## INDEPENDENT AUDITOR'S REPORT

Board of Commissioners  
*Homosassa Special Water District*

### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, and each major fund of the *Homosassa Special Water District*, (the District), as of and for the year ended September 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

The District's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, and each major fund of the District, as of September 30, 2018, and the respective changes in financial position and cash flows thereof and the respective budgetary comparison for the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

**Other Matters***Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and other post-employment and pension disclosures on pages 3-6 and 35-37, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Government Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statement in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statement, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

**Other Reporting Required by Government Auditing Standards**

In accordance with Government Auditing Standards, we have also issued a report dated April 3, 2019 on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

*McDiernit Davis & Company, LLC*

Orlando, Florida  
April 3, 2019

As management of the Homosassa Special Water District we offer readers of the Homosassa Special Water District's financial statements this narrative overview and analysis of the financial activities of the Homosassa Special Water District (the District) for the fiscal year ended September 30, 2018. We encourage readers to consider the information presented here in conjunction with the District's financial statements (beginning on page 7).

### **Financial Highlights**

- The assets and deferred outflows of the District exceeded its liabilities and deferred inflows at the close of the most recent fiscal year by \$4,227,377 (net position). Of this amount, \$304,432 (unrestricted net position) may be used to meet the government's ongoing obligations to citizens and creditors.
- The government's total net position increased by \$465,716.
- As of the close of the current fiscal year, the Homosassa Special Water District's governmental funds reported combined ending fund balances of \$1,645,704, an increase of \$171,825 in comparison with the prior year. Unassigned fund balance for the General Fund was \$679,199 or 5 times the amount of total general fund expenditures.

### **Overview of the Financial Statements**

This discussion and analysis are intended to serve as an introduction to the Homosassa Special Water District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

### **Government-Wide Financial Statements**

The government-wide financial statements are designed to provide readers with a broad overview of the District's financial position, in a manner similar to a private-sector business. They include a *Statement of Net Position* and a *Statement of Activities*.

The *Statement of Net Position* presents information on all of the District's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *Statement of Activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

### **Fund Financial Statements**

The fund financial statements begin on page 9 and provide detailed information about the funds. Some funds are required to be established by State law. However, the Board of Commissioners established another fund to help control and manage money for particular purposes. The District has a governmental fund and a proprietary fund.

#### *Governmental Fund*

The District's services are reported in the governmental fund, which focus on how money flows into and out of the fund and the balances left at year-end that are available for spending. This fund is reported using an accounting method called *modified accrual* accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's programs. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

*Proprietary Fund*

Operations that are financed and operated similar to private businesses are reported in the proprietary fund. This fund is reported using the accrual basis of accounting.

*Notes to the Financial Statements*

The notes provide additional information that is essential to a full understanding of the data provided in the governmental-wide and fund financial statements. The notes to financial statements can be found on pages 15 - 34 of this report.

**Government-Wide Financial Analysis**

The District's net position for the year ending 2018 and 2017 were \$4,227,377 and \$3,792,579 respectively, an increase of \$418,648. A large portion of the District's net position (64.7%) reflects its investment in capital assets, less any debt used to acquire those assets that is still outstanding.

Statement of Net Position as of September 30:

<b>Net Position - ending</b>	<b>\$ 1,537,668</b>	<b>\$ 1,361,656</b>	<b>\$ 2,689,709</b>	<b>\$ 2,430,923</b>	<b>\$ 4,227,377</b>	<b>\$ 3,792,579</b>

**Governmental Activities**

Charges for services for business-type activities increased 8% from 2017 to 2018. Total business-type expenses decreased 2% from 2017 to 2018. Total governmental activities expenses decreased \$10,892 (8%).

**Final Budget versus Actual Results - General Fund**

Total revenues for the year ending 2018 came in \$16,308 greater than what was budgeted. This is due to property taxes and investment income exceeding the budget.

Total expenditures for the year ending 2018 came in \$321,281 less than budgeted, due to budgeting for capital outlay, which was not expended in the General Fund.

**Capital Assets**

At September 30, 2018, the District's investment in capital assets amounts to \$4,554,430 (net of accumulated depreciation). This amount represents an increase of \$402,676 from the year ending September 30, 2017. This increase is due to current year additions exceeding depreciation.

**Economic Factors**

In October 2017 the District increased both the base and block rates 8%. The Board plans to evaluate water rates each year to determine if future annual increases are needed.

For the 2018-2019 budget cycle, the Board set the millage rate at 1.3307 which is expected to bring in an additional \$20,000 of ad valorem revenues.

**Requests for Information**

This financial report is designed to provide a general overview of the Homosassa Special Water District's finances for all those with an interest in the District's finances. Questions concerning any of the information should be addressed to the office of the Homosassa Special Water District, P.O. 195, Homosassa, Florida 34487.

## **Notes to Financial Statements**

## **NOTE 1      SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

### **Reporting Entity**

The *Homosassa Special Water District* (the District) was created pursuant to an act (Chapter 59-1177) passed by the Florida House and Senate in June 1959, establishing a public body corporate and political subdivision in Citrus County, Florida.

The Board of Commissioners of Homosassa Special Water District, a five-member group, is the level of government, which has governance responsibilities over all activities, related to supplying water to customers within the boundaries of the District.

In evaluating how to define the government, for financial reporting purposes, the District has considered all potential component units. The definition of the reporting entity is based primarily on the notion of financial accountability. A primary government is financially accountable for the organizations that make up its legal entity. It is also financially accountable for legally separate organizations if its officials appoint a voting majority of an organizations' governing body, and either it is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on, the primary government. A primary government may also be financially accountable for governmental organizations that are fiscally dependent on it.

A primary government has the ability to impose its will on an organization if it can significantly influence the programs, projects or activities of, or the level of services performed or provided by, the organization. A financial benefit or burden relationship exists if the primary government (a) is entitled to the organizations' resources; (b) is legally obligated or has otherwise assumed the obligation to finance the deficits of, or provide financial support to, the organization; or (c) is obligated in some manner for the debt of the organization. In applying the above criteria, there are no potential component units or related organizations of the District.

### **Government-Wide and Fund Financial Statements**

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the District. For the most part, the effect of the interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for; (1) the governmental fund (general fund), statement of revenue, expenditures and changes in fund balance- Budget and Actual; (2) proprietary fund (water system revenue fund), statements of revenue, expenses and changes in fund net position and cash flows.

Separate financial statements are provided for; (1) the governmental fund (general fund), statement of revenue, expenditures and changes in fund balance- Budget and Actual; (2) proprietary fund (water system revenue fund), statements of revenue, expenses and changes in fund net position and cash flows.

**NOTE 1      SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Measurement Focus, Basis of Accounting and Financial Statement Presentation**

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Ad valorem taxes attach, as an enforceable lien, on property as of February 1. Taxes are levied on November 1 and are due and payable at that time. All unpaid taxes levied November 1 become delinquent March 1 of the following year. Ad valorem tax revenues are recognized when they become available. Available includes those ad valorem tax receivables expected to be collected within sixty days after year-end. Delinquent taxes are considered fully collectible; therefore, no allowance for uncollectible taxes is provided. Expenditures generally are recorded when a liability is incurred as under accrual accounting.

Interest associated with the current fiscal period is considered susceptible to accrual and so has been recognized as revenues of the current fiscal period. All other revenue items are considered measurable and available only when the District receives cash.

**Fund Accounting**

The accounts of the District are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts. The funds used by the District are as follows:

**General Fund**

Is the major governmental fund of the District. It accounts for all financial resources, except those required to be accounted for in another fund.

**Proprietary Fund - Water System Revenue Fund**

A proprietary fund is distinguished from a governmental fund in that proprietary funds report on the determination of net income, financial position, and cash flows. Activities reported in this fund generally include those services that are funded by user fees (or other income sources) that are structured to recover the costs of providing those specific services.

The Water System Revenue Fund is the proprietary fund used to account for operations that are financed and operated in a manner similar to private business enterprises. The intent of this fund is that the costs, including depreciation, of supplying water to customers within the District boundaries be financed or recovered primarily through user charges. The Water System Revenue Fund is also used to report all of the transactions and balances of special assessment projects.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contribution, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

**NOTE 1      SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's water system revenue fund are charges to customers for sales and services. The District also recognizes as operating revenue the meter fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise fund includes the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

**Assets, Liabilities and Net Position or Equity**

*Cash Equivalents*

For purposes of the statement of cash flows, the water system revenue fund considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents, including deposits with the local government surplus trust funds investment pool.

*Inventory - Field Supplies*

Inventories are stated at the lower of cost or market. Cost is determined primarily by the first-in, first-out method.

*Prepays*

Included in prepaids are escrow funds held by FDOT for the U.S. Highway 19 project and the Halls River Bridge project.

*Receivables and Payables*

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds."

Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

All receivables are shown net of an allowance for uncollectible accounts. The District reserved \$9,365 for uncollectible accounts in the Water System Revenue Fund.

*Capital Assets*

Capital assets of the Water System Revenue Fund are recorded as expenditures at the time of purchase to satisfy budgetary requirements. At year-end, these assets are capitalized at cost for financial statement presentation. Cost includes capitalized interest on long-term obligations and overhead costs during the construction period of capital assets, when material. The District has adopted the accounting policy of capitalizing "infrastructure" capital assets (water lines and improvements, wells and similar assets) that are immovable and of value only to the District. Depreciation is calculated under the straight-line method and is charged to operations. The estimated lives of the assets, for determining depreciation charges are as follows:

**NOTE 1      SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

Assets	Years
Water Distribution System and Water Treatment Plant	20-40
Office Buildings	30-40
Trucks, Equipment and Office Equipment	5-10
Software	3-5

Capital asset additions contributed to the Water System Revenue Fund are recorded as invested in capital assets at their acquisition value at time of acquisition.

*Deferred Outflows/Inflows of Resources*

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District has one item that qualifies for reporting in this category for the year ended September 30, 2018, deferred outflows of pension earnings.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has one item that qualifies for reporting in this category for the year ended September 30, 2018, deferred inflows of pension earnings.

*Net Position Flow Assumption*

Sometimes the District will fund outlays for a particular purpose from both restricted and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government - wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

*Fund Balance Policies*

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The District itself can establish limitations on the use of resources through either commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes fund balance amounts that can be used only for the specific purposes determined by a formal action of the government's highest level of decision-making authority. The Board of Commissioners is the highest level of decision-making authority for the government that can, by adoption of an ordinance or resolution prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance or resolution remains in place until a similar action is taken to remove or revise the limitation.

**NOTE 1      SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

Amounts in the assigned fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as committed. The Board of Commissioners is authorized to assign amounts for specific purposes. The Board of Commissioners may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above and additional action is essential to either remove or revise a commitment.

Net position in the government-wide statements are categorized as net investment in capital assets, restricted or unrestricted. Net investment in capital assets represents net position related to infrastructure and property, plant and equipment, net of any related debt.

*Budgets and Budgetary Accounting*

The District is required by state law to adopt an annual budget for each fund. Each budget is adopted on the cash basis. This basis is not consistent with accounting principles generally accepted in the United States of America (GAAP). Budgetary comparisons presented in this report, for the General Fund, are on this non-GAAP budgetary basis; however, there were no items at September 30, 2018 which would require conversion to GAAP budgetary basis. The budget is used as a management tool that assists its users in analyzing financial activity for its fiscal year ending September 30. The Board of Commissioners amends the budget as activities occur that warrant such changes. The level of budgetary control is at the object level for the District. Any budgetary modifications at this level may only be made by resolution of the Board of Commissioners.

The District's procedures in establishing budgetary data reflected in the financial statements are as follows:

- a) In August, the Board of Commissioners meets and develops a budget for the fiscal year commencing October 1. The operating budget includes proposed expenditures, revenues and intergovernmental transfers.
- b) Prior to October 1, the Board of Commissioners holds a public hearing, then formally approves the budget.

Appropriations for the general fund lapse at the end of the fiscal year.

Encumbrance accounting is not used by the District.

*Excess Expenditures over Appropriations*

Transfers out exceeded appropriations by \$124,846. These over expenditures were funded by greater than anticipated revenues and available fund balance.

*Estimates*

The Board uses estimates and assumptions in preparing these financial statements in accordance with accounting principles generally accepted in the United States of America. Those estimates and assumptions affect the reported amounts of assets, liabilities, revenues and expenses. Actual results could vary from the estimates that were used.

**NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**New GASB statement implemented**

In fiscal year 2018, the City implemented GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. This Statement replaces the requirements of Statements No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, as amended, and No. 57, *OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans*, for OPEB. Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, establishes new accounting and financial reporting requirements for OPEB plans. Due to the implementation of GASB Statement No. 75, beginning net position of governmental activities and business-type activities fund have been reduced by \$9,662 and \$21,256 respectively.

**NOTE 2 CASH AND INVESTMENTS**

**Cash Equivalents**

At year-end, the carrying amount of the District's deposits was \$164,884 and the bank balance was \$171,960. All bank deposits were fully covered by federal depository insurance or by collateral held in banks that are members of the State of Florida's Collateral Pool as specified under Florida law. Florida Statutes provide for collateral pooling by banks and savings and loans. This limits local government deposits to "authorized depositories".

**Investments**

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The fair value is the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. The District uses a market approach in measuring fair value that uses prices and other relevant information generated by market transactions involving identical or similar assets, liabilities, or groups of assets and liabilities.

Assets or liabilities are classified into one of three levels. Level 1 is the most reliable and is based on quoted prices for identical assets, or liabilities, in an active market. Level 2 uses significant other observable inputs when obtaining quoted prices for identical or similar assets, or liabilities, in markets that are not active. Level 3 is the least reliable, and uses significant unobservable inputs that uses the best information available under the circumstances, which includes the District's own data in measuring unobservable inputs.

The District's investment policies are governed by State Statutes which allow the following investments:

1. The Local Government Surplus Funds Trust (SBA);
2. Securities and Exchange Commission Registered Money Market Funds with the highest credit quality rating from a nationally recognized rating agency;
3. Interest bearing savings accounts and certificates of deposit in qualified public depositories.
4. Direct obligations of the U.S. Government and its agencies.

The SBA is not a registrant with the Securities and Exchange Commission (SEC); however the State of Florida does provide regulatory oversight. The Board has adopted operating procedures consistent with the requirements for a 2a-7 fund for the Florida Prime Fund, therefore, the pool account balance can be used as fair value for the financial reporting.

**NOTE 2 CASH AND INVESTMENTS (CONTINUED)**

At September 30, 2018, the District had the following investments:

Investment Type	<u>Fair Value</u>	<u>Credit Rating</u>	<u>Weighted Average Maturity</u>
Florida Prime	<u>\$ 717,093</u>	AAAm	33 days

The District does not have an investment policy that addresses credit risk, concentration of credit risk, custodial credit risk, or interest rate risk. However, all deposits are potentially subject to custodial credit risk. The District policy requires that bank deposits be secured as provided by Chapter 280, Florida Statutes. This law requires local governments to deposit funds only in financial institutions designated as qualified public depositories (QPD) by the Chief Financial Officer of the State of Florida, and creates the Public Deposit Trust Fund, a multiple financial institution pool with the ability to assess its member financial institutions for collateral shortfalls if a default or insolvency has occurred. At September 30, 2018, all of the District's bank deposits were in QPDs.

**NOTE 3 CAPITAL ASSETS**

Capital asset activity for the year ended September 30, 2018 was as follows:

	Beginning Balance	Additions	Disposals	Ending Balance
<b>Business-type Activities:</b>				
Capital Assets, not being depreciated:				
Land	\$ 216,239	\$ -	\$ -	\$ 216,239
Construction in progress	1,253,286	526,476	(281,561)	1,498,201
<b>Total capital assets not being depreciated</b>	<b>1,469,525</b>	<b>526,476</b>	<b>(281,561)</b>	<b>1,714,440</b>
<b>Capital Assets Being Depreciated:</b>				
Buildings	429,191	-	-	429,191
Water distribution system	5,508,814	294,827	-	5,803,641
Improvements/infrastructure	880,411	-	-	880,411
Machinery and equipment	987,649	115,075	-	1,102,724
Intangibles	33,359	-	-	33,359
<b>Total capital assets being depreciated</b>	<b>7,839,424</b>	<b>409,902</b>	<b>-</b>	<b>8,249,326</b>
Less Accumulated Depreciation for:				
Buildings	(160,953)	(12,485)	-	(173,438)
Water distribution system	(3,262,443)	(188,612)	-	(3,451,055)
Improvements/infrastructure	(831,174)	(8,886)	-	(840,060)
Machinery and equipment	(870,316)	(41,798)	-	(912,114)
Intangibles	(32,309)	(360)	-	(32,669)
<b>Total accumulated depreciation</b>	<b>(5,157,195)</b>	<b>(252,141)</b>	<b>-</b>	<b>(5,409,336)</b>
<b>Total capital assets being depreciated, net</b>	<b>2,682,229</b>	<b>157,761</b>	<b>-</b>	<b>2,839,990</b>
<b>Total capital assets</b>	<b>\$ 4,151,754</b>	<b>\$ 684,237</b>	<b>\$ (281,561)</b>	<b>\$ 4,554,430</b>

Depreciation expense was \$252,141 and was charged to water activities for the year ended September 30, 2018.

**NOTE 4 LONG TERM LIABILITIES**

On July 25, 2013, the District signed a promissory note for \$2,600,000 to finance the costs of certain capital improvements consisting of water line replacement and expansion of the water utility system and pay off the Series 2006 Note. The note requires monthly principal and interest payments beginning August 25, 2013 and carries a fixed interest rate of 2.60%. The maturity date is July 25, 2028 and is secured by a pledge of water system revenue.

Total principal and interest remaining on the Series 2013 Note as of September 30, 2018 is \$2,065,206. For the year ended September 30, 2018, principal and interest paid was \$209,511 and total water system revenue pledged for the year was \$535,395

A summary of long-term liability activity for the year ended September 30, 2018 is as follows:

	Beginning Balance, Restated	Additions	Reductions	Ending Balance	Due Within One Year
<b>Governmental Activities:</b>					
Other Post Employment Benefits	\$ 79,870	\$ -	\$ (17,818)	\$ 62,052	\$ -
Net Pension Liability	60,992	2,045	-	63,037	-
Governmental Activities long-term liabilities	<u>\$ 140,862</u>	<u>\$ 2,045</u>	<u>\$ (17,818)</u>	<u>\$ 125,089</u>	<u>\$ -</u>
<b>Business-type Activities:</b>					
Notes Payable:					
Series 2013 Note	\$ 1,980,429	\$ -	\$ (159,230)	\$ 1,821,199	\$ 164,238
Compensated Absences	60,667	-	-	60,667	12,133
Other Post Employment Benefits	175,715	-	(39,200)	136,515	-
Net Pension Liability	564,643	22,230	-	586,873	-
Business-type Activities long-term liabilities	<u>\$ 2,781,454</u>	<u>\$ 22,230</u>	<u>\$ (198,430)</u>	<u>\$ 2,605,254</u>	<u>\$ 176,371</u>

A schedule of debt maturities for notes payable is as follows:

Years Ending September 30,	Principal	Interest
2019	\$ 164,238	\$ 45,273
2020	168,559	40,951
2021	172,994	36,516
2022	177,546	31,964
2023	182,218	27,293
2024-2028	955,644	62,010
	<u>\$ 1,821,199</u>	<u>\$ 244,007</u>

## **NOTE 5          RETIREMENT PLANS**

### **Florida Retirement System Retirement Plan**

The District's employees participate in the Florida System Retirement Plan (the Plan), which is a conditionally qualified plan under Section 401(a) of the Internal Revenue Code. The Plan is a cost sharing public employee retirement system with one exception: All risks and costs are not shared by the District, but are the liability of the State of Florida. The Plan is funded through contributions by the District and the District has no legal obligation for paying benefits.

Generally, membership is mandatory for all employees. The District is required to contribute 8.26% for employees, 24.06% for senior management, 14.03% for DROP participants, and 48.70% for commissioners (percentage in effect at September 30, 2018) of the employees'/commissioners' gross earnings, less merit pay and bonuses. Effective July 1, 2011, employees are required to contribute 3% of gross earnings. The District made the required contribution, amounting to \$57,738.

### **General Information**

All of the District's employees participate in the Florida Retirement System (FRS). As provided by Chapters 121 and 112, Florida Statutes, the FRS provides two cost sharing, multiple employer defined benefit plans administered by the Florida Department of Management Services, Division of Retirement, including the FRS Pension Plan ("Pension Plan") and the Retiree Health Insurance Subsidy ("HIS Plan"). Under Section 121.4501, Florida Statutes, the FRS also provides a defined contribution plan ("Investment Plan") alternative to the FRS Pension Plan, which is administered by the State Board of Administration ("SBA"). As a general rule, membership in the FRS is compulsory for all employees working in a regularly established position for a state agency, county government, district school board, state university, community college, or a participating city or special district within the State of Florida. The FRS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefits are established by Chapter 121, Florida Statutes, and Chapter 60S, Florida Administrative Code. Amendments to the law can be made only by an act of the Florida State Legislature.

The State of Florida annually issues a publicly available financial report that includes financial statements and required supplementary information for the FRS. The latest available report may be obtained by writing to the State of Florida Division of Retirement, Department of Management Services, P.O. Box 9000, Tallahassee, Florida 32315-9000, or from the Web site:

[www.dms.myflorida.com/workforce\\_operations/retirement/publications](http://www.dms.myflorida.com/workforce_operations/retirement/publications)

### **FRS**

#### *Plan Description*

The Pension Plan is a cost-sharing multiple-employer defined benefit pension plan, with a Deferred Retirement Option Program ("DROP") for eligible employees.

#### *Benefits Provided*

Benefits under the Pension Plan are computed on the basis of age, average final compensation, and service credit. For Pension Plan members enrolled before July 1, 2011, Regular class members who retire at or after age 62 with at least six years of credited service or 30 years of service regardless of age are entitled to a retirement benefit payable monthly for life, equal to 1.6% of their final average compensation based on the five highest years of salary, for each year of credited service.

Vested members with less than 30 years of service may retire before age 62 and receive reduced retirement benefits. Special Risk Administrative Support class members who retire at or after age 55 with at least six years of credited service or 25 years of service regardless of age are entitled to a retirement benefit payable monthly for life, equal to 1.6% of their final average compensation based on the five highest years of salary, for each year of credited service. Special Risk class members (sworn law enforcement officers, firefighters, and correctional officers) who retire at or after age 55 with at least six years of credited service, or with 25 years of service regardless of age, are entitled to a retirement benefit payable monthly for life, equal to 3.0%

**NOTE 5 RETIREMENT PLANS (CONTINUED)**

of their final average compensation based on the five highest years of salary for each year of credited service. Senior Management Service class members who retire at or after age 62 with at least six years of credited service or 30 years of service regardless of age are entitled to a retirement benefit payable monthly for life, equal to 2.0% of their final average compensation based on the five highest years of salary for each year of credited service. Elected Officers' class members who retire at or after age 62 with at least six years of credited service or 30 years of service regardless of age are entitled to a retirement benefit payable monthly for life, equal to 3.0% (3.33% for judges and justices) of their final average compensation based on the five highest years of salary for each year of credited service.

For Plan members enrolled on or after July 1, 2011, the vesting requirement is extended to eight years of credited service for all these members and increasing normal retirement to age 65 or 33 years of service regardless of age for Regular, Senior Management Service, and Elected Officers' class members, and to age 60 or 30 years of service regardless of age for Special Risk and Special Risk Administrative Support class members. Also, the final average compensation for all these members will be based on the eight highest years of salary.

As provided in Section 121.101, Florida Statutes, if the member is initially enrolled in the Pension Plan before July 1, 2011, and all service credit was accrued before July 1, 2011, the annual cost-of-living adjustment is three percent per year. If the member is initially enrolled before July 1, 2011, and has service credit on or after July 1, 2011, there is an individually calculated cost-of-living adjustment. The annual cost-of-living adjustment is a proportion of three percent determined by dividing the sum of the pre-July 2011 service credit by the total service credit at retirement multiplied by three percent. Plan members initially enrolled on or after July 1, 2011, will not have a cost-of-living adjustment after retirement.

In addition to the above benefits, the DROP program allows eligible members to defer receipt of monthly retirement benefit payments while continuing employment with a FRS employer for a period not to exceed 60 months after electing to participate. Deferred monthly benefits are held in the FRS Trust Fund and accrue interest. There are no required contributions by DROP participants.

*Contributions*

Effective July 1, 2011, all enrolled members of the FRS, other than DROP participants, are required to contribute three percent of their salary to the FRS. In addition to member contributions, governmental employers are required to make contributions to the FRS based on state-wide contribution rates established by the Florida Legislature. These rates are updated as of July 1 of each year. The employer contribution rates by job class for the periods from October 1, 2017 through June 30, 2018 and from July 1, 2018 through September 30, 2018, respectively, were as follows: Regular - 7.92% and 8.26%; Senior Management Service - 21.71% and 24.06%; Elected Officers' - 45.50% and 48.70%; and DROP participants -13.26% and 14.03%.

These employer contribution rates include 1.66% HIS Plan subsidy for the periods October 1, 2017 through June 30, 2018 and from July 1, 2018 through September 30, 2018.

The District's contributions, including employee contributions, to the Pension Plan totaled \$57,738 for the fiscal year ended September 30, 2018.

*Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions –*

At September 30, 2018, the District reported a liability of \$470,152 for its proportionate share of the Pension Plan's net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2018. The District's proportionate share of the net pension liability was based on the District's 2017-18 fiscal year contributions relative to the 2016-17 fiscal year contributions of all participating members. At June 30, 2018, the District's proportionate share was .00156 percent, which was a decrease of (.00005) percent from its proportionate share measured as of June 30, 2017.

**NOTE 5 RETIREMENT PLANS (CONTINUED)**

For the fiscal year ended September 30, 2018, the District recognized pension expense of \$86,048. In addition, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Description	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences Between Expected and Actual Experience	\$ 39,829	\$ 1,446
Change of Assumptions	153,623	-
Net Difference Between Projected and Actual earnings on Pension Plan investments	-	36,325
Changes in Proportion and Differences Between District Pension Plan Contributions and Proportionate Share of Contributions	23,138	21,174
District Pension Plan Contributions Subsequent to the Measurement Date	<u>11,635</u>	<u>-</u>
<b>Total</b>	<u><u>\$ 228,225</u></u>	<u><u>\$ 58,945</u></u>

The deferred outflows of resources related to the Pension Plan, totaling \$11,635 resulting from District contributions to the Plan subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the fiscal year ended September 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the Pension Plan will be recognized in pension expense as follows:

<u>Fiscal Year Ending September 30:</u>	<u>Amount</u>
2018	\$ 65,733
2019	42,433
2020	2,937
2021	24,776
2022	18,459
Thereafter	3,307

**NOTE 5 RETIREMENT PLANS (CONTINUED)**

*Actuarial Assumptions*

The total pension liability in the June 30, 2018 actuarial valuation was determined using the following actuarial assumption, applied to all period included in the measurement:

Inflation	2.60 %
Salary Increases	3.25%, average, including inflation
Investment Rate of Return	7.00%, net of pension plan investment expense, including inflation

Mortality rates were based on the Generational RP-2000 with Projection Scale BB tables.

The actuarial assumptions used in the July 1, 2018, valuation were based on the results of an actuarial experience study for the period July 1, 2008 through June 30, 2013.

The long-term expected rate of return on Pension Plan investments was not based on historical returns, but instead is based on a forward-looking capital market economic model. The allocation policy's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions and includes an adjustment for the inflation assumption. The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation (1)</u>	<u>Annual Arithmetic Return</u>	<u>Compound Annual (Geometric) Return</u>	<u>Standard Deviation</u>
Cash	1.00%	2.90%	2.90%	1.80%
Fixed Income	18.00%	4.40%	4.30%	4.00%
Global Equity	54.00%	7.60%	6.30%	17.00%
Real Estate	11.00%	6.60%	6.00%	11.30%
Private Equity	10.00%	10.70%	7.80%	26.50%
Strategic Investments	6.00%	6.00%	5.70%	8.60%
Total	<u>100.00%</u>			
Assumed Inflation - Mean			2.60%	1.90%

(1) As outlined in the Pension Plan's investment policy

*Discount Rate*

The discount rate used to measure the total pension liability was 7.00%. The Pension Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculation the total pension liability is equal to the long-term expected rate of return.

**NOTE 5 RETIREMENT PLANS (CONTINUED)**

*Sensitivity of the District's Proportionate Share of the Net Position Liability to Changes in the Discount Rate*

The following represents the District's proportionate share of the net pension liability calculated using the discount rate of 7.00% as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00%) or one percentage point higher (8.00%) than the current rate:

	1% Decrease (6.00%)	Current Discount Rate (7.00%)	1% Increase (8.00%)
District's Proportionate Share of the Net Pension Liability	\$ 858,046	\$ 470,152	\$ 147,982

*Pension Plan Fiduciary Net Position*

Detailed information regarding the Pension Plan's fiduciary net position is available in the separately issued FRS Pension Plan and Other State-Administered Systems Comprehensive Annual Financial Report.

**HIS Plan**

*Plan Description*

The HIS Plan is a cost-sharing multiple-employer defined benefit pension plan established under Section 112.363, Florida Statutes, and may be amended by the Florida legislature at any time. The benefit is a monthly payment to assist retirees of State-administered retirement systems in paying their health insurance costs and is administered by the Florida Department of Management Services, Division of Retirement.

*Benefits Provided*

For the fiscal year ended September 30, 2018, eligible retirees and beneficiaries received a monthly HIS payment of \$5 for each year of creditable service completed at the time of retirement, with a minimum HIS payment of \$30 and a maximum HIS payment of \$150 per month. To be eligible to receive these benefits, a retiree under a State-administered retirement system must provide proof of health insurance coverage, which may include Medicare.

*Contributions*

The HIS Plan is funded by required contributions from FRS participating employers as set by the Florida Legislature. Employer contributions are a percentage of gross compensation for all active FRS members. For the fiscal year ended September 30, 2018, the HIS contribution for the period October 1, 2017 through June 30, 2018 and from July 1, 2018 through September 30, 2018 was 1.66%, respectively. The District contributed 100% of its statutorily required contributions for the current and preceding three years. HIS Plan contributions are deposited in a separate trust fund from which payments are authorized. HIS Plan benefits are not guaranteed and are subject to annual legislative appropriation. In the event legislative appropriation or available funds fail to provide full subsidy benefits to all participants, benefits may be reduced or cancelled.

The District's contributions to the HIS Plan totaled \$9,220 for the fiscal year ended September 30, 2018.

**NOTE 5 RETIREMENT PLANS (CONTINUED)**

*Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions*

At September 30, 2018, the District reported a liability of \$179,758 for its proportionate share of the HIS Plan's net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2018. The District's proportionate share of the net pension liability was based on the District's 2017-18 fiscal year contributions relative to the 2016-17 fiscal year contributions of all participating members. At September 30, 2018, the District's proportionate share was .0017 percent, which was a decrease of .00002 percent from its proportionate share measured as of September 30, 2017.

For the fiscal year ended September 30, 2018, the District recognized pension expense of \$15,333. In addition, the District reported deferred outflows of resources and deferred in flows of resources related to pensions from the following sources:

Description	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences Between Expected and Actual Experience	\$ 2,752	\$ 305
Change of Assumptions	19,991	19,006
Net Difference Between Projected and Actual Earnings on HIS Plan Investments	109	-
Changes in Proportion and Differences Between District HIS Plan Contributions and Proportionate Share of Contributions	9,263	1,762
District HIS Plan Contributions Subsequent to the Measurement Date	2,259	-
<b>Total</b>	<b>\$ 34,374</b>	<b>\$ 21,073</b>

The deferred outflows of resources related to the HIS Plan, totaling \$2,259 resulting from District contributions to the HIS Plan subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the fiscal year ended September 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the HIS Plan will be recognized in pension expense as follows:

Fiscal Year Ending September 30:	Amount
2018	\$ 4,431
2019	4,421
2020	3,669
2021	1,601
2022	(2,247)
Thereafter	(833)

**NOTE 5 RETIREMENT PLANS (CONTINUED)**

*Actuarial Assumptions*

The total pension liability in the July 1, 2018, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.60 %
Salary Increases	3.25%, average, including inflation
Municipal Bond Rate	3.87 %

Mortality rates were based on the Generational RP-2000 with Projection Scale BB tables.

The actuarial assumptions used in the July 1, 2018, valuation were based on the results of an actuarial experience study for the period July 1, 2008 through June 30, 2013.

*Discount Rate*

The discount rate used to measure the total pension liability was 3.87%. In general, the discount rate for calculating the total pension liability is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS benefit is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate, and the single equivalent discount rate is equal to the municipal bond rate selected by the HIS Plan sponsor. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index.

*Sensitivity of the District's Proportionate Share of the Net Position Liability to Changes in the Discount Rate*

The following represents the District's proportionate share of the net pension liability calculated using the discount rate of 3.87%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (2.87%) or one percentage point higher (4.87%) than the current rate:

	1% Decrease 2.87%	Current Discount Rate 3.87%	1% Increase 4.87%
District's Proportionate Share of the Net Pension Liability	\$ 204,734	\$ 179,758	\$ 158,940

*Pension Plan Fiduciary Net Position*

Detailed information regarding the HIS Plan's fiduciary net position is available in the separately issued FRS Pension Plan and Other State-Administered Systems Comprehensive Annual Financial Report.

**Investment Plan**

The SBA administers the defined contribution plan officially titled the FRS Investment Plan. The investment Plan is reported in the SBA's annual financial statements and in the State of Florida Comprehensive Annual Financial Report.

**NOTE 5 RETIREMENT PLANS (CONTINUED)**

For all membership classes, employees are immediately vested in their own contributions and are vested after one year of service for employer contributions and investment earnings. If an accumulated benefit obligation for service credit originally earned under the Pension Plan is transferred to the Investment Plan, the member must have the years of service required for Pension Plan vesting (including the service credit represented by the transferred funds) to be vested for these funds and the earnings on the funds. Nonvested employer contributions are placed in a suspense account for up to five years. If the employee returns to FRS-covered employment within the five-year period, the employee will regain control over their account. If the employee does not return within the five-year period, the employee will forfeit the accumulated account balance. For the fiscal year ended September 30, 2018, the information for the amount of forfeitures was unavailable from the SBA; however, management believes that these amounts, if any, would be immaterial to the District.

After termination and applying to receive benefits, the member may rollover vested funds to another qualified plan, structure a periodic payment under the Investment Plan, receive a lump-sum distribution, leave the funds invested for future distribution, or any combination of these options. Disability coverage is provided; the member may either transfer the account balance to the Pension Plan when approved for disability retirement to receive guaranteed lifetime monthly benefits under the Pension Plan, or remain in the Investment Plan and rely upon that account balance for retirement income.

The District's Investment Plan pension expense totaled \$4,445 for the fiscal year ended September 30, 2018.

*Section 457 Deferred Compensation Plan*

Effective October 15, 2002, the Board adopted a Section 457 Deferred Compensation Plan for the benefit of all employees and commissioners. Employees and commissioners may defer up to Internal Revenue Code limits. There were no costs incurred by the District for the Plan and no employer contributions were made to the Plan for the year ended September 30, 2018.

**NOTE 6 RISK MANAGEMENT**

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; job-related illnesses or injuries to employees; and natural disasters. Risk of loss from the above is transferred by the District to various commercial insurers through the purchase of insurance. There has been no significant reduction in insurance coverage from the previous year. There have been no settlements in excess of insurance coverage in any of the prior three fiscal years.

**NOTE 7 INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS**

As of September 30, 2018, the Water Fund owed the General Fund \$966,505 as a working capital loan.

**NOTE 8 CONTINGENCIES**

During the ordinary course of its operations, the District is a party to various claims, legal actions, and complaints. In addition, although the outcome of these lawsuits is not presently determinable, in opinion of the District's management and legal counsel, these matters are not anticipated to have a material financial impact on the District.

**NOTE 9 OTHER POST-EMPLOYMENT BENEFITS**

In accordance with Florida Statutes Section 112.0801, the District makes continued group health insurance through the District's current provider available to retirees and eligible dependents provided certain service requirements and normal age retirement requirements have been met. This benefit has no cost to the District, other than the implicit cost of including retirees in the group calculation. All premiums are paid by the retirees. The District has three retirees currently receiving benefits.

**NOTE 9 OTHER POST-EMPLOYMENT BENEFITS (CONTINUED)**

*Retirement eligibility*

General Employees – Participants are eligible for medical continuation at age 62 and 10 years of service, or 25 years of service.

*Benefits provided*

Type of Coverage	Employee	Spouse
<u>Medical Coverage</u>		
Eligibility	Retiree meets District Retirement eligibility	Same as Retiree
Retiree cost sharing	Retiree pays 100% of premium	Retiree pays 100% of spousal premium
Coverage ceases	All forms of coverage cease upon the earlier of death or discontinuance of required cost sharing	All forms of coverage cease upon the earlier of death or discontinuance of required cost sharing
<u>Dental and Vision Coverage</u>		
	Not available to retirees.	Not available to retirees.
<u>Life Insurance Coverage</u>		
Eligibility	\$50,000	N/A
Retiree cost sharing	\$11,784	N/A
Coverage ceases	All forms of coverage cease upon the earlier of death or discontinuance of required cost sharing	N/A

Post-65 Medical coverage is available, and three retirees have elected coverage.

*Employees covered by benefit terms*

At October 1, 2018, (the valuation date), the following employees were covered by the benefit terms:

Retired Employees or Beneficiaries Currently Receiving Benefits	3
Inactive Employees Entitled to but Not Yet Receiving Benefits	-
Active Employees	16
	19

*Employer contributions*

The funding policy of the plan sponsor is to contribute annually an amount sufficient to satisfy benefit payment requirements to participants.

*Employee contributions*

None.

**NOTE 9 OTHER POST-EMPLOYMENT BENEFITS (CONTINUED)**

**Total OPEB Liability**

The District's total OPEB liability of \$198,567 as of September 30, 2018 for the District's fiscal year and reporting period of October 1, 2017 to September 30, 2018. The values shown for this fiscal year and reporting period are based on a measurement date of October 1, 2018 and the corresponding measurement period of October 1, 2017 to September 30, 2018. The measurement of the total OPEB liability is based on a valuation date of October 1, 2018.

	1% Decrease <u>2.87%</u>	Current Discount Rate <u>3.87%</u>	1% Increase <u>4.87%</u>
District's Proportionate Share of the Net Pension Liability	\$ 204,734	\$ 179,758	\$ 158,940

*Actuarial assumptions and other inputs*

The total OPEB liability in the October 1, 2018 actuarial valuation was determined using the following key actuarial assumptions, applied to all periods included in the measurement:

Mortality	RP-2000 Mortality Table, projected 18 years; this assumption does not include a margin for future improvements in longevity
Actuarial Cost Method	Entry Age Actuarial Cost Method

**Changes in Total OPEB Liability**

Balances at September 30, 2017	<u>\$ 255,585</u>
Changes for the year:	
Service cost	11,784
Interest	8,021

**Internal Control and Compliance Section**

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER  
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN  
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Board of Commissioners  
*Homosassa Special Water District*

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, and each major fund of Homosassa Special Water District as of and for the year ended September 30, 2018, and the related notes to the financial statements, which collectively comprise Homosassa Special Water District's basic financial statements, and have issued our report thereon dated April 3, 2019.

***Internal Control over Financial Reporting***

In planning and performing our audit of the financial statements, we considered Homosassa Special Water District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Homosassa Special Water District's internal control. Accordingly, we do not express an opinion on the effectiveness of Homosassa Special Water District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

***Compliance and Other Matters***

As part of obtaining reasonable assurance about whether Homosassa Special Water District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**MANAGEMENT COMMENTS**

Board of Commissioners  
*Homosassa Special Water District*  
 Homosassa, Florida

**Report on the Financial Statements**

We have audited the financial statements of *Homosassa Special Water District* (the “District”), Florida, as of and for the fiscal year ended September 30, 2018, and have issued our report thereon dated April 3, 2019.

**Auditor’s Responsibility**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and Chapter 10.550, Rules of the Auditor General.

**Other Reporting Requirements**

We have issued our Independent Auditor’s Report on Internal Control over Financial Reporting and Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards* and Independent Accountant’s Report on an examination conducted in accordance with *AICPA Professional Standards*, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports, which are dated April 3, 2019, should be considered in conjunction with this management letter.

**Prior Audit Findings**

Section 10.554(1)(i)1., Rules of the Auditor General, require that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. Corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report, except as noted below.

<b>Tabulation of Uncorrected Audit Findings</b>		
Current Year Finding #	2016-17 FY Finding #	2015-2016 FY Finding #
18-1	17-1	16-1

**Official Title and Legal Authority**

Section 10.554(1)(i)4., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. This information has been disclosed in the notes to the financial statements.

**Financial Condition and Management**

Section 10.554(1)(i)5.a. and 10.556(7), Rules of the Auditor General, require us to apply appropriate procedures and communicate the results of our determination as to whether or not the District has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and identification of the specific condition(s) met. In connection with our audit, we determined that the District did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.554(1)(i)5.c. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures for the District. It is management's responsibility to monitor the District's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we communicate any recommendations to improve financial management. See Appendix A for current year comments and recommendations.

**Additional Matters**

Section 10.554(1)(i)3., Rules of the Auditor General, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material, but which warrants the attention of those charged with governance. In connection with our audit, we did not have any such findings.

**Purpose of this Letter**

Our management letter is intended solely for the use of the Legislative Auditing Committee, members of the Florida Senate, and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies the Board of Commissioners, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.

### **ML 17-1- Interfund Balances**

**Criteria** - Long term interfund balances should include plans for repayment.

**Condition** - The balance due to the General Fund continues to grow, and is greater than available cash and investments in the water fund.

**Cause** - During our audit we noted that the District is transferring cash from the General Fund to the Water System Revenue Fund, however, this flow of cash is being recorded as a loan rather than a transfer out.

**Effect** - Tax revenues continue to accumulate in the General Fund, and only the annual debt payment amount is being recorded as a transfer to the Water System Revenue Fund.

**Recommendation** - We recommend that the District consider forgiving the balance due to the General Fund if it does not expect the Water System Revenue Fund to repay this balance. If the District plans to repay the General Fund, a repayment plan should be set up to reduce this interfund balance.

**INDEPENDENT ACCOUNTANT'S REPORT ON COMPLIANCE WITH  
THE REQUIREMENTS OF SECTION 218.415, FLORIDA STATUTES**

Board of Commissioners  
*Homosassa Special Water District*

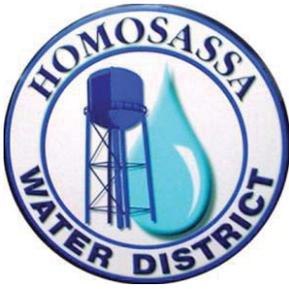

We have examined Homosassa Special Water District's (the District) compliance with the requirements of Section 218.415, Florida Statutes, during the year ended September 30, 2018. Management is responsible for the District's compliance with those requirements. Our responsibility is to express an opinion on the District's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and the standards applicable to attestation engagements contained in Government Auditing Standards issued by the Comptroller General of the United States and, accordingly, included examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on the District's compliance with specified requirements.

In our opinion, Homosassa Special Water District complied, in all material respects, with the aforementioned requirements for the year ended September 30, 2018.

Dear Sirs,

At a regular meeting of the Board of Commissioners of the Homosassa Special Water District held on Monday, April 15, 2019, the following decision was made concerning the recommendation on Internal Control under the Management letter. Recommendation attached.

### InterFund Balances

The Board of Commissioners of the Homosassa Special Water District will forgive the amount due to the General Fund by the Water Revenue Fund and staff will change the way the Budget Transfers are being recorded.

Sincerely,

*Teresa Olds*
