## **INDEPENDENT AUDITORS' REPORT**

To the Board of Supervisors  
St. Johns Improvement District

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities and major fund of the St. Johns Improvement District, (the "District") as of and for the year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

#### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### ***Auditors' Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the major fund of the St. Johns Improvement District as of September 30, 2021, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that management's discussion and analysis, and the postemployment benefits and net pension liability supplementary information, as noted in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated February 25, 2022 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

## St. Johns Improvement District Management's Discussion and Analysis

Management's discussion and analysis of the St. Johns Improvement District (the "District"), financial performance provides an objective and easily readable analysis of the District's financial activities for the fiscal year ended September 30, 2021. We encourage readers to consider the information presented here in conjunction with the District's financial statements (beginning on page 13).

### Overview of the Financial Statements

The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. These statements present an overall picture of the District's financial position and results of operations. This report also contains other supplementary information in addition to the basic financial statements themselves.

**Government-Wide Financial Statements.** The government-wide financial statements are designed to provide readers with a broad overview of the District's financial position in a manner similar to a private-sector business. They include a Statement of Net Position and a Statement of Activities. Emphasis is placed on the net position of governmental activities and the change in net position. Governmental activities are primarily supported by assessments.

The *Statement of Net Position* presents information on all of the District's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as net position. Net position is reported in three categories: 1. net investment in capital assets, 2. restricted, and 3. unrestricted. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *Statement of Activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected invoices and earned but unused vacation leave). To assist in understanding the District's operations, expenses have been reported as governmental activities and include physical environment and debt service.

**Fund Financial Statements.** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The District has one fund category: Governmental Funds.

**Governmental Funds.** Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

## St. Johns Improvement District Management's Discussion and Analysis

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains one governmental fund, the General Fund. The District adopts an annual appropriated budget for its general fund. A budgetary comparison schedule has been provided for the general fund to demonstrate compliance with the budget.

### Financial Highlights

- The District's assets and deferred outflows exceeded its liabilities and deferred inflows at the close of the most recent fiscal year by \$7,675,746 (net position). Of this amount, \$814,880 (unrestricted net position) may be used to meet the government's ongoing obligations to creditors.
- The government's total net position increased by \$387,411.
- As of the close of the current fiscal year, the St. Johns Improvement District's governmental fund reported ending fund balance of \$1,298,946, a decrease of \$783 in comparison with the prior year. Unassigned fund balance for the General Fund was \$963,672, or 37.35% of total general fund expenditures, excluding capital outlay.

### Government-Wide Financial Analysis

**Statement of Net Position.** The District's net position for the years ending 2021 and 2020 was \$7,675,746 and \$7,288,335 respectively, which is an increase of \$387,411. A large portion of the District's net position (89.38%) reflects its investment in capital assets, less any debt used to acquire those assets that is still outstanding. The District uses these capital assets to manage the District's surface waters and land area, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

## St. Johns Improvement District Management's Discussion and Analysis

	Net Position	
	Governmental Activities	
	2021	2020
<b>Assets</b>		
Current and other assets	\$ 1,421,016	\$ 1,354,916
Capital assets, net	7,771,543	7,824,722
<b>Total assets</b>	<b>9,192,559</b>	<b>9,179,638</b>
<b>Deferred outflows of resources:</b>		
Deferred outflows related to OPEB	4,877	-
Deferred outflows related to pensions	178,855	232,059
<b>Total deferred outflows of resources</b>	<b>183,732</b>	<b>232,059</b>
<b>Liabilities</b>		
Current liabilities	130,526	201,353
Noncurrent liabilities	1,191,485	1,882,811
<b>Total liabilities</b>	<b>1,322,011</b>	<b>2,084,164</b>
<b>Deferred inflows of resources:</b>		
Deferred inflows related to pensions	378,534	36,686
Deferred inflows related to OPEB	-	2,512
<b>Total deferred inflows of resources</b>	<b>378,534</b>	<b>39,198</b>
<b>Net position</b>		
Investment in capital assets	6,860,866	6,538,739
Unrestricted	814,880	749,596
<b>Total net position</b>	<b>\$ 7,675,746</b>	<b>\$ 7,288,335</b>

The decrease in pension outflows and increase in pension inflows reflects the unexpected investment gains by FRS (Florida Retirement System).

The decrease in current liabilities is reflective of having paid a large recurring invoice prior to year-end. The decrease in noncurrent liabilities is primarily due to the unexpected investment earnings by FRS and a prepayment made on the loan.

The unrestricted net position increased by \$65,284.

**Statement of Activities.** The revenues of the District decreased as a result of the decrease in the per acre assessment, which went from \$127.00 per acre to \$123.00 per acre. This decrease was a result of capital budget expenditures decreasing from \$719,000 to \$511,000.

The gain on the sale of fixed assets occurred as a result of the exchange of the excavator for a more suitable unit.

## St. Johns Improvement District Management's Discussion and Analysis

Physical environment decreased from the prior year primarily due to the decrease in fuel costs and an increase in fuel efficiency.

	Change in Net Position Governmental Activities	
	2021	2020
<b>Revenues:</b>		
Program revenues	\$ 3,092,728	\$ 3,271,443
Investment income and miscellaneous	20,191	24,625

Interest on long-term debt	38,172	51,184
Loss on sale of assets	-	29,782
<b>Total expenses</b>	<b>2,761,628</b>	3,309,588
<b>Change in net position</b>	<b>387,411</b>	(13,520)
<b>Net position:</b>		
Beginning of year	7,288,335	7,301,855
<b>End of year</b>	<b>\$ 7,675,746</b>	\$ 7,288,335

### Notes to the financial statements

The notes provide additional information that is essential to a full understanding of the data provided in the governmental-wide and fund financial statements. The notes to financial statements can be found starting on page 21 of this report.

### General Fund Budgetary Highlights

The District's primary budgetary income source is through the annual per acre assessment levied against landowners within the jurisdictional area represented by the District. The total annual per acre assessment for the period ending September 30, 2021, is \$123.00 per acre or portion thereof. This assessment is levied against 25,230.30 acres. District's assessments are collected through the local county tax collection office. For the fiscal year end September 30, 2021, approximately 97.67% of the District's annual budgeted revenue came from this assessment source. Historically, the balance of the remaining annual budgeted revenues come from a variety of revenues sources, including the land management activities associated with the alligator harvesting agreement and the FCC stormwater fees.

Total expenditures for the year ending 2021 came in approximately \$310,401 less than budgeted.

## St. Johns Improvement District Management's Discussion and Analysis

### Capital Assets

At September 30, 2021, the District's investment in capital assets amounted to \$7,771,543 (net of accumulated depreciation). This amount represents a net decrease of (\$53,179) after fiscal year total depreciation of (\$622,635) for the year ending September 30, 2021. This is a result of the District having more depreciation than additions as well as the completion of construction in progress.

### Long-Term Debt

During 2021, the District paid \$40,281 of interest on the loan obtained in fiscal year 2020. A principal payment and an extra prepayment were made totaling \$375,306. The Line of Credit remained unused and no fees were due.

### Economic Factors and Next Year's Budget

While not experiencing the same dynamic conversion from agricultural to planned unit developments as areas east of Interstate 95 in Indian River County have experienced, nonetheless, the lands within the District are experiencing some land conversion from traditional and historic agricultural lands to a varied non-agricultural or quasi-agricultural use. The potential conversion of lands may be hastened by future projects in adjacent areas, the economics of the times, and the uptick in ownership changes that the District has seen. FPL continues the development of their fourth solar farm; meanwhile the planned interchange at Oslo Rd and I-95 has brought more interest in the on-goings of the District. FPL has planned an additional solar farm on property they already own and remain the second largest landowner in the District. There has been no additional conservation easements proposed and the acreage included within them remains at 2,046.34.

The assessment per acre is budgeted to decrease in fiscal year 2022 to \$113.00 per acre. This decrease represents an approximately \$250,000 decrease in the overall budget for the coming fiscal year. Several budget items were delayed to provide this relief to current landowners.

### Requests for Information

This financial report is designed to provide a general overview of the St. Johns Improvement District's finances for all those with an interest in the District's finances. Questions concerning any of the information should be addressed to the Administrator's office at 905 122<sup>nd</sup> Ave SW; Vero Beach, Florida 32968.

*The accompanying notes are an integral part of this financial statement.*

**St. Johns Improvement District**  
**Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund**  
**Balance of Governmental Fund to the Statement of Activities**

*For the year ended September 30, 2021*

Net change in fund balance - total governmental funds	\$ (783)
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation of \$622,635 exceeded capital outlay of \$569,456 in the current period.	(53,179)
Repayment of note principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.	375,306
Interest payable on long-term debt that is not due and payable in the current period is not recorded in the governmental funds, but increases interest expense in the statement of activities.	2,109
Compensated absences are reported in the statement of activities when earned. As they do not require the use of current financial resources, they are not reported as expenditures on governmental funds until they have matured. This is the amount of compensated absences reported in the statement of activities in the prior year that has matured in the current year.	(4,399)
Other post-employment benefit obligation reported in the statement of activities does not require the use of current financial resources; therefore, is not reported as an expenditure in governmental funds. This is the amount by which the required financial resources changed in the current period.	11,568
Cash pensions contributions reported in the funds were greater than the calculated pension expense on the statement of activities and therefore decrease net position.	56,789
<b>Change in net position of governmental activities</b>	<b>\$ 387,411</b>

*The accompanying notes are an integral part of this financial statement.*

## St. Johns Improvement District Notes to Financial Statements

### Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The St. Johns Improvement District (the “District”), was incorporated in 1962 by decree of the Circuit Court of the Ninth Judicial Circuit in Indian River County under Florida Statutes (Chapter 298.01), and consists of landowners who receive the benefit of water management and are assessed taxes on a per acre basis of the areas within District Boundaries. On June 26, 2007, the St. Johns Water Control District was renamed and converted from a single-purpose Water Control District, to a multiple-purpose Improvement District by legislative approval and signature of the Governor. As a multiple-purpose improvement district, the District is governed primarily by Chapter 189 of the Florida Statutes, and as such, the District has the statutory power to build and maintain every type of municipal infrastructure and provide any kind of municipal service that a county or district would provide, with the exceptions of public safety, and zoning changes, which must be in compliance with the adopted comprehensive plan administered by the county. Improvements and services provided are for the exclusive benefit of the landowners and are paid for by them through annual land assessments. The District is empowered to sell bonds to pay for capital improvements, and is authorized to create units of development within the District.

#### ***Reporting Entity***

The District is a multi-purpose improvement district governed by a three-member Board of Supervisors (the “Board”). The accompanying financial statements present the District. The accounting policies of the District conform to generally accepted accounting principles (GAAP) as applied to governmental units. The more significant accounting policies used by the District are described below.

#### ***Government-Wide and Fund Financial Statements***

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the District. Governmental activities, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from business-type activities, which rely to a significant extent on fees and charges to external customers for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

## St. Johns Improvement District Notes to Financial Statements

### Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### ***Measurement Focus, Basis of Accounting and Financial Statement Presentation***

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Special Assessments are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, sales taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year end). All other revenue items are considered to be measurable and available only when cash is received by the District.

#### ***Government-Wide Financial Statements***

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from the governmental fund.

## St. Johns Improvement District Notes to Financial Statements

### Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### ***Fund Financial Statements***

The District reports the following major governmental fund:

The *General Fund* is the District's primary operating fund. It accounts for all financial resources of the general government.

#### ***Budgetary Information***

##### *Budgetary basis of accounting*

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the General Fund. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the fund level.

Appropriations in all budgeted funds lapse at the end of the fiscal year even if they have related encumbrances. Encumbrances are commitments related to unperformed (executory) contracts for goods or services (i.e., purchase orders, contracts, and commitments). Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. While all appropriations and encumbrances lapse at year end, valid outstanding encumbrances (those for which performance under the executory contract is expected in the next year) are re-appropriated and become part of the subsequent year's budget pursuant to state regulations.

#### ***Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position or Equity***

##### *Cash and cash equivalents*

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

##### *Inventory*

Inventory is valued at cost using the first-in/first-out (FIFO) method and consists of fuel. The cost of such inventory is recorded as expenditures/expenses when purchased.

## St. Johns Improvement District Notes to Financial Statements

### Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### *Capital Assets*

Capital assets, which include property, plant, equipment, and infrastructure assets, are reported in the governmental activities column in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$1,500 and an estimated useful life in excess of five years.

In the case of the initial capitalization of general infrastructure assets (i.e., those reported by governmental activities), the District chose to include all such items regardless of their acquisition date or amount. The District was able to estimate the historical cost for the initial reporting of these assets through back trending (i.e., estimating the current replacement cost of the infrastructure to be capitalized and using an appropriate price-level index to deflate the cost to the acquisition year or estimated acquisition year). As the District constructs or acquires additional capital assets each period, including infrastructure assets, they are capitalized and reported at historical cost. The reported value excludes normal maintenance and repairs which are essentially amounts spent in relation to capital assets that do not increase the capacity or efficiency of the item or increase its estimated useful life. Donated capital assets are recorded at their estimated acquisition value at the date of donation.

Land and construction in progress are not depreciated. The other property, plant, equipment, and infrastructure of the primary government are depreciated using the straight line method over the following estimated useful lives:

<u>Capital asset classes</u>	<u>Lives</u>
Buildings	39
Equipment and vehicles	5-10
Bridges, culverts, roads	15
Intangibles	5-10
Infrastructure	7-50

#### *Deferred Outflows/Inflows of Resources*

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/ expenditure) until then.

## St. Johns Improvement District Notes to Financial Statements

### Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### *Deferred Outflows/Inflows of Resources (Continued)*

The District has two items that qualify for reporting as deferred outflows of resources, the *deferred outflows related to other post-employment benefits* and the *deferred outflows related to pensions*, both of which are reported in the government-wide statement of net position. The *deferred outflows related to other post-employment benefits* are an aggregate of items related to other post-employment benefits as calculated in accordance with GASB Codification Section P52: *Other Post-employment Benefits*, and result from the change in assumptions for the discount rate and will be amortized for 7 years. The *deferred outflows related to other post-employment benefits* will be recognized as either group health insurance expense or a reduction in the net OPEB liability in future reporting years. The *deferred outflows related to pensions* are an aggregate of items related to pensions as calculated in accordance with GASB Codification Section P20: *Pension Activities – Reporting for Benefits Provided through Trusts That Meet Specified Criteria*. The *deferred outflows related to pensions* will be recognized as either pension expense or a reduction in the net pension liability in future reporting years.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

The District has one item that qualifies for reporting as deferred inflows of resources, the *deferred inflows related to pensions*, reported in the government-wide statement of net position. The *deferred inflows related to pensions* are an aggregate of items related to pensions as calculated in accordance with GASB Codification Section P20: *Pension Activities – Reporting for Benefits Provided through Trusts That Meet Specified Criteria*. The *deferred inflows related to pensions* will be recognized as a reduction to pension expense in future reporting years.

#### *Compensated Absences*

The District's policy permits employees to accumulate earned but unused vacation benefits, which are eligible for payment upon separation from government service upon the approval of the Board of Supervisors. The liability for such leave is reported as incurred in the government-wide financial statements.

#### *Long-Term Obligations*

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities.

In the fund financial statements, governmental fund types recognize principal payments during the current period. The face amount of debt issued is reported as other financing sources.

**Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

*Defined Benefit Pension Plans*

The District participates in cost-sharing, multiple-employer, defined benefit pension plans that are administered by the State, the Florida Retirement System. For purposes of measuring the net pension asset or liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net positions of the state-administered defined benefit pension plans and additions to/deductions from the state-administered defined benefit pension plan's fiduciary net positions have been determined on the same basis as they are reported by the state-administered defined benefit pension plans. For this purpose, plan member contributions are recognized in the period in which the contributions are due. The District's employer contributions are recognized when due, and the District has a legal requirement to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the state-administered defined benefit pension plan.

*Other Post-Employment Benefits (OPEB) Liability*

For purposes of measuring the net OPEB liability, deferred outflows/inflows of resources related to OPEB, and OPEB expense have been determined on the same basis as they are reported by the plan. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as you-go plan.

*Categories and Classification of Fund Equity*

*Fund balance flow assumptions* – Sometimes the District will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

*Fund balance policies* – Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The District itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The provisions of GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, specifies the following classifications:

## St. Johns Improvement District Notes to Financial Statements

### Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### *Categories and Classification of Fund Equity (Continued)*

*Nonspendable fund balance* – Nonspendable fund balances are amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

*Restricted fund balance* – Restricted fund balances are restricted when constraints placed on the use of resources are either: (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

*Committed fund balance* – The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the District's highest level of decision-making authority. The governing council is the highest level of decision-making authority for the District that can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

*Assigned fund balance* – Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as committed. The governing council (council) has by resolution authorized the finance director to assign fund balance. The council may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

*Unassigned fund balance* – Unassigned fund balance is the residual classification for the General Fund.

#### ***Revenues and Expenditures/Expenses***

*Special Assessments* – The District's taxpayer assessment revenue (non ad-valorem) is levied through the Indian River County Tax Collector based on the approved budget submitted to the County by the District on or before September 1 of each tax year. The assessment is included in the County's property tax levy which begins each November 1, and becomes a lien on the first day of the levy year, and is due on or before March 31. Discounts are allowed for early payment. The special assessment rate assessed by the District for the year ended September 30, 2021 was \$123 per acre.

#### ***Use of Estimates***

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make various estimates. Actual results could differ from those estimates.

**Note 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

***Subsequent Events***

Management has evaluated subsequent events through the date that the financial statements were available to be issued, February 25, 2022.

***Recently Issued and Implemented Accounting Pronouncements***

The Governmental Accounting Standards Board has issued statements that will become effective in future years. These statements are as follows:

In June 2017, the GASB issued Statement No. 87, *Leases*. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The requirements of this Statement are effective for reporting periods beginning after June 15, 2021.

The District is evaluating the requirements of the above statement and the impact on reporting.

**Note 2: DETAILED NOTES ON ALL FUNDS**

***Deposits and Investments***

As of September 30, 2021, \$1,230,278 of the District's bank balances is covered by federal depository insurance (FDIC). Monies invested in amounts greater than the insurance coverage are secured by the qualified public depositories pledging securities with the State Treasurer in such amounts required by the Florida Security for Public Depositories Act. In the event of a default or insolvency of a qualified public depositor, the State Treasurer will implement procedures for payment of losses according to the validated claims of the District pursuant to Section 280.08, Florida Statutes.

*Custodial credit risk* – Custodial credit risk for deposits is the risk in the event of the failure of a depository financial institution a government may not be able to recover deposits. Monies placed on deposit with financial institutions in the form of demand deposits, time deposits or certificate of deposits are defined as public deposits. The financial institutions in which the District places its deposits are certified as "qualified public depositories," as required under the Florida Security for Public Deposits Act. For an investment, this is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

## St. Johns Improvement District Notes to Financial Statements

### Note 2: DETAILED NOTES ON ALL FUNDS (Continued)

#### Capital Assets

The following is a summary of changes in capital assets during the year ended September 30, 2021:

	Beginning Balance	Transfer/ Increases	Transfer/ Decreases	Ending Balance
<b>Governmental Activities</b>				
Capital assets, not being depreciated				
Land	\$ 1,344,263	\$ -	\$ -	\$ 1,344,263
Construction-in-progress	14,564	153,037	(167,601)	-
<b>Total capital assets, not being depreciated</b>	<b>1,358,827</b>	<b>153,037</b>	<b>(167,601)</b>	<b>1,344,263</b>
Capital assets, being depreciated				
Infrastructure	12,975,918	189,803	-	13,165,721
Intangibles	46,554	-	-	46,554
Buildings	426,233	153,037	-	579,270
Bridges culverts & roads - other costs	1,644,204	27,006	-	1,671,210
Equipment and vehicles	2,186,684	214,174	(372,203)	2,028,655
<b>Total capital assets, being depreciated</b>	<b>17,279,593</b>	<b>584,020</b>	<b>(372,203)</b>	<b>17,491,410</b>
Less accumulated depreciation for				
Infrastructure	(7,141,488)	(503,300)	-	(7,644,788)
Intangibles	(18,621)	(4,656)	-	(23,277)
Buildings	(201,052)	(9,021)	-	(210,073)
Bridges culverts & roads - other costs	(1,511,935)	(13,742)	-	(1,525,677)
Equipment and vehicles	(1,940,602)	(91,916)	372,203	(1,660,315)
<b>Total accumulated depreciation</b>	<b>(10,813,698)</b>	<b>(622,635)</b>	<b>372,203</b>	<b>(11,064,130)</b>
<b>Total capital assets being depreciated, net</b>	<b>6,465,895</b>	<b>(38,615)</b>	<b>-</b>	<b>6,427,280</b>
<b>Governmental activities capital assets, net</b>	<b>\$ 7,824,722</b>	<b>\$ 114,422</b>	<b>\$ (167,601)</b>	<b>\$ 7,771,543</b>

Depreciation expense for the year ended September 30, 2021 was \$622,635.

#### Long-Term Debt and Liabilities

##### Line of Credit

The District has a line of credit up to \$650,000 that expires September 14, 2022, that has a floating interest rate per annum of LIBOR plus 2.53%. There was \$0 outstanding at September 30, 2021 on the line of credit.

**St. Johns Improvement District  
Notes to Financial Statements**

**Note 2: DETAILED NOTES ON ALL FUNDS (Continued)**

***Long-Term Debt and Liabilities (Continued)***

*Notes Payable*

On June 14, 2019 the District entered into a \$1,400,000 note with Synovus bank with a maturity date of June 1, 2029. The interest rate was fixed at 3.25%. Principal payment is due annually starting on June 1, 2020 and interest is due semiannually on January 1 and June 1 of each year. Interest of \$38,172 was paid on this note during the year ended September 30, 2021. The note is secured by available future special assessment levies issued by the district. At September 30, 2021 the outstanding balance on the note was \$910,677. In the event of default all principal and interest of the note will become immediately due and payable.

The following is a summary of governmental activities notes payable, direct borrowing, for the year ended September 30, 2021:

<i>Year ending September 30,</i>	Governmental Activities	
	Series 2019 Note	
	Principal	Interest
2022	\$ 129,378	\$ 29,597
2023	133,583	25,392
2024	137,924	21,051
2025	142,407	16,568
2026	147,035	11,940
2027-2031	220,350	9,389
<b>Total</b>	<b>910,677</b>	<b>113,937</b>
<b>Current portion</b>	<b>(129,378)</b>	<b>(29,597)</b>
<b>Payable after one year</b>	<b>\$ 781,299</b>	<b>\$ 84,340</b>

***Changes In Long-Term Liabilities***

Long-term liability activity for the year ended September 30, 2021, was as follows for governmental activities:

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Governmental activities					
Notes payable					
Series 2019 Note	\$ 1,285,983	\$ -	\$ (375,306)	\$ 910,677	\$ 129,378
Compensated absences	10,295	19,757	(15,358)	14,694	14,694
Governmental activity long-term liabilities	<b>\$ 1,296,278</b>	<b>\$ 19,757</b>	<b>\$ (390,664)</b>	<b>\$ 925,371</b>	<b>\$ 144,072</b>

**St. Johns Improvement District  
Notes to Financial Statements**

**Note 2: DETAILED NOTES ON ALL FUNDS (Continued)**

***Changes In Long-Term Liabilities (Continued)***

Compensated absences, other postemployment benefits and the net pension liability will be liquidated in future periods primarily by the General Fund for governmental activities.

***Net Investment in Capital Assets***

The elements of this calculation are as follows:

	Governmental Activities
Capital assets (net)	\$ 7,771,543
Outstanding debt related to capital assets	(910,677)
Net investment in capital assets	\$ 6,860,866

**Note 3: RETIREMENT PLANS**

***Description of Plans***

The District participates in two defined benefit pension plans that are administered by the State of Florida, Department of Management Services, Division of Retirement. The plans provide retirement, disability or death benefits to retirees or their designated beneficiaries. Chapter 121, Florida Statutes, establishes the authority for benefit provisions. Changes to the law can only occur through an act of the Florida Legislature. The State of Florida issues a publicly available financial report that includes financial statements and required supplementary information for the plans. That report is available from the Florida Department of Management Services' website ([www.dms.myflorida.com](http://www.dms.myflorida.com)).

The Florida Retirement System (FRS) Pension Plan is a cost-sharing, multiple-employer defined benefit pension plan with a Deferred Retirement Option Program (DROP) available for eligible employees. The FRS was established and is administered in accordance with Chapter 121, Florida Statutes. Retirees receive a lifetime pension benefit with joint and survivor payment options. FRS membership is compulsory for employees filling regularly established positions in a state agency, county agency, state university, state college, or district school board, unless restricted from FRS membership under Sections 121.053 or 121.122, Florida Statutes, or allowed to participate in a defined contribution plan in lieu of FRS membership. Participation by cities, municipalities, special districts, charter schools and metropolitan planning organizations is optional.

**Note 3: RETIREMENT PLANS (Continued)**

***Description of Plans (Continued)***

The Retiree Health Insurance Subsidy (HIS) Program is a cost-sharing, multiple-employer defined benefit pension plan established and administered in accordance with Section 112.363, Florida Statutes. The benefit is a monthly payment to assist retirees of the state-administered retirement systems in paying their health insurance costs. To be eligible to receive a HIS benefit, a retiree under a state administered retirement system must provide proof of eligible health insurance coverage, which can include Medicare.

***Benefits Provided***

Benefits under the FRS Pension Plan are computed on the basis of age and/or years of service, average final compensation, and service credit. Credit for each year of service is expressed as a percentage of the average final compensation. For members initially enrolled before July 1, 2011, the average final compensation is the average of the five highest fiscal years' earnings; for members initially enrolled on or after July 1, 2011, the average final compensation is the average of the eight highest fiscal years' earnings. The total percentage value of the benefit received is determined by calculating the total value of all service, which is based on the retirement plan and/or class to which the member belonged when the service credit was earned.

Eligible retirees and beneficiaries receive a monthly HIS payment equal to the number of years of service credited at retirement multiplied by \$5. The minimum payment is \$30 and the maximum payment is \$150 per month, pursuant to Section 112.363, Florida Statutes.

***Contributions***

The contribution requirements of plan members and the employer are established and may be amended by the Florida Legislature. Employees are required to contribute 3.00% of their salary to the FRS Pension Plan.

The employer's contribution rates as of September 30, 2021, were as follows:

	FRS	HIS
Regular class	9.16%	1.66%
Senior management service class	27.35%	1.66%

The employer's contributions for the year ended September 30, 2021, were \$64,647 to the FRS Pension Plan and \$6,971 to the HIS Program.

**St. Johns Improvement District  
Notes to Financial Statements**

**Note 3: RETIREMENT PLANS (Continued)**

***Pension Liabilities and Pension Expense***

In its financial statements for the year ended September 30, 2021, the District reported a liability for its proportionate share of the net pension liability of the FRS Pension Plan and its proportionate share of the net pension liability of the HIS Program. The net pension liabilities were measured as of June 30, 2021. The District's proportions of the net pension liabilities were based on its share of contributions to the pension plans relative to the contributions of all participating entities, actuarially determined.

		FRS		HIS
Net Pension Liability	\$	104,014	\$	144,207
Proportion at:				
Current measurement date		0.0014%		0.0012%
Prior measurement date		0.0013%		0.0011%
Pension expense	\$	1,458	\$	3,226

***Deferred Outflows/Inflows of Resources Related to Pensions***

At September 30, 2021, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	FRS		HIS	
	Deferred Outflow of Resources	Deferred Inflow of Resources	Deferred Outflow of Resources	Deferred Inflow of Resources
Differences between expected and actual experience	\$ 17,828	\$ -	\$ 4,826	\$ (60)
Change of assumptions	71,171	-	11,331	(5,946)
Net difference between projected and actual earnings on pension plan investments	-	(362,878)	150	-
Changes in proportion and differences between District pension plan contributions and proportionate share of contributions	46,016	(2,858)	10,733	(6,792)
District pension plan contribution subsequent to the measurement date	15,046	-	1,754	-
Total	\$ 150,061	\$ (365,736)	\$ 28,794	\$ (12,798)

**St. Johns Improvement District  
Notes to Financial Statements**

**Note 3: RETIREMENT PLANS (Continued)**

***Pension Liabilities and Pension Expense***

Deferred outflows of resources related to employer contributions paid subsequent to the measurement date and prior to the employer’s fiscal year end will be recognized as a reduction of the net pension liability in the reporting period ending September 30, 2021. Other pension-related amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in pension expense as follows:

Year Ending September 30:	FRS	HIS
2022	\$ (41,530)	\$ 3,988
2023	(48,451)	1,282
2024	(62,295)	2,564
2025	(78,445)	3,418
2026	-	2,564
Thereafter	-	426
<b>Total</b>	<b>\$ (230,721)</b>	<b>\$ 14,242</b>

***Actuarial Assumptions***

The total pension liability for each of the defined benefit plans was measured as of June 30, 2021. The total pension liability for the FRS Pension Plan was determined by an actuarial valuation dated July 1, 2021. For the HIS Program, the total pension liability was determined by an actuarial valuation dated July 1, 2020. The individual entry age normal actuarial cost method was used for each plan, along with the following significant actuarial assumptions:

	FRS	HIS
Inflation	2.40%	2.40%
Salary increases, including inflation	3.25%	3.25%
Investment rate of return	6.80%	N/A
Discount rate	6.80%	2.16%

Mortality assumptions for both plans were based on the PUB-2010 base tables projected generationally with Scale MP-2018.

For both plans, the actuarial assumptions were based on the results of an actuarial experience study for the period July 1, 2013, through June 30, 2018.

**Note 3: RETIREMENT PLANS (Continued)**

***Actuarial Assumptions (Continued)***

The following changes in key actuarial assumptions occurred in 2021:

FRS: Decrease the maximum amortization period to 20 years for all current and future amortization bases.

HIS: The municipal bond index rate and the discount rate used to determine the total pension liability decreased from 2.21% to 2.16%.

The long-term expected investment rate of return for the FRS Pension Plan was not based on historical returns, but instead was based on a forward-looking capital market economic model. Each asset class assumption is based on a consistent set of underlying assumptions, and includes an adjustment for the inflation assumption of 2.40%. For the FRS Pension Plan, the table below summarizes the consulting actuary's assumptions based on the long-term target asset allocation.

Asset Class	Target Allocation (1)	Compound	
		Annual Arithmetic Return	Annual Geometric Return
Cash	1.0%	2.1%	2.1%
Fixed income	20.0%	3.8%	3.7%
Global equity	54.2%	8.2%	6.7%
Real estate	10.3%	7.1%	6.2%
Private equity	10.8%	11.7%	8.5%
Strategic investments	3.7%	5.7%	5.4%
Total	<u>100%</u>		

***Discount Rate***

The discount rate used to measure the total pension liability for the FRS Pension Plan was 6.80%. FRS' fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return.

Because the HIS Program is essentially funded on a pay-as-you-go basis and the depletion date is considered to be immediate, a municipal bond rate of 2.16% was used to determine the total pension liability for the program. The Bond Buyer General Obligation 20-Year Municipal Bond Index was used as the applicable municipal bond index.

**Note 3: RETIREMENT PLANS (Continued)**

***Sensitivity Analysis***

The following tables demonstrate the sensitivity of the net pension liability to changes in the discount rate. The sensitivity analysis shows the impact to the employer’s proportionate share of the net pension liability if the discount rate was 1.00% higher or 1.00% lower than the current discount rate.

	FRS			HIS		
	1% Decrease	Current Discount Rate	1% Increase	1% Decrease	Current Discount Rate	1% Increase
<i>September 30, 2021</i>	5.80%	6.80%	7.80%	1.16%	2.16%	3.16%
District's proportionate share of the net pension liability	\$ 465,157	\$ 104,014	\$ (197,861)	\$ 166,717	\$ 144,207	\$ 125,765

***Pension Plans’ Fiduciary Net Position***

Detailed information about the pension plans’ fiduciary net position is available in the State’s separately issued financial reports.

**Note 4: POST EMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB)**

***Plan Description***

The District administers a single-employer defined benefit healthcare plan (the “Plan”) that provides medical insurance to its employees and their eligible dependents. Pursuant to Section 112.0801 Florida Statutes, the District is required to provide eligible retirees (as defined in the District’s pension plans) the opportunity to participate in this Plan at the same cost that is applicable to active employees. The District does not issue stand-alone financial statements for this Plan. All financial information related to the Plan is accounted for in the District’s basic financial statements.

***Funding Policy***

The District is funding the post employee benefits on a pay-as-you-go basis. Contribution rates for the Plan are established by District Board of Supervisors annually during the budget process. The District does not pay for health insurance premiums for retirees. Blended premium rates for active and retired employees combined provide an implicit subsidy for retirees because on an actual basis, their current and future claims are expected to result in higher costs to the Plan than those of active employees. The current year contributions are determined as annualized claims incurred based on the retiree age at the beginning of the fiscal year and the claims table used for liability determination offset by the annual premium paid by the retiree for such coverage. District contributions are assumed to be equal to benefits paid.

## St. Johns Improvement District Notes to Financial Statements

### Note 4: POST EMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) (Continued)

#### *Plan Membership*

The District's Plan includes 9 active participants.

#### *Actuarial Assumptions and Other Inputs*

In the September 30, 2021 measurement data, the actuarial assumptions and other inputs, applied include the following:

Inflation	2.15%
Salary increases	5.33% projected annual salary increase
Discount rate	2.43% investment rate of return
Healthcare cost trend rates	The expected rates of increase in health-care costs are based on projections of the Office of the Actuary at the Centers for Medicare & Medicaid Services, in National Health Care Expenditures Projections: 2019-2028 ( <a href="http://www.cms.hhs.gov">www.cms.hhs.gov</a> ). Health-care costs are expected to increase as follows:
	2022: 4.30%
	2023: 4.40%
	2024: 4.30%
	2025: 5.00%
	2026: 4.90%
	Ultimate: 4.90%
Retirees' share of benefit-related costs	100.0% of projected health insurance premiums

The discount rate was selected based on a 20-year tax-exempt high-quality general obligation municipal bond yield of index.

Mortality rates were based on the RP-2014 Mortality Tables for annuitants for small plans for Males and Females as appropriate with both rates, with adjustments for mortality improvements based on Scale MP, as published by the Internal Revenue Service (IRS) for purposes of Internal Revenue Code (IRC) section 430.

**St. Johns Improvement District  
Notes to Financial Statements**

**Note 4: POST EMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) (Continued)**

***Actuarial Assumptions and Other Inputs (Continued)***

The actuarial assumptions used in the September 30, 2021 valuation were not based on the results of an actuarial experience study.

At September 30, 2021, the District reported a total OPEB liability of \$17,893. The information has been provided as of the September 30, 2021 measurement date.

	Increase (Decrease)		
	Total OPEB Liability (a)	Plan Fiduciary Net Position (b)	Net OPEB Liability (a) - (b)
Balance as of October 1, 2020 for FYE 2020	\$ 22,072	\$ -	\$ 22,072
Changes for the year:			
Service cost	963	-	963
Interest	548	-	548
Changes of assumptions	(5,690)	-	(5,690)
Net changes	(4,179)	-	(4,179)
Balance as of October 1, 2021 for FYE 2021	\$ 17,893	\$ -	\$ 17,893

***Sensitivity of the Net OPEB Liability***

The following table represents the District's OPEB liability calculated using the discount rate of 2.43%, as well as what the District's net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

	1% Decrease (1.43%)	Discount Rate (2.43%)	1% Increase (3.43%)
Total OPEB Liability	\$ 19,055	\$ 17,893	\$ 16,786

The following table represents the District's OPEB liability as if it were calculated using a healthcare cost trend rate that is one percentage point lower or one percentage point higher than the current rate:

	1% Decrease	Healthcare Cost Trend Rate	1% Increase
Total OPEB Liability	\$ 16,716	\$ 17,893	\$ 19,146

**St. Johns Improvement District  
Notes to Financial Statements**

**Note 4: POST EMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB) (Continued)**

***OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB***

For the fiscal year ended September 30, 2021, the District recognized a reduction to OPEB expense of \$11,568. In addition the District reported deferred outflows of resources related to the OPEB plan from the following sources:

		Deferred Outflows of Resources		Deferred Inflows of Resources
Change of assumptions	\$	4,877	\$	-
<b>Total</b>	<b>\$</b>	<b>4,877</b>	<b>\$</b>	<b>-</b>

Amounts reported as deferred outflows of resources and deferred inflows of resources related to the OPEB plan will be recognized in the expense as follows:

Year ending September 30,		
2022	\$	813
2023		813
2024		813
2025		813
2026		813
Thereafter		812
<b>Total</b>	<b>\$</b>	<b>4,877</b>

**Note 5: DEFERRED COMPENSATION PLAN**

All employees of the District may voluntarily elect to participate in a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan is administered by Nationwide Retirement Solutions. The plan permits participants to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency.

Because the Plan Assets are held in a trust for the exclusive benefit of plan participants and their beneficiaries, the plan is not accounted for in the District's financial statements. The District has not made any plan contributions during the fiscal year.

**Note 6: RISK MANAGEMENT**

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Risk of loss from the above is transferred by the District to various commercial insurers through the purchase of insurance. The District has maintained continuous coverage and does not believe it has any exposure to events which occurred prior to the year ended September 30, 2021.

**Note 7: COMMITMENTS AND CONTINGENCIES**

During the ordinary course of its operations, the District is a party to various claims, legal actions, and complaints. In 2012, the District entered into a settlement agreement to settle litigation related to a pump station. However, District management does not believe that the pump station described in the settlement agreement will perform its function as designed. The District has budgeted for a three year project to address the drainage and discharge issues.

On January 9, 2017, the trial court ordered the District to comply with the Settlement Agreement and construct, maintain, and operate Pump Station 10. In addition, the District must pay reasonable attorney fees and other plaintiff costs. As of September 30, 2021, the District had incurred costs of approximately \$2,754,000 to comply with the trial court order. No more costs are anticipated regarding the trial court order.

In March 2020, the World Health Organization made the assessment that the outbreak of a novel coronavirus (COVID-19) can be characterized as a pandemic. As a result, uncertainties have arisen that may have a significant negative impact on the operating activities and results of the District. The occurrence and extent of such an impact will depend on future developments, including (i) the duration and spread of the virus, (ii) government quarantine measures, (iii) voluntary and precautionary restrictions on travel or meetings, (iv) the effects on the financial markets, (v) the effects on the economy overall, and (vi) the availability of commodities, all of which are uncertain.

THIS PAGE IS INTENTIONALLY LEFT BLANK.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL  
STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

To the Board of Supervisors  
St. Johns Improvement District

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and major fund of the St. Johns Improvement District, Florida, as of and for the year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated February 25, 2022.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered St. Johns Improvement District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of St. Johns Improvement District's internal control. Accordingly, we do not express an opinion on the effectiveness of the St. Johns Improvement District's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

## Compliance and Other Matters

As part of obtaining reasonable assurance about whether the St. Johns Improvement District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITORS’ MANAGEMENT LETTER**

To the Board of Supervisors  
 St. Johns Improvement District

**Report on the Financial Statements**

We have audited the financial statements of the St. Johns Improvement District, Florida, as of and for the fiscal year ended September 30, 2021, and have issued our report thereon dated February 25, 2022.

**Auditors’ Responsibility**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and Chapter 10.550, Rules of the Auditor General.

**Other Reporting Requirements**

We have issued our Independent Auditors’ Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards*, and Independent Accountants’ Report on an examination conducted in accordance with *AICPA Professional Standards*, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports, which are dated February 25, 2022 should be considered in conjunction with this management letter.

**Prior Audit Findings**

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. Corrective actions have been taken to address findings and recommendations made in the preceding financial audit report as noted below:

Prior Year Management Letter Comments:	Status
ML 2020-001 Journal Entries	Cleared
ML 2020-002 Accounts Payable	Cleared
ML 2020-003 Fuel Inventory	Cleared
ML 2020-004 Fixed Assets	Cleared

## Official Title and Legal Authority

Section 10.554(l)(i)4., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. The legal authority of the St. Johns Improvement District is disclosed in the footnotes. The District has no component units.

## Financial Condition and Management

Section 10.554(l)(i)5.a. and 10.556(7), Rules of the Auditor General, require us to apply appropriate procedures and communicate the results of our determination as to whether or not the St. Johns Improvement District met one or more of the conditions described in Section 218.503(1), Florida Statutes, and to identify the specific condition(s) met. In connection with our audit, we determined that the St. Johns Improvement District did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.554(1)(i)5.b. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures for the St. Johns Improvement District. It is management's responsibility to monitor the St. Johns Improvement District's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

## Specific Information (Unaudited)

As required by Section 218.39(3)(c), Florida Statutes, and Section 10.554(1)(i)6, Rules of the Auditor General, the St. Johns Improvement District reported the schedule below. This information has not been subjected to the auditing procedures applied in the audit of the financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

As required by Section 218.39(3)(c), Florida Statutes, and Section 10.554(1)(i)6, Rules of the Auditor General, the St. Johns Improvement District reported:

- |   |            |
|---|------------|
| a. The total number of District employees compensated in the last pay period of the District's fiscal year as                               | 9          |
| b. The total number of independent contractors to whom nonemployee compensation was paid in the last month of the District's fiscal year as | None       |
| c. All compensation earned by or awarded to employees, whether paid or accrued, regardless of contingency as                                | \$ 411,674 |
| d. All compensation earned by or awarded to nonemployee independent contractors, whether paid or accrued, regardless of contingency as      | None       |

- e. Each construction project with a total cost of at least \$65,000 approved by the District that is scheduled to begin after October 1 of the fiscal year being reported, together with the total expenditures for such projects as None
- f. A budget variance based on the budget adopted under Section 189.016(4), Florida Statutes, before the beginning of the fiscal year being reported if the District amends a final adopted budget under Section 189.016(6), Florida Statutes, as See Budget and Actual Statement on page 19

As required by Section 218.39(3)(c), Florida Statutes, and Section 10.554(1)(i)7, Rules of the Auditor General, the St. Johns Improvement District did not impose any ad valorem taxes, therefore there are no amounts to report.

As required by Section 218.39(3)(c), Florida Statutes, and Section 10.554(1)(i)8, Rules of the Auditor General, the St. Johns Improvement District reported:

- a. The millage rate or rates of non-ad valorem special assessments imposed by the District as \$123/acre
- b. The total amount of special assessments collected by or on behalf of the District as \$ 3,029,174 \*
- c. The total amount of outstanding bonds issued by the District and the terms of such bonds as None

\* Does not include delinquent interest

**Additional Matters**

Section 10.554(l)(i)3., Rules of the Auditor General, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but warrants the attention of those charged with governance. In connection with our audit, we did not note any such findings.

**Purpose of this Letter**

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, applicable management and the St. Johns Improvement District’s Board of Supervisors, and is not intended to be and should not be used by anyone other than these specified parties.

## **INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE WITH LOCAL GOVERNMENT INVESTMENT POLICIES**

To the Board of Supervisors  
St. Johns Improvement District

We have examined the St. Johns Improvement District's (the "District") compliance with the requirements of Section 218.415, Florida Statutes, *Local Government Investment Policies*, during the year ended September 30, 2021. Management of the District is responsible for the District's compliance with the specified requirements. Our responsibility is to express an opinion on the District's compliance with the specified requirements based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the District complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether the District complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Our examination does not provide a legal determination on the District's compliance with specified requirements.

In our opinion, the District complied, in all material respects, with the requirements of Section 218.415, Florida Statutes, *Local Government Investment Policies*, for the year ended September 30, 2021.

This report is intended solely for the information and use of the District Board of Supervisors, management, and the State of Florida Auditor General and is not intended to be and should not be used by anyone other than these specified parties.
