#### REPORT OF INDEPENDENT AUDITORS

To the Board of Supervisors
Ryals Creek Community Development District
Jacksonville, Florida

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of Ryals Creek Community Development District as of and for the year ended September 30, 2020, and the related notes to financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Accounting Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

To the Board of Supervisors
Ryals Creek Community Development District

#### **Opinion**

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities, and each major fund of Ryals Creek Community Development District as of September 30, 2020, and the respective changes in financial position and the budgetary comparison for the General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

#### **Other Matters**

#### Required Supplementary Information

Governmental accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by *Governmental Accounting Standards Board* who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued a report dated June 26, 2021 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations and contracts. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Ryals Creek Community Development District's internal control over financial reporting and compliance.

Berger, Toombs, Elam, Gaines & Frank Certified Public Accountants PL

Fort Pierce, Florida

June 26, 2021

Management's discussion and analysis of Ryals Creek Community Development District's (the "District") financial performance provides an objective and easily readable analysis of the District's financial activities. The analysis provides summary financial information for the District and should be read in conjunction with the District's financial statements.

#### **OVERVIEW OF THE FINANCIAL STATEMENTS**

The District's basic financial statements comprise three components; 1) Government-wide financial statements, 2) Fund financial statements, and 3) Notes to financial statements. The Government-wide financial statements present an overall picture of the District's financial position and results of operations. The Fund financial statements present financial information for the District's major funds. The Notes to financial statements provide additional information concerning the District's finances.

The Government-wide financial statements are the **statement of net position** and the **statement of activities**. These statements use accounting methods similar to those used by private-sector companies. Emphasis is placed on the net position of governmental activities and the change in net position. Governmental activities are primarily supported by special assessments.

The **statement of net position** presents information on all assets and liabilities of the District, with the difference between assets and liabilities reported as net position. Net position is reported in three categories; 1) net investment in capital assets, 2) restricted, and 3) unrestricted. Assets, liabilities, and net position are reported for all Governmental activities.

The **statement of activities** presents information on all revenues and expenses of the District and the change in net position. Expenses are reported by major function and program revenues relating to those functions are reported, providing the net cost of all functions provided by the District. To assist in understanding the District's operations, expenses have been reported as governmental activities. Governmental activities financed by the District include general government and physical environment.

Fund financial statements present financial information for governmental funds. These statements provide financial information for the major funds of the District. Governmental fund financial statements provide information on the current assets and liabilities of the funds, changes in current financial resources (revenues and expenditures), and current available resources.

#### **OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)**

Fund financial statements include a balance sheet and a statement of revenues, expenditures and changes in fund balances for all governmental funds. A statement of revenues, expenditures, and changes in fund balances – budget and actual is provided for the District's General Fund. Fund financial statements provide more detailed information about the District's activities. Individual funds are established by the District to track revenues that are restricted to certain uses or to comply with legal requirements.

The government-wide financial statements and the fund financial statements provide different pictures of the District. The government-wide financial statements provide an overall picture of the District's financial standing. These statements are comparable to private-sector companies and give a good understanding of the District's overall financial health and how the District paid for the various activities, or functions, provided by the District. All assets of the District, including capital assets are reported in the **statement of net position**. All liabilities, including principal outstanding on bonds are included. The **statement of activities** includes depreciation on all long lived assets of the District, but transactions between the different functions of the District have been eliminated in order to avoid "doubling up" the revenues and expenses. The fund financial statements provide a picture of the major funds of the District. In the case of governmental activities, outlays for long lived assets are reported as expenditures and long-term liabilities, such as general obligation bonds, are not included in the fund financial statements. To provide a link from the fund financial statements to the government-wide financial statements, reconciliations are provided from the fund financial statements to the government-wide financial statements.

Notes to financial statements provide additional detail concerning the financial activities and financial balances of the District. Additional information about the accounting practices of the District, investments of the District, capital assets and long-term debt are some of the items included in the *notes to financial statements*.

#### Financial Highlights

The following are the highlights of financial activity for the year ended September 30, 2020.

- ♦ The District's assets exceeded liabilities by \$60,557 (net position). Net investment in capital assets was \$66,022 and unrestricted net position was \$(5,465).
- ♦ Governmental activities revenues totaled \$116,578, while governmental activities expenses totaled \$55,785.

#### OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)

### Financial Analysis of the District

The following schedule provides a summary of the assets, liabilities and net position of the District and is presented by category for comparison purposes.

#### **Net Position**

	Governmental Activitie					
	2020	2019				
Current assets Capital assets Total Assets	\$ 85,480 66,022 151,502	\$ 11,708 - 11,708				
Current liabilities	90,945	11,708				
Net Position  Net investment in capital assets	66,022					
Unrestricted	(5,465)	(236)				
Total Net Position	\$ 60,557	\$ (236)				

The increases in current assets, current liabilities and net position is related to a full year of activity in the current year.

The increase in capital assets and net investment in capital assets is the result of current year capital additions.

#### **OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)**

#### <u>Financial Analysis of the District</u> (Continued)

The following schedule provides a summary of the changes in net position of the District and is presented by category for comparison purposes.

#### **Change In Net Position**

	<b>Governmental Activities</b>					
		2020		2019		
Program Revenues Operating contributions Capital contributions Total Revenues	\$	55,806 60,772 116,578	\$	5,472 - 5,472		
Expenses General government		55,785		5,708		
Change in Net Position		60,793		(236)		
Net Position - Beginning of Year		(236)				
Net Position - End of Year	\$	60,557	\$	(236)		

The increase in operating contributions and general government expenses is related to the current year being the first full year of operations for the District.

#### **Capital Assets Activity**

The following schedule provides a summary of the District's capital assets as of September 30, 2020 and 2019.

	Governmental Activities				
		2020		2019	
Construction in progress	\$	66,022	\$		

Current year activity consisted of additions to construction in progress of \$66,022.

#### **OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)**

#### **General Fund Budgetary Highlights**

Actual expenditures were less than the final budget because there were lower management fee and engineering expenditures than anticipated.

There were no amendments to the September 30, 2020 budget.

#### **Economic Factors and Next Year's Budget**

Ryals Creek Community Development District is in the process of significant construction with the District and the District began receiving contributions from Boggy Branch Community Development District beginning fiscal year 2021 to fund the construction costs.

#### **Request for Information**

The financial report is designed to provide a general overview of Ryals Creek Community Development District's finances for all those with an interest. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Ryals Creek Community Development District's Finance Department at 2300 Glades Road, Suite 410W, Boca Raton, Florida 33431.

See accompanying notes to financial statements.

#### NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District's more significant accounting policies are described below.

#### 1. Reporting Entity

The District was established on August 27, 2019, pursuant to the Uniform Community Development District Act of 1980, Chapter 190, Florida Statutes, as amended (the "Act"), and by Ordinance 2019-490-E of the City of Jacksonville, Florida, as a Community Development District. The District was established for the purposes of financing and managing the acquisition, construction, maintenance and operation of the infrastructure necessary for community development within its jurisdiction. The District is authorized to issue bonds for the purpose, among others, of financing, funding, planning, establishing, acquiring, constructing district roads, landscaping, and other basic infrastructure projects within or outside the boundaries of the Ryals Creek Community Development District. The District is governed by a five member Board of Supervisors. All the Supervisors are employed by the Developer. The District operates within the criteria established by Chapter 190.

As required by GAAP, these financial statements present the Ryals Creek Community Development District (the primary government) as a stand-alone government. The reporting entity for the District includes all functions of government in which the District's Board exercises oversight responsibility including, but not limited to, financial interdependency, selection of governing authority, designation of management, significant ability to influence operations and accountability for fiscal matters.

Based upon the application of the above-mentioned criteria as set forth in Governmental Accounting Standards Board, The Financial Reporting Entity, the District has identified no component units.

#### 2. Measurement Focus and Basis of Accounting

The basic financial statements of the District are composed of the following:

- Government-wide financial statements
- Fund financial statements
- Notes to financial statements

#### NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### 2. Measurement Focus and Basis of Accounting (Continued)

#### a. Government-wide Financial Statements

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Government-wide financial statements report all non-fiduciary information about the reporting government as a whole. These statements include all the governmental activities of the primary government. The effect of interfund activity has been removed from these statements.

Governmental activities are supported by developer contributions. Program revenues are netted with program expenses in the statement of activities to present the net cost of each program

Amounts paid to acquire capital assets are capitalized as assets, rather than reported as an expenditure. Proceeds of long-term debt are recorded as liabilities in the government-wide financial statements, rather than as an other financing source.

Amounts paid to reduce long-term indebtedness of the reporting government are reported as a reduction of the related liability, rather than as an expenditure.

#### b. Fund Financial Statements

The underlying accounting system of the District is organized and operated on the basis of separate funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures or expenses, as appropriate. Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

Fund financial statements for the primary government's governmental funds are presented after the government-wide financial statements. These statements display information about major funds individually.

#### NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### 2. Measurement Focus and Basis of Accounting (Continued)

#### b. Fund Financial Statements (Continued)

#### **Governmental Funds**

The District classifies fund balance according to Governmental Accounting Standards Board Statement 54 – Fund Balance Reporting and Governmental Fund Type Definitions. The Statement requires the fund balance for governmental funds to be reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent.

The District has various policies governing the fund balance classifications.

Nonspendable Fund Balance – This classification consists of amounts that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact.

Restricted Fund Balance – This classification includes amounts that can be spent only for specific purposes stipulated by constitution, external resource providers, or through enabling legislation.

Assigned Fund Balance – This classification consists of the Board of Supervisors' intent to be used for specific purposes, but are neither restricted nor committed. The assigned fund balances can also be assigned by the District's management company.

Unassigned Fund Balance – This classification is the residual classification for the government's general fund and includes all spendable amounts not contained in the other classifications. Unassigned fund balance is considered to be utilized first when an expenditure is incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

Fund Balance Spending Hierarchy – For all governmental funds except special revenue funds, when restricted, committed, assigned, and unassigned fund balances are combined in a fund, qualified expenditures are paid first from restricted or committed fund balance, as appropriate, then assigned and finally unassigned fund balances.

#### NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### 2. Measurement Focus and Basis of Accounting (Continued)

#### b. Fund Financial Statements (Continued)

#### **Governmental Funds (Continued)**

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are considered to be available when they are collected within the current period or soon thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. Interest associated with the current fiscal period is considered to be an accrual item and so has been recognized as revenue of the current fiscal period.

Under the current financial resources measurement focus, only current assets and current liabilities are generally included on the balance sheet. The reported fund balance is considered to be a measure of "available spendable resources".

Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of "available spendable resources" during a period.

Because of their spending measurement focus, expenditure recognition for governmental fund types excludes amounts represented by non-current liabilities. Since they do not affect net current assets, such long-term amounts are not recognized as governmental fund type expenditures or fund liabilities.

Amounts expended to acquire capital assets are recorded as expenditures in the year that resources are expended, rather than as fund assets. The proceeds of long-term debt are recorded as an other financing source rather than as a fund liability.

Debt service expenditures are recorded only when payment is due.

#### 3. Basis of Presentation

#### a. Governmental Major Funds

<u>General Fund</u> – The General Fund is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

<u>Capital Projects Fund</u> – The Capital Projects Funds account for construction of infrastructure improvements within the boundaries of the district.

#### NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### 3. Basis of Presentation (Continued)

#### b. Non-current Governmental Assets/Liabilities

GASB Statement 34 requires that non-current governmental assets, such as land and improvements, and non-current governmental liabilities, such as general obligation bonds and due to developer be reported in the governmental activities column in the government-wide Statement of Net Position.

#### 4. Assets, Liabilities, and Net Position or Equity

#### a. Cash and Investments

Florida Statutes require state and local governmental units to deposit monies with financial institutions classified as "Qualified Public Depositories," a multiple financial institution pool whereby groups of securities pledged by the various financial institutions provide common collateral from their deposits of public funds. This pool is provided as additional insurance to the federal depository insurance and allows for additional assessments against the member institutions, providing full insurance for public deposits.

The District is authorized to invest in those financial instruments as established by Section 218.415, Florida Statutes. The authorized investments consist of:

- 1. Direct obligations of the United States Treasury;
- 2. The Local Government Surplus Funds Trust or any intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperative Act of 1969;
- 3. Interest-bearing time deposits or savings accounts in authorized qualified public depositories;
- 4. Securities and Exchange Commission, registered money market funds with the highest credit quality rating from a nationally recognized rating agency

The District currently has no investments.

#### NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### 4. Assets, Liabilities, and Net Position or Equity (Continued)

#### a. Cash and Investments (Continued)

Cash equivalents include time deposits and all highly liquid debt instruments with original maturities of three months or less and held in a qualified public depository as defined by Section 280.02, Florida Statutes.

#### b. Budgets

Budgets are prepared and adopted after public hearings for the governmental funds, pursuant to Chapter 190, Florida Statutes. The District utilizes the same basis of accounting for budgets as it does for revenues and expenditures in its various funds. The legal level of budgetary control is at the fund level. All budgeted appropriations lapse at year end. A formal budget is adopted for the general fund. As a result, deficits in the budget columns of the accompanying financial statements may occur.

#### c. Deferred Inflows of Resources

Deferred inflows of resources represent an acquisition of net position that applies to a future reporting period(s) and so will not be recognized as an inflow of resources (revenue) until then. The District only has one time that qualifies for reporting in the category. Unavailable revenues are reported only in the governmental funds balance sheet. This amount is deferred and recognized as an inflow of resources in the period that amounts become available.

#### d. Capital Assets

Capital assets, which includes construction in progress, are reported in the governmental activities column.

The District defines capital assets as assets with an initial, individual cost of \$5,000 or more and an estimated useful life in excess of two years. The valuation basis for all assets is historical cost.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend its useful life are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

#### NOTE B - CASH AND INVESTMENTS

All deposits are held in qualified public depositories and are included on the accompanying balance sheet as cash and investments. The District did not have investment balances.

#### Custodial Credit Risk – Deposits

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a formal deposit policy for custodial credit risk, however, they follow the provisions of Chapter 280, Florida Statutes regarding deposits and investments. As of September 30, 2020, the District's bank balance was \$74,780 and the carrying value was \$79,953. Exposure to custodial credit risk was as follows. The District maintains all deposits in a qualified public depository in accordance with the provisions of Chapter 280, Florida Statutes, which means that all deposits are fully insured by Federal Depositors Insurance or collateralized under Chapter 280, Florida Statutes.

The District does not currently have investments.

#### NOTE C - CAPITAL ASSETS

Capital Asset activity for the year ended September 30, 2020 was as follows:

	Balance October 1					Sept	alance ember 30,
	2019	Additions		Deletions		2020	
<b>Governmental activities:</b>							
Capital assets, not being depreciated:							
Construction in progress	\$	 \$	66,022	\$		\$	66,022

#### **NOTE D - RELATED PARTY TRANSACTIONS**

All five members of the Board of Supervisors are affiliated with the Developer or a related entity. The District received \$119,278 in contributions from the Developer for the year ended September 30, 2020. Additionally, the District has \$5,527 due from the developer, \$5,486 due to the developer and a developer advance of \$6,000.

Additionally, three of the members of the Board are members of the same immediate family.

#### NOTE E - ECONOMIC DEPENDENCY

The Developer owns a significant portion of land within the District. The District's activity is dependent upon the continued involvement of the Developer, the loss of which could have a material adverse effect on the District's operations.

#### **NOTE F - RISK MANAGEMENT**

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the government carries commercial insurance. The District has not filed any claims under this commercial coverage.

#### **NOTE G - SUBSEQUENT EVENT**

In December 2020, the District was conveyed land from a developer with an assessed value of \$17,410 and entered into an interlocal agreement related to cost sharing for certain infrastructure projects with Boggy Branch Community Development District.

# INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Supervisors Ryals Creek Community Development District Jacksonville, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Ryals Creek Community Development District, as of and for the year ended September 30, 2020, and the related notes to the financial statements, and have issued our report thereon dated June 26, 2021.

#### **Internal Control Over Financial Reporting**

In planning and performing our audit, we considered Ryals Creek Community Development District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Ryals Creek Community Development District's internal control. Accordingly, we do not express an opinion on the effectiveness of Ryals Creek Community Development District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

To the Board of Supervisors
Ryals Creek Community Development District

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Ryals Creek Community Development District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

#### MANAGEMENT LETTER

To the Board of Supervisors Ryals Creek Community Development District Jacksonville. Florida

#### **Report on the Financial Statements**

We have audited the financial statements of the Ryals Creek Community Development District as of and for the year ended September 30, 2020, and have issued our report thereon dated June 26, 2021.

#### **Auditor's Responsibility**

We conducted our audit in accordance with auditing standards generally accepted in the United States; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and Chapter 10.550, Rules of the Florida Auditor General.

#### Other Reporting Requirements

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards* and our Independent Auditor's Report on an examination conducted in accordance with *AICPA Professionals Standards*, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports, which are dated June 26, 2021, should be considered in conjunction with this management letter.

#### **Prior Audit Findings**

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding financial audit report. This is the initial financial audit of the District.

#### **Financial Condition and Management**

Section 10.554(1)(i)5.a. and 10.556(7), Rules of the Auditor General, require us to apply appropriate procedures and communicate the results of our determination as to whether or not Ryals Creek Community Development District has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and to identify the specific conditions met. In connection with our audit, we determined that Ryals Creek Community Development District did not meet any of the conditions described in Section 218.503(1) Florida Statutes.

To the Board of Supervisors
Ryals Creek Community Development District

Pursuant to Sections 10.554(1)(i)5.b. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures for Ryals Creek Community Development District. It is management's responsibility to monitor the Ryals Creek Community Development District's financial condition; our financial condition assessment was based in part on the representations made by management and the review of the financial information provided by the same as of September 30, 2020.

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

#### **Additional Matters**

Section 10.554(1)(i)3., Rules of the Auditor General, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but warrants the attention of those charged with governance. In connection with our audit, we did not note any such findings.

#### **Purpose of this Letter**

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, the Board of Supervisors, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.
