

STATE OF FLORIDA AUDITOR GENERAL

Financial Audit

PASCO-HERNANDO STATE COLLEGE

For the Fiscal Year Ended
June 30, 2019

Sherrill F. Norman, CPA
Auditor General

Board of Trustees and President

During the 2018-19 fiscal year, Dr. Timothy L. Beard served as President of Pasco-Hernando State College and the following individuals served as Members of the Board of Trustees:

| | <u>County</u> |
|--|---------------|
| Robin Schneider, Chair from 7-17-18, Vice Chair through 7-16-18 | Hernando |
| Alvaro A. Hernandez, Vice Chair from 7-17-18 | Pasco |
| Dr. Rao Musunuru, Chair through 7-16-18 | Pasco |
| Raymond "Ray" E. Gadd Jr. | Pasco |
| Dr. David A. Garcia | Hernando |
| Dr. Jeffrey E. Harrington | Pasco |
| Lee Maggard | Pasco |
| John Richard Mitten | Hernando |
| Marilyn Pearson-Adams | Hernando |

The Auditor General conducts audits of governmental entities to provide the Legislature, Florida's citizens, public entity management, and other stakeholders unbiased, timely, and relevant information for use in promoting government accountability and stewardship and improving government operations.

The team leader was Marguerite B. Andrews, CPA, and the audit was supervised by Anna A. McCormick, CPA.

Please address inquiries regarding this report to Jaime N. Hoelscher, CPA, Audit Manager, by e-mail at jaimehoelscher@aud.state.fl.us or by telephone at (850) 412-2868.

This report and other reports prepared by the Auditor General are available at:

SUMMARY

SUMMARY OF REPORT ON FINANCIAL STATEMENTS

Our audit disclosed that the basic financial statements of Pasco-Hernando State College (a component unit of the State of Florida) were presented fairly, in all material respects, in accordance with prescribed financial reporting standards.

SUMMARY OF REPORT ON INTERNAL CONTROL AND COMPLIANCE

Our audit did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses.

The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*, issued by the Comptroller General of the United States.

AUDIT OBJECTIVES AND SCOPE

Our audit objectives were to determine whether Pasco-Hernando State College and its officers with administrative and stewardship responsibilities for College operations had:

- Presented the College's basic financial statements in accordance with generally accepted accounting principles;
- Established and implemented internal control over financial reporting and compliance with requirements that could have a direct and material effect on the financial statements; and
- Complied with the various provisions of laws, rules, regulations, contracts, and grant agreements that are material to the financial statements.

The scope of this audit included an examination of the College's basic financial statements as of and for the fiscal year ended June 30, 2019. We obtained an understanding of the College's environment, including its internal control, and assessed the risk of material misstatement necessary to plan the audit of the basic financial statements. We also examined various transactions to determine whether they were executed, in both manner and substance, in accordance with governing provisions of laws, rules, regulations, contracts, and grant agreements.

An examination of Federal awards administered by the College is included within the scope of our Statewide audit of Federal awards administered by the State of Florida.

AUDIT METHODOLOGY

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and applicable standards contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

INDEPENDENT AUDITOR'S REPORT

Report on the Financial Statements

We have audited the accompanying financial statements of Pasco-Hernando State College, a component unit of the State of Florida, and its discretely presented component unit as of and for the fiscal year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the College's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the discretely presented component unit, which represent 100 percent of the transactions and account balances of the discretely presented component unit columns. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the discretely presented component unit, is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the

assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of Pasco-Hernando State College and of its discretely presented component unit as of June 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matter

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that **MANAGEMENT'S DISCUSSION AND ANALYSIS**, the **Schedule of Changes in the College's Total Other Postemployment Benefits Liability and Related Ratios**, **Schedule of the College's Proportionate Share of the Net Pension Liability – Florida Retirement System Pension Plan**, **Schedule of College Contributions – Florida Retirement System Pension Plan**, **Schedule of the College's Proportionate Share of the Net Pension Liability – Health Insurance Subsidy Pension Plan**, **Schedule of College Contributions – Health Insurance Subsidy Pension Plan**, and **Notes to Required Supplementary Information**, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 19, 2020, on our consideration of the Pasco-Hernando State College's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, rules, regulations,

contracts, and grant agreements and other matters included under the heading **INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Pasco-Hernando State College's internal control over financial reporting and compliance.

Respectfully submitted,

Sherrill F. Norman, CPA
Tallahassee, Florida
March 19, 2020

MANAGEMENT'S DISCUSSION AND ANALYSIS

Management's discussion and analysis (MD&A) provides an overview of the financial position and activities of the College for the fiscal year ended June 30, 2019, and should be read in conjunction with the financial statements and notes thereto. The MD&A, and financial statements and notes thereto, are the responsibility of College management. The MD&A contains financial activity of the College for the fiscal years ended June 30, 2019, and June 30, 2018.

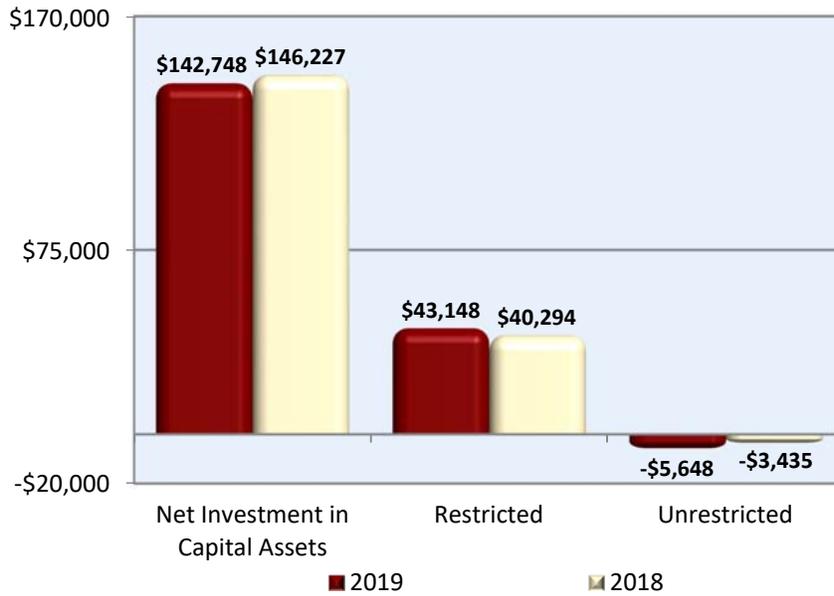

FINANCIAL HIGHLIGHTS

The College's assets and deferred outflows of resources totaled \$218.1 million at June 30, 2019. This balance reflects a decrease of \$5.5 million compared to the 2017-18 fiscal year mainly resulting from an increase in non-depreciable capital assets related to Construction in Progress of \$2.9 million, a decrease in depreciable capital assets of \$7.6 million, a decrease in deferred outflows of resources related to pensions of \$0.5 million, and a decrease of \$0.5 million in prepaid expenses. While assets and deferred outflows of resources decreased, liabilities and deferred inflows also decreased by \$2.6 million, or 6.4 percent, totaling \$37.9 million at June 30, 2019, compared to \$40.5 million at June 30, 2018. This is attributed to the dissolution of the consortium relationship between Pensacola State College and Pasco-Hernando State College (PHSC), resulting in a liability decrease of \$2.2 million in addition to a decrease in accounts payable of \$0.5 million, a decrease in short and long term debt of \$1.2 million consisting of debt principal payments, and an increase in deferred inflows of \$1.3 million mainly related to FRS pension plan investment earnings. Consequently, ending net position decreased \$2.8 million resulting in a year-end net asset balance of \$180.2 million.

The College's operating revenues totaled \$16.9 million for the 2018-19 fiscal year, representing a 6.1 percent increase compared to the 2017-18 fiscal year. The increase is mainly attributed to PHSC's share of funds received from the dissolution of the Florida College Computer Consortium of \$1.1 million. Operating expenses totaled \$80.4 million for the 2018-19 fiscal year, representing a decrease of 2.6 percent as compared to the 2017-18 fiscal year due to a decrease in materials and supply expense over the previous year of \$3.1 million related to non-capitalized repair and maintenance projects completed in the 2017-18 fiscal year which significantly increased those expenditures in the prior fiscal year and an increase of Personnel Services of \$1.7 million related to an net increase of 9.8 full-time equivalent (FTE) positions, an increase of \$0.4 million for health insurance premiums and an increase of \$0.1 million for employer contributions to the Florida Retirement System (FRS).

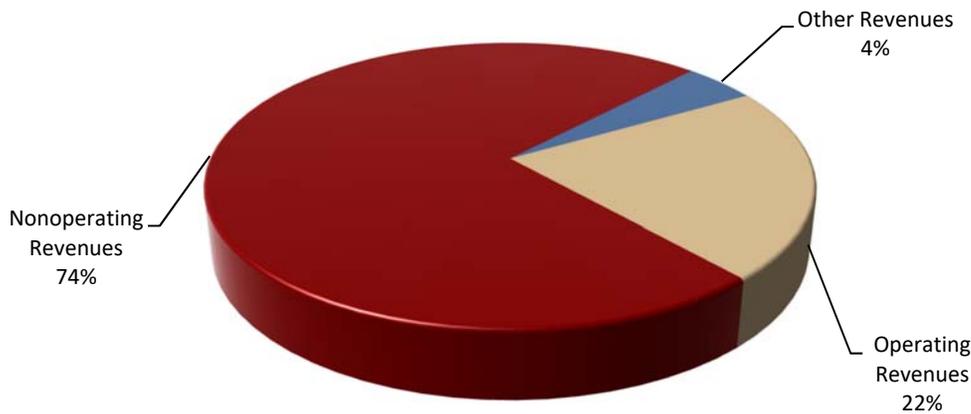

Net position represents the residual interest in the College's assets and deferred outflows of resources after deducting liabilities and deferred inflows of resources. The College's comparative total net position by category for the fiscal years ended June 30, 2019, and June 30, 2018, is shown in the following graph:

**Net Position
(In Thousands)**

The following chart provides a graphical presentation of College revenues by category for the 2018-19 fiscal year:

**Total Revenues
2018-19 Fiscal Year**

OVERVIEW OF FINANCIAL STATEMENTS

Pursuant to Governmental Accounting Standards Board (GASB) Statement No. 35, the College’s financial report consists of three basic financial statements: the statement of net position; the statement of revenues, expenses, and changes in net position; and the statement of cash flows. The financial statements, and notes thereto, encompass the College and its component unit, Pasco-Hernando State College Foundation, Inc. (Foundation). Although legally separate, this component unit is important because the College is financially accountable for it, as the College reports its financial activities to the

State of Florida. Based on the application of the criteria for determining component units, the Foundation is included within the College reporting entity as a discretely presented component unit.

Information regarding the Foundation including copies of their separately issued financial statements can be obtained from the Office of the Senior Vice President of Financial Operations and Chief Financial Officer, 10230 Ridge Road, New Port Richey, Florida 34654. This MD&A focuses on the College, excluding the discretely presented component unit. For this component unit reporting under GASB standards, MD&A information is included in its separately issued audit report.

The Statement of Net Position

The statement of net position reflects the assets, deferred outflows of resources, liabilities, and deferred inflows of resources of the College, using the accrual basis of accounting, and presents the financial position of the College at a specified time. Assets, plus deferred outflows of resources, less liabilities, less deferred inflows of resources, equals net position, which is one indicator of the College's current financial condition. The changes in net position that occur over time indicate improvement or deterioration in the College's financial condition.

The following summarizes the College's assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position at June 30:

Condensed Statement of Net Position at June 30 (In Thousands)

| | 2019 | 2018 |
|---------------------------------------|-------------------|-------------------|
| Assets | | |
| Current Assets | \$ 37,552 | \$ 42,186 |
| Capital Assets, Net | 145,035 | 149,670 |
| Other Noncurrent Assets | 24,302 | 20,003 |
| Total Assets | 206,889 | 211,859 |
| Deferred Outflows of Resources | 11,253 | 11,768 |
| Liabilities | | |
| Current Liabilities | 5,152 | 8,287 |
| Noncurrent Liabilities | 29,364 | 30,814 |
| Total Liabilities | 34,516 | 39,101 |
| Deferred Inflows of Resources | 3,378 | 1,440 |
| Net Position | | |
| Net Investment in Capital Assets | 142,748 | 146,227 |
| Restricted | 43,148 | 40,294 |
| Unrestricted | (5,648) | (3,435) |
| Total Net Position | \$ 180,248 | \$ 183,086 |

The College's assets and deferred outflows decreased \$5.5 million compared to the 2017-18 fiscal year resulting from a decrease in deferred outflows related to GASB Statements No. 68 and No. 75 reporting

of \$0.5 million, a net decrease in capital assets of \$4.6 million related to construction in progress and depreciation, and a \$0.5 million decrease in prepaid expenses.

Total liabilities and deferred inflows decreased by \$2.6 million over the previous year due to a decrease in deposits held for others of \$2.2 million related to the dissolution of the computer consortium account and the distribution of those funds, an increase of \$1.9 million in deferred inflows mainly related to FRS pension plan investment earnings, a decrease in short and long term debt of \$1.2 million consisting of debt and principal payments, and a decrease of \$0.9 million in accounts payable.

The Statement of Revenues, Expenses, and Changes in Net Position

The statement of revenues, expenses, and changes in net position presents the College's revenue and expense activity, categorized as operating and nonoperating. Revenues and expenses are recognized when earned or incurred, regardless of when cash is received or paid.

The following summarizes the College's activity for the 2018-19 and 2017-18 fiscal years:

Condensed Statement of Revenues, Expenses, and Changes in Net Position For the Fiscal Years

(In Thousands)

| | 2018-19 | 2017-18 |
|---|----------------|----------------|
| Operating Revenues | \$ 16,876 | \$ 15,902 |
| Less, Operating Expenses | 80,375 | 82,507 |
| Operating Loss | (63,499) | (66,605) |
| Net Nonoperating Revenues | 57,126 | 57,888 |
| Loss Before Other Revenues | (6,373) | (8,717) |
| Other Revenues | 3,535 | 6,264 |
| Net Decrease In Net Position | (2,838) | (2,453) |
| Net Position, Beginning of Year | 183,086 | 185,718 |
| Adjustments to Beginning Net Position | - | (179) |
| Net Position, Beginning of Year, as Restated | 183,086 | 185,539 |
| Net Position, End of Year | \$ 180,248 | \$ 183,086 |

Operating Revenues

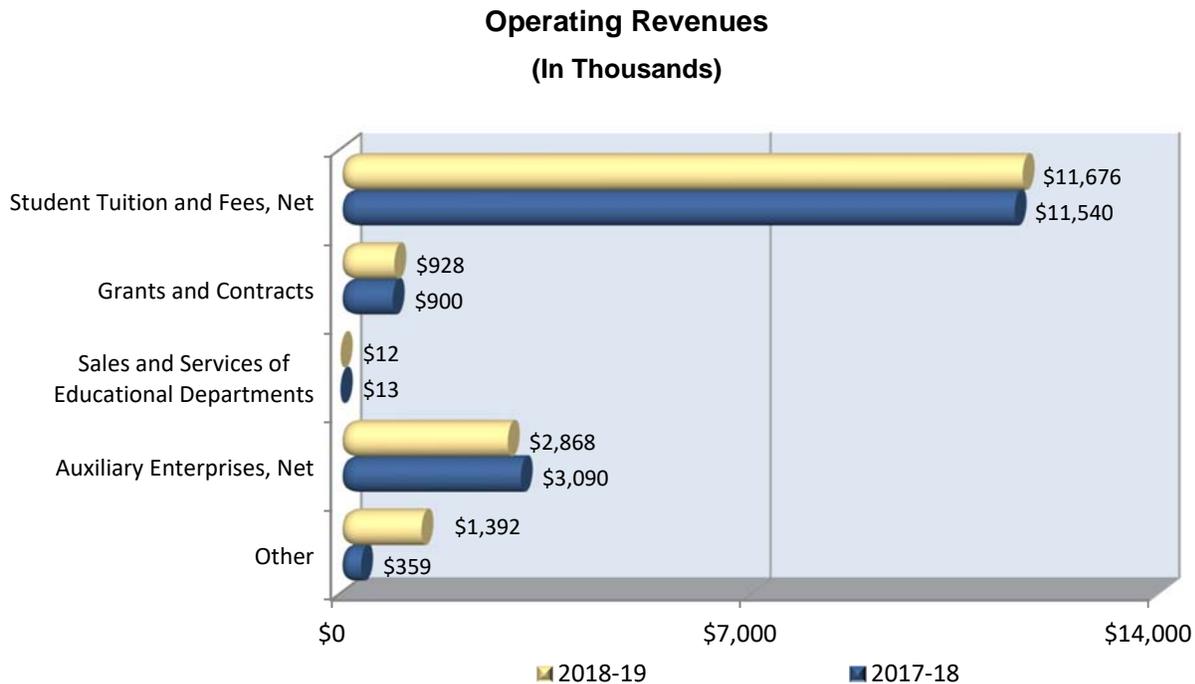

GASB Statement No. 35 categorizes revenues as either operating or nonoperating. Operating revenues generally result from exchange transactions where each of the parties to the transaction either gives or receives something of equal or similar value.

The following summarizes the operating revenues by source that were used to fund operating activities for the 2018-19 and 2017-18 fiscal years:

**Operating Revenues
For the Fiscal Years
(In Thousands)**

| | <u>2018-19</u> | <u>2017-18</u> |
|---|------------------|------------------|
| Student Tuition and Fees, Net | \$ 11,676 | \$ 11,540 |
| Grants and Contracts | 928 | 900 |
| Sales and Services of Educational Departments | 12 | 13 |
| Auxiliary Enterprises, Net | 2,868 | 3,090 |
| Other | 1,392 | 359 |
| Total Operating Revenues | \$ 16,876 | \$ 15,902 |

The following chart presents the College's operating revenues for the 2018-19 and 2017-18 fiscal years:

College operating revenue increased from the previous fiscal year by \$1 million due mainly to the receipt of funds for the College's portion of the Florida College Computer Consortium account held in conjunction with Pensacola State College.

Operating Expenses

Expenses are categorized as operating or nonoperating. The majority of the College's expenses are operating expenses as defined by GASB Statement No. 35. GASB gives financial reporting entities the choice of reporting operating expenses in the functional or natural classifications. The College has chosen to report the expenses in their natural classification on the statement of revenues, expenses, and changes in net position and has displayed the functional classification in the notes to financial statements.

The following summarizes operating expenses by natural classification for the 2018-19 and 2017-18 fiscal years:

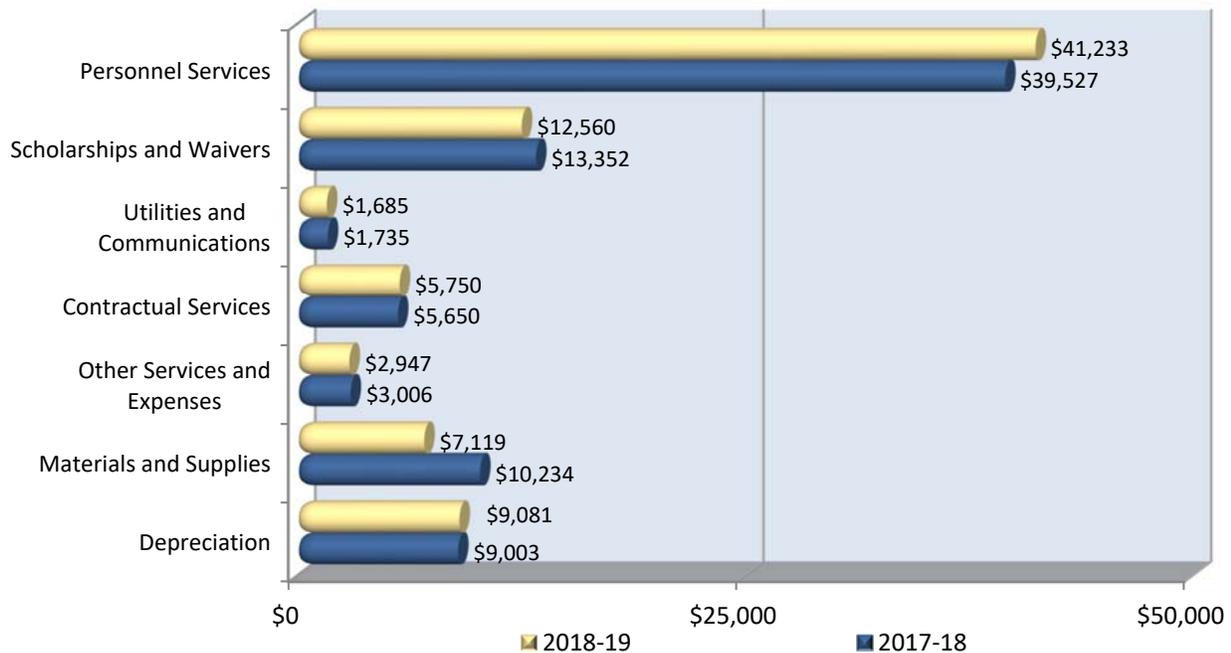

Operating Expenses For the Fiscal Years

(In Thousands)

| | 2018-19 | 2017-18 |
|---------------------------------|------------------|------------------|
| Personnel Services | \$ 41,233 | \$ 39,527 |
| Scholarships and Waivers | 12,560 | 13,352 |
| Utilities and Communications | 1,685 | 1,735 |
| Contractual Services | 5,750 | 5,650 |
| Other Services and Expenses | 2,947 | 3,006 |
| Materials and Supplies | 7,119 | 10,234 |
| Depreciation | 9,081 | 9,003 |
| Total Operating Expenses | \$ 80,375 | \$ 82,507 |

The following chart presents the College's operating expenses for the 2018-19 and 2017-18 fiscal years:

Operating Expenses (In Thousands)

College operating expenses decreased by \$2.1 million, or 2.6 percent, from \$82.5 million to \$80.4 million as a result of the following factors:

- A decrease in materials and supplies expense of \$3.1 million related to one-time non-capitalized repair and maintenance projects Collegewide that were expensed in the prior year.
- An increase in personnel services of \$1.7 million related to the addition of 9.8 FTE positions, an increase for employee health insurance premiums, and an increase for employer contributions related to the FRS.
- A decrease in scholarships and waivers of \$0.8 million related to a \$1.3 million decrease in State issued financial aid mainly related to Florida Student Assistance Grant funds and an increase in scholarship allowances of \$0.5 million.

Nonoperating Revenues and Expenses

Certain revenue sources that the College relies on to provide funding for operations, including State noncapital appropriations, Federal and State student financial aid, certain gifts and grants, and investment income, are defined by GASB as nonoperating. Nonoperating expenses include capital financing costs and other costs related to capital assets. The following summarizes the College's nonoperating revenues and expenses for the 2018-19 and 2017-18 fiscal years:

| | 2018-19 | 2017-18 |
|---|------------------|------------------|
| State Noncapital Appropriations | \$ 31,973 | \$ 30,870 |
| Federal and State Student Financial Aid | 21,565 | 22,914 |
| Gifts and Grants | 3,046 | 3,077 |
| Investment Income | 567 | 331 |
| Gain on Sale of Capital Assets | 63 | 822 |
| Interest on Capital Asset-Related Debt | (98) | (126) |
| Other Nonoperating Revenues | 10 | - |
| Net Nonoperating Revenues | \$ 57,126 | \$ 57,888 |

Total nonoperating revenues for the College decreased by \$0.8 million, or 1.3 percent to \$57.1 million for the 2018-19 fiscal year due primarily to a decrease in the sale of capital assets. In 2017-18, the College sold a portion of the Gower's Corner property which resulted in a significant one-time increase in nonoperating revenue for the prior fiscal year.

Other Revenues

This category is mainly composed of State capital appropriations and capital grants, contracts, gifts, and fees. The following summarizes the College's other revenues for the 2018-19 and 2017-18 fiscal years:

| | 2018-19 | 2017-18 |
|--|-----------------|-----------------|
| State Capital Appropriations | \$ 921 | \$ 3,602 |
| Capital Grants, Contracts, Gifts, and Fees | 2,614 | 2,662 |
| Total | \$ 3,535 | \$ 6,264 |

Total other revenues for the College decreased by \$2.7 million, or 43.6 percent to \$3.5 million for the 2018-19 fiscal year. This decrease is based on the fact that the College only received Public Education Capital Outlay appropriations for minor projects in the amount of \$0.7 million in the 2018-19 fiscal year compared to the \$3.3 million in funding the College received in the prior fiscal year for minor projects and planning of the West Campus A-E building renovation.

The Statement of Cash Flows

The statement of cash flows provides information about the College's financial results by reporting the major sources and uses of cash and cash equivalents. This statement will assist in evaluating the College's ability to generate net cash flows, its ability to meet its financial obligations as they come due, and its need for external financing. Cash flows from operating activities show the net cash used by the operating activities of the College. Cash flows from capital financing activities include all plant funds and related long-term debt activities. Cash flows from investing activities show the net source and use of cash related to purchasing or selling investments, and earning income on those investments. Cash flows from noncapital financing activities include those activities not covered in other sections.

The following summarizes the College's cash flows for the 2018-19 and 2017-18 fiscal years:

Condensed Statement of Cash Flows For the Fiscal Years (In Thousands)

| | <u>2018-19</u> | <u>2017-18</u> |
|---|------------------|------------------|
| Cash Provided (Used) by: | | |
| Operating Activities | \$(54,157) | \$(55,129) |
| Noncapital Financing Activities | 57,200 | 56,234 |
| Capital and Related Financing Activities | (1,485) | (2,213) |
| Investing Activities | <u>555</u> | <u>332</u> |
| Net Increase (Decrease) in Cash and Cash Equivalents | 2,113 | (776) |
| Cash and Cash Equivalents, Beginning of Year | <u>39,586</u> | <u>40,362</u> |
| Cash and Cash Equivalents, End of Year | <u>\$ 41,699</u> | <u>\$ 39,586</u> |

Major sources of funds came from State noncapital appropriations (\$32.0 million), Federal and State student financial aid (\$22.2 million), net student tuition and fees (\$11.8 million); auxiliary services (\$2.6 million); and non-capital gifts and grants (\$3 million).

Major uses of funds were for payments to employees for salaries and benefits (\$39.1 million); disbursements to providers of goods and services (\$15.3 million); disbursements to students for scholarships (\$12.6 million); and purchases of capital assets (\$4.6 million). Changes in cash and cash equivalents were the result of the following factors:

- Cash used by operating activities decreased by \$1 million as compared to the prior fiscal year due primarily to several factors:
 - An increase in cash disbursements of \$1.1 million related to the dissolution of the Florida College Computer Consortium account for which the College was the fiscal agent. The consortium was dissolved in March of 2019 and Pensacola State College's portion of the balance (\$1.1 million) was disbursed.
 - In the 2017-18 fiscal year, there were several large one-time non-capital repair and maintenance projects that were performed which caused a large increase in disbursements of payments to suppliers during that year. In fiscal year 2018-19, there were no similar projects performed. This created a decrease in payments to suppliers of \$3 million from the 2017-18 fiscal year to the 2018-19 fiscal year.

- Cash used by capital related financing activities amounted to \$1.5 million for the 2018-19 fiscal year, which represents a \$0.7 million decrease as compared to the 2017-18 fiscal year. Incoming cash receipts for the 2018-19 fiscal year were \$0.1 million lower than the 2017-18 fiscal year mainly related to the sale of property at Gower's Corner in the 2017-18 fiscal year. Cash disbursements for the purchase of capital assets increased by \$0.8 million in 2018-19 related to an increase in purchases related to other structures and improvements of \$1 million.

| |
|--|
| CAPITAL ASSETS, CAPITAL EXPENSES AND COMMITMENTS, AND DEBT ADMINISTRATION |
|--|

Capital Assets

At June 30, 2019, the College had \$242.9 million in capital assets, less accumulated depreciation of \$97.8 million, for net capital assets of \$145 million. Depreciation charges for the current fiscal year totaled \$9.1 million. The following table summarizes the College's capital assets, net of accumulated depreciation, at June 30:

| Capital Assets, Net at June 30 | | |
|---------------------------------------|------------------|------------------|
| (In Thousands) | | |
| | 2019 | 2018 |
| Land | \$ 4,407 | \$ 4,344 |
| Construction in Progress | 3,605 | 675 |
| Buildings | 114,876 | 118,863 |
| Other Structures and Improvements | 21,233 | 24,836 |
| Furniture, Machinery, and Equipment | 861 | 846 |
| Assets Under Capital Lease | 53 | 106 |
| Capital Assets, Net | \$145,035 | \$149,670 |

Additional information about the College's capital assets is presented in the notes to financial statements.

Capital Expenses and Commitments

Major capital expenses through June 30, 2019, were incurred on the following projects:

- Construction in progress additions included renovations to the East Campus parking lots 2 and 3, redesign of the North Campus parking lots, renovation of the West Campus gym, updating the West Campus Master Plan, West Campus parking lots 5, 6 and 7, as well as construction of the Instructional Performing Arts Center at Cypress Creek Middle/High School in Wesley Chapel.
- Additions to buildings included the painting of M-building doors and removal from construction in progress of expenditures related to the East Campus Firing Range storm water modifications project.
- Additions to other structure and improvements included completion of the East Campus skid pad with canopy, completion of ADA renovations of the parking area at the East Campus library, completion of the storm water modifications at the East Campus Firing Range, and railing additions to the sidewalks at the Spring Hill Campus.
- Furniture, machinery, and equipment additions consisted of technology equipment, computer related equipment, educational equipment, vehicles, and grounds equipment.

The College's major construction commitments, totaling \$14 million, at June 30, 2019, are as follows:

- East Campus parking lots 2 and 3
- North Campus parking lots redesign
- West Campus gym renovation
- West Campus master plan
- Instructional Performing Arts Center – Wesley Chapel

| | Amount (In Thousands) |
|--------------------------|----------------------------------|
| Total Committed | \$ 17,250 |
| Completed to Date | <u>(3,267)</u> |
| Balance Committed | <u>\$ 13,983</u> |

Additional information about the College's construction commitments is presented in the notes to financial statements.

Debt Administration

As of June 30, 2019, the College had \$2.2 million in outstanding bonds payable, loan payable, and capital lease payable, representing a decrease of \$1.2 million, or 34.9 percent, from the prior fiscal year. The following table summarizes the outstanding long-term debt by type for the fiscal years ended June 30:

Long-Term Debt at June 30

(In Thousands)

| | <u>2019</u> | <u>2018</u> |
|--------------------------|------------------------|------------------------|
| SBE Capital Outlay Bonds | \$ 1,675 | \$ 1,780 |
| Loan Payable | 520 | 1,547 |
| Capital Lease Payable | <u>46</u> | <u>116</u> |
| Total | <u>\$ 2,241</u> | <u>\$ 3,443</u> |

The State Board of Education issues capital outlay bonds on behalf of the College. During the 2018-19 fiscal year, there were no bond sales and debt repayments totaled \$1.2 million. Additional information about the College's long-term debt is presented in the notes to financial statements.

ECONOMIC FACTORS THAT WILL AFFECT THE FUTURE

Pasco-Hernando State College's economic condition is closely tied to that of the State of Florida. The College received an increase in operating general revenue and lottery state funds of \$0.2 million in the 2019-20 fiscal year, comprised of a decrease of \$3.2 million in lottery funding and a \$3.4 million increase in recurring state appropriations. The change in the previous state performance based funding model in the 2019-20 fiscal year led to an increase in funding from \$799,073 to \$898,361. The College's total revenue and expense budgets increased by \$377,594 or 0.72 percent.

The College's approved 2019-20 fiscal year budget is based on projected student fee revenues of \$15.2 million calculated on an anticipated fee-paying enrollment of 6,341 FTE. The proposed budget is based on a combined trend of declining enrollment of 3 percent for non-Baccalaureate programs and sustaining enrollment for Baccalaureate programs in Nursing and Supervision and Management.

The College did not recommend an increase in baccalaureate, credit, or post-secondary adult vocational fees consistent with the governor's request. This is the seventh consecutive year that the College has not increased tuition. Pasco-Hernando State College's approved tuition rates remain among the lowest in the State and are within the allowable range of statutory adjustment flexibility and therefore will continue to be compliant with Florida Statutes.

The College continues to implement cost-saving measures to reduce expenses and has maintained an appropriate level of unallocated fund balance and Board designated reserves as a preventative measure to offset potential state funding reductions and enrollment declines.

REQUESTS FOR INFORMATION

Questions concerning information provided in the MD&A or other required supplementary information, and financial statements and notes thereto, or requests for additional financial information should be addressed to the Senior Vice President of Financial Operations and Chief Financial Officer, Pasco-Hernando State College, 10230 Ridge Road, New Port Richey, Florida 34654.

The accompanying notes to financial statements are an integral part of this statement.

NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

Reporting Entity. The governing body of Pasco-Hernando State College, a component unit of the State of Florida, is the College Board of Trustees. The Board of Trustees constitutes a corporation and is composed of nine members appointed by the Governor and confirmed by the Senate. The Board of Trustees is under the general direction and control of the Florida Department of Education, Division of Florida Colleges, and is governed by State law and State Board of Education (SBE) rules. However, the Board of Trustees is directly responsible for the day-to-day operations and control of the College within the framework of applicable State laws and SBE rules. The College serves Pasco and Hernando Counties.

Criteria for defining the reporting entity are identified and described in the Governmental Accounting Standards Board's (GASB) *Codification of Governmental Accounting and Financial Reporting Standards*, Sections 2100 and 2600. These criteria were used to evaluate potential component units for which the Board of Trustees is financially accountable and other organizations for which the nature and significance of their relationship with the Board of Trustees are such that exclusion would cause the College's financial statements to be misleading. Based on the application of these criteria, the College is a component unit of the State of Florida, and its financial balances and activities are reported in the State's Comprehensive Annual Financial Report by discrete presentation.

Discretely Presented Component Unit. Based on the application of the criteria for determining component units, the Pasco-Hernando State College Foundation, Inc. (Foundation), a legally separate entity, is included within the College's reporting entity as a discretely presented component unit and is governed by a separate board.

The Foundation is also a direct-support organization, as defined in Section 1004.70, Florida Statutes, and although legally separate from the College, is financially accountable to the College. The Foundation is managed independently, outside the College's budgeting process, and its powers generally are vested in a governing board pursuant to various State statutes. The Foundation receives, holds, invests, and administers property, and makes expenditures to or for the benefit of the College.

The Foundation is audited by other auditors pursuant to Section 1004.70(6), Florida Statutes. The Foundation's audited financial statements are available to the public and can be obtained from the Senior Vice President of Financial Operations and Chief Financial Officer, Pasco-Hernando State College, 10230 Ridge Road, New Port Richey, Florida 34654. The financial data reported on the accompanying financial statements was derived from the Foundation's audited financial statements for the fiscal year ended December 31, 2018.

Basis of Presentation. The College's accounting policies conform with accounting principles generally accepted in the United States of America applicable to public colleges and universities as prescribed by GASB. The National Association of College and University Business Officers (NACUBO) also provides the College with recommendations prescribed in accordance with generally accepted accounting principles promulgated by GASB and the Financial Accounting Standards Board (FASB). GASB allows public colleges various reporting options. The College has elected to report as an entity engaged in only

business-type activities. This election requires the adoption of the accrual basis of accounting and entitywide reporting including the following components:

- Management's Discussion and Analysis
- Basic Financial Statements:
 - Statement of Net Position
 - Statement of Revenues, Expenses, and Changes in Net Position
 - Statement of Cash Flows
 - Notes to Financial Statements
- Other Required Supplementary Information

Measurement Focus and Basis of Accounting. Basis of accounting refers to when revenues, expenses, assets, deferred outflows of resources, liabilities, and deferred inflows of resources are recognized in the accounts and reported in the financial statements. Specifically, it relates to the timing of the measurements made, regardless of the measurement focus applied. The College's financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets, deferred outflows of resources, liabilities, and deferred inflows of resources resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets, deferred outflows of resources, liabilities, and deferred inflows of resources resulting from nonexchange activities are generally recognized when all applicable eligibility requirements, including time requirements, are met. The College follows GASB standards of accounting and financial reporting.

The College's component unit uses the economic resources measurement focus and accrual basis of accounting whereby revenues are recognized when earned and expenses are recognized when incurred, and follows GASB standards of accounting and financial reporting.

Significant interdepartmental sales between auxiliary service departments and other institutional departments have been accounted for as reductions of expenses and not revenues of those departments.

The College's principal operating activity is instruction. Operating revenues and expenses generally include all fiscal transactions directly related to instruction as well as administration, academic support, student services, physical plant operations, and depreciation of capital assets. Nonoperating revenues include State noncapital appropriations, Federal and State student financial aid, and investment income (net of unrealized gains or losses on investments). Interest on capital asset-related debt is a nonoperating expense. Other revenues generally include revenues for capital construction projects.

The statement of net position is presented in a classified format to distinguish between current and noncurrent assets and liabilities. When both restricted and unrestricted resources are available to fund certain programs, it is the College's policy to first apply the restricted resources to such programs followed by the use of the unrestricted resources.

The statement of revenues, expenses, and changes in net position is presented by major sources and is reported net of tuition scholarship allowances. Tuition scholarship allowances are the difference between the stated charge for goods and services provided by the College and the amount that is actually paid by

the student or the third party making payment on behalf of the student. The College applied the “Alternate Method” as prescribed in NACUBO Advisory Report 2000-05 to determine the reported net tuition scholarship allowances. Under this method, the College computes these amounts by allocating the cash payments to students, excluding payments for services, using a ratio of total aid to aid not considered third-party aid.

The statement of cash flows is presented using the direct method in compliance with GASB Statement No. 9, *Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting*.

Cash and Cash Equivalents. The amount reported as cash and cash equivalents consists of cash on hand, cash in demand accounts, and cash invested with State Treasury Special Purpose Investment Account (SPIA) and State Board of Administration (SBA) Florida Prime Investment Pool. For reporting cash flows, the College considers all highly liquid investments with original maturities of 3 months or less, that are not held solely for income or profit, to be cash equivalents. Under this definition, the College considers amounts invested in the State Treasury SPIA and SBA Florida PRIME investment pools to be cash equivalents.

College cash deposits are held in banks qualified as public depositories under Florida law. All such deposits are insured by Federal depository insurance, up to specified limits, or collateralized with securities held in Florida’s multiple financial institution collateral pool required by Chapter 280, Florida Statutes. Cash and cash equivalents that are externally restricted to make debt service payments, maintain sinking or reserve funds, or to purchase or construct capital or other restricted assets are classified as restricted.

At June 30, 2019, the College reported as cash equivalents at fair value \$11,195,726 in the State Treasury SPIA investment pool representing ownership of a share of the pool, not the underlying securities (Level 3 inputs, as discussed in Note 3.). Pooled investments with the State Treasury are not registered with the Securities and Exchange Commission. Oversight of the pooled investments with the State Treasury is provided by the Treasury Investment Committee per Section 17.575, Florida Statutes. The authorized investment types are set forth in Section 17.57, Florida Statutes. The State Treasury SPIA investment pool carried a credit rating of AA-f by Standard & Poor’s, had an effective duration of 2.71 years and fair value factor of 1.0103 at June 30, 2019. Participants contribute to the State Treasury SPIA investment pool on a dollar basis. These funds are commingled and a fair value of the pool is determined from the individual values of the securities. The fair value of the securities is summed and a total pool fair value is determined. A fair value factor is calculated by dividing the pool’s total fair value by the pool participant’s total cash balance. The fair value factor is the ratio used to determine the fair value of an individual participant’s pool balance. The College relies on policies developed by the State Treasury for managing interest rate risk or credit risk for this investment pool. Disclosures for the State Treasury SPIA investment pool are included in the notes to financial statements of the State’s Comprehensive Annual Financial Report.

At June 30, 2019, the College reported as cash equivalents \$11,218,258 in the Florida PRIME investment pool administered by the SBA pursuant to Section 218.405, Florida Statutes. The College’s investments in the Florida PRIME investment pool, which the SBA indicates is a Securities and Exchange Commission

Rule 2a7-like external investment pool, are similar to money market funds in which shares are owned in the fund rather than the underlying investments. The Florida PRIME investment pool carried a credit rating of AAAM by Standard & Poor's and had a weighted-average days to maturity (WAM) of 28 days as of June 30, 2019. A portfolio's WAM reflects the average maturity in days based on final maturity or reset date, in the case of floating-rate instruments. WAM measures the sensitivity of the Florida PRIME investment pool to interest rate changes. The investments in the Florida PRIME investment pool are reported at amortized cost.

Section 218.409(8)(a), Florida Statutes, provides that "the principal, and any part thereof, of each account constituting the trust fund is subject to payment at any time from the moneys in the trust fund. However, the executive director may, in good faith, on the occurrence of an event that has a material impact on liquidity or operations of the trust fund, for 48 hours limit contributions to or withdrawals from the trust fund to ensure that the Board [State Board of Administration] can invest moneys entrusted to it in exercising its fiduciary responsibility. Such action must be immediately disclosed to all participants, the trustees, the Joint Legislative Auditing Committee, the Investment Advisory Council, and the Participant Local Government Advisory Council. The trustees shall convene an emergency meeting as soon as practicable from the time the executive director has instituted such measures and review the necessity of those measures. If the trustees are unable to convene an emergency meeting before the expiration of the 48-hour moratorium on contributions and withdrawals, the moratorium may be extended by the executive director until the trustees are able to meet to review the necessity for the moratorium. If the trustees agree with such measures, the trustees shall vote to continue the measures for up to an additional 15 days. The trustees must convene and vote to continue any such measures before the expiration of the time limit set, but in no case may the time limit set by the trustees exceed 15 days." As of June 30, 2019, there were no redemption fees or maximum transaction amounts, or any other requirements that serve to limit a participant's daily access to 100 percent of their account value.

Inventories. Inventories consist of items for resale by the campus bookstore, and are valued using the last invoice cost, which approximates the first-in, first-out method of inventory valuation. Consumable laboratory supplies, teaching materials, and office supplies on hand in College departments are expensed when purchased, and are not considered material. Accordingly, these items are not included in the reported inventory.

Capital Assets. College capital assets consist of land, construction in progress, buildings, other structures and improvements, furniture, machinery, and equipment, and assets under capital leases. These assets are capitalized and recorded at cost at the date of acquisition or at acquisition value at the date received in the case of gifts and purchases of State surplus property. Additions, improvements, and other outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. The College has a capitalization threshold of \$5,000 for tangible personal property and \$25,000 for buildings and other structures and improvements. Depreciation is computed on the straight-line basis over the following estimated useful lives:

- Buildings – 40 years
- Other Structures and Improvements – 10 years
- Furniture, Machinery, and Equipment:

- Computer Equipment – 3 years
- Vehicles, Office Machines, and Educational Equipment – 5 years
- Furniture – 7 years
- Assets Under Capital Lease – 5 years

Noncurrent Liabilities. Noncurrent liabilities include bonds payable, loan payable, capital lease payable, compensated absences payable, other postemployment benefits payable, and net pension liabilities that are not scheduled to be paid within the next fiscal year.

Pensions. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net positions of the Florida Retirement System (FRS) defined benefit plan and the Health Insurance Subsidy (HIS) defined benefit plan and additions to/deductions from the FRS and HIS fiduciary net positions have been determined on the same basis as they are reported by the FRS and the HIS plans. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

2. Deficit Net Position in Individual Funds

The College reported an unrestricted net position which included a deficit in the current funds - unrestricted, as shown below. This deficit can be attributed to the full recognition of long-term liabilities (i.e., compensated absences payable, OPEB payable, and net pension liabilities) in the current unrestricted funds.

| <u>Fund</u> | <u>Net Position</u> |
|------------------------------|-----------------------|
| Current Funds - Unrestricted | \$ (14,871,311) |
| Auxiliary Funds | 9,223,074 |
| Total | \$ (5,648,237) |

3. Investments

The Board of Trustees has adopted a written investment policy providing that surplus funds of the College shall be invested in those institutions and instruments permitted under the provisions of Florida Statutes. Section 218.415(16), Florida Statutes, authorizes the College to invest in the Florida PRIME investment pool administered by the SBA; Securities and Exchange Commission registered money market funds with the highest credit quality rating from a nationally recognized rating agency; interest-bearing time deposits and savings accounts in qualified public depositories, as defined by Section 280.02, Florida Statutes; direct obligations of the United States Treasury; obligations of Federal agencies and instrumentalities; securities of, or interests in, certain open-end or closed-end management type investment companies; and other investments approved by the Board of Trustees as authorized by law. SBE Rule 6A-14.0765(3), Florida Administrative Code, provides that College loan, endowment, annuity, and life income funds may also be invested pursuant to Section 215.47, Florida Statutes. Investments authorized by Section 215.47, Florida Statutes, include bonds, notes, commercial paper, and various other types of investments.

Investments set aside to make debt service payments, maintain sinking or reserve funds, or to purchase or construct capital assets are classified as restricted.

Fair Value Measurement. The College categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets, Level 2 inputs are significant other observable inputs, and Level 3 inputs are significant unobservable inputs.

State Board of Administration Debt Service Accounts. The College reported investments totaling \$35,253 at June 30, 2019, in the SBA Debt Service Accounts. These investments are used to make debt service payments on bonds issued by the SBE for the benefit of the College. The College's investments consist of United States Treasury securities, with maturity dates of 6 months or less, and are reported at fair value (Level 1 inputs). The College relies on policies developed by the SBA for managing interest rate risk and credit risk for these accounts. Disclosures for the Debt Service Accounts are included in the notes to financial statements of the State's Comprehensive Annual Financial Report.

Component Unit Investments.

Fair Value Measurement: Generally accepted accounting principles in the United States of America establishes a hierarchy for which assets and liabilities must be grouped, based on significant levels of inputs (assumptions that market participants would use in pricing an asset or liability) as follows:

- Level 1 Input Valuations, where the valuation is based on quoted market prices for identical assets or liabilities traded in active markets (which include exchanges and over-the-counter markets with sufficient volume);
- Level 2 Input Valuations, where the valuation is based on quoted market prices for similar instruments traded in active markets, quoted prices for identical or similar instruments in markets that are not active and model-based valuation techniques for which all significant assumptions are observable in the market; and
- Level 3 Input Valuations, where the valuation is generated from model-based techniques that use significant assumptions not observable in the market, but observable based on Foundation-specific data.

Investments held by the Foundation, at December 31, 2018, are reported at fair value (Level 1 and 3 inputs) as follows:

| <u>Investment Type</u> | <u>Amount</u> | <u>Fair Value Measurement Using</u> | |
|---|----------------------|---|--|
| | | <u>Quoted Prices in Active Markets for Identical Assets (Level 1)</u> | <u>Significant Unobservable Inputs (Level 3)</u> |
| United States Government Obligations | \$ 876,559 | \$ 876,559 | \$ - |
| Federal Agency Obligations | 1,248,906 | 1,248,906 | - |
| Corporate Bonds and Notes | 4,686,675 | 4,686,675 | - |
| Asset-Backed Securities | 471,526 | 471,526 | - |
| Mortgage-Backed Securities | 5,164,846 | 5,164,846 | - |
| Equity Mutual Funds | 17,940,173 | 17,940,173 | - |
| Domestic Stocks | 16,364,597 | 10,106,906 | 6,257,691 |
| Total Component Unit Investments | \$ 46,753,282 | \$ 40,495,591 | \$ 6,257,691 |

The following risks apply to the Foundation's investments other than stocks and other equity securities:

Interest Rate Risk: Interest rate risk is the risk that changing interest rates will adversely affect the fair value of an investment. The prices of fixed income securities with a longer time to maturity tend to be more sensitive to changes in the interest rate and, therefore, more volatile than those with shorter maturities. The Foundation's investment policy, as a means of mitigating this risk, calls for maintaining significant balances in cash equivalents and other short-term investments as changing interest rates have limited impact on these securities prices and limiting the duration of bond investments to 80 to 120 percent of the fixed-income benchmark. Maturities of the Foundation's investments in debt securities and mutual funds are shown on the following schedule:

| <u>Investment Type</u> | <u>Investment Maturities (In Years)</u> | | | | |
|--------------------------------------|---|------------------------|---------------------|---------------------|-------------------------|
| | <u>Fair Value</u> | <u>Less Than 1</u> | <u>1-5</u> | <u>6-10</u> | <u>More Than 10</u> |
| United States Government Obligations | \$ 876,559 | \$ - | \$ - | \$ 470,309 | \$ 406,250 |
| Federal Agency Obligations | 1,248,906 | 92,263 | 234,536 | 76,138 | 845,969 |
| Corporate Bonds and Notes | 4,686,675 | 36,019 | 1,681,469 | 1,923,239 | 1,045,948 |
| Asset-Backed Securities | 471,526 | - | 266,515 | 53,012 | 151,999 |
| Mortgage-Backed Securities | 5,164,846 | - | 403,024 | 652,145 | 4,109,677 |
| Equity Mutual Funds | 17,940,173 | 17,940,173 | - | - | - |
| Total | \$30,388,685 | \$18,068,455 | \$ 2,585,544 | \$ 3,174,843 | \$ 6,559,843 |

Credit Risk: Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Credit quality is evaluated by independent investment rating organizations such as Standard & Poor's and Moody's Investor Services. The lower the rating, the greater the risk that the bond issuer may default or fail to meet its payment obligations. Obligations of the United States government or obligations explicitly guaranteed by the United States government, are not considered to have credit risk. The Foundation's investment policy limits fixed income securities to those that are rated Baa2 and higher by Moody's and BBB (mid) by Standard & Poor's is preferred. In addition, if investments are downgraded below the minimum rating, the security shall be sold within 10 trading days. At December 31, 2018, the Foundation's fixed income securities were rated as follows:

| <u>Investment Type</u> | <u>Standard & Poor's</u> | <u>Moody's</u> | <u>Percentage Total Debt Securities Investments</u> |
|--------------------------------------|------------------------------|----------------|---|
| United States Government Obligations | AAA | Aaa | 7% |
| Federal Agency Obligations | AA+ | Aaa | 10% |
| Corporate Bonds and Notes | AAA - BBB | Aaa - Baa2 | 38% |
| Asset-Backed Securities | AAA - N/A | Aaa - N/A | 4% |
| Mortgage-Backed Securities | AA+ | Aaa | 41% |

Custodial Credit Risk: Custodial risk is the risk that in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of its investments or collateral securities that are in the possession of another party. Exposure to custodial risk relates to investment securities that are held by someone other than the Foundation and are not registered in the Foundation's name. The Foundation's investment policy states that custodial credit risk for deposits will be mitigated by limiting deposits to the amount insured by the Federal Depositors Insurance Corporation (FDIC) for each banking institution. Custodial credit risk for investments will be mitigated by prohibiting investments in securities that are not eligible for depository trust company holding. The Foundation's fixed income securities are registered in the name of the Foundation and, according to industry standard, held in "book entry" format per the investment management agreements with the individual financial institutions managing those assets.

Concentration of Credit Risk: Concentration of credit risk is the risk of loss attributed to the magnitude of investments in a single issuer. The Foundation's investment policy limits the amount of investments with any one issuer to 5 percent of an investment manager's equity portfolio, except for investments in: United States government guaranteed investments, mutual funds, external investment pools, and other pooled investments. In addition, investments in nongovernmental bonds are limited to 2 percent of an investment manager's fixed income portfolio. From time to time, the Foundation holds deposits in excess of the amount insured by the FDIC. Management believes that the risk of loss on these deposits is remote.

Foreign Currency Risk: Foreign currency risk is the possibility that changes in exchange rates between the United States dollar and foreign currencies could adversely affect an investment's fair value. As of December 31, 2018, the Foundation's portfolio did not hold any foreign bonds. The Foundation's investment policy limits foreign investments to 15 percent of the Foundation's assets, and prohibits the use of non-Depository Trust company eligible securities.

4. Accounts Receivable

Accounts receivable represent amounts for Federal Title IV repayments, student fee deferrals, various student services provided by the College, unused credit memos, and third-party nongovernmental receivables. The accounts receivable are reported net of a \$487,881 allowance for doubtful accounts.

5. Due From Other Governmental Agencies

The amount due from other governmental agencies primarily consists of \$17,648,943 of Public Education Capital Outlay allocations due from the State for construction of College facilities.

6. Due From and To Component Unit/College

The amount due from component unit consists of amounts owed to the College by the Foundation for scholarships and student aid, and agreements to support a portion of the College's programs. The College's financial statements are reported for the fiscal year ended June 30, 2019. The College's component unit's financial statements are reported for the fiscal year ended December 31, 2018. Accordingly, amounts reported by the College as due from component unit on the statement of net position do not agree with amounts reported by the component unit as due to the College.

7. Capital Assets

Capital assets activity for the fiscal year ended June 30, 2019, is shown in the following table:

| <u>Description</u> | <u>Beginning Balance</u> | <u>Additions</u> | <u>Reductions</u> | <u>Ending Balance</u> |
|--|--------------------------|-----------------------|-------------------|-----------------------|
| Nondepreciable Capital Assets: | | | | |
| Land | \$ 4,344,075 | \$ 63,156 | \$ - | \$ 4,407,231 |
| Construction in Progress | 675,297 | 3,346,076 | 416,560 | 3,604,813 |
| Total Nondepreciable Capital Assets | \$ 5,019,372 | \$ 3,409,232 | \$ 416,560 | \$ 8,012,044 |
| Depreciable Capital Assets: | | | | |
| Buildings | \$ 172,879,087 | \$ 1,028 | \$ - | \$ 172,880,115 |
| Other Structures and Improvements | 54,431,044 | 982,943 | - | 55,413,987 |
| Furniture, Machinery, and Equipment | 6,012,976 | 468,818 | 184,594 | 6,297,200 |
| Assets Under Capital Lease | 265,863 | - | - | 265,863 |
| Total Depreciable Capital Assets | 233,588,970 | 1,452,789 | 184,594 | 234,857,165 |
| Less, Accumulated Depreciation: | | | | |
| Buildings | 54,015,942 | 3,987,962 | - | 58,003,904 |
| Other Structures and Improvements | 29,595,225 | 4,585,897 | - | 34,181,122 |
| Furniture, Machinery, and Equipment | 5,167,326 | 453,898 | 184,594 | 5,436,630 |
| Assets Under Capital Lease | 159,517 | 53,172 | - | 212,689 |
| Total Accumulated Depreciation | 88,938,010 | 9,080,929 | 184,594 | 97,834,345 |
| Total Depreciable Capital Assets, Net | \$ 144,650,960 | \$ (7,628,140) | \$ - | \$ 137,022,820 |

8. Unearned Revenue

Unearned revenue at June 30, 2019, includes amounts collected for Pay-for-Print and College Gift Cards that have not been used. As of June 30, 2019, the College reported the following amounts as unearned revenue:

| <u>Description</u> | <u>Amount</u> |
|-------------------------------|------------------|
| Pay-for-Print Collections | \$ 74,333 |
| College Gift Cards Not Used | 1,549 |
| Total Unearned Revenue | \$ 75,882 |

9. Long-Term Liabilities

Long-term liabilities activity for the fiscal year ended June 30, 2019, is shown in the following table:

| <u>Description</u> | <u>Beginning Balance</u> | <u>Additions</u> | <u>Reductions</u> | <u>Ending Balance</u> | <u>Current Portion</u> |
|---------------------------------------|--------------------------|----------------------|----------------------|-----------------------|------------------------|
| Bonds Payable | \$ 1,780,000 | \$ - | \$ 105,000 | \$ 1,675,000 | \$ 110,000 |
| Loan Payable | 1,547,468 | - | 1,027,103 | 520,365 | 520,365 |
| Capital Lease Payable | 116,327 | - | 70,465 | 45,862 | 45,862 |
| Compensated Absences Payable | 3,512,563 | 465,372 | 232,686 | 3,745,249 | 551,347 |
| Other Postemployment Benefits Payable | 351,450 | 31,604 | 42,795 | 340,259 | 26,670 |
| Net Pension Liability | 25,372,917 | 12,927,490 | 13,819,507 | 24,480,900 | 189,853 |
| Total Long-Term Liabilities | \$ 32,680,725 | \$ 13,424,466 | \$ 15,297,556 | \$ 30,807,635 | \$ 1,444,097 |

Bonds Payable. The SBE issues capital outlay bonds on behalf of the College. These bonds mature serially and are secured by a pledge of the College's portion of the State-assessed motor vehicle license tax and by the State's full faith and credit. The SBE and the SBA administer the principal and interest payments, investment of debt service resources, and compliance with reserve requirements. The College had the following bonds payable at June 30, 2019:

| <u>Bond Type</u> | <u>Amount Outstanding</u> | <u>Interest Rates (Percent)</u> | <u>Annual Maturity To</u> |
|---|---------------------------|---------------------------------|---------------------------|
| SBE Capital Outlay Bonds: Series 2010A | \$ 1,675,000 | 3.5 - 5.0 | 2030 |
| Total | \$ 1,675,000 | | |

Annual requirements to amortize all bonded debt outstanding as of June 30, 2019, are as follows:

| <u>Fiscal Year Ending June 30</u> | <u>SBE Capital Outlay Bonds</u> | | |
|-----------------------------------|---------------------------------|-------------------|---------------------|
| | <u>Principal</u> | <u>Interest</u> | <u>Total</u> |
| 2020 | \$ 110,000 | \$ 69,700 | \$ 179,700 |
| 2021 | 120,000 | 64,200 | 184,200 |
| 2022 | 125,000 | 58,200 | 183,200 |
| 2023 | 130,000 | 51,950 | 181,950 |
| 2024 | 140,000 | 46,750 | 186,750 |
| 2025-2029 | 850,000 | 143,450 | 993,450 |
| 2030 | 200,000 | 8,000 | 208,000 |
| Total | \$ 1,675,000 | \$ 442,250 | \$ 2,117,250 |

Loan Payable. On January 31, 2013, the College borrowed \$5,952,305, at a stated interest rate of 1.76 percent, to finance the cost of capital improvements at all College locations. The loan matures on December 31, 2019, and principal and interest payments are made monthly. Annual requirements to amortize the outstanding loan as of June 30, 2019, are as follows:

| <u>Fiscal Year Ending June 30</u> | <u>Amount</u> |
|--|-------------------|
| 2020 | \$ 523,040 |
| Total Minimum Payments | 523,040 |
| Less, Amount Representing Interest | 2,675 |
| Present Value of Minimum Payments | <u>\$ 520,365</u> |

Capital Lease Payable. Copier equipment in the amount of \$265,863 is being acquired under a capital lease agreement. The imputed interest rate is 6.6897 percent. Future minimum payments under the capital lease agreement and the present value of the minimum payments as of June 30, 2019, are as follows:

| <u>Fiscal Year Ending June 30</u> | <u>Amount</u> |
|--|------------------|
| 2020 | \$ 47,583 |
| Total Minimum Payments | 47,583 |
| Less, Amount Representing Interest | 1,721 |
| Present Value of Minimum Payments | <u>\$ 45,862</u> |

Compensated Absences Payable. College employees may accrue annual and sick leave based on length of service, subject to certain limitations regarding the amount that will be paid upon termination. The College reports a liability for the accrued leave; however, State noncapital appropriations fund only the portion of accrued leave that is used or paid in the current fiscal year. Although the College expects the liability to be funded primarily from future appropriations, generally accepted accounting principles do not permit the recording of a receivable in anticipation of future appropriations. At June 30, 2019, the estimated liability for compensated absences, which includes the College's share of the Florida Retirement System and FICA contributions, totaled \$3,745,249. The current portion of the compensated absences liability, \$551,347, is the amount expected to be paid in the coming fiscal year and represents a historical percentage of leave used applied to total accrued leave liability.

Other Postemployment Benefits Payable. The College follows GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, for other postemployment benefits administered by the Florida College System Risk Management Consortium (Consortium).

General Information about the OPEB Plan

Plan Description. The Other Postemployment Benefits Plan (OPEB Plan) is a single-employer defined benefit plan administered by the Florida College System Risk Management Consortium that provides OPEB for all employees who satisfy the College's retirement eligibility provisions. Pursuant to the provisions of Section 112.0801, Florida Statutes, former employees who retire from the College are eligible to participate in the College's health and life insurance benefits. The College subsidizes the premium rates paid by retirees by allowing them to participate in the OPEB Plan at reduced or blended group (implicitly subsidized) premium rates for both active and retired employees. These rates provide an implicit subsidy for retirees because, on an actuarial basis, their current and future claims are expected to result in higher costs to the OPEB Plan on average than those of active employees. The College does

not offer any explicit subsidies for retiree coverage. Retirees are required to enroll in the Federal Medicare (Medicare) program for their primary coverage as soon as they are eligible. The OPEB Plan contribution requirements and benefit terms of the College and the OPEB Plan members are established and may be amended by action from the Board of Trustees. No assets are accumulated in a trust that meet the criteria in paragraph 4 of GASB Statement No. 75.

Benefits Provided. The OPEB Plan provides healthcare benefits for retirees and their dependents as well as life insurance for retirees. The OPEB Plan only provides an implicit subsidy as described above.

Employees Covered by Benefit Terms. At June 30, 2018, the following employees were covered by the benefit terms:

| | |
|--|-------------------|
| Inactive Employees or Beneficiaries Currently Receiving Benefits | 38 |
| DROP Members | 22 |
| Active Employees | 475 |
| Total | <u><u>535</u></u> |

Total OPEB Liability

The College’s total OPEB liability of \$340,259 was measured as of June 30, 2018, and was determined by an actuarial valuation as of June 30, 2017.

Actuarial Assumptions and Other Inputs. The total OPEB liability in the June 30, 2017, actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

| | |
|-----------------------------|---|
| Inflation | 2.60 percent |
| Salary increases | |
| Regular Employees | 4.00 percent – 7.80 percent |
| Senior Management Employees | 4.70 percent – 7.10 percent |
| Discount rate | 3.87 percent at current measurement date 3.56 percent at prior measurement date |
| Healthcare cost trend rates | Pre-Medicare - 7.50 percent for 2017, decreasing to an ultimate rate of 5.00 percent by 2023 Medicare - 5.50 percent for 2017, decreasing to an ultimate rate of 5.00 percent by 2020 |
| Benefit-related costs | 100 percent of projected health insurance premiums for retirees |

The discount rate was based on the Bond Buyer General Obligation 20-year Municipal Bond Index.

Mortality rates were based on the RP-2014 mortality tables, with adjustments for FRS experience and generational mortality improvements using scale MP-2014.

The demographic actuarial assumptions for retirement, disability incidence, and withdrawal used in the June 30, 2017, valuation were based on the results of an actuarial experience study for the period July 1, 2008, through June 30, 2013, adopted by the FRS.

The remaining actuarial assumptions (e.g., initial per capita costs, health care cost trends, rate of plan participation, rates of plan election, etc.) used in the June 30, 2017, valuation were based on a review of recent plan experience done concurrently with the June 30, 2017, valuation.

Changes in the Total OPEB Liability

| | Amount |
|--|--------------------------|
| Balance at 6/30/18 | <u>\$ 351,450</u> |
| Changes for the year: | |
| Service Cost | 19,663 |
| Interest | 11,941 |
| Changes in Assumptions or Other Inputs | (10,465) |
| Benefit Payments | <u>(32,330)</u> |
| Net Changes | <u>(11,191)</u> |
| Balance at 6/30/19 | <u><u>\$ 340,259</u></u> |

Changes of assumptions and other inputs reflect a change in the discount rate from 3.56 percent in 2017 to 3.87 percent in 2018 due to a change in the Municipal Bond Rate.

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate. The following table presents the total OPEB liability of the College, as well as what the College’s total OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (2.87 percent) or 1 percentage point higher (4.87 percent) than the current rate:

| | <u>1% Decrease (2.87%)</u> | <u>Current Discount Rate (3.87%)</u> | <u>1% Increase (4.87%)</u> |
|----------------------|------------------------------------|--|------------------------------------|
| Total OPEB liability | \$376,836 | \$340,259 | \$310,908 |

Sensitivity of the Total OPEB Liability to Changes in the Healthcare Cost Trend Rates. The following table presents the total OPEB liability of the College, as well as what the College’s total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1 percentage point lower or 1 percentage point higher than the current healthcare cost trend rates:

| | <u>1% Decrease</u> | <u>Healthcare Cost Trend Rates</u> | <u>1% Increase</u> |
|----------------------|--------------------|--|--------------------|
| Total OPEB liability | \$293,763 | \$340,259 | \$400,179 |

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the fiscal year ended June 30, 2019, the College recognized OPEB expense of \$34,198. At June 30, 2019, the College reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

| <u>Description</u> | <u>Deferred Outflows of Resources</u> | <u>Deferred Inflows of Resources</u> |
|--|---|--|
| Change of assumptions or other inputs | \$ - | \$ 24,105 |
| Transactions subsequent to the measurement date | 26,670 | - |
| Total | \$ 26,670 | \$ 24,105 |

The amount reported as deferred outflows of resources related to OPEB resulting from transactions subsequent to the measurement date and before the end of the fiscal year will be included as a reduction of the total OPEB liability in the year ended June 30, 2020. The amount reported as deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

| <u>Fiscal Year Ending June 30</u> | <u>Amount</u> |
|-----------------------------------|--------------------|
| 2020 | \$ (3,806) |
| 2021 | (3,806) |
| 2022 | (3,806) |
| 2023 | (3,806) |
| 2024 | (3,806) |
| Thereafter | (5,075) |
| Total | \$ (24,105) |

Net Pension Liability. As a participating employer in the FRS, the College recognizes its proportionate share of the collective net pension liabilities of the FRS cost-sharing multiple-employer defined benefit plans. As of June 30, 2019, the College's proportionate share of the net pension liabilities totaled \$24,480,900. Note 10. includes a complete discussion of defined benefit pension plans.

10. Retirement Plans – Defined Benefit Pension Plans

General Information about the Florida Retirement System (FRS)

The FRS was created in Chapter 121, Florida Statutes, to provide a defined benefit pension plan for participating public employees. The FRS was amended in 1998 to add the Deferred Retirement Option Program (DROP) under the defined benefit plan and amended in 2000 to provide a defined contribution plan alternative to the defined benefit plan for FRS members effective July 1, 2002. This integrated defined contribution pension plan is the FRS Investment Plan. Chapter 121, Florida Statutes, also provides for nonintegrated, optional retirement programs in lieu of the FRS to certain members of the Senior Management Service Class employed by the State and faculty and specified employees of State colleges. Chapter 112, Florida Statutes, established the HIS Program, a cost-sharing multiple-employer defined benefit pension plan to assist retired members of any State-administered retirement system in paying the costs of health insurance.

Essentially all regular employees of the College are eligible to enroll as members of the State-administered FRS. Provisions relating to the FRS are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and FRS Rules, Chapter 60S, Florida Administrative Code; wherein eligibility, contributions, and benefits are defined and described in detail. Such provisions may be amended at any time by further action from the

Florida Legislature. The FRS is a single retirement system administered by the Florida Department of Management Services, Division of Retirement, and consists of two cost-sharing multiple-employer defined benefit plans and other nonintegrated programs. A comprehensive annual financial report of the FRS, which includes its financial statements, required supplementary information, actuarial report, and other relevant information, is available from the Florida Department of Management Services Web site (www.dms.myflorida.com).

The College's FRS and HIS pension expense totaled \$3,710,653 for the fiscal year ended June 30, 2019.

FRS Pension Plan

Plan Description. The FRS Pension Plan (Plan) is a cost-sharing multiple-employer defined benefit pension plan, with a DROP for eligible employees. The general classes of membership are as follows:

- *Regular Class* – Members of the FRS who do not qualify for membership in the other classes.
- *Senior Management Service Class (SMSC)* – Members in senior management level positions.

Employees enrolled in the Plan prior to July 1, 2011, vest at 6 years of creditable service and employees enrolled in the Plan on or after July 1, 2011, vest at 8 years of creditable service. All vested members, enrolled prior to July 1, 2011, are eligible for normal retirement benefits at age 62 or at any age after 30 years of creditable service. All members enrolled in the Plan on or after July 1, 2011, once vested, are eligible for normal retirement benefits at age 65 or any time after 33 years of creditable service. Employees enrolled in the Plan may include up to 4 years of credit for military service toward creditable service. The Plan also includes an early retirement provision; however, there is a benefit reduction for each year a member retires before his or her normal retirement date. The Plan provides retirement, disability, death benefits, and annual cost-of-living adjustments to eligible participants.

The DROP, subject to provisions of Section 121.091, Florida Statutes, permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payments while continuing employment with an FRS-participating employer. An employee may participate in DROP for a period not to exceed 60 months after electing to participate. During the period of DROP participation, deferred monthly benefits are held in the FRS Trust Fund and accrue interest. The net pension liability does not include amounts for DROP participants, as these members are considered retired and are not accruing additional pension benefits.

Benefits Provided. Benefits under the Plan are computed on the basis of age and/or years of service, average final compensation, and service credit. Credit for each year of service is expressed as a percentage of the average final compensation. For members initially enrolled before July 1, 2011, the average final compensation is the average of the 5 highest fiscal years' earnings; for members initially enrolled on or after July 1, 2011, the average final compensation is the average of the 8 highest fiscal years' earnings. The total percentage value of the benefit received is determined by calculating the total value of all service, which is based on retirement plan and/or the class to which the member belonged when the service credit was earned. Members are eligible for in-line-of-duty or regular disability and survivors' benefits. The following table shows the percentage value for each year of service credit earned:

| <u>Class, Initial Enrollment, and Retirement Age/Years of Service</u> | <u>% Value</u> |
|--|----------------|
| Regular Class members initially enrolled before July 1, 2011 | |
| Retirement up to age 62 or up to 30 years of service | 1.60 |
| Retirement at age 63 or with 31 years of service | 1.63 |
| Retirement at age 64 or with 32 years of service | 1.65 |
| Retirement at age 65 or with 33 or more years of service | 1.68 |
| Regular Class members initially enrolled on or after July 1, 2011 | |
| Retirement up to age 65 or up to 33 years of service | 1.60 |
| Retirement at age 66 or with 34 years of service | 1.63 |
| Retirement at age 67 or with 35 years of service | 1.65 |
| Retirement at age 68 or with 36 or more years of service | 1.68 |
| Senior Management Service Class | 2.00 |

As provided in Section 121.101, Florida Statutes, if the member was initially enrolled in the Plan before July 1, 2011, and all service credit was accrued before July 1, 2011, the annual cost-of-living adjustment is 3 percent per year. If the member was initially enrolled before July 1, 2011, and has service credit on or after July 1, 2011, there is an individually calculated cost-of-living adjustment. The annual cost-of-living adjustment is a proportion of 3 percent determined by dividing the sum of the pre-July 2011 service credit by the total service credit at retirement multiplied by 3 percent. Plan members initially enrolled on or after July 1, 2011, will not have a cost-of-living adjustment after retirement.

Contributions. The Florida Legislature establishes contribution rates for participating employers and employees. Contribution rates during the 2018-19 fiscal year were:

| <u>Class</u> | <u>Percent of Gross Salary</u> | |
|--|--------------------------------|---------------------|
| | <u>Employee</u> | <u>Employer (1)</u> |
| FRS, Regular | 3.00 | 8.26 |
| FRS, Senior Management Service | 3.00 | 24.06 |
| Deferred Retirement Option Program (applicable to members from all of the above classes) | 0.00 | 14.03 |
| FRS, Reemployed Retiree | (2) | (2) |

(1) Employer rates include 1.66 percent for the postemployment health insurance subsidy. Also, employer rates, other than for DROP participants, include 0.06 percent for administrative costs of the Investment Plan.

(2) Contribution rates are dependent upon retirement class in which reemployed.

The College's contributions to the Plan totaled \$1,954,421 for the fiscal year ended June 30, 2019.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At June 30, 2019, the College reported a liability of \$16,724,454 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2018. The College's proportionate share of the net pension liability was based on the College's 2017-18 fiscal year contributions relative to the total 2017-18 fiscal year contributions of all participating members. At June 30, 2018, the College's proportionate share was

0.055525118 percent, which was a decrease of 0.002310971 from its proportionate share measured as of June 30, 2017.

For the fiscal year ended June 30, 2019, the College recognized pension expense of \$3,061,850. In addition, the College reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| <u>Description</u> | <u>Deferred Outflows of Resources</u> | <u>Deferred Inflows of Resources</u> |
|--|---|--|
| Differences between expected and actual experience | \$ 1,416,813 | \$ 51,424 |
| Change of assumptions | 5,464,738 | - |
| Net difference between projected and actual earnings on FRS Plan investments | - | 1,292,168 |
| Changes in proportion and differences between College FRS contributions and proportionate share of contributions | 547,074 | 677,580 |
| College FRS contributions subsequent to the measurement date | 1,954,421 | - |
| Total | \$ 9,383,046 | \$ 2,021,172 |

The deferred outflows of resources totaling \$1,954,421, resulting from College contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the fiscal year ending June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| <u>Fiscal Year Ending June 30</u> | <u>Amount</u> |
|-----------------------------------|---------------------|
| 2020 | \$ 2,339,241 |
| 2021 | 1,484,178 |
| 2022 | 81,277 |
| 2023 | 856,671 |
| 2024 | 575,002 |
| Thereafter | 71,084 |
| Total | \$ 5,407,453 |

Actuarial Assumptions. The total pension liability in the July 1, 2018, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| | |
|---------------------------|---|
| Inflation | 2.60 percent |
| Salary increases | 3.25 percent, average, including inflation |
| Investment rate of return | 7.00 percent, net of pension plan investment expense, including inflation |

Mortality rates were based on the Generational RP-2000 with Projection Scale BB.

The actuarial assumptions used in the July 1, 2018, valuation were based on the results of an actuarial experience study for the period July 1, 2008, through June 30, 2013.

The long-term expected rate of return on pension plan investments was not based on historical returns, but instead is based on a forward-looking capital market economic model. The allocation policy's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes an adjustment for the inflation assumption. The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

| <u>Asset Class</u> | <u>Target Allocation</u> (1) | <u>Annual Arithmetic Return</u> | <u>Compound Annual (Geometric) Return</u> | <u>Standard Deviation</u> |
|--------------------------|------------------------------|---------------------------------|---|---------------------------|
| Cash | 1% | 2.9% | 2.9% | 1.8% |
| Fixed Income | 18% | 4.4% | 4.3% | 4.0% |
| Global Equity | 54% | 7.6% | 6.3% | 17.0% |
| Real Estate (Property) | 11% | 6.6% | 6.0% | 11.3% |
| Private Equity | 10% | 10.7% | 7.8% | 26.5% |
| Strategic Investments | 6% | 6.0% | 5.7% | 8.6% |
| Total | 100% | | | |
| Assumed inflation - Mean | | | 2.6% | 1.9% |

(1) As outlined in the Plan's investment policy.

Discount Rate. The discount rate used to measure the total pension liability was 7.00 percent. The Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return. The discount rate used in the 2018 valuation was updated from 7.10 percent to 7.00 percent.

Sensitivity of the College's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate. The following presents the College's proportionate share of the net pension liability calculated using the discount rate of 7.00 percent, as well as what the College's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.00 percent) or 1 percentage point higher (8.00 percent) than the current rate:

| | <u>1% Decrease (6.00%)</u> | <u>Current Discount Rate (7.00%)</u> | <u>1% Increase (8.00%)</u> |
|--|----------------------------|--------------------------------------|----------------------------|
| College's proportionate share of the net pension liability | \$30,522,829 | \$16,724,454 | \$5,264,087 |

Pension Plan Fiduciary Net Position. Detailed information about the Plan's fiduciary net position is available in the separately issued FRS Pension Plan and Other State Administered Systems Comprehensive Annual Financial Report.

HIS Pension Plan

Plan Description. The HIS Pension Plan (HIS Plan) is a cost-sharing multiple-employer defined benefit pension plan established under Section 112.363, Florida Statutes, and may be amended by the

Florida Legislature at any time. The benefit is a monthly payment to assist retirees of State-administered retirement systems in paying their health insurance costs and is administered by the Florida Department of Management Services, Division of Retirement.

Benefits Provided. For the fiscal year ended June 30, 2019, eligible retirees and beneficiaries received a monthly HIS payment of \$5 for each year of creditable service completed at the time of retirement with a minimum HIS payment of \$30 and a maximum HIS payment of \$150 per month, pursuant to Section 112.363, Florida Statutes. To be eligible to receive a HIS benefit, a retiree under a State-administered retirement system must provide proof of health insurance coverage, which can include Medicare.

Contributions. The HIS Plan is funded by required contributions from FRS participating employers as set by the Florida Legislature. Employer contributions are a percentage of gross compensation for all active FRS members. For the fiscal year ended June 30, 2019, the contribution rate was 1.66 percent of payroll pursuant to Section 112.363, Florida Statutes. The College contributed 100 percent of its statutorily required contributions for the current and preceding 3 years. HIS Plan contributions are deposited in a separate trust fund from which HIS payments are authorized. HIS Plan benefits are not guaranteed and are subject to annual legislative appropriation. In the event the legislative appropriation or available funds fail to provide full subsidy benefits to all participants, benefits may be reduced or canceled.

The College's contributions to the HIS Plan totaled \$440,300 for the fiscal year ended June 30, 2019.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At June 30, 2019, the College reported a net pension liability of \$7,756,446 for its proportionate share of the net pension liability. The current portion of the net pension liability is the College's proportionate share of benefit payments expected to be paid within 1 year, net of the College's proportionate share of the HIS Plan's fiduciary net position available to pay that amount. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2018. The College's proportionate share of the net pension liability was based on the College's 2017-18 fiscal year contributions relative to the total 2017-18 fiscal year contributions of all participating members. At June 30, 2018, the College's proportionate share was 0.073283861 percent, which was a decrease of 0.004017235 from its proportionate share measured as of June 30, 2017.

For the fiscal year ended June 30, 2019, the College recognized pension expense of \$648,803. In addition, the College reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| <u>Description</u> | <u>Deferred Outflows of Resources</u> | <u>Deferred Inflows of Resources</u> |
|--|---|--|
| Differences between expected and actual experience | \$ 118,748 | \$ 13,178 |
| Change of assumptions | 862,613 | 820,076 |
| Net difference between projected and actual earnings on HIS Plan investments | 4,682 | - |
| Changes in proportion and differences between College HIS contributions and proportionate share of HIS contributions | 417,272 | 499,430 |
| College contributions subsequent to the measurement date | 440,300 | - |
| Total | \$ 1,843,615 | \$ 1,332,684 |

The deferred outflows of resources totaling \$440,300, resulting from College contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the fiscal year ending June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| <u>Fiscal Year Ending June 30</u> | <u>Amount</u> |
|-----------------------------------|------------------|
| 2020 | \$ 178,377 |
| 2021 | 177,982 |
| 2022 | 76,989 |
| 2023 | (54,824) |
| 2024 | (187,209) |
| Thereafter | (120,684) |
| Total | \$ 70,631 |

Actuarial Assumptions. The total pension liability at July 1, 2018, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| | |
|---------------------|--|
| Inflation | 2.60 percent |
| Salary Increases | 3.25 percent, average, including inflation |
| Municipal bond rate | 3.87 percent |

Mortality rates were based on the Generational RP-2000 with Projection Scale BB.

While an experience study had not been completed for the HIS Plan, the actuarial assumptions that determined the total pension liability for the HIS Plan were based on certain results of the most recent experience study for the FRS Plan.

Discount Rate. The discount rate used to measure the total pension liability was 3.87 percent. In general, the discount rate for calculating the total pension liability is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS benefit is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate, and the single equivalent discount rate is equal to the municipal bond rate

selected by the plan sponsor. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index. The discount rate used in the 2018 valuation was updated from 3.58 percent to 3.87 percent.

Sensitivity of the College’s Proportionate Share of the Net Pension Liability to Changes in the Discount Rate. The following presents the College’s proportionate share of the net pension liability calculated using the discount rate of 3.87 percent, as well as what the College’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (2.87 percent) or 1 percentage point higher (4.87 percent) than the current rate:

| | <u>1% Decrease (2.87%)</u> | <u>Current Discount Rate (3.87%)</u> | <u>1% Increase (4.87%)</u> |
|--|------------------------------------|--|------------------------------------|
| College’s proportionate share of the net pension liability | \$8,834,138 | \$7,756,446 | \$6,858,128 |

Pension Plan Fiduciary Net Position. Detailed information about the HIS Plan’s fiduciary net position is available in the separately issued FRS Pension Plan and Other State Administered Systems Comprehensive Annual Financial Report.

11. Retirement Plans – Defined Contribution Pension Plans

FRS Investment Plan. The SBA administers the defined contribution plan officially titled the FRS Investment Plan (Investment Plan). The Investment Plan is reported in the SBA’s annual financial statements and in the State’s Comprehensive Annual Financial Report.

As provided in Section 121.4501, Florida Statutes, eligible FRS members may elect to participate in the Investment Plan in lieu of the FRS defined benefit plan. College employees already participating in the State College System Optional Retirement Program or DROP are not eligible to participate in the Investment Plan. Employer and employee contributions are defined by law, but the ultimate benefit depends in part on the performance of investment funds. Service retirement benefits are based upon the value of the member’s account upon retirement. Benefit terms, including contribution requirements, are established and may be amended by the Florida Legislature. The Investment Plan is funded with the same employer and employee contributions rates, that are based on salary and membership class (Regular Class, Senior Management Service Class, etc.), as the FRS defined benefit plan. Contributions are directed to individual member accounts and the individual members allocate contributions and account balances among various approved investment choices. Costs of administering the Investment Plan, including the FRS Financial Guidance Program, are funded through an employer contribution of 0.06 percent of payroll and by forfeited benefits of Investment Plan members. Allocations to the Investment Plan member accounts during the 2018-19 fiscal year were as follows:

| <u>Class</u> | <u>Percent of Gross Compensation</u> |
|--------------------------------|--|
| FRS, Regular | 6.30 |
| FRS, Senior Management Service | 7.67 |

For all membership classes, employees are immediately vested in their own contributions and are vested after 1 year of service for employer contributions and investment earnings regardless of membership class. If an accumulated benefit obligation for service credit originally earned under the FRS Pension Plan is transferred to the Investment Plan, the member must have the years of service required for FRS Pension Plan vesting (including the service credit represented by the transferred funds) to be vested for these funds and the earnings on the funds. Nonvested employer contributions are placed in a suspense account for up to 5 years. If the employee returns to FRS-covered employment within the 5-year period, the employee will regain control over their account. If the employee does not return within the 5-year period, the employee will forfeit the accumulated account balance. For the fiscal year ended June 30, 2019, the information for the amount of forfeitures was unavailable from the SBA; however, management believes that these amounts, if any, would be immaterial to the College.

After termination and applying to receive benefits, the member may roll over vested funds to another qualified plan, structure a periodic payment under the Investment Plan, receive a lump-sum distribution, leave the funds invested for future distribution, or any combination of these options. Disability coverage is provided in which the member may either transfer the account balance to the FRS Pension Plan when approved for disability retirement to receive guaranteed lifetime monthly benefits under the FRS Pension Plan, or remain in the Investment Plan and rely upon that account balance for retirement income.

The College's Investment Plan pension expense totaled \$592,195 for the fiscal year ended June 30, 2019.

State College System Optional Retirement Program. Section 1012.875, Florida Statutes, provides for an Optional Retirement Program (Program) for eligible college instructors and administrators. The Program is designed to aid colleges in recruiting employees by offering more portability to employees not expected to remain in the FRS for 8 or more years.

The Program is a defined contribution plan, which provides full and immediate vesting of all contributions submitted to the participating companies on behalf of the participant. Employees in eligible positions can make an irrevocable election to participate in the Program, rather than the FRS, and purchase retirement and death benefits through contracts provided by certain insurance carriers. The employing college contributes 5.15 percent of the participant's salary to the participant's account, 3.5 percent to cover the unfunded actuarial liability of the FRS pension plan, for a total of 8.65 percent, and employees contribute 3 percent of the employee's salary. Additionally, the employee may contribute, by payroll deduction, an amount not to exceed the percentage contributed by the college to the participant's annuity account. The contributions are invested in the company or companies selected by the participant to create a fund for the purchase of annuities at retirement.

The College's contributions to the Program totaled \$72,711 and employee contributions totaled \$46,074 for the 2018-19 fiscal year.

Senior Management Service Optional Annuity Program. Section 121.055, Florida Statutes, created the Senior Management Service Optional Annuity Program (Annuity Program) as an optional retirement program for College employees who are members of the FRS Senior Management Service Class.

The Annuity Program is a defined contribution plan, which provides full and immediate vesting of all contributions submitted to the participating companies on behalf of the participant. College employees

in eligible positions make an irrevocable election to participate in the Annuity Program in lieu of the Senior Management Service Class of FRS and purchase retirement and death benefits through contracts with participating provider companies. The College contributes 6.27 percent of the participant's salary to the participant's account and 17.89 percent to cover the unfunded actuarial liability of the FRS pension plan for a total of 24.16 percent, and employees contribute 3 percent of the employee's salary. Additionally, the employee may contribute, by salary reduction, an additional amount not to exceed the percentage contributed by the College. These contributions are invested in the companies selected by the employee to create a fund for the purchase of annuities at retirement.

There was one College participant during the 2018-19 fiscal year. The College's contributions to the Annuity Program totaled \$6,443 and employee contributions totaled \$3,163 for the 2018-19 fiscal year.

12. Construction Commitments

The College's major construction commitments at June 30, 2019, were as follows:

| <u>Project Description</u> | <u>Total Commitment</u> | <u>Completed to Date</u> | <u>Balance Committed</u> |
|--|-----------------------------|------------------------------|------------------------------|
| North Campus Parking Lots 1&2 Redesign | | | |
| Architect | \$ 129,880 | \$ 121,232 | \$ 8,648 |
| Construction Manager | 1,795,737 | 1,761,135 | 34,602 |
| Instructional Performing Arts Center Wesley Chapel | | | |
| Architect | 1,576,273 | 1,253,073 | 323,200 |
| Construction Manager | 13,567,639 | - | 13,567,639 |
| West Campus Gym Renovation | | | |
| Architect | 21,227 | 12,978 | 8,249 |
| East Campus Parking Lots 2&3 | | | |
| Architect | 116,821 | 91,697 | 25,124 |
| West Campus Master Plan | | | |
| Architect | 42,420 | 26,940 | 15,480 |
| Total | <u>\$ 17,249,997</u> | <u>\$ 3,267,055</u> | <u>\$ 13,982,942</u> |

13. Risk Management Programs

The College is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The College provided coverage for these risks primarily through the Florida College System Risk Management Consortium (Consortium), which was created under authority of Section 1001.64(27), Florida Statutes, by the boards of trustees of the Florida public colleges for the purpose of joining a cooperative effort to develop, implement, and participate in a coordinated Statewide college risk management program. The Consortium is self-sustaining through member assessments (premiums) and purchases excess insurance through commercial companies for claims in excess of specified amounts. Excess insurance from commercial companies provided coverage of up to \$100 million for property insurance. Insurance coverage obtained through the Consortium included fire and extended property, general and automobile liability, workers' compensation, health, life, and other liability coverage. Settled claims resulting from these risks have not exceeded commercial coverage in any of the past 3 fiscal years.

14. Capital Credits

The College participates in a nonprofit electrical cooperative, the Withlacoochee River Electric Cooperative, Inc., established under Chapter 425, Florida Statutes. In accordance with this Statute, revenues in excess of operating expenses, unless otherwise determined by a vote of membership, are distributed by the Cooperative on a pro rata basis to its members' accounts. Capital credits are distributed only after the Cooperative meets a certain margin of profit required by the Rural Electrification Administration. At June 30, 2019, the accumulated credits to the College's account were \$1,034,184.

15. Functional Distribution of Operating Expenses

The functional classification of an operating expense (instruction, academic support, etc.) is assigned to a department based on the nature of the activity, which represents the material portion of the activity attributable to the department. For example, activities of an academic department for which the primary departmental function is instruction may include some activities other than direct instruction such as public service. However, when the primary mission of the department consists of instructional program elements, all expenses of the department are reported under the instruction classification. The operating expenses on the statement of revenues, expenses, and changes in net position are presented by natural classifications. The following are those same expenses presented in functional classifications as recommended by NACUBO:

| <u>Functional Classification</u> | <u>Amount</u> |
|------------------------------------|----------------------|
| Instruction | \$ 20,178,295 |
| Academic Support | 7,418,383 |
| Student Services | 9,173,137 |
| Institutional Support | 8,737,596 |
| Operation and Maintenance of Plant | 8,478,938 |
| Scholarships and Waivers | 12,560,236 |
| Auxiliary Enterprises | 4,747,598 |
| Depreciation | 9,080,929 |
| Total Operating Expenses | \$ 80,375,112 |

Legislative Auditing Committee

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Pasco-Hernando State College, a component unit of the State of Florida, and its discretely presented component unit as of and for the fiscal year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the College's basic financial statements, and have issued our report thereon dated March 19, 2020, included under the heading **INDEPENDENT AUDITOR'S REPORT**. Our report includes a reference to other auditors who audited the financial statements of the discretely presented component unit, as described in our report on the College's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the College's internal control over financial reporting (internal control) to determine audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control. Accordingly, we do not express an opinion on the effectiveness of the College's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the College's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control

that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the College's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, rules, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the College's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the College's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Respectfully submitted,

A handwritten signature in blue ink that reads "Sherrill F. Norman". The signature is fluid and cursive, with a large initial "S" and "N".
