2016-002	Governmental Activities; Health and Family Services Fund - Long-term liabilities, Due within one year and Net position – beginning, as restated; Receivables, net, and Unavailable revenue	The FAHCA, Bureau of Financial Services (Bureau), did not record a prior-period adjustment for the correction of an error in previously issued financial statements. In addition, the Bureau did not record a receivable for the portion of the amount due to Medicaid managed care providers that was to be reimbursed by the U.S. Department of Health and Human Services (USDHHS).	Fully Corrected	The FAHCA Bureau will work with the Division of Medicaid, the division responsible for the identification and correction of errors in the Florida Medicaid Management Information System (FMMIS), to identify all known corrections to provider payments that may result in a correction to previously issued financial statements. For purposes of the statewide financial statements, the materiality level will be set at \$1 million. Anita Hicks (850) 412-3815
2016-038 2015-019 2014-037	Children's Health Insurance Program (CHIP) CFDA No. 93.767 Medicaid Cluster CFDA Nos. 93.775, 93.777, and 93.778	General information technology (IT) controls for the Florida Medicaid Management Information System (FMMIS) need improvement. Fully Corrected	The FAHCA has added a second level review to the CMIA clearance patterns reporting process to ensure complete and accurate accounting codes are submitted to FDFS. Anita Hicks (850) 412-3815
2016-040	Children's Health Insurance Program (CHIP) CFDA No. 93.767	The FAHCA did not modify the subaward agreement to notify the subrecipient of CHIP funds that, as of December 2014, the terms and conditions of the Federal award had been revised.	Partially Corrected	To ensure the CHIP Federal subaward is clearly identified to the subrecipient at the time of the subaward and any subsequent changes, the Agency developed a Federal Award Notification form addressing specified requirements identified in 2 CFR 200.331(a), Requirements for Pass-through Entities. On January 30, 2017, the Agency notified the

2016-044 2015-041	Medicaid Cluster CFDA Nos. 93.775, 93.777, and 93.778	The FAHCA computer system used to store all Medicaid Program Integrity (MPI) complaints and cases, the Fraud and Abuse Case Tracking System (FACTS), did not appear to store all complaints received and cases established during the 2015-16 fiscal year. 2015-033 2014-038 2013-051 FA 12-062 FA 11-062 FA 10-060	Refugee and Entrant Assistance – State Administered Programs (REAP) CFDA No. 93.566 Medicaid Cluster CFDA Nos. 93.775, 93.777, and 93.778	The FAHCA continued to record medical assistance related payments to incorrect appropriation categories in the State's accounting records.	Fully Corrected	The FAHCA continues to make every effort within its control to ensure that medical assistance related payments are accurately recorded in the State's accounting records. The FAHCA implemented an Electronic Fund Transfer (EFT) process for the payment of the medical assistance related payments allowing payments to be posted against the correct category at the time of vouchering if release, budget, and cash are sufficient. If release or budget is not available for the posting of expenditures, a budget amendment approved by the Legislative Budget Commission is required. The Agency submits budget amendments, at least twice yearly, to conform budget to the latest results of the Social Services Estimating Conference for Medicaid Expenditures. Anita Hicks (850) 412-3815
2015-035 2014-039	Children's Health Insurance Program (CHIP) CFDA No. 93.767 Medicaid Cluster CFDA Nos. 93.775, 93.777, and 93.778	The FAHCA did not always calculate Federal funds draws or related expenditures correctly. Additionally, the FAHCA did not always limit Federal funds draws to amounts needed for immediate cash needs.	Fully Corrected	The FAHCA continues to refine its federal draw process through automation, training, quality and secondary reviews, collaboration with contract managers and other subject matter experts. The FAHCA continues to make every effort to limit federal funds draws to the amount needed for immediate cash needs; however, there are specific occasions when the FAHCA must make its federal funds draws using estimated expenditures. On those occasions when estimated expenditures are used, the FAHCA have measures in place to true up any surpluses or shortages. Anita Hicks (850) 412-3815

FOR THE FISCAL YEAR ENDED JUNE 30, 2017

<u>Finding No(s). (1)</u>	<u>Program/Area</u>	<u>Brief Description</u>	<u>Status of Finding</u>	<u>Comments</u> (Include <i>reason for recurrence</i> and planned corrective actions)
2016-043 2015-039	Medicaid Cluster CFDA Nos. 93.775, 93.777, and 93.778	The FAPD did not always ensure that continued stay reviews were conducted every 6 months for beneficiaries of Intermediate Care Facility Services for the Developmentally Disabled. (ICF-DDs).	Partially Corrected	FAPD issued a Request for Information to ascertain if there are vendors interested in contracting to provide the UR/CSR function. FAPD will submit a Request for Proposal (RFP) by the end of the summer to procure a vendor to administer the UR/CSR process. Regional FAPD offices hired temporary OPS positions to help support the workload issue. These temporary positions will be dedicated to the completion of Continued Stay Reviews. FAPD conducts monthly Medical Case Manager conference calls (Statewide and Regional) for staff (including supervisors). ICF UR/CSR is a standard topic on the agenda. AHCA promulgated their revisions to the ICF Handbook and the State Plan July 2016. The Handbook does not address procedure. FAPD does not have rule making authority specific to the ICFs. FAPD continues to work with AHCA regarding AHCA promulgating rules for the ICF UR/CSR process. FAPD continues to monitor Regional completion of Continued Stay Reviews and Certificates of Need completed by the facilities. FAPD has worked on an updated CSR form and procedure but has not moved further until the RFP process is complete.

<u>Finding No(s). (1)</u>	<u>Program/Area</u>	<u>Brief Description</u>	<u>Status of Finding</u>	<u>Comments</u> (Include reason for recurrence and planned corrective actions)
2016-006	Child Nutrition Cluster CFDA Nos. 10.553, 10.555, 10.556, and 10.559	The FDACS did not always correctly report sponsor data in the U.S. Department of Agriculture (USDA), Food and Nutrition Service (FNS), FNS-10 <i>Report of School Program Operations</i> .	Not Corrected	FDACS has developed enhanced procedures to ensure all amounts in each Part of the FNS-10 will be correctly reported in the future. All information reported in the FNS-10 is subject to revision based on audits, investigations, or management evaluations, and amounts may alter from month to month as Program Operators make administrative adjustments; however, the FNS-777 report, which is submitted to the U.S. Department of Agriculture following the end of the 4th quarter of the fiscal year reconciles the monthly FNS-10 amounts with final financial data for all Child Nutrition Cluster programs. It is considered the final financial reconciliation and closeout for each fiscal year. Part B of the FNS-10 for October 2015 has been revised to reflect the most up to date information from FANS for that reporting period, including revisions as described above.
2016-007	Child Nutrition Cluster CFDA Nos. 10.553, 10.555, 10.556, and 10.559	FDACS procedures were not adequate to ensure that subrecipient audit reports were obtained and reviewed for all subrecipients and subrecipient deficiencies were timely followed up on.	Fully Corrected	As identified in the Office of the Chief Inspector General Report 2016-02, Enterprise Assessment of Single Audit Act Activities Across Selected State Agencies, the State of Florida does not maintain a public database of completed Single Audit Reports. In lieu of a central repository, FDACS will continue to utilize Child Nutrition Cluster reimbursement data from the prior fiscal year to identify subrecipients who are most likely to expend \$750,000 or more in Federal awards each fiscal year. FDACS will contact each identified subrecipient to determine whether an audit is required. FDACS will also conduct monthly reviews of the audit tracking log to ensure all subrecipient audit reports are obtained, reviewed, and timely followed up on.

2016-008	Child Nutrition Cluster CFDA Nos. 10.553, 10.555, 10.556, and 10.559	The FDACS did not notify Child Nutrition Cluster sponsors that, as of October 1, 2015, the terms and conditions of the Federal award had been revised.	Fully Corrected	FDACS has established a temporary procedure to annually notify its subrecipients of the Federal Award Identification Number (FAIN); the Federal Award Date; and the Subaward Period of Performance Start and End Date of each Federal award as specified in 2 CFR 200.331(a). This information is available for Fiscal Year 2016-2017 in the "Download Forms" section of the Florida Automated Nutrition System (FANS) under the "Federal Award Information" tab. Subrecipients were advised of the availability of this information through the FDACS weekly communication. Moving forward, FDACS will notify subrecipients on November 1st annually using the same procedure until final guidance is received from the U.S. Department of Agriculture.

Fully Corrected	To prevent future year end taxes receivable and the related distributions from not being recorded in the financial statements, the agency's Bureau of Finance and Accounting has updated the year-end checklist. It now includes confirmation of the taxes receivable from the Alcohol Beverage & Tobacco Cigarette Tax Collection Trust Fund and at the same time compares the year end trial balance from the prior year to the current year to make sure the receivable has been recorded with the related distributions to other state agencies. Additional supervisory review has also been built into the process.

(A) Partially Corrected	All corrective actions have been implemented as noted below: <ul style="list-style-type: none"> On September 26, 2016, the Department implemented a data exchange system enhancement which does the following: <ul style="list-style-type: none"> No longer allows staff to authorize or deny benefits at application, renewal or when processing a change when there are un-reviewed/unworked or pending data exchange (DE) responses (including IEVS DE responses). This ensures that all DEs associated with a case are reviewed/worked at the time action is taken on the case. No longer allows DEs to be in a pending status. Prior to the system enhancement, although action (in most instances timely) had been taken on DEs as denoted by their pending status, this status did not stop the clock for DE processing days. With this enhancement, the clock for processing days stops once action is taken on the DE. FOR THE FISCAL YEAR ENDED JUNE 30, 2017**

<u>Finding No(s). (1)</u>	<u>Program/Area</u>	<u>Brief Description</u>	<u>Status of Finding</u>	<u>Comments</u> (Include <i>reason for recurrence</i> and planned corrective actions)
2016-010 2015-006	Unemployment Insurance (UI) CFDA No. 17.225	The FDEO did not always ensure that UI benefit payments were made only to eligible claimants.	Not Corrected	<p>The FDEO has identified an enhancement that is presently in progress to address this finding.</p> <p>The enhancement was originally scheduled to be implemented in April 2017. However, due to additional business requirements identified during design analysis discussions, the change should be implemented by October 2017. This will address programmatic changes needed to display all of the details entered by the claimant that are captured in the database during the Continued Claims process on the PDF.</p> <p>Several fields are required to be entered by the claimant during the continued claim process, but only the date of contact, employer name, person contacted, phone, email, method of contact and comments are displayed on the PDF.</p> <p>Additional corrections will be made to the validation logic for the work search fields (i.e. If the claimant indicated "In-Person" method of contact, the claimant would be required to enter the Employer's address). Also, messaging and validation logic will be updated to prevent claimants from entering the same employer multiple times in one week.</p>
2016-011 2015-007 2014-009	Unemployment Insurance (UI) CFDA No. 17.225	Data reported on quarterly Federal Financial Reports (FFRs) was not always accurate, complete, or adequately supported. Populations 12-15 have been submitted and passed.</p> <p>A programming correction was made to the way data was pulled for <i>Section B. Overpayments Established - Methods of Detection</i>. This resulted in the discovery of another issue currently being addressed. Once that issue is resolved, the prior reports will be re-run and re-submitted.</p>

<u>Finding No(s). (1)</u>	<u>Program/Area</u>	<u>Brief Description</u>	<u>Status of Finding</u>	<u>Comments</u> (Include <i>reason for recurrence</i> and planned corrective actions)
2016-012 2015-008 2014-010	Unemployment Insurance (UI) CFDA No. 17.225	The FDEO could not provide complete records to demonstrate that benefit overpayments were properly identified. In addition, the FDEO did not always accurately identify overpayments or recover overpayments through an offset against UI benefit payments.	Partially Corrected	Collection Agency files are run as required. FDEO continues to identify and implement enhancements to improve the processing of data. The Department is currently working to provide the monthly data to the Auditor General to ensure accurate data is provided for overpayment listings included in future audits due to use of live data.
2016-013 2015-009 2014-011	Unemployment Insurance (UI) CFDA No. 17.225	The FDEO did not follow established benefit accuracy measurement (BAM) case investigation procedures and methodology to meet Federal BAM program testing requirements.	Partially Corrected	BAM samples are completed weekly as required by USDOL. As of June 26, 2017, batches 201627 through 201725 have been assigned. Paid/Denied case investigations through Batch 201717 have been completed. Batch 201717 was completed before its sixty-day timeliness due date of June 28, 2017. Florida's sixty-day case completion time lapse for paid case accuracy is 99.75% and 98.99% for denied case accuracy through batches 201719. A fix is in progress to retain the NDNH Crossmatch documentation as applicable in the BAM Case file. The Internal DEO BAM Manual has been revised to comply with the Auditor's recommendations. Internal staff training was conducted in-person by USDOL in March 2016. Recently hired auditor(s) will be attending BAM Investigator Training provided by USDOL in Dallas, September 11-15, 2017. In addition, internal BAM Investigator Training will be conducted August 16 th -17 th 2017 for all BAM staff.
2016-032 2015-027	Temporary Assistance for Needy Families (TANF) Cluster CFDA No. 93.558	The FDEO did not modify subaward agreements to notify subrecipients of changes in Federal regulations.	Fully Corrected	Starting April 1, 2017, FDEO began communicating applicable Federal regulations and any changes in required award information through FDEO's Notices of Award/Notice of Fund Availability (NFAs) rather than amending the subaward agreements each time there is a change in Federal regulations.  FOR THE FISCAL YEAR ENDED JUNE 30, 2017

<u>Finding No(s). (1)</u>	<u>Program/Area</u>	<u>Brief Description</u>	<u>Status of Finding</u>	<u>Comments</u> (Include <i>reason for recurrence</i> and planned corrective actions)
2016-018	Migrant Education – State Grant Program (MEP) CFDA No. 84.011	The FDOE did not always maintain documentation demonstrating that access to the U.S. Department of Education Migrant Student Information Exchange (USDOE MSIX), the Florida Migrant Student Information exchange (FLMSIX), and the FDOE Monitoring System was only granted to authorized users and that the access privileges granted were appropriate.	Fully Corrected	To address the issues surrounding appropriate access to USDOEMSIX and FLMSIX, our Federal Programs Unit has created user access forms. Additionally, the Federal Programs Unit has developed policies and procedures around Acceptable Use as well as developed communications (MSIX User Access Guide and Application) that outline guidance for obtaining access to MSIX. Further, the business unit has drafted guidance around granting and documenting authorized user access and appropriate user privileges to MSIX and FDOE Monitoring System which is expected to be fully implemented by September 30th. In addition, FDOE-IT has developed draft procedures requiring business units to review existing authorized users and expired user removals across each application.
2016-019	Migrant Education – State Grant Program (MEP) CFDA No. 84.011	The FDOE needs to improve certain information technology (IT) security controls related to user authentication for the Florida Migrant Student Information Exchange (FLMSIX) and FDOE Monitoring System.	Fully Corrected

<u>Finding No(s). (1)</u>	<u>Program/Area</u>	<u>Brief Description</u>	<u>Status of Finding</u>	<u>Comments</u> (Include <i>reason for recurrence</i> and planned corrective actions)
2016-020	Migrant Education – State Grant Program (MEP) CFDA No. 84.011	The FDOE did not adequately ensure that subrecipients utilized MEP funds to supplement and not supplant non-Federal funds.	Fully Corrected	To ensure LEAs utilized MEP funds for supplemental purposes, FDOE conducted desktop monitoring on LEAs based on their risk score. LEAs that had high scores were selected for desktop monitoring. FDOE notified the LEAs selected for desktop and requested such selected LEAs to submit necessary documentation for review. LEAs submitted a completed set of monitoring work papers by answering the questions for all applicable items and uploaded the supporting documentation to the FDOE online monitoring system. FDOE reviewed all supporting documentation to ensure LEAs are in compliance with federal and state laws and to ensure supplement, not supplant requirements are met.
2016-021	Migrant Education – State Grant Program (MEP) CFDA No. 84.011	FDOE records did not evidence that required subrecipient monitoring was sufficient to determine compliance with applicable program requirements.	Fully Corrected	The Migrant Education Program implemented a process whereby it now saves the monitoring reports on a shared drive to ensure that reports are available and accessible to all staff. This change was done to ensure that regardless of monitoring application issues that prohibit access to prior year data, these reports would be available.

FOR THE FISCAL YEAR ENDED JUNE 30, 2017

<u>Finding No(s). (1)</u>	<u>Program/Area</u>	<u>Brief Description</u>	<u>Status of Finding</u>	<u>Comments</u> (Include <i>reason for recurrence</i> and planned corrective actions)
2016-035 2015-029	Child Support Enforcement CFDA No. 93.563	The FDOR did not adequately ensure that service organization internal controls related to the State Disbursement Unit's (SDU) processing of child support obligation collections and disbursements were appropriately designed and operating effectively.	Partially Corrected	The SDU contract, executed on January 8, 2016, requires the SDU contractor (SMI) to obtain annual Service Operational Controls (SOC) 1 and SOC2 audits and provide the results to the Department. SOC1 and SOC2 audits were received on June 30, 2017, from SMI and are under review by the Program.
2016-036 2015-030	Child Support Enforcement CFDA No. 93.563	The FDOR did not always ensure that required subrecipient audits were completed, timely received, and reviewed and that determinations were made regarding whether management decisions and corrective actions were required. Additionally, the FDOR did not always evaluate each subrecipient's risk of noncompliance.	Partially Corrected	Procedures implemented May 10, 2016, require the contract manager to ensure subrecipient quarterly audit reports, as performed by the CPA firm under contract to the FACC, and other audits required by 45 CFR 75.352 (f) and (g) are timely received, reviewed, and a corrective action process is implemented, if required. The Child Support Program Subrecipient Federal Award Notification and Single Audit Review Procedure was approved and posted March 28, 2017. All subrecipient Single Audit assessments for Federal FY2014/15 have been completed with no findings identified by the Child Support Program. Subrecipient Single Audit assessments for FFY2015/16 began June 1, 2017, and were completed in July 2017.
2016-037 2015-031	Child Support Enforcement CFDA No. 93.563	The FDOR did not modify subaward agreements to notify subrecipients that the terms and conditions of the Federal award had been revised. SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS FLORIDA DEPARTMENT OF TRANSPORTATION (FDOT) FOR THE FISCAL YEAR ENDED JUNE 30, 2017

<u>Finding No(s). (1)</u>	<u>Program/Area</u>	<u>Brief Description</u>	<u>Status of Finding</u>	<u>Comments</u> (Include reason for recurrence and planned corrective actions)
2016-001	Transportation Governmental Fund – Accounts payable and accrued liabilities; Expenditures Current: Transportation	The FDOT did not record a liability and expenditure for certain goods and services received during the fiscal year that had not been paid for by fiscal year end.	Fully Corrected	Fully Corrected: The Unrecorded Payables (URP) process for year-end has been reviewed for adequacy and a meeting was held on 05/23/17 to discuss roles and responsibilities. The Department will completely adhere to its established procedures to ensure the appropriate accrual of liabilities and expenditures at fiscal year-end. The URP process takes place during July and August of each year.
2016-014 2015-010	Highway Planning and Construction Cluster CFDA Nos. 20.205, 20.219, and 23.003	The FDOT did not always meet the Federal matching requirement for Highway Planning and Construction Cluster funded projects and incorrectly reported matching amounts to the Federal Highway Administration (FHWA).	Partially Corrected	Partially Corrected: Additional errors were identified by the Department in May 2017 which needed programming fixes, and fixes to diagnostic reports to ensure logic in diagnostic reports were consistent with logic in FAMS (Federal Authorization Management System). Fixes were implemented in June 2017 and final reports were run on June 30, 2017 for all years needing corrections. The Federal Aid Management Office (FAMO) will wait until the end of July 2017 and pull diagnostic reports for all federal projects which closed in June 2017, to ensure no errors are reported for the month after the final fixes and report adjustments have been implemented. If diagnostic reports for July 2017 are clean, the Department FAMO will meet with FHWA Florida Division Office staff to review needed corrections for prior years. FHWA has already approved our methodology for making said corrections.
2016-015	Highway Planning and Construction Cluster CFDA Nos. 20.205, 20.219, and 23.003	Prior to awarding contracts involving Highway Planning and Construction Cluster funds, the FDOT did not always obtain conflict of interest forms from employees taking part in contract procurement activities.	Fully Corrected	Fully Corrected: For 7 of the 18 construction contracts reviewed as part of this audit, it was discovered that 5 various members of the Technical Review and/or Contract Awards Committee did not sign the Conflict of Interest form as required by FDOT procedure 375-000-001-w. Through prosecution of the audit, all missing signatures were obtained on the appropriate Conflict of Interest forms and provided to the audit team. Prior to award of contracts since this issue was discovered through the audit, it has been confirmed that all members of the Technical Review and/or Contract Awards Committee have completed the required Conflict of Interest form.

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
FLORIDA DEPARTMENT OF TRANSPORTATION (FDOT)
FOR THE FISCAL YEAR ENDED JUNE 30, 2017

<u>Finding No(s). (1)</u>	<u>Program/Area</u>	<u>Brief Description</u>	<u>Status of Finding</u>	<u>Comments</u> (Include <i>reason for recurrence</i> and planned corrective actions)
2016-016 2015-011	Highway Planning and Construction Cluster CFDA Nos. 20.205, 20.219, and 23.003	The FDOT did not always obtain a Job Guide Schedule (JGS) as required by the Quality Assurance Program for Construction (QAPC) approved by the Federal Highway Administration (FHWA). As a result, the FDOT could not provide documentation demonstrating that required sampling and testing had been performed.	Fully Corrected	Fully Corrected: The Department State Materials Office (SMO) initiated an immediate corrective action plan, commencing on or about February 2, 2016. The results of the follow-up audit indicated two of the eleven projects closed prior to 2/2/16 and were not part of the correction plan as they were Final Accepted and Certified prior to the generation of the list of "active" contracts on February 2, 2016. All of the fourteen projects that closed after 2/2/16 were accompanied with a JGS. We see this as evidence that the corrective action was effective. As a response to the root cause of the occurrence, the SMO has implemented a new Sampling and Testing database – the Material Acceptance and Certification system (MAC). One of the features of MAC is that the operations are driven by the JGS. For conventional pay items contracts, the JGS is devised from the pay items transferred from the Site Manager (SM) system. For Lump Sum contracts, the JGS must be created by the contractor in the MAC system. MAC requires a JGS so that samples entered into the system can be assigned the appropriate tests. Therefore, if a contract does not have a JGS, samples for test cannot be entered into the system. By specifications, the responsibility for the creation of the JGS falls to the contractor. Therefore, by reference, it is the contractor's responsibility to enter the JGS into MAC. A check of this is the comparison sampling and testing performed by the Verification Technician (VT), a representative of the FDOT. If the VT cannot enter the sample taken as verification to the contractor's work, then the contractor will be instructed to complete the required MAC activity or be in violation of contract requirements.
2016-017 2015-012 2014-014	Federal Transit Cluster CFDA Nos. 20.500, 20.507, 20.525, and 20.526	The FDOT did not always report program income amounts in quarterly Federal Financial Reports (FFRs).	Partially Corrected	Partially Corrected (Update 2/02/18): Starting with 3 rd Quarter 2016 program income has been reported in FFRs. This includes 1 st Q & 2 nd Q 2017. New procedures are in place going forward that will resolve this issue.

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS FLORIDA DIVISION OF EMERGENCY MANAGEMENT (FDEM) FOR THE FISCAL YEAR ENDED JUNE 30, 2017

<u>Finding No(s). (1)</u>	<u>Program/Area</u>	<u>Brief Description</u>	<u>Status of Finding</u>	<u>Comments</u> (Include <i>reason for recurrence</i> and planned corrective actions)
2016-049	Homeland Security Grant Program CFDA No. 97.067	The FDEM did not obtain periodic certifications for employees whose salaries and benefits were paid solely from HSGP funds.	Partially Corrected	The DHS Grants Unit continues to work with Human Resource to put the appropriate codes in PeopleFirst to provide monthly certifications for all persons being paid out of the DHS grant programs (SHSGP, UASI, NPSG and OPSG). In April 2017, the grants unit underwent a reorganization and added additional grant programs (EMPG, EMPA, HMEP, LEPC, HA) to include new grant staff. The three individuals (Powell, Lyons and Warner) were not part of the original finding – all with the exception of Powell (who is no longer in the unit). New staff will be instructed to use appropriate coding in PeopleFirst, and January 2018 PeopleFirst timesheets will be updated.
2016-050	Homeland Security Grant Program CFDA No. 97.067	The FDEM could not always demonstrate that, prior to entering into covered transactions with subrecipients, the FDEM determined that the subrecipients were not suspended or debarred by the Federal Government.	Fully Corrected	After the exit briefing from the last federal audit, Grants Managers visited SAM.gov to verify that all grant recipients were not suspended or debarred by the Federal Government. Prior to issuing FY2017 grants, GMs have again visited Sam.gov and confirmed recipients are not debarred and form has been added to grant file.
2016-051	Homeland Security Grant Program CFDA No. 97.067	FDEM procedures were not significant to ensure that quarterly Federal Financial Reports (FFRs) were properly completed. As a result, the FDEM submitted FFRs during the 2015-16 fiscal year that were inaccurate.	Fully Corrected	We have updated our internal Federal Reporting (Preparation, Review and Approval) procedures to allow more time for the supervisor of the Financial Grants Management Section, to review the reports submitted by the analysts, at least one week prior to the due date of the reports. This change was provided to the Financial Grants Management Section employees and highlighted for them.
2014-042	Disaster Grants – Public Assistance (Presidentially Declared Disasters) CFDA No. 97.036 Hazard Mitigation Grant Program CFDA No. 97.039	The FDEM did not always maintain documentation to ensure that access to the FloridaPA.org and Mitigation.org applications was accessible only to users.	Partially Corrected	The Division has created a draft procedure to ensure that all IT systems and applications are accessible only to authorized users and for authorized purposes. IT is in the process of having this procedure approved through the Division's Standard Operating Procedure.

<u>Finding No(s). (1)</u>	<u>Program/Area</u>	<u>Brief Description</u>	<u>Status of Finding</u>	<u>Comments</u> (Include <i>reason for recurrence</i> and planned corrective actions)
2014-045	Homeland Security Grant Program CFDA No. 97.067	The FDEM did not always require adequate documentation be submitted by subgrantees to substantiate amounts requested for reimbursement. Additionally, a subgrantee was reimbursed for payments for unused leave directly from the Program, contrary to Federal regulations.	Fully Corrected	The Bureau of Preparedness has created a Sub-Recipient Monitoring Plan and Procedures Handbook to ensure HGSP award funds are timely obligated and document the date sub award contracts are submitted to units of local government.

2015-083	Student Financial Assistance Cluster CFDA Nos. 84.063 and 84.268	The College did not always accurately and timely report enrollment status changes to the NSLDS for Pell grant recipients and Direct Loan student borrowers.	Partially Corrected	As of 10/31/17 corrective action was completed. As the result of a prior findings in this area, the College transitioned from reporting enrollment data through the National Student Clearinghouse to reporting directly to NSLDS. SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
FLORIDA KEYS COMMUNITY COLLEGE (FKCC)
For the Fiscal Year Ended June 30, 2017

<u>Finding No(s). (1)</u>	<u>Program/Area</u>	<u>Brief Description</u>	<u>Status of Finding</u>	<u>Comments</u> (Include reason for recurrence and planned corrective actions)
2015-067	Student Financial Assistance (SFA) Cluster CFDA 84.063	Satisfactory Academic Progress policies and procedures were not always adequate to ensure students were eligible to receive Title IV HEA funds.	Fully Corrected	The only item outstanding was guidance from Florida Department of Education regarding one student. The issue has been resolved and the student was in fact eligible for the aid received as there was an approved Financial Aid appeal on file.
2015-071	SFA Cluster CFDA 84.268	The College did not document the required notice to Direct Loan student or parent borrowers as required by Federal regulations.	Fully Corrected	As of September 1, 2016 students also receive an email (in addition to providing written notice on semester schedules/bills) after loans are disbursed notifying them of their right to loan cancelation and the corresponding process.
2015-075	SFA Cluster CFDA Nos. 84.063 and 84.268	The College did not always timely identify, calculate, and return unearned Title IV HEA funds for students who officially and unofficially withdrew.	Partially Corrected	Financial aid consultants assisted the College in clearly determining/defining the last day of students' attendance for use in R2T4 calculations. <i>This is noted as Partially Corrected due to only <u>five</u> students from fall 2016. The College understood the regulation to permit exclusion of Winter Break days in the 30 day timeframe.</i>
2015-082	SFA Cluster CFDA Nos. 84.063 and 84.268	Documentation evidencing student attendance in at least one class or academically-related activity was not always available for students who received Title IV HEA funds. Also, the College did not timely return the Title IV HEA funds to the applicable Federal programs.	Partially Corrected	Financial aid consultants assisted the College in reviewing nonattendance compliance and procedures. In addition to enhanced procedures already in place (to separate processes for instructor notification of withdrawal for nonattendance and excessive absences) the College further enhanced the procedure for nonattendance by including a mandatory Participation Verification process. All faculty must submit a Participation Verification Form to the Assistant to the Vice President of Academic Affairs no later than 24 hours of the last day to drop per term. The forms are then submitted to Enrollment Services to adjust the registration status prior to census to WN (Withdraw for Never Attending) for students who never attended. Once the registration status is changed to a WN, Banner automatically removes attending hours for those courses adjusted. As a result, Financial Aid awards will reduce and reflect amounts for confirmed participation hours only. <i>This is noted as Partially Corrected due to only <u>one</u> student during 2016-17; the issue is otherwise fully corrected.</i>

2015-070	Student Financial Assistance Cluster CFDA Nos. 84.063 and 84.268	Procedures to timely return unclaimed Title IV HEA funds to applicable Federal programs needed improvement. These procedures were implemented during the latter part of FY16 and were fully implemented during FY17. We have also worked with our student refund disbursement provider to reduce the number of days in which we are notified of an unclaimed refund. Fully Corrected	<p>A review of 26 files each semester by the College's Director of Business Processes, Renae Tolson, and the Director of Financial Aid, Bill Spiers. The reviews confirm that all required documents have been provided, any necessary changes to an award have been made, and by whom and why, and any issues or concerns are noted in the report. The Director of Financial Aid runs the TCA009BF report by term, which includes all students with Title IV Aid. Various	Certain access controls protecting the College's IT resources needed improvement	Fully Corrected	<p>While Financier has limited options for security, and because of overlaps in how the system works, it is difficult to remove certain accesses without negatively impacting staff from performing job responsibilities. Security access is regularly reviewed by the Director of Financial Aid. Over the past year, limited changes were made to access to ensure staff members who do not need access to specific areas only have read access. Issues found in the prior review that could be addressed were addressed, and necessary changes were made. Compensating controls for computer access include the following:</p> <ul style="list-style-type: none"> • A bi-monthly review of access to staff members. FIW818B2 is run every few months with a full review access at that time. In other months a review of staff with general access is performed to see if people need to have access removed.
