Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and the major fund of the South Shore Drainage District as of and for the year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise the South Shore Drainage District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the major fund of the South Shore Drainage District, as of September 30, 2021, and the respective changes in financial position and the budgetary comparison for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Correction of Error

As discussed in Note 8 to the financial statements, the beginning net position of the Governmental Activities was restated to correct the recording of deferred outflows of resources, deferred inflows of resources, and the net pension liability of the Florida Retirement System. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 4 through 9 and the budgetary comparison information on pages 32 through 34 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the South Shore Drainage District's basic financial statements. The other information section is presented for compliance with Section 218.39(3)(c), Florida Statutes and Section 10.554(1)(i)6, Rules of the Auditor General, and is not a required part of the basic financial statements.

The other information section has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated May 15, 2022, on our consideration of the South Shore Drainage District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the effectiveness of the South Shore Drainage District's internal control over financial reporting or on compliance.

That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the South Shore Drainage District's control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Our discussion and analysis of South Shore Drainage District ("District") provides a narrative overview of the District's financial activities for the fiscal year ended September 30, 2021. Please read it in conjunction with the District's Independent Auditor's Report, basic financial statements, accompanying notes, and supplementary information to the basic financial statements.

We would also like to make the reader aware of the existence of related party activities. This District has entered into an interlocal agreement with six other area water control districts to provide for the administration of the various districts' operations under the control of a District Manager. A central office and staff are maintained to operate the Districts. Administrative and supervisory personnel costs, compensated absences, and general operating costs are allocated in agreed upon percentages. Other labor costs and operating expenses are charged to the specific District to which they relate.

FINANCIAL AND DISTRICT HIGHLIGHTS

Financial Highlights

- The assets of the District exceeded its liabilities at the end of the fiscal year ended September 30, 2021, by \$1,599,054. Of this amount, \$173,048 (unrestricted net position) may be used to meet the District's ongoing operations.
- The District's total net position decreased by \$50,070.
- The District's total revenue (on an accrual basis) was \$166,707 for the year ended September 30, 2021.
- Total expenses (on an accrual basis) for all of the District's activities were \$216,777 for the year.

District Highlights

- Costs were shared in the paving of the office parking lot.
- Costs were shared in the replacement of the roof on the office building.
- Costs were shared in the purchase of one (1) new 2020 John Deere gas mower.

OVERVIEW OF FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the District's financial statements. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

OVERVIEW OF FINANCIAL STATEMENTS (Continued)

Government-Wide Financial Statements (Continued)

The statement of net position presents information on all the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the residual amount being reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenue and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements include all governmental activities that are principally supported by special assessment revenues. The District does not have any business-type activities.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The District has one fund category: governmental funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a District's near-term financial requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities. (See pages 13 and 15)

OVERVIEW OF FINANCIAL STATEMENTS (Continued)

Governmental Funds (Continued)

The District maintains one governmental fund for external reporting. Information is presented separately in the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund which is a major fund.

The District adopts an annual appropriated budget for its General Fund. A budgetary comparison schedule has been provided for the General Fund to demonstrate compliance with the budget. (See pages 32 and 33)

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Assets exceeded liabilities by \$1,599,054 for the fiscal year ended September 30, 2021. The assets include cash, investments, inventory, and capital assets which are approximately 0.1%, 11.7%, 0.5%, and 87.7% of the District's total assets, respectively, and are to be used to meet the financial obligations for the District's ongoing operations, except for capital assets. Capital assets are used to provide services to the District's citizens and are not available for future spending.

The following table provides a summary of the net position as of September 30, 2021 and 2020:

	<u>2021</u>	<u>2020</u>
Assets

The chart below presents the revenues by sources for the governmental activities.

GOVERNMENT-WIDE FINANCIAL ANALYSIS (Continued)

The chart below presents the expenses for the governmental activities.

CAPITAL ASSETS

The District’s investment in capital assets for its governmental activities as of September 30, 2021, amounted to \$1,426,006 (net of accumulated depreciation). There were \$3,682 of capital additions and \$6,934 of capital disposals during 2021. The following table summarizes the District’s capital assets as of September 30, 2021 and 2020:

	<u>2021</u>	<u>2020</u>
Land	\$ 107,996	\$ 107,996
Buildings	2,796	107

Office furniture and fixtures	14	40
Vehicles	2,185	4,581
	<u>\$1,426,006</u>	<u>\$1,468,459</u>

DEBT ADMINISTRATION

The following table presents the District’s long-term liabilities as of September 30, 2021 and 2020:

	<u>2021</u>	<u>2020</u>
Compensated absences	\$ -	\$ 4,688
Total long-term liabilities	<u>\$ -</u>	<u>\$ 4,688</u>

BUDGETARY HIGHLIGHTS

The District adopted the fiscal year 2020/2021 budget with the same assessment rates as fiscal year 2019/2020. Total expenditures budgeted for the fiscal year ended September 30, 2021, were \$185,155. Total assessment revenue budgeted was \$161,916.

Total actual expenditures were \$6,143 under budgeted expenditures. This was mainly due to the following:

- Various operating expenses were less than budgeted.

Total actual revenues were \$118 under the budgeted revenue. Additional budget comparison information is presented on pages 32 and 33.

NEXT YEAR'S BUDGET AND ECONOMIC FACTORS

The following highlights were considered in creating the 2021/2022 budget:

- The assessment rate for Unit 1 remained at \$33 per acre.
- The assessment rate for Unit 2 remained at \$33 per acre.
- Continue funding of programs/support for permit compliance and best management practices.
- Plans to purchase a new tractor.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our readers with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact David R. Davis, District Manager, 2832 N. Main Street, Belle Glade, Florida 33430, Telephone No. (561) 996-2940.

SOUTH SHORE DRAINAGE DISTRICT
Notes to the Financial Statements
September 30, 2021

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the South Shore Drainage District (the “District”) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The District’s significant accounting policies are described below.

Reporting Entity

South Shore Drainage District was created by Florida Statutes, Chapter 17259, Acts of 1935. The operations of the District are fundamentally governed by special acts pertaining to the District, which have been codified by Chapter 2000-486, Laws of Florida, Acts of 2000.

The District is an independent special district created pursuant to the method authorized in Chapter 298 of the Florida Statutes. A three-member Board of Supervisors elected by the landowners of the District governs the District. The Board appoints a District Manager to administer the policies emanating from its statutory powers and authority.

The Board has the responsibility for:

- 1) Assessing and levying assessments.
- 2) Approving budgets.
- 3) Exercising control over facilities and properties.
- 4) Controlling the use of funds generated by the District.
- 5) Approving the hiring and firing of key personnel.
- 6) Financing improvements.

As required by generally accepted accounting principles, these financial statements include the District (the primary government) and its component units. Component units are legally separate entities for which the District is financially accountable. The District is financially accountable if:

- a) the District appoints a voting majority of the organization’s governing board and (1) the District is able to impose its will on the organization or (2) there is a potential for the organization to provide specific financial benefits to or impose specific financial burdens on the District, or
- b) the organization is fiscally dependent on the District and (1) there is a potential for the organization to provide specific financial benefits to the District or (2) impose specific financial burdens on the District.

SOUTH SHORE DRAINAGE DISTRICT
Notes to the Financial Statements
September 30, 2021

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Reporting Entity (Continued)

Organizations for which the District is not financially accountable are also included when doing so is necessary in order to prevent the District's financial statements from being misleading.

Based upon application of the above criteria, management of the District has determined that no component units exist which would require inclusion in this report. Further, the District is not aware of any entity that would consider the District to be a component unit.

Government-wide and Fund Financial Statements

The basic financial statements include both government-wide and fund financial statements. The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all the non-fiduciary activities of the primary government. Governmental activities, which normally are supported by taxes, special assessments, and intergovernmental revenues, are reported separately from business-type activities, which rely on fees and charges for support. The District has no business-type activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not included among program revenues are reported instead as general revenues.

Fund financial statements are provided for governmental funds. The District has no fund types other than governmental funds. Major individual governmental funds are reported in separate columns in the fund financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses recorded when a liability is incurred, regardless of the timing of related cash flows. Assessments are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

SOUTH SHORE DRAINAGE DISTRICT
Notes to the Financial Statements
September 30, 2021

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Governmental Funds

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough afterwards to pay liabilities of the current period. The District considers revenues collected within 60 days of the year end to be available to pay liabilities of the current period. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures relating to compensated absences and claims and judgments are recorded only when payment is due.

Assessments, charges for services, intergovernmental revenues, and investment income are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the District.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as needed.

The District reports the General Fund as a major governmental fund. The General Fund is the general operating fund of the District. It is used to account for all financial resources and is the only fund of the District.

Cash and Cash Equivalents

Cash and cash equivalents include amounts on deposit in demand accounts. The District considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Investments

Investments are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is a market-based measurement, not an entity-specific measurement. For some assets and liabilities, observable market transactions or market information might be available; for others, it might not be available. However, the objective of fair value measurement in both cases is the same, that is, to determine the price at which an orderly transaction to sell the asset or to transfer the liability would take place between market participants at the measurement date

SOUTH SHORE DRAINAGE DISTRICT
Notes to the Financial Statements
September 30, 2021

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investments (Continued)

under current market conditions. Fair value is an exit price at the measurement date from the perspective of a market participant that controls the asset or is obligated for the liability. The District categorizes investments reported at fair value in accordance with the fair value hierarchy established by GASB Statement No. 72, *Fair Value Measurement and Application*.

Accounts Receivable

Accounts receivable of the General Fund consists of billed and unbilled receivables. The District has not established an allowance for doubtful accounts because the District considers all receivables to be collectible.

Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. In the governmental funds, prepaid items are recorded using the consumption method and are offset by the nonspendable fund balance component which indicates they do not constitute available spendable resources, even though they are a component of current assets.

Inventories

Inventories consist of expendable fuel held for the District's use and are carried at cost using the first-in, first-out method. The District accounts for inventories using the consumption method, under which expenditures are recognized only when inventory items are used. Reported inventory is equally offset by nonspendable fund balance which indicates that it does not constitute "available spendable resources" even though it is a component of net current assets.

Capital Assets

Capital assets are defined by the District as assets with an estimated useful life in excess of two years and a value at the date of acquisition in excess of \$750. Capital assets are reported in the government-wide Statement of Net Position and include plant, property, equipment, and infrastructure assets (i.e., roads, bridges, canals, and pumping stations). Purchased capital assets are recorded at cost. Donated capital assets, donated works of art and similar items, and capital assets received in a service concession arrangement are reported at acquisition value. Depreciation is computed using the straight-line method over the estimated useful lives for all reported capital assets, except land and construction in progress. The estimated useful lives are as follows:

SOUTH SHORE DRAINAGE DISTRICT
Notes to the Financial Statements
September 30, 2021

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Capital Assets (Continued)

Buildings	15 - 30 years
Machinery and equipment	5 - 10 years
Improvements	10 - 20 years
General infrastructure	10 - 50 years

GASB Statement No. 34 requires the District to report and depreciate new infrastructure assets. These infrastructure assets are likely to be the largest asset class of the District. Neither their historical cost nor related depreciation had historically been reported in the financial statements prior to September 30, 2003. The District is classified as a Phase 3 Government in accordance with the definitions contained in GASB 34. A Phase 3 Government is not required to report their major general infrastructure assets retroactively. The District elected to report their general infrastructure assets on a prospective basis beginning September 30, 2003.

Unearned Revenue

The government reports unearned revenue on its government wide Statement of Net Position and governmental funds balance sheet. Unearned revenue arises when resources are obtained prior to revenue recognition. In subsequent periods, when revenue recognition criteria are met the unearned revenue is removed and revenue is recognized.

Unavailable Revenue

The government reports unavailable revenue on its governmental funds balance sheet for resource inflows that do not qualify for recognition as revenue in a governmental fund because they are not yet considered available.

Deferred Outflows of Resources

The government-wide Statement of Net Position and the Governmental Funds Balance Sheet will sometimes include a separate section for deferred outflows of resources. This financial statement element represents a consumption of net position applicable to future periods and will not be recognized as expenditures until the future period(s). The District has no items that qualify for reporting in this category.

SOUTH SHORE DRAINAGE DISTRICT
Notes to the Financial Statements
September 30, 2021

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Deferred Inflows of Resources

The government-wide Statement of Net Position and the Governmental Funds Balance Sheet will sometimes include a separate section for deferred inflows of resources. This financial statement element represents the acquisition of net position applicable to future periods and will not be recognized as revenue until the future period(s). The District has no items that qualify for reporting in this category.

Fund Balances

In the fund financial statements, governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Fund balance is reported under the following categories:

1. Nonspendable fund balances – Includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash, for example, inventories and prepaid amounts. It also includes the long-term amount of loans and notes receivable, as well as property acquired for resale. However, if the use of the proceeds from the collection of those receivables or from the sale of those properties is restricted, committed, or assigned, then they should be included in the appropriate fund balance classification (restricted, committed, or assigned), rather than the nonspendable fund balance. The corpus (or principal) of a permanent fund is an example of an amount that is legally or contractually required to be maintained intact.
2. Restricted fund balance – Includes amounts that are restricted to specific purposes when constraints placed on the use of resources are either (a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.
3. Committed fund balance – Includes amounts that can be used only for specific purposes pursuant to constraints imposed by an ordinance, the District’s highest level of decision making authority. Those committed amounts cannot be used for any other purpose unless the District removes or changes the specified use by taking the same type of action employed to previously commit those amounts.

SOUTH SHORE DRAINAGE DISTRICT
Notes to the Financial Statements
September 30, 2021

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund Balances (Continued)

4. Assigned fund balance – Includes amounts intended to be used by the District for specific purposes, but are neither restricted nor committed. In accordance with the District’s fund balance policy, assignments may be made by formal action of the District Board or authority may be delegated to the District Manager.
5. Unassigned fund balance – Includes the residual classification for the general fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund. The general fund should be the only fund that reports a positive unassigned fund balance amount. In other governmental funds, it may be necessary to report a negative unassigned fund balance if expenditures incurred for specific purposes exceeded the amounts restricted, committed, or assigned to those purposes.

When an expenditure is incurred for purposes for which both restricted and unrestricted (committed, assigned, or unassigned) amounts are available, it is the District’s policy to reduce restricted amounts first. When an expenditure is incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used, it is the District’s policy to reduce committed amounts first, followed by assigned amounts, then unassigned amounts.

Net Position

Net position is the residual of all other elements presented in a statement of financial position. It is the difference between (a) assets plus deferred outflows of resources and (b) liabilities and deferred inflows of resources. Net position is displayed in the following three components:

1. Net investment in capital assets – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by any outstanding liabilities that are attributable to the acquisition, construction or improvement of those assets, excluding unexpended proceeds.
2. Restricted net position – Consists of net position with constraints placed on the use either by: (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions of enabling legislation.
3. Unrestricted net position – All other net position that does not meet the definition of “restricted” or “net investment in capital assets.”

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Budgetary Data

Formal budgetary integration is employed as a management control device during the year for the General Fund. All budgets are legally enacted. Budgets are adopted on a basis consistent with generally accepted accounting principles. Budgeted amounts are as originally adopted, or as amended by appropriate action.

Assessments

The assessment levy of the District is established by the Board of Supervisors and becomes an enforceable lien on the property on January 1 of the following year. The District levied an assessment rate of \$33 per acre for the fiscal year ended September 30, 2021.

All assessments are due and payable on November 1 of each year or as soon thereafter as the tax roll is delivered to the county tax collector. Liens are placed on property as of January 1. All unpaid assessments become delinquent on April 1 following the year in which they are assessed. Discounts are allowed for early payment at the rate of 4% in the month of November, 3% in the month of December, 2% in the month of January and 1% in the month of February. The assessments paid in March are without discount.

On or prior to June 1 following the assessment year, certificates are sold for all delinquent taxes on real property. After sale, tax certificates bear interest of 18% per year or at any lower rate bid by the buyer. Application for a tax deed on any unredeemed tax certificates may be made by the certificate holder after a period of two years. Unsold certificates become the property of the District, earning interest at a rate of 18% per year.

Use of Estimates

The financial statements and related disclosures are prepared in conformity with accounting principles generally accepted in the United States. Management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and revenue and expenses during the period reported. These estimates include assessing the collectability of accounts receivable, the use and recoverability of inventory, and useful lives and impairment of tangible and intangible assets, among others. Estimates and assumptions are reviewed periodically and the effects of revisions are reflected in the financial statements in the period they are determined to be necessary. Actual results could differ from the estimates.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Implementation of Accounting Pronouncements

The District implemented the following Governmental Accounting Standards Board Statements during the current fiscal year.

GASB Statement No. 84, *Fiduciary Activities*. This Statement improves guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported.

GASB Statement No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans—an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32*. The requirements of this Statement will result in more consistent financial reporting of defined contribution pension plans, defined contribution OPEB plans, and other employee benefit plans, while mitigating the costs associated with reporting those plans. The District implemented the provisions of this statement related to GASB Statements No. 14 and No. 84 in the current fiscal year.

Recently Issued Accounting Pronouncements

A brief description of new accounting pronouncements that might have a significant impact on the District's financial statements is presented below. Management is currently evaluating the impact of adoption of these statements in the District's financial statements.

In May 2017 the GASB issued Statement No. 87, *Leases*. This Statement will increase the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting that is based on the foundational principle that leases are financings of the right to use an underlying asset. This Statement is effective for the fiscal year ending September 30, 2022.

In June 2018 the GASB issued Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*. This Statement will enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and simplify accounting for interest cost incurred before the end of a construction period. This Statement is effective for the fiscal year ending September 30, 2022.

SOUTH SHORE DRAINAGE DISTRICT
Notes to the Financial Statements
September 30, 2021

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Recently Issued Accounting Pronouncements (Continued)

In May 2019 the GASB issued Statement No. 91, *Conduit Debt Obligation*. This Statement will provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with commitments extended by issuers, arrangements associated with conduit debt obligations, and related note disclosures. This Statement is effective for the fiscal year ending September 30, 2023.

In January 2020 the GASB issued Statement No. 92, *Omnibus 2020*. This Statement will enhance comparability in accounting and financial reporting and improve the consistency of authoritative literature by addressing practice issues that have been identified during the implementation and application of certain GASB Statements. This Statement addresses a variety of topics. The requirements of this Statement related to the effective date of Statement No. 87 and Implementation Guide 2019-3, reinsurance recoveries, and terminology used to refer to derivative instruments are effective upon issuance. The remaining requirements are effective for the fiscal year ending September 30, 2022.

In March 2020 the GASB issued Statement No. 93, *Replacement of Interbank Offered Rates*. This Statement will enhance comparability in the application of accounting and financial reporting requirements and will improve the consistency of authoritative literature by addressing the accounting and financial reporting implications that result from the replacement of an Interbank Offered Rate (IBOR) for agreements in which variable payments made or received depend on an IBOR. The requirements of this Statement related to the removal of LIBOR as an appropriate benchmark interest rate are effective for the fiscal year ending September 30, 2022. The remaining requirements are effective for the fiscal year ending September 30, 2022.

In March 2020 the GASB issued Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*. This Statement will improve financial reporting by establishing the definitions of public-private and public-public partnership arrangements (PPPs) and availability payment arrangements (APAs) and providing uniform guidance on accounting and financial reporting for transactions that meet those definitions. This Statement is effective for the fiscal year ending September 30, 2023.

In May 2020 the GASB issued Statement No. 96, *Subscription-Based Information Technology Arrangements*. This Statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). This Statement is effective for the fiscal year ending September 30, 2023.

Notes to the Financial Statements
September 30, 2021

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Recently Issued Accounting Pronouncements (Continued)

In June 2020 the GASB issued Statement No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans—an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32*. The requirements of this Statement will result in more consistent financial reporting of defined contribution pension plans, defined contribution OPEB plans, and other employee benefit plans, while mitigating the costs associated with reporting those plans. The City implemented the sections of this statement related to GASB Statements No. 14 and No. 84 during the current fiscal year. The sections of the statement related to Section 457 deferred compensation plans is effective for the fiscal year ending September 30, 2022.

NOTE 2 – BUDGETARY INFORMATION

Budget Policy and Practice

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

1. During May, the District Manager submits to the Board of Supervisors a proposed operating budget for the upcoming fiscal year. The operating budget includes proposed expenditures and the means of financing them.
2. A public hearing is held to obtain taxpayer comments.
3. During August, the budget is legally enacted through passage of a resolution.
4. Appropriations are legally controlled at the fund level and expenditures may not legally exceed budgeted appropriations at that level.
5. The budget for the General Fund is adopted on a basis consistent with generally accepted accounting principles.
6. Total budgeted amounts reflect all amendments approved by the Board of Supervisors.

SOUTH SHORE DRAINAGE DISTRICT
Notes to the Financial Statements
September 30, 2021

NOTE 3 – DEPOSITS AND INVESTMENTS

Deposits

Deposits are either covered by insurance provided by the Federal Depository Insurance Corporation or are held in banking institutions approved by the Treasurer of the State of Florida. Under Florida Statutes, Chapter 280, *Florida Security for Public Deposits Act*, the State Treasurer requires all Florida qualified public depositories to deposit with the Treasurer or other banking institution eligible collateral. In the event of failure of a qualified public depository, the remaining public depositories would be responsible for covering any resulting losses. The District's deposits at year end are considered insured for custodial credit risk purposes. As of September 30, 2021, the bank balance of the District's deposits was \$1,000 and the carrying amount was \$1,000. The District also had \$150 in petty cash for a total carrying amount of \$1,150.

Investments

The District has not adopted a written investment policy. Florida Statutes authorize units of local government electing not to adopt a written investment policy to invest in the following instruments:

- a. The Local Government Surplus Funds Trust Fund, or any intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperation Act of 1969.
- b. Securities and Exchange Commission registered money market funds with the highest credit quality rating from a nationally recognized rating agency.
- c. Interest-bearing time deposits or savings accounts in qualified public depositories.
- d. Direct obligations of the U.S. Treasury.

The District participates in the Florida Fixed Income Trust – Enhanced Cash Pool (“FLFIT”), an external investment pool. The FLFIT was established in accordance with Florida Statutes Section 163. The FLFIT is a Series Trust designed to provide liquid solutions to local governments of Florida. The fund's objective is to provide liquidity and preservation of capital while providing current income consistent with low volatility of net asset value. FLFIT funds can be redeemed on the next day basis. The fund does not meet the requirements of GASB Statement No. 79 and is measured at floating net asset value (NAV), which is fair value under GASB Statement No. 31.

GASB Statement No. 72, *Fair Value Measurement and Application*, requires governments to disclose the fair value hierarchy for each type of asset or liability measured at fair value in the notes to the financial statements. The standard also requires governments to disclose a description of the valuation techniques used in the fair value measurement and any significant changes in valuation techniques. GASB 72 establishes a three-tier fair value hierarchy. The level in which an asset is assigned is not indicative of its quality but an indication of the source of valuation inputs. The hierarchy is based on valuation inputs used to measure the fair value as follows:

SOUTH SHORE DRAINAGE DISTRICT
Notes to the Financial Statements
September 30, 2021

NOTE 3 – DEPOSITS AND INVESTMENTS (Continued)

Investments (Continued)

- Level 1: Inputs are directly observable, quoted prices in active markets for identical assets or liabilities.
- Level 2: Inputs are other than quoted prices included within Level 1 that are for the asset or liability, either directly or indirectly. These inputs are derived from or corroborated by observable market data through correlation or by other means.
- Level 3: Inputs are unobservable inputs used only when relevant Level 1 and Level 2 inputs are unavailable.

As of September 30, 2021, the District had the following investments:

	<u>Fitch Rating</u>	<u>Weighted Average Maturity</u>	<u>Fair Value</u>
Florida Fixed Income Trust – Enhanced Cash Pool	AAAf/S1	210 days	\$ 190,545

The FLFIT is exempt from reporting under the fair value hierarchy. The fair value is measured at net asset value (NAV) and reported in accordance with GASB Statement No. 31.

Credit Risk

Credit risk is the risk that an issuer or other counter party to an investment will not fulfill its obligations. The District’s investment policies limit its investments to high quality investments to control credit risk.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District does not have a formal investment policy that limits investment maturities as a means of managing exposure to fair value losses arising from increasing interest rates.

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments that are in the possession of an outside party.

NOTE 5 – LONG-TERM LIABILITIES

During the year ended September 30, 2021, the following changes occurred in long-term liabilities:

<u>Governmental Activities</u>	<u>Beginning Balance</u>	<u>Additions</u>	<u>Deletions</u>	<u>Ending Balance</u>
Compensated absences	\$ 4,688	\$ -	\$ (4,688)	\$ -

NOTE 6 – INTERLOCAL AGREEMENTS

Consolidation of Management

Clewiston Drainage District has entered into an interlocal agreement with six other area water control districts to provide for the administration of the various districts' operations under the control of a District Manager. A central office and staff are maintained to operate the districts. Administrative and supervisory personnel costs, compensated absences, and general operating costs are paid by one of the districts, South Florida Conservancy District, and then allocated between the seven districts using agreed-upon percentages. Those districts and percentages are as follows: South Florida Conservancy - 41%; Pahokee Water Control - 14%; East Shore Water Control - 8%; Pelican Lake Water Control - 8%; East Beach Water Control - 11%; Clewiston Drainage - 10%; and South Shore Drainage - 8%. Other operating expenses are charged to the specific district to which they relate. All staff are considered employed by the South Florida Conservancy District.

South Florida Conservancy District

On August 11, 2005, the District entered into an agreement with South Florida Conservancy District to provide for the permanent maintenance and operational responsibilities for the described 103.30 acres by the District. The agreement shall be automatically renewed annually unless terminated in writing by either party. Any party desiring to terminate this agreement shall provide written notice at least one hundred and eighty (180) days prior to the annual renewal date of the agreement. South Florida Conservancy District agrees to pay annually to the District a sum equal to the maintenance assessments which would be levied upon said lands as if were in the District.

NOTE 7 – RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; natural disasters; and workers' compensation for which the District is a member of the Public Risk Management of Florida (PRMF), a local government risk management pool as defined by Florida Statutes 163.01(3)(h). In the event of a loss, the District pays up to the deductible amount on the policy. All additional risk of loss has been transferred to

SOUTH SHORE DRAINAGE DISTRICT
Notes to the Financial Statements
September 30, 2021

NOTE 7 – RISK MANAGEMENT (Continued)

PRMF up to the policy limits. Settlements have not exceeded coverages for each of the past three fiscal years. PRMF absorbs losses up to a specified amount annually and purchases excess and other specific coverages from third-party carriers. PRMF assesses each member its pro rata share of the estimated amount required to meet current year losses and operating expenses. If total member assessments do not produce sufficient funds to meet its current obligations, PRMF can make additional assessments.

Florida Statutes limit the District’s maximum loss for most liability claims to \$200,000 per person and \$300,000 per occurrence under the Doctrine of Sovereign Immunity. However, under certain circumstances, a plaintiff can seek to recover damages in excess of statutory limits by introducing a claims bill to the Florida Legislature. The limits addressed in Florida Statutes do not apply to claims filed in Federal courts.

NOTE 8 – PRIOR PERIOD ADJUSTMENT

In prior years, the District allocated net pension liabilities and related pension amounts of defined benefit pension plans between the seven districts under the terms of the Consolidation of Management interlocal agreement. However, under GASB Statement No. 68, the District does not meet the requirements of a Special Funding Situation and the net pension liabilities and related pension amounts should not be reported on the District’s stand-alone financial statements.

The cumulative effect of applying the prior period adjustment has been reported as a restatement of the beginning net position of the Governmental Activities as of October 1, 2020. A reconciliation of the prior period ending net position to the current period beginning net positions is as follows:

	Governmental Activities
Balance at September 30, 2020, as reported	\$ 1,586,586
Adjustment	62,538
Balance at September 30, 2020, as restated	\$ 1,649,124

South Shore Drainage District
Notes to the Budgetary Comparison Schedule
Required Supplementary Information (RSI)
General Fund
September 30, 2021

Note 1 - Basis of Accounting

A budgetary comparison schedule is presented for the General Fund, as required by generally accepted accounting principles. The budgetary process is described in Note 2 to the financial statements. Budgets are adopted on a basis consistent with generally accepted accounting principles.

Note 2 - Stewardship, Compliance, and Accountability

Formal budgetary integration is employed within the accounting system as a management control device. Appropriations are legally controlled at the fund level, and expenditures may not legally exceed budgeted appropriations at that level. For the year ended September 30, 2021, General Fund expenditures did not exceed appropriations.

FAX (561) 996-6248

Board of Supervisors
South Shore Drainage District
Belle Glade, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities and the major fund of the South Shore Drainage District, as of and for the year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise the South Shore Drainage District's basic financial statements and have issued our report thereon dated May 15, 2022.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the South Shore Drainage District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the South Shore Drainage District's internal control. Accordingly, we do not express an opinion on the effectiveness of the South Shore Drainage District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the South Shore Drainage District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report on the Financial Statements

We have audited the financial statements of the South Shore Drainage District, as of and for the fiscal year ended September 30, 2021, and have issued our report thereon dated May 15, 2022.

Auditor's Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and Chapter 10.550, Rules of the Auditor General.

Other Reporting Requirements

We have issued our Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards* and Independent Accountant's Report on an examination conducted in accordance with *AICPA Professional Standards*, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports, which are dated May 15, 2022, should be considered in conjunction with this Management Letter.

Prior Audit Findings

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding financial audit report. No findings and recommendations were made in the preceding financial audit report.

Official Title and Legal Authority

Section 10.554(1)(i)4., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this Management Letter, unless disclosed in the notes to the financial statements. This information was disclosed in Note 1 to the financial statements. There are no component units included in the South Shore Drainage District's financial statements.

Financial Condition and Management

Sections 10.554(1)(i)5.a. and 10.556(7), Rules of the Auditor General, require us to apply appropriate procedures and communicate the results of our determination as to whether or not the South Shore Drainage District met one or more of the conditions described in Section 218.503(1), Florida Statutes, and to identify the specific condition(s) met. In connection with our audit, we determined that the South Shore Drainage District did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.554(1)(i)5.b. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures for the South Shore Drainage District. It is management's responsibility to monitor the South Shore Drainage District's financial condition, and our financial condition assessment was based in part on representations made by management and review of financial information provided by same. Our assessment was done as of the fiscal year end. The results of our procedures did not disclose any matters that are required to be reported.

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Special District Component Units

Section 10.554(1)(i)5.c, Rules of the Auditor General, requires, if appropriate, that we communicate the failure of a special district that is a component unit of a county, municipality, or special district, to provide the financial information necessary for proper reporting of the component unit within the audited financial statements of the county, municipality, or special district in accordance with Section 218.39(3)(b), Florida Statutes. In connection with our audit, we did not note any special district component units that failed to provide the necessary information for proper reporting in accordance with Section 218.39(3)(b), Florida Statutes.

Additional Matters

Section 10.554(1)(i)3., Rules of the Auditor General, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but warrants the attention of those charged with governance. In connection with our audit, we did not note any such findings.

Specific Information

As required by Section 218.39(3)(c), Florida Statutes, and Section 10.554(1)(i)6, Rules of the Auditor General, the South Shore Drainage District reported the required information in the other information section on page 35.

Single Audits

The South Shore Drainage District expended less than \$750,000 of federal awards and less than \$750,000 of state financial assistance for the fiscal year ended September 30, 2021 and was not required to have a federal single audit or a state single audit.

Purpose of this Letter

Our Management Letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, the Board of Supervisors, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.

**INDEPENDENT ACCOUNTANT’S REPORT
ON COMPLIANCE WITH SECTION 218.415,
FLORIDA STATUTES**

BELLE GLADE OFFICE
333 S.E. 2nd STREET
POST OFFICE BOX 338
BELLE GLADE, FLORIDA 33430-0338
TELEPHONE (561) 996-5612
FAX (561) 996-6248

Board of Supervisors
South Shore Drainage District
Belle Glade, Florida

We have examined the South Shore Drainage District’s compliance with Section 218.415, Florida Statutes during the year ended September 30, 2021. Management of the South Shore Drainage District is responsible for the South Shore Drainage District’s compliance with the specified requirements. Our responsibility is to express an opinion on the South Shore Drainage District’s compliance with the specified requirements based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the South Shore Drainage District complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether the South Shore Drainage District complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgement, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Our examination does not provide a legal determination on the South Shore Drainage District’s compliance with the specified requirements.

In our opinion, the South Shore Drainage District complied, in all material respects, with Section 218.415, Florida Statutes for the year ended September 30, 2021.

This report is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and Florida House of Representatives, the Florida Auditor General, applicable management, and the Board of Supervisors, and is not intended to be and should not be used by anyone other than these specified parties.
