INDEPENDENT AUDITOR'S REPORT

To the Board of Commissioners
Plantation Acres Improvement District
Plantation, Florida

We have audited the accompanying financial statements of the governmental activities and major fund of Plantation Acres Improvement District (the "District") as of and for the year ended September 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility for the Financial Statements

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the major fund of the District, as of September 30, 2017, and the respective changes in financial position, and budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 5, the Florida Retirement System's consulting actuary noted that the reduced investment return assumption adopted by the Florida Retirement System Actuarial Assumption Conference conflicts with the actuary's judgment of a reasonable assumption as defined by Actuarial Standard of Practice No. 27. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the schedules relating to pensions be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 16, 2018, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

KEEFE McCULLOUGH

Fort Lauderdale, Florida
March 16, 2018

MANAGEMENT'S DISCUSSION AND ANALYSIS

Our discussion and analysis of Plantation Acres Improvement District's (the "District") financial performance provides an overview of the District's financial activities for the years ended September 30, 2017 and 2016. Please read it in conjunction with the District's financial statements, which immediately follow this discussion.

Financial Highlights

The following are the highlights of financial activity for the year ended September 30, 2017:

- The District's total assets exceeded its liabilities at September 30, 2017 by \$ 431,266 (net position).
- The District's total revenues for the year ended September 30, 2017 were \$ 795,488, \$ 793,652 from program revenues, \$ 1,536 from interest income and \$ 300 from other revenues. The District's expenses for the year ended September 30, 2017 were \$ 1,057,031, resulting in a decrease in net position of \$ 261,543.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to basic financial statements.

Government-wide financial statements: The government-wide financial statements, which consist of the following two statements, are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private sector business.

The statement of net position presents information on all of the District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net position changed during the year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements can be found on Pages 7 and 8 of this report.

Fund financial statements: A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District has the following fund types: the governmental fund and an agency fund.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as balances of spendable resources available at the end of the year. Such information may be useful in evaluating a government's near-term financing requirements.

**Plantation Acres Improvement District
Management’s Discussion and Analysis
September 30, 2017**

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District’s near-term financing decisions. Both the governmental fund balance sheet and the statement of revenues, expenditures, and change in fund balance provide reconciliations to facilitate this comparison between governmental funds and governmental activities.

The governmental fund financial statements can be found on pages 9 through 13 of this report.

Agency funds are used to account for assets held by the District as an agent for other funds or entities. Agency funds are not reflected in the government-wide financial statements because the resources of this fund are not available to directly support the District’s programs.

The agency fund financial statement can be found on page 14 of this report.

Notes to basic financial statements: The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements. The notes to basic financial statements can be found on pages 15 through 27 of this report.

Government-Wide Financial Analysis

As noted earlier, statement of net position may serve over time as a useful indicator of financial position. The following table reflects the condensed government-wide statements of net position as of September 30, 2017 and 2016:

Plantation Acres Improvement District Statements of Net Position		
	2017	2016
Current and other assets	\$ 171,681	\$ 432,287
Capital assets	447,451	496,448
Deferred outflows	138,134	167,145
Total assets and deferred outflows	757,266	1,095,880
Current liabilities	22,887	87,739
Noncurrent liabilities	227,430	206,690
Deferred inflows	75,683	108,642
Total liabilities and deferred inflows	326,000	403,071
Net Position:		
Net investment in capital assets	447,451	496,448
Unrestricted	(16,185)	196,361
Total net position	\$ 431,266	\$ 692,809

**Plantation Acres Improvement District
Management's Discussion and Analysis
September 30, 2017**

Governmental activities: Governmental activities for the year ended September 30, 2017, decreased the District's net position by \$ 261,543, as reflected in the table below:

Plantation Acres Improvement District Statements of Activities		
	2017	2016
Revenues:		
Program revenues:		
Non-ad valorem assessments	\$ 722,771	711,013
Plat and permit fees	63,554	70,732
Licenses and fees	7,327	7,265
General revenue:		
Interest income	1,536	1,680
Gain on disposal of capital assets	300	5,500
	795,488	796,190
Expenses:		
Physical environment	769,874	490,882
General government	287,157	299,150
	1,057,031	790,032
Change in net position	(261,543)	6,158
Net Position, October 1	692,809	686,651
Net Position, September 30	\$ 431,266	\$ 692,809

Analysis of the Governmental Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a District's net resources available for spending at the end of the fiscal year. The General Fund comprises the total governmental funds.

The District's governmental fund reported ending fund balance of \$ 148,794, a decrease of \$ 195,754 from the prior year.

Capital Assets

The District's investment in capital assets, less accumulated depreciation, for its governmental activities as of September 30, 2017, amounts to \$ 447,451 and consists of land, buildings and machinery and equipment.

General Fund Budgetary Highlights

Actual revenues were approximately \$ 12,000 higher than budgeted in the current year. Actual expenditures were over budget by approximately \$ 208,000. This was mostly due to the completion of the Central and South Acres Drainage Improvement Project.

Economic Factors and Next Year's Budget

Expenditures for the fiscal year 2018 adopted budget for the General Fund total approximately \$ 1,055,000. This is approximately \$ 270,000 more than budgeted expenditures for 2016-2017 budget year. For the coming year, the District will increase the maintenance assessment tax rate from \$ 444 per acre to \$ 600 per acre. This will help the District in recover the decrease in net position and fund balance that occurred in the 2016-2017 year.

Requests for Information

This financial report is designed to provide a general overview of Plantation Acres Improvement District's finances for all those with an interest. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Plantation Acres Improvement District; 12773 West Forest Hill Boulevard, Suite 105; Wellington, Florida 33414.

**Plantation Acres Improvement District
 Reconciliation of the Balance Sheet - Governmental Fund
 To the Statement of Net Position
 September 30, 2017**

**Amounts Reported for Governmental Activities in the
 Statement of Net Position are different because:**

Total fund balance - governmental fund in the balance sheet	\$ 148,794
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the governmental fund:	
Governmental capital assets	1,140,526
Less accumulated depreciation	(693,075)
Certain funds related to pension assets and liabilities are not reported in the governmental funds.	
Deferred outflows, relating to the net pension liability	138,134
Deferred inflows, relating to the net pension liability	(75,683)
Long-term liabilities are not due and payable in the current period and, therefore, are not reported in the governmental funds.	
Net pension liability	<u>(227,430)</u>
Net Position of Governmental Activities	\$ <u><u>431,266</u></u>

The accompanying notes to basic financial statements are an integral part of these statements.

**Plantation Acres Improvement District
Statement of Revenues, Expenditures and
Change in Fund Balance - Governmental Fund
For the Year Ended September 30, 2017**

	General Fund
	<u> </u>
Revenues:	
Maintenance tax assessments	\$ 722,771
Plat and permit fees	63,554
Licenses and fees	7,327
Interest income	1,536
Miscellaneous income	<u>300</u>
Total revenues	<u>795,488</u>
 Expenditures:	
Current operating:	
Physical environment	704,448
General government	281,052
Capital outlay	<u>5,742</u>
Total expenditures	<u>991,242</u>
Change in fund balance	(195,754)
 Fund Balance, October 1, 2016	 <u>344,548</u>
 Fund Balance, September 30, 2017	 \$ <u><u>148,794</u></u>

The accompanying notes to basic financial statements are an integral part of these statements.

**Plantation Acres Improvement District
 Reconciliation of the Statement of Revenues,
 Expenditures and Change in Fund Balance -
 Governmental Fund to the Statement of Activities
 For the Year Ended September 30, 2017**

Net Change In Fund Balance - Total Governmental Fund \$ (195,754)

Amounts reported for governmental activities in the statement of activities are difference because:

The governmental fund reports capital outlays as expenditures; in the statement of activities, these costs are allocated over their estimated useful lives as provision for depreciation.

Expenditures for capital assets	5,742
Less current year provision for depreciation	(54,739)

Certain changes related to pension assets and liabilities are not reported in the net change in the governmental funds.

Change in deferred outflows	(29,011)
Change in deferred inflows	32,959

Some expenses reported in the statement of activities require the use of current financial resources and therefore not reported as expenditures in the governmental funds.

Change in the net pension liability	<u>(20,740)</u>
-------------------------------------	-----------------

Change in Net Position of Governmental Activities \$ (261,543)

The accompanying notes to basic financial statements are an integral part of these statements.

Note 1 - Organization and Operations

Plantation Acres Improvement District (the "District") was formerly known as the Dixie Drainage District, which was originally created in 1963. The District was formed in 1982 by House Bill 1982-967 and codified by 2002-367. The District has the authority to administer road improvement and drainage projects within the boundaries of the District and to promote and create favorable conditions for the development of the land within the District.

The District is located within the City of Plantation in Broward County, Florida with boundaries of N.W. 28th Court to the north, the C-42 canal just east of Hiatus Road to the east, the North New River Canal to the south, and Flamingo Road to the west. The District has the authority to manage services for this community and to levy and assess non-ad valorem taxes and assessments for the financing and maintenance of improvements.

The District is governed by a Board of Commissioners. The Board of Commissioners exercises all powers granted to the District and is responsible for:

- Assessing and levying maintenance taxes and special assessments
- Approving budgets
- Exercising control over facilities and properties
- Controlling the use of funds generated by the District
- Approving the hiring and termination of key personnel
- Financing improvements

Note 2 - Summary of Significant Accounting Policies

The basic financial statements of the District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The District's more significant accounting policies are described below:

The financial reporting entity: The criteria used for including component units consist of identification of legally separate organizations for which the Board of Commissioners of the District are financially accountable. This criteria also includes identification of organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the reporting entity's basic financial statements to be misleading or incomplete. Based upon this review, there were no potential component units or related organizations of the District.

Basis of presentation: Financial Statements – Government-Wide Statements. The District's basic financial statements include both government-wide (reporting the District as a whole) and fund financial statements (reporting the District's major fund). Both the government-wide and fund financial statements categorize primary activities as either governmental or business-type. All of the District's activities are classified as governmental activities.

In the government-wide statement of net position, the governmental activities column is presented on a consolidated basis, if applicable, and is reported on a full-accrual, economical resource basis, which recognizes all noncurrent assets and receivables as well as all noncurrent debt and obligations, when and if applicable.

Note 2 - Summary of Significant Accounting Policies (continued)

The government-wide statement of activities reports both the gross and net cost of each of the District's functions. The net costs, by function, are also supported by general revenues, other revenue, etc. The statement of activities reduces gross expenses by related program revenues, operating and capital grants. Program revenues must be directly associated with the function. Operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflect capital-specific grants. For the year ended September 30, 2017, the District had program revenues of \$ 793,652.

This government-wide focus is more on the ability to sustain the District as an entity and the change in the District's net position resulting from the current year's activities.

Fund financial statements: The accounts of the District are organized on the fund basis. The operations of the funds are accounted for with separate self-balancing accounts that comprise their assets, liabilities, fund equity, revenues and expenditures.

The District reports the following major governmental fund:

General Fund - This fund is used to account for all operating activities of the District. At this time, revenues are derived principally from non-ad valorem tax assessments.

The District also reports an agency fund which is used to account for assets held by the District as an agent for other entities. Agency Funds are custodial in nature and do not measure results of operations.

Measurement focus, basis of accounting and financial statement presentation: Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the basic financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied. Governmental funds use the current financial resources measurement focus and the government-wide statements use the economic resources measurement focus.

Governmental activity in the government-wide financial statements is presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

The governmental fund financial statements are presented on the modified accrual basis of accounting under which revenue is recognized in the accounting period in which it becomes susceptible to accrual (i.e., when it becomes both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within sixty days of the end of the current year.

Budget: A budget is adopted for the General Fund on an annual basis. Appropriations lapse at fiscal year-end. Changes or amendments to the total budgeted expenditures of the District must be approved by the District Board of Commissioners.

Note 2 - Summary of Significant Accounting Policies (continued)

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- a. Each year the District Accountant submits to the District Board of Commissioners a proposed operating budget for the fiscal year commencing the following October 1.
- b. Public hearings are conducted to obtain taxpayer comments.
- c. Prior to October 1, the budget is legally adopted by the District Board of Commissioners.
- d. The budgets are adopted on a basis consistent with generally accepted accounting principles.

Cash and cash equivalents: Cash and cash equivalents are defined as demand deposits, money market accounts, and short-term investments with original maturities of three months or less from the date of acquisition.

Prepaid expenses/expenditures: Certain payments reflect costs applicable to a future accounting period and are recorded as prepaid items in both the government-wide and fund financial statements.

Capital assets: Capital assets, which include land, a building and machinery and equipment, are reported in the applicable governmental activities column in the government-wide financial statements. The District defines capital assets as assets with an initial, individual cost of more than \$ 250 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Depreciation on all capital assets is charged to operations using the straight-line method over the assets' estimated service lives, ranging from 5 to 50 years.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Deferred outflows/inflows of resources: In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. At September 30, 2017, the District had deferred outflows of \$ 138,134, which is related to the net pension liability.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. At September 30, 2017, the District had deferred inflows of \$ 75,683, which is related to the net pension liability.

Unearned revenue: Unearned revenue arises only when the District receives resources before it has a legal claim to them.

Note 2 - Summary of Significant Accounting Policies (continued)

Maintenance tax assessments: Maintenance tax assessments are determined by the Board of Commissioners. Owners of real property are assessed on a county-wide basis by the Broward County Property Appraiser as of January 1 each year. The District levies a maintenance tax per acre which will provide resources required for the fiscal year beginning October 1. Maintenance taxes levied by the District, and all other taxing authorities within the County, are centrally billed and collected by Broward County, with a monthly remittance to the District of their proportionate share of collected taxes. Taxes for the fiscal year beginning October 1 are billed in the month of November, subject to a 1% per month discount for the period November through February, and are due no later than March 31. On April 1, unpaid amounts become delinquent with interest and penalties added thereafter. Beginning July 1, tax certificates representing delinquent amounts are sold by Broward County, with a remittance to the District for its share of those receipts.

The maintenance assessment tax rate to finance general governmental operations for the year ended September 30, 2017 was \$ 444 an acre on approximately 1,745 taxable acres.

Net position: Net position is classified three categories. The general meaning of each is as follows:

- Net investment in capital assets - consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds or other borrowings, if any, that are attributable to the acquisition, construction or improvement of those assets.
- Restricted net position - consists of net assets with constraints placed on the use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments, or 2) law through constitutional provisions or enabling legislation.
- Unrestricted net position - all other net position that do not meet the definition of "restricted" or "net investment in capital assets."

Fund balance: The District follows GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. This statement requires that governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

- Nonspendable: This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact. The District classifies prepaid items and deposits as nonspendable since they are not expected to be converted to cash or are not expected to be converted to cash within the next year.
- Restricted: This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.

Note 2 - Summary of Significant Accounting Policies (continued)

- **Committed:** This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the District Board of Commissioners (the “Board”). These amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same type of action (ordinance or resolution) that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements.
- **Assigned:** This classification includes amounts that are constrained by the District’s intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the Board or through the Board delegating this responsibility to the District manager through the budgetary process. This classification also includes the remaining positive fund balance for all governmental funds except for the General Fund. The District classifies existing fund balance to be used in the subsequent year’s budget for elimination of a deficit as assigned.
- **Unassigned:** This classification includes the residual fund balance for the General Fund.

The District would typically use restricted fund balances first, followed by committed fund balances, and then assigned fund balances.

Date of management review: Subsequent events have been evaluated through March 16, 2018, which is the date the financial statements were available to be issued.

Note 3 - Deposits

The District’s deposits must be placed with banks and savings and loans which are qualified as public depositories prior to receipt of public monies under Chapter 280, Florida Statutes. As of September 30, 2017, all deposits are insured by the FDIC up to \$ 250,000. Monies deposited in amounts greater than the insurance coverage are secured by the banks’ pledging securities with the State Treasurer in the collateral pool. At year end, the carrying amount of the District’s deposits, including those held in the Agency Fund, was \$ 867,579 and the bank balance was \$ 884,525.

Note 4 - Capital Assets

Capital asset activity for the year ended September 30, 2017 was as follows:

	<u>Balance, October 1, 2016</u>	<u>Additions</u>	<u>Deletions</u>	<u>Balance, September 30, 2017</u>
Governmental Activities:				
Capital assets, not being depreciated:				
Land	\$ <u>70,000</u>	\$ <u>-</u>	\$ <u>-</u>	\$ <u>70,000</u>
Total capital assets, not being depreciated	<u>70,000</u>	<u>-</u>	<u>-</u>	<u>70,000</u>

**Plantation Acres Improvement District

Governmental activities capital assets, net	\$ <u>496,448</u>	\$ <u>(48,997)</u>	\$ <u>-</u>	\$ <u>447,451</u>

Provision for depreciation was charged to functions as follows:

Governmental activities:	
Physical environment	\$ 48,634
General government	<u>6,105</u>
	\$ <u>54,739</u>

Note 5 - Florida Retirement System

As provided by Chapters 121 and 112, Florida Statutes, the Florida Retirement System ("FRS") provides two cost sharing, multiple employer defined benefit plans administered by the Florida Department of Management Services, Division of Retirement, including the FRS Pension Plan ("Pension Plan") and the Retiree Health Insurance Subsidy ("HIS Plan"). As a general rule, membership in the FRS is compulsory for all employees working in a regularly established position for a state agency, county government, district school board, state university, community college, or a participating city or special district within the State of Florida. The FRS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefits are established by Chapter 121, Florida Statutes, and Chapter 60S, Florida Administrative Code. Amendments to the law can be made only by an act of the Florida State Legislature.

The State of Florida annually issues a publicly available financial report that includes financial statements and required supplementary information for the FRS. The latest available report may be obtained by writing to the State of Florida Division of Retirement, Department of Management Services, P.O. Box 9000, Tallahassee, Florida 32315-9000, or from the Web site: www.dms.myflorida.com/workforce_operations/retirement/publications.

Note 5 - Florida Retirement System (continued)

Pension Plan:

Plan Description - The Pension Plan is a cost-sharing multiple-employer defined benefit pension plan, with a Deferred Retirement Option Program ("DROP") for eligible employees.

Benefits Provided - Benefits under the Pension Plan are computed on the basis of age, average final compensation, and service credit. For Pension Plan members enrolled before July 1, 2011, Regular class members who retire at or after age 62 with at least six years of credited service or 30 years of service regardless of age are entitled to a retirement benefit payable monthly for life, equal to 1.6% of their final average compensation based on the five highest years of salary, for each year of credited service. Vested members with less than 30 years of service may retire before age 62 and receive reduced retirement benefits. Special Risk Administrative Support class members who retire at or after age 55 with at least six years of credited service or 25 years of service regardless of age are entitled to a retirement benefit payable monthly for life, equal to 1.6% of their final average compensation based on the five highest years of salary, for each year of credited service. Special Risk class members (sworn law enforcement officers, firefighters, and correctional officers) who retire at or after age 55 with at least six years of credited service, or with 25 years of service regardless of age, are entitled to a retirement benefit payable monthly for life, equal to 3.0% of their final average compensation based on the five highest years of salary for each year of credited service. Senior Management Service class members who retire at or after age 62 with at least six years of credited service or 30 years of service regardless of age are entitled to a retirement benefit payable monthly for life, equal to 2.0% of their final average compensation based on the five highest years of salary for each year of credited service. Elected Officers' class members who retire at or after age 62 with at least six years of credited service or 30 years of service regardless of age are entitled to a retirement benefit payable monthly for life, equal to 3.0% (3.33% for judges and justices) of their final average compensation based on the five highest years of salary for each year of credited service.

For Plan members enrolled on or after July 1, 2011, the vesting requirement is extended to eight years of credited service for all these members and increasing normal retirement to age 65 or 33 years of service regardless of age for Regular, Senior Management Service, and Elected Officers' class members, and to age 60 or 30 years of service regardless of age for Special Risk and Special Risk Administrative Support class members. Also, the final average compensation for all these members will be based on the eight highest years of salary.

As provided in Section 121.101, Florida Statutes, if the member is initially enrolled in the Pension Plan before July 1, 2011, and all service credit was accrued before July 1, 2011, the annual cost-of-living adjustment is three percent per year. If the member is initially enrolled before July 1, 2011, and has service credit on or after July 1, 2011, there is an individually calculated cost-of-living adjustment. The annual cost-of-living adjustment is a proportion of three percent determined by dividing the sum of the pre-July 2011 service credit by the total service credit at retirement multiplied by three percent. Plan members initially enrolled on or after July 1, 2011, will not have a cost-of-living adjustment after retirement.

In addition to the above benefits, the DROP program allows eligible members to defer receipt of monthly retirement benefit payments while continuing employment with a FRS employer for a period not to exceed 60 months after electing to participate. Deferred monthly benefits are held in the FRS Trust Fund and accrue interest. There are no required contributions by DROP participants.

Plantation Acres Improvement District
Notes to Basic Financial Statements
September 30, 2017

Note 5 - Florida Retirement System (continued)

Contributions - Effective July 1, 2011, all enrolled members of the FRS, other than DROP participants, are required to contribute three percent of their salary to the FRS. In addition to member contributions, governmental employers are required to make contributions to the FRS based on state-wide contribution rates established by the Florida Legislature. These rates are updated as of July 1 of each year. The employer contribution rates by job class for the periods from October 1, 2016 through June 30, 2017 and from July 1, 2017 through September 30, 2017, respectively, were as follows: Regular - 7.52% and 7.92%; Special Risk Administrative Support - 28.06% and 34.63%; Special Risk - 22.57% and 23.27%; Senior Management Service - 21.77% and 22.71%; Elected Officers' - 42.47% and 45.50%; and DROP participants - 12.99% and 13.26%. These employer contribution rates include 1.66% HIS Plan subsidy for both the periods October 1, 2016 through June 30, 2017 and from July 1, 2017 through September 30, 2017.

The District's contributions, including employee contributions, to the Pension Plan totaled \$ 13,823 for the fiscal year ended September 30, 2017.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - At September 30, 2017, the District reported a liability of \$ 150,722 for its proportionate share of the Pension Plan's net pension liability. The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2016. The District's proportion of the net pension liability was based on a projection of the District's 2016-17 fiscal year contributions relative to the 2015-16 fiscal year contributions of all participating members. At June 30, 2017, the District's proportion was 0.000509551% percent, which was an increase of 0.000015151% from its proportion measured as of June 30, 2016.

For the year ended September 30, 2017, the District recognized pension expense of \$ 27,045. At September 30, 2017, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 13,833	\$ (835)
Changes of assumptions	50,653	-
Net difference between projected and actual earnings on pension plan investments	-	(3,735)
Changes in proportion and differences between District contributions and proportionate share of contributions	33,864	(41,112)
District contributions subsequent to the measurement date	<u>3,978</u>	<u>-</u>
Total	\$ <u>102,328</u>	\$ <u>(45,682)</u>

Note 5 - Florida Retirement System (continued)

Deferred outflows of resources related to District contributions paid subsequent to the measurement date and prior to the employer’s fiscal year end will be recognized as a reduction of the net pension liability in the subsequent reporting period ending September 30, 2018. Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year Ended</u> <u>September 30:</u>	<u>Amount</u>
2018	\$ 9,763
2019	\$ 22,728
2020	\$ 6,773
2021	\$ (708)
2022	\$ 10,205
Thereafter	\$ 3,907

Actuarial Assumptions - The total pension liability in the July 1, 2016 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.60%
Salary increases	3.25%, average, including inflation
Investment rate of return	7.10%, net of pension plan investment expense, including inflation

Mortality rates were based on the Generational RP-2000 with Projection Scale BB tables.

The actuarial assumptions used in the July 1, 2016, valuation were based on the results of an actuarial experience study for the period July 1, 2008 through June 30, 2013.

The FRS Actuarial Assumption Conference is responsible for setting the assumptions used in the valuations of the defined benefit pension plans pursuant to section 216.136(10), Florida Statutes. During presentations to the 2016 FRS Actuarial Assumption Conference, Aon Hewitt, the investment consultant for the State Board of Administration, and the consulting actuary both recommended reducing the investment return assumption. Based on their respective capital market outlook models, the 50th percentile average annual long-term future return rates ranged between 6.3 percent and 6.6 percent. When Aon Hewitt applied the State Board of Administration’s approach to assumption development, the investment return forecast was 7.0 percent. The consulting actuary notes the reduced investment return assumption adopted by the FRS Actuarial Assumption Conference conflicts with their judgment of a reasonable assumption as defined by the Actuarial Standards of Practice Number 27 (ASOP 27).

The long-term expected rate of return on Pension Plan investments was not based on historical returns, but instead is based on a forward-looking capital market economic model. The allocation policy’s description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions and includes an adjustment for the inflation assumption.

**Plantation Acres Improvement District
Notes to Basic Financial Statements
September 30, 2017**

Note 5 - Florida Retirement System (continued)

The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation (1)	Annual Arithmetic Return	Compound Annual (Geometric) Return	Standard Deviation
Cash	1.00%	3.00%	3.00%	1.70%
Fixed income	18.00%	4.50%	4.40%	4.20%
Global equity	53.00%	7.80%	6.80%	17.20%
Real estate	10.00%	6.60%	5.90%	12.80%
Private equity	6.00%	11.50%	7.80%	30.00%
Strategic investments	12.00%	6.10%	5.60%	9.70%
Total	100.00%			
Assumed Inflation - Mean		2.60%		1.90%

(1) As outlined in the Pension Plan's investment policy

Discount Rate – The discount rate used to measure the total pension liability was 7.60%. The pension Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculation of the total pension liability is equal to the long-term expected rate of return.

Sensitivity of the District's proportion share of the net pension liability to changes in the discount rate - The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.10 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.10 percent) or 1-percentage-point higher (8.10 percent) than the current rate:

	1% Decrease (6.10%)	Current Discount Rate (7.10%)	1% Increase (8.10%)
District's proportionate share of the net pension liability	\$ 272,797	\$ 150,722	\$ 49,371

Pension Plan Fiduciary Net Position - Detailed information regarding the Pension Plan's fiduciary net position is available in the separately issued FRS Pension Plan and Other State-Administered Systems Comprehensive Annual Financial Report.

HIS Plan:

Plan Description - The HIS Plan is a cost-sharing multiple-employer defined benefit pension plan established under Section 112.363, Florida Statutes, and may be amended by the Florida legislature at any time. The benefit is a monthly payment to assist retirees of State-administered retirement systems in paying their health insurance costs and is administered by the Florida Department of Management Services, Division of Retirement.

Note 5 - Florida Retirement System (continued)

Benefits Provided - For the fiscal year ended September 30, 2017, eligible retirees and beneficiaries received a monthly HIS payment of \$ 5 for each year of creditable service completed at the time of retirement, with a minimum HIS payment of \$ 30 and a maximum HIS payment of \$ 150 per month. To be eligible to receive these benefits, a retiree under a State-administered retirement system must provide proof of health insurance coverage, which may include Medicare.

Contributions - The HIS Plan is funded by required contributions from FRS participating employers asset by the Florida Legislature. Employer contributions are a percentage of gross compensation for all active FRS members. For the fiscal year ended September 30, 2017, the HIS contribution for the period October 1, 2016 through June 30, 2017 and from July 1, 2017 through September 30, 2017 was 1.66% for both periods. The District contributed 100% of its statutorily required contributions for the current and preceding three years. HIS Plan contributions are deposited in a separate trust fund from which payments are authorized. HIS Plan benefits are not guaranteed and are subject to annual legislative appropriation. In the event legislative appropriation or available funds fail to provide full subsidy benefits to all participants, benefits may be reduced or cancelled.

The District's contributions to the HIS Plan totaled \$ 3,883 for the fiscal year ended September 30, 2017.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - At September 30, 2017, the District reported a liability of \$ 76,708 for its proportionate share of the HIS Plan's net pension liability. The net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2016. The District's proportionate share of the net pension liability was based on the District's 2016-17 fiscal year contributions relative to the 2015-16 fiscal year contributions of all participating members. At June 30, 2017, the District's proportionate share was 0.000717399%, which was an increase of 0.000015066% from its proportionate share measured as of June 30, 2016.

For the fiscal year ended September 30, 2017, the District recognized pension expense of \$ 7,450. In addition, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Description	Deferred Outflows of Resources	Deferred Inflows of Resources
Change of assumptions	\$ 10,782	\$ (6,633)
Differences between expected and actual experience	-	(160)
Net difference between projected and investments	43	-
Changes in proportion and differences between District HIS Plan contributions and proportionate share of contributions	23,916	(23,208)
District HIS Plan contributions subsequent to the measurement date	1,065	-
	\$ 35,806	\$ (30,001)

Note 5 - Florida Retirement System (continued)

Deferred outflows of resources related to District contributions paid subsequent to the measurement date and prior to the employer’s fiscal year end will be recognized as a reduction of the net pension liability in the subsequent reporting period ending September 30, 2018. Amounts reported as deferred outflows of resources and deferred inflows of resources related to the HIS Plan will be recognized in pension expense as follows:

	1% Decrease (2.58%)	Current Discount Rate (3.58%)	1% Increase (4.58%)
District's proportionate share of the net pension liability	\$ 87,534	\$ 76,708	\$ 67,690

Actuarial Assumptions - The total pension liability in the July 1, 2016, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.60 %
Salary increases	3.25%, average, including inflation
Municipal bond rate	3.58 %

Mortality rates were based on the Generational RP-2000 with Projection Scale BB tables.

The actuarial assumptions used in the July 1, 2016, valuation were based on the certain results of the most recent experience study for the FRS Pension Plan.

Discount Rate - The discount rate used to measure the total pension liability was 2.85%. In general, the discount rate for calculating the total pension liability is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS benefit is funded on a pay-as-you-go basis, no experience study has been completed for that program.

Sensitivity of the District’s Proportionate Share of the Net Position Liability to Changes in the Discount Rate - The following represents the District’s proportionate share of the net pension liability calculated using the discount rate of 3.58%, as well as what the District’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (2.58%) or one percentage point higher (4.58%) than the current rate:

	1% Decrease (2.58%)	Current Discount Rate (3.58%)	1% Increase (4.58%)
District's proportionate share of the net pension liability	\$ 87,534	\$ 76,708	\$ 67,690

Note 5 - Florida Retirement System (continued)

Pension Plan Fiduciary Net Position – Detailed information regarding the HIS Plan’s fiduciary net position is available in the separately issued FRS Pension Plan and Other State-Administered Systems Comprehensive Annual Financial Report.

Note 6 – Risk Management

The District is exposed to various risks of losses related to torts, theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District places all insurance risk, less nominal deductibles, in the hands of commercial carriers. Certain claims resulting from these risks have been settled for amounts in excess of the insurance deductibles or coverage amounts in the past.

Note 7 – Excess of Expenditures over Appropriations

For the fiscal year ended September 30, 2017, expenditures exceed appropriations in the General Fund by approximately \$ 208,000 due mainly to the completion of the Central and South Acres Drainage Improvement Project.

OTHER REPORTS OF
INDEPENDENT AUDITORS

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND COMPLIANCE AND OTHER MATTERS
ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Commissioners
Plantation Acres Improvement District
Plantation, Florida

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of Plantation Acres Improvement District (the "District") as of and for the year ended September 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated March 16, 2018.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District’s basic financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of basic financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District’s internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District’s internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

MANAGEMENT LETTER IN ACCORDANCE WITH
THE RULES OF THE AUDITOR GENERAL OF THE STATE OF FLORIDA

To the Board of Commissioners
Plantation Acres Improvement District
Plantation, Florida

Report on the Financial Statements

We have audited the financial statements of Plantation Acres Improvement District (the "District"), as of and for the fiscal year ended September 30, 2017, and have issued our report thereon dated March 16, 2018.

Auditor's Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and Chapter 10.550, Rules of the Auditor General.

Other Reporting Requirements

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards* and Independent's Auditor's Report on an examination conducted in accordance with AICPA *Professional Standards*, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports, which are dated March 16, 2018, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. There were no findings and recommendations made in the preceding annual financial audit report.

Official Title and Legal Authority

Section 10.554(1)(i)4., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. The name or official title and legal authority of the District is disclosed in the notes to the financial statements. The District has no component units.

Financial Condition and Management

Sections 10.554(1)(i)5.a, and 10.556(7), Rules of the Auditor General, requires that we apply appropriate procedures and communicate the results of our determination as to whether or not the District has met one of more of the conditions described in Section 218.503(1), Florida Statutes, and identification of the specific condition(s) met. In connection with our audit, we determined that the District did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Plantation Acres Improvement District

Pursuant to Sections 10.554(1)(i)(5).c. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures. It is management's responsibility to monitor the District's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Annual Financial Report

Sections 10.554(1)(i)5.b. and 10.556(7), Rules of the Auditor General, require that we apply appropriate procedures and communicate the results of our determination as to whether the annual financial report for the District for the fiscal year ended September 30, 2017, filed with the Florida Department of Financial Services pursuant to Section 218.32(1)(a), Florida Statutes, is in agreement with the annual financial audit report for the fiscal year ended September 30, 2017. In connection with our audit, we determined that these two reports were in agreement.

Additional Matters

Section 10.554(1)(i)3., Rules of the Auditor General, requires that we communicate noncompliance with provisions of contract or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with our audit, we did not have any such findings.

Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE
WITH SECTION 218.415, FLORIDA STATUTES

To the Board of Commissioners
Plantation Acres Improvement District
Plantation, Florida

We have examined Plantation Acres Improvement District's (the "District") compliance with the requirements of Section 218.415, Florida Statutes, *Local Government Investment Policies*, during the year ended September 30, 2017. Management is responsible for the District's compliance with those requirements. Our responsibility is to express an opinion on the District's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on the District's compliance with specified requirements.

In our opinion, the District complied, in all material respects, with the aforementioned requirements for the year ended September 30, 2017.

This report is intended solely for the information and use of management and the State of Florida Auditor General and is not intended to be and should not be used by anyone other than these specified parties.
