**INDEPENDENT AUDITOR'S REPORT ON FINANCIAL STATEMENTS**

To the Governing Board  
Lafayette County Soil and Water Conservation District

**Report on Financial Statements**

I have audited the accompanying financial statements of the governmental activities and major fund of Lafayette County Soil and Water Conservation District, Florida (the "District") as of and for the year ended September 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

**Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

**Auditor's Responsibility**

My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinions.

## **Opinion**

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities and major fund, of the District as of September 30, 2014, and the changes in financial position and the respective budgetary comparison for the major fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### **Required Supplementary Information:**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 6 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

## **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, I have also issued a report dated June 22, 2015 on my consideration of the District's internal control over financial reporting and my tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

June 22, 2015

Certified Public Accountant

## MANAGEMENT'S DISCUSSION AND ANALYSIS

The management of the Lafayette County Soil and Water Conservation District has prepared the following discussion and analysis to (a) assist the reader in focusing on significant financial issues; (b) provide an overview and analysis of the District's financial activities; (c) identify changes in the District's financial position; (d) identify material deviations from the approved budget; and (e) highlight significant issues in individual funds.

Because the information contained in the Management's Discussion and Analysis (MD&A) is intended to highlight significant transaction, events, and conditions, it should be considered in conjunction with the District's financial statements and notes to financial statements found on pages 7 through 18.

The District has implemented Governmental Accounting Standards Board (GASB) Statement 34, *Basic Financial Statements – and Management Discussion and Analysis – for State and Local Governments* as of October 1, 2003. This statement requires governmental entities to report finances in accordance with specific guidelines. Among these guidelines are the components of this section dealing with management's discussion and analysis.

Its intent is to provide a brief, objective and easily readable analysis of the District's financial performance for the year and its financial position at fiscal year-end September 30, 2014.

One of the key changes in financial presentation is the requirement to capitalize fixed assets and record depreciation.

### FINANCIAL HIGHLIGHTS

Key financial highlights for the 2013-14 fiscal year are as follows:

- The assets of the Authority exceeded its liabilities at the close of the most recent fiscal year by \$2,929.
- The District's total net assets, decreased by \$3,288, which represents a 52.9 percent decrease from the 2012-13 fiscal year.
- As of the close of the current fiscal year, the District's governmental fund reported a fund balance of \$2,929, a decrease of \$3,288 in comparison with the prior year.
- During the current year, General Fund revenues were less than expenditures by \$3,288.

### OVERVIEW OF THE FINANCIAL STATEMENTS

The basic financial statements consist of three components:

- Government-wide financial statements
- Fund financial statements
- Notes to financial statements

#### *Government-Wide Financial Statements*

The government-wide financial statements provide both short-term and long-term information about the District's overall financial condition in a manner similar to those of a private-sector business. The statements include a statement of net assets and a statement of activities that are designed to provide consolidated financial information about the governmental activities of the District presented on the accrual basis of accounting. The statement of net assets provides information about the government's financial position, its assets and liabilities, using an economic resources measurement focus. The difference between the assets and liabilities, the net assets, is a measure of the financial health of the District. The statement of activities presents information about the change in the District's net assets, the results of operations, during the fiscal year. An increase or decrease in net assets may be an indication of whether the District's financial health is improving or deteriorating.

## MANAGEMENT'S DISCUSSION AND ANALYSIS - continued

The government-wide statements present the District's activities in one category:

- Governmental activities – This represents the District's conservation services. Support functions such as administration are also included. Support from the State of Florida provides most of the resources that support these activities.

### *Fund Financial Statements*

Fund financial statements are one of the components of the basic financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements and prudent fiscal management. Certain funds are established by law while others are created by legal agreements, such as bond covenants. Fund financial statements provide more detailed information about the District's financial activities, focusing on its most significant or "major" funds rather than fund types. This is in contrast to the entity-wide perspective contained in the government-wide statements. All of the District's funds may be classified within the category discussed below.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, the governmental funds utilize a spendable financial resources measurement focus rather than the economic resources measurement focus found in the government-wide financial statements. This financial resources measurement focus allows the governmental fund statements to provide information on near-term inflows and outflows of spendable resources, as well as balances of spendable resources available at the end of the fiscal year.

The governmental fund statements provide a detailed short-term view that may be used to evaluate the District's near-term financing requirements. This short-term view is useful when compared to the long-term view presented as governmental activities in the government-wide financial statements. To facilitate this comparison, both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation of governmental funds to governmental activities.

The governmental funds balance sheet and statement of revenues, expenditures, and changes in fund balances provide detailed information about the District's only fund, the General Fund.

The District adopts an annual appropriated budget for its governmental fund. A budgetary comparison schedule has been provided for the General Fund.

### *Notes to Financial Statements*

The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements.

## GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net assets may serve over time as a useful indicator of a government's financial position. The following is a summary of the District's net assets as of September 30, 2014.

The District's net assets are primarily in cash and cash equivalent. The District uses these net assets to provide services to Lafayette County, Florida.

| <b>Total Functions/Program Expenses</b>  | <u>75,591</u>     | <u>68,297</u>      |
| <b>Increase (Decrease) in Net Assets</b> | <u>\$ (3,288)</u> | <u>\$ (18,531)</u> |

## MANAGEMENT'S DISCUSSION AND ANALYSIS - continued

Governmental activities decreased the District's net assets by \$3,828, or approximately 74.9 percent.

### FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

#### *Major Governmental Funds*

The General Fund is the chief operating fund of the District. At the end of the current fiscal year, assigned fund balance was \$2,929, while the total fund balance was \$2,929. As a measure of the General Fund's liquidity, it may be useful to compare both the assigned fund balance and total fund balance to total General Fund expenditures. Assigned fund balance represents 3.9 percent of total General Fund expenditures, while total fund balance represents 3.9 percent of that same amount. The assigned total fund balance decreased by \$3,288 during the year ended September 30, 2014.

### GENERAL FUND BUDGETARY HIGHLIGHTS

During the course of the 2013-14 fiscal year, the District did not amend its General Fund budget and final expenses were more than the original budgeted amount by \$15,591.

### CAPITAL ASSETS

#### *Capital Assets*

The District's investment in capital assets for its governmental activities as of September 30, 2014, amounted to zero (net of accumulated depreciation). This investment in capital assets consists of equipment.

Additional information in the District's capital assets can be found in Note 4 to the financial statements.

### ECONOMIC OUTLOOK – LAFAYETTE COUNTY, FLORIDA

- The unemployment rate for the County was 6.4 percent at September 30, 2014, a 5% increase over the prior year.
- Population increased approximately 0.9% from the prior year to approximately 8,696.
- The taxable value for personal and real property in the County at September 30, 2014 was \$244,057,687 an increase of 1.96 percent from the previous year.
- The general ad valorem tax mileage rate was 9.0000 mills for the year ended September 30, 2014. This amount will stay the same in fiscal year 2015.
- The budget for the next fiscal year ending September 30, 2015 represents a 13.5 percent decrease over the 2014 fiscal year.

### REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the Lafayette County Soil and Water Conservation District's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the, Lafayette County Soil and Water Conservation District, Mayo, Florida 32066.

**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2014**

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

A summary of the significant accounting policies as applicable to governmental units, which has been consistently, applied in the preparation of the financial statements of the various funds and account groups follows.

- Reporting Entity

The Lafayette County Soil and Water Conservation District was authorized under Chapters 582 of the Laws of Florida to promote soil and water conservation in Lafayette County, Florida. District Board members are nonpartisan and elected locally.

The District is an independent special district administered by a 5 member Board of Supervisors. The District for financial reporting purposes includes all of the funds relevant to the operation of the District. There are not separately administered organizations which are controlled by or dependent on the District. Control or dependence is determined on the basis of budget adoption, funding and appointment of the respective governing board. Therefore, in accordance with U.S. generally accepted accounting standards, the District has determined that there are no potential component units that it must include within its financial statements.

The purpose of the District is to “annually assess the condition of the soils and waters, both above and below ground, in Lafayette County; to educate the public about the state of the soils and waters; and to promote and advocate conservation practices and policies which will benefit the soils and waters of the county”.

The accounting policies of the Lafayette County Soil and Water District conform to accounting principles generally accepted in the United States of America as applicable to governmental units. The following is a summary of the more significant policies.

- Basis of Presentation

These financial statements are fund financial statements that have been prepared in conformity with the accounting principles and reporting guidelines established by the Governmental Accounting Standards Board (GASB) and accounting practices prescribed by the State of Florida, Office of the Auditor General.

As permitted by Chapter 10.556(4), Rules of the Auditor General State of Florida, the financial statements consist of only the fund level financial statements as defined in GASB Statement No. 34, *Basic Financial Statements – and Management’s Discussion and Analysis – For State and Local Government*.

- Basis of Accounting

Basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the fund financial statements and relates to the timing of the measurements made, regardless of the measurement focus applied.

All governmental fund financial statements are reported using a current financial resources measurement focus on a modified accrual basis of accounting. The major modifications to the accrual basis are (a) revenues are recorded in the accounting period in which they become

**EXHIBIT – G**  
**LAFAYETTE COUNTY SOIL AND WATER DISTRICT**  
**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2014**

**NOTE 1 - SUMMARY OF ACCOUNTING POLICIES (continued)**

available and measureable (available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period, considered to be sixty days for property taxes and ninety days for all other revenue) and (b) expenditures are recorded in the accounting period in which the liability is incurred, if measureable, except for accumulated sick and vacation compensation, which are expensed when paid.

Fiduciary fund (agency fund) statements are prepared using economic resource measurement focus and the accrual basis of accounting. The District has no agency funds as of September 30, 2014.

▪ **Measurement Focus**

The accounting and financial reporting treatment applied to the fixed assets and long-term liabilities associated with a fund are determined by its measurement focus.

All governmental funds are accounted for on a spending or “financial flow” measurement focus. This means that generally, only current assets and current liabilities are included in the balance sheet. Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they present a summary of sources and uses of “available spendable resources” during a period.

▪ **Recently Issued Accounting Pronouncements**

The GASB has issued the following statements:

- Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*. This statement improves financial reporting by codifying all sources of GAAP for state and local governments so that they derive from a single source. The Lafayette County Soil and Water District has elected to include all pre-November 30, 1989 FASB pronouncements which are now codified in GASB Statement No. 62. As such, disclosures of FASB or AICPA pronouncements applied to these and future financial statements are no longer required.
- Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*. This statement provides guidance for certain items formerly classified as assets and liabilities. GASB Concepts Statement 4 redefines these as “deferred outflows of resources” (formerly assets) and “deferred inflows of resources” (formerly liabilities). Each new category must have its own section of the Statement of Net Position. This statement also requires that the last line of the statements formerly titled “Net assets” not be titled “Net position” to reflect the new classifications. In addition, “Capital assets, net of related debt” should now be titled “Net investment in capital assets” in order to properly present the total of the items. Other than the new titles and presentation, this statement only addresses upfront payments of service concession arrangements and the deferral outflow of deferred inflow.

**EXHIBIT – G**  
**LAFAYETTE COUNTY SOIL AND WATER DISTRICT**  
**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2014**

**NOTE 1 – SUMMARY OF ACCOUNTING POLICIES (continued)**

- Statement No. 65, *Items Previously Reported as Assets and Liabilities*. This statement provides more guidance for the items in GASB No. 63. It requires the avoidance of the word “deferred” throughout the financial statements except as it related to items that are designated as deferred outflows or deferred inflows. IT addresses the calculation of a deferred outflow or inflow for refunding of debt. For nonexchange transactions such as grants, amounts received before the time period of eligibility are treated as deferred inflows. This statement also addresses taxes received prior to the period in which they relate. It required issuance costs related to debt to be expensed in the period that the debt was issued versus amortizing over the life of the debt, as previously allowed. The effects of implementation of this statement are to be disclosed on the financial statements in the period of adoption. Losses on debt refundings are not expensed, but rather, are treated as deferred outflows. For operating leases, any initial direct costs are recognized in the period incurred instead of being amortized over the life of the lease. This statement was effective for periods beginning after December 15, 2012. The Lafayette County Soil and Water District chose to early implement GASB Statement No. 65 for the year ended September 30, 2014. There was no impact on these financial statements as a result of the early implementation of GASB Statement No. 65.

- Cash and Cash Equivalents

Cash and cash equivalents represent cash on hand as well as demand deposits, and certificates of deposit with original maturities of three months or less.

- Inventory and Prepaid Items

The purchase method is used to account for inventory and payments to vendors for costs applicable to future periods (prepaid). Under the purchase method, expenditures are recognized when the available financial resource is expended. Inventory is not deemed significant and therefore no amount has been reported.

- Interfund Loans and Transfers

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either “due to/from other funds” (i.e. the current portion of interfund loans) or “advances to/from other funds” (i.e. the non-current portion of interfund loans). All other outstanding balances between funds are reported as “due to/from other funds.”

- Capital Assets

Expenditures for capital assets acquired or constructed for general District purposes are reported in the governmental fund that financed the acquisition or construction. The capital assets so acquired are reported at cost in the government-wide statement of net assets but are not reported in the governmental fund financial statements. Donated assets are recorded at fair value at the date of donation.

**EXHIBIT – G**  
**LAFAYETTE COUNTY SOIL AND WATER DISTRICT**  
**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2014**

**NOTE 1 - SUMMARY OF ACCOUNTING POLICIES (continued)**

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

| <u>Description</u> | <u>Estimated Lives</u> |
|--------------------|------------------------|
| Equipment          | 5 years                |

▪ Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures; accordingly, actual results could differ from these estimates.

▪ Governmental Fund Balances

Fund balances are classified either as nonspendable or spendable. Spendable fund balances are further classified in a hierarchy based on the extent to which there are external internal constraints on the spending of these fund balances. These classifications are described as follows:

***Nonspendable fund balances*** include amounts that cannot be spent because they are not in spendable form or legally or contractually required to be maintained intact. There were no nonspendable fund balances at the Lafayette County Soil and Water District as of September 30, 2014.

***Spendable fund balances*** are classified based on a hierarchy of the Levy County Soil and Water District's ability to control the spending of these fund balances.

*Restricted* fund balances are fund balance amounts that are constrained for specific purposes which are externally imposed by creditors, grantors, contributors, or laws or regulations or imposed by law through constitutional provisions or enabling legislation. As of September 30, 2014, the Lafayette County Soil and Water District had no restricted fund balances.

*Committed* fund balances are fund balances constrained for specific purposes imposed by the Lafayette County Soil and Water District's formal action of highest level of decision making authority. As of September 30, 2014, the Lafayette County Soil and Water District had no committed fund balances.

*Assigned* fund balances are fund balances intended to be used for specific purposes, but which are neither restricted nor committed. As of September 30, 2014, the Lafayette County Soil and Water District had assigned fund balances as recorded on the Balance Sheet on Page 9.

*Unassigned* fund balances represent the residual positive fund balance within the general fund, which has not been assigned to other funds and has not been restricted, committed or assigned. In funds other than the general fund, unassigned fund balances are limited to negative residual fund balances. As of September 30, 2014, the Lafayette County

**EXHIBIT – G**  
**LAFAYETTE COUNTY SOIL AND WATER CONSERVATION DISTRICT**  
**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2014**

**NOTE 1 - SUMMARY OF ACCOUNTING POLICIES (continued)**

Soil and Water District had no unassigned fund balances.

When expenditures are incurred for purposes for which restricted or unrestricted fund classifications could be used, it is the Lafayette County Soil and Water District's policy to use restricted funds first, then unrestricted.

**NOTE 2 – BUDGETARY COMPLIANCE AND ACCOUNTABILITY**

The District adopts an annual budget prior to the beginning of the next fiscal year based on historical data plus knowledge of current and future events. As the year progresses, the budget is reviewed and amended if the need occurs.

**NOTE 3 – CASH AND CASH EQUIVALENTS**

Cash and cash equivalents at September 30, 2014 consisted of \$2,389 maintained in a checking account. This depository qualifies as a "public depository", as required by law (Florida Security for Public Deposits Act Chapter 280, Florida Statutes). All the cash deposits of the Lafayette County Soil and Water Conservation District are classified as category one risk, which means they are insured or collateralized.

**NOTE 4 – CHANGES IN CAPITAL ASSETS**

Changes in capital assets are presented in the table below:

|                                | BALANCE<br>10/1/2013 | ADDITIONS | DELETIONS | BALANCE<br>9/30/2014 |
|--------------------------------|----------------------|-----------|-----------|----------------------|
| <b>GOVERNMENTAL ACTIVITIES</b> |                      |           |           |                      |
| Equipment                      | \$ 2,461             | \$ -      | \$ -      | \$ 2,461             |
| Accumulated Depreciation       | (2,461)              | -         | -         | (2,461)              |
| Total Capital Assets - net     | \$ -                 | \$ -      | \$ -      | \$ -                 |

**NOTE 5 – EMPLOYEE ARRANGEMENTS**

The District's director is an employee of the Lafayette Board of County Commissioners but is under the control of the Board of Supervisors. The District reimburses the Lafayette Board of County Commissioners for all of the costs associated with the director including employee benefits. Therefore, because the director is an employee of the County, no information regarding pension benefits has been disclosed.

**NOTE 6 – POST EMPLOYMENT BENEFITS OTHER THAN PENSION**

Retired employees of Lafayette County who participated in the group health insurance plan while employed are allowed to continue coverage, with 100% of the premium paid by the retired employee. The District assumes no cost of this benefit.

**EXHIBIT – G**  
**LAFAYETTE COUNTY SOIL AND WATER CONSERVATION DISTRICT**  
**NOTES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2014**

**NOTE 7 – RISK MANAGEMENT**

District is exposed to various risk of loss related to torts; thefts of, damage to and destruction of assets; errors or omissions; injuries to employees and/or the public; or damage to property of others. The Lafayette County Soil and water Conservation District purchases insurance to protect itself against these risks.

**NOTE 8 – SIGNIFICANT FUNDING SOURCE**

During the fiscal year ended September 30, 2014, the District received a substantial amount of its funding from the State of Florida. Significant reductions in the level of this funding, if this were to occur, could have an adverse effect on the District's programs and activities.

**NOTE 9 – SUBSEQUENT EVENTS**

The District has evaluated events and transactions for potential recognition or disclosure in the financial statements through June 22, 2015, the date which the financial statements were available to be issued. No subsequent events have been recognized or disclosed.

**NOTE 10 – CONTINGENCIES**

Amounts received from grantor agencies are subject to audit and adjustment by grantor agencies, principally the State of Florida. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

**REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED  
ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT  
AUDITING STANDARDS**

Board of Directors  
Lafayette County Soil and Water Conservation District  
Mayo, Florida

I have audited the financial statements of Lafayette County Soil and Water Conservation District, Florida (the District), as of and for the year ended September 30, 2014, and have issued my report thereon dated June 22, 2015. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing my audit of the financial statements, I considered the District's internal control over financial reporting to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing my opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, I do not express an opinion on the effectiveness of the District's internal control.

My consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying management letter, I identified certain deficiencies in internal control that I consider to be material weaknesses.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. I consider deficiency 2013-01 described in the accompanying management letter to be a material weakness.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. During my audit I did not identify any deficiencies in internal control that I consider to be a significant deficiency. However, significant deficiencies may exist that have not been identified.

### Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit and, accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

I noted certain other matters that were reported to the District in a separate letter dated June 24, 2014.

### District's Response to Findings

The District's responses to the findings identified in my audit are included in the accompanying management letter. The District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, I express no opinion on them.

### Purpose of this Report

The purpose of this report is solely to describe the scope of my testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

*James E. Davis*  
Certified Public Accountant

### INDEPENDENT AUDITOR'S MANAGEMENT LETTER

Lafayette County Soil and Water Conservation District  
Live Oak, Florida

#### Report on the Financial Statements

I have audited the financial statements of Lafayette County Soil and Water Conservation District as of and for the fiscal year ended September 30, 2014 and have issued my report thereon dated June 22, 2015.

#### Auditor's Responsibility

I conducted my audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*; and Chapter 10.550, Rules of the Auditor General.

#### Other Reports and Schedules

I have issued my Independent Auditor's Report on Internal Control over Financial Reporting and Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards*; Independent Auditor's Report on Compliance for Each Major Federal Program and State Project and Report on Internal Control over Compliance; Schedule of Findings and Questioned Costs; and Independent Accountant's Report on an examination conducted in accordance with *AICPA Professional Standards*, Section 601, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports and schedule, which are dated, June 22, 2015, should be considered in conjunction with this management letter.

#### Prior Audit Findings

Section 10.554(1)(i)1., Rules of the Auditor General, requires that I determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. I reported the following finding and recommendation, which Lafayette County Soil and Water Conservation District has been unable to address due to financial constraints, in the preceding annual financial report:

13-01 Financial Statement Preparation Knowledge –

Criteria – Management is responsible for the preparation of financial statements in accordance with generally accepted accounting principles (GAAP).

Condition – The Auditing Standards Board in Statement No. 115 requires auditors to disclose for reports substantially drafted by external auditors whether or not the entity's institutional experience, background and knowledge of Governmental Accounting and Financial Accounting Standards prohibits the entity from preparing the financial statements internally including full note disclosures as required by those standards.

Cause and Effect – Personnel's lack of knowledge and familiarity with Governmental Accounting and Financial Accounting Standards Prohibits the District from being able to prepare financial statements with adequate and proper disclosures and free of material misstatements.

Recommendation – I would encourage Lafayette County Soil and Water Conservation District personnel to increase their knowledge of these standards sufficiently to allow them to prepare financial statements including the notes in accordance with GAAP.

Management Response – This requirement is a burden to small districts and funding does not allow us to employ personnel with accounting background described above.

### **Official Title and Legal Authority**

Section 10.554(1)(i)4., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. This information is contained in the footnotes.

### **Financial Condition**

Section 10.554(1)(i)5.a., Rules of the Auditor General, requires that I report the results of my determination as to whether or not Lafayette County Soil and Water Conservation District has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and identification of the specific condition(s) met. In connection with my audit, I determined Lafayette County Soil and Water Conservation District did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.554(1)(i)5.c. ad 10.556(8), Rules of the Auditor General, I applied financial condition assessment procedures. It is management's responsibility to monitor Lafayette County Soil and Water Conservation District's financial condition, and my financial condition assessment was based in part on representations made by management and the review of financial information provided by the same.

### **Annual Financial Report**

Section 10.554(1)(i)5.b., Rules of the Auditor General, requires that I report the results of my determination as to whether the annual financial report for Lafayette County Soil and Water Conservation District for the fiscal year ended September 30, 2014, filed with the Florida Department of Financial Services pursuant to Section 218.32(1)(1), Florida Statutes, is in agreement with the annual financial audit report for the fiscal year ended September 30, 2014. In connection with my audit, I determined that these two reports were in agreement.

### **Other Matters**

Section 10.554(1)(i)2., Rules of the Auditor General, requires that I address in the management letter any recommendations to improve financial management. In connection with my audit, I did not have any such recommendations.

Section 10.554(1)(i)3., Rules of the Auditor General, requires that I address noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with my audit, I did not have any such findings.

**Purpose of this Letter**

My management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, Lafayette County Soil and Water Conservation District, and applicable management and is not intended to be and should not be used by anyone other than these specified parties.
