Independent Auditor's Report

Board of Commissioners Fort Myers Beach Mosquito Control District Fort Myers Beach, Florida

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities of the Fort Myers Beach Mosquito Control District, (the "District") as of and for the fiscal year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

Auditor's Responsibility, continued

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities of the District as of September 30, 2021, and the respective changes in financial position for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters - Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and other required supplementary information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide assurance.

Other Reporting Required by Government Auditing Standards

Ashley, Brown & Smith, CPAs

In accordance with Government Auditing Standards, we have also issued our report dated June 22, 2022, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters included under the heading INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF THE FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control over financial reporting and compliance.

Punta Gorda, Florida

June 22, 2022

MANAGEMENT'S DISCUSSION & ANALYSIS

Our discussion and analysis of the Fort Myers Beach Mosquito Control District's financial performance provides an overview of the District's financial activities for the fiscal year ended September 30, 2021.

FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of resources of the District exceeded its liabilities and deferred inflows of resources at the close of the 2021 fiscal year by \$256,398.
- The District's total net position increased by \$137,864.
- As of the close of the fiscal year 2021, the District reported ending fund balance of \$338,876, a increase of \$115,028 from the prior year. Of this amount, \$333,454 is available for spending at the District's discretion.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the District's financial statements. This report also includes other supplementary information in addition to the financial statements themselves.

The Statement of Net Position (page 7) and The Statement of Activities (page 8) provide information about the activities of the District and present a longer-term view of the District's finances. The statements are measured and reported using the economic resource measurement focus and the full accrual basis of accounting.

The governmental financial statements begin on page 9. The governmental funds measure and report activities using the current financial resources measurement focus and the modified accrual basis of accounting. Therefore, you will find the reconciliation on pages 10 & 12 that convert this data to an economic resources measurement focus and the accrual basis of accounting for use in the financial statements. The Governmental Accounting Standards Board (GASB) Statement No. 34 provides the authoritative guidance on the governmental financial reporting model.

THE FINANCIAL STATEMENTS

The Statement of Net Position and the Statement of Activities

Government-wide financial statements are intended to allow the reader to assess a government's operational accountability. Operational accountability is defined as the extent to which the government has met its operating objectives efficiently and effectively, using all resources available for that purpose, and whether it can continue to meet its objectives for the foreseeable future. For purposes of these statements, only governmental type activities are measured and reported using the economic resource measurement focus and the accrual basis of accounting.

The statement of net position presents information on all of the District's assets. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

THE FINANCIAL STATEMENTS, CONTINUED

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain financial control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes can be found beginning on page 13.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

The government-wide financial statements were designed so that the user could determine if the District is in a better or worse financial condition from the prior year. The following is a condensed summary of net position for the District for fiscal years 2021 and 2020.

Summary of Net Position

Fiscal Year Ended September 30,

	2021	2020		
Assets				
Current and Other Assets	\$ 338,876	\$	241,558	
Capital Assets	78,970		72,756	
Total Assets	417,846		314,314	
Deferred Outflows of Resources	64,459		87,840	
Total Assets and Deferred Outflows of Resources	482,305			
Liabilities				
Current and Other Liabilities	-		17,710	
Long-Term Liabilities	79,476		218,128	
Total Liabilities	79,476		235,838	
Deferred Inflows of Resources	146,431		47,782	
Total Liabilities and Deferred Inflows of Resources	225,907		283,620	
Net Position				
Invested in Capital Assets, Net of Related Debt	78,970		72,756	
Unrestricted	177,428		45,778	
Total Net Position	\$ 256,398	\$	118,534	

Investment in capital assets totaled \$78,970, which represents 30.80 percent of total net position and is comprised of land, building and improvements, vehicles, seawalls, and furniture, fixtures and equipment, net of accumulated depreciation.

The following schedule reports the revenues, expenses, and changes in net position for the District for the 2021 and 2020 fiscal years:

District's Changes in Net Position

Fiscal Year Ended September 30,

	2021			2020
Revenues				
Ad Valorem taxes	\$	465,664	\$	397,712
Refunds		4,378		12,500
Interest earnings		40		25
Total Revenues		470,082		410,237
Expenses				
Physical Environmental Services		332,218		340,587
Total Expenses		332,218		340,587
Increase in Net Position		137,864		69,650
Net Position – Beginning		118,534		48,884
Net Position – Ending	\$	256,398	\$	118,534

Total revenues increased \$59,845 or 14.59%, in comparison to prior year primarily due to an increase in millage rate from fiscal year 2019-2020 to fiscal year 2020-2021.

Total expenses decreased in comparison to the prior year by \$8,369 or 2.46 percent, due to decrease of pension expense.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

The following table provides a summary of net capital assets.

	2021			2020
Land	\$	5,000	\$	5,000
Buildings		84,217		66,217
Seawall		40,952		40,952
Motor Vehicles		78,226		78,226
Equipment		24,262		24,262
Total assets		232,657		214,657
Less: Accumulated depreciation		(153,687)		(141,901)
Total assets, net of depreciation	\$	78,970	\$	72,756

Debt

At September 30, 2021, the District's outstanding debt was comprised of accrued compensated absences in the amount of \$10,293, consistent with the prior year, and net pension liability in the amount of \$69,183.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND MILLAGE RATE

The Fort Myers Beach Mosquito Control District relies on ad valorem taxes as its primary source of revenue.

For the 2021-22 fiscal year, the District's Board of Commissioners approved a budget maintaining the current millage rate of 0.1123 mills which is estimated to result in an increase of ad-valorem revenues of approximately \$37,013.

A gradual increase in property values has had an beneficial effect on the economic environment. The District continues to closely monitor expenses and the millage rate with respect to the changing environment.

Request for Information

The District's financial statements are designed to present users (citizens, customers, and creditors) with a general overview of the District's finances and to demonstrate the District's accountability. If you have questions about this report or need additional information, contact the District's Director at 300 Lazy Way, Fort Myers Beach, Florida 33932-2837.

Net change in fund balance	\$	115,028
The decrease in pension expense is reported in the Statement of Activities, but does not require a use of current financial resources and is not reported as an expenditure in the functional statements.		19,276
In the statement of activities, changes in compensated absences is measured by the amount earned during the year. However, in the governmental funds, expenditures for these item are measured by the amount of financial resources used. This amount represents the increase in the accrual of compensated absences.	S	(2,654)
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. These amounts are as follows:		
Depreciation expense (11,786	5)	
Capital outlay expenditure 18,000		
		6,214
Change in net position	\$	137,864

1. Summary of Significant Accounting Policies:

The following is a summary of the more significant accounting policies of the District:

Organization and Nature of Activities: The Fort Myers Beach Mosquito Control District (the "District") is an independent special district created by the Laws of Florida. The District was created by a referendum election on July 12, 1949, under Chapter 390, superseded by Chapter 388, to perform mosquito control and elimination on Fort Myers Beach, Florida. Codification was received on May 25, 2001 under Chapter 2001-335, House Bill 1041. The powers and duties of the District are set forth in Chapter 388, Florida Statutes. The business and affairs of the District are governed by a board of three commissioners who are elected for terms of four years.

Summary of Significant Accounting Policies: The following is a summary of the significant accounting policies used in the preparation of these basic financial statements.

Reporting Entity: The District has adopted Governmental Accounting Standards Board (GASB) Statement No. 34, Basic Financial Statements and Management's Discussion and Analysis - for State and Local Governments. Statement 34 establishes standards for external financial reporting for all state and local governmental entities. This statement requires the financial statements of the District (the primary government) to include its component units, if any. A component unit is a legally separate organization for which the elected officials of the primary government are financially accountable. Based on the criteria established in GASB 14, there are no component units included in the District's financial statements.

Government-wide Financial Statements: The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the activities of the District and do not emphasize fund types. These governmental activities comprise the primary government. General governmental and intergovernmental revenues support the governmental activities. The purpose of the government-wide financial statements is to allow the user to be able to determine if the District is in a better or worse financial position than the prior year.

Government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis of accounting, revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets, and liabilities resulting from non-exchange transactions are recognized in accordance with the requirements of GASB Statement Number 33, "Accounting and Financial Reporting for Nonexchange Transactions" (GASB 33).

Amounts paid to acquire capital assets are capitalized as assets in the government-wide financial statements, rather than reported as expenditures. Proceeds of long-term debt are recorded as liabilities in the government-wide financial statements, rather than as other financing sources. Amounts paid to reduce long-term indebtedness of the reporting government are reported as a reduction of the related liability in the government-wide financial statements, rather than as expenditures.

1. Summary of Significant Accounting Policies, continued

The Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: 1) charges to customers or applicants who purchase, use or directly benefit for goods, services, or privileges provided by a given function, such as inspection fees, and 2) grants and contributions that are restricted to meeting the operational or capital improvements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements: The accounts of the District are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures, as appropriate. Government resources are allocated to, and accounted for in individual funds, based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The following fund is used by the District:

General Fund - The General Fund is the general operating fund of the District. All financial resources which are not specifically restricted or designated as to use are recorded in the General Fund. At present, the District utilizes only one fund.

Measurement Focus and Basis of Accounting: Basis of accounting refers to when revenue and expenditures are recognized in the accounts and reported in the basic financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements have been met.

Governmental fund financial statements are reported using the current financial resources management focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period and soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers tax revenues to be available if they are collected within sixty days of the end of the current fiscal period.

Revenues susceptible to accrual is ad valorem taxes. Property taxes are recorded as revenues in the fiscal year in which they are levied, provided that they are collected in the current period or within sixty days thereafter.

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred. Exception to this general rule include: (1) principal and interest on long-term debt, if any, which is recognized when due, and (2) expenditures are generally not divided between years by the recording of prepaid expenditures.

1. Summary of Significant Accounting Policies, continued

Capital Assets: Capital assets include land, building, improvements, vehicles, and equipment, are reported in the government-wide financial statements in the Statement of Net Position. The District follows a capitalization policy which calls for capitalization of all capital assets that have a cost or donated value of \$1,000 or more and have a useful life in excess of one year. All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated capital assets are valued at their acquisition cost on the date donated. Maintenance, repairs, and minor renovations are not capitalized. Expenditures that materially increase values, change capacities or extend useful lives are capitalized. Depreciable capital assets are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings	40
Improvements, including seawalls	10 - 39
Equipment	3 - 7
Vehicles	7

Depreciation of fixed assets acquired through contributions is recorded as an expense transferred from retained earnings as a reduction of contributed capital. The cost of assets retired or sold, together with the related accumulated depreciation, is removed from the accounts and any gain or loss on disposition is credited or charged to earnings.

Deferred Outflows/Inflows of Resources: Deferred outflows of resources represent a consumption of net position that applies to a future period and therefore will not be recognized as expended until then. The District presents deferred outflows associated with pensions to be expensed over future periods. Deferred inflows of resources is defined as an acquisition of position by the government that is applicable to a future reporting period. The District presents deferred inflows of resources related to pensions.

Encumbrances: Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is not employed by the District because it is, at present, not necessary to assure effective budgetary control or to facilitate effective cash planning and control.

Inventories: Inventory consists only of expendable chemicals which are to be used in operations is valued at the lower of cost or market based on the first-in-first-out method (FIFO). Inventory is recorded under the consumption method and no reserve has been made within the fund balances of the Governmental Fund Types.

1. Summary of Significant Accounting Policies, continued

Management Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

Compensated Absences: The District's employees accumulate annual leave based on the number of years of continuous service. Upon termination of employment, employees can receive payment for accumulated leave, if they meet certain criteria. The maximum number of hours that an employee can be compensated for is 200, with the excess hours available to be taken as paid leave. As of September 30, 2021, total accumulated absences was \$10,293.

Net Position: Government-wide statements utilize an economic resources measurement focus and categorize net position among the following components:

Invested in Capital Assets, Net of Related Debt: The portion of net position which represents the District's equity in capital assets, less the amount of related debt.

Unrestricted Net Position: The portion of net position which is available for general operations.

Fund Balance: In the fund financial statements, governmental funds report fund classification that comprise a hierarchy based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. The components of fund balance are:

Nonspendable Fund Balance: Include amounts that cannot be spent because they are not in spendable form or legally or contractually required to be maintained intact. The District considers inventory as part of this category.

Unassigned Fund Balance: The residual classification for the general fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, limited or assigned to specific purposes within the general fund.

Budgets and Budgetary Accounting: The following procedures are used by the District in establishing the budgetary data reflected in the basic financial statements:

- 1. During the summer, the Director submits to the Board of Commissioners for their consideration a proposed operating budget for the fiscal year commencing on October 1. The operating budget includes proposed expenditures and the means of financing them.
- 2. Public hearings are conducted to obtain taxpayer comments.

1. Summary of Significant Accounting Policies, continued

Budgets and Budgetary Accounting, continued:

- 3. Prior to October 1, the budget is adopted through a resolution by the Board of Commissioners. The budget is then approved by the Florida Department of Agriculture and Consumer Services, Bureau of Entomology and Pest Control (the "Department") by October 31.
- 4. Budget transfers and amendments can be made throughout the year by approval of the Board of Commissioners and the Department.
- 5. Budget amounts, as shown in the Required Supplementary Information, are as originally adopted, and as amended by the Board of Commissioners and approved by the Department.
- 6. The budget for the Governmental Fund Type is adopted on an accrual basis, which is inconsistent with accounting principles generally accepted in the United States of America.
- 7. The level of control for appropriations in exercised at the activity level.

2. Cash and Investments:

At September 30, 2021, the carrying amount of the District's deposits was \$310,252 and the bank balance was \$315,329. These deposits were entirely covered by Federal Depository Insurance or by collateral pursuant to the Florida Security for Public Deposits Act (Florida Statutes Chapter 280). Florida Statutes authorize investments in certificates of deposit, savings accounts, repurchase agreements, the Local Government Surplus Funds Trust Fund administered by the Florida State Board of Administration, obligations of the U.S. Government and government agencies unconditionally guaranteed by the U.S. Government. The District's investment policy permits the investment in savings accounts and certificates of deposit with state-certified, qualified public depositories.

3. Property Taxes:

Property taxes are levied on November 1 of each year, and are due and payable upon receipt of the notice of levy. The Lee County, Florida, Tax Collector's office bills and collects property taxes on behalf of the District. The tax rate levied upon all of the taxable property within the District for mosquito control for the fiscal year ended September 30, 2021 was \$0.1123 per \$1,000 of assessed taxable property value. Property tax revenue is recognized currently in the fiscal year for which the taxes are levied. On April 1 of each year, unpaid taxes become a lien on the property. The past due tax certificates are sold at public auction prior to June 1, and the proceeds thus collected are remitted to the District.

4. Changes in General Fixed Assets:

A summary of changes in general fixed assets follows:

	Balance Oct. 1, 2020 Additions		Deletions		Sept. 30, 202			
Capital assets not being depreciated:	Φ	7,000	ф		φ.		ф.	7 000

5. Changes in General Long-Term Debt:

The following is a summary of changes in the District's general long-term debt for the year ended September 30, 2021:

	-	Balance et. 1, 2020	Ado	litions	Red	uctions	Balance Sept. 30, 2021		
Compensated Absences	\$	7,639	\$	7,016	\$	(4,362)	\$	10,293	
Net Pension Liability- Pension Plan		172,021		5,138	((146,697)		30,462	
Net Pension Liability- HIS Plan		38,468		5,258		(5,005)		38,721	
Total Long Term Liabilities	\$	218,128	\$	17,412	\$ ((156,064)	\$	79,476	

6. Commitments and Contingencies:

The Board purchases liability and casualty insurance coverage from commercial carriers with coverages and deductibles in amounts that the Board fells is adequate.

7. Implementation of GASB Statement No. 75

The Governmental Accounting Standards Board has issued Statement No. 75, "Accounting and Financial Reporting for Post-Employment Benefits Other Than Pensions (OPEB)." This Statement changes the manner in which a governmental entity funds and records its post-retirement benefit costs other than pensions.

The District provides insurance (medical, dental and vision) benefits to its current full-time ALA accredited employees and offers all vested (vested is defined by the District's retirement plan) former employees the option of receiving these same benefits provided they pay 100% of the premium. Therefore, the District's only OPEB liability is for the implicit rate subsidy offered to the retiree. An implicit rate subsidy is the difference between a premium rate charged to retirees for a particular benefit and the estimated rate that would be applicable to those retirees if that benefit was acquired for them as a separate group. As of September 30, 2021, there were no retirees receiving these benefits and only three active participants in the insurance benefit plan.

The District has decided to finance these benefits on a pay-as-you-go basis and recognize expenses in the year the premium is due. The District believes the implicit OPEB liability is immaterial, as such; there is no actuarially determined net OPEB obligation at September 30, 2021.

8. State of Florida Retirement Plans

Defined Benefit Plans

The District participates in two defined benefit pension plans that are administered by the State of Florida, Department of Management Services, Division of Retirement. The plans provide retirement, disability or death benefits to retirees or their designated beneficiaries. Chapter 121, Florida Statutes, establishes the authority for benefit provisions. Changes to the law can only occur through an act of the Florida Legislature. The State of Florida issues a publicly available financial report that includes financial statements and required supplementary information for the plans. That report is available from the Florida Department of Management Services' website (www.dms.myflorida.com).

The Florida Retirement System (FRS) Pension Plan is a cost-sharing multiple-employer defined benefit pension plan with a Deferred Retirement Option Program ("DROP") available for eligible employees. The FRS was established with joint and survivor payment options. FRS membership is compulsory for employees filling regularly established positions in a state agency, county agency, state university, state college, or district school board, unless restricted from FRS membership under Sections 121.053 or 121.122, Florida Statutes, or allowed to participate in a defined contribution plan in lieu of FRS membership. Participation by cities, municipalities, special districts, charter schools and metropolitan planning organizations is optional.

The Retiree Health Insurance Subsidy (HIS) Program is a cost-sharing, multiple-employer defined benefit pension plan established and administered in accordance with Section 112.363, Florida Statutes. The benefit is a monthly payment to assist retirees of the state-administered retirement systems in paying their health insurance costs. To be eligible to receive a HIS benefit, a retiree under a state-administered retirement system must provide proof of eligible health insurance coverage, which can include Medicare.

8. State of Florida Retirement Plans

Benefits Provided

Benefits under the FRS Pension Plan are computed on the basis of age and/or years of service, average final compensation, and service credit. Credit for each year of service is expressed as a percentage of the average final compensation. For members initially enrolled before July 1, 2011, the average final compensation is the average of the five highest fiscal years' earnings; for members initially enrolled on or after July 1, 2011, the average final compensation is the average of the eight highest fiscal years' earnings. The total percentage value of the benefit received is determined by calculating the total value of all service, which is based on the retirement plan and/or class to which the member belonged when the service credit was earned.

Eligible retirees and beneficiaries receive a monthly HIS payment equal to the number of years of service credited at retirement multiplied by \$5. The minimum payment is \$30 and the maximum payment is \$150 per month, pursuant to Section 112.363, Florida Statutes.

Contributions

The contribution requirements of plan members and the employer are established and may be amended by the Florida Legislature. Employees are required to contribute 3.00% of their salary to the FRS Pension Plan. The employer's contribution rates as of September 30, 2021, were as follows:

	FRS	HIS
Regular class	10.82%	1.66%
Special risk class	25.89%	1.66%
Senior management service class	29.01%	1.66%
Elected officials	51.42%	1.66%
DROP from FRS	18.34%	1.66%

The employer's contributions for the year ended September 30, 2021, were \$14,097 to the FRS Pension Plan and \$1,867 to this HIS Program.

Pension Liabilities and Pension Expense

In its financial statements for the year ended September 30, 2021, the District reported a liability for its proportionate share of the net pension liability of the FRS Pension Plan and its proportionate share of the net pension liability of the HIS Program. The net pension liabilities were measured as of June 30, 2021. The District's proportions of the net pension liabilities were based on its share of contributions to the pension plans relative to the contributions of all participating entities, actuarially determined.

		FRS	HIS
Net pension liability	\$	30,462	\$ 38,721
Proportion at:			
Current measurement date	0	.000403%	0.000316%
Prior measurement date	0	.000397%	0.000315%
Pension (benefit)	\$	(18,949)	\$ (327)

8. State of Florida Retirement Plans

Deferred Outflows/Inflows of Resources Related to Pensions

At September 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

		FR	S		HIS						
	D	eferred	Defe	rred	De	eferred	Γ	Deferred			
	Out	tflows of	Inflov	vs of	Out	flows of	Inflows of				
	Re	sources	Resources		Re	sources	Resources				
Differences between expected and											
actual experience	\$	5,221	\$	-	\$	1,296	\$	(16)			
Change of assumptions		20,843		-		3,043		(1,595)			
Net difference between projected and											
actual earnings on pension plan											
investments		-	(106	,273)		40		-			
Changes in proportion and differences											
between District contributions and											
proportionate share of contributions		3,657	(6	,299)		1,557		(4,274)			
District contributions subsequent to the											
measurement date		4,199				468		-			
	\$	33,920	\$ (112	,572)	\$	6,404	\$	(5,885)			
		,						,			

Deferred outflows of resources related to employer contributions paid subsequent to the measurement date, and prior to the employer's fiscal year-end will be recognized as a reduction of the net pension liability in the reporting period ending September 30, 2022. Other pension-related amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in pension expense as follows:

Fiscal year ending September 30:	FRS	HIS
2022	\$ (17,685)	\$ (483)
2023	(17,132)	(1,172)
2024	(21,028)	464
2025	(27,422)	706
2026	416	442
Thereafter	-	94
	\$ (82,851)	\$ 51

8. State of Florida Retirement Plans

Actuarial Assumptions

The total pension liability for each of the defined benefit plans was measured as of June 30, 2021. The total pension liability for the FRS Pension Plan was determined by an actuarial valuation dated July 1, 2021. The individual entry age normal actuarial cost method was used for each plan, along with the following significant actuarial assumptions:

	FRS	HIS
Inflation	2.40%	2.40%
Salary increases	3.25%	3.25%
Investment rate of return	6.80%	N/A
Discount rate	6.80%	2.16%

Mortality assumptions for both plans were based on the PUB-2010 with Projection Scale MP-2018.

For both plans, the actuarial assumptions were based on the results of an actuarial experience study for the period July 1, 2013 through June 30, 2018.

The following changes in key actuarial assumptions occurred in 2021:

FRS: Decreasing the maximum amortization period to 20 years for all current and future amortization bases

HIS: The municipal bond index rate used to determine the total pension liability decreased from 3.21% to 2.16%.

The long-term expected investment rate of return was not based on historical returns, but instead was based on a forward-looking capital market economic model. Each asset class assumption is based on a consistent set of underlying assumptions, and includes an adjustment for the inflation assumption. For the FRS Pension Plan, the table below summarizes the consulting actuary's assumptions based on the long-term target asset allocation.

Asset Class	Target Allocation	Annual Arithmetic Return	Compound Annual (Geometric) Return	Standard Deviation
Cash	1.0%	2.1%	2.1%	1.1%
Fixed income	20.0%	3.8%	3.7%	3.3%
Global equity	54.2%	8.2%	6.7%	17.8%
Real estate (property)	10.3%	7.1%	6.2%	13.8%
Private equity	10.8%	11.7%	8.5%	26.4%
Strategic investments	3.7%	5.7%	5.4%	8.4%
Total	100.0%			
Assumed Inflation - Mean			2.4%	1.2%

8. State of Florida Retirement Plans

Discount Rate

The discount rate used to measure the total pension liability for the FRS Pension Plan was 6.80%. FRS's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return.

Because the HIS Program is essentially funded on a pay-as-you-go basis, a municipal bond rate of 2.21% was used to determine the total pension liability for the program. The Bond Buyer General Obligation Bond 20-Bond Municipal Bond Index was used as the applicable municipal bond index.

Sensitivity Analysis

The following table demonstrates the sensitivity of the net pension liability to changes in the discount rate. The sensitivity analysis shows the impact to the employer's proportionate share of the net pension liability if the discount rate was 1.00% higher or 1.00% lower than the current discount rate.

		FRS							
		Current							
	1% Decrease	Discount Rate	1% Increase						
	(5.80%)	(6.80%)	(7.80%)						
District's proportionate share of the net pension liability	\$ 136,228	\$ 30,462	\$ 6,812						
		HIS							
	Current								
	1% Decrease	Discount Rate	1% Increase						
	(1.16%)	(2.16%)	(3.16%)						
District's proportionate share of the net pension liability	\$ 44,765	\$ 38,721	\$ 33,493						

Pension Plans' Fiduciary Net Position

Detailed information about the pension plans' fiduciary net position is available in the state's separately issued financial reports.

Defined Contribution Plan

Pursuant to Chapter 121, Florida Statutes, the Florida Legislature created the Florida Retirement Investment Plan ("FRS Investment Plan"), a defined contribution pension plan qualified under Section 401(a) of the Internal Revenue Code. The FRS Investment Plan is an alternative available to members of the Florida Retirement System in lieu of the defined benefit plan. There is a uniform contribution rate covering both the defined benefit and defined contribution plans, depending on membership class. FRS Investment Plan contributions for the fiscal year ended September 30, 2021 totaled \$2,645.

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

Board of Commissioners Fort Myers Beach Mosquito Control District Fort Myers Beach, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities of the Fort Myers Beach Mosquito Control District, (the "District") as of and for the fiscal year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated June 22, 2022.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standard*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

MANAGEMENT LETTER

To the Honorable Board of Commissioners Fort Myers Beach Mosquito Control District Fort Myers Beach, Florida

Report on the Financial Statements

We have audited the financial statements of the Fort Myers Beach Mosquito Control District, (the "District"), as of and for the fiscal year ended September 30, 2021, and have issued our report thereon dated June 22, 2022.

Auditor's Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and Chapter 10.550, Rules of the Auditor General.

Other Reporting Requirements

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with Government Auditing Standards and Independent Accountant's Examination Report on an examination conducted in accordance with AICPA Professional Standards, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports and schedule, which are dated June 22, 2022, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. Corrective actions have been take to address findings and recommendations made in the preceding financial audit report.

Official Title and Legal Authority

Section 10.554(1)(i)4., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. The District discloses this information in the notes to the financial statements. The District had no component units as of September 30, 2021.

Financial Condition and Management

Sections 10.554(1)(i)5.a. and 10.556(7), Rules of the Auditor General, require us to apply appropriate procedures and communicate the results of our determination as to whether or not the District has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and to identify the specific condition(s) met. In connection with our audit, we determined that the District did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.554(1)(i)5.b. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures for the District. It is management's responsibility to monitor the District's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Special District Component Units

Section 10.554(1)(i)5.d., Rules of the Auditor General, requires, if appropriate, that we communicate the failure of a special district that is a component unit of a county, municipality, or special district, to provide the financial information necessary for proper reporting of the component unit within the audited financial statements of the county, municipality, or special district in accordance with Section 218.39(3)(b), Florida Statutes. In connection with our audit, we did not note any special district component units that failed to provide the necessary information for proper reporting in accordance with Section 218.39(3)(b), Florida Statutes.

As required by Section 218.39(3)(c), Florida Statutes, and Section 10.554(1)(i)6, Rules of the Auditor General, the District reported:

- a. The total number of district employees compensated in the last pay period of the district's fiscal year is 3.
- b. The total number of independent contractors to whom nonemployee compensation was paid in the last month of the district's fiscal year is 1.
- c. All compensation earned by or awarded to employees, whether paid or accrued, regardless of contingency is \$98,313.
- d. All compensation earned by or awarded to nonemployee independent contractors, whether paid or accrued, regardless of contingency is \$18,000.
- e. Each construction project with a total cost of at least \$65,000 approved by the district that is scheduled to begin on or after October 1 of the fiscal year being reported, together with the total expenditures for such project as zero.

Special District Component Units, Continued

f. A budget variance based on the budget adopted under Section 189.016(4), Florida Statutes, before the beginning of the fiscal year being reported if the district amends a final adopted budget under Section 189.016(6), Florida Statutes, as one.

As required by Section 218.39(3)(c), Florida Statutes, and Section 10.554(1)(i)7, Rules of the Auditor General, the District reported:

- a. The millage rate or rates imposed by the district is 0.1123.
- b. The total amount of ad valorem taxes collected by or on behalf of the district is \$465,664.
- c. The District did not have any bonds issued or outstanding as of fiscal year end.

Additional Matters

Section 10.554(1)(i)3., Rules of the Auditor General, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with our audit, we did not have any such findings.

Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, the District's Board of Commissioners and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.

Independent Accountant's Examination Report

Board of Commissioners Fort Myers Beach Mosquito Control District Fort Myers Beach, Florida

Report on Compliance

We have examined the Fort Myers Beach Mosquito Control District's (the "District") compliance with the local government investment policy requirements of Section 218.415, Florida Statutes, during the year ended September 30, 2021. Management is responsible for the District's compliance with the specified requirements. Our responsibility is to express an opinion on the District's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the District complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether the District complied with the specified requirements. The nature, timing and extent of the procedures selected depend on our judgement, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Our examination does not provide a legal determination on the District's compliance with the specified requirements.

In our opinion, the District complied, in all material respects, with the aforementioned requirements during the year ended September 30, 2021.

The purpose of this report is to comply with the audit requirements of Sections 218.415, Florida Statutes and Rules of the Auditor General.
