# INTRODUCTORY SECTION

May 20, 2026

Honorable Mayor, Commissioners, City Manager, and the citizens of the City of Tallahassee, Florida

The Annual Comprehensive Financial Report of the City of Tallahassee, Florida, for the fiscal year ended September 30, 2025, is hereby submitted pursuant to Section 11.45, Florida Statutes and Chapter 10.550 of the Rules of the Auditor General of the State of Florida. This report represents the official report of the City’s financial operations and condition to the citizens, City Commission, City management, rating agencies, and other interested persons.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, but not absolute, assurance that the financial statements are free of any material misstatements.

The certified public accounting firm of Forvis Mazars, LLP has issued an unmodified opinion on the City’s financial statements for the year ended September 30, 2025. The independent auditors’ report is located at the front of the financial section of this report.

The City is also required to undergo an annual audit to obtain reasonable assurance about compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs and state projects. These independent auditors’ reports are presented in the single audit section of this report.

Management’s Discussion and Analysis (MD&A) immediately follows the independent auditors’ report and provides a narrative introduction, overview, and analysis of the basic financial statements. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it.

**Profile of the City**

Tallahassee, the capital city of Florida, was incorporated in 1825, twenty years before Florida was admitted to the Union. The city is governed by a mayor and four Commissioners elected at-large.

The City Commission appoints the City Manager, the City Treasurer-Clerk, the City Inspector General, and the City Attorney. Collectively the appointed officials are responsible for all administrative aspects of the government, with most falling under the purview of the City Manager.

The city provides a full range of municipal services. These services include public safety (police and fire), construction and maintenance of streets and sidewalks, stormwater management, recreation, planning and zoning, general administrative services, five utilities (electric, gas, water, sewer, and solid waste collection), a mass transit bus system, and an international airport.

The Commission is required to adopt a final budget no later than the close of the fiscal year. This annual budget serves as the foundation for the City’s financial planning and control. The budget is approved at the fund level. Transfers between funds require approval by the Commission.

The budget process is a formalized annual occurrence that involves input, collaboration, and coordination between the respective City departments, the Office of Resource Management, the executive team, the City Commission, and the citizens of Tallahassee.

CITY HALL 300 South Adams Street Tallahassee, FL 32301-1731 850-891-0000 TDD: 711 * Talgov.com	JOHN E. DAILEY Mayor	DIANNE WILLIAMS-COX Mayor Pro Tem	JACQUELINE “JACK” PORTER Commissioner	CURTIS RICHARDSON Commissioner	JEREMY MATLOW Commissioner
	REESE GOAD City Manager	AMY M. TOMAN City Attorney	JAMES O. COOKE, IV City Treasurer-Clerk	DENNIS R. SUTTON Inspector General	

A budget review team composed of various members of the leadership and executive teams is established to set budget direction and priorities for the City. Annually, issues are selected by the City Commission to represent those programs and community needs, which are to be given priority attention during the year.

Prior to the development of the budget, citizen input is solicited using a citizen survey, on any program changes as well as on performance of all major programs.

**Factors Affecting Financial Condition**

The economy of Leon County is strongly influenced by governmental and educational activities. The presence of the State Capital and two major universities help to shape Leon County’s population as relatively young, well educated, and affluent.

Leon County is a racially diverse community. Minorities account for 39% of the population, with African-Americans comprising 32.1%.

Leon County residents have historically attained a very high level of education. Approximately forty-nine percent of area residents aged 25 or older have completed at least four years of college.

The 2020-2024 American Community Survey 5-year estimates report median family income in Leon County is \$65,074, which is comparable to the national median.

The level of governmental employment has a stabilizing effect on the economy and helps to minimize unemployment. In December 2025, the unemployment rate was 3.2% in the city as compared to the State’s unemployment rate of 3.4%. The percentage of employees employed by local, state, and federal government is approximately 31.48% of the work force. The unemployment rate is one of many economic indicators utilized to evaluate the condition of the economy.

**Population Growth**

Population growth trends for Leon County are presented in the following table:

Year	Tallahassee	Unincorporate	Leon
1960	48,174	26,051	74,225
1970	71,897	31,150	103,047
1980	81,548	67,107	148,655
1990	124,773	67,720	192,493
2000	150,624	88,828	239,452
2010	181,736	94,111	275,487
2020	196,169	96,029	292,198
2025	205,623	100,243	305,866
2030	214,200	101,600	315,800
2035	220,200	102,500	322,700
2040	224,300	103,200	327,500
2045	227,900	103,800	331,700
2050	231,000	104,300	335,300

## Construction Trends

### Residential Construction

Single-family residential building permits in Leon County were down 9% in fiscal year 2025, following a 9% decrease in fiscal year 2024. Permits for multi-family units were up 254% in fiscal year 2025 following a 73% decrease in fiscal year 2024. Year-over-year new multi-family construction can be volatile given the number of units included in each development.

### Commercial Development

In fiscal year 2025 more than \$500 million in new commercial construction was permitted in Leon County, above the approximately \$279 million permitted in fiscal year 2024.

The largest new commercial construction permits in fiscal year 2025 include the estimated \$140 million, 256,770 square foot Florida Department of Agriculture and Consumer Services facility; the estimated \$140 million, 219,255 square foot Tallahassee Police Department headquarters; and the estimated \$75 million, 139,324 square foot FSU Academic Health Center.

### Millage Rates

As indicated below, the city had the lowest millage rate of the comparable largest cities in Florida for 2025 and 2024. Tallahassee’s low and stable millage rate should act as an incentive to economic growth and stability.

Comparable City	Millage Rates	
	2025	2024
Clearwater	5.89	5.89
Daytona	5.93	5.43
Fort Lauderdale*	4.37	4.39
Gainesville	6.73	6.43
Hollywood*	8.01	8.08
Lakeland	5.43	5.43
Largo	5.52	5.52
Orlando	6.65	6.65
Pensacola	4.29	4.29
<b>Tallahassee</b>	<b>4.42</b>	<b>4.45</b>
West Palm Beach*	8.19	8.20

\*These comparable cities’ millage rates are inclusive of a voted debt millage portion.

### Long-Term Financial Planning

The financial viability of the City continues to be a high priority for the City Commission and management. An integral part of the budgeting process is the development of the City’s Five-Year Financial Plan (the Plan). The Plan is updated annually during the budget process and serves as a blueprint for decision-making and allows for flexibility to address issues as they arise.

The Plan resulted in an approved Fiscal Year 2025 operating budget of \$908 million and an approved capital budget of \$302.4 million. The Plan for the ensuing five years (including 2025) results in projected capital expenditures of approximately \$1.2 billion. Four of the City’s governmental funds (General Fund, Community Redevelopment Agency, Building Code, and Cemetery) are appropriated on an annual basis.

**Awards and Acknowledgement**

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Tallahassee, Florida for its Annual Comprehensive Financial Report for the fiscal year ended September 30, 2024. The Certificate of Achievement is a prestigious national award that recognizes conformance with the highest standards for preparation of state and local government financial reports. To be awarded a Certificate of Achievement, the City must publish an annual comprehensive financial report, whose contents satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to Certificate of Achievement Program requirements, and we are submitting it to the GFOA to determine its eligibility for a new certificate.

The preparation of this report on a timely basis could not be accomplished without the efficient and dedicated services of the entire staff of the Financial Reporting Division who participated in the compilation of the report. We would also like to thank the members of the City Commission for their interest and support in planning and conducting the financial operations of the City in a responsible and progressive manner.

Respectfully submitted,

Abena Ojetayo  
Assistant City Manager

Patrick Twyman

## Independent Auditor's Report

Honorable Mayor and City Commission  
 City of Tallahassee, Florida  
 Tallahassee, Florida

### Report on the Audit of the Financial Statements

#### **Opinions**

We have audited the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Tallahassee, Florida (the "City") as of and for the year ended September 30, 2025, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City as of September 30, 2025, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS") and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are required to be independent of the City, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Forvis Mazars, LLP is an independent member of Forvis Mazars Global Limited

Honorable Mayor and City Commission  
City of Tallahassee, Florida

### ***Auditor's Responsibility for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during that audit.

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison schedule – general fund, pension and the other postemployment benefit information be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Honorable Mayor and City Commission  
City of Tallahassee, Florida

### **Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements as a whole. The combining fund financial statements, the supplemental information schedules and the schedule of expenditures of federal awards and state financial assistance, and the schedule of passenger facility charges, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, Chapter 691-5, *Schedule of Expenditures of State Financial Assistance*, Rules of the Department of Financial Services, and Chapter 10.550, *Rules of the Auditor General*, and *Passenger Facility Charge Audit Guide for Public Agencies* issued by the Federal Aviation Administration are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and were derived from, and relate directly to, the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the combining fund financial statements, the supplemental information schedules and the schedule of expenditures of federal awards and state financial assistance, and the schedule of passenger facility charges are fairly stated, in all material respects, in relation to the financial statements as a whole.

### **Other Information**

Management is responsible for the other information included in the annual comprehensive financial report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

### **Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated May 20, 2026, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

**Forvis Mazars, LLP**

Tallahassee, Florida  
May 20, 2026

## Management's Discussion and Analysis (unaudited)

As management of the City of Tallahassee (the "City"), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year that ended September 30, 2025. Management's Discussion and Analysis is designed to: (a) assist the reader in focusing on significant financial issues, (b) provide an overview of the City's financial activities, (c) identify changes in the City's financial position, and (d) identify individual fund concerns or issues. It should be read in conjunction with the Transmittal Letter at the front of this report and the City's financial statements, which follow this section. Notes mentioned below are Notes to the Financial Statements, which follow the statements.

### Financial Highlights

- The assets and deferred outflows of resources of the City exceeded its liabilities and deferred inflows of resources as of September 30, 2025 by \$2.1 billion. After accounting for net position reserved for Investment in Capital Assets and for other restrictions, the unrestricted net position is \$(40.7) million.
- The City's total net position increased by \$128.1 million as a positive result of fiscal year 2025 operations netted with a reduction for a prior period adjustment in the State Housing Partnership fund.
- As of September 30, 2025, the City's governmental funds reported combined ending fund balances of \$200.3 million, an increase of \$19.6 million from the prior year. This increase is primarily the result of the City issuing an \$88.4 million bond of which \$63.0 million was new money for various capital improvement projects including police headquarters, Public Safety Complex, and various road projects netted with increased expenses related to the police headquarters and the new Senior Center both under construction in fiscal year 2025. In the governmental funds, there was a \$1 million fund balance available for spending at the City's discretion.
- At the end of the fiscal year, unassigned fund balance for the general fund was \$1.4 million, or 0.7% of general fund expenditures.
- As of September 30, 2025, the City's enterprise funds reported a combined net position of \$1.41 billion, an increase of \$97.3 million from the prior year. This increase is the result of current year operations. Approximately \$159.6 million of the net position is unrestricted.
- Capital assets, net of accumulated depreciation, as of September 30, 2025, totaled \$2.60 billion, an increase of \$95.0 million in comparison with prior year (Note IV.D.).
- The City's outstanding long-term debt (Note IV.H.) decreased from \$1.34 billion to \$1.32 billion, or -1.2%.

### An Overview of the Financial Statements

The City's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

### Government-Wide Financial Statements

The government-wide financial statements are designed to report information about the City as a whole using accounting methods similar to those used by private-sector companies. Two statements, the statement of net position and the statement of activities, are utilized to provide information on a government-wide basis.

The statement of net position presents financial information on all of the City's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus revenues and expenses are reported for some items that will result in cash flows in future periods.

The government-wide financial statements of the City are divided into three categories:

**Governmental activities** - These include the basic services provided by the City including police, parks and recreation, public works, and general administration. Property, sales, and other taxes finance the majority of these activities.

**Business-type activities** - These include services for which the City charges specific fees which are meant to cover the cost of providing the services. These services include electric, gas, airport, fire protection, solid waste collection, water, sewer, stormwater management, transit services, and the Hilaman Golf Course.

**Component units** - These are legally separate organizations for which the City Commission appoints the governing board and the City has financial reporting responsibilities. The City has one discretely presented component unit, the Downtown Improvement Authority, which is an agency created by the Florida Legislature to regulate downtown growth. The City also has a blended component unit, the Community Redevelopment Agency, which is blended as a nonmajor special revenue fund into the primary government (see Note I-A for more details).

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The focus is on major funds, which provides detailed information about the most significant funds. The City, like other governmental entities, uses funds to ensure and demonstrate compliance with financial requirements imposed by law, bond covenants, and local administrative and legislative actions. All of the City's funds can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

**Governmental Funds** - Governmental funds are used to account for essentially the same functions as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as balances of spendable resources available at the end of the fiscal year.

Because the focus of governmental funds is narrower than that of government-wide financial statements, it is useful to compare information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the City's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains thirteen (13) individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the General Fund. The data for the other twelve funds are combined into a single, aggregate presentation.

**Proprietary Funds** - The City maintains two different types of proprietary funds, enterprise and internal service.

Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City maintains ten (10) individual enterprise funds. Information is presented separately in the proprietary funds statement of net position and in the proprietary funds statement of revenues, expenses, and changes in net position for the Electric, Gas, Sewer, Water, Airport, and Stormwater Management Funds, all of which are considered major funds. Data from the other four nonmajor funds are combined into a single, aggregate presentation.

Internal Service Funds are used to account for activities that provide goods and services to the City's other programs and activities. The City maintains fifteen (15) individual internal service funds. These internal service funds are allocated between governmental activities and business-type activities in the government-wide financial statements based upon the activity that receives the predominant benefit. Internal service funds are combined into a single, aggregate presentation in the proprietary fund financial statements.

**Fiduciary Funds** - Fiduciary funds are used to account for resources held for the benefit of parties outside the City. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's programs and activities. The City reports four fiduciary funds, three of which are combined into a single, aggregate presentation in the fiduciary fund statements.

## Notes to the Financial Statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

### Other Information

This report additionally includes required supplementary information (RSI) including a budget comparison schedule, with related notes, for the General Fund and information concerning the City's progress in funding its obligation to provide pension and other post employment benefits to its employees.

The combining statements in connection with nonmajor governmental funds, nonmajor enterprise funds, internal service funds, and pension and other employee benefit fiduciary funds are presented in the combining statements section of the report.

Information regarding the City's debt service requirements, statistical information, and economic data is also presented to give report users a historical perspective of the City and to allow for broader understanding of the economic and social environment in which the City operates.

### Government-Wide Financial Analysis

The following table is a summary of the fiscal year 2025 Statement of Net Position with comparative information for fiscal year 2024.

**Table 1**  
**Statement of Net Position**  
**As of September 30**  
**(in millions)**

	Governmental Activities		Business-type Activities		Total	
	2025	2024	2025	2024	2025	2024

<b>Net Position</b>						
Net Investment in Capital Assets	632.8	560.8	973.9	927.9	1,606.7	1,488.7
Restricted	201.3	179.1	338.1	292.8	539.4	471.9
Unrestricted	(188.9)	(128.7)	148.3	145.5	(40.6)	16.8
Total Net Position	<u>645.2</u>	<u>611.2</u>	<u>1,460.3</u>	<u>1,366.2</u>	<u>2,105.5</u>	<u>1,977.4</u>
Total Liabilities, Deferred Inflows and Net Position	<u>\$ 1,175.0</u>	<u>\$ 1,084.7</u>	<u>\$ 2,585.0</u>	<u>\$ 2,478.7</u>	<u>\$ 3,760.0</u>	<u>\$ 3,563.4</u>

Changes in net position over time can be one of the best and most useful indicators of financial position. Total net position of the City increased from \$1,977.4 million in 2024 to \$2,105.5 million in 2025, an increase of \$128.1 million or 6.48%.

The largest portion of the City's net position, \$1.61 billion or 76.3%, reflects its substantial investment in capital assets (e.g., land, buildings, equipment, etc.), less the related outstanding debt used to acquire or construct those assets. The City uses these capital assets to provide services to residents; consequently, these assets are not available for future spending. Although the City's investment in capital assets is reported net of related debt, it should be noted that the resources used to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

In addition, a portion of the City's net position, \$539.4 million or 25.6%, represents resources that are subject to external restrictions or restrictions imposed by formal action of the City Commission on how they may be used.

After accounting for net position related to Investments in Capital Assets and other restrictions and commitments on net position, the City has a negative unrestricted net position of \$40.7 million.

At the end of the fiscal year, the City is able to report positive balances in all reported categories of net position for the government as a whole with the exception of the unrestricted net position in governmental activities. This negative net position is primarily as a result of City's net pension and OPEB liabilities and their related deferred inflows and outflows. The remaining net position categories for governmental activities and all of the net position for business-type activities have positive balances.

The following table is a summary of the fiscal year 2025 Statement of Activities with comparative information for fiscal year 2024.

### Governmental Activities

During the fiscal year, net position for governmental activities increased \$34.0 million. This was the result of positive current year operations of \$35.8 million less a prior period adjustment in the State Housing Partnership fund of \$1.8 million. This increase resulted in an ending balance in net position of \$645.2 million. The increase in net position resulted from a combination of increases in revenues as well as decreases in expenditures.

Key elements of the overall increase are as follows:

- Revenue increases primarily due to increased tax revenue resulting from increased assessed property valuations, increased public service taxes directly proportional to increased utility sales, increased transfers from the utilities based on commission policy, and increased indirect cost and overhead revenues in the general fund.
- Expenses decreased mainly due to decreased expenses of \$29 million due to larger amounts of capitalizable expenses in the current year as well as a \$10 million decrease in depreciation expense due to a large infrastructure asset being fully depreciated mid-year. There was also a large decrease in the pension liability causing a large decrease in the pension expense.

The following chart compares expenditures and program revenues for governmental activities.

The following chart illustrates the City's revenues by source for the City's governmental activities.

The following chart illustrates the City's expenditures by function for the City's governmental activities.

### Business-Type Activities

For the City’s Business-type activities, the results for the current fiscal year were positive resulting in an ending net position of \$1.46 billion. The increase of \$94.1 million is the result of current year operations.

Key elements of the increase are as follows:

- Revenues substantially increased resulting from an increase of \$32 million in operating and capital grants as well as a large increase in charges for services in the utilities. Capital and operating grants increases included grants for an International Passenger Processing Facility, Runway 9/27 Rehabilitation, Taxiway Bravo Rehabilitation and Main Terminal Chillers replacements at the airport. There were also increases in operating and capital contributions for the Southside Transit Center and new buses in the StarMetro fund. The increase of \$60 million in charges for services was primarily in the electric utility. These electric charges increased due a 3.5% increase in the base rate coupled with a 1.5% increase in consumption and a 4% increase in fuel recovery where increasing fuel costs were recovered from the customers.
- Expenses also increased but at a slower rate than revenues. The increases in expenses were substantially related to the increased fuel costs in the electric utility.

**Program Revenue and Expenses**  
(in million)

### Financial Analysis of the City's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

#### Governmental Funds

The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of September 30, 2025, the City's governmental funds reported combined ending fund balances of \$200.3 million, an increase of \$19.6 million in comparison with the prior year. This increase is primarily current year operations netted with a prior period adjustment in the State Housing Partnership fund. Current year operations were positive mainly resulting from an \$88.4 million bond issue of which \$63.0 million was new money for various capital improvement projects including police headquarters, Public Safety Complex, and various road projects. These were offset by public safety expenses on the construction of the new police headquarters and culture and recreation expenses related to the construction of a new senior center. Of this fund balance amount \$2.5 million is considered non-spendable; \$142.3 million is restricted for purposes which are externally imposed by providers and \$54.5 million is committed for specific purposes that are internally imposed by the City Commission. These restrictions, commitments and assignments result in an unassigned fund balance of \$1.0 million.

The following table summarizes the change in fund balance for the governmental funds:

**Table 3**  
**Financial Analysis of the City's Governmental Funds**  
**(in thousands)**

Fund	Fund Balances as restated			Sources Over (Under) Uses	Fund Balances 9/30/2025
	9/30/2024	Sources	Uses		
General Fund	\$ 33,167	\$ 214,295	\$ 215,096	\$ (801)	\$ 32,366
Other Funds	145,747	173,570	151,392	22,178	167,925
Total City Funds	<u>\$ 178,914</u>	<u>\$ 387,865</u>	<u>\$ 366,488</u>	<u>\$ 21,377</u>	<u>\$ 200,291</u>

The General Fund is the chief operating fund of the City. At the end of the fiscal year, fund balance for the general fund was \$32.4 million, or 15.0% of general fund expenditures and other financing uses. Of this amount, \$1.8 million is nonspendable and \$1.4 million is unassigned.

The fund balance for the City's General Fund decreased \$0.8 million during fiscal year 2025. This decrease was the result of current year operations.

The fund balance in the City's other nonmajor governmental funds increased \$20.4 million from the prior year. This increase was primarily the result of the City issuing an \$88.4 million bond containing \$63.0 million of new money for various capital improvements offset by a lesser increase in expenses paid from those bond proceeds. The projects that were bonded are multi year projects, hence the expenses will be spread out over several years but the proceeds were received in the current year.

The following chart compares revenues by source for the governmental funds

**Revenues by Source-FYs 2025 and 2024**  
(in millions)

The following chart compares expenditures by program for the governmental funds

**Expenditures by Program-FYs 2025 and 2024**  
(in millions)

### Proprietary Funds

The City’s proprietary funds provide the same type of information found in the government-wide financial statements but in more detail. Factors addressing the finances of these funds have already been addressed in the discussion of the City’s business-type activities.

### General Fund Budgetary Highlights

A schedule comparing the original to the final budget and the variance from the final budget to the actual results is included on page 114 of the financial statements.

There was a slight increase in the budget approved by the City Commission across several expense categories.

The City’s general fund generated a positive variance of approximately \$192,000 between the final amended budget and actual results of operation. Actual revenues for the year were \$82,000 under budget overall. This variance was spread across all revenue categories with the largest variances being a positive variance in tax revenues and negative variance in intergovernmental revenues. The positive variance in taxes was consistent with increased property valuations; the lower than expected intergovernmental revenues was primarily due to less than expected ½ cent sales tax collections resulting from diminished consumer spending caused by economic uncertainty. Overall expenses were under budget by \$274,000. This variance was the net effect of a negative variance in public safety expenses offset by a positive variance in the transfers to other funds. Public safety expenses were over budget due to higher than expected fuel costs, vehicle charges and personnel expenses. Transfers out were under budget due to a \$1 million smaller than expected debt service transfer resulting from a capital bond refunding, a \$1 million reserve transfer that was not made and a \$3.7 million reduction to the budgeted capital improvement fund transfer.

### Capital Assets

The City’s capital assets for its governmental and business-type activities, net of depreciation, as of September 30, 2025, were approximately \$2.6 billion. This represents a net increase of approximately \$95.0 million, or 3.8%, above last year. See Note IV.D. for more information about the City’s capital assets.

**Table 4**  
**Capital Assets, net of accumulated depreciation**  
**(in thousands)**

	Governmental Activities		Business-Type Activities		Total	
	2025	2024	2025	2024	2025	2024
Land	\$ 372,012	\$ 371,266	\$ 159,020	\$ 157,002	\$ 531,032	\$ 528,268

Arrangements Assets	12,009	3,854	1,417	1,519	13,426	5,373
Construction in Progress	97,787	55,244	188,022	125,531	285,809	180,775
Total	<u>\$ 790,158</u>	<u>\$ 736,801</u>	<u>\$ 1,812,237</u>	<u>\$ 1,770,579</u>	<u>\$ 2,602,395</u>	<u>\$ 2,507,380</u>

Major capital acquisitions and improvements during the year included the following:

- Aviation infrastructure - \$24.2 million
- Electric generation, transmission and distribution infrastructure - \$23.8 million
- Gas transmission and distribution infrastructure - \$4.0 million
- Sewer collection, treatment, and disposal infrastructure - \$26.1 million
- StarMetro acquisition of buses and system improvements - \$16.7 million
- Stormwater infrastructure - \$6.6 million
- Street construction, widening and expansion projects improvements, park improvements, and vehicles and equipment for public safety purposes, - \$57.6 million
- Water transmission and distribution infrastructure - \$14.4 million
- Technology and Innovation - \$4.5 million

### Long-Term Debt

As shown in the following table, as of September 30, 2025, the City had \$987.5 million in total debt outstanding. This amount represents bonds and loans secured by specified revenue sources and excludes issuance premium and discounts.

**Table 5**  
**Outstanding Debt at September 30**  
**(in thousands)**

	Governmental Activities		Business-type Activities		Total	
	2025	2024	2025	2024	2025	2024
General Revenue Bonds	\$ 184,265	\$ 122,070	\$ -	\$ -	\$ 184,265	\$ 122,070
Proprietary Revenue Bonds	-	-	763,658	748,024	763,658	748,024
Other Loans/Notes	30,547	34,610	9,065	-	39,612	34,610
Total	<u>\$ 214,812</u>	<u>\$ 156,680</u>	<u>\$ 772,723</u>	<u>\$ 748,024</u>	<u>\$ 987,535</u>	<u>\$ 904,704</u>

The City's total debt increased by \$82.8 million, or 9.16%, during the current fiscal year. This is primarily due to the net effect of principal paydowns of approximately \$224.7 million netted with the execution of a new general obligation bond of \$88.4 million for capital improvements, a new Energy System Revenue Bond of \$108.5 million, a new Consolidated Utility System Revenue Bond of \$96.8 million and several master lease notes for various purchases totalling \$13.8 million.

Bond ratings have a significant influence in establishing the rate of interest expense the City must pay when the bonds are sold. Ratings for the City's debt have been consistently judged to be of good investment quality as indicated in the following table:

**Table 6**  
**Bond Ratings**

	Moody's Investors Service, Inc	Standard & Poor's Rating Services	Fitch Ratings, Inc
Capital Bonds	Aa2	NR	AA+
Consolidated Utility Systems Bonds	NR	AA	AA+
Energy System Bonds	Aa3	AA	NR

Additional information about the City's long-term liabilities is included in Note IV-H to the financial statements.

## Economic Factors and Next Year's Budget and Rates

### Significant Revenue Factors

Funding for the City's governmental activities comes from property taxes and a limited number of other taxes as authorized by the State Legislature (sales, gasoline, utility services, and telecommunications), and other fees to recover the costs of services provided. Revenue is also received from state-shared revenues and grants from state and federal governments.

Revenues for the business-type activities and certain governmental activities (permitting, recreational programs, etc.) come from user fees or service charges. The consumption of the City's utilities is impacted by local weather patterns and the growth of new homes and businesses in the market. In recent years, there has been a decreasing consumption trend per capita in all the utilities due mainly to the City's demand side management programs. The resulting slower growth in demand has allowed the City to defer adding generating capacity for its electric utility. The cost of fuel is recovered from customers through cost recovery adjustments that are not part of base rates to customers. The Electric Fund maintains a reserve account that has been used in the past to reduce the impact to electric customers of steep increases in the market price of fuel. The balance in this fund as of September 30, 2025, was approximately \$102 million.

### Economic and other Factors that may Impact the City's Financial Position

The City of Tallahassee benefits from a uniquely stable economic foundation supported by the presence of two state universities, a state college, a large hospital system, and Florida's state government. These institutions provide steady employment and countercyclical stability, helping maintain a resilient local economy. Leon County's unemployment rate has also consistently remained below the national average, including through 2025.

As with any capital city, the financial health of the state government significantly influences Tallahassee's economic landscape. State sales tax revenues, an important indicator of statewide economic activity, have risen in recent years and are approaching historic highs, reinforcing the strength of one of Tallahassee's largest employment sectors.

The City closely monitors state and local revenue streams such as property taxes and utilizes contracted lobbying services to advocate for its fiscal interests at both the state and federal levels. Additionally, Tallahassee is intentional in pursuing external funding sources; over the past five years, the City has secured more grant funding than it has collected in ad valorem tax revenue, underscoring its effectiveness in leveraging external resources to support municipal services.

Alongside the state government, Tallahassee's higher education institutions continue to play a central role in the regional economy. Collaborative initiatives between the universities and the City have supported business recruitment efforts, particularly among companies seeking to engage with the groundbreaking research conducted at Florida State University's National High Magnetic Field Laboratory. Despite national scrutiny over rising college costs, Florida's state university tuition remains comparatively affordable, sustaining strong enrollment and reinforcing the stabilizing economic influence of the higher education sector.

The City remains actively engaged in economic development through targeted incentives, strategic planning tools, and support for both new and existing businesses. This approach has yielded significant results.

- In November 2025, Buc-ee's closed on the purchase of thirty acres near the intersection of Capital Circle Northwest and Interstate 10. The facility will be a 75,000 – square-foot travel center, featuring 120 fuel pumps, 24 electric vehicle charging stations, and almost 800 parking spaces. While the site is located outside of the current city limits, it is expected the new project will utilize city utilities. It is anticipated approximately 200 jobs will be brought to the local economy.
- In 2024, Danfoss Turbocor completed a 145,000-square-foot production facility in Innovation Park, doubling its manufacturing capacity and positioning the company to nearly double its workforce of 260 employees.
- In 2023, Amazon opened a 635,000-square-foot robotics fulfillment center supporting approximately 1,400 full-time jobs.
- The City continues to experience robust development activity. In FY 2025, over \$2.5 billion in new real estate investments were permitted, constructed, or completed. Over 1,100 new residential units were permitted, including a 158-unit rent-restricted affordable housing development opening in 2026 and a 250-unit affordable community

completed in 2025 on Tallahassee's southside. Major mixed-use and residential projects continue to reshape the urban landscape:

- The Canopy Project, a 505-acre mixed-use development, is delivering new housing options and infrastructure, including a new interstate overpass, scheduled to be completed mid-2027, to support future growth.
  - SoMo Walls, a 33,000-square-foot multi-purpose venue south of downtown, has added new dining, retail, and office space and is expected to support approximately 130 new jobs.
- Various investors and businesses have contributed to more than \$1.4 billion invested and nearly 5,000 new residential units in the expansion and transformation of the College Town area over the past 10 years, with over 1,000 new residential units currently underway.

Several new subdivisions, apartment complexes, and condominium projects are planned or underway across the community. Complementing private-sector investment, the City's five-year, nearly \$1.2-billion Capital Improvement Plan includes 215 projects to enhance transportation, utilities, and public infrastructure. The Blueprint Intergovernmental Agency is also investing more than \$762 million over a five-year period in 28 projects including roadway improvements, bike and pedestrian facilities, new parks, and public spaces.

Tallahassee Memorial HealthCare (TMH), founded in 1948, remains one of the region's largest economic anchors. TMH serves a 21-county area across North Florida, South Georgia, and South Alabama and operates a 772-bed acute care hospital, surgery and ICU centers, a psychiatric hospital, multiple specialty centers, three residency programs, and 38 affiliated physician practices. Its partnerships span major regional healthcare providers and academic institutions, including Florida State University (FSU), Florida A&M University, and the University of Florida.

In Tallahassee, TMH and FSU are partnering to build a next-generation academic health center on TMH's main campus. Funded in part by a \$125 million state appropriation in 2022, the facility will include approximately 140,000 square feet of medical and research space, support an estimated 30 principal investors, and sustain more than 350 high-wage permanent jobs while generating approximately \$40 million annually in research funding.

FSU is also in the process of acquiring the hospital assets owned by the City to embark on a new partnership with Tallahassee Memorial HealthCare to establish a fully integrated academic health system. Under the name and branding of FSU Health, the new academic health system is projected to generate nearly 1,000 new jobs and deliver a \$3.6 billion economic impact over the next three decades. On March 11, 2026 the City Commission approved the sale of the hospital assets to FSU; FSU will pay \$109 million to the city over the next 30 years.

FSU Health continues to expand its footprint, including a new healthcare campus in Panama City Beach developed in partnership with TMH and the St. Joe Company. The first phase, an 80,000-square-foot medical office building, opened in 2024, and a 100-bed hospital is scheduled for completion in 2027.

These indicators, as well as others, were taken into account when adopting the City's budget for fiscal year 2026. The total fiscal year 2026 City-wide operating budget totals \$942.1 million, an increase of \$73.8 million from fiscal year 2025. Personnel expenditures account for approximately 31% of the City's operating budget. The City's fiscal year 2026 operating budget has a net increase of 64 positions bringing total positions to 3,044.75.

The capital budget for fiscal year 2026 totals \$268.2 million, an increase of \$15.2 million from fiscal year 2025. The City's utilities account for \$153 million or 57% of the capital budget; other major uses include transportation, general government, public safety, technology, and culture and recreation. Bond proceeds (new and existing) will fund approximately 23% of these capital projects with the balance of funding coming primarily from capital improvement funds reserved for projects, federal funds, state funds, and general government resources. The City has a five year plan for capital improvements for all projects planned through fiscal year 2030 which totals \$1.1 billion with appropriations of funding made on an annual basis.

## Financial Contact

This financial report is designed to provide residents, taxpayers, customers, and creditors with a general overview of the City of Tallahassee's finances and to demonstrate the City's accountability for the money it receives. If you have questions about the report or need additional financial information, contact the Financial Reporting Manager at 300 South Adams Street, Mailbox A-29, Tallahassee, Florida 32301-1731 or via email at [Rita.Stevens@talgov.com](mailto:Rita.Stevens@talgov.com).

## Basic Financial Statements

These basic financial statements provide a summary overview of the financial position as well as the operating results of the City of Tallahassee. They also serve as an introduction to the more detailed statements and schedules that follow in subsequent sections:

- Government-wide Financial Statements
- Governmental Funds Financial Statements
- Proprietary Funds Financial Statements
- Fiduciary Funds Financial Statements
- Notes to Financial Statements

### Governmental Funds

- General** Accounts for all financial resources except those required to be accounted for in another fund. The functions paid for by the general fund include police, protective inspection, code enforcement, culture and recreation, general government, transportation, human services, economic development, and physical environment.
- Other Governmental Funds** Detailed descriptions of these funds are provided on page 133.

### Proprietary Funds

- Electric** Accounts for the assets, operation and maintenance of the City-owned electric generation, transmission, and distribution system
- Gas** Accounts for the assets, operation and maintenance of the City-owned gas system.
- Sewer** Accounts for the assets, operation and maintenance of the City’s wastewater collection and treatment system.
- Water** Accounts for the assets, operation and maintenance of the City’s water production and distribution system.
- Airport** Accounts for the assets, operation and maintenance of the City-owned international airport.
- Stormwater** Management Accounts for the operation, maintenance, and expansion of the City-owned stormwater utility system.
- Other Enterprise Funds** Detailed descriptions of these funds are provided on page 138.
- Internal Service Funds** Detailed description of these funds are provided on page 143.

### Fiduciary Funds

- Pension and OPEB Trust Funds** Detailed descriptions of these funds are provided on page 151.
- Custodial Fund** Reports Fiduciary activities that are not required to be reported in pension (and other employee benefit) trust funds, investment trust funds, or private-purpose trust funds.

**Reconciliation of the Governmental Funds Balance Sheet  
to the Statement of Net Position  
September 30, 2025  
(in thousands)**

Total Fund Balances - Governmental Funds	\$ 200,291
Amounts reported for governmental activities in the Statement of Net Position are different because:	
Capital and right to use assets used in governmental activities are not financial resources and therefore are not reported in the funds.	790,158
Long-term receivables will not be collected in the current period and, therefore, are not reported in the funds.	43,776
Internal service funds are used by management to charge the costs of certain activities to individual funds. The assets and liabilities of the governmental-type internal service funds are included in the Statement of Net Position.	3,400
Certain amounts related to the Net Pension Liability and Net OPEB liability are deferred and amortized over time and are not reported in the funds.	(14,892)
Deferred results and contributions to pension plans made after the measurement date are recorded as expenditures in the fund statements but must be deferred in the Statement of Net Position.	36,848
Long-term liabilities, including bonds payable, compensated absences, deferred inflows of resources, net pension liability, and net OPEB liability are not due and payable in the current period and therefore are not reported in the funds.	<u>(414,358)</u>
Net Position - Governmental Activities	<u>\$ 645,223</u>

The notes to the financial statements are an integral part of these financial statements.

**Reconciliation of Revenues, Expenditures  
and Changes in Fund Balances of Governmental Funds  
to the Statement of Activities  
For the Fiscal Year Ended September 30, 2025  
(in thousands)**

Net Change in Fund Balances - Total Governmental Funds	\$	21,377
Amounts reported for governmental activities in the Statement of Activities are different because:		
Capital outlays are reported as expenditures in governmental funds. However, in the Statement of Activities, the cost of capital assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation and amortization in the current period.		36,736
Internal Service funds are used by management to charge the costs of certain activities to individual funds. The net revenue of certain internal service funds is reported with governmental activities.		17,085
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is issued, whereas these amounts are deferred and amortized in the Statement of Activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.		(58,930)
The net change in compensated absences which is reported in the Statement of Activities does not require the use of current financial resources and therefore is not reported as an expenditure in governmental funds.		(1,150)
Pension and OPEB related items reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as an expenditure in governmental funds.		<u>20,659</u>
Change in Net Position of Governmental Activities	\$	<u>35,777</u>

The notes to the financial statements are an integral part of these financial statements.

## Notes to Financial Statements September 30, 2025

### Note I - Summary of Significant Accounting Policies

This Summary of Significant Accounting Policies is presented to assist the reader in interpreting the financial statements. The policies are considered essential and should be read in conjunction with the accompanying financial statements. The accounting policies of the City conform to generally accepted accounting principles (GAAP) as applicable to governmental units. This report, the accounting systems and classification of accounts conform to standards of the Governmental Accounting Standards Board (GASB).

#### A. Reporting Entity

The City is a political subdivision of the State of Florida, located in Leon County in the center of the Florida Panhandle. It is approximately 104.7 square miles in area. It is the capital of Florida, the county seat, and the only incorporated municipality in Leon County. The City was incorporated in 1825 following a decision by the Florida Legislature to locate the capital of the new Florida Territory midway between the population centers of St. Augustine and Pensacola.

In the Code of Ordinances, Chapter 8374, Laws of Florida, Special Acts 1919, the City was granted a new City Charter by the State Legislature authorizing a Commission-Manager form of government. In the original charter, the five City Commissioners were elected at large for four-year terms and each year, the Commissioners selected the Mayor for a one-year term to act as the official representative for the City. Tallahassee voters approved a charter change in November 1996 calling for a separately elected Mayor, thereby changing the structure of the Tallahassee City Commission. The first elected Mayor was elected in February 1997 for a four-year term. The elected Mayor has powers commensurate with the other four members of the City Commission; however, he/she is able to serve as an ongoing contact for matters involving other governmental or institutional organizations, including the state legislature, county government, and local universities.

The City provides a full range of municipal services to its citizens. These services include public safety (police and fire), construction and maintenance of streets and sidewalks, stormwater management, recreation, public improvements, planning and zoning, and general administrative services. In addition, the City owns and operates ten enterprise funds which include an international airport, a bus system, a golf course, a solid waste collection system, four utilities (an electric generation transmission and distribution system, a natural gas distribution system, a water production and distribution system, and a sewage collection and treatment system), fire services, and a stormwater system.

In evaluating the City as a reporting entity, management has addressed all potential component units for which the City may or may not be financially accountable and, as such, be includable within the City's financial statements. The City (the primary government) is financially accountable if it appoints a voting majority of the organization's governing board and (1) it is able to impose its will on the organization or (2) there is a potential for the organization to provide specific financial benefit to or impose specific financial burden on the City. Additionally, the primary government is required to consider other organizations for which exclusion of the nature and significance of their relationship with the City would cause the reporting entity's financial statements to be misleading or incomplete.

The accompanying financial statements present the City and its component units, entities for which the City is considered to be financially accountable. Blended component units, although legally separate entities, are in substance part of the City's operation. The discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the City.

#### 1. Blended Component Unit

The City of Tallahassee Community Redevelopment Agency (CRA) was created in August 1998. The CRA Board was established in September 1998, and the Board membership was amended in September 2002, October 2007 and May 2018. The CRA was governed by an interlocal agreement between the City of Tallahassee, Leon County and the CRA that addresses, among other things, Board membership. Until May 24, 2018 the CRA Board membership included four Leon County Commissioners. However, on that date County participation as members to the CRA Board ended with the execution of the fourth amendment to the interlocal agreement. The CRA board

## Note I - Summary of Significant Accounting Policies (Continued)

### A. Reporting Entity (Continued)

is now composed of the same members of City Commission therefore the City Commission has influence and operational responsibility over CRA. The City of Tallahassee provides the CRA with professional and technical services such as, but not limited to, accounting, procurement, human resources, in-house legal, treasurer-clerk support and information systems. All revenues of the CRA are used in the following two districts to fund capital improvements within each district or to fund the debt service requirements of debt related to the CRA.

Greater Frenchtown/Southside Community Redevelopment Area (GFSCRA) - The City Commission adopted the Greater Frenchtown/Southside Community Redevelopment Plan in June 2000. The GFSCRA consists of three distinct geographical sections of residential, commercial/retail and industrial land uses, located within the greater Frenchtown and Southside neighborhoods. The City Commission approved two expansions for the GFSCRA, one in 2016 and another in 2018, increasing the GFSCRA to 1,858 acres.

Downtown District Community Redevelopment Area (DDCRA) - The City Commission adopted the Downtown Community Redevelopment Plan in June 2004. The DDCRA consists of approximately 440 acres located in downtown and between the northern and southern portions of the Greater Frenchtown/South Community Redevelopment Area.

### 2. Discretely Presented Component Unit

Downtown Improvement Authority - The Downtown Improvement Authority (DIA) is an agency created by the Florida Legislature to regulate downtown growth. The City Commission appoints the governing board of the DIA. The City can impose its will on the DIA by approving and/or modifying its budget. There are no separately issued financial statements for the DIA. The DIA utilizes governmental fund accounting.

### 3. Joint Ventures Excluded from the Reporting Entity

#### Capital Region Transportation Planning Agency

In December 2004, the Capital Region Transportation Planning Agency (CRTPA) was created through an interlocal agreement to act as the principal forum for collective transportation policy discussions that results in the development of a long range transportation plan which creates an integrated regional multimodal transportation network that supports sustainable development patterns and promotes economic growth. The CRTPA consists of voting representatives from Leon County, Gadsden County, Jefferson County, and Wakulla County; the City of Tallahassee, the City of Midway, the City of Quincy, the City of Chattahoochee, the City of Greensboro, the City of Gretna, and the Town of Havana; the Leon County School Board; and one non-voting representative from the Department of Transportation.

The CRTPA receives federal and state transportation funds for the performance of its transportation planning and programming activities. If operating expenses exceed the external funding obtained, the deficit is funded by the members of the CRTPA in proportion to their weighted votes. As a participating member of CRTPA, the City therefore has a limited share of financial responsibility for any such deficits.

Current audited financial statements may be obtained from the Capital Region Transportation Planning Agency, 300 S. Adams Street, Box A-19, Tallahassee, Florida 32301.

#### Consolidated Dispatch Agency

In December 2006, the Consolidated Dispatch Agency (CDA) was created through an inter-local agreement between the City of Tallahassee (City) and Leon County, Florida (County), and the Leon County Sheriff (Sheriff). The purpose of the CDA is to provide law enforcement and emergency dispatch services to the City and Leon County, Florida. On April 1, 2014, the commencement date, all existing dispatch operations personnel of the City, Sheriff, and the County became part of the CDA. The City of Tallahassee City Manager, the Leon County Administrator and the Leon County Sheriff constitute the CDA's Board of Directors.

The CDA is primarily funded by the City of Tallahassee and the Leon County Sheriff based upon the per capita population within the incorporated limits of the City of Tallahassee and within the unincorporated area of Leon County. For the twelve month period ended September 30, 2025, the City's contribution to the CDA was \$8,456,661.

**Note I - Summary of Significant Accounting Policies (Continued)****A. Reporting Entity (Continued)**

Audited financial statements may be obtained from the Consolidated Dispatch Agency, 300 S. Adams Street, Box A-19, Tallahassee, Florida 32301.

**4. Jointly Governed Organization**City of Tallahassee-Leon County Blueprint Intergovernmental Agency

In October 2000, the City entered into an inter-local agreement with Leon County as authorized by Section 163.01(7) Florida Statutes. This agreement created the Blueprint Intergovernmental Agency (Blueprint) to govern the project management for the project planning and construction of a list of projects known as the Blueprint projects. The Board of County Commissioners and the City Commission constitute the Blueprint Intergovernmental Agency. The revenues to fund the projects under this agreement are the collections of the local government infrastructure sales surtax, which began December 1, 2004. This tax was extended pursuant to the provisions in Section 212.055, Florida Statutes, until December 31, 2039. In response to the passage of the extension, Blueprint also opened the Office of Economic Vitality whose purpose is to invest in and cultivate the evolving economic development landscape.

Current audited financial statements may be obtained from Blueprint Intergovernmental Agency, 315 S. Calhoun St., Suite 450, Tallahassee, Florida 32301.

**B. Government-Wide and Fund Financial Statements**

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the primary government and its component units. With the exception of interfund services provided and used, the effect of interfund activity has been eliminated in the process of consolidation. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those expenses that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operation or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

**C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation**

Basis of accounting refers to when revenues, expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The government-wide financial statements, proprietary fund, and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year taxes are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met. Primarily grant revenues are susceptible to accrual.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers all revenues to be available if they are collected within 60 days of the end of the current fiscal period with the exception of grant revenues which

**Note I - Summary of Significant Accounting Policies (Continued)****C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)**

are considered available if collected within 270 days. Revenues susceptible to accrual include grant and shared revenues. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, lease liabilities, subscription liabilities, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The government reports the following major governmental fund:

The General Fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The government reports the following major proprietary funds:

The Electric Fund accounts for the assets, operation and maintenance of the City-owned electric generation, transmission, and distribution system.

The Gas Fund accounts for the assets, operation and maintenance of the City-owned gas system.

The Sewer Fund accounts for the assets, operation and maintenance of the City's wastewater system.

The Water Fund accounts for the assets, operation, and maintenance of the City's water production and distribution system.

The Airport Fund accounts for the assets, operation, and maintenance of the City-owned international airport.

The Stormwater Management Fund accounts for the assets, operation, maintenance, and expansion of the City-owned stormwater utility system.

Additionally, the government reports the following fund types:

Internal Service Funds account for various services provided to other departments of the government and to other governments on a cost reimbursement basis. The services provided include an 800 MHz system, revenue collection, technology and information services, accounting, purchasing, fleet management, human resources, employee retirement plan administration, risk management, internal loan program, utility services functions, wholesale energy services, environmental services and facilities management, diversity and inclusion, and community relations.

The Pension and Other Employee Benefits Trust Funds include the Pension Trust Fund and the OPEB Trust Fund. The Pension Trust Fund includes a Defined Benefit Plan and a Defined Contribution Plan. It is used to account for the accumulation of resources to be used for retirement annuity payments to retired City employees. The Defined Benefit Plan accounts for general employees, police officers, and fire fighters separately. The Defined Contribution Plan covers all employees who elect to contribute a portion of their salary to the plan. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the general employees, police officers and fire fighters pension plans, and additions to/deductions from the respective plan's fiduciary net position have been determined on the same basis as they are reported by each of the plans. For this purpose, benefits payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The OPEB Trust Fund accounts for the accumulation of resources to be used for benefit payments for retirees' health care costs.

The Custodial Fund is used to account for the funds held on behalf of two of the related but legally separate entities listed in Note 1.A. The first is the Capital Regional Transportation Planning Agency (CRTPA), a joint venture, and the second is the Blueprint Intergovernmental Agency (BPIA), a jointly governed organization. The City collects, invests and disburses funds on behalf of these two entities and there are also agreements in place with both for the City to carry out several administrative functions.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, and fines and forfeitures, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

**Note I - Summary of Significant Accounting Policies (Continued)****C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)**

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds, and of the City's internal service funds, are charged to customers for sales and services. The water and sewer funds also recognize as operating revenue the portion of the tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds and internal service funds include the costs of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses that do not meet this definition are reported as nonoperating revenue and expenses. When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, and then unrestricted resources as they are needed.

**D. Assets, Liabilities, Deferred Inflows/Outflows of Resources, and Net Position****1. Cash And Cash Equivalents**

The City considers cash on hand, demand deposits, liquid investments with an original maturity of 90 days or less, and balances included within its cash and investments pool to be cash and cash equivalents. The City's cash and investments pool is an internal cash management pool used to obtain efficiencies of operation and improved financial performance, and includes certain non-pension cash, cash equivalent, and investment securities. Each fund maintains a share in the equity of the pool which is reported as cash and cash equivalents in the statements of net position since cash may be withdrawn from the pool at any time without penalty. Liquid investments classified as cash and cash equivalents include repurchase agreements purchased under the terms of the City's depository contract, open repurchase agreements, certificates of deposit, banker's acceptances, commercial paper, U.S. Treasury direct and agency obligations, holdings at the FLCLASS investment pool and the Florida League of Cities 1-3 Year Pool funds. Interest earned by the cash and investments pool is distributed to each fund monthly based on daily balances.

The City's bank balances are insured by federal depository insurance and, for the amount in excess of such federal depository insurance, by the State of Florida's Public Depository Act (the Act). Provisions of the Act require that public deposits may only be made at qualified public depositories. The Act requires each qualified public depository to deposit with the State Treasurer eligible collateral equal to or in excess of the required collateral as determined by the provisions of the Act. In the event of a failure by a qualified public depository, losses, in excess of federal depository insurance and proceeds from the sale of the securities pledged by the defaulting depository, are assessed against the other qualified public depositories of the same type as the depository in default. When other qualified public depositories are assessed additional amounts, they are assessed on a pro-rata basis.

**2. Investments**

The City's investments are pension and other trust fund assets held in the fiduciary funds. Investments are carried at fair value, except for those investments for which net asset value or amortized cost is the most appropriate measurement.

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Investments classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets. Only equities (stock holdings) held by the City's pension trust fund are classified as Level 1 investments. Investments classified in Level 2 of the fair value hierarchy are based upon observable, market-based inputs for similar, but not identical, investments. Debt securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices. The City's custodian uses the pricing services of multiple vendors to price the same assets to determine the most accurate price. Investments classified in Level 3 of the fair value hierarchy are based upon extrapolated data, proprietary pricing models and indicative quotes for similar securities. The City has relatively few investments that are classified as Level 3 for securities that are not traded frequently. The City has several investments that have their fair value determined by the net asset value of the investment holding. Investments in this category are not classified according to Levels 1, 2 and 3 of the fair value hierarchy.

**Note I - Summary of Significant Accounting Policies (Continued)****D. Assets, Liabilities, Deferred Inflows/Outflows of Resources, and Net Position (Continued)****3. Leases**

As of October 1, 2021, the City adopted the provisions of GASB 87, Leases, which amended the existing accounting standards for lease reporting. The new guidance requires lessors in a leasing arrangement to recognize a lease receivable and a deferred inflow of resources for most leases (other than leases that meet the definition of a short-term lease) at lease commencement. The liability (lessees) or deferred inflow (lessors) will be equal to the present value of lease payments expected to be received during the lease term. The deferred inflow of resources is recorded at the initiation of the lease in an amount equal to the initial recording of the lease receivable. The deferred inflow of resources is amortized on a straight-line basis over the term of the lease. Additionally, the new guidance requires lessees in a leasing arrangement recognize a right to use asset and a lease liability for most leases (other than leases that meet the definition of a short-term lease) at lease commencement. The liability will be equal to the present value of lease payments.

**4. Inventory**

The City maintains a variety of inventory types, such as fuel, materials and supplies, and retail merchandise, all of which utilize the consumption method stated at cost which approximates the market. Inventory cost is determined using either the first-in, first-out method or the average cost method. Perpetual inventory records are maintained for all significant inventories. Reported inventories of the General Fund are equally offset by a reservation of fund balance (non-spendable), since they are unavailable for appropriation.

**5. Advances to Other Funds**

When applicable, noncurrent portions of interfund loans receivable (reported in "Advances to" asset accounts) of governmental funds are equally offset by a fund balance reserve account which indicates that they do not constitute "available spendable resources" since they are not a component of net current assets. Current portions of interfund receivables (reported in "Due from" asset accounts) are considered "available spendable resources."

**6. Restricted Assets**

Certain proceeds of the City's enterprise funds revenue bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the Statement of Net Position because their use is limited by applicable bond covenants. Assets are set aside for the following uses:

Revenue Bonds Current Debt Service – used to segregate resources accumulated for debt service payments over the next twelve months.

Revenue Bonds Future Debt Service – used to report resources set aside to make up potential future deficiencies in the revenue bonds current debt service account.

Revenue Bonds Renewal and Replacement – used to report resources set aside to fund asset renewals and replacements or to meet unexpected contingencies.

**7. Capital Assets**

Capital assets and right to use leased assets, which include land, buildings, equipment, improvements other than buildings, intangibles and public domain infrastructure assets, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets, other than land and infrastructure, are defined as assets with a cost of \$5,000 or more and an estimated useful life greater than one year. Land and infrastructure assets are long-lived capital assets that are stationary in nature and can be preserved for a significantly greater number of years than most general capital assets. Examples of infrastructure assets are roads, bridges, sidewalks, paved paths, utility systems, stormwater drainage systems, traffic control and lighting systems. In the initial capitalization of general infrastructure assets, the City chose to include all such items regardless of their acquisition date or amount. The City was able to estimate the historical cost for the initial reporting of these assets through back trending (i.e., estimating the current replacement cost of the infrastructure to be capitalized and using an appropriate price-level index to deflate the cost to the acquisition year or estimated acquisition year). As the City constructs or acquires additional capital assets each period, they are capitalized and reported at historical cost. The capitalization threshold for infrastructure assets has been set at \$100,000 for roadways and \$50,000 for other infrastructure assets. Land assets have no capitalization threshold, therefore all city-owned land is capitalized.

**Note I - Summary of Significant Accounting Policies (Continued)**

**D. Assets, Liabilities, Deferred Inflows/Outflows of Resources, and Net Position (Continued)**

All reported capital assets, except land and construction in progress, and all reported right to use leased assets are depreciated/amortized.

Other capital assets are recorded at historical cost when purchased or constructed. Donated capital assets, donated works of art and similar items, and capital assets received in a service concession arrangement are reported at acquisition cost. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized. Major outlays for constructed capital assets and improvements are capitalized as projects are completed.

The right to use assets are initially measured at an amount equal to the present value of the related lease liability plus any lease payments made prior to the lease term, less lease incentives, and plus ancillary charges necessary to place the lease into service. The right to use assets are amortized on a straight-line basis over the life of the related lease.

The right to use Subscription-Based Information Technology Arrangement (SBITA) assets are initially measured at an amount equal to the present value of the SBITA liability plus any SBITA payments made at the start of the SBITA term, if applicable, plus capitalizable initial implementation costs at the start of the SBITA term, less any incentives received from the SBITA vendor at the start of the SBITA term. The right to use SBITA assets are amortized on a straight-line basis over the SBITA term.

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the fund's financial statements. These general capital assets are included in the governmental activities column of the government-wide financial statements. Capital assets used in the Enterprise and Internal Service Funds are accounted for in the respective funds. All vehicles of the City are accounted for in the Garage Fund, an Internal Service Fund, with the exception of StarMetro vehicles (generally buses). StarMetro vehicles are accounted for in their own fund. Depreciation on all exhaustible capital assets used in the Enterprise and Internal Service Funds is charged as an expense against their operations. Accumulated depreciation is reported on the respective fund's balance sheet.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings	20 to 40
Right to Use Leased Buildings	based on lease term
Improvements other than buildings	10 to 40
Equipment and machinery	5 to 40
Right to Use Leased Equipment	based on lease term
Vehicles	5 to 20
Infrastructure	10 to 60
SBITAs	based on SBITA term

**8. Deferred Outflows Of Resources**

Deferred outflows of resources represent a consumption of net assets that applies to a future period and will not be recognized as an outflow of resource (expense) until then. Changes in the fair value of effective hedging derivatives are reported as deferred inflows or outflows of resources. The deferred losses on refunding results from the difference in the carrying value of refunded debt and reacquisition price. The amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The amounts for pensions and OPEB relate to certain differences between projected and actual actuarial results, certain differences between projected and actual investment earnings, as well as contributions between measurement and reporting dates, which are accounted for as deferred outflows of resources.

**Note I - Summary of Significant Accounting Policies (Continued)****D. Assets, Liabilities, Deferred Inflows/Outflows of Resources, and Net Position (Continued)****9. Compensated Absences**

The City's employees earn vacation, sick, and compensatory leave, which may be used or accumulated up to certain limits established by the City's personnel policies. Unused vacation, and certain compensatory leave is paid upon death, retirement, or termination of employment. Unused sick leave is paid at the rate of 50% upon retirement, certain terminations, or death.

In accordance with GASB Statement No. 101, the City recognizes a compensated absences liability for employee leave balances that have yet to be used if all of the following are true: a) the leave is attributable to services already rendered; b) the leave accumulates; and c) the leave is more likely than not to be used for time off or otherwise paid in cash or settled through noncash means. The liability for compensated absences has been calculated using the current pay rate as of the date of the financial statements and includes wage-related benefits such as employer-paid Medicare taxes, when applicable.

In the government-wide and proprietary fund statements of net position, compensated absences are reported as liabilities. In the governmental funds balance sheet, a liability is reported only to the extent that compensated absences have matured and are due and payable because of employee resignations, retirements, or terminations.

**10. Bond Premiums, Discounts and Refunding Gains and Losses**

In the government-wide financial statements and in the proprietary fund statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund statement of net position. Bond premiums and discounts are amortized over the life of the bonds at the rate at which principal payments are made which approximates the effective interest method. Bond issuance costs are expensed in the year they are incurred. Bond refunding gains and losses are deferred and amortized over the remaining life of the old debt or the life of the new debt, whichever is shorter, using the effective interest method. As a result of adopting GASB Statement No. 65, there are deferred inflows and outflows related to gains and losses on bond refundings in the Government-Wide Statement of Net Position as well as in the Enterprise Funds Statements of Net Position. In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued and premiums on debt issuances are reported as other financing sources. Discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

**11. Deferred Inflows of Resources**

Deferred inflows of resources represent an acquisition of net assets that applies to a future period and so will not be recognized as an inflow of resource (revenue) until that time. Changes in the fair value of effective hedging derivatives are reported as deferred inflows or outflows of resources. The deferred gain on refunding results from the difference in the carrying value of refunded debt and reacquisition price. The amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The amounts for pensions and OPEB relate to certain differences between projected and actual actuarial results and certain differences between projected and actual investment earnings, which are accounted for as deferred inflows of resources. The city also recognizes a deferred inflow of resources at the initial measurement of lease receivables. The deferred inflow of resources is recorded at the initiation of the lease in an amount equal to the initial recording of the lease receivable. The deferred inflow of resources is amortized on a straight-line basis over the term of the lease.

**12. Indirect Cost Allocation**

The City currently employs an indirect cost allocation system based upon an internal cost analysis. An administrative service fee is charged by the General Fund to the other operating funds to address General Fund administrative services provided (e.g., legal, cash management, internal audit, and executive services). At the fund-level statements, the administrative service fee is included in the General Fund's Miscellaneous Revenue line item and in the other operating funds in the Contractual Services line. This administrative service fee is eliminated at year-end in the government-wide statements.

**Note I - Summary of Significant Accounting Policies (Continued)****D. Assets, Liabilities, Deferred Inflows/Outflows of Resources, and Net Position (Continued)****13. Fuel Management Program**

In connection with the purchase of natural gas, diesel fuel, and unleaded gasoline, the City has developed and implemented a fuels management program intended to manage the risk of changes in the market prices of natural gas, diesel fuel, and unleaded gasoline. Pursuant to this program the City executes fixed price and option contracts as needed to manage fluctuations in the market price of such fuels. The contracts are recorded at fair value on the Statement of Net Position as they have been determined to qualify as derivative instruments under GASB Statement No. 53, "Accounting and Financial Reporting for Derivative Instruments". Such amounts are included in noncurrent assets and deferred inflows of resources. Any associated margin deposits are also recorded in noncurrent assets. The net amounts received or paid under expired or closed contracts are recorded as an adjustment to fuel expense in the period realized. See Note V, section I.

The City uses two different types of transactions to hedge natural gas volumes for future periods. The first is through the Chicago Mercantile Exchange (CME Group) where futures/options contracts are bought and sold through an Introducing Broker (IB) such as ADM Investor Services which the City uses. All "Exchange" based transactions require margining to make trades. The margin is composed of two parts, the initial margin which is meant to capture one day's worth of volatility and the maintenance margin which equals the difference between the hedge price and the market price. Since no credit is extended to any party on the exchange, the City must maintain monies on hand or send enough margin monies to settle the positions on any given day. In order to enable exchange-based hedging, the City Commission authorized \$30 million from the electric operating reserve fund for this purpose in November 2008. The majority of the hedging transactions in the fiscal year were bilateral Over The Counter (OTC) trades between the City and another counterparty. These types of transactions are subject to negotiated credit limits but not margining.

The biggest risk to the City is the volatile price of natural gas. The goal of the hedging program is to reduce the size of this risk. The ratepayers pay for the natural gas costs through the ECRC and PGRC fuel clauses on their electric and gas bills. Because the City buys nearly \$100 million worth of natural gas each year and market price can easily increase by 100%, it's important for the City to manage this risk. The City is precluded from taking on more hedging positions on the exchange than it can support with the \$30 million margining limit. If the City were to get close to the \$30 million limit no more exchange-based trades would be executed. The hedging program is overseen by the Energy Risk Policy Committee (ERPC) which is comprised of the City Manager, City Attorney, Treasurer-Clerk, City Inspector General, an Assistant City Manager, the General Manager for the Electric & Gas Utility and senior utility staff.

As of September 30, 2025, the City no longer had any open natural gas positions on the exchange. The City executed natural gas hedges equal to 75% of the Electric and Gas Utilities average annual usage for FY2026 on October 9, 2025. Because the natural gas hedges took place after September 30, 2025, their valuations are not accounted for in this document. Diesel and gasoline hedges as of September 30, 2025 are accounted for under Note V.I, Derivative Instruments. By trading with multiple, highly rated, counterparties in the OTC market the City diversifies its counterparty risk.

The City uses an allowance account to manage fluctuations in future electric and gas costs. These costs are evaluated biannually and any amounts over or under recovered are amortized over the following six months. This allowance is included in Accounts and Retainage Payables.

**Note II - Reconciliation of Government-Wide and Fund Financial Statements**

**A. Explanation of Certain Differences Between the Governmental Funds Balance Sheet and the Government-Wide Statement of Net Position**

The governmental funds balance sheet includes a reconciliation between fund balances – total governmental funds and net position – governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains that “long-term liabilities, including bonds payable, compensated absences, deferred inflows of resources, net pension liability, and net OPEB obligation are not due and payable in the current period and therefore are not reported in the funds.” The details of this \$414,358,000 difference are as follows (in thousands):

Bonds and Loans Payable including Premiums and Discounts	\$ (225,327)
Effect of Deferred Loss on Refunding	(5,860)
Compensated Absences	(13,087)
Net OPEB Liability	(37,952)
Net Pension Liability	(115,620)
Lease/SBITA Liability	<u>(16,512)</u>
Net adjustments to reduce long-term liabilities of Total Governmental Funds to arrive at Net Position	<u>\$ (414,358)</u>

**B. Explanation of Certain Differences Between the Governmental Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-Wide Statement of Activities**

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net change in fund balances - total governmental funds and net change in net position of governmental activities as reported in the government-wide statement of activities. One element of that reconciliation states, “Capital Outlays are reported as expenditures in governmental funds. However, in the Statement of Activities, the cost of capital assets is allocated over their estimated useful lives as depreciation expense.” The details of this \$36,736,000 difference are as follows (in thousands):

Capital Outlay	\$ 62,669
Depreciation/Amortization Expense	<u>(25,933)</u>
Net adjustment to increase net change in Fund Balances Total Governmental Funds to arrive at Changes in Net Position Governmental Activities	<u>\$ 36,736</u>

**Note III - Stewardship, Compliance, and Accountability**

**A. Budgetary Information**

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the General and Enterprise Funds. The budget is adopted at the fund level and administered at the department level. The difference between budgetary revenues and expenditures and modified accrual basis revenues and expenditures as reported in the general fund financial statements are explained in the budgetary comparison schedule Note to Required Supplementary Information of this report. The City Manager is authorized to transfer budget amounts within funds; however, any revision that alters the total expenditures of any fund must be approved by the City Commission. Unencumbered appropriations are closed at year-end.

Encumbrance accounting, under which requisitions, purchase orders, contracts, and other commitments for the expenditures of resources are recorded to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration in the governmental funds.

**B. Compliance with Finance - Related Legal and Contractual Provisions**

The City had no material violations of finance-related legal or contractual provisions.

**C. Deficit Fund Equity - Fund Balance of Individual Funds**

At the end of the fiscal year, the following funds had these listed deficits: nonmajor governmental fund, Gas Tax \$386,932; and Internal Service funds, Human Resources \$305,283 and Community Relations \$11,920.

**D. Prior Period Adjustment**

Fund balance as of October 1, 2024, has been restated to reflect a prior period adjustment to the State Housing Initiatives Partnership (SHIP) fund to correct the recording of an adjustment made to increase revenue for fiscal year 2024. The adjustment was an error that increased fund balance and decreased liabilities by \$1.8 million. The correction caused a decrease in the fund balance and an increase in liabilities in the SHIP fund for \$1.8 million.

**E. Prior Period Revision**

Certain immaterial revisions have been made to the 2024 financial statements to remove amounts related to pooled investments for cash flows presentation. These revisions did not have a significant impact on the financial statements as a whole.

**Note IV - Detailed Notes - All Funds**

**A. Cash, Cash Equivalents, and Investments**

The City reports the following cash, cash equivalents and investments in the statements of net position at September 30, 2025 (in thousands):

	Primary Government	Component Unit	Fiduciary Funds - Pension/OPEB	Fiduciary Funds - Custodial Fund
Cash and cash equivalents	\$ 258,404	\$ 373	\$ 28,901	\$ 335,605
Cash and cash equivalents – restricted	524,173	-	-	-
Investments	1,506	-	2,640,680	-
Total	<u>\$ 784,083</u>	<u>\$ 373</u>	<u>\$ 2,669,581</u>	<u>\$ 335,605</u>

As discussed in Note I.D. the City’s cash and cash equivalents include cash, cash equivalents, and funds held in a cash and investments pool. The City’s investments are monies held by the City’s pension funds.

According to the City Charter, the City Treasurer-Clerk is designated to invest all monies belonging to the City pursuant to the policies approved by the City Commission, except those monies in the pension funds. Monies in the pension funds are invested under the auspices of the City Charter-created Sinking Fund Commission, which consists of the

**Note IV - Detailed Notes - All Funds (Continued)**

**A. Cash, Cash Equivalents, and Investments (Continued)**

five City Commissioners and three appointed members. Under the policies approved by the City Commission and the Sinking Fund Commission, the day-to-day investment of all monies is managed by the City Treasurer-Clerk.

The City has two approved investment policies: 1) the Non-Pension Investment Policy, which is approved by the City Commission and governs the investment of all non-pension monies of the City, including the previously referenced cash and investments pool, and 2) the Pension Investment Policy, which is approved by the Sinking Fund Commission and governs the investment of assets of the City’s Pension Funds. The Non-Pension Investment Policy provides for a Core Portfolio, governing the investment of all monies held or controlled by the City, not otherwise classified as Specialized or Pension Fund monies. The Non-Pension Investment Policy specifies the investments that are authorized for purchase within the Core Portfolio. The Non-Pension Investment Policy further provides for the establishment of Specialized Portfolios, with the governing criteria unique to that portfolio, including authorized investments, to be approved on a case-by-case basis by the Investment Advisory Committee. In addition to authorizing investment instruments, the City’s investment policies also identify various portfolio parameters addressing issuer diversification, term to maturity and liquidity, and the requirement of “purchase versus delivery” perfection for securities held by a third party on behalf of and in the name of the City.

**1. Non-Pension Cash, Cash Equivalents, and Investments**

The following table presents the City’s primary government cash and cash equivalent balances at September 30, 2025 carried at fair value by level within the valuation hierarchy, financial assets carried at net asset value or amortized cost, and other cash and cash equivalent balances. The amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net position (in thousands).

	Total	Quoted Prices in Active Markets for Identical Assets Level 1	Significant Other Observable Inputs Level 2	Significant Unobservable Inputs Level 3
Cash equivalents type by fair value level				
Debt securities	\$ 517,543	\$ 43,607	\$ 473,936	\$ -
Total cash equivalents at fair value	517,543	43,607	473,936	-
Cash equivalents recorded at net asset value				
Other Cash and Cash Equivalents	39,282			
FL Class	219,924			
FL League of Cities 1-3 Year Pool	5,829			
Total cash and cash equivalents	<u>\$ 782,578</u>			

At year-end, the book balance of the City’s operating cash deposits was \$3,012,000 and the bank balance was \$1,550,000, which is included in total other cash and cash equivalent balances. The difference between the book balance and bank balance is due to outstanding checks and deposits. Three City funds had deficit cash balances at year end totaling \$27,329,000 which is reported in interfund payables at September 30, 2025.

The City’s Core Portfolio includes investments administered internally by the City, funds invested in external investment pools, and funds invested in externally managed portfolios. The external managers for these portfolios include Wells Fargo, JP Morgan Chase, Galliard Capital Management, Income Research and Management and Wellington Management Company. The external investment pools are the Florida Municipal Investment Trust Portfolio 1-3 Year High Quality Bond Fund (the “Florida League of Cities 1-3 Year Pool”), administered by the Florida League of Cities, and Florida Cooperative Liquid Assets Securities System (“FLCLASS”), an intergovernmental investment pool administered by Public Trust Advisors, LLC. FLCLASS is an authorized local government investment pool under Section 218.415(16)(a), Florida Statutes, by and for participating Florida public agencies. A copy of the Florida Municipal Investment Trust audited financial statements may be obtained from the Florida Municipal Investment Trust, 301 South Bronough Street, Suite 300, Tallahassee, FL 32301. A copy of the FLCLASS audited financial statements may be obtained at their offices, 201 E. Pine Street, Suite 750, Orlando, FL 32801.

The Florida League of Cities 1-3 Year Pool is measured at net asset value (NAV). As of September 30, 2025, the City owns \$5,828,781 in shares of the Florida League of Cities 1-3 Year Pool, not the individual securities within the portfolio. The modified duration of the Florida League of Cities 1-3 Year Pool as of September 30, 2025, was 1.6 years. The Florida League of Cities 1-3 Year Bond Fund (Florida League of City’s Fund) allows the City to withdraw

**Note IV - Detailed Notes - All Funds (Continued)**

**A. Cash, Cash Equivalents, and Investments (Continued)**

any or all of its assets on the 15th and last day of each month, provided the City gives the Florida League of City's Fund advance notice of at least 10 business days of the withdrawal. The pool is rated AAAf/S1 by Fitch Ratings.

The FLCLASS investment pool is measured at net asset value (NAV). As of September 30, 2025, the City owned \$219,924,000 in shares of FLCLASS, not the individual securities within the portfolio. The Pool is a 2a-7 like pool which maintains a stable net asset value of \$1, is rated AAAM by Standard & Poor's, and has a weighted average days to maturity of 30 days. The FLCLASS pool allows the City to withdraw any or all its assets on any business day that the pool is open.

Credit Risk: The structure of the City's non-pension portfolio is designed to minimize credit risk. To limit the City's risk against possible credit losses, a maximum of 5% of the total portfolio may not be held at any one time in all securities of any corporate entity, inclusive of commercial paper, medium term notes, or corporate notes and bonds. No corporate entity represented more than 5% of the portfolio at September 30, 2025. The majority of the securities held are of the highest available credit quality ratings. The non-pension portfolio's credit quality is measured using the Standard & Poor's rating scale.

As of September 30, 2025, the City had the following non-pension investments subject to credit risk in the internal and externally managed portions of the portfolio, in addition to the previously discussed shares in the Florida League of Cities 1-3 Year Pool and FLCLASS:

<u>Quality Breakdown</u>	<u>Portfolio Percentage</u>
U.S. Treasury	13.56%
U.S. Agency	36.65
AAA	7.64
AA	8.36
A	22.48
BBB	4.25
Other	7.06
Total	<u>100.00%</u>

**Interest Rate Risk:** In accordance with the City's Non-Pension Investment Policy, the City has established maturity limitations for each authorized investment category. The maximum duration of the various investments within the internally managed portion of the non-pension portfolio ranges from 60 days to 3.5 years. The maximum duration for externally managed investments ranges from 3.0 years to 6.0 years. The option adjusted duration of the non-pension portfolio as of September 30, 2025 was 2.10 years.

As of September 30, 2025, the Core Portfolio had the following investments on a time-segmented basis (in thousands):

<u>Investment Type</u>	<u>Fair Value</u>	<u>Less than 1</u>			
		<u>Year</u>	<u>1-5 Years</u>	<u>6-10 Years</u>	<u>10+ Years</u>

**Note IV - Detailed Notes - All Funds (Continued)**

**A. Cash, Cash Equivalents, and Investments (Continued)**

**2. Investments**

The City maintains an operating investment in a Vanguard Direct Investment account, which is measured at net asset value (NAV). As of September 30, 2025, the City held investments totaling \$1,506,000 in shares of Vanguard Institutional Index Fund, Developed Markets Index Fund, Total Bond Market Index Fund, and Real Estate Index Fund. The City holds shares in these funds rather than in the individual securities within the mutual funds.

The following table presents investments held in the City’s fiduciary funds at September 30, 2025 carried at fair value by level within the valuation hierarchy and investments carried at net asset value or amortized cost (in thousands).

<b>Investment type by fair value level</b>	<b>Total</b>	<b>Quoted Prices in Active Markets for Identical Assets Level 1</b>	<b>Significant Other Observable Inputs Level 2</b>	<b>Significant Unobservable Inputs Level 3</b>
Debt securities	\$ 289,633	\$ 18,308	\$ 271,325	\$ -
Equity securities	1,206,023	1,206,023	-	-
Total investments at fair value	<u>1,495,656</u>	<u>\$ 1,224,331</u>	<u>\$ 271,325</u>	<u>\$ -</u>
Investments measured at net asset value				
Mutual index funds	198,667			
Debt securities	96,053			
Alternative investments	305,844			
Private equity funds	273,791			
Timber	117,364			
Private Credit Funds	153,305			
Total investments measured at net asset value	<u>1,145,024</u>			
Total investments	<u>\$ 2,640,680</u>			

The assets shown as Level 1 Inputs represent those investments for which the City’s custodian had directly observable, quoted prices (unadjusted) in active markets for identical assets or liabilities. The assets shown as Level 2 Inputs represent those investments for which the City’s custodian had inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs are derived from or corroborated by observable market data through correlation or by other means. The assets shown as Level 3 Inputs represent those investments for which the City’s custodian utilized unobservable inputs when relevant Level 1 and Level 2 inputs were unavailable. The level in which an asset is assigned is not indicative of its quality but an indication of the source of valuation. There were no changes in the valuation techniques used by the City’s custodian from the end of the prior fiscal year.

The Mutual funds category comprises the invested assets of the defined contribution portion of the City’s pension plan, which are used to pay matching contributions to City retirees. As of September 30, 2025, these investments totaled \$198,667,000.

The Debt securities category is composed of a core-plus commingled fixed income manager. The Pension Fund may withdraw from the core fixed-income accounts at any time with reasonable notice (five business days are recommended).

The alternative investment consists of commingled funds and a number of limited partnerships. The City has invested in two commingled funds. The commingled funds permit withdrawals once per quarter by providing advance notice of 45 days prior to the end of the quarter; all withdrawals are subject to available cash, as determined by the fund’s Trustee. Available cash is defined as excess cash after provision for outstanding future capital commitments and other operating reserves. If withdrawal requests exceed available cash, distributions are made on a pro rata basis. Withdrawal requests are typically paid on the final day of the quarter. As of September 30, 2025, the commingled funds had a NAV of approximately \$92,200,000.

**Note IV - Detailed Notes - All Funds (Continued)**

**A. Cash, Cash Equivalents, and Investments (Continued)**

Alternative investment limited partnerships cannot be redeemed at the option of the Pension Fund; the Pension Fund will receive distributions over the life of each limited partnership. Each partnership is expected to distribute the principal and earnings to the Pension Fund over a period of approximately 12 years from the establishment date of the partnership. The Pension Fund has investment commitments in 17 active limited partnerships, all of which have varying start dates and commitment amounts. As of September 30, 2025, the Pension Fund had approximately \$98.0 million in remaining commitments to these various real estate partnerships, with an expectation that the total contributions to each partnership will ultimately reach about 95% of the total commitment amount for each individual partnership.

Private equity funds consist of several limited partnerships as of September 30, 2025. The limited partnerships cannot be redeemed at the option of the Pension Fund; the Pension Fund will receive distributions over the life of each limited partnership. Each partnership is expected to distribute the principal and earnings to the pension fund over a period of approximately 12 years from the establishment date of the partnership. The Pension Fund has investment commitments in thirteen active limited partnerships, all of which have varying start dates and commitment amounts. As of September 30, 2025, the Pension Fund had approximately \$52 million in remaining commitments to these various partnerships, with an expectation that the total contributions to each partnership will ultimately reach about 85% of the total commitment amount for each individual partnership.

Timber funds consist of several limited partnerships. The limited partnerships cannot be redeemed at the option of the Pension Fund; the Pension Fund will receive distributions over the life of each limited partnership. Each partnership is expected to distribute the principal and earnings to the Pension Fund over a period of approximately 12 years from the establishment date of the partnership. The Pension Fund has investment commitments in six active limited partnerships, all of which have varying start dates and commitment amounts. As of September 30, 2025, the Pension Fund had approximately \$8 million in remaining commitments to these various timber partnerships.

Private credit funds consist of several limited partnerships. The limited partnerships cannot be redeemed at the option of the Pension Fund; the Pension Fund will receive distributions over the life of each limited partnership. Each partnership is expected to distribute the principal and earnings to the Pension Fund over a period of approximately six to ten years from the establishment date of the partnership. The Pension Fund has investment commitments in eleven active limited partnerships, all of which have varying start dates and commitment amounts. As of September 30, 2025, the Pension Fund had approximately \$42.5 million in remaining commitments to these various private credit partnerships, with an expectation that the total contributions to each partnership will ultimately reach about 85% of the total commitment amount.

Credit Risk: The City’s Investment Policy for the Pension Plan requires its fixed-income managers to manage a high-grade portfolio of bonds. The individual money managers evaluate risk in their selection of bond securities to hold in their portfolios. The Pension Plan measures credit quality using the Standard & Poor’s rating scale.

As of September 30, 2025, the City had the following pension investments subject to credit risk:

Quality Breakdown	Portfolio Percentage
US Treasury	23.73%
US Agency	10.18
AAA	9.61
AA	8.38
A	8.53
BBB	8.63
B	0.21
Commingled	30.73
Total	100.00%

Foreign Currency Risk: The City’s Investment Policy for the Pension Plan does not explicitly address foreign currency risk. The investment policy specifies the market sectors of the investments and the benchmark for each sector.

**Note IV - Detailed Notes - All Funds (Continued)****A. Cash, Cash Equivalents, and Investments (Continued)**

Individual money managers are hired to manage each sector and are evaluated on their performance against that benchmark. The individual money managers evaluate risk in their selection of securities to hold in their portfolios.

The following table below shows the Foreign Currency Risk for the City's Pension Plan with the amount (in thousands) and the percentage each currency represents for the Pension Plan's cash, cash equivalents and investments:

	<u>Exposure</u>	<u>Percentage</u>
United States Dollar	\$ 2,199,028	91.60%
Euro	67,314	2.80
British Pound Sterling	41,419	1.72

Total	<u>\$ 2,401,295</u>	<u>100.00%</u>

Interest Rate Risk: The City of Tallahassee's Investment Policy for the Pension Plan does not explicitly address interest rate risk. The investment policy specifies the market sectors of the investments and the benchmark for each sector. Individual money managers are hired to manage each sector and are evaluated on their performance against that benchmark. The individual money managers evaluate risk in their selection of securities to hold in their portfolios.

The City of Tallahassee held the following debt securities for its Pension Fund on a time-segmented basis as of September 30, 2025 (in thousands):

<b>Debt Securities</b>	<b>Fair Value</b>	<b>Less than 1</b>			
		<b>Year</b>	<b>1-5 Years</b>	<b>6-10 Years</b>	<b>10+ Years</b>

Commingled	19,118				
Total	<u>\$ 388,582</u>				

**B. Securities Lending Transactions**

In accordance with Section 51 of the City Charter, the City Treasurer-Clerk or his designee may authorize investment transactions that he considers prudent. Accordingly, the City participates in securities lending transactions via a Securities Lending Agreement with The Northern Trust Company ("Northern") that authorizes the banking institution to lend the City's securities to approved broker-dealers and banks in order to generate additional income. Gross

**Note IV - Detailed Notes - All Funds (Continued)**

**B. Securities Lending Transactions (Continued)**

income from securities lending transactions and the fees paid to Northern are reported in the City's statements. Assets and liabilities include the value of the collateral held.

During the fiscal year ended September 30, 2025, Northern loaned, at the direction of the City's Treasurer-Clerk, securities and received cash, securities issued or guaranteed by the United States government, and irrevocable bank letters of credit as collateral. Northern does not have the ability to pledge or sell collateral securities delivered absent a borrower default. Borrowers were required to deliver cash collateral for each loan equal to at least 102% of the initial fair value of the loaned securities or if the borrowed securities and the collateral were denominated in different currencies, equal to 105% of the fair value of the securities.

There are no restrictions on the amount of securities that may be loaned. The Agreement requires Northern to indemnify the City for losses attributable to violations by Northern of the Standard of Care set out in the Agreement. There were no such violations during the fiscal year ended September 30, 2025. Moreover, there were no losses during the fiscal year ended September 30, 2025 resulting from a default of any borrower.

During the fiscal year ended September 30, 2025, the City and each borrower maintained the right to terminate all securities lending transactions on demand. For the Pension Fund, the cash collateral received on each loan of securities together with the cash collateral of other qualified plan lenders were invested in a collective investment pool with Northern. The cash collateral for the non-pension funds lending activity was invested in a liquid assets portfolio institutional account. Because the loans are terminable at will, their duration did not generally match the duration of the investments made with the cash collateral. For the Pension Fund, the average term of the loan was approximately 96 days and the average duration of the investment pool was 19 days. For the non-pension funds, the average term of the loan was 180 days and the average duration of the investment pool was 36 days. On September 30, 2025, the City had no credit risk exposure to borrowers in either its pension or non-pension funds.

On September 30, 2025, for the City's Pension Fund, the collateral held and the fair value of securities on loan were \$110,316,000 and \$107,707,000, respectively; for the City's non-pension funds, the collateral held and the fair value of securities on loan were \$10,412,000 and \$10,160,000 respectively.

A summary of the fair value of the securities on loan as of September 30, 2025 follows (in thousands):

	<b>Pension Fund</b>	<b>Non-Pension Fund</b>
Corporate Bonds	\$ 8,756	\$ 3,077
Common Stock	75,359	-
U.S. Government Treasury Notes	23,592	7,083
	<u>\$ 107,707</u>	<u>\$ 10,160</u>

**C. Receivables**

**1. Property Taxes**

Under Florida law, the assessment of all properties and the collection of all county, municipal and school board property taxes are consolidated in the offices of the Leon County Property Appraiser and the Leon County Tax Collector. The laws of the State regulating tax assessment are also designed to ensure consistent property taxes at a rate of up to 10 mills. The millage rate assessed by the City for the fiscal year ended September 30, 2025 was 4.42. All property is assessed by the county according to its fair market value on January 1 of each year. Each assessment roll is submitted to the Executive Director of the State Department of Revenue for review to determine if the rolls meet all of the appropriate requirements of State Statutes.

The current year taxes for the fiscal year, beginning October 1, are billed in the month of November and are due no later than March 31. On April 1, all unpaid amounts become delinquent and are subject to interest and penalties. Discounts are allowed for early payment at the rate of 4% in the month of November, 3% in the month of December, 2% in the month of January and 1% in the month of February. The taxes paid in March are without discount. Delinquent taxes on real property bear interest of 18% per year. On or prior to June 1 following the tax year, certificates are sold for all delinquent taxes on real property. After sale, tax certificates bear interest of 18% per year or at any lower

**Note IV - Detailed Notes - All Funds (Continued)**

**C. Receivables (Continued)**

rate bid by the buyer. Application for a tax deed on any unredeemed tax certificates may be made by the certificate holder after a period of two years. Delinquent taxes on personal property bear interest of 18% per year until the tax is satisfied either by seizure and sale of the property or by the seven year statute of limitations.

The City Tax Calendar is as follows: Valuation Date: January 1; Levy Date: November 1; Due Date: March 31, Succeeding Year; and Lien Date: April 1, Succeeding Year.

**2. Leases**

The City leases land, offices and buildings, equipment, and infrastructure capital assets including Airport infrastructure and land (non-regulated leases), to various third-party tenants doing business in the City of Tallahassee. The leases have terms including options to extend between one and eleven years, with payments required monthly, semiannually, or annually. At the commencement of the leases, the lease receivables are measured at the present value of payments expected to be received during the lease term.

In fiscal year 2025, the city recognized \$1,076,000 of lease revenue and \$51,000 of interest revenue related to these leases. As of September 30, 2025 the City’s receivables were valued at \$2,530,000.

The principal and interest requirements to maturity for the lease receivables as of September 30, 2025, are as follows (in thousands):

<b>Governmental Activities</b>		
<b>Year Ending September 30</b>	<b>Principal</b>	<b>Interest</b>
2026	\$ 196	\$ 17
2027	119	14
2028	104	12
2029	97	11
2030	100	9
2031-2035	555	23
<b>Total</b>	<b>\$ 1,171</b>	<b>\$ 86</b>

<b>Business-Type Activities</b>						
<b>Year Ending September 30</b>	<b>Water</b>		<b>Airport</b>		<b>Star Metro</b>	
	<b>Principal</b>	<b>Interest</b>	<b>Principal</b>	<b>Interest</b>	<b>Principal</b>	<b>Interest</b>
2026	\$ 277	\$ 11	\$ 72	\$ 4	\$ 69	\$ 8
2027	290	8	37	2	72	5
2028	145	4	23	-	71	2
2029	149	3	-	-	-	-
2030	154	1	-	-	-	-
<b>Total</b>	<b>\$ 1,015</b>	<b>\$ 27</b>	<b>\$ 132</b>	<b>\$ 6</b>	<b>\$ 212</b>	<b>\$ 15</b>

**3. Regulated Leases**

The City has leasing agreements for aeronautical use of the Airport’s airfield, terminal, and other facilities as defined by the Federal Aviation Administration, which qualify to be treated as regulated in accordance with the requirements of GASB 87. The City leases land and buildings to third parties under these agreements.

**Note IV - Detailed Notes - All Funds (Continued)**

**C. Receivables (Continued)**

As of September 30, 2025, the remaining amount of expected future minimum payments under these agreements is as follows (in thousands):

<u>Year ending September 30,</u>		
2026	\$	9,829
2027		9,424
2028		1,313
2029		1,206
2030		1,241
2031-2035		6,382
2036-2040		5,368
2041-2045		3,341
2046-2050		2,979
2051-2055		1,693
	<u>\$</u>	<u>42,776</u>

Effective October 2022, the City entered into three-year lease and use agreements with its major airline tenants, (the Signatory Airline Agreements). On January 1, 2025, the Airline-Airport Use and Lease Agreement automatically extended to September 30, 2027. The agreement requires that rates for rentals, fees and charges be reviewed annually and adjusted so that the total airline revenues equal the Signatory Airline’s share of the applicable costs. Year-end settlement provisions under the agreement provide for a recalculation of rates and charges. Upon determination of any difference between the actual rentals, fees and charges paid by Signatory Airlines, the City shall return to the airlines the amount of such difference in the event of an overpayment, and in the event of an underpayment, the City will invoice the airlines for the amount of such underpayment.

Final settlements are made each year after the audit of the City’s Annual Comprehensive Financial Report. Other airlines operating at the Airport are billed at rates established by the non-signatory agreement.

The Signatory Airlines lease certain premises in the passenger terminal building. Under this agreement, all space leased is preferential. American Airlines preferentially leases terminal space, facilities on the ramp levels and gates on Concourse A. Delta Air Lines preferentially leases terminal space, facilities on the ramp levels and gates on Concourse B.

No other airlines have exclusive or preferential use of more than five (5) percent of terminal space or other areas of the Airport as of September 30, 2025. Exclusive and preferential use of space are summarized as follows:

	<b>Tallahassee International Airport Leased Terminal Space</b>					<b>Total</b>
	<u>American</u>	<u>Delta</u>	<u>Vacant</u>	<u>Joint Use</u>	<u>Other Space</u>	
Airline Leased Space (sq.ft.)	5,653	6,860	-	28,222	-	40,735

**E. Interfund Receivables, Payables, Intergovernmental Charges, and Transfers**

**1. Interfund Receivables/Payables**

At September 30, 2025, Interfund Receivables and Payables are as follows (in thousands):

<b>Fund</b>	<b>Due From</b>	<b>Due To</b>	<b>Advance To</b>	<b>Advance From</b>
General	\$ -	\$ 23	\$ -	\$ 1,154
Electric	30,000	-	3,000	3,447
Sewer	-	-	9,017	-
Airport	-	3	-	50
Stormwater	-	-	-	3,866
Nonmajor governmental	1,551	1,551	9,002	3,000
Nonmajor business-type	-	26,592	-	10,932
Internal service funds	26,618	30,000	1,430	-
	<u>\$ 58,169</u>	<u>\$ 58,169</u>	<u>\$ 22,449</u>	<u>\$ 22,449</u>

\$58,169,000 of the interfund receivables and payables balances represent amounts remaining from loans to fund operations. \$22,449,000 of these balances represent amounts loaned for capital funding.

**2. Intergovernmental Charges**

Certain functions of the City of a general and administrative nature are accounted for in internal service funds. The costs accumulated in these funds are allocated to the various funds benefited by the services via charges, which are recorded as charges for services in the internal service funds and expenses or expenditures in the benefited funds. Such costs allocated to the funds for the year ended September 30, 2025 are as follows (in thousands):

General	\$ 28,254
Electric	31,964
Gas	5,372
Sewer	13,054
Water	12,494
Airport	2,523
Stormwater management	7,771
Nonmajor business type	28,576
Nonmajor governmental type	1,433
Fiduciary type	1,169
Internal service type	12,403
<b>Total</b>	<u>\$ 145,013</u>

**Note IV - Detailed Notes - All Funds (Continued)**

**E. Interfund Receivables, Payables, Intergovernmental Charges, and Transfers (Continued)**

**3. Interfund Transfers**

Interfund transfers are made for the funding of capital projects, debt service, for subsidies of various city operations, and for reallocation of special revenues. The following schedule summarizes city transfer activity for the fiscal year ended September 30, 2025 (in thousands):

Transfers Out	Transfers In						Total
	General	Sewer	Water	Nonmajor Govt.	Nonmajor Business-Type	Internal Service Funds	
General	\$ -		\$ 213	\$ 10,637	\$ 7,636	\$ 877	\$ 19,363

**F. Lease Payables**

The City has entered into agreements to lease certain land, office and buildings, machinery, equipment and vehicles. These lease agreements qualify as other than short-term leases under GASB 87 and therefore, have been recorded at the present value of the future minimum lease payments as of their inception. The terms and conditions for these leases vary and may contain renewal options, the options are not considered in determining the lease term and associated potential option payments are excluded from the present value calculation of the right to use lease asset and the lease liability determination. The City's leases generally do not include termination options for either party to the lease or restrictive financial or other covenants. As a result of the leases, the City has recorded the right to use assets with a total net book value of \$6,535,000 for governmental activities and \$2,169,000 for business-type activities.

Payments due under the lease contracts include fixed, periodic payments over the lease terms plus, for many of the City's leases, variable, and non-lease component payments. For the City's leases, variable lease payments that depend on future performance or usage of the underlying asset and not lease components are excluded from the measurement of the lease liability and recognized as outflows of resources.

In fiscal year 2025, the City recognized \$2,129,880 in variable lease payments related to these leases. As of September 30, 2025, the City's lease payables were valued at \$9,211,000.

The future minimum lease obligations and the net present value of these minimum lease payments as of September 30, 2025, were as follows (in thousands):

Governmental Activities		
Year Ending September 30,	Principal	Interest
2026	\$ 873	\$ 285
2027	920	245
2028	318	202
2029	261	187
2030	215	176
2031-2095	4,391	2,500
Total	<u>\$ 6,978</u>	<u>\$ 3,595</u>

**G. Subscription-Based Information Technology Arrangements (SBITAs)**

The City has entered into subscription-based information technology arrangements (SBITAs). The SBITA agreements qualify as other than short-term under GASB 96 and therefore, have been recorded at the present value of the future subscription payments as of the date of their inception. Accordingly, the City’s estimated incremental borrowing rates of 3.93 percent to 4.27 percent were used to discount the SBITA payments. As a result of the subscriptions, the City has recorded the right to use assets with a total net book value of \$13,443,000. The SBITA liability balance was \$10,823,000 on September 30, 2025.

The future minimum SBITA payments as of September 30, 2025, were as follows (in thousands):

Governmental Activities		
Year Ending September 30,	Principal	Interest
2026	\$ 4,532	\$ 382

**Note IV - Detailed Notes - All Funds (Continued)**

**H. Long-Term Debt (Continued)**

*Transportation Improvement Bond is payable from and secured by a covenant to budget and appropriate a pledge of legally available non-advalorem revenues from the General Fund. In fiscal year 2025, these revenues totaled \$140,033, and current year principal and interest paid was \$993.*

\$7,994,660 Transportation Improvement Bond – Series 2019, due in annual installments ranging from \$809,990 to \$970,840 ending on May 1, 2028, at an interest rate of 2.29%. The Bond is payable from and secured by a covenant to budget and appropriate pledge of legally available non-ad valorem revenues from the General Fund. The Bond was issued to purchase 14 electric buses for the City’s mass transit bus system.

2,848

**Total Proprietary Revenue Bonds**

\$ 736,843

**Total Bonds Payable**

\$ 921,108

**Note IV - Detailed Notes - All Funds (Continued)****H. Long-Term Debt (Continued)****3. Private Placement Bonds/Direct Borrowings**

The following are all private placement bonds:

- Capital Improvement Refunding Revenue Bond, Series 2009
- Transportation Improvement Bond, Series 2019
- Capital Bonds, Series 2021
- Capital Bonds, Series 2022
- Energy System Refunding Revenue Bonds, Series 2023
- Consolidated Utility System Refunding Revenue Bonds, Series 2023

Should there be an Event of Default of these bonds, the interest rate on the applicable bond would increase to the Default Rate. If these bonds default on the debt service payments, the applicable lender has the right to require the City to pay the entire outstanding obligation of these bonds.

The borrowings identified below are the direct borrowings of the City with detailed descriptions:

**Community Redevelopment Revenue Note, Series 2020**

On December 16, 2020, the City of Tallahassee Community Redevelopment Agency executed Community Redevelopment Agency Redevelopment Revenue Note, Series 2020, which bears interest at a rate of 1.28% with annual installments ranging from \$592,208 to \$596,608 ending on January 15, 2028. The Note is payable from and secured by a covenant to budget and appropriate pledge of revenues generated from the tax increment as described in section 163.387, Florida Statutes, received annually by the Issuer and deposited into the Downtown Trust Fund, and until applied in accordance with the provisions of the Resolution No. 20-R-57, all monies, including investments thereof, in the funds and accounts established thereunder. It was issued primarily to finance the cost of acquisition of a condominium unit consisting of two floors of structured parking with two hundred fifty-two public parking spaces. The outstanding balance of this loan was \$1,735,000 as of September 30, 2025.

**Fire Improvement Revenue Note (Fire Station Project), Series 2024**

On June 26, 2024, the City executed Fire Improvement Revenue Note, Series 2024, which bears interest at a rate of 4.210% with annual installments ranging from \$185,000 to \$14,020,000 ending on April 1, 2044. The Note is payable from and secured by a covenant to budget and appropriate pledge of legally available non-ad valorem revenues. It was issued primarily to finance the cost of acquisition of a new fire station. The outstanding balance of this loan was \$26,815,000 as of September 30, 2025.

**Public Improvement Revenue Note (Senior Center Project), Series 2024**

On April 10, 2024, the City executed Public Improvement Revenue Note (Senior Center Project), Series 2024, which bears interest at a rate of 4.045% with annual installments ranging from \$950,000 to \$2,320,000 ending on April 1, 2038. The Note is payable from and secured by a covenant to budget and appropriate pledge of legally available non-ad valorem revenues. It was issued primarily to finance the cost of acquisition of a new Senior Citizens Community Center. The outstanding balance of this loan was \$24,050,000 as of September 30, 2025.

For all of the private placement bonds and direct borrowings, should the borrowings no longer be tax-exempt, the interest rate on the outstanding amount will be increased.

**5. Other Debt Considerations**

In the fiscal year, the City refunded Energy System Refunding Revenue Bonds, Series 2017, with the issuance of Energy System Refunding Revenue Bonds, Series 2025. The par amount of the Series 2017 bonds that was refunded totaled \$118,870,000, leaving a balance of \$4,900,000 that was paid from the City's debt service fund. The par amount of the 2025 bonds totaled \$108,545,000. The refunding transaction was pre-planned in the original issue and any economic benefit was included in the future debt service calculation of the Series 2025 bonds.

Also in the fiscal year, the City refunded Consolidated Utility System Revenue Bonds, Series 2018 with the issue of Consolidated Utility System Refunding Revenue Bonds, Series 2025. The par amount of the Series 2018 bonds that was refunded totaled \$36,050,000, leaving a balance of \$0. The par amount of the 2025 bonds totaled \$96,825,000. This refunding transaction was anticipated in the original issue and any economic benefit was included in the future debt service calculation of the Series 2025 bonds.

The City, as of September 30, 2025, has entered into a Master Equipment Lease/Purchase Agreement with TD Equipment Finance Inc, as the lessor. The agreement shall not exceed \$17,000,000 of aggregate principal component of Rental Payments under one or more Leases related to the Equipment entered into pursuant to the Agreement. The maximum interest rate used to determine the interest component of Rental Payments under each Lease shall not exceed 5.0% annum. The maximum term under each Lease shall not exceed 15 years.

**6. Conduit Debt Obligations**

From time to time, the City has acted as a conduit for the issuance of bonds for non-profit organizations for the acquisition, construction, and improvement of housing, educational, and medical facilities deemed to be in the public interest, and has issued Industrial Revenue bonds to provide financial assistance to private-sector entities for the acquisition and construction of industrial and commercial facilities deemed to be in the public interest. The bonds are secured by the property financed and are payable solely from payments received on the underlying loans. Upon repayment of the bonds, ownership of the acquired facilities transfers to the private-sector entity served by the bond issuance. Neither the City, the State, nor any political subdivision thereof is obligated in any manner for repayment of the bonds.

- As of September 30, 2025, there were four series of Health Facilities Revenue Refunding Bonds outstanding. The original issue amounts totaled \$357.3 million and the outstanding balance as of September 30, 2025 was \$331.2 million.
- As of September 30, 2025, there was one Florida State University School Lease Revenue Bond outstanding. The original issue amount totaled \$18.1 million and the outstanding balance as of September 30, 2025 was \$1.50 million.

**Note IV - Detailed Notes - All Funds (Continued)****H. Long-Term Debt (Continued)**

- As of September 30, 2025, there was one Industrial Revenue Bond outstanding. The original issue amount totaled \$5.4 million and the outstanding balance as of September 30, 2025 was \$4.1 million.

**I. Net Position**

The business-type fund financial statements utilize a net position presentation. Net position is categorized as net investment in capital assets, restricted or unrestricted.

**1. Net Investment in Capital Assets**

Net Investment in Capital Assets is intended to reflect the portion of net position associated with non-liquid, capital assets less outstanding capital asset related debt. Related debt includes the outstanding balances of any bonds, mortgages, notes, or other borrowings attributable to the acquisition, construction, or improvement of capital assets of the City.

**2. Restricted Assets**

Restricted Assets are subject to constraints that are either (a) externally imposed by creditors (such as debt covenants), grantors, contributors, or laws or regulations of other governments or (b) imposed by law through constitutional provisions or enabling legislation.

**3. Unrestricted Assets**

Unrestricted Assets are the portion of net position that are neither invested in capital assets nor restricted for use by a third party.

The net position shown in government-wide financial statements was changed beginning in fiscal year 2012 to comply with GASB Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions". The details of net position presentation are explained in Note IV.I. "Fund Balance" below.

**J. Fund Balance**

The City classifies governmental fund balances as follows:

Non-spendable Fund Balance - includes fund balance amounts that cannot be spent either because it is a) not in a spendable form, such as inventory or b) because it is legally or contractually required to be maintained intact.

**Spendable Fund Balance**

Restricted – fund balance amounts constrained for specific purposes that are externally imposed by providers, such as creditors, or amounts constrained due to constitutional provisions or enabling legislation.

Committed – fund balance amounts constrained for specific purposes imposed by majority vote of the City Commission.

Assigned – spendable fund balance amounts transferred from committed funds into projects or other funds under the control of the department budgeted to receive the committed funds. Budgetary control is established within each fund and department. The City Manager or designee may transfer amounts between departments within the same fund. These transfers are not specifically approved by the City Commission.

Unassigned – residual positive fund balance within the General Fund that was not classified within the categories defined above. Unassigned fund balance may also include negative balances for any governmental fund if expenditures exceed amounts restricted, committed, or assigned for those specific purposes.

The City spends restricted amounts first when both restricted and unrestricted fund balances are available unless there are legal documents/contracts that prohibit doing this, such as grant agreements requiring dollar for dollar spending. Additionally, the City would first use committed, then assigned, and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

The City Commission has established an emergency reserve policy and fund, referred to as the Deficiencies Fund, in order to meet unforeseen expenditures. The target amount per the policy is a maximum level of two (2) months of general government operating expenditures of the ensuing fiscal year's operating budget. Use of the Deficiencies

**Note IV - Detailed Notes - All Funds (Continued)****J. Fund Balance (Continued)**

Fund requires approval by the City Commission. The Deficiencies Fund is contained as a separate sub-fund within the General Fund and the balance is classified as committed fund balance within the General Fund.

A schedule of City fund balances is provided below (in thousands):

	<b>Non-Spendable</b>	<b>Restricted</b>	<b>Committed</b>	<b>Assigned</b>	<b>Unassigned</b>	<b>Total</b>
<b>General Fund</b>

**Note V - Other Information**

**A. Outstanding Contracts**

The City has outstanding commitments on various contracts for construction and other projects. These commitments, as of September 30, 2025, in the respective funds are as follows (in thousands):

General Fund	\$	3,011
Electric		25,120
Gas		1,665
Sewer		18,782
Stormwater Management		5,493
Water		7,259
Airport		26,820
Nonmajor Governmental		55,560
Nonmajor Enterprise		20,204
Internal Service Funds		16,774
Total	\$	<u>180,688</u>

Long-term purchase contract obligations for the purchase of gas and energy are disclosed in Note V.E. Long-term contracts are not included in the above outstanding commitment balances.

**B. Risk Management Program**

The risk management program is completely self-insured for General Liability, Employment Practice Liability and Auto Liability claims. General and automobile liability losses are statutorily limited by sovereign immunity of \$200,000 per person and \$300,000 per accident. For Fiscal years 2023, 2024 and 2025, there have not been any claims that exceeded the sovereign immunity limits. The risk management program purchases coverage for Worker’s Compensation claims and certain other coverages including Aviation liability coverage, specialized policies for police and fire statutory death benefits, and a policy providing lump sum benefits for firefighter cancer claims. The Worker’s Compensation retention is \$1,250,000; however, beginning in fiscal year 2024, this retention was increased to \$1,500,000. These losses are self-insured up to the proceeding amounts and any losses above this are insured through an excess policy. The City’s buildings and contents are covered by two property insurance policies: one for municipal locations and one for utility locations, both with varying deductibles. During FY25, the City purchased a Builder Risk policy for the construction of the new Tallahassee Police Department headquarters. The policy term will run through May 2027. For exposures where the City does purchase commercial insurance, there have not been any claims that exceeded the coverage limits in fiscal years 2023, 2024 or 2025.

The Risk Management Fund, which is classified as an internal service fund, is responsible for collecting premiums from all of the departments for both self insured and commercial programs, paying claim settlements on the self insured claims and procuring commercial insurance. Claims settlements and loss expenses are reserved for the expected value of the known losses and for estimated incurred but not reported losses (IBNRs).

Annually, as of September 30, the program has a third-party actuary review the claim history for all claim years for which open self-insurance claims are outstanding. The actuary projects the ultimate claim payment obligation (including the IBNRs) for each year’s claim experience and projects the new year’s probable loss fund cost and a discounted alternative. The City elected to establish the liability at the discounted value (2.0%).

Changes in the balances of self-insured claims for the years ending September 30, 2025 and 2024 are as follows (in thousands):

		2025	2024
Unpaid claims - October 1 (including IBNRs)	\$	15,690	\$ 19,097
Expenses		404	1,755
Claim payments		(3,148)	(5,162)
Unpaid claims - September 30 (including IBNRs)	\$	<u>12,946</u>	<u>\$ 15,690</u>

**Note V - Other Information (Continued)**

**C. Litigation**

The City is involved in pending lawsuits. The City Attorney estimates that the potential claims against the City not covered by insurance resulting from litigation would not materially affect the financial position of the City.

**D. Federal and State Grants**

The City has received numerous federal and state grants that are subject to financial and compliance audits made in accordance with the Office of Management and Budget uniform administrative requirements, cost principles and audit requirements.

Certain grants, such as the Community Development Block Grant, HOME grant, State Housing Initiatives Partnership (SHIP), and others, provide for the issuance of loans to qualifying individuals or non-profit entities. Loans to individuals include down payment assistance loans that are not repaid unless certain events occur, such as the sale or refinancing of a purchased home within a certain time period. Loans to non-profit entities are sometimes only payable if the entity has sufficient annual cash flow, or may be forgiven by the City Commission to prevent economic hardship for the entity. Since repayment of these loans is contingent upon various factors, the loans are not reported in the financial statements. As of September 30, 2025, the contingent loans for Special Projects totaled \$4.3 million. The contingent down payment assistance loan balance for SHIP totaled \$1.7 million.

**E. Long-Term Contracts**

The City acquires natural gas and power through a combination of short, medium and long-term contracts. The City currently has 8 long-term natural gas “prepay” contracts discounted from an index: 1) 20-Year contract with Tennessee Energy Acquisition Corporation (TEAC); 2) 30-Year contract with TEAC ending in 2048; 3) 30-year contract with Blackbelt Energy ending in 2048; 4) TEAC 30-year contract ending in 2052; 5) Municipal Gas Authority of Georgia (MGAG)/Citadel 30-year contract ending in 2052; 6) MGAG/Citibank 30-year contract ending in 2052; 7) SEA/Morgan Stanley 30-year contract ending in 2052; and 8) SEA/J. Aron 30-year contract ending in 2053. These contracts save the City \$6.2 million each year through 2053. The City also uses financial instruments to hedge natural gas for future periods. On October 9, 2025, the City hedged approximately 75% of the City’s natural gas needs through FY 2026. Because the natural gas hedged took place after September 30, 2025, their valuations are not accounted for in this document. The City’s obligation for financial hedges is limited to the difference between the hedge price and market price. The City is not obligated to purchase the underlying gas supply. Energy contracts are managed and monitored by the City’s Energy Services Department. Revenues from customers through the Energy Cost Recovery Clause (ECRC) and the Purchased Gas Recovery Clause (PGRC) are designed to recover the costs incurred by these purchase commitments.

The City engages in the wholesale power markets on a short-term and long-term basis to buy or sell power when market prices are more economical than native generation. The City participates daily in the power markets for short-term opportunities to deliver the lowest cost power to our customers. The City continuously evaluates long-term purchase or sales offers through our internal planning process. The City has two Purchased Power Agreements (PPA) for solar energy. The first 20 MW of solar started in the fall of 2017 and the second 40 MW solar contract started in December of 2019. Each of these contracts are for 20 years with option clauses to either purchase or extend their terms. These contracts are managed and monitored by the City’s Energy Services Department and Electric Utility. The following is a schedule, by years, of approximate minimum future purchase commitments on long-term purchase contracts as of September 30, 2025 (in thousands):

Years ending September 30,	Gas Contracts	Energy Contracts (including Solar PPA)	Total
2026	\$ 54,919	\$ 5,593	\$ 60,512
2027	61,926	5,813	67,739
2028	59,945	6,068	66,013
2029	58,045	6,307	64,351
2030	56,061	6,554	62,615
Thereafter	1,337,266	65,169	1,402,435
Total	<u>\$ 1,628,162</u>	<u>\$ 95,504</u>	<u>\$ 1,723,665</u>

**Note V - Other Information (Continued)**

**F. Pension Plan Obligations**

The City of Tallahassee sponsors and administers two pension plans, established by Chapter 14 of the City Code of Ordinances. There is one defined benefit plan and one defined contribution plan comprised of the following:

<u>Name</u>	<u>Type</u>
General Employees Group (Article II)	Cost-sharing multiple-employer, defined benefit
Police Officers Group (Article III)	Cost-sharing multiple-employer, defined benefit
Firefighters Group (Article IV)	Cost sharing multiple-employer, defined benefit
Matched Annuity Pension Plan (Article V)	Multiple-employer, defined contribution

The plans are administered by the City of Tallahassee Treasurer-Clerk’s Office, under guidance from the plans’ Board of Trustees, which is composed of the members of the City Commission and one City police officer or firefighter. The City police officer or firefighter is elected by a majority of the police officers and firefighters who are members of the plans. The City’s general employee defined benefit provision and defined contribution provision is also provided for the employees of Blueprint Intergovernmental Agency (Blueprint), the Capital Region Transportation Planning Agency (CRTPA) and the Consolidated Dispatch Agency (CDA). Blueprint is a jointly governed organization, while CRTPA and CDA are both joint ventures. The defined benefit provision for police officers and firefighters is provided only for City employees. All accumulated plan assets of the defined benefit plan are available to pay any benefit to any plan member or beneficiary.

Although the City of Tallahassee administers one cost-sharing multiple-employer defined benefit pension plan, separate (sub) actuarial valuations are prepared to determine the actuarial determined contribution rate by group.

At September 30, 2025, the City reported a liability of \$129,850,000 for its share of the net pension liability of the defined benefit plan which was determined using a measurement date of September 30, 2024. The allocation of the net pension liability of the plan was made based on covered payroll for each employer. The City’s proportion for the current year is 98.17%, which is up by 0.84% from 97.33% in the prior year. The total pension liability was determined by an actuarial valuation as of October 1, 2023 rolled forward to September 30, 2024.

The aggregate amount of net pension assets, liabilities, related deferred inflows and outflows of resources, and pension expense for the City’s defined benefit pension plan are summarized as follows:

<u>Plan Obligations and Expenses (in thousands):</u>	<u>General Employees -</u>			<u>Total Primary</u>	<u>Component</u>
	<u>City</u>	<u>Police Officers</u>	<u>Firefighters</u>	<u>Government</u>	<u>Unit</u>
Net Pension Liability	\$ 38,979	\$ 57,016	\$ 33,827	\$ 129,822	\$ 28
Pension Related Deferred Outflows	72,873	33,970	16,553	123,396	68
Pension Related Deferred Inflows	(53,614)	(18,466)	(13,860)	(85,940)	(33)
Pension Expense	\$ 9,095	\$ 7,708	\$ 2,136	\$ 18,939	\$ 5

The 2025 membership statistical information is as follows:

	<u>General Employees</u>	<u>Police Officers</u>	<u>Firefighters</u>	<u>Total</u>
Retirees and beneficiaries of deceased retirees currently receiving benefits	2,056	364	263	2,683
Terminated employees entitled to benefits but not yet receiving benefits	283	36	14	333
Active Employees	2,081	326	258	2,665

**Note V - Other Information (Continued)**

**F. Pension Plan Obligations (Continued)**

The defined benefit and defined contribution provisions are reported separately in the financial statements. The City of Tallahassee does not issue a stand-alone financial report for the Plan. The provisions of the Plan are “qualified” under the Internal Revenue Service Code and employee contributions are tax deferred.

**1. Defined Benefit Provision**

The Plan is established for all three programs in Chapter 14 of the City Code of Ordinances, through Parts A, B, C and D in Article II for general employees with Parts A, B and C closed to new participants. Effective April 1, 2013, the City Commission approved changes to the City’s General Employees’ Pension Plan creating Part D participants. Part D provides coverage to all new employees hired after that date. For police officers and firefighters, Article III and IV, respectively, Parts A and B are closed to new participants while Parts C and D provide coverage to all new employees. All members of the Plan are covered by one of these parts depending upon employment date. These parts provide a detailed description of the various defined benefit provisions. These provisions include the types of employees covered, benefit provisions, employee eligibility requirements for normal, early and/or vested retirements, and the related benefits of these retirements, pre-retirement death benefits, and provisions for disability retirements. There are also post retirement cost-of-living adjustments (COLA) and health care supplements.

	General Employees		Police Officers		Firefighters	
	Part C-Employees hired prior to April 1, 2013	Part D-Employees hired after April 1, 2013	Part C-Employees hired prior to October 1, 2021	Part D-Employees hired after October 1, 2021	Part C-Employees hired prior to October 1, 2017	Part D-Employees hired after October 1, 2017
Normal Retirement Benefits:						
Age	62 (or 30 years of Credited Service, regardless of age)	65 (or 33 years of Credited Service, regardless of age)	55 (or 25 years of Credited Service, regardless of age)	55 (or 25 years of Credited Service, regardless of age)	55 (or 25 years of Credited Service, regardless of age)	55 (or 25 years of Credited Service, regardless of age)
Years of Credited Service (minimum)	5	5	5	10	5	10
Average Final Compensation (AFC)	Higher of: 1) final 3 yrs; 2) any consecutive 3 yrs - 1/1987 to 12/2005, escalated by 3%; or 3) any consecutive 3 yrs during 1/1987 to the date of retirement. **F. Pension Plan Obligations (Continued)**

Net Pension Liability - The total pension liability of the plan was determined by an actuarial valuation as of October 1, 2024, rolled forward to September 30, 2025. The net pension liability was also determined using a date of September 30, 2025. The components of the net pension liability of the participating employers in the general employees, police officers and firefighters groups as of September 30, 2025 were as follows (in thousands):

	<b>General Employees</b>	<b>Police Officers</b>	<b>Firefighters</b>
Total pension liability	\$ 1,636,600	\$ 525,589	\$ 346,645
Plan fiduciary net position	1,651,460	482,544	323,985
Net pension (asset)/liability	(14,860)	43,045	22,660
Plan fiduciary net position as a % of total pension liability	100.91%	91.81%	93.46%
City's proportion of the net pension asset/liability	94.25%	100.00%	100.00%

The City's Proportionate share of the General Employees' Pension group is based on the covered payroll and it increased from 94.16% in 2024 to 94.25% in 2025.

The total pension liability was determined by an actuarial valuation as of October 1, 2024, using the following significant actuarial assumptions applied to all periods included in the measurement: The actuarially determined contribution rates are calculated as of October 1 which is two years prior to the end of the fiscal year in which contributions are reported. The actuarially determined contribution is projected to the contribution year using conventional actuarial projection methods.

The assumptions used in determining the total pension liability are as follows:

	<b>General Employees</b>	<b>Police Officers</b>	<b>Firefighters</b>
Valuation Date	October 1, 2024	October 1, 2024	October 1, 2024
Actuarial Cost Method	Entry age, normal	Entry age, normal	Entry age, normal
Amortization Method	Level percentage, closed	Level percentage, closed	Level percentage, closed
Remaining Amortization Period	26 years	26 years	26 years
Asset Valuation Method	20% of the difference between expected actuarial value and fair value is recognized annually with a 20% corridor around fair value	20% of the difference between expected actuarial value and fair value is recognized annually with a 20% corridor around fair value	20% of the difference between expected actuarial value and fair value is recognized annually with a 20% corridor around fair value
Inflation rate	2.50%	2.50%	2.50%
Salary Increase	A range of 2.95 to 5.0% based on years of service	A range of 4.5 to 6.4% based on years of service	A range of 4.4 to 5.75% based on years of service
Investment rate of return	7.25%	7.25%	7.25%
Mortality Rate:	The mortality tables used are the same as those used in the July 1, 2023 Pension Actuarial valuation of the Florida Retirement System (FRS) for Regular (other than K-12 School Instructional Personnel) members. These tables are based on the Pub-2010 mortality tables with mortality improvements projected for healthy lives to all future years after 2010 using Scale MP-2018.	The mortality tables used are the same as those used in the July 1, 2023 Pension Actuarial valuation of the Florida Retirement System (FRS) for Special Risk members. **Note V - Other Information (Continued)**

**F. Pension Plan Obligations (Continued)**

Investments - Plan assets are managed in accordance with the Pension Investment Policy. The table below presents the adopted asset allocation as of September 30, 2025.

Asset Class	<b>Target Allocation Percentage</b>	<b>Long-Term Expected Real Rate of Return</b>
Domestic Equity	35.5	8.1
International Equity	9.0	8.5
Emerging Markets Equity	4.0	10.2
Fixed Income	16.5	2.1
Real Estate	15.0	5.6
Private Equity	7.5	12.1
Private Credit	7.5	7.0
Timber	5.0	4.9
<b>Total</b>	<b>100.0</b>	

The Plan’s investments are managed by various investment managers under contract with the Boards who have discretionary authority of the assets managed by them and within the Plan’s investment guidelines as established by the Board. The investments are held in trust by the Plan’s custodian in the Plan’s name. The City of Tallahassee Sinking Fund Commission is responsible for making investment policy changes. These assets are held exclusively for the purpose of providing benefits to members of the Plan and their beneficiaries.

For the year ended September 30, 2025, the annual money-weighted rate of return on the General Employees, Police Officers, and Firefighters pension plan investments, net of investment expense, was 10.2%. The money-weighted rate of return takes into account cash flows into and from the various investments of the Plan.

The long-term expected arithmetic rate of return on pension plan investment is based upon an asset allocation study that was conducted for the Plan by its investment consultant toward the end of fiscal year 2022. The study was prepared by the Pension Plan’s investment consultant, and went through numerous iterations before a final asset allocation was established. The study looked at expected rates of return for twenty-one (21) different asset classes, as well as examining expected standard deviations and correlations among these various asset classes.

*Discount Rates* – The discount rates used to measure the total pension liability of the Plans are indicated below. This single discount rate was based on the expected rate of return on pension plan investments of 7.25%. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between the total actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments (7.25%) was applied to all periods of projected benefits payments to determine the total pension liability.

The discount rates as of September 30, 2025 were consistent with 2024 as follows:

<u>General Employees</u>	<u>Police Officers</u>	<u>Firefighters</u>
7.25%	7.25%	7.25%

**Note V - Other Information (Continued)**

**F. Pension Plan Obligations (Continued)**

The following presents the Plan's net pension liability, calculated using a single discount rate of 7.25%, as well as what the plan's net pension liability would be if it were calculated using a single discount rate that is 1-percentage point lower or 1-percentage point higher:

Sensitivity of the Net Pension (Asset) Liability to the Single Discount Rate Assumption (in thousands) as of the Plan year-end of September 30, 2025:

	<b>1% Decrease 6.25%</b>	<b>Current Single Discount Rate 7.25%</b>	<b>1% Increase 8.25%</b>
General Employees	\$ 193,186	\$ (14,860)	\$ (186,485)
Police Officers	111,530	43,045	(13,274)
Firefighters	66,305	22,660	(13,450)

The following presents the City's net pension liability (using a measurement date of September 30, 2024), calculated using a single discount rate of 7.25%, as well as what the City's net pension liability would be if it were calculated using a single discount rate that is 1-percentage point lower or 1-percentage point higher.

	<b>1% Decrease 6.25%</b>	<b>Current Single Discount Rate 7.25%</b>	<b>1% Increase 8.25%</b>
Primary Government-General Employees	\$ 230,644	\$ 38,979	\$ (119,074)
Primary Government-Police Officers	123,747	57,016	2,179
Primary Government-Firefighters	76,507	33,827	(1,449)
Primary Government-Component Unit	166	28	(86)

*Pension Expense and Deferred Outflows (Inflows) of Resources Related to Pensions* - In accordance with GASB 68, paragraphs 54 and 71, changes in the net pension liability are recognized as pension expense in the current measurement period, except as shown below. For each of the following, a portion is recognized in pension expense in the current measurement period, and the balance is amortized as deferred outflows or inflows of resources using a systematic and rational method over a closed period, as defined below:

- Differences between expected and actual experience with regard to economic and demographic factors which are amortized over the average expected remaining service life of all employees that are provided with pensions through the pension plan, both active and inactive.
- Changes of assumptions or other inputs which are amortized over the average expected remaining service life of all employees that are provided with pensions through the pension plan, both active and inactive.
- Changes in proportion and differences between contributions and proportionate share of contributions which are amortized over the average expected remaining service life of all employees that are provided with pensions through the pension plan, both active and inactive.
- Differences between expected and actual earnings on pension plan investments are amortized over five years.

**Note V - Other Information (Continued)****F. Pension Plan Obligations (Continued)**

General Employees – Plan - For the year ended September 30, 2025, the general employees pension plan recognized pension expense of \$9,508,000 for the plan. At September 30, 2025, the plan reported deferred outflows of resources and deferred inflows of resources related to the general employee pension plan from the following sources (in thousands):

	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Differences between expected and actual experience	\$ 34,484	\$ (28)
Assumption changes	15,411	(2,037)
Change in Net Pension Liability due to Change in Cost-Sharing Allocation Percentages	854	(854)
Net difference between projected and actual earnings on pension plan investments	-	(54,474)
Contributions after measurement date	26,938	-
Total	<u>\$ 77,687</u>	<u>\$ (57,393)</u>

Deferred outflows of resources related to the general employee pension plan of \$26,938,000 resulting from City contributions to the plan paid subsequent to the measurement date and prior to the City's reporting period will be recognized as a reduction of net pension liability in the fiscal year ended September 30, 2026. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in future pension expense, as follows:

<b>Year Ending September 30,</b>	<b>Net Amount (in thousands)</b>
2026	\$ (15,105)
2027	31,197
2028	(7,686)
2029	(15,050)
Total	<u>\$ (6,644)</u>

General Employees – City – For the year ended September 30, 2025, the City recognized pension expenses of \$8,696,000 for its proportionate share of the general employees pension plan. At September 30, 2025, the City and its component unit reported deferred outflows of resources and deferred inflows of resources related to the general employee pension plan from the following sources (in thousands):

	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Difference between expected and actual experience	\$ 32,503	\$ (25)
Assumption changes	14,604	(1,930)
Net difference between projected and actual experience on pension investments	-	(51,037)
Change in Net Pension Liability due to change in cost sharing allocation percentage	65	(655)
Contributions after measurement date	25,769	-
Total	<u>\$ 72,941</u>	<u>\$ (53,647)</u>

Deferred outflows of resources related to the general employee pension plan of \$25,769,000, resulting from City contributions to the plan paid subsequent to the measurement date and prior to the City's reporting period, will be recognized as a reduction of the net pension liability in the fiscal year ended September 30, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the plan pension expense will be recognized in future pension expenses as follows:

**Note V - Other Information (Continued)**

**F. Pension Plan Obligations (Continued)**

Year Ending September 30,	Net Amount (in thousands)
2026	\$ (14,332)
2027	29,525
2028	(7,355)
2029	(14,313)
Total	<u>\$ (6,475)</u>

Police officers - For the year ended September 30, 2025, the police officers pension plan recognized pension expense of \$7,708,000. At September 30, 2025, the City reported deferred outflows of resources and deferred inflows of resources related to the police officers employee pension plan from the following sources (in thousands):

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 19,038	\$ -
Net difference between projected and actual earnings on pension plan investments	-	(15,344)
Assumption Changes	5,034	(3,122)
Contributions after measurement date	9,898	-
Total	<u>\$ 33,970</u>	<u>\$ (18,466)</u>

Deferred outflows of resources related to the police officers pension plan of \$9,898,000, resulting from City contributions to the plan paid subsequent to the measurement date and prior to the City's fiscal year, will be recognized as a reduction of the net pension liability in the fiscal year ended September 30, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the plan pension expense will be recognized in future pension expenses, as follows:

Year Ending September 30,	Net Amount (in thousands)
2026	\$ (4,010)
2027	10,213
2028	282
2029	(1,764)
2030	885
Total	<u>\$ 5,606</u>

Firefighters - For the year ended September 30, 2025, the firefighters pension plan recognized pension expense of \$2,136,000. At September 30, 2025, the City reported deferred outflows of resources and deferred inflows of resources related to the firefighters pension plan from the following sources (in thousands):

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 5,481	\$ (253)
Net difference between projected and actual earnings on pension plan investments	-	(10,376)
Assumption Changes	3,912	(3,231)
Contributions after measurement date	7,160	-
Total	<u>\$ 16,553</u>	<u>\$ (13,860)</u>

**Note V - Other Information (Continued)**

**F. Pension Plan Obligations (Continued)**

Deferred outflows of resources related to the firefighters pension plan of \$7,160,000, resulting from City contributions to the plan paid subsequent to the measurement date and prior to the City’s reporting period, will be recognized as a reduction of the net pension liability in the fiscal year ended September 30, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the plan pension expense will be recognized in future pension expenses, as follows:

Year Ending September 30,	Net Amount (in thousands)
2026	\$ (5,070)
2027	3,485
2028	(1,994)
2029	(2,554)
2030	1,286
Thereafter	380
Total	<u>\$ (4,467)</u>

**2. Defined Contribution Provision**

All employees (general, firefighters, and police officers) may elect to contribute a portion of their salary to the Plan. General employees, firefighters and police officers can contribute up to but not to exceed the maximum amount allowed by the Internal Revenue Service. Each employer contributes 5% to each general employee’s Matched Annuity Plan (MAP) account. Upon reaching normal retirement age or retiring under the Plan, a participant shall be paid their and the City’s contributions, together with accrued earnings. If a general employee uses the contributions and accrued earnings to receive an annuitized payment stream, the Plan will increase the amount of funds (only on the employer’s 5%, employee flex matched contribution and employees’ contribution up to the 5%) used by the participant by a factor of 50%. Employee contributions (including the City’s 5% contribution to each general employee’s MAP account) plus accrued earnings thereon are 100% refundable if the employee elects to terminate their vesting rights or is not vested at the date of employment termination. For the year ended September 30, 2025, the contributions and forfeitures to the MAP account totaled \$1,238,923 and \$407,793 respectively.

**F. Pension Plan Obligations (Continued)**

**5. Supplemental Plans**

The City of Tallahassee Supplemental Share Plans for Firefighters and Police Officers were created in 2000 by Sections 14-9.010 and 14-8.010, City Ordinances. Both Plans are defined contribution pension plan covering all full-time Firefighters and Police Officers of the City of Tallahassee. Participation in the Plans are required as a condition of employment. The Plans provide for additional and supplemental pension, death and disability benefits. In addition, the Plans are local law plans subject to provisions of Chapters 175 and 185 of the State of Florida Statutes.

The Plans are each governed by a five-member pension board. The Fire Supplemental Share Plan members include two Firefighters, two City residents and a fifth member elected by the other four members of the board. The Police Supplemental Share Plan members include two Police Officers, two City residents and a fifth member elected by the other four members of the board.

Contributions to the Plans are the Florida Excise Tax Rebate monies received from the State of Florida pursuant to Florida Statutes Chapters 175 and 185. Participants may not make voluntary contributions to the Plans. The total additions to each participant’s account cannot exceed \$55,000 or 100 percent of each participant’s compensation.

Each participant’s account is credited with an allocation of the Florida Excise Tax Rebate payment to and among those participants that are entitled on the first day of each plan year. The payments are allocated equally among the total shares of the participants with the number of shares allocated to each participant’s account in accordance with the following schedule:

Years of credited service	Number of Shares
5 or more, but less than 10	1
10 or more, but less than 15	2
15 or more, but less than 20	3
20 or more, but less than 31	4
31 years or more	5

The Florida Excise Tax Rebate payment for each Plan is sent directly to the City of Tallahassee and is deposited into the City’s bank account. Based on the total amount of shares to be distributed to each participant’s account, the City transfers the money received to Empower, a third-party administrator who administers the investments for the Plans. A small portion of the money is held by the City and is included in the City’s cash and investment pool that is available for use by the Plans’ Board of Trustees for administrative and operational expenses. These Plans are not included in the City’s financial statements. The Plans’ financial statements are audited by Saltmarsh, Cleaveland & Gund and a copy of the statements can be obtained by contacting [Saltmarshcpa.com](http://Saltmarshcpa.com).

**G. Other Employee Benefits**

**1. Deferred Compensation**

The City of Tallahassee offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all City employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency.

In December 1998, the City established a Trust Agreement where all assets and income of the City Deferred Compensation Plan are held in trust for the exclusive benefit of City employees, in accordance with Internal Revenue Code Sections 457 (b) and (g). Thus, plan assets are no longer subject to the claims of the City’s general creditors.

**2. Flexible Benefits**

The City has implemented a “Cafeteria” Plan created in accordance with Internal Revenue Code Section 125. The plan provides employees with an opportunity to select benefits from a menu of options, many of which are offered on a pre-tax basis.

**Note V - Other Information (Continued)**

**H. Other Post Employment Benefits (OPEB)**

**1. OPEB Plan Description**

The City administers a cost sharing multi-employer, defined benefit other post employment benefits plan, The City of Tallahassee Retiree Medical Insurance Plan (OPEB Plan). The OPEB Plan provides health insurance and prescription drug coverage for eligible retirees and their eligible dependents through the City’s health insurance program, which covers both active and retired employees. Pursuant to Section 112.0801, Florida Statutes, the City is required to permit participation in the health insurance program by retirees and their eligible dependents at a cost to the retiree that is no greater than the cost at which coverage is available for active employees. In addition, the City’s program has elected to provide a partial subsidy to its retirees to offset the cost of such health insurance. The City does not issue a stand-alone financial report on the OPEB Plan.

The OPEB Plan is established by City Commission Policy 150. To aid in the administration of the OPEB Plan, the City of Tallahassee created the Retiree Medical Trust (RMI Trust) in January 2010, the provisions of which are in Article VII of Chapter 2 of the City Code of Ordinances. The plan provides health insurance and prescription drug coverage for eligible retirees and their eligible dependents through the City’s health insurance program, which covers both active and retired employees.

The OPEB Plan and the RMI Trust are administered by the City of Tallahassee Treasurer-Clerk’s Office, under guidance from the Plan’s Board of Trustees, which is composed of the members of the City Commission and the chairperson of the general employees’ pension advisory committee. The City of Tallahassee does not issue a stand-alone financial report for the RMI Trust. The OPEB plan is also provided for the employees of the Blueprint Intergovernmental Agency (Blueprint), a jointly governed organization, and the Capital Regional Transportation Planning Agency, a joint venture. There are no required member contributions into the Trust and there were none in the year. For the year ended September 30, 2025, the actuarially determined contribution for the City was \$5,144 and the City contributed \$2,556.

At September 30, 2025, the City reported a liability of \$64,263 for its share of the net OPEB liability of the OPEB plan, which was determined using a valuation date of September 30, 2023, and which was rolled forward using standard actuarial roll forward procedures to the measurement date of September 30, 2024. The allocation of the net OPEB liability of the plan was made based on covered employee payroll for each employer. The City’s proportion for the current year is 98.42%, which is down by 0.06% from 98.48% in the prior year. The aggregate amounts of net OPEB liabilities, related deferred inflows and outflows of resources and OPEB expenses reported by the City for the OPEB plan at September 30, 2025 are summarized as follows:

OPEB Plan Obligations and Expenses	Primary Government	DIA (Component Unit)	Total (in thousands)
Net OPEB Liability	\$ 64,160	\$ 103	\$ 64,263
OPEB Related Deferred Outflows	18,663	17	18,680
OPEB Related Deferred Inflows	(21,215)	(21)	(21,236)
OPEB Expenses	(18,556)	(12)	(18,568)

OPEB Plan membership at September 30, 2024 was as follows:

Inactive Members or Beneficiaries	
Currently Receiving Benefits	1,353
Active Members	2,923
Total Members	4,276

**Note V - Other Information (Continued)**

Benefits - A member receives a reduced rate on the health insurance premium for the City's health insurance plan. All reduced rate premiums will be deducted from the retiree's pension benefit. If the health insurance premium exceeds the pension benefit amount, the member will pay the City for the difference. The following tables provide the amounts of the City's monthly retiree subsidy that reduces the member's health insurance premium, which were established by Resolution 11-R-04, effective January 1, 2011: capped as of this date. Therefore, no change is needed for the table below.

<u>Retiree with No Medicare Coverage</u>	<b>Monthly Subsidy Amount</b>
Individual	\$ 174.88
Two-Party	315.71
Three or More	443.22

<u>Retiree with Medicare CHP* Coverage</u>	<b>Monthly Subsidy Amount</b>
Individual	\$ 37.78
Two-Party(Both Medicare)	71.74
Two-Party (One Medicare)	183.40
Family (One or two Medicare)	298.82

<u>Retiree with Medicare BCBS** Coverage</u>	<b>Monthly Subsidy Amount</b>
Individual	\$ 159.78
Two-Party(Both Medicare)	336.07
Two-Party (One Medicare)	336.07
Family (One or two Medicare)	463.39

\* Capital Health Plan \*\*Blue Cross/Blue Shield

Eligibility - A member may continue on the City's health insurance plan upon retirement if the member is drawing a pension for Normal Retirement, Early Retirement or Disability Retirement. The retiree may continue to cover any qualified dependents that were on the City's health insurance plan at the time of retirement. If the retiree's spouse or domestic partner is an active permanent City employee, the member may choose to be covered under the spouse's or domestic partner's insurance coverage. When the spouse or domestic partner retires and begins to draw a pension, both individuals will be covered as retirees under the City's health insurance policy.

A member who is a Deferred Retiree (eligible to retire upon termination but chooses to defer the commencement of a pension benefit) may choose to remain on the City's health insurance plan and pay the unreduced health insurance premium until the commencement of a pension benefit. A Deferred Retiree may also choose to terminate health insurance coverage and be allowed to rejoin the City's health insurance plan upon commencement of a pension benefit and pay the reduced health insurance premium if they are able to prove they maintained continuous health insurance coverage during the period between terminating from the City's health insurance plan and when they rejoined the City's health insurance plan.

A Long-Term Vested Participant (10 years or more service time in the City's pension plan, but not yet eligible to receive a pension benefit) may choose to remain on the City's health insurance plan at their expense. The Participant will be required to pay the unreduced health insurance premium cost until the Participant retires. If the Participant chooses to terminate the City's health insurance coverage, the Participant will no longer be eligible to participate in the OPEB Plan.

A surviving spouse of a deceased retiree may continue or join the City's health insurance plan only if the deceased retiree was enrolled in the City's health insurance plan at the time of death. The surviving spouse may join the OPEB Plan without being subject to the evidence of insurability requirements. The surviving spouse may cover any qualified dependents.

**Note V - Other Information (Continued)**

**H. Other Post Employment Benefits (OPEB) (Continued)**

**2. OPEB Plan Investments**

Due to its small size, there is not a separate investment policy specifically for the assets of the RMI Trust. Chapter 2 of the Municipal Code provides that the RMI Trust invests in instruments similar to those invested in by the City's Pension Fund. There were no significant changes to the investment of the RMI Trust assets during Fiscal Year 2025. Investments in various index funds are each more than 5% of the RMI Trust's position. The estimated annual money-weighted rate of return, net of investment expenses, was 10.92%.

GASB Statement No. 74 includes a specific requirement for the discount rate that is used for the purpose of the measurement of the Total OPEB Liability. This rate considers the ability of the fund to meet benefit obligations in the future. To make this determination, employer contributions, employee contributions, benefits payments, expenses and investment returns are projected into the future. The Plan Net Position (assets) in future years can then be determined and compared to its obligation to make benefit payments in those years. As long as assets are projected to be on hand in a future year, the assumed valuation discount rate is used. In years where assets are not projected to be sufficient to meet benefit payments, the use of a municipal bond rate is required, as described in the following paragraph.

The Single Discount Rate (SDR) is equivalent to applying these two rates to the benefits that are projected to be paid during the different time periods. The SDR reflects (1) the long-term expected rate of return on OPEB plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits) and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of this valuation, the expected rate of return on OPEB plan investments is 7.25%; the municipal bond rate is 4.90%; and the resulting Single Discount Rate is 5.17%.

**3. Net OPEB Liability for the Plan year-end**

The total OPEB liability was rolled forward twenty four months from the valuation date of September 30, 2023 to September 30, 2025. The net OPEB liability was also determined using a date of September 30, 2025. The components of the net OPEB liability of the participating employers in the City of Tallahassee OPEB plan as of September 30, 2025 were as follows (in thousands):

Total OPEB liability	\$	74,152
Plan fiduciary net position		20,044
Net OPEB liability		54,114
Plan fiduciary net position as a % of total OPEB liability		27%

**Note V - Other Information (Continued)**

The total OPEB liability and contribution rates were determined by an actuarial valuation as of September 30, 2023. The total OPEB liability was rolled forward one year. The significant assumptions used were as follows:

<b>Actuarial Cost Method</b>	<b>Entry Age Normal</b>
Normal Inflation	2.50%.
Discount Rate	5.17%, the resulting Single Discount Rate based on the expected rate of return on OPEB Plan investments as of September 30, 2024 at 7.25% and the long term municipal bond rate as of September 30, 2024 at 4.90%.
Salary Increases	2.95% to 6.40%, including inflation; varies by plan type and years of service.
Retirement Age	Experience based table of rates that are specific to the plan and type of eligibility condition.
Mortality	Mortality tables used in the July 1, 2022 actuarial valuation of the Florida Retirement System (FRS). They are based on the results of a statewide experience study covering the period 2013 through 2018. These rates were taken from adjusted Pub-2010 mortality tables published by SOA with generational mortality improvements using Scale MP-2018.
Healthcare Cost Trend Rates	Based on the Getzen Model, with trend starting at 5.90% for 2024 (based on actual premium increases), followed by 6.00% for 2025, and then gradually decreasing to an ultimate trend rate of 4.00%.
Aging factors to Death Expenses	Based on the 2013 SOA Study "Health Care Costs - From Birth to Death"
Expenses	Investment returns are net of the investment expenses; and, administrative expenses are included in the per capita health costs.
Notes	The following assumption changes have been reflected in the schedule of Changes in the Total OPEB Liability for the measurement period ending September 30, 2024: The Single Discount Rate was changed from 4.03% to 5.17%. There were no benefit changes during the year.

Sensitivity of Net OPEB Liability to changes in the Single Discount Rate – The following presents the plan’s net OPEB liability, calculated using a Single Discount Rate of 5.17%, as well as what the plan’s net OPEB liability would be if it were calculated using a Single Discount Rate that is one percent lower or one percent higher (in thousands):

	<b>1% Decrease 4.17%</b>	<b>Current Single Discount Rate Assumption 5.17%</b>	<b>1% Increase 6.17%</b>
Plan	\$ 61,637	\$ 54,115	\$ 47,690

The following presents the City’s net OPEB liability (using a measurement date of September 30, 2024), calculated using a single discount rate of 4.03%, as well as what the City’s net pension liability would be if it were calculated using a single discount rate that is one percent lower or one percent higher (in thousands):

	<b>1% Decrease 3.03%</b>	<b>Current Single Discount Rate Assumption 4.03%</b>	<b>1% Increase 5.03%</b>
Primary Government	\$ 73,249	\$ 64,160	\$ 56,494
Primary Government - Component Unit	118	103	91
<b>Total</b>	<b>\$ 73,367</b>	<b>\$ 64,263</b>	<b>\$ 56,585</b>

**Note V - Other Information (Continued)**

Sensitivity of the net OPEB liability to changes in the healthcare cost trend rates - The following presents the plan's net OPEB liability, calculated using the assumed trend rates as well as what the plan's net OPEB liability would be if it were calculated using a trend rate that is one percent lower or one percent higher (in thousands):

	<b>Current Healthcare Cost Trend Rate</b>		
	<b>1% Decrease</b>	<b>Assumption</b>	<b>1% Increase</b>
Plan	\$ 48,118	\$ 54,115	\$ 61,261

The following presents the City's net OPEB liability, calculated using the assumed trend rates as well as what the City's net OPEB liability would be if it were calculated using a trend rate that was one percent lower or one percent higher (in thousands):

	<b>Current Healthcare Cost Trend Rate</b>		
	<b>1% Decrease</b>	<b>Assumption</b>	<b>1% Increase</b>
Primary Government	\$ 57,690	\$ 64,160	\$ 71,928
Primary Government - Component Unit	93	103	115
<b>Total</b>	<b>\$ 57,783</b>	<b>\$ 64,263</b>	<b>\$ 72,043</b>

Changes in the Net OPEB Liability - The City is presenting the net OPEB liability for the year ended September 30, 2025 based on the September 30, 2024 measurement date in the table below (in thousands). The assumption used in determining the net OPEB liability are the same as those shown in the table on page \_ except for the discount rate of 4.03 instead of 5.17.

	<b>Total OPEB Liability</b>	<b>Plan Fiduciary Net Position</b>	<b>Net OPEB Liability (a) - (b)</b>
Balances at September 30, 2024	\$ 75,636	\$ 12,960	\$ 62,676
Changes for the year:			
Change in Allocation Percentages	(48)	(8)	(40)
Service Cost	1,516	-	1,516
Interest	3,538	-	3,538
Assumption Changes	5,507	-	5,507
Employer Contributions to the Trust Fund	-	2,498	(2,498)
Employer Contributions not deposited in Trust Fund	-	2,554	(2,554)
Net Investment Income	-	3,881	(3,881)
Benefit Payments	(4,586)	(2,031)	(2,555)
Benefit Payments not reimbursed by Trust Fund	-	(2,554)	2,554
Net Changes	5,927	4,340	1,587
Balances at September 30, 2025	<u>\$ 81,563</u>	<u>\$ 17,300</u>	<u>\$ 64,263</u>

**Note V - Other Information (Continued)**

OPEB Expense and Deferred Outflows/(Inflows) of Resources Related to OPEB – In accordance with GASB 75, changes in the net OPEB liability are recognized as OPEB expense in the current measurement period, except as shown below. For each of the following, a portion is recognized in OPEB expense in the current measurement period, and the balance is amortized as deferred outflows or inflows of resources using a systematic and rational method over a closed period, as defined below:

- Differences between expected and actual experience with regard to economic and demographic factors which are amortized over the average expected remaining service life of all employees that are provided with benefits through the OPEB plan, both active and inactive.
- Changes of assumptions or other inputs which are amortized over the average expected remaining service life of all employees that are provided with benefits through the OPEB plan, both active and inactive.
- Changes in proportion and differences between contributions and proportionate share of contributions which are amortized over the average expected remaining service life of all employees that are provided with benefits through the OPEB plan, both active and inactive.
- Differences between expected and actual earnings on OPEB plan investments are amortized over five years.

Based on a valuation date of September 30, 2023 and a measurement date of September 30, 2024, the City recognized OPEB expenses of (\$18,568) for the year ended September 30, 2025. At September 30, 2025, the City reported deferred outflows of resources and deferred inflows of resources related to the OPEB plan from the following sources (in thousands):

	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Differences between expected and actual experience	\$ 3,240	\$ (2,817)
Assumption Changes	9,055	(14,961)
Net difference between projected and actual earnings on pension plan investments	1,271	(3,252)
Change in Net OPEB liability due to Change in Cost-Sharing Allocation Percentage	4	(206)
Contributions after measurement date	5,110	-
	<u>\$ 18,680</u>	<u>\$ (21,236)</u>

Deferred outflows of resources related to the plan of \$5,110,000, resulting from City contributions to the plan paid subsequent to the measurement date and prior to the City’s fiscal year, will be recognized as a reduction of the net OPEB liability in the fiscal year ended September 30, 2025. Other amounts reported as OPEB related deferred outflows and inflows of resources will be recognized in future OPEB expense, as follows:

<b>Year ending September 30,</b>	<b>Net Amount</b>
2026	\$ (2,078)
2027	(3,198)
2028	(1,953)
2029	(1,993)
2030	304
Thereafter	1,252
Total	<u>\$ (7,666)</u>

**Note V - Other Information (Continued)****4. Funding Policy**

The contribution requirements of OPEB Plan members and the City are established and may be amended by the City Commission. These contributions are neither mandated nor guaranteed. The City has retained the right to unilaterally modify its payment for retiree health care benefits. Effective October 1, 2010, the City implemented a "cap" on employer contributions for retirees. Accordingly, the City's subsidy was frozen at the 2010 levels, and retirees must absorb all future premium rate increases.

**5. Statement of Plan Net Position as of September 30, 2025**

	<u>OPEB Trust</u>
<b>Assets</b>	
Cash and Cash Equivalents	\$ 1,746

**Note V - Other Information (Continued)**

**I. Derivative Instruments**

The contracts are recorded at fair value on the Statement of Net Assets as they have been determined to qualify as derivative instruments under GASB Statement No. 53, "Accounting and Financial Reporting for Derivative Instruments". The fair value balances and notional amounts of derivative instruments, all of which are accounted for within the City's business-type activities, as of September 30, 2025, and the changes in fair value of such derivative instruments for the year then ended, are as follows (amounts in thousands):

	Changes in Fair Value		Fair Value at September 30, 2025		
	Classification	Amount	Classification	Amount	Notional
<b>Cash Flow Hedges:</b>					
Commodity Forward-Natural Gas, Diesel, and Gasoline	Deferred Outflows of Resources	\$ 204	Derivative Instrument	\$ (204)	181,860 MMBTUs

The fair values of the forward contracts are estimated based upon the nominal value of their estimated cash flows. For FY 2026 and beyond, the City does not have any hedging positions for Natural Gas as of 9/30/25. New hedges may be executed in the future depending on market conditions. For FY 2026 the City has hedged various volumes of Diesel and Gasoline on the NYMEX/CME Exchange.

The following table displays the objectives and terms of the City's derivative instruments outstanding as of September 30, 2025.

Type	Objective	Effective	Maturity Date	Terms
Commodity Forward Contract	Stabilize cash flows due to market price volatility related to expected purchases of natural gas, diesel and gasoline.	Various	Various: November 2025 - September 2026	Pay various prices per MMBTU; settlement based on the Henry Hub pricing point at expiration date for natural gas. Pay various prices per Barrel; settlement based on New York Harbor pricing point at expiration date for diesel/heating oil and gasoline.

**J. Related Party Transactions**

Related party transactions during the year ended September 30, 2025 included the following:

The City paid the following contributions to the Consolidated Dispatch Agency (CDA):

- a) \$8,097,517 for operations.
- b) \$359,144 for Fire/EMS revenue.

The City charges fees for administrative services to the CDA, Blueprint, and the Capital Region Transportation Planning Agency (CRTPA). For the year ended September 30, 2025, the City charged fees of \$1,810,105, \$345,388, and \$81,415, respectively.

As of September 30, 2025, the City was owed \$158,260 by the CDA, \$7,430,926 by Blueprint, \$3,438 by CRTPA, and \$750 from the Downtown Improvement Authority. The City in turn owed the CDA \$1,508,007 and Blueprint \$303,259.

The City and Blueprint Intergovernmental Agency entered an interlocal agreement whereby Blueprint would allocate a portion of their sales tax collections to the City for specific uses including parks and recreation operating costs, Starmetro enhancements, water quality, sidewalks, and airport growth and development. Blueprint paid the City \$4,704,280 under this agreement in the fiscal year ended September 30, 2025. In addition, Blueprint Intergovernmental Agency paid the City \$670,000 for Air Service Incentives and \$2,920,759 for the various other capital improvement projects.

**Note V - Other Information (Continued)****K. Subsequent Events****Airport Improvement Revenue Note, Series 2026**

On March 11, 2026 the City Commission approved Resolution No. 26-R-09 authorizing the issuance of \$19,100,000 City of Tallahassee, Florida Airport Improvement Revenue Note, Series 2026, with a final maturity of October 1, 2045, at an interest rate of 5.16%. The issue is for the construction of the new Airport Rental Car Quick-Turn-Around Facility (QTA). Through a competitive bidding process, an affiliate of Flagstar Bank, N.A., Flagstar Public Funding Corporation was selected. Debt service on the Series 2026 Bonds is expected to be approximately \$1,575,000 annually, beginning in fiscal year 2026.

**Transfer of City-Owned Hospital Assets to Florida State University (FSU) and Authorization to Execute Related Transaction Documents**

On March 11, 2026 the City Commission approved a Transfer of Assets Agreement governing the transfer of City assets to FSU. This agreement authorizes the conveyance of specified real property, improvements, personal property, and related interests, as more particularly described in the final Transfer of Assets Agreement, and will advance the establishment of an academic health center model consistent with the City's strategic, economic development, and community health objectives. The fiscal impact of this agreement to the City is that FSU will pay \$109 million in 30 equal installments over a 30-year period known as the Annual Payment Sum. This Annual Payment Sum amounts to \$3,633,333 annually to represent the purchase of the City Assets and compensate citizens for their initial investment in the hospital assets over time.

## Notes to Schedule of Contributions - General Employees

**Valuation Date:** October 1, 2022

*Notes: Actuarially determined contribution rates are calculated as of October 1, 2022 for the fiscal year ended September 30, 2025.*

**Methods and Assumption Used to Determine Contribution Rates:**

Actuarial Cost Method	Entry Age Normal
Amortization Method	Level Percent of Pay (with 2.21% payroll growth assumption), Closed
Remaining Amortization Period	26 years
Asset Valuation Method	20% of the difference between expected actuarial value (based on assumed return) and fair value is recognized each year with 20% corridor around fair value.
Inflation	2.50%
Salary Increases	A range of 2.95% to 5.00%, depending on completed years of service, including inflation.
Investment Rate of Return	7.25%
Retirement Age	Experience-based table of rates that are specific to the type of eligibility condition.
Mortality	The mortality tables used are the same as those used in the July 1, 2022 Pension Actuarial Valuation of the Florida Retirement System (FRS) for Regular (other than K-12 School Instructional Personnel) members. These tables are based on the Pub-2010 mortality tables with mortality improvements projected for healthy lives to all future years after 2010 using Scale MP-2018.

**Other Information:**

Notes See Discussion of Valuation Results in the October 1, 2022 Actuarial Valuation Report dated January 31, 2023.

2025	7,160	7,160	-	19,963	35.87

**Notes to Schedule of Contributions - Firefighters**

**Valuation Date:** October 1, 2022

*Notes: Actuarially determined contribution rates are calculated as of October 1, 2022, for the fiscal year ended September 30, 2025.*

**Methods and Assumption Used to Determine Contribution Rates:**

Actuarial Cost Method	Entry Age Normal
Amortization Method	Level Percent of Pay (with 2.93% payroll growth assumption), Closed
Remaining Amortization Period	26 years
Asset Valuation Method	20% of the difference between expected actuarial value (based on assumed return) and fair value is recognized each year with 20% corridor around fair value.
Inflation	2.50%
Salary Increases	A range of 4.40% to 5.75%, depending on completed years of service, including inflation.
Investment Rate of Return	7.25%
Retirement Age	Experience-based table of rates that are specific to the type of eligibility condition.
Mortality	The mortality tables used are the same as those used in the July 1, 2022 Pension Actuarial Valuation of the Florida Retirement System (FRS) for Special Risk members. These tables are based on the Pub-2010 mortality tables with mortality improvements projected for healthy lives to all future years after 2010 using Scale MP-2018.

**Other Information:**

**Notes** See Discussion of Valuation Results in the October 1, 2022 Actuarial Valuation Report dated January 31, 2023 and the Actuarial Impact Statement dated August 27, 2024.

The above disclosures are the same for the plan and the employer.

The following Notes, Methods and Assumptions are applicable to both tables above.

See Independent Auditors' Report

**Notes to Schedule of Contributions - OPEB**

**Valuation date:** September 30, 2023

*Notes: Actuarially determined contribution rates are calculated as of October 1, which is the beginning of the year in which contributions are made and reported.*

**Methods and Assumptions Used to Determine Contribution Rates:**

Actuarial cost method	Entry Age Normal
Amortization method	Level Percentage of Payroll, Closed
Remaining Amortization Period	21 years
Asset Valuation Method	Fair Value
Inflation	2.50%
Salary increases	2.95% to 6.40%, including inflation; varies by plan type and years of service.
Investment rate of return	4.73%, net of OPEB plan expense, including inflation.
Retirement Age	Experience-based table of rates that are specific to the plan and type of eligibility condition.
Mortality	Mortality tables used in the July 1, 2022 actuarial valuation of the Florida Retirement System (FRS). They are based on the results of a statewide experience study covering the period 2013 through 2018. These rates were taken from adjusted Pub-2010 mortality tables published by SOA with generational mortality improvements using Scale MP-2018.
Health Care Trend Rate	Based on the Getzen Model, with trend starting at 5.90% for 2024 (based on actual premium increases), followed by 6.00% for 2025, and then gradually decreasing to an ultimate trend rate of 4.00%
Aging factors	Based on the 2013 SOA Study "Health Care Costs - From Birth to Death".
Expenses	Investment expenses are net of the investment returns; and, Administrative expenses are included in the per capita health costs.

**Other Information:**

Notes: There were no benefit changes during the year. See Summary of Funding Results in section C of the September 30, 2023 OPEB Actuarial Valuation Report.

# Combining Financial Statements

These basic financial statements provide a summary overview of the financial position of all funds and account groups as well as the operating results of all funds. They also serve as an introduction to the more detailed statements and schedules that follow in subsequent sections:

- Nonmajor Governmental Funds
- Nonmajor Enterprise Funds
- Internal Service Funds
- Fiduciary Funds

**CITY OF  
TALLAHASSEE**

This Page Intentionally Left Blank

## Nonmajor Governmental Funds

<b>Community Redevelopment Agency</b>	Accounts for the general tax revenue collected on and the expenses incurred in the redevelopment of properties in the community redevelopment area.
<b>Special Projects</b>	Accounts for federal, state and local grants. These grants include but are not limited to the Community Development Block Grant, the Neighborhood Stabilization Program, the Homeless Prevention and Rapid Re-Housing Program, Emergency Shelter Grants, the HOME program and other miscellaneous grants. This fund includes other miscellaneous items that are to be used for general government purposes that are not appropriated in another fund.
<b>Law Enforcement</b>	For the accounting of state and federal forfeitures received by the City as prescribed by Florida Statutes. Also included: the Federal Law Enforcement Block Grant revenues and expenditures; and Second Dollar funding revenues received from the County who collects fines from citizens guilty of a statute violation or local ordinance.
<b>Building Code Enforcement</b>	Accounts for all assets, operations, and maintenance of the City's Building Inspection Division of the Growth Management Department. Revenues accounted for in this fund are derived from fees, fines, and investment earnings from the enforcement and implementation of the Florida Building code. Revenues in this fund were previously captured and reported in the General Revenue Fund.
<b>Concurrency</b>	Accounts for activity resulting from the State's new concurrency requirements outlined in Chapter 163, F.S. This statute allows developers the opportunity to move forward with development despite concurrency constraints by contributing their fair share of the cost to improve the impacted transportation facilities.
<b>State Housing Partnership</b>	Accounts for State funding to be used as an incentive to produce and preserve affordable housing for very low, low, and moderate income families.
<b>Debt Service</b>	Accounts for the accumulation of resources for, and the payment of, interest and principal on all general long-term debt other than that payable from Proprietary Funds.
<b>Capital Improvement</b>	Accounts for general revenue used for the acquisition or construction of general fixed assets.
<b>Capital Bonds</b>	Accounts for bond proceeds used for the acquisition or construction of general fixed assets.
<b>Sales Tax Construction</b>	Accounts for tax proceeds used for the acquisition or construction of public safety and transportation improvements.
<b>Gas Tax</b>	Accounts for tax proceeds used for the acquisition or construction of transportation improvements.
<b>Cemetery</b>	To accumulate resources for the perpetual maintenance of the City's cemeteries which include the sale and maintenance of plots.

**CITY OF  
TALLAHASSEE**

This Page Intentionally Left Blank

## Internal Service Funds

<b>800 MHz Communication</b>	Supports the 800 MHz Radios Communications unit within the Information System Services. Revenues for the fund are derived from Leon County per agreement, and rentals from other users. The remaining cost is allocated to user departments. The allocation is based on the number of 800 MHz devices per department.
<b>Technology and Innovation</b>	Accounts for the costs of the City's data processing operations.
<b>Human Resources</b>	Accounts for the costs of the City's employee relations operations.
<b>Internal Loan</b>	Accounts for the loans received from the Sunshine State Governmental Financing Commission, which in turn are loaned to other funds to provide financing for capital projects.
<b>Pension Administration</b>	Accounts for the costs of the City's employee retirement plan's administrative operation.
<b>Diversity and Inclusion</b>	Accounts for the cost of the City's efforts to promote diversity and inclusion throughout the government.
<b>Purchasing</b>	Accounts for the costs of the City's procurement operations.
<b>Accounting</b>	Accounts for the costs of the City's accounting operations.
<b>Garage</b>	Accounts for the costs of maintaining and operating the City's fleet management operation.
<b>Risk Management</b>	Accounts for the costs of the City's risk management.
<b>Revenue Collection</b>	Accounts for the costs of the City's revenue collection services.
<b>Utility Services</b>	Accounts for the costs of centralizing safety and training, environmental, GIS, sales, rate design, and marketing functions of the City's utilities.
<b>Environmental Services and Facilities Management (ESFM)</b>	Accounts for the City's environmental policy development and initiatives and environmental regulatory compliance.
<b>Wholesale Energy Services</b>	Accounts for the costs of the purchase of power and fuel for the City's electric and gas utilities and off system sales and services of power and natural gas to other utilities and open market participants.
<b>Community Relations</b>	Accounts for the City's community relations function which serves to engage citizens through interactive educational outreach efforts focused on a variety of City services and programs ranging from utility services to transportation.

# STATISTICAL SECTION

This part of the City’s Annual Comprehensive Financial Report presents detailed information as a context for understanding what the information in the financial statements, notes disclosures, and required supplementary information says about the City’s overall financial health.

<b>Contents</b>	<b>Page</b>
<b>Financial Trends</b>	
These schedules contain trend information to help the reader understand how the City’s financial performance and well-being have changed over time.	
Net Position by Component.....	174
Changes in Net Position.....	175
Fund Balances, Governmental Funds.....	178
Changes in Fund Balances, Governmental Funds.....	179
<b>Revenue Capacity</b>	
These schedules contain information to help the reader assess the City’s most significant revenue source, the property tax.	
Assessed Value and Estimated Actual Value of Taxable Property.....	180
Direct and Overlapping Property Tax Rates.....	181
Principal Property Taxpayers.....	182
Property Tax Levies and Collections.....	183
Assessed Valuations, Millage and Taxes Levied and Collected.....	184
<b>Debt Capacity</b>	
These schedules present information to help the reader assess the affordability of the City’s current levels of outstanding debt and the Agency’s ability to issue additional debt in the future.	
Ratios of Outstanding Debt by Type.....	185
Ratios of General Bonded Debt Outstanding.....	186
Direct and Overlapping Governmental Activities Debt.....	187
Legal Debt Margin.....	188
Revenue Bond Coverage:	
Energy System Revenue Bonds.....	189
Consolidated System Utility Revenue Bonds.....	190

*Sources: Unless otherwise noted, the information in these schedules is derived from the City’s Annual Comprehensive Financial Reports for the relevant year.*

<b>Contents</b>	<b>Page</b>
<b>Demographic and Economic Information</b>	
These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.	
Demographic Statistics.....	191
Principal Employers.....	192
<b>Operating Information</b>	
These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.	
Full-time Equivalent City Government Employees by Function/Program.....	193
Operating Indicators by Function/Program.....	194
Capital Assets Statistics by Function/Program.....	195
Miscellaneous Statistical Data.....	196
Schedule of Insurance.....	197

*Sources: Unless otherwise noted, the information in these schedules is derived from the City's Annual Comprehensive Financial Reports for the relevant year.*

<sup>(1)</sup> Florida Statutes provide for a discount of up to four percent for early payment of ad valorem taxes. All unpaid taxes become delinquent on April 1 and are sold at auction on June 1 of each year as tax certificates. The City, after all tax certificates are sold, has fully collected all ad valorem tax revenues.

<sup>(2)</sup> Net collected includes penalties or late payments.

## Miscellaneous Statistical Data September 30, 2025

### Governance

Date of Incorporation	1825
Date Present Charter Adopted	1996
Form of Government: Commission-Manager	
Commission Composed of: Mayor and Four Commissioners	
Terms of Office:	
Mayor - Five Years (Elected by Tallahassee Citizens)	
Commissioners - Five Years (Elected by Tallahassee Citizens)	
Manager (Appointed by Commission)	

### Transportation:

Airlines, Bus Lines, and Railroad Freight and Passenger

### Communications:

Newspapers, Radio Stations, Television Stations;  
Cable Television and Telephone Service

### Climate

Average Annual Temperature - in °F  
Average Annual Rainfall - in inches  
Area - in square miles

### Education:

Number of Public Schools <sup>(1)</sup>	51
Number of Public School Instructors <sup>(1)</sup>	2,043
Number of Public School Students, (PK-12) <sup>(1)</sup>	31,638
Number of Vocational-Technical Schools <sup>(1)</sup>	3
Number of Community Colleges	2
Number of Universities	5
Number of College-level Instructors <sup>(4)</sup>	2,043
Number of College-level Students <sup>(2)</sup>	68,667

### Major Annual Events:

Springtime Tallahassee Festival  
Fourth of July "Celebrate America"  
North Florida Fair  
Market Days  
Winter Festival

### Culture, Recreation, and Health:

Conference Center, Civic Center, and Theaters	
Seating Capacity (Leon County Civic Center and	13,375
Museums	15
Libraries (including branches)	20
Skating Rinks	2
Golf Courses	11
Hospital Beds <sup>(3)</sup>	1,060

**Report on Internal Control Over Financial Reporting and on Compliance and  
Other Matters Based on an Audit of Financial Statements Performed in  
Accordance with *Government Auditing Standards***

**Independent Auditor's Report**

Honorable Mayor and City Commission  
City of Tallahassee, Florida  
Tallahassee, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Tallahassee, Florida (the "City") as of and for the year ended September 30, 2025 and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated May 20, 2026.

**Report on Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the City's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Forvis Mazars, LLP is an independent member of Forvis Mazars Global Limited

Honorable Mayor and City Commission  
City of Tallahassee, Florida

### **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City's basic financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

### ***Purpose of this Report***

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## **Report on Compliance for Each Major Federal Program, Major State Project, and the Passenger Facility Charge Program and on Internal Control over Compliance**

### **Independent Auditor's Report**

Honorable Mayor and City Commission  
 City of Tallahassee, Florida  
 Tallahassee, Florida

#### **Report on Compliance for Each Major Federal Program, Major State Project, and the Passenger Facility Charge Program**

##### ***Opinion on Each Major Federal Program, Major State Project, and the Passenger Facility Charge Program***

We have audited the City of Tallahassee, Florida (the "City") compliance with the types of compliance requirements identified as subject to audit in the OMB Compliance Supplement, the requirements identified as subject to audit in the Department of Financial Services State Projects Compliance Supplement and the requirements described in the *Passenger Facility Charge Audit Guide for Public Agencies* issued by the Federal Aviation Administration (the Guide") that could have a direct and material effect on its major federal programs, major state projects, and the passenger facility charge program for the year ended September 30, 2025. The City's major federal program and state projects are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the City complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on its major federal programs, major state projects, and the passenger facility charge program for the year ended September 30, 2025.

##### ***Basis for Opinion on Each Major Federal Program, Major State Project, and the Passenger Facility Charge Program***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America ("GAAS"); the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations, Part 200, *Uniform Administrative Requirements, Cost Principles, and the Audit Requirements for Federal Awards* ("Uniform Guidance"); and Chapter 10.550, *Rules of the Auditor General*; and the Guide. Our responsibilities under those standards and the Uniform Guidance, Chapter 10.550, Rules of the Auditor General, and the Guide are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the City and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program, major state project, and the passenger facility charge program. Our audit does not provide a legal determination of the City's compliance with the compliance requirements referred to above.

Forvis Mazars, LLP is an independent member of Forvis Mazars Global Limited

Honorable Mayor and City Commission  
City of Tallahassee, Florida

### ***Responsibility of Management for Compliance***

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the City's federal programs, state projects, and the passenger facility charge program.

### ***Auditor's Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the City's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, the Uniform Guidance, Chapter 10.550, *Rules of the Auditor General*; and the Guide will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the City's compliance with the requirements of each major federal program, major state project, and the passenger facility charge program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, Uniform Guidance, Chapter 10.550, *Rules of the Auditor General*, and the Guide, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the City's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the City's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, Chapter 10.550, *Rules of the Auditor General*, and the Guide, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

### ***Report on Internal Control over Compliance***

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program, state project or a passenger facility program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program, state project or a passenger facility program will not be prevented or detected and corrected on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program, state project or passenger facility program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Honorable Mayor and City Commission  
City of Tallahassee, Florida

Our consideration of internal control over compliance was for the limited purpose described in the "Auditor's Responsibilities for the Audit of Compliance" section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance, Chapter 10.550, *Rules of the Auditor General*, and the Guide. Accordingly, this report is not suitable for any other purpose.

**NOTES**

1) The accompanying Schedule of Federal and State Financial Assistance of Expenditures (Schedule) presents the activity of all federal programs and state projects of the City of Tallahassee for the year ended September 30, 2025. All expenditures related to federal awards and state projects received directly from federal and state agencies, as well as federal awards and state projects passed through other governmental agencies, are included in the accompanying Schedule. The information in this Schedule is presented in accordance with the requirements of Title 2, US Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards (Uniform Guidance) and Chapter 10.550, Rules of the Florida Auditor General.

**Schedule of Expenditures of Federal Awards and State Financial Assistance  
For the Fiscal Year Ended September 30, 2025**

ALN/CSFA #	Federal /State Program Title	FAIN/State Grant #	Flow Through Agency	Sum of Current FY Expenditures FN	Subrecipient Expenditures
2) The Schedule was prepared on the modified accrual basis of accounting.					
3) No federal or state financial assistance was expended in non-cash assistance.					
4) The City has not elected to use the 15 percent de minimis indirect cost rate allowed under the Uniform Guidance.					
5) The housing loans have no continuing disclosure requirements. Therefore, only current year activity is included on the SAFSA. Housing loan balances outstanding at year end:

### Independent Accountant's Report

Honorable Mayor and City Commission  
City of Tallahassee, Florida  
Tallahassee, Florida

We have examined the compliance of the City of Tallahassee, Florida's (the "City") compliance with the requirements of Section 218.415, Florida Statutes, during the year ended September 30, 2025. Management is responsible for the City's compliance with those requirements. Our responsibility is to express an opinion on the City's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the City complied with those requirements, in all material respects. An examination involves performing procedures to obtain evidence about the City's compliance with those requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to the engagement.

Our examination does not provide a legal determination on the City's compliance with specified requirements.

In our opinion, the City complied, in all material respects, with the aforementioned requirements for the year ended September 30, 2025.

## Independent Auditor's Management Letter

Honorable Mayor and City Commission  
 City of Tallahassee, Florida  
 Tallahassee, Florida

### Report on the Financial Statements

We have audited the basic financial statements of the City of Tallahassee, Florida (the "City") as of and for the year ended September 30, 2025, and have issued our report thereon dated May 20, 2026.

### Auditor's Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. Code of Federal Regulations, Part 200, Uniform Administrative Requirements, Cost Principles, and the Audit Requirements for Federal Awards (Uniform Guidance); and Chapter 10.550, Rules of the Auditor General; and the Passenger Facility Charge Audit Guide for Public Agencies.

### Other Reporting Requirements

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards; Independent Auditor's Report on Compliance for Each Major Federal Program, Major State Project, and the Passenger Facility Charge Program and on Internal Control over Compliance and Report on Schedule of Expenditures of Federal Awards and State Financial Assistance and Schedule of Passenger Facility Charges Required by the Uniform Guidance, Chapter 10.550, Rules of the Auditor General, and Passenger Facility Charge Audit Guide for Public Agencies; Schedule of Findings and Questioned Costs, and Independent Accountant's Report on an examination conducted in accordance with AICPA Professional Standards, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports and schedule, which are dated May 20, 2026, should be considered in conjunction with this management letter.

### Prior Audit Findings

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. In connection with the proceeding audit, all findings were fully resolved.

### Official Title and Legal Authority

Section 10.554(1)(i)4., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. The legal authority is disclosed in the notes to the financial statements.

Forvis Mazars, LLP is an independent member of Forvis Mazars Global Limited

Honorable Mayor and City Commission  
City of Tallahassee, Florida

### **Financial Condition and Management**

Sections 10.554(1)(i)5.a. and 10.556(7), *Rules of the Auditor General*, require us to apply appropriate procedures and communicate the results of our determination as to whether or not the City has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and identification of the specific conditions met. In connection with our audit, we determined that the City did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.554(1)(i)5.b. and 10.556(8), *Rules of the Auditor General*, we applied financial condition assessment procedures for the City. It is management's responsibility to monitor the City's financial condition, and our financial condition assessment was based, in part, on representations made by management and the review of financial information provided by same.

Section 10.554(1)(i)2., *Rules of the Auditor General*, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

### **Special District Component Units**

Section 10.554(1)(i)5.c., *Rules of the Auditor General*, requires that we determine whether or not a special district that is a component unit of a county, municipality, or special district, provided the financial information necessary for proper reporting of the component unit, within the audited financial statements of the county, municipality, or special district in accordance with Section 218.39(3)(b), Florida Statutes. In connection with our audit, we determined that all special district component units provided the necessary information for proper reporting in accordance with Section 218.39(3)(b), Florida Statutes.

As required by Section 218.39(3)(c), Florida Statutes, and Section 10.554(1)(i)6, *Rules of the Auditor General*, see Attachment A for required information on the dependent special districts that are included in the reporting entity. The information in Attachment A has not been subject to auditing procedures, therefore no assurance is given on the provided information.

### **Property Assessed Clean Energy (PACE) Programs**

As required by Section 10.554(1)(i)6.a., *Rules of the Auditor General*, a PACE program authorized pursuant to Section 163.081 or Section 163.082, Florida Statutes, did not operate within the City's geographical boundaries during the fiscal year under audit.

### **Additional Matters**

Section 10.554(1)(i)3., *Rules of the Auditor General*, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but warrants the attention of those charged with governance. In connection with our audit, we had no such communication.

### **Purpose of this Letter**

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, federal and other granting agencies, the Mayor, City Commission, and applicable management and is not intended to be, and should not be, used by anyone other than these specified parties.
