October 31, 2023

The Mayor and Members of the Village Council 10050 Northeast Second Avenue Miami Shores, Florida 33138

Subject: FY 2021-22 Annual Comprehensive Financial Report

To the Mayor and Members of the Village Council:

In compliance with Florida State Statute Chapter §11.45, Chapter §10.550 of the Rules of the Auditor General, and Chapter 34(3) of the Miami Shores Village Code of Ordinances, we are pleased to submit for your review and consideration the Miami Shores Village Annual Comprehensive Financial Report for the fiscal year ended September 30, 2022. The financial statements included in this report conform to generally accepted accounting principles in the United States of America ("GAAP") as prescribed by the Governmental Accounting Standards Board ("GASB"). The responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the Village.

This report consists of management's representations concerning the financial condition of Miami Shores Village ("The Village"). Consequently, management assumes full responsibility for the complete presentation, reliability, and accuracy of all information presented in this report. To provide a reasonable basis for making these representations, the Village's management has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft or misuse and to compile sufficient reliable information for the preparation of the Village's financial statements in conformance with accounting principles generally accepted in the United States. Because the cost of internal controls should not outweigh their benefits, the Village's comprehensive framework of internal controls have been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The financial statements have been audited by Caballero Fierman Llerena & Garcia, LLP, Certified Public Accountants. The independent auditor has issued an unmodified opinion that this report fairly represents the financial position of the Village in conformity with GAAP. Their audit was conducted in accordance with auditing standards generally accepted in the United States, Government Auditing Standards issued by the Comptroller General of the United States and the Rules of the Auditor General, State of Florida. The goal of the independent auditor is to provide reasonable assurance that the financial statements of the Village for the fiscal year ended September 30, 2022 are free of material misstatements. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by

management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the financial statements of Miami Shores Village, for the fiscal year ended September 30, 2022, are fairly presented in conformity with generally accepted accounting principles (GAAP).

The contents of the ACFR have been influenced by compliance with GASB pronouncements, including Statement 34 that requires the preparation of government-wide financial statements on a full accrual basis of accounting for all funds as well as Management's Discussion and Analysis (MD&A). The MD&A can be found immediately following the independent auditors' report.

#### **PROFILE OF THE GOVERNMENT**

Miami Shores Village, a Florida municipal corporation incorporated in 1932, is located in Northeast Miami-Dade County. The Village has a year-round population estimated at 10,817 residents living within the 2.5 square mile jurisdiction. The Village generally begins at Biscayne Bay on the east and goes west to Northwest Second Avenue. The north and south boundaries are generally 115th Street and 91st Street respectively. The Village is a residential-based community with two (2) commercial districts located on Second Avenue and Biscayne Boulevard. Despite its close proximity to Downtown Miami, the Village maintains a suburban feel. With limited commercial presence, the need for new growth through redevelopment will be essential to the Village's future. Wealth levels in the Village are above average, with per capita income of \$54,189, and median household income at \$135,055, which is 114% more than the county, 100% more than the state and 79% more than the nation.

Operating under a Council-Manager form of government, the Council consists of five members elected at large. The Mayor is chosen by each of the newly formed councils. Historically, the individual receiving the highest number of votes during the election is chosen as the Mayor and the Vice-Mayor has received the second highest. Both the Mayor and Vice-Mayor serve four (4) year terms, two as mayor/vice-mayor and two as regular council members. The Village Council is responsible for the selection and appointment of the Village Manager, Village Clerk and Village Attorney. The Village Manager is responsible for engaging all department heads and their subordinates.

Miami Shores Village provides a full range of municipal services including recreation and culture, public safety through the police, public works and general administrative services for its residents and businesses. For the fiscal year ended September 30, 2022, no legally separate authorities or agencies operated under the auspices of the Village; therefore, no additional financial information will be incorporated into these statements.

-ii-

#### **FACTORS AFFECTING FINANCIAL CONDITIONS**

The information presented in the Village's financial statements primarily focuses on the financial position at the end of each fiscal year as measured by existing resources and claims against those resources. To better understand the Village's financial condition, readers should focus on both existing and future resources and potential claims (or liabilities) against those resources. This broader concept is used to assess the financial condition of the Village, reflecting the current financial position as well as the prospects that today's financial condition will improve or deteriorate. To achieve this objective, the Village uses a wide-range of information including local economic conditions and outlook; long-term debt management; capital construction and investments; cash management / investments; and, of course, risk controls.

#### **ECONOMIC CONDITION AND OUTLOOK**

Property values in the Village are expected to continue to increase. Although substantially built-out, the Village is experiencing a significant amount of residential renovation and teardown/rebuild activity. New construction, additions, and rehabilitative improvements continue with a net new taxable value of \$6.1 million reflected in fiscal year 2022. Building Permits continue to be issued at an all-time high. It is anticipated that property values will continue to increase due to the desirability of the area and the close proximity to Greater Downtown Miami. The Village experienced an increase in assessed property values of 4.8% for fiscal year 2022 and 16.5% for fiscal year 2023. It is anticipated that this trend will continue in the near future.

Management continues to make capital improvements that will maintain and further enhance the lifestyle of the residents and improve services. These capital projects will continue to provide the high level of services that have become a hallmark of the community. Management continues to control costs by closely monitoring purchasing procedures and levels of staffing. Due to these efforts the general fund unassigned fund balance for fiscal year 2022 is \$11.1 million. Included in the \$11.1 million of general fund unassigned fund balance is a pending receivable of \$1.2 million awaiting FEMA resolution. This surplus will enable the Village to continue to provide the same level of services to the residents in the upcoming fiscal years, address continuing capital improvement requirements, and to fund any Hurricane IRMA expenses not recovered from FEMA.

The Village maintains a strong financial position with adequate reserve levels, modest tax base with above average socioeconomic indices, and a manageable debt profile. The stable financial operations are a result of management's commitment to conservative budgeting and controlling costs.

#### **FINANCIAL INFORMATION**

#### **Accounting Control**

Management is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the Village are protected from loss, theft or misuse, and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles in the United States of America. The internal control structure is designed to provide reasonable, but not absolute,

-iii-

assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal, state and local financial assistance, the government is also responsible for ensuring that an adequate internal control structure is in place to ensure and document compliance with applicable laws and regulations related to these programs. This internal control structure is subject to periodic evaluation by management. In addition, the Village maintains extensive budgetary controls. The objective of these controls is to ensure compliance with policy and implementation procedures embodied in the annual appropriated budget approved by Village Council. The level of budgetary control (i.e. the level at which expenditures cannot legally exceed the appropriated amount) is the department level within each fund. The Village also maintains an encumbrance accounting system.

The Village's accounting system is organized on a fund basis. A fund is defined as an independent fiscal and accounting entity with a self-balancing set of accounts. The types of funds used are generally determined by the Village Council, upon the recommendations of the Village Manager and the Finance Director, which are based upon established and accepted accounting policies and procedures as well as the number of funds required.

#### **Budgetary Control**

Florida State Statute §200.065 requires that all municipal governments prepare, approve, adopt and execute an annual budget for such funds as may be required by law or by sound fiscal practices. In compliance with this Statute as well as other state regulatory items, the Village adopts an annual operating budget into which funds are either formally appropriated by resolution or non-appropriated in nature, depending upon the fund (i.e. – general, special revenue, debt service, enterprise, internal service or trust funds). However, in practice, all funds that have regularly occurring expenses, receive annual budgets and corresponding appropriations.

The annual budget serves as a foundation for the financial planning, guidance and control of the Village. Funds which require legal appropriations cannot exceed their original and amended budgets. All departments are required to annually submit requests for appropriations to the Village Manager by mid-May of each year. The Village Manager then uses those requests as the base from which the annual operating and capital budgets are developed. The budget is presented to the Village Council following the release of the tentatively assessed property values in early July of each year. A workshop is held in July during which council members are free to address department staff with general and specific issues proposed in the budget. Following the summer workshop, the Council adopts a resolution which sets the tentative millage rates which are subsequently sent to the County using Florida Form DR420 for inclusion on the *Proposed Tax Bills*. Two public hearings are held in September of each year during which members of the public are offered the opportunity to provide insight and solicit information regarding the operations of their municipality. After the second public hearing, resolutions presenting the final operating and debt service millage rates, along with corresponding budgets for the fiscal year, are subsequently adopted by the Village Council.

The annual budget is adopted at the fund and general fund department level. Line-item transfers are permitted with the approval of the Finance Director and Village Manager;

however, changes to the bottom line of department or fund totals require council approval and are executed by resolution. Budget to actual comparisons are provided in this report for each individual governmental fund for which an appropriated annual budget has been adopted. As shown by the statements and schedules included in the financial section of this report, the Village continues to meet its responsibility for sound financial management.

#### LONG-TERM FINANCIAL PLANNING

Management maintains financial stability with fiscal management controls by constantly reviewing and monitoring staff levels, and by comparing budget appropriations to actual expenditures, and estimated revenues to actual revenues. The Village maintains a level of revenue sufficient to meet operating expenditures. As the world, the country, the state, the country and the Village recover from the COVID-19 pandemic, the Village continues to monitor the situation along with other factors and events in the world that impact the finances of the Village. The Village strives to serve our residents and ensure the quality of life style our residents currently enjoy is maintained. The Village maintains a strong fund balance in order to address many of these issues.

Although the Village is a highly desirable place to live, management has plans to continue making improvements to our Community. With the development of a strategic plan, the Village will has a coherent and cohesive plan as to how the Village should progress in the coming years. The strategic plan was completed in FY22 and is the result of the work of the Village and the community at large. The library's expansion of the children's section is to be completed in FY23. A drainage project in Shores Estates, consisting of a pump station and new piping, is underway using grant funding from FEMA. A septic to sewer project in Shores Estates using Florida Department of Environmental Protection grant funds has begun. The American Rescue Plan Act of 2021, ARPA funds that the Village has received are in the planning stages. Sidewalks throughout the Village as well as studies for stormwater improvements and septic to sewer conversions are the main thoughts of use of the ARPA funds at this point. Once the studies for stormwater improvements and septic to sewer conversions are complete, it will enable the Village to determine which areas to focus on first for the upcoming projects and get them to a "shovel ready" status.

#### AWARDS and ACKNOWLEDGEMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Miami Shores Village for its Annual Comprehensive Financial Report for the fiscal year ended September 30, 2021. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized Annual Comprehensive Financial Report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

-V-

The preparation of this report would not have been possible without the efficient and dedicated services of the entire staff of the Finance Department. Credit must also be given to the members of the Village Council for their unfailing support for maintaining the highest standards of professionalism in the financial and operational management of Miami Shores Village. And, finally, we would like to express our sincere thanks and appreciation to the management and staff of our auditing firm, Caballero Fierman Llerena & Garcia, LLP. Their dedication to ensuring the accuracy of the data presented to you in this report was greatly evident during the past several weeks.

Respectfully submitted,

MIAMI SHORES VILLAGE

#### **VILLAGE AUDITORS**

Caballero Fierman Llerena & Garcia, LLP Accountants and Advisors

#### ORGANIZATION CHART

**SEPTEMBER 30, 2022** 

#### **INDEPENDENT AUDITORS' REPORT**

Honorable Mayor and Members of the Village Council Miami Shores Village, Florida

#### **Report on the Audit of the Financial Statements**

#### **Opinions**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Miami Shores Village, Florida (the "Village") as of and for the fiscal year ended September 30, 2022, and the related notes to the financial statements, which collectively comprise the Village's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village as of September 30, 2022, and the respective changes in financial position, and, where applicable, cash flows thereof for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Village and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Village's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Village's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Village's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison, Pension, and Other Post-Employment Benefits Schedules on pages 4–15 and 65–78 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village's basic financial statements. The accompanying combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 31, 2023, on our consideration of the Village's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Village's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Village's internal control over financial reporting and compliance.

Caballero Fierman Llerena & Garcia, LLP

Caballero Fierman Llerena & Garcia, LLP Miami, Florida October 31, 2023

#### Management's Discussion and Analysis

As management of **Miami Shores Village, Florida ("the Village")**, we offer the Village's financial statements in this narrative overview and analysis of the financial activities of Miami Shores Village for the fiscal year ended September 30, 2022. We encourage readers to consider the information presented here in conjunction with additional information that is furnished in our letter of transmittal, which can be found on pages i to vi of this report.

This discussion and analysis is designed to (a) assist the reader in focusing on significant financial issues; (b) provide an overview of the Village's financial activity; (c) identify changes in the Village's financial position (its ability to address the next and subsequent year challenges); (d) identify any material deviations from the financial plan (the approved budget); and (e) identify individual fund issues or concerns. The information contained within this section should be considered only a part of a greater whole.

#### Financial Highlights for Fiscal Year 2022

At September 30, 2022, Miami Shores Village assets and deferred outflows exceeded its liabilities and deferred inflows by \$41.1 million (net position). Of this amount, \$23.3 million was invested in capital assets, an increase of \$1.7 million compared with the prior year. Additionally, \$7.3 million was restricted by law, agreements, and debt covenants or for capital projects. The Village had an unrestricted net position of \$10.5 million at September 30, 2022, an increase of \$3.1 million or a 42.4% increase as compared with the prior year. The increase in unrestricted net position was related to the \$1,249,000 pay-off of the Aquatic Center Loan, reduction of budgeted encumbrances and the increased revenues in the proprietary funds with expenses remaining consistent with the prior year.

During fiscal year 2022, total net position increased by \$5.2 million, from \$35.9 million in FY2021 to \$41.2 million in FY2022. Of this increase, \$4.7 million was an increase in governmental activities and an increase of \$500 thousand in business-type activities.

At September 30, 2022, Miami Shores Village's governmental funds had fund balances totaling \$15.9 million. Of the total fund balance, approximately \$9.9 million or 62.6% was unassigned and \$1.6 million or 10.3% was committed for future capital projects and encumbrances. The restricted fund balance of approximately \$3.4 million, or 21.2%, is related to funds restricted by the contributing agency. The non-spendable fund balance of approximately \$3 thousand is related to prepaid items. The assigned fund balance of \$931 thousand or 5.9% is assigned for FY23 capital improvements. The net change in fund balances during the year was an increase of approximately \$1.0 million indicative of the financial stability of the Village. Much of this change was due to revenues returning to pre-COVID levels and the introduction of the American Rescue Plan Act (ARPA) Fund.

The General Fund's fund balance increased by \$1.4 million for the fiscal year ended September 30, 2022. The increase in unrestricted net position was related to revenues returning to pre-COVID levels, reduced spending in the Police Department and the introduction of the Building Fund.

#### Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the basic financial statements of Miami Shores Village. The Village's basic financial statements are comprised of three components: 1) government-wide financial statements; 2) individual fund financial statements; and, 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**Government-wide financial statements.** The government-wide financial statements are designed to provide readers with a broad overview of the financial activity of Miami Shores Village, in a manner similar to a private-sector business.

The Statement of Net Position presents information on all of the assets and deferred outflows and liabilities and deferred inflows of Miami Shores Village, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Village is improving or deteriorating.

The Statement of Activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of Miami Shores Village that are principally supported by taxes and intergovernmental revenues (governmental activities) as well as other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of Miami Shores Village include general government, public safety, public works, building, planning and zoning, including resiliency and sustainability programs, neighborhood services, parks and recreation. The business-type activities of the Village include Solid Waste, Stormwater, and Waster and Wastewater operations.

The government-wide financial statements may be found on pages 16 to 17 of this report.

**Fund financial statements.** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Miami Shores Village, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of Miami Shores Village can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

**Governmental funds**. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term cash flow and financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions and the impact on short term cash flow requirements to meet basic on-going operations. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Miami Shores Village maintains twelve (12) individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures and changes in fund balance for the general fund and the three major funds, the police forfeiture fund, the grant fund and the American Rescue Plan Act fund. Data from the other nine governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The basic governmental fund financial statements may be found on pages 18 to 21 of this report.

**Proprietary funds**. Miami Shores Village maintains three proprietary or enterprise funds. *Enterprise Funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. Miami Shores uses enterprise funds to account for its Solid Waste, Stormwater, and Water & Wastewater operations. *Internal service funds* provide for an accounting method whereby the organization can accumulate and allocate costs internally among the other user divisions. The Village uses internal service funds to account for its risk management costs as well as its fleet operation. Because both of these services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Village's Solid Waste, Stormwater, and Water & Wastewater operations. The Solid Waste Fund is considered to be a major fund of the Village. Additionally, the Village segregates the financial reporting of both internal service funds to better distinguish the costs of each function.

The basic proprietary fund financial statements may be found on pages 22 to 24 of this report.

**Fiduciary funds**. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support the Village's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements may be found on pages 25 to 26 of this report.

**Notes to the financial statements.** The notes provide additional information that is essential to fully understand the data provided in the government-wide and fund financial statements. The notes to the financial statements may be found on pages 26 to 63 of this report.

**Other information**. In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning the progress in funding its obligations to provide pension benefits to the employees of Miami Shores Village. Required supplementary information may be found on pages 65 to 78 of this report.

The combining statements referred to earlier in connection with non-major governmental funds and internal service funds are presented immediately following the required supplementary information. Combining and individual fund statements and schedules may be found on pages 79 to 89 of this report.

#### **Government-wide Financial Analysis**

The difference between a government's assets and deferred outflows and its liabilities and deferred inflows is its net position. The Village's net position is summarized on the following page:

Net position may be used to assess the financial position of the Village. The Village's combined net position as of September 30, 2022 was \$41.2 million. Approximately 56.7%, or \$23.3 million, of the Village's net position represents net investment in capital assets. These assets include land, buildings, machinery and equipment, and infrastructure and are not available for future spending. Additionally, \$7.3 million is restricted net position and is subject to external restrictions on how it may be spent.

At September 30, 2022, Miami Shores Village had an unrestricted net position of \$10.5 million. At the end of the current fiscal year, Miami Shores Village is able to report positive balances in all three categories of net position for the government as a whole, as well as, the governmental funds and business-type activities.

**Governmental activities.** Financial activities for the fiscal year are reported on the following page. Key indicators, including revenues and expenditures by category are presented herein for review:

Ending net position in governmental activities increased \$4.7 million or 14.9% during FY2022. The increase in ending net position is attributable to the \$1,249,000 pay-off of the Aquatic Center Loan, reduction of budgeted encumbrances, increases in revenues as they return to pre-COVID levels and conservative spending. Also contributing to this increase was the introduction of the ARPA Fund and Building Fund.

Table 2 Miami Shores Village Changes in Net Position (in thousands)

**Business-type activities**. The Miami Shores Village major business-type activities include the following enterprise funds:

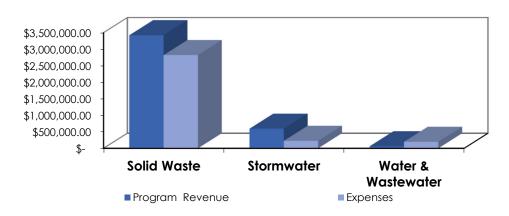

- Solid Waste Fund
- Stormwater Fund

#### Water & Wastewater Fund

Net position of business-type activities increased by approximately \$500 thousand. This increase is due to the increase in revenues while spending remained consistent with the prior year. The bar graph below summarizes the expenses and program revenues of the business-type activities.

Figure A-3

Expenses and Program Revenues – Business-type Activities
For the Fiscal Year ended September 30, 2022

#### Financial Analysis of the Government's Funds

As noted earlier, Miami Shores Village uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the governmental funds for Miami Shores Village is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the Village's financing requirements. In particular, the unassigned fund balance may serve as a useful indicator of the government's net resources available for spending at the end of a fiscal year.

As of the end of the current fiscal year, the governmental funds for Miami Shores Village reported combined ending fund balances of \$15.9 million. Of this amount, \$9.9 million reflects unassigned fund balance, which is available for spending at the government's discretion. The remainder of the fund balance is non-spendable, assigned, committed or restricted to indicate that it is **not** available for new spending as those dollars have already been 1) assigned to spend \$931 thousand on capital improvements in FY23 from the budget adopted in FY23, 2)committed to liquidate contracts or encumbered fiscal obligations (outstanding purchase orders) valued at \$1.6 million, 3) restricted for funds limited by the contributing agency of \$3.4 million and 4) non-spendable for funds used to account for amounts which cannot currently be spent, such as prepaid expenses of \$3 thousand.

The General Fund is the primary operating fund of the Village. At the end of the current fiscal year, the unassigned fund balance for the General Fund was \$11.1 million as compared with \$9.7 million in the prior year.

The Village's General Fund unassigned balance increased by \$1.4 million during the 2022 fiscal year. The increase in unrestricted net position was related to revenues returning to pre-COVID levels, conservative spending and the introduction of the Building Fund.

The Village has three other major funds, Police Forfeiture Fund, the Grant Fund and the American Rescue Plan Act (ARPA) Fund.

The Police Forfeiture Fund accumulates proceeds received from forfeitures related to ongoing investigations. The Village has one officer assigned to the federal program. The expenditure of these funds is restricted by strict governmental rules and approval of the Village Council. The fund balance of \$719 thousand will be used for future projects for the Police Department.

The Grant Fund accounts for the use of specific designated resources related to grant programs. The negative unassigned fund balance of (\$1,198,175) is due to the reimbursement amount that is pending FEMA approval for Hurricane IRMA.

The American Rescue Plan Act Fund accounts for the Federal Funds received from the U.S. Department of Treasury in response to the COVID-19 pandemic. The Village received a total of \$5,228,370, classified as revenue replacement funds. These funds have to be obligated by December 2024 and spent by December 2026.

**Proprietary funds**. The Village's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

- Unrestricted net position in the Solid Waste Fund at the end of the fiscal year totaled \$692 thousand. Unrestricted net position will be used to fund future purchases of capital assets.
- Unrestricted net position in the Stormwater Fund at the end of the fiscal year totaled \$1.8 million. Unrestricted net position is maintained to fund future projects.
- Unrestricted net position in the Water & Wastewater Fund at the end of the fiscal year was a negative \$164 thousand. It is anticipated that the unrestricted negative net position will be funded by future assessments.

#### **General Fund Budgetary Highlights**

The Village adopts annual budgets by fund, general fund department and line item in compliance with Florida State Statute Section 200.065 (commonly referred to as the Truth-in Millage Legislation). The law requires municipal organizations to prepare and adopt annual operating budgets for the General, Special Revenue and Debt Service Funds following uniform time frames related to property tax levies. The balanced budgets may be revised throughout the year. The Village's code allows for department level budget transfers without council approval; however, department and fund total changes require Councilapproved budget amendments adopted by resolution.

The Village's policy is to adopt the budget following the second public hearing of each fiscal year, held in September for an October 1st year. The Village has also adopted a policy which provides for the reappropriation of committed fund balance for encumbrances. This amendment is usually adopted as the first budget amendment of each fiscal year and is normally presented at the first meeting in November of each fiscal year. Additional budget amendments may be presented to council at any time during the fiscal year.

Over the course of the year, the Village amended the General Fund budget five times. The budget amendments fall into two categories: (1) Amendments are approved for rollovers related to prior year encumbrances; and (2) supplemental appropriations to provide appropriations for various other needs which have arisen since the adoption of the budget. With these adjustments, disbursements were approximately \$1.5 million below final budgeted amounts. Savings were realized in general government, \$616 thousand, public safety, \$364 thousand, public works, \$153 thousand, and culture and recreation, \$353 thousand. These savings in general government costs and various departmental costs were due to unfilled positions and conservative spending.

The fiscal year 2022 final amended budget was \$17.9 million, an increase of 3.9% over the original General Fund budget of \$17.2 million. Correspondingly, the Consumer Price Index (or inflation index) from the U.S. Bureau of Labor Statistics – All Urban Consumers increased 8.2% for the year ended September 2022. The final Adopted Budget is balanced with revenues of \$16 million, \$700 thousand in operating transfers from the Building Fund, Solid Waste Fund and the Stormwater Fund, and a \$1.1 million appropriation from the General Fund Balance.

#### **Capital Asset and Debt Administration**

**Capital Assets.** Miami Shores Village's investment in capital assets for its governmental and business-type activities as of September 30, 2022 amounts to \$25.9 million (net of accumulated depreciation). The investment in capital assets includes Village-owned buildings, equipment and other infrastructure (streets, sidewalks, easements, right-of-ways). The value of capital investments includes the cost of the Doctors' Charter School of Miami Shores. The following table summarizes the components of the Village's investments in capital assets.

Miami Shores Village
Capital Assets as of September 30, 2022 and 2021
(net of accumulated depreciation)

	Governmento	al Activities	Business-Type	Activities	Total

Additional information on Miami Shores Village's capital assets may be found in Note 6 on Pages 41 to 42 of this report.

**Long-term Liabilities.** At September 30, 2022, Miami Shores Village had \$6.4 million in long-term liabilities, which are summarized in the schedule below. The decrease of \$8.6 million is attributable to a decrease in annual bond payments of \$1.4 million due to the closing of the Miami Shores Village, Florida Refunding General Obligation Bond, Series 2013 for the aquatic center, an increase in OPEB liability of \$58 thousand, and compensated absences of \$179 thousand.

Miami Shores Village
Outstanding Long-term Liabilities as of September 30, 2022 and 2021

Additional information on the Village's long-term debt may be found in Note 7 on Pages 42 to 43 of this report.

#### Economic Factors and Next Year's Budgets and Rates

Miami Shores Village is a single-family, residential community. As such, standard economic indicators used to determine the overall health of a community are slightly different for Miami Shores. Since the Village's "business community" is restricted to a six-block area on Second Avenue and isolated pockets of business entities on Biscayne Boulevard, the Village must monitor property values and other residentially-related trends to determine the health and vitality of the community. Quality recreational activities, including the Village's first-class aquatics facility, support the residents' requirement for high standards and outstanding recreation and leisure activities. This, along with its own public safety department, provides a higher standard of living than that which is found in surrounding municipalities.

The State of Florida, by constitution, does not have a state personal income tax and therefore, the State operates primarily using sales, gasoline and corporate income taxes. Local governments (cities, counties, and school boards) primarily rely upon property taxes and a limited array of permitted other taxes (sales, telecommunication, gasoline, utilities services, etc.) and fees (franchise, building permits, occupational licenses, etc.) for funding of their governmental activities. In addition, there are a number of state-shared revenues and recurring and non-recurring (one-time) grants from both the state and federal governments.

On January 29, 2008, the Florida electorate approved an amendment to the Florida Constitution relative to property taxation. This amendment (referred to as Amendment 1) was placed on the ballot by the Florida legislature at a special session held in October 2007. With respect to homestead property, Amendment 1 increases the \$25,000 homestead exemption by another \$25,000 for the portion of assessed property value exceeding \$50,000, except for school district taxes. Amendment 1 also allows property owners to transfer (make portable) up to \$500,000 of their Save Our Homes benefits to their next homestead when they move. Save Our Homes became effective in 1995 and limits (caps) the annual increase in assessed value for homestead property to three percent (3%) or the percentage change in the Consumer Price Index, whichever is less.

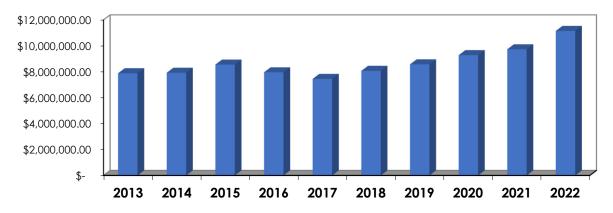

With respect to non-homestead property, Amendment 1 limits (caps) the annual increase in assessed value for non-homestead property (businesses, industrial property, rental property, second homes, etc.) to ten percent (10%), except for school district taxes. The Amendment also provides a \$25,000 exemption for tangible personal property.

Amendment 1 became effective on October 1, 2008 with the exception of the ten percent (10%) assessment cap on non-homestead property which became effective on January 1, 2009. Additional tax relief bills, which could further limit the extent to which municipalities can levy taxes, continue to be introduced by the state legislature.

Actual taxes levied by the Village in 2022 reflected an increase of \$459 thousand, precipitated by an increase in property values of \$60 million or 4.8% in property values as compared with 2021. Based on the current real estate market within the Village, it is anticipated that the Village will continue to experience an increase in assessed values due to the Village's desirability and the close location to Greater Downtown Miami.

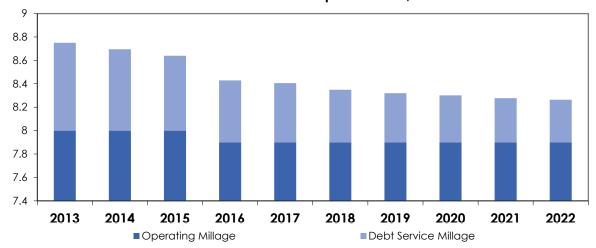

During the current fiscal year, unassigned fund balance in the General Fund was \$11.1 million, an increase of \$1.4 million compared to the unassigned fund balance in 2021 of \$9.7 million. This fund balance of \$11.1 million is contingent upon the \$1.2 million accounts receivable attributable to Hurricane IRMA. The balance of \$9.9 million is approximately equal to 6.3 months of General Fund operating expenditures. Even though fair market property values are expected to increase; assessed property values are limited by the "Save Our Homes" benefits. This limits the increase in property tax revenue even when property values are increasing. Expenditures such as payroll, personnel benefits and operating will continue to increase given the economic impact from the COVID-19 pandemic and other world events. Fiscal year 2023 budgeted expenditures and transfers are expected to be \$20.1 million, or 16.8%, more than the fiscal year 2022 budget of \$17.2 million. The Village, as can be shown in the following graph, is maintaining its unassigned fund balance so that a portion of unassigned fund balance will be available to preclude or moderate reductions in revenues related to any unforeseen circumstances, world crisis, to fund capital improvements, or be available to defray the outstanding costs associated with hurricanes or other natural disasters.

# General Fund Unrestricted and Unassigned Surplus For the Fiscal Years ended September 30, 2013-2022

In 1995, the state of Florida limited all local governments' ability to increase property assessments of homestead property in any given year to 3 percent or cost of living, whichever is lower. The graph below shows the millage rates over the past ten years. Since FY16, the Village has maintained the operating millage consistently at 7.9 mills. For many years, the Village, just like many cities across the country, has had to face the challenge of keeping taxes and service charges as low as possible while providing residents with the level of service they have come to expect.

Miami Shores Village Total Village Millage For the Fiscal Years ended September 30, 2013-2022

Fiscal year 2023 budgeted expenditures and transfers are expected to increase \$3.0 million compared with fiscal year 2022. This increase in expenditures is the result of the COVID-19 pandemic restrictions subsiding, as well as the direct economic impact, resulting from the pandemic, with price increases as the supply chain issues and shortages occur. Additional contributory factors include the increase in Village staff budgeted positions and the increase in capital improvements delayed due to the pandemic.

#### Requests for Information

This financial report is designed to provide a general overview of Miami Shores Village finances to our citizens, taxpayers, customers, investors, creditors, and others with an interest in the Village finances. Questions concerning this report or requests for additional financial information should be directed to the Finance Director, Holly Hugdahl, CPA, CGMA.

NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2022

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### A. Financial Reporting Entity

Miami Shores Village, Florida, (the Village) was incorporated in 1932 and is a political subdivision of the State of Florida located in northeastern Miami-Dade County. The Village operates under a Council-Manager form of government, with its legislative function being vested in a five-member council. The Village Council is governed by the Village Charter and by state and local laws and regulations. The Village Council is responsible for the establishment and adoption of policy. The Village provides the following full range of municipal services as authorized by its charter: public safety, streets, solid waste, stormwater, culture and recreational activities, public improvements, planning and zoning, and general administrative services.

As required by generally accepted accounting principles, these basic financial statements present the reporting entity of the Village. Component units are legally separate entities for which the government is considered to be financially accountable and for which the nature and significance of their relationship with the primary government are such that exclusion would cause the Village's combined financial statements to be misleading or incomplete. The primary government is considered financially accountable if it appoints a voting majority of an organization's governing body and 1) it is able to impose its will on the organization or 2) there is a potential for the organization to provide specific financial benefit to or impose specific financial burden on the Board. Additionally, the primary government is required to consider other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity financial statements to be misleading or incomplete. Based upon the application of these criteria, there were no organizations which met the criteria described above.

The financial statements of the Village have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting. The more significant of the Village's accounting policies are described below:

# B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the Village. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. All remaining non-major governmental funds are aggregated and reported as other governmental or other proprietary funds.

# NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2022

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### C. Measurement Focus, Basis of Accounting and Basis of Presentation (Continued)

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Village considers receivables collected within 60 days after year-end to be available and recognizes them as revenues of the current year. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Revenues for expenditure driven grants are recognized when the qualifying expenditures are incurred. All other revenue items are considered to be measurable and available only when cash is received by the Village.

The Village reports the following major governmental funds:

<u>General Fund</u> - This fund is the Village's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

<u>Police Forfeiture</u> - This fund accounts for proceeds obtained through the sale of confiscated and unclaimed property turned over to the Village through court judgments. Proceeds are to be used solely for law enforcement purposes.

Grant Fund - This fund accounts for the use of specific designated resources related to grant programs.

American Rescue Plan Act (ARPA) Fund – This fund accounts for the use of funds received by the State of Florida for expenses eligible under ARPA Coronavirus State and Local Fiscal Recovery Funds.

The Village reports the following major proprietary fund:

Solid Waste Fund - This fund accounts for the operations and maintenance of the Village's solid waste system.

Stormwater Fund - This fund accounts for the operations and maintenance of the Village's stormwater system.

<u>Water & Wastewater Fund</u> - This fund accounts for the annual assessments to pay for the construction cost and maintenance fees for the NE Second Avenue Business District Water & Wastewater Project. Future maintenance costs for the grind pumps will be paid from this fund.

NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2022

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### C. Measurement Focus, Basis of Accounting and Basis of Presentation (Continued)

Additionally, the Village reports the following fund types:

Internal Service Funds - The internal service funds are used to account for the financing of goods or services provided by one department to other departments of the Village, on a cost reimbursement basis. The Village has two internal service funds, the Risk Management Fund and the Fleet Maintenance Fund.

<u>Pension Trust Funds</u> - The pension trust funds account for the activities of the Police Pension and General Employees' Retirement Plans, which accumulate resources for pension benefits to qualified employees.

<u>Private Purpose Trust Fund</u> - This fund accounts for a donation from a foundation to be held by the Village on behalf of the Doctors Charter School to assist with meeting the operating needs of the school.

The financial statements of the Village have been prepared in accordance with generally accepted accounting principles (GAAP) as applied to governmental units in accordance with The Governmental Accounting Standards Board (GASB) pronouncements. The financial statements of the Village follow the guidance of GASB Statement No. 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements for both the government wide and proprietary fund financial statements.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the Village's enterprise fund functions and various other functions of the Village. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, and 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes. Proceeds from local option gas tax and Transportation Surtax are used to fund transportation related expenditures and therefore are reported as program revenues under the function "Public Works".

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the solid waste, and stormwater fund and internal service funds are charges to customers or other funds for services. Operating expenses for the enterprise funds and internal service funds include the cost of services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is Village policy to use restricted resources first, and then unrestricted resources as needed.

# NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2022

# NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### D. Deposits and Investments

The Village's cash and cash equivalents, for purpose of the statement of cash flows, include cash on hand, time and demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. The Village maintains a cash pool that is available for use by all funds. Interest earned on pooled cash is allocated to each of the funds, based on the fund's average pooled cash balance on a monthly basis.

All of the Village's investments are reported at fair value, which is based on quoted market prices. The Village's investments consist of amounts placed with the State Board of Administration in the Local Government Surplus Funds Trust Fund (Florida PRIME) investment pool. The Florida PRIME is considered a SEC 2a-7-like fund, thus reported at its fair value of its position in the pool, which is the same as its value of the pool shares.

The Plan's investments are carried at fair value using quoted market prices to value investments. Differences between cost and market value are recorded as net unrealized gains or losses. Net realized gains or losses for securities which are sold are combined with the unrealized gains and losses and shown as "net appreciation (depreciation) in fair value of investments" in plan net position. Dividends and interest are recognized as earned. Purchases and sales of investments are recorded on a trade-date basis.

The Village's investments in Florida PRIME are governed by the provisions of Florida Statutes Section 218.415. Investments in the Village's retirement plans are governed by the Plan's investment policies.

#### E. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e. the current portion of interfund loans) or "advances to/from other funds" (i.e. the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds". Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

#### F. Inventories and Prepaid Items

Inventories are valued at cost using the first-in, first-out (FIFO) method. The costs of governmental fund-type inventories are recorded as expenditures when consumed rather than when purchased (consumption method). In the governmental funds, reported inventories are offset by fund balance reserve which indicates that they do not constitute available spendable resources. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded – in both, the government-wide and fund financial statements – as prepaid items by recording an asset for the prepaid amount and recognizing the expenditure in the year such item is consumed (consumption method). Amounts reported in the governmental funds are offset by an equal reservation of fund balance in the fund financial statements. This is an indication that these components of current assets do not constitute available spending resources.

#### G. Property Taxes

Property values are assessed as of January 1 of each year, at which time taxes become an enforceable lien on the property. Tax bills are mailed for the Village by Miami Dade County on or about October 1 of each year and are payable with discounts of up to 4% offered for early payment. Taxes become delinquent on April 1 of the year following the year of assessment and State law provides for enforcement of collection of property taxes by seizure of the personal property or by the sale of interest-bearing tax certificates to satisfy unpaid property taxes.

NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2022

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### G. Property Taxes (Continued)

Assessed values are established by the Miami-Dade County Property Appraiser. In November 1992, a Florida constitutional amendment was approved by the voters, which provides for limiting the increases in homestead property valuations for ad valorem tax purposes to a maximum of 3% annually and also provides for reassessment of market values upon changes in ownership. The County bills and collects all property taxes and remits them to the Village.

State statutes permit municipalities to levy property taxes at a rate of up to 10 mills (\$10 per \$1,000 of assessed taxable valuation). The tax levy of the Village is established by the Village Council and the Miami-Dade County Property Appraiser incorporates the Village's millage into the total tax levy, which includes the County and the County School Board tax requirements. The millage rate assessed by the Village for the year ended September 30, 2022 was 7.9000 mills (\$7.9000 per \$1,000 of taxable assessed valuation).

#### H. Restricted Assets

Assets of the debt service fund have been classified as restricted because their use is restricted by a bond indenture agreement for the Village's debt service requirements. Proceeds from forfeiture funds are classified as restricted in the Law Enforcement Training and Police Forfeiture Special Revenue Funds since these resources are specifically earmarked for law enforcement purposes only. Additionally, proceeds from the People's Transportation Tax and Local Option Gas Tax are classified as restricted since these resources may only be used for road and transportation related expenditures.

Assets held in the General Trust Fund are restricted primarily for recreation, library and police departments, as well as the charter school.

#### I. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. The Village defines capital assets as assets with an initial, individual cost of more than \$1,000 and an estimated useful life in excess of three years. Purchased or constructed assets are recorded at historical cost or estimated historical cost. Donated capital assets are recorded at acquisition value at the date of donation.

Major outlays for capital assets and improvements are capitalized as projects are constructed. The costs of normal maintenance and repairs that do not add value to the asset or materially extend its useful life are not capitalized.

Capital assets of the Village are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Building and improvements	10-40
Land improvements	40
Infrastructure	30
Solid waste equipment	10
Vehicles	5
Other equipments, machinery, furniture	
and fixtures	3-10

NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2022

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### J. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Village has pension amounts of \$2,756,838 and OPEB amounts of \$141,748 that qualify for reporting in this category on the government-wide statement of net position.

In additions to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as inflows of resources (revenue) until that time. The Village has local business licenses taxes of \$48,960, pension amounts of \$5,795,898, and OPEB amount of \$206,231. That quality for reporting in this category on the government – wide statement of net position.

Net position is the residual of all other elements presented in a statement of financial position. It is the difference between (a) assets plus deferred outflow of resources and (b) liabilities and deferred inflows of resources.

#### K. Compensated Absences

Village employees are granted vacation and sick leave in varying amounts based on length of service and the department which the employee serves. The Village's vacation policy allows all regular non-temporary employees to accrue vacation leave on a monthly basis. Vacation leave accrued in the previous year must be used prior to the next year's anniversary date (unless authorized by the Village Manager). Upon separation from Village employment in good standing, employees shall receive a lump sum payment for any unused accrued vacation leave up to a maximum allotted for the employee's length of service.

The Village's sick leave policy provides for the accumulation of one workday per month up to a maximum of 720 hours for a general employee. A general employee shall receive payment of one hundred percent (100% to a maximum of 720 hours) of accrued sick leave upon retirement and fifty (50%) upon separation in good standing.

For both vacation and sick leave, there is no payout for an employee who is discharged for misconduct, termination or is not in good standing with the Village.

All vacation and sick leave is accrued and reported as a fund liability when it is probable that the Village will compensate the employee with expendable available financial resources. Vacation and sick leave is accrued when incurred in proprietary funds and reported as a fund liability. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements. For governmental funds, compensated absences are generally liquidated by the General Fund.

#### L. Unearned Revenues

Unearned revenues include amounts collected before revenue recognition criteria are met and receivables, which, under the modified accrual basis of accounting, are measurable, but not yet available. The unearned items consist primarily of license and permit revenues. Unearned revenues in the proprietary funds are related to billings for the 22-23 fiscal year.

#### M. Employee Benefit Plan

The Village provides a separate defined benefit pension plan for its police officers and general employees. At September 30, 2022, for purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, information about the General Employees' Retirement Plan and the Police Officers' Retirement Plan are presented in the government-wide statement of net position. The net pension liability (asset) is a function of the annual required contributions, interest, adjustments to the annual required contribution, annual pension costs and actual employer's contributions made to the Plans. Please refer to Note 10 for further information.

NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2022

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### N. Post-Employment Benefits Other Than Pensions (OPEB)

Pursuant to Section 112.0801, Florida Statutes, the Village is mandated to permit participation in the health insurance program by retirees and their eligible dependents at a cost to the retiree that is no greater than the cost at which coverage is available for active employees. Retirees are required to pay 100% of the premium rates where premiums are determined based upon a blended rates used for active employees and retirees. These premium rates were adjusted to reflect differing utilization rates by age and gender and the impact of the Medicare program on claim costs. The blended rates provide an implicit subsidy for retirees because, on an actuarial basis, their current and future claims are expected to result in higher costs to the plan on average than those of active employees. The Village currently provides these benefits in accordance with the vesting and retirement requirements of the Village.

The Village is financing the post employee benefits on a pay-as-you go basis. As determined by an actuarial valuation, the Village records an OPEB liability in its government-wide and proprietary financial statements related to the implicit subsidy. For governmental funds, the OPEB liability is generally liquidated by the General Fund. The OPEB plan does not issue separate financial statements.

#### O. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond issuance costs are expensed as incurred except for insurance cost which are amortized over the term of the related debt. For proprietary fund types, bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs are reported as debt service expenditures as incurred.

#### P. Net Position / Fund Balance

Total net position as of September 30, 2022, is classified into three components of net position:

#### Net investment in capital assets

This category consists of capital assets (including restricted capital assets), net of accumulated depreciation and reduced by any outstanding balances of bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, and improvements of those assets, excluding unexpended proceeds.

#### Restricted net position

This category consists of net position restricted in their use by (1) external groups such as grantors, creditors or laws and regulations of other governments; or (2) law, through constitutional provisions or enabling legislation.

#### Unrestricted net position

This category includes all of the remaining net position that does not meet the definition of the other two categories.

# NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2022

# NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### P. Net Position / Fund Balance (continued)

As of September 30, 2022, fund balances of the governmental funds are classified as follows:

#### Non-spendable

Amounts that cannot be spent either because they are in non-spendable form or because they are legally or contractually required to be maintained intact.

#### Restricted

Amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

#### Committed

Amounts that can be used only for specific purposes determined by a formal action of the Village Council. The Village Council is the highest level of decision-making authority for the Village. Commitments may be established, modified, or rescinded only through ordinances or resolutions approved by the Village Council. Both ordinances and resolutions are equally binding. Committed fund balance also should incorporate contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

#### Assigned

Assigned fund balances are amounts that are constrained by the Village's intent to be used for specific purposes, but are neither restricted nor committed. Intent is established by the Village Council who has the authority to assign, modify or rescind amounts to be used for specific purposes. This is delegated to the Village Manager by the Council. This balance includes (a) all remaining amounts that are reported in governmental funds (other than the General Fund) that are not classified as nonspendable, restricted, or committed, and (b) amounts in the General Fund that are intended to be used for a specific purpose. Specific amounts that are not restricted or committed in a special revenue or capital projects fund are assigned for the purposes in accordance with the nature of their fund type, Assignment within the General Fund conveys that the intended use of those amounts is for a specific purpose that is narrower than the general purposes of the Village itself.

#### <u>Unassigned</u>

This fund balance is the residual classification for the General Fund. The General Fund is the only fund that reports a positive unassigned fund balance amount. This category is also used to report negative fund balances in other governmental funds.

The Village considers restricted amounts to be spent first when both restricted and unrestricted fund balance is available unless there are legal documents/contracts that prohibit this, such as grant agreements requiring dollar for dollar spending. Additionally, the Village would first use committed, then assigned, and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

#### Q. Fund Balance Flow Assumption

Sometimes the Village will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the Village's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance, if any, is applied last.

NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2022

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### R. Capital Contributions

Capital contributions in proprietary fund financial statements arise from grants or outside contributions of resources restricted to capital acquisition and construction.

#### S. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts of assets, liabilities, disclosures of contingent liabilities, revenues and expenditures/expenses reported in the financial statements and accompanying notes. These estimates include assessing the collectability of receivables, the realization of pension obligations, OPEB and the useful lives of capital assets. Although these estimates as well as all estimates are based on management's knowledge of current events and actions it may undertake in the future, they may ultimately differ from actual results.

#### NOTE 2 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

By its nature as a local government unit, the Village is subject to various federal, state, and local laws and contractual regulations. The Village has no material violations of finance-related legal and contractual obligations.

#### **Fund Accounting Requirements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Village, like any other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance related requirements, bond covenants, and segregation for management purposes. A negative fund balance was recognized in the Grant Fund and the Water & Wastewater Fund. The Village determined the negative fund balance in the Grant Fund is due to the reimbursement amount that is pending FEMA approval for Hurricane Irma and future assessments will offset the deficit in the Water & Wastewater fund.

#### **Revenue Restrictions**

The Village has various restrictions placed over certain revenue sources from federal, state, or local requirements. The primary revenue sources include:

 Revenue Source
 Legal Restrictions of Use

 Gas Tax
 Roads, sidewalks, streets

 Transportation Surtax
 Transportation and roads

 Police Forfeitures
 Law Enforcement

 Federal Emergency Management Agency
 Disaster mitigation

For the fiscal year ended September 30, 2022, the Village complied, in all material respects, with these revenue restrictions.

#### **NOTE 3 - DEPOSITS AND INVESTMENTS**

# **Deposits**

In addition to insurance provided by the Federal Depository Insurance Corporation, all deposits are held in banking institutions approved by the State Treasurer of the State of Florida to hold public funds. Under Florida Statutes Chapter 280, Florida Security for Public Deposits Act, the State Treasurer requires all Florida qualified public depositories to deposit with the Treasurer or another banking institution eligible collateral. In the event of a failure of a qualified public depository, the remaining public depositories would be responsible for covering any resulting losses. Accordingly, all amounts reported as deposits are insured or collateralized with securities held by the entity or its agent in the entity's name.

NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2022

#### NOTE 3 - DEPOSITS AND INVESTMENTS (CONTINUED)

#### Investments

The Village is authorized to invest in obligations of the U.S. Treasury, its agencies, instrumentalities and the Local Government Surplus Funds Trust Fund administered by the State Board of Administration (SBA). The investment policy defined in the statutes attempts to promote, through state assistance, the maximization of net interest earnings on invested surplus funds of local units of governments while limiting the risk to which the funds are exposed.

The SBA administers Florida PRIME ("PRIME"), which is governed by Chapter 19-7 of the Florida Administrative Code and Chapters 215 and 219 of the Florida Statutes. These rules provide guidance and establish the policies and general operating procedures of the administration of PRIME. PRIME is not a registrant with the Securities and Exchange Commission; however, the SBA has adopted operating procedures consistent with the requirements for a 2a-7 fund, which permits money market funds to use amortized cost to maintain a constant net asset value ("NAV") of \$1 per share. The fair value of the position in the Florida PRIME is equal to the value of the pool shares.

Additionally, the Office of the Auditor General of the State of Florida performs the operational audit of the activities and investment of the SBA. The SBA accounts are not subject to custodial credit risk as these investments are not evidenced by securities that exist in physical or bank entry form.

In accordance with GASB Statement No. 79, Certain External Investment Pools and Pool Participants, the Village's investment in the Florida PRIME meets the definition of a qualifying investment pool that measures for financial reporting purposes all of its investments at amortized cost and should disclose the presence of any limitations or restrictions on withdrawals. As of September 30, 2022, there were no redemption fees or maximum transaction amounts, or any other requirements that serve to limit a participant's daily access to 100 percent of their account value.

#### Investments - Village

As of September 30, 2022, the Village had the following investments:

Investment Type	<u>Fair Value</u>
SBA-PRIME	324,383
Total	324,383

#### Interest Rate Risk

Interest rate risk refers to the portfolio's exposure to fair value losses arising from increasing interest rates. The Village does not have a written policy on interest rate risk; however, the Village manages its exposure to declines in fair values by limiting the weighted average monthly maturity of its investment portfolio to less than 180 days. The weighted average days to maturity (WAM) of the Florida PRIME as of September 30, 2022 is 21 days. Next interest rate reset dates for floating rate securities are used in the calculation of the WAM. The weighted average like (WAL) of Florida PRIME at September 30, 2022, is 72 days.

#### Credit Risk

State law limits investments in bonds, U.S. Treasuries and agency obligations, or other evidences of indebtedness to the top ratings issued by nationally recognized statistical rating organizations (NRSRO) of the United States. The PRIME is rated AAAm by Standard and Poor's.

# Concentration of Credit Risk

The Village's investment policy does not stipulate any limit on the percentage that can be invested in any one issuer. GASB Statement No. 40 requires disclosure when the percent is 5% or more in any one issuer. As of September 30, 2022, the value of each position held in the Village's portfolio comprised of less than 5% of the Village's investment assets.

NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2022

#### NOTE 3 - DEPOSITS AND INVESTMENTS (CONTINUED)

#### **Investments Pension Plans**

The Pension Board of Trustees has developed certain investment guidelines and has retained investment managers. The investment managers are expected to maximize the return on the investment portfolio and may make transactions consistent with that expectation within the Board's guidelines. The investment managers are compensated based on a percentage of their portfolio's market value.

The Plans' investment policy is determined by the Board who is responsible for directing the investment of the assets of the Plans to ensure that there will be adequate monies for future benefits. The policy has been identified by the Board to conduct the operations of the Plans in a manner so that the assets will provide the pension and other benefits provided under applicable laws, including Village ordinances, preserving principal while maximizing the rate of return.

Investment in all equity securities shall be limited to those listed on a major U.S stock exchange and limited to no more than 70% (at market) of the Plan's total asset value. The equity position in any one company shall not exceed 5% of the Plan's total asset value at the time of purchase. Investments in stocks of foreign companies shall be limited to 25% of the Plan's market value.

Investments in fixed income securities shall meet or exceed a rating of investment grade as determined by at least one major credit rating service. The market value of bonds issued by any single issuer shall not exceed 3% of the manager's portfolio.

#### **Types of Investments**

Florida statutes and Plan investment policy authorize the Board to invest funds in various investments. The current target allocation of these investments at fair value is as follows:

Taract Allegation

	raiget Allocatio	<u>'11</u>
Asset Group	General Employees	Police
Domestic Equity	50%	50%
International Equity	15%	15%
Domestic Bonds	35%	35%

#### Rate of Return

For the fiscal year ending September 30, 2022, the annual money-weighted rate of return on pension plan investments, net pension plan investment expense, was (18.99%) for the General Employee Retirement Plan and (18.07%) for the Police Retirement Plan. The money weighted rate of return expresses investment performance, net of investment manager and consultant expenses adjusted for the changing amounts actually invested. Inputs to the internal rate of return calculation are determined on a monthly basis.

As of September 30, 2022, the Plans had the following investments and maturities:

# General Employees' Retirement Plan

		More than 10						
Investment Type	Less Than 1	<u>1-5</u>	<u>6-10</u>	<u>years</u>	Fair Value			
US Government Obligations	578,226	-	376,198	608,903	1,563,327

Total	1,542,297	1,404,015	1,959,428	5,380,884	10,286,624

#### Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. As a means of limiting its exposure to interest rate risk, the Plan diversifies its investments by security type and institution, and limits holdings in any one type of investment with any one issuer with various durations of maturities.

#### Credit Risk

Credit risk is the risk that a security or a portfolio will lose some or all of its value due to a real or perceived change in the ability of the issuer to repay its debt. This risk is generally measured by the assignment of a rating by a nationally recognized statistical rating organization. The Plan's investment policy utilizes portfolio diversification in order to control this risk. The Plan's investment policies limit investments in fixed income securities to a rating of investment grade or higher.

#### General Employees' Retirement Plan

The following tables disclose credit ratings by investment type, at September 30, 2022:

		2022
	Fair Value	Percentage of Portfolio
US government guaranteed*	1,563,327	27.06%
Quality rating of credit risk debt sec	urities	
AA	23,385	0.40%
AA-	157,986	2.73%

BBB		922,735	8.97%
BBB-		97,183	0.94%
NR**		1,983,920	19.29%
Total fixed income securities	\$	10,286,624	100%

<sup>\*</sup> Obligations of the U.S government or obligations explicitly guaranteed by the U.S government are not considered to have credit risk and do not have purchase limitations.

#### Concentration of Credit Risk

The investment policy of the Plan contains limitations on the amount that can be invested in any one issuer as well as maximum portfolio allocation percentages. As of September 30, 2022, no investment by any one issuer was above the 5% threshold required for disclosure.

#### Custodial Credit Risk

This is the risk that in the event of a failure of the counterparty, the Plan will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Consistent with the Plan's investment policy, the investments are held by Plan's custodial bank and registered in the Plan's name.

#### Foreign Currency Risk

The Plan may have exposure to foreign currencies by making direct investments in non-U.S. currencies or in securities denominated in non-U.S. currencies, purchasing or selling forward currency exchange contracts in non-U.S. currencies, non-U.S. currency futures contracts and swaps for cross currency investments. Foreign currencies will fluctuate, and may decline, in value relative to the U.S. dollar and other currencies and thereby affect the Funds' investments in foreign (non-U.S.) currencies or in securities that trade in, and receive revenues in, or in derivatives that provide exposure to, foreign (non-U.S.) currencies.

#### Risks and Uncertainties

The Plan has investments in a combination of stocks, bonds, government securities and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect balances and the amounts reported in the statement of plan net position and the statement of changes in plan net position. The Plan, through its investment advisors, monitors the Plan's investments and the risks associated therewith on a regular basis, which the Plan believes minimizes these risks.

The Village does not participate in any securities lending transactions, nor has it used, held or written derivative financial instruments.

<sup>\*\*</sup> Not rated as the investments do not have an S&P rating.

# NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2022

#### **NOTE 4 - FAIR VALUE MEASUREMENT**

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Village categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The following is a description of the valuation methodologies used for the Plan's investments measured at fair value:

Debt income securities are valued using pricing inputs that reflect the assumptions market participants would use to price an asset or liability and are developed based on market data obtained from sources independent of the reporting entity. This includes government securities, corporate bonds, and mortgage-backed securities.

Equity securities traded on national or international exchanges are valued at the last reported sales price or current exchange rates. This includes equity mutual funds, common stock, and exchange-traded fund.

The Plans have the following recurring fair value measurements as of September 30, 2022:

#### General Employees' Retirement Plan

Investments by fair value level:		9/30/2022	Ac	uoted Prices in tive Markets for entical Assets (Level 1)	Significant Other Observable Inputs (Level 2)

#### **NOTE 7 - LONG-TERM DEBT**

#### Miami Shores Village, Florida Refunding General Obligation Bond, Series 2015

In June 2015, the Village issued the Miami Shores Village, Florida Refunding General Obligation Bond Series 2015, in order to refund the cost of the Miami Shores Village, Florida General Obligation Bonds, Series 2004. Principal is due annually (through 2033) at various amounts ranging from \$200,300 in 2022 to a final payment of \$263,700 in 2033. The bonds bear interest at a rate of 2.54% per annum. The bonds are secured by ad-valorem revenues. The refunding resulted in an economic gain of approximately \$764,000 and a cash flow savings of approximately \$947,000.

The indenture contains a provision that in an event of default, outstanding amounts including accrued interest are due immediately.

Debt service requirements to maturity for the fiscal year ending September 30, 2022 are summarized as follows:

September 30,	Principal	Interest	<u>Total</u>
2023	201,800	62,324	264,124
2024	208,200	57,117	265,317
2025	214,200	51,752	265,952
2026	219,400	46,246	265,646
2027	224,200	40,612	264,812
2028-2032	1,223,100	112,623	1,335,723
2033	263,700	3,349	267,049
	\$ 2,554,600	\$ 374,023	\$ 2,928,623

# NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2022

#### NOTE 7 - LONG-TERM DEBT(CONTINUED)

#### Florida Local Government Finance Commission

During fiscal year 2017, the Village entered into a pooled commercial paper loan agreement with the Florida Local Government Finance Commission (FLGFC) for total available funds of \$5,000,000 to finance various capital improvements within the Village, including the water main and sewer system project construction in the downtown area. The loan is collateralized by the Village's non-ad valorem revenues. The variable interest rate is paid monthly on the outstanding note balance. Other loan costs include various administrative fees and draw down costs of \$2,000 for each \$1,000,000 of draw down.

The Village does not currently have unused line of credit or assets placed as collateral for debt. Changes in Governmental Activities Long-term liabilities during the fiscal year ended September 30, 2022 were as follows:

	Beginning				Ending	Dı	ue within
	 Balance	Increases	eases Decreases		Balance	one year	
Governmental activities							
Bonds and notes payable:							
FL Refunding General Obligation Bond, Series 2013	\$ 1,249,000	\$ -	\$	(1,249,000)	\$ -	\$	-
Refunding General Obligation Bond, Series 2015	2,754,900		_	(200,300)	 2,554,600		201,800
Total bonds and notes payable	 4,003,900		_	(1,449,300)	2,554,600		201,800
Other liabilities:							
OPEB liability	551,929	51,725		-	603,654		-
Compensated absences	 863,251	1,019,328		(868,380)	1,014,199		8,560
Total other liabilities	1,415,180	1,071,053		(868,380)	1,617,853		8,560
Governmental activity long-term liabilities	\$ 5,419,080	\$ 1,071,053	\$	(2,317,680)	\$ 4,172,453	\$	210,360
Business-type activities							
FLGFC Notes Payable	\$ 3,700,000	\$ -	\$	(60,000)	\$ 3,640,000	\$	60,000
Other liabilities:							
OPEB liability	19,632	6,057		-	25,689		-
Compensated absences	73,467	103,756		(76,005)	101,218		25,304
Business-type activities long-term liabilities	\$ 3,793,099	\$ 109,813	\$	(136,005)	\$ 3,766,907	\$	85,304

For governmental activities, compensated absences, pension liabilities and other post-employment (OPEB) benefits are generally liquidated by the general fund. Claims and adjustments are liquidated by the Risk Management internal service fund. Accordingly, their long-term liabilities for compensated absences, pension liabilities, and the other post-employment benefit (OPEB) liability are included as part of the totals for governmental activities.

# NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2022

#### NOTE 8 - INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

The amount due to/from other funds at September 30, 2022 were as follows:

	Receivables		 Payables
General Fund	\$	2,256,485	\$ -
Grants		-	2,080,952
ARPA		-	175,533
Total	\$	2,256,485	\$ 2,256,485

- Amounts due from grants fund to the general fund are for advances made to the grants fund to cover FEMA
  expenditures until the receivables on those funds are collected.
- Amounts due from the American Rescue Plan fund to the general fund are for advances made to the fund to cover expenditures incurred until the receivables on those funds are collected.

Interfund transfer activity for the year ended September 30, 2022 was as follows:

	Transfers In		Transfers Out	
General Fund	\$	700,000	\$	927,043
Solid Waste		-		350,000
Stormwater		-		50,000
Water & Wastewater		64,043		-
Non-Major Governmental Funds		863,000		300,000
Internal Service Funds		-		-
Total	\$	1,627,043	\$	1,627,043

Transfers are used to (a) move revenues from the fund that statute or budget requires to collect them to the fund the statute or budget requires to expend them and (b) move unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorization.

• The General Fund transferred \$863,000 to the Capital Improvement Fund as funding for various ongoing capital projects of the Village.

#### NOTE 9 - EMPLOYEE RETIREMENT PLANS - PLANS' REPORTING

The Village maintains two separate defined benefit single-employer pension plans, the General Employees' Retirement Plan and the Police Officers' Retirement Plan which cover substantially all of its full-time employees. The Village accounts for these pension plans as pension trust funds.

#### **Basis of Accounting**

The Village's pension plans are accounted for using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions to each Plan are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of each Plan.

NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2022

#### NOTE 9 - EMPLOYEE RETIREMENT PLANS - PLANS' REPORTING (CONTINUED)

#### **Method Used to Value Investments**

Investments are reported at fair value. Securities traded on national or international exchanges are valued at the last reported sales price or exchange rate. Net appreciation (depreciation) in fair value of investments includes the difference between cost and fair value of investments held as well as the net realized gains or losses from securities sold. Interest and dividend income is recognized on the accrual basis when earned. Purchases and sales of investments are recorded on a trade date basis.

#### Membership

The membership in the Plans as of October 1, 2021 (for the General Employees Plan) and October 1, 2021 for the Police Plan (the dates of the latest actuarial valuations) consisted of:

	General	
	Employees	Police
Inactive employees:		
Retirees and beneficiaries		
currently receiveing benefits	59	29
Reitrees entitled to benefits but not		
yet receiving them	7	-
Active participants:	68	34
Total members	134	63

#### General Employees' Retirement Plan

#### Plan Description

The General Employees' Retirement System (the Plan) is a single-employer defined benefit pension plan that covers all Village employees, except for police, and certain appointed employees. The Plan was established on January 1, 1957 by the Village Council. On December 31, 1999, the Plan was split between the general employees and the police officers. The Plan is governed by certain provisions of Chapter 112, Florida Statutes. The Board of Trustees for the Plan administers the Plan. Plan amendments must be authorized by the Village Council. The Plan provides retirement and death benefits to Plan members and beneficiaries. The Plan does not issue a separate financial report.

#### Deferred Retirement Option Plan

Effective December 5, 2006, current employees may elect to participate in the deferred retirement option plan (DROP) the first day of the month coincident with or next following the date of normal retirement. Election into the DROP is voluntary. The employee may elect to participate in the plan for a maximum of 60 months. Once participation in the DROP commences, such participation constitutes an irrevocable election.

A member's continuous service and accrued benefit under the Plan shall be determined and frozen on the effective date of the employee's election to participate in the DROP. Additional continuous service or benefits under the Plan shall not be accrued. No payments are made directly to the employee from the Plan while the member participates in the drop plan.

During the period of the member's participation in the DROP, the employee's normal retirement benefit shall be credited to the employee's DROP account. No further contributions to the General Employees' Pension Plan will be required by the Village nor the employee on behalf of any employee who has elected participation in the DROP. The member's account is invested as part of the corpus of the system by the Board and is credited with interest equal to the overall net rate of return on the fund assets during the reporting period during which the member participates in the DROP.

NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2022

#### NOTE 9 - EMPLOYEE RETIREMENT PLANS - PLANS' REPORTING (CONTINUED)

#### General Employees' Retirement Plan (Continued)

Upon termination of employment with the Village or 60 months of DROP participation, the balance of the DROP account will become payable in addition to the monthly normal retirement benefit (which is based on credited service and average monthly salary on the DROP election date). The DROP account is distributed to the member in a single lump sum payment or a direct rollover to another qualified retirement plan. If a member dies before the member's DROP account balance has been paid in full, distribution of the DROP account balance will be made according to the member's designation. DROP payments to a beneficiary will be in addition to any retirement benefits payable by the Plan. Under any option and in no event may the total benefit payments to the member or the beneficiary be less than the member's own accumulated contributions. As of September 30, 2022, there were 8 members in the DROP and their fair value of DROP investment was \$304,086 which is included in the Plan's net position. At the end of September 30, 2022, the Plan had no DROP Liability.

#### Funding Requirement

Plan members are required to contribute 6% of their annual covered salary. The Village contributes at actuarially determined rates that are designed to accumulate sufficient assets to pay benefits when due. Effective May 30, 2012, the Division of Retirement mandated that local governments confer with the Plan's actuary to select and maintain contribution method (percentage of payroll or fixed dollar contributions) that best fits the funding requirements of the Plan. The Plan determined to use the "percentage of payroll contribution" method for the fiscal year ended September 30, 2022.

#### Funding Requirement (Continued)

The actual contribution from the Village for active members were actuarially determined using the actuarial valuation as of October 1, 2021 for the year ended September 30, 2022. The contributions consisted of the following at September 30, 2022:

		Percentage of Covered
	Actual Contribution	Payroll
Village <sup>–</sup>	454,695	11.80%
Members	206,640	N/A

#### **Net Pension Liability**

Total pension liability	\$ 19,169,337
Plan fiduciary net position	15,551,704
Net pension liability	\$ 3,617,633

#### Significant Actuarial Assumptions

The total pension liability was determined by an actuarial valuation as of October 1, 2021 and rolled forward to the measurement date of September 30, 2022 using the following actuarial assumptions:

Interest rates:

Actuarial Cost Method Entry Age Normal

Inflation 2.25%

Salary Increases 5.00%, including inflation

Investment Rate of Return 7.00%

Retirement Age Experience-based table of rates that are specific to the type of eligibility condition.

Mortality The same versions of Pub-2010 Headcount-Weighted Mortality Tables as used by the Florida

Retirement System (FRS) in their July 1, 2019 actuarial valuation (with mortality improvements projected to all future years after 2010 using Scale MP-2018). Florida Statutes Chapter 112.63(1)(f) mandates the use of mortality tables from one of the two most recently published FRS actuarial

valuation reports.

NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2022

# NOTE 9 - EMPLOYEE RETIREMENT PLANS - PLANS' REPORTING (CONTINUED)

#### General Employees' Retirement Plan (Continued)

#### Long-Term Expected Rate of Return

The long-term expected rate of return on pension plan investment was determined using the long-term nominal building block data less the long-term inflation assumption of 2.25%. The building block long-term real return projections were develop considering the long-term historic capital market returns, 10-15 year expected capital market return assumptions, as well as, historical, current, and expected inflation data. Best estimates of arithmetic real return for each asset class included in the pension plan's target allocation as of September 30, 2022 are summarized in the following table:

	Long-term Expected Real
Asset Group	Rate of Return
Domestic Equity	7.50%
International Equity	8.50%
Domestic Bonds	2.50%
International Bonds	3.50%
Real Estate	4 50%

#### Discount Rate

A single discount rate of 7.00% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on pension plan investments of 7.00%. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between the total actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments (7.00%) was applied to all periods of projected benefit payments to determine the total pension liability.

Regarding the sensitivity of the net pension liability to changes in the single discount rate, the following presents the plan's net pension liability, calculated using a single discount rate of 7.00%, as well as what the plan's net pension liability (asset) would be if it were calculated using a single discount rate that is 1-percentage-point lower or 1-percentage-point higher:

#### Sensitivity of the Net Pension Liability to the Single Discount Rate Assumption

		Current Single Discount				
1% Decrease		Rate Assumption		1% Increase		
		6.00%		7.00%		8.00%
	\$	5.868.309	\$	3.617.633	\$	1.734.482

#### **Police Officers' Retirement Plan**

# Plan Description

The Police Officers' Retirement System (the Plan) is a single-employer defined benefit pension plan that covers substantially all of the Village's certified police officers. The Plan was established as of the effective date of January 1, 1957 by the Village Council. It was amended on December 31, 1999, to split the Plan between General Employees and Police Officers. The Plan is also governed by certain provisions of Chapter 185, Florida Statutes. The Board of Trustees for the Plan administers the Plan. Plan amendments must be authorized by the Village Council. The Plan provides retirement, disability, and death benefits to Plan members and beneficiaries. The Plan does not issue a separate financial report.

### **Deferred Retirement Option Plan**

Effective May 5, 1998, subsequent to the approval from the State of Florida, Division of Retirement, current employees with at least 25 but not more than 30 years of continuous service as a member of the plan may elect to participate in the deferred retirement option plan (DROP) for sworn police personnel. The employee may elect to participate in the plan for a maximum of 60 months before the employee attains 30 years of continuous service. A member's continuous service and accrued benefit under the plan shall be determined and frozen on the effective date of the employee's election to participate in the DROP. Additional continuous service or benefits under the plan shall not be accrued, except for cost-of-living adjustments provided to retirees under the plan. No payments are made directly to the employee from the pension plan while the member participates in the drop plan.

NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2022

#### NOTE 9 - EMPLOYEE RETIREMENT PLANS - PLANS' REPORTING (CONTINUED)

#### Police Officers' Retirement Plan (Continued)

During the period of the member's participation in the DROP, the employee's normal retirement benefit shall be credited to the employee's DROP account. No further contributions to the police officers' retirement system will be required by the Village nor the employee on behalf of any employee who has elected participation in the DROP. The member's account is invested as part of the corpus of the system by the Board and is credited with interest equal to the overall net rate of return on the fund assets during the reporting period during which the member participates in the DROP.

At the conclusion of the member's participation in the DROP, the member will receive a normal benefit calculated in accordance with the plan using an average monthly earnings and continuous service as of the effective date of the member's election to participate in the DROP. The DROP account is distributed to the member in a cash lump sum, unless the member alternatively elects to receive payments in approximately equal quarterly or annual installments over a period designated by the member. If a member dies before distribution of the member's DROP plan commences, the account balance is paid to the member's designated beneficiary in an immediate cash lump sum. Provisions of the plan do not allow for the distribution of a member's DROP account to begin later than April 1 following the later of the calendar year in which the member separates from service with the Village or attains age 70 1/4 years. As of September 30, 2021, there were 3 members in the DROP and their fair value of DROP investment was \$393,463 which is included in the Plan's net position. At the end of September 30, 2021, the Plan had no DROP liability.

#### **Funding Requirement**

Plan members are required to contribute 9% of their annual covered salary. The Village contributes at actuarially determined rates that are designed to accumulate sufficient assets to pay benefits when due. Effective May 30, 2012, the Division of Retirement mandated that local governments confer with the Plan's actuary to select and maintain contribution method (percentage of payroll or fixed dollar contributions) that best fits the funding requirements of the Plan. The Plan determined to use the "percentage of payroll contribution" method for the fiscal year ended September 30, 2022.

Pursuant to Chapter 185, Florida Statutes, a portion of all insurance premium tax monies received in excess of the threshold of \$60,386 are to be uitlized to provide future minimum extra benefits and may not be used to reduce or offset the contribution requirements of the employer. The Village reports the contributions from the State of Florida as revenues and expenditures/expenses in the appropriate fund before being reported in the Plan.

The actual contribution from the Village for active members were actuarially determined using the actuarial valuation as of October 1, 2021 for the year ended September 30, 2022. The contributions consisted of the following at September 30, 2022:

			Percentage of Covered
	Actu	ual Contribution	Payroll
Village	\$	1,150,000	39.80%
State of Florida		109,624	3.79%
Members		260,052	N/A
Total contributions	\$	1,519,676	43.59%

#### Net Pension Liability

Total pension liability	\$ 36,402,907
Plan fiduciary net position	28,413,638
Net pension liability	\$ 7,989,269
Plan fiduciary net position as a percentage of total pension liability	78.05%

# NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2022

#### NOTE 9 - EMPLOYEE RETIREMENT PLANS - PLANS' REPORTING (CONTINUED)

#### Police Officers' Retirement Plan (Continued)

#### Significant Actuarial Assumptions

The total pension liability was determined by an actuarial valuation as of October 1, 2021 and rolled forward to the measurement date of September 30, 2022, using the following actuarial assumptions:

Interest rates:

Actuarial Cost Method Entry Age Normal

Inflation 2.25%

Salary Increases 6.00%, including inflation

Investment Rate of Return 7.00%

Retirement Age All actives are assumed to reitre when first eligible for Noraml Retirement. The rate of retirement is

1% for each year of eligibility for Early Retirement.

Mortality The same versions of Pub-2010 Headcount-Weighted Mortality Tables as used by the Florida

Retirement System (FRS) in their July 1, 2020 actuarial valuation (with mortality improvements projected to all future years after 2010 using Scale MP-2018). Florida Statutes Chapter 112.63(1)(f) mandates the use of mortality tables from one of the two most recently published FRS actuarial

valuation reports.

#### Long-Term Expected Rate of Return

The long-term expected rate of return on pension plan investment was determined using the long-term nominal building block data less the long-term inflation assumption of 2.25%. The building block long-term real return projections were develop considering the long-term historic capital market returns, 10-15 year expected capital market return assumptions, as well as, historical, current, and expected inflation data. Best estimates of arithmetic real return for each asset class included in the pension plan's target allocation as of September 30, 2022 are summarized in the following table:

	Long-term
	Expected Real
Asset Group	Rate of Return
Domestic Equity	7.50%
International Equity	8.50%
Domestic Bonds	2.50%
International Bonds	3.50%
Real Estate	4.50%

#### Discount Rate

A single discount rate of 7.00% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on pension plan investments of 7.00%. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between the total actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments (7.00%) was applied to all periods of projected benefit payments to determine the total pension liability.

Regarding the sensitivity of the net pension liability to changes in the single discount rate, the following presents the plan's net pension liability, calculated using a single discount rate of 7.00%, as well as what the plan's net pension liability would be if it were calculated using a single discount rate that is 1-percentage-point lower or 1-percentage-point higher:

NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2022

#### NOTE 10 - EMPLOYEE RETIREMENT PLANS - VILLAGE'S REPORTING

As described in Note 9, the Village maintains two separate defined benefit single-employer pension plans, the General Employees' Retirement Plan and the Police Officers' Retirement Plan which cover substantially all of its full-time employees. The following details the disclosures as required by GASB Statement No. 68.

#### **Basis of Accounting**

The Village's pension plans are accounted for using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions to each Plan are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of each Plan.

#### Method Used to Value Investments

Investments are reported at fair value. Securities traded on national or international exchanges are valued at the last reported sales price or exchange rate. Net appreciation (depreciation) in fair value of investments includes the difference between cost and fair value of investments held as well as the net realized gains or losses from securities sold. Interest and dividend income is recognized on the accrual basis when earned. Purchases and sales of investments are recorded on a trade date basis.

#### Membership

The membership in the General Employees' Retirement Plan (as of October 1, 2019) and the Police Officers' Retirement Plan (as of October 1, 2020) consisted of:

	General	
	Employees	Police
Inactive employees:		
Retirees and beneficiaries currently		
receiveing benefits	65	30
Reitrees entitled to benefits but not yet		
receiving them	4	-
Active participants:	72	34
Total members	141	64

#### **General Employees' Retirement Plan**

#### Plan Description

The General Employees' Retirement System (the Plan) is a single-employer defined benefit pension plan that covers all Village employees, except for police, and certain appointed employees. The Plan was established on January 1, 1957 by the Village Council. On December 31, 1999, the Plan was split between the general employees and the police officers. The Plan is governed by certain provisions of Chapter 112, Florida Statutes. The Board of Trustees for the Plan administers the Plan. Plan amendments must be authorized by the Village Council. The Plan provides retirement and death benefits to Plan members and beneficiaries. The Plan does not issue a separate financial report.

#### Deferred Retirement Option Plan

Effective December 5, 2006, current employees may elect to participate in the deferred retirement option plan (DROP) the first day of the month coincident with or next following the date of normal retirement. Election into the DROP is voluntary. The employee may elect to participate in the plan for a maximum of 60 months. Once participation in the DROP commences, such participation constitutes an irrevocable election.

A member's continuous service and accrued benefit under the Plan shall be determined and frozen on the effective date of the employee's election to participate in the DROP. Additional continuous service or benefits under the Plan shall not be accrued. No payments are made directly to the employee from the Plan while the member participates in the drop plan.

NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2022

#### NOTE 10 - EMPLOYEE RETIREMENT PLANS - VILLAGE'S REPORTING (CONTINUED)

#### General Employees' Retirement Plan (Continued)

#### Deferred Retirement Option Plan (continued)

During the period of the member's participation in the DROP, the employee's normal retirement benefit shall be credited to the employee's DROP account. No further contributions to the General Employees' Pension Plan will be required by the Village nor the employee on behalf of any employee who has elected participation in the DROP. The member's account is invested as part of the corpus of the system by the Board and is credited with interest equal to the overall net rate of return on the fund assets during the reporting period during which the member participates in the DROP.

Upon termination of employment with the Village or 60 months of DROP participation, the balance of the DROP account will become payable in addition to the monthly normal retirement benefit (which is based on credited service and average monthly salary on the DROP election date). The DROP account is distributed to the member in a single lump sum payment or a direct rollover to another qualified retirement plan. If a member dies before the member's DROP account balance has been paid in full, distribution of the DROP account balance will be made according to the member's designation. DROP payments to a beneficiary will be in addition to any retirement benefits payable by the Plan. Under any option and in no event may the total benefit payments to the member or the beneficiary be less than the member's own accumulated contributions. As of September 30, 2021, there were 7 members in the DROP and their fair value of DROP investment was \$450,927 which is included in the Plan's net position. At the end of September 30, 2021, the Village had no DROP liability.

#### **Funding Requirement**

Plan members are required to contribute 6% of their annual covered salary. The Village contributes at actuarially determined rates that are designed to accumulate sufficient assets to pay benefits when due. Effective May 30, 2012, the Division of Retirement mandated that local governments confer with the Plan's actuary to select and maintain contribution method (percentage of payroll or fixed dollar contributions) that best fits the funding requirements of the Plan. The Plan determined to use the "percentage of payroll contribution" method for the fiscal year ended September 30, 2022.

The actual contribution from the Village for active members were actuarially determined using the actuarial valuation as of October 1, 2019 for the year ended September 30, 2022. The contributions consisted of the following at September 30, 2021:

_	Actual Contribution	Percentage of Covered Payroll
Village	454,695	11.80%
Members	231,206	N/A

#### Net Pension Liability (Asset):

The Village's net pension liability (asset) was measured as of September 30, 2021. The total pension liability used to calculate the net pension liability (asset) was determined as of that date.

NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2022

# NOTE 10 - EMPLOYEE RETIREMENT PLANS - VILLAGE'S REPORTING (CONTINUED)

#### General Employees' Retirement Plan (Continued)

#### Significant Actuarial Assumptions

The total pension liability was determined by an actuarial valuation as of October 1, 2019 and rolled forward to the September 30, 2021 measurement date, using the following actuarial assumptions:

Interest rates:

Actuarial Cost Method Entry Age Normal

Inflation 2.25%

Salary Increases 5.00%, including inflation

Investment Rate of Return 7.00%

Retirement Age Experience based table of rates that are specific to the type

of eligiblity condition.

Mortality The same versions of Pub-2010 Headcount-Weighted

Mortality Tables as used by the Florida Retirement System (FRS) in their July 1, 2019 actuarial valuation (with mortality improvements projected to all future years after 2010 using Scale MP-2018). Florida Statutes Chapter 112.63(1)(f) mandates the use of mortality tables from one of the two most recently published FRS actuarial valuation reports.

# Long-Term Expected Rate of Return

The long-term expected rate of return on pension plan investment was determined using the long-term nominal building block data less the long-term inflation assumption of 2.5%. The building block long-term real return projections were develop considering the long-term historic capital market returns, 10-15 year expected capital market return assumptions, as well as, historical, current, and expected inflation data. Best estimates of arithmetic real return for each asset class included in the pension plan's target allocation as of September 30, 2021 are summarized in the following table:

	Long-term
	Expected Real
Asset Group	Rate of Return
Domestic Equity	7.50%
International Equity	8.50%
Domestic Bonds	2.50%
International Bonds	3.50%
Real Estate	4.50%

#### Discount Rate

A single discount rate of 7.00% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on pension plan investments of 7.00%. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between the total actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments 7.00% was applied to all periods of projected benefit payments to determine the total pension liability.

	Thereafter	_

#### Police Officers' Retirement Plan

#### Plan Description

The Police Officers' Retirement System (the Plan) is a single-employer defined benefit pension plan that covers substantially all of the Village's certified police officers. The Plan was established as of the effective date of January 1, 1957 by the Village Council. It was amended on December 31, 1999, to split the Plan between General Employees and Police Officers. The Plan is also governed by certain provisions of Chapter 185, Florida Statutes. The Board of Trustees for the Plan administers the Plan.

Plan amendments must be authorized by the Village Council. The Plan provides retirement, disability, and death benefits to Plan members and beneficiaries. The Plan does not issue a separate financial report.

#### <u>Deferred Retirement Option Plan</u>

Effective May 5, 1998, subsequent to the approval from the State of Florida, Division of Retirement, current employees with at least 25 but not more than 30 years of continuous service as a member of the plan may elect to participate in the deferred retirement option plan (DROP) for sworn police personnel. The employee may elect to participate in the plan for a maximum of 60 months before the employee attains 30 years of continuous service. A member's continuous service and accrued benefit under the plan shall be determined and frozen on the effective date of the employee's election to participate in the DROP. Additional continuous service or benefits under the plan shall not be accrued, except for cost-of-living adjustments provided to retirees under the plan. No payments are made directly to the employee from the pension plan while the member participates in the drop plan.

During the period of the member's participation in the DROP, the employee's normal retirement benefit shall be credited to the employee's DROP account. No further contributions to the police officers' retirement system will be required by the Village nor the employee on behalf of any employee who has elected participation in the DROP. The member's account is invested as part of the corpus of the system by the Board and is credited with interest equal to the overall net rate of return on the fund assets during the reporting period during which the member participates in the DROP.

At the conclusion of the member's participation in the DROP, the member will receive a normal benefit calculated in accordance with the plan using an average monthly earnings and continuous service as of the effective date of the member's election to participate in the DROP. The DROP account is distributed to the member in a cash lump sum, unless the member alternatively elects to receive payments in approximately equal quarterly or annual installments over a period designated by the member. If a member dies before distribution of the member's DROP

NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2022

#### NOTE 10 - EMPLOYEE RETIREMENT PLANS - VILLAGE'S REPORTING (CONTINUED)

#### Police Officers' Retirement Plan (Continued)

plan commences, the account balance is paid to the member's designated beneficiary in an immediate cash lump sum. Provisions of the plan do not allow for the distribution of a member's DROP account to begin later than April 1 following the later of the calendar year in which the member separates from service with the Village or attains age 70 & 1/4 years. As of September 30, 2021, there were 3 members in the DROP and their fair value of DROP investment was \$393,463 which is included in the Plan's net position. At the end of September 30, 2021, the Plan had no DROP liability.

#### Funding Requirement

Plan members are required to contribute 9% of their annual covered salary. The Village contributes at actuarially determined rates that are designed to accumulate sufficient assets to pay benefits when due. Effective May 30, 2012, the Division of Retirement mandated that local governments confer with the Plan's actuary to select and maintain contribution method (percentage of payroll or fixed dollar contributions) that best fits the funding requirements of the Plan. The Plan determined to use the "percentage of payroll contribution" method for the fiscal year ended September 30, 2021.

Pursuant to Chapter 185, Florida Statutes, a portion of all insurance premium tax monies received in excess of the threshold of \$60,386 are to be utlized to provide future minimum extra benefits and may not be used to reduce or offset the contribution requirements of the employer.

The actual contribution from the Village for active members were actuarially determined using the actuarial valuation as of October 1, 2020 for the year ended September 30, 2022. The contributions consisted of the following at September 30, 2021:

	Actual Contribution	Percentage of Covered
-	Actual Continuution	Payroll
Village	1,336,493	44.29%
State of Florida	110,178	3.65%
Members	271,555	N/A
Total contributions	\$ 1,718,226	47.95%
Total Continuutions	Φ 1,110,220	47.95%

#### Net Pension Liability (Asset):

The Village's net pension liability (asset) was measured as of September 30, 2021 and the total pension liability used to calculate the net pension liability (asset) was determined by the October 1, 2020 actuarial valuation.

#### Significant Actuarial Assumptions

The total pension liability was determined by an actuarial valuation as of October 1, 2020 and rolled forward to the measurement date of September 30, 2021, using the following actuarial assumptions:

ntai	roct	rates:	
וווכו	เธอเ	าดเธอ.	

Actuarial Cost Method Entry Age Normal Inflation 2.25% 6.00%, including inflation Salary Increases 7.00%

Investment Rate of Return

Retirement Age All actives are assumed to retire when first eligible for

Normal Retiement. The rate of retirement is 1% for each year

of eligibility for Early Retirement.

Mortality The same versions of Pub-2010 Headcount-Weighted

Mortality Tables as used by the Florida Retirement System (FRS) in their July 1, 2020 actuarial valuation (with mortality improvements projected to all future years after 2010 using Scale MP-2018). Florida Statutes Chapter 112.63(1)(f) mandates the use of mortality tables from one of the two most recently published FRS actuarial valuation reports.

NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2022

# NOTE 10 - EMPLOYEE RETIREMENT PLANS - VILLAGE'S REPORTING (CONTINUED)

#### Police Officers' Retirement Plan (Continued)

#### Long-Term Expected Rate of Return

The long-term expected rate of return on pension plan investment was determined using the long-term nominal building block data less the long-term inflation assumption of 2.5%. The building block long-term real return projections were develop considering the long-term historic capital market returns, 10-15 year expected capital market return assumptions, as well as, historical, current, and expected inflation data. Best estimates of arithmetic real return for each asset class included in the pension plan's target allocation as of September 30, 2021 are summarized in the following table:

	Long-term
	Expected Real
Asset Group	Rate of Return
Domestic Equity	7.50%
International Equity	8.50%
Domestic Bonds	2.50%
International Bonds	3.50%
Real Estate	4.50%

## **Discount Rate**

A single discount rate of 7.00% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on pension plan investments of 7.00%. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between the total actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments 7.00% was applied to all periods of projected benefit payments to determine the total pension liability.

# NOTE 10 - EMPLOYEE RETIREMENT PLANS - VILLAGE'S REPORTING (CONTINUED)

#### Police Officers' Retirement Plan (Continued)

#### Sensitivity of the Net Pension Liability (Asset) to the Single Discount Rate Assumption

The following presents the plan's net pension liability (asset), calculated using a single discount rate of 7.00%, as well as what the plan's net pension liability (asset) would be if it were calculated using a single discount rate that is 1-percentage-point lower or 1-percentage-point higher:

		C				
1% Decrease Rate Assumption						1% Increase
		6.00%		7.00%		8.00%
_	\$	4,141,822	\$	(400,834)	\$	(4,137,383)

For the year ended September 30, 2020, the Village will recognize pension expense of (\$1,625,513). At September 30, 2020 the Village reported deferred inflows of resources related to pensions from the following sources:

	Deferred			Deferred
	Outflows of			Inflows of
	F	Resources		Resources
Difference between expected and actual				
experience	\$	33,986	\$	380,895
Changes in assumptions		525,623		5,955
Net difference between projected and actual				
earnings on pension plan investments		-		3,398,411
Total	\$	559,609	\$	3,785,261

The Village contributions subsequent to the measurement date of \$1,256,624 are reported as deferred outflows of resources and will be recognized as a reduction of the net pension liability in the fiscal year ending September 30, 2022 (which will include the net pension liability measured at September 30, 2021).

Other amounts reported as deferred inflows of resources related to pensions will be recognized in pension expense as follows:

	Net Deferred
Fiscal year ending	Outflows of
September 30,	Resources
2023	(963,625)
2024	(678,303)
2025	(828,088)
2026	(748,566)
2027	(7,070)
Thereafter	-

Deferred inflows of resources	2,010,635	3,785,261	5,795,896
Pension expense	(591,900)	(1,625,513)	(2,217,413)

# NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2022

#### **NOTE 11 - RISK MANAGEMENT**

The Village is exposed to various risks of loss related to torts, theft, damage to and destruction of assets, errors and omissions and natural disasters for which it has purchased commercial insurance. Prior to October 1, 2005, the Village was self-insured for these claims up to certain limits.

The amount of settlements for each of the past three fiscal years did not exceed insurance coverage.

#### **NOTE 12 - COMMITMENTS AND CONTINGENCIES**

#### Litigation

Various suits and claims arising in the ordinary course of operations are pending against the Village. While the ultimate effect of such litigation cannot be ascertained at this time, in the opinion of legal counsel, the Village has sufficient insurance coverage to cover any claims and/or liabilities, which may arise from such action. The effect of such losses would not materially affect the financial position of the Village or the results of its operations.

#### **Grants**

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected may constitute a liability of the applicable funds. In the opinion of management, future disallowances of grant expenditures, if any, would not have a material adverse effect on the Village's financial condition.

#### **NOTE 13 - OTHER POST EMPLOYMENT BENEFITS**

#### **Plan Description and Provisions**

Other Post-Employment Benefits (OPEB) are available to all employees eligible for Disability, Early or Normal Retirement, as above, after terminating employment with the Village. The OPEB benefits include access to coverage for the retiree and dependents under the Medical and Prescription Plans as well as participation in the Dental group plans sponsored by the Village for employees. There are no assets accumulated in a GASB-compliant trust. The Village provides all financial information and requires disclosures of its single employer other post-employment benefit plan in this document; therefore, a separate audited post-employment benefits plan report is not available.

## Membership

As of September 30, 2021 (the date of the latest actuarial valuations) health care and dental plan participants consisted of:

Active participants	97
Retired participants	5
Total participants	102

#### **Health-Related Benefits**

Eligible retirees may choose among the same Medical Plan options available for active employees of the Village. Dependents of retirees may be covered at the retiree's option the same as dependents of active employees. Prescription Drug coverage is automatically extended to retirees and their dependents who continue coverage under any one of the Medical Plan options. Covered retirees and their dependents are subject to all the same Medical and Prescription benefits and rules for coverage as are active employees.

Retirees who are over age 65 are only eligible to enroll in Medicare Advantage Plan.

# NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2022

#### NOTE 13 - OTHER POST EMPLOYMENT BENEFITS (CONTINUED)

#### **Funding Policy**

Benefits are funded on a pay-as-you-go basis.

#### Total OPEB Liability

The Plan's total OPEB liability of \$629,343 was determined as of September 30, 2021.

#### Actuarial assumptions and other inputs

The total OPEB liability in the September 30, 2021 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement unless otherwise specified.

Valuation Date:	September 30, 2021
Measurement Date:	September 30, 2021
Actuarial Cost Method	Entry Age Normal

Inflation 2.25% Discount Rate 2.41%

Salary Increases 5.00%, including inflation for General Employees; and 6.00%,

including inflation for Police Officers

Retirement Age Experience-based table of rates that are specific to the type of eligiblity

condition and employment class (Police or General).

Mortality Mortality tables used in the July 1, 2021 actuarial valuation of the

Florida Retirement System. These rates were taken from adjusted Pub-2010 mortality tables published by the SOA with generational mortality improvements using Scale MP-2018. Adjustments to reference tables are based on the results of a statewide experience

study covering the period 2013 through 2018.

Healthcare Cost Trend Rates Based on the Getzen Model, with trend starting at 9.00% to reflect

actual premiums for 2022, then 5.76% for 2023 and gradually

decreasing to an ultimate trend rate of 3.75%.

Aging factors Based on the 2013 SOA Study "Health Care Costs - From Birth to

Death".

#### Changes in the Total OPEB Liability

Net change in OPEB liability	57,782
Balance at 9/30/22	\$ 629,343

# NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2022

#### NOTE 13 - OTHER POST EMPLOYMENT BENEFITS (CONTINUED)

#### Sensitivity of the total OPEB liability to changes in the discount rate assumption

The following presents the plan's total OPEB liability, calculated using a discount rate of 2.19%, as well as what the Plan's total OPEB liability would be if it were calculated using a discount rate that is one percent lower or one percent higher:

## Sensitivity of the total OPEB liability to changes in the discount rate assumption (Continued)

	Current Discount			
1% Decrease	Rate Assumption		1% Increase	
1.19%	2.19% 3.19%		3.19%	
\$ 675,491	\$ 629,343	\$	585,535	

#### Sensitivity of the total OPEB liability to the Healthcare Cost Trend Rate assumption

The following presents the plan's total OPEB liability the assured trend rates, calculated using the assumed trend rates as well as what the Plan's total OPEB liability would be if it were calculated using a trend rate that is one percent lower or one percent higher:

	Current Healthcare Cost				
1% Decrease	Tre	end Rate Assumption		1% Increase	
\$ 558,489	\$	629,343	\$	713,614	

#### OPEB Expenses and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended September 30, 2022, the Village Plan recognized OPEB expenses of (\$57,782). At September 30, 2021, the Plan reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of		Deferred Inflows of		
	R	esources	Resources		
Difference between expected and actual experience	\$	13,251	\$	71,257	
Changes in assumptions and other inputs		97,255		134,974	
Total	\$	110,506	\$	206,231	

Benefits paid after the measuerment date of \$31,243 are reported as deferred outflows of resources and will be recognized as a reduction of total OPEB liability in FYE September 30, 2023. At the beginning of the curent measurement period, the average of the expected remaining service lives for the purposes of recognizing the applicable deferred outflows and inflows of resources established in the current measurement period is 10 years.

NOTES TO BASIC FINANCIAL STATEMENTS SEPTEMBER 30, 2022

# NOTE 13 – OTHER POST EMPLOYMENT BENEFITS (CONTINUED)

<u>OPEB Expenses and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB</u> (Continued)

Deferred Outflows and Inflows of Resources by Year to be recognized in future OPEB expenses are as follows:

Fiscal year Ending	Net Deffered Inflows
September 30	of Resources
2023	(16,187)
2024	(16,187)
2025	(16,187)
2026	(16,187)
2027	(14,679)
Thereafter	(16,298)

#### **NOTE 14 - SHARE PLAN**

The Miami Shores Village Police Pension Share Plan (the "Share Plan") was created to implement the provisions of Chapter 185, Florida Statutes, and to provide a means whereby police officers of the Village may receive benefits from the funds provided for that purpose by Chapter 185, Florida Statutes. The Share Plan is in addition to any other benefits and shall not in any way affect any other benefits that now or hereafter exist.

The additional premium tax revenue, as defined by Chapter 185, Florida Statutes, received each year beginning with the year 2000 will be allocated equally to all eligible active and retired members no later than December 1<sup>st</sup> each year. The amounts allocated to retired members will be distributed annually. The amounts allocated to active members will be maintained in their individual share account and earn interest at the same rate as the Plan until retirement upon which time the share accounts will be distributed.

A summary of the changes in the Share Plan balance as of September 30, 2022 is as follows:

Beginning balance	\$ 267,683
Additions	13,588
Distributions	-
Interest	(34,314)
Ending balance	\$ 246,957

#### **NOTE 15 - NEGATIVE FUND BALANCE / NET POSITION**

The Grants fund reported a negative fund balance in the amount of \$1,198,175. This amount is expected to be funded by FEMA funds related to Hurricane Irma, to be received at a later date. The Water and Wastewater fund fund reported a negative net position in the amount of \$163,426. This amount is expected to be funded by the normal operations of the fund.

#### **NOTE 16 - PRIOR PERIOD ADJUSTMENTS**

During the fiscal year ended September 30, 2022, the fund balances for the General Fund and the Building Fund have been adjusted to comply with State Reporting Requirements.

# NOTES TO BUDGETARY COMPARISON SCHEDULE SEPTEMBER 30, 2022

#### **BUDGETARY INFORMATION**

Annual budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. The Village annually adopts operating budgets for the following governmental funds: General Fund, Local Option Gas Tax Fund, Transportation, the Capital Improvements Fund and Debt Service Fund. Budgets are also adopted for the Stormwater fund, Solid Waste fund, Risk Management and Fleet Maintenance Fund.

- a) 35 days prior to the fiscal year end, the Village Manager submits to the Village Council a proposed operating budget for the fiscal year commencing the following October 1st. The operating budget is restricted to proposed expenditures and the means of financing them by means of appropriated revenues, other financing sources and appropriations of fund balances. Budgetary control over expenditures for the General Fund is legally maintained at the departmental level. For all other funds it is legally maintained at the fund level.
- b) Two public hearings are conducted to obtain taxpayer comments as required by Truth in Millage (TRIM) legislation.
- c) Prior to September 28th (unless preempted by TRIM) as stated in the Village's Charter, the budget is legally enacted through passage of a resolution.
- d) The Village Manager may at any time transfer any unencumbered appropriated balance or portion thereof between general classifications of expenditures within an office, department or agency. At the request of the Village Manager and within the last three months of the budget year, the Council may by resolution transfer any unencumbered appropriated balance or portion thereof, from one office, department or agency to another.
- e) Budgeted amounts are as originally adopted or as amended. There were supplemental appropriations in the General Fund totaling \$677,313, during the fiscal year ended September 30, 2022 for funding outstanding obligations and unanticipated expenses
- f) Unencumbered appropriations lapse at year end.

Note: Covered Payroll was calculated by dividing the total member contributions for the fiscal year by the member contribution rate of 6%.

#### Notes to the Schedule of Contributions

Valuation Date October 1, 2019

Notes Actuarially determined contribution rates are calculated as of October 1, which is

three years prior to the end of the fiscal year in which contributions are reported.

#### Methods and Assumptions Used to Determine Contribution Rates:

Actuarial Cost Method Entry Age Normal
Amortization Method Level Dollar, Closed

Remaining Amortization Period 20 years

Asset Valuation Method 5-year smoothed market

Inflation 2.25%

Salary Increases 5.00%, including inflation

Investment Rate of Return 7.00%

Retirement Age Experience-based table of rates that are specific to the type of eligibility condition.

Mortality The same versions of Pub-2010 Headcount-Weighted Mortality Tables as used by

the Florida Retirement System (FRS) in their July 1, 2019 actuarial valuation (with mortality improvements projected to all future years after 2010 using Scale MP-20218). Florida Statutes Chapter 112.63(1)(f) mandates the use of mortality tables

from one of the two most recently published FRS actuarial valuation reports.

<sup>&</sup>lt;sup>1</sup> Includes receivable Employer contribution in the amount of \$32,922 for fiscal year ending September 30, 2015.

Note: Covered Payroll was calculated by dividing the total member contributions for the fiscal year by the member contribution rate of 9%.

#### Notes to the Schedule of Contributions

Valuation Date October 1, 2020

Notes Actuarially determined contribution rates are calculated as of October 1, which is two

years prior to the end of the fiscal year in which contributions are reported.

#### Methods and Assumptions Used to Determine Contribution Rates:

Actuarial Cost Method Entry Age Normal
Amortization Method Level Dollar, Closed

Remaining Amortization Period 20 years

Asset Valuation Method 5-year smoothed market

Inflation 2.25%

Salary Increases 6.00%, including inflation

Investment Rate of Return 7.00%

Retirement Age All actives are assumed to retire when first eligible for Normal Retirement. The rate of

retirement is 1% for each year of eligibility for Early Retirement.

Mortality The same versions of Pub-2010 Headcount-Weighted Mortality Tables as used by the Florida

Reitrement System (FRS) in their July 1, 2020 actuarial valuation (with mortality

improvements projected to all future years after 2010 using Scale MP-2018). Florida Statutes Chapter 112.63(1)(f) mandates the use of mortality tables from one of the two most recently

published FRS actuarial valuation reports.

State contributions for fiscal year ending September 30, 2015 were not received until after the end of the fiscal year (therefore not permitted to be used until next fiscal year).

<sup>&</sup>lt;sup>3</sup> State contributions for fiscal years ending September 30, 2018 & 2019 were received in fiscal year ending September 30, 2019.

<sup>&</sup>lt;sup>4</sup> As of October 1, 2019, the Village had a prepaid contribution of \$420,389, of which \$258,100 was used to satisfy the Village's contribution requirement for fiscal year ending September 30, 2020.

<sup>&</sup>lt;sup>5</sup> As of October 1, 2021, the Village had a prepaid contribution of \$258,602, of which \$88,192 was used to satisfy the Village's contribution requirement for fiscal year ending September 30, 2022.

This schedule is presented to illustrate the requirement to show information for 10 years. However, until a full 10-year trend is compiled, pension plans should present information for those years for which information is available. There are no plan assets accumulated in a trust that meets the critereia in paragraph 4 of GASB Statement No. 75.

# NONMAJOR GOVERNMENTAL FUNDS

# **Special Revenue Funds**

Special revenue funds are used to account for specific revenue that is legally restricted to expenditure for particular purposes.

**Transportation Surtax** – This fund accounts for the Village's portion of the Miami-Dade County one-half percent transportation surtax approved by voters in November 2002.

**Local Option Gas Tax** – This fund accounts for the revenues from the six cents and additional three cents sales tax levied on all petroleum products sold in Miami-Dade County.

**Law Enforcement Training** – This fund accounts for proceeds obtained through fines designated specifically for training law enforcement officers.

**General Trust Fund** – This fund accumulates assets for its employees, other governmental entities and/or funds, primarily for the recreation, library and police departments, as well as the charter school.

**Brockway Memorial Library Fund** – This fund accounts for donations to be applied toward the Library's Children's Wing Expansion Project. All funds in this account are available to be used in the renovation and addition slated as part of the expansion project.

**Building Fund -** This fund was created in FY2022 to comply with State Reporting requirements.

#### **Debt Service Fund**

**General Obligation Bonds** – This fund accounts for the 1999 and 2004 General Obligation bonds issued to fund the design, developments and construction of the Miami Shores Aquatic Facility (1999) and for the charter school construction (2004) and other banking financing.

# **Capital Project Funds**

**Capital Improvement Fund** – This fund accounts for major capital acquisitions and projects to improve the Village.

# **INTERNAL SERVICE FUNDS**

Internal service funds are used to account for the financing of goods or services provided by one department to other departments of the Village on a cost reimbursement basis.

**Risk Management Fund** – This fund accounts for the accumulation and allocation of costs associated with insurance.

**Fleet Maintenance Fund** – This fund accounts for all direct and indirect costs to maintain and operate the Village's vehicles and equipment fleet.

Source: Miami-Dade County Property Appraisal Office & Florida Department of Revenue.

Note: Property in the Village is reassessed each year. State law requires the Property Appraiser to appraise property at 100% of market value. The Florida Constitution was amended, effective January 1, 1995, to limit annual increases in assessed value of property with homestead exemption to 3 percent per year or the amount of the Consumer Price index, whichever is less. The increase is not automatic since no assessed value shall exceed market value. Tax rates are per \$1,000 of assessed value.

# INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Mayor and Members of the Village Council Miami Shores Village, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Miami Shores Village, Florida (the "Village"), as of and for the fiscal year ended September 30, 2022, and the related notes to the financial statements, which collectively comprise the Village's basic financial statements, and have issued our report thereon dated October 31, 2023.

#### Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Village's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Village's internal control. Accordingly, we do not express an opinion on the effectiveness of the Village's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Village's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

#### **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Village's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed one instance of noncompliance that is required to be reported under *Government Auditing Standards* and which is described in the accompanying schedule of findings and responses as item 2022-01.

#### Village's Response to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the Village's response to the findings identified in our audit and described in the accompanying schedule of findings and responses. The Village's response was not subject to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

#### **Purpose of This Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Village's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Village's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

### SCHEDULE OF FINDINGS AND RESPONSES FISCAL YEAR ENDED SEPTEMBER 30, 2022

#### **CURRENT YEAR FINANCIAL STATEMENT FINDINGS AND RECOMMENDATIONS**

#### **NONCOMPLIANCE**

#### 2022-01 Annual Financial Audit Report

#### Criteria

Florida Statutes section 218.39 states that local government entity shall have an annual financial audit of its accounts and records completed within 9 months after the end of its fiscal year by an independent certified public accountant retained by it and paid from its public funds.

#### Condition

The Village did not complete its annual financial audit for the fiscal year ended 2022 within 9 months after year end.

#### Cause

There was a delay in the financial close and reporting procedures of the Village due to turnover.

#### **Effect**

The Village is not in compliance with Florida Statute section 218.39.

#### Recommendation

We recommend that, in the future, the Village completes its annual financial audits within 9 months after its fiscal year end.

#### View of responsible officials and planned corrective actions

The Village has consistently completed the financial audit within the nine-month timeframe evidenced by being awarded the Triple Crown award from the GFOA. This financial statement was an anomaly due to unprecedented staff turnover during 2023 when the audit should have been completed. Both the Village Council and the State were kept apprised of the difficult situation in which the Village found itself. The Village has taken all steps necessary to still submit to the GFOA within the additional time allowed. It is anticipated that this will not occur again in the near future.

### MANAGEMENT LETTER REQUIRED BY SECTION 10.550 OF THE RULES OF THE AUDITOR GENERAL OF THE STATE OF FLORIDA

Honorable Mayor and Members of the Village Council Miami Shores Village, Florida

#### **Report on the Financial Statements**

We have audited the financial statements of the Miami Shores Village, Florida (the "Village"), as of and for the fiscal year ended September 30, 2022, and have issued our report thereon dated October 31, 2023.

#### Auditors' Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and Chapter 10.550, Rules of the Auditor General.

#### Other Reporting Requirements

We have issued our Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards*; Schedule of Findings and Responses; and Independent Accountant's Report on compliance pursuant to Section 218.415 Florida Statutes, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports and schedule, which are dated October 31, 2023, should be considered in conjunction with this management letter.

#### **Prior Audit Findings**

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding financial audit report. There were no findings or recommendations made in the preceding annual financial audit report.

#### Official Title and Legal Authority

Section 10.554(1)(i)4., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. This information has been disclosed in the notes to the financial statements.

#### **Financial Condition and Management**

Sections 10.554(1)(i)5.a. and 10.556(7), Rules of the Auditor General, require us to apply appropriate procedures and communicate the results of our determination as to whether or not the Village met one or more of the conditions described in Section 218.503(1), Florida Statutes, and to identify the specific condition(s) met. In connection with our audit, we determined that the Village did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

#### **Financial Condition and Management (Continued)**

Pursuant to Sections 10.554(1)(i)5.b. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures for the Village. It is management's responsibility to monitor the Village's financial condition, and our financial condition assessment was based in part on representations made by management and review of financial information provided by same. Our assessment was performed as of the fiscal year end.

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did have one recommendation identified in Appendix A.

#### **Additional Matters**

Section 10.554(1)(i)3., Rules of the Auditor General, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but warrants the attention of those charged with governance. In connection with our audit, we did have one finding of non-compliance identified in the schedule of findings and responses.

#### Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, members of the Village Council and management of the Village, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.

Caballero Fierman Llerena & Garcia, LLP

Caballero Fierman Llerena & Garcia, LLP

Miami, Florida October 31, 2023

#### Appendix A

#### 2022-02 Information Technology Policy

#### Observation:

It is best practice for the Village to have a formal written Information Technology (IT) policy that documents and encompasses various areas such as: General IT procedural manual, disaster recovery plan, IT Risk Assessment, data back-up schedules, cybersecurity incident response plan, etc. The Village's computerized information systems are vital to its daily operations.

During the performance of our planning phase of the audit for the fiscal year ended September 30, 2022, we identified the Village does not have a formal written IT policy. Without proper documentation, management is not assured that its desired policies and procedures are being carried out. In addition, documentation is an effective tool for training new personnel, providing operations instructions, and assisting in system revisions and development of IT needs.

#### Recommendation:

We recommend the Village to produce a formal written IT policy and to continuously update the policy on an annual basis as considered necessary.

#### **Management Response:**

The Village is in the process of adopting a formal IT policy.

### INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE PURSUANT TO SECTION 218.415 FLORIDA STATUTES

Honorable Mayor and Members of the Village Council Miami Shores Village, Florida

We have examined the Miami Shores Village's (the Village) compliance with the requirements of Section 218.415 Florida Statutes during the period of October 1, 2021 to September 30, 2022. Management of the Village is responsible for the Village's compliance with the specified requirements. Our responsibility is to express an opinion on the Village's compliance with the specified requirements based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the Village complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether the Village complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Our examination does not provide a legal determination on the Village's compliance with specified requirements. In our opinion, the Village complied, in all material respects, with the requirements of Section 218.415 Florida Statutes during the period of October 1, 2021 to September 30, 2022.

This report is intended solely for the information and use of management, the Mayor, the Village Council, others within the Village and the Auditor General of the State of Florida and is not intended to be and should not be used by anyone other than these specified parties.
