INDEPENDENT AUDITOR'S REPORT

To the Board of Supervisors
North Springs Improvement District

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the North Springs Improvement District (the "District"), as of and for the year ended September 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the North Springs Improvement District, as of September 30, 2022, and the respective changes in financial position, and, where applicable, cash flows thereof and the respective budgetary comparison of the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

SOUTH FLORIDA BUSINESS TOURNAL

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether
 due to fraud or error, and design and perform audit procedures responsive to those risks.
 Such procedures include examining, on a test basis, evidence regarding the amounts and
 disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing
 an opinion on the effectiveness of the District's internal control. Accordingly, no such
 opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the schedules related to pensions and other post-employment benefits on pages 4 through 8 and 47 through 51, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion the combining and individual nonmajor fund financial statements are fairly stated, in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 23, 2023, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

BASIC FINANCIAL STATEMENTS

Our discussion and analysis of North Springs Improvement District's (the "District") financial performance provides an objective and easily readable analysis of the District's financial activities. The analysis provides summary financial information for the District and should be read in conjunction with the District's financial statements.

Financial Highlights

The following are the highlights of financial activity for the year ended September 30, 2022:

- The District's total assets and deferred outflows of resources exceeded total liabilities and deferred inflows of resources by \$171,596,885 (net position). Unrestricted net position for governmental activities was \$556,973. Unrestricted net position for business-type activities was \$21,797,025.
- Governmental activities revenues totaled \$11,324,483 while governmental activities expenses totaled \$11,352,350. Business-type revenues totaled \$22,492,101 while business-type expenses totaled \$18,502,825.

Overview of the Financial Statements

The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to basic financial statements. The government-wide financial statements present an overall picture of the District's financial position and results of operations. The fund financial statements present financial information for the District's major funds. The notes to basic financial statements provide additional information concerning the District's finances that are not disclosed in the government-wide or fund financial statements.

Government-Wide Financial Statements: The Government-wide financial statements are the statement of net position and the statement of activities. These statements use accounting methods similar to those used by private-sector companies. Emphasis is placed on the net position of governmental activities and business-type activities and the change in net position. Governmental activities are primarily supported by property tax assessments. Business-type activities are supported by charges to the users of those activities, such as water and sewer services.

The statement of net position presents information on all assets and liabilities of the District, with the difference between assets, deferred inflows/outflows of resources and liabilities reported as net position. Net position is reported in three categories: 1) net investment in capital assets, 2) restricted and 3) unrestricted. Assets, liabilities, and net position are reported for all governmental activities separate from the assets, liabilities, and net position of business-type activities. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or declining.

The statement of activities presents information on all revenues and expenses of the District and the change in net position. Expenses are reported by major function and program. Revenues relating to those functions are reported, providing the net cost of all functions provided by the District. To assist in understanding the District's operations, expenses have been reported as governmental activities or business-type activities. Governmental activities financed by the District include physical environment and general government. Business-type activities financed by user charges include water and sewer services.

Fund Financial Statements: Fund financial statements present financial information for governmental funds and proprietary funds. These statements provide financial information for the major funds of the District. Governmental fund financial statements provide information on the current assets and liabilities of the fund, changes in current financial resources (revenues and expenditures), and current available resources. The proprietary fund financial statements provide information on all assets and liabilities of the fund, changes in the economic resources (revenues and expenses), and total economic resources.

Fund financial statements include a balance sheet and a statement of revenues, expenditures and change in fund balance for the governmental funds. A statement of revenues, expenditures, and change in fund balance - budget and actual, is provided for the District's General Fund. For proprietary funds, a statement of net position, a statement of revenues, expenses and change in net position, and a statement of cash flows are presented. Fund financial statements provide more detailed information about the District's activities. Individual funds are established by the District to track revenues that are restricted to certain uses and to comply with legal requirements.

The government-wide financial statements and the fund financial statements provide different pictures of the District. The government-wide financial statements provide an overall picture of the District's financial standing, split between governmental activities and business-type activities. These statements are comparable to private-sector companies and give a good understanding of the District's overall financial health and how the District paid for the various activities, or functions, provided by the District. All assets of the District, including buildings, land, machinery and equipment, construction-in-progress and infrastructure are reported in the statement of net position. All liabilities, including principal outstanding on bonds, and future employee benefits, obligated but not paid by the District, are included. The statement of activities includes a provision for depreciation of all long-lived assets of the District, but transactions between the different functions of the District have been eliminated in order to avoid "doubling up" the revenues and expenses. The fund financial statements provide a picture of the major funds of the District. In the case of governmental activities, outlays for long-lived assets are reported as expenditures and longterm liabilities, such as general obligations bonds, are not included in the fund financial statements. To provide a link from the fund financial statements to the government-wide financial statements, reconciliations are provided from the fund financial statements to the government-wide financial statements.

Notes to the Basic Financial Statements: The notes provide additional information that is necessary to acquire a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 21 through 46 of this report.

Other Information: In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information concerning the District's Other Post-Employment Benefits Plan and Pensions, which can be found on pages 47 through 51.

The combining statements of nonmajor governmental funds are presented immediately following the required supplementary information. The nonmajor governmental funds overview and combining fund statements can be found on pages 52 through 61.

Government-Wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of financial position. The following table reflects the condensed government-wide statements of net position as of September 30, 2022 and 2021:

North Springs Improvement District Statements of Net Position

	Governmenta	al Activities	Business-Type	e Activities	Total Primary Government			
	2022	2021	2022	2021	2022	2021

Analysis of the Governmental Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The focuses of the District's governmental funds are to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a District's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the District's governmental funds reported an ending fund balance of \$ 22,554,898.

Capital Assets and Debt Administration

The District's capital assets less accumulated depreciation for its governmental activities and business-type activities at September 30, 2022 amounts to \$148,859,199 and \$109,658,354, respectively, and mostly consists of land, buildings and improvements, infrastructure, equipment, meters in the field and construction-in-progress.

At the end of the year, the District's governmental activities had debt outstanding of \$ 100,451,842 and the District's business activities had debt outstanding of \$ 40,285,000.

Additional information on the District's debt can be found in Note 5 on pages 29 through 33 of this report.

General Fund Budgetary Highlights

An operating budget for the General Fund was adopted and maintained by the governing board for the District pursuant to the requirements of Florida Statutes. The General Fund budget is adopted using the same basis of accounting that is used in preparation of the fund financial statements. The budget to actual comparisons for the General Fund, including the original and final adopted budget, is shown on page 16.

Economic Factors and Next Year's Utility Rates

The increase in Water and Sewer is mainly due to the costs incurred to purchase the Heron Bay Golf which includes \$ 144,000 in additional expenditures for the maintenance of Heron Bay Golf and \$ 162,000 in legal expenditures. Additionally, the District had to pay \$ 208,000 in interest expense for the new series 2021 bond which was paid in full in January of 2023. Another reason for the increase is also \$ 172,000 that was paid for Itron software and server upgrade. Some other increases include the payroll, pension, chemicals and the wastewater treatment cost increase.

The decrease in General Fund is because the District had to pay \$ 2,000,000 for the ROW project (RFP 2020-01) in 2021 and the District did not have any major projects in 2022.

Requests for Information

This financial report is designed to provide a general overview of North Springs Improvement District's finances for all those with an interest. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the North Springs Improvement District, 9700 NW 52nd Street, Coral Springs, Florida 33076.

Note 1 - Organization and Operations

North Springs Improvement District (the "District") was established pursuant to Chapter 71-580. Laws of Florida, as amended, and Chapter 298, Florida Statutes, in 1971. Chapter 71-580 was replaced by Chapter 2005-341, Laws of Florida, which has been amended by Chapter 2007-285, Laws of Supplement No. 2, Supplement No. 3, a revised Supplement No. 3 and other laws, respectively. The District was created to undertake a variety of improvements, including the reclamation and drainage of land, to establish roads and highways, to provide access thereto, to provide water and sewage facilities and to promote and create favorable conditions for the development of land within the District.

Note 2 - Summary of Significant Accounting Policies

The basic financial statements of the District have been prepared in conformity with generally accepted accounting principles as applied to governmental units. The District's more significant accounting policies are described below.

Reporting entity: The criteria used for including component units consist of the identification of legally separate organizations for which the Board of Supervisors of the District are financially accountable. This criteria, also includes the identification of organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's basic financial statements to be misleading or incomplete. Based upon this review, there were no potential component units of the District.

The District's basic financial statements include both government-wide (reporting the District as a whole) and fund financial statements (reporting the District's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business-type. The District has both governmental and business-type activities.

In the government-wide statement of net position, the governmental activities column is presented on a consolidated basis, if applicable, and is reported on a full-accrual, economic resource basis, which recognizes all noncurrent assets and receivables as well as all noncurrent debt and obligations. The effect of inter-fund activity has been eliminated from the government-wide financial statements.

The government-wide statement of activities reports both the gross and net cost of each of the District's functions. The net costs, by function, are also supported by general revenues, other revenue, etc. The statement of activities reduces gross expenses by related program revenues, operating and capital grants. Program revenues must be directly associated with the function. Operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflect capital-specific grants.

This government-wide focus is more on the ability to sustain the District as an entity and the change in the District's net position resulting from the current year's activities.

The accounts of the District are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, net position, revenues and expenditures (expenses). Major individual governmental funds and the major individual proprietary fund are reported as separate columns in the fund financial statements.

The District reports the following major governmental funds:

General Fund - The General Fund is established to account for all financial transactions not properly accounted for in another fund.

Parkland Golf & Country Club Debt Service Fund (219 Debt Service) - The Parkland Golf and Country Club Debt Service Fund accounts for debt service requirements for the District's Special Assessment Refunding Bond, Series 2016.

2021-1 Capital Projects Fund (326 Capital Projects) - The 2021-1 Capital Projects Fund accounts for the construction of a stormwater preserve and the trail on Heron Bay golf course.

2021-2 Capital Projects Fund (327 Capital Projects) - The 2021-2 Capital Projects Fund accounts for the construction of a stormwater preserve and the trail on Heron Bay golf course.

The District reports the following major proprietary fund:

Water and Sewer Fund - The Water and Sewer Fund is a proprietary fund established to account for operations that are to be financed and operated in a manner similar to private business enterprises. The costs of providing services to customers are to be recovered primarily through user charges.

Measurement focus, basis of accounting, and presentation: Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the basic financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied. Governmental funds use the current financial resources measurement focus and the government-wide statements use the economic resources measurement focus.

Governmental activity in the government-wide financial statements is presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

The governmental funds are accounted for using the modified accrual basis of accounting. Revenues are recognized when they become measurable and available for use. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The District considers revenues available if they are collected within sixty days after year end. Expenditures are generally recognized when the liability is incurred, except that interest payable on debt is recognized only when due.

The Proprietary Fund uses the accrual basis of accounting. Revenue is recognized when earned and expenses are recognized when incurred.

Budgets and budgetary accounting: The District's annual budgets are adopted for the General Fund and Water and Sewer Fund and approved by the Board of Supervisors. The budget amounts presented in the accompanying basic financial statements are as originally adopted by the District's Board of Supervisors. Any amendments to the budget are reflected in the amended budget.

The General Fund budget is prepared on a basis consistent with generally accepted accounting principles (GAAP). The budget is a financial plan approved in the manner authorized by law, but not subject to appropriation.

Encumbrances: The District does not utilize encumbrance accounting.

Cash and cash equivalents: The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less when purchased to be cash equivalents.

Investments: Investments are stated at their fair value, which is based on quoted market prices. Unrealized gains and losses in fair value are recognized. Certain money market investments are stated at amortized cost if they have a remaining maturity of one year or less when purchased. Investments consist of State Board of Administration (SBA) Funds and money market mutual funds.

Accounts receivable: Accounts receivable reflected in the Water and Sewer Fund consist of charges to customers for service including sewer revenues on services which have been rendered whether billed or not. No allowance for doubtful accounts is considered necessary.

Prepaid items: Certain payments reflect costs applicable to a future accounting period and are recorded as prepaid items in both the government-wide and fund financial statements.

Interfund receivables and payable: Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds (i.e., amounts owed for goods/services rendered to a particular fund by another fund in the reporting entity) are reported as "due to/from other funds" (current portion). Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in the applicable governmental funds to indicate that they are not available for appropriation and are not expendable financial resources.

Assets held for resale: The assets held for resale represent land purchased by the District to promote development objectives of the District. This land is reported at the lower of cost or net realizable value.

Capital assets: Capital assets, which include land, buildings and improvements, infrastructure, machinery and equipment and construction-in-progress, are reported in the governmental or business-type activities columns in the government-wide financial statements. All capital assets are valued at historical cost or estimated cost when actual historical cost is not available. Donated capital assets are valued at their estimated fair value on the date donated. The District defines capital assets as assets with an initial individual cost of more than \$ 5,000 and an estimated useful life in excess of one year. Depreciation on all capital assets is charged to operations using the straight-line method over the assets' estimated service lives, ranging from 5 to 50 years.

The costs of normal maintenance and repairs that do not add to the value of the capital asset or materially extend its life are not capitalized.

In accordance with GASB No. 89, Accounting for Interest Cost Incurred before the End of a Construction Period, interest costs incurred during the construction phase of capital assets is expensed as incurred.

Deferred outflows/inflows of resources: In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then.

The District has three items that qualify for reporting in this category. The first is a deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on refunding results from the results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The second item is deferred outflows related to pensions and is discussed in further detail in Note 8. The third item is the deferred outflows related to OPEB and is discussed in further detail in Note 10.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The District has two items that qualify for reporting in this category. The first item is deferred inflows related to pensions and is discussed in further detail in Note 8. The second item is deferred inflows related to OPEB and is discussed in further detail in Note 10.

Net position: Net position is classified in three categories. The general meaning of each is as follows:

- a. Net investment in capital assets consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds or other borrowings that are attributable to the acquisition, construction or improvement of those assets.
- b. Restricted consists of net position with constraints placed on their use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments, or 2) law through constitutional provisions or enabling legislation.
- c. Unrestricted all other net position that does not meet the definition of "restricted" or "net investment in capital assets."

Fund Balance: The District follows GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions. This statement requires that governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

<u>Nonspendable</u>: This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact.

<u>Restricted</u>: This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation. Debt service resources are to be used for future servicing of the bonds and are restricted through debt covenants.

<u>Committed</u>: This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the District Board of Supervisors (the "Board"). These amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same type of action (ordinance or resolution) that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements.

<u>Assigned</u>: This classification includes amounts that are constrained by the District's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the Board or through the Board delegating this responsibility to the District manager through the budgetary process. This classification also includes the remaining positive fund balance for all governmental funds except for the General Fund.

<u>Unassigned</u>: This classification includes the residual fund balance for the General Fund.

When the District has expenditures for which committed, assigned or unassigned fund balance is available, the District would consider committed funds to be spent first, then assigned funds and lastly unassigned funds.

Property tax calendar (assessments): District assessments are certified with the Broward County Property Appraiser and collected by the Broward County Tax Collector. The key dates in the property tax cycle are as follows:

Preceding Fiscal Year:

Enforceable lien date January 1
Tax roll validated June 1 and July 1
Taxes levied November 1

Current Fiscal Year:

Beginning of fiscal year for which
Assessments have been levied
Property tax bills rendered
Property tax bill due date
Delinquent tax lien
Tax certificates sold

October 1
Prior to November 1
March 31
On or before June 1

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Date of management review: Subsequent events were evaluated by management through March 23, 2023, which is the date the financial statements were available for issuance.

Note 3 - Deposits and Investments

Deposits: The District's deposits must be placed with banks and savings and loans which are qualified as public depositories prior to receipt of public monies under Chapter 280, Florida Statutes. As of September 30, 2022, all deposits are insured by the FDIC up to \$ 250,000. Monies deposited in amounts greater than the insurance coverage are secured by the banks pledging securities with the State Treasurer in the collateral pool.

At year end, the carrying amount of the District's bank deposits was \$ 19,685,486 and the bank balance was \$ 19,636,064. In addition, the District had \$ 1,300 in petty cash.

Investments: The investment of funds is authorized by Florida Statutes, which allows the District to invest in the Local Government Surplus Funds Trust or any intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperation Act, SEC registered money market funds with the highest credit quality rating, interest-bearing time deposits or savings accounts in qualified public depositories and direct obligations of the United States Treasury. Certain investments are governed by Bond Indentures.

Investments as of September 30, 2022 were as follows:

Investment	Reported Amount - Fair Value or Amortized Cost	Maturity					
Money Market Mutual Funds	\$ 30,085,649	N/A					
State Board of Administration: Florida Prime	295,296	Weighted average days to maturity is 21 days					
Total	\$ 30,380,945						

Credit risk: Florida Statutes require the money market mutual funds held by the District to have the highest credit quality rating from a nationally recognized rating agency. The money market mutual funds held by the District are rated "AAAm" by Standard and Poor's and "Aaa-mf" by Moody's Investors Service. The Florida Prime is rated AAAm by Standard and Poor's.

Interest rate risk: Florida Statutes state that the investment portfolio be structured in such a manner as to provide sufficient liquidity to pay obligations as they come due. The District's investments are not subject to interest rate risk.

Custodial credit risk: For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. None of the District's investments are subject to custodial credit risk.

Note 3 - Deposits and Investments (continued)

Restricted cash and investments: The governmental funds maintain cash and investments restricted for the following purposes:

Capital outlay \$ 10,225,391 Future debt service 7,452,913

Total restricted cash, cash equivalents and investments \$ 17,678,304

The proprietary fund maintains investments restricted for the following purposes:

Future debt service \$ 7,185,323 Construction \$ 4,007,779 Renewal and replacement of capital assets 1,469,937

Total restricted cash, cash equivalents and investments \$ 12,663,039

Note 8 - Florida Retirement System

As provided by Chapters 121 and 112, Florida Statutes, the Florida Retirement System ("FRS") provides two cost sharing, multiple employer defined benefit plans administered by the Florida Department of Management Services, Division of Retirement, including the FRS Pension Plan ("Pension Plan") and the Retiree Health Insurance Subsidy ("HIS Plan") and a defined contribution pension plan ("Investment Plan") (see Note 9). As a general rule, membership in the FRS is compulsory for all employees working in a regularly established position for a state agency, county government, district school board, state university, community college, or a participating city or special district within the State of Florida. The FRS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefits are established by Chapter 121, Florida Statutes, and Chapter 60S, Florida Administrative Code. Amendments to the law can be made only by an act of the Florida State Legislature.

State of Florida annually issues a publicly available financial report that includes financial statements and required supplementary information for the FRS. The latest available report may be obtained by writing to the State of Florida Division of Retirement, Department of Management Services, P.O. Box 9000, Tallahassee, Florida 32315-9000, or by calling (877) 377-1737 or by visiting the Web site: www.dms.myflorida.com/workforce operations/retirement/publications.

Pension Plan

<u>Plan Description</u> - The Pension Plan is a cost-sharing multiple-employer defined benefit pension plan, with a Deferred Retirement Option Program ("DROP") for eligible employees.

Benefits Provided - Benefits under the Pension Plan are computed on the basis of age, average final compensation, and service credit. For Pension Plan members enrolled before July 1, 2011, Regular class members who retire at or after age 62 with at least six years of creditable service or 30 years of service regardless of age are entitled to a retirement benefit payable monthly for life, equal to 1.6% times years of service times final average compensation based on the five highest years of salary. Vested members with less than 30 years of service may retire before age 62 and receive reduced retirement benefits. Special Risk Administrative Support class members who retire at or after age 55 with at least six years of creditable service or 25 years of service regardless of age are entitled to a retirement benefit payable monthly for life, equal to 1.6% times years of service times final average compensation based on the five highest years of salary.

Special Risk class members (sworn law enforcement officers, firefighters, and correctional officers) who retire at or after age 55 with at least six years of credited service, or with 25 years of service regardless of age, are entitled to a retirement benefit payable monthly for life, equal to 3.0% times the years of service times their final average compensation based on the five highest years of salary for each year of creditable service. Senior Management Service class members who retire at or after age 62 with at least six years of creditable service or 30 years of service regardless of age are entitled to a retirement benefit payable monthly for life, equal to 2.0% times the years of service times their final average compensation based on the five highest years of salary for each year of creditable service. Elected Officers' class members who retire at or after age 62 with at least six years of credited service or 30 years of service regardless of age are entitled to a retirement benefit payable monthly for life, equal to 3.0% times the years of service (3.33% for judges and justices) times their final average compensation based on the five highest years of salary for each year of creditable service.

For Plan members enrolled on or after July 1, 2011, the vesting requirement is extended to eight years of creditable service for all these members and increasing normal retirement to age 65 or 33 years of service regardless of age for Regular, Senior Management Service, and Elected Officers' class members, and to age 60 or 30 years of service regardless of age for Special Risk and Special Risk Administrative Support class members. Also, the final average compensation for all these members will be based on the eight highest years of salary.

As provided in Section 121.101, Florida Statutes, if the member is initially enrolled in the Pension Plan before August 1, 2011, the annual cost-of living adjustment is three percent per year. The COLA formula for retirees with an effective retirement date or DROP begin date on or after August 1, 2011, will be the sum of the pre-July 2011 service credit divided by the total service credit at retirement multiplied by 3 percent. Plan members initially enrolled on or after July 1, 2011, will not have a cost-of-living adjustment after retirement.

In addition to the above benefits, the DROP program allows eligible members to defer receipt of monthly retirement benefit payments while continuing employment with a FRS employer for a period not to exceed 60 months after electing to participate. Deferred monthly benefits are held in the FRS Trust Fund and accrue interest. There are no required contributions by DROP participants.

Contributions - Effective July 1, 2011, all enrolled members of the FRS, other than DROP participants, are required to contribute three percent of their salary to the FRS. In addition to member contributions, governmental employers are required to make contributions to the FRS based on state-wide contribution rates established by the Florida Legislature. These rates are updated as of July 1 of each year. The employer contribution rates by job class for the periods from October 1, 2021 through June 30, 2022 and from July 1, 2022 through September 30, 2022, respectively, were as follows: Regular - 10.82% and 11.91%; Special Risk Administrative Support - 37.76% and 38.65%; Special Risk - 25.89% and 27.83%; Senior Management Service - 29.01% and 31.57%; Elected Officers' - 51.42% and 57.00%; and DROP participants - 18.34% and 18.60%. These employer contribution rates include 1.66% HIS Plan subsidy for both the periods October 1, 2021 through June 30, 2022 and from July 1, 2022 through September 30, 2022.

HIS Plan:

<u>Plan Description</u> - The HIS Plan is a cost-sharing multiple-employer defined benefit pension plan established under Section 112.363, Florida Statutes, and may be amended by the Florida legislature at any time. The benefit is a monthly payment to assist retirees of State-administered retirement systems in paying their health insurance costs and is administered by the Florida Department of Management Services, Division of Retirement.

<u>Benefits Provided</u> - For the fiscal year ended September 30, 2022, eligible retirees and beneficiaries received a monthly HIS payment of \$ 5 for each year of creditable service completed at the time of retirement, with a minimum HIS payment of \$ 30 and a maximum HIS payment of \$ 150 per month. To be eligible to receive these benefits, a retiree under a State-administered retirement system must provide proof of health insurance coverage, which may include Medicare.

<u>Contributions</u> - The HIS Plan is funded by required contributions from FRS participating employers as set by the Florida Legislature. Employer contributions are a percentage of gross compensation for all active FRS members. For the fiscal year ended September 30, 2022, the HIS contribution was 1.66%. The District contributed 100% of its statutorily required contributions for the current and preceding five years. HIS Plan contributions are deposited in a separate trust fund from which payments are authorized. HIS Plan benefits are not guaranteed and are subject to annual legislative appropriation. In the event legislative appropriation or available funds fail to provide full subsidy benefits to all participants, benefits may be reduced or cancelled.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - At September 30, 2022, the District reported liabilities of \$3,966,392 for its proportionate share of the Pension Plan's net pension liability and \$1,076,260 for the HIS Plan's net pension liability for a total pension liability of \$5,042,652. The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2022. At June 30, 2022, the District's proportionate share was .010660042 percent for the Pension Plan and .010161448 percent for the HIS Plan, which was an increase of .000635236 percent and an increase of .000411085 percent respectively, from the proportionate share measured as of June 30, 2022.

For the year ended September 30, 2022, the District recognized pension expense of \$722,246 for the Pension plan and \$188,846 for the HIS plan for a total pension expense of \$911,092. At September 30, 2022, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Description	Deferred Outflows of Resources					ırces
		Pension Plan		HIS Plan	_	Total
Difference between expected and actual experience Changes of assumptions Net difference between project and actual earnings on pension plan	\$	188,381 488,478	\$	32,667 61,692	\$	221,048 550,170
investments Changes in proportion and differences between District contributions and		261,900		1,558		263,458
proportionate share of contributions District contributions subsequent to		241,514		87,596		329,110
the measurement date	_	134,012	_	16,731	_	150,743
Total	\$_	1,314,285	\$_	200,244	\$_	1,514,529
Description			rred I	nflows of Re	esou	rces
	_	Pension Plan	_	HIS Plan	_	Total
Difference between expected and actual experience Changes of assumptions Changes in proportion and differences between District contributions and	\$	-	\$	4,736 166,497	\$	4,736 166,497
proportionate share of contributions	_	66,085	_	54,079	_	120,164
Total	\$_	66,085	\$	225,312	\$_	291,397

Deferred outflows of resources related to employer contributions paid subsequent to the measurement date and prior to the employer's fiscal year end will be recognized as a reduction of the net pension liability in the subsequent reporting period ending September 30, 2023. The amounts reported as deferred outflows of resources and deferred inflows of resources related to the FRS Plan will be recognized in pension expense as follows:

_	Year Ended September 30,	_	Pension Plan		HIS Plan	_	Total
_	2023 2024 2025	\$ \$ \$	296,212 118,561 (55,472)	\$ \$ \$	16,754 (10,411) (10,462)	\$	312,966 108,150 (65,934)
	2026	\$	703,368	\$	(11,990)	\$	691,378
	2027	\$	51,519	\$	(18,204)	\$	33,315
	Thereafter	Ś	-	Ś	(7,486)	Ś	(7,486)

Actuarial Assumptions - The Florida Retirement System Actuarial Assumption Conference is responsible for setting the assumptions used in the funding valuations of both pension plans pursuant to section 216.136 (10), Florida Statutes. The Pension Plan's valuation is performed annually. The HIS Plan has a valuation performed biennially that is updated for GASB reporting in the year a valuation is not performed. The most recent experience study for the Pension Plan was completed in 2019 for the period July 1, 2013, through June 30, 2018. Because the HIS Plan is funded on a pay-as-you-go basis, no experience study has been completed for that program. The actuarial assumptions that determined the total pension liability for the HIS Plan were based on certain results of the most recent experience study for the Pension Plan. The total pension liability in the June 30, 2022 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	Pension Plan	HIS Plan
Inflation Salary Increase Investment rate of return	2.40%3.25%, average, including inflation6.70%, net of pension plan investment expense, including inflation	2.40% 3.25%, average, including inflation N/A
Actuarial cost method	Individual entry age	Individual entry age
Mortality table	PUB-2010 with Projection Scale MP-2018	PUB-2010 with Projection Scale MP-2018

<u>Long-term Expected Rate of Return</u> - The long-term expected rate of return on Pension Plan investments was not based on historical returns, but instead is based on a forward-looking capital market economic model. The allocation policy's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions and includes an adjustment for the inflation assumption.

The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation (1)	Annual Arithmetic Return	Compound Annual (Geometric) Return	Standard Deviation
Cash	1.0%	2.6%	2.6%	1.1%
Fixed income	19.8%	4.4%	4.4%	3.2%
Global equity	54.0%	8.8%	7.3%	17.8%
Real estate property	10.3%	7.4%	6.3%	15.7%
Private equity	11.1%	12.0%	8.9%	26.3%
Strategic investments	3.8%	6.2%	5.9%	7.8%
Total	100%			
Assumed Inflation - Mean			2.4%	1.3%

⁽¹⁾ As outlined in the Pension Plan's investment policy

<u>Discount Rate</u> - The discount rate used to measure the total pension liability was 6.70% for the pension plan. The pension Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return.

The discount rate used to measure the total pension liability was 3.54% for the HIS Plan. In general, the discount rate for calculating the HIS Plan's total pension liability is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS Plan benefit is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate, and the municipal bond rate of 3.54% was used to determine the total pension liability. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index.

Sensitivity of the District's Proportionate Share of the Net Position Liability to Changes in the Discount Rate - The following table presents the sensitivity of the District's proportionate share of the net pension liability (asset) to changes in the discount rate. The sensitivity analysis, below, shows the impact to the District's proportionate share of the net pension liability if the discount rate was 1.00% lower or 1.00% higher than the current discount rate at June 30, 2022:

	1% Decrease (5.70%)	Current Discount Rate (6.70%)	1% Increase (7.70%)
District's proportionate share of the net pension liability (asset) for Pension Plan	\$ 6,859,602	\$ 3,966,392	\$ 1,547,324

	1% Decrease (2.54%)	Current Discount Rate (3.54%)	-	1% Increase (4.54%)
District's proportionate share of the net pension liability for HIS Plan	\$ <u>1,231,329</u>	\$ _ 1,076,260	\$_	947,943

Note 9 - Defined Contribution Plans

Section 457(b) Plan

The District has a money purchase contribution plan qualified under Section 457(b) of the Internal Revenue Code. The plan is administered by an independent trustee. No contributions are made by the District to this plan.

Investment Plan

The District offers to its employees a defined contribution pension plan, as a part of the Florida Retirement System (Note 8). The SBA (State Board Administration) administered the defined contribution plan officially titled the FRS Investment Plan. The Investment Plan is reported in the SBA's annual financial statements and in the State of Florida Annual Comprehensive Financial Report.

As provided in Section 121.4501, Florida Statutes, eligible FRS members may elect to participate in the Investment Plan in lieu of the FRS Defined Benefit Plan. District employees participating in DROP are not eligible to participate in the Investment Plan. Employer and employee contributions, including amounts contributed to individual members' accounts, are defined by law, but the ultimate benefit depends, in part, on the performance of investment funds. Benefit terms, including contribution requirements, for the Investment Plan are established and may be amended by the Florida Legislature. The Investment Plan is funded with the same employer and employee contribution rates that are based on salary and membership class, as the Pension Plan. Contributions are directed to individual member accounts, and the individual members allocate contributions and account balances among various approved investment choices. Costs of administering the Investment Plan, including the FRS Financial Guidance Program, are funded through an employer contribution of 0.06 percent of payroll and by forfeited benefits of plan members. Allocations to the investment members' accounts during the 2021-2022 fiscal year, as established by Section 121.72, Florida Statutes, are based on percentage of gross compensation, by class, as follows:

Class	Allocated Rate
Elected Officials	14.34%
Senior Management	10.67%
Special Risk	17.00%
Regular Employees	9.30%

Note 9 - Defined Contribution Plans (continued)

For all membership classes, employees are immediately vested in their own contributions and are vested after one year of service for employer contributions and investment earnings. If an accumulated benefit obligation for service credit originally earned under the Pension Plan vesting is transferred to the Investment Plan, the member must have the years of service required for Pension Plan vesting (including the service credit represented by the transferred funds) to be vested for these funds and the earnings on these funds. Non-vested employer contributions are placed in a suspense account for up to five years. If the employee returns to FRS-covered employment within the five-year period, the employee will regain control over his or her account. If the employee does not return within the five-year period, the employee will forfeit the accumulated account balance. For the fiscal year ended September 30, 2022, the information for the amount of forfeitures was unavailable from the SBA; however, management believes that these amounts, if any, would be immaterial to the District.

After termination and applying to receive benefits, the member may rollover vested funds to another qualified plan, structure a periodic payment under the Investment Plan, receive a lump-sum distribution, leave the funds invested for future distribution, or any combination of these options. Disability coverage is provided; the member may either transfer the account balance to the Pension Plan when approved for disability retirement to receive guaranteed lifetime monthly benefits under the Pension Plan, or remain in the Investment Plan and rely upon that account balance for retirement income.

The District's pension expense for the Investment Plan totaled \$ 117,418 for the year ended September 30, 2022.

Note 10 - Post-Employment Benefits

Plan Description - The District provides post-employment health insurance benefits, also known as other post-employment benefits ("OPEB") to its retired employees through a single-employer plan administered by the District. Pursuant to the provisions of Section 112.0801, Florida Statutes, former employees who retire from the District or its major component unit and eligible dependents may continue to participate in the District's fully-insured benefit plan for medical insurance coverage. The District subsidizes the premium rates paid by retirees by allowing them to participate in the plan at reduced or blended group (implicitly subsidized) premium rates for both active and retired employees. These rates provide an implicit subsidy for retirees because, on an actuarial basis, their current and future claims are expected to result in higher costs to the plan on average than those of active employees. The benefits provided under this defined benefit plan are provided until the retiree's attainment of age 62 (or until such time at which retiree discontinues coverage under the District sponsored plans, if earlier). There are no plan assets accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75 and as a result, there is no separate financial report issued.

Funding Policy: Currently, the District's OPEB benefits are unfunded. That is, the District has not determined if a separate Trust Fund or equivalent arrangement will be established into which the District would make contributions to advance-fund the obligation. Current and future retirees will be required to pay 100% of the blended premium to continue coverage under the District's group health insurance program.

Discount Rate

Note 10 - Post-Employment Benefits (continued)

The following table provides a summary of the number of participants in the plan as of the measurement date:

Inactive plan members or beneficiaries	
currently receiving benefits	3
Inactive plan members entitled to but	
not yet receiving benefits	-
Active plan members	52
Total plan members	55

Actuarial Methods and Assumptions: The actuarial valuation of the calculation of OPEB involves estimates of the value of reported amounts and assumptions about the probability of events in the future. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the District and plan members) and include the types of benefits in force at the valuation date. Actuarial calculations reflect a long-term perspective and employ methods and assumptions that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets.

The total OPEB liability at September 30, 2022 was based on an actuarial valuation dated October 1, 2020 with a measurement date of September 30, 2021 using the following actuarial assumptions:

2 43%

Discoulit Nate	2.43/0
Salary Increases	3.00%
Retirement Age	Earlier of any age with at least 30 years of service or age 62 with at least 6 years of service
Mortality	Sex-distinct rates set forth in the PUB-2010 Mortality Table (without income adjustments) for general employees with full generational improvements in mortality using Scale MP-2020
Healthcare Cost Trend Rates	Trend rates for 2021 assumed to be 6.50%, graded down by 0.50% per year, decreasing to an ultimate trend rate of 5.00% for the 2023/24 and later fiscal years
Aging Factors	Healthcare costs are assumed to increase at the rate of 3.50% for each year of age

Discount Rate: The discount rate used to measure the total OPEB liability at September 30, 2021 was 2.43%. Because the District's OPEB costs are funded on a pay-as-you-go funding structure, the discount rate was based on the S&P Municipal Bond 20-year High Grade Index as of the measurement date.

Note 10 - Post-Employment Benefits (continued)

Total OPEB Liability of the District: The components of the District's net OPEB liability at September 30, 2022, are as follows:

Total OPEB liability OPEB Plan fiduciary net position	\$	710,176 -
District's net OPEB liability	\$ _	710,176
OPEB Plan fiduciary net position as a percentage of total OPEB liability		0.00%

Changes in Total OPEB Liability

Measurement year ended September 30, 2021

Total OPEB liability: Service cost Interest on total OPEB liability Demographic experience Benefit payments Assumption changes	\$ 85,021 21,340 (15,342) (8,033) (169,981)
Net change in total OPEB liability	(86,995)
Total OPEB liability, beginning	797,171
Total OPEB liability, ending	\$ 710,176

Sensitivity of Net OPEB Liability to Changes in the Discount Rate: The following table presents the total OPEB liability, calculated using a discount rate of 2.43%, as well as what the District's total OPEB liability would be if it were calculated using a discount rate that is one percentage-point lower or one percentage-point higher than the current discount rate:

				Current	
		1%		Discount	1%
		Decrease		Rate	Increase
		(1.43%)		(2.43%)	(3.43%)
Total OPEB Liability	\$ <u></u>	781,614	\$_	710,176	\$ 645,712

Sensitivity of Net OPEB Liability to Changes in the Healthcare Cost Trends Rate: The following table presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using a healthcare cost trend rate that is one percentage-point lower or one percentage-point higher than the current trend rate:

		1% Trend		Trend Rate	1% Trend
		Decrease		Assumption	Increase
		5.50%		6.50%	7.50%
		Decreasing		Decreasing	Decreasing
	_	to 4.00%	,	to 5.00%	to 6.00%
Total OPEB Liability	\$_	612,976	\$	710,176	\$ 827,092

Note 10 - Post-Employment Benefits (continued)

OPEB Expense and Deferred Outflows and Deferred Inflows of Resources Related to OPEB: For the year ended September 30, 2022, the District recognized OPEB expense of \$60,512. At September 30, 2022, the District has deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

		Deferred Outflows of Resources		Deferred Inflows of Resources
Assumption changes	\$	122,708	\$	200,040
Demographic experience	,		_	295,827
Total	\$	122,708	\$_	495,867

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Fiscal Year Ending September 30,		
2023 2024 2025 2026 2027 Thereafter	\$	(37,816) (37,816) (37,816) (37,816) (37,816) (184,079)
	\$.	(373,159)

Note 11 - Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the District carries commercial insurance.

Claims, expenditures and liabilities would have been reported if it were probable that a loss in excess of policy limits had occurred and the amount of that loss could be reasonably estimated.

Note 12 - Related Party Transactions

The District entered into various design, engineering, and construction activities. The company handling the transactions is owned by an employee of the District, which was allowed by Florida statute. The fees charged were deemed normal and customary by the Board.

Note 13 - Subsequent Events

On January 5, 2023, the District sold property located in Heron Bay Golf Course to the City of Parkland, a public corporation of the State of Florida, in the amount of \$25,410,000 which resulted in recording a gain on sale of approximately \$15,432,000.

On January 10, 2023, the District used the proceeds from the sale of the Heron Bay Golf Course property to pay off its Series 2021 Water and Sewer Revenue Bond in the Enterprise Fund in the amount of approximately \$ 9,133,000 ahead of scheduled maturity. Consequently, this resulted in no longer needing to make the principal and interest payments and avoid raising water and sewer rates to meet the rate covenant requirement of 120%.

OTHER REPORTS OF INDEPENDENT AUDITORS

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Board of Supervisors
North Springs Improvement District

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of North Springs Improvement District (the "District"), as of and for the year ended September 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated March 23, 2023.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

BEST PLACES TO WORK

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT TO DISTRICT MANAGEMENT

The Board of Supervisors
North Springs Improvement District

Report on the Financial Statements

We have audited the financial statements of North Springs Improvement District (the "District"), as of and for the fiscal year ended September 30, 2022, and have issued our report thereon dated March 23, 2023.

Auditor's Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and Chapter 10.550, Rules of Auditor General.

Other Reporting Requirements

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of the Financial Statements Performed in accordance with *Government Auditing Standards* and Independent Accountant's Report on an examination conducted in accordance with *AICPA Professional Standards*, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports, which are dated March 23, 2023, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.554(1)(i)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. There were no findings and recommendations made in the preceding annual financial audit report.

Official Title and Legal Authority

Section 10.554(1)(i)4., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. North Springs Improvement District was established under the laws of the State of Florida in Chapter 70-617, as amended. The District does not have any component units.

SOUTH FLORIDA BUSINESS TOURNAL

Financial Condition and Management

Section 10.554(1)(i)5.a. and 10.556(7), Rules of the Auditor General, require us to apply appropriate procedures and communicate the results of our determination as to whether or not the District has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and to identify the specific condition(s) met. In connection with our audit, we determined that the District did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.554(1)(i)5.b. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures for the District. It is management's responsibility to monitor the District's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Specific Information

As required by Section 218.39(3)(c), Florida Statutes, and Sections 10.554(1)(i)6 and 10.554(1)(i)7, Rules of the Auditor General, the District reported the specific information in Exhibit 1 accompanying this report. The information for compliance with Section 218.39(3)(c), Florida Statutes and Sections 10.554(1)(i)6 and 10.554(1)(i)7, Rules of the Auditor General, has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Monthly Financial Statements

Section 10.554(1)(i)9.a and 10.556(9), Rules of the Auditor General, require us to apply appropriate procedures and communicate the results of our determination as to whether or not the District provided monthly financial statement(s) to its governing board and made such monthly statement(s) available for public access on its Web site. In connection with our audit, we determined that the District provided monthly financial statement(s) to its governing board and made such monthly statement(s) available for public access on its Web site.

Transparency

Section 10.554(1)(i)9.b. and 10.556(9), Rules of the Auditor General, require us to apply appropriate procedures and communicate the results of our determination as to whether the District provided a link on its Web site to the Florida Department of Financial Service's Web site to view the District's annual financial report submitted to the Department. In connection with our audit, we determined that the District provided a link on its Web site to the Florida Department of Financial Service's Web site.

Section 10.554(1)(i)9.c. and 10.556(9), Rules of the Auditor General, require us to apply appropriate procedures and communicate the results of our determination as to whether the District posted its tentative and final budgets on its Web site. In connection with our audit, we determined that the District posted its tentative and final budgets on its Web site.

Additional Matters

Section 10.554(1)(i)3., Rules of the Auditor General, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but warrants the attention of those charged with governance. In connection with our audit, we did not have any such findings.

Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, the Board of Supervisors, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT ACCOUNTANT'S REPORT ON COMPLIANCE WITH SECTION 218.415, FLORIDA STATUTES

The Board of Supervisors
North Springs Improvement District

We have examined North Springs Improvement District's (the "District") compliance with the requirements of Section 218.415, Florida Statutes, *Local Government Investment Policies*, during the year ended September 30, 2022. Management is responsible for the District's compliance with the specific requirements. Our responsibility is to express an opinion on the District's compliance with the specific requirements based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the District complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether the District complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Our examination does not provide a legal determination on the District's compliance with the specified requirements.

In our opinion, the District complied, in all material respects, with the aforementioned requirements for the year ended September 30, 2022.

This report is intended solely for the information and use of management and the State of Florida Auditor General and is not intended to be and should not be used by anyone other than these specified parties.
