SUMMARY

SUMMARY OF REPORT ON FINANCIAL STATEMENTS

The State of Florida's basic financial statements, as of and for the fiscal year ended June 30, 2017, were fairly presented, in all material respects, in accordance with accounting principles generally accepted in the United States of America. Our report is included in the Florida Comprehensive Annual Financial Report for the fiscal year ended June 30, 2017, issued by the Chief Financial Officer.

SUMMARY OF REPORT ON INTERNAL CONTROL AND COMPLIANCE

Internal Control Over Financial Reporting

We noted and consider the following matter involving internal control over financial reporting and its operation to be a material weakness:

- The Agency for Health Care Administration understated certain asset and revenue amounts due to an error in the preparation of year-end accrual entries. (Finding No. 2017-001)

We noted and consider the following matters involving internal control over financial reporting and its operation to be significant deficiencies:

- The Department of Health improperly recorded State Treasury investment earnings, deposits, and withdrawals. (Finding No. 2017-002)
- Department of Financial Services procedures for preparing the Schedule of Expenditures of Federal Awards (SEFA) were not sufficient to ensure that the SEFA and related notes were accurate and presented in accordance with Federal and other guidelines. (Finding No. 2017-003)

We noted the following additional matters that we reported to management but did not consider to be significant deficiencies:

- The Department of Financial Services, Statewide Financial Reporting Section, did not appropriately classify a portion of the fund balances of the General Fund as committed. (Finding No. AM 2017-01)
- Florida Atlantic University procedures for preparing the SEFA data form were not sufficient to ensure the accuracy of reported amounts. (Finding No. AM 2017-02)

SUMMARY OF REPORT ON FEDERAL AWARDS

State agencies, universities, and colleges administered approximately 575 Federal awards programs and program clusters during the 2016-17 fiscal year. Expenditures for the 20 major programs totaled \$25.4 billion, or approximately 71 percent of the total expenditures of \$36 billion, as reported on the supplementary Schedule of Expenditures of Federal Awards.

Compliance requirements for Federal awards programs are established in the *Office of Management and Budget (OMB) Compliance Supplement*. Types of compliance requirements include: Activities Allowed or Unallowed; Allowable Costs/Cost Principles; Cash Management; Eligibility; Equipment and Real Property Management; Matching, Level of Effort, Earmarking; Period of Performance; Procurement and

Suspension and Debarment; Program Income; Reporting; Subrecipient Monitoring; and Special Tests and Provisions.

Compliance

The State of Florida complied, in all material respects, with the compliance requirements applicable to each of its major Federal awards programs, except as described in the following instances:

- For the Federal Family Education Loans Program, we were unable to express, and did not express, an opinion on the Department of Education's compliance with the Special Tests and Provisions - Assignment of Defaulted Loans to the United States Department of Education (USED) and Correct Handling of Loans Sold to the USED requirement because the Department of Education did not provide documentation demonstrating that interface processing errors related to the Subrogation-SAIG Portal interface were timely investigated and corrected. Additionally, the Department of Education did not provide sufficient documentation to demonstrate that the Office of Student Financial Assistance (OSFA) subrogation process complied with USED mandatory assignment criteria; subrogation transaction processing errors were timely identified, logged, and resolved; and OSFA had adequate audit and monitoring capabilities to process subrogation and override transactions. (Finding No. 2017-022)
- The Department of Education did not always maintain current and accurate Federal Family Education Loans Program loan status records, which resulted in an opinion qualification for the Special Tests and Provisions – Current Records and Federal Reinsurance Rate requirement. (Finding No. 2017-023)
- For the Temporary Assistance for Needy Families Cluster, we were unable to express, and did not express, an opinion on the Department of Children and Families' compliance with the Special Tests and Provisions - Income Eligibility and Verification System requirement because the Department of Children and Families did not retain all Income Eligibility and Verification System (IEVS) data exchange responses and, consequently, could not demonstrate compliance with Federal IEVS data exchange requirements. Additionally, the Department of Children and Families did not always timely provide IEVS data exchange responses. (Finding No. 2017-035)

The results of our audit also disclosed other instances of noncompliance pertaining to programs administered by various State agencies, universities, and colleges, as described in the **SCHEDULE OF FINDINGS AND QUESTIONED COSTS**. Some of the instances of noncompliance resulted in questioned costs subject to disallowance by the grantor agency.

Internal Control Over Compliance

We noted numerous matters at various State agencies, universities, and colleges involving internal control over compliance and its operation that we considered to be material weaknesses or significant deficiencies. Material weaknesses and significant deficiencies are described in the **SCHEDULE OF FINDINGS AND QUESTIONED COSTS** and pertained to several compliance requirements. The instances described in the previous paragraphs on compliance for the Federal Family Education Loans Program (Finding Nos. 2017-022 and 2017-023) and Temporary Assistance for Needy Families Cluster (Finding No. 2017-035) were deficiencies in internal control over compliance that were considered material weaknesses.

SUMMARY OF REPORT ON SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

The State's **SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS** (SEFA) is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the State's basic financial statements. The State's SEFA does not include Federal awards expenditures for the State's blended component units; CareerSource Florida, Inc.; Space Florida; and Florida Commission on Community Service; discretely presented component units of the State's universities and colleges; or discretely presented component units other than the State's universities and colleges. In our opinion, the SEFA is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

AUDIT SCOPE

As a condition of receiving Federal funds, the OMB requires, as described in Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), an audit of the State's financial statements and major Federal awards programs. Pursuant to Section 11.45, Florida Statutes, we conducted an audit of the basic financial statements of the State of Florida as of and for the fiscal year ended June 30, 2017. We also subjected supplementary information contained in the State's Comprehensive Annual Financial Report and the State's SEFA to auditing procedures applied in our audit of the basic financial statements. Additionally, we audited the State's compliance with governing requirements for the Federal awards programs and program clusters that we identified as major programs for the fiscal year ended June 30, 2017. We also performed procedures to assess the reasonableness of the **SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS** prepared by the State of Florida.

AUDIT OBJECTIVES

The objectives of our audit were to:

- Express opinions concerning whether the State's basic financial statements were presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- Express an opinion concerning whether the State's SEFA was presented fairly, in all material respects, in relation to the State's basic financial statements as a whole.
- Obtain an understanding of the internal control over financial reporting and the internal control over compliance for each major Federal awards program or program cluster, assess the control risk, and perform tests of controls, unless the controls were deemed to be ineffective.
- Express opinions concerning whether the State complied, in all material respects, with Federal statutes, regulations, and the terms and conditions of Federal awards that may have a direct and material effect applicable to each of the major Federal awards programs and program clusters.
- Determine whether management had taken appropriate actions to correct deficiencies noted in our previous audit reports.
- Assess the reasonableness of the Summary Schedule of Prior Audit Findings prepared by the State of Florida.

AUDIT METHODOLOGY

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, applicable standards contained in *Government Auditing Standards* issued by the Comptroller General of the United States, and the Uniform Guidance.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Florida, as of and for the fiscal year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the State of Florida's basic financial statements, and have issued our report thereon dated February 12, 2018. Our report includes a reference to other auditors who audited the financial statements of the Prepaid College Program Fund, Florida Turnpike System, Hurricane Catastrophe Fund, College Savings Plan, trust fund maintained by the State Board of Administration to account for the investments of the Public Employee Optional Retirement Program, assets and investment income of the Florida Retirement System Defined Benefit Pension Plan, Florida Housing Finance Corporation, Citizens Property Insurance Corporation, component units related to the State's universities and colleges, and certain other funds and entities as described in our report on the State of Florida's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the State's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the State's internal control. Accordingly, we do not express an opinion on the effectiveness of the State's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. However as described in the **Financial Statements Findings** section of the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS**, we identified certain deficiencies that we consider to be a material weakness or a significant deficiency.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the State's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiency, described in Finding No. 2017-001 in the **Financial Statements Findings** section of the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS** to be a material weakness.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies, as described in Finding Nos. 2017-002 and 2017-003 in the **Financial Statements Findings** section of the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS** to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the State's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, administrative rules, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Additional Matters

We noted two additional matters that we reported to management as Finding Nos. AM 2017-01 and AM 2017-02 in the **ADDITIONAL MATTERS** section as listed in the table of contents.

Management Responses to Findings

Management responses to the material weakness and significant deficiencies identified in our audit are included in the **SCHEDULE OF FINDINGS AND QUESTIONED COSTS**. Management responses to the additional matters identified in our audit are included in the **ADDITIONAL MATTERS** section as listed in the table of contents. The responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the State's internal

control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the State's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Report on Compliance for Each Major Federal Program

We have audited the State of Florida's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the State of Florida's major Federal programs for the fiscal year ended June 30, 2017. The State of Florida's major Federal programs are identified in the **Summary of Auditor's Results** section of the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS**.

The State of Florida's basic financial statements include the operations of component units which received Federal awards during the fiscal year ended June 30, 2017, that are not included in the State's **SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS**. Our audit of the State of Florida's major Federal programs did not include the operations of the blended component units; CareerSource Florida, Inc.; Space Florida; and Florida Commission on Community Service; discretely presented component units of the State of Florida's universities and colleges; or discretely presented component units other than the State of Florida's universities and colleges. As applicable, Federal awards administered by these component units are the subjects of audits completed by other auditors. Our audit also did not include the operations of the Legislature.

Management's Responsibility

Management is responsible for compliance with Federal statutes, regulations, and the terms and conditions of its Federal awards applicable to its Federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the State of Florida's major Federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*,

issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major Federal program occurred. An audit includes examining, on a test basis, evidence about the State of Florida's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our qualified and unmodified opinions on compliance for major Federal programs. However, our audit does not provide a legal determination of the State of Florida's compliance.

Basis for Qualified Opinion on the Federal Family Education Loans Program and the Temporary Assistance for Needy Families Cluster

As described in the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS**, the State of Florida did not comply with requirements regarding the following:

Finding No. 2017-	CFDA No.	Major Program (or Cluster) Name	Compliance Requirement
023	84.032	Federal Family Education Loans	Special Tests and Provisions – Current Records and Federal Reinsurance Rate

Compliance with such requirements is necessary, in our opinion, for the State of Florida to comply with the requirements applicable to the Federal Family Education Loans Program.

As described in the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS**, we were unable to obtain sufficient appropriate audit evidence supporting that the State of Florida complied with requirements regarding the following:

Finding No. 2017-	CFDA Nos.	Major Program (or Cluster) Name	Compliance Requirements
022	84.032	Federal Family Education Loans	Special Tests and Provisions – Assignment of Defaulted Loans to the United States Department of Education (USED) and Correct Handling of Loans Sold to the USED
035	93.558	Temporary Assistance for Needy Families Cluster	Special Tests and Provisions – Income Eligibility and Verification System

Consequently, we were unable to determine whether the State of Florida complied with those requirements applicable to the programs.

Qualified Opinion on the Federal Family Education Loans Program and the Temporary Assistance for Needy Families Cluster

In our opinion, except for the noncompliance and possible effects of the matters described in the Basis for Qualified Opinion paragraphs, the State of Florida complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on the Federal Family Education Loans Program and the Temporary Assistance for Needy Families Cluster, for the fiscal year ended June 30, 2017.

Unmodified Opinion on Each of the Other Major Federal Programs

In our opinion, the State of Florida complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its other major Federal programs identified in the **Summary of Auditor's Results** section of the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS** for the fiscal year ended June 30, 2017.

Other Matters

The results of our auditing procedures disclosed other instances of noncompliance, which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS** as:

Finding Nos. 2017-:

008-011	014-016	018-021	024-025
027	032-033	040-041	043
046-048			

Our opinion on each major Federal program is not modified with respect to these matters.

The State of Florida's responses to the noncompliance findings identified in our audit are described in the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS** and **CORRECTIVE ACTION PLAN**. The State of Florida's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

Report on Internal Control Over Compliance

Management of the State of Florida is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the State of Florida's internal control over compliance with the types of requirements that could have a direct and material effect on each major Federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major Federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the State of Florida's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or

significant deficiencies may exist that were not identified. However, as discussed below, we identified certain deficiencies in internal control over compliance that we consider to be material weaknesses and significant deficiencies.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a Federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a Federal program will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies in internal control over compliance described in the following findings and included in the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS** to be material weaknesses:

Finding No. 2017-	CFDA Nos.	Major Program (or Cluster) Name	Compliance Requirements
005	12.401	National Guard Military Operations and Maintenance (O&M) Projects	Activities Allowed or Unallowed, Allowable Costs/Cost Principles, Cash Management, and Reporting
010	17.225	Unemployment Insurance	Reporting and Special Tests and Provisions – UI Program Integrity - Overpayments
022	84.032	Federal Family Education Loans	Special Tests and Provisions – Assignment of Defaulted Loans to the United States Department of Education (USED) and Correct Handling of Loans Sold to the USED
023	84.032	Federal Family Education Loans	Special Tests and Provisions – Current Records and Federal Reinsurance Rate
024	84.032	Federal Family Education Loans	Special Tests and Provisions – Current Records
025	84.032	Federal Family Education Loans	Special Tests and Provisions – Access to National Student Loan Data System (NSLDS)
035	93.558	Temporary Assistance for Needy Families	Special Tests and Provisions – Income Eligibility and Verification System

A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a Federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiencies in internal control over compliance described in the following findings and included in the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS** to be significant deficiencies:

Finding Nos. 2017-:

004	006-007	009-015	017-021
026-027	031-034	038-040	043-044
046-048			

The State of Florida's responses to the internal control over compliance findings identified in our audit are described in the accompanying **SCHEDULE OF FINDINGS AND QUESTIONED COSTS** and **CORRECTIVE ACTION PLAN**. The State of Florida's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Respectfully submitted,

INDEPENDENT AUDITOR'S REPORT ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY THE UNIFORM GUIDANCE

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Florida as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the State of Florida's basic financial statements. We issued our Independent Auditor's Report thereon dated February 12, 2018, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State of Florida's basic financial statements.

The accompanying **SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS** is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the **SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS** is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Respectfully submitted,

A handwritten signature in blue ink that reads "Sherrill F. Norman".

Medicaid Cluster (2)		
Total		<u>\$25,445,162,703</u>

Notes: (1) The Schedule of Expenditures of Federal Awards identifies the programs included within the respective clusters.
(2) This program included ARRA funds expended during the 2016-17 fiscal year.

SECTION II - FINANCIAL STATEMENTS FINDINGS

Our audit of the State of Florida's basic financial statements for the fiscal year ended June 30, 2017, disclosed certain matters that we communicated in the **INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**. These findings are categorized in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that findings be categorized in a manner that discloses their significance. The categorizations established and defined by the standards are as follows:

- A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the financial statements will not be prevented, or detected and corrected on a timely basis.
- A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

MATERIAL WEAKNESS

RECEIVABLES, NET

Finding Number	2017-001
Opinion Unit	Health and Family Services Fund
Financial Statements Account Titles	Receivables, net; Unavailable revenue; and Grants and donations
SW Fund Number	202400
State Agency	Florida Agency for Health Care Administration (FAHCA)
OLO-GF-SF-FID	680000-20-2-474001
GL Codes	164, 473, and 614
Adjustment Amounts	\$228,345,413; \$77,843,292; and \$150,502,121
Statistically Valid Sample	N/A

Finding The FAHCA understated Receivables, net; Unavailable revenue; and Grants and donations due to an error in the preparation of year-end accrual entries.

Criteria The State shares Medicaid costs with the Federal Government, based on Federal Medical Assistance Percentages published each year by the Secretary of the U.S. Department of Health and Human Services pursuant to Sections 1101(a)(8) and 1905(b) of the Social Security Act. The State's Medicaid claims payments create a receivable from the Federal Government for the Federal Government's share of the Medicaid costs.

Condition The FAHCA, Bureau of Financial Services (Bureau), utilized an internally prepared spreadsheet to determine the year-end accrual entries for the receivable amount due from the Federal Government and other related accounts. However, the spreadsheet included adjustments that were already included in the post-closing balances, thereby inappropriately reducing the receivable and related accounts. Additionally, supervisory review of the spreadsheet and resulting adjustments was not performed to ensure the accuracy of the year-end accrual entries.

Cause The Bureau stated that supervisory review of the spreadsheet and resulting year-end accrual entries had not been performed.

Effect Prior to audit adjustment, the amount recorded in Receivables, net (Due from the Federal Government) was understated by \$228,345,413; Unavailable revenue was understated by \$77,843,292; and revenue related to Grants and donations was understated by \$150,502,121.

Recommendation We recommend that the Bureau perform a supervisory review of fiscal year-end receivables balance calculations to ensure the accuracy of year-end accrual entries.

State Agency Response In preparation of the Agency's due from the Federal Government receivable, it is the Bureau's process to include all applicable transactions in the spreadsheet to ensure that the data is reconciled to the trial balance, which includes capturing the post-closing adjustments. After the data is reconciled, the post-closing adjustments are removed from the workbook to complete the calculation of the receivable. After completing the calculations, the spreadsheet is reviewed by a supervisor to ensure that the fiscal year-end balances will be accurately reflected in the Agency's accounting records.

In preparation of the Fiscal Year 2016-2017 receivable, the Bureau completed its normal process; however, the post-closing adjustments were inadvertently left in the spreadsheet, which resulted in a reduction of the receivable and other related accounts. To prevent this error in future calculations, the Bureau will ensure that a review checklist is created and additional staff will be trained to

complete a secondary level review of the due from the Federal Government receivable process.

SIGNIFICANT DEFICIENCY

POOLED INVESTMENTS WITH STATE TREASURY

Finding Number	2017-002
Opinion Unit	Health and Family Services Fund
Financial Statements Account Titles	Receivables, net; Investment earnings (losses); and Current expenditures
SW Fund Number	202400
State Agency	Florida Department of Health (FDOH)
OLO-GF-SF-FID	640000-20-2-141001, 640000-20-2-168001, 640000-20-2-261009
GL Codes	153, 615, 711
Adjustment Amounts	\$94,072; \$490,476,264; and \$490,570,336
Statistically Valid Sample	N/A

Finding The FDOH improperly recorded deposits to and withdrawals from the State Treasury as Investment earnings and Current expenditures. In addition, the FDOH did not record State Treasury interest earnings on the modified accrual basis of accounting.

Criteria Governmental Accounting Standards Board (GASB) Codification Section 1800.130 defines *revenues* and *expenditures*, in the context of governmental fund financial statements, as increases in (sources of) and decreases in (uses of) fund financial resources, respectively. Accordingly, transfers of cash to and from a pooled investment fund, recognized separately from events that change the financial condition of a governmental fund, do not constitute revenues and expenditures.

GASB Codification Sections 1600.109 and 1600.116 require investment income and expenditures to be recognized on the modified accrual basis of accounting. Department of Financial Services Statewide Financial Statements Guidance specifies that, for governmental funds, interest earned on deposits in the State Treasury Investment Pool should be recorded to Investment earnings and the administrative fee should be recorded to Current expenditures. Interest earned but not received at fiscal year end is to be recorded to Interest and dividends receivable.

Condition For the 2016-17 fiscal year, the FDOH recorded deposits to the State Treasury Investment Pool totaling \$489,466,078 as Investment earnings and withdrawals from the State Treasury Investment Pool totaling \$486,408,494 as Current expenditures. In addition, the FDOH recorded State Treasury interest earnings on the cash basis rather than the modified accrual basis, resulting in Investment earnings being overstated by an additional \$1,010,186; Receivables, net being understated by \$94,072; and Current expenditures being overstated by an additional \$4,161,842.

Cause FDOH procedures for financial statement preparation required that Investment earnings be debited and Pooled investments with State Treasury be credited to remove deposits to the State Treasury Investment Pool recorded during the year. However, at fiscal year end, the FDOH credited Investment earnings for total annual deposits to, and debited Current expenditures for total annual withdrawals from, the State Treasury Investment Pool to bring Pooled investments with State Treasury into agreement with State Treasury records.

In response to our audit inquiry, FDOH management indicated that, during the fiscal year, the FDOH had only recorded to Investment earnings withdrawals from the State Treasury Investment Pool for one fund, and then reversed the entries as those funds were disbursed to various County Health Departments. However, FDOH management was unable to determine why Investment earnings was used to record withdrawals during the fiscal year or credited to

bring the balance for Pooled investments with State Treasury into agreement with State Treasury records at fiscal year end. Additionally, FDOH management indicated they had not performed analytical procedures to assess the reasonableness of account balances prior to closing FDOH accounting records and recorded State Treasury interest earnings on the cash basis as previous management had.

Effect

Prior to audit adjustment, the Investment earnings and Current expenditure accounts were overstated by \$490,476,264 and \$490,570,336, respectively, and the Receivables, net account was understated by \$94,072.

Recommendation

We recommend that FDOH management amend procedures for recording deposits to and withdrawals from the State Treasury Investment Pool to ensure that amounts recorded to Pooled investments with State Treasury are accurate and complete and update procedures for fiscal year-end reporting to ensure that Investment earnings are correctly and accurately recorded. In addition, we recommend that, prior to closing FDOH accounting records, management perform analytical procedures to ensure that amounts recorded are reasonable and any unexpected variances are explained.

State Agency Response

We concur.

FDOH Financial Management Section has implemented a monthly reconciliation process beginning July 1, 2017 to monitor the investment balances on a regular basis rather than at year-end only. In addition, the procedures for recording deposits to and withdrawals from the State Treasury Investment Pool will be updated to ensure that investment earnings are correctly and accurately recorded.

FDOH Financial Management Section has implemented a monthly reconciliation process beginning July 1, 2017 to monitor interest earnings on a regular basis rather than at year-end only. In addition, the procedures for recording interest earnings from the State Treasury Investment Pool will be updated to ensure that interest earnings are recorded on a modified accrual basis of accounting.

SIGNIFICANT DEFICIENCY
SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

Finding Number	2017-003
State Agency	Florida Department of Financial Services (FDFS)
Finding	FDFS procedures for preparing the Schedule of Expenditures of Federal Awards (SEFA) were not sufficient to ensure that the SEFA and related notes were accurate and presented in accordance with Federal and other guidelines.
Criteria	<p>2 CFR 200.510(b) – <i>Schedule of expenditures of Federal awards</i> – The auditee must prepare a SEFA for the period covered by the auditee’s financial statements. The SEFA must list individual Federal programs by Federal agency, include the total amount provided to subrecipients from each Federal program, and include notes that describe the significant accounting policies used in preparing the schedule.</p> <p><i>Instructions for Form SF-SAC, Reporting on Audits of States, Local Governments, Indian Tribes, Institutions of Higher Education and Nonprofit Organizations For Fiscal Periods Beginning on or after December 26, 2014</i></p> <p>Governmental Accounting Standards Board Codification Section P80.102 specifies that proprietary fund financial statements should be presented using the economic resources measurement focus and the accrual basis of accounting.</p>
Condition	<p>The FDFS compiled the State’s SEFA from information provided by State agencies, universities, and colleges. Federal awards expenditures reported on the 2016-17 fiscal year SEFA totaled approximately \$36 billion. As part of its compilation procedures, the FDFS performed limited analytics, data validations, and reviews to help ensure the accuracy and completeness of the data provided by the State agencies, universities, and colleges. However, FDFS procedures were not sufficient to ensure that the SEFA was accurately prepared in accordance with Federal and other guidelines. Specifically:</p> <ul style="list-style-type: none">• FDFS review procedures were not adequate to detect material errors in the SEFA. Specifically, reported expenditures included transfers among State entities, which resulted in an overstatement totaling approximately \$1.4 billion. In addition, SEFA totals were not mathematically accurate, programs were incorrectly classified as part of the Research and Development (R&D) Cluster, and programs were incorrectly reported as funded by the American Recovery and Reinvestment Act. We also noted that FDFS staff had not reconciled the amounts reported as subgranted to other State agencies, totaling approximately \$1 billion, to the amounts reported as expended by those State agencies, totaling approximately \$880 million. Subsequent to our audit inquiry, FDFS corrected the overstatement totaling approximately \$1.4 billion and audit adjustments totaling approximately \$215 million were made to correct the other errors noted.• SEFA data was not presented in accordance with Federal guidelines. Specifically, programs with unknown three-digit Catalog of Federal Domestic Assistance (CFDA) number extensions were not numbered in accordance with the <i>Instructions for Form SF-SAC</i>. Specifically, the <i>Instructions for Form SF-SAC</i> provided that auditees were to use a U for the first digit of the extension followed by a sequential two-digit number in the CFDA extension to identify one or more award lines which formed a program. Additionally, if the program was part of the R&D Cluster, and the three-digit extension was unknown, an RD was to be entered as the three-digit extension. Our review

of 26 programs with unknown CFDA number extensions disclosed that, while the FDFS utilized the U in the extension, the two-digit numbers included in the extension were not sequential. Additionally, the FDFS did not report the 22 R&D Cluster programs with unknown CFDA number extensions using RD as the extension. Also, the FDFS titled one additional program cluster and one program incorrectly.

- Our examination of the notes to the SEFA disclosed that the notes were not accurately presented. Specifically, one State university was incorrectly reported as using the cash basis of accounting when the published financial statements for the university indicated that the accrual basis of accounting was used; the Unemployment Insurance and Direct Loans Programs were reported using the modified accrual basis of accounting although accounting standards required the accrual basis of accounting; two loan programs were reported in the notes to the SEFA; however, the loan programs were administered at the subrecipient level rather than at the State level; and the amount of outstanding loans for the Federal Family Education Loan Program was not correctly reported.
- FDFS procedures required State agencies, universities, and colleges to submit a SEFA Checklist at the time SEFA data was reported to the FDFS. As part of completing the SEFA Checklist, State agencies, universities, and colleges were to indicate the basis of accounting used to prepare the SEFA and such information was incorporated into the notes to the SEFA. Our review of the basis of accounting reported on the 69 SEFA Checklists submitted to the FDFS disclosed that the basis of accounting was incorrectly reported by 4 State agencies and 7 universities.

Subsequent to our audit inquiry, the FDFS revised the SEFA and notes to the SEFA to correct the errors noted.

Cause

According to FDFS management, technical issues encountered in preparing the SEFA and the absence of adequate procedures for reviewing the data submitted by State agencies, universities, and colleges contributed to the issues noted.

Effect

Absent effective procedures for reviewing the SEFA and notes to the SEFA, information may not be reported accurately and in accordance with Federal and other guidelines.

Recommendation

We recommend that the FDFS enhance review procedures to ensure that the amounts and information reported on the SEFA and notes to the SEFA are accurate and presented in accordance with Federal and other guidelines.

State Agency Response

We agree overall that improvements to the SEFA process are necessary for the two types of issues noted in the finding, errors in the compilation process and errors in the source documentation.

Changes in the reporting requirements, effective in the prior fiscal year, required significant modifications to the manual compilation process to prepare the report. These changes increased the SEFA report from 173 pages to 333 pages, largely due to requirements related to research and development grants of the universities and colleges, and the inclusion of classification information in the face of the SEFA, for information that was previously included in the note disclosures. For perspective, approximately 2% of reported expenditures are research and development; less than 1% of the expenditures related to ARRA funding; and less than 1% of the expenditures have unknown CFDA numbers. Continued process changes to accommodate these format changes, and other factors, including turnover of key personnel, and deadline extensions provided due to hurricane-related office closures, impacted the quality control reviews.

We will continue to modify our processes to reduce reliance on manual compilations and to allow for an expanded quality control review. We will expand

the guidance provided to agencies, universities, and colleges, to address the noted issues. While the Department is responsible for the State's financial reports, the agencies, universities, and colleges share responsibility for the accuracy and completeness of their accounting records and information provided to the Department. We will engage the applicable stakeholders to address appropriate corrective actions related to the unique reporting relationship with the universities and colleges.

Absent appropriate supporting documentation, such as audited financial statements (for the applicable period), we will continue to rely on the information provided to us by the agencies, universities, and colleges, to compile the SEFA. Although the Department maintains the accounting records for the State, which include the agencies, the universities and colleges are component units of the State, each with their own accounting systems. We will continue to perform analysis and follow-up with applicable management of the agencies, universities, and colleges for explanation or more information, as was done to confirm the accounting basis. We will continue to rely on the reconciliations provided by agencies, universities, and colleges, between their SEFA and financial statements, to address timing differences between grant revenues and the related expenditures, or differences related to the accounting basis used for their SEFA and financial statements. We will update our procedures to address rounding differences and to incorporate in the SEFA the presentation requirements for unknown CFDAs for the audit reporting package, pursuant to the Instructions for Form SF-SAC, Reporting on Audits of States, Local Governments, Indian Tribes, Institutions of Higher Education and Nonprofit Organizations.

Section III - Federal Award Findings and Questioned Costs

Our audit findings with regard to compliance and internal controls over compliance with the requirements of major Federal awards programs are disclosed on the following pages. Where applicable and determinable, we have disclosed actual questioned costs where known or likely questioned costs exceeded \$25,000. To identify the nature and significance of each finding, we have identified each finding with one or more of the following designations:

- **Disclaimer of Opinion.** A finding that presents conditions where the auditor is unable to express an opinion on a compliance requirement for a major Federal program. A disclaimer would be appropriate when the auditor is not able to perform procedures sufficient to enable the auditor to form an opinion on compliance. This would include findings of inadequate records that resulted in restrictions being placed on the scope of the audit.
- **Opinion Qualification.** A finding presenting a condition that affects the auditor's ability to give an unqualified opinion on compliance. This would include findings of noncompliance with Federal statutes, regulations, or the terms and conditions of Federal awards related to a major Federal program, the effects of which are material to the major Federal program as a whole.
- **Noncompliance.** A finding presenting noncompliance with Federal statutes, regulations, or the terms and conditions of Federal awards related to a major Federal program caused by error or fraud, the effects of which are material in relation to a type of compliance requirement identified in the *OMB Compliance Supplement*.
- **Material Weakness.** A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a Federal program will not be prevented, or detected and corrected, on a timely basis. A material weakness is considered in relation to a type of compliance requirement identified in the *OMB Compliance Supplement*.
- **Significant Deficiency.** A *significant deficiency in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a Federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a Federal program on a timely basis. A significant deficiency is considered in relation to a type of compliance requirement identified in the *OMB Compliance Supplement*.
- **Questioned Costs.** Costs that are questioned by the auditor because of an audit finding that reported: (a) a violation or possible violation of a statute, regulation, or the terms and conditions of a Federal award, including funds used to match Federal funds; (b) costs, at the time of the audit, which were not supported by adequate documentation; or, (c) costs incurred that appeared unreasonable and did not reflect the actions a prudent person would take in the circumstances.

As part of the audit process, our findings were provided to the applicable entities for management's response. The responses were prepared by entity management and are included within the audit findings as well as Management's Corrective Action Plan.

We have presented our findings, generally, by Federal grantor agency and in the order of the Catalog of Federal Domestic Assistance Number (CFDA No.) assigned to each applicable Federal award program. Findings that pertain to multiple programs are generally presented as the first findings within the Federal grantor agency section. In some instances, a finding may pertain to programs provided by more than one Federal grantor agency. In such instances, the finding is presented within the section for the Federal grantor agency that provided the most funding for the applicable agency. An **Index of Federal Findings by Federal Agency and Compliance Requirement** is included to assist Federal grantor agencies in identifying applicable findings.

U.S. DEPARTMENT OF AGRICULTURE

Finding Number	2017-004
CFDA Number	10.557
Program Title	WIC Special Supplemental Nutrition Program for Women, Infants, and Children (WIC)
Compliance Requirement	Activities Allowed or Unallowed, Allowable Costs/Cost Principles, Eligibility, Reporting, and Special Tests and Provisions - Review of Redeemed Food Instruments and Cash-Value Vouchers, Compliance Investigations of High-Risk Vendors, and Authorization of Above-50-Percent Vendors
State Agency	Florida Department of Health (FDOH)
Federal Grant/Contract Number and Grant Year	5FL700820 2016 and 2017
Statistically Valid Sample	N/A
Finding Type	Significant Deficiency
Finding	<p>The FDOH is responsible for administering Federal funds received for the WIC Program. In March 2014, the FDOH completed implementation of the Florida WIC Information System and Electronic Benefits Transfer (EBT) data system (FL-WiSE), which is a Web-based system that supports the delivery of WIC Program services and interfaces with an EBT processor to deliver client benefits.</p> <p>In our information technology operational audit report No. 2017-203, dated May 2017, we disclosed significant deficiencies related to selected information technology controls for FL-WiSE. Specifically, in Finding 1, we disclosed significant control deficiencies related to access privileges. In Finding 2, we disclosed significant security control deficiencies related to user authentication, user account management, and logging and monitoring. Details of the findings and recommendations are included in that report.</p>

THIS PAGE INTENTIONALLY LEFT BLANK

U.S. DEPARTMENT OF DEFENSE

Finding Number	2017-005
CFDA Number	12.401
Program Title	National Guard Military Operations and Maintenance (O&M) Projects
Compliance Requirement	Activities Allowed or Unallowed, Allowable Costs/Cost Principles, Cash Management, and Reporting
State Agency	Florida Department of Military Affairs (FDMA)
Federal Grant/Contract Number and Grant Year	W911YN-15-2-3064 2015-2020
Statistically Valid Sample	No
Finding Type	Material Weakness
Finding	FDMA records did not evidence that access to the Integrated Emergency Operations Management System (IEOMS) was granted only to authorized users and that the access privileges granted were appropriate.
Criteria	<p>2 CFR 200.302 – <i>Financial Management</i> – Each state must expend and account for the Federal award in accordance with state laws and procedures for expending and accounting for the state’s own funds.</p> <p>Agency for State Technology (AST) Rule 74-2.003(1), Florida Administrative Code - <i>Access Control</i> - Each agency shall ensure that access to information technology (IT) resources is limited to authorized users, processes, or devices, and to authorized activities and transactions.</p> <p>AST Rule 74-2.003(5), Florida Administrative Code - <i>Information Protection Processes and Procedures</i> - Each agency shall ensure that security policies, processes and procedures are maintained and used to manage protection of information systems and assets.</p>
Condition	The FDMA uses IEOMS to manage accounting functions and to generate Federally mandated reports. IEOMS also supports emergency operations payrolls and expenditures and includes confidential data such as social security numbers. During the 2016-17 fiscal year, the FDMA expended O&M funds totaling \$25,165,693. Our review of FDMA access controls for IEOMS disclosed that controls over access needed improvement. Specifically, user access was granted and roles were assigned by telephone and e-mail requests, and online through IEOMS. Our review of access privileges for 10 of the 1,019 IEOMS user accounts active as of June 30, 2017, disclosed that the FDMA could not provide documentation evidencing that the access privileges granted were authorized and appropriate for any of the 10 users.
Cause	FDMA management indicated that the FDMA does not require or have established IEOMS access privilege authorization documentation, or an established process for requesting and approving access to IEOMS.
Effect	Absent procedures requiring that appropriate user access authorization documentation be prepared and maintained, the FDMA cannot demonstrate that access to IEOMS is appropriately limited to authorized users for authorized purposes. Additionally, the confidentiality of data stored in IEOMS may be at increased risk of compromise.
Recommendation	We recommend that the FDMA establish procedures addressing the preparation and maintenance of IEOMS user access authorization documentation and that such procedures be properly implemented to ensure that IEOMS is accessible only to authorized users for authorized purposes.
State Agency Response	We concur with your findings and recommendation to establish procedures for requiring access authorization documents for the Integrated Emergency Operations Management System (IEOMS). We have initiated steps to reconcile

the findings by implementing a complete and thorough review of all personnel with access to IEOMS. All users will be required to formally request permission via written document by a published date. Once that date has passed, any users who have not submitted the request form will have their permissions removed. Going forward, access rosters will be verified annually to ensure all users still require access for their current roles.

U.S. DEPARTMENT OF LABOR

Finding Number	2017-006
CFDA Number	17.225
Program Title	Unemployment Insurance (UI)
Compliance Requirement	Activities Allowed or Unallowed, Allowable Costs/Cost Principles, Eligibility, Reporting, and Special Tests and Provisions – UI Benefit Payments and UI Program Integrity – Overpayments
State Agency	Florida Department of Economic Opportunity (FDEO)
Federal Grant/Contract Number and Grant Year	Various
Statistically Valid Sample	N/A
Finding Type	Significant Deficiency
Prior Year Finding	Report No. 2017-180, Finding No. 2016-009

Finding

CONNECT is a Web-based, multi-purpose system that provides a portal for UI claimants to apply for weekly UI benefits, monitor their accounts, and communicate with FDEO staff. CONNECT also serves employers and third-party administrators by providing a way to manage UI claims and appeals, update and monitor their UI accounts, and communicate with FDEO staff.

In our information technology operational audit report No. 2017-039, dated November 2016, we disclosed significant deficiencies related to selected information technology controls applicable to CONNECT. Specifically, in Findings 4 and 5, we described system edits that needed improvement to ensure the validity of data. In Findings 17 through 20, we disclosed significant security control deficiencies related to access control procedures and access privileges. Additionally, in Finding 22, we disclosed significant security control deficiencies related to user authentication, access controls, and logging and monitoring. Details of the findings and recommendations are included in that report. During the 2016-17 fiscal year, the FDEO made no significant changes to CONNECT to correct the noted deficiencies.

U.S. DEPARTMENT OF LABOR

Finding Number 2017-007
CFDA Number 17.225
Program Title Unemployment Insurance (UI)
Compliance Requirement Allowable Costs/Cost Principles
State Agency Florida Department of Economic Opportunity (FDEO)
Federal Grant/Contract Number and Grant Year Various
Statistically Valid Sample N/A
Finding Type Significant Deficiency

Finding Internal controls for the Electronic Payment Card (EPC) Processing and Settlement System need improvement.

Criteria 2 CFR 200.303 – *Internal Controls* – The non-Federal entity must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

Condition The FDEO contracted with a service organization to provide services that enable UI claimants to receive UI benefits to which they are entitled through an electronic access card (debit card). During the 2016-17 fiscal year, the FDEO processed UI benefit payments totaling approximately \$405 million. Benefit payments distributed via debit card totaled \$98,651,720.

The service organization obtained an independent service auditor’s report for the period July 1, 2016, through June 30, 2017, in which the service organization’s auditors qualified their opinion related to controls in place to provide reasonable assurance that logical access to programs, data, and computer resources was restricted to authorized and appropriate users, and such users were restricted to performing authorized and appropriate actions. The following control exceptions were noted in the report:

Control	Exception
Access to the operating system is approved and appropriate to job functions. User and Group access is appropriately restricted to only perform functions necessary to perform job responsibilities.	For 5 of 17 sampled Linux servers, one user who was appropriate, but recently terminated, had access to root. The auditors determined through inspection of the last logon date that the user did not log into the servers after termination.
A service request ticket is created in JTrac for granting AT access to service organization personnel and requires approval from the employee’s manager.	For 7 of 17 sampled new users granted access to EPPIC™ AT, documentation of access requests or approvals was not available.
EPPIC™ AT users are removed upon termination notification by each user’s manager.	For 11 of 12 terminated users, access was not removed timely. The auditors determined through inspection of the system audit log that the users did not access the system after their termination date.

Additional control exceptions related to user authentication and access were noted in the report. We are not disclosing the specific details of the exceptions to avoid the possibility of compromising EPC Processing and Settlement System data and related information technology (IT) resources.

Cause

The service organization had not effectively established certain IT controls to provide reasonable assurance that logical access to programs, data, and computer resources was restricted to authorized and appropriate users, and such users were restricted to performing authorized and appropriate actions.

Effect

Absent appropriate controls for providing and revoking access to programs, data, and computer resources, the FDEO has reduced assurance that UI data is appropriately safeguarded.

Recommendation

We recommend that the FDEO ensure that the service organization takes timely and appropriate corrective action to resolve the deficiencies noted in the independent service auditor's report.

State Agency Response

The service organization providing electronic access card (debit card) services for FDEO corrected all control exceptions noted in the service organization's independent auditor's report during the period July 19-21, 2017. The corrections were also reported in the service organization's System and Organization Control (SOC 1) Report on the Suitability of the Design and Operating Effectiveness of Controls.

U.S. DEPARTMENT OF LABOR

Finding Number	2017-008
CFDA Number	17.225
Program Title	Unemployment Insurance (UI)
Compliance Requirement	Period of Performance
State Agency	Florida Department of Economic Opportunity (FDEO)
Federal Grant/Contract Number and Grant Year	UI-26528-15-55-A-12 2015
Statistically Valid Sample	No
Finding Type	Noncompliance Questioned Costs – \$200,087
Finding	FDEO expenditures related to the UI program were not always incurred within the authorized period of performance.
Criteria	2 CFR Part 200.309 – <i>Period of performance</i> – A non-Federal entity may charge to the Federal award only allowable costs incurred during the period of performance and any costs incurred before the Federal awarding agency or pass-through entity made the Federal award that were authorized by the Federal awarding agency or pass-through entity.
Condition	During the 2016-17 fiscal year, the FDEO expended approximately \$494 million in UI program funds, including approximately \$405 million in benefit payments. Our analysis of five expenditures, totaling \$220,653, recorded outside the period of performance, disclosed three expenditures, totaling \$200,087, that were not incurred within the authorized period of performance.
Cause	FDEO management indicated the expenditures were inadvertently charged to the incorrect grant number.
Effect	Expenditures charged to a Federal award that were not incurred during the authorized period of performance could be subject to disallowance by the Federal grantor agency.
Recommendation	We recommend that the FDEO ensure that expenditures are incurred within the authorized period of performance and charged to the appropriate grant number.
State Agency Response	During the process of closing out the grant UI-26528-15-55-A-12 2015, DEO staff recorded transactions to ensure the grant bore its full share of allowable costs. Inadvertently, expenditures that were not within the period of performance were selected and recorded against the grant. This error was noted during the course of the audit and the expenditures in question were moved to the appropriate grant and expenditures from the appropriate period of performance were applied to the grant.

U.S. DEPARTMENT OF LABOR

Finding Number	2017-009
CFDA Number	17.225 (Includes Recovery Act Funding)
Program Title	Unemployment Insurance (UI)
Compliance Requirement	Reporting
State Agency	Florida Department of Economic Opportunity (FDEO)
Federal Grant/Contract Number and Grant Year	Various
Statistically Valid Sample	No
Finding Type	Noncompliance and Significant Deficiency
Prior Year Finding	Report No. 2017-180, Finding No. 2016-011
Finding	Data reported on quarterly Federal Financial Reports (FFRs) was not always accurate, complete, or adequately supported.
Criteria	UI Reports Handbook No. 401, <i>ETA 227 Overpayment Detection and Recovery Activities</i> – All applicable Employment and Training Administration (ETA) 227 report data should be traceable to overpayment and recovery data included in the State’s financial accounting system.
Condition	<p>The FDEO processes all UI claims payment transactions through CONNECT. CONNECT is a Web-based, multi-purpose system that provides a portal for UI claimants to apply for weekly UI benefits, monitor their accounts, and communicate with FDEO staff. CONNECT also serves employers and third-party administrators by providing a way to manage UI claims and appeals, update and monitor their UI accounts, and communicate with FDEO staff.</p> <p>The quarterly ETA 227 report provides information on overpayments of intrastate and interstate claims under the regular State UI program and under Federal UI programs including Unemployment Compensation for Federal Employees, Unemployment Compensation for Ex-Service members, and Extended Benefits (EB). FDEO accomplishments related to benefit payment control are shown in the ETA 227 report. The ETA and the FDEO need such information to monitor the integrity of the benefit payment processes in CONNECT.</p> <p>During the 2016-17 fiscal year, the FDEO submitted 4 quarterly ETA 227 reports to the U.S. Department of Labor (USDOL). We examined 2 of the quarterly reports and noted that, in some instances, data reported was not always accurate, complete, or adequately supported. Specifically, our audit disclosed that:</p> <ul style="list-style-type: none">• For the quarter ended June 30, 2016, the FDEO was unable to provide documentation to support the EB recovery or write-off amounts in <i>Section C. Recovery/Reconciliation</i>. For the quarter ended December 31, 2016, the FDEO was unable to provide documentation to support EB overpayments totaling \$825 reported in line 313 <i>Outstanding at the End of Period</i> and \$3,195 of regular State UI reported in line 321 <i>Recovered for Other States</i>.• For the quarters ended June 30, 2016, and December 31, 2016, the FDEO was unable to provide documentation to support the overpayment dollar amounts reported in <i>Section A. Overpayments Established - Causes</i>. Specifically, for the ETA 227 report submitted for the quarter ended June 30, 2016, the FDEO was unable to provide documentation to support EB overpayments totaling \$3,416 reported in line 110 <i>Total – Fraud, Nonfraud, and Penalty</i>, and documentation to support EB overpayments totaling \$825 for the quarter ended December 31, 2016.• For the quarters ended June 30, 2016, and December 31, 2016, the FDEO reported no overpayment case investigations in <i>Section B. Overpayments</i>

Established – Methods of Detection that had been established through the use of interstate benefits (IB) crossmatch (Line 203).

- For the quarters ended June 30, 2016, and December 31, 2016, the FDEO could not provide documentation to support the number of cases referred to state, local, or Federal prosecuting authorities or the number of convictions obtained, as reported in *Section D. Criminal/Civil Actions*.
- Line 507 of the ETA 227 report should be equal to the total receivables *Outstanding at End of Period* (Line 313). For both the quarters ended June 30, 2016, and December 31, 2016, the amounts reported for *Total Accounts Receivable* (Line 507) were understated by \$5,359 and overstated by \$825, respectively.

Cause

FDEO management stated that the way data for the ETA 227 reports was stored prevented the FDEO from supporting all the amounts included on the reports reviewed. In addition, FDEO management indicated that EB data was not available for the report submitted for the quarter ended June 30, 2016. FDEO management also indicated that defects had been identified in CONNECT and the IB crossmatch interface was not fully functional.

Effect

Absent accurate and complete ETA 227 report amounts supported by adequate documentation, the USDOL and the FDEO may be unable to ensure that reported amounts are appropriate and may be unable to determine the adequacy of resources available for payment of unemployment benefits. In addition, the USDOL and the FDEO are not able to effectively monitor the integrity of the UI program benefit payment process.

Recommendation

We recommend that FDEO management take appropriate steps to ensure that data reported on quarterly FFRs is accurate, complete, and adequately supported.

State Agency Response

The Department will take appropriate steps to ensure data reported on quarterly Federal Financial Reports (FFRs) is accurate, complete, and adequately supported. These steps will include:

- Corrections to how the system timely and accurately identifies benefit overpayments (see finding 2017-010). Several enhancements have been identified to address this concern and are currently being prioritized for work.
- Corrections to include the Employer's name and address listed on pre-determination letters and Appeal documents will be addressed in order to enable the interstate wage process to be fully functional.
- Implementing an enhancement to identify non-claimant overpayments within CONNECT would assist the Department with accurately identifying convictions. This process is currently done manually by creating a comment in the appropriate section of the ETA 227.

U.S. DEPARTMENT OF LABOR

Finding Number	2017-010
CFDA Number	17.225 (Includes Recovery Act Funding)
Program Title	Unemployment Insurance (UI)
Compliance Requirement	Reporting and Special Tests and Provisions – UI Program Integrity – Overpayments
State Agency	Florida Department of Economic Opportunity (FDEO)
Federal Grant/Contract Number and Grant Year	Various
Statistically Valid Sample	No
Finding Type	Noncompliance and Material Weakness
Prior Year Finding	Report No. 2017-180, Finding No. 2016-012

Finding The FDEO did not always timely or accurately identify benefit overpayments.

Criteria U.S. Department of Labor, Employment and Training Administration (ETA), Unemployment Insurance Program Letter No. 05-13 – States must enter into two agreements prior to commencing overpayment recoveries: the Cross Program Offset Agreement, which allows states to offset state UI payments from Federal UI payments, and the Interstate Reciprocal Overpayment Recovery Agreement, which allows states to recover overpayments from benefits being administered by another state.

FDEO Benefit Payment Control Manual, Chapter VII – Requires the FDEO to conduct a wage credit post audit each quarter to detect unreported earnings by claimants. Benefits paid to claimants are cross-matched against wages reported by employers on wage records. If a match is found, a *Request for Breakdown of Earnings* form is sent to the employer. The employer is requested to verify that the wages reported by the claimant are correct, and to furnish wage information if no wages are reported by the claimant. Quarterly wage post audits are examined by Benefit Payment Control employees for possible conflicts.

Condition CONNECT is a Web-based, multi-purpose system that provides a portal for UI claimants to apply for weekly UI benefits, monitor their accounts, and communicate with FDEO staff. CONNECT also serves employers and third-party administrators by providing a way to manage UI claims and appeals, update and monitor UI accounts, and communicate with FDEO staff. CONNECT is also designed to be used by FDEO staff to evaluate claims information, authorize and process payments, adjudicate issues, and maintain claimant and employer data.

The quarterly ETA 227 report provides information on overpayments of intrastate and interstate claims under the regular State UI program and under Federal UI programs including Unemployment Compensation for Federal Employees, Unemployment Compensation for Ex-Service members, and Extended Benefits. FDEO accomplishments related to benefit payment control are shown in the ETA 227 report. The ETA and the FDEO need such information to monitor the integrity of the benefit payment processes in CONNECT.

For the 2016-17 fiscal year, the FDEO reported that overpayments totaling approximately \$26.9 million were established. We examined documentation related to 60 established overpayments, totaling \$35,764, and found that:

- 7 of the 60 (11.7 percent) overpayments, totaling \$6,982, were not timely established. Delays in establishing the overpayments ranged from 191 to 410 days and averaged 289 days. Specifically, we noted that:
 - The FDEO did not timely establish 5 overpayments, totaling \$6,290, as a result of not timely processing claimant *Notice of Unemployment Compensation Claim Filed* (UCB-412) forms. The FDEO sends UCB-412

forms to a claimant's employer after a claim is filed. The employer's response is used to verify that the claimant is eligible for benefits or to determine that the claimant is ineligible for benefits and establish an overpayment.

- The FDEO did not timely establish 2 overpayments, totaling \$692, due to delays in performing quarterly wage audits.
- For 6 of the 60 (10 percent) overpayments, totaling \$1,926, the same benefit weeks were included in 2 or more overpayments, which resulted in the overpayments being counted in *Section A. Overpayments Established - Causes* on multiple ETA 227 reports.
- 2 of the 60 (3.3 percent) overpayments, totaling \$1,298, were established in error.

Cause FDEO management indicated that the issues noted regarding the identification and handling of overpayments were due to known defects within CONNECT. Additionally, limitations within CONNECT necessitated the manual processing of UCB-412 forms.

Effect Absent controls to accurately identify and timely establish overpayments, claimants may continue to receive UI benefits in error. Additionally, without proper controls, FDEO management has limited assurance that employers were relieved of charges when overpayments were caused by untimely or inaccurate actions, or that overpayments are accurately reported on ETA 227 reports.

Recommendation We again recommend that the FDEO make appropriate modifications to CONNECT to ensure that benefit overpayments are properly and timely identified.

State Agency Response The Department will make appropriate modifications to CONNECT to ensure that benefit overpayments are properly and timely identified:

- Several fixes were identified and range in implementation date from July 2017 through February 2018 to address 10 of the 15 cases referenced in the finding.

Furthermore, the system enhancements below have been identified to address additional overpayment concerns:

- An enhancement was deployed to production on February 28, 2018 that will assist with properly establishing an overpayment in relation to waiting weeks being paid in error.
- Additional enhancements are being developed to address overpayments not properly identified.

In regards to certain timely identifications of overpayments, the Department will work on establishing a process improvement plan with Adjudication management on the timely handling of "Java Decision" issues.

U.S. DEPARTMENT OF LABOR

Finding Number	2017-011
CFDA Number	17.225
Program Title	Unemployment Insurance (UI)
Compliance Requirement	Special Tests and Provisions – UI Benefit Payments
State Agency	Florida Department of Economic Opportunity (FDEO)
Federal Grant/Contract Number and Grant Year	Various
Statistically Valid Sample	No
Finding Type	Noncompliance and Significant Deficiency
Prior Year Finding	Report No. 2017-180, Finding No. 2016-013
Finding	The FDEO did not follow established benefit accuracy measurement (BAM) case investigation procedures and methodology to meet Federal BAM program testing requirements.
Criteria	<p>20 CFR Part 602.21 – <i>Standard methods and procedures</i></p> <p>20 CFR Part 602.21(c) – Requires each state to complete prompt and in-depth case investigations to determine the degree of accuracy and timeliness in the administration of the State UI law and Federal programs with respect to benefit determinations, benefit payments, and revenue collections. Furthermore, 20 CFR Part 601.21(e) specifies that each state shall make and maintain records pertaining to the quality control program, and make all such records available in a timely manner for inspection, examination, and audit.</p> <p>U.S. Department of Labor (USDOL), Employment and Training Administration, <i>Benefit Accuracy Measurement State Operations Handbook</i>, Employment and Training (ET) Handbook No. 395, 5th Edition</p> <p>FDEO <i>BAM Florida Operational Manual Handbook</i></p>
Condition	<p>During the 2016-17 fiscal year, the FDEO made UI benefit payments totaling approximately \$405 million. The UI BAM system provides the basis for assessing the accuracy of UI payments, assessing improvements in program accuracy and integrity, and encouraging more efficient administration of the UI program. It is also a diagnostic tool for Federal and FDEO staff to identify errors (e.g., monetary redeterminations, misreported wages, and overpayments) and their causes, and to correct and track solutions to these errors.</p> <p>Pursuant to the <i>Benefit Accuracy Measurement State Operations Handbook</i>, each case file must contain, at a minimum, a copy of all agency documents from the claimant's original claim file, in addition to any documents utilized for the BAM investigation. These documents include, but are not limited to, a National Directory of New Hires (NDNH) crossmatch (for paid claims only). Additionally, pursuant to the FDEO <i>BAM Florida Operational Manual Handbook</i>, an investigation activity log and labor market information from the Florida Research Economic Database is required to be maintained for all case investigations. Our examination of FDEO records for 40 case investigation files disclosed that the FDEO did not always maintain required documentation. Specifically:</p> <ul style="list-style-type: none">• The case file did not contain documentation of the NDNH crossmatch for 3 of the 20 (15 percent) applicable case investigations.• The case file did not contain an investigation activity log for 4 of the 40 (10 percent) case investigations.• The case file did not contain labor market information from the Florida Research Economic Database for 1 of the 40 (2.5 percent) case investigations.

Cause	FDEO management indicated that the missing documentation was due to errors in uploading the documents to CONNECT, the FDEO system used to process and maintain UI program data. Additionally, six of the seven files with missing documentation had not been reviewed by a supervisor and the FDEO had not established procedures specifying when supervisory reviews would be required. While Federal guidelines provide that supervisory review is optional, supervisory review could help detect errors in FDEO case files.
Effect	The FDEO was not in compliance with USDOL ET Handbook case file documentation requirements. Absent supervisory review of required case file documentation, the FDEO has reduced assurance that BAM case investigations meet Federal requirements. In addition, incomplete case file documentation could affect the outcome of BAM case investigations and present limitations for Federal peer reviews.
Recommendation	We recommend that the FDEO maintain required case file documentation and develop procedures for supervisory reviews of BAM case investigations.
State Agency Response	The Department will put additional safeguards in place by developing procedures for supervisory reviews of Benefit Accuracy Measurement (BAM) case investigations to ensure required case file documentation is maintained.

U.S. DEPARTMENT OF TRANSPORTATION

Finding Number	2017-012
CFDA Number	20.205, 20.219, 20.224, and 23.003
Program Title	Highway Planning and Construction Cluster
Compliance Requirement	Activities Allowed or Unallowed and Allowable Costs/Cost Principles
State Agency	Florida Department of Transportation (FDOT)
Federal Grant/Contract Number and Grant Year	All
Statistically Valid Sample	No
Finding Type	Significant Deficiency
Finding	The FDOT needs to improve certain information technology (IT) security controls related to user authentication for the FDOT Consultant Invoice Transmittal System (CITS) and the Electronic Estimate Disbursement (EED) System.
Criteria	<p>2 CFR 200.302 – <i>Financial Management</i> – Each state must expend and account for the Federal award in accordance with state laws and procedures for expending and accounting for the state’s own funds.</p> <p>Agency for State Technology (AST) Rule 74-2.003(1), Florida Administrative Code - <i>Access Control</i> - Each agency shall ensure that access to IT resources is limited to authorized users, processes, or devices, and to authorized activities and transactions.</p> <p>AST Rule 74-2.003(5), Florida Administrative Code - <i>Information Protection Processes and Procedures</i> - Each agency shall ensure that security policies, processes and procedures are maintained and used to manage protection of information systems and assets.</p>
Condition	The FDOT uses CITS to allow for the electronic generation and submission of invoices by consultants over the Internet and is an integral part of the FDOT invoice review and approval process. The EED System automates the validation and payment of invoices submitted by vendors and transmits payment request transactions to the Florida Accounting Information Resource Subsystem (FLAIR), the State’s accounting system. During the 2016-17 fiscal year, the FDOT expended Highway Planning and Construction Cluster funds totaling \$2,145,870,695. Our audit disclosed that certain security controls related to CITS and the EED System needed improvement. We are not disclosing specific details of the issues in this report to avoid the possibility of compromising FDOT data and related IT resources. However, we have notified appropriate FDOT management of the specific issues. Additionally, we noted through a review of the administrator’s guide for the security software used to administer CITS and the EED System, that revisions to the security software are technologically possible to address the noted deficiencies.
Cause	The security controls for CITS and the EED System, as designed, did not provide for adequate user authentication.
Effect	Absent compliance with established security policies and adequate controls related to CITS and EED System user authentication, the risk is increased that the confidentiality, integrity, and availability of FDOT data and related IT resources may be compromised.
Recommendation	We recommend that the FDOT take steps to enforce established security policies and enhance controls related to CITS and EED System user authentication to ensure the continued confidentiality, integrity, and availability of FDOT data and related IT resources.

State Agency Response

Agree. Chapter 2 section 2.3.3 of our Transportation Technology manual has been updated to reflect the password requirements for Active Directory and RACF separately. This change will be published in the manual updates by July 1, 2018. Anticipated Completion Date: 7/1/2018.

U.S. DEPARTMENT OF TRANSPORTATION

Finding Number 2017-013
CFDA Number 20.205, 20.219, 20.224, and 23.003
Program Title Highway Planning and Construction Cluster
Compliance Requirement Activities Allowed or Unallowed, Allowable Costs/Cost Principles, Matching, Level of Effort, Earmarking, and Reporting
State Agency Florida Department of Transportation (FDOT)
Federal Grant/Contract Number and Grant Year All
Statistically Valid Sample N/A
Finding Type Significant Deficiency

Finding The Financial Management (FM) Suite is the FDOT's primary financial management system for planning, managing, financing, and budgeting transportation projects. The FM Suite integrates common data used by the major subsystems that support the core financial and project management business processes of the FDOT. The FM Suite comprises the Work Program Administration subsystem, Federal Authorization Management System, Project Cost Management subsystem, and the Federal Programs Management subsystem (FPM). The FPM provides the ability to manage and seek reimbursement for projects that are eligible for Federal Highway Administration (FHWA) participation. The FPM supports FDOT activities to: track appropriations and obligating authority, Federal billing, and vouchering; interface with the Federal Management Information System to manage Federal appropriations; and generate periodic billing for Federal reimbursement from the FHWA.

In our information technology operational audit report No. 2017-206, dated June 2017, we disclosed significant deficiencies related to selected information technology controls for the FPM. Specifically, in Findings 1 through 3 and 5, we disclosed significant security control deficiencies related to access control procedures and access privileges. In Finding 4, we disclosed significant deficiencies related to program change management controls. Additionally, in Finding 6, we disclosed significant security control deficiencies related to user authentication and logging and monitoring. Details of the findings and recommendations are included in that report.

U.S. DEPARTMENT OF TRANSPORTATION

Finding Number	2017-014
CFDA Number	20.205, 20.219, 20.224, and 23.003
Program Title	Highway Planning and Construction Cluster
Compliance Requirement	Subrecipient Monitoring
State Agency	Florida Department of Transportation (FDOT)
Federal Grant/Contract Number and Grant Year	4047-207-C
Statistically Valid Sample	No
Finding Type	Noncompliance and Significant Deficiency
Finding	The FDOT did not always notify subrecipients of required award information.
Criteria	2 CFR Part 200.331 – <i>Requirements for pass-through entities</i> – All pass-through entities must ensure that every subaward is clearly identified to the subrecipient as a subaward and include certain information at the time of the subaward.
Condition	The FDOT awarded Highway Planning and Construction Cluster funds totaling \$198,119,121 to 145 subrecipients during the 2016-17 fiscal year. Of the subrecipients awarded funding, 141 were awarded funding through the FDOT's Local Agency Program (LAP) and the remaining 4 subrecipients were awarded funding through discretionary FDOT grants. Discretionary grants are special funding categories that are solicited through the Federal Highway Administration and administered by the FDOT. Our review of FDOT records related to 13 LAP awards and 2 discretionary awards disclosed that the FDOT had not provided to the 2 subrecipients awarded discretionary grants all required award information.
Cause	According to FDOT management, the FDOT had not established procedures for administering the award of discretionary grants.
Effect	The failure to communicate required award information to subrecipients may result in noncompliance with Federal regulations.
Recommendation	We recommend that FDOT management establish procedures for administering discretionary grants to ensure that required award information is included in each award and provided to subrecipients.
State Agency Response	Agree. The agency will develop and incorporate procedures into contract and project management practices for discretionary grant agreements. These requirements will be reinforced through standardized training across FDOT. Anticipated Completion Date: 12/31/18.

U.S. DEPARTMENT OF TRANSPORTATION

Finding Number 2017-015
CFDA Number 20.205, 20.219, 20.224, and 23.003
Program Title Highway Planning and Construction Cluster
Compliance Requirement Subrecipient Monitoring
State Agency Florida Department of Transportation (FDOT)
Federal Grant/Contract Number and Grant Year Various
Statistically Valid Sample No
Finding Type Noncompliance and Significant Deficiency

Finding The FDOT did not evaluate subrecipient risk of noncompliance with Federal statutes, regulations, and the terms and conditions of the subaward or develop an appropriate monitoring plan based on the risk of noncompliance assessed. Additionally, the FDOT did not adequately monitor some of its subrecipients.

Criteria 2 CFR 200.331 – *Requirements for pass-through entities* – All pass-through entities must evaluate each subrecipient’s risk of noncompliance with Federal statutes, regulations, and the terms and conditions of the subaward for purposes of determining the appropriate subrecipient monitoring. All pass-through entities must monitor the activities of the subrecipient as necessary to ensure that the subaward is used for authorized purposes, in compliance with Federal statutes, regulations, and the terms and conditions of the subaward, and that subaward performance goals are achieved.

Condition During the 2016-17 fiscal year, the FDOT had 349 active subrecipient agreements, including 20 discretionary grant agreements, and made payments to subrecipients totaling \$155,177,841. Our audit disclosed that the FDOT had not assessed subrecipient risk of noncompliance with Federal statutes, regulations, and the terms and conditions of the subaward. Additionally, our audit found that, although the FDOT conducted subrecipient monitoring, the FDOT had not developed a monitoring plan based on any assessed risk of subrecipient noncompliance.

We also noted that FDOT monitoring of discretionary grant agreements, special funding categories solicited through the Federal Highway Administration and administered by the FDOT, was limited to invoice and progress report reviews. However, the FDOT’s reviews were not sufficient to determine compliance with all financial and programmatic grant agreement requirements.

Cause According to FDOT management, the FDOT had not established procedures for evaluating subrecipient risk of noncompliance with Federal statutes, regulations, and the terms and conditions of the subaward or for developing a related monitoring plan. Additionally, the FDOT had not established procedures for administering the award of discretionary grants or conducted sufficient oversight of such grants.

Effect Absent evaluating subrecipient risk of noncompliance with Federal statutes, regulations, and the terms and conditions of the subaward, and developing an appropriate monitoring plan, the FDOT has limited assurance that monitoring performed addresses the highest risk subrecipients or adequately assesses subrecipient compliance with financial and programmatic grant agreement requirements. Additionally, the FDOT has not complied with applicable Federal regulations.

Recommendation

We recommend that FDOT management establish procedures for conducting subrecipient risk assessments and developing monitoring plans based on the risk of noncompliance assessed. Additionally, FDOT management should develop and implement procedures for monitoring discretionary grant agreements.

State Agency Response

Agree. The Agency will evaluate relevant criteria and develop the required procedures for conducting subrecipient risk assessments and developing monitoring plans based on risk across FDOT managed programs, including discretionary grant agreements. Anticipated Completion Date: 6/20/19.

U.S. DEPARTMENT OF TRANSPORTATION

Finding Number	2017-016
CFDA Number	20.500, 20.507, 20.525, and 20.526
Program Title	Federal Transit Cluster
Compliance Requirement	Reporting
State Agency	Florida Department of Transportation (FDOT)
Federal Grant/Contract Number and Grant Year	FL-03-323-05
Statistically Valid Sample	N/A
Finding Type	Noncompliance
Prior Year Finding	Report No. 2017-180, Finding No. 2016-017
Finding	The FDOT did not accurately report program income on Federal Financial Reports (FFRs).
Criteria	Federal Transit Administration (FTA) Circular FTA C 5010.1D <i>Grant Management Requirements</i> – A grantee must submit an FFR for each active or executed grant. The FTA does not allow the FFR to be prepared using the cash basis of accounting.
Condition	The FTA uses FFRs to evaluate several elements of the grant status, including whether the grantee is demonstrating competence and control in executing the project and whether the project is progressing on time and within budget. Our examination of the FFRs submitted for the quarters ended June 30, 2016, through March 31, 2017, disclosed that the FDOT, as a result of using the cash basis of accounting, did not accurately report program income for the four quarters. Our examination of the FFRs and FDOT accounting records disclosed that unexpended program income was underreported for each of the four quarters. The differences between the amounts reported and the amounts supported by FDOT accounting records ranged from \$2,715,749 to \$4,426,048.
Cause	FDOT management indicated that it was difficult to report program income using the accrual basis of accounting as the actual amount of program income may not be available until after the quarterly FFR is submitted. Additionally, FDOT staff indicated that miscommunications between the accounting and program offices contributed to the errors.
Effect	The FTA cannot accurately determine whether projects are progressing within budget or whether the FDOT is demonstrating appropriate control in executing projects.
Recommendation	We recommend that the FDOT take actions to ensure that program income is reported on the FFRs using the correct basis of accounting.
State Agency Response	Agree. The FDOT Office of Comptroller, General Accounting Office, has revised the FFR report procedure to ensure that the SunRail, Phase 1, Program Income is reported using the correct basis of accounting. Anticipated Completion Date: The revised process was implemented with the FFY Q1 FFR due on January 31, 2018. Each quarterly report will be filed using the revised process from that date forward.

U.S. DEPARTMENT OF TRANSPORTATION

Finding Number	2017-017
CFDA Number	20.509
Program Title	Formula Grants for Rural Areas
Compliance Requirement	Reporting
State Agency	Florida Department of Transportation (FDOT)
Federal Grant/Contract Number and Grant Year	All
Statistically Valid Sample	No
Finding Type	Significant Deficiency
Finding	The FDOT did not always maintain documentation demonstrating that access to the Transit Award Management System (TrAMS) was only granted to authorized users and that the access privileges granted were appropriate.
Criteria	<p>Agency for State Technology (AST) Rule 74-2.003(1), Florida Administrative Code - <i>Access Control</i> - Each agency shall ensure that access to information technology (IT) resources is limited to authorized users, processes, or devices, and to authorized activities and transactions.</p> <p>AST Rule 74-2.003(5), Florida Administrative Code - <i>Information Protection Processes and Procedures</i> - Each agency shall ensure that security policies, processes and procedures are maintained and used to manage protection of information systems and assets.</p>
Condition	<p>The FDOT used TrAMS, a Federally owned system, to develop, submit, monitor, report on, and close out grant awards. As of May 30, 2017, 13 FDOT employees had access to TrAMS. During the 2016-17 fiscal year, the FDOT expended Formula Grants for Rural Area funds totaling \$16,484,972.</p> <p>Our review of FDOT access controls for TrAMS disclosed that controls over access needed improvement. Specifically, the FDOT had not established procedures to document the request for and approval of access to TrAMS and could not provide documentation demonstrating the request for and approval of access privileges as of May 30, 2017, for two of the three FDOT users selected for testing.</p>
Cause	FDOT management indicated that the TrAMS users were added during a migration from a former system and the access documentation was maintained within the former system and is not accessible by the FDOT.
Effect	Absent procedures requiring that appropriate user access authorization documentation be prepared and maintained, the FDOT cannot demonstrate that access to TrAMS is appropriately limited to authorized users for authorized purposes. Additionally, the data stored in TrAMS may be at increased risk of compromise.
Recommendation	We recommend that the FDOT establish procedures addressing the preparation and maintenance of TrAMS user access authorization documentation.
State Agency Response	Agree. The TrAMS User Guide outlines the rules for requesting access to the TrAMS system. By July 30, 2018 the Transit Office will contact all 13 users grandfathered into TrAMS from the TEAM system to certify their continued need to access/use the TrAMS system. Additionally, the Transit Office will establish written instructions for submitting and monitoring access requests to FTA for the TrAMS system. Anticipated Completion Date: 7/30/18.

U.S. DEPARTMENT OF EDUCATION

Finding Number	2017-018
CFDA Number	84.010
Program Title	Title I Grants to Local Educational Agencies
Compliance Requirement	Eligibility and Matching, Level of Effort, Earmarking
State Agency	Florida Department of Education (FDOE)
Federal Grant/Contract Number and Grant Year	S010A160009 2016
Statistically Valid Sample	No
Finding Type	Noncompliance and Significant Deficiency
Finding	The FDOE did not follow Federal regulations for adjusting the United States Department of Education (USED) determined Title I, Part A, Local Educational Agency (LEA) allocations to account for LEAs not on the Census list or redetermine LEA eligibility.
Criteria	<p>34 CFR 200.72 – <i>Procedures for adjusting allocations determined by the Secretary to account for eligible LEAs not on the Census list –</i></p> <p>(a) For each LEA not on the Census list, an State Educational Agency (SEA) must determine the number of formula children and the number of children ages 5 to 17, inclusive, in that LEA;</p> <p>(b) An SEA must determine basic grant, concentration grant, targeted grant, and education finance incentive grant (EFIG) eligibility for each new LEA and re-determine eligibility for the LEAs on the Census list, as appropriate, based on the number of formula children and children ages 5-17, inclusive, determined in paragraph (a); and</p> <p>(c) An SEA must adjust the LEA allocations calculated by the Secretary to determine allocations for eligible new LEAs based on the number of formula children determined in paragraph (a).</p> <p>34 CFR 200.73 – <i>Applicable hold-harmless provisions –</i> An SEA may not reduce the allocation of an eligible LEA below the hold-harmless amounts, which limits the maximum reduction of an LEA’s allocation compared to the LEA’s allocation for the preceding year, and must apply the hold-harmless requirement separately for basic grants, concentration grants, targeted grants, and EFIGs. The hold-harmless percentages vary from 95 to 85 percent, depending on the LEA’s proportion of formula children.</p> <p>USED Guidance – <i>State Educational Agency Procedures for Adjusting Basic, Concentration, Targeted, and Education Finance Incentive Grant Allocations Determined by the USED –</i> An SEA should determine the number of Title I formula children and the eligibility of LEAs not on the Census Bureau’s list of LEAs that USED uses to determine LEA allocations, establish allocations for all eligible LEAs (including those not on the Census list) within the State, and reserve funds for school improvement activities, State administration, and the State academic achievement awards program and adjusting allocations to reflect hold-harmless requirements.</p>
Condition	During the 2016-17 fiscal year, the FDOE received Title I, Part A, grants totaling \$813,175,158, including allocations of \$323,945,481 for Basic Grants, \$76,180,107 for Concentration Grants, \$222,042,737 for Targeted Grants, and \$191,006,833 for EFIGs. Our examination of FDOE’s allocations and eligibility redeterminations disclosed that the FDOE did not follow Federal regulations in

adjusting the USED determined allocations, redetermining eligibility for all LEAs, or applying applicable hold-harmless requirements. Specifically:

- The FDOE did not determine the number of formula children and the number of children ages 5 to 17 for each LEA not on the Census list. Instead, the FDOE relied on Free and Reduced-Price Lunch Data (FRPL), rather than using the FRPL data to derive Census poverty counts for LEAs not on the Census list.
- The FDOE did not separately redetermine eligibility for the basic, concentration, targeted, and EFIG grants based on the number of formula children from the Census list.
- The FDOE did not separately apply the hold-harmless requirement to the basic, concentration, targeted, and EFIG grants using the 95, 90, and 85 percent requirement, based on the LEA's proportion of formula children.
- The FDOE did not calculate the allocation in the proper order, in that the hold-harmless requirements are to be applied prior to the application of the 4 percent reserve for school improvement and 1 percent reserve for State administration.

As a result, we noted the following differences:

	Allocation Per FDOE	Allocation Per Audit	\$ Difference	% Difference
Total Title I, Part A, Funds	\$813,175,158	\$813,175,158	\$ 0	0%
State Administration	7,318,704	7,537,260	(218,556)	-3%
School Improvement	23,346,458	31,485,185	(8,138,727)	-26%
Part D Subpart 2	8,610,495	9,537,082	(926,587)	-10%
Total Final Allocation to LEAs	<u>\$773,899,501</u>	<u>\$764,615,631</u>	<u>\$ 9,283,870</u>	<u>1%</u>

Additionally, all 76 LEAs were affected by the incorrect allocations, including 23 LEAs who were over-allocated funding ranging from \$2,900 to \$6,443,369, and 53 LEAs who were under-allocated funding ranging from \$50 to \$4,484,155.

Cause

FDOE procedures were not sufficient to ensure compliance with Federal requirements for administering Title I, Part A, LEA allocations.

Effect

Absent compliance with Federal requirements, the FDOE cannot ensure or demonstrate that Title I, Part A, funds are appropriately allocated to LEAs as required.

Recommendation

We recommend that the FDOE take actions to ensure that Federal requirements are followed when calculating the Title I, Part A, LEA allocations.

State Agency Response

The Florida Department of Education (FDOE) is reviewing the auditor's methodology and calculations. FDOE will consult with the United States Department of Education (USED) and commit to resolve any discrepancies between federal regulation, USED guidance and FDOE's processes in determining Title I, Part A, allocations.

U.S. DEPARTMENT OF EDUCATION

Finding Number	2017-019
CFDA Number	84.010
Program Title	Title I Grants to Local Educational Agencies
Compliance Requirement	Subrecipient Monitoring
State Agency	Florida Department of Education (FDOE)
Federal Grant/Contract Number and Grant Year	S010A140009 2014, S010A150009 2015, and S010A160009 2016
Statistically Valid Sample	N/A
Finding Type	Significant Deficiency
Prior Year Finding	N/A
Finding	The FDOE did not conduct sufficient subrecipient monitoring of Local Educational Agencies (LEAs) based on the results of the program-specific risk assessment.
Criteria	2 CFR 200.331(d) – <i>Requirements for pass-through entities</i> – All pass-through entities must monitor the activities of the subrecipient as necessary to ensure that the subaward is used for authorized purposes, in compliance with Federal statutes, regulations, and the terms and conditions of the subaward, and that subaward performance goals are achieved.
Condition	<p>During the 2016-17 fiscal year, the FDOE provided \$704,054,348 in Federal Title I, Part A funds to 76 LEAs (subrecipients). FDOE Elementary and Secondary Education Monitoring procedures indicated that, as the basis for determining the nature of the monitoring to be conducted for each LEA, a program-specific risk assessment was to be conducted each year for all LEAs. The LEAs with the highest risk for each Federal program were to be reviewed via on-site or desktop monitoring by the FDOE, or through enhanced self-monitoring; however, the procedures also indicated that, for the 2016-17 fiscal year, the FDOE would not conduct on-site monitoring.</p> <p>Our examination of the 2016-17 fiscal year FDOE risk assessment showed risk scores ranging from 4 to 42, and 33 LEAs with risk scores higher than the average LEA risk score of 19.4. However, the risk assessment did not identify the basis for determining a higher-risk LEA and FDOE monitoring records indicated that FDOE monitoring was limited to desktop reviews of only 3 LEAs. The LEAs subject to desktop reviews had the 4th, 6th, and 7th highest risk scores.</p>
Cause	FDOE management indicated that, because the 2016-17 fiscal year was a transition year in Federal requirements for the Title I, Part A program, and due to limited staff, the FDOE focused on improving student outcomes and supporting State school improvement efforts in instructional coaching, rather than on compliance with financial and programmatic requirements.
Effect	Absent sufficient and appropriate monitoring, the FDOE has reduced assurance and cannot adequately demonstrate that subrecipients complied with Federal requirements.
Recommendation	We recommend that the FDOE take actions to ensure that sufficient and appropriate monitoring of subrecipients is conducted.
State Agency Response	During the 2016-2017 Fiscal Year, the FDOE used its discretion to continue to focus efforts on technical assistance and transitioning to requirements under the Every Student Succeeds Act. The FDOE continues to employ a process that utilizes multiple forms of monitoring district performance and risk by reviewing applications, expenditure reports, and complaints as well as conducting onsite, desktop and self-monitoring activities. Although there were no onsite activities implemented during 2016-17 because of the focus on technical assistance and

transition to new requirements, FDOE is confident that its process meets the requirements outlined in 2 CFR 200.331 (d) when monitoring subrecipients.

Going forward for the 2017-18 and 2018-19 school years, FDOE will continue to evaluate and revise its monitoring procedures for the Title I, Part A, program to ensure that appropriate monitoring of the ESSA requirements is conducted using a variety of strategies including self-monitoring, desk-top, and onsite monitoring in addition to on-going strategies such as reviewing applications and expenditure reports.

U.S. DEPARTMENT OF EDUCATION

Finding Number 2017-020
CFDA Number Various (See Condition)
Program Title Various (See Condition)
Compliance Requirement Schoolwide Programs
State Agency Florida Department of Education (FDOE)
Federal Grant/Contract Number and Grant Year S010A160009 2016, S011A160010 2016, H027A160024 2016, V048A160009-16A 2016, and S367A160009 2016
Statistically Valid Sample No
Finding Type Noncompliance

Finding The FDOE did not notify a new charter school local educational agency (LEA) of the authority to consolidate Federal, State, and local funds in schoolwide programs.

Criteria Elementary and Secondary Education Act Section 1111(c) – Each State plan shall contain assurances that the State educational agency will notify LEAs of the authority to operate schoolwide programs, encourage schools to consolidate funds in schoolwide programs, and eliminate State fiscal and accounting barriers for consolidating funds in schoolwide programs.

Condition During the 2016-17 fiscal year, the FDOE added one new charter school LEA. The charter school LEA was allocated \$855,075 from five Federal programs for the 2016-17 school year, as shown below:

Program	Amount Allocated
84.010 – Title I Grants to LEAs	\$472,690
84.011 – Migrant Education State Grant Program	\$8,266
84.027 – Special Education Grants to States	\$331,037
84.048 – Career and Technical Education Basic Grants to States	\$18,082
84.367 – Supporting Effective Instruction State Grants	\$25,000

Our examination of FDOE records and inquiry of FDOE management disclosed that, until our audit inquiry on January 10, 2018, the FDOE did not notify the charter school LEA of the authority to consolidate Federal, State, and local funds in schoolwide programs.

Cause The FDOE did not notify the charter school LEA of the authority to consolidate Federal, State, and local funds in schoolwide programs due to an oversight.

Effect Absent proper notification, the FDOE is not in compliance with Federal requirements and the charter school LEA may be unaware of its ability to consolidate funds in schoolwide programs.

Recommendation We recommend that the FDOE take appropriate actions to ensure that new LEAs are notified of their authority to consolidate Federal, State, and local funds in schoolwide programs.

State Agency Response Although individual program offices that manage Federal programs provide information to LEAs of the ability to consolidate federal funds during the grant application process, FDOE acknowledges, as a result of an oversight, the new LEA for the 2016-17 fiscal year was not informed of this ability in accordance with the Elementary and Secondary Education Act Section 1111(c). Once this oversight was brought to our attention, the Assistant Deputy Commissioner of

Finance and Operations informed the LEA of these provisions on January 10, 2018.

To ensure all LEAs are made aware of all applicable rights and responsibilities under the Elementary and Secondary Education Act and each individual federal program, FDOE will develop and institute an LEA Onboarding Check List. The checklist will be used to confirm FDOE has complied with its duties and obligations under federal codes and regulations.

U.S. DEPARTMENT OF EDUCATION

Finding Number	2017-021
CFDA Number	84.011
Program Title	Migrant Education – State Grant Program (MEP)
Compliance Requirement	Subrecipient Monitoring
State Agency	Florida Department of Education (FDOE)
Federal Grant/Contract Number and Grant Year	S011A140010 2014, S011A150010 2015, and S011A160010 2016
Statistically Valid Sample	N/A
Finding Type	Noncompliance and Significant Deficiency
Finding	The FDOE did not evaluate each Local Educational Agency's (LEA's) risk of noncompliance with Federal statutes, regulations, and the terms and conditions of the subaward based on current data. Additionally, the FDOE did not conduct sufficient subrecipient monitoring of the LEAs.
Criteria	2 CFR 200.331 – <i>Requirements for pass-through entities</i> – All pass-through entities must evaluate each subrecipient's risk of noncompliance with Federal statutes, regulations, and the terms and conditions of the subaward for purposes of determining the appropriate subrecipient monitoring, and monitor the activities of the subrecipient as necessary to ensure that the subaward is used for authorized purposes, in compliance with Federal statutes, regulations, and the terms and conditions of the subaward, and that subaward performance goals are achieved.
Condition	<p>During the 2016-17 fiscal year, the FDOE provided \$21,641,816 in Federal MEP funds to 34 LEAs (subrecipients). Federal regulations required the FDOE to monitor the activities of subrecipients to ensure subawards were used in compliance with Federal law, regulations, and the provisions of contracts or grant agreements. FDOE Elementary and Secondary Education Monitoring procedures indicated that, as the basis for determining the nature of the monitoring to be conducted for each LEA, a program-specific risk assessment was to be conducted each year for all LEAs. The LEAs with the highest risk for each Federal program were to be reviewed via on-site or desktop monitoring by the FDOE, or through enhanced self-monitoring; however, the procedures also indicated that, for the 2016-17 fiscal year, the FDOE would not conduct on-site monitoring.</p> <p>During our audit, we noted that the FDOE did not conduct a risk assessment of each LEA for the 2016-17 fiscal year. Instead, the FDOE utilized a risk assessment initially conducted during the 2014-15 fiscal year, as well as other factors associated with Federal programs other than the MEP, as the basis for conducting monitoring for the 2016-17 fiscal year. Additionally, we noted that the FDOE completed desktop reviews for only 4 of the 13 LEAs assessed as higher-risk. Without an updated risk assessment and FDOE monitoring of all higher-risk LEAs, it is not apparent that FDOE monitoring activities were sufficient to adequately assess subrecipient compliance with Federal statutes, regulations, and the terms and conditions of the subaward or that subaward performance goals were achieved.</p>
Cause	FDOE management indicated that, since MEP staff were new to the program during the 2016-17 monitoring period, the most recent risk assessment data available was from the 2014-15 fiscal year. Additionally, FDOE management indicated that, because the 2016-17 fiscal year was a transition year in Federal requirements for the MEP, the FDOE focused on improving student outcomes and supporting State school improvement efforts in instructional coaching, rather than on compliance with MEP financial and programmatic requirements.

Effect	Absent an adequate risk assessment based on current data and sufficient and appropriate monitoring, the FDOE has reduced assurance and cannot adequately demonstrate that subrecipients complied with Federal requirements.
Recommendation	We recommend that the FDOE follow established procedures and ensure that a risk assessment is appropriately and timely completed and sufficient and appropriate monitoring of subrecipients is conducted.
State Agency Response	<p>In 2016-17 all of the Title I, Part C, program staff were completely new to the program. Additionally, 2016-17 was a transition year for implementation of the Every Student Succeeds Act (ESSA), therefore the risk assessment process used was informal and relied heavily on the risk assessment conducted for the Title I, Part A, program. The standard risk assessment procedure includes both a review of pertinent data as well as a provision that the FDOE use other parameters (such as the date of the most recent onsite monitoring visit) to determine which specific monitoring strategies will be applied to selected districts. While the department did not conduct a formal needs assessment or onsite visits during 2016-17, all districts were monitored via desk-top or self-monitoring along with ongoing strategies such as reviews of applications and expenditure reports. For those districts that were not desk-top reviewed, FDOE has copies of the signed certifications indicating that the district completed the self-monitoring.</p> <p>Going forward for the 2017-18 and 2018-19 school years, FDOE will continue to evaluate and revise its monitoring procedures for the Title I, Part C, program to ensure that appropriate risk assessment and monitoring of the ESSA requirements is conducted using a variety of strategies including self-monitoring, desk-top, and onsite monitoring in addition to on-going strategies such as reviewing applications and expenditure reports.</p>

U.S. DEPARTMENT OF EDUCATION

Finding Number	2017-022
CFDA Number	84.032
Program Title	Federal Family Education Loans
Compliance Requirement	Special Tests and Provisions – Assignment of Defaulted Loans to the United States Department of Education (USED) and Correct Handling of Loans Sold to the USED
State Agency	Florida Department of Education (FDOE)
Federal Grant/Contract Number and Grant Year	N/A
Statistically Valid Sample	N/A
Finding Type	Disclaimer of Opinion and Material Weakness
Finding	<p>Federal regulations (34 CFR 682.409) require the FDOE, Office of Student Financial Assistance (OSFA), to subrogate (assign) to the USED all loans on which the USED has paid reinsurance and which meet loan assignment requirements. Additionally, the USED Secretary may direct OSFA to assign to the USED certain categories of defaulted loans held by OSFA. OSFA uses the Federal Family Education Loan Program (FFELP) System to generate the forecast reports that identify the loans meeting the mandatory assignment criteria.</p> <p>In our information technology (IT) operational audit report titled <i>Federal Family Education Loan Program System</i>, dated March 2018, we disclosed material weaknesses related to selected IT controls applicable to the FFELP System. Specifically, in Finding 3, we disclosed that the FDOE did not provide documentation demonstrating that interface processing errors related to the Subrogation-SAIG Portal interface were timely investigated and corrected. Additionally, in Finding 4, we disclosed that the FDOE did not provide sufficient documentation to demonstrate that OSFA's subrogation process complied with USED mandatory assignment criteria; subrogation transaction processing errors were timely identified, logged, and resolved; and OSFA had adequate audit and monitoring capabilities to process subrogation and override transactions. Details of the findings and recommendations are included in the IT operational audit report. As a result of the deficiencies disclosed in the findings, the FDOE could not demonstrate compliance with Federal requirements related to the assignment of defaulted loans to the USED.</p>

U.S. DEPARTMENT OF EDUCATION

Finding Number	2017-023
CFDA Number	84.032
Program Title	Federal Family Education Loans
Compliance Requirement	Special Tests and Provisions – Current Records and Federal Reinsurance Rate
State Agency	Florida Department of Education (FDOE)
Federal Grant/Contract Number and Grant Year	N/A
Statistically Valid Sample	No
Finding Type	Opinion Qualification and Material Weakness
Finding	The FDOE did not always maintain accurate loan status records.
Criteria	<p>34 CFR 682.414 - The guaranty agency shall maintain current, complete, and accurate records of each loan that it holds.</p> <p>34 CFR 682.404(a) and (b) - The Secretary of the United States Department of Education may enter into a reinsurance agreement with a guaranty agency pursuant to which the Secretary will reimburse the guaranty agency for a percentage of its losses on default claim payments. If the total of the reinsurance claims paid by the Secretary to a guaranty agency during any fiscal year reaches a certain percentage of the amount of loans in repayment at the end of the preceding fiscal year, the amount of the Secretary's reinsurance payment is to be reduced.</p>
Condition	As part of our audit, we confirmed with the applicable lenders the status of 29 loans as of September 30, 2016, to determine whether the FDOE maintained current, complete, and accurate records of each loan held. Our audit procedures disclosed that, for 8 of the 29 loans, the student's loan status recorded by the FDOE was inaccurate based on documentation provided by the lenders. Specifically, the FDOE reported 5 of the loans with a status of Forbearance and 3 with a status of Normal Repayment, while lender records showed that 5 of the loans had a status of Repayment and 3 of the loans had a status of In School Deferment.
Cause	The FDOE had not established procedures to verify a student's loan status.
Effect	Without adequate procedures to verify a student's loan status with lenders, the FDOE cannot ensure that the data used to calculate the amount of loans in repayment is accurate and the calculation of the Federal reinsurance rate could be materially affected.
Recommendation	We recommend that the FDOE implement procedures to verify a student's loan status with lenders and reconcile the lender data to FDOE records.
State Agency Response	With respect to 34 CFR 682.404, Federal reinsurance agreement, the calculation of the reinsurance rate is determined by the amount of losses on defaulted claim payments in the manner described in this citation. The population of tested loans the auditor sampled for the purposes of the audit did not contain any discrepant information on the amounts of the loans-the pertinent information upon which reinsurance agreements are calculated-nor did the auditor find any loan status in default. In fact the auditor's test samples demonstrate the accuracy of OSFA financial data relative to the necessary information for the calculation of the reinsurance rates. What the auditor conceptualizes as inaccurate information, the status of the loans, has no bearing on the manner in which the reinsurance rate is calculated in this particular case. In very narrow circumstances, a loan in a

pre-default status could impact the rate, however, such circumstances are rare, and the sampled items contained no such instances.

OSFA's system tracks the status and the reason for the loan status. There are 19 reasons for one type of the "Forbearance"/"Deferment" status, all of which are considered 'in repayment'. In all instances of the test sample, the status of the loans (Forbearance or Normal Repayment) in OSFA's system are all considered to be in repayment, which coincides with status of the loans the lenders provided the auditor that indicated that the loans were in "repayment" or "in school deferment". For the purpose of calculating the federal reinsurance rate, and for the purpose of maintaining current, complete, and accurate information, there is no meaningful discrepancy between OSFA's data and the lenders' data.

The FDOE will work with the U.S. Department of Education to determine whether any change to the FDOE's process is warranted.

Auditor's Remarks

The FDOE indicated in their response that the status of the loans has no bearing on the manner in which the reinsurance rate is calculated and that there was no meaningful discrepancy between OSFA's data and the lender's data. However, pursuant to the cited Federal regulations, if the total of the reinsurance claims paid during any fiscal year reaches a certain percentage of the amount of the loans in repayment at the end of the preceding fiscal year, then the reinsurance payment is to be reduced. Additionally, those regulations define loans in repayment to exclude loans in deferment; therefore, the discrepancy between the status of the loans in OSFA's system and as reported by the lender could materially affect the Federal reinsurance rate. Consequently, the finding and related recommendation stand as presented.

U.S. DEPARTMENT OF EDUCATION

Finding Number	2017-024
CFDA Number	84.032
Program Title	Federal Family Education Loans
Compliance Requirement	Special Tests and Provisions – Current Records
State Agency	Florida Department of Education (FDOE)
Federal Grant/Contract Number and Grant Year	N/A
Statistically Valid Sample	N/A
Finding Type	Noncompliance and Material Weakness

Finding

Pursuant to Federal regulations (34 CFR 682.414), the FDOE, Office of Student Financial Assistance (OSFA), is responsible for maintaining current, complete, and accurate records of each loan that it holds. The records must be maintained in a system that allows ready identification of each loan's current status, updated at least once every 10 business days. Additionally, OSFA must accurately and timely report detailed loan information to the United States Department of Education (USED) through the National Student Loan Data System (NSLDS), the central database for student financial assistance. OSFA must provide updated data to the NSLDS at least monthly on a schedule established by the USED.

In our information technology (IT) operational audit report titled *Federal Family Education Loan Program System*, dated March 2018, we disclosed material weaknesses related to OSFA's process for reconciling Federal Family Education Loan Program (FFELP) System and NSLDS loan data. Specifically, in Finding 3, we disclosed that OSFA management could not provide documentation to support that FFELP System interface data errors were timely investigated and corrected. Additionally, in Finding 5, we disclosed that OSFA management did not provide documentation to evidence that OSFA staff reconciled FFELP System data to NSLDS loan data or identify FFELP System reports or other output reviewed by OSFA staff. Details of the findings and recommendations are included in the IT operational audit report.

U.S. DEPARTMENT OF EDUCATION

Finding Number	2017-025
CFDA Number	84.032
Program Title	Federal Family Education Loans
Compliance Requirement	Special Tests and Provisions – Access to National Student Loan Data System (NSLDS)
State Agency	Florida Department of Education (FDOE)
Federal Grant/Contract Number and Grant Year	N/A
Statistically Valid Sample	N/A
Finding Type	Noncompliance and Material Weakness

Finding

The NSLDS contains personal and financial information related to an individual's receipt of Federal student loans authorized under Title IV of the Higher Education Act of 1965, as amended, that is confidential and protected by the Privacy Act of 1974, as amended. Each organization using the NSLDS is responsible for monitoring the use of and access to NSLDS data by all the organization's users; deactivating a user ID when the person to whom it was assigned is no longer with the organization or otherwise is no longer eligible to have access to the NSLDS; and ensuring that information in or received from the NSLDS is protected from access by or disclosure to unauthorized personnel.

In our information technology (IT) operational audit report titled *Federal Family Education Loan Program System*, dated March 2018, we disclosed material weaknesses related to selected IT controls applicable to the NSLDS. Specifically, in Finding 13, we disclosed that the FDOE, Office of Student Financial Assistance (OSFA), NSLDS access procedures did not include all relevant steps; were not sufficiently detailed; and were not routinely reviewed, updated, approved by management, or provided to OSFA supervisors. In Finding 14, we disclosed that some access privileges to the NSLDS were not timely deactivated when the access was no longer needed. In addition, some NSLDS access tokens were not timely collected and deactivated when access was no longer needed. In Finding 15, we disclosed that periodic reviews of NSLDS user access privileges and monitoring of user access activity need improvement. Details of the findings and recommendations are included in the IT operational audit report.

U.S. DEPARTMENT OF EDUCATION

Finding Number	2017-026
CFDA Number	84.032
Program Title	Federal Family Education Loans
Compliance Requirement	Reporting and Special Tests and Provisions – Current Records; Federal Reinsurance Rate; Conditions of Reinsurance Coverage; Death, Disability, Closed Schools, False Certification, Unpaid Refunds, Bankruptcy, and Teacher Loan Forgiveness Claims; Default Aversion Assistance; Collection Efforts; Federal Share of Borrower Payments; Assignment of Default Loans to the U.S. Department of Education (USED); Federal Fund and Agency Operating Fund; Investments – Federal Fund; Collection Charges; Enforcement Action; and Correct Handling of Loans Sold to USED
State Agency	Florida Department of Education (FDOE)
Federal Grant/Contract Number and Grant Year	N/A
Statistically Valid Sample	N/A
Finding Type	Significant Deficiency
Finding	<p>The FDOE, Office of Student Financial Assistance (OSFA), is responsible for providing access to and administering State and Federal grants, scholarships, and loans to students seeking financial assistance for postsecondary study. OSFA is the designated guaranty agency for the State of Florida for all Federal Family Education Loan Program (FFELP) loans with first disbursements prior to July 1, 2010, and OSFA utilizes the FFELP System, a mainframe-based student loan information system located at the Northwest Regional Data Center, to execute its responsibilities.</p> <p>In our information technology (IT) operational audit report titled <i>Federal Family Education Loan Program System</i>, dated March 2018, we disclosed significant deficiencies related to selected IT controls for the FFELP System. Specifically, in Findings 2 through 5, we disclosed significant FFELP System application control deficiencies. In Findings 6 through 11, we disclosed significant security control deficiencies related to FFELP System access control procedures and access privileges. In Finding 12, we disclosed FFELP System change management controls and related procedures needed improvement. Details of the findings and recommendations are included in the IT operational audit report.</p>

U.S. DEPARTMENT OF EDUCATION

Finding Number	2017-027
CFDA Number	84.126
Program Title	Rehabilitation Services – Vocational Rehabilitation Grants to States (VR)
Compliance Requirement	Eligibility
State Agency	Florida Department of Education (FDOE)
Federal Grant/Contract Number and Grant Year	H126A150086 2015, H126A150087 2015, H126A160086 2016, H126A160087 2016, H126A170086 2017, and H126A170087 2017
Statistically Valid Sample	No
Finding Type	Noncompliance and Significant Deficiency
Prior Year Finding	Report No. 2017-180, Finding No. 2016-023
Finding	The FDOE Division of Vocational Rehabilitation did not always ensure that eligibility determinations were completed within the time frame required by VR Program regulations or within the authorized extension.
Criteria	34 CFR 361.41(b)(1) - <i>Processing referrals and applications</i>
Condition	<p>Federal regulations specify that an eligibility determination must be made within 60 days after an individual submits an application for VR Program services. However, if exceptional and unforeseen circumstances beyond the control of the FDOE preclude making an eligibility determination within 60 days, then the individual and the FDOE can agree to a specific extension of time. FDOE staff documented the extension agreements between individuals and the FDOE within the individual's case record.</p> <p>VR Program staff utilize case management systems for determining eligibility. These systems provide staff notifications of applications that are nearing the 60-day deadline for making an eligibility determination. However, VP Program counselors and supervisors must log in to the systems or run reports to view these notifications. Our examination of 45 case records disclosed 4 instances in which the eligibility determinations were made after 60 days or after the agreed-to extension of time had elapsed. Specifically, the determinations were made 4 to 137 days (an average of 42 days) after the applicable dates.</p>
Cause	FDOE personnel indicated that the untimely eligibility determinations were due to counselor oversight. Additionally, although the FDOE had established controls to ensure the timeliness of eligibility determinations, the controls were not always effective in ensuring eligibility determinations were completed within the time frame required by VR Program regulations or within the authorized extension.
Effect	Untimely eligibility determinations delay the start of services for eligible individuals and may delay ineligible individuals from seeking other services.
Recommendation	We recommend that FDOE management enhance case management system controls to provide VR Program counselors and supervisors automatic notifications of approaching eligibility determination deadlines.
State Agency Response	<p>FDOE's Division of Vocational Rehabilitation (VR) has recognized this as an internal priority and has made progress in this area over successive audits periods. VR has already enhanced the system controls in the Rehabilitation Information Management Systems (RIMS) case management structure by changing the timing when counselors and supervisors receive the eligibility determination alert in RIMS from 50 days to 30 days based on the date of the applicant's signature.</p> <p>In addition, the Division amended its referral and application policy to reflect a separation in referral and application forms. Separation of these documents allows for more accurate timelines to determine the applicant's eligibility. The updated policy addresses application completion during the initial appointment</p>

with the counselor. The Division also updated the Field Service Operating Procedure (FSOP) related to "Casework Process 1" Eligibility Determination Extension (EDE). The procedural change outlines required steps to request and document additional eligibility determination extensions. The counselor is required to create a case note that includes the reason for the additional extension, a justification for additional time, the number of days needed (not to exceed 30) and the new eligibility determination extension due date.

A copy of the updated Referral and Application Policy and FSOP "Casework Process 1" EDE will be provided.

FINDING NUMBERS 2017-028 THROUGH 2017-030 NOT USED.

THIS PAGE INTENTIONALLY LEFT BLANK

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES

Finding Number	2017-031
CFDA Number	Various (Includes Recovery Act Funding) (See Finding)
Program Title	Various (See Finding)
Compliance Requirement	Activities Allowed or Unallowed, Allowable Costs/Cost Principles, Eligibility, Matching, Level of Effort, Earmarking, Period of Performance, Procurement and Suspension and Debarment, Reporting, and Special Tests and Provisions
State Agency	Florida Agency for State Technology (FAST)
Federal Grant/Contract Number and Grant Year	Various
Statistically Valid Sample	N/A
Finding Type	Significant Deficiency
Prior Year Finding	Report No. 2017-180, Finding No. 2016-026

Finding The State Data Center, established within the FAST, provides data center services for customer entities. In our information technology operational audit report titled *Agency for State Technology - State Data Center Operations*, dated March 2018, we disclosed significant deficiencies related to selected information technology controls. Details of the findings and recommendations are included in that report.

The State Data Center provides services for various systems managed by the Florida Department of Children and Families (FDCF), Florida Department of Economic Opportunity (FDEO), Florida Department of Revenue (FDOR), Florida Department of Transportation (FDOT), and the Florida Department of Health (FDOH). Systems at the FDCF include the Florida Online Recipient Integrated Data Access System, the GRANT System, and the Collocated Cost Journal Transfer System. Systems at the FDEO include the Cost Pool Allocation System and the CONNECT System. The system at the FDOR is the System for Unified Taxation. Systems at the FDOT include the Consultant Invoice Transmittal System, Electronic Estimate Disbursement System, Financial Management System, Materials Acceptance and Certification System, Trns*port SiteManager System, and the Contract Funds Management System. The system at the FDOH is the Florida WIC Information System and EBT Data System.

These systems are used in administering aspects of the following major Federal programs:

Programs that include Recovery Act Funding:

93.775, 93.777, and 93.778 – Medicaid Cluster

Programs that do not include Recovery Act Funding:

93.558 – Temporary Assistance for Needy Families (TANF)

17.225 – Unemployment Insurance

20.205, 20.219, 20.224, 23.003 – Highway Planning and Construction Cluster

10.557 – WIC Special Supplemental Nutrition Program for Women Infants, and Children (WIC)

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES

Finding Number 2017-032
CFDA Number 93.558
Program Title Temporary Assistance for Needy Families (TANF) Cluster
Compliance Requirement Activities Allowed and Unallowed and Allowable Costs/Cost Principles
State Agency Florida Department of Children and Families (FDCF)
Federal Grant/Contract Number and Grant Year 1601FLTANF 2016 and 1701FLTANF 2017
Statistically Valid Sample No
Finding Type Noncompliance and Significant Deficiency

Finding The FDCF did not conduct reconciliations between the data included in the accounting systems used by the FDCF and the data included in Community-Based Care (CBC) organization records to ensure the accuracy of TANF and other child welfare program data reported by the FDCF.

Criteria 2 CFR 200.302 – *Financial Management* – Each state must expend and account for the Federal award in accordance with state laws and procedures for expending and accounting for the state’s own funds. In addition, the state’s and other non-Federal entity’s financial management systems, including records documenting compliance with Federal statutes, regulations, and the terms and conditions of the Federal award, must be sufficient to permit the preparation of reports required by general and program-specific terms and conditions; and the tracing of funds to a level of expenditures adequate to establish that such funds have been used according to the Federal statutes, regulations, and the terms and conditions of the Federal award.

2 CFR 200.405 – *Allocable Costs* - A cost is allocable to a particular Federal award or other cost objective if the goods or services involved are chargeable or assignable to that Federal award or cost objective in accordance with relative benefits received.

Florida Safe Families Network (FSFN) Reconciliation Process Reference Guide – This reference guide provides FDCF managers of CBC contracts with step-by-step instructions on how to reconcile client payment information from FSFN by Other Cost Accumulator (OCA) to the CBC Monthly Actual Expenditure report.

Condition Client payment data is maintained by the FDCF in three information technology (IT) systems: the State’s accounting system, the Florida Accounting Information Resource Subsystem (FLAIR); FSFN; and the Grants and Other Revenue Allocation and Tracking System (GRANTS). These systems capture CBC expenditures, including payments made on behalf of clients, and are used to compile reports required by the Federal Government. In addition, each CBC maintained its own accounting system to report expenditure data to the FDCF for recording in the FDCF’s records.

Considering that multiple IT systems are used to capture and account for TANF and other child welfare program client payment and expenditure data, periodic reconciliations of the data in each system are necessary to reasonably ensure the accuracy and completeness of the data and to timely identify discrepancies that may require corrective actions. However, our audit procedures disclosed that the FDCF did not complete a reconciliation between FSFN, FLAIR, and GRANTS data for the period July 2016 through June 2017.

In the absence of FDCF-performed reconciliations, we compared, for the 2016-17 fiscal year, the payments made to or on behalf of CBC clients as recorded in FSFN to those recorded in FLAIR and in GRANTS. Our comparison disclosed that payment amounts recorded in FSFN were \$19,864,203 (5 percent) less than

the amounts recorded in FLAIR and \$10,907,595 (3 percent) less than the amounts recorded in GRANTS. Additionally, the amounts recorded in FLAIR exceeded the amounts recorded in GRANTS by \$8,956,608 (2 percent).

We also examined documentation related to 5 of the 133 monthly FSFN to CBC Monthly Actual Expenditure report reconciliations completed by the CBCs during the period July 2016 through January 2017 and noted that improvements were needed. Specifically, we noted that:

- 3 of the 5 reconciliations included, for 34 OCAs, unreconciled differences totaling \$11,172,553.18 between the CBCs' accounting records and the CBCs' Monthly Actual Expenditure reports.
- For 4 of the 5 reconciliations, the FDCF could not support 22 reconciling items, totaling \$663,339.44, between the CBCs' accounting records supporting the CBCs' Monthly Actual Expenditure Reports, and FSFN.
- For 2 of the 5 reconciliations, 68 reconciling items, totaling \$244,146.37, were noted for which CBC accounting records supporting the CBC Monthly Actual Expenditure Reports or client records were not adjusted to correctly reflect activity.

Cause

FDCF management indicated that, for certain items on the reconciliations, the FDCF did not require the CBCs to provide supporting documentation. In addition, FDCF management noted that there were training issues regarding the proper completion of the reconciliations by CBC staff.

Effect

Absent properly prepared and supported reconciliations of FSFN, FLAIR, GRANTS, and CBC accounting system data, the FDCF cannot adequately demonstrate that program expenditures are accurate and complete or that any discrepancies will be timely identified and corrected.

Recommendation

We recommend that FDCF management establish procedures requiring periodic reconciliations of FSFN, FLAIR, and GRANTS data. We also recommend that FDCF management enhance CBC accounting system data reconciliation procedures to ensure that payments made by the CBCs and recorded in FSFN are complete, accurate, and valid.

State Agency Response

FDCF does not concur with the statement that it did not conduct reconciliations between data included in the accounting systems used by the FDCF to ensure accuracy of TANF and other child welfare program data. FDCF has several processes in place to check for accuracy of this data and does perform a year end reconciliation between FLAIR and the CBC Monthly Actual Expenditure reports in order to support all federal earnings adjustments made to GRANTS for federal reporting at the end of the year.

FDCF has a standard FSFN-to-Monthly Actual Expenditure Report reconciliation template with instructions for CBCs to use in completing the reconciliations each month. Training has been provided to CBC staff as well as on-going technical assistance as requested or identified.

FDCF requires the contract managers for each contract to review these reconciliations each month for accuracy by noting any discrepancies identified and communicated to CBC staff for corrective action. Contract managers are also required to check to ensure that the amount of the CBC Monthly Actual Expenditure report is supported by a report from the CBC's accounting system.

Further the Office of CBC/ME Financial Accountability (OFA) performs periodic desk reviews on all CBC contracts which include review of the CBC accounting records to compare with the information on the CBC Monthly Actual Expenditure reports and review of the FSFN-to-CBC Monthly Actual Expenditure reports to check for accuracy. Any discrepancies identified are included in the desk

monitoring report and sent to contract managers to follow up with CBCs to correct. Corrective actions are then sent to OFA to document compliance.

FDCF has an automated process for importing all FLAIR expenditure data into GRANTS on a daily basis and there is a check to ensure that the FLAIR and GRANTS systems agree.

FDCF performs a year end reconciliation between FLAIR and the CBC Actual Expenditure Reports on all contracts. Because the State of Florida year end close out for FLAIR system is prior to the receipt of the final CBC Monthly Actual Expenditure reports due on August 20th, the results of the final reconciliations are provided to FDCF staff to enter manual adjustments to the GRANTS system to ensure that the correct amount of federal earnings is calculated for the federal financial reports.

FDCF has confirmed that FLAIR and GRANTS systems are reconciled for the audit period in question. FDCF will create a comprehensive written procedure that addresses all of the actions described in this response regarding all system reconciliations and documentation of such.

Auditor's Remarks

The FDCF indicated in their response that they did not concur with the statement that it did not conduct reconciliations between data included in the accounting systems used by the FDCF to ensure the accuracy of TANF and other child welfare program data. However, the FDCF did not provide documentation demonstrating that the FDCF completed a reconciliation between FSFN, FLAIR, and GRANTS data for the period July 2016 through June 2017. Subsequent to the completion of audit fieldwork, the FDCF provided in March 2018 documentation of a reconciliation between FLAIR and GRANTS data. However, the documentation was not timely provided to allow for a full review. Consequently, the finding and related recommendation stand as presented.

**U. S. DEPARTMENT OF AGRICULTURE
U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES**

Finding Number 2017-033
CFDA Number 10.557 and 93.558
Program Title **WIC Special Supplemental Nutrition Program for Women, Infants, and Children (WIC) and Temporary Assistance for Needy Families (TANF) Cluster**
Compliance Requirement Activities Allowed or Unallowed and Allowable Costs/Cost Principles
State Agency **Florida Department of Children and Families (FDCF)**
Federal Grant/Contract Number and Grant Year 5FL700820 2016, 5FL700820 2017, 1601FLTANF 2016, and 1701FLTANF 2017
Statistically Valid Sample N/A
Finding Type Noncompliance and Significant Deficiency

Finding The FDCF did not timely obtain an adequate examination by an independent auditor of the transaction processing performed by the service organization regarding the issuance, redemption, and settlement of WIC and TANF program benefits.

Criteria 2 CFR 200.303 – *Internal Controls* – The non-Federal entity must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

7 CFR 274.1(i) – *State monitoring, examinations, and audits*

Condition The FDCF contracts with a service organization to provide electronic benefits transfer services to issue WIC and TANF program benefits to eligible recipients. During the 2016-17 fiscal year, the service organization distributed WIC and TANF benefit payments totaling \$377,414,585 and \$144,444,361, respectively.

For the 2016-17 fiscal year, the service organization obtained and submitted to the FDCF the following independent service auditor’s reports:

Report	Period Covered	Report Date
Card Personalization and Issuance	1/1/2016 – 9/30/2016	12/19/2016
Card Personalization and Issuance	1/1/2017 – 9/30/2017	12/7/2017
Government Payments	10/1/2015 – 9/30/2016	11/14/2016
Government Payments	10/1/2016 – 9/30/2017	11/10/2017
Technology Centers General Computing Controls	1/1/2016 – 9/30/2016	11/2/2016
Technology Centers General Computing Controls	1/1/2017 – 9/30/2017	10/20/2017

Our review of the independent service auditor’s reports disclosed that the Card Personalization and Issuance and Technology Centers General Computing Controls reports did not cover the period October through December 2016. Additionally, one of the primary purposes of the service auditor’s reports is to allow the FDCF and their auditors to appropriately design and plan expenditure testing based on the results of the reports. However, since the timing of the service auditor’s reports is such that they are not issued until approximately 5 months after the end of the State’s fiscal year, their usefulness for this purpose is limited.

Cause According to FDCF management, they were not aware that there could not be a gap between audit periods.

Effect	Absent a timely and complete independent examination of the effectiveness of the service organization's benefit issuance, processing, and settlement controls, the FDCF has limited assurance that benefits are paid in accordance with applicable Federal requirements.
Recommendation	We recommend that the FDCF take appropriate actions to ensure that independent examinations of the issuance, redemption, and settlement of WIC and TANF program benefits are completed annually, cover the entire period since the previous examination, and the timing of the reports be revised to improve the usefulness of the audit reports to both the FDCF and their auditors.
State Agency Response	<p>FDCF concurs with the audit finding in regards to the two independent audit reports that did not cover an entire period since the previous examination and has addressed the recommendations in the Management's Corrective Action Plan.</p> <p>In regards to the annual completion of the independent reports, FDCF does ensure that they are completed annually, as evidenced by the schedule of reports noted above.</p> <p>In regards to revising the timing of the independent reports, the guidance in the "Examination of EBT Service Organizations" section of the Compliance Supplement (formerly OMB Circular A-133) provides that, "...States are required to ensure that the service organization has these examinations performed at least annually, that the examinations cover the entire period since the previous examination period, and that the examination reports are submitted to the State within 90 days after the end of the examination period." Since the federal guidance does not provide any direction as to whether the examination period should be completed on the federal or state fiscal year, FDCF contends the independent audit reports are completed within the prescribed federal guidance. Furthermore, the current timing of the reports does not impair FDCF's ability to effect improvements, if necessary.</p>
Auditor's Remarks	The FDCF indicated in their response that the current timing of the reports does not impair the FDCF's ability to effect improvements. However, the point of our finding is that the current timing of the service auditor's reports does not allow the FDCF and their auditors to appropriately design and plan expenditure testing based on the results of the reports. Consequently, the finding and related recommendation stand as presented.

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES

Finding Number	2017-034
CFDA Number	Various (Includes Recovery Act Funding) (See Finding)
Program Title	Various (See Finding)
Compliance Requirement	Activities Allowed or Unallowed, Allowable Costs/Cost Principles, and Eligibility
State Agency	Florida Department of Children and Families (FDCF)
Federal Grant/Contract Number and Grant Year	1601FLTANF 2016, 1701FLTANF 2017, 05-1605FL5MAP 2016, and 1705FL5MAP 2017
Statistically Valid Sample	N/A
Finding Type	Significant Deficiency
Prior Year Finding	Report No. 2017-180, Finding No. 2016-025

Finding

The Florida Online Recipient Integrated Data Access (FLORIDA) System is a Statewide system operated and maintained by the FDCF to assist in public assistance program eligibility determination and benefit issuance. In our information technology operational audit report No. 2017-009, dated August 2016, we disclosed in Findings 2 through 4 deficiencies related to FLORIDA System security controls that we consider collectively to be a significant deficiency. Details of the findings and recommendations are included in that report. During the 2016-17 fiscal year, the FDCF made no significant changes to the FLORIDA System to correct the noted deficiencies.

The FLORIDA System is used in administering the following major Federal programs:

93.558 and 93.714 – Temporary Assistance for Needy Families (TANF) Cluster
93.775, 93.777, and 93.778 – Medicaid Cluster (Program Included Recovery Act Funding)

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES

Finding Number	2017-035
CFDA Number	93.558
Program Title	Temporary Assistance for Needy Families (TANF) Cluster
Compliance Requirement	Special Tests and Provisions – Income Eligibility and Verification System
State Agency	Florida Department of Children and Families (FDCF)
Federal Grant/Contract Number and Grant Year	1601FLTANF 2016 and 1701FLTANF 2017
Statistically Valid Sample	No
Finding Type	Disclaimer of Opinion and Material Weakness
Prior Year Finding	Report No. 2017-180, Finding No. 2016-034
Finding	The FDCF did not retain all Income Eligibility and Verification System (IEVS) data exchange responses and, consequently, could not demonstrate compliance with Federal IEVS data exchange requirements. In addition, the FDCF did not always timely process IEVS data exchange responses.
Criteria	45 CFR 205.56 – <i>Requirements governing the use of income and eligibility information</i> Program Policy Manual Section 3020.0102 <i>Data Exchange Processing Time Standards</i>
Condition	<p>During the 2016-17 fiscal year, the FDCF made TANF cash benefit payments totaling \$144,444,361. The FDCF uses the Florida Online Recipient Integrated Data Access (FLORIDA) System to assist in public assistance program eligibility determinations and benefit issuance. Effective September 26, 2016, the FDCF implemented a change to the FLORIDA System to purge all unreviewed or unworked IEVS data exchanges that had been outstanding for 181 days or more. This change continued to purge unprocessed data exchanges monthly until January 9, 2017, when the FDCF paused the purges. In response to our audit request, the FDCF was unable to provide documentation detailing how many IEVS data exchange responses were purged.</p> <p>Notwithstanding the FDCF not retaining all IEVS data exchange responses received, we examined FDCF eligibility records for 27 clients (cases) for which IEVS data exchange responses were processed. The FDCF established a 10-day time frame for processing data exchange responses considered verified upon receipt. In addition, in accordance with Federal regulations, the FDCF established a 45-day time frame for processing all other data exchange responses. Our examination disclosed 8 instances related to 7 cases where the FDCF did not process the IEVS data exchange responses within the established time frames. Specifically, we noted 5 instances where the data exchanges were required to be processed within 45 days, but were processed 1 to 337 days late. Additionally, we noted 3 instances where the data exchanges were required to be processed within 10 days, but were processed 16 to 135 days late.</p>
Cause	Completion of IEVS data exchanges is a manual process requiring employee action. Due to employee errors, some actions were not timely performed.
Effect	Failure to retain all documentation that could affect client eligibility impairs the FDCF's ability to demonstrate compliance with Federal IEVS data exchange requirements and may result in benefit overpayments which may be subject to disallowance by the grantor agency. Additionally, failure to timely review data exchange information may preclude the FDCF from promptly identifying changes in client eligibility status.

Recommendation

We recommend that the FDCF retain all IEVS data exchange responses necessary to demonstrate compliance with applicable Federal requirements. In addition, we recommend that the FDCF take appropriate actions to process data exchange responses within established time frames, including enhancing employee training in timely processing IEVS data exchanges.

State Agency Response

Regarding the eight instances in which the IEVS Data Exchanges (DEs) were not processed timely, FDCF concurs. As of January 9, 2017, FDCF ceased the purging of all unreviewed/unworked data exchanges (DEs) and has no plans to reinstitute the purge. The FDCF will explore the following options:

- The creation of a tolerance for the timely completion of DEs.
- An allowance to forgo the review of certain IEVS DEs.

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES

Finding Number	2017-036
CFDA Number	93.558
Program Title	Temporary Assistance for Needy Families (TANF) Cluster
Compliance Requirement	Special Tests and Provisions – Child Support Non-Cooperation
State Agency	Florida Department of Children and Families (FDCF)
Federal Grant/Contract Number and Grant Year	1601FLTANF 2016 and 1701FLTANF 2017
Statistically Valid Sample	No
Finding Type	Questioned Costs – \$158 (Federal Share - \$22.12)
Prior Year Finding	Report No. 2017-180, Finding No. 2016-033
Finding	The FDCF could not always demonstrate that Florida Department of Revenue (FDOR) Child Support Enforcement (CSE) sanction requests for uncooperative TANF recipients were appropriately imposed.
Criteria	<p>42 USC 608(a)(2) - <i>Reduction or elimination of assistance for noncooperation in establishing paternity or obtaining child support</i></p> <p>45 CFR 264.30 - <i>What procedures exist to ensure cooperation with the child support enforcement requirements?</i></p> <p>Section 414.095(6), Florida Statutes, <i>Child Support Enforcement</i> – As a condition of eligibility for public assistance, the family must cooperate with the State agency responsible for administering the child support enforcement program.</p>
Condition	<p>Under State and Federal law, the State CSE Program must take action to locate noncustodial parents, establish paternity, and secure child support, medical support, and other benefits for children receiving public assistance. Applicants for and recipients of TANF must cooperate with the State CSE Program as a condition of eligibility, unless it is determined that good cause for noncooperation exists. Noncooperation without cause is to result in sanctions involving the loss of TANF eligibility.</p> <p>During the 2016-17 fiscal year, the FDCF made TANF cash assistance payments totaling \$144,444,361. Also, during the 2016-17 fiscal year, the FDOR referred 16,108 sanction requests to the FDCF to impose sanctions for uncooperative TANF participants. Our examination of FDOR sanction requests and FDCF records for 40 TANF participants disclosed that the FDCF did not impose a sanction for 1 of 18 cases for which a sanction request was received, resulting in a \$158 potential overpayment.</p>
Cause	The individual against which the sanction was requested did not have a social security number. According to FDCF management, the FDCF's Florida Online Recipient Integrated Data Access (FLORIDA) System was not programmed to accept requests for sanctions without a social security number.
Effect	A TANF participant continued to receive cash assistance although they were not eligible.
Recommendation	We recommend that the FDCF ensure that all sanction requests are processed and benefits promptly discontinued, if necessary.
State Agency Response	The FDCF concurs with the audit finding and has addressed the recommendations in the Management's Corrective Action Plan.

FINDING NUMBER 2017-037 NOT USED.

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES

Finding Number 2017-038
CFDA Number 93.563
Program Title Child Support Enforcement
Compliance Requirement Reporting
State Agency Florida Department of Revenue (FDOR)
Federal Grant/Contract Number and Grant Year 1604FLCSES 2016, 1704FLCSES 2017, 1704FLCEST 2017
Statistically Valid Sample N/A
Finding Type Significant Deficiency
Prior Year Finding Report No. 2017-180, Finding No. 2016-035

Finding Internal controls for the State Disbursement Unit (SDU) Processing System (SMART System) need improvement.

Criteria 2 CFR 200.303 – *Internal Controls* – The non-Federal entity must establish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award.

Condition The FDOR contracted with a service organization to operate and maintain the SMART System for processing child support obligation collections and disbursements. During the 2016-17 fiscal year, the SDU collected \$1,927,740,142 and disbursed \$1,470,673,489 in child support obligations. Child support collections and disbursements are reported in the U.S. Department of Health and Human Services (USDHHS), Office of Child Support Enforcement (OCSE), 34 *Child Support Enforcement Program Quarterly Collection Report* submitted to the USDHHS, Administration for Children and Families. The information reported is utilized to award funds, determine the accuracy of reported collections, and provide reports to Congress.

The service organization obtained an independent service auditor's report for the period October 1, 2016, through March 31, 2017, in which the service organization's auditors qualified their opinion related to controls in place to provide reasonable assurance that disbursement bank account balances were complete and accurate. Specifically, the following control exceptions were noted in the report:

Control	Exception
Separate environments are used for development, system testing, user acceptance testing, and production.	Upon review of administrative logical access permissions to the production environment, it was noted that software engineers had administrative access to production servers that conflicted with their functional job responsibilities.
Bank reconciliations are prepared and reviewed daily for depository accounts.	For one of five samples, the prepared depository bank account reconciliation was not reviewed.
Bank reconciliations are prepared and reviewed daily for disbursement accounts.	Disbursement bank reconciliations were not reviewed and contained an unreconciled variance due to the exclusion of the cumulative balance of outstanding checks for the period November 2016 through February 2017.

Cause	The service organization had not effectively established certain information technology controls and controls for reconciling depository and disbursement accounts related to the SDU's processing of child support obligation collections and disbursements.
Effect	Absent appropriate controls for program access and child support obligation collection and disbursement bank reconciliations, the FDOR has reduced assurance that the child support obligation collection and disbursement information used to compile the Federally required OCSE 34 report is accurate and complete.
Recommendation	We recommend that the FDOR ensure that the service organization takes timely and appropriate corrective action to resolve the deficiencies noted in the independent service auditor's report.
State Agency Response	FDOR Child Support Program concurs.

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES

Finding Number 2017-039
CFDA Number 93.775, 93.777, and 93.778 (Includes Recovery Act Funding)
Program Title Medicaid Cluster
Compliance Requirement Allowable Costs/Cost Principles
State Agency Florida Agency for Health Care Administration (FAHCA)
Federal Grant/Contract Number and Grant Year 05-1605FL5MAP 2016 and 1705FL5MAP 2017
Statistically Valid Sample N/A
Finding Type Significant Deficiency
Prior Year Finding Report No. 2017-180, Finding No. 2016-041

Finding The FAHCA did not adequately ensure that the service organization's internal controls related to the invoicing, collecting, and reporting of drug rebates were appropriately designed and operating effectively.

Criteria 42 USC 1396r-8 - *Payment for covered outpatient drugs*

Condition The FAHCA contracted with a service organization to invoice and collect rebates from, and resolve related disputes with, pharmaceutical manufacturers, and to provide required utilization data to the Centers for Medicare and Medicaid Services (CMS).

The service organization utilized an automated system to perform their contractual responsibilities. The contract, effective February 1, 2014, specifies that the FAHCA may conduct, or have conducted, performance reviews, compliance reviews, or both, on the service organization's procedures, computer systems, and accounting records.

Each quarter, the FAHCA provided the service organization, from the Florida Medicaid Management Information System, pharmacy and medical claims data for drug costs paid during the quarter. The claims data included both Medicaid fee-for-service and Medicaid managed care claims. The service organization merged the claims data with rebate rates provided by the CMS and the State's Supplemental/Preferred Drug List vendor to calculate the amount of drug rebates to be invoiced to pharmaceutical manufacturers. Rebate collections for the 2016-17 fiscal year totaled approximately \$1.7 billion and approximately 2.7 million prescriptions were associated with the invoiced rebates per month.

While the FAHCA tracked and reviewed contractually required reports and scorecards prepared by the service organization that indicated compliance with contractual agreements, the FAHCA did not adequately evaluate the design and operating effectiveness of the service organization's internal controls, either internally or by obtaining and reviewing an independent service auditor's report that adequately described the service organization's internal controls and the auditor's opinion on the effectiveness of the internal controls related to the invoicing, collecting and reporting of drug rebates.

Cause The FAHCA contract with the service organization did not require the organization to obtain an independent service auditor's report, prepared in accordance with applicable attestation standards established by the American Institute of Certified Public Accountants, that provided the auditor's opinion on the operating effectiveness of the service organization's controls in the invoicing, collecting, and reporting of drug rebates. Additionally, FAHCA procedures did not provide for a review of the service organization's internal controls.

Effect Absent an independent review of the service organization's internal controls for the invoicing, collecting, and reporting of drug rebates, the FAHCA has reduced assurance that drug rebate invoices are accurate.

Recommendation

We recommend that the FAHCA ensure that service organization internal controls related to the invoicing, collecting, and reporting of drug rebates are appropriately designed and operating effectively.

State Agency Response

The contract between FAHCA and the service organization has been amended. The amendment requires the service organization to obtain an SSAE-18 Audit Report in fiscal year 2018-19. The SSAE-18 Audit Report would ensure that the service organization's internal controls related to the invoicing, collecting, and reporting of drug rebates are appropriately designed and operating effectively.

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES

Finding Number	2017-040
CFDA Number	93.775, 93.777, and 93.778 (Includes Recovery Act Funding)
Program Title	Medicaid Cluster
Compliance Requirement	Eligibility
State Agency	Florida Department of Children and Families (FDCF)
Federal Grant/Contract Number and Grant Year	05-1605FL5MAP 2016 and 1705FL5MAP 2017
Statistically Valid Sample	No
Finding Type	Noncompliance and Significant Deficiency Questioned Costs – \$18,040.35 (CFDA No. 93.778 – Federal Share \$10,995.09; Federal Grant Nos. 05-1605FL5MAP \$3,887.90 and 1705FL5MAP \$7,107.19)
Finding	The FDCF did not always document that Medicaid recipients met eligibility requirements.
Criteria	42 CFR 435.907 - <i>Application</i> ACCESS Florida Program Policy Manual – Chapter 0600, <i>Application Processing</i> – Individuals may apply for public assistance in person, by phone, mail, or by Web-based or facsimile application. ACCESS Florida Program Policy Manual – Chapter 0800, <i>Ongoing Case Processing</i> – An eligibility review reestablishes eligibility on all factors, resolves discrepancies and ensures correct benefits. An eligibility review for Medicaid is defined as an application, or any time all applicable items addressed in the interim contact letter are evaluated. ACCESS Florida Program Policy – Manual Chapter 1400, <i>Technical Requirements</i> – Individuals must assign to the State their right to any third-party payment for medical care.
Condition	During the 2016-17 fiscal year, the Florida Agency for Health Care Administration made payments for Medicaid services totaling approximately \$22.4 billion (\$15.9 billion in managed care capitation payments and \$6.5 billion in fee-for-service (FFS) claim payments) on behalf of approximately four million Medicaid clients. The FDCF determined Medicaid client eligibility for the clients receiving services. We examined FDCF documentation for 60 clients (37 managed care and 23 FFS) who received Medicaid services during the 2016-17 fiscal year. Our examination disclosed that, for 5 of the 60 (8 percent) clients, the FDCF could not provide documentation evidencing that the client met the eligibility requirements for the Medicaid Program. Specifically, we noted that: <ul style="list-style-type: none">• The FDCF could not provide documentation to support the continuation of benefits for 4 clients beyond the eligibility period.• The FDCF did not capture in the State’s public assistance eligibility system 1 client’s disclosure of having other insurance.
Cause	FDCF management indicated that, due to employee errors, some actions were not appropriately completed to support Medicaid eligibility.
Effect	Absent appropriate documentation, the FDCF cannot demonstrate that clients were eligible to receive Medicaid services.
Recommendation	We recommend that FDCF management take actions to ensure that Medicaid eligibility determinations are appropriately documented.

State Agency Response

The Department concurs with the audit finding and has addressed the recommendations in the Management's Corrective Action Plan.

The Department will work with staff on the importance of accurately reflecting third party coverage and supporting information in the FLORIDA record.

In an effort to minimize, to the degree possible, the number of individuals receiving Medicaid beyond their initial eligibility period, in June 2017 the Department implemented the Auto Action Changes process. This process identifies Assistance Group (AGs) with an eligible member who has passed away, aged out or failed to complete the annual eligibility renewal process and automatically closes or ex partes the individual's eligibility. It is anticipated that by utilizing these automated case actions the program will significantly reduce the potential for individuals to receive benefits past their established eligibility period.

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES

Prior Year Finding	Report No. 2017-180, Finding No. 2016-042
Finding	The FAHCA made payments to ineligible Medicaid Program providers.
Criteria	42 CFR 431.107, <i>Required provider agreement</i> Section 409.907, Florida Statutes, <i>Medicaid provider agreements</i> – The FAHCA may only make payments for medical assistance and related services rendered to Medicaid recipients to individuals or entities with a provider agreement in effect. <i>Florida Medicaid Provider General Handbook</i> – Each Medicaid provider applicant, in-state and out-of-state, must sign a Medicaid Provider Agreement that affirms that the applicant will comply with all laws and rules governing the delivery and reimbursement of services or goods to Medicaid recipients.
Condition	We examined FAHCA records for 60 providers (53 in-state and 7 out-of-state) enrolled in the Medicaid Program who received payments during the 2016-17 fiscal year to determine whether the providers met Program eligibility requirements. Our examination disclosed that: <ul style="list-style-type: none">• FAHCA records did not include a Medicaid Provider Agreement for 3 out-of-state providers.• The Medicaid Provider Agreement for 3 out-of-state providers and 1 in-state provider expired prior to the 2016-17 fiscal year. The Medicaid Provider Agreement end dates ranged from June 25, 2012, to March 31, 2015. Our review of the payments made to the 7 providers during the 2016-17 fiscal year disclosed that the FAHCA and related managed care organizations paid the providers \$517,260.41 in Federal funds.
Cause	FAHCA management indicated that the FAHCA does not enroll out-of-state providers and the FAHCA has not required out-of-state providers to automatically renew their Medicaid Provider Agreement. FAHCA management also indicated that an incorrect Medicaid Provider Agreement end date was entered in the Florida Medicaid Management Information System (FMMIS) for the in-state provider, causing FMMIS to not trigger the provider for renewal.
Effect	Absent current Medicaid Provider Agreements, the FAHCA cannot demonstrate that Medicaid Program payments are made only to eligible providers in accordance with Federal regulations and State law.
Recommendation	We recommend that the FAHCA take actions to ensure that Medicaid payments are made only to providers with Medicaid Provider Agreements in effect.
State Agency Response	The requirement for an out-of-state provider to have an active Medicaid provider agreement is being addressed as part of the Referring, Ordering, Prescribing and Attending (ROPA) Provider project and the 21st Century Cures Act project.

These projects will address the needed changes to the Florida Medicaid Management Information System (FMMIS), Decision Support System (DSS), and Pharmacy Benefit Manager (PBM).

Both ROPA and Cures should be implemented by the end of 2018.

In addition, the Agency implemented a monthly system-generated report in January of 2018 identifying active providers without a current Medicaid provider agreement. The Agency has completed quality analysis of the report data and will initiate the renewal process for the providers identified in the report. The providers will receive notices of renewal in March of 2018 and will have 90 days to comply or be terminated. The Agency will send reminder notices 60 days prior to the deadline and final notices 30 days prior to the deadline.

FINDING NUMBER 2017-042 NOT USED.

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES

Finding Number	2017-043
CFDA Number	93.775, 93.777, and 93.778 (Includes Recovery Act Funding)
Program Title	Medicaid Cluster
Compliance Requirement	Special Tests and Provisions – Utilization Control and Program Integrity
State Agency	Florida Agency for Persons with Disabilities (FAPD)
Federal Grant/Contract Number and Grant Year	05-1605FL5MAP 2016 and 1705FL5MAP 2017
Statistically Valid Sample	No
Finding Type	Noncompliance and Significant Deficiency
Prior Year Finding	Report No. 2017-180, Finding No. 2016-043
Finding	The FAPD did not always ensure that continued stay reviews were conducted every 6 months for beneficiaries of Intermediate Care Facility Services for Individuals with Intellectual Disabilities (ICF-IIDs).
Criteria	42 CFR 456.431 – <i>Continued stay review required</i>
Condition	<p>During the 2016-17 fiscal year, Medicaid payments for ICF services totaled \$296,830,879 and related to 2,585 ICF-IID beneficiaries. Federal regulations specify that a continued stay review must be completed every 6 months to document whether the beneficiary's continued stay in the ICF-IID facility is needed. The FAPD is responsible for conducting continued stay reviews for all residents of public and private ICF-IID facilities and ensuring that resident utilization review plans provide for a review of each beneficiary's continued stay in the ICF at least every 6 months.</p> <p>We examined FAPD continued stay review records related to 40 ICF beneficiaries to determine whether the reviews were timely completed. We noted that for 5 beneficiaries the continued stay review was not completed every 6 months. The reviews were completed 3 to 62 days (an average of 32 days) after the required review dates.</p>
Cause	FAPD management indicated that the continued stay reviews had not been timely performed due to inadequate oversight and supervision of the continued stay review process, lack of consistent tracking of the continued stay review process, and insufficient nursing personnel.
Effect	Timely continued stay reviews are necessary to demonstrate that ICF-IID beneficiaries have a continuing need for ICF services.
Recommendation	We recommend that the FAPD enhance oversight controls for continued stay reviews to ensure that reviews of ICF-IID beneficiaries are timely conducted in accordance with Federal regulations.
State Agency Response	Agency concurs.

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES

Finding Number	2017-044
CFDA Number	93.775, 93.777, and 93.778 (Includes Recovery Act Funding)
Program Title	Medicaid Cluster
Compliance Requirement	Special Tests and Provisions – Utilization Control and Program Integrity
State Agency	Florida Agency for Health Care Administration (FAHCA)
Federal Grant/Contract Number and Grant Year	05-1605FL5MAP 2016 and 1705FL5MAP 2017
Statistically Valid Sample	N/A
Finding Type	Significant Deficiency
Prior Year Finding	Report No. 2017-180, Finding No. 2016-045

Finding

The Fraud and Abuse Case Tracking System (FACTS) allows staff from the FAHCA Office of Medicaid Program Integrity to track and manage audits and investigations of providers suspected of overbilling or defrauding the Medicaid Program from the time the complaint is recorded in FACTS to the time the related case is closed. In our information technology operational audit report No. 2017-093, dated January 2017, we disclosed significant deficiencies related to selected information technology controls for FACTS that continued to be significant deficiencies during the 2016-17 fiscal year. Specifically, in Findings 3 through 7, we disclosed significant security control deficiencies related to access control procedures and access privileges. In Finding 8, we disclosed significant deficiencies related to configuration management controls. Additionally, in Finding 9, we disclosed significant deficiencies related to user authentication, logging, and access controls. Details of the findings and recommendations are included in that report. During the 2016-17 fiscal year, FAHCA made no significant changes to FACTS to correct the noted deficiencies.

U.S. DEPARTMENT OF HOMELAND SECURITY

Finding Number	2017-045
CFDA Number	97.042 and 97.067
Program Title	Emergency Management Performance Grants (EMPG) and Homeland Security Grant Program (HSGP)
Compliance Requirement	Allowable Costs/Cost Principles
State Agency	Florida Division of Emergency Management (FDEM)
Federal Grant/Contract Number and Grant Year	EMA-2016-EP-00006-S01 and EMW-2016-SS-00092-S01 2016
Statistically Valid Sample	No
Finding Type	Questioned Costs – \$5,926.94 (CFDA No. 97.042) and \$10,176.35 (CFDA No. 97.067)
Prior Year Finding	Report No. 2017-180, Finding No. 2016-049
Finding	FDEM records did not adequately support the salary and benefit costs for certain employees paid from EMPG and HSGP funds.
Criteria	2 CFR 200.430(i) - <i>Standards for Documentation of Personnel Expenses</i>
Condition	Federal regulations require the FDEM to establish a system of internal control that provides reasonable assurance that all program-related salaries and benefits are accurate, allowable, and properly allocated to the Federal program. During the 2016-17 fiscal year, the FDEM expended EMPG program funds totaling \$17,142,579, of which \$2,903,094 represented FDEM salary and benefits costs, and HSGP funds totaling \$15,936,951, of which \$621,226 represented FDEM salary and benefits costs. Our examination of FDEM records disclosed that, for 3 of 5 employees selected for testing, the FDEM did not maintain records accurately documenting the work performed by the employees. The FDEM paid salaries and benefits totaling \$16,103.29 from EMPG and HSGP funds for the pay periods selected for testing.
Cause	Due to reorganization within the FDEM and staff turnover, some employees were not instructed on how to properly report time worked.
Effect	Absent appropriate records to support that salary and benefit charges are accurate, allowable, and properly allocated, charges to the EMPG program and HSGP could be subject to disallowance by the U.S. Department of Homeland Security.
Recommendation	We recommend that the FDEM enhance controls to ensure that salary and benefit costs charged to the EMPG program and HSGP are appropriately supported as required by applicable Federal regulations. Such control enhancements should include providing appropriate guidance to employees on recording time worked.
State Agency Response	FDEM Grants unit has put in controls to adequately account for salaries and benefits associated with grant expenditures. Unit members and supervisors have been reminded to check monthly timesheets to ensure correct codes and hours are recorded so that we remain compliant with 2CFR guidance.

THIS PAGE INTENTIONALLY LEFT BLANK

U.S. DEPARTMENT OF EDUCATION

Finding Number	2017-046
CFDA Number	84.063 and 84.268
Program Title	Student Financial Assistance Cluster Federal Pell Grant Program (Pell Grant) Federal Direct Student Loans (Direct Loan)
Compliance Requirement	Special Tests and Provisions – Disbursements – Prohibition on Escheating of Title IV Higher Education Act (HEA) Funds
State Educational Entity	Florida Atlantic University (FAU) Florida Gulf Coast University (FGCU) Florida International University (FIU) University of Central Florida (UCF) Daytona State College (DSC) Florida Keys Community College (FKCC) Florida State College at Jacksonville (FSCJ) Gulf Coast State College (GCSC) Hillsborough Community College (HCC) Miami Dade College (MDC) North Florida Community College (NFCC) Palm Beach State College (PBSC) Pasco-Hernando State College (PHSC) Pensacola State College (PSC) St. Johns River State College (SJRSC) State College of Florida (SCF) Seminole State College (SSC) South Florida State College (SFSC) Valencia College (VC)
Statistically Valid Sample	No
Finding Type	Noncompliance and Significant Deficiency Questioned Costs – \$87,031 (\$51,144 CFDA No. 84.063, \$35,887 CFDA No. 84.268)
Finding	Florida public universities and colleges did not always timely return unclaimed Title IV HEA funds to applicable Federal programs.
Criteria	34 CFR 668.164(l), Subpart K, <i>Cash Management, Disbursing Funds</i> Federal regulations require institutions to return unclaimed Title IV HEA funds no later than 240 days after checks containing such funds are written and prohibit institutions from allowing Title IV HEA funds to revert (or “escheat”) to the State. According to the <i>Federal Student Aid Handbook</i> , after the 240 days, the institution must cease all attempts to disburse the funds and, as such, unclaimed funds are to be returned to the respective programs (USED).
Condition	From the population of 7,644 checks or electronic funds transfers (EFTs) outstanding at the time of our audit fieldwork, we selected for examination the institution records for 584 outstanding student checks and EFTs containing Title IV HEA funds to determine whether the institutions timely returned unclaimed Title IV HEA funds to applicable Federal programs. As summarized in the following table, we noted instances at 4 public universities and 15 public colleges in which the institutions did not timely return unclaimed Title IV HEA funds to the respective Title IV HEA program.

**University and College
Escheating of Title IV HEA Funds – Audit Exceptions
2016-17 Fiscal Year**

Institutions	Number of Checks and EFTs Selected	Late Returned Checks and EFTs (1)	Questioned Costs (2)	Questioned Costs Returned (3)
Universities:				
FAU	25	3	\$ 9,398	\$ 5,174

VC	38	38	35,400	32,405
Totals	<u>378</u>	<u>144</u>	<u>\$87,031</u>	<u>\$74,264</u>

Notes: (1) The institutions did not return the unclaimed checks and rejected EFTs until after the 240 days allowed. The number of days late averaged 85 days and ranged from 2 to 251 days. For example:

- UCF disbursed Title IV HEA funds totaling \$21,382 to 25 students during the Fall 2016 and Spring 2017 Terms, which went unclaimed and were not returned to the applicable programs until 243 to 343 days later, or 3 to 103 days late. UCF returned these funds prior to audit inquiry.
- VC disbursed Title IV HEA funds totaling \$35,400 to 38 students during the Summer 2016 and Fall 2016 Terms, which went unclaimed and were not returned to the applicable programs. After audit inquiry, VC returned \$32,405 to the applicable programs 73 to 234 days late.

(2) Questioned costs are those checks and EFTs outstanding more than 240 days that were not returned to the applicable programs until after audit inquiry, were reissued to the student or parent after the 240 days allowed, or had not been returned to the programs at the conclusion of our audit fieldwork. For example:

- FAU disbursed Title IV HEA funds totaling \$9,398 to 3 students during the Spring 2016 and Fall 2016 Terms. Two of the checks went unclaimed and, subsequent to our audit inquiry, were returned to the applicable program in August 2017 after the 240 days allowed. One of the 3 checks was canceled and, rather than returning the money to the applicable program, FAU reissued the check to the student in December 2016 after the 240 days allowed.
- SCF disbursed Title IV funds totaling \$2,565 to 3 students during calendar year 2015. The 3 checks went unclaimed and the funds were reverted to

the State of Florida on April 28, 2017, instead of being returned to the applicable programs.

- (3) Subsequent to audit inquiry, questioned costs totaling \$74,264 were returned to the USED. However, the remaining \$12,767 had not been returned by FAU, HCC, NFCC, SJRSC, SCF, and VC.

Cause	Most institutions have a process to make an additional attempt to disburse Title IV HEA funds directly to a student or parent if the student or parent did not receive the initial disbursement of funds. However, these institutions did not always have a process to timely identify and return unclaimed Title IV HEA funds to the applicable programs no later than 240 days after checks containing such funds are written or EFTs are disbursed.
Effect	Without the timely return of unclaimed Title IV HEA funds, there is an increased risk that the funds may be used for unauthorized purposes.
Recommendation	Institutions should enhance procedures to ensure the timely return of unclaimed checks and rejected EFTs containing Title IV HEA funds to the applicable Federal programs no later than 240 days after the date the check was written or EFT was disbursed. In addition, the institutions should provide documentation to the USED supporting the allowability of the questioned costs, totaling \$12,767, or restore the moneys to the respective Title IV HEA program.
FAU Response	The University was in communication with the student who was reissued subsequent Title IV refund checks greater than 240 days from the initial refund date. The student ultimately cashed the third check on December 7, 2016 and claimed his funds. The University believes that returning these funds at this point in time would be at a disservice to the student who received funding that he was eligible for. The University has implemented an aging schedule and updated procedures that will allow the University to proactively review and contact students with aging Title IV refund checks. This will ensure Title IV refund checks are cashed within the 240-day timeframe or they will be returned to the Federal Government.
FGCU Response	Florida Gulf Coast University has implemented enhanced procedures for handling unclaimed checks containing Title IV HEA funds. Monthly reviews are conducted to identify and track unclaimed checks starting at 60 days after the check is issued. Routine and systematic attempts to notify a student or parent of an unclaimed check are made via letter, email, and phone, from one contact point. Should the check remain uncashed, sufficient time is allocated to process the return of the funds to the applicable program, and additional attempts to contact the student are ceased. These procedures provide for the return of all unclaimed checks containing Title IV HEA funds within the allowed time frame.
FIU Response	FIU agrees that one escheated refund check was cancelled and returned beyond the 240 day limit. This was a result of a change in the A/P refunding process. The process was updated in August 2017.
UCF Response	We concur with the auditor findings and have taken corrective action to enhance internal procedures in order to ensure the timely return of unclaimed checks. As stated in above Notes (1): UCF returned these funds prior to audit inquiry.

DSC Response

Daytona State College concurs with the findings. As a result, and in order to take corrective action, the Office of Student Accounts (SA) has developed a monitoring tool and implemented a weekly business process with timelines to review unclaimed Title IV funds. The process delineated initiates the proper internal controls to alleviate the reoccurrence of this finding.

1. Unclaimed Title IV checks are sent back to the College by Bank Mobile.
2. SA implements the Student Communication process; an initial letter of correspondence sent to students notifying them that they have refunds waiting in their Bank Mobile Account. The correspondence will also inform students that they must choose a refund preference to access these funds.
3. SA will maintain an excel spreadsheet of all unclaimed Title IV funds with timelines.
4. DSC's Bank Mobile account monitored weekly determines those students who have chosen a preference to receive their refunds and students who have successfully selected a preference will receive disbursements through the normal refund processes.
5. Forty-five (45) days from 240th day, SA will initiate letter #2 to students who have not selected a preference and they will be notified that they have two weeks to claim their funds or they will be returned as Unclaimed Property to the State and Federal Government.
6. At the end of the two-week period, all students who have not promptly responded as outlined above will be forwarded to the Office of Financial Aid, and these funds will be returned as Unclaimed Property.

FKCC Response

The College has updated its processes and procedures for bank reconciliations and abandoned property to explicitly detail the treatment of Title IV funds. These updates ensure return of unclaimed checks and rejected EFTs containing Title IV HEA funds to the applicable federal programs no later than 240 days after the date the check was written or EFT was disbursed. Please see CAP Response for details regarding the new treatment of said disbursements.

FSCJ Response

The College reviewed and updated procedures to insure the timely return of unclaimed funds to the Title IV HEA program. FSCJ restored the questioned amount related to FSCJ to the Title IV HEA program.

GCSC Response

The College concurs with the audit finding and has addressed the recommendation in Management's Corrective Action Plan.

HCC Response

The College has developed internal policy and procedures to ensure that all unclaimed property is returned to the applicable Title IV program.

MDC Response

The College concurs with the finding and will review its procedures and processes, adopting corrective measures as necessary.

NFCC Response

North Florida Community College agrees with this finding and has begun to make the necessary corrections to ensure that unclaimed Title IV funds are returned to USDE within the 240 days allowed. The error occurred due to turnover in both the Financial Aid and Controller offices. The Controller has implemented a notification process that will inform Financial Aid of any outstanding or stale-dated disbursement checks. It is our expectation that this will ensure that this new process will return NFCC to compliance.

PBSC Response

Palm Beach State College applies the highest standards of care and scrutiny to the handling of federal funds and the protection of the taxpayers. The circumstance that caused the College to return unclaimed Title IV HEA Funds to the applicable federal programs in an untimely fashion was that many students relocated from their primary home address without providing updated information to the College. In an effort to ensure that needy students receive these necessary

funds, the checks that remained uncashed were resent to an alternate address in the student's file. As a result of the extra time involved to resend the uncashed checks, eight checks were returned to the applicable federal programs after the allowable timeframe which caused a late return of Title IV funds to the respective programs.

PHSC Response

The College has performed a review of its' procedures relating to Title IV cash management and will be implementing the following changes: Funds returned as stale dated from the College's disbursement provider will immediately be returned to the appropriate Title IV Program unless prior contact has been made with the student to reissue the funds; Federal cash balances will be reviewed twice a week to insure that funds are being returned in a timely manner; and the College will work with its disbursement provider to more easily identify returned funds as Title IV to ensure they are processed appropriately and timely.

PSC Response

The College has established additional procedures to review Bank Mobile Expiring Stale Dated Checks to ensure that the disbursements are made to the student or returned within the 240 day deadline. This procedure was implemented in November 2017.

SCF Response

The State College of Florida, Manatee-Sarasota acknowledges the Auditor General's finding related to escheatment of unclaimed Title IV student aid. The Office of Finance has implemented procedures to ensure the timely return of unclaimed Title IV student aid to the U.S. Department of Education, within the 240-day requirement, and to ensure these funds are not escheated to the State of Florida.

Subsequent to this finding, additional funds were claimed thus reducing the amount of unclaimed funds to \$435 to be returned. As of March 7, 2018, the funds have been returned.

SFSC Response

South Florida State College has implemented a corrective action plan for escheating federal funds by reducing the amount of time check recipients have to deposit funds and by including a notification with any reissued checks stating the date by which the check must be deposited or the check will be canceled and the funds will be returned.

SJRSC Response

For the 2 Fall term checks, we are in agreement that the funds were not negotiated by the student or returned to the Federal Program within 240 days of initial disbursement. While SJR State's third-party servicer did return the funds to SJR State in time for us to meet the 240-day limit on Federal program returns, SJR State felt we had updated information that caused us to believe we could get these funds in the student's hand by reissuing a check(s) to the student. Unfortunately, once the funds were returned to SJR State, there was no tracking mechanism in place to ensure funds were returned to the Federal program within the 240-day limit should our extra efforts be unsuccessful. The \$683 was ultimately received by the student by way of a check that was issued on July 12, 2017, and subsequently negotiated on July 17, 2017, and the \$330 was ultimately returned to the Pell program on August 10, 2017.

SSC Response

The College procedure to make an additional attempt to disburse Title IV HEA funds directly to students or parents resulted in re-issued checks outstanding beyond the 240 day deadline to return funds. In May 2017 a new procedure was implemented requiring stale checks to be re-issued by electronic funds transfer directly into the student or parent's account or by issuing a debit card. If the College is not able to obtain a bank account for transfer or issue a debit card, the funds are returned to Title IV. This new procedure will ensure that funds are returned timely.

VC Response

Upon learning of the issue, Valencia College took the following actions: 1) immediately reviewed unclaimed checks to ensure that they were properly identified as Title IV HEA funds source 2) implemented a process to assure that all outstanding checks have two additional reviews to confirm funding source prior to 240 days return deadline, and 3) initiated a notification process to ensure the timely return of unclaimed checks. In addition, the \$2,995 has been restored back to the respective Title IV HEA program.

U.S. DEPARTMENT OF EDUCATION

Finding Number	2017-047
CFDA Number	84.063 and 84.268
Program Title	Student Financial Assistance Cluster Federal Pell Grant Program (Pell Grant) Federal Direct Student Loans (Direct Loan)
Compliance Requirement	Special Tests and Provisions – Student Status Changes – National Student Loan Data System (NSLDS) Roster Files
State Educational Entity	Florida Agricultural and Mechanical University (FAMU) Florida Atlantic University (FAU) Florida International University (FIU) Florida State University (FSU) Broward College (BC) College of Central Florida (CCF) Daytona State College (DSC) Eastern Florida State College (EFSC) Florida Gateway College (FGC) Florida Keys Community College (FKCC) Florida SouthWestern State College (FSWSC) Hillsborough Community College (HCC) Miami Dade College (MDC) North Florida Community College (NFCC) Pasco-Hernando State College (PHSC) Pensacola State College (PSC) Polk State College (Polk) Valencia College (VC)
Statistically Valid Sample	No
Finding Type	Noncompliance and Significant Deficiency
Finding	Florida public universities and colleges did not always accurately and timely report enrollment status changes to the NSLDS for Pell Grant recipients and Direct Loan borrowers.
Criteria	34 CFR 685.309, <i>Administrative and Fiscal Control and Fund Accounting Requirements for Schools Participating in the Direct Loan Program – Enrollment Reporting Process</i> 34 CFR 690.83(b)(2), <i>Submission of Reports</i> <i>NSLDS Enrollment Reporting Guide</i> Upon receipt of an enrollment report from the USED, an institution must update all information included in the report and return the report to the USED in the manner, format, and timeframe prescribed by the USED. In addition, the institution must notify the NSLDS of a student enrollment status change within 60 days of such discovery.
Condition	From the population of 424,045 students who received Title IV Higher Education Act (HEA) Pell and Direct Loan funds during the Fall 2016 and Spring 2017 Terms at the 12 public universities and 28 public colleges in Florida, we selected for examination the institution records for 1,129 Pell Grant recipients and Direct Loan borrowers to determine whether the institutions accurately and timely reported student enrollment changes to the NSLDS. As summarized in the following table, we noted instances at 4 public universities and 14 public colleges in which the institutions did not timely report student enrollment changes, did not accurately report a student enrollment status change, or did not accurately report the effective date of a student enrollment status change.

**University and College
Student Enrollment Reporting – Audit Exceptions
2016-17 Fiscal Year**

Institutions	Number of Students Selected	Late Reported Enrollment Changes (1)	Enrollment Status Inaccurately Reported (2)	Inaccurate Enrollment Change Date Reported (3)

Polk	25	3	5	3
VC	40	-	-	4
Total	<u>580</u>	<u>86</u>	<u>41</u>	<u>107</u>

Notes: (1) The institution did not notify the NSLDS of a student enrollment change within 60 days of discovery. The enrollment changes were reported 1 to 315 days or an average of 68 days late.

(2) Examples of inaccurate reporting of the enrollment status include:

- DSC reported 9 withdrawn students as less-than-half time and three-quarter time.
- HCC reported 7 graduated students as withdrawn.

(3) Examples of inaccurate reporting of the enrollment change date include:

- FSU did not always use the official withdrawal date (OWD) as the effective date of the enrollment change for officially withdrawn students or the last date of attendance (LDA) for unofficially withdrawn students. The reported effective dates were 7 to 109 days after the OWD or LDA.
- BC submitted student enrollment data for several students that changed the initially reported effective date of an enrollment status change to an incorrect date.

Cause

Most of the institutions submitted roster files to the National Student Clearinghouse (NSC) and relied on the NSC to transmit student status changes to the NSLDS for Pell Grant and Direct Loan borrowers; however, the files were not always timely submitted to the NSC and some files contained inaccurate student enrollment status and enrollment status change dates. Further, the institutions did not always have adequate monitoring procedures to ensure that

the student data submitted was accurate and that the NSC timely submitted student status changes to the NSLDS.

In addition, BC transitioned from using the NSC to transmit student enrollment status changes to the NSLDS during the Fall 2016 Term to directly reporting the changes to NSLDS. The transition to direct reporting of enrollment changes caused delays in submitting the student data to NSLDS. The errors in the accuracy of student data were caused, in part, by reporting the enrollment effective dates as the term end date rather than the actual date of the enrollment change.

Also, DSC implemented a new student records software system during the 2016-17 fiscal year. The transition to the new system resulted in incorrect default settings that caused some withdrawn students to be reported as less-than-half time.

Effect The accuracy of Pell Grant and Direct Loan information in the NSLDS is critical to the USED for monitoring the enrollment status of Title IV HEA recipients and for evaluating program effectiveness.

Recommendation Florida public universities and colleges should enhance procedures to ensure that all enrollment status changes for Pell Grant recipients and Direct Loan borrowers are accurately and timely reported to the NSLDS.

FAMU Response The Registrar's office will work together with the office of Information Technology Services to review and include logic in the extract program to timely and accurately report students' enrollment status changes. After modification, the extract program will provide the effective date a student dropped to a lower status as the status start date, if the student was in a higher status and dropped to a lower status during the term.

Until the modifications are made to the logic in the extract program, the Registrar's Office will ensure that the correct enrollment status information is manually entered on the National Clearinghouse website to accurately reflect student withdrawal effective dates. The Registrar's office will work together with the office of Information Technology System to review and include logic in the extract program to timely and accurately report students' enrollment status changes.

FAU Response The three student records which were identified with incorrect withdrawal dates have now been corrected. As these three students are currently enrolled at the University, we could not update their records through the standard Clearinghouse reporting mechanism. As such, these records were updated directly in NSLDS. Quality assurance processes and reports have been implemented to ensure the correct withdrawal dates are reported.

FIU Response FIU acknowledges there were errors in reporting enrollment through NSC to NSLDS. We have identified the processes that were causing the errors and have corrected our reporting as of our December 15th Enrollment Reporting for NSC submission.

FSU Response Florida State University has changed processes and implemented regular reviews to accurately and timely report borrower status changes. Additional training has been undertaken for all staff tasked with updating NCS data and changes have been made to the query used for updating NCS records and relevant dates.

BC Response Acknowledged. The College continues to enhance its procedures including ongoing training to staff. Additionally, the College has implemented and continues to enhance a quality assurance program to ensure accurate and timely reporting to the NSLDS.

CCF Response

The College of Central Florida utilizes the National Student Clearinghouse (NSC), as a third-party servicer to perform the functions required for Enrollment Reporting. Files are sent to the NSC monthly with student enrollment updates. The NSC receives the Student Status Confirmation Report (SSCR) from the National Student Loan Data System (NSLDS) with the names of students required to be updated by the institution. The NSC utilizes the information obtained from the institution to update the SSCR and transmits the data back to NSLDS. Upon NSC's receipt of the enrollment report file from the institution, the institution is sent error and status reports. The institution will ensure the following:

- Enrollment report files will be transmitted monthly by the Registrar's office.
- Error files and status reports will be worked upon receipt by the Registrar's office.
- The Institutional Reporting and Information Technology departments will assist with data issues in order for files to have fewer edits.
- The institution will monitor submissions and review sample students to ensure the information is received and updated in the NSLDS system.

DSC Response

Daytona State College concurs with the findings in identifying that student term information was not being properly uploaded to the National Student Clearinghouse (NSC), the Office of Records and Registration learned that this was due, in large part, to an incorrect configuration with our ERP system. This subsequently resulted in information not properly loading into the NSLDS. In taking action to fix the issue, the Office of Records and Registration worked with the Daytona State College (DSC) Information Technology Department and the National Student Clearinghouse to find a resolution.

Working through the Fall of 2017, DSC staff took the following steps to correct the issue:

- DSC updated the Academic Load Tables to show 0.0 credits and no units for the NSC Academic Load report and carefully screened the results by removing:
 - Students who were accepted for that term, but never enrolled.
 - Students who have an active program plan for a future term, but have yet to enroll.
 - Students who have been discontinued for continuous enrollment or on academic suspension.
- DSC staff then assigned a last date of attendance to the final results.
- Upon validation of the above steps, DSC staff worked with the NSC to resubmit our results for the entire 2016-2017 Academic year (Fall, Spring and Summer terms). In working with the staff from the NSC, we validated that the report properly uploaded. Once that validation occurred, the information was then pushed to the NSLDS.
- DSC staff received confirmation of a complete and error free upload to the NSC in December of 2017.

These steps will be utilized in future reporting cycles to ensure accurate and timely reporting to the NSC. Additionally, we will continue to look for ways to be more efficient in our processes by routinely working with NSC to validate our results.

EFSC Response

College staff determined, as a result of auditor inquiry, that the automated data process used to generate the report of enrollment changes to the National Student Loan Data System was being processed with an incorrect parameter.

The incorrect parameter resulted in incorrect enrollment change dates in certain circumstances.

The College, in consultation with the software vendor, has confirmed the correct parameters; verified those parameters provide accurate enrollment change dates; and updated the procedures used to generate the report of enrollment changes.

FGC Response

Florida Gateway College has implemented a procedure for updating all enrollment status changes for Pell Grant recipients and Direct Loan borrowers to ensure accurate and timely reporting to NSLDS.

FKCC Response

The College has updated its processes to ensure that enrollment status changes are accurately and timely reported to the National Student Loan Data System (NSLDS). The College is also working with National Student Clearinghouse to resolve conflicts that exist between Clearinghouse and NSLDS.

FSWSC Response

FSWSC discovered a loophole in one of our processes and automated reports, that directly contribute to the recent finding. A collaborative effort among the Registrar, Financial Aid and Informational Technology departments, resulted in a solution that will vastly reduce/eliminate such occurrence. This solution has since then been implemented.

HCC Response

The College has reviewed and enhanced our internal policy and procedures to ensure that all students are accurately and timely reported to NSLDS.

MDC Response

The College concurs with the finding and will review its procedures and processes, adopting corrective measures as necessary.

NFCC Response

North Florida Community College has been relying on National Student Clearinghouse to provide accurate and timely data to the National Student Loan Data System (NSLDS). We are currently in process of establishing procedures to report directly to the NSLDS and expect these procedures to be completed by the end of fiscal year 2018.

PHSC Response

The College takes the audit findings very seriously and has consistently implemented measures to resolve the issue. The Financial Aid Office is dependent on other college employees to provide attendance information in a timely manner and when that reporting doesn't occur as expected, timely reporting of changes in enrollment status to NSLDS are jeopardized. The College continues to reinforce the importance of timely reporting with faculty through ongoing faculty training sessions on use of the attendance module within the College's student information system. A tutorial module for faculty was also developed and resides in the College's learning management system.

PSC Response

The College is in the process of reviewing and modifying the enrollment reporting process to monitor the enrollment changes so that the data going to NSLDS is correct and timely. A Last Date of Attendance date change report has been created to identify student date changes and is now monitored daily. We are also reviewing our COD (Common Origination and Disbursement) process to make sure the reporting changes are correct. The programming will be complete prior to the Fall 2018 semester awards.

Polk Response

The College agrees with the finding and has made internal reporting modifications that will result in more timely and accurate reporting to NSLDS.

VC Response

Valencia has implemented and is completing a data clean-up process in partnership with NSC to correct all records that had been erroneously reported to NSLDS since Fall 2016. A permanent programming change has been implemented to ensure accurate data transcribes from the front-end data forms to the background tables.

U.S. DEPARTMENT OF EDUCATION

Finding Number	2017-048
CFDA Number	84.063 and 84.268
Program Title	Student Financial Assistance Cluster Federal Pell Grant Program (Pell) Federal Direct Student Loans (Direct Loan)
Compliance Requirement	Special Tests and Provisions – Return of Title IV Higher Education Act (HEA) Funds
State Educational Entity	Florida Agricultural and Mechanical University (FAMU) Florida Atlantic University (FAU) Broward College (BC) Daytona State College (DSC) Eastern Florida State College (EFSC) Florida Gateway College (FGC) Florida Keys Community College (FKCC) Florida South Western State College (FSWSC) Hillsborough Community College (HCC) Miami Dade College (MDC) Palm Beach State College (PBSC) Polk State College (Polk)
Statistically Valid Sample	No
Finding Type	Noncompliance and Significant Deficiency Questioned Costs – \$21,851 (\$14,020 CFDA No. 84.063 and \$7,831 CFDA No. 84.268)
Finding	Florida public universities and colleges did not always accurately and timely calculate the amount of Title IV HEA grant or loan assistance that the student earned as of the student’s withdrawal date, did not always timely return unearned funds to the United States Department of Education (USED), and did not always timely notify students or USED of grant overpayments.
Criteria	34 CFR 668.21, <i>Treatment of Title IV Grant and Loan Funds If the Recipient Does Not Begin Attendance at the Institution</i> (b) For a student who never attended, an institution must return the Title IV HEA funds no later than 30 days after the date that the institution becomes aware that the student will not or has not begun attendance. 34 CFR 668.22, <i>Treatment of Title IV Funds When a Student Withdraws</i> (a)(1) When a recipient of Title IV HEA grant or loan assistance withdraws from an institution during a payment period in which the recipient began attendance, the institution must determine the amount of Title IV HEA grant or loan assistance the student earned as of the student’s withdrawal date. (e)(2) The percentage of Title IV HEA grant or loan assistance that has been earned by the student is equal to the percentage of the payment period that the student completed. However, if the student completes 60 percent or more of the payment period, the student is considered to have earned 100 percent of the Title IV HEA funds. (h)(4)(ii) An institution must refer to the USED an overpayment of Title IV HEA grant funds owed by a student as a result of the student's withdrawal from the institution if the student does not repay the overpayment in full to the institution, or enter a repayment agreement with the institution or USED within the earlier of 45 days from the date the institution sends a notification to the student of the

overpayment, or 45 days from the date the institution was required to notify the student of the overpayment.

(j)(1) For a student who begins attendance, an institution must return the amount of unearned Title IV HEA funds as soon as possible but no later than 45 days after the date of the institution's determination that the student withdrew.

(j)(2) For institutions that are not required to take attendance, an institution must determine the withdrawal date for a student who withdraws without providing notification to the institution no later than 30 days after the end of the earlier of the payment period, academic year, or educational program from which the student withdrew.

Condition

From the population of 153,618 students who withdrew from classes and received Title IV HEA Pell Grant and Direct Loan funds during the Fall 2016 and Spring 2017 Terms at the 12 public universities and 28 public colleges in Florida, we selected for examination the institution records for 951 students to determine whether the institution accurately and timely calculated the funds earned by the students and timely returned any unearned funds to the USED. As summarized in the following table, we noted instances at 2 public universities and 10 public colleges in which the institutions did not always timely and accurately calculate the funds earned by students, did not timely return unearned funds to the USED, and did not always timely notify students and USED of grant overpayments.

**University and College
Return of Title IV HEA Funds – Audit Exceptions
2016-17 Fiscal Year**

Institutions	Number of Students Selected	Questioned Costs (1)	Calculations		Untimely Returns (4)	Student Overpayments Not Timely Reported (5)
			Incorrect (2)	Untimely (3)		
Universities:						
FAMU	35	\$ 1,709	2	-	-	-
FAU	30	1,818	-	-	1	-
Colleges:						
BC	20	212	2	-	-	-
DSC	25	-	-	-	3	-
EFSC	20	-	-	-	4	-
FGC	10	-	-	-	-	4
FKCC	20	4,185	3	10	4	-
FSWSC	36	3,794	5	-	2	1
HCC	30	308	4	-	-	-
MDC	30	8,576	-	7	8	-
PBSC	35	1,005	1	3	6	-
Polk	60	244	1	-	-	3
Total	351	\$21,851	18	20	28	8

Notes: (1) Questioned costs represent funds due to the USED because either the institution did not accurately calculate the funds earned by the student or the institution failed to return unearned funds no later than 45 days after the institution determined the student withdrew. Subsequent to our inquiries, a total of \$16,532 was returned to the applicable programs by FAMU, FAU, FKCC, MDC, and Polk. The remaining \$5,319 owed by BC, FSWSC, HCC, and PBSC had not been returned as of February 12, 2018.

- (2) The institutions did not accurately calculate earned funds in 18 instances. Errors ranged from \$3 to \$3,794 and averaged \$1,214 per student. For example:
- FSWSC calculation errors ranged from \$270 to \$1,691 for 5 students.
 - FKCC calculation errors ranged from \$157 to \$3,794 for 3 students.

- (3) In 20 instances, the institutions did not timely determine the withdrawal dates to calculate the funds earned by students who withdrew without providing notification to the institution. The number of days late ranged from 5 to 375 days and averaged 125 days. For example:
 - MDC did not timely determine the withdrawal dates or last dates of attendance (LDA) for 7 students who did not notify MDC of withdrawal. The MDC determinations were made 272 to 405 days after the end of the payment period, or 242 to 375 days late.
- (4) In 28 instances, the institutions did not return unearned funds to the USED within 45 days after determining that the student had withdrawn. The returns were from 2 to 420 days late, or an average of 162 days late. For example:
 - MDC returned unearned funds 273 to 420 days late.
 - PBSC returned unearned funds 159 to 360 days late.
- (5) In 8 instances, the institutions did not notify students of overpayments within 30 days or did not timely refer overpayments owed by students to the USED within 45 days. Notifications to students ranged from 22 to 44 days late, or an average of 33 days late. Notifications to the USED ranged from 115 to 311 days late, or an average of 190 days late. For example:
 - FGC referred 4 overpayments owed by students to the USED from 126 to 311 days late. One of the 4 students was notified of the overpayment on November 1, 2016, but did not repay the overpayment in full to FGC, or enter a repayment agreement with FGC or the USED within 45 days from the date FGC notified the student of the overpayment. Subsequent to audit inquiry, FGC reported the overpayment to the USED on October 23, 2017, 311 days late.
 - FSWSC notified 1 student of an overpayment 44 days late.

Cause

Most of the institutions calculated Title IV HEA grant and loan funds earned by students at the withdrawal date, timely returned unearned Title IV HEA funds, and timely notified students and the USED of grant overpayments as required. However, due to a lack of adequate procedures or, for some institutions, a misunderstanding of the regulations, not all calculations were accurately or timely performed, not all unearned funds due to the USED were timely returned, and students and the USED were not always timely notified of grant overpayments.

Effect

Absent the accurate and timely calculation of Title IV HEA grant or loan funds earned by students at their withdrawal dates and procedures to ensure the accuracy of those calculations, unearned funds were not timely returned to the USED. In addition, failure to timely notify students and USED of grant overpayments increases the risk that students may be awarded Title IV HEA grant or loan assistance in subsequent periods for which they are not eligible.

Recommendation

The institutions should enhance procedures to timely and accurately calculate and return unearned Title IV HEA grant or loan assistance for students who officially and unofficially withdraw and timely notify students and USED of student overpayments. In addition, the institutions should provide documentation to the USED supporting the allowability of the questioned costs not returned to the USED, totaling \$5,319, or restore the moneys to the Title IV HEA programs.

FAMU Response

The Office of Financial Aid has procedures in place for preparing Return of Title IV funds calculations for students who officially and unofficially withdraw from the University. We will enhance the procedures by implementing an additional tracking and monitoring system to include several layers of internal review by the Coordinator, Assistant Director, and Associate Director to ensure compliance with calculations and timely return of funds to the U.S. Department of Education.

The office has engaged specific measures to ensure that desk references are updated, and increased training of business rules and system processes is provided. All Return of Title IV calculations will be validated and signed off by the Assistant and Associate Directors.

This tracking and monitoring system will allow for thorough checks to be performed with the Return of Title IV funds process. All funds cited have been returned as required to the U.S. Department of Education.

FAU Response	The loan (\$1,818) was returned on 7/14/2017 when it was brought to our attention that the loan was not returned within 30 days. We have since implemented a secondary review process for all R2T4 calculations to ensure that all funds are returned within the required timeframe.
BC Response	Acknowledged. Broward College has completed the adjustments and has returned the \$212.00 for the two students identified in finding 2017-048. The College continues to enhance its procedures including compliance training to staff. Additionally, the College is developing a quality assurance program to ensure accurate calculation of unearned Title IV HEA grant and loan assistance for students who are officially withdrawn.
DSC Response	<p>Daytona State College concurs with the findings of the report. Upon discovering that unearned funds to the US Department of Education were not returned by the required dates, DSC promptly returned the monies and updated the COD system. Further examination resulted in the discovery that the occurrences were a direct result of software and configuration issues with the ERP system.</p> <p>Once we learned of the configuration error within the ERP system, the following steps were taken to correct the issue:</p> <ul style="list-style-type: none"> • A Daytona State College Technical Analyst examined and identified the processes that were causing the error. • The DSC Technical Analyst then attempted initial configuration corrections to the ERP the system. • DSC Information Technology department then enlisted the assistance of an external consultant to further correct and verify that the problem will not occur again in the future. • DSC Analysts have created queries and reporting that will allow the Office of Financial Aid Services to ensure compliance with required state and federal deadlines. <p>Additionally, we will continue to look for ways to be more efficient in our processes by routinely reviewing processes to ensure accuracy.</p>
EFSC Response	<p>During the audit period, the College had a requirement that instructors take attendance. The College was required to use instructor reported attendance records to determine the withdrawal dates for students who ceased attendance. The untimely returns were the result of instructors untimely reporting students who had ceased attending.</p> <p>College Policy 400.5 (Class Attendance and Religious Observances) was revised in June 2017 to eliminate the requirement that instructors take attendance. In the future, the "date of the institution's determination that a student withdrew" will be determined in accordance with 34 CFR 668.22 (l) which does not require the institution to use instructor reported attendance records.</p>
FGC Response	Florida Gateway College has implemented a procedure to ensure timely and accurate calculation of unearned Title IV grants.
FKCC Response	The College has updated its processes to timely and accurately calculate and return unearned Title IV funds for students who withdraw (officially and unofficially). The College did return the full \$4,185.00 due in Questioned Costs in January 2018.
FSWSC Response	After reviewing the findings associated with the Return of Title IV (R2T4) calculations, the Financial Aid Department at FSWSC has taken steps that look to resolve such findings from occurring in the future. First, FSWSC has revised/updated our policies and procedures that are related to R2T4 calculations. The revised policies and procedures provide the correct steps to take for R2T4 calculations, with the goal being to minimize the risk of miscalculations and/or

untimely returns. Second, FSWSC has moved to using R2T4 on the Web. By moving to this product, staff are better able to ensure that the correct information is populating the R2T4 calculations versus using the prior process. Finally, FSWSC has added additional staff to our R2T4 processes and provided additional resources and training to staff who are working on R2T4 calculations.

HCC Response

The College has enhanced internal policy and procedures to ensure accurate and timely calculation of unearned Title IV funds.

MDC Response

The College has adequate procedures for Title IV HEA grant and loan assistance, but concurs with the instances cited. The newly implemented ERP system will be reviewed and corrective measures will be adopted as necessary.

PBSC Response

The Financial Aid Office processed approximately 1,392 R2T4 for 2016-17.

- In one instance, the R2T4 was calculated incorrectly due to a discrepancy regarding the last date of attendance between a faculty roster and the weekly tracking report. In this instance, the last date of attendance utilized for R2T4 was from the weekly tracking report and the faculty attendance sheet reflected a different date.

- During the College's internal audit to correct calculations, an error was made to utilize the date of the internal audit rather than the original date of determination. This resulted in three untimely calculations that did not include the original date of determination on the Return of Title IV Calculation sheet in step 1.

- The six untimely returns were calculated correctly but during our internal audit we discovered that funds had not been returned to COD. Upon discovery, the funds were immediately returned; however, it was after the required timeframe.

Polk Response

The College agrees with the finding and has implemented procedural changes that will ensure that adjustments to Title IV HEA grant and loan awards are processed accurately and reported timely.

ADDITIONAL MATTERS

Our audit of the State of Florida's basic financial statements for the fiscal year ended June 30, 2017, disclosed additional matters that we communicated in the **Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards**. Additional matters are issues that, in the auditor's opinion, should be reported, but which are not categorized as a significant deficiency or material weakness.

ADDITIONAL MATTER

FUND BALANCES

Finding Number	AM 2017-01
Opinion Unit	General Fund
Financial Statements Account Titles	Fund Balances: Committed; Unassigned
SW Fund Number	100000
State Agency	Florida Department of Financial Services (FDFS)
OLO-GF-SF-FID	000000-10-1-000001
GL Codes	549 and 581
Adjustment Amount	\$468,574,836
Statistically Valid Sample	N/A

Finding The FDFS, Statewide Financial Reporting Section (SFRS), did not appropriately classify a portion of the fund balances of the General Fund as committed.

Criteria Governmental Accounting Standards Board Codification Sections 1800.165 through .179 describe the fund balance reporting classifications for governmental fund types. Fund balance classifications include nonspendable resources and amounts that are restricted, committed, assigned, or unassigned. These classifications comprise a hierarchy ranging from the most constrained, nonspendable fund balance (amounts that cannot be spent), to unassigned fund balance (amounts available for any authorized purpose of the government).

Condition The SFRS determines fund balance classifications for the General Fund using general ledger codes and makes necessary adjustments to properly reflect the amount to be reported in each fund balance classification. In making these determinations for the 2016-17 fiscal year, the SFRS did not perform the procedures necessary to classify as committed the fund balance associated with General Fund trust funds. Subsequent to our audit inquiry, the SFRS performed the necessary analysis and made the requisite adjustment.

Cause While the SFRS had established year-end financial reporting procedures for determining and classifying general revenue fund balances and a CAFR Tasks checklist designed to ensure that all tasks necessary to complete the State's CAFR were tracked, the procedures did not ensure that the reclassification adjustment was performed. In response to our audit inquiry, SFRS management indicated that a task would be added to the CAFR Tasks checklist to ensure that the fund balance reclassification is timely performed.

Effect Prior to audit adjustment, the General Fund committed fund balance was understated by \$468,574,836 and the unassigned fund balance was overstated by the same amount.

Recommendation We recommend that the SFRS strengthen fiscal year-end reporting procedures to ensure that fund balance classifications for the General Fund are appropriately reported.

**State Agency Response and
Corrective Action Plan** Concur. The Department has updated its CAFR Tasks List to ensure that the fund balance reclassification is timely performed.

**Estimated Corrective
Action Date** January 9, 2018

**Agency Contact and

ADDITIONAL MATTER
SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

Finding Number	AM 2017-02
State Agency	Florida Atlantic University (FAU)
Finding	FAU procedures for preparing the Schedule of Expenditures of Federal Awards (SEFA) data form were not sufficient to ensure the accuracy of reported amounts. As a result, prior to audit adjustment, amounts reported on the State's SEFA were understated.
Criteria	<p>2 CFR 200.502(b) – <i>Loan and loan guarantees (loans)</i></p> <p>To reasonably ensure the accuracy and completeness of the State's SEFA, Florida Department of Financial Services SEFA Instructions required universities to prepare a SEFA data form and certify its accuracy.</p>
Condition	Our examination of FAU's SEFA data form disclosed that Federal Perkins Loan Program Federal Capital Contribution (CFDA No. 84.038) and Nurse Faculty Loan Program (CFDA No. 93.264) expenditures were not accurately reported. Our examination disclosed that FAU reported loan disbursements as expenditures for these programs, rather than reporting the value of loans outstanding. As a result, FAU understated total expenditures for the two programs by \$2,162,977.
Cause	FAU staff was unaware of the requirements for reporting loan expenditures.
Effect	Absent effective procedures for preparing the SEFA data form, inaccurate information may be reported on the State's SEFA.
Recommendation	We recommended that FAU enhance procedures to ensure that staff are aware of relevant Federal requirements regarding the reporting of loan amounts in accordance with Federal regulations.
University Response and Corrective Action Plan	<p>While the university is not in agreement with the interpretation of AM 2017-02, we understand that an expedited response is in the best interest of the state, and will allow for a more timely issuance of the overall Florida SEFA. FAU agrees to the reporting changes proposed for the 2017 SEFA report.</p> <p>FAU's Action Plan is to work with the Board of Governors, the Department of Financial Services, and the other universities on enhancing and improving the common procedures and interpretation documents, such as suggesting changes to the DFS SEFA Checklist. The accuracy of the SEFA report is of paramount importance to FAU. FAU will continue its efforts to be aware of all relevant Federal requirements regarding SEFA reporting.</p> <p>FAU understands that professionals may reach different interpretations of the Uniform Guidance reporting requirements 200.502 (B); and since the Uniform Guidance is relatively recent, the federal cognizant agencies have not had the same time to issue clarification when differences exist. FAU as other Universities within the SUS, follow the instructions provided by the DFS Checklist to prepare the SEFA. This checklist, which references it's compliance with (Uniform Guidance) 2 CFR 200, states, "SEFA Data tab is to report all expenditures of Federal funds expended during the current fiscal year and the indirect cost rate(s) used by the entity." In addition it states, "Loan tab is provided to report current year loan disbursements and the value of loans outstanding." Based upon the instructions and checklist, FAU reported the loan disbursements for the current</p>

year on the SEFA Data tab and the current year loan disbursements and value of loans outstanding amounts on the Loan tab.

However, as stated previously, FAU will work with all stakeholders to ensure that the guidance provided to all universities will lead to consistent reporting practices across all the SUS.

***NOTE 1 - BASIS OF PRESENTATION AND SIGNIFICANT
ACCOUNTING POLICIES***

NOTE 1 - BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

The Schedule of Expenditures of Federal Awards has been prepared in accordance with the Uniform Guidance and presents the Federal awards expended by the State of Florida. The Single Audit Act Amendments of 1996 (Public Law 104-156) and the Uniform Guidance in subpart F define Federal awards as Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. Federal financial assistance is defined as assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property, cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, or other assistance.

The following summary of the State of Florida's significant accounting policies and related information is presented to assist the reader in interpreting the Schedule of Expenditures of Federal Awards and should be viewed as an integral part of the accompanying schedule.

- **Reporting Entity**

The reporting entity for the purposes of the accompanying schedule is the State of Florida primary government (i.e., legislative agencies, the Governor and Cabinet, departments and agencies, commissions, boards of the Executive Branch, and various offices relating to the Judicial Branch), the State Universities (SU), and the State Community Colleges and Florida Colleges (SCC) exclusive of any component units of the State Universities and Community Colleges and Florida Colleges.

- **Catalog of Federal Domestic Assistance**

The Catalog of Federal Domestic Assistance is a government-wide compendium of individual Federal programs. A five-digit program identification number (CFDA No.) is assigned to each program included in the catalog. Those programs that have not been assigned a CFDA number by the Federal Government and those programs for which CFDA numbers could not be identified are entitled "Other Federal Awards" on the accompanying schedule and listed as CFDA No. "XX.U0X", with the exception of those programs that are also Research and Development Programs, which are listed as CFDA No. "XX.RD".

- **Expenditures**

The column on the accompanying schedule captioned "Total Expenditures", includes amounts using different bases of accounting. The reporting entities also include expenditures related to transfers received from other State Agencies, State Universities, State Community Colleges, and Florida Colleges in this column.

Amounts reported by State Agencies, State Universities, State Community Colleges, and Florida Colleges were determined in accordance with the accrual and modified accrual basis of accounting, with the exception of Florida International University, which reported expenditures using the cash basis of accounting.

Expenditures reported for the Unemployment Insurance (UI) Program (CFDA No. 17.225) and the Direct Loans Program (CFDA No. 84.268) are reported using the accrual basis of accounting.

Appropriate adjustments have been made to the expenditures reported on the accompanying schedule to preclude reporting both the transfers of Federal awards between the various State Agencies, State Universities, State Community Colleges, and Florida Colleges, and the subsequent expenditures.

- **Amounts Awarded to Subrecipients Column**

The column on the accompanying schedule captioned "Amounts Awarded to Subrecipients" represents the amounts transferred by the State Agencies, State Universities, State Community Colleges, and Florida Colleges to subrecipients that are not included in the State's Schedule of Expenditures of Federal Awards. The amounts in this column are also included in the column captioned "Total Expenditures". Transfers of Federal awards between the State Agencies, State Universities, State Community Colleges, and Florida Colleges are not included in this column.

- **American Recovery and Reinvestment Act of 2009 (ARRA)**

On February 13, 2009, Congress passed the American Recovery and Reinvestment Act of 2009 (Public Law 111 -5) (Recovery Act). The Recovery Act's three main goals are to create and save jobs, jump-start economic activity and invest in long-term economic growth, and promote accountability and transparency in government spending.

To maximize the transparency and accountability of funds authorized under the Recovery Act, recipients covered by the Single Audit Act Amendments of 1996 and Uniform Guidance must separately identify the expenditures for Federal awards under the Recovery Act on the Schedule of Expenditures of Federal Awards.

ARRA funds reported during the 2016-2017 Fiscal Year are included within the accompanying schedule. Expenditures reported on the accompanying schedule for ARRA awards totaled \$30,037,290.

- **Noncash Assistance**

The State participates in several Federal awards programs in which noncash benefits are provided through the State to eligible program participants. The programs that report 100% direct noncash benefits are accompanied on the table by a (1). The programs where noncash benefits were used are identified in the following table.

CFDA Number	Program Name	Total Noncash Benefits
10.551	Supplemental Nutrition Assistance Program (1)	\$4,725,832,089
10.553	School Breakfast Program	\$6,982
10.555	National School Lunch Program	\$88,560,124
10.557	Special Supplemental Nutrition Program for Women, Infants, and Children	\$241,283,543
10.569	Emergency Food Assistance Program (Food Commodities) (1)	\$37,101,627
12.700	Donations/Loans of Obsolete DOD Property (1)	\$2,496,133
16.578	Federal Surplus Property Transfer Program (1)	\$11,150
39.003	Donation of Federal Surplus Personal Property (1)	\$7,362,807
20.513	Enhanced Mobility for Seniors and Individuals with Disabilities	\$12,549,297
20.526	Bus and Bus Facilities Formula Program	\$1,136,507
93.268	Immunization Cooperative Agreements	\$275,984,084
	Total Noncash Assistance	<u>\$5,392,324,343</u>

NOTE 2 – INDIRECT COST RATE

NOTE 2 – INDIRECT COST RATE

In accordance with §200.414 Indirect (F&A) costs and §200.510, the following State of Florida entities used the 10% *de minimis* indirect cost rate.

- **State Entities**

Justice Administrative Commission

- **State Universities**

Florida Gulf Coast University
University of West Florida

- **State Colleges**

Broward College
College of Central Florida
Palm Beach State College
Polk State College
South Florida State College
St. Johns River State College

NOTE 3 - UNEMPLOYMENT INSURANCE

NOTE 3 - UNEMPLOYMENT INSURANCE

The Unemployment Insurance (UI) Program (CFDA No. 17.225) is a unique Federal-State partnership, founded upon Federal law but implemented primarily through State law. Pursuant to this Program, unemployment benefits are paid to eligible unemployed workers for periods of involuntary unemployment. Benefits are paid from Federal funds and from State unemployment taxes that are deposited into the State's Federal Unemployment Trust Fund (FUTF). State benefits were funded from State Taxes. The State's administrative expenditures incurred under this Program are funded by Federal grants. Expenditures reported on the accompanying schedule for the UI Program are identified in the following table.

Federal Administration	\$87,987,924
Federal Benefits Ex-Military/Federal Employees	\$3,904,163
Federal Benefits Emergency	\$19,011
Federal Benefits TRADE/Disaster	\$1,577,523
State Benefits funded by State Taxes	<u>\$399,671,700</u>
	<u>\$493,160,320</u>

NOTE 4 - LOANS AND LOAN GUARANTEES

NOTE 4 - LOANS AND LOAN GUARANTEES

The State of Florida participates in several Federal loan programs in which funds are provided through the State to eligible program participants.

- **State Infrastructure Bank (CFDA No. 20.205)**

The Federal State Infrastructure Bank (SIB) for the Highway Planning and Construction Program (CFDA No. 20.205) is an investment fund from which loans and other forms of credit assistance are provided for highway construction, transit capital, or other surface transportation projects. The Federal share (80 percent) of SIB disbursements made during the 2016-17 fiscal year totaled \$3,166,476. Of this amount, \$1,307 was reported on the 2015-2016 SEFA as the Federal share (80 percent) of SIB accruals for the 2015-16 fiscal year. The Federal Share (80 percent) of SIB accruals for the 2016-17 fiscal year total \$11,231,129. The total of \$14,396,298 is included on the accompanying schedule with other expenditures from the Highway Planning and Construction Program. The federal portion (80 percent) of the outstanding balance of the SIB loans at June 30, 2017 totaled \$33,289,045.

- **Federal Family Education Loans (CFDA No. 84.032)**

Under the Federal Family Education Loans (FFEL) Program, the U.S. Department of Education guarantees the repayment of loans made to students by participating financial institutions. The Florida Department of Education administers the FFEL Program (CFDA No. 84.032) for the State. During the 2016-2017 fiscal year, payments made to lenders to cover student loans in default totaled \$77,259,611. The value of outstanding loans guaranteed at June 30, 2017, totaled \$792,774,296.

- **Higher Education Loans**

The table below summarizes activity by the state for federally funded student loan programs.

CFDA Number	Program Name	Current Year Disbursements	Value of Loans Outstanding
84.032	Federal Family Education Loans	\$77,259,611	\$ 792,774,295
84.038	Federal Perkins Loan Program Federal Capital Contributions	\$246,561	\$75,362,251
84.142	College Housing and Academic Facilities Loans	-	\$804,000
84.268	Federal Direct Student Loans	\$2,014,540,487	-
93.264	Nurse Faculty Loan Program (NFLP)	\$ 923,781	\$1,222,547
93.342	Health Professions Student Loans, Including Primary Care Loans/Loans for Disadvantaged Students	-	\$4,865,322
93.364	Nursing Student Loans	-	\$55,391
93.408	ARRA - Nurse Faculty Loan Program	-	\$10,561
	Totals	<u>\$2,092,970,440</u>	<u>\$875,094,366</u>

Other Reports

The Auditor General reports below include findings and information that may enhance the reader's understanding of the State of Florida's administration of Federal awards.

Report Type/Number	Report Title	Date of Report
Information Technology Operational Audit/2018-025	Florida Accounting Information Resource Subsystem (FLAIR) and Origami Risk Insurance Management System (Origami)	October 2017

Audit reports prepared by the Auditor General can be obtained through our Web site (FLAuditor.gov).
