EXECUTIVE SUMMARY

Summary of Report on Financial Statements

Our audit disclosed that the District's basic financial statements were presented fairly, in all material respects, in accordance with prescribed financial reporting standards.

Summary of Report on Internal Control and Compliance

Our audit did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses.

The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* issued by the Comptroller General of the United States; however, we noted a certain additional matter as summarized below.

ADDITIONAL MATTER

Finding No. 1: The District had not developed a written, comprehensive information technology disaster recovery plan.

Summary of Report on Federal Awards

We audited the District's Federal awards for compliance with applicable Federal requirements. The Child Nutrition Cluster program was audited as a major Federal program. The results of our audit indicated that the District materially complied with the requirements that could have a direct and material effect on its major Federal program.

Audit Objectives and Scope

Our audit objectives were to determine whether the Dixie County District School Board and its officers with administrative and stewardship responsibilities for District operations had:

- Presented the District's basic financial statements in accordance with generally accepted accounting principles;
- Established and implemented internal control over financial reporting and compliance with requirements that could have a direct and material effect on the financial statements or on a major Federal program;
- Established internal controls that promote and encourage: 1) compliance with applicable laws, rules, regulations, contracts, and grant agreements; 2) the economic and efficient operation of the District; 3) the reliability of records and reports; and 4) the safeguarding of District assets;
- Complied with the various provisions of laws, rules, regulations, contracts, and grant agreements that are material to the financial statements, and those applicable to the District's major Federal program; and
- Taken corrective actions for findings included in our report No. 2014-116.

The scope of this audit included an examination of the District's basic financial statements and the Schedule of Expenditures of Federal Awards as of and for the fiscal year ended June 30, 2014. We obtained an understanding of the District's environment, including its internal control, and assessed the risk of material misstatement necessary to plan the audit of the basic financial statements and Federal awards. We also examined various transactions to determine whether they were executed, both in manner and substance, in accordance with governing provisions of laws, rules, regulations, contracts, and grant agreements.

Audit Methodology

The methodology used to develop the findings in this report included the examination of pertinent District records in connection with the application of procedures required by auditing standards generally accepted in the United States of America; applicable standards contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and Office of Management and Budget Circular A-133.

INDEPENDENT AUDITOR'S REPORT

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Dixie County District School Board, as of and for the fiscal year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the school internal funds, which represent 35 percent of the assets and 99 percent of the liabilities of the aggregate remaining fund information. In addition, we did not audit the financial statements of the discretely presented component unit, which represent 100 percent of the transactions and account balances of the discretely presented component unit columns. Those financial statements were audited by other auditors whose reports thereon has been furnished to us, and our opinions, insofar as they relate to the amounts included for the school internal funds and the discretely presented component unit, are based solely on the reports of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the reports of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information for the Dixie County District School Board as of June 30, 2014, and the respective changes in financial position thereof for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that **MANAGEMENT'S DISCUSSION AND ANALYSIS, BUDGETARY COMPARISON SCHEDULE - GENERAL AND MAJOR SPECIAL REVENUE FUNDS, SCHEDULE OF FUNDING PROGRESS - OTHER POSTEMPLOYMENT BENEFITS PLAN, and NOTES TO REQUIRED SUPPLEMENTARY INFORMATION**, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a required part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying **SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS** is presented for purposes of additional analysis as required by the United States Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements. The **SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS** is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including

comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the **SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS** is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued a report on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, rules, regulations, contracts, and grant agreements and other matters included under the heading **INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF THE FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***.

The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Respectfully submitted,

David W. Martin, CPA
Tallahassee, Florida
January 28, 2015

MANAGEMENT'S DISCUSSION AND ANALYSIS

The management of the Dixie County District School Board has prepared the following discussion and analysis to provide an overview of the District's financial activities for the fiscal year ended June 30, 2014. The information contained in the Management's Discussion and Analysis (MD&A) is intended to highlight significant transactions, events, and conditions and should be considered in conjunction with the District's financial statements and notes to financial statements found immediately following the MD&A.

FINANCIAL HIGHLIGHTS

Key financial highlights for the 2013-14 fiscal year are as follows:

- The assets of the District exceeded its liabilities at June 30, 2014, by \$29,228,489.24.
- The District's total net position increased \$924,631.96, which represents a 3.3 percent increase from the 2012-13 fiscal year.
- General revenues total \$17,652,761.87, or 86 percent of all revenues. Program specific revenues in the form of charges for services, operating grants and contributions, and capital grants and contributions total \$2,880,366.46, or 14 percent of all revenues.
- Expenses total \$19,608,496.37. Only \$2,880,366.46 of these expenses was offset by program specific charges, with the remainder paid from general revenues. Total revenues exceeded total expenses by \$924,631.96.
- The unassigned fund balance of the General Fund, which is available for general appropriation by the Board, totals \$1,726,837.77 at June 30, 2014, or 11.5 percent of total General Fund expenditures.

OVERVIEW OF FINANCIAL STATEMENTS

The basic financial statements consist of three components:

- Government-wide financial statements;
- Fund financial statements; and
- Notes to financial statements.

This report also includes supplementary information intended to furnish additional details to support the basic financial statements.

Government-wide Financial Statements

The government-wide financial statements provide both short-term and long-term information about the District's overall financial condition in a manner similar to those of a private-sector business. The statements include a statement of net position and a statement of activities that are designed to provide consolidated financial information about the governmental activities of the District presented on the accrual basis of accounting. The statement of net position provides information about the District's financial position, its assets and liabilities, using an economic resources measurement focus. The difference between the assets and liabilities, the net position, is a measure of the financial health of the District. The statement of activities presents information about the change in the District's net position, the results of operations, during the fiscal year. An increase or decrease in net position is an indication of whether the District's financial health is improving or deteriorating.

All of the District's activities and services are reported in the government-wide financial statements as governmental activities. The District's governmental activities include instruction, student support services, instructional support services, administrative support services, facility maintenance, transportation, and food services. Property taxes and

State revenues finance most of these activities. Additionally, all capital and debt financing activities are reported as governmental activities.

The government-wide statements present the District's activities in the following categories:

- Governmental activities – This represents most of the District's services, including its educational programs: basic, vocational, adult, and exceptional education. Support functions such as transportation and administration are also included. Local property taxes and the State's education finance program provide most of the resources that support these activities.
- Component unit – The District presents one separate legal entity in this report, the Kinder Cub School, Inc., a charter school. Although a legally separate organization, the component unit is included in this report because it meets the criteria for inclusion provided by generally accepted accounting principles. Financial information for this component unit is reported separately from the financial information presented for the primary government.

Fund Financial Statements

Fund financial statements are one of the components of the basic financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements and prudent fiscal management. Certain funds are established by law while others are created by legal agreements, such as bond covenants. Fund financial statements provide more detailed information about the District's financial activities, focusing on its most significant or "major" funds rather than fund types. This is in contrast to the entity-wide perspective contained in the government-wide statements. All of the District's funds may be classified within one of the broad categories discussed below.

Governmental Funds: Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, the governmental funds utilize a financial resources measurement focus rather than the economic resources measurement focus found in the government-wide financial statements. The financial resources measurement focus allows the governmental fund statements to provide information on near-term inflows and outflows of spendable resources, as well as balances of spendable resources available at the end of the fiscal year. Such information may be useful in assessing a government's near-term financing requirements.

The governmental fund statements provide a detailed short-term view that may be used to evaluate the District's near-term financing requirements. This short-term view is useful when compared to the long-term view presented as governmental activities in the government-wide financial statements. To facilitate this comparison, both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation of governmental funds to governmental activities.

The governmental funds balance sheet and statement of revenues, expenditures, and changes in fund balances provide detailed information about the District's most significant funds. The District's major funds are the General Fund, Special Revenue - Other Fund, Special Revenue – Federal Economic Stimulus Fund, Capital Projects – Public Education Capital Outlay Fund, and Capital Projects - Local Capital Improvement Fund. Data from the other governmental funds are combined into a single, aggregated presentation.

The District adopts an annual appropriated budget for its governmental funds. A budgetary comparison schedule has been provided for the General and major Special Revenue Funds to demonstrate compliance with the budget.

Fiduciary Funds: Fiduciary funds are used to report assets held in a trustee or fiduciary capacity for the benefit of external parties, such as student activity funds. Fiduciary funds are not reflected in the government-wide statements

because the resources are not available to support the District’s own programs. In its fiduciary capacity, the District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes.

The District uses agency funds to account for resources held for student activities and groups.

Notes to Financial Statements

The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information concerning the District’s progress in funding its obligation to provide other postemployment benefits to its employees.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position over time may serve as a useful indicator of a government’s financial health. The following is a summary of the District’s net position as of June 30, 2014, compared to net position as of June 30, 2013:

	Net Position, End of Year	
	Governmental Activities	
	6-30-14	6-30-13
Current and Other Assets	\$ 5,760,426.31	\$ 3,851,662.75
Capital Assets	26,395,597.54	26,607,481.80
Total Assets	32,156,023.85	30,459,144.55
Long-Term Liabilities	1,697,344.98	1,721,904.12
Other Liabilities	1,230,189.63	433,383.15
Total Liabilities	2,927,534.61	2,155,287.27
Net Position:		
Net Investment in Capital Assets	26,070,597.54	26,237,481.80
Restricted	2,116,053.16	1,433,777.29
Unrestricted	1,041,838.54	632,598.19
Total Net Position	\$ 29,228,489.24	\$ 28,303,857.28

The largest portion of the District’s net position (89.2 percent) is investment in capital assets (e.g., land; buildings; furniture, fixtures, and equipment), less any related debt still outstanding. The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending. Although the investment in capital assets is reported net of related debt, the resources used to repay the debt must be provided from other sources, since the capital assets cannot be used to liquidate these liabilities.

The restricted portion of the District's net position (7.2 percent) represents resources that are subject to external restrictions on how they may be used. The unrestricted net position (3.6 percent) may be used to meet the District's ongoing obligations to students, employees, and creditors.

At the end of the current fiscal year, the District is able to report positive balances in all reported categories of net position for the government as a whole, and for its separate governmental activities. Positive balances were similarly reported for the prior fiscal year.

The key elements of the changes in the District's net position for the fiscal years ended June 30, 2014, and June 30, 2013, are as follows:

Operating Results for the Fiscal Year Ended		
	Governmental Activities	
	6-30-14	6-30-13
Program Revenues:		
Charges for Services	\$ 58,586.99	\$ 70,596.26
Operating Grants and Contributions	1,089,584.43	1,055,928.30
Capital Grants and Contributions	1,732,195.04	82,858.29
General Revenues:		
Property Taxes, Levied for Operational Purposes	2,906,683.46	3,112,204.64
Property Taxes, Levied for Capital Projects	734,599.81	729,845.76
Grants and Contributions Not Restricted to Specific Programs	13,586,528.58	12,256,663.18
Unrestricted Investment Earnings	13,819.80	11,889.82
Miscellaneous	411,130.22	212,669.26
Total Revenues	20,533,128.33	17,532,655.51
Functions/Program Expenses:		
Instruction	9,335,279.15	9,034,095.80
Student Personnel Services	939,134.74	867,243.03
Instructional Media Services	62,605.02	46,654.90
Instruction and Curriculum Development Services	444,106.70	441,828.59
Instructional Staff Training Services	501,920.70	446,947.48
Instruction Related Technology	464,564.67	409,732.46
School Board	256,176.45	239,353.47
General Administration	340,480.60	272,959.59
School Administration	829,806.54	885,693.29
Facilities Acquisition and Construction	312,683.65	385,802.97
Fiscal Services	408,089.42	371,934.02
Food Services	1,206,679.10	1,195,089.58
Central Services	103,724.10	18,627.15
Student Transportation Services	1,214,190.44	1,221,284.12
Operation of Plant	1,660,320.78	1,559,860.19
Maintenance of Plant	370,965.76	360,436.29
Administrative Technology Services	99,574.27	108,870.06
Unallocated Interest on Long-Term Debt	19,306.03	21,573.97
Unallocated Depreciation Expense	1,038,888.25	1,029,098.73
Total Functions/Program Expenses	19,608,496.37	18,917,085.69
Change in Net Position	924,631.96	(1,384,430.18)
Net Position - Beginning	28,303,857.28	29,688,287.46
Net Position - Ending	\$ 29,228,489.24	\$ 28,303,857.28

The largest revenue source is the State of Florida (64.3 percent). Revenues from State sources for current operations are primarily received through the Florida Education Finance Program (FEFP) funding formula. The FEFP formula utilizes student enrollment data, and is designed to maintain equity in funding across all Florida school districts, taking into consideration the District’s funding ability based on the local property tax base.

Overall, revenues increased by \$3,000,472.82 primarily due to increased funding from the FEFP and Public Education Capital Outlay Special Facilities funding. Expenses increased by \$691,410.68 due primarily to increased spending levels associated with State and Federal grant funding increases.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

Major Governmental Funds

As of the end of the fiscal year, the District's governmental funds reported combined ending fund balances of \$4,530,236.68, an increase of \$1,111,957.08.

The General Fund is the District's chief operating fund. At the end of the current fiscal year, unassigned fund balance is \$1,726,837.77 while the total fund balance is \$2,683,382.69. Total fund balance increased by \$287,002.79, compared with a decrease of \$389,077.85 in the prior fiscal year. The increase in the fund balance in the current fiscal year is due primarily to increases in fundings from the FEFP.

The Special Revenue – Other Fund has total revenues of \$1,891,460.47 and expenditures of \$1,890,635.47. Because grant revenues are not recognized until expenditures are incurred, this fund generally does not accumulate a significant fund balance.

The Special Revenue – Federal Economic Stimulus Fund has total revenues and expenditures of \$11,271.56 each. Because grant revenues are not recognized until expenditures are incurred, this fund generally does not accumulate a fund balance.

The Capital Projects – Public Education Capital Outlay Fund has a fund balance of \$807,720, which is encumbered and legislatively restricted for the construction of the new middle/high school.

The Capital Projects – Local Capital Improvement Fund has a fund balance of \$588,450.79, which is restricted for the acquisition, construction, and maintenance of capital assets. Expenditures during the current fiscal year included the purchase of new and replacement furniture and equipment. It should be noted that \$265,273 has been encumbered for specific projects.

GENERAL FUND BUDGETARY HIGHLIGHTS

During the fiscal year, the District amended its General Fund budget, which resulted in an increase in both total budgeted revenues and other financing sources and total appropriations amounting to \$238,170.86. Budget revisions were due primarily to adjustments to planned expenditures for changes in programmatic and operational needs.

Actual revenues and other financing sources are \$131,072.83 less than the final budgeted amounts while actual expenditures are \$956,469.62 less than final budget amounts due to cost containment measures taken by the District to maintain economic viability. As a result of these measures, the actual ending fund balance exceeds the estimated fund balance contained in the final amended budget by \$825,396.79.

CAPITAL ASSETS AND LONG-TERM DEBT

Capital Assets

The District's investment in capital assets for its governmental activities as of June 30, 2014, is \$26,395,597.54 (net of accumulated depreciation). This investment in capital assets includes land; construction in progress; improvements other than buildings; buildings and fixed equipment; furniture, fixtures, and equipment; motor vehicles; and audio visual materials and computer software.

Capital Assets, Net

	Governmental Activities	
	6-30-14	6-30-13
	<u>6-30-14</u>	<u>6-30-13</u>
Land	\$ 902,614.40	\$ 890,949.40
Construction in Progress	1,097,830.00	247,500.00
Improvements Other Than Buildings	1,240,007.98	1,418,010.92
Buildings and Fixed Equipment	21,668,336.01	22,371,381.07
Furniture, Fixtures, and Equipment	558,355.53	514,777.06
Motor Vehicles	830,886.33	1,043,073.12
Audio Visual Materials and Computer Software	97,567.29	121,790.23
Total Capital Assets, Net	\$ 26,395,597.54	\$ 26,607,481.80

Construction in progress increased due to expenses related to the design phase of the new middle/high school project. The overall decline in total net capital assets is due to depreciation expense exceeding capital asset additions.

Additional information on the District’s capital assets can be found in notes I.F.4, II.C, and II.F to the financial statements.

Long-Term Debt

At June 30, 2014, the District has total long-term bonded debt outstanding of \$325,000. This is backed by the full faith and credit of the State of Florida.

Additional information on the District’s long-term debt can be found in note II.H to the financial statements.

OTHER MATTERS OF SIGNIFICANCE

Pursuant to Section 1013.14, Florida Statutes, the District received a special allocation in the 2014-15 fiscal year for specific construction needs through the Public Education Capital Outlay and Debt Service Trust Fund – Special Facility Construction account. On September 19, 2014 the Board received the first of three Public Education Capital Outlay Special Facilities encumbrance authorizations in the amount of \$10,217,280. The funding will be used for the construction of the new middle/high school.

REQUESTS FOR INFORMATION

Questions concerning information provided in the MD&A or other required supplementary information, and financial statements and notes thereto, or requests for additional financial information should be addressed to the Assistant Superintendent of Finance and Business Services, Dixie County District School Board, 823 SE 349 Highway, Building 12, Old Town, Florida 32680.

**DIXIE COUNTY
DISTRICT SCHOOL BOARD
RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF
REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES
TO THE STATEMENT OF ACTIVITIES
For the Fiscal Year Ended June 30, 2014**

Net Change in Fund Balances - Governmental Funds \$ 1,111,957.08

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays are reported in the governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount of depreciation expense in excess of capital outlays in the current fiscal year.	(183,666.27)
In the governmental funds, the cost of capital assets was recognized as an expenditure in the year purchased. Thus, the change in net position differs from the change in fund balance by the undepreciated cost of the disposed assets.	(28,217.99)
Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. This is the amount of repayments in the current fiscal year.	45,000.00
In the statement of activities, the cost of compensated absences is measured by the amounts earned during the year, while in the governmental funds, expenditures are recognized based on the amounts actually paid for compensated absences. This is the net amount of compensated absences earned in excess of the amount used in the current fiscal year.	(20,808.86)
Other postemployment benefits costs are recorded in the statement of activities under the full accrual basis of accounting, but are not recorded in the governmental funds until paid. This is the net decrease in the other postemployment benefits liability for the current fiscal year.	368.00

Change in Net Position - Governmental Activities \$ 924,631.96

**DIXIE COUNTY
DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2014**

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Description of Government-wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. All fiduciary activities are reported only in the fund financial statements. Governmental activities are normally supported by taxes, intergovernmental revenues, and other nonexchange transactions. The primary government is reported separately from the legally separate component unit for which the primary government is financially accountable.

The statement of activities presents a comparison between direct expenses and program revenues for each function or program of the Dixie County School District's (District) governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and are thereby clearly identifiable to a particular function. Depreciation expense associated with the District's transportation department is allocated to the student transportation services function, while remaining depreciation expense is not readily associated with a particular function and is reported as unallocated.

B. Reporting Entity

The Dixie County District School Board (Board) has direct responsibility for operation, control, and supervision of District schools and is considered a primary government for financial reporting. The District is considered part of the Florida system of public education, operates under the general direction of the Florida Department of Education, and is governed by State law and State Board of Education (SBE) rules. The governing body of the District is the Board, which is composed of five elected members. The elected Superintendent of Schools is the executive officer of the Board. Geographic boundaries of the District correspond with those of Dixie County.

Criteria for determining if other entities are potential component units that should be reported within the District's basic financial statements are identified and described in the Governmental Accounting Standards Board's (GASB) *Codification of Governmental Accounting and Financial Reporting Standards*, Sections 2100 and 2600. The application of these criteria provides for identification of any legally separate entities for which the Board is financially accountable and other organizations for which the nature and significance of their relationship with the Board are such that exclusion would cause the District's basic financial statements to be misleading. Based on the application of these criteria, the following component unit is included within the District's reporting entity:

Discretely Presented Component Unit. The component unit columns in the government-wide financial statements include the financial data of the District's component unit. A separate column is used to emphasize that it is legally separate from the District.

The Kinder Cub School, Inc. (Charter School) is a not-for-profit corporation organized pursuant to Chapter 617, Florida Statutes, the Florida Not For Profit Corporation Act, and Section 1002.33, Florida Statutes. The Charter School operates under a charter approved by its sponsor, the Dixie County District

**DIXIE COUNTY
DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
JUNE 30, 2014**

School Board. The Charter School is considered to be a component unit of the District because the District is financially accountable for the Charter School as the District established the Charter School by approval of the charter, which is tantamount to the initial appointment of the Charter School, and there is the potential for the Charter School to provide specific financial burdens on the District. In addition, pursuant to the Florida Constitution, the Charter School is a public school and the District is responsible for the operation, control, and supervision of public schools within the District.

The financial data reported on the accompanying statements was derived from the Charter School's audited financial statements for the fiscal year ended June 30, 2014. The audit report is filed in the District's administrative offices.

C. Basis of Presentation: Government-wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds. Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

The effects of interfund activity have been eliminated from the government-wide financial statements.

D. Basis of Presentation: Fund Financial Statements

The fund financial statements provide information about the District's funds, including the fiduciary funds. Separate statements for each fund category – governmental and fiduciary – are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

The District reports the following major governmental funds:

- General Fund – to account for all financial resources not required to be accounted for in another fund, and for certain revenues from the State that are legally restricted to be expended for specific current operating purposes.
- Special Revenue – Other Fund – to account for certain Federal grant program resources.
- Special Revenue – Federal Economic Stimulus Fund – to account for certain Federal grant program resources related to the American Recovery and Reinvestment Act (ARRA).
- Capital Projects – Public Education Capital Outlay Fund – to account for the financial resources generated by the State Public Education Capital Outlay and Debt Service Trust Fund to be used for educational capital outlay needs, including new construction and renovation and remodeling projects.
- Capital Projects – Local Capital Improvement Fund – to account for the financial resources generated by the local capital improvement tax levy to be used for educational capital outlay needs, including new construction, renovation and remodeling projects.

**DIXIE COUNTY
DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
JUNE 30, 2014**

Additionally, the District reports the following fiduciary fund type:

- Agency Funds – to account for resources of the school internal funds, which are used to administer moneys collected at several schools in connection with school, student athletic, class, and club activities.

During the course of operations the District has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements, these amounts are reported at gross amounts as transfers in and out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements.

E. Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized in the year for which they are levied. Revenues from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements imposed by the provider have been satisfied.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues, except for certain grant revenues, are recognized when they become measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The District considers revenues to be available if they are collected within 90 days of the end of the current fiscal year. When grant terms provide that the expenditure of resources is the prime factor for determining eligibility for Federal, State, and other grant resources, revenue is recognized at the time the expenditure is made. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 90 days of year-end). Expenditures are generally recognized when the related fund liability is incurred, as under accrual accounting. However, debt service expenditures, claims and judgments, other postemployment benefits, and compensated absences, are only recorded when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources. Allocations of cost, such as depreciation, are not recognized in governmental funds.

**DIXIE COUNTY
DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
JUNE 30, 2014**

The Charter School is accounted for as a governmental organization and follows the same accounting model as the District's governmental activities.

F. Assets, Liabilities, and Net Position/Fund Balance

1. Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term, highly liquid investments with original maturities of three months or less. Investments classified as cash equivalents include amounts placed with the State Board of Administration (SBA) in Florida PRIME, formerly known as the Local Government Surplus Funds Trust Fund Investment Pool.

Cash deposits are held by banks qualified as public depositories under Florida law. All deposits are insured by Federal depository insurance, up to specified limits, or collateralized with securities held in Florida's multiple financial institution collateral pool as required by Chapter 280, Florida Statutes.

2. Investments

Investments consist of amounts placed in the SBA debt service accounts for investment of debt service moneys, and amounts placed with the SBA for participation in the Florida PRIME investment pool created by Sections 218.405 and 218.417, Florida Statutes. The investment pool operates under investment guidelines established by Section 215.47, Florida Statutes.

The District's investments in Florida PRIME, which the SBA indicates is a Securities and Exchange Commission Rule 2a7-like external investment pool, are similar to money market funds in which shares are owned in the fund rather than the underlying investments. These investments are reported at fair value, which is amortized cost.

Types and amounts of investments held at fiscal year-end are described in a subsequent note.

3. Inventories

Inventories consist of expendable supplies held for consumption in the course of District operations. Inventories are stated at last invoice, which approximates the first-in, first-out basis, except that the United States Department of Agriculture donated foods are stated at their fair value as determined at the time of donation to the District's food service program by the Florida Department of Agriculture and Consumer Services, Bureau of Food Distribution. The costs of inventories are recorded as expenditures when purchased during the year, and are adjusted at fiscal year-end to reflect year-end physical inventories.

4. Capital Assets

Expenditures for capital assets acquired or constructed for general District purposes are reported in the governmental fund that financed the acquisition or construction. The capital assets so acquired are reported at cost in the government-wide statement of net position but are not reported in the governmental fund financial statements. Capital assets are defined by the District as those costing more

**DIXIE COUNTY
DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
JUNE 30, 2014**

than \$1,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated assets are recorded at fair value at the date of donation. Some buildings acquired or constructed prior to 1992 are stated at estimated historical cost using price levels at the time of acquisition and, as a result, \$4,506,828.04 of stated building values are based on these estimates.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Improvements Other Than Buildings	15 years
Buildings and Fixed Equipment	50 years
Furniture, Fixtures, and Equipment	3 - 15 years
Motor Vehicles	5 - 10 years
Audio Visual Materials and Computer Software	5 years

Current year information relative to changes in capital assets is described in a subsequent note.

5. Long-Term Liabilities

Long-term obligations that will be financed from resources to be received in the future by governmental funds are reported as liabilities in the government-wide statement of net position.

In the governmental fund financial statements, bonds and other long-term obligations are not recognized as liabilities until due.

Changes in long-term liabilities for the current year are reported in a subsequent note.

6. Net Position Flow Assumption

The District occasionally funds outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. To calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. Consequently, it is the District’s policy to consider restricted - net position to have been depleted before unrestricted – net position is applied.

7. Fund Balance Flow Assumptions

The District may fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). To calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the District’s policy to consider restricted fund balance to have been depleted before

**DIXIE COUNTY
DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
JUNE 30, 2014**

using any of the components of unrestricted fund balance. Further, when components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

8. Fund Balance Policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The District itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification may include amounts that can be used only for the specific purposes determined by a formal action of the District's highest level of decision-making authority. The Board is the highest level of decision-making authority for the District that can, by adoption of a resolution prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the resolution remains in place until a similar action is taken (the adoption of another resolution) to remove or revise the limitation. The District did not have any committed fund balances at June 30, 2014.

Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as committed. The Board has by Board Policy No. 7.011 authorized the finance director to assign fund balance. The Board may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

G. Revenues and Expenditures/Expenses

1. Program Revenues

Amounts reported as program revenues include charges paid by the recipient of the goods or services offered by the program, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than program revenues. Revenues that are not classified as program revenues are presented as general revenues. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

2. State Revenue Sources

Significant revenues from State sources for current operations include the Florida Education Finance Program administered by the Florida Department of Education (Department) under the provisions of Section 1011.62, Florida Statutes. In accordance with this law, the District determines and reports the

**DIXIE COUNTY
DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
JUNE 30, 2014**

number of full-time equivalent (FTE) students and related data to the Department. The Department performs certain edit checks on the reported number of FTE and related data, and calculates the allocation of funds to the District. The District is permitted to amend its original reporting for a period of five months following the date of the original reporting. Such amendments may impact funding allocations for subsequent years. The Department may also adjust subsequent fiscal period allocations based upon an audit of the District's compliance in determining and reporting FTE and related data. Normally, such adjustments are treated as reductions or additions of revenue in the year when the adjustments are made.

The State provides financial assistance to administer certain educational programs. SBE rules require that revenue earmarked for certain programs be expended only for the program for which the money is provided, and require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the same educational programs. The Department generally requires that these educational program revenues be accounted for in the General Fund. A portion of the fund balance of the General Fund is restricted in the governmental fund financial statements for the balance of categorical and earmarked educational program resources.

The State allocates gross receipts taxes, generally known as Public Education Capital Outlay money, to the District on an annual basis. The District is authorized to expend these funds only upon applying for and receiving an encumbrance authorization from the Department.

A schedule of revenue from State sources for the current year is presented in a subsequent note.

3. District Property Taxes

The Board is authorized by State law to levy property taxes for district school operations, capital improvements, and debt service.

Property taxes consist of ad valorem taxes on real and personal property within the District. Property values are determined by the Dixie County Property Appraiser, and property taxes are collected by the Dixie County Tax Collector.

The Board adopted the 2013 tax levy on September 10, 2013. Tax bills are mailed in October and taxes are payable between November 1 of the year assessed and March 31 of the following year at discounts of up to 4 percent for early payment.

Taxes become a lien on the property on January 1, and are delinquent on April 1, of the year following the year of assessment. State law provides for enforcement of collection of personal property taxes by seizure of the property to satisfy unpaid taxes, and for enforcement of collection of real property taxes by the sale of interest-bearing tax certificates to satisfy unpaid taxes. The procedures result in the collection of essentially all taxes prior to June 30 of the year following the year of assessment.

Property tax revenues are recognized in the government-wide financial statements when the Board adopts the tax levy. Property tax revenues are recognized in the governmental fund financial statements

**DIXIE COUNTY
DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
JUNE 30, 2014**

when taxes are received by the District, except that revenue is accrued for taxes collected by the Dixie County Tax Collector at fiscal year-end but not yet remitted to the District.

Millages and taxes levied for the current year are presented in a subsequent note.

4. Federal Revenue Sources

The District receives Federal awards for the enhancement of various educational programs. Federal awards are generally received based on applications submitted to, and approved by, various granting agencies. For Federal awards in which a claim to these grant proceeds is based on incurring eligible expenditures, revenue is recognized to the extent that eligible expenditures have been incurred.

5. Compensated Absences

In the government-wide financial statements, compensated absences (i.e., paid absences for employee vacation leave and sick leave) are accrued as liabilities to the extent that it is probable that the benefits will result in termination payments. A liability for these amounts is reported in the governmental fund financial statements only if it has matured, such as for occurrences of employee resignations and retirements. The liability for compensated absences includes salary-related benefits, where applicable.

II. DETAILED NOTES ON ALL ACTIVITIES AND FUNDS

A. Cash Deposits with Financial Institutions

Custodial Credit Risk-Deposits. In the case of deposits, this is the risk that in the event of a bank failure, the District's deposits may not be returned to the District. The District does not have a policy for custodial credit risk. All bank balances of the District are fully insured or collateralized as required by Chapter 280, Florida Statutes.

Cash balances from all funds are combined and invested to extent available. Earnings are allocated monthly to each fund balance on average daily balances.

B. Investments

As of June 30, 2014, the District had the following investments and maturities:

<u>Investments</u>	<u>Maturities</u>	<u>Fair Value</u>
SBA:		
Florida PRIME (1)	40 Day Average	\$ 1,004.41
Debt Service Accounts	6 Months	8,275.04
		<hr/>
Total Investments, Primary Government		<u>\$ 9,279.45</u>

Note: (1) This investment is reported as a cash equivalent for financial statement reporting purposes.

**DIXIE COUNTY
DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
JUNE 30, 2014**

➤ Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses from increasing interest rates.

Florida PRIME had a weighted average days to maturity (WAM) of 40 days at June 30, 2014. A portfolio's WAM reflects the average maturity in days based on final maturity or reset date, in the case of floating rate instruments. WAM measures the sensitivity of the portfolio to interest rate changes.

➤ Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Section 218.415(17), Florida Statutes, limits investments to the SBA's Florida PRIME, or any other intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperation Act as provided in Section 163.01, Florida Statutes; Securities and Exchange Commission registered money market funds with the highest credit quality rating from a nationally recognized rating agency; interest-bearing time deposits in qualified public depositories, as defined in Section 280.02, Florida Statutes; and direct obligations of the United States Treasury. The District does not have a formal investment policy that limits its investment choices

The District's investments in the SBA debt service accounts are to provide for debt service payments on bond debt issued by the SBE for the benefit of the District. The District relies on policies developed by the SBA for managing interest rate risk and credit risk for this account.

The District's investment in Florida PRIME is rated AAAM by Standard & Poor's.

C. Changes in Capital Assets

Changes in capital assets are presented in the table below:

**DIXIE COUNTY
DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
JUNE 30, 2014**

	Beginning Balance	Additions	Deletions	Ending Balance
GOVERNMENTAL ACTIVITIES				
Capital Assets Not Being Depreciated:				
Land	\$ 890,949.40	\$ 11,665.00	\$	\$ 902,614.40
Construction in Progress	247,500.00	850,330.00		1,097,830.00

Total Capital Assets Being Depreciated, Net	25,469,032.40	(1,045,661.27)	28,217.99	24,395,153.14
Governmental Activities Capital Assets, Net	\$ 26,607,481.80	\$ (183,666.27)	\$ 28,217.99	\$ 26,395,597.54

Depreciation expense was charged to functions as follows:

Function	Amount
GOVERNMENTAL ACTIVITIES	
Student Transportation Services	\$ 212,186.79
Unallocated	1,038,888.25
Total Depreciation Expense - Governmental Activities	\$ 1,251,075.04

D. Florida Retirement System

Essentially all regular employees of the District are eligible to enroll as members of the State-administered Florida Retirement System (FRS). Provisions relating to the FRS are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and FRS Rules, Chapter 60S, Florida Administrative Code; wherein eligibility, contributions, and benefits are defined and described in detail. The FRS is a single retirement system administered by the Department of Management Services, Division of Retirement, and consists of two cost-sharing, multiple-employer retirement plans and

**DIXIE COUNTY
DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
JUNE 30, 2014**

other nonintegrated programs. These include a defined-benefit pension plan (Plan), with a Deferred Retirement Option Program (DROP), and a defined-contribution plan, referred to as the FRS Investment Plan (Investment Plan).

Employees enrolled in the Plan prior to July 1, 2011, vest at six years of creditable service and employees enrolled in the Plan on or after July 1, 2011, vest at eight years of creditable service. All vested members, enrolled prior to July 1, 2011, are eligible for normal retirement benefits at age 62 or at any age after 30 years of service. All members enrolled in the Plan on or after July 1, 2011, once vested, are eligible for normal retirement benefits at age 65 or any time after 33 years of creditable service. Members of both Plans may include up to 4 years of credit for military service toward creditable service. The Plan also includes an early retirement provision; however, there is a benefit reduction for each year a member retires before his or her normal retirement date. The Plan provides retirement, disability, death benefits, and annual cost-of-living adjustments.

DROP, subject to provisions of Section 121.091, Florida Statutes, permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payments while continuing employment with an FRS employer. An employee may participate in DROP for a period not to exceed 60 months after electing to participate, except that certain instructional personnel may participate for up to 96 months. During the period of DROP participation, deferred monthly benefits are held in the FRS Trust Fund and accrue interest.

As provided in Section 121.4501, Florida Statutes, eligible FRS members may elect to participate in the Investment Plan in lieu of the FRS defined-benefit plan. District employees participating in DROP are not eligible to participate in this program. Employer and employee contributions are defined by law, but the ultimate benefit depends in part on the performance of investment funds. The Investment Plan is funded by employer and employee contributions that are based on salary and membership class (Regular, Elected County Officers, etc.). Contributions are directed to individual member accounts, and the individual members allocate contributions and account balances among various approved investment choices. Employees in the Investment Plan vest at one year of service.

The State of Florida establishes contribution rates for participating employers and employees. Contribution rates during the 2013-14 fiscal year were as follows:

**DIXIE COUNTY
DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
JUNE 30, 2014**

Class	Percent of Gross Salary	
	Employee	Employer (A)
FRS, Regular	3.00	6.95
FRS, Elected County Officers	3.00	33.03
FRS, Senior Management Service	3.00	18.31
DROP - Applicable to Members from All of the Above Classes	0.00	12.84
FRS, Reemployed Retiree	(B)	(B)

Notes: (A) Employer rates include 1.20 percent for the postemployment health insurance subsidy. Also, employer rates, other than for DROP participants, include 0.03 percent for administrative costs of the Investment Plan.

(B) Contribution rates are dependent upon retirement class in which reemployed.

The District’s liability for participation is limited to the payment of the required contribution at the rates and frequencies established by law on future payrolls of the District. The District’s contributions, including employee contributions, for the fiscal years ended June 30, 2012, June 30, 2013, and June 30, 2014, totaled \$666,816.03, \$684,689.54, and \$1,004,089.24, respectively, which were equal to the required contributions for each fiscal year.

There were eight District participants in the Investment Plan during the 2013-14 fiscal year. The District’s contributions including employee contributions to the Investment Plan totaled \$20,659.28, which was equal to the required contribution for the 2013-14 fiscal year.

Financial statements and other supplementary information of the FRS are included in the State’s Comprehensive Annual Financial Report, which is available from the Florida Department of Financial Services, Bureau of Financial Reporting Statewide Financial Reporting Section by mail at 200 E. Gaines Street, Tallahassee, Florida 32399-0364; by telephone at (850)413-5511; or at the Department’s Web site (www.myfloridacfo.com). An annual report on the FRS, which includes its financial statements, required supplementary information, actuarial report, and other relevant information, is available from the Florida Department of Management Services, Division of Retirement, Research and Education Section, by mail at P.O. Box 9000, Tallahassee, Florida 32315-9000; by telephone toll free at (877)377-1737 or (850)488-5706; by e-mail at rep@dms.myflorida.com; or at the Division’s Web site (www.frs.myflorida.com).

E. Other Postemployment Benefit Obligations

Plan Description. The Other Postemployment Benefits Plan (OPEB Plan) is a single-employer defined benefit plan administered by the District. Pursuant to the provisions of Section 112.0801, Florida Statutes, employees who retire from the District are eligible to participate in the District’s health and hospitalization plan for medical and prescription drug coverage. The District subsidizes the premium rates paid by retirees by allowing them to participate in the OPEB Plan at reduced or blended group (implicitly subsidized) premium rates for both active and retired employees. These rates provide an implicit subsidy for retirees because, on an actuarial basis, their current and future claims are expected to result in higher costs to the

**DIXIE COUNTY
DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
JUNE 30, 2014**

OPEB Plan on average than those of active employees. Additionally, the District pays the cost of healthcare benefits for stated durations within designated timelines for certain retirees who elected to participate in early retirement incentives offered in previous fiscal years (explicitly subsidized). Retirees are assumed to enroll in the Federal Medicare program for their primary coverage as soon as they are eligible. The OPEB Plan does not issue a stand-alone report, and is not included in the report of a public employee retirement system or other entity.

Funding Policy. Plan contribution requirements of the District and OPEB Plan members are established and may be amended through recommendations of the Insurance Committee and action from the Board. The District has not advance-funded or established a funding methodology for the annual OPEB costs or the net OPEB obligation, and the OPEB Plan is financed on a pay-as-you-go basis. For the 2013-14 fiscal year, 103 retirees received other postemployment benefits. The District provided required contributions of \$143,020 toward the annual OPEB cost, net of retiree contributions, totaling \$163,074.06, which represents 1.8 percent of covered payroll.

Annual OPEB Cost and Net OPEB Obligation. The District’s annual OPEB cost (expense) is calculated based on the annual required contribution (ARC), an amount actuarially determined in accordance with parameters of GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*. The ARC represents a level of funding that if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years. The following table shows the District's annual OPEB cost for the fiscal year, the amount actually contributed to the OPEB Plan, and changes in the District's net OPEB obligation:

Description	Amount
Normal Cost (service cost for one year)	\$ 60,011
Amortization of Unfunded Actuarial Accrued Liability	75,800
Interest on Normal Cost and Amortization	6,927
Annual Required Contribution	142,738
Interest on Net OPEB Obligation	4,152
Adjustment to Annual Required Contribution	(4,238)
Annual OPEB Cost (Expense)	142,652
Contribution Toward the OPEB Cost	(143,020)
Change in Net OPEB Obligation	(368)
Net OPEB Obligation, Beginning of Year	103,800
Net OPEB Obligation, End of Year	\$ 103,432

**DIXIE COUNTY
DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
JUNE 30, 2014**

The District’s annual OPEB cost, the percentage of annual OPEB cost contributed to the OPEB Plan, and the net OPEB obligation as of June 30, 2014, and the two preceding fiscal years, were as follows:

Fiscal Year	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
2011-12	\$ 148,600	126.9%	\$ 162,500
2012-13	109,000	153.9%	103,800
2013-14	142,652	100.3%	103,432

Funded Status and Funding Progress. As of July 1, 2013, the most recent valuation date, the actuarial accrued liability for benefits was \$1,960,456, and the actuarial value of assets was \$0, resulting in an unfunded actuarial accrued liability of \$1,960,456 and a funded ratio of 0 percent. The covered payroll (annual payroll of active participating employees) was \$9,300,000, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 21.1 percent.

Actuarial valuations of an ongoing OPEB Plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment and termination, mortality, and healthcare cost trends. Amounts determined regarding the funded status of the OPEB Plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The required schedule of funding progress immediately following the notes to financial statements presents multiyear trend information about whether the actuarial value of OPEB Plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Actuarial Methods and Assumptions. Projections of benefits for financial reporting purposes are based on the substantive OPEB Plan provisions, as understood by the employer and participating members, and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and participating members. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The District’s OPEB actuarial valuation as of July 1, 2013, used the projected unit credit cost method to estimate the unfunded actuarial liability as of June 30, 2014, and to estimate the District’s 2013-14 fiscal year annual required contribution. Because the OPEB liability is currently unfunded, the actuarial assumptions included a 4 percent rate of return on invested assets, which is the District’s long-term expectation of investment returns under its investment policy. The actuarial assumptions also included a payroll growth rate of 2.5 percent per year, and an annual healthcare cost trend rate of 10 percent beginning with the 2013-14 fiscal year, decreasing at a rate of 0.5 percent per year to an ultimate rate of 5 percent after ten years. The unfunded actuarial accrued liability is being amortized over 30 years on an open basis.

**DIXIE COUNTY
DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
JUNE 30, 2014**

F. Significant Commitments

Encumbrances. Appropriations in governmental funds are encumbered upon issuance of purchase orders for goods and services. Even though appropriations lapse at the end of the fiscal year, unfilled purchase orders of the current year are carried forward and the next year's appropriations are likewise encumbered.

The following is a schedule of encumbrances at June 30, 2014:

Major Funds				
General	Special Revenue - Other	Capital Projects - Public Education Capital Outlay	Capital Projects - Local Capital Improvement	Total Governmental Funds
\$ 1,930,189	\$ 8,234	\$ 807,720	\$ 265,273	\$ 3,011,416

Construction Contracts. Encumbrances include the following major construction contract commitment at fiscal year-end:

Project	Contract Amount	Completed to Date	Balance Committed
New Middle/High School: Architect	\$ 1,650,000	\$ 842,280	\$ 807,720

G. Risk Management Programs

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Dixie County District School Board is a member of the North East Florida Educational Consortium (Consortium) under which several district school boards have established a combined limited self-insurance program for property protection, general liability, automobile liability, workers' compensation, money and securities, employee fidelity and faithful performance, boiler and machinery, and other coverage deemed necessary by the members of the Consortium. Section 1001.42(12)(k), Florida Statutes, provides the authority for the District to enter into such a risk management program. The Consortium is self-sustaining through member assessments (premiums), and purchases coverage through commercial companies for claims in excess of specified amounts. The Board of Directors for the Consortium is composed of superintendents of all participating districts. The Putnam County District School Board serves as fiscal agent for the Consortium.

Health and hospitalization coverage are being provided through purchased commercial insurance with minimum deductibles for each line of coverage.

Settled claims resulting from these risks have not exceeded commercial coverage in any of the past three fiscal years.

**DIXIE COUNTY
DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
JUNE 30, 2014**

H. Long-Term Liabilities

1. Bonds Payable

Bonds payable at June 30, 2014, are as follows:

Bond Type	Amount Outstanding	Interest Rates (Percent)	Annual Maturity To
State School Bonds:			
Series 2005B, Refunding	\$ 130,000	5	2018
Series 2010A, Refunding	195,000	4.0 - 5.0	2022
Total Bonds Payable	\$ 325,000		

The various bonds were issued by the SBE on behalf of the District to finance capital outlay projects of the District. These bonds mature serially, and are secured by a pledge of the District’s portion of the State-assessed motor vehicle license tax. The State’s full faith and credit is also pledged as security for these bonds. Principal and interest payments, investment of debt service fund resources, and compliance with reserve requirements are administered by the SBE and the SBA.

Annual requirements to amortize all bonded debt outstanding as of June 30, 2014, are as follows:

Fiscal Year Ending June 30	Total	Principal	Interest
State School Bonds:			
2015	\$ 66,000	\$ 50,000	\$ 16,000
2016	68,500	55,000	13,500
2017	60,750	50,000	10,750
2018	68,250	60,000	8,250
2019	30,250	25,000	5,250
2020-2022	93,750	85,000	8,750
Total State School Bonds	\$ 387,500	\$ 325,000	\$ 62,500

**DIXIE COUNTY
DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
JUNE 30, 2014**

2. Changes in Long-Term Liabilities

The following is a summary of changes in long-term liabilities:

Description	Beginning Balance	Additions	Deductions	Ending Balance	Due In One Year
GOVERNMENTAL ACTIVITIES					
Bonds Payable	\$ 370,000.00	\$	\$ 45,000.00	\$ 325,000.00	\$ 50,000.00
Compensated Absences Payable	1,248,104.12	1,880,256.70	1,859,447.84	1,268,912.98	245,000.00
Other Postemployment Benefits Payable	103,800.00	142,652.00	143,020.00	103,432.00	
Total Governmental Activities	<u>\$ 1,721,904.12</u>	<u>\$ 2,022,908.70</u>	<u>\$ 2,047,467.84</u>	<u>\$ 1,697,344.98</u>	<u>\$ 295,000.00</u>

For the governmental activities, compensated absences and other postemployment benefits are generally liquidated with resources of the General Fund. Due to the nature of the liability there is no amount of other postemployment benefits due in one year.

I. Fund Balance Reporting

In addition to committed and assigned fund balance categories discussed in the **Fund Balance Policies** note disclosure, fund balances may be classified as follows:

- **Nonspendable Fund Balance.** Nonspendable fund balance is the net current financial resources that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. Generally, not in spendable form means that an item is not expected to be converted to cash.
- **Restricted Fund Balance.** Restricted fund balance is the portion of fund balance on which constraints have been placed by creditors, grantors, contributors, laws or regulations of other governments, constitutional provisions, or enabling legislation. Restricted fund balance places the most binding level of constraint on the use of fund balance.
- **Unassigned Fund Balance.** The unassigned fund balance is the portion of fund balance that is the residual classification for the General Fund. This balance represents amounts that have not been assigned to other funds and that have not been restricted, committed, or assigned for specific purposes.

**DIXIE COUNTY
DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
JUNE 30, 2014**

J. Interfund Receivables and Payables

The following is a summary of interfund receivables and payables reported in the fund financial statements:

Funds	Interfund	
	Receivables	Payables
Major:		
General	\$ 273,747.86	\$
Special Revenue:		
Other		268,671.26
Federal Economic Stimulus		5,076.60
Total	\$ 273,747.86	\$ 273,747.86

The interfund amounts represent temporary loans to cover project expenditures prior to reimbursement from grantor agencies. These amounts are expected to be repaid within one year.

K. Revenues and Expenditures/Expenses

1. Schedule of State Revenue Sources

The following is a schedule of the District’s State revenue sources for the 2013-14 fiscal year:

Source	Amount
Florida Education Finance Program	\$ 8,609,023.00
Categorical Educational Program - Class Size Reduction	2,162,493.00
Gross Receipts Tax (Public Education Capital Outlay)	1,650,000.00
Voluntary Pre-Kindergarten Program	243,389.46
Motor Vehicle License Tax (Capital Outlay and Debt Service)	83,440.64
Workforce Development Program	61,267.00
School Recognition	51,937.00
Food Service Supplement	19,838.00
Mobile Home License Tax	4,436.94
Miscellaneous	326,149.87
Total	\$ 13,211,974.91

Accounting policies relating to certain State revenue sources are described in note I.G.2.

**DIXIE COUNTY
DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
JUNE 30, 2014**

2. Property Taxes

The following is a summary of millages and taxes levied on the 2013 tax roll for the 2013-14 fiscal year:

	Millages	Taxes Levied
<u>GENERAL FUND</u>		
Nonvoted School Tax:		
Required Local Effort	5.186	\$ 2,618,329.42
Basic Discretionary Local Effort	0.748	377,651.14
<u>CAPITAL PROJECTS FUNDS</u>		
Nonvoted Tax:		
Local Capital Improvements	1.500	757,326.02
Total	7.434	\$ 3,753,306.58

L. Interfund Transfers

The following is a summary of interfund transfers reported in the fund financial statements:

Funds	Interfund	
	Transfers In	Transfers Out
Major:		
General	\$ 237,954.77	\$
Capital Projects:		
Local Capital Improvement		237,954.77
Total	\$ 237,954.77	\$237,954.77

Interfund transfers were made to move restricted capital outlay revenues to offset eligible expenditures for property and casualty insurance premiums and for maintenance and repairs paid from the General Fund.

III. SUBSEQUENT EVENT

Pursuant to Section 1013.64, Florida Statutes, the District received a special allocation in the 2014-15 fiscal year for specific construction needs through the Public Education Capital Outlay and Debt Service Trust Fund – Special Facility Construction account. As a condition for receiving these funds, other construction funding must be pledged for the project, including the capital outlay millage levied pursuant to Section 1011.71(2), Florida Statutes, for the following three fiscal years. During the three-year period, reductions to the special

**DIXIE COUNTY
DISTRICT SCHOOL BOARD
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
JUNE 30, 2014**

allocations are made to the extent of collections from the required pledged sources. On September 19, 2014, the Board received the first of three Public Education Capital Outlay Special Facilities encumbrance authorizations in the amount of \$10,217,280. The funding will be used for the construction of the new middle/high school. As of January 28, 2015, the Board approved a construction contract manager for the project, but a guaranteed maximum price for the project had not been established yet.

**DIXIE COUNTY
DISTRICT SCHOOL BOARD
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
JUNE 30, 2014**

I. BUDGETARY BASIS OF ACCOUNTING

The Board follows procedures established by State statutes and State Board of Education (SBE) rules in establishing budget balances for governmental funds, as described below:

- Budgets are prepared, public hearings are held, and original budgets are adopted annually for all governmental fund types in accordance with procedures and time intervals prescribed by law and SBE rules.
- Appropriations are controlled at the object level (e.g., salaries, purchased services, and capital outlay) within each activity (e.g., instruction, student personnel services, and school administration) and may be amended by resolution at any Board meeting prior to the due date for the annual financial report.
- Budgets are prepared using the same modified accrual basis as is used to account for governmental funds.
- Budgetary information is integrated into the accounting system and, to facilitate budget control, budget balances are encumbered when purchase orders are issued. Appropriations lapse at fiscal year-end and encumbrances outstanding are honored from the subsequent year's appropriations.

II. SCHEDULE OF FUNDING PROGRESS – OTHER POSTEMPLOYMENT BENEFITS

The July 1, 2013, unfunded actuarial accrued liability of \$1,960,456 was significantly higher than the July 1, 2011, revised liability of \$1,451,400, as a result of benefit and other changes as discussed below:

- The mortality assumption has been updated to RP-2000 Mortality Fully Generational using the Projection Scale BB. This increased the liability by \$23,313.
- Termination and retirement assumptions have been updated to those used in the Florida Retirement System Actuarial Valuation as of July 1, 2013.
- The current insurance plan premium increased from \$100 to \$500 per month depending on the plan chosen.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF THE FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

Report on the Financial Statements

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Dixie County District School Board, as of and for the fiscal year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated January 28, 2015, included under the heading **INDEPENDENT AUDITOR'S REPORT**. Our report includes a reference to other auditors who audited the financial statements of the school internal funds and the discretely presented component unit, as described in our report on the District's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a

timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, rules, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted a certain additional matter that is discussed in the **SCHEDULE OF FINDINGS AND QUESTIONED COSTS** section of this report.

Management's response to the finding described in the **SCHEDULE OF FINDINGS AND QUESTIONED COSTS** section of this report is included in Exhibit A. We did not audit management's response and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of the **INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF THE FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS** is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this report is not suitable for any other purpose.

Respectfully submitted,

David W. Martin, CPA
Tallahassee, Florida

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR THE MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE

Report on Compliance for the Major Federal Program

We have audited the Dixie County District School Board's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on the District's major Federal program for the fiscal year ended June 30, 2014. The District's major Federal program is identified in the **SUMMARY OF AUDITOR'S RESULTS** section of the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS**.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its Federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for the District's major Federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major Federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major Federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on the Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major Federal program for the fiscal year ended June 30, 2014.

Report on Internal Control Over Compliance

District management is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on the District's major Federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for the major Federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a Federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a Federal program will not be prevented, or detected and corrected on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a Federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Purpose of this Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Respectfully submitted,

David W. Martin, CPA
Tallahassee, Florida

SCHEDULE OF FINDINGS AND QUESTIONED COSTS (CONTINUED)
FOR THE FISCAL YEAR ENDED JUNE 30, 2014**

ADDITIONAL MATTER

Finding No. 1: Information Technology - Disaster Recovery Plan

An important element of an effective internal control system over information technology (IT) operations is a disaster recovery plan to help minimize data and asset loss in the event of a major hardware or software failure. A disaster recovery plan should identify key recovery personnel and critical applications, provide for backups of critical data sets, and provide a step-by-step plan for recovery. In addition, plan elements should be tested periodically to disclose any areas not addressed and to facilitate proper conduct in an actual disruption of IT operations.

The District participates in the North Florida Education Consortium (NEFEC) and obtains certain IT services, such as financial, payroll, and other critical applications. NEFEC developed an IT disaster recovery plan whereby member districts agreed to serve as alternate-processing sites for each other in the event of a disaster that interrupts critical IT operations. However, the District had not established a written, comprehensive disaster recovery plan, including assigning responsibilities for recovery activities to key employees and backup personnel, prioritizing critical operations and data, and detailing the specific processes and procedures to be followed when NEFEC is inoperable or other events interrupt District operations to affect the recovery and restoration of financial, payroll, and other critical applications.

District personnel indicated they were developing a plan but had not completed it as of October 2014. Without a detailed plan for the District’s disaster recovery and annual testing of the plan, there is an increased risk that the District may be unable to continue critical IT operations, or maintain availability of information systems data and resources, in the event of a disruption of IT operations.

Recommendation: **The District should develop a written, comprehensive disaster recovery plan and test the plan annually.**

PRIOR AUDIT FOLLOW-UP

The District had taken corrective actions for findings included in our report No. 2014-116.

MANAGEMENT’S RESPONSE

Management’s response is included as Exhibit A.

Tallahassee, FL 32399-1450

Dear Mr. Martin,

Pursuant to Section 11.45(4)(d), Florida Statutes, we are required to submit to you a written statement of explanation concerning all of the findings, including our actual and proposed corrective actions. Below is our response to the preliminary and tentative audit findings and recommendations in your audit for fiscal year ended June 30, 2014.

Finding 1: Information Technology – Disaster Recovery Plan. We are continuing to develop and update the district's comprehensive disaster recovery plan. In addition, the district's procedures for the comprehensive disaster recovery plan will include annual testing. The contact for this is Mrs. Charlotte Lord, Director of Safety, Facilities, and Special Projects.

Respectfully,

Mark A. Rains, Superintendent
Dixie District Schools
