INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
University of West Florida Foundation, Inc.
Pensacola, Florida

Opinion

We have audited the accompanying financial statements of University of West Florida Foundation, Inc. (the "Foundation") (a component unit of the University of West Florida), as of and for the years ended June 30, 2025 and 2024, and the related notes to the financial statements, which collectively comprise the Foundation's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Foundation as of June 30, 2025 and 2024, and the respective changes in financial position and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS") and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Foundation and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Foundation's ability to continue as a going concern for twelve months beyond the financial statement date, including any known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Foundation's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Foundation's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

Board of Directors
University of West Florida Foundation, Inc.

We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Foundation's basic financial statements. The accompanying supplementary information as listed in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements. The Schedule of Expenditures of State Financial Assistance is included in the compliance section, as required by Chapter 10.650, *Rules of Auditor General*, and for purposes of additional analysis is not a required part of the basic financial statements.

The Schedules of Student Housing System Revenues and Expenses, Schedules of Net Position (Excluding the Student Housing System), Schedules of Functional Expenses, Chairs Under Eminent Scholars Program – Schedule of Receipts, Expenses, and Endowment Balances, Major Gifts Program – Schedule of Receipts, Expenses and Endowment Balances, and Schedule of Expenditures of State Financial Assistance are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, these schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated October 9, 2025, on our consideration of the Foundation's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Foundation's internal control over financial reporting and compliance.

MANAGEMENT’S DISCUSSION AND ANALYSIS
JUNE 30, 2025 AND 2024
(UNAUDITED)

This management’s discussion and analysis (“MD&A”) provides an overview of the financial position and activities of the University of West Florida Foundation, Inc (the “Foundation”) as of and for the years ended June 30, 2025 and 2024.

The Foundation is presented as a discrete component unit of the University of West Florida (the “University” or “UWF”). The Foundation’s mission is to exclusively support and enhance the University’s mission of teaching, research, and service as determined by the University of West Florida Board of Trustees (“BOT”).

Overview of the Financial Statements

The financial statements are prepared on the accrual basis of accounting with accounting principles generally accepted in the United States of America, as promulgated by the Government Accounting Standards Board (“GASB”).

Pursuant to GASB Statement No. 35, *Basic Financial Statements - Management’s Discussion and Analysis – for Public Colleges and Universities*, the Foundation’s basic financial statements include the statements of net position; the statements of revenue, expenses and changes in net position; the statements of cash flows, and other required supplemental information.

The Statements of Net Position

The statements of net position reflect the assets, liabilities, and deferred inflows of resources of the Foundation and present the financial position of the Foundation at a specified time. Assets less liabilities and deferred inflows equal net position, which is one indicator of the Foundation’s current financial condition. The changes in net position that occur over time indicate improvement or deterioration in the Foundation’s financial condition. Restricted net position is comprised of expendable and nonexpendable and consists of assets that have constraints placed upon their use either by external donors or creditors or through laws or regulations imposed through constitutional provisions or enabling legislature. Nonexpendable assets represent endowment assets whose principal cannot be spent and are required by the donor to be held in perpetuity. Net investment in capital assets includes net capital assets less outstanding bonds payable. Unrestricted net position consists of net assets that do not meet the definition of restricted or net investment in capital assets.

The Foundation's assets totaled \$201.1 million as of June 30, 2025. Current assets contribute \$16.3 million and consist primarily of funds available to meet current obligations. Noncurrent assets contribute \$184.8 million and consist primarily of investments expected to be held and net capital assets. This balance reflects an increase of \$7.6 million compared to June 30, 2024. The total change in assets is primarily related to an increase in investments of \$8.3 million, an increase in other receivables net of \$3.0 million, and a decrease in net capital assets of \$2.5 million.

The Foundation's liabilities total \$29.8 million as of June 30, 2025. This is composed of \$4.6 million in current liabilities including accounts payable and accrued expenses along with current year debt service amounts. Total noncurrent liabilities are \$25.3 million which consists of long-term debt and other obligations extending out more than one year. The amount of total liabilities reflects a decrease of \$3.5 million related primarily to a paydown of bonds for student housing.

The Statements of Net Position (Continued)

Deferred inflows of resources of \$1.8 million represent planned giving donations made under split interest agreements and will be available in future years, net of liabilities owed to other beneficiaries.

Net position totals \$169.5 million and is made up of \$7.2 million of net investment in capital assets and \$4.6 million in unrestricted net assets. It also includes \$74.7 million in restricted expendable net assets and \$83.0 million in restricted nonexpendable net assets. The total net position has increased by \$11.0 million compared to prior year. The primary contributor to this change was an increase of restricted expendable net assets by \$7.3 million and an increase in restricted nonexpendable net assets by \$2.5 million.

The Statements of Revenues, Expenses, and Changes in Net Position

Change in net position is based on the activity presented in the statements of revenues, expenses, and changes in net position. The purpose of this statement is to present the revenues earned and the expenses incurred by the Foundation. Revenue, expenses, and changes in net position of the Foundation for the years ended June 30, 2025 and 2024 are presented in the following table:

	2025	2024	2025-2024		2023	2024-2023

The Statements of Revenues, Expenses, and Changes in Net Position (Continued)

Operating expenses total \$26.5 million and are primarily composed of \$11.4 million related to the student housing system, \$8.8 million of services to the University, \$3.0 million of scholarships to students, and \$2.5 million in general and administrative expenses.

Operating income is \$7.5 million, nonoperating revenues are \$1.4 million, and contributions to endowments are \$2.0 million for fiscal year 2025. As a result, net position increased by \$11.0 million.

Overall, financial position and operations were favorable with investments showing positive returns by approximately \$14.9 million. Total expenses were up approximately \$1.3 million at \$26.5 million and revenues (operating and nonoperating) increased by \$2.8 million. Although inflation rates have stabilized, the economic outlook still remains uncertain with inflation increasing at rates above 2% year over year and the Federal Reserve monitoring interest rates to combat inflation risking a recession as a result.

The Statements of Cash Flows

The statement of cash flows is important to readers because it shows the Foundation's ability to generate cash required for its operations and payment of obligations in a timely fashion. It also provides information regarding decisions made by management as to the use of cash available.

The statement of cash flows shows the cash provided by and used in operating, investing, capital and related financing activities, and noncapital activities.

- Operating activities include funds received (i.e. private donors, student rents, interest and dividends) and payments (i.e. for programs, programmatic equipment, materials, and supplies) made for the Foundation and the University.
- Investing activities represent funds used to purchase investments, proceeds from sales of investments, and the funds held for West Florida Historic Trust.
- Capital and related financing activities include the purchase of property and equipment and the principal payments on the bonds.
- Noncapital and related financing activities include funds received for endowments and university support.

Economics Factors That Will Affect the Future

The economic outlook of the Foundation is affected by several factors, including contributions, return on investments, and the State of Florida legislative changes. Annual contributions and endowments have a direct impact on enhancing University programs. The Foundation is not aware of currently known facts, decisions, or conditions that are expected to have a significant effect on the overall financial position or results of operations during the 2026 fiscal year.

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025 AND 2024

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity:

The University of West Florida Foundation, Inc. (the "Foundation") was organized as a Florida not-for-profit corporation in 1965 for the purpose of soliciting, receiving, and administering gifts and bequests of property and funds for scientific, educational, and charitable purposes, all for the advancement of the University of West Florida (the "University") and its objectives. The Foundation is a direct-support organization of the University, as provided for in Section 1004.28, Florida Statutes, and Rule 6C-9.011, Florida Administrative Code, and therefore is considered a component unit of the University.

The Foundation is considered a discrete component unit of the University due to the University's governance and budgetary oversight responsibility and due to the Foundation's significant operational and financial relationship with the University.

The Foundation owns the Student Housing System and is responsible for the management thereof, along with the associated revenues, expenses and debt related to the operation of these projects as further described in Note 11 to the financial statements.

Basis of Accounting:

The Foundation follows standards of accounting and financial reporting that are generally accepted in the United States of America for governmental entities. The Foundation's financial statements are presented using the economic resources measurement focus and the accrual basis of accounting, which recognizes revenue when earned and expenses as incurred.

Fund Accounting:

To help ensure observance of limitations and restrictions placed on the use of resources, the accounts of the Foundation are maintained in accordance with the principles of fund accounting. This is the procedure by which resources for various purposes are classified for accounting and reporting purposes into funds established according to their nature and purpose. Separate accounts are maintained for each fund in the general ledger. For reporting purposes, these funds are combined into one column.

The net position of the Foundation is reported in three categories as follows:

Net Investment in Capital Assets - Represents funds that consist of capital assets, net of accumulated depreciation and reduced by the outstanding balances of any revenue bonds that are attributable to and expended on the acquisition, construction or improvement of those assets net of any related unspent debt proceeds.

Fund Accounting (Continued):

Unrestricted - Represents funds that are available without restriction for carrying out the Foundation's objectives.

Restricted - Restricted net position represents net position that is restricted by constraints placed on the use of resources either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or imposed by law through enabling legislation. Restricted funds include:

Expendable: Represents funds that are subject to donor, grantor or other outside party restrictions to use for the benefit of various programs at the University and includes the expendable portion of endowment funds. These programs include endowed chairs and professorships, research funding and student scholarships.

Nonexpendable: Represents the nonexpendable portion (corpus) of endowment funds that are subject to donor, grantor, or other outside party restrictions for the benefit of various programs at the University. These programs include endowed chairs, professorships, and student scholarships. The corpus of the permanent endowments is retained and reported in nonexpendable endowments, while the net earnings or losses on endowment funds are included in expendable funds available for expenditure.

As a general practice, the Foundation applies restricted resources when an expense relating to the purpose restriction imposed by the outside party is incurred before unrestricted resources are used.

Operating and Nonoperating Activities:

Operating revenues and expenses represent ongoing activities of the Foundation, as well as ongoing activities that are in support of the University's programs. Operating activities relate to the Foundation's principal function, which is to solicit, receive, hold, invest and administer charitable contributions for the benefit of the University. Operating revenues also include rental revenue from student housing facilities. Nonoperating revenues (losses) include certain revenue sources that provide additional funding not included in operating revenues and include University related support and endowment contributions, offset by disposal of capital assets.

Cash and Cash Equivalents:

The amount reported as cash and cash equivalents consists of cash on hand and cash in demand accounts.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Cash and Cash Equivalents (Continued):

For the purpose of reporting cash flows, the Foundation considers all highly liquid investments with original maturities of three months or less to be cash equivalents.

Noncurrent cash and cash equivalents at June 30, 2025 and 2024, include cash that is restricted or is not expected to be used during the Foundation's next fiscal year.

Restricted Cash Reserves:

Restricted cash reserves represent funds held by bond trustees for construction of on-campus housing, debt service, and maintenance of reserves required under the bond indentures.

Investments:

The Foundation has created various pools for the investment of funds on a consolidated basis. All investments are reported at fair value. Investments with maturities less than 12 months and investments placed with the State Treasury Special Purpose Investment Account ("SPIA") are classified as current investments. These current investments were created to provide liquidity and be a source of funds to meet planned or anticipated expenses for current operations. Investments classified as noncurrent primarily represent the corpus of donor restricted contributions and amounts subject to other internal designations by the Board of Directors and management as well as investments not expected to be used during the next fiscal year.

Investments placed with SPIA include accounts for Foundation operations, as well as accounts restricted for housing operations. SPIA has established a minimum balance for each account. Each SPIA participant is required to give six months' notice for all withdrawals below the floor, which is calculated as forty percent of the previous three months' average daily balance.

Contributions Receivable:

In accordance with GASB Statement No. 33, *Accounting and Financial Reporting for Nonexchange Transactions*, all non-endowed pledges that have met all eligibility requirements that are verifiable, probable, and measurable are recorded at their estimated realizable value on a discounted basis. An allowance for uncollectible contribution receivables is estimated and recorded based on management's judgment of the collectability in future years.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Capital Assets:

Capital assets consists of office equipment, student housing system, future use, or sale, and works of art. Purchased assets are recorded at cost, while donated assets are recorded at fair market value at the date of donation. Where a contributed asset has an uncertain fair market value due to deed restrictions, the Foundation records no value for the property. The Foundation has a capitalization threshold of \$20,000. Depreciation is allocated over the estimated useful lives of the respective assets on a straight-line basis as follows:

	<u>Years</u>
Property and improvements	7 - 45
Equipment and software	3 - 10

The Foundation capitalizes interest costs on borrowing incurred during the construction of qualifying assets. The capitalized interest is amortized over the life of the borrowing.

Split-Interest Agreements:

The Foundation serves as trustee for split-interest agreements classified as charitable gift annuities and charitable remainder unitrust. Assets received under charitable gift annuities and charitable remainder unitrust are recorded at fair market value and the liabilities to make future payments under these agreements are recorded at present value, with the difference reported as deferred inflows of resources. These assets and liabilities are adjusted to reflect changes in their fair market value and present value. The determination of the present value of liabilities under charitable gift annuities and charitable remainder unitrust are based on discount rates and mortality tables established by the Internal Revenue Code and Regulations. The Foundation is a charitable recipient of a charitable lead trust. Assets received under the charitable lead trust are recorded at fair market value, with changes recorded as deferred inflows of resources. The determination of the future values is discounted in the same manner as contribution receivables based on the prevailing five-year Treasury constant maturities.

Deferred Inflows of Resources:

The Foundation reports increases in net position that relate to future periods as deferred inflows of resources in a separate section of the statement of net position. Deferred inflows of resources relate to split-interest agreements.

Revenue Recognition:

Contributions of cash, investment securities or pledges receivable are recognized at fair value when all eligibility requirements have been met and are recognized when funds are received. Property and equipment donated to the Foundation are recorded at their estimated values at the dates of donation. Conditional promises to give are not recognized until the condition has been met. Additions to endowments and other trusts are not recognized until the resources are received and all eligibility requirements have been met.

Each state university board of trustees is authorized to permit the use of property, facilities, and personal services at any state university by any university direct support organization per Section 1004.28, Florida Statutes. Administrative and fiscal services, office space, and other miscellaneous support services are provided to university direct support organizations by the University. As discussed in Note 6, the Foundation records the University's support as contributed services on the statement of revenues, expenses, and changes in net position.

Bond Discounts and Premiums:

Bond discounts and premiums are amortized over the terms of the bonds using the straight-line method since the difference between this method and the effective interest method is not material to the financial statements. Bond discounts and premiums are presented as an adjustment to the face amount of bonds payable.

Compensated Absences:

Employees of the Foundation are entitled to paid vacation and sick days depending on job classification, length of service and other factors. Upon termination of employment, an employee will be paid for accumulated annual leave. In addition, an employee with ten or more years of service may be paid for a portion of their accumulated sick leave.

At June 30, 2025 and 2024, accrued compensated absences totaling \$490,057 and \$752,280, respectively, were reported as a component of accrued expenses in the accompanying financial statements.

Other Program Services:

Other program services consist of expenditures to support the objectives of the University and/or its various colleges and departments.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Income Taxes:

The Foundation is a nonprofit organization exempt from federal income tax under Section 501(c)(3) of the Internal Revenue Code. However, income from certain investment activities not directly related to the Foundation's tax-exempt purpose is subject to taxation as unrelated business income.

In addition, the Foundation qualifies for the charitable contribution deduction under Section 170(b)(1)(A)(vi) and has been classified as an organization other than a private foundation under Section 509(a)(1).

Use of Estimates:

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Retirement Plan and Other Post-Employment Healthcare Benefits:

As discussed in more detail in Note 10, Foundation employees may elect to participate in the Florida Retirement System consisting of a defined benefit plan; the Deferred Retirement Option Program, an alternative method for retirement payment; and the Public Employee Optional Retirement Program, a defined contribution plan. These plans have vesting and service requirements. Certain eligible faculty and administrators may also elect to participate in the Optional Retirement Program, a defined contribution plan which provides full and immediate vesting of contributions. Certain key University personnel participate in a money-purchase retirement savings plan with specific vesting schedules.

As required by Section 112.0804, Florida Statutes, retirees and their eligible dependents are provided the same health care coverage as is offered to active employees at the same premium cost (borne by the retiree) applicable to active employees. The University allows retirees to participate in the plan at reduced or blended group rates. These rates may provide an implicit subsidy for retirees because, on an actuarial basis, their current and future claims are expected to result in higher costs to the plan on average than those of active employees.

Since all employees who work for the Foundation are employees of the University, the liabilities for pensions and other post-employment benefits is reported by the University and not reflected on the Foundation's financial statements.

NOTE 2 - CASH AND INVESTMENTS (Continued)

Custodial Credit Risk - Deposits:

Custodial credit risk for deposits is the risk that, in the event of a depository financial institution's failure, the Foundation's deposits may not be returned to it. It is the Foundation's policy to monitor deposits on account to avoid deposits that are not covered by depository insurance or are uncollateralized. The Foundation's cash balances held at financial institutions are insured by the Federal Deposit Insurance Corporation ("FDIC") up to certain limits. At June 30, 2025 and 2024, the Foundation's uninsured cash balance at financial institutions totaled approximately \$1,094,000 and \$1,180,000, respectively.

Additional financial instruments that potentially subject the Foundation to custodial credit risk consist of cash deposits at brokerage firms. These accounts are not insured by the FDIC. At June 30, 2025 and 2024, the Foundation maintained cash and cash equivalent balances at these institutions totaling approximately \$3,898,000 and \$4,462,000, respectively.

Management monitors the soundness of the financial institutions and does not believe the Foundation is exposed to any significant credit risk on cash and cash equivalents.

Investments:

The Foundation has an investment policy which provides guidelines for the investments of Foundation assets. The purpose of these assets is to further the overall mission of the University. The objectives of the assets are the enhancement of capital and real purchasing power while limiting exposure to risk of loss. Real purchasing power of real rate of return will be defined as returns in excess of inflation as defined by Consumer Price Index. The investment policy provides information on authorized asset classes, target allocations and ranges of acceptable investment categories.

Investments (Continued):

As further discussed in Note 6, on July 1, 2016, the Foundation entered into a cash and securities agreement with the Pensacola Museum of Art (“PMA”) for the furtherance of the PMA mission. The Foundation acts as a manager of PMA’s certificates of deposit and mutual funds which are included in the Foundation’s investment balance. These investments are kept separate from the Foundation’s investment pool. Balances at June 30 were as follows:

	2025	2024
Certificates of deposit	\$ 522,678	\$ 604,683
Mutual funds	242,482	217,391
	\$ 765,160	\$ 822,074

At June 30, 2025 and 2024, housing maintained contingency and improvement reserves which consisted of investments in the amount of \$3,170,803 and \$4,453,954, respectively. See Note 7 for further discussion of these reserves.

At June 30, 2025 and 2024, the fair market value of all endowed investments was at a level above the minimum required by donor stipulations, totaling \$31,645,174 and \$24,742,017, respectively. However, individual donor-restricted endowment funds were deficient, totaling \$40,317 and \$118,602, respectively, where the fair value of the investments at June 30, 2025 and 2024, was less than the level required by the donor stipulations. See Note 9 for further discussion of endowments.

The net return on investments was as follows:

	Total Unrestricted	Total Expendable	Total Housing
Year Ended June 30, 2025 -			
Dividends and interest	\$ 9,552	\$ 2,484,607	\$ 335,234

NOTE 2 - CASH AND INVESTMENTS (Continued)

Custodial Credit Risk - Investments:

Custodial risk for investments is the risk that, in the event of the failure of the counterparty, the Foundation will not be able to recover the value of its investments or collateral securities that are in possession of an outside party. It is the Foundation's policy to require that all securities be held by the Foundation's agent in the Foundation's name. The Foundation's investments as of June 30, 2025 and 2024, excluding mutual funds, alternative investments, and the external investment pool are uninsured and registered with securities held by the Foundation's agent in the Foundation's name. Mutual funds and alternative investments do not have specific securities, are uninsured and are held in the book entry form. The external investment pool consists of the Foundation's pro-rata ownership in the pool itself, not in the underlying securities. The pool is invested in a combination of short-term liquid instruments and intermediate term fixed income securities and is uninsured.

Concentration of Credit Risk:

Concentration of credit risk is the risk of loss attributed to the magnitude of an entity's investment in a single issuer. The Foundation's investment policy requires diversification of investments sufficient to reduce the potential of a single security, single sector of securities, or single investment manager having a disproportionate or significant impact on the portfolio. Guidelines for individual sectors of the portfolio further indicate percentage limitations.

Disclosure of any issuer of investments that in the aggregate is 5% or more of the portfolio is required to be disclosed as a concentration of credit risk (investments issued by or explicitly guaranteed by the US Government and investments in mutual funds, external investment pools and other pooled investments are exempt). As of June 30, 2025 and 2024, there were no concentrations of credit risk.

Credit Risk:

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. At June 30, 2025 and 2024, the credit quality ratings of the Foundation's debt securities were as follows:

<u>Standard and Poor's Credit Rating</u>	<u>2025</u>	<u>2024</u>
AAA	\$ 9,750,980	\$ 12,154,509
AA	7,437,778	3,209,043

Unrated	<u>144,589</u>	<u>3,642</u>
	<u>\$ 31,725,466</u>	<u>\$ 27,442,688</u>

As of June 30, 2025 and 2024, the external investment pool was rated at AA-f by Standard and Poor's.

Alternative investments consist of funds that may include underlying securities including equities, fixed income, real estate, and other types of investments. The schedule above only reflects the credit risk related to debt securities that are directly held by the Foundation.

Interest Rate Risk:

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The Foundation's policy for managing its exposure to fair value loss occurring from interest rate risk is through maintaining diversification of its investments and investment maturities so as to minimize the impact of downturns in the market as stated above.

As of June 30, 2025, the Foundation's debt securities had the following weighted average maturities:

<u>Total</u>		<u>1-5 years</u>	<u>More than 5 years</u>
<u>Fair Value</u>

Total Fair Value	1-5 years	More than 5 years
\$ 27,442,688	\$ 15,640,211	\$ 11,802,477

As of June 30, 2025 and 2024, the external investment pool has an effective duration of 3.33 and 3.23 years, respectively.

Alternative investments consist of funds that may include underlying securities including equities, fixed income, real estate, and other types of investments. The schedule above only reflects the interest rate risk related to debt and equity securities that are directly held by the Foundation.

Foreign Currency Risk:

Foreign currency risk is the risk that changes in exchange rates between the U.S. dollar and foreign currencies could adversely affect an investment's fair value. It is the Foundation's policy to limit its exposure to foreign currency risk by limiting the asset allocation in international investments in accordance with the established targets in the approved investment policy. As of June 30, 2025 and 2024, the Foundation did not have any direct investments subject to this risk. As of June 30, 2025 and 2024, the Foundation's assets were held in U.S. currency. The currency risk on international and global assets is absorbed by the underlying investment managers.

NOTE 2 - CASH AND INVESTMENTS (Continued)

Fair Value Measurements:

The Foundation utilizes various methods to measure fair value of its assets and liabilities on a recurring basis. U.S. GAAP establishes a hierarchy that prioritizes inputs to valuation methods. The three levels of hierarchy are:

Level 1: Unadjusted quoted market prices in active markets for identical assets or liabilities.

Level 2: Observable inputs other than quoted market prices and can include active markets and markets not considered to be active.

Level 3: Unobservable inputs that are supported by little or no market activity.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent the valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest level of any input that is significant to the fair value measurement in its entirety. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. Changes in valuation techniques may result in transfers in or out of an investment's assigned level as described above.

NOTE 2 - CASH AND INVESTMENTS (Continued)

Fair Value Measurements (Continued):

The following methods and assumptions were used to estimate the fair value for each class of asset and liability, measured at fair value:

Equity securities - Investments in equity securities are measured at fair value using quoted market prices. They are classified as Level 1 as they are traded in an active market for which closing stock prices are readily available.

Debt securities - Investments in fixed income securities are classified as Level 1 as they trade with sufficient frequency and volume to enable the Foundation to obtain pricing information on an ongoing basis. However, a small segment of debt security holdings is in a High Yield Commingled Fund where there are inputs, other than quoted prices included in Level 1, that are observable, either directly or indirectly, and therefore included in Level 2.

External investment pool - Investments in the Special Purpose Investment Account ("SPIA") of the Florida Treasury Pool are classified as Level 3. Participants contribute to this Treasury Pool on a dollar basis. These funds are commingled, and a fair value of the pool is determined from the individual values of the securities. The fair value of the securities is summed, and a total pool fair value is determined. A fair value factor is calculated by dividing the pool's total fair value by the pool participant's total cash balances. The fair value factor is the ratio used to determine the fair value of an individual participant's pool balance. At June 30, 2025 and 2024, the unaudited fair value factor was 1.003 and 0.9958, respectively. The factor is determined by an independent pricing service which uses quoted market prices as well as multifactor models for securities which have no quoted market prices. Additional information may be found in Note 2 to the State of Florida Comprehensive Annual Financial Report ("CAFR") and at the Treasury's website, www.fltreasury.org.

Alternative investments - Investments in private equity partnerships for which there is no readily determinable fair value is classified as Level 3 as the valuation is based on significant unobservable inputs.

Private equity and real estate investment funds for which there are not readily determinable fair values are classified as Level 3 as the valuation is based on significant unobservable inputs. Private equity real estate are partnerships formed for the purpose of acquiring, holding, managing and selling income producing real estate and real estate related assets including interest in joint venture development projects for current income, investment and capital appreciation over a three to five year holding period.

NOTE 2 - CASH AND INVESTMENTS (Continued)

Fair Value Measurements (Continued):

Funds held in trust by others - Funds held in trust by others are measured at fair value using quoted market prices. They are classified as Level 1 as they are traded in an active market for which closing stock prices are readily available. The liabilities are classified as Level 3 as they are measured at the present value of the future distributions the Foundation expects to receive over the term of the agreements.

Contributions receivable - Unconditional promises to give that are expected to be collected in future years are recorded at an estimated fair value determined using the discounted present value of expected cash flows. They are classified as Level 3 as the discounts on those amounts are computed using a risk adjusted discount rate applicable at the time promises are received.

Due to WFHT - The amount payable to WFHT is classified as Level 2 as the value correlates directly to the fair value of WFHT's interest in the Foundation's investment pool.

While the Foundation believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

NOTE 3 - CONTRIBUTIONS RECEIVABLE

As of June 30, 2025 and 2024, the Foundation records unconditional promises to give using fair value adjusted for the current year-end at discount rates, ranging from 0% to 44% based on the prevailing five-year Treasury constant maturities. As of June 30, 2025 and 2024, the fair value adjustment to contributions revenue was \$505,902 and \$651,572, respectively. Multi-year contributions receivable are classified within Level 3 of the fair value hierarchy because determination of the present value of future cash flows is based on little or no market data and requires management to develop their own assumptions. In 2025 and 2024, there were no transfers of contributions receivable into or out of Level 3.

Unconditional promises to give at June 30, 2025 and 2024, are due as follows:

	2025	2024
In one year or less	\$ 1,813,634	\$ 1,698,684
Between one and five years	2,723,278	2,697,988
Greater than five years	520,071	1,071,117
Total contributions receivable, gross	5,056,983	5,467,789

Time-restricted and endowment contributions receivable (gross) not recognized in the statement of net position under the provisions of GASB No. 33 were \$8,690,103 and \$9,532,639 at June 30, 2025 and 2024, respectively.

Conditional promises to give for state matching funds from the State of Florida Major Gifts Trust Fund amounted to \$2,438,052 at June 30, 2025 and 2024. The funds will be forwarded to the Foundation in the event that future appropriations are made by the state legislature.

NOTE 4 - OTHER RECEIVABLES

Other receivables at June 30, 2025 and 2024, consist of the following:

	2025	2024
Student loan fund	\$ 68,340	\$ 68,340
Rent, less allowance of \$345,719 in 2025 and \$304,125 in 2024	200,633	160,334
Settlement receivable	2,970,000	-
Other	37,107	23,894
Net other receivables	\$ 3,276,080	\$ 252,568

The Student Loan Fund, established through contributions, provides low-interest, short-term loans to students. All transactions are conducted through the University's cashiers' office. The Student Loan Program is made up of accounts receivable for loans to students, funds held at the University available for loans to students, and funds invested in a quasi-endowment at the Foundation. As of June 30, 2025 and 2024, the Foundation held \$359,165 and \$326,131, respectively, that was invested in a quasi-endowment. Earnings in the quasi-endowment are transferred to the University, as needed, to support the Student Loan Program.

Subsequent to June 30, 2025, the Foundation's Student Housing System finalized a settlement agreement with a construction firm dated July 3, 2025 following a years long dispute related to building defects in President's Hall, which is part of the University's student housing system. The settlement agreement was agreed upon and arose from conditions existing as of June 30, 2025, therefore, the total settlement amount of \$3,300,000, less contingency fee of \$330,000, resulted in a recognized receivable as of June 30, 2025 of \$2,970,000 and is included in other receivables, net on the statement of net position. After fees and related repairs, the net settlement proceeds resulted in a gain of \$1,353,737 and is included in student housing system – other nonoperating revenues on the statements of revenues, expenses, and changes in net position for the year ended June 30, 2025. Under the terms of the agreement, the entire settlement amount was to be paid within 20 days of the execution date. Subsequent to June 30, 2025, the Foundation received the settlement amount in full on July 21, 2025.

NOTE 5 - CAPITAL ASSETS (Continued)

Timeless Tanglewood property represents a portion of an estate that was gifted to the Foundation in 2018 which consists of a building and furniture and fixtures. The remaining gift is included in land and works of art & historical treasures, stated above. This estate was recognized as the UWF President's Club at Timeless Tanglewood and was used to host related events. In April 2024, the entire Tanglewood Estate was sold excluding a couple items held for future sale. This sale resulted in a loss on sale of \$3,622,274 and is included in other nonoperating losses on the statements of revenues, expenses, and changes in net position for the year ended June 30, 2024. The net proceeds from the sale will provide future scholarships to students.

The Foundation routinely evaluates the carrying value of its long-lived assets. The Foundation records impairment losses on long-term assets when events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable. If such assets are considered to be impaired, the charge to operations is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount or fair value less costs to sell.

During the year ended June 30, 2016, management decided to take the Southside units, which are part of the University's student housing system, offline. This action was compliant with the covenants in Section 5.14 of all the bond agreements, which allow housing facilities to be abandoned, sold, converted, razed or removed in the event that the facilities are found to be not capable of producing positive net revenues. Management has been considering this action as a portion of these units have been taken offline over the past few years. The Southside units, originally constructed in the 1960's, are the oldest units and maintenance costs have increased each year. It was economically unfeasible to continue to operate these units in their current capacity. In September 2018, the Foundation transferred six of the fifteen units to the University for non-housing use resulting in a loss on transfer of \$300,277. During fiscal year 2019, management determined the remaining nine South Side Housing units to be materially and permanently impaired for housing use with a fair market value of zero. These remaining units were considered idle property, with a net carrying value of zero. In March 2024, the Foundation transferred the remaining nine of the fifteen units to the University for non-housing use. As of June 30, 2025, the Foundation no longer holds any of the Southside units.

NOTE 6 - RELATED PARTY TRANSACTIONS

At June 30, 2025 and 2024, the Foundation and the University jointly determined an amount for the Foundation to deposit with the University to be used to manage and pay expenses for the Foundation's operations. Payroll, other University departments, and program expenses that are funded from the Foundation are paid through the University utilizing these funds. At June 30, 2025 and 2024, the cash balances held by the University were \$790,833 and \$863,541, respectively, and were included in due from University.

NOTE 6 - RELATED PARTY TRANSACTIONS (Continued)

In March of 2013, the Foundation entered into a Memorandum of Understanding with the University of West Florida Historic Trust (“WFHT”), another DSO of the University, where WFHT may transfer current cash assets to the Foundation to invest on their behalf. These funds are invested as a Quasi-Endowment with the Foundation and will be part of the overall investment pool subject to spending and investment policies of the Foundation as agreed to in the memorandum. Funds invested by WFHT in the Foundation’s investment pool totaled \$1,303,261 and \$1,269,157 at June 30, 2025 and 2024, respectively, and are included in due to WFHT.

On July 1, 2016, the assets of Pensacola Museum of Art (“PMA”), an independent not-for-profit corporation, became part of the University. On that date, the Foundation was gifted a historic building, land, a fine arts collection, furniture and equipment, cash and cash equivalents, a permanent endowment, and other current assets from the dissolving entity totaling approximately \$4.2 million. The historic building and land were transferred to the University and the fine arts collection, furniture and equipment, and all other assets were transferred to WFHT, with the exception of the permanent endowment and cash and cash equivalents. On July 1, 2016, the Foundation entered into a cash and securities agreement with PMA for the furtherance of the PMA mission, as discussed in Note 2. As such, the permanent endowment and cash and cash equivalents remained with the Foundation, which stewards the endowment on behalf of PMA.

As a direct support organization, the Foundation received support from the University in performance of its mission. Salaries and benefits of University employees providing such support total approximately \$1,148,000 and \$857,000 in 2025 and 2024, respectively, and are included in general and administrative expenses. The University also provides centralized payroll processing and IT support that the Foundation estimates as immaterial to these financial statements.

In addition, the Foundation must reserve 10% of prior year audited revenues in the Housing operating reserves account (separately stated in Note 2). The Foundation must also make an annual deposit of \$200 per available bed into the Housing replacement reserves account. Any remaining reserves are considered Housing contingency and improvement reserves, which totaled \$3,170,803 and \$4,453,954 at June 30, 2025 and 2024, respectively. The Trust indenture clarifies how and in what order each reserve account can be utilized.

The Foundation was not aware of any violations of the covenants at June 30, 2025 or 2024.

The default provisions for the direct placement revenue bonds differ in the following financial attributes:

Series 2016B - In the event the Series 2016B Bond is determined to be taxable by the Internal Revenue Service or the tax laws or regulations are amended, including, but not limited to, causing the Series 2016B Bond to be taxable, subject to minimum tax, alternative minimum tax, or a change in the corporate tax rate, the interest rate on the Series 2016B Bond can be adjusted by the holder to achieve the same after tax yield. In addition, any amount due under the Series 2016B Bond not paid when due shall be subject to payment of a default rate equal to the interest rate on the 2016B Bond plus 2% per annum from and after ten (10) days after the date due.

Series 2016C - In the event of a default that continues beyond any applicable cure period, the Series 2016C Bond shall be subject to a default rate of interest equal to the then applicable rate of interest plus 2.50% until such default has been cured, waived, or the 2016C Bond has been paid in full.

 Total nonexpendable net position	 \$ 82,994,233	 \$ 80,524,593

NOTE 9 - ENDOWMENTS

The Foundation’s endowments consisted of 365 and 356 individual funds at June 30, 2025 and 2024, respectively, and were established for a variety of purposes. The endowments include both donor-restricted endowment funds and funds designated by the governing board to function as endowments. As required by accounting principles generally accepted in the United States of America, net position associated with endowment funds, including funds designated by the governing board to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions.

As discussed in Note 6, the Foundation acts as a steward of PMA’s cultural endowment program. As of June 30, 2025 and 2024, the endowment of \$765,160 and \$822,074, respectively, which excludes cash and cash equivalents of \$177,619 and \$59,406, respectively, does not follow the Foundation’s spending policy. All income from the endowment will provide support to PMA’s mission.

Interpretation of Relevant Law -

The Foundation’s governing board with guidance from legal counsel has interpreted the Florida Uniform Prudent Management of Institutional Funds Act (“Florida UPMIFA”) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary.

UNIVERSITY OF WEST FLORIDA FOUNDATION, INC.
A COMPONENT UNIT OF THE UNIVERSITY OF WEST FLORIDA
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2025 AND 2024

NOTE 9 - ENDOWMENTS (Continued)

Funds with Deficiencies -

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor or the Florida UPMIFA requires the Foundation to retain as a fund of perpetual duration. In accordance with accounting principles generally accepted in the United States of America, deficiencies of this nature are reported as a loan from unrestricted net assets. For the period ending June 30, 2025 and 2024, the amount of the loan was \$-0- and \$45,187, respectively. The loan considers donor-restricted endowments where the fair value of the investments was less than donor stipulations plus amounts available for spending. These deficiencies resulted from unfavorable market fluctuations and continued appropriation for certain programs that was deemed prudent by the governing board.

Return Objectives and Risk Parameters -

The Foundation's governing board has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowments while seeking to maintain the purchasing power of the endowment assets. Endowment assets are invested in a manner that is intended to produce the desired minimum rate of return which is equal to the Consumer Price Index ("CPI") plus 400 basis points (4%) for spending, plus an amount for the operating budget on an annualized basis.

The Foundation's investment committee recognizes that prudent investing requires taking reasonable risks in order to raise the likelihood of achieving the targeted investment returns. Research has demonstrated that portfolio risk is best minimized through diversification of assets. The portfolio of funds is structured to maintain prudent levels of diversification. In terms of relative risk, the volatility of the portfolio is expected to be in line with general market conditions.

Strategies Employed for Achieving Objectives -

To satisfy its long-term rate-of-return objectives, the Foundation relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Foundation targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk constraints.

NOTE 9 - ENDOWMENTS (Continued)

Spending Policy and How the Investment Objectives Relate to Spending Policy -

The Foundation's spending rate is calculated on a three-year average of the market value of the endowments as of June 30. Spending is awarded for endowments greater than \$25,000 after a one year waiting period. The approved spending rate was 4.00% for fiscal years ended June 30, 2025 and 2024.

The Foundation strives to balance the donor's desire to fund current program, faculty, and scholarship needs with the commitment to preserve over time the donor's gifts to the endowment corpus. The Foundation takes seriously its responsibility to provide prudent fiduciary management. Despite utilizing a well-diversified investment portfolio strategy and the best good faith efforts of its governing board, there will be times when the fair market value of an endowment may fall below the endowment corpus value creating underwater endowments. In the event an endowment falls underwater, the Foundation will use a step-down spending allocation method to slow the spending from the endowment. The intent of this policy is to attempt to continue to provide spending to support the scholarships, programs, and faculty as designated by the donor and within the limits of Florida laws, while also allowing the endowment to recover more quickly from economic downturns.

The Foundation's operating budget has generally been two percent (2%) of the three-year average of the market value of the investment portfolio. To accommodate both the needs of the university and keeping with the goal of managing the endowment portfolio for the long term the governing board has fixed the amount at a rate of 1.75%.

Changes in balances for donor and board restricted endowments by net position class as of June 30, 2025 are as follows:

The earnings from investments, and expenditures from those earnings, related to nonexpendable balances for the years ended June 30, 2025 and 2024 are classified as expendable balances.

As of June 30, 2025 and 2024, \$1,558,585 and \$1,411,183, respectively, of net assets have been designated as quasi-endowment funds to support the missions of the University. The quasi-endowments resulting from internal designations are classified as unrestricted net position. The quasi-endowments resulting from donor designations are classified as expendable net position.

NOTE 10 - RETIREMENT PLAN

Certain Foundation employees working in regularly established positions of the University are covered by the Florida Retirement System (“FRS”), a State-administered cost-sharing, multiple-employer, public employee defined benefit retirement plan (“Plan”). The Plan provisions are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and FRS Rules, Chapter 60S, Florida Administrative Code, wherein Plan eligibility, contributions, and benefits are defined and described in detail. The FRS is a single retirement system administered by the Department of Management Services, Division of Retirement, and consists of two cost-sharing, multiple-employer retirement plans and other non-integrated programs. These include the Plan, a Deferred Retirement Option Program (“DROP”), and a defined-contribution plan, referred to as the Public Employee Optional Retirement Program (“PEORP”). Participating employers include all State departments, counties, district school boards, universities and community colleges. Many municipalities and special districts have elected to be participating employers. Essentially all regular employees of participating employers are eligible.

Employees in the Plan prior to July 1, 2011, vest at six years of service, and employees enrolled after July 1, 2011, vest at eight years of service. All vested members are eligible for normal retirement benefits at age 62 or at any age after 30 years of service, which may include up to four years of credit for military service.

NOTE 10 - RETIREMENT PLAN (Continued)

The Plan provides retirement, disability, death benefits, and annual cost-of-living adjustments. The University, as an employer participating in the Plan, paid an amount between 14.03% to 33.24% and 13.63% to 34.52% for 2025 and 2024, respectively, of each individual's salary to the retirement fund. Prior to July of 2011, the Plan was a non-contributory program for the employee. During 2025 and 2024, employees paid an amount of 3.00% into the Plan. Retirement expense for employees participating in this plan was \$227,327 and \$217,367 for the years ended June 30, 2025 and 2024, respectively.

DROP, subject to provisions of Section 121.091, Florida Statutes, permits employees eligible for normal retirement under the plan to defer receipt of monthly benefits payments while continuing employment with an FRS employer. An employer may participate in DROP for a period not to exceed 60 months after electing to participate. During the period of DROP participation, deferred monthly benefits are held in the FRS Trust Fund and accrue interest. Retirement expense for employees participating in the plan was \$12,042 and \$-0- for the years ended June 30, 2025 and 2024, respectively.

As provided in Section 121.4501, Florida Statutes, eligible FRS members may elect to participate in the PEORP in lieu of the FRS defined-benefit plan. Employees already participating in the State University System Optional Retirement Program or the DROP are not eligible to participate in this program. Employer contributions are defined by law, but the ultimate benefit depends in part on the performance of investment funds. The PEORP is funded by employer contributions that are based on salary and membership class (Regular Class, Senior Management Service Class, etc.). Contributions are directed to individual member accounts, and the individual members allocate contributions and account balances among various approved investment choices. Employees in PEORP vest at one year of service. Retirement expenses for employees participating in this plan were \$109,092 and \$93,509 for the years ended June 30, 2025 and 2024, respectively.

Pursuant to Section 121.35, Florida Statutes, the Florida Legislature created an Optional Retirement Program ("Program") for eligible State University System faculty and administrators. The Program is a defined contribution plan, which provides full and immediate vesting of all contributions submitted to the participating companies on behalf of the participant. Employees in eligible positions may make an irrevocable election to participate in the Program rather than the Plan, and purchase retirement and death benefits through contracts provided by certain insurance carriers. The employing university contributes on behalf of the participant an amount equal to a percentage of the participant's gross monthly compensation. The participant may contribute by salary deduction an amount not to exceed the percentage contributed by the University to the participant's annuity account. Contributions made to the Program for fiscal years ended June 30, 2025 and 2024 totaled \$106,478 and \$82,094, respectively.

The University has established a qualified defined contribution plan under Section 401(a) of the Internal Revenue Code of 1986, as amended ("Code"), that is a governmental plan as defined under Code Section 414(d), to provide retirement benefits to eligible employees. Retirement expenses paid by the Foundation in 2025 and 2024 for the University President participating in the plan totaled \$99,790 and \$89,651, respectively.

NOTE 11 - STUDENT HOUSING SYSTEM

The Foundation has a sublease agreement with the Florida Board of Education of the State of Florida on behalf of the University for use of land with certain existing student housing facilities. The lease requires the Foundation to construct additional student housing facilities and to operate the facilities as a consolidated housing system on behalf of the University.

The Student Housing System consists of seven projects, which are the following: the Villages Phase I (West) and II (East), completed in 1997 and 1999, respectively; the first (Martin Hall), the second (Pace Hall), and the third (Argo Hall) portions of Phase III completed in 2000, 2001, and 2004, respectively; and the first (Heritage Hall) and the second (President's Hall) portions of Phase IV completed in 2010 and 2012, respectively.

The terms of the sublease require the Foundation to pay the University rents of \$10 per year plus variable rent equal to 100% of the Surplus Earnings from the Student Housing System. Surplus Earnings represent cash flows after payment of the operating costs, debt service and reserves. No variable rent was due for either 2025 or 2024. The sublease agreement was signed in 1998 and ends August 31, 2038. The sublease was amended September 30, 2018, in order to transfer six South Side units back to the University for non-housing use. The sublease was amended on March 8, 2024 in order to transfer the remaining nine South Side units back to the University. See Note 5 for further explanation regarding the South Side units.

The Foundation and the University have a management operating agreement outlining the responsibilities of both parties for the operations of the Student Housing System. The current agreement was signed on December 1, 2016, and is effective until all bonds outstanding are paid in full.

The University has contracted with Apogee Telecom, Inc. to provide high-speed internet and cable to residence halls along with 24-hr customer support. Under the terms of the management operating agreement, the Foundation assumes financial responsibility for the terms of this contract. Fees are payable monthly in advance and are subject to adjustment based on bed count. The contract, executed on March 6, 2020, was signed for an initial term of 72 months and will expire in March 2026. The agreement will renew for a term of 12 months, upon written mutual agreement.

The anticipated remaining expenses under this agreement as of June 30, 2025 are \$342,747.

**INDEPENDENT AUDITOR’S REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

To the Board of Directors
University of West Florida Foundation, Inc.
Pensacola, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the University of West Florida Foundation, Inc. (the “Foundation”) (a component unit of the University of West Florida), as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the Foundation’s basic financial statements as listed in the table of contents, and have issued our report thereon dated October 9, 2025.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Foundation’s internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Foundation’s internal control. Accordingly, we do not express an opinion on the effectiveness of the Foundation’s internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Board of Directors
University of West Florida Foundation, Inc.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Foundation's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR’S REPORT ON COMPLIANCE FOR
EACH MAJOR STATE PROJECT AND ON INTERNAL CONTROL
OVER COMPLIANCE IN ACCORDANCE WITH SECTION 215.97, FLORIDA STATUTES
AND CHAPTER 10.650, RULES OF THE AUDITOR GENERAL**

To the Board of Directors
University of West Florida Foundation, Inc.

Report on Compliance for Each Major State Project

We have audited the compliance of University of West Florida Foundation, Inc. (the “Foundation”) with the types of compliance requirements described in the *Executive Office of the Governor’s State Projects Compliance Supplement* that could have a direct and material effect on the Foundation’s major state project for the year ended June 30, 2025. The Foundation’s major state project is identified in the summary of auditor’s results section of the accompanying schedule of findings and questioned costs.

Opinion on Each Major State Project

We have audited the Foundation’s compliance with the types of compliance requirements described in the *Florida Department of Financial Services State Projects Compliance Supplement* that could have a direct and material effect on the Foundation’s major state projects for the year ended June 30, 2025. The Foundation’s major state projects are identified in the summary of auditor’s results section of the accompanying schedule of findings and questioned costs.

In our opinion, the Foundation complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on its major state projects for the year ended June 30, 2025.

Basis for Opinion on Each Major State Project

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (“GAAS”); the standards applicable to financial audits contained in the *Government Auditing Standards* issued by the Comptroller General of the United States (“*Government Auditing Standards*”); and the audit requirements of Section 215.97, *Florida Statutes*; and Chapter 10.650, *Rules of the Auditor General*. Our responsibilities under those standards, Section 215.97, *Florida Statutes*; and Chapter 10.650, *Rules of the Auditor General* are further described in the Auditor’s Responsibilities for the Audit of Compliance section of our report.

Board of Directors
University of West Florida Foundation, Inc.
Pensacola, Florida

We are required to be independent of the Foundation and to meet our ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major state project. Our audit does not provide a legal determination of the Foundation's compliance with the compliance requirements referred to above.

Management's Responsibility for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of state statutes, regulations, rules, and provisions of contracts or award agreements applicable to its state projects.

Auditor's Responsibility for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Foundation's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, Section 215.97, *Florida Statutes*; and Chapter 10.650, *Rules of the Auditor General* will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Foundation's compliance with the requirements of each major state project as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, Section 215.97, *Florida Statutes*; and Chapter 10.650, *Rules of the Auditor General*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the Foundation's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the Foundation's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with Section 215.97, *Florida Statutes* and Chapter 10.650, *Rules of the Auditor General*, but not for the purpose of expressing an opinion on the effectiveness of the Foundation's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a state project on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a state project will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a state project that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations during our audit, we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified. Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Section 215.97, *Florida Statutes*; and Chapter 10.650, *Rules of the Auditor General*. Accordingly, this report is not suitable for any other purpose.

MANAGEMENT LETTER

To the Board of Directors
University of West Florida Foundation, Inc.
Pensacola, Florida

Report on the Financial Statements

We have audited the financial statements of University of West Florida Foundation, Inc. (the "Foundation"), as of and for the fiscal year ended June 30, 2025, and have issued our report thereon dated October 9, 2025.

Auditor's Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and Chapter 10.650, *Rules of the Auditor General*.

Other Reporting Requirements

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards*, and Independent Auditor's Report on Compliance for Each Major State Project and on Internal Control over Compliance Required by Chapter 10.650, *Rules of the Auditor General*.

Additional Matters

Section 10.654(1)(e), Rules of the Auditor General, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements or State project amounts that is less than material but which warrants the attention of those charged with governance. In connection with our audit, we did not note any such findings.

Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, the Board of Directors, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.
