#### INDEPENDENT AUDITOR'S REPORT LAFAYETTE COUNTY DISTRICT SCHOOL BOARD FULL-TIME EQUIVALENT (FTE) STUDENTS

We have examined management's assertion, included in its representation letter dated November 14, 2007, that the Lafayette County District School Board complied with State requirements governing the determination and reporting of the number of full-time equivalent (FTE) students under the Florida Education Finance Program (FEFP) for the fiscal year ended June 30, 2007. These requirements are found primarily in Sections 1011.60, 1011.61, and 1011.62, Florida Statutes; State Board of Education Rules, Chapter 6A-1, Florida Administrative Code; and the *FTE General Instructions* issued by the Department of Education. As discussed in the representation letter, management is responsible for the District's compliance with State requirements. Our responsibility is to express an opinion on the District's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States and, accordingly, included examining, on a test basis, evidence about the District's compliance with the aforementioned State requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. The legal determination of the District's compliance with these requirements is, however, ultimately the responsibility of the Department of Education.

#### **Compliance**

Our examination procedures disclosed material noncompliance involving students reported in ESOL. Eleven of the 36 students in our sample for ESOL had reporting errors or records that were not properly and accurately prepared or were missing and could not be located.<sup>1</sup>

In our opinion, except for the material noncompliance mentioned above involving the reporting of, and preparation and maintenance of supporting documentation for, students in ESOL, the Lafayette County District School Board complied, in all material respects, with State requirements governing the determination and reporting of the number of full-time equivalent (FTE) students under the Florida Education Finance Program (FEFP) for the fiscal year ended June 30, 2007.

The results of our examination disclosed other noncompliance with the aforementioned State requirements, in addition to the material noncompliance mentioned above. We considered this other noncompliance in forming our opinion regarding management's assertion and it did not affect our opinion as stated above. All noncompliance disclosed by our examination procedures is discussed in SCHEDULE D. The impact of this noncompliance on the District's reported FTE students is presented in SCHEDULE A, SCHEDULE B, SCHEDULE C, and SCHEDULE D.

#### Internal Control Over Compliance

In accordance with attestation standards established by the AICPA and *Government Auditing Standards*, we are required to report significant deficiencies in internal control detected during our examination and identify those considered to be material weaknesses. The purpose of our examination was to express an opinion on the District's compliance with State requirements and did not include expressing an opinion on the District's related internal controls. Accordingly, we express no such opinion. Due to its limited purpose, our examination would not necessarily identify all deficiencies in internal control over compliance that might be significant deficiencies or material weaknesses.<sup>2</sup> However, the material noncompliance mentioned above is indicative of significant deficiencies considered to be material weaknesses in the District's internal controls related to the reporting of, and the preparation and maintenance of supporting documentation for, students in ESOL. Other noncompliance disclosed by our examination procedures is indicative of control deficiencies<sup>2</sup>, and is also presented herein. The findings, populations, samples, and exception totals that pertain to material and other noncompliance are presented in SCHEDULE A and SCHEDULE D.

<sup>&</sup>lt;sup>1</sup>See finding Nos. 4, 5, 8, and 9.

 $<sup>^{2}</sup>A$  <u>control deficiency</u> in the entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance on a timely basis. A <u>significant deficiency</u> is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to comply with the aforementioned State requirements such that there is more than a remote likelihood that noncompliance that is more than inconsequential will not be prevented or detected by the entity's internal control. A <u>material weakness</u> is a significant deficiency, or combination of significant deficiencies, that results in a more than remote likelihood that material noncompliance will not be prevented or detected by the entity's internal control.

The District's written response to this examination has not been subjected to our examination procedures and, accordingly, we express no opinion on it.

This report is intended for the information of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the State Board of Education, the Department of Education, and the Lafayette County District School Board. Copies of this report are available pursuant to Section 11.45(4)(c), Florida Statutes, and its distribution is not limited.

Respectfully submitted,

W. Martin

<sup>1</sup> See NOTE A6.

<sup>3</sup> The population shown for the number of schools is the total number of schools in the District which offered the courses in the program specified (i.e., Basic, ESOL, ESE, and Career Education). The population shown for the number of students is the total number of students in each program at the schools in our sample. Our Career Education sample was limited to those students who participated in OJT. The population shown for full-time equivalent (FTE) students is the total FTE for all of the District's schools (sample schools plus nonsample schools) as reported for each survey conducted for the fiscal year ended June 30, 2007. The population shown for teachers is the total number of teachers at schools in our sample who taught courses in ESE or Career Education or taught courses to LEP students. (See NOTE A5.)

<sup>4</sup> See NOTE B.

<sup>5</sup> Our audit adjustments present the net effects of the noncompliance disclosed by our examination procedures, including those related to our tests of teacher certification. Our audit adjustments generally reclassify reported FTE to Basic education, except for noncompliance involving a student's enrollment or attendance, in which case the reported FTE is taken to zero.

#### The accompanying notes are an integral part of this schedule.

<sup>&</sup>lt;sup>2</sup> Unweighted full-time equivalent (FTE) students represents FTE prior to the application of the applicable cost factor for each program. (See SCHEDULE B and NOTE A4.)

#### SCHEDULE D

Lafayette County District School Board Florida Education Finance Program (FEFP) Full-Time Equivalent (FTE) Students FINDINGS AND AUDIT ADJUSTMENTS

For the Fiscal Year Ended June 30, 2007

#### Overview

Management is responsible for determining and reporting the number of full-time equivalent (FTE) students under the Florida Education Finance Program (FEFP) in compliance with State requirements. These requirements are found primarily in Sections 1011.60, 1011.61, and 1011.62, Florida Statutes; State Board of Education Rules, Chapter 6A-1, Florida Administrative Code; and the FTE General Instructions issued by the Department of Education. Except for material noncompliance involving the reporting of, and the preparation and maintenance of supporting documentation for students in ESOL, the Lafayette County District School Board complied, in all material respects, with State requirements governing the determination and reporting of FTE for the fiscal year ended June 30, 2007. All noncompliance disclosed by our examination procedures is discussed below and requires management's attention and action, as recommended on page 12.

**Findings** 

Our examination included the July and October 2006 surveys and the February and June 2007 surveys (see NOTE A5). Unless otherwise specifically stated, the findings and audit adjustments presented herein are for the October 2006 survey or the February 2007 survey or both. Accordingly, our findings do not mention specific surveys unless necessary for a complete understanding of the instances of noncompliance being disclosed.

#### Lafayette High School (#0021)

1. [Ref. 2171/73] Two non-certified teachers were hired as a long-term substitute and taught six Basic courses and five Career Education courses during the school terms covered by the October and February surveys. Since there are no specific limitations placed on substitute teaching by law or rule, and since State Board of Education Rule 6A-1.0503, Florida Administrative Code, in particular, defines gualified instructional personnel but does not address the area of substitute teaching, we made no audit adjustments:

For the Fiscal Year Ended June 30, 2007

#### **Recommendations**

<u>We recommend</u> that management exercise more care and take corrective action, as appropriate, to ensure that: (1) attendance records are maintained in readily accessible files; (2) student course schedules are reported under the correct educational programs using the correct priority ranking; (3) foreign exchange students are not reported for FEFP funding; and (4) out-of-field teachers are approved by the School Board and parents are notified of the teachers' out-of-field status prior to survey.

The absence of statements in this report regarding practices and procedures followed by the District should not be construed as acceptance, approval, or endorsement of those practices and procedures. Additionally, the specific nature of this report does not limit or lessen the District's obligation to comply with all State requirements governing FTE and FEFP.

#### Lafayette County District School Board Florida Education Finance Program (FEFP) Full-Time Equivalent (FTE) Students **SUMMARY OF MANAGEMENT'S RESPONSE** For the Fiscal Year Ended June 30, 2007

Management agreed with our findings and recommendations.

A copy of management's response may be found on page 29 of this report.

Lafayette County District School Board Florida Education Finance Program (FEFP) Full-Time Equivalent (FTE) Students **NOTES TO SCHEDULES** For the Fiscal Year Ended June 30, 2007

NOTE A - SUMMARY

A summary discussion of the significant features of the District, the Florida Education Finance Program (FEFP), full-time equivalent (FTE) students, and related areas follows:

#### 1. <u>School District of Lafayette County</u>

The District was established pursuant to Section 1001.30, Florida Statutes, to provide public educational services for the residents of Lafayette County, Florida. Those services are provided primarily to students attending kindergarten through high school, but also to adults seeking career education-type training. The District is part of the State system of public education under the general direction and control of the State Board of Education. The geographic boundaries of the District are those of Lafayette County. For the fiscal year ended June 30, 2007, the District operated two schools, reported 1,052.96 FTE, and received approximately \$4.7 million in State funding for those FTE. The primary sources of funding for the District are funds from FEFP, local ad valorem taxes, and Federal grants and donations.

#### 2. Florida Education Finance Program (FEFP)

Florida school districts receive State funding through FEFP, which was established by the Florida Legislature in 1973. It is the intent of the law "to guarantee to each student in the Florida public school system the availability of programs and services appropriate to his educational needs which are substantially equal to those available to any similar student notwithstanding geographic differences and varying local economic factors." To provide equalization of educational opportunity in Florida, the FEFP formula recognizes (1) varying local property tax bases, (2) varying program cost factors, (3) district cost differentials, and (4) differences in per student cost for equivalent educational programs due to sparsity and dispersion of student population.

Lafayette County District School Board Florida Education Finance Program (FEFP) Full-Time Equivalent (FTE) Students **NOTES TO SCHEDULES** For the Fiscal Year Ended June 30, 2007

NOTE A - SUMMARY (Continued)

#### 3. Full-Time Equivalent (FTE) Students

The funding provided by FEFP is based upon the numbers of individual students participating in particular educational programs. A numerical value is assigned to each student according to the student's hours and days of attendance in those programs. The individual student thus becomes equated to a numerical value known as an FTE. For example, for kindergarten through third grade, one FTE is defined as one student in membership in a program or a group of programs for 20 hours per week for 180 days; for grade levels four through twelve, one FTE is defined as one student in membership in a program or a group of programs for 20 hours per week for a group of programs for 25 hours per week for 180 days.

#### 4. <u>Calculation of FEFP Funds</u>

The amount of State and local FEFP funds is calculated by the Department of Education by multiplying the number of unweighted FTE in each educational program by the specific cost factor of each program to obtain weighted FTEs. Weighted FTEs are multiplied by the base student allocation amount and that product is multiplied by the appropriate cost differential factor. Various adjustments are then added to this product to obtain the total State and local FEFP dollars. All cost factors, the base student allocation amount, cost differential factors, and various adjustment figures are established by the Florida Legislature.

#### 5. <u>FTE Surveys</u>

FTE is determined and reported during the school year by means of four FTE membership surveys, which are conducted under the direction of district and school management. Each survey is a sampling of FTE membership for a period of one week. The surveys for the 2006-2007 school year were conducted during and for the following weeks: survey one was performed for July 10-14, 2006; survey two was performed for October 9-13, 2006; survey three was performed for February 5-9, 2007; and survey four was performed for June 11-15, 2007.

#### INDEPENDENT AUDITOR'S REPORT LAFAYETTE COUNTY DISTRICT SCHOOL BOARD STUDENT TRANSPORTATION

We have examined management's assertion, included in its representation letter dated November 14, 2007, that the Lafayette County District School Board complied with State requirements governing the determination and reporting of the number of students transported for the fiscal year ended June 30, 2007. These requirements are found primarily in Chapter 1006, Part I, E., and Section 1011.68, Florida Statutes; State Board of Education Rules, Chapter 6A-3, Florida Administrative Code; and the *Student Transportation General Instructions* issued by the Department of Education. As discussed in the representation letter, management is responsible for the District's compliance with State requirements. Our responsibility is to express an opinion on the District's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States and, accordingly, included examining, on a test basis, evidence about the District's compliance with the aforementioned State requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. The legal determination of the District's compliance with these requirements is, however, ultimately the responsibility of the Department of Education.

#### **Compliance**

In our opinion the Lafayette County District School Board complied, in all material respects, with State requirements governing the determination and reporting of the number of students transported for the fiscal year ended June 30, 2007.

The results of our examination disclosed noncompliance with State requirements. We considered this noncompliance in forming our opinion regarding management's assertion and it did not affect our opinion as stated above. All noncompliance disclosed by our examination procedures is discussed in SCHEDULE B. The impact of this noncompliance on the District's reported number of transported students is presented in SCHEDULE A and SCHEDULE B.

#### Internal Control Over Compliance

In accordance with attestation standards established by the AICPA and *Government Auditing Standards*, we are required to report significant deficiencies in internal control detected during our examination and identify those considered to be material weaknesses. The purpose of our examination was to express an opinion on the District's compliance with State requirements and did not include expressing an opinion on the District's related internal controls. Accordingly, we express no such opinion. Due to its limited purpose, our examination would not necessarily identify all deficiencies in internal control over compliance that might be significant deficiencies or material weaknesses.<sup>1</sup> The noncompliance mentioned above, while indicative of certain control deficiencies<sup>1</sup>, is not considered indicative of material weaknesses in the District's internal controls related to the classification and reporting of transported students. The findings, populations, samples, and exception totals that pertain to noncompliance are presented in SCHEDULE A and SCHEDULE B.

The District's written response to this examination has not been subjected to our examination procedures, and accordingly, we express no opinion on it.

<sup>&</sup>lt;sup>1</sup><u>A control deficiency</u> in the entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance on a timely basis. <u>A significant deficiency</u> is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to comply with the aforementioned State requirements such that there is more than a remote likelihood that noncompliance that is more than inconsequential will not be prevented or detected by the entity's internal control. <u>A material weakness</u> is a significant deficiency, or combination of significant deficiencies, that results in a more than remote likelihood that material noncompliance will not be prevented or detected by the entity's internal control.

This report is intended for the information of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the State Board of Education, the Department of Education, and the Lafayette County District School Board. Copies of this report are available pursuant to Section 11.45(4)(c), Florida Statutes, and its distribution is not limited.

Respectfully submitted,

). Martin

The District reported 900 students in the following ridership categories: 3 in IDEA (PK), Unweighted; 2 in Teenage Parents and Infants; and 895 in Two Miles or More. The District also reported operating a total of 22 buses. (IDEA stands for Individuals with Disabilities Education Act.)

<sup>&</sup>lt;sup>3</sup> Students with exceptions are sample students with exceptions affecting their ridership classification.

#### SCHEDULE B

Lafayette County District School Board Student Transportation FINDINGS AND AUDIT ADJUSTMENTS For the Fiscal Year Ended June 30, 2007

#### **Overview**

Management is responsible for determining and reporting the number of students transported in compliance with State requirements. These requirements are found primarily in Chapter 1006, Part I, E., and Section 1011.68, Florida Statutes; State Board of Education Rules, Chapter 6A-3, Florida Administrative Code; and the *Student Transportation General Instructions* issued by the Department of Education. The Lafayette County District School Board complied, in all material respects, with State requirements governing the determination and reporting of students transported for the fiscal year ended June 30, 2007. All noncompliance disclosed by our examination procedures is discussed below and requires management's attention and action, as recommended on page 25.

**Findings** 

Our examination procedures included both general tests and detailed tests. Our general tests included inquiries concerning the District's transportation of students and verification that a bus driver's report existed for each bus reported in a survey. Our detailed tests involved verification of the specific ridership categories reported for students sampled from the July, October, February, and June surveys. Adjusted students who were in more than one survey are accounted for by survey. For example, a student sampled twice (i.e., once for the October survey and once for the February survey) will be presented in our findings as two sample students.

#### **Detailed Tests – Sample Students**

1. [Ref. 51] <u>Two students were reported in incorrect ridership categories. One</u> student was reported in IDEA (PK) Unweighted, but was in kindergarten and should have been reported in IDEA (K-12), Unweighted. The other student was reported in Two Miles or More, but was an IDEA PK student and should have been reported in IDEA (PK), Unweighted. We made the following audit adjustment:

| October 2006 Survey     |  |
|-------------------------|--|
| 90 Days-in-Term         |  |
| IDEA (K-12), Unweighted |  |
| IDEA (PK), Unweighted   |  |
| IDEA (PK), Unweighted   |  |
| Two Miles or More       |  |

### SCHEDULE C

#### Lafayette County District School Board Student Transportation **RECOMMENDATIONS AND REGULATORY CITATIONS** For the Fiscal Year Ended June 30, 2007

#### **Recommendations**

**We recommend** that management exercise more care and take corrective action, as appropriate, to ensure that: (1) students are reported in the correct ridership categories; (2) students reported in Two Miles or More live two or more miles from school; and (3) bus attendance is documented for each student reported.

The absence of statements in this report regarding practices and procedures followed by the District should not be construed as acceptance, approval, or endorsement of those practices and procedures. Additionally, the specific nature of this report does not limit or lessen the District's obligation to comply with all State requirements governing student transportation.

#### Lafayette County District School Board Student Transportation **NOTES TO SCHEDULES** For the Fiscal Year Ended June 30, 2007

#### NOTE A - SUMMARY

A summary discussion of the significant features of student transportation and related areas follows:

#### 1. <u>Student Eligibility</u>

Any student who is transported by bus must meet one or more of the following conditions in order to be eligible for State transportation funding: live two or more miles from school, be physically handicapped, be a Career Education or Exceptional student who is transported from one school center to another where appropriate programs are provided, or meet the criteria for hazardous walking specified in Section 1006.23(4), Florida Statutes.

#### 2. <u>Transportation in Lafayette County</u>

For the fiscal year ended June 30, 2007, the District received approximately \$197,000 in State transportation funding. The District's transportation reporting by survey was as follows:

| Survey        | No. of          | No. of          |
|---------------|-----------------|-----------------|
| <u>Period</u> | <u>Vehicles</u> | <u>Students</u> |
| July 2006     | 0               | 0               |
| October 2006  | 11              | 441             |
| February 2007 | 11              | 459             |

Mr. David W. Martin, CPA Auditor General G74 Claude Pepper Building 111 West Madison Street Tallahassee, Florida 32399-1450

Dear Mr. Martin:

I have received the draft copy of the report on the examination of FTE students and student transportation for Lafayette County School District for the fiscal year ended June 30, 2007. We agree with all findings.

I have met with administrators in our district to discuss and correct those findings which relate to their area of expertise. We have put the following controls in place:

1. Transportation

In August, 2008, we will provide training to bus drivers regarding ridership categories, correct mileage for students who live near the schools and documentation for attendance.

2. FTE Students

The Principals will meet with data entry clerks to discuss and implement procedures for filing attendance records and correct reporting of student schedules.

The members of the Lafayette County School Board will take action regarding fees for foreign exchange students.

The principals and Personnel Director will meet to discuss and implement procedures for proper reporting of out-of-field teachers.

If you have any questions, please do not hesitate go contact me.

Sincerely,

Fredric W. Ward
