INDEPENDENT AUDITOR'S REPORT SEMINOLE COUNTY DISTRICT SCHOOL BOARD FULL-TIME EQUIVALENT (FTE) STUDENTS

We have examined management's assertion, included in its representation letter dated October 26, 2006, that the Seminole County District School Board complied with the State requirements governing the determination and reporting of the number of full-time equivalent (FTE) students under the Florida Education Finance Program (FEFP) for the fiscal year ended June 30, 2006. These requirements are found primarily in Sections 1011.60, 1011.61, and 1011.62, Florida Statutes; State Board of Education Rules, Chapter 6A-1, Florida Administrative Code; and the *FTE General Instructions* issued by the Department of Education. As discussed in the representation letter, management is responsible for the District's compliance with State requirements. Our responsibility is to express an opinion on the District's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States and, accordingly, included examining, on a test basis, evidence about the District's compliance with the aforementioned State requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. The legal determination of the District's compliance with these requirements is, however, ultimately the responsibility of the Department of Education.

Our examination procedures disclosed the following instances of material noncompliance: 66 of the 293 students in our sample for ESE Support Levels 4 and 5, and 47 of the 144 OJT students in our sample for Career Education 9-12 had exceptions involving reporting errors or records that were not properly and accurately

prepared or were missing and could not be located. (See SCHEDULE D, finding Nos. 4, 6, 17, 18, 19, 20, 25, 28, 29, 31, 32, 38, 44, 45, 48, 53, 54, 55, 56, 59, 61, 64, 65, 71, 72, 73, and 77 for ESE Support Levels 4 and 5; and finding Nos. 5, 11, 33, 39, 40, and 46 for OJT Career Education 9-12.)

In our opinion, except for the instances of material noncompliance mentioned above involving students in ESE Support Levels 4 and 5, and OJT Career Education 9-12, the Seminole County District School Board complied, in all material respects, with State requirements governing the determination and reporting of the number of full-time equivalent (FTE) students under the Florida Education Finance Program (FEFP) for the fiscal year ended June 30, 2006.

The results of our examination disclosed other instances of noncompliance with the aforementioned State requirements, in addition to those of a material nature mentioned above. We considered these other instances of noncompliance in forming our opinion regarding management's assertion and these items did not affect our opinion as stated in the preceding paragraph. All of the instances of noncompliance disclosed by our examination procedures are discussed in SCHEDULE D. The impact of those instances of noncompliance on the District's reported number of full-time equivalent (FTE) students is presented in SCHEDULE A, SCHEDULE B, SCHEDULE C, and SCHEDULE D.

In accordance with *Government Auditing Standards*, we are required to report deficiencies in internal control that are material to management's assertion. The instances of material noncompliance mentioned above are indicative of such deficiencies in the District's internal controls related to the reporting of, and the preparation and maintenance of supporting documentation for, students in ESE Support Levels 4 and 5, and OJT Career Education 9-12. The relevant populations, samples, and exception totals that pertain to these instances of noncompliance are presented in SCHEDULE A herein. We performed our examination to express an opinion on the District's compliance with the State requirements previously mentioned and not for the purpose of expressing an opinion on the District's related internal controls; accordingly, we express no such opinion.

This report is intended for the information of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the State Board of Education, the Department of Education, and the Seminole County District School Board. Copies of this report are available pursuant to Section 11.45(4)(c), Florida Statutes, and its distribution is not limited.

Respectfully submitted,

William O. Monroe, CPA

¹ See NOTE A6.

² Unweighted full-time equivalent (FTE) students represents FTE prior to the application of the applicable cost factor for each program. (See SCHEDULE B and NOTE A4.)

³ The population shown for the number of schools is the total number of schools in the District which offered the courses in the program specified (i.e., Basic, ESOL, ESE, and Career Education). The population shown for the number of students is the total number of students in each program at the schools in our sample. Our Career Education sample was limited to those students who participated in OJT. The population shown for full-time equivalent (FTE) students is the total FTE for all of the District's schools (sample schools plus nonsample schools) as reported for each survey conducted for the fiscal year ended June 30, 2006. The population shown for teachers is the total number of teachers at schools in our sample who taught courses in ESE or Career education or taught courses to LEP students. (See NOTE A5.)

⁴ See NOTE B.

⁵ Our audit adjustments present the net effects of the instances of noncompliance disclosed by our examination procedures, including those related to our tests of teacher certification. Our audit adjustments generally reclassify reported FTE to Basic education, except for noncompliance involving a student's enrollment or attendance, in which case the audit adjustments take the reported FTE to zero.

SCHEDULE D

Seminole County District School Board
FULL-TIME EQUIVALENT (FTE) STUDENTS
FINDINGS AND AUDIT ADJUSTMENTS
 For the Fiscal Year Ended June 30, 2006

Overview

Management is responsible for determining and reporting the number of full-time equivalent (FTE) students under the Florida Education Finance Program (FEFP) in compliance with State requirements. These requirements are found primarily in Sections 1011.60, 1011.61, and 1011.62, Florida Statutes; State Board of Education Rules, Chapter 6A-1, Florida Administrative Code; and the *FTE General Instructions* issued by the Department of Education. Except for instances of material noncompliance involving students in ESE Support Levels 4 and 5 and OJT Career Education 9-12, the Seminole County District School Board complied, in all material respects, with State requirements governing the determination and reporting of FTE for the fiscal year ended June 30, 2006. All of the instances of noncompliance disclosed by our examination procedures are discussed below and require management's attention and action, as recommended on page 37.

Findings

Our examination included the July and October 2005 surveys and the February and June 2006 surveys. (See NOTE A5.) Unless otherwise specifically stated, the findings and audit adjustments presented herein are for the October 2005 survey or the February 2006 survey or both. Accordingly, our findings do not mention specific surveys unless necessary for a complete understanding of the instances of noncompliance being disclosed.

District-Wide

Ineligible Courses Reported in ESOL

1. [Ref. 149] Our examination procedures included an automated test that compared the course numbers reported by the District in program No. 130 (ESOL) to the course numbers designated for the program by the Department of Education. The results of the test disclosed that 11 of the District's schools reported one or more courses in ESOL that were not eligible for such reporting. We made the following audit adjustments:

101 Basic K-3	.8896	
102 Basic 4-8	4.8396	
103 Basic 9-12	1.2391	
130 ESOL	(6.9683)	.0000

Recommendations

We recommend that management exercise more care and take corrective action, as appropriate, to ensure that: (1) only eligible courses are reported for funding in ESOL; (2) FTE is correctly calculated for all reported students, particularly for dual-enrolled students and students who were provided both on-campus instruction and home-based instruction in the Hospital and Homebound program; (3) only eligible students who are in attendance and membership for a particular survey are reported for FEFP funding; (4) students are reported in the proper funding categories and have adequate documentation to support that reporting; particularly with regard to students in ESOL and ESE; (5) teachers are properly certified or, if out-of-field, have appropriate School Board approval and parental notification; and (6) teachers earn the in-service training points required in ESOL strategies, pursuant to their in-service training timelines.

The absence of statements in this report regarding practices and procedures followed by the District should not be construed as acceptance, approval, or endorsement of those practices and procedures. Additionally, the specific nature of this report does not limit or lessen the District's obligation to comply with all State requirements governing full-time equivalent (FTE) students and the Florida Education Finance Program (FEFP).

SUMMARY OF MANAGEMENT'S RESPONSE
For the Fiscal Year Ended June 30, 2006

A copy of management's response may be found beginning on page 59 of this report.

Management agreed with our findings and recommendations, except for certain findings involving students in ESE and ESOL. Although management did not specifically identify these findings by finding number, enough information was provided in its response to enable us to determine the specific findings with which management disagreed, as shown below:

ESE Finding Nos. 19, 31, 53, 54, 59, 64, 71, and 77 - Management indicated its disagreement with our citation that the *Matrix of Services* forms for 21 students were not reviewed and updated at the time the students' new IEPs were developed. However, management's response only referred to Section 1011.62(e), Florida Statutes, [the general authorization for *Matrix* forms] and related District procedures, and did not address the requirement that *Matrix* review and updating occur when new IEPs are developed. Consequently, our findings stand as presented herein.

ESOL Finding No. 10 – Although management indicated its disagreement that “some LEP students should have been assessed prior to a survey,” we were able to identify only one such finding, which cites one student whose English language proficiency should have been assessed prior to survey. Management's response only referred to the testing windows in the *LEP Procedural Handbook* and did not address the applicability of those testing windows to the specific circumstances of the student cited. Consequently, finding No. 10 stands as presented herein.

Seminole County District School Board
FULL-TIME EQUIVALENT (FTE) STUDENTS
NOTES TO SCHEDULES
For the Fiscal Year Ended June 30, 2006

NOTE A - SUMMARY

A summary discussion of the significant features of the District, the Florida Education Finance Program (FEFP), full-time equivalent (FTE) students, and related areas follows:

1. School District of Seminole County

The District was established pursuant to Section 1001.30, Florida Statutes, to provide public educational services for the residents of Seminole County, Florida. Those services are provided primarily to students attending kindergarten through high school, but also to adults seeking career education-type training. The District is part of the State system of public education under the general direction and control of the State Board of Education. The geographic boundaries of the District are those of Seminole County. For the fiscal year ended June 30, 2006, the District operated 76 schools, reported 66,949.65 unweighted full-time equivalent (FTE) students, and received approximately \$192 million in State funding under the Florida Education Finance Program (FEFP) for those FTE. The primary sources of funding for the District are funds from FEFP, local ad valorem taxes, and Federal grants and donations.

2. Florida Education Finance Program (FEFP)

Florida school districts receive State funding through the Florida Education Finance Program (FEFP), which was established by the Florida Legislature in 1973. It is the intent of the law "to guarantee to each student in the Florida public school system the availability of programs and services appropriate to his educational needs which are substantially equal to those available to any similar student notwithstanding geographic differences and varying local economic factors." To provide equalization of educational opportunity in Florida, the FEFP formula recognizes (1) varying local property tax bases, (2) varying program cost factors, (3) district cost differentials, and (4) differences in per student cost for equivalent educational programs due to sparsity and dispersion of student population.

FULL-TIME EQUIVALENT (FTE) STUDENTS
NOTES TO SCHEDULES
For the Fiscal Year Ended June 30, 2006

NOTE A - SUMMARY (Continued)

3. Full-Time Equivalent (FTE) Students

The funding provided by FEEP is based upon the numbers of individual students participating in particular educational programs. A numerical value is assigned to each student according to the student's hours and days of attendance in those programs. The individual student thus becomes equated to a numerical value known as an FTE (full-time equivalent) student. For example, for kindergarten through third grade, one FTE is defined as one student in membership in a program or a group of programs for 20 hours per week for 180 days; for grade levels four through twelve, one FTE is defined as one student in membership in a program or a group of programs for 25 hours per week for 180 days.

4. Calculation of FEEP Funds

The amount of State and local FEEP funds is calculated by the Department of Education by multiplying the number of unweighted full-time equivalent (FTE) students in each educational program by the specific cost factor of each program to obtain weighted FTEs. Weighted FTEs are multiplied by the base student allocation amount and that product is multiplied by the appropriate cost differential factor. Various adjustments are then added to this product to obtain the total State and local FEEP dollars. All cost factors, the base student allocation amount, cost differential factors, and various adjustment figures are established by the Florida Legislature.

5. FTE Surveys

FTE is determined and reported during the school year by means of four FTE membership surveys, which are conducted under the direction of district and school management. Each survey is a sampling of FTE membership for a period of one week. The surveys for the 2005-2006 school year were conducted during and for the following weeks: survey one was performed for July 11-15, 2005; survey two was performed for October 10-14, 2005; survey three was performed for February 6-10, 2006; and survey four was performed for June 12-16, 2006.

6. Educational Programs

The Florida Education Finance Program (FEFP) funds ten specific programs under which instruction may be provided as authorized by the Florida Legislature. The general program titles under which these specific programs fall are as follows: (1) Basic; (2) English for Speakers of Other Languages (ESOL); (3) Exceptional; and (4) Career Education (9-12).

7. Statutes and Rules

The following statutes and rules are of significance to the administration of Florida public education:

- Chapter 1000, F.S.K-20 General Provisions
- Chapter 1001, F.S.K-20 Governance
- Chapter 1002, F.S.Student and Parental Rights and Educational Choices
- Chapter 1003, F.S.Public K-12 Education
- Chapter 1006, F.S.Support for Learning
- Chapter 1007, F.S.Articulation and Access
- Chapter 1010, F.S.Financial Matters
- Chapter 1011, F.S.Planning and Budgeting
- Chapter 1012, F.S.Personnel
- Chapter 6A-1, F.A.C.Finance and Administration
- Chapter 6A-4, F.A.C.Certification
- Chapter 6A-6, F.A.C.Special Programs I

INDEPENDENT AUDITOR'S REPORT SEMINOLE COUNTY DISTRICT SCHOOL BOARD STUDENT TRANSPORTATION

We have examined management's assertion, included in its representation letter dated October 26, 2006, that the Seminole County District School Board complied with State requirements governing the determination and reporting of the number of students transported for the fiscal year ended June 30, 2006. These requirements are found primarily in Chapter 1006, Part I, E., and Section 1011.68, Florida Statutes; State Board of Education Rules, Chapter 6A-3, Florida Administrative Code; and the *Student Transportation General Instructions* issued by the Department of Education. As discussed in the representation letter, management is responsible for the District's compliance with State requirements. Our responsibility is to express an opinion on the District's compliance based on our examination.

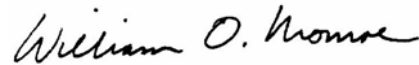

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States and, accordingly, included examining, on a test basis, evidence about the District's compliance with the aforementioned State requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. The legal determination of the District's compliance with these requirements is, however, ultimately the responsibility of the Department of Education.

In our opinion, the Seminole County District School Board complied, in all material respects, with State requirements governing the determination and reporting of the number of students transported for the fiscal year ended June 30, 2006.

The results of our examination disclosed instances of noncompliance with the State requirements mentioned above. We considered these instances of noncompliance in forming our opinion regarding management's assertion and these items did not affect our opinion as stated above. All of the instances of noncompliance disclosed by our examination procedures are discussed in SCHEDULE B. The impact of those instances of noncompliance on the District's reported number of transported students is presented in SCHEDULE A and SCHEDULE B.

This report is intended for the information of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the State Board of Education, the Department of Education, and the Seminole County District School Board. Copies of this report are available pursuant to Section 11.45(4)(c), Florida Statutes, and its distribution is not limited.

Respectfully submitted,

SCHEDULE B

Seminole County District School Board
**STUDENT TRANSPORTATION
 FINDINGS AND AUDIT ADJUSTMENTS**
 For the Fiscal Year Ended June 30, 2006

Overview

Management is responsible for determining and reporting the number of students transported in compliance with State requirements. These requirements are found primarily in Chapter 1006, Part I, E., and Section 1011.68, Florida Statutes; State Board of Education Rules, Chapter 6A-3, Florida Administrative Code; and the *Student Transportation General Instructions* issued by the Department of Education. The Seminole County District School Board complied, in all material respects, with State requirements governing the determination and reporting of students transported for the fiscal year ended June 30, 2006. All of the instances of noncompliance disclosed by our examination procedures are discussed below and require management's attention and action, as recommended on page 55.

Findings

Our examination procedures included both general tests and detailed tests. Our general tests included inquiries concerning the District's transportation of students and verification that a bus driver's report existed for each bus reported in a survey. Our general tests disclosed the instances of noncompliance discussed in finding Nos. 1 and 2. Our detailed tests checked the accuracy of the reported ridership categories for students sampled from the July, October, February, and June surveys. Our detailed tests disclosed the instances of noncompliance discussed in finding Nos. 3 through 8.

3. [Ref. 53] We noted the following exceptions involving six students in the July survey:

- a. Three students were reported incorrectly in Two Miles or More. These students lived less than two miles from school and should not have been reported for State transportation funding.
- b. Two students were reported incorrectly in Hazardous Walking. The students did not have to cross a hazardous route and lived more than two miles from school; consequently, they should have been reported in Two Miles or More.
- c. One student was reported incorrectly in IDEA (K-12), Unweighted. The student lived more than two miles from school and should have been reported in Two Miles or More.

4. [Ref. 54] We noted the following exceptions involving 13 students in the October survey (ten in Hazardous Walking and three in Two Miles or More):

- a. Four students (two in Hazardous Walking and two in Two Miles or More) were not transported during the survey period and should not have been reported.
- b. Eight students were reported incorrectly in Hazardous Walking. The students did not have to cross a hazardous condition location to get to school. Seven of the students lived more than two miles from school; consequently, they should have been reported in Two Miles or More. The eighth student lived less than two miles from school and was ineligible for State transportation funding.
- c. One student was reported incorrectly in Two Miles or More. The student lived less than two miles from school, had to cross a hazardous condition location to get to school, and thus, should have been reported in Hazardous Walking.

RECOMMENDATIONS AND REGULATORY CITATIONS
For the Fiscal Year Ended June 30, 2006

Recommendations

We recommend that management exercise more care and take corrective action, as appropriate, to ensure that: (1) transported students are reported in the correct ridership categories for the correct number of days-in-term; (2) only those students in fundable ridership categories who are enrolled in school during the survey week and ride a bus during the 11-day survey period are reported for State transportation funding; (3) the distance from home to school, for students reported in Two Miles or More is verified prior to reporting; and (4) only ESE students whose need for special transportation services has been properly documented on their IEPs are reported in IDEA ridership categories.

The absence of statements in this report regarding practices and procedures followed by the District should not be construed as acceptance, approval, or endorsement of those practices and procedures. Additionally, the specific nature of this report does not limit or lessen the District's obligation to comply with all State requirements governing student transportation.

NOTES TO SCHEDULES
For the Fiscal Year Ended June 30, 2006

NOTE A - SUMMARY

A summary discussion of the significant features of student transportation and related areas follows:

1. Student Eligibility

Any student who is transported by bus must meet one or more of the following conditions in order to be eligible for State transportation funding: live two or more miles from school, be physically handicapped, be a Career Education or Exceptional student who is transported from one school center to another where appropriate programs are provided, or meet the criteria for hazardous walking specified in Section 1006.23(4), Florida Statutes.

2. Transportation in Seminole County

For the fiscal year ended June 30, 2006, the District received approximately \$11.8 million in State transportation funding. The District’s transportation reporting by survey was as follows:

<u>Survey Period</u>	<u>No. of Vehicles</u>	<u>No. of Students</u>
July 2005	110	1,236
October 2005	394	29,361
February 2006	398	28,381
June 2006	<u>150</u>	<u>2,664</u>
Total	<u>1,052</u>	<u>61,642</u>

3. Statutes and Rules

The following statutes and rules are of significance to the District’s administration of student transportation:

- Chapter 1006, Part I, E., F.S.Transportation of Public K-12 Students
- Section 1011.68, F.S.Funds for Student Transportation
- Chapter 6A-3, F.A.C.Transportation

Attn: Joseph L. Williams

Dear Mr. Monroe:

Seminole County Public Schools (SCPS) has reviewed your "Report on the examination of full-time equivalent (FTE) students" dated March 16, 2007. This letter is in response to your preliminary draft, the aforementioned report. We understand that your recent audit has found that the Seminole County District School Board complied with the State requirements found in Sections 1011.60, 1011.61, and 1011.62, Florida Statutes; State Board of Education Rules, Chapter 6A-1, Florida Administrative Code; and the FTE General Instructions. We also understand that, as part of the recent audit, you have found areas of material noncompliance. This response addresses discrepancies mentioned in your report. You have identified two primary instances of material noncompliance, exceptions involving ESE Support Levels 4 and 5, and OJT students in the Career Education 9-12 program, which we will specifically address. Furthermore, your report states "exceptions involving reporting errors or records that were not properly and accurately prepared or were missing and could not be located." This response will refer to reporting errors as such and "records that were not properly and accurately prepared" as *records management discrepancies*. Details related to data reporting or records management errors in ESE and OJT will include district-based solutions to reduce or eliminate future discrepancies.

1. **General Reporting Errors and Records Management Discrepancies.** Seminole County Public Schools will continue to explore new processes and programs that can improve data quality and enhance the records management system. Considering the fact that data quality and records management processes depend heavily on human intervention, we see opportunities to improve in both areas through efficient and more frequent communication with the appropriate audiences of school and district-based management, data entry personnel and others involved in these two activities. We are currently pursuing the purchase and implementation of a program that will edit and validate most of the data elements referred to in your report. In addition, SCPS is making measurable improvements in the records management area at all levels within the organization. The records management initiative will afford the district an opportunity to heighten awareness of proper records management procedures and improve the level of communication with those responsible for entering and maintaining the data in our systems.
2. **ESE Program.** SCPS does not agree with all of the findings within the ESE program. According to your report, "66 of 293 students in the sample ESE Support Levels 4 and 5" population were found to have data reporting or records management discrepancies. Your report indicates that 21 of the 66 student sample were out-of-compliance due to the *Matrix of Services* form not being reviewed or updated. SCPS disagrees with this finding based on Florida Statutes 1011.62(e). Paragraph 1b of the Statutes states "In order to generate funds using one of the two weighted cost factors, a matrix of services must be completed at the time of the student's initial placement into an exceptional student education program and at least

Mr. William O. Monroe, CPA
 April 10, 2007
 Page 2

once every 3 years by personnel who have received approved training." Each year, at the annual IEP, the Matrix Cost Factor is reviewed and the Cost Factor of the current IEP is written into the IEP and signed by the IEP team members. To support the above requirements, SCPS has a built-in feature in the web-based IEP system that reminds the teacher to input the Cost Factor on the IEP based on current IEP services. In response to other ESE findings, SCPS has conducted information sessions with school and district-based administration, ESE coordinators, and school based personnel on the topic of proper maintenance of student records. Furthermore, SCPS will conduct regular review sessions with appropriate personnel within the district. These *reviews* will cover ESE specific procedures related to data entry and records maintenance/management.

3. **Career Education Program.** SCPS agrees with the findings in the Career Education program. According to your report, "47 of the 144 OJT students in the sample for Career Education 9-12 had exceptions". The majority of OJT related errors were due to timecards that were "missing or could not be located." However, other errors pointed to deficiencies such as time cards missing a supervisor's signature, timecards that documented no hours worked, or timecards indicating that the hours worked did not match the student course schedule. In all but one of the scenarios found in your audit, we have determined that the root cause of the problem is that OJT teachers did not properly monitor their students' timecards. SCPS has initiated an internal process as a result of the OJT findings. The process is currently underway and involves district-level personnel visiting each school found to have discrepancies, meeting with school administration and the OJT teacher, and discussing each specific finding. During the meeting, proper procedures will be discussed. "Proper procedures" include attaching job search papers to the timecard if the student is actively seeking employment, following up with students who have unsigned timecards and setting a hard deadline for timecards to be returned signed, stressing the importance of verifying hours worked on the timecard, and, in certain situations, rescheduling students to basic courses when the student fails to meet timecard requirements. SCPS will also implement an annual, internal timecard audit with all high schools within the district.

4. **Transportation.** SCPS agrees with your Transportation findings on all points. The problems were caused by the following situations:

- change of demographics from the start of the attendance window to the date certain
- school housed at alternate location during summer term
- incomplete driver reporting
- outdated IEPs
- students with 504s who live within two miles of the school and receive transportation but are not state funded
- reporting car seats as Weighted.

In order to improve the accuracy of future surveys, we have updated our list of hazardous walking conditions and added the transportation element to SASI. We will also take the following corrective actions:

- ensure accurate documentation and duration of ridership
- acquire a Change of Demographic Information report from the Information Services Department for each reporting period
- continue driver education on reporting procedures

Mr. William O. Monroe, CPA
April 10, 2007
Page 3

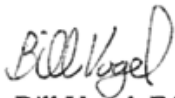

- work with Information Services to create a report of transportation requirements from the IEP database (to be used in conjunction with IEPs on file at Transportation to determine Weighted and ESE eligibility)
 - stop reporting car seats as Weighted.
5. **ESOL/ELL.** SCPS does not agree with all of the findings within the ESOL/ELL program. According to your report some LEP students should have been assessed prior to a survey. However, according to the *LEP Procedural Handbook*, SCPS has four testing windows for exiting ELL (LEP) students from the program. The testing windows for reading/writing for 2005-06 were
- September 12-23, 2005
 - November 14-18, 2005
 - January 17-24, 2006
 - April 14 – May 4, 2006.

Students must pass their IPT assessments (listening, speaking, reading & writing) to be exited from the program. Therefore, we disagree with this specific finding in the recent audit.

In response to the ELL Plan folders, SCPS continues to monitor ESOL data from the district office. We will also continue to explore alternative solutions that may enhance the monitoring process, leading to improved data accuracy.

Seminole County Public Schools believes that the audit was conducted in a fair and professional manner by both auditors, Mr. Richard Woods and Ms. Gail Collier. Mr. Woods spent several hours with stakeholders within the district in an effort to improve understanding of the audit process, keep communication channels open and effective, and help us identify opportunities for data quality improvements. SCPS will make every reasonable effort to continue its work to improve in all areas where deficiencies were noted. If you have questions about the response please feel free to contact my office.

Sincerely,

Bill Vogel, Ed. D
Superintendent
