INDEPENDENT AUDITORS' REPORT

To the Board of Supervisors of
Emerald Lakes Community Development District
Brevard County, Florida

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Emerald Lakes Community Development District (hereinafter referred to as "District"), as of and for the year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District as of September 30, 2020, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated May 25, 2021, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Management's Discussion And Analysis

Emerald Lakes Community Development District Management’s Discussion and Analysis

Our discussion and analysis of the Emerald Lakes Community Development District’s financial performance provides an overview of the District’s financial activities for the fiscal year ended September 30, 2020. Please read it in conjunction with the District’s financial statements, which begin on page 7.

FINANCIAL HIGHLIGHTS

- At September 30, 2020, the liabilities and deferred inflows of resources exceed its assets by approximately \$65,000 (deficit).
- During the year ended September 30, 2020, the developer contributed approximately \$45,000 to fund the operations of the District.

USING THE ANNUAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities on pages 7 – 8 provide information about the activities of the District as a whole and present a longer-term view of the District’s finances. Fund financial statements start on page 9. For governmental activities, these statements tell how these services were financed in the short-term as well as what remains for future spending. Fund financial statements also report the District’s operations in more detail than the government-wide statements by providing information about the District’s most significant funds.

Reporting the District as a Whole

Our analysis of the District as a whole begins on page 4. One of the most important questions asked about the District’s finances is, “Is the District as a whole better off or worse off as a result of the year’s activities?” The Statement of Net Position and the Statement of Activities report information about the District as a whole and about its activities in a way that helps answer this question. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year’s revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the District’s net position and related changes during the current year. You can think of the Districts’ net position – the difference between assets and liabilities – as one way to measure the District’s financial health, or financial position. Over time, increases or decreases in the District’s net position is one indicator of whether its financial health is improving or deteriorating. You will need to consider other nonfinancial factors; however, such as changes in the District’s assessment base and the condition of the District’s infrastructure, to assess the overall health of the District.

Emerald Lakes Community Development District Management’s Discussion and Analysis

Reporting the District’s Most Significant Funds

Our analysis of the District’s major funds begins on page 5. The fund financial statements begin on page 9 and provide detailed information about the most significant funds – not the District as a whole. Some funds are required to be established by State law and by bond covenants. All of the District’s funds are governmental fund-types.

- *Governmental funds* – All of the District’s basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. The governmental fund statements provide a detailed short-term view of the District’s general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District’s programs.

THE DISTRICT AS A WHOLE

The following table reflects the condensed Statement of Net Position and is compared to the prior year.

<i>September 30,</i>	2020	2019	Change
Assets			
Current and other assets	\$ 19,798	\$ 20,717	\$ (919)
Total assets	\$ 19,798	\$ 20,717	\$ (919)
Liabilities			
Current liabilities	\$ 80,022	\$ 81,392	\$ (1,370)
Total liabilities	80,022	81,392	(1,370)
Deferred inflows of resources			
Deferred revenue	5,251	5,000	251
Total deferred inflows of resources	5,251	5,000	251
Net position			
Unrestricted	(65,475)	(65,675)	200
Total net position (deficit)	(65,475)	(65,675)	200
Total liabilities, deferred inflows of resources, and net position	\$ 19,798	\$ 20,717	\$ (919)

For more detailed information, see the accompanying Statement of Net Position.

Emerald Lakes Community Development District Management's Discussion and Analysis

During the fiscal year ended September 30, 2020, total assets and deferred inflows of resources remained relatively unchanged from the prior year while total liabilities decreased by approximately \$1,400 from the prior fiscal year. The decrease in liabilities is primarily due to the timing of payments to vendors.

The following schedule compares the Statement of Activities for the current and previous fiscal year.

<i>For the year ended September 30,</i>	2020	2019	Change
Revenue:			
Program revenue:			
Grants and contributions	\$ 46,108	\$ 57,449	\$ (11,341)
Total revenue	46,108	57,449	(11,341)
Expenses:			
General government	45,908	57,441	(11,533)
Cost of issuance	-	65,683	(65,683)
Total expenses	45,908	123,124	(77,216)
Change in net position	200	(65,675)	65,875
Net position (deficit), beginning of year	(65,675)	-	(65,675)
Net position (deficit), end of year	\$ (65,475)	\$ (65,675)	\$ 200

For more detailed information, see the accompanying Statement of Activities.

During the fiscal year ended September 30, 2020, total revenue and expenses decreased by approximately \$11,000 and \$77,000, respectively, from the prior fiscal year. The District's general operations are funded by the Developer, thus the decrease in revenue and expenses is primarily due to decreases in legal fees related to the establishment of the District in the prior year. Expenses also decreased because of the decrease in cost of issuance. The overall result was a \$200 increase in net position for fiscal year 2020.

THE DISTRICT'S FUNDS

Governmental Funds

As the District completed the year, its governmental funds (as presented in the balance sheet on page 9) reported a combined deficit fund balance of approximately \$66,200, which is a decrease over last year's deficit balance that totaled approximately \$65,700. Significant transactions are discussed below.

Emerald Lakes Community Development District Management's Discussion and Analysis

- During the year ended September 30, 2020, the developer contributed approximately \$47,000 to fund the operations of the District.

The overall decrease in fund balance for the year ended September 30, 2020 totaled \$555.

GOVERNMENTAL FUNDS BUDGETARY HIGHLIGHTS

An Operating budget was established by the governing board for the District pursuant to the requirements of Florida Statutes. The budget to actual comparison for the general fund, including the original budget and final adopted budget, is shown at page 19.

The District experienced an unfavorable variance in revenue as compared to the budget in the amount of \$88,839. Conversely, the District experienced a favorable variance in expenditures as compared to the budget in the amount of \$88,284. The variance in expenditures occurred primarily due to anticipated operating expenditures that were not incurred during the year. Revenue varied in a similar manner because the Developer currently funds the operations of the District.

FUTURE FINANCIAL FACTORS

Emerald Lakes Community Development District is an independent special district that operates under the provisions of Chapter 190, Florida Statutes. The District operates under an elected Board of Supervisors, which establishes policy and sets assessment rates. For fiscal year 2021, the Developer has agreed to fund the operations of the District.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide a general overview of the District's finances. If you have questions about this report or need additional financial information, contact the Emerald Lakes Community Development District's management company, Wrathell, Hunt & Associates, LLC, at 2300 Glades Road, Suite 410W, Boca Raton, Florida 33431.

Emerald Lakes Community Development District Notes to Financial Statements

NOTE 1: NATURE OF ORGANIZATION

The Emerald Lakes Community Development District (the “District”) was created on June 21, 2018 pursuant to the Uniform Community Development District Act of 1980, otherwise known as Chapter 190, Florida Statutes, by the City of Palm Bay, Florida, Ordinance No. 2018-7. The Act provides among other things, the power to manage basic services for community development, power to borrow money and issue bonds, and to levy and assess non-ad valorem assessments for the financing and delivery of capital infrastructure.

The District was established for the purposes of financing and managing the acquisition, construction, maintenance and operation of a portion of the infrastructure necessary for community development within the District.

The District is governed by a Board of Supervisors (“Board”), which is comprised of five members. The Supervisors are elected on an at large basis by the owners of the property within the District. At September 30, 2020, all of the Supervisors are affiliated with the developer of the community, Emerald Investments Holdings, LLC. The Board of Supervisors of the District exercise all powers granted to the District pursuant to Chapter 190, Florida Statutes.

The Board has the final responsibility for:

1. Assessing and levying assessments.
2. Approving budgets.
3. Exercising control over facilities and properties.
4. Controlling the use of funds generated by the District.
5. Approving the hiring and firing of key personnel.
6. Financing improvements.

In evaluating how to define the government, for financial reporting purposes, management has considered all potential component units. The decision to include or exclude a potential component unit in the reporting entity was made by applying the criteria set forth by Generally Accepted Accounting Principles (GAAP) as defined by the Governmental Accounting Standards Board (GASB). Based on the foregoing criteria, no potential component units were found.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the District conform to GAAP as applicable to governments in accordance with those promulgated by GASB. The following is a summary of the more significant policies:

Government-wide and Fund Financial Statements

The basic financial statements include both government-wide and fund financial statements.

Emerald Lakes Community Development District Notes to Financial Statements

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all the non-fiduciary activities of the primary government. Governmental activities, which normally are supported by assessments, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. The business-type activities are reported separately in government-wide financial statements; however, at September 30, 2020, the District did not have any significant business-type activities. Therefore, no business-type activities are reported. Assessments and other items not properly included as program revenues (i.e., charges to customers or applicants who purchase, use, or directly benefit from goods or services) are reported as general revenues.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

Estimates

The preparation of U.S. GAAP financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Measurement Focus, Basis of Accounting and Basis of Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Assessments are recognized as revenues in the year for which they are levied. Grants and other similar items are to be recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures are recorded only when payment is due.

Developer contributions and interest associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenue of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the District.

Emerald Lakes Community Development District Notes to Financial Statements

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The District reports the following major governmental funds:

General Fund – The General Fund is the primary operating fund of the District. It is used to account for all financial resources except those required to be accounted for in other funds.

Debt Service Fund – The Debt Service Fund is used to account for the accumulation of resources for the annual payment of principal and interest on long-term debt.

For the year ended September 30, 2020, the District does not report any proprietary funds.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed. When committed, assigned, or unassigned resources are available for use in the governmental fund financial statements, it is the government's policy to use committed resources first, followed by assigned resources, and then unassigned resources as needed.

Cash, Deposits and Investments

The District maintains deposits with "Qualified Public Depositories" as defined in Chapter 280, Florida Statutes. All Qualified Public Depositories must place with the Treasurer of the State of Florida securities in accordance with collateral requirements determined by the State's Chief Financial Officer. In the event of default by a Qualified Public Depository, the State Treasurer will pay public depositors all losses. Losses in excess of insurance and collateral will be paid through assessments between all Qualified Public Depositories.

Under this method, all the District's deposits are fully insured or collateralized at the highest level of security as defined by GASB, Statement Number 40, *Deposits and Investment Disclosures (An Amendment of GASB, Statement Number 3)*.

The District is authorized to invest in financial instruments as established by Section 218.415, Florida Statutes. The authorized investments include among others negotiable direct or indirect obligations which are secured by the United States Government; the Local Government Surplus Trust Funds as created by Section 218.405, Florida Statutes; SEC registered money market funds with the highest credit quality rating from a nationally recognized rating agency; and interest-bearing time deposits or savings accounts in authorized financial institutions.

Emerald Lakes Community Development District Notes to Financial Statements

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Deferred Outflows/Inflows of Resources

In addition to assets, the Statement of Net Position will sometime include a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District does not have any of this type of item at September 30, 2020.

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District only has one item that qualifies for reporting in this category: deferred revenue reported on the Statement of Net Position and Balance Sheet – Governmental Funds. Deferred revenue resulted from the District billing the Developer for fiscal year 2021 expenditures before September 30, 2020, and due to developer contributions for fiscal year 2020 expenditures received more than 60 days after year-end.

Fund Equity

Net position in the government-wide financial statements represents the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources and is categorized as net investment in capital assets, restricted or unrestricted. Net investment in capital assets represents assets related to infrastructure and property, plant and equipment, net of any related debt. Restricted net position represents the assets restricted by the District's bond covenants.

Governmental fund equity is classified as fund balance. Fund balance is further classified as nonspendable, restricted, committed, assigned, or unassigned. Nonspendable fund balance cannot be spent because of its form. Restricted fund balance has limitations imposed by creditors, grantors, or contributors or by enabling legislation or constitutional provisions. Committed fund balance is a limitation imposed by the District board through approval of resolutions. Assigned fund balance is a limitation imposed by a designee of the District board. Unassigned fund balance in the General Fund is the net resources in excess of what can be properly classified in one of the above four categories. Negative unassigned fund balance in other governmental funds represents excess expenditures incurred over the amounts restricted, committed, or assigned to those purposes.

Budgets

The District is required to establish a budgetary system and an approved annual budget. Annual budgets are legally adopted on a basis consistent with GAAP for the General Fund. Any revision to the budget must be approved by the District Board. The budgets are compared to actual expenditures. In instances where budget appropriations and estimated revenues have been revised during the year, budget data presented in the financial statements represent final authorization amounts.

Emerald Lakes Community Development District Notes to Financial Statements

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- A. Each year the District Manager submits to the District Board a proposed operating budget for the fiscal year commencing the following October 1.
- B. A public hearing is conducted to obtain comments.
- C. Prior to October 1, the budget is legally adopted by the District Board.
- D. All budget changes must be approved by the District Board.
- E. Budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America.

NOTE 3: RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The District maintains commercial insurance coverage to mitigate the risk of loss. Coverage may not extend to all situations. Management believes such coverage is sufficient to preclude any significant uninsured losses to the District. Settled claims have not exceeded this commercial coverage since inception.

NOTE 4: MANAGEMENT COMPANY

The District has contracted with a management company to perform management advisory services, which include financial and accounting advisory services. Certain employees of the management company also serve as officers (Board appointed non-voting positions) of the District. Under the agreement, the District compensates the management company for management, accounting, financial reporting, and other administrative costs.

NOTE 5: RELATED PARTY TRANSACTIONS

A significant portion of the District's activity is dependent upon the continued involvement of the developer, Emerald Investment Holdings, LLC, the loss of which could have a material adverse effect on the District's operations.

The developer has agreed to fund the operations of the District. For the year ended September 30, 2020, the developer contributed \$45,908 to the General Fund, of which \$755 was not received within 60 days of year-end and is included in deferred revenue on the accompanying Balance Sheet – Governmental Funds. The developer also contributed \$5,251 to fund fiscal year 2021 insurance premiums, which is included in deferred revenue on the accompanying Statement of Net Position and Balance Sheet – Governmental Funds. At September 30, 2020, the developer owed the District \$9,792, which is reported as due from developer on the accompanying Statement of Net Position and Balance Sheet – Governmental Funds.

Emerald Lakes Community Development District Notes to Financial Statements

NOTE 5: RELATED PARTY TRANSACTIONS (Continued)

During the year ended September 30, 2019, the District incurred approximately \$66,000 in bond issuance costs, as the District prepared to issue bonds for its planned infrastructure project. These expenditures were funded by the Developer, but will be reimbursed to the Developer upon issuance of the bonds from the bonds proceeds. As of September 30, 2020, bonds have not been issued; accordingly, a similar amount is reported as due to developer on the accompanying Statement of Net Position and Balance Sheet – Governmental Funds. The Developer advanced approximately \$5,500 to the District during fiscal year 2019, \$5,402 of which had not been reimbursed as of September 30, 2020 and is reported as developer advances on the accompanying Statement of Net Position and Balance Sheet – Governmental Funds.

NOTE 6: CONTINGENCY

In March 2020, the World Health Organization made the assessment that the outbreak of a novel coronavirus (COVID-19) can be characterized as a pandemic. As a result, uncertainties have arisen that may have a significant negative impact on the operating activities and results of the District. The occurrence and extent of such an impact will depend on future developments, including (i) the duration and spread of the virus, (ii) government quarantine measures, (iii) voluntary and precautionary restrictions on travel or meetings, (iv) the effects on the financial markets, and (v) the effects on the economy overall, all of which are uncertain.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Supervisors
Emerald Lakes Community Development District
Brevard County, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Emerald Lakes Community Development District (hereinafter referred to as the "District"), as of and for the year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated May 25, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

MANAGEMENT LETTER

To the Board of Supervisors
Emerald Lakes Community Development District
Brevard County, Florida

Report on the Financial Statements

We have audited the financial statements of Emerald Lakes Community Development District ("District") as of and for the fiscal year ended September 30, 2020, and have issued our report thereon dated May 25, 2021.

Auditors' Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and Chapter 10.550, Rules of the Auditor General.

Other Reporting Requirements

We have issued our Independent Auditors' Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards* and Independent Accountant's Report on an examination conducted in accordance with *AICPA Professional Standards*, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in these reports, which are dated May 25, 2021, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. There were no recommendations made in the preceding annual audit report, as this is the Districts first audit.

Official Title and Legal Authority

Section 10.554(1)(i)4., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. The information required is disclosed in the notes to the financial statements.

Financial Condition and Management

Sections 10.554(1)(i)5.a. and 10.556(7), Rules of the Auditor General, require us to apply appropriate procedures and communicate the results of our determination as to whether or not the District has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and to identify the specific condition(s) met. In connection with our audit, we determined that the District did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.554(1)(i)5.b. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures for the District. It is management's responsibility to monitor the District's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Additional Matters

Section 10.554(1)(i)3., Rules of the Auditor General, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with our audit, we did not note any such findings.

Purpose of this Letter

Our management letter is intended solely for the information and use of Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, the Board of Supervisors, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT ACCOUNTANTS' REPORT

To the Board of Supervisors
Emerald Lakes Community Development District
Brevard County, Florida

We have examined Emerald Lakes Community Development District's compliance with the requirements of Section 218.415, Florida Statutes, *Local Government Investment Policies*, during the year ended September 30, 2020. Management of the District is responsible for the District's compliance with the specified requirements. Our responsibility is to express an opinion on the District's compliance with the specified requirements based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the District complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether the District complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Our examination does not provide a legal determination on the District's compliance with specified requirements.

In our opinion, the District complied, in all material respects, with the aforementioned requirements for the year ended September 30, 2020.

This report is intended solely for the information and use of management and the State of Florida Auditor General and is not intended to be and should not be used by anyone other than these specified parties.
