I. INTRODUCTORY SECTION

City of North Miami Beach, Florida

One Vision • One Mission

June 30, 2022

To the Citizens, Mayor, and City Commission of the City of North Miami Beach:

We are pleased to submit the Annual Comprehensive Financial Report ("ACFR") of the City of North Miami Beach, Florida, for the fiscal year ended September 30, 2021. The ACFR is issued pursuant to Florida Statute 218.39(1) which requires municipalities meeting certain criteria to have an annual financial audit of its accounts and records by an independent certified public accountant in accordance with rules of the Auditor General within nine months of the close of each fiscal year.

This report consists of management's representations concerning the finances of the City of North Miami Beach. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the City has established a comprehensive internal control framework that is designed both to protect the City's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City of North Miami Beach's financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP). Because the cost of internal controls should not outweigh their benefits, the City's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The City's financial statements have been audited by Caballero Fierman Llerena & Garcia, LLP, a licensed certified public accounting firm. The goal of the independent audit is to provide reasonable assurance that the City's financial statements for the fiscal year ended September 30, 2021, were free of material misstatement. An independent audit involves examining on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. Based upon their audit, the independent auditors concluded that there was a reasonable basis for rendering an unmodified opinion that the City of North Miami Beach's financial statements for the fiscal year ended September 30, 2021, are fairly presented in conformity with GAAP. The report of the independent certified public accountants is presented as the first component.

17011 NE 19th Avenue • North Miami Beach, Florida 33162 • (305) 787-6000 • Fax (305) 948-2996 •

North Miami Beach Service Standards - Respect • Integrity • Service • Excellence

The ACFR is used to assist in making economic decisions, and to assist citizens in assessing accountability and transparency by:

- Assessing financial condition and results of operations
- Comparing actual financial results with legally adopted budgets, where appropriate
- Assisting in determining compliance with finance related laws, rules, and regulations; and
- Assisting in evaluating the efficiency and effectiveness of City operations.

This report includes all funds of the City as well as criteria for defining the financial reporting entity of the City as promulgated by the Governmental Accounting Standards Board (GASB). The GASB is the official standard setting body of the accounting principles generally accepted in the United States of America as it applies to local governmental units.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The City of North Miami Beach's MD&A can be found immediately following the report of the independent certified public accountants.

Profile of the Government

The City of North Miami Beach was incorporated on October 4, 1926 and operates under a Commission - Manager form of government. The City Commission is comprised of the Mayor and six Commission members. Together they are responsible for enacting ordinances, resolutions and regulations governing the City as well as appointing the members of various advisory boards, the City Manager, City Attorney and City Clerk. As Chief Administrative Officer, the City Manager is responsible for the enforcement of laws and ordinances; appointing and supervising the department directors of the City; submitting the proposed annual budget; advising Commission as to the financial condition of the City; and overseeing the day-to-day operations of the City.

The City of North Miami Beach is a first-tier suburb covering an area of five and a third square miles located in northeastern Miami-Dade County, which is in the southeast part of Florida. The City is strategically located midway between Fort Lauderdale and Miami. 163rd Street is the most heavily traveled east to west corridor in Miami-Dade County as it is the gateway to both the Oleta River State Park and the beaches, and the Golden Glades Interchange: the convergence of five major roadways serving eastern and southern Florida, including Florida's Turnpike, the Palmetto Expressway (State Road 826), and Interstate 95 (I-95). 163rd Street also intersects with Biscayne Boulevard and U.S. Route 1 (US1). In the immediate vicinity of the City are two large higher education campuses: Florida International University's (FIU) Biscayne Bay Campus and Nova Southeastern University's Fischler Graduate School.

17011 NE 19th Avenue • North Miami Beach, Florida 33162 • (305) 787-6000 • Fax (305) 948-2996 •

www.CityNMB.com

Based on the number of parcels, the City is primarily a residential and shopping community. Singlefamily and multi-family residential uses amount to 53.2% and 6.4%, respectively. Commercial uses and industrial development represent 15% and 3%, respectively, of the City's land parcels. Actual manufacturing activities are limited to a few small fabricating enterprises. Recreational uses and conservation lands represent 2.7% and 12.6% of the City's land parcels, respectively. The remaining land area is occupied by schools, churches, and other related establishments.

The City of North Miami Beach provides a full range of municipal services for its citizens. These include public safety (fire protection is provided by Miami-Dade County), water, sewer, and stormwater utilities, public works, parks and recreation facilities, public library, code compliance, planning and zoning, economic development, and general and administrative services. A franchise contractor provides the City's sanitation services.

The North Miami Beach Community Redevelopment Agency (the CRA) was created by the Mayor and City Commission on December 21, 2004 by adoption of Resolution R2004-86 accepting a delegation of powers from the Miami-Dade Board of County Commissioners and declaring the Mayor and City Commission to be the Agency in accordance with Section 163.357 of the Florida Statutes under the Community Redevelopment Act of 1969, enacted by the Florida Legislature. Miami-Dade County retains the final authority to approve the annual CRA budget, redevelopment plan and amendments, and the issuance of long-term debt. The City Commission acts as the CRA's Board of Directors, the Mayor is the Chairman, and the City Manager is the Executive Director. The purpose of the CRA is the elimination and prevention of blight conditions within the designated community redevelopment area. The CRA is a special revenue fund of the City of North Miami Beach and, therefore, has been included as a blended component unit and integral part of the attached financial statements. Additional information on this component unit can be found in the notes to the financial statements.

The annual budget serves as the foundation for the City of North Miami Beach's financial planning and control. All departments of the City submit requests for appropriation to the City Manager and these requests are the starting point for developing a proposed budget. The City Manager, thereafter, proposes a budget to the Commission for review. The Commission is required to hold public hearings on the proposed budget and to adopt a final budget no later than September 30, the close of the City's fiscal year. The appropriated budget is prepared by fund and department (e.g., police). No department may legally expend in excess of amounts appropriated for that department within an individual fund. The City Manager may make transfers of appropriations within a department and to a department from the contingency account. The City Commission approves supplemental appropriations; however, the City Manager is granted authority to amend, modify, or otherwise adjust the annual budget to a maximum limit of \$50,000 per individual occurrence. Budget-to-actual comparisons are provided in this report for the general fund and for each non-major governmental fund for which an appropriated annual budget has been adopted. For the General Fund and CRA, this comparison is presented as part of the required supplementary information.

Factors Affecting Financial Condition

Local economy. The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the environment within which the City of North Miami Beach operates. From a global perspective, the Congressional Budget Office (CBO) projects real GDP (gross domestic product) to decline over the next several years from the current rate of 3.7% to around 2.2% over the next several years and 1.6% over the years 2026-2031. In CBO's projections, weak labor market conditions lead to lower inflation in 2021. After 2021, inflation rises until it reaches the Federal Reserve's objective of 2.0% by 2024. The annual average unemployment rate is projected to decrease from the current level of 5.3% to fall below the natural rate of unemployment in 2024 and reach 4.0% in 2025. The Florida Economic Estimating Conference published statistics in December 2021 anticipates that the state GDP will expand at more than double the pre-pandemic rate for this fiscal year, posting 4.8% growth before decelerating to 3.1% in Fiscal Year 2022-2023. Starting with Fiscal Year 2023-2024, annual growth will average a more characteristic 2.0%. The state's unemployment rate had dropped November 2021 to 4.5%. The Conference believes that the state's unemployment rate will continue its downward drift until it reaches 3.4% in the 2022-2023 and 2023-2024 fiscal years, after which it slowly rises to plateau at 4.0%.

The City is undergoing a renaissance period, demonstrated by a significant increase in new construction, increase in home values and a decrease in unemployment. In fact, the City has begun to see sustained growth in property values as there have been increases in each of the past five fiscal years. The development climate in the City is very positive as evidenced by the building permit revenue over the past several years. Management expects new growth and development to continue in the near future based on developer interest in the area.

Long-term financial planning. Financial planning continues to be of the utmost importance to the City, including the development of the City's Strategic Plan. During 2014, the City Commission developed its inaugural Strategic Plan, which established a Vision, a Mission and Goals. The Strategic Plan was updated during the spring of 2017. The current plan prioritizes policy and management agendas to provide focus for the City's long-term financial planning. The goals of the City's Strategic Plan include:

- Financially Sound City Government
- The Place to Live: Beautiful, Safe and Livable
- High Performing City Organization Providing Great Customer Services
- Revitalized Downtown and Major Corridors

Financially Sound City Government. The City's commitment to maintaining a Financially Sound City Government is demonstrated through substantial capital investments, while maintaining the General Fund's unassigned fund balance while simultaneously reducing the property tax (millage) rate.

17011 NE 19th Avenue • North Miami Beach, Florida 33162 • (305) 787-6000 • Fax (305) 948-2996 •

www.CityNMB.com

North Miami Beach Service Standards - Respect • Integrity • Service • Excellence

Unassigned fund balance is a useful measure for the City's current financial resources available for discretionary spending. This will ensure the City will have sufficient funds for future expected and unexpected events. For the fiscal year ended September 30, 2021, the General Fund unassigned fund balance was \$15.6 million, a decrease of 13.3% below the prior year of \$18.0 million. The City has also invested considerable resources into the implementation of a new Enterprise Resource Planning (ERP) System to increase the effectiveness of financial planning and reporting.

High Performing City Organization Providing Great Customer Services. In partnership with the County, State, and community at-large, City departments coordinated and established several COVID-19 testing and vaccination events, including facilitation of in-home food distributions and vaccinations for our residents who were home-bound. Within the City, we were able to streamline our hiring processes which allowed us to implement online applications and establish an applicant tracking system. New internet-based phone systems were installed throughout all City facilities, allowing us to set up a state-of-the-art Customer Service Contact Center.

The Place to Live: Beautiful, Safe and Livable. There were significant improvements and updates made throughout our parks and local resource centers. Our playground improvements were centered on safety face-lifts and enhanced child-friendly equipment. New surfaces were installed at several playgrounds and tot lots; upgrades were made to swings; the 183rd Street Bike Path was completed and so was the NE 13th Avenue Calming project.

Revitalized Downtown and Major Corridors. The City is also committed to fostering an environment conducive to economic development, through the continued revitalization of the areas covered by the Community Redevelopment Agency (CRA). The City and CRA continue to work together to market the City and the redevelopment area to attract new businesses and improvement projects.

ACCOMPLISHMENTS AND INITIATIVES

High Performing City Organization

- Implemented an Online Application and Applicant Tracking System and replaced the City's outdated manual paper process
 - Improved the City's recruitment and selection process
 - Decreased time to hire qualified job seekers
 - Reduced processing time by several weeks (The new system includes tools to effectively review applications and forward those who qualify to hiring managers electronically)
 - o Improved customer service level and created user-friendly hiring process
- Installed Citywide Cisco phone system
- Setup Customer Service Contact Center
- Implemented Fuel master cloud

17011 NE 19th Avenue • North Miami Beach, Florida 33162 • (305) 787-6000 • Fax (305) 948-2996 •

www.CityNMB.com

North Miami Beach Service Standards – Respect • Integrity • Service • Excellence

- Installed new card access system at City Hall
 - Integrated with the existing system used throughout rest of the City
 - Includes upgrading the gates at the Operation Center and Wastewater

Financially Sound City Government; High Performing City Organization

- Transitioned from NMB Water outsourcing
- Deployed IT systems to support the re-integration of the water utility
- Implemented various cloud-based software solutions to help run the water utility
- Transitioned the security system from outsourcing to NMB
- Transitioned the SCADA system from outsourcing

Great Place to Live

- Installed swings at Victory Park Playground
- Replaced Columbia Park Playground Safety Surface
- Replaced Milton Littman Park Playground Safety Surface
- Upgraded MLK Park
- Awarded Florida Highway Beautification for NE 163rd Street Between 8th Ave and 15th Ave/Strategic Plan
- Repaired Littman Theater Roof
- Installed Shade Structure over Uleta Playground
- Completed roadway improvement for NE 35th Avenue
- Replaced Barry Schreiber Promenade Playground
- Completed NE 13th Avenue Traffic Calming Project
- Installed New Gym Flooring at Uleta Community Center
- Completed 183rd Street Bike Path
- Held COVID-19 vaccination events for employees, residents, and members of the community, in partnership with Parks and Recreation, Police, Public Affairs, and the City Manager's Office.
- Administered over 1,500 COVID-19 PCR Tests for all employees of the City of North Miami Beach (Since October 1, 2020)
- Distributed COVID-19 test kits to resident at home
- Distributed personal protective equipment, to all employees, to include over 25,000 surgical and KN95 masks in addition to supplying disinfecting wipes/aerosols, hand sanitizer, protective gloves, wall mounted sanitation units for visitors to City facilities and coordinated for regular antibacterial services consisting of disinfecting and sanitation of City
 - Reduced the risk of spread of COVID-19
- Created Brochure "Most Common Code Violations
 - Increased public awareness and reduced code violations
- Implemented Free Paint Voucher Program
- Introduced six (6) new or revamped incentive programs
 - Created economic development opportunities in the CRA

17011 NE 19th Avenue • North Miami Beach, Florida 33162 • (305) 787-6000 • Fax (305) 948-2996 •

www.CityNMB.com

North Miami Beach Service Standards – Respect • Integrity • Service • Excellence

Vibrant Downtown and Major Corridors

- Installed new banners in the CRA
 - Illustrated the vision of the CRA and helped to create a sense of place
- Created new leasing packages
 - Showcased each target area and communicated investment opportunities with stakeholders and the community
- Grand Opening of Jefferson Plaza made possible by the adoption of regulations creating the Mixed-Use International Boulevard (MU/IB) zoning district
- Permit issuance of The Riverwalk North in Mixed-Use South Waterfront (MU/SWF) zoning district

Exceptional Customer Services

- Completed 90% of Vinyl Flooring
- Presented Library Growth Plan to CRA for impact
- Collaborated with RMA Community Marketing
- Installed Remote Lock for automated room reservation
- Storm Ready Community Designation
 - Improve Community Rating System (CRS) score. In CRS communities, flood insurance premium rates for residents are discounted to reflect the reduced flood risk resulting from the community's efforts that address certain goals of the program
- Implemented Automated Passport Reservation process
- Upgraded Library Automation System
- Awarded LSTA Grant for Mobile Library Unit

It must be emphasized that this list represents only some of our City's achievements during this past fiscal year. The fact that we have continued to operate this successfully even with the challenges of a pandemic as a constant consideration is a powerful testament to the skills and mettle of our current team. These wins inspire us to spring forward with a sense of expectation and excitement for our City's progress.

Following are some of my main priorities for this coming season:

Technological Advancement

In our efforts to become an even *higher* performing organization providing even *more exceptional* customer services, it is imperative that we utilize the latest, most affordable, and relevant technology. For ease and convenience at any time, and for safety particularly during a pandemic, it is important that we provide online access to as many of our processes as possible.

• *EnerGov*: Live beginning in May 2022 - this platform will allow us to bring our permitting and licensing processes online. We are thrilled to offer our constituents this user-friendly and efficient way to do business with our City.

17011 NE 19th Avenue • North Miami Beach, Florida 33162 • (305) 787-6000 • Fax (305) 948-2996 •

www.CityNMB.com

North Miami Beach Service Standards - Respect • Integrity • Service • Excellence

- *DocuSign*: implementation expected in February 2022 this platform allows the City to electronically sign documents, streamlining efficiency for approvals, agreements, and transactions. The current process is cumbersome, outdated, and lends itself to errors during routing of the physical copy of such agreements. With DocuSign, departments will be able to route signatures for execution, reducing the likelihood of errors that may occur during routing of physical copies for execution. Additionally, this platform promotes remediation and ADA compliance, since electronically signed pdf files are already in the preferred format to be read back out loud.
- ExecuTime: Implementation expected in April 2022 -this is line with our stated goal of being a financially sound government, the City has approved the purchase of the ExecuTime and Attendance modules and their Biometric Time and Attendance system to be implemented Citywide. The system has been identified as the preferred solution product for timekeeping and payroll purposes. Its unique set of features and ability to record worked hours using biometrics will provide advanced integration with the City's current Tyler Munis payroll application and allow for electronic collection and tracking of employee hours, thus streamlining the payroll process.
- JustFOIA: Went live in September 2021 this records request management solution will assist the City in remaining compliant with state records law and increase accountability among departments. JustFOIA allows staff to route records requests to specific departments based on the records request description; track hours worked on a specific request and charge accordingly; redact exempt information; and generate reports on records request volume, the amount of time a request is in queue, average response time, and breakdowns of the departments to which requests are most often routed.
- Continuing Initiatives

Completion of Capital Investments in Parks and Recreation

• In accordance with our dedication to keeping our City a Great Place to Live: Beautiful, Safe, and Livable, we continue to implement our Parks and Recreation Master Plan. We are committed to bringing our plans for Washington Park to fruition, and we anticipate the design and construction of Mishcon Park in the summer of 2022.

Community Development

- In addition to keeping our City a Great Place to Live: Beautiful, Safe, and Livable, we are eagerly creating a Vibrant Downtown and Major Corridors by streamlining some of our processes.
- We will be conducting an analysis of our application and impact fees, which may generate more revenue for our vision. A citywide study and analysis will identify conditions and potential opportunities for the City to update its regulations on affordable housing.
- Our branding and marketing campaign will attract more people and businesses to the area and the installation of proper wayfinding signage will make spending time here more convenient and enjoyable.

Other priorities in our plans for fiscal year 2022 include the following:

- West Dixie Highway Streetscape Improvements (Great Place to Live)
- Snake Creek Canal Improvements (Great Place to Live)
- Center for Senior Citizens (Container Facility) (Great Place to Live; Exceptional Customer Services)
- Corona del Mar Septic to Sewer Installation (Great Place to Live)
- Enhanced Police Staffing and Services (High Performing City Organization)
- Art in Public Places Program (Great Place to Live)
- CRA Land Acquisition (Vibrant Downtown
- Employee Compensation and Classification Study (High Performing Organization)
- NMBLine Transit Route Expansion (Great Place to Live)

Relevant financial policies

Fund Balance Policy

Governmental Accounting Standards Board ("GASB") Statement No. 54, *Fund Balance Reporting and Governmental Fund Type* Definition establishes various classifications of fund balances based on a hierarchy which details constraints placed on the use of resources by creditors, grantors, contributors or laws or regulations of other governments. Fund balances can be classified as non- spendable, restricted, committed, assigned and unassigned. Committed fund balances can only be used for specific purposes determined by formal action of the City Commission through an ordinance or a resolution and may be changed or lifted only by the City Commission through formal action. Assigned fund balances are amounts that the City intends to use for a specific purpose but are neither restricted nor committed. Unassigned fund balance can be viewed as the net resources available at the end of the fiscal year.

The City's fund balance policy requires a minimum unassigned general fund balance of at least 10% of budgeted revenues. It is the City's policy to consistently add to the fund reserves each year and in Fiscal Year 2021 that policy continued.

Investment Policy

The City administers a comprehensive cash management and investment program. The primary goals of the program are to maximize the amount of cash available to meet daily cash requirements and to obtain the highest possible yields consistent with restraints imposed by Florida Statues and the City's adopted investment policy for capital protection.

Millage Rate Policy

During fiscal year 2018, the City adopted a comprehensive millage rate policy to establish parameters whereby the operating millage rate may increase or decrease during the annual budget process. The policy is designed to ensure that the City remains in compliance with the Fund Balance Policy to provide rate stability and to avoid conditions of fiscal constraint and provides options for reducing excess unassigned fund balance in the General Fund.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of North Miami Beach for its Annual Comprehensive Financial Report (ACFR) for the fiscal year ended September 30, 2020. This was the thirty-second consecutive year that the City has received this prestigious award. In order to be awarded a Certificate of Achievement, the City published an easily readable and efficiently organized ACFR. This report satisfied both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current ACFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report could not have been accomplished without the efficient and dedicated services of the entire staff of the Finance Department. Each member of the department has our sincere appreciation for the contributions made in the preparation of this report. We express our appreciation to all members of other departments who assisted and contributed to the preparation of this report. A special note of thanks and appreciation is also extended to our auditors, Caballero Fierman Llerena + Garcia, LLP, for their professional approach and high standards in the conduct of their independent audit of the City's financial records.

In closing, the Mayor and Commission's guidance and cooperation in planning and conducting the financial affairs of the City in a responsible and progressive manner is greatly appreciated. Without their leadership and support, preparation of this report would not have been possible.

Respectfully submitted,

Arthur H. Sorey, III, City Manager

INDEPENDENT AUDITORS' REPORT

INDEPENDENT AUDITORS' REPORT

Honorable Mayor and Members of the City Commission City of North Miami Beach, Florida

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of North Miami Beach, Florida (the "City") as of and for the fiscal year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Retirement Plan for the General Employees of the City of North Miami Beach, which represent 35 percent, 36 percent, and 13 percent, respectively, of the assets, net position/fund balance, and revenues/additions of the aggregate remaining fund information. Also we did not audit the financial statements of the Retirement Plan for the Police Officers and Firefighters of the City of North Miami Beach, which represent 44 percent, 45 percent, and 29 percent, respectively, of the assets, net position/fund balance, and revenues/additions of the aggregate remaining fund information. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Retirement Plan for the General Employees of the City of North Miami Beach and the Retirement Plan for the Police Officers and Firefighters of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City, as of September 30, 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of a Matter

As discussed in Note 15 to the basic financial statements, the City reported a prior period adjustment to the opening balances of net position for Government-wide activities and Business type activities. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, Schedule of Revenues Expenditures and Changes in Fund Balance – Budget to Actual – General Fund and Community Redevelopment Agency Fund, and Pension and Other Post-Employment Benefits schedules as listed in the table of contents on pages 16-29 and 79-90, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, budgetary comparison schedules, statistical section, and schedule of expenditures of federal awards, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of *Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, are presented for purposes of additional analysis and are not a required part of the basic financial statements for statements.

The combining and individual nonmajor fund financial statements, budgetary comparison schedules and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements themselves, and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, budgetary comparison schedules and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 30, 2022, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)

As management of the City of North Miami Beach, we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended September 30, 2021. Readers are encouraged to consider the information presented here in conjunction with additional information that is furnished in the letter of transmittal, which can be found on pages 1 to 10 of this report.

Financial Highlights

Total net position of the City of North Miami Beach increased by \$10.2 million or 6.2% more than the prior fiscal year net position to \$175.7 million. The increase noted was primarily as a result of current year operations in the business-type funds, as discussed in more detail below.

Water Utility Fund & Wastewater Utility: Other operating costs decreased significantly due to the insourcing
of operations, maintenance and capital improvement programming costs that were previously contracted to
CH2M Hill Engineers, Inc (now Jacobs). In addition, the City changed the allocation for balances determined
through the actuarial valuation for the General Employee Pension Plan of the City of North Miami Beach. See
Note 15 – Prior Period Adjustment.

Total deferred outflows of resources decreased by \$2.4 million or 9.9%. Deferred outflows of resources, as it relates to the pension plans, are a function of various factors, inclusive of investment income, plan experience and changes in assumptions between fiscal years as determined through the actuarial valuation. Refer to Note 11 for additional information.

Total liabilities decreased by \$16.9 million or 6.3% primarily as a result of the satisfaction of debt service requirements for the City's General Obligations bonds and notes. Refer to Note 9 for additional information.

Total Deferred inflows of resources increased by \$9.6 million or 1371.4%. Deferred inflows of resources, as it relates to the pension plans, are a function of various factors, inclusive of investment income, plan experience and changes in assumptions between fiscal years as determined through the actuarial valuation. Refer to Note 11 for additional information.

Total governmental activities revenues increased by approximately \$4.9 million, or 8.7%.

- Compared to the prior fiscal year, there was an increase of \$1.2 million in property taxes revenue, primarily
 as a result of an increase in ad valorem taxes receipts, compared to prior fiscal year. Ad valorem revenue is
 a function of assessed property values, new construction, changes in personal incomes and the City's
 operating millage rates.
- Intergovernmental revenues were \$1.0 million higher in comparison to the prior year due to receipts for state revenue sharing and half-cent sales tax revenue. Both sources are a function of sales and the City's population compared to other jurisdictions which participate in these State of Florida revenue sources.
- Other taxes were \$3.0 million higher compared to the prior year due to an increase in user surcharges and franchise fees for solid waste. The surcharges are a function of user consumption for various services. The franchise fee for solid waste is a function of the amounts billed by Waste Management which increased significantly in comparison to the prior year.
- Total business-type activities revenues increased by approximately \$3.8 million or 5.8%. The increase is primarily due to an increase in charges for services related to solid waste and building permits. The increase for solid waste revenues is due to a rate increase during the current year. The increase in building permit revenues is due to an increase in the number of permits issued, as well the construction value associated with those permits.

- Total business-type activities expenses decreased by \$11.2 million or 17.1% primarily due to decreased operating costs in the Water Utility Fund & Wastewater Utility due to the insourcing of operations, maintenance and capital improvement programming costs that were previously contracted to CH2M Hill Engineers, Inc (now Jacobs). In addition, the City changed the allocation for balances determined through the actuarial valuation for the General Employee Pension Plan of the City of North Miami Beach.
- At the close of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$48.6 million, an increase of \$2.0 million above the prior fiscal year. Approximately 32.1% or \$15.6 million of this amount is available for spending at the City's discretion (*unassigned fund balance*).
- The City's Water Utility Fund had a positive change in net position of \$6.8 million. The Wastewater Utility Fund had a positive change in net position of \$2.5 million. The Solid Waste Fund had a negative change in net position of \$3.2 million. The other enterprise funds had a positive change in net position of approximately \$1.6 million.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City of North Miami Beach's basic financial statements. The components of the basic financial statements include:

- Government-wide financial statements
- Fund financial statements
- Notes to the financial statements

Other supplementary information is also included in this report. These financial statements are prepared in accordance with accounting principles generally accepted in the United States of America promulgated by the Governmental Accounting Standards Board (GASB).

Government-wide financial statements:

The *government-wide financial statements* are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the City's assets plus deferred outflows of resources, and liabilities plus deferred inflows of resources with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial condition of the City is improving or deteriorating.

The *statement of activities* presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include public safety, public services, parks and recreation services, code compliance, planning and zoning, economic development, and general and administrative services. The business-type activities of the City include water, sewer, and stormwater operations, sanitation services and building permitting.

The government-wide financial statements include not only the City of North Miami Beach (known as the *primary government*), but also a legally separate community redevelopment agency for which the City is financially accountable. This *component unit* functions for all practicable purposes as a department and special revenue fund of the City and has been included as an integral part of the primary government.

The government-wide financial statements can be found on pages 30-31 of this report.

Fund financial statements:

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds:

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating the City's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the City's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City maintains several individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, which is considered to be a major fund. Data from the other governmental funds is combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of *combining statements* elsewhere in this report.

The basic governmental fund financial statements can be found on pages 32-35 of this report.

Proprietary funds:

Proprietary funds are used when fees are charged to customers for the use of specific goods or services. The proprietary fund statements provide the same type of information as the government-wide financial statements, only in more detail. The City maintains two different types of proprietary funds:

Enterprise funds provide separate information for the water and wastewater operations and solid waste services, which are considered to be major funds of the City. Data from the other enterprise funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major funds is provided in the form of *combining statements* elsewhere in this report.

Internal service funds are used to accumulate and allocate costs for goods and services provided internally among the City's various funds and functions. Any net increase or deficiency in net position in the internal service fund is allocated back to the participating funds.

The basic proprietary fund financial statements can be found on pages 36-38 of this report.

Fiduciary funds:

Fiduciary funds are used to account for resources held for the benefit of parties outside the City. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. Fiduciary funds are accounted for in a manner similar to proprietary funds.

The basic fiduciary fund financial statements can be found on pages 39-40 of this report.

Notes to the financial statements:

The notes provide additional information that is essential to a full understanding of the data provided in the governmentwide and fund financial statements. Note 14 includes information regarding the Community Redevelopment Agency.

The notes to the basic financial statements can be found on pages 41-78 of this report.

Other information:

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information (RSI). The City adopts an annual appropriated budget for its General Fund and Community Redevelopment Agency. A budgetary comparison schedule has been provided for these funds to demonstrate compliance with this budget. Additional RSI displays the City's changes in net pension and OPEB liabilities and employer contributions to the various plans.

Required supplementary information can be found on pages 79-90 of this report.

The combining statements referred to earlier in connection with non-major funds are presented immediately following the required supplementary information. Budgetary comparison schedules are included for non-major governmental funds that legally adopt budgets.

Combining statements and budgetary schedules can be found on pages 91-109 of this report.

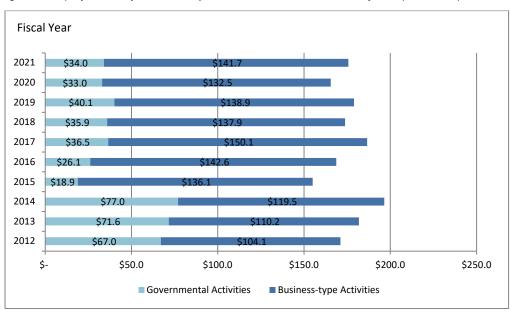

Government-Wide Financial Analysis

Net investment in capital assets - The largest portion of the City's net position (97.0%) reflects its investment in capital assets (e.g., land, buildings, and equipment) less any outstanding debt used to acquire those assets. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources to repay this debt must be provided from other sources, since capital assets themselves cannot be used to liquidate these liabilities.

Restricted net position - Some of the City's net position (17.8%) is subject to external restrictions on how it may be used. These resources have been set aside for capital projects, debt service payments, and other contractual obligations.

Unrestricted net position - At September 30, 2021, the City's governmental activities reported a negative balance in the unrestricted category primarily due to the Net pension liability for the City's General Employees and Police Officers and Firefighters Pension Plans. The City is able to report positive balances in the remaining categories of net position for its Governmental activities and Business-type activities.

The following chart displays the City's total net position over the last ten fiscal years (in millions).

Condensed Government-wide Statement of Net Position

The following chart provides a condensed statement of government-wide net position with comparative balances between the current and last fiscal year (in millions).

'												

Governmental activities:

Net position of the City's governmental activities increased by \$1 million resulting in a balance of \$34 million at the end of the current fiscal year. The increase is primarily due to the net effect of the following:

- Favorable results from operations for the General Fund. See budgetary comparison schedule on page 86 and 87 for more information.
- Timing of capital outlays for the Community Redevelopment Agency that were budgeted but not expended as of September 30, 2021. See budgetary comparison schedule on page 88 for more information.
- Expenses for public safety from the Confiscated Property Fund decreased net position.

Governmental activities Net Position (in millions)

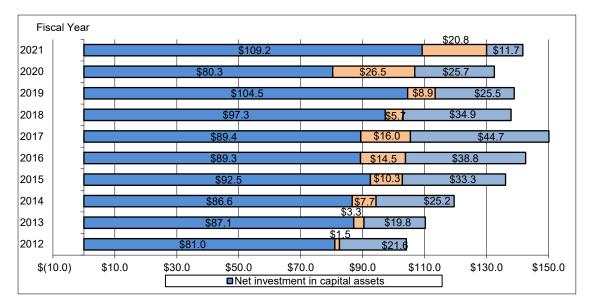

Business-type activities:

The City's net position of the business-type activities increased by approximately \$9.2 million or (6.9%) above the prior fiscal year amount. The increase is primarily due to the net effect of the following:

- Decreased operating costs in the Water Utility Fund & Wastewater Utility funds due to the insourcing of operations, maintenance and capital improvement programming costs as discussed earlier.
- Increased operating costs in the Solid Waste fund due to amounts billed by Waste Management for solid waste and recycling. The amounts billed by Waste Management increased significantly in comparison to the prior year. In December 2020 and in March 2021 the rates charged by Waste Management were significantly increased.

Business-type Activities Net Position (in millions)

Government-wide Statement of Changes in Net Position

The following table provides a summary comparison of the government-wide statement of changes in net position between the current and last fiscal year as restated (in millions).

Financial Analysis of the City's Funds

The City of North Miami Beach uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The focus of the fund financial statements is on major funds, rather than fund types. Traditional users of the fund financial statements will find the fund financial statements presentation more familiar.

Governmental funds: The focus of the City's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. The Governmental Funds presentation is designed to show the sources and uses of liquid resources. This is the manner in which the budget is typically developed. Such information is useful in assessing the City's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of the City's current financial resources available for discretionary spending.

As of the end of the current fiscal year, the City's *governmental funds* reported combined ending fund balances (nonspendable, restricted, committed, assigned, and unassigned) of \$48.6 million, an increase of \$2.0 million below the prior year. Approximately .9% of the fund balance of the governmental funds was in nonspendable form. In other words, the assets are not cash and will not be converted into cash. This classification includes items such as prepaid costs and inventory. The use of 21.3% of fund balance is restricted by third parties such as grantors, creditors, or other governmental entities for specific types of expenditures and for mitigation of the effect of development on parks and public safety. The City Commission through ordinance or resolution has committed 6.8% of fund balance to be used for the specific purposes of alley restoration and disaster recovery. The City Manager has assigned approximately 38.9% of fund balance to be used for capital projects and equipment, land acquisition, liability and workers' compensation claims and expenditures for next fiscal year. *Unassigned fund balance* is the portion of fund balance that is available for spending at the City's discretion 32.1% of fund balance (\$15.6 million) constitutes unassigned fund balance.

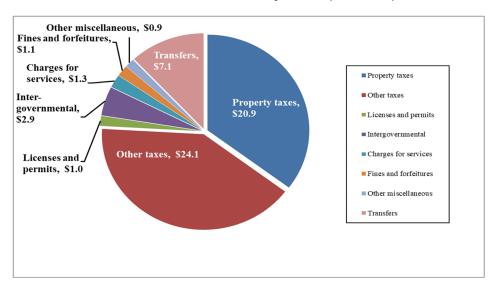

The General Fund is the chief operating fund of the City. All revenues and other receipts and expenditures, fixed charges and capital improvement costs that are not required by law or contractual agreement to be accounted for in another fund are accounted for in this fund. At the end of the current fiscal year, fund balance in the general fund is \$39.6 million. The unassigned fund balance of \$15.6 million constitutes 39.3% of total general fund balance which represents a decrease of \$2.2 million or 13.5% below the prior year.

Unassigned Fund balance decreased by \$2.4 million in comparison to the prior year. The difference is due to the fact that approximately \$2.6 million in encumbrances were included in the Unassigned Fund balance in the prior year. If the encumbrances had been included in the "Assigned" category, the net change in Unassigned Fund balance from the prior year would have reflected a positive increase of approximately \$.2 million.

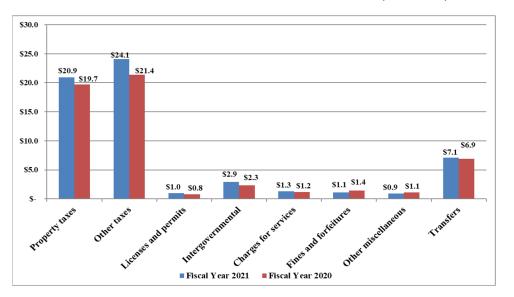

Total General Fund revenues increased \$4.5 million above last fiscal year due to higher receipts for Ad valorem revenue, Intergovernmental revenue, and Other Taxes revenue. The following graphics display (in millions) the classifications of revenues relative to the total fiscal year 2021 general fund revenues and relative to the fiscal year 2020 General Fund revenues.

The CRA is a blended component unit. Its fund balance increased by \$1.3 million as a result of increased tax collections and the timing of capital projects (mainly land acquisition).

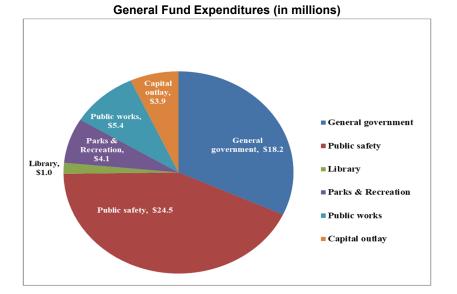

General Fund Revenues by Source (in millions)

Current Year vs. Prior Year General Fund Revenues (in millions)

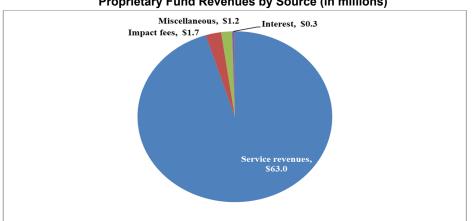

Total General Fund expenditures increased by \$1.6 million or 2.8% as compared to the prior year. The following graphic displays (in millions) the classifications of expenditures relative to the total fiscal year 2021 general fund expenditures.

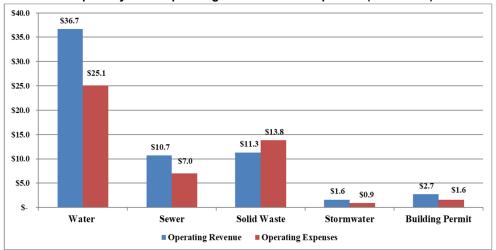

Proprietary funds: The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. Proprietary funds account for services that are generally supported by user fees charged to customers. Proprietary funds are presented on a total economic resources basis. Proprietary fund statements, like government-wide statements, provide both short- and long-term financial information.

The following graphics display (in millions) the sources of proprietary fund revenues relative to the total fiscal year 2021 proprietary fund revenue and a comparison between the operating revenues and expenses of each proprietary fund for the current fiscal year.

Proprietary Fund Operating Revenues and Expenses (in millions)

Water Utility Fund and Wastewater Utility Fund (Sewer) operating costs decreased significantly due to the insourcing of operations, maintenance and capital improvement programming costs as discussed earlier. The gap between revenues and expenses will decrease as the City continues to fill vacant positions as part of the transition.

Solid Waste Fund had increased operating costs due to amounts billed by Waste Management for solid waste and recycling during the month-to-month transition period.

General Fund Budgetary Highlights

A budgetary comparison schedule for the General Fund is part of the required supplementary information and can be found on pages 79-80 of this report.

Differences between the *original budget* and the *final amended budget* amounted to an increase of approximately \$3.8 million during the current fiscal year. The difference was primarily due to an increase to the original budget to provide for amounts encumbered for capital projects at the end of the prior fiscal year.

The differences in the *actual* revenues and expenditures as compared to the *final amended budget* are summarized as follows:

- Fuel taxes and Intergovernmental revenues were higher than the final budget. These are a function of current consumer spending patterns which were significantly higher than we had conservatively budgeted.
- User surcharges and Franchise fees were higher than the final budget. These are also a function of current consumer spending. In addition, these amounts are affected by rate increases.
- Parks & Recreation fees were lower than the final budget. This is primarily due to the closure of many of the City's parks and recreation facilities due to the unprecedented impact of COVID-19.
- Fines and forfeitures were lower than the final budget primarily due to a decrease in fines related to red light cameras and parking fines.
- Impact fees were higher than final budget primarily due to an increase in new construction which was higher than we had conservatively budgeted.
- Miscellaneous revenues were higher than final budget primarily due to the reimbursement from FEMA for expenditures relating to COVID-19 and FEMA.

- All expenditures exhibited positive variances except operating expenditures for the Legislative Department. The
 negative variance was the result of costs for part-time personnel and insurance costs incurred during the fiscal
 year.
- The positive variance in Capital Outlay is primarily due to the timing of expenditures relating to projects. A significant portion of this amount has been appropriated for next year's budget.

Community Redevelopment Agency Budgetary Highlights

• The positive variance in Capital Outlay is primarily due to the timing of expenditures relating to land acquisition. A significant portion of this amount has been appropriated for next year's budget.

Capital Assets and Debt Administration

Capital assets

The City's investment in capital assets for its governmental and business-type activities as of September 30, 2021, amounts to \$246.4 million (net of accumulated depreciation).

This investment in capital assets includes land, buildings, improvements other than buildings, and machinery and equipment. The City's investment in capital assets for the current fiscal year decreased by \$1.5 million or 0.6%.

A significant amount of construction projects was in progress during the fiscal year in both the business-type and governmental activities resulting in an increase in the construction in progress category. All other categories have declined as a result of depreciation, except land, which does not depreciate and furniture, fixtures, machinery, and equipment that saw a slight uptick.

The following chart provides a condensed schedule of government-wide capital assets with comparative balances between the current and last fiscal year.

	Governmental Activities			Business-type Activities				Total

CITY OF NORTH MIAMI BEACH, FLORIDA MANAGEMENT'S DISCUSSION AND ANALYSIS (unaudited) SEPTEMBER 30, 2021

Long-term Debt

Fitch Ratings upgraded the bond rating to "AA-" with a stable outlook during 2016. S&P and Fitch affirmed the City's ratings in January 2020. On October 15, 2021, subsequent to the close of the fiscal year, the City received Fitch Ratings Services rating to 'A+ 'from 'AA- with an outlook to negative. The downgraded of the bond rating reflects unexpected weakening in fiscal year 2020 as revenues were impacted by the pandemic and related moratoriums and the City taking control back from the private management company.

At the end of the current fiscal year, the City had total bonded debt outstanding, net of bond premiums of \$132.1 million, total notes payable of \$.9 million, and State Revolving loans outstanding of \$17.8 million. Of this amount, \$12.0 million was approved by referendum of the City's voters. The remaining \$101.4 million of the bonds, notes and loans has been secured by specified revenue sources of the water and sewer utility operating income. Tax Increment Financing revenues have been pledged for the CRA debt totaling \$.9 million.

The following chart provides information on the City's outstanding long-term debt with comparative balances between the current and last fiscal year.

	 Governmental activities				Business-type activities				Total		
	<u>2021</u>		2020		<u>2021</u>		<u>2020</u>		<u>2021</u>		<u>2020</u>

Denominated Long-Term Debt Outstanding (in millions)

This chart indicates that the City continues to make steady progress in paying down its debt obligations. Additional information on the City's long-term debt can be found in Note 9 of this report.

Economic Factors and Next Year's Budgets and Rates

The City's property tax is levied every October 1st, on the assessed value listed as of the prior January 1, for all real and personal property located in the City. Property taxes are based on a millage rate (one mil is the equivalent of \$1 per \$1,000 of assessed value or 0.001), which is applied to the total taxable value of all real property and certain tangible personal property. The Miami-Dade County Property Appraiser establishes assessed values and delivers the Certified Taxable Value of each property to the City on or before July 1st of each year. The gross taxable value on January 1, 2021, upon which the 2021-2022 levy was based, is approximately \$3.66 billion.

Depending upon policies established by the City Commission, revenue from Ad Valorem taxes may be used to fund both operating costs and capital projects. The City is permitted by state law to levy taxes up to 10 mils of assessed valuation for the General Fund. State constitutional provisions exist for raising the millage rate above the 10-mil cap by local referendum and for debt service or provision of municipal-type services within the City. The adopted operating millage rate for Fiscal Year 2022 is 6.2000 per \$1,000 of taxable value which is the same as the prior fiscal year's operating millage rate. The adopted debt service millage rate is 0.5740 per \$1,000 of taxable value which is a reduction of 0.0281 from Fiscal Year 2021 debt service millage rate of 0.6021.

The City was allocated a total of \$21.56 million from the American Rescue Plan Act (ARPA) and in September 2021, the City Commission approved staff's ARPA allocation, which laid out the proposed major expenditure categories of the projected ARPA funding. The first distribution of the proceeds in the amount of \$10.78 million was received in October 2021 and the second half is in the amount of \$10.78 is anticipated to be received in October 2022. In FY 2022, approximately \$1.1 million of ARPA funds will be used to fund government services in the General Fund and approximately \$1.2 million will be used to fund government services in the Solid Waste Fund. The remaining amounts

CITY OF NORTH MIAMI BEACH, FLORIDA MANAGEMENT'S DISCUSSION AND ANALYSIS (unaudited) SEPTEMBER 30, 2021

will be used towards economic stabilization, infrastructure and various other programs approved by the City Commission.

Requests for Information

This financial report is designed to provide a general overview of the City of North Miami Beach's finances for all those with an interest in the City's finances and to demonstrate the City's accountability. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to:

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2021

Net change in fund balances - total governmental funds (page 34)		\$	2,010,549
Amounts reported for governmental activites in the Government-wide Statement of Activities (page 31) are different because:	1		
Governmental funds report capital outlays as expenditures while the Statement of Activities reports depreciation expense on capital assets. This is the amount by which capital outlays exceeded depreciation in the current period. The details of the difference (excluding the internal service fund) are as follows:			
Capital outlay Depreciation expense Net adjustment	\$ 5,353,66 (3,810,99		1,542,675
Net effect of various miscellaneous transactions involving capital asstes (ie: sales, trade-ins, capital outlay not meeting threshold)			(111,453)
The issuance of long-term debt provides current financial resources to governmental funds. Repayment of the principal consumes current financial resources of governmental funds. Neither transaction, however, has any effect on net position. The details of the difference (excluding the internal service fund) are as follows: Principal payments: General obligation and capital improvement bonds Notes payable Net adjustment	1,440,00 166,66		1,606,667
Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.			
Changes in: Compensated absences Estimated claims OPEB liability Accrued interest Deferred outflows of resources Deferred inflows of resources Net pension liability	(267,33 (1,960,00 2,199,75 24,27 (3,307,99 (5,797,54 5,835,88	00) 52 71 95) 42)	(3,272,971)
The internal service funds are used by management to charge the costs of information technology to other funds. The net revenue is reported with governmental activities.			659,557

Note 1 - Summary of Significant Accounting Policies

The City of North Miami Beach (the City) was incorporated in 1926. The City operates under a Commission-Manager form of government. In addition to general government services including police, library, parks and recreation, code compliance and public works provided to its residents, the City operates water, sewer, stormwater and solid waste utilities, provides building permitting and inspection services and maintains various trust, agency, and custodial funds in a fiduciary capacity. The City does not provide educational, fire or hospital facilities. Those services are provided by the Miami-Dade County School Board and Miami-Dade County, respectively.

Financial Reporting Entity

The financial statements were prepared in accordance with Governmental Accounting Standards. Those standards establish definitions for reporting on the financial reporting entity. The definition of the financial reporting entity is based upon the concept that elected officials are accountable to their constituents for their actions. One of the objectives of financial reporting is to provide users of financial statements with a basis for assessing the accountability of the elected officials. The financial reporting entity consists of the primary government, organizations for which the City is financially accountable and other organizations for which the nature and significance of their relationship with the City are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The City is financially accountable for a component unit if it appoints a voting majority of the organization's governing board and is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to or impose specific financial burdens on the City.

The North Miami Beach Community Redevelopment Agency (the CRA) was created by the Mayor and City Commission on December 21, 2004 by adoption of Resolution R2004-86 accepting a delegation of powers from the Miami-Dade Board of County Commissioners and declaring the Mayor and City Commission to be the Agency in accordance with Section 163.357 of the Florida Statutes under the Community Redevelopment Act of 1969, enacted by the Florida Legislature. Miami-Dade County retains the final authority to approve the annual CRA budget, redevelopment plan and amendments, and the issuance of long-term debt. The purpose of the CRA is the elimination and prevention of blight conditions within the designated community redevelopment area. Since the CRA area is entirely within City limits, CRA activities benefit the City almost exclusively. The City Commission acts as the CRA's Board of Directors, the Mayor is the Chairman and the City Manager is the Executive Director. The governance structure allows the City to exert significant influence over the activities of the CRA. Considering these parameters, the CRA meets the criteria of a blended component unit and has been included as an integral part of the attached financial statements as a special revenue fund of the City of North Miami Beach. Additional information on the CRA can be found in Note 14 to the financial statements.

Government-wide and Fund Financial Statements

The basic financial statements of the City have been prepared in conformity with accounting principles generally accepted in the United States (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The basic financial statements consist of the government-wide and fund financial statements. Each set of statements distinguish between the governmental and business-type activities of the City. The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on the non-fiduciary activities of the primary government and its component units. The statement of net position reports financial and capital resources of the City's governmental and business-type activities. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for services provided. The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported as *general revenues*.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. The primary exception is charges between the City's various utility functions and administrative functions of the City.

Note 1 - Summary of Significant Accounting Policies (continued)

Government-wide and Fund Financial Statements

Elimination of these charges would distort the costs reported for the business-type activities and incurred by the administrative departments.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. All remaining non-major funds are aggregated and reported as other governmental or other enterprise funds.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

Government-Wide Financial Statements

The government-wide financial statements are reported using the *economic resources measurement* focus and the *accrual basis of accounting,* as are the proprietary fund and fiduciary fund financial statements. Agency funds are fiduciary funds that are also reported using the economic resources measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Fund Financial Statements

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Certain taxes, and franchise fees are considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. Revenue for expenditure driven grants are recognized when the qualifying expenditures are incurred. All other revenue items are considered to be measurable and available only when cash is received by the City.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's proprietary funds are charges to customers for services. Operating expenses for proprietary funds include the cost of services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The City reports the following major governmental funds:

- The *General Fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for separately.
- The *Community Redevelopment Agency* is used to account for the operations of the North Miami Beach Community Redevelopment Agency (CRA) as a blended component unit. The agency is funded by tax increment financing from the City and Miami-Dade County.

Note 1 - Summary of Significant Accounting Policies (continued)

Measurement Focus, Basis of Accounting and Financial Statement Presentation (continued)

Fund Financial Statements (continued)

The City reports the following major proprietary funds:

- The *Water Utility System Fund* accounts for the activities of providing water treatment and distribution service to the utility's customers.
- The *Wastewater Utility System Fund* accounts for the operation of the sewage pumping stations and collection systems to customers both inside and outside the City's boundaries.
- The Solid Waste Fund accounts for providing sanitation services within the City.

Additionally, the City reports the following fund types:

Internal Service Fund – The *Information Technology Fund* is classified as a governmental activity because it provides City-wide services on a cost reimbursement basis.

Fiduciary Funds – The City acts in a fiduciary capacity with regard to the *Pension Trust Funds, OPEB Trust Fund and Police Holding Account Custodial Fund* which is used to segregate, and hold seized assets until adjudication orders are received and distribution is determined by the courts.

Assets, Deferred outflows of resources, Liabilities and Deferred inflows of resources

1. Pooled Cash and Investments

Resources of all funds, with the exception of the fiduciary funds and certain other investment accounts, have been combined into a pooled cash and investment system for the purpose of maximizing earnings. Interest earned on pooled cash and investments is allocated monthly based upon equity balances of the participating funds. Cash and cash equivalents include pooled cash and investments and are defined as short-term, highly liquid investments with original maturities of three months or less. Restricted assets include resources subject to externally imposed restrictions such as creditors, grantors, laws and regulations. Assets are restricted for customer deposits and funds provided by debt issuance to finance the cost of capital equipment and improvement projects.

Surplus funds are invested in accordance with the provisions of the City's adopted investment policy. City investments are recorded in accordance with GASB Statement No. 72, *Fair Value Measurement and Application,* which establishes a hierarchy based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are based on quoted prices in active markets for identical assets; Level 2 inputs are based on significant other observable inputs; Level 3 inputs are based on unobservable inputs. As of September 30, 2021, all of the City's, OPEB Trust Fund's and General Management Employee Pension Plan's government securities and corporate bonds have fair value measurements using level 2 valuation inputs using pricing models maximizing the use of observable inputs for similar securities. There are no assets valued using non-recurring fair value measurements.

2. Receivables and Payables

Activities between funds that represent lending and borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to or due from other funds". Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

3. Inventories and Prepaid Items

Inventories are stated at average cost on a specific identification basis and are recorded as an asset when purchased and as an expense when consumed (consumption method). Prepaid costs are payments that are applicable to future accounting periods and are recorded as an asset when purchased and as an expense when consumed (consumption method) in both government-wide and fund financial statements.

Note 1 - Summary of Significant Accounting Policies (continued)

Assets and Liabilities (continued)

4. Capital Assets

Capital assets, including property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks) are reported in the applicable government or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$1,000 for tangible capital assets, \$30,000 for software, and \$75,000 for easements, and an estimated useful life in excess of one year.

Outlays for capital assets and improvements, including design, engineering, installation and similar costs are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. Purchased or constructed assets are recorded at actual cost or estimated historical cost if actual cost is unavailable. Donated capital assets are recorded at acquisition value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Capital assets of the City are depreciated using the straight-line method over the following estimated useful lives:

Asset	Years
Buildings and utility plant	30-50
Improvements other than buildings	20
Furniture, fixtures, machinery and equipment	5-10
Infrastructure	30

5. Revenue Received in Advance, Deferred Inflows and Deferred Outflows of Resources

Grants received in advance are recorded as a liability in the Statement of Net Position and the Governmental Funds Balance Sheet until the eligibility criteria required to recognize the revenue has been completed. Business tax receipts collected in advance, and deferred pension and OPEB income represent acquisition of net position that applies to future periods and are recorded as deferred inflows of resources. Deferred pension and OPEB expense represent the consumption of net position applicable to future periods and is recorded as deferred outflows of resources. Because of their long-term attributes, deferred pension inflows and outflows are not included in the governmental fund financial statements.

6. Compensated Absences

It is the City's policy to permit full-time employees to accumulate limited amounts of earned vacation and sick leave. Upon separation from service, employees receive payment for a portion of unused vacation time and sick leave subject to length of service and contract classification. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements. The fund in which the employee's payroll expense has been recorded is used to liquidate such amounts. Typically, the General Fund, Transit Surtax Fund and the Community Redevelopment Agency are used for liquidation of the liability in the governmental funds.

7. Long-term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund type statements of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. In the governmental fund financial statements, bond premiums, discounts and bond issuance costs are recognized during the current period. The face amount of debt issued is reported as other financing sources. Premiums are reported as other financing sources while discounts are reported as other financing uses. Issuance costs are reported as debt service expenditures.

Note 1 - Summary of Significant Accounting Policies (continued)

Assets and Liabilities (continued)

8. Pensions

Net pension liability, deferred outflows and inflows of resources, pension expense, fiduciary net position and changes to fiduciary net position have been determined and reported on the same basis as they are reported by the plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Liability liquidation occurs in the CRA, Transit Surtax and General Fund.

Fund Equity

The City reports the following fund equity classifications:

Nonspendable fund balance. Nonspendable fund balances are amounts that cannot be spent because they are either (a) not in spendable form-such as inventory or prepaid amounts or (b) legally or contractually required to be maintained intact-such as a perpetual trust.

Restricted fund balance. This classification reflects the constraints imposed on resources either (a) externally by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation. For example, governmental and proprietary funds collect impact fees as imposed under local ordinances 2005-16, 2005-17 and 2006-20. The intent of these ordinances is to assist in the implementation of the City's state-required comprehensive plan and to assure that new development bears a proportionate share of the cost of capital expenditures necessary to provide improvements to infrastructure.

Committed fund balance. These amounts can only be used for specific purposes pursuant to constraints imposed by formal resolutions or ordinances of the City Commission (which are both equal and the government's highest level of decision-making authority). Committed amounts cannot be used for any other purpose unless the City Commission removes the specified use by taking the same type of action (resolution or ordinance) imposing the commitment. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements.

Assigned fund balance reflects the amounts constrained by the City's intent to be used for specific purposes but are neither restricted nor committed. The City Commission and City Manager have the authority to assign amounts to be used for specific purposes at will.

Unassigned fund balance is the residual classification for the General Fund. It is the City's policy to maintain an amount equal to at least ten percent of total budgeted revenues of the General Fund as originally adopted as unassigned fund balance. This fund balance classification is also used to report negative fund balances in other governmental funds. When both restricted and unrestricted resources are available for use, it is the City's policy to use externally restricted resources first, then unrestricted resources, committed, assigned, and unassigned, in order as needed.

Property Taxes

Under Florida law, the assessment of all properties and the collection of all county, municipal, school district and special district property taxes are consolidated in the offices of the County Property Appraiser and County Tax Collector. Property taxes (ad valorem taxes) are assessed on January 1 (the lien date) and are billed and payable November 1, with discounts of one to four percent if paid prior to March 1 of the following calendar year. All unpaid taxes on real and personal property become delinquent on April 1 and accrue interest charges from April 1 until June 1, when tax certificates are sold at auction.

The City is permitted by Article 7, Section 8 of the Florida Constitution to levy taxes up to \$10 (10 mills) per \$1,000 of assessed valuation for governmental operations. In addition, unlimited amounts may be levied for the payment of principal and interest on general obligation long-term debt, subject to a limitation on the amount of debt outstanding. The millage rate to finance general governmental services for the year ended September 30, 2021, was 6.2000 mills per \$1,000 of assessed valuation; the millage rate for bonded debt service was 0.6021 mills.

Note 2 - Stewardship, Compliance and Accountability

At September 30, 2021, the City reported a deficit fund balance in the Series 2011 Debt Service Fund. The deficit in the debt service fund is related to inadequate transfers from supporting sources. The deficit is expected to be eliminated during the next fiscal year.

The City also reported a deficit fund balance in the Grants Fund for September 30, 2021. The deficit will be reduced through the reimbursement from the Florida Department of Transportation for costs related to the Greynolds Park Bike Lane project.

The City's contractual agreement with Waste Management officially ended on December 1, 2020. Due to unforeseen circumstances, the City entered into an extended month-to-month service agreement with them. For the first three (3) months, the Residential and Commercial billing monthly costs increased by 75%. An additional increase of 5% per month was imposed for the remaining seven (7) months of the 2021 fiscal year. As a result of the added costs, the City's Solid Waste Fund for FY2021 showed a deficit of \$4 million.

In order to recoup and provide additional revenue, the city imposed a rate increase in May 2021 of 25% for Residential and approximately 140% for Commercial customers.

For FY2022, the City received ARPA funds and will allocate \$1.175 million to offset some of the deficit. In addition, Solid Waste fees for multi-family and commercial customers will be increased by 10% over the next 7 years and franchise fees will be increased by a nominal amount.

Note 3 - Deposits and Investments

GASB Statement No. 40 *Deposit and Investment Risk Disclosure* (GASB Statement No. 40) is designed to inform financial statement users about deposit and investment risks that could affect a government's ability to provide services and meets its obligations as they become due. GASB Statement No. 40 addresses common deposit and investment risks related to credit risk, custodial credit risk, concentration of credit risk, interest rate risk, and foreign currency risk and requires that deposit and investment policies related to the risks be disclosed, as applicable.

In addition to insurance provided by the Federal Depository Insurance Corporation, all deposits are held in banking institutions approved by the State Treasurer of the State of Florida to hold public funds. Under Florida Statutes Chapter 280, *Florida Security for Public Deposits Act,* the State Treasurer requires all Florida qualified public depositories to deposit with the Treasurer or banking institution eligible collateral. In the event of a failure of a qualified public depository, the remaining public depositories would be responsible for covering any resulting losses. Accordingly, all amounts reported as deposits are deemed as insured or collateralized with securities held by the entity or its agent in the entity's name.

The State Board of Administration (SBA) administers the Florida PRIME Fund which is governed by Chapter 19-7 of the Florida Administrative Code and Chapters 218 and 215 of the Florida Statutes. These rules provide guidance and establish the policies and general operating procedures for the administration of the Florida PRIME. The Fund is not a registrant with the Securities and Exchange Commission (SEC); however, the Board has adopted operating procedures consistent with the requirements for a 2a-7 fund, which permits money market funds to use amortized cost to maintain a constant NAV of \$1 per share. The Florida PRIME is a Local Governmental Investment Pool (LGIP), and therefore considered an external investment pool for GASB reporting purposes.

The fair value of the position in the Florida PRIME is equal to the value of the pool shares. The investments in the Florida PRIME are not insured by FDIC or any other governmental agency.

The investment policies of the Retirement Plans for the General Employees and for Police Officers and Firefighters have been adopted by their respective Boards of Trustees. The policies have been designed to maximize Plan asset values while assuming risk levels that are consistent with the respective Board's risk tolerance and diversifying risk across various asset classes including bonds, debentures and other corporate obligations, equity securities and domestic real estate.

Note 3 - Deposits and Investments (continued)

The OPEB Trust and the Retirement Plan and Trust for General Management Employees are invested in the Florida Municipal Investment Trust (FMIvT). The FMIvT operates as a fiduciary trust fund under governmental accounting rules that require preparation of financial statements. The FMIvT is a Local Governmental Investment Pool (LGIP), and therefore considered an external investment pool for GASB reporting purposes. The Board of Trustees is designated as having oversight authority and official custody of the funds, which are invested by the purchase of shares of beneficial interest in the trust, not the individual securities held by the trust. The fair value of the positions in the FMIvT is equal to the value of the portfolio shares. The investments in the FMIvT are not insured by FDIC or any other governmental agency.

Deposit and investment balances as of September 30, 2021 are as follows:

Investment Type	Credit Quality Rating	<u>I</u>	air Value
Governmental and business-type activities

Note 3 - Deposits and Investments (continued)

Risk Disclosures

Credit Risk is the risk that a security or a portfolio will lose some or all of its value due to a real or perceived change in the ability of the issuer to repay its debt. A credit risk exists when there is a possibility the issuer or other counterparty to an investment may be unable to meet its obligations. The City's, the OPEB Trust's and the Retirement Plan and Trust for General Management Employees' investment policy limits the quality and quantity of investments and requires pre-qualification of the financial institutions, broker/dealers, intermediaries, and advisors with which the City conducts investment transactions. These policy requirements are intended to mitigate the effects of credit risk.

Custodial Credit Risk is the risk that, in the event of the failure of the counterparty, the City or Pension Trust Plans will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Consistent with the investment policies of the City, the Retirement Plans for General Employees and for Police Officers and Firefighters, the investments are held by each entity's custodial bank and registered in each entity's name.

Foreign Currency Risk is the risk that fluctuations in currency exchange rates may affect transactions conducted in currencies other than U.S. dollars and the carrying value of foreign investments. The City, the OPEB Trust nor the Retirement Plan and Trust for General Management Employees invests in securities denominated in foreign currencies. The value of investments of the Retirement Plan for General Employees subject to foreign currency risk at September 30, 2021 is approximately 11.4% of total investments. The Plan's investment policy limit is 25% of any manager's total Plan portfolio. The value of investments of the Retirement Plan for Police Officers and Firefighters subject to foreign currency risk at September 30, 2021 is approximately 15.7% of total investments. The Plan's investment policy limit is 25% of any manager's total Plan portfolio.

Concentration Credit Risk - The City's investment policy and the investment policies of the Retirement Plans for the General Employees and for Police Officers and Firefighters have limitations on the amount that can be invested in any one issuer other than the U.S. Government and its agencies. Neither the City nor either Retirement Plan held investments of any one issuer of more than 5% of Fiduciary Net Position as of September 30, 2021. The following were the Boards' adopted asset allocation policies as of September 30, 2021:

		Target
Retirement Plan	Asset Class	Allocation
General Employees	Domestic equities	20% to 80%
	International equities	0% to 25%
	Fixed income	15% to 50%
	Infrastructure	0% to 10%
	Hedge funds	0% to 10%
	Real estate	0% to 12.5%
	Cash and equivalents	Minimal
Police and Firefighters	Domestic equities	20% to 75%
	International equities	5% to 25%
	Fixed income	20% to 50%
	Hedge funds	0% to 10.0%
	Real estate	0% to 10.0%
	Cash and equivalents	Minimal
General Management &	Core bonds	30%
OPEB	Domestic equities	39%
	Non-US equity	21%
	Real estate	10%
FRS	Cash equivalents	1.0%
	Fixed income	20.0%
	Global equity	54.2%
	Real estate	10.3%
	Private equity	10.8%
	Strategic investments	3.7%

Note 3 - Deposits and Investments (continued)

Risk Disclosures (continued)

Concentration Credit Risk (continued)

Interest Rate Risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. Interest rate risk disclosures are required for all debt instruments as well as investments in mutual funds, external investment pools and other pooled investments that do not meet the definition of a "2a-7 like" pool.

The City's investment policy is structured to mitigate the effects of interest rate risk by placing limits on the maturity and duration of specific investment vehicles. The objective is to structure the portfolio so that securities mature to meet cash requirements for ongoing operations thereby avoiding the need to sell securities on the open market prior to maturity. The City has approximately 11.4% of its portfolio invested in securities that are at risk due to the portfolio's exposure to fair value losses arising from increasing interest rates. At September 30, 2021 the City's investments had the following distribution of maturities:

				Investr	nentl	Maturities (in y	years)	1		
Investment Type		Fair Value		Less than 1		<u>1 to 5</u>		6 to 10	More than 10	
US agencies	\$	33,454,416	\$	28,961,796	\$	4,492,620	\$	-	\$	-
Corporate bonds		23,971,700		23,971,700		-		-		-
Commercial paper		55,075,960		55,075,960		-		-		-
Municipal bonds		7,438,660		7,438,660		-		-		-
Total	\$	119,940,736	\$	115,448,116	\$	4,492,620	\$	-	\$	-

The OPEB Trust Fund's and the General Management Employees Pension Plan's investments are all mutual funds which do not meet the definition of a 2a-7 like pool. The Plans use the weighted average maturity method (WAM) for the FMIvT Broad Market High Quality Bond Fund which results in a modified duration of 5.39 years and a weighted average maturity of 6.30 years.

The investment policy for the Retirement Plan for General Employees does not use limits on investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. Investments in government securities and corporate bonds totaled 20.8% of the portfolio and had the following distribution of maturities at September 30, 2021:

			Investment Maturities (in years)							
Investment Type Fair Va		Fair Value	e Less than 1		<u>1 to 5</u>		<u>6 to 10</u>		More than 10	
Corporate bonds	\$	3,747,483	\$	2,061,598	\$	227,297	\$	1,458,588	\$	-
Fixed income mutual fund		2,240,028		-		750,409		620,488		869,131
US agencies		5,399,301		-		-		-		5,399,301
US treasuries		8,129,468		1,154,953		4,514,323		2,460,192		-
Total	\$	19,516,280	\$	3,216,551	\$	5,492,029	\$	4,539,268	\$	6,268,432

The investment policy for the Retirement Plan for Police Officers and Firefighters does not use limits on investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. Investments in government securities and corporate bonds totaled 26.0% of the portfolio and had the following distribution of maturities at September 30, 2021:

			Investment Maturities (in years)							
Investment Type Fair Value		Less than 1		<u>1 to 5</u>		<u>6 to 10</u>		More than 10		
US treasuries	\$	14,382,657	\$	1,999,918	\$	7,879,126	\$	4,503,613	\$	-
US agencies		9,350,320		-		-		-		9,350,320
Corporate bonds		6,648,144		2,934,627		1,871,194		1,842,323		-
Total	\$	30,381,121	\$	4,934,545	\$	9,750,320	\$	6,345,936	\$	9,350,320

Note 4 – Receivables

Accounts Receivable

Accounts receivable at September 30, 2021 for the City's individual major funds and non-major funds in the aggregate, are as follows:

		Non-major		Non-major						
	General	Governmental	Water	Sewer	Solid Waste	Enterprise	Total			
Account Receivable										
Billed	\$2,659,714	\$-	\$13,324,796	\$3,269,945	\$ 3,354,963	474,038	\$23,083,456			
Unbilled	-	-	-	-	-	-	-			
Taxes	1,705,772	-	-	-	-	-	1,705,772			
Franchise fees	632,776	-	-	-	-	-	632,776

uncollectibles	1,429,311	-	7,754,548	1,929,393	1,847,020	304,254	13,264,526			
Total accounts receivable	\$ 4,513,166	\$ 1,415,548	\$ 5,633,027	\$ 1,434,078	\$ 1,507,943	\$ 169,784	\$14,673,546			

Receivables at September 30, 2021, consist primarily of billed and unbilled charges for services in the enterprise funds. The governmental funds' receivables consist of grants, taxes and intergovernmental receivables mostly due from the state and county pursuant to shared revenue agreements; franchise fees and utility taxes paid in arrears. Other receivables include business tax receipts and fees charged to other municipalities for utility bill processing and collection.

Notes Receivable

The sewer utility reports a long-term loan receivable totaling \$245,491 in association with the State Revolving Loan program for the Highland Village Sewer Connection Project whereby the City has paid for sewer connections to certain properties within Highland Village and the participants will repay the cost over time.

Note 5 - Restricted Assets

Restricted assets are cash and investments held by the City that are likely to require repayment. These resources are classified as restricted cash with offsetting liabilities on the balance sheet. Revenue bond proceeds are required to be expended for the capital improvement projects for which the bonds were issued. Customer deposits are collected in the water, sewer, and solid waste funds and are repaid to the customer at the time the account is closed or applied to the customer's final bill in the case of non-payment. The restricted assets balances at year end are as follows:

	Revenue nd Proceeds	-	ustomer Deposits	Total
Business-type activities:				
Water	\$ 51,176,349	\$	4,099,095	\$ 55,275,444
Wastew ater	11,147,958		483,825	11,631,783
Solid Waste	 -		21,637	 21,637
Total business-type activities	\$ 62,324,307	\$	4,604,557	\$ 66,928,864

Note 6 - Interfund Receivables, Payables and Transfers

Interfund Receivables

The purpose of all interfund receivables is to eliminate credit cash balances for financial statement presentation. Interfund receivables as of September 30, 2021 are as follows:

		Due to	0	Due from		
Fund	<u>O</u> 1	ther Funds	Other Funds			
Governmental Activities						
General Fund	\$	-	\$	3,519,899		
Non-major Governmental Funds						
Grants Fund		863,983		-		
Series 2011 Bond Debt Service Fund		16,340		-		
Total Non-major Governmental Funds		880,323		3,519,899		
Business-type Activities						
Solid Waste Fund		2,639,576				
Total due to/from other funds	\$	3,519,899	\$	3,519,899		

Interfund transfers

Interfund transfers into the general fund are used to allocate expenses to other operating funds. Allocated costs include general liability and worker's compensation insurances as well as administrative expenses. Interfund transfers into the non-major governmental funds are to provide for debt service payments and grant matching requirements. Interfund transfers made during fiscal year 2021 are as follows:

	Transfers In								
		General							
Transfers out		Fund		<u>Total</u>					
Community Redevelopment Agency	\$	318,516	\$	318,516					
Non-major governmental funds		195,764		195,764

Depreciation

Depreciation expense for fiscal year 2021 was charged to the following functions of the City:

Governmental Activities:	
General government	\$ 2,209,939
Public safety	986,596
Parks & Recreation	249,535
Library	54,676
Public works	310,243
Information Technology	 103,979
Total depreciation expense - governmental activities	\$ 3,914,968
Business-type activities:	
Water	\$ 5,841,560
Sewer	1,039,077
Stormwater	190,137
Solid Waste	114,762
Building permit	23,894
Customer Service	 11,890
Total depreciation expense - business-type activities	\$ 7,221,320

Construction Commitments

Beginning in fiscal year 2009, the City received funding for various capital projects from the Florida Department of Environmental Protection State Revolving Loan Fund. These loans are considered grants from the U.S. Environmental Protection Agency passed-through the State of Florida and include \$5.5 million of principal forgiveness. The awards include \$10.0 million for the removal of volatile organic chemicals from drinking water produced by the City's utility plant, \$10.3 million for the installation of an automated meter reading system for the City's water meters, \$1.6 million to facilitate sewer connections to City facilities in the Highland Village neighborhood, \$3.8 million for the inflow and infiltration reduction program, \$3.6 million for the design and construction of a major sewer rehabilitation project. As of fiscal year 2020, all of the City has met its commitments with regard to all of the projects.

Encumbrances

Purchase orders are issued throughout the fiscal year to encumber budgets in the governmental funds. Encumbrances as of September 30, 2021 are as follows:

Major Funds:

General Fund	\$ 3,011,280
Other governmental funds	77,687
Total encumbrances	<u>\$ 3,088,967</u>

Note 8 – Deferred Outflow/Inflows of Resources

In addition to assets, the Statement of Net Position includes separate sections for the financial statement elements *deferred outflows of resources* and *deferred inflows of resources* that represent consumption of net position and acquisition of net position, respectively that applies to a future period and will be recognized as expenditures or revenues in the future period to which it applies. As of September 30, 2021, the City reported deferred outflows of resources consisting of deferred pension expenses totaling \$17,802,134 and deferred OPEB expenses of \$1,820,117. Deferred inflows of resources consist of business tax receipts (taxes received in advance) that were billed at the end of the fiscal year but are not due until the following fiscal year totaling \$1,204,590, deferred pension income of \$4,986,823 and deferred OPEB income of \$1,636,231.

Note 9 - Long-term Debt

There are a number of limitations and restrictions contained in the various bond indentures. At September 30, 2021 the City is in compliance, in all material respects, with significant covenants and restrictions. Interest and principal payments have been made timely on all debt obligations.

Bonds Payable

On January 29, 2020, the Water Utility issued \$40,030,000 par amount of Water Revenue Bonds, Series 2020A at a premium of \$10,267,112.55 and \$39,945,000 par amount of Taxable Water Revenue Refunding Bonds, Series 2020B at coupon rates of 5%. The proceeds of Series A will be used to invest in the Utility's five-year Capital Improvement Plan. The proceeds of Series B were transferred to TD Bank, N.A. to provide for the escrow requirements for the partial redemption of the Water Revenue Refunding Bonds, Series 2012. The unrefunded portion of the Series 2012 bonds total \$7,730,000 and will be fully redeemed on August 1, 2022. The remainder of the Series 2012 bonds will be considered defeased and the liability will be removed from the Statement of Net Position for the fiscal year September 30, 2020. The refinancing resulted in an economic gain of approximately \$2.7 million and a decrease of approximately \$316,000 in annual debt service payments. The outstanding amount of escrow bonds total \$37,130,000 which is due and payable in full on August 1, 2022.

Note 9 - Long-term Debt (continued)

Bonds Payable (continued)

On June 25, 2020, the Water Utility was awarded a loan from the United States Government under the Water Infrastructure and Finance Innovation Act (WIFIA) administered by the Environmental Protection Agency. The Ioan was issued at an amount not to exceed \$44,204,486 and will be used for the Norwood Water Treatment Plant Upgrade and Transmission Main Improvements and Replacement Projects. The Ioan is secured by the Water Utility operating revenues, requires a 51% match and carries an interest rate of 1.36%. Interest becomes payable upon the first drawdown. The principal payback period begins five years after completion of the project which is estimated to be August 1, 2025. The first of 30 annual installments is due on August 1, 2031.

Bond issues authorized and outstanding at September 30, 2021 are summarized as follows:

	Principal			
General Obligation Bonds and Notes	0	utstanding		
\$8,190,000 General Obligation Refunding Bond, Series 2012 Capital Appreciation and term bonds; secured by revenues pledged from voted debt millage; due in annual installments of \$585,000 to \$760,000 from May 1, 2013 to May 1, 2024; interest at 2.08%.	\$	2,235,000		
\$14,835,000 Chase Bank, N.A., Promissory Note, Series 2011, secured by revenues pledged from voted debt millage; due in annual installments of \$350,000 to \$1,220,000 from November 1, 2012 to November 1, 2030; interest at 3.99%.		9,760,000		
Total General Obligation Bonds and Notes	\$	11,995,000		
Revenue Bonds				
Water Utility System				
\$56,060,000 Water Revenue Refunding Bonds, Series 2012; secured by revenues pledged from gross revenues, less operating expenses of the water utility; due in annual installments of \$690,000 to \$4,470,000 beginning August 1, 2013 to August 1, 2032; interest at 2.0% to 5.0%.	\$	2,920,000		
\$40,030,000 Water Revenue Bonds, Series 2020A; secured by revenues pledged from gross revenues, less operating expenses of the water utility; due in annual installments of \$220,000 to \$3,345,000 beginning August 1, 2021 to August 1, 2049; coupon interest at 5.0%; issued at a premium of \$10,267,112.55.		39,810,000		
\$39,945,000 Water Revenue Refunding Bonds, Series 2020B; secured by revenues pledged from gross revenues, less operating expenses of the water utility; due in annual installments of \$980,000 to \$4,250,000 beginning August 1, 2020 to August 1, 2032; interest at 1.816% to 2.656%.		38,590,000		
Total Water Utility System Revenue Bonds		81,320,000

State Revolving Loan - Program

In 2009, the City began participating in the Revolving Loan Program administered by the State of Florida. This program provides funding for local governments from the Department of Environmental Protection for the construction of wastewater pollution control facilities and public water systems. The loans require semi-annual principal and interest payments and have repayment terms of 20 years with fixed interest rates. Capitalized interest has been included in the loan amount. Primary terms of each agreement are provided as follows:

State Revolving Loans - Sewer	Principal utstanding
\$1,195,062 State Revolving Fund Loan Agreement, Number WW130100; secured by revenues pledged from the gross revenues less operating expenses and senior debt obligations of the Sewer System; due in semi-annual installments of \$35,977 from May 15, 2011 through November 15, 2030; interest at 1.94%.	\$ 621,536

Pledged Revenues

An evaluation of the sufficiency of pledged revenues for all of the City's long-term debt for fiscal year ending September 30, 2021 follows:

Issue	Revenue Source	Ratio
General Obligation Bonds and Notes		
Series 2011	Voted debt millage	1.00
Series 2012	Voted debt millage	1.00
Revenue Bonds		
Series 2012	Gross revenue less operating expenses	3.63
Series 2020A*	Gross revenue less operating expenses	5.00
Series 2020B	Gross revenue less operating expenses	8.64
Sewer Revenue 2020	Gross revenue less operating expenses	4.49
Notes issues:		
Series 2007B	TIF revenue and interest earnings	15.47
State Revolving Loans:		
DW Series	Gross revenue less operating expenses	
	and senior debt obligations	4.01
WW Series	Gross revenue less operating expenses	
	and senior debt obligations	2.85

Note 10 - Risk Management

Self-Insurance

The City is exposed to various risks of loss related to torts, theft or damage to and destruction of assets, errors and omissions and natural disasters for which the City carries commercial insurance. The City established a risk management program for workers' compensation and general liabilities. Premiums are paid into the self-insurance funds, which are reported with the General Fund. Florida law limits the liability in negligence matters to \$200,000 per person up to \$300,000 per occurrence. Liabilities are reported when it is probable that a loss has occurred, and the amount of the loss can be reasonably estimated. Liabilities include an estimated amount for claims that have been incurred but not reported (IBNR). Claim liabilities are calculated considering the effects of inflation, recent claim settlement trends including frequency and amount of pay-outs and other economic factors.

There were no reductions in insurance coverages from the prior years, however, the deductible on property insurance changed from \$50,000 to \$100,000 in order to contain costs. The City did not settle any claims that exceeded this coverage within the last three fiscal years. Additional coverage was obtained to protect the City from employment practices liability, after a careful market review. Finally, in order to ensure that an effective, comprehensive risk management program is in place, careful analysis of all coverage and related activity is monitored on a regular basis.

Balances and changes in the balances of claims liabilities during the past two fiscal years are as follows (in thousands):

	-	2021	2020		
Unpaid claims, beginning	\$	2,187	\$ 2,472		
IBNR claims		1,960	278		
Claim payments			 (563)		
Unpaid claims, ending	\$	4,147	\$ 2,187		

Contingent Liabilities

Federal and State programs were audited in accordance with the provisions of the Single Audit Act, the U.S. Office of Management and Budget Uniform Guidance, and the Rules of the Auditor General of the State of Florida. Pursuant to those provisions, financial assistance programs were tested for compliance with applicable grant requirements. Grantor agencies may subject grant programs to additional compliance tests, which could result in disallowed expenditures. Future disallowances of grant program expenditures, while not expected, could be material.

Litigation

The City is the defendant in several lawsuits incidental to its operations. Based upon the City Attorney's evaluation of pending cases, the estimated liability to which the City might be exposed is below \$1.0 million. The self-insurance funds, which are included in the General Fund, have assigned fund balances of approximately \$4.4 million at September 30, 2021.

Note 11 - Employee Retirement Systems

The City, as a single employer, maintains the following three public employee retirement system defined benefit pension plans covering substantially all full-time employees and certain former City firemen: the Retirement Plan for General Employees of the City of North Miami Beach, the Retirement Plan for Police Officers and Firefighters of the City of North Miami Beach and the Retirement Plan and Trust for General Management Employees of the City of North Miami Beach. These Plans are recorded as Pension Trust Funds. The Plans are administered by separate Boards of Trustees. In accordance with various provisions of State statutes and the City Charter, the City is obligated to fund the liabilities of the Plans based upon actuarial valuations performed at least every two years.

Note 11 - Employee Retirement Systems (continued)

The Retirement Plan for General Employees of the City of North Miami Beach and the Retirement Plan for Police Officers and Firefighters of the City of North Miami Beach issue a publicly available report that includes financial statements and required supplementary information for the Plans. These reports may be obtained by writing to: City of North Miami Beach Employees' Retirement System, 17011 NE 19th Ave., North Miami Beach, Florida 33162.

Plan Membership

Membership in each of the City's pension plans is included in the following schedule.

	General <u>Employees</u>		Police & Firefighters		General Management <u>Employees</u>			<u>OPEB</u>
Covered Payroll	\$	6,465,047	\$	7,246,268	\$	913,318	\$	26,053,434
Plan members: Currently receiving or entitled to receive benefits Active employees		343		140		40		340 392
Vested		58		23		2		
Non-vested		62		57		9		
Total members		463		220		51		732

Summary of Significant Accounting Policies

Basis of Accounting

Public Employee Retirement Systems (PERS) financial statements are prepared using the accrual basis of accounting. Employee and employer contributions are recognized as revenues in the period in which employee services are performed. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plan.

Method Used to Value Investments

The investment portfolios of the Retirement Plan for General Employees and the Retirement Plan for Police Officers and Firefighters are recorded in accordance with GASB Statement No. 72, *Fair Value Measurement and Application,* which establishes a hierarchy based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are based on quoted prices in active markets for identical assets; Level 2 inputs are based on significant other observable inputs; Level 3 inputs are based on unobservable inputs. A description of valuation methodologies follows.

Common stock: closing price reported on the New York Stock Exchange

Government securities: pricing models maximizing observable inputs for similar securities

Corporate bonds: pricing models maximizing the use of observable inputs for similar securities. This includes basing the value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs, such as current yield of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks or a broker quote, if available.

Hedge funds: net asset value per share, without further adjustment. Net asset value is based upon the fair value of the underlying investment.

Real estate: net asset value of shares held by the Plan at year end. The Plans have investments in a private market real estate investment for which no liquid public market exists.

Note 11 - Employee Retirement Systems (continued)

Method Used to Value Investments (continued)

The following tables present the Plans' fair value hierarchy for investments at fair value at September 30, 2021:

Plan Descriptions

The following brief descriptions of the Retirement Plans are provided for general information purposes only. Participants should refer to the Plan documents for more complete information.

Retirement Plan for General Employees

The benefit provisions and all other requirements of the Retirement Plan for General Employees are established by City Ordinance and are summarized as follows:

Vesting

Benefits are fully vested after 6 years of credited service if attained prior to September 30, 2013 and 10 years thereafter.

Eligibility for Retirement

Attainment of age 62 or age 55 with 20 years of credited service; or attainment of age 55 with 15 years of credited service, or completion of 20 years of credited service; or attainment of age 62 with 10 years of credited service, or age 60 with 25 years of credited service depending on bargaining unit and hire date.

Note 11 - Employee Retirement Systems (continued)

Plan Descriptions (continued)

Retirement Plan for General Employees (continued)

Annual Retirement Benefit

Normal retirement benefits are based upon 3.0% of "final monthly compensation" ("FMC"), as defined by the pension plan, times years of credited service through December 31, 2013 and 2.5% of "FMC" times credited service after December 31, 2013.

Other Benefits

The Plan provides for optional retirement benefits, early retirement, deferred retirement, deferred retirement option program (DROP) disability retirement and death benefits to some members.

Employee Contributions

Employees contribute 7% of their basic annual compensation beginning after two years of service. If any employee leaves covered employment before vesting, accumulated employee contributions plus interest are refunded to the employee.

City Contributions

City contributions are based upon actuarially determined amounts, which together with employee contributions and fund earnings, are sufficient to fund the plan. The City's actuarially determined and actual contribution amount for the current year was 3,371,110, or 51.51% of covered payroll.

Actuarial methods and assumptions

Actuarially determined contribution amounts for the Plan for the current year were determined as part of the October 1, 2020 actuarial valuation using the entry age normal cost method. Additional information as of the latest actuarial valuation follows:

Valuation Date	October 1, 2020
Actuarial cost method	Entry age normal
Amortization method	Level percent of pay, closed
Remaining amortization period	30 years
Asset valuation method	Smoothed market value
Actuarial Assumptions	
Actuarial Assumptions Investment rate of return	7.45%
•	7.45% 3.5% to 5.0%
Investment rate of return	

Mortality: For healthy male participants during employment, RP 2000 Combined Male Healthy Participant Mortality Table, with 50% White Collar / 50% Blue Collar Adjustment and fully generational mortality improvements projected to each future decrement date with Scale BB. For healthy female participants during employment, RP 2000 Combined Female Healthy Participant Mortality Table, with White Collar Adjustment and fully generational mortality improvements projected to each future decrement date with Scale BB. For healthy male participants post employment, RP 2000 Annuitant Male Mortality Table, with 50% White Collar / 50% Blue Collar Adjustment and fully generational mortality improvements projected to each future decrement date with Scale BB. For healthy generational mortality improvements projected to each future decrement date with Scale BB. For healthy generational mortality improvements projected to each future decrement date with Scale BB. For healthy female participants post employment, RP 2000 Annuitant Male Mortality Table, with 50% White Collar / 50% Blue Collar Adjustment and fully generational mortality improvements projected to each future decrement date with Scale BB. For healthy female participants post employment, RP 2000 Annuitant Female Mortality Table, with White Collar Adjustment and fully generational mortality improvements date with Scale BB. For healthy female participants post employment, RP 2000 Annuitant Female Mortality Table, with White Collar Adjustment and fully generational mortality improvements projected to each future decrement date with Scale BB.

For disabled male participants, RP 2000 Disabled Male Mortality Table, setback four years, without projected mortality improvements. For disabled female participants, RP 2000 Disabled Female Mortality Table, set forward two years, without projected mortality improvements.

Note 11 - Employee Retirement Systems (continued)

Plan Descriptions (continued)

Retirement Plan for Police Officers and Firefighters

The benefit provisions and all other requirements of the Retirement Plan for Police Officers and Firefighters are established by City Ordinance and are summarized as follows:

Vesting

Benefits are fully vested after ten years of credited service.

Eligibility for Retirement

Normal retirement is the earlier of age 52 or 22 years of service for firefighters and the earlier of age 52 or 20 years of credited service for police officers.

Annual Retirement Benefit

Normal retirement benefits are based upon 3.3% for firefighters and 3% for police officers of "final monthly compensation", as defined by the pension plan, times years of credited service.

Other Benefits

The Plan also provides for optional retirement benefits, early retirement, deferred retirement, deferred retirement option program (DROP) disability retirement and death benefits.

Employee Contributions

7% of pretax earnings

City Contributions

City contributions are based upon actuarially determined amounts, which together with employee and state contributions and fund earnings are sufficient to fund the Plan. The City's actuarially determined and actual contribution amounts for the current year were \$6,646,690 or 91.73% of covered payroll.

Actuarial methods and assumptions

Pursuant to Florida Statutes Section 185 and Section 175, the State of Florida makes contributions to fund police and firefighter benefits. These State contributions were recognized as revenue and expenditures by the City. During fiscal year 2021, the amounts were \$396,026 and \$287,680 for police and firefighters, respectively. Information related to the latest actuarial valuation, follows:

Note 11 - Employee Retirement Systems (continued)

Plan Descriptions (continued)

Retirement Plan for Police Officers and Firefighters (continued)

Valuation Date	October 1, 2019
Actuarial cost method	Entry age normal
Amortization method	Level percent closed
Remaining amortization period	30 years
Asset valuation method	Smoothed market value
Investment rate of return	7.50%
Projected salary increases	3.00%
Cost of living adjustments	2.5% on or before 1/31/2016
	1.5% after 1/31/2016
Inflation	3.00%

Mortality: For active male - Pub-2010 Safety Employees, headcount weighted, below median, set forward one year, projected with Scale MP-2018. For female - Pub-2010, Safety Employees, headcount weighted, set forward one year, projected with Scale MP-2018. For health inactive male - Pub-2010, Safety Retirees, headcount weighted, below median, set forward one year, projected with Scale MP-2018. For healthy inactive female - Pub-2010, Safety Retirees, headcount weighted, set forward one year, projected with Scale MP-2018. For disabled participants -Blend of 80% headcount weighted Pub-2010 General Disabled Retiree rates and 20% headcount weighted Pub-2010 Safety Disabled Retiree rates, no projection scale.

Retirement Plan and Trust for General Management Employees

On January 7, 2003, the City Commission approved the creation of the General Management Employees Pension Plan. The Plan includes all full-time employees not eligible for inclusion in the General Employees or Police and Firefighters Plans. The creation of this plan allowed employees previously in the City's defined contribution 401(a) plan the option of transferring their holdings and join this Plan. During fiscal year 2013, the Plan was amended to reduce the cost of providing retirement benefits to the City's management.

The Florida Municipal Pension Trust Fund, a division of the Florida League of Cities, administers the Plan. The benefit provisions and all other requirements of the Plan are established by City ordinance and are summarized as follows:

Vesting

Benefits are fully vested after six years of credited service, 50% after four years.

Eligibility for Retirement

Normal retirement is the attainment of the age at which normal social security benefits may be collected with four years of service.

Annual Retirement Benefit

Normal retirement benefits are based upon 3% of "average final compensation", as defined by the pension plan, times the number of years of credited service prior to February 1, 2013 and 2% thereafter.

Employee Contributions

Management personnel contribute 8% of their basic annual compensation.

Note 11 - Employee Retirement Systems (continued)

Plan Descriptions (continued)

Retirement Plan and Trust for General Management Employees (continued)

City Contributions

City contributions are based upon actuarially determined amounts, which together with employee contributions and fund earnings are sufficient to fund the Plan. The City's actuarially determined contribution amount and actual contributions for the current year were \$204,221 or 22.36% of covered payroll.

Actuarial methods and assumptions

Actuarially determined contribution amounts for the Plan for the current year were determined as part of the October 1, 2020 actuarial valuation using the aggregate actuarial cost method.

Additional information related to the actuarial valuation follows:

Valuation Date Actuarial cost method Amortization method Remaining amortization period	October 1, 2020 Aggregate Level dollar, fixed 18 years
Asset valuation method	Market value
Actuarial Assumptions	
Investment rate of return	7.50%
Inflation	2.76%
Projected salary increases	4.00%
Cost of living adjustments	2.25%
(prior to February 1, 2013)	

Mortality: Pre-retirement mortality is based on the sex-distinct rates set forth in the PUB-2010 Headcount-Weighted Below Median Employee Mortality Table for general employees, with full generational improvements inmortality using Scale MP-2018 and with male ages set back one year; post-retirement mortality is based on the sex-distinct rates set forth in the PUB-2010 Headcount-Weighted Below Median Healthy Retiree Mortality Table for general employees, with full generational improvements in mortality using Scale MP-2018 and with male ages set back one year.

Florida Retirement System (FRS) and Retiree Health Subsidy Program (HIS)

The City contributes to the FRS and HIS on behalf of its elected officials. FRS is a cost-sharing multiple employer defined benefit pension plan established by and administered in accordance with Chapter 121, Florida Statutes. HIS is a cost-sharing multiple employer defined benefit pension plan established by and administered in accordance with section 112.363, Florida Statutes. The City's covered payroll for the 7 elected officials covered by the FRS and HIS for the year ended September 30, 2021 was \$21,765.

Vesting

Benefits are fully vested after eight years of credited service.

Eligibility for Retirement

Normal retirement is the attainment of the age 65 or after 33 years of creditable service.

Note 11 - Employee Retirement Systems (continued)

Plan Descriptions (continued)

Florida Retirement System (FRS) and Retiree Health Subsidy Program (HIS) (continued)

Annual Retirement Benefit

Normal retirement benefits are based upon 3% of "average final compensation", as defined by the pension plan, times the number of years of credited service.

Employee Contributions

Elected officials contribute 3% of their basic annual compensation.

City Contributions

City contributions are established by the Florida Legislature. The City's proportionate share of pension contributions and allocated contributions were as follows:

	Florida Retirement System							
Contribution Period	Proportion	Con	tribution					
July 1, 2018 to June 30, 2019	0.000310992%	\$	9,643					
July 1, 2019 to June 30, 2020	0.000289141%		9,607					
July 1, 2020 to June 30, 2021	0.000249570%		9,508					
	Health Insurance	e Subsid	У					
Contribution Period	Proportion	Contribution						
July 1, 2018 to June 30, 2019 July 1, 2019 to June 30, 2020 July 1, 2020 to June 30, 2021	0.000064542% 0.000063441% 0.000061052%	\$	358 366 359					

Actuarial methods and assumptions

Actuarially determined contribution amounts for the Plan for the current year were determined as part of the July 1, 2021 actuarial valuation using the individual entry age method. Additional information related to the actuarial valuation follows:

Valuation Date	July 1, 2021
Actuarial cost method	Individual Entry Age
Amortization method	Level percent, closed
Remaining amortization period	Amortized over 30 years as level percentage of Tier 1 pay
Asset valuation method	5 years smoothed
Actuarial Assumptions Investment rate of return Inflation Projected salary increases Cost of living adjustments	FRS - 6.8%; HIS - 2.16% 2.40% 3.25% 3% for pre-July 2011 benefit service; 0% thereafter

Mortality: PUB-2010 base table varies by member category and gender, projected generationally with Scale MP-2018

Net Pension Liability

Discount Rate

The discount rate used to measure the total pension liability was 7.45% for the Retirement Plan for the General Employees, 7.50% for the Retirement Plan for Police Officers and Firefighters, 7.50% for the Retirement Plan and Trust for General Management Employees, 6.80% for the FRS and 2.16% for the HIS Program. These rates were based on the expected rate of return on Plan investments. The projection of cash flows used to determine this discount rate assumed member contributions will be made at the current contribution rate and employer contributions will be made at rates equal to the difference between actuarially determined current contribution rates and the member contribution rate. Based on these assumptions, the pension Plan's fiduciary net position was projected to be available to make all projected future expected benefit payments of current Plan members. Therefore, the long-term expected rate of return on Plan investments of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to the Discount Rate Assumption

The following table presents the City's net pension liability calculated using the current discount rates and the liability using discount rates that are one percentage point lower and one percentage point higher than the current rates to indicate the sensitivity of the net pension liability to changes in discount rate assumptions.

Retirement Plan	1	% Decrease	1% Increase			
General Employees (7.45%)	\$	47,141,494	\$ 33,950,927	\$	22,972,303	
Police and Firefighters (7.50%)		73,006,027	54,719,102		39,540,285	
General Management (7.50%)		(1,549,802)	(3,572,826)		(5,287,353)	
Florida Retirement System (6.80%)		84,308	18,852		(35,862)	
Health Insurance Subsidy (2.16%)		8,658	7,489		6,531	

Long-term Expected Rate of Return

Long-term expected rates of return on the Plans' investments were determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of Plan investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Note 11 - Employee Retirement Systems (continued)

Net Pension Liability (continued)

Long-term Expected Rate of Return (continued)

Best estimates of arithmetic real rates of return for each major asset class included in the General Employees, the Police and Firefighters and the General Management Employees Plans' target asset allocations as of October 1, 2020 and the Florida Retirement System Plan as of July 1, 2021 are summarized in the following table:

Retirement Plan	Asset Class	Long-Term Expected Real Rate of Return
General Employees	Large Cap Value	6.85%
General Employees	Large Cap Growth	7.15%
	Small/Mid Cap Value	7.60%
	Mid Cap Growth	7.65%
	International Value	6.05%
	International Growth	6.05%
	Long / Short Credit	4.25%
	Infrastructure	4.35%
	Real Estate	5.65%
	Fixed Income	1.75%
Police and Firefighters	Large Cap Value	6.85%
5	Large Cap Growth	7.15%
	Small/Mid Cap Value	7.60%
	Mid Cap Growth	7.65%
	International Value	6.05%
	International Growth	6.05%
	Infrastructure	4.35%
	Real Estate	5.65%
	Fixed Income	1.75%
General Management	Core Bonds	1.60%
	Core Plus	2.10%
	US Large Cap Equity	4.60%
	US Small Cap Equity	5.50%
	Non-US Equity	6.70%
	Core Real Estate	5.00%
Florida Retirement System	Cash	2.10%
	Fixed Income	3.80%
	Global Equity	8.20%
	Real Estate	7.10%
	Private Equity	11.70%
	Strategic Investments	5.70%

The Health Insurance Subsidy plan is not pre-funded and therefore uses the municipal bond rate of 2.16% to calculate the total pension liability of the plan.

Note 11 - Employee Retirement Systems (continued)

Changes in the Net Pension Liability

The Schedule of Changes in the City's Net Pension Liability and Related Ratios and Schedule of Contributions presented as Required Supplementary Information following the Notes to the Financial Statements present multiyear trend information about the City's pension liability and its progress toward funding that liability over time.

Management Employees Excess Benefits Plan

Plan Description

On January 7, 2003, the City established the Management Employees Excess Benefit Plan as part of the General Management Employees Pension Plan to be an unfunded, nonqualified excess benefit plan, containing the terms and provisions set forth in the subpart (Sec. 15-341) and intended to be a qualified governmental excess benefit arrangement as defined in Section 415 (m) (3) of the Internal Revenue Code.

Excess Benefit Participants

Any member of the Retirement Plan and Trust for General Management Employees whose retirement benefit exceeds the maximum benefit under Section 415 of the Code is a participant.

Benefits Provided

A participant shall be eligible to receive benefits after termination of employment, as an unrestricted monthly benefit that otherwise would have been received under the terms of the Retirement Plan and Trust for General Management Employees in the absence of IRS Code Section 415 limits.

Funding Policy

The City cannot advance fund assets, or any benefit payable under the Plan, and any assets held by the Plan during any period can only pay benefits coming due or the expenses of the plan during the period. The City cannot restrict any assets to provide funding for these benefits. The City has in the past and will continue to stand by its obligation to pay these benefits from its annual budgeted funds, as the liability becomes payable under this plan. An actuarial valuation has not been performed because the plan costs must be paid on an annual basis. A schedule of changes in net pension liability has not been provided as the plan does not maintain assets. Accordingly, the plan held no assets at September 30, 2021. The City's annual pension cost at September 30, 2021 is as follows:

Annual required contribution	\$ 285,265
Annual pension cost	 285,265
Contributions made	285,265
Change in net pension liability	 -
Net pension liability, beginning of year	 -
Net pension liability, end of year	\$ -

Note 11 - Employee Retirement Systems (continued)

Retirement Plan and Trust for General Management Employees

On July 18, 2017, City Commission approved Ordinance 2017-8 to close the Retirement Plan and Trust for General Management Employees to new members and provided for the option of existing non-vested plan members to transfer to the Management Employee Defined Contribution Money Purchase Plan. As part of that ordinance, the Money Purchase Plan was also amended to reduce the City's contribution from 17% of members' salary to 10%.

Separate stand-alone financial statements are not issued for the Retirement Plan and Trust for General Management Employees. Therefore, presented below are the Statement of Fiduciary Net Position and the Statement of Changes in Fiduciary Net Position for the current year:

Statement of Fiduciary Net Position

Retirement Plan and Trust for General Management Employees As of September 30, 2021

Increase in net position		3,347,166
Net position - beginning		20,740,269
Net position - ending	\$	24,087,435

Note 12 - Defined Contribution Plan

The City is a single employer that contributes to two Money Purchase Plans, which are defined contribution pension plans created in accordance with Internal Revenue Code 401(a). The City contributes 10% of annual covered payroll and the employee is required to contribute 5% for the Management Plan. The City contributes 20% of annual covered payroll and the employee is not required to contribute to the Charter Officer Plan. During the fiscal year ending September 30, 2021, the City did not make any contributions to the Charter Officer Plan and approximately \$272,840 to the Management Plan. Plan provisions and contribution requirements are established and may be amended by the City Manager.

Note 13 - Other Post-Employment Benefits (OPEB)

Description of Benefits

In addition to providing the pension benefits described, the City provides optional post- employment healthcare coverage to eligible individuals, as well as dental and vision benefits. In addition, all retirees are covered by a group life insurance policy under a single-employer plan.

Eligibility

Eligible individuals include certain regular employees of the City of North Miami Beach who retire from active service and are eligible for retirement or disability benefits under one of the pension plans sponsored by the City. Elected officials elected prior to October 1, 2008 are eligible after serving at least four terms. In most cases, eligibility for healthcare coverage also includes spouses and dependent children. Spousal coverage generally ends at age 65 or after the employee's death.

Healthcare Plans

Eligible individuals may choose healthcare coverage under three plans from the City's current health insurance provider. Options include a Health Maintenance Organization (HMO) plan, a Preferred Provider Organization (PPO) plan or a High Deductible Health Plan (HDHP) with a Health Savings Account (HSA) partially funded by the City. Medicare-eligible individuals may choose any of the three plans or choose coverage under a Medicare supplement plan. Retirees must pay a monthly premium as determined by the insurance carrier, less any applicable subsidies provided by the City. The premiums vary depending on the chosen plan and the type of coverage.

The City subsidizes 100% of the premium for single coverage under the PPO plan for eligible elected officials. In addition, the City subsidizes a portion of the premium for single coverage under the PPO plan for retired managementlevel personnel (and some currently employed) hired prior to October 1, 2008 depending on age and length of service at retirement.

Post-employment Life Insurance Coverage

The City provides \$ 10,000 of life insurance coverage to all retirees. Management-level personnel receive an additional \$10,000 of coverage if they have earned at least 15 years of service at retirement or an additional \$20,000 of coverage if they have earned at least 20 years of service.

Actuarial methods and assumptions

During fiscal year 2011, the City established an OPEB Trust to accumulate the assets necessary to fund the OPEB liability and to pay future benefits. The fund in which the employee's payroll expense has been recorded is typically used to liquidate OPEB liabilities. The annual required contributions for the Plan were determined as part of the October 1, 2020 actuarial valuation using the projected unit credit cost method. Information related to the actuarial valuation follows:

Valuation Date	October 1, 2020
Actuarial cost method	Entry age normal
Investment rate of return	7.00%
Healthcare cost trend rate	8.00%
Inflation	2.62%
Mortality: Sex distinct rates set forth in the I	PUB-2010
mortality table (without income adjustments)	for general
employees, with full generational improvemer	nts in
mortality using Scale MP-2018	

Note 13 - Other Post-Employment Benefits (continued)

Net OPEB Liability

Target Allocation and Long-term Expected Rate of Return

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Core Bonds	15.00%	1.60%
Core Plus	15.00%	2.10%
US Large Cap Equity	25.00%	4.60%
US Small Cap Equity	14.00%	5.50%
Non-US Equity	21.00%	6.70%
Core Real Estate	10.00%	5.00%

Changes in the Net OPEB Liability

Discount Rate

The rate of 4.63% per annum was used to discount all future benefit payments and is based on the expected long-term return on assets, which was determined as of the valuation date by the Asset Consulting Group.

Sensitivity of the Net OPEB Liability to the Discount & Healthcare Cost Trend Rate Assumptions

The following tables present the City's net OPEB liability calculated using the current discount and healthcare cost trend rates and the liability using discount rates that are one percentage point lower and one percentage point higher than the current rates to indicate the sensitivity of the net OPEB liability to changes in rate assumptions.

Rate	19	% Decrease	C	urrent Rate	1% Increase		
Discount Rate (4.63%) Healthcare Cost Trend Rate (8.00%)	\$	5,644,020 3,877,384	\$	4,566,739 4,566,739	\$	3,672,006 5,382,440

Note 14 - Community Redevelopment Agency

The North Miami Beach Community Redevelopment Agency (NMBCRA) Component Unit incurred the following expenditures during the fiscal year ended September 30, 2021:

Source of deposits:	
Tax increment financing - Miami-Dade County	\$ 1,211,375
Tax increment financing - City	1,590,346
Interest earnings	28,644
Other revenues	 6,464
Total sources	\$ 2,836,829
Purpose of withdrawals:	
Dedicated personnel allocation	\$ 121,634
City administrative cost allocation	318,070
Debt service	182,987
Grants to private organizations	515,771
Operating	 436,317
Total withdrawals	\$ 1,574,779

Tax Abatements

During fiscal year 2015, the CRA created a new redevelopment program aimed at spurring the redevelopment of properties within the redevelopment area via CRA Policy Resolution 2015-4. Applicants whose projects are deemed acceptable to the CRA Board may receive a partial return of the property taxes that were paid. The rebate is calculated based on the increment by which the development increases in property value. A total of 75% of the taxes paid on the increment will be rebated if the total real estate taxes are paid prior to delinquency. If the taxes are not paid timely, there is no rebate of the property tax increment. This rebate program has no effect on the revenues of the primary government, the City of North Miami Beach.

Note 14 - Community Redevelopment Agency (continued)

One award was granted in January 2016 to the NoMa project, a 249 residential unit mixed use development located at 2145 NE 164th Street and West Dixie Highway. As part of the TIF Recapture program, the recipient has agreed to install certain Waterfront Improvements and Art in Public Places as defined in the agreement. The project was completed during early 2018, which is considered the base year for increment measurement. The amount rebated in fiscal year 202 was \$433,637 and in fiscal year 2021 was \$474,157. Individual financial statements for the NMBCRA are available through the finance department of the City at 17011 NE 19th Avenue, North Miami Beach, Florida 33162.

Note 15 – Prior Period Adjustment

The City recorded a prior period adjustment due to a change in the allocation for balances determined through actuarial valuation for the General Employee Pension Plan of the City of North Miami Beach. In addition, a prior period adjustment was recorded due to a balance that was carried on the balance sheet for the Water Utility Fund that was removed. The prior period adjustments were as follows:

Enterprise Funds

Note 16 – Subsequent Events

In February 2022, the City refunded Series 2011 bond and issued a TD Bank General Obligation Refunding Note, Series 2022, in the principal amount of \$9,191,000. This General Obligation Note resulted in a net present value savings of \$1,379,165, or 15.32% as a percentage of the refunded notes. The Note bears interest at a fixed rate of 1.52% over the remaining life of the loan.

CITY OF NORTH MIAMI BEACH, FLORIDA NOTES TO BUDGETARY COMPARISON SCHEDULE SEPTEMBER 30, 2021

Note 1 - Budgets and Budgetary Accounting

Annual budgets are adopted for the General Fund, the Transit Surtax Fund, the Community Redevelopment Agency, the Eastern Shores Special Taxing Districts, the debt service funds and the Alley Restoration Program on a basis consistent with generally accepted accounting principles.

- 1. Prior to July 1, the City Manager submits a budget estimate of revenues and expenditures for all City departments for the fiscal year commencing October 1 to the City Commission.
- 2. The City Commission holds budget workshops to review and amend the proposed budget.
- 3. Two public hearings are conducted to obtain taxpayers' comments.
- 4. Prior to October 1, the budget is legally enacted through passage of a resolution.
- 5. No department may legally expend or contract to expend amounts in excess of amounts appropriated for any department within an individual fund. Budget appropriations for salary and related costs and for operating costs lapse at year end. Appropriations for capital outlay expenditures carry forward to the next fiscal year for open purchase orders.
- 6. The resolution authorizes the City Manager to amend, modify, or otherwise adjust the City's annual budget in accordance with the spending limitations as established by Chapter 3, Purchasing, of the North Miami Beach Code of Ordinances (\$50,000). The City Commission approves all other budget amendments.
- 7. Encumbrance accounting is used in governmental funds. Encumbered purchase orders outstanding at year-end are reported as assignments of fund balances to indicate that they are not available for appropriation and are not expendable available financial resources.

Note 2 – Negative Variances

The negative revenue variances in the General Fund are a result of lower revenues related to parks and recreation services and police service fees. In addition, the General Fund had lower than budgeted returns on investments for the fiscal year. The negative variance in the General Fund Legislative and Executive expenses are the result of costs for part-time personnel and insurance costs incurred during the fiscal year.

The negative variance in the Community Redevelopment Agency Fund is a result of the funding from transfers less than budgeted due to differences in principal and interest payments. The principal and interest paid were less than originally budgeted for the fiscal year.

COMBINING, INDIVIDUAL FUND STATEMENTS AND SCHEDULES

NON-MAJOR GOVERNMENTAL FUNDS

CITY OF NORTH MIAMI BEACH, FLORIDA FUND DESCRIPTIONS – NON-MAJOR GOVERNMENTAL FUNDS SEPTEMBER 30, 2021

Special Revenue Funds

Special revenue funds are used to account for specific sources of revenue that are legally restricted to expenditure for particular purposes.

Grants - This fund is used to account for the various federal, state and local grants awarded to the City.

Transit Surtax – This fund is used to account for the City's portion of the Miami-Dade County one-half percent sales surtax approved by voters in November 2002.

Confiscated Property – This fund is used to account for confiscated and forfeited property received from federal and state government. The uses of the property are governed by State of Florida Statutes, Chapter 932; the United States Department of Justice publication, A *Guide to Equitable Sharing of Federally Forfeited Property for State and Local Law Enforcement Agencies;* and the United States Treasury Department publication, *Guide to Equitable Sharing for Foreign Countries and Federal, State and Local Law Enforcement Agencies.*

Eastern Shores Security Special Taxing District – This fund is used to account for the activities related to the guard house located at the 35th Avenue entrance to the Eastern Shores subdivision. The Special Taxing District was created on November 21, 1995 for the purpose of providing security for the area. Administration of the district was transferred from Miami-Dade County to the City of North Miami Beach on February 2, 2018.

Eastern Shores First Addition Security Guard Special Taxing District – This fund is used to account for the activities related to the guard house located at the 164th Street entrance to the Eastern Shores subdivision. The Special Taxing District was created on April 7, 1994 for the purpose of providing security for the area. Administration of the district was transferred from Miami-Dade County to the City of North Miami Beach on February 2, 2018.

Debt Service Funds

Debt service funds are used to account for the resources accumulated and payments made for principal and interest on long-term debt of governmental funds.

Series 2011 – This fund is used to account for the principal and interest payments relating to the \$14,835,000 promissory note issued to defease the Series 2000B bonds originally issued to fund improvements related to the Proud Neighborhood plan.

Series 2012 – This fund is used to account for the debt service of the \$8,190,000 promissory note issued to defease the Series 2002A Series Capital Appreciation and Term Bonds. The 2002A bond proceeds were used to defease the Series 1994 bonds originally issued to fund the expansion of the police station and various neighborhood improvements.

Series 2013 – This fund is used to account for the principal and interest payments relating to the \$3,635,000 Revenue Bonds, Series 2013. The proceeds were used to refund Florida Municipal Loan Council Revenue Bonds, Series 2003B. The original issue was used to fund various transit/transportation related projects.

Series 2015 – This fund is used to account for the principal and interest payments relating to the City's portion of the Series 2015 Revenue Refunding bonds issued to refund the Florida Municipal Loan Council Revenue Bonds, Series 2005C. The bond proceeds were used to defease the Series 2000A bonds originally issued to fund the bike path and street improvements, including lighting and traffic calming devices.

Capital Proiects Fund

Capital projects funds are used to account for the acquisition and construction of major capital facilities other than those financed by proprietary funds and trust funds.

Alley Restoration Program – This fund accounts for improvements to the City's alley infrastructure in order to facilitate traffic flow of solid waste equipment, stormwater run-off and trash collection.

IV. STATISTICAL SECTION

STATISTICAL SECTION

This part of the City of North Miami Beach's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health.

Contents	Page
Financial Trends	
These schedules contain trend information to help the reader understand how	w the City's financial
performance and well-being have changed over time.	110-113
Revenue Capacity	
These schedules contain information to help the reader assess the City's mo	st significant local
revenue source, the property tax.	114-120
Debt Capacity	
These schedules present information to help the reader assess the affor	dability of the City's
current levels of outstanding debt and the City's ability to issue additional de	ebt in the future. 121-125
Demographic and Economic Information	
These schedules offer demographic and economic indicators to help the rea	der understand the
environment within which the City's financial activities take place.	126-127
Operating Information	
These schedules contain service and infrastructure data to help the reader u	understand how the
information in the City's financial report relates to the services the Ci	ty provides and the
activities it performs.	128-129
Sources: Unless otherwise noted, the information in these schedules is de	rived from the
comprehensive annual financial reports for the relevant year.

Note: All millage rates are based on \$1 for every \$1,000 of assessed value.

(1) Overlapping rates are those of local and county governments and other special taxing districts that apply to property owners within the City of North Miami Beach. Not all overlapping rates apply to all City of North Miami Beach property owners (i.e., the rates for special districts apply only to the proportion of the government's property owners whose property is located within the geographic boundaries of the special district).

Sources: Data provided by the Miami-Dade County Finance Department and the Miami-Dade County School Board.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City. This process recognizes that, when considering the City's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident and therefore responsible for repaying the debt of each overlapping government.

(1) For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using net taxable assessed property values. It is calculated by taking the value that is within the City's boundaries and dividing it by the County's and School Board's total net taxable assessed value. This approach was also used for the other debt.

IV. COMPLIANCE SECTION

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Mayor and Members of the City Commission City of North Miami Beach, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of North Miami Beach, Florida (the "City"), as of and for the fiscal year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated June 30, 2022. Our report includes a reference to other auditors who audited the financial statements of the Retirement Plan for the General Employees and the Retirement Plan for the Police Officers and Firefighters of the City of North Miami Beach, as described in our report on the City's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify a deficiency in internal control, as described in the accompanying schedule of findings and questioned costs that we consider to be a significant deficiency. This item is presented as item 2022-01.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

- 130 -

City's Response to Finding

The City's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The City's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Caballero Fierman Llerena & Garcia, LLP

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Honorable Mayor and Members of the City Commission City of North Miami Beach, Florida

Report on Compliance for Each Major Federal Program

We have audited the City of North Miami Beach, Florida (the "City") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the City's major federal programs for the fiscal year ended September 30, 2021. The City's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the City's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City's compliance.

Opinion on Each Major Federal Program

In our opinion, the City, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the fiscal year ended September 30, 2021.

Report on Internal Control over Compliance

Management of the City, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program that type of compliance requirement of a federal program that type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Purpose of this Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

CITY OF NORTH MIAMI BEACH, FLORIDA NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2021

NOTE 1 – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the "Schedule") includes the federal grant activity of the City of North Miami Beach (the "City") for the fiscal year ended September 30, 2021. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations, Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the City, it's not intended to and does not present the financial position, changes in net position/fund balance or cash flows of the City.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIIES

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting for grants which are accounted for in the governmental fund types and on the accrual basis of accounting for grants which are accounted for in the proprietary fund types. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Pass-through entity identifying numbers are presented where available.

NOTE 3 – CONTINGENCY

The grant revenue amounts received are subject to audit and adjustment. If any expenditures are disallowed by grantor agency as a result of such an audit, any claim for reimbursement to the grantor agencies would become a liability of the City. In the opinion of management, all grant expenditures are in compliance with the terms of the grant agreements and applicable federal and state laws and regulations.

NOTE 4 – INDIRECT COST RECOVERY

The City has elected not to use the 10 percent de minimis indirect cost rate allowed under the Uniform Guidance.

CITY OF NORTH MIAMI BEACH, FLORIDA SCHEDULE OF FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED SEPTEMBER 30, 2021

SECTION II - FINANCIAL STATEMENT FINDINGS

SIGNIFICANT DEFICIENCY

2022-01 Solid Waste Utility Fund Net Position.

Criteria:

Governments are required to maintain positive fund net position.

Condition:

During our testing of the enterprise funds we noted that the Solid Waste utility fund reported negative net position amounts of \$4,027,299.

Cause:

The deficit is a result of a restructuring of the solid waste contract during the fiscal year resulting in additional costs to residents that were not reflected in rates charged.

Effect:

The enterprise fund net position is at a deficit and the City is required to submit a deficit elimination plan.

Recommendation:

We recommend that the City review its current rates for Solid Waste utility to ensure the fees cover the costs of operations and reduce the deficit net position while maintaining the quality of service. In addition, the department should develop a deficit elimination plan that is reviewed and approved by those charged with governance.

View of Responsible Officials and Planned Corrective Actions:

The City's contractual agreement with Waste Management officially ended on December 1, 2020. Due to unforeseen circumstances, the City entered into an extended month-to-month service agreement with them. For the first three (3) months, the Residential and Commercial billing monthly costs increased by 75%. An additional increase of 5% per month was imposed for the remaining seven (7) months of the 2021 fiscal year. As a result of the added costs, the City's Solid Waste Fund for FY2021 showed a deficit of \$4 million.

In order to recoup and provide additional revenue, the city imposed a rate increase in May 2021 of 25% for Residential and approximately 140% for Commercial customers.

For FY2022, the City received ARPA funds and will allocate \$1.175 million to offset some of the deficit. In addition, Solid Waste fees for multi-family and commercial customers will be increased by 10% over the next 7 years and franchise fees will be increased by a nominal amount.

SECTION III - FEDERAL AWARDS FINDINGS AND QUESTIONED COSTS

None.

MANAGEMENT LETTER IN ACCORDANCE WITH THE RULES OF THE AUDITOR GENERAL OF THE STATE OF FLORIDA

Honorable Mayor and Members of the City Commission City of North Miami Beach, Florida

Report on the Financial Statements

We have audited the financial statements of the City of North Miami Beach, Florida (the "City"), as of and for the fiscal year ended September 30, 2021, and have issued our report thereon dated June 30, 2022. Our report includes a reference to other auditors. Other auditors audited the financial statements of the Retirement Plan for the General Employees and the Retirement Plan for the Police Officers and Firefighters of the City of North Miami Beach, Florida.

Auditors' Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance); and Chapter 10.550, Rules of the Auditor General.

Other Reporting Requests

We have issued our Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards*; Independent Auditors' Report on Compliance for each Major Federal Program, and Report on Internal Control Over Compliance; Schedule of Findings and Questioned Costs; and Independent Accountants' Report on an examination conducted in accordance with *AICPA Professional Standards*, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports and schedules, which are dated June 30, 2022, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. There were no findings or recommendations made in the preceding financial audit report.

Official Title and Legal Authority

Section 10.554(1)(i)4., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. This information is disclosed in the notes to the financial statements. The City included the following blended component unit: The North Miami Beach Community Redevelopment Agency (the "CRA").

Financial Condition and Management

Sections 10.554(1)(i)5.a. and 10.556(7), Rules of the Auditor General, require us to we apply appropriate procedures and communicate the results of our determination as to whether or not the City has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and to identify the specific condition(s) met. In connection with our audit, we determined that the City did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.554(1)(i)5.b. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures for the City. It is management's responsibility to monitor the City's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same. This assessment was done as of the fiscal year end.

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Additional Matters

Section 10.554(1)(i)3., Rules of the Auditor General, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material, but warrants the attention of those charged with governance. In connection with our audit, we did not note any such findings.

Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and State awarding agencies, the Mayor, Members of the City Commission and management of the City and is not intended to be and should not be used by anyone other than these specified parties.

Caballero Fierman Llerena & Garcia, LLP

INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE WITH THE REQUIREMENTS OF SECTION 218.415 FLORIDA STATUTES

Honorable Mayor and Members of the City Commission City of North Miami Beach, Florida

We have examined the City of North Miami Beach, Florida (the "City"), Florida, compliance with the requirements of Section 218.415 Florida Statutes during the period of October 1, 2020 to September 30, 2021. Management of the City is responsible for the City's compliance with those specified requirements. Our responsibility is to express an opinion on the City's compliance with the specified requirements based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the City complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether the City complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Our examination does not provide a legal determination on the City's compliance with specified requirements. In our opinion, the City complied, in all material respects, with the requirements of Section 218.415 Florida Statutes during the period of October 1, 2020 to September 30, 2021.

This report is intended solely for the information and use of management, the Mayor, the City Commission, others within the City and the Auditor General of the State of Florida and is not intended to be and should not be used by anyone other than these specified parties.
