INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
Ecosphere Restoration Institute
Hillsborough County, Florida

Report on the Schedule of State Financial Expenditures for the Ecosphere Restoration Institute Submerged Aquatic Vegetation Statewide Restoration and Aquaculture Program

Opinion

We have audited the accompanying Schedule of State Financial Expenditures (the "Schedule") of the Ecosphere Restoration Institute Submerged Aquatic Vegetation Statewide Restoration and Aquaculture Program, (contract LPA0282) of the Ecosphere Restoration Institute, Hillsborough County, Florida (the "Organization") for the year ended December 31, 2024, and the related notes to the Schedule.

In our opinion, the Schedule referred to above presents fairly, in all material respects, expenditures of the Ecosphere Restoration Institute Submerged Aquatic Vegetation Statewide Restoration and Aquaculture Program, (contract LPA0282) of the Organization as of December 31, 2024 in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS), the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, and the audit requirements of Chapter 10.650, Rules of the Auditor General. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Organization and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Schedule

The Organization's management is responsible for the preparation and fair presentation of the Schedule in accordance with accounting principles generally accepted in the United States of America, Government Auditing Standards issued by the Comptroller General of the United States of America, and Chapter 10.650, Rules of the Auditor General; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the Schedule that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Schedule

Our objectives are to obtain reasonable assurance about whether the Schedule is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, Government Auditing Standards issued by the Comptroller General of the United States of America, and Chapter 10.650, Rules of the Auditor General will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the Schedule.

In performing an audit in accordance with GAAS, Government Auditing Standards issued by the Comptroller General of the United States of America, and Chapter 10.650, Rules of the Auditor General, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the Schedule, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the Schedule.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the Schedule.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Organization's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated July 28, 2025, on our consideration of the Organization's compliance with requirements that could have a direct and material effect on the Ecosphere Restoration Institute Submerged Aquatic Vegetation Statewide Restoration and Aquaculture Program and on internal control over compliance in accordance with the program specific audit requirements of the Ecosphere Restoration Institute Submerged Aquatic Vegetation Statewide Restoration and Aquaculture Program. The purpose of that report is solely to describe the scope of our testing, and not to provide opinions on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Organization's internal control over financial reporting and compliance.

NOTE 1 – ORGANIZATION AND NATURE OF ACTIVITIES

Ecosphere Restoration Institute, (the “Organization”) is a non-profit organization was incorporated in 2007, in and is located in the Hillsborough County, Florida. The Organization Created in 2007 to foster public and private partnerships for environmental restoration. The Organization operated by building innovative partnerships that has secured \$10 million in grants and \$11 million in matching funds involving participants ranging from federal agencies, regional/local governments, and large industries to small businesses, community groups and citizen-volunteers.

The Organization is governed by a five member Board of Directors.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying Schedule of State Financial Expenditures of Ecosphere Restoration Institute Submerged Aquatic Vegetation Statewide Restoration and Aquaculture Program is reported using the accrual basis of accounting and presents the program expenditures incurred by the Organization for the year ended December 31, 2024. The information in this Schedule is presented in accordance with the requirements of Chapter 10.650, Rules of the Auditor General. Because the schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the District. Because the Schedule presents only a selected portion of the operations of the Organization, it is not intended to and does not present the financial position or changes in net position, or cash flows of the Organization.

Report on Compliance with requirements that could have a direct and material effect on Ecosphere Restoration Institute Submerged Aquatic Vegetation Statewide Restoration and Aquaculture Program

We have audited the Ecosphere Restoration Institute Submerged Aquatic Vegetation Statewide Restoration and Aquaculture Program, (contract LPA0282) of the Ecosphere Restoration Institute, Hillsborough County, Florida (the "Organization") compliance with the types of compliance requirements described in the Department of Financial Services' State Projects Compliance Supplement that could have a direct and material effect on its *Ecosphere Restoration Institute Submerged Aquatic Vegetation Statewide Restoration and Aquaculture Program* for the year ended December 31, 2024.

Management's Responsibility for the Financial Statements

Management is responsible for compliance with the requirements of state statutes, laws, regulations, and the terms and conditions of its state awards applicable to the Ecosphere Restoration Institute Submerged Aquatic Vegetation Statewide Restoration and Aquaculture Program.

Auditor's Responsibility

Our responsibility is to express an opinion on the Organization's compliance based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and Chapter 10.650, Rules of the Auditor General. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on the Ecosphere Restoration Institute Submerged Aquatic Vegetation Statewide Restoration and Aquaculture Program project occurred. An audit includes examining, on a test basis, evidence about the Organization's compliance with those requirements and performing such other procedures, as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the Ecosphere Restoration Institute Submerged Aquatic Vegetation Statewide Restoration and Aquaculture Program project. However, our audit does not provide a legal determination on the Organization's compliance with those requirements.

Opinion on the Ecosphere Restoration Institute Submerged Aquatic Vegetation Statewide Restoration and Aquaculture Program

In our opinion, the Organization complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on the Ecosphere Restoration Institute Submerged Aquatic Vegetation Statewide Restoration and Aquaculture Program for the year ended December 31, 2024.

Report on Internal Control over Compliance

The management of the Organization is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Organization's internal control over compliance with the types of compliance requirements referred to above that could have a direct and material effect on the Ecosphere Restoration Institute Submerged Aquatic Vegetation Statewide Restoration and Aquaculture Program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for the Ecosphere Restoration Institute Submerged Aquatic Vegetation Statewide Restoration and Aquaculture Program, and to test and report on internal control over compliance in accordance with Chapter 10.650, Rules of the Auditor General, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Organization's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a State Program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a State Program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a State Program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies may exist that were not identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Chapter 10.650, Rules of the Auditor General. Accordingly, this report is not suitable for any other purpose.
