INTRODUCTORY SECTION

City of Eustis

P.O. Drawer 68 • Eustis, Florida 32727-0068 • (352) 483-5430

May 9, 2022

To the Honorable Mayor, City Commissioners, and Citizens of Eustis:

It is an honor to submit this Annual Comprehensive Financial Report (now known as the Annual Financial Report) for the City of Eustis (City) for the fiscal year ended September 30, 2021. The report fulfills the requirements set forth by City ordinance and State law, by the City Charter Article V, Florida Statutes Chapters 11.45 and 218, and the Rules of the Auditor General 10.550, which requires that all local governments publish each fiscal year a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited under auditing standards generally accepted in the United States by a firm of licensed, certified public accountants.

This Annual Comprehensive Financial Report consists of management's representations concerning the finances of the City. Consequently, management assumes full responsibility for the completeness and reliability of all the information presented in this report. To provide a reasonable basis for making these representations, the management of the City has established a comprehensive internal control framework that is designed both to protect the City's assets from loss, theft, or misuse and to compile reliable information for the preparation of the City's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the City's comprehensive internal controls framework has been designed to provide reasonable rather than an absolute assurance that the financial statements will be free from material misstatement. As management, we assert that this financial report is complete and reliable in all material respects to the best of our knowledge and belief.

According to Chapters 11.45 and 10.550, Florida Statutes require independent certified public accountants to perform an annual financial audit. The audit was completed by Purvis Gray and Company, LLP, a firm of licensed, certified public accountants who meet the additional requirements necessary to audit governmental units.

The goal of the independent audit was to provide reasonable assurance that the City's financial statements for the fiscal year ended September 30, 2021, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. The auditors expressed an opinion that the City's financial statements for the fiscal year ended September 30, 2021, are fairly stated in conformity with accounting principles in the United States. This is the most favorable conclusion, commonly known as an "unmodified" or clean opinion. The independent auditor's report is presented as the first component of the financial section of this report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in a Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the independent auditors' report.

Profile of the City

The City of Eustis is in Lake County, Florida, approximately 25 miles northwest of Orlando, Florida. The City's boundaries span over 12 square miles of gently rolling countryside and lakes, with a service area of approximately 26 square miles. The City was incorporated in 1883 and adopted its present charter in 1992. A Charter Review Committee made appropriate recommendations, which updated and streamlined the charter to current state statutes.

Lake County is part of the Orlando Metropolitan Statistical Area (MSA). The area comprises multiple counties, including Orange, Seminole, and Osceola. The inclusion of Lake County in the Orlando MSA indicates that most people live and work, earn, and spend money in this defined geographic area. The hub of this MSA is Orange County, and Lake County serves as a residential unit of the MSA.

The City, with an estimated population of 21,882, provides a full range of general municipal services, including:

- ✓ Building Inspections
- ✓ Code Enforcement
- ✓ Community and Economic Development
- ✓ Parks, Recreation, Library, and Cultural Affairs
- ✓ Police and Fire Protection
- ✓ Stormwater Management
- ✓ Street Maintenance, Traffic Engineering, and Parking
- ✓ Water and Wastewater Services

Internal support services include the following:

- ✓ Accounting and Financial Reporting
- ✓ Accounts Payable and Accounts Receivable
- ✓ Asset Management and Property Control
- ✓ Budget and Budget Monitoring
- ✓ Citywide Management
- ✓ Debt Management
- ✓ Treasury Management
- ✓ Facilities Management
- ✓ Human Resources, Labor Relations, and Risk Management
- ✓ Information and Computer Systems
- ✓ Procurement Services
- ✓ Public Relations

Solid waste disposal is provided under a franchise agreement and is performed by a private company. The present agreement will expire on December 31, 2024, in which the City will issue a request for proposal (RFP) for competitive bids.

In addition to the above activities, the City exercises oversight responsibility for the Community Redevelopment Agency. Accordingly, these activities are included in the reporting entity and reflected in Note 1 in the *Notes to the Financial Statements*.

The City utilizes a Commission/Manager form of government. Five Commission members are elected to staggered four-year terms. Each year the Commission chooses a new Mayor and Vice Mayor from the existing group of Commissioners. Elections are held on the first Tuesday after the first Monday in November, and the winners take a seat during the first meeting in January.

The City Manager is a full-time position appointed by the Commission and serves as the City's Chief Executive/Administrative Officer. The City Manager, per the charter, appoints both the Finance Director and the City Clerk. Once the City Manager appoints these positions, the City Commission must also approve the positions. The charter authorizes departments for Finance, Police, Fire, Water, Sewer, and Public Works. Other departments may be established by ordinance upon recommendation of the City Manager. A Director shall head each department, subject to the discretion of the City Manager.

The annual budget serves as the foundation for the City's financial planning and control. All City departments are required to submit requests for appropriations to the City Manager. The City Manager uses these requests to develop the proposed budget. The City Commission must approve amendments to the budget. The staff prepares a resolution for any increase in expenditures to amend the budget.

The City Manager presents the proposed budget to the City Commission for review no less than forty-five (45) days before the expiration of each fiscal year. The City Commission must hold two (2) public hearings on the proposed budget and adopt a final budget no later than September 30th, the close of the City's fiscal year. The appropriated budget is prepared by fund, function, and department. Budgets for all governmental fund types are adopted consistent with generally accepted accounting principles. Budget-to-actual comparisons are provided for each governmental fund.

The City also prepares a five-year Capital Improvement Plan, reviewed and updated annually. The Five-Year Capital Improvement Plan provides a City-wide plan for utility improvements, equipment replacements, and projects related to growth. The plan details the development of revenue projections and capital needs assumptions. The Sales Tax Capital Projects Fund revenue provides many improvements that benefit the community, such as infrastructure, police and fire vehicles, equipment, and parks and recreation enhancements.

Budgeted revenue and operating expenditures are currently very conservative and calculated based on the most recent history for revenue with a modest increase in expenditures. In addition to the general assumptions, each department estimates the workforce and equipment necessary to maintain adequate service levels. The City currently maintains a healthy unassigned fund balance in the General Fund of 11.3 million, which is 96.5% of the total fund balance, including an emergency contingency of \$0.4 million.

As stated above, the City develops multi-year forecasts for the major funds and capital improvement plan. Some of the key projects reflected in the capital improvement plans are:

- ✓ Multiple Community Park improvements, including the finalization of Ferran Park
- ✓ Street rehabilitation, including sealing and resurfacing projects
- ✓ Library facility maintenance and computer upgrades
- ✓ City-wide Information Technology Upgrades
- ✓ Water and sewer improvements
- ✓ Public Safety vehicle replacement program
- Improvements to buildings
- ✓ Major Equipment upgrades in Public Works

1

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when considered from the broader perspective of the specific environment within which the City operates.

Local economy – The local economy has hit a stumbling block with the rise in the COVID-19 pandemic and its various variants. Fortunately, revenues have continued to rise. For the past several years, the assessed taxable value of the real and personal property has increased. This year's tax value of \$1,273,908,216 compared to the previous year of \$1,199,556,839 represents an increase of 6.1%.

In addition, the unemployment rate for the County fell from 7.4% to 4.3% as of September 2021.

The City's tax base is primarily residential, as evidenced by the number of utility accounts served. With over 13,000 utility accounts, the City also maintains over 800 commercial accounts. This proportion illustrates that the City is more of a bedroom community for the Orlando MSA. Based on these facts, the City has addressed its needs for the future, recognizing that the direction has shifted from an agricultural community to one that is substantially residential.

The State of Florida has found the City's Comprehensive Plan, mandated under the state growth management regulations, to comply with the statutory requirements. The plan's objective is to address the needs of a predominantly residential sector with provisions for light commercial and industrial sectors and to establish a well-rounded community that serves the needs of the citizens. This plan reinforces and sets the future direction of the City.

Based on current and future needs outlined in the Comprehensive Plan, the City has identified and established appropriate projects and funding sources to complete the goals. A State Revolving Loan and a Revenue Bond provide funding for the immediate needs for water, sewer, and other infrastructure. The City adopted impact fees for water, sewer, recreation, police, fire, and library services.

The City adopted new Land Development Regulations (LDRs) in 2008, and the Commission adopted amendments in 2015, 2016, 2017, and 2019. The LDRs set forth requirements for density, open space, and compatibility. The City has established a Joint Planning Area with the County and provides review and comment on any County projects in that designated area. New development in the unincorporated area of the Joint Planning Area requesting water service must either annex into the City or sign an annexation agreement with the City to develop by the City standards.

The remainder of the page is intentionally left blank

Long-term financial planning

Major Initiatives

During the fiscal year 2021, several major projects were completed or started to transform the City in the future. Listed below are items of interest.

- The City has a Police Department vehicle replacement program for vehicles over seven years with a cost-benefit analysis of functionality versus service and repairs. This year the City acquired four Ford Interceptors with funds provided by the Sales Tax Capital Project fund.
- Each year, the money is set aside to address the constant need to upgrade the street's sidewalks (\$554,850). The City is one of the few entities in Lake County with the equipment and personnel to perform most of the work in-house, thereby providing the most excellent value for the dollars spent. The remaining projects under the general government needs of the City totaled \$1,030,321.
- The City provides economic incentives for constructing multi-family, mixed-use, and non-residential property within the Community Redevelopment Area (CRA) and in all other areas of the City. Projects with a value of more than \$500,000 are eligible. The incentive is 2% of the construction value with a maximum of \$30,000. If the project is within the CRA, an additional 2% may be used with a maximum voucher of \$60,000. The credit vouchers may be applied to the cost of impact fees, building permits, and other city fees associated with the new construction. Recently, the program provided incentives for constructing the Valencia Grove housing project.
- Upgrades of primary equipment needs such as equipment replacements, water, sewer line upgrades, storage tanks, and engineering for the wastewater treatment facilitates occur annually. Major projects still in development are the Umatilla interconnection for sewer lines, which should be completed in 2021-22, and the expansion of the Main Waste Water Treatment Plant, which will start in earnest sometime in 2021-22.

The City will achieve its mission <u>to create a superior quality of life by engaging and partnering</u> <u>with the community to provide financially prudent and customer-friendly services</u> through efficient organization and utilization of resources.

Awards and Acknowledgements – The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement of Excellence in Financial Reporting to the City for its Annual Comprehensive Financial Report for the fiscal year ended September 30, 2020. This was the 32nd consecutive year that the City had received this prestigious award. The City published an easily readable and efficiently organized annual report to be awarded a Certificate of Achievement. This report satisfied both GAAP and applicable legal requirements. Due to the staff illness in FY 2021, the City received approval of the extension for the submittal of the report, thereby delaying the notification of the report results.

A Certificate of Achievement is valid for one year only. The staff believes that the current annual report continues to meet the Certificate of Achievement Program's requirements and will submit it to the GFOA to determine its eligibility for another certificate.

The City received the GFOA's Award for Distinguished Budget Presentation for its annual financial plan for the fiscal year 2020-21 budget was submitted and accepted. This was the seventh year the City has received this prestigious award. To qualify for the Distinguished Budget Presentation Award, the City's budget document was judged proficient in several categories, including policy documentation, financial planning, organization, and a communication medium. We expect to continue to achieve this distinction.

The preparation of this report would not have been possible without the efficient and dedicated services of the entire staff in Finance. We want to express our appreciation to all members of the department who assisted and contributed to the preparation of this report. We also thank the Mayor and the Commissioners for your support in maintaining the highest standards of professionalism in managing the City's finances.

Respectfully submitted,

honor Carin fr.

AUDITOR'S REPORT MANAGEMENT DISCUSSION AND ANALYSIS BASIC FINANCIAL STATEMENTS FUND FINANCIAL STATEMENTS

PURVIS GRAY

INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and City Commissioners City of Eustis Eustis, Florida

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Eustis, Florida (the City) as of and for the year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

CERTIFIED PUBLIC ACCOUNTANTS Gainesville | Ocala | Tallahassee | Sarasota | Orlando | Lakeland | Tampa purvisgray.com Members of American and Florida Institutes of Certified Public Accountants An Independent Member of the BDO Alliance USA Honorable Mayor and City Commissioners City of Eustis Eustis, Florida

INDEPENDENT AUDITOR'S REPORT

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City as of September 30, 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of changes in net pension liability and related ratios, schedule of proportionate share of net pension liability, and schedule of contributions, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on management's discussion and analysis, budgetary comparison information, schedule of changes in net position liability and related ratios, schedule of proportionate share of net pension liability and schedule of contributions, because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, combining and individual non-major fund financial statements and budgetary schedules, and statistical section, are presented for the purpose of additional analysis, and are not a required part of the basic financial statements.

The combining and individual non-major fund financial statements, the non-major fund budgetary schedules, were derived from, and relate directly to, the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual non-major fund financial statements, and the non-major fund budgetary schedules, are fairly stated in all material respects in relation to the basic financial statements as a whole.

Honorable Mayor and City Commissioners City of Eustis Eustis, Florida

INDEPENDENT AUDITOR'S REPORT

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued a report dated May 6, 2022, on our consideration of the City's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Purvis Gray

MANAGEMENT DISCUSSION AND ANALYSIS

Management's Discussion and Analysis

The City of Eustis discussion and analysis is designed to provide an objective and accessible read overview of the City's financial activities focusing on significant financial achievements and issues, as well as identifying material deviations from the adopted budget, changes in the City's financial position (its ability to address the current and subsequent year challenges), and individual fund issues or concerns.

The Management's Discussion and Analysis (MD&A) focuses on the current year's activities, resulting in changes and currently known facts. The information contained within the MD&A should be considered only as a part of the City's Annual Financial Report.

As management of the City of Eustis, we offer readers of the City's financial statement this narrative overview and analysis of the City's financial activities for the fiscal year ended September 30, 2021. We encourage readers to consider the information presented in the City's financial statements.

Financial Highlights

The assets and deferred outflows of resources of the City exceeded its liabilities and deferred inflows of resources at the close of the fiscal year 2021 by \$121,757,263 (net position). Of this amount, \$10,665,719 (unrestricted net position) may be used to meet the government's ongoing obligation to citizens and creditors.

The City's net position increase is \$6,673,867, of which governmental activities net position increase is \$4,438,382, and proprietary funds net position increase is \$2,235,485.

On September 30, 2021, the City's governmental funds reported a combined ending fund balance of \$18,357,522, an increase from the total fund balance of \$3,744,992 from the prior year. Contributing to the increase in fund balance was the growth of revenue due to lifting COVID-19 restrictions and a decrease in operating expenditures in the General Fund. The increase in net revenues is in Street Improvements, Community Redevelopment, Stormwater Utilities, Sales Tax Capital Projects, Law Enforcement Trust, and Impact Fee funds; the decrease in current year operating expenditures are in the Building Services, Law Enforcement Education, Economic Development, and Library Contribution funds.

Compared with the previous fiscal year, the City's capital assets decreased by \$841,132, with business-type activities contributing to a decrease in capital assets of \$210,766. Governmental activities are responsible for a \$630,366 reduction. Most of the decrease in government-type activities is due to furniture and equipment disposals. \$1,115,203 of governmental improvements have been made over the fiscal year 2021, such as Commission Chamber complete renovation, Ferran Park - phase 4 finalization, Eustis Mobility Plan additions, Police department various improvements, Fire Station 22 renovations, Buena Vista Dr., and Exeter St. stormwater drainage reconstructions, CRA street rehabilitations, and tree planting, and Lake Eustis seawall improvements. \$2,376,217 of business-type improvements have been made: Haselton storage tank rehabilitation reclaimed water improvements, Main WWTP extensions, Ardice tower hydro tank and ground storage installations, Umatilla interconnection additions, Woodward sewer system, and Sprayfield pumps transfers. At the same time, business activities include purchasing water meter replacements and chemical feed systems, and water pump service equipment for the Water and Wastewater departments. In addition, as a part of business-type activities, Sprayfield land has been sold in the fiscal year 2021 at the price of \$1,061,664, with a profit of \$674,502.

The City's total long-term debt decreased by \$1,478,884. Governmental long-term debt decreased by \$361,422, and business-type activities' long-term debt decreased by \$1,117,462. The decrease in governmental and business-type activities is due to regularly scheduled debt service payments.

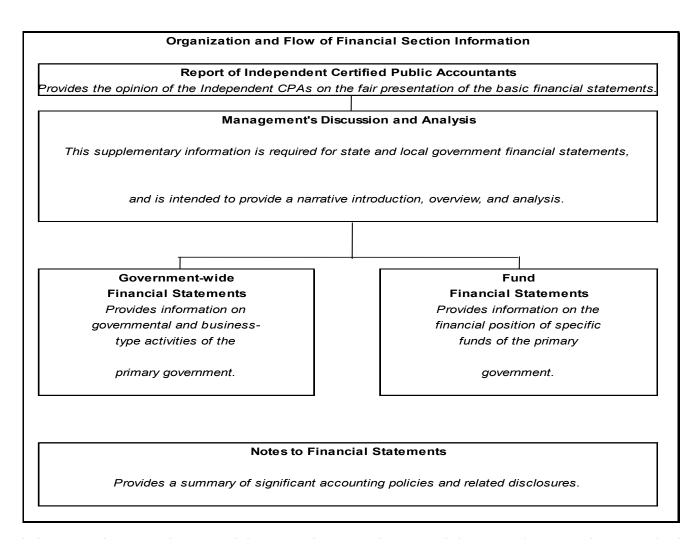

Overview of the Financial Statements

The discussion and analysis are intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements consist of three components:

- 1. Government-wide financial statements.
- 2. Fund financial statements.
- 3. Notes to the financial statements.

The primary financial statement presents two different views of the City through the presentation of government-wide statements and fund financial statements. In addition to the basic financial statements, this report contains other supplemental information that will enhance the reader's understanding of the financial condition of the City of Eustis.

Table 1: Organization and Flow of Financial Section Information

Government-wide financial statements - The government-wide financial statements are designed to provide readers with a broad overview of the City's finances like a private sector business. The government-wide statements provide short and long-term information about the City's financial status.

The <u>Statement of Net Position</u> presents information on all the City's assets, liabilities, and deferred outflows and inflows with the difference between the two reported as net position. Over time, an increase or decrease in net position may indicate whether the City's financial position is improving or deteriorating.

The <u>Statement of Activities</u> shows how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the time of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave). Both government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (government activities) from other operations intended to recover all or a significant portion of their costs through user charges in business-type activities. The governmental activities of the City include:

- 1. General Government
- 2. Public Safety
- 3. Physical Environment
- 4. Transportation (Streets & Highways)
- 5. Culture and Recreation

The business-type activities of the City include the Water and Sewer Utility Fund. Solid waste is franchised to an independent contractor.

The government-wide financial statements do not include any component units which would be reported separately. The City does, however, have three blended component units. These are represented as part of the audited financial statements of the City. The units include the Fire and Police retirement funds and the City of Eustis Community Redevelopment Trust Fund, also known as the Community Redevelopment Area (CRA), including Downtown and East Eustis.

Fund financial statements – The fund financial statements provide a more detailed look at the City's most significant activities. A fund is a grouping of related accounts used to maintain control over resources that have been segregated for specific activities or objectives. Like other state and local governments, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All funds of the City can be divided into three categories:

- 1. Governmental Funds
- 2. Proprietary Funds
- 3. Fiduciary Funds

Governmental Funds – Governmental funds account for those functions reported as governmental activities in the government-wide financial statements. Most of the City's essential services are accounted for in governmental funds. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources and the balance of spendable resources available at the end of the fiscal year. Such information may help evaluate a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is helpful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. The governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains twelve individual governmental funds. Information is presented separately in the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, four special revenue funds, and one capital projects fund, considered major funds. Data from the other six funds are combined into a single, aggregated presentation. Individual fund data for each non-major governmental fund is provided by combining statements elsewhere in this report.

The City adopts an annual appropriated budget for its General Fund, special revenue funds, and capital projects fund. The Annual report has provided a budgetary comparison statement to demonstrate compliance with this budget.

Proprietary Funds – The City maintains only one type of proprietary fund. Enterprise funds report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its Water and Sewer System operations.

Proprietary funds provide the same information as the government-wide financial statements, only more detailed. The proprietary fund financial statements provide information for the Water and Sewer System, which is considered a major fund of the City.

Fiduciary Funds – Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's programs. The accounting for fiduciary funds is similar to proprietary funds. The fiduciary funds include pension trust funds for police and fire.

Notes to The Financial Statements – The notes provide additional information essential to a complete understanding of the data provided in the government-wide and fund financial statements.

Other Information – In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City's required contributions to provide pension benefits to its employees and post-employment benefits (OPEB).

The combined statements with non-major governmental funds are presented following the required supplementary information on pensions and OPEB.

Official statistical information that provides quantitative or qualitative information on all major areas of the City of Eustis community, such as economic and social development, living conditions, water and wastewater usage and rates, taxes, education, and the environment, can be found at the end of this report.

Government-Wide Financial Analysis Statement of Net Position

As noted earlier, net position may serve as a valuable indicator of a government's financial position. In the fiscal year, September 2021, assets exceeded liabilities by \$121,757,263 at the close of the year. It exceeds the previous fiscal year's positive increase by \$6,673,867. The table below reflects the condensed government-wide Statement of Net Position.

Table 2: Statement of Net Position

The most significant portion of the City's net position reflects its investment in capital assets (e.g., land, buildings, infrastructure, and improvements other than buildings, vehicles, and equipment), less any related debt used to acquire such assets. Net investment in capital assets is \$95,811,454; it represents 78.69% of the total net position. The City uses these capital assets to provide various services to its residents. Accordingly, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources since the capital assets themselves cannot be used to liquidate these liabilities.

A restricted net position of \$11,731,764 reflects the net position that an outside third party restricts as to its use. The most significant restrictions for governmental activities include net for capital projects based on the voterapproved one-cent sales tax legislation and net position restricted for community development due to collection within the City's Community Redevelopment district. Business-type activities include debt-related restrictions on net positionfor renewal and replacement and restricted net position for capital projects for impact fees collected but not spent.

The unrestricted net position of \$14,214,044 is available to be used to meet the City's ongoing obligation to citizens and creditors.

Figure1: Revenues by Source

The most significant revenue source for governmental activities continues to be property taxes which represent 38% of total governmental activity revenue. State shared revenues as a second considerable revenue source compile 26.3%. State shared revenues include sales tax revenue, state intergovernmental revenue, and grants. Charges for services are the third significant City revenue source, 12.8% of the exact total. Other revenue sources are highlighted in the chart below.

Governmental activities increased the City's net position by \$4,438,381. The elements of change in net position are as follows:

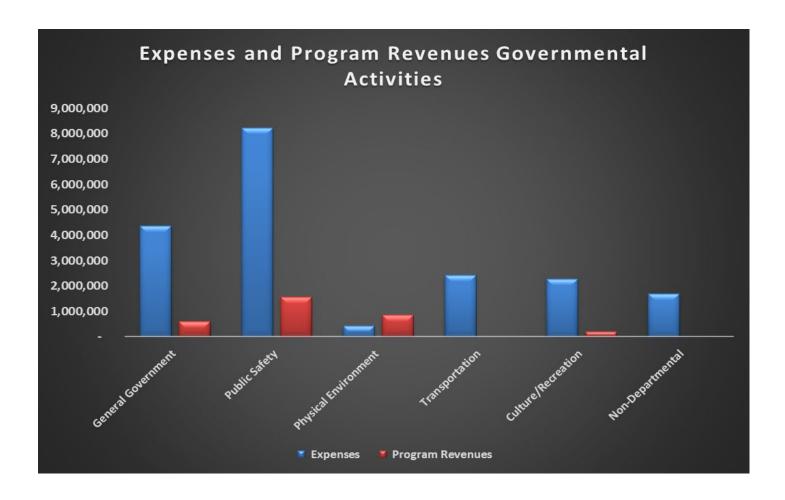

Property taxes increased by \$483,693, mainly due to an increase in taxable assessed values.

Utility tax and Franchise fees increased by \$56,600, due to the City community's conservative use of utilities during COVID-19. Investment income decreased by \$73,699.

Due to various City events and projects, miscellaneous income increased by \$56,730. The City did not receive any Capital Grants in the fiscal year 2021. Operating Grants and Contributions increased by \$373,472 from the prior year. This increase is related to grant funding for COVID-19 or other emergency protective measures. Unrestricted Intergovernmental Revenue decreased by \$450,210.

Figure 2: Expenses and Program Revenues

Expenses for governmental activities include General Government, Public Safety, Physical Environment, Transportation, Culture and Recreation, and Non-Departmental expenses. Public Safety is the most significant governmental expense. This provides law enforcement and fire control. As presented in the chart below, program revenues do not cover the cost of providing governmental activity services.

Total City governmental expenses reflect a total decrease of \$3,071,408 or 13.68% over the prior year's expenses, see Table 4.

General Government demonstrates a decrease of \$884,925 – 16.83%, Public Safety of \$2,051,256 – 19.98%, and Transportation shows a reduction of \$357,400 – 12.93%. The decrease in Transportation expenditures is due to a decrease in new street projects during 2021. CRA street rehabilitation is a part of the transportation project that has been completed by 98%. The Culture and Recreation Department reflects a decrease of \$474,661 – 17.28% due to the finalizing of the Ferran Park - Phase 4 project. The Physical Environment increased by \$18,756.

Governmental		2021	<u>2020</u>		Change				
Activities	\$	431,974	\$ (3,157,583)	\$	3,589,557				

Business-Type Activities

Business-type activities increased the City's net position in 2021 by \$2,235,485. The difference in net position results from an increase in charges for services of \$72,562, and capital grants and contributions increase by \$850,606, which includes the sale of the land at \$1,061,664, with a profit of \$674,502. Miscellaneous revenues increased by \$54,651, offset by a \$66,565 decrease in changes in investment income. The expense also decreased by \$668,181 compared to the fiscal year 2020.

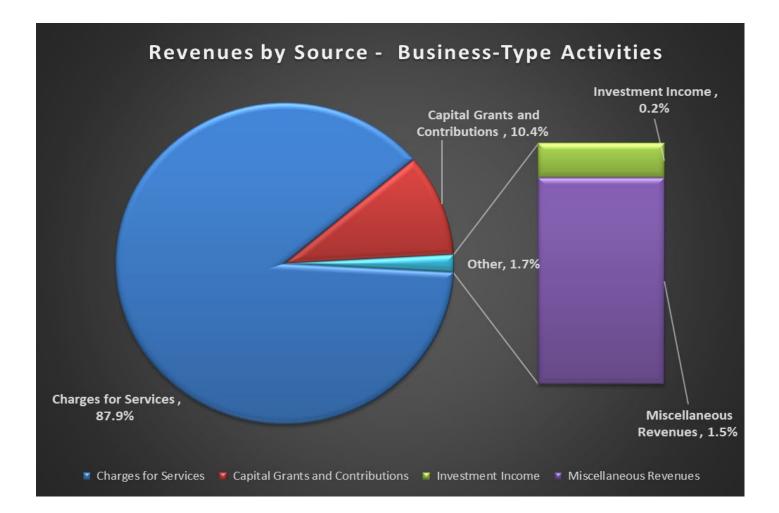

Figure 3: Revenue – Business -Type Activities

The most significant revenue for business-type activities is Charges for Services. This is a characteristic trait of enterprise funds that the charges for services cover the cost of operations. The City implemented a rate increase effective June 1, 2021, resulting in an annual 2.5% increase to cover operations following five years. A Water utility rates study needs to be performed every five years as a part of a five-year economic review of City development. Table 6 shows a change in business-type activities compared to the previous fiscal year.

Financial Analysis of The City's Funds

Governmental Funds

The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of usable resources. Such information helps assess the City's financing requirements.

The City's most significant governmental fund is the General Fund. The General Fund is the primary operating fund of the City. At the end of 2021, the total fund balance equaled \$11,729,134. Of this amount, \$11,323,261 or 96.54% is unassigned and can be used to meet the government's obligations.

The General Fund has restricted the assigned fund balance for Emergency Contingency to \$405,873. The current year, the total fund balance is increased by \$2,250,013. This increase is attributable to property tax revenue as taxable assessed values have increased along with state sharing revenues.

The City has five other major governmental funds: Street Improvement, Sales Tax Capital Projects, Community Redevelopment, Building Services, and Stormwater Utility Fund. The fund balance increased for the Street Improvement Fund by \$621,181. Building Services' fund balance decreased by \$82,708, offset by a Stormwater Utility increase of \$77,864. Sales Tax Capital Projects fund balance increased by \$554,867. The fund balance increased in the General Fund by \$2,250,013. The Community Redevelopment fund balance increased by \$352,727, which is on the approximate increase level as the prior year. Other Non-Major governmental funds decreased by \$28,953 because \$38,963 has been transferred to the General Fund from the Library Contribution fund to keep library fines and fees accounted for in the General Fund. The net result was a cumulative increase of \$3,744,992 for major and non-major funds.

The Street Improvement Fund was established to account for gas tax revenues brought in from the state and county to make repairs and maintain streets and roads owned by the City. The most significant expenditures are grounds, street maintenance, and street lighting. Transportation expenditures of \$1,423,843 exceeded gas tax revenues of \$807,661 and transfers in of \$885,000 increasing fund balance to \$328,509.

The Community Redevelopment Fund was established to revitalize downtown and east town improvements. The funding source is an incremental increase in property values in these areas. Tax revenue increased by \$45,256 over revenue reported for fiscal 2020. The most significant expenditure related to the Downtown development and sidewalk rehabilitation is the land purchased in the fiscal year 2020, three blocks right in the heart of the City of Eustis Downtown. This land purchase increased the total capital outlay in the prior year. The City has a five-year balloon loan with annual principal and interest payments. In FY 2021, this amount was \$198,148.

The Building Services Fund was established in 2019 to account for resources related to building activity within the City. Revenue in this fund, generated by permits and fees for construction occurring during the year, reached \$595,820; COVID-19 economic challenges increased this amount by \$104,240 compared to the prior year's building construction permit collections. Expenditures of \$678,528 primarily consist of personal and contractual services procured to provide plan review and building inspection services; the total fund balance decreased by \$82,708 because of the total increase in spending of \$228,538.

The Stormwater Utility Fund accounts for the recurring billing of utility customers within the City. Total expenditures of \$514,006 included Buena Vista Dr., Exeter St., and stormwater drainage improvements. The fund's most significant non-capital expenditures were street sweeping and drainage maintenance. The fund balance increased by \$77,864, reflecting a current fund balance of \$740,513.

The Sales Tax Capital Projects Fund accounts for projects authorized by the one-cent sales tax assessed on retail sales. The more significant capital expenditures during 2021 included: Ferran Park Improvements, Ardice ground storage tank assembling, Ardice tower hydro tank installation, Umatilla interconnection additions, Haselton generator replacement, and Eleven Oaks new subdivision water lines development and installation, as well as Eustis Mobility Plan execution along street resurfacing. Overall, the fund balance increased by \$554,867, with expenditures decreasing by \$1,920,867 compared to the prior year providing an ending fund balance of \$1,427,062.

Other Non-Major Governmental Funds accounts include nine funds: Law Enforcement Trust and Education Fund, Economic Development Fund, Library Contributions Trust Fund, Impact Fee Fund, and Greenwood Cemetery Fund. In 2021 fund balance is decreased by \$28,953, with expenditures greater than the prior year by \$76,652, resulting in a current balance of \$1,218,551.

Proprietary Funds

The City's proprietary fund provides the same information found in the government-wide financial statements but in more detail. The City's Water and Wastewater fund had a net position of \$53,066,033 on September 30, 2021, increasing \$2,235,485 from the prior year. This increase in net position results from an increase in Charges for Services of \$72,562. An increase related to Capital Grants and Contributions of \$850,606 results from the Sprayfield land sale of \$1,061,664. An increase in miscellaneous revenues of \$54,651 was offset by a decrease in investment income decrease of \$66,565. Additionally, one influencing factor was a decrease in expenses of \$668,181. The most significant portion of the net position is the net investment in capital assets, \$37,303,559. The restricted net position of \$5,850,564 represents impact fees and repair and replacement projects. At the end of the year, the unrestricted net position was \$9,911,910, and funds are available to be expended by legislative appropriation for functions authorized in the provisions of law that established the fund.

General Fund Budgetary Highlights

The adopted and final budgets are the same in the fiscal year 2021. The table below identifies the changes from the original budget to the final budget.

Table	9:	Budgetary	Analysis
-------	----	-----------	----------

	<u>Ori</u> g	ginal Budget	Final Budget	<u>Ch</u>	ange
General Government	\$	4,571,435	\$ 4,571,435	\$	-
Public Safety		8,905,184	8,905,184		-
Transportation		-	-		-
Culture/Recreation		2,022,130	2,022,130		-
Non-Departmental		1,105,000	1,105,000		-
Capital Outlay / Other		161,500	161,500		-
	\$	16,765,249	\$ 16,765,249	\$	-

		Actual			
	<u>E</u> >	<u>cpenditures</u>	Fi	nal Budget	<u>Viriance</u>
General Government	\$	3,934,606	\$	4,571,435	\$ (636,829)
Public Safety		7,886,359		8,905,184	(1,018,825)
Transportation		-		-	-
Culture/Recreation		1,719,301		2,022,130	(302,829)
Non-Departmental		1,621,720		1,105,000	516,720
Capital Outlay / Other		160,907		161,500	\$ (593)
	\$	15,322,893	\$	16,765,249	\$ (1,442,356)

On-behalf payments are not budgeted and are offset by a corresponding increase in revenue. All funds reflect expenditures less than budget. The overall decrease between the final budget and actual expenditures of \$1,442,356 reflects a reduction of the expenses due to Police and Fire pension funds rate slight decrease in 2021 and several position vacancies and difficulties in hiring in Public Safety departments; 2020-21 capital projects carryovers, and various repair and maintenance in Public Works. Non-departmental expenditures increased by \$516,720 due to increased insurance and risk management costs.

Capital Assets

The City's investment in capital assets for its governmental and business-type activities as of September 30, 2021, amounts to \$109,233,943 (net of accumulated depreciation). This investment in capital assets includes land, infrastructure, construction work in progress, buildings, equipment, park facilities, and roads. The total net decrease in the City's investment in capital assets for the current year was \$841,133. This decrease is attributable to the land sale in business-type activities and furniture and equipment disposal as the city expands its water and sewer systems and upgrades lift stations. See Note 4.

Table 11: Long Term Debt

Economic Factors and Next Year's Budgets and Rates

Looking forward to FY 2022, the City anticipates continued improvement in the economic environment. According to the US Federal Reserve, the unemployment rate for Lake County is 4.3%, which is slightly lower than the national rate of 4.7%. Economic factors are vital, with the average median price of homes at \$315,101; it is a 16% increase over the past year.

Building permits are a crucial indicator of construction activity. The issuance of building permits continues to increase; approximately 2,101 permits were issued in 2021 and 1,908 in 2020, which is a 10% increase in building permits. This growth and increased property values have allowed the City to maintain its millage rate while providing high-quality services.

On July 1st, 2021, an annual 2.5 % utility rate increase was implemented. However, other City rates for City services have remained the same. Through prudent fiscal management in FY 2021, the City Commission was able to continue the trend of balancing budgeted revenues against expenditures in the General Fund.

The city comprises real property, personal property, and centrally assessed property. The taxable value of such property increased 5.84% compared to the previous year. Compared to Leesburg, Tavares, and Mount Dora, with a similar population, Eustis has fewer dollars to distribute due to a residential market with fewer commercial owners. However, the City has maintained a millage rate of 7.5810 for the past several years while maintaining and providing services to the community.

Listed below is a comparative view of per capita taxable value by city:

Table 12: Taxable Value by Capita Comparison

<u>Town</u>	Population 2021	<u>Final Taxable</u> Value 2021	<u>%</u> <u>Change</u> <u>from</u> <u>2020</u>	<u>Per Capita</u> <u>Taxable</u> Value 2021
Eustis	21,882	1,223,418,659	6.29%	55,910
Leesburg	27,000	1,707,674,882	6.80%	63,247
Mount Dora	15,455	1,387,806,063	6.14%	89,797
Tavares	18,436	1,136,789,454	7.68%	61,661

Compared with major Lake County adjacent towns and steady annual population growth, the City of Eustis keeps the lowest taxable value per capita. This trend is desirable for citizens, and we are expecting a further dynamic population increase that leads to future revenue sources review.

Other factors to be considered in preparing the 2022-23 budgets for the City include:

- A desire to maintain the current millage rates while providing quality services.
- Increases in the funding of the Police and Fire Pensions.
- Market pay and merit adjustments for City employees.
- Maintaining a robust Capital Improvement Plan to meet the needs of Eustis' residents.

Requests for Information

This financial report is designed to provide a general overview of the City of Eustis's finances for all those interested in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to:

City of Eustis Mike Sheppard, Finance Director P.O. Drawer 68 Eustis, FL 32727-0068 Phone: (352) 483-5440 www.eustis.org

BASIC FINANCIAL STATEMENTS

The basic financial statements include integrated sets of statements as required by the GASB. The sets of statements include:

Government-Wide Financial Statements

Fund Financial Statements:

Government Funds

Proprietary (Enterprise) Funds

Fiduciary Funds

In addition, the notes to the financial statements are included to provide information that is essential to the user's understanding of the basic financial statements.

Note 1 - Description of Funds and Summary of Significant Accounting Policies

The financial statements of the City of Eustis (the "City") have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. Significant City accounting policies are described below.

A. The Reporting Entity

The City was incorporated in 1883 under the laws of the State of Florida and operated under the council-manager form of government under its charter adopted under the "Municipal Home Rule Powers Act" as defined in Florida Statutes, Chapter 166. The original charter was effective on January 1, 1958, and became law without the Governor's approval. The City Charter was adopted by Florida Chapter 57-1314 and amended by ordinances 91-74 and 94-04 adopted by referendum on March 11, 1992, and April 6, 1994.

The legislative branch of the City is composed of a five (5) member elected Commission, which includes a Citywide elected Mayor. The City Commission is governed by the City Charter and state and local laws and regulations. The City Commission is responsible for the establishment and adoption of the policy. The execution of such an approach is the responsibility of the Commission-appointed City Manager.

Police Officer's and Firefighter's Pension Plan

The City contributes to the Police Officers' and Firefighters' Pension Plan (POFPP) on behalf of its police officers and firefighters. The plan is a single-employer defined benefit plan established by the City ordinance and Florida State Law. It is administered by the Plan's Board of Trustees comprised of two commission appointees, two members of the POFPP is elected by the membership, and one member is elected by the other four Members and appointed by the City Commission. The POFPP is included in the accompanying financial statement as a fiduciary component unit reflected as a Pension Trust Fund.

City of Eustis Community Redevelopment Trust Fund

The accompanying financial statements present the City and its component unit, which is financially accountable. The City has only one composite component unit, the Community Redevelopment Trust Fund (CRA). CRA is a blended component unit; it is legally separated in substance but also it is a part of the City's operations. The City created the Downtown and East Town Redevelopment Agency in December 1990 with a base year value of \$36,752,072. In May of 2018, the area was expanded with an additional base year value of \$343,092. The CRA is an incremental tax district established by Florida Statutes Chapter 163 to finance and redevelop the City's designated redevelopment areas. Even though the CRA is a legally separate entity, it is reported as part of the City because the City Commission also serves as the CRA Board. The Commission reviews and approves the CRA's budget, provides funding and performs all accounting functions for the CRA. The CRA's services benefit the City by supporting the City's redevelopment in the designated community redevelopment areas. The CRA has been presented as a blended component unit, classified as a major special revenue fund but is also the subject of a separate audited financial report. The CRA audited financial report is available from: 10 N Grove Street, Eustis, FL 32726.

Note 1 - Description of Funds and Summary of Significant Accounting Policies (Continued)

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all the non-fiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which generally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely significantly on fees and charges for support.

The Statement of Activities demonstrates the degree to which program revenues offset the direct expenses costs of a given function or segment. *Direct expenses* are those that are identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Internal service activity of the City has been eliminated from the government-wide financial statements. Other interfund activity, namely overhead charges absorbed by the General Fund and allocated amongst the City's additional funds, is reported as revenue in the fund providing the service or incurring the cost to be distributed and is reported as an expense in the funds receiving the service or incurring the allocable share of the overhead charge.

The City's fiduciary funds are presented in the fund financial statements. Since, by definition, these assets are being held for the benefit of a third party (pension plan participants) and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements.

Separate financial statements provide for governmental funds, enterprise funds, and the pension trust fund. The pension trust fund is excluded from the government-wide financial statements. Major individual governmental and enterprise funds are reported in separate columns in the fund financial statements.

The remainder of the page was intentionally left blank.

Note 1 - Description of Funds and Summary of Significant Accounting Policies (Continued)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

1. Government-wide Financial Statements

The government-wide financial statements report uses the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund financial statements. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Revenues recognize property taxes in the year levied. Grants and similar items are recognized as soon as all eligibility requirements imposed by the provider are met.

2. Fund Financial Statements

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered available when they are collectible within the current period or shortly after the current period's liabilities are paid.

For this purpose, the government considers revenues available if collected within 60 days of the end of the current fiscal period.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures and expenditures related to compensated absences and claims and judgments are recorded only when payment is due.

Property taxes, franchise fees, and interest associated with the current fiscal period are susceptible to accrual and are recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is susceptible to accrual as revenue of the current period. All other revenue considered measurable is cash once the City receives it.

The City reports the following major governmental funds:

- The *General Fund* is the City's primary operating fund. It accounts for the City's financial resources except those required to be accounted for in another fund.
- The *Street Improvement Fund* is a special revenue fund to account for the City's share of motor fuel tax revenues legally restricted to street maintenance programs.
- The Community Redevelopment Trust Fund is a special revenue fund to account for the activity within the special revenue district established. The revenue on the incremental property value is since the fund's establishment in 1990.

Note 1 - Description of Funds and Summary of Significant Accounting Policies (Continued)

- The Building Services Fund is a special revenue fund to account for revenues and expenditures associated with enforcing the Florida Building Code, per F.S. §553.80 (7) (a) (b).
- The Stormwater Utility Fund is a special revenue fund that accounts for monthly fees assessed against residential and commercial properties to provide stormwater management programs.
- The Sales Tax Capital Projects Fund accounts for financial resources of the one-cent infrastructure sales tax to be used for the acquisition or construction of major capital facilities, vehicles, or equipment.

The City reports the following major enterprise fund: An enterprise fund may be used to report any activity for which fees are charged to external users for goods or services.

The Water and Wastewater Utility System Fund account for the financial activities of the City's water and sewer treatment and distribution operations and the funding and payment of related debt.

Additionally, the City reports the following non-major fund types:

- The Special Revenue Funds account for the proceeds of specific revenue sources that are legally restricted to expenditure for specified purposes.
- The Pension Trust Funds account for the activities of the City's Police Officers' and Firefighters' Pension Plan accumulates pension benefit payments to qualified police and fire employees. They are excluded from the government-wide financial statements are fiduciary and do not represent resources available for operations.

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* revenues and expenses. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The main operating revenues of the City water and sewer utility system fund are charges to customers for sales and services. Operating expenses for enterprise funds include sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, the City's policy is to use restricted resources first and then unrestricted resources, as they are needed for their intended purposes.

Note 1 - Description of Funds and Summary of Significant Accounting Policies (Continued)

D. Assets, Liabilities, and Fund Equity

Cash, Cash Equivalents, and Investments

Cash and cash equivalents include cash on hand, demand deposits, and short-term investments with an original maturity date within three months of the date acquired by the government. Governmental fund investments, proprietary fund investments, and pension fund investments are reported at fair market value by GASB 72, *Fair Value Measurement and Application*. Accordingly, the change in fair value is recognized as an increase or decrease in investment assets and investment income.

Except for the pension fund investments, the City's investments include certificates of deposit and U.S. Treasury notes with maturities at purchase more significant than one year. The certificates of deposit are recorded at cost plus accrued interest. There was no concentration of credit risk on September 30, 2021.

Receivables

Property Taxes Receivable

Under Florida law, the assessment of all properties and the collection of all county, municipal, and school board property taxes are consolidated in the offices of the Lake County Property Appraiser and Lake County Tax Collector.

The State's laws regulating tax assessments are also designed to assure a consistent property valuation method statewide. State Statutes permit municipalities to levy property taxes at a rate of up to 10 mills. The City's millage for 2021 was 7.5810 mills. All real and tangible personal property taxes are due and payable on the levy date of November 1 of each year or as soon as the assessment roll is certified by the Lake County Property Appraiser (levy date). Lake County (the "County") mails to each property owner on the assessment roll a notice of the taxes due, and the County collects the taxes for the City. Taxes may be paid upon receipt of such notice from the County, with discounts at the rate of four percent (4%) if paid in November, three percent (3%) if paid in December, two percent (2%) if paid in January, and one percent (1%) if paid in February. Taxes paid during March are without discount, and all unpaid taxes on real and tangible property become delinquent on April 1 (the lien date) of the year following the year in which taxes were assessed. Procedures for collecting delinquent taxes, including applicable tax certificate sales, are provided for by the Laws of Florida.

Accounts Receivable

The operating revenues of the Water and Sewer Utility System Fund are generally recognized based on monthly cycle billings. Revenues for services delivered during the last month of the fiscal year that has not been read by September 30 are accrued based on meter readings for the applicable consumption taken at the beginning of October and billed in October. The Water and Sewer Utility System uses the allowance method of bad debt recognition. All receivables are shown net of an allowance for accounts of \$ 1,353,081 on September 30, 2021.

Note 1 - Description of Funds and Summary of Significant Accounting Policies (Continued)

Assets, Liabilities, and Fund Equity (Continued)

Listed below is the allowance for doubtful accounts:

	Water & Sewer			
	General	Utility System	Stormwater	
FY 2021	Fund	Fund	Fund	Total
Allowance for Doubtful Accounts	\$130,317	\$ 1,112,858	\$133,898	\$1,377,073

Inventories

Inventories are valued at cost using the first-in, first-out method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

Prepaid

Certain payments to vendors that reflect costs applicable to future accounting periods are recorded as prepaid items in government-wide and fund financial statements.

Restricted Assets

Specific provisions of debt resolutions and City policies restrict the uses of certain assets of the enterprise fund. These assets are restricted from paying the general obligations of the fund. Assigned assets are identified as restricted assets on the Statement of Net Position.

Capital Assets

Capital assets include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items. They are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Property, plant, and equipment with initial, individual costs equal to or exceeding \$5,000 and estimated useful lives of over one year are recorded as capital assets. Roads, bridges, and sidewalks are capitalized when their initial costs equal or exceed \$25,000 and possess estimated useful lives of more than one year. Purchased or constructed, capital assets are recorded at historical or estimated historical costs. Donated capital assets are recorded at the acquisition value at the date of donation.

Significant outlays for capital assets, and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of major business-type activities is included as part of the capitalized value of the assets constructed.

Note 1 - Description of Funds and Summary of Significant Accounting Policies (Continued)

Assets, Liabilities, and Fund Equity (Continued)

Capital asset purchases are recorded as capital outlay expenditures in the fund level governmental funds in the year of acquisition.

Property, plant, and equipment are depreciated using the straight-line method over the following estimated useful lives:

	Useful Lives
Buildings	10-40 Years
Land Improvements	15-40 Years
Equipment	3-40 Years
Infrastructure	15-40 Years

Expenditures for repairs and maintenance are expensed when incurred. Additions, major renewals, and replacements that increase the useful lives of the assets are capitalized.

Amortization of Bond Discounts and Premiums

In the Water and Sewer Utility System Fund, bond discounts and premiums are amortized over the life of the bonds using the straight-line method. In the governmental funds, these costs are recorded as other sources or used when bonds are issued. Issuance costs are expensed at the time of debt issuance.

Compensated Absences

The City's policy permits employees to accumulate earned but unused vacation and sick pay benefits. Upon termination in good standing, the employee can receive a cash benefit for the number of days accrued at the employee's current wage rate. The City records compensated absences in governmental funds only if they have matured, as expenditures accrued during the year would typically be liquidated with expendable, available financial resources. The City accrues compensated absences in the period earned in the government-wide and enterprise fund financial statements.

On-Behalf Payments for Fringe Benefits

The City receives on-behalf payments from the State of Florida for the Police Officers' and Firefighters' Retirement Plan Contributions. On-behalf payments to the City total \$292,417 for the fiscal year ended September 30, 2021. These payments are currently recorded as revenue in the Pension Trust Fund.

Other Postemployment Benefits

The City's policy allows retirees to participate in its employee health and life insurance programs. The City accrues other post-employment benefits liability for the cost of providing those benefits in the government-wide and enterprise fund financial statements based on actuarial measurement annually.

Note 1 - Description of Funds and Summary of Significant Accounting Policies (Continued)

Assets, Liabilities, and Fund Equity (Continued)

Net Pension Liability

In the government-wide and proprietary statements, net pension liability represents the present value of projected benefit payments to be provided through the cost-sharing and single-employer defined benefit pension plans to currently active and inactive employees that is attributed to those employees' past periods of service (total pension liability), less the amount of the pension plan's fiduciary net position. To measure the net pension liability, deferred outflows of resources and deferred inflows of resources related to pension plans, pension expense, information about the net fiduciary position, and additions to/deductions from the net fiduciary position have been determined on the same basis as the plans report them, for this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable by the benefit terms. Investments are reported at fair value. The City allocated the net pension liability, deferred outflows for pensions, deferred inflows for pensions, and pension expense to funds and functions/activities based on their respective contributions made to the pension plans during the measurement year.

Deferred Outflows and Inflows of Resources

In addition to assets, the statement of financial position reports a separate section for deferred outflows of resources. This individual financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and will not be recognized as an outflow of resources (expense/expenditure) until then. The deferred outflows of resources reported in the City's statement of the net The position represents differences between expected and actual economic experience, changes in actuarial assumptions, the net difference between projected and actual earnings on investments, changes in the proportion and differences between the City's contributions and proportionate share of contributions, and the City's contributions after the measurement date, relating to the City's defined benefit pension plans. The city also has deferred outflows of resources due to the implementation of GASB 75 related to the OPEB Plan. These amounts will be recognized as expenses in future years.

In addition to liabilities, the statement of financial position reports a separate section for deferred inflows of resources. This individual financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time the deferred inflows of resources reported in the City's statement of net position represent the difference between expected and actual economic experience and changes in the proportion and differences between the City's contributions and proportionate share of contributions relating to the City's defined benefit pension plans. The city also has deferred inflows of resources due to the implementation of GASB 75 related to the OPEB Plan. These amounts will be recognized as reductions in expenses in future years.

Note 1 - Description of Funds and Summary of Significant Accounting Policies (Continued)

Assets, Liabilities, and Fund Equity (Continued)

Fund Balances

The City adopted a policy that will set aside funds for maintaining sufficient working capital. This is approximately equal to two to three months of operating expenses. The 25% balance set aside will be calculated as a percentage of ordinary operating expenses not inclusive of debt service, capital outlay, and other financing use. This amount is required to cover short-term cash flow variations, economic downturns, and emergencies. The City Commission will also approve an amount set aside for contingencies such as catastrophic events or unforeseen losses through insurance or litigation as part of the annual budget process.

The City has classified governmental fund balances as follows:

Non-spendable: This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact. The City has donations to the Library Trust Fund, maintaining the principal. Only the interest earnings may be used.

<u>Restricted</u>: This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation. The City has classified Fines and Forfeitures are restricted because State Statute limits their use for police investigative expenditures.

The redevelopment funds are restricted to a City's designated area and are exclusive to that area alone. Infrastructure Projects are restricted by State Statute and County laws and are legally segregated to fund infrastructure improvements. Other funds are restricted to library operations and other specific developer agreements obligating funds to a particular use.

Committed: This classification includes amounts that can be used only for specific purposes under constraints imposed by formal action of the City Commission. These amounts cannot be used for any other purpose unless the City Commission removes or changes the specified use by taking the same type of action (ordinance) employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been committed explicitly for use in satisfying those contractual requirements.

Assigned: This classification includes amounts constrained by the City's intent to be used for a specific purpose but is neither restricted nor committed. The City Commission can express this intent or delegate this responsibility to the City manager through the budgetary process. This classification also includes monies allocated to future fiscal years to weather the current economic crisis.

<u>Unassigned</u>: This classification includes the residual fund balance for the General Fund and the amount established for Minimum Funding, representing the portion of the General Fund balance established by Resolution 11-59, as amended throughout the year by resolutions needed.

Note 1 - Description of Funds and Summary of Significant Accounting Policies (Continued)

Revenues, Expenditures, and Expenses (Continued)

A. Revenues, Expenditures, and Expenses

Interest Income

Interest income resulting from cash pooling in a master bank account is allocated to the respective fund based on its proportionate share.

Capital Contributions

Subsidies to proprietary funds, which finance either capital or current operations, are recorded as non-operating revenue when earned. The City's policy requires the restriction of all money collected as impact fees. These fees represent a capacity charge for the proportionate share of the cost of expanding, oversizing, separating, or constructing new additions to the water and sewer system. The City is obligated to expend these funds only to expand the system's capacity.

Deposits received that reserve capacity in the City's future water and sewer facilities are recorded as a liability upon receipt. After completion of all legal requirements as stipulated by the City's water and sewer treatment policy, the money is recorded as non-operating revenue in the year the requirements are met. The City has pledged impact fees to meet expansion bond debt service requirements, and any additional revenue (by bond covenant) is set aside as a restriction of net position to be used for either further system expansion projects or principal repayment.

Interfund Transactions

Interfund services provided and used are accounted for as revenues, expenditures, or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are adequately applicable to another fund are recorded as expenditures/ expenses in the fund reimbursed. All interfund transactions are reported as transfers (see Note 11).

Note 2 - Stewardship, Compliance, and Accountability (Continued)

Budgetary Requirements

The following procedures were used to establish the budgetary data reflected in the financial statements:

- 1) By August of each year, the City Manager submits to the City Commission a proposed operating budget for the fiscal year commencing the following October 1.
- 2) Two public hearings were held to obtain taxpayer comments.
- 3) Before October 1, the budget is legally enacted through a resolution.
- 4) Budgets are legally adopted, and formal budgetary integration is employed as a management control device during the year for the General Fund, all Special Revenue funds, and the pension trust funds. The budget adopted for the Enterprise fund is derived in compliance with debt covenants.
- 5) Budgets for the governmental funds are adopted consistent with generally accepted accounting principles (GAAP). The budget for the enterprise fund is adopted on a non-GAAP basis to reflect the budget versus actual information related to "operations and maintenance" as defined in bond covenants.
- 6) The City Commission must approve any revisions that alter the total appropriations of any fund. The classification detail at which expenditures may not legally exceed appropriations is at the total fund level. During the fiscal year ended, various appropriations were approved by this policy. Budgeted amounts shown in the financial statements are adopted and can be amended. However, amendments were nominal and did not significantly change the originally adopted budget.

In addition to the legal requirements discussed above, the Commission has adopted management control and approval guidelines for expenditures and budget amendments. Critical components of these management guidelines are as follows:

- 1) The City Commission must approve transfers of budgeted amounts between funds.
- 2) A department director may transfer funds up to \$5,000 within the department's operating capital accounts.
- 3) No expenditure of encumbrance may occur without a sufficient budgetary balance.

The City uses encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of funds, are recorded to reserve that portion of applicable appropriation. Encumbrances represent commitments related to unperformed contracts for goods or services. Most operating encumbrances outstanding at year-end are canceled.

The Sales Tax Capital Projects Fund expenditures exceeded the budget for 2021, utilizing revenues greater than expected. This timing difference will be corrected in future years.

Note 3 - Cash, Cash Equivalents, and Investments

Cash and Cash Equivalents

The Florida Security for Depositors Act identifies those financial institutions that have deposited the required collateral in the name of the treasury of the State of Florida as qualified public depositories. The City places deposits only with qualified public depositories. Either FDIC or Florida's Multiple Financial Institution Collateral Pool ensure all cash. Therefore, all deposits of the City are fully insured and collateralized. The amount of deposits (cash and cash equivalents) on September 30, 2021, is \$36,834,240.

Investments

The City's investment policy states that it may invest surplus public funds in any authorized instruments provided in Florida Statutes 218.415(16). Authorized investments include the following:

- The Local Government Surplus Funds Trust Fund or any intergovernmental investment pool authorized under the Florida Interlocal Cooperation Act, as provided in Section 163.01.
- Securities and Exchange Commission registered money market funds with the highest credit quality rating from a nationally recognized rating agency.
- Interest-bearing time deposits or savings accounts in qualified public depositories, as defined in Section 280.02.
- Direct obligations of the U.S. Treasury.
- Federal agencies and instrumentalities.

Note 3 - Cash, Cash Equivalents, and Investments (Continued)

Fair Value of Investments

The City measures and records its investments using fair value measurement guidelines established by generally accepted accounting principles. These guidelines recognize a three-tiered fair value hierarchy, as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan can access.

Any asset with an actively traded daily closing price will be classified as a Level 1 input.

Level 2: Inputs are inputs (other than quoted prices included within Level 1) observable for the asset or liability, either directly or indirectly. Inputs to the valuation of the entire term of the asset or liability.

As a rule, if an asset or liability does not fall into the requirements of a Level 1 or Level 3 input, it would default to Level 2. With Level 2 inputs, data can be easily obtained to support the valuation, even though it is not as easily obtained as a Level 1 input.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

As a rule, Level 3 inputs are difficult to obtain on a regular basis and it requires verification from an outside party, such as an accountant or an appraisal, to validate the valuation.

Debt and equity securities categorized as Level 1 are valued based on prices quoted in active markets for those securities. Debt securities classified as Level 2 are valued using a matrix yield curve that values securities based on their relationship to benchmark quoted prices and credit spreads. Equities categorized as a Level 2 are valued using a multifactor model, including price, sector indices, and currency fluctuations.

Debt and equity securities classified in Level 1 are valued using prices quoted in active markets for those securities. Currently, the City does not have any debt obligations classified in Level 3.

Note 3 - Cash, Cash Equivalents, and Investments (Continued)

On September 30, 2021, the City had recurring fair value measurements.

Note 3 - Cash, Cash Equivalents, and Investments (Continued)

Credit Risk

Credit risk is the risk of loss due to the failure of the security issuer. The City's investment policy limits the investments to obligations with the highest credit quality ratings. Ratings for debt securities are displayed in the above schedule. The State of Florida 185.06 and 175.06 has a provision regarding investments which states for bonds and stocks that the corporation is listed on any one or more of the recognized national stock exchanges or the National Market System of the NASDAQ Stock Market and, in the case of bonds only, holds a rating in one of the three highest classifications by a primary rating service. Investment ratings are from Moody's Investors Service, Inc., and Standard and Poor's Ratings Group.

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that own an outside party. The Government National Mortgage Association (GNMA) investments of the City and the City's pension investments are held in the name of the counterparty, not in the name of the City.

Interest Rate Risk

Interest rate risk exists when there is a possibility that changes in interest rates could adversely affect an investment's fair value. The weighted average maturity of the City's investments is displayed in the above schedule. The City evaluates securities for other- thantemporary impairment every quarter and more frequently when economic or market concerns warrant. Consideration is given to the length of time and the extent to which the fair value has been less, than the cost, the financial condition and near-term prospects of the issuer, and the intent and ability of the City to retain its investment in the issuer for a period enough to allow for any anticipated recovery in the fair value. In analyzing an issuer's financial condition, the City considers whether the federal government or its agencies issue the securities, whether downgrades agencies by bond, rating the results of reviews of the issuer's financial condition. The City has no formal policy concerning interest rate risk.

The Concentration of Credit Risk

The City's non-pension holdings at U.S. Bank (USB) contain approximately 8.92% of total investments. The breakdown comprises securities at 4.57%, money market account at .25%, and government-guaranteed bonds (Gennie Mae) of 4.10%. As the investments mature, the money is deposited into the City master account at TD Bank, which is highly liquid and offers interest rates that range from 1.52% to 2.42%. Certificate of Deposits is held by banks that are qualified public depositories of the State of Florida. Currently, the City has three Certificates of Deposit with a maturity of less than one year.

Foreign Currency Risk - the City is not exposed to this type of risk.

Note 4 - Capital Assets

Capital asset activity for the year ended September 30, 2021, was as follows:

Governmental Activities Latinucu Increases Decrements Calification Gapital Assets Not Being Depreciated: Land \$ 7,009,501 \$ 1,964 \$ - \$ \$ 7,011,465 Infrastructure - Retention Ponds 1,946,578 - - 1,946,578 Construction in Progress 334,208 749,296 (258,839) 884,666 Construction in Progress 335,007,505 Capital Assets Not Being Depreciated: 33,015,003 751,261 (258,839) 844,666 Buildings 1,386,546 - - 13,886,546 - 13,886,546 Improvements Other Than Buildings (177,042) 35,378,849 - - 13,886,546 Improvements Other Than Buildings (19,77,042) (307,566) - (2,224,608) - - (2,224,608) - - 13,886,5139 - - (2,224,608) - (2,224,608) - (2,224,608) - (2,224,608) - (2,224,608) - (2,224,608) - (2,224,608) - (2,224,608) - (2,22		I	Beginning Balance		Increases	r	Decreases		Ending Balance

Note 5 - Pension Plans

General Employees

The City has multiple pension plans for its employees. The general employees are currently participating in two plans. Employees hired on or before December 31, 1995, participate in the Florida Retirement System (FRS), a multiple-employer, cost-sharing public employee retirement system. Employees hired after December 31, 1995, participate in a defined contribution plan. The costs of administering the plans are paid for with investment earnings.

City of Eustis Section 401 Defined Contribution Plan

In 1995, the State of Florida allowed a one-time opt-out of the Florida Retirement System for all new employees. The City Commission elected to opt-out of FRS, and enacted an ordinance that established a 401A Defined Contribution Plan. Empower Retirement is the plan administrator. Payments are made bi-weekly. The effective date of the plan was January 1, 1996.

- Eligibility Full-time employees are enrolled immediately, and part-time employees become participants of the plan after six months of service. There is no minimum age requirement.
- **Participants** There were 168 participants in the plan for the fiscal year ended September 30, 2021.
- Benefit Compensation means total compensation paid during the plan year except for bonuses. The compensation for the fiscal year ended September 30, 2021, was: Defined Contribution Plan - \$903,675; FRS - \$1,277,841.
- **Forfeitures** Shall be applied to future employer contributions.
- Employer Contributions 6% of covered payroll is mandatory for general employees. Total contributions for the fiscal year ended September 30, 2021, were: Defined Contribution Plan - \$393,221; FRS – \$60,167;
- Employee Contributions The general employee requires a mandatory contribution of 4%. The contributions are pre-taxed. Contributions for the fiscal year ended September 30, 2021, were: Defined Contribution Plan \$262,147; FRS \$8,943;
- Normal Retirement This is the date the participant attains age 62 and shall not exceed the date the participant reaches the age of 65.
- **Early Retirement** None.
- Vesting Schedule 0 through 4 years 0%, 5 years 100% or 100% at age 62.
- Distributions Participants may request immediate distribution upon termination. If not vested, participants receive only what they have contributed to the plan.

Note 5 - Pension Funds (Continued)

Miscellaneous - Loans are allowed under the 401A plan. However, the amount is limited to the number of the participants' contributions and a minimum of \$1,000. Repayment is limited to five years and is repaid bi-weekly via payroll deductions. Transfers from other qualified plans are allowed.

Florida Retirement System

General Information - The City participates in the Florida Retirement System (FRS). As provided by Chapters 121 and 112, Florida Statutes, the FRS offers two costsharing, multiple-employer defined benefit plans administered by the Florida Department of Management Services, Division of Retirement, including the FRS Pension Plan ("Pension Plan") and the Retiree Health Insurance Subsidy ("HIS Plan"). Under Section 121.4501, Florida Statutes, the FRS also provides a defined contribution plan ("Investment Plan") alternative to the FRS Pension Plan, which is administered by the State Board of Administration ("SBA"). The FRS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefits are established by Chapter 121, Florida Statutes, and Chapter 60S, Florida Administrative Code. Amendments to the law can be made only by an act of the Florida State Legislature.

The State of Florida annually issues a publicly available financial report that includes financial statements and required supplementary information for the FRS. The latest available report may be obtained by writing to the State of Florida Division of Retirement, Department of Management Services, P.O. Box 9000, Tallahassee, Florida 32315-9000, or from the Web site:

www.dms.myflorida.com/workforce_operations/retirement/publications.

- Plan Description The Pension Plan is a cost-sharing multiple-employer defined benefit pension plan, with a Deferred Retirement Option Program ("DROP") for eligible employees.
- Benefits Provided Benefits under the Pension Plan are computed based on age, average final compensation, and service credit. Pension Plan members enrolled before July 1, 2011, regular class members who retire at or after age 62 with at least six years of credited service or 30 years of service regardless of age are entitled to a retirement benefit payable monthly for life, equal to 1.6% of their final average compensation based on the five highest years of salary, for each year of credited service. Vested members with less than 30 years of service may retire before age 62 and receive reduced retirement benefits.

Special Risk Administrative Support - class members who retire at or after age 55 with at least six years of credited service or 25 years of service regardless of age are entitled to a retirement benefit payable monthly for life, equal to 1.6% of their final average compensation based on the five highest years of salary, for each year of credited service.

Note 5 - Pension Funds (Continued)

Special Risk - class members (sworn law enforcement officers, firefighters, and correctional officers) who retire at or after age 55 with at least six years of credited service, or with 25 years of service regardless of age, are entitled to a retirement benefit payable monthly for life, equal to 3.0% of their final average compensation based on the five highest years of salary for each year of credited service.

Senior Management Service - class members who retire at or after age 62 with at least six years of credited service or 30 years of service regardless of age are entitled to a retirement benefit payable monthly for life, equal to 2.0% of their final average compensation based on the five highest years of salary for each year of credited service.

Elected Officers' - class members who retire at or after age 62 with at least six years of credited service or 30 years of service regardless of age are entitled to a retirement benefit payable monthly for life, equal to 3.0% (3.33% for judges and justices) of their final average compensation based on the five highest years of salary for each year of credited service.

For Plan members enrolled on or after July 1, 2011, the vesting requirement is extended to eight years of credited service for all these members and increasing normal retirement to age 65 or 33 years of service regardless of age for Regular, Senior Management Service, and Elected Officers' class members, and to age 60 or 30 years of service regardless of age for Special Risk and Special Risk Administrative Support class members. Also, the final average compensation for all these members will be based on the eight highest years of salary.

As provided in Section 121.101, Florida Statutes, if the member initially enrolled in the Pension Plan before July 1, 2011, and all service credit accrued before July 1, 2011, the annual cost-of- living adjustment is three percent per year. If the member initially enrolled before July 1, 2011, and has service credit on or after July 1, 2011, there is an individually calculated cost-of-living adjustment. The annual cost-of-living adjustment is a proportion of three percent determined by dividing the sum of the pre - July 2011 service credit by the total service credit at retirement multiplied by three percent. Plan members initially enrolled on or after July 1, 2011, will not have a cost-of-living adjustment after retirement.

In addition to the above benefits, the DROP program allows eligible members to defer receipt of monthly retirement benefit payments while continuing employment with an FRS employer for a period not to exceed 60 months after electing to participate. Deferred monthly benefits are held in the FRS Trust Fund and accrue interest. There are no required contributions by DROP participants.

Note 5 - Pension Funds (Continued)

Contributions

The FRS has nine (9) classes of membership. Only two (2) classes apply to the City's eligible employees. These two (2) classes, with descriptions and contribution rates in effect during the period ended September 30, 2021, are as follows:

	Regular	DROP	
7/1/20 through 6/30/21	10.00%	16.98%	
7/1/21 through 9/30/21	10.82%	18.34%	

The City's contributions to FRS for the years ended September 30, 2021, 2020, and 2019 were \$57,339, \$68,375, and \$67,366, respectively, and equal the required contributions for each year.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

On September 31, 2021, the City reported an FRS's pension liability of \$113,024 for its proportionate share of the Pension Plan's net pension liability. The net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2021. The City's proportionate share of the net pension liability was based on the City's 2020-21 fiscal year contributions relative to all participating members' 2019-20 fiscal year contributions. The City's proportionate share was .00001505% and .00001709% on June 30, 2021, and June 30, 2020, respectively.

	FRS	City Total
Proportionate Share of Net Pension	\$ 113,024	\$ 291,440
City's proportion at June 30, 2021	0.00001505	
City's proportion at June 30, 2020	0.00001709	
Change on proportion during current year	-0.00000204	

For the fiscal year ended September 30, 2021, the City recognized a pension benefit of \$96,471. In addition, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Note 5 - Pension Funds (Continued)

Description	FRS Deferred Outflows of Resources		FRS ferred Inflows f Resources
Differences between expected and actual experience	\$	19,487	\$ -
Change of assumptions		77,794	-
Net difference between projected and actual earnings on Pension Plan investments		-	(396,644)
Changes in proportion and differences between City Pension Plan contributions and proportionate share of contributions		1,670	(99,997)
City Pension Plan contributions subsequent to the measurement date		12,506	
Total	\$	111,457	\$ (496,641)

The deferred outflows of resources related to the Pension Plan, totaling \$12,506 resulting from City contributions to the Plan after the measurement date, will be recognized as a reduction of the net pension liability on September 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the Pension Plan will be recognized in pension expenses as follows:

Fiscal Year Ending	
September 30, 2021:	Deferred
	Outflow / Inflow
	Amount
2022	\$ (80,859)
2023	(85,374)
2024	(103,461)
2025	(120,835)
2026	(7,161)
Total	\$ (397,690)

Note 5 - Pension Funds (Continued)

 Actuarial Assumptions - The total pension liability on June 30, 2021, actuarial valuation was determined using the following actuarial assumption, applied to all periods included in the measurement:

Inflation	2.40 %
Salary increases	3.25 %, average, including inflation
Investment rate of return	6.80% net of pension plan investment
	expense, including inflation

Mortality rates were based on the Generational PUB-2010 with Projection Scale MP-2018 tables.

The actuarial assumptions used on July 1, 2021; valuation was based on the results of an actuarial experience study for the period from July 1, 2013, through June 30, 2018.

The long-term expected rate of return on Pension Plan investments was not based on historical returns but based on a forward-looking capital market economic model. The allocation policy's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions and includes an adjustment for the inflation assumption. The target allocation and best estimates of arithmetic and actual geometric rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation (1)	Annual Arithmetic Return
Cash	1.00%	2.10%
Fixed Income	20.00%	3.80%
Global Equity	54.20%	8.20%
Real Estate (Property)	10.30%	7.10%
Private Equity	10.80%	11.70%
Strategic Investments	3.70%	5.70%
Total	100.00%	38.60%

(1) As outlined in the Pension Plan's investment policy

Note 5 - Pension Funds (Continued)

- Discount Rate The discount rate used to measure the total pension liability was 6.80%. The Pension Plan's fiduciary net position was projected to be available to make all projected future benefit payments of currently active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return.
- Sensitivity to the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following represents the City's proportionate share of the net pension liability calculated using the total discount rate of 6.80%, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower, 5.80%, or one percentage point higher 7.80% than the current rate:

_	1% Decrease 5.80%	Current Discount Rate 6.80%	1% Increase 7.80%
City's proportionate share o the net pension liability	f \$ 508,439	\$ 113,024	\$(216,272)

Pension Plan Fiduciary Net Position - Detailed information regarding the Pension Plan's fiduciary net position is available in the separately issued FRS Pension Plan and Other State-Administered Systems Comprehensive Annual Financial Report.

HIS Plan

- Plan Description The HIS Plan is a cost-sharing multiple-employer defined benefit pension plan established under Section 112.363, Florida Statutes, and may be amended by the Florida legislature at any time. The benefit is a monthly payment to assist retirees of State-administered retirement systems in paying their health insurance costs and is administered by the Florida Department of Management Services, Division of Retirement.
- Benefits Provided For the fiscal year ended September 30, 2021, eligible retirees and beneficiaries received a monthly HIS payment of \$5 for each year of creditable service completed at the time of retirement, with a minimum HIS payment of \$30 and a maximum HIS payment of \$150 per month. To be eligible to receive these benefits, a retiree under a State-administered retirement system must provide proof of health insurance coverage, including Medicare.

Note 5 - Pension Funds (Continued)

Contributions – The HIS Plan is funded by required contributions from FRS participating employers set by the Florida Legislature. Employer contributions are a percentage of gross compensation for all active FRS members. For the fiscal year ended September 30, 2021, the HIS contribution for October 1, 2020, through June 30, 2021, and from July 1, 2020, through September 30, 2020, was .00145% and 00168%, respectively. The City contributed 100% of its statutorily required contributions for the current and preceding three years. HIS Plan contribution is deposited in a separate trust fund from which payments are authorized. HIS Plan benefits are not guaranteed and are subject to annual legislative appropriation. If legislative appropriation or available funds fail to provide full subsidy benefits to all participants, benefits may be reduced or canceled.

The City's contributions to the HIS Plan totaled \$8,549 for the fiscal year ended September 30, 2021.

 Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

On September 30, 2021, the City reported a liability of \$178,416 for its proportionate share of the HIS Plan's net pension liability. The net pension liability was measured as of June 30, 2021. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2020, updated to July 1, 2021. The City's proportionate share of the net pension liability was based on the City's 2020-21 fiscal year contributions relative to all participating members' 2019-20 fiscal year contributions. On June 30, 2021, the City's proportionate share was .00145%.

	HIS	City Total
Proportionate Share of Net Pension	\$ 178,416	\$ 291,440
City's proportion at June 30, 2021 City's proportion at June 30, 2020 Change on proportion during current year	0.00001454 0.00001683 -0.00000229	

For the fiscal year ended September 30, 2021, the City recognized a pension benefit of \$21,887. In addition, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Note 5 - Pension Funds (Continued)

Description	D	HIS Deferred Outflows of Resources		Deferred Outflows		HIS Deferred Inflows of Resources
Differences between expected and actual experience	\$	5,970	\$	(75)		
Change of assumptions		14,019		(7,351)		
Net difference between projected and actual earnings on Pension Plan investments		186		-		
Changes in proportion and differences between City Pension Plan contributions and proportionate share of contributions		-		(60,295)		
City Pension Plan contributions subsequent to the measurement date		1,804				
Total	\$	21,979	\$	(67,721)		

The deferred outflows of resources related to the HIS Plan, totaling \$1,804 resulting from City contributions to the HIS Plan after the measurement date, will be recognized as a reduction of the net pension liability in the fiscal year ended September 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the HIS Plan will be recognized in pension expense as follows:

Fiscal Year Ending	
September 30, 2021:	Deferred
	Outflow / Inflow
	Amount
2022	\$ (15,657)
2023	(12,404)
2024	(8,995)
2025	(5,731)
2026	(3,407)
Thereafter	(1,352)
Total	\$ (47,546)

Note 5 - Pension Funds (Continued)

Actuarial Assumptions – The total pension liability on July 1, 2020, updated to July 1, 2021, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.40 %
Salary increases	3.25 %, average, including inflation
Municipal bond rate	2.16%

Mortality rates were based on the Generational PUB-2010 with Projection Scale MP-2018 tables.

The actuarial assumptions used on July 1, 2020, updated to July 1, 2021, valuation was based on an actuarial experience study from July 1, 2013, through June 30, 2018.

- Discount Rate The discount rate used to measure the total pension liability was 2.16%. The discount rate for calculating the total pension liability equals the single rate equivalent to discounting at the long-term expected rate of return for benefit payments before the projected depletion date. Because the HIS benefit is funded on a pay-as-you-go basis, the depletion date is considered immediate. The single equivalent discount rate equals the municipal bond rate selected by the HIS Plan sponsor. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index.
- Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - The following represents the City's proportionate share of the net pension liability calculated using the discount rate of 2.16%, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower 1.16% or one percentage point higher 3.16% than the current rate:

HIS	Net	Pension	Liability	(Asset)
				(

_	1% Decrease	Discount Rate	1% Increase
	1.16%	2.16%	3.16%
City's proportionate share o the net pension liability	f \$ 206,266	\$ 178,416	\$ 155,599

Pension Plan Fiduciary Net Position - Detailed information regarding the HIS Plan's fiduciary net position is available in the separately issued FRS Pension Plan and Other State-Administered Systems Comprehensive Annual Financial Report.

Note 5 - Pension Funds (Continued)

Police and Fire Defined Benefit Pension Plans

Plan Description and Provisions

Plan Administration

The City of Eustis Municipal Police Officers' Pension and Retirement System is a single-employer defined pension plan administered by a Board of Trustees. The Board consists of five Trustees, and two of them should be appointed by the City Commission. Two members are full-time Police Officers, elected by most of the members of the Plan, and the fifth member elected by the other four and appointed by Commission. Specific provisions of Chapter 185, Florida Statutes, Chapter 112, Florida Statutes, and the Internal Revenue Code govern the Plan.

The City of Eustis Municipal Firefighters' Pension and Retirement System is a singleemployer defined pension plan administered by a Board of Trustees. The Board consists of five Trustees, and two of them should be appointed by the City Commission. Two members are full-time Firefighters, elected by most of the members of the Plan, and the fifth member elected by the other four and appointed by Commission. Specific provisions of Chapter 175, Florida Statutes, Chapter 112, Florida Statutes, and the Internal Revenue Code govern the Plan.

These plans are maintained as pension trust funds and included in the City's reporting entity. City ordinance and state law require contributions to be determined by actuarial studies. The City Commission has the authority to establish and amend the benefit provisions of the plans. Administrative costs are financed through contributions and investment earnings. Stand-alone financial reports are not issued.

Note 5 - Pension Funds (Continued)

Police and Fire Defined Benefit Pension Plans (Continued)

- Benefits Provided Police Officers and Firefighters' Pension Plans Both Plans provide retirement, termination, disability, and death benefits.
- Normal Retirement For both plans, normal retirement can occur at age 55 and the completion of 10 years of credited service or at age 52 and 25 years of credited service. The benefit payable at retirement is 3% of the average final compensation time credited service for the Police Officers' Plan and 4% for the Firefighters' Plan.
- Early Retirement Both Plans allow early retirement at age 50 and 10 years of credited service. The benefit payable is the same as normal retirement, reduced by 3% per year.
- Termination of Employment (both Plans) With ten years or more of credited service, normal retirement benefits are available at retirement age, or a refund of contributions can be obtained termination with less than ten years of service results in a refund of contributions made without interest.
- Disability benefits The Plans provide for disability benefits accrued as of the date of the disability. The benefit is 65% of the average final compensation (AFC) for service-related disability and 25% of AFC for non-service-related disability.
- Pre-retirement Death Benefits Pre-retirement benefits are available to beneficiaries of police officers and firefighters on the date that normal retirement would have been reached for vested plan members. For non-vested police officers and firefighters, the beneficiary is entitled to a refund of member contributions.
- Contributions Contributions for the Police Officers' and Firefighters' Pension Plans include a required contribution from employees of 4% of compensation (as defined). Employer contributions are actuarially determined as the remaining amount necessary to pay current costs and amortize unfunded past service costs, as provided in Chapter 112, Florida Statutes.

Employer Contribution: Police Pension - \$1,010,105; Fire Pension - \$618,316 Employee Contribution: Police Pension - \$161,484; Fire Pension - \$59,657.

Benefit Compensation - The benefits compensation from Police and Fire Pension Funds for the fiscal year ended September 30, 2021, was: Police Pension Fund -\$1,221,351; Fire Pension Fund - \$602,997.

Note 5 - Pension Funds (Continued)

Police and Fire Defined Benefit Pension Plans

- Deferred Retirement Option Program (DROP) Eligibility requires satisfaction with standard retirement requirements.
- Net Pension Liability of the City The measurement date for the Net Pension Asset for the City is September 30, 2021. The measurement period for pension expense and the reporting period is October 1, 2020, to September 30, 2021. The components of the net pension liability of the City on September 30, 2021, were as follows:

Police Officers' Plan

Total pension liability Plan fiduciary net position City's net pension liability	\$ 30,032,363 (25,513,666) \$ 4,518,697
Plan fiduciary net position as a percentage of the total pension liability	84.95%
Firefighters' Plan	
Total pension liability	\$ 14,264,444
Plan fiduciary net position City's net pension liability	(13,862,993) \$ 401,451
Plan fiduciary net position as a percentage of the total pension liability	97.19%

Costs of administering the police officers' and firefighters' pension plans are financed through investment earnings.

	valuation reports.	

Investments Held

Investments are reported at Fair Market Value. Securities traded on a national or international exchange are valued at current exchange rates at the last reported sales price. Investments that do not have an established market are reported at estimated fair value.

Authorized investments are governed by Florida Statutes and each Plan's investment policy. All plan investments are held by an outside third-party custodian who determines what instruments to purchase based on the plan's investment policy. Investments are held, and the return earned is reviewed quarterly by the pension board of the respective plan.

Note 5 - Pension Funds (Continued)

Police and Fire Defined Benefit Pension Plans

Both the Police Officer and Firefighters' Pension Plans did not hold investments in any organization representing 5% or more of the Plan's fiduciary net position.

For the year ended September 30, 2021, the money-weighted rate of return was 7.00% and 17.69% for the Police Officers' and Firefighters' plans respectively; this expresses investment performance, net of investment expense, adjusted for the changing amounts invested.

Long Term Expected Rate of Return

The long-term expected rate of return on pension plan investments was determined using a building-block method. The best estimate ranges of expected future real rates of return (expected returns, net pension plan investment expenses, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of real arithmetic rates of return for each major asset class are included in both the police officers' and firefighters' pension plan's target asset allocation as of September 30, 2021.

	Target Allocation	Long Term Expected Rate of Return	Target Allocation	Long Term Expected Rate of Return
Asset Class	Pol	ice	F	re
Domestic Equity	54.30%	7.00%	45.00%	7.50%
International Equity	9.80%	7.00%	15.00%	8.50%
Domestic Fixed Income	32.90%	7.00%	25.00%	2.50%
Real Estate	0%	0%	10.00%	4.50%
GTAA	0%	0%	5.00%	3.50%

Note 5 - Pension Funds (Continued)

Discount Rate

The discount rate used to measure the total pension liability was 7.00% and 7.55% for the Police Officers' and the Firefighters' plans, respectively. The projection of cash flows used to determine the discount rate assumed that plan member contributions would be made at the current contribution rate and that sponsor contribution will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The following presents the sensitivity of the net pension liability of the City to a change in the discount rate:

	Discount		
Police Officers' Plan Sponsor's Net Pension Liability	1% Decrease <u>6.00%</u> \$8,661,566	Rate Assumption 	1% Increase 8.00% \$ 1,132,956
Firefighters' Plan Sponsor's Net Pension Liability	1% Decrease <u>6.55%</u> \$ 2,325,170	Rate 7.55% \$ 401,451	1% Increase 8.55% \$(1,185,845)

Note 6 - Other Postemployment Benefits

The Other Postemployment Benefit Plan (OPEB) is a single-employer benefit plan administered by the City. Under Section 112.0801, Florida Statutes, former employees who retire from the City are eligible to participate in the City's health plan for medical and prescription drug coverage. Although retirees pay for healthcare at group rates, they are receiving a valuable benefit because they can buy insurance at lower costs than the costs associated with the experience rating for their age.

The City subsidizes the premium rates paid by retirees by participating in the blended group (implicitly funded) premium rates for active and retired employees. These rates provide an implicit subsidy for retirees because, on an actuarial basis, their current and future claims are expected to result in higher costs to the plan on average than those of active employees.

The City does not issue a standalone financial report on the OPEB Plan. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75.

Employees Covered by Benefit Terms

To be eligible for participation in the OPEB Plan, the employee must:

- Retire under the Florida Retirement System, the City of Eustis Retirement Plan, Eustis Police Officers' Pension Plan or the Eustis Firefighters' Pension Plan, and
- Attain the minimum service requirements under the OPEB Plan, and
- Elect to continue medical coverage by paying the applicable monthly premium.

The benefit terms covered the following employees as of October 1, 2020 -September 2021, the latest actuarial valuation date:

Retirees and beneficiaries currently receiving benefits	19
Active employees	184
Total	203

Funding Policy Contributions to the OPEB Plan are established and may be amended through action from the City Commissioners. OPEB plan must reimburse the City for the City's average blended cost (the City provides the implicit subsidy). The monthly average combined costs of the various options for the calendar year 2021 were \$596 for individual coverage, \$466 for family coverage, and \$545 for the medical reduced supplement plan.

Note 6 - Other Postemployment Benefits (Continued)

The City's OPEB liability measurement date is September 30, 2021. The measurement period for OPEB cost was October 1, 2020, to September 30, 2021. The components of the City's total OPEB liability on September 30, 2021, are as follows:

Total OPEB Liability

Total OPEB Liaility	\$ 2,328,007
OPEB Plan Fiduicary Net Position	 -
City's Total OPEB Liability	\$ 2,328,007

OPEB plan Fiduciary Net Position as
a Percentage of Total OPEB Liability0.00%

Actuarial Assumptions The total OPEB liability as of September 30, 2021, was based on a roll-forward of the actuarial valuation dated October 1, 2020, using the following actuarial assumptions:

Inflation	2.50% per annum
Discount Rate	2.21%
Healthcare Cost Trend Rate	7.50% per annum (including inflation of 2.5%)

Mortality rates for police officers and firefighters were based on the same versions of Pub-2010 Headcount-Weighted Mortality Tables as used by the FRS for Special Risk. Class members in their July 1, 2020, actuarial valuation (with mortality improvements projected for healthy to all future years after 2010, using Scale MP-2018). Florida Statutes Chapter 1112.63(1)(f) mandates this use of mortality tables from one of the two most recently published FRS actuarial valuation reports.

Discount Rate The discount rate used to measure the total OPEB liability on September 30, 2021, was 2.21%. Because the City's OPEB costs are essentially funded on a payas-you-go funding structure, a municipal bond rate was used to determine the total pension liability for the Program. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted.

Note 6 - Other Postemployment Benefits (Continued)

Changes in the Total OPEB Liability

	F	iscal Year
		2021
Total OPEB Liability		
Service Cost	\$	121,231
Interest		75,073
Difference between expected and actual experience		(664,324)
Change of assumptions and other inputs		178,131
Benefit payments		(166,315)
Other Changes		-
Net Change in Total OPEB		(456,204)
Total OPEB Liability Beginning of the Year		2,784,211
Total OPEB Liability End of the Year	\$	2,328,007

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate

The following table presents the total OPEB liability, calculated using the discount rate of 2.21%, as well as what the City's total OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (1.21%) or one-percentage-point higher (3.21%) than the current discount rate:

	Current					
	1%	6 Decrease	Dis	scount Rate	1	% Increase
		1.21%		2.21%		3.21%
Total OPEB Liability	\$	2,634,481	\$	2,328,007	\$	2,077,102

Sensitivity of the total OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following table presents the total OPEB liability of the City, as well as what the City's total OPEB liability would be if it were calculated using a healthcare cost trend rate that is one percentage point lower (1.00%) or one-percentage-point higher (1.00%) than the current discount rate:

	Current Trend								
	1%	6 Decrease		Rate	1	% Increase			
Total OPEB Liability	\$	2,070,464	\$	2,328,007	\$	2,644,344			

Note 6 - Other Postemployment Benefits (Continued)

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended September 30, 2021, the City recognized OPEB income of \$43,253. On September 30, 2021, the City had deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Out	ferred tflows of sources	Deferred Inflows of Resources		
Differences between Expected and Actual Experience	\$	-	\$ (1,451,724)		
Changes in Assumptions		544,640	(610,489)		
Contributions Subsequent to the Measurement Date	\$	120,552 665,192	- \$ (2,062,213)		

Deferred inflows of resources shown above will be recognized in OPEB expense in the following years:

Fiscal Year Ending:

September 30, 2022	\$ (239,557)
September 30, 2023	(239,557)
September 30, 2024	(239,557)
September 30, 2025	(239,557)
September 30, 2026	(142,318)
Thereafter	(417,027)
Total	\$ (1,517,573)

Note 7 - Deferred Compensation Plan

The City offers its employees a deferred compensation plan created by Internal Revenue Code Section 457. The plan, available to all City employees, permits them to defer a portion of their salary until future years. The deferred compensation is not open to employees until termination, retirement, death, or unforeseeable emergency.

Plan amendments have been made to comply with IRC Section 457, as amended by the 1996 changes to the tax code. The assets are held in various custodial accounts. All amounts of compensation deferred under the plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property, or rights are solely the property and rights of the various participants of the plan.

Note 8 - Risk Management

Property, Casualty, Liability and Workers' Compensation

The City is exposed to various claims and losses, including property damage, liability, and workers' compensation, for which it participates in an insurance pool with other State of Florida cities. Premiums are determined based on each city's loss ratio for the previous year. The pool, although largely self-insured, purchases excess coverage from commercial carriers.

During the last five years, the experience rate as it relates to the loss fund set up by the City's insurance provider is as follows:

			_	_	Percentage Use				
<u>Year</u>	<u>Loss Fund</u>		<u>Ехр</u>	<u>erience</u>	<u>of Loss Fund</u>				
2021	\$	759,980	\$	385,400	50.71%				
2020		703,685		201,830	28.68%				
2019		651,560		375,464	57.63%				
2018		627,707		833,371	132.76%				
2017		604,727		559,974	92.60%				
2016		525,941		170,149	32.35%				
2015		543,640		60,392	11.11%				
2014		496,482		602,568	121.37%				
2013		436,122		319,823	73.33%				
2012		396,475		358,038	90.31%				
2011		500,000		427,689	85.54%				
2010		628,585		824,500	131.17%				
2009		477,351		393,171	82.37%				
2008		292,667		1,332,130	455.17%				
2006		398,766		772,099	193.62%

	\$	8,344,424	\$	8,200,023	98.27%				

Loss Fund Analysis Valuation as of September 30, 2021

Note 8 - Risk Management (Concluded)

The City property and auto coverage has a \$1,000 deductible. An additional 2% deductible is applied to any named windstorm. Property located within a flood zone must maintain separate coverage. Automatic coverage increases property values for the remainder of the policy term, up to \$5,000,000 in total insurable values at no additional premium. General liability is set at \$1,800,000 per member with an aggregate of \$5,400,000. Workers' compensation group limits are set at \$350,000 with a retention of \$650,000. In addition to all coverage, the city has elected to carry excess liability insurance for \$3,000,000. Terrorism is excluded for buildings valued at more than \$50,000,000, not affecting our city.

Health Insurance

The City provides life and health insurance benefits to eligible regular full-time employees. The program also offers limited coverage for dental and prescription drugs. Employees pay only for dependent coverage under the health benefits program. Premiums are deducted from the participating employee's biweekly pay.

The insurance plan provides life insurance coverage for \$20,000 for eligible employees and \$50,000 for division and department heads, with additional coverage for accidental death and dismemberment.

The amount of coverage is reduced to \$10,000 for all employees at retirement. Coverage is further reduced to \$6,500 upon age 65 and \$5,000 at age 70. Accidental death and dismemberment coverage terminated after age 70. The life insurance coverage is funded by purchasing a group insurance policy by the City.

As mentioned above, the City's health insurance plan is purchased through the pool. This change to a group insurance pool became effective on October 1, 2003. Retirees and terminated employees can participate in the health insurance plan at their own expense. The City has joined a Preferred Provider Organization (PPO) to control costs.

Employees are encouraged to use participating providers, covered 80% under the plan, or choose their provider. Coverage for expenses rendered by nonparticipating providers is limited to 40%, with the employee paying 60% co-pay.

Note 9 – <u>Commitments</u>

The City has outstanding commitments on various contracts for construction and other projects. These commitments as of September 30, 2021, in the respective funds are as follows:

The following construction projects were not completed at September 30, 2021

The following is a schedule of bonds and notes outstanding on September 30, 2021:

In governmental fund financial statements, the amount of compensated absences associated with employee terminations before year-end is recorded as expenditures and represents the amounts that would typically be liquidated with available spendable resources. All governmental fund compensated absences are recorded and split between the current and noncurrent portions in the government-wide financial statements. The compensated absences payable and other post-employment benefits from the governmental funds are liquidated from the General, Street Improvement, and Stormwater Funds.

In proprietary funds, compensated absences associated with employee vacations and sick leave are recorded as expenses, representing the amounts accrued during the year. The liability for compensated absences of these funds is reflected in the respective financial statements split between the current and noncurrent portions.

Note 10 - Long-Term Debt (Continued)

Governmental Activity Liabilities

The following is a summary of all long-term liabilities of the governmental funds at September 31, 2021:

Note Payable - 2018

The City contracted with United Southern Bank to provide financing for \$800,000 over five years. The purpose of the funding is to acquire a Pierce Fire Ladder Truck. The five-year financing agreement is at a fixed interest rate of 2.29%, with the value of the equipment to be used as the collateral to support the loan. Principal and interest are paid annually, commencing April 2018. Principal and interest for the current year are \$163,664.

Note Payable – 2016

The City awarded a contract to U.S. Bancorp Government Leasing and Finance, Inc. to finance a Pumper Fire Truck. The five-year financing agreement for \$437,550 is at a fixed interest rate of 2.01%, with the value of the truck will be used as collateral to support the loan. Principal and interest are paid annually, commencing January 2017. Principal and interest for the current year are \$92,857.

CRA Loan

In September of FY 2020, City contracted with USB bank to provide financing for \$3,000,000 for CRA – Community Redevelopment Trust Fund projected three large land blocks located at City of Eustis Downtown purchase. The five-year financing balloon loan is at a fixed interest rate of 2.875%. Principal and interest payments of \$16,512 will be paid monthly, commencing October 2020. Principal and interest for the current year are \$198,148.

Business-Type Activity Liabilities

The following is a summary of all long-term liabilities of the proprietary funds on September 30, 2021:

Florida Department of Environmental Protection State Revolving Loan Agreement

The 2000 loan agreement of \$5,852,495 and the 2012 loan agreement of \$5,264,258 are for the wastewater treatment plant and secured by gross revenues derived yearly from the operation of the water and sewer system after payment of the operation and maintenance expense and the satisfaction of all senior obligations. Net available revenue of \$3,230,233 fewer debt payments of \$270,916, provided a debt coverage of 4.91.

The 2000 loan SRF 50710P agreement's first payment was May 15, 2001, with the final payment due on November 15, 2020. Principal and interest are \$193,540; with semiannual payments of \$193,540, the loan matured in FY 2021. Another 2012 loan CRF 350302 agreement's first payment was March 15, 2013, with the final payment due September 15, 2032. Principal and interest are \$276,964; with semi-annual payments of \$157,730.

Note 10 - Long-Term Debt (Continued)

Provisions of the loan mandate that rates of the water and sewer system will be enough to provide coverage of 1.15 times the sum of the semiannual payments, utilities will not provide any free service; all connections are mandatory and consistent with applicable laws. The government shall not allow any competing services within the city limits and the government must use its best efforts to collect all rates, fees, and other charges.

Water and Sewer Revenue Bonds, Series 2016

On November 3, 2016, the City issued \$7,680,000 in Water and Sewer Revenue Bonds to finance the costs of certain improvements to the City's combined water and sewer systems. Principal and interest for 2021 were \$553,256, equal to 9.29% of the current year's pledged revenue. The remaining outstanding principal and interest will be \$8,279,894. The bond reflects a fixed interest rate of 3.21%, with payments due annually.

Note Payable

The City contracted with United Southern Bank to provide financing for \$1,805,500 over five years. The funding aims to acquire various water and sewer vehicles and equipment. The five-year financing agreement is at a fixed interest rate of 1.79%, with the value of the equipment to be used as the collateral to support the loan. Principal and interest for the current year are \$374,027.

Note 11 - Interfund Transactions

Interfund transfers usually are recurring and approved by City Commission during the budget process or by separate resolutions. Transfers from the water and sewer system fund to the general fund support general government operations. Other transfers are for debt service requirements and City grant matches. Greenwood cemetery transfer is the transfer from General Fund for the cemetery lot sales. In FY 2021, water and sewer impact fees were waived for the new residential construction to stimulate City's business development. The adequate amount of impact fees was transferred from Water and Sewer fund to Water and Sewer Impact Fee funds.

The remainder of the page was intentionally left blank.

Total Transfers	\$ 1,848,479	\$ 885,000	\$ 442,250	\$ 7,785	\$ 3,183,514

Note 12 - Contingent Liabilities

Under the terms of federal and state grants and loans, periodic audits are required, and certain costs are questionable, as not allowable as expenditures under the terms of the grants, which could lead to reimbursement to the grantor agencies. City management believes disallowances, if any, will not be material.

The City is involved in legal actions that will not have a material effect on the City's financial statements in the opinion of management.

REQUIRED SUPPLEMENTARY INFORMATION OTHER THAN MD&A

Major Governmental Funds

Under GASB 34, the focus of the fund financial statements is on major funds. These funds are defined based on a numerical formula and generally represent the government's most important funds. Major funds for the City of Eustis are as follows:

General Fund

The General Fund will always be the major fund for the City of Eustis. The fund carries out the general operations of the City and accounts for the essential City functions.

Street Improvement Fund

This fund is used to accumulate monies, received from motor fuel gas tax sources. These funds are legally restricted to street maintenance programs and the money is expended solely on maintenance of the streets and right-ofways within the City.

Sales Tax Capital Projects Fund

This fund is used to account for the City's share of the voted one-cent infrastructure sales tax, which is restricted to capital projects.

Community Redevelopment Fund

This fund is used to account for incremental tax increases within the Downtown and East Town Redevelopment District. The funds are used for the exclusive benefit of the revitalization of these areas.

Stormwater Utility Fund

This fund is used to accumulate revenues that fund the programs necessary to address issues associated with stormwater runoff.

Schedule of Contributions from Employers and Others

This information is presented for the Fire and Police Pension Funds and was prepared as part of the actuarial valuations as of the dates indicated.

Schedules of Liabilities from Other Post-Employment Benefits

Actuarial valuation of liability using the unit credit cost method – Unfunded Actuarial Accrued Liability.

OTHER SUPPLEMENTAL INFORMATION

NON-MAJOR GOVERNMENTAL FUNDS

Special Revenue Funds

Special Revenue Funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes.

Law Enforcement Trust Fund

This fund is used to account for funds received as a result of drug forfeitures, which are restricted to drug enforcement training, and programs for police officers.

Law Enforcement Education Fund

This Fund is used to account for fines whose use is restricted to police educations training programs.

Community Development Fund

This fund is used to account for ongoing activities related to rehabilitation projects financed by previous Community Development Block Grants.

Library Contribution Fund

This fund is used to account for funds that are either raised or donated to the Eustis Memorial Public Library.

Impact Fee Fund

This fund is used to accumulate revenues derived from newly constructed facilities. The fees are used to help defray the cost of capital expenditures necessitated by growth. Specific impact fees are collected for Law Enforcement, Fire prevention, Parks & Recreation, and Public Library.

Cemetery Trust Fund

This fund is used to accumulate revenues for Greenwood Cemetery maintenance. Twenty percent of the funds from the sale go to this fund. Interest earned is used for operations and the principal may be used for capital purchases.

STATISTICAL SECTION

This part of the City of Eustis Annual Financial report presents detailed information as a context for understanding what the information in the financial statement, note disclosures, and required supplementary information says about the government's overall financial health.

Statistical tables differ from financial statements because they cover more than two fiscal years and may present non-accounting data. These tables reflect social and economic data, financial trends, and the fiscal capacity of the City.

Information contained within this section includes:

Financial Trend Data – Schedules 1, 2, 3, 4

- Provides information on a government-wide basis Schedules 1 and2 are on GASB 34 accrual basis. Data is a 10 year trend. Schedules 3, and 4, are provided on a modified accrual basis. Data is a 10- year trend.
- Revenue capacity Data Schedules 5, 6, 7, 8.
- Depicts the primary government's ability to raise revenues via a tax levy. A history of assessed value, taxes levied by taxing authority, collections, and principal taxpayers within the municipality.
- Debt Capacity Data Schedules 9, 10, and 11.
 - Provides a history of the various debt obligations owed by the City over the last ten years. Debt associated with the City over the last ten years includes a 1997A, 2004 water and sewer Sales Sur Tax, a utility revenue bond, a state revolving fund loan, and a recently started balloon loan. The pledging of the various revenues is provided for each debt.
- Demographic and Economic Information Schedules 12, 16, and 18.
 - This information is provided to assist the reader in understanding the makeup of The City of Eustis. Information regarding schools, population, age, consumer price index, income, cost, and unemployment is contained within the reports described. Additionally, a comparison of the immediate adjacent cities, millage comparison of all cities in the county, as well as the top ten employers within the City, is presented.
- Operating Information Schedules 13, 14, 15, 17, 19, and 20
 - These schedules present information regarding the city's ability to service the citizens, as well as general information. Utility rates are presented as well as the volume used by a category of customer.

Sources: Unless otherwise noted, the information in these schedules is derived from the annual financial reports for the relevant year.

NOTE: Florida Statute 197.012 allows a discount for early payment of taxes of 4% in November, 3% in December, 2% in January, and 1% in February. Taxes become delinguent on April 1 of each year.

County Tax Collector is responsible for collecting and remitting all property taxes. They do not keep track of amounts which are past due on a regular basis. Once a year they consolidate all past due amounts and have a tax certificate sale. The money obtained from this sale is then distributed to the proper taxing authority.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Mayor and City Commissioners City of Eustis Eustis, Florida

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Eustis, Florida (the City) as of and for the year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated May 6, 2022.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses, as defined above. However, material weaknesses may exist that have not been identified.

Honorable Mayor and City Commissioners City of Eustis Eustis, Florida

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

MANAGEMENT LETTER

Honorable Mayor and City Commissioners City of Eustis Eustis, Florida

Report on the Financial Statements

We have audited the financial statements of the City of Eustis, Florida (the City), as of and for the fiscal year ended September 30, 2021, and have issued our report thereon dated May 6, 2022.

Auditor's Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Other Reporting Requirements

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards*, and Independent Accountant's Report on an examination conducted in accordance with the American Institute of Certified Public Accountants *Professional Standards*, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, *Rules of the Auditor General*. Disclosures in those reports and schedule, which are dated May 6, 2022, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.554(1)(i)1., *Rules of the Auditor General*, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding financial audit report. Finding 2020-1 was included in the current and preceding financial audit report. 2019-1 was resolved in the current year.

Official Title and Legal Authority

Section 10.554(1)(i)4., *Rules of the Auditor General*, requires that the name or official title and legal authority for the primary government be disclosed in this management letter, unless disclosed in the notes to the financial statements. This information is disclosed in Note 1 to the financial statements.

Financial Condition and Management

Sections 10.554(1)(i)5.a. and 10.556(7), *Rules of the Auditor General*, require us to apply appropriate procedures and communicate the results of our determination as to whether or not the City has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and to identify the specific condition(s) met. In connection with our audit, we determined that the City did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

MANAGEMENT LETTER

Pursuant to Sections 10.554(1)(i)5.b. and 10.556(8), *Rules of the Auditor General*, we applied financial condition assessment procedures for the City. It is management's responsibility to monitor the City's financial condition, and our financial condition assessment was based in part on representations made by management and review of financial information provided by same.

Section 10.554(1)(i)2., *Rules of the Auditor General*, requires that we communicate any recommendations to improve financial management. In connection with our audit, we have the following current year recommendations included in the attached Management Letter Comments.

Special District Component Units

Section 10.554(1)(i)5.c., *Rules of the Auditor General*, requires, if appropriate, that we communicate the failure of a special district that is a component unit of a county, municipality, or special district, to provide the financial information necessary for proper reporting of the component unit within the audited financial statements of the county, municipality, or special district in accordance with Section 218.39(3)(b), Florida Statutes. In connection with our audit, we did not note any special district component units that failed to provide the necessary information for proper reporting in accordance with Section 218.39(3)(b), Florida Statutes.

As required by Section 218.39(3)(c), Florida Statutes, and Section 10.554(1)(i)6, *Rules of the Auditor General*, the Eustis Community Redevelopment Agency (CRA) reported this information in the CRA's separately issued financial statements.

Additional Matters

Section 10.554(1)(i)3., *Rules of the Auditor General*, requires us to communicate non-compliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but warrants the attention of those charged with governance.

Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, State granting agencies, the Honorable Mayor, City Commissioners, and applicable management, and is not intended to be, and should not be, used by anyone other than these specified parties.

We wish to take this opportunity to thank you and your staff for the cooperation and courtesies extended to us during the course of our audit. Please let us know if you have any questions or comments concerning this letter, our accompanying reports, or other matters.

PURVIS GRAY

MANAGEMENT LETTER COMMENTS

Honorable Mayor and City Commissioners City of Eustis Eustis, Florida

During the course of our audit, the following items came to our attention. These items involve primarily operational matters, which if improved, will result in more efficient and effective operations:

Prior Year Comment, Carried Forward in Current Year

2020-1 Period End Closing Routine

For the past several years, the City's Annual Comprehensive Financial Report (ACFR) has been issued during the extended deadline period, nearly 8 months after year-end, which is an indication the City's monthly and year-end closing routines are not functioning as intended. Accurate and timely financial reporting is dependent upon regular and timely monthly and year-end closing routine procedures. This includes timely reconciliations and analysis of key financial statement accounts to facilitate interim and year-end financial reporting. During the course of our audit process, we identified several areas where reconciliations were incomplete, requiring journal entries to accurately report year-end financial information, including entries related to capital assets, payroll, debt service and revenues.

To improve the City's period-end closing routine and financial reporting process, we believe that specific attention should be given to the following items:

- Creation of closing routines and timetables.
- Review assignments of responsibilities for accounting and closing.
- Monitoring of budget to actual financial information.
- Additional utilization of the outsourced Accounting/ACFR Consultant.

If a documented period-end closing routine is put in place, the year-end closing process will become more efficient and effective and will improve the quality and timeliness of all financial reporting.

Current Year Comment

2021-1 Information Technology (IT) General Controls

During our review of the City's use of IT in the financial reporting process, we noted opportunities to improve and strengthen the control environment and the quality and integrity of information generated by the IT systems.

May 6, 2021

City Commissioners City of Eustis Eustis, Florida 32726

This report contains the City's written response to the auditor's Management Letter Comments, as required by Chapter 10.558(1) of the Rules of the Auditor General of the State of Florida, relating to the last audit of the City of Eustis, Florida, for the year ended September 30, 2021.

Current Year Comments:

2020-1 Period End Closing Routine

For the past several years, the City's Annual Comprehensive Report (ACFR) has been issued during the extended deadline period, nearly 8 months after year-end, which is an indication the City's monthly and year-end closing routines are not functioning as intended. Accurate and timely financial reporting is dependent upon regular and timely monthly and year-end closing routine procedures. This includes timely reconciliations and analysis of key financial statement accounts to facilitate interim and year-end financial reporting. During our audit process, we identified several areas where reconciliations were incomplete, requiring journal entries to accurately report year-end financial information, including entries related to capital assets, payroll, debt service and revenues.

To Improve the City's period-end closing routine and financial reporting process, we believe that specific attention should be given to the following items:

- o Creation of closing routines and timetables.
- Review assignments of responsibilities for accounting and closing.
- o Monitoring of budget to actual financial information.
- o Additional utilization of the outsourced Accounting/AC FR Consultant

If a documented period-end closing routine is put in place, the year-end closing process will become more efficient and effective and will improve the quality and timeliness of all financial reporting.

City's Response:

1) The City management believes that financial year planning and reporting process are crucial to run successful financial operations. To improve the City's closing routines and timetables, City will update existing closing routine and review staff assignment responsibilities for the year-end closing. Finance department will improve timeliness of account reconciliations and general ledger review by implementing the end of the year closing process by the November 20, 2022. Adopted budget's data will be closely monitored to the actual financial results at the fiscal 2022 end of the year.

2) The Firefighter Pension administration is contracting with the third-party finance services contractor "GRS Consulting", as it was suggested by the City of Eustis Finance Director. It allows to monitor financial Fire department's financial records and prepare annual financial reports as well.

The City has already taken corrective action regarding the 2020 audit comment.

2021-1 Information Technology (IT) General Controls

During our review of the City's use of IT in the financial reporting process, we noted opportunities to improve and strengthen the control environment and the quality and integrity of information generated by the IT systems. Recommendations for management's consideration include:

- **Disaster Recovery** 0
- User Terminations 0
- Penetration Testing 0
- Policies and Procedures 0

City's Response:

1) A disaster recovery plan (DRP) is a formal document will be created by City's Information Technology division that will contain detailed instructions on how to respond to unplanned incidents such as natural disasters, power outages, cyber-attacks and any other disruptive events. Additionally, in the fiscal year 2022 is planned to budget \$100,000 for new IT equipment and outdated server's replacement.

2) To prevent cyber-attacks, and to identify any weak spots and exploit vulnerabilities in the City's computer system defenses, the City IT division will conduct penetration testing as a security exercise.

3) IT division's policies and procedures will be updated accordingly.

Respectfully submitted,

Tanlarin

Tom Carrino, Interim City Manager

Nailva Harnisch, Deputy Finance Director (in the absence of Finance Director)

INDEPENDENT ACCOUNTANT'S REPORT ON COMPLIANCE WITH SECTION 218.415, FLORIDA STATUTES

Honorable Mayor and City Commissioners City of Eustis Eustis, Florida

We have examined the City of Eustis, Florida's (the City) compliance with requirements of Section 218.415, Florida Statutes, as of and for the year ended September 30, 2021, as required by Section 10.556(10)(a), *Rules of the Auditor General.* Management is responsible for the City's compliance with those requirements. Our responsibility is to express an opinion on the City's compliance based on our examination.

Our examination was conducted in accordance with the attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the City complied, in all material respects, with the requirements referenced above. An examination involves performing procedures to obtain evidence about whether the City complied with the specific requirements. The nature, timing, and extent of procedures selected depend on our judgement, including an assessment of the risk of material non-compliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Our examination does not provide a legal determination on the City's compliance with specific requirements.

In our opinion, the City complied, in all material respects, with the aforementioned requirements for the year ended September 30, 2021.

This report is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, federal and other granting agencies, the Honorable Mayor, City Commissioners, and applicable management, and is not intended to be, and should not be, used by anyone other than those specified parties.
