to provide the financial information necessary for proper reporting of the component unit within the audited financial statements of the county, municipality, or special district in accordance with Section 218.39(3)(b), Florida Statutes. In connection with our audit, we did not note any special district component units that failed to provide the necessary information for proper reporting in accordance with Section 218.39(3)(b), Florida Statutes.

Additional Matters

Section 10.554(1)(i)3., Rules of the Auditor General, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with our audit, please see Appendix A.

Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, federal, state and other granting agencies, the Mayor and the City Commission, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.

MLC 2021-001	Utility Billing – Solid Waste Rate		
No.	Prior Year's Observations		
MLC 2020-001	Utility Billing – Utility Tax Rate		X
MLC 2020-002	Solid Waste Fund Deficit Net Position	X	

APPENDIX A – CURRENT YEAR AND PRIOR YEARS RECOMMENDATIONS TO IMPROVE FINANCIAL MANAGEMENT (CONTINUED)

FOR THE YEAR ENDED SEPTEMBER 30, 2021

MLC 2021-001 -UTILITY BILLING - SOLID WASTE RATE

Criteria

All utility bills should be processed with the authorized rates listed in the appropriate Ordinance approved by City Commission.

Condition

During the utility billings and collections testing, the auditor noted one discrepancy, out of a sample of 25 selections tested, between the authorized solid waste rate being charged/billed to customers. Additional testing selections were made, and no further exceptions were identified. The exception related to the solid waste charge not being updated to reflect the most recent approve ordinance rate charged to a customer.

Cause

After discussion with the City and review of supporting documentation provided, it appears there was an error when updating the customer profile in the City's utility billing system and not activating the new solid waste rate charge for the particular account.

Effect

Improper billing rates could create "over-billing(s)" and "under-billing(s)"; in this case, an under billing in the amount of \$0.94.

Recommendation

Marcum recommends that an internal control be developed to ensure that accurate data is input into the utility billing system and that an internal review be performed to ensure the above discrepancy is an isolated instance. Authorized rates used by the Utility Billing Division, should be reviewed and compared against the corresponding ordinance(s). This should reduce the incidence of discrepancies between the authorized rates per approved ordinance and the rates charged/billed on City customer's utility bills.

Management's Response

See accompanying Corrective Action Plan.

APPENDIX A – CURRENT YEAR AND PRIOR YEARS RECOMMENDATIONS TO IMPROVE FINANCIAL MANAGEMENT (CONTINUED)

FOR THE YEAR ENDED SEPTEMBER 30, 2021

MLC 2020-002 – SOLID WASTE NET POSITION/FUND BALANCE DEFICIT

Criteria

Per Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements- and Management's Discussion and Analysis—for State and Local Governments*, paragraph 67, Enterprise funds should establish pricing policies that are designed to recover its costs, including capital costs (such as depreciation or debt service).

Condition

During the fiscal year ended September 30, 2021, it was noted that the Solid Waste fund had a deficit net position/fund balance of \$9,673,893. The Solid Waste fund has an ending deficit net position fund balance of \$11,800,689, \$7,403,536, \$9,418,532 and \$611,423 as of September 30, 2020, 2019, September 30, 2018 and September 30, 2017, respectively. Ending net position of the fund as of September 30, 2016 was a positive \$1,026,508.

Cause

This was due to solid waste utility rates not being sufficient to meet the increased personal and contractual service costs incurred by the solid waste fund during the year and previous years.

Effect

This could impact the City's bond ratings as well as other financial indicators. Enterprise funds distinguish between current and non-current assets and liabilities. It is possible to take advantage of this distinction to calculate working capital (i.e., current assets less current liabilities). The measure of working capital indicates the relatively liquid portion of total enterprise fund capital, which constitutes a margin or buffer for meeting obligations and considerations of future debt payments. It is essential that a government maintain adequate levels of working capital in its enterprise funds to mitigate current and future risks (e.g., revenue shortfalls and unanticipated expenses) and to ensure stable services and fees.

Recommendation

Marcum recommends that the City consider reviewing the solid waste rate charges to ensure future solid waste utility rates/revenues are sufficient in order to continue funding annual operating and maintenance costs, debt service, meet debt service coverage ratio requirements, eliminate the deficit and build/maintain a positive net position/fund balance.

Management's Response

See accompanying Corrective Action Plan.

INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE PURSUANT TO **SECTION 218.415 FLORIDA STATUTES**

To the Honorable Mayor, City Commission, and City Manager City of Deerfield Beach, Florida

We have examined the City of Deerfield Beach, Florida's (the "City") compliance with Section 218.415 Florida Statutes, Local Government Investment Policies for the year ended September 30, 2021. Management of the City is responsible for the City's compliance with the specified requirements. Our responsibility is to express an opinion on the City's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the City complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether the City complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgement, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Our examination does not provide a legal determination on the City's compliance with the specified requirements.

In our opinion, the City complied, in all material respects, with Section 218.415 Florida Statutes, for the year ended September 30, 2021.

This report is intended solely to describe our testing of compliance with Section 218.415, Florida Statutes, and it is not suitable for any other purpose.

Fort Lauderdale, FL

Marcune LLP

SD 2018-002 - Financial Close and Reporting (Repeat Finding)

Management agrees with the recommendations and has taken steps to correct this deficiency. Improvements done include ending the use of a 3rd party financial reporting software reducing the added layer of complexity and building on our partnership with the auditors in the development of the financial reporting. It was a lengthy labor-intensive process to make the conversion from the 3rd party software. With the conversion and reconciliations completed, we are not expected that workload effort going forward. In addition, the City has upgraded our financial systems of record during fiscal year 2022. Finally, improvements have been seen with the implementation of the Monthly Reconciliation Check List as per our Accounting Policies and Procedures Manual. Improvements in better organization, tracking, and monitoring of account reconciliations have been seen.

MLC 2021-001 – Utility Billing – Solid Waste Rate

Management acknowledges and is aware that the item resulted in a minor underbilling to the customer due to a data entry error. Management has implemented an internal control function where all rate adjustments are entered by the Revenue Collections Manager with review and sign-off by the Financial Services Manager. Financial Services Department is also collaborating with the Information Technology Department to develop the necessary reports to facilitate a more complete review and development of exception reporting.

MLC2020-002 - Solid Waste net position/fund balance deficit

Management acknowledges the condition of the Solid Waste Fund. During FY2022, the City contracted with a consulting firm to conduct a Solid Waste Rate Sufficiency Study to cover the need to maintain and replace assets, servicing new growth, while achieving and maintain a strong financial position. It will include multi-year operating expense projection along with a Capital Improvement Program Funding Plan. The study is slated to be completed towards the end of FY2022. Once the study is completed, management will propose steps to implement a multi-year funding plan that will include reducing the fund balance deficit.

IMPACT FEE AFFIDAVIT

BEFORE ME, the undersigned authority, personally appeared CFO, Stephanie Tinsley, who being duly sworn, deposes and says on oath that:

- 1. I am the Chief Financial Officer of the City of Deerfield Beach which is a local governmental entity of the State of Florida;
- 2. The governing body of the City of Deerfield Beach adopted Ordinances 2016/008 implementing an impact fee.
- 3. The City of Deerfield Beach has complied and, as of the date of this Affidavit, remains in compliance with Section 163.31801, Florida Statutes.

FURTHER AFFIANT SAYETH NAUGHT.

Chief Financial Officer, Stephanie Tinsley
