INDEPENDENT AUDITOR'S REPORT

Board of Supervisors
Okeechobee Soil and Water Conservation District
Okeechobee, Florida

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of Okeechobee Soil and Water Conservation District (the "District"), Okeechobee, Florida as of and for the year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

Board of Supervisors
Okeechobee Soil and Water Conservation District

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of September 30, 2020, and the respective changes in financial position, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison schedules, schedules of District's proportionate share of net pension liability, and schedules of District's contributions for the Florida Retirement System (FRS) and Health Insurance Subsidy (HIS), as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The schedule of expenditures of state financial assistance is presented for purposes of additional analysis as required by Chapter 10.550, Rules of the Auditor General, and is not a required part of the basic financial statements.

The schedule of expenditures of state financial assistance is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of state financial assistance is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Board of Supervisors
Okeechobee Soil and Water Conservation District

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated March 9, 2021, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

OKEECHOBEE SOIL AND WATER CONSERVATION DISTRICT
MANAGEMENT’S DISCUSSION AND ANALYSIS
SEPTEMBER 30, 2020
(UNAUDITED)

Management’s Discussion and Analysis of the financial statements for the Okeechobee Soil and Water Conservation District (the “District”) provides a summary of the District’s activities for the fiscal year ended September 30, 2020. Management has prepared this Management Discussion and Analysis and is responsible for the completeness and fairness of this information. This discussion and analysis should be read in conjunction with the accompanying financial statements.

The accompanying financial statements include all activities and functions for which the District has direct oversight responsibility and all funds of the District.

FINANCIAL HIGHLIGHTS

- ◆ Funding for the District’s general and administrative programs is provided mainly through grants and administrative service fees charged for administering certain programs.
- ◆ The assets and deferred outflows of resources of the District exceeded its liabilities and deferred inflows of resources at the close of the fiscal year ended September 30, 2020 by \$1,123,144. Of this amount, \$667,066 is available for use in meeting the District’s on-going obligation to help land users protect natural resources. In the previous fiscal year this amount was \$632,046, before a change in accounting principle.
- ◆ Grants and contributions received for the fiscal years ended September 30, 2020 and September 30, 2019 were \$6,286,241 and \$5,029,170, respectively.
- ◆ The total expended for project services for the fiscal year ended September 30, 2020 was \$6,025,046. This cost compares to \$4,757,685 expended for the fiscal year ended September 30, 2019.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion is intended to serve as an introduction to the basic financial statements of the District. The District’s basic financial statements are comprised of three integral components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. Each of these components is discussed in further detail in the following paragraphs. This report also contains other supplementary information in addition to the basic financial statements.

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the District’s finances in a manner similar to a private-sector business. The government-wide statements include all assets and liabilities and use the accrual basis of accounting, which provides for recording revenues when earned and recording expenses when a liability is incurred, regardless of the timing of related cash flows. The government-wide financial statements include the Statement of Net Position and Statement of Activities.

OKEECHOBEE SOIL AND WATER CONSERVATION DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
SEPTEMBER 30, 2020
(UNAUDITED)

Government-wide Financial Statements (continued)

The Statement of Net Position is used to report all that the District owns (assets and deferred outflows of resources) and owes (liabilities and deferred inflows of resources). The District's assets include financial resources such as cash and amounts due from other governments. The District's liabilities include amounts due to other governments and refundable advances incurred in connection with the District's operation. The difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources is reported as net position.

The Statement of Activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., refundable advances).

For financial reporting purposes, the District is considered a special-purpose government engaged in a single governmental program.

In summary, the Statement of Net Position reports the District's net position and the Statement of Activities reports the District's changes in net position. The District's net position (the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources) is one way to measure the District's financial health or financial position. Over time, increases and decreases in the District's net position are one indicator of whether financial health is improving or deteriorating. Other factors, such as changes in the District's state grant contractual obligations will also, over time, help assess the overall financial health of the District.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds are used to report all of the District's basic services. Governmental funds focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. Governmental funds are reported using modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides.

The District's governmental fund financial statements include the Balance Sheet, and the Statement of Revenues, Expenditures, and Changes in Fund Balances.

The governmental fund Balance Sheet reports only the financial assets associated with governmental activities. Financial assets include cash as well as other assets that will convert to cash in the short term, such as receivables and investments. Governmental funds do not report capital assets, such as equipment and furniture, because such assets will be used in operations rather than converted to cash and are therefore not spendable. Liabilities are also recognized in governmental funds only to the extent that they are expected to affect a government's near-term financing needs. The difference between asset and liabilities reported in a governmental fund is known as fund balance. This amount, with certain adjustments, represents the balance of financial resources available for appropriation at the end of the current fiscal period.

OKEECHOBEE SOIL AND WATER CONSERVATION DISTRICT
MANAGEMENT’S DISCUSSION AND ANALYSIS
SEPTEMBER 30, 2020
(UNAUDITED)

Fund Financial Statements (continued)

Adjustments are necessary to reserve a portion of the fund balance for commitments that will be honored in the subsequent fiscal period such as contracts entered into at the end of one fiscal period that extended into the next fiscal period. A government may have tentative plans for which they wish to constrain a portion of the unassigned balance. Such constraint would serve to alert financial statement readers to these tentative plans.

The governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balance is used to report all transactions, events, and interfund activity that increase or decrease fund balances.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. Both the governmental fund Balance Sheet and the governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balance provide a reconciliation to facilitate this comparison between governmental funds and government-wide activities.

Notes to Financial Statements

The Notes to Financial Statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

FINANCIAL ANALYSIS

	Statement of Net Position-	
	Governmental Activities	
	2020	2019
Assets		
Current assets and other assets	\$ 1,460,592	\$ 1,418,227
Capital assets, net	456,078	480,742
Total assets	1,916,670	1,898,969
Deferred outflow of resources	59,355	74,516
Liabilities		
Current liabilities	693,589	711,087
Long-term liabilities	138,876	138,722
Total liabilities	832,465	849,809
Deferred inflow of resources	20,416	10,888

The District’s assets increased \$17,701, deferred outflows decreased by \$15,161, liabilities decreased by \$17,344, deferred inflows decreased by \$9,528, and net position increased by \$10,356 compared to the prior fiscal year’s ending balance.

OKEECHOBEE SOIL AND WATER CONSERVATION DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
SEPTEMBER 30, 2020
(UNAUDITED)

FINANCIAL ANALYSIS (continued)

The net increase in assets is due to an increase in cash and cash equivalents of \$39,640, a decrease in amount due from other governments of \$5,249, an increase in prepaid expenses of \$7,974, and a decrease in capital assets of \$24,664. The decrease in current liabilities is attributable to an increase in due to other governments of \$300, an increase in accrued liabilities of \$8,160, and a decrease in refundable advances of \$25,958. The decrease in refundable advances is due to the timing of advanced payments on grants. The change in deferred outflows, long-term liabilities and deferred inflows is due entirely to adjusting the net pension liability and other post-employment benefits liability at September 30, 2020.

The decrease in net position is the excess of expenses over revenues and the change in accounting principle for the year ended September 30, 2020.

	Statement of Activities- Governmental Activities	
	2020	2019
Revenues		
Program revenues		
Operating grants	\$6,286,241	\$5,029,170
General revenues		
Interest income	8,166	17,191
Rent income	21,478	19,701
Total Revenues	6,315,885	5,066,062
Expenses		
General and administrative	91,541	102,248
Personal services	188,942	235,755
Physical environment	6,025,046	4,757,685
Total Expenses	6,305,529	5,095,688
Change in Net Position	10,356	(29,626)
Net Position - beginning	1,112,788	1,147,290
Change in accounting principle	-	(4,876)
Net Position - ending	\$1,123,144	\$1,112,788

The District's total revenue for the fiscal year ended September 30, 2020 was \$6,315,885. The primary source of revenues was grant funds received from the Florida Department of Agriculture and Consumer Services (FDACS), Natural Resources Conservation Services (NRCS), and Board of County Commissioners (BOCC) in the amount of \$6,217,511, \$25,730 and \$43,000, respectively. Rent income totaled \$21,478, or 0.3% of the total revenues. In comparison, revenues for the fiscal year ended September 30, 2019 were \$5,029,170 in grants; and \$19,701 for rent income. Thus, grants increased \$1,257,071; rent income increased \$1,777; and investment earnings decreased \$9,025. The increase in grants is due to an increase in the amounts funded in various contracts by FDACS.

OKEECHOBEE SOIL AND WATER CONSERVATION DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
SEPTEMBER 30, 2020
(UNAUDITED)

FINANCIAL ANALYSIS (continued)

The District's total expenses for the fiscal year ended September 30, 2020 were \$6,305,529. The major expenses were payments to agricultural producers in the amount of \$6,025,046, personal services in the amount of \$188,942, and general and administrative in the amount of \$91,541. In comparison, expenses for the fiscal year ended September 30, 2019 were \$4,757,685 for payments to agricultural producers, \$235,755 for personal services, and \$102,248 for general and administrative. The increase in agricultural payments to producers in the amounts of \$1,267,361 related to the increase in amounts funded in various contracts by FDACS.

There are no significant differences in revenue or expenses between the fund statements and the Statement of Activities.

Budgetary Highlights

Budgetary comparison schedules and related notes for the general and producer cost-share funds are contained on pages 34-38. The budgets for the fiscal year ended September 30, 2020 were developed based on the District's anticipated revenues and expenditures for the fiscal year ended September 30, 2020. Budgetary amendments approved during the year provided for a decrease in budgetary appropriations of \$8,965 in the General Fund.

For the General Fund, the available budget exceeded final expenditures by \$87,072. Actual intergovernmental revenues were under budget by \$65,271.

Actual intergovernmental revenues, physical environment expenditures and transfers out were \$3,561 less than the budgeted amounts in the #24401 Producer Cost-Share Fund. Actual intergovernmental revenues, physical environment expenditures and transfers out were equal to budgeted amounts in the #25021 and #26797 Producer Cost-Share Fund.

None of the variations with the final budget are expected to have a significant effect on future services or liquidity.

Economic Factors and the 2020/2021 Budget

With the increased awareness and concerns over the future of water quality and supply, additional opportunities are being presented for the District to manage contracts. The District expects additional grant revenue from the Florida Department of Agriculture and Consumer Services in FY 2020-21, which also results in additional administrative fees at 2% and 5% of revenues received by the District.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the District's finances for all those with an interest in the District's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Okeechobee Soil and Water Conservation District, 452 Highway 98 North, Okeechobee, Florida, 34972.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND
CHANGES IN FUND BALANCES – GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED SEPTEMBER 30, 2020

Net Change in Fund Balances - Total Governmental Funds \$ 64,777

Amount reported for governmental activities in the Statement of
Activities are different because:

Governmental funds report capital outlays as expenditures.
However, in the Statement of Activities, the cost of those assets is
allocated over their estimated useful lives as depreciation expense.
This is the amount of depreciation expense in the current period. (24,665)

Some expenses reported in the statement of activities do not
require the use of current financial resources and, therefore, are not
reported as expenditures in governmental funds. (29,756)

Change in Net Position - Governmental Activities \$ 10,356

The notes to the financial statements are an integral part of this statement.

OKEECHOBEE SOIL AND WATER CONSERVATION DISTRICT
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies and the presentation of the financial report of the Okeechobee Soil and Water Conservation District (the “District”) conform to accounting principles generally accepted in the United States of America as applicable to local governments. This report, the accounting systems, and classification of accounts conform to standards of the Governmental Accounting Standards Board (GASB).

The following summary of the District’s significant accounting policies is presented to assist the reader in interpreting the financial statements and other data in this report. The policies are considered essential and should be read in conjunction with the accompanying financial statements.

A. Reporting Entity

Okeechobee Soil and Water Conservation District (the “District”) was formed January 11, 1951 and is a governmental sub-division of the State of Florida, and is authorized under Florida Statutes Chapter 582. The District forms partnerships with federal, state and local governments, as well as private organizations, to help carry out a variety of environmental and educational programs, provide technical assistance, and other services to help land users protect natural resources.

The District is an independent special district administered by a five member board of supervisors elected by the voters of Okeechobee County. The District for financial reporting purposes includes all of the funds relevant to the operation of the District. There are no separately administered organizations, which are controlled by, or dependent on the District. Control or dependence is determined on the basis of budget adoption, taxing authority, funding and appointment of the respective governing board. Therefore, in accordance with U.S. generally accepted accounting principles, the District has determined that there are no potential component units that it must include within its financial statements.

B. Basis of Presentation

The District’s basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

Government-wide Financial Statements:

The government-wide financial statements (i.e. the statement of net position and the statement of activities) report information on all of the activities of the District. The effect of interfund balances has been removed from the statement of net position. The District has only governmental activities and does not engage in any business-type activities. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include charges for services, operating grants, and capital grants.

Transfers in and transfers out in the amount of \$142,689 between governmental activities were eliminated.

OKEECHOBEE SOIL AND WATER CONSERVATION DISTRICT
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Basis of Presentation (continued)

Fund Financial Statement Presentation:

Fund financial statements of the District are organized into funds, each of which is considered to be separate accounting entities. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund equity, revenues and expenditures.

The individual funds account for the governmental resources allocated to them for the purpose of carrying on specific activities in accordance with laws, regulations, and other restrictions.

GASB Statement No. 34 sets forth minimum criteria (percentage of assets, deferred outflows of resources, liabilities, deferred inflows of resources, revenues or expenditures/expenses) for the determination of major funds. The District has used GASB Statement No. 34 minimum criteria for major fund determination. Major governmental funds are reported as separate columns in the fund financial statements.

The following is a brief description of the specific funds used by the District.

Major Governmental Funds:

General Fund - accounts for all financial resources not required to be accounted for in another fund and for certain revenues from the State that are legally restricted to be expended for specific current operating purposes.

Producer Cost-Share Funds (#24401, #25021, #26797 and #27007) - accounts for revenues and expenditures for grants with the Florida Department of Agriculture and Consumer Services to assist local agricultural producers with the implementation of certain best management practices. As of September 30, 2020, fund #25021 was closed during the year and did not have any assets or liabilities.

C. Measurement Focus and Basis of Accounting

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting.

OKEECHOBEE SOIL AND WATER CONSERVATION DISTRICT
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

C. Measurement Focus and Basis of Accounting (continued)

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, and then unrestricted resources as they are needed. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the District's Board has provided otherwise in its commitment or assignment actions.

D. Cash and Cash Equivalents

For financial reporting purposes, the District considers cash and cash equivalents to be cash on hand, cash in banks, and short-term investments with maturities less than three months when acquired, including restricted assets.

E. Investments

The District reports investments at their fair value on the balance sheet with unrealized gains and losses credited to investment income. Amounts invested in the Florida State Board of Administration (SBA) Local Government Surplus Funds Trust Fund ("Florida PRIME") and short-term money market investments are reported as cash equivalents at amortized cost.

F. Prepaid items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

G. Capital Assets

Capital assets purchased in the governmental funds are recorded as expenditures at time of purchase. Such assets are recorded at historical cost or estimated historical cost. Capital assets are defined as assets with a cost of \$750 or more that have a useful life that extends beyond one year. Donated capital assets are recorded at fair market value at the date of donation. Depreciation on capital assets is a direct charge using the straight-line method over the estimated useful lives of the various classes of depreciable assets.

H. Refundable Advances from Other Governments

The District receives advances from certain grants it administers and records any unspent amounts as a liability. If the District does not spend the grant dollars it is required to refund the money back to the granting source.

I. Compensated Absences

The personnel policy adopted by the District allows for payment of unused vacation days upon termination or resignation. A liability for compensated absences in the amount of \$20,980 has been recorded in the governmental wide financial statements. This was an increase of \$4,913 from the prior year.

OKEECHOBEE SOIL AND WATER CONSERVATION DISTRICT
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

J. Deferred Outflows / Inflows of Resources

The District has one item that qualifies for reporting as deferred outflows of resources, which is reported in the government-wide statement of net position. This item is the deferred outflow related to pensions. The deferred outflows related to pensions are an aggregate of items related to pensions as calculated in accordance with GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*. The deferred outflows related to pensions will be recognized as either pension expense or a reduction in the net pension liability in future reporting years.

Details on the composition of deferred outflows related to pensions are reported in a subsequent note.

The District has one item that qualifies for reporting as deferred inflows of resources in the government-wide statement of net position. This item is the deferred inflow related to pensions. The deferred inflows related to pensions are an aggregate of items related to pensions as calculated in accordance with GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*. The deferred inflows related to pensions will be recognized as a reduction to pension expense in future reporting years.

Details on the composition of deferred inflows related to pensions are reported in a subsequent note.

K. Pensions

In the government-wide statement of net position, liabilities are recognized for the Okeechobee Soil and Water Conservation District's proportionate share of each pension plan's net pension liability. For purposes of measuring the net pension liability, deferred outflows of resources, and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Florida Retirement System (FRS) defined benefit plan and the Health Insurance Subsidy (HIS) defined benefit plan and additions to/deduction from the FRS and the HIS fiduciary net position have been determined on the same basis as they are reported by the FRS and the HIS plans. For this purpose, defined benefit payments (including refund of employee contributions) are recognized when due and payable in accordance with benefits terms. Investments are reported at fair value.

L. Use of Estimates

The preparation of financial statements in conformity with the U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

M. Interfund Receivables and Payables

During the course of operations, transactions occur between individual funds for services rendered. Short-term interfund loans are classified as "due to/from other funds." All short-term interfund receivables and payables are planned to be eliminated shortly after year end.

OKEECHOBEE SOIL AND WATER CONSERVATION DISTRICT
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

N. Government-wide Net Position

Government-wide net position is divided into three categories:

- ◆ Net investment in capital assets – consist of the historical cost of capital assets less accumulated depreciation and less any debt that remains outstanding and was used to finance those assets.
- ◆ Restricted – consist of amounts constrained to specific purposes by their providers (such as grantors, bondholders, higher levels of government, and contributors), through constitutional provisions, by enabling legislation, or contributor restrictions.
- ◆ Unrestricted – all other net position is reported in this category.

O. Governmental Fund Balances

In the governmental fund financial statements, fund balances are classified as follows:

- ◆ Nonspendable – amounts that are not in spendable form (such as prepaid items or long term investments) or are required to be maintained intact.
- ◆ Restricted – amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.
- ◆ Committed– amounts constrained to specific purposes by the District itself, using its highest level of decision-making authority (i.e., Board members) and its highest level action (i.e. Resolution). To be reported as committed, amounts cannot be used for any other purpose unless the District takes the same highest level action to remove or change the constraint.
- ◆ Assigned – amounts the District intends to use for a specific purpose. Intent can be expressed by the Board of Supervisors.
- ◆ Unassigned – amounts that are available for any purpose. Positive amounts are reported only in the general fund.

The District Board establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as for special incentives). Assigned fund balance is established by the District Board through adoption or amendment of the budget as intended for specific purpose (such as the purchase of fixed assets, construction, debt service, or for other purposes).

OKEECHOBEE SOIL AND WATER CONSERVATION DISTRICT
 NOTES TO FINANCIAL STATEMENTS
 SEPTEMBER 30, 2020

NOTE 2 – CASH AND INVESTMENTS

Custodial credit risk is the risk that in the event of a bank failure, the government’s deposit may not be returned to it. Florida Statutes require state and local governmental units to deposit monies with financial institutions classified as “Qualified Public Depositories,” a multiple financial institution collateral pool whereby groups of securities pledged by the various financial institutions provide common collateral from their deposits of public funds. This pool is provided as additional insurance to the federal depository insurance and allows for additional assessments against the member institutions, providing full insurance for public deposits. The District’s deposits were entirely covered by federal depository insurance or guaranteed by qualified public depositories in Florida pursuant to Chapter 280.07, Florida Statutes, as of September 30, 2020.

Cash and cash equivalents at September 30, 2020 consist of:

Demand deposits	\$ 678,663
Florida PRIME	758,703
Total cash and cash equivalents	\$ 1,437,366

Investments – The District has not adopted a formal investment policy, and utilizes the guidelines of Florida Statute section 218.415(17). Florida Statutes authorize the District to invest in direct obligations of the U.S. Treasury, the Local Government Surplus Funds Trust Fund (Florida PRIME), savings accounts or certificates of deposit in state-certified qualified public depositories, and SEC registered money market funds.

The District invests funds throughout the year with the Florida PRIME, an investment pool is administered by the State Board of Administration (SBA), under the regulatory oversight of the State of Florida. Investments in Florida PRIME are made pursuant to Chapter 125.31, Florida Statutes. The investments are not categorized because they are not evidenced by securities that exist in physical or book entry form.

Florida PRIME meets all of the necessary criteria to elect to measure all of the investments in Florida PRIME at amortized cost; therefore the pool is reported at amortized cost.

With regard to redemption gates, Chapter 218.409(8)(a), Florida Statutes states that “The principal, and any part thereof, of each account constituting the trust fund is subject to payment at any time from moneys in the trust fund. However, the Executive Director may, in good faith, on the occurrence of an event that has a material impact on liquidity or operations of the trust fund, for 48 hours limit contributions to or withdrawals from the trust fund to ensure that the Board can invest moneys entrusted to it in exercising its fiduciary responsibility. Such action must be immediately disclosed to all participants, the Trustees, the Joint Legislative Auditing Committee, the Investment Advisory Council, and the Participant Local Government Advisory Council. The Trustees shall convene an emergency meeting as soon as practicable from the time the Executive Director has instituted such measures and review the necessity of those measures. If the Trustees are unable to convene an emergency meeting before the expiration of the 48-hour moratorium on contributions and withdrawals, the Executive Director may be extend the moratorium until the Trustees are able to meet to review the necessity for the moratorium. If the Trustees agree with such measures, the Trustees shall vote to continue the measures for up to an additional 15 days. The Trustees must convene and vote to continue any such measures before the expiration of the time limit set, but in no case may the time limit set by the Trustees exceed 15 days.”

OKEECHOBEE SOIL AND WATER CONSERVATION DISTRICT
 NOTES TO FINANCIAL STATEMENTS
 SEPTEMBER 30, 2020

NOTE 2 – CASH AND INVESTMENTS (continued)

With regard to liquidity fees, Florida Statute 218.409(4) provides authority for the SBA to impose penalties for early withdrawal, subject to disclosure in the enrollment materials of the amount and purpose of such fees. At present, no such disclosure has been made.

As of September 30, 2020, there were no redemption fees, maximum transaction amounts, or any other requirements that serve to limit a participant’s daily access to 100% of their account value.

The Florida PRIME is rated by Standard and Poor’s with a credit risk rating of AAAM and a weighted average maturity of 48 days at September 30, 2020. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of investments. The District has no policy on interest rate risk.

NOTE 3 – INTERFUND ACTIVITY

During the year ended September 30, 2020, the District made interfund transfers to move \$142,689, the administrative portion of the grants, from the grant funds to the General Fund to cover administrative costs, as provided in the grant agreements.

NOTE 4 – FACILITY AND ADMINISTRATIVE ASSISTANCE

The District is provided office space and administrative staff assistance by the Natural Resource Conservation Service (the “Service”). The Service has not charged the District rent for the facility or any fees for the administrative assistance. No amounts have been recorded in the financial statements to reflect the amount of contributed personnel costs or rent. The District’s Board of Supervisors does not expect this arrangement to change.

NOTE 5 – RISK MANAGEMENT PROGRAMS

The District carries professional liability insurance on directors and officers, workers’ compensation insurances on its employees and commercial liability insurance on buildings and equipment.

NOTE 6 – CAPITAL ASSETS

Capital asset activity for the year ended September 30, 2020 was as follows:

<u>Governmental Activities:</u>	<u>Beginning</u>			<u>Ending</u>
	<u>Balance</u>	<u>Additions</u>	<u>Deletions</u>	<u>Balance</u>
Capital assets, not being depreciated:				
Land	\$ 86,045	\$ -	\$ -	\$ 86,045
Capital assets, being depreciated:				
Building	413,403	-	-	413,403
Vehicle	84,667	-	-	84,667
Less accumulated depreciation	<u>(103,372)</u>	<u>(24,665)</u>	<u>-</u>	<u>(128,037)</u>
Total capital assets being depreciated, net	<u>394,698</u>	<u>(24,665)</u>	<u>-</u>	<u>370,033</u>
Governmental Activities Capital Assets	<u>\$ 480,743</u>	<u>\$ (24,665)</u>	<u>\$ -</u>	<u>\$ 456,078</u>

OKEECHOBEE SOIL AND WATER CONSERVATION DISTRICT
 NOTES TO FINANCIAL STATEMENTS
 SEPTEMBER 30, 2020

NOTE 7 – LEASES

The District leases building space to two tenants under the terms of three year lease agreements expiring on January 31, 2023 and August 31, 2023. Minimum annual rent under these agreements is \$16,393 and \$9,300. Total lease revenue for the fiscal year ended September 30, 2020 was \$21,478. Future minimum rental payments required under the terms of the lease agreement are as follows:

<u>Fiscal Year</u>	<u>Amount</u>
2021	\$ 25,693
2022	25,693
2023	13,989
Total	<u>\$ 65,375</u>

NOTE 8 – RETIREMENT PLAN

General Information about the Florida Retirement System

The FRS was created in Chapter 121, Florida Statutes, to provide a defined benefit pension plan for participating public employees. The FRS was amended in 1998 to add the Deferred Retirement Option Program (DROP) under the defined benefit plan and amended in 2000 to provide a defined contribution plan alternative to the defined benefit plan for FRS members effective July 1, 2002. This integrated defined contribution pension plan is the FRS Investment Plan. Chapter 112, Florida Statutes, established the Retiree Health Insurance Subsidy (HIS) Program, a cost-sharing multiple-employer defined benefit pension plan, to assist retired members of any State-administered retirement system in paying the costs of health insurance.

Essentially all regular employees of the District are eligible to enroll as members of the State-administered FRS. Provisions related to the FRS are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and FRS Rules, Chapter 60S, Florida Administrative Code; wherein eligibility, contributions, and benefits are defined and described in detail. Such provisions may be amended at any time by further action from the Florida Legislature. The FRS is a single retirement system administered by the Florida Department of Management Services, Division of Retirement, and consists of the two cost-sharing, multiple-employer defined benefit plans and other nonintegrated programs. A comprehensive annual financial report of the FRS, which includes its financial statements, required supplementary information, actuarial report, and other relevant information, is available from the Florida Department of Management Services' Web site (www.dms.myflorida.com).

The District's FRS and HIS pension expense totaled \$30,190 for the fiscal year ended September 30, 2020.

FRS Pension Plan

Plan Description – The FRS Pension Plan (Plan) is a cost-sharing multiple-employer defined benefit pension plan, with DROP for eligible employees. The general classes of membership are as follows: *Regular Class* – Members of the FRS who do not qualify for membership in the other classes and *Senior Management Service Class (SMSC)* – Members in senior management level positions. .

OKEECHOBEE SOIL AND WATER CONSERVATION DISTRICT
 NOTES TO FINANCIAL STATEMENTS
 SEPTEMBER 30, 2020

NOTE 8 – RETIREMENT PLAN (continued)

Employees enrolled in the Plan prior to July 1, 2011, vest at 6 years of creditable service and employees enrolled in the Plan on or after July 1, 2011, vest at 8 years of creditable service. All vested members, enrolled prior to July 1, 2011, are eligible for normal retirement benefits at age 62 or at any age after 30 years of service. All members enrolled in the Plan on or after July 1, 2011, once vested, are eligible for normal retirement benefits at age 65 or any time after 33 years of creditable service. Members of the Plan may include up to 4 years of credit for military service toward creditable service. The Plan also includes an early retirement provision; however, there is a benefit reduction for each year a member retires before his or her normal retirement date. The Plan provides retirement, disability, death benefits, and annual cost-of-living adjustments to eligible participants

DROP, subject to provisions of section 121.091, Florida Statutes, permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payments while continuing employment with an FRS participating employer. An employee may participate in DROP for a period not to exceed 60 months after electing to participate, except that certain instructional personnel may participate for up to 96 months. During the period of DROP participation, deferred monthly benefits are held in the FRS Trust Fund and accrue interest. The net pension liability does not include amounts for DROP participants, as these members are considered retired and are not accruing additional pension benefits.

Benefits Provided – Benefits under the Plan are computed on the basis of age and/or years of service, average final compensation, and service credit. Credit for each year of service is expressed as a percentage of the average final compensation. For members initially enrolled before July 1, 2011, the average final compensation is the average of the 5 highest fiscal years’ earnings; for members initially enrolled on or after July 1, 2011, the average final compensation is the average of the 8 highest fiscal years’ earnings. The total percentage value of the benefit received is determined by calculating the total value of all service, which is based on the retirement class to which the member belonged when the service credit was earned. Members are eligible for in-line-of-duty or regular disability and survivors’ benefits. The following chart shows the percentage value for each year of service credit earned:

<u>Class, Initial Enrollment, and Retirement Age/Years of Service</u>	<u>% Value</u>
Regular Class members initially enrolled before July 1, 2011	
Retirement up to age 62 or up to 30 years of service	1.60
Retirement up to age 63 or up to 31 years of service	1.63
Retirement up to age 64 or up to 32 years of service	1.65
Retirement up to age 65 or up to 33 or more years of service	1.68
Regular Class members initially enrolled after July 1, 2011	
Retirement up to age 65 or up to 33 years of service	1.60
Retirement up to age 66 or up to 34 years of service	1.63
Retirement up to age 67 or up to 35 years of service	1.65
Retirement up to age 68 or up to 36 or more years of service	1.68
Senior Management Service Class	2.00

OKEECHOBEE SOIL AND WATER CONSERVATION DISTRICT
 NOTES TO FINANCIAL STATEMENTS
 SEPTEMBER 30, 2020

NOTE 8 – RETIREMENT PLAN (continued)

As provided in Section 121.101, Florida Statutes, if the member is initially enrolled in the Plan before July 1, 2011, and all service credit was accrued before July 1, 2011, the annual cost-of-living adjustment is 3 percent per year. If the member is initially enrolled before July 1, 2011, and has service credit on or after July 1, 2011, there is an individually calculated cost-of-living adjustment. The annual cost-of-living adjustment is a proportion of 3 percent determined by dividing the sum of the pre-July 2011 service credit by the total service credit at retirement multiplied by 3 percent. Plan members initially enrolled on or after July 1, 2011, will not have a cost-of-living adjustment after retirement.

Contributions – The Florida Legislature establishes contribution rates for participating employers and employees. Contribution rates during the 2019-20 fiscal year were as follows:

Class	July 1, 2019		July 1, 2020	
	Percent of Gross Salary		Percent of Gross Salary	
	Employee	Employer (1)	Employee	Employer (1)
FRS, Regular	3.0%	8.47%	3.0%	6.75%
FRS, Senior Management Service	3.0%	25.41%	3.0%	23.69%
FRS, DROP	0.0%	14.60%	0.0%	12.94%

Notes: (1) Employer rates include 1.66 percent for the postemployment health insurance subsidy. Also, employer rates, other than the DROP participants, include 0.06 percent for administrative costs of the investment plan.

(2) Contribution rates are dependent upon retirement class in which reemployed.

The District’s contributions, including employee contributions, to the Plan totaled \$8,379 for the fiscal year ended September 30, 2020.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions – At September 30, 2020, the District reported a liability of 84,909 for its proportionate share of the Plan’s net pension liability. The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2020. The District’s proportionate share of the net pension liability was based on the District’s contributions received by FRS during the measurement period for employer payroll paid dates from July 1, 2019 through June 30, 2020, relative to the total employer contributions received from all participating employers. At June 30, 2020, the District's proportionate share was .000195903 percent, which was a decrease of .000047022 percent from its proportionate share measured as of June 30, 2019.

OKEECHOBEE SOIL AND WATER CONSERVATION DISTRICT
 NOTES TO FINANCIAL STATEMENTS
 SEPTEMBER 30, 2020

NOTE 8 – RETIREMENT PLAN (continued)

For the fiscal year ended September 30, 2020, the District recognized pension expense of \$22,035. In addition, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Description	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 3,250	\$ -
Change of assumptions	15,371	-
Net difference between projected and actual earnings on Pension Plan investments	5,055	-
Changes in proportion and differences between District's Pension Plan contributions and proportionate share of contributions	11,419	10,576
District's Pension Plan contributions subsequent to the measurement date	1,870	-
Total	\$ 36,965	\$ 10,576

The deferred outflows of resources related to the Pension Plan, totaling \$1,870 resulting from District contributions to the Plan subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the fiscal year ended September 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the Pension Plan will be recognized in pension expense as follows:

Year Ending September 30	Amount
2021	\$ 6,980
2022	8,102
2023	6,655
2024	3,344
2025	(562)
Thereafter	-

Actuarial Assumptions – The total pension liability in the June 30, 2020 actuarial valuation was determined using the following actuarial assumption, applied to all periods included in the measurement:

Inflation	2.40 %
Salary increases	3.25%, average, including inflation
Investment rate of return	6.80%, net of pension plan investment expense, including inflation

OKEECHOBEE SOIL AND WATER CONSERVATION DISTRICT
 NOTES TO FINANCIAL STATEMENTS
 SEPTEMBER 30, 2020

NOTE 8 – RETIREMENT PLAN (continued)

Mortality rates were based on the Generational RP-2000 with Projection Scale BB tables.

The actuarial assumptions used in the July 1, 2020, valuation were based on the results of an actuarial experience study for the period July 1, 2013 through June 30, 2018.

The long-term expected rate of return on Pension Plan investments was not based on historical returns, but instead is based on a forward-looking capital market economic model. The 2019 FRS Actuarial Assumption Conference selected a return assumption of 6.80 percent, which is a *prescribed assumption* as defined by Actuarial Standards of Practice Number 27.

The allocation policy’s description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions and includes an adjustment for the inflation assumption. The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation (1)</u>	<u>Annual Arithmetic Return</u>	<u>Compound Annual (Geometric) Return</u>	<u>Standard Deviation</u>
Cash	1.00%	2.20%	2.20%	1.20%
Intermediate-Term Bonds	19.00%	3.00%	2.90%	3.50%
Global equity	54.20%	8.00%	6.70%	17.10%
Real estate	10.30%	6.40%	5.80%	11.70%
Private equity	11.10%	10.80%	8.10%	25.70%
Strategic investments	4.40%	5.50%	5.70%	6.90%
Total	<u><u>100.00%</u></u>			
Assumed Inflation - Mean			2.4%	1.7%

(1) As outlined in the Pension Plan's investment policy

Discount Rate - The discount rate used to measure the total pension liability was 6.80%. The Pension Plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculation the total pension liability is equal to the long-term expected rate of return.

 SEPTEMBER 30, 2020

NOTE 8 – RETIREMENT PLAN (continued)

Sensitivity of the District's Proportionate Share of the Net Position Liability to Changes in the Discount Rate - The following represents the District's proportionate share of the net pension liability calculated using the discount rate of 6.80%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (5.80%) or one percentage point higher (7.80%) than the current rate:

	1% Decrease (5.80%)	Current Discount Rate (6.80%)	1% Increase (7.80%)
District's proportionate share of the net pension liability	\$ 135,583	\$ 84,909	\$ 42,583

Pension Plan Fiduciary Net Position - Detailed information regarding the Plan's fiduciary net position is available in the separately issued FRS Pension Plan and Other State-Administered Systems Comprehensive Annual Financial Report.

Payables to the Pension Plan - At September 30, 2020, the District reported no payables for outstanding contributions to the Plan required for the fiscal year ended September 30, 2020.

HIS Plan

Plan Description – The HIS Pension Plan (HIS Plan) is a cost-sharing multiple-employer defined benefit pension plan established under Section 112.363, Florida Statutes, and may be amended by the Florida legislature at any time. The benefit is a monthly payment to assist retirees of State-administered retirement systems in paying their health insurance costs and is administered by the Florida Department of Management Services, Division of Retirement.

Benefits Provided – For the fiscal year ended September 30, 2020, eligible retirees and beneficiaries received a monthly HIS payment of \$5 for each year of creditable service completed at the time of retirement, with a minimum HIS payment of \$30 and a maximum HIS payment of \$150 per month. To be eligible to receive these benefits, a retiree under a State-administered retirement system must provide proof of health insurance coverage, which may include Medicare.

Contributions – The HIS Plan is funded by required contributions from FRS participating employers as set by the Florida Legislature. Employer contributions are a percentage of gross compensation for all active FRS members. For the fiscal year ended September 30, 2020, the HIS contribution rate was 1.66%. The District contributed 100% of its statutorily required contributions for the current year. HIS Plan contributions are deposited in a separate trust fund from which payments are authorized. HIS Plan benefits are not guaranteed and are subject to annual legislative appropriation. In the event legislative appropriation or available funds fail to provide full subsidy benefits to all participants, benefits may be reduced or cancelled.

The District's contributions to the HIS Plan totaled \$2,529 for the year ended September 30, 2020.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions – At September 30, 2020, the District reported a liability of \$43,510 for

OKEECHOBEE SOIL AND WATER CONSERVATION DISTRICT

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2020

NOTE 8 – RETIREMENT PLAN (continued)

its proportionate share of the HIS Plan’s net pension liability. The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2020. The District’s proportionate share of the net pension liability was based on the District’s contributions received by FRS during the measurement period for employer payroll paid dates from July 1, 2019 through June 30, 2020, relative to the total employer contributions received from all participating employers. At June 30, 2020, the District’s proportionate share was 0.000356364 percent, which was a decrease of 0.000067661 percent from its proportionate share measured as of June 30, 2019.

For the fiscal year ended September 30, 2020, the District recognized pension expense of \$8,155. In addition the District reported deferred outflows of resources and deferred in flows of resources related to pensions from the following sources:

Description	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 1,780	\$ 34
Change of assumptions	4,679	2,530
Net difference between projected and actual earnings on HIS Plan investments	35	-
Changes in proportion and differences between District's HIS Plan contributions and proportionate share of contributions	15,421	7,276
District's HIS Plan contributions subsequent to the measurement date	475	-
Total	\$ 22,390	\$ 9,840

The deferred outflows of resources related to the HIS Plan, totaling \$475 resulting from District contributions to the HIS Plan subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the fiscal year ended September 30, 2020. Other amounts reported as deferred outflows of resources related to the HIS Plan will be recognized in pension expense as follows:

Year Ending September 30	Amount
2021	\$ 5,662
2022	3,229
2023	1,257
2024	1,601
2025	765
Thereafter	(439)

OKEECHOBEE SOIL AND WATER CONSERVATION DISTRICT
 NOTES TO FINANCIAL STATEMENTS
 SEPTEMBER 30, 2020

NOTE 8 – RETIREMENT PLAN (continued)

Actuarial Assumptions – The total pension liability in the July 1, 2020, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.40 %
Salary increases	3.25%, average, including inflation
Municipal bond rate	2.21 %

Mortality rates were based on the Generational RP-2000 with Projection Scale BB tables.

The actuarial assumptions used in the July 1, 2020, valuation were based on the results of an actuarial experience study for the period July 1, 2013 through June 30, 2018.

Discount Rate - The discount rate used to measure the total pension liability was 2.21%. In general, the discount rate for calculating the total pension liability is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS benefit is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate, and the single equivalent discount rate is equal to the municipal bond rate selected by the HIS Plan sponsor. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index.

Sensitivity of the District’s Proportionate Share of the Net Position Liability to Changes in the Discount Rate - The following represents the District’s proportionate share of the net pension liability calculated using the discount rate of 2.21%, as well as what the District’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (1.21%) or one percentage point higher (3.21%) than the current rate:

	1% Decrease (1.21%)	Current Discount Rate (2.21%)	1% Increase (3.21%)
District's proportionate share of the net pension liability	\$ 50,297	\$ 43,510	\$ 37,957

Pension Plan Fiduciary Net Position - Detailed information regarding the HIS Plan’s fiduciary net position is available in the separately issued FRS Pension Plan and Other State-Administered Systems Comprehensive Annual Financial Report.

Payables to the Pension Plan - At September 30, 2020, the District reported no payable for outstanding contributions to the HIS Plan required for the fiscal year ended September 30, 2020.

OKEECHOBEE SOIL AND WATER CONSERVATION DISTRICT
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

NOTE 9 – OTHER POSTEMPLOYMENT BENEFITS (OPEB)

Plan Description

The District provides health insurance benefits to its retired employees through a single-employer plan administered by the District. Pursuant to the provisions of Section 112.0801, Florida Statutes, former employees who retire from the District and eligible dependents may continue to participate in the District's fully-insured benefit plan for medical insurance coverage. The District subsidizes the premium rates paid by retirees by allowing them to participate in the plan at reduced or blended group (implicitly subsidized) premium rates for both active and retired employees. These rates provide an implicit subsidy for retirees because, on an actuarial basis, their current and future claims are expected to result in higher costs to the plan on average than those of active employees. The benefits provided under this defined benefit plan are provided until the retiree's attainment of age 65 (or until such time at which retiree discontinues coverage under the District sponsored plans, if earlier).

Funding Policy

The District is funding the plan on a pay-as-you-go basis. Employees and their dependents are required to pay 100% of the insurance premiums charged by the carrier. There is an implied subsidy in the insurance premiums for these employees because the premium charged for retirees is the same as the premium charged for active employees, who are younger than retirees on average.

Total OPEB Liability

The District's total OPEB liability of \$10,457 was measured as of September 30, 2020, and was determined by an actuarial valuation as of September 30, 2020.

Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each Alternative Measurement Method (AMM) calculation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

As authorized by GASB Statement No. 75, the AMM allows the employer to use simplifications of certain assumptions in measuring the costs and liabilities.

The following simplifying assumptions were made:

Retirement age for active employees – Retirement age for active employees has been determined as the earliest age eligible for normal retirement under the Florida Retirement System. If the retirement age provided by the District is earlier, the retirement age provided by the District was used.

Active Member Marital Status – Assumption of marital status for active employees has been incorporated in the acceptance probability for spousal coverage. Using this approach, the percentage of future retired plan members taking spousal coverage was assumed at 1%. For active employees, spouses' genders were assumed to be opposite to the members' genders and females were assumed 3 years younger than their spouses. Covered spouse data were collected for current retired plan members as of the valuation date and were assumed to remain unchanged until the assumed death of the spouses.

OKEECHOBEE SOIL AND WATER CONSERVATION DISTRICT
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

NOTE 9 – OTHER POSTEMPLOYMENT BENEFITS (OPEB) (continued)

Mortality – Life expectancies were based on the RP-2000 Generational Combined Healthy Participant mortality tables, projected from the year 2000 using Projection Scale AA.

Turnover – Non-group-specific age-based turnover rates derived from the withdrawal assumption used in the July 1, 2018 actuarial valuation of the Florida Retirement System for Regular Class members were used as the basis for assigning active members a probability of remaining employed until the assumed retirement age and for developing an expected future working lifetime assumption for purposes of allocating to periods the present value of total benefits to be paid.

Health insurance premiums – Health insurance premiums for retirees in effect at November 1, 2019 were used as the basis for calculation of the present value of total benefits to be paid.

Roll Forward Disclosure – Because the measurement date and the valuation date are the same, no update procedures were used to roll forward the total OPEB liability from the September 30, 2020 valuation date to the September 30, 2020 measurement date.

Assumption, Method, and Plan Changes

Assumption Changes – The discount rate was changed from 2.75% as of the beginning of the measurement period to 2.41% as of September 30, 2020 (based on the Long-Term Municipal Bond rate). This change increased the Total OPEB Liability.

Method Changes – None.

Plan Changes – None.

NOTE 10 – ECONOMIC DEPENDENCY

The District received 99% of its total revenues from the State of Florida Department of Agriculture and Consumer Services. The District generally earns an administrative fee between 2% and 5% on contracts of this nature, and future revenues of this type are dependent on the District receiving these contracts in the future. Management, however, believes the District would remain in existence if the funding from these contracts ended.

OKEECHOBEE SOIL AND WATER CONSERVATION DISTRICT
NOTES TO THE BUDGETARY COMPARISON SCHEDULES
FOR THE YEAR ENDED SEPTEMBER 30, 2020
(UNAUDITED)

NOTE 1 – BUDGETARY INFORMATION

Budgets are to be prepared and adopted annually for the general and special revenue funds in accordance with procedures and time intervals prescribed by Florida Statute 189.418(3). Accordingly, the Board adopted an annual budget for the general and special revenue funds for the fiscal year ended September 30, 2020. The District is not required to submit its budget to any regulatory agencies.

The annual budget serves as the legal authorization for expenditures. Expenditures cannot legally exceed the total amount budgeted for each fund. All budget amendments, which change the legally adopted total appropriations for a fund, are approved by the Board and may be amended at any Board meeting within sixty (60) days after the fiscal year-end. The level of control for appropriations is exercised at the fund level. Appropriations lapse at year-end. Budgets are prepared using the same modified accrual basis as is used to account for actual transactions.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

FLORIDA RETIREMENT SYSTEM AND HEALTH INSURANCE SUBSIDY

SEPTEMBER 30, 2020

(UNAUDITED)

The following are relevant to the Florida Retirement System (FRS) and Health Insurance Subsidy (HIS) Program:

1. Actuarial assumptions for defined benefit plans are reviewed annually by the Florida Retirement System. The FRS Pension Plan has a valuation performed annually whereas the HIS Program has a valuation performed biennially which was updated for GASB reporting in the year a valuation was not performed. The most recent experience study for the pension plan was for the period of July 1, 2013 through June 30, 2018.
2. Method and assumptions used in calculation of actuarially determined contributions:

FRS Pension Plan

Valuation Date	July 1, 2020	July 1, 2019
Actuarial Cost Method	Entry Age	Entry Age

Actuarial Assumptions:

Discount Rate	6.80%	6.90%
Investment Rate of Return	6.80%	6.90%
Projected Salary Increases	3.25%	3.25%
Rate of Inflation Adjustment	2.40%	2.60%

Mortality Assumption:

PUB-2010 base table, projected generationally with Scale MP-2018

HIS Program

Valuation Date	July 1, 2020	July 1, 2018
Actuarial Cost Method	Entry Age	Entry Age

Actuarial Assumptions:

Discount Rate	2.21%	3.50%
Investment Rate of Return	N/A	N/A
Projected Salary Increases	3.25%	3.25%
Rate of Inflation Adjustment	2.40%	2.60%

Mortality Assumption:

PUB-2010 base table, projected generationally with Scale MP-2018

Total OPEB liability as a percentage of covered-employee payroll	9.32%	8.41%

**The Total OPEB Liability was rolled back from the measurement date.
Consequently, there was no difference between expected and actual experience.*

*Note: Schedule is intended to show information for 10 years.
Additional years will be displayed as they become available.*

OKEECHOBEE SOIL AND WATER CONSERVATION DISTRICT
NOTES TO SCHEDULE OF CHANGES IN TOTAL OPEB LIABILITY
AND RELATED RATIOS
SEPTEMBER 30, 2020
(UNAUDITED)

Valuation Date	September 30, 2020
Measurement Date	September 30, 2020

Methods and Assumptions Used to Determine Total OPEB Liability:

Actuarial Cost Method	Entry Age Normal
Inflation	2.50%
Discount Rate	2.41%
Salary Increases	3.50%
Retirement Age	Varies based on several factors including plan-specific retirement eligibility provisions and experience.
Mortality	RP-2000 Generational Combined Healthy Participant mortality tables, projected from the year 2000 using Projection Scale AA.
Healthcare Cost Trend Rates	7.00% for FY beginning 2020, 6.50% for FY beginning 2021 and then gradually decreasing to an ultimate trend rate of 5.00%.

Other Information:

Notes	Changes in assumptions and other inputs include the change in the discount rate from 2.75% as of the beginning of the measurement period to 2.41% as of September 30, 2019. This change is reflected in the Schedule of Changes in Total OPEB Liability.
-------	--

There were no benefit changes during the year.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Board of Supervisors
Okeechobee Soil and Water Conservation District
Okeechobee, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of Okeechobee Soil and Water Conservation District (the "District"), Okeechobee, Florida, as of and for the year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated March 9, 2021.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR STATE PROJECT AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY CHAPTER 10.550, RULES OF THE AUDITOR GENERAL

Board of Supervisors
Okeechobee Soil and Water Conservation District
Okeechobee, Florida

Report on Compliance for Each Major State Project

We have audited the Okeechobee Soil and Water Conservation District, (the "District"), Okeechobee, Florida's compliance with the types of compliance requirements described in the Department of Financial Services' *State Projects Compliance Supplement*, that could have a direct and material effect on each of the District's major State projects for the year ended September 30, 2020. The District's major State projects are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs – State Projects.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its State projects.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major State projects based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and Chapter 10.550, Rules of the Auditor General. Those standards and Chapter 10.550, Rules of the Auditor General, require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major State project occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major State project. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major State Project

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major State projects for the year ended September 30, 2020.

Report on Internal Control over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major State project to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major State project and to test and report on internal control over compliance in accordance with Chapter 10.550, Rules of the Auditor General, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a State project on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a State project will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a State project that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Chapter 10.550, Rules of the Auditor General. Accordingly, this report is not suitable for any other purpose.

MANAGEMENT LETTER

To the Board of Supervisors
Okeechobee Soil and Water Conservation District
Okeechobee, Florida

Report on the Financial Statements

We have audited the financial statements of the Okeechobee Soil and Water Conservation District, Okeechobee, Florida, (the "District") as of and for the fiscal year ended September 30, 2020, and have issued our report thereon dated March 9, 2021.

Auditor's Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and Chapter 10.550, Rules of the Florida Auditor General.

Other Reporting Requirements

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards*, Independent Auditor's Report on Compliance with Requirements That Could Have a Direct and Material Effect on Each Major State Project and on Internal Control over Compliance in Accordance with Chapter 10.550, Rules of the Florida Auditor General; Schedule of Findings and Questioned Costs - State Projects; and Independent Accountant's Report on an examination conducted in accordance with *AICPA Professional Standards*, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports and schedule, which are dated March 9, 2021, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding financial audit report. There were no findings and recommendations made in the preceding financial audit report.

Official Title and Legal Authority

Section 10.554(1)(i)4., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. The name and legal authority for the District were disclosed in the notes to the financial statements. There were no component units related to the District.

Financial Condition and Management

Section 10.554(1)(i)5.a. and 10.556(7), Rules of the Auditor General, require us to apply appropriate procedures and communicate the results of our determination as to whether or not the District met one or more of the conditions described in Section 218.503(1), Florida Statutes, and to identify the specific condition(s) met. In connection with our audit, we determined that the District did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.554(1)(i)5.b. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures for the District. It is management's responsibility to monitor the District's financial condition, and our financial condition assessment was based in part on representations made by management and review of financial information provided by same.

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Additional Matters

Section 10.554(1)(i)3., Rules of the Auditor General, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but warrants the attention of those charged with governance. In connection with our audit, we did not note any such findings.

Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, State and other granting agencies, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT ACCOUNTANT'S REPORT COMPLIANCE WITH SECTION 218.415, FLORIDA STATUTES

Board of Supervisors
Okeechobee Soil and Water Conservation District
Okeechobee, Florida

We have examined the Okeechobee Soil and Water Conservation District's compliance with Section 218.415, Florida Statutes, regarding the investment of public funds during the fiscal year ended September 30, 2020. Management is responsible for the Okeechobee Soil and Water Conservation District's compliance with those requirements. Our responsibility is to express an opinion on the Okeechobee Soil and Water Conservation District's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence about the Okeechobee Soil and Water Conservation District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on the Okeechobee Soil and Water Conservation District's compliance with specified requirements.

In our opinion, the Okeechobee Soil and Water Conservation District complied, in all material respects, with the aforementioned requirements for the year ended September 30, 2020.

This report is intended solely for the information and use of the District and the Auditor General, State of Florida, and is not intended to be and should not be used by anyone other than these specified parties.
