# SUMMARY OF SIGNIFICANT FINDINGS AND FINANCIAL TRENDS IDENTIFIED IN LOCAL GOVERNMENT AUDIT REPORTS FOR THE 2019-20 FISCAL YEAR

## SUMMARY

---

This report provides a summary of significant findings identified in local governmental entity<sup>1</sup> 2019-20 fiscal year financial audit reports filed with us by independent certified public accountants. This report also summarizes the financial trends we identified in those reports and in the unaudited annual financial reports filed with and provided to us by the Department of Financial Services (DFS).

### Significant Findings

We reviewed the 1,565 local governmental entity 2019-20 fiscal year financial audit reports filed with us for 1,852 entities<sup>2</sup> (346 county agencies, 351 municipalities, and 1,155 special districts) as of July 31, 2021, and noted that:

- The audit reports for 38 (2 percent) of the entities contained one or more modified opinions, which is the same percentage of entity audit reports reviewed for the 2018-19 fiscal year with modified opinions.
- While the audit reports for 1,447 entities contained no findings, the audit reports for 405 entities contained 806 findings, 3 percent more than the 784 findings included in the 2018-19 fiscal year audit reports reviewed.<sup>3</sup> The 806 findings included 286 findings (35 percent) similarly reported in the 2018-19 and 2017-18 fiscal year audit reports, a 1 percent decrease when compared to 283 findings (36 percent) reported in the 2018-19 audit reports that had been similarly reported in the 2017-18 and 2016-17 fiscal year audit reports. Many of the findings (43 percent) did not include one or more of the elements required by *Government Auditing Standards (GAS)*<sup>4</sup> and the Rules of the Auditor General.<sup>5</sup>
- The audit reports for 124 (7 percent), 113 (6 percent), and 78 (4 percent) of the entities disclosed findings classified as financial statement material weaknesses, significant deficiencies, and noncompliance required to be reported in accordance with *GAS*,<sup>6</sup> respectively. For the 2018-19 fiscal year, the percentages of audit reports reviewed with those type findings were 7 percent, 7 percent, and 3 percent, respectively.
- The respective auditors considered 202 (25 percent) of the 806 findings reported to be material weaknesses in internal control over financial reporting, 162 findings (20 percent) to be significant deficiencies, and 104 (13 percent) to be noncompliance required by *GAS* to be reported. For the 2018-19 fiscal year, those type findings represented 25 percent, 20 percent, and 8 percent,

---

<sup>1</sup> The local governmental entities include counties and certain municipalities and special districts.

<sup>2</sup> The 1,565 audit reports received through July 31, 2021, included 59 county audit reports that each included separate audits of each county agency. We reviewed the findings separately reported for the county agencies in the county audit reports received and, therefore, reviewed audit reports related to a total of 1,852 local governmental entities.

<sup>3</sup> For the 2018-19 fiscal year, we reviewed audit reports for 1,709 local governmental entities. A total of 784 findings were reported for 386 of those entities.

<sup>4</sup> *Government Auditing Standards 2018 Revision*, paragraphs 6.17 through 6.30.

<sup>5</sup> Chapter 10.550, Rules of the Auditor General.

<sup>6</sup> *GAS* require auditors to report noncompliance with provisions of laws, regulations, contracts, or grant agreements that has a material effect on the financial statements and any other instances of noncompliance with provisions of laws or regulations that warrant the attention of those charged with governance.

respectively, of the total findings reported. The material weaknesses and significant deficiencies reported for the 2019-20 and 2018-19 fiscal years primarily related to inadequate separation of duties, general accounting records, and financial reporting. The noncompliance findings mainly addressed budget overexpenditures and noncompliance with bond covenants and established policies and procedures.

- 14 audit reports contained a total of 17 findings citing Federal awards program noncompliance, control deficiencies, or both; whereas, for the 2018-19 fiscal year, 17 entity audit reports had a total of 22 such findings.
- 8 audit reports contained a total of 13 findings citing State awards program noncompliance, control deficiencies, or both; whereas, for the 2018-19 fiscal year, 17 entity audit reports had a total of 24 such findings.

## Financial Trends

We reviewed 1,672 audit reports for the 2019-20 fiscal year, including the 1,565 local governmental entity 2019-20 fiscal year audit reports filed with us through July 31, 2021, and audit reports we received from 107 other local governmental entities during the period August through October 2021. We also reviewed 132 selected local governmental entity unaudited annual financial reports filed with the DFS and provided to us.

Our reviews of the 1,672 audit reports included a determination of whether the financial statement auditor reported that the entity met one or more of the conditions described in State law<sup>7</sup> that could cause the entity to be in a state of financial emergency. We also compiled and reviewed reported financial data, for example, fund equity, cash, and investment balances, as applicable, for the 1,565 audit reports filed with us through July 31, 2021, and the 132 annual financial reports. Our reviews disclosed that:

- The audit reports for 3 local governmental entities included a going concern statement by the respective auditors that questioned the ability of the local governmental entity to continue operations on an ongoing basis. Two reports reviewed for the 2018-19 fiscal year contained this statement.
- The audit reports for 34 (1 municipality and 33 special districts), or 2 percent, of the 1,672 entities reported that the entity met at least one condition described in State law that could cause the entity to be in a state of financial emergency. When compared to our review results for the previous 4 fiscal years, this is the fewest number of entities reported as meeting at least one of the conditions.
- The audit reports for 35 (9 municipalities and 26 special districts), or 2 percent, of the 1,672 entities reported that the entity was experiencing deteriorating financial conditions. The number of reported entities experiencing deteriorating financial conditions decreased from 61 entities during the 2015-16 fiscal year to 35 entities during the 2019-20 fiscal year.
- Taxable property values and taxes levied for counties and municipalities have generally increased over the 8-year period 2012 through 2020, with the exception of the decrease in taxable property values for counties in 2012 and the decrease in taxes levied for municipalities in 2020. County and municipality taxable property values increased by \$844 billion (66 percent) and \$431 billion (64 percent), respectively, over the 9-year period 2011 through 2020. Taxes levied also increased by \$4.3 billion (70 percent) for counties and by \$2.3 billion (72 percent) for municipalities for the same period.

---

<sup>7</sup> Section 218.503(1), Florida Statutes.

- Certain financial trends for numerous entities were identified that may be indicative of deteriorating financial conditions, including high levels of ad valorem millage rates for lesser-populated counties, insufficient levels of assigned and unassigned fund equity, declining excess revenues over expenditures in governmental funds or decreasing operating incomes (or increasing operating losses) in proprietary funds, and low or declining levels of cash and investments, as compared to current liabilities.

## **BACKGROUND**

---

One of the local government financial reporting system goals set forth in State law<sup>8</sup> is the timely, accurate, uniform, and cost-effective accumulation of financial and other information that can be used by the Legislature and other appropriate officials to improve the financial condition of local governments. State law<sup>9</sup> requires local governmental entity financial audits be performed by independent certified public accountants (CPAs). The independent auditors are to notify local governmental entities of:<sup>10</sup>

- Deteriorating financial conditions that may cause a condition described in State law<sup>11</sup> to occur if actions are not taken to address such conditions.
- A fund balance deficit in total or for that portion of a fund balance not classified as restricted, committed, or nonspendable, or a total or unrestricted net assets deficit, as reported on the fund financial statements for which sufficient resources of the local governmental entity, as reported on the fund financial statements, are not available to cover the deficit. Rules of the Auditor General<sup>12</sup> require the independent auditor to assess the local governmental entity's financial condition and include management letter recommendations addressing any deteriorating financial conditions disclosed by the audit.

The local governmental entity's independent auditor is also required by Rules of the Auditor General<sup>13</sup> to apply appropriate procedures and state in the management letter whether or not the local governmental entity met one or more of the conditions specified in State law. When one or more of the conditions has occurred or will occur if action is not taken to assist the entity, a local governmental entity is to notify the Governor and the Legislative Auditing Committee.<sup>14</sup>

State law<sup>15</sup> requires us to review, in consultation with the Florida Board of Accountancy, all local governmental entity audit reports filed with us. Pursuant to State law,<sup>16</sup> if an entity is reported as meeting one or more of the specified conditions, we are required to notify the Governor and the Legislative Auditing Committee. The Governor is responsible for determining whether the local governmental entity needs State assistance to resolve the condition(s) and, if so, the entity is considered to be in a state of financial emergency.

<sup>8</sup> Section 11.45(2)(g), Florida Statutes.

<sup>9</sup> Section 218.39(1), Florida Statutes.

<sup>10</sup> Section 218.39(5), Florida Statutes.

<sup>11</sup> Section 218.503(1), Florida Statutes.

<sup>12</sup> Sections 10.554(1)(i)5.b. and 10.556(8), Rules of the Auditor General.

<sup>13</sup> Sections 10.554(1)(i)5.a. and 10.556(7), Rules of the Auditor General.

<sup>14</sup> Section 218.503(2), Florida Statutes.

<sup>15</sup> Section 11.45(7)(b), Florida Statutes.

<sup>16</sup> Section 11.45(7)(e), Florida Statutes.

We are also required to notify the Legislative Auditing Committee of local governmental entity audit reports that indicate the local government failed to take full corrective action in response to a recommendation that was included in the two preceding financial audit reports.<sup>17</sup> In addition, we are to annually compile and transmit to the President of the Senate, the Speaker of the House of Representatives, and the Legislative Auditing Committee a summary of significant findings and financial trends identified in local governmental entity audit reports and other financial information, such as information contained in the annual financial reports for entities not required to obtain an audit.<sup>18</sup>

## **SIGNIFICANT FINDINGS**

---

### **Modified Audit Opinions**

Audit findings of the greatest significance include those that report noncompliance and control deficiencies that have a material impact on the fair presentation of the financial statements and may result in a modification of the independent auditor's opinion on the financial statements. Modified opinions include:

- Qualified opinions, whereby the auditor states that, except for the effects of the matters to which the qualification relates, the financial statements are fairly presented.
- Adverse opinions, whereby the auditor states that the financial statements are not fairly presented.
- Disclaimers of opinion, whereby the auditor does not express an opinion.

We reviewed 2019-20 fiscal year audit reports for 1,852 local governmental entities<sup>19</sup> (346 county agencies, 351 municipalities, and 1,155 special districts) and noted that the audit reports for 38 (2 percent) of the entities contained one or more modified opinions. The reported information included:

- Qualified opinions for 31 entities (1 county, 14 municipalities, and 16 special districts).
- Adverse opinions for 15 special districts, including 11 with qualified opinions.
- Disclaimer of opinion for 4 entities (1 county, 1 municipality, and 2 special districts).

Thirty-three (87 percent) of the 38 local governmental entities with modified opinions also had one or more modified opinions for the 2018-19 fiscal year.

Table 1 lists the 31 entities whose 2019-20 fiscal year audit reports included qualified opinions. The respective CPAs issued qualified opinions because the entities, for example, failed to implement certain Governmental Accounting Standards Board (GASB) statements,<sup>20</sup> had inadequate records for capital assets, failed to acquire an actuarial valuation to determine the amount of its total Other Postemployment

---

<sup>17</sup> Section 218.39(8), Florida Statutes.

<sup>18</sup> Section 11.45(7)(f), Florida Statutes.

<sup>19</sup> The 1,565 audit reports received through July 31, 2021, included 59 county audit reports that each included separate audits of each county agency. We reviewed the findings separately reported for each of the county agencies in the county audit reports received and, therefore, reviewed audit reports related to a total of 1,852 local governmental entities.

<sup>20</sup> GASB Statement No. 67, *Financial Reporting for Pension Plans*; 68, *Accounting and Financial Reporting for Pensions*; and GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*.

Benefits (OPEB) liability, or excluded component units from the financial statements. The percentage of 2019-20 fiscal year audit reports reviewed with qualified opinions (2 percent) is the same percentage as the 2018-19 fiscal year audit reports reviewed with qualified opinions.

**15 Total Number of Audit Reports with Adverse Opinions**

<sup>a</sup> Entity is 1 of 14 entities that also had an adverse audit report opinion for the 2018-19 fiscal year.

<sup>b</sup> Entity is 1 of 11 entities that also had a qualified audit report opinion for the 2019-20 fiscal year.

Source: Auditor General analysis of local governmental entity audit reports.

Table 3 lists the 4 local governmental entities whose 2019-20 fiscal year audit reports included disclaimers of opinion. The disclaimers of opinion were because financial statements did not include financial data for legally separate component units, reconciliations of pooled cash contained unreconciled differences and did not evidence that all bank activity had been recorded, and numerous errors in account balances and activity resulting from implementation of a new financial reporting system. In contrast, two 2018-19 fiscal year audit reports filed with us (City of Springfield and Clearwater Cay CDD) included disclaimers of opinion.

### Classification of Audit Findings

Auditing standards require auditors to report material weaknesses in internal control and significant control deficiencies that are disclosed during the course of a financial statement audit. A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. Auditors must also report noncompliance required to be reported by *Government Auditing Standards (GAS)* that has a material effect on a financial statement audit. The classification of an audit finding is dependent upon its potential impact on the specific entity under audit. Therefore, the classification of an audit finding could vary from entity to entity.

For the 2019-20 fiscal year, the financial audit reports we reviewed for the 1,852 local governmental entities<sup>21</sup> included reports for 1,447 entities that contained no findings, while the reports for the remaining 405 local governments (22 percent) included a total of 806 findings addressing deficiencies in internal control; instances of noncompliance with applicable laws, rules, or regulations; and other findings. This percentage is comparable to the 23 percent of the audit reports we reviewed for the 2018-19 fiscal year<sup>22</sup> that included audit findings.

<sup>21</sup> We received 1,565 audit reports through July 31, 2021, including 59 county audit reports that each included separate audits of each county agency. We reviewed the findings separately reported for the county agencies in the county audit reports received and, therefore, reviewed audit reports related to a total of 1,852 local governmental entities.

<sup>22</sup> For the 2018-19 fiscal year, we reviewed audit reports for 1,709 local governmental entities. A total of 784 findings were reported for 386 of those entities.

## **Financial Statement Material Weaknesses and Noncompliance Required to be Reported by GAS**

One or more findings were considered by the respective auditors to be financial statement material weaknesses in 124 (7 percent) of the 2019-20 fiscal year local governmental entity audit reports we reviewed, which is the same percentage of audit reports reviewed that reported material weaknesses for the 2018-19 fiscal year.<sup>23</sup> In total, the 2019-20 fiscal year audit reports we reviewed included 202 findings (34 findings for 25 county agencies, 97 findings for 54 municipalities, and 71 findings for 45 special districts) considered by the respective auditors to be material weaknesses in internal control over financial reporting. This represents 25 percent of the total findings in the reports reviewed, the same percentage of material weakness findings in reports reviewed for the 2018-19 fiscal year. The financial statement material weaknesses reported for the 2019-20 and 2018-19 fiscal years primarily related to inadequate separation of duties, general accounting records, financial reporting, and cash controls.

Additionally, the 2019-20 fiscal year audit reports for 78 local governmental entities included a total of 104 findings (9 findings for 8 county agencies, 38 findings for 28 municipalities, and 57 findings for 42 special districts), or 13 percent of the total findings, considered by the respective auditors to be noncompliance findings required to be reported by GAS, including 6 noncompliance findings reported in separate reports and also classified as material weaknesses. In contrast, for the 2018-19 fiscal year, 45 local governmental entities had a total of 65 noncompliance findings required to be reported by GAS, including 5 noncompliance findings reported in separate reports and also classified as material weaknesses. The noncompliance findings for the 2019-20 and 2018-19 fiscal years mainly addressed budget overexpenditures and noncompliance with bond covenants.

Further, the 104 findings considered by the respective auditors to be noncompliance findings included 3 noncompliance findings also classified as significant deficiencies. These noncompliance findings addressed budget overexpenditures and noncompliance with bond covenants. Similarly, for the 2018-19 fiscal year, 3 of the 65 noncompliance findings were also classified as significant deficiencies.

## **Financial Statement Significant Deficiencies**

One or more findings were considered by the respective auditors to be financial statement significant deficiencies in 113 (6 percent) of the 2019-20 fiscal year local governmental entity audit reports we reviewed, a 1 percent decrease from the percentage of reports reviewed that reported significant deficiencies for the 2018-19 fiscal year. Also, the 2019-20 fiscal year audit reports included a total of 162 findings (20 percent) considered by the respective auditors to be financial statement significant deficiencies, which is the same percentage of findings reported as significant deficiencies for the 2018-19 fiscal year. The financial statement significant deficiencies reviewed for the 2019-20 and 2018-19 fiscal years primarily related to inadequate separation of duties, general accounting records, and financial reporting.

---

<sup>23</sup> For the 2018-19 fiscal year, 126 (7 percent) of the 1,709 audit reports we reviewed reported material weaknesses.

## Audit Findings by Category

We reviewed 2019-20 fiscal year audit reports for 1,852 local governmental entities compared to 1,709 entities for which we reviewed 2018-19 fiscal year audit reports. The number of findings increased by 3 percent (from 784 findings for the 2018-19 fiscal year to 806 findings for the 2019-20 fiscal year). The change in the number and percentage of findings is further discussed under the subheading **Repeated Findings from Previous Fiscal Years**.

As part of our review, we identified categories of findings and grouped, by those categories, the audit findings included for county agencies (346), municipalities (351), and special districts (1,155) in the 2019-20 fiscal year audit reports. A summary of the number of findings, by finding category and by type of local governmental entity, along with comparative prior fiscal year information, is included as **EXHIBIT A** to this report.

**Separation of Duties**. In audit reports for 15 county agencies (4 percent), 28 municipalities (8 percent), and 23 special districts (2 percent), the respective auditors noted findings regarding an inadequate separation of duties or responsibilities. These 66 entities represent 4 percent of the entities included in the reports reviewed, the same percentage of entities with similar findings the prior fiscal year. Inadequate separation of duties or responsibilities increases the possibility that errors or fraud may occur without timely detection and diminishes the local governmental entity's ability to properly safeguard assets. For many instances, local governmental entity personnel contended that, due to the small number of staff, it was not economically feasible to further separate duties or responsibilities. However, the auditors frequently recommended that the entity reassign duties and responsibilities or establish compensating controls.

**Budget Administration**. In audit reports for 9 county agencies (3 percent), 20 municipalities (6 percent), and 46 special districts (4 percent), the respective auditors noted findings regarding inadequate budgetary controls and noncompliance with legal requirements for adopting and amending the budget. These 75 entities represent 4 percent of the entities included in the reports we reviewed, which is the same percentage of entities with similar findings the prior fiscal year. The findings addressed problems relating to the entity's failure to properly adopt a budget, inadequate budgetary policies, failure to budget for all funds or projects, and overexpended budgets. Budget administration problems may affect an entity's ability to demonstrate to the citizenry the proper use of public resources and could result in inefficient or inappropriate use of resources, resulting in deteriorating financial conditions.

**General Accounting Records**. In audit reports for 24 county agencies (7 percent), 64 municipalities (18 percent), and 31 special districts (3 percent), the respective auditors noted findings regarding inadequate accounting or other records, lack of subsidiary records or failure to timely reconcile subsidiary records to general ledger control accounts, and improper recording of accounting transactions. These 119 entities represent 6 percent of the entities included in the reports reviewed, which is the same percentage of entities with similar findings the prior fiscal year. Recordkeeping deficiencies may reduce an entity's ability to effectively monitor use of public resources and increase the risk of inappropriate or inefficient use of resources. Improperly recorded transactions could also affect the reliability of the entity's reporting of financial position and results of operations.

**Financial Reporting.** In audit reports for 9 of the county agencies (3 percent), 43 municipalities (12 percent), and 39 special districts (3 percent), the respective auditors noted findings relating to deficiencies in reporting financial data either externally or within the local governmental entity. These 91 entities represent 5 percent of the entities included in the reports reviewed, a 1 percent decrease from the percentage of entities with similar findings the prior fiscal year. Financial reporting problems may affect an entity's ability to demonstrate compliance with legal, contractual, and financial reporting requirements and to provide assurance to interested parties (including its governing body) that the entity has a sound financial condition and is using public resources in an efficient and appropriate manner.

**Cash.** In audit reports for 5 county agencies (1 percent), 33 municipalities (9 percent), and 10 special districts (1 percent), the respective auditors noted findings regarding inadequate controls or noncompliance with legal requirements pertaining to cash on hand or held by banks. These 48 entities represent 3 percent of the entities included in the reports reviewed, the same percentage of entities with similar findings the prior fiscal year. The findings addressed inadequate or untimely bank reconciliations, inaccurate recording of cash transactions, and other cash accountability issues, including noncompliance with applicable legal requirements. Noncompliance with legal requirements for cash and cash accountability deficiencies increase the risk of unauthorized disbursements and cash losses and thwart the prompt detection of such disbursements and losses.

**Capital Assets.** In the audit reports for 8 county agencies (2 percent), 19 municipalities (5 percent), and 7 special districts (1 percent), the respective auditors noted findings regarding noncompliance with legal requirements for acquiring or disposing capital assets or the improper use of, and lack of accountability for, capital assets. These 34 entities represent 2 percent of the entities included in the reports reviewed, the same percentage of entities with similar findings the prior fiscal year. The findings addressed inadequate or lack of capital asset records, failure to timely reconcile subsidiary capital asset records to general ledger control accounts, failure to perform an annual inventory and compare the inventory to capital asset records, improper capital asset acquisitions, and unauthorized capital asset disposals. Noncompliance with legal requirements for capital assets and capital asset accountability deficiencies may affect an entity's ability to demonstrate that it has efficiently and appropriately acquired, disposed of, and safeguarded capital assets and increase the risk that such assets could be misappropriated without prompt detection and resolution.

**Debt Administration.** In the audit reports for 9 municipalities (3 percent) and 31 special districts (3 percent), the respective auditors noted findings that cited the entities' failure to make debt principal and interest payments when due, noncompliance with debt reserve requirements, or other noncompliance with bond covenants or other debt agreements. These 40 entities represent 2 percent of the entities included in the reports reviewed, a 1 percent decrease from the percentage of entities with similar findings the prior fiscal year. Debt administration deficiencies may affect an entity's ability to obtain and repay debt and could contribute to deteriorating financial conditions.

**Revenues and Collections.** In the audit reports for 10 county agencies (3 percent), 32 municipalities (9 percent), and 9 special districts (1 percent), the respective auditors noted findings that disclosed inadequate controls or noncompliance with legal requirements pertaining to revenues and accounts receivable. These 51 entities represent 3 percent of the entities included in the reports reviewed, a 1 percent increase from the percentage of entities with similar findings the prior fiscal year. The findings

addressed improper recording of revenue or accounts receivable transactions, improper documentation supporting receipts, lack of an adequate fee structure, untimely deposits, and deposits not made intact. Revenue and accounts receivable deficiencies may affect an entity's ability to ensure that cash collections are safeguarded against loss from unauthorized use or disposition. Failure to assess and collect all revenues to which the entity is entitled could contribute to deteriorating financial conditions.

**Payroll and Personnel Administration.** In the audit reports for 8 county agencies (2 percent), 21 municipalities (6 percent), and 8 special districts (1 percent), the respective auditors noted findings that identified inadequate controls or noncompliance with legal requirements pertaining to payroll and personnel administration. These 37 entities represent 2 percent of the entities included in the reports reviewed, which is the same percentage of entities with similar findings the prior fiscal year. The findings addressed improper authorization and payment of salaries and benefits to employees, improper recording of payroll or personnel transactions, failure to properly and timely remit payroll taxes withheld, or other payroll or personnel matters. Deficiencies in payroll and personnel administration increase the risk that employees may be incorrectly compensated, and employee leave balances may not be accurate.

**Expenditures and Expenses.** In the audit reports for 6 county agencies (2 percent), 6 municipalities (2 percent), and 16 special districts (1 percent), the respective auditors noted findings regarding deficiencies in expending public funds. These 28 entities represent 2 percent of the entities included in the reports reviewed, a 1 percent increase from the percentage of entities with similar findings the prior fiscal year. The findings addressed expenditures or expenses that were not properly documented, approved, or recorded; not executed efficiently; or not made in accordance with laws, rules, ordinances, or other guidelines. Expenditure and expense deficiencies increase the risk of improper payments and the inappropriate or inefficient use of public resources.

**Other Findings.** Auditors also noted a total of 152 other findings in audit reports for 134 local governmental entities (22 county agencies, 66 municipalities and 46 special districts). These 134 entities represent 7 percent of the entities included in the reports reviewed, which is a 3 percent decrease from the percentage of entities with similar other findings reported for the prior fiscal year. These other findings included, for example, findings regarding deteriorating financial condition, deficit fund balance/net assets, failure to follow established policies and procedures, and information technology.

## **Federal Awards Program and State Awards Program Findings**

Federal Uniform Guidance<sup>24</sup> establishes uniform Federal awards program audit requirements and State law<sup>25</sup> establishes State awards program audit requirements. In any fiscal year a local governmental entity expends award amounts that meet the audit threshold requirements, the entity must have the applicable Federal or State single audit. In the audit reports, auditors are required to opine on major Federal and major State program compliance requirements, as applicable, and the auditors can classify audit findings as material weaknesses, significant deficiencies, or noncompliance that has a direct and material effect on major program compliance.

---

<sup>24</sup> Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.*

<sup>25</sup> Section 215.97, Florida Statutes.

A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a Federal or State program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a Federal or State program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

The audit reports for 14 local governmental entities included a total of 17 findings addressing Federal awards program noncompliance, control deficiencies, or both. The findings cited noncompliance with the Federal awards program<sup>26</sup> compliance requirements of Allowable Costs and Cost Principles, Period of Performance, Reporting, and Subrecipient Monitoring. For example:

- 2 local governmental entities were cited for a total of 2 findings addressing major Federal awards program control deficiencies considered by the respective auditors to be material weaknesses in internal controls over major Federal program compliance. In contrast, for the 2018-19 fiscal year, 3 entities were cited with a total of 4 findings considered to be material weaknesses in internal controls over major Federal program compliance.
- 11 local governmental entities were cited a total of 12 findings considered by the respective auditors to be significant deficiencies, and 1 of those findings was considered to be Federal awards program noncompliance required to be reported. In contrast, for the 2018-19 fiscal year, the respective auditors for 12 entities considered a total of 14 findings addressing Federal awards programs to be significant deficiencies and, none of those findings were considered to be Federal awards program noncompliance required to be reported.
- 4 local governmental entities audit reports had a total of 4 findings that identified Federal awards program questioned costs totaling \$367,485 (\$242,246 for costs incurred outside the period of performance, \$65,852 for payroll that was allocated based on budgeted allocations not actual time worked on grant projects, \$58,887 program expenditures reported in incorrect fiscal year and \$500 for disbursement made in excess of approved amount). Comparably, for the 2018-19 fiscal year, 4 audit reports had a total of 4 findings that identified Federal awards program questioned costs totaling \$345,437.
- For both the 2019-20 and 2018-19 fiscal years, no local governmental entities were cited for major Federal awards program noncompliance that resulted in a qualified opinion for the Federal awards program.

In addition, the audit reports for 8 local governmental entities included a total of 13 findings citing State awards program noncompliance, control deficiencies, or both. These findings addressed noncompliance with the State awards program<sup>27</sup> compliance requirements of Reporting, Cash Management, and Special Tests and Provisions. For example:

---

<sup>26</sup> The Federal awards programs included the Capitalization Grant for Drinking Water State Revolving Funds, Community Development Block Grants, Coronavirus Relief Fund, Disaster Grants - Public Assistance, Hazard Mitigation Grant, and HIV Emergency Relief Project Grants.

<sup>27</sup> The State awards programs included Drinking Water Facility Construction, Florida Commission for the Transportation Disadvantaged Trip and Equipment Grant, Florida Springs Grant Program, Local Services Programs, State Housing Initiatives Partnership Program, Statewide Surface Water Restoration and Wastewater Projects, and Wastewater Treatment Facility Construction.

- A total of 3 findings addressing State awards program control deficiencies considered by the respective auditors to be material weaknesses were cited for 2 of the entities that received a qualified opinion on State awards program compliance. Whereas, for the 2018-19 fiscal year, a total of 9 findings addressing State awards program control deficiencies considered by the respective auditors to be material weaknesses were cited for 3 of the entities that received a qualified opinion on State awards program compliance and 2 other local governmental entities.
- A total of 7 findings addressing State awards control deficiencies at 5 local governmental entities were considered by the respective auditors to be significant deficiencies, including 1 significant deficiency that was also reported as a noncompliance finding. In contrast, for the 2018-19 fiscal year, a total of 12 findings addressing State awards control deficiencies at 11 local governmental entities were considered by the respective auditors to be significant deficiencies.
- 2 local governmental entities audit reports had a total of 4 findings that identified State awards program questioned costs totaling \$1,305,344 (\$700,000 for funds expended outside the period of availability, \$237,024 for not obtaining Board approval for overages in close-out report, \$184,160 for a County being unable to provide evidence of review over residency requirements, and \$184,160 for a County being unable to determine if the recipient complied with the residency requirement). For the 2018-19 fiscal year, 8 local governmental entities audit reports had a total of 11 findings that identified State awards program questioned costs totaling \$1,375,421.

## Detail of Audit Findings

GAS<sup>28</sup> and Rules of the Auditor General<sup>29</sup> prescribe the required elements of audit report findings. Of the 806 findings included in the audit reports we reviewed, 349 findings (43 percent) did not include one or more of the required elements, which is an increase in the percentage of findings cited in the prior fiscal year (40 percent) that lacked one or more of the required elements. Chart 1 illustrates, by entity type, the total number of insufficiently detailed audit findings reported for the 2018-19 and 2019-20 fiscal years.

<sup>28</sup> *Government Auditing Standards 2018 Revision*, paragraphs 6.17 through 6.30.

<sup>29</sup> Section 10.557(4)(b), Rules of the Auditor General.

**Chart 1**  
**Insufficiently Detailed Audit Findings**  
**By Entity Type**

Source: Auditor General analysis of local governmental entity audit reports.

Most of the insufficiently detailed audit findings excluded one or more of the following required elements:

- A description of the criteria or specific requirement upon which the audit finding was based (e.g., statutory, regulatory, or other citation).
- A description of the condition found, including facts that support the deficiency identified in the finding.
- A proper perspective (e.g., the number of records examined and the quantity or dollar value of deficiencies noted) to assist audit report users in judging the prevalence and consequences of the finding, such as whether the finding represents an infrequent occurrence or a systemic problem.

Insufficiently detailed audit findings affect the ability of audit report users to understand the exact nature of the problem addressed in the finding and the necessary corrective action and may have contributed to the relatively high percentage of repeated audit findings.

### **Repeated Findings from Previous Fiscal Years**

Of the 806 findings included in 2019-20 fiscal year audit reports we reviewed, 286 findings (35 percent) for 182 local governmental entities (22 county agencies, 74 municipalities, and 86 special districts) were also included in the entities' 2018-19 and 2017-18 fiscal year audit reports. This is comparable to the 283 findings (36 percent) reported in the 2018-19 audit reports as also included in the audit reports for the previous 2 fiscal years (2017-18 and 2016-17).

## **FINANCIAL TRENDS**

---

### **Going Concern Statements**

The 2019-20 fiscal year audit reports for 3 entities (Palm River Community Development District, SWI Community Development District, and Leon County Educational Facilities Authority) included statements by the respective auditors questioning the ability of the entities to continue operations on an ongoing basis (i.e., going concern statements). For the 2018-19 fiscal year, audit reports for 2 of these 3 entities (Palm River Community Development District and Leon County Educational Facilities Authority) also contained a going concern statement.

### **Potential Financial Emergencies**

State law<sup>30</sup> requires local governmental entities to be subject to review and oversight by the Governor if, due to lack of funds, one or more of the following conditions occur:

- Failure within the same fiscal year in which due to pay short-term loans or failure to make bond debt service or other long-term debt payments when due.
- Failure to pay uncontested claims from creditors within 90 days after the claim is presented.
- Failure to transfer at the appropriate time, taxes withheld on the income of employees or employer and employee contributions for Federal social security or any pension, retirement, or benefit plan of an employee.
- Failure for one pay period to pay wages and salaries owed to employees or retirement benefits owed to former employees.

Our review of the 1,672 local governmental entity 2019-20 fiscal year audit reports filed with us through October 2021 disclosed that a total of 34 (2 percent) of the entities (1 municipality and 33 special districts) were reported as meeting one or more of these conditions. As shown in Table 4, when compared to our review results for the previous 4 fiscal years, this is the fewest number of entities reported as meeting at least one of the conditions.

---

<sup>30</sup> Section 218.503(1), Florida Statutes.

**Table 4**  
**Local Governments Meeting Specified Conditions**  
**For the 2015-16 Through 2019-20 Fiscal Years**

Source: Auditor General analysis of local governmental entity audit reports.

If a local governmental entity is reported as meeting one or more of the specified conditions, Rules of the Auditor General<sup>31</sup> require the independent auditor to specify whether the condition was a result of deteriorating financial conditions. For 22 of the 34 entities reported as meeting one or more of the specified conditions at the 2019-20 fiscal year end, the auditor indicated that the condition resulted from deteriorating financial conditions.

### Deteriorating Financial Conditions

As discussed in the **BACKGROUND** section of this report, Rules of the Auditor General<sup>32</sup> require the independent auditor to assess the local governmental entity's financial condition and include management letter recommendations addressing any deteriorating financial conditions disclosed by the audit. For example, a municipality's failure to implement cost reductions or revenue enhancements to replenish fund equities and cash reserves may result in a future financial emergency condition.

The respective auditors reported a total of 35 (2 percent) of the entities (9 municipalities and 26 special districts) as experiencing deteriorating financial conditions at the 2019-20 fiscal year end. As illustrated by Chart 2, the total number of local governmental entities reported as experiencing deteriorating financial conditions has steadily decreased from the 2015-16 through the 2019-20 fiscal years.

<sup>31</sup> Section 10.554(1)(i)5.b.2., Rules of the Auditor General.

<sup>32</sup> Sections 10.554(1)(i)5.b.2. and 10.556(8), Rules of the Auditor General.

### Millage Rates, Taxable Property Values, and Taxes Levied

As similarly noted for previous calendar years, we prepared a summary in Table 5 that shows, on average, less-populated counties had 2020 calendar year millage rates that were higher than those of more-populated counties. In contrast, more-populated municipalities had higher 2020 calendar year millage rates than less-populated municipalities. Table 5 shows, for various population ranges, the average 2020 calendar year millage rates for counties and municipalities.

**Table 5**  
**Populations and Average Tax Rates**  
**2020 Calendar Year**

Counties		Municipalities	
Population Range	Average 2020 Millage Rate	Population Range	Average 2020 Millage Rate
< 25,000	8.9032	< 1,000	4.2603
25,000 – 74,999	8.0002	1,000 – 2,999	4.7559
75,000 – 224,999	5.8926	3,000 – 9,999	4.9417
225,000 – 674,999	5.8007	10,000 – 24,999	4.7826
675,000 +	5.1674	25,000 – 99,999	5.2328
		100,000 +	6.1782

Source: Bureau of Economic and Business Research, University of Florida; and Florida Department of Revenue, Property Valuations and Tax Rate.

State law<sup>33</sup> limits the ad valorem tax against real property and tangible personal property to 10 mills, except for voted levies. As such, entities with millage rates at or near the statutory maximum may be unable to raise additional funds when needed. For the 2020 calendar year, the average ad valorem millage rate was 6.7609 for counties and 4.9041 for municipalities. Five counties and six municipalities established millage rates of 9.5 mills or greater for the 2020 calendar year, which is a decrease from the six counties and seven municipalities with millage rates 9.5 mills or greater for the 2019 calendar year. Since the 2011 calendar year, the average millage rate has increased 3 percent for counties and 10 percent for municipalities. A summary of average millage rates, the total taxable property values, and the total taxes levied by counties and municipalities for the 2011 through 2020 calendar years are shown in Table 6.

**Table 6**  
**Average Millage Rates, Taxable Property Values, and Taxes Levied**  
**For the 2011 Through 2020 Calendar Years**

Counties				Municipalities			
Year	Average Millage Rate	Taxable Property Values	Taxes Levied	Year	Average Millage Rate	Taxable Property Values	Taxes Levied
2020	6.7609	\$2,130,377,105,308	\$10,549,832,666	2020	4.9041	\$1,103,167,158,116	\$5,448,631,644
2019	6.8681	\$1,995,477,685,572	\$9,917,389,803	2019	4.8753	\$1,129,393,866,217	\$5,638,247,030
2018	6.9030	\$1,862,983,263,912	\$9,233,456,980	2018	4.8008	\$1,020,379,094,863	\$5,021,148,012
2017	6.8307	\$1,735,396,221,790	\$8,595,251,079	2017	4.8309	\$948,589,859,725	\$4,616,851,516
2016	6.8891	\$1,607,219,081,691	\$7,966,906,576	2016	4.7507	\$874,867,723,292	\$4,214,939,284
2015	6.8486	\$1,495,400,306,053	\$7,453,181,645	2015	4.6916	\$803,897,891,677	\$3,896,411,050
2014	6.9770	\$1,391,611,734,036	\$6,945,148,414	2014	4.6902	\$742,348,462,462	\$3,581,671,973
2013	6.8729	\$1,313,088,962,720	\$6,531,531,203	2013	4.6539	\$695,368,291,486	\$3,334,857,594
2012	6.7232	\$1,274,129,214,427	\$6,226,308,983	2012	4.5917	\$672,164,583,098	\$3,210,789,207
2011	6.5857	\$1,286,288,672,092	\$6,217,195,940	2011	4.4754	\$672,020,162,040	\$3,165,072,038

Source: Florida Department of Revenue, Property Valuations and Tax Data.

Table 6 also shows that the counties' average millage rates slightly decreased for the 2020 calendar years. After steady annual increases from the 2011 through 2014 calendar years, average county millage rates have stabilized within a narrow range for the 2015 through 2020 calendar years. In contrast, the municipalities' average millage rates increased each year from the 2011 through 2017 calendar years, with a slight decrease from the 2018 calendar year, before again increasing in the 2019 and 2020 calendar years.

As depicted in Charts 3 and 4, there was a significant overall increase in the taxable property values and taxes levied over the 9-year period 2011 through 2020. A comparison of 2019 and 2020 calendar year data for counties shows an increase in taxable property values of \$135 billion (0.7 percent) and taxes levied of \$633 million (6.4 percent). In contrast, the 2019 and 2020 calendar year data for municipalities shows a slight decrease in taxable property values of \$26 billion (2.3 percent) and taxes levied of \$189 million (3.4 percent).

## Pension Plans

We noted that 513 of the 1,565 local governmental entity 2019-20 fiscal year audit reports filed with us as of July 31, 2021, reported the existence of one or more employee defined benefit pension plans. These 513 audit reports related to 59 counties, 272 municipalities, and 182 special districts. The reported employee defined benefit pension plans include plans for general employees, firefighters, police officers, or some combination thereof (mixed).

Of the 513 local governmental entities reporting employee defined benefit pension plans, 349 local governmental entities (58 counties, 144 municipalities, and 147 special districts) participated in the Florida Retirement System (FRS). In addition, 221 of the 513 local governmental entities reported a total of 408 local pension plans (i.e., plans not part of the FRS), including 361 municipal plans (110 for general employees, 96 for firefighters, 114 for police officers, and 41 mixed pension plans), 43 special district plans (23 for general employees and 20 for firefighters), and 4 county plans (1 for general employees and 3 for firefighters).

Historically, defined benefit pension plans that provide specified pension benefits to retirees have been prevalent in the public sector. The Government Finance Officers Association (GFOA),<sup>34</sup> in its best practice publication, *Sustainable Funding Practices of Defined Benefit Pension Plans*, indicates that a fundamental financial objective of a public employee defined benefit pension plan is to fund the long-term cost of benefits promised to plan participants. It is widely acknowledged that the appropriate way to attain reasonable assurance regarding the sustainability of pension benefits is for a government to accumulate resources for future benefit payments in a systematic and disciplined manner during the active service life of the benefiting employees (i.e., long-term funding). Long-term funding is accomplished by employer and employee contributions and investment earnings.

The GFOA recommends that governments adopt funding policies that target a funded ratio<sup>35</sup> of 100 percent or more. Additionally, the *Federal Pension Protection Act of 2006* provides that large private sector pension plans will be considered at risk of defaulting on their liabilities if they have funded ratios less than 80 percent under standard actuarial assumptions and less than 70 percent under certain “worst-case” actuarial assumptions. The implementation of Governmental Accounting Standards Board (GASB) Statement Nos. 67, *Financial Reporting for Pension Plans*, and 68, *Accounting and Financial Reporting for Pensions*, replaced the funded ratio measurement with the calculation of Plan Fiduciary Net Position as a Percentage of Total Pension Liability<sup>36</sup> and these two measures are not comparable. Currently, there is no GFOA guidance regarding what percentages of Plan Fiduciary Net Position as a Percentage of Total Pension Liability may be considered as indicators of potential default.

Chart 5 illustrates, for the local pension plans that reported Plan Fiduciary Net Position as a Percentage of Total Pension Liability for the 2019-20 fiscal year as required by GASB Statement Nos. 67 and 68,

---

<sup>34</sup> The GFOA issues best practices to communicate enhanced techniques and provide information about effective strategies regarding public finance for state and local governments.

<sup>35</sup> A pension plan's funded ratio is the percentage of the plan's liabilities covered by its assets.

<sup>36</sup> Fiduciary net position is the residual amount on the pension plan's statement of fiduciary net position after subtracting liabilities and deferred inflows of resources from assets and deferred outflows of resources. The total pension liability is the portion of the actuarial present value of projected benefit payments that is attributed to past periods of member service.

ranges of reported percentages by local pension plan type (i.e., general employees, firefighters, police officers, and mixed). For comparative purposes, as of June 30, 2020, the FRS reported 78.85 percent as the Plan Fiduciary Net Position as a Percentage of Total Pension Liability.

**Chart 5**  
**Local Pension Plans Reported Plan Fiduciary Net Position**  
**As a Percentage of Total Pension Liability**

## Other Financial Trends

Our examination of trends using financial and other information obtained for the counties, municipalities, and special districts evaluated for the 2009-10 through 2019-20 fiscal years disclosed certain significant financial trends relating to financial equity, results of operations, and other trends. These financial trends are compiled based on our review of audit reports and annual financial reports and do not represent individual financial condition assessments of particular entities. Such assessments are the responsibility of local governmental entities and their independent auditors and require information that can only be obtained through examination of entity records and inquiry of entity management.

### Fund Equity and Results of Operations

Effective for the 2010-11 fiscal year, local governments were required to implement the requirements of GASB Statement No. 54, which established fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds.

Table 7 shows that 153 entities reported net deficit total assigned and unassigned<sup>37</sup> or unrestricted fund equities at the 2019-20 fiscal year end, which represents a 28 percent increase in the number of entities

<sup>37</sup> The assigned and unassigned fund balance classifications pursuant to GASB Statement No. 54 are similar to unreserved fund balance used in reports prior to the 2010-11 fiscal year.

that reported deficits at the 2014-15 fiscal year end, and a 29 percent increase over the number of entities that reported deficits at the 2009-10 fiscal year end. Although local governments are not statutorily required to maintain a specified level of assigned and unassigned or unrestricted fund equity, the ability of these entities to maintain adequate service levels and fund capital acquisitions may be diminished if sufficient fund equity is not maintained.

**Table 7**  
**Summary of Analysis of Fund Equities and Results of Operations**  
**For the 2009-10,<sup>a</sup> 2014-15, and 2019-20 Fiscal Years**

	Counties			Municipalities			Special Districts			Totals

<sup>a</sup> For the 2009-10 fiscal year, pre-GASB Statement No. 54 terminology (i.e., unreserved or unrestricted fund equity) was used for the fund equity amounts.

<sup>b</sup> Totals include both audit reports and annual financial reports reviewed. For the 2019-20 fiscal year, the total number of reports reviewed includes the 1,565 audit reports received through July 31, 2021, and 132 annual financial reports (6 municipality reports and 126 special district reports) for a total of 1,697 audit reports and annual financial reports.

<sup>c</sup> Total includes annual financial reports reviewed for 17 special districts that reported net deficit total assigned and unassigned or unrestricted fund equity.

<sup>d</sup> Totals include annual financial reports reviewed for 1 municipality and 43 special districts that reported no assigned and unassigned or unrestricted fund equity.

<sup>e</sup> Totals include annual financial reports reviewed for 3 municipalities and 58 special districts that reported losses in either governmental or proprietary funds.

<sup>f</sup> Totals include annual financial reports reviewed for 3 municipalities and 55 special districts that indicated the entities experienced net losses when both governmental and proprietary funds were considered.

<sup>g</sup> Total includes annual financial reports reviewed for 11 special districts that indicated the entities experienced net losses and reported net deficit assigned and unassigned or unrestricted fund equity.

Source: Auditor General analysis of local governmental entity audit reports and annual financial reports.

Many entities transfer governmental fund resources to support proprietary fund operations. However, for the 2009-10, 2014-15, and 2019-20 fiscal years, the percentage of all entities reviewed with net losses (combining both governmental and proprietary funds) were 52 percent (714 of 1,372 reports), 47 percent (665 of 1,416 reports), and 43 percent (725 of 1,697 reports), respectively. From the 2014-15 fiscal year to the 2019-20 fiscal year, the percentage of counties that experienced net losses decreased from 56 to 25 percent; the percentage of municipalities that experienced net losses decreased from 43 to 37 percent; and the percentage of special districts that experienced net losses decreased from 48 to 45 percent.<sup>38</sup> Additionally, of the 725 entities that experienced net losses for 2019-20 fiscal year operations, 113 entities (7 percent of the 1,697 reports reviewed) also reported net deficit total assigned and unassigned or unrestricted fund equities at the 2019-20 fiscal year end.

Continued net losses and net deficit total assigned and unassigned or unrestricted fund equities may leave entities with insufficient funds to sustain current levels of services without borrowing funds from external sources. Additionally, those entities have less resources available for emergencies and unforeseen situations.

### ***Other Trends***

A total of 107 audited entities (7 municipalities and 100 special districts) reported cash and investments in amounts that were not sufficient to cover current liabilities at the 2019-20 fiscal year end, as compared to 97 entities at the 2014-15 fiscal year end, but 13 fewer than the 120 entities that similarly reported cash and investments at the 2009-10 fiscal year end. In addition, our examination of annual financial reports disclosed that 46 special districts reported cash and investments in amounts not sufficient to cover current liabilities at the 2019-20 fiscal year end. Declining levels of cash and investments when compared to current liabilities may indicate that the local governmental entity has overextended itself or may be having difficulty raising the cash necessary to meet current needs.

Long-term debt reported for governmental activities totaled \$26.6 billion at the 2019-20 fiscal year end, a decrease of \$1 billion, compared to \$27.6 billion at the 2014-15 fiscal year end for the reports we reviewed for those fiscal years. While local governments are statutorily authorized to enter into long-term debt arrangements, for example, to fund construction projects or repay or refinance older debt that has not been paid off, it is important to consider current revenue streams and other available resources to ensure debt service requirements are met and to reduce debt as appropriate.

---

<sup>38</sup> Although the percentage of special districts that experienced net losses decreased from 48 to 45 percent, the number of special districts experiencing net losses increased from 472 to 579. For the 2014-15 and 2019-20 fiscal years, we examined financial information for 984 and 1,281 special districts, respectively.

## ***OBJECTIVES, SCOPE, AND METHODOLOGY***

---

The objectives of this project for the audit reports filed with us from local governmental entities and the annual financial reports provided to us from the Department of Financial Services (DFS) were to identify:

- Significant findings based on our review of the audit reports.
- Financial trends using information from the audit reports and annual financial reports.

Although all local governmental entities are required to file annual financial reports with the DFS,<sup>39</sup> all references to annual financial reports in this report pertain to those for entities without audited financial statements. As a result, the financial trends based on annual financial reports included in this report are based on unverified amounts.

The scope of this project included a review of the independent auditor 2019-20 fiscal year financial statement audit reports filed with us by July 31, 2021, for 59 counties (which included 346 individual county agency reports), 351 municipalities, and 1,155 special districts. The scope also included 6 municipality and 126 special district annual financial reports (filed with the DFS and provided to us) of entities that were not required to provide for an audit. In addition, the scope included a review of audit reports received for 1,672 entities (65 counties, 377 municipalities, and 1,230 special districts) through October 31, 2021, to identify entities that were reported as having met a condition specified in State law,<sup>40</sup> or having deteriorating financial conditions.

Our methodology included a review of applicable audit reports and annual financial reports and a compilation of significant findings and financial trends. We included 1,852 entities (346 county agencies, 351 municipalities, and 1,155 special districts) in our analysis of significant findings. We included 1,565 entities (59 counties, 351 municipalities, and 1,155 special districts) in our analysis of significant financial trends (except for the analysis of fund equities and results of operations, as depicted in Table 7, where we also included annual financial reports for 6 municipalities and 126 special districts).

We planned and performed this review to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our objectives. We believe that the evidence obtained provides a reasonable basis for the summaries of significant findings and financial trends included in this report.

## ***AUTHORITY***

---

Pursuant to Section 11.45(7)(f), Florida Statutes, I have directed that this report be prepared to present the summary of significant findings and financial trends identified in local governmental entity audit reports prepared by independent certified public accountants or, for entities not required to provide for an audit, financial trend information obtained from local governmental entity annual financial reports, for the 2019-20 fiscal year.

A handwritten signature in blue ink that reads "Sherrill F. Norman". The signature is fluid and cursive, with a large initial "S" and "N".

Sherrill F. Norman, CPA

## SUMMARY OF AUDIT FINDINGS BY FINDING CATEGORY AND LOCAL GOVERNMENTAL ENTITY TYPE FOR THE 2018-19 AND 2019-20 FISCAL YEARS

Finding Category	Number of	County Agencies		Municipalities		Special Districts		Totals	
		Fiscal Year		Fiscal Year		Fiscal Year		Fiscal Year	
		2018-19	2019-20	2018-19	2019-20	2018-19	2019-20	2018-19	2019-20
<b>Separation of Duties</b> – Inadequate separation of duties.	Findings	13	17	29	28	22	23	64	68
	Entities	13	15	29	28	22	23	64	66
<b>Budget Administration</b> – Inadequate budgetary controls or noncompliance with legal requirements relating to budgets.	Findings	7	9	22	20	40	47	69	76
	Entities	7	9	20	20	38	46	65	75
<b>General Accounting Records</b> – Inadequate accounting or other records, lack of subsidiary records or failure to timely reconcile subsidiary records to general ledger control accounts, or improper recording of transactions (excluded capital assets).	Findings	26	27	56	82	26	34	108	143
	Entities	24	24	46	64	25	31	95	119
<b>Financial Reporting</b> – Lack of adequate reporting of financial data externally or within the local governmental entity.	Findings	19	10	42	47	36	41	97	98
	Entities	17	9	42	43	35	39	94	91
<b>Cash</b> – Inadequate controls or noncompliance with legal requirements pertaining to cash on hand or held by banks.	Findings	10	5	25	36	13	10	48	51
	Entities	10	5	22	33	11	10	43	48
<b>Capital Assets</b> – Noncompliance with legal requirements pertaining to acquisitions or disposals of capital assets or the improper use of, and lack of accountability for, capital assets.	Findings	5	8	24	20	9	9	38	37
	Entities	5	8	23	19	8	7	36	34
<b>Debt Administration</b> – Noncompliance with bond covenants or loan agreements and failure to make debt service payments.	Findings	-	-	9	9	51	41	60	50
	Entities	-	-	7	9	35	31	42	40
<b>Revenues and Collections</b> – Inadequate controls or noncompliance with legal requirements pertaining to revenues and accounts receivable.	Findings	9	10	37	36	5	9	51	55
	Entities	8	10	29	32	4	9	41	51
<b>Payroll and Personnel Administration</b> – Inadequate controls or noncompliance with legal requirements pertaining to payroll and personnel administration.	Findings	9	9	19	25	12	10	40	44
	Entities	7	8	16	21	10	8	33	37
<b>Expenditures and Expenses</b> – Inadequate controls over expenditure of public funds.	Findings	10	7	6	8	8	17	24	32
	Entities	8	6	5	6	8	16	21	28
<b>Other Findings</b>	Findings	49	28	101	77	35	47	185	152
	Entities	39	22	90	66	35	46	164	134
<b>Total Number of Findings</b>		<b>157</b>	<b>130</b>	<b>370</b>	<b>388</b>	<b>257</b>	<b>288</b>	<b>784</b>	<b>806</b>

Note: Some entities had more than one finding in each category. In total, for the 2019-20 fiscal year, 806 findings were included in audit reports for 405 entities (70 county agencies, 161 municipalities, and 174 special districts).
