## EXECUTIVE SUMMARY

### SUMMARY OF ATTESTATION EXAMINATION

Except for the material noncompliance described below involving teachers and reporting errors or records that were not properly or accurately prepared or were missing and could not be located for students in ESE Support Levels 4 and 5, Career Education 9-12 (OJT), and student transportation, the Palm Beach County District School Board complied, in all material respects, with State requirements regarding the determination and reporting of full-time equivalent (FTE) students under the Florida Education Finance Program (FEFP) and the number of students transported for the fiscal year ended June 30, 2012:

- Seventy-two of the 611 teachers in our sample did not meet State requirements governing certification, School Board approval of out-of-field teacher assignments, notification to parents regarding teachers' out-of-field status, or the earning of required in-service training points in ESOL strategies.
- One hundred twenty-one of the 681 students in our ESE Support Levels 4 and 5 sample and 79 of the 256 students in our Career Education 9-12 (OJT) sample had exceptions involving reporting errors or records that were not properly or accurately prepared or were missing and could not be located.
- Of the 599 students in our student transportation sample, 117 had exceptions involving their reported ridership classification or eligibility for State transportation funding.

Noncompliance related to reported FTE resulted in 138 findings. The resulting proposed net adjustment to the District's reported, unweighted FTE totaled to a negative 122.7216 but has a potential impact on the District's weighted FTE of a negative 347.9492. Noncompliance related to student transportation resulted in 17 findings and a proposed net adjustment of a negative 817 students.

Weighted adjustments to FTE are presented in our report for illustrative purposes only. The weighted adjustments to FTE do not take special program caps and allocation factors into account and are not intended to indicate the weighted FTE used to compute the dollar value of adjustments. That computation is the responsibility of the Department of Education. However, the gross dollar effect of our proposed adjustments to FTE may be estimated by multiplying the proposed net weighted adjustment to FTE by the base student allocation amount. For the Palm Beach County District School Board, the estimated gross dollar effect of our proposed adjustments to reported FTE is a negative \$1,210,592 (negative 347.9492 times \$3,479.22).

We have not presented an estimate of the potential dollar effect of our proposed adjustments to student transportation because there is no equivalent method for making such an estimate.

The ultimate resolution of our proposed adjustments to FTE and student transportation and the computation of their financial impact is the responsibility of the Department of Education.

## SCHOOL DISTRICT OF PALM BEACH COUNTY

The District was established pursuant to Section 1001.30, Florida Statutes, to provide public educational services for the residents of Palm Beach County. Those services are provided primarily to prekindergarten through twelfth grade students and to adults seeking career education-type training. The District is part of the State system of public education under the general direction and control of the State Board of Education. The geographic boundaries of the District are those of Palm Beach County.

The governing body of the District is the District School Board that is composed of seven elected members. The executive officer of the Board is the appointed Superintendent of Schools. For the fiscal year ended June 30, 2012, the District operated 217 schools serving prekindergarten through twelfth grade students, reported 175,083.70 unweighted FTE for those students, and received approximately \$106 million in State funding through FEFP.

## FLORIDA EDUCATION FINANCE PROGRAM (FEFP)

### Full-Time Equivalent (FTE) Students

Florida school districts receive State funding through FEFP to serve prekindergarten through twelfth grade students (adult education is not funded by FEFP). FEFP was established by the Florida Legislature in 1973 to guarantee to each student in the Florida public school system the availability of programs and services appropriate to the student's educational needs which are substantially equal to those available to any similar student notwithstanding geographic differences and varying local economic factors. To provide equalization of educational opportunity in Florida, the FEFP formula recognizes: (1) varying local property tax bases, (2) varying program cost factors, (3) district cost differentials, and (4) differences in per-student cost for equivalent educational programs due to sparsity and dispersion of student population. The funding provided by FEFP is based upon the numbers of individual students participating in particular educational programs. A numerical value is assigned to each student according to the student's hours and days of attendance in those programs. The individual student thus becomes equated to a numerical value known as an unweighted FTE (full-time equivalent) student. For example, one student would be reported as one FTE if the student was enrolled in six classes per day at 50 minutes per class for the full 180-day school year (i.e., six classes at 50 minutes each per day is 5 hours of class a day or 25 hours per week that equals one FTE).

### Student Transportation

Any student who is transported by the District must meet one or more of the following conditions in order to be eligible for State transportation funding: live two or more miles from school, be physically handicapped, be a Career Education 9-12 or an ESE student who is transported from one school center to another where appropriate programs are provided, or be on a route that meets the criteria for hazardous walking conditions specified in Section 1006.23(4), Florida Statutes. The District received approximately \$23.9 million for student transportation as part of the State funding through FEFP.

## INDEPENDENT AUDITOR'S REPORT PALM BEACH COUNTY DISTRICT SCHOOL BOARD FLORIDA EDUCATION FINANCE PROGRAM (FEFP) FULL-TIME EQUIVALENT (FTE) STUDENTS

We have examined management's assertion, included in its representation letter dated July 2, 2012, that the Palm Beach County District School Board complied with State requirements governing the determination and reporting of the number of full-time equivalent (FTE) students under the Florida Education Finance Program (FEFP) for the fiscal year ended June 30, 2012. These requirements are found primarily in Sections 1011.60, 1011.61, and 1011.62, Florida Statutes; State Board of Education Rules, Chapter 6A-1, Florida Administrative Code; and the *FTE General Instructions 2011-12* issued by the Department of Education. As discussed in the representation letter, management is responsible for the District's compliance with State requirements. Our responsibility is to express an opinion on the District's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants (AICPA) and the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States and, accordingly, included examining, on a test basis, evidence about the District's compliance with the aforementioned State requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. The legal determination of the District's compliance with these requirements is, however, ultimately the responsibility of the Department of Education.

## COMPLIANCE

Our examination procedures disclosed the following material noncompliance:

1. Teachers

Seventy-two of the 611 teachers in our sample did not meet State requirements governing certification, School Board approval of out-of-field teacher assignments, notification to parents regarding teachers' out-of-field status, or the earning of required in-service training points in ESOL strategies.<sup>1</sup>

2. Students

One hundred twenty-one of the 681 students in our ESE Support Levels 4 and 5 sample<sup>2</sup> and 79 of the 256 students in our Career Education 9-12 (OJT) sample<sup>3</sup> had exceptions involving reporting errors or records that were not properly or accurately prepared or were missing and could not be located.

In our opinion, except for the material noncompliance mentioned above involving teachers and reporting errors or records that were not properly or accurately prepared or were missing and could not be located for students in ESE Support Levels 4 and 5 and Career Education 9-12 (OJT), the Palm Beach County District School Board complied, in all material respects, with State requirements governing the determination and reporting of the number of full-time equivalent (FTE) students under the Florida Education Finance Program (FEFP) for the fiscal year ended June 30, 2012.

The results of our examination disclosed other noncompliance with the State requirements mentioned above. We considered this other noncompliance in forming our opinion regarding the District's compliance and it did not affect our opinion as stated above. All noncompliance disclosed by our examination procedures is discussed in SCHEDULE D. The impact of this noncompliance on the District's reported FTE is presented in SCHEDULES A, B, C, and D.

<sup>2</sup>For ESE Support Levels 4 and 5, see SCHEDULE D, Finding Nos. 3, 4, 11, 12, 26, 27, 33, 47, 48, 50, 51, 54, 55, 56, 57, 58, 61, 65, 70, 71, 77, 78, 81, 86, 87, 89, 90, 91, 92, 98, 99, 100, 109, 128, 129, 130, 131, 132, 133, 134, and 135.

<sup>3</sup>For Career Education 9-12 (OJT), see SCHEDULE D, Finding Nos. 28, 29, 30, 37, 38, 39, 40, 62, 72, 73, 74, 79, 80, 82, 83, 103, 104, 115, and 116.

### INTERNAL CONTROL OVER COMPLIANCE

In accordance with attestation standards established by the AICPA and *Government Auditing Standards*, we are required to report significant deficiencies in internal control detected during our examination and identify those considered to be material weaknesses. The purpose of our examination was to express an opinion on the District's compliance with State requirements and did not include expressing an opinion on the District's related internal controls. Accordingly, we express no such opinion. Due to its limited purpose, our examination would not necessarily identify all deficiencies in internal control over compliance that might be significant deficiencies or material weaknesses.<sup>4</sup> However, the material noncompliance mentioned above is indicative of significant deficiencies considered to be material weaknesses in the District's internal controls related to teacher certification and reporting errors or records that were not properly or accurately prepared or were missing and could not be located for students in ESE Support Levels 4 and 5 and Career Education 9-12 (OJT). Other noncompliance disclosed by our examination procedures is indicative of control deficiencies<sup>4</sup> and is also presented herein. The findings, populations, samples, and exception totals that pertain to material and other noncompliance are presented in SCHEDULES A and D.

The District's written response to this examination has not been subjected to our examination procedures and, accordingly, we express no opinion on it.

Pursuant to Section 11.45(4)(c), Florida Statutes, this report is a public record and its distribution is not limited. Attestation standards established by the AICPA require us to indicate that this report is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the State Board of Education, the Department of Education, and applicable District management and is not intended to be and should not be used by anyone other than these specified parties.

Respectfully submitted,

David W. Martin, CPA

<sup>4</sup> *A control deficiency in the entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to comply with the aforementioned State requirements such that there is more than a remote likelihood that noncompliance that is more than inconsequential will not be prevented or detected by the entity's internal control. A material weakness is a significant deficiency, or combination of significant deficiencies, that results in a more-than-remote likelihood that material noncompliance will not be prevented or detected by the entity's internal control.*

 Florida Education Finance Program (FEFP)  
 Full-Time Equivalent (FTE) Students  
**POPULATIONS, SAMPLES, AND TEST RESULTS**  
 For the Fiscal Year Ended June 30, 2012

**REPORTED FTE**

The funding provided by FEFP is based upon the numbers of individual students participating in particular educational programs. FEFP funds ten specific programs that are grouped under the following four general program titles: Basic, ESOL, ESE, and Career Education 9-12. Unweighted FTE represents FTE prior to the application of the specific cost factor for each program. (See SCHEDULE B and NOTES A3, A4, and A6.) The District reported 175,083.70 unweighted FTE at 217 schools to the Department of Education for the fiscal year ended June 30, 2012.

**SCHOOLS AND STUDENTS**

As part of our examination procedures, we sampled schools and students for testing FTE reported to the Department of Education for the fiscal year ended June 30, 2012. (See NOTE B.) The population of schools (217) consisted of the total number of schools in the District that offered courses in FEFP-funded programs. The population of students (48,381) consisted of the total number of students in each program at the schools in our samples. Our Career Education 9-12 data includes only those students who participated in OJT. Our populations and samples of schools and students are summarized as follows:

<u>Programs</u>	<u>Number of Schools</u>		<u>Number of Students</u>		Students with <u>Exceptions</u>	<u>Unweighted FTE</u>		Proposed <u>Adjustments</u>

Florida Education Finance Program (FEFP)

**POPULATIONS, SAMPLES, AND TEST RESULTS**  
For the Fiscal Year Ended June 30, 2012

**TEACHERS**

We also sampled teachers as part of our examination procedures. (See NOTE B.) Specifically, the population of teachers (2,331) consisted of the total number of teachers at schools in our sample who taught courses in ESE Support Levels 4 and 5 or Career Education 9-12 or taught courses to classes that included ELL students. From the population of teachers, we sampled 611 and found exceptions for 72 of those teachers.

**PROPOSED ADJUSTMENTS**

Our proposed adjustments present the net effects of noncompliance disclosed by our examination procedures, including those related to our tests of teacher certification. Our proposed adjustments generally reclassify reported FTE to Basic education, except for noncompliance involving a student's enrollment or attendance in which case the reported FTE is taken to zero. (See SCHEDULES B, C, and D.)

Section 2 of the General Appropriations Act for the 2011-12 fiscal year (Chapter 2011-69, Laws of Florida) established the cost factors for that fiscal year as shown on SCHEDULE B. Generally, the cost factors are greater than or equal to 1.000, with Basic education cost factors being the lowest. However, for the 2011-12 fiscal year, the cost factor for Career Education 9-12 was 0.999. Chapter 2012-133, Laws of Florida, in part, amended Section 1011.62(13)(b), Florida Statutes, to add language providing that, beginning with the 2011-12 fiscal year, an audit adjustment may not result in the reclassification of special program FTE to basic program FTE if the special program cost factor is less than the basic program cost factor. Accordingly, for instances of noncompliance involving teachers not being properly certified and teaching Career Education 9-12 students out of field or parents of the students not being notified of the teachers' out-of-field status, we have presented disclosure Findings with no proposed adjustments. (See SCHEDULE D, Finding No. 118.)

The ultimate resolution of our proposed adjustments to FTE and the computation of their financial impact is the responsibility of the Department of Education.

**SCHEDULE D**

Palm Beach County District School Board  
 Florida Education Finance Program (FEFP)  
 Full-Time Equivalent (FTE) Students  
**FINDINGS AND PROPOSED ADJUSTMENTS**  
 For the Fiscal Year Ended June 30, 2012

**OVERVIEW**

Management is responsible for determining and reporting the number of full-time equivalent (FTE) students under the Florida Education Finance Program (FEFP) in compliance with State requirements. These requirements are found primarily in Sections 1011.60, 1011.61, and 1011.62, Florida Statutes; State Board of Education Rules, Chapter 6A-1, Florida Administrative Code; and the *FTE General Instructions 2011-12* issued by the Department of Education. Except for the material noncompliance involving teachers and reporting errors or records that were not properly or accurately prepared or were missing and could not be located for students in ESE Support Levels 4 and 5 and Career Education 9-12 (OJT), the Palm Beach County District School Board complied, in all material respects, with State requirements governing the determination and reporting of FTE for the fiscal year ended June 30, 2012. All noncompliance disclosed by our examination procedures is discussed below and requires management's attention and action, as recommended on page 67.

**Findings**

**Proposed Net  
Adjustments  
(Unweighted FTE)**

*Our examination included the July and October 2011 surveys and the February and June 2012 surveys (see NOTE A5). Unless otherwise specifically stated, the Findings and Proposed Adjustments presented herein are for the October 2011 survey or the February 2012 survey or both. Accordingly, our Findings do not mention specific surveys unless necessary for a complete understanding of the instances of noncompliance being disclosed.*

**Allamanda Elementary School (#0101)**

1. [Ref. 10101] One ELL student was not in membership during the reporting survey week and should not have been reported with the survey's results. We propose the following adjustment:

102 Basic 4-8	(.0400)	
130 ESOL	(.4600)	(.5000)

**Findings****Allamanda Elementary School (#0101)** (Continued)

2. [Ref. 10102] The file for one ELL student did not contain the following documentation: (a) an ELL Student Plan; (b) English language assessments that would support the student's ESOL placement; and (c) parental notification of the student's ESOL placement. We propose the following adjustment:

102 Basic 4-8	.4600	
130 ESOL	(.4600)	.0000

3. [Ref. 10104] Two ESE students were not reported in accordance with the students' Matrix of Services forms. We propose the following adjustment:

254 ESE Support Level 4	1.5000	
255 ESE Support Level 5	(1.5000)	.0000

4. [Ref. 10105] We noted exceptions involving three ESE students, as follows: (a) there was no evidence that the Matrix of Services form for one student was reviewed and updated when the student's new IEP was developed, and (b) the Matrix of Services forms for two students were not prepared until after the reporting surveys. We propose the following adjustment:

111 Grades K-3 with ESE Services	1.5000	
254 ESE Support Level 4	(1.5000)	.0000
		(.5000)

**Lincoln Elementary School (#0211)**

5. [Ref. 21101] The file for one ELL student did not contain documentation to justify the student's extended ESOL placement. We also noted that an ELL Committee was not timely convened (August 31, 2011) when recommending the student's extended ESOL placement based on the student's ESOL anniversary date (October 31, 2011). We propose the following adjustment:

6. [Ref. 21170] One teacher taught Primary Language Arts courses to a class that included ELL students but had earned only 120 of the 240 in-service training points in ESOL strategies required by rule and the teacher's in-service training timeline. We propose the following adjustment:

101 Basic K-3	1.1400	
130 ESOL	(1.1400)	.0000

7. [Ref. 21171] One teacher taught classes that included an ELL student but was not properly certified to teach ELL students and was not approved by the School Board to teach such students out of field. We also noted that: (a) the parents of the ELL student were not notified of the teacher's out-of-field status, and (b) the teacher had earned none of the 180 in-service training points in ESOL strategies required by rule and the teacher's in-service training timeline. We propose the following adjustment

69. [Ref. 200102] The file for one ELL student did not contain an *ELL Student Plan* that covered the 2011-12 school year. We propose the following adjustment:

103 Basic 9-12	.4170	
130 ESOL	(.4170)	.0000

70. [Ref. 200103] The course schedule for one ESE student receiving instruction in both on-campus and homebound instruction based on the student's placement in the Hospital and Homebound Program was incorrectly reported in Program No. 255 (ESE Support Level 5) for the on-campus portion of the student's schedule. The on-campus portion should have been report in Program No. 113 (Grades 9-12 with ESE Services). We propose the following adjustment.

113 Grades 9-12 with ESE Services	.1668	
255 ESE Support Level 5	(.1668)	.0000

71. [Ref. 200104] There was no evidence that the *Matrix of Services* form for one ESE student was reviewed and updated when the student's new IEP was developed. We propose the following adjustment:

99. [Ref. 294101] Eight ESE students were not reported in accordance with the students' Matrix of Services forms. We also noted that the course schedules for four of these students were underreported. The PK students were reported for 1,140 instructional minutes (or .4750 FTE) but should have been reported for 1,350 instructional minutes (or .5000 FTE) in accordance with the school's bell schedule. We propose the following adjustment:

254	ESE Support Level 4	.0500	
255	ESE Support Level 5	(3.8750)	.2000

100. [Ref. 294102] The course schedules and associated FTE for 35 PK ESE students (13 were in our ESE Support Levels 4 and 5 sample and 1 was in our Basic with ESE Services sample) were underreported. The PK students were reported for less than a full-time schedule (i.e., for .4750 FTE based on 1,140 instructional minutes); however, the students were receiving more than 1,200 minutes of instruction which equates to a full-time schedule for a PK student and should have been reported for .5000 FTE in accordance with the school's bell schedule. Consequently, the Matrix of Services forms for 31 of these students incorrectly included three Special Consideration points designated for PK students earning less than .5000 FTE. Therefore, the students who were reported in Program No. 255 (ESE Support Level 5) and Program No. 254 (ESE Support Level 4) should have actually been reported in Program No. 254 (ESE Support Level 4) and Program No. 111 (Grades K-3 with ESE Services), respectively. 118. [Ref. 338671] We noted the following exceptions for one teacher who taught a Career Education 9-12 course and Reading courses to classes that included ELL students:

- a. The teacher was not approved to teach a Career Education 9-12 course out of field. The teacher was certified in French but taught a course that required certification in any field with the Teacher Coordinator of Work Experience endorsement. We also noted that the parents of the students were not notified of the teacher's out-of-field status.
- b. The parents of the students who were taught Reading were not notified of the teacher's out-of-field status in either Reading or ESOL. We also noted that, although the teacher had been previously approved to teach Reading out of field, the teacher did not earn the required six college credit hours towards certification in Reading and had earned none of the 240 in-service training points in ESOL strategies required by rule and the teacher's in-service training timeline.

**Findings****Mavericks High School at Palm Springs (#3971)**

124. [Ref. 397101] As explained in NOTE A3, a numerical value known as FTE is assigned to each student according to the student's hours and days of attendance in particular educational programs. For high school students, 1.0000 FTE (or .5000 FTE per survey for the October 2011 and February 2012 surveys) is defined as one student in membership in a program or group of programs for 25 hours per week for 180 days. For Mavericks High School at Palm Springs, we determined that the bell schedule for 969 students (12 students in our Basic sample, 5 students in our Basic with ESE Services sample, and 10 students in our ESOL sample) only reflected 20 hours per week of instruction. We also noted that all students' class schedules included Course No. 0500500 (Personal, Career, and School Development Skills 1), which was classified as experiential education (an off-campus course) for 5 hours per week. We requested supporting documentation for this off-campus course but none was provided. Instead, School management then advised us that the School reported the students' schedules based on a planned calendar of 225 instructional days, which, at 20 hours of instruction per week, would also equate to .5000 FTE per student per survey. However, the School provided no documentation to support that the students had attended the School for more than the 180 days reflected on the District's instructional calendar. Consequently, based on a 180-day calendar, the 20-hour week equated instead to .4000 FTE per student per survey, resulting in FTE being overreported by approximately .1000 FTE per student per survey. We propose the following adjustment:

103 Basic 9-12	(81.0000)	
113 Grades 9-12 with ESE Services	(14.4000)	(95.4000)

**Findings****Mavericks High School at Palm Springs (#3971)** (Continued)

**NOTE:** The School reported a total of 969 students in Course No. 0500500 for the two surveys (469 students in the October 2011 survey and 500 students in the February 2012 survey). However, 14 of the 969 students are proposed for adjustment in Finding No. 125 and, therefore, are not proposed for adjustment in this Finding. Because of minor variances in some students' schedules, our proposed adjustment to reported FTE for the remaining 955 students is a negative 95.4000 versus a negative 95.5000 (negative .1000 times 955 students).

125. [Ref. 397102] There was no documentation to indicate that 14 students (1 student was in our ESOL sample) were in attendance during the 11-day window of the reporting survey; consequently, the students should not have been reported with the survey's results. We also noted that the ESOL sample student's English language proficiency had not been assessed prior to the student's extended ESOL placement for a sixth year. We propose the following adjustment:

103 Basic 9-12	(6.1000)	
113 Grades 9-12 with ESE Services	(.5000)	
130 ESOL	(.4000)	(7.0000)

**NOTE:** The 14 students described above in Finding No. 125 were also included as exceptions in the District's Inspector General report (Report #2013-02) dated January 10, 2013, on Mavericks High at Palm Springs – Enrollment Records. The District and Mavericks High School stated that they would compare the roster of selected students from our FEFP examination report to determine that these 14 students are the same as the ones included in the District's Inspector General report and, if so, through our FEFP examination report process, the proposed adjustment would be made by the Department of Education for the 14 students not in attendance during the survey week.

128. [Ref. 903402] The number of homebound instructional minutes for eight ESE students in the Hospital and Homebound Program was overstated. The students were reported for more instructional time than was authorized on their IEPs. We also noted the following involving two of these students: (a) one student was reported for 1,000 instructional minutes using the teleclass method of instruction, which was not authorized on the student's IEP, and (b) the homebound teacher's contact log for one student was missing and could not be located. However, the students' teleclass-related instruction should have been reported in Program No. 112 (Grades 4-8 with ESE Services) or Program No. 113 (Grades 9-12 with ESE Services). For the Fiscal Year Ended June 30, 2012

**RECOMMENDATIONS**

**We recommend** that management exercise more care and take corrective action, as appropriate, to ensure that: (1) only students who are in membership and in attendance at least 1 of the 11 days of a survey window are reported for FEFP funding; (2) students are reported in the proper funding categories for the correct amount of FTE and have adequate documentation to support that reporting, particularly with regard to students in ESE Support Levels 4 and 5; (3) students' files contain proper documentation to support each student's placement in the ESOL Program; (4) students' English language proficiencies are assessed and ELL Committees are convened timely to the students' extended ESOL placements based on their individual ESOL anniversary dates; (5) *ELL Student Plans* are dated and are timely reviewed and updated; (6) parents are timely notified of their child's ESOL placement; (7) students assessed English proficient are placed or retained in ESOL based on the placement recommendations of ELL Committees that have considered the criteria specified by State Board of Education Rule 6A-6.0902(2)(a)3., FAC; (8) FTE is reported in accordance with the school's bell schedule and for students receiving homebound instruction according to each individual student's instructional schedule; (9) all required participants are involved in the development of students' IEPs and documentation of this participation is maintained in the students' files; (10) students reported for homebound instruction and teleclass instruction are reported in the appropriate programs related to that specific instruction; (11) reported FTE for students in the Hospital and Homebound Program is based on the homebound instructors' contact logs and time authorized on the students' IEPs; (12) ESE students are reported in accordance with their *Matrix of Services* forms; (13) *Matrix of Services* forms are timely and properly completed and correctly scored; (14) evidence is maintained to support that the *Matrix of Services* forms have been reviewed and updated when students' IEPs are prepared; (15) parents are informed of and invited to their child's IEP meeting; (16) IEPs are reviewed and updated annually; (17) students in Career Education 9-12 (OJT) are reported in accordance with timecards that are accurately completed, signed, and retained in readily-accessible files; (18) only students whose timecards indicate that the students were employed or were otherwise engaged in a job search are reported in the Career Education 9-12 (OJT) Program; (19) only students receiving compensation for employment should be reported in Career Education 9-12 (OJT); (20) teachers are properly certified or, if out of field, are approved to teach out of field by the School Board; (21) out-of-field teachers earn appropriate college credit or in-service training points as required by rule and their in-service training timeline; and (22) parents are appropriately notified of teachers' out-of-field status.

**NOTES TO SCHEDULES**  
For the Fiscal Year Ended June 30, 2012

**NOTE A – SUMMARY**

A summary discussion of the significant features of the District, FEFP, FTE, and related areas follows:

**1. School District of Palm Beach County**

The District was established pursuant to Section 1001.30, Florida Statutes, to provide public educational services for the residents of Palm Beach County, Florida. Those services are provided primarily to prekindergarten through twelfth grade students and to adults seeking career education-type training. The District is part of the State system of public education under the general direction and control of the State Board of Education. The geographic boundaries of the District are those of Palm Beach County.

For the fiscal year ended June 30, 2012, the District operated 217 schools serving prekindergarten through twelfth grade students, reported 175,083.70 unweighted FTE, and received approximately \$106 million in State funding through FEFP. The primary sources of funding for the District are funds from FEFP, local ad valorem taxes, and Federal grants and donations.

**2. Florida Education Finance Program (FEFP)**

Florida school districts receive State funding through FEFP to serve prekindergarten through twelfth grade students (adult education is not funded by FEFP). FEFP was established by the Florida Legislature in 1973 to guarantee to each student in the Florida public school system the availability of programs and services appropriate to the student's educational needs which are substantially equal to those available to any similar student notwithstanding geographic differences and varying local economic factors. To provide equalization of educational opportunity in Florida, the FEFP formula recognizes: (1) varying local property tax bases, (2) varying program cost factors, (3) district cost differentials, and (4) differences in per-student cost for equivalent educational programs due to sparsity and dispersion of student population.

**NOTES TO SCHEDULES**  
For the Fiscal Year Ended June 30, 2012

**NOTE A - SUMMARY** (Continued)

**3. Full-Time Equivalent (FTE) Students**

The funding provided by FEFP is based upon the numbers of individual students participating in particular educational programs. A numerical value is assigned to each student according to the student's hours and days of attendance in those programs. The individual student thus becomes equated to a numerical value known as an FTE. For example, for prekindergarten through third grade, one FTE is defined as one student in membership in a program or a group of programs for 20 hours per week for 180 days; for grade levels four through twelve, one FTE is defined as one student in membership in a program or a group of programs for 25 hours per week for 180 days.

**4. Calculation of FEFP Funds**

The amount of State and local FEFP funds is calculated by the Department of Education by multiplying the number of unweighted FTE in each educational program by the specific cost factor of each program to obtain weighted FTEs. Weighted FTEs are multiplied by the base student allocation amount and that product is multiplied by the appropriate cost differential factor. Various adjustments are then added to this product to obtain the total State and local FEFP dollars. All cost factors, the base student allocation amount, cost differential factors, and various adjustment figures are established by the Florida Legislature.

**5. FTE Surveys**

FTE is determined and reported during the school year by means of four FTE membership surveys that are conducted under the direction of district and school management. Each survey is a sampling of FTE membership for a period of one week. The surveys for the 2011-12 school year were conducted during and for the following weeks: survey one was performed for July 11 through 15, 2011; survey two was performed for October 10 through 14, 2011; survey three was performed for February 13 through 17, 2012; and survey four was performed for June 11 through 15, 2012.

**6. Educational Programs**

FEFP funds ten specific programs under which instruction may be provided as authorized by the Florida Legislature. The general program titles under which these specific programs fall are as follows: (1) Basic, (2) ESOL, (3) ESE, and (4) Career Education 9-12.

**7. Statutes and Rules**

## INDEPENDENT AUDITOR'S REPORT PALM BEACH COUNTY DISTRICT SCHOOL BOARD FLORIDA EDUCATION FINANCE PROGRAM (FEFP) STUDENT TRANSPORTATION

We have examined management's assertion, included in its representation letter dated July 2, 2012, that the Palm Beach County District School Board complied with State requirements governing the determination and reporting of the number of students transported for the fiscal year ended June 30, 2012. These requirements are found primarily in Chapter 1006, Part I, E., and Section 1011.68, Florida Statutes; State Board of Education Rules, Chapter 6A-3, Florida Administrative Code; and the *Student Transportation General Instructions 2011-2012* issued by the Department of Education. As discussed in the representation letter, management is responsible for the District's compliance with State requirements. Our responsibility is to express an opinion on the District's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants (AICPA) and the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States and, accordingly, included examining, on a test basis, evidence about the District's compliance with the aforementioned State requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. The legal determination of the District's compliance with these requirements is, however, ultimately the responsibility of the Department of Education.

## COMPLIANCE

Our examination procedures disclosed material noncompliance with the District's reported student ridership data as follows: 117 of the 599 students in our sample had exceptions involving their reported ridership classification or eligibility for State transportation funding. (See SCHEDULE G, Finding Nos. 7 and 9 through 17.)

In our opinion, except for the material noncompliance mentioned above involving their reported ridership classification or eligibility for State transportation funding, the Palm Beach County District School Board complied, in all material respects, with State requirements governing the determination and reporting of the number of students transported for the fiscal year ended June 30, 2012.

The results of our examination disclosed other noncompliance with the State requirements mentioned above. We considered this other noncompliance in forming our opinion regarding the District's compliance and it did not affect our opinion as stated above. All noncompliance disclosed by our examination procedures is discussed in SCHEDULE G. The impact of this noncompliance on the District's reported number of transported students is presented in SCHEDULES F and G.

## INTERNAL CONTROL OVER COMPLIANCE

In accordance with attestation standards established by the AICPA and *Government Auditing Standards*, we are required to report significant deficiencies in internal control detected during our examination and identify those considered to be material weaknesses. The purpose of our examination was to express an opinion on the District's compliance with State requirements and did not include expressing an opinion on the District's related internal controls. Accordingly, we express no such opinion. Due to its limited purpose, our examination would not necessarily identify all deficiencies in internal control over compliance that might be significant deficiencies or material weaknesses.<sup>1</sup> However, the material noncompliance mentioned above is indicative of significant deficiencies considered to be material weaknesses in the District's internal controls related to their reported ridership classification or eligibility for State transportation funding. Other noncompliance disclosed by our examination procedures is indicative of control deficiencies<sup>1</sup> and is also presented herein. The findings, populations, samples, and exception totals that pertain to material and other noncompliance are presented in SCHEDULES F and G.

---

<sup>1</sup> *A control deficiency in the entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to comply with the aforementioned State requirements such that there is more than a remote likelihood that noncompliance that is more than inconsequential will not be prevented or detected by the entity's internal control. A material weakness is a significant deficiency, or combination of significant deficiencies, that results in a more-than-remote likelihood that material noncompliance will not be prevented or detected by the entity's internal control.*

The District's written response to this examination has not been subjected to our examination procedures, and accordingly, we express no opinion on it.

Pursuant to Section 11.45(4)(c), Florida Statutes, this report is a public record and its distribution is not limited. Attestation standards established by the AICPA require us to indicate that this report is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the State Board of Education, the Department of Education, and applicable District management and is not intended to be and should not be used by anyone other than these specified parties.

Respectfully submitted,

David W. Martin, CPA

**POPULATIONS, SAMPLES, AND TEST RESULTS**  
 For the Fiscal Year Ended June 30, 2012

Any student who is transported by the District must meet one or more of the following conditions in order to be eligible for State transportation funding: live two or more miles from school, be physically handicapped, be a Career Education 9-12 or an ESE student who is transported from one school center to another where appropriate programs are provided, or be on a route that meets the criteria for hazardous walking conditions specified in Section 1006.23(4), Florida Statutes. (See NOTE A1.)

As part of our examination procedures, we sampled students for testing the number of students transported as reported to the Department of Education for the fiscal year ended June 30, 2012. (See NOTE B.) The population of vehicles (2,229 of which 1,712 were buses) consisted of the total of the numbers of vehicles reported by the District for each survey. For example, a vehicle that transported students during the July and October 2011 and February and June 2012 surveys would be counted in the population as four vehicles. Similarly, the population of students (118,271) consisted of the total numbers of students reported by the District as having been transported for each survey. (See NOTE A2.) The District reported students in the following ridership categories:

<u>Ridership Category</u>	<u>Number of Students Transported</u>
IDEA (K-12), Weighted	5,190
IDEA (K-12), Unweighted	136
IDEA (PK), Weighted	1,994
IDEA (PK), Unweighted	544
Teenage Parents and Infants	136
Hazardous Walking	3,925
Two Miles or More	106,275
Center to Center (CTE and Dual Enrollment)	<u>71</u>
Total	<u>118,271</u>

Students with exceptions are students with exceptions affecting their ridership category. Students cited only for incorrect reporting of days in term, if any, are not included.

**FINDINGS AND PROPOSED ADJUSTMENTS**  
 For the Fiscal Year Ended June 30, 2012

**OVERVIEW**

Management is responsible for determining and reporting the number of students transported in compliance with State requirements. These requirements are found primarily in Chapter 1006, Part I, E., and Section 1011.68, Florida Statutes; State Board of Education Rules, Chapter 6A-3, Florida Administrative Code; and the *Student Transportation General Instructions 2011-2012* issued by the Department of Education. Except for the material noncompliance involving their reported ridership classification or eligibility for State transportation funding, the Palm Beach County District School Board complied, in all material respects, with State requirements governing the determination and reporting of students transported for the fiscal year ended June 30, 2012. All noncompliance disclosed by our examination procedures is discussed below and requires management's attention and action, as recommended on page 91.

**Findings**

**Students

 Proposed Net  
 Adjustments**

*Our examination procedures included both general tests and detailed tests. Our general tests included inquiries concerning the District's transportation of students and verification that a bus driver's report existed for each bus reported in a survey. Our detailed tests involved verification of the specific ridership categories reported for students sampled from the July and October 2011 surveys and the February and June 2012 surveys. Adjusted students who were in more than one survey are accounted for by survey. For example, a student sampled twice (i.e., once for the October 2011 survey and once for the February 2012 survey) will be presented in our Findings as two sample students.*

1. [Ref. 51] In our examination of reported ridership, we noted that 18 students reported for State transportation funding did not have a matching demographic record in the State FTE database. We provided the relevant information to District staff allowing them to research and provide any documentation to support the eligibility of these students for transportation reporting. None of the 18 students could be validated and, as a result, were not eligible for State transportation funding. We propose the following adjustment:

4. [Ref. 54] Our general tests of student transportation disclosed 30 students reported in IDEA-Weighted ridership categories who were transported using private passenger vehicles. Consequently, these students were ineligible to be reported in an IDEA-Weighted ridership category but were eligible for reporting in the IDEA (K-12), Unweighted ridership category. We propose the following adjustment:

5. [Ref. 55] The number of buses in operation in the October 2011 and June 2012 surveys was overstated by ten buses. We noted that one bus transported only courtesy riders and the bus drivers' reports for the other nine buses (six in the October 2011 survey and three in the June 2012 survey) were missing and could not be located. Consequently, the associated reported ridership count for these nine buses of 160 students was not adequately supported. We propose the following adjustments:

6. [Ref. 65] We noted in our general tests of student transportation that there was no documentation (contracts or car driver reports) to support the reported ridership of 28 students reported as transported in contracted passenger vehicles. We propose the following adjustments:

7. [Ref. 67] The reported ridership of 410 students (3 were in our sample) involving ten buses was not adequately supported. We determined that the bus drivers' reports were all prepared on March 2, 2012 (after the reporting surveys), by one individual. There was no indication on the reports that the ten individual drivers assigned to those bus routes had physically identified and counted the students during the 11-day survey window. Charter school personnel explained that the students in question were reported based on counts provided by the drivers; however, charter school personnel were not able to provide source documentation to support this reporting or the timeliness of the reports. We propose the following adjustment:

8. [Ref. 68] Our general tests of student transportation disclosed the following exceptions involving 744 students regarding the related instructional schedules supporting their enrollment and the number of days in term that instruction took place in the July 2011 and June 2012 surveys:

- a. The course schedules for 70 students were missing and could not be located. As a result, we could not determine whether these students were in an instructional program during the reporting surveys. Consequently, these 70 students were not eligible for State transportation funding.
- b. The number of days in term for 674 students was incorrectly reported as 12 days. We determined that the students should have been reported for either 7, 11, or 15 days in term as supported by the District's summer instructional schedules.

We propose the following adjustments:

**RECOMMENDATIONS**

**We recommend** that management exercise more care and take corrective action, as appropriate, to ensure that: (1) bus driver reports are maintained to support all reported ridership; (2) transported students are reported in the correct ridership category and for the correct number of days in term and have documentation to support that reporting; (3) only those students who are documented as enrolled in school during the survey week and are recorded on a bus driver's report as having been transported by the District at least once during the 11-day survey window are reported for State transportation funding; (4) the distance from home to school is verified prior to students being reported in the Two Miles or More ridership category; (5) only eligible students who live less than two miles from their assigned school and are on a route that meets the criteria for hazardous walking conditions are reported in the Hazardous Walking ridership category; (6) IEPs for Speech Impaired, Language Impaired, or Specific Learning Disabled students that are reported in the IDEA (K-12), Unweighted ridership category specifically indicate the need for specialized transportation as it relates to the students' disabilities; (7) students reported in IDEA-Weighted classifications are appropriately documented as meeting one of the five criteria as noted on the students' IEPs; (8) only PK students with disabilities or PK children of students enrolled in a Teenage Parent Program are reported and proper documentation is maintained to support this reporting; (9) transportation personnel review their database for completeness and accuracy to ensure that students are reported in ridership categories that are appropriate for the students' grade level and that all students have matching demographics to support that the students are properly enrolled and are eligible for State transportation funding; (10) proper documentation is maintained to support the eligibility of students reported on alternative modes of transportation, such as passenger cars or general purpose vehicles; and (11) students transported by private passenger vehicles are not reported in weighted ridership categories.

The absence of statements in this report regarding practices and procedures followed by the District should not be construed as acceptance, approval, or endorsement of those practices and procedures. Additionally, the specific nature of this report does not limit or lessen the District's obligation to comply with all State requirements governing student transportation.

**NOTE A – SUMMARY**

A summary discussion of the significant features of student transportation and related areas follows:

**1. Student Eligibility**

Any student who is transported by bus must meet one or more of the following conditions in order to be eligible for State transportation funding: live two or more miles from school, be physically handicapped, be a Career Education 9-12 or an ESE student who is transported from one school center to another where appropriate programs are provided, or be on a route that meets the criteria for hazardous walking conditions specified in Section 1006.23(4), Florida Statutes.

**2. Transportation in Palm Beach County**

For the fiscal year ended June 30, 2012, the District received approximately \$23.9 million for student transportation as part of the State funding through FEFP. The District's transportation reporting by survey was as follows:

<u>Survey Period</u>	<u>Number of Vehicles *</u>	<u>Number of Students</u>
July 2011	153	2,627
October 2011	898	56,697
February 2012	942	55,358
June 2012	<u>236</u>	<u>3,589</u>
Total	<u>2,229</u>	<u>118,271</u>

\* The total number of vehicles (2,229) includes 1,712 buses (July 2011 = 153; October 2011 = 661; February 2012 = 662; and June 2012 = 236), 513 cars, and 4 vans.

**3. Statutes and Rules**

The following statutes and rules are of significance to the District's administration of student transportation:

Chapter 1006, Part I, E., FS .....Transportation of Public K-12 Students  
 Section 1011.68, FS .....Funds for Student Transportation

**NOTE B – SAMPLING**

Our examination procedures provided for the selection of samples of buses and students using judgmental methods for testing the number of students transported as reported to the Department of Education for the fiscal year ended June 30, 2012. Our sampling process was designed to facilitate the performance of appropriate examination procedures to test the District's compliance with State requirements governing students transported.

Dear Mr. Martin,

We have reviewed the preliminary and tentative report of the examination of Full-Time Equivalent (FTE) students and student transportation, as reported by the School District of Palm Beach County, under the Florida Education Finance Program for the fiscal year ended June 30, 2012.

After thoroughly reviewing the draft Audit report, the District concurs with all findings. The individual ESE, ESOL, and Career Education 9-12 On the Job Training (OJT) FTE findings have been reviewed by the appropriate central and school-based staff members. Ongoing training efforts will be reinforced to avoid recurrence.

Further, we recognize the findings that have come forward from Charter Schools. The findings have been shared with the appropriate personnel and will serve as the basis of ongoing training and technical assistance to assist Charter Schools in avoiding future findings. The District offers this training in the areas of ESE, ESOL, Career Education, and FTE. These trainings are made available to the Charter Schools in the same manner as to all District Schools. Attendance and access to these supports is monitored by the respective Departments in collaboration with the Charter Office.

In addition to the ongoing comprehensive training efforts, the District's corrective action plan will address the following areas:

**School Center Errors:** One of the recurring findings across high schools involved the reporting of students participating in OJT. The District will continue to follow its guidelines that are provided to each high school when reporting OJT funding. The high school principals will receive continued direction regarding the compliance requirements for this program. The District will monitor compliance with the guidelines following each FTE Reporting Survey. Each school reporting students for OJT funding will maintain the necessary documentation to support the funding.

ESE Support Levels 4 and 5 were also identified in the executive summary. The ESE department will continue to provide training to ESE Contacts throughout the District, including Charter Schools, in the areas of Matrix of Services form completion, maintaining records, and other general IDEA requirements. Further, procedures for Hospital Homebound and ESE Pre-K, as outlined below, have been put into place to ensure compliance going forward with contact logs, time in class (bell schedules), and general FTE procedures.

Administration from the District office will facilitate training of staff in all affected areas and will conduct periodic monitoring of school site processes and documentation to ensure that: 1) students are accurately reported for ESE FTE in the proper FEFP funding categories; 2) FTE reporting data are accurately reflected in the systems and fully supported by site records; and 3) school site records fully support and accurately reflect eligible students in attendance and membership during the FTE survey periods.

The District provides online copies of the Data Processor Manual for the use of school staff maintaining TERMS data for students. This document includes guidelines related to data management for ESE students including scheduling guidelines. Annual training and updates are available to all data processors as well as ESE coordinators regarding data management.

Random samplings of the IEP and Matrix of Services will be conducted with targeted technical assistance to select administration, staff, and teachers. All staff completing the Matrix of Services form must use the automated e-forms system and the Florida Department of Education Matrix of Services Handbook to ensure accurate calculation of the matrix scoring.

**Teacher Certification:** Of the 611 teachers in the sample, 72 did not meet state requirements governing certification. The majority of the identified teachers did not complete required ESOL coursework or in-service training within the established timelines. Only a few exceptions were noted in the areas of School Board approval of out-of-field (OOF) teacher assignments and teachers not properly certified. A detailed Correction Action Plan focusing on the above certification findings is attached. The School District will continue to implement strategies devoted to improving the communication and monitoring of ESOL requirements for newly hired, as well as existing instructional employees. A comparison of audit results in FY04, FY07, FY10, and FY12 reflects a steady decline in the number of teacher certification findings. With the appropriate due diligence, this trend is expected to continue in upcoming FTE audits.

**Student Transportation:** The District concurs with all findings. As a corrective action, students reported for transportation in Survey 1 (July 2011) and Survey 4 (June 2012), the days in term will be calculated from the course in which the student is enrolled. Since summer programs vary in length from school to school, and sometimes within the school, it is necessary to link the length of course with the student for transportation purposes. The Length in Term for each student will be updated in the FDOE reporting file prior to submission to the FDOE for Surveys 1 & 4.

David W. Martin, CPA, Auditor General

Regarding students reported in incorrect categories, the District has developed an electronic system for ensuring all students, reported as weighted and unweighted living less than 2 miles from school, have documentation in the Individual Education Plan (IEP) to substantiate the categories. Each request for transportation will be accompanied by the transportation portion of the student's IEP.

Further, Charter Operators will be reminded to comply with FTE procedures for transportation on a timeline consistent with regular District Schools through their regularly scheduled Charter Principals' Meetings and through the new Charter School compliance management system software.

As always, we appreciate your review of our management procedures in FTE reporting and compliance. If you have any questions please contact Michael Burke, Chief Operating Officer, at 561-434-8584 or email: [mike.burke@palmbeachschools.org](mailto:mike.burke@palmbeachschools.org).
